If the judicial or administrative remedy sought by the facility is not granted after all appeals are exhausted or mutually terminated, the facility shall make payment of such amounts due plus interest accrued from the date of filing of the appeal, as payable on judgments, within sixty days of the date such decision is made. (2) Start-up costs shall include, but not be limited to, administrative and nursing salaries, utility costs, taxes, insurance, repairs and maintenance, and training; except, that they shall exclude expenditures for capital assets. Where costs to the related organization represent joint facility costs, the measurement of such costs shall comply with RCW 74.46.270.

(4) A copy of the agreement must be received by the department at least sixty days before it is to become effective. A copy of any amendment to a management agreement must also be received by the department at least thirty days in advance of the date it is to become effective. 74.46.420 Principles of rate setting. The following principles are inherent in RCW 74.46.430 through 74.46.590:

(1) Reimbursement rates will be set prospectively on a per patient day basis on a two-year cycle corresponding to each state biennium; and

(2) The rates, in the nursing services, food, administrative, and operational cost centers, shall be adjusted downward or upward when set effective July 1 of the first fiscal year of the two-year rate-setting cycle and adjusted again downward or upward effective July 1 of the second fiscal year of the rate-setting cycle for economic trends and conditions.

(3) The July 1 rates for the first year of each biennium shall be adjusted by the change in the implicit price deflator for personal consumption expenditures index published by the bureau of labor statistics of the United States department of labor. The period used to measure the increase or decrease to be applied to these first year biennial rates shall be the calendar year preceding the July 1 commencement of the state biennium.

(4) The July 1 rates for the second year of each biennium shall be adjusted by the change in the nursing home input price index without capital costs published by the

health care financing administration of the department of health and human services, HCFA index, however, any increase shall be multiplied by one and one-half. The period used to measure the HCFA index increase to be multiplied by one and one-half and applied or decrease to be applied to these second-year biennial rates shall also be the calendar year preceding the July 1 commencement of the state biennium: PROVIDED, However, That in the event the change in the HCFA index measured over the following calendar year, the one terminating six months after the start of the state biennium, is twenty-five percent greater or less than the change in the HCFA index measured over the calendar year preceding commencement of the state biennium, the department shall use the HCFA index increase multiplied by one and one-half or decrease in such following calendar year to inflate or decrease nursing facilities' nursing services, food, administrative, and operational rates for July 1 of the second biennial year.

(5) If either the implicit price deflator index or the health care financing administration index ceases to be published in the future, the department shall select by rule and use in their place one or more measures of change from an alternate source or sources for the same or comparable time periods. [1993 1st sp.s. c 13 § 7; 1985 c 361 § 18; 1983 1st ex.s. c 67 § 18; 1980 c 177 § 42.]

74.46.430 Prospective reimbursement rates—Minimum hourly wages. (1) The department, as provided by this chapter, will determine prospective cost-related reimbursement rates for services provided to medical care recipients. Each rate so determined shall represent the contractor's maximum compensation within each cost center for each patient day for such medical care recipient.

(2) As required, the department may modify such maximum per patient day rates pursuant to the administrative review provisions of RCW 74.46.780.

(3) The maximum prospective reimbursement rates for the administrative, operational, and property cost centers, and the return on investment rate shall be established based upon a minimum facility occupancy level of eighty-five percent.

(4) All contractors shall be required to adjust and maintain wages for all employees to a minimum hourly wage of four dollars and seventy-six cents per hour beginning January 1, 1988, and five dollars and fifteen cents per hour beginning January 1, 1989. [1993 1st sp.s. c 13 § 8; 1987 2nd ex.s. c 1 § 2; 1987 c 476 § 2; 1983 1st ex.s. c 67 § 19; 1980 c 177 § 43.]

Effective date—1993 1st sp.s. c 13: See note following RCW 74.46.020.

74.46.450 Reimbursement rate for new contractor.

(1) Prospective reimbursement rates for a new contractor will be established within sixty days following receipt by the department of the properly completed projected budget required by RCW 74.46.670. Such reimbursement rates will become effective as of the effective date of the contract and shall remain in effect until adjusted or reset as provided in this chapter.

(2) Such reimbursement rates will be based on the contractor's projected cost of operations and on costs and payment rates of the prior contractor, if any, or of other contractors in comparable circumstances.

(3) If a properly completed budget is not received at least sixty days prior to the effective date of the contract, the department will establish preliminary rates based on the other factors specified in subsection (2) of this section. These preliminary rates will remain in effect until adjusted or reset as provided in this chapter.

(4) The department is authorized to develop policies and procedures in rule to address the computation of rates for the first and second fiscal years of each biennium, including steps necessary to prorate rate adjustments for economic trends and conditions as authorized in RCW 74.46.420, for contractors having less than twelve months of cost report data for the prior calendar year. [1993 1st sp.s. c 13 § 9; 1983 1st ex.s. c 67 § 20; 1980 c 177 § 45.]

Effective date—1993 1st sp.s. c 13: See note following RCW 74.46.020.

74.46.460 Rate determination or adjustment—

When—Basis. (1) Each contractor's reimbursement rates will be determined or adjusted prospectively at least once each calendar year, as provided in this chapter, to be effective July 1st. Provided, that a contractor's rate for the first fiscal year of each biennium must be established upon its own prior calendar period report of at least six months of cost data.

(2) Rates may be adjusted as determined by the department to take into account variations in the distribution of patient classifications or changes in patient characteristics from the prior reporting year, program changes required by the department, or changes in staffing levels at a facility required by the department. Rates may also be adjusted to cover costs associated with placing a nursing home in receivership which costs are not covered by the rate of the former contractor, including: Compensation of the receiver, reasonable expenses of receivership and transition of control, and costs incurred by the receiver in carrying out court instructions or rectifying deficiencies found. Rates shall be adjusted for any capitalized additions or replacements made as a condition for licensure or certification. Rates shall be adjusted for capitalized improvements done under RCW 74.46.465. 74.46.470 Cost centers. (1) A contractor's reimbursement rates for medical care recipients will be determined utilizing net invested funds and desk-reviewed cost report data within the following cost centers:

- (a) Nursing services;
- (b) Food;
- (c) Administrative;
- (d) Operational; and

(e) Property.

(2) There shall be for the time period January 1988 through June 1990 only an enhancement cost center established to reimburse contractors for specific legislatively authorized enhancements for nonadministrative wages and benefits to ensure that such enhancements are used exclusively for the legislatively authorized purposes. For purposes of settlement, funds appropriated to this cost center shall only be used for expenditures for which the legislative authorization is granted. Such funds may be used only in the following circumstances:

(a) The contractor has increased expenditures for which legislative authorization is granted to at least the highest level paid in any of the last three cost years, plus, beginning July 1, 1987, any percentage inflation adjustment as was granted each year under *RCW 74.46.495; and

(b) All funds shifted from the enhancement cost center are shown to have been expended for legislatively authorized enhancements.

(3) If the contractor does not spend the amount appropriated to this cost center in the legislatively authorized manner, then the amounts not appropriately spent shall be recouped at preliminary or final settlement pursuant to RCW 74.46.160.

(4) For purposes of this section, "nonadministrative wages and benefits" means wages and payroll taxes paid with respect to, and the employer share of the cost of benefits provided to, employees in job classes specified in an appropriation, which may not include administrators, assistant administrators, or administrators in training.

(5) Amounts expended in the enhancement cost center in excess of the minimum wage established under RCW 74.46.430 are subject to all provisions contained in this chapter. [1993 1st sp.s. c 13 § 11; 1987 c 476 § 4; 1983 1st ex.s. c 67 § 22; 1980 c 177 § 47.]

***Reviser's note:** RCW 74.46.495 was repealed by 1993 1st sp.s. c 13 § 19, effective July 1, 1993.

Effective date—1993 1st sp.s. c 13: See note following RCW 74.46.020.

74.46.481 Nursing services cost center reimbursement rate. (1) The nursing services cost center shall include for reporting and audit purposes all costs related to the direct provision of nursing and related care, including fringe benefits and payroll taxes for the nursing and related care personnel, and the cost of nursing supplies. The department shall adopt by administrative rule a definition of "related care". For rates effective after June 30, 1991, nursing services costs, as reimbursed within this chapter, shall not include costs of any purchased nursing care services, including registered nurse, licensed practical nurse, and nurse assistant services, obtained through service contract arrangement in excess of the amount of compensation paid for such hours of nursing care service had they been paid at the average hourly wage, including related taxes and benefits, for in-house nursing care staff of like classification at the same nursing facility, as reported in the most recent cost report period.

(2) The department shall adopt through administrative rules a method for establishing a nursing services cost center rate consistent with the principles stated in this section.

(3) Utilizing regression or other statistical technique, the department shall determine a reasonable limit on facility nursing staff taking into account facility patient characteristics. For purposes of this section, facility nursing staff refers to registered nurses, licensed practical nurses and nursing assistants employed by the facility or obtained through temporary labor contract arrangements. Effective January 1, 1988, the hours associated with the training of nursing assistants and the supervision of that training for nursing assistants shall not be included in the calculation of facility nursing staff. In selecting a measure of patient characteristics, the department shall take into account:

(a) The correlation between alternative measures and facility nursing staff; and

(b) The cost of collecting information for and computation of a measure.

If regression is used, the limit shall be set at predicted nursing staff plus 1.75 regression standard errors. If another statistical method is utilized, the limit shall be set at a level corresponding to 1.75 standard errors above predicted staffing computed according to a regression procedure. A regression calculated shall be effective for the entire biennium.

(4) No facility shall receive reimbursement for nursing staff levels in excess of the limit. However, nursing staff levels established under subsection (3) of this section shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan.

(5) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted nursing services cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Nursing services rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day nursing services cost from the prior report period or the median cost for the facility's peer group plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420. However, the per patient day peer group median cost plus twenty-five percent limit shall not apply to the nursing services cost center reimbursement rate only for the pilot facility especially designed to meet the needs of persons living with AIDS as defined by RCW 70.24.017 and specifically authorized for this purpose under the 1989 amendment to the Washington state health plan.

(6) If a nursing facility is impacted by the limit authorized in subsection (5) of this section, it shall not receive a prospective rate in nursing services for July 1, 1993, less than the same facility's prospective rate in nursing services as of June 30, 1993, adjusted by any increase in the implicit

price deflator for personal consumption expenditures, IPD index, as measured over the period authorized by RCW 74.46.420(3).

(7) A nursing facility's rate in nursing services for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 nursing services rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(8) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not.

(9) The department is authorized to determine on a systematic basis facilities with unmet patient care service needs. The department may increase the nursing services cost center prospective rate for a facility beyond the level determined in accordance with *subsection (6) of this section if the facility's actual and reported nursing staffing is one standard error or more below predicted staffing as determined according to the method selected pursuant to subsection (3) of this section and the facility has unmet patient care service needs: PROVIDED, That prospective rate increases authorized by this subsection shall be funded only from legislative appropriations made for this purpose during the periods authorized by such appropriations or other laws and the increases shall be conditioned on specified improvements in patient care at such facilities.

(10) The department shall establish a method for identifying patients with exceptional care requirements and a method for establishing or negotiating on a consistent basis rates for such patients.

(11) The department, in consultation with interested parties, shall adopt rules to establish the criteria the department will use in reviewing any requests by a contractor for a prospective rate adjustment to be used to increase the number of nursing staff. These rules shall also specify the time period for submission and review of staffing requests: PROVIDED, That a decision on a staffing request shall not take longer than sixty days from the date the department receives such a complete request. In establishing the criteria, the department may consider, but is not limited to, the following:

(a) Increases in debility levels of contractors' residents determined in accordance with the department's assessment and reporting procedures and requirements utilizing the minimum data set;

(b) Staffing patterns for similar facilities in the same peer group;

(c) Physical plant of contractor; and

(d) Survey, inspection of care, and department consultation results. [1993 1st sp.s. c 13 § 12; 1991 sp.s. c 8 § 16; 1990 c 207 § 1; 1987 c 476 § 5; 1983 1st ex.s. c 67 § 24.]

74.46.490 Food cost center reimbursement rate. (1)

The food cost center shall include for reporting purposes all costs for bulk and raw food and beverages purchased for the dietary needs of medical care recipients.

(2) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted food cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Food rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day food cost from the prior report period or the median cost for the facility's peer group plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) A nursing facility's food rate for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 food rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(4) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. 74.46.500 Administrative cost center reimbursement rate. (1) The administrative cost center shall include for cost reporting purposes all administrative, oversight, and management costs whether facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology. Such costs shall be identical to the cost report line item costs categorized under "general and administrative" in the "administration and operations" combined cost center existing prior to January 1, 1993, except for nursing supplies and purchased medical records.

(2) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted administrative cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Administrative rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day administrative cost from the prior report period or the median cost for the facility's peer group plus ten percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) A nursing facility's administrative rate for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 administrative rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(4) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not. [1993 1st sp.s. c 13 § 14; 1992 c 182 § 1; 1980 c 177 § 50.]

Effective date—1993 1st sp.s. c 13: See note following RCW 74.46.020.

74.46.505 Operational cost center. (1) The operational cost center shall include for cost reporting purposes all allowable costs of the daily operation of the facility not

included in nursing services and related care, food, administrative, or property costs, whether such costs are facility on-site or allocated in accordance with a department-approved joint-cost allocation methodology.

(2) Every two years when rates are set at the beginning of each new biennium, the department shall divide into two peer groups nursing facilities located in the state of Washington providing services to medicaid residents: (a) Those facilities located within a metropolitan statistical area as defined and determined by the United States office of management and budget or other applicable federal office and (b) those not located in such an area. The facilities in each peer group shall then be arrayed from lowest to highest by magnitude of per patient day adjusted operational cost from the prior report year, regardless of whether any such adjustments are contested by the nursing facility, and the median or fiftieth percentile cost for each peer group shall be determined. Operational rates for facilities within each peer group for the first year of the biennium shall be set at the lower of the facility's adjusted per patient day operational cost from the prior report period or the median cost for the facility's peer group plus twenty-five percent. This rate shall be reduced or inflated as authorized by RCW 74.46.420.

(3) A nursing facility's operational rate for the second year of each biennium shall be that facility's rate as of July 1 of the first year of that biennium reduced or inflated as authorized by RCW 74.46.420. The alternating procedures prescribed in this section for a facility's two July 1 operational rates occurring within each biennium shall be followed in the same order for each succeeding biennium.

(4) Median costs for peer groups shall be calculated initially as provided in this chapter on the basis of the most recent adjusted cost information available to the department prior to the calculation of the new rate for July 1 of the first fiscal year of each biennium, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs for peer groups shall be recalculated as provided in this chapter on the basis of the most recent adjusted cost information available to the department on October 31 of the first fiscal year of each biennium, and shall apply retroactively to the prior July 1 rate, regardless of whether the adjustments are contested or subject to pending administrative or judicial review. Median costs shall not be adjusted to reflect subsequent administrative or judicial rulings, whether final or not. [1993 1st sp.s. c 13 § 15.]

Effective date—1993 1st sp.s. c 13: See note following RCW 74.46.020.

74.46.510 Property cost center. (1) The property cost center rate for each facility shall be determined by dividing the sum of the reported allowable prior period actual depreciation, subject to RCW 74.46.310 through 74.46.380, adjusted for any capitalized additions or replacements approved by the department, and the retained savings from such cost center, as provided in RCW 74.46.180, by the total patient days for the facility in the prior period. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the property cost center rate shall be adjusted to anticipated patient day level.

[1993 RCW Supp—page 994]

(2) A nursing facility's property rate shall be rebased annually, effective July 1, in accordance with this section regardless of whether the rate is for the first or second year of the biennium.

(3) When a certificate of need for a new facility is requested, the department, in reaching its decision, shall take into consideration per-bed land and building construction costs for the facility which shall not exceed a maximum to be established by the secretary. [1993 1st sp.s. c 13 § 16; 1980 c 177 § 51.]

Effective date—1993 1st sp.s. c 13: See note following RCW 74.46.020.

Effective dates—1980 c 177: See RCW 74.46.901.

74.46.530 Return on investment rate—Review. (1) The department shall establish for each medicaid nursing facility a return on investment rate composed of two parts: A financing allowance and a variable return allowance. A facility's return on investment rate shall be rebased annually, effective July 1, in accordance with this section, regardless of whether the rate is for the first or second year of the biennium.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by .10, and dividing by the contractor's total patient days from the most recent cost report period. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to the anticipated patient day level.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, 74.46.370, and 74.46.380, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing patient care shall also be included. Subject to provisions and limitations contained in this chapter, for land purchased by owners or lessors before July 18, 1984, capitalized cost of land shall be the buyer's capitalized cost. For all partial or whole rate periods after July 17, 1984, if the land is purchased after July 17, 1984, capitalized cost shall be that of the owner of record on July 17, 1984, or buyer's capitalized cost, whichever is lower. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) In determining the variable return allowance:

(i) Every two years at the start of each new biennium, the department, without utilizing peer groups, will first rank all facilities in numerical order from highest to lowest according to their per patient day adjusted allowable costs for nursing services, food, administrative, and operational costs combined for the previous cost report period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than four percent, by the sum of the facility's nursing services, food, administrative, and operational rate components. The percentage amounts will be based on groupings of facilities according to the rankings prescribed in (i) of this subsection (1)(c). The percentages calculated and assigned will remain the same for the next variable return allowance paid in the second year of the biennium. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(d) The sum of the financing allowance and the variable return allowance shall be the return on investment rate for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(e) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment rate determined according to subsection (1)(d) of this section, the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, 1982, as determined by the department of general administration through an appraisal procedure, less accumulated depreciation on the lessor's assets since January 1, 1982, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subsection (1)(e)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment rate.

(iii) The return on investment rate determined according to subsection (1)(d) of this section or the alternate return on investment rate, whichever is greater, shall be the return on investment rate for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(f) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, if the lease is renewed or extended pursuant to a provision of the lease, the treatment provided in subsection (1)(e) of this section shall be applied except that in the case of renewals or extensions made subsequent to April 1, 1985, reimbursement for the annualized lease payment shall be no greater than the reimbursement for the annualized lease

payment for the last year prior to the renewal or extension of the lease.

(2) Each biennium, beginning in 1985, the secretary shall review the adequacy of return on investment rates in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. 75.12.210 Limitation on salmon fishing gear in Pacific Ocean. (1) Except as provided in subsection (2) of this section, it is unlawful to fish for or take salmon with gear other than troll gear or angling gear within the offshore waters or the waters of the Pacific Ocean over which the state has jurisdiction lying west of the following line: Commencing at the point of intersection of the international boundary line in the Strait of Juan de Fuca and a line drawn between the lighthouse on Tatoosh Island in Clallam County and Bonilla Point on Vancouver Island; thence southerly to the lighthouse on Tatoosh Island; thence southerly to the most westerly point of Cape Flattery; thence southerly along the state shoreline of the Pacific Ocean, crossing any river mouths at their most westerly points of land, to Point Brown at the entrance to Grays Harbor; thence southerly to Point Chehalis Light on Point Chehalis; thence southerly from Point Chehalis along the state shoreline of the Pacific Ocean to the Cape Shoalwater tower at the entrance to Willapa Bay; thence southerly to Leadbetter Point; thence southerly along the state shoreline of the Pacific Ocean to the inshore end of the North jetty at the entrance to the Columbia River; thence southerly to the knuckle of the South jetty at the entrance to said river.

(2) The director may authorize the use of nets for taking salmon in the waters described in subsection (1) of this section for scientific investigations. [1993 c 20 § 2; 1983 1st ex.s. c 46 § 60; 1957 c 108 § 3.]

Purpose—1993 c 20: "The purpose of this act is to correct references to a geographical landmark on Cape Shoalwater that no longer exists. Cape Shoalwater Light has been removed and a new tower has been constructed four hundred yards to the west. It is not intended that this act make any substantive change in the boundaries of the areas described in RCW 75.12.210 and 75.28.012 beyond the minor adjustment necessitated by the replacement of the landmark." [1993 c 20 § 1.]

Preamble—1957 c 108: "The state has a vital interest in the salmon resources of the Pacific Ocean both within and beyond the territorial limits of the state, in that a large number of such salmon spawn in its fresh water streams, migrate to the waters of the Pacific Ocean and, in response to their anadromous cycle, return to the fresh water streams to spawn.

Expansion of fishing for salmon by the use of nets in waters of the eastern Pacific Ocean, which has occurred in the past year, will result in a substantial depletion of salmon originating within the state because the salmon runs are intercepted before they separate to move in toward the rivers of their origin. Oregon, California and Canada, through their respective fisheries agencies, have likewise expressed a deep concern over this problem since portions of such salmon originate within their respective jurisdictions. Short of absolute prohibition, it appears to be presently impracticable to regulate salmon net fishing in such waters of the Pacific Ocean by any known scientific fisheries management techniques in order to insure adequate salmon escapement to the three Pacific Coast states and Canada, the reason being that salmon stocks and races are so commingled in such Pacific Ocean waters that they are indistinguishable as to origin until they enter the harbors, bays, straits and estuaries of the respective jurisdictions.

Canada, through its authorized officials, has proposed to prohibit its nationals from net fishing for salmon in Pacific Ocean waters provided the United States or the three Pacific Coast states apply such appropriate conservation measures to their respective citizens. Inasmuch as there is presently no congressional legislation prohibiting such fishing, and inasmuch as authorized officials of the state department of the United States have expressed a desire to have the states act in this area, the Pacific Marine Fisheries Commission has proposed and recommended appropriate legislation to the three Pacific Coast states to insure the survival of their valuable salmon resources." [1957 c 108 § 2. Formerly RCW 75.12.200.]

75.12.440 Hood Canal shrimp—Limitation on number of shrimp pots. (Effective January 1, 1994.) It is unlawful to use more than fifty shrimp pots while com-

mercially fishing for shrimp in that portion of Hood Canal lying south of the Hood Canal floating bridge. [1993 c 340 § 50; 1989 c 316 § 9; 1983 1st ex.s. c 31 § 2. Formerly RCW 75.28.134.]

The department of fish and wildlife, the department of ecology, and the department of natural resources shall jointly develop an informational brochure that describes when permits and any other authorizations are required for flood damage prevention and reduction projects, and recommends ways to best proceed through the various regulatory permitting processes. 75.20.050 Review of permit applications to divert or store water—Water flow policy. (Effective July 1, 1994.) It is the policy of this state that a flow of water sufficient to support game fish and food fish populations be maintained at all times in the streams of this state.

The director of ecology shall give the director notice of each application for a permit to divert or store water. The director has thirty days after receiving the notice to state his or her objections to the application. The permit shall not be issued until the thirty-day period has elapsed.

The director of ecology may refuse to issue a permit if, in the opinion of the director, issuing the permit might result in lowering the flow of water in a stream below the flow necessary to adequately support food fish and game fish populations in the stream.

The provisions of this section shall in no way affect existing water rights. [1993 1st sp.s. c 2 § 29; 1988 c 36 § 32; 1986 c 173 § 7; 1983 1st ex.s. c 46 § 71; 1955 c 12 § 75.20.050. Prior: 1949 c 112 § 46; Rem. Supp. 1949 § 5780-320.]

75.20.100 Hydraulic projects or other work—Plans and specifications—Approval—Criminal penalty—Emergencies. (Effective July 1, 1994.) In the event that any person or government agency desires to construct any form of hydraulic project or perform other work that will use, divert, obstruct, or change the natural flow or bed of any of the salt or fresh waters of the state, such person or government agency shall, before commencing construction or work thereon and to ensure the proper protection of fish life, secure the written approval of the department as to the adequacy of the means proposed for the protection of fish life. This approval shall not be unreasonably withheld. Except as provided in RCW 75.20.1001 and 75.20.1002, the department shall grant or deny approval within forty-five calendar days of the receipt of a complete application and notice of compliance with any applicable requirements of the state environmental policy act, made in the manner prescribed in this section. The applicant may document receipt of application by filing in person or by registered mail. A complete application for approval shall contain general plans for the overall project, complete plans and specifications of the proposed construction or work within the mean higher high water line in salt water or within the ordinary high water line in fresh water, and complete plans and specifications for the proper protection of fish life. The forty-five day requirement shall be suspended if (1) after ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project; (2) the site is physically inaccessible for inspection; or (3) the applicant requests delay. Immediately upon determination that the forty-five day period is suspended, the department shall notify the applicant in writing of the reasons for the delay. Approval is valid for a period of up to five years from date of issuance. The permittee must demonstrate substantial progress on construction of that portion of the project relating to the approval within two years of the date of issuance. If the department denies approval, the department shall provide the applicant, in writing, a statement of the specific reasons why and how the proposed project would adversely affect fish life. Protection of fish life shall be the only ground upon which approval may be denied or conditioned. Chapter 34.05 RCW applies to any denial of project approval, conditional approval, or requirements for project modification upon which approval may be contingent. If any person or government agency commences construction on any hydraulic works or projects subject to this section without first

having obtained written approval of the department as to the adequacy of the means proposed for the protection of fish life, or if any person or government agency fails to follow or carry out any of the requirements or conditions as are made a part of such approval, the person or director of the agency is guilty of a gross misdemeanor. If any such person or government agency is convicted of violating any of the provisions of this section and continues construction on any such works or projects without fully complying with the provisions hereof, such works or projects are hereby declared a public nuisance and shall be subject to abatement as such.

For the purposes of this section and RCW 75.20.103, "bed" shall mean the land below the ordinary high water lines of state waters. This definition shall not include irrigation ditches, canals, storm water run-off devices, or other artificial watercourses except where they exist in a natural watercourse that has been altered by man.

The phrase "to construct any form of hydraulic project or perform other work" shall not include the act of driving across an established ford. Driving across streams or on wetted stream beds at areas other than established fords requires approval. Work within the ordinary high water line of state waters to construct or repair a ford or crossing requires approval.

In case of an emergency arising from weather or stream flow conditions or other natural conditions, the department, through its authorized representatives, shall issue immediately upon request oral approval for removing any obstructions, repairing existing structures, restoring stream banks, or to protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written approval prior to commencing work. Conditions of an oral approval shall be reduced to writing within thirty days and complied with as provided for in this section. Oral approval shall be granted immediately upon request, for a stream crossing during an emergency situation.

This section shall not apply to the construction of any form of hydraulic project or other work which diverts water for agricultural irrigation or stock watering purposes authorized under or recognized as being valid by the state's water codes, or when such hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020. These irrigation or stock watering diversion and streambank stabilization projects shall be governed by RCW 75.20.103. [1993 1st sp.s. c 2 § 30; 1991 c 322 § 30; 1988 c 272 § 1; 1988 c 36 § 33; 1986 c 173 § 1; 1983 1st ex.s. c 46 § 75; 1975 1st ex.s. c 29 § 1; 1967 c 48 § 1; 1955 c 12 § 75.20.100. 75.20.1001 Hydraulic projects to repair 1990 flood damage—Processing applications. (Effective July 1, 1994.) The department shall process hydraulic project

applications submitted under RCW 75.20.100 or 75.20.103 within thirty days of receipt of the application. This requirement is only applicable for the repair and reconstruction of legally constructed dikes, seawalls, and other flood control structures damaged as a result of flooding or windstorms that occurred in November and December 1990. [1993 1st sp.s. c 2 § 31; 1991 c 322 § 12.]

75.20.103 Hydraulic projects for irrigation, stock watering, or streambank stabilization—Plans and specifications—Approval—Criminal penalty—Emergencies. (Effective July 1, 1994.) In the event that any person or government agency desires to construct any form of hydraulic project or other work that diverts water for agricultural irrigation or stock watering purposes, or when such hydraulic project or other work is associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020, and when such diversion or streambank stabilization will use, divert, obstruct, or change the natural flow or bed of any river or stream or will utilize any waters of the state or materials from the stream beds, the person or government agency shall, before commencing construction or work thereon and to ensure the proper protection of fish life, secure a written approval from the department as to the adequacy of the means proposed for the protection of fish life. This approval shall not be unreasonably withheld. Except as provided in RCW 75.20.1001 and 75.20.1002, the department shall grant or deny the approval within forty-five calendar days of the receipt of a complete application and notice of compliance with any applicable requirements of the state environmental policy act, made in the manner prescribed in this section. The applicant may document receipt of application by filing in person or by registered mail. A complete application for an approval shall contain general plans for the overall project, complete plans and specifications of the proposed construction or work within ordinary high water line, and complete plans and specifications for the proper protection of fish life. The forty-five day requirement shall be suspended if (1) after ten working days of receipt of the application, the applicant remains unavailable or unable to arrange for a timely field evaluation of the proposed project; (2) the site is physically inaccessible for inspection; or (3) the applicant requests delay.

Immediately upon determination that the forty-five day period is suspended, the department shall notify the applicant in writing of the reasons for the delay.

An approval shall remain in effect without need for periodic renewal for projects that divert water for agricultural irrigation or stock watering purposes and that involve seasonal construction or other work. Approval for streambank stabilization projects shall remain in effect without need for periodic renewal if the problem causing the need for the streambank stabilization occurs on an annual or more frequent basis. The permittee must notify the appropri-

ate agency before commencing the construction or other work within the area covered by the approval.

The permittee must demonstrate substantial progress on construction of that portion of the project relating to the approval within two years of the date of issuance. If the department denies approval, the department shall provide the applicant, in writing, a statement of the specific reasons why and how the proposed project would adversely affect fish life. Protection of fish life shall be the only ground upon which approval may be denied or conditioned. Issuance, denial, conditioning, or modification shall be appealable to the hydraulic appeals board established in RCW 43.21B.005 within thirty days of the notice of decision. The burden shall be upon the department to show that the denial or conditioning of an approval is solely aimed at the protection of fish life.

The department may, after consultation with the permittee, modify an approval due to changed conditions. The modifications shall become effective unless appealed to the hydraulic appeals board within thirty days from the notice of the proposed modification. The burden is on the department to show that changed conditions warrant the modification in order to protect fish life.

A permittee may request modification of an approval due to changed conditions. The request shall be processed within forty-five calendar days of receipt of the written request. A decision by the department may be appealed to the hydraulic appeals board within thirty days of the notice of the decision. The burden is on the permittee to show that changed conditions warrant the requested modification and that such modification will not impair fish life.

If any person or government agency commences construction on any hydraulic works or projects subject to this section without first having obtained written approval of the department as to the adequacy of the means proposed for the protection of fish life, or if any person or government agency fails to follow or carry out any of the requirements or conditions as are made a part of such approval, the person or director of the agency is guilty of a gross misdemeanor. If any such person or government agency is convicted of violating any of the provisions of this section and continues construction on any such works or projects without fully complying with the provisions hereof, such works or projects are hereby declared a public nuisance and shall be subject to abatement as such.

In case of an emergency arising from weather or stream flow conditions or other natural conditions, the department, through its authorized representatives, shall issue immediately upon request oral approval for removing any obstructions, repairing existing structures, restoring stream banks, or to protect property threatened by the stream or a change in the stream flow without the necessity of obtaining a written approval prior to commencing work. Conditions of an oral approval shall be reduced to writing within thirty days and complied with as provided for in this section.

For purposes of this chapter, "streambank stabilization" shall include but not be limited to log and debris removal, bank protection (including riprap, jetties, and groins), gravel removal and erosion control. 75.20.106 Hydraulic projects—Civil penalty. (Effective July 1, 1994.) The department may levy civil penalties of up to one hundred dollars per day for violation of any provisions of RCW 75.20.100 or 75.20.103. The penalty provided shall be imposed by notice in writing, either by certified mail or personal service to the person incurring the penalty, from the director or the director's designee describing the violation. Any person incurring any penalty under this chapter may appeal the same under chapter 34.05 RCW to the director. Appeals shall be filed within thirty days of receipt of notice imposing any penalty. The penalty imposed shall become due and payable thirty days after receipt of a notice imposing the penalty unless an appeal is filed. Whenever an appeal of any penalty incurred under this chapter is filed, the penalty shall become due and payable only upon completion of all review proceedings and the issuance of a final order confirming the penalty in whole or in part.

If the amount of any penalty is not paid within thirty days after it becomes due and payable the attorney general, upon the request of the director shall bring an action in the name of the state of Washington in the superior court of Thurston county or of any county in which such violator may do business, to recover such penalty. 75.20.110 Columbia River anadromous fish sanctuary—Restrictions. (Effective July 1, 1994.) (1) Except for the north fork of the Lewis river and the White Salmon river, all streams and rivers tributary to the Columbia river downstream from McNary dam are established as an anadromous fish sanctuary. This sanctuary is created to preserve and develop the food fish and game fish resources in these streams and rivers and to protect them against undue industrial encroachment.

(2) Within the sanctuary area:

(a) It is unlawful to construct a dam greater than twenty-five feet high within the migration range of anadromous fish as determined by the director.

(b) Except by order of the director, it is unlawful to divert water from rivers and streams in quantities that will reduce the respective stream flow below the annual average low flow, based upon data published in United States geological survey reports.

(3) The director may acquire and abate a dam or other obstruction, or acquire any water right vested on a sanctuary stream or river, which is in conflict with the provisions of subsection (2) of this section.

(4) Subsection (2)(a) of this section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers. (2) The hydraulic appeals board shall consist of three members: The director of the department of ecology or the director's designee, the director of the department of agriculture or the director's designee, and the director or the director's designee of the department whose action is appealed under subsection (6) of this section. A decision must be agreed to by at least two members of the board to be final.

(3) The board may adopt rules necessary for the conduct of its powers and duties or for transacting other official business.

(4) The board shall make findings of fact and prepare a written decision in each case decided by it, and that finding

and decision shall be effective upon being signed by two or more board members and upon being filed at the hydraulic appeals board's principal office, and shall be open to public inspection at all reasonable times.

(5) The board has exclusive jurisdiction to hear appeals arising from the approval, denial, conditioning, or modification of a hydraulic approval issued by the department under the authority granted in RCW 75.20.103 for the diversion of water for agricultural irrigation or stock watering purposes or when associated with streambank stabilization to protect farm and agricultural land as defined in RCW 84.34.020.

(6)(a) Any person aggrieved by the approval, denial, conditioning, or modification of a hydraulic approval pursuant to RCW 75.20.103 may seek review from the board by filing a request for the same within thirty days of notice of the approval, denial, conditioning, or modification of such approval.

(b) The review proceedings authorized in (a) of this subsection are subject to the provisions of chapter 34.05 RCW pertaining to procedures in adjudicative proceedings. [1993 1st sp.s. c 2 § 37; 1989 c 175 § 160; 1988 c 272 § 3; 1988 c 36 § 37; 1986 c 173 § 4.]

75.20.300 Mt. St. Helens eruption—Flood-control, sediment retention site acquisition, and dredging operations in rivers—Fish resource protection—Expiration of section. (Effective July 1, 1994.) (1) The legislature intends to expedite flood-control, acquisition of sites for sediment retention, and dredging operations in those rivers affected by the May 1980 eruption of Mt. St. Helens, while continuing to protect the fish resources of these rivers.

(2) The director shall process hydraulic project applications submitted under RCW 75.20.100 within fifteen working days of receipt of the application. This requirement is only applicable to flood control and dredging projects located in the Cowlitz river from mile 22 to the confluence with the Columbia, and in the Toutle river from the mouth to the North Fork Toutle sediment dam site at North Fork mile 12, and to river mile 3 on the South Fork Toutle river, and volcano-affected areas of the Columbia river.

(3) For the purposes of this section, the emergency provisions of RCW 75.20.100 may be initiated by the county legislative authority if the project is necessary to protect human life or property from flood hazards, including:

(a) Flood fight measures necessary to provide protection during a flood event; or

(b) Measures necessary to reduce or eliminate a potential flood threat when other alternative measures are not available or cannot be completed prior to the expected flood threat season; or

(c) Measures which must be initiated and completed within an immediate period of time and for which processing of the request through normal methods would cause a delay to the project and such delay would significantly increase the potential for damages from a flood event.

(4) This section does not apply to the sediment retention structure to be built on the North Fork Toutle river by the United States army corps of engineers.

(5) This section expires on June 30, 1995. [1993 1st sp.s. c 2 § 38; 1989 c 213 § 3; 1988 c 36 § 38; 1985 c 307 § 6; 1984 c 80 § 3; 1983 1st ex.s. c 46 § 77; 1983 1st ex.s. c 1 § 7; 1982 c 7 § 8.]

75.20.310 Operation and maintenance of fish collection facility on Toutle river. (Effective July 1, 1994.) The legislature recognizes the need to mitigate the effects of sedimentary build-up and resultant damage to fish population in the Toutle river resulting from the Mt. St. Helens eruption. The state has entered into a contractual agreement with the United States army corps of engineers designed to minimize fish habitat disruption created by the sediment retention structure on the Toutle river, under which the corps has agreed to construct a fish collection facility at the sediment retention structure site conditional upon the state assuming the maintenance and operation costs of the facility. The department shall operate and maintain a fish collection facility on the Toutle river. [1993 1st sp.s. c 2 § 39; 1988 c 36 § 39; 1987 c 506 § 101.]

75.24.065 Olympia oysters—Cultivation on reserves in Puget Sound. (Effective July 1, 1994.) The legislature finds that current environmental and economic conditions warrant a renewal of the state's historical practice of actively cultivating and managing its oyster reserves in Puget Sound to produce the state's native oyster, the Olympia oyster. The department shall reestablish dike cultivated production of Olympia oysters on such reserves on a trial basis as a tool for planning more comprehensive cultivation by the state. commercial purposes outside the harvest area designated in a current department of natural resources geoduck harvesting agreement issued under RCW 79.96.080. It is unlawful to commercially harvest geoduck clams from bottoms that are shallower than eighteen feet below mean lower low water (0.0 ft.), or that lie in an area bounded by the line of ordinary high tide (mean high tide) and a line two hundred yards seaward from and parallel to the line of ordinary high tide. This section does not apply to the harvest of private sector cultured aquatic products as defined in RCW 15.85.020.

(2) Commercial geoduck harvesting shall be done with a hand-held, manually operated water jet or suction device guided and controlled from under water by a diver. Periodically, the director shall determine the effect of each type or unit of gear upon the geoduck population or the substrate they inhabit. The director may require modification of the gear or stop its use if it is being operated in a wasteful or destructive manner or if its operation may cause permanent damage to the bottom or adjacent shellfish populations. 75.25.120 Personal use food fish licenses—Reciprocity with Oregon in concurrent waters of Columbia river and coastal waters. (Effective January 1, 1994.) In concurrent waters of the Columbia river and in Washington coastal territorial waters from the Oregon-Washington boundary to a point five nautical miles north, an Oregon angling license comparable to the Washington personal use food fish license or two-consecutive-day personal use food fish license is valid if Oregon recognizes as valid the Washington personal use food fish license or two-consecutive-day personal use food fish license in comparable Oregon waters.

If Oregon recognizes as valid the Washington personal use food fish license or two-consecutive-day personal use food fish license southward to Cape Falcon in the coastal territorial waters from the Washington-Oregon boundary and in concurrent waters of the Columbia river then Washington shall recognize a valid Oregon license comparable to the Washington personal use food fish license or two-consecutive-day personal use food fish license northward to Leadbetter Point.

Oregon licenses are not valid for the taking of food fish when angling in concurrent waters of the Columbia river from the Washington shore. [1993 1st sp.s. c 17 § 7; 1989 c 305 § 9; 1987 c 87 § 4; 1985 c 174 § 1; 1983 1st ex.s. c 46 § 96; 1977 ex.s. c 327 § 17. Formerly RCW 75.28.670.]

75.28.010 Commercial licenses and permits required—Exemption. (Effective January 1, 1994.) (1) Except as otherwise provided by this title, it is unlawful to engage in any of the following activities without a license or permit issued by the director:

- (a) Commercially fish for or take food fish or shellfish;
- (b) Deliver food fish or shellfish taken in offshore waters;
- (c) Operate a charter boat or commercial fishing vessel engaged in a fishery;
- (d) Engage in processing or wholesaling food fish or shellfish; or
- (e) Act as a guide for salmon for personal use in freshwater rivers and streams, other than that part of the Columbia river below the bridge at Longview.

(2) No person may engage in the activities described in subsection (1) of this section unless the licenses or permits required by this title are in the person's possession, and the person is the named license holder or an alternate operator designated on the license.

(3) A valid Oregon license that is equivalent to a license under this title is valid in the concurrent waters of the Columbia river if the state of Oregon recognizes as valid the equivalent Washington license. The director may identify by rule what Oregon licenses are equivalent.

(4) No license or permit is required for the production or harvesting of private sector cultured aquatic products as

defined in RCW 15.85.020 or for the delivery, processing, or wholesaling of such aquatic products. However, if a means of identifying such products is required by rules adopted under RCW 15.85.060, the exemption from licensing or permit requirements established by this subsection applies only if the aquatic products are identified in conformance with those rules. [1993 c 340 § 2; 1991 c 362 § 1; 1985 c 457 § 18; 1983 1st ex.s. c 46 § 101; 1959 c 309 § 2; 1955 c 12 § 75.28.010. Prior: 1949 c 112 § 73; Rem. Supp. 1949 § 5780-511.]

Finding—Intent—1993 c 340: "The legislature finds that the laws governing commercial fishing licensing in this state are highly complex and increasingly difficult to administer and enforce. The current laws governing commercial fishing licenses have evolved slowly, one section at a time, over decades of contention and changing technology, without general consideration for how the totality fits together. The result has been confusion and litigation among commercial fishers. Much of the confusion has arisen because the license holder in most cases is a vessel, not a person. The legislature intends by this act to standardize licensing criteria, clarify licensing requirements, reduce complexity, and remove inequities in commercial fishing licensing. The legislature intends that the license fees stated in this act shall be equivalent to those in effect on January 1, 1993, as adjusted under section 19, chapter 316, Laws of 1989." [1993 c 340 § 1.]

Captions not law—1993 c 340: "Section headings as used in this act do not constitute any part of the law." [1993 c 340 § 57.]

Effective date—1993 c 340: "This act shall take effect January 1, 1994." [1993 c 340 § 58.]

Severability—1993 c 340: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1993 c 340 § 59.]

75.28.011 Transfer of licenses—Restrictions—Inheritability. (Effective January 1, 1994.) (1) Unless otherwise provided in this title, a license issued under this chapter is not transferable from the license holder to any other person.

(2) The following restrictions apply to transfers of commercial fishery licenses, salmon delivery licenses, and salmon charter licenses that are transferable between license holders:

(a) The license holder shall surrender the previously issued license to the department.

(b) The department shall complete no more than one transfer of the license in any seven-day period.

(c) The fee to transfer a license from one license holder to another is: (i) The same as the resident license renewal fee if the license is not limited under chapter 75.30 RCW; or (ii) three and one-half times the resident renewal fee if the license is limited under chapter 75.30 RCW.

(d) If a license is transferred from a resident to a nonresident, the transferee shall pay the difference between the resident and nonresident license fees at the time of transfer.

(3) A commercial license that is transferable under this title survives the death of the holder. Though such licenses are not personal property, they shall be treated as analogous to personal property for purposes of inheritance and intestacy. Such licenses are subject to state laws governing wills, trusts, estates, intestate succession, and community property, except that such licenses are exempt from claims of creditors of the estate and tax liens. The surviving spouse, estate, or beneficiary of the estate may apply for a renewal of the license. There is no fee for transfer of a license from a

license holder to the license holder's surviving spouse or estate, or to a beneficiary of the estate. [1993 1st sp.s. c 17 § 34.]

Contingent effective date—1993 1st sp.s. c 17 §§ 34-47: "Sections 34 through 47 of this act shall take effect only if Senate Bill No. 5124 becomes law by August 1, 1993." [1993 1st sp.s. c 17 § 48.] Senate Bill No. 5124 [1993 c 340] did become law. Sections 34 through 47 of 1993 1st sp.s. c 17 did become law.

Finding—Contingent effective date—Severability—1993 1st sp.s. c 17: See notes following RCW 75.25.091.

75.28.012 Licensing districts—Created. (Effective until January 1, 1994.) The following licensing districts are created:

(1) The Puget Sound licensing district includes waters of the Strait of Juan de Fuca, Georgia Strait, Puget Sound and all bays, inlets, canals, coves, sounds and estuaries lying easterly and southerly of the international boundary line and a line at the entrance to the Strait of Juan de Fuca projected northerly from Cape Flattery to the lighthouse on Tatoosh Island and then to Bonilla Point on Vancouver Island.

(3) The Willapa Bay-Columbia river licensing district includes waters of Willapa Bay and tributary estuaries and easterly of a line projected northerly from Leadbetter Point to the Cape Shoalwater tower and those waters of the Columbia river and tributary sloughs described in subsection (2) of this section. 75.28.720 Ocean pink shrimp—Defined. (Effective January 1, 1994.) Unless the context clearly requires

otherwise, as used in this chapter "ocean pink shrimp" means the species *Pandalus jordani*. [1993 c 376 § 2.]

Findings—1993 c 376: "The legislature finds that the offshore Washington, Oregon, and California commercial ocean pink shrimp fishery is composed of a mobile fleet, fishing the entire coast from Washington to California and landing its catch in the state nearest the area being fished. The legislature further finds that the ocean pink shrimp fishery currently uses the entire available resource, and has the potential to become overcapitalized. The legislature further finds that overcapitalization can lead to economic destabilization, and that reductions in fishing opportunities from licensing restrictions imposed for conservation needs and the economic well-being of the ocean pink shrimp industry creates uncertainty. The legislature further finds that it is [in] the best interest of the ocean pink shrimp resource, commercial ocean pink shrimp fishers, and ocean pink shrimp processors in the state, to limit the number of fishers who make landings of ocean pink shrimp into the state of Washington to those persons who have historically and continuously participated in the ocean pink shrimp fishery." [1993 c 376 § 1.]

Effective date—1993 c 376: "This act shall take effect January 1, 1994." [1993 c 376 § 12.]

75.28.730 Ocean pink shrimp—Delivery license. (Effective January 1, 1994.) An ocean pink shrimp delivery license is required to deliver ocean pink shrimp taken in offshore waters and delivered to a port in the state. Unless adjusted by the director pursuant to the director's authority granted in *RCW 75.28.065, the annual license fee is one hundred fifty dollars for residents and three hundred dollars for nonresidents. Ocean pink shrimp delivery licenses are transferable. [1993 c 376 § 4.]

***Reviser's note:** RCW 75.28.065 was repealed by 1993 1st sp.s. c 17 § 31, effective January 1, 1994.

Findings—Effective date—1993 c 376: See notes following RCW 75.28.720.

75.28.740 Emerging commercial fishery—Trial or experimental fishery—Licenses and permits. (Effective January 1, 1994.) (1) The director may by rule designate a fishery as an emerging commercial fishery. The director shall include in the designation whether the fishery is one that requires a vessel.

(2) "Emerging commercial fishery" means the commercial taking of a newly classified species of food fish or shellfish, the commercial taking of a classified species with gear not previously used for that species, or the commercial taking of a classified species in an area from which that species has not previously been commercially taken. Any species of food fish or shellfish commercially harvested in Washington state as of June 7, 1990, may be designated as a species in an emerging commercial fishery, except that no fishery subject to a license limitation program in chapter 75.30 RCW may be designated as an emerging commercial fishery.

(3) It is unlawful to take food fish or shellfish in a fishery designated as an emerging commercial fishery without an emerging commercial fishery license and a permit from the director. The director shall issue two types of permits to accompany emerging commercial fishery licenses: Trial fishery permits and experimental fishery permits. Trial fishery permits are governed by subsection (4) of this section. Experimental fishery permits are governed by RCW 75.30.220.

(4) The director shall issue trial fishery permits for a fishery designated as an emerging commercial fishery unless

the director determines there is a need to limit the number of participants under RCW 75.30.220. A person who meets the qualifications of RCW 75.28.020 may hold a trial fishery permit. The holder of a trial fishery permit shall comply with the terms of the permit. Trial fishery permits are not transferable from the permit holder to any other person. [1993 c 340 § 18.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.28.750 Geoduck diver license. (Effective January 1, 1994.) Every diver engaged in the commercial harvest of geoduck clams shall obtain a nontransferable geoduck diver license. [1993 c 340 § 24; 1990 c 163 § 6; 1989 c 316 § 13; 1983 1st ex.s. c 46 § 130; 1979 ex.s. c 141 § 4; 1969 ex.s. c 253 § 4. Formerly RCW 75.28.287.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Construction—Severability—1969 ex.s. c 253: See notes following RCW 75.24.100.

Designation of aquatic lands for geoduck harvesting: RCW 79.96.085.

Geoducks, harvesting for commercial purposes—License: RCW 75.24.100.

75.28.760 Wild salmonid policy—Establishment. By July 1, 1994, the departments of fisheries and wildlife jointly with the appropriate Indian tribes, shall each establish a wild salmonid policy. The policy shall ensure that department actions and programs are consistent with the goals of rebuilding wild stock populations to levels that permit commercial and recreational fishing opportunities. [1993 1st sp.s. c 4 § 2.]

Findings—Grazing lands—1993 1st sp.s. c 4: "The legislature finds that many wild stocks of salmonids in the state of Washington are in a state of decline. Stocks of salmon on the Columbia and Snake rivers have been listed under the federal endangered species act, and the bull trout has been petitioned for listing. Some scientists believe that numerous other stocks of salmonids in the Pacific Northwest are in decline or possibly extinct. The legislature declares that to lose wild stocks is detrimental to the genetic diversity of the fisheries resource and the economy, and will represent the loss of a vital component of Washington's aquatic ecosystems. The legislature further finds that there is a continuing loss of habitat for fish and wildlife. The legislature declares that steps must be taken in the areas of wildlife and fish habitat management, water conservation, wild salmonid stock protection, and education to prevent further losses of Washington's fish and wildlife heritage from a number of causes including urban and rural subdivisions, shopping centers, industrial park, and other land use activities.

The legislature finds that the maintenance and restoration of Washington's rangelands and shrub-steppe vegetation is vital to the long-term benefit of the people of the state. The legislature finds that approximately one-fourth of the state is open range or open-canopied grazable woodland. The legislature finds that these lands provide forage for livestock, habitat for wildlife, and innumerable recreational opportunities including hunting, hiking, and fishing.

The legislature finds that the development of coordinated resource management plans, that take into consideration the needs of wildlife, fish, livestock, timber production, water quality protection, and rangeland conservation on all state-owned grazing lands will improve the stewardship of these lands and allow for the increased development and maintenance of fish and wildlife habitat and other multipurpose benefits the public derives from these lands.

The legislature finds that the state currently provides insufficient technical support for coordinated resource management plans to be developed for all state-owned lands and for many of the private lands desiring to develop such plans. As a consequence of this lack of technical assistance, our state grazing lands, including fish and wildlife habitat and other resources provided by these lands, are not achieving their potential. The legislature also finds that with many state lands being intermixed with private grazing lands, development of coordinated resource management

plans on state-owned and managed lands provides an opportunity to improve the management and enhance the conditions of adjacent private lands.

A purpose of this act is to establish state grazing lands as the model in the state for the development and implementation of standards that can be used in coordinated resource management plans and to thereby assist the timely development of coordinated resource management plans for all state-owned grazing lands. Every lessee of state lands who wishes to participate in the development and implementation of a coordinated resource management plan shall have the opportunity to do so." [1993 1st sp.s. c 4 § 1.]

Salmon, impact of water diversion: RCW 90.03.360.

75.28.770 Wild salmonid policy—Management and gear strategies—Report to legislature. The department of fisheries shall evaluate and recommend, in consultation with the Indian tribes, salmon fishery management strategies and gear types, as well as a schedule for implementation, that will minimize the impact of commercial and recreational fishing in the mixed stock fishery on critical and depressed wild stocks of salmonids. As part of this evaluation, the department, in conjunction with the commercial and recreational fishing industries, shall evaluate commercial and recreational salmon fishing gear types developed by these industries. The department of fisheries shall present status reports to the appropriate committees of the legislature by December 31 of each year in 1993, 1994, and 1995, and shall present the final evaluation and recommendations by December 31, 1996. [1993 1st sp.s. c 4 § 4.]

75.28.780 Alternate operator—Geoduck diver—Salmon guide—Fees. (Effective January 1, 1994.) The director shall issue the personal licenses listed in this section according to the requirements of this title. The licenses and their annual fees are:

75.30.065 Salmon charter boats—Limitation on issuance of licenses—Renewal—Transfer. (Effective January 1, 1994.) (1) After May 28, 1977, the director shall issue no new salmon charter licenses. A person may renew an existing salmon charter license only if the person held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person.

(2) Salmon charter licenses may be renewed each year. A salmon charter license which is not renewed each year shall not be renewed further.

(3) Subject to the restrictions in *section 11 of this act, salmon charter licenses are transferrable from one license holder to another. [1993 c 340 § 28; 1983 1st ex.s. c 46 § 141; 1981 c 202 § 1; 1979 c 101 § 7; 1977 ex.s. c 106 § 2. Formerly RCW 75.30.020.]

***Reviser's note:** Section 11 of this act [1993 c 340 § 11] was repealed by 1993 1st sp.s. c 17 § 47, effective January 1, 1994.

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Effective date—Intent—1979 c 101: See notes following RCW 75.30.070.

Legislative findings—1977 ex.s. c 106: "The legislature finds that the wise management and economic health of the state's salmon fishery are of continued importance to the people of the state and to the economy of the state as a whole. The legislature finds that charter boats licensed by the state for use by the state's charter boat fishing industry have increased in quantity. The legislature finds that limitations on the number of licensed charter boats will tend to improve the management of the charter boat fishery and the economic health of the charter boat industry. The state therefore must use its authority to regulate the number of licensed boats in use by the state's charter boat industry in a manner provided in this chapter so that management and economic health of the salmon fishery may be improved." [1977 ex.s. c 106 § 1. Formerly RCW 75.30.010.]

Severability—1977 ex.s. c 106: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 ex.s. c 106 § 10.]

75.30.070 Salmon charter boats—Angler permit, when required. (Effective January 1, 1994.) (1) Except as provided in subsection (3) of this section, it is unlawful to operate a vessel as a charter boat from which salmon are taken in salt water without an angler permit. The angler permit shall specify the maximum number of persons that may fish from the charter boat per trip. The angler permit expires if the salmon charter license is not renewed.

(2) Only a person who holds a salmon charter license issued under RCW 75.28.095 and 75.30.065 may hold an angler permit.

(3) An angler permit shall not be required for charter boats licensed in Oregon and fishing in ocean waters within the jurisdiction of Washington state from the southern border

of the state of Washington to Leadbetter Point under the same regulations as Washington charter boat operators, as long as the Oregon vessel does not land at any Washington port with the purpose of taking on or discharging passengers. The provisions of this subsection shall be in effect as long as the state of Oregon has reciprocal laws and regulations. [1993 c 340 § 29; 1989 c 147 § 2; 1983 1st ex.s. c 46 § 142; 1979 c 101 § 2.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Effective date—1979 c 101: "This act shall take effect on January 1, 1980." [1979 c 101 § 10.]

Intent—1979 c 101: "The legislature finds that wise management of the state's salmon fishery is essential to the well-being of the state. The legislature recognizes that further restrictions on salmon fishing in the charter salmon industry are necessary and that a limitation on the number of persons fishing is preferable to reductions in the fishing season or daily bag limits, or increases in size limits." [1979 c 101 § 1.]

75.30.090 Salmon charter boats—Angler permit—Number of anglers. (Effective January 1, 1994.) A salmon charter boat may not carry more anglers than the number specified in the angler permit issued under RCW 75.30.070. Members of the crew may fish from the boat only to the extent that the number of anglers specified in the angler permit exceeds the number of noncrew passengers on the boat at that time. [1993 c 340 § 30; 1983 1st ex.s. c 46 § 143; 1979 c 101 § 4.]

Effective date—Intent—1979 c 101: See notes following RCW 75.30.070.

75.30.100 Salmon charter boats—Angler permit—Total number of anglers limited—Permit transfer. (Effective January 1, 1994.) (1) The total number of anglers authorized by the department shall not exceed the total number authorized for 1980.

(2) Angler permits issued under RCW 75.30.070 are transferable. All or a portion of the permit may be transferred to another salmon charter license holder.

(3) The angler permit holder and proposed transferee shall notify the department when transferring an angler permit, and the department shall issue a new angler permit certificate. If the original permit holder retains a portion of the permit, the department shall issue a new angler permit certificate reflecting the decrease in angler capacity.

(4) The department shall collect a fee of ten dollars for each certificate issued under subsection (3) of this section. [1993 c 340 § 31; 1983 1st ex.s. c 46 § 144; 1979 c 101 § 5.]

Legislative findings—Severability—1977 ex.s. c 106: See notes following RCW 75.30.065.

Legislative intent—1974 ex.s. c 184: "The legislature finds that the protection, welfare, and economic good of the commercial salmon fishing industry is of paramount importance to the people of this state. Scientific advancement has increased the efficiency of salmon fishing gear. There presently exists an overabundance of commercial salmon fishing gear in our state waters which causes great pressure on the salmon fishery resource. This situation results in great economic waste to the state and prohibits conservation programs from achieving their goals. The public welfare requires that the number of commercial salmon fishing licenses and salmon

delivery permits issued by the state be limited to insure that sound conservation programs can be scientifically carried out. It is the intention of the legislature to preserve this valuable natural resource so that our food supplies from such resource can continue to meet the ever increasing demands placed on it by the people of this state." [1983 1st ex.s. c 46 § 136; 1974 ex.s. c 184 § 1. Formerly RCW 75.28.450.]

Severability—1974 ex.s. c 184: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1974 ex.s. c 184 § 11.]

75.30.125 Commercial salmon fishery license or salmon delivery license—Reversion to department following government confiscation of vessel. (Effective January 1, 1994.) Any commercial salmon fishery license issued under RCW 75.28.110 or salmon delivery license issued under RCW 75.28.113 shall revert to the department when any government confiscates and sells the vessel designated on the license. Upon application of the person named on the license as license holder and the approval of the director, the department shall transfer the license to the applicant. Application for transfer of the license must be made within the calendar year for which the license was issued. [1993 c 340 § 33; 1986 c 198 § 2.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.130 Dungeness crab—Puget Sound fishery license—Limitations—Qualifications. (Effective January 1, 1994.) (1) It is unlawful to take dungeness crab (Cancer magister) in Puget Sound without first obtaining a dungeness crab—Puget Sound fishery license. As used in this section, "Puget Sound" has the meaning given in RCW 75.28.110(5)(a). A dungeness crab—Puget Sound fishery license is not required to take other species of crab, including red rock crab (Cancer productus).

(2) Except as provided in subsections (3) and (7) of this section, after January 1, 1982, the director shall issue no new dungeness crab—Puget Sound fishery licenses. Only a person who meets the following qualifications may renew an existing license:

(a) The person shall have held the dungeness crab—Puget Sound fishery license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and shall not have subsequently transferred the license to another person; and

(b) The person shall document, by valid shellfish receiving tickets issued by the department, that one thousand pounds of dungeness crab were caught and sold during the previous two-year period ending on December 31st of an odd-numbered year:

(i) Under the license sought to be renewed; or

(ii) Under any combination of the following commercial fishery licenses that the person held when the crab were caught and sold: Crab pot—Non-Puget Sound, crab ring net—Non-Puget Sound, dungeness crab—Puget Sound. Sales under a license other than the one sought to be renewed may be used for the renewal of no more than one dungeness crab—Puget Sound fishery license.

(3) Where the person failed to obtain the license during the previous year because of a license suspension, the person may qualify for a license by establishing that the person held

such a license during the last year in which the license was not suspended.

(4) The director may reduce or waive the poundage requirement established under subsection (2)(b) of this section upon the recommendation of a review board established under RCW 75.30.050. The review board may recommend a reduction or waiver of the poundage requirement in individual cases if, in the board's judgment, extenuating circumstances prevent achievement of the poundage requirement. The director shall adopt rules governing the operation of the review boards and defining "extenuating circumstances."

(5) This section does not restrict the issuance of commercial crab licenses for areas other than Puget Sound or for species other than dungeness crab.

(6) Subject to the restrictions in *section 11 of this act, dungeness crab—Puget Sound fishery licenses are transferable from one license holder to another.

(7) If fewer than two hundred persons are eligible for dungeness crab—Puget Sound fishery licenses, the director may accept applications for new licenses. The director shall determine by random selection the successful applicants for the additional licenses. The number of additional licenses issued shall be sufficient to maintain two hundred licenses in the Puget Sound dungeness crab fishery. The director shall adopt rules governing the application, selection, and issuance procedures for new dungeness crab—Puget Sound fishery licenses, based upon recommendations of a board of review established under RCW 75.30.050. [1993 c 340 § 34; 1983 1st ex.s. c 46 § 147; 1982 c 157 § 1; 1980 c 133 § 4. Formerly RCW 75.28.275.]

***Reviser's note:** Section 11 of this act [1993 c 340 § 11] was repealed by 1993 1st sp.s. c 17 § 47, effective January 1, 1994.

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Severability—1980 c 133: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 133 § 8.]

Legislative findings—1980 c 133: "The legislature finds that a significant commercial crab fishery is developing within Puget Sound. The legislature further finds that the crab fishery in Puget Sound represents a separate and distinct fishery from that of the coastal waters and is limited in quantity and is in need of conservation. The potential for depletion of the crab stocks in these waters is increasing, particularly as crab fishing becomes an attractive alternative to fishermen facing increasing restrictions on commercial salmon fishing.

The legislature finds that the number of commercial fishermen engaged in crab fishing has steadily increased. This factor, combined with advances in fishing and marketing techniques, has resulted in strong pressures on the supply of crab, unnecessary waste of an important natural resource, and economic loss to the citizens of the state.

The legislature finds that increased regulation of commercial crab fishing is necessary to preserve and efficiently manage the commercial crab fishery in the waters of Puget Sound." [1980 c 133 § 1.]

75.30.140 Herring fishery license—Limitations on issuance. (Effective January 1, 1994.) (1) It is unlawful to fish commercially for herring in state waters without a herring fishery license. As used in this section, "herring fishery license" means any of the following commercial fishery licenses issued under RCW 75.28.120: Herring dip bag net; herring drag seine; herring gill net; herring lampara; herring purse seine.

(2) Except as provided in this section, a herring fishery license may be issued only to a person who:

(a) Established initial eligibility for a herring fishery license as provided in subsection (3) of this section or acquired such a license by transfer;

(b) Held a herring fishery license during the previous year or acquired such a license by transfer; and

(c) Has not subsequently transferred the license to another person.

(3) A person may establish initial eligibility for a herring fishery license by:

(a) Documenting to the department that the person landed herring during the period January 1, 1971, through April 15, 1973;

(b) Documenting to the department that the person landed herring during the period January 1, 1969, through December 31, 1970, if the person was in the armed forces of the United States during the period January 1, 1971, through April 15, 1973; or

(c) Applying to the department and qualifying for a herring fishery license under hardship criteria established by rule of the director.

Landings may be documented only by a department fish receiving ticket.

(4) A herring fishery license may be issued only for the type of fishing gear used to establish initial eligibility for the license.

(5) The director may establish rules governing the administration of this section based upon recommendations of a board of review established under RCW 75.30.050.

(6) Except as provided in subsection (8) of this section, after January 1, 1995, the director shall issue no new herring fishery licenses. After January 1, 1995, a person may renew an existing license only if the person held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and if the person has not subsequently transferred the license to another person.

(7) Herring fishery licenses may be renewed each year. A herring fishery license that is not renewed each year shall not be renewed further.

(8) The department may issue additional herring fishery licenses if the stocks of herring will not be jeopardized by granting additional licenses.

(9) Subject to the restrictions of *section 11 of this act, herring fishery licenses are transferable from one license holder to another. [1993 c 340 § 35; 1983 1st ex.s. c 46 § 148; 1974 ex.s. c 104 § 1; 1973 1st ex.s. c 173 § 4. Formerly RCW 75.28.420.]

***Reviser's note:** Section 11 of this act [1993 c 340 § 11] was repealed by 1993 1st sp.s. c 17 § 47, effective January 1, 1994.

Legislative findings—Purpose—1973 1st ex.s. c 173: "The legislature finds that a significant commercial herring fishing industry is presently developing in the state of Washington under the careful guidance of the department of fisheries. The legislature further finds that the stocks of herring within the waters of this state are limited in extent and are in need of strict preservation.

In addition, the legislature finds that the number of commercial fishermen engaged in fishing for herring has steadily increased. This factor, combined with advances made in fishing and marketing techniques, has resulted in strong pressures on the supply of herring, unnecessary waste in one of Washington's valuable resources, and economic loss to the citizens

of this state. Therefore, it is the purpose of RCW 75.30.140 to establish reasonable procedures for controlling the extent of commercial herring fishing." [1983 1st ex.s. c 46 § 135; 1973 1st ex.s. c 173 § 2. Formerly RCW 75.28.390 and 75.28.400.]

75.30.160 Whiting license required in designated areas. (Effective January 1, 1994.) It is unlawful to take whiting from areas that the department designates within the waters described in RCW 75.28.110(5)(a) without a whiting—Puget Sound fishery license. [1993 c 340 § 38; 1986 c 198 § 6.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.170 Whiting—Puget Sound fishery license—Limitation on issuance. (Effective January 1, 1994.) (1) A whiting—Puget Sound fishery license may be issued only to an individual who:

(a) Delivered at least fifty thousand pounds of whiting during the period from January 1, 1981, through February 22, 1985, as verified by fish delivery tickets;

(b) Possessed, on January 1, 1986, all equipment necessary to fish for whiting; and

(c) Held a whiting—Puget Sound fishery license during the previous year or acquired such a license by transfer from someone who held it during the previous year.

(2) After January 1, 1995, the director shall issue no new whiting—Puget Sound fishery licenses. After January 1, 1995, only an individual who meets the following qualifications may renew an existing license: The individual shall have held the license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year, and shall not have subsequently transferred the license to another person.

(3) Whiting—Puget Sound fishery licenses may be renewed each year. A whiting—Puget Sound fishery license that is not renewed each year shall not be renewed further. [1993 c 340 § 39; 1986 c 198 § 5.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.180 Whiting—Puget Sound fishery license—Transferable to family members. (Effective January 1, 1994.) A whiting—Puget Sound fishery license may be transferred through gift, devise, bequest, or descent to members of the license holder's immediate family which shall be limited to spouse, children, or stepchildren. The holder of a whiting—Puget Sound fishery license shall be present on any vessel taking whiting under the license. In no instance may temporary permits be issued.

The director may adopt rules necessary to implement RCW 75.30.160 through 75.30.180. [1993 c 340 § 40; 1986 c 198 § 4.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.210 Sea urchin dive fishery license—Limitation on issuance—Transfer limitations—Issuance of additional licenses. (Effective January 1, 1994.) (1) It is unlawful to commercially take any species of sea urchin using shellfish diver gear without first obtaining a sea urchin dive fishery license.

(2) Except as provided in subsections (3) and (6) of this section, after December 31, 1991, the director shall issue no new sea urchin dive fishery licenses. Only a person who meets the following qualifications may renew an existing license:

(a) The person shall have held the sea urchin dive fishery license sought to be renewed during the previous year or acquired the license by transfer from someone who held it during the previous year; and

(b) The person shall document, by valid shellfish receiving tickets issued by the department, that twenty thousand pounds of sea urchins were caught and sold under the license sought to be renewed during the two-year period ending March 31 of the most recent odd-numbered year.

(3) Where the person failed to obtain the license during the previous year because of a license suspension or revocation by the department or the court, the person may qualify for a license by establishing that the person held such a license during the last year in which the person was eligible.

(4) The director may reduce or waive the poundage requirement of subsection (2)(b) of this section upon the recommendation of a board of review established under RCW 75.30.050. The board of review may recommend a reduction or waiver of the poundage requirement in individual cases if, in the board's judgment, extenuating circumstances prevent achievement of the poundage requirement. The director shall adopt rules governing the operation of the board of review and defining "extenuating circumstances."

(5) Sea urchin dive fishery licenses are not transferable from one license holder to another, except from parent to child, or from spouse to spouse during marriage or as a result of marriage dissolution, or upon the death of the license holder.

(6) If fewer than forty-five persons are eligible for sea urchin dive fishery licenses, the director may accept applications for new licenses. The director shall determine by random selection the successful applicants for the additional licenses. The number of additional licenses issued shall be sufficient to maintain up to forty-five licenses in the sea urchin dive fishery. The director shall adopt rules governing the application, selection, and issuance procedure for new sea urchin dive fishery licenses, based upon recommendations of a board of review established under RCW 75.30.050. [1993 c 340 § 41; 1990 c 62 § 2; 1989 c 37 § 2.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Legislative finding—1990 c 62; 1989 c 37: "The legislature finds that a significant commercial sea urchin fishery is developing within state waters. The potential for depletion of the sea urchin stocks in these waters is increasing, particularly as the sea urchin fishery becomes an attractive alternative to fishermen facing increasing restrictions on other types of commercial fishery activities.

The legislature finds that the number of vessels engaged in commercial sea urchin fishing has steadily increased. This factor, combined with advances in marketing techniques, has resulted in strong pressures on the supply of sea urchins. The legislature desires to maintain the livelihood of

those vessel owners who have historically and continuously participated in the sea urchin fishery. The legislature desires that the director have the authority to consider extenuating circumstances concerning failure to meet landing requirements for both initial endorsement issuance and endorsement renewal.

The legislature finds that increased regulation of commercial sea urchin fishing is necessary to preserve and efficiently manage the commercial sea urchin fishery in the waters of the state. The legislature is aware that the continuing license provisions of the administrative procedure act, RCW 34.05.422(3) provide procedural safeguards, but finds that the pressure on the sea urchin resource endangers both the resource and the economic well-being of the sea urchin fishery, and desires, therefore, to exempt sea urchin endorsements from the continuing license provision." [1990 c 62 § 1; 1989 c 37 § 1.]

75.30.220 Emerging commercial fishery designation—Experimental fishery permits. (Effective January 1, 1994.) (1) The director may issue experimental fishery permits for commercial harvest in an emerging commercial fishery for which the director has determined there is a need to limit the number of participants. The director shall determine by rule the number and qualifications of participants for such experimental fishery permits. Only a person who holds an emerging commercial fishery license issued under RCW 75.28.740 and who meets the qualifications established in those rules may hold an experimental fishery permit. The director shall limit the number of these permits to prevent habitat damage, ensure conservation of the resource, and prevent overharvesting. In developing rules for limiting participation in an emerging or expanding commercial fishery, the director shall appoint a five-person advisory board representative of the affected fishery industry. The advisory board shall review and make recommendations to the director on rules relating to the number and qualifications of the participants for such experimental fishery permits.

(2) RCW 34.05.422(3) does not apply to applications for new experimental fishery permits.

(3) Experimental fishery permits are not transferable from the permit holder to any other person. [1993 c 340 § 42; 1990 c 63 § 2.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Legislative finding—1990 c 63: "The legislature finds that:

(1) A number of commercial fisheries have emerged or expanded in the past decade;

(2) Scientific information is critical to the proper management of an emerging or expanding commercial fishery; and

(3) The scientific information necessary to manage an emerging or expanding commercial fishery can best be obtained through the use of limited experimental fishery permits allowing harvest levels that will preserve and protect the state's food fish and shellfish resource." [1990 c 63 § 1.]

75.30.240 Emerging commercial fishery—License status—Recommendations to legislature. (Effective January 1, 1994.) Within five years after adopting rules to govern the number and qualifications of participants in an emerging commercial fishery, the director shall provide to the appropriate senate and house of representatives committees a report which outlines the status of the fishery and a recommendation as to whether a separate commercial fishery license, license fee, or limited harvest program should be established for that fishery. [1993 c 340 § 43; 1990 c 63 § 4.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.250 Sea cucumber dive fishery license—Requirements. (Effective January 1, 1994.) (1) It is unlawful to commercially take while using shellfish diver gear any species of sea cucumber without first obtaining a sea cucumber dive fishery license.

(2) Except as provided in subsection (6) of this section, after December 31, 1991, the director shall issue no new sea cucumber dive fishery licenses. Only a person who meets the following qualifications may renew an existing license:

(a) The person shall have held the sea cucumber dive fishery license sought to be renewed during the previous two years or acquired the license by transfer from someone who held it during the previous year; and

(b) The person shall establish, by means of dated shellfish receiving documents issued by the department, that thirty landings of sea cucumbers totaling at least ten thousand pounds were made under the license during the previous two-year period ending December 31 of the odd-numbered year.

(3) Where the person failed to obtain the license during either of the previous two years because of a license suspension by the department or the court, the person may qualify for a license by establishing that the person held such a license during the last year in which the person was eligible.

(4) The director may reduce or waive any landing or poundage requirement established under this section upon the recommendation of a board of review established under RCW 75.30.050. The board of review may recommend a reduction or waiver of any landing or poundage requirement in individual cases if, in the board's judgment, extenuating circumstances prevent achievement of the landing or poundage requirement. The director shall adopt rules governing the operation of the board of review and defining "extenuating circumstances."

(5) Sea cucumber dive fishery licenses are not transferable from one license holder to another except from parent to child, from spouse to spouse during marriage or as a result of marriage dissolution, or upon death of the license holder.

(6) If fewer than fifty persons are eligible for sea cucumber dive fishery licenses, the director may accept applications for new licenses from those persons who can demonstrate two years' experience in the Washington state sea cucumber dive fishery. The director shall determine by random selection the successful applicants for the additional licenses. The number of additional licenses issued shall be sufficient to maintain up to fifty licenses in the sea cucumber dive fishery. The director shall adopt rules governing the application, selection, and issuance procedure for new sea cucumber dive fishery licenses, based upon recommendations of a board of review established under RCW 75.30.050. [1993 c 340 § 44; 1990 c 61 § 2.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

Legislative findings—1990 c 61: "The legislature finds that a significant commercial sea cucumber fishery is developing within state waters. The potential for depletion of the sea cucumber stocks in these waters is increasing, particularly as the sea cucumber fishery becomes an attractive alternative to commercial fishers who face increasing restrictions on other types of commercial fishery activities.

The legislature finds that the number of commercial fishers engaged in commercially harvesting sea cucumbers has rapidly increased. This factor, combined with increases in market demand, has resulted in strong pressures on the supply of sea cucumbers.

The legislature finds that increased regulation of commercial sea cucumber fishing is necessary to preserve and efficiently manage the commercial sea cucumber fishery in the waters of the state.

The legislature finds that it is desirable in the long term to reduce the number of vessels participating in the commercial sea cucumber fishery to fifty vessels to preserve the sea cucumber resource, efficiently manage the commercial sea cucumber fishery in the waters of the state, and reduce conflict with upland owners.

The legislature finds that it is important to preserve the livelihood of those who have historically participated in the commercial sea cucumber fishery that began about 1970 and that the 1988 and 1989 seasons should be used to document historical participation." [1990 c 61 § 1.]

75.30.260 Herring spawn on kelp fishery licenses—Number limited. (Effective January 1, 1994.) The legislature finds that the wise management of Washington state's herring resource is of paramount importance to the people of the state. The legislature finds that herring are an important part of the food chain for a number of the state's living marine resources. The legislature finds that both open and closed pond "spawn on kelp" harvesting techniques allow for an economic return to the state while at the same time providing for the proper management of the herring resource. The legislature finds that limitations on the number of herring harvesters tends to improve the management and economic health of the herring industry. The maximum number of herring spawn on kelp fishery licenses shall not exceed five annually. The state therefore must use its authority to regulate the number of herring spawn on kelp fishery licenses so that the management and economic health of the herring fishery may be improved. [1993 c 340 § 36; 1989 c 176 § 1. Formerly RCW 75.28.235.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.270 Herring spawn on kelp fishery license—Auction. (Effective January 1, 1994.) (1) A herring spawn on kelp fishery license is required to commercially take herring eggs which have been deposited on vegetation of any type.

(2) A herring spawn on kelp fishery license may be issued only to a person who:

(a) Holds a herring fishery license issued under RCW 75.28.120 and 75.30.140; and

(b) Is the highest bidder in an auction conducted under subsection (3) of this section.

(3) The department shall sell herring spawn on kelp commercial fishery licenses at auction to the highest bidder. Bidders shall identify their sources of kelp. Kelp harvested from state-owned aquatic lands as defined in RCW 79.90.465 requires the written consent of the department of natural resources. The department shall give all holders of herring fishery licenses thirty days' notice of the auction. [1993 c 340 § 37; 1989 c 176 § 2. Formerly RCW 75.28.245.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.280 Geoduck fishery license—Conditions and limitations—OSHA regulations—Violations. (Effective

January 1, 1994.) (1) It is unlawful to harvest geoduck clams commercially without a geoduck fishery license. This section does not apply to the harvest of private sector cultured aquatic products as defined in RCW 15.85.020.

(2) Only a person who has entered into a geoduck harvesting agreement with the department of natural resources under RCW 79.96.080 may hold a geoduck fishery license.

(3) A geoduck fishery license authorizes no taking of geoducks outside the boundaries of the public lands designated in the underlying harvesting agreement, or beyond the harvest ceiling set in the underlying harvesting agreement.

(4) A geoduck fishery license expires when the underlying geoduck harvesting agreement terminates.

(5) The director shall determine the number of geoduck fishery licenses that may be issued for each geoduck harvesting agreement, the number of units of gear whose use the license authorizes, and the type of gear that may be used, subject to RCW 75.24.100. In making those determinations, the director shall seek to conserve the geoduck resource and prevent damage to its habitat.

(6) The holder of a geoduck fishery license and the holder's agents and representatives shall comply with all applicable commercial diving safety regulations adopted by the federal occupational safety and health administration established under the federal occupational safety and health act of 1970 as such law exists on May 8, 1979, 84 Stat. 1590 et seq.; 29 U.S.C. Sec. 651 et seq. A violation of those regulations is a violation of this subsection. For the purposes of this section, persons who dive for geoducks are "employees" as defined by the federal occupational safety and health act. A violation of this subsection is grounds for suspension or revocation of a geoduck fishery license following a hearing under the procedures of chapter 34.05 RCW. The department shall not suspend or revoke a geoduck fishery license if the violation has been corrected within ten days of the date the license holder receives written notice of the violation. If there is a substantial probability that a violation of the commercial diving standards could result in death or serious physical harm to a person engaged in harvesting geoduck clams, the department shall suspend the license immediately until the violation has been corrected. If the license holder is not the operator of the harvest vessel and has contracted with another person for the harvesting of geoducks, the department shall not suspend or revoke the license if the license holder terminates its business relationship with that person until compliance with this subsection is secured. [1993 c 340 § 46.]

Finding, intent—Captions not law—Effective date—Severability—1993 c 340: See notes following RCW 75.28.010.

75.30.290 Ocean pink shrimp—Delivery license—Requirements and criteria—Continuous participation. (Effective January 1, 1994.) After December 31, 1993, it is unlawful to deliver into any Washington state port ocean pink shrimp caught in offshore waters without an ocean pink shrimp delivery license issued under RCW 75.28.730, or an ocean pink shrimp single delivery license issued under RCW 75.30.320. An ocean pink shrimp delivery license shall be issued to a vessel that:

(1) Landed a total of at least five thousand pounds of ocean pink shrimp in Washington in any single calendar year between January 1, 1983, and December 31, 1992, as documented by a valid shellfish receiving ticket; and

(2) Can show continuous participation in the Washington, Oregon, or California ocean pink shrimp fishery by being eligible to land ocean pink shrimp in either Washington, Oregon, or California each year since the landing made under subsection (1) of this section. Evidence of such eligibility shall be a certified statement from the relevant state licensing agency that the applicant for a Washington ocean pink shrimp delivery license held at least one of the following permits:

(a) For Washington: Possession of a delivery permit or delivery license issued under RCW 75.28.125 or a trawl license (other than Puget Sound) issued under *RCW 75.28.140;

(b) For Oregon: Possession of a vessel permit issued under Oregon Revised Statute 508.880; or

(c) For California: A trawl permit issued under California Fish and Game Code sec. 8842. [1993 c 376 § 5.]

*Reviser's note: RCW 75.28.140 was repealed by 1993 c 340 § 56, effective January 1, 1994.

Findings—Effective date—1993 c 376: See notes following RCW 75.28.720.

75.30.300 Ocean pink shrimp—Delivery license—Requirements and criteria—Historical participation. (Effective January 1, 1994.) An applicant who can show historical participation under RCW 75.30.290(1) but does not satisfy the continuous participation requirement of RCW 75.30.290(2) shall be issued an ocean pink shrimp delivery license if:

(1) The owner can prove that the owner was in the process on December 31, 1992, of constructing a vessel for the purpose of ocean pink shrimp harvest. For purposes of this section, "construction" means having the keel laid, and "for the purpose of ocean pink shrimp harvest" means the vessel is designed as a trawl vessel. An ocean pink shrimp delivery license issued to a vessel under construction is not renewable after December 31, 1994, unless the vessel lands a total of at least five thousand pounds of ocean pink shrimp into a Washington state port before December 31, 1994; or

(2) The applicant's vessel is a replacement for a vessel that is otherwise eligible for an ocean pink shrimp delivery license. [1993 c 376 § 6.]

Findings—Effective date—1993 c 376: See notes following RCW 75.28.720.

75.30.310 Ocean pink shrimp—Delivery license—License transfer—License suspension. (Effective January 1, 1994.) After December 31, 1994, an ocean pink shrimp delivery license may only be issued to a vessel that held an ocean pink shrimp delivery license in 1994, and each year thereafter. If the license is transferred to another vessel, the license history shall also be transferred to the transferee vessel.

Where the failure to hold the license in any given year was the result of a license suspension, the vessel may qualify if the vessel held an ocean pink shrimp delivery license in the year immediately preceding the year of the license suspension. [1993 c 376 § 7.]

[1993 RCW Supp—page 1026]

Findings—Effective date—1993 c 376: See notes following RCW 75.28.720.

75.30.320 Ocean pink shrimp—Single delivery license. (Effective January 1, 1994.) The owner of an ocean pink shrimp fishing vessel that does not qualify for an ocean pink shrimp delivery license issued under RCW 75.28.730 shall obtain an ocean pink shrimp single delivery license in order to make a landing into a state port of ocean pink shrimp taken in offshore waters. The director shall not issue an ocean pink shrimp single delivery license unless, as determined by the director, a bona fide emergency exists. A maximum of six ocean pink shrimp single delivery licenses may be issued annually to any vessel. Unless adjusted by the director pursuant to the director's authority granted in *RCW 75.28.065, the fee for an ocean pink shrimp single delivery license is one hundred dollars. [1993 c 376 § 8.]

*Reviser's note: RCW 75.28.065 was repealed by 1993 1st sp. c 17 § 31, effective January 1, 1994.

Findings—Effective date—1993 c 376: See notes following RCW 75.28.720.

75.30.330 Ocean pink shrimp—Deliver license—Reduction of landing requirement. (Effective January 1, 1994.) The director may reduce the landing requirements established under RCW 75.30.290 upon the recommendation of an advisory review board established under RCW 75.30.050, but the director may not entirely waive the landing requirement. The advisory review board may recommend a reduction of the landing requirement in individual cases if in the board's judgment, extenuating circumstances prevented achievement of the landing requirement. The director shall adopt rules governing the operation of the advisory review board and defining "extenuating circumstances." [1993 c 376 § 10.]

Findings—Effective date—1993 c 376: See notes following RCW 75.28.720.

75.50.010 Legislative findings. (Effective July 1, 1994.) Currently, many of the salmon stocks of Washington state are critically reduced from their sustainable level. The best interests of all fishing groups and the citizens as a whole are served by a stable and productive salmon resource. Immediate action is needed to reverse the severe decline of the resource and to insure its very survival. The legislature finds a state of emergency exists and that immediate action is required to restore its fishery.

Disagreement and strife have dominated the salmon fisheries for many years. Conflicts among the various

fishing interests have only served to erode the resource. It is time for the state of Washington to make a major commitment to increasing productivity of the resource and to move forward with an effective rehabilitation and enhancement program. The department is directed to dedicate its efforts to seek resolution to the many conflicts that involve the resource.

Success of the enhancement program can only occur if projects efficiently produce salmon or restore habitat. The expectation of the program is to optimize the efficient use of funding on projects that will increase artificially and naturally produced salmon, restore and improve habitat, or identify ways to increase the survival of salmon. The full utilization of state resources and cooperative efforts with interested groups are essential to the success of the program. [1993 1st sp.s. c 2 § 45; 1985 c 458 § 1.]

Effective date—1993 1st sp.s. c 2 §§ 1-6, 8-59, and 61-79: See RCW 43.300.900.

75.50.070 Regional fisheries enhancement group authorized. (Effective July 1, 1994.) The legislature finds that it is in the best interest of the salmon resource of the state to encourage the development of regional fisheries enhancement groups. The accomplishments of one existing group, the Grays Harbor fisheries enhancement task force, have been widely recognized as being exemplary. The legislature recognizes the potential benefits to the state that would occur if each region of the state had a similar group of dedicated citizens working to enhance the salmon resource.

The legislature authorizes the formation of regional fisheries enhancement groups. These groups shall be eligible for state financial support and shall be actively supported by the department. The regional groups shall be operated on a strictly nonprofit basis, and shall seek to maximize the efforts of volunteer and private donations to improve the salmon resource for all citizens of the state. [1993 1st sp.s. c 2 § 46; 1989 c 426 § 1.]

75.50.080 Regional fisheries enhancement group—Goals. (Effective July 1, 1994.) Regional fisheries enhancement groups, consistent with the long-term regional policy statements developed under RCW 75.50.020, shall seek to:

- (1) Enhance the salmon resource of the state;
- (2) Maximize volunteer efforts and private donations to improve the salmon resource for all citizens;
- (3) Assist the department in achieving the goal to double the state-wide salmon catch by the year 2000 under chapter 214, Laws of 1988; and
- (4) Develop projects designed to supplement the fishery enhancement capability of the department. [1993 1st sp.s. c 2 § 47; 1989 c 426 § 4.]

75.50.100 Regional fisheries enhancement group account—Revenue sources, uses, and limitations. (Effective January 1, 1994.) The dedicated regional fisheries enhancement group account is created in the custody of the state treasurer. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures.

A surcharge of one dollar shall be collected on each recreational personal use food fish license sold in the state. A surcharge of one hundred dollars shall be collected on each commercial salmon fishery license, each salmon delivery license, and each salmon charter license sold in the state. The department shall study methods for collecting and making available, an annual list, including names and addresses, of all persons who obtain recreational and commercial salmon fishing licenses. This list may be used to assist formation of the regional fisheries enhancement groups and allow the broadest participation of license holders in enhancement efforts. The results of the study shall be reported to the house of representatives fisheries and wildlife committee and the senate environment and natural resources committee by October 1, 1990. All receipts shall be placed in the regional fisheries enhancement group account and shall be used exclusively for regional fisheries enhancement group projects for the purposes of RCW 75.50.110. Funds from the regional fisheries enhancement group account shall not serve as replacement funding for department operated salmon projects that exist on January 1, 1991.

All revenue from the department's sale of salmon carcasses and eggs that return to group facilities shall be deposited in the regional fisheries enhancement group account for use by the regional fisheries enhancement group that produced the surplus. The director shall adopt rules to implement this section pursuant to chapter 34.05 RCW. [1993 1st sp.s. c 17 § 11; 1993 c 340 § 53; 1990 c 58 § 3.]

Reviser's note: This section was amended by 1993 c 340 § 53 and by 1993 1st sp.s. c 17 § 11, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—1990 c 58: See note following RCW 75.50.090.

75.50.130 Skagit river salmon recovery plan. (Effective July 1, 1994.) The director shall prepare a salmon recovery plan for the Skagit river. The plan shall include strategies for employing displaced timber workers to conduct salmon restoration and other tasks identified in the plan. The plan shall incorporate the best available technology in order to achieve maximum restoration of depressed salmon stocks. The plan must encourage the restoration of natural spawning areas and natural rearing of salmon but

must not preclude the development of an active hatchery program. [1993 1st sp.s. c 2 § 48; 1992 c 88 § 1.]

75.52.010 Legislative findings—Department to administer cooperative enhancement program. (Effective July 1, 1994.) The fish and wildlife resources of the state benefit by the contribution of volunteer recreational and commercial fishing organizations, schools, and other volunteer groups in cooperative projects under agreement with the department. These projects provide educational opportunities, improve the communication between the natural resources agencies and the public, and increase the fish and game resources of the state. In an effort to increase these benefits and realize the full potential of cooperative projects, the department shall administer a cooperative fish and wildlife enhancement program and enter agreements with volunteer groups relating to the operation of cooperative projects. 75.52.020 Definitions. (Effective July 1, 1994.) Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Volunteer group" means any person or group of persons interested in or party to an agreement with the department relating to a cooperative fish or wildlife project.

(2) "Cooperative project" means a project conducted by a volunteer group that will benefit the fish, shellfish, game bird, nongame wildlife, or game animal resources of the state and for which the benefits of the project, including fish and wildlife reared and released, are available to all citizens of the state. Indian tribes may elect to participate in cooperative fish and wildlife projects with the department.

(3) "Department" means the department of fish and wildlife. [1993 1st sp.s. c 2 § 50; 1988 c 36 § 42; 1984 c 72 § 2.]

75.52.035 Cooperative projects—Sale of surplus salmon eggs and carcasses. (Effective July 1, 1994.) The department may authorize the sale of surplus salmon eggs and carcasses by permitted cooperative projects for the purposes of defraying the expenses of the cooperative project. In no instance shall the department allow a profit to be realized through such sales. The department shall adopt rules to implement this section pursuant to chapter 34.05 RCW. [1993 1st sp.s. c 2 § 51; 1987 c 48 § 1.]

75.52.100 Cedar river spawning channel. (Effective July 1, 1994.) A salmon spawning channel shall be constructed on the Cedar river with the assistance and cooperation of the department. The department shall use existing personnel and the volunteer fisheries enhancement program outlined under chapter 75.52 RCW to assist in the planning, construction, and operation of the spawning channel. [1993 1st sp.s. c 2 § 52; 1989 c 85 § 3.]

Project designation—1989 c 85: "The legislature hereby designates the Cedar river sockeye salmon enhancement project as a "Washington state centennial salmon venture."" [1989 c 85 § 1.]

Legislative finding—1989 c 85: "The legislature recognizes that King county has a unique urban setting for a recreational fishery and that Lake Washington and the rivers flowing into it should be developed for greater salmon production. A Lake Washington fishery is accessible to fifty percent of the state's citizens by automobile in less than one hour. There has been extensive sockeye fishing success in Lake Washington, primarily from fish originating in the Cedar river. The legislature intends to enhance the Cedar river fishery by active state and local management and intends to maximize the Lake Washington sockeye salmon runs for recreational fishing for all of the citizens of the state. A sockeye enhancement program could produce two to three times the current numbers of returning adults. A sockeye enhancement project would increase the public's appreciation of our state's fisheries, would demonstrate the role of a clean environment, and would show that positive cooperation can exist between local and state government in planning and executing programs that directly serve the public. A spawning channel in the Cedar river has been identified as an excellent way to enhance the Lake Washington sockeye run. A public utility currently diverting water from the Cedar river for beneficial public use has expressed willingness to fund the planning, design, evaluation, construction, and operation of a spawning channel on the Cedar river." [1989 c 85 § 2.]

Severability—1989 c 85: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1989 c 85 § 11.]

75.52.110 Cedar river spawning channel—Technical committee—Policy committee. (Effective July 1, 1994.) The department shall chair a technical committee, which shall review the preparation of enhancement plans and construction designs for a Cedar river sockeye spawning channel. The technical committee shall consist of not more than eight members: One representative each from the department, national marine fisheries service, United States fish and wildlife service, and Muckleshoot Indian tribe; and four representatives from the public utility described in RCW 75.52.130. The technical committee will be guided by a policy committee, also to be chaired by the department,

which shall consist of not more than six members: One representative from the department, one from the Muckleshoot Indian tribe, and one from either the national marine fisheries service or the United States fish and wildlife service; and three representatives from the public utility described in RCW 75.52.130. The policy committee shall present a progress report to the senate and house of representatives natural resources and environment committees by January 1, 1990, and shall oversee the operation and evaluation of the spawning channel. The policy committee will continue its oversight until the policy committee concludes that the channel is meeting the production goals specified in RCW 75.52.120. 75.54.005 Findings. The legislature finds that recreational fishing opportunities for salmon and marine bottomfish have been dwindling in recent years. It is important to restore diminished recreational fisheries and to enhance the salmon and marine bottomfish resource to assure sustained productivity. Investments made in recreational fishing programs will repay the people of the state many times over in increased economic activity and in an improved quality of life. [1993 1st sp.s. c 2 § 82.]

75.54.006 Definition—Expiration of section. (1) As used in this chapter, "department of fish and wildlife" means the department of fisheries.

(2) This section expires June 30, 1994. [1993 1st sp.s. c 2 § 101.]

75.54.010 Program created—Coordinator. There is created within the department of fish and wildlife the Puget Sound recreational salmon and marine fish enhancement program. The department of fish and wildlife shall identify a coordinator for the program who shall act as spokesperson for the program and shall:

(1) Coordinate the activities of the Puget Sound recreational salmon and marine fish enhancement program, including the Lake Washington salmon fishery;

(2) Provide reports as needed to the legislature and the public; and

(3) Work within and outside of the department to achieve the goals stated in this chapter. [1993 1st sp.s. c 2 § 83.]

75.54.020 Department responsibilities. The department shall: Develop a short-term program of hatchery-based salmon enhancement using freshwater pond sites for the final rearing phase; solicit support from cooperative projects, regional enhancement groups, and other supporting organizations; conduct comprehensive research on resident and migratory salmon production opportunities; and conduct research on marine bottomfish production limitations and on methods for artificial propagation of marine bottomfish.

Long-term responsibilities of the department are to: Fully implement enhancement efforts for Puget Sound and Hood Canal resident salmon and marine bottomfish; identify opportunities to reestablish salmon runs into areas where they no longer exist; encourage naturally spawning salmon populations to develop to their fullest extent; and fully utilize hatchery programs to improve recreational fishing. [1993 1st sp.s. c 2 § 84.]

75.54.030 Planning and operation of programs—Assistance from nondepartmental sources. The department shall seek recommendations from persons who are expert on the planning and operation of programs for enhancement of recreational fisheries. The department shall fully use the expertise of the University of Washington college of fisheries and the sea grant program to develop research and enhancement programs. [1993 1st sp.s. c 2 § 85.]

75.54.040 Delayed-release chinook salmon—Freshwater rearing. The department shall develop new locations for the freshwater rearing of delayed-release chinook salmon. In calendar year 1994, at least one freshwater pond chinook salmon rearing site shall be developed and begin production in each of the following areas: South Puget Sound, central Puget Sound, north Puget Sound, and Hood Canal. Natural or artificial pond sites shall be preferred to net pens due to higher survival rates experienced from pond rearing. Rigorous predatory bird control measures shall be implemented. The goal of the program is to increase the production and planting of delayed-release chinook salmon to a level of three million fish annually by the year 2000. [1993 1st sp.s. c 2 § 86.]

75.54.050 Marine bottomfish species—Research, methods, and programs for artificial rearing. The department shall conduct research, develop methods, and implement programs for the artificial rearing and release of marine bottomfish species. Lingcod, halibut, rockfish, and Pacific cod shall be the species of primary emphasis due to their importance in the recreational fishery. [1993 1st sp.s. c 2 § 87.]

75.54.060 Additional research. The department shall undertake additional research to more fully evaluate improved enhancement techniques, hooking mortality rates, methods of mass marking, improvement of catch models, and sources of marine bottomfish mortality. Research shall be designed to give the best opportunity to provide information that can be applied to real-world recreational fishing needs. [1993 1st sp.s. c 2 § 88.]

75.54.070 Siting process for enhancement projects—Cooperation with other entities. The department shall work with the department of ecology, the department of wildlife, and local government entities to streamline the siting process for new enhancement projects. The department is encouraged to work with the legislature to develop statutory changes that enable expeditious processing and granting of permits for fish enhancement projects. [1993 1st sp.s. c 2 § 89.]

75.54.080 Public awareness program. The department's information and education section shall develop a public awareness program designed to educate the public on the elements of the recreational fishing program and to recruit volunteers to assist the department in implementing recreational fishing projects. Economic benefits of the program shall be emphasized. [1993 1st sp.s. c 2 § 90.]

75.54.090 Management of predators. The department shall increase efforts to document the effects of bird predators, harbor seals, sea lions, and predatory fish upon the salmon and marine fish resource. Every opportunity shall be explored to convince the federal government to amend the marine mammal protection act to allow for balanced management of predators, as well as to work with the United States fish and wildlife service to achieve workable control measures for predatory birds. [1993 1st sp.s. c 2 § 91.]

75.54.100 Plans to target hatchery-produced fish—Participation by fishing interests—Feasibility of increased survival and production of chinook and coho salmon. Indian tribal fishing interests and non-Indian commercial fishing groups shall be invited to participate in development of plans for selective fisheries that target hatchery-produced fish and minimize catch of naturally spawned fish. In addition, talks shall be initiated on the feasibility of altering the rearing programs of department hatcheries to achieve higher survival and greater production of chinook and coho salmon. [1993 1st sp.s. c 2 § 92.]

75.54.110 Coordination of sport fishing program with wild stock initiative. The department shall coordinate the sport fishing program with the wild stock initiative to assure that the two programs are compatible and potential conflicts are avoided. [1993 1st sp.s. c 2 § 93.]

75.54.120 Increased recreational access to salmon and marine fish resources—Plans. The department shall develop plans for increased recreational access to salmon and marine fish resources. Proposals for new boat launching ramps and pier fishing access shall be developed. [1993 1st sp.s. c 2 § 94.]

75.54.130 Recreational fishing projects—Contracting with entities. The department shall contract with private consultants, aquatic farms, or construction firms, where appropriate, to achieve the highest benefit-to-cost ratio for recreational fishing projects. [1993 1st sp.s. c 2 § 95.]

75.54.140 Annual recreational surcharge. Beginning January 1, 1994, persons who recreationally fish for salmon or marine bottomfish in marine area codes 5 through 13 and Lake Washington shall be assessed an annual recreational surcharge of ten dollars, in addition to other licensing requirements. Funds from the surcharge shall be deposited in the recreational fisheries enhancement account created in RCW 75.54.150, except that the first five hundred thousand dollars shall be deposited in the general fund before June 30, 1995, to repay the appropriation made by section 104, chapter 2, Laws of 1993 1st sp. sess. [1993 1st sp.s. c 2 § 97.]

75.54.150 Recreational fisheries enhancement account. The recreational fisheries enhancement account is created in the state treasury. All receipts from RCW 75.54.140 shall be deposited into the account. Moneys in the account may be spent only after appropriation. Expenditures from the account may be used only for recreational fisheries enhancement programs. [1993 1st sp.s. c 2 § 98.]

75.54.900 Effective date—1993 1st sp.s. c 2 §§ 7, 60, 80, and 82-100. Sections 7, 60, 80, and 82 through 100 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993. [1993 1st sp.s. c 2 § 105.] For codifi-

cation of 1993 1st sp.s. c 2, see Codification Tables, this volume.

75.58.010 Disease inspection and control for aquatic farmers—Development of program—Elements—Rules—Violations. (Effective July 1, 1994.) (1) The director of agriculture and the director shall jointly develop a program of disease inspection and control for aquatic farmers as defined in RCW 15.85.020. The program shall be administered by the department under rules established under this section. The purpose of the program is to protect the aquaculture industry and wildstock fisheries from a loss of productivity due to aquatic diseases or maladies. As used in this section "diseases" means, in addition to its ordinary meaning, infestations of parasites or pests. The disease program may include, but is not limited to, the following elements:

- (a) Disease diagnosis;
- (b) Import and transfer requirements;
- (c) Provision for certification of stocks;
- (d) Classification of diseases by severity;
- (e) Provision for treatment of selected high-risk diseases;
- (f) Provision for containment and eradication of high-risk diseases;
- (g) Provision for destruction of diseased cultured aquatic products;
- (h) Provision for quarantine of diseased cultured aquatic products;
- (i) Provision for coordination with state and federal agencies;
- (j) Provision for development of preventative or control measures;
- (k) Provision for cooperative consultation service to aquatic farmers; and
- (l) Provision for disease history records.

(2) The director shall adopt rules implementing this section. However, such rules shall have the prior approval of the director of agriculture and shall provide therein that the director of agriculture has provided such approval. The director of agriculture or the director's designee shall attend the rule-making hearings conducted under chapter 34.05 RCW and shall assist in conducting those hearings. The authorities granted the department by these rules and by

RCW 75.08.080(1)(g), 75.24.080, 75.24.110, 75.28.125, 75.58.020, 75.58.030, and 75.58.040 constitute the only authorities of the department to regulate private sector cultured aquatic products and aquatic farmers as defined in RCW 15.85.020. Except as provided in subsection (3) of this section, no action may be taken against any person to enforce these rules unless the department has first provided the person an opportunity for a hearing. In such a case, if the hearing is requested, no enforcement action may be taken before the conclusion of that hearing.

(3) The rules adopted under this section shall specify the emergency enforcement actions that may be taken by the department, and the circumstances under which they may be taken, without first providing the affected party with an opportunity for a hearing. Neither the provisions of this subsection nor the provisions of subsection (2) of this section shall preclude the department from requesting the initiation of criminal proceedings for violations of the disease inspection and control rules.

(4) It is unlawful for any person to violate the rules adopted under subsection (2) or (3) of this section or to violate RCW 75.58.040.

(5) In administering the program established under this section, the department shall use the services of a pathologist licensed to practice veterinary medicine.

(6) The director in administering the program shall not place constraints on or take enforcement actions in respect to the aquaculture industry that are more rigorous than those placed on the department or other fish-rearing entities. [1993 1st sp.s. c 2 § 55; 1988 c 36 § 43; 1985 c 457 § 8.]

75.58.020 Disease inspection and control program—User fees—Aquaculture disease control account. (Effective July 1, 1994.) The directors of agriculture and fish and wildlife shall jointly adopt by rule, in the manner prescribed in RCW 75.58.010(2), a schedule of user fees for the disease inspection and control program established under RCW 75.58.010. The fees shall be established such that the program shall be entirely funded by revenues derived from the user fees by the beginning of the 1987-89 biennium.

There is established in the state treasury an account known as the aquaculture disease control account which is subject to appropriation. Proceeds of fees charged under this section shall be deposited in the account. Moneys from the account shall be used solely for administering the disease inspection and control program established under RCW 75.58.010. [1993 1st sp.s. c 2 § 56; 1985 c 457 § 9.]

75.58.030 Consultation required—Agreements for diagnostic field services authorized—Roster of biologists. (Effective July 1, 1994.) (1) The director shall consult regarding the disease inspection and control program established under RCW 75.58.010 with federal agencies and Indian tribes to assure protection of state, federal, and tribal aquatic resources and to protect private sector cultured

aquatic products from disease that could originate from waters or facilities managed by those agencies.

(2) With regard to the program, the director may enter into contracts or interagency agreements for diagnostic field services with government agencies and institutions of higher education and private industry.

(3) The director shall provide for the creation and distribution of a roster of biologists having a speciality [specialty] in the diagnosis or treatment of diseases of fish or shellfish. The director shall adopt rules specifying the qualifications which a person must have in order to be placed on the roster. [1993 1st sp.s. c 2 § 57; 1988 c 36 § 44; 1985 c 457 § 10.]

75.58.040 Registration of aquatic farmers. (Effective July 1, 1994.) All aquatic farmers as defined in RCW 15.85.020 shall register with the department. The director shall develop and maintain a registration list of all aquaculture farms. Registered aquaculture farms shall provide the department production statistical data. The state veterinarian shall be provided with registration and statistical data by the department. [1993 1st sp.s. c 2 § 58; 1988 c 36 § 45; 1985 c 457 § 11.]

FOREST PROTECTION

Sections

- 76.04.015 Fire protection powers and duties of department—Enforcement—Investigation—Administration.
- 76.04.016 Fire prevention and suppression capacity—Duties owed to public in general—Legislative intent.
- 76.04.495 Negligent starting of fires or allowance of extreme fire hazard or debris—Liability—Recovery of reasonable expenses—Lien.
- 76.04.610 Forest fire protection assessment.
- 76.04.630 Landowner contingency forest fire suppression account—Expenditures—Assessments.

76.04.015 Fire protection powers and duties of department—Enforcement—Investigation—Administration. (1) The department may, at its discretion, appoint trained personnel possessing the necessary qualifications to carry out the duties and supporting functions of the department and may determine their respective salaries.

(2) The department shall have direct charge of and supervision of all matters pertaining to the forest fire service of the state.

(3) The department shall:

- (a) Enforce all laws within this chapter;
- (b) Be empowered to take charge of and direct the work of suppressing forest fires;
- (c) Investigate the origin and cause of all forest fires to determine whether either a criminal act or negligence by any person, firm, or corporation caused the starting, spreading, or existence of the fire. In conducting investigations, the department shall work cooperatively, to the extent possible, with utilities, property owners, and other interested parties to identify and preserve evidence. Except as provided otherwise in this subsection, the department in conducting investigations is authorized, without court order, to take possession or control of relevant evidence found in plain view and belonging to any person, firm, or corporation. To the extent possible, the department shall notify the person, firm, or corporation of its intent to take possession or control of the evidence. The person, firm, or corporation shall be afforded reasonable opportunity to view the evidence and, before the department takes possession or control of the evidence, also shall be afforded reasonable opportunity to examine, document, and photograph it. If the person, firm, or corporation objects in writing to the department's taking possession or control of the evidence, the department must either return the evidence within seven days after the day on which the department is provided with the written objections or obtain a court order authorizing the continued possession or control.

Absent a court order authorizing otherwise, the department may not take possession or control of evidence over the objection of the owner of the evidence if: (i) The evidence is used by the owner in conducting a business or in providing an electric utility service; and (ii) the department's taking possession or control of the evidence would substantially and materially interfere with the operation of the business or provision of electric utility service.

Absent a court order authorizing otherwise, the department may not take possession or control of evidence over the objection of an electric utility when the evidence is not owned by the utility but has caused damage to property owned by the utility. However, this paragraph does not apply if the department has notified the utility of its intent to take possession or control of the evidence and provided the utility with reasonable time to examine, document, and photograph the evidence.

Only personnel qualified to work on electrical equipment may take possession or control of evidence owned or controlled by an electric utility;

(d) Furnish notices or information to the public calling attention to forest fire dangers and the penalties for violation of this chapter;

(e) Be familiar with all timbered and cut-over areas of the state; and

(f) Regulate and control the official actions of its employees, the wardens, and the rangers.

(4) The department may:

- (a) Authorize all needful and proper expenditures for forest protection;

(b) Adopt rules for the prevention, control, and suppression of forest fires as it considers necessary including but not limited to: Fire equipment and materials; use of personnel; and fire prevention standards and operating conditions including a provision for reducing these conditions where justified by local factors such as location and weather;

(c) Remove at will the commission of any ranger or suppress the authority of any warden;

(d) Inquire into:

(i) The extent, kind, value, and condition of all timber lands within the state;

(ii) The extent to which timber lands are being destroyed by fire and the damage thereon.

(5) When the department considers it to be in the best interest of the state, it may cooperate with any agency of another state, the United States or any agency thereof, the Dominion of Canada or any agency or province thereof, and any county, town, corporation, individual, or Indian tribe within the state of Washington in forest fire fighting and patrol. [1993 c 196 § 3; 1986 c 100 § 2.]

76.04.016 Fire prevention and suppression capacity—Duties owed to public in general—Legislative intent. The department when acting, in good faith, in its statutory capacity as a fire prevention and suppression agency, is carrying out duties owed to the public in general and not to any individual person or class of persons separate and apart from the public. Nothing contained in this title, including but not limited to any provision dealing with payment or collection of forest protection or fire suppression assessments, may be construed to evidence a legislative intent that the duty to prevent and suppress forest fires is owed to any individual person or class of persons separate and apart from the public in general. This section does not alter the department's duties and responsibilities as a landowner. [1993 c 196 § 1.]

76.04.495 Negligent starting of fires or allowance of extreme fire hazard or debris—Liability—Recovery of reasonable expenses—Lien. (1) Any person, firm, or corporation: (a) Whose negligence is responsible for the starting or existence of a fire which spreads on forest land; or (b) who creates or allows an extreme fire hazard under RCW 76.04.660 to exist and which hazard contributes to the spread of a fire; or (c) who allows forest debris subject to RCW 76.04.650 to exist and which debris contributes to the spread of fire, shall be liable for any reasonable expenses made necessary by (a), (b), or (c) of this subsection. The state, a municipality, a forest protective association, or any fire protection agency of the United States may recover such reasonable expenses in fighting the fire, together with costs of investigation and litigation including reasonable attorneys' fees and taxable court costs, if the expense was authorized or subsequently approved by the department. The authority granted under this subsection allowing the recovery of reasonable expenses incurred by fire protection agencies of the United States shall apply only to such expenses incurred after June 30, 1993.

(2) The department or agency incurring such expense shall have a lien for the same against any property of the person, firm, or corporation liable under subsection (1) of

this section by filing a claim of lien naming the person, firm, or corporation, describing the property against which the lien is claimed, specifying the amount expended on the lands on which the fire fighting took place and the period during which the expenses were incurred, and signing the claim with post office address. No claim of lien is valid unless filed, with the county auditor of the county in which the property sought to be charged is located, within a period of ninety days after the expenses of the claimant are incurred. The lien may be foreclosed in the same manner as a mechanic's lien is foreclosed under the statutes of the state of Washington. [1993 c 196 § 2; 1986 c 100 § 33.]

76.04.610 Forest fire protection assessment. (1) If any owner of forest land within a forest protection zone neglects or fails to provide adequate fire protection as required by RCW 76.04.600, the department shall provide such protection and shall annually impose the following assessments on each parcel of such land: (a) A flat fee assessment of fourteen dollars and fifty cents; and (b) twenty-two cents on each acre exceeding fifty acres. Assessors may, at their option, collect the assessment on tax exempt lands. If the assessor elects not to collect the assessment, the department may bill the landowner directly.

(2) An owner who has paid assessments on two or more parcels, each containing fewer than fifty acres and each within the same county, may obtain the following refund:

(a) If all the parcels together contain less than fifty acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) fourteen dollars and (ii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

(b) If all the parcels together contain fifty or more acres, then the refund is equal to the flat fee assessments paid, reduced by the total of (i) fourteen dollars, (ii) twenty-two cents for each acre exceeding fifty acres, and (iii) the total of the amounts retained by the county from such assessments under subsection (5) of this section.

Applications for refunds shall be submitted to the department on a form prescribed by the department and in the same year in which the assessments were paid. The department may not provide refunds to applicants who do not provide verification that all assessments and property taxes on the property have been paid. Applications may be made by mail.

(3) Beginning January 1, 1991, under the administration and at the discretion of the department up to two hundred thousand dollars per year of this assessment shall be used in support of those rural fire districts assisting the department in fire protection services on forest lands.

(4) For the purpose of this chapter, the department may divide the forest lands of the state, or any part thereof, into districts, for fire protection and assessment purposes, may classify lands according to the character of timber prevailing, and the fire hazard existing, and place unprotected lands under the administration of the proper district. Amounts paid or contracted to be paid by the department for protection of forest lands from funds at its disposal shall be a lien upon the property protected, unless reimbursed by the owner within ten days after October 1st of the year in which they were incurred. The department shall be prepared to make

statement thereof, upon request, to a forest owner whose own protection has not been previously approved as to its adequacy, the department shall report the same to the assessor of the county in which the property is situated. The assessor shall extend the amounts upon the tax rolls covering the property, and upon authorization from the department shall levy the forest protection assessment against the amounts of unimproved land as shown in each ownership on the county assessor's records. The assessor may then segregate on the records to provide that the improved land and improvements thereon carry the millage levy designed to support the rural fire protection districts as provided for in RCW 52.16.170.

(5) The amounts assessed shall be collected at the time, in the same manner, by the same procedure, and with the same penalties attached that general state and county taxes on the same property are collected, except that errors in assessments may be corrected at any time by the department certifying them to the treasurer of the county in which the land involved is situated. Assessments shall be known and designated as assessments of the year in which the amounts became reimbursable. Upon the collection of assessments the county treasurer shall place fifty cents of the total assessments paid on a parcel for fire protection into the county current expense fund to defray the costs of listing, billing, and collecting these assessments. The treasurer shall then transmit the balance to the department. Collections shall be applied against expenses incurred in carrying out the provisions of this section, including necessary and reasonable administrative costs incurred by the department in the enforcement of these provisions. The department may also expend sums collected from owners of forest lands or received from any other source for necessary administrative costs in connection with the enforcement of RCW 76.04.660.

(6) When land against which forest protection assessments are outstanding is acquired for delinquent taxes and sold at public auction, the state shall have a prior lien on the proceeds of sale over and above the amount necessary to satisfy the county's delinquent tax judgment. The county treasurer, in case the proceeds of sale exceed the amount of the delinquent tax judgment, shall immediately remit to the department the amount of the outstanding forest protection assessments.

(7) All nonfederal public bodies owning or administering forest land included in a forest protection zone shall pay the forest protection assessments provided in this section and the special forest fire suppression account assessments under RCW 76.04.630. The forest protection assessments and special forest fire suppression account assessments shall be payable by nonfederal public bodies from available funds within thirty days following receipt of the written notice from the department which is given after October 1st of the year in which the protection was provided. Unpaid assessments shall not be a lien against the nonfederal publicly owned land but shall constitute a debt by the nonfederal public body to the department and shall be subject to interest charges at the legal rate.

(8) A public body, having failed to previously pay the forest protection assessments required of it by this section, which fails to suppress a fire on or originating from forest lands owned or administered by it, shall be liable for the costs of suppression incurred by the department or its agent

and shall not be entitled to reimbursement of costs incurred by the public body in the suppression activities.

(9) The department may adopt rules to implement this section, including, but not limited to, rules on levying and collecting forest protection assessments. [1993 c 36 § 1; 1989 c 362 § 1; 1988 c 273 § 3; 1986 c 100 § 35.]

Effective date—1993 c 36: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [April 15, 1993]." [1993 c 36 § 3.]

76.04.630 Landowner contingency forest fire suppression account—Expenditures—Assessments. There is created a landowner contingency forest fire suppression account in the state treasury. Moneys in the account may be spent only as provided in this section. Disbursements from the account shall be on authorization of the commissioner of public lands or the commissioner's designee. The account is subject to the allotment procedure provided under chapter 43.88 RCW, but no appropriation is required for disbursements.

The department may expend from this account the amounts as may be available and as it considers appropriate for the payment of emergency fire costs resulting from a participating landowner fire. The department may, when moneys are available from the landowner contingency forest fire suppression account, expend moneys for summarily abating, isolating, or reducing an extreme fire hazard under RCW 76.04.660. All moneys recovered as a result of the department's actions, from the owner or person responsible, under RCW 76.04.660 shall be deposited in the landowner contingency forest fire suppression account.

When a determination is made that the fire was started by other than a landowner operation, moneys expended from this account in the suppression of such fire shall be recovered from the general fund appropriations as may be available for emergency fire suppression costs. The department shall deposit in the landowner contingency forest fire suppression account moneys paid out of the account which are later recovered, less reasonable costs of recovery.

This account shall be established and renewed by an annual special forest fire suppression account assessment paid by participating landowners at a rate to be established by the department. In establishing assessments, the department shall seek to establish and thereafter reestablish a balance in the account of three million dollars. The department may establish a flat fee assessment of no more than seven dollars and fifty cents for participating landowners owning parcels of fifty acres or less. For participating landowners owning parcels larger than fifty acres, the department may charge the flat fee assessment plus a per acre assessment for every acre over fifty acres. The per acre assessment established by the department may not exceed fifteen cents per acre per year. The assessments may differ to equitably distribute the assessment based on emergency fire suppression cost experience necessitated by landowner operations. Amounts assessed for this account shall be a lien upon the forest lands with respect to which the assessment is made and may be collected as directed by the department in the same manner as forest protection assessments. Payment of emergency costs from this account shall

in no way restrict the right of the department to recover costs pursuant to RCW 76.04.495 or other laws.

When the department determines that a forest fire was started in the course of or as a result of a landowner operation, it shall notify the forest fire advisory board of the determination. The determination shall be final, unless, within ninety days of the notification, the forest fire advisory board or an interested party serves a request for a hearing before the department. The hearing shall constitute an adjudicative proceeding under chapter 34.05 RCW, the administrative procedure act, and an appeal shall be in accordance with RCW 34.05.510 through 34.05.598. [1993 c 36 § 2; 1991 sp.s. c 13 § 31. Prior: 1989 c 362 § 2; 1989 c 175 § 162; 1986 c 100 § 37.]

76.09.010 Legislative finding and declaration. (1) The legislature hereby finds and declares that the forest land resources are among the most valuable of all resources in the state; that a viable forest products industry is of prime importance to the state's economy; that it is in the public interest for public and private commercial forest lands to be managed consistent with sound policies of natural resource protection; that coincident with maintenance of a viable forest products industry, it is important to afford protection to forest soils, fisheries, wildlife, water quantity and quality, air quality, recreation, and scenic beauty.

(2) The legislature further finds and declares it to be in the public interest of this state to create and maintain through the adoption of this chapter a comprehensive state-wide system of laws and forest practices regulations which will achieve the following purposes and policies:

(a) Afford protection to, promote, foster and encourage timber growth, and require such minimum reforestation of commercial tree species on forest lands as will reasonably utilize the timber growing capacity of the soil following current timber harvest;

(b) Afford protection to forest soils and public resources by utilizing all reasonable methods of technology in conducting forest practices;

(c) Recognize both the public and private interest in the profitable growing and harvesting of timber;

(d) Promote efficiency by permitting maximum operating freedom consistent with the other purposes and policies stated herein;

(e) Provide for regulation of forest practices so as to avoid unnecessary duplication in such regulation;

(f) Provide for interagency input and intergovernmental and tribal coordination and cooperation;

(g) Achieve compliance with all applicable requirements of federal and state law with respect to nonpoint sources of water pollution from forest practices;

(h) To consider reasonable land use planning goals and concepts contained in local comprehensive plans and zoning regulations; and

(i) Foster cooperation among managers of public resources, forest landowners, Indian tribes and the citizens of the state.

(3) The legislature further finds and declares that it is also in the public interest of the state to encourage forest landowners to undertake corrective and remedial action to reduce the impact of mass earth movements and fluvial processes.

(4) The legislature further finds and declares that it is in the public interest that the applicants for state forest practice permits should assist in paying for the cost of review and permitting necessary for the environmental protection of these resources. 76.09.040 Forest practices regulations—Promulgation—Review of proposed regulations—Hearings—Adoption. (1) Where necessary to accomplish the purposes and policies stated in RCW 76.09.010, and to implement the provisions of this chapter, the board shall promulgate forest practices regulations pursuant to chapter 34.05 RCW and in accordance with the procedures enumerated in this section that:

- (a) Establish minimum standards for forest practices;
- (b) Provide procedures for the voluntary development of resource management plans which may be adopted as an alternative to the minimum standards in (a) of this subsection if the plan is consistent with the purposes and policies stated in RCW 76.09.010 and the plan meets or exceeds the objectives of the minimum standards;
- (c) Set forth necessary administrative provisions; and
- (d) Establish procedures for the collection and administration of forest practice fees as set forth by this chapter.

Forest practices regulations pertaining to water quality protection shall be promulgated individually by the board and by the department of ecology after they have reached agreement with respect thereto. All other forest practices regulations shall be promulgated by the board.

Forest practices regulations shall be administered and enforced by the department except as otherwise provided in this chapter. Such regulations shall be promulgated and administered so as to give consideration to all purposes and policies set forth in RCW 76.09.010.

(2) The board shall prepare proposed forest practices regulations. In addition to any forest practices regulations

relating to water quality protection proposed by the board, the department of ecology shall prepare proposed forest practices regulations relating to water quality protection.

Prior to initiating the rule making process, the proposed regulations shall be submitted for review and comments to the department of fisheries, the department of wildlife, and to the counties of the state. After receipt of the proposed forest practices regulations, the departments of fisheries and wildlife and the counties of the state shall have thirty days in which to review and submit comments to the board, and to the department of ecology with respect to its proposed regulations relating to water quality protection. After the expiration of such thirty day period the board and the department of ecology shall jointly hold one or more hearings on the proposed regulations pursuant to chapter 34.05 RCW. At such hearing(s) any county may propose specific forest practices regulations relating to problems existing within such county. The board and the department of ecology may adopt such proposals if they find the proposals are consistent with the purposes and policies of this chapter. [1993 c 443 § 2; 1988 c 36 § 46; 1987 c 95 § 8; 1974 ex.s. c 137 § 4.]

Effective date—1993 c 443: See note following RCW 76.09.010.

76.09.050 Rules establishing classes of forest practices—Applications for classes of forest practices—Approval or disapproval—Notifications—Procedures—Appeals—Waiver. (1) The board shall establish by rule which forest practices shall be included within each of the following classes:

Class I: Minimal or specific forest practices that have no direct potential for damaging a public resource that may be conducted without submitting an application or a notification;

Class II: Forest practices which have a less than ordinary potential for damaging a public resource that may be conducted without submitting an application and may begin five calendar days, or such lesser time as the department may determine, after written notification by the operator, in the manner, content, and form as prescribed by the department, is received by the department. However, the work may not begin until all forest practice fees required under RCW 76.09.065 have been received by the department. Class II shall not include forest practices:

- (a) On lands platted after January 1, 1960, or being converted to another use;
- (b) Which require approvals under the provisions of the hydraulics act, RCW 75.20.100;
- (c) Within "shorelines of the state" as defined in RCW 90.58.030; or
- (d) Excluded from Class II by the board;

Class III: Forest practices other than those contained in Class I, II, or IV. A Class III application must be approved or disapproved by the department within thirty calendar days from the date the department receives the application. However, the applicant may not begin work on that forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department;

Class IV: Forest practices other than those contained in Class I or II: (a) On lands platted after January 1, 1960, (b) on lands being converted to another use, (c) on lands which,

pursuant to RCW 76.09.070 as now or hereafter amended, are not to be reforested because of the likelihood of future conversion to urban development, and/or (d) which have a potential for a substantial impact on the environment and therefore require an evaluation by the department as to whether or not a detailed statement must be prepared pursuant to the state environmental policy act, chapter 43.21C RCW. Such evaluation shall be made within ten days from the date the department receives the application: PROVIDED, That nothing herein shall be construed to prevent any local or regional governmental entity from determining that a detailed statement must be prepared for an action pursuant to a Class IV forest practice taken by that governmental entity concerning the land on which forest practices will be conducted. A Class IV application must be approved or disapproved by the department within thirty calendar days from the date the department receives the application, unless the department determines that a detailed statement must be made, in which case the application must be approved or disapproved by the department within sixty calendar days from the date the department receives the application, unless the commissioner of public lands, through the promulgation of a formal order, determines that the process cannot be completed within such period. However, the applicant may not begin work on that forest practice until all forest practice fees required under RCW 76.09.065 have been received by the department.

Forest practices under Classes I, II, and III are exempt from the requirements for preparation of a detailed statement under the state environmental policy act.

(2) No Class II, Class III, or Class IV forest practice shall be commenced or continued after January 1, 1975, unless the department has received a notification with regard to a Class II forest practice or approved an application with regard to a Class III or Class IV forest practice containing all information required by RCW 76.09.060 as now or hereafter amended: PROVIDED, That any person commencing a forest practice during 1974 may continue such forest practice until April 1, 1975, if such person has submitted an application to the department prior to January 1, 1975: PROVIDED, FURTHER, That in the event forest practices regulations necessary for the scheduled implementation of this chapter and RCW 90.48.420 have not been adopted in time to meet such schedules, the department shall have the authority to regulate forest practices and approve applications on such terms and conditions consistent with this chapter and RCW 90.48.420 and the purposes and policies of RCW 76.09.010 until applicable forest practices regulations are in effect.

(3) If a notification or application is delivered in person to the department by the operator or his agent, the department shall immediately provide a dated receipt thereof. In all other cases, the department shall immediately mail a dated receipt to the operator.

(4) Forest practices shall be conducted in accordance with the forest practices regulations, orders and directives as authorized by this chapter or the forest practices regulations, and the terms and conditions of any approved applications.

(5) The department of natural resources shall notify the applicant in writing of either its approval of the application or its disapproval of the application and the specific manner

in which the application fails to comply with the provisions of this section or with the forest practices regulations. Except as provided otherwise in this section, if the department fails to either approve or disapprove an application or any portion thereof within the applicable time limit, the application shall be deemed approved and the operation may be commenced: PROVIDED, That this provision shall not apply to applications which are neither approved nor disapproved pursuant to the provisions of subsection (7) of this section: PROVIDED, FURTHER, That if seasonal field conditions prevent the department from being able to properly evaluate the application, the department may issue an approval conditional upon further review within sixty days: PROVIDED, FURTHER, That the department shall have until April 1, 1975, to approve or disapprove an application involving forest practices allowed to continue to April 1, 1975, under the provisions of subsection (2) of this section. Upon receipt of any notification or any satisfactorily completed application the department shall in any event no later than two business days after such receipt transmit a copy to the departments of ecology, wildlife, and fisheries, and to the county, city, or town in whose jurisdiction the forest practice is to be commenced. Any comments by such agencies shall be directed to the department of natural resources.

(6) If the county, city, or town believes that an application is inconsistent with this chapter, the forest practices regulations, or any local authority consistent with RCW 76.09.240 as now or hereafter amended, it may so notify the department and the applicant, specifying its objections.

(7) The department shall not approve portions of applications to which a county, city, or town objects if:

(a) The department receives written notice from the county, city, or town of such objections within fourteen business days from the time of transmittal of the application to the county, city, or town, or one day before the department acts on the application, whichever is later; and

(b) The objections relate to lands either:

(i) Platted after January 1, 1960; or

(ii) Being converted to another use.

The department shall either disapprove those portions of such application or appeal the county, city, or town objections to the appeals board. If the objections related to subparagraphs (b) (i) and (ii) of this subsection are based on local authority consistent with RCW 76.09.240 as now or hereafter amended, the department shall disapprove the application until such time as the county, city, or town consents to its approval or such disapproval is reversed on appeal. The applicant shall be a party to all department appeals of county, city, or town objections. Unless the county, city, or town either consents or has waived its rights under this subsection, the department shall not approve portions of an application affecting such lands until the minimum time for county, city, or town objections has expired.

(8) In addition to any rights under the above paragraph, the county, city, or town may appeal any department approval of an application with respect to any lands within its jurisdiction. The appeals board may suspend the department's approval in whole or in part pending such

appeal where there exists potential for immediate and material damage to a public resource.

(9) Appeals under this section shall be made to the appeals board in the manner and time provided in RCW 76.09.220(8). In such appeals there shall be no presumption of correctness of either the county, city, or town or the department position.

(10) The department shall, within four business days notify the county, city, or town of all notifications, approvals, and disapprovals of an application affecting lands within the county, city, or town, except to the extent the county, city, or town has waived its right to such notice.

(11) A county, city, or town may waive in whole or in part its rights under this section, and may withdraw or modify any such waiver, at any time by written notice to the department. 76.09.060 Applications for forest practices—Form—Contents—Conversion of forest land to other use—New applications—Approval—Emergencies. (1) The department shall prescribe the form and contents of the notification and application. The forest practices rules shall specify by whom and under what conditions the notification and application shall be signed or otherwise certified as acceptable. The application or notification shall be delivered in person to the department, sent by first class mail to the department or electronically filed in a form defined by the department. The form for electronic filing shall be readily convertible to a paper copy, which shall be available to the public pursuant to chapter 42.17 RCW. The information required may include, but is not limited to:

- (a) Name and address of the forest landowner, timber owner, and operator;
- (b) Description of the proposed forest practice or practices to be conducted;
- (c) Legal description of the land on which the forest practices are to be conducted;
- (d) Planimetric and topographic maps showing location and size of all lakes and streams and other public waters in and immediately adjacent to the operating area and showing all existing and proposed roads and major tractor roads;
- (e) Description of the silvicultural, harvesting, or other forest practice methods to be used, including the type of equipment to be used and materials to be applied;
- (f) Proposed plan for reforestation and for any revegetation necessary to reduce erosion potential from roadsides and yarding roads, as required by the forest practices rules;
- (g) Soil, geological, and hydrological data with respect to forest practices;
- (h) The expected dates of commencement and completion of all forest practices specified in the application;
- (i) Provisions for continuing maintenance of roads and other construction or other measures necessary to afford protection to public resources;

(j) An affirmation that the statements contained in the notification or application are true; and

(k) All necessary application or notification fees.

(2) Long range plans may be submitted to the department for review and consultation.

(3) The application for a forest practice or the notification of a class II forest practice shall indicate whether any land covered by the application or notification will be converted or is intended to be converted to a use other than commercial timber production within three years after completion of the forest practices described in it.

(a) If the application states that any such land will be or is intended to be so converted:

(i) The reforestation requirements of this chapter and of the forest practices rules shall not apply if the land is in fact so converted unless applicable alternatives or limitations are provided in forest practices rules issued under RCW 76.09.070 as now or hereafter amended;

(ii) Completion of such forest practice operations shall be deemed conversion of the lands to another use for purposes of chapters 84.33 and 84.34 RCW unless the conversion is to a use permitted under a current use tax agreement permitted under chapter 84.34 RCW;

(iii) The forest practices described in the application are subject to applicable county, city, town, and regional governmental authority permitted under RCW 76.09.240 as now or hereafter amended as well as the forest practices rules.

(b) If the application or notification does not state that any land covered by the application or notification will be or is intended to be so converted:

(i) For six years after the date of the application the county, city, town, and regional governmental entities may deny any or all applications for permits or approvals, including building permits and subdivision approvals, relating to nonforestry uses of land subject to the application;

(ii) Failure to comply with the reforestation requirements contained in any final order or decision shall constitute a removal of designation under the provisions of RCW 84.33.140, and a change of use under the provisions of RCW 84.34.080, and, if applicable, shall subject such lands to the payments and/or penalties resulting from such removals or changes; and

(iii) Conversion to a use other than commercial timber operations within three years after completion of the forest practices without the consent of the county, city, or town shall constitute a violation of each of the county, municipal city, town, and regional authorities to which the forest practice operations would have been subject if the application had so stated.

(c) The application or notification shall be either signed by the landowner or accompanied by a statement signed by the landowner indicating his or her intent with respect to conversion and acknowledging that he or she is familiar with the effects of this subsection.

(4) Whenever an approved application authorizes a forest practice which, because of soil condition, proximity to a water course or other unusual factor, has a potential for causing material damage to a public resource, as determined by the department, the applicant shall, when requested on the approved application, notify the department two days before the commencement of actual operations.

(5) Before the operator commences any forest practice in a manner or to an extent significantly different from that described in a previously approved application or notification, there shall be submitted to the department a new application or notification form in the manner set forth in this section.

(6) The notification to or the approval given by the department to an application to conduct a forest practice shall be effective for a term of two years from the date of approval or notification and shall not be renewed unless a new application is filed and approved or a new notification has been filed. At the option of the applicant, an application or notification may be submitted to cover a single forest practice or a number of forest practices within reasonable geographic or political boundaries as specified by the department. An application or notification that covers more than one forest practice may have an effective term of more than two years. The board shall adopt rules that establish standards and procedures for approving an application or notification that has an effective term of more than two years. Such rules shall include extended time periods for application or notification approval or disapproval. On an approved application with a term of more than two years, the applicant shall inform the department before commencing operations.

(7) Notwithstanding any other provision of this section, no prior application or notification shall be required for any emergency forest practice necessitated by fire, flood, windstorm, earthquake, or other emergency as defined by the board, but the operator shall submit an application or notification, whichever is applicable, to the department within forty-eight hours after commencement of such practice. [1993 c 443 § 4; 1992 c 52 § 22; 1990 1st ex.s. c 17 § 62; 1975 1st ex.s. c 200 § 3; 1974 ex.s. c 137 § 6.]

Effective date—1993 c 443: See note following RCW 76.09.010.

Effective date—1992 c 52 § 22: "Section 22 of this act shall take effect August 1, 1992." [1992 c 52 § 27.]

Severability—Part, section headings not law—1990 1st ex.s. c 17: See RCW 36.70A.900 and 36.70A.901.

76.09.065 Application for forest practices—Fee. (1) Effective July 1, 1993, an applicant shall pay a fee at the time an application or notification is submitted pursuant to RCW 76.09.060. All money collected from the fees under this section shall be deposited in the state general fund. The fee shall be fifty dollars for class II, III, and IV forest practices applications or notifications relating to the commercial harvest of timber. However, the fee shall be five hundred dollars for class IV forest practices applications on lands being converted to other uses or on lands which are not to be reforested because of the likelihood of future conversion to urban development.

(2) An application fee under subsection (1) of this section shall be refunded or credited to the applicant if either the application is disapproved by the department or the application is withdrawn by the applicant due to restrictions imposed by the department. [1993 c 443 § 5.]

Effective date—1993 c 443: See note following RCW 76.09.010.

76.09.140 Enforcement. (1) The department of natural resources may take any necessary action to enforce

any final order or final decision, and may disapprove for up to one year any forest practices application or notification submitted by any person who has failed to comply with a final order or final decision or has failed to pay any civil penalties as provided in RCW 76.09.170. For purposes of chapter 482, Laws of 1993, the terms "final order" and "final decision" shall mean the same as set forth in RCW 76.09.080, 76.09.090, and 76.09.110. The department shall provide written notice of its intent to disapprove an application or notification under this subsection. The department shall forward copies of its notice of intent to disapprove to any affected landowner. The disapproval period shall run from thirty days following the date of actual notice or when all administrative and judicial appellate processes, if any, have been exhausted. Any person provided the notice may seek review from the appeals board by filing a request for review within thirty days of the date of the notice of intent.

(2) On request of the department, the attorney general may take action necessary to enforce this chapter, including, but not limited to, seeking penalties, enforcing final orders or decisions, and seeking civil injunctions, show cause orders, or contempt orders.

(3) A county may bring injunctive, declaratory, or other actions for enforcement for forest practice activities within its jurisdiction in the superior court as provided by law against the department, the forest land owner, timber owner or operator to enforce the forest practice regulations or any final order of the department, or the appeals board. No civil or criminal penalties shall be imposed for past actions or omissions if such actions or omissions were conducted pursuant to an approval or directive of the department. Injunctions, declaratory actions, or other actions for enforcement under this subsection may not be commenced unless the department fails to take appropriate action after ten days written notice to the department by the county of a violation of the forest practices rules or final orders of the department or the appeals board. [1993 c 482 § 1; 1975 1st ex.s. c 200 § 8; 1974 ex.s. c 137 § 14.]

76.09.170 Violations—Conversion to nontimber operation—Penalties—Remission or mitigation—Appeals—Lien. (Subsections (1) and (3) through (7) effective January 1, 1994.) (1) Every person who violates any provision of RCW 76.09.010 through 76.09.280 or of the forest practices rules, or who converts forest land to a use other than commercial timber operation within three years after completion of the forest practice without the consent of the county, city, or town, shall be subject to a penalty in an amount of not more than ten thousand dollars for every such violation. Each and every such violation shall be a separate and distinct offense. In case of a failure to comply with a stop work order, every day's continuance shall be a separate and distinct violation. Every person who through an act of commission or omission procures, aids or abets in the violation shall be considered to have violated the provisions of this section and shall be subject to the penalty in this section. No penalty shall be imposed under this section upon any governmental official, an employee of any governmental department, agency, or entity, or a member of any board or advisory committee created by this chapter for

any act or omission in his or her duties in the administration of this chapter or of any rule adopted under this chapter.

(2) The department shall develop and recommend to the board a penalty schedule to determine the amount to be imposed under this section. The board shall adopt by rule, pursuant to chapter 34.05 RCW, such penalty schedule to be effective no later than January 1, 1994. The schedule shall be developed in consideration of the following:

- (a) Previous violation history;
 - (b) Severity of the impact on public resources;
 - (c) Whether the violation of this chapter or its rules was intentional;
 - (d) Cooperation with the department;
 - (e) Repairability of the adverse effect from the violation;
- and

(f) The extent to which a penalty to be imposed on a forest landowner for a forest practice violation committed by another should be reduced because the owner was unaware of the violation and has not received substantial economic benefits from the violation.

(3) The penalty in this section shall be imposed by a notice in writing, either by certified mail with return receipt requested or by personal service, to the person incurring the same from the department describing the violation with reasonable particularity. Within fifteen days after the notice is received, the person incurring the penalty may apply in writing to the department for the remission or mitigation of such penalty. Upon receipt of the application, that department may remit or mitigate the penalty upon whatever terms that department in its discretion deems proper, provided the department deems such remission or mitigation to be in the best interests of carrying out the purposes of this chapter. The department shall have authority to ascertain the facts regarding all such applications in such reasonable manner and under such rule as it may deem proper.

(4) Any person incurring a penalty under this section may appeal the penalty to the forest practices appeals board. Such appeals shall be filed within thirty days of receipt of notice imposing any penalty unless an application for remission or mitigation is made to the department. When such an application for remission or mitigation is made, such appeals shall be filed within thirty days of receipt of notice from the department setting forth the disposition of the application for remission or mitigation.

(5) The penalty imposed under this section shall become due and payable thirty days after receipt of a notice imposing the same unless application for remission or mitigation is made or an appeal is filed. When such an application for remission or mitigation is made, any penalty incurred under this section shall become due and payable thirty days after receipt of notice setting forth the disposition of such application unless an appeal is filed from such disposition. Whenever an appeal of the penalty incurred is filed, the penalty shall become due and payable only upon completion of all administrative and judicial review proceedings and the issuance of a final decision confirming the penalty in whole or in part.

(6) If the amount of any penalty is not paid to the department within thirty days after it becomes due and payable, the attorney general, upon the request of the department, shall bring an action in the name of the state of Washington in the superior court of Thurston county or of

any county in which such violator may do business, to recover such penalty. In all such actions the procedure and rules of evidence shall be the same as an ordinary civil action except as otherwise in this chapter provided. In addition to or as an alternative to seeking enforcement of penalties in superior court, the department may bring an action in district court as provided in Title 3 RCW, to collect penalties.

(7) Penalties imposed under this section for violations associated with a conversion to a use other than commercial timber operation shall be a lien upon the real property of the person assessed the penalty and the department may collect such amount in the same manner provided in chapter 60.04 RCW for mechanics' liens. [1993 c 482 § 2; 1975 1st ex.s. c 200 § 9; 1974 ex.s. c 137 § 17.]

Legislative findings and intent—1987 c 506: "Washington's fish and wildlife resources are the responsibility of all residents of the state. We all benefit economically, recreationally, and aesthetically from these resources. Recognizing the state's changing environment, the legislature intends to continue to provide opportunities for the people to appreciate

wildlife in its native habitat. However, the wildlife management in the state of Washington shall not cause a reduction of recreational opportunity for hunting and fishing activities. The paramount responsibility of the department remains to preserve, protect, and perpetuate all wildlife species. Adequate funding for proper management, now and for future generations, is the responsibility of everyone.

The intent of the legislature is: (1) To allow the governor to select the director of wildlife; (2) to retain the authority of the wildlife commission to establish the goals and objectives of the department; (3) to insure a high level of public involvement in the decision-making process; (4) to provide effective communications among the commission, the governor, the legislature, and the public; (5) to expand the scope of appropriate funding for the management, conservation, and enhancement of wildlife; (6) to not increase the cost of license, tag, stamp, permit, and punchcard fees prior to January 1, 1990; and (7) for the commission to carry out any other responsibilities prescribed by the legislature in this title." [1987 c 506 § 1.]

The plan shall contain specific provisions to increase both hatchery and naturally spawning game fish to a level that will support the production goal established in this section consistent with department policies. Steelhead trout, searun cutthroat trout, resident trout, and warmwater fish producing areas of the state shall be included in the plan. The department shall provide the plan to the house of representatives and senate ways and means, environment and natural resources, environmental affairs, fisheries and wildlife, and natural resources committees by December 31, 1990.

The plan shall include the following critical elements:

- (1) Methods of determining current catch and production, and catch and production in the year 2000;

- (4) Methods for renovating and modernizing all existing hatcheries and rearing ponds to maximize production capability;
- (5) Methods for increasing the productivity of natural spawning game fish;
- (6) Application of new technology to increase hatchery and natural productivity;
- (7) Analysis of the potential for private contractors to produce game fish for public fisheries;
- (8) Methods to optimize public volunteer efforts and cooperative projects for maximum efficiency;
- (9) Methods for development of trophy game fish fisheries;
- (10) Elements of coordination with the Pacific Northwest Power Council programs to ensure maximum Columbia river benefits;
- (11) The role that should be played by private consulting companies in developing and implementing the plan;
- (12) Coordination with federal fish and wildlife agencies, Indian tribes, and department fish production programs;

- (14) Development of disease control measures;
- (15) Methods for obtaining access to waters currently not available to anglers; and
- (16) Development of research programs to support game fish management and enhancement programs.

The department, in cooperation with the department of revenue, shall assess various funding mechanisms and make recommendations to the legislature in the plan. The department, in cooperation with the department of trade and economic development, shall prepare an analysis of the economic benefits to the state that will occur when the game fish production is increased by one hundred percent in the year 2000. Finding—1990 c 110: "The legislature finds that the anadromous and resident game fish resource of the state can be greatly increased to benefit

recreational fishermen and the economy of the state. Investments in the increase of anadromous and resident game fish stocks will provide benefits many times the cost of the program and will act as a catalyst for many additional benefits in the tourism and associated industries, while enhancing the livability of the state." WILDLIFE VIOLATOR COMPACT

Sections

- 77.17.010 Wildlife violator compact—Established.
77.17.020 Licensing authority defined.
77.17.030 Administration facilitation.

77.17.010 Wildlife violator compact—Established.

The wildlife violator compact is hereby established in the form substantially as follows, and the Washington state department of wildlife is authorized to enter into such compact on behalf of the state with all other jurisdictions legally joining therein:

ARTICLE I FINDINGS, DECLARATION OF POLICY, AND PURPOSE

(a) The party states find that:

- (1) Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.
- (2) The protection of their respective wildlife resources can be materially affected by the degree of compliance with state statute, law, regulation, ordinance, or administrative rule relating to the management of those resources.
- (3) The preservation, protection, management, and restoration of wildlife contributes immeasurably to the aesthetic, recreational, and economic aspects of these natural resources.
- (4) Wildlife resources are valuable without regard to political boundaries, therefore, all persons should be required to comply with wildlife preservation, protection, management, and restoration laws, ordinances, and administrative rules and regulations of all party states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap, or possess wildlife.
- (5) Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.
- (6) The mobility of many wildlife law violators necessitates the maintenance of channels of communications among the various states.

(7) In most instances, a person who is cited for a wildlife violation in a state other than the person's home state:

(i) Must post collateral or bond to secure appearance for a trial at a later date; or

(ii) If unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or

(iii) Is taken directly to court for an immediate appearance.

(8) The purpose of the enforcement practices described in paragraph (7) of this subdivision is to ensure compliance with the terms of a wildlife citation by the person who, if permitted to continue on the person's way after receiving the citation, could return to the person's home state and disregard the person's duty under the terms of the citation.

(9) In most instances, a person receiving a wildlife citation in the person's home state is permitted to accept the citation from the officer at the scene of the violation and to immediately continue on the person's way after agreeing or being instructed to comply with the terms of the citation.

(10) The practice described in paragraph (7) of this subdivision causes unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some alternative arrangement can be made.

(11) The enforcement practices described in paragraph (7) of this subdivision consume an undue amount of law enforcement time.

(b) It is the policy of the party states to:

(1) Promote compliance with the statutes, laws, ordinances, regulations, and administrative rules relating to management of wildlife resources in their respective states.

(2) Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a party state and treat this suspension as if it had occurred in their state.

(3) Allow violators to accept a wildlife citation, except as provided in subdivision (b) of Article III, and proceed on the violator's way without delay whether or not the person is a resident in the state in which the citation was issued, provided that the violator's home state is party to this compact.

(4) Report to the appropriate party state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state.

(5) Allow the home state to recognize and treat convictions recorded for their residents which occurred in another party state as if they had occurred in the home state.

(6) Extend cooperation to its fullest extent among the party states for obtaining compliance with the terms of a wildlife citation issued in one party state to a resident of another party state.

(7) Maximize effective use of law enforcement personnel and information.

(8) Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party states may participate in a reciprocal program to effectuate policies enumerated in subdivision (b) of this article in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of wildlife violators operating within party states in recognition

of the person's right of due process and the sovereign status of a party state.

(q) "Wildlife officer" means any individual authorized by a party state to issue a citation for a wildlife violation.

(r) "Wildlife violation" means any cited violation of a statute, law, regulation, ordinance, or administrative rule developed and enacted to manage wildlife resources and the use thereof.

ARTICLE III PROCEDURES FOR ISSUING STATE

(a) When issuing a citation for a wildlife violation, a wildlife officer shall issue a citation to any person whose primary residence is in a party state in the same manner as if the person were a resident of the home state and shall not require the person to post collateral to secure appearance, subject to the exceptions contained in subdivision (b) of this article, if the officer receives the person's personal recognizance that the person will comply with the terms of the citation.

(b) Personal recognizance is acceptable:

(1) If not prohibited by local law or the compact manual; and

(2) If the violator provides adequate proof of the violator's identification to the wildlife officer.

(a) Upon receipt of a report of failure to comply with the terms of a citation from the licensing authority of the issuing state, the licensing authority of the home state shall notify the violator, shall initiate a suspension action in accordance with the home state's suspension procedures and shall suspend the violator's license privileges until satisfactory evidence of compliance with the terms of the wildlife citation has been furnished by the issuing state to the home state licensing authority. Due process safeguards will be accorded.

(b) Upon receipt of a report of conviction from the licensing authority of the issuing state, the licensing authority of the home state shall enter such conviction in its records and shall treat such conviction as if it occurred in the home state for the purposes of the suspension of license privileges.

(c) The licensing authority of the home state shall maintain a record of actions taken and make reports to issuing states as provided in the compact manual.

ARTICLE V

ARTICLE VI

APPLICABILITY OF OTHER LAWS

Except as expressly required by provisions of this compact, nothing herein shall be construed to affect the right of any party state to apply any of its laws relating to license privileges to any person or circumstance, or to invalidate or prevent any agreement or other cooperative arrangements between a party state and a nonparty state concerning wildlife law enforcement.

ARTICLE VII

COMPACT ADMINISTRATOR PROCEDURES

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The compact administrator shall be appointed by the head of the licensing authority of each party state and will serve and be subject to removal in accordance with the laws of the state the administrator represents. (c) A party state may withdraw from this compact by official written notice to the other party states, but a withdrawal shall not take effect until ninety days after notice of withdrawal is given. The notice shall be directed to the compact administrator of each member state. No withdrawal shall affect the validity of this compact as to the remaining party states.

ARTICLE IX

AMENDMENTS TO THE COMPACT

(a) This compact may be amended from time to time. Amendments shall be presented in resolution form to the chairperson of the board of compact administrators and may be initiated by one or more party states.

(b) Adoption of an amendment shall require endorsement by all party states and shall become effective thirty days after the date of the last endorsement.

(c) Failure of a party state to respond to the compact chairperson within one hundred twenty days after receipt of the proposed amendment shall constitute endorsement.

ARTICLE X

78.44.010 Legislative finding. The legislature recognizes that the extraction of minerals by surface mining is an essential activity making an important contribution to the economic well-being of the state and nation. It is not possible to extract minerals without producing some environmental impacts. At the same time, comprehensive regulation of mining and thorough reclamation of mined lands is necessary to prevent or mitigate conditions that would be detrimental to the environment and to protect the general welfare, health, safety, and property rights of the citizens of the state. Surface mining takes place in diverse areas where the geologic, topographic, climatic, biologic, and social conditions are significantly different, and reclamation specifications must vary accordingly. Therefore, the legislature finds that a balance between appropriate environmental regulation and the production and conservation of minerals is in the best interests of the citizens of the state. [1993 c 518 § 2; 1970 ex.s. c 64 § 2.]

Captions—1993 c 518: "Captions used in this act do not constitute any part of the law." [1993 c 518 § 41.]

Severability—1993 c 518: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1993 c 518 § 43.]

Effective date—1993 c 518: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993." [1993 c 518 § 44.]

78.44.011 Intent. The legislature recognizes that the extraction of minerals through surface mining has historically included regulatory involvement by both state and local governments.

It is the intent of the legislature to clarify that surface mining is an appropriate land use, subject to reclamation authority exercised by the department of natural resources and land use and operation regulatory authority by counties, cities, and towns. [1993 c 518 § 1.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.020 Purposes. The purposes of this chapter are to:

(1) Provide that the usefulness, productivity, and scenic values of all lands and waters involved in surface mining within the state will receive the greatest practical degree of protection and reclamation at the earliest opportunity following completion of surface mining;

(2) Provide for the greatest practical degree of state-wide consistency in the regulation of surface mines;

(3) Apportion regulatory authority between state and local governments in order to minimize redundant regulation of mining;

(4) Ensure that reclamation is consistent with local land use plans; and

(5) Ensure the power of local government to regulate land use and operations pursuant to *section 16 of this act. [1993 c 518 § 3; 1970 ex.s. c 64 § 3.]

***Reviser's note:** 1993 c 518 § 16 was vetoed by the governor.

78.44.031 Definitions. Unless the context clearly indicates otherwise, the definitions in this section apply throughout this chapter.

(1) "Approved subsequent use" means the post surface-mining land use contained in an approved reclamation plan and approved by the local land use authority.

(2) "Completion of surface mining" means the cessation of mining and directly related activities in any segment of a surface mine that occurs when essentially all minerals that can be taken under the terms of the reclamation permit have been depleted except minerals required to accomplish reclamation according to the approved reclamation plan.

(3) "Department" means the department of natural resources.

(4) "Determination" means any action by the department including permit issuance, reporting, reclamation plan

approval or modification, permit transfers, orders, fines, or refusal to issue permits.

(5) "Disturbed area" means any place where activities clearly in preparation for, or during, surface mining have physically disrupted, covered, compacted, moved, or otherwise altered the characteristics of soil, bedrock, vegetation, or topography that existed prior to such activity. Disturbed areas may include but are not limited to: Working faces, water bodies created by mine-related excavation, pit floors, the land beneath processing plant and stock pile sites, spoil pile sites, and equipment staging areas.

Disturbed areas do not include:

(a) Surface mine access roads unless these have characteristics of topography, drainage, slope stability, or ownership that, in the opinion of the department, make reclamation necessary; and

(b) Lands that have been reclaimed to all standards outlined in this chapter, rules of the department, any applicable SEPA document, and the approved reclamation plan.

(6) "Miner" means any person or persons, any partnership, limited partnership, or corporation, or any association of persons, including every public or governmental agency engaged in mining from the surface.

(7) "Minerals" means clay, coal, gravel, industrial minerals, metallic substances, peat, sand, stone, topsoil, and any other similar solid material or substance to be excavated from natural deposits on or in the earth for commercial, industrial, or construction use.

(8) "Operations" means all mine-related activities, exclusive of reclamation, that include, but are not limited to activities that affect noise generation, air quality, surface and ground water quality, quantity, and flow, glare, pollution, traffic safety, ground vibrations, and/or significant or substantial impacts commonly regulated under provisions of land use or other permits of local government and local ordinances, or other state laws.

Operations specifically include:

(a) The mining or extraction of rock, stone, gravel, sand, earth, and other minerals;

(b) Blasting, equipment maintenance, sorting, crushing, and loading;

(c) On-site mineral processing including asphalt or concrete batching, concrete recycling, and other aggregate recycling;

(d) Transporting minerals to and from the mine, on site road maintenance, road maintenance for roads used extensively for surface mining activities, traffic safety, and traffic control.

(9) "Overburden" means the earth, rock, soil, and topsoil that lie above mineral deposits.

(10) "Permit holder" means any person or persons, any partnership, limited partnership, or corporation, or any association of persons, either natural or artificial, including every public or governmental agency engaged in surface mining and/or the operation of surface mines, whether individually, jointly, or through subsidiaries, agents, employees, operators, or contractors who holds a state reclamation permit.

(11) "Reclamation" means rehabilitation for the appropriate future use of disturbed areas resulting from surface mining including areas under associated mineral processing equipment and areas under stockpiled materials. Although

both the need for and the practicability of reclamation will control the type and degree of reclamation in any specific surface mine, the basic objective shall be to reestablish on a perpetual basis the vegetative cover, soil stability, and water conditions appropriate to the approved subsequent use of the surface mine and to prevent or mitigate future environmental degradation.

(12) "Reclamation setbacks" include those lands along the margins of surface mines wherein minerals and overburden shall be preserved in sufficient volumes to accomplish reclamation according to the approved plan and the minimum reclamation standards. Maintenance of reclamation setbacks may not preclude other mine-related activities within the reclamation setback.

(13) "Recycling" means the reuse of minerals or rock products.

(14) "Screening" consists of vegetation, berms or other topography, fencing, and/or other screens that may be required to mitigate impacts of surface mining on adjacent properties and/or the environment.

(15) "Segment" means any portion of the surface mine that, in the opinion of the department:

(a) Has characteristics of topography, drainage, slope stability, ownership, mining development, or mineral distribution, that make reclamation necessary;

(b) Is not in use as part of surface mining and/or related activities; and

(c) Is larger than seven acres and has more than five hundred linear feet of working face except as provided in a segmental reclamation agreement approved by the department.

(16) "SEPA" means the state environmental policy act, chapter 43.21C RCW and rules adopted thereunder.

(17)(a) "Surface mine" means any area or areas in close proximity to each other, as determined by the department, where extraction of minerals from the surface results in:

(i) More than three acres of disturbed area;

(ii) Mined slopes greater than thirty feet high and steeper than 1.0 foot horizontal to 1.0 foot vertical; or

(iii) More than one acre of disturbed area within an eight acre area, when the disturbed area results from mineral prospecting or exploration activities.

(b) Surface mines include areas where mineral extraction from the surface occurs by the auger method or by reworking mine refuse or tailings, when these activities exceed the size or height thresholds listed in (a) of this subsection.

(c) Surface mining shall exclude excavations or grading used:

(i) Primarily for on-site construction, on-site road maintenance, or on-site landfill construction;

(ii) For the purpose of public safety or restoring the land following a natural disaster;

(iii) For the purpose of removing stockpiles;

(iv) For forest or farm road construction or maintenance on site or on contiguous lands;

(v) For sand authorized by RCW 43.51.685; and

(vi) For underground mines.

(18) "Topsoil" means the naturally occurring upper part of a soil profile, including the soil horizon that is rich in humus and capable of supporting vegetation together with

other sediments within four vertical feet of the ground surface. [1993 c 518 § 4.]

78.44.035 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.040 Administration of chapter—Rule-making authority. The department of natural resources is charged with the administration of reclamation under this chapter. In order to implement and enforce this chapter, the department, under the administrative procedure act (chapter 34.05 RCW), may from time to time adopt those rules necessary to carry out the purposes of this chapter. [1993 c 518 § 6; 1984 c 215 § 2; 1970 ex.s. c 64 § 5.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.045 Surface mining reclamation account. The surface mining reclamation account is created in the state treasury. Annual mining fees, funds received by the department from state, local, or federal agencies for research purposes, as well as other mine-related funds and fines received by the department shall be deposited into this account. The surface mine reclamation account may be used by the department only to:

(1) Administer its regulatory program pursuant to this chapter;

(2) Undertake research relating to surface mine regulation, reclamation of surface mine lands, and related issues; and

(3) Cover costs arising from appeals from determinations made under this chapter.

Fines, interest, and other penalties collected by the department under the provisions of this chapter shall be used to reclaim surface mines abandoned prior to 1971. [1993 c 518 § 10.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.050 Department may delegate to counties, cities, towns—Other laws not affected. The department shall have the exclusive authority to regulate surface mine reclamation except that, by contractual agreement, the department may delegate some or all of its enforcement authority to a county, city, or town. All counties, cities, or towns shall have the authority to zone surface mines and adopt ordinances regulating operations pursuant to *section 16 of this act, except that county, city, or town operations ordinances may be preempted by the department during the emergencies outlined in RCW 78.44.200 and related rules.

This chapter shall not alter or preempt any provisions of the state fisheries laws (Title 75 RCW), the state water allocation and use laws (chapters 90.03 and 90.44 RCW), the state water pollution control laws (chapter 90.48 RCW), the state wildlife laws (Title 77 RCW), state noise laws or air quality laws (Title 70 RCW), shoreline management (chapter 90.58 RCW), the state environmental policy act (chapter 43.21C RCW), state growth management (chapter 36.70A RCW), state drinking water laws (chapters 43.20 and

70.119A RCW), or any other state statutes. [1993 c 518 § 7; 1970 ex.s. c 64 § 6.]

***Reviser's note:** 1993 c 518 § 16 was vetoed by the governor.

Model ordinance advisory committee—1993 c 518: "A surface mining model ordinance advisory committee is hereby created. The committee shall be composed of representatives of local government, state agencies, surface mining interests, and the environmental community. The department of natural resources shall appoint the members of the committee and the department shall staff the committee. This temporary advisory committee shall draft model ordinances for different surface-mining settings and shall assist counties, cities, and towns in developing ordinances. The committee shall complete its work and shall expire by December 31, 1994. Participants on the committee shall pay their own expenses, and the department of natural resources shall fund the department's involvement." [1993 c 518 § 17.]

78.44.055 Surface mining of coal—Preemption of chapter by federal laws, programs. In the event state law is preempted under federal surface mining laws relating to surface mining of coal or the department of natural resources determines that a federal program and its rules and regulations relating to the surface mining of coal are as stringent and effective as the provisions of this chapter, the provisions of this chapter shall not apply to such surface mining for which federal permits are issued until such preemption ceases or the department determines such chapter should apply. [1984 c 215 § 8. Formerly RCW 78.44.175.]

78.44.060 Investigations, research, etc.—Dissemination of information. The department shall have the authority to conduct, authorize, and/or participate in investigations, research, experiments, and demonstrations, and to collect and disseminate information relating to surface mining and reclamation of surface mined lands. Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.070 Cooperation with other agencies—Receipt and expenditure of funds. The department may cooperate with other governmental and private agencies and agencies of the federal government, and may reasonably reimburse them for any services the department requests that they provide. The department may also receive any federal funds, state funds and any other funds and expend them for reclamation of land affected by surface mining and for purposes enumerated in RCW 78.44.060. [1993 c 518 § 9; 1970 ex.s. c 64 § 8.]

78.44.081 Reclamation permits required—Applications. After July 1, 1993, no miner or permit holder may engage in surface mining without having first obtained a reclamation permit from the department. Operating permits issued by the department between January 1, 1971, and June 30, 1993, shall be considered reclamation permits provided such permits substantially meet the protections,

[1993 RCW Supp—page 1054]

mitigations, and reclamation goals of RCW 78.44.091 and 78.44.131 within five years after July 1, 1993. State agencies and local government shall be exempt from this time limit for inactive sites. Prior to the use of an inactive site, the reclamation plan must be brought up to current standards. A separate permit shall be required for each noncontiguous surface mine. The reclamation permit shall consist of the permit forms and any exhibits attached thereto. The permit holder shall comply with the provisions of the reclamation permit unless waived and explained in writing by the department.

Prior to receiving a reclamation permit, an applicant must submit an application on forms provided by the department that shall contain the following information and shall be considered part of the reclamation permit:

(1) Name and address of the legal landowner, or purchaser of the land under a real estate contract;

(2) The name of the applicant and, if the applicants are corporations or other business entities, the names and addresses of their principal officers and resident agent for service of process;

(3) A reasonably accurate description of the minerals to be surface mined;

(4) Type of surface mining to be performed;

(5) Estimated starting date, date of completion, and date of completed reclamation of surface mining;

(6) Size and legal description of the permit area and maximum lateral and vertical extent of the disturbed area;

(7) Expected area to be disturbed by surface mining during (a) the next twelve months, and (b) the following twenty-four months;

(8) Any applicable SEPA documents; and

(9) Other pertinent data as required by the department.

The reclamation permit shall be granted for the period required to deplete essentially all minerals identified in the reclamation permit on the land covered by the reclamation plan. The reclamation permit shall be valid until the reclamation is complete unless the permit is canceled by the department. [1993 c 518 § 11.]

78.44.083 Reclamation permit—Refusal to issue. The department shall refuse to issue a reclamation permit if it is determined during the SEPA process that the impacts of a proposed surface mine cannot be adequately mitigated.

The department or county, city, or town may refuse to issue any other permit at any other location to any miner or permit holder who fails to rectify deficiencies set forth in an order of the department within the requisite time schedule. However, the department or county, city, or town shall issue all appropriate permits when all deficiencies are corrected at each surface mining site. [1993 c 518 § 33.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.085 Application fee—Annual permit fee—Modification—Appeals. (1) An applicant for a public or private reclamation permit shall pay an application fee to the department before being granted a surface mining permit.

The amount of the application fee shall be six hundred fifty dollars.

(2) After June 30, 1993, each public or private permit holder shall pay an annual permit fee of six hundred fifty dollars. The annual permit fee shall be payable to the department on the first anniversary of the permit date and each year thereafter. Annual fees paid by a county for small mines used exclusively for public works projects shall be paid on those small mines from which the county elects to extract minerals in the next calendar year and shall not exceed one thousand dollars.

(3) After July 1, 1995, the department may modify annual permit fees by rule if:

(a) The total annual permit fees are reasonably related to the approximate costs of administering the department's surface mining regulatory program;

(b) The annual fee does not exceed five thousand dollars; and

(c) The mines are small mines in remote areas that are used primarily for public service, then lower annual permit fees may be established.

(4) Appeals from any determination of the department shall not stay the requirement to pay any annual permit fee. Failure to pay the annual fee may constitute grounds for an order to suspend surface mining or cancellation of the reclamation permit as provided in this chapter.

(5) All fees collected by the department shall be deposited into the surface mining reclamation account.

(6) If the department delegates enforcement responsibilities to a county, city, or town, the department may allocate funds collected under this section to such county, city, or town. [1993 c 518 § 14.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.087 Performance security required—Department authority. The department shall not issue a reclamation permit until the applicant has deposited with the department an acceptable performance security on forms prescribed and furnished by the department. A public or governmental agency shall not be required to post performance security nor shall a permit holder be required to post surface mining performance security with more than one state, local, or federal agency.

This performance security may be:

(1) Bank letters of credit acceptable to the department;

(2) A cash deposit;

(3) Negotiable securities acceptable to the department;

(4) An assignment of a savings account;

(5) A savings certificate in a Washington bank on an assignment form prescribed by the department;

(6) Assignments of interests in real property within the state of Washington; or

(7) A corporate surety bond executed in favor of the department by a corporation authorized to do business in the state of Washington under Title 48 RCW and authorized by the department.

The performance security shall be conditioned upon the faithful performance of the requirements set forth in this chapter and of the rules adopted under it.

The department shall have the authority to determine the amount of the performance security using a standardized performance security formula developed by the department. The amount of the security shall be determined by the department and based on the estimated costs of completing reclamation according to the approved reclamation plan or minimum standards and related administrative overhead for the area to be surface mined during (a) the next twelve-month period, (b) the following twenty-four months, and (c) any previously disturbed areas on which the reclamation has not been satisfactorily completed and approved.

The department may increase or decrease the amount of the performance security at any time to compensate for a change in the disturbed area, the depth of excavation, a modification of the reclamation plan, or any other alteration in the conditions of the mine that affects the cost of reclamation. The department may, for any reason, refuse any performance security not deemed adequate.

Liability under the performance security shall be maintained until reclamation is completed according to the approved reclamation plan to the satisfaction of the department unless released as hereinafter provided. Liability under the performance security may be released only upon written notification by the department. Notification shall be given upon completion of compliance or acceptance by the department of a substitute performance security. The liability of the surety shall not exceed the amount of security required by this section and the department's reasonable legal fees to recover the security.

Any interest or appreciation on the performance security shall be held by the department until reclamation is completed to its satisfaction. At such time, the interest shall be remitted to the permit holder; except that such interest or appreciation may be used by the department to effect reclamation in the event that the permit holder fails to comply with the provisions of this chapter and the costs of reclamation exceed the face value of the performance security.

No other state agency or local government shall require performance security for the purposes of surface mine reclamation and only one agency of government shall require and hold the performance security. The department may enter into written agreements with federal agencies in order to avoid redundant bonding of surface mines straddling boundaries between federally controlled and other lands within Washington state.

Notwithstanding any other provision of this section, nothing shall preclude the department of ecology from requiring a separate performance security for metallic minerals or uranium surface mines under any authority if any that may be presently vested in the department of ecology relating to such mines. [1993 c 518 § 15.]

78.44.091 Reclamation plans—Approval process. An applicant shall provide a reclamation plan and copies acceptable to the department prior to obtaining a reclamation

permit. The department shall have the sole authority to approve reclamation plans. Reclamation plans or modified reclamation plans submitted to the department after June 30, 1993, shall meet or exceed the minimum reclamation standards set forth in this chapter and by the department in rule. Each applicant shall also supply copies of the proposed plans and final reclamation plan approved by the department to the county, city, or town in which the mine will be located. The department shall solicit comment from local government prior to approving a reclamation plan. The reclamation plan shall include:

(1) A written narrative describing the proposed mining and reclamation scheme with:

(a) A statement of a proposed subsequent use of the land after reclamation that is consistent with the local land use designation. Approval of the reclamation plan shall not vest the proposed subsequent use of the land;

(b) If the permit holder is not the sole landowner, a copy of the conveyance or a written statement that expressly grants or reserves the right to extract minerals by surface mining methods;

(c) A simple and accurate legal description of the permit area and disturbed areas;

(d) The maximum depth of mining;

(e) A reasonably accurate description of the minerals to be mined;

(f) A description of the method of mining;

(g) A description of the sequence of mining that will provide, within limits of normal procedures of the industry, for completion of surface mining and associated disturbance on each portion of the permit area so that reclamation can be initiated at the earliest possible time on each segment of the mine;

(h) A schedule for progressive reclamation of each segment of the mine;

(i) Where mining on flood plains or in river or stream channels is contemplated, a thoroughly documented hydrogeologic evaluation that will outline measures that would protect against or would mitigate avulsion and erosion as determined by the department;

(j) Where mining is contemplated within critical aquifer recharge areas, special protection areas as defined by chapter 90.48 RCW and implementing rules, public water supply watersheds, sole source aquifers, wellhead protection areas, and designated aquifer protection areas as set forth in chapter 36.36 RCW, a thoroughly documented hydrogeologic analysis of the reclamation plan may be required; and

(k) Additional information as required by the department including but not limited to: The positions of reclamation setbacks and screening, conservation of topsoil, interim reclamation, revegetation, postmining erosion control, drainage control, slope stability, disposal of mine wastes, control of fill material, development of wetlands, ponds, lakes, and impoundments, and rehabilitation of topography.

(2) Maps of the surface mine showing:

(a) All applicable data required in the narrative portion of the reclamation plan;

(b) Existing topographic contours;

(c) Contours depicting specifications for surface gradient restoration appropriate to the proposed subsequent use of the land and meeting the minimum reclamation standards;

(d) Locations and names of all roads, railroads, and utility lines on or adjacent to the area;

(e) Locations and types of proposed access roads to be built in conjunction with the surface mining;

(f) Detailed and accurate boundaries of the permit area, screening, reclamation setbacks, and maximum extent of the disturbed area; and

(g) Estimated depth to ground water and the locations of surface water bodies and wetlands both prior to and after mining.

(3) At least two cross sections of the mine including all applicable data required in the narrative and map portions of the reclamation plan.

(4) Evidence that the proposed surface mine has been approved under local zoning and land use regulations.

(5) Written approval of the reclamation plan by the landowner for mines permitted after June 30, 1993.

(6) Other supporting data and documents regarding the surface mine as reasonably required by the department.

If the department refuses to approve a reclamation plan in the form submitted by an applicant or permit holder, it shall notify the applicant or permit holder stating the reasons for its determination and describe such additional requirements to the applicant or permit holder's reclamation plan as are necessary for the approval of the plan by the department. If the department refuses to approve a complete reclamation plan within one hundred twenty days, the miner or permit holder may appeal this determination under the provisions of this chapter.

Only insignificant deviations may occur from the approved reclamation plan without prior written approval by the department for the proposed change.

The department retains the authority to require that the reclamation plan be updated to the satisfaction of the department at least every ten years. [1993 c 518 § 12.]

78.44.100 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.101 Joint reclamation plans may be required. Where two or more surface mines join along a common boundary, the department may require submission of a joint reclamation plan in order to provide for optimum reclamation or to avoid waste of mineral resources. Such joint reclamation plans may be in the form of a single collaborative plan submitted by all affected permit holders or as individual reclamation plans in which the schedule of reclamation, finished contours, and revegetation match reclamation plans of adjacent permit holders. [1993 c 518 § 13.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.110 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.111 Segmental reclamation—Primary objective. The permit holder shall reclaim each segment of the mine within two years of completion of surface mining on

that segment except as provided in a segmental reclamation agreement approved in writing by the department. The primary objective of a segmental reclamation agreement should be to enhance final reclamation. [1993 c 518 § 5.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.120 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.121 Reclamation setbacks—Exemption. Reclamation setbacks shall be as follows unless waived by the department:

(1) The reclamation setback for unconsolidated deposits within mines permitted after June 30, 1993, shall be equal to the maximum anticipated height of the adjacent working face or as determined by the department. Setbacks and buffers may be destroyed as part of final reclamation of each segment if approved by the department.

(2) The minimum reclamation setback for consolidated materials within mines permitted after June 30, 1993, shall be thirty feet or as determined by the department.

(3) An exemption from this section may be granted by the department following a written request. The department may consider submission of a plan for backfilling acceptable to the department, a geotechnical slope-stability study, proof of a dedicated source of fill materials, written approval of contiguous landowners, and other information before granting an exemption. [1993 c 518 § 18.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.130 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.131 Reclamation specifics—Basic objective—Timeline. The need for, and the practicability of, reclamation shall control the type and degree of reclamation in any specific instance. However, the basic objective of reclamation is to reestablish on a continuing basis the vegetative cover, slope stability, water conditions, and safety conditions suitable to the proposed subsequent use consistent with local land use plans for the surface mine site.

Each permit holder shall comply with the minimum reclamation standards in effect on the date the permit was issued and any additional reclamation standards set forth in the approved reclamation plan.

Reclamation activities, particularly those relating to control of erosion and mitigation of impacts of mining to adjacent areas, shall, to the extent feasible, be conducted simultaneously with surface mining, and in any case shall be initiated at the earliest possible time after completion of surface mining on any segment of the permit area.

All reclamation activities shall be completed not more than two years after completion or abandonment of surface mining on each segment of the area for which a reclamation permit is in force.

The department may by contract delegate enforcement of provisions of reclamation plans to counties, cities, and towns. A county, city, or town performing enforcement

functions may not impose any additional fees on permit holders. [1993 c 518 § 20.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.140 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.141 Reclamation—Minimum standards—Waiver. Reclamation of surface mines permitted after June 30, 1993, and reclamation of surface mine segments addressed by reclamation plans modified after June 30, 1994, shall meet the following minimum standards except as waived in writing by the department.

(1) Prior to surface mining, permit holders shall carefully stockpile all topsoil on the site for use in reclamation, or immediately move topsoil to reclaim adjacent segments, except when the approved subsequent use does not require replacing the topsoil. Topsoil needed for reclamation shall not be sold as a mineral nor mixed with sterile soils. Stockpiled materials used as screening shall not be used for reclamation until such time as the appropriate county or municipal government has given its approval.

(2) The department may require that clearly visible, permanent monuments delineating the permit boundaries and maximum extent of the disturbed area be set at appropriate places around the mine site. The permit holder shall maintain the monuments until termination of the reclamation permit.

(3) All minimum reclamation standards may be waived in writing by the department in order to accommodate unique and beneficial reclamation schemes such as parks, swimming facilities, buildings, and wildlife reserves. Such waivers shall be granted only after written approval by the department of a reclamation plan describing the variances to the minimum reclamation standards, receipt of documentation of SEPA compliance, and written approvals from the landowner and by the local land use authority.

(4) All surface-mined slopes shall be reclaimed to the following minimum standards:

(a) In surface mines in soil, sand, gravel, and other unconsolidated materials, all reclaimed slopes shall:

(i) Have varied steepness;

(ii) Have a sinuous appearance in both profile and plan view;

(iii) Have no large rectilinear topographic elements;

(iv) Generally have slopes of between 2.0 and 3.0 feet horizontal to 1.0 foot vertical or flatter except in limited areas where steeper slopes are necessary in order to create sinuous topography and to control drainage;

(v) Not exceed 1.5 feet horizontal to 1.0 foot vertical except as necessary to blend with adjacent natural slopes;

(vi) Be compacted if significant backfilling is required to produce the final reclaimed slopes and if the department determines that compaction is necessary.

(b) Slopes in consolidated materials shall have no prescribed slope angle or height, but where a severely hazardous condition is created by mining and that is not indigenous to the immediate area, the slopes shall not exceed 2.0 feet horizontal to 1.0 foot vertical. Steeper slopes shall be acceptable in areas where evidence is submitted that

demonstrates that the geologic or topographic characteristics of the site preclude reclamation of slopes to such angle or height or that such slopes constitute an acceptable subsequent use under local land use regulations.

(c) Surface mines in which the seasonal or permanent water tables have been penetrated, thereby creating swamps, ponds, or lakes useful for recreational, wildlife habitat, water quality control, or other beneficial wetland purposes shall be reclaimed in the following manner:

(i) For slopes that are below the permanent water table in soil, sand, gravel, and other unconsolidated materials, the slope angle shall be no steeper than 1.5 feet horizontal to 1.0 foot vertical;

(ii) Generally, solid rock banks shall be shaped so that a person can escape from the water, however steeper slopes and lack of water egress shall be acceptable in rural, forest, or mountainous areas or where evidence is provided that such slopes would constitute an acceptable subsequent use under local land use regulations;

(iii) Both standpipes and armored spillways or other measures to prevent undesirable overflow or seepage shall be provided to stabilize all such water bodies within the disturbed area; and

(iv) Where lakes, ponds, or swamps are created, the permit holder shall provide measures to establish a beneficial wetland by developing natural wildlife habitat and incorporating such measures as irregular shoreline configurations, sinuous bathymetry and shorelines, varied water depths, peninsulas, islands, and subaqueous areas less than 1.5 foot deep during summer low-water levels. Clay-bearing material placed below water level may be required to avoid creating sterile wetlands.

(d) Final topography shall generally comprise sinuous contours, chutes and buttresses, spurs, and rolling mounds and hills, all of which shall blend with adjacent topography to a reasonable extent. Straight planar slopes and right angles should be avoided.

(e) The floors of mines shall generally grade gently into postmining drainages to preclude sheet-wash erosion during intense precipitation, except where backgrading is appropriate for drainage control, to establish wetlands, or to trap sediment.

(f) Topsoil shall be restored as necessary to promote effective revegetation and to stabilize slopes and mine floors. Where limited topsoil is available, topsoil shall be placed and revegetated in such a way as to ensure that little topsoil is lost to erosion.

(g) Where surface mining has exposed natural materials that may create polluting conditions, including but not limited to acid-forming coals and metalliferous rock or soil, such conditions shall be addressed according to a method approved by the department. The final ground surface shall be graded so that surface water drains away from these materials.

(h) All grading and backfilling shall be made with nonnoxious, noncombustible, and relatively incompactible solids unless the permit holder provides:

(i) Written approval from all appropriate solid waste regulatory agencies; and

(ii) Any and all revisions to such written approval during the entire time the reclamation permit is in force.

(i) Final reclaimed slopes should be left roughly graded, preserving equipment tracks, depressions, and small mounds to trap clay-bearing soil and promote natural revegetation. Where reasonable, final equipment tracks should be oriented in order to trap soil and seeds and to inhibit erosion.

(j) Pit floors should be bulldozed or ripped to foster revegetation.

(5) Drainages shall be graded and contain adequate energy dissipation devices so that essentially natural conditions of water velocity, volume, and turbidity are reestablished within six months of reclamation of each segment of the mine. Ditches and other artificial drainages shall be constructed on each reclaimed segment to control surface water, erosion, and siltation and to direct runoff to a safe outlet. Diversion ditches including but not limited to channels, flumes, tightlines and retention ponds shall be capable of carrying the peak flow at the mine site that has the probable recurrence frequency of once in twenty-five years as determined from data for the twenty-five year, twenty-four hour precipitation event published by the national oceanic and atmospheric administration. The grade of such ditches and channels shall be constructed to limit erosion and siltation. Natural and other drainage channels shall be kept free of equipment, wastes, stockpiles, and overburden.

(6) Impoundment of water shall be an acceptable reclamation technique provided that approvals of other agencies with jurisdiction are obtained and:

(a) Proper measures are taken to prevent undesirable seepage that could cause flooding outside the permitted area or adversely affect the stability of impoundment dikes or adjacent slopes;

(b) Both standpipes and armored spillways or other measures necessary to control overflow are provided.

(7) Revegetation shall be required as appropriate to stabilize slopes, generate new topsoil, reduce erosion and turbidity, mask rectilinear contours, and restore the scenic value of the land to the extent feasible as appropriate to the approved subsequent use. Although the scope of and necessity for revegetation will vary according to the geography, precipitation, and approved subsequent use of the site, the objective of segmental revegetation is to reestablish self-sustaining vegetation and conditions of slope stability, surface water quality, and appearance before release of the reclamation permit. Revegetation shall normally meet the following standards:

(a) Revegetation shall commence during the first proper growing season following restoration of slopes on each segment unless the department has granted the permit holder a written time extension.

(b) In eastern Washington, the permit holder may not be able to achieve continuous ground cover owing to arid conditions or sparse topsoil. However, revegetation shall be as continuous as reasonably possible as determined by the department.

(c) Revegetation generally shall include but not be limited to diverse evergreen and deciduous trees, shrubs, grasses, and deep-rooted ground cover.

(i) For western Washington, nitrogen-fixing species including but not limited to alder, white clover, and lupine should be included in dry areas. In wet areas, tubers,

sedges, wetland grasses, willow, cottonwood, cedar, and alder are appropriate.

(ii) In eastern Washington, lupine, white clover, Russian olive, black locust, junipers, and pines are among appropriate plants. In wet areas, cottonwood, tubers, and sedges are appropriate.

(d) The requirements for revegetation may be reduced or waived by the department where erosion will not be a problem in rural areas where precipitation exceeds thirty inches per annum, or where revegetation is inappropriate for the approved subsequent use of the surface mine.

(e) In areas where revegetation is critical and conditions are harsh, the department may require irrigation, fertilization, and importation of clay or humus-bearing soils to establish effective vegetation.

(f) The department may refuse to release a reclamation permit or performance security until it deems that effective revegetation has commenced. [1993 c 518 § 21.]

78.44.150 Recodified as RCW 78.44.260. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.151 Reclamation plans—Modification—SEPA. The department and the permit holder may modify the reclamation plan at any time during the term of the permit for any of the following reasons:

(1) To modify the requirements so that they do not conflict with existing or new laws;

(2) If the department determines that the previously adopted reclamation plan is impossible or impracticable to implement and maintain; or

(3) The previously approved reclamation plan is not accomplishing the intent of this chapter as determined by the department.

Modified reclamation plans shall be reviewed by the department as lead agency under SEPA. Such SEPA analyses shall consider only those impacts relating directly to the proposed modifications. Copies of proposed and approved modifications shall be sent to the appropriate county, city, or town. [1993 c 518 § 23.]

78.44.160 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.161 Reclamation compliance—Inspection of disturbed area. The department may order at any time an inspection of the disturbed area to determine if the miner or permit holder has complied with the reclamation permit, rules, and this chapter. [1993 c 518 § 25.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.171 Reclamation—Transfer of permits.

Reclamation permits shall be transferred to a subsequent permit holder and the department shall release the former permit holder from the duties imposed by this chapter if:

(1) Both permit holders comply with all rules of the department addressing requirements for transferring a permit; and

(2) Unless waived by the department, the mine and all others operated by both the former and subsequent permit holders and their principal officers or owners are in compliance with this chapter and rules. [1993 c 518 § 22.]

78.44.180 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

78.44.181 Reclamation—Report by permit holder on anniversary date. On the anniversary date of the reclamation permit and each year thereafter until reclamation is completed and approved, the permit holder shall file a report of activities completed during the preceding year. The report shall be on a form prescribed by the department. [1993 c 518 § 24.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.190 Deficiencies—Order to rectify—Time extension. The department may issue an order to rectify deficiencies when a miner or permit holder is conducting surface mining in any manner not authorized by:

- (1) This chapter;
- (2) The rules adopted by the department;
- (3) The authorized reclamation plan; or
- (4) The reclamation permit.

The order shall describe the deficiencies and shall require that the miner or permit holder correct all deficiencies no later than sixty days from issuance of the order. The department may extend the period for correction for delays clearly beyond the miner or permit holder's control, but only when the miner or permit holder is, in the opinion of the department, making every reasonable effort to comply. [1993 c 518 § 26.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.200 Immediate danger—Emergency notice and order to rectify deficiencies—Emergency order to suspend surface mining. When the department finds that a permit holder is conducting surface mining in any manner not authorized by:

- (1) This chapter;
- (2) The rules adopted by the department;
- (3) The approved reclamation plan; or
- (4) The reclamation permit;

and that activity has created a situation involving an immediate danger to the public health, safety, welfare, or environ-

ment requiring immediate action, the department may issue an emergency notice and order to rectify deficiencies, and/or an emergency order to suspend surface mining. These orders shall be effective when entered. The department may take such action as is necessary to prevent or avoid the danger to the public health, safety, welfare, or environment that justifies use of emergency adjudication. The department shall give such notice as is practicable to the permit holder or miner who is required to comply with the order. The order shall comply with the requirements of the administrative procedure act.

Regulations of surface mining operations administered by other state and local agencies shall be preempted by this section to the extent that the time schedule and procedures necessary to rectify the emergency situation, as determined by the department, conflict with such local regulation. [1993 c 518 § 27.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.210 Order to suspend surface mining—Injunction. Upon the failure of a miner or permit holder to comply with a department order to rectify deficiencies, the department may issue an order to suspend surface mining when a miner or permit holder is conducting surface mining in any manner not authorized by:

- (1) This chapter;
- (2) The rules adopted by the department;
- (3) The approved reclamation plan;
- (4) The reclamation permit; or
- (5) If the miner or permit holder fails to comply with any final order of the department.

The order to suspend surface mining shall require the miner or permit holder to suspend part or all of the miner's or permit holder's mining operations until the conditions resulting in the issuance of the order have been mitigated to the satisfaction of the department.

The attorney general may take the necessary legal action to enjoin, or otherwise cause to be stopped, surface mining in violation of an order to suspend surface mining. [1993 c 518 § 28.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.220 Declaration of abandonment—Reclamation—Subsequent miner. The department may issue a declaration of abandonment when it determines that all surface mining has ceased for a period of one hundred eighty consecutive days not set forth in the permit holder's reclamation plan or when, by reason of inspection of the permit area, or by any other means, the department determines that the mine has in fact been abandoned by the permit holder except that abandonment shall not include normal interruptions of surface mining resulting from labor disputes, economic conditions associated with lack of smelting capacity or availability of appropriate transportation, war, social unrest, demand for minerals, maintenance and repairs, and acts of God.

Following a declaration of abandonment, the department shall require the permit holder to complete reclamation in accordance with this chapter. If the permit holder fails to do

so, the department shall proceed to do the necessary reclamation work pursuant to RCW 78.44.240.

If another miner applies for a permit on a site that has been declared abandoned, the department may, in its discretion, cancel the reclamation permit of the permit holder and issue a new reclamation permit to the applicant. The department shall not issue a new permit unless it determines that such issuance will be an effective means of assuring that the site will ultimately be reclaimed. The applicant must agree to assume the reclamation responsibilities left unfinished by the first miner, in addition to meeting all requirements for issuance of a new permit. [1993 c 518 § 29.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.230 Abandonment—Cancellation of the reclamation permit. When the department determines that a surface mine has been abandoned, it may cancel the reclamation permit. The permit holder shall be informed of such actions by a department notification of illegal abandonment and cancellation of the reclamation permit. [1993 c 518 § 30.]

Captions—Severability—Effective date—1993 c 518: See notes following RCW 78.44.010.

78.44.240 Reclamation by the department—Order to submit performance security—Cost recovery. The department may, with the staff, equipment, and material under its control, or by contract with others, reclaim the disturbed areas when it finds that reclamation has not occurred in any segment of a surface mine within two years of completion of mining or of declaration of abandonment and the permit holder is not actively pursuing reclamation.

If the department intends to undertake the reclamation, the department shall issue an order to submit performance security requiring the permit holder or surety to submit to the department the amount of moneys posted pursuant to RCW 78.44.087. If the amount specified in the order to submit performance security is not paid within twenty days after issuance of the notice, the attorney general upon request of the department shall bring an action on behalf of the state in a superior court to recover the amount specified and associated legal fees.

The department may proceed at any time after issuing the order to submit performance security with reclamation of the site according to the approved reclamation plan or according to a plan developed by the department that meets the minimum reclamation standards.

The department shall keep a record of all expenses incurred in carrying out any reclamation project or activity authorized under this section, including:

- (1) Reclamation;
- (2) A reasonable charge for the services performed by the state's personnel and the state's equipment and materials utilized; and

The department shall refund to the surety or permit holder all amounts received in excess of the amount of expenses incurred. If the amount received is less than the expenses incurred, the attorney general, upon request of the

department, may bring an action against the permit holder on behalf of the state in the superior court to recover the remaining costs listed in this section. [1993 c 518 § 31.]

If the penalty and interest is not paid to the department after it becomes due and payable, the attorney general, upon the request of the department, may bring an action in the name of the state of Washington to recover the penalty, interest, mitigation for environmental damages, and associated legal fees. Decisions of the department are subject to review by the pollution control hearings board.

All fines, interest, penalties, and other damage recovery costs from mines regulated by the department shall be credited to the surface mining reclamation account. [1993 c 518 § 32.]

79.01.295 Grazing lands—Fish and wildlife goals—Technical advisory committee—Implementation. (1) By December 31, 1993, the department of wildlife and the department of fisheries shall each develop goals for the wildlife and fish that these agencies respectively manage, to preserve, protect, and perpetuate wildlife and fish on shrub steppe habitat or on lands that are presently agricultural lands, rangelands, or grazable woodlands. These goals shall be consistent with the maintenance of a healthy ecosystem.

(2) By July 31, 1993, the conservation commission shall appoint a technical advisory committee to develop standards that achieve the goals developed in subsection (1) of this section. The committee members shall include but not be limited to technical experts representing the following interests: Agriculture, academia, range management, utilities, environmental groups, commercial and recreational fishing interests, the Washington rangelands committee, Indian tribes, the department of wildlife, the department of fisheries, the department of natural resources, the department of ecology, conservation districts, and the department of agriculture. A member of the conservation commission shall chair the committee.

(3) By December 31, 1994, the committee shall develop standards to meet the goals developed under subsection (1) of this section. These standards shall not conflict with the recovery of wildlife or fish species that are listed or proposed for listing under the federal endangered species act. These standards shall be utilized to the extent possible in development of coordinated resource management plans to provide a level of management that sustains and perpetuates renewable resources, including fish and wildlife, riparian areas, soil, water, timber, and forage for livestock and wildlife. Furthermore, the standards are recommended for application to model watersheds designated by the Northwest power planning council in conjunction with the conservation commission. The maintenance and restoration of sufficient habitat to preserve, protect, and perpetuate wildlife and fish shall be a major component included in the standards and coordinated resource management plans. Application of standards to privately owned lands is voluntary and may be dependent on funds to provide technical assistance through conservation districts.

(4) The conservation commission shall approve the standards and shall provide them to the departments of natural resources and wildlife, each of the conservation districts, Washington State University cooperative extension service, and the appropriate committees of the legislature. The conservation districts shall make these standards available to the public and for coordinated resource management planning. Application to private lands is voluntary.

(5) The department of natural resources shall implement practices necessary to meet the standards developed pursuant to this section on department managed agricultural and grazing lands, consistent with the trust mandate of the Washington state Constitution and Title 79 RCW. The standards may be modified on a site-specific basis as needed to achieve the fish and wildlife goals, and as determined by the department of fisheries or wildlife, and the department of natural resources. Existing lessees shall be provided an opportunity to participate in any site-specific field review.

Department agricultural and grazing leases issued after December 31, 1994, shall be subject to practices to achieve the standards that meet those developed pursuant to this section. [1993 1st sp.s. c 4 § 5.]

Findings—Grazing lands—1993 1st sp.s. c 4: See note following RCW 75.28.760.

79.01.612 Management of acquired lands—Land acquired by escheat suitable for park purposes—Rental—Repairs. (1) Except as provided in subsection (2) of this section, the department of natural resources shall manage and control all lands acquired by the state by escheat or under chapter 79.66 RCW and all lands acquired by the state by deed of sale or gift or by devise, except such lands which are conveyed or devised to the state to be used for a particular purpose. The department shall lease the lands in the same manner as school lands. When the department determines to sell the lands, they shall be initially offered for sale either at public auction or direct sale to public agencies as provided in this chapter. If the lands are not sold at public auction, the department may, with approval of the board of natural resources, market the lands through persons licensed under chapter 18.85 RCW or through other commercially feasible means at a price not lower than the land's appraised value and pay necessary marketing costs from the sale proceeds. Necessary marketing costs includes reasonable costs associated with advertising the property and paying commissions. The proceeds of the lease or sale of all such lands shall be deposited into the appropriate fund in the state treasury in the manner prescribed by law, except if the grantor in any such deed or the testator in case of a devise specifies that the proceeds of the sale or lease of such lands be devoted to a particular purpose such proceeds shall be so applied. The department may employ agents to rent any escheated, deeded, or devised lands, or lands acquired under chapter 79.66 RCW, for such rental and time and in such manner as the department directs, but the property shall not be rented by such agent for a longer period than one year and no tenant is entitled to compensation for any improvement which he makes on such property. The agent shall cause repairs to be made to the property as the department directs, and shall deduct the cost thereof, together with such compensation and commission as the department authorizes, from the rentals of such property and the remainder which is collected shall be transmitted monthly to the department of natural resources.

(2) When land is acquired by the state by escheat which because of its location or features may be suitable for park purposes, the department shall notify the state parks and recreation commission. The department and the commission shall jointly evaluate the land for its suitability for park purposes, based upon the features of the land and the need for park facilities in the vicinity. Where the department and commission determine that such land is suitable for park purposes, it shall be offered for transfer to the commission, or, in the event that the commission declines to accept the land, to the local jurisdiction providing park facilities in that area. When so offered, the payment required by the recipient agency shall not exceed the costs incurred by the department in managing and protecting the land since receipt by the state.

(3) The department may review lands acquired by escheat since January 1, 1983, for their suitability for park purposes, and apply the evaluation and transfer procedures authorized by subsection (2) of this section. [1993 c 49 § 1; 1984 c 222 § 13; 1927 c 255 § 154; RRS § 7797-154. Formerly RCW 43.12.100.]

Real property distributed to state by probate court decree, jurisdiction of commissioner of public lands over: RCW 11.08.220.

79.01.760 Trespass, waste, damages—Prosecutions.

(1) Every person who, without authorization, uses or occupies public lands, removes anything of value from public lands, or causes waste or damage to public lands, is liable to the state for treble the amount of the damages. However, liability shall be for single damages if the department of natural resources determines, or the person proves upon trial, that the person, at time of the unauthorized act or acts, did not know, or have reason to know, that he or she lacked authorization. Damages recoverable under this section include, but are not limited to, the market value of the use, occupancy, or things removed, had the use, occupancy, or removal been authorized; and any damages caused by injury to the land, including the costs of restoration. In addition, the person is liable for reimbursing the state for its reasonable costs, including but not limited to, its administrative costs, survey costs to the extent they are not included in damages awarded for restoration costs, and its reasonable attorneys' fees and other legal costs.

(2) This section does not apply in any case where liability for damages is provided under RCW 64.12.030, 79.01.756, or 79.40.070.

(3) The department of natural resources is authorized and directed to investigate all trespasses and wastes upon, and damages to, public lands of the state, and to cause prosecutions for, and/or actions for the recovery of, the same, to be commenced as is provided by law. [1993 c 266 § 1; 1927 c 255 § 200; RRS § 7797-200. Prior: 1897 c 89 § 64; 1895 c 178 § 99. Formerly RCW 79.40.040.]

Waste and trespass: Chapter 64.12 RCW.

79.01.800 Seaweed—marine aquatic plants defined.

Unless the context clearly requires otherwise, the definition in this section applies throughout this chapter.

"Marine aquatic plants" means saltwater marine plant species that are dependent upon the marine aquatic or tidal environment, and exist in either an attached or free-floating state. Marine aquatic plants include but are not limited to seaweed of the classes Chlorophyta, Phaeophyta, and Rhodophyta. [1993 c 283 § 2.]

Findings—1993 c 283: "The legislature finds that the plant resources of marine aquatic ecosystems have inherent value and provide essential habitat. These resources are also becoming increasingly valuable as economic commodities and may be declining. The legislature further finds that the regulation of harvest of these resources is currently inadequate to afford necessary protection." [1993 c 283 § 1.]

License: RCW 75.25.005.

Seaweed aquaculture program: RCW 79.96.907.

79.01.805 Seaweed—Personal use limit. The maximum daily wet weight harvest or possession of seaweed

for personal use from all private and public tidelands and state bedlands is ten pounds per person. The department of natural resources in cooperation with the department of fisheries may establish seaweed harvest limits of less than ten pounds for conservation purposes. This section shall in no way affect the ability of any state agency to prevent harvest of any species of marine aquatic plant from lands under its control, ownership, or management. [1993 c 283 § 3.]

Findings—1993 c 283: See note following RCW 79.01.800.

79.01.810 Seaweed—Harvest violations. A violation of RCW 79.01.805 is an infraction under chapter 7.84 RCW, punishable by a penalty of one hundred dollars. [1993 c 283 § 4.]

Findings—1993 c 283: See note following RCW 79.01.800.

79.01.815 Seaweed—Enforcement. The department of fisheries may enforce the provisions of RCW 79.01.805 and 79.01.810. [1993 c 283 § 5.]

Findings—1993 c 283: See note following RCW 79.01.800.

79.01.820 Seaweed—Commercial harvest. RCW 79.01.805 does not apply to commercial harvest of marine aquatic plants. [1993 c 283 § 6.]

80.04.130 Suspension of tariff change—Mandatory measured telecommunications service—Washington telephone assistance program service. (1) Whenever any public service company shall file with the commission any schedule, classification, rule or regulation, the effect of which is to change any rate, charge, rental or toll theretofore charged, the commission shall have power, either upon its own motion or upon complaint, upon notice, to enter upon a hearing concerning such proposed change and the reasonableness and justness thereof, and pending such hearing and the decision thereon the commission may suspend the operation of such rate, charge, rental or toll for a period not exceeding ten months from the time the same would otherwise go into effect, and after a full hearing the commission may make such order in reference thereto as would be provided in a hearing initiated after the same had become effective. The commission shall not suspend a tariff that makes a decrease in a rate, charge, rental, or toll filed by a telecommunications company pending investigation of the fairness, justness, and reasonableness of the decrease when the filing does not contain any offsetting increase to another rate, charge, rental, or toll and the filing company agrees to not file for an increase to any rate, charge, rental, or toll to recover the revenue deficit that results from the decrease for

a period of one year. The filing company shall file with any decrease sufficient information as the commission by rule may require to demonstrate the decreased rate, charge, rental, or toll is above the long run incremental cost of the service. A tariff decrease that results in a rate that is below long run incremental cost, or is contrary to commission rule or order, or the requirements of this chapter, shall be rejected for filing and returned to the company. The commission may prescribe a different rate to be effective on the prospective date stated in its final order after its investigation, if it concludes based on the record that the originally filed and effective rate is unjust, unfair, or unreasonable.

For the purposes of this section, tariffs for the following telecommunications services, that temporarily waive or reduce charges for existing or new subscribers for a period not to exceed sixty days in order to promote the use of the services shall be considered tariffs that decrease rates, charges, rentals, or tolls:

- (a) Custom calling service;
- (b) Second access lines; or
- (c) Other services the commission specifies by rule.

The commission may suspend any promotional tariff other than those listed in (a) through (c) of this subsection.

The commission may suspend the initial tariff filing of any water company removed from and later subject to commission jurisdiction because of the number of customers or the average annual gross revenue per customer provisions of RCW 80.04.010. The commission may allow temporary rates during the suspension period. These rates shall not exceed the rates charged when the company was last regulated. Upon a showing of good cause by the company, the commission may establish a different level of temporary rates.

(2) At any hearing involving any change in any schedule, classification, rule or regulation the effect of which is to increase any rate, charge, rental or toll theretofore charged, the burden of proof to show that such increase is just and reasonable shall be upon the public service company.

(3) The implementation of mandatory local measured telecommunications service is a major policy change in available telecommunications service. The commission shall not accept for filing or approve, prior to June 1, 1998, a tariff filed by a telecommunications company which imposes mandatory local measured service on any customer or class of customers, except that, upon finding that it is in the public interest, the commission may accept for filing and approve a tariff that imposes mandatory measured service for a telecommunications company's extended area service or foreign exchange service. This subsection does not apply to land, air, or marine mobile service, or to pay telephone service, or to any service which has been traditionally offered on a measured service basis.

(4) The implementation of Washington telephone assistance program service is a major policy change in available telecommunications service. The implementation of Washington telephone assistance program service will aid in achieving the stated goal of universal telephone service. 80.28.024 Legislative finding. The legislature finds and declares that the potential for meeting future energy needs through conservation measures, including energy conservation loans, energy audits, the use of appropriate tree plantings for energy conservation, and the use of renewable resources, such as solar energy, wind energy, wood, wood waste, municipal waste, agricultural products and wastes, hydroelectric energy, geothermal energy, and end-use waste heat, may not be realized without incentives to public and private energy utilities. The legislature therefore finds and declares that actions and incentives by state government to promote conservation and the use of renewable resources would be of great benefit to the citizens of this state by encouraging efficient energy use and a reliable supply of energy based upon renewable energy resources. [1993 c 204 § 8; 1980 c 149 § 1.]

Findings—1993 c 204: See note following RCW 35.92.390.

80.28.065 Tariff schedule—Energy conservation—Payment by successive property owners—Notice—Rules. (1) Upon request by an electrical or gas company, the commission may approve a tariff schedule that contains rates or charges for energy conservation measures, services, or payments provided to individual property owners or customers. The tariff schedule shall require the electrical or gas company to enter into an agreement with the property owner or customer receiving services at the time the conservation measures, services, or payments are initially provided. The tariff schedule may allow for the payment of the rates or charges over a period of time and for the application of the payment obligation to successive property owners or customers at the premises where the conservation measures or services were installed or performed or with respect to which the conservation payments were made.

(2) The electrical or gas company shall record a notice of a payment obligation, containing a legal description, resulting from an agreement under this section with the county auditor or recording officer as provided in RCW 65.04.030.

[1993 RCW Supp—page 1066]

(3) The commission may prescribe by rule other methods by which an electrical or gas company shall notify property owners or customers of any such payment obligation. [1993 c 245 § 2.]

Legislative findings—Intent—1993 c 245: "(1) The legislature finds that:

(a) The ability of utilities to acquire cost-effective conservation measures is instrumental in assuring that Washington citizens have reasonable energy rates and that utilities have adequate energy resources to meet future energy demands;

(b) Customers may be more willing to accept investments in energy efficiency and conservation if real and perceived impediments to property transactions are avoided;

(c) Potential purchasers of real property should be notified of any utility conservation charges at the earliest point possible in the sale.

(2) It is the intent of the legislature to encourage utilities to develop innovative approaches designed to promote energy efficiency and conservation that have limited rate impacts on utility customers. It is not the intent of the legislature to restrict the authority of the utilities and transportation commission to approve tariff schedules.

(3) It is also the intent of the legislature that utilities which establish conservation tariffs should undertake measures to assure that potential purchasers of property are aware of the existence of any conservation tariffs. Measures that may be considered include, but are not limited to:

(a) Recording a notice of a conservation tariff payment obligation, containing a legal description, with the county property records;

(b) Annually notifying customers who have entered agreements of the conservation tariff obligation;

(c) Working with the real estate industry to provide for disclosure of conservation tariff obligations in standardized listing agreements and earnest money agreements; and

(d) Working with title insurers to provide recorded conservation tariff obligations as an informational note to the preliminary commitment for policy of title insurance." [1993 c 245 § 1.]

80.28.300 Gas, electrical companies authorized to provide customers with landscaping information and to request voluntary donations for urban forestry. (1) Gas companies and electrical companies under this chapter may provide information to their customers regarding landscaping that includes tree planting for energy conservation.

(2) Gas companies and electrical companies under this chapter may request voluntary donations from their customers for the purposes of urban forestry. The request may be in the form of a check-off on the billing statement or other form of a request for a voluntary donation. [1993 c 204 § 4.]

Findings—1993 c 204: See note following RCW 35.92.390.

81.04.130 Suspension of tariff change. Whenever any public service company, other than a railroad company, files with the commission any schedule, classification, rule, or regulation, the effect of which is to change any rate, fare, charge, rental, or toll previously charged, the commission has power, either upon its own motion or upon complaint, upon notice, to hold a hearing concerning the proposed change and the reasonableness and justness of it. Pending the hearing and the decision the commission may suspend the operation of the rate, fare, charge, rental, or toll, if the change is proposed by a common carrier subject to the jurisdiction of the commission, other than a solid waste collection company, for a period not exceeding seven months, and, if proposed by a solid waste collection company, for a period not exceeding ten months from the time the change would otherwise go into effect. After a full hearing the commission may make such order in reference to the change as would be provided in a hearing initiated after the change had become effective.

At any hearing involving any change in any schedule, classification, rule, or regulation the effect of which is to increase any rate, fare, charge, rental, or toll theretofore charged, the burden of proof to show that such increase is just and reasonable is upon the public service company. When any common carrier subject to the jurisdiction of the commission files any tariff, classification, rule, or regulation the effect of which is to decrease any rate, fare, or charge, the burden of proof to show that such decrease is just and reasonable is upon the common carrier. 81.28.050 Tariff changes—Statutory notice—Exception. Unless the commission otherwise orders, no change may be made in any classification, rate, fare, charge, rule, or regulation filed and published by a common carrier other than a rail carrier, except after thirty days' notice to the commission and to the public. In the case of a solid waste collection company, no such change may be made except after forty-five days' notice to the commission and to the public. The notice shall be published as provided in RCW 81.28.040 and shall plainly state the changes proposed to be made in the schedule then in force and the time when the changed rate, classification, fare, or charge will go into effect. The commission, for good cause shown, may by order allow changes in rates without requiring the notice and the publication time periods specified in this section. When any change is made in any rate, fare, charge, classification, rule, or regulation, attention shall be directed to the change by some character on the schedule. The character and its placement shall be designated by the commission. The commission may, by order, for good cause shown, allow changes in any rate, fare, charge, classification, rule, or regulation without requiring any character to indicate each and every change to be made. (1) Motor vehicles when operated in transportation exclusively within the corporate limits of any city or town of less than ten thousand population unless contiguous to a city or town of ten thousand population or over, nor between contiguous cities or towns both or all of which are less than ten thousand population;

(2) Motor vehicles when operated in transportation wholly within the corporate limits of cities or towns of ten thousand or more but less than thirty thousand population, or between such cities or towns when contiguous, as to which the commission, after investigation and the issuance of an order thereon, has determined that no substantial public interest exists which requires that such transportation be subject to regulation under this chapter;

(3) Motor vehicles when transporting exclusively the United States mail or in the transportation of newspapers or periodicals;

81.80.090 Form of application—Filing fees. The commission shall prescribe forms of application for permits and for extensions thereof for the use of prospective applicants, and for transfer of permits and for acquisition of control of carriers holding permits, and shall make regulations for the filing thereof. Any such application shall be accompanied by such filing fee as the commission may prescribe by rule: PROVIDED, That such fee shall not exceed five hundred fifty dollars. [1993 c 97 § 5; 1973 c 115 § 10; 1961 c 14 § 81.80.090. Prior: 1941 c 163 § 2; 1937 c 166 § 7; 1935 c 184 § 7; RRS § 6382-7.]

81.80.115 Fees imposed under this chapter—Procedure for contesting—Rules. If a person seeks to contest the imposition of a fee imposed under this chapter, the person shall pay the fee and request a refund within six months of the due date for the payment by filing a petition for a refund with the commission. The commission shall establish by rule procedures for handling refund petitions and may delegate the decisions on refund petitions to the secretary of the commission. [1993 c 97 § 6.]

81.80.132 Common carriers—Estimate of charges for household goods—Penalty. When a common carrier gives an estimate of charges for services in carrying household goods, the carrier will endeavor to accurately reflect the actual charges. The carrier is subject to a monetary penalty not to exceed one thousand dollars per violation when the actual charges exceed the percentages allowed by the commission. [1993 c 392 § 1.]

81.80.145 Private carriers—Terminal safety audits—Exemptions—Registration—Rules—Fees. (1)(a) The commission has the authority to conduct terminal safety audits of private carriers as defined in RCW 81.80.010(6). Only those private carriers operating vehicles with a gross vehicle weight rating or gross combination weight rating of 26,001 or more pounds, or those vehicles used in the transportation of hazardous materials in a quantity requiring placarding are subject to the commission's terminal audits.

(b) For purposes of this section, only those private carriers that have terminal operations in the state of Washington are subject to commission jurisdiction.

(2)(a) Those motor vehicles normally owned and operated by farmers in the transportation of their own farm, orchard, or dairy products, including livestock and plant or animal wastes from point of production to market, or in transporting farm machinery or farm supplies to or from a farm owned by the farmer are exempt from this section, but only if the vehicle is not used to transport hazardous materials of a type or quantity that require the vehicle to be placarded or operated within one hundred fifty air miles of the farmer's farm.

(b) Those motor vehicles that are owned and operated by the United States government, Washington state, or any county, city, or municipality are exempt from this section.

(3) Private carriers operating terminals in the state of Washington and having motor vehicles with a gross weight rating or gross combination weight rating of 26,001 pounds shall register with the commission. The commission shall establish, by rule, a fee not to exceed fifty dollars for an

application filed by a private motor carrier who has not filed a currently effective application for registration. The commission shall establish, by rule, an annual regulatory fee not to exceed ten dollars per vehicle. [1993 c 359 § 1.]

81.80.150 Tariffs to be compiled and sold by commission. The commission shall make, fix, construct, compile, promulgate, publish, and distribute tariffs containing compilations of rates, charges, classifications, rules, and regulations to be used by all common carriers. In compiling such tariffs it shall include within any given tariff compilation such carriers, groups of carriers, commodities, or geographical areas as it determines shall be in the public interest. Such compilations and publications may be made by the commission by compiling the rates, charges, classifications, rules, and regulations now in effect, and as they may be amended and altered from time to time after notice and hearing, by issuing and distributing revised pages or supplements to such tariffs or reissues thereof in accordance with the orders of the commission: PROVIDED, That the commission, upon good cause shown, may establish temporary rates, charges, or classification changes which may be made permanent only after publication in an applicable tariff for not less than sixty days, and determination by the commission thereafter that the rates, charges or classifications are just, fair, and reasonable: PROVIDED FURTHER, That temporary rates shall not be made permanent except upon notice and hearing if within sixty days from date of publication, a shipper or common carrier, or representative of either, shall file with the commission a protest alleging such temporary rates to be unjust, unfair, or unreasonable. For purposes of this proviso, the publication of temporary rates in the tariff shall be deemed adequate public notice. Nothing herein shall be construed to prevent the commission from proceeding on its own motion, upon notice and hearing, to fix and determine just, fair, and reasonable rates, charges, and classifications. Each common carrier shall purchase from the commission and post tariffs applicable to its authority. The commission shall set fees for sale of the tariffs, and supplements and corrections of them, at rates to cover all costs of making, fixing, constructing, compiling, promulgating, publishing, and distributing the tariffs. The proper tariff, or tariffs, applicable to a carrier's operations shall be available to the public at each agency and office of all common carriers operating within this state. Such compilations and publications shall be sold by the commission for the established fee. However, copies may be furnished free to other regulatory bodies and departments of government and to colleges, schools, and libraries. All copies of the compilations, whether sold or given free, shall be issued and distributed under rules and regulations to be fixed by the commission: PROVIDED FURTHER, That the commission may by order authorize common carriers to publish and file tariffs with the commission and be governed thereby in respect to certain designated commodities and services when, in the opinion of the commission, it is impractical for the commission to make, fix, construct, compile, publish, and distribute tariffs covering such commodities and services. [1993 c 97 § 4; 1981 c 116 § 2; 1973 c 115 § 11; 1961 c 14 § 81.80.150. Prior: 1959 c 248

81.80.301 Registration of motor carriers doing business in state—Identification number—Receipt carried in cab—Fees. The commission may implement a system to register motor carriers doing business in this state, including, but not limited to:

(1) The prescription of an identification number and the issuance of a receipt that must be carried within the cab of each motive power vehicle operated within this state;

(2) The adoption of requirements for the carriers to carry other identifying information along with the identification number provided for in subsection (1) of this section;

(3) Participation in a single state registration program as authorized by the Intermodal Surface Transportation Efficiency Act of 1991, 49 U.S.C. Sec. 11506, as in effect on July 25, 1993; and

(4) The collection of any fee authorized by the Intermodal Surface Transportation Efficiency Act, 49 U.S.C. Sec. 11506, as in effect on July 25, 1993, in addition to any other fees authorized by law. [1993 c 97 § 1.]

81.80.318 Single trip transit permit. (Effective January 1, 1994.) Any motor carrier engaged in this state in the casual or occasional carriage of property in interstate or foreign commerce, who would otherwise be subject to all of the requirements of this chapter, shall be authorized to engage in such casual or occasional carriage, upon securing from the commission a single trip transit permit, valid for a period not exceeding ten days, which shall authorize a one way trip in transporting property for compensation between points in the state of Washington and points in other states, territories, or foreign countries.

No identification numbers and no regulatory fees other than as provided in this section shall be required for such permit. The permit must be carried in the cab of the motive power vehicle.

The permit shall be issued upon application to the commission or any of its duly authorized agents upon payment of a fee of not more than twenty dollars and the furnishing of proof of possession of public liability and property damage insurance at levels set by commission rule. Such proof may consist of an insurance policy or a certificate of insurance.

The commission shall not be required to collect the excise tax prescribed by RCW 82.44.020 on any vehicle subject only to the payment of this fee. [1993 c 97 § 2; 1985 c 7 § 153; 1967 c 170 § 3; 1963 c 59 § 8; 1961 c 14 § 81.80.318. Prior: 1955 c 79 § 10.]

Effective date—1993 c 97 §§ 2, 3, and 7: "Sections 2, 3, and 7 of this act take effect January 1, 1994." [1993 c 97 § 8.]

81.80.320 Repealed. (Effective January 1, 1994.) See Supplementary Table of Disposition of Former RCW Sections, this volume.

81.80.321 Regulatory fee—Based on gross income—Legislative intent—Public service revolving fund. (Effective January 1, 1994.) In addition to all other fees to be paid, a common carrier and contract carrier shall pay a regulatory fee of no more than 0.0025 of its gross income from intrastate operations for the previous calendar year, or such other period as the commission designates by rule. The carrier shall pay the fee no later than four months after the end of the appropriate period and shall include with the payment such information as the commission requires by rule.

The legislature intends that the fees collected under this chapter shall reasonably approximate the cost of supervising and regulating motor carriers subject to this chapter, and to that end the commission may by general order decrease fees provided in this section if it determines that the moneys then in the motor carrier account of the public service revolving fund and the fees currently to be paid will exceed the reasonable cost of supervising and regulating carriers.

All fees collected under any other provision of this chapter must be paid to the commission. The commission shall transmit the fees to the state treasurer within thirty days for deposit to the credit of the public service revolving fund. [1993 c 97 § 3.]

81.84.010 Certificate of convenience and necessity required—Progress reports. (1) No commercial ferry may hereafter operate any vessel or ferry for the public use for hire between fixed termini or over a regular route upon the waters within this state, including the rivers and lakes and Puget Sound, without first applying for and obtaining from the commission a certificate declaring that public convenience and necessity require such operation. Service authorized by certificates issued before or after July 25, 1993, to a commercial ferry operator shall be exercised by the operator in a manner consistent with the conditions established in the certificate or tariffs: **PROVIDED**, That no certificate shall be required for a vessel primarily engaged in transporting freight other than vehicles, whose gross earnings from the transportation of passengers and/or vehicles, are not more than ten percent of the total gross annual earnings of such vessel: **PROVIDED**, That nothing herein shall be construed to affect the right of any county public transportation benefit area or other public agency within this state to construct, condemn, purchase, operate, or maintain, itself or

by contract, agreement, or lease, with any person, firm, or corporation, ferries or boats across or wharfs at or upon the waters within this state, including rivers and lakes and Puget Sound, provided such operation is not over the same route or between the same districts, being served by a certificate holder without first acquiring the rights granted to the certificate holder under the certificate, nor shall this chapter be construed to affect, amend, or invalidate any contract entered into prior to January 15, 1927, for the operation of ferries or boats upon the waters within this state, which was entered into in good faith by any county with any person, firm, or corporation, except that in case of the operation or maintenance by any county, city, town, port district, or other political subdivision by contract, agreement, or lease with any person, firm, or corporation, of ferries or boats across or wharfs at or upon the waters within this state, including rivers and lakes and Puget Sound, the commission shall have power and authority to regulate rates and services of such operation or maintenance of ferries, boats, or wharfs, to make, fix, alter, or amend said rates, and to regulate service and safety of operations thereof, in the manner and to the same extent as it is empowered to regulate a commercial ferry, notwithstanding the provisions of any act or parts of acts inconsistent herewith.

(2) The holder of a certificate of public convenience and necessity granted under this chapter must initiate service within five years of obtaining the certificate. The certificate holder shall report to the commission every six months after the certificate is granted on the progress of the certificated route. The reports shall include, but not be limited to, the progress of environmental impact, parking, local government land use, docking, and financing considerations. However, if service has not been initiated within five years of obtaining the certificate, the commission may extend the certificate on a twelve-month basis for up to three years if the six-month progress reports indicate there is significant advancement toward initiating service.

(3) The commission shall review certificates in existence as of July 25, 1993, where service is not being provided on all or any portion of the route or routes certificated. Based on progress reports required under subsection (2) of this section, the commission may grant an extension beyond that provided in subsection (2) of this section. Such additional extension may not exceed a total of two years. [1993 c 427 § 2; 1961 c 14 § 81.84.010. Prior: 1950 ex.s. c 6 § 1, part; 1927 c 248 § 1, part; RRS § 10361-1, part.]

81.84.020 Application—Hearing—Issuance of certificate—Determining factors. (1) Upon the filing of an application the commission shall give reasonable notice to the department, affected cities and counties, and any common carrier which might be adversely affected, of the time and place for hearing on such application. The commission shall have power after hearing, to issue the certificate as prayed for, or to refuse to issue it, or to issue it for the partial exercise only of the privilege sought, and may attach to the exercise of the rights granted by said certificate such terms and conditions as in its judgment the public convenience and necessity may require; but the commission shall not have power to grant a certificate to operate between districts and/or into any territory prohibited by RCW

47.60.120 or already served by an existing certificate holder, unless such existing certificate holder has failed or refused to furnish reasonable and adequate service or has failed to provide the service described in its certificate or tariffs after the time period allowed to initiate service has elapsed: PROVIDED, A certificate shall be granted when it shall appear to the satisfaction of the commission that the commercial ferry was actually operating in good faith over the route for which such certificate shall be sought, on January 15, 1927: PROVIDED, FURTHER, That in case two or more commercial ferries shall upon said date have been operating vessels upon the same route, or between the same districts the commission shall determine after public hearing whether one or more certificates shall issue, and in determining to whom a certificate or certificates shall be issued, the commission shall consider all material facts and circumstances including the prior operation, schedules, and services rendered by either of the ferries, and in case more than one certificate shall issue, the commission shall fix and determine the schedules and services of the ferries to which the certificates are issued to the end that duplication of service be eliminated and public convenience be furthered.

(2) Before issuing a certificate, the commission shall determine that the applicant has the financial resources to operate the proposed service for at least twelve months, based upon the submission by the applicant of a pro forma financial statement of operations. Issuance of a certificate shall be determined upon, but not limited to, the following factors: Ridership and revenue forecasts; the cost of service for the proposed operation; an estimate of the cost of the assets to be used in providing the service; a statement of the total assets on hand of the applicant that will be expended on the proposed operation; and a statement of prior experience, if any, in such field by the applicant. The documentation required of the applicant under this section shall comply with the provisions of RCW 9A.72.085.

(3) Subsection (2) of this section does not apply to an application for a certificate that is pending as of July 25, 1993. [1993 c 427 § 3; 1961 c 14 § 81.84.020. Prior: 1950 ex.s. c 6 § 1, part; 1927 c 248 § 1, part; RRS § 10361-1, part.]

81.84.025 Certificate—Insurance or bond required—Amounts. The commission, in granting a certificate to operate as a commercial ferry, shall require the operator to first obtain liability and property damage insurance from a company licensed to write liability insurance in the state or a surety bond of a company licensed to write surety bonds in the state, on each vessel or ferry to be used, in the amount of not less than one hundred thousand dollars for any recovery for personal injury by one person, and not less than one million dollars and in such additional amount as the commission shall determine, for all persons receiving personal injury and property damage by reason of one act of negligence, and not less than fifty thousand dollars for damage to property of any person other than the insured; or combined bodily injury and property damage liability insurance of not less than one million dollars, and to maintain such liability and property damage insurance or surety bond in force on each vessel or ferry while so used. Each policy for liability or property damage insurance or

surety bond required by this section must be filed with the commission and kept in full force and effect, and failure to do so is cause for revocation of the operator's certificate. [1993 c 427 § 4.]

81.84.030 Certificate—Transfer. No certificate or any right or privilege thereunder held, owned, or obtained under the provisions of this chapter shall be sold, assigned, leased, mortgaged, or in any manner transferred, either by the act of the parties or by operation of law, except upon authorization by the commission first obtained. [1993 c 427 § 5; 1961 c 14 § 81.84.030. Prior: 1950 ex.s. c 6 § 1, part; 1927 c 248 § 1, part; RRS § 10361-1, part.]

81.84.050 Penalties—Remission, mitigation. Every commercial ferry and every officer, agent, or employee of any commercial ferry who violates or who procures, aids, or abets in the violation of any provision of this title, or any order, rule, regulation, or decision of the commission shall incur a penalty of one hundred dollars for every such violation. Each and every such violation shall be a separate and distinct offense, and in case of a continuing violation every day's continuance shall be and be deemed to be a separate and distinct violation. Every act of commission or omission which procures, aids, or abets in the violation shall be considered a violation under the provisions of this section and subject to the penalty herein provided for.

The penalty herein provided for shall become due and payable when the person incurring the same receives a notice in writing from the commission describing such violation with reasonable particularity and advising such person that the penalty is due.

The commission may, upon written application therefor, received within fifteen days, remit or mitigate any penalty provided for in this section or discontinue any prosecution to recover the same upon such terms as it in its discretion shall deem proper, and shall have authority to ascertain the facts upon all such applications in such manner and under such regulations as it may deem proper.

If the amount of such penalty is not paid to the commission within fifteen days after receipt of notice imposing the same or, if application for remission or mitigation has not been made, within fifteen days after the violator has received notice of the disposition of such application, the attorney general shall bring an action to recover the penalty in the name of the state of Washington in the superior court of Thurston county or of some other county in which such violator may do business. In all such actions the procedure and rules of evidence shall be the same as in ordinary civil actions except as otherwise herein provided. All penalties recovered by the state under this chapter shall be paid into the state treasury and credited to the public service revolving fund. [1993 c 427 § 6; 1961 c 14 § 81.84.050. Prior: 1937 c 169 § 6; RRS § 10361-2.]

81.84.060 Certificate—Grounds for cancellation, revocation, suspension, alteration, or amendment. The commission, upon complaint by an interested party, or upon its own motion after notice and opportunity for hearing, may cancel, revoke, suspend, alter, or amend a certificate issued under this chapter on any of the following grounds:

(1) Failure of the certificate holder to initiate service by the conclusion of the fifth year after the certificate has been granted or by the conclusion of an extension granted under RCW 81.84.010 (2) or (3), if the commission has considered the progress report information required under RCW 81.84.010 (2) or (3);

(2) Failure of the certificate holder to file an annual report;

(3) The filing by a certificate holder of an annual report that shows no revenue in the previous twelve-month period after service has been initiated;

(4) The violation of any provision of this chapter;

(5) The violation of or failure to observe the provisions or conditions of the certificate or tariffs;

(6) The violation of an order, decision, rule, regulation, or requirement established by the commission under this chapter;

(7) Failure of a certificate holder to maintain the required insurance coverage in full force and effect; or

(8) Failure or refusal to furnish reasonable and adequate service after initiating service.

The commission shall take appropriate action within thirty days upon a complaint by an interested party or of its own finding that a provision of this section has been violated. [1993 c 427 § 7.]

81.84.070 Temporary certificate—Immediate and urgent need. The commission may, with or without a hearing, issue temporary certificates to operate under this chapter, but only after it finds that the issuance of the temporary certificate is necessary due to an immediate and urgent need and is otherwise consistent with the public interest. The certificate may be issued for a period of up to one hundred eighty days. The commission may prescribe such special rules and impose special terms and conditions on the granting of the certificate as in its judgment are reasonable and necessary in carrying out this chapter. The commission shall collect a filing fee, not to exceed two hundred dollars, for each application for a temporary certificate. The commission shall not issue a temporary certificate to operate on a route for which a certificate has been issued or for which an application by another commercial ferry operator is pending. [1993 c 427 § 8.]

HIGH CAPACITY TRANSPORTATION SYSTEMS

Sections

81.104.030	Policy development outside central Puget Sound—Voter approval.
81.104.090	Department of transportation responsibilities—Funding of planning projects.
81.104.120	Commuter rail service—Voter approval.

81.104.030 Policy development outside central Puget Sound—Voter approval. (1) In any county with a population of from two hundred ten thousand to less than one million that is not bordered by a county with a population of one million or more, and in each county with a population of less than two hundred ten thousand, transit agencies may elect to establish high capacity transportation service. Such

agencies shall form a regional policy committee with proportional representation based upon population distribution within the designated service area and a representative of the department of transportation, or such agencies may use the designated metropolitan planning organization as the regional policy committee.

Transit agencies participating in joint regional policy committees shall seek voter approval within their own service boundaries of a high capacity transportation system plan and financing plan. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington.

(2) Transit agencies in counties adjoining state or international boundaries are authorized to participate in the regional high capacity transportation programs of an adjoining state or Canadian province. [1993 c 428 § 1; 1992 c 101 § 20; 1991 c 318 § 3; 1991 c 309 § 2; (1991 c 363 § 155 repealed by 1991 c 309 § 6); 1990 c 43 § 24.]

81.104.090 Department of transportation responsibilities—Funding of planning projects. The department of transportation shall be responsible for distributing amounts appropriated from the high capacity transportation account, which shall be allocated by the multimodal transportation programs and projects selection committee based on criteria in subsection (2) of this section.

(1) State high capacity transportation account funds may provide up to eighty percent matching assistance for high capacity transportation planning efforts.

(2) Authorizations for state funding for high capacity transportation planning projects shall be subject to the following criteria:

(a) Conformance with the designated regional transportation planning organization’s regional transportation plan;

(b) Local matching funds;

(c) Demonstration of projected improvement in regional mobility;

(d) Conformance with planning requirements prescribed in RCW 81.104.100, and if five hundred thousand dollars or more in state funding is requested, conformance with the requirements of RCW 81.104.110; and

(e) Establishment, through interlocal agreements, of a joint regional policy committee as defined in RCW 81.104.030 or 81.104.040.

(3) The department of transportation shall provide general review and monitoring of the system and project planning process prescribed in RCW 81.104.100. [1993 c 393 § 2; 1991 c 318 § 8; 1990 c 43 § 30.]

Effective date—1993 c 393: See RCW 47.66.900.

81.104.120 Commuter rail service—Voter approval. (1) Transit agencies and regional transit authorities may operate or contract for commuter rail service where it is deemed to be a reasonable alternative transit mode. A reasonable alternative is one whose passenger costs per mile, including costs of trackage, equipment, maintenance, operations, and administration are equal to or less than

comparable bus, entrained bus, trolley, or personal rapid transit systems.

(2) A county may use funds collected under RCW 81.100.030 or 81.100.060 to contract with one or more transit agencies or regional transit authorities for planning, operation, and maintenance of commuter rail projects which: (a) Are consistent with the regional transportation plan; (b) have met the project planning and oversight requirements of RCW 81.104.100 and 81.104.110; and (c) have been approved by the voters within the service area of each transit agency or regional transit authority participating in the project. For transit agencies in counties adjoining state or international boundaries where the high capacity transportation system plan and financing plan propose a bi-state or international high capacity transportation system, such voter approval shall be required from only those voters residing within the service area in the state of Washington. The phrase "approved by the voters" includes specific funding authorization for the commuter rail project.

(3) The utilities and transportation commission shall maintain safety responsibility for passenger rail service operating on freight rail lines. Agencies providing passenger rail service on lines other than freight rail lines shall maintain safety responsibility for that service. [1993 c 428 § 2; 1992 c 101 § 24; 1990 c 43 § 33.]

Chapter 81.112

REGIONAL TRANSPORTATION AUTHORITIES

Sections

81.112.030 Regional transit authority.

81.112.030 Regional transit authority. Two or more contiguous counties each having a population of four hundred thousand persons or more may establish a regional transit authority to develop and operate a high capacity transportation system as defined in chapter 81.104 RCW.

The authority shall be formed in the following manner:

(1) The joint regional policy committee created pursuant to RCW 81.104.040 shall adopt a system and financing plan, including the definition of the service area. This action shall be completed by September 1, 1992, contingent upon satisfactory completion of the planning process defined in RCW 81.104.100. The final system plan shall be adopted no later than June 30, 1993. In addition to the requirements of RCW 81.104.100, the plan for the proposed system shall provide explicitly for a minimum portion of new tax revenues to be allocated to local transit agencies for interim express services. Upon adoption the joint regional policy committee shall immediately transmit the plan to the county legislative authorities within the adopted service area.

(2) The legislative authorities of the counties within the service area shall decide by resolution whether to participate in the authority. This action shall be completed within forty-five days following receipt of the adopted plan or by August 13, 1993, whichever comes first.

(3) Each county that chooses to participate in the authority shall appoint its board members as set forth in RCW 81.112.040 and shall submit its list of members to the secretary of the Washington state department of transportation. These actions must be completed within thirty days

following each county's decision to participate in the authority.

(4) The secretary shall call the first meeting of the authority, to be held within thirty days following receipt of the appointments. At its first meeting, the authority shall elect officers and provide for the adoption of rules and other operating procedures.

(5) The authority is formally constituted at its first meeting and the board shall begin taking steps toward implementation of the system and financing plan adopted by the joint regional policy committee. If the joint regional policy committee fails to adopt a plan by June 30, 1993, the authority shall proceed to do so based on the work completed by that date by the joint regional policy committee. Upon formation of the authority, the joint regional policy committee shall cease to exist. The authority may make minor modifications to the plan as deemed necessary and shall at a minimum review local transit agencies' plans to ensure feeder service/high capacity transit service integration, ensure fare integration, and ensure avoidance of parallel competitive services. The authority shall also conduct a minimum thirty-day public comment period.

(6) If the authority determines that major modifications to the plan are necessary before being submitted to the voters, the authority may make those modifications with a favorable vote of two-thirds of the entire membership. Any such modification shall be subject to the review process set forth in RCW 81.104.110. The modified plan shall be transmitted to the legislative authorities of the participating counties. The legislative authorities shall have forty-five days following receipt to confirm or rescind their continued participation in the authority.

(7) If any county opts to not participate in the authority, but two or more contiguous counties do choose to continue to participate, the authority's board shall be revised accordingly. The authority shall, within forty-five days, redefine the system and financing plan to reflect elimination of one or more counties, and submit the redefined plan to the legislative authorities of the remaining counties for their decision as to whether to continue to participate. This action shall be completed within forty-five days following receipt of the redefined plan.

(8) The authority shall place on the ballot within two years of the authority's formation, a single ballot proposition to approve the system and finance plan and authorize the imposition of the taxes to support the plan within its service area. In addition to the system plan requirements contained in RCW 81.104.100(2)(d), the system plan submitted to voters shall contain an equity element which:

(a) Identifies revenues anticipated to be generated by corridor and by county within the authority's boundaries;

(b) Identifies the phasing of construction and operation of high capacity system facilities, services, and benefits in each corridor. Phasing decisions should give priority to jurisdictions which have adopted transit-supportive land use plans; and

(c) Identifies the degree to which revenues generated within each county will benefit the residents of that county, and identifies when such benefits will accrue.

A simple majority of those voting within the boundaries of the authority is required for approval. If the vote is affirmative, the authority shall begin implementation of the

plan. However, the authority may not submit any authorizing proposition for voter-approved taxes prior to July 1, 1993; nor may the authority issue bonds or form any local improvement district prior to July 1, 1993.

(9) If the vote fails, the board may redefine the system and financing plan, make changes to the authority boundaries, and make corresponding changes to the composition of the board. If the composition of the board is changed, the participating counties shall revise the membership of the board accordingly. The board may then submit the revised plan to voters. No single system and financing plan may be submitted to the voters more than twice.

If the authority is unable to achieve a positive vote within two years from the date of the first election on a system plan, the board may, by resolution, reconstitute the authority as a single-county body. With a two-thirds vote of the entire membership of the voting members, the board may also dissolve the authority. [1993 1st sp.s. c 23 § 62; 1992 c 101 § 3.]

82.02.050 Impact fees—Intent—Limitations. (1) It is the intent of the legislature:

(a) To ensure that adequate facilities are available to serve new growth and development;

(b) To promote orderly growth and development by establishing standards by which counties, cities, and towns may require, by ordinance, that new growth and development pay a proportionate share of the cost of new facilities needed to serve new growth and development; and

(c) To ensure that impact fees are imposed through established procedures and criteria so that specific developments do not pay arbitrary fees or duplicative fees for the same impact.

(2) Counties, cities, and towns that are required or choose to plan under RCW 36.70A.040 are authorized to impose impact fees on development activity as part of the financing for public facilities, provided that the financing for system improvements to serve new development must provide for a balance between impact fees and other sources of public funds and cannot rely solely on impact fees.

(3) The impact fees:

(a) Shall only be imposed for system improvements that are reasonably related to the new development;

(b) Shall not exceed a proportionate share of the costs of system improvements that are reasonably related to the new development; and

(c) Shall be used for system improvements that will reasonably benefit the new development.

(4) Impact fees may be collected and spent only for the public facilities defined in RCW 82.02.090 which are addressed by a capital facilities plan element of a comprehensive land use plan adopted pursuant to the provisions of RCW 36.70A.070 or the provisions for comprehensive plan adoption contained in chapter 36.70, 35.63, or 35A.63 RCW. After the date a county, city, or town is required to adopt its comprehensive plan and development regulations under chapter 36.70A RCW, continued authorization to collect and expend impact fees shall be contingent on the county, city, or town adopting or revising a comprehensive plan in compliance with RCW 36.70A.070, and on the capital facilities plan identifying:

(a) Deficiencies in public facilities serving existing development and the means by which existing deficiencies will be eliminated within a reasonable period of time;

(b) Additional demands placed on existing public facilities by new development; and

(c) Additional public facility improvements required to serve new development.

If the capital facilities plan of the county, city, or town is complete other than for the inclusion of those elements which are the responsibility of a special district, the county, city, or town may impose impact fees to address those public facility needs for which the county, city, or town is responsible. - 82.08.02665 Exemptions—Sales of watercraft, vessels to residents of foreign countries.
- 82.08.0273 Exemptions—Sales to nonresidents of tangible personal property for use outside the state—Proof of nonresident status—Penalties.
- 82.08.02795 Exemptions—Sales to free hospitals.
- 82.08.0281 Exemptions—Sales of prescription drugs.
- 82.08.0287 Exemptions—Sales of passenger motor vehicles as ride-sharing vehicles.

- 82.08.130 Resale certificate—Purchase and resale—Rules.
- 82.08.150 Tax on certain sales of intoxicating liquors—Additional taxes for general fund, drug enforcement, health services—Collection.

82.08.02665 Exemptions—Sales of watercraft, vessels to residents of foreign countries. The tax levied by RCW 82.08.020 does not apply to sales of vessels to

residents of foreign countries for use outside of this state, even though delivery is made within this state, but only if (1) the vessel will not be used within this state for more than forty-five days and (2) an appropriate exemption certificate supported by identification as provided by and filed with the department of revenue and signed by the purchaser or the purchaser's agent establishes the fact that the purchaser is a resident of a foreign country and that the vessel is for use outside of this state. One copy of the exemption certificate is to be filed with the department of revenue and a duplicate is to be retained by the dealer.

As used in this section, "vessel" means every watercraft used or capable of being used as a means of transportation on the water, other than a seaplane. [1993 c 119 § 1.]

82.08.0273 Exemptions—Sales to nonresidents of tangible personal property for use outside the state—Proof of nonresident status—Penalties. (1) The tax levied by RCW 82.08.020 shall not apply to sales to nonresidents of this state of tangible personal property for use outside this state when the purchaser (a) is a bona fide resident of a state or possession or Province of Canada other than the state of Washington and such state, possession, or Province of Canada does not impose a retail sales tax or use tax of three percent or more or, if imposing such a tax, permits Washington residents exemption from otherwise taxable sales by reason of their residence, and (b) agrees, when requested, to grant the department of revenue access to such records and other forms of verification at his or her place of residence to assure that such purchases are not first used substantially in the state of Washington.

(2)(a) Any person claiming exemption from retail sales tax under the provisions of this section must display proof of his or her current nonresident status as herein provided.

(b) Acceptable proof of a nonresident person's status shall include one piece of identification such as a valid driver's license from the jurisdiction in which the out-of-state residency is claimed or a valid identification card which has a photograph of the holder and is issued by the out-of-state jurisdiction. Identification under this subsection (2)(b) must show the holder's residential address and have as one of its legal purposes the establishment of residency in that out-of-state jurisdiction.

(3) Nothing in this section requires the vendor to make tax exempt retail sales to nonresidents. A vendor may choose to make sales to nonresidents, collect the sales tax, and remit the amount of sales tax collected to the state as otherwise provided by law. If the vendor chooses to make a sale to a nonresident without collecting the sales tax, the vendor shall, in good faith, examine the proof of nonresidence, determine whether the proof is acceptable under subsection (2)(b) of this section, and maintain records for each nontaxable sale which shall show the type of proof accepted, including any identification numbers where appropriate, and the expiration date, if any.

(4)(a) Any person making fraudulent statements, which includes the offer of fraudulent identification or fraudulently procured identification to a vendor, in order to purchase goods without paying retail sales tax shall be guilty of perjury. Any person making tax exempt purchases under this section by displaying proof of identification not his or

her own, or counterfeit identification, with intent to violate the provisions of this section, shall be guilty of a misdemeanor and, in addition, shall be liable for the tax and subject to a penalty equal to the greater of one hundred dollars or the tax due on such purchases.

(b) Any vendor who makes sales without collecting the tax to a person who does not hold valid identification establishing out-of-state residency, and any vendor who fails to maintain records of sales to nonresidents as provided in this section, shall be personally liable for the amount of tax due. Any vendor who makes sales without collecting the retail sales tax under this section and who has actual knowledge that the purchaser's proof of identification establishing out-of-state residency is fraudulent shall be guilty of a misdemeanor and, in addition, shall be liable for the tax and subject to a penalty equal to the greater of one thousand dollars or the tax due on such sales. In addition, both the purchaser and the vendor shall be liable for any penalties and interest assessable under chapter 82.32 RCW. [1993 c 444 § 1; 1988 c 96 § 1; 1982 1st ex.s. c 5 § 1; 1980 c 37 § 39. Formerly RCW 82.08.030(21).]

Effective date—1988 c 96: "This act shall take effect July 1, 1989." [1988 c 96 § 2.]

Intent—1980 c 37: See note following RCW 82.04.4281.

82.08.02795 Exemptions—Sales to free hospitals.

(1) The tax levied by RCW 82.08.020 shall not apply to sales to free hospitals of items reasonably necessary for the operation of, and provision of health care by, free hospitals.

(2) As used in this section, "free hospital" means a hospital that does not charge patients for health care provided by the hospital. [1993 c 205 § 1.]

Effective date—1993 c 205: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 6, 1993]." [1993 c 205 § 3.]

82.08.0281 Exemptions—Sales of prescription drugs. The tax levied by RCW 82.08.020 shall not apply to sales of prescription drugs, including sales to the state or a political subdivision or municipal corporation thereof of drugs to be dispensed to patients by prescription without charge. The term "prescription drugs" shall include any medicine, drug, prescription lens, or other substance other than food for use in the diagnosis, cure, mitigation, treatment, or prevention of disease or other ailment in humans, or for use for family planning purposes, including the prevention of conception, supplied:

(1) By a family planning clinic that is under contract with the department of health to provide family planning services; or

(2) Under the written prescription to a pharmacist by a practitioner authorized by law of this state or laws of another jurisdiction to issue prescriptions; or

(3) Upon an oral prescription of such practitioner which is reduced promptly to writing and filed by a duly licensed pharmacist; or

(4) By refilling any such written or oral prescription if such refilling is authorized by the prescriber either in the original prescription or by oral order which is reduced promptly to writing and filed by the pharmacist; or

(5) By physicians or optometrists by way of written directions and specifications for the preparation, grinding, and fabrication of lenses intended to aid or correct visual defects or anomalies of humans. [1993 1st sp.s. c 25 § 308; 1980 c 37 § 46. Formerly RCW 82.08.030(28).]

Finding—1993 1st sp.s. c 25: "The legislature finds that prevention is a significant element in the reduction of health care costs. The legislature further finds that taxing some physician prescriptions and not others is unfair to patients. It is, therefore, the intent of the legislature to remove the taxes from prescriptions issued for family planning purposes." [1993 1st sp.s. c 25 § 307.]

Severability—Effective dates—Part headings, captions not law—1993 1st sp.s. c 25: See notes following RCW 82.04.230.

Intent—1980 c 37: See note following RCW 82.04.4281.

82.08.0287 Exemptions—Sales of passenger motor vehicles as ride-sharing vehicles. The tax imposed by this chapter shall not apply to sales of passenger motor vehicles which are to be used as ride-sharing vehicles, as defined in RCW 46.74.010(3), by not less than five persons, including the driver, with a gross vehicle weight not to exceed 10,000 pounds where the primary usage is for commuter ride-sharing, as defined in RCW 46.74.010(1), or passenger motor vehicles where the primary usage is for ride-sharing for the elderly and the handicapped, as defined in RCW 46.74.010(2), if the ride-sharing vehicles are exempt under RCW 82.44.015 for thirty-six consecutive months beginning within thirty days of application for exemption under this section. If used as a ride-sharing vehicle for less than thirty-six consecutive months, the registered owner of one of these vehicles shall notify the department of revenue upon termination of primary use of the vehicle as a ride-sharing vehicle and is liable for the tax imposed by this chapter.

To qualify for the tax exemption, those passenger motor vehicles with five or six passengers, including the driver, used for commuter ride-sharing, must be operated either within the state's eight largest counties that are required to develop commute trip reduction plans as directed by chapter 70.94 RCW or in other counties, or cities and towns within those counties, that elect to adopt and implement a commute trip reduction plan. Additionally at least one of the following conditions must apply: (1) The vehicle must be operated by a public transportation agency for the general public; or (2) the vehicle must be used by a major employer, as defined in RCW 70.94.524 as an element of its commute trip reduction program for their employees; or (3) the vehicle must be owned and operated by individual employees and must be registered either with the employer as part of its commute trip reduction program or with a public transportation agency serving the area where the employees live or work. Individual employee owned and operated motor vehicles will require certification that the vehicle is registered with a major employer or a public transportation agency. Major employers who own and operate motor vehicles for their employees must certify that the commuter ride-sharing arrangement conforms to a carpool/vanpool element contained within their commute trip reduction program. [1993 c 488 § 2; 1980 c 166 § 1.]

Finding—1993 c 488: "The legislature finds that ride sharing and vanpools are the fastest growing transportation choice because of their flexibility and cost-effectiveness. Ride sharing and vanpools represent an effective means for local jurisdictions, transit agencies, and the private sector to assist in addressing the requirements of the Commute Trip

Reduction Act, the Growth Management Act, the Americans with Disabilities Act, and the Clean Air Act." [1993 c 488 § 1.]

Annual recertification rule—Report—1993 c 488: "The department shall adopt by rule a process requiring annual recertification upon renewal for vehicles registered under RCW 46.16.023 to discourage abuse of tax exemptions under RCW 82.08.0287, 82.12.0282, and 82.44.015. The department of licensing in consultation with the department of transportation shall submit a report to the legislative transportation committee and the house and senate standing committees on transportation by July 1, 1996, assessing the effectiveness of the department of licensing at limiting tax exemptions to bona fide ride-sharing vehicles." [1993 c 488 § 6.]

Severability—1980 c 166: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1980 c 166 § 4.]

Ride-sharing vehicles—Special plates: RCW 46.16.023.

82.08.050 Buyer to pay, seller to collect tax—Statement of tax—Exception—Penalties. The tax hereby imposed shall be paid by the buyer to the seller, and each seller shall collect from the buyer the full amount of the tax payable in respect to each taxable sale in accordance with the schedule of collections adopted by the department pursuant to the provisions of RCW 82.08.060. The tax required by this chapter, to be collected by the seller, shall be deemed to be held in trust by the seller until paid to the department, and any seller who appropriates or converts the tax collected to his or her own use or to any use other than the payment of the tax to the extent that the money required to be collected is not available for payment on the due date as prescribed in this chapter shall be guilty of a gross misdemeanor.

In case any seller fails to collect the tax herein imposed or having collected the tax, fails to pay it to the department in the manner prescribed by this chapter, whether such failure is the result of his or her own acts or the result of acts or conditions beyond his or her control, he or she shall, nevertheless, be personally liable to the state for the amount of the tax, unless the seller has taken from the buyer in good faith a properly executed resale certificate under RCW 82.04.470.

The amount of tax, until paid by the buyer to the seller or to the department, shall constitute a debt from the buyer to the seller and any seller who fails or refuses to collect the tax as required with intent to violate the provisions of this chapter or to gain some advantage or benefit, either direct or indirect, and any buyer who refuses to pay any tax due under this chapter shall be guilty of a misdemeanor. The tax required by this chapter to be collected by the seller shall be stated separately from the selling price in any sales invoice or other instrument of sale. On all retail sales through vending machines, the tax need not be stated separately from the selling price or collected separately from the buyer. For purposes of determining the tax due from the buyer to the seller and from the seller to the department it shall be conclusively presumed that the selling price quoted in any price list, sales document, contract or other agreement between the parties does not include the tax imposed by this chapter, but if the seller advertises the price as including the tax or that the seller is paying the tax, the advertised price shall not be considered the selling price.

Where a buyer has failed to pay to the seller the tax imposed by this chapter and the seller has not paid the amount of the tax to the department, the department may, in

its discretion, proceed directly against the buyer for collection of the tax, in which case a penalty of ten percent may be added to the amount of the tax for failure of the buyer to pay the same to the seller, regardless of when the tax may be collected by the department; and all of the provisions of chapter 82.32 RCW, including those relative to interest and penalties, shall apply in addition; and, for the sole purpose of applying the various provisions of chapter 82.32 RCW, the twenty-fifth day of the month following the tax period in which the purchase was made shall be considered as the due date of the tax. 82.08.130 Resale certificate—Purchase and resale—Rules. If a buyer normally is engaged in both consuming and reselling certain types of articles of tangible personal property and is not able to determine at the time of purchase whether the particular property acquired will be consumed or resold, the buyer may use a resale certificate for the entire purchase if the buyer principally resells the articles according to the general nature of the buyer's business. The buyer shall account for the value of any articles purchased with a resale certificate that are used by the buyer and remit the sales tax on the articles to the department.

A buyer who pays a tax on all purchases and subsequently resells an article at retail, without intervening use by the buyer, shall collect the tax from the purchaser as otherwise provided by law and is entitled to a deduction on the buyer's tax return equal to the cost to the buyer of the property resold upon which retail sales tax has been paid. The deduction is allowed only if the taxpayer keeps and preserves records that show the names of the persons from whom the articles were purchased, the date of the purchase, the type of articles, the amount of the purchase, and the tax that was paid. The department shall provide by rule for the refund or credit of retail sales tax paid by a buyer for purchases that are later sold at wholesale without intervening use by the buyer. 82.14.310 County criminal justice assistance account—Distributions based on crime rate and population. (Effective January 1, 1994.) (1) The county criminal justice assistance account is created in the state treasury.

(2) The moneys deposited in the county criminal justice assistance account for distribution under this section shall be distributed at such times as distributions are made under RCW 82.44.150 and on the relative basis of each county's funding factor as determined under this subsection.

(a) A county's funding factor is the sum of:

(i) The population of the county, divided by one thousand, and multiplied by two-tenths;

(ii) The crime rate of the county, multiplied by three-tenths; and

(iii) The annual number of criminal cases filed in the county superior court, for each one thousand in population, multiplied by five-tenths.

(b) Under this section and RCW 82.14.320 and 82.14.330:

(i) The population of the county or city shall be as last determined by the office of financial management;

(ii) The crime rate of the county or city is the annual occurrence of specified criminal offenses, as calculated in the most recent annual report on crime in Washington state as published by the Washington association of sheriffs and police chiefs, for each one thousand in population;

(iii) The annual number of criminal cases filed in the county superior court shall be determined by the most recent annual report of the courts of Washington, as published by the office of the administrator for the courts.

(iv) Distributions and eligibility for distributions in the 1989-91 biennium shall be based on 1988 figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection. Future distributions shall be based on the most recent figures for both the crime rate as described under (ii) of this subsection and the annual number of criminal cases that are filed as described under (iii) of this subsection.

(3) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Crimi-

nal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures. No city may receive more than fifty percent of any moneys distributed

under this subsection (a) but, if a city distribution is reduced as a result of exceeding the fifty percent limitation, the amount not distributed shall be distributed under (b) of this subsection.

(b) The remainder of the moneys, including any moneys not distributed in subsection (2)(a) of this section, shall be distributed to all cities eligible under subsection (2) of this section ratably based on population as last determined by the office of financial management.

(4) No city may receive more than thirty percent of all moneys distributed under subsection (3) of this section.

(5) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located.

(6) Moneys distributed under this section shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. 82.14.330 Municipal criminal justice assistance account—Distributions based on crime rate, population, and innovation. (Effective January 1, 1994.) (1) The moneys deposited in the municipal criminal justice assistance

account for distribution under this section shall be distributed to the cities of the state as follows:

(a) Twenty percent appropriated for distribution shall be distributed to cities with a three-year average violent crime rate for each one thousand in population in excess of one hundred fifty percent of the state-wide three-year average violent crime rate for each one thousand in population. The three-year average violent crime rate shall be calculated using the violent crime rates for each of the preceding three years from the annual reports on crime in Washington state as published by the Washington association of sheriffs and police chiefs. Moneys shall be distributed under this subsection (1)(a) ratably based on population as last determined by the office of financial management, but no city may receive more than one dollar per capita.

(b) Sixteen percent shall be distributed to cities ratably based on population as last determined by the office of financial management, but no city may receive less than one thousand dollars.

The moneys deposited in the municipal criminal justice assistance account for distribution under this subsection shall be distributed at such times as distributions are made under RCW 82.44.150.

Moneys distributed under this subsection shall be expended exclusively for criminal justice purposes and shall not be used to replace or supplant existing funding. Criminal justice purposes are defined as activities that substantially assist the criminal justice system, which may include circumstances where ancillary benefit to the civil justice system occurs, and which includes domestic violence services such as those provided by domestic violence programs, community advocates, and legal advocates, as defined in RCW 70.123.020. Existing funding for purposes of this subsection is defined as calendar year 1989 actual operating expenditures for criminal justice purposes. Calendar year 1989 actual operating expenditures for criminal justice purposes exclude the following: Expenditures for extraordinary events not likely to reoccur, changes in contract provisions for criminal justice services, beyond the control of the local jurisdiction receiving the services, and major nonrecurring capital expenditures.

(2) In addition to the distributions under subsection (1) of this section:

(a) Fourteen percent shall be distributed to cities that have initiated innovative law enforcement strategies, including alternative sentencing and crime prevention programs. No city may receive more than one dollar per capita under this subsection (2)(a).

(b) Twenty percent shall be distributed to cities that have initiated programs to help at-risk children or child abuse victim response programs. No city may receive more than fifty cents per capita under this subsection (2)(b).

(c) Twenty percent shall be distributed to cities that have initiated programs designed to reduce the level of domestic violence within their jurisdictions or to provide counseling for domestic violence victims. No city may receive more than fifty cents per capita under this subsection (2)(c).

(d) Ten percent shall be distributed to cities that contract with another governmental agency for a majority of the city's law enforcement services.

Moneys distributed under this subsection shall be distributed to those cities that submit funding requests under this subsection to the department of community development based on criteria developed under RCW 82.14.335. Allocation of funds shall be in proportion to the population of qualified jurisdictions, but the distribution to a city shall not exceed the amount of funds requested. Cities shall submit requests for program funding to the department of community development by November 1 of each year for funding the following year. The department shall certify to the state treasurer the cities eligible for funding under this subsection and the amount of each allocation.

One-half of the moneys distributed under (a) through (d) of this subsection shall be distributed on March 1st and the remaining one-half of the moneys shall be distributed on September 1st. Moneys remaining undistributed under this subsection at the end of each calendar year shall be distributed to the criminal justice training commission to reimburse participating city law enforcement agencies with ten or fewer full-time commissioned patrol officers the cost of temporary replacement of each officer who is enrolled in basic law enforcement training, as provided in RCW 43.101.200.

If a city is found by the state auditor to have expended funds received under this subsection in a manner that does not comply with the criteria under which the moneys were received, the city shall be ineligible to receive future distributions under this subsection until the use of the moneys are justified to the satisfaction of the director or are repaid to the state general fund. The director may allow noncomplying use of moneys received under this subsection upon a showing of hardship or other emergent need.

(3) Notwithstanding other provisions of this section, the distributions to any city that substantially decriminalizes or repeals its criminal code after July 1, 1990, and that does not reimburse the county for costs associated with criminal cases under RCW 3.50.800 or 3.50.805(2), shall be made to the county in which the city is located. 82.27.020 Excise tax imposed—Deduction—Measure of tax—Rates—Additional tax imposed. (Effective January 1, 1994.) (1) In addition to all other taxes, licenses, or fees provided by law there is established an excise tax on the commercial possession of enhanced food fish as provided in this chapter. The tax is levied upon and shall be collected from the owner of the enhanced food fish whose possession constitutes the taxable event. The taxable event is the first possession in Washington by an owner. Processing and handling of enhanced food fish by a person who is not the owner is not a taxable event to the processor or handler.

(2) A person in possession of enhanced food fish and liable to this tax may deduct from the price paid to the person from which the enhanced food fish (except oysters) are purchased an amount equal to a tax at one-half the rate levied in this section upon these products.

(3) The measure of the tax is the value of the enhanced food fish at the point of landing.

(4) The tax shall be equal to the measure of the tax multiplied by the rates for enhanced food fish as follows:

(a) Chinook, coho, and chum salmon and anadromous game fish: Five and twenty-five one-hundredths percent.

(b) Pink and sockeye salmon: Three and fifteen one-hundredths percent.

The legislature recognizes that license fees obtained from sports fishermen support the majority of the production of these game fish. The legislature finds that commercial operations which benefit from the commercial harvest of these fish should pay a tax to assist in the funding of these facilities. However, the intent of the legislature is not to support the commercial harvest of steelhead and other game fish." [1983 c 284 § 8.]

[1977 ex.s. c 317 § 24.] Section 9 was the amendment to RCW 46.68.100 by 1977 ex.s. c 317.

Severability—1977 ex.s. c 317: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 ex.s. c 317 § 23.]

82.36.030 Monthly gallonage return—Default assessment—Penalty. Every distributor shall on or before the twenty-fifth day of each calendar month file, on forms furnished by the department, a statement signed by the distributor or his authorized agent showing the total number of gallons of motor vehicle fuel sold, distributed, or used by such distributor within this state during the preceding calendar month and, for counties within which an additional excise tax on motor vehicle fuel has been levied by that jurisdiction under RCW 82.80.010, showing the total number of gallons of motor vehicle fuel sold, distributed, or used by the distributor within the boundaries of the county during the preceding calendar month.

If any distributor fails to file such report, the department shall proceed forthwith to determine from the best available sources, the amount of motor vehicle fuel sold, distributed, or used by such distributor for the unreported period, and said determination shall be presumed to be correct for that

period until proved by competent evidence to be otherwise. The department shall immediately assess the excise tax in the amount so determined, adding thereto a penalty of up to ten percent for failure to report. Such penalty shall be cumulative of other penalties herein provided. All statements filed with the department, as required in this section, shall be public records.

If any distributor establishes by a fair preponderance of evidence that his or her failure to file a report by the due date was attributable to reasonable cause and was not intentional or willful, the department may waive the penalty imposed by this section. 82.36.110 Delinquency—Lien of tax—Notice. If any person liable for the tax imposed by this chapter fails to pay the same, the amount thereof, including any interest, penalty, or addition to such tax, together with any costs that may accrue in addition thereto, shall be a lien in favor of the state upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by such person, whether such property is employed by such person in the prosecution of business or is in the hands of a trustee, or receiver, or assignee for the benefit of creditors, from the date the taxes were due and payable, until the amount of the lien is paid or the property sold in payment thereof.

The lien shall have priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that such lien shall not be valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached prior to the time the department has filed notice of such lien in the office of the county auditor of the county in which the principal place of business of the taxpayer is located.

The auditor, upon presentation of a notice of lien, and without requiring the payment of any fee, shall file and index it in the manner now provided for deeds and other conveyances except that he shall not be required to include, in the index, any description of the property affected by the lien. The lien shall continue until the amount of the tax, together with any penalties and interest subsequently accruing thereon, is paid. The department may issue a certificate of release of lien when the amount of the tax, together with any penalties and interest subsequently accruing thereon, has been satisfied, and such release may be recorded with the auditor of the county in which the notice of lien has been filed.

The department shall furnish to any person applying therefor a certificate showing the amount of all liens for motor vehicle fuel tax, penalties and interest that may be of record in the files of the department against any person under the provisions of this chapter. [1993 c 54 § 3; 1961 c 15 § 82.36.110. Prior: 1933 c 58 § 9, part; RRS § 8327-9, part.]

82.36.225 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

82.36.2251 Exemptions—Alcohol for use as fuel—Gallonage threshold—Tax credit, blended fuel—Expiration of section. (1) Alcohol of any proof that is sold in this state for use as fuel in motor vehicles, farm implements and machines, or implements of husbandry is exempt from the motor vehicle fuel tax under this chapter if such alcohol was manufactured by a company that has been verified by the department as having sold less than eight million gallons of alcohol for use as motor fuel in the prior calendar year.

(2) In addition, a tax credit of sixty percent of the tax rate imposed by RCW 82.36.025 shall be given for every gallon of alcohol receiving the exemption under subsection (1) of this section and used in an alcohol-gasoline blend which contains at least nine and one-half percent or more by volume of alcohol: PROVIDED, That in no case may the tax credit claimed be greater than the tax due on the gasoline portion of the blended fuel.

(3) This section shall expire on December 31, 1999. [1993 c 268 § 2.]

82.36.230 Exemptions—Imports, exports, federal sales. The provisions of this chapter requiring the payment of taxes do not apply to motor vehicle fuel imported into the state in interstate or foreign commerce and intended to be sold while in interstate or foreign commerce, nor to motor vehicle fuel exported from this state by a qualified distributor nor to any motor vehicle fuel sold by a qualified distributor to the armed forces of the United States or to the national guard for use exclusively in ships or for export from this state. The distributor shall report such imports, exports and sales to the department at such times, on such forms, and in such detail as the department may require, otherwise the exemption granted in this section is null and void, and all fuel shall be considered distributed in this state fully subject to the provisions of this chapter. Each invoice covering exempt sales shall have the statement "Ex Washington Motor Vehicle Fuel Tax" clearly marked thereon.

To claim any exemption from taxes under this section on account of sales by a licensed distributor of motor vehicle fuel for export, the purchaser shall obtain from the selling distributor, and such selling distributor must furnish the purchaser, an invoice giving such details of the sale for export as the department may require, copies of which shall be furnished the department and the entity of the state or foreign jurisdiction of destination which is charged by the laws of that state or foreign jurisdiction with the control or monitoring, or both, of the sales or movement of motor vehicle fuel in that state or foreign jurisdiction.

To claim any exemption from taxes under this section on account of sales of motor vehicle fuel to the armed forces of the United States or to the national guard, the distributor shall be required to execute an exemption certificate in such form as shall be furnished by the department, containing a certified statement by an authorized officer of the armed forces having actual knowledge of the purpose for which the exemption is claimed. Any claim for exemption based on such sales shall be made by the distributor within six months

of the date of sale. The provisions of this section exempting motor vehicle fuel sold to the armed forces of the United States or to the national guard from the tax imposed hereunder do not apply to any motor vehicle fuel sold to contractors purchasing such fuel either for their own account or as the agents of the United States or the national guard for use in the performance of contracts with the armed forces of the United States or the national guard.

The department may at any time require of any distributor any information the department deems necessary to determine the validity of the claimed exemption, and failure to supply such data will constitute a waiver of all right to the exemption claimed. The department is hereby empowered with full authority to promulgate rules and regulations and to prescribe forms to be used by distributors in reporting to the department so as to prevent evasion of the tax imposed by this chapter.

Upon request from the officials to whom are entrusted the enforcement of the motor fuel tax law of any other state, the District of Columbia, the United States, its territories and possessions, the provinces, or the Dominion of Canada, the department may forward to such officials any information which the department may have relative to the import or export of any motor vehicle fuel by any distributor: PROVIDED, That such governmental unit furnish like information to this state. [1993 c 54 § 4; 1989 c 193 § 1; 1971 ex.s. c 156 § 2; 1967 c 153 § 3; 1965 ex.s. c 79 § 9; 1961 c 15 § 82.36.230. 82.36.280 Refunds for nonhighway use of fuel. Any person who uses any motor vehicle fuel for the purpose of operating any internal combustion engine not used on or in conjunction with any motor vehicle licensed to be operated over and along any of the public highways, and as the motive power thereof, upon which motor vehicle fuel excise tax has been paid, shall be entitled to and shall receive a refund of the amount of the motor vehicle fuel excise tax paid on each gallon of motor vehicle fuel so used, whether such motor vehicle excise tax has been paid either directly to the vendor from whom the motor vehicle fuel was purchased or indirectly by adding the amount of such excise tax to the price of such fuel. No refund shall be made for motor vehicle fuel consumed by any motor vehicle as herein defined that is required to be registered and licensed as provided in chapter 46.16 RCW; and is operated over and along any public highway except that a refund shall be allowed for motor vehicle fuel consumed:

(1) In a motor vehicle owned by the United States that is operated off the public highways for official use;

(2) By auxiliary equipment not used for motive power, provided such consumption is accurately measured by a metering device that has been specifically approved by the department or is established by either of the following formulae:

(a) For fuel used in pumping fuel or heating oils by a power take-off unit on a delivery truck, refund shall be allowed claimant for tax paid on fuel purchased at the rate of three-fourths of one gallon for each one thousand gallons

of fuel delivered: PROVIDED, That claimant when presenting his claim to the department in accordance with the provisions of this chapter, shall provide to said claim, invoices of fuel oil delivered, or such other appropriate information as may be required by the department to substantiate his claim; or

(b) For fuel used in operating a power take-off unit on a cement mixer truck or load compactor on a garbage truck, claimant shall be allowed a refund of twenty-five percent of the tax paid on all fuel used in such a truck; and

(c) The department is authorized to establish by rule additional formulae for determining fuel usage when operating other types of equipment by means of power take-off units when direct measurement of the fuel used is not feasible. The department is also authorized to adopt rules regarding the usage of on board computers for the production of records required by this chapter; and

(3) Before December 31, 1992, in a commercial vehicle as defined in RCW 46.04.140 or a farm vehicle as defined in RCW 46.04.181, if the motor vehicle fuel consumed contains nine and one-half percent or more by volume of alcohol and the commercial vehicle or farm vehicle is operated off the public highways of this state. The department is also authorized to adopt rules regarding the usage of on board computers for the produc-

It shall be unlawful for any person to act as a special fuel dealer, a special fuel supplier or a special fuel user in this state unless such person is the holder of an uncanceled special fuel dealer's, a special fuel supplier's or a special fuel user's license issued to him by the department. A special fuel supplier's license authorizes a person to sell special fuel without collecting the special fuel tax to other suppliers and dealers holding valid special fuel licenses.

A special fuel dealer's license authorizes a person to deliver previously untaxed special fuel into the fuel supply tanks of motor vehicles, collect the special fuel tax on behalf of the state at the time of delivery, and remit the taxes collected to the state as provided herein. A special fuel user's license authorizes a person to purchase special fuel into bulk storage for use in motor

vehicles either on or off the public highways of this state without payment of the special fuel tax at time of purchase. Holders of special fuel licenses are all subject to the bonding, reporting, tax payment, and record-keeping provisions of this chapter. All purchases of special fuel by a licensed special fuel user directly into the fuel supply tank of a motor vehicle are subject to the special fuel tax at time of purchase. Special authorization may be given to farmers, logging companies, and construction companies to purchase special fuel directly into the supply tanks of nonhighway equipment or into portable slip tanks for nonhighway use without payment of the special fuel tax. Persons utilizing special fuel for heating purposes only are not required to be licensed.

Special fuel users operating motor vehicles in interstate commerce having two axles and a gross vehicle weight or registered gross vehicle weight not exceeding twenty-six thousand pounds are not required to be licensed. 82.44.015 Ride-sharing passenger motor vehicles excluded—Notice—Liability for tax. For the purposes of this chapter, in addition to the exclusions under RCW 82.44.010, "motor vehicle" shall not include: (1) Passenger motor vehicles used primarily as ride-sharing vehicles, as defined in RCW 46.74.010(3), by not fewer than five persons, including the driver, or not fewer than four persons including the driver, when at least two of those persons are confined to wheelchairs when riding; or (2) vehicles with a seating capacity greater than fifteen persons which otherwise qualify as ride-sharing vehicles under RCW 46.74.010(3) used exclusively for ride sharing for the elderly or the

handicapped by not fewer than seven persons, including the driver. This exemption is restricted to passenger motor vehicles with a gross vehicle weight not to exceed 10,000 pounds where the primary usage is for commuter ride-sharing as defined in RCW 46.74.010(1). The registered owner of one of these vehicles shall notify the department of licensing upon termination of primary use of the vehicle as a ride-sharing vehicle and shall be liable for the tax imposed by this chapter, prorated on the remaining months for which the vehicle is licensed.

To qualify for the tax exemption, those passenger motor vehicles with five or six passengers, including the driver, used for commuter ride-sharing, must be operated either within the state's eight largest counties that are required to develop commute trip reduction plans as directed by chapter 70.94 RCW or in other counties, or cities and towns within those counties, that elect to adopt and implement a commute trip reduction plan. Additionally at least one of the following conditions must apply: (1) The vehicle must be operated by a public transportation agency for the general public; or (2) the vehicle must be used by a major employer, as defined in RCW 70.94.524 as an element of its commute trip reduction program for their employees; or (3) the vehicle must be owned and operated by individual employees and must be registered either with the employer as part of its commute trip reduction program or with a public transportation agency serving the area where the employees live or work. Individual employee owned and operated motor vehicles will require certification that the vehicle is registered with a major employer or a public transportation agency. Major employers who own and operate motor vehicles for their employees must certify that the commuter ride-sharing arrangement conforms to a carpool/vanpool element contained within their commute trip reduction program. The annual amount of such excise tax shall be two percent of the value of such vehicle.

(2) An additional excise tax is imposed, in addition to any other tax imposed by this section, for the privilege of using in the state any such motor vehicle, and the annual amount of such additional excise shall be two-tenths of one percent of the value of such vehicle.

(3) Effective with October 1992 motor vehicle registration expirations, a clean air excise tax is imposed in addition to any other tax imposed by this section for the privilege of using in the state any motor vehicle as defined in RCW 82.44.010, except that farm vehicles as defined in RCW 46.04.181 shall not be subject to the tax imposed by this subsection. The annual amount of the additional excise tax

shall be two dollars and twenty-five cents. Effective with July 1994 motor vehicle registration expirations, the annual amount of additional excise tax shall be two dollars.

(4) An additional excise tax is imposed on truck-type power units that are used in combination with a trailer to transport loads in excess of forty thousand pounds combined gross weight. The annual amount of such additional excise tax shall be fifty-eight one-hundredths of one percent of the value of the vehicle.

The department shall distribute the additional tax collected under this subsection as follows:

(a) For each trailing unit subject to subsection (5) of this section, an amount equal to the clean air excise tax prescribed in subsection (3) of this section shall be distributed in the manner prescribed in RCW 82.44.110(3);

(b) Of the remainder of the additional excise tax collected under this subsection, ten percent shall be distributed in the manner prescribed in RCW 82.44.110(2) and ninety percent shall be distributed in the manner prescribed in RCW 82.44.110(1). (7) Washington residents, as defined in RCW 46.16.028, who license motor vehicles in another state or foreign country and avoid Washington motor vehicle excise taxes are liable for such unpaid excise taxes. The department of revenue may assess and collect the unpaid excise taxes under chapter 82.32 RCW, including the penalties and interest provided therein. 82.44.120 Refunds, collections of erroneous amounts—Claims—False statement, penalty. Whenever any person has paid a motor vehicle license fee, and together therewith has paid an excise tax imposed under the provisions of this chapter, and the director determines that the payor is entitled to a refund of the entire amount of the license fee as provided by law, then the payor shall also be entitled to a refund of the entire excise tax collected under the provisions of this chapter. In case the director determines that any person is entitled to a refund of only a part of the license fee so paid, the payor shall be entitled to a refund of the difference, if any, between the excise tax collected and that which should have been collected.

In case no claim is to be made for the refund of the license fee or any part thereof, but claim is made by any person that he or she has paid an erroneously excessive amount of excise tax, the department shall determine in the manner generally provided in this chapter the amount of such excess, if any, that has been paid and shall certify to the state treasurer that such person is entitled to a refund in such amount.

In any case where due to error, a person has been required to pay an excise tax pursuant to this chapter and a vehicle license fee pursuant to Title 46 RCW which amounts to an overpayment of ten dollars or more, such person shall be entitled to a refund of the entire amount of such overpayment, regardless of whether or not a refund of the overpayment has been requested. Conversely, if due to error, the department or its agents has failed to collect the full amount of the license fee and excise tax due, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the tax.

Any claim for refund of an erroneously excessive amount of excise tax or overpayment of excise tax with a motor vehicle license fee must be filed with the director within three years after the claimed erroneous payment was made.

If the department approves the claim it shall notify the state treasurer to that effect, and the treasurer shall make such approved refunds from the general fund and shall mail or deliver the same to the person entitled thereto.

Any person making any false statement under which he or she obtains any amount of refund to which he or she is not entitled under the provisions of this section is guilty of a gross misdemeanor. 82.44.150 Apportionment and distribution of motor vehicle excise taxes generally. (1) The director of licensing shall, on the twenty-fifth day of February, May, August, and November of each year, advise the state treasurer of the total amount of motor vehicle excise taxes imposed by RCW 82.44.020 (1) and (2) remitted to the department during the preceding calendar quarter ending on the last day of March, June, September, and December, respectively, except for those payable under RCW 82.44.030, from motor vehicle owners residing within each municipality which has levied a tax under RCW 35.58.273, which amount of excise taxes shall be determined by the director as follows:

The total amount of motor vehicle excise taxes remitted to the department, except those payable under RCW 82.44.020(3) and 82.44.030, from each county shall be multiplied by a fraction, the numerator of which is the population of the municipality residing in such county, and the denominator of which is the total population of the county in which such municipality or portion thereof is located. The product of this computation shall be the amount of excise taxes from motor vehicle owners residing within such municipality or portion thereof. Where the municipality levying a tax under RCW 35.58.273 is located in more than one county, the above computation shall be made by county, and the combined products shall provide the total amount of motor vehicle excise taxes from motor vehicle owners residing in the municipality as a whole. Population figures required for these computations shall be supplied to the director by the office of financial management, who shall adjust the fraction annually.

(2) On the first day of the months of January, April, July, and October of each year, the state treasurer based upon information provided by the department shall, from motor vehicle excise taxes deposited in the general fund, under RCW 82.44.110(1)(g), make the following deposits:

(a) To the high capacity transportation account created in RCW 47.78.010, a sum equal to four and five-tenths

percent of the special excise tax levied under RCW 35.58.273 by those municipalities authorized to levy a special excise tax within (i) each county with a population of two hundred ten thousand or more and (ii) each county with a population of from one hundred twenty-five thousand to less than two hundred ten thousand except for those counties that do not border a county with a population as described in subsection (i) of this subsection;

(b) To the central Puget Sound public transportation account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within a county with a population of one million or more and a county with a population of from two hundred thousand to less than one million bordering a county with a population of one million or more, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(b) applies; however, any transfer under this subsection (2)(b) must be greater than zero;

(c) To the public transportation systems account created in RCW 82.44.180, for revenues distributed after December 31, 1992, within counties not described in (b) of this subsection, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent and been able to match with locally generated tax revenues, other than the excise tax imposed under RCW 35.58.273, budgeted for any public transportation purpose. Before this deposit, the sum shall be reduced by an amount equal to the amount distributed under (a) of this subsection for each of the municipalities within the counties to which this subsection (2)(c) applies; however, any transfer under this subsection (2)(c) must be greater than zero; and

(d) To the general fund, for revenues distributed after June 30, 1993, and to the transportation fund, for revenues distributed after June 30, 1995, a sum equal to the difference between (i) the special excise tax levied and collected under RCW 35.58.273 by those municipalities authorized to levy and collect a special excise tax subject to the requirements of subsections (3) and (4) of this section and (ii) the special excise tax that the municipality would otherwise have been eligible to levy and collect at a tax rate of .815 percent notwithstanding the requirements set forth in subsections (3) through (6) of this section, reduced by an amount equal to distributions made under (a), (b), and (c) of this subsection.

(3) On the first day of the months of January, April, July, and October of each year, the state treasurer, based

upon information provided by the department, shall remit motor vehicle excise tax revenues imposed and collected under RCW 35.58.273 as follows:

(a) The amount required to be remitted by the state treasurer to the treasurer of any municipality levying the tax shall not exceed in any calendar year the amount of locally-generated tax revenues, excluding the excise tax imposed under RCW 35.58.273 for the purposes of this section, which shall have been budgeted by the municipality to be collected in such calendar year for any public transportation purposes including but not limited to operating costs, capital costs, and debt service on general obligation or revenue bonds issued for these purposes; and

(b) In no event may the amount remitted in a single calendar quarter exceed the amount collected on behalf of the municipality under RCW 35.58.273 during the calendar quarter next preceding the immediately preceding quarter.

(4) At the close of each calendar year accounting period, but not later than April 1, each municipality that has received motor vehicle excise taxes under subsection (3) of this section shall transmit to the director of licensing and the state auditor a written report showing by source the previous year's budgeted tax revenues for public transportation purposes as compared to actual collections. Any municipality that has not submitted the report by April 1 shall cease to be eligible to receive motor vehicle excise taxes under subsection (3) of this section until the report is received by the director of licensing. If a municipality has received more or less money under subsection (3) of this section for the period covered by the report than it is entitled to receive by reason of its locally-generated collected tax revenues, the director of licensing shall, during the next ensuing quarter that the municipality is eligible to receive motor vehicle excise tax funds, increase or decrease the amount to be remitted in an amount equal to the difference between the locally-generated budgeted tax revenues and the locally-generated collected tax revenues. In no event may the amount remitted for a calendar year exceed the amount collected on behalf of the municipality under RCW 35.58.273 during that same calendar year. At the time of the next fiscal audit of each municipality, the state auditor shall verify the accuracy of the report submitted and notify the director of licensing of any discrepancies.

(5) The motor vehicle excise taxes imposed under RCW 35.58.273 and required to be remitted under this section shall be remitted without legislative appropriation.

(6) Any municipality levying and collecting a tax under RCW 35.58.273 which does not have an operating, public transit system or a contract for public transportation services in effect within one year from the initial effective date of the tax shall return to the state treasurer all motor vehicle excise taxes received under subsection (3) of this section. 82.45.010 "Sale" defined. (1) As used in this chapter, the term "sale" shall have its ordinary meaning and shall include any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(2) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration. For purposes of this subsection, all acquisitions of persons acting in concert shall be aggregated for purposes of determining whether a transfer or acquisition of a controlling interest has taken place. The department of revenue shall adopt standards by rule to determine when persons are acting in concert. In adopting a rule for this purpose, the department shall consider the following:

(a) Persons shall be treated as acting in concert when they have a relationship with each other such that one person influences or controls the actions of another through common ownership; and

(b) When persons are not commonly owned or controlled, they shall be treated as acting in concert only when the unity with which the purchasers have negotiated and will consummate the transfer of ownership interests supports a finding that they are acting as a single entity. If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the acquisitions shall be considered separate acquisitions.

(3) The term "sale" shall not include:

(a) A transfer by gift, devise, or inheritance.

(b) A transfer of any leasehold interest other than of the type mentioned above.

(c) A cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, whether or not such contract contains a forfeiture clause, or deed in lieu of foreclosure of a mortgage.

(d) The partition of property by tenants in common by agreement or as the result of a court decree.

(e) The assignment of property or interest in property from one spouse to the other in accordance with the terms of a decree of divorce or in fulfillment of a property settlement agreement.

(f) The assignment or other transfer of a vendor's interest in a contract for the sale of real property, even though accompanied by a conveyance of the vendor's interest in the real property involved.

(g) Transfers by appropriation or decree in condemnation proceedings brought by the United States, the state or any political subdivision thereof, or a municipal corporation.

(h) A mortgage or other transfer of an interest in real property merely to secure a debt, or the assignment thereof.

(i) Any transfer or conveyance made pursuant to a deed of trust or an order of sale by the court in any mortgage, deed of trust, or lien foreclosure proceeding or upon execution of a judgment, or deed in lieu of foreclosure to satisfy a mortgage or deed of trust.

(j) A conveyance to the federal housing administration or veterans administration by an authorized mortgagee made pursuant to a contract of insurance or guaranty with the federal housing administration or veterans administration.

(k) A transfer in compliance with the terms of any lease or contract upon which the tax as imposed by this chapter has been paid or where the lease or contract was entered into prior to the date this tax was first imposed.

(l) The sale of any grave or lot in an established cemetery.

(m) A sale by the United States, this state or any political subdivision thereof, or a municipal corporation of this state.

(n) A transfer of real property, however effected, if it consists of a mere change in identity or form of ownership of an entity where there is no change in the beneficial ownership. These include transfers to a corporation or partnership which is wholly owned by the transferor and/or the transferor's spouse or children: PROVIDED, That if thereafter such transferee corporation or partnership voluntarily transfers such real property, or such transferor, spouse, or children voluntarily transfer stock in the transferee corporation or interest in the transferee partnership capital, as the case may be, to other than (1) the transferor and/or the transferor's spouse or children, (2) a trust having the transferor and/or the transferor's spouse or children as the only beneficiaries at the time of the transfer to the trust, or (3) a corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or children, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer has not been paid within sixty days of becoming due, excise taxes shall become due and payable on the original transfer as otherwise provided by law.

(o) A transfer that for federal income tax purposes does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, including but not limited to nonrecognition of gain or loss because of application of section 332, 337, 351, 368(a)(1), 721, or 731 of the Internal Revenue Code of 1986, as amended. [1993 1st sp.s. c 25 § 502; 1981 c 93 § 1; 1970 ex.s. c 65 § 1; 1969 ex.s. c 223 § 28A.45.010. Prior: 1955 c 132 § 1;

Findings—Intent—1993 1st sp.s. c 25: "(1) The legislature finds that transfers of ownership of entities may be essentially equivalent to the sale of real property held by the entity. The legislature further finds that all transfers of possession or use of real property should be subject to the same excise tax burdens.

(2) The legislature intends to apply the real estate excise tax of chapter 82.45 RCW to transfers of entity ownership when the transfer of entity ownership is comparable to the sale of real property. The legislature intends to equate the excise tax burdens on all sales of real property and transfers of entity ownership essentially equivalent to a sale of real property under chapter 82.45 RCW." Recodification directed—1981 c 148; 1981 c 93: "Chapter 28A.45 RCW, as amended, repealed, and added to by chapter 134, Laws of 1980 and chapter 154, Laws of 1980 and as amended, repealed, and added to by any other enactment during a regular or extraordinary session of this forty-seventh legislature, is hereby added to and shall be recodified as chapter 82.45 RCW.

References to chapter 28A.45 RCW and its sections shall be considered references to chapter 82.45 RCW and its sections, and the code reviser shall change references to chapter 28A.45 RCW and its sections to refer to chapter 82.45 RCW and its sections." [1981 c 148 § 13; 1981 c 93 § 2; 1980 c 154 § 14.] RCW 82.45.010, appeared in 1981 c 93 § 1 as an amendment to RCW 28A.45.010 which is recodified in accordance with this session law section.

Effective date—1981 c 93 § 2: "Section 2 of this act shall take effect September 1, 1981." [1981 c 93 § 3.] This applies to the recodification directive [1981 c 93 § 2] footnoted above.

Effective date—Severability—1970 ex.s. c 65: See notes following RCW 82.03.050.

82.45.030 "Selling price," "total consideration paid or contracted to be paid," defined. (1) As used in this chapter, the term "selling price" means the true and fair value of the property conveyed. If property has been conveyed in an arm's length transaction between unrelated persons for a valuable consideration, a rebuttable presumption exists that the selling price is equal to the total consideration paid or contracted to be paid to the transferor, or to another for the transferor's benefit.

(2) If the sale is a transfer of a controlling interest in an entity with an interest in real property located in this state, the selling price shall be the true and fair value of the real property owned by the entity and located in this state. If the true and fair value of the real property located in this state cannot reasonably be determined, the selling price shall be determined according to subsection (4) of this section.

(3) As used in this section, "total consideration paid or contracted to be paid" includes money or anything of value, paid or delivered or contracted to be paid or delivered in return for the sale, and shall include the amount of any lien, mortgage, contract indebtedness, or other incumbrance, either given to secure the purchase price, or any part thereof, or remaining unpaid on such property at the time of sale.

Total consideration shall not include the amount of any outstanding lien or incumbrance in favor of the United States, the state, or a municipal corporation for taxes, special benefits, or improvements.

(4) If the total consideration for the sale cannot be ascertained or the true and fair value of the property to be valued at the time of the sale cannot reasonably be determined, the market value assessment for the property maintained on the county property tax rolls at the time of the sale

shall be used as the selling price. [1993 1st sp.s. c 25 § 503; 1969 ex.s. c 223 § 28A.45.030. Prior: 1951 2nd ex.s. c 19 § 2; 1951 1st ex.s. c 11 § 8. Formerly RCW 28A.45.030, 28.45.030.]

82.45.032 "Real estate," "real property," "used mobile home," "mobile home," "used floating home," and "floating home" defined. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Real estate" or "real property" means any interest, estate, or beneficial interest in land or anything affixed to land, including the ownership interest or beneficial interest in any entity which itself owns land or anything affixed to land. The term includes used mobile homes, used floating homes, and improvements constructed upon leased land.

(2) "Used mobile home" means a mobile home which has been previously sold at retail and has been subjected to tax under chapter 82.08 RCW, or which has been previously used and has been subjected to tax under chapter 82.12 RCW, and which has substantially lost its identity as a mobile unit at the time of sale by virtue of its being fixed in location upon land owned or leased by the owner of the mobile home and placed on a foundation (posts or blocks) with fixed pipe connections with sewer, water, and other utilities.

(3) "Mobile home" means a mobile home as defined by RCW 46.04.302, as now or hereafter amended.

(4) "Used floating home" means a floating home in respect to which tax has been paid under chapter 82.08 or 82.12 RCW.

(5) "Floating home" means a building on a float used in whole or in part for human habitation as a single-family dwelling, which is not designed for self propulsion by mechanical means or for propulsion by means of wind, and which is on the property tax rolls of the county in which it is located. [1993 1st sp.s. c 25 § 504; 1986 c 211 § 1; 1984 c 192 § 1; 1979 ex.s. c 266 § 1. Formerly RCW 28A.45.032.]

82.45.033 "Controlling interest" defined. As used in this chapter, the term "controlling interest" has the following meaning:

(1) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(2) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity. [1993 1st sp.s. c 25 § 505.]

Severability—Effective dates—Part headings, captions not law—1993 1st sp.s. c 25: See notes following RCW 82.04.230.

Findings—Intent—1993 1st sp.s. c 25: See note following RCW 82.45.010.

82.45.090 Payment of tax and fee—Evidence of payment—Recording—Sale of beneficial interest. (1) Except for a sale of a beneficial interest in real property where no instrument evidencing the sale is recorded in the official real property records of the county in which the property is located, the tax imposed by this chapter shall be paid to and collected by the treasurer of the county within which is located the real property which was sold. In collecting the tax the treasurer shall act as agent for the state. The county treasurer shall cause a stamp evidencing satisfaction of the lien to be affixed to the instrument of sale or conveyance prior to its recording or to the real estate excise tax affidavit in the case of used mobile home sales and used floating home sales. A receipt issued by the county treasurer for the payment of the tax imposed under this chapter shall be evidence of the satisfaction of the lien imposed hereunder and may be recorded in the manner prescribed for recording satisfactions of mortgages. No instrument of sale or conveyance evidencing a sale subject to the tax shall be accepted by the county auditor for filing or recording until the tax shall have been paid and the stamp affixed thereto; in case the tax is not due on the transfer, the instrument shall not be so accepted until suitable notation of such fact has been made on the instrument by the treasurer.

(2) For a sale of a beneficial interest in real property where a tax is due under this chapter and where no instrument is recorded in the official real property records of the county in which the property is located, the sale shall be reported to the department of revenue within five days from the date of the sale on such returns or forms and according to such procedures as the department may prescribe. Such forms or returns shall be signed by both the transferor and the transferee and shall be accompanied by payment of the tax due. Any person who intentionally makes a false statement on any return or form required to be filed with the department under this chapter shall be guilty of perjury. [1993 1st sp.s. c 25 § 506; 1991 c 327 § 6; 1990 c 171 § 7; 1984 c 192 § 2; 1980 c 154 § 4; 1979 ex.s. c 266 § 2; 1969 ex.s. c 223 § 28A.45.090. 82.45.100 Tax payable at time of sale—Interest, penalties, on unpaid or delinquent taxes—Prohibition on certain assessments or refunds—Deposit of penalties. (1) The tax imposed under this chapter is due and payable immediately at the time of sale, and if not paid within thirty days thereafter shall bear interest at the rate of one percent per month from the time of sale until the date of payment.

(2) In addition to the interest described in subsection (1) of this section, if the payment of any tax is not received by the county treasurer or the department of revenue, as the case may be, within thirty days of the date due, there shall be assessed a penalty of five percent of the amount of the tax; if the tax is not received within sixty days of the date due, there shall be assessed a total penalty of ten percent of the amount of the tax; and if the tax is not received within ninety days of the date due, there shall be assessed a total penalty of twenty percent of the amount of the tax. The payment of the penalty described in this subsection shall be collectible from the seller only, and RCW 82.45.070 does not apply to the penalties described in this subsection.

(3) If the tax imposed under this chapter is not received by the due date, the transferee shall be personally liable for the tax, along with any interest as provided in subsection (1) of this section, unless:

(a) An instrument evidencing the sale is recorded in the official real property records of the county in which the property conveyed is located; or

(b) Either the transferor or transferee notifies the department of revenue in writing of the occurrence of the sale within thirty days following the date of the sale.

(4) If upon examination of any affidavits or from other information obtained by the department or its agents it appears that all or a portion of the tax is unpaid, the department shall assess against the taxpayer the additional amount found to be due plus interest and penalties as provided in subsections (1) and (2) of this section. If the department finds that all or any part of the deficiency resulted from an intent to evade the tax payable under this chapter, an additional penalty of fifty percent of the additional tax found to be due shall be added.

(5) No assessment or refund may be made by the department more than four years after the date of sale except upon a showing of:

(a) Fraud or misrepresentation of a material fact by the taxpayer;

(b) A failure by the taxpayer to record documentation of a sale or otherwise report the sale to the county treasurer; or

(c) A failure of the transferor or transferee to report the sale under RCW 82.45.090(2).

(6) Penalties collected pursuant to subsection (2) of this section shall be deposited in the housing trust fund as described in chapter 43.185 RCW. [1993 1st sp.s. c 25 § 507; 1988 c 286 § 5; 1982 c 176 § 1; 1981 c 167 § 2.]

(2) To qualify for this exemption the property must be used exclusively for public gatherings and be available to all organizations or persons desiring to use the property, but the owner may impose conditions and restrictions which are necessary for the safekeeping of the property and promote the purposes of this exemption. Membership shall not be a prerequisite for the use of the property.

(3) The use of the property for pecuniary gain or to promote business activities, except as provided in this section, nullifies the exemption otherwise available for the property for the assessment year. The exemption is not nullified by:

(a) The collection of rent or donations if the amount is reasonable and does not exceed maintenance and operation expenses created by the user.

(b) Fund-raising activities conducted by a nonprofit organization.

(c) The use of the property for pecuniary gain for periods of not more than three days in a year.

(d) An inadvertent use of the property in a manner inconsistent with the purpose for which exemption is granted, if the inadvertent use is not part of a pattern of use. (4) The department of revenue shall narrowly construe this exemption. [1993 c 327 § 1; 1987 c 505 § 80; 1981 c 141 § 2.]

Applicability, construction—1981 c 141: See note following RCW 84.36.060.

84.36.041 Nonprofit homes for the aging. (1) All real and personal property used by a nonprofit home for the aging that is reasonably necessary for the purposes of the home is exempt from taxation if the benefit of the exemption inures to the home and:

(a) At least fifty percent of the occupied dwelling units in the home are occupied by eligible residents; or

(b) The home is subsidized under a federal department of housing and urban development program. The department of revenue shall provide by rule a definition of homes eligible for exemption under this subsection (b), consistent with the purposes of this section.

(2) All real and personal property used by a nonprofit home for the aging that is reasonably necessary for the purposes of the home is exempt from taxation if the benefit of the exemption inures to the home and the construction, rehabilitation, acquisition, or refinancing of the home is

financed under a program using bonds exempt from federal income tax if at least seventy-five percent of the total amount financed uses the tax exempt bonds and the financing program requires the home to reserve a percentage of all dwelling units so financed for low-income residents. The initial term of the exemption under this subsection shall equal the term of the tax exempt bond used in connection with the financing program, or the term of the requirement to reserve dwelling units for low-income residents, whichever is shorter. If the financing program involves less than the entire home, only those dwelling units included in the financing program are eligible for total exemption. The department of revenue shall provide by rule the requirements for monitoring compliance with the provisions of this subsection and the requirements for exemption including:

(a) The number or percentage of dwelling units required to be occupied by low-income residents, and a definition of low income;

(b) The type and character of the dwelling units, whether independent units or otherwise; and

(c) Any particular requirements for continuing care retirement communities.

(3) A home for the aging is eligible for a partial exemption on the real property and a total exemption for the home's personal property if the home does not meet the requirements of subsection (1) of this section because fewer than fifty percent of the occupied dwelling units are occupied by eligible residents, as follows:

(a) A partial exemption shall be allowed for each dwelling unit in a home occupied by a resident requiring assistance with activities of daily living.

(b) A partial exemption shall be allowed for each dwelling unit in a home occupied by an eligible resident.

(c) A partial exemption shall be allowed for an area jointly used by a home for the aging and by a nonprofit organization, association, or corporation currently exempt from property taxation under one of the other provisions of this chapter. The shared area must be reasonably necessary for the purposes of the nonprofit organization, association, or corporation exempt from property taxation under one of the other provisions of this chapter, such as kitchen, dining, and laundry areas.

(d) The amount of exemption shall be calculated by multiplying the assessed value of the property reasonably necessary for the purposes of the home, less the assessed value of any area exempt under (c) of this subsection, by a fraction. The numerator of the fraction is the number of dwelling units occupied by eligible residents and by residents requiring assistance with activities of daily living. The denominator of the fraction is the total number of occupied dwelling units as of January 1st of the year for which exemption is claimed.

(4) To be exempt under this section, the property must be used exclusively for the purposes for which the exemption is granted, except as provided in RCW 84.36.805.

(5) A home for the aging is exempt from taxation only if the organization operating the home is exempt from income tax under section 501(c) of the federal internal revenue code as existing on January 1, 1989, or such subsequent date as the director may provide by rule consistent with the purposes of this section.

(6) In order for the home to be eligible for exemption under subsections (1)(a) and (2)(b) of this section, each eligible resident of a home for the aging shall submit an income verification form to the county assessor by July 1st of the assessment year in which the application for exemption is made. The income verification form shall be prescribed and furnished by the department of revenue. An eligible resident who has filed a form for a previous year need not file a new form until there is a change in status affecting the person's eligibility.

(7) In determining the true and fair value of a home for the aging for purposes of the partial exemption provided by subsection (3) of this section, the assessor shall apply the computation method provided by RCW 84.34.060 and shall consider only the use to which such property is applied during the years for which such partial exemptions are available and shall not consider potential uses of such property.

(8) A home for the aging that was exempt or partially exempt for taxes levied in 1993 for collection in 1994 is partially exempt for taxes levied in 1994 for collection in 1995, has an increase in taxable value for taxes levied in 1994 for collection in 1995 due to the change prescribed by chapter 151, Laws of 1993 with respect to the numerator of the fraction used to determine the amount of a partial exemption, and is not fully exempt under this section is entitled to partial exemptions as follows:

(a) For taxes levied in 1994 for collection in 1995, the home shall pay taxes based upon the taxable value in 1993 plus one-third of the increase in the taxable value from 1993 to the nonexempt value calculated under subsection (3)(d) of this section for 1994.

(b) For taxes levied in 1995 for collection in 1996, the home shall pay taxes based upon the taxable value for 1994 as calculated in (a) of this subsection plus one-half of the increase in the taxable value from 1994 to the nonexempt value calculated under subsection (3)(d) of this section for 1995. For taxes levied in 1996 for collection in 1997 and for taxes levied thereafter, this subsection (8) does not apply, and the home shall pay taxes without reference to this subsection (8).

(c) For purposes of this subsection (8), "taxable value" means the value of the home upon which the tax rate is applied in order to determine the amount of taxes due.

(9) As used in this section:

(a) "Eligible resident" means a person who:

(i) Occupied the dwelling unit as a principal place of residence as of January 1st of the year for which the exemption is claimed. Confinement of the person to a hospital or nursing home does not disqualify the claim of exemption if the dwelling unit is temporarily unoccupied or if the dwelling unit is occupied by a spouse, a person financially dependent on the claimant for support, or both; and

(ii) Is sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or is, at the time of filing, retired from regular gainful employment by reason of physical disability. Any surviving spouse of a person who was receiving an exemption at the time of the person's death shall qualify if the surviving spouse is fifty-

seven years of age or older and otherwise meets the requirements of this subsection; and

(iii) Has a combined disposable income of no more than the greater of twenty-two thousand dollars or eighty percent of the median income adjusted for family size as most recently determined by the federal department of housing and urban development for the county in which the person resides. For the purposes of determining eligibility under this section, a "cotenant" means a person who resides with an eligible resident and who shares personal financial resources with the eligible resident.

(b) "Combined disposable income" means the disposable income of the person submitting the income verification form, plus the disposable income of his or her spouse, and the disposable income of each cotenant occupying the dwelling unit for the preceding calendar year, less amounts paid by the person submitting the income verification form or his or her spouse or cotenant during the previous year for the treatment or care of either person received in the dwelling unit or in a nursing home. If the person submitting the income verification form was retired for two months or more of the preceding year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person submitting the income verification form is reduced for two or more months of the preceding year by reason of the death of the person's spouse, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person after the death of the spouse by twelve.

(c) "Disposable income" means adjusted gross income as defined in the federal internal revenue code, as amended prior to January 1, 1989, or such subsequent date as the director may provide by rule consistent with the purpose of this section, plus all of the following items to the extent they are not included in or have been deducted from adjusted gross income:

(i) Capital gains, other than nonrecognized gain on the sale of a principal residence under section 1034 of the federal internal revenue code, or gain excluded from income under section 121 of the federal internal revenue code to the extent it is reinvested in a new principal residence;

(ii) Amounts deducted for loss;

(iii) Amounts deducted for depreciation;

(iv) Pension and annuity receipts;

(v) Military pay and benefits other than attendant-care and medical-aid payments;

(vi) Veterans benefits other than attendant-care and medical-aid payments;

(vii) Federal social security act and railroad retirement benefits;

(viii) Dividend receipts; and

(ix) Interest received on state and municipal bonds.

(d) "Resident requiring assistance with activities of daily living" means a person who requires significant assistance with the activities of daily living and who would be at risk of nursing home placement without this assistance.

(e) "Home for the aging" means a residential housing facility that (i) provides a housing arrangement chosen voluntarily by the resident, the resident's guardian or

conservator, or another responsible person; (ii) has only residents who are at least sixty-one years of age or who have needs for care generally compatible with persons who are at least sixty-one years of age; and (iii) provides varying levels of care and supervision, as agreed to at the time of admission or as determined necessary at subsequent times of reappraisal.

(10) A for-profit home for the aging that converts to nonprofit status after June 11, 1992, and would otherwise be eligible for tax exemption under this section may not receive the tax exemption until five years have elapsed since the conversion. The exemption shall then be ratably granted over the next five years. [1993 c 151 § 1; 1992 c 213 § 1; 1991 sp.s. c 24 § 1; 1991 c 203 § 2; 1989 c 379 § 2.]

Applicability—1993 c 151: "This act shall be effective for taxes levied in 1994 for collection in 1995 and for taxes levied thereafter." [1993 c 151 § 2.]

Applicability—1992 c 213: "The combined disposable income threshold of twenty-two thousand dollars or less contained in section 1 of this act shall be effective for taxes levied for collection in 1993 and thereafter." [1992 c 213 § 3.]

84.36.381 Residences—Property tax exemptions—Qualifications. A person shall be exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of January 1st of the year for which the exemption is claimed: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital or nursing home shall not disqualify the claim of exemption if:

(a) The residence is temporarily unoccupied;

(b) The residence is occupied by a spouse and/or a person financially dependent on the claimant for support; or

(c) The residence is rented for the purpose of paying nursing home or hospital costs;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant, and any lease for life shall be deemed a life estate;

(3) The person claiming the exemption must be sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of physical disability: PROVIDED, That any

surviving spouse of a person who was receiving an exemption at the time of the person's death shall qualify if the surviving spouse is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person shall be exempt from an obligation to pay shall be calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the preceding year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the preceding year by reason of the death of the person's spouse, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person after the death of the spouse by twelve.

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income of twenty-six thousand dollars or less shall be exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of eighteen thousand dollars or less but greater than fifteen thousand dollars shall be exempt from all regular property taxes on the greater of thirty thousand dollars or thirty percent of the valuation of his or her residence, but not to exceed fifty thousand dollars of the valuation of his or her residence; or

Intent—1983 1st ex.s. c 11: "The legislature finds that inflation has significant detrimental effects on the senior citizen property tax relief program. Inflation increases incomes without increasing real buying power. Inflation also raises the values of homes, and thus the taxes on those homes. This act addresses the problem of inflation in two ways. First, the assessed value exemption is tied to home value so it will increase as values rise. Secondly, though the income of most senior citizens does not keep pace with inflation, it is the legislature's intent that inflationary increases in incomes will not result in program disqualification. Therefore, the income levels are adjusted to reflect the forecasted increase in inflation. The legislature also recommends that similar adjustments be examined by future legislatures." [1983 1st ex.s. c 11 § 1.]

Applicability—1983 1st ex.s. c 11: "This act applies to taxes first due in 1984 and thereafter." [1983 1st ex.s. c 11 § 7.]

Sections

- 84.40.030 Basis of valuation—Leasehold estates—Real property—Criterion of value.
- 84.40.065 Listing of taxable ships and vessels with department—Assessment—Rights of review. (Effective January 1, 1994.)

- 84.40.200 Listing of personalty on failure to obtain statement—Statement of valuation to person assessed or listing—Exemption. (Effective January 1, 1994.)

84.40.030 Basis of valuation—Leasehold estates—Real property—Criterion of value. All property shall be valued at one hundred percent of its true and fair value in money and assessed on the same basis unless specifically provided otherwise by law.

Taxable leasehold estates shall be valued at such price as they would bring at a fair, voluntary sale for cash without any deductions for any indebtedness owed including rentals to be paid. Notwithstanding any other provisions of this section or of any other statute, when the value of any taxable leasehold estate created prior to January 1, 1971 is being determined for assessment years prior to the assessment year 1973, there shall be deducted from what would otherwise be the value thereof the present worth of the rentals and other consideration which may be required of the lessee by the lessor for the unexpired term thereof: PROVIDED, That the foregoing provisions of this sentence shall not apply to any extension or renewal, made after December 31, 1970 of the term of any such estate, or to any such estate after the date, if any, provided for in the agreement for rental renegotiation.

The true and fair value of real property for taxation purposes (including property upon which there is a coal or other mine, or stone or other quarry) shall be based upon the following criteria:

(1) Any sales of the property being appraised or similar properties with respect to sales made within the past five years. The appraisal shall be consistent with the comprehensive land use plan, development regulations under chapter 36.70A RCW, zoning, and any other governmental policies or practices in effect at the time of appraisal that affect the use of property, as well as physical and environmental influences. The appraisal shall also take into account, (a) in the use of sales by real estate contract as similar sales, the extent, if any, to which the stated selling price has been increased by reason of the down payment, interest rate, or other financing terms; and (b) the extent to which the sale of a similar property actually represents the general effective market demand for property of such type, in the geographical area in which such property is located. Sales involving deed releases or similar seller-developer financing arrangements shall not be used as sales of similar property.

(2) In addition to sales as defined in subsection (1), consideration may be given to cost, cost less depreciation, reconstruction cost less depreciation, or capitalization of income that would be derived from prudent use of the property. In the case of property of a complex nature, or being used under terms of a franchise from a public agency, or operating as a public utility, or property not having a record of sale within five years and not having a significant number of sales of similar property in the general area, the provisions of this subsection (2) shall be the dominant factors in valuation. When provisions of this subsection (2) are relied upon for establishing values the property owner shall be advised upon request of the factors used in arriving at such value.

(3) In valuing any tract or parcel of real property, the value of the land, exclusive of structures thereon shall be determined; also the value of structures thereon, but the valuation shall not exceed the value of the total property as it exists. In valuing agricultural land, growing crops shall be excluded. [1993 c 436 § 1; 1988 c 222 § 14; 1980 c 155 § 2. 84.52.010 How levied—Effect of constitutional and statutory limitations. Except as is permitted under RCW 84.55.050, all taxes shall be levied or voted in specific amounts.

The rate percent of all taxes for state and county purposes, and purposes of taxing districts coextensive with the county, shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the county, as shown by the completed tax rolls of the county, and the rate percent of all taxes levied for purposes of taxing districts within any county shall be determined, calculated and fixed by the county assessors of the respective counties, within the limitations provided by law, upon the assessed valuation of the property of the taxing districts respectively.

When a county assessor finds that the aggregate rate of tax levy on any property, that is subject to the limitations set forth in RCW 84.52.043 or 84.52.050, as now or hereafter amended, exceeds the limitations provided in either of these sections, the assessor shall recompute and establish a consolidated levy in the following manner:

(1) The full certified rates of tax levy for state, county, county road district, and city or town purposes shall be extended on the tax rolls in amounts not exceeding the limitations established by law, subject to subsection (2)(e) of this section; however any state levy shall take precedence over all other levies and shall not be reduced for any purpose other than that required by RCW 84.55.010; however, if as a result of the levies imposed under RCW 84.52.069, 84.34.230, and 84.52.105, the combined rates of regular property tax levies exceed one percent of the true and fair value of any property, then the levies imposed under RCW 84.34.230 and 84.52.105, and any portion of the levy imposed under RCW 84.52.069 that is in excess of thirty cents per thousand dollars of assessed value, shall be reduced on a pro rata basis or eliminated until the combined rates of regular property tax levies no longer exceed one percent of the true and fair value of any property; and

(2) The certified rates of tax levy subject to these limitations by all junior taxing districts imposing taxes on such property shall be reduced or eliminated as follows to bring the consolidated levy of taxes on such property within the provisions of these limitations:

(a) First, the certified property tax levy rates of those junior taxing districts authorized under RCW 36.68.525,

36.69.145, and 67.38.130 shall be reduced on a pro rata basis or eliminated;

(b) Second, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of flood control zone districts shall be reduced on a pro rata basis or eliminated;

(c) Third, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates of all other junior taxing districts, other than fire protection districts, library districts, the first fifty cent per thousand dollars of assessed valuation levies for metropolitan park districts, and the first fifty cent per thousand dollars of assessed valuation levies for public hospital districts, shall be reduced on a pro rata basis or eliminated;

(d) Fourth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized to fire protection districts under RCW 52.16.140 and 52.16.160 shall be reduced on a pro rata basis or eliminated; and

(e) Fifth, if the consolidated tax levy rate still exceeds these limitations, the certified property tax levy rates authorized for fire protection districts under RCW 52.16.130, library districts, metropolitan park districts under their first fifty cent per thousand dollars of assessed valuation levy, and public hospital districts under their first fifty cent per thousand dollars of assessed valuation levy, shall be reduced on a pro rata basis or eliminated. Finding—1993 c 337: See note following RCW 84.52.105.

Purpose—1988 c 274: "The legislature finds that, due to statutory and constitutional limitations, the interdependence of the regular property tax levies of the state, counties, county road districts, cities and towns, and junior taxing districts can cause significant reductions in the otherwise authorized levies of those taxing districts, resulting in serious disruptions to essential services provided by those taxing districts. The purpose of this act is to avoid unnecessary reductions in regular property tax revenue without exceeding existing statutory and constitutional tax limitations on cumulative regular property tax levy rates. The legislature declares that it is a purpose of the state, counties, county road districts, cities and towns, public hospital districts, library districts, fire protection districts, metropolitan park districts, and other taxing districts to participate in the methods provided by this act by which revenue levels supporting the services provided by all taxing districts might be maintained." [1988 c 274 § 1.]

Severability—1988 c 274: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1988 c 274 § 13.]

Severability—Effective dates and termination dates—Construction—1973 1st ex.s. c 195: See notes following RCW 84.52.043.

Severability—1971 ex.s. c 243: See RCW 84.34.920.

Intent—1970 ex.s. c 92: "It is the intent of this 1970 amendatory act to prevent a potential doubling of property taxes that might otherwise result from the enforcement of the constitutionally required fifty percent assessment ratio as of January 1, 1970, and to adjust property tax millage rates for subsequent years to levels which will conform to the requirements of any constitutional amendment imposing a one percent limitation on property taxes. It is the further intent of this 1970 amendatory act that the statutory authority of any taxing district to impose excess levies shall not be impaired by reason of the reduction in millage rates for regular property tax levies. This 1970 amendatory act shall be construed to effectuate the legislative intent expressed in this section." [1970 ex.s. c 92 § 1.]

Effective date—Application—1970 ex.s. c 92: "This act shall take effect July 1, 1970 but shall not affect property taxes levied in 1969 or prior years." [1970 ex.s. c 92 § 11.]

84.52.043 Limitations upon regular property tax levies. Within and subject to the limitations imposed by RCW 84.52.050 as amended, the regular ad valorem tax levies upon real and personal property by the taxing districts hereafter named shall be as follows:

(1) Levies of the senior taxing districts shall be as follows: (a) The levy by the state shall not exceed three dollars and sixty cents per thousand dollars of assessed value adjusted to the state equalized value in accordance with the indicated ratio fixed by the state department of revenue to be used exclusively for the support of the common schools; (b) the levy by any county shall not exceed one dollar and eighty cents per thousand dollars of assessed value; (c) the levy by any road district shall not exceed two dollars and twenty-five cents per thousand dollars of assessed value; and (d) the levy by any city or town shall not exceed three dollars and thirty-seven and one-half cents per thousand dollars of assessed value. However any county is hereby authorized to increase its levy from one dollar and eighty cents to a rate not to exceed two dollars and forty-seven and one-half cents per thousand dollars of assessed value for general county purposes if the total levies for both the county and any road district within the county do not exceed four dollars and five cents per thousand dollars of assessed value, and no other taxing district has its levy reduced as a result of the increased county levy.

(2) The aggregate levies of junior taxing districts and senior taxing districts, other than the state, shall not exceed five dollars and ninety cents per thousand dollars of assessed valuation. The term "junior taxing districts" includes all taxing districts other than the state, counties, road districts, cities, towns, port districts, and public utility districts. The limitations provided in this subsection shall not apply to: (a) Levies at the rates provided by existing law by or for any port or public utility district; (b) excess property tax levies authorized in Article VII, section 2 of the state Constitution; (c) levies for acquiring conservation futures as authorized under RCW 84.34.230; (d) levies for emergency medical care or emergency medical services imposed under RCW 84.52.069; and (e) levies to finance affordable housing for very low-income housing imposed under RCW 84.52.105. [1973 2nd ex.s. c 4 § 7.]

Construction—1973 1st ex.s. c 195: "Sections 135 through 152 of this 1973 amendatory act shall apply to tax levies made in 1973 for collection in 1974, and sections 1 through 134 shall apply to tax levies

Severability—1973 1st ex.s. c 195: "If any provision of this 1973 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1973 1st ex.s. c 195 § 153.]

Effective dates and termination dates—1973 1st ex.s. c 195 (as amended by 1973 2nd ex.s. c 4): "This 1973 amendatory act, chapter 195, Laws of 1973, is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions, and shall take effect immediately: PROVIDED, That section 9 shall take effect January 1, 1975, and section 133(3) shall take effect on January 31, 1974: PROVIDED, FURTHER, That section 137 shall not be effective until July 1, 1973, at which time section 136 shall be void and of no effect: PROVIDED, FURTHER, That section 138 shall not be effective until January 1, 1974, at which time section 137 shall be void and of no effect: PROVIDED, FURTHER, That section 139 shall not be effective until July 1, 1974 at which time section 138 shall be void and of no effect, and section 139 shall be null and void and of no further effect on and after January 1, 1975: PROVIDED, FURTHER, That sections 1 through 8, sections 10 through 132, section 133(1), (2), (4), and (5), and section 134 shall not take effect until January 1, 1974, at which time sections 135, 136, and sections 140 through 151 shall be void and of no effect: PROVIDED, FURTHER, That section 152 shall be void and of no effect on and after January 1, 1975." 84.52.052 Excess levies authorized—When—Procedure. The limitations imposed by RCW 84.52.050 through 84.52.056, and RCW 84.52.043 shall not prevent the levy of additional taxes by any taxing district except school districts in which a larger levy is necessary in order to prevent the impairment of the obligation of contracts. As used in this section, the term "taxing district" means any county, metropolitan park district, park and recreation service area, park and recreation district, sewer district, water district, solid waste disposal district, public facilities district, flood control zone district, county rail district, service district, public hospital district, road district, rural county library district, island library district, rural partial-county library district, intercounty rural library district, fire protection district, cemetery district, city, town, transportation benefit district, emergency medical service district with a population density of less than one thousand per square mile, or cultural arts, stadium, and convention district.

Any such taxing district may levy taxes at a rate in excess of the rate specified in RCW 84.52.050 through 84.52.056 and 84.52.043, or 84.55.010 through 84.55.050, when authorized so to do by the voters of such taxing district in the manner set forth in Article VII, section 2(a) of the Constitution of this state, as amended by Amendment 64 and as thereafter amended, at a special or general election to be held in the year in which the levy is made.

A special election may be called and the time therefor fixed by the county legislative authority, or council, board of commissioners, or other governing body of any such taxing district, by giving notice thereof by publication in the manner provided by law for giving notices of general elections, at which special election the proposition authorizing such excess levy shall be submitted in such form as to enable the voters favoring the proposition to vote "yes" and those opposed thereto to vote "no." 84.52.0531 Excess levies by school districts—Maximum dollar amount for maintenance and operation support—Restrictions—Maximum levy percentage—Levy reduction funds. The maximum dollar amount which may be levied by or for any school district for maintenance and operation support under the provisions of RCW 84.52.053 shall be determined as follows:

(1) For excess levies for collection in calendar year 1992, the maximum dollar amount shall be calculated pursuant to the laws and rules in effect in November 1991.

(2) For the purpose of this section, the basic education allocation shall be determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350: PROVIDED, That when determining the basic education allocation under subsection (4) of this section, nonresident full time equivalent pupils who are participating in a program provided for in chapter 28A.545 RCW or in any other program pursuant to an interdistrict agreement shall be included in the enrollment of the resident district and excluded from the enrollment of the serving district.

(3) For excess levies for collection in calendar year 1993 and thereafter, the maximum dollar amount shall be the sum of (a) and (b) of this subsection minus (c) of this subsection:

(a) The district's levy base as defined in subsection (4) of this section multiplied by the district's maximum levy percentage as defined in subsection (5) of this section;

(b) In the case of nonhigh school districts only, an amount equal to the total estimated amount due by the nonhigh school district to high school districts pursuant to chapter 28A.545 RCW for the school year during which collection of the levy is to commence, less the increase in the nonhigh school district's basic education allocation as computed pursuant to subsection (1) of this section due to the inclusion of pupils participating in a program provided for in chapter 28A.545 RCW in such computation;

(c) The maximum amount of state matching funds under RCW 28A.500.010 for which the district is eligible in that tax collection year.

(4) For excess levies for collection in calendar year 1993 and thereafter, a district's levy base shall be the sum of allocations in (a) through (c) of this subsection received by the district for the prior school year, including allocations for compensation increases, plus the sum of such allocations multiplied by the percent increase per full time equivalent student as stated in the state basic education appropriation section of the biennial budget between the prior school year and the current school year and divided by fifty-five percent. A district's levy base shall not include local school district property tax levies or other local revenues, or state and federal allocations not identified in (a) through (c) of this subsection.

(a) The district's basic education allocation as determined pursuant to RCW 28A.150.250, 28A.150.260, and 28A.150.350;

(b) State and federal categorical allocations for the following programs:

- (i) Pupil transportation;
- (ii) Handicapped education;
- (iii) Education of highly capable students;
- (iv) Compensatory education, including but not limited to learning assistance, migrant education, Indian education, refugee programs, and bilingual education;
- (v) Food services; and
- (vi) State-wide block grant programs; and

(c) Any other federal allocations for elementary and secondary school programs, including direct grants, other than federal impact aid funds and allocations in lieu of taxes.

(5) For excess levies for collection in calendar year 1993 and thereafter, a district's maximum levy percentage shall be determined as follows:

(a) Multiply the district's maximum levy percentage for the prior year by the district's levy base as determined in subsection (4) of this section;

(b) Reduce the amount in (a) of this subsection by the total estimated amount of any levy reduction funds as defined in subsection (6) of this section which are to be allocated to the district for the current school year;

(c) Divide the amount in (b) of this subsection by the district's levy base to compute a new percentage;

(d) The percentage in (c) of this subsection or twenty percent, whichever is greater, shall be the district's maximum levy percentage for levies collected in that calendar year; and

(e) For levies to be collected in calendar years 1994 and 1995 the maximum levy rate shall be the district's maximum levy percentage for 1993 plus four percent reduced by any levy reduction funds. For levies collected in 1996, the prior year shall mean 1993.

(6) "Levy reduction funds" shall mean increases in state funds from the prior school year for programs included under subsection (4) of this section: (a) That are not attributable to enrollment changes, compensation increases, or inflationary adjustments; and (b) that are or were specifically identified as levy reduction funds in the appropriations act. If levy reduction funds are dependent on formula factors which would not be finalized until after the start of the current school year, the superintendent of public instruction shall estimate the total amount of levy reduction funds by using prior school year data in place of current school year data. Levy reduction funds shall not include moneys received by school districts from cities or counties.

(7) For the purposes of this section, "prior school year" shall mean the most recent school year completed prior to the year in which the levies are to be collected.

(8) For the purposes of this section, "current school year" shall mean the year immediately following the prior school year.

(9) The superintendent of public instruction shall develop rules and regulations and inform school districts of the pertinent data necessary to carry out the provisions of this section. 84.52.069 Six-year regular tax levies for emergency medical care and services. (1) As used in this section, "taxing district" means a county, emergency medical service district, city or town, public hospital district, or fire protection district.

(2) A taxing district may impose additional regular property tax levies in an amount equal to fifty cents or less per thousand dollars of the assessed value of property in the taxing district in each year for six consecutive years when specifically authorized so to do by a majority of at least three-fifths of the registered voters thereof approving a proposition authorizing the levies submitted at a general or special election, at which election the number of persons voting "yes" on the proposition shall constitute three-fifths of a number equal to forty per centum of the total votes cast in such taxing district at the last preceding general election when the number of registered voters voting on the proposition does not exceed forty per centum of the total votes cast in such taxing district in the last preceding general election; or by a majority of at least three-fifths of the registered voters thereof voting on the proposition when the number of registered voters voting on the proposition exceeds forty per centum of the total votes cast in such taxing district in the last preceding general election. Ballot propositions shall conform with RCW 29.30.111.

(3) Any tax imposed under this section shall be used only for the provision of emergency medical care or emergency medical services, including related personnel costs, training for such personnel, and related equipment, supplies, vehicles and structures needed for the provision of emergency medical care or emergency medical services.

(4) If a county levies a tax under this section, no taxing district within the county may levy a tax under this section. No other taxing district may levy a tax under this section if another taxing district has levied a tax under this section within its boundaries: PROVIDED, That if a county levies less than fifty cents per thousand dollars of the assessed value of property, then any other taxing district may levy a tax under this section equal to the difference between the rate of the levy by the county and fifty cents: PROVIDED FURTHER, That if a taxing district within a county levies this tax, and the voters of the county subsequently approve a levying of this tax, then the amount of the taxing district levy within the county shall be reduced, when the combined levies exceed fifty cents. Whenever a tax is levied county-wide, the service shall, insofar as is feasible, be provided throughout the county: PROVIDED FURTHER, That no county-wide levy proposal may be placed on the ballot without the approval of the legislative authority of each city

exceeding fifty thousand population within the county: AND PROVIDED FURTHER, That this section and RCW 36.32.480 shall not prohibit any city or town from levying an annual excess levy to fund emergency medical services: AND PROVIDED, FURTHER, That if a county proposes to impose tax levies under this section, no other ballot proposition authorizing tax levies under this section by another taxing district in the county may be placed before the voters at the same election at which the county ballot proposition is placed: AND PROVIDED FURTHER, That any taxing district emergency medical service levy that is authorized subsequent to a county emergency medical service levy, shall expire concurrently with the county emergency medical service levy.

(5) The tax levy authorized in this section is in addition to the tax levy authorized in RCW 84.52.043.

(6) The limitation in RCW 84.55.010 shall not apply to the first levy imposed pursuant to this section following the approval of such levy by the voters pursuant to subsection (2) of this section. [1993 c 337 § 5; 1991 c 175 § 1; 1985 c 348 § 1; 1984 c 131 § 5; 1979 ex.s. c 200 § 1.]

Finding—1993 c 337: See note following RCW 84.52.105.

Purpose—1984 c 131 §§ 3-9: See note following RCW 29.30.111.

Severability—1979 ex.s. c 200: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 200 § 3.]

84.52.105 Affordable housing levies authorized—Declaration of emergency and plan required. (1) A county, city, or town may impose additional regular property tax levies of up to fifty cents per thousand dollars of assessed value of property in each year for up to ten consecutive years to finance affordable housing for very low-income households when specifically authorized to do so by a majority of the voters of the taxing district voting on a ballot proposition authorizing the levies. If both a county, and a city or town within the county, impose levies authorized under this section, the levies of the last jurisdiction to receive voter approval for the levies shall be reduced or eliminated so that the combined rates of these levies may not exceed fifty cents per thousand dollars of assessed valuation in any area within the county. A ballot proposition authorizing a levy under this section must conform with RCW 84.52.054.

(2) The additional property tax levies may not be imposed until:

(a) The governing body of the county, city, or town declares the existence of an emergency with respect to the availability of housing that is affordable to very low-income households in the taxing district; and

(b) The governing body of the county, city, or town adopts an affordable housing financing plan to serve as the plan for expenditure of funds raised by a levy authorized under this section, and the governing body determines that the affordable housing financing plan is consistent with either the locally adopted or state-adopted comprehensive housing affordability strategy, required under the Cranston-Gonzalez national affordable housing act (42 U.S.C. Sec. 12701, et seq.), as amended.

(3) For purposes of this section, the term "very low-income household" means a single person, family, or

unrelated persons living together whose income is at or below fifty percent of the median income, as determined by the United States department of housing and urban development, with adjustments for household size, for the county where the taxing district is located. [1993 c 337 § 2.]

Finding—1993 c 337: "The legislature finds that:

(1) Many very low-income residents of the state of Washington are unable to afford housing that is decent, safe, and appropriate to their living needs;

(2) Recent federal housing legislation conditions funding for affordable housing on the availability of local matching funds;

(3) Current statutory debt limitations may impair the ability of counties, cities, and towns to meet federal matching requirements and, as a consequence, may impair the ability of such counties, cities, and towns to develop appropriate and effective strategies to increase the availability of safe, decent, and appropriate housing that is affordable to very low-income households; and

(4) It is in the public interest to encourage counties, cities, and towns to develop locally based affordable housing financing plans designed to expand the availability of housing that is decent, safe, affordable, and appropriate to the living needs of very low-income households of the counties, cities, and towns." [1993 c 337 § 1.]

84.56.440 Ships and vessels—Collection of taxes—Delinquent taxes—Valuation and assessment of unlisted ships or vessels. (Effective January 1, 1994.) (1) The department of revenue shall collect all ad valorem taxes upon ships and vessels listed with the department in accordance with RCW 84.40.065 and all applicable interest and penalties.

The taxes shall be due and payable to the department on or before the thirtieth day of April and shall be delinquent after that date.

(2) If payment of the tax is not received by the department by the due date, there shall be imposed a penalty of five percent of the amount of the tax; and if the tax is not received within thirty days after the due date, there shall be imposed a total penalty of ten percent of the amount of the tax; and if the tax is not received within sixty days after the due date, there shall be imposed a total penalty of twenty percent of the amount of the tax. No penalty so added shall be less than five dollars.

(3) Delinquent taxes under this section are subject to interest at the rate set forth in RCW 82.32.050 from the date of delinquency until paid. Interest or penalties collected on delinquent taxes under this section shall be paid by the department into the general fund of the state treasury.

(4) If upon information obtained by the department it appears that any ship or vessel required to be listed according to the provisions of RCW 84.40.065 is not so listed, the department shall value the ship or vessel and assess against the owner of the vessel the taxes found to be due and shall add thereto interest at the rate set forth in RCW 82.32.050 from the original due date of the tax until the date of payment. The department shall notify the vessel owner by mail of the amount and the same shall become due and shall

be paid by the vessel owner within thirty days of the date of the notice. If payment is not received by the department by the due date specified in the notice, the department shall add a penalty of ten percent of the tax found due. A person who willfully gives a false listing or willfully fails to list a ship or vessel as required by RCW 84.40.065 shall be subject to the penalty imposed by RCW 84.40.130(2), which shall be assessed and collected by the department.

(5) Delinquent taxes under this section, along with all penalties and interest thereon, shall be collected by the department according to the procedures set forth in chapter 82.32 RCW for the filing and execution of tax warrants, including the imposition of warrant interest. In the event a warrant is issued by the department for the collection of taxes under this section, the department shall add a penalty of five percent of the amount of the delinquent tax, but not less than ten dollars.

(6) The department shall also collect all delinquent taxes pertaining to ships and vessels appearing on the records of the county treasurers for each of the counties of this state as of December 31, 1993, including any applicable interest or penalties. The provisions of subsection (5) of this section shall apply to the collection of such delinquent taxes. [1993 c 33 § 6.]

84.64.270 Sales of tax-title property—Reservations—Notices—Installment contracts—Separate sale of reserved resources. Real property acquired by any county of this state by foreclosure of delinquent taxes may be sold by order of the county legislative authority of the county when in the judgment of the county legislative authority it is deemed in the best interests of the county to sell the real property.

When the legislative authority desires to sell any such property it may, if deemed advantageous to the county, combine any or all of the several lots and tracts of such property in one or more units, and may reserve from sale coal, oil, gas, gravel, minerals, ores, fossils, timber, or other resources on or in the lands, and the right to mine for and remove the same, and it shall then enter an order on its records fixing the unit or units in which the property shall be sold and the minimum price for each of such units, and whether the sale will be for cash or whether a contract will be offered, and reserving from sale such of the resources as it may determine and from which units such reservations shall apply, and directing the county treasurer to sell such property in the unit or units and at not less than the price or prices and subject to such reservations so fixed by the county legislative authority. The order shall be subject to

the approval of the county treasurer if several lots or tracts of land are combined in one unit.

Except in cases where the sale is to be by direct negotiation as provided in this chapter, it shall be the duty of the county treasurer upon receipt of such order to publish once a week for three consecutive weeks a notice of the sale of such property in a newspaper of general circulation in the county where the land is situated. The notice shall describe the property to be sold, the unit or units, the reservations, and the minimum price fixed in the order, together with the time and place and terms of sale, in the same manner as foreclosure sales as provided by RCW 84.64.080.

The person making the bid shall state whether he or she will pay cash for the amount of his or her bid or accept a real estate contract of purchase in accordance with the provisions hereinafter contained. The person making the highest bid shall become the purchaser of the property. If the highest bidder is a contract bidder the purchaser shall be required to pay thirty percent of the total purchase price at the time of the sale and shall enter into a contract with the county as vendor and the purchaser as vendee which shall obligate and require the purchaser to pay the balance of the purchase price in ten equal annual installments commencing November 1st and each year following the date of the sale, and shall require the purchaser to pay twelve percent interest on all deferred payments, interest to be paid at the time the annual installment is due; and may contain a provision authorizing the purchaser to make payment in full at any time of any balance due on the total purchase price plus accrued interest on such balance. The contract shall contain a provision requiring the purchaser to pay before delinquency all subsequent taxes and assessments that may be levied or assessed against the property subsequent to the date of the contract, and shall contain a provision that time is of the essence of the contract and that in event of a failure of the vendee to make payments at the time and in the manner required and to keep and perform the covenants and conditions therein required of him or her that the contract may be forfeited and terminated at the election of the vendor, and that in event of the election all sums theretofore paid by the vendee shall be forfeited as liquidated damages for failure to comply with the provisions of the contract; and shall require the vendor to execute and deliver to the vendee a deed of conveyance covering the property upon the payment in full of the purchase price, plus accrued interest.

The county legislative authority may, by order entered in its records, direct the coal, oil, gas, gravel, minerals, ores, timber, or other resources sold apart from the land, such sale to be conducted in the manner hereinabove prescribed for the sale of the land. Any such reserved minerals or resources not exceeding two hundred dollars in value may be sold, when the county legislative authority deems it advisable, either with or without such publication of the notice of sale, and in such manner as the county legislative authority may determine will be most beneficial to the county. 85.38.140 Special district financing—Alternative method. The process by which budgets are adopted, special assessments are measured and imposed, rates and charges are fixed, and assessment zones are established, as provided in RCW 85.38.140 through 85.38.170, shall constitute an alternative optional method of financing special districts. A special district in existence prior to July 28, 1985, may conform with RCW 85.38.140 through 85.38.170 when its governing body adopts a resolution indicating its intention to conform with such laws. Whenever such a resolution is adopted, or a new special district is created on or after July 28, 1985, RCW 85.38.140 through 85.38.170 shall be the exclusive method by which the special district measures and imposes special assessments and adopts its budget. The governing body of a special district that was created before July 28, 1985, and which operates under RCW 85.38.140 through 85.38.170, may adopt a resolution removing the special district from operating under RCW 85.38.140 through 85.38.170, and operate under alternative procedures available to the special district. A county may charge a special district for costs the county incurs in establishing a system or systems of assessment for the special district pursuant to RCW 85.38.140 through 85.38.170. [1993 c 464 § 3; 1985 c 396 § 15.]

85.38.145 Rates and charges. Regardless of whether any special assessments have been or may be imposed on a particular parcel of real property pursuant to this chapter, in order to implement the authority granted under RCW 85.38.180(3), a special district may fix rates and charges payable by owners or occupiers of real estate within the special district. When fixing rates and charges, the district may consider the degree to which activities on a parcel of real property, including on-site septic systems, contribute to the problems that the special district is authorized to address under RCW 85.38.180(3). [1993 c 464 § 4.]

85.38.213 Withdrawal of area within city or town. A special district may withdraw area from its boundaries that is located within the boundaries of a city or town, or area that includes area both within and adjacent to the boundaries of any city or town, under this section.

(1) The withdrawal of area is authorized upon the following conditions being met: (a) Adoption of a resolution by the special district requesting withdrawal of the area from the district; (b) adoption of a resolution by the city or town council approving the withdrawal of the special district from the area; (c) assumption by the city or town of full responsibility for the maintenance, improvements, and collection of payment for the operation of the system previously operated by the special district in the area; (d) transfer by the special district of all rights-of-way or easements in the area to the city or town by quit claim or deed; and (e) adoption of an interlocal agreement between the special district and the city or town that reimburses the special district for lost assessment revenue from the withdrawn area, that transfers any facilities or improvements owned by the special district to the city or town as agreed between the parties, and that requires the city or town to maintain existing water run-off and water quality levels in the area.

(2) Property in the territory withdrawn from the boundaries of a special district under this section shall remain liable for any special assessments of the special district from which it was withdrawn, if the special assessments are associated with bonds or notes used to finance facilities serving the property, to the same extent as if the withdrawal of property had not occurred. To the extent that moneys in the flood control assistance account are not appropriated during the 1993-95 fiscal biennium for flood control assistance, the legislature may direct their transfer to the state general fund. 87.03.440 Treasurer—County treasurer as ex officio district treasurer—Designated district treasurer, when—Duties and powers—Bond—Claims—Preliminary notice requirements when claim for crop damage. The treasurer of the county in which is located the office of the district shall be ex officio treasurer of the district, and any county treasurer handling district funds shall be liable upon his or her official bond and to criminal prosecution for malfeasance and misfeasance, or failure to perform any duty as county or district treasurer. The treasurer of each county in which lands of the district are located shall collect and receipt for all assessments levied on lands within his or her county. There shall be deposited with the district treasurer all funds of the district. The district treasurer shall pay out such funds upon warrants issued by the county auditor against the proper funds of the district, except the sums to be paid out of the bond fund for interest and principal payments on bonds: PROVIDED, That in those districts which designate their own treasurer, the treasurer may issue the warrants or any checks when the district is authorized to issue checks. All warrants shall be paid in the order of their issuance. The

district treasurer shall report, in writing, on the first Monday in each month to the directors, the amount in each fund, the receipts for the month preceding in each fund, and file the report with the secretary of the board. The secretary shall report to the board, in writing, at the regular meeting in each month, the amount of receipts and expenditures during the preceding month, and file the report in the office of the board.

The preceding paragraph of this section notwithstanding, the board of directors or board of control of an irrigation district which lies in more than one county and which had assessments in each of two of the preceding three years equal to at least five hundred thousand dollars may designate some other person having experience in financial or fiscal matters as treasurer of the district. In addition, the board of directors of an irrigation district which lies entirely within one county may designate some other person having experience in financial or fiscal matters as treasurer of the district if the board has the approval of the county treasurer to designate some other person. If the board designates a treasurer, it shall require a bond with a surety company authorized to do business in the state of Washington in an amount and under the terms and conditions which it finds from time to time will protect the district against loss. The premium on the bond shall be paid by the district. The designated treasurer shall collect and receipt for all irrigation district assessments on lands within the district and shall act with the same powers and duties and be under the same restrictions as provided by law for county treasurers acting in matters pertaining to irrigation districts, except the powers, duties, and restrictions in RCW 87.56.110 and 87.56.210 which shall continue to be those of county treasurers.

In those districts which have designated their own treasurers, the provisions of law pertaining to irrigation districts which require certain acts to be done and which refer to and involve a county treasurer or the office of a county treasurer or the county officers charged with the collection of irrigation district assessments, except RCW 87.56.110 and 87.56.210 shall be construed to refer to and involve the designated district treasurer or the office of the designated district treasurer.

Any claim against the district for which it is liable under existing laws shall be presented to the board as provided in RCW 4.96.020 and upon allowance it shall be attached to a voucher and approved by the chairman and signed by the secretary and directed to the proper official for payment: PROVIDED, That in the event claimant's claim is for crop damage, the claimant in addition to filing his or her claim within the applicable period of limitations within which an action must be commenced and in the manner specified in RCW 4.96.020 must file with the secretary of the district, or in the secretary's absence one of the directors, not less than three days prior to the severance of the crop alleged to be damaged, a written preliminary notice pertaining to the crop alleged to be damaged. Such preliminary notice, so far as claimant is able, shall advise the district; that the claimant has filed a claim or intends to file a claim against the district for alleged crop damage; shall give the name and present residence of the claimant; shall state the cause of the damage to the crop alleged to be damaged and

the estimated amount of damage; and shall accurately locate and describe where the crop alleged to be damaged is located. Such preliminary notice may be given by claimant or by anyone acting in his or her behalf and need not be verified. No action may be commenced against an irrigation district for crop damages unless claimant has complied with the provisions of RCW 4.96.020 and also with the preliminary notice requirements of this section. Tortious conduct of political subdivisions, municipal corporations and quasi municipal corporations, liability for damages, procedure: Chapter 4.96 RCW.

87.03.530 Consolidation of irrigation districts—Authorization—Merger of smaller irrigation districts. (1) Two or more irrigation districts may be consolidated into one district as provided in RCW 87.03.535 through 87.03.551 and may include in such district other lands susceptible of irrigation in the manner provided in this act, and upon the organization of such consolidated district it shall be an organized irrigation district subject to the provisions of this chapter.

(2) A smaller irrigation district may be merged into a larger irrigation district as provided in RCW 87.03.845 through 87.03.855 if the assessed acreage in the smaller district constitutes not more than thirty percent of the combined assessed acreage of the two districts. In such a proceeding, the smaller district is referred to as the "minor" irrigation district and the larger district is referred to as the "major" irrigation district. The district resulting from such a merger shall be an organized district subject to the provisions of this chapter. [1993 c 235 § 1; 1919 c 180 § 18; RRS § 7468. Formerly RCW 87.40.010.]

87.03.845 Merger of minor irrigation district into major irrigation district—Proceedings to initiate—Notice—Hearing. This section and RCW 87.03.847 through 87.03.855 provide the procedures by which a minor irrigation district may be merged into a major irrigation district as authorized by RCW 87.03.530(2).

To institute proceedings for such a merger, the board of directors of the minor district shall adopt a resolution requesting the board of directors of the major district to consider the merger.

The board of directors of the major irrigation district shall consider the request at the next regularly scheduled meeting of the board of directors of the major district following its receipt of the minor district's request or at a special meeting called for the purpose of considering the

request. If the board of the major district denies the request of the minor district, no further action on the request shall be taken.

If the board of the major district does not deny the request, it shall conduct a public hearing on the request and shall give notice regarding the hearing. The notice shall describe the proposed merger and shall be published once a week for two consecutive weeks preceding the date of the hearing and the last publication shall be not more than seven days before the date of the hearing. The notice shall contain a statement that unless the holders of title or evidence of title to at least twenty percent of the assessed lands within the major district file a protest opposing the merger with the board of the major district at or before the hearing, the board is free to approve the request for the merger without an election being conducted in the major district on the request. If the board of the major district is considering requests from more than one minor district, the hearing shall be conducted on all such requests. [1993 c 235 § 2.]

87.03.847 Merger of minor irrigation district into major irrigation district—Denial or adoption of request for merger—Notice—Elections—Notification of merger.

(1) If, following the public hearing conducted under RCW 87.03.845, the board of directors of the major irrigation district denies the request for a merger, no further action shall be taken on the request. If, following the public hearing, the board adopts a resolution approving the merger, the merger is approved by the major irrigation district and no election shall be held in the major district to approve the merger. However, if the holders of title or evidence of title to at least twenty percent of the assessed lands within the major district file a protest opposing the merger with the board of the major district at or before the public hearing, the board shall call a special election and submit to the voters of the major district the question of whether the merger should or should not be approved. Votes shall be cast as "Merger - Yes" or "Merger - No." If such a special election must be conducted and a majority of all votes cast in the district approve the merger, the merger is approved by the major district. Such an approval is effective on the date the returns of the election are canvassed under RCW 87.03.105.

(2) The board of directors of the minor irrigation district shall, within thirty days of the date the merger is approved by the major district or of the date the board of the major district issues its call for a special election on the merger, call a special election within the minor district and submit to the voters of the minor district the question of whether the merger should or should not be approved. If special elections must be conducted in both districts, both elections shall be conducted on the date set by the board of the major district. If only the minor district must conduct such a special election, the election shall be held not later than sixty days after the date the merger has been approved by the board of the major district. Votes on the question shall be cast as "Merger - Yes" or "Merger - No." If a majority of all votes cast in the district are cast for "Merger - Yes," the merger is approved by the minor irrigation district. Such an approval is effective on the date the returns of the election are canvassed under RCW 87.03.105.

(3) Notice of election in each district on the merger question shall conform to the requirements of notices for elections in the major district. Elections and voting in each district shall be consistent with RCW 87.03.045, 87.03.051, and 87.03.071. If the majority of all votes cast in a special election in either the major or a minor district are cast for "Merger - No," the merger is not approved.

(4) If the merger is approved by the major irrigation district and by the minor irrigation district as provided by this section, the minor irrigation district is merged into the major irrigation district. If two or more minor districts are merging with a major district in one process as authorized by RCW 87.03.855 and if the merger is approved by the major irrigation district and by at least one of the minor irrigation districts as provided by this section, each minor irrigation district so approving is merged into the major irrigation district. The effective date of the merger is the date by which approval of the merger has been secured in both districts or, under RCW 87.03.855, in the major and minor district or districts. The board or boards of county commissioners of the county or counties containing territory of the merged districts and the director of the department of ecology shall be notified that the districts have merged. [1993 c 235 § 3.]

87.03.849 Merger of minor irrigation district into major irrigation district—Board of directors—Transfer of property and assets. The members of the board of directors of the major irrigation district shall hold office as directors of the district formed by the merger until the end of their terms of office. If the major district is divided into director divisions, the board of the major district shall propose a plan for redividing the district into divisions that reflect the boundaries of the district created by the merger and this requirement regarding the directors of the major district. If the major district is considering a merger with more than one minor district, the board shall submit plans for the various possible mergers. The proposal or proposals shall be filed with the county legislative authority before the merger is approved in the major district or the minor district or districts. Following the merger, the county legislative authority shall approve the plan submitted for the districts that actually merged.

On the effective date of the merger, the directors of the minor district shall transfer the property and other assets of the district as required in RCW 87.03.853. Following the transfer of the property and other assets, the minor irrigation district and the office of director of the minor district shall cease to exist.

The board of directors of the district formed by the merger shall have all the powers and obligations of the boards of the major and minor districts that were merged to form the district including, but not limited to, such boards' powers and obligations for any local improvement districts created in the minor or major district under this chapter. [1993 c 235 § 4.]

87.03.851 Merger of minor irrigation district into major irrigation district—Bonds or obligations not impaired—Enforcement of assessments and obligations—Establishment of local improvement district to carry out

obligations. (1) The merger of irrigation districts shall not affect or impair any bonds or obligations of the merged districts and the holders of the bonds of any merged district shall be entitled to all remedies for their enforcement as if the district had not been merged. All obligations incurred by the district prior to its merger shall be a prior lien to any obligation that may be incurred against the district created by the merger. However, the board of directors of the merged district may, when authorized under RCW 87.03.200 and with the consent of the bondholders, exchange the bonds of the district created by the merger for the bonds of the districts that merged. If the major or minor district entered, prior to the merger, into a contract with the United States under this chapter and the board of directors of the district created by the merger proposes that the merged district enter into a contract with the United States, the board may do so when authorized under RCW 87.03.200 and may, with the consent of the United States, cancel any contract previously entered into between the major or minor district and the United States.

(2) The district created by the merger shall be entitled to all remedies for the enforcement of the irrigation district assessments and other obligations of lands to the districts that merged as if the districts had not merged. All obligations incurred for irrigation district or local improvement district purposes by the lands within the major or minor district prior to its merger shall be a prior lien to any obligation that may be incurred against those lands after the merger.

(3) Until premerger assessments have been collected and all of the premerger indebtedness of the major and minor districts that merged have been paid, separate funds shall be maintained for each district as were maintained in each prior to the merger. The board of directors of the irrigation district created by the merger may establish a local improvement district for each district included in the merger to carry out the obligations of each such district. This board shall have all the powers possessed by the boards of directors of the districts included in the merger to carry out all contracts of the included districts and to levy, assess, and cause to be collected any and all assessments or charges against the lands of each of the included districts. A petition shall not be required for the formation of a local improvement district created for this purpose. [1993 c 235 § 5.]

87.03.853 Merger of minor irrigation district into major irrigation district—Statement of property and assets of minor district. Prior to or on the effective date of a merger of a minor irrigation district and a major irrigation district, the board of directors of the minor district shall cause to be prepared a statement of all property and other assets of the minor district. The statement shall be filed with the board of directors of the district created by the merger and on the effective date of the merger. The statement shall also be filed with the county auditor of the county containing the majority of the territory of the district after the merger. Upon the filing with the board, the property and other assets of the minor district shall, subject to the rights of the holders of bonds or other obligations of the minor district, become the property and other assets of the district created by the merger. [1993 c 235 § 6.]

87.03.855 Merger of minor irrigation district into major irrigation district—Merger of more than two districts. More than two irrigation districts may merge under RCW 87.03.530(2) and 87.03.845 through 87.03.853 in one merger process. However, only one of the districts may be a "major" irrigation district and the assessed acreage in all of the other districts merging in the process, when taken collectively, shall not constitute more than thirty percent of the combined assessed acreage of all of the merging districts. In such a case, each of these other, nonmajor districts is considered to be a "minor" irrigation district under RCW 87.03.530(2) and 87.03.845 through 87.03.853. [1993 c 235 § 7.]

87.03.857 Merger of minor irrigation district into major irrigation district—Existing water rights not impaired. Nothing in RCW 87.03.530(2) and 87.03.845 through 87.03.855 shall authorize the impairment or operate to impair any existing water rights. [1993 c 235 § 8.]

Jurisdictions receiving funds under RCW 88.02.040 shall deposit such funds into an account dedicated solely for supporting the jurisdiction's boating safety programs. These funds shall not supplant existing local funds used for boating safety programs. [1993 c 244 § 40.]

88.02.050 Application—Registration fee and excise tax—Registration number and decal—Registration periods—Renewals—Marine oil refuse dump and holding tank information—Transfer of registrations. Application for a vessel registration shall be made to the department or its authorized agent in the manner and upon forms prescribed by the department. The application shall state the name and address of each owner of the vessel and such other information as may be required by the department, shall be signed by at least one owner, and shall be accompanied by a vessel registration fee of ten dollars and fifty cents per year and the excise tax imposed under chapter 82.49 RCW. Any fees required for licensing agents under RCW 46.01.140 shall be in addition to the ten dollar and fifty cent annual registration fee.

Upon receipt of the application and the registration fee, the department shall assign a registration number and issue a decal for each vessel. The registration number and decal shall be issued and affixed to the vessel in a manner prescribed by the department consistent with the standard numbering system for vessels set forth in volume 33, part 174, of the code of federal regulations. A valid decal affixed as prescribed shall indicate compliance with the annual registration requirements of this chapter.

The vessel registrations and decals are valid for a period of one year, except that the director of licensing may extend or diminish vessel registration periods, and the decals therefor, for the purpose of staggered renewal periods. For registration periods of more or less than one year, the department may collect prorated annual registration fees and excise taxes based upon the number of months in the registration period. Vessel registrations are renewable every year in a manner prescribed by the department upon payment of the vessel registration fee and excise tax. Upon renewing a vessel registration, the department shall issue a new decal to be affixed as prescribed by the department.

When the department issues either a notice to renew a vessel registration or a decal for a new or renewed vessel registration, it shall also provide information on the location of marine oil recycling tanks and sewage holding tank pumping stations. This information will be provided to the department by the state parks and recreation commission in a form ready for distribution. The form will be developed and prepared by the state parks and recreation commission with the cooperation of the department of ecology. The department, the state parks and recreation commission, and the department of ecology shall enter into a memorandum of agreement to implement this process.

A person acquiring a vessel from a dealer or a vessel already validly registered under this chapter shall, within

fifteen days of the acquisition or purchase of the vessel, apply to the department or its authorized agent for transfer of the vessel registration, and the application shall be accompanied by a transfer fee of one dollar. [1993 c 244 § 38; 1989 c 17 § 1; 1983 2nd ex.s. c 3 § 45; 1983 c 7 § 18.]

88.12.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Boat wastes" includes, but is not limited to, sewage, garbage, marine debris, plastics, contaminated bilge water, cleaning solvents, paint scrapings, or discarded petroleum products associated with the use of vessels.

(2) "Boater" means any person on a vessel on waters of the state of Washington.

(3) "Carrying passengers for hire" means carrying passengers in a vessel on waters of the state for valuable consideration, whether given directly or indirectly or received by the owner, agent, operator, or other person having an interest in the vessel. This shall not include trips where expenses for food, transportation, or incidentals are shared by participants on an even basis. Anyone receiving compensation for skills or money for amortization of equipment and carrying passengers shall be considered to be carrying passengers for hire on waters of the state.

(4) "Commission" means the state parks and recreation commission.

(5) "Darkness" means that period between sunset and sunrise.

(6) "Environmentally sensitive area" means a restricted body of water where discharge of untreated sewage from boats is especially detrimental because of limited flushing,

shallow water, commercial or recreational shellfish, swimming areas, diversity of species, the absence of other pollution sources, or other characteristics.

(7) "Marina" means a facility providing boat moorage space, fuel, or commercial services. Commercial services include but are not limited to overnight or live-aboard boating accommodations.

(8) "Motor driven boats and vessels" means all boats and vessels which are self propelled.

(9) "Muffler" or "muffler system" means a sound suppression device or system, including an underwater exhaust system, designed and installed to abate the sound of exhaust gases emitted from an internal combustion engine and that prevents excessive or unusual noise.

(10) "Operate" means to steer, direct, or otherwise have physical control of a vessel that is underway.

(11) "Operator" means an individual who steers, directs, or otherwise has physical control of a vessel that is underway or exercises actual authority to control the person at the helm.

(12) "Observer" means the individual riding in a vessel who is responsible for observing a water skier at all times.

(13) "Owner" means a person who has a lawful right to possession of a vessel by purchase, exchange, gift, lease, inheritance, or legal action whether or not the vessel is subject to a security interest.

(14) "Personal flotation device" means a buoyancy device, life preserver, buoyant vest, ring buoy, or buoy cushion that is designed to float a person in the water and that is approved by the commission.

(15) "Personal watercraft" means a vessel of less than sixteen feet that uses a motor powering a water jet pump, as its primary source of motive power and that is designed to be operated by a person sitting, standing, or kneeling on, or being towed behind the vessel, rather than in the conventional manner of sitting or standing inside the vessel.

(16) "Polluted area" means a body of water used by boaters that is contaminated by boat wastes at unacceptable levels, based on applicable water quality and shellfish standards.

(17) "Public entities" means all elected or appointed bodies, including tribal governments, responsible for collecting and spending public funds.

(20) "Underway" means that a vessel is not at anchor, or made fast to the shore, or aground.

(21) "Vessel" includes every description of watercraft on the water, other than a seaplane, used or capable of being used as a means of transportation on the water. However, it does not include inner tubes, air mattresses, and small rafts or flotation devices or toys customarily used by swimmers.

(23) "Waters of the state" means any waters within the territorial limits of Washington state.

(24) "Whitewater rivers of the state" means those rivers and streams, or parts thereof, within the boundaries of the state as listed in RCW 88.12.265. [1993 c 244 § 5; 1933 c 72 § 1; RRS § 9851-1.]

Reviser's note: This section was directed to be recodified by 1993 c 244 as part of a general reorganization of this chapter. The code reviser determined that the existing RCW number was appropriate under the new scheme and that recodification was not necessary.

Intent—1993 c 244: "It is the intent of the legislature that the boating safety laws administered by the state parks and recreation commission provide Washington's citizens with clear and reasonable boating safety regulations and penalties. Therefore, the legislature intends to recodify, clarify, and partially decriminalize the state-wide boating safety laws in order to help the boating community understand and comply with these laws.

It is also the intent of the legislature to increase boat registration fees in order to provide additional funds to local governments for boating safety enforcement and education programs. The funds are to be used for enforcement, education, training, and equipment, including vessel noise measurement equipment. The legislature encourages programs that provide boating safety education in the primary and secondary school system for boat users and potential future boat users. The legislature also encourages boating safety programs that use volunteer and private sector efforts to enhance boating safety and education." [1993 c 244 § 1.]

88.12.015 Violations of chapter punishable as misdemeanor—Circumstances—Violations designated as civil infractions. (1) It is a misdemeanor, punishable under RCW 9.92.030, for any person to commit a violation designated as an infraction under this chapter, if during a period of three hundred sixty-five days the person has previously committed two infractions for violating the same provision under this chapter and if the violation is also committed during such period and is of the same provision as the previous violations.

(2) A violation designated in this chapter as a civil infraction shall constitute a misdemeanor until the violation is included in a civil infraction monetary schedule adopted by rule by the state supreme court pursuant to chapter 7.84 RCW. [1993 c 244 § 6.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.020 Operation of vessel in a negligent manner—Penalty. A person shall not operate a vessel in a negligent manner. For the purposes of this section, to "operate in a negligent manner" means operating a vessel in disregard of careful and prudent operation, or in disregard of careful and prudent rates of speed that are no greater than is reasonable and proper under the conditions existing at the point of operation, taking into account the amount and character of traffic, size of the lake or body of water, freedom from obstruction to view ahead, effects of vessel wake, and so as not to unduly or unreasonably endanger life, limb, property or other rights of any person entitled to the use of such waters. Except as provided in RCW 88.12.015, a violation of this section is an infraction under chapter 7.84 RCW. [1993 c 244 § 7; 1933 c 72 § 2; RRS § 9851-2.]

Reviser's note: This section was directed to be recodified by 1993 c 244 as part of a general reorganization of this chapter. The code reviser

determined that the existing RCW number was appropriate under the new scheme and that recodification was not necessary.

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.025 Operation of vessel in a reckless manner—Penalty. (1) It shall be unlawful for any person to operate a vessel in a reckless manner.

(2) It shall be a violation for a person to operate a vessel while under the influence of intoxicating liquor or any drug. A person is considered to be under the influence of intoxicating liquor or any drug if:

(a) The person has 0.10 grams or more of alcohol per two hundred ten liters of breath, as shown by analysis of the person's breath made under RCW 46.61.506; or

(b) The person has 0.10 percent or more by weight of alcohol in the person's blood, as shown by analysis of the person's blood made under RCW 46.61.506; or

(c) The person is under the influence of or affected by intoxicating liquor or any drug; or

(d) The person is under the combined influence of or affected by intoxicating liquor and any drug.

The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this state shall not constitute a defense against any charge of violating this section. A person cited under this subsection may upon request be given a breath test for breath alcohol or may request to have a blood sample taken for blood alcohol analysis. An arresting officer shall administer field sobriety tests when circumstances permit.

(3) A violation of this section is a misdemeanor, punishable as provided under RCW 9.92.030. In addition, the court may order the defendant to pay restitution for any damages or injuries resulting from the offense. [1993 c 244 § 8. Prior: 1990 c 231 § 3; 1990 c 31 § 1; 1987 c 373 § 6; 1986 c 153 § 6; 1985 c 267 § 2. Formerly RCW 88.12.100, 88.02.095.]

Intent—1993 c 244: See note following RCW 88.12.010.

Legislative finding, purpose—Severability—1987 c 373: See notes following RCW 46.61.502.

88.12.030 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.035 Failure to stop for law enforcement officer. Any operator of a vessel who willfully fails to stop when requested or signaled to do so by a person reasonably identifiable as a law enforcement officer is guilty of a gross misdemeanor. [1990 c 235 § 1. Formerly RCW 88.12.110, 88.08.070.]

88.12.040 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.045 Eluding a law enforcement vessel. Any operator of a vessel who willfully fails or refuses to immediately bring the vessel to a stop and who operates the vessel in a manner indicating a wanton or willful disregard for the lives or property of others while attempting to elude a pursuing law enforcement vessel, after being given a visual

or audible signal to bring the vessel to a stop, shall be guilty of a class C felony punishable under chapter 9A.20 RCW. The signal given by the law enforcement officer may be by hand, voice, emergency light, or siren. The officer giving such a signal shall be in uniform and his or her vessel shall be appropriately marked showing it to be an official law enforcement vessel. [1990 c 235 § 2. Formerly RCW 88.12.120, 88.08.080.]

88.12.050 Recodified as RCW 88.12.115. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.055 Enforcement—Chapter to supplement federal law. (1) Every law enforcement officer of this state and its political subdivisions has the authority to enforce this chapter. Law enforcement officers may enforce recreational boating rules adopted by the commission. Such law enforcement officers include, but are not limited to, county sheriffs, officers of other local law enforcement entities, wildlife agents of the department of wildlife and fisheries patrol officers of the department of fisheries, through their directors, the state patrol, through its chief, and state park rangers. In the exercise of this responsibility, all such officers may stop and board any vessel and direct it to a suitable pier or anchorage to enforce this chapter.

(2) This chapter shall be construed to supplement federal laws and regulations. To the extent this chapter is inconsistent with federal laws and regulations, the federal laws and regulations shall control. [1993 c 244 § 9; 1988 c 36 § 73; 1986 c 217 § 10. Formerly RCW 88.12.330, 91.14.100.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.065 Equipment standards—Rules—Penalty. In addition to the equipment standards prescribed under this chapter, the commission shall adopt rules specifying equipment standards for vessels. Except where the violation is classified as a misdemeanor under this chapter, violation of any equipment standard adopted by the commission is an infraction under chapter 7.84 RCW. [1993 c 244 § 10.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.075 Tampering with vessel lights or signals—Exhibiting false lights or signals—Penalty. An operator or owner who endangers a vessel, or the persons on board the vessel, by showing, masking, extinguishing, altering, or removing any light or signal or by exhibiting any false light or signal, is guilty of a misdemeanor, punishable as provided in RCW 9.92.030. [1993 c 244 § 11.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.080 Recodified as RCW 88.12.125. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.085 Muffler or underwater exhaust system required—Exemptions—Enforcement—Penalty. (1) All motor-propelled vessels shall be equipped and maintained with an effective muffler that is in good working order and

in constant use. For the purpose of this section, an effective muffler or underwater exhaust system does not produce sound levels in excess of ninety decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission, as of July 25, 1993, and for engines manufactured on or after January 1, 1994, a noise level of eighty-eight decibels when subjected to a stationary sound level test that shall be prescribed by rules adopted by the commission.

(2) A vessel that does not meet the requirements of subsection (1) of this section shall not be operated on the waters of this state.

(3) No person may operate a vessel on waters of the state in such a manner as to exceed a noise level of seventy-five decibels measured from any point on the shoreline of the body of water on which the vessel is being operated that shall be specified by rules adopted by the commission, as of July 25, 1993. Such measurement shall not preclude a stationary sound level test that shall be prescribed by rules adopted by the commission.

(4) This section does not apply to: (a) A vessel tuning up, testing for, or participating in official trials for speed records or a sanctioned race conducted pursuant to a permit issued by an appropriate governmental agency; or (b) a vessel being operated by a vessel or marine engine manufacturer for the purpose of testing or development. Nothing in this subsection prevents local governments from adopting ordinances to control the frequency, duration, and location of vessel testing, tune-up, and racing.

(5) Any officer authorized to enforce this section who has reason to believe that a vessel is not in compliance with the noise levels established in this section may direct the operator of the vessel to submit the vessel to an on-site test to measure noise level, with the officer on board if the officer chooses, and the operator shall comply with such request. If the vessel exceeds the decibel levels established in this section, the officer may direct the operator to take immediate and reasonable measures to correct the violation.

(6) Any officer who conducts vessel sound level tests as provided in this section shall be qualified in vessel noise testing. Qualifications shall include but may not be limited to the ability to select the appropriate measurement site and the calibration and use of noise testing equipment.

(7) A person shall not remove, alter, or otherwise modify in any way a muffler or muffler system in a manner that will prevent it from being operated in accordance with this chapter.

(8) A person shall not manufacture, sell, or offer for sale any vessel that is not equipped with a muffler or muffler system that does not comply with this chapter. This subsection shall not apply to power vessels designed, manufactured, and sold for the sole purpose of competing in racing events and for no other purpose. Any such exemption or exception shall be documented in any and every sale agreement and shall be formally acknowledged by signature on the part of both the buyer and the seller. Copies of the agreement shall be maintained by both parties. A copy shall be kept on board whenever the vessel is operated.

(9) Except as provided in RCW 88.12.015, a violation of this section is an infraction under chapter 7.84 RCW.

(10) Vessels that are equipped with an engine modified to increase performance beyond the engine manufacturer's

stock configuration shall have an exhaust system that complies with the standards in this section after January 1, 1994. Until that date, operators or owners, or both, of such vessels with engines that are out of compliance shall be issued a warning and be given educational materials about types of muffling systems available to muffle noise from such high performance engines.

(11) Nothing in this section preempts a local government from exercising any power that it possesses under the laws or Constitution of the state of Washington to adopt more stringent regulations. [1993 c 244 § 39.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.090 Repealed. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.095 Personal flotation devices—Inspection and approval—Rules. (1) The commission shall adopt rules providing for its inspection and approval of the personal flotation devices that may be used to satisfy the requirements of this chapter and governing the manner in which such devices shall be used. The commission shall prescribe the different types of devices that are appropriate for the different uses, such as water skiing or operation of a personal watercraft. In adopting its rules the commission shall consider the United States coast guard rules or regulations. The commission may approve devices inspected and approved by the coast guard without conducting any inspection of the devices itself.

(2) In situations where personal flotation devices are required under provisions of this chapter, the devices shall be in good and serviceable condition and of appropriate size. If they are not, then they shall not be considered as personal flotation devices under such provisions. [1993 c 244 § 12.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.100 Recodified as RCW 88.12.025. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.105 Failure of vessel to contain required equipment—Liability of operator or owner—Penalty. If an infraction is issued under this chapter because a vessel does not contain the required equipment and if the operator is not the owner of the vessel, but is operating the vessel with the express or implied permission of the owner, then either or both operator or owner may be cited for the infraction. [1993 c 244 § 13.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.110 Recodified as RCW 88.12.035. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.115 Personal flotation devices required—Penalty. (1) No person may operate or permit the operation of a vessel on the waters of the state without a personal flotation device on board for each person on the vessel. Each personal flotation device shall be in serviceable condition, of an appropriate size, and readily accessible.

(2) Except as provided in RCW 88.12.015, a violation of subsection (1) of this section is an infraction under chapter 7.84 RCW if the vessel is not carrying passengers for hire.

(3) A violation of subsection (1) of this section is a misdemeanor punishable under RCW 9.92.030, if the vessel is carrying passengers for hire. [1993 c 244 § 14; 1933 c 72 § 5; RRS § 9851-5. Formerly RCW 88.12.050.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.120 Recodified as RCW 88.12.045. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.125 Water skiing safety—Requirements. (1) The purpose of this section is to promote safety in water skiing on the waters of Washington state, provide a means of ensuring safe water skiing and promote the enjoyment of water skiing.

(2) No vessel operator may tow or attempt to tow a water skier on any waters of Washington state unless such craft shall be occupied by at least an operator and an observer. The observer shall continuously observe the person or persons being towed and shall display a flag immediately after the towed person or persons fall into the water, and during the time preparatory to skiing while the person or persons are still in the water. Such flag shall be a bright red or brilliant orange color, measuring at least twelve inches square, mounted on a pole not less than twenty-four inches long and displayed as to be visible from every direction. This subsection does not apply to a personal watercraft, the design of which makes no provision for carrying an operator or any other person on board, and that is actually operated by the person or persons being towed. Every remote-operated personal watercraft shall have a flag attached which meets the requirements of this subsection. Except as provided under RCW 88.12.015, a violation of this subsection is an infraction under chapter 7.84 RCW.

(3) The observer and the operator shall not be the same person. The observer shall be an individual who meets the minimum qualifications for an observer established by rules of the commission. Except as provided under RCW 88.12.015, a violation of this subsection is an infraction under chapter 7.84 RCW.

(4) No person shall engage or attempt to engage in water skiing without wearing a personal flotation device. Except as provided under RCW 88.12.015, a violation of this subsection is an infraction under chapter 7.84 RCW.

(5) No person shall engage or attempt to engage in water skiing, or operate any vessel to tow a water skier, on the waters of Washington state during the period from one hour after sunset until one hour prior to sunrise. A violation of this subsection is a misdemeanor, punishable as provided under RCW 9.92.030.

(6) No person engaged in water skiing either as operator, observer, or skier, shall conduct himself or herself in a reckless manner that willfully or wantonly endangers, or is likely to endanger, any person or property. A violation of this subsection is a misdemeanor as provided under RCW 9.92.030.

(7) The requirements of subsections (2), (3), (4), and (5) of this section shall not apply to persons engaged in tournaments, competitions, or exhibitions that have been authorized or otherwise permitted by the appropriate agency having jurisdiction and authority to authorize such events. [1993 c 244 § 15; 1990 c 231 § 1; 1989 c 241 § 1. Formerly RCW 88.12.080, 88.12.070.]

Intent—1993 c 244: See note following RCW 88.12.010.

Effective date—1990 c 231: "This act shall take effect July 1, 1990." [1990 c 231 § 4.]

Severability—1990 c 231: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1990 c 231 § 5.]

88.12.130 Recodified as RCW 88.12.155. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.135 Loading or powering vessel beyond safe operating ability—Penalties. (1) A person shall not load or permit to be loaded a vessel with passengers or cargo beyond its safe carrying ability or carry passengers or cargo in an unsafe manner taking into consideration weather and other existing operating conditions.

(2) A person shall not operate or permit to be operated a vessel equipped with a motor or other propulsion machinery of a power beyond the vessel's ability to operate safely, taking into consideration the vessel's type, use, and construction, the weather conditions, and other existing operating conditions.

(3) A violation of subsection (1) or (2) of this section is an infraction punishable as provided under chapter 7.84 RCW except as provided under RCW 88.12.015 or where the overloading or overpowering is reasonably advisable to effect a rescue or for some similar emergency purpose.

(4) If it appears reasonably certain to any law enforcement officer that a person is operating a vessel clearly loaded or powered beyond its safe operating ability and in the judgment of that officer the operation creates an especially hazardous condition, the officer may direct the operator to take immediate and reasonable steps necessary for the safety of the individuals on board the vessel, including directing the operator to return to shore or a mooring and to remain there until the situation creating the hazard is corrected or ended. Failure to follow the direction of an officer under this subsection is a misdemeanor punishable as provided under RCW 9.92.030. [1993 c 244 § 16.]

Intent—1993 c 244: See note following RCW 88.12.010.

88.12.140 Recodified as RCW 88.12.165. See Supplementary Table of Disposition of Former RCW Sections, this volume.

88.12.145 Operation of personal watercraft—Prohibited activities—Penalties. (1) A person shall not operate a personal watercraft unless each person aboard the personal watercraft is wearing a personal flotation device approved by the commission. Except as provided for in RCW 88.12.015, a violation of this subsection is a civil infraction punishable under RCW 7.84.100.

(2) A person operating a personal watercraft equipped by the manufacturer with a lanyard-type engine cutoff switch shall attach the lanyard to his or her person, clothing, or personal flotation device as appropriate for the specific vessel. It is unlawful for any person to remove or disable a cutoff switch that was installed by the manufacturer.

(3) A person shall not operate a personal watercraft during darkness.

(4) A person under the age of fourteen shall not operate a personal watercraft on the waters of this state.

(5) A person shall not operate a personal watercraft in a reckless manner, including recklessly weaving through congested vessel traffic, recklessly jumping the wake of another vessel unreasonably or unnecessarily close to the vessel or when visibility around the vessel is obstructed, or recklessly swerving at the last possible moment to avoid collision.

88.12.295 Findings—Sewage disposal initiative established—Boater environmental education—Waterway access facilities. The legislature finds that the waters of Washington state provide a unique and valuable recreational resource to large and growing numbers of boaters. Proper stewardship of, and respect for, these waters requires that, while enjoying them for their scenic and recreational benefits, boaters must exercise care to assure that such activities do not contribute to the despoliation of these waters, and that watercraft be operated in a safe and responsible manner. The legislature has specifically addressed the topic of access to clean and safe waterways by requiring the 1987 boating safety study and by establishing the Puget Sound water quality authority.

The legislature finds that there is a need to educate Washington's boating community about safe and responsible actions on our waters and to increase the level and visibility of the enforcement of boating laws. To address the incidence of fatalities and injuries due to recreational boating on our state's waters, local and state efforts directed towards safe boating must be stimulated. To provide for safe waterways and public enjoyment, portions of the watercraft excise tax and boat registration fees should be made available for boating safety and other boating recreation purposes.

In recognition of the need for clean waterways, and in keeping with the Puget Sound water quality authority's 1987 management plan, the legislature finds that adequate opportunities for responsible disposal of boat sewage must be made available. There is hereby established a five-year initiative to install sewage pumpout or sewage dump stations at appropriate marinas.

To assure the use of these sewage facilities, a boater environmental education program must accompany the five-year initiative and continue to educate boaters about boat wastes and aquatic resources.

The legislature also finds that, in light of the increasing numbers of boaters utilizing state waterways, a program to acquire and develop sufficient waterway access facilities for boaters must be undertaken.

To support boating safety, environmental protection and education, and public access to our waterways, the legislature declares that a portion of the income from boating-related activities, as specified in RCW 82.49.030 and 88.02.040, should support these efforts. 88.12.305 Identification and designation of polluted and environmentally sensitive areas. The commission, in consultation with the departments of ecology, fisheries, wildlife, natural resources, social and health services, and the Puget Sound water quality authority shall conduct a literature search and analyze pertinent studies to identify areas which are polluted or environmentally sensitive within the state's waters. Based on this review the commission shall designate appropriate areas as polluted or environmentally sensitive, for the purposes of *this act only. [1989 c 393 § 3. Formerly RCW 88.12.380, 88.36.030.]

88.12.315 Designation of marinas, boat launches, or boater destinations for installation of sewage pumpout or dump units. (1) A marina which meets one or more of the following criteria shall be designated by the commission as appropriate for installation of a sewage pumpout or dump unit:

- (a) The marina is located in an environmentally sensitive or polluted area; or
- (b) The marina has one hundred twenty-five slips or more and there is a lack of sewage pumpout or dump units within a reasonable distance.

(2) In addition to subsection (1) of this section, the commission may at its discretion designate a marina as appropriate for installation of a sewage pumpout or dump unit if there is a demonstrated need for a sewage pumpout or dump unit at the marina based on professionally conducted studies undertaken by federal, state, or local government, or the private sector; and it meets the following criteria:

- (a) The marina provides commercial services, such as sales of food, fuel or supplies, or overnight or live-aboard moorage opportunities;
- (b) The marina is located at a heavily used boating destination or on a heavily traveled route, as determined by the commission; or
- (c) There is a lack of adequate sewage pumpout or dump unit capacity within a reasonable distance.

(3) Exceptions to the designation made under this section may be made by the commission if no sewer, septic, water, or electrical services are available at the marina.

(4) In addition to marinas, the commission may designate boat launches or boater destinations as appropriate for installation of a sewage pumpout or dump unit based on the criteria found in subsections (1) and (2) of this section. 88.12.325 Contracts for financial assistance—Ownership of sewage pumpout or dump unit—Ongoing costs. (1) Marinas and boat launches designated as appropriate for installation of a sewage pumpout or dump unit under RCW 88.12.315 shall be eligible for funding support for installation of such facilities from funds specified in RCW 88.12.375. The commission shall notify owners or operators of all designated marinas and boat launches of the designation, and of the availability of funding to support installation of appropriate sewage disposal facilities. The commission shall encourage the owners and operators to apply for available funding.

(2) The commission shall seek to provide the most cost-efficient and accessible facilities possible for reducing the amount of boat waste entering the state's waters. The commission shall consider providing funding support for portable pumpout facilities in this effort.

(3) The commission shall contract with, or enter into an interagency agreement with another state agency to contract with, applicants based on the criteria specified below:

(a)(i) Contracts may be awarded to publicly owned, tribal, or privately owned marinas or boat launches.

(ii) Contracts may provide for state reimbursement to cover eligible costs as deemed reasonable by commission rule. Eligible costs include purchase, installation, or major renovation of the sewage pumpout or dump units, including sewer, water, electrical connections, and those costs attendant to the purchase, installation, and other necessary appurtenances, such as required pier space, as determined by the commission.

(iii) Ownership of the sewage pumpout or dump unit will be retained by the state through the commission in privately owned marinas. Ownership of the sewage pumpout or dump unit in publicly owned marinas will be held by the public entity.

(iv) Operation, normal and expected maintenance, and ongoing utility costs will be the responsibility of the contract recipient. The sewage pumpout or dump unit shall be kept in operating condition and available for public use at all times during operating hours of the facility, excluding necessary maintenance periods.

(v) The contract recipient agrees to allow the installation, existence and use of the sewage pumpout or dump unit by granting an irrevocable license for a minimum of ten years at no cost to the commission.

(b) Contracts awarded pursuant to (a) of this subsection shall be subject, for a period of at least ten years, to the following conditions:

(i) Any contract recipient entering into a contract under this section must allow the boating public access to the sewage pumpout or dump unit during operating hours.

(ii) The contract recipient must agree to monitor and encourage the use of the sewage pumpout or dump unit, and to cooperate in any related boater environmental education program administered or approved by the commission.

(iii) The contract recipient must agree not to charge a fee for the use of the sewage pumpout or dump unit.

(iv) The contract recipient must agree to arrange and pay a reasonable fee for a periodic inspection of the sewage pumpout or dump unit by the local health department or appropriate authority.

(v) Use of a free sewage pumpout or dump unit by the boating public shall be deemed to be included in the term "outdoor recreation" for the purposes of chapter 4.24 RCW. [1993 c 244 § 33; 1989 c 393 § 5. Formerly RCW 88.12.400, 88.36.050.]

88.12.335 Development by department of ecology of design, installation, and operation of sewage pumpout and dump units—Rules. The department of ecology, in consultation with the commission, shall, for initiation of the state-wide program only, develop criteria for the design, installation, and operation of sewage pumpout and dump units, taking into consideration the ease of access to the unit by the boating public. The department of ecology may adopt rules to administer the provisions of this section. [1993 c 244 § 34; 1989 c 393 § 6. Formerly RCW 88.12.410, 88.36.060.]

88.12.500 Liquid petroleum gas leak warning devices—Findings. (1) The legislature finds that:

(a) Washington state has the greatest length of marine shoreline miles of the lower forty-eight states;

(b) Such marine waters and the extensive freshwater lakes and rivers of the state provide innumerable recreational opportunities, and support a state recreational vessel population that is one of the largest in the country;

(c) Many of Washington's popular recreational waters are remote from population centers and thus remote from emergency health care facilities;

(d) Washington's climate in the western portion of the state, in which its marine recreational waters lie, is cool and wet for much of the year. Much of the state's recreational

vessel activity is conducted in the late fall and winter months in connection with fishing activities. For these reasons the great majority of Washington vessels are equipped with heating devices. These appliances are in use for a much greater portion of the boating season than in other states, and are predominantly fueled by liquid petroleum gas;

(e) Current state and federal standards governing heating and cooking appliances on vessels that are fueled by liquid petroleum gas do not adequately protect against undetected gas leaks. Such gas leaks have led to explosions on Washington waters, causing loss of life and property damage;

(f) A vessel equipped with leak detection and warning devices will greatly reduce the potential for the ignition of liquid petroleum gas which may have escaped into the hold of the vessel, yet such devices are not currently required either by federal standards or Washington law.

(2) It is the intent of the legislature to address the state's unique local circumstances regarding inadequate protection of Washington's boaters from undetected leaks of liquid petroleum gas-fueled appliances by requiring leak detection and warning devices to be placed on those vessels most at risk. It is further the intent of the legislature in this action to exercise the authority to address such local circumstances recognized in federal laws which otherwise preempt the field of establishing safety standards for vessels. [1993 c 469 § 1.]

Severability—1993 c 469: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1993 c 469 § 7.]

Effective date—1993 c 469: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 17, 1993]." [1993 c 469 § 8.]

88.12.510 Liquid petroleum gas leak warning devices—Sensors and warning devices required—Penalty.

(1) Effective July 1, 1994, the owner of any vessel that is equipped with a liquid petroleum gas system shall ensure that such vessel is equipped with one or more sensors and warning devices capable of sensing vapors at a level of concentration below the threshold which presents a danger of explosion. The devices shall be capable of providing a continuous warning audible to anyone on board or boarding the vessel.

(2) As used in RCW 88.12.500 through 88.12.540, "vessel" includes any vessel used primarily for recreation or chartered primarily for recreational purposes that is required under RCW 88.02.020 to display a decal or that is exempt from registration pursuant to RCW 88.02.030(10). On or before April 1, 1994, the commission shall adopt rules defining vessels of open-air construction which are excluded from this definition.

(3) A violation of subsection (1) of this section is a civil infraction punishable under RCW 7.84.100. During the period from July 1, 1994, to September 1, 1994, a person violating this section may be issued a written warning of the violation only. [1993 c 469 § 2.]

Severability—Effective date—1993 c 469: See notes following RCW 88.12.500.

88.12.520 Liquid petroleum gas leak warning devices—Standards—Rules. The sensors and warning devices required by RCW 88.12.510 shall comply with all applicable standards adopted by the United States coast guard or the commission. Within thirty days following May 17, 1993, the commission shall request the coast guard to adopt standards requiring and governing the installation of such devices. If the commission determines that such federal standards are not reasonably likely to be adopted by April 1, 1994, the commission shall adopt such standards on or before such date. The rules shall provide that more than one sensor shall be required on vessels which due to their size or design cannot be adequately serviced by a single sensor. [1993 c 469 § 3.]

Severability—Effective date—1993 c 469: See notes following RCW 88.12.500.

88.12.530 Liquid petroleum gas leak warning devices—Required for sale or manufacture of vessel—Penalty. (1) On or after July 1, 1994, it shall be unlawful for any person or vessel dealer to offer for sale within this state a vessel that is not equipped with the warning device required by RCW 88.12.510.

(2) On or after July 1, 1994, it shall be unlawful to manufacture a vessel which does not meet the requirements of RCW 88.12.510, or to modify a vessel in any way that causes a vessel to be out of compliance with RCW 88.12.510.

(3) A violation of this section shall be a misdemeanor punishable as provided by RCW 9A.20.021(2). [1993 c 469 § 4.]

Severability—Effective date—1993 c 469: See notes following RCW 88.12.500.

88.12.540 Liquid petroleum gas leak warning devices—Preemption of state law—Exemption from preemption. In the event that a court of competent jurisdiction rules that any provision of RCW 88.12.500 through 88.12.530 is invalid as preempted by federal law or regulations, the commission shall submit to the appropriate federal official an application for exemption from such preemption as provided by 46 U.S.C. Sec. 4305. [1993 c 469 § 5.]

Severability—Effective date—1993 c 469: See notes following RCW 88.12.500.

PRIVATE MOORAGE FACILITIES

Sections

88.26.010 Definitions.
88.26.020 Securing vessels—Notice—Moving vessels ashore—Regaining possession—Abandoned vessels—Public sale.

88.26.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Charges" means charges of a private moorage facility operator for moorage and storage, all other charges owing to or that become owing under a contract between a vessel owner and the private moorage facility operator, or any costs of sale and related legal expenses for implementing RCW 88.26.020.

(2) "Vessel" means every watercraft used or capable of being used as a means of transportation on the water. "Vessel" includes any trailer used for the transportation of watercraft.

(3) "Private moorage facility" means any properties or facilities owned or operated by a private moorage facility operator that are capable of use for the moorage or storage of vessels.

(4) "Private moorage facility operator" means every natural person, firm, partnership, corporation, association, organization, or any other legal entity, employee, or their agent, that owns or operates a private moorage facility. Private moorage facility operation does not include a "moorage facility operator" as defined in RCW 53.08.310.

(5) "Owner" means every natural person, firm, partnership, corporation, association, or organization, or their agent, with actual or apparent authority, who expressly or impliedly contracts for use of a moorage facility.

(6) "Transient vessel" means a vessel using a private moorage facility and that belongs to an owner who does not have a moorage agreement with the private moorage facility operator. Transient vessels include, but are not limited to, vessels seeking a harbor or refuge, day use, or overnight use of a private moorage facility on a space-as-available basis. [1993 c 474 § 1.]

88.26.020 Securing vessels—Notice—Moving vessels ashore—Regaining possession—Abandoned vessels—Public sale. (1) Any private moorage facility operator may take reasonable measures, including the use of chains, ropes, and locks, or removal from the water, to secure vessels within the private moorage facility so that the vessels are in the possession and control of the operator and cannot be removed from the facility. These procedures may be used if an owner mooring or storing a vessel at the facility fails, after being notified that charges are owing and of the

owner's right to commence legal proceedings to contest that such charges are owing, to pay charges owed or to commence legal proceedings. Notification shall be by two separate letters, one sent by first class mail and one sent by registered mail to the owner and any lienholder of record at the last known address. In the case of a transient vessel, or where no address was furnished by the owner, the operator need not give notice prior to securing the vessel. At the time of securing the vessel, an operator shall attach to the vessel a readily visible notice. The notice shall be of a reasonable size and shall contain the following information:

(a) The date and time the notice was attached;

(b) A statement that if the account is not paid in full within ninety days from the time the notice is attached the vessel may be sold at public auction to satisfy the charges; and

(c) The address and telephone number where additional information may be obtained concerning release of the vessel.

After a vessel is secured, the operator shall make a reasonable effort to notify the owner and any lienholder of record by registered mail in order to give the owner the information contained in the notice.

(2) A private moorage facility operator, at his or her discretion, may move moored vessels ashore for storage within properties under the operator's control or for storage with a private person under their control as bailees of the private moorage facility, if the vessel is, in the opinion of the operator, a nuisance, in danger of sinking or creating other damage, or is owing charges. The costs of any such procedure shall be paid by the vessel's owner.

(3) If a vessel is secured under subsection (1) of this section or moved ashore under subsection (2) of this section, the owner who is obligated to the private operator for charges may regain possession of the vessel by:

(a) Making arrangements satisfactory with the operator for the immediate removal of the vessel from the facility or for authorized moorage; and

(b) Making payment to the operator of all charges, or by posting with the operator a sufficient cash bond or other acceptable security, to be held in trust by the operator pending written agreement of the parties with respect to payment by the vessel owner of the amount owing, or pending resolution of the matter of the charges in a civil action in a court of competent jurisdiction. After entry of judgment, including any appeals, in a court of competent jurisdiction, or after the parties reach agreement with respect to payment, the trust shall terminate and the operator shall receive so much of the bond or other security as agreed, or as is necessary, to satisfy any judgment, costs, and interest as may be awarded to the operator. The balance shall be refunded immediately to the owner at the last known address.

(4) If a vessel has been secured by the operator under subsection (1) of this section and is not released to the owner under the bonding provisions of this section within ninety days after notifying or attempting to notify the owner under subsection (1) of this section, the vessel is conclusively presumed to have been abandoned by the owner.

(5) If a vessel moored or stored at a private moorage facility is abandoned, the operator may authorize the public

sale of the vessel by authorized personnel to the highest and best bidder for cash as follows:

(a) Before the vessel is sold, the vessel owner and any lienholder of record shall be given at least twenty days' notice of the sale in the manner set forth in subsection (1) of this section if the name and address of the owner is known. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of charges owed with respect to the vessel. The notice of sale shall be published at least once, more than ten but not more than twenty days before the sale, in a newspaper of general circulation in the county in which the facility is located. This notice shall include the name of the vessel, if any, the last known owner and address, and a reasonable description of the vessel to be sold. The operator may bid all or part of its charges at the sale and may become a purchaser at the sale.

(b) Before the vessel is sold, any person seeking to redeem an impounded vessel under this section may commence a lawsuit in the superior court for the county in which the vessel was impounded to contest the validity of the impoundment or the amount of charges owing. This lawsuit must be commenced within sixty days of the date the notification was provided under subsection (1) of this section, or the right to a hearing is deemed waived and the owner is liable for any charges owing the operator. In the event of litigation, the prevailing party is entitled to reasonable attorneys' fees and costs.

(c) The proceeds of a sale under this section shall be applied first to the payment of any liens superior to the claim for charges, then to payment of the charges, then to satisfy any other liens on the vessel in the order of their priority. The balance, if any, shall be paid to the owner. If the owner cannot in the exercise of due diligence be located by the operator within one year of the date of the sale, the excess funds from the sale shall revert to the department of revenue under chapter 63.29 RCW. If the sale is for a sum less than the applicable charges, the operator is entitled to assert a claim for deficiency, however, the deficiency judgment shall not exceed the moorage fees owed for the previous six-month period.

(d) In the event no one purchases the vessel at a sale, or a vessel is not removed from the premises or other arrangements are not made within ten days of sale, title to the vessel will revert to the operator.

(6) The rights granted to a private moorage facility operator under this section are in addition to any other legal rights an operator may have to hold and sell a vessel and in no manner does this section alter those rights, or affect the priority of other liens on a vessel. [1993 c 474 § 2.]

88.46.170 Field operations program—Coordination with United States coast guard. (1) The office shall establish a field operations program to enforce the provisions of this chapter. The field operations program shall include, but is not limited to, the following elements:

- (a) Education and public outreach;
- (b) Review of lightering and bunkering operations to prevent oil spills;
- (c) Evaluation and boarding of tank vessels for compliance with prevention plans prepared pursuant to this chapter;
- (d) Evaluation and boarding of covered vessels that may pose a substantial risk to the public health, safety, and the environment;
- (e) Evaluation and boarding of covered vessels for compliance with rules adopted by the office to implement recommendations of regional marine safety committees; and
- (f) Collection of vessel information to assist in identifying vessels which pose a substantial risk to the public health, safety, and the environment.

(2) The office shall coordinate the field operations program with similar activities of the United States coast guard. To the extent feasible, the office shall coordinate its boarding schedules with those of the United States coast guard to reduce the impact of boardings on vessel operators, to more efficiently use state and federal resources, and to avoid duplication of United States coast guard inspection operations.

(3) In developing and implementing the field operations program, the office shall give priority to activities designed to identify those vessels which pose the greatest risk to the waters of the state. The office shall consult with the marine transportation industry, individuals concerned with the marine environment, other state and federal agencies, and the public in developing and implementing the program required by this section. 90.03.360 Controlling works and measuring devices—Metering of diversions—Impact on fish stock. (1) The owner or owners of any water diversion shall maintain, to the satisfaction of the department of ecology, substantial controlling works and a measuring device constructed and maintained to permit accurate measurement and practical regulation of the flow of water diverted. Every owner or manager of a reservoir for the storage of water shall construct and maintain, when required by the department, any measuring device necessary to ascertain the natural flow into and out of said reservoir.

Metering of diversions or measurement by other approved methods shall be required as a condition for all new surface water right permits, and except as provided in subsection (2) of this section, may be required as a condition for all previously existing surface water rights. The department may also require, as a condition for all water rights, metering of diversions, and reports regarding such metered diversions as to the amount of water being diverted. Such reports shall be in a form prescribed by the department.

(2) Where water diversions are from waters in which the salmonid stock status is depressed or critical, as determined by the departments of fisheries and wildlife, or where the volume of water being diverted exceeds one cubic foot per second, the department shall require metering or measurement by other approved methods as a condition for all new and previously existing water rights or claims. The department shall attempt to integrate the requirements of this subsection into its existing compliance workload priorities, but shall prioritize the requirements of this subsection ahead of the existing compliance workload where a delay may cause the decline of wild salmonids. The department shall notify the departments of fisheries and wildlife of the status of fish screens associated with these diversions.

This subsection (2) shall not apply to diversions for public or private hatcheries or fish rearing facilities if the diverted water is returned directly to the waters from which it was diverted. 90.03.470 Schedule of fees. Except as otherwise provided in subsection (15) of this section, the following fees shall be collected by the department in advance:

(1) For the examination of an application for permit to appropriate water or on application to change point of diversion, withdrawal, purpose or place of use, a minimum of ten dollars, to be paid with the application. For each second foot between one and five hundred second feet, two dollars per second foot; for each second foot between five hundred and two thousand second feet, fifty cents per second foot; and for each second foot in excess thereof, twenty cents per second foot. For each acre foot of storage up to and including one hundred thousand acre feet, one cent per

acre foot, and for each acre foot in excess thereof, one-fifth cent per acre foot. The ten dollar fee payable with the application shall be a credit to that amount whenever the fee for direct diversion or storage totals more than ten dollars under the above schedule and in such case the further fee due shall be the total computed amount less ten dollars.

Within five days from receipt of an application the department shall notify the applicant by registered mail of any additional fees due under the above schedule and any additional fees shall be paid to and received by the department within thirty days from the date of filing the application, or the application shall be rejected.

(2) For filing and recording a permit to appropriate water for irrigation purposes, forty cents per acre for each acre to be irrigated up to and including one hundred acres, and twenty cents per acre for each acre in excess of one hundred acres up to and including one thousand acres, and ten cents for each acre in excess of one thousand acres; and also twenty cents for each theoretical horsepower up to and including one thousand horsepower, and four cents for each theoretical horsepower in excess of one thousand horsepower, but in no instance shall the minimum fee for filing and recording a permit to appropriate water be less than five dollars. For all other beneficial purposes the fee shall be twice the amount of the examination fee except that for individual household and domestic use, which may include water for irrigation of a family garden, the fee shall be five dollars.

(3) For filing and recording any other water right instrument, four dollars for the first hundred words and forty cents for each additional hundred words or fraction thereof.

(4) For making a copy of any document recorded or filed in his office, forty cents for each hundred words or fraction thereof, but when the amount exceeds twenty dollars, only the actual cost in excess of that amount shall be charged.

(5) For certifying to copies, documents, records or maps, two dollars for each certification.

(6) For blueprint copies of a map or drawing, or, for such other work of a similar nature as may be required of the department, at actual cost of the work.

(7) For granting each extension of time for beginning construction work under a permit to appropriate water, an amount equal to one-half of the filing and recording fee, except that the minimum fee shall be not less than five dollars for each year that an extension is granted, and for granting an extension of time for completion of construction work or for completing application of water to a beneficial use, five dollars for each year that an extension is granted.

(8) For the inspection of any hydraulic works to insure safety to life and property, the actual cost of the inspection, including the expense incident thereto.

(9) For the examination of plans and specifications as to safety of controlling works for storage of ten acre feet or more of water, a minimum fee of ten dollars, or the actual cost.

(10) For recording an assignment either of a permit to appropriate water or of an application for such a permit, a fee of five dollars.

(11) For preparing and issuing all water right certificates, five dollars.

(12) For filing and recording a protest against granting any application, two dollars.

(13) The department shall provide timely notification by certified mail with return receipt requested to applicants that fees are due. No action may be taken until the fee is paid in full. Failure to remit fees within sixty days of the department's notification shall be grounds for rejecting the application or canceling the permit. Cash shall not be accepted. Fees must be paid by check or money order and are nonrefundable.

(14) For purposes of calculating fees for ground water filings, one cubic foot per second shall be regarded as equivalent to four hundred fifty gallons per minute.

(15) For the period beginning July 1, 1993, and ending June 30, 1994, there is imposed and the department shall collect a one hundred dollar surcharge on all water rights applications or changes filed under this section, and upon all water rights applications or changes pending as of July 1, 1993. This charge shall be in addition to any other fees imposed under this section. [1993 c 495 § 2; 1987 c 109 § 98; 1965 ex.s. c 160 § 1; 1951 c 57 § 5; 1929 c 122 § 8; 1925 ex.s. c 161 § 2; 1917 c 117 § 44; RRS § 7399. Formerly RCW 90.04.040.]

Findings—1993 c 495: "The legislature finds that a water right confers significant economic benefits to the water right holder. The fees associated with acquiring a water right have not changed significantly since 1917. Water rights applicants pay less than two percent of the costs of the administration of the water rights program. The legislature finds that, since water rights are of significant value, water rights applicants should contribute more to the cost of administration of the water rights program.

The legislature also finds that an abrupt increase in water rights fees could be disruptive to water rights holders and applicants. The legislature further finds that water rights applicants have a right to know that the water rights program is being administered efficiently and that the fees charged for various services relate directly to the cost of providing those services.

Therefore, the legislature creates a task force to review the water rights program, to make recommendations for streamlining the application process and increasing the overall efficiency and accountability of the administration of the program, and to return to the legislature with a proposal for a fee schedule where the fee levels relate clearly to the cost of services provided." [1993 c 495 § 1.]

Reviser's note: 1993 c 495 § 3 created a water rights task force that expires June 30, 1994.

90.22.060 Instream flow evaluations—State-wide list of priorities—Salmon impact. By December 31, 1993, the department of ecology shall, in cooperation with the Indian tribes, and the departments of fisheries and wildlife, establish a state-wide list of priorities for evaluation of instream flows. In establishing these priorities, the department shall consider the achievement of wild salmonid production as its primary goal.

The priority list shall be presented to the appropriate legislative committees and to the water resources forum by December 31, 1993. [1993 1st sp.s. c 4 § 13.]

WATER RESOURCE MANAGEMENT

90.42.010 Findings—Written evaluation and recommendations.
 90.42.030 Contracts to finance water conservation projects—Public benefits—Trust water rights.
 90.42.040 Trust water rights program—Water right certificate—Notice of creation or modification.
 90.42.080 Trust water rights—Acquisition, exercise, and transfer—Appropriation required for expenditure of funds.

90.42.010 Findings—Written evaluation and recommendations. (1) The legislature finds that a need exists to develop and test a means to facilitate the voluntary transfer of water and water rights, including conserved water, to provide water for presently unmet needs and emerging needs. Further, the legislature finds that water conservation activities have the potential of affecting the quantity of return flow waters to which existing water right holders have a right to and rely upon. It is the intent of the legislature that persons holding rights to water, including return flows, not be adversely affected in the implementation of the provisions of this chapter.

(2) The department shall provide to the appropriate legislative committees by December 31, 1993, a written evaluation of the implementation of RCW 90.42.010 through 90.42.090 and recommendations for future application. Recommendations shall include methods of applying RCW 90.42.010 through 90.42.090 to the rivers that are designated as high priority by the department of ecology under RCW 90.22.060 in order to use net water savings to enhance stream flows. [1993 1st sp.s. c 4 § 14; 1993 c 98 § 1; 1991 c 347 § 5.]

Reviser's note: This section was amended by 1993 c 98 § 1 and by 1993 1st sp.s. c 4 § 14, each without reference to the other. Both amendments are incorporated in the publication of this section pursuant to RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—Grazing lands—1993 1st sp.s. c 4: See note following RCW 75.28.760.

Purposes—1991 c 347: See note following RCW 90.42.005.

90.42.030 Contracts to finance water conservation projects—Public benefits—Trust water rights. (1) For purposes of this chapter, the state may enter into contracts to provide moneys to assist in the financing of water conservation projects. In consideration for the financial assistance provided, the state shall obtain public benefits defined in guidelines developed under RCW 90.42.050.

(2) If the public benefits to be obtained require conveyance or modification of a water right, the recipient of funds shall convey to the state the recipient's interest in that part of the water right or claim constituting all or a portion of the resulting net water savings for deposit in the trust water rights program. The amount to be conveyed shall be finitely determined by the parties, in accordance with the guidelines developed under RCW 90.42.050, before the expenditure of state funds. Conveyance may consist of complete transfer, lease contracts, or other legally binding agreements. When negotiating for the acquisition of conserved water or net

water savings, or a portion thereof, the state may require evidence of a valid water right.

(3) As part of the contract, the water right holder and the state shall specify the process to determine the amount of water the water right holder would continue to be entitled to once the water conservation project is in place.

(4) The state shall cooperate fully with the United States in the implementation of this chapter. Trust water rights may be acquired through expenditure of funds provided by the United States and shall be treated in the same manner as trust water rights resulting from the expenditure of state funds.

(5) If water is proposed to be acquired by or conveyed to the state as a trust water right by an irrigation district, evidence of the district's authority to represent the water right holders shall be submitted to and for the satisfaction of the department.

(6) The state shall not contract with any person to acquire a water right served by an irrigation district without the approval of the board of directors of the irrigation district. Disapproval by a board shall be factually based on probable adverse effects on the ability of the district to deliver water to other members or on maintenance of the financial integrity of the district. [1993 c 98 § 2; 1991 c 347 § 7.]

Purposes—1991 c 347: See note following RCW 90.42.005.

90.42.040 Trust water rights program—Water right certificate—Notice of creation or modification. (1) All trust water rights acquired by the state shall be placed in the state trust water rights program to be managed by the department. Trust water rights acquired by the state shall be held or authorized for use by the department for instream flows, irrigation, municipal, or other beneficial uses consistent with applicable regional plans for pilot planning areas, or to resolve critical water supply problems.

(2) The department shall issue a water right certificate in the name of the state of Washington for each permanent trust water right conveyed to the state indicating the reach or reaches of the stream, the quantity, and the use or uses to which it may be applied. A superseding certificate shall be issued that specifies the amount of water the water right holder would continue to be entitled to as a result of the water conservation project. The superseding certificate shall retain the same priority date as the original right. For nonpermanent conveyances, the department shall issue certificates or such other instruments as are necessary to reflect the changes in purpose or place of use or point of diversion or withdrawal. Water rights for which such nonpermanent conveyances are arranged shall not be subject to relinquishment for nonuse.

(3) A trust water right retains the same priority date as the water right from which it originated, but as between them the trust right shall be deemed to be inferior in priority unless otherwise specified by an agreement between the state and the party holding the original right.

(4) Exercise of a trust water right may be authorized only if the department first determines that neither water rights existing at the time the trust water right is established, nor the public interest will be impaired. If impairment becomes apparent during the time a trust water right is being

exercised, the department shall cease or modify the use of the trust water right to eliminate the impairment.

(5) Before any trust water right is created or modified, the department shall, at a minimum, require that a notice be published in a newspaper of general circulation published in the county or counties in which the storage, diversion, and use are to be made, and in other newspapers as the department determines is necessary, once a week for two consecutive weeks. At the same time the department shall send a notice containing pertinent information to all appropriate state agencies, potentially affected local governments and federally recognized tribal governments, and other interested parties.

(6) RCW 90.14.140 through 90.14.230 have no applicability to trust water rights held by the department under this chapter or exercised under this section.

(7) RCW 90.03.380 has no applicability to trust water rights acquired by the state through the funding of water conservation projects. [1993 c 98 § 3; 1991 c 347 § 8.]

Purposes—1991 c 347: See note following RCW 90.42.005.

90.42.080 Trust water rights—Acquisition, exercise, and transfer—Appropriation required for expenditure of funds. (1) The state may acquire all or portions of existing water rights, by purchase, gift, or other appropriate means other than by condemnation, from any person or entity or combination of persons or entities. Once acquired, such rights are trust water rights.

(2) The department may enter into leases, contracts, or such other arrangements with other persons or entities as appropriate, to ensure that trust water rights acquired in accordance with this chapter may be exercised to the fullest possible extent.

(3) Trust water rights may be acquired by the state on a temporary or permanent basis.

(4) The provisions of RCW 90.03.380 and 90.03.390 apply to transfers of water rights under this section.

(5) No funds may be expended for the purchase of water rights by the state pursuant to this section unless specifically appropriated for this purpose by the legislature. [1993 c 98 § 4; 1991 c 347 § 12.]

Purposes—1991 c 347: See note following RCW 90.42.005.

90.44.445 Acreage expansion program—Authorization—Certification. In any acreage expansion program adopted by the department as an element of a ground water management program, the authorization for a water right certificate holder to participate in the program shall be on an annual basis for the first two years. After the two-year period, the department may authorize participation for ten-year periods. The department may authorize participation for ten-year periods for certificate holders who have already participated in an acreage expansion program for two years. The department may require annual certification that

the certificate holder has complied with all requirements of the program. The department may terminate the authority of a certificate holder to participate in the program for one calendar year if the certificate holder fails to comply with the requirements of the program. [1993 c 99 § 1.]

90.48.220 Marine finfish rearing facilities—Waste discharge standards—Discharge permit applications—Exemption. (1) For the purposes of this section "marine finfish rearing facilities" means those private and public facilities located within the salt water of the state where finfish are fed, nurtured, held, maintained, or reared to reach the size of release or for market sale.

(2) Not later than October 31, 1994, the department shall adopt criteria under chapter 34.05 RCW for allowable sediment impacts from organic enrichment due to marine finfish rearing facilities.

(3) Not later than June 30, 1995, the department shall adopt standards under chapter 34.05 RCW for waste discharges from marine finfish rearing facilities. In establishing these standards, the department shall review and incorporate, to the extent possible, studies conducted by state and federal agencies on waste discharges from marine finfish rearing facilities, and any reports and other materials prepared by technical committees on waste discharges from marine finfish rearing facilities. The department shall approve or deny discharge permit applications for marine finfish rearing facilities within one hundred eighty days from the date of application, unless a longer time is required to satisfy public participation requirements in the permit process in accordance with applicable rules, or compliance with the requirements of the state environmental policy act under chapter 43.21C RCW. The department shall notify applicants as soon as it determines that a proposed discharge meets or fails to comply with the standards adopted pursuant to this section, or if a time period longer than one hundred eighty days is necessary to satisfy public participation requirements of the state environmental policy act.

(4) The department may adopt rules to exempt marine finfish rearing facilities not requiring national pollutant discharge elimination system permits under the federal water pollution control act from the discharge permit requirement. [1993 c 296 § 1.]

90.56.510 Oil spill administration account. (1) The oil spill administration account is created in the state treasury. All receipts from RCW 82.23B.020(2) shall be deposited in the account. Moneys from the account may be spent only after appropriation. The account is subject to allotment procedures under chapter 43.88 RCW. On July 1 of each odd-numbered year, if receipts deposited in the account from the tax imposed by RCW 82.23B.020(2) for the previous fiscal biennium exceed the amount appropriated from the account for the previous fiscal biennium, the state treasurer shall transfer the amount of receipts exceeding the appropriation to the oil spill response account. If, on the first day of any calendar month, the balance of the oil spill response account is greater than twenty-five million dollars and the balance of the oil spill administration account exceeds the unexpended appropriation for the current biennium, then the tax under RCW 82.23B.020(2) shall be suspended on the first day of the next calendar month until the beginning of the following biennium, provided that the tax shall not be suspended during the last six months of the biennium. If the tax imposed under RCW 82.23B.020(2) is suspended during two consecutive biennia, the department shall by November 1st after the end of the second biennium, recommend to the appropriate standing committees an adjustment in the tax rate. For the period 1991-93 the state treasurer may transfer funds from the oil spill response account to the oil spill administration account in amounts necessary to support appropriations made from the oil spill administration account in the omnibus appropriations act.

(2) Expenditures from the oil spill administration account shall be used exclusively for the administrative costs related to the purposes of this chapter, and chapters 90.48, 88.40, and 88.46 RCW. Starting with the 1995-1997 biennium, the legislature shall give activities of state agencies related to prevention of oil spills priority in funding from the oil spill administration account. Costs of administration include the costs of:

- (a) Routine responses not covered under RCW 90.56.500;
- (b) Management and staff development activities;
- (c) Development of rules and policies and the state-wide plan provided for in RCW 90.56.060;

operation of a tank vessel if, while (a) navigating a tank vessel, (b) piloting a tank vessel, or (c) on the vessel control bridge and in control of the motion, direction, or speed of a tank vessel, the person, with recklessness as defined in RCW 9A.08.010, causes a release of oil.

(2) Reckless operation of a tank vessel is a class C felony under chapter 9A.20 RCW. [1991 c 200 § 604. Formerly RCW 88.16.210.]

Effective dates—Severability—1991 c 200: See RCW 90.56.901 and 90.56.904.

90.56.540 Operation of a vessel while under influence of liquor or drugs—Penalty. (1) A person is guilty of operating a vessel while under the influence of intoxicating liquor or drugs if the person operates a covered vessel within this state while:

- (a) The person has 0.06 grams or more of alcohol per two hundred ten liters of breath, as shown by analysis of the person's breath made under *RCW 88.16.230; or
- (b) The person has 0.06 percent or more by weight of alcohol in the person's blood as shown by analysis of the person's blood made under *RCW 88.16.230; or
- (c) The person is under the influence of or affected by intoxicating liquor or drugs; or
- (d) The person is under the combined influence of or affected by intoxicating liquor or drugs.

(2) The fact that any person charged with a violation of this section is or has been entitled to use such drug under the laws of this state shall not constitute a defense against any charge of violating this section.

(3) Operating a vessel while intoxicated is a class C felony under chapter 9A.20 RCW. [1991 c 200 § 605. Formerly RCW 88.16.220.]

90.56.550 Breath or blood analysis. (1) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by a person while operating a vessel while under the influence of intoxicating liquor or drugs, if the amount of alcohol in the person's blood or breath at the time alleged as shown by analysis of his blood or breath is less than 0.06 percent by weight of alcohol in his blood or 0.06 grams of alcohol per two hundred ten liters of the person's breath, it is evidence that may be considered with other competent evidence in determining whether the person was under the influence of intoxicating liquor or drugs.

(2) The breath analysis shall be based upon grams of alcohol per two hundred ten liters of breath. The foregoing provisions of this section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question whether the person was under the influence of intoxicating liquor or any drug.

(3) Analysis of the person's blood or breath to be considered valid under this section shall have been performed according to methods approved by the state toxicologist and by an individual possessing a valid permit issued by the state toxicologist for this purpose. The state toxicologist

shall approve satisfactory techniques or methods, to supervise the examination of individuals to ascertain their qualifications and competence to conduct such analyses, and to issue permits that are subject to termination or revocation at the discretion of the state toxicologist.

(4) If a blood test is administered under this section, the withdrawal of blood for the purpose of determining its alcoholic content may be performed only by a physician, a registered nurse, or a qualified technician. This limitation shall not apply to the taking of breath specimens.

(5) The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

(6) Upon the request of the person who submits to a test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to the person or his or her attorney. [1991 c 200 § 606. Formerly RCW 88.16.230.]

90.64.120 Department's authority under federal law or chapter 90.48 RCW not affected.

90.64.005 Findings. The legislature finds that there is a need to establish a clear and understandable process that provides for the proper and effective management of dairy waste that affects the quality of surface or ground waters in the state of Washington. The legislature finds that there is a need for a program that will provide a stable and predictable business climate upon which dairy farms may base future investment decisions.

The legislature finds that federal regulations require a permit program for dairies [with] over seven hundred head of mature cows and, other specified dairy farms that directly discharge into waters or are otherwise significant contributors of pollution. The legislature finds that significant work has been ongoing over a period of time and that the intent of this chapter is to take the consensus that has been developed and place it into statutory form.

It is also the intent of this chapter to recognize the existing working relationships between conservation districts, the conservation commission, and the department of ecology in protecting water quality of the state. A further purpose of this chapter is to provide statutory recognition of the coordination of the functions of conservation districts, the conservation commission, and the department of ecology pertaining to development of dairy waste management plans for the protection of water quality. [1993 c 221 § 1.]

90.64.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Conservation commission" or "commission" means the conservation commission under chapter 89.08 RCW.

(2) "Conservation districts" or "district" means a subdivision of state government organized under chapter 89.08 RCW.

(3) "Concentrated dairy animal feeding operation" means a dairy animal feeding operation subject to regulation under this chapter which the director designates under RCW 90.64.030 or meets the following criteria:

(a) Has more than seven hundred mature dairy cows, whether milked or dry cows, that are confined; or

(b) Has more than two hundred head of mature dairy cattle, whether milked or dry cows, that are confined and either:

(i) From which pollutants are discharged into navigable waters through a manmade ditch, flushing system, or other similar manmade device; or

(ii) From which pollutants are discharged directly into surface or ground waters of the state that originate outside of and pass over, across, or through the facility or otherwise come into direct contact with the animals confined in the operation.

(4) "Dairy animal feeding operation" means a lot or facility where the following conditions are met:

(a) Dairy animals that have been, are, or will be stabled or confined and fed for a total of forty-five days or more in any twelve-month period; and

(b) Crops, vegetation forage growth, or postharvest residues are not sustained in the normal growing season over

any portion of the lot or facility. Two or more dairy animal feeding operations under common ownership are considered, for the purposes of this chapter, to be a single dairy animal feeding operation if they adjoin each other or if they use a common area for land application of wastes.

(5) "Department" means the department of ecology under chapter 43.21A RCW.

(6) "Director" means the director of the department of ecology, or his or her designee. [1993 c 221 § 2.]

90.64.020 Concentrated dairy animal feeding operation—Designation—Permit. (1) The director of the department of ecology may designate any dairy animal feeding operation as a concentrated dairy animal feeding operation upon determining that it is a significant contributor of pollution to the surface or ground waters of the state. In making this designation the director shall consider the following factors:

(a) The size of the animal feeding operation and the amount of wastes reaching waters of the state;

(b) The location of the animal feeding operation relative to waters of the state;

(c) The means of conveyance of animal wastes and process waters into the waters of the state;

(d) The slope, vegetation, rainfall, and other factors affecting the likelihood or frequency of discharge of animal wastes and process waste waters into the waters of the state; and

(e) Other relevant factors as established by the department by rule.

(2) A notice of intent to apply for a permit shall not be required from a concentrated dairy animal feeding operation designated under this section until the director has conducted an on-site inspection of the operation and determined that the operation should and could be regulated under the permit program. [1993 c 221 § 3.]

90.64.030 Determination of water quality degradation—Complaint—Investigation—Designation as concentrated dairy animal feeding operation. Upon receiving a complaint or upon its own determination that a dairy animal feeding operation is a likely source of water quality degradation, the department may investigate a dairy animal feeding operation to determine whether the operation is discharging directly pollutants or recently has discharged directly pollutants into surface or ground waters of the state. The department shall investigate a written complaint filed with the department within ten days and shall make a written report of its findings including the results of any water quality measurements, photographs, or other pertinent information. A copy of the findings shall be provided upon request to the dairy animal feeding operation.

Those dairy animal feeding operations that are determined to be a significant contributor of pollution based on actual water quality tests, photographs, or other pertinent information if immediate corrective actions are not possible, shall be designated as a concentrated dairy animal feeding operation and shall be subject to the provisions of this chapter. [1993 c 221 § 4.]

90.64.040 Appeal from actions and orders of the department. Enforcement actions and administrative orders issued by the department of ecology may be appealed to the pollution control hearings board in accordance with the provisions of chapter 43.21B RCW. [1993 c 221 § 5.]

90.64.050 Duties of department—Annual report to commission. (1) The department has the following duties:

(a) Identify existing or potential water quality problems resulting from dairy farms;

(b) Receive, process, and verify complaints concerning discharge of pollutants from all dairy farms regardless of size;

(c) Determine if a dairy-related water quality problem requires immediate corrective action under the Washington state water pollution control laws, chapter 90.48 RCW, the Washington state water quality standards adopted under chapter 90.48 RCW, or other authorities. The department shall maintain the lead enforcement responsibility;

(d) Administer and enforce national pollutants discharge elimination system permits for operators of concentrated dairy animal feeding operations, where required by federal regulations, and administer state laws;

(e) Appoint representatives, including dairy industry representatives, to participate in the compliance review committee that will annually review and update policy and disseminate information as needed;

(f) Encourage communication between local department personnel and the appropriate conservation district personnel;

(g) Encourage the use of federal soil conservation service standards and specifications in designing best management practices for dairy waste management plans to protect water quality;

(h) Provide to the commission an annual report of dairy waste pollution enforcement activities.

(2) The department may not delegate its responsibilities in enforcement. [1993 c 221 § 6.]

90.64.060 Resolution of complaints. (1) If the department determines that the operator of a dairy animal feeding operation has the means to correct a water quality problem in a manner that will prevent future contamination and does so promptly and such correction is maintained, the department shall cease pursuit of the complaint.

(2) If the department determines that an unresolved water quality problem from a dairy animal feeding operation requires immediate corrective action, the department shall notify the operator and the district in which the problem is located.

(3) If immediate action is not necessary by the department, the handling of complaints will differ depending on the amount of information available and the compliance option selected by the conservation district involved.

(a) When the name and address of the party against whom the complaint was registered are known:

(i) Districts operating at levels 1 and 2 will receive a copy of complaint information, and compliance letter if one was sent out.

(ii) Districts operating at levels 3 and 4 will receive a copy of complaint information and the letter sent by the department to the operator informing the operator of the

complaint and providing the operator with the opportunity to work with the conservation district on a voluntary basis.

(b) The department and the conservation district will work together at the local level to resolve complaints when the name and address of the party against whom the complaint was registered are unknown. [1993 c 221 § 7.]

90.64.070 Duties of conservation district. (1) The conservation district has the following duties:

(a) Adopt and annually update the water quality section in the conservation district dairy waste management plan;

(b) As part of the district annual report, include a water quality progress report on dairy waste management activities conducted that are related to this chapter;

(c) Encourage communication between the conservation district personnel and local department personnel;

(d) Adopt and carry out a compliance option from level 1, level 2, level 3, or level 4.

(2) The district's capability to carry out its responsibilities in the four levels of compliance is contingent upon the availability of funding and resources to implement a dairy waste management program. [1993 c 221 § 8.]

90.64.080 Duties of conservation commission. (1) The conservation commission has the following duties:

(a) Forward to the department the dairy waste management plan progress reports;

(b) Provide assistance as may be appropriate to the conservation districts in the discharge of their responsibilities as management agencies in dairy waste management program implementation;

(c) Provide coordination for conservation district programs at the state level through special arrangements with appropriate federal and state agencies;

(d) Inform conservation districts of activities and experiences of other conservation districts relative to agricultural water quality protection, and facilitate an interchange of advice, experience, and cooperation between the districts;

(e) Encourage communication between the conservation district personnel and local department personnel;

(f) Appoint conservation district representatives to serve on the compliance review committee with advice of the Washington association of conservation districts;

(g) Appoint a commission representative to participate on the compliance review committee that will annually review and update policy and disseminate information as needed;

(h) Work with the department to provide communication outreach to representatives of agricultural and environmental organizations to receive feedback on implementation of this chapter.

(2) The commission's capability to carry out its responsibilities under this chapter is contingent upon the availability of funding and resources to implement a dairy waste management program. [1993 c 221 § 9.]

90.64.090 Compliance levels—Duties of conservation district—Duties of department. Conservation districts shall adopt one of the following compliance levels:

(1) Level 1 - Information/education/technical assistance.

The conservation district will serve as a local source of information on dairy waste management plan implementation programs. The conservation district will promote plans and efforts to improve water quality and explain the benefits of participating in available implementation plans through news releases and other media for the general public; programs for schools; presentations to groups and civic organizations; workshops; training sessions; or other appropriate means. The conservation district will provide technical assistance upon request.

The department will respond to complaints that involve water quality problems caused by dairy animal feeding operations. The department will work with the operator to bring the operation into compliance with federal statutes, federal regulations, and applicable state laws. If immediate action is deemed necessary, the department will pursue the appropriate actions that may include enforcement against the responsible parties. The department will advise the operator of the information and technical assistance available through the conservation district. The department will notify the conservation district of the operator's need for information or technical assistance.

(2) Level 2 - Information/education, problem assessment, and handling complaints.

The conservation district will carry out programs described in level 1. In addition, the conservation district will inventory dairy waste related water quality problems defined in the water quality section of its annual plan. The conservation district will prioritize problems and work to apply voluntary solutions to the highest priority problems within available resources utilizing information/education, technical assistance, and incentives. Response to complaint -

The conservation district will make an appointment for an on-site contact with the alleged violator within ten working days and determine if the operator desires to work with the conservation district. If the operator wishes conservation district assistance, within six months the conservation district will develop a plan with the individual operator which includes a schedule for application of best management practices. The operator will have eighteen months, or by agreement, an approved schedule with an alternative time period to implement the plan. If hardships occur, the operator may request an extension of the implementation schedule subject to concurrence of the department.

The conservation district in responding to complaints will report progress, or the need for further department technical expertise, to the individual involved and the department. A copy of the plan will be made available to the department. If the district offers assistance and the individual involved refuses to cooperate or ceases to work with the conservation district, the district will notify the department.

The conservation district will refer all alleged water quality violations, or individuals who wish to make a complaint to the department.

The department will investigate and seek resolution of all complaints that appear to need immediate action and refer all other complaints concerning dairy animal feeding operations to the appropriate conservation district. The department will keep a record of those complaints. When a referral is made by a conservation district, due to a continuing unresolved water quality problem, the department will

take appropriate action and advise the conservation district of the action taken.

(3) Level 3 - Information/education, problem assessment, handling complaints, and assisting in compliance.

The conservation district will carry out programs described in levels 1 and 2. In addition, the conservation district will actively follow up those problems and complaints deemed highest priority by the conservation district within sixty days after the initial contact. The complaint referral follow-up will include:

(a) Meet with the owner/operator;

(b) Make an on-site assessment of the nature and extent of the problem, if so desired by the owner/operator;

(c) Notify within twenty-five working days the department that the owner/operator has or has not requested assistance from the conservation district;

(d) Assist the owner/operator in the development of a dairy waste management plan within six months. Implementation is to be completed within eighteen months, or by agreement and approved schedule, with an alternative time period to implement the plan. If hardships occur, the operator may request an extension of the planning or implementation schedule with concurrence of the department;

(e) Provide such technical assistance as is necessary and available during plan implementation;

(f) Monitor plan implementation;

(g) Notify the department within twenty-five working days in the event that the owner/operator either refuses to cooperate in the development of a dairy waste management plan that will correct the problems identified during the on-site assessment, or fails to implement the plan within the designated time period;

(h) By June 30 of each year, submit a formal summary of progress on alleged water quality violations referred to the conservation district by the department.

The department will investigate and seek resolution of all complaints that appear to need immediate action.

The department will pursue all activities addressed under level 2. Except that on those sites where the conservation district is making progress on water quality problems caused from dairy animal feeding operations and is reporting the same to the department, the department will hold any related enforcement actions in abeyance until the problem is solved, or the operator refuses to cooperate further. The department shall continue to pursue any immediate action where required.

(4) Level 4 - Compliance.

The conservation district will carry out programs described in levels 1 through 3. In addition, the conservation district will provide information and direct support for resolving water quality actions which may be filed by the department pursuant to its statutory authority.

Information and support include the following:

(a) A field site tour to provide information and attempt to resolve the issues;

(b) Provision for access to public information in a conservation district's files, and if appropriate, in-house documents such as field notes, photographs, and in-house memoranda. Access is subject to applicable laws and regulations;

(c) Department interviews with appropriate conservation district personnel regarding a site under enforcement;

(d) Assistance and attendance, if appropriate, at negotiation sessions with responsible parties;

(e) Affidavits or testimony necessary to document the case.

The department will pursue all activities as addressed in level 3, except where the conservation district has been involved, the department will utilize the information and support offered by the conservation district to resolve the matter. [1993 c 221 § 10.]

90.64.100 Parties' liability. A party acting under this chapter is not liable for another party's actions under this chapter. [1993 c 221 § 11.]

90.64.110 Rules. The department may adopt rules as necessary to implement this chapter. [1993 c 221 § 12.]

90.64.120 Department's authority under federal law or chapter 90.48 RCW not affected. Nothing in this chapter shall affect the department's authority or responsibility to administer or enforce the national pollutant discharge elimination system permits for operators of concentrated dairy animal feeding operations, where required by federal regulations or to administer the provisions of chapter 90.48 RCW.
