STATUTE LAW COMMITTEE

PREFACE

Numbering system: The number of each section of this code is made up of three parts, in sequence as follows: Number of title; number of chapter within the title; number of section within the chapter. Thus RCW 1.04.020 is Title 1, chapter 4, section 20. The section part of the number (.020) is initially made up of three digits, constitutes a true decimal, and provides a facility for numbering new sections to be inserted between old sections already consecutively numbered, merely by adding one or more digits at the end of the number. In most chapters of the code, sections have been numbered by tens (.010, .020, .030, .040, etc.), leaving nine vacant numbers between original sections so that for a time new sections may be inserted without extension of the section number beyond three digits.

Citation to the Revised Code of Washington: The code should be cited as RCW; see RCW 1.04.040. An RCW title should be cited Title 7 RCW. An RCW chapter should be cited chapter 7.24 RCW. An RCW section should be cited RCW 7.24.010. Through references should be made as RCW 7.24.010 through 7.24.100. Series of sections should be cited as RCW 7.24.010, 7.24.020, and 7.24.030.

History of the Revised Code of Washington; Source notes: The Revised Code of Washington was adopted by the legislature in 1950; see chapter 1.04 RCW. The original publication (1951) contained material variances from the language and organization of the session laws from which it was derived, including a variety of divisions and combinations of the session law sections. During 1953 through 1959, the Statute Law Committee, in exercise of the powers contained in chapter 1.08 RCW, completed a comprehensive study of these variances and, by means of a series of administrative orders or reenactment bills, restored each title of the code to reflect its session law source, but retaining the general codification scheme originally adopted. An audit trail of this activity has been preserved in the concluding segments of the source note of each section of the code so affected. The legislative source of each section is enclosed in brackets [] at the end of the section. Reference to session laws is abbreviated; thus "1891 c 23 § 1; 1854 p 99 § 135" refers to section 1, chapter 23, Laws of 1891 and section 135, page 99, Laws of 1854. "Prior" indicates a break in the statutory chain, usually a repeal and reenactment. "RRS or Rem. Supp.—" indicates the parallel citation in Remington's Revised Code, last published in 1949.

Where, before restoration, a section of this code constituted a consolidation of two or more sections of the session laws, or of sections separately numbered in Remington's, the line of derivation is shown for each component section, with each line of derivation being set off from the others by use of small Roman numerals, "(i)," "(ii)," etc.

Where, before restoration, only a part of a session law section was reflected in a particular RCW section the history note reference is followed by the word "part."

"Formerly" and its correlative form "FORMER PART OF SECTION" followed by an RCW citation preserves the record of original codification.

Double amendments: Some double or other multiple amendments to a section made without reference to each other are set out in the code in smaller (8-point) type. See RCW 1.12.025.

Index: Titles 1 through 91 are indexed in the RCW General Index. Separate indexes are provided for the Rules of Court and the State Constitution.

Sections repealed or decodified; Disposition table: Memorials to RCW sections repealed or decodified are tabulated in numerical order in the table entitled "Disposition of former RCW sections."

Codification tables: To convert a session law citation to its RCW number (for Laws of 1951 or later) consult the codification tables. A similar table is included to relate the disposition in RCW of sections of Remington's Revised Statutes.

Errors or omissions: (1) Where an obvious clerical error has been made in the law during the legislative process, the code reviser adds a corrected word, phrase, or punctuation mark in [brackets] for clarity. These additions do not constitute any part of the law.

(2) Although considerable care has been taken in the production of this code, within the limits of available time and facilities it is inevitable that in so large a work that there will be errors, both mechanical and of judgment. When those who use this code detect errors in particular sections, a note citing the section involved and the nature of the error may be sent to: Code Reviser, Box 40551, Legislative Building, Olympia, WA 98504, so that correction may be made in a subsequent publication.

(v) Describe the causes and procedures for termination of the contract, which may include mediation and binding arbitration.

(d) The department shall develop procedures that will standardize and prescribe allowable costs that may be assigned to vehicle licensing and vessel registration and title activities performed by county auditors.

(e) The contracts may include any provision that the director deems necessary to ensure acceptable service and the full collection of vehicle and vessel tax revenues.

(f) The director may waive any provisions of the contract deemed necessary in order to ensure that readily accessible service is provided to the citizens of the state.

(4)(a) At any time any application is made to the director, the county auditor, or other agent pursuant to any law dealing with licenses, registration, or the right to operate any vehicle or vessel upon the public highways or waters of this state, excluding applicants already paying such fee under RCW 46.16.070 or 46.16.085, the applicant shall pay to the director, county auditor, or other agent a fee of three dollars for each application in addition to any other fees required by law.

(b) Counties that do not cover the expenses of vehicle licensing and vessel registration and title activities may submit to the department a request for cost-coverage monies. The request must be submitted on a form developed by the department. The department shall develop procedures to verify whether a request is reasonable. Payment shall be made on requests found to be allowable from the licensing services account.

(c) Applicants for certificates of ownership, including applicants paying fees under RCW 46.16.070 or 46.16.085, shall pay to the director, county auditor, or other agent a fee of four dollars in addition to any other fees required by law.

(d) The fees under (a) and (c) of this subsection, if paid to the county auditor as agent of the director, or if paid to a subagent of the county auditor, shall be paid to the county treasurer in the same manner as other fees collected by the county auditor and credited to the county current expense fund. If the fee is paid to another agent of the director, the

fee shall be used by the agent to defray his or her expenses in handling the application.

(5) A subagent shall collect a service fee of (a) seven dollars and fifty cents for changes in a certificate of ownership, with or without registration renewal, or verification of record and preparation of an affidavit of lost title other than at the time of the title application or transfer and (b) three dollars for registration renewal only, issuing a transit permit, or any other service under this section.

(6) If the fee is collected by the state patrol as agent for the director, the fee so collected shall be certified to the state treasurer and deposited to the credit of the state patrol highway account. If the fee is collected by the department of transportation as agent for the director, the fee shall be certified to the state treasurer and deposited to the credit of the motor vehicle fund. All such fees collected by the director or branches of his office shall be certified to the state treasurer and deposited to the credit of the highway safety fund.

(7) Any county revenues that exceed the cost of providing vehicle licensing and vessel registration and title activities in a county, calculated in accordance with the procedures in subsection (3)(d) of this section, shall be expended as determined by the county legislative authority during the process established by law for adoption of county budgets.

(8) The director may adopt rules to implement this section. [1996 c 315 § 1; 1992 c 216 § 1; 1991 c 339 § 16; 1990 c 250 § 89; 1988 c 12 § 1; 1987 c 302 § 1; 1985 c 380 § 12. The department and state patrol shall reach agreement with the department of transportation for the purposes of offering department of transportation permits at these one-stop transportation centers. (1) The words "delivery," "notice," "send," and "security interest" have the same meaning as these terms are defined in RCW 62A.1-201; the word "secured party" has the same meaning as this term is defined in RCW 62A.9-105.

(2) "Salvage vehicle" means a vehicle whose certificate of ownership has been surrendered to the department under RCW 46.12.070 due to the vehicle's destruction or declaration as a total loss or for which there is documentation indicating that the vehicle has been declared salvage or has been damaged to the extent that the owner, an insurer, or other person acting on behalf of the owner, has determined that the cost of parts and labor plus the salvage value has made it uneconomical to repair the vehicle. The term does not include a motor vehicle having a model year designation of a calendar year that is at least six years before the calendar year in which the vehicle was wrecked, destroyed, or damaged. [1996 c 26 § 1; 1967 c 140 § 5.]

The inspection must also confirm that the license plates on the vehicle are those assigned to the vehicle by the jurisdiction in which the vehicle was previously licensed. The inspection must be made by a member of the Washington state patrol or other person authorized by the department to make such inspections.

The owner shall pay the fees established by RCW 46.12.040. Issuance of such certificate does not qualify the vehicle for licensing under chapter 46.16 RCW. [1986 c 186 § 4.]

46.12.050 Issuance of certificates—Contents. The department, if satisfied from the statements upon the application that the applicant is the legal owner of the vehicle or otherwise entitled to have a certificate of ownership thereof in the applicant's name, shall issue an appropriate electronic record of ownership or a written certificate of

ownership, over the director's signature, authenticated by seal, and if required, a new written certificate of license registration if certificate of license registration is required.

The certificates of ownership and the certificates of license registration shall contain upon the face thereof, the date of application, the registration number assigned to the registered owner and to the vehicle, the name and address of the registered owner and legal owner, the vehicle identification number, and such other description of the vehicle and facts as the department shall require, and in addition thereto, if the vehicle described in such certificates shall have ever been licensed and operated as an exempt vehicle or a taxicab, or if it has been rebuilt after becoming a salvage vehicle, such fact shall be clearly shown thereon.

All certificates of ownership of motor vehicles issued after April 30, 1990, shall reflect the odometer reading as provided by the odometer disclosure statement submitted with the title application involving a transfer of ownership.

A blank space shall be provided on the face of the certificate of license registration for the signature of the registered owner.

Upon issuance of the certificate of license registration and certificate of ownership and upon any reissue thereof, the department shall deliver the certificate of license registration to the registered owner and the certificate of ownership to the legal owner, or both to the person who is both the registered owner and legal owner. All license fees and taxes applicable to mobile homes under this chapter are due and shall be collected prior to recording the ownership with the county auditor. [1989 c 343 § 19.]

46.12.060 Procedure when identification number altered or obliterated. Before the department shall issue a certificate of ownership, or reissue such a certificate, covering any vehicle, the identification number of which has been altered, removed, obliterated, defaced, omitted, or is otherwise absent, the registered owner of the vehicle shall file an application with the department, accompanied by a fee of five dollars, upon a form provided, and containing such facts and information as shall be required by the department for the assignment of a special number for such vehicle. Upon receipt of such application, the department, if satisfied the applicant is entitled to the assignment of an identification number, shall designate a special identification number for such vehicle, which shall be noted upon the

application therefor, and likewise upon a suitable record of the authorization of the use thereof, to be kept by the department. This assigned identification number shall be placed or stamped in a conspicuous position upon the vehicle in such manner and form as may be prescribed by the department. Upon receipt by the department of a certificate by an officer of the Washington state patrol, or other person authorized by the department, that the vehicle has been inspected and that the identification number or the special number plate, has been stamped or securely attached in a conspicuous position upon the vehicle, accompanied by an application for a certificate of ownership or application for reissue of such certificate and the required fee therefor, the department shall use such number as the numerical or alpha-numerical identification marks for the vehicle in any certificate of license registration or certificate of ownership that may thereafter be issued therefor. [1975 c 25 § 10; 1974 ex.s. c 36 § 1; 1961 c 12 § 46.12.060. Prior: 1959 c 166 § 3; prior: 1951 c 269 § 2; 1947 c 164 § 3(a); 1939 c 182 § 1(a); 1937 c 188 § 5(a); Rem. Supp. 1947 § 6312-5(a).]

46.12.070 Destruction of vehicle—Surrender of certificates, penalty—Notice of settlement by insurance company. Upon the destruction of any vehicle issued a certificate of ownership under this chapter or a license registration under chapter 46.16 RCW, the registered owner and the legal owner shall forthwith and within fifteen days thereafter forward and surrender the certificate to the department, together with a statement of the reason for the surrender and the date and place of destruction. Failure to notify the department or the possession by any person of any such certificate for a vehicle so destroyed, after fifteen days following its destruction, is prima facie evidence of violation of the provisions of this chapter and constitutes a gross misdemeanor.

Any insurance company settling an insurance claim on a vehicle that has been issued a certificate of ownership under this chapter or a certificate of license registration under chapter 46.16 RCW as a total loss, less salvage value, shall notify the department thereof within fifteen days after the settlement of the claim. Notification shall be provided regardless of where or in what jurisdiction the total loss occurred. [1990 c 250 § 28; 1961 c 12 § 46.12.070. Prior: 1959 c 166 § 4; prior: 1947 c 164 § 3(b); 1939 c 182 § 1(b); 1937 c 188 § 5(b); Rem. Supp. 1947 § 6312-5(b).]

Severability—1990 c 250: See note following RCW 46.16.301.

46.12.075 Rebuilt vehicles. (1) Effective January 1, 1997, the department shall issue a unique certificate of ownership and certificate of license registration, as required by chapter 46.16 RCW, for vehicles that are rebuilt after becoming a salvage vehicle. Each certificate shall conspicuously display across its front, a word indicating that the vehicle was rebuilt.

(2) Beginning January 1, 1997, upon inspection of a salvage vehicle that has been rebuilt under RCW 46.12.030, the state patrol shall securely affix or inscribe a marking at the driver's door latch pillar indicating that the vehicle has previously been destroyed or declared a total loss.

(3) It is a class C felony for a person to remove the marking prescribed in subsection (2) of this section.

(4) The department may adopt rules as necessary to implement this section. [1996 c 26 § 3; 1995 c 256 § 24.]

46.12.080 Procedure on installation of different motor—Penalty. Any person holding the certificate of license registration for a motorcycle or any vehicle registered by its motor number in which there has been installed a new or different motor than that with which it was issued certificates of ownership and license registration shall forthwith and within five days after such installation forward and surrender such certificates to the department, together with an application for issue of corrected certificates of ownership and license registration and a fee of one dollar, and a statement of the disposition of the former motor. The possession by any person of any such certificates for such vehicle in which a new or different motor has been installed, after five days following such installation, shall be prima facie evidence of a violation of the provisions of this chapter and shall constitute a misdemeanor. [1979 ex.s. c 113 § 1; 1961 c 12 § 46.12.080. Prior: 1959 c 166 § 5; prior: 1951 c 269 § 3; 1947 c 164 § 3(c); 1939 c 182 § 1(c); 1937 c 188 § 5(c); Rem. Supp. 1947 § 6312-5(c).]

46.12.095 Requirements for perfecting security interest. A security interest in a vehicle other than one held as inventory by a manufacturer or a dealer and for which a certificate of ownership is required is perfected only by compliance with the requirements of this section:

(1) A security interest is perfected only by the department's receipt of: (a) The existing certificate, if any, and (b) an application for a certificate of ownership containing the name and address of the secured party and (c) tender of the required fee.

(2) It is perfected as of the time of its creation: (a) if the papers and fee referred to in the preceding subsection are received by this department within eight department business days exclusive of the day on which the security agreement was created; or (b) if the secured party's name and address appear on the outstanding certificate of ownership; otherwise, as of the date on which the department has received the papers and fee required in subsection (1).

(3) If a vehicle is subject to a security interest when brought into this state, perfection of the security interest is determined by the law of the jurisdiction where the vehicle was when the security interest was attached, subject to the following:

(a) If the security interest was perfected under the law of the jurisdiction where the vehicle was when the security interest was attached, the following rules apply:

(b) If the name of the secured party is shown on the existing certificate of ownership issued by that jurisdiction, the security interest continues perfected in this state. The name of the secured party shall be shown on the certificate of ownership issued for the vehicle by this state. The security interest continues perfected in this state upon the issuance of such ownership certificate.

(c) If the security interest was not perfected under the law of the jurisdiction where the vehicle was when the security interest was attached, it may be perfected in this

state; in that case, perfection dates from the time of perfection in this state. [1969 ex.s. c 170 § 16; 1967 c 140 § 6.]

46.12.101 Transfer of ownership, how perfected—Penalty, exceptions. A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. Within five days, excluding Saturdays, Sundays, and state and federal holidays, the owner shall notify the department in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, and such description of the vehicle, including the vehicle identification number, the license plate number, or both, as may be required in the appropriate form provided for that purpose by the department.

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in *RCW 46.12.120 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes, and cause the certificates and application to be transmitted to the department.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is

delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

- (a) The department requesting additional supporting documents;
- (b) Extended hospitalization or illness of the purchaser;
- (c) Failure of a legal owner to release his or her interest;
- (d) Failure, negligence, or nonperformance of the department, auditor, or subagent.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place. is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, the department may register the vehicle but shall either:

(1) Withhold issuance of a certificate of ownership for a period of three years or until the applicant presents documents reasonably sufficient to satisfy the department as to the applicant's ownership of the vehicle and that there are no undisclosed security interests in it; or

(2) As a condition of issuing a certificate of ownership, require the applicant to file with the department a bond for a period of three years in the form prescribed by the department and executed by the applicant. The bond shall be in an amount equal to one and one-half times the value of the vehicle as determined by the department and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss or damage, including reasonable attorney's fees, by reason of the issuance of the certificate of ownership of the vehicle or on account of any defect in or undisclosed security interest upon the right, title and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. At the end of three years or prior thereto if the vehicle is no longer registered in this state or when satisfactory evidence of ownership is surrendered to the department, the owner may apply to the department for a replacement certificate of ownership without reference to the bond. 46.12.160 Refusal or cancellation of certificate—Notice—Penalty for subsequent operation.

If the department determines at any time that an applicant for certificate of ownership or for a certificate of license registration for a vehicle is not entitled thereto, the department may refuse to issue such certificate or to license the vehicle and may, for like reason, after notice, and in the exercise of discretion, cancel license registration already acquired or any outstanding certificate of ownership. Notice of cancellation may be accomplished by sending a notice by first class mail using the last known address in department records for the registered or legal vehicle owner or owners, and recording the transmittal on an affidavit of first class mail. It shall then be unlawful for any person to remove, drive, or operate the vehicle until a proper certificate of ownership or license registration has been issued, and any person removing, driving, or operating such vehicle after the refusal of the department to issue certificates or the revocation thereof shall be guilty of a gross misdemeanor. The department, if satisfied that there should be a reissue of the certificate, shall note such change upon the vehicle records and issue to the secured party a new certificate of ownership.

Whenever there is no outstanding secured obligation and no commitment to make advances and incur obligations or otherwise give value, the secured party must assign the certificate of ownership to the debtor or the debtor's assignee and transmit the certificate to the department with an accompanying fee of one dollar and twenty-five cents in addition to all other fees. The department shall then issue a new certificate of ownership and transmit it to the owner. If the affected secured party fails to either assign or transmit the certificate of ownership to the department within ten days after proper demand, that secured party shall be liable to the debtor for one hundred dollars, and in addition for any loss caused to the debtor by such failure. (1) The true identity of the article or articles cannot be established by restoring the original manufacturer's serial number or other distinguishing numbers or identification marks or by any other means;

(2) After the true identity of the article or articles has been established, the seizing law enforcement agency cannot locate the person who is the lawful owner or if such lawful owner or his successor in interest fails to claim the article or articles within forty-five days after receiving notice from the seizing law enforcement agency that the article or articles is in its possession.

If no hearing is contemplated as provided for in RCW 46.12.330 such release shall be within a reasonable time following seizure. Reasonable investigative activity, including efforts to establish the identity of the article or articles and the identity of the person entitled to lawful possession or custody of the article or articles shall be considered in determining the reasonableness of the time in which release must be made. [1975-'76 2nd ex.s. c 91 § 5.]

46.16.006 "Registration year" defined—Registration months—"Last day of the month." (1) The term "registration year" for the purposes of chapters 46.16, 82.44, and 82.50 RCW means the effective period of a vehicle license

issued by the department. Such year commences at 12:01 a.m. on the date of the calendar year designated by the department and ends at 12:01 a.m. on the same date of the next succeeding calendar year. If a vehicle license previously issued in this state has expired and is renewed with a different registered owner, a new registration year is deemed to commence upon the date the expired license is renewed in order that the renewed license be useable for a full twelve-month period.

(2) Each registration year may be divided into twelve registration months. Each registration month commences on the day numerically corresponding to the day of the calendar month on which the registration year begins, and terminates on the numerically corresponding day of the next succeeding calendar month.

(3) Where the term "last day of the month" is used in chapters 46.16, 82.44, and 82.50 RCW in lieu of a specified day of any calendar month it means the last day of such calendar month or months irrespective of the numerical designation of that day.

(4) If the final day of a registration year or month falls on a Saturday, Sunday, or legal holiday, such period extends through the end of the next business day. [1992 c 222 § 1; 1983 c 27 § 1; 1981 c 214 § 1; 1975 1st ex.s. c 118 § 1.]

Effective date—1975 1st ex.s. c 118: "This 1975 amendatory act shall take effect on January 1, 1977: PROVIDED, That the director of the department of motor vehicles may, prior to such effective date, undertake and perform duties and conduct activities necessary for the timely implementation of this 1975 amendatory act on such date." [1975 1st ex.s. c 118 § 19.]

Severability—1975 1st ex.s. c 118: "If any provision of this 1975 amendatory act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this 1975 amendatory act and the applicability thereof to persons and circumstances shall not be affected thereby." [1975 1st ex.s. c 118 § 18.]

46.16.010 Licenses and plates required—Penalties—Exceptions. (Effective until January 1, 1997.) (1) It is unlawful for a person to operate any vehicle over and along a public highway of this state without first having obtained and having in full force and effect a current and proper vehicle license and display vehicle license number plates therefor as by this chapter provided. Failure to make initial registration before operation on the highways of this state is a misdemeanor, and any person convicted thereof shall be punished by a fine of no less than three hundred thirty dollars, no part of which may be suspended or deferred. Failure to renew an expired registration before operation on the highways of this state is a traffic infraction.

(2) The licensing of a vehicle in another state by a resident of this state, as defined in RCW 46.16.028, evading the payment of any tax or license fee imposed in connection with registration, is a gross misdemeanor punishable as follows:

(a) For a first offense, up to one year in the county jail and a fine equal to twice the amount of delinquent taxes and fees, no part of which may be suspended or deferred;

(b) For a second or subsequent offense, up to one year in the county jail and a fine equal to three times the amount of delinquent taxes and fees, no part of which may be suspended or deferred.

(3) These provisions shall not apply to farm vehicle[s] as defined in RCW 46.04.181 if operated within a radius of fifteen miles of the farm where principally used or garaged, farm tractors and farm implements including trailers designed as cook or bunk houses used exclusively for animal herding temporarily operating or drawn upon the public highways, and trailers used exclusively to transport farm implements from one farm to another during the daylight hours or at night when such equipment has lights that comply with the law: PROVIDED FURTHER, That these provisions shall not apply to spray or fertilizer applicator rigs designed and used exclusively for spraying or fertilization in the conduct of agricultural operations and not primarily for the purpose of transportation, and nurse rigs or equipment auxiliary to the use of and designed or modified for the fueling, repairing or loading of spray and fertilizer applicator rigs and not used, designed or modified primarily for the purpose of transportation: PROVIDED FURTHER, That these provisions shall not apply to fork lifts operated during daylight hours on public highways adjacent to and within five hundred feet of the warehouses which they serve: PROVIDED FURTHER, That these provisions shall not apply to equipment defined as follows:

"Special highway construction equipment" is any vehicle which is designed and used primarily for grading of highways, paving of highways, earth moving, and other construction work on highways and which is not designed or used primarily for the transportation of persons or property on a public highway and which is only incidentally operated or moved over the highway. It includes, but is not limited to, road construction and maintenance machinery so designed and used such as portable air compressors, air drills, asphalt spreaders, bituminous mixers, bucket loaders, track laying tractors, ditchers, leveling graders, finishing machines, motor graders, paving mixers, road rollers, scarifiers, earth moving scrapers and carryalls, lighting plants, welders, pumps, power shovels and draglines, self-propelled and tractor-drawn earth moving equipment and machinery, including dump trucks and tractor-dump trailer combinations which either (1) are in excess of the legal width or (2) which, because of their length, height or unladen weight, may not be moved on a public highway without the permit specified in RCW 46.44.090 and which are not operated laden except within the boundaries of the project limits as defined by the contract, and other similar types of construction equipment, or (3) which are driven or moved upon a public highway only for the purpose of crossing such highway from one property to another, provided such movement does not exceed five hundred feet and the vehicle is equipped with wheels or pads which will not damage the roadway surface.

Exclusions:

"Special highway construction equipment" does not include any of the following:

Dump trucks originally designed to comply with the legal size and weight provisions of this code notwithstanding any subsequent modification which would require a permit, as specified in RCW 46.44.090, to operate such vehicles on a public highway, including trailers, truck-mounted transit mixers, cranes and shovels, or other vehicles designed for the transportation of persons or property to which machinery has been attached.

(4) The following vehicles, whether operated solo or in combination, are exempt from license registration and displaying license plates as required by this chapter:

(a) A converter gear used to convert a semitrailer into a trailer or a two-axle truck or tractor into a three or more axle truck or tractor or used in any other manner to increase the number of axles of a vehicle. Converter gear includes an auxiliary axle, booster axle, dolly, and jeep axle.

Legislative intent—1989 c 192: "The legislature recognizes that there are residents of this state who intentionally register motor vehicles in other states to evade payment of taxes and fees required by the laws of this state. 46.16.111 Gross weight, how computed. The gross weight in the case of any motor truck, tractor, or truck tractor shall be the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semi-trailer, converter gear, or pole trailer to be towed thereby, to which shall be added the weight of the maximum load to be carried thereon or towed thereby as set by the licensee in the application if it does not exceed the weight limitations prescribed by chapter 46.44 RCW. If the sum of the scale weight and maximum load of the trailer is not greater than four thousand pounds, that sum shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. Where the trailer is a utility trailer, travel trailer, horse trailer, or boat trailer, for the personal use of the owner of the truck, tractor, or truck tractor, and not for sale or commercial purposes, the gross weight of such trailer and its load shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. The weight of any camper is exempt from the determination of gross weight in

the computation of any licensing fees required under RCW 46.16.070.

The gross weight in the case of any bus, auto stage, or for hire vehicle, except taxicabs, with a seating capacity over six, shall be the scale weight of each bus, auto stage, and for hire vehicle plus the seating capacity, including the operator's seat, computed at one hundred and fifty pounds per seat.

46.16.121 Seating capacity fees on stages, for hire vehicles. In addition to other fees for the licensing of vehicles, there shall be paid and collected annually, for each auto stage and for hire vehicle, except taxicabs, with a seating capacity of six or less the sum of fifteen dollars. In addition to the fees required by RCW 46.16.070, operators of auto stages with seating capacity over six shall pay quarterly, at the time they file gross earning returns with the utilities and transportation commission, the sum of fifteen cents for each one hundred vehicle miles operated by each auto stage over the public highways of this state: PROVIDED, That in the case of each auto stage propelled by steam, electricity, natural gas, diesel oil, butane or propane, the payment required hereunder shall be twenty cents per one hundred miles of such operation. The commission shall transmit all such sums so collected to the state treasurer, who shall deposit the same in the motor vehicle fund. Any person failing to make any payment required by this section shall be subject to a penalty of one hundred percent of the payment due hereunder, in addition to any penalty provided for failure to submit a quarterly report. Any penalties so collected shall be credited to the public service revolving fund. [1967 ex.s. c 83 § 60; 1961 c 12 § 46.16.125. Prior: 1951 c 269 § 14.]

The annual vehicle licensing fees as provided in RCW 46.16.070 for any motor vehicle or combination of vehicles having a declared gross weight in excess of twelve thousand pounds may be paid for any full registration month or months at one-twelfth of the usual annual fee plus two dollars, this sum to be multiplied by the number of full months for which the fees are paid if for less than a full year. An additional fee of two dollars shall be collected each time a license fee is paid.

Operation of a vehicle licensed under the provisions of this section by any person upon the public highways after

the expiration of the monthly license is a traffic infraction, and in addition the person shall be required to pay a license fee for the vehicle involved covering an entire registration year's operation, less the fees for any registration month or months of the registration year already paid. If, within five days, no license fee for a full registration year has been paid as required aforesaid, the Washington state patrol, county sheriff, or city police shall impound such vehicle in such manner as may be directed for such cases by the chief of the Washington state patrol, until such requirement is met. 46.16.160 Vehicle trip permits—Restrictions and requirements—Fees and taxes—Penalty—Rules. (Effective until January 1, 1997.) (1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits may also be issued for movement of mobile homes pursuant to RCW 46.44.170. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit

such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Blank trip permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. For each permit issued, there shall be collected a filing fee as provided by RCW 46.01.140, an administrative fee of eight dollars, and an excise tax of one dollar. If the filing fee amount of one dollar prescribed by RCW 46.01.140 is increased or decreased after January 1, 1981, the administrative fee shall be adjusted to compensate for such change to insure that the total amount collected for the filing fee, administrative fee, and excise tax remain at ten dollars. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) A violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(8) The department of licensing may adopt rules as it deems necessary to administer this section.

(9) All administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW 46.01.140. The credit may only be used during the registration year from which it was obtained.

(4) In no event is such credit subject to refund.

Whenever any vehicle has been so altered as to change its license classification in such a manner that the vehicle license number plates are rendered improper, the current license plates shall be surrendered to the department. New license plates shall be issued upon application accompanied by a one dollar fee in addition to any other or different charge by reason of licensing under a new classification. In making this determination, the department shall consider whether or not an interest or status contributes or has contributed significantly to the public health, safety, or welfare of the citizens of the United States or of this state or to their significant benefit, or whether the interest or status is recognized by the United States, this state, or other states, in other settings or contexts. Personalized license plates—Legislative declaration: "It is declared to be the public policy of the state of Washington to direct financial resources of this state toward the support and aid of the wildlife resources existing within the state of Washington in order that the general welfare of these inhabitants of the state be served. For the purposes of *this chapter, wildlife resources are understood to be those species of wildlife other than that managed by the department of fisheries under their existing jurisdiction as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries. The legislature further finds that the preservation, protection, perpetuation, and enhancement of such wildlife resources of the state is of major concern to it, and that aid for a satisfactory environment and ecological balance in this state for such wildlife resources serves a public interest, purpose, and desire.

It is further declared that such preservation, protection, perpetuation, and enhancement can be fostered through financial support derived on a voluntary basis from those citizens of the state of Washington who wish to assist in such objectives; that a desirable manner of accomplishing this is through offering personalized license plates for certain vehicles and campers the fees for which are to be directed to the state treasury to the credit of the state **game fund for the furtherance of the programs, policies, and activities of the state **game department in preservation, protection, perpetuation, and enhancement of the wildlife resources that abound within the geographical limits of the state of Washington.

In particular, the legislature recognizes the benefit of this program to be specifically directed toward those species of wildlife including but not limited to song birds, protected wildlife, rare and endangered wildlife, aquatic life, and specialized-habitat types, both terrestrial and aquatic, as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries that exist within the limits of the state of Washington." 46.20.021 Driver's license required—Penalty—Surrender of other license—Local license not required.

(1) No person, except as expressly exempted by this chapter, may drive any motor vehicle upon a highway in this state unless the person has a valid driver's license issued to Washington residents under the provisions of this chapter. A violation of this subsection is a misdemeanor and is a lesser included offense within the offenses described in RCW 46.20.342(1) or 46.20.420. However, if a person in violation of this section provides the citing officer with an expired driver's license or other valid identifying documentation under RCW 46.20.035 at the time of the stop and is not in violation of RCW 46.20.342(1) or 46.20.420, the violation of this section is an infraction and is subject to a penalty of two hundred fifty dollars. If the person appears in person before the court or submits by mail written proof that he or she obtained a valid license after being cited, the court shall reduce the penalty to fifty dollars.

(2) For the purposes of obtaining a valid driver's license, a resident is a person who manifests an intent to live or be located in this state on more than a temporary or transient basis. Evidence of residency includes but is not limited to:

- (a) Becoming a registered voter in this state; or
- (b) Receiving benefits under one of the Washington public assistance programs; or

(c) Declaring that he or she is a resident for the purpose of obtaining a state license or tuition fees at resident rates.

(3) The term "Washington public assistance programs" referred to in subsection (2)(b) of this section includes only public assistance programs for which more than fifty percent of the combined costs of benefits and administration are paid from state funds. Programs which are not included within the term "Washington public assistance programs" pursuant to the above criteria include, but are not limited to the food stamp program under the federal food stamp act of 1964; programs under the child nutrition act of 1966, 42 U.S.C. Secs. 1771 through 1788; and aid to families with dependent children, 42 U.S.C. Secs. 601 through 606.

(4) No person shall receive a driver's license unless and until he or she surrenders to the department all valid driver's licenses in his or her possession issued to him or her by any other jurisdiction. The department shall establish a procedure to invalidate the surrendered photograph license and return it to the person. The invalidated license, along with the valid temporary Washington driver's license provided for in RCW 46.20.055(3), shall be accepted as proper identification. The department shall notify the issuing department that the licensee is now licensed in a new jurisdiction. No person shall be permitted to have more than one valid driver's license at any time.

(5) New Washington residents are allowed thirty days from the date they become residents as defined in this section to procure a valid Washington driver's license.

(6) Any person licensed as a driver under this chapter may exercise the privilege thereby granted upon all streets and highways in this state and shall not be required to obtain any other license to exercise such privilege by any county, municipal or local board, or body having authority to adopt local police regulations. [1996 c 307 § 5. Prior: 1991 c 293 § 3; 1991 c 73 § 1; 1990 c 250 § 33; 1988 c 88 § 1; 1985 c 302 § 2; 1979 ex.s. c 136 § 53; 1965 ex.s. c 121 § 2.]

Purpose—Construction—1965 ex.s. c 121: "With the advent of greatly increased interstate vehicular travel and the migration of motorists between the states, the legislature recognizes the necessity of enacting driver licensing laws which are reasonably uniform with the laws of other states and are at the same time based upon sound, realistic principles, stated in clear explicit language. To achieve these ends the legislature does hereby adopt this 1965 amendatory act relating to driver licensing modeled after the Uniform Vehicle Code subject to such variances as are deemed better suited to the people of this state. It is intended that this 1965 amendatory act be liberally construed to effectuate the purpose of improving the safety of our highways through driver licensing procedures within the framework of the traditional freedoms to which every motorist is entitled." [1965 ex.s. c 121 § 1.]

46.20.022 Unlicensed drivers—Subject to all provisions of Title 46 RCW. Any person who operates a motor vehicle on the public highways of this state without a driver's license or nonresident privilege to drive shall be subject to all of the provisions of Title 46 RCW to the same extent as a person who is licensed. (4) To any person who has previously been adjudged to be mentally ill or insane, or to be incompetent due to any mental disability or disease, and who has not at the time of application been restored to competency by the methods provided by law: PROVIDED, HOWEVER, That no person so adjudged shall be denied a license for such cause if the superior court should find him able to operate a motor vehicle with safety upon the highways during such incompetency;

(6) To any person who is required under the laws of this state to deposit proof of financial responsibility and who has not deposited such proof;

(1) Any person who is at least fifteen and a half years of age may apply to the department for an instruction permit for the operation of any motor vehicle except a motorcycle. Any person sixteen years of age or older, holding a valid driver's license, may apply for an instruction permit for the operation of a motorcycle. The department may in its discretion, after the applicant has successfully passed all parts of the examination other than the driving test, issue to the applicant a driver's or motorcyclist's instruction permit.

(a) A driver's instruction permit entitles the permittee while having the permit in immediate possession to drive a motor vehicle upon the public highways for a period of one year when accompanied by a licensed driver who has had at least five years of driving experience and is occupying a seat beside the driver. Except as provided in subsection (c) of this subsection, only one additional permit, valid for one year, may be issued.

(b) A motorcyclist's instruction permit entitles the permittee while having the permit in immediate possession to drive a motorcycle upon the public highways for a period of ninety days as provided in *RCW 46.20.510(3). Except as provided in subsection (c) of this subsection, only one additional permit, valid for ninety days, may be issued.

(c) The department after investigation may issue a third driver's or motorcyclist's instruction permit when it finds that the permittee is diligently seeking to improve driving proficiency.

(2) The department may waive the examination, except as to eyesight and other potential physical restrictions, for any applicant who is enrolled in either a traffic safety education course as defined by RCW 28A.220.020(2) or a course of instruction offered by a licensed driver training school as defined by RCW 46.82.280(1) at the time the application is being considered by the department. The department may require proof of registration in such a course as it deems necessary.

(3) The department upon receiving proper application may in its discretion issue a driver's instruction permit to an applicant who is at least fifteen years of age and is enrolled in a traffic safety education program which includes practice driving and which is approved and accredited by the superintendent of public instruction. Such instruction permit shall entitle the permittee having the permit in immediate possession to drive a motor vehicle only when an approved instructor or other licensed driver with at least five years of driving experience, is occupying a seat beside the permittee.

(4) The department may in its discretion issue a temporary driver's permit to an applicant for a driver's license permitting the applicant to drive a motor vehicle for a period not to exceed sixty days while the department is completing its investigation and determination of all facts relative to such applicant's right to receive a driver's license. Such permit must be in the permittee's immediate possession while driving a motor vehicle, and it shall be invalid when the permittee's license has been issued or for good cause has been refused. 46.20.070 Juvenile agricultural driving permits.

Upon receiving a written application on a form provided by the director for permission for a person under the age of eighteen years to operate a motor vehicle over and upon the public highways of this state in connection with farm work, the director may issue a limited driving permit containing a photograph to be known as a juvenile agricultural driving permit, such issuance to be governed by the following procedure:

(1) The application must be signed by the applicant and by the applicant's father, mother, or legal guardian.

(2) Upon receipt of the application, the director shall cause an examination of the applicant to be made as by law provided for the issuance of a motor vehicle driver's license.

(3) The director shall cause an investigation to be made of the need for the issuance of such operation by the applicant.

Such permit authorizes the holder to operate a motor vehicle over and upon the public highways of this state within a restricted farming locality which shall be described upon the face thereof.

A permit issued under this section shall expire one year from date of issue, except that upon reaching the age of eighteen years such person holding a juvenile agricultural driving permit shall be required to make application for a motor vehicle driver's license.

The director shall charge a fee of three dollars for each such permit and renewal thereof to be paid as by law provided for the payment of motor vehicle driver's licenses and deposited to the credit of the highway safety fund.

The director may transfer this permit from one farming locality to another, but this does not constitute a renewal of the permit.

The director may deny the issuance of a juvenile agricultural driving permit to any person whom the director determines to be incapable of operating a motor vehicle with safety to himself or herself and to persons and property.

The director may suspend, revoke, or cancel the juvenile agricultural driving permit of any person when in the director's sound discretion the director has cause to believe such person has committed any offense for which mandatory suspension or revocation of a motor vehicle driver's license is provided by law.

The director may suspend, cancel, or revoke a juvenile agricultural driving permit when in the director's sound

discretion the director is satisfied the restricted character of the permit has been violated. An applicant making a false statement under this subsection is guilty of false swearing, a gross misdemeanor, under RCW 9A.72.040. Every application for an instruction permit containing a photograph shall be accompanied by a fee of five dollars. The department shall forthwith transmit the fees collected for instruction permits and temporary drivers' permits to the state treasurer.

(2) Every such application shall state the full name, date of birth, sex, and Washington residence address of the applicant, and briefly describe the applicant, and shall state whether the applicant has theretofore been licensed as a driver or chauffeur, and, if so, when and by what state or country, and whether any such license has ever been suspended or revoked, or whether an application has ever been refused, and, if so, the date of and reason for such suspension, revocation, or refusal, and shall state such additional information as the department shall require, including a statement that identifying documentation presented by the applicant is valid.

(3) Whenever application is received from a person previously licensed in another jurisdiction, the department shall request a copy of such driver's record from such other jurisdiction. When received, the driving record shall become a part of the driver's record in this state.

(4) Whenever the department receives request for a driving record from another licensing jurisdiction, the record shall be forwarded without charge if the other licensing jurisdiction extends the same privilege to the state of Washington. Otherwise there shall be a reasonable charge for transmittal of the record, the amount to be fixed by the director of the department. Exception. The department of licensing shall not consider an application of any minor under the age of eighteen years for a driver's license or the issuance of a motorcycle endorsement for a particular category unless:

(1) The application is also signed by a parent or guardian having the custody of such minor, or in the event a minor under the age of eighteen has no father, mother, or guardian, then a driver's license shall not be issued to the minor unless his or her application is also signed by the minor's employer; and

For a person under the age of eighteen years to obtain a motorcycle endorsement, he or she must successfully complete a motorcycle safety education course that meets the standards established by the department of licensing.

The department may waive any education requirement under this subsection for an applicant previously licensed to drive a motor vehicle or motorcycle outside this state if the applicant provides proof satisfactory to the department that he or she has had education equivalent to that required under this subsection. 46.20.105 Persons under twenty-one. The department may provide a method to distinguish the driver's license of a person who is under the age of twenty-one from the driver's license of a person who is twenty-one years of age or older. [1987 c 463 § 3.]

46.20.106 Evidence of applicant's age. Any agent authorized to issue a driver's license in this state is authorized to require satisfactory evidence of the age of the applicant as a condition precedent to the issuance of a driver's license. 46.20.114 Preparation process to prevent alteration or reproduction. On and after January 1, 1978, the department shall implement and use such process or processes in the preparation and issuance of drivers' licenses and identicards that prohibit as nearly as possible the alteration or reproduction of such cards, or the superimposing of other photographs on such cards, without ready detection. [1977 ex.s. c 27 § 2.]

Purpose—1977 ex.s. c 27: "The legislature finds that the falsification of cards and licenses is a serious social problem creating economic hardship and problems which impede the efficient conduct of commerce and government. The legislature is particularly concerned that the increasing use of false drivers' licenses and identicards to purchase liquor, to cash bad checks, and to obtain food stamps and other benefits is causing the loss of liquor licenses, the loss of jobs, the loss of income, and the loss of human life in addition to significant monetary losses in business and government. It is the purpose of RCW 46.20.114 to require an effective means of rendering drivers' licenses and identicards as immune as possible from alteration and counterfeiting in order to promote the public health and safety of the people of this state." [1977 ex.s. c 27 § 1.]

46.20.116 Labeling license "not valid for identification purposes." The department shall plainly label each license "not valid for identification purposes" where the applicant is unable to prove his or her identity as provided in RCW 46.20.035. [1993 c 452 § 2; 1969 ex.s. c 155 § 3.]

Effective date—Purpose—1969 ex.s. c 155: See notes following RCW 46.20.118.

46.20.117 Identicards. (1) The department shall issue "identicards," containing a picture, to nondrivers for a fee of four dollars. However, the fee shall be the actual cost of production to recipients of continuing public assistance grants under Title 74 RCW who are referred in writing to the department by the secretary of social and health services. The fee shall be deposited in the highway safety fund. To be eligible, each applicant shall produce evidence as required in RCW 46.20.035 that positively proves identity. The "identocard" shall be distinctly designed so that it will not be confused with the official driver's license. The identocard shall expire on the fifth anniversary of the applicant's birthdate after issuance.

(2) The department may cancel an "identocard" upon a showing by its records or other evidence that the holder of such "identocard" has committed a violation relating to "identicards" defined in RCW 46.20.336. [1993 c 452 § 3; 1986 c 15 § 1; 1985 ex.s. c 1 § 3; 1985 c 212 § 1; 1981 c 92 § 2; 1971 ex.s. c 65 § 1; 1969 ex.s. c 155 § 4.]

Effective date—1985 ex.s. c 1: See note following RCW 46.20.070.

Purpose—1971 ex.s. c 65: "The efficient and effective operation and administration of state government affects the health, safety, and welfare of the people of this state and it is the intent and purpose of this act to promote the health, safety, and welfare of the people by improving the operation and administration of state government." [1971 ex.s. c 65 § 2.]

46.20.118 Negative file. The department shall maintain a negative file. It shall contain negatives of all pictures taken by the department of licensing as authorized by RCW 46.20.070 through 46.20.119. Negatives in the file shall not be available for public inspection and copying under chapter 42.17 RCW. The department may make the file available to official governmental enforcement agencies to assist in the investigation by the agencies of suspected criminal activity. The department may also provide a print to the driver's next of kin in the event the driver is deceased. [1990 c 250 § 37; 1981 c 22 § 1; 1979 c 158 § 149; 1969 ex.s. c 155 § 5.]

Severability—1990 c 250: See note following RCW 46.16.301.

Purpose—1969 ex.s. c 155: "The identification of the injured or the seriously ill is often difficult. The need for an identification file to facilitate use by proper law enforcement officers has hampered law enforcement. Personal identification for criminal, personal and commercial reasons is becoming most important at a time when it is increasingly difficult to accomplish. The legislature finds that the public health and welfare requires a standard and readily recognizable means of identification of each person living within the state. The legislature further finds that the need for an identification file by law enforcement agencies must be met. The use of photographic drivers' licenses will greatly aid the problem, but some means of identification must be provided for persons who do not possess a driver's license. The purpose of this 1969 amendatory act is to provide for the positive identification of persons, both through an expanded use of drivers' licenses and also through issue of personal identification cards for nondrivers." [1969 ex.s. c 155 § 1.]

Effective date—1969 ex.s. c 155: "This 1969 amendatory act shall take effect September 1, 1969." [1969 ex.s. c 155 § 7.]

46.20.119 Rules and regulations to be reasonable. The rules and regulations adopted pursuant to RCW 46.20.070 through 46.20.119 shall be reasonable in view of the purposes to be served by RCW 46.20.070 through 46.20.119. [1990 c 250 § 38; 1969 ex.s. c 155 § 6.]

Severability—1990 c 250: See note following RCW 46.16.301.

Effective date—Purpose—1969 ex.s. c 155: See notes following RCW 46.20.118.

46.20.120 Examination of license applicants—Late renewal penalty—Exceptions. No new driver's license may be issued and no previously issued license may be renewed until the applicant therefor has successfully passed a driver licensing examination. However, the department may waive all or any part of the examination of any person applying for the renewal of a driver's license except when the department determines that an applicant for a driver's license is not qualified to hold a driver's license under this title. The department may also waive the actual demonstration of the ability to operate a motor vehicle by a person who surrenders a valid driver's license issued by the person's previous home state and who is otherwise qualified to be licensed. For a new license examination a fee of seven dollars shall be paid by each applicant, in addition to the fee charged for issuance of the license. A new license is one

issued to a driver who has not been previously licensed in this state or to a driver whose last previous Washington license has been expired for more than four years.

Any person renewing his or her driver's license more than sixty days after the license has expired shall pay a penalty fee of ten dollars in addition to the renewal fee under RCW 46.20.181. The penalty fee shall be deposited in the highway safety fund.

Any person who is outside the state at the time his or her driver's license expires or who is unable to renew the license due to any incapacity may renew the license within sixty days after returning to this state or within sixty days after the termination of any such incapacity without the payment of the penalty fee.

The department shall provide for giving examinations at places and times reasonably available to the people of this state. Effective date—1985 ex.s. c 1: See note following RCW 46.20.070.

46.20.130 Content and conduct of examinations. The director shall prescribe the content of the driver licensing examination and the manner of conducting the examination, which shall include but is not limited to:

(1) A test of the applicant's eyesight and ability to see, understand, and follow highway signs regulating, warning, and directing traffic;

(2) A test of the applicant's knowledge of traffic laws and ability to understand and follow the directives of lawful authority, orally or graphically, that regulate, warn, and direct traffic in accordance with the traffic laws of this state;

(3) An actual demonstration of the applicant's ability to operate a motor vehicle in such a manner as not to jeopardize the safety of persons or property; and

(4) Such further examination as the director deems necessary (a) to determine whether any facts exist which would bar the issuance of a vehicle operator's license under chapters 46.20, 46.21, and 46.29 RCW, and (b) to determine the applicant's fitness to operate a motor vehicle safely on the highways; and

(5) In addition to the foregoing, when the applicant desires to drive a motorcycle, as defined in RCW 46.04.330, or a motor-driven cycle, as defined in RCW 46.04.332, the applicant shall also demonstrate the ability to operate such motorcycle or motor-driven cycle in such a manner as not to jeopardize the safety of persons or property. (1) Except as provided in subsection (2) of this section, the department shall annually provide to the department of information services at no charge a computer tape or electronic data file of all licensed drivers and identicard holders who are eighteen years of age or older and whose records have not expired for more than two years and which shall contain the following information on each such person: Full name, date of birth, residence address including county, sex, and most recent date of application, renewal, replacement, or change of driver's license or identicard.

46.20.161 Issuance of license—License contents—Fee. (2) Every court having jurisdiction over offenses committed under this chapter, or any other act of this state or municipal ordinance adopted by a local authority regulating the operation of motor vehicles on highways, or any federal authority having jurisdiction over offenses substantially the same as those set forth in Title 46 RCW which occur on federal installations within this state, shall forward to the department within ten days of a forfeiture of bail or collateral deposited to secure the defendant's appearance in court, a payment of a fine or penalty, a plea of guilty or a finding of guilt, or a finding that any person has committed a traffic infraction an abstract of the court record in the form prescribed by rule of the supreme court, showing the conviction of any person or the finding that any person has committed a traffic infraction in said court for a violation of any said laws other than regulations governing standing, stopping, parking, and pedestrian offenses.

hearing to contest the determination that a violation of any statute, ordinance, or regulation relating to standing, stopping, or parking has been committed, or failure to appear at a hearing to explain mitigating circumstances, an abstract of the citation record in the form prescribed by rule of the department, showing the finding by such municipality that two or more violations of laws governing standing, stopping, and parking have been committed and indicating the nature of the defendant's failure to act. Such violations may not have occurred while the vehicle is stolen from the registered owner or is leased or rented under a bona fide commercial vehicle lease or rental agreement between a lessor engaged in the business of leasing vehicles and a lessee who is not the vehicle's registered owner. The department may enter into agreements of reciprocity with the duly authorized representatives of the states for reporting to each other violations of laws governing standing, stopping, and parking.

(4) For the purposes of Title 46 RCW the term "conviction" means a final conviction in a state or municipal court or by any federal authority having jurisdiction over offenses substantially the same as those set forth in Title 46 RCW which occur on federal installations in this state, an unvacated forfeiture of bail or collateral deposited to secure a defendant's appearance in court, the payment of a fine, a plea of guilty, or a finding of guilt on a traffic law violation charge, regardless of whether the imposition of sentence or sanctions are deferred or the penalty is suspended, but not including entry into a deferred prosecution agreement under chapter 10.05 RCW.

(5) For the purposes of Title 46 RCW the term "finding that a traffic infraction has been committed" means a failure to respond to a notice of infraction or a determination made by a court pursuant to this chapter. (4) Any person who is dead, unconscious, or who is otherwise in a condition rendering him or her incapable of refusal, shall be deemed not to have withdrawn the consent provided by subsection (1) of this section and the test or tests may be administered, subject to the provisions of RCW 46.61.506, and the person shall be deemed to have received the warnings required under subsection (2) of this section.

(5) If, following his or her arrest and receipt of warnings under subsection (2) of this section, the person arrested refuses upon the request of a law enforcement officer to submit to a test or tests of his or her breath or blood, no test shall be given except as authorized under subsection (3) or (4) of this section.

(6) If, after arrest and after the other applicable conditions and requirements of this section have been satisfied, a test or tests of the person's blood or breath is administered and the test results indicate that the alcohol concentration of the person's breath or blood is 0.10 or more if the person is age twenty-one or over, or is 0.02 or more if the person is

under the age of twenty-one, or the person refuses to submit to a test, the arresting officer or other law enforcement officer at whose direction any test has been given, or the department, where applicable, if the arrest results in a test of the person's blood, shall:

(a) Serve notice in writing on the person on behalf of the department of its intention to suspend, revoke, deny, or place in probationary status the person's license, permit, or privilege to drive as required by subsection (7) of this section;

(b) Serve notice in writing on the person on behalf of the department of his or her right to a hearing, specifying the steps he or she must take to obtain a hearing as provided by subsection (8) of this section;

(c) Mark the person's Washington state driver's license or permit to drive, if any, in a manner authorized by the department;

(d) Serve notice in writing that the marked license or permit, if any, is a temporary license that is valid for sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or until the suspension, revocation, or denial of the person's license, permit, or privilege to drive is sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first. No temporary license is valid to any greater degree than the license or permit that it replaces; and

(e) Immediately notify the department of the arrest and transmit to the department within seventy-two hours, except as delayed as the result of a blood test, a sworn report or report under a declaration authorized by RCW 9A.72.085 that states:

(i) That the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or was under the age of twenty-one years and had been driving or was in actual physical control of a motor vehicle while having an alcohol concentration of 0.02 or more;

(ii) That after receipt of the warnings required by subsection (2) of this section the person refused to submit to a test of his or her blood or breath, or a test was administered and the results indicated that the alcohol concentration of the person's breath or blood was 0.10 or more if the person is age twenty-one or over, or was 0.02 or more if the person is under the age of twenty-one; and

(iii) Any other information that the director may require by rule.

(7) The department of licensing, upon the receipt of a sworn report or report under a declaration authorized by RCW 9A.72.085 under subsection (6)(e) of this section, shall suspend, revoke, deny, or place in probationary status the person's license, permit, or privilege to drive or any nonresident operating privilege, as provided in RCW 46.20.3101, such suspension, revocation, denial, or placement in probationary status to be effective beginning sixty days from the date of arrest or from the date notice has been given in the event notice is given by the department following a blood test, or when sustained at a hearing pursuant to subsection (8) of this section, whichever occurs first.

(8) A person receiving notification under subsection (6)(b) of this section may, within thirty days after the notice

has been given, request in writing a formal hearing before the department. The person shall pay a fee of one hundred dollars as part of the request. If the request is mailed, it must be postmarked within thirty days after receipt of the notification. Upon timely receipt of such a request for a formal hearing, including receipt of the required one hundred dollar fee, the department shall afford the person an opportunity for a hearing. Except as otherwise provided in this section, the hearing is subject to and shall be scheduled and conducted in accordance with RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest, except that all or part of the hearing may, at the discretion of the department, be conducted by telephone or other electronic means. The hearing shall be held within sixty days following the arrest or following the date notice has been given in the event notice is given by the department following a blood test, unless otherwise agreed to by the department and the person, in which case the action by the department shall be stayed, and any valid temporary license marked under subsection (6)(c) of this section extended, if the person is otherwise eligible for licensing. For the purposes of this section, the scope of the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or any drug or had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one, whether the person was placed under arrest, and (a) whether the person refused to submit to the test or tests upon request of the officer after having been informed that such refusal would result in the revocation of the person's license, permit, or privilege to drive, or (b) if a test or tests were administered, whether the applicable requirements of this section were satisfied before the administration of the test or tests, whether the person submitted to the test or tests, or whether a test was administered without express consent as permitted under this section, and whether the test or tests indicated that the alcohol concentration of the person's breath or blood was 0.10 or more if the person was age twenty-one or over at the time of the arrest, or was 0.02 or more if the person was under the age of twenty-one at the time of the arrest. The sworn report or report under a declaration authorized by RCW 9A.72.085 submitted by a law enforcement officer is prima facie evidence that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle within this state while under the influence of intoxicating liquor or drugs, or both, or the person had been driving or was in actual physical control of a motor vehicle within this state while having alcohol in his or her system in a concentration of 0.02 or more and was under the age of twenty-one and that the officer complied with the requirements of this section.

A hearing officer shall conduct the hearing, may issue subpoenas for the attendance of witnesses and the production of documents, and shall administer oaths to witnesses. The hearing officer shall not issue a subpoena for the attendance of a witness at the request of the person unless the request is accompanied by the fee required by RCW 5.56.010 for a witness in district court. The sworn report or report under

a declaration authorized by RCW 9A.72.085 of the law enforcement officer and any other evidence accompanying the report shall be admissible without further evidentiary foundation and the certifications authorized by the criminal rules for courts of limited jurisdiction shall be admissible without further evidentiary foundation. The person may be represented by counsel, may question witnesses, may present evidence, and may testify. The department shall order that the suspension, revocation, denial, or placement in probationary status either be rescinded or sustained.

(9) If the suspension, revocation, denial, or placement in probationary status is sustained after such a hearing, the person whose license, privilege, or permit is suspended, revoked, denied, or placed in probationary status has the right to file a petition in the superior court of the county of arrest to review the final order of revocation by the department in the same manner as an appeal from a decision of a court of limited jurisdiction. The appellant must pay the costs associated with obtaining the record of the hearing before the hearing officer. The filing of the appeal does not stay the effective date of the suspension, revocation, denial, or placement in probationary status. A petition filed under this subsection must include the petitioner's grounds for requesting review. Upon granting petitioner's request for review, the court shall review the department's final order of suspension, revocation, denial, or placement in probationary status as expeditiously as possible. If judicial relief is sought for a stay or other temporary remedy from the department's action, the court shall not grant such relief unless the court finds that the appellant is likely to prevail in the appeal and that without a stay the appellant will suffer irreparable injury. If the court stays the suspension, revocation, denial, or placement in probationary status it may impose conditions on such stay.

(10) If a person whose driver's license, permit, or privilege to drive has been or will be suspended, revoked, denied, or placed in probationary status under subsection (7) of this section, other than as a result of a breath test refusal, and who has not committed an offense within the last five years for which he or she was granted a deferred prosecution under chapter 10.05 RCW, petitions a court for a deferred prosecution on criminal charges arising out of the arrest for which action has been or will be taken under subsection (7) of this section, the court may direct the department to stay any actual or proposed suspension, revocation, denial, or placement in probationary status for at least forty-five days but not more than ninety days. If the court stays the suspension, revocation, denial, or placement in probationary status, it may impose conditions on such stay. If the person is otherwise eligible for licensing, the department shall issue a temporary license, or extend any valid temporary license marked under subsection (6) of this section, for the period of the stay. If a deferred prosecution treatment plan is not recommended in the report made under RCW 10.05.050, or if treatment is rejected by the court, or if the person declines to accept an offered treatment plan, or if the person violates any condition imposed by the court, then the court shall immediately direct the department to cancel the stay and any temporary marked license or extension of a temporary license issued under this subsection.

A suspension, revocation, or denial imposed under this section, other than as a result of a breath test refusal, shall

be stayed if the person is accepted for deferred prosecution as provided in chapter 10.05 RCW for the incident upon which the suspension, revocation, or denial is based. If the deferred prosecution is terminated, the stay shall be lifted and the suspension, revocation, or denial reinstated. If the deferred prosecution is completed, the stay shall be lifted and the suspension, revocation, or denial canceled.

(11) When it has been finally determined under the procedures of this section that a nonresident's privilege to operate a motor vehicle in this state has been suspended, revoked, or denied, the department shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he or she has a license. Legislative finding, intent—1983 c 165: "The legislature finds that previous attempts to curtail the incidence of driving while intoxicated have been inadequate. The legislature further finds that property loss, injury, and death caused by drinking drivers have reached unacceptable levels. This act is intended to convey the seriousness with which the legislature views this problem. To that end the legislature seeks to insure swift and certain punishment for those who drink and drive. The legislature does not intend to discourage or deter courts and other agencies from directing or providing treatment for problem drinkers. However, it is the intent that such treatment, where appropriate, be in addition to and not in lieu of the sanctions to be applied to all those convicted of driving while intoxicated." 46.20.3101 Implied consent—License sanctions, length of. Pursuant to RCW 46.20.308, the department shall

suspend, revoke, or deny the arrested person's license, permit, or privilege to drive as follows:

(1) In the case of a person who has refused a test or tests:

(a) For a first refusal within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, revocation or denial for one year;

(b) For a second or subsequent refusal within five years, or for a first refusal where there has been one or more previous incidents within five years that have resulted in administrative action under this section, revocation or denial for two years or until the person reaches age twenty-one, whichever is longer. A revocation imposed under this subsection (1)(b) shall run consecutively to the period of any suspension, revocation, or denial imposed pursuant to a criminal conviction arising out of the same incident.

(2) In the case of an incident where a person has submitted to or been administered a test or tests indicating that the alcohol concentration of the person's breath or blood was 0.10 or more:

(a) For a first incident within five years, where there has not been a previous incident within five years that resulted in administrative action under this section, placement in probationary status as provided in RCW 46.20.355;

(b) For a second or subsequent incident within five years, revocation or denial for two years.

(3) In the case of an incident where a person under age twenty-one has submitted to or been administered a test or tests indicating that the alcohol concentration of the person's breath or blood was 0.02 or more:

(a) For a first incident within five years, suspension or denial for ninety days;

(b) For a second or subsequent incident within five years, revocation or denial for one year or until the person reaches age twenty-one, whichever is longer. [1995 c 332 § 3.]

Severability—Effective dates—1995 c 332: See notes following RCW 46.20.308.

46.20.311 Duration of license sanctions—Reissuance or renewal. (1) The department shall not suspend a driver's license or privilege to drive a motor vehicle on the public highways for a fixed period of more than one year, except as specifically permitted under RCW 46.20.342 or other provision of law. Except for a suspension under RCW 46.20.289 and 46.20.291(5), whenever the license or driving privilege of any person is suspended by reason of a conviction, a finding that a traffic infraction has been committed, pursuant to chapter 46.29 RCW, or pursuant to RCW 46.20.291 or 46.20.308, the suspension shall remain in effect until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reinstatement until enrollment and participation in an approved program has been established and the person is otherwise qualified. The department shall not issue to the person a new, duplicate, or renewal license until the person pays a

reissue fee of twenty dollars. If the suspension is the result of a violation of RCW 46.61.502 or 46.61.504, or is the result of administrative action under RCW 46.20.308, the reissue fee shall be fifty dollars.

(2) Any person whose license or privilege to drive a motor vehicle on the public highways has been revoked, unless the revocation was for a cause which has been removed, is not entitled to have the license or privilege renewed or restored until: (a) After the expiration of one year from the date the license or privilege to drive was revoked; (b) after the expiration of the applicable revocation period provided by RCW 46.20.3101 or 46.61.5055; (c) after the expiration of two years for persons convicted of vehicular homicide; or (d) after the expiration of the applicable revocation period provided by RCW 46.20.265. After the expiration of the appropriate period, the person may make application for a new license as provided by law together with a reissue fee in the amount of twenty dollars, but if the revocation is the result of a violation of RCW 46.20.308, 46.61.502, or 46.61.504, the reissue fee shall be fifty dollars. If the revocation is the result of a violation of RCW 46.61.502 or 46.61.504, the department shall determine the person's eligibility for licensing based upon the reports provided by the alcoholism agency or probation department designated under RCW 46.61.5056 and shall deny reissuance of a license, permit, or privilege to drive until enrollment and participation in an approved program has been established and the person is otherwise qualified. Except for a revocation under RCW 46.20.265, the department shall not then issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant the privilege of driving a motor vehicle on the public highways, and until the person gives and thereafter maintains proof of financial responsibility for the future as provided in chapter 46.29 RCW. For a revocation under RCW 46.20.265, the department shall not issue a new license unless it is satisfied after investigation of the driving ability of the person that it will be safe to grant that person the privilege of driving a motor vehicle on the public highways.

(3) Whenever the driver's license of any person is suspended pursuant to Article IV of the nonresident violators compact or RCW 46.23.020 or 46.20.289 or 46.20.291(5), the department shall not issue to the person any new or renewal license until the person pays a reissue fee of twenty dollars. If the suspension is the result of a violation of the laws of this or any other state, province, or other jurisdiction involving (a) the operation or physical control of a motor vehicle upon the public highways while under the influence of intoxicating liquor or drugs, or (b) the refusal to submit to a chemical test of the driver's blood alcohol content, the reissue fee shall be fifty dollars. 46.20.322 Driver improvement interview before suspension, etc.—Exceptions—Appearance of minor's parent or guardian. (1) Whenever the department proposes to suspend or revoke the driving privilege of any person or proposes to impose terms of probation on a person's driving privilege or proposes to refuse to renew a driver's license, notice and an opportunity for a driver improvement interview shall be given before taking such action, except as provided in RCW 46.20.324 and 46.20.325.

(2) Whenever the department proposes to suspend, revoke, restrict, or condition a minor driver's driving privilege the department may require the appearance of the minor's legal guardian or father or mother, otherwise the parent or guardian having custody of the minor. [1979 c 61 § 10; 1973 1st ex.s. c 154 § 88; 1967 c 167 § 6; 1965 ex.s. c 121 § 29.]

46.20.323 Notice of driver improvement interview—Contents. The notice shall contain a statement setting forth the proposed action and the grounds therefor, and notify the person to appear for a driver improvement interview not less than ten days from the date notice is given. [1965 ex.s. c 121 § 30.]

46.20.324 Persons not entitled to driver improvement interview or formal hearing. A person shall not be entitled to a driver improvement interview or formal hearing as hereinafter provided:

(1) When the action by the department is made mandatory by the provisions of this chapter or other law; or

(2) When the person has refused or neglected to submit to an examination as required by RCW 46.20.305. [1965 ex.s. c 121 § 31.]

46.20.325 Suspension or probation before driver improvement interview—Alternative procedure. In the alternative to the procedure set forth in RCW 46.20.322 and 46.20.323 the department, whenever it determines from its records or other sufficient evidence that the safety of persons upon the highways requires such action, shall forthwith and without a driver improvement interview suspend the privilege of a person to operate a motor vehicle or impose reasonable terms and conditions of probation consistent with the safe operation of a motor vehicle. The department shall in such case, immediately notify such licensee in writing and upon his request shall afford him an opportunity for a driver improvement interview as early as practical within not to exceed seven days after receipt of such request, or the department, at the time it gives notice may set the date of a driver improvement interview, giving not less than ten days' notice thereof. [1965 ex.s. c 121 § 32.]

46.20.326 Failure to appear or request driver improvement interview constitutes waiver—Procedure. Failure to appear for a driver improvement interview at the time and place stated by the department in its notice as provided in RCW 46.20.322 and 46.20.323 or failure to request a driver improvement interview within ten days as provided in RCW 46.20.325 constitutes a waiver of a driver improvement interview, and the department may take action without such driver improvement interview, or the department may, upon request of the person whose privilege to drive may be affected, or at its own option, re-open the case, take evidence, change or set aside any order theretofore made, or grant a driver improvement interview. [1990 c 250 § 46; 1965 ex.s. c 121 § 33.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.20.327 Conduct of driver improvement interview—Referee—Evidence—Not deemed hearing. A driver improvement interview shall be conducted in a completely informal manner before a driver improvement analyst sitting as a referee. The applicant or licensee shall have the right to make or file a written answer or statement in which he may controvert any point at issue, and present any evidence or arguments for the consideration of the department pertinent to the action taken or proposed to be taken or the grounds therefor. The department may consider its records relating to the applicant or licensee. The driver improvement interview shall not be deemed an agency hearing. [1965 ex.s. c 121 § 34.]

46.20.328 Findings and notification after driver improvement interview—Request for formal hearing. Upon the conclusion of a driver improvement interview, the department's referee shall make findings on the matter under consideration and shall notify the person involved in writing by personal service of the findings. The referee's findings shall be final unless the person involved is notified to the contrary by personal service or by certified mail within fifteen days. The decision is effective upon notice. The

person upon receiving such notice may, in writing and within ten days, request a formal hearing. [1979 c 61 § 11; 1965 ex.s. c 121 § 35.]

Persons not entitled to formal hearing: RCW 46.20.324.

46.20.329 Formal hearing—Time and place—Notice—Stay pending hearing or appeal—Exception—Conduct of hearing. Upon receiving a request for a formal hearing as provided in RCW 46.20.328, the department shall fix a time and place for hearing as early as may be arranged in the county where the applicant or licensee resides, and shall give ten days' notice of the hearing to the applicant or licensee, except that the hearing may be set for a different place with the concurrence of the applicant or licensee and the period of notice may be waived.

Any decision by the department suspending or revoking a person's driving privilege shall be stayed and shall not take effect while a formal hearing is pending as herein provided or during the pendency of a subsequent appeal to superior court: PROVIDED, That this stay shall be effective only so long as there is no conviction of a moving violation or a finding that the person has committed a traffic infraction which is a moving violation during pendency of hearing and appeal: PROVIDED FURTHER, That nothing in this section shall be construed as prohibiting the department from seeking an order setting aside the stay during the pendency of such appeal in those cases where the action of the department is based upon physical or mental incapacity, or a failure to successfully complete an examination required by this chapter.

A formal hearing shall be conducted by the director or by a person or persons appointed by the director from among the employees of the department. [1982 c 189 § 4; 1981 c 67 § 28; 1979 ex.s. c 136 § 61; 1972 ex.s. c 29 § 1; 1965 ex.s. c 121 § 36.]

46.20.331 Hearing and decision by director's designee. The director may appoint a designee, or designees, to preside over hearings in adjudicative proceedings that may result in the denial, restriction, suspension, or revocation of a driver's license or driving privilege, or in the imposition of requirements to be met prior to issuance or reissuance of a driver's license, under Title 46 RCW. The director may delegate to any such designees the authority to render the final decision of the department in such proceedings. Chapter 34.12 RCW shall not apply to such proceedings. (1) Upon placing a license, permit, or privilege to drive in probationary status under RCW 46.20.310(2)(a), or upon receipt of an abstract indicating a deferred prosecution has been granted under RCW 10.05.060, or upon receipt of a notice of conviction of RCW 46.61.502 or 46.61.504, the department of licensing shall order the person to surrender any Washington state driver's license that may be in his or her possession. Except for when renewing a probationary license, the department shall waive the fifty-dollar fee if the person has a probationary license in his or her possession at the time a new probationary license is required.

The fact that a person's driving privilege is in probationary status or that the person has been issued a probationary license shall not be a part of the person's record that is available to insurance companies. 46.21.010 Compact enacted—Provisions. The driver license compact prepared pursuant to resolutions of the western governors' conference and the western interstate committee on highway policy problems of the council of state governments is hereby entered into and enacted into law, the terms and provisions of which shall be as follows:

DRIVER LICENSE COMPACT

ARTICLE I—Findings and Declaration of Policy

(a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the party states to:

(1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the over-all compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

ARTICLE II—Definitions

As used in this compact:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(b) "Home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.

(c) "Conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

ARTICLE III—Reports of Conviction

The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

ARTICLE IV—Effect of Conviction

(a) The licensing authority in the home state, for the purposes of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Article III of this compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

- (1) Vehicular homicide;
- (2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;
- (3) Any felony in the commission of which a motor vehicle is used;
- (4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this Article, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this Article.

ARTICLE V—Applications for New Licenses

Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) The applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated.

(2) The applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of one year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

ARTICLE VI—Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a non-party state.

ARTICLE VII—Compact Administrator and Interchange of Information

(a) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.

(b) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this compact.

ARTICLE VIII—Entry into Force and Withdrawal

(a) This compact shall enter into force and become effective as to any state when it has enacted the same into law.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

ARTICLE IX—Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining

states and in full force and effect as to the state affected as to all severable matters. [1983 c 164 § 5; 1963 c 120 § 1.]

46.21.020 "Licensing authority" defined—Duty to furnish information. As used in the compact, the term "licensing authority" with reference to this state, shall mean the department of licensing. Said department shall furnish to the appropriate authorities of any other party state any information or documents reasonably necessary to facilitate the administration of Articles III, IV, and V of the compact. [1979 c 158 § 154; 1967 c 32 § 36; 1963 c 120 § 2.]

46.21.030 Expenses of compact administrator. The compact administrator provided for in Article VII of the compact shall not be entitled to any additional compensation on account of his service as such administrator, but shall be entitled to expenses incurred in connection with his duties and responsibilities as such administrator, in the same manner as for expenses incurred in connection with any other duties or responsibilities of his office or employment. [1963 c 120 § 3.]

46.21.040 "Executive head" defined. As used in the compact, with reference to this state, the term "executive head" shall mean governor. [1963 c 120 § 4.]

NONRESIDENT VIOLATOR COMPACT

Article I — Findings, Declaration of Policy, and Purpose

(a) The party jurisdictions find that:

(1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction: Must post collateral or bond to secure appearance for trial at a later date; or if unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or is taken directly to court for his trial to be held.

(2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.

(3) The purpose of the practices described in paragraphs (1) and (2) above is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could

return to him [his] home jurisdiction and disregard his duty under the terms of the traffic citation.

(4) A motorist receiving a traffic citation in his home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue on his way after promising or being instructed to comply with the terms of the citation.

(5) The practice described in paragraph (1) above, causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.

(6) The deposit of a driver's license as a bail bond, as described in paragraph (2) above, is viewed with disfavor.

(7) The practices described herein consume an undue amount of law enforcement time.

(b) It is the policy of the party jurisdictions to:

(1) Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.

(2) Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

(3) Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

(4) Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated in paragraph (b) above in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

Article II — Definitions

As used in the compact, the following words have the meaning indicated, unless the context requires otherwise.

(1) "Citation" means any summons, ticket, notice of infraction, or other official document issued by a police officer for a traffic offense containing an order which requires the motorist to respond.

(10) "Police officer" means any individual authorized by the party jurisdiction to issue a citation for a traffic offense.

(11) "Terms of the citation" means those options expressly stated upon the citation.

Article III — Procedure for Issuing Jurisdiction

(a) When issuing a citation for a traffic violation or infraction, a police officer shall issue the citation to a motorist who possesses a driver's license issued by a party jurisdiction and shall not, subject to the exceptions noted in paragraph (b) of this article, require the motorist to post collateral to secure appearance, if the officer receives the motorist's personal recognizance that he or she will comply with the terms of the citation.

(b) Personal recognizance is acceptable only if not prohibited by law. If mandatory appearance is required, it must take place immediately following issuance of the citation.

(c) Upon failure of a motorist to comply with the terms of a traffic citation, the appropriate official shall report the failure to comply to the licensing authority of the jurisdiction in which the traffic citation was issued. The report shall be made in accordance with procedures specified by the issuing jurisdiction and insofar as practical shall contain information as specified in the compact manual as minimum requirements for effective processing by the home jurisdiction.

(d) Upon receipt of the report, the licensing authority of the issuing jurisdiction shall transmit to the licensing authority in the home jurisdiction of the motorist the information in a form and content substantially conforming to the compact manual.

(a) Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards will be accorded.

(b) The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the compact manual.

Article V — Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party jurisdiction to apply any of its other laws relating to licenses to drive to any person or circumstance, or to invalidate or prevent any driver license agreement or other cooperative arrangement between a party jurisdiction and a nonparty jurisdiction.

Article VI — Compact Administrator Procedures

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The compact administrator shall be appointed by the jurisdiction executive and will serve and be subject to removal in accordance with the laws of the jurisdiction he represents. (i) Controlled and operated by a farmer;

(ii) Used to transport either agricultural products, which in this section include Christmas trees and wood products harvested from private tree farms and transported by vehicles weighing no more than forty thousand pounds licensed gross vehicle weight, farm machinery, farm supplies, or any combination of those materials to or from a farm;

Violations of this subsection shall be punished in the same way as violations of RCW 46.20.342(1). [1995 c 393 § 1; 1990 c 56 § 1; 1989 c 178 § 7.]

(3) A commercial driver's license or commercial driver's instruction permit may not be issued to a person while the person is subject to a disqualification from driving

a commercial motor vehicle, or while the person's driver's license is suspended, revoked, or canceled in any state, nor may a commercial driver's license be issued to a person who has a commercial driver's license issued by any other state unless the person first surrenders all such licenses, which must be returned to the issuing state for cancellation.

(4)(a) A commercial driver's instruction permit may be issued to an individual who holds a valid automobile or classified driver's license.

(b) A commercial driver's instruction permit may not be issued for a period to exceed six months. Only one renewal or reissuance may be granted within a two-year period. A person is disqualified for a period of not less than three years nor more than five years if, during a ten-year period, the person is convicted of or is found to have committed subsequent violations of out-of-service orders, in separate incidents, while transporting hazardous materials required to be placarded under the Hazardous Materials Transportation Act, or while operating motor vehicles designed to transport sixteen or more passengers, including the driver.

(7) Within ten days after suspending, revoking, or canceling a commercial driver's license, the department shall update its records to reflect that action. After suspending, revoking, or canceling a nonresident commercial driver's privileges, the department shall notify the licensing authority of the state that issued the commercial driver's license. [1996 c 30 § 3; 1989 c 178 § 11.]

Effective date—1996 c 30: See note following RCW 46.25.010.

46.25.100 Restoration after disqualification. When a person has been disqualified from operating a commercial motor vehicle, the person is not entitled to have the commercial driver's license restored until after the expiration of the appropriate disqualification period required under RCW 46.25.090. After expiration of the appropriate period and upon payment of a requalification fee of twenty dollars, the person may apply for a new, duplicate, or renewal commercial driver's license as provided by law. If the person has been disqualified for a period of one year or more, the person shall demonstrate that he or she meets the commercial driver's license qualification standards specified in RCW 46.25.060. [1989 c 178 § 12.]

46.25.110 Driving with alcohol in system. (1) Notwithstanding any other provision of Title 46 RCW, a person may not drive, operate, or be in physical control of

a commercial motor vehicle while having alcohol in his or her system.

(2) Law enforcement or appropriate officials shall issue an out-of-service order valid for twenty-four hours against a person who drives, operates, or is in physical control of a commercial motor vehicle while having alcohol in his or her system or who refuses to take a test to determine his or her alcohol content as provided by RCW 46.25.120. [1989 c 178 § 13.]

46.25.120 Test for alcohol or drugs—Disqualification for refusal of test or positive test. (1) A person who drives a commercial motor vehicle within this state is deemed to have given consent, subject to RCW 46.61.506, to take a test or tests of that person's blood or breath for the purpose of determining that person's alcohol concentration or the presence of other drugs.

(2) A test or tests may be administered at the direction of a law enforcement officer, who after stopping or detaining the commercial motor vehicle driver, has probable cause to believe that driver was driving a commercial motor vehicle while having alcohol in his or her system.

(3) The law enforcement officer requesting the test under subsection (1) of this section shall warn the person requested to submit to the test that a refusal to submit will result in that person being disqualified from operating a commercial motor vehicle under RCW 46.25.090.

(4) If the person refuses testing, or submits to a test that discloses an alcohol concentration of 0.04 or more, the law enforcement officer shall submit a sworn report to the department certifying that the test was requested pursuant to subsection (1) of this section and that the person refused to submit to testing, or submitted to a test that disclosed an alcohol concentration of 0.04 or more.

(5) Upon receipt of the sworn report of a law enforcement officer under subsection (4) of this section, the department shall disqualify the driver from driving a commercial motor vehicle under RCW 46.25.090, subject to the hearing provisions of RCW 46.20.329 and 46.20.332. The hearing shall be conducted in the county of the arrest. For the purposes of this section, the hearing shall cover the issues of whether a law enforcement officer had reasonable grounds to believe the person had been driving or was in actual physical control of a commercial motor vehicle within this state while having alcohol in the person's system, whether the person refused to submit to the test or tests upon request of the officer after having been informed that the refusal would result in the disqualification of the person from driving a commercial motor vehicle, and, if the test was administered, whether the results indicated an alcoholic concentration in that person's blood of 0.04 percent or more. The department shall order that the disqualification of the person either be rescinded or sustained. Any decision by the department disqualifying a person from driving a commercial motor vehicle is stayed and does not take effect while a formal hearing is pending under this section or during the pendency of a subsequent appeal to superior court so long as there is no conviction for a moving violation or no finding that the person has committed a traffic infraction that is a moving violation during the pendency of the hearing and appeal. If the disqualification of the person is sustained after the

hearing, the person who is disqualified may file a petition in the superior court of the county of arrest to review the final order of disqualification by the department in the manner provided in RCW 46.20.334. [1990 c 250 § 50; 1989 c 178 § 14.]

[1989 c 178 § 18.]

46.25.170 Civil and criminal penalties. The director of licensing may immediately take such steps as are necessary to insure that all sections of this act are implemented on their respective effective dates. [1989 c 178 § 33.]

SECURITY FOLLOWING ACCIDENT

46.29.060 Application of sections requiring deposit of security and suspensions for failure to deposit security. The provisions of this chapter, requiring deposit of security and suspensions for failure to deposit security, subject to certain exemptions, shall apply to the driver and owner of any vehicle of a type subject to registration under the motor vehicle laws of this state which is in any manner involved in an accident within this state, which accident has resulted in bodily injury or death of any person or damage to the property of any one person to an apparent extent equal to or greater than the minimum amount established by rule adopted by the director. The director shall adopt rules establishing the property damage threshold at which the provisions of this chapter apply with respect to the deposit of security and suspensions for failure to deposit security. Beginning October 1, 1987, the property damage threshold shall be five hundred dollars. The thresholds shall be revised when necessary, but not more frequently than every

(1996 Ed.)

two years. The revisions shall only be for the purpose of recognizing economic changes as reflected by an inflationary index recommended by the office of financial management. The revisions shall be guided by the change in the index for the time period since the last revision and by the threshold established by the chief of the Washington state patrol for the filing of accident reports as provided in RCW 46.52.030. [1987 c 463 § 1; 1977 ex.s. c 369 § 1; 1971 ex.s. c 22 § 2; 1963 c 169 § 6.]

46.29.070 Department to determine amount of security required—Notices. (1) The department, not less than twenty days after receipt of a report of an accident as described in the preceding section, shall determine the amount of security which shall be sufficient in its judgment to satisfy any judgment or judgments for damages resulting from such accident as may be recovered against each driver or owner. Such determination shall not be made with respect to drivers or owners who are exempt under succeeding sections of this chapter from the requirements as to security and suspension.

(2) The department shall determine the amount of security deposit required of any person upon the basis of the reports or other information submitted. In the event a person involved in an accident as described in this chapter fails to make a report or submit information indicating the extent of his injuries or the damage to his property within one hundred eighty days after the accident and the department does not have sufficient information on which to base an evaluation of such injuries or damage, then the department after reasonable notice to such person, if it is possible to give such notice, otherwise without such notice, shall not require any deposit of security for the benefit or protection of such person.

(3) The department after receipt of report of any accident referred to herein and upon determining the amount of security to be required of any person involved in such accident or to be required of the owner of any vehicle involved in such accident shall give written notice to every such person of the amount of security required to be deposited by him and that an order of suspension will be made as hereinafter provided not less than twenty days and not more than sixty days after the sending of such notice unless within said time security be deposited as required by said notice. [1981 c 309 § 1; 1979 c 78 § 1; 1963 c 169 § 7.]

46.29.080 Exceptions as to requirement of security. The requirements as to security and suspension in this chapter shall not apply:

(1) To the driver or owner if the owner had in effect at the time of the accident an automobile liability policy or bond with respect to the vehicle involved in the accident, except that a driver shall not be exempt under this subsection if at the time of the accident the vehicle was being operated without the owner's permission, express or implied;

(2) To the driver, if not the owner of the vehicle involved in the accident, if there was in effect at the time of the accident an automobile liability policy or bond with respect to his driving of vehicles not owned by him;

(3) To the driver, if not the owner of the vehicle involved in the accident, if there was in effect at the time of the accident an automobile liability policy or bond as to which there is a bona fide dispute concerning coverage of such driver as evidenced by the pendency of litigation seeking a declaration of said driver's coverage under such policy or bond;

(4) To the driver, whether or not the owner, if there is a bona fide claim on the part of the driver that there was in effect at the time of the accident, an automobile liability policy or bond insuring or covering such driver;

(6) To the driver or the owner of a vehicle involved in an accident wherein no injury or damage was caused to the person or property of anyone other than such driver or owner;

(7) To the driver or owner of a vehicle which at the time of the accident was parked, unless such vehicle was parked at a place where parking was at the time of the accident prohibited under any applicable law or ordinance;

(8) To the owner of a vehicle if at the time of the accident the vehicle was being operated without his permission, express or implied, or was parked by a person who had been operating such vehicle without such permission, except if the vehicle was operated by his minor child or spouse;

(9) To the owner of a vehicle involved in an accident if at the time of the accident such vehicle was owned by or leased to the United States, this state or any political subdivision of this state or a municipality thereof, or to the driver of such vehicle if operating such vehicle with permission; or

46.29.090 Requirements as to policy or bond. (1) No policy or bond is effective under RCW 46.29.080 unless issued by an insurance company or surety company authorized to do business in this state, except as provided in subsection (2) of this section, nor unless such policy or bond is subject, if the accident has resulted in bodily injury or death, to a limit, exclusive of interest and costs, of not less than twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, to a limit of not less than fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and if the accident has resulted in injury to, or destruction of, property to a limit of not less than ten thousand dollars because of injury to or destruction of property of others in any one accident.

(2) No policy or bond is effective under RCW 46.29.080 with respect to any vehicle which was not registered in this state or was a vehicle which was registered elsewhere than in this state at the effective date of the policy or bond or the most recent renewal thereof, unless the insurance company or surety company issuing such policy or bond is authorized to do business in this state, or if said

company is not authorized to do business in this state, unless it executes a power of attorney authorizing the director of licensing to accept service on its behalf of notice or process in any action upon such policy or bond arising out of such accident.

(3) The department may rely upon the accuracy of the information in a required report of an accident as to the existence of insurance or a bond unless and until the department has reason to believe that the information is erroneous. [1980 c 117 § 3; 1979 c 158 § 155; 1967 ex.s. c 3 § 1; 1963 c 169 § 9.]

(2) Every depositor of security shall designate in writing every person in whose name such deposit is made and may at any time change such designation, but any single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident. [1963 c 169 § 10.]

46.29.110 Failure to deposit security—Suspensions. If a person required to deposit security under this chapter fails to deposit such security within sixty days after the department has sent the notice as hereinbefore provided, the department shall thereupon suspend:

(1) The driver's license of each driver in any manner involved in the accident;

(2) The driver's license of the owner of each vehicle of a type subject to registration under the laws of this state involved in the accident;

(3) If the driver or owner is a nonresident, the privilege of operating within this state a vehicle of a type subject to registration under the laws of this state.

Severability—1990 c 250: See note following RCW 46.16.301.

46.29.120 Release from liability. (1) A person shall be relieved from the requirement for deposit of security for the benefit or protection of another person injured or damaged in the accident in the event he is released from liability by such other person.

(2) In the event the department has evaluated the injuries or damage to any minor the department may accept, for the purposes of this chapter only, evidence of a release from liability executed by a natural guardian or a legal guardian on behalf of such minor without the approval of any court or judge. [1965 c 124 § 2; 1963 c 169 § 12.]

46.29.130 Adjudication of nonliability. A person shall be relieved from the requirement for deposit of security

in respect to a claim for injury or damage arising out of the accident in the event such person has been finally adjudicated not to be liable in respect to such claim. [1963 c 169 § 13.]

46.29.140 Agreements for payment of damages. (1) Any two or more of the persons involved in or affected by an accident as described in RCW 46.29.060 may at any time enter into a written agreement for the payment of an agreed amount with respect to all claims of any of such persons because of bodily injury to or death or property damage arising from such accident, which agreement may provide for payment in installments, and may file a signed copy thereof with the department.

(2) The department, to the extent provided by any such written agreement filed with it, shall not require the deposit of security and shall terminate any prior order of suspension, or, if security has previously been deposited, the department shall immediately return such security to the depositor or his personal representative.

(3) In the event of a default in any payment under such agreement and upon notice of such default the department shall take action suspending the license of such person in default as would be appropriate in the event of failure of such person to deposit security when required under this chapter.

(4) Such suspension shall remain in effect and such license shall not be restored unless and until:

(a) Security is deposited as required under this chapter in such amount as the department may then determine,

(b) When, following any such default and suspension, the person in default has paid the balance of the agreed amount,

(c) When, following any such default and suspension, the person in default has resumed installment payments under an agreement acceptable to the creditor, or

(d) Three years have elapsed following the accident and evidence satisfactory to the department has been filed with it that during such period no action at law upon such agreement has been instituted and is pending. [1981 c 309 § 2; 1963 c 169 § 14.]

46.29.150 Payment upon judgment. The payment of a judgment arising out of an accident or the payment upon such judgment of an amount equal to the maximum amount which could be required for deposit under this chapter shall, for the purposes of this chapter, release the judgment debtor from the liability evidenced by such judgment. [1963 c 169 § 15.]

46.29.160 Termination of security requirement. The department, if satisfied as to the existence of any fact which under RCW 46.29.120, 46.29.130, 46.29.140 or 46.29.150 would entitle a person to be relieved from the security requirements of this chapter, shall not require the deposit of security by the person so relieved from such requirement, or if security has previously been deposited by such person, the department shall immediately return such deposit to such person or to his personal representative. [1963 c 169 § 16.]

46.29.170 Duration of suspension. Unless a suspension is terminated under other provisions of this chapter, any order of suspension by the department under this chapter shall remain in effect and no license shall be renewed for or issued to any person whose license is so suspended until:

(1) Such person shall deposit or there shall be deposited on his behalf the security required under this chapter, or

(2) Three years have elapsed following the date of the accident resulting in such suspension and evidence satisfactory to the department has been filed with it that during such period no action for damages arising out of the accident resulting in such suspension has been instituted.

An affidavit of the applicant that no action at law for damages arising out of the accident has been filed against him or, if filed, that it is not still pending shall be prima facie evidence of that fact. The department may take whatever steps are necessary to verify the statement set forth in any said affidavit. [1981 c 309 § 3; 1963 c 169 § 17.]

46.29.180 Application to nonresidents, unlicensed drivers, unregistered vehicles, and accidents in other states. (1) In case the driver or the owner of a vehicle of a type subject to registration under the laws of this state involved in an accident within this state has no driver's license in this state, then such driver shall not be allowed a driver's license until he has complied with the requirements of this chapter to the same extent that would be necessary if, at the time of the accident, he had held a license or been the owner of a vehicle registered in this state.

(2) When a nonresident's driving privilege is suspended pursuant to RCW 46.29.110, the department shall transmit a certified copy of the record or abstract of such action to the official in charge of the issuance of licenses and registration certificates in the state in which such nonresident resides, if the law of such other state provided for action in relation thereto similar to that provided for in subsection (3) of this section.

(3) Upon receipt of such certification that the driving privilege of a resident of this state has been suspended or revoked in any such other state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle accident, under circumstances which would require the department to suspend a nonresident's driving privilege had the accident occurred in this state, the department shall suspend the license of such resident. Such suspension shall continue until such resident furnishes evidence of his compliance with the law of such other state relating to the deposit of such security. [1967 c 32 § 38; 1963 c 169 § 18.]

46.29.190 Authority of department to decrease amount of security. The department may reduce the amount of security ordered in any case if in its judgment the amount ordered is excessive. In case the security originally ordered has been deposited, the excess deposit over the reduced amount ordered shall be returned to the depositor or his personal representative forthwith. [1965 c 124 § 3; 1963 c 169 § 19.]

46.29.200 Correction of action by department. Whenever the department has taken any action or has failed

to take any action under this chapter by reason of having received erroneous information, then upon receiving correct information within three years after the date of an accident the department shall take appropriate action to carry out the purposes and effect of this chapter. The foregoing, however, shall not be deemed to require the department to reevaluate the amount of any deposit required under this chapter. [1967 c 61 § 1; 1965 c 124 § 4; 1963 c 169 § 20.]

46.29.210 Custody of security. The department shall place any security deposited with it under this chapter in the custody of the state treasurer. [1963 c 169 § 21.]

46.29.220 Disposition of security. (1) Such security shall be applicable and available only:

(a) For the payment of any settlement agreement covering any claim arising out of the accident upon instruction of the person who made the deposit, or

(b) For the payment of a judgment or judgments, rendered against the person required to make the deposit, for damages arising out of the accident in an action at law begun not later than three years after the date of the accident.

(2) Every distribution of funds from the security deposits shall be subject to the limits of the department's evaluation on behalf of a claimant. [1981 c 309 § 4; 1963 c 169 § 22.]

46.29.230 Return of deposit. Upon the expiration of three years from the date of the accident resulting in the security requirement, any security remaining on deposit shall be returned to the person who made such deposit or to his personal representative if an affidavit or other evidence satisfactory to the department has been filed with it:

(1) That no action for damages arising out of the accident for which deposit was made is pending against any person on whose behalf the deposit was made, and

(2) That there does not exist any unpaid judgment rendered against any such person in such an action.

The foregoing provisions of this section shall not be construed to limit the return of any deposit of security under any other provision of this chapter authorizing such return. [1981 c 309 § 5; 1963 c 169 § 23.]

46.29.240 Certain matters not evidence in civil suits. The report required following an accident, the action taken by the department pursuant to this chapter, the findings, if any, of the department upon which such action is based, and the security filed as provided in this chapter, shall not be referred to in any way, and shall not be any evidence of the negligence or due care of either party, at the trial of any action at law to recover damages. [1963 c 169 § 24.]

PROOF OF FINANCIAL RESPONSIBILITY FOR THE FUTURE

46.29.250 Application of sections requiring deposit of proof of financial responsibility for the future. The provisions of this chapter requiring the deposit of proof of financial responsibility for the future, subject to certain

exemptions, shall apply with respect to persons who have been convicted of or forfeited bail for certain offenses under motor vehicle laws, or who have failed to pay judgments upon causes of action arising out of ownership, maintenance or use of vehicles of a type subject to registration under the laws of this state, or who having driven or owned a vehicle involved in an accident are required to deposit security under the provisions of RCW 46.29.070. [1963 c 169 § 25.]

46.29.260 Meaning of "proof of financial responsibility for the future." The term "proof of financial responsibility for the future" as used in this chapter means: Proof of ability to respond in damages for liability, on account of accidents occurring subsequent to the effective date of said proof, arising out of the ownership, maintenance, or use of a vehicle of a type subject to registration under the laws of this state, in the amount of twenty-five thousand dollars because of bodily injury to or death of one person in any one accident, and, subject to said limit for one person, in the amount of fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and in the amount of ten thousand dollars because of injury to or destruction of property of others in any one accident. Wherever used in this chapter the terms "proof of financial responsibility" or "proof" shall be synonymous with the term "proof of financial responsibility for the future." [1980 c 117 § 4; 1967 ex.s. c 3 § 2; 1963 c 169 § 26.]

Effective date—1980 c 117: See note following RCW 48.22.030.

Effective date—1967 ex.s. c 3: See note following RCW 46.29.090.

46.29.270 Meaning of "judgment" and "state." The following words and phrases when used in this chapter shall, for the purpose of this chapter, have the meanings respectively ascribed to them in this section.

(1) The term "judgment" shall mean: Any judgment which shall have become final by expiration without appeal of the time within which an appeal might have been perfected, or by final affirmation on appeal, rendered by a court of competent jurisdiction of any state or of the United States, upon a cause of action arising out of the ownership, maintenance or use of any vehicle of a type subject to registration under the laws of this state, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, or upon a cause of action on an agreement of settlement for such damages.

(2) The term "state" shall mean: Any state, territory, or possession of the United States, the District of Columbia, or any province of the Dominion of Canada. [1963 c 169 § 27.]

46.29.280 Suspension continues until proof furnished. Whenever, under any law of this state, the license of any person is suspended or revoked by reason of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed, the suspension or revocation hereinbefore required shall remain in effect and the department shall not issue to such person any new or renewal of license until permitted under the motor vehicle laws of this state, and not then unless and until such person shall give

and thereafter maintain proof of financial responsibility for the future. Upon receiving notice of the termination or cancellation of proof of financial responsibility for the future, the department shall resuspend or rerevoke the person's driving privilege until the person again gives and thereafter maintains proof of financial responsibility for the future. [1985 c 157 § 1; 1979 ex.s. c 136 § 64; 1963 c 169 § 28.]

Effective date—Severability—1979 ex.s. c 136: See notes following RCW 46.63.010.

46.29.290 Action in respect to unlicensed person.

If a person has no license, but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for any offense requiring the suspension or revocation of license, no license shall be thereafter issued to such person unless he shall give and thereafter maintain proof of financial responsibility for the future. [1965 c 124 § 5; 1963 c 169 § 29.]

46.29.300 Action in respect to nonresidents.

Whenever the department suspends or revokes a nonresident's driving privilege by reason of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility for the future. [1979 ex.s. c 136 § 65; 1967 c 32 § 39; 1963 c 169 § 30.]

Effective date—Severability—1979 ex.s. c 136: See notes following RCW 46.63.010.

46.29.310 When courts to report nonpayment of judgments. Whenever any person fails within thirty days to satisfy any judgment, then it shall be the duty of the clerk of the court, or of the judge of a court which has no clerk, in which any such judgment is rendered within this state to forward immediately to the department the following:

- (1) A certified copy or abstract of such judgment;
- (2) A certificate of facts relative to such judgment;
- (3) Where the judgment is by default, a certified copy or abstract of that portion of the record which indicates the manner in which service of summons was effectuated and all the measures taken to provide the defendant with timely and actual notice of the suit against him. [1969 ex.s. c 44 § 1; 1963 c 169 § 31.]

46.29.320 Further action with respect to nonresidents. If the defendant named in any certified copy or abstract of a judgment reported to the department is a nonresident, the department shall transmit those certificates furnished to it under RCW 46.29.310 to the official in charge of the issuance of licenses and registrations of the state of which the defendant is a resident. [1969 ex.s. c 44 § 2; 1963 c 169 § 32.]

46.29.330 Suspension for nonpayment of judgments. The department upon receipt of the certificates provided for by RCW 46.29.310, on a form provided by the department, shall forthwith suspend the license and any nonresident's driving privilege of any person against whom such judgment

was rendered, except as otherwise provided in this chapter. [1990 c 250 § 52; 1969 ex.s. c 44 § 3; 1967 c 32 § 40; 1963 c 169 § 33.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.29.340 Exception in relation to government vehicles. The provisions of RCW 46.29.330 shall not apply with respect to any such judgment arising out of an accident caused by the ownership or operation, with permission, of a vehicle owned or leased to the United States, this state or any political subdivision of this state or a municipality thereof. [1963 c 169 § 34.]

46.29.350 Exception when consent granted by judgment creditor. If the judgment creditor consents in writing, in such form as the department may prescribe, that the judgment debtor be allowed a license or nonresident's driving privilege, the same may be allowed by the department, in its discretion, for six months from the date of such consent and thereafter until such consent is revoked in writing, notwithstanding default in the payment of such judgment, or of any installments thereof prescribed in RCW 46.29.400, provided the judgment debtor furnishes proof of financial responsibility. [1967 c 32 § 41; 1963 c 169 § 35.]

46.29.360 Exception when insurer liable. No license or nonresident's driving privilege of any person shall be suspended under the provisions of this chapter if the department shall find that an insurer was obligated to pay the judgment upon which suspension is based, at least to the extent and for the amounts required in this chapter, but has not paid such judgment for any reason. A finding by the department that an insurer is obligated to pay a judgment shall not be binding upon such insurer and shall have no legal effect whatever except for the purpose of administering this section. If the department finds that no insurer is obligated to pay such a judgment, the judgment debtor may file with the department a written notice of his intention to contest such finding by an action in the superior court. In such a case the license or the nonresident's driving privilege of such judgment debtor shall not be suspended by the department under the provisions of this chapter for thirty days from the receipt of such notice nor during the pendency of any judicial proceedings brought in good faith to determine the liability of an insurer so long as the proceedings are being diligently prosecuted to final judgment by such judgment debtor. Whenever in any judicial proceedings it shall be determined by any final judgment, decree or order that an insurer is not obligated to pay any such judgment, the department, notwithstanding any contrary finding theretofore made by it, shall forthwith suspend the license and any nonresident's driving privilege of any person against whom such judgment was rendered, as provided in RCW 46.29.330. [1967 c 32 § 42; 1963 c 169 § 36.]

46.29.370 Suspension continues until judgments paid and proof given. Such license and nonresident's driving privilege shall remain so suspended and shall not be renewed, nor shall any such license be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is

stayed, satisfied in full or to the extent hereinafter provided and until the said person gives proof of financial responsibility subject to the exemptions stated in RCW 46.29.350, 46.29.360 and 46.29.400. [1967 c 32 § 43; 1963 c 169 § 37.]

46.29.390 Payments sufficient to satisfy requirements. (1) Judgments herein referred to are, for the purpose of this chapter only, deemed satisfied:

(a) When twenty-five thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of one person as the result of any one accident; or

(b) When, subject to such limit of twenty-five thousand dollars because of bodily injury to or death of one person, the sum of fifty thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of two or more persons as the result of any one accident; or

(c) When ten thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of injury to or destruction of property of others as a result of any one accident.

(2) Payments made in settlements of any claims because of bodily injury, death, or property damage arising from such accident shall be credited in reduction of the amounts provided for in this section. [1980 c 117 § 5; 1979 c 61 § 14; 1967 ex.s. c 3 § 3; 1963 c 169 § 39.]

Effective date—1980 c 117: See note following RCW 48.22.030.

Effective date—1967 ex.s. c 3: See note following RCW 46.29.090.

46.29.400 Installment payment of judgments—Default. (1) A judgment debtor upon due notice to the judgment creditor may apply to the court in which such judgment was rendered for the privilege of paying such judgment in installments and the court, in its discretion and without prejudice to any other legal remedies which the judgment creditor may have, may so order and fix the amounts and times of payment of the installments.

(2) The department shall not suspend a license or nonresident's driving privilege, and shall restore any license or nonresident's driving privilege suspended following nonpayment of a judgment, when the judgment debtor gives proof of financial responsibility and obtain such an order permitting the payment of such judgment in installments, and while the payment of any said installments is not in default. [1967 c 32 § 44; 1963 c 169 § 40.]

46.29.410 Action if breach of agreement. In the event the judgment debtor fails to pay any installment as specified by such order, then upon notice of such default, the department shall forthwith suspend the license or nonresident's driving privilege of the judgment debtor until such judgment is satisfied, as provided in this chapter. [1967 c 32 § 45; 1963 c 169 § 41.]

46.29.420 Proof required in addition to deposit of security after accident. Any person required to deposit security under RCW 46.29.070, for the benefit or protection of another person injured or damaged in an accident, shall in addition be required to give proof of financial responsibility

for the future. The department shall give written notice of such additional requirement to every such person at the time and in the manner provided in RCW 46.29.070 for giving notice of the requirement for security. [1963 c 169 § 42.]

46.29.430 Additional proof required—Suspension or revocation for failure to give proof. If a person required to give proof of financial responsibility under RCW 46.29.420 fails to give such proof within sixty days after the department has sent notice as hereinbefore provided, the department shall suspend, or continue in effect any existing suspension or revocation of, the license or any nonresident's driving privilege of the person. [1990 c 250 § 53; 1987 c 371 § 1; 1967 c 32 § 46; 1963 c 169 § 43.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.29.440 Additional proof required—Suspension to continue until proof given and maintained. Such license or nonresident's driving privilege shall remain so suspended and shall not be renewed, nor shall any such license be thereafter issued in the name of such person, including any such person not previously licensed, unless and until such person shall give and thereafter maintain proof of financial responsibility for the future. The furnishing of such proof shall permit such person to operate only a motor vehicle covered by such proof. The department shall endorse appropriate restrictions on the license held by such person or may issue a new license containing such restrictions. [1967 c 32 § 47; 1965 c 124 § 6; 1963 c 169 § 44.]

46.29.450 Alternate methods of giving proof. Proof of financial responsibility when required under this chapter, with respect to such a vehicle or with respect to a person who is not the owner of such a vehicle, may be given by filing:

(1) A certificate of insurance as provided in RCW 46.29.460 or 46.29.470;

(2) A bond as provided in RCW 46.29.520;

(3) A certificate of deposit of money or securities as provided in RCW 46.29.550; or

(4) A certificate of self-insurance, as provided in RCW 46.29.630, supplemented by an agreement by the self-insurer that, with respect to accidents occurring while the certificate is in force, he will pay the same amounts that an insurer would have been obliged to pay under an owner's motor vehicle liability policy if it had issued such a policy to said self-insurer. [1963 c 169 § 45.]

46.29.460 Certificate of insurance as proof. Proof of financial responsibility for the future may be furnished by filing with the department the written certificate of any insurance carrier duly authorized to do business in this state certifying that there is in effect a motor vehicle liability policy for the benefit of the person required to furnish proof of financial responsibility. Such certificate shall give the effective date of such motor vehicle liability policy, which date shall be the same as the effective date of the certificate, and shall designate by explicit description or by appropriate reference all vehicles covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle. [1963 c 169 § 46.]

46.29.470 Certificate furnished by nonresident as proof. A nonresident may give proof of financial responsibility by filing with the department a written certificate or certificates of an insurance carrier authorized to transact business in the state in which the vehicle, or vehicles, owned by such nonresident is registered, or in the state in which such nonresident resides, if he does not own a vehicle, provided such certificate otherwise conforms with the provisions of this chapter, and the department shall accept the same upon condition that said insurance carrier complies with the following provisions with respect to the policies so certified:

(1) Said insurance carrier shall execute a power of attorney authorizing the director to accept service on its behalf of notice or process in any action arising out of a motor vehicle accident in this state;

(2) Said insurance carrier shall agree in writing that such policies shall be deemed to conform with the laws of this state relating to the terms of motor vehicle liability policies issued therein. [1963 c 169 § 47.]

46.29.480 Default by nonresident insurer. If any insurance carrier not authorized to transact business in this state, which has qualified to furnish proof of financial responsibility, defaults in any said undertakings or agreements, the department shall not thereafter accept as proof any certificate of said carrier whether theretofore filed or thereafter tendered as proof, so long as such default continues. [1963 c 169 § 48.]

46.29.490 "Motor vehicle liability policy" defined.

(1) Certification. A "motor vehicle liability policy" as said term is used in this chapter means an "owner's policy" or an "operator's policy" of liability insurance, certified as provided in RCW 46.29.460 or 46.29.470 as proof of financial responsibility for the future, and issued, except as otherwise provided in RCW 46.29.470, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named in the policy as insured.

(2) Owner's policy. Such owner's policy of liability insurance:

(a) Shall designate by explicit description or by appropriate reference all vehicles with respect to which coverage is to be granted by the policy; and

(b) Shall insure the person named therein and any other person, as insured, using any such vehicle or vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or use of such vehicle or vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such vehicle as follows: Twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and ten thousand dollars because of injury to or destruction of property of others in any one accident.

(3) Operator's policy. Such operator's policy of liability insurance shall insure the person named as insured therein

against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

(4) Required statements in policies. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided under the policy in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter.

(5) Policy need not insure workers' compensation, etc. Such motor vehicle liability policy need not insure any liability under any workers' compensation law nor any liability on account of bodily injury or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance, or repair of any such vehicle nor any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

(6) Provisions incorporated in policy. Every motor vehicle liability policy is subject to the following provisions which need not be contained therein:

(a) The liability of the insurance carrier with respect to the insurance required by this chapter becomes absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy defeats or voids said policy.

(b) The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage.

(c) The insurance carrier may settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof is deductible from the limits of liability specified in subdivision (b) of subsection (2) of this section.

(d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this chapter constitutes the entire contract between the parties.

(7) Excess or additional coverage. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and such excess or additional coverage is not subject to the provisions of this chapter. With respect to a policy which grants such excess or additional coverage the term "motor vehicle liability policy" applies only to that part of the coverage which is required by this section.

(8) Reimbursement provision permitted. Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter.

(9) Proration of insurance permitted. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(10) Multiple policies. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carrier which policies together meet such requirements.

(11) Binders. Any binder issued pending the issuance of a motor vehicle liability policy is deemed to fulfill the requirements for such a policy. [1980 c 117 § 6; 1967 ex.s. c 3 § 4; 1963 c 169 § 49.]

Effective date—1980 c 117: See note following RCW 48.22.030.

Effective date—1967 ex.s. c 3: See note following RCW 46.29.090.

46.29.500 Notice of cancellation or termination of certified policy. When an insurance carrier has certified a motor vehicle liability policy under RCW 46.29.460 or 46.29.470 the insurance so certified shall not be canceled or terminated until at least ten days after a notice of cancellation or termination of the insurance so certified shall be filed in the department, except that such a policy subsequently procured and certified shall, on the effective date of its certification, terminate the insurance previously certified with respect to any vehicle designated in both certificates. [1963 c 169 § 50.]

46.29.510 Chapter not to affect other policies. (1) This chapter shall not be held to apply to or affect policies of automobile insurance against liability which may now or hereafter be required by any other law of this state, and such policies, if they contain an agreement or are endorsed to conform with the requirements of this chapter, may be certified as proof of financial responsibility under this chapter.

(2) This chapter shall not be held to apply to or affect policies insuring solely the insured named in the policy against liability resulting from the maintenance or use by persons in the insured's employ or on his behalf of vehicles not owned by the insured. [1963 c 169 § 51.]

46.29.520 Bond as proof. Proof of financial responsibility may be evidenced by the bond of a surety company duly authorized to transact business within this state, or a bond with at least two individual sureties each owning real estate within this state, and together having equities equal in value to at least twice the amount of the bond, which real estate shall be scheduled in the bond approved by a judge of the superior court, which said bond shall be conditioned for payment of the amounts specified in RCW 46.29.260. Such bond shall be filed with the department and shall not be cancellable except after ten days written notice to the department. [1963 c 169 § 52.]

46.29.530 When bond constitutes a lien. Before a bond with individual sureties is accepted by the department it shall be recorded as other instruments affecting real property in the county or counties wherein any real estate scheduled in such bond is located. Such bond shall constitute a lien from the date of such recording in favor of the state upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a final judgment

against the person who has filed such bond, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damage because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a vehicle of a type subject to registration under the laws of this state after such bond was filed. [1963 c 169 § 53.]

46.29.540 Action on bond. If a judgment, rendered against the principal on any bond described in RCW 46.29.520, shall not be satisfied within thirty days after it has become final, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action or actions in the name of the state against the company or persons executing such bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of a person who has executed such bond. Such an action to foreclose a lien shall be prosecuted in the same manner as an action to foreclose a mortgage on real estate. [1963 c 169 § 54.]

46.29.550 Money or securities as proof. Proof of financial responsibility may be evidenced by the certificate of the state treasurer that the person named therein has deposited with him sixty thousand dollars in cash, or securities such as may legally be purchased by savings banks or for trust funds of a market value of sixty thousand dollars. The state treasurer shall not accept any such deposit and issue a certificate therefor and the department shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides. [1980 c 117 § 7; 1967 ex.s. c 3 § 5; 1963 c 169 § 55.]

Effective date—1980 c 117: See note following RCW 48.22.030.

Effective date—1967 ex.s. c 3: See note following RCW 46.29.090.

46.29.560 Application of deposit. Such deposit shall be held by the state treasurer to satisfy, in accordance with the provisions of this chapter, any execution on a judgment issued against such person making the deposit, for damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a vehicle of a type subject to registration under the laws of this state after such deposit was made. Money or securities so deposited shall not be subject to attachment or execution unless such attachment or execution shall arise out of a suit for damages as aforesaid. Any interest or other income accruing to such money or securities, so deposited, shall be paid by the state treasurer to the depositor, or his order, as received. [1963 c 169 § 56.]

46.29.570 Owner may give proof for others. The owner of a motor vehicle may give proof of financial responsibility on behalf of his employee or a member of his immediate family or household in lieu of the furnishing of proof by any said person. The furnishing of such proof shall permit such person to operate only a motor vehicle covered

by such proof. The department shall endorse appropriate restrictions on the license held by such person, or may issue a new license containing such restrictions. [1963 c 169 § 57.]

46.29.580 Substitution of proof. The department shall consent to the cancellation of any bond or certificate of insurance or the department shall direct and the state treasurer shall return any money or securities to the person entitled thereto upon the substitution and acceptance of other adequate proof of financial responsibility pursuant to this chapter. [1963 c 169 § 58.]

46.29.590 Other proof required, when. Whenever any proof of financial responsibility filed under the provisions of this chapter no longer fulfills the purposes for which required, the department shall, for the purpose of this chapter, require other proof as required by this chapter and shall suspend the license and registration pending the filing of such other proof. [1963 c 169 § 59.]

46.29.600 Duration of proof—When proof may be canceled or returned. (1) The department shall upon request consent to the immediate cancellation of any bond or certificate of insurance, or the department shall direct and the state treasurer shall return to the person entitled thereto any money or securities deposited pursuant to this chapter as proof of financial responsibility, or the department shall waive the requirement of filing proof, in any of the following events:

(a) At any time after three years from the date such proof was required when, during the three-year period preceding the request, the department has not received record of a conviction, forfeiture of bail, or finding that a traffic infraction has been committed which would require or permit the suspension or revocation of the license of the person by or for whom such proof was furnished; or

(b) In the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

(c) In the event the person who has given proof surrenders his license to the department;

(2) Provided, however, that the department shall not consent to the cancellation of any bond or the return of any money or securities in the event any action for damages upon a liability covered by such proof is then pending or any judgment upon any such liability is then unsatisfied, or in the event the person who has filed such bond or deposited such money or securities has within one year immediately preceding such request been involved as a driver or owner in any motor vehicle accident resulting in injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that he has been released from all of his liability, or has been finally adjudicated not to be liable, for such injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the department.

(3) Whenever any person whose proof has been canceled or returned under subdivision (1)(c) of this section applies for a license within a period of three years from the date proof was originally required, any such application shall

be refused unless the applicant shall reestablish such proof for the remainder of such three-year period. [1979 ex.s. c 136 § 66; 1963 c 169 § 60.]

Effective date—Severability—1979 ex.s. c 136: See notes following RCW 46.63.010.

VIOLATIONS

46.29.605 Suspension of registration, notice—Surrender of license plates—Penalties. (1) Whenever the involvement in a motor vehicle accident in this state results in the driving privilege of a person being suspended for failure to pay a judgment or deposit security, the department shall suspend the Washington registration of the motor vehicle if the person driving at the time of the accident was also the registered owner of the motor vehicle.

(2) A notice of suspension shall be mailed by first class mail to the owner's last known address of record in the department and shall be effective notwithstanding the owner's failure to receive the notice.

(3) Upon suspension of the registration of a motor vehicle, the registered owner shall surrender all vehicle license plates registered to the vehicle. The department shall destroy the license plates and, upon reinstatement of the registration, shall issue new vehicle license plates as provided in RCW 46.16.270.

(4) Failure to surrender license plates under subsection (3) of this section is a misdemeanor punishable by imprisonment for not less than one day nor more than five days and by a fine of not less than fifty dollars nor more than two hundred fifty dollars.

(5) No vehicle license plates or certificate of ownership or registration for a motor vehicle may be issued and no vehicle license may be renewed during the time the registration of the motor vehicle is suspended.

[1981 c 309 § 6.]

46.29.610 Surrender of license—Penalty. MISCELLANEOUS

46.29.630 Self-insurers. (1) Any person in whose name more than twenty-five vehicles are registered in this state may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the department as provided in subsection (2) of this section.

(2) The department may, in its discretion, upon the application of such a person, issue a certificate of self-insurance when it is satisfied that such person is possessed and will continue to be possessed of ability to pay judgment obtained against such person. Such certificate may be issued authorizing a person to act as a self-insurer for either property damage or bodily injury, or both.

(3) Upon not less than five days' notice and a hearing pursuant to such notice, the department may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay any judgment within thirty days after such judgment shall have become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance. [1963 c 169 § 63.]

46.29.640 Chapter not to prevent other process. Nothing in this chapter shall be construed as preventing the plaintiff in any action at law from relying for relief upon the other processes provided by law. [1963 c 169 § 64.]

MANDATORY LIABILITY INSURANCE

Sections

46.30.010	Legislative intent.
46.30.020	Liability insurance or other financial responsibility required—Violations—Exceptions.
46.30.030	Insurance identification card.
46.30.040	Providing false evidence of financial responsibility—Penalty.
46.30.900	Severability—1989 c 353.
46.30.901	Effective date—1989 c 353.

46.30.010 Legislative intent. It is a privilege granted by the state to operate a motor vehicle upon the highways of this state. The legislature recognizes the threat that uninsured drivers are to the people of the state. In order to alleviate the threat posed by uninsured drivers it is the intent of the legislature to require that all persons driving vehicles registered in this state satisfy the financial responsibility requirements of this chapter. By enactment of this chapter it is not the intent of the legislature to modify, amend, or invalidate existing insurance contract terms, conditions, limitations, or exclusions or to preclude insurance companies from using similar terms, conditions, limitations, or exclusions in future contracts. [1989 c 353 § 1.]

46.30.020 Liability insurance or other financial responsibility required—Violations—Exceptions. (1)(a) No person may operate a motor vehicle subject to registration under chapter 46.16 RCW in this state unless the person is insured under a motor vehicle liability policy with liability limits of at least the amounts provided in RCW 46.29.090, is self-insured as provided in RCW 46.29.630, is covered by a certificate of deposit in conformance with RCW 46.29.550, or is covered by a liability bond of at least the amounts provided in RCW 46.29.090. Written proof of financial responsibility for motor vehicle operation must be provided on the request of a law enforcement officer in the format specified under RCW 46.30.030.

(b) A person who drives a motor vehicle that is required to be registered in another state that requires drivers and owners of vehicles in that state to maintain insurance or financial responsibility shall, when requested by a law enforcement officer, provide evidence of financial responsibility or insurance as is required by the laws of the state in which the vehicle is registered.

(c) When asked to do so by a law enforcement officer, failure to display an insurance identification card as specified under RCW 46.30.030 creates a presumption that the person does not have motor vehicle insurance.

(d) Failure to provide proof of motor vehicle insurance is a traffic infraction and is subject to penalties as set by the supreme court under RCW 46.63.110 or community service.

(2) If a person cited for a violation of subsection (1) of this section appears in person before the court and provides written evidence that at the time the person was cited, he or

she was in compliance with the financial responsibility requirements of subsection (1) of this section, the citation shall be dismissed. In lieu of personal appearance, a person cited for a violation of subsection (1) of this section may, before the date scheduled for the person's appearance before the court, submit by mail to the court written evidence that at the time the person was cited, he or she was in compliance with the financial responsibility requirements of subsection (1) of this section, in which case the citation shall be dismissed without cost, except that the court may assess court administrative costs of twenty-five dollars at the time of dismissal.

(3) The provisions of this chapter shall not govern:

(a) The operation of a motor vehicle registered under RCW 46.16.305(1), governed by RCW 46.16.020, or registered with the Washington utilities and transportation commission as common or contract carriers; or

(b) The operation of a motorcycle as defined in RCW 46.04.330, a motor-driven cycle as defined in RCW 46.04.332, or a moped as defined in RCW 46.04.304.

(4) RCW 46.29.490 shall not be deemed to govern all motor vehicle liability policies required by this chapter but only those certified for the purposes stated in chapter 46.29 RCW. [1991 sp.s. c 25 § 1; 1991 c 339 § 24; 1989 c 353 § 2.]

Notice of liability insurance requirement: RCW 46.16.212.

46.30.030 Insurance identification card. (1) Whenever an insurance company issues or renews a motor vehicle liability insurance policy, the company shall provide the policyholder with an identification card as specified by the department of licensing. At the policyholder's request, the insurer shall provide the policyholder a card for each vehicle covered under the policy.

(2) The department of licensing shall adopt rules specifying the type, style, and content of insurance identification cards to be used for proof of compliance with RCW 46.30.020, including the method for issuance of such identification cards by persons or organizations providing proof of compliance through self-insurance, certificate of deposit, or bond. In adopting such rules the department shall consider the guidelines for insurance identification cards developed by the insurance industry committee on motor vehicle administration. [1989 c 353 § 3.]

46.30.040 Providing false evidence of financial responsibility—Penalty. Any person who knowingly provides false evidence of financial responsibility to a law enforcement officer or to a court, including an expired or canceled insurance policy, bond, or certificate of deposit is guilty of a misdemeanor. [1991 sp.s. c 25 § 2; 1989 c 353 § 4.]

46.30.900 Severability—1989 c 353. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1989 c 353 § 12.]

46.30.901 Effective date—1989 c 353. This act shall take effect January 1, 1990. The director of the department

of licensing may immediately take such steps as are necessary to ensure that this act is implemented on its effective date. [1989 c 353 § 13.]

(c) Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All employees of the utilities and transportation commission engaged in performing the powers, functions, and duties transferred are transferred to the jurisdiction of the Washington state patrol. All employees classified under chapter 41.06 RCW, the state civil service law, are assigned to the Washington state patrol to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service. These employees will only be transferred upon successful completion of the Washington state patrol background investigation.

(4) All rules and all pending business before the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the Washington state patrol. All existing contracts and obligations remain in full force and shall be performed by the Washington state patrol.

(5) The transfer of the powers, duties, functions, and personnel of the utilities and transportation commission does not affect the validity of any act performed before January 1, 1996.

(6) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification.

(7) Nothing contained in this section alters an existing collective bargaining unit or the provisions of an existing collective bargaining agreement until the agreement has expired or until the bargaining unit has

been modified by action of the personnel board as provided by law." [1995 c 272 § 4.]

46.32.090 Fees. The department shall collect a fee of ten dollars, in addition to all other fees and taxes, for each motor vehicle base plated in the state of Washington that is subject to highway inspections and terminal audits under RCW 46.32.080, at the time of registration and renewal of registration under chapter 46.16 or 46.87 RCW, or the International Registration Plan if based [base] plated in a foreign jurisdiction. The ten-dollar fee must be apportioned for those vehicles operating interstate and registered under the International Registration Plan. This fee does not apply to nonmotor-powered vehicles, including trailers. Refunds will not be provided for fees paid under this section when the vehicle is no longer subject to RCW 46.32.080. The department may deduct an amount equal to the cost of administering the program. All remaining fees shall be deposited with the state treasurer and credited to the state patrol highway account of the motor vehicle fund. [1996 c 86 § 1; 1995 c 272 § 2.]

Each violation is a separate and distinct offense, and in case of a continuing violation every day's continuance is a separate and distinct violation.

The penalty provided in this section is due and payable when the person incurring it receives a notice in writing from the patrol describing the violation and advising the person that the penalty is due. The patrol may, upon written application for review, received within fifteen days, remit or mitigate a penalty provided for in this section or discontinue a prosecution to recover the penalty upon such terms it deems proper and may ascertain the facts upon all such applications in such manner and under such rules as it deems proper. If the amount of the penalty is not paid to the patrol within fifteen days after receipt of the notice imposing the penalty, or application for remission or mitigation has not been made within fifteen days after the violator has received notice of the disposition of the application, the attorney general shall bring an action in the name of the state of Washington in the superior court of Thurston county or of some other county in which the violator does business, to recover the penalty. In all such actions the procedure and rules of evidence are the same as an ordinary civil action except as otherwise provided in this chapter. (3) Vehicles operated by public agencies whose law enforcement duties include the authority to stop and detain motor vehicles on the public highways of the state may be equipped with a siren and lights of a color and type designated by the state patrol for that purpose. The state patrol may prohibit the use of these sirens and lights on vehicles other than the vehicles described in this subsection.

(4) The lights described in this section shall not be mounted nor used on any vehicle other than a school bus, a private carrier bus, or an authorized emergency or law enforcement vehicle. Optical strobe light devices shall not be installed or used on any vehicle other than an emergency vehicle authorized by the state patrol, a publicly owned law enforcement or emergency vehicle, a department of transportation, city, or county maintenance vehicle, or a public transit vehicle.

(a) An "optical strobe light device" used by emergency vehicles means a strobe light device which emits an optical signal at a specific frequency to a traffic control light enabling the emergency vehicle in which the strobe light device is used to obtain the right of way at intersections.

(b) An "optical strobe light device" used by department of transportation, city, or county maintenance vehicles means a strobe light device that emits an optical signal at a specific frequency to a traffic control light enabling the department of transportation maintenance vehicle in which the strobe light device is used to perform maintenance tests.

(c) An "optical strobe light device" used by public transit vehicles means a strobe light device that emits an optical signal at a specific frequency to a traffic control light enabling the public transit vehicle in which the strobe light device is used to accelerate the cycle of the traffic control light. For the purposes of this section, "public transit vehicle" means vehicles, owned by a governmental entity, with a seating capacity for twenty-five or more persons and used to provide mass transportation. Public transit vehicles operating an optical strobe light will have second degree priority to emergency vehicles when simultaneously approaching the same traffic control light.

(5) The use of the signal equipment described herein, except the optical strobe light devices used by public transit vehicles and department of transportation, city, or county maintenance vehicles that are not used in conjunction with emergency equipment, shall impose upon drivers of other vehicles the obligation to yield right of way and stop as prescribed in RCW 46.61.210, 46.61.370, and 46.61.350. However, a private carrier bus that regularly transports children to and from a private school or in connection with school activities may display the words "school bus" in a manner provided in this section and need not comply with the requirements set forth in the most recent edition of "Specifications for School Buses" published by the superintendent of public instruction. Legislative finding—1990 c 94: "The legislature declares that public agencies should not engage in activity that leads or abets a person to engage in conduct that is not lawful. The legislature finds that some public agencies sell emergency vehicle lighting equipment at public auctions to persons who may not lawfully use the equipment. The legislature further finds that this practice misleads well-intentioned citizens and also benefits malevolent individuals." [1990 c 94 § 1.]

46.37.196 Red lights on emergency tow trucks. All emergency tow trucks shall be identified by an intermittent or revolving red light capable of 360° visibility at a distance of five hundred feet under normal atmospheric conditions. 46.37.220 Multiple-beam road-lighting equipment.

Except as hereinafter provided, the head lamps or the auxiliary driving lamp or the auxiliary passing lamp or combination thereof on motor vehicles shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and such lamps may be so arranged that such selection can be made automatically subject to the following limitations:

(1) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of four hundred fifty feet ahead for all conditions of loading;

(2) There shall be a lowermost distribution of light, or composite beam, so aimed and of sufficient intensity to reveal persons and vehicles at a distance of one hundred fifty feet ahead; and on a straight level road under any conditions of loading none of the high intensity portion of the beam shall be directed to strike the eyes of an approaching driver;

(3) Every new motor vehicle registered in this state after January 1, 1948, which has multiple-beam road-lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the head lamps is in use, and shall not otherwise be lighted. Said indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped. [1977 ex.s. c 355 § 20; 1961 c 12 § 46.37.220. (1) Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in RCW 46.37.020, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(2) Whenever a driver of a vehicle approaches an oncoming vehicle within five hundred feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light, or composite beam, specified in RCW 46.37.220(2) shall be deemed to avoid glare at all times, regardless of road contour and loading.

(3) Whenever the driver of a vehicle approaches another vehicle from the rear within three hundred feet such driver shall use a distribution of light permissible under this chapter other than the uppermost distribution of light specified in RCW 46.37.220(1). Head lamp systems which provide only a single distribution of light shall be permitted on all farm tractors regardless of date of manufacture, and on all other motor vehicles manufactured and sold prior to one year after March 18, 1955, in lieu of multiple-beam road-lighting equipment herein specified if the single distribution of light complies with the following requirements and limitations:

(1) The head lamps shall be so aimed that when the vehicle is not loaded none of the high intensity portion of the light shall at a distance of twenty-five feet ahead project higher than a level of five inches below the level of the center of the lamp from which it comes, and in no case higher than forty-two inches above the level on which the vehicle stands at a distance of seventy-five feet ahead;

(1) The chief of the state patrol is hereby authorized to adopt and enforce rules establishing standards and specifications governing the performance of lighting devices and their installation, adjustment, and aiming, when in use on motor vehicles, and other safety equipment, components, or assemblies of a type for which regulation is required in this chapter or in rules adopted by the state patrol. Such rules shall correlate with and, so far as practicable, conform to federal motor vehicle safety standards adopted pursuant to the national traffic and motor vehicle safety act of 1966 (15 U.S.C. Sec. 1381 et seq.) covering the same aspect of performance, or in the absence of such federal standards, to the then current standards and specifications of the society of automotive engineers applicable to such equipment: PROVIDED, That the sale, installation, and use of any headlamp meeting the standards of either the society of automotive engineers or the United Nations agreement concerning motor vehicle equipment and parts done at Geneva on March 20, 1958, or as amended and adopted by the Canadian standards association (CSA standard D106.2), as amended, shall be lawful in this state.

(2) Every manufacturer who sells or offers for sale lighting devices or other safety equipment subject to requirements established by the state patrol shall, if the lighting device or safety equipment is not in conformance with

applicable federal motor vehicle safety standards, provide for submission of such lighting device or safety equipment to any recognized organization or agency such as, but not limited to, the American national standards institute, the society of automotive engineers, or the American association of motor vehicle administrators, as the agent of the state patrol. Issuance of a certificate of compliance for any lighting device or item of safety equipment by that agent is deemed to comply with the standards set forth by the state patrol. Such certificate shall be issued by the agent of the state before sale of the product within the state.

(3) The state patrol may at any time request from the manufacturer a copy of the test data showing proof of compliance of any device with the requirements established by the state patrol and additional evidence that due care was exercised in maintaining compliance during production. If the manufacturer fails to provide such proof of compliance within sixty days of notice from the state patrol, the state patrol may prohibit the sale of the device in this state until acceptable proof of compliance is received by the state patrol.

46.37.330 Revocation of certificate of approval on devices—Reapproval, conditions. (1) When the state patrol has reason to believe that an approved device does not comply with the requirements of this chapter or regulations issued by the state patrol, it may, after giving thirty days' previous notice to the person holding the certificate of approval for such device in this state, conduct a hearing upon the question of compliance of said approved device. After said hearing the state patrol shall determine whether said approved device meets the requirements of this chapter and regulations issued by the state patrol. If said device does not meet the requirements of this chapter or the state patrol's regulations it shall give notice to the one to whom the certificate of approval has been issued of the state patrol's intention to suspend or revoke the certificate of approval for such device in this state.

(2) If at the expiration of ninety days after such notice the person holding the certificate of approval for such device has failed to satisfy the state patrol that said approved device as thereafter to be sold or offered for sale meets the requirements of this chapter or the state patrol's regulations, the state patrol shall suspend or revoke the approval issued therefor and shall require the withdrawal of all such devices from the market and may require that all said devices sold

since the notification be replaced with devices that do comply.

(3) When a certificate of approval has been suspended or revoked pursuant to this chapter or regulations by the state patrol, the device shall not be again approved unless and until it has been submitted for reapproval and it has been demonstrated, in the same manner as in an application for an original approval, that the device fully meets the requirements of this chapter or regulations issued by the state patrol. The state patrol may require that all previously approved items are being effectively recalled and removed from the market as a condition of reapproval. 46.37.340 Braking equipment required. Every motor vehicle, trailer, semitrailer, and pole trailer, and any combination of such vehicle operating upon a highway within this state shall be equipped with brakes in compliance with the requirements of this chapter.

(1) Service brakes—adequacy. Every such vehicle and combination of vehicles, except special mobile equipment as defined in RCW 46.04.552, shall be equipped with service brakes complying with the performance requirements of RCW 46.37.351 and adequate to control the movement of and to stop and hold such vehicle under all conditions of loading, and on any grade incident to its operation.

(2) Parking brakes—adequacy. Every such vehicle and combination of vehicles shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(3) Brakes on all wheels. Every vehicle shall be equipped with brakes acting on all wheels except:

(a) Trailers, semitrailers, or pole trailers of a gross weight not exceeding three thousand pounds, provided that:

(i) The total weight on and including the wheels of the trailer or trailers shall not exceed forty percent of the gross weight of the towing vehicle when connected to the trailer or trailers; and

(ii) The combination of vehicles consisting of the towing vehicle and its total towed load, is capable of complying with the performance requirements of RCW 46.37.351;

(b) Trailers, semitrailers, or pole trailers manufactured and assembled prior to July 1, 1965, shall not be required to be equipped with brakes when the total weight on and including the wheels of the trailer or trailers does not exceed two thousand pounds;

(c) Any vehicle being towed in driveaway or towaway operations, provided the combination of vehicles is capable of complying with the performance requirements of RCW 46.37.351;

(d) Trucks and truck tractors manufactured before July 25, 1980, and having three or more axles need not have brakes on the front wheels, except that when such vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. Trucks and truck tractors manufactured on or after July 25, 1980, and having three or more axles are required to have brakes on the front wheels, except that when such vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. Such trucks and truck tractors may be equipped with an automatic device to reduce the front-wheel braking effort by up to fifty percent of the normal braking force, regardless of whether or not antilock system failure has occurred on any axle, and:

(i) Must not be operable by the driver except upon application of the control that activates the braking system; and

(ii) Must not be operable when the pressure that transmits brake control application force exceeds eighty-five pounds per square inch (psi) on air-mechanical braking systems, or eighty-five percent of the maximum system pressure in vehicles utilizing other than compressed air.

All trucks and truck tractors having three or more axles must be capable of complying with the performance requirements of RCW 46.37.351;

(e) Special mobile equipment as defined in RCW 46.04.552 and all vehicles designed primarily for off-highway use with braking systems which work within the power train rather than directly at each wheel;

(f) Vehicles manufactured prior to January 1, 1930, may have brakes operating on only two wheels.

(g) For a forklift manufactured after January 1, 1970, and being towed, wheels need not have brakes except for those on the rearmost axle so long as such brakes, together with the brakes on the towing vehicle, shall be adequate to stop the combination within the stopping distance requirements of RCW 46.37.351.

(4) Automatic trailer brake application upon breakaway. Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes and every trailer, semitrailer, and pole trailer with a gross weight in excess of three thousand pounds, manufactured or assembled after January 1, 1964, shall be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly,

and remain applied for at least fifteen minutes, upon breakaway from the towing vehicle.

(5) Tractor brakes protected. Every motor vehicle manufactured or assembled after January 1, 1964, and used to tow a trailer, semitrailer, or pole trailer equipped with brakes, shall be equipped with means for providing that in case of breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(6) Trailer air reservoirs safeguarded. Air brake systems installed on trailers manufactured or assembled after January 1, 1964, shall be so designed that the supply reservoir used to provide air for the brakes shall be safeguarded against backflow of air from the reservoir through the supply line.

(7) Two means of emergency brake operation.

(a) Air brakes. After January 1, 1964, every towing vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, and all other vehicles equipped with air controlled brakes, shall be equipped with two means for emergency application of the brakes. One of these means shall apply the brakes automatically in the event of a reduction of the vehicle's air supply to a fixed pressure which shall be not lower than twenty pounds per square inch nor higher than forty-five pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate.

(b) Vacuum brakes. After January 1, 1964, every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single control device required by subsection (8) of this section, a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system be so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(8) Single control to operate all brakes. After January 1, 1964, every motor vehicle, trailer, semitrailer, and pole trailer, and every combination of such vehicles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control in the towing vehicle.

(9) Reservoir capacity and check valve.

(a) Air brakes. Every bus, truck, or truck tractor with air operated brakes shall be equipped with at least one reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may

be made without lowering such reservoir pressure by more than twenty percent. Each reservoir shall be provided with means for readily draining accumulated oil or water.

(b) Vacuum brakes. After January 1, 1964, every truck with three or more axles equipped with vacuum assistor type brakes and every truck tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than forty percent.

(c) Reservoir safeguarded. All motor vehicles, trailers, semitrailers, and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have such reservoirs or reserve capacity so safeguarded by a check valve or equivalent device that in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum shall not be depleted by the leak or failure.

(10) Warning devices.

(a) Air brakes. Every bus, truck, or truck tractor using compressed air for the operation of its own brakes or the brakes on any towed vehicle, shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time the primary supply air reservoir pressure of the vehicle is below fifty percent of the air compressor governor cut-out pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

(b) Vacuum brakes. After January 1, 1964, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than eight inches of mercury.

(c) Combination of warning devices. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device which will serve both purposes. A gauge or gauges indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement. [1989 c 221 § 1; 1979 c 11 § 1. Prior: 1977 ex.s. c 355 § 27; 1977 ex.s. c 148 § 2; 1965 ex.s. c 170 § 49; 1963 c 154 § 21; 1961 c 12 § 46.37.340; prior: 1955 c 269 § 34; prior: 1937 c 189 § 34, part; RRS § 6360-34, part; RCW 46.36.020, 46.36.030, part; 1929 c 180 § 6; 1927 c 309 § 16; 1923 c 181 § 5; 1921 c 96 § 23; 1915 c 142 § 22; RRS § 6362-16.]

46.37.351 Performance ability of brakes. Every motor vehicle and combination of vehicles, at all times and under all conditions of loading, upon application of the service brakes, shall be capable of:

(1) Developing a braking force that is not less than the percentage of its gross weight tabulated herein for its classification,

(2) Decelerating to a stop from not more than twenty miles per hour at not less than the feet per second per second tabulated herein for its classification, and

(3) Stopping from a speed of twenty miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the service brake pedal or control begins.

(2) All passenger cars manufactured on or after January 1, 1968, and other types of vehicles manufactured on or after September 1, 1975, shall be equipped with brake system failure indicator lamps which shall be maintained in good working order. The brake system shall demonstrate good working order and integrity by the application of a force of one hundred twenty-five pounds to the brake pedal for ten seconds without the occurrence of any of the following:

(i) Illumination of the brake system failure indicator lamp;

If the drum is embossed with a maximum safe diameter dimension or the rotor is embossed with a minimum safety thickness dimension, the drum or disc shall be within the appropriate specifications. These dimensions will be found on motor vehicles manufactured since January 1, 1971, and may be found on vehicles manufactured for several years prior to that time. If the drums and discs are not embossed, the drums and discs shall be within the manufacturer's specifications.

(5) Friction materials. On each brake the thickness of the lining or pad shall not be less than one thirty-second of an inch over the rivet heads, or the brake shoe on bonded linings or pads. Brake linings and pads shall not have cracks or breaks that extend to rivet holes except minor cracks that do not impair attachment. Drum brake linings shall be securely attached to brake shoes. Disc brake pads shall be securely attached to shoe plates.

(1) Every motor vehicle when operated upon a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than two hundred feet, but no horn or other warning device may emit an unreasonably loud or harsh sound or a whistle. The driver of a motor vehicle shall when reasonably necessary to insure safe operation give audible warning with his horn but shall not otherwise use such horn when upon a highway.

(2) No vehicle may be equipped with nor may any person use upon a vehicle any siren, whistle, or bell, except as otherwise permitted in this section.

(3) It is permissible for any vehicle to be equipped with a theft alarm signal device so long as it is so arranged that it cannot be used by the driver as an ordinary warning signal. Such a theft alarm signal device may use a whistle, bell, horn, or other audible signal but shall not use a siren.

(4) Any authorized emergency vehicle may be equipped with a siren, whistle, or bell capable of emitting sound audible under normal conditions from a distance of not less than five hundred feet and of a type conforming to rules adopted by the state patrol, but the siren shall not be used except when the vehicle is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, in which latter events the driver of the vehicle shall sound the siren when reasonably necessary to warn pedestrians and other drivers of its approach. (1) All motor vehicles operated on the public highways of this state shall be equipped with a front windshield manufactured of safety glazing materials for use in motor vehicles in accordance with RCW 46.37.430, except, however, on such vehicles not so equipped or where windshields are not in use, the operators of such vehicles shall wear glasses, goggles, or face shields pursuant to RCW 46.37.530(1)(b).

(2) No person shall drive any motor vehicle with any sign, poster, or other nontransparent material upon the front windshield, side wings, or side or rear windows of such vehicle which obstructs the driver's clear view of the highway or any intersecting highway.

(3) The windshield on every motor vehicle shall be equipped with a device for cleaning rain, snow, or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle. After January 1, 1938, it shall be unlawful for any person to operate a new motor vehicle first sold or delivered after that date which is not equipped with such device or devices in good working order capable of cleaning the windshield thereof over two separate arcs, one each on the left and right side of the windshield, each capable of cleaning a surface of not less than one hundred twenty square inches, or other device or devices capable of accomplishing substantially the same result.

(4) Every windshield wiper upon a motor vehicle shall be maintained in good working order. [1977 ex.s. c 355 § 35; 1961 c 12 § 46.37.410. Prior: 1955 c 269 § 41; prior: (i) 1937 c 189 § 38; RRS § 6360-38; RCW 46.36.070. (ii) 1937 c 189 § 39; RRS § 6360-39; RCW 46.36.080.]

46.37.420 Tires—Restrictions. (1) It is unlawful to operate a vehicle upon the public highways of this state unless it is completely equipped with pneumatic rubber tires except vehicles equipped with temporary-use spare tires that meet federal standards that are installed and used in accordance with the manufacturer's instructions.

(2) No tire on a vehicle moved on a highway may have on its periphery any block, flange, cleat, or spike or any other protuberance of any material other than rubber which projects beyond the tread of the traction surface of the tire, except that it is permissible to use farm machinery with tires having protuberances that will not injure the highway, and

except also that it is permissible to use tire chains or metal studs imbedded within the tire of reasonable proportions and of a type conforming to rules adopted by the state patrol, upon any vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid. It is unlawful to use metal studs imbedded within the tire between April 1st and November 1st. The state department of transportation may, from time to time, determine additional periods in which the use of tires with metal studs imbedded therein is lawful.

(3) The state department of transportation and local authorities in their respective jurisdictions may issue special permits authorizing the operation upon a highway of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks or farm tractors or other farm machinery, the operation of which upon a highway would otherwise be prohibited under this section.

(4) Tires with metal studs imbedded therein may be used between November 1st and April 1st upon school buses and fire department vehicles, any law or regulation to the contrary notwithstanding. 46.37.425 Tires—Unsafe—State patrol's authority—Penalty. No person shall drive or move or cause to be driven or moved any vehicle, the tires of which have contact with the driving surface of the road, subject to registration in this state, upon the public highways of this state unless such vehicle is equipped with tires in safe operating condition in accordance with requirements established by this section or by the state patrol.

The state patrol shall promulgate rules and regulations setting forth requirements of safe operating condition of tires capable of being employed by a law enforcement officer by visual inspection of tires mounted on vehicles including visual comparison with simple measuring gauges. These rules shall include effects of tread wear and depth of tread.

A tire shall be considered unsafe if it has:

- (1) Any ply or cord exposed either to the naked eye or when cuts or abrasions on the tire are probed; or
- (2) Any bump, bulge, or knot, affecting the tire structure; or
- (3) Any break repaired with a boot; or
- (4) A tread depth of less than 2/32 of an inch measured in any two major tread grooves at three locations equally spaced around the circumference of the tire, or for those tires with tread wear indicators, a tire shall be considered unsafe if it is worn to the point that the tread wear indicators contact the road in any two major tread grooves at three locations equally spaced around the circumference of the tire; or
- (5) A legend which indicates the tire is not intended for use on public highways such as, "not for highway use" or "for racing purposes only"; or
- (6) Such condition as may be reasonably demonstrated to render it unsafe; or
- (7) If not matched in tire size designation, construction, and profile to the other tire and/or tires on the same axle, except for temporary-use spare tires that meet federal standards that are installed and used in accordance with the manufacturer's instructions.

No person, firm, or corporation shall sell any vehicle for use on the public highways of this state unless the vehicle is equipped with tires that are in compliance with the provisions of this section. If the tires are found to be in violation of the provisions of this section, the person, firm, or corporation selling the vehicle shall cause such tires to be removed from the vehicle and shall equip the vehicle with tires that are in compliance with the provisions of this section.

It is a traffic infraction for any person to operate a vehicle on the public highways of this state, or to sell a vehicle for use on the public highways of this state, which is equipped with a tire or tires in violation of the provisions of this section or the rules and regulations promulgated by the state patrol hereunder: PROVIDED, HOWEVER, That if the violation relates to items (1) to (7) inclusive of this section then the condition or defect must be such that it can be detected by a visual inspection of tires mounted on vehicles, including visual comparison with simple measuring gauges. [1990 c 105 § 2; 1987 c 330 § 722; 1979 ex.s. c 136 § 73; 1977 ex.s. c 355 § 37; 1971 c 77 § 3.]

[1971 c 77 § 4.]

46.37.430 Safety glazing—Sunscreening or coloring.

(1) No person may sell any new motor vehicle as specified in this title, nor may any new motor vehicle as specified in this title be registered unless such vehicle is equipped with safety glazing material of a type that meets or exceeds federal standards, or if there are none, standards approved by the Washington state patrol. The foregoing provisions apply to all passenger-type motor vehicles, including passenger buses and school buses, but in respect to trucks, including truck tractors, the requirements as to safety glazing material apply to all glazing material used in doors, windows, and windshields in the drivers' compartments of such vehicles except as provided by subsection (4) of this section.

(2) The term "safety glazing materials" means glazing materials so constructed, treated, or combined with other materials as to reduce substantially, in comparison with ordinary sheet glass or plate glass, the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(3) The director of licensing shall not register any motor vehicle which is subject to the provisions of this section unless it is equipped with an approved type of safety glazing material, and he or she shall suspend the registration of any motor vehicle so subject to this section which the director finds is not so equipped until it is made to conform to the requirements of this section.

(4) No person may sell or offer for sale, nor may any person operate a motor vehicle registered in this state which is equipped with, any camper manufactured after May 23, 1969, unless such camper is equipped with safety glazing material of a type conforming to rules adopted by the state

patrol wherever glazing materials are used in outside windows and doors.

(5) No film sunscreening or coloring material that reduces light transmittance to any degree may be applied to the surface of the safety glazing material in a motor vehicle unless it meets the following standards for such material:

(a) The maximum level of film sunscreening material to be applied to any window, except the windshield, shall have a total reflectance of thirty-five percent or less, plus or minus three percent, and a light transmission of thirty-five percent or more, plus or minus three percent, when measured against clear glass resulting in a minimum of twenty-four percent light transmission on AS-2 glazing where the vehicle is equipped with outside rearview mirrors on both the right and left. Installation of more than a single sheet of film sunscreening material to any window is prohibited. The same maximum levels of film sunscreen material may be applied to windows to the immediate right and left of the driver on limousines and passenger buses used to transport persons for compensation and vehicles identified by the manufacturer as multi-use, multipurpose, or other similar designation. All windows to the rear of the driver on such vehicles may have film sunscreening material applied that has less than thirty-five percent light transmittance, if the light reflectance is thirty-five percent or less and the vehicle is equipped with outside rearview mirrors on both the right and left. A person or business tinting windows for profit who tints windows within restricted areas of the glazing system shall supply a sticker to be affixed to the driver's door post, in the area adjacent to the manufacturer's identification tag. Installation of this sticker certifies that the glazing application meets this chapter's standards for light transmission, reflectance, and placement requirements. Stickers must be no smaller than three-quarters of an inch by one and one-half inches, and no larger than two inches by two and one-half inches. The stickers must be of sufficient quality to endure exposure to harsh climate conditions. The business name and state tax identification number of the installer must be clearly visible on the sticker.

(b) A greater degree of light reduction is permitted on all windows and the top six inches of windshields of a vehicle operated by or carrying as a passenger a person who possesses a written verification from a licensed physician that the operator or passenger must be protected from exposure to sunlight for physical or medical reasons.

(c) Windshield application. A greater degree of light reduction is permitted on the top six-inch area of a vehicle's windshield. Clear film sunscreening material that reduces or eliminates ultraviolet light may be applied to windshields.

(d) When film sunscreening material is applied to any window except the windshield, outside mirrors on both the left and right sides shall be located so as to reflect to the driver a view of the roadway, through each mirror, a distance of at least two hundred feet to the rear of the vehicle.

(e) The following types of film sunscreening material are not permitted:

- (i) Mirror finish products;
- (ii) Red, gold, yellow, or black material; or
- (iii) Film sunscreening material that is in liquid preapplication form and brushed or sprayed on.

Nothing in this section prohibits the use of shaded or heat-absorbing safety glazing material in which the shading or heat-absorbing characteristics have been applied at the time of manufacture of the safety glazing material and which meet federal standards and the standards of the state patrol for such safety glazing materials.

(6) It is a traffic infraction for any person to operate a vehicle for use on the public highways of this state, if the vehicle is equipped with film sunscreening or coloring material in violation of this section.

(7) Owners of vehicles with film sunscreening material applied to windows to the rear of the driver, prior to June 7, 1990, must comply with the requirements of this section and RCW 46.37.435 by July 1, 1993. [1993 c 384 § 1; 1990 c 95 § 1; 1989 c 210 § 1; 1987 c 330 § 723; 1986 c 113 § 5; 1985 c 304 § 1; 1979 c 158 § 157; 1969 ex.s. c 281 § 47; 1961 c 12 § 46.37.430. 46.37.435 Sunscreening, unlawful installation, penalty. From June 7, 1990, a person who installs safety glazing or film sunscreening material in violation of RCW 46.37.430 is guilty of unlawful installation of safety glazing or film sunscreening materials. Unlawful installation is a misdemeanor. [1990 c 95 § 2.]

46.37.440 Flares or other warning devices required on certain vehicles. (1) No person may operate any motor truck, passenger bus, truck tractor, motor home, or travel trailer over eighty inches in overall width upon any highway outside the corporate limits of municipalities at any time unless there is carried in such vehicle the following equipment except as provided in subsection (2) of this section:

(a) At least three flares or three red electric lanterns or three portable red emergency reflectors, each of which shall be capable of being seen and distinguished at a distance of not less than six hundred feet under normal atmospheric conditions at nighttime.

No flare, fusee, electric lantern, or cloth warning flag may be used for the purpose of compliance with this section unless such equipment is of a type which has been submitted to the state patrol and conforms to rules adopted by it. No portable reflector unit may be used for the purpose of compliance with the requirements of this section unless it is so designed and constructed as to be capable of reflecting red light clearly visible from all distances within six hundred feet to one hundred feet under normal atmospheric conditions at night when directly in front of lawful upper beams of head lamps, and unless it is of a type which has been submitted to the state patrol and conforms to rules adopted by it;

(b) At least three red-burning fusees unless red electric lanterns or red portable emergency reflectors are carried;

(c) At least two red-cloth flags, not less than twelve inches square, with standards to support such flags.

(2) No person may operate at the time and under conditions stated in subsection (1) of this section any motor vehicle used for the transportation of explosives, any cargo

tank truck used for the transportation of flammable liquids or compressed gases or liquefied gases, or any motor vehicle using compressed gas as a fuel unless there is carried in such vehicle three red electric lanterns or three portable red emergency reflectors meeting the requirements of subsection (1) of this section, and there shall not be carried in any said vehicle any flares, fusees, or signal produced by flame. 46.37.450 Disabled vehicle—Display of warning devices. (1) Whenever any motor truck, passenger bus, truck tractor over eighty inches in overall width, trailer, semitrailer, or pole trailer is disabled upon the traveled portion of any highway or the shoulder thereof outside any municipality at any time when lighted lamps are required on vehicles, the driver of such vehicle shall display the following warning devices upon the highway during the time the vehicle is so disabled on the highway except as provided in subsection (2) of this section:

(a) A lighted fusee, a lighted red electric lantern, or a portable red emergency reflector shall be immediately placed at the traffic side of the vehicle in the direction of the nearest approaching traffic.

(b) As soon thereafter as possible but in any event within the burning period of the fusee (fifteen minutes), the driver shall place three liquid-burning flares (pot torches), three lighted red electric lanterns, or three portable red emergency reflectors on the traveled portion of the highway in the following order:

(i) One, approximately one hundred feet from the disabled vehicle in the center of the lane occupied by such vehicle and toward traffic approaching in that lane.

(ii) One, approximately one hundred feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by such vehicle.

(iii) One at the traffic side of the disabled vehicle not less than ten feet rearward or forward thereof in the direction of the nearest approaching traffic. If a lighted red electric lantern or a red portable emergency reflector has been placed at the traffic side of the vehicle in accordance with subdivision (a) of this subsection, it may be used for this purpose.

(2) Whenever any vehicle referred to in this section is disabled within five hundred feet of a curve, hillcrest, or other obstruction to view, the warning signal in that direction shall be so placed as to afford ample warning to other users of the highway, but in no case less than five hundred feet from the disabled vehicle.

(3) Whenever any vehicle of a type referred to in this section is disabled upon any roadway of a divided highway during the time that lights are required, the appropriate warning devices prescribed in subsections (1) and (5) of this section shall be placed as follows:

One at a distance of approximately two hundred feet from the vehicle in the center of the lane occupied by the stopped vehicle and in the direction of traffic approaching in

that lane; one at a distance of approximately one hundred feet from the vehicle, in the center of the lane occupied by the vehicle and in the direction of traffic approaching in that lane; and one at the traffic side of the vehicle and approximately ten feet from the vehicle in the direction of the nearest approaching traffic.

(4) Whenever any vehicle of a type referred to in this section is disabled upon the traveled portion of a highway or the shoulder thereof outside any municipality at any time when the display of fusees, flares, red electric lanterns, or portable red emergency reflectors is not required, the driver of the vehicle shall display two red flags upon the roadway in the lane of traffic occupied by the disabled vehicle, one at a distance of approximately one hundred feet in advance of the vehicle, and one at a distance of approximately one hundred feet to the rear of the vehicle.

(5) Whenever any motor vehicle used in the transportation of explosives or any cargo tank truck used for the transportation of any flammable liquid or compressed flammable gas, or any motor vehicle using compressed gas as a fuel, is disabled upon a highway of this state at any time or place mentioned in subsection (1) of this section, the driver of such vehicle shall immediately display the following warning devices: One red electric lantern or portable red emergency reflector placed on the roadway at the traffic side of the vehicle, and two red electric lanterns or portable red reflectors, one placed approximately one hundred feet to the front and one placed approximately one hundred feet to the rear of this disabled vehicle in the center of the traffic lane occupied by such vehicle. Flares, fusees, or signals produced by flame shall not be used as warning devices for disabled vehicles of the type mentioned in this subsection.

(6) Whenever any vehicle, other than those described in subsection (1) of this section, is disabled upon the traveled portion of any highway or shoulder thereof outside any municipality, the state patrol or the county sheriff shall, upon discovery of the disabled vehicle, place a reflectorized warning device on the vehicle. The warning device and its placement shall be in accordance with rules adopted by the state patrol. Neither the standards for, placement or use of, nor the lack of placement or use of a warning device under this subsection gives rise to any civil liability on the part of the state of Washington, the state patrol, any county, or any law enforcement agency or officer.

(7) The flares, fusees, red electric lanterns, portable red emergency reflectors, and flags to be displayed as required in this section shall conform with the requirements of RCW 46.37.440 applicable thereto. Severability—1977 ex.s. c 355: See note following RCW 46.37.010.

46.37.467 Alternative fuel source—Placard required. (1) Every automobile, truck, motorcycle, motor home, or off-road vehicle that is fueled by an alternative fuel source shall bear a reflective placard issued by the national fire protection association indicating that the vehicle is so fueled. Violation of this subsection is a traffic infraction.

(2) As used in this section "alternative fuel source" includes propane, compressed natural gas, liquid petroleum gas, or any chemically similar gas but does not include gasoline or diesel fuel.

(3) If a placard for a specific alternative fuel source has not been issued by the national fire protection association, a placard issued by the chief of the Washington state patrol, through the director of fire protection, shall be required. The chief of the Washington state patrol, through the director of fire protection, shall develop rules for the design, size, and placement of the placard which shall remain effective until a specific placard is issued by the national fire protection association. Legislative finding—1983 c 237: "The legislature finds that vehicles using alternative fuel sources such as propane, compressed natural gas, liquid petroleum gas, or other hydrocarbon gas fuels require fire fighters to use a different technique if the vehicles catch fire. A reflective placard on such vehicles would warn fire fighters of the danger so they could react properly." [1983 c 237 § 1.]

46.37.470 Air-conditioning equipment. (1) The term "air-conditioning equipment" as used or referred to in this section shall mean mechanical vapor compression refrigeration equipment which is used to cool the driver's or passenger compartment of any motor vehicle.

(2) Such equipment shall be manufactured, installed and maintained with due regard for the safety of the occupants

of the vehicle and the public and shall not contain any refrigerant which is toxic to persons or which is flammable.

(3) The state patrol may adopt and enforce safety requirements, regulations and specifications consistent with the requirements of this section applicable to such equipment which shall correlate with and, so far as possible, conform to the current recommended practice or standard applicable to such equipment approved by the society of automotive engineers.

(4) No person shall have for sale, offer for sale, sell or equip any motor vehicle with any such equipment unless it complies with the requirements of this section.

(5) No person shall operate on any highway any motor vehicle equipped with any air-conditioning equipment unless said equipment complies with the requirements of this section. [1987 c 330 § 726; 1961 c 12 § 46.37.470. Prior: 1955 c 269 § 47.]

46.38.010 Compact enacted—Provisions. The vehicle equipment safety compact prepared pursuant to resolutions of the western governors' conference and the western interstate committee on highway policy problems of the council of state governments, is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

VEHICLE EQUIPMENT SAFETY COMPACT

ARTICLE I—Findings and Purposes

(a) The party states find that:

(1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.

(2) There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(b) The purposes of this compact are to:

(1) Promote uniformity in regulation of and standards for equipment.

(2) Secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.

(3) To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this Article.

(c) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

ARTICLE II—Definitions

As used in this compact:

(a) "Vehicle" means every device in, upon or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

(b) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(c) "Equipment" means any part of a vehicle or any accessory for use thereon which affects the safety of operation of such vehicle or the safety of the occupants.

ARTICLE III—The Commission

(a) There is hereby created an agency of the party states to be known as the "Vehicle Equipment Safety Commission" hereinafter called the Commission. The Commission shall be composed of one commissioner from each party state who shall be appointed, serve and be subject to removal in accordance with the laws of the state which he represents. If authorized by the laws of his party state, a commissioner may provide for the discharge of his duties and the performance of his functions on the Commission, either for the duration of his membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of his identity and appointment shall have been given to the Commission in such form as the Commission may require. Each commissioner, and each alternate, when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the Commission for expenses actually incurred in attending Commission meetings or while engaged in the business of the Commission.

(f) The Commission may establish and maintain independently or in conjunction with any one or more of the party states, a suitable retirement system for its full time employees. Employees of the Commission shall be eligible

for social security coverage in respect of old age and survivor's insurance provided that the Commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The Commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The Commission may borrow, accept or contract for the services of personnel from any party state, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party states or their subdivisions.

(h) The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency and may receive, utilize, and dispose of the same.

(i) The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

(j) The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states. The bylaws shall provide for appropriate notice to the commissioners of all Commission meetings and hearings and the business to be transacted at such meetings or hearings. Such notice shall also be given to such agencies or officers of each party state as the laws of such party state may provide.

(k) The Commission annually shall make to the governor and legislature of each party state a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been issued by the Commission. ARTICLE V—Vehicular Equipment

(a) In the interest of vehicular and public safety, the Commission may study the need for or desirability of the establishment of or changes in performance requirements or restrictions for any item of equipment. As a result of such study, the Commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this Article. No less than sixty days after the publication of a report containing the results of such study, the Commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.

(b) Following the hearing or hearings provided for in subdivision (a) of this Article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the Commission may issue rules, regulations or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the Commission will be fair and equitable and effectuate the purposes of this compact.

(c) Each party state obligates itself to give due consideration to any and all rules, regulations and codes issued by the Commission and hereby declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.

(d) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this Article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

In such event, the commissioner of such party state shall submit any Commission rule, regulation or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(f) Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this Article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

(g) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the Commission pursuant to this Article if such agency specifically finds, after public hearing on due notice, that a variation from the Commission's rule, regulation or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the Commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subdivision.

The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares; and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of such registrations, the Commission may employ such source or sources of information as, in its judgment present the most equitable and accurate comparisons among the party states. Each of the Commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(c) The Commission shall not pledge the credit of any party state. The Commission may meet any of its obligations in whole or in part with funds available to it under Article III (h) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it under Article III (h) hereof, the Commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the Commission.

(e) The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the Commission.

(f) Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

ARTICLE VII—Conflict of Interest

(a) The Commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the Commission and contractors with the Commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the Commission or on its behalf for testing, conduct of investigations or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator's jurisdiction of residence, employment

or business, any violation of a Commission rule or regulation adopted pursuant to this Article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the Commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the Commission subject to cancellation by the Commission.

(b) Nothing contained in this Article shall be deemed to prevent a contractor for the Commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the Commission; nor to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

ARTICLE VIII—Advisory and Technical Committees

The Commission may establish such advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities.

(a) This compact shall enter into force when enacted into law by any six or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

ARTICLE X—Construction and Severability

Chapter 46.39

INTERSTATE COMPACT FOR SCHOOL BUS SAFETY

Sections

46.39.010 Compact enacted—Provisions.

46.39.020 Designation of Washington state commissioners.

46.39.010 Compact enacted—Provisions. The "Interstate Compact for School Bus Safety" is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

INTERSTATE COMPACT FOR SCHOOL BUS SAFETY

ARTICLE I FINDINGS AND PURPOSES

(a) The party states find that:

(1) School transportation is an integral part of our education systems. The increasing volume of traffic on streets and highways, with larger numbers of school children being transported each year, presents a serious problem in safety that requires regulation and control.

(2) During recent years the various states have each developed their own rules, regulations and standards which govern the operation of school buses in the individual states, thus creating vast differences in construction standards and operational procedures.

(3) Standardization by means of interstate cooperation, exchange of information, and the promulgation of uniform practices among the states can do much to mitigate present hazards and at the same time generate cost reductions and improved service.

(b) The purposes of this compact are to:

(1) Promote uniformity in regulation of and standards for school bus equipment.

(2) Secure uniformity of law and administrative practices in school bus vehicle regulation and related safety standards, incorporating desirable equipment changes in the interest of greater school bus safety.

(3) Establish a means whereby the states party to this compact shall jointly agree on certain school bus minimum

standards and procedures including, without limitation by the enumeration, the following:

(i) Items which affect the motorist, such as use of lights, signs, and signaling devices that control traffic;

(ii) Procedural activities of school bus drivers in controlling traffic; and in the loading and unloading of buses;

(iii) Construction and other specifications which can lead to lower initial costs and the interchangeability of school buses among states;

(iv) A framework within which the party states may develop uniform driver training programs; and

(v) Development of accurate and uniform accident statistical reporting among the party states.

(4) Encourage and utilize research which will facilitate achievement of the foregoing purposes, with due regard for the findings set forth in subsection (a) of this Article.

(5) It is recognized that there are inherent differences in transportation needs in each of the party states. It shall not be the purpose of this compact to abridge, impair or adversely affect the jurisdiction or authority of the individual states to regulate and control their own school transportation systems.

(6) Investigate the safety and economic advantage of children being transported.

ARTICLE II DEFINITIONS

(a) "State" means a state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other special commonwealth as may be established by the Government of the United States.

(b) "School bus" shall have the same meaning as provided in RCW 46.04.521.

(c) "Equipment" means the equipment required for school buses under chapter 46.37 RCW.

ARTICLE III THE COMMISSION

(a) There is hereby created an agency of the party states to be known as the "Western States School Bus Safety Commission" (hereinafter called the Commission). The Commission shall consist of not less than one nor more than three commissioners from each State, each of whom shall be a citizen of the State from which he is appointed, and not less than one or nor more than three commissioners representing the United States Government. The commissioners from each State shall be chosen in the manner and for the terms provided by the laws of the States from which they shall be appointed, provided that at least one member shall be appointed from the State agency which has primary responsibility for pupil transportation in that State. Any commissioner may be removed or suspended from office as provided by the law of the State from which he shall be appointed. The commissioners representing the United States shall be appointed by the President of the United States, or in such other manner as may be provided by Congress. The commissioners shall serve without compensation, but shall be paid their actual expenses incurred in and incidental to the performance of their duties; but nothing herein shall prevent the appointment of an officer or employee of any State or of the United States Government.

(b) Each state delegation shall be entitled to one vote, and the presence of commissioners from a majority of the party states shall constitute a quorum for the transaction of business at any meeting of the Commission. A majority vote of the quorum will be required to adopt any measure before the Commission. The commissioners representing the United States Government shall act in an advisory capacity and shall not have voting powers.

(c) The Commission shall have a seal.

(d) The Commission shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The Commission shall appoint an Executive Director who shall serve at its pleasure and who shall also act as Secretary, and who, together with the Treasurer, shall be bonded in such amounts as the Commission may require.

(e) The Executive Director, with the approval of the Commission, shall appoint and remove or discharge such personnel as may be necessary for the performance of the Commission's functions irrespective of the civil service, personnel or other merit system laws of any of the party states.

(f) The Commission may establish and maintain, independently or in conjunction with any one or more of the party states, a suitable retirement system for its full-time employees. The Commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(g) The Commission may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm or corporation.

(h) The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

(i) The Commission shall adopt bylaws, rules, and regulations for the conduct of its business, and shall have the power to amend and rescind these bylaws, rules, and regulations. The Commission shall publish its bylaws, rules, and regulations in convenient form and shall file a copy thereof and shall also file a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

(j) The Commission annually shall make to the governor and the legislature of each party state, a report covering the activities of the Commission for the preceding year, and embodying such recommendations as may have been adopted by the Commission. The Commission may issue such additional reports as it may deem desirable.

ARTICLE IV FUNCTIONS AND ACTIVITIES

(a) The Commission shall have power to perform the following functions and activities that relate to school bus transportation:

(1) Recommend and encourage research, testing and training activities to the extent the Commission finds necessary.

(2) Contract for research, testing and training activities on behalf of the Commission itself or for one or more governmental agencies if they provide special funding for that purpose.

(3) Engage directly in such activities to the extent approved by the Commission.

(4) Recommend to the party states of needed changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations or codes which would promote effective governmental action or coordination of school bus construction, equipment, safety programs, and school bus driver training.

(5) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this article to the appropriate agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(6) Each party state, recognizing that to carry out the intent of this compact, obligates itself to adopt in identical terms, all rules, regulations and specifications which are standardized through due process to the States.

(b) The Commission may establish such advisory and technical committees as may be necessary, membership on which may include public officials and private citizens. The Commission may also cooperate with other governmental agencies and interstate organizations and with organizations representing the private sector.

**ARTICLE V
FINANCE**

(a) Moneys necessary to finance the Commission in carrying out its duties shall be provided through appropriations from the states party to this compact, said payments to be in direct proportion to the number of school buses registered in the respective party states. The initial rate of payment shall be figured at \$0.50 per bus, provided that no state shall contribute less than \$500.00 per annum. The annual contribution of each state above the minimum shall be figured to the nearest one hundred dollars. Subsequent budgets shall be determined by the Commission, and the cost thereof allocated in the same proportion as the initial budget.

(b) The Commission may accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services (conditional and otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm, or corporation, and may receive, utilize and dispose of the same.

**ARTICLE VI
ENTRY INTO FORCE AND WITHDRAWAL**

(a) This compact shall enter into immediate force and effect as to any state when enacted by it into law, and such state shall thereafter be a party thereto with any and all states joining therein.

(b) It is the purpose of this compact to provide the necessary legal basis for implementation and adoption by each party state of the standardized rules, regulations and specifications as adopted by the Commission. Consistent with the laws of each party state, there shall be a "compact administrator" who, acting jointly with like officials of other party states, shall promulgate necessary rules, regulations and specifications within that state to carry out the actions and directives of the Commission.

(c) Any state party to this compact may, by legislative act after one year's notice to the Commission, withdraw

from the compact. The compact may also be terminated at any time by the unanimous agreement of the several party states. Withdrawal shall not relieve a state from its obligations hereunder prior to the effective withdrawal date.

(d) If any state shall at any time default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said state as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting state and its members on the Commission shall be suspended after the date of such default. Such suspension shall in no manner release such defaulting state from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining states thereunder.

**ARTICLE VII
SEVERABILITY**

(a) The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be unconstitutional or the applicability thereof to any state, agency, person or circumstances is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to any other state, agency, person or circumstances shall not be affected thereby. It is the legislative intent that the provisions of this compact be reasonably and liberally construed. [1977 ex.s. c 88 § 1.]

46.39.020 Designation of Washington state commissioners. The Washington state commissioners to the western states school bus safety commission shall be the secretary of transportation, the superintendent of public instruction, and the chief of the Washington state patrol or their respective designees. Annually the Washington commissioners shall elect a chairman from their own membership who shall serve for one year commencing July 1st. Election as chairman shall not interfere with the member's right to vote on all matters before the Washington commissioners. The Washington commissioners may by majority vote designate one of their members to represent the state on any matter coming before the Western states school bus safety commission. [1984 c 7 § 51; 1977 ex.s. c 88 § 2.]

46.44.020 Maximum height—Impaired clearance signs. It is unlawful for any vehicle unladen or with load to exceed a height of fourteen feet above the level surface upon which the vehicle stands. This height limitation does not apply to authorized emergency vehicles or repair equipment of a public utility engaged in reasonably necessary operation. The provisions of this section do not relieve the owner or operator of a vehicle or combination of vehicles from the exercise of due care in determining that sufficient vertical clearance is provided upon the public highways where the vehicle or combination of vehicles is being operated; and no liability may attach to the state or to any county, city, town, or other political subdivision by reason of any damage or injury to persons or property by reason of the existence of any structure over or across any public highway where the vertical clearance above the roadway is fourteen feet or more; or, where the vertical clearance is less than fourteen feet, if impaired clearance signs of a design approved by the state department of transportation are erected and maintained on the right side of any such public highway in accordance with the manual of uniform traffic control devices for streets and highways as adopted by the state department of transportation under chapter 47.36 RCW. If any structure over or across any public highway is not owned by the state or by a county, city, town, or other political subdivision, it is the duty of the owner thereof when billed therefor to reimburse the state department of transportation or the county, city, town, or other political subdivision having jurisdiction over the highway for the actual cost of erecting and maintaining the impaired clearance signs, but no liability may attach to the owner by reason of any damage or injury to persons or property caused by impaired vertical clearance above the roadway. 46.44.030 Maximum lengths. It is unlawful for any person to operate upon the public highways of this state any vehicle having an overall length, with or without load, in excess of forty feet. This restriction does not apply to (1) a municipal transit vehicle, (2) auto stage, private carrier bus or school bus with an overall length not to exceed forty-six feet, or (3) an articulated auto stage with an overall length not to exceed sixty-one feet.

It is unlawful for any person to operate upon the public highways of this state any combination consisting of a tractor and semitrailer that has a semitrailer length in excess of fifty-three feet or a combination consisting of a tractor and two trailers in which the combined length of the trailers exceeds sixty-one feet, with or without load.

It is unlawful for any person to operate on the highways of this state any combination consisting of a truck and trailer, or log truck and stinger-steered pole trailer, with an overall length, with or without load, in excess of seventy-five feet. However, a combination of vehicles transporting automobiles or boats may have a front overhang of three feet

and a rear overhang of four feet beyond this allowed length. "Stinger-steered," as used in this section, means the coupling device is located behind the tread of the tires of the last axle of the towing vehicle.

These length limitations do not apply to vehicles transporting poles, pipe, machinery, or other objects of a structural nature that cannot be dismembered and operated by a public utility when required for emergency repair of public service facilities or properties, but in respect to night transportation every such vehicle and load thereon shall be equipped with a sufficient number of clearance lamps on both sides and marker lamps upon the extreme ends of any projecting load to clearly mark the dimensions of the load.

The length limitations described in this section are exclusive of safety and energy conservation devices, such as mud flaps and splash and spray suppressant devices, refrigeration units or air compressors, and other devices that the department determines to be necessary for safe and efficient operation of commercial vehicles. No device excluded under this paragraph from the limitations of this section may have, by its design or use, the capability to carry cargo. 46.44.034 Maximum lengths—Front and rear protrusions. (1) The load, or any portion of any vehicle, operated alone upon the public highway of this state, or the load, or any portion of the front vehicle of a combination of vehicles, shall not extend more than three feet beyond the front wheels of such vehicle, or the front bumper, if equipped with front bumper.

(2) No vehicle shall be operated upon the public highways with any part of the permanent structure or load extending in excess of fifteen feet beyond the center of the last axle of such vehicle. This subsection does not apply to "specialized equipment" designated under 49 U.S.C. [Sec.] 2311 that is operated on the interstate highway system, those designated portions of the federal-aid primary system, and routes constituting reasonable access from such highways to terminals and facilities for food, fuel, repairs, and rest. 46.44.036 Combination of units—Limitation. Except as provided in RCW 46.44.037, it is unlawful for any person to operate upon the public highways of this state any combination of vehicles consisting of more than two vehicles. For the purposes of this section a truck tractor-semi-

trailer or pole trailer combination will be considered as two vehicles but the addition of another axle to the tractor of a truck tractor-semitrailer or pole trailer combination in such a way that it supports a proportional share of the load of the semitrailer or pole trailer shall not be deemed a separate vehicle but shall be considered a part of the truck tractor. For the purposes of this section a converter gear used in converting a semitrailer to a full trailer shall not be deemed a separate vehicle but shall be considered a part of the trailer. 46.44.037 Combination of units—Lawful operations. Notwithstanding the provisions of RCW 46.44.036 and subject to such rules and regulations governing their operation as may be adopted by the state department of transportation, operation of the following combinations is lawful:

(1) A combination consisting of a truck tractor, a semitrailer, and another semitrailer or a full trailer. In this combination a converter gear used to convert a semitrailer into a full trailer shall be considered to be a part of the full trailer and not a separate vehicle. A converter gear being pulled without load and not used to convert a semitrailer into a full trailer may be substituted in lieu of a full trailer or a semitrailer in any lawful combination;

(2) A combination not exceeding seventy-five feet in overall length consisting of four trucks or truck tractors used in driveaway service where three of the vehicles are towed by the fourth in triple saddle mount position;

(3) A combination consisting of a truck tractor carrying a freight compartment no longer than eight feet, a semitrailer, and another semitrailer or full trailer that meets the legal length requirement for a truck and trailer combination set forth in RCW 46.44.030. [1991 c 143 § 2; 1985 c 351 § 2; 1984 c 7 § 53; 1979 ex.s. c 149 § 3; 1975-'76 2nd ex.s. c 64 § 9; 1965 ex.s. c 170 § 37; 1963 ex.s. c 3 § 53; 1961 c 12 § 46.44.037. 46.44.038 Width, height, length, and combinations restrictions—Special permits to exceed authorized. Subject to such terms and conditions as it shall consider proper and on such highways as it shall deem suitable, and when it finds it to be in the public interest, the state department of transportation may by special permit authorize the operation of vehicles and combinations of vehicles other than school buses which exceed the restrictions set forth in RCW 46.44.010, 46.44.020, 46.44.030, and 46.44.036. The fee for such permits shall be those set forth in RCW 46.44.0941. [1983 c 3 § 120; 1967 ex.s. c 145 § 62.]

46.44.041 Maximum gross weights—Wheelbase and axle factors. No vehicle or combination of vehicles shall

operate upon the public highways of this state with a gross load on any single axle in excess of twenty thousand pounds, or upon any group of axles in excess of that set forth in the following table, except that two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each, if the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more.

When inches are involved: Under six inches take lower, six inches or over take higher. The maximum load on any axle in any group of axles shall not exceed the single axle or tandem axle allowance as set forth in the table above.

The maximum axle and gross weights specified in this section are subject to the braking requirements set up for the service brakes upon any motor vehicle or combination of vehicles as provided by law.

Loads of not more than eighty thousand pounds which may be legally hauled in the state bordering this state which also has a sales tax, are legal in this state when moving to a port district within four miles of the bordering state except on the interstate system. This provision does not allow the operation of a vehicle combination consisting of a truck tractor and three trailers.

Notwithstanding anything contained herein, a vehicle or combination of vehicles in operation on January 4, 1975, may operate upon the public highways of this state, including the interstate system within the meaning of section 127 of Title 23, United States Code, with an overall gross weight upon a group of two consecutive sets of dual axles which was lawful in this state under the laws, regulations, and procedures in effect in this state on January 4, 1975. [1995 c 171 § 1. Prior: 1993 c 246 § 1; 1993 c 102 § 3; prior: 1988 c 229 § 1; 1988 c 6 § 2; 1985 c 351 § 3; 1977 c 81 § 2; 1975-'76 2nd ex.s. c 64 § 22.]

46.44.042 Maximum gross weights—Axle and tire factors. Subject to the maximum gross weights specified in RCW 46.44.041, it is unlawful to operate any vehicle upon the public highways with a gross weight, including load, upon any tire concentrated upon the surface of the highway in excess of six hundred pounds per inch width of such tire. An axle manufactured after July 31, 1993, carrying more than ten thousand pounds gross weight must be equipped with four or more tires. Effective January 1, 1997, an axle carrying more than ten thousand pounds gross weight must have four or more tires, regardless of date of manufacture. Instead of the four or more tires per axle requirements of this section, an axle may be equipped with two tires limited to five hundred pounds per inch width of tire. This section does not apply to vehicles operating under oversize or overweight permits, or both, issued under RCW 46.44.090, while carrying a nonreducible load.

The following equipment may operate at six hundred pounds per inch width of tire: (1) A nonliftable steering axle or axles on the power unit; (2) a tiller axle on fire fighting apparatus; (3) a rear booster trailing axle equipped

with two tires on a ready-mix concrete transit truck; and (4) a straddle trailer manufactured before January 1, 1996, equipped with single-tire axles or a single axle using a walking beam supported by two in-line single tires and used exclusively for the transport of fruit bins between field, storage, and processing. A straddle trailer manufactured after January 1, 1996, meeting this use criteria may carry five hundred fifteen pounds per inch width of tire on sixteen and one-half inch wide tires.

For the purpose of this section, the width of tire in case of solid rubber or hollow center cushion tires, so long as the use thereof may be permitted by the law, shall be measured between the flanges of the rim. For the purpose of this section, the width of tires in case of pneumatic tires shall be the maximum overall normal inflated width as stipulated by the manufacturer when inflated to the pressure specified and without load thereon.

The department of transportation, under rules adopted by the transportation commission with respect to state highways, and a local authority, with respect to a public highway under its jurisdiction, may extend the weight table in RCW 46.44.041 to one hundred fifteen thousand pounds. However, the extension must be in compliance with federal law, and vehicles operating under the extension must be in full compliance with the 1997 axle and tire requirements under this section. 46.44.043 Cement trucks—Axle loading controls.

The switch that controls the raising and lowering of the retractable rear booster or tag axle on a ready-mix cement truck may be located within the reach of the driver's compartment as long as the variable control, used to adjust axle loadings by regulating air pressure or by other means, is out of the reach of the driver's compartment. [1994 c 305 § 1.]

46.44.047 Excess weight—Logging trucks—Special permits—County or city permits—Fees—Discretion of arresting officer.

A three axle truck tractor and a two axle pole trailer combination engaged in the operation of hauling logs may exceed by not more than six thousand eight hundred pounds the legal gross weight of the combination of vehicles when licensed, as permitted by law, for sixty-eight thousand pounds: PROVIDED, That the distance between the first and last axle of the vehicles in combination shall have a total wheelbase of not less than thirty-seven feet, and the weight upon two axles spaced less than seven feet apart shall not exceed thirty-three thousand six hundred pounds.

Such additional allowances shall be permitted by a special permit to be issued by the department of transportation valid only on state primary or secondary highways authorized by the department and under such rules, regulations, terms, and conditions prescribed by the department. The fee

for such special permit shall be fifty dollars for a twelve-month period beginning and ending on April 1st of each calendar year. Permits may be issued at any time, but if issued after July 1st of any year the fee shall be thirty-seven dollars and fifty cents. If issued on or after October 1st the fee shall be twenty-five dollars, and if issued on or after January 1st the fee shall be twelve dollars and fifty cents. A copy of such special permit covering the vehicle involved shall be carried in the cab of the vehicle at all times. Upon the third offense within the duration of the permit for violation of the terms and conditions of the special permit, the special permit shall be canceled. The vehicle covered by such canceled special permit shall not be eligible for a new special permit until thirty days after the cancellation of the special permit issued to said vehicle. The fee for such renewal shall be at the same rate as set forth in this section which covers the original issuance of such special permit. Each special permit shall be assigned to a three-axle truck tractor in combination with a two-axle pole trailer. When the department issues a duplicate permit to replace a lost or destroyed permit and where the department transfers a permit, a fee of fourteen dollars shall be charged for each such duplicate issued or each such transfer.

All fees collected hereinabove shall be deposited with the state treasurer and credited to the motor vehicle fund.

Permits involving city streets or county roads or using city streets or county roads to reach or leave state highways, authorized for permit by the department may be issued by the city or county or counties involved. A fee of five dollars for such city or county permit may be assessed by the city or by the county legislative authority which shall be deposited in the city or county road fund. The special permit provided for herein shall be known as a "log tolerance permit" and shall designate the route or routes to be used, which shall first be approved by the city or county engineer involved. For the purpose of determining gross weight the actual scale weight taken by the officer shall be prima facie evidence of such total gross weight. In the event the gross weight is in excess of the weight permitted by law, the officer may, within his discretion, permit the operator to proceed with his vehicles in combination.

The chief of the state patrol, with the advice of the department, may make reasonable rules and regulations to aid in the enforcement of the provisions of this section. 46.44.049 Effect of weight on highways—Study authorized. The department of transportation may make and enter into agreements with the federal government or any state or group of states or agencies thereof, or any nonprofit association, on a joint or cooperative basis, to study, analyze, or test the effects of weight on highway construction. The studies or tests may be made either by designating existing highways or the construction of test strips including natural resource roads to the end that a proper solution of the many problems connected with the imposition on highways of motor vehicle weights may be determined.

The studies may include the determination of values to be assigned various highway-user groups according to their gross weight or use. [1984 c 7 § 54; 1961 c 12 § 46.44.049. Prior: 1951 c 269 § 47.]

ways shall be determined from the planning survey records of the department of transportation, and the gross weight of the vehicle or vehicles, including load, shall be declared by the applicant. Overweight on which fees shall be paid will be gross loadings in excess of loadings authorized by law or axle loadings in excess of loadings authorized by law, whichever is the greater. Loads which are overweight and oversize shall be charged the fee for the overweight permit without additional fees being assessed for the oversize features.

Special permits issued under RCW 46.44.047, 46.44.0941, or 46.44.095, may be obtained from offices of the department of transportation, ports of entry, or other agents appointed by the department.

The department may appoint agents for the purposes of selling special motor vehicle permits, temporary additional tonnage permits, and log tolerance permits. Agents so appointed may retain three dollars and fifty cents for each permit sold to defray expenses incurred in handling and selling the permits. If the fee is collected by the department of transportation, the department shall certify the fee so collected to the state treasurer for deposit to the credit of the motor vehicle fund.

The department may select a third party contractor, by means of competitive bid, to perform the department's permit issuance function, as provided under RCW 46.44.090. Factors the department shall consider, but is not limited to, in the selection of a third party contractor are economic benefit to both the department and the motor carrier industry, and enhancement of the overall level of permit service. For purposes of this section, "third party contractor" means a business entity that is authorized by the department to issue special permits. The transportation commission may adopt rules specifying the criteria that a business entity must meet in order to qualify as a third party contractor under this section.

Fees established in RCW 46.44.0941 shall be paid to the political body issuing the permit if the entire movement is to be confined to roads, streets, or highways for which that political body is responsible. When a movement involves a combination of state highways, county roads, and/or city streets the fee shall be paid to the state department of transportation. When a movement is confined within the city limits of a city or town upon city streets, including routes of state highways on city streets, all fees shall be paid to the city or town involved. A permit will not be required from city or town authorities for a move involving a combination of city or town streets and state highways when the move through a city or town is being confined to the route of the state highway. When a move involves a combination of county roads and city streets the fee shall be paid to the county authorities, but the fee shall not be collected nor the county permit issued until valid permits are presented showing that the city or town authorities approve of the move in question. When the movement involves only county roads the fees collected shall be paid to the county involved. Fees established shall be paid to the political body issuing the permit if the entire use of the vehicle during the period covered by the permit shall be confined to the roads, streets, or highways for which that political body is responsible. 46.44.098 Increase in federal limits on sizes and weights—Increases by commission. If the congress of the United States further amends section 127, Title 23 of the United States Code, authorizing increased sizes and weights, the Washington state department of transportation may authorize the operation of vehicles and combinations of vehicles upon completed portions of the interstate highway system and other designated state highways if determined to be capable of accommodating the increased sizes and weights in excess of those prescribed in RCW 46.44.041, or as provided in RCW 46.44.010 and 46.44.037. The permitted increases shall not in any way exceed the federal limits which would jeopardize the state's allotment of federal funds. [1984 c 7 § 57; 1975-'76 2nd ex.s. c 64 § 19; 1965 c 38 § 1.]

46.44.105 Enforcement procedures—Penalties—Rules. (1) Violation of any of the provisions of this chapter is a traffic infraction, and upon the first finding thereof shall be assessed a basic penalty of not less than fifty dollars; and upon a second finding thereof shall be assessed a basic penalty of not less than seventy-five dollars; and upon a third or subsequent finding shall be assessed a basic penalty of not less than one hundred dollars.

(2) In addition to the penalties imposed in subsection (1) of this section, any person violating RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 shall be assessed a penalty for each pound overweight, as follows:

(a) One pound through four thousand pounds overweight is three cents for each pound;

(b) Four thousand one pounds through ten thousand pounds overweight is one hundred twenty dollars plus twelve cents per pound for each additional pound over four thousand pounds overweight;

(c) Ten thousand one pounds through fifteen thousand pounds overweight is eight hundred forty dollars plus sixteen cents per pound for each additional pound over ten thousand pounds overweight;

(d) Fifteen thousand one pounds through twenty thousand pounds overweight is one thousand six hundred forty dollars plus twenty cents per pound for each additional pound over fifteen thousand pounds overweight;

(e) Twenty thousand one pounds and more is two thousand six hundred forty dollars plus thirty cents per pound for each additional pound over twenty thousand pounds overweight.

Upon a first violation in any calendar year, the court may suspend the penalty for five hundred pounds of excess weight for each axle on any vehicle or combination of vehicles, not to exceed a two thousand pound suspension. In no case may the basic penalty assessed in subsection (1) of this section or the additional penalty assessed in subsection (2) of this section, except as provided for the first violation, be suspended.

(3) Whenever any vehicle or combination of vehicles is involved in two violations of RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 during any twelve-month period, the court may suspend the certificate of license registration of the vehicle or combination of vehicles for not less than thirty days. Upon a third or succeeding violation in any twelve-month period, the court shall suspend the certificate of license registration for not less than thirty days. Whenever the certificate of license registration is suspended, the court shall secure such certificate and immediately forward the same to the director with information concerning the suspension.

(4) Any person found to have violated any posted limitations of a highway or section of highway shall be assessed a monetary penalty of not less than one hundred and fifty dollars, and the court shall in addition thereto upon second violation within a twelve-month period involving the same power unit, suspend the certificate of license registration for not less than thirty days.

(5) It is unlawful for the driver of a vehicle to fail or refuse to stop and submit the vehicle and load to a weighing, or to fail or refuse, when directed by an officer upon a weighing of the vehicle to stop the vehicle and otherwise comply with the provisions of this section. It is unlawful for a driver of a commercial motor vehicle as defined in RCW 46.32.005, other than the driver of a bus as defined in RCW 46.32.005(2), to fail or refuse to stop at a weighing station when proper traffic control signs indicate scales are open.

Any police officer is authorized to require the driver of any vehicle or combination of vehicles to stop and submit to a weighing either by means of a portable or stationary scale and may require that the vehicle be driven to the nearest public scale. Whenever a police officer, upon weighing a vehicle and load, determines that the weight is unlawful, the officer may require the driver to stop the vehicle in a suitable location and remain standing until such portion of the load is removed as may be necessary to reduce the gross weight of the vehicle to the limit permitted by law. If the vehicle is loaded with grain or other perishable commodities, the driver shall be permitted to proceed without removing any of the load, unless the gross weight of the vehicle and load exceeds by more than ten percent the limit permitted by this chapter. The owner or operator of the vehicle shall care for all materials unloaded at the risk of the owner or operator.

Any vehicle whose driver or owner represents that the vehicle is disabled or otherwise unable to proceed to a weighing location shall have its load sealed or otherwise marked by any police officer. The owner or driver shall be directed that upon completion of repairs, the vehicle shall submit to weighing with the load and markings and/or seal intact and undisturbed. Failure to report for weighing, appearing for weighing with the seal broken or the markings disturbed, or removal of any cargo prior to weighing is

unlawful. Any person so convicted shall be fined one thousand dollars, and in addition the certificate of license registration shall be suspended for not less than thirty days.

(6) Any other provision of law to the contrary notwithstanding, district courts having venue have concurrent jurisdiction with the superior courts for the imposition of any penalties authorized under this section.

(7) For the purpose of determining additional penalties as provided by subsection (2) of this section, "overweight" means the poundage in excess of the maximum allowable gross weight or axle/axle grouping weight prescribed by RCW 46.44.041, 46.44.042, 46.44.047, 46.44.091, and 46.44.095.

(8) The penalties provided in subsections (1) and (2) of this section shall be remitted as provided in chapter 3.62 RCW or RCW 10.82.070. For the purpose of computing the basic penalties and additional penalties to be imposed under subsections (1) and (2) of this section, the convictions shall be on the same vehicle or combination of vehicles within a twelve-month period under the same ownership.

(9) Any state patrol officer or any weight control officer who finds any person operating a vehicle or a combination of vehicles in violation of the conditions of a permit issued under RCW 46.44.047, 46.44.090, and 46.44.095 may confiscate the permit and forward it to the state department of transportation which may return it to the permittee or revoke, cancel, or suspend it without refund. The department of transportation shall keep a record of all action taken upon permits so confiscated, and if a permit is returned to the permittee the action taken by the department of transportation shall be endorsed thereon. Any permittee whose permit is suspended or revoked may upon request receive a hearing before the department of transportation or person designated by that department. After the hearing the department of transportation may reinstate any permit or revise its previous action.

Every permit issued as provided for in this chapter shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any law enforcement officer or authorized agent of any authority granting such a permit.

Upon the third finding within a calendar year of a violation of the requirements and conditions of a permit issued under RCW 46.44.095, the permit shall be canceled, and the canceled permit shall be immediately transmitted by the court or the arresting officer to the department of transportation. The vehicle covered by the canceled permit is not eligible for a new permit for a period of thirty days.

(10) For the purposes of determining gross weights the actual scale weight taken by the arresting officer is prima facie evidence of the total gross weight.

(11) It is a traffic infraction to direct the loading of a vehicle with knowledge that it violates the requirements in RCW 46.44.041, 46.44.042, 46.44.047, 46.44.090, 46.44.091, or 46.44.095 and that it is to be operated on the public highways of this state.

(12) The chief of the state patrol, with the advice of the department, may adopt reasonable rules to aid in the enforcement of this section. [1996 c 92 § 2; 1993 c 403 § 4; 1990 c 217 § 1; 1985 c 351 § 6; 1984 c 258 § 327; 1984 c 7 § 58; 1979 ex.s. c 136 § 75; 1975-'76 2nd ex.s. c 64 § 23.]

46.44.110 Liability for damage to highways, bridges, etc. Any person operating any vehicle or moving any object or conveyance upon any public highway in this state or upon any bridge or elevated structure that is a part of any such public highway is liable for all damages that the public highway, bridge, or elevated structure may sustain as a result of any illegal operation of the vehicle or the moving of any such object or conveyance or as a result of the operation or moving of any vehicle, object, or conveyance weighing in excess of the legal weight limits allowed by law. This section applies to any person operating any vehicle or moving any object or contrivance in any illegal or negligent manner or without a special permit as provided by law for vehicles, objects, or contrivances that are overweight, overwidth, overheight, or overlength. Any person operating any vehicle is liable for any damage to any public highway, bridge, or elevated structure sustained as the result of any negligent operation thereof. When the operator is not the owner of the vehicle, object, or contrivance but is operating or moving it with the express or implied permission of the owner, the owner and the operator are jointly and severally liable for any such damage. Such damage to any state highway or structure may be recovered in a civil action instituted in the name of the state of Washington by the department of transportation. Any measure of damage to any public highway determined by the department of transportation by reason of this section is prima facie the amount of damage caused thereby and is presumed to be the amount recoverable in any civil action therefor. [1984 c 7 § 59; 1961 c 12 § 46.44.110. Prior: 1937 c 189 § 57; RRS 6360-57.]

Severability—1984 c 7: See note following RCW 47.01.141.

46.44.120 Liability of owner, others, for violations. Whenever an act or omission is declared to be unlawful in chapter 46.44 RCW, the owner or lessee of any motor vehicle involved in such act or omission is responsible therefor. Any person knowingly and intentionally participating in creating an unlawful condition of use, is also subject to the penalties provided in this chapter for such unlawful act or omission.

If the person operating the vehicle at the time of the unlawful act or omission is not the owner or lessee of the vehicle, such person is fully authorized to accept the citation and execute the promise to appear on behalf of the owner or lessee. [1980 c 104 § 2; 1971 ex.s. c 148 § 1; 1969 ex.s. c 69 § 1.]

46.44.130 Farm implements—Gross weight and size limitation exception—Penalty. The limitations of RCW 46.44.010, 46.44.020, 46.44.030, and 46.44.041 shall not apply to the movement of farm implements of less than

forty-five thousand pounds gross weight, a total length of seventy feet or less, and a total outside width of fourteen feet or less when being moved while patrolled, flagged, lighted, signed, and at a time of day in accordance with rules hereby authorized to be adopted by the department of transportation and the statutes. Violation of a rule adopted by the department as authorized by this section or a term of this section is a traffic infraction. [1979 ex.s. c 136 § 76; 1975-'76 2nd ex.s. c 64 § 20; 1975 1st ex.s. c 168 § 3; 1973 1st ex.s. c 1 § 1.]

46.44.140 Farm implements—Special permits—Penalty. In addition to any other special permits authorized by law, special permits may be issued by the department of transportation for a quarterly or annual period upon such terms and conditions as it finds proper for the movement of (1) farm implements used for the cutting or threshing of mature crops; or (2) other farm implements that may be identified by rule of the department of transportation. Any farm implement moved under this section must have a gross weight less than forty-five thousand pounds and a total outside width of less than twenty feet while being moved, and such movement must be patrolled, flagged, lighted, signed, at a time of day, and otherwise in accordance with rules hereby authorized to be adopted by the department of transportation for the control of such movements.

Applications for and permits issued under this section shall provide for a description of the farm implements to be moved, the approximate dates of movement, and the routes of movement so far as they are reasonably known to the applicant at the time of application, but the permit shall not be limited to these circumstances but shall be general in its application except as limited by the statutes and rules adopted by the department of transportation.

A copy of the governing permit shall be carried on the farm implement being moved during the period of its movement. The department shall collect a fee as provided in RCW 46.44.0941.

Violation of a term or condition under which a permit was issued, of a rule adopted by the department of transportation as authorized by this section, or of a term of this section is a traffic infraction. [1984 c 7 § 60; 1979 ex.s. c 136 § 77; 1973 1st ex.s. c 1 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

Effective date—Severability—1979 ex.s. c 136: See notes following RCW 46.63.010.

46.44.150 Highway improvement vehicles—Gross weight limit excesses authorized—Limitations. The state, county, or city authority having responsibility for the reconstruction or improvement of any public highway may, subject to prescribed conditions and limitations, authorize vehicles employed in such highway reconstruction or improvement to exceed the gross weight limitations contained in RCW 46.44.041 and 46.44.042 without a special permit or additional fees as prescribed by chapter 46.44

RCW, but only while operating within the boundaries of project limits as defined in the public works contract or plans. [1983 c 3 § 121; 1975 1st ex.s. c 63 § 1.]

46.44.170 Mobile home movement special permit and decal—Certification of taxes paid—License plates—Rules. (1) Any person moving a mobile home as defined in RCW 46.04.302 upon public highways of the state must obtain a special permit from the department of transportation and local authorities pursuant to RCW 46.44.090 and 46.44.093 and shall pay the proper fee as prescribed by RCW 46.44.0941 and 46.44.096.

(2) A special permit issued as provided in subsection (1) of this section for the movement of any mobile home shall not be valid until the county treasurer of the county in which the mobile home is located shall endorse or attach thereto his certificate that all property taxes which are a lien or which are delinquent, or both, upon the mobile home being moved have been satisfied. Further, any mobile home required to have a special movement permit under this section shall display an easily recognizable decal: PROVIDED, That endorsement or certification by the county treasurer and the display of said decal is not required when a mobile home is to enter the state or is being moved from a manufacturer or distributor to a retail sales outlet or directly to the purchaser's designated location or between retail and sales outlets. It shall be the responsibility of the owner of the mobile home or the agent to obtain such endorsement from the county treasurer and said decal.

(3) Nothing herein should be construed as prohibiting the issuance of vehicle license plates for a mobile home, but no such plates shall be issued unless the mobile home for which such plates are sought has been listed for property tax purposes in the county in which it is principally located and the appropriate fee for such license has been paid.

(4) The department of transportation and local authorities are authorized to adopt reasonable rules for implementing the provisions of this section. The department of transportation shall adopt rules specifying the design, reflective characteristics, annual coloration, and for the uniform implementation of the decal required by this section. [1986 c 211 § 4. Prior: 1985 c 395 § 1; 1985 c 22 § 1; 1980 c 152 § 1; 1977 ex.s. c 22 § 2.]

Severability—1977 ex.s. c 22: See note following RCW 46.04.302.

46.44.173 Notice to treasurer and assessor of county where mobile home to be located. (1) Upon validation of a special permit as provided in RCW 46.44.170, the county treasurer shall forward notice of movement of the mobile home to the treasurer's own county assessor and to the county assessor of the county in which the mobile home will be located.

(2) When a single trip special permit not requiring tax certification is issued, the department of transportation or the local authority shall notify the assessor of the county in which the mobile home is to be located. When a continuous trip special permit is used to transport a mobile home not requiring tax certification, the transporter shall notify the assessor of the county in which the mobile home is to be located. Notification is not necessary when the destination

of a mobile home is a manufacturer, distributor, retailer, or location outside the state.

(3) A notification under this section shall state the specific, residential destination of the mobile home. [1984 c 7 § 61; 1977 ex.s. c 22 § 3.]

In addition to the above penalty, the department of transportation or local authority may withhold issuance of a special permit or suspend a continuous special permit as provided by RCW 46.44.090 and 46.44.093 for a period of not less than thirty days.

Any person who shall alter, reuse, transfer, or forge the decal required by RCW 46.44.170, or who shall display a decal knowing it to have been forged, reused, transferred, or altered, shall be guilty of a gross misdemeanor.

Any person or agent who is denied a special permit or whose special permit is suspended may upon request receive a hearing before the department of transportation or the local authority having jurisdiction. The department or the local authority after such hearing may revise its previous action. [1995 c 38 § 11; 1994 c 301 § 15; 1985 c 22 § 2; 1979 ex.s. c 136 § 78; 1977 ex.s. c 22 § 4.]

46.48.170 State patrol authority—Rules and regulations. The Washington state patrol acting by and through the chief of the Washington state patrol shall have the authority to adopt and enforce the regulations promulgated by the United States department of transportation, Title 49 CFR parts 100 through 199, transportation of hazardous materials, as these regulations apply to motor carriers. "Motor carrier" means any person engaged in the transportation of passengers or property operating interstate and intrastate upon the public highways of this state, except farmers. The chief of the Washington state patrol shall confer with the emergency management council under RCW 38.52.040 and may make rules and regulations pertaining thereto, sufficient to protect persons and property from unreasonable risk of harm or damage. The chief of the Washington state patrol shall establish such additional rules not inconsistent with Title 49 CFR parts 100 through 199, transportation of hazardous materials, which for compelling reasons make necessary the reduction of risk associated with the transportation of hazardous materials. No such rules may lessen a standard of care; however, the chief of the Washington state patrol may, after conferring with the emergency management council, establish a rule imposing a more stringent standard of care. The chief of the Washington state patrol shall appoint the necessary qualified personnel to carry out the provisions of RCW 46.48.170 through *46.48.190. [1988 c 81 § 19; 1980 c 20 § 1; 1961 c 12 § 46.48.170. Prior: 1951 c 102 § 1; 1949 c 101 § 1; Rem. Supp. 1949 § 6360-63a.]

*Reviser's note: RCW 46.48.190 was repealed by 1988 c 81 § 20.

46.48.175 Rules—Penalties—Responsibility for compliance. Each violation of any rules and/or regulations made pursuant to RCW 46.48.170 or 81.80.290 pertaining to vehicle equipment on motor carriers transporting hazardous material shall be a misdemeanor.

Bail for such a violation shall be set at a minimum of one hundred dollars. The fine for such a violation shall be not less than two hundred dollars nor more than five hundred dollars. Compliance with the provisions of this chapter is the primary responsibility of the owner or lessee of the vehicle or any vehicle used in combination that is cited in the violation. [1980 c 104 § 1; 1961 c 12 § 46.48.175. Prior: 1951 c 102 § 2.]

Rules of court: Bail in criminal traffic offense cases—Mandatory appearance—CrRLJ 3.2.

46.48.180 State patrol study to insure uniformity of regulations. The Washington state patrol shall make a study of the United States department of transportation regulations

pertaining to Title 49 CFR, parts 100 through 199, and the laws of this state pertaining to the same subject in order that the chief of the Washington state patrol may make necessary and proper recommendations to the legislature and state departments from time to time to bring about uniformity between the laws and regulations of the federal government and this state in regard to the transportation of such materials. [1980 c 20 § 2; 1961 c 12 § 46.48.180. Prior: 1949 c 101 § 2; Rem. Supp. 1949 § 6360-63b.]

46.48.185 Inspections. The chief of the Washington state patrol shall direct the necessary qualified personnel to inspect the cargo of any motor carriers vehicle transporting hazardous material, inspect for proper securing, and inspect for the combined loading of cargo which would be inconsistent with the provisions of Title 49 CFR, parts 100 through 199. Authorized personnel inspecting loads of hazardous material shall do so in the presence of a representative of the motor carrier. Seal and locking devices may be removed as necessary to facilitate the inspection. The seals or locking devices removed shall be replaced by the Washington state patrol with a written form approved by the chief to certify seal or locking device removal for inspection of the cargo. [1980 c 20 § 3.]

46.48.200 Radioactive waste—Additional ports of entry. (Contingent expiration date.) Any additional ports of entry for highway transportation of radioactive waste materials other than those designated by WAC 446-50-040 as filed on December 11, 1979, must be authorized by the state legislature. This section shall expire when both the Washington state legislature and at least one other eligible state enact an interstate agreement on radioactive materials transportation management. Certified abstracts furnished to prosecutors and alcohol/drug assessment or treatment agencies shall also indicate whether a recorded violation is an alcohol-related offense as defined in RCW 46.01.260(2) that was originally charged as one of the alcohol-related offenses designated in *RCW 46.01.260(2)(a)(i).

The abstract provided to the insurance company shall exclude any information, except that related to the commission of misdemeanors or felonies by the individual, pertaining to law enforcement officers or fire fighters as defined in RCW 41.26.030, or any officer of the Washington state patrol, while driving official vehicles in the performance of occupational duty. The abstract provided to the insurance company shall include convictions for RCW 46.61.525 (1) and (2) except that the abstract shall report them only as negligent driving without reference to whether they are for first or second degree negligent driving. The abstract provided to the insurance company shall exclude any deferred prosecution under RCW 10.05.060, except that if a person is removed from a deferred prosecution under RCW 10.05.090, the abstract shall show the deferred prosecution as well as the removal.

The director shall collect for each abstract the sum of four dollars and fifty cents which shall be deposited in the highway safety fund.

Any insurance company or its agent receiving the certified abstract shall use it exclusively for its own underwriting purposes and shall not divulge any of the information contained in it to a third party. No policy of insurance may be canceled, nonrenewed, denied, or have the rate increased on the basis of such information unless the policyholder was determined to be at fault. No insurance company or its agent for underwriting purposes relating to the operation of commercial motor vehicles may use any information contained in the abstract relative to any person's operation of motor vehicles while not engaged in such employment, nor may any insurance company or its agent for underwriting purposes relating to the operation of noncommercial motor vehicles use any information contained in the abstract relative to any person's operation of commercial motor vehicles.

Any employer or prospective employer or an agent acting on behalf of an employer or prospective employer receiving the certified abstract shall use it exclusively for his or her own purpose to determine whether the licensee should be permitted to operate a commercial vehicle or school bus upon the public highways of this state and shall not divulge any information contained in it to a third party.

Any alcohol/drug assessment or treatment agency approved by the department of social and health services receiving the certified abstract shall use it exclusively for the purpose of assisting its employees in making a determination as to what level of treatment, if any, is appropriate. The agency, or any of its employees, shall not divulge any information contained in the abstract to a third party.

Release of a certified abstract of the driving record of an employee or prospective employee requires a statement signed by: (1) The employee or prospective employee that authorizes the release of the record, and (2) the employer attesting that the information is necessary to determine whether the licensee should be employed to operate a commercial vehicle or school bus upon the public highways of this state. If the employer or prospective employer authorizes an agent to obtain this information on their behalf, this must be noted in the statement.

TOW TRUCK OPERATORS—REGISTRATION REQUIREMENTS

46.55.020 Registration required—Penalty. A person shall not engage in or offer to engage in the activities of a registered tow truck operator without a current registration certificate from the department of licensing authorizing him

to engage in such activities. Any person engaging in or offering to engage in the activities of a registered tow truck operator without the registration certificate required by this chapter is guilty of a gross misdemeanor.

A registered operator who engages in a business practice that is prohibited under this chapter may be issued a notice of traffic infraction under chapter 46.63 RCW and is also subject to the civil penalties that may be imposed by the department under this chapter. A person found to have committed an offense that is a traffic infraction under this chapter is subject to a monetary penalty of at least two hundred fifty dollars. All traffic infractions issued under this chapter shall be under the jurisdiction of the district court in whose jurisdiction they were issued. [1989 c 111 § 2; 1985 c 377 § 2.]

46.55.025 Registration or insurance required—Penalty. A vehicle engaging in the business of recovery of disabled vehicles for monetary compensation, from or on a public road or highway must either be operated by a registered tow truck operator, or someone who at a minimum has insurance in a like manner and amount as prescribed in RCW 46.55.030(3), and have had their tow trucks inspected in a like manner as prescribed by RCW 46.55.040(1). The department shall adopt rules to enforce this section. Failure to comply with this section is a class 1 civil infraction punishable under RCW 7.80.120. [1995 c 360 § 2.]

46.55.030 Application—Contents, bond, insurance, fee, certificate. (1) Application for licensing as a registered tow truck operator shall be made on forms furnished by the department, shall be accompanied by an inspection certification from the Washington state patrol, shall be signed by the applicant or an agent, and shall include the following information:

- (a) The name and address of the person, firm, partnership, association, or corporation under whose name the business is to be conducted;
- (b) The names and addresses of all persons having an interest in the business, or if the owner is a corporation, the names and addresses of the officers of the corporation;
- (c) The names and addresses of all employees who serve as tow truck drivers;
- (d) Proof of minimum insurance required by subsection (3) of this section;
- (e) The vehicle license and vehicle identification numbers of all tow trucks of which the applicant is the registered owner;
- (f) Any other information the department may require; and
- (g) A certificate of approval from the Washington state patrol certifying that:
 - (i) The applicant has an established place of business and that mail is received at the address shown on the application;
 - (ii) The address of any storage locations where vehicles may be stored is correctly stated on the application;
 - (iii) The place of business has an office area that is accessible to the public without entering the storage area; and

(iv) The place of business has adequate and secure storage facilities, as defined in this chapter and the rules of the department, where vehicles and their contents can be properly stored and protected.

(2) Before issuing a registration certificate to an applicant the department shall require the applicant to file with the department a surety bond in the amount of five thousand dollars running to the state and executed by a surety company authorized to do business in this state. The bond shall be approved as to form by the attorney general and conditioned that the operator shall conduct his business in conformity with the provisions of this chapter pertaining to abandoned or unauthorized vehicles, and to compensate any person, company, or the state for failure to comply with this chapter or the rules adopted hereunder, or for fraud, negligence, or misrepresentation in the handling of these vehicles. Any person injured by the tow truck operator's failure to fully perform duties imposed by this chapter and the rules adopted hereunder, or an ordinance or resolution adopted by a city, town, or county is entitled to recover actual damages, including reasonable attorney's fees against the surety and the tow truck operator. Successive recoveries against the bond shall be permitted, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. As a condition of authority to do business, the operator shall keep the bond in full force and effect. Failure to maintain the penalty value of the bond or cancellation of the bond by the surety automatically cancels the operator's registration.

(3) Before the department may issue a registration certificate to an applicant, the applicant shall provide proof of minimum insurance requirements of:

(a) One hundred thousand dollars for liability for bodily injury or property damage per occurrence; and

(b) Fifty thousand dollars of legal liability per occurrence, to protect against vehicle damage, including but not limited to fire and theft, from the time a vehicle comes into the custody of an operator until it is redeemed or sold. Cancellation of or failure to maintain the insurance required by (a) and (b) of this subsection automatically cancels the operator's registration.

(4) The fee for each original registration and annual renewal is one hundred dollars per company, plus fifty dollars per truck. The department shall forward the registration fee to the state treasurer for deposit in the motor vehicle fund.

(5) The applicant must submit an inspection certificate from the state patrol before the department may issue or renew an operator's registration certificate or tow truck permits.

(6) Upon approval of the application, the department shall issue a registration certificate to the registered operator to be displayed prominently at the operator's place of business. [1989 c 111 § 3; 1987 c 311 § 2; 1985 c 377 § 3.]

46.55.035 Prohibited acts—Penalty. (1) No registered tow truck operator may:

(a) Except as authorized under RCW 46.55.037, ask for or receive any compensation, gratuity, reward, or promise thereof from a person having control or possession of private property or from an agent of the person authorized to sign an

impound authorization, for or on account of the impounding of a vehicle;

(b) Be beneficially interested in a contract, agreement, or understanding that may be made by or between a person having control or possession of private property and an agent of the person authorized to sign an impound authorization;

(c) Have a financial, equitable, or ownership interest in a firm, partnership, association, or corporation whose functions include acting as an agent or a representative of a property owner for the purpose of signing impound authorizations.

(2) This section does not prohibit the registered tow truck operator from collecting the costs of towing, storage, or other services rendered during the course of towing, removing, impounding, or storing of an impounded vehicle as provided by RCW 46.55.120.

(3) A violation of this section is a gross misdemeanor. [1992 c 18 § 1; 1989 c 111 § 4.]

Riding in towed vehicles: RCW 46.61.625.

Safety chains for towing: RCW 46.37.495.

46.55.037 Compensation for private impounds. A registered tow truck operator may receive compensation from a private property owner or agent for a private impound of an unauthorized vehicle that has an approximate fair market value equal only to the approximate value of the scrap in it. The private property owner or an agent must authorize the impound under RCW 46.55.080. The registered tow truck operator shall process the vehicle in accordance with this chapter and shall deduct any compensation received from the private property owner or agent from the amount of the lien on the vehicle in accordance with this chapter. [1992 c 18 § 2.]

46.55.040 Permit required—Inspections of equipment and facilities. (1) A registered operator shall apply for and keep current a tow truck permit for each tow truck of which the operator is the registered owner. Application for a tow truck permit shall be accompanied by a report from the Washington state patrol covering a physical inspection of each tow truck capable of being used by the applicant.

(2) Upon receipt of the fee provided in RCW 46.55.030(4) and a satisfactory inspection report from the state patrol, the department shall issue each tow truck an annual tow truck permit or decal. The class of the tow truck, determined according to RCW 46.55.050, shall be stamped on the permit or decal. The permit or decal shall be displayed on the passenger side of the truck's front windshield.

(3) A tow truck number from the department shall be affixed in a permanent manner to each tow truck.

(4) The Washington state patrol shall conduct annual inspections of tow truck operators' equipment and facilities during the operators' normal business hours. Unscheduled inspections may be conducted without notice at the operator's place of business by an inspector to determine the fitness of a tow truck or facilities. At the time of the inspection, the operator shall provide a paper copy of the master log referred to in RCW 46.55.080.

(5) If at the time of the annual or subsequent inspections the equipment does not meet the requirements of this chapter, and the deficiency is a safety related deficiency, or the equipment is necessary to the truck's performance, the inspector shall cause the registered tow truck operator to remove that equipment from service as a tow truck until such time as the equipment has been satisfactorily repaired. A red tag shall be placed on the windshield of a tow truck taken out of service, and the tow truck shall not provide tow truck service until the Washington state patrol recertifies the truck and removes the tag. [1989 c 111 § 5; 1985 c 377 § 4.]

46.55.050 Classification of trucks—Marking requirements—Time and place of inspection—Penalty.

(1) Tow trucks shall be classified by towing capabilities, and shall meet or exceed all equipment standards set by the state patrol for the type of tow trucks to be used by an operator.

(2) All tow trucks shall display the firm's name, city of address, and telephone number. This information shall be painted on or permanently affixed to both sides of the vehicle in accordance with rules adopted by the department.

(3) Before a tow truck is put into tow truck service, or when the reinspection of a tow truck is necessary, the district commander of the state patrol shall designate a location and time for the inspection to be conducted. When practicable, the inspection or reinspection shall be made within three business days following the request by the operator.

(4) Failure to comply with any requirement of this section or rules adopted under it is a traffic infraction. [1987 c 330 § 740; 1985 c 377 § 5.]

Construction—Application of rules—Severability—1987 c 330: See notes following RCW 28B.12.050.

46.55.060 Business location—Requirements. (1) The address that the tow truck operator lists on his or her application shall be the business location of the firm where its files are kept. Each separate business location requires a separate registration under this chapter. The application shall also list all locations of secure areas for vehicle storage and redemption.

(2) Before an additional lot may be used for vehicle storage, it must be inspected and approved by the state patrol. The lot must also be inspected and approved on an annual basis for continued use.

(3) Each business location must have a sign displaying the firm's name that is readable from the street.

(4) At the business locations listed where vehicles may be redeemed, the registered operator shall post in a conspicuous and accessible location:

(a) All pertinent licenses and permits to operate as a registered tow truck operator;

(b) The current towing and storage charges itemized on a form approved by the department;

(c) The vehicle redemption procedure and rights;

(d) Information supplied by the department as to where complaints regarding either equipment or service are to be directed;

(e) Information concerning the acceptance of commercially reasonable tender as defined in RCW 46.55.120(1)(b).

(5) The department shall adopt rules concerning fencing and security requirements of storage areas, which may provide for modifications or exemptions where needed to achieve compliance with local zoning laws.

(6) On any day when the registered tow truck operator holds the towing services open for business, the business office shall remain open with personnel present who are able to release impounded vehicles in accordance with this chapter and the rules adopted under it. The normal business hours of a towing service shall be from 8:00 a.m. to 5:00 p.m. on weekdays, excluding Saturdays, Sundays, and holidays.

(7) A registered tow truck operator shall maintain personnel who can be contacted twenty-four hours a day to release impounded vehicles within a reasonable time.

(8) A registered operator shall provide access to a telephone for any person redeeming a vehicle, at the time of redemption. [1989 c 111 § 6; 1987 c 311 § 3; 1985 c 377 § 6.]

46.55.063 Fees, schedules, contracts, invoices. (1)

An operator shall file a fee schedule with the department. All filed fees must be adequate to cover the costs of service provided. No fees may exceed those filed with the department. At least ten days before the effective date of any change in an operator's fee schedule, the registered tow truck operator shall file the revised fee schedule with the department.

(2) Towing contracts with private property owners shall be in written form and state the hours of authorization to impound, the persons empowered to authorize the impounds, and the present charge of a private impound for the classes of tow trucks to be used in the impound, and must be retained in the files of the registered tow truck operator for three years.

(3) A fee that is charged for tow truck service must be calculated on an hourly basis, and after the first hour must be charged to the nearest quarter hour.

(4) Fees that are charged for the storage of a vehicle, or for other items of personal property registered or titled with the department, must be calculated on a twenty-four hour basis and must be charged to the nearest half day from the time the vehicle arrived at the secure storage area. However, items of personal property registered or titled with the department that are wholly contained within an impounded vehicle are not subject to additional storage fees; they are, however, subject to satisfying the underlying lien for towing and storage of the vehicle in which they are contained.

(5) All billing invoices that are provided to the redeemer of the vehicle, or other items of personal property registered or titled with the department, must be itemized so that the individual fees are clearly discernable. [1995 c 360 § 3; 1989 c 111 § 7.]

IMPOUNDING UNAUTHORIZED VEHICLES

46.55.070 Posting requirements—Exception. (1) No person may impound, tow, or otherwise disturb any unauthorized vehicle standing on nonresidential private property or in a public parking facility for less than twenty-four hours unless a sign is posted near each entrance and on the

property in a clearly conspicuous and visible location to all who park on such property that clearly indicates:

(a) The times a vehicle may be impounded as an unauthorized vehicle; and

(b) The name, telephone number, and address of the towing firm where the vehicle may be redeemed.

(2) The requirements of subsection (1) of this section do not apply to residential property. Any person having charge of such property may have an unauthorized vehicle impounded immediately upon giving written authorization.

(3) The department shall adopt rules relating to the size of the sign required by subsection (1) of this section, its lettering, placement, and the number required.

(4) This section applies to all new signs erected after July 1, 1986. All other signs must meet these requirements by July 1, 1989. [1987 c 311 § 4; 1985 c 377 § 7.]

46.55.080 Law enforcement impound, private impound—Master log—Certain associations restricted.

(1) If a vehicle is in violation of the time restrictions of RCW 46.55.010(12), it may be impounded by a registered tow truck operator at the direction of a law enforcement officer or other public official with jurisdiction if the vehicle is on public property, or at the direction of the property owner or an agent if it is on private property. A law enforcement officer may also direct the impoundment of a vehicle pursuant to a writ or court order.

(2) The person requesting a private impound or a law enforcement officer or public official requesting a public impound shall provide a signed authorization for the impound at the time and place of the impound to the registered tow truck operator before the operator may proceed with the impound. A registered tow truck operator, employee, or his or her agent may not serve as an agent of a property owner for the purposes of signing an impound authorization or, independent of the property owner, identify a vehicle for impound.

(3) In the case of a private impound, the impound authorization shall include the following statement: "A person authorizing this impound, if the impound is found in violation of chapter 46.55 RCW, may be held liable for the costs incurred by the vehicle owner."

(4) A registered tow truck operator shall record and keep in the operator's files the date and time that a vehicle is put in the operator's custody and released. The operator shall make an entry into a master log regarding transactions relating to impounded vehicles. The operator shall make this master log available, upon request, to representatives of the department or the state patrol.

(5) A person who engages in or offers to engage in the activities of a registered tow truck operator may not be associated in any way with a person or business whose main activity is authorizing the impounding of vehicles. [1989 c 111 § 8; 1987 c 311 § 5; 1985 c 377 § 8.]

46.55.085 Law enforcement impound—Unauthorized vehicle in right of way.

(1) A law enforcement officer discovering an unauthorized vehicle left within a highway right of way shall attach to the vehicle a readily visible notification sticker. The sticker shall contain the following information:

(a) The date and time the sticker was attached;

(b) The identity of the officer;

(c) A statement that if the vehicle is not removed within twenty-four hours from the time the sticker is attached, the vehicle may be taken into custody and stored at the owner's expense; and

(d) The address and telephone number where additional information may be obtained.

(2) If the vehicle has current Washington registration plates, the officer shall check the records to learn the identity of the last owner of record. The officer or his department shall make a reasonable effort to contact the owner by telephone in order to give the owner the information on the notification sticker.

(3) If the vehicle is not removed within twenty-four hours from the time the notification sticker is attached, the law enforcement officer may take custody of the vehicle and provide for the vehicle's removal to a place of safety. A vehicle that does not pose a safety hazard may remain on the roadside for more than twenty-four hours if the owner or operator is unable to remove it from the place where it is located and so notifies law enforcement officials and requests assistance.

(4) For the purposes of this section a place of safety includes the business location of a registered tow truck operator. [1993 c 121 § 1; 1987 c 311 § 6. Formerly RCW 46.52.170 and 46.52.180.]

46.55.090 Storage, return requirements—Personal property—Combination endorsement for tow truck drivers—Viewing impounded vehicle.

(2) All vehicles shall be handled and returned in substantially the same condition as they existed before being towed.

(3) All personal belongings and contents in the vehicle, with the exception of those items of personal property that are registered or titled with the department, shall be kept intact, and shall be returned to the vehicle's owner or agent during normal business hours upon request and presentation of a driver's license or other sufficient identification. Personal belongings, with the exception of those items of personal property that are registered or titled with the department, shall not be sold at auction to fulfill a lien against the vehicle.

(4) All personal belongings, with the exception of those items of personal property that are registered or titled with the department, not claimed before the auction shall be turned over to the local law enforcement agency to which the initial notification of impoundment was given. Such personal belongings shall be disposed of pursuant to chapter 63.32 or 63.40 RCW.

(5) Tow truck drivers shall have a Washington state driver's license endorsed for the appropriate classification under chapter 46.25 RCW or the equivalent issued by another state.

(6) Any person who shows proof of ownership or written authorization from the impounded vehicle's registered or legal owner or the vehicle's insurer may view the

vehicle without charge during normal business hours. [1995 c 360 § 4; 1989 c 178 § 25; 1987 c 311 § 7; 1985 c 377 § 9.]

Severability—Effective dates—1989 c 178: See RCW 46.25.900 and 46.25.901.

46.55.100 Impound notice—Abandoned vehicle report—Owner information—Disposition report. (1) At the time of impoundment the registered tow truck operator providing the towing service shall give immediate notification, by telephone or radio, to a law enforcement agency having jurisdiction who shall maintain a log of such reports. A law enforcement agency, or a private communication center acting on behalf of a law enforcement agency, shall within six to twelve hours of the impoundment, provide to a requesting operator the name and address of the legal and registered owners of the vehicle, and the registered owner of any personal property registered or titled with the department that is attached to or contained in or on the impounded vehicle, the vehicle identification number, and any other necessary, pertinent information. The initial notice of impoundment shall be followed by a written or electronic facsimile notice within twenty-four hours. In the case of a vehicle from another state, time requirements of this subsection do not apply until the requesting law enforcement agency in this state receives the information.

(2) The operator shall immediately send an abandoned vehicle report to the department for any vehicle, and for any items of personal property registered or titled with the department, that are in the operator's possession after the ninety-six hour abandonment period. Such report need not be sent when the impoundment is pursuant to a writ, court order, or police hold. The owner notification and abandonment process shall be initiated by the registered tow truck operator immediately following notification by a court or law enforcement officer that the writ, court order, or police hold is no longer in effect.

(3) Following the submittal of an abandoned vehicle report, the department shall provide the registered tow truck operator with owner information within seventy-two hours.

(4) Within fifteen days of the sale of an abandoned vehicle at public auction, the towing operator shall send a copy of the abandoned vehicle report showing the disposition of the abandoned vehicle and any other items of personal property registered or titled with the department to the crime information center of the Washington state patrol.

(5) If the operator sends an abandoned vehicle report to the department and the department finds no owner information, an operator may proceed with an inspection of the vehicle and any other items of personal property registered or titled with the department to determine whether owner identification is within the vehicle.

(6) If the operator finds no owner identification, the operator shall immediately notify the appropriate law enforcement agency, which shall search the vehicle and any other items of personal property registered or titled with the department for the vehicle identification number or other appropriate identification numbers and check the necessary records to determine the vehicle's or other property's owners. [1995 c 360 § 5; 1991 c 20 § 1; 1989 c 111 § 9; 1987 c 311 § 8; 1985 c 377 § 10.]

46.55.105 Responsibility of registered owner. (1)

The abandonment of any vehicle creates a prima facie presumption that the last registered owner of record is responsible for the abandonment and is liable for costs incurred in removing, storing, and disposing of the abandoned vehicle, less amounts realized at auction.

(2) If an unauthorized vehicle is found abandoned under subsection (1) of this section and removed at the direction of law enforcement, the last registered owner of record is guilty of a traffic infraction, unless the vehicle is redeemed as provided in RCW 46.55.120. In addition to any other monetary penalty payable under chapter 46.63 RCW, the court shall not consider all monetary penalties as having been paid until the court is satisfied that the person found to have committed the infraction has made restitution in the amount of the deficiency remaining after disposal of the vehicle under RCW 46.55.140.

(3) Filing a report of sale or transfer regarding the vehicle involved in accordance with RCW 46.12.101(1) or a vehicle theft report filed with a law enforcement agency relieves the last registered owner of liability under subsections (1) and (2) of this section.

(4) For the purposes of reporting notices of traffic infraction to the department under RCW 46.20.270 and 46.52.100, and for purposes of reporting notices of failure to appear, respond, or comply regarding a notice of traffic infraction to the department under RCW 46.63.070(5), a traffic infraction under subsection (2) of this section is not considered to be a standing, stopping, or parking violation.

(5) A notice of infraction for a violation of this section may be filed with a court of limited jurisdiction organized under Title 3, 35, or 35A RCW, or with a violations bureau subject to the court's jurisdiction. [1995 c 219 § 4; 1993 c 314 § 1.]

46.55.110 Notice to legal and registered owners. (1)

When an unauthorized vehicle is impounded, the impounding towing operator shall notify the legal and registered owners of the impoundment of the unauthorized vehicle and the owners of any other items of personal property registered or titled with the department. The notification shall be sent by first-class mail within twenty-four hours after the impoundment to the last known registered and legal owners of the vehicle, and the owners of any other items of personal property registered or titled with the department, as provided by the law enforcement agency, and shall inform the owners of the identity of the person or agency authorizing the impound. The notification shall include the name of the impounding tow firm, its address, and telephone number. The notice shall also include the location, time of the impound, and by whose authority the vehicle was impounded. The notice shall also include the written notice of the right of redemption and opportunity for a hearing to contest the validity of the impoundment pursuant to RCW 46.55.120.

(2) In the case of an abandoned vehicle, or other item of personal property registered or titled with the department, within twenty-four hours after receiving information on the owners from the department through the abandoned vehicle report, the tow truck operator shall send by certified mail, with return receipt requested, a notice of custody and sale to the legal and registered owners.

(3) No notices need be sent to the legal or registered owners of an impounded vehicle or other item of personal property registered or titled with the department, if the vehicle or personal property has been redeemed. [1995 c 360 § 6; 1989 c 111 § 10; 1987 c 311 § 9; 1985 c 377 § 11.]

46.55.113 Removal by police officer. Whenever the driver of a vehicle is arrested for a violation of RCW 46.61.502 or 46.61.504, the arresting officer may take custody of the vehicle and provide for its prompt removal to a place of safety. In addition, a police officer may take custody of a vehicle and provide for its prompt removal to a place of safety under any of the following circumstances:

(1) Whenever a police officer finds a vehicle standing upon the roadway in violation of any of the provisions of RCW 46.61.560, the officer may provide for the removal of the vehicle or require the driver or other person in charge of the vehicle to move the vehicle to a position off the roadway;

(2) Whenever a police officer finds a vehicle unattended upon a highway where the vehicle constitutes an obstruction to traffic or jeopardizes public safety;

(3) Whenever a police officer finds an unattended vehicle at the scene of an accident or when the driver of a vehicle involved in an accident is physically or mentally incapable of deciding upon steps to be taken to protect his or her property;

(4) Whenever the driver of a vehicle is arrested and taken into custody by a police officer;

(5) Whenever a police officer discovers a vehicle that the officer determines to be a stolen vehicle;

(6) Whenever a vehicle without a special license plate, card, or decal indicating that the vehicle is being used to transport a disabled person under RCW 46.16.381 is parked in a stall or space clearly and conspicuously marked under RCW 46.61.581 which space is provided on private property without charge or on public property;

(7) Upon determining that a person is operating a motor vehicle without a valid driver's license in violation of RCW 46.20.021 or with a license that has been expired for ninety days or more, or with a suspended or revoked license in violation of RCW 46.20.342 or 46.20.420.

Nothing in this section may derogate from the powers of police officers under the common law. For the purposes of this section, a place of safety may include the business location of a registered tow truck operator. [1996 c 89 § 1; 1994 c 275 § 32; 1987 c 311 § 10. Formerly RCW 46.61.565.]

Short title—Effective date—1994 c 275: See notes following RCW 46.04.015.

46.55.115 State patrol—Removal of vehicles directly or by towing operators—Lien for costs of removal and storage—Appeal. The Washington state patrol, under its authority to remove vehicles from the highway, may remove the vehicles directly, through towing operators appointed by the state patrol and called on a rotational or other basis, through contracts with towing operators, or by a combination of these methods. When removal is to be accomplished through a towing operator on a noncontractual basis, the

state patrol may appoint any towing operator for this purpose upon the application of the operator. Each appointment shall be contingent upon the submission of an application to the state patrol and the making of subsequent reports in such form and frequency and compliance with such standards of equipment, performance, pricing, and practices as may be required by rule of the state patrol.

An appointment may be rescinded by the state patrol upon evidence that the appointed towing operator is not complying with the laws or rules relating to the removal and storage of vehicles from the highway. The state patrol may not rescind an appointment merely because a registered tow truck operator negotiates a different rate for voluntary, owner-requested towing than for involuntary towing under this chapter. The costs of removal and storage of vehicles under this section shall be paid by the owner or driver of the vehicle and shall be a lien upon the vehicle until paid, unless the removal is determined to be invalid.

Rules promulgated under this section shall be binding only upon those towing operators appointed by the state patrol for the purpose of performing towing services at the request of the Washington state patrol. Any person aggrieved by a decision of the state patrol made under this section may appeal the decision under chapter 34.05 RCW. [1993 c 121 § 2; 1987 c 330 § 744; 1979 ex.s. c 178 § 22; 1977 ex.s. c 167 § 5. Formerly RCW 46.61.567.]

Construction—Application of rules—Severability—1987 c 330: See notes following RCW 28B.12.050.

REDEMPTION RIGHTS AND HEARING PROCEDURES

46.55.120 Redemption of vehicles—Sale of unredeemed vehicles or personal property—Impoundment in violation of chapter. (1) Vehicles or other items of personal property registered or titled with the department that are impounded by registered tow truck operators pursuant to RCW 46.55.080, 46.55.085, or 46.55.113 may be redeemed only under the following circumstances:

(a) Only the legal owner, the registered owner, a person authorized in writing by the registered owner or the vehicle's insurer, a person who is determined and verified by the operator to have the permission of the registered owner of the vehicle or other item of personal property registered or titled with the department, or one who has purchased a vehicle or item of personal property registered or titled with the department from the registered owner who produces proof of ownership or written authorization and signs a receipt therefor, may redeem an impounded vehicle or items of personal property registered or titled with the department.

(b) The vehicle or other item of personal property registered or titled with the department shall be released upon the presentation to any person having custody of the vehicle of commercially reasonable tender sufficient to cover the costs of towing, storage, or other services rendered during the course of towing, removing, impounding, or storing any such vehicle. Commercially reasonable tender shall include, without limitation, cash, major bank credit cards, or personal checks drawn on in-state banks if accompanied by two pieces of valid identification, one of which

may be required by the operator to have a photograph. If the towing firm can determine through the customer's bank or a check verification service that the presented check would not be paid by the bank or guaranteed by the service, the towing firm may refuse to accept the check. Any person who stops payment on a personal check or credit card, or does not make restitution within ten days from the date a check becomes insufficient due to lack of funds, to a towing firm that has provided a service pursuant to this section or in any other manner defrauds the towing firm in connection with services rendered pursuant to this section shall be liable for damages in the amount of twice the towing and storage fees, plus costs and reasonable attorney's fees.

(2)(a) The registered tow truck operator shall give to each person who seeks to redeem an impounded vehicle, or item of personal property registered or titled with the department, written notice of the right of redemption and opportunity for a hearing, which notice shall be accompanied by a form to be used for requesting a hearing, the name of the person or agency authorizing the impound, and a copy of the towing and storage invoice. The registered tow truck operator shall maintain a record evidenced by the redeeming person's signature that such notification was provided.

(b) Any person seeking to redeem an impounded vehicle under this section has a right to a hearing in the district court for the jurisdiction in which the vehicle was impounded to contest the validity of the impoundment or the amount of towing and storage charges. The district court has jurisdiction to determine the issues involving all impoundments including those authorized by the state or its agents. Any request for a hearing shall be made in writing on the form provided for that purpose and must be received by the district court within ten days of the date the opportunity was provided for in subsection (2)(a) of this section. If the hearing request is not received by the district court within the ten-day period, the right to a hearing is waived and the registered owner is liable for any towing, storage, or other impoundment charges permitted under this chapter. Upon receipt of a timely hearing request, the district court shall proceed to hear and determine the validity of the impoundment.

(3)(a) The district court, within five days after the request for a hearing, shall notify the registered tow truck operator, the person requesting the hearing if not the owner, the registered and legal owners of the vehicle or other item of personal property registered or titled with the department, and the person or agency authorizing the impound in writing of the hearing date and time.

(b) At the hearing, the person or persons requesting the hearing may produce any relevant evidence to show that the impoundment, towing, or storage fees charged were not proper. The court may consider a written report made under oath by the officer who authorized the impoundment in lieu of the officer's personal appearance at the hearing.

(c) At the conclusion of the hearing, the district court shall determine whether the impoundment was proper, whether the towing or storage fees charged were in compliance with the posted rates, and who is responsible for payment of the fees. The court may not adjust fees or charges that are in compliance with the posted or contracted rates.

(d) If the impoundment is found proper, the impoundment, towing, and storage fees as permitted under this chapter together with court costs shall be assessed against the person or persons requesting the hearing, unless the operator did not have a signed and valid impoundment authorization from a private property owner or an authorized agent.

(e) If the impoundment is determined to be in violation of this chapter, then the registered and legal owners of the vehicle or other item of personal property registered or titled with the department shall bear no impoundment, towing, or storage fees, and any security shall be returned or discharged as appropriate, and the person or agency who authorized the impoundment shall be liable for any towing, storage, or other impoundment fees permitted under this chapter. The court shall enter judgment in favor of the registered tow truck operator against the person or agency authorizing the impound for the impoundment, towing, and storage fees paid. In addition, the court shall enter judgment in favor of the registered and legal owners of the vehicle, or other item of personal property registered or titled with the department, for reasonable damages for loss of the use of the vehicle during the time the same was impounded, for not less than fifty dollars per day, against the person or agency authorizing the impound. If any judgment entered is not paid within fifteen days of notice in writing of its entry, the court shall award reasonable attorneys' fees and costs against the defendant in any action to enforce the judgment. Notice of entry of judgment may be made by registered or certified mail, and proof of mailing may be made by affidavit of the party mailing the notice. Notice of the entry of the judgment shall read essentially as follows:

A vehicle or item of personal property registered or titled with the department may be redeemed at any time before the start of the auction upon payment of the applicable towing and storage fees. [1996 c 89 § 2; 1995 c 360 § 7; 1993 c 121 § 3; 1989 c 111 § 11; 1987 c 311 § 12; 1985 c 377 § 12.]

46.55.130 Notice requirements—Public auction—Accumulation of storage charges. (1) If, after the expira-

tion of fifteen days from the date of mailing of notice of custody and sale required in RCW 46.55.110(2) to the registered and legal owners, the vehicle remains unclaimed and has not been listed as a stolen vehicle, then the registered tow truck operator having custody of the vehicle shall conduct a sale of the vehicle at public auction after having first published a notice of the date, place, and time of the auction in a newspaper of general circulation in the county in which the vehicle is located not less than three days and no more than ten days before the date of the auction. The notice shall contain a description of the vehicle including the make, model, year, and license number and a notification that a three-hour public viewing period will be available before the auction. The auction shall be held during daylight hours of a normal business day.

(2) The following procedures are required in any public auction of such abandoned vehicles:

(a) The auction shall be held in such a manner that all persons present are given an equal time and opportunity to bid;

(b) All bidders must be present at the time of auction unless they have submitted to the registered tow truck operator, who may or may not choose to use the preauction bid method, a written bid on a specific vehicle. Written bids may be submitted up to five days before the auction and shall clearly state which vehicle is being bid upon, the amount of the bid, and who is submitting the bid;

(c) The open bid process, including all written bids, shall be used so that everyone knows the dollar value that must be exceeded;

(d) The highest two bids received shall be recorded in written form and shall include the name, address, and telephone number of each such bidder;

(e) In case the high bidder defaults, the next bidder has the right to purchase the vehicle for the amount of his or her bid;

(f) The successful bidder shall apply for title within fifteen days;

(g) The registered tow truck operator shall post a copy of the auction procedure at the bidding site. If the bidding site is different from the licensed office location, the operator shall post a clearly visible sign at the office location that describes in detail where the auction will be held. At the bidding site a copy of the newspaper advertisement that lists the vehicles for sale shall be posted;

(h) All surplus moneys derived from the auction after satisfaction of the registered tow truck operator's lien shall be remitted within thirty days to the department for deposit in the state motor vehicle fund. A report identifying the vehicles resulting in any surplus shall accompany the remitted funds. If the director subsequently receives a valid claim from the registered vehicle owner of record as determined by the department within one year from the date of the auction, the surplus moneys shall be remitted to such owner;

(i) If an operator receives no bid, or if the operator is the successful bidder at auction, the operator shall, within thirty days sell the vehicle to a licensed vehicle wrecker, hulk hauler, or scrap processor by use of the abandoned vehicle report-affidavit of sale, or the operator shall apply for title to the vehicle.

(3) In no case may an operator hold a vehicle for longer than ninety days without holding an auction on the vehicle, except for vehicles that are under a police or judicial hold.

(4)(a) In no case may the accumulation of storage charges exceed fifteen days from the date of receipt of the information by the operator from the department as provided by RCW 46.55.110(2).

(b) The failure of the registered tow truck operator to comply with the time limits provided in this chapter limits the accumulation of storage charges to five days except where delay is unavoidable. Providing incorrect or incomplete identifying information to the department in the abandoned vehicle report shall be considered a failure to comply with these time limits if correct information is available. [1989 c 111 § 12; 1987 c 311 § 13; 1985 c 377 § 13.]

46.55.140 Operator's lien, deficiency claim, liability.

(1) A registered tow truck operator who has a valid and signed impoundment authorization has a lien upon the impounded vehicle for services provided in the towing and storage of the vehicle, unless the impoundment is determined to have been invalid. The lien does not apply to personal property in or upon the vehicle that is not permanently attached to or is not an integral part of the vehicle except for items of personal property registered or titled with the department. The registered tow truck operator also has a deficiency claim against the registered owner of the vehicle for services provided in the towing and storage of the vehicle not to exceed the sum of five hundred dollars after deduction of the amount bid at auction, and for vehicles of over ten thousand pounds gross vehicle weight, the operator has a deficiency claim of one thousand dollars after deduction of the amount bid at auction, unless the impound is determined to be invalid. The limitation on towing and storage deficiency claims does not apply to an impound directed by a law enforcement officer. In no case may the cost of the auction or a buyer's fee be added to the amount charged for the vehicle at the auction, the vehicle's lien, or the overage due. A registered owner who has completed and filed with the department the seller's report as provided for by RCW 46.12.101 and has timely and properly filed the seller's report is relieved of liability under this section. The person named as the new owner of the vehicle on the timely and properly filed seller's report shall assume liability under this section.

The person making the inspection shall record the make and vehicle identification number or license number of the vehicle if available, and shall also verify that the approximate value of the junk vehicle is equivalent only to the approximate value of the scrap in it.

(2) The law enforcement officer or department representative shall provide information on the vehicle's registered and legal owner to the landowner.

(3) Upon receiving information on the vehicle's registered and legal owner, the landowner shall mail a notice to the registered and legal owners shown on the records of the department. The notification shall describe the redemption procedure and the right to arrange for the removal of the vehicle.

(4) If the vehicle remains unclaimed more than fifteen days after the landowner has mailed notification to the registered and legal owner, the landowner may dispose of the vehicle or sign an affidavit of sale to be used as a title document.

(5) If no information on the vehicle's registered and legal owner is found in the records of the department, the landowner may immediately dispose of the vehicle or sign an affidavit of sale to be used as a title document.

(6) The landowner of the property upon which the junk vehicle is located is entitled to recover from the vehicle's registered owner any costs incurred in the removal of the junk vehicle.

(7) For the purposes of this section, the term "landowner" includes a legal owner of private property, a person with possession or control of private property, or a public official having jurisdiction over public property.

of an action taken or omission made in the compliance. [1991 c 292 § 2; 1987 c 311 § 19; 1985 c 377 § 23.]

LOCAL REGULATION

46.55.240 Local ordinances—Requirements. (1) A city, town, or county that adopts an ordinance or resolution concerning unauthorized, abandoned, or impounded vehicles shall include the applicable provisions of this chapter.

(a) A city, town, or county may, by ordinance, authorize other impound situations that may arise locally upon the public right-of-way or other publicly owned or controlled property.

(b) A city, town, or county ordinance shall contain language that establishes a written form of authorization to impound, which may include a law enforcement notice of infraction or citation, clearly denoting the agency's authorization to impound.

(c) A city, town, or county may, by ordinance, provide for release of an impounded vehicle by means of a promissory note in lieu of immediate payment, if at the time of redemption the legal or registered owner requests a hearing on the validity of the impoundment. If the municipal ordinance directs the release of an impounded vehicle before the payment of the impoundment charges, the municipality is responsible for the payment of those charges to the registered tow truck operator within thirty days of the hearing date.

(d) The hearing specified in RCW 46.55.120(2) and in this section may be conducted by an administrative hearing officer instead of in the district court. A decision made by an administrative hearing officer may be appealed to the district court for final judgment.

(2) A city, town, or county may adopt an ordinance establishing procedures for the abatement and removal as public nuisances of junk vehicles or parts thereof from private property. Costs of removal may be assessed against the registered owner of the vehicle if the identity of the owner can be determined, unless the owner in the transfer of ownership of the vehicle has complied with RCW 46.12.101, or the costs may be assessed against the owner of the property on which the vehicle is stored. A city, town, or county may also provide for the payment to the tow truck operator or wrecker as a part of a neighborhood revitalization program.

(3) Ordinances pertaining to public nuisances shall contain:

(a) A provision requiring notice to the last registered owner of record and the property owner of record that a hearing may be requested and that if no hearing is requested, the vehicle will be removed;

(b) A provision requiring that if a request for a hearing is received, a notice giving the time, location, and date of the hearing on the question of abatement and removal of the vehicle or part thereof as a public nuisance shall be mailed, by certified mail, with a five-day return receipt requested, to the owner of the land as shown on the last equalized assessment roll and to the last registered and legal owner of record unless the vehicle is in such condition that identification numbers are not available to determine ownership;

(c) A provision that the ordinance shall not apply to (i) a vehicle or part thereof that is completely enclosed within a building in a lawful manner where it is not visible from the street or other public or private property or (ii) a vehicle or part thereof that is stored or parked in a lawful manner on private property in connection with the business of a licensed dismantler or licensed vehicle dealer and is fenced according to RCW 46.80.130;

(d) A provision that the owner of the land on which the vehicle is located may appear in person at the hearing or present a written statement in time for consideration at the hearing, and deny responsibility for the presence of the vehicle on the land, with his reasons for the denial. If it is determined at the hearing that the vehicle was placed on the land without the consent of the landowner and that he has not subsequently acquiesced in its presence, then the local agency shall not assess costs of administration or removal of the vehicle against the property upon which the vehicle is located or otherwise attempt to collect the cost from the owner;

(e) A provision that after notice has been given of the intent of the city, town, or county to dispose of the vehicle and after a hearing, if requested, has been held, the vehicle or part thereof shall be removed at the request of a law enforcement officer with notice to the Washington state patrol and the department of licensing that the vehicle has been wrecked. The city, town, or county may operate such a disposal site when its governing body determines that commercial channels of disposition are not available or are inadequate, and it may make final disposition of such vehicles or parts, or may transfer such vehicle or parts to another governmental body provided such disposal shall be only as scrap.

(4) A registered disposer under contract to a city or county for the impounding of vehicles shall comply with any administrative regulations adopted by the city or county on the handling and disposing of vehicles. [1994 c 176 § 2; 1991 c 292 § 3; 1989 c 111 § 17; 1987 c 311 § 20; 1985 c 377 § 24.]

(1) Green indication

(a) Vehicle operators facing a circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. Vehicle operators turning right or left shall stop to allow other vehicles lawfully within the intersection control area to complete their movements. Vehicle operators turning right or left shall also stop for pedestrians who are lawfully within the intersection control area as required by RCW 46.61.235(1).

(b) Vehicle operators facing a green arrow signal, shown alone or in combination with another indication, may enter the intersection control area only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Vehicle operators shall stop to allow other vehicles lawfully within the intersection control area to complete their movements. Vehicle operators shall also stop for pedestrians who are lawfully within the intersection control area as required by RCW 46.61.235(1).

(c) Unless otherwise directed by a pedestrian control signal, as provided in RCW 46.61.060 as now or hereafter amended, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(2) Steady yellow indication

(a) Vehicle operators facing a steady circular yellow or yellow arrow signal are thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter when vehicular traffic shall not enter the intersection. Vehicle operators shall stop for

pedestrians who are lawfully within the intersection control area as required by RCW 46.61.235(1).

(b) Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian control signal as provided in RCW 46.61.060 shall not enter the roadway.

(3) Steady red indication

(a) Vehicle operators facing a steady circular red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection control area and shall remain standing until an indication to proceed is shown. However, the vehicle operators facing a steady circular red signal may, after stopping proceed to make a right turn from a one-way or two-way street into a two-way street or into a one-way street carrying traffic in the direction of the right turn; or a left turn from a one-way or two-way street into a one-way street carrying traffic in the direction of the left turn; unless a sign posted by competent authority prohibits such movement. Vehicle operators planning to make such turns shall remain stopped to allow other vehicles lawfully within or approaching the intersection control area to complete their movements. Vehicle operators planning to make such turns shall also remain stopped for pedestrians who are lawfully within the intersection control area as required by RCW 46.61.235(1).

(b) Unless otherwise directed by a pedestrian control signal as provided in RCW 46.61.060 as now or hereafter amended, pedestrians facing a steady circular red signal alone shall not enter the roadway.

(c) Vehicle operators facing a steady red arrow indication may not enter the intersection control area to make the movement indicated by such arrow, and unless entering the intersection control area to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line, but if none, before entering a crosswalk on the near side of the intersection control area, or if none, then before entering the intersection control area and shall remain standing until an indication to make the movement indicated by such arrow is shown. However, the vehicle operators facing a steady red arrow indication may, after stopping proceed to make a right turn from a one-way or two-way street into a two-way street or into a one-way street carrying traffic in the direction of the right turn; or a left turn from a one-way street or two-way street into a one-way street carrying traffic in the direction of the left turn; unless a sign posted by competent authority prohibits such movement. Vehicle operators planning to make such turns shall remain stopped to allow other vehicles lawfully within or approaching the intersection control area to complete their movements. Vehicle operators planning to make such turns shall also remain stopped for pedestrians who are lawfully within the intersection control area as required by RCW 46.61.235(1).

(d) Unless otherwise directed by a pedestrian signal, pedestrians facing a steady red arrow signal indication shall not enter the roadway.

(4) If an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the

pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal. [1993 c 153 § 2; 1990 c 241 § 2; 1975 c 62 § 19; 1965 ex.s. c 155 § 8.]

Severability—1975 c 62: See note following RCW 36.75.010.

46.61.060 Pedestrian control signals. Whenever pedestrian control signals exhibiting the words "Walk" or the walking person symbol or "Don't Walk" or the hand symbol are operating, the signals shall indicate as follows:

(1) WALK or walking person symbol—Pedestrians facing such signal may cross the roadway in the direction of the signal. Vehicle operators shall stop for pedestrians who are lawfully moving within the intersection control area on such signal as required by RCW 46.61.235(1).

(2) Steady or flashing DON'T WALK or hand symbol—Pedestrians facing such signal shall not enter the roadway. Vehicle operators shall stop for pedestrians who have begun to cross the roadway before the display of either signal as required by RCW 46.61.235(1).

(3) Pedestrian control signals having the "Wait" legend in use on August 6, 1965, shall be deemed authorized signals and shall indicate the same as the "Don't Walk" legend. Whenever such pedestrian control signals are replaced the legend "Wait" shall be replaced by the legend "Don't Walk" or the hand symbol. [1993 c 153 § 3; 1990 c 241 § 3; 1975 c 62 § 20; 1965 ex.s. c 155 § 9.]

Severability—1975 c 62: See note following RCW 36.75.010.

46.61.065 Flashing signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal it shall require obedience by vehicular traffic as follows:

(a) FLASHING RED (STOP SIGNAL). When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop at a clearly marked stop line, but if none, before entering a marked crosswalk on the near side of the intersection, or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) FLASHING YELLOW (CAUTION SIGNAL). When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules as set forth in RCW 46.61.340. [1975 c 62 § 21; 1965 ex.s. c 155 § 10.]

Severability—1975 c 62: See note following RCW 36.75.010.

46.61.070 Lane-direction-control signals. When lane-direction-control signals are placed over the individual lanes of a street or highway, vehicular traffic may travel in any lane over which a green signal is shown, but shall not enter or travel in any lane over which a red signal is shown. [1965 ex.s. c 155 § 11.]

46.61.072 Special traffic control signals—Legend. Whenever special traffic control signals exhibit a downward green arrow, a yellow X, or a red X indication, such signal indication shall have the following meaning:

(1) A steady downward green arrow means that a driver is permitted to drive in the lane over which the arrow signal is located.

(2) A steady yellow X or flashing red X means that a driver should prepare to vacate, in a safe manner, the lane over which the signal is located because a lane control change is being made, and to avoid occupying that lane when a steady red X is displayed.

(3) A flashing yellow X means that a driver is permitted to use a lane over which the signal is located for a left turn, using proper caution.

(4) A steady red X means that a driver shall not drive in the lane over which the signal is located, and that this indication shall modify accordingly the meaning of all other traffic controls present. The driver shall obey all other traffic controls and follow normal safe driving practices. [1975 c 62 § 49.]

Severability—1975 c 62: See note following RCW 36.75.010.

46.61.075 Display of unauthorized signs, signals, or markings. (1) No person shall place, maintain or display upon or in view of any highway any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of an official traffic-control device or any railroad sign or signal.

(2) No person shall place or maintain nor shall any public authority permit upon any highway any traffic sign or signal bearing thereon any commercial advertising.

(3) This section shall not be deemed to prohibit the erection upon private property adjacent to highways of signs giving useful directional information and of a type that cannot be mistaken for official signs.

(4) Every such prohibited sign, signal or marking is hereby declared to be a public nuisance and the authority having jurisdiction over the highway is hereby empowered to remove the same or cause it to be removed without notice. [1965 ex.s. c 155 § 12.]

46.61.080 Interference with official traffic-control devices or railroad signs or signals. No person shall, without lawful authority, attempt to or in fact alter, deface, injure, knock down or remove any official traffic-control device or any railroad sign or signal or any inscription, shield or insignia thereon, or any other part thereof. [1965 ex.s. c 155 § 13.]

Interference with traffic-control signals or railroad signs or signals: RCW 47.36.130.

46.61.085 Traffic control signals or devices upon city streets forming part of state highways—Approval by department of transportation. No traffic control signal or device may be erected or maintained upon any city street designated as forming a part of the route of a primary state highway or secondary state highway unless first approved by

the state department of transportation. [1984 c 7 § 62; 1965 ex.s. c 155 § 14.]

DRIVING ON RIGHT SIDE OF ROADWAY— OVERTAKING AND PASSING—USE OF ROADWAY

46.61.100 Keep right except when passing, etc. (1) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) When an obstruction exists making it necessary to drive to the left of the center of the highway; provided, any person so doing shall yield the right of way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;

(c) Upon a roadway divided into three marked lanes and providing for two-way movement traffic under the rules applicable thereon; or

(d) Upon a street or highway restricted to one-way traffic.

(2) Upon all roadways having two or more lanes for traffic moving in the same direction, all vehicles shall be driven in the right-hand lane then available for traffic, except

(a) when overtaking and passing another vehicle proceeding in the same direction, (b) when traveling at a speed greater than the traffic flow, (c) when moving left to allow traffic to merge, or (d) when preparing for a left turn at an intersection, exit, or into a private road or driveway when such left turn is legally permitted. On any such roadway, a motor truck shall be driven only in the right-hand lane except under the conditions enumerated in (a) through (d) of this subsection.

(3) It is a traffic infraction to drive continuously in the left lane of a multilane roadway when it impedes the flow of other traffic.

(4) Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, a vehicle shall not be driven to the left of the center line of the roadway except when authorized by official traffic control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under subsection (1)(b) of this section. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or from an alley, private road or driveway. [1986 c 93 § 2; 1972 ex.s. c 33 § 1; 1969 ex.s. c 281 § 46; 1967 ex.s. c 145 § 58; 1965 ex.s. c 155 § 15.]

Legislative intent—1986 c 93: "It is the intent of the legislature, in this 1985 [1986] amendment of RCW 46.61.100, that the left-hand lane on any state highway with two or more lanes in the same direction be used primarily as a passing lane." [1986 c 93 § 1.]

46.61.105 Passing vehicles proceeding in opposite directions. Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half of the main-traveled portion of the roadway as nearly as possible. [1975 c 62 § 22; 1965 ex.s. c 155 § 16.]

46.61.110 Overtaking a vehicle on the left. The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions and special rules hereinafter stated:

(1) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(2) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle. [1965 ex.s. c 155 § 17.]

Rules of court: *Monetary penalty schedule—JTIR 6.2.*

46.61.115 When overtaking on the right is permitted. (1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) When the vehicle overtaken is making or about to make a left turn;

(b) Upon a roadway with unobstructed pavement of sufficient width for two or more lines of vehicles moving lawfully in the direction being traveled by the overtaking vehicle.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. Such movement shall not be made by driving off the roadway. [1975 c 62 § 23; 1965 ex.s. c 155 § 18.]

Severability—1975 c 62: See note following RCW 36.75.010.

46.61.120 Limitations on overtaking on the left. No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of RCW 46.61.100 through 46.61.160 and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle. [1965 ex.s. c 155 § 19.]

Rules of court: *Monetary penalty schedule—JTIR 6.2.*

(a) When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) When approaching within one hundred feet of or traversing any intersection or railroad grade crossing;

(c) When the view is obstructed upon approaching within one hundred feet of any bridge, viaduct or tunnel.

(2) The foregoing limitations shall not apply upon a one-way roadway, nor under the conditions described in RCW 46.61.100(1)(b), nor to the driver of a vehicle turning left into or from an alley, private road or driveway. [1972 ex.s. c 33 § 2; 1965 ex.s. c 155 § 20.]

Rules of court: *Monetary penalty schedule—JTIR 6.2.*

46.61.130 No-passing zones. (1) The state department of transportation and the local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving to the left of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. When such signs or markings are in place and clearly visible to an ordinarily observant person every driver of a vehicle shall obey the directions thereof.

(2) Where signs or markings are in place to define a no-passing zone as set forth in subsection (1) of this section, no driver may at any time drive on the left side of the roadway within the no-passing zone or on the left side of any pavement striping designed to mark the no-passing zone throughout its length.

(3) This section does not apply under the conditions described in RCW 46.61.100(1)(b), nor to the driver of a vehicle turning left into or from an alley, private road, or driveway. [1984 c 7 § 63; 1972 ex.s. c 33 § 3; 1965 ex.s. c 155 § 21.]

(2) Upon a roadway so designated for one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(3) A vehicle passing around a rotary traffic island shall be driven only to the right of such island. [1984 c 7 § 64; 1975 c 62 § 24; 1965 ex.s. c 155 § 22.]

46.61.140 Driving on roadways laned for traffic.

Whenever any roadway has been divided into two or more clearly marked lanes for traffic the following rules in addition to all others consistent herewith shall apply:

(1) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(2) Upon a roadway which is divided into three lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic-control devices.

(3) Official traffic-control devices may be erected directing slow moving or other specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the directions of every such device.

(4) Official traffic-control devices may be installed prohibiting the changing of lanes on sections of roadway and drivers of vehicles shall obey the directions of every such device. [1965 ex.s. c 155 § 23.]

Rules of court: Monetary penalty schedule—JTIR 6.2.

46.61.145 Following too closely. (1) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(2) The driver of any motor truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another motor truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a motor truck or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade whether or not towing other vehicles shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions. [1965 ex.s. c 155 § 24.]

two solid yellow lines so installed as to control vehicular traffic, every vehicle shall be driven only upon the right-hand roadway unless directed or permitted to use another roadway by official traffic-control devices or police officers. No vehicle shall be driven over, across or within any such dividing space, barrier or section, or median island, except through an opening in such physical barrier or dividing section or space or median island, or at a crossover or intersection established by public authority. 46.61.155 Restricted access. No person shall drive a vehicle onto or from any limited access roadway except at such entrances and exits as are established by public authority. [1965 ex.s. c 155 § 26.]

Rules of court: Monetary penalty schedule—JTIR 6.2.

46.61.160 Restrictions on use of limited-access highway—Use by bicyclists. The department of transportation may by order, and local authorities may by ordinance or resolution, with respect to any limited access highway under their respective jurisdictions prohibit the use of any such highway by funeral processions, or by parades, pedestrians, bicycles or other nonmotorized traffic, or by any person operating a motor-driven cycle. Bicyclists may use the right shoulder of limited-access highways except where prohibited. The department of transportation may by order, and local authorities may by ordinance or resolution, with respect to any limited-access highway under their respective jurisdictions prohibit the use of the shoulders of any such highway by bicycles within urban areas or upon other sections of the highway where such use is deemed to be unsafe.

The department of transportation or the local authority adopting any such prohibitory regulation shall erect and maintain official traffic control devices on the limited access roadway on which such regulations are applicable, and when so erected no person may disobey the restrictions stated on such devices. [1982 c 55 § 5; 1975 c 62 § 25; 1965 ex.s. c 155 § 27.]

There is hereby appropriated from the transportation fund—state to the department of transportation, program C for the period ending June 30, 1993, an additional \$15 million for the sole purpose of expediting completion of the HOV core lane system. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all times or at specified times of day or on specified days. The department shall evaluate the efficacy of the vehicle occupancy requirements and shall report to the

legislative transportation committee by January 1, 1992. [1991 sp.s. c 15 § 67; 1984 c 7 § 65; 1974 ex.s. c 133 § 2.]

RIGHT OF WAY

46.61.180 Vehicle approaching intersection. (1)

When two vehicles approach or enter an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right of way to the vehicle on the right.

(2) The right of way rule declared in subsection (1) of this section is modified at arterial highways and otherwise as stated in this chapter. [1975 c 62 § 26; 1965 ex.s. c 155 § 28.]

46.61.185 Vehicle turning left. The driver of a vehicle intending to turn to the left within an intersection or into an alley, private road, or driveway shall yield the right of way to any vehicle approaching from the opposite direction which is within the intersection or so close thereto as to constitute an immediate hazard. [1965 ex.s. c 155 § 29.]

46.61.190 Vehicle entering stop or yield intersection. (1) Preferential right of way may be indicated by stop signs or yield signs as authorized in RCW 47.36.110.

(2) Except when directed to proceed by a duly authorized flagman, or a police officer, or a fire fighter vested by law with authority to direct, control, or regulate traffic, every driver of a vehicle approaching a stop sign shall stop at a clearly marked stop line, but if none, before entering a marked crosswalk on the near side of the intersection or, if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the roadway, and after having stopped shall yield the right of way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection or junction of roadways.

(3) The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions and if required for safety to stop, shall stop at a clearly marked stop line, but if none, before entering a marked crosswalk on the near side of the intersection or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the roadway, and then after slowing or stopping, the driver shall yield the right of way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways: PROVIDED, That if such a driver is involved in a collision with a vehicle in the intersection or junction of roadways, after driving past a yield sign without stopping,

such collision shall be deemed prima facie evidence of his failure to yield right of way. [1975 c 62 § 27; 1965 ex.s. c 155 § 30.]

46.61.195 Arterial highways designated—Stopping on entering. All state highways are hereby declared to be arterial highways as respects all other public highways or private ways, except that the state department of transportation has the authority to designate any county road or city street as an arterial having preference over the traffic on the state highway if traffic conditions will be improved by such action.

Those city streets designated by the state department of transportation as forming a part of the routes of state highways through incorporated cities and towns are declared to be arterial highways as respects all other city streets or private ways.

The governing authorities of incorporated cities and towns may designate any street as an arterial having preference over the traffic on a state highway if the change is first approved in writing by the state department of transportation. The local authorities making such a change in arterial designation shall do so by proper ordinance or resolution and shall erect or cause to be erected and maintained standard stop signs, or "Yield" signs, to accomplish this change in arterial designation.

The operator of any vehicle entering upon any arterial highway from any other public highway or private way shall come to a complete stop before entering the arterial highway when stop signs are erected as provided by law. 46.61.200 Stop intersections other than arterial may be designated. In addition to the points of intersection of any public highway with any arterial public highway that is constituted by law or by any proper authorities of this state or any city or town of this state, the state department of transportation with respect to state highways, and the proper authorities with respect to any other public highways, have the power to determine and designate any particular intersection, or any particular highways, roads, or streets or portions thereof, at any intersection with which vehicles shall be required to stop before entering such intersection. Upon the determination and designation of such points at which vehicles will be required to come to a stop before entering the intersection, the proper authorities so determining and designating shall cause to be posted and maintained proper signs of the standard design adopted by the state department of transportation indicating that the intersection has been so determined and designated and that vehicles entering it are

required to stop. The superintendent of public instruction, through the superintendent of schools of any school district, or other officer or board performing like functions with respect to the schools of any other educational administrative district, may cause to be appointed voluntary adult recruits as supervisors and, from the student body of any public or private school or institution of learning, students, who shall be known as members of the "school patrol" and who shall serve without compensation and at the pleasure of the authority making the appointment.

The members of such school patrol shall wear an appropriate designation or insignia identifying them as members of the school patrol when in performance of their duties, and they may display "stop" or other proper traffic directional signs or signals at school crossings or other points where school children are crossing or about to cross a public highway, but members of the school patrol and their supervisors shall be subordinate to and obey the orders of any peace officer present and having jurisdiction.

School districts, at their discretion, may hire sufficient numbers of adults to serve as supervisors. Such adults shall be subordinate to and obey the orders of any peace officer present and having jurisdiction.

Any school district having a school patrol may purchase uniforms and other appropriate insignia, traffic signs and other appropriate materials, all to be used by members of such school patrol while in performance of their duties, and may pay for the same out of the general fund of the district.

It shall be unlawful for the operator of any vehicle to fail to stop his vehicle when directed to do so by a school patrol sign or signal displayed by a member of the school patrol engaged in the performance of his duty and wearing or displaying appropriate insignia, and it shall further be unlawful for the operator of a vehicle to disregard any other reasonable directions of a member of the school patrol when acting in performance of his duties as such.

School districts may expend funds from the general fund of the district to pay premiums for life and accident policies covering the members of the school patrol in their district

while engaged in the performance of their school patrol duties.

Members of the school patrol shall be considered as employees for the purposes of RCW 28A.400.370. [1990 c 33 § 585; 1974 ex.s. c 47 § 1; 1961 c 12 § 46.48.160. Prior: 1953 c 278 § 1; 1937 c 189 § 130; RRS § 6360-130; 1927 c 309 § 42; RRS § 6362-42. Formerly RCW 46.48.160.]

SPEED RESTRICTIONS

46.61.400 Basic rule and maximum limits. (1) No person shall drive a vehicle on a highway at a speed greater than is reasonable and prudent under the conditions and having regard to the actual and potential hazards then existing. In every event speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle or other conveyance on or entering the highway in compliance with legal requirements and the duty of all persons to use due care.

(2) Except when a special hazard exists that requires lower speed for compliance with subsection (1) of this section, the limits specified in this section or established as hereinafter authorized shall be maximum lawful speeds, and no person shall drive a vehicle on a highway at a speed in excess of such maximum limits.

- (a) Twenty-five miles per hour on city and town streets;
- (b) Fifty miles per hour on county roads;
- (c) Sixty miles per hour on state highways.

The maximum speed limits set forth in this section may be altered as authorized in RCW 46.61.405, 46.61.410, and 46.61.415.

(3) The driver of every vehicle shall, consistent with the requirements of subsection (1) of this section, drive at an appropriate reduced speed when approaching and crossing an intersection or railway grade crossing, when approaching and going around a curve, when approaching a hill crest, when traveling upon any narrow or winding roadway, and when special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions. [1965 ex.s. c 155 § 54; 1963 c 16 § 1. Formerly RCW 46.48.011.]

Saving of existing orders, etc., establishing speed limits—1963 c 16: "This act shall not repeal or invalidate existing orders and resolutions of the state highway commission or existing resolutions and ordinances of local authorities establishing speed limits within their respective jurisdictions." [1963 c 16 § 7. Formerly RCW 46.48.016.] "This act" [1963 c 16], as amended, is codified as RCW 46.61.400 through 46.61.415, 46.61.425, and 46.61.440.

46.61.405 Decreases by secretary of transportation. Whenever the secretary of transportation shall determine upon the basis of an engineering and traffic investigation that any maximum speed hereinbefore set forth is greater than is reasonable or safe with respect to a state highway under the conditions found to exist at any intersection or upon any other part of the state highway system or at state ferry terminals, or that a general reduction of any maximum speed set forth in RCW 46.61.400 is necessary in order to comply

with a national maximum speed limit, the secretary may determine and declare a reasonable and safe lower maximum limit or a lower maximum limit which will comply with a national maximum speed limit, for any state highway, the entire state highway system, or any portion thereof, which shall be effective when appropriate signs giving notice thereof are erected. The secretary may also fix and regulate the speed of vehicles on any state highway within the maximum speed limit allowed by this chapter for special occasions including, but not limited to, local parades and other special events. Any such maximum speed limit may be declared to be effective at all times or at such times as are indicated upon the said signs; and differing limits may be established for different times of day, different types of vehicles, varying weather conditions, and other factors bearing on safe speeds, which shall be effective (a) when posted upon appropriate fixed or variable signs or (b) if a maximum limit is established for auto stages which is lower than the limit for automobiles, the auto stage speed limit shall become effective thirty days after written notice thereof is mailed in the manner provided in subsection (4) of RCW 46.61.410, as now or hereafter amended. [1987 c 397 § 3; 1977 ex.s. c 151 § 34; 1974 ex.s. c 103 § 1; 1970 ex.s. c 100 § 2; 1967 c 25 § 1; 1963 c 16 § 2. Formerly RCW 46.48.012.]

Intent—1987 c 397: See note following RCW 46.61.410.

Federal requirements—Severability—1977 ex.s. c 151: See RCW 47.98.070 and 47.98.080.

46.61.410 Increases by secretary of transportation—Maximum speed limit for trucks—Auto stages—Signs and notices. (1)(a) Subject to subsection (2) of this section the secretary may increase the maximum speed limit on any highway or portion thereof to not more than seventy miles per hour in accordance with the design speed thereof (taking into account all safety elements included therein), or whenever the secretary determines upon the basis of an engineering and traffic investigation that such greater speed is reasonable and safe under the circumstances existing on such part of the highway.

(b) The greater maximum limit established under (a) of this subsection shall be effective when appropriate signs giving notice thereof are erected, or if a maximum limit is established for auto stages which is lower than the limit for automobiles, the auto stage speed limit shall become effective thirty days after written notice thereof is mailed in the manner provided in subsection (4) of this section.

(c) Such maximum speed limit may be declared to be effective at all times or at such times as are indicated upon said signs or in the case of auto stages, as indicated in said written notice; and differing limits may be established for different times of day, different types of vehicles, varying weather conditions, and other factors bearing on safe speeds, which shall be effective when posted upon appropriate fixed or variable signs or if a maximum limit is established for auto stages which is lower than the limit for automobiles, the auto stage speed limit shall become effective thirty days after written notice thereof is mailed in the manner provided in subsection (4) of this section.

(2) The maximum speed limit for vehicles over ten thousand pounds gross weight and vehicles in combination

except auto stages shall not exceed sixty miles per hour and may be established at a lower limit by the secretary as provided in RCW 46.61.405.

(3) The word "trucks" used by the department on signs giving notice of maximum speed limits means vehicles over ten thousand pounds gross weight and all vehicles in combination except auto stages.

(4) Whenever the secretary establishes maximum speed limits for auto stages lower than the maximum limits for automobiles, the secretary shall cause to be mailed notice thereof to each auto transportation company holding a certificate of public convenience and necessity issued by the Washington utilities and transportation commission. The notice shall be mailed to the chief place of business within the state of Washington of each auto transportation company or if none then its chief place of business without the state of Washington. [1996 c 52 § 1; 1987 c 397 § 4; 1977 ex.s. c 151 § 35; 1974 ex.s. c 103 § 2; 1970 ex.s. c 100 § 1; 1969 ex.s. c 12 § 1; 1965 ex.s. c 155 § 55; 1963 c 16 § 3. Formerly RCW 46.48.013.]

Intent—1987 c 397: "It is the intent of the legislature to increase the speed limit to sixty-five miles per hour on those portions of the rural interstate highway system where the increase would be safe and reasonable and is allowed by federal law. It is also the intent of the legislature that the sixty-five miles per hour speed limit be strictly enforced." [1987 c 397 § 1.]

Federal requirements—Severability—1977 ex.s. c 151: See RCW 47.98.070 and 47.98.080.

46.61.415 When local authorities may alter maximum limits. (1) Whenever local authorities in their respective jurisdictions determine on the basis of an engineering and traffic investigation that the maximum speed permitted under RCW 46.61.400 or 46.61.440 is greater or less than is reasonable and safe under the conditions found to exist upon a highway or part of a highway, the local authority may determine and declare a reasonable and safe maximum limit thereon which

- (a) Decreases the limit at intersections; or
- (b) Increases the limit but not to more than sixty miles per hour; or
- (c) Decreases the limit but not to less than twenty miles per hour.

(2) Local authorities in their respective jurisdictions shall determine by an engineering and traffic investigation the proper maximum speed for all arterial streets and shall declare a reasonable and safe maximum limit thereon which may be greater or less than the maximum speed permitted under RCW 46.61.400(2) but shall not exceed sixty miles per hour.

(3) The secretary of transportation is authorized to establish speed limits on county roads and city and town streets as shall be necessary to conform with any federal requirements which are a prescribed condition for the allocation of federal funds to the state.

(4) Any altered limit established as hereinbefore authorized shall be effective when appropriate signs giving notice thereof are erected. Such maximum speed limit may be declared to be effective at all times or at such times as are indicated upon such signs; and differing limits may be established for different times of day, different types of vehicles, varying weather conditions, and other factors

bearing on safe speeds, which shall be effective when posted upon appropriate fixed or variable signs.

(5) Any alteration of maximum limits on state highways within incorporated cities or towns by local authorities shall not be effective until such alteration has been approved by the secretary of transportation. [1977 ex.s. c 151 § 36; 1974 ex.s. c 103 § 3; 1963 c 16 § 4. Formerly RCW 46.48.014.]

Federal requirements—Severability—1977 ex.s. c 151: See RCW 47.98.070 and 47.98.080.

46.61.425 Minimum speed regulation—Passing slow moving vehicle. (1) No person shall drive a motor vehicle at such a slow speed as to impede the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law: **PROVIDED,** That a person following a vehicle driving at less than the legal maximum speed and desiring to pass such vehicle may exceed the speed limit, subject to the provisions of RCW 46.61.120 on highways having only one lane of traffic in each direction, at only such a speed and for only such a distance as is necessary to complete the pass with a reasonable margin of safety.

(2) Whenever the secretary of transportation or local authorities within their respective jurisdictions determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway unreasonably impede the normal movement of traffic, the secretary or such local authority may determine and declare a minimum speed limit thereat which shall be effective when appropriate signs giving notice thereof are erected. No person shall drive a vehicle slower than such minimum speed limit except when necessary for safe operation or in compliance with law. [1977 ex.s. c 151 § 37; 1969 c 135 § 1; 1967 c 25 § 2; 1963 c 16 § 6. Formerly RCW 46.48.015.]

46.61.427 Slow moving vehicle to pull off roadway. On a two-lane highway where passing is unsafe because of traffic in the opposite direction or other conditions, a slow moving vehicle, behind which five or more vehicles are formed in a line, shall turn off the roadway wherever sufficient area for a safe turn-out exists, in order to permit the vehicles following to proceed. As used in this section a slow moving vehicle is one which is proceeding at a rate of speed less than the normal flow of traffic at the particular time and place. [1973 c 88 § 1.]

46.61.428 Slow-moving vehicle permitted to drive on improved shoulders, when. (1) The state department of transportation and local authorities are authorized to determine those portions of any two-lane highways under their respective jurisdictions on which drivers of slow-moving vehicles may safely drive onto improved shoulders for the purpose of allowing overtaking vehicles to pass and may by appropriate signs indicate the beginning and end of such zones.

(2) Where signs are in place to define a driving-on-shoulder zone as set forth in subsection (1) of this section, the driver of a slow-moving vehicle may drive onto and

along the shoulder within the zone but only for the purpose of allowing overtaking vehicles to pass and then shall return to the roadway.

(3) Signs erected to define a driving-on-shoulder zone take precedence over pavement markings for the purpose of allowing the movements described in subsection (2) of this section. [1984 c 7 § 71; 1977 ex.s. c 39 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

46.61.430 Authority of secretary of transportation to fix speed limits on limited access facilities exclusive—Local regulations. Notwithstanding any law to the contrary or inconsistent herewith, the secretary of transportation shall have the power and the duty to fix and regulate the speed of vehicles within the maximum speed limit allowed by law for state highways, designated as limited access facilities, regardless of whether a portion of said highway is within the corporate limits of a city or town. No governing body or authority of such city or town or other political subdivision may have the power to pass or enforce any ordinance, rule, or regulation requiring a different rate of speed, and all such ordinances, rules, and regulations contrary to or inconsistent therewith now in force are void and of no effect. [1977 ex.s. c 151 § 38; 1974 ex.s. c 103 § 4; 1961 c 12 § 46.48.041. Prior: 1955 c 177 § 5. Formerly RCW 46.48.041.]

46.61.435 Local authorities to provide "stop" or "yield" signs at intersections with increased speed highways—Designated as arterials. The governing body or authority of any such city or town or political subdivision shall place and maintain upon each and every highway intersecting a highway where an increased speed is permitted, as provided in this chapter, appropriate stop or yield signs, sufficient to be read at any time by any person upon approaching and entering the highway upon which such increased speed is permitted and such city street or such portion thereof as is subject to the increased speed shall be an arterial highway. 46.61.440 Maximum speed limit when passing school or playground crosswalks—Penalty, disposition of proceeds. (1) Subject to RCW 46.61.400(1), and except in those instances where a lower maximum lawful speed is provided by this chapter or otherwise, it shall be unlawful for the operator of any vehicle to operate the same at a speed in excess of twenty miles per hour when operating any vehicle upon a highway either inside or outside an incorporated city or town when passing any marked school or

playground crosswalk when such marked crosswalk is fully posted with standard school speed limit signs or standard playground speed limit signs. The speed zone at the crosswalk shall extend three hundred feet in either direction from the marked crosswalk.

(2) A person found to have committed any infraction relating to speed restrictions within a school or playground speed zone shall be assessed a monetary penalty equal to twice the penalty assessed under RCW 46.63.110. This penalty may not be waived, reduced, or suspended.

(3) The school zone safety account is created in the custody of the state treasurer. Fifty percent of the moneys collected under subsection (2) of this section shall be deposited into the account. Expenditures from the account may be used only by the Washington traffic safety commission solely to fund projects in local communities to improve school zone safety. Only the director of the traffic safety commission or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but no appropriation is required for expenditures until July 1, 1999, after which date moneys in the account may be spent only after appropriation. 46.61.450 Maximum speed, weight, or size in traversing bridges, elevated structures, tunnels, underpasses—Posting limits. It shall be unlawful for any person to operate a vehicle or any combination of vehicles over any bridge or other elevated structure or through any tunnel or underpass constituting a part of any public highway at a rate of speed or with a gross weight or of a size which is greater at any time than the maximum speed or maximum weight or size which can be maintained or carried with safety over any such bridge or structure or through any such tunnel or underpass when such bridge, structure, tunnel, or underpass is sign posted as hereinafter provided. The secretary of transportation, if it be a bridge, structure, tunnel, or under-

pass upon a state highway, or the governing body or authorities of any county, city, or town, if it be upon roads or streets under their jurisdiction, may restrict the speed which may be maintained or the gross weight or size which may be operated upon or over any such bridge or elevated structure or through any such tunnel or underpass with safety thereto. The secretary or the governing body or authorities of any county, city, or town having jurisdiction shall determine and declare the maximum speed or maximum gross weight or size which such bridge, elevated structure, tunnel, or underpass can withstand or accommodate and shall cause suitable signs stating such maximum speed or maximum gross weight, or size, or either, to be erected and maintained on the right hand side of such highway, road, or street and at a distance of not less than one hundred feet from each end of such bridge, structure, tunnel, or underpass and on the approach thereto: PROVIDED, That in the event that any such bridge, elevated structure, tunnel, or underpass is upon a city street designated by the transportation commission as forming a part of the route of any state highway through any such incorporated city or town the determination of any maximum speed or maximum gross weight or size which such bridge, elevated structure, tunnel, or underpass can withstand or accommodate shall not be enforceable at any speed, weight, or size less than the maximum allowed by law, unless with the approval in writing of the secretary. Upon the trial of any person charged with a violation of this section, proof of either violation of maximum speed or maximum weight, or size, or either, and the distance and location of such signs as are required, shall constitute conclusive evidence of the maximum speed or maximum weight, or size, or either, which can be maintained or carried with safety over such bridge or elevated structure or through such tunnel or underpass. [1977 ex.s. c 151 § 39; 1961 c 12 § 46.48.080. Prior: 1937 c 189 § 70; RRS § 6360-70. Formerly RCW 46.48.080.]

46.61.455 Vehicles with solid or hollow cushion tires. Except for vehicles equipped with temporary-use spare tires that meet federal standards, it shall be unlawful to operate any vehicle equipped or partly equipped with solid rubber tires or hollow center cushion tires, or to operate any combination of vehicles any part of which is equipped or partly equipped with solid rubber tires or hollow center cushion tires, so long as solid rubber tires or hollow center cushion tires may be used under the provisions of this title, upon any public highway of this state at a greater rate of speed than ten miles per hour: PROVIDED, That the temporary-use spare tires are installed and used in accordance with the manufacturer's instructions. [1990 c 105 § 3; 1961 c 12 § 46.48.110. Prior: 1947 c 200 § 11; 1937 c 189 § 73; Rem. Supp. 1947 § 6360-73. Formerly RCW 46.48.110.]

46.61.460 Special speed limitation on motor-driven cycle. No person shall operate any motor-driven cycle at any time mentioned in RCW 46.37.020 at a speed greater than thirty-five miles per hour unless such motor-driven cycle is equipped with a head lamp or lamps which are

adequate to reveal a person or vehicle at a distance of three hundred feet ahead. [1965 ex.s. c 155 § 57.]

46.61.465 Exceeding speed limit evidence of reckless driving. The unlawful operation of a vehicle in excess of the maximum lawful speeds provided in this chapter at the point of operation and under the circumstances described shall be prima facie evidence of the operation of a motor vehicle in a reckless manner by the operator thereof. [1961 c 12 § 46.48.026. Prior: 1951 c 28 § 12; 1949 c 196 § 6, part; 1947 c 200 § 8, part; 1937 c 189 § 64, part; Rem. 46.61.470 Speed traps defined, certain types permitted—Measured courses, speed measuring devices, timing from aircraft. (1) No evidence as to the speed of any vehicle operated upon a public highway by any person arrested for violation of any of the laws of this state regarding speed or of any orders, rules, or regulations of any city or town or other political subdivision relating thereto shall be admitted in evidence in any court at a subsequent trial of such person in case such evidence relates to or is based upon the maintenance or use of a speed trap except as provided in subsection (2) of this section. A "speed trap," within the meaning of this section, is a particular section of or distance on any public highway, the length of which has been or is measured off or otherwise designated or determined, and the limits of which are within the vision of any officer or officers who calculate the speed of a vehicle passing through such speed trap by using the lapsed time during which such vehicle travels between the entrance and exit of such speed trap.

(2) Evidence shall be admissible against any person arrested or issued a notice of a traffic infraction for violation of any of the laws of this state or of any orders, rules, or regulations of any city or town or other political subdivision regarding speed if the same is determined by a particular section of or distance on a public highway, the length of which has been accurately measured off or otherwise designated or determined and either: (a) The limits of which are controlled by a mechanical, electrical, or other device capable of measuring or recording the speed of a vehicle passing within such limits; or (b) a timing device is operated from an aircraft, which timing device when used to measure the elapsed time of a vehicle passing over such a particular section of or distance upon a public highway indicates the speed of a vehicle.

(3) The exceptions of subsection (2) of this section are limited to devices or observations with a maximum error of not to exceed five percent using the lapsed time during which such vehicle travels between such limits, and such limits shall not be closer than one-fourth mile. 46.61.475 Charging violations of speed regulations.

(1) In every charge of violation of any speed regulation in this chapter the complaint, also the summons or notice to appear, shall specify the approximate speed at which the defendant is alleged to have driven, also the maximum speed applicable within the district or at the location. 46.61.500 Reckless driving—Penalty. (1) Any person who drives any vehicle in willful or wanton disregard for the safety of persons or property is guilty of reckless driving. Violation of the provisions of this section is a gross misdemeanor punishable by imprisonment of not more than one year and by a fine of not more than five thousand dollars.

(2) The license or permit to drive or any nonresident privilege of any person convicted of reckless driving shall be suspended by the department for not less than thirty days. [1990 c 291 § 1; 1979 ex.s. c 136 § 85; 1967 c 32 § 67; 1965 ex.s. c 155 § 59.]

The court shall not admit evidence of this defense unless the defendant notifies the prosecution prior to the omnibus or pretrial hearing in the case of the defendant's intent to assert the affirmative defense.

(4) Analyses of blood or breath samples obtained more than two hours after the alleged driving may be used as evidence that within two hours of the alleged driving, a person had an alcohol concentration of 0.10 or more in violation of subsection (1)(a) of this section, and in any case in which the analysis shows an alcohol concentration above 0.00 may be used as evidence that a person was under the influence of or affected by intoxicating liquor or any drug in violation of subsection (1) (b) or (c) of this section.

(c) While the person is under the combined influence of or affected by intoxicating liquor and any drug.

(2) The fact that a person charged with a violation of this section is or has been entitled to use a drug under the laws of this state does not constitute a defense against any charge of violating this section. No person may be convicted under this section if, prior to being pursued by a law enforcement officer, the person has moved the vehicle safely off the roadway.

(3) It is an affirmative defense to a violation of subsection (1)(a) of this section which the defendant must prove by a preponderance of the evidence that the defendant consumed a sufficient quantity of alcohol after the time of being in actual physical control of the vehicle and before the administration of an analysis of the person's breath or blood to cause the defendant's alcohol concentration to be 0.10 or more within two hours after being in such control. The notice of seizure may be served by any method authorized by law or court rule, including but not limited to service by certified mail with return receipt requested. Service by mail is complete upon mailing within the fifteen-day period after the seizure. Notice of seizure in the case of property subject to a security interest that has been perfected on a certificate of title shall be made by service upon the secured party or the secured party's assignee at the address shown on the financing statement or the certificate of title.

(5) If no person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the vehicle is deemed forfeited.

(6) If a person notifies the seizing law enforcement agency in writing of the person's claim of ownership or right to possession of the seized vehicle within forty-five days of the seizure, the law enforcement agency shall give the person or persons a reasonable opportunity to be heard as to the claim or right. The hearing shall be before the chief law enforcement officer of the seizing agency or the chief law enforcement officer's designee, except where the seizing agency is a state agency as defined in RCW 34.12.020, the hearing shall be before the chief law enforcement officer of the seizing agency or an administrative law judge appointed under chapter 34.12 RCW, except that any person asserting a claim or right may remove the matter to a court of competent jurisdiction. Removal may only be accomplished according to the rules of civil procedure. The person seeking removal of the matter must serve process against the state, county, political subdivision, or municipality that operates the seizing agency, and any other party of interest, in accordance with RCW 4.28.080 or 4.92.020, within forty-five days after the person seeking removal has notified the seizing law enforcement agency of the person's claim of ownership or right to possession. The court to which the matter is to be removed shall be the district court when the aggregate value of the vehicle is within the jurisdictional limit set forth in RCW 3.66.020. A hearing before the seizing agency and any appeal therefrom shall be under Title 34 RCW. In a court hearing between two or more claimants to the vehicle involved, the prevailing party shall be entitled to a judgment for costs and reasonable attorneys' fees. The burden of producing evidence shall be upon the person claiming to be the legal owner or the person claiming to have the lawful right to possession of the vehicle. The seizing law enforcement agency shall promptly return the

vehicle to the claimant upon a determination by the administrative law judge or court that the claimant is the present legal owner under Title 46 RCW or is lawfully entitled to possession of the vehicle.

(7) When a vehicle is forfeited under this chapter the seizing law enforcement agency may sell the vehicle, retain it for official use, or upon application by a law enforcement agency of this state release the vehicle to that agency for the exclusive use of enforcing this title; provided, however, that the agency shall first satisfy any bona fide security interest to which the vehicle is subject under subsection (1) (a) or (c) of this section.

(8) When a vehicle is forfeited, the seizing agency shall keep a record indicating the identity of the prior owner, if known, a description of the vehicle, the disposition of the vehicle, the value of the vehicle at the time of seizure, and the amount of proceeds realized from disposition of the vehicle.

(9) Each seizing agency shall retain records of forfeited vehicles for at least seven years.

(10) Each seizing agency shall file a report including a copy of the records of forfeited vehicles with the state treasurer each calendar quarter.

(11) The quarterly report need not include a record of a forfeited vehicle that is still being held for use as evidence during the investigation or prosecution of a case or during the appeal from a conviction.

(12) By January 31st of each year, each seizing agency shall remit to the state treasurer an amount equal to ten percent of the net proceeds of vehicles forfeited during the preceding calendar year. Money remitted shall be deposited in the public safety and education account.

(13) The net proceeds of a forfeited vehicle is the value of the forfeitable interest in the vehicle after deducting the cost of satisfying a bona fide security interest to which the vehicle is subject at the time of seizure; and in the case of a sold vehicle, after deducting the cost of sale, including reasonable fees or commissions paid to independent selling agents.

(14) The value of a sold forfeited vehicle is the sale price. The value of a retained forfeited vehicle is the fair market value of the vehicle at the time of seizure, determined when possible by reference to an applicable commonly used index, such as the index used by the department of licensing. A seizing agency may, but need not, use an independent qualified appraiser to determine the value of retained vehicles. If an appraiser is used, the value of the vehicle appraised is net of the cost of the appraisal. [1995 c 332 § 6; 1994 c 139 § 1.]

This limitation shall not apply to the taking of breath specimens.

(5) The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer one or more tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer.

If the person is unable to pay at that time the court may, in its discretion, grant an extension of the period in which the penalty may be paid. If the penalty is not paid on or before the time established for payment the court shall notify the department of the failure to pay the penalty, and the department shall suspend the person's driver's license or driving privilege until the penalty has been paid and the penalty provided in subsection (3) of this section has been paid. traffic infraction was stopping, standing, or parking in violation of any such provision of this title or an equivalent administrative regulation or local law, ordinance, regulation, or resolution, together with proof that the person named in the notice of traffic infraction was at the time of the violation the registered owner of the vehicle, shall constitute in evidence a prima facie presumption that the registered owner of the vehicle was the person who parked or placed the vehicle at the point where, and for the time during which, the violation occurred.

The chief administrative officer of every such traffic enforcement agency shall be responsible for the issuance of such books and shall maintain a record of every such book and each citation contained therein issued to individual members of the traffic enforcement agency and shall require and retain a receipt for every book so issued.

Every traffic enforcement officer upon issuing a traffic citation to an alleged violator of any provision of the motor vehicle laws of this state or of any traffic ordinance of any city or town shall deposit the original or a copy of such traffic citation with a court having competent jurisdiction over the alleged offense or with its traffic violations bureau.

Upon the deposit of the original or a copy of such traffic citation with a court having competent jurisdiction over the alleged offense or with its traffic violations bureau as aforesaid, said original or copy of such traffic citation may be disposed of only by trial in said court or other official action by a judge of said court, including forfeiture of the bail or by the deposit of sufficient bail with or payment of a fine to said traffic violations bureau by the person to whom such traffic citation has been issued by the traffic enforcement officer.

Any person who cancels or solicits the cancellation of any traffic citation, in any manner other than as provided in this section, shall be guilty of a misdemeanor.

Every record of traffic citations required in this section shall be audited monthly by the appropriate fiscal officer of the government agency to which the traffic enforcement agency is responsible. [1961 c 12 § 46.64.010. Prior: 1949 c 196 § 16; 1937 c 189 § 145; Rem. Supp. 1949 § 6360-145.]

Whenever any person is arrested for any violation of the traffic laws or regulations which is punishable as a misdemeanor or by imposition of a fine, the arresting officer may serve upon him or her a traffic citation and notice to appear in court. Such spaces shall be filled with the appropriate information by the arresting officer. The arrested person, in order to secure release, and when permitted by the arresting officer, must give his or her written promise to appear in court as required by the citation and notice by signing in the appropriate place the written citation and notice served by the arresting officer, and if the arrested person is a nonresident of the state, shall also post a bond, cash security, or bail as required under RCW 46.64.035. An officer may not serve or issue any traffic citation or notice

for any offense or violation except either when the offense or violation is committed in his or her presence or when a person may be arrested pursuant to RCW 10.31.100, as now or hereafter amended. The detention arising from an arrest under this section may not be for a period of time longer than is reasonably necessary to issue and serve a citation and notice, except that the time limitation does not apply under any of the following circumstances:

(1) Where the arrested person refuses to sign a written promise to appear in court as required by the citation and notice provisions of this section;

(2) Where the arresting officer has probable cause to believe that the arrested person has committed any of the offenses enumerated in RCW 10.31.100(3), as now or hereafter amended;

(3) When the arrested person is a nonresident and is being detained for a hearing under RCW 46.64.035. [1987 c 345 § 2; 1985 c 303 § 11; 1979 ex.s. c 28 § 2; 1975-'76 2nd ex.s. c 95 § 2; 1975 c 56 § 1; 1967 c 32 § 70; 1961 c 12 § 46.64.015. Prior: 1951 c 175 § 1.]

46.64.025 Nonappearance after written promise—Notice to department. Whenever any person has for a period of fifteen or more days violated his written promise to appear in court, the court in which the defendant so promised to appear shall forthwith give notice of such fact to the department of licensing. Whenever thereafter the case in which such promise was given is adjudicated the court hearing the case shall file with the department a certificate showing that the case has been adjudicated. [1979 c 158 § 175; 1967 c 32 § 71; 1965 ex.s. c 121 § 23.]

Purpose—Construction—1965 ex.s. c 121: See note following RCW 46.20.021.

46.64.030 Procedure governing arrest and prosecution. The provisions of this title with regard to the apprehension and arrest of persons violating this title shall govern all police officers in making arrests without a warrant for violations of this title for offenses either committed in their presence or believed to have been committed based on probable cause pursuant to RCW 10.31.100, but the procedure prescribed herein shall not otherwise be exclusive of any other method prescribed by law for the arrest and prosecution of a person for other like offenses. [1979 ex.s. c 28 § 3; 1975 c 56 § 2; 1967 c 32 § 72; 1961 c 12 § 46.64.030. Prior: 1937 c 189 § 147; RRS § 6360-147.]

46.64.035 Posting of security or bail by nonresident—Penalty. Any nonresident of the state of Washington who is issued a notice of infraction or a citation for a traffic offense may be required to post either a bond or cash security in the amount of the infraction penalty or to post bail. The court shall by January 1, 1990, accept, in lieu of bond or cash security, valid major credit cards issued by a bank or other financial institution or automobile club card guaranteed by an insurance company licensed to conduct business in the state. If payment is made by credit card the

court is authorized to impose, in addition to any penalty or fine, an amount equal to the charge to the court for accepting such cards. If the person cannot post the bond, cash security, or bail, he or she shall be taken to a magistrate or judge for a hearing at the first possible working time of the court. If the person refuses to comply with this section, he or she shall be guilty of a misdemeanor. This section does not apply to residents of states that have entered into a reciprocal agreement as outlined in RCW 46.23.020. [1987 c 345 § 3.]

46.64.040 Nonresident's use of highways—Resident leaving state—Secretary of state as attorney in fact. The acceptance by a nonresident of the rights and privileges conferred by law in the use of the public highways of this state, as evidenced by his or her operation of a vehicle thereon, or the operation thereon of his or her vehicle with his or her consent, express or implied, shall be deemed equivalent to and construed to be an appointment by such nonresident of the secretary of state of the state of Washington to be his or her true and lawful attorney upon whom may be served all lawful summons and processes against him or her growing out of any accident, collision, or liability in which such nonresident may be involved while operating a vehicle upon the public highways, or while his or her vehicle is being operated thereon with his or her consent, express or implied, and such operation and acceptance shall be a signification of the nonresident's agreement that any summons or process against him or her which is so served shall be of the same legal force and validity as if served on the nonresident personally within the state of Washington. Likewise each resident of this state who, while operating a motor vehicle on the public highways of this state, is involved in any accident, collision or liability and thereafter within three years departs from this state appoints the secretary of state of the state of Washington as his or her lawful attorney for service of summons as provided in this section for nonresidents. Service of such summons or process shall be made by leaving two copies thereof with a fee established by the secretary of state by rule with the secretary of state of the state of Washington, or at the secretary of state's office, and such service shall be sufficient and valid personal service upon said resident or nonresident: PROVIDED, That notice of such service and a copy of the summons or process is forthwith sent by registered mail with return receipt requested, by plaintiff to the defendant at the last known address of the said defendant, and the plaintiff's affidavit of compliance herewith are appended to the process, together with the affidavit of the plaintiff's attorney that the attorney has with due diligence attempted to serve personal process upon the defendant at all addresses known to him or her of defendant and further listing in his or her affidavit the addresses at which he or she attempted to have process served. However, if process is forwarded by registered mail and defendant's endorsed receipt is received and entered as a part of the return of process then the foregoing affidavit of plaintiff's attorney need only show that the defendant received personal delivery by mail: PROVIDED FURTHER, That personal service outside of this state in accordance with the provisions of law relating to personal service of summons outside of this state

shall relieve the plaintiff from mailing a copy of the summons or process by registered mail as hereinbefore provided. The secretary of state shall forthwith send one of such copies by mail, postage prepaid, addressed to the defendant at the defendant's address, if known to the secretary of state. The court in which the action is brought may order such continuances as may be necessary to afford the defendant reasonable opportunity to defend the action. 46.65.010 State policy enunciated. It is hereby declared to be the policy of the state of Washington:

(1) To provide maximum safety for all persons who travel or otherwise use the public highways of this state; and

(2) To deny the privilege of operating motor vehicles on such highways to persons who by their conduct and record have demonstrated their indifference for the safety and welfare of others and their disrespect for the laws of the state, the orders of her courts and the statutorily required acts of her administrative agencies; and

(3) To discourage repetition of criminal acts by individuals against the peace and dignity of the state and her political subdivisions and to impose increased and added deprivation of the privilege to operate motor vehicles upon

habitual offenders who have been convicted repeatedly of violations of traffic laws. [1971 ex.s. c 284 § 3.]

Severability—1971 ex.s. c 284: "If any provision of this 1971 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1971 ex.s. c 284 § 17.]

46.65.020 Habitual offender defined. As used in this chapter, unless a different meaning is plainly required by the context, an habitual offender means any person, resident or nonresident, who has accumulated convictions or findings that the person committed a traffic infraction as defined in RCW 46.20.270, or, if a minor, has violations recorded with the department of licensing, for separate and distinct offenses as described in either subsection (1) or (2) below committed within a five-year period, as evidenced by the records maintained in the department of licensing: PROVIDED, That where more than one described offense is committed within a six-hour period such multiple offenses shall, on the first such occasion, be treated as one offense for the purposes of this chapter:

(1) Three or more convictions, singularly or in combination, of the following offenses:

(a) Vehicular homicide as defined in RCW 46.61.520;

(b) Vehicular assault as defined in RCW 46.61.522;

(c) Driving or operating a motor vehicle while under the influence of intoxicants or drugs;

(d) Driving a motor vehicle while his or her license, permit, or privilege to drive has been suspended or revoked as defined in RCW 46.20.342(1)(b);

(e) Failure of the driver of any vehicle involved in an accident resulting in the injury or death of any person or damage to any vehicle which is driven or attended by any person to immediately stop such vehicle at the scene of such accident or as close thereto as possible and to forthwith return to and in every event remain at, the scene of such accident until he has fulfilled the requirements of RCW 46.52.020;

(f) Reckless driving as defined in RCW 46.61.500;

(g) Being in physical control of a motor vehicle while under the influence of intoxicating liquor or any drug as defined in RCW 46.61.504; or

(h) Attempting to elude a pursuing police vehicle as defined in RCW 46.61.024;

(2) Twenty or more convictions or findings that the person committed a traffic infraction for separate and distinct offenses, singularly or in combination, in the operation of a motor vehicle that are required to be reported to the department of licensing other than the offenses of driving with an expired driver's license and not having a driver's license in the operator's immediate possession. Such convictions or findings shall include those for offenses enumerated in subsection (1) of this section when taken with and added to those offenses described herein but shall not include convictions or findings for any nonmoving violation. No person may be considered an habitual offender under this subsection unless at least three convictions have occurred within the three hundred sixty-five days immediately preceding the last conviction.

The offenses included in subsections (1) and (2) of this section are deemed to include offenses under any valid town, city, or county ordinance substantially conforming to the

provisions cited in subsections (1) and (2) or amendments thereto, and any federal law, or any law of another state, including subdivisions thereof, substantially conforming to the aforesaid state statutory provisions. Severability—1971 ex.s. c 284: See note following RCW 46.65.010.

46.65.030 Transcript or abstract of conviction record certified—As prima facie evidence. The director of the department of licensing shall certify a transcript or abstract of the record of convictions and findings of traffic infractions as maintained by the department of licensing of any person whose record brings him or her within the definition of an habitual offender, as defined in RCW 46.65.020, to the hearing officer appointed in the event a hearing is requested. Such transcript or abstract may be admitted as evidence in any hearing or court proceeding and shall be prima facie evidence that the person named therein was duly convicted by the court wherein such conviction or holding was made of each offense shown by such transcript or abstract; and if such person denies any of the facts as stated therein, he or she shall have the burden of proving that such fact is untrue. [1983 c 209 § 1; 1979 ex.s. c 136 § 95; 1979 c 62 § 2; 1971 ex.s. c 284 § 5.]

Severability—1971 ex.s. c 284: See note following RCW 46.65.010.

46.65.060 Department findings—Revocation of operator's license—Stay by department. If the department finds that such person is not an habitual offender under this chapter, the proceeding shall be dismissed, but if the department finds that such person is an habitual offender, the department shall revoke the operator's license for a period of five years: PROVIDED, That the department may stay the date of the revocation if it finds that the traffic offenses upon which it is based were caused by or are the result of alcoholism and/or drug addiction as evaluated by a program approved by the department of social and health services, and that since his or her last offense he or she has undertaken and followed a course of treatment for alcoholism and/or drug treatment in a program approved by the department of social and health services; such stay shall be subject to terms and conditions as are deemed reasonable by the department. Said stay shall continue as long as there is no further conviction for any of the offenses listed in RCW 46.65.020(1). Upon a subsequent conviction for any offense listed in RCW 46.65.020(1) or violation of any of the terms or conditions of the original stay order, the stay shall be removed and the department shall revoke the operator's license for a period of five years. [1985 c 101 § 2; 1981 c 188 § 2; 1979 c 62 § 3; 1973 1st ex.s. c 83 § 1; 1971 ex.s. c 284 § 8.]

Severability—1979 c 62: See note following RCW 46.65.020.

Severability—1971 ex.s. c 284: See note following RCW 46.65.010.

46.65.065 Revocation of habitual offender's license—Request for hearing, scope—Right to appeal. (1) Whenever a person's driving record, as maintained by the department, brings him or her within the definition of an habitual traffic offender, as defined in RCW 46.65.020, the department shall forthwith notify the person of the revocation in writing by certified mail at his or her address of record as maintained by the department. If the person is a nonresident of this state, notice shall be sent to the person's last known address. Notices of revocation shall inform the recipient thereof of his or her right to a formal hearing and specify the steps which must be taken in order to obtain a hearing. Within fifteen days after the notice has been given, the person may, in writing, request a formal hearing. If such a request is not made within the prescribed time the right to a hearing is waived. A request for a hearing stays the effectiveness of the revocation.

(2) Upon receipt of a request for a hearing, the department shall schedule a hearing in the county in which the person making the request resides, and if [the] person is a nonresident of this state, the hearing shall be held in Thurston county. The department shall give at least ten days notice of the hearing to the person.

(3) The scope of the hearings provided by this section is limited to the issues of whether the certified transcripts or abstracts of the convictions, as maintained by the department, show that the requisite number of violations have been accumulated within the prescribed period of time as set forth in RCW 46.65.020 and whether the terms and conditions for granting stays, as provided in RCW 46.65.060, have been met.

(4) Upon receipt of the hearing officer's decision, an aggrieved party may appeal to the superior court of the county in which he or she resides, or, in the case of a nonresident of this state, in the superior court of Thurston county, for review of the revocation. Notice of appeal must be filed within thirty days after receipt of the hearing officer's decision or the right to appeal is waived. Review by the court shall be de novo and without a jury.

(5) The filing of a notice of appeal does not stay the effective date of the revocation. [1989 c 337 § 10; 1979 c 62 § 5.]

Severability—1979 c 62: See note following RCW 46.65.020.

No license to operate motor vehicles in Washington shall be issued to an habitual offender (1) for a period of five years from the date of the license revocation except as provided in RCW 46.65.080, and (2) until the privilege of such person to operate a motor vehicle in this state has been restored by the department of licensing as provided in this chapter. [1990 c 250 § 62; 1979 c 62 § 4; 1971 ex.s. c 284 § 9.]

Severability—1979 c 62: See note following RCW 46.65.020.

Severability—1971 ex.s. c 284: See note following RCW 46.65.010.

46.65.080 Petition for restoration of operator's license after two years—Reinstatement of driving privilege. At the end of two years, the habitual offender may petition the department of licensing for the return of his operator's license and upon good and sufficient showing, the department of licensing may, wholly or conditionally, reinstate the privilege of such person to operate a motor vehicle in this state. [1979 c 158 § 181; 1971 ex.s. c 284 § 10.]

Severability—1971 ex.s. c 284: See note following RCW 46.65.010.

46.65.100 Petition for restoration of operator's license after five years—Reinstatement of driving privilege. At the expiration of five years from the date of any final order finding a person to be an habitual offender and directing him not to operate a motor vehicle in this state, such person may petition the department of licensing for restoration of his privilege to operate a motor vehicle in this state. Upon receipt of such petition, and for good cause shown, the department of licensing shall restore to such person the privilege to operate a motor vehicle in this state upon such terms and conditions as the department of licensing may prescribe, subject to the provisions of chapter 46.29 RCW and such other provisions of law relating to the issuance or revocation of operators' licenses. [1979 c 158 § 182; 1971 ex.s. c 284 § 12.]

Severability—1971 ex.s. c 284: See note following RCW 46.65.010.

46.65.900 Construction—Chapter supplemental. Nothing in this chapter shall be construed as amending, modifying, or repealing any existing law of Washington or any existing ordinance of any political subdivision relating to the operation or licensing of motor vehicles, the licensing of persons to operate motor vehicles or providing penalties for the violation thereof or shall be construed so as to preclude the exercise of regulatory powers of any division, agency, department, or political subdivision of the state having the statutory power to regulate such operation and licensing. 46.68.122 Distribution of amount to counties—Factors of distribution formula. Funds to be paid to the several counties pursuant to RCW 46.68.120(4) shall be allocated among them upon the basis of a distribution formula consisting of the following four factors:

(1) An equal distribution factor of ten percent of such funds shall be paid to each county;

(2) A population factor of thirty percent of such funds shall be paid to each county in direct proportion that the county's total equivalent population, as computed pursuant to RCW 46.68.124(1), is to the total equivalent population of all counties;

(4) A money need factor of thirty percent of such funds shall be paid to each county in direct proportion that the county's money need factor, as computed pursuant to RCW 46.68.124(3), is to the total of money need factors of all counties. [1982 c 33 § 2.]

The total annual cost for each county will be based on the established state-wide cost per mile and associated mileage for each category. The mileage to be used for these computations shall be as shown in the county road log as maintained by the county road

administration board as of July 1, 1985, and each two years thereafter. Each county shall be responsible for submitting changes, corrections, and deletions as regards the county road log to the county road administration board. Such changes, corrections, and deletions shall be subject to verification and approval by the county road administration board prior to inclusion in the county road log.

(3) The money need factor for each county shall be the county's total annual road cost less the following four amounts:

(5) The county road administration board, shall compute and provide to the counties the allocation factors of the several counties on or before September 1st of each year based solely upon the sources of information herein before required: PROVIDED, That the allocation factor shall be held to a level not more than five percent above or five percent below the allocation factor in use during the previous calendar year. Upon computation of the actual allocation factors of the several counties, the county road administration board shall provide such factors to the state treasurer to be used in the computation of the counties' fuel tax allocation for the succeeding calendar year. The state treasurer shall adjust the fuel tax allocation of each county on January 1st of every year based solely upon the information provided by the county road administration board. At the end of each fiscal quarter the state treasurer shall determine the amount, if any, that the sums distributed to the state pursuant to RCW 46.68.100(6) as now or hereafter amended exceed an amount equivalent to the proceeds of five-eighths of one cent motor vehicle and special fuel excise tax collected on the net gallonage after the deductions provided for in RCW 82.36.020 for the preceding fiscal quarter. [1984 c 7 § 74; 1977 ex.s. c 317 § 11; 1967 ex.s. c 83 § 9.]

Reviser's note: The reference to "sections 37 through 44 of this 1967 amendatory act" has been translated to "RCW 47.26.400 through 47.26.407." A literal translation of the phrase would have been "RCW 47.26.401 through 47.26.410," which appears to be erroneous. The error appears to have occurred in failure to change this internal reference in accordance with the renumbering of sections brought about by removal of section 34 from Engrossed House Bill No. 595 by floor amendment.

(16) "Auction" means a transaction conducted by means of exchanges between an auctioneer and the members of the audience, constituting a series of oral invitations for offers for the purchase of vehicles made by the auctioneer, offers to purchase by members of the audience, and the acceptance of the highest or most favorable offer to purchase.

(17) "Auction company" means a sole proprietorship, partnership, corporation, or other legal or commercial entity licensed under chapter 18.11 RCW that only sells or offers to sell vehicles at auction or only arranges or sponsors auctions.

(18) "Buyer's agent" means any person, firm, partnership, association, limited liability company, limited liability partnership, or corporation retained or employed by a consumer to arrange for or to negotiate, or both, the purchase of a new motor vehicle on behalf of the consumer, and who is paid a fee or receives other compensation from the consumer for its services.

(19) "New motor vehicle" means any motor vehicle that is self-propelled and is required to be registered and titled under Title 46 RCW, has not been previously titled to a retail purchaser or lessee, and is not a "used vehicle" as defined under RCW 46.04.660. [1996 c 194 § 1; 1993 c 175 § 1. 46.70.021 License required for dealers or manufacturers—Penalties. It is unlawful for any person, firm, or association to act as a vehicle dealer or vehicle manufacturer, to engage in business as such, serve in the capacity of such, advertise himself, herself, or themselves as such, solicit sales as such, or distribute or transfer vehicles for resale in this state, without first obtaining and holding a current license as provided in this chapter, unless the title of the vehicle is in the name of the seller. It is unlawful for any person other than a licensed vehicle dealer to display a vehicle for sale unless the registered owner or legal owner is the displayer or holds a notarized power of attorney. A person or firm engaged in buying and offering for sale, or buying and selling five or more vehicles in a twelve-month period, or in any other way engaged in dealer activity without holding a vehicle dealer license, is guilty of a gross misdemeanor, and upon conviction is subject to a fine of up to five thousand dollars for each violation and up to one year in jail. A second offense is a class C felony punishable under chapter 9A.20 RCW. A violation of this section is also a per se violation of chapter 19.86 RCW and is considered a deceptive practice. The department of licensing, the Washington state patrol, the attorney general's office, and the department of revenue shall cooperate in the enforcement of this section. A distributor, factory branch, or factory representative shall not be required to have a vehicle manufacturer license so long as the vehicle manufacturer so represented is properly licensed pursuant to this chapter. Nothing in this chapter prohibits financial institutions from cooperating with vehicle dealers licensed under this chapter in dealer sales or leases. However, financial institutions shall not broker vehicles and cooperation is limited to organizing, promoting, and financing of such dealer sales or leases. [1993 c 307 § 4; 1988 c 287 § 2; 1986 c 241 § 3; 1973 1st ex.s. c 132 § 3; 1967 ex.s. c 74 § 4.]

46.70.023 Place of business. (1) An "established place of business" requires a permanent, enclosed commercial building located within the state of Washington easily accessible at all reasonable times. The business of a vehicle dealer must be lawfully carried on at an established place of business in accordance with the terms of all applicable building code, zoning, and other land-use regulatory ordi-

nances. A vehicle dealer may display a vehicle for sale only at its established place of business, licensed subagency, or temporary subagency site, except at auction. The dealer shall keep the building open to the public so that the public may contact the vehicle dealer or the dealer's salespersons at all reasonable times. The books, records, and files necessary to conduct the business shall be kept and maintained at that place. The established place of business shall display an exterior sign with the business name and nature of the business, such as auto sales, permanently affixed to the land or building, with letters clearly visible to the major avenue of traffic. A room or rooms in a hotel, rooming house, or apartment house building or part of a single or multiple-unit dwelling house may not be considered an "established place of business" unless the ground floor of such a dwelling is devoted principally to and occupied for commercial purposes and the dealer offices are located on the ground floor. A mobile office or mobile home may be used as an office if it is connected to utilities and is set up in accordance with state law. A state-wide trade association representing manufactured housing dealers shall be permitted to use a manufactured home as an office if the office complies with all other applicable building code, zoning, and other land-use regulatory ordinances. This subsection does not apply to auction companies that do not own vehicle inventory or sell vehicles from an auction yard.

(2) An auction company shall have office facilities within the state. The books, records, and files necessary to conduct the business shall be maintained at the office facilities. All storage facilities for inventory shall be listed with the department, and shall meet local zoning and land use ordinances. An auction company shall maintain a telecommunications system.

(3) Auction companies shall post their vehicle dealer license at each auction where vehicles are offered, and shall provide the department with the address of the auction at least three days before the auction.

(4) If a dealer maintains a place of business at more than one location or under more than one name in this state, he or she shall designate one location as the principal place of business of the firm, one name as the principal name of the firm, and all other locations or names as subagencies. A subagency license is required for each and every subagency: PROVIDED, That the department may grant an exception to the subagency requirement in the specific instance where a licensed dealer is unable to locate their used vehicle sales facilities adjacent to or at the established place of business. This exception shall be granted and defined under the promulgation of rules consistent with the Administrative Procedure Act.

(5) All vehicle dealers shall maintain ownership or leasehold throughout the license year of the real property from which they do business. The dealer shall provide the department with evidence of ownership or leasehold whenever the ownership changes or the lease is terminated.

(6) A subagency shall comply with all requirements of an established place of business, except that subagency records may be kept at the principal place of business designated by the dealer. Auction companies shall comply with the requirements in subsection (2) of this section.

(7) A temporary subagency shall meet all local zoning and building codes for the type of merchandising being

conducted. The dealer license certificate shall be posted at the location. No other requirements of an established place of business apply to a temporary subagency. Auction companies are not required to obtain a temporary subagency license.

(8) A wholesale vehicle dealer shall have office facilities in a commercial building within this state, and all storage facilities for inventory shall be listed with the department, and shall meet local zoning and land use ordinances. A wholesale vehicle dealer shall maintain a telecommunications system. An exterior sign visible from the nearest street shall identify the business name and the nature of business. A wholesale dealer need not maintain a display area as required in this section. When two or more vehicle dealer businesses share a location, all records, office facilities, and inventory, if any, must be physically segregated and clearly identified.

(9) A retail vehicle dealer shall be open during normal business hours, maintain office and display facilities in a commercially zoned location or in a location complying with all applicable building and land use ordinances, and maintain a business telephone listing in the local directory. When two or more vehicle dealer businesses share a location, all records, office facilities, and inventory shall be physically segregated and clearly identified.

(10) A listing dealer need not have a display area if the dealer does not physically maintain any vehicles for display.

(11) A subagency license is not required for a mobile home dealer to display an on-site display model, a consigned mobile home not relocated from its site, or a repossessed mobile home if sales are handled from a principal place of business or subagency. A mobile home dealer shall identify on-site display models, repossessed mobile homes, and those consigned at their sites with a sign that includes the dealer's name and telephone number.

(12) Every vehicle dealer shall advise the department of the location of each and every place of business of the firm and the name or names under which the firm is doing business at such location or locations. If any name or location is changed, the dealer shall notify the department of such change within ten days. The license issued by the department shall reflect the name and location of the firm and shall be posted in a conspicuous place at that location by the dealer.

(13) A vehicle dealer's license shall upon the death or incapacity of an individual vehicle dealer authorize the personal representative of such dealer, subject to payment of license fees, to continue the business for a period of six months from the date of the death or incapacity. [1996 c 282 § 1; 1995 c 7 § 1; 1993 c 307 § 5; 1991 c 339 § 28; 1989 c 301 § 2; 1986 c 241 § 4.]

46.70.025 Established place of business—Waiver of requirements. The director may by rule waive any requirements pertaining to a vehicle dealer's established place of business if such waiver both serves the purposes of this chapter and is necessary due to unique circumstances such as a location divided by a public street or a highly specialized type of business. [1986 c 199 § 1.]

46.70.027 Accountability of dealer for employees—Actions for damages on violation of chapter. A vehicle dealer is accountable for the dealer's employees, sales personnel, and managerial personnel while in the performance of their official duties. Any violations of this chapter or applicable provisions of chapter 46.12 or 46.16 RCW committed by any of these employees subjects the dealer to license penalties prescribed under RCW 46.70.101. A retail purchaser, consignor who is not a motor vehicle dealer, or a motor vehicle dealer who has purchased from a wholesale dealer, who has suffered a loss or damage by reason of any act by a dealer, salesperson, managerial person, or other employee of a dealership, that constitutes a violation of this chapter or applicable provisions of chapter 46.12 or 46.16 RCW may institute an action for recovery against the dealer and the surety bond as set forth in RCW 46.70.070. However, under this section, motor vehicle dealers who have purchased from wholesale dealers may only institute actions against wholesale dealers and their surety bonds. [1989 c 337 § 12; 1986 c 241 § 5.]

46.70.028 Consignment. Dealers who transact dealer business by consignment shall obtain a consignment contract for sale and shall comply with applicable provisions of chapter 46.70 RCW. The dealer shall place all funds received from the sale of the consigned vehicle in a trust account until the sale is completed, except that the dealer shall pay any outstanding liens against the vehicle from these funds. Where title has been delivered to the purchaser, the dealer shall pay the amount due a consignor within ten days after the sale. [1989 c 337 § 13.]

46.70.029 Listing dealers, transaction of business. Listing dealers shall transact dealer business by obtaining a listing agreement for sale, and the buyer's purchase of the mobile home shall be handled as dealer inventory. All funds from the purchaser shall be placed in a trust account until the sale is completed, except that the dealer shall pay any outstanding liens against the mobile home from these funds. Where title has been delivered to the purchaser, the listing dealer shall pay the amount due a seller within ten days after the sale of a listed mobile home. A complete account of all funds received and disbursed shall be given to the seller or consignor after the sale is completed. The sale of listed mobile homes imposes the same duty under *RCW 46.12.120 on the listing dealer as any other sale. [1990 c 250 § 63; 1986 c 241 § 6.]

***Reviser's note:** RCW 46.12.120 was recodified as RCW 46.70.122 under 1993 c 307 § 18.

Severability—1990 c 250: See note following RCW 46.16.301.

Reviser's note: This section was amended by 1993 c 175 § 2 and by 1993 c 307 § 6, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Severability—1990 c 250: See note following RCW 46.16.301.

Requirements of "established place of business": RCW 46.70.023.

46.70.042 Application for license—Retention by department—Confidentiality. Every application for license shall be retained by the department for a period of three years and shall be confidential information for the use of the department, the attorney general or the prosecuting attorney only: PROVIDED, That upon a showing of good cause therefor any court in which an action is pending by or against the applicant or licensee, may order the director to produce and permit the inspection and copying or photographing the application and any accompanying statements. [1967 ex.s. c 74 § 14.]

46.70.051 Issuance of license. (1) After the application has been filed, the fee paid, and bond posted, if required the department shall, if no denial order is in effect and no proceeding is pending under RCW 46.70.101, issue the appropriate license, which license, in the case of a vehicle dealer, shall designate the classification of the dealer. Nothing prohibits a vehicle dealer from obtaining licenses for more than one classification, and nothing prevents any vehicle dealer from dealing in other classes of vehicles on an isolated basis.

(2) An auction company licensed under chapter 18.11 RCW may sell at auction all classifications of vehicles under a motor vehicle dealer's license issued under this chapter including motor vehicles, miscellaneous type vehicles, and mobile homes and travel trailers.

(3) At the time the department issues a vehicle dealer license, the department shall provide to the dealer a current, up-to-date vehicle dealer manual setting forth the various statutes and rules applicable to vehicle dealers. (a) Vehicle dealers, principal place of business for each and every license classification: Two hundred fifty dollars;

(b) Vehicle dealer, each and every subagency: Twenty-five dollars;

(c) Vehicle manufacturers: Two hundred fifty dollars.

If any licensee fails or neglects to apply for such renewal within thirty days after the expiration of the license, or assigned renewal date under a staggered licensing system, the license shall be declared canceled by the director, in which case the licensee will be required to apply for an original license and pay the fee required for the original license.

(3) The fee for the transfer to another location of any license classification issued pursuant to this chapter shall be twenty-five dollars.

(4) The fee for vehicle dealer license plates and manufacturer license plates shall be the amount required by law for vehicle license plates exclusive of excise tax, except those specified in RCW 82.44.030, and gross weight and tonnage fees.

(5) All fees collected under this chapter shall be deposited in the state treasury and credited to the motor vehicle fund.

Severability—1990 c 250: See note following RCW 46.16.301.

Effective dates—1986 c 241: "This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately, except section 9 of this act shall take effect July 1, 1986, and section 10 of this act shall take effect July 1, 1987." [1986 c 241 § 28.]

46.70.070 Dealers—Bond required, exceptions—Actions—Cancellation of license. (1) Before issuing a vehicle dealer's license, the department shall require the applicant to file with the department a surety bond in the amount of:

(a) Fifteen thousand dollars for motor vehicle dealers;

(b) Thirty thousand dollars for mobile home, park trailer, and travel trailer dealers: PROVIDED, That if such dealer does not deal in mobile homes or park trailers such bond shall be fifteen thousand dollars;

(c) Five thousand dollars for miscellaneous dealers, running to the state, and executed by a surety company authorized to do business in the state. Such bond shall be approved by the attorney general as to form and conditioned that the dealer shall conduct his business in conformity with the provisions of this chapter.

Any retail purchaser, consignor who is not a motor vehicle dealer, or a motor vehicle dealer who has purchased from, sold to, or otherwise transacted business with a wholesale dealer, who has suffered any loss or damage by reason of any act by a dealer which constitutes a violation of this chapter shall have the right to institute an action for recovery against such dealer and the surety upon such bond. However, under this section, motor vehicle dealers who have purchased from, sold to, or otherwise transacted business with wholesale dealers may only institute actions against wholesale dealers and their surety bonds. Successive recoveries against said bond shall be permitted, but the aggregate liability of the surety to all persons shall in no event exceed the amount of the bond. Upon exhaustion of the penalty of said bond or cancellation of the bond by the surety the vehicle dealer license shall automatically be deemed canceled.

(2) The bond for any vehicle dealer licensed or to be licensed under more than one classification shall be the highest bond required for any such classification.

(3) Vehicle dealers shall maintain a bond for each business location in this state and bond coverage for all temporary subagencies. [1996 c 194 § 2; 1989 c 337 § 15; 1986 c 241 § 11; 1981 c 152 § 1; 1973 1st ex.s. c 132 § 8; 1971 ex.s. c 74 § 4; 1967 ex.s. c 74 § 27; 1961 c 239 § 1; 1961 c 12 § 46.70.070. Prior: 1959 c 166 § 19; 1951 c 150 § 8.]

46.70.075 Manufacturers—Bond required—Actions—Cancellation of license. Before issuing a manufacturer license to a manufacturer of mobile homes or travel trailers, the department shall require the applicant to file with the department a surety bond in the amount of forty thousand dollars in the case of a mobile home manufacturer and twenty thousand dollars in the case of a travel trailer manufacturer, running to the state and executed by a surety company authorized to do business in the state. Such bond shall be approved by the attorney general as to form and conditioned that the manufacturer shall conduct his business in conformity with the provisions of this chapter and with all standards set by the state of Washington or the federal government pertaining to the construction or safety of such vehicles. Any retail purchaser or vehicle dealer who has suffered any loss or damage by reason of breach of warranty or by any act by a manufacturer which constitutes a violation of this chapter or a violation of any standards set by the state of Washington or the federal government pertaining to construction or safety of such vehicles has the right to institute an action for recovery against such manufacturer and the surety upon such bond. Successive recoveries against the bond shall be permitted, but the aggregate liability of the surety to all persons shall in no event exceed the amount of the bond. Upon exhaustion of the penalty of the bond or cancellation of the bond by the surety the manufacturer license is automatically deemed canceled. [1981 c 152 § 3; 1973 1st ex.s. c 132 § 9.]

46.70.083 Expiration of license—Renewal—Certification of established place of business. The license of a vehicle dealer or a vehicle manufacturer expires on the date that is twelve consecutive months from the date of

issuance. The license may be renewed by filing with the department prior to the expiration of the license, a renewal application containing such information as the department may require to indicate the number of vehicle sales transacted during the past year, and any material change in the information contained in the original application. Failure by the dealer to comply is grounds for denial of the renewal application or dealer license plate renewal.

The dealer's established place of business shall be certified by a representative of the department at least once every thirty-six months, or more frequently as determined necessary by the department. The certification will verify compliance with the requirements of this chapter for an established place of business. Failure by the dealer to comply at any time is grounds for license suspension or revocation, denial of the renewal application, or monetary assessment. [1993 c 307 § 8; 1991 c 140 § 2; 1990 c 250 § 66; 1986 c 241 § 12; 1985 c 109 § 1; 1973 1st ex.s. c 132 § 12; 1971 ex.s. c 74 § 6; 1967 ex.s. c 74 § 10.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.70.085 Dealers and manufacturers licenses—Staggered renewal. Notwithstanding any provision of law to the contrary, the director may extend or diminish licensing periods of dealers and manufacturers for the purpose of staggering renewal periods. The extension or diminishment shall be by rule of the department adopted in accordance with chapter 34.05 RCW. [1990 c 250 § 67; 1985 c 109 § 2.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.70.090 Dealer and manufacturer license plates—Use. (1) The department shall issue a vehicle dealer license plate which shall be attached to the rear of the vehicle only and which is capable of distinguishing the classification of the dealer, to vehicle dealers properly licensed pursuant to this chapter and shall, upon application, issue manufacturer's license plates to manufacturers properly licensed pursuant to this chapter.

(2) The department shall issue to a vehicle dealer up to three vehicle dealer license plates. After the third dealer plate is issued, the department shall limit the number of dealer plates to six percent of the vehicles sold during the preceding license period. For an original license the vehicle dealer license applicant shall estimate the first year's sales. The director or director's designee may waive these dealer plate issuance restrictions for a vehicle dealer if the waiver both serves the purposes of this chapter and is essential to the continuation of the business. The director shall adopt rules to implement this waiver.

(3) Motor vehicle dealer license plates may be used:

(b) On mobile homes hauled to a customer's location for set-up after sale.

(c) On travel trailers held for sale to demonstrate the towing capability of the vehicle if a dated demonstration permit, valid for not more than seventy-two hours, is carried with the vehicle at all times.

(f) On vehicles being moved to or from vehicle exhibitions within the state of Washington, if any such exhibition does not exceed a period of twenty days.

(5) Miscellaneous vehicle dealer license plates may be used:

(a) To demonstrate any miscellaneous vehicle: PROVIDED, That:

(ii) A dated demonstration permit, valid for no more than seventy-two hours, is carried with the vehicle at all times it is operated by any such individual.

(b) On vehicles owned, held for sale, and which are in fact available for sale, by the firm when operated by an officer of the corporation, partnership, or proprietorship or by a bona fide full-time employee of the firm, if a card so identifying such individual is carried in the vehicle at all times it is operated by him.

(6) Manufacturers properly licensed pursuant to this chapter may apply for and obtain manufacturer license plates and may be used:

(a) On vehicles being moved to or from the place of business of a manufacturer to a vehicle dealer within this state who is properly licensed pursuant to this chapter.

(b) To test vehicles for repair.

(7) Vehicle dealer license plates and manufacturer license plates shall not be used for any purpose other than set forth in this section and specifically shall not be:

46.70.115 Cease and desist orders. If it appears to the director that a person has engaged or is about to engage in an act or practice constituting a violation of this chapter, or a rule adopted or an order issued under this chapter, the director may issue an order directing the person to cease and desist from continuing the act or practice. Reasonable notice of and opportunity for a hearing shall be given. The director may issue a temporary order pending a hearing. [1986 c 241 § 15.]

46.70.120 Record of transactions. A dealer shall complete and maintain for a period of at least five years a record of the purchase and sale of all vehicles purchased or sold by him. The records shall consist of:

- (2) A description of the vehicle;
- (3) The name and address of the person from whom purchased;
- (4) The name of the legal owner, if any;
- (5) The name and address of the purchaser;
- (6) If purchased from a dealer, the name, business address, dealer license number, and resale tax number of the dealer;

- (12) Any additional information the department may require. Such records shall be maintained separate from all other business records of the dealer. Records older than two years may be kept at a location other than the dealer's place of business if those records are made available in hard copy for inspection within three calendar days, exclusive of Saturday, Sunday, or a legal holiday, after a request by the director or the director's authorized agent. Records kept at the vehicle dealer's place of business must be available for inspection by the director or the director's authorized agent during normal business hours.

Dealers may maintain their recordkeeping and filing systems in accordance with their own particular business

needs and practices. Nothing in this chapter requires dealers to maintain their records in any particular order or manner, as long as the records identified in this section are maintained in the dealership's recordkeeping system. (2) The assignment and warranty shall show any secured party holding a security interest created or reserved at the time of resale, to which shall be attached the assigned certificates of ownership and license registration received by the dealer. The dealer shall mail or deliver them to the department with the transferee's application for the issuance of new certificates of ownership and license registration. The title certificate issued for a vehicle possessed by a dealer and subject to a security interest shall be delivered to the secured party who upon request of the dealer's transferee shall, unless the transfer was a breach of the security agreement, either deliver the certificate to the transferee for transmission to the department, or upon receipt from the transferee of the owner's bill of sale or sale document, the transferee's application for a new certificate and the required fee, mail or deliver to the department. Failure of a dealer to deliver the title certificate to the secured party does not affect perfection of the security interest. (2) Notwithstanding subsection (1) of this section, an itemization of the various license and title fees paid or to be paid by the buyer, which itemization must be the same as that disclosed on the registration/application for title document issued by the department, may be required only on the title application at the time the application is submitted for title transfer. A vehicle dealer may not be required to separately or individually itemize the license and title fees on any other document, including but not limited to the purchase order and lease agreement. No fee itemization may be required on the temporary permit. [1996 c 282 § 5; 1973 1st ex.s. c 132 § 16; 1961 c 12 § 46.70.130. Prior: 1951 c 150 § 16.]

Warranty service shall be performed on site and a written work order describing labor performed and parts used shall be completed and signed by the service agent and the owner. If the owner's signature cannot be obtained, the reasons shall be described on the work order. Work orders shall be retained by the dealer or manufacturer for a period of three years.

(5) Before delivery of possession of the home to the purchaser, an inspection shall be performed by the dealer or his or her agent and by the purchaser or his or her agent which shall include a test of all systems of the home to insure proper operation, unless such systems test is delayed pursuant to this subsection. At the time of the inspection, the purchaser shall be given copies of all documents required by state or federal agencies to be supplied by the manufacturer with the home which have not previously been provided as required under subsection (3) of this section, and the dealer shall complete any required purchaser information card and forward the card to the manufacturer. (ii) Substantial physical damage or latent mechanical defect occurring before the dealer took possession of the vehicle and which could not have been reasonably discoverable at the time of the taking of the order, offer, or contract; or

(c) Fails to comply with the obligation of any written warranty or guarantee given by the dealer requiring the furnishing of services or repairs within a reasonable time.

(5) To commit any offense relating to odometers, as such offenses are defined in RCW 46.37.540, 46.37.550, 46.37.560, and 46.37.570. A violation of this subsection is a class C felony punishable under chapter 9A.20 RCW.

(6) For any vehicle dealer or vehicle salesman to refuse to furnish, upon request of a prospective purchaser, the name and address of the previous registered owner of any used vehicle offered for sale.

(7) To commit any other offense under RCW 46.37.423, 46.37.424, or 46.37.425.

(8) To commit any offense relating to a dealer's temporary license permit, including but not limited to failure to properly complete each such permit, or the issuance of more than one such permit on any one vehicle.

(9) For a dealer, salesman, or mobile home manufacturer, having taken an instrument or cash "on deposit" from a purchaser prior to the delivery of the bargained-for vehicle, to commingle the "on deposit" funds with assets of the dealer, salesman, or mobile home manufacturer instead of holding the "on deposit" funds as trustee in a separate trust account until the purchaser has taken delivery of the bargained-for vehicle. Delivery of a manufactured home shall be deemed to occur in accordance with RCW 46.70.135(5). Failure, immediately upon receipt, to endorse "on deposit" instruments to such a trust account, or to set aside "on deposit" cash for deposit in such trust account, and failure to deposit such instruments or cash in such trust account by the close of banking hours on the day following receipt thereof, shall be evidence of intent to commit this unlawful practice: PROVIDED, HOWEVER, That a motor vehicle dealer may keep a separate trust account which equals his or her customary total customer deposits for vehicles for future delivery. For purposes of this section, "on deposit" funds received from a purchaser of a manufactured home means those funds that a seller requires a purchaser to advance before ordering the manufactured home, but does not include any loan proceeds or moneys that might have been paid on an installment contract.

(10) For a dealer or manufacturer to fail to comply with the obligations of any written warranty or guarantee given by the dealer or manufacturer requiring the furnishing of goods and services or repairs within a reasonable period of time, or to fail to furnish to a purchaser, all parts which attach to the manufactured unit including but not limited to the undercarriage, and all items specified in the terms of a sales agreement signed by the seller and buyer.

(11) For a vehicle dealer to pay to or receive from any person, firm, partnership, association, or corporation acting,

either directly or through a subsidiary, as a buyer's agent for consumers, any compensation, fee, purchase moneys or funds that have been deposited into or withdrawn out of any account controlled or used by any buyer's agent, gratuity, or reward in connection with the purchase or sale of a new motor vehicle.

(12) For a buyer's agent, acting directly or through a subsidiary, to pay to or to receive from any motor vehicle dealer any compensation, fee, gratuity, or reward in connection with the purchase or sale of a new motor vehicle. In addition, it is unlawful for any buyer's agent to engage in any of the following acts on behalf of or in the name of the consumer:

(a) Receiving or paying any purchase moneys or funds into or out of any account controlled or used by any buyer's agent;

(b) Signing any vehicle purchase orders, sales contract, odometer statements, or title documents, or having the name of the buyer's agent appear on the vehicle purchase order, sales contract, or title; or

(c) Signing any other documentation relating to the purchase, sale, or transfer of any new motor vehicle.

It is unlawful for a buyer's agent to use a power of attorney obtained from the consumer to accomplish or effect the purchase, sale, or transfer of ownership documents of any new motor vehicle by any means which would otherwise be prohibited under (a) through (c) of this subsection. However, the buyer's agent may use a power of attorney for physical delivery of motor vehicle license plates to the consumer.

Further, it is unlawful for a buyer's agent to engage in any false, deceptive, or misleading advertising, disseminated in any manner whatsoever, including but not limited to making any claim or statement that the buyer's agent offers, obtains, or guarantees the lowest price on any motor vehicle or words to similar effect.

(13) For a buyer's agent to arrange for or to negotiate the purchase, or both, of a new motor vehicle through an out-of-state dealer without disclosing in writing to the customer that the new vehicle would not be subject to chapter 19.118 RCW. In addition, it is unlawful for any buyer's agent to fail to have a written agreement with the customer that: (a) Sets forth the terms of the parties' agreement; (b) discloses to the customer the total amount of any fees or other compensation being paid by the customer to the buyer's agent for the agent's services; and (c) further discloses whether the fee or any portion of the fee is refundable. The department of licensing shall by December 31, 1996, in rule, adopt standard disclosure language for buyer's agent agreements under RCW 46.70.011, 46.70.070, and this section.

(14) Being a manufacturer, other than a motorcycle manufacturer governed by chapter 46.94 RCW, to:

(a) Coerce or attempt to coerce any vehicle dealer to order or accept delivery of any vehicle or vehicles, parts or accessories, or any other commodities which have not been voluntarily ordered by the vehicle dealer: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute coercion;

(b) Cancel or fail to renew the franchise or selling agreement of any vehicle dealer doing business in this state without fairly compensating the dealer at a fair going

business value for his or her capital investment which shall include but not be limited to tools, equipment, and parts inventory possessed by the dealer on the day he or she is notified of such cancellation or termination and which are still within the dealer's possession on the day the cancellation or termination is effective, if: (i) The capital investment has been entered into with reasonable and prudent business judgment for the purpose of fulfilling the franchise; and (ii) the cancellation or nonrenewal was not done in good faith. Good faith is defined as the duty of each party to any franchise to act in a fair and equitable manner towards each other, so as to guarantee one party freedom from coercion, intimidation, or threats of coercion or intimidation from the other party: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute a lack of good faith.

(c) Encourage, aid, abet, or teach a vehicle dealer to sell vehicles through any false, deceptive, or misleading sales or financing practices including but not limited to those practices declared unlawful in this section;

(d) Coerce or attempt to coerce a vehicle dealer to engage in any practice forbidden in this section by either threats of actual cancellation or failure to renew the dealer's franchise agreement;

(e) Refuse to deliver any vehicle publicly advertised for immediate delivery to any duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale of new and unused vehicles sold or distributed by such manufacturer within sixty days after such dealer's order has been received in writing unless caused by inability to deliver because of shortage or curtailment of material, labor, transportation, or utility services, or by any labor or production difficulty, or by any cause beyond the reasonable control of the manufacturer;

(f) To provide under the terms of any warranty that a purchaser of any new or unused vehicle that has been sold, distributed for sale, or transferred into this state for resale by the vehicle manufacturer may only make any warranty claim on any item included as an integral part of the vehicle against the manufacturer of that item.

Nothing in this section may be construed to impair the obligations of a contract or to prevent a manufacturer, distributor, representative, or any other person, whether or not licensed under this chapter, from requiring performance of a written contract entered into with any licensee hereunder, nor does the requirement of such performance constitute a violation of any of the provisions of this section if any such contract or the terms thereof requiring performance, have been freely entered into and executed between the contracting parties. This paragraph and subsection (14)(b) of this section do not apply to new motor vehicle manufacturers governed by chapter 46.96 RCW.

(15) Unlawful transfer of an ownership interest in a motor vehicle as defined in RCW 19.116.050. If a new motor vehicle dealer recovers a judgment or has a claim dismissed with prejudice against a manufacturer under RCW 46.96.040 or 46.96.050(3) or this section, the new motor vehicle dealer is precluded from pursuing that same claim or recovering judgment for that same claim against the same manufacturer under the federal Automobile Dealer Franchise Act, 15 U.S.C. conjunction with chapter 9.04 RCW, 19.86 RCW and 63.14 RCW and the powers and duties of the attorney general and the prosecuting attorney as they may appear in the aforementioned chapters, shall apply against all persons subject to this chapter: PROVIDED FURTHER, That any action to enforce a claim for civil damages under chapter 19.86 RCW shall be forever barred unless commenced within six years after the cause of action accrues. [1967 ex.s. c 74 § 19.]

[1967 ex.s. c 74 § 20.]

46.70.240 Penalties—Jurisdiction. For the purpose of this section the superior court issuing any injunction shall retain jurisdiction, and the cause shall be continued, and in such cases the attorney general and/or the prosecuting attorney acting in the name of the state, or any person who pursuant to RCW 46.70.190 has secured the injunction violated, may petition for the recovery of civil penalties. [1967 ex.s. c 74 § 22.]

46.71.005 Legislative recognition. The automotive repair industry supports good communication between auto repair facilities and their customers. The legislature recognizes that improved communications and accurate representations between automotive repair facilities and the customers will: Increase consumer confidence; reduce the likelihood of disputes arising; clarify repair facility lien interests; and promote fair and nondeceptive practices, thereby enhancing the safety and reliability of motor vehicles serviced by auto repair facilities in the state of Washington. [1993 c 424 § 1.]

Severability—1993 c 424: "If any provision of this act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of the act and the applicability thereof to persons and circumstances shall not be affected thereby." [1993 c 424 § 15.]

Effective date—1993 c 424: "This act shall take effect January 1, 1994." [1993 c 424 § 18.]

(b) All work in facilities that perform one or more specialties within the automotive repair service industry including, but not limited to, body collision repair, refinishing, brake, electrical, exhaust repair or installation, frame, unibody, front-end, radiators, tires, transmission, tune-up, and windshield; and

(c) The removal, replacement, or repair of exterior body panels, the removal, replacement, or repair of structural and nonstructural body components, the removal, replacement, or repair of collision damaged suspension components, and the refinishing of automotive components.

(3) "Automotive repair facility" or "repair facility" means any person, firm, association, or corporation who for compensation engages in the business of automotive repair or diagnosis, or both, of malfunctions of motor vehicles subject to licensure under chapter 46.16 RCW and repair and refinishing auto-body collision damage as well as overall refinishing and cosmetic repairs.

(4) A "rebuilt" part consists of a used assembly that has been dismantled and inspected with only the defective parts being replaced.

(5) A "remanufactured" part consists of a used assembly that has been dismantled with the core parts being remachined and all other parts replaced with new parts so as to provide performance comparable to that found originally. [1993 c 424 § 2.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

(2) Whether or not a written estimate is required, parts and labor provided by an automotive repair facility shall be clearly and accurately recorded in writing on an invoice and shall include, in addition to the information listed in subsection (1) of this section, the following information: A description of the repair or maintenance services performed on the vehicle; a list of all parts supplied, identified by name and part number, if available, part kit description or recognized package or shop supplies, if any, and an indication whether the parts supplied are rebuilt, or used, if applicable or where collision repair is involved, aftermarket body parts or nonoriginal equipment manufacturer body parts, if applicable; the price per part charged, if any, and the total amount charged for all parts; the total amount charged for all labor, if any; and the total charge. Parts and labor do not need to be separately disclosed if pricing is expressed as an adver-

tised special by the job, a predisclosed written repair menu item, or a routine service package.

(3) Notwithstanding subsection (2) of this section, if the repair work is performed under warranty or without charge to the customer, other than an applicable deductible, the repair facility shall provide either an itemized list of the parts supplied, or describe the service performed on the vehicle, but the repair facility is not required to provide any pricing information for parts or labor.

(4) A copy of the estimate, unless waived, shall be provided to the customer or customer's designee prior to providing parts or labor as required under RCW 46.71.025. A copy of the invoice shall be provided to the customer upon completion of the repairs.

(5) Only material omissions, under this section, are actionable in a court of law or equity. [1993 c 424 § 3.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.021 Disposition of replaced parts. Except for parts covered by a manufacturer's or other warranty or parts that must be returned to a distributor, remanufacturer, or rebuilder, the repair facility shall return replaced parts to the customer at the time the work is completed if the customer requested the parts at the time of authorization of the repair. If a customer at the time of authorization of the repair requests the return of a part that must be returned to the manufacturer, remanufacturer, distributor, recycler, or rebuilder, or must be disposed of as required by law, the repair facility shall offer to show the part to the customer. The repair facility need not show a replaced part if no charge is being made for the replacement part. [1993 c 424 § 4.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

"YOU ARE ENTITLED TO A WRITTEN PRICE ESTIMATE FOR THE REPAIRS YOU HAVE AUTHORIZED. YOU ARE ALSO ENTITLED TO REQUIRE THE REPAIR FACILITY TO OBTAIN YOUR ORAL OR WRITTEN AUTHORIZATION TO EXCEED THE WRITTEN PRICE ESTIMATE. YOUR SIGNATURE OR INITIALS WILL INDICATE YOUR SELECTION.

1. I request an estimate in writing before you begin repairs. Contact me if the price will exceed this estimate by more than ten percent.

2. Proceed with repairs but contact me if the price will exceed \$.

3. I do not want a written estimate.

..... (Initial or signature)

Date: Time: "

(2) The repair facility may not charge the customer more than one hundred ten percent, exclusive of retail sales tax, of the total shown on the written price estimate. Neither of these limitations apply if, before providing additional parts or labor the repair facility obtains either the oral or written authorization of the customer, or the customer's designee, to exceed the written price estimate. The repair facility or its representative shall note on the estimate the date and time of obtaining an oral authorization, the additional parts and labor required, the estimated cost of the additional parts and labor, or where collision repair is involved, aftermarket body parts or nonoriginal equipment manufacturer body parts, if applicable, the name or identification number of the employee who obtains the authorization, and the name and telephone number of the person authorizing the additional costs.

Face-to-face contact means actual in-person discussion between the customer or his or her designee and the agent or employee of the automotive repair facility authorized to intake vehicles or components. However, prior to providing parts and labor, the repair facility must obtain either the oral or written authorization of the customer or the customer's designee. The repair facility or its representative shall note on the estimate or repair order the date and time of obtaining an oral authorization, the total amount authorized, the name or identification number of the employee who obtains the authorization, and the name of the person authorizing the repairs. The first line of each sign shall be in letters not less than one and one-half inch in height and the remaining lines shall be in letters not less than one-half inch in height. [1993 c 424 § 6.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

An automotive repair facility that fails to comply with the estimate requirements of RCW 46.71.025 is barred from recovering in an action to recover for automotive repairs any amount in excess of one hundred ten percent of the amount authorized by the customer, or the customer's designee, unless the repair facility proves by a preponderance of the evidence that its conduct was reasonable, necessary, and justified under the circumstances. In an action to recover for automotive repairs the prevailing party may, at the discretion of the court, recover the costs of the action and reasonable attorneys' fees. [1993 c 424 § 7.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.045 Unlawful acts or practices. Each of the following acts or practices are unlawful:

- (1) Advertising that is false, deceptive, or misleading. A single or isolated media mistake does not constitute a false, deceptive, or misleading statement or misrepresentation under this section;

- (3) Retaining payment from a customer for parts not delivered or installed or a labor operation or repair procedure that has not actually been performed;
- (4) Unauthorized operation of a customer's vehicle for purposes not related to repair or diagnosis;
- (5) Failing or refusing to provide a customer, upon request, a copy, at no charge, of any document signed by the customer;
- (6) Retaining duplicative payment from both the customer and the warranty or extended service contract provider for the same covered component, part, or labor;
- (7) Charging a customer for unnecessary repairs. For purposes of this subsection "unnecessary repairs" means those for which there is no reasonable basis for performing

the service. A reasonable basis includes, but is not limited to: (a) That the repair service is consistent with specifications established by law or the manufacturer of the motor vehicle, component, or part; (b) that the repair is in accordance with accepted industry standards; or (c) that the repair was performed at the specific request of the customer. [1993 c 424 § 9.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.051 Copy of warranty. The repair facility shall make available, upon request, a copy of any express warranty provided by the repair facility to the customer that covers repairs performed on the vehicle. [1993 c 424 § 10.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.060 Retention of price estimates and invoices. Every automotive repair facility shall retain and make available for inspection, upon request by the customer or the customer's authorized representative, true copies of the written price estimates and invoices required under this chapter for at least one year after the date on which the repairs were performed. [1993 c 424 § 11; 1982 c 62 § 7; 1977 ex.s. c 280 § 6.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.070 Unfair practices as violation of Consumer Protection Act—Defense. The legislature finds that the practices covered by this chapter are matters vitally affecting the public interest for the purpose of applying the Consumer Protection Act, chapter 19.86 RCW. Violations of this chapter are not reasonable in relation to the development and preservation of business. A violation of this chapter is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the Consumer Protection Act, chapter 19.86 RCW. In an action under chapter 19.86 RCW due to an automotive repair facility's charging a customer an amount in excess of one hundred ten percent of the amount authorized by the customer, a violation shall not be found if the automotive repair facility proves by a preponderance of the evidence that its conduct was reasonable, necessary, and justified under the circumstances.

Notwithstanding RCW 46.64.050, no violation of this chapter shall give rise to criminal liability under that section. [1993 c 424 § 12; 1982 c 62 § 9; 1977 ex.s. c 280 § 7.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.080 Notice of chapter to vehicle owners. Whenever a vehicle license renewal form under RCW 46.16.210 is given to the registered owner of any vehicle, the department of licensing shall give to the owner written notice of the provisions of this chapter in a manner prescribed by the director of licensing. [1982 c 62 § 10.]

46.71.090 Notice of chapter to repair facilities. When the department of revenue issues a registration certificate under RCW 82.32.030 to an automotive repair

facility, it shall give written notice to the person of the requirements of this chapter in a manner prescribed by the director of revenue. The department of revenue shall thereafter give the notice on an annual basis in conjunction with the business and occupation tax return provided to each person holding a registration certificate as an automotive repair facility. [1993 c 424 § 13; 1982 c 62 § 11.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

Age limit for drivers of for hire vehicles: RCW 46.20.045.

Taxicab companies, local regulation: Chapter 81.72 RCW.

46.72.001 Finding and intent. The legislature finds and declares that privately operated for hire transportation service is a vital part of the transportation system within the state. Consequently, the safety, reliability, and stability of privately operated for hire transportation services are matters of state-wide importance. The regulation of privately operated for hire transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit political subdivisions of the state to regulate for hire transportation services without liability under federal antitrust laws. [1996 c 87 § 17.]

46.72.010 Definitions. When used in this chapter:

[1996 c 87 § 18; 1991 c 99 § 1; 1979 c 111 § 14; 1961 c 12 § 46.72.010. Prior: 1947 c 253 § 1; Rem. Supp. 1947 § 6386-1. Formerly RCW 81.72.010.]

Severability—1979 c 111: See note following RCW 46.74.010.

46.72.020 Permit required—Form of application.

No for hire operator shall cause operation of a for hire vehicle upon any highway of this state without first obtaining a permit from the director of licensing, except for those for hire operators regulated by cities or counties in accordance with chapter 81.72 RCW. Application for a permit shall be made on forms provided by the director and shall include (1) the name and address of the owner or owners, and if a corporation, the names and addresses of the principal officers thereof; (2) city, town or locality in which any vehicle will be operated; (3) name and motor number of any vehicle to be operated; (4) the endorsement of a city official authorizing an operator under a law or ordinance requiring a license; and (5) such other information as the director may require. [1992 c 114 § 1; 1979 c 158 § 188; 1967 c 32 § 80; 1961 c 12 § 46.72.020. Prior: 1947 c 253 § 2; Rem. Supp. 1947 § 6386-2; prior: 1915 c 57 § 1; RRS § 6382. Formerly RCW 81.72.020.]

46.72.030 Permit fee—Issuance—Display. Application for a permit shall be forwarded to the director with a fee. Upon receipt of such application and fee, the director shall, if such application be in proper form, issue a permit authorizing the applicant to operate for hire vehicles upon the highways of this state until such owner ceases to do business as such, or until the permit is suspended or revoked. Such permit shall be displayed in a conspicuous place in the principal place of business of the owner. [1992 c 114 § 2; 1967 c 32 § 81; 1961 c 12 § 46.72.030. Prior: 1947 c 253 § 3; Rem. Supp. 1947 § 6386-3; prior: 1933 c 73 § 1, part; 1915 c 57 § 2, part; RRS § 6383, part. Formerly RCW 81.72.030.]

46.72.040 Surety bond. Before a permit is issued every for hire operator shall be required to deposit and thereafter keep on file with the director a surety bond running to the state of Washington covering each and every for hire vehicle as may be owned or leased by him and used in the conduct of his business as a for hire operator. Such bond shall be in the sum of one hundred thousand dollars for any recovery for death or personal injury by one person, and three hundred thousand dollars for all persons killed or receiving personal injury by reason of one act of negligence, and twenty-five thousand dollars for damage to property of any person other than the assured, with a good and sufficient surety company licensed to do business in this state as surety and to be approved by the director, conditioned for the faithful compliance by the principal of said bond with the provisions of this chapter, and to pay all damages which may be sustained by any person injured by reason of any careless negligence or unlawful act on the part of said principal, his agents or employees in the conduct of said business or in the operation of any motor propelled vehicle

used in transporting passengers for compensation on any public highway of this state. [1973 c 15 § 1; 1967 c 32 § 82; 1961 c 12 § 46.72.040. Prior: 1947 c 253 § 4; Rem. Supp. 1947 § 6386-4; prior: 1933 c 73 § 1, part; 1915 c 57 § 2, part; RRS § 6383, part. Formerly RCW 81.72.040.]

46.72.050 Liability coverage—Right of action saved.

In lieu of the surety bond as provided in this chapter, there may be deposited and kept on file and in force with the director a public liability insurance policy covering each and every motor vehicle operated or intended to be so operated, executed by an insurance company licensed and authorized to write such insurance policies in the state of Washington, assuring the applicant for a permit against property damage and personal liability to the public, with the premiums paid and payment noted thereon. Said policy of insurance shall provide a minimum coverage equal and identical to the coverage required by the aforesaid surety bond, specified under the provisions of RCW 46.72.040. No provisions of this chapter shall be construed to limit the right of any injured person to any private right of action against a for hire operator as herein defined. [1973 c 15 § 2; 1967 c 32 § 83; 1961 c 12 § 46.72.050. Prior: 1947 c 253 § 5; Rem. Supp. 1947 § 6386-5. Formerly RCW 81.72.050.]

46.72.060 Right of action—Limitation of recovery.

Every person having a cause of action for damages against any person, firm, or corporation receiving a permit under the provisions of this chapter, for injury, damages or wrongful death caused by any careless, negligent or unlawful act of any such person, firm, or corporation or his, their, or its agents or employees in conducting or carrying on said business or in operating any motor propelled vehicle for the carrying and transporting of passengers over and along any public street, road or highway shall have a cause of action against the principal and surety upon the bond or the insurance company and the insured for all damages sustained, and in any such action the full amount of damages sustained may be recovered against the principal, but the recovery against the surety shall be limited to the amount of the bond. [1961 c 12 § 46.72.060. Prior: 1947 c 253 § 6; Rem. Supp. 1947 § 6386-6; prior: 1929 c 27 § 1; 1927 c 161 § 1; 1915 c 57 § 3; RRS § 6384. Formerly RCW 81.72.060.]

46.72.070 Certificate—Fee. The director shall approve and file all bonds and policies of insurance. The director shall, upon receipt of fees and after approving the bond or policy, furnish the owner with an appropriate certificate which must be carried in a conspicuous place in the vehicle at all times during for hire operation. A for hire operator shall secure a certificate for each for hire vehicle operated and pay therefor a fee for each vehicle so registered. Such permit or certificate shall expire on June 30th of each year, and may be annually renewed upon payment of a fee. [1992 c 114 § 3; 1967 c 32 § 84; 1961 c 12 § 46.72.070. Prior: 1947 c 253 § 7; Rem. Supp. 1947 § 6386-7. Formerly RCW 81.72.070.]

46.72.080 Substitution of security—New certificate. In the event the owner substitutes a policy or bond after a

for hire certificate has been issued, a new certificate shall be issued to the owner. The owner shall submit the substituted bond or policy to the director for approval, together with a fee. If the director approves the substituted policy or bond, a new certificate shall be issued. In the event any certificate has been lost, destroyed or stolen, a duplicate thereof may be obtained by filing an affidavit of loss and paying a fee. [1992 c 114 § 4; 1967 c 32 § 85; 1961 c 12 § 46.72.080. Prior: 1947 c 253 § 8; Rem. Supp. 1947 § 6386-8. Formerly RCW 81.72.080.]

46.72.100 Refusal, suspension, or revocation of permit or certificate—Penalty for unlawful operation. The director may refuse to issue a permit or certificate, or he may suspend or revoke a permit or certificate if he has good reason to believe that one of the following is true of the operator or the applicant for a permit or certificate: (1) He has been convicted of an offense of such a nature as to indicate that he is unfit to hold a certificate or permit; (2) he is guilty of committing two or more offenses for which mandatory revocation of driver's license is provided by law; (3) he has been convicted of vehicular homicide or vehicular assault; (4) he is intemperate or addicted to the use of narcotics.

Notice of the director to refuse, suspend, or revoke the permit or certificate shall be given by certified mail to the holder or applicant for the permit or certificate and shall designate a time and place for a hearing before the director, which shall not be less than ten days from the date of the notice. If the director, after the hearing, decides that a permit shall be canceled or revoked, he shall notify the holder or applicant to that effect by certified mail. The applicant or permit holder may within thirty days from the date of the decision appeal to the superior court of Thurston county for a review of the decision by filing a copy of the notice with the clerk of the superior court and a copy of the notice in the office of the director. The court shall set the matter down for hearing with the least possible delay.

Any for hire operator who operates a for hire vehicle without first having filed a bond or insurance policy and having received a for hire permit and a for hire certificate as required by this chapter is guilty of a gross misdemeanor, and upon conviction shall be punished by imprisonment in jail for a period not exceeding ninety days or a fine of not exceeding five hundred dollars, or both fine and imprisonment. [1983 c 164 § 8; 1967 c 32 § 86; 1961 c 12 § 46.72.100. Prior: 1947 c 253 § 9; Rem. Supp. 1947 § 6386-9; prior: 1915 c 57 § 4; RRS § 6385. Formerly RCW 81.72.100.]

Rules of court: Bail in criminal traffic offense cases—Mandatory appearance—CrRLJ 3.2.

46.72.110 Fees to highway safety fund. All fees received by the director under the provisions of this chapter shall be transmitted by him, together with a proper identifying report, to the state treasurer to be deposited by the state treasurer in the highway safety fund. [1967 c 32 § 87; 1961 c 12 § 46.72.110. Prior: 1947 c 253 § 10; Rem. Supp. 1947 § 6386-10. Formerly RCW 81.72.110.]

46.72.120 Rules and regulations. The director is empowered to make and enforce such rules and regulations, including the setting of fees, as may be consistent with and necessary to carry out the provisions of this chapter. [1992 c 114 § 5; 1967 c 32 § 88; 1961 c 12 § 46.72.120. Prior: 1947 c 253 § 11; Rem. Supp. 1947 § 6386-11. Formerly RCW 81.72.120.]

46.72.130 Nonresident taxicabs—Permit—Fee—Compliance. No operator of a taxicab licensed or possessing a permit in another state to transport passengers for hire, and principally engaged as a for hire operator in another state, shall cause the operation of a taxicab upon any highway of this state without first obtaining an annual permit from the director upon an application accompanied with an annual fee for each taxicab. The issuance of a permit shall be further conditioned upon compliance with this chapter. [1992 c 114 § 6; 1967 c 32 § 89; 1961 c 12 § 46.72.130. Prior: 1953 c 12 § 1; 1951 c 219 § 1. Formerly RCW 81.72.130.]

46.72.140 Nonresident taxicabs—Permit required for entry. All law enforcement officers shall refuse every taxicab entry into this state which does not have a certificate from the director on the vehicle. [1967 c 32 § 90; 1961 c 12 § 46.72.140. Prior: 1951 c 219 § 2. Formerly RCW 81.72.140.]

46.72.150 Nonresident taxicabs—Reciprocity. RCW 46.72.130 and 46.72.140 shall be inoperative to operators of taxicabs residing and licensed in any state which allows Washington operators of taxicabs to use such state's highways free from such regulations. [1961 c 12 § 46.72.150. Prior: 1951 c 219 § 3. Formerly RCW 81.72.150.]

46.72.160 Local regulation. Cities, counties, and port districts may license, control, and regulate all for hire vehicles operating within their respective jurisdictions. The power to regulate includes:

- (1) Regulating entry into the business of providing for hire vehicle transportation services;
- (2) Requiring a license to be purchased as a condition of operating a for hire vehicle and the right to revoke, cancel, or refuse to reissue a license for failure to comply with regulatory requirements;
- (3) Controlling the rates charged for providing for hire vehicle transportation service and the manner in which rates are calculated and collected;
- (4) Regulating the routes and operations of for hire vehicles, including restricting access to airports;
- (5) Establishing safety and equipment requirements; and
- (6) Any other requirements adopted to ensure safe and reliable for hire vehicle transportation service. [1996 c 87 § 19.]

46.72.170 Joint regulation. The department, a city, county, or port district may enter into cooperative agreements with any other city, town, county, or port district for the joint regulation of for hire vehicles. Cooperative agreements may provide for, but are not limited to, the

granting, revocation, and suspension of joint for hire vehicle licenses. [1996 c 87 § 20.]

46.72A.010 Finding and intent. The legislature finds and declares that privately operated limousine transportation service is a vital part of the transportation system within the state and provides prearranged transportation services to state residents, tourists, and out-of-state business people. Consequently, the safety, reliability, and stability of privately operated limousine transportation services are matters of state-wide importance. The regulation of privately operated limousine transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit the department and a port district in a county with a population of one million or more to regulate limousine transportation services without liability under federal antitrust laws. [1996 c 87 § 4.]

Transfer of powers, duties, and functions—1996 c 87: "(1) All powers, duties, and functions of the utilities and transportation commission pertaining to the regulation of limousines and limousine charter party carriers are transferred to the department of licensing. All references to the utilities and transportation commission in the Revised Code of Washington shall be construed to mean the director or the department of licensing when referring to the functions transferred in this section.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material in the possession of the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be delivered to the custody of the department of licensing. All cabinets, furniture, office equipment, motor vehicles, and other tangible property employed by the utilities and transportation commission in carrying out the powers, functions, and duties transferred shall be made available to the department of licensing. All funds, credits, or other assets held in connection with the powers, functions, and duties transferred shall be assigned to the department of licensing.

(b) Any appropriations made to the utilities and transportation commission for carrying out the powers, functions, and duties transferred shall, on June 6, 1996, be transferred and credited to the department of licensing.

(c) Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All rules and all pending business before the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the department of licensing. All existing contracts and obligations shall remain in full force and shall be performed by the department of licensing.

(4) The transfer of the powers, duties, and functions of the utilities and transportation commission shall not affect the validity of any act performed before June 6, 1996.

(5) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification." [1996 c 87 § 22.]

46.72A.020 Office required—Exception. All limousine carriers must operate from a main office and may have satellite offices. However, no office may be solely in a vehicle of any type. All arrangements for the carrier's services must be made through its offices and dispatched to the carrier's vehicles. Under no circumstances may customers or customers' agents make arrangements for immediate rental of a carrier's vehicle with the driver of the vehicle, even if the driver is an owner or officer of the company, with the single exception of stand-hail limousines only at a facility owned and operated by a port district in a county with a population of one million or more that are licensed and restricted by the rules and policies set forth by the port district. [1996 c 87 § 5.]

46.72A.030 Regulation—Inspection. (1) The department, in conjunction with the Washington state patrol, shall regulate limousine carriers with respect to entry, safety of equipment, chauffeur qualifications, and operations. The department shall adopt rules and require such reports as are necessary to carry out this chapter.

(2) In addition, a port district in a county with a population of one million or more may regulate limousine carriers with respect to entry, safety of equipment, chauffeur qualifications, and operations. The county in which the port district is located may adopt ordinances and rules to assist the port district in enforcement of limousine regulations only at port facilities. In no event may this be construed to grant the county the authority to regulate limousines within its jurisdiction. The port district may not set limousine rates, but the limousine carriers shall file their rates and schedules with the port district.

(3) The department, a port district in a county with a population of at least one million, or a county in which the port district is located may enter into cooperative agreements for the joint regulation of limousines.

(4) The Washington state patrol shall annually conduct a vehicle inspection of each limousine licensed under this chapter, except when a port district regulates limousine carriers under subsection (2) of this section, that port district or county in which the port [district] is located shall conduct the annual vehicle inspection. The patrol, the port district, or the county may impose an annual vehicle inspection fee. [1996 c 87 § 6.]

46.72A.040 State preemption. Except when a port district regulates limousine carriers under RCW 46.72A.030, the state of Washington fully occupies and preempts the entire field of regulation over limousine carriers as regulated by this chapter. Cities, towns, and counties or other municipalities may enact only those laws and ordinances relating to limousine carriers that are consistent with this chapter. [1996 c 87 § 7.]

46.72A.050 Business license, vehicle certificates required. No limousine carrier may operate a limousine upon the highways of this state without first obtaining a business license from the department. The applicant shall forward an application for a business license to the department along with a fee established by rule. Upon approval of the application, the department shall issue a business license and unified business identifier authorizing the carrier to operate limousines upon the highways of this state.

In addition, a limousine carrier shall annually obtain, upon payment of the appropriate fee, a vehicle certificate for each limousine operated by the carrier. [1996 c 87 § 8.]

46.72A.060 Insurance—Amount—Penalty. The department shall require limousine carriers to obtain and continue in effect, liability and property damage insurance from a company licensed to sell liability insurance in this state for each limousine used to transport persons for compensation.

The department shall fix the amount of the insurance policy or policies, giving consideration to the character and amount of traffic, the number of persons affected, and the degree of danger that the proposed operation involves. The limousine carrier must maintain the liability and property damage insurance in force on each motor-propelled vehicle while so used.

Failure to file and maintain in effect this insurance is a gross misdemeanor. [1996 c 87 § 9.]

46.72A.070 Vehicle certificates—Issuance of new or duplicate certificate—Penalty. If the limousine carrier substitutes a liability and property damage insurance policy after a vehicle certificate has been issued, a new vehicle certificate is required. The limousine carrier shall submit the substituted policy to the department for approval, together with a fee. If the department approves the substituted policy, the department shall issue a new vehicle certificate.

If a vehicle certificate has been lost, destroyed, or stolen, a duplicate vehicle certificate may be obtained by filing an affidavit of loss and paying a fee. A limousine carrier who operates a vehicle without first having received a vehicle certificate as required by this chapter is guilty of a misdemeanor on the first offense and a gross misdemeanor on a second or subsequent offense. [1996 c 87 § 10.]

46.72A.080 Advertising—Penalty. (1) No limousine carrier may advertise without listing the carrier's unified business identifier issued by the department in the advertisement and specifying the type of service offered as provided in RCW 46.04.274. No limousine carrier may advertise or hold itself out to the public as providing taxicab transportation services.

(2) All advertising, contracts, correspondence, cards, signs, posters, papers, and documents that show a limousine carrier's name or address shall list the carrier's unified business identifier and the type of service offered. The alphabetized listing of limousine carriers appearing in the advertising sections of telephone books or other directories and all advertising that shows the carrier's name or address must show the carrier's current unified business identifier.

(3) Advertising by electronic transmission need not contain the carrier's unified business identifier if the carrier provides it to the person selling the advertisement and it is recorded in the advertising contract.

(4) It is a gross misdemeanor for a person to (a) falsify a unified business identifier or use a false or inaccurate unified business identifier; (b) fail to specify the type of service offered; or (c) advertise or otherwise hold itself out to the public as providing taxicab transportation services in connection with a solicitation or identification as an authorized limousine carrier. [1996 c 87 § 11.]

46.72A.090 Chauffeurs—Criteria for. The limousine carrier shall certify to the appropriate regulating authority that each chauffeur hired to operate a limousine meets the following criteria: (1) Is at least twenty-one years of age; (2) holds a valid Washington state driver's license; (3) has successfully completed a training course approved by the department; (4) has successfully passed a written examination; (5) has successfully completed a background check performed by the Washington state patrol; and (6) has submitted a medical certificate certifying the individual's fitness as a chauffeur. Upon initial application and every three years thereafter, a chauffeur must file a physician's certification with the limousine carrier validating the individual's fitness to drive a limousine. (3) "Properly registered," as applied to place of registration, means:

(a) The jurisdiction where the person registering the vehicle has his legal residence; or

(b) In the case of a commercial vehicle, the jurisdiction in which it is registered if the commercial enterprise in which such vehicle is used has a place of business therein, and, if the vehicle is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled in or from such place of business, and, the vehicle has been assigned to such place of business; or

On and after July 1, 1963, if no agreement, arrangement or declaration is in effect with respect to another jurisdiction as authorized by this chapter, any vehicle properly registered or licensed in such other jurisdiction and for which evidence of compliance is supplied shall receive, when operated in this state, the same exemptions, benefits and privileges granted by such other jurisdiction to vehicles properly registered in this state. 46.87.010 Applicability—Implementation. This chapter applies to proportional registration and reciprocity granted under the provisions of the International Registration Plan (IRP) and the Uniform Vehicle Registration, Proration, and Reciprocity Agreement (Western Compact). This chapter shall become effective and be implemented beginning with the 1988 registration year; however, if Washington is not then registering vehicles under the provisions of the IRP, the effective date and implementation date for the IRP shall both be delayed until such time as Washington begins registering vehicles under the provisions of the IRP.

(1) Provisions and terms of the IRP and the Western Compact, as applicable, shall prevail unless given a different meaning in chapter 46.04 RCW, this chapter, or in rules adopted under the authority of this chapter.

(2) The director may adopt and enforce rules deemed necessary to implement and administer this chapter.

(3) Beginning with the first registration year in which the state of Washington begins registering fleets under provisions of the IRP, owners having a fleet of apportionable vehicles operating in two or more IRP member jurisdictions may elect to proportionally register the vehicles of the fleet under the provisions of the IRP and this chapter in lieu of full or temporary registration as provided for in chapters 46.16 or 46.88 RCW.

(4) Owners having a fleet of commercial vehicles operating and registered in at least one Western Compact member jurisdiction other than Washington may elect to proportionally register the vehicles of the fleet under provisions of the Western Compact and this chapter in lieu of full or temporary registration as provided for in chapter 46.16 or 46.88 RCW.

(5) If a due date or an expiration date established under authority of this chapter falls on a Saturday, Sunday, or a state legal holiday, such period is automatically extended through the end of the next business day. [1987 c 244 § 15; 1986 c 18 § 22; 1985 c 380 § 1.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.020 Definitions. Terms used in this chapter have the meaning given to them in the International Registration Plan (IRP), the Uniform Vehicle Registration, Proration, and Reciprocity Agreement (Western Compact), chapter 46.04 RCW, or as otherwise defined in this section. Definitions given to terms by the IRP and the Western Compact, as applicable, shall prevail unless given a different meaning in this chapter or in rules adopted under authority of this chapter.

(1) "Apportionable vehicle" has the meaning given by the IRP, except that it does not include vehicles with a declared gross weight of twelve thousand pounds or less. Apportionable vehicles include trucks, tractors, truck tractors, road tractors, and buses, each as separate and licensable vehicles. For IRP jurisdictions that require the registration

of nonmotor vehicles, this term may include trailers, semi-trailers, and pole trailers as applicable, each as separate and licensable vehicles.

(2) "Cab card" is a certificate of registration issued for a vehicle by the registering jurisdiction under the Western Compact. Under the IRP, it is a certificate of registration issued by the base jurisdiction for a vehicle upon which is disclosed the jurisdictions and registered gross weights in such jurisdictions for which the vehicle is registered.

(3) "Commercial vehicle" is a term used by the Western Compact and means any vehicle, except recreational vehicles, vehicles displaying restricted plates, and government owned or leased vehicles, that is operated and registered in more than one jurisdiction and is used or maintained for the transportation of persons for hire, compensation, or profit, or is designed, used, or maintained primarily for the transportation of property and:

(a) Is a motor vehicle having a declared gross weight in excess of twenty-six thousand pounds; or

(b) Is a motor vehicle having three or more axles with a declared gross weight in excess of twelve thousand pounds; or

(c) Is a motor vehicle, trailer, pole trailer, or semitrailer used in combination when the gross weight or declared gross weight of the combination exceeds twenty-six thousand pounds combined gross weight. The nonmotor vehicles mentioned are only applicable to those jurisdictions requiring the registration of such vehicles.

Although a two-axle motor vehicle, trailer, pole trailer, semitrailer, or any combination of such vehicles with an actual or declared gross weight or declared combined gross weight exceeding twelve thousand pounds but not more than twenty-six thousand is not considered to be a commercial vehicle, at the option of the owner, such vehicles may be considered as "commercial vehicles" for the purpose of proportional registration. The nonmotor vehicles mentioned are only applicable to those jurisdictions requiring the registration of such vehicles.

Commercial vehicles include trucks, tractors, truck tractors, road tractors, and buses. Trailers, pole trailers, and semitrailers, will also be considered as commercial vehicles for those jurisdictions who require registration of such vehicles.

(4) "Credentials" means cab cards, apportioned plates (for Washington-based fleets), and validation tabs issued for proportionally registered vehicles.

(5) "Declared combined gross weight" means the total unladen weight of any combination of vehicles plus the weight of the maximum load to be carried on the combination of vehicles as set by the registrant in the application pursuant to chapter 46.44 RCW and for which registration fees have been or are to be paid.

(6) "Declared gross weight" means the total unladen weight of any vehicle plus the weight of the maximum load to be carried on the vehicle as set by the registrant in the application pursuant to chapter 46.44 RCW and for which registration fees have been or are to be paid. In the case of a bus, auto stage, or a passenger-carrying for hire vehicle with a seating capacity of more than six, the declared gross weight shall be determined by multiplying the average load factor of one hundred and fifty pounds by the number of seats in the vehicle, including the driver's seat, and add this

amount to the unladen weight of the vehicle. If the resultant gross weight is not listed in RCW 46.16.070, it will be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

(7) "Department" means the department of licensing.

(8) "Fleet" means one or more commercial vehicles in the Western Compact and one or more apportionable vehicles in the IRP.

(9) "In-jurisdiction miles" means the total miles accumulated in a jurisdiction during the preceding year by vehicles of the fleet while they were a part of the fleet.

(10) "IRP" means the International Registration Plan.

(11) "Jurisdiction" means and includes a state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a foreign country, and a state or province of a foreign country.

(12) "Owner" means a person or business firm who holds the legal title to a vehicle, or if a vehicle is the subject of an agreement for its conditional sale with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee, or if a vehicle is subject to a lease, contract, or other legal arrangement vesting right of possession or control, for security or otherwise, or if a mortgagor of a vehicle is entitled to possession, then the owner is deemed to be the person or business firm in whom is vested right of possession or control.

(13) "Preceding year" means the period of twelve consecutive months ending on the last full calendar quarter, at least four months before the beginning of the registration year for which proportional registration is sought.

(14) "Properly registered," as applied to the place of registration under the provisions of the Western Compact, means:

(a) In the case of a commercial vehicle, the jurisdiction in which it is registered if the commercial enterprise in which the vehicle is used has a place of business therein, and, if the vehicle is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled in or from that place of business, and the vehicle has been assigned to that place of business; or

(b) In the case of a commercial vehicle, the jurisdiction where, because of an agreement or arrangement between two or more jurisdictions, or pursuant to a declaration, the vehicle has been registered as required by that jurisdiction.

In case of doubt or dispute as to the proper place of registration of a commercial vehicle, the department shall make the final determination, but in making such determination, may confer with departments of the other jurisdictions affected.

(15) "Prorate percentage" is the factor that is applied to the total proratable fees and taxes to determine the apportionable or prorate fees required for registration in a particular jurisdiction. It is determined by dividing the in-jurisdiction miles for a particular jurisdiction by the total miles. This term is synonymous with the term "mileage percentage."

(16) "Registrant" means a person, business firm, or corporation in whose name or names a vehicle or fleet of vehicles is registered.

(17) "Registration year" means the twelve-month period during which the registration plates issued by the base

jurisdiction are valid according to the laws of the base jurisdiction.

(18) "Total miles" means the total number of miles accumulated in all jurisdictions during the preceding year by all vehicles of the fleet while they were a part of the fleet. Mileage accumulated by vehicles of the fleet that did not engage in interstate operations is not included in the fleet miles.

(19) "Western Compact" means the Uniform Vehicle Registration, Proration, and Reciprocity Agreement. [1994 c 262 § 12; 1993 c 307 § 12; 1991 c 163 § 4; 1990 c 42 § 111; 1987 c 244 § 16; 1985 c 380 § 2.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.022 Rental trailers, converter gears. Owners of rental trailers and semitrailers over six thousand pounds gross vehicle weight, and converter gears used solely in pool fleets shall fully register a portion of the pool fleet in this state. To determine the percentage of total fleet vehicles that must be registered in this state, divide the gross revenue received in the preceding year for the use of the rental vehicles arising from rental transactions occurring in this state by the total revenue received in the preceding year for the use of the rental vehicles arising from rental transactions in all jurisdictions in which the vehicles are operated. Apply the resulting percentage to the total number of vehicles that shall be registered in this state. Vehicles registered in this state shall be representative of the vehicles in the fleet according to age, size, and value. [1990 c 250 § 74.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.87.023 Rental car businesses. (1) Rental car businesses must register with the department of licensing. This registration must be renewed annually by the rental car business.

(2) Rental cars must be titled and registered under the provisions of chapters 46.12 and 46.16 RCW. The vehicle must be identified at the time of application with the rental car company business number issued by the department.

(3) Use of rental cars is restricted to the rental customer unless otherwise provided by rule.

(4) The department may suspend or cancel the exemptions, benefits, or privileges granted under this section to a rental car business that violates the laws of this state relating to the operation or registration of vehicles or rules lawfully adopted thereunder. The department may initiate and conduct audits, investigations, and enforcement actions as may be reasonably necessary for administering this section.

(5) The department shall adopt such rules as may be necessary to administer and enforce the provisions of this section. [1994 c 227 § 2; 1992 c 194 § 7.]

Effective dates—1992 c 194: See note following RCW 46.04.466.

46.87.025 Vehicles titled in owner's name. All vehicles being added to an existing Washington-based fleet or those vehicles that make up a new Washington-based fleet shall be titled in the name of the owner at time of registration, or evidence of filing application for title for such vehicles in the name of the owner shall accompany the

application for proportional registration. [1990 c 250 § 75; 1987 c 244 § 17.]

Severability—1990 c 250: See note following RCW 46.16.301.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.030 Part-year registration—Credit for unused fees. (1) When application to register an apportionable or commercial vehicle is made after the third month of the owner's registration year, the Washington prorated fees may be reduced by one-twelfth for each full registration month that has elapsed at the time a temporary authorization permit (TAP) was issued or if no TAP was issued, at such time as an application for registration is received in the department. If a vehicle is being added to a currently registered fleet, the prorate percentage previously established for the fleet for such registration year shall be used in the computation of the proportional fees and taxes due.

(2) If any vehicle is withdrawn from a proportionally registered fleet during the period for which it is registered under this chapter, the registrant of the fleet shall notify the department on appropriate forms prescribed by the department. The department may require the registrant to surrender credentials that were issued to the vehicle. If a motor vehicle is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold, or otherwise completely removed from the service of the fleet registrant, the unused portion of the licensing fee paid under RCW 46.16.070 with respect to the vehicle reduced by one-twelfth for each calendar month and fraction thereof elapsing between the first day of the month of the current registration year in which the vehicle was registered and the date the notice of withdrawal, accompanied by such credentials as may be required, is received in the department, shall be credited to the fleet proportional registration account of the registrant. Credit shall be applied against the licensing fee liability for subsequent additions of motor vehicles to be proportionally registered in the fleet during such registration year or for additional licensing fees due under RCW 46.16.070 or to be due upon audit under RCW 46.87.310. If any credit is less than fifteen dollars, no credit will be entered. In lieu of credit, the registrant may choose to transfer the unused portion of the licensing fee for the motor vehicle to the new owner, in which case it shall remain with the motor vehicle for which it was originally paid. In no event may any amount be credited against fees other than those for the registration year from which the credit was obtained nor is any amount subject to refund. [1993 c 307 § 13; 1987 c 244 § 18; 1986 c 18 § 23; 1985 c 380 § 3.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.040 Purchase of additional gross weight. Additional gross weight may be purchased for proportionally registered motor vehicles to the limits authorized under chapter 46.44 RCW. Reregistration at the higher gross weight (maximum gross weights under this chapter are fifty-four thousand pounds for a solo three-axle truck or one hundred five thousand five hundred pounds for a combination) for the balance of the registration year, including the full registration month in which the vehicle is initially licensed at the higher gross weight. The apportionable or proportional fee initially paid to the state of Washington,

reduced for the number of full registration months the license was in effect, will be deducted from the total fee to be paid to this state for licensing at the higher gross weight for the balance of the registration year. No credit or refund will be given for a reduction of gross weight. [1994 c 262 § 13; 1987 c 244 § 19; 1985 c 380 § 4.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.050 Deposit of fees. Each day the department shall forward to the state treasurer the fees collected under this chapter, and within ten days of the end of each registration quarter, a detailed report identifying the amount to be deposited to each account for which fees are required for the licensing of proportionally registered vehicles. Such fees shall be deposited pursuant to RCW 46.68.035, 82.44.110, and 82.44.170. [1987 c 244 § 20; 1985 c 380 § 5.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.060 Apportionment of fees, formula. The apportionment of fees to IRP member jurisdictions shall be in accordance with the provisions of the IRP agreement based on the apportionable fee multiplied by the prorated percentage for each jurisdiction in which the fleet will be registered or is currently registered. [1987 c 244 § 21; 1985 c 380 § 6.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.070 Registration of trailers, semitrailers, pole trailers. (1) Washington-based trailers, semitrailers, or pole trailers shall be licensed in this state under the provisions of chapter 46.16 RCW except as herein provided. If these vehicles are being operated in jurisdictions that require the registration of such vehicles, the applicable vehicles may be considered as apportionable or commercial vehicles for the purpose of registration in those jurisdictions and this state. This provision does not apply to trailers, semitrailers, or pole trailers which have been issued permanent plates.

(2) Trailers, semitrailers, and pole trailers which are properly based in jurisdictions other than Washington, and which display currently registered license plates from such jurisdictions will be granted vehicle license reciprocity in this state without the need of further vehicle license registration. If pole trailers are not required to be licensed separately by a member jurisdiction, such vehicles may be operated in this state without displaying a current base license plate. [1993 c 123 § 1. Prior: 1991 c 339 § 9; 1991 c 163 § 5; 1990 c 42 § 112; 1987 c 244 § 22; 1985 c 380 § 7.]

Effective date of 1993 c 102 and c 123—1993 sp.s. c 23: See note following RCW 46.16.070.

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.080 Cab cards, validation tabs, special license plates—Design, procedures—Issuance, refusal, revocation. (1) Upon making satisfactory application and payment of applicable fees and taxes for proportional registration under this chapter, the department shall issue a cab card and validation tab for each vehicle, and to vehicles of Washington-based fleets, two distinctive apportionable license plates for each motor vehicle and one such plate for each trailer,

semitrailer, pole trailer, or converter gear listed on the application. License plates shall be displayed on vehicles as required by RCW 46.16.240. The number and plate shall be of a design, size, and color determined by the department. The plates shall be treated with reflectorized material and clearly marked with the words "WASHINGTON" and "APPORTIONED," both words to appear in full and without abbreviation.

(2) The cab card serves as the certificate of registration for a proportionally registered vehicle. The face of the cab card shall contain the name and address of the registrant as contained in the records of the department, the license plate number assigned to the vehicle by the base jurisdiction, the vehicle identification number, and such other description of the vehicle and data as the department may require. The cab card shall be signed by the registrant, or a designated person if the registrant is a business firm, and shall at all times be carried in or on the vehicle to which it was issued. In the case of nonpowered vehicles, the cab card may be carried in or on the vehicle supplying the motive power instead of in or on the nonpowered vehicle.

(3) The apportioned license plates are not transferrable from vehicle to vehicle unless otherwise determined by rule and shall be used only on the vehicle to which they are assigned by the department for as long as they are legible or until such time as the department requires them to be removed and returned to the department.

(4) Distinctive validation tab(s) of a design, size, and color determined by the department shall be affixed to the apportioned license plate(s) as prescribed by the department to indicate the month, if necessary, and year for which the vehicle is registered. Foreign-based vehicles proportionally registered in this state under the provisions of the Western Compact shall display the validation tab on a backing plate or as otherwise prescribed by the department.

(5) Renewals shall be effected by the issuance and display of such tab(s) after making satisfactory application and payment of applicable fees and taxes.

(6) Fleet vehicles so registered and identified shall be deemed to be fully licensed and registered in this state for any type of movement or operation. However, in those instances in which a grant of authority is required for interstate or intrastate movement or operation, no such vehicle may be operated in interstate or intrastate commerce in this state unless the owner has been granted interstate operating authority by the interstate commerce commission in the case of interstate operations or intrastate operating authority by the Washington utility and transportation commission in the case of intrastate operations and unless the vehicle is being operated in conformity with that authority.

(7) The department may issue temporary authorization permits (TAPs) to qualifying operators for the operation of vehicles pending issuance of license identification. A fee of one dollar plus a one dollar filing fee shall be collected for each permit issued. The permit fee shall be deposited in the motor vehicle fund, and the filing fee shall be deposited in the highway safety fund. The department may adopt rules for use and issuance of the permits.

(8) The department may refuse to issue any license or permit authorized by subsection (1) or (7) of this section to any person: (a) Who formerly held any type of license or

permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, *82.37, or 82.38 RCW that has been revoked for cause, which cause has not been removed; or (b) who is a subterfuge for the real party in interest whose license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, *82.37, or 82.38 RCW and has been revoked for cause, which cause has not been removed; or (c) who, as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, has had a license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, *82.37, or 82.38 RCW which has been revoked for cause, which cause has not been removed; or (d) who has an unsatisfied debt to the state assessed under either chapter 46.16, 46.85, 46.87, 82.36, *82.37, 82.38, or 82.44 RCW.

(9) The department may revoke the license or permit authorized by subsection (1) or (7) of this section issued to any person for any of the grounds constituting cause for denial of licenses or permits set forth in subsection (8) of this section.

(10) Before such refusal or revocation under subsection (8) or (9) of this section, the department shall grant the applicant a hearing and at least ten days written notice of the time and place of the hearing. [1993 c 307 § 14; 1987 c 244 § 23; 1985 c 380 § 8.]

*Reviser's note: Chapter 82.37 RCW was repealed by 1995 c 274 § 3.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.085 Staggered renewal periods. The department may extend or diminish vehicle license registration periods for the purpose of staggering renewal periods. The extension or diminishment of a vehicle license registration period must be by rule of the department. The rule shall provide for the collection of proportionally increased or decreased vehicle license registration fees and of excise or other taxes required to be paid at the time of registration.

It is the intent of the legislature that there shall be neither a significant net gain nor loss of revenue to the state general fund or the motor vehicle fund as the result of implementing and maintaining a staggered vehicle registration system. [1993 c 307 § 17.]

46.87.090 Apportioned vehicle license plates, cab card, validation tabs—Replacement—Fees. (1) To replace an apportioned vehicle license plate(s), cab card, or validation tab(s) due to loss, defacement, or destruction, the registrant shall apply to the department on forms furnished for that purpose. The application, together with proper payment and other documentation as indicated, shall be filed with the department as follows:

(a) Apportioned plate(s) - a fee of ten dollars shall be charged for vehicles required to display two apportioned plates or five dollars for vehicles required to display one apportioned plate. The cab card of the vehicle for which a plate is requested shall accompany the application. The department shall issue a new apportioned plate(s) with validation tab(s) and a new cab card upon acceptance of the completed application form, old cab card, and the required replacement fee.

(b) Cab card - a fee of two dollars shall be charged for each card. If this is a duplicate cab card, it will be noted thereon.

(c) Validation year tab(s) - a fee of two dollars shall be charged for each vehicle.

(2) All fees collected under this section shall be deposited to the motor vehicle fund. [1994 c 262 § 14; 1987 c 244 § 24; 1986 c 18 § 24; 1985 c 380 § 9.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.120 Mileage data for applications—Nonmotor vehicles. (1) The initial application for proportional registration of a fleet shall state the mileage data with respect to the fleet for the preceding year in this and other jurisdictions. If no operations were conducted with the fleet during the preceding year, the application shall contain a full statement of the proposed method of operation and estimates of annual mileage in each of the jurisdictions in which operation is contemplated. The registrant shall determine the in-jurisdiction and total miles to be used in computing the fees and taxes due for the fleet. The department may evaluate and adjust the estimate in the application if it is not satisfied as to its correctness.

(2) Fleets will consist of either motor vehicles or nonmotor vehicles, but not a mixture of both.

(3) In instances where the use of mileage accumulated by a nonmotor vehicle fleet is impractical, for the purpose of calculating prorated percentages, the registrant may request another method and/or unit of measure to be used in determining the prorated percentages. Upon receiving such request, the department may prescribe another method and/or unit of measure to be used in lieu of mileage that will ensure each jurisdiction that requires the registration of nonmotor vehicles its fair share of vehicle licensing fees and taxes.

(4) When operations of a Washington-based fleet is materially changed through merger, acquisition, or extended authority, the registrant shall notify the department, which shall then require the filing of an amended application setting forth the proposed operation by use of estimated mileage for all jurisdictions. The department may adjust the estimated mileage by audit or otherwise to an actual travel basis to insure proper fee payment. The actual travel basis may be used for determination of fee payments until such time as a normal mileage year is available under the new operation. Under the provisions of the Western Compact, this subsection applies to any fleet proportionally registered in Washington irrespective of the fleet's base jurisdiction. [1990 c 42 § 113; 1987 c 244 § 25.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.130 Vehicle transaction fee. In addition to all other fees prescribed for the proportional registration of vehicles under this chapter, the department shall collect a vehicle transaction fee each time a vehicle is added to a Washington-based fleet, and each time the proportional registration of a Washington-based vehicle is renewed. The transaction fee is also applicable to all foreign-based vehicles for which this state calculates and assesses fees/taxes for the state of Washington. The exact amount of the vehicle

transaction fee shall be fixed by rule but shall not exceed ten dollars. This fee shall be deposited in the motor vehicle fund. [1987 c 244 § 26.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.140 Application—Filing, contents—Fees and taxes—Assessments, due date. (1) Any owner engaged in interstate operations of one or more fleets of apportionable or commercial vehicles may, in lieu of registration of the vehicles under chapter 46.16 RCW, register and license the vehicles of each fleet under this chapter by filing a proportional registration application for each fleet with the department. The nonmotor vehicles of Washington-based fleets which are operated in IRP jurisdictions that require registration of such vehicles may be proportionally registered for operation in those jurisdictions as herein provided. The application shall contain the following information and such other information pertinent to vehicle registration as the department may require:

(a) A description and identification of each vehicle of the fleet. Motor vehicles and nonpower units shall be placed in separate fleets.

(b) If registering under the provisions of the IRP, the registrant shall also indicate member jurisdictions in which registration is desired and furnish such other information as those member jurisdictions require.

(c) An original or renewal application shall also be accompanied by a mileage schedule for each fleet.

(2) Each application shall, at the time and in the manner required by the department, be supported by payment of a fee computed as follows:

(a) Divide the in-jurisdiction miles by the total miles and carry the answer to the nearest thousandth of a percent (three places beyond the decimal, e.g. 10.543%). This factor is known as the prorate percentage.

(b) Determine the total proratable fees and taxes required for each vehicle in the fleet for which registration is requested, based on the regular annual fees and taxes or applicable fees and taxes for the unexpired portion of the registration year under the laws of each jurisdiction for which fees or taxes are to be calculated.

Washington-based nonmotor vehicles shall normally be fully licensed under the provisions of chapter 46.16 RCW. If these vehicles are being operated in jurisdictions that require the registration of such vehicles, the applicable vehicles may be considered as apportionable vehicles for the purpose of registration in those jurisdictions and this state. The prorate percentage for which registration fees and taxes were paid to such jurisdictions may be credited toward the one hundred percent of registration fees and taxes due this state for full licensing. Applicable fees and taxes for vehicles of Washington-based fleets are those prescribed under RCW 46.16.070, 46.16.085, 82.38.075, and 82.44.020, as applicable.

(c) Multiply the total, proratable fees or taxes for each motor vehicle by the prorate percentage applicable to the desired jurisdiction and round the results to the nearest cent. Fees and taxes for nonmotor vehicles being prorated will be calculated as indicated in (b) of this subsection.

(d) Add the total fees and taxes determined in (c) of this subsection for each vehicle to the nonproratable fees required

under the laws of the jurisdiction for which fees are being calculated. Nonproratable fees required for vehicles of Washington-based fleets are the administrative fee required by RCW 82.38.075, if applicable, and the vehicle transaction fee pursuant to the provisions of RCW 46.87.130.

(e) Add the total fees and taxes determined in (d) of this subsection for each vehicle listed on the application. Assuming the fees and taxes calculated were for Washington, this would be the amount due and payable for the application under the provisions of the Western Compact. Under the provisions of the IRP, the amount due and payable for the application would be the sum of the fees and taxes referred to in (d) of this subsection, calculated for each member jurisdiction in which registration of the fleet is desired.

(3) All assessments for proportional registration fees are due and payable in United States funds on the date presented or mailed to the registrant at the address listed in the proportional registration records of the department. The registrant may petition for reassessment of the fees or taxes due under this section within thirty days of the date of original service as provided for in this chapter. [1991 c 339 § 10; 1990 c 42 § 114; 1987 c 244 § 27.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.150 Overpayment, underpayment—Refund, additional charge. Whenever a person has been required to pay a fee or tax pursuant to this chapter that amounts to an overpayment of ten dollars or more, the person is entitled to a refund of the entire amount of such overpayment, regardless of whether or not a refund of the overpayment has been requested. Nothing in this subsection precludes anyone from applying for a refund of such overpayment if the overpayment is less than ten dollars. Conversely, if the department or its agents has failed to charge and collect the full amount of fees or taxes pursuant to this chapter, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the fees and taxes due. [1996 c 91 § 1; 1987 c 244 § 28.]

Effective date—1996 c 91: "This act takes effect July 1, 1996." [1996 c 91 § 5.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.170 Recalculation of prorate percentage—Additional fees and taxes. If the department determines that a Washington-based carrier has proportionally registered a fleet in this state under provisions of the Western Compact and this chapter and has not fully or proportionally registered the fleet in another member jurisdiction(s) after indicating their intent to do so in their application to this state, the mileage traveled in such jurisdiction(s) shall be added to the Washington in-jurisdiction miles. The department shall then recalculate the carrier's Washington prorate percentage and shall assess and bill the registrant for the additional fees and taxes due the state of Washington. [1987 c 244 § 30.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.180 Conditions on fleet vehicles. The privileges and benefits of proportional registration of fleet vehicles extended by this chapter, or by any contract, agreement, arrangement, or declaration made under the authority of chapter 46.85 RCW or this chapter are subject to the conditions that:

(1) Each vehicle of the fleet proportionally registered under the authority of this chapter is also fully or proportionally registered in at least one other jurisdiction during the period for which it is proportionally registered in this state; and

(2) A fleet consists of the same vehicles in each jurisdiction in which the fleet is proportionally registered. [1987 c 244 § 31.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.190 Suspension or cancellation of benefits. The department may suspend or cancel the exemptions, benefits, or privileges granted under chapter 46.85 RCW or this chapter to any person or business firm who violates any of the conditions or terms of the IRP, Western Compact, or declarations, or who violates the laws of this state relating to the operation or registration of vehicles or rules lawfully adopted thereunder. [1987 c 244 § 32.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.200 Refusal of registration—Federal heavy vehicle use tax. The department may refuse registration of a vehicle if the applicant has failed to furnish proof, acceptable to the department, that the federal heavy vehicle use tax imposed by section 4481 of the internal revenue code of 1954 has been suspended or paid. The department may adopt rules as deemed necessary to administer this section. [1987 c 244 § 33.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.210 Refusal of application from nonreciprocal jurisdiction. The department may refuse to accept proportional registration applications for the registration of vehicles based in another jurisdiction if the department finds that the other jurisdiction does not grant similar registration privileges to fleet vehicles based in or owned by residents of this state. [1987 c 244 § 34.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.220 Gross weight computation. The gross weight in the case of a motor truck, tractor, or truck tractor is the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semitrailer, converter gear, or pole trailer to be towed by it, to which shall be added the weight of the maximum load to be carried on it or towed by it as set forth by the licensee in the application providing it does not exceed the weight limitations prescribed by chapter 46.44 RCW.

The gross weight in the case of a bus, auto stage, or for hire vehicle, except a taxicab, with a seating capacity over six, is the scale weight of the bus, auto stage, or for hire vehicle plus the seating capacity, including the operator's seat, computed at one hundred and fifty pounds per seat.

If the resultant gross weight, according to this section, is not listed in RCW 46.16.070, it will be increased to the

next higher gross weight so listed pursuant to chapter 46.44 RCW.

A motor vehicle or combination of vehicles found to be loaded beyond the licensed gross weight of the motor vehicle registered under this chapter shall be cited and handled under RCW 46.16.140 and 46.16.145. [1987 c 244 § 35.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.230 Responsibility for unlawful acts or omissions. Whenever an act or omission is declared to be unlawful under chapter 46.12, 46.16, or 46.44 RCW or this chapter, and if the operator of the vehicle is not the owner or lessee of the vehicle but is so operating or moving the vehicle with the express or implied permission of the owner or lessee, then the operator and the owner or lessee are both subject to this chapter, with the primary responsibility to be that of the owner or lessee.

If the person operating the vehicle at the time of the unlawful act or omission is not the owner or the lessee of the vehicle, that person is fully authorized to accept the citation or notice of infraction and execute the promise to appear on behalf of the owner or lessee. [1987 c 244 § 36.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.240 Relationship of department with other jurisdictions. Under the provisions of the IRP, the department may act in a quasi-agency relationship with other jurisdictions. The department may collect and forward applicable registration fees and taxes and applications to other jurisdictions on behalf of the applicant or another jurisdiction and may take other action that facilitates the administration of the plan. [1987 c 244 § 37.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.250 Authority of chapter. This chapter constitutes complete authority for the registration of fleet vehicles upon a proportional registration basis without reference to or application of any other statutes of this state except as expressly provided in this chapter. [1987 c 244 § 38.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.260 Alteration or forgery of cab card or letter of authority—Penalty. Any person who alters or forges or causes to be altered or forged any cab card, letter of authority, or other temporary authority issued by the department under this chapter or holds or uses a cab card, letter of authority, or other temporary authority, knowing the document to have been altered or forged, is guilty of a felony. [1987 c 244 § 39.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.270 Gross weight on vehicle. Every Washington-based motor vehicle registered under this chapter shall have the maximum gross weight or maximum combined gross weight for which the vehicle is licensed in this state, painted or stenciled in letters or numbers of contrasting color not less than two inches in height in a conspicuous place on the right and left sides of the vehicle. It is unlawful for the owner or operator of any motor vehicle to display a maxi-

imum gross weight or maximum combined gross weight other than that shown on the current cab card of the vehicle. [1990 c 250 § 77; 1987 c 244 § 40.]

Severability—1990 c 250: See note following RCW 46.16.301.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.280 Effect of other registration. Nothing contained in this chapter relating to proportional registration of fleet vehicles requires any vehicle to be proportionally registered if it is otherwise registered for operation on the highways of this state. [1987 c 244 § 41.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.290 Refusal, cancellation of application, cab card—Procedures, penalties. If the director or the director's designee determines at any time that an applicant for proportional registration of a vehicle or a fleet of vehicles is not entitled to a cab card for a vehicle or fleet of vehicles, the director may refuse to issue the cab card(s) or to license the vehicle or fleet of vehicles and may for like reason, after notice, and in the exercise of discretion, cancel the cab card(s) and license plate(s) already issued. The notice shall be served personally or sent by certified mail (registered mail for Canadian addresses), return receipt requested. If sent by mail, service is deemed to have been accomplished on the date the notice was deposited in the United States mail, postage prepaid, addressed to the owner of the vehicle in question at the owner's address as it appears in the proportional registration records of the department. It is then unlawful for any person to remove, drive, or operate the vehicle(s) until a proper certificate(s) of registration or cab card(s) has been issued. Any person removing, driving, or operating the vehicle(s) after the refusal of the director or the director's designee to issue a cab card(s), certificate(s) of registration, license plate(s), or the revocation thereof is guilty of a gross misdemeanor. At the discretion of the director or the director's designee, a vehicle that has been moved, driven, or operated in violation of this section may be impounded by the Washington state patrol, county sheriff, or city police in a manner directed for such cases by the chief of the Washington state patrol until proper registration and license plate have been issued. [1987 c 244 § 42.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.300 Appeal of suspension, revocation, cancellation, refusal. The suspension, revocation, cancellation, or refusal by the director, or the director's designee, of a license plate(s), certificate(s) of registration, or cab card(s) provided for in this chapter is conclusive unless the person whose license plate(s), certificate(s) of registration, or cab card(s) is suspended, revoked, canceled, or refused appeals to the superior court of Thurston county, or at the person's option if a resident of Washington, to the superior court of his or her county of residence, for the purpose of having the suspension, revocation, cancellation, or refusal of the license plate(s), certificate(s) of registration, or cab card(s) set aside. Notice of appeal shall be filed within ten calendar days after service of the notice of suspension, revocation, cancellation, or refusal. Upon the filing of the appeal, the court shall issue an order to the

director to show cause why the license(s) should not be granted or reinstated. The director shall respond to the order within ten days after the date of service of the order upon the director. Service shall be in the manner prescribed for service of summons and complaint in other civil actions. Upon the hearing on the order to show cause, the court shall hear evidence concerning matters related to the suspension, revocation, cancellation, or refusal of the license plate(s), certificate(s) of registration, or cab card(s) and shall enter judgment either affirming or setting aside the suspension, revocation, cancellation, or refusal. [1987 c 244 § 43.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.310 Application records—Preservation, contents, audit—Additional assessments, penalties, refunds. Any owner whose application for proportional registration has been accepted shall preserve the records on which the application is based for a period of four years following the preceding year or period upon which the application is based. These records shall be complete and shall include, but not be limited to, the following: Copies of proportional registration applications and supplements for all jurisdictions in which the fleet is prorated; proof of proportional or full registration with other jurisdictions; vehicle license or trip permits; temporary authorization permits; documents establishing the latest purchase year and cost of each fleet vehicle in ready-for-the-road condition; weight certificates indicating the unladen, ready-for-the-road, weight of each vehicle in the fleet; periodic summaries of mileage by fleet and by individual vehicles; individual trip reports, driver's daily logs, or other source documents maintained for each individual trip that provide trip dates, points of origin and destinations, total miles traveled, miles traveled in each jurisdiction, routes traveled, vehicle equipment number, driver's full name, and all other information pertinent to each trip. Upon request of the department, the owner shall make the records available to the department at its designated office for audit as to accuracy of records, computations, and payments. The department shall assess and collect any unpaid fees and taxes found to be due the state and provide credits or refunds for overpayments of Washington fees and taxes as determined in accordance with formulas and other requirements prescribed in this chapter. If the owner fails to maintain complete records as required by this section, the department shall attempt to reconstruct or reestablish such records. However, if the department is unable to do so and the missing or incomplete records involve mileages accrued by vehicles while they are part of the fleet, the department may assess an amount not to exceed the difference between the Washington proportional fees and taxes paid and one hundred percent of the fees and taxes. Further, if the owner fails to maintain complete records as required by this section, or if the department determines that the owner should have registered more vehicles in this state under this chapter, the department may deny the owner the right of any further benefits provided by this chapter until any final audit or assessment made under this chapter has been satisfied.

The department may audit the records of any owner and may make arrangements with agencies of other jurisdictions administering motor vehicle registration laws for joint audits

of any such owner. No assessment for deficiency or claim for credit may be made for any period for which records are no longer required. Any fees, taxes, penalties, or interest found to be due and owing the state upon audit shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount should have been paid until the date of payment. If the audit discloses a deliberate and willful intent to evade the requirements of payment under RCW 46.87.140, a penalty of ten percent shall also be assessed.

If the audit discloses that an overpayment to the state in excess of ten dollars has been made, the department shall certify the overpayment to the state treasurer who shall issue a warrant for the overpayment to the vehicle operator. Overpayments shall bear interest at the rate of eight percent per annum from the date on which the overpayment is incurred until the date of payment. [1996 c 91 § 2; 1993 c 307 § 15; 1987 c 244 § 44.]

Effective date—1996 c 91: See note following RCW 46.87.150.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.320 Departmental audits, investigations—Subpoenas. The department may initiate and conduct audits and investigations as may be reasonably necessary to establish the existence of any alleged violations of or noncompliance with this chapter or any rules adopted under it.

For the purpose of any audit, investigation, or proceeding under this chapter the director or any designee of the director may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, paper, correspondence, memoranda, agreements, or other documents or records that the department deems relevant or material to the inquiry.

In case of contumacy or refusal to obey a subpoena issued to any person, any court of competent jurisdiction upon application by the department, may issue an order requiring that person to appear before the director or the officer designated by the director to produce testimony or other evidence touching the matter under audit, investigation, or in question. Failure to obey an order of the court may be punishable by contempt. [1987 c 244 § 45.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.330 Assessments—When due, penalties—Reassessment—Petition, notice, service—Injunctions, writs of mandate restricted. An owner of proportionally registered vehicles against whom an assessment is made under RCW 46.87.310 may petition for reassessment thereof within thirty days after service of notice of the assessment upon the owner of the proportionally registered vehicles. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that time period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the petitioner has so requested in the petition, shall grant the petitioner an oral hearing and give the petitioner ten days notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassess-

ment becomes final thirty days after service upon the petitioner of notice of the decision.

Every assessment made under RCW 46.87.310 becomes due and payable at the time it is served on the owner. If the assessment is not paid in full when it becomes final, the department shall add a penalty of ten percent of the amount of the assessment.

Any notice of assessment, reassessment, oral hearing, or decision required by this section shall be served personally or by mail. If served by mail, service is deemed to have been accomplished on the date the notice was deposited in the United States mail, postage prepaid, addressed to the owner of the proportionally registered vehicles at the owner's address as it appears in the proportional registration records of the department.

No injunction or writ of mandate or other legal or equitable process may be issued in any suit, action, or proceeding in any court against any officer of the state to prevent or enjoin the collection under this chapter of any fee or tax or any amount of fee or tax required to be collected, except as specifically provided for in chapter 34.05 RCW. [1996 c 91 § 3; 1987 c 244 § 46.]

Effective date—1996 c 91: See note following RCW 46.87.150.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.335 Mitigation of assessments. Except in the case of violations of filing a false or fraudulent application, if the department deems mitigation of penalties, fees, and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter. [1994 c 262 § 15; 1991 c 339 § 5.]

46.87.340 Assessments—Lien for nonpayment. If an owner of proportionally registered vehicles liable for the remittance of fees and taxes imposed by this chapter fails to pay the fees and taxes, the amount thereof, including any interest, penalty, or addition to the fees and taxes together with any additional costs that may accrue, constitutes a lien in favor of the state upon all franchises, property, and rights to property, whether the property is employed by the person for personal or business use or is in the hands of a trustee, receiver, or assignee for the benefit of creditors, from the date the fees and taxes were due and payable until the amount of the lien is paid or the property is sold to pay the lien. The lien has priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that the lien is not valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached before the time the department has filed and recorded notice of the lien as provided in this chapter.

In order to avail itself of the lien created by this section, the department shall file with any county auditor a statement of claim and lien specifying the amount of delinquent fees and taxes, penalties, and interest claimed by the department. From the time of filing for record, the amount required to be

paid constitutes a lien upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by the person in the county. Any lien as provided in this section may also be filed in the office of the secretary of state. Filing in the office of the secretary of state is of no effect, however, until the lien or a copy of it has been filed with the county auditor in the county where the property is located. When a lien is filed in compliance with this section and with the secretary of state, the filing has the same effect as if the lien had been duly filed for record in the office of each county auditor of this state. [1993 c 307 § 16; 1987 c 244 § 47.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.350 Delinquent obligations—Notice—Restriction on credits or property—Default judgments—Lien. If an owner of proportionally registered vehicles for which an assessment has become final is delinquent in the payment of an obligation imposed under this chapter, the department may give notice of the amount of the delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to the vehicle owner or owing any debts to the owner, at the time of the receipt by them of the notice. Thereafter, a person so notified shall neither transfer nor make other disposition of those credits, personal property, or debts until the department consents to a transfer or other disposition. A person so notified shall, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall forthwith deliver such credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court upon application of the department and after the time to answer the notice has expired, to render judgment by default against the person for the full amount claimed by the department in the notice to withhold and deliver, together with costs.

Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice. [1994 c 262 § 16; 1987 c 244 § 48.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.360 Delinquent obligations—Collection by department—Seizure of property, notice, sale. Whenever the owner of proportionally registered vehicles is delinquent in the payment of an obligation imposed under this chapter, and the delinquency continues after notice and demand for payment by the department, the department may proceed to collect the amount due from the owner in the following manner: The department shall seize any property subject to the lien of the fees, taxes, penalties, and interest and sell it at public auction to pay the obligation and any and all costs that may have been incurred because of the seizure and sale.

Notice of the intended sale and its time and place shall be given to the delinquent owner and to all persons appearing of record to have an interest in the property. The notice shall be given in writing at least ten days before the date set for the sale by registered or certified mail addressed to the owner as appearing in the proportional registration records of the department and, in the case of any person appearing of record to have an interest in such property, addressed to that person at their last known residence or place of business. In addition, the notice shall be published at least ten days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper in the county, the notice shall be posted in three public places in the county for a period of ten days. The notice shall contain a description of the property to be sold, a statement of the amount due under this chapter, the name of the owner of the proportionally registered vehicles, and the further statement that unless the amount due is paid on or before the time fixed in the notice the property will be sold in accordance with law.

The department shall then proceed to sell the property in accordance with law and the notice, and shall deliver to the purchaser a bill of sale or deed that vests title in the purchaser. If upon any such sale the moneys received exceed the amount due to the state under this chapter from the delinquent owner, the excess shall be returned to the delinquent owner and his receipt obtained for it. The department may withhold payment of the excess to the delinquent owner if a person having an interest in or lien upon the property has filed with the department their notice of the lien or interest before the sale, pending determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the delinquent owner is not available, the department shall deposit the excess with the state treasurer as trustee for the delinquent owner. [1987 c 244 § 49.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.370 Warrant for final assessments—Lien on property. Whenever any assessment has become final in accordance with this chapter, the department may file with the clerk of any county within this state a warrant in the amount of fees, taxes, penalties, interest, and a filing fee of five dollars. The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant the name of the delinquent owner of proportionally registered vehicles mentioned in the warrant, the amount of the fees, taxes, penalties, interest, and filing fee, and the date when the warrant was filed. The aggregate amount of the warrant as docketed constitutes a lien upon the title to, and interest in, all real and personal property of the named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of the clerk. A warrant so docketed is sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of civil judgment wholly or partially unsatisfied. The clerk of the court

is entitled to a filing fee of five dollars, which shall be added to the amount of the warrant. [1987 c 244 § 50.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.380 Delinquent obligations—Collection by attorney general. Whenever an owner of proportionally registered vehicles is delinquent in the payment of an obligation under this chapter the department may transmit notices of the delinquency to the attorney general who shall at once proceed to collect by appropriate legal action the amount due the state from the delinquent owner.

In a suit brought to enforce the rights of the state under this chapter, a certificate by the department showing the delinquency is prima facie evidence of the amount of the obligation, of the delinquency thereof, and of compliance by the department with all provisions of this chapter relating to the obligation. [1987 c 244 § 51.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.390 Remedies cumulative. The remedies of the state in this chapter are cumulative, and no action taken by the department may be construed to be an election on the part of the state or any of its officers to pursue any remedy under this chapter to the exclusion of any other remedy provided for in this chapter. [1987 c 244 § 52.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.400 Civil immunity. (1) The director, the state of Washington, and its political subdivisions are immune from civil liability arising from the issuance of a vehicle license to a nonroadworthy vehicle.

(2) No suit or action may be commenced or prosecuted against the director or the state of Washington by reason of any act done or omitted to be done in the administration of the duties and responsibilities imposed upon the director under this chapter. [1987 c 244 § 53.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.900 Severability—1985 c 380. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1985 c 380 § 26.]

46.87.901 Effective date—1986 c 18; 1985 c 380. Chapter 380, Laws of 1985 and this 1986 act shall take effect on January 1st 1987. The new fees required by RCW 46.16.070, *46.16.080, 46.16.090, and 46.16.085 shall be assessed beginning with the renewal of vehicle registrations with a December 1986 expiration date or later and all initial registrations that become effective on or after January 1, 1987. The director of the department of licensing may immediately take such steps as are necessary to insure that this act is implemented on its effective date. [1986 c 18 § 27; 1985 c 380 § 25.]

***Reviser's note:** RCW 46.16.080 was repealed by 1994 c 262 § 28, effective July 1, 1994.

46.87.910 Short title. This chapter may be known and cited as "Proportional Registration." [1987 c 244 § 54.]

WASHINGTON MODEL TRAFFIC ORDINANCE

Sections

46.90.005 Purpose.

46.90.010 Adoption of model traffic ordinance—Amendments.

46.90.005 Purpose. The purpose of this chapter is to encourage highway safety and uniform traffic laws by authorizing the department of licensing to adopt a comprehensive compilation of sound, uniform traffic laws to serve as a guide which local authorities may adopt by reference or any part thereof, including all future amendments or additions thereto. Any local authority which adopts that body of rules by reference may at any time exclude any section or sections of those rules that it does not desire to include in its local traffic ordinance. The rules are not intended to deny any local authority its legislative power, but rather to enhance safe and efficient movement of traffic throughout the state by having current, uniform traffic laws available. [1993 c 400 § 1; 1975 1st ex.s. c 54 § 1.]

Effective dates—1993 c 400: "(1) Sections 3 through 5 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 15, 1993].

The addition of any new section to, or amendment or repeal of any section in, the model traffic ordinance is deemed to amend any city, town, or county, ordinance which has adopted by reference the model traffic ordinance or any part thereof, and it shall not be necessary for the legislative authority of any city, town, or county to take any action with respect to such addition, amendment, or repeal notwithstanding the provisions of RCW 35.21.180, 35A.12.140, 35A.13.180, and 36.32.120(7). MOTORCYCLE DEALERS' FRANCHISE ACT

(Revised November 3, 1988, under the Washington Supreme Court decision in *Washington State Motorcycle Dealers Association, Et al, v. The State of Washington*, 763 P.2d 442, 111 Wash.2d 667 (1988), which declared invalid the five item vetoes to chapter 472, Laws of 1985 (Engrossed Substitute Senate Bill 3333). 46.94.001 Short title. This chapter shall be known as the motorcycle dealers' franchise act. [1985 c 472 § 1.]

46.94.005 Legislative intent. The legislature recognizes it is in the best public interest for manufacturers and dealers of motorcycles to conduct business with each other in a fair, efficient, and competitive manner. The legislature declares the public interest is best served by dealers being assured of the ability to manage their business enterprises under a contractual obligation with manufacturers where dealers do not experience unreasonable interference, receive adequate allocations of merchandise in a timely manner at competitive prices, and transfer ownership of their business without undue constraints. It is the intent of the legislature to impose a regulatory scheme and to regulate competition in the motorcycle industry to the extent necessary to balance fairness and efficiency. These actions will assure the public that motorcycle dealers will devote their best competitive efforts and resources to the sale and service of the

manufacturer's products which the dealer has been granted the right to sell and service. [1985 c 472 § 2.]

A Motorcycle dealer also may name in a notarized statement any person as the designated family member for the purposes of receiving an interest in the motorcycle dealership. Title 11 RCW applies to this chapter. However, in cases of conflict, the notarized inter vivos designation prevails over testamentary and intestate succession. Notarized inter vivos designations under this subsection are not codicils to wills.

(8) "Franchise" means an oral or written contract, to include a dealer agreement, either expressed or implied, between a franchisor and a motorcycle dealer which purports to fix the legal rights and liabilities between the parties and under which (a) the dealer is granted the right to purchase and resell motorcycles manufactured, distributed, or imported by the franchisor; (b) the dealer's business is associated with the trademark, trade name, commercial symbol, or advertisement designating the franchisor or the products distributed by the franchisor; and (c) the dealer's business relies on the franchisor for a continued supply of motorcycles, parts, and accessories.

(9) "Franchisor" means any person who enters into a franchise with a motorcycle dealer.

(10) "Manufacturer" means any person, firm, association, corporation, or trust that manufactures or provides assemblies for motorcycles.

"Motorcycle" excludes farm tractors, golf carts,

firefighting equipment, any motor vehicle designed solely for industrial purposes, and lawnmowers.

(12) "Motorcycle dealer" or "dealer" means a person operating under a dealer agreement or franchise with a franchisor who is engaged regularly in the business of buying, selling, exchanging, offering, brokering, or leasing with an option to purchase new or used motorcycles in the state, with a place of business in the state.

(13) "New motorcycle" means a motorcycle that has been sold or transferred to a motorcycle dealer and that has not been used for other than demonstration purposes, and on which the original title has not been issued from the motorcycle dealer. The term includes motorcycles not of the current model year comprising part of the dealer's inventory.

(16) "Relevant market area" means a ten-mile radius around a proposed place of business. [1985 c 472 § 3.]

Reviser's note: See note at beginning of chapter digest.

46.94.020 Prohibited trade practices. Acts or conduct described in this section constitute prohibited trade practices that cannot be waived. It is a prohibited trade practice for a franchisor or its manufacturers, distributors, subsidiaries, or other agents:

(1) To require, coerce or attempt to require, or coerce, either directly or indirectly, any motorcycle dealer to:

(a) Accept, buy, or order any motorcycle, part or accessory, or any other commodity or service not voluntarily ordered, or requested, or to buy, order, or pay anything of value for such items in order to obtain any motorcycle part, accessory, or other commodity which has been voluntarily ordered or requested;

(b) Order or accept delivery of any motorcycle with special features, accessories, or equipment not included in the list price of the motorcycle as advertised by the manufacturer, except items which have been voluntarily requested or ordered by the dealer, and except items required by law;

(c) Enter into any agreement or understanding resulting in a reduction of the dealer's allocation of motorcycles for reasons other than reduced production levels causing uniformly and proportionally applied reductions to all dealers;

(d) Enter into any agreement or sales promotion program by threatening to terminate the franchise of the dealer;

(e) Refrain from participation in the management, investment, acquisition, or sale of any other related product or product line of motor vehicles, parts, or accessories;

(f) Enter into any agreement violating this chapter; or

(g) Enter into an agreement by which the franchisor, manufacturer, factory branch, factory representative, distributor, distributor branch, or distributor representative can directly solicit the dealer's customers.

(2) To terminate, refuse to renew, fail to extend, or fail to renew any franchise without good cause. Good cause includes but is not limited to:

(a) The amount of business transacted by the dealer as compared to the amount of business available to the dealer;

(b) The investment necessarily made and obligations necessarily incurred by the dealer in the performance of the franchise;

(c) The degree of the dealer's investment, including but not limited to the dealer's purchase or lease of real property for the dealership, the training given to the dealer's employees, and the amount of equipment purchased for the dealership;

(d) The adequacy of the dealer's new motorcycle sales and service facilities, equipment, and parts;

(e) The qualifications and performance of the management, sales, and service personnel to provide the consumer with reasonably good service and care of new motorcycles;

(f) The failure of the dealer to substantially comply in good faith with the reasonable requirements of the franchise;

(g) The adequacy of the franchisor's actual quantities delivered of motorcycles, parts, and accessories compared to quantities promised by the franchisor;

(h) The effect on the retail motorcycle business and the consuming public in the dealer's market area;

(i) Whether the dealer has exercised prudent business judgment.

The dealer shall be notified, in writing, not less than ninety days before termination or nonrenewal with reasons for the actions. If the termination or nonrenewal is based on termination or discontinuance of the product line, the dealer shall be notified not less than one hundred eighty days prior to termination or nonrenewal. All existing franchises shall continue operation under a newly appointed distributor upon the termination of an existing distributor unless a mutual agreement of termination is filed between the new distributor and the affected dealer.

(3) To require a change in capital structure, or means of financing, if the dealer at all times meets the reasonable, written, and uniformly applied capital standards determined by the manufacturer, franchisor, or distributor;

(4) To prevent or attempt to prevent a dealer from making reasonable changes in the capital structure of a dealership or the means by which the dealership is financed if the dealer meets the reasonable, written, and uniformly applied capital requirements determined by the manufacturer, franchisor, or distributor;

(5) To unreasonably require a change in the location of the dealership or any substantial alterations to the place of business;

(6) To condition renewal or extension of the franchise on substantial renovation of the existing place of business or on the construction, purchase, acquisition, or lease of a new place of business unless written notice is first provided one hundred eighty days prior to the date of renewal or extension and the franchisor demonstrates the reasonableness of the requested actions. The franchisor shall agree to supply the dealer with an adequate quantity of motorcycles, parts, and

accessories to meet the sales level necessary to support the overhead resulting from substantial renovation, construction, acquisition, or lease of a new place of business;

(7) To adopt, establish, or implement a plan or system, or to modify an existing plan or system, for the distribution or allocation of motorcycles which is arbitrary, in bad faith, or unconscionable and which damages the dealer or the dealer's customers;

(8) To fail or refuse to disclose to the dealer, after written request, the basis upon which new motorcycles of the same line are currently or will in the future be allocated or distributed to dealers;

(9) To fail or refuse to disclose to dealers, after written request, the total number of new motorcycles of a given model which the manufacturer, franchisor, or distributor has sold during the current model year within the dealer's marketing district, zone, or region;

(10) To refuse or fail to deliver any motorcycle, part, or accessory in reasonable quantities, and within a reasonable time after receipt of the order from the dealer, that is specifically advertised as being immediately available. It is not a prohibited trade practice when the failure to deliver is caused by an act of God, strike, material shortage, or other cause over which the manufacturer, distributor, or franchisor has no control;

(11) To offer a renewal, replacement, or succeeding franchise containing terms substantially modifying the sales and service obligations or capital requirements of the motorcycle dealer, other than as provided for in this chapter;

(12) To sell or lease or offer to sell or lease to a dealer a new motorcycle, including any motorcycle under a sales promotion plan, at a lower price than offered or sold to another similarly situated dealer for the same model, except where the dealer is offered, sold, or leased a new motorcycle at a discount in exchange for providing valuable services to the franchisor, manufacturer, or distributor and except in those instances where a dealer orders motorcycles in sufficient numbers to qualify for volume discounts and as long as discounts are available to all dealers;

(13) To prevent, attempt to prevent, or unreasonably disapprove any motorcycle dealer from changing executive management control of the dealer's motorcycle business, unless the change results in control by a person not of good moral character or who does not meet the manufacturer, distributor, or franchisor's existing and reasonable, written, and uniformly applied capital standards. The dealer shall be given written notice of the reasons for rejection within thirty days of receipt of notice from the dealer of a proposed change;

(14) To reject, prevent, or attempt to prevent any person from selling or transferring a controlling interest to any other person unless the buyer or transferee does not qualify under appropriate state law as a licensed dealer, is not of good moral character, does not meet the manufacturer, distributor, or franchisor's existing and reasonable, written, and uniformly applied capital standards, or does not meet the written and uniformly applied manufacturer, distributor, or franchisor business experience standards for the market area. The dealer shall be given written notice setting forth the reasons for rejection of the proposed sale or transfer within thirty days of notice by the dealer of the sale or transfer;

(15) To fail to hold harmless and indemnify any motorcycle dealer against losses, including lawsuits and court costs, arising from: (a) The manufacture or performance of any motorcycle, part, or accessory if the lawsuit involves representations by the manufacturer, distributor, or franchisor on the manufacture or performance of a motorcycle without negligence on the part of the motorcycle dealer; (b) damage to merchandise in transit where the manufacturer, distributor, or franchisor specifies the carrier; (c) the manufacturer, distributor, or franchisor's failure to jointly defend product liability suits concerning the motorcycle, part, or accessory provided to the dealer; or (d) any other act performed by the manufacturer, distributor, or franchisor;

(16) To unfairly prevent or attempt to prevent a motorcycle dealer from receiving reasonable compensation for the value of a motorcycle;

(17) To release confidential information provided by the motorcycle dealer to the manufacturer, distributor, or franchisor without the written prior consent of the dealer;

(18) To fail to pay to a motorcycle dealer, within a reasonable time following receipt of a valid claim, any payment agreed to be made by the manufacturer, distributor, or franchisor on grounds that a new motorcycle, or a prior year's model, is in the dealer's inventory at the time of introduction of new model motorcycles;

(19) To deny any dealer the right of free association with any other dealer for any lawful purpose;

(20) To artificially and intentionally create a shortage of any motorcycle make, model, or series that results in the inequitable distribution of the make, model, or series to dealers;

(21) To charge increased prices without having given written notice to the dealers at least fifteen days prior to the effective date of the price increases;

(22) To permit factory authorized warranty service to be performed upon motorcycles or accessories by persons other than their franchised motorcycle dealers;

(23) To unreasonably interfere with a dealer's performance under the franchise agreement's sale quota by withholding sufficient deliveries of motorcycles; or

(24) To own, operate, or control any motorcycle dealer or place of business selling at retail in the state. [1985 c 472 § 4.]

Reviser's note: See note at beginning of chapter digest.

46.94.030 Succession to business by designated family member. (1) The manufacturer, distributor, or franchisor shall not prevent, attempt to prevent, refuse to give effect to, attempt to refuse to give effect to, or in any way hinder the succession to the ownership, management, control, or continuance of a dealer's motorcycle business by a designated family member upon the death or incapacity of the dealer, except as otherwise provided in this chapter.

(2) A designated family member, at his or her discretion, may succeed the dealer in ownership or management control under the existing agreement. The designated family member shall provide notice to the franchisor, in writing, of the intention to succeed to the franchise within one hundred twenty days after the dealer's death or incapacity. The designated family member shall agree to be bound by the terms of the original franchise. The designated family mem-

ber shall meet the reasonable, written, and uniformly applied conditions applied by the franchisor under the existing franchise.

(3) A designated family member may only be rejected for succession on reasonable grounds. The franchisor shall provide written notice to the designated family member within sixty days of receipt of notice of the intention to succeed. The notice shall state the specific grounds for refusal, termination, or nonrenewal of the franchise and shall not take effect less than ninety days after receipt of the notice by the designated family member. If notice is not served within the designated time period, the franchise shall continue in effect with the designated family member.

(4) The designated family member may appeal to the appropriate court within ninety days of receipt of notice of refusal, termination, or nonrenewal. The franchisor has the burden of proving reasonable grounds. A designated family member prevailing in such action shall recover reasonable costs and attorney's fees.

(5) A dealer may designate any person as the recipient of the franchise by making a notarized statement in accordance with section 3(2) of this act. The statement shall be filed with the franchisor. The statement shall be controlling and binding on all heirs and testamentary successors. The recipient shall agree to be bound by the terms of the original franchise. The recipient shall meet the reasonable, written, and uniformly applied conditions applied by the franchisor under the existing franchise. [1985 c 472 § 5.]

Reviser's note: See note at beginning of chapter digest.

46.94.040 Compensation for warranty, delivery, preparation expenses. (1) The manufacturer, distributor, or franchisor shall compensate the dealer for labor, parts, and other expenses incurred to comply with the manufacturer, distributor, or franchisor's warranty agreements, and for work and services performed in connection with delivery and preparation of motorcycles received from the manufacturer, distributor, or franchisor. The compensation shall not be less than the rates reasonably charged by the dealer for like services and parts to retail customers.

(2) All claims for compensation made by the dealer shall be paid within thirty days after approval and shall be approved or disapproved within thirty days of their receipt by the manufacturer, distributor, or franchisor.

Any denial of claim shall be in writing and shall set forth the specific grounds for denial.

(3) A claim that has been approved and paid shall not be charged back to the dealer unless it is established the claim was false or fraudulent, that the repairs were not properly made or were unnecessary to correct the defective condition, or the dealer failed to reasonably substantiate the claim. [1985 c 472 § 8.]

Reviser's note: See note at beginning of chapter digest.

46.94.050 Prohibited financial practices. No manufacturer, distributor, or franchisor shall require or coerce any dealer to sell, assign, or transfer a retail sales installment contract, or require the dealer to act as an agent for any manufacturer, distributor, or franchisor in the securing of a promissory note, a security agreement given in connection with the sale of a motorcycle, or securing of a

policy of insurance for a motorcycle. The manufacturer, distributor, or franchisor may not condition delivery of motorcycles, parts, or accessories upon the dealer's assignment, sale, or other transfer of sales installment contracts to specific finance companies. [1985 c 472 § 9.]

46.94.060 Civil remedies. Any person injured by a violation of this chapter may bring a civil action in a court of competent jurisdiction to enjoin further violations or to recover damages. Injunctive relief may be granted in an action brought under this chapter without the dealer being required to post a bond if, in the opinion of the court, there exists a likelihood the dealer may prevail upon the merits. [1985 c 472 § 10.]

Reviser's note: See note at beginning of chapter digest.

46.94.900 Severability—1985 c 472. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1985 c 472 § 14.]

46.96.010 Legislative findings. The legislature finds and declares that the distribution and sale of motor vehicles in this state vitally affect the general economy of the state and the public interest and public welfare, that provision for warranty service to motor vehicles is of substantial concern to the people of this state, that the maintenance of fair competition among dealers and others is in the public interest, and that the maintenance of strong and sound dealerships is essential to provide continuing and necessary reliable services to the consuming public in this state and to provide stable employment to the citizens of this state. The legislature further finds that there is a substantial disparity in

bargaining power between automobile manufacturers and their dealers, and that in order to promote the public interest and the public welfare, and in the exercise of its police power, it is necessary to regulate the relationship between motor vehicle dealers and motor vehicle manufacturers, importers, distributors, and their representatives doing business in this state, not only for the protection of dealers but also for the benefit for the public in assuring the continued availability and servicing of automobiles sold to the public.

The legislature recognizes it is in the best interest for manufacturers and dealers of motor vehicles to conduct business with each other in a fair, efficient, and competitive manner. The legislature declares the public interest is best served by dealers being assured of the ability to manage their business enterprises under a contractual obligation with manufacturers where dealers do not experience unreasonable interference and are assured of the ability to transfer ownership of their business without undue constraints. It is the intent of the legislature to impose a regulatory scheme and to regulate competition in the motor vehicle industry to the extent necessary to balance fairness and efficiency. These actions will permit motor vehicle dealers to better serve consumers and allow dealers to devote their best competitive efforts and resources to the sale and services of the manufacturer's products to consumers. [1989 c 415 § 1.]

46.96.020 Definitions. In addition to the definitions contained in RCW 46.70.011, which are incorporated by reference into this chapter, the definitions set forth in this section apply only for the purposes of this chapter.

(1) A "new motor vehicle" is a vehicle that has not been titled by a state and ownership of which may be transferred on a manufacturer's statement of origin (MSO).

(2) "New motor vehicle dealer" means a motor vehicle dealer engaged in the business of buying, selling, exchanging, or otherwise dealing in new motor vehicles or new and used motor vehicles at an established place of business, under a franchise, sales and service agreement, or contract with the manufacturer of the new motor vehicles. However, the term "new motor vehicle dealer" does not include a miscellaneous vehicle dealer as defined in RCW 46.70.011(3)(c) or a motorcycle dealer as defined in chapter 46.94 RCW.

(3) "Franchise" means one or more agreements, whether oral or written, between a manufacturer and a new motor vehicle dealer, under which the new motor vehicle dealer is authorized to sell, service, and repair new motor vehicles, parts, and accessories under a common name, trade name, trademark, or service mark of the manufacturer.

"Franchise" includes an oral or written contract and includes a dealer agreement, either expressed or implied, between a manufacturer and a new motor vehicle dealer that purports to fix the legal rights and liabilities between the parties and under which (a) the dealer is granted the right to purchase and resell motor vehicles manufactured, distributed, or imported by the manufacturer; (b) the dealer's business is associated with the trademark, trade name, commercial symbol, or advertisement designating the franchisor or the products distributed by the manufacturer; and (c) the dealer's

business relies on the manufacturer for a continued supply of motor vehicles, parts, and accessories.

(4) "Good faith" means honesty in fact and fair dealing in the trade as defined and interpreted in RCW 62A.2-103.

(5) "Designated successor" means:

(a) The spouse, biological or adopted child, grandchild, parent, brother, or sister of the owner of a new motor vehicle dealership who, in the case of the owner's death, is entitled to inherit the ownership interest in the new motor vehicle dealership under the terms of the owner's will or similar document, and if there is no such will or similar document, then under applicable intestate laws;

(b) A qualified person experienced in the business of a new motor vehicle dealer who has been nominated by the owner of a new motor vehicle dealership as the successor in a written, notarized, and witnessed instrument submitted to the manufacturer; or

(c) In the case of an incapacitated owner of a new motor vehicle dealership, the person who has been appointed by a court as the legal representative of the incapacitated owner's property.

(6) "Owner" means a person holding an ownership interest in the business entity operating as a new motor vehicle dealer and who is the designated dealer in the new motor vehicle franchise agreement.

(7) "Person" means every natural person, partnership, corporation, association, trust, estate, or any other legal entity. [1989 c 415 § 2.]

46.96.030 Termination, cancellation, nonrenewal of franchise restricted. Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, no manufacturer may terminate, cancel, or fail to renew a franchise with a new motor vehicle dealer, unless the manufacturer has complied with the notice requirements of RCW 46.96.070 and an administrative law judge has determined, if requested in writing by the new motor vehicle dealer within the applicable time period specified in RCW 46.96.070 (1), (2), or (3), after hearing, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith, as defined in this chapter, regarding the termination, cancellation, or nonrenewal. [1989 c 415 § 3.]

46.96.040 Determination of good cause, good faith—Petition, notice, decision, appeal. A new motor vehicle dealer who has received written notification from the manufacturer of the manufacturer's intent to terminate, cancel, or not renew the franchise may file a petition with the department for a determination as to the existence of good cause and good faith for the termination, cancellation, or nonrenewal of a franchise. The petition shall contain a short statement setting forth the reasons for the dealer's objection to the termination, cancellation, or nonrenewal of the franchise. Upon the filing of the petition and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely petition has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The franchise in question shall continue in full force and effect pending the administrative law judge's decision. If the decision of the

administrative law judge terminating, canceling, or failing to renew a dealer's franchise is appealed by a dealer, the franchise in question shall continue in full force and effect until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review. [1989 c 415 § 4.]

46.96.050 Determination of good cause, good faith—Hearing, decision, procedures—Judicial review.

(1) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a petition is filed. If the termination, cancellation, or nonrenewal is under RCW 46.96.070(2), the administrative law judge shall give the proceeding priority consideration and shall render a final decision not later than sixty days after a petition is filed.

(2) The administrative law judge shall conduct the hearing as an adjudicative proceeding in accordance with the procedures provided for in the Administrative Procedure Act, chapter 34.05 RCW. The administrative law judge shall render the final decision and shall enter a final order. Except as otherwise provided in RCW 34.05.446 and 34.05.449, all hearing costs shall be borne on an equal basis by the parties to the hearing.

(3) A party to a hearing under this chapter may be represented by counsel. A party to a hearing aggrieved by the final order of the administrative law judge concerning the termination, cancellation, or nonrenewal of a franchise may seek judicial review of the order in the superior court in the manner provided for in RCW 34.05.510 through 34.05.598. A petitioner for judicial review need not exhaust all administrative appeals or administrative review processes as a prerequisite for seeking judicial review under this section. [1989 c 415 § 5.]

46.96.060 Good cause, what constitutes—Burden of proof. (1) Notwithstanding the terms of a franchise or the terms of a waiver, and except as otherwise provided in RCW 46.96.070(2) (a) through (d), good cause exists for termination, cancellation, or nonrenewal when there is a failure by the new motor vehicle dealer to comply with a provision of the franchise that is both reasonable and of material significance to the franchise relationship, if the new motor vehicle dealer was notified of the failure within one hundred eighty days after the manufacturer first acquired knowledge of the failure and the new motor vehicle dealer did not correct the failure after being requested to do so.

If, however, the failure of the new motor vehicle dealer relates to the performance of the new motor vehicle dealer in sales, service, or level of customer satisfaction, good cause is the failure of the new motor vehicle dealer to comply with reasonable performance standards determined by the manufacturer in accordance with uniformly applied criteria, and:

(a) The new motor vehicle dealer was advised, in writing, by the manufacturer of the failure;

(b) The notice under this subsection stated that notice was provided of a failure of performance under this section;

(c) The manufacturer provided the new motor vehicle dealer with specific, reasonable goals or reasonable performance standards with which the dealer must comply, together with a suggested timetable or program for attaining those goals or standards, and the new motor vehicle dealer was given a reasonable opportunity, for a period not less than one hundred eighty days, to comply with the goals or standards; and

(d) The new motor vehicle dealer did not substantially comply with the manufacturer's performance standards during that period and the failure to demonstrate substantial compliance was not due to market or economic factors within the new motor vehicle dealer's relevant market area that were beyond the control of the dealer.

(2) The manufacturer has the burden of proof of establishing good cause and good faith for the termination, cancellation, or nonrenewal of the franchise under this section. [1989 c 415 § 6.]

46.96.070 Notice of termination, cancellation, or nonrenewal. Before the termination, cancellation, or nonrenewal of a franchise, the manufacturer shall give written notification to both the department and the new motor vehicle dealer. The notice shall be by certified mail or personally delivered to the new motor vehicle dealer and shall state the intention to terminate, cancel, or not renew the franchise, the reasons for the termination, cancellation, or nonrenewal, and the effective date of the termination, cancellation, or nonrenewal. The notice shall be given:

(1) Not less than ninety days before the effective date of the termination, cancellation, or nonrenewal;

(2) Not less than fifteen days before the effective date of the termination, cancellation, or nonrenewal with respect to any of the following that constitute good cause for termination, cancellation, or nonrenewal:

(a) Insolvency of the new motor vehicle dealer or the filing of any petition by or against the new motor vehicle dealer under bankruptcy or receivership law;

(b) Failure of the new motor vehicle dealer to conduct sales and service operations during customary business hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the new motor vehicle dealer;

(c) Conviction of the new motor vehicle dealer, or principal operator of the dealership, of a felony punishable by imprisonment; or

(d) Suspension or revocation of a license that the new motor vehicle dealer is required to have to operate the new motor vehicle dealership where the suspension or revocation is for a period in excess of thirty days;

(3) Not less than one hundred eighty days before the effective date of termination, cancellation, or nonrenewal, where the manufacturer intends to discontinue sale and distribution of the new motor vehicle line. [1989 c 415 § 7.]

46.96.080 Payments by manufacturer to dealer for inventory, equipment, etc. (1) Upon the termination, cancellation, or nonrenewal of a franchise by the manufac-

turer under this chapter, the manufacturer shall pay the new motor vehicle dealer, at a minimum:

(a) Dealer cost plus any charges by the manufacturer for distribution, delivery, and taxes, less all allowances paid or credited to the dealer by the manufacturer, of unused, undamaged, and unsold new motor vehicles in the new motor vehicle dealer's inventory that were acquired from the manufacturer or another new motor vehicle dealer of the same line make within the previous twelve months;

(b) Dealer cost for all unused, undamaged, and unsold supplies, parts, and accessories in original packaging, except that in the case of sheet metal, a comparable substitute for original packaging may be used, if the supply, part, or accessory was acquired from the manufacturer or from another new motor vehicle dealer ceasing operations as a part of the new motor vehicle dealer's initial inventory as long as the supplies, parts, and accessories appear in the manufacturer's current parts catalog, list, or current offering;

(c) Dealer cost for all unused, undamaged, and unsold inventory, whether vehicles, parts, or accessories, the purchase of which was required by the manufacturer;

(d) The fair market value of each undamaged sign owned by the new motor vehicle dealer that bears a common name, trade name, or trademark of the manufacturer, if acquisition of the sign was recommended or required by the manufacturer and the sign is in good and usable condition less reasonable wear and tear, and has not been depreciated by the dealer more than fifty percent of the value of the sign;

(e) The fair market value of all equipment, furnishings, and special tools owned or leased by the new motor vehicle dealer that were acquired from the manufacturer or sources approved by the manufacturer and that were recommended or required by the manufacturer and are in good and usable condition, less reasonable wear and tear. However, if the equipment, furnishings, or tools are leased by the new motor vehicle dealer, the manufacturer shall pay the new motor vehicle dealer such amounts that are required by the lessor to terminate the lease under the terms of the lease agreement; and

(f) The cost of transporting, handling, packing, and loading of new motor vehicles, supplies, parts, accessories, signs, special tools, equipment, and furnishings.

To the extent the franchise agreement provides for payment or reimbursement to the new motor vehicle dealer in excess of that specified in this section, the provisions of the franchise agreement shall control.

(2) The manufacturer shall pay the new motor vehicle dealer the sums specified in subsection (1) of this section within ninety days after the tender of the property, if the new motor vehicle dealer has clear title to the property and is in a position to convey that title to the manufacturer. [1989 c 415 § 8.]

46.96.090 Payments by manufacturer for dealership facilities. (1) In the event of a termination, cancellation, or nonrenewal under this chapter, except for termination, cancellation, or nonrenewal under RCW 46.96.070(2), the manufacturer shall, at the request and option of the new motor vehicle dealer, also pay to the new motor vehicle dealer:

(a) A sum equivalent to rent for the unexpired term of the lease or one year, whichever is less, or such longer term as provided in the franchise, if the new motor vehicle dealer is leasing the new motor vehicle dealership facilities from a lessor other than the manufacturer; or

(b) A sum equivalent to the reasonable rental value of the new motor vehicle dealership facilities for one year or until the facilities are leased or sold, whichever is less, if the new motor vehicle dealer owns the new motor vehicle dealership facilities.

(2) The rental payment required under subsection (1) of this section is only required to the extent that the facilities were used for activities under the franchise and only to the extent the facilities were not leased for unrelated purposes. If payment under subsection (1) of this section is made, the manufacturer is entitled to possession and use of the new motor vehicle dealership facilities for the period rent is paid. [1989 c 415 § 9.]

46.96.100 Mitigation of damages. RCW 46.96.030 through 46.96.090 do not relieve a new motor vehicle dealer from the obligation to mitigate the dealer's damages upon termination, cancellation, or nonrenewal of the franchise. [1989 c 415 § 10.]

46.96.110 Designated successor to franchise ownership. (1) Notwithstanding the terms of a franchise, an owner may appoint a designated successor to succeed to the ownership of the new motor vehicle dealer franchise upon the owner's death or incapacity.

(2) Notwithstanding the terms of a franchise, a designated successor of a deceased or incapacitated owner of a new motor vehicle dealer franchise may succeed to the ownership interest of the owner under the existing franchise, if:

(a) In the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5)(a), but who is not experienced in the business of a new motor vehicle dealer, the person will employ an individual who is qualified and experienced in the business of a new motor vehicle dealer to help manage the day-to-day operations of the motor vehicle dealership; or in the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5) (b) or (c), the person is qualified and experienced in the business of a new motor vehicle dealer and meets the normal, reasonable, and uniformly applied standards for grant of an application as a new motor vehicle dealer by the manufacturer; and

(b) The designated successor furnishes written notice to the manufacturer of his or her intention to succeed to the ownership of the new motor vehicle dealership within sixty days after the owner's death or incapacity; and

(c) The designated successor agrees to be bound by all terms and conditions of the franchise.

(3) The manufacturer may request, and the designated successor shall promptly provide, such personal and financial information as is reasonably necessary to determine whether the succession should be honored.

(4) A manufacturer may refuse to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor if the manufacturer establishes that good cause exists for its refusal to honor the succession. If

the designated successor of a deceased or incapacitated owner of a new motor vehicle dealer franchise fails to meet the requirements set forth in subsections (2) (a), (b), and (c) of this section, good cause for refusing to honor the succession is presumed to exist. If a manufacturer believes that good cause exists for refusing to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor, the manufacturer shall serve written notice on the designated successor and on the department of its refusal to honor the succession no earlier than sixty days from the date the notice is served. The notice must be served not later than sixty days after the manufacturer's receipt of:

(a) Notice of the designated successor's intent to succeed to the ownership interest of the new motor vehicle dealer's franchise; or

(b) Any personal or financial information requested by the manufacturer.

(5) The notice in subsection (4) of this section shall state the specific grounds for the refusal to honor the succession. If the notice of refusal is not timely and properly served, the designated successor may continue the franchise in full force and effect, subject to termination only as otherwise provided under this chapter.

(6) Within twenty days after receipt of the notice or within twenty days after the end of any appeal procedure provided by the manufacturer, whichever is greater, the designated successor may file a petition with the department protesting the refusal to honor the succession. The petition shall contain a short statement setting forth the reasons for the designated successor's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not terminate or otherwise discontinue the existing franchise until the administrative law judge has held a hearing and has determined that there is good cause for refusing to honor the succession. If an appeal is taken, the manufacturer shall not terminate or discontinue the franchise until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review.

(7) The manufacturer has the burden of proof to show that good cause exists for the refusal to honor the succession.

(8) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a protest is filed.

(9) The administrative law judge shall conduct any hearing concerning the refusal to the succession as provided in RCW 46.96.050(2) and all hearing costs shall be borne as provided in that subsection. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.96.050(3).

(10) This section does not preclude the owner of a new motor vehicle dealer franchise from designating any person

as his or her successor by a written, notarized, and witnessed instrument filed with the manufacturer. In the event of a conflict between such a written instrument that has not been revoked by written notice from the owner to the manufacturer and this section, the written instrument governs. [1989 c 415 § 11.]

46.96.140 Relevant market area—Definition—New or relocated dealerships, notice of. (1) For the purposes of this section, and throughout this chapter, the term "relevant market area" is defined as follows:

(a) If the population in the county in which the proposed new or relocated dealership is to be located is four hundred thousand or more, the relevant market area is the geographic area within a radius of eight miles around the proposed site;

(b) If the population in the county in which the proposed new or relocated dealership is to be located is two hundred thousand or more and less than four hundred thousand, the relevant market area is the geographic area within a radius of twelve miles around the proposed site;

(c) If the population in the county in which the proposed new or relocated dealership is to be located is less than two hundred thousand, the relevant market area is the geographic area within a radius of sixteen miles around the proposed site.

In determining population for this definition, the most recent census by the United States Bureau of Census or the most recent population update, either from the National Planning Data Corporation or other similar recognized source, shall be accumulated for all census tracts either wholly or partially within the relevant market area.

(2) For the purpose of RCW 46.96.140 through 46.96.180, the term "motor vehicle dealer" does not include dealerships who exclusively market vehicles 19,000 pounds gross vehicle weight and above.

(3) Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, if a manufacturer intends or proposes to enter into a franchise to establish an additional new motor vehicle dealer or to relocate an existing new motor vehicle dealer within or into a relevant market area in which the same line make of motor vehicle is then represented, the manufacturer shall provide at least sixty days advance written notice to the department and to each new motor vehicle dealer of the same line make in the relevant market area, of the manufacturer's intention to establish an additional new motor vehicle dealer or to relocate an existing new motor vehicle dealer within or into the relevant market area. The notice shall be sent by certified mail to each such party and shall include the following information:

(a) The specific location at which the additional or relocated motor vehicle dealer will be established;

(b) The date on or after which the additional or relocated motor vehicle dealer intends to commence business at the proposed location;

(c) The identity of all motor vehicle dealers who are franchised to sell the same line make vehicles as the proposed dealer and who have licensed locations within the relevant market area;

(d) The names and addresses, if available, of the owners of and principal investors in the proposed additional or relocated motor vehicle dealership; and

(e) The specific grounds or reasons for the proposed establishment of an additional motor vehicle dealer or relocation of an existing dealer. [1994 c 274 § 1.]

46.96.150 Protest of new or relocated dealership—Hearing—Arbitration. (1) Within thirty days after receipt of the notice under RCW 46.96.140, or within thirty days after the end of an appeal procedure provided by the manufacturer, whichever is greater, a new motor vehicle dealer so notified or entitled to notice may file a petition with the department protesting the proposed establishment or relocation. The petition shall contain a short statement setting forth the reasons for the dealer's objection to the proposed establishment or relocation. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not establish or relocate the new motor vehicle dealer until the administrative law judge has held a hearing and has determined that there is good cause for permitting the proposed establishment or relocation. When more than one protest is filed against the establishment or relocation of the same dealer, the administrative law judge shall consolidate the hearings to expedite disposition of the matter.

(2) If a manufacturer provides in the franchise agreement or by written statement distributed and provided to its dealers for arbitration under the Washington Arbitration Act, chapter 7.04 RCW, as a mechanism for resolving disputes relating to the establishment of an additional new motor vehicle dealer or the relocation of a new motor vehicle dealer, then the provisions of this section and RCW 46.96.170 relating to hearings by an administrative law judge do not apply, and a dispute regarding the establishment of an additional new motor vehicle dealer or the relocation of an existing new motor vehicle dealer shall be determined in an arbitration proceeding conducted in accordance with the Washington Arbitration Act, chapter 7.04 RCW. The thirty-day period for filing a protest under this section still applies except that the protesting dealer shall file his protest with the manufacturer within thirty days after receipt of the notice under RCW 46.96.140.

(3) The dispute shall be referred for arbitration to such arbitrator as may be agreed upon by the parties to the dispute. If the parties cannot agree upon a single arbitrator within thirty days from the date the protest is filed, the protesting dealer will select an arbitrator, the manufacturer will select an arbitrator, and the two arbitrators will then select a third. If a third arbitrator is not agreed upon within thirty days, any party may apply to the superior court, and the judge of the superior court having jurisdiction will appoint the third arbitrator. The protesting dealer will pay the arbitrator selected by him, and the manufacturer will pay the arbitrator it selected. The expense of the third arbitrator and all other expenses of arbitration will be shared equally by the parties. Attorneys' fees and fees paid to expert

witnesses are not expenses of arbitration and will be paid by the person incurring them.

(4) Notwithstanding the terms of a franchise or written statement of the manufacturer and notwithstanding the terms of a waiver, the arbitration will take place in the state of Washington in the county where the protesting dealer has his principal place of business. RCW 46.96.160 applies to a determination made by the arbitrator or arbitrators in determining whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer, and the manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation. After a hearing has been held, the arbitrator or arbitrators shall render a decision as expeditiously as possible, but in any event not later than one hundred twenty days from the date the arbitrator or arbitrators are selected or appointed. The manufacturer shall not establish or relocate the new motor vehicle dealer until the arbitration hearing has been held and the arbitrator or arbitrators have determined that there is good cause for permitting the proposed establishment or relocation. The written decision of the arbitrator is binding upon the parties unless modified, corrected, or vacated under the Washington Arbitration Act. Any party may appeal the decision of the arbitrator under the Washington Arbitration Act, chapter 7.04 RCW.

(5) If the franchise agreement or the manufacturer's written statement distributed and provided to its dealers does not provide for arbitration under the Washington Arbitration Act as a mechanism for resolving disputes relating to the establishment of an additional new motor vehicle dealer or the relocation of a new motor vehicle dealer, then the hearing provisions of this section and RCW 46.96.170 apply. Nothing in this section is intended to preclude a new motor vehicle dealer from electing to use any other dispute resolution mechanism offered by a manufacturer. [1994 c 274 § 2.]

46.96.160 Factors considered by administrative law judge. In determining whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer of the same line make, the administrative law judge shall take into consideration the existing circumstances, including, but not limited to:

(1) The extent, nature, and permanency of the investment of both the existing motor vehicle dealers of the same line make in the relevant market area and the proposed additional or relocating new motor vehicle dealer, including obligations reasonably incurred by the existing dealers to perform their obligations under their respective franchises;

(2) The growth or decline in population and new motor vehicle registrations during the past five years in the relevant market area;

(3) The effect on the consuming public in the relevant market area;

(4) The effect on the existing new motor vehicle dealers in the relevant market area, including any adverse financial impact;

(5) The reasonably expected or anticipated vehicle market for the relevant market area, including demographic factors such as age of population, income, education, size

class preference, product popularity, retail lease transactions, or other factors affecting sales to consumers in the relevant market area;

(6) Whether it is injurious or beneficial to the public welfare for an additional new motor vehicle dealer to be established;

(7) Whether the new motor vehicle dealers of the same line make in the relevant market area are providing adequate competition and convenient customer care for the motor vehicles of the same line make in the relevant market area, including the adequacy of motor vehicle sales and service facilities, equipment, supply of vehicle parts, and qualified service personnel;

(8) Whether the establishment of an additional new motor vehicle dealer would increase competition and be in the public interest;

(9) Whether the manufacturer is motivated principally by good faith to establish an additional or new motor vehicle dealer and not by noneconomic considerations;

(10) Whether the manufacturer has denied its existing new motor vehicle dealers of the same line make the opportunity for reasonable growth, market expansion, establishment of a subagency, or relocation;

(11) Whether the protesting dealer or dealers are in substantial compliance with their dealer agreements or franchises; and

(12) Whether the manufacturer has complied with the requirements of RCW 46.96.140 and 46.96.150.

In considering the factors set forth in this section, the administrative law judge shall give the factors equal weight, and in making a determination as to whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer of the same line make, the administrative law judge must find that at least nine of the factors set forth in this section weigh in favor of the manufacturer and in favor of the proposed establishment or relocation of a new motor vehicle dealer. [1994 c 274 § 3.]

46.96.170 Hearing—Procedures, costs, appeal. (1) The manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation.

(2) The administrative law judge shall conduct any hearing as provided in RCW 46.96.050(2), and all hearing costs shall be borne as provided in that subsection. The administrative law judge shall render the final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. If more than one protest is filed, the one hundred twenty days commences to run from the date the last protest is filed. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.96.050(3). [1994 c 274 § 4.]

46.96.180 Exceptions. RCW 46.96.140 through 46.96.170 do not apply:

(1) To the sale or transfer of the ownership or assets of an existing new motor vehicle dealer where the transferee proposes to engage in business representing the same line make at the same location or within two miles of that location;

(2) To the relocation of an existing new motor vehicle dealer within the dealer's relevant market area, if the relocation is not at a site within eight miles of any new motor vehicle dealer of the same line make;

(3) If the proposed new motor vehicle dealer is to be established at or within two miles of a location at which a former new motor vehicle dealer of the same line make had ceased operating within the previous twenty-four months;

(4) Where the proposed relocation is two miles or less from the existing location of the relocating new motor vehicle dealer; or

(5) Where the proposed relocation is to be further away from all other existing new motor vehicle dealers of the same line make in the relevant market area. [1994 c 274 § 5.]

46.96.190 Prohibited practices by manufacturer. A manufacturer shall not coerce, threaten, intimidate, or require a new motor vehicle dealer, as a condition to granting or renewing a franchise, to waive, limit, or disclaim a right that the dealer may have to protest the establishment or relocation of another motor vehicle dealer in the relevant market area as provided in RCW 46.96.150. [1994 c 274 § 6.]

46.96.200 Sale, transfer, or exchange of franchise. (1) Notwithstanding the terms of a franchise, a manufacturer shall not unreasonably withhold consent to the sale, transfer, or exchange of a franchise to a qualified buyer who meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer or is capable of being licensed as a new motor vehicle dealer in the state of Washington. A decision or determination made by the administrative law judge as to whether a qualified buyer is capable of being licensed as a new motor vehicle dealer in the state of Washington is not conclusive or determinative of any ultimate determination made by the department of licensing as to the buyer's qualification for a motor vehicle dealer license. A manufacturer's failure to respond in writing to a request for consent under this subsection within sixty days after receipt of a written request on the forms, if any, generally used by the manufacturer containing the information and reasonable promises required by a manufacturer is deemed to be consent to the request. A manufacturer may request, and, if so requested, the applicant for a franchise (a) shall promptly provide such personal and financial information as is reasonably necessary to determine whether the sale, transfer, or exchange should be approved, and (b) shall agree to be bound by all reasonable terms and conditions of the franchise.

(2) If a manufacturer refuses to approve the sale, transfer, or exchange of a franchise, the manufacturer shall serve written notice on the applicant, the transferring, selling, or exchanging new motor vehicle dealer, and the department of its refusal to approve the transfer of the franchise no later than sixty days after the date the manufacturer receives the written request from the new motor vehicle dealer. If the manufacturer has requested personal or financial information from the applicant under subsection (1) of this section, the notice shall be served not later than sixty days after the receipt of all of such documents. Service of all notices

under this section shall be made by personal service or by certified mail, return receipt requested.

(3) The notice in subsection (2) of this section shall state the specific grounds for the refusal to approve the sale, transfer, or exchange of the franchise.

(4) Within twenty days after receipt of the notice of refusal to approve the sale, transfer, or exchange of the franchise by the transferring new motor vehicle dealer, the new motor vehicle dealer may file a petition with the department to protest the refusal to approve the sale, transfer, or exchange. The petition shall contain a short statement setting forth the reasons for the dealer's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed, and the department shall arrange for a hearing with an administrative law judge as the presiding officer to determine if the manufacturer unreasonably withheld consent to the sale, transfer, or exchange of the franchise.

(5) In determining whether the manufacturer unreasonably withheld its approval to the sale, transfer, or exchange, the manufacturer has the burden of proof that it acted reasonably. A manufacturer's refusal to accept or approve a proposed buyer who otherwise meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer, or who otherwise is capable of being licensed as a new motor vehicle dealer in the state of Washington, is presumed to be unreasonable.

(6) The administrative law judge shall conduct a hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. Only the selling, transferring, or exchanging new motor vehicle dealer and the manufacturer may be parties to the hearing.

(7) The administrative law judge shall conduct any hearing as provided in RCW 46.96.050(2), and all hearing costs shall be borne as provided in that subsection. Only the manufacturer and the selling, transferring, or exchanging new motor vehicle dealer may appeal the final order of the administrative law judge as provided in RCW 46.96.050(3).

(8) This section and RCW 46.96.030 through 46.96.110 apply to all franchises and contracts existing on July 23, 1989, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers.

(9) RCW 46.96.140 through 46.96.190 apply to all franchises and contracts existing on October 1, 1994, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers. [1994 c 274 § 7; 1989 c 415 § 18. Formerly RCW 46.96.120.]

46.96.210 Petition and hearing—Filing fee, costs, security. The department shall determine and establish the amount of the filing fee required in RCW 46.96.040, 46.96.110, 46.96.150, and 46.96.200. The fees shall be set in accordance with RCW 43.24.086.

The department may also require the petitioning or protesting party to give security, in such sum as the department deems proper but not in any event to exceed one

thousand dollars, for the payment of such costs as may be incurred in conducting the hearing as required under this chapter. The security may be given in the form of a bond or stipulation or other undertaking with one or more sureties.

At the conclusion of the hearing, the department shall assess, in equal shares, each of the parties to the hearing for the cost of conducting the hearing. Upon receipt of payment of the costs, the department shall refund and return to the petitioning party such excess funds, if any, initially posted by the party as security for the hearing costs. If the petitioning party provided security in the form of a bond or other undertaking with one or more sureties, the bond or other undertaking shall then be exonerated and the surety or sureties under it discharged. [1994 c 274 § 8; 1989 c 415 § 19. Formerly RCW 46.96.130.]

46.96.900 Severability—1989 c 415. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1989 c 415 § 22.]

47.01.011 Legislative declaration. The legislature hereby recognizes the following imperative needs within the state: To create a state-wide transportation development plan

which identifies present status and sets goals for the future; to coordinate transportation modes; to promote and protect land use programs required in local, state and federal law; to coordinate transportation with the economic development of the state; to supply a broad framework in which regional, metropolitan, and local transportation needs can be related; to facilitate the supply of federal and state aid to those areas which will most benefit the state as a whole; to provide for public involvement in the transportation planning and development process; to administer programs within the jurisdiction of this title relating to the safety of the state's transportation systems; and to coordinate and implement national transportation policy with the state transportation planning program.

The legislature finds and declares that placing all elements of transportation in a single department is fully consistent with and shall in no way impair the use of moneys in the motor vehicle fund exclusively for highway purposes.

Through this chapter, a unified department of transportation is created. To the jurisdiction of this department will be transferred the present powers, duties, and functions of the department of highways, the highway commission, the toll bridge authority, the aeronautics commission, and the canal commission, and the transportation related powers, duties, and functions of the *planning and community affairs agency. [1977 ex.s. c 151 § 1.]

*Reviser's note: "Planning and community affairs agency" means "department of community, trade, and economic development."

47.01.021 Definitions. As used in this title unless the context indicates otherwise:

(3) The board of pilotage commissioners is transferred to the jurisdiction of the department for its staff support and administration: PROVIDED, That nothing in this section shall be construed as transferring any policy making powers of the board of pilotage commissioners to the transportation commission or the department of transportation. [1988 c 167 § 11; 1977 ex.s. c 151 § 3.]

Reviser's note: *(1) For contents of "this act" [1977 ex.s. c 151], see note following RCW 47.98.070.

47.01.041 Secretary of transportation—Appointment, salary, removal. The executive head of the department of transportation shall be the secretary of transportation, who shall be appointed by the transportation commission, and shall be paid a salary to be fixed by the governor in accordance with the provisions of RCW 43.03.040. The secretary shall be an ex officio member of the commission without a vote. The secretary shall be the chief executive officer of the commission and be responsible to it, and shall be guided by policies established by it. The secretary shall serve until removed by the commission, but only for incapacity, incompetence, neglect of duty, malfeasance in office, or failure to carry out the commission's policies. Before a motion for dismissal shall be acted on by the commission, the secretary shall be granted a hearing on formal written charges before the full commission. There is hereby created a transportation commission, which shall consist of seven members appointed by the governor, with the consent of the senate. The present five members of the highway commission shall serve as five initial members of the transportation commission until their terms of office as highway commission members would have expired. The additional two members provided herein for the transportation commission shall be appointed for initial terms to expire on June 30, 1982, and June 30, 1983. Thereafter all terms shall be for six years. No member shall be appointed for more than two consecutive terms. [1977 ex.s. c 151 § 5.]

It may adopt its own rules and regulations and may establish its own procedure. It shall act collectively in harmony with recorded resolutions or motions adopted by majority vote of at least four members. The commission may appoint an administrative secretary, and shall elect one of its members chairman for a term of one year. The chairman shall be able to vote on all matters before the commission. The commission may from time to time retain planners, consultants, and other technical personnel to advise it in the performance of its duties.

The commission shall submit to each regular session of the legislature held in an odd-numbered year its own budget proposal necessary for the commission's operations separate from that proposed for the department.

Each member of the commission shall be compensated in accordance with RCW 43.03.250 and shall be reimbursed for actual necessary traveling and other expenses in going to, attending, and returning from meetings of the commission, and actual and necessary traveling and other expenses incurred in the discharge of such duties as may be requested by a majority vote of the commission or by the secretary of transportation, but in no event shall a commissioner be compensated in any year for more than one hundred twenty days, except the chairman of the commission who may be paid compensation for not more than one hundred fifty days. Service on the commission shall not be considered as service credit for the purposes of any public retirement system. 47.01.250 Consultation with designated state officials—Report to governor and legislature. The chief of the Washington state patrol, the director of the traffic safety commission, the executive director of the county road administration board, and the director of licensing are designated as official consultants to the transportation commission so that the goals and activities of their respective agencies which relate to transportation are fully

coordinated with other related responsibilities of the department of transportation. In this capacity, the chief of the Washington state patrol, the director of the traffic safety commission, the executive director of the county road administration board, and the director of licensing shall consult with the transportation commission and the secretary of transportation on the implications and impacts on the transportation related functions and duties of their respective agencies of any proposed comprehensive transportation plan, program, or policy.

In order to develop fully integrated, balanced, and coordinated transportation plans, programs, and budgets the chief of the Washington state patrol, the director of the traffic safety commission, the executive director of the county road administration board, and the director of licensing shall consult with the secretary of transportation on the matter of relative priorities during the development of their respective agencies' plans, programs, and budgets as they pertain to transportation activities. The secretary of transportation shall provide written comments to the governor and the legislature on the extent to which the state patrol's, the traffic safety commission's, the county road administration board's, and the department of licensing's final plans, programs, and budgets are compatible with the priorities established in the department of transportation's final plans, programs, and budgets. [1990 c 266 § 5; 1979 c 158 § 204; 1977 ex.s. c 151 § 26.]

Identification of environmental costs of transportation projects—Pilot project—1993 c 59: "Recognizing the importance of maintaining the quality of life in Washington state, the citizens of this state demand protection and preservation of our scarce natural resources. Citizens also demand an efficient and effective transportation system. The departments of transportation, ecology, fisheries, and wildlife and the Puget Sound water quality authority have worked jointly to develop cooperative approaches for mitigating environmental impacts resulting from transportation projects. Nevertheless, many transportation projects are costing more than was budgeted due to unanticipated and extensive environmental considerations. It is the intent of the legislature to find a process for accessing, budgeting, and accounting for environmental costs related to significant transportation projects in order to determine whether the environmental costs exceed the transportation benefits of a project.

Therefore, the department of transportation shall undertake a pilot program in at least one transportation district that will serve as a case study for the entire department. The department shall identify and cost out the discrete environmental elements of a representative sampling of transportation projects. The environmental elements should include, but not necessarily be limited to, wetlands, storm water, hazardous waste, noise, fish, and wildlife. The department shall also consider an assessment of the cost impacts resulting from delays associated with permitting requirements.

It is the intent of the legislature that the environmental cost estimates be developed during a detailed scoping process that will include preliminary engineering and design. After the detailed scoping process and design report is complete, the department shall submit project-specific recommendations and cost estimates to the transportation commission before approval is granted for the construction phase of the projects.

Based upon the findings of the pilot program the transportation commission shall recommend policies to the legislative transportation committee regarding: (1) The current practice of appropriating design and construction dollars simultaneously; (2) identification of reasonable thresholds for environmental costs; (3) budget and accounting modifications that may be warranted in order to accurately capture environmental costs associated with transportation projects; and (4) modification to the priority array statutes, chapter 47.05 RCW." [1993 c 59 § 1.]

47.01.260 Authority of department. (1) The department of transportation shall exercise all the powers and perform all the duties necessary, convenient, or incidental to the planning, locating, designing, constructing, improving,

repairing, operating, and maintaining state highways, including bridges and other structures, culverts, and drainage facilities and channel changes necessary for the protection of state highways, and shall examine and allow or disallow bills for any work or services performed or materials, equipment, or supplies furnished.

(2) Subject to the limitations of RCW 4.24.115, the department, in the exercise of any of its powers, may include in any authorized contract a provision for indemnifying the other contracting party against specific loss or damages arising out of the performance of the contract.

(3) The department is authorized to acquire property as provided by law and to construct and maintain thereon any buildings or structures necessary or convenient for the planning, design, construction, operation, maintenance, and administration of the state highway system and to acquire property and to construct and maintain any buildings, structures, appurtenances, and facilities necessary or convenient to the health and safety and for the accommodation of persons traveling upon state highways.

(4) The department is authorized to engage in planning surveys and may collect, compile, and analyze statistics and other data relative to existing and future highways and highway needs throughout the state, and shall conduct research, investigations, and testing as it deems necessary to improve the methods of construction and maintenance of highways and bridges. [1983 c 29 § 1; 1979 ex.s. c 58 § 1.]

47.01.270 Radioactive or hazardous cargo, notice of prohibition. The department of transportation shall adopt regulations to establish procedures for giving notice to transporters of placarded radioactive or hazardous cargo of times when transportation of such cargo is prohibited. [1983 c 205 § 2.]

Transportation of radioactive or hazardous cargo, prohibited, when: RCW 47.48.050.

47.01.280 Application for improvements to existing highways. (1) Upon receiving an application for improvements to an existing state highway or highways pursuant to RCW 43.160.074 from the community economic revitalization board, the transportation commission shall, in a timely manner, determine whether or not the proposed state highway improvements:

- (a) Meet the safety and design criteria of the department of transportation;
- (b) Will impair the operational integrity of the existing highway system;
- (c) Will affect any other improvements planned by the department; and
- (d) Will be consistent with its policies developed pursuant to RCW 47.01.071.

(2) Upon completion of its determination of the factors contained in subsection (1) of this section and any other factors it deems pertinent, the transportation commission shall forward its approval, as submitted or amended or disapproval of the proposed improvements to the board, along with any recommendation it may wish to make concerning the desirability and feasibility of the proposed development. If the transportation commission disapproves

any proposed improvements, it shall specify its reasons for disapproval.

(3) Upon notification from the board of an application's approval pursuant to RCW 43.160.074, the transportation commission shall direct the department of transportation to carry out the improvements in coordination with the applicant.

(4) The transportation commission shall notify the legislative transportation committee of all state highway improvements to be carried out pursuant to RCW 43.160.074 and this section.

(5) All state highway improvements that are approved pursuant to RCW 43.160.074 and this section shall be charged to the economic development account of the motor vehicle fund created by RCW 47.10.803. [1985 c 433 § 6.]

Nonseverability—1985 c 433: See note following RCW 43.160.074.

47.01.290 Environmental review of transportation projects. The legislature recognizes that environmental review of transportation projects is a continuous process that should begin at the earliest stages of planning and continue through final project construction. Early and extensive involvement of the relevant environmental regulatory authorities is critical in order to avoid significant changes in substantially completed project design and engineering. It is the expectation of the legislature that if a comprehensive environmental approach is integrated throughout various transportation processes, onerous, duplicative, and time-consuming permit processes will be minimized. [1994 c 258 § 3; 1993 c 55 § 1.]

- (1) Identify and document environmental resources in the development of the state-wide multimodal plan under RCW 47.06.040;
- (2) Allow for public comment regarding changes to the criteria used for prioritizing projects under chapter 47.05 RCW before final adoption of the changes by the commission;
- (3) Use an environmental review as part of the project prospectus identifying potential environmental impacts, mitigation, and costs during the early project identification and selection phase, submit the prospectus to the relevant environmental regulatory authorities, and maintain a record of comments and proposed revisions received from the authorities;
- (4) Actively work with the relevant environmental regulatory authorities during the design alternative analysis process and seek written concurrence from the authorities that they agree with the preferred design alternative selected;
- (5) Develop a uniform methodology, in consultation with relevant environmental regulatory authorities, for submitting plans and specifications detailing project elements that impact environmental resources, and proposed mitigation measures, to the relevant environmental regulatory authorities

during the preliminary specifications and engineering phase of project development;

(6) Screen construction projects to determine which projects will require complex or multiple permits. The permitting authorities shall develop methods for initiating review of the permit applications for the projects before the final design of the projects;

(7) Conduct special prebid meetings for those projects that are environmentally complex; and

(8) Review environmental considerations related to particular projects during the preconstruction meeting held with the contractor who is awarded the bid. [1994 c 258 § 4.]

(3) All employees of the state energy office engaged in performing the powers, functions, and duties transferred are transferred to the jurisdiction of the department of transportation. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued hereunder shall be fully negotiable instruments. [1965 ex.s. c 167 § 4.]

47.02.050 Bonds—Denominations—Manner and terms of sale—Legal investment for state funds. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. 47.02.060 Bonds—Bond proceeds—Deposit and use. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor

vehicle fund and such money shall be available only for the acquisition of the land and construction of the buildings and facilities referred to in RCW 47.02.010, and for payment of the expenses incurred in the drafting, printing, issuance and sale of any such bonds. [1965 ex.s. c 167 § 6.]

47.02.070 Bonds—Statement describing nature of obligation—Pledge of excise taxes. Bonds issued under the provisions of this chapter shall distinctly state that they are not a general obligation of the state but are payable in the manner provided in this chapter from the proceeds of state excise taxes on motor vehicle fuels imposed by chapter 82.36 and *chapter 82.40 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of this chapter and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of this chapter. [1965 ex.s. c 167 § 7.]

***Reviser's note:** Chapter 82.40 RCW was repealed by 1971 ex.s. c 175 § 33; for later enactment, see chapter 82.38 RCW.

47.02.080 Bonds—Designation of funds to repay bonds and interest. Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle fuels and which is, or may be appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1984 c 7 § 84; 1965 ex.s. c 167 § 8.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.02.090 Bonds—Repayment procedure—Highway bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments under the provisions of this chapter when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1965 ex.s. c 167 § 9.]

47.02.100 Bonds—Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor fuels payable into the highway bond retirement fund shall prove more than is required for the payment of interest on bonds when due or current retirement of bonds, or in the event there is appropriated from time to time additional amounts to be placed in the said bond retirement fund, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1965 ex.s. c 167 § 10.]

47.02.110 Bonds—Appropriation from motor vehicle fund. There is hereby appropriated from the motor vehicle fund to the state highway commission for the biennium ending June 30, 1967, the sum of four million dollars, or so much thereof as may be necessary to carry out the provisions of this chapter, but no money shall be available under this appropriation from said fund unless a like amount of bonds provided for herein are sold and the money derived therefrom deposited to the credit of such fund. [1965 ex.s. c 167 § 11.]

47.02.120 District 1 headquarters bonds—Issuance and sale. For the purpose of providing funds for the acquisition of headquarters facilities for district 1 of the department of transportation and costs incidental thereto, together with all improvements and equipment required to make the facilities suitable for the department's use, there shall be issued and sold upon the request of the Washington transportation commission a total of fifteen million dollars of general obligation bonds of the state of Washington. [1990 c 293 § 1.]

Severability—1990 c 293: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1990 c 293 § 10.]

Authorized uses of proceeds from the sale of bonds authorized in RCW 47.02.120 through 47.02.190 include but are not limited to repayment to the motor vehicle fund for the loan from the motor vehicle fund to the transportation capital facilities account in the motor vehicle fund provided in the supplemental transportation budget for the initial financing of the headquarters facilities. [1990 c 293 § 2.]

Severability—1990 c 293: See note following RCW 47.02.120.

Bonds authorized by RCW 47.02.120 through 47.02.190 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. Except for the purpose of repaying the loan from the motor vehicle

fund, no such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [1990 c 293 § 3.]

Severability—1990 c 293: See note following RCW 47.02.120.

47.02.150 District 1 headquarters bonds—Proceeds, deposit and use. The proceeds from the sale of bonds authorized by RCW 47.02.120 through 47.02.190 shall be available only for the purposes enumerated in RCW 47.02.120 and 47.02.130; for the payment of bond anticipation notes, if any; and for the payment of bond issuance costs, including the costs of underwriting. Proceeds required to repay the motor vehicle fund loan shall be deposited in the motor vehicle fund and remaining proceeds shall be deposited in the transportation capital facilities account. [1990 c 293 § 4.]

Severability—1990 c 293: See note following RCW 47.02.120.

47.02.160 District 1 headquarters bonds—Statement of general obligation—Pledge of excise taxes. Bonds issued under the authority of RCW 47.02.120 through 47.02.190 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in RCW 47.02.120 through 47.02.190 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.02.120 through 47.02.190, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.02.120 through 47.02.190. [1995 c 274 § 5; 1990 c 293 § 5.]

Severability—1990 c 293: See note following RCW 47.02.120.

Both principal and interest on the bonds issued for the purposes of RCW 47.02.120 through 47.02.190 shall be payable from the highway bond retirement fund. The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such

amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.02.120 through 47.02.190 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state under RCW 46.68.130. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state under RCW 46.68.130 proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1990 c 293 § 6.]

Severability—1990 c 293: See note following RCW 47.02.120.

47.02.180 District 1 headquarters bonds—Reimbursement of motor vehicle fund. When the state treasurer transfers funds from the motor vehicle fund to the highway bond retirement fund to pay principal and interest on the bonds authorized by RCW 47.02.120 through 47.02.190, the state treasurer shall at the same time reimburse the motor vehicle fund in an identical amount from the transportation capital facilities account. This obligation to reimburse the motor vehicle fund shall constitute a first and prior charge against the funds within and accruing to the transportation capital facilities account. All funds reimbursed to the motor vehicle fund shall be distributed to the state for expenditures authorized by RCW 46.68.130. [1990 c 293 § 7.]

[1990 c 293 § 8.]

Severability—1990 c 293: See note following RCW 47.02.120.

In all matters relating to the cooperative construction or improvement of any state highway, county road, or city or town street for which federal funds or aid is secured under any act of congress, the department shall act in the manner provided by state law relating to state highway construction from the motor vehicle fund, so far as the same may be consistent with the provisions of such act of congress and the rules and regulations made by the secretary of transportation or other authorized agent of the United States government pursuant to such act, to which the procedure shall be adapted by the department as may be necessary. [1984 c 7 § 87; 1961 c 13 § 47.04.070. Prior: 1937 c 53 § 44; RRS § 6400-44; 1917 c 76 § 5, part; RRS § 6848, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.04.080 Joint action with other governments and agencies. The department is empowered to join financially or otherwise with any other state or any county, city, or town of any other state, or with any foreign country, or any province or district of any foreign country, or with the federal government or any agency thereof, or with any or all thereof, for the erecting, constructing, operating, or maintaining of any bridge, trestle, or any other structure, for the continuation or connection of any state highway across any stream, body of water, gulch, navigable water, swamp, or other topographical formation requiring any such structure and forming a boundary between the state of Washington and any other state or foreign country, and for the purchase or condemnation of right of way therefor. [1984 c 7 § 88; 1973 1st ex.s. c 151 § 11; 1961 c 13 § 47.04.080. Prior: 1937 c 53 § 47 1/2; RRS § 6400-47 1/2.]

47.04.081 Urban public transportation systems—Participation in planning, development, and establishment. The department is empowered to join financially or otherwise with any public agency or any county, city, or town in the state of Washington or any other state, or with the federal government or any agency thereof, or with any or all thereof for the planning, development, and establishment of urban public transportation systems in conjunction with new or existing highway facilities. [1984 c 7 § 89; 1967 c 108 § 13; 1965 ex.s. c 170 § 63.]

Severability—1984 c 7: See note following RCW 47.01.141.

Urban public transportation system defined: RCW 47.04.082.

47.04.082 Urban public transportation systems—Defined. As used in this act the term "urban public transportation system" shall mean a system for the public transportation of persons or property by buses, street cars, trains, electric trolley coaches, other public transit vehicles, or any combination thereof operating in or through predominantly urban areas and owned and operated by the state, any city or county or any municipal corporation of the state, including all structures, facilities, vehicles and other property rights and interest forming a part of such a system. [1967 c 108 § 1.]

Reviser's note: The term "this act" refers to 1967 c 108, codified as RCW 47.04.082, 47.04.083, 47.98.044, and the 1967 amendments to RCW

47.04.081, 47.08.070, 47.12.010, 47.12.250, 47.28.140, 47.44.010, 47.44.040, 47.48.010, 47.52.010, 47.52.090, and 47.56.256.

47.04.083 Urban public transportation systems—Declaration of public policy—Use of motor vehicle, city street, or county road funds. The separate and uncoordinated development of public highways and urban public transportation systems is wasteful of this state's natural and financial resources. It is the public policy of this state to encourage wherever feasible the joint planning, construction and maintenance of public highways and urban public transportation systems serving common geographical areas as joint use facilities. To this end the legislature declares it to be a highway purpose to use motor vehicle funds, city and town street funds or county road funds to pay the full proportionate highway, street or road share of the costs of design, right of way acquisition, construction and maintenance of any highway, street or road to be used jointly with an urban public transportation system. [1967 c 108 § 2.]

47.04.090 Penalty. It is a misdemeanor for any person to violate any of the provisions of this title unless specifically provided otherwise by this title or other law of this state.

Unless another penalty is provided in this title, every person convicted of a misdemeanor for violation of any provisions of this title shall be punished in accordance with chapter 9A.20 RCW. [1989 c 224 § 2; 1961 c 13 § 47.04.090. Prior: 1937 c 53 § 95; RRS § 6400-95.]

47.04.100 Temporary route pending construction of new highway—Streets, roads not to be maintained as. Unless otherwise provided, whenever by statute a new highway or extension is added to the state highway system, no existing city street or county road may be maintained or improved by the department as a temporary route of such new highway or extension pending the construction of the new highway or extension on the location adopted by the department. [1984 c 7 § 90; 1973 1st ex.s. c 151 § 12; 1965 ex.s. c 170 § 34.]

47.04.140 Counties obtaining federal aid for construction, reconstruction, etc., of ferry boats or approaches. Whenever a county that operates or proposes to operate ferries obtains federal aid for the construction, reconstruction, or modification of any ferry boat or approaches thereto under Title 23, United States Code, the following provisions apply to the county's operation of its ferries:

(1) The county shall obtain from the department a franchise authorizing the ferry operations. The county's application for a franchise or amended franchise shall designate all ferry routes it proposes to operate. The department shall issue the franchise or amended franchise for the operation of each route that it finds is not otherwise served by adequate transportation facilities. A county may terminate any ferry route without approval of the department.

(2) At least ninety days before applying for federal aid for the construction, reconstruction, or modification of any of its ferries or approaches thereto, and thereafter whenever

new tolls or charges are proposed for use of its ferries, the county shall file with the department, the current or proposed schedule of tolls and charges for use of its ferries. Such tolls and charges shall be deemed approved by the department unless it finds that the aggregate revenues to be derived from the county's ferry operations will exceed the amount required to pay the actual and necessary costs of operation, maintenance, administration, and repair of the county's ferries and their appurtenances. The holder of any such bond, warrant, certificate, or receipt may by mandamus or other appropriate proceeding require the performance by the department of transportation, or other appropriate state official or agency, of any of the duties heretofore imposed upon any state department, official, or employee under the terms of any such prior bond, warrant, certificate, or receipt agreement or sale: PROVIDED, That the enumeration of such rights and remedies herein shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds, warrants, certificates, or receipts. [1980 c 5 § 1.]

47.04.170 Federal agreements for public transportation, rail transportation. The department of transportation is authorized to enter into and perform agreements with federal agencies as may be necessary to secure federal grants, loans, or other assistance on its own behalf or on behalf of other public or private recipients for:

(1) Public transportation purposes, including but not limited to, bus transportation, specialized transportation

services for the elderly and handicapped, and ride sharing activities; and

(2) Rail transportation. [1985 c 20 § 1.]

47.04.180 Twenty-four hour headlight policy. On the recommendation of their public works departments or designees, counties or cities can petition the department of transportation to create a "twenty-four hour headlight policy" on state highways in their respective jurisdictions. The department shall develop criteria for approval or disapproval, such as traffic volume, accident statistics, and costs of signs. The department shall notify all counties about this program.

A jurisdiction requesting such a policy shall periodically report to the department regarding its educational efforts. A jurisdiction may petition the department to remove such a policy.

The jurisdiction shall educate its citizens on the "twenty-four hour headlight policy." The department shall place and maintain appropriate signs along the designated highway. Participating jurisdictions shall share in the cost of signing in an amount as determined by the department.

The department shall periodically report to the legislative transportation committee regarding petitions and the subsequent accident statistics. By January 1, 1995, the department shall report to the legislature on the findings of the program. [1989 c 195 § 1.]

47.04.190 Bicycle transportation management program. (1) The department of transportation is responsible for the initiation, coordination, and operation of a bicycle transportation management program.

(2) To assist in the operation of the bicycle transportation management program, a full-time staff position of state bicycle program manager is established within the department of transportation. [1991 c 214 § 5.]

Bicycle awareness program: RCW 43.43.390.

(2) Coordinate bicycle safety related programs and bicycle tourism programs in all state agencies;

(3) Assist the department of transportation and the cities and counties of the state in assigning priorities to, programming, and developing bicycle-related projects;

(4) Serve as a clearinghouse for bicycle program information and resources;

(5) Provide assistance in revising and updating bicycle material of the superintendent of public instruction and the state patrol;

(6) Promote the use of bicycle helmets of a type certified to meet the requirements of standard Z-90.4 of the American National Standards Institute or such subsequent nationally recognized standard for bicycle helmet performance; and

(7) Promote bicycle safety equipment. [1991 c 214 § 6.]

State highway improvement projects in urban areas, priority programming to be accorded: RCW 47.26.070.

47.05.010 Declaration of purpose. The legislature finds that solutions to state highway deficiencies have become increasingly complex and diverse and that anticipated transportation revenues will fall substantially short of the amount required to satisfy all transportation needs. Difficult investment trade-offs will be required.

It is the intent of the legislature that investment of state transportation funds to address deficiencies on the state highway system be based on a policy of priority programming having as its basis the rational selection of projects and services according to factual need and an evaluation of life cycle costs and benefits and which are systematically scheduled to carry out defined objectives within available revenue.

The priority programming system shall ensure preservation of the existing state highway system, provide mobility for people and goods, support the state's economy, and promote environmental protection and energy conservation.

The priority programming system shall implement the state-owned highway component of the state-wide multimodal transportation plan, consistent with local and regional transportation plans, by targeting state transportation investment to appropriate multimodal solutions which address identified state highway system deficiencies.

The priority programming system for improvements shall incorporate a broad range of solutions that are identified in the state-wide multimodal transportation plan as appropriate to address state highway system deficiencies including but not limited to highway expansion, efficiency improvements, nonmotorized transportation facilities, high occupancy vehicle facilities, transit facilities and services, rail facilities and services, and transportation demand management programs. [1993 c 490 § 1; 1969 ex.s. c 39 § 1; 1963 c 173 § 1.]

47.05.021 Functional classification of highways. (1) The transportation commission is hereby directed to conduct periodic analyses of the entire state highway system, report thereon to the chairs of the transportation committees of the senate and house of representatives, including one copy to the staff of each of the committees, biennially and based thereon, to subdivide, classify, and subclassify according to their function and importance all designated state highways and those added from time to time and periodically review and revise the classifications into the following three functional classes:

(a) The "principal arterial system" shall consist of a connected network of rural arterial routes with appropriate extensions into and through urban areas, including all routes designated as part of the interstate system, which serve corridor movements having travel characteristics indicative of substantial state-wide and interstate travel;

(b) The "minor arterial system" shall, in conjunction with the principal arterial system, form a rural network of arterial routes linking cities and other activity centers which generate long distance travel, and, with appropriate extensions into and through urban areas, form an integrated network providing interstate and interregional service; and

(c) The "collector system" shall consist of routes which primarily serve the more important intercounty, intracounty, and intraurban travel corridors, collect traffic from the system of local access roads and convey it to the arterial system, and on which, regardless of traffic volume, the predominant travel distances are shorter than on arterial routes.

(2) In making the functional classification the transportation commission shall adopt and give consideration to criteria consistent with this section and federal regulations relating to the functional classification of highways, including but not limited to the following:

(a) Urban population centers within and without the state stratified and ranked according to size;

(b) Important traffic generating economic activities, including but not limited to recreation, agriculture, government, business, and industry;

(c) Feasibility of the route, including availability of alternate routes within and without the state;

(d) Directness of travel and distance between points of economic importance;

(e) Length of trips;

(f) Character and volume of traffic;

(g) Preferential consideration for multiple service which shall include public transportation;

(h) Reasonable spacing depending upon population density; and

(i) System continuity.

(3) The transportation commission shall designate a system of state highways that have state-wide significance. This state-wide system shall include interstate highways and other state-wide principal arterials that are needed to connect major communities across the state and support the state's economy.

(4) The transportation commission shall designate a freight and goods transportation system. This state-wide system shall include state highways, county roads, and city streets. The commission, in cooperation with cities and counties, shall review and make recommendations to the legislature regarding policies governing weight restrictions and road closures which affect the transportation of freight and goods. The first report is due by December 15, 1993, and biennially thereafter. [1993 c 490 § 2; 1987 c 505 § 50; 1979 ex.s. c 122 § 1; 1977 ex.s. c 130 § 1.]

Severability—1979 ex.s. c 122: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1979 ex.s. c 122 § 10.]

Effective dates—1977 ex.s. c 130: "Section 1 of this 1977 act modifying the functional classification of state highways shall apply to the

long range plan for highway improvements and to the six year program for highway construction commencing July 1, 1979 and to the preparation thereof and shall take effect July 1, 1977. Section 2 of this 1977 act shall take effect July 1, 1979." [1977 ex.s. c 130 § 3.] "Section 1 of this 1977 act" is codified as RCW 47.05.021; "Section 2 of this 1977 act" repealed RCW 47.05.020.

47.05.030 Six-year programs—Investments, improvements, preservation. The transportation commission shall adopt a comprehensive six-year investment program specifying program objectives and performance measures for the preservation and improvement programs defined in this section. In the specification of investment program objectives and performance measures, the transportation commission, in consultation with the Washington state department of transportation, shall define and adopt standards for effective programming and prioritization practices including a needs analysis process. The needs analysis process shall ensure the identification of problems and deficiencies, the evaluation of alternative solutions and trade-offs, and estimations of the costs and benefits of prospective projects. The investment program shall be revised biennially, effective on July 1st of odd-numbered years. The investment program shall be based upon the needs identified in the state-owned highway component of the state-wide multimodal transportation plan as defined in RCW 47.01.071(3).

(1) The preservation program shall consist of those investments necessary to preserve the existing state highway system and to restore existing safety features, giving consideration to lowest life cycle costing. The comprehensive six-year investment program for preservation shall identify projects for two years and an investment plan for the remaining four years.

(2) The improvement program shall consist of investments needed to address identified deficiencies on the state highway system to improve mobility, safety, support for the economy, and protection of the environment. The six-year investment program for improvements shall identify projects for two years and major deficiencies proposed to be addressed in the six-year period giving consideration to relative benefits and life cycle costing.

The transportation commission shall approve and present the comprehensive six-year investment program to the legislature in support of the biennial budget request under RCW 44.40.070 and 44.40.080. [1993 c 490 § 3; 1987 c 179 § 2; 1979 ex.s. c 122 § 2; 1977 ex.s. c 151 § 44; 1975 1st ex.s. c 143 § 1; 1973 2nd ex.s. c 12 § 4; 1969 ex.s. c 39 § 3; 1965 ex.s. c 170 § 33; 1963 c 173 § 3.]

Severability—1979 ex.s. c 122: See note following RCW 47.05.021.

47.05.035 Allocation of funds, factors. In developing program objectives and performance measures, the transportation commission shall evaluate investment trade-offs between the preservation and improvement programs. In making these investment trade-offs, the commission shall evaluate, using cost-benefit techniques, roadway and bridge maintenance activities as compared to roadway and bridge preservation program activities and adjust those programs accordingly.

The commission shall allocate the estimated revenue between preservation and improvement programs giving primary consideration to the following factors:

(1) The relative needs in each of the programs and the system performance levels that can be achieved by meeting these needs;

(2) The need to provide adequate funding for preservation to protect the state's investment in its existing highway system;

(3) The continuity of future transportation development with those improvements previously programmed; and

(4) The availability of dedicated funds for a specific type of work. [1993 c 490 § 4; 1987 c 179 § 3; 1979 ex.s. c 122 § 3; 1975 1st ex.s. c 143 § 2.]

Severability—1979 ex.s. c 122: See note following RCW 47.05.021.

47.05.051 Six-year comprehensive investment program—Priority selection criteria—Improvement program criteria—Departure from criteria. The comprehensive six-year investment program shall be based upon the needs identified in the state-owned highway component of the state-wide multimodal transportation plan as defined in RCW 47.01.071(3) and priority selection systems that incorporate the following criteria:

(1) Priority programming for the preservation program shall take into account the following, not necessarily in order of importance:

(a) Extending the service life of the existing highway system;

(b) Ensuring the structural ability to carry loads imposed upon highways and bridges; and

(c) Minimizing life cycle costs. The transportation commission in carrying out the provisions of this section may delegate to the department of transportation the authority to select preservation projects to be included in the six-year program.

(2) Priority programming for the improvement program shall take into account the following:

(a) Support for the state's economy, including job creation and job preservation;

(b) The cost-effective movement of people and goods;

(c) Accident and accident risk reduction;

(d) Protection of the state's natural environment;

(e) Continuity and systematic development of the highway transportation network;

(f) Consistency with local comprehensive plans developed under chapter 36.70A RCW;

(g) Consistency with regional transportation plans developed under chapter 47.80 RCW;

(h) Public views concerning proposed improvements;

(i) The conservation of energy resources;

(j) Feasibility of financing the full proposed improvement;

(k) Commitments established in previous legislative sessions;

(l) Relative costs and benefits of candidate programs;

(m) Major projects addressing capacity deficiencies which prioritize allowing for preliminary engineering shall be reprioritized during the succeeding biennium, based upon updated project data. Reprioritized projects may be delayed or canceled by the transportation commission if higher priority projects are awaiting funding; and

(n) Major project approvals which significantly increase a project's scope or cost from original prioritization esti-

mates shall include a review of the project's estimated revised priority rank and the level of funding provided. Projects may be delayed or canceled by the transportation commission if higher priority projects are awaiting funding.

(3) The commission may depart from the priority programming established under subsections (1) and (2) of this section: (a) To the extent that otherwise funds cannot be utilized feasibly within the program; (b) as may be required by a court judgment, legally binding agreement, or state and federal laws and regulations; (c) as may be required to coordinate with federal, local, or other state agency construction projects; (d) to take advantage of some substantial financial benefit that may be available; (e) for continuity of route development; or (f) because of changed financial or physical conditions of an unforeseen or emergent nature. The commission or secretary of transportation shall maintain in its files information sufficient to show the extent to which the commission has departed from the established priority. [1993 c 490 § 5; 1987 c 179 § 5; 1979 ex.s. c 122 § 5; 1975 1st ex.s. c 143 § 4.]

Severability—1979 ex.s. c 122: See note following RCW 47.05.021.

47.05.090 Application of 1993 c 490—Deviations. The provisions of chapter 490, Laws of 1993 modifying procedures for priority programming for highway development as set forth in chapter 47.05 RCW, first apply to the comprehensive six-year state highway investment program for the periods 1995 to 2001. For the transition biennium ending June 30, 1995, the commission may deviate from the modified procedures prescribed by chapter 490, Laws of 1993. [1993 c 490 § 6.]

Environmental review of transportation projects: RCW 47.01.290.

47.06.010 Findings. The legislature recognizes that the ownership and operation of Washington's transportation system is spread among federal, state, and local government agencies, regional transit agencies, port districts, and the private sector. The legislature also recognizes that transportation planning authority is shared on the local, regional, and state levels, and that this planning must be a comprehensive and coordinated effort. While significant authority for transportation planning is vested with local agencies and regional transportation planning organizations under the

growth management act, the legislature recognizes that certain transportation issues and facilities cross local and regional boundaries and are vital to the state-wide economy and the cross-state mobility of people and goods. Therefore, the state has an appropriate role in developing state-wide transportation plans that address state jurisdiction facilities and services as well as transportation facilities and services of state interest. These plans shall serve as a guide for short-term investment needs and provide a long-range vision for transportation system development. [1993 c 446 § 1.]

47.06.020 Role of department. The specific role of the department in transportation planning shall be (1) ongoing coordination and development of state-wide transportation policies that guide all Washington transportation providers; (2) ongoing development of a state-wide multimodal transportation plan that includes both state-owned and state-interest facilities and services; (3) coordinating the state high-capacity transportation planning and regional transportation planning programs; and (4) conducting special transportation planning studies that impact state transportation facilities or relate to transportation facilities and services of state-wide significance. Specific requirements for each of these state transportation planning components are described in this chapter. [1993 c 446 § 2.]

47.06.030 Transportation policy plan. The commission shall develop a state transportation policy plan that (1) establishes a vision and goals for the development of the state-wide transportation system consistent with the state's growth management goals, (2) identifies significant state-wide transportation policy issues, and (3) recommends state-wide transportation policies and strategies to the legislature to fulfill the requirements of RCW 47.01.071(1). The state transportation policy plan shall be the product of an ongoing process that involves representatives of significant transportation interests and the general public from across the state. [1993 c 446 § 3.]

47.06.040 State-wide multimodal transportation plan. The department shall develop a state-wide multimodal transportation plan under RCW 47.01.071(3) and in conformance with federal requirements, to ensure the continued mobility of people and goods within regions and across the state in a safe, cost-effective manner. The state-wide multimodal transportation plan shall consist of:

(1) A state-owned facilities component, which shall guide state investment for state highways including bicycle and pedestrian facilities, and state ferries; and

(2) A state-interest component, which shall define the state interest in aviation, marine ports and navigation, freight rail, intercity passenger rail, bicycle transportation and pedestrian walkways, and public transportation, and recommend actions in coordination with appropriate public and private transportation providers to ensure that the state interest in these transportation modes is met.

The plans developed under each component must be consistent with the state transportation policy plan and with each other, reflect public involvement, be consistent with regional transportation planning, high-capacity transportation planning, and local comprehensive plans prepared under

chapter 36.70A RCW, and include analysis of intermodal connections and choices. A primary emphasis for these plans shall be the improvement and integration of all transportation modes to create a seamless intermodal transportation system for people and goods.

In the development of the state-wide multimodal transportation plan, the department shall identify and document potential affected environmental resources, including, but not limited to, wetlands, storm water runoff, flooding, air quality, fish passage, and wildlife habitat. The department shall conduct its environmental identification and documentation in coordination with all relevant environmental regulatory authorities, including, but not limited to, local governments. The department shall give the relevant environmental regulatory authorities an opportunity to review the department's environmental plans. The relevant environmental regulatory authorities shall provide comments on the department's environmental plans in a timely manner. Environmental identification and documentation as provided for in RCW 47.01.300 and this section is not intended to create a private right of action or require an environmental impact statement as provided in chapter 43.21C RCW. [1994 c 258 § 5; 1993 c 446 § 4.]

Captions not law—1994 c 258: See note following RCW 36.70A.420.

47.06.050 State-owned facilities component. The state-owned facilities component of the state-wide transportation plan shall consist of:

(1) The state highway system plan, which identifies program and financing needs and recommends specific and financially realistic improvements to preserve the structural integrity of the state highway system, ensure acceptable operating conditions, and provide for enhanced access to scenic, recreational, and cultural resources. The state highway system plan shall contain the following elements:

(a) A system preservation element, which shall establish structural preservation objectives for the state highway system including bridges, identify current and future structural deficiencies based upon analysis of current conditions and projected future deterioration, and recommend program funding levels and specific actions necessary to preserve the structural integrity of the state highway system consistent with adopted objectives. This element shall serve as the basis for the preservation component of the six-year highway program and the two-year biennial budget request to the legislature;

(b) A capacity and operational improvement element, which shall establish operational objectives, including safety considerations, for moving people and goods on the state highway system, identify current and future capacity, operational, and safety deficiencies, and recommend program funding levels and specific improvements and strategies necessary to achieve the operational objectives. In developing capacity and operational improvement plans the department shall first assess strategies to enhance the operational efficiency of the existing system before recommending system expansion. If any funds become available from the federal government or otherwise for expenditure in conjunction with county funds for the construction, alteration, repair, or improvement of any county road and the work is to be performed by the department, the state treasurer shall, upon notice from the department, set aside from any moneys in the motor vehicle fund credited to any such county, the cost thereof, together with the cost of engineering, supervision, and other proper items, or so much of the money in the state treasury to the credit of the county as may be necessary for use in conjunction with funds from the federal government to accomplish the work. The work shall then be performed by the department and paid from the money so set aside upon vouchers approved and submitted by the department in the same manner as payment is made for such work on state highways: PROVIDED, That the legislative authority of any such county shall have, by proper resolution, filed in duplicate in the office of the department and approved by it, determined the county road construction, alteration, repair, or improvement to be performed in such county and the same is found to conform in all respects to the requirements necessary for the use of such funds of the

In its determination the department is authorized to demand of those officials that the wrongful or illegal expenditures shall be stopped, adjusted, or remedied and that restitution of any wrongful or illegal diversion or use shall be made; and it may notify the officials that if the wrong is not stopped, remedied, or adjusted, or restitution made to its satisfaction within a specified period fixed by it, it will direct the withholding of further payments to the county or city from the motor vehicle fund. The county or city shall have ten days after the notice is given within which to correct or remedy the wrong, or wrongful and

illegal practices, to make restitution, or to adjust the matter to the satisfaction of the department.

If no correction, remedy, adjustment, or restitution is made within ten days to the satisfaction of the department, it has power to request in writing that the state treasurer withhold further payments from the motor vehicle fund to the county or city; and it is the duty of the state treasurer upon being so notified to withhold further payments from the motor vehicle fund to the county or city involved until the officials are notified in writing by the department that payments may be resumed.

The department is also authorized to notify in writing the prosecuting attorney of the county in which the violation occurs of the facts, and it is the duty of the prosecuting attorney to file charges and to criminally prosecute any and all persons guilty of any such violation. FIRST PRIORITY PROJECT—1951 ACT

47.10.010 First priority highway projects—Declaration of. Reconstruction of primary state highway No. 1 from Oregon to British Columbia, construction of four traffic lanes at Snoqualmie Pass, construction of an adequate highway bridge from Pasco to Kennewick and construction of county arterial highways and farm to market roads in Grant, Franklin and Adams counties to coincide with the opening of lands for settlement in the Columbia Basin irrigation project, are declared to be highway projects of the first priority. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The reimbursement of the motor vehicle fund for money used to purchase Agate Pass Bridge bonds will also make possible other war emergency or high priority highway construction. The threat of war makes acceleration of construction a vital necessity at this time. [1961 c 13 § 47.10.010. Prior: 1951 c 121 § 1.]

47.10.020 Bond issue authorized—Use of motor vehicle fund. To provide funds for accelerating construction of these first priority projects, and to reimburse the motor vehicle fund for money expended for Agate Pass Bridge construction there shall be issued and sold limited obligation bonds of the state of Washington in the sum of sixty-six million seven hundred three thousand, six hundred and twenty-five dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the Washington state highway commission, provide for the issuance of coupon or registered bonds to be dated, issued and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects: PROVIDED, That if funds are available in the motor vehicle fund in an amount greater than is necessary to pay current demands such funds may be used to finance these first priority projects until such time as bonds are sold, as provided by law, at which time the motor vehicle fund shall be reimbursed. [1961 c 13 § 47.10.020. Prior: 1955 c 117 § 1; 1951 c 121 § 2.]

Reviser's note: Powers, duties, and functions of highway commission transferred to department of transportation; see RCW 47.01.031. Term

"Washington state highway commission" means department of transportation; see RCW 47.04.015.

47.10.030 Form and term of bonds. Each of such bonds shall be made payable at any time not exceeding twenty-five years from the date of its issuance, with such reserved rights of prior redemption as the state finance committee may prescribe to be specified therein. The bonds shall be signed by the governor and the state auditor under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued under authority of RCW 47.10.010 through 47.10.140 shall be fully negotiable instruments. [1961 c 13 § 47.10.030. Prior: 1951 c 121 § 3.]

47.10.040 Bonds not general obligations—Taxes pledged. Bonds issued under the provisions of RCW 47.10.010 through 47.10.140 shall distinctly state that they are not a general obligation of the state, but are payable in the manner provided in RCW 47.10.010 through 47.10.140 from the proceeds of all state excise taxes on motor vehicle fuels imposed by chapter 82.36 RCW and RCW 82.36.020, 82.36.230, 82.36.250, and 82.36.400, as derived from chapter 58, Laws of 1933, as amended, and as last amended by chapter 220, Laws of 1949; and *chapter 82.40 RCW and RCW 82.40.020, as derived from chapter 127, Laws of 1941, as amended, and as last amended by chapter 220, Laws of 1949. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.10.010 through 47.10.140, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay the principal and interest on all bonds issued under the provisions of RCW 47.10.010 through 47.10.140 when due. [1961 c 13 § 47.10.040. Prior: 1951 c 121 § 4.]

***Reviser's note:** Chapter 82.40 RCW and RCW 82.40.020 were repealed by 1971 ex.s. c 175 § 33; for later enactment see chapter 82.38 RCW.

47.10.050 Sale of bonds. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of RCW 47.10.010 through 47.10.140 shall be legal investment for any of the funds of the state, except the permanent school fund: PROVIDED, That bonds authorized herein to reimburse the motor vehicle

fund for the cost of the Agate Pass Bridge construction shall be sold at the earliest date which the committee finds feasible. [1961 c 13 § 47.10.050. Prior: 1951 c 121 § 5.]

47.10.060 Proceeds—Deposit and use. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the construction of such first priority projects, reimbursement of the motor vehicle fund for money expended for construction of the Agate Pass Bridge in order to make such money available for war emergency highway projects or other high priority highway uses, and payment of the expense incurred in the printing, issuance and sale of any such bonds. [1961 c 13 § 47.10.060. Prior: 1951 c 121 § 6.]

47.10.070 Source of funds for payment of principal and interest. Any funds required to repay such bonds, or the interest thereon when due, subject to the proviso of this section, shall be taken from that portion of the motor vehicle fund which results from the imposition of all excise taxes on motor vehicle fuels and which is, or may be, appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or the interest on any bonds: **PROVIDED**, That money required hereunder to pay interest on or to retire any bonds issued for Columbia Basin county arterial highways or farm to market roads shall be repaid by any such county or counties wherein such highways or roads are constructed in the manner set forth in RCW 47.10.110. [1984 c 7 § 100; 1961 c 13 § 47.10.070. Prior: 1951 c 121 § 7.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.10.080 Highway bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.10.070, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, which is hereby established, and which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1961 c 13 § 47.10.080. Prior: 1951 c 121 § 8.]

47.10.090 Excess sums in bond retirement fund—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor fuels, payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1961 c 13 § 47.10.090. Prior: 1951 c 121 § 11.]

47.10.100 Allocation of bonds. The bonds authorized herein are allocated to the first priority projects as follows:

(1) Forty-nine million two hundred fifty thousand dollars of the total issue for the acceleration of the reconstruction of primary state highway No. 1, said amount to be expended on said primary state highway No. 1 as follows: Thirty-three million five hundred thousand dollars between Everett, Seattle, Tacoma, Olympia, Chehalis, Centralia, Kelso, Vancouver, and the Oregon boundary line, and fifteen million seven hundred fifty thousand dollars between Everett and the Canadian boundary line;

(2) Six million five hundred thousand dollars of the total issue for the construction of the highway bridge from Pasco to Kennewick;

(3) Four million two hundred fifty thousand dollars of the total issue for the construction of a four lane highway at Snoqualmie Pass;

(4) Five million dollars of the total issue for the construction of Columbia Basin county arterial highways and farm to market roads in Grant, Franklin and Adams counties, for which the state must be reimbursed as provided in RCW 47.10.110; and

(5) One million seven hundred three thousand six hundred twenty-five dollars of the total issue for reimbursement of the motor vehicle fund for money spent for Washington toll bridge authority bonds purchased in connection with the construction of the Agate Pass Bridge, said sum of one million seven hundred three thousand six hundred twenty-five dollars to be used when it becomes available in the motor vehicle fund, under allotments to be made by the director of highways, for war emergency or other high priority highway projects: **PROVIDED**, That no bonds shall be issued for Columbia Basin county arterial highway and road purposes unless expenditures are actually required for the settlement of lands ready for irrigation in the Columbia Basin project and all construction of arterial highways and roads in such counties shall be accomplished by the engineering forces of the various counties under the supervision of the director of highways. [1961 c 13 § 47.10.100. Prior: 1951 c 121 § 12.]

Reviser's note: Powers, duties, and functions of director of highways transferred to secretary of transportation; see RCW 47.01.031. Term "director of highways" means secretary of transportation; see RCW 47.04.015.

47.10.110 Columbia Basin highway projects—Reimbursement by counties. The secretary shall report separately to the state finance committee all sums expended from funds resulting from the sale of bonds for Columbia

Basin county arterial highways and farm to market roads in Grant, Franklin, and Adams counties under the provisions of RCW 47.10.010 through 47.10.140. Those counties shall repay to the state all the cost of any Columbia Basin highway or road facilities actually constructed under the provisions of RCW 47.10.010 through 47.10.140 within each of such counties as follows: The state finance committee, at least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, shall ascertain the percentage of the motor vehicle funds arising from the excise taxes on motor vehicle fuels, which is to be transferred to such counties under the provisions of law which will be necessary to pay all of the interest upon or retire when due all of the portion of said bonds chargeable to expenditures incurred under the provisions of RCW 47.10.010 through 47.10.140 in each of said counties. The state finance committee shall notify the state treasurer of this estimate and the treasurer shall thereafter, when distributions are made from the motor vehicle fund to counties, retain such percentage of the total sums credited to such counties as aforesaid in the motor vehicle fund arising from the excise taxes on motor vehicle fuels until such fund is fully reimbursed for all expenditures under RCW 47.10.010 through 47.10.140 in Grant, Adams, and Franklin counties. Any money so retained shall be available for state highway purposes. [1984 c 7 § 101; 1961 c 13 § 47.10.110. Prior: 1951 c 121 § 9.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.10.120 Columbia Basin highway projects—Limit as to amounts currently retained. The sums retained from motor vehicle funds arising from the excise taxes on motor vehicle fuel, of any such counties shall not exceed in any distribution period fifty percent of the total amount to be credited to such county. If there shall be a deficit in the amount available for reimbursement of the motor vehicle fund, due to this provision, then such deficit shall continue to be a charge against any sums due any such county from the motor vehicle fund from such excise taxes until the full cost of such Columbia Basin highway facilities is paid. [1961 c 13 § 47.10.120. Prior: 1951 c 121 § 10.]

47.10.130 Agate Pass Bridge to become toll free—Cancellation of Agate Pass bonds. When the state finance committee has made arrangements for the sale of sufficient bonds to reimburse the motor vehicle fund in the sum of one million seven hundred three thousand six hundred twenty-five dollars as aforesaid, the committee shall notify the Washington toll bridge authority and the authority is thereafter directed to transfer the Agate Pass Bridge to the highway department for operation as a toll free part of the state highway system. The bonds of the authority issued to construct the Agate Pass Bridge shall then be canceled. [1961 c 13 § 47.10.130. Prior: 1951 c 121 § 13.]

Reviser's note: Powers, duties, and functions of toll bridge authority transferred to department of transportation; see RCW 47.01.031. Terms "Washington state toll bridge authority" and "authority" mean department of transportation; see RCW 47.04.015.

47.10.140 Appropriation from motor vehicle fund. There is appropriated from the motor vehicle fund for the

biennium ending March 31, 1953 the sum of sixty-six million seven hundred three thousand six hundred and twenty-five dollars, or so much thereof as may be necessary, to carry out the provisions of RCW 47.10.010 through 47.10.140, but no money shall be available under this appropriation from said fund unless a like amount of the bonds provided for herein are sold and the money derived deposited to the credit of such fund. [1961 c 13 § 47.10.140. Prior: 1951 c 121 § 15.]

ADDITIONAL BONDS—1953 ACT

47.10.150 Declaration of necessity for additional funds. Increased construction costs for highway and bridge construction since the enactment of a highway bond issue by the 1951 legislature makes necessary additional money with which to complete the sections of primary state highway No. 1 planned from funds allocated under RCW 47.10.010 through 47.10.140 and it is vital to the economy of the state and the safety of the traffic that these sections shall be completed to relieve traffic congestions, to add capacity in event of war, and to presently insure greater safety to highway users; the rapid increase of traffic across Snoqualmie Pass necessitates continued improvement of primary state highway No. 2 to provide four-lane paving contiguous to Snoqualmie Pass as the funds will permit; the rapid increase of traffic and the facilitation of movement of military forces and equipment from the military centers of the state makes imperative the construction of a highway from primary state highway No. 2 beginning approximately four miles west of North Bend thence southwesterly by the most feasible route by the way of Auburn to a junction with primary state highway No. 1 in the vicinity of Milton; said highway to follow approximately the route surveyed by the director of highways and covered in the report filed by him with the 1951 legislature commonly known as the "Echo Lake Route," as the funds provided for herein will permit; the construction of secondary state highways in to the Columbia Basin area is immediately necessary to provide needed state arterial highways for the irrigated lands of the Columbia Basin areas to market centers and thereby encourage the full development of the basin project. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The threat of war makes acceleration of construction a vital necessity at this time. [1961 c 13 § 47.10.150. Prior: 1953 c 154 § 1.]

Reviser's note: Powers, duties, and functions of director of highways transferred to department of transportation; see RCW 47.01.031. Term "director of highways" means secretary of transportation; see RCW 47.04.015.

47.10.160 Additional bonds—Issuance and sale authorized—Use of motor vehicle fund. To provide funds for accelerating construction of these priority projects there shall be issued and sold limited obligation bonds of the state of Washington in the sum of eighteen million dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the Washington state highway commission, provide for the issuance of coupon or registered bonds to be dated, issued

and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects: PROVIDED, That if funds are available in the motor vehicle fund in an amount greater than is necessary to pay current demands such funds may be used to finance these first priority projects until such time as bonds are sold, as provided by law, at which time the motor vehicle fund shall be reimbursed. [1961 c 13 § 47.10.160. Prior: 1955 c 117 § 2; 1953 c 154 § 2.]

Reviser's note: Powers, duties, and functions of highway commission transferred to department of transportation; see RCW 47.01.031. Term "Washington state highway commission" means department of transportation; see RCW 47.04.015.

47.10.170 Additional bonds—Form and term of bonds. Each of such bonds shall be made payable at any time not exceeding twenty-five years from the date of its issuance, with such reserved rights of prior redemption as the state finance committee may prescribe to be specified therein. The bonds shall be signed by the governor and the state auditor under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued under authority of RCW 47.10.150 through 47.10.270 shall be fully negotiable instruments. [1961 c 13 § 47.10.170. Prior: 1953 c 154 § 3.]

47.10.180 Additional bonds—Bonds not general obligations—Taxes pledged. Bonds issued under the provisions of RCW 47.10.150 through 47.10.270 shall distinctly state that they are not a general obligation of the state, but are payable in the manner provided in RCW 47.10.150 through 47.10.270 from the proceeds of all state excise taxes on motor vehicle fuels imposed by chapter 82.36 RCW and RCW 82.36.020, 82.36.230, 82.36.250, and 82.36.400, as derived from chapter 58, Laws of 1933, as amended, and as last amended by chapter 220, Laws of 1949; and *chapter 82.40 RCW and RCW 82.40.020, as derived from chapter 127, Laws of 1941, as amended, and as last amended by chapter 220, Laws of 1949. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.10.150 through 47.10.270 and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay the principal and interest on all bonds issued under the provisions of RCW 47.10.150 through 47.10.270 when due. [1961 c 13 § 47.10.180. Prior: 1953 c 154 § 4.]

***Reviser's note:** Chapter 82.40 RCW and RCW 82.40.020, see note following RCW 47.10.040.

47.10.190 Additional bonds—Sale of bonds. The bonds issued under RCW 47.10.150 through 47.10.270 shall be in denominations to be prescribed by the state finance

committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of RCW 47.10.150 through 47.10.270 shall be legal investment for any of the funds of the state, except the permanent school fund. [1961 c 13 § 47.10.190. Prior: 1953 c 154 § 5.]

47.10.200 Additional bonds—Proceeds—Deposit and use. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the construction of such priority projects, and payment of the expense incurred in the printing, issuance and sale of any such bonds. [1961 c 13 § 47.10.200. Prior: 1953 c 154 § 6.]

47.10.210 Additional bonds—Source of funds for payment of principal and interest. the motor vehicle fund which results from the imposition of excise taxes on motor vehicle fuels and which is, or may be appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1984 c 7 § 112; 1967 ex.s. c 7 § 19.]

The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the bond retirement fund, which fund shall be available solely for payment of interest or bonds when due. [1967 ex.s. c 7 § 21.]

Upon request being made by the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.790 in accordance with the provisions of chapter 39.42 RCW. The amount of such bonds issued and sold under the provisions of RCW 47.10.790 through 47.10.798 in any biennium may not exceed the amount of a specific appropriation therefor. Such bonds may be sold from time to time in such amounts as may be necessary for the orderly progress of the state highway improvements specified in RCW 47.10.790. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. The state finance committee may obtain insurance, letters of credit, or other credit facility devices with respect to the bonds and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of the bonds. Promissory notes or other obligations issued under this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued. [1986 c 290 § 6; 1979 ex.s. c 180 § 2.]

47.10.792 Bond proceeds—Deposit and use. The proceeds from the sale of the bonds authorized by RCW 47.10.790 shall be deposited in the motor vehicle fund and such proceeds shall be available only for the purposes enumerated in RCW 47.10.790, for the payment of bond anticipation notes, if any, and for the payment of the expense incurred in the drafting, printing, issuance, and sale of such bonds. The costs of obtaining insurance, letters of credit, or other credit enhancement devices with respect to the bonds shall be considered to be expenses incurred in the issuance and sale of the bonds. [1986 c 290 § 7; 1979 ex.s. c 180 § 3.]

47.10.793 Statement of general obligation—Pledge of excise taxes. Bonds issued under the provisions of RCW 47.10.790 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal of and interest on such bonds shall be first payable in the manner provided in RCW 47.10.790 through 47.10.798 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.10.790 through 47.10.798, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of RCW 47.10.790 through 47.10.798. [1995 c 274 § 6; 1979 ex.s. c 180 § 4.]

47.10.794 Designation of funds to repay bonds and interest. Any funds required to repay the bonds authorized by RCW 47.10.790 or the interest thereon when due shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state for expenditure pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1979 ex.s. c 180 § 5.]

47.10.795 Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.10.794, the percentage of the receipts in money of the motor vehicle fund resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments when due and shall notify the treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the highway bond retirement fund heretofore created in the state treasury, which funds shall be available solely for payment of the principal of and interest on the bonds when due. If in any month it shall appear that the estimated percentage of moneys so made is insufficient to meet the requirements for payment of the principal thereof or interest thereon, the treasurer shall notify the state finance committee forthwith, and such committee shall adjust its estimates so that all requirements for the interest on and principal of all bonds issued shall be fully met at all times. [1979 ex.s. c 180 § 6.]

47.10.796 Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special funds payable into the highway bond retirement fund shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds pursuant to applicable bond covenants or remain available in the fund to reduce requirements upon the fuel excise tax portion of the motor vehicle fund. [1979 ex.s. c 180 § 7.]

47.10.797 Bonds legal investment for state funds. The bonds authorized in RCW 47.10.790 through 47.10.798 constitute a legal investment for all state funds or for funds under state control and all funds of municipal corporations. [1979 ex.s. c 180 § 8.]

47.10.798 Bonds equal charge against fuel tax revenues. Except as otherwise provided by statute, general obligation bonds issued under authority of legislation enacted during the 45th session of the legislature and thereafter and which pledge motor vehicle and special fuel excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuel excise taxes. [1979 ex.s. c 180 § 9.]

47.10.799 Appropriation—Expenditure limited to bond sale proceeds. There is hereby appropriated from the motor vehicle fund to the department of transportation for the biennium ending June 30, 1981, the sum of ten million dollars, or so much thereof as may be necessary, to carry out the provisions of RCW 47.10.790: PROVIDED, That the money available for expenditure under this appropriation may not exceed the amount of money derived from the sale of ten million dollars of bonds authorized by RCW 47.10.790 and deposited to the credit of the motor vehicle fund. [1979 ex.s. c 180 § 10.]

47.10.800 Severability—1979 ex.s. c 180. If any provision of RCW 47.10.790 through 47.10.800 or its application to any person or circumstance is held invalid, the remainder of RCW 47.10.790 through 47.10.800 or the application of the provision to other persons or circumstances is not affected. [1979 ex.s. c 180 § 12.]

CATEGORY C IMPROVEMENTS—1993 ACT

47.10.812 Issuance and sale of general obligation bonds. In order to provide funds necessary for the location, design, right of way, and construction of state highway improvements that are identified as special category C improvements, there shall be issued and sold upon the request of the Washington state transportation commission a total of two hundred forty million dollars of general obligation bonds of the state of Washington. [1993 c 431 § 1.]

47.10.813 Administration and amount of sale. Upon the request of the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.812 through 47.10.817 in accordance with chapter 39.42 RCW. Bonds authorized by RCW 47.10.812 through 47.10.817 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [1993 c 431 § 2.]

47.10.814 Proceeds—Deposit and use. The proceeds from the sale of bonds authorized by RCW 47.10.812 through 47.10.817 shall be deposited in the special category C account in the motor vehicle fund. The proceeds shall be available only for the purposes enumerated in RCW 47.10.812, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting. [1993 c 431 § 3.]

47.10.815 Statement of general obligation—Pledge of excise taxes. Bonds issued under the authority of RCW 47.10.812 through 47.10.817 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in RCW 47.10.812 through 47.10.817 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.10.812 through 47.10.817, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.10.812 through 47.10.817. [1995 c 274 § 8; 1993 c 431 § 4.]

47.10.816 Designation of funds to repay bonds and interest. Both principal and interest on the bonds issued for the purposes of RCW 47.10.812 through 47.10.817 shall be payable from the highway bond retirement fund. The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the special category C account in the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.10.812 through 47.10.817 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the special category C account in the motor vehicle fund. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the special category C account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state,

counties, cities and towns, shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the special category C account not required for bond retirement or interest on the bonds. [1993 c 431 § 5.]

47.10.817 Equal charge against fuel tax revenues.

Bonds issued under the authority of RCW 47.10.812 through 47.10.816 and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle and special fuels excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuels excise taxes. [1993 c 431 § 6.]

47.10.818 Severability—1993 c 431. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1993 c 431 § 8.]

In order to provide funds necessary to implement the public-private transportation initiatives authorized by chapter 47.46 RCW, there shall be issued and sold upon the request of the Washington state transportation commission a total of twenty-five million six hundred twenty-five thousand dollars of general obligation bonds of the state of Washington. [1995 2nd sp.s. c 15 § 2; 1994 c 183 § 2.]

Severability—1995 2nd sp.s. c 15: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 2nd sp.s. c 15 § 9.]

Finding—1994 c 183: "The legislature finds and declares:

Successful implementation of the public-private transportation initiatives program authorized in chapter 47.46 RCW may require the financial participation of the state in projects authorized in that chapter.

The participation may take the form of loans, loan guarantees, user charge guarantees, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, or such other cash contribution arrangements as may improve the ability of the private entities sponsoring the projects to obtain financing.

It is in the best interests of the people of the state that state funding of possible financial participation in the projects authorized under chapter 47.46 RCW be in the form of long-term bonds. In order to repay expenditures incurred in the 1993-1995 biennium, up to two million two hundred thousand dollars of these bonds may be expended on highway improvement projects, under chapter 47.05 RCW." [1995 2nd sp.s. c 15 § 1; 1994 c 183 § 1.]

No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. In making such appropriation of the net proceeds of the sale of the bonds, the legislature shall specify what portion of the appropriation is provided for possible loans and what portion of the appropriation is provided for other forms of cash contributions to projects.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [1994 c 183 § 3.]

47.10.836 Proceeds—Deposit and use. The proceeds shall be available only for the purposes of making loans to entities authorized to undertake projects selected under chapter 47.46 RCW as enumerated in RCW 47.10.835, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting.

(3) Up to two million two hundred thousand dollars of the proceeds from the sale of bonds authorized by RCW 47.10.834 through 47.10.841 may be expended on highway improvement projects under chapter 47.05 RCW and for the payment of bond issuance cost, including the cost of underwriting. Such proceeds shall be deposited into the motor vehicle fund. [1995 2nd sp.s. c 15 § 3; 1994 c 183 § 4.]

47.12.010 Acquisition of property authorized—Condemnation actions—Cost. Whenever it is necessary to secure any lands or interests in land for a right of way for any state highway, or for the drainage thereof or construction of a protection therefor or so as to afford unobstructed vision therefor toward any railroad crossing or another public highway crossing or any point of danger to public travel or to provide a visual or sound buffer between highways and adjacent properties or for the purpose of acquiring sand pits, gravel pits, borrow pits, stone quarries, or any other land for the extraction of materials for construction or maintenance or both, or for any site for the erection upon and use as a maintenance camp, of any state highway, or any site for other necessary structures or for structures for the health and accommodation of persons traveling or stopping upon the state highways of this state, or any site for the construction and maintenance of structures and facilities adjacent to, under, upon, within, or above the right of way of any state highway for exclusive or nonexclusive use by an urban public transportation system, or for any other highway purpose, together with right of way to reach such property and gain access thereto, the department of transportation is authorized to acquire such lands or interests in land in behalf of the state by gift, purchase, or condemnation. In case of condemnation to secure such lands or interests in land, the action shall be brought in the name of the state of Washington in the manner provided for the acquiring of property for the public uses of the state, and in such action the selection of the lands or interests in land by the secretary of transportation shall, in the absence of bad faith, arbitrary, capricious,

or fraudulent action, be conclusive upon the court and judge before which the action is brought that said lands or interests in land are necessary for public use for the purposes sought. The cost and expense of such lands or interests in land may be paid as a part of the cost of the state highway for which such right of way, drainage, unobstructed vision, sand pits, gravel pits, borrow pits, stone quarries, maintenance camp sites, and structure sites or other lands are acquired. 47.12.011 Purchase options authorized. Whenever it becomes necessary or feasible to purchase rights of way for state highways, and the department deems it to be in the best interest of the general public, the department may secure options for purchase of property needed or proposed for any entire project or section thereof or proposed alignment for the location or relocation of any highway. [1984 c 7 § 114; 1961 c 13 § 47.12.011. Prior: 1955 c 49 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.023 Acquisition of state lands or interests or rights therein—Notice—Amount of compensation—Arbitration or court settlement—Reacquisition by department of natural resources. (1) Except as provided in RCW 47.12.026 and 47.12.029, whenever it is necessary to secure any lands or interests in lands for any highway purpose mentioned in RCW 47.12.010, or for the construction of any toll facility or ferry terminal or docking facility, the title to which is in the state of Washington and under the jurisdiction of the department of natural resources, the department of transportation may acquire jurisdiction over the lands or interests in lands, or acquire rights to remove materials from the lands in the manner set forth in this section.

(2) At any time after the final adoption of a right of way plan or other plan requiring the acquisition of lands or interests in lands for any purpose as authorized in subsection (1) of this section, the department of transportation may file with the department of natural resources a notice setting forth its intent to acquire jurisdiction of the lands or interests in lands under the jurisdiction of the department of natural resources required for right of way or other highway purposes related to the construction or improvement of such state highway, toll facility, or ferry terminal or docking facility.

(3) The department of transportation at the time of filing its notice of intent as provided in subsection (2) of this section shall file therewith a written statement showing the total amount of just compensation to be paid for the property in the event of settlement. The offer shall be based upon the department of transportation approved appraisal of the fair market value of the property to be acquired. In no event may the offer of settlement be referred to or used during any arbitration proceeding or trial conducted for the purpose of determining the amount of just compensation.

(4) Just compensation and/or fair market value for the purposes of this section shall be determined in accordance with applicable federal and state constitutional, statutory, and

case law relating to the condemnation of private and public property for public purposes.

(5) If the department of natural resources does not accept the offer of the department of transportation, the department of transportation may nonetheless pay to the department of natural resources the amount of its offer and obtain immediate possession and use of the property pending the determination of just compensation in the manner hereinafter provided.

(6) If the amount of just compensation is not agreed to, either the department of natural resources or the department of transportation may request in writing the appointment of an arbitrator for the purpose of determining the amount of compensation to be paid by the department of transportation for the acquisition of jurisdiction over the lands or interests in lands or rights therein. In that event the department of natural resources and the department of transportation may jointly agree on an arbitrator to determine the compensation, and his determination shall be final and conclusive upon both departments. The costs of the arbitrator shall be borne equally by the parties. If the department of natural resources and the department of transportation are unable to agree on the selection of an arbitrator within thirty days after a request therefor is made, either the department of transportation or the department of natural resources may file a petition with the superior court for Thurston county for the purpose of determining the amount of just compensation to be paid. The matter shall be tried by the court pursuant to the procedures set forth in RCW 8.04.080.

(7) Whenever the department of transportation has acquired immediate possession and use of property by payment of the amount of its offer to the department of natural resources, and the arbitration award or judgment of the court for the acquisition exceeds the payment for immediate possession and use, the department of transportation shall forthwith pay the amount of such excess to the department of natural resources with interest thereon from the date it obtained immediate possession. If the arbitration or court award is less than the amount previously paid by the department of transportation for immediate possession and use, the department of natural resources shall forthwith pay the amount of the difference to the department of transportation.

(8) Upon the payment of just compensation, as agreed to by the department of transportation and the department of natural resources, or as determined by arbitration or by judgment of the court, and other costs or fees as provided by statute, the department of natural resources shall cause to be executed and delivered to the department of transportation an instrument transferring jurisdiction over the lands or interests in lands, or rights to remove material from the lands, to the department of transportation.

(9) Except as provided in RCW 47.12.026, whenever the department of transportation ceases to use any lands or interests in lands acquired in the manner set forth in this section for the purposes mentioned herein, the department of natural resources may reacquire jurisdiction over the lands or interests in land by paying the fair market value thereof to the department of transportation. If the two departments are unable to agree on the fair market value of the lands or interests in lands, the market value shall be determined and the interests therein shall be transferred in accordance with

the provisions and procedures set forth in subsections (4) through (8) of this section. [1984 c 7 § 115; 1977 ex.s. c 103 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

(1) The department of transportation may acquire an easement for highway or toll facilities right of way or for ferry terminal or docking facilities, including the right to make necessary fills, on, over, or across the beds of navigable waters which are under the jurisdiction of the department of natural resources, in accordance with the provisions of RCW 47.12.023, except that no charge may be made to the department of transportation for such an easement.

(2) The department of transportation may obtain an easement for highway or toll facilities purposes or for ferry terminal or docking facilities on, over, or across harbor areas in accordance with RCW 47.12.023 but only when the areas are approved by the harbor line commission as a public place for public landings, wharves, or other public conveniences of commerce or navigation. No charge may be made to the department of transportation for such an easement.

(3) Upon the selection by the department of transportation of an easement for highway or toll facilities right of way or for ferry terminal or docking facilities, as authorized in subsections (1) and (2) of this section, the department of natural resources shall cause to be executed and delivered to the department of transportation an instrument transferring the easement. Whenever the state no longer requires the easement for highway or toll facilities right of way or for ferry terminal or docking facilities, the easement shall automatically terminate and the department of transportation shall, upon request, cause to be executed an instrument relinquishing to the department of natural resources all of its interest in the lands.

(4) The department of transportation, pursuant to the procedures set forth in RCW 47.12.023, may remove sand and gravel and borrow materials and stone from the beds of navigable waters under the jurisdiction of the department of natural resources which lie below the line of ordinary high water upon the payment of fair market value per cubic yard for such materials to be determined in the manner set forth in RCW 47.12.023.

(5) The department of transportation may acquire full jurisdiction over lands under the jurisdiction of the department of natural resources including the beds of navigable waters that are required for the relocation of the operating tracks of any railroad that will be displaced by the acquisition of such railroad property for state highway purposes. The department of transportation may exchange lands so acquired in consideration or partial consideration for the land or property rights needed for highway purposes and may cause to be executed a conveyance of the lands in the manner prescribed in RCW 47.12.150. In that event the department of transportation shall pay to the department of natural resources, as just compensation for the acquisition, the fair market value of the property, including the beds of any navigable waters, to be determined in accordance with

procedures set forth in RCW 47.12.023. [1984 c 7 § 116; 1977 ex.s. c 103 § 2.]

The department of transportation shall not acquire jurisdiction of any lands or interest in lands under the jurisdiction of the department of natural resources for any of the purposes set forth in RCW 47.12.150, 47.12.160, 47.12.180, 47.12.250, and 47.12.270. [1984 c 7 § 117; 1977 ex.s. c 103 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.040 Acquisition of property from a political subdivision. Whenever it is necessary to secure any lands for primary or secondary state highway right of way or other state highway purposes, the title to which is in any county of the state or in any political or municipal subdivision of the state, which land is not at the time being used as a public highway, the county legislative authority or the board of directors or governing body of any such political or municipal subdivision are authorized to directly lease, sell, or convey by gift the land or any interest therein to the state of Washington, without requiring competitive bids or notice to the public, and at such price as the legislative authority, directors, or governing body may deem for the best interests of the county or for the best interests of the political or municipal subdivision of the state. The county legislative authority or the directors or governing body of any political or municipal subdivision are empowered to execute a deed or other proper instrument to the land, passing title to the state of Washington, and the instrument need not require consideration other than the benefit which may be derived by the grantor on account of the use thereof. Whenever any state highway is established by legislative enactment and the state highway is upon the former route of a county road, the county legislative authority shall cause the title to the existing right of way or so much thereof as the department requires to be transferred to the state of Washington by proper instrument. [1984 c 7 § 118; 1961 c 13 § 47.12.040. Prior: 1943 c 266 § 1; 1937 c 53 § 26; Rem. Supp. 1943 § 6400-26.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.044 Proceedings to acquire property or rights for highway purposes—Precedence. Court proceedings necessary to acquire property or property rights for highway purposes pursuant to RCW 47.12.010 take precedence over all other causes not involving the public interest in all courts in cases where the state is unable to secure an order granting it immediate possession and use of the property or property rights pursuant to RCW 8.04.090 through 8.04.094. [1983 c 140 § 2.]

47.12.050 Work on remaining land as payment. Whenever it is considered in the securing of any lands for state highway purpose, whether by condemnation or otherwise, that it is for the best interest of the state, for specific structural items of damage claimed, the court or judge may order or the person whose lands are sought may agree that a portion or all work or labor necessary to the land or

remaining land by reason of the taking by way of damage, be performed by the state through the department as all or a part of the consideration or satisfaction of the judgment therefor, in which event the department may perform the work as a portion of the right of way cost of the state highway. [1984 c 7 § 119; 1961 c 13 § 47.12.050. Prior: 1937 c 53 § 27; RRS § 6400-27.]

(2) Whenever the department determines that any real property owned by the state of Washington and under the jurisdiction of the department is no longer required for transportation purposes and that it is in the public interest to do so, the department may sell the property or exchange it in full or part consideration for land or improvements or for construction of improvements at fair market value to any of the following governmental entities or persons:

If more than one abutting private owner requests in writing the right to purchase the property within fifteen days after receiving notice of the proposed sale, the property shall be sold at public auction in the manner provided in RCW 47.12.283;

(g) To any person through the solicitation of written bids through public advertising in the manner prescribed by RCW 47.28.050;

(h) To any other owner of real property required for transportation purposes; or

(i) In the case of property suitable for residential use, any nonprofit organization dedicated to providing affordable housing to very low-income, low-income, and moderate-income households as defined in RCW 43.63A.510 and is eligible to receive assistance through the Washington housing trust fund created in chapter 43.185 RCW.

(3) Sales to purchasers may at the department's option be for cash, by real estate contract, or exchange of land or improvements. Transactions involving the construction of improvements must be conducted pursuant to chapter 47.28 RCW or Title 39 RCW, as applicable, and must comply with all other applicable laws and rules.

(4) Conveyances made pursuant to this section shall be by deed executed by the secretary of transportation and shall be duly acknowledged.

(5) All moneys received pursuant to the provisions of this section less any real estate broker commissions paid

The inventory shall include the location, approximate size, and current zoning classification of the property. The department shall provide a copy of the inventory to the department of community, trade, and economic development by November 1, 1993, and every November 1 thereafter.

(2) By November 1 of each year, beginning in 1994, the department shall purge the inventory of real property of sites that are no longer available for the development of affordable housing. The department shall include an updated listing of real property that has become available since the last update. (3) The proceeds of all sales and leases under this section shall be placed in the motor vehicle fund. [1984 c 7 § 120; 1977 ex.s. c 78 § 2.]

Whenever the secretary makes an agreement for any such transfer or conveyance, and the attorney general concurs therein, the secretary shall execute and deliver unto the grantee a deed of conveyance, easement, or other instrument, duly acknowl-

edged, as shall be necessary to fulfill the terms of the aforesaid agreement. All moneys paid to the state of Washington under any of the provisions hereof shall be deposited in the motor vehicle fund. [1984 c 7 § 121. Severability—1984 c 7: See note following RCW 47.01.141.

47.12.120 Lease of unused highway land or air space. The department is authorized, subject to the provisions and requirements of zoning ordinances of political subdivisions of government, to rent or lease any lands, improvements, or air space above or below any lands, including those used or to be used for both limited access and conventional highways which are held for highway purposes but are not presently needed, upon such terms and conditions as the department may determine. [1977 ex.s. c 151 § 50; 1969 c 91 § 1; 1961 c 13 § 47.12.120. Prior: 1949 c 162 § 1; Rem. Supp. 1949 § 6400-122.]

[1991 c 291 § 3; 1961 c 13 § 47.12.125. Prior: 1949 c 162 § 2; Rem. Supp. 1949 § 6400-123.]

47.12.140 Severance and sale of timber and other personalty—Removal of nonmarketable materials. (1) Except as otherwise provided in subsection (2) of this section, whenever the department shall have acquired any lands for highway purposes, except state granted lands, upon which are located any structures, timber or other thing of value attached to the land, which the department shall deem it best to sever from the land and sell as personal property, the same may be sold by the department at public auction after due notice thereof shall have been given in accordance with general regulations adopted by the secretary. The department may set minimum prices that will be accepted for any item offered for sale at public auction as herein provided and may prescribe terms or conditions of sale and, in the event that any item shall be offered for sale at such auction and for which no satisfactory bids shall be received or for which the amount bid shall be less than the minimum set by the department, it shall be lawful for the department to sell such item at private sale for the best price which it deems obtainable but at not less than the highest price bid at the public auction. The proceeds of all sales under this section shall be placed in the motor vehicle fund.

(2) The department may issue permits to residents of this state to remove specified quantities of standing or downed trees and shrubs, rock, sand, gravel, or soils which have no market value in place and which the department desires to be removed from state owned lands which are under the jurisdiction of the department. An applicant for

such a permit must certify that the materials so removed are to be used by himself and that they will not be disposed of to any other person. Removal of materials pursuant to permit shall be in accordance with such regulations as the department shall prescribe. The fee for a permit shall be two dollars and fifty cents which shall be deposited in the motor vehicle fund. The department may adopt regulations providing for special access to limited access facilities for the purpose of removal of materials pursuant to permits authorized in this section. 47.12.150 Acquisition, exchange of property to relocate displaced facility. Whenever the department shall need for highway purposes land or property rights belonging to the United States government or any municipality or political subdivision of the state, or which shall be a part of the right of way of any public utility having authority to exercise powers of eminent domain, when the acquisition of such property by the state will result in the displacement of any existing right of way or facility, the department is authorized to acquire by condemnation or otherwise such lands and property rights as shall be needed to relocate such right of way or facilities so displaced and to exchange lands or property rights so acquired in consideration or partial consideration for the land or property rights needed for highway purposes. The secretary of transportation shall execute each conveyance, which shall be duly acknowledged, necessary to accomplish such exchange. [1977 ex.s. c 151 § 53; 1975 1st ex.s. c 96 § 5; 1961 c 13 § 47.12.150. Prior: 1953 c 55 § 1.]

47.12.160 Acquisition of land outside highway right of way to minimize damage. Whenever a part of a parcel of land is to be acquired for state highway purposes and the remainder lying outside of the right of way is to be left in such shape or condition as to be of little value to its owner or to give rise to claims or litigation concerning severance or other damage, and its value does not exceed the probable amount of the severance claims or damages, the department may acquire by gift, purchase, or condemnation the whole parcel and may sell that portion lying outside of the highway right of way or may exchange the same for other property needed for highway purposes. The provisions of this section do not apply if the taking of that portion of the land lying outside of the highway right of way would deprive any adjacent owner of an existing right of ingress and egress to his property. [1984 c 7 § 122; 1961 c 13 § 47.12.160. Prior: 1953 c 131 § 1.]

47.12.170 Sale, lease of unneeded toll facility, ferry system property—Franchises for utility, railway purposes. See RCW 47.56.253 through 47.56.257.

47.12.180 Additional financing methods for property and engineering costs—Formal declarations. It is declared to be the public policy of the state of Washington to provide for the acquisition of real property and engineering costs necessary for the improvement of the state highway

system, in advance of actual construction, for the purposes of eliminating costly delays in construction, reducing hardship to owners of the property, and eliminating economic waste occasioned by the improvement of such property immediately prior to its acquisition for highway uses.

The legislature therefore finds and declares that purchase and condemnation of real property necessary for the state highway system and engineering costs, reasonably in advance of programmed construction, is a public use and purpose and a highway purpose.

The department is hereby authorized to purchase or condemn any real property or property rights therein which it deems will be necessary for the improvement of routes on the state highway system by the method provided in RCW 47.12.180 through 47.12.240 or alternatively by the method provided in RCW 47.12.242 through 47.12.246. Neither method may be used to condemn property or property rights in advance of programmed construction until the department has complied with hearing procedures required for the location or relocation of the type of highway for which the property is to be condemned. [1984 c 7 § 123; 1969 ex.s. c 197 § 1; 1961 c 281 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

Severability—1961 c 281: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1961 c 281 § 12.]

47.12.190 Additional financing methods for property and engineering costs—Purchase or condemnation. The department, in addition to its other powers and duties as provided by law, is authorized to purchase or condemn any real property or property rights therein which it deems will be necessary for the improvements of routes on the state highway system by the method provided in RCW 47.12.180 through 47.12.240. Condemnation actions brought hereunder shall be brought in the name of the state as provided for acquiring property for the public uses of the state, and in such actions selection of the property and property rights by the secretary of transportation is conclusive that they are necessary for the purposes sought, in the absence of bad faith, or arbitrary, capricious, or fraudulent action. [1977 ex.s. c 151 § 54; 1961 c 281 § 2.]

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.200 Additional financing methods for property and engineering costs—Agreements with state finance committee. The transportation commission may enter into agreements with the state finance committee for financing the acquisition, by purchase or condemnation, of real property together with engineering costs that the transportation commission deems will be necessary for the improvement of the state highway system. Such agreements may provide for the acquisition of an individual parcel or for the acquisition of any number of parcels within the limits of a contemplated highway project. [1977 ex.s. c 151 § 55; 1969 ex.s. c 197 § 2; 1961 c 281 § 3.]

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.210 Additional financing methods for property and engineering costs—Warrants on motor vehicle

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.242 "Advance right of way acquisition" defined. The term "advance right of way acquisition" means the acquisition of property and property rights, generally not more than ten years in advance of programmed highway construction projects, together with the engineering costs necessary for such advance right of way acquisition. Any property or property rights purchased must be in designated highway transportation corridors and be for projects approved by the commission as part of the state's six-year plan or included in the state's route development planning effort. [1991 c 291 § 1; 1969 ex.s. c 197 § 6.]

47.12.244 Advance right of way revolving fund. There is created the "advance right of way revolving fund" in the custody of the treasurer, into which the department is authorized to deposit directly and expend without appropriation:

(1) An initial deposit of ten million dollars from the motor vehicle fund included in the department of transportation's 1991-93 budget;

(2) All moneys received by the department as rental income from real properties that are not subject to federal aid reimbursement, except moneys received from rental of capital facilities properties as defined in chapter 47.13 RCW; and

(3) Any federal moneys available for acquisition of right of way for future construction under the provisions of section 108 of Title 23, United States Code. [1991 c 291 § 2; 1984 c 7 § 125; 1969 ex.s. c 197 § 7.]

47.12.246 Reimbursement to advance right of way revolving fund. (1) After any properties or property rights are acquired from funds in the advance right of way revolving fund, the department shall manage the properties in accordance with sound business practices. Funds received from interim management of the properties shall be deposited in the advance right of way revolving fund.

(2) When the department proceeds with the construction of a highway which will require the use of any of the property so acquired, the department shall reimburse the

advance right of way revolving fund, from other funds available to it, the current appraised value of the property or property rights required for the project together with damages caused to the remainder by the acquisition after offsetting against all such compensation and damages the special benefits, if any, accruing to the remainder by reason of the state highway being constructed.

(3) When the department determines that any properties or property rights acquired from funds in the advance right of way revolving fund will not be required for a highway construction project the department may sell the property at fair market value in accordance with requirements of RCW 47.12.063. All proceeds of such sales shall be deposited in the advance right of way revolving fund.

(4) Deposits in the fund may be reexpended as provided in RCW 47.12.180, 47.12.200 through 47.12.230, and 47.12.242 through 47.12.248 without further or additional appropriations. [1991 c 291 § 4; 1984 c 7 § 126; 1969 ex.s. c 197 § 9.]

Whenever the department purchases or condemns any property under RCW 47.12.180 through 47.12.240 or 47.12.242 through 47.12.246, the department shall cause any structures so acquired and not removed within a reasonable time to be maintained in good appearance. [1984 c 7 § 127; 1969 ex.s. c 197 § 10.]

The department is authorized to acquire by purchase, lease, condemnation, gift, devise, bequest, grant, or exchange, title to or any interests or rights in real property adjacent to state highways for the preservation of natural beauty, historic sites or viewpoints or for safety rest areas or to provide a visual or sound buffer between highways and adjacent properties. However, the department shall not acquire, by condemnation, less than an owner's entire interest for providing a visual or sound buffer between highways and adjacent properties under RCW 47.12.010 and 47.12.250 if the owner objects to the taking of a lesser interest or right. [1984 c 7 § 128; 1967 c 108 § 5; 1965 ex.s. c 170 § 62.]

The department may obtain and exercise options for the purchase of property to be used for purposes described in this section. The department shall not expend any funds for acquisition or construction costs of any parking facility to be operated as a part of a transit system by a metropolitan municipal corporation unless the facility has been approved by the department in advance of its acquisition or construction. [1984 c 7 § 129; 1973 2nd ex.s. c 18 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.283 Sale of real property authorized—Procedure—Disposition of proceeds. (1) Whenever the department of transportation determines that any real property owned by the state of Washington and under the jurisdiction of the department is no longer required for highway purposes and that it is in the public interest to do so, the department may, in its discretion, sell the property under RCW 47.12.063 or under subsections (2) through (6) of this section.

(2) Whenever the department determines to sell real property under its jurisdiction at public auction, the department shall first give notice thereof by publication on the same day of the week for two consecutive weeks, with the first publication at least two weeks prior to the date of the auction, in a legal newspaper of general circulation in the area where the property to be sold is located. The notice shall be placed in both the legal notices section and the real estate classified section of the newspaper. The notice shall contain a description of the property, the time and place of the auction, and the terms of the sale. The sale may be for cash or by real estate contract.

(3) The department shall sell the property at the public auction, in accordance with the terms set forth in the notice, to the highest and best bidder providing the bid is equal to or higher than the appraised fair market value of the property.

(4) If no bids are received at the auction or if all bids are rejected, the department may, in its discretion, enter into negotiations for the sale of the property or may list the property with a licensed real estate broker. No property shall be sold by negotiations or through a broker for less than the property's appraised fair market value. Any offer to purchase real property pursuant to this subsection shall be in writing and may be rejected at any time prior to written acceptance by the department.

(5) Before the department shall approve any offer for the purchase of real property having an appraised value of more than ten thousand dollars, pursuant to subsection (4) of this section, the department shall first publish a notice of the proposed sale in a local newspaper of general circulation in the area where the property is located. The notice shall include a description of the property, the selling price, the terms of the sale, including the price and interest rate if sold by real estate contract, and the name and address of the

department employee or the real estate broker handling the transaction. The notice shall further state that any person may, within ten days after the publication of the notice, deliver to the designated state employee or real estate broker a written offer to purchase the property for not less than ten percent more than the negotiated sale price, subject to the same terms and conditions. A subsequent offer shall not be considered unless it is accompanied by a deposit of twenty percent of the offer in the form of cash, money order, cashier's check, or certified check payable to the Washington state treasurer, to be forfeited to the state (for deposit in the motor vehicle fund) if the offeror fails to complete the sale if the offeror's offer is accepted. If a subsequent offer is received, the first offeror shall be informed by registered or certified mail sent to the address stated in his offer. The first offeror shall then have ten days, from the date of mailing the notice of the increased offer, in which to file with the designated state employee or real estate broker a higher offer than that of the subsequent offeror. After the expiration of the ten day period, the department shall approve in writing the highest and best offer which the department then has on file.

(6) All moneys received pursuant to this section, less any real estate broker's commissions paid pursuant to RCW 47.12.320, shall be deposited in the motor vehicle fund. [1979 ex.s. c 189 § 1.]

Effective date—1979 ex.s. c 189: "This 1979 act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1979." [1979 ex.s. c 189 § 8.]

47.12.287 Exchange of real property authorized—Conveyance by deed. The department of transportation is hereby authorized to enter into an exchange agreement with the owner of real property required for highway purposes to convey to such owner real property, owned by the state and under the department's jurisdiction, as full or part consideration for property to be acquired for highway purposes. Such an exchange agreement may relate back and apply to any exchange of property previously agreed to and partially executed (pursuant to an earlier exchange agreement found to be void for want of a governor's deed as required by prior law), and shall be subject to such agreed terms and conditions as are authorized by RCW 47.12.063(3) as now existing or hereafter amended. Any conveyance from the state of Washington made pursuant to this section shall be by deed executed by the secretary of transportation, which shall be duly acknowledged. [1979 ex.s. c 189 § 2.]

[1979 ex.s. c 189 § 3; 1975 1st ex.s. c 96 § 6; 1973 1st ex.s. c 177 § 2.]

47.13.010 Account created—Deposits and expenditures. The transportation capital facilities account is created in the state treasury. All receipts from transactions by the department of transportation involving capital facility sales, transfers, and property leases shall be deposited into the account. The department may make expenditures from the account subject to appropriation for the purchase, acquisition, exchange, sale, construction, repair, replacement, maintenance, and operation of real property, buildings, or structures necessary or convenient for the planning, design, construction, operation, maintenance, and administration of the state transportation system under the jurisdiction of the department. [1989 c 397 § 1.]

47.13.020 Federal moneys. The department may transfer to the transportation capital facilities account all federal moneys made available for the purpose of purchase, acquisition, exchange, sale, construction, repair, replacement, maintenance, or operation of real property, buildings, or structures necessary or convenient for the planning, design, construction, operation, maintenance, or administration of the state transportation system under the jurisdiction of the department. RIGHT OF WAY DONATIONS

47.14.910	Severability—1987 c 267.

47.14.010 Legislative finding, intent. The legislature finds that in numerous areas throughout the state, rapid expansion of residential, commercial, industrial, and business activities is producing increased traffic levels. The legislature further finds that many property owners have exhibited a willingness to donate real property or property rights for transportation improvements to accommodate such increases in traffic. The legislature recognizes that the cost of right of way acquisition is often a significant, and even a prohibitive cost element in many transportation improvement projects.

The legislature seeks to encourage the voluntary donation of right of way to the state, counties, cities, and towns for transportation improvements recognizing that such donations can result in direct benefits to property owners, developers, and the community at large.

It is the intent of the legislature to further facilitate the department of transportation's authority under RCW 47.12.010, 47.24.030, and 47.52.050 to accept donations of right of way for state transportation purposes. The legislature further intends to facilitate the authority of a city, town, or county to accept donations of right of way for other transportation purposes.

The legislature therefore declares it to be in the best interest and welfare of the citizens of Washington for the state department of transportation, and for counties, cities, and towns to actively foster and encourage donations of right of way by willing donors in all areas where transportation improvements are to be made. In addition, and in lieu of monetary compensation for property needed for right of way purposes, the legislature seeks to provide incentives to potential donors such as are set forth in RCW 47.14.030 and 47.14.040. [1987 c 267 § 1.]

47.14.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Right of way" means the area of land designated for transportation purposes.

(2) "Airspace" means the space above and below the gradeline of all highways, roads, and streets, and the area alongside the traveled way and within approved right of way lines. [1987 c 267 § 2.]

47.14.030 Credit against transportation benefit district assessment. The governing body of a transportation benefit district may give credit for all or any portion of any real property donation against an assessment, charge, or other required financial contribution for transportation improvements within a transportation benefit district established under RCW 36.73.020 or 35.21.225. The credit granted shall be available against any assessment, charge or other required financial contribution for any transportation purpose which utilizes the donated property. [1987 c 267 § 3.]

47.14.040 Advertising signs on donated parcel. The department or the county, city, or town to which the right of way is donated shall, upon request, grant the donor an airspace lease or a permit for the purpose of erecting or maintaining, or both, one or more signs advertising a business of the donor that is conducted on premises adjacent to the donated parcel unless the sign or signs would be detrimental to the safety and operation of the highway, road, or street. This provision applies to all highways, roads, and streets other than limited access highways and streets, where it applies only until the donated parcel becomes part of a completed operating facility. Except as provided in this section, any such sign shall conform to the requirements of all other applicable federal, state, and local laws and ordinances. The lease agreement or permit shall take into consideration applicable county and city zoning ordinances and may provide for compensation for removal of the sign in accordance with applicable federal, state, and local laws and ordinances. The lease agreement or permit shall specify the conditions for signage. [1987 c 267 § 4.]

47.14.050 Department's duties. The department shall:

(1) Give priority to the refinement and modification of right of way procedures and policies dealing with donation;

(2) Reduce or simplify paperwork requirements resulting from right of way procurement;

(3) Increase communication and education efforts as a means to solicit and encourage voluntary right of way donations;

(4) Enhance communication and coordination with local governments through agreements of understanding that address state acceptance of right of way donations secured under zoning, use permits, subdivision, and associated police power authority of local government;

(5) Report to the legislative transportation committee by January 31, 1988, on its efforts under this section. [1987 c 267 § 5.]

47.14.900 Construction. Nothing in this chapter may be construed to contravene the requirements of chapter 8.26 RCW. [1987 c 267 § 6.]

47.14.910 Severability—1987 c 267. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1987 c 267 § 12.]

47.17.001 Criteria for changes to system. In considering whether to make additions, deletions, or other changes to the state highway system, the legislature shall be guided by the following criteria as contained in the Road Jurisdiction Committee Phase I report to the legislature dated January 1987:

(1) A rural highway route should be designated as a state highway if it meets any of the following criteria:

(a) Is designated as part of the national system of interstate and defense highways (popularly called the interstate system); or

(b) Is designated as part of the system of numbered United States routes; or

(c) Contains an international border crossing that is open twelve or more hours each day.

(2) A rural highway route may be designated as a state highway if it is part of an integrated system of roads and:

(a) Carries in excess of three hundred thousand tons annually and provides primary access to a rural port or intermodal freight terminal;

(b) Provides a major cross-connection between existing state highways;

(c) Connects places exhibiting one or more of the following characteristics:

(i) A population center of one thousand or greater;

(ii) An area or aggregation of areas having a population equivalency of one thousand or more, such as, but not limited to, recreation areas, military installations, and so forth;

(iii) A county seat;

(iv) A major commercial-industrial terminal in a rural area with a population equivalency of one thousand or greater; or

(d) Is designated as a scenic and recreational highway.

(3) An urban highway route that meets any of the following criteria should be designated as part of the state highway system:

(a) Is designated as part of the interstate system;

(b) Is designated as part of the system of numbered United States routes;

(c) Is an urban extension of a rural state highway into or through an urban area and is necessary to form an integrated system of state highways;

(d) Is a principal arterial that is a connecting link between two state highways and serves regionally oriented through traffic in urbanized areas with a population of fifty thousand or greater, or is a spur that serves regionally oriented traffic in urbanized areas.

(4) The following guidelines are intended to be used as a basis for interpreting and applying the criteria to specific routes:

(a) For any route wholly within one or more contiguous jurisdictions which would be proposed for transfer to the state highway system under these criteria, if local officials prefer, responsibility will remain at the local level.

(b) State highway routes maintain continuity of the system by being composed of routes that join other state routes at both ends or to arterial routes in the states of Oregon and Idaho and the Province of British Columbia.

(c) Public facilities may be considered to be served if they are within approximately two miles of a state highway.

(d) Exceptions may be made to include:

(i) Rural spurs as state highways if they meet the criteria relative to serving population centers of one thousand or greater population or activity centers with population equivalencies or an aggregated population of one thousand or greater;

(ii) Urban spurs as state highways that provide needed access to Washington state ferry terminals, state parks, major seaports, and trunk airports; and

(iii) Urban connecting links as state highways that function as needed bypass routing of regionally oriented

through traffic and benefit truck routing, capacity alternative, business congestion, and geometric deficiencies.

(e) In urban and urbanized areas:

(i) Unless they are significant regional traffic generators, public facilities such as state hospitals, state correction centers, state universities, ferry terminals, and military bases do not constitute a criteria for establishment of a state highway; and

(ii) There may be no more than one parallel nonaccess controlled facility in the same corridor as a freeway or limited access facility as designated by the metropolitan planning organization.

(f) When there is a choice of two or more routes between population centers, the state route designation shall normally be based on the following considerations:

(i) The ability to handle higher traffic volumes;

(ii) The higher ability to accommodate further development or expansion along the existing alignment;

(iii) The most direct route and the lowest travel time;

(iv) The route that serves traffic with the most interstate, state-wide, and interregional significance;

(v) The route that provides the optimal spacing between other state routes; and

(vi) The route that best serves the comprehensive plan for community development in those areas where such a plan has been developed and adopted.

(g) A route designated in chapter 47.39 RCW as a scenic and recreational highway may be designated as a state highway in addition to a parallel state highway route. [1993 c 430 § 1; 1990 c 233 § 1.]

47.20.620 Washington State University highway, University of Washington approach—Measure of damage to buildings. If, in any condemnation proceeding authorized herein, it appears that there is any building wholly or partially upon any of the real estate to be taken, the jury, or the court, if the jury be waived, shall add to the value of the land taken the amount of damages to the building. If the entire building is taken, or if the building is damaged so that it cannot be readjusted to the real estate not taken, then the measure of damages shall be the fair cash value of the building. If part of a building is taken or damaged and the building can be readjusted or replaced on the real estate remaining, then the measure of damages shall be the cost of readjusting or moving the building, or part thereof left, together with the depreciation in the market value of said building by reason of said readjustment or moving. Proceeds of the sale shall be placed in the motor vehicle fund of the state treasury. The department shall have power to permit occupation of buildings on real estate so acquired for such specified limited time as it deems will lapse before construction of the approach, underpass, and highway can be undertaken; and in behalf of the state it may be shown in any condemnation proceeding the period during which such occupancy will be permitted for the purpose of mitigating damages. [1984 c 7 § 146; 1961 c 13 § 47.20.630. Prior: 1945 c 27 § 7; Rem. Supp. 1945 § 6402-46.]

47.20.635 University of Washington approach—Ordinance requisite—Construction and maintenance. No action may be taken by the department for the acquisition of real estate, rights, and interests for the approach and underpass to the University of Washington unless and until the city of Seattle, through its legislative authority, enacts an ordinance providing that the city of Seattle will, within three months after the necessary real estate, rights, and interests have been secured by the state as provided in this chapter, begin the work of grading, paving, and such other work as is necessary to complete and render available for use of the public, the approach and underpass and approaches to the underpass; and further providing that the city of Seattle shall thereafter keep and maintain the approach and underpass and approach to the underpass in a good state of repair and suitable for public travel and use, which construction and maintenance work the city of Seattle is hereby authorized and empowered to do and perform. Severability—1984 c 7: See note following RCW 47.01.141.

47.20.645 Interstate 90 corridor—Legislative finding. The legislature finds that the department initiated route studies for the location of that segment of the national system of interstate and defense highways (interstate system) between south Bellevue and state route No. 5 in Seattle in 1957 culminating in a corridor public hearing and adoption of a corridor in 1963; that thereafter the department, utilizing a multidisciplinary design team and soliciting the broadest public participation, developed a series of designs culminating in a public design hearing in 1970, a public limited access hearing in 1971, and adoption of a design and limited access plan for the facility in 1971; that commencing in 1970 the proposed facility has been the subject of numerous

lawsuits and administrative proceedings that have prevented advancement of the project to construction; that since further development of the project was enjoined by federal courts in 1971 the cost of constructing the project has increased by more than one hundred million dollars; that the traffic congestion and traffic hazards existing in the existing highway corridor between south Bellevue, Mercer Island, and the city of Seattle are no longer tolerable; that after more than seventeen years of studies the public interest now requires that final decisions regarding the appropriate system for meeting the transportation requirements between south Bellevue and the city of Seattle be made promptly and in accordance with a prescribed schedule.

It is therefore the sense of the legislature that further protracted delay in establishing the transportation system to be constructed between south Bellevue and state route No. 5 in the city of Seattle is contrary to the interest of the people of this state and can no longer be tolerated as acceptable public administration. Accordingly the schedule for finally determining the character of transportation modes between south Bellevue and state route No. 5 in the city of Seattle as set forth in RCW 47.20.645 through 47.20.653 and 47.20.900 is adopted as the public policy of this state. [1984 c 7 § 149; 1975 1st ex.s. c 272 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.20.647 Interstate 90 corridor—Withdrawal of local governments from project—Effect on use of state funds. (1) The Puget Sound council of governments (until July 1, 1975, known as the Puget Sound governmental conference) now engaged in a study of the withdrawal from the interstate system of that segment of state route No. 90 between the south Bellevue interchange and the Connecticut street interchange on state route No. 5 and the substitution of public mass transit projects in lieu thereof as authorized by section 103(e)(4) of Title 23, United States Code, is directed to complete all phases of the study by November 1, 1975.

(2) No later than January 15, 1976, the city councils of Seattle, Mercer Island and Bellevue and the county council of King County shall each by resolution either approve or disapprove a request to withdraw from the interstate system the segment of state route No. 90 between south Bellevue interchange and the Connecticut street interchange on state route No. 5. Nothing in this subsection shall be construed as requiring the city or county councils to adopt by January 15, 1976 any proposal for substitute mass transit projects.

(3) If at least three of the four city and county councils request withdrawal from the interstate system of the designated segment of state route No. 90 by January 15, 1976, and such request is thereafter concurred in by the governor and the Puget Sound council of governments, such determination shall be final as it relates to the state of Washington and except as may be required to terminate the project in an orderly manner, no moneys shall thereafter be expended from the motor vehicle fund for further development of the designated section of highway as an interstate highway without further express authorization of the legislature.

(4) If fewer than three of the four city and county councils request withdrawal from the interstate system of the designated segment of state route No. 90 by January 15, 1976, or if the governor does not concur in the withdrawal

request, then no tax revenues collected by the state of Washington shall thereafter be expended for the construction of substitute public mass transit projects in the Seattle metropolitan area pursuant to section 103(e)(4) of Title 23, United States Code, without further express authorization of the legislature. [1975 1st ex.s. c 272 § 2.]

47.20.653 Interstate 90 corridor—Court proceedings, priority. State court proceedings instituted to challenge the validity of any steps taken in pursuance of the construction of the segment of the interstate system between south Bellevue and state route No. 5 in Seattle, or the construction of substitute public mass transit projects in lieu thereof, shall take precedence over all other causes not involving the public interest in all courts of this state to the end construction of such facilities may be expedited to the fullest. The legislature of the state of Washington respectfully requests of the federal judiciary that challenges instituted in the federal courts relating to the validity of steps leading to the construction of the designated interstate highway or substitute public mass transit projects in lieu thereof be expedited to the fullest. [1975 1st ex.s. c 272 § 5.]

47.20.700 State route No. 504 (Spirit Lake Memorial Highway)—Extension and parking facilities. The department of transportation may provide for the construction of an extension of state route number 504 from the vicinity of Maple Flats to the vicinity of the United States Corps of Engineers debris dam on the north fork of the Toutle river on an alignment to be approved by the department of transportation. The department may enter into an agreement with the principal owner of the necessary right of way providing as follows:

(1) The owner of the right of way shall construct the highway extension and public parking facilities as specified by the department of transportation.

(2) The owner of the right of way shall convey to the state, right of way for the highway extension a minimum of one hundred fifty feet in width (except right of way presently under the control of the department of natural resources), together with areas for public parking facilities as designated by the department of transportation.

(3) The department of transportation shall reimburse the present owner of the right of way for the actual cost of construction of the highway extension and the public parking facilities.

(4) The construction of the highway extension and public parking facilities shall be completed within one year after March 27, 1982.

The department of transportation may acquire that part of the right of way necessary for the highway extension that is now under the control of the department of natural resources in the manner provided in RCW 47.12.023 through 47.12.029.

All expenditures by the department of transportation pursuant to this section shall be from appropriations for the construction of category A projects. [1982 c 82 § 2.]

47.20.710 Quinault Tribal Highway—Agreement authorized—Route. The department of transportation is

authorized to enter into a cooperative agreement with the governing authority for the Indian peoples of the Quinault Indian Reservation and appropriate agencies of the United States for the location, design, right of way acquisition, construction, and maintenance of a highway beginning at the south boundary of the Quinault Indian reservation on state route number 109, thence northerly along the present right of way of state route number 109 to the township line, thence inland and northerly across the Raft river to an intersection with state route number 101 south of Queets. The highway shall be known as the "Tribal Highway" and may also be designated by the department as state route number 109. It is anticipated that this highway construction will be funded from federal sources other than normal federal aid highway allocations. [1985 c 228 § 1.]

State route number 109: RCW 47.17.200.

47.20.715 Quinault Tribal Highway—Maintenance, operation, improvements—Intersections, access. As a part of the agreement, the department may assume responsibility for the operation and maintenance and future improvement of the highway. The agreement may also reserve to the governing authority for the Indian peoples of the Quinault Indian Reservation authority to construct public road intersections or grade separation crossings of the highway. Existing rights of access from adjoining property to existing state route number 109 from the south reservation boundary to the township line shall not be affected by RCW 47.20.710 through 47.20.735 or the agreement authorized by RCW 47.20.710. [1985 c 228 § 2.]

47.20.720 Quinault Tribal Highway—Certain portion as limited access. The department is authorized to determine the location of the highway from the township line to a junction with state route number 101 after consultations with the governing authority for the Indian peoples of the Quinault Indian Reservation and the bureau of Indian affairs. The department may then proceed with the establishment of this section of the highway as a limited access facility in the manner prescribed in RCW 47.52.131 through 47.52.137 and 47.52.195 (and the administrative rules adopted by the department to implement those sections), subject, however, to the following conditions: (1) The access report required by RCW 47.52.131 shall be approved by the governing authority for the Indian peoples of the Quinault Indian Reservation before public hearings; and (2) the final limited access plan adopted pursuant to RCW 47.52.137 at the conclusion of the public hearing, or after any appeal from it has been decided, shall be approved by the governing authority for the Indian peoples of the Quinault Indian Reservation and the bureau of Indian affairs before right of way is acquired for this section of highway. [1985 c 228 § 3.]

47.20.725 Quinault Tribal Highway—Acquisition of remaining right of way. The department is authorized to acquire the remaining right of way for the Tribal Highway by purchase or by condemnation under state or federal eminent domain statutes. The secretary of transportation pursuant to the agreement is authorized to convey by deed to the governing authority for the Indian peoples of the

Quinault Indian Reservation the right of way to the entire highway when fully acquired in return for a conveyance by the governing authority for the Indian peoples of the Quinault Indian Reservation to the state of Washington of a perpetual easement for public travel on the through lanes and shoulders of the highway when constructed. The agreement may also authorize the governing authority for the Indian peoples of the Quinault Indian Reservation to convey to the United States an easement to construct, maintain, and repair the highway improvements if such an easement is required by regulations of the bureau of Indian affairs. [1985 c 228 § 4.]

47.20.730 Quinault Tribal Highway—Department as agent. Except as otherwise provided by RCW 47.20.710 through 47.20.735 or by the agreement authorized by RCW 47.20.710, the department may proceed with the location, design, acquisition of right of way, construction, and maintenance of the highway as an agent of the governing authority for the Indian peoples of the Quinault Indian Reservation in accordance with applicable state or federal law. [1985 c 228 § 5.]

47.20.735 Quinault Tribal Highway—Authority to seek federal funding. The department is authorized to join with the governing authority for the Indian peoples of the Quinault Indian Reservation to seek federal funding for the construction of the Tribal Highway. [1985 c 228 § 6.]

47.20.900 Severability—1975 1st ex.s. c 272. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1975 1st ex.s. c 272 § 6.]

47.24.020 Jurisdiction, control of such streets. The jurisdiction, control, and duty of the state and city or town with respect to such streets shall be as follows:

(1) The department has no authority to change or establish any grade of any such street without approval of the governing body of such city or town, except with respect to limited access facilities established by the commission;

(2) The city or town shall exercise full responsibility for and control over any such street beyond the curbs and if no curb is installed, beyond that portion of the highway used for highway purposes. However, within incorporated cities and towns the title to a state limited access highway vests in the state, and, notwithstanding any other provision of this section, the department shall exercise full jurisdiction, responsibility, and control to and over such facility as provided in chapter 47.52 RCW;

(3) The department has authority to prohibit the suspension of signs, banners, or decorations above the portion of such street between the curbs or portion used for highway purposes up to a vertical height of twenty feet above the surface of the roadway;

(4) The city or town shall at its own expense maintain all underground facilities in such streets, and has the right to construct such additional underground facilities as may be necessary in such streets;

(5) The city or town has the right to grant the privilege to open the surface of any such street, but all damage occasioned thereby shall promptly be repaired either by the city or town itself or at its direction;

(6) The city or town at its own expense shall provide street illumination and shall clean all such streets, including storm sewer inlets and catch basins, and remove all snow, except that the state shall when necessary plow the snow on the roadway. In cities and towns having a population of twenty-two thousand five hundred or less according to the latest determination of population by the office of financial management, the state, when necessary for public safety, shall assume, at its expense, responsibility for the stability of the slopes of cuts and fills and the embankments within the right of way to protect the roadway itself. When the population of a city or town first exceeds twenty-two thousand five hundred according to the determination of population by the

office of financial management, the city or town shall have three years from the date of the determination to plan for additional staffing, budgetary, and equipment requirements before being required to assume the responsibilities under this subsection. The state shall install, maintain, and operate all illuminating facilities on any limited access facility, together with its interchanges, located within the corporate limits of any city or town, and shall assume and pay the costs of all such installation, maintenance, and operation incurred after November 1, 1954;

(7) The department has the right to use all storm sewers on such highways without cost; and if new storm sewer facilities are necessary in construction of new streets by the department, the cost of the facilities shall be borne by the state and/or city as may be mutually agreed upon between the department and the governing body of the city or town;

(8) Cities and towns have exclusive right to grant franchises not in conflict with state laws, over, beneath, and upon such streets, but the department is authorized to enforce in an action brought in the name of the state any condition of any franchise which a city or town has granted on such street. No franchise for transportation of passengers in motor vehicles may be granted on such streets without the approval of the department, but the department shall not refuse to approve such franchise unless another street conveniently located and of strength of construction to sustain travel of such vehicles is accessible;

(9) Every franchise or permit granted any person by a city or town for use of any portion of such street by a public utility shall require the grantee or permittee to restore, repair, and replace to its original condition any portion of the street damaged or injured by it;

(10) The city or town has the right to issue overload or overwidth permits for vehicles to operate on such streets or roads subject to regulations printed and distributed to the cities and towns by the department;

(11) Cities and towns shall regulate and enforce all traffic and parking restrictions on such streets, but all regulations adopted by a city or town relating to speed, parking, and traffic control devices on such streets not identical to state law relating thereto are subject to the approval of the department before becoming effective. All regulations pertaining to speed, parking, and traffic control devices relating to such streets heretofore adopted by a city or town not identical with state laws shall become null and void unless approved by the department heretofore or within one year after March 21, 1963;

(12) The department shall erect, control, and maintain at state expense all route markers and directional signs, except street signs, on such streets;

(13) The department shall install, operate, maintain, and control at state expense all traffic control signals, signs, and traffic control devices for the purpose of regulating both pedestrian and motor vehicular traffic on, entering upon, or leaving state highways in cities and towns having a population of twenty-two thousand five hundred or less according to the latest determination of population by the office of financial management. Such cities and towns may submit to the department a plan for traffic control signals, signs, and traffic control devices desired by them, indicating the location, nature of installation, or type thereof, or a proposed amendment to such an existing plan or installation, and the

department shall consult with the cities or towns concerning the plan before installing such signals, signs, or devices. Cities and towns having a population in excess of twenty-two thousand five hundred according to the latest determination of population by the office of financial management shall install, maintain, operate, and control such signals, signs, and devices at their own expense, subject to approval of the department for the installation and type only. When the population of a city or town first exceeds twenty-two thousand five hundred according to the determination of population by the office of financial management, the city or town shall have three years from the date of the determination to plan for additional staffing, budgetary, and equipment requirements before being required to assume the responsibilities under this subsection. For the purpose of this subsection, striping, lane marking, and channelization are considered traffic control devices;

(14) All revenue from parking meters placed on such streets belongs to the city or town;

(15) Rights of way for such streets shall be acquired by either the city or town or by the state as shall be mutually agreed upon. Costs of acquiring rights of way may be at the sole expense of the state or at the expense of the city or town or at the expense of the state and the city or town as may be mutually agreed upon. Title to all such rights of way so acquired shall vest in the city or town: PROVIDED, That no vacation, sale, rental, or any other nontransportation use of any unused portion of any such street may be made by the city or town without the prior written approval of the department; and all revenue derived from sale, vacation, rental, or any nontransportation use of such rights of way shall be shared by the city or town and the state in the same proportion as the purchase costs were shared;

(16) If any city or town fails to perform any of its obligations as set forth in this section or in any cooperative agreement entered into with the department for the maintenance of a city or town street forming part of the route of a state highway, the department may notify the mayor of the city or town to perform the necessary maintenance within thirty days. If the city or town within the thirty days fails to perform the maintenance or fails to authorize the department to perform the maintenance as provided by RCW 47.24.050, the department may perform the maintenance, the cost of which is to be deducted from any sums in the motor vehicle fund credited or to be credited to the city or town. (1) Eighty-seven percent shall be allocated to urban counties, to cities with a population of five thousand and over, and to transportation benefit districts. Improvement projects may include, but are not limited to, multi-agency projects and arterial improvement projects in fast-growing areas.

To be eligible to receive these funds, a project must be (a) consistent with state, regional, and local transportation plans and consideration shall be given to the project's relationship, both actual and potential, with rapid mass transit and at such time as a rail plan is developed by the rail development commission, projects must be consistent therewith, (b) necessitated by existing or reasonably foreseeable congestion levels attributable to economic development or growth, and (c) partially funded by local government or private contributions, or a combination of such contributions. The board shall, for those projects meeting the eligibility criteria, determine what percentage of each project is funded by local and/or private contribution. Priority consideration shall be given to those projects with the greatest percentage of local and/or private contribution.

47.26.300 Bicycle routes—Legislative declaration. The state of Washington is confronted with emergency shortages of energy sources utilized for the transportation of its citizens and must seek alternative methods of providing public mobility.

Bicycles are suitable for many transportation purposes, and are pollution-free in addition to using a minimal amount of resources and energy. However, the increased use of bicycles for both transportation and recreation has led to an increase in both fatal and nonfatal injuries to bicyclists.

The legislature therefore finds that the establishment, improvement, and upgrading of bicycle routes is necessary to promote public mobility, conserve energy, and provide for the safety of the bicycling and motoring public. [1974 ex.s. c 141 § 1.]

47.26.305 Bicycle routes—Use of board funds.

Bicycle routes shall, when established in accordance with RCW 47.06.100 be eligible for establishment, improvement, and upgrading with board funds. The board shall adopt rules and procedures that will encourage the development of a system of bicycle routes within counties, cities, and towns. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If the bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of RCW 47.26.400 through 47.26.407 shall be legal investment for any of the funds of the state, except the permanent school fund. [1967 ex.s. c 83 § 38.]

47.26.403 Bonds—Bond proceeds—Deposit and use.

The principal of and interest on such bonds shall be first payable in the manner provided in RCW 47.26.400 through 47.26.407 from the proceeds of state excise taxes on motor vehicle fuels imposed by chapter 82.36 RCW and *chapter 82.40 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.26.400 through 47.26.407, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of RCW 47.26.400 through 47.26.407. [1973 1st ex.s. c 169 § 3; 1967 ex.s. c 83 § 40.]

***Reviser's note:** Chapter 82.40 RCW was repealed by 1971 ex.s. c 175 § 33; for later enactment see chapter 82.38 RCW.

47.26.405 Bonds—Designation of funds to repay bonds and interest. Any funds required to repay such bonds, or the interest thereon when due shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state under the provisions of RCW 46.68.100(6) as now or hereafter amended for construction of state highways in urban areas, and shall never constitute a charge against any allocations of any other such funds to the state, counties, cities, and towns unless and until

the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available to the state for construction of state highways in urban areas proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1977 ex.s. c 317 § 17; 1967 ex.s. c 83 § 41.]

Effective dates—Severability—1977 ex.s. c 317: See notes following RCW 82.36.010.

47.26.406 Bonds—Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.405, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which shall be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the bond retirement fund, hereby created, which fund shall be available solely for payment of interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1967 ex.s. c 83 § 42.]

47.26.407 Bonds—Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle fuels payable into the bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1967 ex.s. c 83 § 43.]

47.26.410 Expenditures from fuel taxes and bond proceeds for urban state highways in excess of amount apportionable to a region authorized. Notwithstanding the provisions of RCW 47.26.060, the department is authorized in any biennium, subject to proper appropriations, to expend from funds available pursuant to RCW 46.68.150, for urban state highway construction projects within a region, an amount including bond proceeds which may exceed the amount apportionable during the biennium to the region. The total amounts apportioned to each region through 1985 shall meet the apportionment requirements of RCW 47.26.060 for such period. [1984 c 7 § 162; 1967 ex.s. c 83 § 44.]

The first authorization bonds, series II bonds, and series III bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. The state finance committee may obtain insurance, letters of credit, or other credit facility devices with respect to the bonds and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of the bonds. Promissory notes or other obligations issued pursuant to this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. Bonds issued under the provisions of RCW 47.26.420 through 47.26.427 and 47.26.425 shall be legal investment for any of the funds of the state, except the permanent school fund. The money arising from the sale of the first authorization bonds, series II bonds, and series III bonds shall be deposited in the state treasury to the credit of the urban arterial trust account in the motor vehicle fund, and such money shall be available only for the construction and improvement of county and city urban arterials, and for payment of the expense incurred in the printing, issuance, and sale of any such bonds. The costs of obtaining insurance, letters of credit, or other credit enhancement devices with respect to the bonds shall be considered to be expenses incurred in the issuance and sale of the bonds. 47.26.424 Bonds—Statement describing nature of obligation—Pledge of excise taxes. The first authorization bonds, series II bonds, and series III bonds shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on such bonds shall be first payable in the manner provided in RCW 47.26.420 through 47.26.427, 47.26.425, and 47.26.4254 from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any such bonds and the interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all such bonds. 47.26.425 Bonds—Designation of funds to repay bonds and interest. Any funds required to repay the first authorization of two hundred million dollars of bonds authorized by RCW 47.26.420, as amended by section 18, chapter 317, Laws of 1977 ex. sess. or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the urban arterial trust account in the motor vehicle fund and the certain sums received by the small city account in the motor vehicle fund imposed by RCW 82.36.025(3) and 46.68.100(9), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the urban arterial trust account and the small city account proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1994 c 179 § 22; 1977 ex.s. c 317 § 20; 1967 ex.s. c 83 § 50.]

47.26.4252 Bonds—Series II bonds, 1979 reenactment—Designation of funds to repay bonds and interest. Any funds required to repay the authorization of series II bonds authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979, or the interest thereon when due, shall first be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and which is distributed to the urban arterial trust account in the motor vehicle fund and the certain sums received by the small city account in the motor vehicle fund imposed by RCW 82.36.025(3) and 46.68.100(9), subject, however, to the prior lien of the first authorization of bonds

authorized by RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979. If the moneys distributed to the urban arterial trust account and the small city account shall ever be insufficient to repay the first authorization bonds together with interest thereon, and the series II bonds or the interest thereon when due, the amount required to make such payments on such bonds or interest thereon shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.100 as now existing or hereafter amended. Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues which are distributable to the state, counties, cities, and towns, shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds or series II and series III bonds or interest on those bond issues. [1995 c 274 § 12; 1994 c 179 § 23; 1983 1st ex.s. c 49 § 23; 1979 c 5 § 8.]

47.26.4254 Bonds—Series III bonds—Designation of funds to repay bonds and interest. (1) Any funds required to repay series III bonds authorized by RCW 47.26.420, or the interest thereon, when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and that is distributed to the urban arterial trust account in the motor vehicle fund and the certain sums received by the small city account in the motor vehicle fund imposed by RCW 82.36.025(3) and 46.68.100(9), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420. If the moneys so distributed to the urban arterial trust account and the small city account, after first being applied to administrative expenses of the transportation improvement board and to the requirements of bond retirement and payment of interest on first authorization bonds and series II bonds as provided in RCW 47.26.425 and 47.26.4252, are insufficient to meet the requirements for bond retirement or interest on any series III bonds, the amount required to make such payments on series III bonds or interest thereon shall next be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.100, subject, however, to subsection (2) of this section.

(2) To the extent that moneys so distributed to the urban arterial trust account and the small city account are insufficient to meet the requirements for bond retirement or interest on any series III bonds, sixty percent of the amount required to make such payments when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state. The remaining forty percent shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes

on motor vehicle and special fuels and that is distributed to the cities and towns pursuant to RCW 46.68.100(1) and to the counties pursuant to RCW 46.68.100(3). Of the counties', cities', and towns' share of any additional amounts required in the fiscal year ending June 30, 1984, fifteen percent shall be taken from the counties' distributive share and eighty-five percent from the cities' and towns' distributive share. Of the counties', cities', and towns' share of any additional amounts required in each fiscal year thereafter, the percentage thereof to be taken from the counties' distributive share and from the cities' and towns' distributive share shall correspond to the percentage of funds authorized for specific county projects and for specific city and town projects, respectively, from the proceeds of series III bonds, for the period through the first eleven months of the prior fiscal year as determined by the chairman of the transportation improvement board and reported to the state finance committee and the state treasurer not later than the first working day of June.

(3) Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues that are distributable to the state, counties, cities, and towns shall be repaid from the first moneys distributed to the urban arterial trust account and the small city account not required for redemption of the first authorization bonds, series II bonds, or series III bonds or interest on these bonds. [1995 c 274 § 13; 1994 c 179 § 24; 1988 c 167 § 30; 1983 1st ex.s. c 49 § 24; 1981 c 315 § 10.]

47.26.4255 Bonds—Series II bonds, 1979 reenactment—Charge against fuel tax revenues. Except as otherwise provided by statute, the series II bonds issued under authority of RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979, the bonds authorized by RCW 47.60.560 through 47.60.640, and any general obligation bonds of the state of Washington which may be authorized by the forty-sixth legislature or thereafter and which pledge motor vehicle and special fuel excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuel excise taxes. [1979 c 5 § 9.]

Construction—1979 c 5: See note following RCW 47.26.420.

47.26.426 Bonds—Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such first authorization bonds, series II bonds, and series III bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.425, 47.26.4252, and 47.26.4254 the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer, subject to RCW 47.26.425, 47.26.4252, and

47.26.4254, shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the highway bond retirement fund, maintained in the office of the state treasurer, which fund shall be available for payment of interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1981 c 315 § 11; 1979 c 5 § 10; 1967 ex.s. c 83 § 51.]

Construction—1979 c 5: See note following RCW 47.26.420.

47.26.427 Bonds—Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1979 c 5 § 11; 1967 ex.s. c 83 § 52.]

Construction—1979 c 5: See note following RCW 47.26.420.

47.26.440 Budget for expenditures from funds administered by board—Estimate of revenues. Not later than November 1st of each even-numbered year the transportation improvement board shall prepare and present to the commission for comment and recommendation an adopted budget for expenditures from funds administered by the board during the ensuing biennium. The budget shall contain an estimate of the revenues to be credited to the several accounts and the amount, if any, of bond proceeds which the board determines should be made available through the sale of bonds in the ensuing biennium. [1994 c 179 § 25; 1988 c 167 § 32; 1984 c 7 § 163; 1967 ex.s. c 83 § 54.]

47.26.450 Allocation of funds—Value engineering studies—Rules. The board shall adopt rules and procedures to govern the allocation of funds subject to the appropriations actually approved by the legislature.

The board shall develop rules and procedures to require value engineering studies performed by an interagency team for certain board funded projects. When determining the process, the board shall consider the project cost, length, and complexity. [1994 c 179 § 26; 1988 c 167 § 33; 1987 c 360 § 2; 1973 1st ex.s. c 126 § 3; 1969 ex.s. c 171 § 6.]

Savings—Severability—1988 c 167: See notes following RCW 47.26.121.

47.26.460 Increase in funds allocated to a project—Rules—Factors. The board shall adopt reasonable rules pursuant to which funds allocated to a project may be increased upon a subsequent application of the county, city, town, or transportation benefit district constructing the project. The rules adopted by the board shall consider the following factors: (1) The financial effect of increasing the original allocation for the project upon other urban arterial projects either approved or requested; (2) whether the project for which an additional authorization is requested can be reduced in scope while retaining a usable segment; (3) whether the cost of the project shown in the original application was based upon reasonable engineering estimates; and (4) whether the requested additional authorization is to pay for an expansion in the scope of work originally approved. [1994 c 179 § 27; 1969 ex.s. c 171 § 7.]

BOND ISSUE—TRANSPORTATION PROJECTS IN URBAN AREAS

47.26.500 Issuance authorized. In order to provide funds necessary to meet the urgent construction needs on state, county, and city transportation projects, there are hereby authorized for issuance general obligation bonds of the state of Washington in the sum of fifty million dollars, which shall be issued and sold in such amounts and at such times as determined to be necessary by the state transportation improvement board. The amount of such bonds issued and sold under the provisions of RCW 47.26.500 through 47.26.507 in any biennium shall not exceed the amount of a specific appropriation therefor, from the proceeds of such bonds, for the construction of state, county, and city transportation projects. The issuance, sale, and retirement of the bonds shall be under the supervision and control of the state finance committee which, upon request being made by the board, shall provide for the issuance, sale, and retirement of coupon or registered bonds to be dated, issued, and sold from time to time in such amounts as shall be requested by the board. The board shall report all bond sale requests to the commission. [1994 c 179 § 28; 1993 c 440 § 1.]

47.26.501 Term—Signatures—Registration—Negotiable instruments. Each of such bonds shall be made payable at any time not exceeding thirty years from the date of its issuance, with such reserved rights of prior redemption, bearing such interest, and such terms and conditions, as the state finance committee may prescribe to be specified therein. The bonds shall be signed by the governor and the state treasurer under the seal of the state, either or both of which signatures may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in Seattle or New York City, as to principal alone, or as to both principal and interest under such rules as the state treasurer may adopt. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued hereunder shall be fully negotiable instruments. [1993 c 440 § 2.]

47.26.502 Denominations—Manner and terms of sale—State investment. The bonds issued under RCW 47.26.500 through 47.26.507 shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. The state finance committee may obtain insurance, letters of credit, or other credit facility devices with respect to the bonds and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of the bonds. Promissory notes or other obligations issued pursuant to this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. Bonds issued under the provisions of RCW 47.26.500 through 47.26.507 shall be legal investment for any of the funds of the state, except the permanent school fund. [1993 c 440 § 3.]

47.26.503 Use of proceeds. The money arising from the sale of the bonds shall be deposited in the state treasury to the credit of the transportation improvement account in the motor vehicle fund, and such money shall be available only for the construction and improvement of state, county, and city transportation projects, and for payment of the expense incurred in the printing, issuance, and sale of any such bonds. The costs of obtaining insurance, letters of credit, or other credit enhancement devices with respect to the bonds shall be considered to be expenses incurred in the issuance and sale of the bonds. [1993 c 440 § 4.]

47.26.504 Statement of obligation—Pledge of excise taxes. Bonds issued under the provisions of RCW 47.26.500 through 47.26.507 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on such bonds shall be first payable in the manner provided in RCW 47.26.500 through 47.26.507 from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any such bonds and the interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all such bonds. [1995 c 274 § 14; 1993 c 440 § 5.]

47.26.505 Funds for repayment. Any funds required to repay such bonds, or the interest thereon when due, shall

be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the transportation improvement account in the motor vehicle fund and the sums received by the small city account in the motor vehicle fund under RCW 46.68.095, and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the transportation improvement account proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1994 c 179 § 29; 1993 c 440 § 6.]

47.26.506 Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.505 the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments under RCW 47.26.500 through 47.26.507 when due, and shall notify the state treasurer of such estimated requirement. The state treasurer, subject to RCW 47.26.505, shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the highway bond retirement fund, maintained in the office of the state treasurer, which fund shall be available for payment of interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1993 c 440 § 7.]

47.26.507 Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1993 c 440 § 8.]

47.26.900 Severability—1967 ex.s. c 83. If any provision of this 1967 amendatory act or the application thereof to any person, firm, or corporation or circumstance is held invalid, in whole or in part, such invalidity shall not affect other provisions of the act which can be given effect without the invalid provisions or application and to this end the provisions of this 1967 amendatory act are declared to be severable. [1967 ex.s. c 83 § 55.]

47.26.910 Effective dates—1967 ex.s. c 83. This 1967 amendatory act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions and sections 1 through 55 and section 56, renumbered "Sec. 62", shall take effect on the first day of the month following the approval of this act by the governor; sections 56 through 61 shall take effect on July 1, 1967 with respect to fees paid on or after July 1, 1967. Fees paid pursuant to RCW 46.16.070, 46.16.072, 46.16.075 or 46.16.120 prior to July 1, 1967 shall not be affected by this act. [1967 ex.s. c 83 § 62.]

47.26.930 Construction—1969 ex.s. c 171. The rule of strict construction shall have no application to this 1969 act or to the provisions of chapter 47.26 RCW, and they shall be liberally construed in order to carry out an effective, efficient and equitable program of financial assistance to urban area cities and counties for arterial roads and streets. 47.28.010 Latitude in selecting route. Whenever the general route of any state highway shall be designated and laid out as running to or by way of certain designated points, without specifying the particular route to be followed to or by way of such points, the transportation commission shall determine the particular route to be followed by said state highway to or by way of said designated points, and shall be at liberty to select and adopt as a part of such state highway, the whole or any part of any existing public highway previously designated as a county road, primary road, or secondary road or now or hereafter classified as a county road. The commission need not select and adopt the entire routes for such state highways at one time, but may select and adopt parts of such routes from time to time as it deems advisable. Where a state highway is designated as passing by way of a certain point, this shall not require the commission to cause such state highway to pass through or touch such point but such designation is directional only and may be complied with by location in the general vicinity. The department of transportation is empowered to construct as a part of any state highway as designated and in addition to any portion meeting the limits of any incorporated city or town a bypass section either through or around any such incorporated city or town. [1977 ex.s. c 151 § 59; 1961 c 13 § 47.28.010. Prior: 1937 c 53 § 31; RRS § 6400-31.]

47.28.020 Width of right of way. From and after April 1, 1937, the width of one hundred feet is the necessary and proper right of way width for state highways unless the department, for good cause, adopts and designates a different width. This section shall not be construed to require the department to acquire increased right of way for any state highway in existence on such date. [1984 c 7 § 164; 1961 c 13 § 47.28.020. Prior: 1937 c 53 § 30; RRS § 6400-30; 1913 c 65 § 8; RRS § 6831.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.025 Description and plan of new or limited access highway—Recording. Whenever the department establishes the location, width, and lines of any new highway, or declares any such new highway as a limited access facility and schedules the acquisition of the right of way for the highway or facility within the ensuing two years, it may cause the description and plan of any such highway to be made, showing the center line of the highway and the established width thereof, and attach thereto a certified copy of the resolution. Such description, plan, and resolution shall then be recorded in the office of the county auditor of the proper county in a separate book kept for such purposes, which shall be furnished to the county auditor of the county by the department at the expense of the state. [1984 c 7 § 165; 1977 ex.s. c 225 § 1; 1961 c 13 § 47.28.025. Prior: 1955 c 161 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.026 Description and plan of new or limited access highway—Buildings and improvements prohibited, when. (1) No owner or occupier of lands, buildings, or improvements may erect any buildings or make any improvements within the limits of any such highway, the location, width, and lines of which have been established and

recorded as provided in RCW 47.28.025. If any such erection and improvements are made, no allowances may be had therefor by the assessment of damages. No permits for improvements within the limits may be issued by any authority. The establishment of any highway location as set forth in RCW 47.28.025 is ineffective after one year from the filing thereof if no action to condemn or acquire the property within the limits has been commenced within that time.

(2) Unless and until the department causes a plan of a proposed new highway or limited access facility to be recorded in the office of the county auditor as authorized in RCW 47.28.025, nothing contained in RCW 47.28.025 or 47.28.026 may be deemed to restrict or restrain in any manner the improvement, development, or other use by owners or occupiers of lands, buildings, or improvements within the limits of any proposed new or limited access highway or any proposed relocated or widened highway. Because of the uncertainties of federal aid and the state level of funding of proposed construction or improvement of state highways, plans for such improvements approved by the department shall be deemed tentative until filed with the county auditor as authorized in RCW 47.28.025 or until the department commences action to condemn or otherwise acquire the right of way for the highway improvements. [1984 c 7 § 166; 1977 ex.s. c 225 § 2; 1961 c 13 § 47.28.026. Prior: 1955 c 161 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.030 Contracts—State forces—Monetary limits—Small businesses, minority, and women contractors—Rules. A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right of way purposes may be repaired or renovated pending the use of such right of way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof is less than thirty thousand dollars: PROVIDED, That when delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than fifty thousand dollars. When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor. To enable a larger number of small businesses, and minority, and women contractors to effectively compete for highway department contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed fifty thousand dollars. The rules adopted under this section:

(1) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and

(2) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be

required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, materialmen, mechanics, and subcontractors from the previous partial payment; and

(3) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter 39.19 RCW. [1984 c 194 § 1; 1983 c 120 § 15; 1977 ex.s. c 225 § 3; 1973 c 116 § 1; 1971 ex.s. c 78 § 1; 1969 ex.s. c 180 § 2; 1967 ex.s. c 145 § 40; 1961 c 233 § 1; 1961 c 13 § 47.28.030. 47.28.035 Cost of project, defined. The cost of any project for the purposes of RCW 47.28.030 shall be the aggregate of all amounts to be paid for labor, material, and equipment on one continuous or interrelated project where work is to be performed simultaneously. The department shall not permit the construction of any project by state forces by dividing a project into units of work or classes of work to give the appearance of compliance with RCW 47.28.030. [1984 c 194 § 2.]

47.28.040 Precontract preparation of maps, plans, and specifications—Filing. Before entering into any contract for the construction, alteration, repair, or improvement of any state highway the department shall cause the highway to be surveyed throughout the entire length of the proposed construction, alteration, repair, or improvement and cause to be prepared maps, plans, and specifications, together with an estimate of the cost of the proposed work, and such information and directions as will enable a contractor to carry them out. The maps, plans, specifications, and directions shall be approved by the department and a copy thereof filed permanently in the department's office. [1984 c 7 § 167; 1961 c 13 § 47.28.040. Prior: 1937 c 53 § 32, part; RRS § 6400-32, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.050 Call for bids. Except as may be provided by rules and regulations adopted under RCW 47.28.030 as now or hereafter amended the department of transportation shall publish a call for bids for the construction of the highway according to the maps, plans, and specifications, once a week for at least two consecutive weeks, next preceding the day set for receiving and opening the bids, in not less than one trade paper of general circulation in the state. The call shall state the time, place, and date for receiving and opening the bids, give a brief description of

the location and extent of the work, and contain such special provisions or specifications as the department deems necessary. When necessary to implement chapter 39.19 RCW and the rules adopted to implement that chapter, the department shall include in its call for bids provisions or specifications requiring bidders to comply with chapter 39.19 RCW and the rules adopted to implement it: **PROVIDED**, That when the estimated cost of any contract to be awarded is less than fifty thousand dollars, the call for bids need only be published in at least one paper of general circulation in the county where the major part of the work is to be performed: **PROVIDED FURTHER**, That when the estimated cost of a contract to be awarded is seven thousand five hundred dollars or less, including the cost of materials, supplies, engineering, and equipment, the department of transportation need not publish a call for bids: **PROVIDED FURTHER**, That after a bid call has been advertised for two consecutive weeks it may be postponed and the bids opened one week later. [1983 c 120 § 16; 1979 ex.s. c 69 § 1; 1977 c 65 § 1; 1973 c 116 § 2; 1969 ex.s. c 180 § 1; 1961 c 13 § 47.28.050. Prior: 1959 c 319 § 33; 1955 c 147 § 1; 1937 c 53 § 33; RRS § 6400-33.]

Office of minority and women's business enterprises: Chapter 39.19 RCW.

47.28.060 Copy of map, plans, etc.—Charge. Any person, firm, or corporation is entitled to receive copies of the maps, plans, specifications, and directions for any work upon which call for bids has been published, upon request therefor and subsequent payment to the department of a reasonable sum as required by the department in the call for bids for each copy of such maps, plans, and specifications. Any money so received shall be certified by the department to the state treasurer and deposited to the credit of the motor vehicle fund. The department may deliver with or without charge informational copies of maps, plans, specifications, and directions at such places as it may designate. [1985 c 242 § 1; 1984 c 7 § 168; 1971 c 36 § 1; 1965 ex.s. c 64 § 1; 1961 c 13 § 47.28.060. Prior: 1937 c 53 § 34; RRS § 6400-34.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.070 Form of bid—Data required—Requirements—Refusal to furnish form—Appeal. Bid proposals upon any construction or improvement of any state highway shall be made upon contract proposal form supplied by the department and in no other manner. The department shall, before furnishing any person, firm, or corporation desiring to bid upon any work for which a call for bid proposals has been published with a contract proposal form, require from the person, firm, or corporation, answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the financial ability and experience of the person, firm, or corporation in performing state highway, road, or other public work. The questionnaire and financial statement shall be sworn to before a notary public or other person authorized to take acknowledgment of deeds, and shall be submitted once a year and at such other times as the department may require. Whenever the department is not satisfied with

the sufficiency of the answers contained in the questionnaire and financial statement or whenever the department determines that the person, firm, or corporation does not meet all of the requirements set forth in this section it may refuse to furnish the person, firm, or corporation with a contract proposal form, and any bid proposal of the person, firm, or corporation must be disregarded. In order to obtain a contract proposal form, a person, firm, or corporation shall have all of the following requirements:

(1) Adequate financial resources or the ability to secure such resources;

(2) The necessary experience, organization, and technical qualifications to perform the proposed contract;

(3) The ability to comply with the required performance schedule taking into consideration all of its existing business commitments;

(4) A satisfactory record of performance, integrity, judgment, and skills; and

(5) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

The refusal is conclusive unless appeal therefrom to the superior court of Thurston county is taken within five days, which appeal shall be heard summarily within ten days after it is taken and on five days' notice thereof to the department. [1984 c 7 § 169; 1967 ex.s. c 145 § 39; 1961 c 13 § 47.28.070. Prior: 1937 c 53 § 35; RRS § 6400-35.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.075 Financial information not open to public inspection. The department of transportation shall not be required to make available for public inspection and copying financial information supplied by any person, firm, or corporation for the purpose of qualifying to submit a bid or proposal for highway construction or improvement as required by RCW 47.28.070. [1981 c 215 § 1.]

47.28.080 Withdrawal of bids—New bids—Time fixed in call controls. Any person, firm, or corporation proposing a bid for the construction or improvement of any state highway in response to a call for bids published therefor may withdraw the bid proposal without forfeiture and without prejudice to the right of the bidder to file a new bid proposal before the time fixed for the opening of the bid proposals. The request for the withdrawal shall be made in writing, signed by the person proposing the bid or his duly authorized agent, and filed at the place and before the time fixed in the call for bids for receipt of the bid proposals. No bid proposal may be considered that has not been filed with the department before the time fixed for the receipt of bid proposals. In any provisions regarding the filing or withdrawing of bid proposals the time fixed for the receipt of bid proposals in the call for bid proposals as published shall control without regard for the time when the bid proposals are actually opened. [1985 c 242 § 2; 1984 c 7 § 170; 1961 c 13 § 47.28.080. Prior: 1937 c 53 § 36; RRS § 6400-36.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.090 Opening of bids and award of contract—Deposit. At the time and place named in the call for bids the department of transportation shall publicly open and read the final figure in each of the bid proposals that have been

properly filed and read only the unit prices of the three lowest bids, and shall award the contract to the lowest responsible bidder unless the department has, for good cause, continued the date of opening bids to a day certain, or rejected that bid. Any bid may be rejected if the bidder has previously defaulted in the performance of and failed to complete a written public contract, or has been convicted of a crime arising from a previous public contract. If the lowest responsible bidder fails to meet the provisions or specifications requiring compliance with chapter 39.19 RCW and the rules adopted to implement that chapter, the department may award the contract to the next lowest responsible bidder which does meet the provisions or specifications or may reject all bids and readvertise. All bids shall be under sealed cover and accompanied by deposit in cash, certified check, cashier's check, or surety bond in an amount equal to five percent of the amount of the bid, and a bid shall not be considered unless the deposit is enclosed with it. [1985 c 242 § 3; 1983 c 120 § 17; 1971 ex.s. c 21 § 2; 1961 c 13 § 47.28.090. Prior: 1955 c 83 § 1; 1949 c 64 § 1; 1937 c 53 § 37; Rem. Supp. 1949 § 6400-37.]

Office of minority and women's business enterprises: Chapter 39.19 RCW.

47.28.100 Failure or rejection of bidder. If the successful bidder fails to enter into the contract and furnish satisfactory bond as provided by law within twenty days from the award, exclusive of the day of the award, his or her deposit shall be forfeited to the state and deposited by the state treasurer to the credit of the motor vehicle fund, and the department may award the contract to the second lowest responsible bidder. If the second lowest responsible bidder fails to enter into the contract and furnish bond within twenty days after award to him or her, forfeiture of his or her deposit shall also be made, and the contract may be awarded to the third lowest responsible bidder, and in like manner until the contract and bond are executed by a responsible bidder to whom award is made, or further bid proposals are rejected, or the number of bid proposals are exhausted. If the contract is not executed or no contractor's bond provided within the time required, and there appear circumstances that are deemed to warrant an extension of time, the department may extend the time for execution of the contract or furnishing bond for not to exceed twenty additional days. After awarding the contract the deposits of unsuccessful bidders shall be returned, but the department may retain the deposit of the next lowest responsible bidder or bidders as it desires until such time as the contract is entered into and satisfactory bond is provided by the bidder to whom the award is ultimately made. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project.

If in the opinion of the department the acceptance of the bid of the lowest responsible bidder or bidders, or on prior failure of the lowest responsible bidder or bidders the acceptance of the bid of the remaining lowest responsible bidder or bidders, will not be for the best interest of the state, it may reject all bids or all remaining bids and republish a call for bids in the same manner as for an original

publication thereof. [1996 c 18 § 8; 1984 c 7 § 171; 1961 c 13 § 47.28.100. Prior: 1953 c 53 § 1; 1937 c 53 § 38; RRS § 6400-38.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.110 Sureties—Qualifications—Additional sureties. At any time and as often as it may be deemed necessary, the department may require any or all sureties or any surety company to appear and qualify themselves upon any contractor's bond. Whenever the surety or sureties upon any contractor's bond become insufficient or are deemed by the department to have become insufficient, the department may demand in writing that the contracting person, firm, or corporation furnish such further contractor's bond or bonds or additional surety in an amount not exceeding that originally required as may be deemed necessary considering the extent of the work remaining to be done upon the contract. No further payments may be made on the contract until such additional surety as is required is furnished. [1984 c 7 § 172; 1961 c 13 § 47.28.110. Prior: 1937 c 53 § 39; RRS § 6400-39.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.120 Actions for labor and materials—Limitation of action. Any contracting person, firm, or corporation performing any labor or furnishing any materials upon their contract or otherwise for public work or improvement under the direction of the department or any person claiming any right of action upon any such contract with the state of Washington or who claims a cause of action against the state of Washington arising out of any such contract must bring such suit in the proper court in Thurston county before the expiration of one hundred and eighty days from and after the final acceptance and the approval of the final estimate of such work by the department; otherwise the action is forever barred. [1984 c 7 § 173; 1961 c 13 § 47.28.120. Prior: 1937 c 53 § 40; RRS § 6400-40.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.140 Highway, public transportation improvements, flood damage prevention—Cooperative agreements. When in the opinion of the governing authorities representing the department and any agency, instrumentality, municipal corporation, or political subdivision of the state of Washington, any highway, road, or street will be benefited or improved by constructing, reconstructing, locating, relocating, laying out, repairing, surveying, altering, improving, or maintaining, or by the establishment adjacent to, under, upon, within, or above any portion of any such highway, road, or street of an urban public transportation system, by either the department or any agency, instrumentality, municipal corporation, or political subdivision of the state, and it is in the public interest to do so, the authorities may enter into cooperative agreements wherein either agrees to perform the work and furnish the materials necessary and pay the cost thereof, including necessary engineering assistance, which costs and expenses shall be reimbursed by the party whose responsibility it was to do or perform the work or improvement in the first instance. The work may be done by either day labor or contract, and the cooperative agreement between the parties shall provide for the method

of reimbursement. In the case of some special benefit or improvement to a state highway derived from any project that assists in preventing or minimizing flood damages as defined in RCW 86.16.120 or from the construction of any public works project, including any urban public transportation system, the department may contribute to the cost thereof by making direct payment to the particular state department, agency, instrumentality, municipal corporation, or political subdivision on the basis of benefits received, but such payment shall be made only after a cooperative agreement has been entered into for a specified amount or on an actual cost basis prior to the commencement of the particular public works project. [1991 c 322 § 29; 1984 c 7 § 174; 1967 c 108 § 6; 1961 c 13 § 47.28.140. Prior: 1955 c 384 § 8.]

47.28.150 Underpasses, overpasses constructed with federal funds—Maintenance cost apportionment. Notwithstanding any of the provisions of RCW 81.53.090, where the cost of constructing an overpass or underpass which is part of the state highway system has been paid for in whole or in part by the use of federal funds, the state shall at its expense maintain the entire overpass structure and the approaches thereto, and the railroad company shall at its expense maintain the entire underpass structure, including the approaches thereto. The state shall at its expense maintain the roadway, and the railroad company shall at its expense maintain its roadbed and tracks on or under all such structures. [1961 c 13 § 47.28.150. Prior: 1959 c 319 § 34.]

47.28.170 Emergency protection and restoration of highways. (1) Whenever the department finds that as a consequence of accident, natural disaster, or other emergency, an existing state highway is in jeopardy or is rendered impassible in one or both directions and the department further finds that prompt reconstruction, repair, or other work is needed to preserve or restore the highway for public travel, the department may obtain at least three written bids for the work without publishing a call for bids, and the secretary of transportation may award a contract forthwith to the lowest responsible bidder.

The department shall notify any association or organization of contractors filing a request to regularly receive notification. Notification to an association or organization of contractors shall include: (a) The location of the work to be done; (b) the general anticipated nature of the work to be done; and (c) the date determined by the department as reasonable in view of the nature of the work and emergent nature of the problem after which the department will not receive bids.

(2) Whenever the department finds it necessary to protect a highway facility from imminent damage or to perform emergency work to reopen a highway facility, the department may contract for such work on a negotiated basis not to exceed force account rates for a period not to exceed thirty working days.

(3) The secretary shall review any contract exceeding two hundred thousand dollars awarded under subsection (1)

or (2) of this section with the transportation commission at its next regularly scheduled meeting.

(4) Any person, firm, or corporation awarded a contract for work must be prequalified pursuant to RCW 47.28.070 and may be required to furnish a bid deposit or performance bond. [1990 c 265 § 1; 1984 c 7 § 175; 1971 ex.s. c 89 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.220 Compost products. (1) A contract awarded in whole or in part for the purchase of compost products as a soil cover or soil amendment to state highway rights of way shall specify that compost products be purchased in accordance with the following schedule:

(a) For the period July 1, 1996, through June 30, 1997, twenty-five percent of the total dollar amount purchased;

(b) For the period July 1, 1998, through June 30, 1999, fifty percent of the total dollar amount purchased. The percentages in this subsection apply to the materials' value and include services or other materials.

(2) In order to carry out the provisions of this section, the department of transportation shall develop and adopt bid specifications for compost products used in state highway construction projects.

(3)(a) For purposes of this section, "compost products" means mulch, soil amendments, ground cover, or other landscaping material derived from the biological or mechanical conversion of biosolids or cellulose-containing waste materials.

(b) For purposes of this section, "biosolids" means municipal sewage sludge or septic tank septage sludge that meets the requirements of chapter 70.95J RCW. [1996 c 198 § 4; 1992 c 174 § 14; 1991 c 297 § 14.]

Recreation trails system: Chapter 67.32 RCW.

47.30.005 Definitions. For the purposes of this chapter, "trail" or "path" means a public way constructed primarily for and open to pedestrians, equestrians, or bicyclists, or any combination thereof, other than a sidewalk constructed as a part of a city street or county road for the exclusive use of pedestrians. The term "trail" or "path" also includes a widened shoulder of a highway, street, or road when the extra shoulder width is constructed to accommodate bicyclists consistent with a comprehensive plan or

master plan for bicycle trails or paths adopted by a state or local governmental authority either prior to such construction or prior to January 1, 1980. [1979 ex.s. c 121 § 4.]

47.30.010 Severance or destruction of recreational trail—Alternative, construction or reconstruction required—Signing. (1) No limited access highway shall be constructed that will result in the severance or destruction of an existing recreational trail of substantial usage for pedestrians, equestrians or bicyclists unless an alternative recreational trail, satisfactory to the authority having jurisdiction over the trail being severed or destroyed, either exists or is reestablished at the time the limited access highway is constructed. If a proposed limited access highway will sever a planned recreational trail which is part of a comprehensive plan for trails adopted by a state or local governmental authority, and no alternative route for the planned trail exists which is satisfactory to the authority which adopted the comprehensive plan for trails, the state or local agency proposing to construct the limited access highway shall design the facility and acquire sufficient right of way to accommodate future construction of the portion of the trail which will properly lie within the highway right of way. Thereafter when such trail is developed and constructed by the authority having jurisdiction over the trail, the state or local agency which constructed the limited access highway shall develop and construct the portion of such trail lying within the right of way of the limited access highway.

(2) Where a highway other than a limited access highway crosses a recreational trail of substantial usage for pedestrians, equestrians, or bicyclists, signing sufficient to insure safety shall be provided.

(3) Where the construction or reconstruction of a highway other than a limited access highway would destroy the usefulness of an existing recreational trail of substantial usage for pedestrians, equestrians, or bicyclists or of a planned recreational trail for pedestrians, equestrians, or bicyclists incorporated into the comprehensive plans for trails of the state or any of its political subdivisions, replacement land, space, or facilities shall be provided and where such recreational trails exist at the time of taking, reconstruction of said recreational trails shall be undertaken. [1971 ex.s. c 130 § 1.]

47.30.020 Facilities for pedestrians, equestrians, or bicyclists to be provided—Joint usage of rights of way. Facilities for pedestrians, equestrians, or bicyclists shall be incorporated into the design of highways and freeways along corridors where such facilities do not exist upon a finding that such facilities would be of joint use and conform to the comprehensive plans of public agencies for the development of such facilities, will not duplicate existing or proposed routes, and that safety to both motorists and to pedestrians, equestrians, and bicyclists would be enhanced by the segregation of traffic.

In planning and design of all highways, every effort shall be made consistent with safety to promote joint usage of rights of way for trails and paths in accordance with the comprehensive plans of public agencies. [1971 ex.s. c 130 § 2.]

47.30.030 Facilities for pedestrians, equestrians, or bicyclists authorized—Expenditure of available funds. Where an existing highway severs, or where the right of way of an existing highway accommodates a trail for pedestrians, equestrians, or bicyclists or where the separation of motor vehicle traffic from pedestrians, equestrians, or bicyclists will materially increase the motor vehicle safety, the provision of facilities for pedestrians, equestrians, or bicyclists which are a part of a comprehensive trail plan adopted by federal, state, or local governmental authority having jurisdiction over the trail is hereby authorized. The department of transportation, or the county or city having jurisdiction over the highway, road, or street, or facility is further authorized to expend reasonable amounts out of the funds made available to them, according to the provisions of RCW 46.68.100, as necessary for the planning, accommodation, establishment, and maintenance of such facilities. [1979 ex.s. c 121 § 1; 1974 ex.s. c 141 § 12; 1972 ex.s. c 103 § 2.]

Severability—1972 ex.s. c 103: "If any provision of this 1972 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1972 ex.s. c 103 § 8.]

47.30.040 Establishing paths and trails—Factors to be considered. Before establishing paths and trails, the following factors shall be considered:

- (1) Public safety;
- (2) The cost of such paths and trails as compared to the need or probable use;
- (3) Inclusion of the trail in a plan for a comprehensive trail system adopted by a city or county in a state or federal trails plan. [1972 ex.s. c 103 § 3.]

Severability—1972 ex.s. c 103: See note following RCW 47.30.030.

47.30.050 Expenditures for paths and trails—Minimum amount. (1) The amount expended by a city, town, or county as authorized by RCW 47.30.030, as now or hereafter amended, shall never in any one fiscal year be less than one-half of one percent of the total amount of funds received from the motor vehicle fund according to the provisions of RCW 46.68.100: PROVIDED, That this section does not apply to a city or town in any year in which the one-half of one percent equals five hundred dollars or less, or to a county in any year in which the one-half of one percent equals three thousand dollars or less: PROVIDED FURTHER, That a city, town, or county in lieu of expending the funds each year may credit the funds to a financial reserve or special fund, to be held for not more than ten years, and to be expended for the purposes required or permitted by RCW 47.30.030.

(2) In each fiscal year the department of transportation shall expend, as a minimum, for the purposes mentioned in RCW 47.30.030, as now or hereafter amended, a sum equal to three-tenths of one percent of all funds, both state and federal, expended for the construction of state highways in such year, or in order to more efficiently program trail improvements the department may defer any part of such minimum trail or path expenditures for a fiscal year for a period not to exceed four years after the end of such fiscal year. Any fiscal year in which the department expends for trail or path purposes more than the minimum sum required by this subsection, the amount of such excess expenditure

shall constitute a credit which may be carried forward and applied to the minimum trail and path expenditure requirements for any of the ensuing four fiscal years.

(3) The department of transportation, a city, or a county in computing the amount expended for trails or paths under their respective jurisdictions may include the cost of improvements consistent with a comprehensive plan or master plan for bicycle trails or paths adopted by a state or local governmental authority either prior to such construction or prior to January 1, 1980. [1979 ex.s. c 121 § 2; 1972 ex.s. c 103 § 4.]

47.30.060 Expenditures deemed to be for highway, road, and street purposes—Powers and duties of department—Restrictions on use of paths and trails. For the purposes of this chapter, the establishment of paths and trails and the expenditure of funds as authorized by RCW 47.30.030, as now or hereafter amended, shall be deemed to be for highway, road, and street purposes. The department of transportation shall, when requested, and subject to reimbursement of costs, provide technical assistance and advice to cities, towns, and counties in carrying out the purposes of RCW 47.30.030, as now or hereafter amended. The department shall recommend construction standards for paths and trails. The department shall provide a uniform system of signing paths and trails which shall apply to paths and trails under the jurisdiction of the department and of cities, towns, and counties. The department and cities, towns, and counties may restrict the use of paths and trails under their respective jurisdictions to pedestrians, equestrians, and nonmotorized vehicles. [1979 ex.s. c 121 § 3; 1972 ex.s. c 103 § 5.]

Severability—1972 ex.s. c 103: See note following RCW 47.30.030.

47.30.070 Bicycle, equestrian, pedestrian paths as public highways. For purposes of 43 U.S.C. 912 and related provisions of federal law involving federally granted railroad rights of way, a bicycle, equestrian or pedestrian path shall be deemed to be a public highway under the laws of the state of Washington. 47.32.010 Order to remove obstructions—Removal by state. Whenever the department determines and orders that it is necessary for the convenience and safety of public travel and the use of (or construction, alteration, repair, improvement, or maintenance of) any state highway to have the full width of right of way of any such state highway or of any portion of the right of way of any such state highway free from any and all obstructions, encroachments, and occupancy, other than pole lines, pipe lines, or other structures maintained thereon for public or quasi-public utilities by virtue of a valid franchise, and causes due notice of the order to be given as provided by law, the obstructions, encroachments, and means of occupancy, and any structure, building, improvement, or other means of occupancy of any of the right of way of the state highway not removed within the time allowed by law shall become an unlawful property and may be confiscated, removed, and sold or destroyed by the state of Washington according to procedure as provided in this chapter, without any right in anyone to make any claim therefor, either by reason of the removal thereof or otherwise. It is unlawful for any person to keep, maintain, or occupy any such unlawful structure. [1984 c 7 § 176; 1961 c 13 § 47.32.010. Prior: 1937 c 53 § 68; RRS § 6400-68.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.020 Notice of order, contents, posting—Return. Whenever the department determines that the right of way of any state highway or any portion of the right of way of any state highway shall be made free from any and all obstructions, encroachments, and occupancy it shall forthwith cause to be posted, by a competent person eighteen years of age or over upon any and all structures, buildings, improvements, and other means of occupancy of the state highway or portion thereof, other than property of public or quasi-public utilities, by virtue of a valid franchise, a notice bearing a copy of the order and dated as of the date of posting, to all whom it may concern to vacate the right of way and to remove all property from the right of way within ten days after the posting of the notice, exclusive of the date of posting. The department shall also require the filing of duplicate affidavits in proof of the postings, showing upon what structures, buildings, improvements, or other means of occupancy of the state highway or portions thereof, respectively, copies of the notice were posted and the date of each such posting, sworn to by the person making the posting. [1984 c 7 § 177; 1971 ex.s. c 292 § 46; 1961 c 13 § 47.32.020. Prior: 1937 c 53 § 69; RRS § 6400-69.]

Severability—1984 c 7: See note following RCW 47.01.141.

Severability—1971 ex.s. c 292: See note following RCW 26.28.010.

47.32.030 Proceedings in rem authorized—Records certified. In case the property or any portion thereof described in the notice is not removed from the right of way within ten days after the date of the posting, exclusive of the date of posting, all such property upon the right of way of the state highway or portion thereof becomes unlawful, and the department shall commence proceedings in the name of the state of Washington for the removal thereof by court action. The department shall thereupon prepare two original copies of the order together with two copies each of the notice posted and of the affidavits in proof of posting thereof and duplicate copies of a certificate by the department describing with reasonable certainty and with due reference to the center line stationing of the state highway and to proper legal subdivisional points, each structure, building, improvement, encroachment, or other means of occupancy, other than pole lines, pipe lines, or other structures maintained for public and quasi-public utilities, on the state highway or portion thereof specified in the order that remain upon the right of way as aforesaid. Thereupon action shall be commenced in rem for the purpose of removal of all such unlawful property, in the superior court of the county in which the state highway or portion thereof containing the structures is situated, entitled and in the name of the state of Washington as plaintiff and describing each unlawful structure, building, improvement, encroachment, or other means of occupancy, which structures, buildings, improvements, encroachments, or other means of occupancy shall be briefly named as defendants. [1984 c 7 § 178; 1961 c 13 § 47.32.030. Prior: 1937 c 53 § 70; RRS § 6400-70; prior: 1925 ex.s. c 131 § 3; RRS § 6837-3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.040 Complaint, contents. The complaint shall, in such action, describe the property unlawfully remaining upon the right of way of the state highway or portion thereof with reasonable certainty by reference to the certificate of the department, which shall be attached to and filed with the complaint, and pray that an order be entered for the removal from the right of way of the state highway or portion thereof of all the described property unlawfully thereon and the disposal thereof. [1984 c 7 § 179; 1961 c 13 § 47.32.040. Prior: 1937 c 53 § 71; RRS § 6400-71; prior: 1925 ex.s. c 131 § 4; RRS § 6837-4.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.050 Notice, action, service, contents—Proceedings void when. Service of such complaint shall be given by publication of notice thereof once a week for two successive weeks in a newspaper of general circulation in the county in which such action is commenced, which notice shall briefly state the objects of the action and contain a brief description of each structure, building, improvement, encroachment or other means of occupancy sought to be removed from the right of way of the state highway, describe such state highway or portion thereof by number and location and state the time and place when and where the action will come before the court or judge thereof; and a copy of such notice shall also be posted at least ten days before the date of hearing of such action upon each such structure, building, improvement, encroachment or other

means of occupancy described therein. Posting may be made by any person qualified to serve legal process. Want of posting upon, or failure to describe any such structure, building, improvement, encroachment or other means of occupancy shall render subsequent proceedings void as to those not posted upon or described but all others described and posted upon shall be bound by the subsequent proceedings. 47.32.060 Hearing—Findings—Order—Appellate review. At the time and place appointed for hearing upon the complaint, which hearing shall be by summary proceedings, if the court or judge thereof finds that due notice has been given by posting and publication and that the order of the department was duly made, and is further satisfied and finds that the state highway or portion thereof described is legally a state highway having the width of right of way specified in the order and that the structure, buildings, improvements, or other means of occupancy of the state highway or portion thereof as stated in the certificate of the department do in fact encroach, or that any portion thereof encroach, upon the state highway right of way, the court or judge thereof shall thereupon make and enter an order establishing that each of the structures, buildings, improvements, and other means of occupancy specified in the order is unlawfully maintained within the right of way and is subject to confiscation and sale and that they be forthwith confiscated, removed from the right of way, and sold, and providing that six days after the entry of the order, a writ shall issue from the court directed to the sheriff of the county, commanding the sheriff to seize and remove from the right of way of the state highway each such structure, building, improvement, or other means of occupancy specified in the order forthwith on receipt of a writ based on the order and to take and hold the property in his custody for a period of ten days, unless redelivered earlier as provided for by law, and if not then so redelivered to sell the property at public or private sale and to pay the proceeds thereof into the registry of the court within sixty days after the issuance of the writ, and further in such action, including costs of posting original notices of the department, the costs of posting and publishing notices of hearing as part thereof and any cost of removal, be paid by the clerk to the state treasurer and credited to the motor vehicle fund. The order shall be filed with the clerk of the court and recorded in the minutes of the court, and is final unless appellate review thereof is sought within five days after filing of the order. [1988 c 202 § 45; 1984 c 7 § 180; 1961 c 13 § 47.32.060. Prior: 1937 c 53 § 73; RRS § 6400-73; prior: 1925 ex.s. c 131 § 7; RRS § 6837-7.]

Severability—1988 c 202: See note following RCW 2.24.050.

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.070 Writ, execution of—Return—Disposition of unsold property. Six days after filing of the order above provided for, if no review thereof be taken to the supreme court or the court of appeals of the state, the clerk of the court shall issue under seal of such court a writ directed to the sheriff of the county in which such court is held commanding him to remove, take into custody and dispose of the

property described in such order and make returns thereof as provided for such writ by said order. On receipt of such writ it shall be the duty of such sheriff to obey the command thereof, proceed as therein directed and make return within the time fixed by such writ; and said sheriff shall be liable upon his official bond for the faithful discharge of such duties. Upon filing of such return the clerk of court shall make payments as provided for in the order of court. If by the sheriff's return any of the property seized and removed pursuant to such writ is returned as unsold and as of no sale value, and if the court or judge thereof be satisfied that such is the fact, the court or judge thereof may make further order directing the destruction of such property, otherwise directing the sheriff to give new notice and again offer the same for sale, when, if not sold, the same may on order of court be destroyed. [1971 c 81 § 115; 1961 c 13 § 47.32.070. Prior: 1937 c 53 § 74; RRS § 6400-74; prior: 1925 ex.s. c 131 § 8; RRS § 6837-8.]

47.32.080 Property reclaimed—Bond. At any time within ten days after the removal by virtue of such writ of any such property from the right of way of such state highway any person, firm, association or corporation claiming ownership or right of possession of any such property may have the right to demand and to receive the same from the sheriff upon making an affidavit that such claimant owns such property or is entitled to possession thereof, stating on oath the value thereof satisfactory to said sheriff, or which value shall be raised to a value satisfactory to said sheriff, which value shall be indorsed on said affidavit and signed both by said claimant and said sheriff before such sheriff shall be required to accept the bond hereinafter provided for, and deliver to the sheriff a bond with sureties in double the value of such property, conditioned that such claimant will appear in the superior court of such county within ten days after the bond is accepted by the sheriff and make good such claim of title thereto and pay all accrued costs of service of notice to remove, all costs and disbursements to be assessed to such property and the costs of removal and custody thereof and will hold said sheriff and the state of Washington free from any and all claims on account of such property or will return such property or pay its value to said sheriff, and that such claimant will at all times thereafter keep such property off the right of way of the state highway in question. [1961 c 13 § 47.32.080. Prior: 1937 c 53 § 75; RRS § 6400-75; prior: 1925 ex.s. c 131 § 9; RRS § 6837-9.]

47.32.090 Sureties on bond—Hearing on claim. The sureties on such bond shall justify as in other cases if the sheriff requires it and in case they do not so justify when required, the sheriff shall retain and sell or dispose of the property; and if the sheriff does not require the sureties to justify, he shall stand good for their sufficiency. He shall date and indorse his acceptance upon the bond, and shall return the affidavit, bond and justification, if any, to the office of the clerk of such superior court, whereupon such clerk shall set the hearing thereof as a separate case for trial, in which such claimant shall be the plaintiff and the sheriff and the state of Washington defendants: PROVIDED, That no costs shall, in such case, be assessed against the sheriff

or the state of Washington in the event the plaintiff should prevail. [1961 c 13 § 47.32.090. Prior: 1937 c 53 § 76; RRS § 6400-76; prior: 1925 ex.s. c 131 § 10; RRS § 6837-10.]

47.32.100 Procedure when claimant wins or loses.

If the claimant makes good the claimant's title to or right to possession of the property, upon payment into the registry of the court of the costs of service or posting of original notice issued by the department with respect to the property, the cost of posting notice of hearing in the court and such proportion of the cost of publication of the notice as the court may fix and direct to be entered and the clerk's fees of filing the affidavit and bond as a separate action and of entry of judgment therein at the amounts provided for in civil actions, judgment shall be entered restoring the property to the claimant without any confirmation of title as to any other claimant thereto, relieving the sheriff from necessity of selling the property and making return thereon, and continuing the effect of the bond for a period of six years thereafter for the benefit of such adverse claimants to the property, if any, as may thereafter make claim to the property. If the claimant does not make good such claim of title to or right to possession of the property, judgment shall be rendered against the claimant and the sureties of the claimant for the value of the property as finally shown by the affidavit as above provided for, together with such fees for filing the affidavit and bond as a separate action and for entry of judgment therein and other costs and disbursements as taxed in any civil action including the statutory attorney fee as part thereof, for all of which execution may accordingly issue, and relieving the sheriff from the necessity of selling the property or making return thereon. [1984 c 7 § 181; 1961 c 13 § 47.32.100. Prior: 1937 c 53 § 77; RRS § 6400-77; prior: 1925 ex.s. c 131 § 11; RRS § 6837-11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.110 Merchandising structures—Permit—Removal. It is unlawful for any person to build, erect, establish, operate, maintain, or conduct along and upon the right of way of any state highway any platform, box, stand, or any other temporary or permanent device or structure used or to be used for the purpose of receiving, vending, or delivering any milk, milk cans, vegetables, fruits, merchandise, produce, or any other thing or commodity of any nature unless a permit therefor has first been obtained from the department. The department shall in each instance determine where any platform, box, stand, or any other temporary or permanent device or structure shall be permitted. Upon the existence of any such device or structure without a permit having been first obtained, it shall be considered an obstruction unlawfully upon the right of way of the state highway, and the department may proceed to effect its removal. [1984 c 7 § 182; 1961 c 13 § 47.32.110. Prior: 1937 c 53 § 78; RRS § 6400-78; 1927 c 309 § 48; RRS § 6362-48; 1923 c 181 § 10; RRS § 6358-1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.120 Business places along highway. It is unlawful for any person to erect a structure or establishment or maintain a business, the nature of which requires the use

by patrons or customers of property adjoining the structure or establishment unless the structure or establishment is located at a distance from the right of way of any state highway so that none of the right of way thereof is required for the use of the patrons or customers of the establishment. Any such structure erected or business maintained that makes use of or tends to invite patrons to use the right of way or any portion thereof of any state highway by occupying it while a patron is a public nuisance, and the department may fence the right of way of the state highway to prevent such unauthorized use thereof. [1984 c 7 § 183; 1961 c 13 § 47.32.120. Prior: 1937 c 53 § 79; RRS § 6400-79.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.130 Dangerous objects and structures as nuisances—Logs—Abatement—Removal. (1) Whenever there exists upon the right of way of any state highway or off the right of way thereof in sufficiently close proximity thereto, any structure, device, or natural or artificial thing that threatens or endangers the state highway or portion thereof, or that tends to endanger persons traveling thereon, or obstructs or tends to obstruct or constitutes a hazard to vehicles or persons traveling thereon, the structure, device, or natural or artificial thing is declared to be a public nuisance, and the department is empowered to take such action as may be necessary to effect its abatement. Any such structure, device, or natural or artificial thing considered by the department to be immediately or eminently dangerous to travel upon a state highway may be forthwith removed, and the removal in no event constitutes a breach of the peace or trespass.

(2) Logs dumped on any state highway roadway or in any state highway drainage ditch due to equipment failure or for any other reason shall be removed immediately. Logs remaining within the state highway right of way for a period of thirty days shall be confiscated and removed or disposed of as directed by the department. [1984 c 7 § 184; 1961 c 13 § 47.32.130. Prior: 1947 c 206 § 3; 1937 c 53 § 80; Rem. Supp. 1947 § 6400-80.]

Severability—1984 c 7: See note following RCW 47.01.141.

Obstructing highway, public nuisance: RCW 9.66.010.

Placing dangerous substances or devices on highway: RCW 9.66.050, 46.61.645, 70.93.060.

47.32.140 Railroad crossings, obstructions—Hearing. Each railroad company shall keep its right of way clear of all brush and timber in the vicinity of a railroad grade crossing with a state highway for a distance of one hundred feet from the crossing in such manner as to permit a person upon the highway to obtain an unobstructed view in both directions of an approaching train. The department shall cause brush and timber to be cleared from the right of way of a state highway in the proximity of a railroad grade crossing for a distance of one hundred feet from the crossing in such manner as to permit a person upon the highway to obtain an unobstructed view in both directions of an approaching train. It is unlawful to erect or maintain a sign, signboard, or billboard, except official highway signs and traffic devices and railroad warning or operating signs, outside the corporate limits of any city or town within a distance of one hundred feet from the point of intersection

of the highway and railroad grade crossing unless, after thirty days notice to the Washington utilities and transportation commission and the railroad operating the crossing, the department determines that it does not obscure the sight distance of a person operating a vehicle or train approaching the grade crossing.

When a person who has erected or who maintains such a sign, signboard, or billboard or when a railroad company permits such brush or timber in the vicinity of a railroad grade crossing with a state highway or permits the surface of a grade crossing to become inconvenient or dangerous for passage and who has the duty to maintain it, fails, neglects, or refuses to remove or cause to be removed such brush, timber, sign, signboard, or billboard, or maintain the surface of the crossing, the utilities and transportation commission upon complaint of the department or upon complaint of any party interested, or upon its own motion, shall enter upon a hearing in the manner now provided for hearings with respect to railroad-highway grade crossings, and make and enforce proper orders for the removal of the brush, timber, sign, signboard or billboard, or maintenance of the crossing. However, nothing in this section prevents the posting or maintaining of any legal notice or sign, signal, or traffic device required or permitted to be posted or maintained, or the placing and maintaining thereon of highway or road signs or traffic devices giving directions or distances for the information of the public when the signs are approved by the department. The department shall inspect highway grade crossings and make complaint of the violation of any provisions of this section. [1983 c 19 § 2; 1961 c 13 § 47.32.140. Railroad grade crossings, obstructions: RCW 36.86.100.

47.32.150 Approach roads, other appurtenances—Permit. No person, firm, or corporation may be permitted to build or construct on state highway rights of way any approach road or any other facility, thing, or appurtenance not heretofore permitted by law, without first obtaining written permission from the department. [1984 c 7 § 185; 1961 c 13 § 47.32.150. Prior: 1947 c 201 § 1; Rem. Supp. 1947 § 6402-50.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.160 Approach roads, other appurtenances—Rules—Construction, maintenance of approach roads. The department is hereby authorized and empowered at its discretion to adopt reasonable rules governing the issuance of permits under RCW 47.32.150 for the construction of any approach road, facility, thing, or appurtenance, upon state highway rights of way. The rules shall be designed to achieve and preserve reasonable standards of highway safety and the operational integrity of the state highway facility. Any permit issued may contain such terms and conditions as may be prescribed. All such construction shall be under the supervision of the department and at the expense of the applicant. After completion of the construction of the particular approach road, facility, thing, or appurtenance, it shall be maintained at the expense of the applicant and in accordance with the directions of the department. [1987 c

227 § 1; 1984 c 7 § 186; 1961 c 13 § 47.32.160. Prior: 1947 c 201 § 2; Rem. Supp. 1947 § 6402-51.]

Directional signs showing distance and direction to points of importance may be placed at all crossings and intersections of primary and secondary state highways. The department may place such directional signs as it deems necessary upon any city streets designated by it as forming a part of the route of any primary or secondary state highway through any incorporated city or town. Caution and warning signs or signals shall be placed wherever practicable on all primary and secondary state highways in a manner provided by law. Stop signs shall be placed, erected, and maintained by the department as follows: Upon all county roads at the point of intersection with any arterial primary or secondary state highway; upon all primary and secondary state highways at the point of intersection with any county road that has been designated by the department as an arterial having preference over the traffic on the state highway; and upon at least one state highway at the intersection of two state highways. For this purpose there may be erected a standard stop sign as prescribed in the state department of transportation's "Manual on Uniform Traffic Control Devices for Streets and Highways." All persons traveling upon the highway shall come to a complete stop at such a sign, and the appearance of any sign so located is sufficient warning to a person that he is required to stop. A person stopping at such a sign shall proceed through that portion of the highway in a careful manner and at a reasonable rate of speed not to exceed twenty miles per hour. It is unlawful to fail to comply with the directions of any such stop sign. When the findings of a traffic engineering study show that the condition of an intersection is such that vehicles may safely enter the major artery without stopping, the department or local authorities in their respective jurisdictions shall install and maintain a "Yield" sign. [1984 c 7 § 199; 1963 ex.s. c 3 § 49; 1961 c 13 § 47.36.110. Prior: 1955 c 146 § 6; 1937 c 53 § 59; RRS § 6400-59.]

(2) The parks and recreation commission shall pay the costs of developing and constructing the scenic and recreational highways not provided for in subsection (1) of this section from any funds appropriated for such purposes.

(3) The costs of maintaining the scenic and recreational highway system shall be allocated between the department and the parks and recreation commission in the same manner that costs of developing and constructing such highways are allocated in subsections (1) and (2) of this section. [1984 c 7 § 207; 1967 ex.s. c 85 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.39.040 Planning and design standards established by department of community, trade, and economic development. The establishment of planning and design standards for items provided for in RCW 47.39.050 shall be coordinated by the department of community, trade, and economic development. The department of transportation, parks and recreation commission, and any other departments or commissions whose interests are affected shall prepare, submit, and file with the department of community, trade, and economic development standards relating to the scenic and recreational highway system. If varying planning and design standards are filed, the department of community, trade, and economic development shall consult with the submitting agencies on the merits of the several proposals and, based upon such consultation, establish a set of standards. Pursuant to the planning and design standards so

established, the department of transportation and the parks and recreation commission shall develop the highways and areas adjacent thereto to accomplish the purposes of this chapter, but the department shall retain exclusive authority over the highway right of way.

Responsibility for construction and maintenance is hereby established between the department and the parks and recreation commission with the department responsible for activities financed with funds provided for under RCW 47.39.030(1) and the parks and recreation commission responsible for activities financed from other sources of funds. By mutual consent, responsibility for development and/or maintenance may be transferred between the two agencies. [1995 c 399 § 122; 1985 c 6 § 16; 1984 c 7 § 208; 1967 ex.s. c 85 § 4.]

Department of community, trade, and economic development: Chapter 43.330 RCW.

47.39.050 Planning and design standards—Facilities and factors considered. Planning and design standards established for highways falling within the scenic and recreational highways system may include, but shall not be limited to, provision for the following:

- (1) Hiking, bicycle, and bridle trails, including regulations for their use;
- (2) Campsites and shelters;
- (3) Boat launching sites;
- (4) Access trails to lakes, rivers and streams, and easements along their shores;
- (5) Safety rest areas;
- (6) Historic and geologic interpretative facilities;
- (7) Scenic observation facilities;
- (8) Roadside landscaping, restoration and aesthetic enhancement;
- (9) Specifically delineated highway corridors and means for the preservation of natural beauty, historic sites, or viewpoints;
- (10) A uniform system of signs and markers designating the various features and facilities of the scenic and recreational highway systems. [1967 ex.s. c 85 § 5.]

47.39.060 Designation of system on maps or other descriptive material. The department and the parks and recreation commission shall on any maps, or in any relevant descriptive material they may prepare at state expense, include reference to those portions of highways designated in RCW 47.39.020 by appropriate color or code designation. [1984 c 7 § 209; 1967 ex.s. c 85 § 6.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.39.070 Method of assessing scenic and recreational highways—Future additions to system. (1) In addition to planning and design standards required under RCW 47.39.040 and 47.39.050, the department of transportation, in consultation with the parks and recreation commission, shall develop, by December 1, 1990, a method for assessing scenic and recreational highways and an appropriate threshold for the addition of highways to the scenic and recreational system. The method shall take into consideration the following factors:

- (a) Scenic quality of the corridor;
 - (b) Service to major population centers;
 - (c) Economic feasibility;
 - (d) Variety of recreational experience;
 - (e) Compatibility with other highway users;
 - (f) Harmony with other land uses;
 - (g) Access from existing or planned highways and to parks and other recreational areas;
 - (h) Popular demand; and
 - (i) Degree of urgency for protecting the corridor.
- (2) All additions to the scenic and recreational highway system made after June 7, 1990, shall be assessed by the department in accordance with the method adopted under subsection (1) of this section. The department shall submit its recommendations for additions to the legislature for its approval. [1990 c 240 § 2.]

Legislative finding—1990 c 240: "The legislature finds that scenic and recreational highways are designated because of a need to develop management plans that will protect and preserve the scenic and recreational resources from loss through inappropriate development. Protection of scenic and recreational resources includes managing land use outside normal highway rights of way. The legislature recognizes that scenic and recreational highways are typically located in areas that are natural in character, along watercourses or through mountainous areas, or in areas with a view of such scenery." [1990 c 240 § 1.]

47.39.080 Funding priorities—Signage. Recognizing that the Intermodal Surface Transportation Efficiency Act of 1991 establishes a national "Scenic Byways" grant program and a new apportionment program called "Transportation Enhancement Activities," the department of transportation shall place high priority on obtaining funds from those sources for further development of a scenic and recreational highways program, including highway heritage projects on the designated scenic and recreational highway system. The department shall consider the use of the designated system by bicyclists and pedestrians in connection with nonmotorized routes in the state trail plan, and the state bicycle plan which are also eligible for ISTEA funding. Appropriate signage may be used at intersections of nonmotorized and motorized systems to demonstrate the access, location, and the interconnectivity of various modes of travel for transportation and recreation. [1993 c 430 § 8.]

47.39.090 Consultation with other agencies and parties—Identification of tourist routes. In developing the scenic and recreational highways program, the department shall consult with the department of community, trade, and economic development, the department of natural resources, the parks and recreation commission, affected cities, towns, and counties, regional transportation planning organizations, state-wide bicycling organizations, and other interested parties. The scenic and recreational highways program may identify entire highway loops or similar tourist routes that could be developed to promote tourist activity and provide concurrent economic growth while protecting the scenic and recreational quality surrounding state highways. [1995 c 399 § 123; 1993 c 430 § 9.]

47.39.900 Short title. RCW 47.39.010 through 47.39.910 shall constitute a new chapter in Title 47 RCW

and shall be known and may be cited as the "Scenic and Recreational Highway Act of 1967." [1967 ex.s. c 85 § 7.]

47.39.910 Severability—1967 ex.s. c 85. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1967 ex.s. c 85 § 8.]

47.40.040 Application for permit, contents. Each application for a permit to plant, cultivate and grow any hedge, shade or ornamental trees or shrubbery along or upon the right of way of any state highway or improve such right of way shall be in writing, signed by the applicant, and shall describe the state highway or portion thereof along or upon the right of way of which permit to plant, cultivate, grow or improve is sought, by name, number, or other reasonable description, and the lands bordering thereon by governmental subdivisions, and shall state the names, places or residence and post office addresses of the applicant or applicants owning the land abutting upon such state highway or the name of the person, firm, corporation, association or organization applying for the permit and the names of its officers and their places of residence and their post office addresses, and shall state definitely the purpose for which the permit is sought, giving a description of the kind of hedge, or variety of shrubbery or trees desired to be planted or the kinds of crops to be grown, or improvement to be made, with a diagram illustrating the location and number of hedges, trees or shrubs or the area of cultivation desired or plans of the improvement proposed to be made. 47.40.050 Survey—Report—Permit. Upon the filing of such application, the department shall cause a survey of the state highway to be made with reference to the application and a report of the findings and recommendations as to the granting of the permit, and if it appears to the satisfaction of the department that the use of a portion of the state highway for the purpose set out in the application will not interfere with the use of the state highway for public travel and will beautify and improve the state highway, a permit may be granted and issued to the applicant to plant, cultivate, and grow any hedge; shade or ornamental trees, shrubbery, or crops, or make such improvement along or upon the right of way of such portion of the state highway as is definitely described in the permit, and to construct and maintain such temporary and substantial fence on and along the portion of the right of way of the state highway described in the permit as is specified in the permit. The permit shall specify the exact location of all hedges, shade or ornamental trees, or shrubbery to be planted and grown, or the area to be cultivated under the permit, or the area to be improved to which specified location the person, firm, corporation, association, or organization receiving the permit shall specifically conform. The department may in its discretion refuse to issue the permit, and any such permit that is granted is revocable at the will of the department and nothing in this title may be construed as in anywise affecting

the title of the state to the lands included in the state highway, or the right to use the lands for state highway purposes, or to remove or destroy any of such hedges, trees, shrubbery, or crops for the purpose of construction, alteration, repair, improvement, or maintenance of the state highway, or for any other purpose and at any time. [1984 c 7 § 212; 1961 c 13 § 47.40.050. Prior: 1937 c 53 § 92; RRS § 6400-92; prior: 1927 c 242 § 3, part; RRS § 6437, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.40.060 Agreement to maintain project. If any such permit is granted, the department shall enter into an agreement with the person, firm, corporation, association, or organization agreeing that such roadside development or beautification shall be maintained and kept up by the state through the department or by the person, firm, corporation, association, or organization. If any such person, firm, corporation, association, or organization so agreeing fails or neglects to maintain the roadside development or beautification, the department is empowered to do so, and the expense thereof shall be a charge against the person, firm, corporation, association, or organization. [1984 c 7 § 213; 1961 c 13 § 47.40.060. Prior: 1937 c 53 § 93; RRS § 6400-93; prior: 1927 c 242 § 3, part; RRS § 6437-3, part.]

47.40.070 Damaging project unlawful. It is unlawful for any person to injure, destroy, or remove any hedge, shade or ornamental trees, shrubbery, or crops, planted, cultivated, and grown or improvement made upon or along any portion of any state highway under permit from the department or otherwise, or to injure, destroy, or remove any fence erected under any such permit or otherwise. However, nothing in this section may be construed to prevent any person with the department to do so or the officers of the state charged with the duty of constructing and maintaining any such state highway, from removing any hedges, trees, shrubbery, or crops planted or improvements or fences built under permit, where in their judgment they interfere with or are detrimental to, the use of the state highway for public travel, or such removal is necessary for the construction, alteration, repair, improvement, or maintenance of the state highway. [1984 c 7 § 214; 1961 c 13 § 47.40.070. Prior: 1937 c 53 § 94; RRS § 6400-94; prior: 1927 c 242 § 4; RRS § 6437-4.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.40.080 Penalty for destroying native flora on state lands, highways, parks. Any person who shall break or cut from any lands owned by the state of Washington or shall cut down, remove, destroy or uproot any rhododendron, evergreen, huckleberry, native dogwood or any other native tree, shrub, fern, herb, bulb or wild plants, or any part thereof, within three hundred feet of the center line of any state or county road, or who shall cut down, remove or destroy any flowering or ornamental tree or shrub, or any native flowering plant, fern, herb or bulb, either perennial or annual, situate, growing or being on any public street or highway, state or city park, in the state of Washington, unless such person be engaged in the work of constructing

or repairing such highway or street under authority and direction of the legally constituted public officials being charged by law with the duty of constructing or repairing such highways or streets, state or city parks, shall be guilty of a misdemeanor. [1961 c 13 § 47.40.080. Prior: 1933 c 133 § 1; 1925 ex.s. c 59 § 1; RRS § 2787-1.]

Removal of glass after accident: RCW 46.61.645.

Throwing glass on highway: RCW 46.61.645, 70.93.060.

47.40.100 State adopt-a-highway program. (1) The department of transportation shall establish a state-wide adopt-a-highway program. The purpose of the program is to provide volunteers and businesses an opportunity to contribute to a cleaner environment, enhanced roadsides, and protection of wildlife habitats. Participating volunteers and businesses shall adopt department-designated sections of state highways, rest areas, park and ride lots, intermodal facilities, and any other facilities the department deems appropriate, in accordance with rules adopted by the department. The department may elect to coordinate a consortium of participants for adopt-a-highway projects.

The adopt-a-highway program shall include, at a minimum, litter control for the adopted section, and may include additional responsibilities such as planting and maintaining vegetation, controlling weeds, graffiti removal, and any other roadside improvement or clean-up activities the department deems appropriate. The department shall not accept adopt-a-highway proposals that would have the effect of terminating classified employees or classified employee positions.

(2) A volunteer group or business choosing to participate in the adopt-a-highway program must submit a proposal to the department. The department shall review the proposal for consistency with departmental policy and rules. The department may accept, reject, or modify an applicant's proposal.

(3) The department shall seek partnerships with volunteer groups and businesses to facilitate the goals of this section. The department may solicit funding for the adopt-a-highway program that allows private entities to undertake all or a portion of financing for the initiatives. The department shall develop guidelines regarding the cash, labor, and in-kind contributions to be performed by the participants.

(4) An organization whose name: (a) Endorses or opposes a particular candidate for public office, (b) advocates a position on a specific political issue, initiative, referendum, or piece of legislation, or (c) includes a reference to a political party shall not be eligible to participate in the adopt-a-highway program.

(5) In administering the adopt-a-highway program, the department shall:

(a) Provide a standardized application form, registration form, and contractual agreement for all participating groups. The forms shall notify the prospective participants of the risks and responsibilities to be assumed by the department and the participants;

(b) Require all participants to be at least fifteen years of age;

(c) Require parental consent for all minors;

(d) Require at least one adult supervisor for every eight minors;

(e) Require one designated leader for each participating organization, unless the department chooses to coordinate a consortium of participants;

(f) Assign each participating organization a section or sections of state highway, or other state-owned transportation facilities, for a specified period of time;

(g) Recognize the efforts of a participating organization by erecting and maintaining signs with the organization's name on both ends of the organization's section of highway;

(h) Provide appropriate safety equipment. Safety equipment issued to participating groups must be returned to the department upon termination of the applicable adopt-a-highway agreement;

(i) Provide safety training for all participants;

(j) Pay any and all premiums or assessments required under RCW 51.12.035 to secure medical aid benefits under chapter 51.36 RCW for all volunteers participating in the program;

(k) Require participating businesses to pay all employer premiums or assessments required to secure medical aid benefits under chapter 51.36 RCW for all employees or agents participating in the program;

(l) Maintain records of all injuries and accidents that occur;

(m) Adopt rules that establish a process to resolve any question of an organization's eligibility to participate in the adopt-a-highway program;

(n) Obtain permission from property owners who lease right of way before allowing an organization to adopt a section of highway on such leased property; and

(o) Establish procedures and guidelines for the adopt-a-highway program.

(6) Nothing in this section affects the rights or activities of, or agreements with, adjacent landowners, including the use of rights of way and crossings, nor impairs these rights and uses by the placement of signs. [1995 c 106 § 1; 1990 c 258 § 5.]

Legislative findings and intent—1990 c 258: "The legislature finds that despite the efforts of the department of transportation, the department of ecology, and the ecology youth corps to pick up litter along state highways, roadside litter in Washington state has increased by thirty-six percent since 1983. The legislature further finds that in twenty-seven states, volunteer organizations are able to give of their time and energy, demonstrate commitment to a clean environment, and discourage would-be litterers by keeping sections of highway litter free because those states have established programs to encourage and recognize such voluntary efforts. Therefore, it is the legislature's intent to establish an "adopt-a-highway" litter control program as a partnership between citizen volunteers and the state to reduce roadside litter and build civic pride in a litter-free Washington." [1990 c 258 § 4.]

47.40.105 Local adopt-a-highway programs. Local government legislative authorities may enact local "adopt-a-highway sign" programs which are not inconsistent with state or federal law. [1990 c 258 § 3.]

Legislative findings and intent—1990 c 258: See note following RCW 47.40.100.

47.41.010 Legislative declaration—Purpose. For the purpose of promoting the public safety, health, welfare, convenience, and enjoyment of public travel, to protect the public investment in public highways, and to preserve and enhance the scenic beauty of lands bordering public highways, it is hereby declared to be in the public interest to regulate and restrict the establishment, operation, and maintenance of junkyards in areas adjacent to the interstate and federal-aid primary systems within this state. The legislature hereby finds and declares that junkyards which do not conform to the requirements of this chapter are public nuisances. [1971 ex.s. c 101 § 1.]

47.41.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Junk" means old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, or junked, dismantled, or wrecked automobiles, or parts thereof, iron, steel, and other old or scrap ferrous or nonferrous material.

(2) "Automobile graveyard" means any establishment or place of business that is maintained, used, or operated by storing, keeping, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts.

(3) "Junkyard" means an establishment or place of business that is maintained, operated, or used for storing, keeping, buying, or selling junk or for the maintenance or operation of an automobile graveyard, and the term includes garbage dumps and sanitary fills.

(4) "Interstate system" means that portion of the national system of interstate and defense highways located within this state, as officially designated or as may hereafter be so designated by the department and approved by the United States secretary of transportation under Title 23 United States Code.

(5) "Federal-aid primary system" means that portion of connected main highways as officially designated or as may hereafter be so designated by the department and approved

by the United States secretary of transportation as the federal-aid primary system pursuant to the provisions of Title 23 United States Code.

(6) "Department" means the Washington state department of transportation. [1984 c 7 § 216; 1971 ex.s. c 101 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.030 Junkyards adjacent to highways prohibited—Exceptions. No person may establish, operate, or maintain a junkyard any portion of which is within one thousand feet of the nearest edge of the right of way of any interstate or federal-aid primary highway, except the following:

(1) Those which are screened by natural objects, plantings, fences, or other appropriate means so as not to be visible from the main-traveled way of the system or otherwise removed from sight;

(2) Those located within areas which are zoned for industrial use under authority of law;

(3) Those located within unzoned industrial areas, which areas shall be determined from actual land uses and defined by rules adopted by the department and approved by the United States secretary of transportation; and

(4) Those which are not visible from the main-traveled way of the system. [1984 c 7 § 217; 1971 ex.s. c 101 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.040 Screening feasibility determination—Notice—Acquisition of property by department—Screening or removal of junkyard. Before July 1, 1971, the department shall determine whether or not the topography of the land adjoining the highway will permit adequate screening of any junkyard lawfully in existence located outside of a zoned industrial area or an unzoned industrial area as defined under RCW 47.41.030 on August 9, 1971, that is within one thousand feet of the nearest edge of the right of way and visible from the main traveled way of any highway on the interstate and primary system and whether screening of the junkyard would be economically feasible. Within thirty days thereafter the department shall notify by certified mail the record owner of the land upon which the junkyard is located, or the operator thereof, of its determination.

If it is economically feasible to screen the junkyard, the department shall screen the junkyard so that it will not be visible from the main-traveled way of the highway. The department is authorized to acquire by gift, purchase, exchange, or condemnation such lands or interest in lands as may be required for these purposes.

If it is not economically feasible to screen the junkyard, the department shall acquire by purchase, gift, or condemnation an interest in the real property used for junkyard purposes that is visible from the main traveled way of the highway, restricting any owner of the remaining interest to use of the real estate for purposes other than a junkyard. In addition to compensation for the real property interest, the operator of a junkyard shall receive the actual reasonable expenses in moving his business personal property to a location within the same general area where a junkyard may be lawfully established, operated, and maintained. This section shall be interpreted as being in addition to all other

rights and remedies of a junkyard owner or operator and shall not be interpreted as a limitation on or alteration of the law of compensation in eminent domain. [1984 c 7 § 218; 1971 ex.s. c 101 § 4.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.050 Administrative rules—Review of action.

The department shall adopt rules for the administration of this chapter consistent with the policy of this chapter and the national policy set forth in 23 U.S.C. Sec. 136, and the regulations promulgated thereunder by the United States secretary of transportation. Proceedings for review of any action taken by the department pursuant to this chapter shall be instituted by filing a petition only in the superior court of Thurston county. [1984 c 7 § 219; 1971 ex.s. c 101 § 5.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.060 Other laws not affected. Nothing in this chapter shall be construed to permit a person to maintain any junkyard that is otherwise prohibited by statute or by the resolution or ordinance of any county, city, or town, nor to abrogate or affect the lawful provisions of any statute, ordinance, regulation, or resolution which are more restrictive than the provisions of this chapter. [1971 ex.s. c 101 § 6.]

47.41.070 Violations—Penalty—Abatement as public nuisance. If the owner of the land upon which any such junkyard is located, or the operator thereof, as the case may be, fails to comply with the notice or remove any such junk within the time provided in this chapter after being so notified, he is guilty of a misdemeanor. In addition to the penalties imposed by law upon conviction, an order may be entered compelling compliance with this chapter. Each day the junkyard is maintained in a manner so as not to comply with this chapter constitutes a separate offense.

If the operator of the junkyard or the owner of the property upon which it is located, as the case may be, is not found or refuses receipt of the notice, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall post the property upon which it is located with a notice that the junkyard constitutes a public nuisance and that the junk thereon must be removed as provided in this chapter. If the notice is not complied with, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall abate the nuisance and remove the junk, and for that purpose may enter upon private property without incurring liability for doing so. [1984 c 7 § 220; 1971 ex.s. c 101 § 7.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.080 Agreements with United States secretary of transportation. The department is authorized to enter into agreements with the United States secretary of transportation as provided in Title 23 United States Code, relating to the control of junkyards in areas adjacent to the interstate and primary systems, and to take action in the name of the state to comply with the terms of the agreement. [1984 c 7 § 221; 1971 ex.s. c 101 § 8.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.900 Severability—1971 ex.s. c 101. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1971 ex.s. c 101 § 9.]

47.42.010 Declaration of purpose. The control of signs in areas adjacent to state highways of this state is hereby declared to be necessary to promote the public health, safety, welfare, convenience and enjoyment of public travel, to protect the public investment in the interstate system and other state highways, and to attract visitors to this state by conserving the natural beauty of areas adjacent to the interstate system, and of scenic areas adjacent to state highways upon which they travel in great numbers, and to insure that information in the specific interest of the traveling public is presented safely and effectively. [1961 c 96 § 1.]

(c) No sign shall be so illuminated that it interferes with the effectiveness of, or obscures an official traffic sign, device, or signal.

(d) All such lighting shall be subject to any other provisions relating to lighting of signs presently applicable to all highways under the jurisdiction of the state. [1975 1st ex.s. c 271 § 3; 1974 ex.s. c 154 § 2; 1974 ex.s. c 138 § 2; 1971 ex.s. c 62 § 7.]

(2) Signs within six hundred and sixty feet of the nearest edge of the right of way which are visible from the main traveled way of the primary system within commercial and industrial areas whose size, lighting, and spacing are consistent with customary use as set forth in RCW 47.42.062 may be erected and maintained. Signs lawfully erected and maintained on June 1, 1971 shall be included in the determination of spacing requirements for additional signs. [1975 1st ex.s. c 271 § 4; 1971 ex.s. c 62 § 8.]

47.42.065 Signs viewable from other highways or streets—Requirements. Notwithstanding any other provision of chapter 47.42 RCW, signs may be erected and maintained more than six hundred and sixty feet from the nearest edge of the right of way which are visible from the main traveled way of the interstate system, primary system, or scenic system when designed and oriented to be viewed from

highways or streets other than the interstate system, primary system, or the scenic system and the advertising or informative contents of which may not be clearly comprehended by motorists using the main traveled way of the interstate system, primary system or scenic system. If the sign is not removed within fifteen days after such posting, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall abate the nuisance and destroy the sign, and for that purpose may enter upon private property without incurring liability for doing so.

(4) Nothing in this section may be construed to affect the provisions contained in RCW 47.42.102 requiring the payment of compensation upon the removal of any signs compensable under state law.

(3) No sign lawfully erected in a scenic area as defined by section 2, chapter 96, Laws of 1961 (before the amendment thereof), prior to the effective date of the designation of such area as a scenic area shall be maintained by any person after three years from the effective date of the designation of any such area as a scenic area.

(4) No sign visible from the main traveled way of the interstate system, the primary system (other than type 3 signs along any portion of the primary system within an incorporated city or town or within a commercial or industrial area), or the scenic system which was there lawfully maintained immediately prior to May 10, 1971, but which does not comply with the provisions of chapter 47.42 RCW as now or hereafter amended, shall be maintained by any person (a) after three years from May 10, 1971, or (b) with respect to any highway hereafter designated by the legislature as a part of the scenic system, after three years from the effective date of the designation. Signs located in areas zoned by the governing county for predominantly commercial or industrial uses, that do not have development visible to the highway, as determined by the department, and that were lawfully installed after May 10, 1971, visible to any highway now or hereafter designated by the legislature as part of the scenic system, shall be allowed to be maintained. [1993 c 430 § 11; 1974 ex.s. c 154 § 3; 1974 ex.s. c 138 § 3; 1971 ex.s. c 62 § 11; 1963 ex.s. c 3 § 55; 1961 c 96 § 10.]

47.42.102 Compensation for removal of signs—Authorized—Applicability. (1) Except as otherwise provided in subsection (3) of this section, just compensation shall be paid upon the removal of any sign (pursuant to the provisions of chapter 47.42 RCW), lawfully erected under state law, which is visible from the main traveled way of the interstate system or the primary system.

(2) Such compensation shall be paid for the following:

(a) The taking from the owner of such sign, display, or device of all right, title, leasehold, and interest in such sign, display, or device; and

(b) The taking from the owner of the real property on which the sign, display, or device is located, of the right to erect and maintain such signs, displays, and devices thereon.

(3) In no event, however, shall compensation be paid for the taking or removal of signs adjacent to the interstate system and the scenic system which became subject to removal pursuant to chapter 96, Laws of 1961 as amended by section 55, chapter 3, Laws of 1963 ex. sess. prior to May 10, 1971. [1975 1st ex.s. c 271 § 2; 1971 ex.s. c 62 § 12.]

47.42.103 Compensation for removal—Action determining amount—Payment—State's share. (1) Compensation as required by RCW 47.42.102 shall be paid to the person or persons entitled thereto for the removal of such signs. If no agreement is reached on the amount of compensation to be paid, the department may institute an action by summons and complaint in the superior court for the county in which the sign is located to obtain a determination of the compensation to be paid. If the owner of the sign is unknown and cannot be ascertained after diligent efforts to do so, the department may remove the sign upon the payment of compensation only to the owner of the real property on which the sign is located. Thereafter the owner of the sign may file an action at any time within one year after the removal of the sign to obtain a determination of the amount of compensation he should receive for the loss of the sign. If either the owner of the sign or the owner of the real property on which the sign is located cannot be found within the state, service of the summons and complaint on such person for the purpose of obtaining a determination of the amount of compensation to be paid may be by publication in the manner provided by RCW 4.28.100.

(2) If compensation is determined by judicial proceedings, the sum so determined shall be paid into the registry of the court to be disbursed upon removal of the sign by its owner or by the owner of the real property on which the sign is located. If the amount of compensation is agreed upon, the department may pay the agreed sum into escrow to be released upon the removal of the sign by its owner or the owner of the real property on which the sign is located.

(3) The state's share of compensation shall be paid from the motor vehicle fund, or if a court having jurisdiction enters a final judgment declaring that motor vehicle funds may not be used, then from the general fund. [1984 c 7 § 229; 1971 ex.s. c 62 § 13.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.104 Compensation for removal—Federal share—Acceptance. The department may accept any allotment of funds by the United States, or any agency thereof, appropriated to carry out the purposes of section 131 of title 23, United States Code, as now or hereafter amended. The department shall take such steps as may be necessary from time to time to obtain from the United States, or the appropriate agency thereof, funds allotted and appropriated, pursuant to section 131, for the purpose of paying the federal share of the just compensation to be paid to sign owners and

owners of real property under the terms of subsection (g) of section 131 and RCW 47.42.102, 47.42.103, and 47.42.104. [1984 c 7 § 230; 1971 ex.s. c 62 § 14.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.105 Unavailability of federal share. No sign, display, or device shall be required to be removed if the federal share of the just compensation to be paid upon the removal of such sign, display, or device is not available to make such payment. [1971 ex.s. c 62 § 15.]

47.42.107 Compensation for removal under local authority. (1) Just compensation shall be paid upon the removal of any existing sign pursuant to the provisions of any resolution or ordinance of any county, city, or town of the state of Washington by such county, city, or town if:

(a) Such sign was lawfully in existence on May 10, 1971 (the effective date of the Scenic Vistas Act of 1971); or

(b) Such sign was erected subsequent to May 10, 1971 (the effective date of the Scenic Vistas Act of 1971), in compliance with existing state and local law.

(2) Such compensation shall be paid in the same manner as specified in RCW 47.42.102(2) for the following:

(a) The taking from the owner of such sign, display, or device of all right, title, leasehold, and interest in such sign, display, or device; and

(b) The taking from the owner of the real property on which the sign, display, or device is located, of the right to erect and maintain such signs, displays, and devices thereon. [1977 ex.s. c 141 § 1.]

Severability—1977 ex.s. c 141: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 ex.s. c 141 § 2.]

47.42.110 Agreements for federal aid. The department is authorized to enter into agreements (and such supplementary agreements as may be necessary) consistent with this chapter, with the secretary of commerce or the secretary of transportation authorized under section 131(b) of title 23, United States Code, as codified and enacted by Public Law 85-767 and amended only by section 106, Public Law 86-342, in order that the state may become eligible for increased federal aid as provided for in section 131 of title 23, United States Code, as codified and enacted by Public Law 85-767 and amended only by section 106, Public Law 86-342. [1984 c 7 § 231; 1971 ex.s. c 62 § 16; 1961 c 96 § 11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.120 Permits—Fees—Renewal—Permissible acts—Revocation. Notwithstanding any other provisions of this chapter, no sign except a sign of type 1 or 2 or those type 3 signs that advertise activities conducted upon the properties where the signs are located, may be erected or maintained without a permit issued by the department. Application for a permit shall be made to the department on forms furnished by it. The forms shall contain a statement that the owner or lessee of the land in question has consented thereto. The application shall be accompanied by a fee

of ten dollars to be deposited with the state treasurer to the credit of the motor vehicle fund. Permits shall be for the calendar year and shall be renewed annually upon payment of this fee for the new year without the filing of a new application. Fees shall not be prorated for fractions of the year. Advertising copy may be changed at any time without the payment of an additional fee. Assignment of permits in good standing is effective only upon receipt of written notice of assignment by the department. A permit may be revoked after hearing if the department finds that any statement made in the application was false or misleading, or that the sign covered is not in good general condition and in a reasonable state of repair, or is otherwise in violation of this chapter, if the false or misleading information has not been corrected and the sign has not been brought into compliance with this chapter within thirty days after written notification. [1984 c 7 § 232; 1971 ex.s. c 62 § 17; 1961 c 96 § 12.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.130 Permit identification number—Permittee's name and number on signs—Presumption of noncompliance. Every permit issued by the department shall be assigned a separate identification number, and each permittee shall fasten to each sign a weatherproof label, not larger than six square inches, that shall be furnished by the department and on which shall be plainly visible the permit number. The permittee shall also place his or her name in a conspicuous position on the front or back of each sign. The failure of a sign to have such a label affixed to it is prima facie evidence that it is not in compliance with the provisions of this chapter. [1984 c 7 § 233; 1961 c 96 § 13.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.44.010 Wire and pipe line and tram and railway franchises—Application—Rules on hearing and notice. The department of transportation may grant franchises to persons, associations, private or municipal corporations, the United States government, or any agency thereof, to use any state highway for the construction and maintenance of water pipes, flume, gas, oil or coal pipes, telephone, telegraph and electric light and power lines and conduits, trams or railroads, and any structures or facilities which are part of an urban public transportation system owned or operated by a municipal corporation, agency or department of the state of Washington other than the department of transportation, and any other such facilities. All applications for such franchise shall be made in writing and subscribed by the applicant, and shall describe the state highway or portion thereof over which franchise is desired and the nature of the franchise. The department of transportation shall adopt rules providing for a hearing or an opportunity for a hearing with reasonable public notice thereof with respect to any franchise application involving the construction and maintenance of utilities or other facilities within the highway right of way which the

department determines may (1) during construction, significantly disrupt the flow of traffic or use of driveways or other facilities within the right of way, or (2) during or following construction, cause a significant and adverse effect upon the surrounding environment. [1980 c 28 § 1; 1975 1st ex.s. c 46 § 1; 1967 c 108 § 7; 1963 c 70 § 1; 1961 ex.s. c 21 § 26; 1961 c 13 § 47.44.010. Prior: 1943 c 265 § 2; 1937 c 53 § 83; Rem. Supp. 1943 § 6400-83.]

Urban public transportation system defined: RCW 47.04.082.

47.44.020 Grant of franchise—Conditions—Hearing. If the department of transportation deems it to be for the public interest, the franchise may be granted in whole or in part, with or without hearing under such regulations and conditions as the department may prescribe, with or without compensation, but not in excess of the reasonable cost for investigating, handling, and granting the franchise. The department may require that the utility and appurtenances be so placed on the highway that they will, in its opinion, least interfere with other uses of the highway.

If a hearing is held, it shall be conducted by the department, and may be adjourned from time to time until completed. The applicant may be required to produce all facts pertaining to the franchise, and evidence may be taken for and against granting it.

The facility shall be made subject to removal when necessary for the construction, alteration, repair, or improvement of the highway and at the expense of the franchise holder, except that the state shall pay the cost of such removal whenever the state shall be entitled to receive proportionate reimbursement therefor from the United States in the cases and in the manner set forth in RCW 47.44.030. Renewal upon expiration of a franchise shall be by application. A person constructing or operating such a utility on a state highway is liable to any person injured thereby for any damages incident to the work of installation or the continuation of the occupancy of the highway by the utility, and except as provided above, is liable to the state for all necessary expenses incurred in restoring the highway to a permanent suitable condition for travel. No franchise may be granted for a longer period than fifty years, and no exclusive franchise or privilege may be granted. [1980 c 28 § 2; 1975 1st ex.s. c 46 § 2; 1961 c 13 § 47.44.020. Prior: 1959 c 330 § 1; 1937 c 53 § 84; RRS § 6400-84.]

47.44.030 Removal of facilities—Notice—Reimbursement of owner when national system involved. If the department deems it necessary that a facility be removed from the highway for the safety of persons traveling thereon or for construction, alteration, improvement, or maintenance purposes, it shall give notice to the franchise holder to remove the facility at his or her expense and as the department orders. However, notwithstanding any contrary provision of law or of any existing or future franchise held by a public utility, the department shall pay or reimburse the owner for relocation or removal of any publicly, privately, or cooperatively owned public utility facilities when necessitated by the construction, reconstruction, relocation, or improvement of a highway that is part of the national system of interstate and defense highways for each item of cost for which the state is entitled to be reimbursed by the United

States in an amount equal to at least ninety percent thereof under the provisions of section 123 of the federal aid highway act of 1958 and any other subsequent act of congress under which the state is entitled to be reimbursed by the United States in an amount equal to at least ninety percent of the cost of relocation of utility facilities on the national system of interstate and defense highways. [1984 c 7 § 234; 1961 c 13 § 47.44.030. Prior: 1959 c 330 § 2; 1937 c 53 § 85; RRS § 6400-85.]

Severability—1984 c 7: See note following RCW 47.01.141.

Severability—1984 c 7: See note following RCW 47.01.141.

47.44.040 Franchises across joint bridges. Whenever any bridge exists on the route of any state highway and crosses any stream, body of water, gulch, navigable water, swamp, or other topographical formation constituting the boundary of this state or the boundary of a county, city, or town of this state and the bridge is owned or operated by this state jointly with any such county, city, or town, or with any municipal corporation of this state, or with such other state or with any county, city, or town of such other state, the department is empowered to join with the proper officials of the county, city, or town, or the municipal corporation of this state or of such other state or of such county, city, or town of such other state in granting franchises to persons or private or municipal corporations for the construction and maintenance on the bridge of water pipes, flumes, gas pipes, telephone, telegraph, and electric light and power lines and conduits, trams and railways, and any structures or facilities that are part of an urban public transportation system owned or operated by a municipal corporation, agency, or department of the state of Washington other than the department, or any other such facilities. All such franchises shall be granted in the same manner as provided for the granting of like franchises on state highways. Any revenue accruing to the state of Washington from the franchises shall be paid to the state treasurer and deposited to the credit of the fund from which this state's share of the cost of joint operation of the bridge is paid. [1984 c 7 § 236; 1967 c 108 § 8; 1961 c 13 § 47.44.040. Prior: 1937 c 53 § 86; RRS § 6400-86.]

Urban public transportation system defined: RCW 47.04.082.

47.44.050 Permit for short distances. The department is empowered to grant a permit to construct or maintain on, over, across, or along any state highway any water, gas, telephone, telegraph, light, power, or other such facilities when they do not extend along the state highway for a distance greater than three hundred feet. The department may require such information as it deems necessary in the application for any such permit, and may grant or withhold the permit within its discretion. Any permit granted may be canceled at any time, and any facilities remaining upon the

right of way of the state highway after thirty days written notice of the cancellation is [are] an unlawful obstruction and may be removed in the manner provided by law. [1984 c 7 § 237; 1961 c 13 § 47.44.050. Prior: 1943 c 265 § 3; 1937 c 53 § 87; Rem. Supp. 1943 § 6400-87.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.44.060 Penalties. (1) Any person, firm, or corporation who constructs or maintains on, over, across, or along any state highway any water pipe, flume, gas pipe, telegraph, telephone, electric light, or power lines, or tram or railway, or any other such facilities, without having first obtained and having at all times in full force and effect a franchise or permit to do so in the manner provided by law is guilty of a misdemeanor. Each day of violation is a separate and distinct offense.

(2) Any person, firm, or corporation who constructs or maintains on, over, across, or along any state highway any water pipe, flume, gas pipe, telegraph, telephone, electric light or power lines, or tram or railway, or any other such facilities, without having first obtained and having at all times in full force and effect a franchise or permit to do so in the manner provided by law is liable for a civil penalty of one hundred dollars per calendar day beginning forty-five days from the date notice is given and until application is made for a franchise or permit or until the facility is removed as required by notice. The state shall give notice by certified mail that a franchise or permit is required or the facility must be removed and shall include in the notice sufficient information to identify the portion of right of way in question. Notice is effective upon delivery.

(3) If a person, firm or corporation does not apply for a permit or franchise within forty-five days of notice given in accordance with subsection (2) of this section or the state determines that the facility constructed or maintained without a permit or franchise would not be granted a permit or franchise, the state may order the facility to be removed within such time period as the state may specify. If the facility is not removed, the state, in addition to any other remedy, may remove the facility at the expense of the owner. [1989 c 224 § 1; 1961 c 13 § 47.44.060. Prior: 1943 c 265 § 1; 1937 c 53 § 82; Rem. Supp. 1943 § 6400-82.]

47.44.150 Measure of damages. In any action for damages against the state of Washington, its agents, contractors, or employees by reason of damages to a utility or other facility located on a state highway, the damages are limited to the cost of repair of the utility or facility and are recoverable only in those instances where the utility or facility is authorized to be located on the state highway. However, the state is subject to the penalties provided in RCW 19.122.070 (1) and (2) only if the state has failed to give a notice meeting the requirements of RCW 19.122.030 to utilities or facilities that are authorized to be located on the state highway. PUBLIC-PRIVATE TRANSPORTATION
INITIATIVES

 47.46.030 Demonstration projects—Selection—Public involvement.

47.46.010 Finding. The legislature finds and declares:

It is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient transportation system.

The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake all or a portion of the study, planning, design, development, financing, acquisition, installation, construction or improvement, operation, and maintenance of transportation systems and facility projects.

A public-private initiatives program will provide benefits to both the public and private sectors. Public-private initiatives provide a sound economic investment opportunity for the private sector. Such initiatives will provide the state with increased access to property development and project opportunities, financial and development expertise, and will supplement state transportation revenues, allowing the state to use its limited resources for other needed projects.

The public-private initiatives program, to the fullest extent possible, should encourage and promote business and employment opportunities for Washington state citizens.

The public-private initiatives program shall be implemented in cooperation, consultation, and with the support of the affected communities and local jurisdictions.

The secretary of transportation should be permitted and encouraged to test the feasibility of building privately funded transportation systems and facilities or segments thereof through the use of innovative agreements with the private sector. The secretary of transportation should be vested with the authority to solicit, evaluate, negotiate, and administer public-private agreements with the private sector relating to the planning, construction, upgrading, or reconstruction of transportation systems and facilities.

Agreements negotiated under a public-private initiatives program will not bestow on private entities an immediate right to construct and operate the proposed transportation facilities. Rather, agreements will grant to private entities the opportunity to design the proposed facilities, demonstrate public support for proposed facilities, and complete the planning processes required in order to obtain a future decision by the department of transportation and other state and local lead agencies on whether the facilities should be permitted and built.

Agreements negotiated under the public-private initiatives program should establish the conditions under which the private developer may secure the approval necessary to develop and operate the proposed transportation facilities; create a framework to attract the private capital necessary to

finance their development; ensure that the transportation facilities will be designed, constructed, and operated in accordance with applicable local, regional, state, and federal laws and the applicable standards and policies of the department of transportation; and require a demonstration that the proposed transportation facility has the support of the affected communities and local jurisdictions.

The legislature finds that the Puget Sound congestion pricing project, selected under this chapter, raises major transportation policy, economic, and equity concerns. These relate to the integrity of the state's high-occupancy vehicle program; the cost-effective movement of freight and goods; the diversion of traffic to local streets and arterials; and possible financial hardship to commuters. The legislature further finds that these potential economic and social impacts require comprehensive legislative review prior to advancement of the project and directs that the secretary not proceed with the implementation of the project without prior approval of the legislature.

The department of transportation should be encouraged to take advantage of new opportunities provided by federal legislation under section 1012 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). That section establishes a new program authorizing federal participation in construction or improvement or improvement of publicly or privately owned toll roads, bridges, and tunnels, and allows states to leverage available federal funds as a means for attracting private sector capital. [1995 2nd sp.s. c 19 § 1; 1993 c 370 § 1.]

Effective date—1995 2nd sp.s. c 19: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [June 16, 1995]." [1995 2nd sp.s. c 19 § 5.]

47.46.020 Definition. As used in this chapter, "transportation systems and facilities" means capital-related improvements and additions to the state's transportation infrastructure, including but not limited to highways, roads, bridges, vehicles, and equipment, marine-related facilities, vehicles, and equipment, park and ride lots, transit stations and equipment, transportation management systems, and other transportation-related investments. [1993 c 370 § 2.]

47.46.030 Demonstration projects—Selection—Public involvement. (1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part private sources of financing.

The public-private initiatives program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project.

(2) If project proposals selected prior to September 1, 1994, are terminated by the public or private sectors, the department shall not select any new projects, including project proposals submitted to the department prior to September 1, 1994, and designated by the transportation commission as placeholder projects, after June 16, 1995, until June 30, 1997.

The department, in consultation with the legislative transportation committee, shall conduct a program and fiscal audit of the public-private initiatives program for the biennium ending June 30, 1997. The department shall submit a progress report to the legislative transportation committee on the program and fiscal audit by June 30, 1996, with preliminary and final audit reports due December 1, 1996, and June 30, 1997, respectively.

The department shall develop and submit a proposed public involvement plan to the 1997 legislature to identify the process for selecting new potential projects and the associated costs of implementing the plan. The legislature must adopt the public involvement plan before the department may proceed with any activity related to project identification and selection. Following legislative adoption of the public involvement plan, the department is authorized to implement the plan and to identify potential new projects.

The public involvement plan for projects selected after June 30, 1997, shall, at a minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) provide competition among proposers and maximum cost benefits to users. Prospective projects may include projects identified by the department or submitted by the private sector.

Projects that meet the minimum criteria established under this section and the requirements of the public involvement plan developed by the department and approved by the legislature shall be submitted to the Washington state transportation commission for its review. The commission, in turn, shall submit a list of eligible projects to the legislative transportation committee for its consideration. Forty-five days after the submission to the legislative transportation committee of the list of eligible projects, the secretary is authorized to solicit proposals for the eligible project.

(3) Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project proposal selected before September 1, 1994, or after June 30, 1997, except as provided for in subsections (11) and (12) of this section, the department shall require an advisory vote as provided under subsections (5) through (10) of this section.

(4) The advisory vote shall apply to project proposals selected prior to September 1, 1994, or after June 30, 1997, that receive public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project collected and submitted in accordance with the dates established in subsections (12) and (13) of this section. The advisory vote shall be on the preferred alternative identified under the requirements of chapter 43.21C RCW and, if applicable, the national environmental policy act, 42 U.S.C. 4321 et seq. The execution by the department of the advisory vote process established in this section is subject to the prior appropriation of funds by the legislature for the purpose of conducting environmental impact studies, a public involvement program, local involvement committee activities, traffic and economic impact analyses, engineering and technical studies, and the advisory vote.

(5) In preparing for the advisory vote, the department shall conduct a comprehensive analysis of traffic patterns and economic impact to define the geographical boundary of the project area that is affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

(6)(a) After determining the definition of the affected project area, the department shall establish a committee comprised of individuals who represent cities and counties in the affected project area; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the affected project area; (ii) an elected official from each county within the affected project area; (iii) two persons from each county within the affected project area who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county within the affected project area who represent an organization formed to oppose the project, if the organization exists; and (v) four public members active in a state-wide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city or county legislative authorities of each city or county within the affected project area, respectively. The county legislative authority of each county within the affected project area shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than January 1, 1996, for projects selected prior to September 1, 1994, and no later than thirty days after the affected project area is defined for projects selected after June 30, 1997. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b)(i) through (v) of this subsection for each position on the committee.

(d) The local involvement committee shall serve in an advisory capacity to the department on all matters related to the execution of the advisory vote.

(e) Members of the local involvement committee serve without compensation and may not receive subsistence, lodging expenses, or travel expenses.

(7) The department shall conduct a minimum thirty-day public comment period on the definition of the geographical boundary of the project area. The department, in consultation with the local involvement committee, shall make adjustments, if required, to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department shall set the boundaries of the affected project area in units no smaller than a precinct as defined in RCW 29.01.120.

(8) The department, in consultation with the local involvement committee, shall develop a description for selected project proposals. After developing the description of the project proposal, the department shall publish the project proposal description in newspapers of general circulation for seven calendar days in the affected project area. Within fourteen calendar days after the last day of the publication of the project proposal description, the department shall transmit a copy of the map depicting the affected project area and the description of the project proposal to the county auditor of the county in which any portion of the affected project area is located.

(9) The department shall provide the legislative transportation committee with progress reports on the status of the definition of the affected project area and the description of the project proposal.

(10) Upon receipt of the map and the description of the project proposal, the county auditor shall, within thirty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project proposal using the definition of the geographical boundary of the affected project area and the project description submitted by the department and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project proposal must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW 29.13.020 that is at least sixty days but, if authorized under RCW 29.13.020, no more than ninety days after the receipt of the final map and project description by the auditor. The department shall pay the cost of an election held under this section.

(11) Notwithstanding any other provision of law, the department may contract with a private developer of a selected project proposal to conduct environmental impact studies, a public involvement program, and engineering and technical studies funded by the legislature. For projects subject to this subsection, the department shall not enter into an agreement under RCW 47.46.040 prior to the advisory vote on the preferred alternative.

(12) Subsections (5) through (10) of this section shall not apply to project proposals selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted after September 1, 1994, and by thirty calendar days after June 16, 1995.

(13) Subsections (5) through (10) of this section shall not apply to project proposals selected after June 30, 1997, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted by ninety calendar days after project selection. [1996 c 280 § 1; 1995 2nd sp.s. c 19 § 2; 1993 c 370 § 3.]

***Reviser's note:** Subsections (12) and (13) of this section, not (11) and (12), contain exceptions for project proposals selected before September 1, 1994, or after June 30, 1997.

Effective date—1996 c 280: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 29, 1996]." [1996 c 280 § 2.]

Effective date—1995 2nd sp.s. c 19: See note following RCW 47.46.010.

47.46.040 Demonstration projects—Terms of agreements—Public participation. (1) All projects designed, constructed, and operated under this authority must comply with all applicable rules and statutes in existence at the time the agreement is executed, including but not limited to the following provisions: Chapter 39.12 RCW, this title, RCW 41.06.380, chapter 47.64 RCW, RCW 49.60.180, and 49 C.F.R. Part 21.

(2) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(3) Agreements shall provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement shall provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state shall lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(4) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this chapter. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services for projects, involving state highway routes, developed under agreements shall be entered into with the Washington state patrol. The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to prelimi-

nary planning, environmental certification, and preliminary design of the demonstration projects.

(5) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(6) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

(7) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(8) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(9) Agreements shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(10)(a) In carrying out the public involvement process required in subsection (9) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates public support among: Users of the project, residents of communities in the vicinity of the project, and residents of communities impacted by the project.

(b) The private entity shall conduct a comprehensive public involvement process that provides, periodically throughout the development and implementation of the project, users and residents of communities in the affected project area an opportunity to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right of way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(c) If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (iv) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area.

(d) In seeking public participation, the private entity shall establish a local involvement committee or committees comprised of residents of the affected project area, individuals who represent cities and counties in the affected project area, organizations formed to support or oppose the project, if such organizations exist, and users of the project. The private entity shall, at a minimum, establish a committee as required under the specifications of *RCW 47.46.030(5)(b) (ii) and (iii) and appointments to such committee shall be made no later than thirty days after the project area is defined.

(e) Local involvement committees shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(f) The department and the private entity shall provide the legislative transportation committee and local involvement committees with progress reports on the status of the public involvement process including the results of an advisory vote, if any occurs.

(11) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public. [1995 2nd sp.s. c 19 § 3; 1993 c 370 § 4.]

***Reviser's note:** RCW 47.46.030 was amended by 1996 c 280 § 1, changing subsection (5)(b)(ii) and (iii) to subsection (6)(b)(ii) and (iii).

Effective date—1995 2nd sp.s. c 19: See note following RCW 47.46.010.

47.46.050 Financial arrangements. (1) The department may enter into agreements using federal, state, and local financing in connection with the projects, including without limitation, grants, loans, and other measures authorized by section 1012 of ISTEA, and to do such things as necessary and desirable to maximize the funding and financing, including the formation of a revolving loan fund to implement this section.

(2) Agreements entered into under this section shall authorize the private entity to lease the facilities within a designated area or areas from the state and to impose user fees or tolls within the designated area to allow a reasonable rate of return on investment, as established through a negotiated agreement between the state and the private entity. The negotiated agreement shall determine a maximum rate of return on investment, based on project characteristics. If the negotiated rate of return on investment is not affected, the private entity may establish and modify toll rates and user fees.

(3) Agreements may establish "incentive" rates of return beyond the negotiated maximum rate of return on investment. The incentive rates of return shall be designed to provide financial benefits to the affected public jurisdictions and the private entity, given the attainment of various safety, performance, or transportation demand management goals. The incentive rates of return shall be negotiated in the agreement.

(4) Agreements shall require that over the term of the ownership or lease the user fees or toll revenues be applied only to payment of the private entity's capital outlay costs for the project, including project development costs, interest expense, the costs associated with design, construction, operations, toll collection, maintenance and administration of the project, reimbursement to the state for all costs associated with an election as required under RCW 47.46.030, the costs of project review and oversight, technical and law enforcement services, establishment of a fund to assure the adequacy of maintenance expenditures, and a reasonable return on investment to the private entity. A negotiated agreement shall not extend the term of the ownership or lease beyond the period of time required for payment of the private entity's capital outlay costs for the project under this subsection. [1995 2nd sp.s. c 19-§ 4; 1993 c 370 § 5.]

Effective date—1995 2nd sp.s. c 19: See note following RCW 47.46.010.

47.46.900 Effective date—1993 c 370. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993. [1993 c 370 § 7.]

Whenever the condition of any state highway, county road, or city street, either newly or previously constructed, altered, repaired, or improved, or any part thereof is such that for any reason its unrestricted use or continued use by vehicles or by any class of vehicles will greatly damage that state highway, county road, or city street, or will be dangerous to traffic, or it is being constructed, altered, repaired, improved, or maintained in such a manner as to require that use of the state highway, county road, or city street, or any portion thereof be closed or restricted as to all vehicles or any class of vehicles for any period of time, the secretary, if it is a state highway, the county legislative authority, if it is a county road, or the governing body of any city or town, if it is a city street, is authorized to close the state highway, county road, or city street, as the case may be, to travel by all vehicles or by any class of vehicles, or may declare a lower maximum speed for any class of vehicles, for such a definite period as it shall determine. Nothing in the law of this state prevents the secretary, county legislative authority, or governing body of any city or town from classifying vehicles according to gross weight, axle weight, height, width, length, braking area, performance, vehicle combinations, or tire equipment for the purposes of this section, or from restricting the use of any portion of any state highway, county road, or city street, as the case may be, to its use by an urban public transportation system. 47.48.031 Emergency closures by state patrol. (1) Whenever the chief or another officer of the state patrol determines on the basis of a traffic investigation that an emergency exists or less than safe road conditions exist due to human-caused or natural disasters or extreme weather conditions upon any state highway, or any part thereof, state patrol officers may determine and declare closures and temporarily reroute traffic from any such affected highway.

(2) Any alteration of vehicular traffic on any state highway due to closure in emergency conditions is effective until such alteration has been approved or altered by the secretary of transportation or other department of transportation authorities in their local respective jurisdictions.

(3) All state highway closures by officers of the state patrol shall be immediately reported to the secretary of transportation and to other authorities in their local jurisdictions. [1981 c 197 § 1.]

47.48.040 Penalty. When any state highway, county road, or city street or portion thereof shall have been closed, or when the maximum speed limit thereon shall have been reduced, for all vehicles or any class of vehicles, as by law provided, any person, firm or corporation disregarding such closing or reduced speed limit shall be guilty of a misdemeanor, and shall in addition to any penalty for violation of the provisions of this section, be liable in any civil action instituted in the name of the state of Washington or the county or city or town having jurisdiction for any damages occasioned to such state highway, county road, or city street, as the case may be, as the result of disregarding such closing or reduced speed limit. HIGHWAY ACCESS MANAGEMENT

47.50.010 Findings—Access. (1) The legislature finds that:

(a) Regulation of access to the state highway system is necessary in order to protect the public health, safety, and welfare, to preserve the functional integrity of the state highway system, and to promote the safe and efficient movement of people and goods within the state;

(b) The development of an access management program, in accordance with this chapter, which coordinates land use planning decisions by local governments and investments in the state highway system, will serve to control the proliferation of connections and other access approaches to and from the state highway system. Without such a program, the health, safety, and welfare of the residents of this state are at risk, due to the fact that uncontrolled access to the state highway system is a significant contributing factor to the congestion and functional deterioration of the system; and

(c) The development of an access management program in accordance with this chapter will enhance the development of an effective transportation system and increase the traffic-carrying capacity of the state highway system and thereby reduce the incidences of traffic accidents, personal injury, and property damage or loss; mitigate environmental degradation; promote sound economic growth and the growth management goals of the state; reduce highway maintenance costs and the necessity for costly traffic operations measures; lengthen the effective life of transportation facilities in the state, thus preserving the public investment in such facilities; and shorten response time for emergency vehicles.

(2) In furtherance of these findings, all state highways are hereby declared to be controlled access facilities as defined in RCW 47.50.020, except those highways that are defined as limited access facilities in chapter 47.52 RCW.

(3) It is the policy of the legislature that:

(a) The access rights of an owner of property abutting the state highway system are subordinate to the public's right and interest in a safe and efficient highway system; and

(b) Every owner of property which abuts a state highway has a right to reasonable access to that highway, unless such access has been acquired pursuant to chapter

47.52 RCW, but may not have the right of a particular means of access. The right of access to the state highway may be restricted if, pursuant to local regulation, reasonable access can be provided to another public road which abuts the property.

(4) The legislature declares that it is the purpose of this chapter to provide a coordinated planning process for the permitting of access points on the state highway system to effectuate the findings and policies under this section.

(5) Nothing in this chapter shall affect the right to full compensation under section 16, Article I of the state Constitution. [1991 c 202 § 1.]

Captions not law—1991 c 202: "Section captions and part headings as used in this act do not constitute any part of the law." [1991 c 202 § 22.] This act consists of chapter 47.50 RCW and RCW 70.94.521 through 70.94.551.

Effective date—1991 c 202: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1991." [1991 c 202 § 24.]

Severability—1991 c 202: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1991 c 202 § 25.]

47.50.020 Definitions—Access. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Controlled access facility" means a transportation facility to which access is regulated by the governmental entity having jurisdiction over the facility. Owners or occupants of abutting lands and other persons have a right of access to or from such facility at such points only and in such manner as may be determined by the governmental entity.

(2) "Connection" means approaches, driveways, turn-outs, or other means of providing for the right of access to or from controlled access facilities on the state highway system.

(3) "Permitting authority" means the department for connections in unincorporated areas or a city or town within incorporated areas which are authorized to regulate access to state highways pursuant to chapter 47.24 RCW. [1991 c 202 § 2.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.030 Regulating connections. (1) Vehicular access and connections to or from the state highway system shall be regulated by the permitting authority in accordance with the provisions of this chapter in order to protect the public health, safety, and welfare.

(2) The department shall by July 1, 1992, adopt administrative procedures pursuant to chapter 34.05 RCW which establish state highway access standards and rules for its issuance and modification of access permits, closing of unpermitted connections, revocation of permits, and waiver provisions in accordance with this chapter. The department shall consult with the association of Washington cities and obtain concurrence of the city design standards committee as established by RCW 35.78.030 in the development and adoption of rules for access standards for city streets designated as state highways under chapter 47.24 RCW.

(3) Cities and towns shall, no later than July 1, 1993, adopt standards for access permitting on streets designated as state highways which meet or exceed the department's standards, provided that such standards may not be inconsistent with standards adopted by the department. [1991 c 202 § 3.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.040 Access permits. (1) No connection to a state highway shall be constructed or altered without obtaining an access permit in accordance with this chapter in advance of such action. A permitting authority has the authority to deny access to the state highway system at the location specified in the permit until the permittee constructs or alters the connection in accordance with the permit requirements.

(2) The cost of construction or alteration of a connection shall be borne by the permittee, except for alterations which are not required by law or administrative rule, but are made at the request of and for the convenience of the permitting authority. The permittee, however, shall bear the cost of alteration of any connection which is required by the permitting authority due to increased or altered traffic flows generated by changes in the permittee's facilities or nature of business conducted at the location specified in the permit.

(3) Except as otherwise provided in this chapter, an unpermitted connection is subject to closure by the appropriate permitting authority which shall have the right to install barriers across or remove the connection. When the permitting authority determines that a connection is unpermitted and subject to closure, it shall provide reasonable notice of its impending action to the owner of property served by the connection. The permitting authority's procedures for providing notice and preventing the operation of unpermitted connections shall be adopted by rule. [1991 c 202 § 4.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.050 Permit fee. The department shall establish by rule a schedule of fees for permit applications made to the department. The fee shall be nonrefundable and shall be used only to offset the costs of administering the access permit review process and the costs associated with administering the provisions of this chapter. [1991 c 202 § 5.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.060 Permit review process. The review process for access permit applications made by the department shall be as follows: Any person seeking an access permit shall file an application with the department. The department by rule shall establish application form and content requirements. The fee required by RCW 47.50.050 must accompany the applications. [1991 c 202 § 6.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.070 Permit conditions. The permitting authority may issue a permit subject to any conditions necessary to carry out the provisions of this chapter, including, but not

limited to, requiring the use of a joint-use connection. The permitting authority may revoke a permit if the applicant fails to comply with the conditions upon which the issuance of the permit was predicated. [1991 c 202 § 7.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.080 Permit removal. (1) Unpermitted connections to the state highway system in existence on July 1, 1990, shall not require the issuance of a permit and may continue to provide access to the state highway system, unless the permitting authority determines that such a connection does not meet minimum acceptable standards of highway safety. However, a permitting authority may require that a permit be obtained for such a connection if a significant change occurs in the use, design, or traffic flow of the connection or of the state highway to which it provides access. If a permit is not obtained, the connection may be closed pursuant to RCW 47.50.040.

(2) Access permits granted prior to adoption of the permitting authorities' standards shall remain valid until modified or revoked. Access connections to state highways identified on plats and subdivisions approved prior to July 1, 1991, shall be deemed to be permitted pursuant to chapter 202, Laws of 1991. The permitting authority may, after written notification, under rules adopted in accordance with RCW 47.50.030, modify or revoke an access permit granted prior to adoption of the standards by requiring relocation, alteration, or closure of the connection if a significant change occurs in the use, design, or traffic flow of the connection.

(3) The permitting authority may issue a nonconforming access permit after finding that to deny an access permit would leave the property without a reasonable means of access to the public roads of this state. Every nonconforming access permit shall specify limits on the maximum vehicular use of the connection and shall be conditioned on the availability of future alternative means of access for which access permits can be obtained. [1991 c 202 § 8.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.090 Access management standards. (1) The department shall develop, adopt, and maintain an access control classification system for all routes on the state highway system, the purpose of which shall be to provide for the implementation and continuing applications of the provision of this chapter.

(2) The principal component of the access control classification system shall be access management standards, the purpose of which shall be to provide specific minimum standards to be adhered to in the planning for and approval of access to state highways.

(3) The control classification system shall be developed consistent with the following:

(a) The department shall, no later than January 1, 1993, adopt rules setting forth procedures governing the implementation of the access control classification system required by this chapter. The rule shall provide for input from the entities described in (b) of this subsection as well as for public meetings to discuss the access control classification system. Nothing in this chapter shall affect the validity of

the department's existing or subsequently adopted rules concerning access to the state highway system. Such rules shall remain in effect until repealed or replaced by the rules required by this chapter.

(b) The access control classification system shall be developed in cooperation with counties, cities and towns, the department of community, trade, and economic development, regional transportation planning organizations, and other local governmental entities, and for city streets designated as state highways pursuant to chapter 47.24 RCW, adopted with the concurrence of the city design standards committee.

(c) The rule required by this section shall provide that assignment of a road segment to a specific access category be made in consideration of the following criteria:

(i) Local land use plans and zoning, as set forth in comprehensive plans;

(ii) The current functional classification as well as potential future functional classification of each road on the state highway system;

(iii) Existing and projected traffic volumes;

(iv) Existing and projected state, local, and metropolitan planning organization transportation plans and needs;

(v) Drainage requirements;

(vi) The character of lands adjoining the highway;

(vii) The type and volume of traffic requiring access;

(viii) Other operational aspects of access;

(ix) The availability of reasonable access by way of county roads and city streets to a state highway; and

(x) The cumulative effect of existing and projected connections on the state highway system's ability to provide for the safe and efficient movement of people and goods within the state.

(d) Access management standards shall include, but not be limited to, connection location standards, safety factors, design and construction standards, desired levels of service, traffic control devices, and effective maintenance of the roads. The standards shall also contain minimum requirements for the spacing of connections, intersecting streets, roads, and highways.

(e) An access control category shall be assigned to each segment of the state highway system by July 1, 1993. [1995 c 399 § 124; 1991 c 202 § 9.]

Description, plans of highways, filing: RCW 47.28.025, 47.28.026.

Port districts, toll facilities: Chapter 53.34 RCW.

Speed limits on limited access facilities: RCW 46.61.430.

47.52.001 Declaration of policy. Unrestricted access to and from public highways has resulted in congestion and peril for the traveler. It has caused undue slowing of all traffic in many areas. The investment of the public in highway facilities has been impaired and highway facilities costing vast sums of money will have to be relocated and reconstructed. It is the declared policy of this state to limit access to the highway facilities of this state in the interest of highway safety and for the preservation of the investment of the public in such facilities. [1961 c 13 § 47.52.001. Prior: 1951 c 167 § 1.]

47.52.010 "Limited access facility" defined. For the purposes of this chapter, a "limited access facility" is defined as a highway or street especially designed or designated for through traffic, and over, from, or to which owners or occupants of abutting land, or other persons, have no right or easement, or only a limited right or easement of access, light, air, or view by reason of the fact that their property abuts upon such limited access facility, or for any other reason to accomplish the purpose of a limited access facility. Such highways or streets may be parkways, from which vehicles forming part of an urban public transportation system, trucks, buses, or other commercial vehicles may be excluded; or they may be freeways open to use by all customary forms of street and highway traffic, including vehicles forming a part of an urban public transportation

system. [1967 c 108 § 10; 1961 c 13 § 47.52.010. Prior: 1951 c 167 § 2; 1947 c 202 § 1; Rem. Supp. 1947 § 6402-60.]

Urban public transportation system defined: RCW 47.04.082.

47.52.011 "Existing highway" defined. For the purposes of this chapter, the term "existing highway" shall include all highways, roads and streets duly established, constructed, and in use. It shall not include new highways, roads or streets, or relocated highways, roads or streets, or portions of existing highways, roads or streets which are relocated. [1961 c 13 § 47.52.011. Prior: 1951 c 167 § 3.]

47.52.020 Powers of highway authorities—State facility, county road crossings. The highway authorities of the state, counties, and incorporated cities and towns, acting alone or in cooperation with each other, or with any federal, state, or local agency, or any other state having authority to participate in the construction and maintenance of highways, may plan, designate, establish, regulate, vacate, alter, improve, construct, maintain, and provide limited access facilities for public use wherever the authority or authorities are of the opinion that traffic conditions, present or future, will justify the special facilities. However, upon county roads within counties, the state or county authorities are subject to the consent of the county legislative authority, except that where a state limited access facility crosses a county road the department may, without the consent of the county legislative authority, close off the county road so that it will not intersect such limited access facility.

The department may, in constructing or relocating any state highway, cross any county road at grade without obtaining the consent of the county legislative authority, and in so doing may revise the alignment of the county road to the extent that the department finds necessary for reasons of traffic safety or practical engineering considerations. [1984 c 7 § 239; 1961 c 13 § 47.52.020. Prior: 1957 c 235 § 2; prior: 1953 c 30 § 1; 1951 c 167 § 4; 1947 c 202 § 2, part; Rem. Supp. 1947 § 6402-61, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.025 Additional powers—Controlling use of limited access facilities—High-occupancy vehicle lanes. Highway authorities of the state, counties, and incorporated cities and towns, in addition to the specific powers granted in this chapter, shall also have, and may exercise, relative to limited access facilities, any and all additional authority, now or hereafter vested in them relative to highways or streets within their respective jurisdictions, and may regulate, restrict, or prohibit the use of such limited access facilities by various classes of vehicles or traffic. Such highway authorities may reserve any limited access facility or portions thereof, including designated lanes or ramps for the exclusive or preferential use of public transportation vehicles, privately owned buses, or private motor vehicles carrying not less than a specified number of passengers when such limitation will increase the efficient utilization of the highway facility or will aid in the conservation of energy resources. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all time or at specified times of day or on

specified days. [1974 ex.s. c 133 § 1; 1961 c 13 § 47.52.025. Prior: 1957 c 235 § 3; prior: 1951 c 167 § 5; 1947 c 202 § 2, part; Rem. Supp. 1947 § 6402-61, part.]

47.52.026 Rules—Control of vehicles entering—Ramp closure, metering, or restrictions—Notice. (1) The department may adopt rules for the control of vehicles entering any state limited access highway as it deems necessary (a) for the efficient or safe flow of traffic traveling upon any part of the highway or connections with it or (b) to avoid exceeding federal, state, or regional air pollution standards either along the highway corridor or within an urban area served by the highway.

(2) Rules adopted by the department pursuant to subsection (1) of this section may provide for the closure of highway ramps or the metering of vehicles entering highway ramps or the restriction of certain classes of vehicles entering highway ramps (including vehicles with less than a specified number of passengers), and any such restrictions may vary at different times as necessary to achieve the purposes mentioned in subsection (1) of this section.

(3) Vehicle restrictions authorized by rules adopted pursuant to this section are effective when proper notice is given by any police officer, or by appropriate signals, signs, or other traffic control devices. [1984 c 7 § 240; 1974 ex.s. c 133 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.027 Standards and rules for interstate and defense highways—Construction, maintenance, access. The secretary of transportation may adopt design standards, rules, and regulations relating to construction, maintenance, and control of access of the national system of interstate and defense highways within this state as it deems advisable to properly control access thereto, to preserve the traffic-carrying capacity of such highways, and to provide the maximum degree of safety to users thereof. In adopting such standards, rules, and regulations the secretary shall take into account the policies, rules, and regulations of the United States secretary of commerce and the federal highway administration relating to the construction, maintenance, and operation of the system of interstate and defense highways. The standards, rules, and regulations so adopted by the secretary shall constitute the public policy of this state and shall have the force and effect of law. [1977 ex.s. c 151 § 62; 1961 c 13 § 47.52.027. Prior: 1959 c 319 § 35. Formerly RCW 47.28.160.]

Nonmotorized traffic may be prohibited: RCW 46.61.160.

47.52.040 Design—Ingress and egress restricted—Closure of intersecting roads. The highway authorities of the state, counties and incorporated cities and towns may so design any limited access facility and so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended; and the determination of design by such authority shall be conclusive and final. In this connection such highway authorities may divide and separate any limited access facility into separate roadways by the construction of raised curbs, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and the proper lane for

such traffic by appropriate signs, markers, stripes and other devices. No person shall have any right of ingress or egress to, from, or across limited access facilities to or from abutting lands, except at designated points at which access may be permitted by the highway authorities upon such terms and conditions as may be specified from time to time: **PROVIDED,** That any intersecting streets, roads or highways, not made a part of such facility, shall be deemed closed at the right of way line by the designation and construction of said facility and without the consent of any other party or the necessity of any other legal proceeding for such closing, notwithstanding any laws to the contrary. [1961 c 13 § 47.52.040. Prior: 1955 c 75 § 1; 1947 c 202 § 3; Rem. Supp. 1947 § 6402-62.]

47.52.041 Closure of intersecting roads—Rights of abutters. No person, firm or corporation, private or municipal, shall have any claim against the state, city or county by reason of the closing of such streets, roads or highways as long as access still exists or is provided to such property abutting upon the closed streets, roads or highways. Circuity of travel shall not be a compensable item of damage. [1961 c 13 § 47.52.041. Prior: 1955 c 75 § 2.]

47.52.042 Closure of intersecting roads—Other provisions not affected. RCW 47.52.040 and 47.52.041 shall not be construed to affect provisions for establishment, notice, hearing and court review of any decision establishing a limited access facility on an existing highway pursuant to chapter 47.52 RCW. [1961 c 13 § 47.52.042. Prior: 1955 c 75 § 3.]

47.52.050 Acquisition of property. (1) For the purpose of this chapter the highway authorities of the state, counties and incorporated cities and towns, respectively, or in cooperation one with the other, may acquire private or public property and property rights for limited access facilities and service roads, including rights of access, air, view and light, by gift, devise, purchase, or condemnation, in the same manner as such authorities are now or hereafter may be authorized by law to acquire property or property rights in connection with highways and streets within their respective jurisdictions. Except as otherwise provided in subsection (2) of this section all property rights acquired under the provisions of this chapter shall be in fee simple. In the acquisition of property or property rights for any limited access facility or portion thereof, or for any service road in connection therewith, the state, county, incorporated city and town authority may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the public will be best served, even though said entire lot, block or tract is not immediately needed for the limited access facility.

(2) The highway authorities of the state, counties, and incorporated cities and towns may acquire by gift, devise, purchase, or condemnation a three dimensional air space corridor in fee simple over or below the surface of the ground, together with such other property in fee simple and other property rights as are needed for the construction and operation of a limited access highway facility, but only if the acquiring authority finds that the proposal will not:

(a) impair traffic safety on the highway or interfere with the free flow of traffic; or

(b) permit occupancy or use of the air space above or below the highway which is hazardous to the operation of the highway. [1971 ex.s. c 39 § 1; 1961 c 13 § 47.52.050. Prior: 1947 c 202 § 4; Rem. Supp. 1947 § 6402-63.]

Award of costs in air space corridor acquisitions: RCW 8.25.073.

Right of way donations: Chapter 47.14 RCW.

47.52.060 Court process expedited. Court proceedings necessary to acquire property or property rights for purposes of this chapter shall take precedence over all other causes not involving the public interest in all courts to the end that the provision for limited access facilities may be expedited. [1961 c 13 § 47.52.060. Prior: 1947 c 202 § 5; Rem. Supp. 1947 § 6402-64.]

47.52.070 Establishment of facility—Grade separation—Service roads. The designation or establishment of a limited access facility shall, by the authority making the designation or establishment, be entered upon the records or minutes of such authority in the customary manner for the keeping of such records or minutes. The state, counties and incorporated cities and towns may provide for the elimination of intersections at grade of limited access facilities with existing state or county roads, and with city or town streets, by grade separation or service road, or by closing off such roads and streets at the right of way boundary line of such limited access facility; and after the establishment of any such facility, no highway or street which is not part of said facility, shall intersect the same at grade. No city or town street, county road, or state highway, or any other public or private way, shall be opened into or connect with any such limited access facility without the consent and previous approval of the highway authority of the state, county, incorporated city or town having jurisdiction over such limited access facility. Such consent and approval shall be given only if the public interest shall be served thereby. [1961 c 13 § 47.52.070. Prior: 1951 c 167 § 10; 1947 c 202 § 6; Rem. Supp. 1947 § 6402-65.]

47.52.080 Abutter's right of access protected—Compensation. No existing public highway, road, or street shall be constructed as a limited access facility except upon the waiver, purchase, or condemnation of the abutting owner's right of access thereto as herein provided. In cases involving existing highways, if the abutting property is used for business at the time the notice is given as provided in RCW 47.52.133, the owner of such property shall be entitled to compensation for the loss of adequate ingress to or egress from such property as business property in its existing condition at the time of the notice provided in RCW 47.52.133 as for the taking or damaging of property for public use. [1983 c 3 § 127; 1961 c 13 § 47.52.080. Prior: 1955 c 54 § 2; 1951 c 167 § 11; 1947 c 202 § 7; Rem. Supp. 1947 § 6402-66.]

47.52.090 Cooperative agreements—Urban public transportation systems—Title to highway—Traffic regulations—Underground utilities and overcrossings—Passenger transportation—Storm sewers—City street

crossings. The highway authorities of the state, counties, incorporated cities and towns, and municipal corporations owning or operating an urban public transportation system are authorized to enter into agreements with each other, or with the federal government, respecting the financing, planning, establishment, improvement, construction, maintenance, use, regulation, or vacation of limited access facilities in their respective jurisdictions to facilitate the purposes of this chapter. Any such agreement may provide for the exclusive or nonexclusive use of a portion of the facility by street cars, trains, or other vehicles forming a part of an urban public transportation system and for the erection, construction, and maintenance of structures and facilities of such a system including facilities for the receipt and discharge of passengers. Within incorporated cities and towns the title to every state limited access highway vests in the state, and, notwithstanding any other provision of this section, the department shall exercise full jurisdiction, responsibility, and control to and over the highway from the time it is declared to be operational as a limited access facility by the department, subject to the following provisions:

(1) Cities and towns shall regulate all traffic restrictions on such facilities except as provided in RCW 46.61.430, and all regulations adopted are subject to approval of the department before becoming effective. Nothing herein precludes the state patrol or any county, city, or town from enforcing any traffic regulations and restrictions prescribed by state law, county resolution, or municipal ordinance.

(2) The city, town, or franchise holder shall at its own expense maintain its underground facilities beneath the surface across the highway and has the right to construct additional facilities underground or beneath the surface of the facility or necessary overcrossings of power lines and other utilities as may be necessary insofar as the facilities do not interfere with the use of the right of way for limited access highway purposes. The city or town has the right to maintain any municipal utility and the right to open the surface of the highway. The construction, maintenance until permanent repair is made, and permanent repair of these facilities shall be done in a time and manner authorized by permit to be issued by the department or its authorized representative, except to meet emergency conditions for which no permit will be required, but any damage occasioned thereby shall promptly be repaired by the city or town itself, or at its direction. Where a city or town is required to relocate overhead facilities within the corporate limits of a city or town as a result of the construction of a limited access facility, the cost of the relocation shall be paid by the state.

(3) Cities and towns have the right to grant utility franchises crossing the facility underground and beneath its surface insofar as the franchises are not inconsistent with the use of the right of way for limited access facility purposes and the franchises are not in conflict with state laws. The department is authorized to enforce, in an action brought in the name of the state, any condition of any franchise that a city or town has granted. No franchise for transportation of passengers in motor vehicles may be granted on such highways without the approval of the department, except cities and towns are not required to obtain a franchise for the operation of municipal vehicles or vehicles operating under

franchises from the city or town operating within the corporate limits of a city or town and within a radius not exceeding eight miles outside the corporate limits for public transportation on such facilities, but these vehicles may not stop on the limited access portion of the facility to receive or to discharge passengers unless appropriate special lanes or deceleration, stopping, and acceleration space is provided for the vehicles.

Every franchise or permit granted any person by a city or town for use of any portion of a limited access facility shall require the grantee or permittee to restore, permanently repair, and replace to its original condition any portion of the highway damaged or injured by it. Except to meet emergency conditions, the construction and permanent repair of any limited access facility by the grantee of a franchise shall be in a time and manner authorized by a permit to be issued by the department or its authorized representative.

(4) The department has the right to use all storm sewers that are adequate and available for the additional quantity of run-off proposed to be passed through such storm sewers.

(5) The construction and maintenance of city streets over and under crossings and surface intersections of the limited access facility shall be in accordance with the governing policy entered into between the department and the association of Washington cities on June 21, 1956, or as such policy may be amended by agreement between the department and the association of Washington cities. Urban public transportation system defined: RCW 47.04.082.

47.52.100 Existing roads and streets as service roads. In connection with the development of any limited access facility the state, county or incorporated city or town highway authorities are authorized to plan, designate, establish, use, regulate, alter, improve, construct, maintain and vacate local service roads and streets, or to designate as local service roads and streets any existing road or street, and to exercise jurisdiction over service roads in the same manner as is authorized for limited access facilities under the terms of this chapter. If, in their opinion such local service roads and streets are necessary or desirable, such local service roads or streets shall be separated from the limited access facility by such means or devices designated as necessary or desirable by the proper authority. [1961 c 13 § 47.52.100. Prior: 1947 c 202 § 9; Rem. Supp. 1947 § 6402-68.]

47.52.105 Acquisition and construction to preserve limited access or reduce required compensation. Whenever, in the opinion of the department, frontage or service roads in connection with limited access facilities are not feasible either from an engineering or economic standpoint, the department may acquire private or public property by purchase or condemnation and construct any road, street, or highway connecting to or leading into any other road, street, or highway, when by so doing, it will preserve a limited access facility or reduce compensation required to be paid to an owner by reason of reduction in or loss of access. The

department shall provide by agreement with a majority of the legislative authority of the county or city concerned as to location, future maintenance, and control of any road, street, or highway to be so constructed. The road, street, or highway need not be made a part of the state highway system or connected thereto, but may upon completion by the state be turned over to the county or city for location, maintenance, and control pursuant to the agreement as part of the system of county roads or city streets. [1984 c 7 § 242; 1967 c 117 § 1; 1961 c 13 § 47.52.105. Prior: 1955 c 63 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.110 Marking of facility with signs. After the opening of any new and additional limited access highway facility, or after the designation and establishment of any existing street or highway, as included the particular highways and streets or those portions thereof designated and established, shall be physically marked and indicated as follows: By the erection and maintenance of such signs as in the opinion of the respective authorities may be deemed proper, indicating to drivers of vehicles that they are entering a limited access area and that they are leaving a limited access area. [1961 c 13 § 47.52.110. Prior: 1947 c 202 § 10; Rem. Supp. 1947 § 6402-69.]

47.52.120 Violations specified—Exceptions—Penalty. After the opening of any limited access highway facility, it shall be unlawful for any person (1) to drive a vehicle over, upon, or across any curb, central dividing section, or other separation or dividing line on limited access facilities; (2) to make a left turn or semicircular or U-turn except through an opening provided for that purpose in the dividing curb section, separation, or line; (3) to drive any vehicle except in the proper lane provided for that purpose and in the proper direction and to the right of the central dividing curb, separation section, or line; (4) to drive any vehicle into the limited access facility from a local service road except through an opening provided for that purpose in the dividing curb, dividing section, or dividing line which separates such service road from the limited access facility proper; (5) to stop or park any vehicle or equipment within the right of way of such facility, including the shoulders thereof, except at points specially provided therefor, and to make only such use of such specially provided stopping or parking points as is permitted by the designation thereof: PROVIDED, That this subsection shall not apply to authorized emergency vehicles, law enforcement vehicles, assistance vans, or to vehicles stopped for emergency causes or equipment failures; (6) to travel to or from such facility at any point other than a point designated by the establishing authority as an approach to the facility or to use an approach to such facility for any use in excess of that specified by the establishing authority. For the purposes of this section, an assistance van is a vehicle rendering aid free of charge to vehicles with equipment or fuel problems. The state patrol shall establish by rule additional standards and operating procedures, as needed, for assistance vans.

Any person who violates any of the provisions of this section is guilty of a misdemeanor and upon arrest and conviction therefor shall be punished by a fine of not less

than five dollars nor more than one hundred dollars, or by imprisonment in the city or county jail for not less than five days nor more than ninety days, or by both fine and imprisonment. Nothing contained in this section prevents the highway authority from proceeding to enforce the prohibitions or limitations of access to such facilities by injunction or as otherwise provided by law. [1987 c 330 § 748; 1985 c 149 § 1; 1961 c 13 § 47.52.120. Prior: 1959 c 167 § 1; 1947 c 202 § 11; Rem. Supp. 1947 § 6402-70.]

47.52.121 Prior determinations validated. Any determinations of an authority establishing a limited access facility subsequent to March 19, 1947, and prior to March 16, 1951, in connection with new highways, roads or streets, or relocated highways, roads or streets, or portions of existing highways, roads or streets which are relocated, and all acquisitions of property or access rights in connection therewith are hereby validated, ratified, approved and confirmed, notwithstanding any lack of power (other than constitutional) of such authority, and notwithstanding any defects or irregularities (other than constitutional) in such proceedings. [1961 c 13 § 47.52.121. Prior: 1951 c 167 § 12.]

47.52.131 Consideration of local conditions—Report to local authorities—Conferences—Proposed plan. When the department is planning a limited access facility through a county or an incorporated city or town, the department or its staff, before any hearing, shall give careful consideration to available data as to the county or city's comprehensive plan, land use pattern, present and potential traffic volume of county roads and city streets crossing the proposed facility, origin and destination traffic surveys, existing utilities, the physical appearance the facility will present, and other pertinent surveys and, except as provided in RCW 47.52.134, shall submit to the county and city officials for study a report showing how these factors have been taken into account and how the proposed plan for a limited access facility will serve public convenience and necessity, together with the locations and access and egress plans, and over and under crossings that are under consideration. This report shall show the proposed approximate right of way limits and profile of the facility with relation to the existing grade, and shall discuss in a general manner plans for landscaping treatment, fencing, and illumination, and shall include sketches of typical roadway sections for the roadway itself and any necessary structures such as viaducts or bridges, subways, or tunnels.

Conferences shall be held on the merits of this state report and plans and any proposed modification or alternate proposal of the county, city, or town in order to attempt to reach an agreement between the department and the county or city officials. As a result of the conference, the proposed plan, together with any modifications, shall be prepared by the department and presented to the county or city for inspection and study. [1987 c 200 § 1; 1984 c 7 § 243; 1965 ex.s. c 75 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.133 Local public hearing—Notices. Except as provided in RCW 47.52.134, the transportation commission and the highway authorities of the counties and incorporated cities and towns, with regard to facilities under their respective jurisdictions, prior to the establishment of any limited access facility, shall hold a public hearing within the county, city, or town wherein the limited access facility is to be established to determine the desirability of the plan proposed by such authority. Notice of such hearing shall be given to the owners of property abutting the section of any existing highway, road, or street being established as a limited access facility, as indicated in the tax rolls of the county, and in the case of a state limited access facility, to the county and/or city or town. Such notice shall be by United States mail in writing, setting forth a time for the hearing, which time shall be not less than fifteen days after mailing of such notice. Notice of such hearing also shall be given by publication not less than fifteen days prior to such hearing in one or more newspapers of general circulation within the county, city, or town. Such notice by publication shall be deemed sufficient as to any owner or reputed owner or any unknown owner or owner who cannot be located. Such notice shall indicate a suitable location where plans for such proposal may be inspected. [1987 c 200 § 2; 1981 c 95 § 1; 1965 ex.s. c 75 § 2.]

47.52.134 When access reports and hearings not required. Access reports and hearings on the establishment of limited access facilities are not required if:

- (1) The limited access facility would lie wholly within state or federal lands and the agency or agencies with jurisdiction of the land agree to the access plan; or
- (2) The access rights to the affected section of roadway have previously been purchased or established by others; or
- (3) The limited access facility would not significantly change local road use, and all affected local agencies and abutting property owners agree in writing to waive a formal hearing on the establishment of the facility after publication of a notice of opportunity for a limited access hearing. This notice of opportunity for a limited access hearing shall be given in the same manner as required for published notice of hearings under RCW 47.52.133. If the authority specified in the notice receives a request for a hearing from one or more abutting property owners or affected local agencies on or before the date stated in the notice, an access report shall be submitted as provided in RCW 47.52.131 and a hearing shall be held. Notice of the hearing shall be given by mail and publication as provided in RCW 47.52.133. [1987 c 200 § 3.]

47.52.135 Hearing procedure. At the hearing any representative of the county, city or town, or any other person may appear and be heard even though such official or person is not an abutting property owner. Such hearing may, at the option of the highway authority, be conducted in accordance with federal laws and regulations governing highway design public hearings. The members of such authority shall preside, or may designate some suitable person to preside as examiner. The authority shall introduce by competent evidence a summary of the proposal for the establishment of a limited access facility and any evidence

that supports the adoption of the plan as being in the public interest. At the conclusion of such evidence, any person entitled to notice who has entered a written appearance shall be deemed a party to this hearing for purposes of this chapter and may thereafter introduce, either in person or by counsel, evidence and statements or counterproposals bearing upon the reasonableness of the proposal. Any such evidence and statements or counterproposals shall receive reasonable consideration by the authority before any proposal is adopted. Such evidence must be material to the issue before the authority and shall be presented in an orderly manner. [1982 c 189 § 5; 1981 c 67 § 29; 1977 c 77 § 2; 1965 ex.s. c 75 § 3.]

47.52.137 Adoption of plan—Service of findings and order—Publication of resume—Finality—Review. Following the conclusion of such hearing the authority shall adopt a plan with such modifications, if any, it deems proper and necessary. Its findings and order shall be in writing and copies thereof shall be served by United States mail upon all persons having entered a written appearance at such hearing, and in the case of a state limited access facility, the county commissioners of the county affected and the mayor of the city or town affected. The authority shall also cause a resume of such plan to be published once each week for two weeks in one or more newspapers of general circulation within such county, city or town beginning not less than ten days after the mailing of such findings and order. Such determination by the authority shall become final within thirty days after such mailing unless a review is taken as hereinafter provided. In case of an appeal, the order shall be final as to all parties not appealing. [1965 ex.s. c 75 § 4.]

47.52.139 Local approval of plan—Disapproval, request for review. Upon receipt of the findings and order adopting a plan, the county, city, or town may notify the department of transportation of its approval of such plan in writing, in which event such plan shall be final.

In the event that a county, city, or town does not approve the plan, the county, city, or town shall file its disapproval in writing with the secretary of transportation within thirty days after the mailing thereof to such mayor or county commissioner. Along with the written disapproval shall be filed a written request for a hearing before a board of review, hereinafter referred to as the board. The request for hearing shall set forth the portions of the plan of the department to which the county, city, or town objects, and shall include every issue to be considered by the board. The hearing before a board of review shall be governed by RCW 47.52.150 through 47.52.190, as now or hereafter amended. [1977 ex.s. c 151 § 63; 1965 ex.s. c 75 § 5.]

47.52.145 Modification of adopted plan without further public hearings, when. Whenever after the final adoption of a plan for a limited access highway by the transportation commission, an additional design public hearing with respect to the facility or any portion thereof is conducted pursuant to federal law resulting in a revision of

the design of the limited access plan, the commission may modify the previously adopted limited access plan to conform to the revised design without further public hearings providing the following conditions are met:

(1) As compared with the previously adopted limited access plan, the revised plan will not require additional or different right of way with respect to that section of highway for which the design has been revised, in excess of five percent by area; and

(2) If the previously adopted limited access plan was modified by a board of review convened at the request of a county, city, or town, the legislative authority of the county, city, or town shall approve any revisions of the plan which conflict with modifications ordered by the board of review. [1981 c 95 § 2; 1977 c 77 § 1.]

47.52.150 State facility through city or town—Board of review, composition and appointment. Upon request for a hearing before the board by any county, city, or town, a board consisting of five members shall be appointed as follows: The mayor or the county commissioners, as the case may be shall appoint two members of the board, of which one shall be a duly elected official of the city, county, or legislative district, except that of the legislative body of the county, city, or town requesting the hearing, subject to confirmation by the legislative body of the city or town; the secretary of transportation shall appoint two members of the board; and one member shall be selected by the four members thus appointed. Such fifth member shall be a licensed civil engineer or a recognized professional city or town planner, who shall be chairman of the board. In the case both the county and an included city or town request a hearing, the board shall consist of nine members appointed as follows: The mayor and the county commission shall each appoint two members from the elective officials of their respective jurisdictions, and of the four thus selected no more than two thereof may be members of a legislative body of the county, city, or town. The secretary of transportation shall appoint four members of the board. One member shall be selected by the members thus selected, and such ninth member shall be a licensed civil engineer or a recognized city or town planner, who shall be chairman of the board. Such boards as are provided by this section shall be appointed within thirty days after the receipt of such a request by the secretary. In the event the secretary or a county, city, or town shall not appoint members of the board or members thus appointed fail to appoint a fifth or ninth member of the board, as the case may be, either the secretary or the county, city, or town may apply to the superior court of the county in which the county, city, or town is situated to appoint the member or members of the board in accordance with the provisions of this chapter. [1977 ex.s. c 151 § 64; 1963 c 103 § 3; 1961 c 13 § 47.52.150. Prior: 1959 c 242 § 3; 1957 c 235 § 7.]

47.52.160 State facility through city or town—Hearing—Notice—Evidence—Determination of issues. The board shall fix a reasonable time not more than thirty days after the date of its appointment and shall indicate the time and place for the hearing, and shall give notice to the county, city, or town and to the department. At the time and

place fixed for the hearing, the state and the county, city, or town shall present all of their evidence with respect to the objections set forth in the request for the hearing before the board, and if either the state, the county, or the city or town fails to do so, the board may determine the issues upon such evidence as may be presented to it at the hearing. [1984 c 7 § 244; 1963 c 103 § 4; 1961 c 13 § 47.52.160. Prior: 1957 c 235 § 8.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.170 State facility through city or town—Hearing—Procedure. No witness’s testimony shall be received unless he shall have been duly sworn, and the board may cause all oral testimony to be stenographically reported. Members of the board, its duly authorized representatives, and all persons duly commissioned by it for the purpose of taking depositions, shall have power to administer oaths; to preserve and enforce order during such hearings; to issue subpoenas for, and to compel the attendance and testimony of witnesses, or the production of books, papers, documents and other evidence, or the taking of depositions before any designated individual competent to administer oaths, and it shall be their duty so to do; to examine witnesses; and to do all things conformable to law which may be necessary to enable them, or any of them, effectively to discharge the duties of their office. [1961 c 13 § 47.52.170. Prior: 1957 c 235 § 9.]

47.52.180 State facility through city or town—Hearing—Findings of board—Modification of proposed plan by stipulation. Such findings shall be final and binding upon both parties. Any modification of the proposed plan of the department of transportation made by the board of review may thereafter be modified by stipulation of the parties. [1977 ex.s. c 151 § 65; 1977 c 77 § 3; 1961 c 13 § 47.52.180. Prior: 1957 c 235 § 10.]

47.52.190 State facility through city or town—Hearing—Assistants—Costs—Reporter. The board shall employ such assistance and clerical help as is necessary to perform its duties. The costs thereby incurred and incident to the conduct of the hearing, necessary expenses, and fees, if any, of members of the board shall be borne equally by the county, city, or town requesting the hearing and the department. When oral testimony is stenographically reported, the department shall provide a reporter at its expense. [1984 c 7 § 245; 1963 c 103 § 5; 1961 c 13 § 47.52.190. Prior: 1957 c 235 § 11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.195 Review and appeal on petition of abutter. An abutting property owner may petition for review in the superior court of the state of Washington in the county where the limited access facility is to be located. Such review and any appeal therefrom shall be considered and determined by said court upon the record of the authority in

the manner, under the conditions and subject to the limitations and with the effect specified in the Administrative Procedure Act, chapter 34.05 RCW, as amended. [1965 ex.s. c 75 § 6.]

47.52.200 Law enforcement jurisdiction within city or town. Whenever any limited access highway facility passes within or through any incorporated city or town the municipal police officers of such city or town, the sheriff of the county wherein such city or town is situated and officers of the Washington state patrol shall have independent and concurrent jurisdiction to enforce any violation of the laws of this state occurring thereon: PROVIDED, The Washington state patrol shall bear primary responsibility for the enforcement of laws of this state relating to motor vehicles within such limited access highway facilities. [1961 c 122 § 1.]

47.52.210 State facility within city or town—Title to city or town streets incorporated therein. (1) Whenever the transportation commission adopts a plan for a limited access highway to be constructed within the corporate limits of a city or town which incorporates existing city or town streets, title to such streets shall remain in the city or town, and the provisions of RCW 47.24.020 as now or hereafter amended shall continue to apply to such streets until such time that the highway is operated as either a partially or fully controlled access highway. Title to and full control over that portion of the city or town street incorporated into the limited access highway shall be vested in the state upon a declaration by the secretary of transportation that such highway is operational as a limited access facility, but in no event prior to the acquisition of right of way for such highway including access rights, and not later than the final completion of construction of such highway.

(2) Upon the completion of construction of a state limited access highway within a city or town, the department of transportation may relinquish to the city or town streets constructed or improved as a functional part of the limited access highway, slope easements, landscaping areas, and other related improvements to be maintained and operated by the city or town in accordance with the limited access plan. Title to such property relinquished to a city or town shall be conveyed by a deed executed by the secretary of transportation and duly acknowledged. Relinquishment of such property to the city or town may be expressly conditioned upon the maintenance of access control acquired by the state and the continued operation of such property as a functional part of the limited access highway. [1981 c 95 § 3; 1977 ex.s. c 78 § 3.]

- "Toll road" means any express highway, superhighway, or motorway at such locations and between such termini as may be established by law, and constructed or to be constructed as a limited access highway under the provisions of this chapter by the department, and shall include, but not be limited to, all bridges, tunnels, overpasses, underpasses, interchanges, entrance plazas, approaches, toll houses, service areas, service facilities, communications facilities, and administration, storage, and other buildings that the department may deem necessary for the operation of the project, together with all property, rights, easements, and interests that may be acquired by the department for the construction or the operation of the project, all of which shall be conducted in the same manner and under the same procedure as provided for the establishing, constructing, operating, and maintaining of toll bridges by the department, insofar as those procedures are reasonably consistent and applicable. [1984 c 7 § 246; 1961 c 13 § 47.56.010. Prior: 1953 c 220 § 1; 1937 c 173 § 1, part; RRS § 6524-1, part.]
- Severability—1984 c 7:** See note following RCW 47.01.141.
- 47.56.030 Powers and duties regarding toll facilities—Purchasing.** The department of transportation shall have full charge of the construction of all toll bridges and other toll facilities including the Washington state ferries, and the operation and maintenance thereof. The transportation commission shall determine and establish the tolls and charges thereon, and shall perform all duties and exercise all powers relating to the financing, refinancing, and fiscal management of all toll bridges and other toll facilities including the Washington state ferries, and bonded indebtedness in the manner provided by law. The department shall have full charge of design of all toll facilities. The department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract in the manner of state highway construction immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department is authorized to negotiate contracts for any amount without bid in order to make repairs to ferries or ferry terminal facilities or removal of such facilities whenever

er continued use of ferries or ferry terminal facilities constitutes a real or immediate danger to the traveling public or precludes prudent use of such ferries or facilities.

The department shall proceed with the procurement of materials, supplies, services, and equipment needed for the support, maintenance, and use of a ferry, ferry terminal, or other facility operated by Washington state ferries, in accordance with chapter 43.19 RCW except as follows:

(1) When the secretary of the department of transportation determines in writing that the use of invitation for bid is either not practicable or not advantageous to the state and it may be necessary to make competitive evaluations, including technical or performance evaluations among acceptable proposals to complete the contract award, a contract may be entered into by use of a competitive sealed proposals method, and a formal request for proposals solicitation. Such formal request for proposals solicitation shall include a functional description of the needs and requirements of the state and the significant factors.

(2) When purchases are made through a formal request for proposals solicitation the contract shall be awarded to the responsible proposer whose competitive sealed proposal is determined in writing to be the most advantageous to the state taking into consideration price and other evaluation factors set forth in the request for proposals. No significant factors may be used in evaluating a proposal that are not specified in the request for proposals. Factors that may be considered in evaluating proposals include but are not limited to: Price maintainability; reliability; commonality; performance levels; life cycle cost if applicable under this section; cost of transportation or delivery; delivery schedule offered; installation cost; cost of spare parts; availability of parts and service offered; and the following:

(a) The ability, capacity, and skill of the proposer to perform the contract or provide the service required;

(b) The character, integrity, reputation, judgment, experience, and efficiency of the proposer;

(c) Whether the proposer can perform the contract within the time specified;

(d) The quality of performance of previous contracts or services;

(e) The previous and existing compliance by the proposer with laws relating to the contract or services;

(f) Objective, measurable criteria defined in the request for proposal. These criteria may include but are not limited to items such as discounts, delivery costs, maintenance services costs, installation costs, and transportation costs; and

(g) Such other information as may be secured having a bearing on the decision to award the contract.

When purchases are made through a request for proposal process, proposals received shall be evaluated based on the evaluation factors set forth in the request for proposal. When a life cycle cost analysis is used, the life cycle cost of a proposal shall be given at least the same relative importance as the initial price element specified in the request for proposal documents. The department may reject any and all proposals received. If the proposals are not rejected, the award shall be made to the proposer whose proposal is most advantageous to the department, considering price and the other evaluation factors set forth in the request for proposal.

(3) The legislative transportation committee shall review the secretary's use of the request for proposals solicitation

for Washington state ferries projects to determine if the process established under chapter 4, Laws of 1995 1st sp. sess. is appropriate. The results of the review, including recommendations for modification of the request for proposal process, shall be reported to the house of representatives and senate transportation committees by January 1, 1997. [1995 1st sp.s. c 4 § 1; 1977 ex.s. c 151 § 66; 1969 ex.s. c 180 § 3; 1961 c 278 § 8; 1961 c 13 § 47.56.030. Prior: 1937 c 173 § 10; RRS § 6524-10.]

All powers vested in the toll bridge authority as of September 21, 1977, relating to the acquiring, operating, extending, designing, constructing, repairing, and maintenance of the Washington state ferries or any part thereof and the collecting of tolls and charges for use of its facilities, shall be performed by the department. The commission shall determine all fares, tolls, and other charges for its facilities and shall directly perform all duties and exercise all powers relating to financing, refinancing, and fiscal management of the system's bonded indebtedness in the manner provided by law. 47.56.040 Toll bridges authorized—Investigations. The department is empowered, in accordance with the provisions of this chapter, to provide for the establishment and construction of toll bridges upon any public highways of this state together with approaches thereto wherever it is considered necessary or advantageous and practicable for crossing any stream, body of water, gulch, navigable water, swamp, or other topographical formation whether that formation is within this state or constitutes a boundary between this state and an adjoining state or country. The necessity or advantage and practicability of any such toll bridge shall be determined by the department, and the feasibility of financing any toll bridge in the manner provided by this chapter shall be a primary consideration and determined according to the best judgment of the department. For the purpose of obtaining information for the consideration of the department upon the construction of any toll bridge or any other matters pertaining thereto, any cognizant officer or employee of the state shall, upon the request of the department, make reasonable examination, investigation, survey, or reconnaissance for the determination of material facts pertaining thereto and report this to the department. The cost of any such examination, investigation, survey, or reconnaissance shall be borne by the department or office conducting these activities from the funds provided for that department or office for its usual functions. The department may use funds available to it to carry out the purposes of this section. These agreements may provide that if any such project is determined to be feasible and is adopted, any advancement of funds by any state or county may be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived from the project. (2) In connection with the acquisition by purchase of any bridge or bridges or ferries under subsection (1) of this section, the department, the state treasurer, any city, county, or other political subdivision of this state, and all of their officers:

(a) Are empowered and required to do all acts and things provided for in this chapter to establish and construct toll bridges and operate, finance, and maintain such bridges insofar as the powers and requirements are applicable to the purchase of any bridge or bridges or ferries and their operation, financing, and maintenance; and

(b) In purchasing, operating, financing, and maintaining any bridge or bridges or ferries acquired or to be acquired by purchase under this section, shall act in the same manner and under the same procedures as are provided in this chapter to establish, construct, operate, finance, and maintain toll bridges insofar as such manner and procedure are applicable to the purchase of any bridge or bridges or ferries and their operation, financing, and maintenance.

(3) Without limiting the generality of the provisions contained in subsections (1) and (2) of this section, the department is empowered: (a) To cause surveys to be made for the purpose of investigating the propriety of acquiring by purchase any such bridge or bridges or ferries and the right of way necessary or proper for that bridge or bridges or ferries, and other facilities necessary to carry out the provisions of this chapter; (b) to issue, sell, and redeem bonds, and to deposit and pay out the proceeds of the bonds for the financing thereof; (c) to collect, deposit, and expend tolls therefrom; (d) to secure and remit financial and other assistance in the purchase thereof; and (e) to carry insurance thereon.

(4) The provisions of RCW 47.56.220 apply when any bridge or bridges or ferries are acquired by purchase pursuant to this section. [1984 c 7 § 250; 1973 c 106 § 25; 1961 c 13 § 47.56.050. Prior: 1945 c 266 § 1; Rem. Supp. 1945 § 6524-3a.]

47.56.080 Construction of toll bridges and issuance of bonds authorized. Whenever in the judgment of the transportation commission it is considered in the best interest of the public highways of the state that any new toll bridge or bridges be constructed upon any public highway and across any stream, body of water, gulch, navigable water, swamp, or other topographical formation and operated by the state the commission shall adopt a resolution declaring that public interest and necessity require the construction of such toll bridge or bridges and authorizing the issuance of revenue bonds for the purpose of obtaining funds in an amount not in excess of that estimated to be required for such construction. The issuance of bonds as provided in this chapter for the construction of more than one toll bridge may at the discretion of the commission be included in the same authority and issue of bonds. [1977 ex.s. c 151 § 68; 1961 c 13 § 47.56.080. Prior: 1937 c 173 § 6; RRS § 6524-6.]

47.56.100 Toll bridges—Right of way across state highways and property of political subdivisions—Compensation. Severability—1984 c 7: See note following RCW 47.01.141.

47.56.110 Toll bridges—Resolution of necessity in acquiring right of way—Effect of. Before the department proceeds with any action to secure a right of way or with construction of any toll bridge under the provisions of this chapter, the commission shall first pass a resolution that public interest and necessity require the acquisition of right of way for and the construction of the toll bridge. The resolution is conclusive evidence (1) of the public necessity of such construction; (2) that the property is necessary therefor; and (3) that the proposed construction is planned or located in a manner which will be most compatible with the greatest public good and the least private injury. When it

becomes necessary for the department to condemn any real estate to be used in connection with any such bridge, the attorney general of the state shall represent the department. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any toll bridge, real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, firm, private, public, or municipal corporation, county, city, town, district, or any political subdivision of the state, may be condemned and taken, and the acquisition and use as provided in this chapter for the same public use or purpose to which the property has been so appropriated or dedicated, or for any other public use or purpose, is a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which the property has already been appropriated or dedicated. It is not necessary in any eminent domain proceedings under this chapter to plead or prove any acts or proceedings preliminary or prior to the adoption of the resolution hereinbefore referred to describing the property sought to be taken and directing such proceedings. [1984 c 7 § 255; 1961 c 13 § 47.56.110. Prior: 1937 c 173 § 11; RRS § 6524-11.]

47.56.120 Toll bridges—Construction directed—Costs. In the event that the transportation commission should determine that any toll bridge should be constructed, all cost thereof including right of way, survey, and engineering shall be paid out of any funds available for payment of the cost of such toll bridge under this chapter. [1977 ex.s. c 151 § 70; 1961 c 13 § 47.56.120. Prior: 1937 c 173 § 4; RRS § 6524-4.]

47.56.130 Toll bridges—Bonds—Cooperative funds from state and federal government. The department is hereby empowered to issue bonds for the construction of any toll bridge or toll bridges authorized under the provisions of this chapter. Any and all bonds issued for the construction of any toll bridge or toll bridges under the authority of the department shall be issued in the name of the department, shall constitute obligations only of the department, shall be identified as toll bridge bonds, and shall contain a recital on the face thereof that the payment or redemption of the bonds and the payment of the interest thereon is secured by a direct and exclusive charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the particular toll bridge or bridges for the construction of which the bonds are issued and that neither the payment of the principal or any part thereof nor of the interest thereon or any part thereof constitutes a debt, liability, or obligation of the state of Washington. The department is empowered to receive and accept funds from the state of Washington or the federal government upon a cooperative or other basis for the construction of any toll bridge authorized under this chapter and is empowered to enter into such agreements with the state of Washington or the federal government as may be required for the securing of such funds. [1984 c 7 § 256; 1961 c 13 § 47.56.130. Prior: 1937 c 173 § 7; RRS § 6524-7.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.140 Toll bridges, bonds—Form, contents, manner of sale—Interim bonds. The revenue bonds may be issued and sold by the department of transportation from time to time and in such amounts as it deems necessary to provide sufficient funds for the construction of the bridge, and to pay interest on outstanding bonds issued for its construction during the period of actual construction and for six months after completion thereof.

The department of transportation shall determine the form, conditions, and denominations of the bonds, and the maturity dates which the bonds to be sold shall bear and the interest rate thereon. All bonds of the same issue need not bear the same interest rate. Principal and interest of the bonds may be payable at such place as determined by the department. They may be in any form including bearer bonds or registered bonds as provided in RCW 39.46.030, with interest payable at such times as determined by the department, and shall mature at such times and in such amounts as the department prescribes. The department may provide for the retirement of the bonds at any time prior to maturity, and in such manner and upon payment of such premiums as it may determine in the resolution providing for the issuance of the bonds. All such bonds shall be signed by the state auditor and countersigned by the governor and any interest coupons appertaining thereto shall bear the signature of the state auditor. The countersignature of the governor on such bonds and the signature of the state auditor on any coupons may be their printed or lithographed facsimile signatures. Successive issues of such bonds within the limits of the original authorization shall have equal preference with respect to the redemption thereof and the payment of interest thereon. The department may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. The bonds shall be negotiable instruments under the law merchant. All bonds issued and sold hereunder shall be sold on sealed bids to the highest and best bidder after such advertising for bids as the department deems proper. The department may reject any and all bids and may thereafter sell the bonds at private sale under such terms and conditions as it deems most advantageous to its own interests; but not at a price below that of the best bid which was rejected. The department may contract loans and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any agency thereof, upon such conditions and terms as may be agreed to and the bonds shall be subject to all the provisions of this chapter, except the requirement that they be first offered at public sale.

Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by the state auditor, may be issued and delivered until bonds are executed and available for delivery. 47.56.150 Toll bridges—Bond proceeds and toll revenues, disposition of—Construction fund—Disbursement—Investment. The proceeds from the sale of all bonds authorized under the provisions of this chapter shall be paid to the state treasurer for the credit of the department and be deposited as demand deposits forthwith in such depository or depositories as may be authorized by law to receive deposits of state funds to the credit of a fund to be designated as the construction fund of the particular toll bridge or toll bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the construction of such toll bridge or toll bridges, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise. The department may agree with the purchaser of the bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the toll bridge or toll bridges for which such bonds were issued and sold, and all funds constituting surplus revenues that are not immediately needed for the particular object or purpose to which they must be applied or are pledged shall be invested in bonds and obligations of the nature eligible for investment of surplus state moneys: PROVIDED, That the department may provide in the proceedings authorizing the issuance of these bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment, and such provisions shall thereupon be binding upon the department and all officials having anything to do with the investment. Any surplus which may exist in the construction fund shall be applied to the retirement of bonds issued for the construction of such toll bridge or toll bridges by purchase or call. If these bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, the surplus shall be paid into the fund applicable to the payment of principal and interest of the bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying the surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called. Such limitations and conditions shall be followed and observed in the application and use of the surplus. All bonds so retired by purchase or call shall be immediately canceled. [1984 c 7 § 257; 1961 c 13 § 47.56.150. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

47.56.160 Toll bridges—Toll revenue fund. All tolls or other revenues received from the operation of any toll bridge or toll bridges constructed with the proceeds of bonds issued and sold hereunder shall be paid over by the department to the state treasurer. The treasurer shall deposit them forthwith as demand deposits in a depository or depositories

authorized by law to receive deposits of state funds. The deposit shall be made to the credit of a special trust fund designated as the toll revenue fund of the particular toll bridge or toll bridges producing the tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds. [1984 c 7 § 258; 1961 c 13 § 47.56.160. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.170 Toll bridges—Transfer of funds for bond payments—Surplus funds. From the money deposited in each separate construction fund under RCW 47.56.160, the state treasurer shall transfer to the place or places of payment named in the bonds such sums as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of a particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The state treasurer shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds such sums as may be required to pay the interest on the bonds and redeem the principal thereof as the interest payments and bond redemption become due for all bonds issued and sold for the construction of the particular toll bridge or toll bridges producing the tolls or revenues so deposited in the toll revenue fund. All funds so transferred for the payment of principal or interest on bonds issued for any particular toll bridge shall be segregated and applied solely for the payment of that principal or interest. The proceedings authorizing the issuance of bonds may provide for setting up a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of the fund in a manner to be provided therein. The proceedings may also require the immediate application of all surplus moneys in the toll revenue fund to the retirement of the bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department.

The moneys remaining in each separate toll revenue fund after providing the amount required for interest and redemption of bonds as provided in this section shall be held and applied as provided in the proceedings authorizing the issuance of the bonds. If the proceedings authorizing the issuance of the bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of the toll bridge or bridges as the department may determine. [1984 c 7 § 259; 1961 c 13 § 47.56.170. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Moneys required to meet the costs of construction and all expenses and costs incidental to the construction of any particular toll bridge or toll bridges or to meet the costs of operating, maintaining, and repairing the bridge or bridges shall be paid from the proper fund therefor by the state treasurer upon vouchers approved by the department.

All interest received or earned on money deposited in each and every fund provided for in this chapter shall be credited to and become a part of the particular fund upon which the interest accrues. [1984 c 7 § 260; 1973 c 106 § 26; 1961 c 13 § 47.56.180. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.190 Toll bridges—Agreement on deposit of funds. The department may provide in the proceedings authorizing the issuance of bonds or may otherwise agree with the purchasers of bonds regarding the deposit of all moneys constituting the construction fund and the toll revenue fund and provide for the deposit of the money at such times and with such depositaries or paying agents and upon the furnishing of security as meets with the approval of the purchasers of the bonds so long as the depositaries and security provided for or agreed upon are qualified and eligible in accordance with the requirements of law. [1984 c 7 § 261; 1961 c 13 § 47.56.190. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

In addition, the proceedings authorizing the issuance of the bonds may contain appropriate provisions governing the use and application of the bond proceeds and toll or other revenues for the purposes herein specified. [1984 c 7 § 262; 1961 c 13 § 47.56.200. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.210 Toll bridges—Remedies of bond holders. While any bonds issued by the department under this chapter remain outstanding, the powers, duties, or existence of the department or of any other official or agency of the state shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds. The holder of any bond may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon any state department, official, or employee, or imposed upon the department or its officers, agents, and employees in connection with the construction, maintenance, operation, and insurance of any bridge, and in connection with the collection, deposit, investment, application, and disbursement of all tolls and

Except as otherwise provided in RCW 47.56.291, *47.56.714, and 47.56.756, as long as any of the bonds issued hereunder for the construction of any toll bridge are outstanding and unpaid, there shall not be erected, constructed, or maintained any other bridge or other crossing over, under, through, or across the waters over which such toll bridge is located or constructed, connecting or joining directly or indirectly the lands or extensions thereof or abutments thereon on both sides of the waters spanned or crossed by such toll bridge within a distance of ten miles from either side of such toll bridge excepting bridges or other highway crossings actually in existence and being maintained, or for which there was outstanding an existing and lawfully issued franchise, at the time of the location of such toll bridge and prior to the time of the authorization of such bonds, and no ferry or other similar means of crossing the said waters within the said distance and connecting or plying directly or indirectly between the lands or extensions thereof or abutments thereon on both sides of the waters spanned or crossed by such bridge shall be maintained or operated or permitted or allowed: PROVIDED, That ferries and other similar means of crossing actually in existence and being maintained and operated, or for which there was outstanding an existing and lawfully issued franchise, at the time of the location of such bridge and prior to the time of the authorization of such bonds, may continue and be permitted to be operated and maintained under such existing rights and franchises, or any lawful renewal or extension thereof. The provisions of this section shall be binding upon the state department of transportation, the state of Washington, and all of its departments, agencies, or instrumentalities as well as any and all private, political, municipal, and public corporations and subdivisions, including cities, counties, and other political subdivisions, and the prohibitions of this section shall restrict and limit the powers of the legislature of the state of Washington in respect to the matters herein mentioned as long as any of such bonds are outstanding and unpaid and shall be deemed to constitute a contract to that effect for the benefit of the holders of all such bonds. 47.56.230 Toll bridges—Insurance or indemnity bonds authorized. When any toll bridge or bridges authorized under this chapter is being built by the department, the department may carry or cause to be carried an amount of

insurance or indemnity bond or bonds as protection against loss or damage as the department may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in whole to any toll bridge or toll bridges until all bonds sold for the construction of the toll bridge or toll bridges and interest accrued thereon have been fully redeemed and paid. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to the toll bridge or toll bridges shall be used for the purpose of repairing or rebuilding the toll bridge or toll bridges as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge or bridges by reason of any interruption in the use of the toll bridge or toll bridges from any cause whatever, and the proceeds of the insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the fund. The insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of the toll bridge or toll bridges during any period of time that may be determined by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in the proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter, and the purchase and carrying of insurance as authorized by this chapter, and the purchase and carrying of such insurance shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in the proceedings. Severability—1984 c 7: See note following RCW 47.01.141.

47.56.240 Toll bridges—Fixing of toll rates authorized—Lien of bonds on revenue. The commission is hereby empowered to fix the rates of toll and other charges for all toll bridges built under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions warrant. The commission, in establishing toll charges, shall give due consideration to the cost of operating and maintaining such toll bridge or toll bridges including the cost of insurance, and to the amount required annually to meet the redemption of bonds and interest payments on them. The tolls and charges shall be at all times fixed at rates to yield annual revenue equal to annual operating and maintenance expenses including insurance costs and all redemption payments and interest charges of the bonds issued for any particular toll bridge or toll bridges as the bonds become due. The bond redemption and interest payments constitute a first direct and exclusive charge and lien on all such tolls and other revenues and interest thereon. Sinking funds created therefrom received from the use and operation of the toll bridge or toll bridges, and such tolls and revenues together with the interest earned thereon shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose

as long as any of these bonds are outstanding and unpaid. [1984 c 7 § 265; 1961 c 13 § 47.56.240. Prior: 1937 c 173 § 9; RRS § 6524-9.]

47.56.242 Liquidation and closure of facility accounts upon removal of tolls—Transfer to motor vehicle fund. The department is authorized to liquidate and close toll facility trust and other facility accounts established outside the state treasury under chapter 47.56 RCW after the removal of tolls from the facility for which the accounts were established. Any balance remaining in the accounts shall thereupon be transferred to the motor vehicle fund. In addition, the department may, after the removal of tolls from a particular facility or facilities, require that all moneys transferred to the place of payment named in the revenue bonds, for the purpose of paying principal or interest or for redemption of the bonds not then expended for such purpose, be returned to the state treasurer for deposit in the motor vehicle fund. [1984 c 7 § 266; 1967 ex.s. c 145 § 48.]

Severability—1984 c 7: See note following RCW 47.01.141.

After transfer of such moneys pursuant to RCW 47.56.242, all valid claims against such accounts, including proper claims for refunds for unused commute media and other prepaid toll fees, may be satisfied, and any outstanding bonds or any coupons may be redeemed by payment from the motor vehicle fund upon proper application to and approval by the department of transportation.

Neither the provisions of this section nor of RCW 47.56.242 shall be construed to preclude any remedy otherwise available to bond owners or coupon holders. [1983 c 167 § 119; 1967 ex.s. c 145 § 49.]

With respect to every facility completed after March 19, 1953, costs of maintenance, management, and operation shall be paid periodically out of the revenues of the facility in which such costs were incurred. [1984 c 7 § 267; 1965 ex.s. c 170 § 53; 1961 c 13 § 47.56.245. Prior: 1953 c 220 § 6.]

The department may require the holder of the permit to increase the amount of cash bond, or to furnish an additional surety bond, or may reduce the amount of the cash bond or surety bond required, as the amount of charges incurred and regularity of payment warrant, or may revoke any permit granted for failure of the holder to comply with any of its terms. Whenever a proposed toll bridge, toll road, toll tunnel, or any other toll facility of any sort is to be constructed, any city, county, or other political subdivision located in relation to such facility so as to benefit directly or indirectly thereby, may, either jointly or separately, at the request of the transportation commission advance or contribute money, or bonds, rights of way, labor, materials, and other property toward the expense of building the toll facility, and for preliminary surveys and the preparation of plans and estimates of cost therefor and other preliminary expenses. Any such city, county, or other political subdivision may, either jointly or separately, at the request of the transportation commission advance or contribute money or bonds for the purpose of guaranteeing the payment of interest or principal on the bonds issued by the commission to finance the toll facility. Appropriations for such purposes may be made from any funds available, including county road funds received from or credited by the state, or funds obtained by excess tax levies made pursuant to law or the issuance of general obligation bonds for this purpose. General obligation bonds issued by a city, county, or political subdivision may with the consent of the commission be placed with the department of transportation to be sold by the department to provide funds for such purpose. Money, or bonds, or property so advanced or contributed may be immediately transferred or delivered to the department to be used for the purpose for which contribution was made. The commission may enter into an agreement with a city, county, or other political subdivision to repay any money, or bonds or the value of a right of way, labor, materials, or other property so advanced or contributed. The commission may make such repayment to a city, county, or other political subdivision and reimburse the state for any expenditures made by it in connection with the toll facility out of tolls and other revenues for the use of the toll facility. 47.56.270 Lake Washington and Tacoma Narrows bridges part of primary highways. The Lake Washington bridge and the Tacoma Narrows bridge in chapter 47.17 RCW made a part of the primary state highways of the state of Washington, shall, upon completion, be operated, maintained, kept up, and repaired by the department in the manner provided in this chapter, and the cost of such operation, maintenance, upkeep, and repair shall be paid from funds appropriated for the use of the department for the construction and maintenance of the primary state highways of the state of Washington. [1983 c 3 § 129; 1961 c 13 § 47.56.270. Prior: 1939 c 5 § 4; RRS § 6524-3a.]

47.56.271 Tacoma Narrows bridge—Toll free facility. The Tacoma Narrows bridge hereinbefore by the provisions of RCW 47.17.065 and 47.56.270 made a part of the primary state highways of the state shall be operated and maintained by the department as a toll-free facility at such time as the present bonded indebtedness relating thereto is wholly retired and tolls equaling the present indebtedness of the toll bridge authority to the county of Pierce have been collected. It is the express intent of the legislature that the provisions of RCW 47.56.245 (section 47.56.245, chapter 13, Laws of 1961) shall not be applicable to the Tacoma Narrows bridge. [1983 c 3 § 130; 1965 c 50 § 1.]

47.56.273 Fox Island toll bridge—Need for removal of tolls. Present tolls on the Fox Island toll bridge have retarded the development of Fox Island for residential purposes because of the financial burden upon residents and potential residents resulting from paying these tolls in addition to those imposed upon the Narrows bridge. The removal or readjustment of tolls from the Fox Island toll bridge is required in the interest of the orderly development of Fox Island. The development of Fox Island will provide additional users of the Narrows bridge with a resultant increase of revenue to the state from tolls due to such additional use. [1961 c 13 § 47.56.273. Prior: 1957 c 270 § 1.]

47.56.282 Additional Lake Washington bridge (1957 Act)—Revenue bonds—Toll charges and other support. The authority is hereby authorized by resolution to issue and sell its revenue bonds in an amount sufficient to provide funds to pay all costs of construction of an additional Lake Washington bridge and approaches and all costs of construction or any alterations to the existing Lake Washington bridge or its approaches as a result of the construction of the additional bridge, including but not limited to all costs of survey, acquisition of rights of way, design, engineering, all expenses of issuance and sale of such bonds, and to pay

interest on said bonds during construction and for six months after tolls are first imposed.

Said revenue bonds shall constitute obligations only of the Washington toll bridge authority and shall be payable both principal and interest from the tolls and revenues derived from the operation of said toll facility as hereinbefore constituted and from any other moneys or funds available therefor. Said bonds shall not constitute an indebtedness of the state of Washington and shall contain a recital on the face thereof to that effect, and shall be negotiable instruments under the law merchant. Such bonds shall include a covenant that the payment or redemption thereof and the interest thereon are secured by a first and direct charge and lien on all of the tolls and other revenues received from the operation of said toll facility and from any interest which may be earned from the deposit or investment of any such revenues, except for payment of costs of operation, maintenance and necessary repairs of said facility. The tolls and charges to be imposed shall be fixed in such amounts so that when collected they will produce revenues that shall be at least equal to expenses of operating, maintaining and repairing said toll facility, including all insurance costs, amounts for adequate reserves and coverage of annual debt service on said bonds, and all payments necessary to pay the principal thereof and interest thereon. [1965 ex.s. c 170 § 56; 1961 c 13 § 47.56.282. Prior: 1957 c 266 § 2.]

Reviser's note: Powers, duties, and functions of toll bridge authority transferred to department of transportation; see RCW 47.01.031. Term "authority" means department of transportation; see RCW 47.04.015.

47.56.284 Additional Lake Washington bridge (1957 Act)—Continuous project—Authorization of other additional bridges. The existing Lake Washington bridge, the toll bridge authorized in chapter 266, Laws of 1957, and any other bridge hereafter constructed across Lake Washington, are hereby construed and designated as a continuous project within the terms and provisions of RCW 47.56.070; and notwithstanding the provisions of RCW 47.56.220, the department may authorize additional toll bridges across Lake Washington at such times as traffic may warrant and at such sites as deemed feasible. (1) The legislature finds that the ferry operated by Wahkiakum county between Puget Island and Westport on the Columbia river provides service which is primarily local in nature with secondary benefits to the state highway system in providing a bypass for state route 4 and providing the only crossing of the Columbia river between the Astoria-Megler bridge and the Longview bridge.

(2) The department is hereby authorized to enter into a continuing agreement with Wahkiakum county pursuant to which the department shall pay to Wahkiakum county from moneys appropriated for such purpose monthly amounts not to exceed eighty percent of the operating and maintenance deficit with a maximum not to exceed the amount appropriated for that biennium to be used in the operation and maintenance of the Puget Island ferry, commencing July 1, 1992.

(3) The annual deficit, if any, incurred in the operation and maintenance of the ferry shall be determined by Wahkiakum county subject to the approval of the department. If eighty percent of the deficit for the preceding fiscal year exceeds the total amount paid to the county for that year, the additional amount shall be paid to the county by the department upon the receipt of a properly executed voucher. The total of all payments to the county in any biennium shall not exceed the amount appropriated for that biennium. The fares established by the county shall be comparable to those used for similar runs on the state ferry system.

Each county agreement shall contain a requirement that the county shall maintain tolls on its ferries at least equal to tolls in place on January 1, 1990.

(3) The annual fiscal year operating and maintenance deficit, if any, shall be determined by Pierce, Skagit, and Whatcom counties subject to review and approval of the department. The annual fiscal year operating and maintenance deficit is defined as the total of operations and maintenance expenditures less the sum of ferry toll revenues and that portion of fuel tax revenue distributions which are attributable to the county ferry as determined by the department. Any payments of the principal or interest taken from the motor vehicle or special fuel tax revenues which are distributable to the counties, cities, and towns shall be repaid from the first moneys distributed to the state not required for redemption of the bonds or interest thereon. [1993 c 4 § 1.]

Effective date—1993 c 4: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 12, 1993]." [1993 c 4 § 11.]

47.56.771 Refunding bonds—General obligation—Signatures, negotiability—Payment of principal and interest—Pledge of excise taxes. (1) The refunding bonds authorized under RCW 47.56.770 shall be general obligation bonds of the state of Washington and shall be issued in a total principal amount not to exceed fifteen million dollars. The exact amount of refunding bonds to be issued shall be determined by the state finance committee after calculating the amount of money deposited with the trustee for the bonds to be refunded which can be used to redeem or defease outstanding toll bridge authority, ferry, and Hood Canal bridge revenue bonds after the setting aside of sufficient money from that fund to pay the first interest installment on the refunding bonds. The refunding bonds shall be serial in form maturing at such time, in such amounts, having such denomination or denominations, redemption privileges, and having such terms and conditions as determined by the state finance committee. The last maturity date of the refunding bonds shall not be later than January 1, 2002.

(2) The refunding bonds shall be signed by the governor and the state treasurer under the seal of the state, which signatures shall be made manually or in printed facsimile. The bonds shall be registered in the name of the owner in accordance with chapter 39.46 RCW. The refunding bonds shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state, and shall contain an unconditional promise to pay the principal thereof and the interest thereon when due. The refunding bonds shall be fully negotiable instruments.

(3) The principal and interest on the refunding bonds shall be first payable in the manner provided in this section from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW.

(4) The principal of and interest on the refunding bonds shall be paid first from the state excise taxes on motor vehicle and special fuels deposited in the ferry bond retirement fund. There is hereby pledged the proceeds of state

excise taxes on motor vehicle and special fuels imposed under chapters 82.36 and 82.38 RCW to pay the refunding bonds and interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on the refunding bonds. Not less than fifteen days prior to the date any interest or principal and interest payments are due, the state finance committee shall certify to the state treasurer such amount of additional money as may be required for debt service, and the treasurer shall thereupon transfer from the motor vehicle fund such amount from the proceeds of such excise taxes into the ferry bond retirement fund. Any proceeds of such excise taxes required for these purposes shall first be taken from that portion of the motor vehicle fund which results from the imposition of the excise taxes on motor vehicle and special fuels and which is distributed to the Puget Sound capital construction account. If the proceeds from excise taxes distributed to the state are ever insufficient to meet the required payments on principal or interest on the refunding bonds when due, the amount required to make the payments on the principal or interest shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.100 as now existing or hereafter amended. Any payments of the principal or interest taken from the motor vehicle or special fuel tax revenues which are distributable to the counties, cities, and towns shall be repaid from the first money distributed to the state not required for redemption of the refunding bonds or interest thereon. The legislature covenants that it shall at all times provide sufficient revenues from the imposition of such excise taxes to pay the principal and interest due on the refunding bonds. [1995 c 274 § 17; 1993 c 4 § 3.]

Legislative declaration—Effective date—1993 c 4: See notes following RCW 47.56.770.

47.56.772 Refunding bonds—Liquidation of existing bond funds. Upon the issuance of refunding bonds as authorized by RCW 47.56.770, the department of transportation may liquidate the existing bond fund and other funds and accounts established in the proceedings which authorized the issuance of the outstanding toll bridge authority, ferry, and Hood Canal bridge refunding revenue bonds and apply the money contained in those funds and accounts to the defeasance and redemption of outstanding toll bridge authority, ferry, and Hood Canal refunding revenue bonds, except that prior to such bond redemption, money sufficient to pay the first interest installment on the refunding bonds shall be deposited in the ferry bond retirement fund. Money remaining in such funds not used for such bond defeasance and redemption or first interest installment on the refunding bonds shall be transferred to and deposited in the marine operating fund under RCW 47.56.775. [1993 c 4 § 4.]

Legislative declaration—Effective date—1993 c 4: See notes following RCW 47.56.770.

47.56.773 Refunding bonds—Repayment to Puget Sound capital construction account. Any money appropri-

ated from the Puget Sound capital construction account under section 10, chapter 4, Laws of 1993 and expended to pay expenses of issuing the refunding bonds authorized by RCW 47.56.770, and any money in the Puget Sound capital construction account subsequently used to pay principal and interest on the refunding bonds authorized by RCW 47.56.770 shall be repaid to the Puget Sound capital construction account for use by the department of transportation. [1993 c 4 § 5.]

Legislative declaration—Effective date—1993 c 4: See notes following RCW 47.56.770.

47.56.774 Various bond issues—Charge against fuel tax revenues. Except as otherwise provided by statute, the refunding bonds issued under authority of RCW 47.56.770, the bonds authorized by RCW 47.60.560 through 47.60.640, the bonds authorized by RCW 47.26.420 through 47.26.427, and any general obligation bonds of the state of Washington which have been or may be authorized by the legislature after the enactment of those sections and which pledge motor vehicle and special fuel excise taxes for the payment of principal thereof and interest thereon shall be an equal charge and lien against the revenues from such motor vehicle and special fuel excise taxes. [1993 c 4 § 6.]

Legislative declaration—Effective date—1993 c 4: See notes following RCW 47.56.770.

47.56.775 Marine operating fund created. The marine operating fund, temporarily created by section 39(1), chapter 15, Laws of 1991 sp. sess., is created in the state treasury. [1993 c 4 § 7.]

Bridges over navigable waters: RCW 79.91.090 through 79.91.120.

47.58.010 Improvement of existing bridge and construction of new bridge as single project—Agreement—Tolls. Whenever the legislature specifically authorizes, as a single project, the construction of an additional toll bridge, including approaches, and the reconstruction of an existing adjacent bridge, including approaches, and the imposition of tolls on both bridges, the

department is authorized to enter into appropriate agreements whereunder the existing bridge or its approaches will be reconstructed and improved and an additional bridge, including approaches and connecting highways will be constructed as a part of the same project to be located adjacent to or within two miles of the existing bridge and will be financed through the issuance of revenue bonds of the same series. The department has the right to impose tolls for traffic over the existing bridge as well as the additional bridge for the purpose of paying the cost of operation and maintenance of the bridge or bridges and the interest on and creating a sinking fund for retirement of revenue bonds issued for account of such project, all in the manner permitted and provided by this chapter. [1984 c 7 § 288; 1961 c 13 § 47.58.010. Prior: 1955 c 208 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.020 Examinations and surveys—Preliminary expenses—Financing. For the purpose of obtaining information as to the necessity of the reconstruction or improvement of any such bridge and the expediency of constructing any such additional bridge it is the duty of the department to make any examination, investigation, survey, or reconnaissance pertaining thereto. The cost of any such examination, investigation, survey, or reconnaissance, and all preliminary expenses in the issuance of any revenue bonds, making surveys and appraisals and drafting, printing, issuance, and sale of bonds under this chapter, shall be advanced by any interested municipality, agency, or department of the state of Washington. All such advancements shall be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived by the department through its operations hereunder for account of the project, as may be agreed upon between the department and the municipality, agency, or department. [1984 c 7 § 289; 1961 c 13 § 47.58.020. Prior: 1955 c 208 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.030 Construction, operation of bridges—Collection of tolls—Schedule of charges. The secretary shall have full charge of the construction of all such improvements and reconstruction work and the construction of any additional bridge, including approaches and connecting highways, that may be authorized under this chapter and the operation of such bridge or bridges, as well as the collection of tolls and other charges for services and facilities thereby afforded. The schedule of charges for the services and facilities shall be fixed and revised from time to time by the commission so that the tolls and revenues collected will yield annual revenue and income sufficient, after payment or allowance for all operating, maintenance, and repair expenses, to pay the interest on all revenue bonds outstanding under the provisions of this chapter for account of the project and to create a sinking fund for the retirement of the revenue bonds at or prior to maturity. The charges shall be continued until all such bonds and interest thereon and unpaid advancements, if any, have been paid. [1984 c 7 § 290; 1961 c 13 § 47.58.030. Prior: 1955 c 208 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.040 Revenue bonds—Form—Sale—Interim bonds—Deposit of proceeds. For the purpose of paying the cost of all or any part of the improvement and reconstruction work and the construction of any additional bridge, approaches thereto, and connecting highways, the department is hereby authorized by resolution to issue its revenue bonds which shall constitute obligations only of the department and shall be payable from any funds available except revenue from the general fund, including but not limited to the revenues and income from the operation of the bridge or bridges constituting the project as may be provided in and by such resolution. Each such revenue bond shall contain a recital that payment or redemption of the bond and payment of the interest thereon is secured by a direct charge and lien upon the tolls and revenues pledged for that purpose and that such bond does not constitute an indebtedness of the state of Washington. Such revenue bonds may bear such date or dates, may mature at such time or times as the department shall determine, may bear interest at such rate or rates, may be in such denomination or denominations, may be in such form, either coupon or registered, may carry such registration and conversion privileges, may be made subject to such terms of redemption with or without premium, and may contain such other terms and covenants not inconsistent with this chapter as may be provided in such resolution. Notwithstanding the form or tenor of the bond, and in the absence of an express recital on its face that the bond is nonnegotiable, each such revenue bond shall at all times be and shall be treated as a negotiable instrument for all purposes. All such bonds shall be signed by the state treasurer and countersigned by the governor, and any interest coupons appertaining thereto shall bear the signature of the state treasurer. The countersignature of the governor on the bonds and the signature of the state treasurer on the coupons may be their printed or lithographed facsimile signatures. Pending the issuance of definitive bonds, temporary or interim bonds, certificates, or receipts of any denomination and with or without coupons attached may be issued as may be provided by the resolution. All bonds issued under or by authority of this chapter shall be sold to the highest and best bidder at such price or prices, at such rate or rates of interest, and after such advertising for bids as the department may deem proper, but it may reject any and all bids so submitted and thereafter sell the bonds so advertised under such terms and conditions as it deems advantageous. The purchase price of all bonds issued hereunder shall be paid to the state treasurer consistent with the provisions of the resolution pursuant to which the bonds have been issued or to the trustee designated in the bond resolution and held as a separate trust fund to be disbursed on the orders of the department. [1984 c 7 § 291; 1973 c 106 § 27; 1970 ex.s. c 56 § 64; 1969 ex.s. c 232 § 78; 1961 c 102 § 1; 1961 c 13 § 47.58.040. Prior: 1955 c 208 § 4.]

Purpose—1970 ex.s. c 56: See note following RCW 39.52.020.

Validation—Saving—Severability—1969 ex.s. c 232: See notes following RCW 39.52.020.

47.58.050 Revenue bonds—Expenses includable—Conditions—Remedies of bondholders. In determining the amount of bonds required to be issued, there may be

included any expenses incurred or approved by the department in connection with and incidental to the issuance and sale of bonds and for the preparation of surveys and estimates and making inspections and examinations, required reserves, if any, interest during the estimated construction period and for six months thereafter, and a reasonable amount for initial operating expenses and prepaid insurance. The department is hereby empowered to include in any resolution authorizing the issuance of the bonds such covenants, stipulations, and conditions as it deems necessary with respect to the continued use and application of the revenues and income from the bridge or bridges. The holder of any bond or the trustee for any bonds designated by resolution may by mandamus or other appropriate proceeding compel performance of any duties imposed upon any state department, official, or employee, including any duties imposed upon or undertaken by the department or its officers, agents, and employees in connection with any improvement or reconstruction work on any existing bridge, the construction of any additional bridge, including approaches and connecting highways provided to be so constructed, the maintenance and operation of the bridge or bridges and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and the revenues and income derived from the operation of the bridge or bridges. [1984 c 7 § 292; 1961 c 13 § 47.58.050. Prior: 1955 c 208 § 5.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.060 Bond resolution—Disposition of income and revenues. Each resolution providing for the issuance of revenue bonds shall provide for setting aside the necessary amounts for the reasonable and proper operation, maintenance, and repair expenses, and shall fix and determine the amounts to be set apart and applied to the payment of the interest on and retirement of the revenue bonds. All income and revenues as collected shall be paid to the state treasurer for the account of the department as a separate trust fund to be segregated and set apart for the payment of the revenue bonds, or may be remitted to and held by a designated trustee in such manner and with such collateral as may be provided in the resolution authorizing the issuance of the bonds. [1984 c 7 § 293; 1961 c 13 § 47.58.060. Prior: 1955 c 208 § 6.]

for the construction, reconstruction, improvement, and operation of any project initiated and carried on by the department under this chapter. 47.60.013 Emergency powers of governor to insure continued operation of ferry and toll bridge system—Cost reimbursement. The governor is authorized to take such actions as may be necessary to insure the continued operation of the Puget Sound ferry and toll bridge system under any emergency circumstances which threaten the continued operation of the system. In the event of such an emergency, the governor may assume all the powers granted by law to the transportation commission and department of transportation with respect to the ferry system. In addition, notwithstanding the provisions of chapters 47.60 and 47.64 RCW, the governor may contract with any qualified persons for the operation of the Washington state ferry system, or any part thereof, or for ferry service to be provided by privately owned vessels. Administrative costs to the office of the governor incurred in the exercise of this authority shall be reimbursed by the department. [1981 c 341 § 1.]

For the purpose of carrying out any or all of the powers granted in this chapter, the department has the power of eminent domain for the acquisition of either real or personal property, used or useful for the Puget Sound ferry system. Condemnation pursuant to this chapter shall be the procedure set out in chapter 8.04 RCW. The department may institute condemnation proceedings in the superior court of any county or other court of competent jurisdiction in which any of the property sought to be condemned is located or in which the owner of any thereof does business, and the court in any such action has jurisdiction to condemn property wherever located within the state. It shall not be necessary to allege or prove any offer to purchase or inability to agree with the owners thereof for the purchase of any such property in the proceedings. It is the intention of this section to permit the consolidation in one action of all condemnation proceedings necessary to acquire a ferry system and every type of property incident thereto, irrespective of its location within the state or diversity of ownership. Upon the filing of a petition for condemnation as provided in this section, the court may issue an order restraining the removal from the jurisdiction of the state of any personal property sought to be acquired by the proceeding during the pendency thereof. The court further has the power to issue such orders or process as are necessary to place the department into possession of any property condemned. [1984 c 7 § 298; 1961 c 13 § 47.60.020. However, this section shall not be construed as requiring the department so to act, but this section is permissive only and then only in respect to contracts, leases, concessions, negotiations, or bids existing, entered into, or received prior to April 1, 1949. [1984 c 7 § 299; 1961 c 13 § 47.60.030. Prior: 1949 c 179 § 7; Rem. Supp. 1949 § 6584-36.]

The cost of any such examination, investigation, survey, or reconnaissance, and all preliminary expenses leading up to and resulting in the issuance of any revenue bonds including, but not being limited to expenses in making surveys and appraisals and the drafting, printing, issuance, and sale of bonds under this chapter shall be borne by the department out of the motor vehicle fund. Notwithstanding the form or tenor thereof, and in the absence of an express recital on the face thereof that the bond is nonnegotiable, each such revenue bond shall at all times be and shall be treated as a negotiable instrument for all purposes. All such bonds shall be signed by the state treasurer and countersigned by the governor, and any interest coupons appertaining thereto shall bear the signature of the state treasurer. The countersignature of the governor on the bonds and the signature of the state treasurer on the coupons may be their printed or lithographed facsimile signatures.

However, the department may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as it deems most advantageous to its own interests. The purchase price of all bonds issued under this chapter shall be paid to the state treasurer consistent with the provisions of the resolution pursuant to which the bonds have been issued or to the trustee designated in the bond resolution and held as a separate trust fund to be disbursed on the orders of the department. [1984 c 7 § 304; 1961 c 13 § 47.60.090. Prior: 1949 c 179 § 4, part; Rem. Supp. 1949 § 6584-33, part.]

Refunding bonds may be issued hereunder in a sufficient amount to provide additional funds for acquiring, constructing, reconstructing, rehabilitating, rebuilding, enlarging, or improving any toll bridge, toll road, toll tunnel, ferry system, or any other toll facility of any sort, and to pay all refunding costs and expenses and to provide adequate reserves for the toll facility and for any such refunding bonds. Various issues and series of such outstanding bonds, including refunding bonds, may be combined and refunded by a single issue of refunding bonds. The refunding bonds shall bear interest at such rates and mature at such times, without limitation by the interest rates or maturity of the bonds being refunded, and shall contain such other covenants and conditions as the department determines by resolution. [1984 c 7 § 305; 1961 c 13 § 47.60.113. Prior: 1957 c 152 § 1; 1955 c 17 § 1.]

(1) If the department acquires or constructs, maintains, and operates any ferry crossings upon or toll bridges over Puget Sound or any of its tributary or connecting waters, there shall not be constructed, operated, or maintained any other ferry crossing upon or bridge over any such waters within ten miles of any such crossing or bridge operated or maintained by the department excepting such bridges or ferry crossings in existence, and being operated and maintained under a lawfully issued franchise at the time of the location of the ferry crossing or construction of the toll bridge by the department.

(2) The ten-mile distance in subsection (1) of this section means ten statute miles measured by airline distance. The ten-mile restriction shall be applied by comparing the two end points (termini) of a state ferry crossing to those of a private ferry crossing.

(3) The Washington utilities and transportation commission may, upon written petition of a commercial ferry operator certificated or applying for certification under chapter 81.84 RCW, and upon notice and hearing, grant a waiver from the ten-mile restriction. The waiver must not be detrimental to the public interest. In making a decision to waive the ten-mile restriction, the commission shall consider, but is not limited to, the impact of the waiver on transportation congestion mitigation, air quality improvement, and the overall impact on the Washington state ferry system. The commission shall act upon a request for a waiver within ninety days after the conclusion of the hearing. A waiver is effective for a period of five years from the date of issuance. At the end of five years the waiver becomes permanent unless appealed within thirty days by the commission on its own motion, the department, or an interested party.

(4) The department shall not maintain and operate any ferry crossing or toll bridge over Puget Sound or any of its tributary or connecting waters that would infringe upon any franchise lawfully issued by the state and in existence and being exercised at the time of the location of the ferry crossing or toll bridge by the department, without first acquiring the rights granted to such franchise holder under the franchise. [1993 c 427 § 1; 1984 c 7 § 307; 1961 c 13 § 47.60.120. Prior: 1949 c 179 § 6; Rem. Supp. 1949 § 6584-35.]

Such warrants shall be payable solely out of part or all of the revenues derived from the operation of the Puget Sound ferry system as shall be provided in the resolution authorizing their issuance, and shall be drawn upon, and the principal thereof and interest thereon shall be payable out of, such fund or funds as shall be created in and provided by the resolution. The warrants may be interest-bearing coupon warrants with a fixed maturity date, or may be interest-bearing registered warrants payable in order of their issuance whenever there is sufficient money in the fund upon which they were drawn to redeem any of them. Such ferry system, including any toll bridges, approaches, and roadways incidental thereto, may be financed and operated in combination or separately as one or more units as the department of transportation may determine, and such ferry system together with any toll bridge hereafter constructed by the department upon or across the waters of Puget Sound or Hood Canal, or any part of either, replacing one or more presently operated ferry routes, is declared to be a continuous project within the meaning of RCW 47.56.070. The department is empowered to rent, lease, or charter any property acquired under this chapter. If the department determines that any real property (including lands, improvements thereon, and any interests or estates) originally acquired for the ferry system is no longer required for the purposes of the ferry system, the department shall offer it for sale in the manner and with the authority authorized to the department by RCW 47.12.063 or 47.12.283. The secretary of transportation may adopt rules

further implementing this section. The proceeds of all such sales shall be paid into the separate trust fund of the state treasury established pursuant to RCW 47.60.150. The department has full charge of the construction, rehabilitation, rebuilding, enlarging, improving, operation, and maintenance of the ferry system, including toll bridges, approaches, and roadways incidental thereto that may be authorized by the department, including the collection of tolls and other charges for the services and facilities of the undertaking. The department has the exclusive right to enter into leases and contracts for use and occupancy by other parties of the concessions and space located on the ferries, wharves, docks, approaches, and landings, but, except as provided in subsection (2) of this section, no such leases or contracts may be entered into for more than ten years, nor without a competitive contract process, except as otherwise provided in this section. The competitive process shall be either an invitation for bids in accordance with the process established by chapter 43.19 RCW, or a request for proposals in accordance with the process established by RCW 47.56.030.

(2) As part of a joint development agreement under which a public or private developer constructs or installs improvements on ferry system property, the department may lease all or part of such property and improvements to such developers for that period of time, not to exceed fifty-five years, or not to exceed thirty years for those areas located within harbor areas, which the department determines is necessary to allow the developer to make reasonable recovery on its initial investment. Any lease entered into as provided for in this subsection that involves state aquatic lands shall conform with the Washington state Constitution and applicable statutory requirements as determined by the department of natural resources. That portion of the lease rate attributable to the state aquatic lands shall be distributed in the same manner as other lease revenues derived from state aquatic lands as provided in RCW 79.24.580. 47.60.145 Historic ferries—Acquisition by qualified persons or organizations. (1) An "historic ferry" is any vessel in the Washington state ferries fleet which has been listed in the Washington state register of historic places.

(2) When the department of transportation determines that an historic ferry is surplus to the needs of Washington

state ferries, the department shall call for proposals from persons who wish to acquire the historic ferry. Proposals for the acquisition of an historic ferry shall be accepted only from persons or organizations that (a) are a governmental entity or a nonprofit corporation or association dedicated to the preservation of historic properties; (b) agree to a contract approved by the state historic preservation officer, which requires the preservation and maintenance of the historic ferry and provides that title to the ferry reverts to the state if the secretary of transportation determines that the contract has been violated; and (c) demonstrate the administrative and financial ability successfully to comply with the contract.

(3) The department shall evaluate the qualifying proposals and shall select the proposal which is most advantageous to the state. Factors to be considered in making the selection shall include but not be limited to:

- (a) Extent and quality of restoration;
- (b) Retention of original design and use;
- (c) Public access to the vessel;
- (d) Provisions for historical interpretation;
- (e) Monetary return to the state.

(4) If there are no qualifying proposals, an historic ferry shall be disposed of in the manner provided by state law. [1982 c 210 § 1.]

47.60.150 Fixing of charges—Deposit, segregation, and disbursement of revenues. Subject to the provisions of RCW 47.60.326, the schedule of charges for the services and facilities of the system shall be fixed and revised from time to time by the commission so that the tolls and revenues collected together with any moneys in the Puget Sound ferry operations account transferred to the ferry system revolving account for maintenance and operation, and all moneys in the Puget Sound capital construction account available for debt service will yield annual revenue and income sufficient, after allowance for all operating, maintenance, and repair expenses to pay the interest and principal and sinking fund charges for all outstanding revenue bonds, and to create and maintain a fund for ordinary renewals and replacements: PROVIDED, That if provision is made by any resolution for the issuance of revenue bonds for the creation and maintenance of a special fund for rehabilitating, rebuilding, enlarging, or improving all or any part of the ferry system then such schedule of tolls and rates of charges shall be fixed and revised so that the revenue and income will also be sufficient to comply with such provision.

All income and revenues as collected shall be paid to the state treasurer for the account of the department as a separate trust fund and to be segregated and disbursed upon order of the department: PROVIDED, That the fund so segregated and set apart for the payment of the revenue bonds may be remitted to and held by a designated trustee in such manner and with such collateral as may be provided in the resolution authorizing the issuance of said bonds. No expenditure may be made from the revenue fund established under this section and the bond resolution without an appropriation by law. Nothing in this section requires tolls

on the Hood Canal bridge except as may be required by any bond covenants. [1990 c 42 § 405. Prior: 1986 c 66 § 2; 1986 c 23 § 1; 1983 c 3 § 135; 1972 ex.s. c 24 § 5; 1961 c 13 § 47.60.150; prior: 1949 c 179 § 5, part; Rem Supp. 1949 § 6584-34, part.]

47.60.170 Ferries revolving fund authorized—Deposit of excess funds. Nothing in RCW 47.60.150 forbids the establishment by the department of a Washington state ferries revolving fund of not to exceed six hundred thousand dollars from the proceeds of any bonds sold under the provisions of this chapter. The fund may be deposited by the department in such banks or financial institutions as it may select throughout the state. RCW 43.01.050 does not apply to the fund or any deposits therein made by the department under this section. The department may deposit all moneys received under this chapter in the fund. All expenses whatsoever arising in the operations of the Puget Sound ferry system shall be paid from the fund, if established, by check or voucher in such manner as may be prescribed by the department.

The review shall also include the allocation of vessels to particular runs, the scheduling of particular runs, the adequacy and arrangements of docks and dock facilities, and any other subject deemed by the department to be properly within the scope of the review. In order that local

representation may be established, the department shall give prior notice of the review to the ferry advisory committees.

(2) The legislative authorities of San Juan, Skagit, Clallam, and Jefferson counties shall each appoint a committee to consist of five members to serve as an advisory committee to the department or its designated representative in such review. The legislative authorities of other counties that contain ferry terminals shall appoint ferry advisory committees consisting of three members for each terminal area in each county, except for Vashon Island, which shall have one committee, and its members shall be appointed by the Vashon/Maury Island community council. At least one person appointed to each ferry advisory committee shall be representative of an established ferry user group or of frequent users of the ferry system. Each member shall reside in the vicinity of the terminal that the advisory committee represents.

(3) The members of the San Juan, Clallam, and Jefferson county ferry advisory committees shall be appointed for four-year terms. The initial terms shall commence on July 1, 1982, and end on June 30, 1986. Any vacancy shall be filled for the remainder of the unexpired term by the appointing authority. At least one person appointed to the advisory committee shall be representative of an established ferry-user group or of frequent users of the ferry system, at least one shall be representative of persons or firms using or depending upon the ferry system for commerce, and one member shall be representative of a local government planning body or its staff. Every member shall be a resident of the county upon whose advisory committee he or she sits, and not more than three members shall at the time of their appointment be members of the same major political party.

(4) The members of each terminal area committee shall be appointed for four-year terms. Any vacancy shall be filled for the remainder of the unexpired term by the appointing authority. Not more than two members of any terminal-area committee may be from the same political party at the time of their appointment, and in a county having more than one committee, the overall party representation shall be as nearly equal as possible.

Severability—1983 c 15: See RCW 47.64.910.

47.60.326 Schedule of charges for state ferries—Review by department, factors considered—Rule making by commission. (1) In order to maintain an adequate, fair, and economically sound schedule of charges for the transpor-

tation of passengers, vehicles, and commodities on the Washington state ferries, the department of transportation each year shall conduct a full review of such charges.

(2) Prior to February 1st of each odd-numbered year the department shall transmit to the transportation commission a report of its review together with its recommendations for the revision of a schedule of charges for the ensuing biennium. The commission on or before July 1st of that year shall adopt as a rule, in the manner provided by the Washington administrative procedure act, a schedule of charges for the Washington state ferries for the ensuing biennium commencing July 1st. The schedule may initially be adopted as an emergency rule if necessary to take effect on, or as near as possible to, July 1st.

(3) The department in making its review and formulating recommendations and the commission in adopting a schedule of charges may consider any of the following factors:

(a) The amount of subsidy available to the ferry system for maintenance and operation;

(b) The time and distance of ferry runs;

(c) The maintenance and operation costs for ferry runs with a proper adjustment for higher costs of operating outmoded or less efficient equipment;

(d) The efficient distribution of traffic between cross-sound routes;

(e) The desirability of reasonable commutation rates for persons using the ferry system to commute daily to work;

(f) The effect of proposed fares in increasing walk-on and vehicular passenger use;

(g) The effect of proposed fares in promoting all types of ferry use during nonpeak periods;

(h) Such other factors as prudent managers of a major ferry system would consider.

(4) If at any time during the biennium it appears that projected toll revenues from the ferry system, together with the transfer from the Puget Sound ferry operations account to the ferry system revolving account and any other operating subsidy available to the Washington state ferries, will be less than the projected total cost of maintenance and operation of the Washington state ferries for the biennium, the department shall forthwith undertake a review of its schedule of charges to ascertain whether or not the schedule of charges should be revised. The department shall, upon completion of its review report, submit its recommendation to the transportation commission which may in its sound discretion revise the schedule of charges as required to meet necessary maintenance and operation expenditures of the ferry system for the biennium or may defer action until the regular annual review and revision of ferry charges as provided in subsection (2) of this section.

(5) The provisions of RCW 47.60.330 relating to public participation shall apply to the process of revising ferry tolls under this section. [1990 c 42 § 406; 1983 c 15 § 25; 1981 c 344 § 5.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

47.60.330 Public participation. (1) Before a substantial expansion or curtailment in the level of service provided to ferry users, or a revision in the schedule of ferry tolls or charges, the department of transportation shall consult with affected ferry users. The consultation shall be: (a) By public hearing in affected local communities; (b) by review with the affected ferry advisory committees pursuant to RCW 47.60.310; (c) by conducting a survey of affected ferry users; or (d) by any combination of (a) through (c).

(2) There is created a ferry system productivity council consisting of a representative of each ferry advisory committee empanelled under RCW 47.60.310, elected by the members thereof, and two representatives of employees of the ferry system appointed by mutual agreement of all of the unions representing ferry employees, which shall meet from time to time with ferry system management to discuss means of improving ferry system productivity.

(3) Before increasing ferry tolls the department of transportation shall consider all possible cost reductions with full public participation as provided in subsection (1) of this section and, consistent with public policy, shall consider adapting service levels equitably on a route-by-route basis to reflect trends in and forecasts of traffic usage. Forecasts of traffic levels shall be developed by the bond covenant traffic engineering firm appointed under the provisions of RCW 47.60.450. Provisions of this section shall not alter obligations under RCW 47.60.450. Before including any toll increase in a budget proposal by the commission, the department of transportation shall consult with affected ferry users in the manner prescribed in (1)(b) of this section plus the procedure of either (1) (a) or (c) of this section. [1983 c 15 § 26.]

47.60.420 Additional revenue bonds, refunding bonds, authorized, 1961 Act—Prior charge against Puget Sound capital construction account if ferry system revenues insufficient. To the extent that all revenues from the Washington state ferry system available therefor are insufficient to provide for the payment of principal and interest on the bonds authorized and issued under RCW 47.60.400 through 47.60.470 and for sinking fund requirements established with respect thereto and for payment into such reserves as the department has established with respect to the securing of the bonds, there is imposed a first and prior charge against the Puget Sound capital construction account of the motor vehicle fund created by RCW 47.60.505 and, to the extent required, against all revenues required by RCW 46.68.100 to be deposited in the Puget Sound capital construction account.

Subject to the provisions of RCW 47.60.326 the commission shall maintain and revise from time to time as necessary a schedule of tolls and charges on said ferry system and, if necessary to comply with bond covenants, on the Hood Canal bridge which together with any moneys in the Puget Sound ferry operations account transferred to the ferry system revolving account for maintenance and operation and all moneys in the Puget Sound capital construction account available for debt service will produce net revenue available for debt service, in each fiscal year, in an amount at least equal to minimum annual debt service requirements as hereinafter provided. Minimum annual debt service requirements as used in this section shall include required payments of principal and interest, sinking fund requirements, and payments into reserves on all outstanding revenue bonds authorized by RCW 47.60.400 through 47.60.470.

The provisions of law relating to the revision of tolls and charges to meet minimum annual debt service requirements from net revenues as required by this section shall be binding upon the commission but shall not be deemed to constitute a contract to that effect for the benefit of the holders of such bonds. If the net revenue together with all moneys in the Puget Sound capital construction account available for debt service in any fiscal year fail to meet minimum annual debt service for the year, as defined in RCW 47.60.440, the commission shall promptly revise the tolls and charges after considering supporting data and recommendations therefor which shall be furnished by a nationally recognized traffic engineering firm retained by the commission in the manner provided in the bond proceedings.

Tolls and charges shall not be increased in any case when in the opinion of the engineering firm the increase would so reduce traffic that no net gain in revenue would result. This section is a covenant for the benefit of the holders of the bonds. [1986 c 66 § 7; 1984 c 7 § 331; 1961 ex.s. c 9 § 6.]

47.60.500 Acquisition of additional ferries—Legislative finding—Department authority. (1) The legislature finds that the state's ferry fleet available for mass

transportation of people within the urban region of Puget Sound is critically deficient and that substantial financial assistance for the acquisition of new ferries is necessary if the Washington state ferries is to continue to fulfill its role in the Puget Sound regional urban transportation system.

(2) The department is authorized:

(a) To apply to the United States secretary of transportation for a financial grant to assist the state to acquire urgently needed ferries;

(b) To enter into an agreement with the United States secretary of transportation or other duly authorized federal officials and to assent to such conditions as may be necessary to obtain financial assistance for the acquisition of additional ferries. In connection with the agreement the department may pledge any moneys in the Puget Sound capital construction account, not required for debt service, in the motor vehicle fund or any moneys to be deposited in the account for the purpose of paying the state's share of the cost of acquiring ferries. To the extent of the pledge the department shall use the moneys available in the Puget Sound capital construction account to meet the obligations as they arise. 47.60.502 Hood Canal bridge—Legislative finding—Authority to restore or replace. The legislature finds that high tides and hurricane force winds on February 13, 1979, caused conditions resulting in the catastrophic destruction of the Hood Canal bridge on state route 104, a state highway on the federal-aid system; and, as a consequence, the state of Washington has sustained a sudden and complete failure of a major segment of highway system with a disastrous impact on transportation services between the counties of Washington's Olympic peninsula and the remainder of the state. The governor has by proclamation found that these conditions constitute an emergency. To minimize the economic loss and hardship to residents of the Puget Sound and Olympic peninsula regions, the department of transportation is authorized and directed to undertake immediately all necessary actions to restore interim transportation services across Hood Canal and Puget Sound and upon the Kitsap and Olympic peninsulas. The department is further authorized and directed to proceed immediately with all necessary measures to survey the damage to the Hood Canal bridge and to undertake the planning, design, and construction necessary to restore or replace the Hood Canal bridge. 47.60.550 Parking or holding area for ferry patrons in conjunction with municipal off-street parking facilities.

(1) Whenever a county, city, or other municipal corporation acquires or constructs a facility to be used in whole or in part for off-street parking of motor vehicles which is in the immediate vicinity of an existing or planned ferry terminal, the department may enter into an agreement with the local governmental body providing for the use in part or at specified times of the facility as a holding area for traffic waiting to board a ferry or for parking by ferry patrons.

(2) As a part of an agreement authorized by subsection (1) of this section, the department, subject to the limitations contained in RCW 47.60.505, may pledge any moneys in the Puget Sound capital construction account in the motor vehicle fund, or to be deposited in the account, to guarantee the payment of principal and interest on bonds issued by a county, city, or other municipal corporation to finance the

47.60.560 General obligation bonds—Ferries—Authorized—Purposes—Passenger-only vessels—Issuance, sale, and retirement. In order to provide funds necessary for vessel acquisition, vessel construction, major and minor vessel improvements, and terminal construction and improvements for the Washington state ferries, there shall be issued and sold upon the request of the department general obligation bonds of the state of Washington in the sum of one hundred thirty-five million dollars or such amount thereof as may be required (together with other funds available therefor). If the state of Washington is able to obtain matching funds from the urban mass transportation administration or other federal government agencies for the acquisition of passenger-only vessels capable of operating as an integral part of the Washington state ferries on Puget Sound and the Straits of Juan de Fuca, a sufficient amount of the proceeds of the bonds authorized herein shall be used to pay the state's share of the acquisition cost of the passenger-only vessels. Upon request being made by the department, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds in accordance with chapter 39.42 RCW. The bonds may be sold from time to time in such amounts as may be necessary for the orderly progress in constructing the ferries. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. Promissory notes or other obligations issued under this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance

committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued. [1986 c 290 § 8; 1985 c 176 § 1; 1984 c 7 § 336; 1977 ex.s. c 360 § 1.]

The costs of obtaining insurance, letters of credit, or other credit enhancement devices with respect to the bonds shall be considered to be expenses incurred in the issuance and sale of the bonds. [1986 c 290 § 9; 1977 ex.s. c 360 § 2.]

The principal of and interest on such bonds shall be first payable in the manner provided in RCW 47.60.560 through 47.60.640 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. 47.60.590 Repayment of bonds—Fund sources. Any funds required to repay the bonds authorized by RCW 47.60.560 or the interest thereon when due shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state for expenditure pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes

The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the ferry bond retirement fund hereby created in the state treasury, which funds shall be available solely for payment of the principal of and interest on the bonds when due. If in any month it shall appear that the estimated percentage of moneys so made is insufficient to meet the requirements for payment of the principal thereof or interest thereon, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for the interest on and principal of all bonds issued shall be fully met at all times. [1977 ex.s. c 360 § 5.]

Severability—1977 ex.s. c 360: See note following RCW 47.60.560.

47.60.610 Excess repayment funds—Disposition. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the bond retirement fund proves more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee and with the concurrence of the department, be available for the prior redemption of any bonds or remain available in the fund to reduce requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. After each transfer by the treasurer of funds from the motor vehicle fund to the bond retirement fund and to the extent permitted by RCW 47.60.420, 47.60.505(3), and 47.60.505(4), the obligation to reimburse the motor vehicle fund as required herein shall constitute a first and prior charge against the funds within and accruing to the Puget Sound capital construction account, including the proceeds of the additional two-tenths of one percent excise tax imposed by RCW 82.44.020, as amended by chapter 332,

Laws of 1977 ex. sess. All funds reimbursed to the motor vehicle fund as provided herein shall be distributed to the state for expenditure pursuant to RCW 46.68.130. [1986 c 66 § 11; 1977 ex.s. c 360 § 7.]

47.60.680 Prequalification of contractors required. No contract for the construction, improvement, or repair of a ferry, ferry terminal, or other facility operated by the Washington state ferries or for the repair, overhaul, or the dry-docking of any ferry operated by Washington state ferries may be awarded to any contractor who has not first been prequalified to perform the work by the department of transportation. No bid or proposal for such a contract may be received from any contractor who has not first been prequalified to perform the work by the department of transportation. [1983 c 133 § 1.]

47.60.690 Qualifications of contractor—Rules to assure. The secretary of transportation shall adopt rules prescribing standards and criteria to assure that each ferry system construction and repair contract described in RCW 47.60.680 shall be awarded to a competent and responsible contractor who has all of the following qualifications:

- (1) Adequate financial resources, which may take into account the ability of the contractor to secure such resources;
- (2) The necessary organization, personnel, equipment, facilities, experience, and technical qualification[s] to perform ferry system construction and repair contracts

generally and with respect to any specific contract such additional special qualifications as may be necessary to perform the contract;

(3) The ability to comply with the department's performance schedules taking into account the outstanding work on all of the contractor's construction and repair contracts;

(4) A satisfactory record of performing previous contracts;

(5) A satisfactory record of integrity, judgment, and skills; and

(6) Such other qualifications as the secretary may prescribe to assure that prequalified contractors are competent and responsible. [1983 c 133 § 2.]

47.60.700 Application for prequalification—Form.

Any contractor desiring to submit bids or proposals for ferry system construction or repair contracts as described in RCW 47.60.680 shall file an application for prequalification with the department. The application shall be on a standard form supplied by the department. The form shall require a complete statement of the applicant's financial ability, including a statement of the applicant's current net assets and working capital. The form shall require such additional information as may be necessary for the department to determine whether or not the applicant is entitled to be prequalified in accordance with RCW 47.60.680 through 47.60.760 and the rules adopted thereunder. [1983 c 133 § 3.]

47.60.710 Department authority to obtain information. Upon request by the department an applicant for prequalification shall authorize the department to obtain any information pertinent to the application, including information relating to the applicant's net worth, assets, and liabilities, from banks or other financial institutions, surety companies, and material and equipment suppliers. [1983 c 133 § 4.]

47.60.720 Additional investigation—Terms of prequalification—Notice of nonqualification. Upon receipt of an application by a contractor for prequalification to perform ferry system construction and repair contracts, the department shall conduct such additional investigation as it deems necessary. If it finds that the applicant is qualified in accordance with the rules as adopted by the secretary, the department shall prequalify the contractor to perform the contracts for a period of one year. The prequalification shall fix the aggregate dollar amount of work, including any contract let by the department, that the contractor may have under contract and uncompleted at any one time and may limit the contractor to the submission of bids or proposals upon a certain class of work. Subject to any restrictions on the dollar amount or class of work specified thereunder, the prequalification shall authorize a contractor to bid or submit proposals on all ferry system construction and repair contracts mentioned in RCW 47.60.680 except contracts requiring special prequalification. If the department determines that an applicant is not entitled to prequalification, it shall give written notice of the determination to the applicant. [1983 c 133 § 5.]

47.60.730 Renewal of prequalification—Nonrenewal or revocation, notice. A contractor may apply annually for renewal of its prequalification by submission of a new or supplemental questionnaire and financial statement on standard forms provided by the department. Based upon information received at the time of renewal or at any other time the department may amend the prequalification of the contractor as to the dollar amount or class of work that the contractor may perform or may refuse to renew the prequalification or may revoke a prequalification previously approved, all in accordance with the same standards and criteria used for considering an original application for prequalification. The department shall give written notice of any such action to the contractor. [1983 c 133 § 6.]

47.60.740 Rejection of bid despite prequalification—Unqualified bidder. If the department finds, after the opening of bids, that facts exist that would disqualify the lowest bidder, or that the lowest bidder is not competent or responsible in accordance with the standards and criteria for prequalifying contractors, the department shall reject the bid despite the prior prequalification of the bidder. No contract may be awarded to a bidder not qualified to bid on it at the time fixed for receiving bids. [1983 c 133 § 7.]

47.60.750 Appeal of refusal, modification, or revocation of prequalification. The action of the department in refusing, modifying, or revoking the prequalification of any contractor under RCW 47.60.680 through 47.60.740 is conclusive unless an appeal is filed with the Thurston county superior court within ten days after receiving written notice of the refusal, modification, or revocation. The appeal shall be heard summarily within twenty days after the appeal is taken and on five days notice thereof to the department. The court shall hear any such appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department was arbitrary or capricious. [1983 c 133 § 8.]

47.60.760 Financial information regarding qualifying not public. The department of transportation shall not be required to make available for public inspection and copying financial information supplied by any person, firm, or corporation for the purpose of qualifying to submit a bid or proposal for a ferry system construction or repair contract as required by RCW 47.60.680 through 47.60.750. [1983 c 133 § 9.]

The notice shall contain, but not be limited to, the following information:

(1) The number of jumbo ferry vessels to be constructed and the proposed delivery date for each vessel;

(2) A short summary of the requirements for prequalification of bidders including a statement that prequalification is a prerequisite to consideration by the department of any bid, and a statement that the bidder shall submit its bid for the vessel in compliance with the plans and specifications supplied by the state; and

(3) An address and telephone number that may be used to obtain the bid package. [1993 c 493 § 1.]

Effective date—1993 c 493: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 18, 1993]." [1993 c 493 § 8.]

(1) Solicitation of a bid to deliver to the department vessels that are constructed as specified by the plans and specifications provided by the department;

(2) A requirement that bids submitted should include one bid for the construction of three vessels;

(3) The proposed delivery date for each vessel, the port on Puget Sound where delivery will be taken, and the location where acceptance sea trials will be held;

(4) The amount and form of required contract security under RCW 39.08.100;

(5) A copy of the vessel construction contract that will be signed by the successful bidder;

(6) The date by which bids for ferry vessel construction must be received by the department in order to be considered;

(7) A requirement that the contractor comply with all applicable laws, rules, and regulations including, but not limited to those pertaining to the environment, worker health and safety, and prevailing wages;

(8) A requirement that the vessels be constructed within the boundaries of the state of Washington except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection. For the purposes of this section, "constructed" means: The fabrication, by the joining together by welding or fastening of all steel parts from which the total vessel is constructed, including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means the installation of all components and systems, including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint and joiner work, required by the contract. "Constructed" also means the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting;

(9) A requirement that all warranty work on the vessel be performed within the boundaries of the state of Washington, insofar as practicable;

(10) A statement that any bid submitted constitutes an offer and remains open until ninety days after the deadline for submitting bids, unless the firm submitting it withdraws it by formal written notice that is received by the department before the date and time specified for opening of the bids,

together with an explanation of the requirement that all bids submitted be accompanied by a bid deposit in the amount of five percent of the bid amount; and

(11) A listing of all equipment to be furnished by the state. [1993 c 493 § 2.]

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.774 Jumbo ferry construction—Procedure on conclusion of evaluation. (1) Upon concluding its evaluation, the department may:

(a) Select the firm submitting the lowest responsible bid for the construction of new jumbo ferries, taking into consideration the requirements stated in the bid documents and rank the remaining firms, judging them by the same standards;

(b) Reject all bids not in compliance with the requirements contained in the bid documents;

(c) Reject all bids.

(2) The department shall immediately notify those firms that were not selected as the firm presenting the lowest responsible bid. The department's selection is conclusive unless appeal from it is taken by an aggrieved firm to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear any appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department was arbitrary or capricious. [1993 c 493 § 4.]

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.776 Jumbo ferry construction—Contract. (1) Upon selecting the firm that has submitted the lowest responsible bid for the construction of new jumbo ferries, and ranking the remaining firms in order of preference, the department shall:

(a) Sign a contract with the firm presenting the lowest responsible bid; or

(b) If a final agreement satisfactory to the department cannot be signed with the firm presenting the lowest responsible bid, the department may sign a contract with the firm ranked next lowest bidder. If necessary, the department may repeat this procedure with each firm in order until the list of firms has been exhausted, or reject all bids.

(2) In developing a contract for the construction of ferry vessels, the department may, subject to the provisions of RCW 39.25.020, authorize the use of foreign-made materials and components, products, and systems that are standard manufactured items in the construction of ferries in order to minimize costs. [1993 c 493 § 5.]

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.778 Jumbo ferry construction—Bid deposits—Low bidder claiming error. Bids submitted by firms under this section constitute an offer and shall remain open for ninety days. When submitted, each bid shall be accompanied by a deposit in cash, certified check, cashier's check, or surety bond in an amount equal to five percent of the bid amount, and no bid may be considered unless the deposit is

enclosed. If the department awards a contract to a firm and the firm fails to enter into a contract or fails to furnish a satisfactory contract security as required by RCW 39.08.100, its deposit shall be forfeited to the state and be deposited by the state treasurer to the credit of the Puget Sound capital construction account. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project. Upon the execution of a ferry construction contract for the construction of new jumbo ferries, all bid deposits shall be returned. [1996 c 18 § 9; 1993 c 493 § 6.]

Effective date—1993 c 493: See note following RCW 47.60.770.

(1) The department may enter into a contract for the acquisition of the propulsion system, or any component of it, including diesel engines and spare parts, for installation into one or more of the three Jumbo Class Mark II ferry vessels authorized under this chapter. This authorization does not limit the department from obtaining and installing the propulsion system, or any component of it, as incidental to the overall vessel construction contract authorized under RCW 47.60.770 through 47.60.778, nor from proceeding to complete an existing contract for acquisition of the propulsion system or any component of it.

(2) Acquisition of a propulsion system, or any component of it, for the Jumbo Class Mark II ferries by the department under this section is exempt from chapter 43.19 RCW.

(3) Whenever the department decides to enter into an acquisition contract under this section it shall publish a notice of its intent to negotiate such a contract once a week for at least two consecutive weeks in one trade newspaper and one other newspaper, both of general circulation in the state. The notice must contain, but is not limited to, the following information:

(a) The identity of the propulsion system or components to be acquired and the proposed delivery dates for the propulsion system or components;

(b) An address and telephone number that may be used to obtain the request for proposal.

(4) The department shall send to any firm that requests it, a request for proposal outlining the design and construction requirements for the propulsion system, including any desired components. The request for proposal must include, but is not limited to, the following information:

(a) The proposed delivery date for each propulsion system or desired component and the location where delivery will be taken;

(b) The form and formula for contract security;

(c) A copy of the proposed contract;

(d) The date by which proposals must be received by the department in order to be considered; and

(e) A statement that any proposal submitted constitutes an offer and must remain open until ninety days after the deadline for submitting proposals, together with an explanation of the requirement that all proposals submitted must be accompanied by a deposit in the amount of five percent of the proposed cost.

(5) The department shall evaluate all timely proposals received for: (a) Compliance with the requirements specified in the request for proposal; and (b) suitability of each firm's proposal by applying appropriate criteria to be developed by the department: (i) To assess the ability of the firm to expeditiously and satisfactorily perform and (ii) to accomplish an acquisition that is most advantageous to the department. A portion of the technical requirements addressed in the request for proposal shall include, but is not limited to, user verifications of manufacturer's reliability claims; the quality of engine maintenance documentation; and engine compatibility with ship design.

(6) The criteria to select the most advantageous diesel engine under subsection (5)(b)(ii) shall consist of life-cycle cost factors weighted at forty-five percent; and operational factors weighted as follows: Reliability at twenty percent, maintainability at twenty percent, and engine performance at fifteen percent. For purposes of this subsection, the life-cycle cost factors shall consist of the costs for engine acquisition and warranty, spare parts acquisition and inventory, fuel efficiency and lubricating oil consumption, and commonality. The fuel efficiency and lubricating oil consumption life-cycle cost factors shall receive not less than twenty percent of the total evaluation weighting and shall be evaluated under a format similar to that employed in the 1992 M.V. Tyee engine replacement contract. The reliability factors shall consist of the length of service and reliability record in comparable uses, and mean time between overhauls. The mean time between overhauls evaluation shall be based upon the manufacturer's required hours between change of wear components. The maintainability factors shall consist of spare parts availability, the usual time anticipated to perform typical repair functions, and the quality of factory training programs for ferry system maintenance staff. The performance factors shall consist of load change responsiveness, and air quality of exhaust and engine room emissions.

(7) Upon concluding its evaluation, the department shall:

(a) Select the firm presenting the proposal most advantageous to the department, taking into consideration compliance with the requirements stated in the request for proposal, and the criteria developed by the department, and rank the remaining firms in order of preference, judging them by the same standards; or

(b) Reject all proposals as not in compliance with the requirements contained in the request for proposals.

(8) The department shall immediately notify those firms that were not selected as the firm presenting the most advantageous proposal of the department's decision. The department's decision is conclusive unless an aggrieved firm appeals the decision to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear the appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department is arbitrary or capricious.

(9) Upon selecting the firm that has presented the most advantageous proposal and ranking the remaining firms in order of preference, the department shall:

(a) Negotiate a contract with the firm presenting the most advantageous proposal; or

(b) If a final agreement satisfactory to the department cannot be negotiated with the firm presenting the most advantageous proposal, the department may then negotiate with the firm ranked next highest in order of preference. If necessary, the department may repeat this procedure and negotiate with each firm in order of rank until the list of firms has been exhausted.

(10) Proposals submitted by firms under this section constitute an offer and must remain open for ninety days. When submitted, each proposal must be accompanied by a deposit in cash, certified check, cashier's check, or surety bond in the amount equal to five percent of the amount of the proposed contract price, and the department may not consider a proposal that has no deposit enclosed with it. If the department awards a contract to a firm under the procedure set forth in this section and the firm fails to enter into the contract and furnish the required contract security within twenty days, exclusive of the day of the award, its deposit shall be forfeited to the state and deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a contract all proposal deposits shall be returned. [1994 c 181 § 2.]

Finding and intent—1994 c 181: "The legislature finds and declares that:

A 1991 legislative study, conducted by Booz, Allen, Hamilton and M. Rosenblatt and Son, examining the Washington state ferries' management of its vessel refurbishment and construction program, resulted in recommendations for improvements and changes in the vessel refurbishment and construction program. These legislatively adopted recommendations encourage and support input by Washington state ferries' engineers in the development of refurbishment and new construction project requirements.

The recommendations of the Booz, Allen study have been applied to the construction of the Jumbo Class Mark II ferries through the appointment of a Jumbo Class Mark II steering committee comprised of current state ferry engineers responsible for the design, operation, and maintenance of state ferry vessels.

The steering committee, in carrying out the recommendations of the Booz, Allen study, has determined that the procedure for the procurement of equipment, parts, and supplies for the Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778, must take into consideration, in addition to life-cycle cost criteria, criteria that are essential to the operation of a public mass transportation system responsive to the needs of Washington state ferries' users, and that assess the reliability, maintainability, and performance of equipment, parts, and supplies to be installed in the Jumbo Mark II ferries.

The construction of the new Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778 is critical to the welfare of the state and any delay in the immediate construction of the ferries will result in severe hardship and economic loss to the state and its citizens. Recognizing these findings, it is the intent of the legislature that the vessel construction should not be delayed further because of the acquisition of a propulsion system, or any component of it, for the ferries, and to authorize the department of transportation to acquire all components of a complete propulsion system as soon as possible so that planned construction of the Jumbo Class Mark II ferry vessels can proceed immediately.

The purpose of this chapter is to authorize the use, by the department, of supplemental, alternative contracting procedures for the procurement of a propulsion system, and the components thereof, for the Jumbo Class Mark II ferries; and to prescribe appropriate requirements and criteria to ensure that contracting procedures for such procurement serve the public interest." [1994 c 181 § 1.]

Effective date—1994 c 181: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 30, 1994]." [1994 c 181 § 4.]

47.60.800 General obligation bonds—1992 issue—Purpose—Issuance and sale. In order to provide funds necessary for vessel and terminal acquisition, construction, and major and minor improvements, including long lead time materials acquisition for the Washington state ferries, there shall be issued and sold upon the request of the Washington state transportation commission and legislative appropriation a total of two hundred ten million dollars of general obligation bonds of the state of Washington. [1992 c 158 § 1.]

47.60.802 Bonds—1992 issue—Supervision of sale by state finance committee—Option of short-term obligations. (1) Upon request being made by the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.60.800 through 47.60.808 in accordance with chapter 39.42 RCW. The bonds may be sold from time to time in such amounts as may be necessary for the purposes under RCW 47.60.800. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

(2) The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued. [1992 c 158 § 2.]

47.60.804 Bonds—1992 issue—Use of proceeds. The proceeds from the sale of bonds authorized by RCW 47.60.800 through 47.60.808 shall be deposited in the Puget Sound capital construction account of the motor vehicle fund and such proceeds shall be available only for the purposes under RCW 47.60.800, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting. [1992 c 158 § 3.]

47.60.806 Bonds—1992 issue—Payment of principal and interest from pledged excise taxes. Bonds issued under the authority of RCW 47.60.800 through 47.60.808 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest shall be first payable in the manner provided in RCW 47.60.800 through 47.60.808 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and distributed to the state pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued

under the authority of RCW 47.60.800 through 47.60.808, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.60.800 through 47.60.808. [1995 c 274 § 19; 1992 c 158 § 4.]

47.60.808 Bonds—1992 issue—Payment from ferry bond retirement fund. Both principal and interest on the bonds issued for the purposes of RCW 47.60.800 through 47.60.808 shall be payable from the ferry bond retirement fund authorized in RCW 47.60.600. Whenever, pursuant to RCW 47.60.800 and 47.60.806, the state treasurer transfers funds from the motor vehicle fund to the ferry bond retirement fund, the state treasurer may at the same time reimburse the motor vehicle fund in an identical amount from the Puget Sound capital construction account. [1992 c 158 § 5.]

47.61.010 Authority to enter into agreement and apply for financial assistance. Recognizing that the Washington state ferries system is an integral part of the state highway system, the department is authorized to enter into an agreement with the administrator of the housing and home finance agency and to make application for a grant for financial assistance for the acquisition by construction or purchase of new vessels pursuant to the provisions of the Urban Mass Transportation Act of 1964. [1984 c 7 § 338; 1965 ex.s. c 56 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.61.020 Bonds for matching funds—Issuance and sale. In order to provide necessary state matching funds as required by the Urban Mass Transportation Act of 1964, there shall be issued and sold limited obligation bonds of the state of Washington in the sum of eleven million dollars, or such amount thereof and at such times as determined to be necessary by the state highway commission. No bonds shall be issued under the provisions of this chapter until the administrator of the housing and home finance agency has approved a grant to the Washington state highway commission of not less than fifty percent of the cost of acquisition of vessels referred to in RCW 47.61.010. The issuance, sale

and retirement of said bonds shall be under the supervision and control of the state finance committee which, upon request being made by the Washington state highway commission, shall provide for the issuance, sale and retirement of coupon or registered bonds to be dated, issued, and sold from time to time in such amounts as may be necessary for the orderly progress of said project. [1965 ex.s. c 56 § 2.]

Reviser's note: Powers, duties, and functions of highway commission transferred to department of transportation; see RCW 47.01.031. Term "Washington state highway commission" means department of transportation; see RCW 47.04.015.

47.61.030 Term of bonds—Terms and conditions. Each of such bonds shall be made payable at any time not exceeding twenty-five years from the time of its issuance, with such reserved rights of prior redemption, bearing such interest, and such terms and conditions, as the state finance committee may prescribe to be specified therein. [1965 ex.s. c 56 § 3.]

47.61.040 Bonds—Signatures—Registration—Where payable—Negotiable instruments. The bonds shall be signed by the governor and the state treasurer under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued hereunder shall be fully negotiable instruments. [1965 ex.s. c 56 § 4.]

47.61.050 Bonds—Denominations—Manner and terms of sale—Legal investment for state funds. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of this chapter shall be legal investment for any of the funds of the state, except the permanent school fund. [1965 ex.s. c 56 § 5.]

47.61.060 Proceeds of bonds—Deposit and use. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the acquisition by construction or purchase of new ferry vessels and for the payment of all expense incurred in the drafting, printing, issuance, and sale of any such bonds. [1965 ex.s. c 56 § 6.]

47.61.070 Statement describing nature of bond obligation—Pledge of excise taxes. Bonds issued under the provisions of this chapter shall distinctly state that they are

not a general obligation of the state but are payable in the manner provided in this chapter from the proceeds of state excise taxes on motor vehicle fuels imposed by chapters 82.36 and *82.40 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of this chapter, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of this chapter. [1965 ex.s. c 56 § 7.]

*Reviser's note: Chapter 82.40 RCW was repealed by 1971 ex.s. c 175 § 33, effective January 1, 1972.

47.61.080 Bonds to reflect terms and conditions of grant agreement. Bonds issued under the provisions of RCW 47.61.020 shall fully reflect the terms and conditions of the grant agreement to be executed pursuant to the provisions of RCW 47.61.010. [1965 ex.s. c 56 § 8.]

47.61.090 Designation of funds to repay bonds and interest. Funds required to repay the bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle fuels and which is, or may be appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of the funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on the bonds. [1984 c 7 § 339; 1965 ex.s. c 56 § 9.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.61.100 Bond repayment procedure—Highway bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments under the provisions of this chapter when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, and which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1965 ex.s. c 56 § 10.]

47.61.110 Sums in excess of bond retirement requirements—Use. Whenever the percentage of the motor

vehicle fund arising from excise taxes on motor vehicle fuels, payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, or in the event there is appropriated from time to time additional amounts to be placed in the said bond retirement fund, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1965 ex.s. c 56 § 11.]

47.64.005 Declaration of policy. The state of Washington, as a public policy, declares that sound labor relations are essential to the development of a ferry and bridge system which will best serve the interests of the people of the state. [1961 c 13 § 47.64.005. Prior: 1949 c 148 § 1; Rem. Supp. 1949 § 6524-22.]

47.64.006 Public policy. The legislature declares that it is the public policy of the state of Washington to: (1) Provide continuous operation of the Washington state ferry system at reasonable cost to users; (2) efficiently provide levels of ferry service consistent with trends and forecasts of ferry usage; (3) promote harmonious and cooperative relationships between the ferry system and its employees by permitting ferry employees to organize and bargain collec-

tively; (4) protect the citizens of this state by assuring effective and orderly operation of the ferry system in providing for their health, safety, and welfare; (5) prohibit and prevent all strikes or work stoppages by ferry employees; (6) protect the rights of ferry employees with respect to employee organizations; and (7) promote just and fair compensation, benefits, and working conditions for ferry system employees as compared with public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia in directly comparable but not necessarily identical positions. [1989 c 327 § 1; 1983 c 15 § 1.]

47.64.011 Definitions. As used in this chapter, unless the context otherwise requires, the definitions in this section shall apply.

(1) "Arbitration" means the procedure whereby the parties involved in an impasse submit their differences to a third party for a final and binding decision or as provided in this chapter.

(2) "Arbitrator" means either a single arbitrator or a panel of three arbitrators as provided in RCW 47.64.240.

(3) "Collective bargaining representative" means the persons designated by the secretary of transportation and employee organizations to be the exclusive representatives during collective bargaining negotiations.

(4) "Department of transportation" means the department as defined in RCW 47.01.021.

(5) "Ferry employee" means any employee of the marine transportation division of the department of transportation who is a member of a collective bargaining unit represented by a ferry employee organization and does not include an exempt employee pursuant to RCW 41.06.079.

(6) "Ferry employee organization" means any labor organization recognized to represent a collective bargaining unit of ferry employees.

(7) "Ferry system management" means those management personnel of the marine transportation division of the department of transportation who have been vested with the day-to-day management responsibilities of the Washington state ferry system by the transportation commission and who are not members of a collective bargaining unit represented by a ferry employee organization.

(8) "Lockout" means the refusal of ferry system management to furnish work to ferry employees in an effort to get ferry employee organizations to make concessions during collective bargaining, grievance, or other labor relation negotiations. Curtailment of employment of ferry employees due to lack of work resulting from a strike or work stoppage, as defined in subsection (11) of this section, shall not be considered a lockout.

(9) "Marine employees' commission" means the commission created in RCW 47.64.280.

(10) "Office of financial management" means the office as created in RCW 43.41.050.

purpose of inducing, influencing, or coercing a change in conditions, compensation, rights, privileges, or obligations of his, her, or any other ferry employee's employment. A refusal, in good faith, to work under conditions which pose an endangerment to the health and safety of ferry employees or the public, as determined by the master of the vessel, shall not be considered a strike for the purposes of this chapter.

(12) "Transportation commission" means the commission as defined in RCW 47.01.021. [1983 c 15 § 2.]

47.64.060 Federal social security—State employees' retirement. All employees engaged in the operation of ferries acquired by the department shall remain subject to the federal social security act and shall be under the state employees' retirement act. The department shall make such deductions from salaries of employees and contributions from revenues of the department as shall be necessary to qualify the employees for benefits under the federal social security act. The appropriate officials are authorized to contract with the secretary of health, education and welfare to effect the coverage. [1984 c 7 § 340; 1961 c 13 § 47.64.060. 47.64.070 Employees subject to industrial insurance laws. Employees, except the masters and members of the crews of vessels, shall be subject to and entitled to the benefits of the industrial insurance laws of the state, and are hereby declared to be in extrahazardous employment within the meaning of such laws. 47.64.080 Employee seniority rights. Employees employed at the time of the acquisition of any ferry or ferry system by the department have seniority rights to the position they occupy aboard the ferries or ferry system. In the event of curtailment of ferry operations for any reason, employees shall be relieved of service on the basis of their duration of employment in any ferry or ferry system acquired by the department. [1984 c 7 § 341; 1961 c 13 § 47.64.080. Prior: 1949 c 148 § 7; Rem. Supp. 1949 § 6524-28.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.64.090 Other party operating ferry by rent, lease, or charter subject to chapter—Working conditions—Adjudication of labor disputes. If any party assumes the operation and maintenance of any ferry or ferry system by rent, lease, or charter from the department of transportation, such party shall assume and be bound by all the provisions herein and any agreement or contract for such operation of any ferry or ferry system entered into by the department shall provide that the wages to be paid, hours of employment, working conditions and seniority rights of employees will be established by the marine employees' commission in accordance with the terms and provisions of this chapter and it shall further provide that all labor disputes shall be adjudicated in accordance with chapter 47.64 RCW.

[1983 c 15 § 27; 1961 c 13 § 47.64.090. Prior: 1949 c 148 § 8; Rem. Supp. 1949 § 6524-29.]

Employer funded retirement benefits shall be provided under the public employees retirement system under chapter 41.40 RCW and shall not be included in the scope of collective bargaining. Negotiations shall also include grievance procedures for resolving any questions arising under the agreement, which shall be embodied in a written agreement and signed by the parties. [1983 c 15 § 3.]

47.64.130 Unfair labor practices for employer, employee organization, enumerated. (1) It is an unfair labor practice for ferry system management or its representatives:

(a) To interfere with, restrain, or coerce employees in the exercise of the rights guaranteed by this chapter;

(b) To dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it: PROVIDED, That subject to rules made by the commission pursuant to RCW 47.64.280, an employer shall not be prohibited from permitting employees to confer with it or its representatives or agents during working hours without loss of time or pay;

(c) To encourage or discourage membership in any employee organization by discrimination in regard to hiring, tenure of employment, or any term or condition of employment, but nothing contained in this subsection prevents an employer from requiring, as a condition of continued employment, payment of periodic dues and fees uniformly required to an exclusive bargaining representative pursuant to RCW 47.64.160: PROVIDED, That nothing prohibits ferry system management from agreeing to obtain employees by referral from a lawful hiring hall operated by or participated in by a labor organization;

(d) To discharge or otherwise discriminate against an employee because he has filed charges or given testimony under this chapter;

(e) To refuse to bargain collectively with the representatives of its employees.

(2) It is an unfair labor practice for an employee organization:

(a) To restrain or coerce (i) employees in the exercise of the rights guaranteed by this chapter: PROVIDED, That this paragraph does not impair the right of an employee organization to prescribe its own rules with respect to the acquisition or retention of membership therein, or (ii) an employer in the selection of his representatives for the purposes of collective bargaining or the adjustment of grievances;

(b) To cause or attempt to cause an employer to discriminate against an employee in violation of subsection (1)(c) of this section;

(c) To refuse to bargain collectively with an employer, when it is the representative of its employees subject to RCW 47.64.170.

(3) The expression of any view, argument, or opinion, or the dissemination thereof to the public, whether in written, printed, graphic, or visual form, shall not constitute or be evidence of an unfair labor practice under any of the provisions of this chapter, if the expression contains no threat of reprisal or force or promise of benefit. [1983 c 15 § 4.]

47.64.140 Strikes, work stoppages, and lockouts prohibited. (1) It is unlawful for any ferry system employee or any employee organization, directly or indirectly, to induce, instigate, encourage, authorize, ratify, or participate in a strike or work stoppage against the ferry system.

(2) It is unlawful for ferry system management to authorize, consent to, or condone a strike or work stoppage; or to conduct a lockout; or to pay or agree to pay any ferry system employee for any day in which the employee participates in a strike or work stoppage; or to pay or agree to pay any increase in compensation or benefits to any ferry system employee in response to or as a result of any strike or work stoppage or any act that violates subsection (1) of this section. It is unlawful for any official, director, or representative of the ferry system to authorize, ratify, or participate in any violation of this subsection. Nothing in this subsection prevents new or renewed bargaining and agreement within the scope of negotiations as defined by this chapter, at any time. No collective bargaining agreement provision regarding suspension or modification of any court-ordered penalty provided in this section is binding on the courts.

(3) In the event of any violation or imminently threatened violation of subsection (1) or (2) of this section, any citizen domiciled within the jurisdictional boundaries of the state may petition the superior court for Thurston county for an injunction restraining the violation or imminently threatened violation. Rules of civil procedure regarding injunctions apply to the action. However, the court shall grant a temporary injunction if it appears to the court that a violation has occurred or is imminently threatened; the plaintiff need not show that the violation or threatened violation would greatly or irreparably injure him or her; and no bond may be required of the plaintiff unless the court determines that a bond is necessary in the public interest. Failure to comply with any temporary or permanent injunction granted under this section is a contempt of court as provided in chapter 7.21 RCW. The court may impose a penalty of up to ten thousand dollars for an employee organization or the ferry system, for each day during which the failure to comply continues. The sanctions for a ferry employee found to be in contempt shall be as provided in chapter 7.21 RCW. An individual or an employee organization which makes an active good faith effort to comply fully with the injunction shall not be deemed to be in contempt.

(4) The right of ferry system employees to engage in strike or work slowdown or stoppage is not granted and nothing in this chapter may be construed to grant such a right.

(5) Each of the remedies and penalties provided by this section is separate and several, and is in addition to any other legal or equitable remedy or penalty.

(6) In addition to the remedies and penalties provided by this section the successful litigant is entitled to recover reasonable attorney fees and costs incurred in the litigation.

(7) Notwithstanding the provisions of chapter 88.04 RCW and chapter 88.08 RCW, the department of transportation shall promulgate rules and regulations allowing vessels, as defined in *RCW 88.04.300, as well as other watercraft, to engage in emergency passenger service on the waters of Puget Sound in the event ferry employees engage in a work slowdown or stoppage. Such emergency rules and regulations shall allow emergency passenger service on the waters of Puget Sound within seventy-two hours following a work slowdown or stoppage. Such rules and regulations that are promulgated shall give due consideration to the needs and the health, safety, and welfare of the people of the state of Washington. [1989 c 373 § 25; 1983 c 15 § 5.]

*Reviser's note: RCW 88.04.300 was repealed by 1989 c 295 § 16. For later enactment, see RCW 88.04.015.

Severability—1989 c 373: See RCW 7.21.900.

47.64.150 Grievance procedures. An agreement with a ferry employee organization that is the exclusive representative of ferry employees in an appropriate unit may provide procedures for the consideration of ferry employee grievances and of disputes over the interpretation and application of agreements. Negotiated procedures may provide for binding arbitration of ferry employee grievances and of disputes over the interpretation and application of existing agreements. An arbitrator's decision on a grievance shall not change or amend the terms, conditions, or applications of the collective bargaining agreement. The procedures shall provide for the invoking of arbitration only with the approval of the employee organization. The costs of arbitrators shall be shared equally by the parties.

Ferry system employees shall follow either the grievance procedures provided in a collective bargaining agreement, or if no such procedures are so provided, shall submit the grievances to the marine employees' commission as provided in RCW 47.64.280. [1983 c 15 § 6.]

47.64.160 Union security provisions—Scope—Agency shop provision, collection of dues or fees. A collective bargaining agreement may include union security provisions including an agency shop, but not a union or closed shop. If an agency shop provision is agreed to, the employer shall enforce it by deducting from the salary payments to members of the bargaining unit the dues required of membership in the bargaining representative, or, for nonmembers thereof, a fee equivalent to such dues. All union security provisions shall safeguard the right of nonassociation of employees based on bona fide religious tenets or teachings of a church or religious body of which such employee is a member. Such employee shall pay an amount of money equivalent to regular dues and fees to a nonreligious charity or to another charitable organization mutually agreed upon by the employee affected and the bargaining representative to which such employee would otherwise pay the dues and fees. The employee shall furnish

written proof that such payment has been made. If the employee and the bargaining representative do not reach agreement on such matter, the commission shall designate the charitable organization. [1983 c 15 § 7.]

47.64.170 Collective bargaining procedures. (1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the secretary of transportation may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of ferry system management or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties. Any meeting of the transportation commission, during which a collective bargaining agreement is subject to ratification, shall be open to the public.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with a member of the transportation commission if the commission has appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative, unless the member of the commission is the designated bargaining representative of the ferry system.

(6) The negotiation of a proposed collective bargaining agreement by representatives of ferry system management and a ferry employee organization shall commence in each odd-numbered year immediately following adoption by the legislature and approval by the governor of the biennial budget.

(7) Until a new collective bargaining agreement is negotiated, or until an award is made by the arbitrator, the terms and conditions of the previous collective bargaining agreement shall remain in force. The wage and benefit provisions of any collective bargaining agreement, or arbitrator's award in lieu thereof, that is concluded after July 1st of an odd-numbered year shall be retroactive to July 1st. It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical.

(8) Any ferry union contract terminating before July 1, 1983, shall, with the agreement of the parties, remain in effect until a contract can be concluded under RCW 47.64.006, 47.64.011, and 47.64.120 through 47.64.280. The contract may be retroactive to the expiration date of the prior contract, and the cost to the department of three months retroactive compensation and benefits for this 1983 contract negotiation only shall not be included in calculating the limitation imposed by RCW 47.64.180. If the parties cannot

agree to contract extension, any increase agreed to for the three-month period shall be included in calculating the limit imposed by RCW 47.64.180.

(9) Any ferry union contract which would terminate after July 1, 1983, may, by agreement of the parties, be terminated as of July 1, 1983, and a new contract concluded pursuant to RCW 47.64.006, 47.64.011, and 47.64.120 through 47.64.280. Any contract terminating after July 1, 1983, is subject to this chapter only upon its expiration and shall not be renewed for a period beyond July 1, 1985. [1983 c 15 § 8.]

47.64.180 Agreements and awards limited by appropriation. (1) No collective bargaining agreement or arbitrator's award is valid or enforceable if its implementation would be inconsistent with any statutory limitation on the department of transportation's funds, spending, or budget. The department of transportation shall, in good faith, exercise its administrative discretion with full public participation as required by *RCW 47.60.330, subject only to legislative limitations and conditions, to implement the terms of any collective bargaining agreement or arbitrator's award.

(2) In no event may the transportation commission or the department of transportation authorize an increase in tolls after the enactment of the budget that is in excess of the Seattle consumer price index for the preceding twelve months for the purpose of providing revenue to fund a collective bargaining agreement or arbitrator's award. The commission or the department may increase tolls after the first fiscal year of the biennium by the amount that the Seattle consumer price index increased after the previous toll increase. This subsection shall not be construed to prevent increases due to items that are not labor-related and that are beyond the direct control of the department. [1983 c 15 § 9.]

***Reviser's note:** The reference in 1983 c 15 § 9 to "section 25 of this act" has been translated to "RCW 47.60.330." A literal translation of the session law reference would have been "RCW 47.60.326," which appears to be erroneous. A floor amendment to Substitute Senate Bill No. 3108 added a new section 24 to the bill and directed that internal references be corrected accordingly. The correction was not made in the preparation of Engrossed Substitute Senate Bill No. 3108, but has been made in codification.

47.64.190 Marine employees' commission review for compliance with fiscal limitations—Effective date of agreements and arbitration orders. (1) No negotiated agreement or arbitration order may become effective and in force until five calendar days after an agreement has been negotiated or an arbitration order entered for each and every ferry employee bargaining unit.

(2) Upon the conclusion of negotiations or arbitration procedures with all ferry employee bargaining units, the secretary shall ascertain whether the cumulative fiscal requirements of all such agreements and arbitration orders are within the limitations imposed by RCW 47.64.180.

(3) If the secretary finds that budgetary or fare restrictions will be exceeded, he shall, within five calendar days of completion of negotiations or arbitration with the last bargaining unit to conclude an agreement, submit all agreements and arbitration awards to the marine employees'

commission for a binding determination whether the limitations of RCW 47.64.180 have been exceeded.

(4) The marine employees' commission shall review all negotiated agreements and arbitration orders, and may take written or oral testimony from the parties, regarding compliance with RCW 47.64.180. Within fifteen calendar days of receiving the secretary's request for review, the commission shall determine by a majority vote of its members whether or not the cumulative effect of all such agreements and orders exceeds the limitations of RCW 47.64.180.

(5) If the marine employees' commission determines that the limitations of RCW 47.64.180 would be exceeded if all agreements and arbitration orders were given full force and effect, it shall order the minimum percentage reduction in straight time wage provisions applied equally across the board to all agreements or arbitration orders which will result in compliance with RCW 47.64.180.

(6) Whenever the secretary requests a determination by the marine employees' commission pursuant to this section, the effect of all agreements and arbitration orders shall be stayed, pending the commission's final determination. [1983 c 15 § 10.]

47.64.200 Impasse procedures. As the first step in the performance of their duty to bargain, ferry system management and the employee organization shall endeavor to agree upon impasse procedures. The agreement shall provide for implementation of these impasse procedures not later than July 1st in each odd-numbered year following enactment of the biennial budget. If the parties fail to agree upon impasse procedures under this section, the impasse procedures provided in RCW 47.64.210 through 47.64.230 apply. It is unlawful for either party to refuse to participate in the impasse procedures provided in RCW 47.64.210 through 47.64.230. [1983 c 15 § 11.]

47.64.210 Mediation. In the absence of an impasse agreement between the parties or the failure of either party to utilize its procedures by August 1st in each odd-numbered year, the marine employees' commission shall, upon the request of either party, appoint an impartial and disinterested person to act as mediator pursuant to RCW 47.64.280. It is the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but the mediator shall not compel the parties to agree. [1983 c 15 § 12.]

47.64.220 Salary survey, fact-finding. Prior to collective bargaining, the marine employees' commission shall conduct a salary survey which shall be a public document comparing wages, hours, employee benefits, and conditions of employment of involved ferry employees with those of public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia doing directly comparable but not necessarily identical work, giving consideration to factors peculiar to the area and the classifications involved. Such survey shall be for the purpose of disclosing generally prevailing levels of compensation, benefits, and conditions of employment. It shall be used to guide generally but not to define or limit collective bargaining between the parties. The commission shall make such other findings of fact as the parties may

request during bargaining or impasse. [1989 c 327 § 2; 1983 c 15 § 13.]

47.64.230 Waiver of mediation and fact-finding. By mutual agreement, the parties may waive mediation and fact-finding, as provided for in RCW 47.64.210 and 47.64.220, and proceed with binding arbitration as provided for in RCW 47.64.240. The waiver shall be in writing and be signed by the representatives of the parties. [1983 c 15 § 14.]

47.64.240 Binding arbitration. (1) If impasse persists fourteen days after the mediator has been appointed, or beyond any other date mutually agreed to by the parties, all impasse items shall be submitted to arbitration pursuant to this section, and that arbitration shall be binding upon the parties.

(2) Each party shall submit to the other within four days of request, a final offer on the impasse items with proof of service of a copy upon the other party. Each party shall also submit a copy of a draft of the proposed collective bargaining agreement to the extent to which agreement has been reached and the name of its selected arbitrator. The parties may continue to negotiate all offers until an agreement is reached or a decision rendered by the panel of arbitrators.

As an alternative procedure, the two parties may agree to submit the dispute to a single arbitrator. If the parties cannot agree on the arbitrator within four days, the selection shall be made pursuant to subsection (5) of this section. The full costs of arbitration under this provision shall be shared equally by the parties to the dispute.

(3) The submission of the impasse items to the arbitrators shall be limited to those issues upon which the parties have not reached agreement. With respect to each such item, the arbitration panel award shall be restricted to the final offers on each impasse item submitted by the parties to the arbitration board on each impasse item.

(4) The panel of arbitrators shall consist of three members appointed in the following manner:

(a) One member shall be appointed by the secretary of transportation;

(b) One member shall be appointed by the ferry employee organization;

(c) One member shall be appointed mutually by the members appointed by the secretary of transportation and the employee organization. The last member appointed shall be the chairman of the panel of arbitrators. No member appointed may be an employee of the parties;

(d) Ferry system management and the employee organization shall each pay the fees and expenses incurred by the arbitrator each selected. The fee and expenses of the chairman of the panel shall be shared equally by each party.

(5) If the third member has not been selected within four days of notification as provided in subsection (2) of this section, a list of seven arbitrators shall be submitted to the parties by the marine employees' commission. The two arbitrators selected by ferry system management and the ferry employee organization shall determine by lot which arbitrator shall remove the first name from the list submitted by the marine employees' commission. The second arbitrator and the first arbitrator shall alternately remove one additional name until only one name remains. The person

whose name remains shall become the chairman of the panel of arbitrators and shall call a meeting within thirty days, or at such time mutually agreed to by the parties, at a location designated by him or her. In lieu of a list of seven nominees for the third member being submitted by the marine employees' commission, the parties may mutually agree to have either the Federal Mediation and Conciliation Service or the American Arbitration Association submit a list of seven nominees.

(6) If a vacancy occurs on the panel of arbitrators, the selection for replacement of that member shall be in the same manner and within the same time limits as the original member was chosen. No final award under subsection (3) of this section may be made by the panel until three arbitrators have been chosen.

(7) The panel of arbitrators shall at no time engage in an effort to mediate or otherwise settle the dispute in any manner other than that prescribed in this section.

(8) From the time of appointment until such time as the panel of arbitrators makes its final determination, there shall be no discussion concerning recommendations for settlement of the dispute by the members of the panel of arbitrators with parties other than those who are direct parties to the dispute. The panel of arbitrators may conduct formal or informal hearings to discuss offers submitted by both parties.

(9) The panel of arbitrators shall consider, in addition to any other relevant factors, the following factors:

(a) Past collective bargaining contracts between the parties including the bargaining that led up to the contracts;

(b) Comparison of wages, hours, employee benefits, and conditions of employment of the involved ferry employees with those of public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia doing directly comparable but not necessarily identical work, giving consideration to factors peculiar to the area and the classifications involved;

(c) The interests and welfare of the public, the ability of the ferry system to finance economic adjustments, and the effect of the adjustments on the normal standard of services;

(d) The right of the legislature to appropriate and to limit funds for the conduct of the ferry system; and

(e) The limitations on ferry toll increases and operating subsidies as may be imposed by the legislature.

(10) The chairman of the panel of arbitrators may hold hearings and administer oaths, examine witnesses and documents, take testimony and receive evidence, issue subpoenas to compel the attendance of witnesses and the production of records, and delegate such powers to other members of the panel of arbitrators. The chairman of the panel of arbitrators may petition the superior court in Thurston county, or any county in which any hearing is held, to enforce the order of the chairman compelling the attendance of witnesses and the production of records.

(11) A majority of the panel of arbitrators shall within thirty days after its first meeting select the most reasonable offer, in its judgment, of the final offers on each impasse item submitted by the parties.

(12) The selections by the panel of arbitrators and items agreed upon by the ferry system management and the employee organization shall be deemed to be the collective bargaining agreement between the parties.

(13) The determination of the panel of arbitrators shall be by majority vote and shall be final and binding, subject to RCW 47.64.180 and 47.64.190. The panel of arbitrators shall give written explanation for its selection and inform the parties of its decision. [1989 c 327 § 3; 1983 c 15 § 15.]

47.64.250 Legal actions. (1) Any ferry employee organization and the department of transportation may sue or be sued as an entity under this chapter. Service upon any party shall be in accordance with law or the rules of civil procedure. Nothing in this chapter may be construed to make any individual or his assets liable for any judgment against the department of transportation or a ferry employee organization if the individual was acting in his official capacity.

(2) Any legal action by any ferry employee organization or the department of transportation under this chapter shall be filed in Thurston county superior court within ten days of when the cause of action arose. The court shall consider those actions on a priority basis and determine the merits of the actions within thirty days of filing. [1983 c 15 § 16.]

47.64.260 Notice and service. Any notice required under this chapter shall be in writing, but service thereof is sufficient if mailed by restricted certified mail, return receipt requested, addressed to the last known address of the parties, unless otherwise provided in this chapter. Refusal of restricted certified mail by any party shall be considered service. Prescribed time periods commence from the date of the receipt of the notice. Any party may at any time execute and deliver an acceptance of service in lieu of mailed notice. [1983 c 15 § 17.]

47.64.270 Insurance and health care. Absent a collective bargaining agreement to the contrary, the department of transportation shall provide contributions to insurance and health care plans for ferry system employees and dependents, as determined by the state health care authority, under chapter 41.05 RCW; and the ferry system management and employee organizations may collectively bargain for other insurance and health care plans, and employer contributions may exceed that of other state agencies as provided in RCW 41.05.050, subject to RCW 47.64.180. To the extent that ferry employees by bargaining unit have absorbed the required offset of wage increases by the amount that the employer's contribution for employees' and dependents' insurance and health care plans exceeds that of other state general government employees in the 1985-87 fiscal biennium, employees shall not be required to absorb a further offset except to the extent the differential between employer contributions for those employees and all other state general government employees increases during any subsequent fiscal biennium. If such differential increases in the 1987-89 fiscal biennium or the 1985-87 offset by bargaining unit is insufficient to meet the required deduction, the amount available for compensation shall be reduced by bargaining unit by the amount of such increase or the 1985-87 shortage in the required offset. Compensation shall include all wages and employee benefits. [1995 1st sp.s. c 6 § 6; 1993 c 492 § 224; 1988 c 107 § 21; 1987 c 78 § 2; 1983 c 15 § 18.]

47.64.280 Marine employees' commission. (1) There is created the marine employees' commission. The governor shall appoint the commission with the consent of the senate. The commission shall consist of three members: One member to be appointed from labor, one member from industry, and one member from the public who has significant knowledge of maritime affairs. The public member shall be chairman of the commission. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he succeeds. Commission members are eligible for reappointment. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members are not eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission. Members of the commission shall be compensated in accordance with RCW 43.03.250 and shall receive reimbursement for official travel and other expenses at the same rate and on the same terms as provided for the transportation commission by RCW 47.01.061. The payments shall be made from the Puget Sound ferry operations account.

(2) The marine employees' commission shall: (a) Adjust all complaints, grievances, and disputes between labor and management arising out of the operation of the ferry system as provided in RCW 47.64.150; (b) provide for impasse mediation as required in RCW 47.64.210; (c) conduct fact-finding and provide salary surveys as required in RCW 47.64.220; and (d) provide for the selection of an impartial arbitrator as required in RCW 47.64.240(5).

(3) In adjudicating all complaints, grievances, and disputes, the party claiming labor disputes shall, in writing, notify the marine employees' commission, which shall make careful inquiry into the cause thereof and issue an order advising the ferry employee, or the ferry employee organization representing him or her, and the department of transportation, as to the decision of the commission.

The parties are entitled to offer evidence relating to disputes at all hearings conducted by the commission. The orders and awards of the commission are final and binding upon any ferry employee or employees or their representative affected thereby and upon the department.

The commission shall adopt rules of procedure under chapter 34.05 RCW.

The commission has the authority to subpoena any ferry employee or employees, or their representatives, and any member or representative of the department, and any witnesses. The commission may require attendance of witnesses and the production of all pertinent records at any hearings held by the commission. The subpoenas of the commission are enforceable by order of any superior court in the state of Washington for the county within which the proceeding may be pending. The commission may hire staff as necessary, appoint consultants, enter into contracts, and conduct studies as reasonably necessary to carry out this chapter. [1984 c 287 § 95; 1983 c 15 § 19.]

Chapter 47.66

MULTIMODAL TRANSPORTATION PROGRAMS

Sections

47.66.010	Legislative declaration.
47.66.030	Transportation improvement board—Authority—Expenses.
47.66.040	Selection process—Local matching funds.
47.66.900	Effective date—1993 c 393.

47.66.010 Legislative declaration. There is significant state interest in assuring that viable multimodal transportation programs are available throughout the state. The legislature recognizes the need to create a mechanism to fund multimodal transportation programs and projects. The legislature further recognizes the complexities associated with current funding mechanisms and seeks to create a process that would allow for all transportation programs and projects to compete for limited resources. [1993 c 393 § 3.]

47.66.030 Transportation improvement board—Authority—Expenses. (1)(a) The transportation improvement board is authorized and responsible for the final selection of programs and projects funded from the central Puget Sound public transportation account; public transportation systems account; and the intermodal surface transportation and efficiency act of 1991, surface transportation program, state-wide competitive.

(b) The board may establish subcommittees as well as technical advisory committees to carry out the mandates of this chapter.

(2) Expenses of the board, including administrative expenses for managing the program, shall be paid in accordance with RCW 47.26.140. [1996 c 49 § 3; 1995 c 269 § 2604; 1993 c 393 § 5.]

Effective date—1995 c 269: See note following RCW 13.40.025.

Part headings not law—Severability—1995 c 269: See notes following RCW 13.40.005.

47.66.040 Selection process—Local matching funds.

(1) The transportation improvement board shall select programs and projects based on a competitive process consistent with the mandates governing each account or source of funds. The competition shall be consistent with the following criteria:

- Local, regional, and state transportation plans;
- Local transit development plans; and
- Local comprehensive land use plans.

(2) The following criteria shall be considered by the board in selecting programs and projects:

(a) Objectives of the growth management act, the high capacity transportation act, the commute trip reduction act, transportation demand management programs, federal and state air quality requirements, and federal Americans with disabilities act and related state accessibility requirements; and

(b) Energy efficiency issues, freight and goods movement as related to economic development, regional significance, rural isolation, the leveraging of other funds including funds administered by this board, and safety and security issues.

47.68.010 Statement of policy. It is hereby declared that the purpose of this chapter is to further the public interest and aeronautical progress by providing for the protection and promotion of safety in aeronautics; by cooperating in effecting uniformity of the laws and regulations relating to the development and regulation of aeronautics in the several states consistent with federal aeronautics laws and regulations; by granting to a state agency such powers and imposing upon it such duties that the state may properly perform its functions relative to aeronautics and effectively exercise its jurisdiction over persons and property within such jurisdiction, assist in the development of a state-wide system of airports, cooperate with and assist the municipalities of this state and others engaged in aeronautics, and encourage and develop aeronautics; by establishing only such regulations as are essential in order that persons engaged in aeronautics of every character may so engage with the least possible restriction, consistent with the safety and the rights of others; and by providing for cooperation with the federal authorities in the development of a national system of civil aviation and for coordination of the aeronautical activities of those authorities and the authorities of this state. 47.68.015 Change of meaning, certain terms. Unless the language specifically indicates otherwise, or unless the context plainly requires a different interpretation:

Wherever in any provision in the Revised Code of Washington the term "Washington state aeronautics commission", "the state aeronautics commission", "the aeronautics

commission of the state", "the aeronautics commission", or "the commission" (when referring to the Washington state aeronautics commission) is used, it shall mean the department of transportation created in RCW 47.01.031.

Wherever in any provision in the Revised Code of Washington the term "state director of aeronautics", "director of aeronautics", or "director" (when referring to the state director of aeronautics) is used, it shall mean the secretary of transportation whose office is created in RCW 47.01.041. (2) An aircraft registered under the laws of a foreign country;

(3) An aircraft which is owned by a nonresident and registered in another state: PROVIDED, That if said aircraft shall remain in and/or be based in this state for a period of ninety days or longer it shall not be exempt under this section;

MULTISTATE HIGHWAY TRANSPORTATION AGREEMENT

Sections

47.74.010 Multistate Highway Transportation Agreement enacted, terms.

47.74.020 Appointment of delegates to represent state.

47.74.010 Multistate Highway Transportation Agreement enacted, terms. The Multistate Highway Transportation Agreement is hereby enacted into law and entered into with all other jurisdictions legally joining therein as follows:

MULTISTATE HIGHWAY TRANSPORTATION AGREEMENT

Pursuant to and in conformity with the laws of their respective jurisdictions, the participating jurisdictions, acting by and through their officials lawfully authorized to execute this agreement, do mutually agree as follows:

ARTICLE I

Findings and Purposes

SECTION 1. Findings. The participating jurisdictions find that:

(a) The expanding regional economy depends on expanding transportation capacity;

(b) Highway transportation is the major mode for movement of people and goods in the western states;

(c) Uniform application in the West of more adequate vehicle size and weight standards will result in a reduction of pollution, congestion, fuel consumption, and related transportation costs, which are necessary to permit increased productivity;

(d) A number of western states, already having adopted substantially the 1964 Bureau of Public Roads recommended vehicle size and weight standards, still find current federal limits more restrictive;

(e) The 1974 revision of federal law (23 U.S.C. 127) did not contain any substantial improvements for vehicle size and weight standards in the western states and deprives states of interstate matching money if vehicle weights and widths are increased, even though the interstate system is nearly ninety-two percent complete; and

(f) The participating jurisdictions are most capable of developing vehicle size and weight standards most appropriate for the regional economy and transportation requirements, consistent with and in recognition of principles of highway safety.

SECTION 2. Purposes. The purposes of this agreement are to:

(a) Adhere to the principle that each participating jurisdiction should have the freedom to develop vehicle size and weight standards that it determines to be most appropriate to its economy and highway system;

(b) Establish a system authorizing the operation of vehicles traveling between two or more participating jurisdictions at more adequate size and weight standards;

(c) Promote uniformity among participating jurisdictions in vehicle size and weight standards on the basis of the objectives set forth in this agreement;

(d) Secure uniformity insofar as possible, of administrative procedures in the enforcement of recommended vehicle size and weight standards;

(e) Provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in section 1 of this article.

ARTICLE II

Definitions

SECTION 1. As used in this agreement:

(a) "Designated representative" means a legislator or other person authorized to represent the jurisdiction;

(b) "Jurisdiction" means a state of the United States or the District of Columbia;

(c) "Vehicle" means any vehicle as defined by statute to be subject to size and weight standards which operates in two or more participating jurisdictions.

ARTICLE III General Provisions

SECTION 1. Qualifications for Membership. Participation in this agreement is open to jurisdictions which subscribe to the findings, purposes, and objectives of this agreement and will seek legislation necessary to accomplish these objectives.

SECTION 2. Cooperation. The participating jurisdictions, working through their designated representatives, shall cooperate and assist each other in achieving the desired goals of this agreement pursuant to appropriate statutory authority.

SECTION 3. Effect of Headings. Article and section headings contained herein shall not be deemed to govern, limit, modify, or in any manner affect the scope, meaning, or intent of the provisions of any article or section hereof.

SECTION 4. Vehicle Laws and Regulations. This agreement shall not authorize the operation of a vehicle in any participating jurisdiction contrary to the laws or regulations thereof.

SECTION 5. Interpretation. The final decision regarding interpretation of questions at issue relating to this agreement shall be reached by unanimous joint action of the participating jurisdictions, acting through the designated representatives. Results of all such actions shall be placed in writing.

SECTION 6. Amendment. This agreement may be amended by unanimous joint action of the participating jurisdictions, acting through the officials thereof authorized to enter into this agreement, subject to the requirements of section 4, article III. Any amendment shall be placed in writing and become a part hereof.

SECTION 7. Restrictions, Conditions, or Limitations. Any jurisdiction entering this agreement shall provide each other participating jurisdiction with a list of any restriction, condition, or limitation on the general terms of this agreement, if any.

SECTION 8. Additional Jurisdictions. Additional jurisdictions may become members of this agreement by signing and accepting the terms of the agreement.

ARTICLE IV Cooperating Committee

SECTION 1. Pursuant to section 2, article III, the designated representatives of the participating jurisdictions shall constitute a committee which shall have the power to:

(a) Collect, correlate, analyze, and evaluate information resulting or derivable from research and testing activities in relation to vehicle size and weight related matters;

(b) Recommend and encourage the undertaking of research and testing in any aspect of vehicle size and weight or related matter when, in their collective judgment, appropriate or sufficient research or testing has not been undertaken;

(c) Recommend changes in law or policy with emphasis on compatibility of laws and uniformity of administrative rules or regulations which would promote effective gov-

ernmental action or coordination in the field of vehicle size and weight related matters.

SECTION 2. Each participating jurisdiction shall be entitled to one vote only. No action of the committee shall be binding unless a majority of the total number of votes cast by participating jurisdictions are in favor thereof.

SECTION 3. The committee shall meet at least once annually and shall elect, from among its members, a chairman, a vice-chairman, and a secretary.

SECTION 4. The committee shall submit annually to the legislature of each participating jurisdiction, no later than November 1st, a report setting forth the work of the committee during the preceding year and including recommendations developed by the committee. The committee may submit such additional reports as it deems appropriate or desirable. Copies of all such reports shall be made available to the Transportation Committee of the Western Conference, Council of State Governments, and to the Western Association of State Highway and Transportation Officials.

ARTICLE V Objectives of the Participating Jurisdictions

SECTION 1. Objectives. The participating jurisdictions hereby declare that:

(a) It is the objective of the participating jurisdictions to obtain more efficient and more economical transportation by motor vehicles between and among the participating jurisdictions by encouraging the adoption of standards that will, as minimums, allow the operation on all state highways, except those determined through engineering evaluation to be inadequate, with a single-axle weight of 20,000 pounds, a tandem-axle weight of 34,000 pounds, and a gross vehicle or combination weight of that resulting from application of the formula:

$$W = 500 \left(\frac{LN}{N} - 1 \right) + 12N + 36$$

where $W =$ maximum weight in pounds carried on any group of two or computed to nearest 500 pounds.

$L =$ distance in feet between the extremes of any group of two or more consecutive axles.

$N =$ number of axles in group under consideration.

(b) It is the further objective of the participating jurisdictions that in the event the operation of a vehicle or combination of vehicles according to the provisions of subsection (a) of this section would result in withholding or forfeiture of federal-aid funds pursuant to section 127, title 23, U.S. Code, the operation of such vehicle or combination of vehicles at axle and gross weights within the limits set forth in subsection (a) of this section will be authorized under special permit authority by each participating jurisdiction which could legally issue such permits prior to July 1, 1956, provided all regulations and procedures related to such issuance in effect as of July 1, 1956, are adhered to.

(c) The objectives of subsections (a) and (b) of this section relate to vehicles or combinations of vehicles in regular operation, and the authority of any participating jurisdiction to issue special permits for the movement of any vehicle or combinations of vehicles having dimensions and/or weights in excess of the maximum statutory limits in each participating jurisdiction will not be affected.

(d) It is the further objective of the participating jurisdictions to facilitate and expedite the operation of any vehicle or combination of vehicles between and among the participating jurisdictions under the provisions of subsection (a) or (b) of this section, and to that end the participating jurisdictions hereby agree, through their designated representatives, to meet and cooperate in the consideration of vehicle size and weight related matters including, but not limited to, the development of: uniform enforcement procedures; additional vehicle size and weight standards; operational standards; agreements or compacts to facilitate regional application and administration of vehicle size and weight standards; uniform permit procedures; uniform application forms; rules and regulations for the operation of vehicles, including equipment requirements, driver qualifications, and operating practices; and such other matters as may be pertinent.

(e) In recognition of the limited prospects of federal revision of section 127, title 23, U.S. Code, and in order to protect participating jurisdictions against any possibility of withholding or forfeiture of federal-aid highway funds, it is the further objective of the participating jurisdictions to secure congressional approval of this agreement and, specifically of the vehicle size and weight standards set forth in subsection (a) of this section.

(f) In recognition of desire for a degree of national uniformity of size and weight regulations, it is the further objective to encourage development of broad, uniform size and weight standards on a national basis, and further that procedures adopted under this agreement be compatible with national standards.

47.76.200 Legislative findings. The legislature finds that a balanced multimodal transportation system is required to maintain the state's commitment to the growing mobility needs of its citizens and commerce. The state's freight rail system, including branch lines, mainlines, rail corridors, terminals, yards, and equipment, is an important element of this multimodal system. Washington's economy relies

heavily upon the freight rail system to ensure movement of the state's agricultural, chemical, and natural resources and manufactured products to local, national, and international markets and thereby contributes to the economic vitality of the state.

Since 1970, Washington has lost over one-third of its rail miles to abandonment and bankruptcies. The combination of rail abandonments and rail system capacity constraints may alter the delivery to market of many commodities. In addition, the resultant motor vehicle freight traffic increases the burden on state highways and county roads. In many cases, the cost of maintaining and upgrading the state highways and county roads exceeds the cost of maintaining rail freight service. Thus, the economy of the state will be best served by a policy of maintaining and encouraging a healthy rail freight system by creating mechanisms that keep rail freight lines operating if the benefits of the service outweigh the cost.

Recognizing the implications of this trend for freight mobility and the state's economic future, the legislature finds that better freight rail planning, better cooperation to preserve rail lines, and increased financial assistance from the state are necessary to maintain and improve the freight rail system within the state. 47.76.210 State freight rail program. The Washington state department of transportation shall implement a state freight rail program that supports the freight rail service objectives identified in the state's multimodal transportation plan required under chapter 47.06 RCW. The support may be in the form of projects and strategies that support branch lines and light-density lines, provide access to ports, maintain adequate mainline capacity, and preserve or restore rail corridors and infrastructure. [1995 c 380 § 2; 1990 c 43 § 2. Formerly RCW 47.76.110.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.220 State rail plan—Contents. (1) The department of transportation shall prepare and periodically update a state rail plan, the objective of which is to identify, evaluate, and encourage essential rail services. The plan shall:

- (a) Identify and evaluate mainline capacity issues;
- (b) Identify and evaluate port-to-rail access and congestion issues;
- (c) Identify and evaluate those rail freight lines that may be abandoned or have recently been abandoned;
- (d) Quantify the costs and benefits of maintaining rail service on those lines that are likely to be abandoned;
- (e) Establish priorities for determining which rail lines should receive state support. The priorities should include the anticipated benefits to the state and local economy, the anticipated cost of road and highway improvements necessitated by the abandonment or capacity constraints of the rail line, the likelihood the rail line receiving funding can meet operating costs from freight charges, surcharges on rail traffic, and other funds authorized to be raised by a county

or port district, and the impact of abandonment or capacity constraints on changes in energy utilization and air pollution;

- (f) Identify and describe the state's rail system;
- (g) Prepare a state freight rail system map;
- (h) Identify and evaluate rail commodity flows and traffic types;
- (i) Identify lines and corridors that have been rail banked or preserved; and
- (j) Identify and evaluate other issues affecting the state's rail traffic.

(2) The state rail plan may be prepared in conjunction with the rail plan prepared by the department pursuant to the federal Railroad Revitalization and Regulatory Reform Act. [1995 c 380 § 3; 1993 c 224 § 2; 1985 c 432 § 1; 1983 c 303 § 5. Formerly RCW 47.76.020.]

Severability—1983 c 303: See RCW 36.60.905.

47.76.230 Freight rail planning. (1) The department of transportation shall continue its responsibility for the development and implementation of the state rail plan and programs, and the utilities and transportation commission shall continue its responsibility for intrastate rates, service, and safety issues.

(2) The department of transportation shall maintain an enhanced data file on the rail system. Proprietary annual station traffic data from each railroad and the modal use of major shippers shall be obtained to the extent that such information is available.

(3) The department of transportation shall provide technical assistance, upon request, to state agencies and local interests. Technical assistance includes, but is not limited to, the following:

- (a) Rail project cost-benefit analyses conducted in accordance with methodologies recommended by the Federal Railroad Administration;
- (b) Assistance in the formation of county rail districts and port districts; and
- (c) Feasibility studies for rail service continuation and/or rail service assistance.

(4) With funding authorized by the legislature, the department of transportation, in collaboration with the department of community, trade, and economic development, and local economic development agencies, and other interested public and private organizations, shall develop a cooperative process to conduct community and business information programs and to regularly disseminate information on rail matters. [1995 c 380 § 4; 1990 c 43 § 3. Formerly RCW 47.76.120.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.240 Rail preservation program. The state, counties, local communities, ports, railroads, labor, and shippers all benefit from continuation of rail service and should participate in its preservation. Lines that provide benefits to the state and local jurisdictions, such as avoided roadway costs, reduced traffic congestion, economic development potential, environmental protection, and safety, should be assisted through the joint efforts of the state, local jurisdictions, and the private sector.

State funding for rail service, rail preservation, and corridor preservation projects must benefit the state's interests. The state's interest is served by reducing public roadway maintenance and repair costs, increasing economic development opportunities, increasing domestic and international trade, preserving jobs, and enhancing safety. State funding for projects is contingent upon appropriate local jurisdiction and private sector participation and cooperation. Before spending state moneys on projects the department shall seek federal, local, and private funding and participation to the greatest extent possible.

(1) The department of transportation shall continue to monitor the status of the state's mainline and branchline common carrier railroads and preserved rail corridors through the state rail plan and various analyses, and shall seek alternatives to abandonment prior to interstate commerce commission proceedings, where feasible.

(2) The utilities and transportation commission shall intervene in interstate commerce commission proceedings on abandonments, when necessary, to protect the state's interest.

(3) The department of transportation, in consultation with the Washington state freight rail policy advisory committee, shall establish criteria for evaluating rail projects and corridors of significance to the state.

(4) Local jurisdictions may implement rail service preservation projects in the absence of state participation.

(5) The department of transportation shall continue to monitor projects for which it provides assistance. [1995 c 380 § 5; 1993 c 224 § 3; 1990 c 43 § 4. Formerly RCW 47.76.130.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.250 Essential rail assistance account—Purposes. (1) The essential rail assistance account is created in the state treasury. Moneys in the account may be appropriated only for the purposes specified in this section.

(2) Moneys appropriated from the account to the department of transportation may be used by the department or distributed by the department to cities, county rail districts, counties, economic development councils, and port districts for the purpose of:

(a) Acquiring, rebuilding, rehabilitating, or improving rail lines;

(b) Purchasing or rehabilitating railroad equipment necessary to maintain essential rail service;

(c) Constructing railroad improvements to mitigate port access or mainline congestion;

(d) Construction of loading facilities to increase business on light density lines or to mitigate the impacts of abandonment;

(e) Preservation, including operation, of light density lines, as identified by the Washington state department of transportation, in compliance with this chapter; or

(f) Preserving rail corridors for future rail purposes by purchase of rights of way. The department shall first pursue transportation enhancement program funds, available under the federal surface transportation program, to the greatest extent practicable to preserve rail corridors. Purchase of rights of way may include track, bridges, and associated elements, and must meet the following criteria:

(i) The right of way has been identified and evaluated in the state rail plan prepared under this chapter;

(ii) The right of way may be or has been abandoned; and

(iii) The right of way has potential for future rail service.

(3) The department or the participating local jurisdiction is responsible for maintaining any right of way acquired under this chapter, including provisions for drainage management, fire and weed control, and liability associated with ownership.

(4) Nothing in this section impairs the reversionary rights of abutting landowners, if any, without just compensation.

(5) The department, cities, county rail districts, counties, and port districts may grant franchises to private railroads for the right to operate on lines acquired under this chapter.

(6) The department, cities, county rail districts, counties, and port districts may grant trackage rights over rail lines acquired under this chapter.

(7) If rail lines or rail rights of way are used by county rail districts, port districts, state agencies, or other public agencies for the purposes of rail operations and are later abandoned, the rail lines or rail rights of way cannot be used for any other purposes without the consent of the underlying fee title holder or reversionary rights holder, or until compensation has been made to the underlying fee title holder or reversionary rights holder.

(8) The department of transportation shall develop criteria for prioritizing freight rail projects that meet the minimum eligibility requirements for state assistance under RCW 47.76.240. The department shall develop criteria in consultation with the Washington state freight rail policy advisory committee. Project criteria should consider the level of local financial commitment to the project as well as cost/benefit ratio. Counties, local communities, railroads, shippers, and others who benefit from the project should participate financially to the greatest extent practicable.

(9) Moneys received by the department from franchise fees, trackage rights fees, and loan payments shall be redeposited in the essential rail assistance account. Repayment of loans made under this section shall occur within a period not longer than fifteen years, as set by the department. The repayment schedule and rate of interest, if any, shall be determined before the distribution of the moneys.

(10) The state shall maintain a contingent interest in any equipment, property, rail line, or facility that has outstanding grants or loans. The owner may not use the line as collateral, remove track, bridges, or associated elements for salvage, or use it in any other manner subordinating the state's interest without permission from the department.

(11) Moneys distributed under this chapter should be provided as loans wherever practicable. Except as provided by section 3, chapter 73, Laws of 1996, for improvements on or to privately owned railroads, railroad property, or other private property, moneys distributed shall be provided solely as loans. [1996 c 73 § 2; 1995 c 380 § 6; 1993 c 224 § 4; 1991 sp.s. c 13 § 22; 1991 c 363 § 125; 1990 c 43 § 11. Prior: 1985 c 432 § 2; 1985 c 57 § 64; 1983 c 303 § 6. Formerly RCW 47.76.030.]

Finding—Intent—1996 c 73: "The legislature finds that damage to light-density rail lines caused by recent flooding threatens public safety and

the economic survival of several rail lines in the state. Therefore, the legislature intends to make an emergency exception to its policy of providing only loans to privately held rail lines. It is the further intent of the legislature that once the damages caused by the recent flooding have been sufficiently mitigated to restore these rail lines to safe operation, this emergency exception expires." [1996 c 73 § 1.]

Flood-damaged short-line or light-density railroads—Emergency grants: "The department of transportation may, for the period ending December 31, 1996, provide financial grants to short-line or light-density railroads to repair damages and to restore lines disrupted by storms and subsequent floods that occurred in February 1996." [1996 c 73 § 3.]

Effective date—1996 c 73: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 13, 1996]." [1996 c 73 § 4.]

The department may sell or lease property acquired under this chapter to a county rail district established under chapter 36.60 RCW, a county, a port district, or any other public or private entity authorized to operate rail service. Any public or private entity that originally donated funds to the department under this chapter shall receive credit against the purchase price for the amount donated to the department, less management costs, in the event such public or private entity purchases the property from the department.

If no county rail district, county, port district, or other public or private entity authorized to operate rail service purchases or leases the property within six years after its acquisition by the department, the department may sell or lease such property in the manner provided in RCW 47.76.290. Failing this, the department may sell or convey all such property in the manner provided in RCW 47.76.300 or 47.76.320. 47.76.290 Sale or lease for other use—Authorized buyers, notice, terms, deed, deposit of moneys. (1) If real property acquired by the department under this chapter is not sold to a public or private entity authorized to operate rail service within six years of its acquisition by the department, the department may sell or lease the property at fair market value to any of the following governmental entities or persons:

- (a) Any other state agency;
- (b) The city or county in which the property is situated;

(3) Sales to purchasers may, at the department's option, be for cash or by real estate contract.

(4) Conveyances made under this section shall be by deed executed by the secretary of transportation and shall be duly acknowledged.

(5) All moneys received under this section shall be deposited in the essential rail banking account of the general fund. [1993 c 224 § 8; 1991 sp.s. c 15 § 62; 1985 c 432 § 4. Formerly RCW 47.76.050.]

47.76.300 Sale for other use—Governmental entity. If real property acquired by the department under this chapter is not sold to a public or private entity authorized to operate rail service within six years of its acquisition by the department, the department may transfer and convey the property to the United States, its agencies or instrumentalities, to any other state agency, or to any county or city or port district of this state when, in the judgment of the secretary, the transfer and conveyance is consistent with the public interest. Whenever the secretary makes an agreement for any such transfer or conveyance, the secretary shall execute and deliver to the grantee a deed of conveyance, easement, or other instrument, duly acknowledged, as necessary to fulfill the terms of the agreement. All moneys paid to the state of Washington under this section shall be deposited in the essential rail banking account of the general fund. [1993 c 224 § 9; 1991 sp.s. c 15 § 63; 1985 c 432 § 5. 47.76.320 Sale at public auction. (1) If real property acquired by the department under this chapter is not sold, conveyed, or leased to a public or private entity within six years of its acquisition by the department, the department may, in its discretion, sell the property at public auction in accordance with subsections (2) through (5) of this section.

(2) The department shall first give notice of the sale by publication on the same day of the week for two consecutive weeks, with the first publication at least two weeks before the date of the auction, in a legal newspaper of general circulation in the area where the property to be sold is located. The notice shall be placed in both the legal notices section and the real estate classified section of the newspaper. The notice shall contain a description of the property, the time and place of the auction, and the terms of the sale. The sale may be for cash or by real estate contract.

(3) In accordance with the terms set forth in the notice, the department shall sell the property at the public auction to the highest and best bidder if the bid is equal to or higher than the appraised fair market value of the property.

(4) If no bids are received at the auction or if all bids are rejected, the department may, in its discretion, enter into negotiations for the sale of the property or may list the property with a licensed real estate broker. No property may be sold by negotiations or through a broker for less than the property's appraised fair market value. Any offer to purchase real property under this subsection shall be in writing and may be rejected at any time before written acceptance by the department.

(5) Conveyances made under this section shall be by deed executed by the secretary of transportation and shall be duly acknowledged.

(6) All moneys received under this section shall be deposited in the essential rail banking account of the general fund. [1993 c 224 § 11; 1991 sp.s. c 15 § 65; 1985 c 432 § 7. Formerly RCW 47.76.080.]

47.79.010 Legislative declaration. The legislature recognizes that major intercity transportation corridors in this state are becoming increasingly congested. In these corridors, population is expected to grow by nearly forty percent over the next twenty years, while employment will grow by nearly fifty percent. The estimated seventy-five percent increase in intercity travel demand must be accommodated to ensure state economic vitality and protect the state's quality of life.

The legislature finds that high-speed ground transportation offers a safer, more efficient, and environmentally responsible alternative to increasing highway capacity. High-speed ground transportation can complement and enhance existing air transportation systems. High-speed ground transportation can be compatible with growth management plans in counties and cities served by such a system. Further, high-speed ground transportation offers a reliable, all-weather service capable of significant energy savings over other intercity modes. [1993 c 381 § 1.]

47.79.020 Program established—Goals. The legislature finds that there is substantial public benefit to establishing a high-speed ground transportation program in this state. The program shall implement the recommendations of the high-speed ground transportation steering committee report dated October 15, 1992. The program shall be administered by the department of transportation in close cooperation with the utilities and transportation commission and affected cities and counties.

The high-speed ground transportation program shall have the following goals:

(1) Implement high-speed ground transportation service offering top speeds over 150 m.p.h. between Everett and Portland, Oregon by 2020. This would be accomplished by meeting the intermediate objectives of a maximum travel time between downtown Portland and downtown Seattle of two hours and thirty minutes by the year 2000 and maximum travel time of two hours by the year 2010;

(2) Implement high-speed ground transportation service offering top speeds over 150 m.p.h. between Everett and Vancouver, B.C. by 2025;

(3) Implement high-speed ground transportation service offering top speeds over 150 m.p.h. between Seattle and Spokane by 2030.

The department of transportation shall, subject to legislative appropriation, implement such projects as necessary to achieve these goals in accordance with the implementation plans identified in RCW 47.79.030 and 47.79.040. [1993 c 381 § 2.]

47.79.030 Project priority—Funding sources. The legislature finds it important to develop public support and

[Title 47 RCW—page 212]

awareness of the benefits of high-speed ground transportation by developing high-quality intercity passenger rail service as a first step. This high-quality intercity passenger rail service shall be developed through incremental upgrading of the existing service. The department of transportation shall, subject to legislative appropriation, develop a prioritized list of projects to improve existing passenger rail service and begin new passenger rail service, to include but not be limited to:

(1) Improvement of depots;

(2) Improved grade crossing protection or grade crossing elimination;

(3) Enhanced train signals to improve rail corridor capacity and increase train speeds;

(4) Revised track geometry or additional trackage to improve ride quality and increase train speeds; and

(5) Contract for new or improved service in accordance with federal requirements to improve service frequency.

Service enhancements and station improvements must be based on the extent to which local comprehensive plans contribute to the viability of intercity passenger rail service, including providing efficient connections with other transportation modes such as transit, intercity bus, and roadway networks. Before spending state moneys on these projects, the department of transportation shall seek federal, local, and private funding participation to the greatest extent possible. Funding priorities for station improvements must also be based on the level of local and private in-kind and cash contributions. [1993 c 381 § 3.]

47.79.040 Rail passenger plan. The legislature recognizes the need to plan for the high-speed ground transportation service and the high-quality intercity rail passenger service set forth in RCW 47.79.020 and 47.79.030. The department of transportation shall, subject to legislative appropriation, develop a rail passenger plan through the conduct of studies addressing, but not limited to, the following areas:

(1) Refined ridership estimates;

(2) Preliminary location and environmental analysis on new corridors;

(3) Detailed station location assessments in concert with affected local jurisdictions;

(4) Coordination with the air transportation commission on state-wide air transportation policy and its effects on high-speed ground transportation service; and

(5) Coordination with the governments of Oregon and British Columbia, when appropriate, on alignment, station location, and environmental analysis. [1993 c 381 § 4.]

47.79.900 Effective date—1993 c 381. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993. [1993 c 381 § 5.]

47.80.010 Findings—Declaration. The legislature finds that while the transportation system in Washington is owned and operated by numerous public jurisdictions, it should function as one interconnected and coordinated system. Transportation planning, at all jurisdictional levels, should be coordinated with local comprehensive plans. Further, local jurisdictions and the state should cooperate to achieve both state-wide and local transportation goals. To facilitate this coordination and cooperation among state and local jurisdictions, the legislature declares it to be in the state's interest to establish a coordinated planning program for regional transportation systems and facilities throughout the state. [1990 1st ex.s. c 17 § 53.]

47.80.011 Legislative intent. The legislature recognizes that recent legislative enactments have significantly added to the complexity of and to the potential for benefits from integrated transportation and comprehensive planning and that there is currently a unique opportunity for integration of local comprehensive plans and regional goals with state and local transportation programs. Further, approaches to transportation demand management initiatives and local and state transportation funding can be better coordinated to insure an efficient, effective transportation system that insures mobility and accessibility, and addresses community needs.

The legislature further finds that transportation and land use share a critical relationship that policy makers can better utilize to address regional strategies.

Prudent and cost-effective investment by the state and by local governments in highway facilities, local streets and arterials, rail facilities, marine facilities, nonmotorized transportation facilities and systems, public transit systems, transportation system management, transportation demand management, and the development of high capacity transit systems can help to effectively address mobility needs. Such investment can also enhance local and state objectives for effective comprehensive planning, economic development strategies, and clean air policies.

The legislature finds that addressing public initiatives regarding transportation and comprehensive planning necessitates an innovative approach. Improved integration between

transportation and comprehensive planning among public institutions, particularly in the state's largest metropolitan areas is considered by the state to be imperative, and to have significant benefit to the citizens of Washington. [1994 c 158 § 1.]

47.80.020 Regional transportation planning organizations authorized. The legislature hereby authorizes creation of regional transportation planning organizations within the state. Each regional transportation planning organization shall be formed through the voluntary association of local governments within a county, or within geographically contiguous counties. Each organization shall:

- (1) Encompass at least one complete county;
- (2) Have a population of at least one hundred thousand, or contain a minimum of three counties; and
- (3) Have as members all counties within the region, and at least sixty percent of the cities and towns within the region representing a minimum of seventy-five percent of the cities' and towns' population.

The state department of transportation must verify that each regional transportation planning organization conforms with the requirements of this section.

In urbanized areas, the regional transportation planning organization is the same as the metropolitan planning organization designated for federal transportation planning purposes. [1990 1st ex.s. c 17 § 54.]

47.80.023 Organization's duties. Each regional transportation planning organization shall have the following duties:

- (1) Prepare and periodically update a transportation strategy for the region. The strategy shall address alternative transportation modes and transportation demand management measures in regional corridors and shall recommend preferred transportation policies to implement adopted growth strategies. The strategy shall serve as a guide in preparation of the regional transportation plan.

- (2) Prepare a regional transportation plan as set forth in RCW 47.80.030 that is consistent with county-wide planning policies if such have been adopted pursuant to chapter 36.70A RCW, with county, city, and town comprehensive plans, and state transportation plans.

- (3) Certify by December 31, 1996, that the transportation elements of comprehensive plans adopted by counties, cities, and towns within the region reflect the guidelines and principles developed pursuant to RCW 47.80.026, are consistent with the adopted regional transportation plan, and, where appropriate, conform with the requirements of RCW 36.70A.070.

- (4) Where appropriate, certify that county-wide planning policies adopted under RCW 36.70A.210 and the adopted regional transportation plan are consistent.

- (5) Develop, in cooperation with the department of transportation, operators of public transportation services and local governments within the region, a six-year regional transportation improvement program which proposes regionally significant transportation projects and programs and transportation demand management measures. The regional transportation improvement program shall be based on the programs, projects, and transportation demand management

measures of regional significance as identified by transit agencies, cities, and counties pursuant to RCW 35.58.2795, 35.77.010, and 36.81.121, respectively. The program shall include a priority list of projects and programs, project segments and programs, transportation demand management measures, and a specific financial plan that demonstrates how the transportation improvement program can be funded. The program shall be updated at least every two years for the ensuing six-year period.

(6) Designate a lead planning agency to coordinate preparation of the regional transportation plan and carry out the other responsibilities of the organization. The lead planning agency may be a regional organization, a component county, city, or town agency, or the appropriate Washington state department of transportation district office. [1994 c 158 § 2.]

47.80.026 Comprehensive plans, transportation guidelines, and principles. Each regional transportation planning organization, with cooperation from component cities, towns, and counties, shall establish guidelines and principles by July 1, 1995, that provide specific direction for the development and evaluation of the transportation elements of comprehensive plans, where such plans exist, and to assure that state, regional, and local goals for the development of transportation systems are met. These guidelines and principles shall address at a minimum the relationship between transportation systems and the following factors: Concentration of economic activity, residential density, development corridors and urban design that, where appropriate, supports high capacity transit, freight transportation and port access, development patterns that promote pedestrian and nonmotorized transportation, circulation systems, access to regional systems, effective and efficient highway systems, the ability of transportation facilities and programs to retain existing and attract new jobs and private investment and to accommodate growth in demand, transportation demand management, joint and mixed use developments, present and future railroad right-of-way corridor utilization, and intermodal connections.

Examples shall be published by the organization to assist local governments in interpreting and explaining the requirements of this section. [1994 c 158 § 3.]

47.80.030 Regional transportation plan—Contents, review, use. (1) Each regional transportation planning organization shall develop in cooperation with the department of transportation, providers of public transportation and high capacity transportation, ports, and local governments within the region, adopt, and periodically update a regional transportation plan that:

(a) Is based on a least cost planning methodology that identifies the most cost-effective facilities, services, and programs;

(b) Identifies existing or planned transportation facilities, services, and programs, including but not limited to major roadways including state highways and regional arterials, transit and nonmotorized services and facilities, multimodal and intermodal facilities, marine ports and airports, railroads, and noncapital programs including transportation demand management that should function as an integrated regional

transportation system, giving emphasis to those facilities, services, and programs that exhibit one or more of the following characteristics:

(i) Physically crosses member county lines;

(ii) Is or will be used by a significant number of people who live or work outside the county in which the facility, service, or project is located;

(iii) Significant impacts are expected to be felt in more than one county;

(iv) Potentially adverse impacts of the facility, service, program, or project can be better avoided or mitigated through adherence to regional policies; and

(v) Transportation needs addressed by a project have been identified by the regional transportation planning process and the remedy is deemed to have regional significance;

(c) Establishes level of service standards at a minimum for all state highways and state ferry routes. These regionally established level of service standards for state highways and state ferries shall be developed jointly with the department of transportation, to encourage consistency across jurisdictions. In establishing level of service standards for state highways and state ferries, consideration shall be given for the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local commuters using state facilities;

(d) Includes a financial plan demonstrating how the regional transportation plan can be implemented, indicating resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommending any innovative financing techniques to finance needed facilities, services, and programs;

(e) Assesses regional development patterns, capital investment and other measures necessary to:

(i) Ensure the preservation of the existing regional transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit, railroad systems and corridors, and nonmotorized facilities; and

(ii) Make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods;

(f) Sets forth a proposed regional transportation approach, including capital investments, service improvements, programs, and transportation demand management measures to guide the development of the integrated, multimodal regional transportation system; and

(g) Where appropriate, sets forth the relationship of high capacity transportation providers and other public transit providers with regard to responsibility for, and the coordination between, services and facilities.

(2) The organization shall review the regional transportation plan biennially for currency and forward the adopted plan along with documentation of the biennial review to the state department of transportation.

(3) All transportation projects, programs, and transportation demand management measures within the region that have an impact upon regional facilities or services must be consistent with the plan and with the adopted regional

growth and transportation strategies. [1994 c 158 § 4; 1990 1st ex.s. c 17 § 55.]

47.80.040 Transportation policy boards. Each regional transportation planning organization shall create a transportation policy board. Transportation policy boards shall provide policy advice to the regional transportation planning organization and shall allow representatives of major employers within the region, the department of transportation, transit districts, port districts, and member cities, towns, and counties within the region to participate in policy making. [1990 1st ex.s. c 17 § 56.]

47.80.050 Allocation of regional transportation planning funds. Biennial appropriations to the department of transportation to carry out the regional transportation planning program shall set forth the amounts to be allocated as follows:

(1) A base amount per county for each county within each regional transportation planning organization, to be distributed to the lead planning agency;

(2) An amount to be distributed to each lead planning agency on a per capita basis; and

(3) An amount to be administered by the department of transportation as a discretionary grant program for special regional planning projects, including grants to allow counties which have significant transportation interests in common with an adjoining region to also participate in that region's planning efforts. [1990 1st ex.s. c 17 § 57.]

47.80.060 Executive board membership. In order to qualify for state planning funds available to regional transportation planning organizations, the regional transportation planning organizations containing any county with a population in excess of one million shall provide voting membership on its executive board to the state transportation commission, the state department of transportation, and the three largest public port districts within the region as determined by gross operating revenues. It shall further assure that at least fifty percent of the county and city local elected officials who serve on the executive board also serve on transit agency boards or on a regional transit authority. [1992 c 101 § 31.]

Section headings not part of law—Severability—Effective date—1992 c 101: See RCW 81.112.900 through 81.112.902.

47.80.070 State-wide consistency. In order to ensure state-wide consistency in the regional transportation planning process, the state department of transportation, in conformance with chapter 34.05 RCW, shall:

(1) In cooperation with regional transportation planning organizations, establish minimum standards for development of a regional transportation plan;

(2) Facilitate coordination between regional transportation planning organizations; and

(3) Through the regional transportation planning process, and through state planning efforts as required by RCW 47.01.071, identify and jointly plan improvements and strategies within those corridors important to moving people and goods on a regional or state-wide basis. [1994 c 158 § 5.]

47.80.904 Effective date—1994 c 158. This act shall take effect July 1, 1994. [1994 c 158 § 13.]
