RCW 43.132.010 Intent.

It is the intent of this chapter to create a uniform and coordinated procedure to determine the fiscal impact of proposed legislation on units of local government.

[1977 ex.s. c 19 § 1.]

RCW 43.132.020 Fiscal notes--Preparation--Contents--Scope--Revisions--Reports.

The director of financial management or the director's designee shall, in cooperation with appropriate legislative committees and legislative staff, establish a mechanism for the determination of the fiscal impact of proposed legislation which if enacted into law would directly or indirectly increase or decrease revenues received or expenditures incurred by counties, cities, towns, or any other units of local government. The office of financial management shall, when requested by a member of the state legislature, report in writing as to such fiscal impact and said report shall be known as a "fiscal note".

Such fiscal notes shall indicate by fiscal year the total impact on the local governments involved for the first two years the legislation would be in effect and also a cumulative six year forecast of the fiscal impact. Where feasible and applicable, the fiscal note also shall indicate the fiscal impact on each individual county or on a representative sampling of cities, towns, or other units of local government.

A fiscal note as defined in this section shall be provided only upon request of any member of the state legislature. A request for a fiscal note on legislation shall be considered to be a continuing request for a fiscal note on any formal alteration of the legislation in the form of amendments to the legislation that are adopted by a committee or a house of the legislature or a substitute version of such legislation that is adopted by a committee and preparation of the fiscal note on the prior version of the legislation shall stop, unless the legislator requesting the fiscal note specifies otherwise or the altered version is first adopted or enacted in the last week of a legislative session.

Fiscal notes shall be completed within one week of the request unless a longer time period is allowed by the requesting legislator. In the event a fiscal note has not been completed within one week of a request, a daily report shall be prepared for the requesting legislator by the director of financial management which report summarizes the progress in preparing the fiscal note. If the request is referred to the director of community, trade, and economic development, the daily report shall also include the date and time such referral was made.

[2000 c 182 § 2; 1995 c 399 § 79; 1984 c 125 § 16; 1979 c 151 § 149; 1977 ex.s. c 19 § 2.]

Notes:

Intent--2000 c 182: "It is the intent of the legislature to enhance the local government fiscal note process by providing for updated fiscal information on pending legislation and to establish a process for a more comprehensive report on the fiscal impacts to local governments arising from laws that have been enacted. Further, it is the intent of the legislature that the varying effects of legislation on different local governments be recognized. This act is enacted in recognition of the responsibilities imposed by RCW 43.135.060." [2000 c 182 § 1.]

Severability--Headings--Effective date--1984 c 125: See RCW 43.63A.901 through 43.63A.903.

The director of financial management is hereby empowered to designate the director of community, trade, and economic development as the official responsible for the preparation of fiscal notes authorized and required by this chapter. It is the intent of the legislature that when necessary the resources of other state agencies, appropriate legislative staffs, and the various associations of local government may be employed in the development of such fiscal notes.

[1995 c 399 § 80; 1985 c 6 § 10; 1979 c 151 § 150; 1977 ex.s. c 19 § 3.]

RCW 43.132.040 Fiscal notes--Transmission of copies to designated recipients.

When a fiscal note is prepared and approved as to form and completeness by the director of financial management, the director shall transmit copies immediately to:

- (1) The requesting legislator;
- (2) With respect to proposed legislation held by the senate, the chairperson of the committee which holds or has acted upon the proposed legislation, the chairperson of the ways and means committee or equivalent committees with jurisdiction over matters normally considered by a ways and means committee, the chairperson of the local government committee or equivalent committee that considers local government matters, and the secretary of the senate; and

proposed legislation takes its place on the second reading calendar.

Whenever proposed legislation accompanied by such a fiscal note is passed by either the senate or the house of representatives, the fiscal note shall be transmitted with the bill to the other house.

[1979 ex.s. c 112 § 2.]

RCW 43.132.060 Legislative action upon or validity of measures not affected.

(1) Nothing in this chapter shall prevent either house of the legislature from acting on any bill or resolution before it as otherwise provided by the state Constitution, by law, and by the rules of the senate and house of representatives, nor shall the lack of any fiscal note as provided in this chapter or any error in the accuracy thereof affect the validity of any measure otherwise duly passed by the legislature.

(2) Subsection (1) of this section shall not alter the responsibilities of RCW 43.135.060.

[2000 c 182 § 4; 1977 ex.s. c 19 § 6.]

RCW 43.135.010 Findings--Intent.

The people of the state of Washington hereby find and declare:

(1) The continuing increases in our state tax burden and the corresponding growth of state government is contrary to the interest of the people of the state of Washington.

(2) It is necessary to limit the rate of growth of state government while assuring adequate funding of essential services, including basic education as defined by the legislature.

(3) The current budgetary system in the state of Washington lacks stability. The system encourages crisis budgeting and results in cutbacks during lean years and overspending during surplus years.

(4) It is therefore the intent of this chapter to:

(a) Establish a limit on state expenditures that will assure that the growth rate of state expenditures does not exceed the growth rate of inflation and state population;

(b) Assure that local governments are provided funds adequate to render those services deemed essential by their citizens;

(c) Assure that the state does not impose responsibility on local governments for new programs or increased levels of service under existing programs unless the costs thereof are paid by the state;

(d) Provide for adjustment of the limit when costs of a program are transferred between the state and another political entity;

(e) Establish a procedure for exceeding this limit in emergency situations;

(f) Provide for voter approval of tax increases; and

(g) Avoid overfunding and underfunding state programs by providing stability, consistency, and long-range planning.

[1994 c 2 § 1 (Initiative Measure No. 601, approved November 2, 1993); 1980 c 1 § 1 (Initiative Measure No. 62, approved November 6, 1979).]

RCW 43.135.025 General fund expenditure limit--Computation--Annual limit

adjustment--Definitions--Emergency exception--State treasurer duty, penalty--State expenditure limit committee.

(1) The state shall not expend from the general fund during any fiscal year state moneys in excess of the state expenditure limit established under this chapter.

(2) Except pursuant to a declaration of emergency under RCW 43.135.035 or pursuant to an appropriation under RCW 43.135.045(4)(b), the state treasurer shall not issue or redeem any check, warrant, or voucher that will result in a state general fund expenditure for any fiscal year in excess of the state expenditure limit established under this chapter. A violation of this subsection constitutes a violation of RCW 43.88.290 and shall subject the state treasurer to the penalties provided in RCW 43.88.300.

(3) The state expenditure limit for any fiscal year shall be the previous fiscal year's state expenditure limit increased by a percentage rate that equals the fiscal growth factor.

(4) For purposes of computing the state expenditure limit for the fiscal year beginning July 1, 1995, the phrase "the previous fiscal year's state expenditure limit" means the total state expenditures from the state general fund, not including federal funds, for the fiscal year beginning July 1, 1989, plus the fiscal growth factor. This calculation is then computed for the state expenditure limit for fiscal years 1992, 1993, 1994, and 1995, and as required under RCW 43.135.035(4).

(5) A state expenditure limit committee is established for the purpose of determining and adjusting the state expenditure limit as provided in this chapter. The members of the state expenditure limit committee are the director of financial management, the attorney general or the attorney general's designee, and the chairs of the senate committee on ways and means and the house of representatives committee on appropriations. All actions of the state expenditure limit committee taken pursuant to this chapter require an affirmative vote of at least three members.

(6) Each November, the state expenditure limit committee shall adjust the expenditure limit for the preceding fiscal year based on actual expenditures and known changes in the fiscal growth factor and then project an expenditure limit for the next two fiscal years. If, by November 30th, the state expenditure limit committee has not adopted the expenditure limit adjustment and projected expenditure limit as provided in subsection (5) of this section, the attorney general or his or her designee shall adjust or project the expenditure limit, as necessary.

(7) "Fiscal growth factor" means the average of the sum of inflation and population change for each of the prior three fiscal years.

(8) "Inflation" means the percentage change in the implicit price deflator for the United States for each fiscal year as published by the federal bureau of labor statistics.

(9) "Population change" means the percentage change in state population for each fiscal year as reported by the office of financial management.

[2000 2nd sp.s. c 2 § 1; 1994 c 2 § 2 (Initiative Measure No. 601, approved November 2, 1993).]

Notes:

Effective date--2000 2nd sp.s. c 2: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2000." [2000 2nd sp.s. c 2 § 4.]

RCW 43.135.035 Tax legislation--Conditions and restrictions--Ballot title--Declarations of emergency--Taxes on intangible property--Expenditure limit to reflect program cost shifting or fund transfer.

(1) After July 1, 1995, any action or combination of actions by the legislature that raises state revenue or requires revenue-neutral tax shifts may be taken only if approved by a two-thirds vote of each house, and then only if state expenditures in any fiscal year, including the new revenue, will not exceed the state expenditure limits established under this chapter.

(2)(a) If the legislative action under subsection (1) of this section will result in expenditures in excess of the state expenditure limit, then the action of the legislature shall not take effect until approved by a vote of the people at a November general election. The office of financial management shall adjust the state expenditure limit by the amount of additional revenue approved by the voters under this section. This adjustment shall not exceed the amount of revenue generated by the legislative action during the first full fiscal year in which it is in effect. The state expenditure limit shall be adjusted downward upon expiration or repeal of the legislative action.

(b) The ballot title for any vote of the people required under this section shall be substantially as follows:

"Shall taxes be imposed on in order to allow a spending increase above last year's authorized spending adjusted for inflation and population increases?"

(3)(a) The state expenditure limit may be exceeded upon declaration of an emergency for a period not to exceed twenty-four months by a law approved by a two-thirds vote of each house of the legislature and signed by the governor. The law shall set forth the nature of the emergency, which is limited to natural disasters that require immediate government action to alleviate human suffering and provide humanitarian assistance. The state expenditure limit may be exceeded for no more than twenty-four months following the declaration of the emergency and only for the purposes contained in the emergency declaration.

(b) Additional taxes required for an emergency under this section may be imposed only until thirty days following the next general election, unless an extension is approved at that general election. The additional taxes shall expire upon expiration of the declaration of emergency. The legislature shall not impose additional taxes for emergency purposes under this subsection unless funds in the education construction fund have been exhausted.

(c) The state or any political subdivision of the state shall not impose any tax on intangible property listed in RCW 84.36.070 as that statute exists on January 1, 1993.

(4) If the cost of any state program or function is shifted from the state general fund on or after January 1, 1993, to another source of funding, or if moneys are transferred from the state general fund to another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall lower the state expenditure limit to reflect the shift. For the purposes of this section, a transfer of money from the state general fund to another fund or account includes any state legislative action taken after July 1, 2000, that has the effect of reducing

revenues from a particular source, where such revenues would otherwise be deposited into the state general fund, while increasing the revenues from that particular source to another state or local government account.

(5) If the cost of any state program or function is shifted to the state general fund on or after January 1, 2000, from another source of funding, or if moneys are transferred to the state general fund from another fund or account, the state expenditure limit committee, acting pursuant to RCW 43.135.025(5), shall increase the state expenditure limit to reflect the shift.

[2000 2nd sp.s. c 2 § 2; 1994 c 2 § 4 (Initiative Measure No. 601, approved November 2, 1993).]

Notes:

Effective date--2000 2nd sp.s. c 2: See note following RCW 43.135.025.

RCW 43.135.045 Emergency reserve fund--Excess balance to education construction fund--Appropriation conditions--Transfer of earnings to multimodal transportation account.

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer to the education construction fund hereby created in the treasury. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter.

(4)(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency

reserve fund an amount necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated.

Notes:

Reviser's note: This section was amended by 2000 2nd sp.s. c 2 § 3 and by 2000 2nd sp.s. c 5 § 1, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

RCW 43.135.051 Emergency reserve fund--State investment board authority to invest or manage.

(1) The state investment board has the full power to invest, reinvest, manage, contract, sell, or exchange investment moneys in the emergency reserve fund. All investment and operating costs associated with the investment of money shall be paid pursuant to RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the fund.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care pursuant to RCW 43.33A.140 and the investment policies established by the state investment board.

(3) As deemed appropriate by the state investment board, moneys in the fund may be commingled for investment with other funds subject to investment by the board.

Notes:

Effective date--1999 c 288: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 1999." [1999 c 288 § 3.]

RCW 43.135.055 Fee increase restriction--Exception.

(1) No fee may increase in any fiscal year by a percentage in excess of the fiscal growth factor for that fiscal year without prior legislative approval.

(2) This section does not apply to an assessment made by an agricultural commodity commission or board created by state statute or created under a marketing agreement or order under chapter 15.65 or 15.66 RCW if the assessment is approved by referendum in accordance with the provisions of the statutes creating the commission or board or chapter 15.65 or 15.66 RCW for approving such assessments.

[1997 c 303 § 2; 1994 c 2 § 8 (Initiative Measure No. 601, approved November 2, 1993).]

Notes:

Findings--1997 c 303: "The legislature finds that Initiative Measure No. 601, adopted by the people of the state of Washington, limits fee increases by requiring that any increases in fees beyond the levels expressly allowed under the initiative receive the prior approval of the legislature. The legislature finds that a more direct system of allowing the people to control fee increases predates Initiative Measure No. 601. This system developed in agricultural communities and provides these communities with direct control of the fees of the agricultural commodity commissions they created to serve them. The system requires those who pay the assessments levied by commodity commissions and boards to approve of assessment increases by referendum. It is at the heart of the statutes and marketing orders and agreements under which agricultural commodity commissions and boards are created. The legislature does not believe that the adoption of Initiative Measure No. 601 was intended to dilute in any manner this more direct control held by the people governed by commodity commissions or boards over the fees they pay in the form of such assessments. Therefore, the legislature defers to this more direct control of these assessments so long as the authority to approve or disapprove of increases in these assessments is by referendum held directly by those who pay them." [1997 c 303 § 1.]

Effective date--1997 c 303 §§ 1-3: "Sections 1 through 3 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [May 9, 1997]." [1997 c 303 § 9.]

RCW 43.135.060 Prohibition of new or extended programs without full reimbursement--Transfer of programs--Determination of costs.

(1) After July 1, 1995, the legislature shall not impose responsibility for new programs or increased levels of service under existing programs on any political subdivision of the state unless the subdivision is fully reimbursed by the state for the costs of the new programs or increases in service levels. Reimbursement by the state may be made by: (a) A specific appropriation; or (b) increases in state distributions of revenue to political subdivisions occurring after January 1, 1998.

(2) If by order of any court, or legislative enactment, the costs of a federal or local government program are transferred to or from the state, the otherwise applicable state expenditure limit shall be increased or decreased, as the case may be, by the dollar amount of the costs of the program.

(3) The legislature, in consultation with the office of financial management or its successor agency, shall determine the costs of any new programs or increased levels of service under existing programs imposed on any political subdivision or transferred to or from the state.

(4) Subsection (1) of this section does not apply to the costs incurred for voting devices or machines under RCW 29.04.200.

RCW 43.136.010 Legislative findings--Intent.

The legislature recognizes that tax preferences are enacted by the legislature to meet objectives which are determined to be in the public interest. The legislature finds, however, that some tax preferences may not be efficient or equitable tools for the achievement of current

legislative objectives. The legislature finds that unless it can be demonstrated that the public interest is served by the continued existence of tax preferences, they should be terminated or modified. The legislature further finds that periodic evaluations of tax preferences are needed to determine if their continued existence is in the public interest.

It is the intent of the legislature to establish a mechanism for scheduling periodic evaluations of tax preferences together with a system for their termination, continuation, or modification. By this mechanism, the legislature intends to ensure that thorough periodic evaluations are made and that those tax preferences which do not continue to serve the public interest are terminated or modified.

The *legislative budget committee shall consider, but not be limited to, the following factors in the review.

(1) The persons or organizations whose state tax liabilities are directly affected by the tax preference.

(2) Legislative objectives that might provide a justification for the tax preference.

(3) Evidence that the existence of the tax preference has contributed to the achievement of any of the objectives identified in subsection (2) of this section.

(4) The extent to which continuation of the tax preference beyond its scheduled termination date might contribute to any of the objectives identified in subsection (2) of this section.

(5) Fiscal impacts of the tax preference, including past impacts and expected future impacts if it is not terminated as scheduled.

(6) The extent to which termination of the tax preference would affect the distribution of liability for payment of state taxes.

The committees shall also receive testimony from the governor, or the governor's designee, and other interested parties, including the general public.

(2) Following the joint hearing, the committees may separately hold additional meetings or hearings to come to a final determination as to whether a continuation, modification, or termination of a tax preference is in the public interest. If a committee determines that a tax preference should be continued or modified, it shall make the determination as a bill. No more

Oil or gas exploration in marine waters: RCW 90.58.550.

Transport of petroleum products or hazardous substances: Chapter 88.40 RCW.

RCW 43.143.005 Legislative findings.

(1) Washington's coastal waters, seabed, and shorelines are among the most valuable and fragile of its natural resources.

(2) Ocean and marine-based industries and activities, such as fishing, aquaculture, tourism, and marine transportation have played a major role in the history of the state and will continue to be important in the future.

(3) Washington's coastal waters, seabed, and shorelines are faced with conflicting use demands. Some uses may pose unacceptable environmental or social risks at certain times.

(4) The state of Washington has primary jurisdiction over the management of coastal and ocean natural resources within three miles of its coastline. From three miles seaward to the boundary of the two hundred mile exclusive economic zone, the United States federal government has primary jurisdiction. Since protection, conservation, and development of the natural resources in the exclusive economic zone directly affect Washington's economy and environment, the state has an inherent interest in how these resources are managed.

[1997 c 152 § 1; 1989 1st ex.s. c 2 § 8.]

RCW 43.143.010 Legislative policy and intent--Moratorium on leases for oil and gas exploration, development, or production--Appeals from regulation of recreational uses--Participation in federal ocean and marine resource decisions.

(1) The purpose of this chapter is to articulate policies and establish guidelines for the exercise of state and local management authority over Washington's coastal waters, seabed, and shorelines.

(2) There shall be no leasing of Washington's tidal or submerged lands extending from mean high tide seaward three miles along the Washington coast from Cape Flattery south to Cape Disappointment, nor in Grays Harbor, Willapa Bay, and the Columbia river downstream from the Longview bridge, for purposes of oil or gas exploration, development, or production.

(3) When conflicts arise among uses and activities, priority shall be given to resource uses and activities that will not adversely impact renewable resources over uses which are likely to have an adverse impact on renewable resources.

(4) It is the policy of the state of Washington to actively encourage the conservation of liquid fossil fuels, and to explore available methods of encouraging such conservation.

(5) It is not currently the intent of the legislature to include recreational uses or currently existing commercial uses involving fishing or other renewable marine or ocean resources within the uses and activities which must meet the planning and review criteria set forth in RCW 43.143.030. It is not the intent of the legislature, however, to permanently exclude these uses from the requirements of RCW 43.143.030. If information becomes available which indicates that such uses should reasonably be covered by the requirements of RCW 43.143.030, the permitting government or agency may require compliance with those requirements, and appeals of that decision shall be handled through the established appeals procedure for that permit or approval.

(6) The state shall participate in federal ocean and marine resource decisions to the fullest extent possible to ensure that the decisions are consistent with the state's policy concerning the use of those resources.

RCW 43.143.030 Planning and project review criteria.

(1) When the state of Washington and local governments develop plans for the management, conservation, use, or development of natural resources in Washington's coastal waters, the policies in RCW 43.143.010 shall guide the decision-making process.

(2) Uses or activities that require federal, state, or local government permits or other approvals and that will adversely impact renewable resources, marine life, fishing, aquaculture, recreation, navigation, air or water quality, or other existing ocean or coastal uses, may be permitted only if the criteria below are met or exceeded:

- (a) There is a demonstrated significant local, state, or national need for the proposed use or activity;
- (b) There is no reasonable alternative to meet the public need for the proposed use or activity;
- (c) There will be no likely long-term significant adverse impacts to coastal or marine resources or uses;
- (d) All reasonable steps are taken to avoid and minimize adverse environmental impacts, with special protection provided for the marine life and resources of the Columbia river, Willapa Bay and Grays Harbor estuaries, and Olympic national park;
- (e) All reasonable steps are taken to avoid and minimize adverse social and economic impacts, including impacts on aquaculture, recreation, tourism, navigation, air quality, and recreational, commercial, and tribal fishing;
- (f) Compensation is provided to mitigate adverse impacts to coastal resources or uses;
- (g) Plans and sufficient performance bonding are provided to ensure that the site will be rehabilitated after the use or activity is completed; and
- (h) The use or activity complies with all applicable local, state, and federal laws and regulations.

Sections

Notes:

Radioactive Waste Storage and Transportation Act of 1980: Chapter 70.99 RCW.

RCW 43.145.010 Compact.

The Northwest Interstate Compact on Low-Level Radioactive Waste Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the compact in accordance with the terms of the compact.

NORTHWEST INTERSTATE COMPACT ON LOW-LEVEL RADIOACTIVE WASTE MANAGEMENT

ARTICLE I--Policy and Purpose

The party states recognize that low-level radioactive wastes are generated by essential activities and services that benefit the citizens of the states. It is further recognized that the protection of the health and safety of the citizens of the party states and the most economical management of low-level radioactive wastes can be accomplished through cooperation of the states in minimizing the amount of handling and transportation required to dispose of such wastes and through the cooperation of the states in providing facilities that serve the region. It is the policy of the party states to undertake the necessary cooperation to protect the health and safety of the citizens of the party states and to provide for the most economical management of low-level radioactive wastes on a continuing basis. It is the purpose of this compact to provide the means for such a cooperative effort among the party states so that the protection of the citizens of the states and the maintenance of the viability of the states' economies will be enhanced while sharing the responsibilities of radioactive low-level waste management.

ARTICLE II--Definitions

As used in this compact:

- (1) "Facility" means any site, location, structure, or property used or to be used for the storage, treatment, or disposal of low-level waste, excluding federal waste facilities;
- (2) "Low-level waste" means waste material which contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities which exceed

applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than ten nanocuries of transuranic contaminants per gram of material, nor spent reactor fuel, nor material classified as either high-level waste or waste which is unsuited for disposal by near-surface burial under any applicable federal regulations;

(3) "Generator" means any person, partnership, association, corporation, or any other entity whatsoever which, as a part of its activities, produces low-level radioactive waste;

(4) "Host state" means a state in which a facility is located.

ARTICLE III--Regulatory Practices

Each party state hereby agrees to adopt practices which will require low-level waste shipments originating within its borders and destined for a facility within another party state to conform to the applicable packaging and transportation requirements and regulations of the host state. Such practices shall include:

(1) Maintaining an inventory of all generators within the state that have shipped or expect to ship low-level waste to facilities in another party state;

(2) Periodic unannounced inspection of the premises of such generators and the waste management activities thereon;

(3) Authorization of the containers in which such waste may be shipped, and a requirement that generators use only that type of container authorized by the state;

(4) Assurance that inspections of the carriers which transport such waste are conducted by proper authorities, and appropriate enforcement action taken for violations;

(5) After receiving notification from a host state that a generator within the party state is in violation of applicable packaging or transportation standards, the party state will take appropriate action to assure that such violations do not recur. Such action may include inspection of every individual low-level waste shipment by that generator.

Each party state may impose fees upon generators and shippers to recover the cost of the inspections and other practices under this Article. Nothing in this Article shall be construed to limit any party state's authority to impose additional or more stringent standards on generators or carriers than those required under this Article.

ARTICLE IV--Regional Facilities

Section 1. Facilities located in any party state, other than facilities established or maintained by individual low-level waste generators for the management of their own low-level waste, shall accept low-level waste generated in any party state if such waste has been packaged and transported according to applicable laws and regulations.

Section 2. No facility located in any party state may accept low-level waste generated outside of the region comprised of the party states, except as provided in Article V.

Section 3. Until such time as Section 2 takes effect as provided in Article VI, facilities located in any party state may accept low-level waste generated outside of any of the party states

only if such waste is accompanied by a certificate of compliance issued by an official of the state in which such waste shipment originated. Such certificate shall be in such form as may be required by the host state, and shall contain at least the following:

- (1) The generator's name and address;
- (2) A description of the contents of the low-level waste container;
- (3) A statement that the low-level waste being shipped has been inspected by the official who issued the certificate or by his agent or by a representative of the United States Nuclear Regulatory Commission, and found to have been packaged in compliance with applicable federal regulations and such additional requirements as may be imposed by the host state;
- (4) A binding agreement by the state of origin to reimburse any party state for any liability or expense incurred as a result of an accidental release of such waste during shipment or after such waste reaches the facility.

Section 4. Each party state shall cooperate with the other party states in determining the appropriate site of any facility that might be required within the region comprised of the party states, in order to maximize public health and safety while minimizing the use of any one party state as the host of such facilities on a permanent basis. Each party state further agrees that decisions regarding low-level waste management facilities in their region will be reached through a good faith process which takes into account the burdens borne by each of the party states as well as the benefits each has received.

Section 5. The party states recognize that the issue of hazardous chemical waste management is similar in many respects to that of low-level waste management. Therefore, in consideration of the state of Washington allowing access to its low-level waste disposal facility by generators in other party states, party states such as Oregon and Idaho which host hazardous chemical waste disposal facilities will allow access to such facilities by generators within other party states. Nothing in this compact may be construed to prevent any party state from limiting the nature and type of hazardous chemical or low-level wastes to be accepted at facilities within its borders or from ordering the closure or [of] such facilities, so long as such action by a host state is applied equally to all generators within the region composed of the party states.

Section 6. Any host state may establish a schedule of fees and requirements related to its facility, to assure that closure, perpetual care, and maintenance and contingency requirements are met, including adequate bonding.

ARTICLE V--Northwest Low-level Waste Compact Committee

The governor of each party state shall designate one official of that state as the person responsible for administration of this compact. The officials so designated shall together comprise the Northwest low-level waste compact committee. The committee shall meet as required to consider matters arising under this compact. The parties shall inform the committee of existing regulations concerning low-level waste management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in

such regulations. Notwithstanding any provision of Article IV to the contrary, the committee may enter into arrangements with states, provinces, individual generators, or regional compact entities outside the region comprised of the party states for access to facilities on such terms and conditions as the committee may deem appropriate. However, it shall require a two-thirds vote of all such members, including the affirmative vote of the member of any party state in which a facility affected by such arrangement is located, for the committee to enter into such arrangement.

ARTICLE VI--Eligible Parties and Effective Date

Section 1. Each of the following states is eligible to become a party to this compact: Alaska, Hawaii, Idaho, Montana, Oregon, Utah, Washington, and Wyoming. As to any eligible party, this compact shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this compact by enacting a statute repealing its approval.

Section 2. After the compact has initially taken effect pursuant to Section 1, any eligible party state may become a party to this compact by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1983, whichever occurs first, unless the compact has by then been enacted as a statute by that state.

Section 3. Section 2 of Article IV of this compact shall take effect on July 1, 1983, if consent is given by Congress. As provided in Public Law 96-573, Congress may withdraw its consent to the compact after every five-year period.

ARTICLE VII--Severability

If any provision of this compact, or its application to any person or circumstance, is held to be invalid, all other provisions of this compact, and the application of all of its provisions to all other persons and circumstances, shall remain valid; and to this end the provisions of this compact are severable.

[1981 c 124 § 1.]

RCW 43.145.020 Requirements of Washington representative to Northwest low-level waste compact committee.

The person designated as the Washington representative to the committee as specified in Article V shall adhere to all provisions of the low-level radioactive waste compact. In considering special conditions or arrangements for access to the state's facilities from wastes generated outside of the region, the committee member shall ensure at a minimum, that the provisions of Article IV, Section 3 are complied with. After 1992 the Washington representative may approve access to the state's facility only for the states currently members of the Rocky

Mountain compact or states which generate less than one thousand cubic feet of waste annually and are contiguous with a state which is a member of the Northwest compact.

PACIFIC STATES AGREEMENT ON RADIOACTIVE MATERIAL
TRANSPORTATION MANAGEMENT**

43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management.
43.146.900 Legislative directive--State designee.

RCW 43.146.010 Pacific States Agreement on Radioactive Materials Transportation Management.

The Pacific States Agreement on Radioactive Materials Transportation Management is hereby enacted into law and entered into by the state of Washington as a party, and is in full force and effect between the state and other states joining the agreement in accordance with its terms.

**PACIFIC STATES AGREEMENT ON
RADIOACTIVE MATERIALS
TRANSPORTATION MANAGEMENT**

ARTICLE I--Policy and Purpose

The party states recognize that protection of the health and safety of citizens and the environment, and the most economical transportation of radioactive materials, can be accomplished through cooperation and coordination among neighboring states. It is the purpose of this agreement to establish a committee comprised of representatives from each party state to further cooperation between the states on emergency response and to coordinate activities by the states to eliminate unnecessary duplication of rules and regulations regarding the transportation and handling of radioactive material.

The party states intend that this agreement facilitate both interstate commerce and protection of public health and the environment. To accomplish this goal, the party states direct the committee to develop model regulatory standards for party states to act upon and direct the committee to coordinate decisions by party states relating to the routing and inspection of

shipments of radioactive material.

ARTICLE II--Definitions

As used in this agreement:

- (1) "Carrier" includes common, private, and contract carriers.
- (2) "Hazardous material" means a substance or material which has been determined by the United States department of transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated.
- (3) "Radioactive material" has the meaning given that term in federal department of transportation regulations found in 49 C.F.R. Sec. 173, and includes, but is not limited to, high-level radioactive waste, low-level radioactive waste, and spent nuclear fuel, as defined in section 2 of the nuclear waste policy act of 1982 (96 Stat. 2202; 42 U.S.C.A. Sec. 10101).
- (4) "Transportation" means the transport by any means of radioactive material destined for or derived from any location, and any loading, unloading, or storage incident to such transport. "Transportation" does not include permanent storage or disposal of the material.

ARTICLE III--Regulatory Practices

Section 1. The party states agree to develop model standards, not in conflict with federal law or regulations, for carriers of radioactive material to provide information regarding:

- (1) The amount and kind of material transported;
- (2) The mode of transportation and, to the extent feasible, the route or routes and the time schedule;
- (3) The carrier's compliance with local, state, and federal rules and regulations related to radioactive material transportation;
- (4) The carrier's compliance with federal and state liability insurance requirements.

Section 2. Consistent with federal law or regulations pertaining to transportation of radioactive material, the party states also agree to:

- (1) Develop model uniform procedures for issuing permits to carriers;
- (2) Develop model uniform record-keeping processes that allow access on demand by each state;
- (3) Develop model uniform safety standards for carriers;
- (4) Coordinate routing of shipments of radioactive materials;
- (5) Develop a method for coordinating the party states' emergency response plans to provide for regional emergency response including (a) systems for sharing information essential to radiation control efforts, (b) systems for sharing emergency response personnel, and (c) a method to allocate costs and clarify liability when a party state or its officers request or render emergency response;
- (6) Recommend parking requirements for motor vehicles transporting radioactive materials;

- (7) Coordinate state inspections of carriers; and
- (8) Develop other cooperative arrangements and agreements to enhance safety.

Section 3. The party states also agree to coordinate emergency response training and preparedness drills among the party states, Indian tribes, and affected political subdivisions of the party states, and, if possible, with federal agencies.

Section 4. The party states recognize that the transportation management of hazardous waste and hazardous materials is similar in many respects to that of radioactive materials. The party states, therefore, agree to confer as to transportation management and emergency response for those items where similarities in management exist.

ARTICLE IV--Pacific States Radioactive Materials Transportation Committee

Section 1. Each party state shall designate one official of that state to confer with appropriate legislative committees and with other officials of that state responsible for managing transportation of radioactive material and with affected Indian tribes and be responsible for administration of this agreement. The officials so designated shall together comprise the Pacific states radioactive materials transportation committee. The committee shall meet as required to consider and, where necessary, coordinate matters addressed in this agreement. The parties shall inform the committee of existing regulations concerning radioactive materials transportation management in their states, and shall afford all parties a reasonable opportunity to review and comment upon any proposed modifications in such regulations.

Section 2. The committee may also engage in long-term planning to assure safe and economical management of radioactive material transportation on a continuing basis.

Section 3. To the extent practicable, the committee shall coordinate its activities with those of other organizations.

ARTICLE V--Eligible Parties and Effective Date

Section 1. The states of Arizona, California, Colorado, Idaho, Montana, New Mexico, Nevada, Oregon, Utah, Washington, and Wyoming are eligible to become a party to this agreement. As to any eligible party, this agreement shall become effective upon enactment into law by that party, but it shall not become initially effective until enacted into law by two states. Any party state may withdraw from this agreement by enacting a statute repealing its approval.

Section 2. After the agreement has initially taken effect under section 1 of this article, any eligible party state may become a party to this agreement by the execution of an executive order by the governor of the state. Any state which becomes a party in this manner shall cease to be a party upon the final adjournment of the next general or regular session of its legislature or July 1, 1988, whichever occurs first, unless the agreement has by then been enacted as a statute by that state.

ARTICLE VI--Severability

THE PACIFIC NORTHWEST ECONOMIC REGION

ARTICLE I—Policy and Purpose

States and provinces participating in the Pacific Northwest Economic Region shall seek to develop and establish policies that: Promote greater regional collaboration among the seven entities; enhance the overall competitiveness of the region in international and domestic markets; increase the economic well-being of all citizens in the region; and improve the quality of life of

the citizens of the Pacific Northwest.

States and provinces recognize that there are many public policy areas in which cooperation and joint efforts would be mutually beneficial. These areas include, but are not limited to: International trade; economic development; human resources; the environment and natural resources; energy; and education. Parties to this agreement shall work diligently to establish collaborative activity in these and other appropriate policy areas where such cooperation is deemed worthwhile and of benefit to the participating entities. Participating states and provinces also agree that there are areas in which cooperation may not be feasible.

The substantive actions of the Pacific Northwest Economic Region may take the form of uniform legislation enacted by two or more states and/or provinces or policy initiatives endorsed as appropriate by participating entities. It shall not be necessary for all states and provinces to participate in each initiative.

ARTICLE II—Eligible Parties and Effective Date

Each of the following states and provinces is eligible to become a party to this agreement: Alaska, Alberta, British Columbia, Idaho, Montana, Oregon, and Washington. This agreement establishing the Pacific Northwest Economic Region shall become effective when it is executed by one state, one province, and one additional state and/or province in a form deemed appropriate by each entity. This agreement shall continue in force and remain binding upon each state and province until renounced by it. Renunciation of this agreement must be preceded by sending one year's notice in writing of intention to withdraw from the agreement to the other parties to the agreement.

The legislator members of the executive committee from each state or province shall be chosen by the legislator members of that state or province. The four governor or premier members of the executive committee shall be chosen by the governors and premiers from among the governors and premiers on the delegate council. At least one of four members representing the governors and premiers on the executive committee must be the premier of a Canadian province. Policy committees may be established to carry out further duties and responsibilities of the Pacific Northwest Economic Region.

ARTICLE IV—Duties and Responsibilities

The delegate council shall have the following duties and responsibilities: Facilitate the involvement of other government officials in the development and implementation of specific collaborative initiatives; work with policy-making committees in the development and implementation of specific initiatives; approve general organizational policies developed by the executive committee; provide final approval of the annual budget and staffing structure for the Pacific Northwest Economic Region developed by the executive committee; and other duties and responsibilities as may be established in the rules and regulations of the Pacific Northwest Economic Region. The executive committee shall perform the following duties and responsibilities: Elect the president and vice-president of the Pacific Northwest Economic Region; approve and implement general organizational policies; develop the annual budget; devise the annual action plan; act as liaison with other public and private sector entities; review the availability of, and if appropriate apply for, (1) tax exempt status under the laws and regulations of the United States or any state or subdivision thereof and (2) similar status under the laws and regulations of Canada or any province or subdivision thereof, and approve such rules, regulations, organizational policies, and staffing structure for the Pacific Northwest Economic Region and take such further actions on behalf of the Pacific Northwest Economic Region as may be deemed by the executive committee to be necessary or appropriate to qualify for and maintain such tax exempt or similar status under the applicable laws or regulations; and other duties and responsibilities established in the rules and regulations of the Pacific Northwest Economic Region. The rules and regulations of the Pacific Northwest Economic Region shall establish the procedure for voting.

ARTICLE V—Membership of Policy Committees

[1993 c 108 § 1; 1991 c 251 § 2.]

RCW 43.147.020 Finding.

The legislature finds that there is a new emerging global economy in which countries and

regions located in specific areas of the world are forging new cooperative arrangements.

The legislature finds that these new cooperative arrangements are increasing the competitiveness of the participating countries and regions, thus increasing the economic benefits and the overall quality of life for the citizens of the individual countries and regions.

The legislature also finds that the Pacific Northwest states of Alaska, Idaho, Montana, Oregon, and Washington and the Canadian provinces of Alberta and British Columbia are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the individual states and provinces that will provide substantial economic benefits for all of their citizens.

[1991 c 251 § 1.]

RCW 43.147.030 Cooperative activities encouraged.

It is the intent of chapter 251, Laws of 1991 to direct and encourage the establishment of cooperative activities between the seven legislative bodies of the region. The state representatives to the Pacific Northwest Economic Region shall work through appropriate channels to advance consideration of proposals developed by this body.

[1991 c 251 § 3.]

RCW 43.147.040 Interlibrary sharing--Finding.

In chapter 251, Laws of 1991, the legislature enacted into law the Pacific Northwest economic region agreement and made the state of Washington a party along with member states Alaska, Idaho, Montana, and Oregon, and member Canadian provinces Alberta and British Columbia. The legislature recognized that the member states and provinces of the Pacific Northwest economic region are in a strategic position to act together, as a region, thus increasing the overall competitiveness of the members and providing substantial economic benefits for all of their citizens.

For those reasons, in chapter 251, Laws of 1991, the legislature also encouraged the establishment of cooperative activities between the seven legislative bodies of the Pacific Northwest economic region. The member states and provinces now desire to engage in such cooperation by electronically sharing twenty-two million volumes from certain of their respective universities. The member states and provinces have determined that such interlibrary sharing will provide substantial economic benefit for their citizens. The legislature agrees, specifically also finding that such interlibrary sharing furthers a major component of education strategy in the 1990's and twenty-first century, namely providing increased access to knowledge via technology.

[1993 c 485 § 1.]

RCW 43.150.010 Legislative findings.

- (1) The legislature finds that:
 - (a) Large numbers of Washington's citizens are actively engaged in carrying forward the ethic of service and voluntary activities that benefit their citizens, their communities, and the entire state;
 - (b) This contribution continues to provide the equivalent of hundreds of millions of dollars in services that might otherwise create a need for additional tax collections;
 - (c) Many Washington citizens have yet to become fully involved in the life of their communities; many societal needs exist that could and should be met by new citizen service initiatives;
 - (d) The state of Washington needs to continue to encourage and expand the ethic of civic

responsibility among its citizenry, through individuals working on their own, and through local and state-wide organizations, both governmental and private and nonprofit agencies;

(e) This ethic of citizen service benefits those who serve and those who receive services; in both cases there is the betterment of all Washington communities;

(f) Public and private agencies depend in large measure on the efforts of volunteers for the accomplishment of their missions and actively seek to increase these efforts;

(g) State agencies can and should extend their service delivery programs through the increased use of and support for volunteers;

(h) The national and community service act of 1990 provides an opportunity for Washington to support citizen service and volunteer activities in Washington;

(i) Business, industry, communities, schools, and labor in Washington state are increasingly interested in opportunities for community service and in developing the volunteer and service ethic;

(j) While providing both tangible and intangible benefits, volunteers in turn need respect and support for their efforts;

(k) The state itself, through the programs and services of its agencies as well as through the provisions of law and rule making, can and should provide a primary role and focus for encouraging the ethic of citizen service and support for volunteer efforts and programs;

(l) Planned and coordinated recognition, information, training, and technical assistance for volunteer and citizen service efforts through a state-wide center for voluntary action have been proven to be effective means of multiplying the resources volunteers bring to the needs of their communities; and

(m) It is important that Washington state position itself to raise volunteerism to the highest attainable levels, and along with the private sector, become a voice in the role citizen service will take in providing solutions to societal needs.

(2) Therefore, the legislature, in recognition of these findings, enacts the center for volunteerism and citizen service act to ensure that the state of Washington actively promotes the ethic of service and makes every appropriate effort to encourage effective involvement of individuals in their communities and of volunteers who supplement the services of private, nonprofit community agencies and organizations, agencies of local government throughout the state, and the state government.

RCW 43.155.010 Legislative findings and policy.

The legislature finds that there exists in the state of Washington over four billion dollars worth of critical projects for the planning, acquisition, construction, repair, replacement, rehabilitation, or improvement of streets and roads, bridges, water systems, and storm and sanitary sewage systems. The December, 1983 Washington state public works report prepared by the planning and community affairs agency documented that local governments expect to be capable of financing over two billion dollars worth of the costs of those critical projects but will not be able to fund nearly half of the documented needs.

The legislature further finds that Washington's local governments have unmet financial needs for solid waste disposal, including recycling, and encourages the board to make an equitable geographic distribution of the funds.

It is the policy of the state of Washington to encourage self-reliance by local governments in meeting their public works needs and to assist in the financing of critical public works projects by making loans, financing guarantees, and technical assistance available to local governments for these projects.

RCW 43.155.065 Emergency public works projects.

The board may make low-interest or interest-free loans to local governments for emergency public works projects. Emergency public works projects shall include the construction, repair, reconstruction, replacement, rehabilitation, or improvement of a public water system that is in violation of health and safety standards and is being operated by a local government on a temporary basis. The loans may be used to help fund all or part of an emergency public works project less any reimbursement from any of the following sources: (1) Federal disaster or emergency funds, including funds from the federal emergency management agency; (2) state disaster or emergency funds; (3) insurance settlements; or (4) litigation. Emergency loans may be made only from those funds specifically appropriated from the public works assistance account for such purpose by the legislature. The amount appropriated from the public works assistance account for emergency loan purposes shall not exceed five percent of the total amount appropriated from this account in any biennium.

RCW 43.155.068 Loans for preconstruction activities.

(1) The board may make low-interest or interest-free loans to local governments for preconstruction activities on public works projects before the legislature approves the construction phase of the project. Preconstruction activities include design, engineering, bid-document preparation, environmental studies, right of way acquisition, and other preliminary phases of public works projects as determined by the board. The purpose of the loans authorized in this section is to accelerate the completion of public works projects by allowing preconstruction activities to be performed before the approval of the construction phase of the project by the legislature.

(2) Projects receiving loans for preconstruction activities under this section must be evaluated using the priority process and factors in *RCW 43.155.070(2). The receipt of a loan for preconstruction activities does not ensure the receipt of a construction loan for the project under this chapter. Construction loans for projects receiving a loan for preconstruction activities under

this section are subject to legislative approval under *RCW 43.155.070 (4) and (5). The board shall adopt a single application process for local governments seeking both a loan for preconstruction activities under this section and a construction loan for the project.

(3) Preconstruction activity loans under this section may be made only from those funds specifically appropriated from the public works assistance account for such a purpose by the legislature.

Notes:

***Reviser's note:** RCW 43.155.070 was amended by 1999 c 164 § 602, changing subsections (2), (4), and (5) to subsections (4), (6), and (7), respectively.

Finding--Purpose--1995 c 363: "The legislature finds that there continues to exist a great need for capital projects to plan, acquire, design, construct, and repair local government streets, roads, bridges, water systems, and storm and sanitary sewage systems. It is the purpose of this act to accelerate the construction of these projects under the public works assistance program." [1995 c 363 § 1.]

RCW 43.155.070 Eligibility, priority, limitations, and exceptions.

(1) To qualify for loans or pledges under this chapter the board must determine that a local government meets all of the following conditions:

(a) The city or county must be imposing a tax under chapter 82.46 RCW at a rate of at least one-quarter of one percent;

(b) The local government must have developed a long-term plan for financing public works needs; and

(c) The local government must be using all local revenue sources which are reasonably available for funding public works, taking into consideration local employment and economic factors.

(2) Except where necessary to address a public health need or substantial environmental degradation, a county, city, or town planning under RCW 36.70A.040 must have adopted a comprehensive plan, including a capital facilities plan element, and development regulations as required by RCW 36.70A.040. This subsection does not require any county, city, or town planning under RCW 36.70A.040 to adopt a comprehensive plan or development regulations before requesting or receiving a loan or loan guarantee under this chapter if such request is made before the expiration of the time periods specified in RCW 36.70A.040. A county, city, or town planning under RCW 36.70A.040 which has not adopted a comprehensive plan and development regulations within the time periods specified in RCW 36.70A.040 is not prohibited from receiving a loan or loan guarantee under this chapter if the comprehensive plan and development regulations are adopted as required by RCW 36.70A.040 before submitting a request for a loan or loan guarantee.

(3) In considering awarding loans for public facilities to special districts requesting funding for a proposed facility located in a county, city, or town planning under RCW 36.70A.040, the board shall consider whether the county, city, or town planning under RCW 36.70A.040 in whose planning jurisdiction the proposed facility is located has adopted a

comprehensive plan and development regulations as required by RCW 36.70A.040.

(4) The board shall develop a priority process for public works projects as provided in this section. The intent of the priority process is to maximize the value of public works projects accomplished with assistance under this chapter. The board shall attempt to assure a geographical balance in assigning priorities to projects. The board shall consider at least the following factors in assigning a priority to a project:

(a) Whether the local government receiving assistance has experienced severe fiscal distress resulting from natural disaster or emergency public works needs;

(b) Whether the project is critical in nature and would affect the health and safety of a great number of citizens;

(c) The cost of the project compared to the size of the local government and amount of loan money available;

(d) The number of communities served by or funding the project;

(e) Whether the project is located in an area of high unemployment, compared to the average state unemployment;

(f) Whether the project is the acquisition, expansion, improvement, or renovation by a local government of a public water system that is in violation of health and safety standards, including the cost of extending existing service to such a system;

(g) The relative benefit of the project to the community, considering the present level of economic activity in the community and the existing local capacity to increase local economic activity in communities that have low economic growth; and

(h) Other criteria that the board considers advisable.

(5) Existing debt or financial obligations of local governments shall not be refinanced under this chapter. Each local government applicant shall provide documentation of attempts to secure additional local or other sources of funding for each public works project for which financial assistance is sought under this chapter.

(6) Before November 1 of each year, the board shall develop and submit to the appropriate fiscal committees of the senate and house of representatives a description of the loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section during the preceding fiscal year and a prioritized list of projects which are recommended for funding by the legislature, including one copy to the staff of each of the committees. The list shall include, but not be limited to, a description of each project and recommended financing, the terms and conditions of the loan or financial guarantee, the local government jurisdiction and unemployment rate, demonstration of the jurisdiction's critical need for the project and documentation of local funds being used to finance the public works project. The list shall also include measures of fiscal capacity for each jurisdiction recommended for financial assistance, compared to authorized limits and state averages, including local government sales taxes; real estate excise taxes; property taxes; and charges for or taxes on sewerage, water, garbage, and other utilities.

(7) The board shall not sign contracts or otherwise financially obligate funds from the public works assistance account before the legislature has appropriated funds for a specific list of

public works projects. The legislature may remove projects from the list recommended by the board. The legislature shall not change the order of the priorities recommended for funding by the board.

(8) Subsection (7) of this section does not apply to loans made under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

(9)(a) Loans made for the purpose of capital facilities plans shall be exempted from subsection (7) of this section. In no case shall the total amount of funds utilized for capital facilities plans and emergency loans exceed the limitation in RCW 43.155.065.

(b) For the purposes of this section "capital facilities plans" means those plans required by the growth management act, chapter 36.70A RCW, and plans required by the public works board for local governments not subject to the growth management act.

(10) To qualify for loans or pledges for solid waste or recycling facilities under this chapter, a city or county must demonstrate that the solid waste or recycling facility is consistent with and necessary to implement the comprehensive solid waste management plan adopted by the city or county under chapter 70.95 RCW.

Public disclosure: RCW 42.17.310.

RCW 43.160.010 Legislative declaration (as amended by 1999 c 94).

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. A valuable means of fostering economic development is the construction of public facilities which contribute to the stability and growth of the state's economic base. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made

for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(c) Encouraging wider access to financial resources for both large and small industrial development projects;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways in the vicinity of new industries considering locating in this state or existing industries that are considering significant expansion.

(a) The legislature finds it desirable to provide a process whereby the need for diverse public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

~~(b) (It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development. All such) Transportation improvements (must first be) on state highways that have been approved by the ~~(state transportation commission and the)~~ community economic revitalization board must be approved by the transportation commission in accordance with the procedures established by RCW 43.160.074 and 47.01.280 to receive funding. ~~(It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.)~~~~

(3) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

(4) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural natural resource impact areas do not share in the economic vitality of the Puget Sound region. Infrastructure is one of several ingredients that are critical for economic

development. Rural natural resource impact areas generally lack the infrastructure necessary to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the availability of funds to help provide infrastructure to rural natural resource impact areas.

Legislative finding--Effective dates--1999 c 94: See notes following RCW 43.84.092.

RCW 43.160.010 Legislative declaration (as amended by 1999 c 164).

(1) The legislature finds that it is the public policy of the state of Washington to direct financial resources toward the fostering of economic development through the stimulation of investment and job opportunities and the retention of sustainable existing employment for the general welfare of the inhabitants of the state. Reducing unemployment and reducing the time citizens remain jobless is important for the economic welfare of the state. Strengthening the economic base through issuance of industrial development bonds, whether single or umbrella, further serves to reduce unemployment. Consolidating issues of industrial development bonds when feasible to reduce costs additionally advances the state's purpose to improve economic vitality. Expenditures made for these purposes as authorized in this chapter are declared to be in the public interest, and constitute a proper use of public funds. A community economic revitalization board is needed which shall aid the development of economic opportunities. The general objectives of the board should include:

(a) Strengthening the economies of areas of the state which have experienced or are expected to experience chronically high unemployment rates or below average growth in their economies;

(b) Encouraging the diversification of the economies of the state and regions within the state in order to provide greater seasonal and cyclical stability of income and employment;

(d) Encouraging new economic development or expansions to maximize employment;

(e) Encouraging the retention of viable existing firms and employment; and

(f) Providing incentives for expansion of employment opportunities for groups of state residents that have been less successful relative to other groups in efforts to gain permanent employment.

(2) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to improve state highways (~~in the vicinity of new~~), county roads, or city streets for industries considering locating or expanding in this state (~~or existing industries that are considering significant expansion~~).

(a) The legislature finds it desirable to provide a process whereby the need for diverse

public works improvements necessitated by planned economic development can be addressed in a timely fashion and with coordination among all responsible governmental entities.

(b) ~~(It is the intent of the legislature to create an economic development account within the motor vehicle fund from which expenditures can be made by the department of transportation for state highway improvements necessitated by planned economic development.) All (such) transportation improvements on state highways must first be approved by the state transportation commission and the community economic revitalization board in accordance with the procedures established by RCW 43.160.074 and 47.01.280. (It is further the intent of the legislature that such improvements not jeopardize any other planned highway construction projects. The improvements are intended to be of limited size and cost, and to include such items as additional turn lanes, signalization, illumination, and safety improvements.)~~

(3) The legislature also finds that the state's economic development efforts can be enhanced by, in certain instances, providing funds to assist development of telecommunications infrastructure that supports business development, retention, and expansion in rural natural resources impact areas and rural counties of the state.

(4) The legislature also finds that the state's economic development efforts can be enhanced by providing funds to improve markets for those recyclable materials representing a large fraction of the waste stream. The legislature finds that public facilities which result in private construction of processing or remanufacturing facilities for recyclable materials are eligible for consideration from the board.

~~(4)~~ (5) The legislature finds that sharing economic growth state-wide is important to the welfare of the state. Rural counties and rural natural resources impact areas do not share in the economic vitality of the Puget Sound region. The ability of these communities to pursue business and job retention, expansion, and development opportunities depends on their capacity to ready necessary economic development project plans, sites, permits, and infrastructure for private investments. Project-specific planning, predevelopment, and infrastructure (is one of several) are critical ingredients (that are critical) for economic development. Rural counties and rural natural resources impact areas generally lack (the infrastructure) these necessary tools and resources to diversify and revitalize their economies. It is, therefore, the intent of the legislature to increase the (availability of funds to help provide infrastructure to rural natural resource impact areas) amount of funding available through the community economic revitalization board for rural counties and rural natural resources impact areas, and to authorize flexibility for available resources in these areas to help fund planning, predevelopment, and construction costs of infrastructure and facilities and sites that foster economic vitality and diversification.

RCW 43.160.060 Loans and grants to political subdivisions for public facilities authorized--Application--Requirements for financial assistance.

The board is authorized to make direct loans to political subdivisions of the state for the purposes of assisting the political subdivisions in financing the cost of public facilities, including development of land and improvements for public facilities, project-specific environmental, capital facilities, land use, permitting, feasibility[,] and marketing studies and plans; project design, site planning, and analysis; project debt and revenue impact analysis; as well as the construction, rehabilitation, alteration, expansion, or improvement of the facilities. A grant may also be authorized for purposes designated in this chapter, but only when, and to the extent that, a loan is not reasonably possible, given the limited resources of the political subdivision and the finding by the board that financial circumstances require grant assistance to enable the project to move forward.

Application for funds shall be made in the form and manner as the board may prescribe. In making grants or loans the board shall conform to the following requirements:

(1) The board shall not provide financial assistance:

(a) For a project the primary purpose of which is to facilitate or promote a retail shopping development or expansion.

(b) For any project that evidence exists would result in a development or expansion that would displace existing jobs in any other community in the state.

(c) For the acquisition of real property, including buildings and other fixtures which are a part of real property.

(2) The board shall only provide financial assistance:

(a) For those projects which would result in specific private developments or expansions (i) in manufacturing, production, food processing, assembly, warehousing, advanced technology, research and development, and industrial distribution; (ii) for processing recyclable materials or for facilities that support recycling, including processes not currently provided in the state, including but not limited to, de-inking facilities, mixed waste paper, plastics, yard waste, and problem-waste processing; (iii) for manufacturing facilities that rely significantly on recyclable materials, including but not limited to waste tires and mixed waste paper; (iv) which support the relocation of businesses from nondistressed urban areas to rural counties or rural natural resources impact areas; or (v) which substantially support the trading of goods or services outside

of the state's borders.

(b) For projects which it finds will improve the opportunities for the successful maintenance, establishment, or expansion of industrial or commercial plants or will otherwise assist in the creation or retention of long-term economic opportunities.

(c) When the application includes convincing evidence that a specific private development or expansion is ready to occur and will occur only if the public facility improvement is made.

(3) The board shall prioritize each proposed project according to:

(a) The relative benefits provided to the community by the jobs the project would create, not just the total number of jobs it would create after the project is completed and according to the unemployment rate in the area in which the jobs would be located; and

(b) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project.

(4) A responsible official of the political subdivision shall be present during board deliberations and provide information that the board requests.

Before any financial assistance application is approved, the political subdivision seeking the assistance must demonstrate to the community economic revitalization board that no other timely source of funding is available to it at costs reasonably similar to financing available from the community economic revitalization board.

RCW 43.160.150 Faith and credit not pledged.

Bonds issued under this chapter do not constitute a debt, liability, obligation, or pledge of the faith and credit of the state but are payable solely from the revenues or assets of the board. A bond issued under this chapter must disclose on its face (1) the state of Washington is not obligated to pay the principal or the interest thereon; (2) no tax funds or governmental revenue may be used to pay the principal or interest thereon; and (3) neither the faith and credit nor the taxing power of the state or any subdivision or agency thereof is pledged to the payment of the principal or interest on the bond.

[1984 c 257 § 8.]

RCW 43.160.160 Security.

In order to assure payment of the bonds, the board shall consider and may require users to

provide appropriate security. Such security may include but is not limited to letters of credit, deeds of trust, guarantees, mortgage insurance or cash reserves. If federal funds are used to provide additional security for the protection of bond purchasers the board shall require a credit analysis by a financial institution of each user of an umbrella board [bond] in order to ensure the marketability of the bonds.

[1984 c 257 § 9.]

RCW 43.160.170 Special reserve account.

(1) The board may establish a special reserve account and pay into it any:

(a) Proceeds of the sale of bonds to the extent provided in the resolutions or indentures of the board authorizing their issuance; and

(b) Other funds which may be available to the board from any other source for the purpose of the account.

(2) All funds held in the special reserve account must be used solely for the payment of the principal of, premium, if any, and interest on the bonds secured in whole or in part by the account, the sinking fund payments with respect to the bonds, the purchase or redemption of the bonds, the payment of interest on the bonds, or the payment of any redemption premium required to be paid when the bonds are redeemed prior to maturity. Funds in the account may not be withdrawn at any time in an amount that reduces the account to an amount less than the sum of minimum reserve requirements established in the resolutions or indentures of the board for the account except, with respect to bonds secured in whole or in part by the account, for the purpose of making payment, when due, of principal, premium, if any, interest, and sinking fund payments for the payment of which other money pledged is not available. Any income or interest earned by or incremental to the special reserve account due to its investment may be transferred to other accounts of the board to an extent that does not reduce the amount of the special reserve account below the sum of minimum reserve requirements for the account.

(4) Applicants must demonstrate that their request is part of an economic development plan consistent with applicable state planning requirements. Applicants must demonstrate that tourism projects have been approved by the local government. Industrial projects must be approved by the local government and the associate development organization.

(5) Publicly owned projects may be financed under this section upon proof by the applicant that the public project is a necessary component of, or constitutes in whole, a tourism project.

(10) The board may allow de minimis general system improvements to be funded if they are critically linked to the viability of the economic development project assisted under this section.

(11) Applications under this section need not demonstrate evidence that specific private development or expansion is ready to occur or will occur if funds are provided.

(12) The board shall establish guidelines for providing financial assistance under this section to ensure that the requirements of this chapter are complied with. The guidelines shall include:

Public disclosure: RCW 42.17.310.

RCW 43.163.005 Purpose--Construction.

Economic development is essential to the health, safety, and welfare of all Washington citizens by broadening and strengthening state and local tax bases, providing meaningful employment opportunities and thereby enhancing the quality of life. Economic development increasingly is dependent upon the ability of small-sized and medium-sized businesses and farms to finance growth and trade activities. Many of these businesses face an unmet need for capital that limits their growth. These unmet capital needs are a problem in both urban and rural areas which cannot be solved by the private sector alone. There presently exist some federal programs, private credit enhancements and other financial tools to complement the private banking industry in providing this needed capital. More research is needed to develop effective strategies to enhance access to capital and thereby stimulate economic development.

It is the purpose of this chapter to establish a state economic development finance authority to act as a financial conduit that, without using state funds or lending the credit of the state or local governments, can issue nonrecourse revenue bonds, and participate in federal, state, and local economic development programs to help facilitate access to needed capital by Washington businesses that cannot otherwise readily obtain needed capital on terms and rates comparable to large corporations, and can help local governments obtain capital more efficiently. It is also a primary purpose of this chapter to encourage the employment and retention of Washington workers at meaningful wages and to develop innovative approaches to the problem of unmet capital needs. This chapter is enacted to accomplish these and related purposes and shall be construed liberally to carry out its purposes and objectives.

Notes:

Findings--Purpose--1994 c 302: "The legislature finds that when public funds are used to support private enterprise, the public may gain through the creation of new jobs, the diversification of the economy, or higher quality jobs for existing workers. The legislature further finds that such returns on public investments are not automatic and that tax-based incentives, in particular, may result in a greater tax burden on businesses and individuals that are not eligible for the public support. It is the purpose of this *chapter to collect information sufficient to allow the legislature and the executive branch to make informed decisions about the merits of existing tax-based incentives and

loan programs intended to encourage economic development in the state." [1994 c 302 § 1.]

***Reviser's note:** 1994 c 302 § 2 was vetoed by the governor. 1994 c 302 § 3 is a codification direction and 1994 c 302 § 4 is an emergency clause. The code reviser's office chose not to create a new chapter for the only remaining section, section 1.

(2) The operating procedures shall include, but are not limited to: (a) Appropriate minimum reserve requirements to secure the authority's bonds and other obligations; (b) appropriate standards for securing loans and other financing the authority provides to borrowers, such as guarantees or collateral; and (c) strict standards for providing financing to borrowers, such as (i) the borrower is a responsible party with a high probability of being able to repay the financing provided by the authority, (ii) the financing is reasonably expected to provide economic growth or stability in the state by enabling a borrower to increase or maintain jobs or capital in the state, (iii) the borrowers with the greatest needs or that provide the most public benefit are given higher priority by the authority, and (iv) the financing is consistent with any plan adopted by the authority under RCW 43.163.090.

Community economic revitalization board to cooperate with committee: RCW 43.160.115.

Public disclosure: RCW 42.17.310.

RCW 43.168.010 Legislative findings and declaration.

The legislature finds that:

(1) The economic health and well-being of the state, particularly in areas of high unemployment, economic stagnation, and poverty, is of substantial public concern.

(2) The consequences of minimal economic activity and persistent unemployment and underemployment are serious threats to the safety, health, and welfare of residents of these areas, decreasing the value of private investments and jeopardizing the sources of public revenue.

(3) The economic and social interdependence of communities and the vitality of industrial and economic activity necessitates, and is in part dependent on preventing substantial dislocation of residents and rebuilding the diversification of the areas' economy.

(4) The ability to remedy problems in stagnant areas of the state is beyond the power and control of the regulatory process and influence of the state, and the ordinary operations of private enterprise without additional governmental assistance are insufficient to adequately remedy the problems of poverty and unemployment.

(5) The revitalization of depressed communities requires the stimulation of private investment, the development of new business ventures, the provision of capital to ventures sponsored by local organizations and capable of growth in the business markets, and assistance to viable, but under-financed, small businesses in order to create and preserve jobs that are sustainable in the local economy.

Therefore, the legislature declares there to be a substantial public purpose in providing capital to promote economic development and job creation in areas of economic stagnation, unemployment, and poverty. To accomplish this purpose, the legislature hereby creates the rural Washington loan fund and vests in the department of community, trade, and economic development the authority to spend federal funds to stimulate the economy of distressed areas.

RCW 43.168.031 State development loan fund committee--Terminated June 30, 1994--Powers and duties transferred.

The Washington state development loan fund committee shall be terminated on June 30, 1994, and its powers and duties transferred to the director of the department of community, trade, and economic development.

[1995 c 399 § 92; 1988 c 186 § 7.]

RCW 43.168.040 Approval of applications for federal community development block grant funds for projects.

Subject to the restrictions contained in this chapter, the committee is authorized to approve applications of local governments for federal community development block grant funds which the local governments would use to make loans to finance business projects within their jurisdictions. Applications approved by the committee under this chapter shall conform to applicable federal requirements.

[1987 c 461 § 3; 1985 c 164 § 4.]

RCW 43.168.050 Application approval--Conditions and limitations.

(1) The committee may only approve an application providing a loan for a project which the committee finds:

(a) Will result in the creation of employment opportunities, the maintenance of threatened employment, or development or expansion of business ownership by minorities and women;

(b) Has been approved by the director as conforming to federal rules and regulations governing the spending of federal community development block grant funds;

(c) Will be of public benefit and for a public purpose, and that the benefits, including increased or maintained employment, improved standard of living, the employment of disadvantaged workers, and development or expansion of business ownership by minorities and women, will primarily accrue to residents of the area;

(d) Will probably be successful;

(e) Would probably not be completed without the loan because other capital or financing at feasible terms is unavailable or the return on investment is inadequate.

(2) The committee shall, subject to federal block grant criteria, give higher priority to economic development projects that contain provisions for child care.

(3) The committee may not approve an application if it fails to provide for adequate reporting or disclosure of financial data to the committee. The committee may require an annual or other periodic audit of the project books.

(4) The committee may require that the project be managed in whole or in part by a local development organization and may prescribe a management fee to be paid to such organization by the recipient of the loan or grant.

(5)(a) Except as provided in (b) of this subsection, the committee shall not approve any application which would result in a loan or grant in excess of three hundred fifty thousand dollars.

(b) The committee may approve an application which results in a loan or grant of up to seven hundred thousand dollars if the application has been approved by the director.

(6) The committee shall fix the terms and rates pertaining to its loans.

(7) Should there be more demand for loans than funds available for lending, the committee shall provide loans for those projects which will lead to the greatest amount of

employment or benefit to a community. In determining the "greatest amount of employment or benefit" the committee shall also consider the employment which would be saved by its loan and the benefit relative to the community, not just the total number of new jobs or jobs saved.

(8) To the extent permitted under federal law the committee shall require applicants to provide for the transfer of all payments of principal and interest on loans to the *Washington state development loan fund created under this chapter. Under circumstances where the federal law does not permit the committee to require such transfer, the committee shall give priority to applications where the applicants on their own volition make commitments to provide for the transfer.

(9) The committee shall not approve any application to finance or help finance a shopping mall.

(10) For loans not made to minority and women-owned businesses, the committee shall make at least eighty percent of the appropriated funds available to projects located in distressed areas, and may make up to twenty percent available to projects located in areas not designated as distressed. For loans not made to minority and women-owned businesses, the committee shall not make funds available to projects located in areas not designated as distressed if the fund's net worth is less than seven million one hundred thousand dollars.

(11) If an objection is raised to a project on the basis of unfair business competition, the committee shall evaluate the potential impact of a project on similar businesses located in the local market area. A grant may be denied by the committee if a project is not likely to result in a net increase in employment within a local market area.

(12) For loans to minority and women-owned businesses who do not meet the credit criteria, the committee may consider nontraditional credit standards to offset past discrimination that has precluded full participation of minority or women-owned businesses in the economy. For applicants with high potential who do not meet the credit criteria, the committee shall consider developing alternative borrowing methods. For applicants denied loans due to credit problems, the committee shall provide financial counseling within available resources and provide referrals to credit rehabilitation services. In circumstances of competing applications, priority shall be given to members of eligible groups which previously have been least served by this fund.

Consideration shall be given to the selection process for grantees, loan quality criteria, legal and regulatory issues, and ways to minimize duplication between rural Washington loan funds and local economic development revolving loan funds.

(2) If it appears that all of the funds appropriated to the fund for a biennium will not be fully granted to local governments within that biennium, the department may make available up to twenty percent of the eighty percent of the funds available to projects in distressed areas under RCW 43.168.050(10) for grants to local governments to assist existing economic development revolving loan funds in distressed areas. The grants to local governments shall be utilized to make loans to businesses that meet the specifications for loans under this chapter. RCW 43.170.010 Legislative findings.

The legislature recognizes the numerous benefits to the state's economic base from the establishment of small businesses by innovators and inventors and the numerous benefits

provided by inventors and innovators through industrial diversification, broadening of the economic base, and providing financial benefits to our citizens and new products to the nation's consumers.

It is estimated that ninety-five percent of all inventions and innovations are never authoritatively considered primarily because inventors are unfamiliar with the business environment or financial structure necessary for implementing their proposals.

The legislature therefore recognizes a need to encourage and assist innovators and inventors.

Notes:

Minority and women business development office: RCW 43.31.0925.

RCW 43.172.005 Intent.

It is the intent of the legislature to combat discrimination in the economy.

(1) The legislature finds that discrimination is in part responsible for:

(a) The disproportionately small percentage of the state's businesses that are owned by minorities and women;

(b) The limited and unequal opportunity minority and women entrepreneurs and business owners have to procure small business financing; and

(c) The difficulty many minority and women-owned contracting businesses have in securing bonds and contract work.

(2) The legislature further finds that:

(a) Many minority and women entrepreneurs and business owners lack training in how to establish and operate a business. This lack of training inhibits their competitiveness when they apply for business loans, bonds, and contracts;

(b) Minorities and women are an increasingly expanding portion of the population and work force. In order for these individuals to fully contribute to the society and economy it is necessary to ensure that minority and women entrepreneurs and business owners are provided an equal opportunity to procure small business financing, bonds, and contracts; and

(c) The growth of small businesses will have a favorable impact on the Washington economy by creating jobs, increasing competition in the marketplace, and expanding tax revenues. Access to financial markets, bonds, and contracts by entrepreneurs and small business owners is vital to this process. Without reasonable access to financing, bonds, and contracts, talented and aggressive entrepreneurs and small business owners are cut out of the economic system and the state's economy suffers.

(3) Therefore, the legislature declares there to be a substantial public purpose in providing technical assistance in the areas of marketing, finance, and management, and access to capital

resources, bonds, and contracts, to help start or expand a minority or women-owned business, and specifically to encourage and make possible greater participation by minorities and women in international trade, public works and construction, and public facility concessions. To accomplish these purposes, it is the intent of the legislature to:

(a) Develop or contract for training courses in financing, marketing, managing, accounting, and recordkeeping for a small business and to make these programs available to minority and women entrepreneurs and small business owners;

(b) Make public works and construction projects, public facility concessions, and purchase of goods and services accessible to a greater number of minority and women-owned businesses;

(c) Provide for the lending of nonstate funds to qualified minority and women entrepreneurs and business owners in order to provide the maximum practicable opportunity for innovative minority and women entrepreneurs and business owners to compete for small business financing; and

(d) Provide professional services assistance grants and bond guarantees on behalf of qualified contractors in order to provide the maximum practicable opportunity for minority and women-owned contracting businesses to participate in the Washington state economy by bidding and completing various public and private contracting jobs.

RCW 43.180.010 Declaration of public policies--Purpose.

It is declared to be the public policy of the state and a recognized governmental function to assist in making affordable and decent housing available throughout the state and by so doing to contribute to the general welfare. Decent housing for the people of our state is a most important public concern. Interest rates and construction costs have made it impossible for many

Washington citizens to purchase their own homes. Older people, disabled persons, and low and moderate income families often cannot afford to rent decent housing. There exists throughout the state a serious shortage of safe, sanitary and energy efficient housing available at prices within the financial means of our citizens. General economic development within the state is also impeded by a lack of affordable housing. The state's economy, which is dependent on the timber, wood products, and construction industries, has been damaged by inadequate investment in housing construction and rehabilitation. The result has been high unemployment and economic hardship affecting the prosperity of all the people of the state, particularly those in the wood products industry.

It is the purpose of this chapter to establish a state housing finance commission to act as a financial conduit which, without using public funds or lending the credit of the state or local government, can issue nonrecourse revenue bonds and participate in federal, state, and local housing programs and thereby make additional funds available at affordable rates to help provide housing throughout the state. It is also a primary purpose of this chapter to encourage the use of Washington state forest products in residential construction. This chapter is enacted to accomplish these and related purposes and shall be liberally construed to carry out its purposes and objectives.

[1983 c 161 § 1.]

RCW 43.180.020 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Bonds" means the bonds, notes, or other evidences of indebtedness of the commission, the interest paid on which may or may not qualify for tax exemption.

(2) "Code" means the federal internal revenue code of 1954, as now or hereafter amended, and the regulations and rulings promulgated thereunder.

(3) "Commission" means the Washington state housing finance commission or any board, body, commission, department, or officer succeeding to the principal functions thereof or to whom the powers conferred upon the commission shall be given by law.

(4) "Costs of housing" means all costs related to the development, design, acquisition, construction, reconstruction, leasing, rehabilitation, and other improvements of housing, as determined by the commission.

(5) "Eligible person" means a person or family eligible in accordance with standards promulgated by the commission. Such persons shall include those persons whose income is insufficient to obtain at a reasonable cost, without financial assistance, decent, safe, and sanitary housing in the area in which the person or family resides, and may include such other persons whom the commission determines to be eligible.

(6) "Housing" means specific new, existing, or improved residential dwellings within this state or dwellings to be constructed within this state. The term includes land, buildings, and manufactured dwellings, and improvements, furnishings, and equipment, and such other

nonhousing facilities, furnishings, equipment, and costs as may be incidental or appurtenant thereto if in the judgment of the commission the facilities, furnishings, equipment and costs are an integral part of the project. Housing may consist of single-family or multifamily dwellings in one or more structures located on contiguous or noncontiguous parcels or any combination thereof. Improvements may include such equipment and materials as are appropriate to accomplish energy efficiency within a dwelling. The term also includes a dwelling constructed by a person who occupies and owns the dwelling, and nursing homes licensed under chapter 18.51 RCW.

(7) "Mortgage" means a mortgage, mortgage deed, deed of trust, security agreement, or other instrument securing a mortgage loan and constituting a lien on or security interest in housing. The property may be held in fee simple or on a leasehold under a lease having a remaining term, at the time the mortgage is acquired, of not less than the term of repayment of the mortgage loan secured by the mortgage. The property may also be housing which is evidenced by an interest in a cooperative association or corporation if ownership of the interest entitles the owner of the interest to occupancy of a dwelling owned by the association or corporation.

(8) "Mortgage lender" means any of the following entities which customarily provide service or otherwise aid in the financing of housing and which are approved as a mortgage lender by the commission: A bank, trust company, savings bank, national banking association, savings and loan association, building and loan association, mortgage banker, mortgage company, credit union, life insurance company, or any other financial institution, governmental agency, municipal corporation, or any holding company for any of the entities specified in this subsection.

(9) "Mortgage loan" means an interest-bearing loan or a participation therein, made to a borrower, for the purpose of financing the costs of housing, evidenced by a promissory note, and which may or may not be secured (a) under a mortgage agreement, (b) under any other security agreement, regardless of whether the collateral is personal or real property, or (c) by insurance or a loan guarantee of a third party. However, an unsecured loan shall not be considered a mortgage loan under this definition unless the amount of the loan is under two thousand five hundred dollars.

[1990 c 167 § 1; 1983 c 161 § 2.]

RCW 43.180.030 Bonds not debt of state.

Bonds issued under this chapter shall be issued in the name of the commission. The bonds shall not be obligations of the state of Washington and shall be obligations only of the commission payable from the special fund or funds created by the commission for their payment. Such funds shall not be or constitute public moneys or funds of the state of Washington but at all times shall be kept segregated and set apart from other funds.

Bonds issued under this chapter shall contain a recital on their face to the effect that payment of the principal of, interest on, and prepayment premium, if any, on the bonds, shall be a valid claim only as against the special fund or funds relating thereto, that neither the faith and

credit nor the taxing power of the state or any municipal corporation, subdivision, or agency of the state, other than the commission as set forth in this chapter, is pledged to the payment of the principal of, interest on, and prepayment premium, if any, on the bonds.

Contracts entered into by the commission shall be entered into in the name of the commission and not in the name of the state of Washington. The obligations of the commission under the contracts shall be obligations only of the commission and are not in any way obligations of the state of Washington.

[1983 c 161 § 3.]

RCW 43.180.040 Commission created.

(1) There is hereby established a public body corporate and politic, with perpetual corporate succession, to be known as the Washington state housing finance commission. The commission is an instrumentality of the state exercising essential government functions and, for purposes of the code, acts as a constituted authority on behalf of the state when it issues bonds pursuant to this chapter. The commission is a "public body" within the meaning of RCW 39.53.010.

(2) The commission shall consist of the following voting members:

- (a) The state treasurer, ex officio;

The term of the persons appointed by the governor, other than the chair, shall be four years from the date of their appointment, except that the terms of three of the initial appointees shall be for two years from the date of their appointment. If the *department of community development is abolished, the resulting vacancy shall be filled by a state official who shall be appointed to the commission by the governor. If this official occupies an office or

position for which senate confirmation is not required, then his or her appointment to the commission shall be subject to the consent of the senate. The members of the commission shall be compensated in accordance with RCW 43.03.240 and may be reimbursed, solely from the funds of the commission, for expenses incurred in the discharge of their duties under this chapter, subject to the provisions of RCW 43.03.050 and 43.03.060. A majority of the commission constitutes a quorum. Designees shall be appointed in such manner and shall exercise such powers as are specified by the rules of the commission.

RCW 43.180.090 Selection of bond counsel--Written policies to be adopted.

(1) The commission shall adopt written policies to provide for the selection of bond counsel. The policies shall provide for the creation and maintenance of a roster of attorneys whom the commission believes possess the requisite special expertise and professional standing to provide bond counsel opinions which would be accepted by the underwriters, bondholders, and other members of the financial community, and which would be in furtherance of the public interest in obtaining the lowest possible interest rates on the bonds issued by the commission. Any attorney may apply to have his or her name placed on the roster, but may not be placed on the roster unless the attorney demonstrates to the commission's satisfaction that the attorney would issue the kind of opinions required by this section.

(2) Prior to selecting an attorney or attorneys to provide bond counsel services, the commission shall provide all attorneys on the roster with a notice of its intentions to select bond counsel and shall invite each of them to submit to the commission his or her fee schedule for providing bond counsel services. The commission shall have wide discretion in selecting the attorney or attorneys it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider all submitted fee schedules and the public interest in achieving both savings in bond counsel fees and issuance of bonds on terms most favorable to the commission. At least once every two calendar years, the commission shall select anew an attorney or attorneys to serve as bond counsel. However, the commission may retain an attorney for longer than two years when necessary to complete work on a particular bond issue. An attorney previously retained may be selected again but only after the commission has provided other attorneys on the roster with an opportunity to be selected and has made the fee schedule review required under this subsection. In addition to or as an alternative to retaining counsel for a period of time, the commission may appoint an attorney to serve as counsel in respect to only a particular bond issue.

[1983 c 161 § 9.]

RCW 43.180.100 Selection of underwriters--Written policies to be adopted.

(1) The commission shall adopt written policies to provide for the selection of underwriters. The policies shall provide for the creation of a roster of underwriters whom the commission believes possess the requisite special expertise and professional standing to provide bond marketing services which would be accepted by bondholders and other members of the financial community, and which would be in furtherance of the public interest in marketing the commission's bonds at the lowest possible costs. Any underwriter may apply to have its name placed on the roster, but may not be placed on the roster unless it demonstrates to the commission's satisfaction that it meets the requirements of this section.

(2) Whenever the commission decides that it needs the services of an underwriter, it shall provide all underwriters on the roster with a notice of its intentions and shall invite each of them to submit to the commission an itemization of its fees and other charges for providing underwriting services on the issue. The itemization shall be by categories designed by the commission. The commission shall have wide discretion in selecting the underwriter it considers to be most appropriate to provide the services, but in the exercise of this discretion the commission shall consider the underwriter's fees and other charges and the public interest in achieving both savings in the total costs of underwriting services and issuance of bonds on terms most favorable to the commission.

RCW 43.180.110 Review of initial policies adopted under RCW 43.180.090 and 43.180.100--Adoption--Change.

[1983 c 161 § 11.]

RCW 43.180.120 Rules for fair allocation of bond proceeds for nonrental single family housing.

The legislature recognizes that the demand for mortgage loans for nonrental single family housing will probably greatly exceed the supply of bond proceeds available to satisfy the demand. Therefore, the commission shall adopt rules providing procedures to assure that the bond proceeds available for that kind of housing shall be made available to qualified mortgagors in a fair and equitable manner.

[1983 c 161 § 12.]

RCW 43.180.130 Protection of bondholders--Mortgage insurance.

RCW 43.180.140 Rules for energy efficiency.

The commission shall adopt rules providing for financing assistance to implement cost-effective energy efficiency improvements.

(2) The bonds of the commission shall be subject to such terms, conditions, covenants, and protective provisions as are found necessary or desirable by the commission, including, but not limited to, pledges of the commission's assets, setting aside of reserves, limitations on additional forms of indebtedness, and the mortgaging of all or any part of the commission's real or personal property, then owned or thereafter acquired, and other provisions the commission finds are necessary or desirable for the security of bond holders.

(3) Any security interest created in the unexpended bond proceeds and in the special funds created by the commission shall be immediately valid and binding against such moneys and any securities in which such moneys may be invested without commission or trustee possession thereof, and the security interest shall be prior to any party having any competing claim in such moneys or securities, without filing or recording pursuant to *chapter 62A.9 RCW and regardless of whether the party has notice of the security interest.

(4) When issuing bonds, the commission may provide for the future issuance of additional bonds or parity debt on a parity with outstanding bonds, and the terms and conditions of their issuance. The commission may refund or advance refund any bond of the commission in accordance with chapter 39.53 RCW or issue bonds with a subordinate lien against the fund or

funds securing outstanding bonds.

(5) The chair of the state finance committee or the chair's designee shall be notified in advance of the issuance of bonds by the commission in order to promote the orderly offering of obligations in the financial markets.

(6) The members of the commission and any person executing the bonds are not liable personally on the indebtedness or subject to any personal liability or accountability by reason of the issuance thereof.

(7) The commission may, out of any fund available therefor, purchase its bonds in the open market.

In lieu of the commission receiving and handling these moneys in the manner outlined in this section, the commission may appoint trustees, depositaries, paying agents, and other financial institutions

within or without the state to perform the functions outlined and to receive, hold, disburse, invest, and reinvest such funds on its behalf and for the protection of the bondholders.

The commission may establish a bond fund or funds, and a reserve, sinking fund and other accounts therein, for payment of principal and interest and for other special requirements of the bonds as determined by the commission. RCW 43.185.010 Findings.

The legislature finds that current economic conditions, federal housing policies and declining resources at the federal, state, and local level adversely affect the ability of low and very low-income persons to obtain safe, decent, and affordable housing.

The legislature further finds that members of over one hundred twenty thousand households live in housing units which are overcrowded, lack plumbing, are otherwise threatening to health and safety, and have rents and utility payments which exceed thirty percent of their income.

The legislature further finds that minorities, rural households, and migrant farm workers require housing assistance at a rate which significantly exceeds their proportion of the general population.

The legislature further finds that one of the most dramatic housing needs is that of persons needing special housing-related services, such as the mentally ill, recovering alcoholics, frail elderly persons, families with members who have disabilities, and single parents. These services include medical assistance, counseling, chore services, and child care.

The legislature further finds that housing assistance programs in the past have often failed to help those in greatest need.

The legislature declares that it is in the public interest to establish a continuously renewable resource known as the housing trust fund and housing assistance program to assist low and very low-income citizens in meeting their basic housing needs, and that the needs of very low-income citizens should be given priority and that whenever feasible, assistance should be in

the form of loans.

RCW 43.190.010 Findings.

The legislature finds that in order to comply with the federal Older Americans Act and to effectively assist residents, patients, and clients of long-term care facilities in the assertion of their civil and human rights, a long-term care ombudsman program should be instituted.

[1983 c 290 § 1.]

RCW 43.190.020 "Long-term care facility" defined.

As used in this chapter, "long-term care facility" means any of the following:

(b) Provides supportive, restorative, and preventive health services in conjunction with a socially oriented program to its residents, and which maintains and operates twenty-four hour services including board, room, personal care, and intermittent nursing care. "Long-term health

care facility" includes nursing homes and nursing facilities, but does not include acute care hospital or other licensed facilities except for that distinct part of the hospital or facility which provides nursing facility services.

(2) Any family home, group care facility, or similar facility determined by the secretary, for twenty-four hour nonmedical care of persons in need of personal services, supervision, or assistance essential for sustaining the activities of daily living or for the protection of the individual.

(3) Any swing bed in an acute care facility.

RCW 43.190.030 Office of state long-term care ombudsman created--Powers and duties--Rules.

There is created the office of the state long-term care ombudsman. The department of community, trade, and economic development shall contract with a private nonprofit organization to provide long-term care ombudsman services as specified under, and consistent with, the federal older Americans act as amended, federal mandates, the goals of the state, and the needs of its citizens. The department of community, trade, and economic development shall ensure that all program and staff support necessary to enable the ombudsman to effectively protect the interests of residents, patients, and clients of all long-term care facilities is provided by the nonprofit organization that contracts to provide long-term care ombudsman services. The department of community, trade, and economic development shall adopt rules to carry out this chapter and the long-term care ombudsman provisions of the federal older Americans act, as amended, and applicable federal regulations. The long-term care ombudsman program shall have the following powers and duties:

(1) To provide services for coordinating the activities of long-term care ombudsmen throughout the state;

(2) Carry out such other activities as the department of community, trade, and economic development deems appropriate;

(3) Establish procedures consistent with RCW 43.190.110 for appropriate access by long-term care ombudsmen to long-term care facilities and patients' records, including procedures to protect the confidentiality of the records and ensure that the identity of any complainant or resident will not be disclosed without the written consent of the complainant or resident, or upon court order;

(4) Establish a state-wide uniform reporting system to collect and analyze data relating to complaints and conditions in long-term care facilities for the purpose of identifying and resolving significant problems, with provision for submission of such data to the department of social and health services and to the federal department of health and human services, or its successor

agency, on a regular basis; and

(5) Establish procedures to assure that any files maintained by ombudsman programs shall be disclosed only at the discretion of the ombudsman having authority over the disposition of such files, except that the identity of any complainant or resident of a long-term care facility shall not be disclosed by such ombudsman unless:

(a) Such complainant or resident, or the complainant's or resident's legal representative, consents in writing to such disclosure; or

(b) Such disclosure is required by court order.

Notes:

Effective date--1988 c 119 § 2: "Section 2 of this act shall take effect July 1, 1989." [1988 c 119 § 5.]

Legislative findings--1988 c 119: "The legislature recognizes that the state long-term care ombudsman program and the office of the state long-term care ombudsman, located within the department of social and health services, have brought into serious question the ability of that office to serve as an effective mechanism on the state level for investigating and resolving complaints made by or on behalf of residents of long-term care facilities.

The legislature further finds it necessary to exercise its options under the federal older Americans act and identify an organization, outside of the department of social and health services and independent of any other state agency, to provide, through contract, long-term care ombudsman services." [1988 c 119 § 1.]

Survey--1988 c 119: "The committee on health care of the house of representatives shall conduct a survey and analysis of the appropriate placement outside of state government of the office of the state long-term care ombudsman. The survey shall ascertain how the contracted placement of the office will most effectively allow it to meet its responsibilities under chapter 43.190 RCW. A draft of the findings shall be submitted to the governor and the legislature before the first Friday in November 1988 and the final findings, conclusions, and recommendations shall be submitted in a report to the governor and the legislature no later than December 30, 1988.

The survey required shall include, but is not limited to, a complete assessment of how independently contracting the program outside state government will provide the office with an effective means for resolving complaints and building program accountability and integrity facilitating local involvement and contributing to long-term care policy development. The study shall also clearly identify and describe how this model for administering the duties and responsibilities of the ombudsman will affect the ability of the office to function as mandated under the federal older Americans act, and provide suggestions that will assist the office to coordinate information and assistance, to the fullest degree possible, with citizen groups, the general public, the nursing home industry, and local volunteer programs. The survey shall further specify the operational program details necessary for adopting the proposed independently contracted plan." [1988 c 119 § 3.]

Use of survey findings--1988 c 119: "The survey findings, together with any reports of legislative committees in response to such survey, shall be used by the department of community development in determining the best manner to contract for and provide long-term care ombudsman services." [1988 c 119 § 4.]

RCW 43.190.040 Long-term care ombudsmen.

(1) Any long-term care ombudsman authorized by this chapter or a local governmental authority shall have training or experience or both in the following areas:

(a) Gerontology, long-term care, or other related social services programs.

(b) The legal system.

(c) Dispute or problem resolution techniques, including investigation, mediation, and negotiation.

(2) A long-term care ombudsman shall not have been employed by any long-term care

(3) No long-term care ombudsman or any member of his or her immediate family shall have, or have had within the past three years, any pecuniary interest in the provision of long-term health care facilities.

[1983 c 290 § 4.]

RCW 43.190.050 Posting of notice by long-term care facility--Distribution of information to residents.

Every long-term care facility shall post in a conspicuous location a notice of the nursing home complaint toll-free number and the name, address, and phone number of the office of the appropriate long-term care ombudsman and a brief description of the services provided by the office. This information shall also be distributed to the residents, family members, and legal guardians upon the resident's admission to the facility.

[1983 c 290 § 5.]

RCW 43.190.060 Duties of ombudsman.

A long-term care ombudsman shall:

Nuclear energy and radiation: Chapter 70.98 RCW.

RCW 43.200.010 Finding--Purpose.

The legislature finds that the safe transporting, handling, storage, or otherwise caring for radioactive wastes is required to protect the health, safety, and welfare of the citizens of the state of Washington. It is the purpose of this chapter to establish authority for the state to exercise appropriate oversight and care for the safe management and disposal of radioactive wastes; to consult with the federal government and other states on interim or permanent storage of these radioactive wastes; and to carry out the state responsibilities under the federal nuclear waste policy act of 1982.

[1983 1st ex.s. c 19 § 1.]

RCW 43.200.015 Definitions.

As used in this chapter, the following terms have the meanings indicated unless the context clearly requires otherwise.

(1) "High-level radioactive waste" means "high-level radioactive waste" as the term is defined in 42 U.S.C. Sec. 10101 (P.L. 97-425).

(2) "Low-level radioactive waste" means waste material that contains radioactive nuclides emitting primarily beta or gamma radiation, or both, in concentrations or quantities that exceed applicable federal or state standards for unrestricted release. Low-level waste does not include waste containing more than one hundred nanocuries of transuranic contaminants per gram of material, nor spent nuclear fuel, nor material classified as either high-level radioactive waste or waste that is unsuited for disposal by near-surface burial under any applicable federal regulations.

(3) "Radioactive waste" means both high-level and low-level radioactive waste.

(4) "Spent nuclear fuel" means spent nuclear fuel as the term is defined in 42 U.S.C. Sec. 10101.

(5) "Department" means the department of ecology.

[1989 c 322 § 1; 1985 c 293 § 1; 1984 c 161 § 1.]

RCW 43.200.020 Participation authority regarding federal statutes--Federal financial assistance.

The department of ecology is designated as the executive branch agency for participation in the federal nuclear waste policy act of 1982 and the federal low-level radioactive waste policy act of 1980, however the legislature retains an autonomous role with respect to participation in all aspects of the federal nuclear waste policy act of 1982. The department may receive federal financial assistance for carrying out radioactive waste management activities, including assistance for expenses, salaries, travel, and monitoring and evaluating the program of repository exploration and siting undertaken by the federal government.

[1989 c 322 § 2; 1984 c 161 § 2; 1983 1st ex.s. c 19 § 2.]

RCW 43.200.030 Cooperation required.

All departments, agencies, and officers of this state and its subdivisions shall cooperate with the department of ecology in the furtherance of any of its activities pursuant to this chapter.

[1989 c 322 § 3; 1984 c 161 § 4; 1983 1st ex.s. c 19 § 3.]

RCW 43.200.040 Nuclear waste board created--Membership--Compensation and travel expenses.

Notes:

Reviser's note: RCW 43.200.040 was amended by 1989 1st ex.s. c 9 § 219 without reference to its repeal by 1989 c 322 § 7, effective July 23, 1989. It has been decodified for publication purposes pursuant to RCW 1.12.025.

RCW 43.200.070 Rules.

The department of ecology shall adopt such rules as are necessary to carry out responsibilities under this chapter. The department of ecology is authorized to adopt such rules as are necessary to carry out its responsibilities under chapter 43.145 RCW.

[1989 c 322 § 5; 1986 c 2 § 5; 1984 c 161 § 8; 1983 1st ex.s. c 19 § 7.]

RCW 43.200.080 Additional powers and duties of director--Site closure account--Perpetual surveillance and maintenance account.

The director of ecology shall, in addition to the powers and duties otherwise imposed by law, have the following special powers and duties:

(1) To fulfill the responsibilities of the state under the lease between the state of Washington and the federal government executed September 10, 1964, covering one thousand acres of land lying within the Hanford reservation near Richland, Washington. The department of ecology may sublease to private or public entities all or a portion of the land for specific purposes or activities which are determined, after public hearing, to be in agreement with the terms of the lease and in the best interests of the citizens of the state consistent with any criteria that may be developed as a requirement by the legislature;

(2) To assume the responsibilities of the state under the perpetual care agreement between the state of Washington and the federal government executed July 29, 1965 and the sublease between the state of Washington and the site operator of the Hanford low-level radioactive waste disposal facility. In order to finance perpetual surveillance and maintenance under the agreement and ensure site closure under the sublease, the department of ecology shall impose and collect fees from parties holding radioactive materials for waste management purposes. The fees shall be

established by rule adopted under chapter 34.05 RCW and shall be an amount determined by the department of ecology to be necessary to defray the estimated liability of the state. Such fees shall reflect equity between the disposal facilities of this and other states. A site closure account and a perpetual surveillance and maintenance account is hereby created in the state treasury. The site closure account shall be exclusively available to reimburse, to the extent that moneys are available in the account, the site operator for its costs plus a reasonable profit as agreed by the operator and the state, or to reimburse the state licensing agency and any agencies under contract to the state licensing agency for their costs in final closure and decommissioning of the Hanford low-level radioactive waste disposal facility. If a balance remains in the account after satisfactory performance of closure and decommissioning, this balance shall be transferred to the perpetual surveillance and maintenance account. The perpetual surveillance and maintenance account shall be used exclusively by the state to meet post-closure surveillance and maintenance costs, or for otherwise satisfying surveillance and maintenance obligations. Appropriations are required to permit expenditures and payment of obligations from the site closure account and the perpetual surveillance and maintenance account. All moneys, including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account, less the allocation to the state treasurer's service fund, pursuant to RCW 43.08.190 accruing under the authority of this section shall be directed to the site closure account until December 31, 1992. Thereafter receipts including earnings from the investment of balances in the site closure and the perpetual surveillance and maintenance account, less the allocation to the state treasurer's service fund, pursuant to RCW 43.08.190 shall be directed to the site closure account and the perpetual surveillance and maintenance account as specified by the department. Additional moneys specifically appropriated by the legislature or received from any public or private source may be placed in the site closure account and the perpetual surveillance and maintenance account;

(3) To assure maintenance of such insurance coverage by state licensees, lessees, or sublessees as will adequately, in the opinion of the director, protect the citizens of the state against nuclear accidents or incidents that may occur on privately or state-controlled nuclear facilities;

(4) To institute a user permit system and issue site use permits, consistent with regulatory practices, for generators, packagers, or brokers using the Hanford low-level radioactive waste disposal facility. The costs of administering the user permit system shall be borne by the applicants for site use permits. The site use permit fee shall be set at a level that is sufficient to fund completely the executive and legislative participation in activities related to the Northwest Interstate Compact on Low-Level Radioactive Waste Management;

(5) To make application for or otherwise pursue any federal funds to which the state may be eligible, through the federal resource conservation and recovery act or any other federal programs, for the management, treatment or disposal, and any remedial actions, of wastes that are both radioactive and hazardous at all Hanford low-level radioactive waste disposal facilities; and

(6) To develop contingency plans for duties and options for the department and other state agencies related to the Hanford low-level radioactive waste disposal facility based on various projections of annual levels of waste disposal. These plans shall include an analysis of

expected revenue to the state in various taxes and funds related to low-level radioactive waste disposal and the resulting implications that any increase or decrease in revenue may have on state agency duties or responsibilities. The plans shall be updated annually.

RCW 43.200.200 Review of potential damage--Financial assurance.

(1) The director of the department of ecology shall periodically review the potential for bodily injury and property damage arising from the transportation and disposal of commercial low-level radioactive waste under permits issued by the state.

(2) The director may require permit holders to demonstrate financial assurance in an amount that is adequate to protect the state and its citizens from all claims, suits, losses, damages, or expenses on account of injuries to persons and property damage arising or growing out of the transportation or disposal of commercial low-level radioactive waste. The financial assurance may be in the form of insurance, cash deposits, surety bonds, corporate guarantees, and other acceptable instruments or guarantees determined by the director to be acceptable evidence of financial assurance.

(3) In making the determination of the appropriate level of financial assurance, the director shall consider:

(a) The nature and purpose of the activity and its potential for injury and damages to or claims against the state and its citizens;

(b) The current and cumulative manifested volume and radioactivity of waste being packaged, transported, buried, or otherwise handled;

(c) The location where the waste is being packaged, transported, buried, or otherwise handled, including the proximity to the general public and geographic features such as geology and hydrology, if relevant; and

(d) The legal defense cost, if any, that will be paid from the required financial assurance amount.

(2) The department of ecology shall refuse to issue or shall suspend the permit of any person required by this section to demonstrate adequate financial assurance who fails to demonstrate compliance with this section. The permit shall not be issued or reinstated until the person demonstrates compliance with this section.

(3) The department of ecology shall require (a) that any person required to demonstrate financial assurance maintain with the agency current copies of any insurance policies, certificates of insurance, or any other documents sufficient to evidence compliance with this section, (b) that the agency be notified of any changes in the instruments of financial assurance or financial condition of the person, and (c) that the state be named as an insured party on any insurance policy used to comply with this section. This subsection shall not apply to any person subject to the same requirements under RCW 70.98.095.

The department may continue to collect moneys for the site closure account until the account contains an amount sufficient to complete the closure plan, as specified in the radioactive materials license issued by the department of health.

[1990 c 21 § 4.]

Notes:

Rate regulation anticipated--1990 c 21: "State and national policy directs that the management of low-level radioactive waste shall be accomplished by a system of interstate compacts and the development of regional disposal sites. The Northwest regional compact, comprised of the states of Alaska, Hawaii, Idaho, Montana, Oregon, Utah, and Washington, has as its disposal facility the low-level radioactive waste disposal site located near Richland, Washington. This site is expected to be the sole site for disposal of low-level radioactive waste for compact members effective January 1, 1993. Future closure of this site will require significant financial resources.

Low-level radioactive waste is generated by essential activities and services that benefit the citizens of the state. Washington state's low-level radioactive waste disposal site has been used by the nation and the Northwest compact as a disposal site since 1965. The public has come to rely on access to this site for disposal of low-level radioactive waste, which requires separate handling from other solid and hazardous wastes. The price of disposing of low-level radioactive waste at the Washington state low-level radioactive waste disposal site is anticipated to increase when the federal low-level radioactive waste policy amendments act of 1985 is implemented and waste generated outside the Northwest compact states is excluded. To protect Washington and other Northwest compact states' businesses and services, such as electrical production, medical and university research, and private industries, upon which the public relies, there may be a need to regulate the rates charged by the operator of Washington's low-level radioactive waste disposal site." RCW 43.200.230 Fees for waste generators.

The director of the department of ecology shall require that generators of waste pay a fee for each cubic foot of waste disposed at any facility in the state equal to six dollars and fifty cents. The fee shall be imposed specifically on the generator of the waste and shall not be considered to apply in any way to the low-level site operator's disposal activities. The fee shall be allocated in accordance with RCW 43.200.233 and 43.200.235. This subsection shall be invalidated and the authorization to collect a surcharge removed if the legislature or any administrative agency of the state of Washington prior to January 1, 1993, (1) imposes fees, assessments, or charges other than perpetual care and maintenance, site surveillance, and site closing fees currently applicable to the Hanford commercial low-level waste site operator's activities, (2) imposes any additional fees, assessments, or charges on generators using the Hanford commercial low-level waste site, or (3) increases any existing fees, assessments, or charges.

- (1) During 1993, six dollars and fifty cents per cubic foot of waste;

Nuclear waste site--Election for disapproval: Chapter 29.91 RCW.

RCW 43.205.010 Findings.

The legislature and the people of the state of Washington find that:

(1) In order to solve the problem of high-level radioactive waste disposal, congress established a process for selecting two sites for the safe, permanent, and regionally equitable disposal of such waste.

(2) The process of selecting three sites as final candidates, including the Hanford reservation, for a first high-level nuclear waste repository by the United States department of energy violated the intent and the mandate of congress.

(3) The United States department of energy has prematurely deferred consideration of numerous potential sites and disposal media that its own research indicates are more appropriate, safer, and less expensive.

(4) Placement of a repository at Hanford without methodical and independently verified scientific evaluation will pose a threat to the health and safety of the people and the environment of this state.

(5) The selection process is flawed and not credible because it did not include independent experts in the selection of the sites and in the review of that selection, as recommended by the National Academy of Sciences.

(6) By postponing indefinitely all site specific work for a second repository, the United States department of energy has not complied with the intent of congress expressed in the Nuclear Waste Policy Act, Public Law 97-425, and the fundamental compromise which enabled its enactment.

[1986 ex.s. c 1 § 1.]

RCW 43.205.020 Duties relating to the site selection process for a high-level nuclear waste repository.

In order to achieve complete compliance with federal law and protect the health, safety, and welfare of the people of the state of Washington, the governor, the legislature, other state-wide elected officials, and the nuclear waste board shall use all legal means necessary to:

(1) Suspend the preliminary site selection process for a high-level nuclear waste repository, including the process of site characterization, until there is compliance with the intent of the Nuclear Waste Policy Act;

(2) Reverse the secretary of energy's decision to postpone indefinitely all site specific work on locating and developing a second repository for high-level nuclear waste;

(3) Insist that the United States department of energy's site selection process, when resumed, considers all acceptable geologic media and results in safe, scientifically justified, and regionally and geographically equitable high-level nuclear waste disposal;

(4) Demand that federal budget actions fully and completely follow the intent of the Nuclear Waste Policy Act; and

(5) Continue to pursue alliances with other states and interested parties, particularly with Pacific Northwest governors, legislatures, and other parties, affected by the site selection and transportation of high-level nuclear waste.

SMALL BUSINESS EXPORT FINANCE ASSISTANCE CENTER
(Formerly: Export assistance center)

- 43.210.010 Findings.
- 43.210.020 Small business export finance assistance center authorized--Purposes.

- 43.210.060 Rule-making authority.
- 43.210.130 Minority business export outreach program.

RCW 43.210.010 Findings.

The legislature finds:

(1) The exporting of goods and services from Washington to international markets is an important economic stimulus to the growth, development, and stability of the state's businesses in both urban and rural areas, and that these economic activities create needed jobs for Washingtonians.

(2) Impediments to the entry of many small and medium-sized businesses into export markets have restricted growth in exports from the state.

(3) Particularly significant impediments for many small and medium-sized businesses are the lack of easily accessible information about export opportunities and financing alternatives.

(4) There is a need for a small business export finance assistance center which will specialize in providing export assistance to small and medium-sized businesses throughout the state in acquiring information about export opportunities and financial alternatives for exporting.

[1990 1st ex.s. c 17 § 65; 1985 c 231 § 1; 1983 1st ex.s. c 20 § 1.]

Notes:

Intent--1990 1st ex.s. c 17: "The legislature finds that the Puget Sound region is experiencing economic prosperity and the challenges associated with rapid growth; much of the rest of the state is not experiencing economic prosperity, and faces challenges associated with slow economic growth. It is the intent of the legislature to encourage economic prosperity and balanced economic growth throughout the state.

In order to accomplish this goal, growth must be managed more effectively in the Puget Sound region, and rural areas must build local capacity to accommodate additional economic activity in their communities. Where possible, rural economies and low-income areas should be linked with prosperous urban economies to share economic growth for the benefit of all areas and the state.

To accomplish this goal it is the intent of the legislature to: (1) Assure equitable opportunities to secure prosperity for distressed areas, rural communities, and disadvantaged populations by promoting urban-rural economic links, and by promoting value-added product development, business networks, and increased exports from rural areas; (2) improve the economic development service delivery system to be better able to serve these areas, communities, and populations; (3) redirect the priorities of the state's economic development programs to focus economic development efforts into areas and sectors of the greatest need; (4) build local capacity so that communities are better able to plan for growth and achieve self-reliance; (5) administer grant programs to promote new feasibility studies and project development on projects of interest to rural areas or areas outside of the Puget Sound region; and (6) develop a coordinated economic investment strategy involving state economic development programs, businesses, educational and vocational training institutions, local governments and local economic development organizations, ports, and others." RCW 43.220.060 Powers and duties--Effect on employed workers--Use of facilities, supplies, instruments, and tools of supervising agency.

- (1) Each state department identified in RCW 43.220.020 shall have the following powers and duties to carry out its functions relative to the Washington conservation corps:
 - (a) Recruiting and employing staff, corps members, corps member leaders, and specialists;
 - (b) Executing agreements for furnishing the services of the corps to carry out conservation corps programs to any federal, state, or local public agency, any local organization as specified in this chapter in concern with the overall objectives of the conservation corps;
 - (c) Applying for and accepting grants or contributions of funds from any private source;

(d) Determining a preference for those projects which will provide long-term benefits to the public, will provide productive training and work experiences to the members involved, will be labor-intensive, may result in payments to the state for services performed, and can be promptly completed; and

(e) Entering into agreements with community colleges within the state's community and technical college system and other educational institutions or independent nonprofit agencies to provide special education in basic skills, including reading, writing, and mathematics for those conservation corps members who may benefit by participation in such classes. Classes shall be scheduled after corps working hours. Participation by members is not mandatory but shall be strongly encouraged. The participation shall be a primary factor in determining whether the opportunity for corps membership beyond one year shall be offered. Instruction related to the specific role of the department in resource conservation shall also be offered, either in a classroom setting or as is otherwise appropriate.

(2) The assignment of corps members shall not result in the displacement of currently employed workers, including partial displacement such as reduction in hours of nonovertime work, wages, or other employment benefits. Supervising agencies that participate in the program may not terminate, lay-off, or reduce the working hours of any employee for the purpose of using a corps member with available funds. In circumstances where substantial efficiencies or a public purpose may result, supervising agencies may use corps members to carry out essential agency work or contractual functions without displacing current employees.

(3) Facilities, supplies, instruments, and tools of the supervising agency shall be made available for use by the conservation corps to the extent that such use does not conflict with the normal duties of the agency. The agency may purchase, rent, or otherwise acquire other necessary tools, facilities, supplies, and instruments.

[1999 c 280 § 4; 1987 c 505 § 44; 1983 1st ex.s. c 40 § 6.]

The age requirements may be waived for corps leaders and specialists with special leadership or occupational skills; such members shall be given special responsibility for providing leadership, character development, and sense of community responsibility to the corps members, groups, and work crews to which they are assigned. The upper age requirement may be waived for residents who have a sensory or mental handicap. Special effort shall be made to recruit minority and disadvantaged youth who meet selection criteria of the conservation corps. Preference shall be given to youths residing in areas, both urban and rural, in which there exists substantial unemployment exceeding the state average unemployment rate.

(2) The legislature finds that people with developmental disabilities would benefit from experiencing a meaningful work experience, and learning the value of labor and of membership

in a productive society.

The legislature urges state agencies that are participating in the Washington conservation corps program to consider for enrollment in the program people who have developmental disabilities, as defined in RCW 71A.10.020.

If an agency chooses to enroll people with developmental disabilities in its Washington conservation corps program, the agency may apply to the United States department of labor, employment standards administration for a special subminimum wage certificate in order to be allowed to pay enrollees with developmental disabilities according to their individual levels of productivity.

(3) Corps members shall not be considered state employees. Other provisions of law relating to civil service, hours of work, rate of compensation, sick leave, unemployment compensation, state retirement plans, and vacation leave do not apply to the Washington conservation corps except for the crew supervisors, who shall be project employees, and the administrative and supervisory personnel.

(4) Enrollment shall be for a period of six months which may be extended for additional six-month periods by mutual agreement of the corps and the corps member, not to exceed two years. Corps members shall be reimbursed at the minimum wage rate established by state or federal law, whichever is higher, which may be increased by up to five percent for each additional six-month period worked: PROVIDED, That if agencies elect to run a residential program, the appropriate costs for room and board shall be deducted from the corps member's paycheck as provided in chapter 43.220 RCW.

(5) Corps members are to be available at all times for emergency response services coordinated through the department of community, trade, and economic development or other public agency. Duties may include sandbagging and flood cleanup, search and rescue, and other functions in response to emergencies.

[1999 c 280 § 5; 1995 c 399 § 112; 1990 c 71 § 2; 1988 c 78 § 1; 1986 c 266 § 48. Prior: 1985 c 230 § 7; 1985 c 7 § 110; 1983 1st ex.s. c 40 § 7.]

Notes:

Legislative finding--1990 c 71: "The legislature finds that the Washington conservation corps has proven to be an effective method to provide meaningful work experience for many of the state's young persons. Because of recent, and possible future, increases in the minimum wage laws, it is necessary to make an adjustment in the limitation that applies to corps member reimbursements." [1990 c 71 § 1.]

Severability--1986 c 266: See note following RCW 38.52.005.

RCW 43.220.080 Selection of corps members--Development of corps program.

An employment agreement shall be entered into by the corps member, indicating the member's understanding of, and willingness to abide by, such standards.

In the development of the corps program, consideration shall be given to providing corps members with a beneficial and meaningful work experience. Standards of productivity, behavior, and punctuality shall be developed and observed. Consideration shall be given to the development of a program that deserves the respect of the public, both in terms of service provided and personal development of corps members.

RCW 43.250.010 Purpose.

The purpose of this chapter is to enable political subdivisions, community and technical college districts, and the state board for community and technical colleges as established in chapter 28B.50 RCW to participate with the state in providing maximum opportunities for the investment of surplus public funds consistent with the safety and protection of such funds. The legislature finds and declares that the public interest is found in providing maximum prudent investment of surplus funds, thereby reducing the need for additional taxation. The legislature also recognizes that not all political subdivisions are able to maximize the return on their temporary surplus funds. The legislature therefore provides in this chapter a mechanism whereby political subdivisions, community and technical colleges, and the state board for community and technical colleges may, at their option, utilize the resources of the state treasurer's office to maximize the potential of surplus funds while ensuring the safety of public funds.

RCW 43.270.010 Intent.

The legislature recognizes that state-wide efforts aimed at reducing the incidence of substance abuse must be increased. The legislature further recognizes that the most effective strategy for reducing the impact of alcohol and other drug abuse is through the collaborative efforts of educators, law enforcement, local government officials, local treatment providers, and concerned community and citizens' groups.

The legislature intends to support the development and activities of community mobilization strategies against substance abuse through the following efforts:

(1) Provide funding support for prevention, treatment, and enforcement activities identified by communities that have brought together education, treatment, local government, law enforcement, and other key elements of the community;

(2) Provide technical assistance and support to help communities develop and carry out effective activities; and

(3) Provide communities with opportunities to share suggestions for state program operations and budget priorities.

[1989 c 271 § 315.]

RCW 43.270.020 Grant program--Activities funded.

There is established in the office of the governor a grant program to provide incentive for and support for communities to develop targeted and coordinated strategies to reduce the incidence and impact of substance abuse.

Activities which may be funded through this grant program include those which:

(1) Prevent substance abuse through educational and self-esteem efforts, development of positive alternatives, intervention with high-risk groups, and other prevention strategies;

(2) Support effective treatment by increasing access to and availability of treatment opportunities, particularly for underserved or highly impacted populations, developing aftercare and support mechanisms, and other strategies to increase the availability and effectiveness of treatment;

(3) Provide meaningful consequences for participation in illegal activity and promote safe and healthy communities through support of law enforcement strategies;

(4) Create or build on efforts by existing community programs, coordinate their efforts, and develop cooperative efforts or other initiatives to make most effective use of resources to carry out the community's strategy against substance abuse; and

(5) Other activities which demonstrate both feasibility and a rationale for how the activity will achieve measurable results in the strategy against substance abuse.

[1989 c 271 § 316.]

Notes:

Report to legislature--1989 c 271 § 316: "The governor shall report to the legislature by January 1, 1991, regarding the operations of the grant program authorized in section 316 of this act. At a minimum, the report shall include the following:

(1) Number of grants awarded and the amount of each grant;

(2) Recipients of grants, including the communities in which they are based;

(2) In order to encourage and reward communities which develop coordinated or complementary strategies within geographic areas which correspond to units of government with significant responsibilities in the area of substance abuse, up to fifty percent of funds appropriated for the purposes of this chapter may be awarded on a per capita basis to eligible applications reflecting coordinated strategy from a county area or group of county areas. The governor may establish minimum allotments per eligible county areas up to fifteen thousand dollars; and

(3) No less than fifty percent of funds appropriated under this chapter shall be awarded on a competitive basis for activities by communities not participating in a county-wide strategy and

activities identified by county-wide strategies but not funded through per capita grants. Eligible applications will be assessed and compared by a peer review committee whose members have experience in prevention, treatment, law enforcement, and other community efforts against substance abuse using the following criteria:

- (b) The extent to which key elements of the community are involved in and committed to the coordinated strategy;
- (c) The extent of commitments of local resources to the coordinated strategy;

The peer review committee will advise the governor on the extent to which each eligible applicant has met these criteria. The governor will distribute available funds based on this information.

(4) The governor shall distribute fifty percent of the initial appropriation for the purposes of this chapter no later than October 1, 1989, and the remainder no later than July 1, 1990.

The governor or appropriate agency officials shall review and respond to those suggestions making necessary changes where feasible, making recommendations to the legislature where appropriate, and providing an explanation as to why suggested changes cannot be accomplished, if the suggestions cannot be acted upon.

[1989 c 271 § 321.]

RCW 43.280.010 Intent.

The legislature recognizes the need to increase the services available to the victims of sex offenders. The legislature also recognizes that these services are most effectively planned and provided at the local level through the combined efforts of concerned community and citizens groups, treatment providers, and local government officials. The legislature further recognizes that adequate treatment for victims is not only a matter of justice for the victim, but also a method by which additional abuse can be prevented.

The legislature intends to enhance the community-based treatment services available to the victims of sex offenders by:

- (1) Providing consolidated funding support for local treatment programs which provide services to victims of sex offenders;
- (2) Providing technical assistance and support to help communities plan for and provide treatment services;
- (3) Providing sexual assault services with a victim-focused mission, and consistent standards, policies, and contracting and reporting requirements; and
- (4) Providing communities and local treatment providers with opportunities to share information about successful prevention and treatment programs.

RCW 43.280.011 Intent, approval of committee recommendations, distribution of services--1996 c 123.

The Washington state sexual assault services advisory committee issued a report to the department of community, trade, and economic development and the department of social and health services in June of 1995. The committee made several recommendations to improve the delivery of services to victims of sexual abuse and assault: (1) Consolidate the administration and funding of sexual assault and abuse services in one agency instead of splitting those functions between the department of social and health services and the department of community, trade, and economic development; (2) adopt a funding allocation plan to pool all funds for sexual assault services and to distribute them across the state to ensure the delivery of core and specialized services; (3) establish service, data collection, and management standards and outcome measurements for recipients of grants; and (4) create a data collection system to gather pertinent data concerning the delivery of sexual assault services to victims.

The legislature approves the recommendations of the advisory committee and consolidates the functions and funding for sexual assault services in the department of community, trade, and economic development to implement the advisory committee's recommendations.

The legislature does not intend to effect a reduction in service levels within available funding by transferring department of social and health services' powers and duties to the department of community, trade, and economic development. At a minimum, the department of community, trade, and economic development shall distribute the same percentage of the services it provides victims of sexual assault and abuse, pursuant to RCW 43.280.020, 70.125.080, and 74.14B.060, to children as were distributed to children through these programs in fiscal year 1996.

RCW 43.280.020 Grant program--Funding.

There is established in the department of community, trade, and economic development a grant program to enhance the funding for treating the victims of sex offenders. Activities that can be funded through this grant program are limited to those that:

- (1) Provide effective treatment to victims of sex offenders;

- (3) Create or build on efforts by existing community programs, coordinate those efforts, or develop cooperative efforts or other initiatives to make the most effective use of resources to provide treatment services to these victims.

Funding shall be given to those applicants that emphasize providing stable,

victim-focused sexual abuse services and possess the qualifications to provide core services, as defined in RCW 70.125.030. Funds for specialized services, as defined in RCW 70.125.030, shall be disbursed through the request for proposal or request for qualifications process.

RCW 43.290.005 Finding--Purpose.

The legislature finds that it is in the public interest to create an office of international relations and protocol in order to: Make international relations and protocol a broad-based,

focused, and functional part of state government; develop and promote state policies that increase international literacy and cross-cultural understanding among Washington state's citizens; expand Washington state's international cooperation role in such areas as the environment, education, science, culture, and sports; establish coordinated methods for responding to the increasing number of inquiries by foreign governments and institutions seeking cooperative activities within Washington state; provide leadership in state government on international relations and assistance to the legislature and state elected officials on international issues affecting the state; assist with multistate international efforts; and coordinate and improve communication and resource sharing among various state offices, agencies, and educational institutions with international programs.

It is the purpose of this chapter to bring these functions together in a new office under the office of the governor in order to establish a visible, coordinated, and comprehensive approach to international relations and protocol.

All powers, duties, and functions of the department of fisheries and the department of wildlife are transferred to the department of fish and wildlife. All references in the Revised Code of Washington to the director or the department of fisheries or the director or department of wildlife shall be construed to mean the director or department of fish and wildlife.

(2) As used in this section, an exchange of tidelands and shorelands is in the public interest if the exchange would provide significant fish and wildlife habitat or public access to the state's waterways.

[1997 c 209 § 3.]

Notes:

Finding--1997 c 209: "The legislature finds that the department of fish and wildlife manages a large amount of public land and that the department may have opportunities to improve the quality of its land holdings by participating in an exchange with private landowners or other public entities. The legislature declares that it is in the public interest to allow the department to exchange land with private landowners or with public entities if the

exchange would provide significant fish and wildlife habitat or public access to the state's waterways." [1997 c 209 § 1.]

Effective date--1997 c 209: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [April 25, 1997]." [1997 c 209 § 4.]

For purposes of this section, a complex project is a project for which an environmental impact statement is required under chapter 43.21C RCW.

(2) The written cost-reimbursement agreement shall be negotiated with the permit applicant. Under the provisions of a cost-reimbursement agreement, funds from the applicant shall be used by the department to contract with an independent consultant to carry out the work covered by the cost-reimbursement agreement. The department may also use funds provided under a cost-reimbursement agreement to assign current staff to review the work of the consultant, to provide necessary technical assistance when an independent consultant with comparable technical skills is unavailable, and to recover reasonable and necessary direct and indirect costs that arise from processing the permit. The department shall, in developing the agreement, ensure that final decisions that involve policy matters are made by the agency and not by the consultant. The department shall make an estimate of the number of permanent staff hours to process the permits, and shall contract with consultants to replace the time and functions committed by these permanent staff to the project. The billing process shall provide for accurate time and cost accounting and may include a billing cycle that provides for progress payments. Use of cost-reimbursement agreements shall not reduce the current level of staff available to work on permits not covered by cost-reimbursement agreements. The department may not use any funds under a cost-reimbursement agreement to replace or supplant existing funding. The restrictions of chapter 42.52 RCW apply to any cost-reimbursement agreement, and to any person hired as a result of a cost-reimbursement agreement.

(3) The department may not enter into any new cost-reimbursement agreements on or after July 1, 2005. The department may continue to administer any cost-reimbursement agreement which was entered into before July 1, 2005, until the project is completed.

43.310.040	Cultural awareness retreats.

RCW 43.310.005 Finding.

The legislature finds and declares that:

(1) The number of youth who are members and associates of gangs and commit gang violence has significantly increased throughout the entire greater Puget Sound, Spokane, and other areas of the state;

(2) Youth gang violence has caused a tremendous strain on the progress of the communities impacted. The loss of life, property, and positive opportunity for growth caused by youth gang violence has reached intolerable levels. Increased youth gang activity has seriously strained the budgets of many local jurisdictions, as well as threatened the ability of the educational system to educate our youth;

(3) Among youth gang members the high school drop-out rate is significantly higher than among nongang members. Since the economic future of our state depends on a highly educated and skilled work force, this high school drop-out rate threatens the economic welfare of our future work force, as well as the future economic growth of our state;

(4) The unemployment rate among youth gang members is higher than that among the general youth population. The unusual unemployment rate, lack of education and skills, and the increased criminal activity could significantly impact our future prison population;

(5) Most youth gangs are subcultural. This implies that gangs provide the nurturing, discipline, and guidance to gang youth and potential gang youth that is generally provided by communities and other social systems. The subcultural designation means that youth gang participation and violence can be effectively reduced in Washington communities and schools through the involvement of community, educational, criminal justice, and employment systems working in a unified manner with parents and individuals who have a firsthand knowledge of youth gangs and at-risk youth; and

(6) A strong unified effort among parents and community, educational, criminal justice, and employment systems would facilitate: (a) The learning process; (b) the control and reduction of gang violence; (c) the prevention of youth joining negative gangs; and (d) the intervention into youth gangs.

[1993 c 497 § 1.]

RCW 43.310.007 Intent--Prevention and intervention pilot programs.

It is the intent of the legislature to cause the development of positive prevention and intervention pilot programs for elementary and secondary age youth through cooperation between individual schools, local organizations, and government. It is also the intent of the legislature that if the prevention and intervention pilot programs are determined to be effective in reducing problems associated with youth gang violence, that other counties in the state be eligible to receive special state funding to establish similar positive prevention and intervention programs.

[1993 c 497 § 2.]

RCW 43.310.010 Definitions.

Unless the context otherwise requires, the following definitions shall apply throughout RCW 43.310.005 through 43.310.040 and *sections 5 and 7 through 10, chapter 497, Laws of 1993:

(1) "School" means any public school within a school district any portion of which is in a county with a population of over one hundred ninety thousand.

(2) "Community organization" means any organization recognized by a city or county as such, as well as private, nonprofit organizations registered with the secretary of state.

(3) "Gang risk prevention and intervention pilot program" means a community-based positive prevention and intervention program for gang members, potential gang members, at-risk youth, and elementary through high school-aged youth directed at all of the following:

(a) Reducing the probability of youth involvement in gang activities and consequent violence.

(b) Establishing ties, at an early age, between youth and community organizations.

(c) Committing local business and community resources to positive programming for youth.

(d) Committing state resources to assist in creating the gang risk prevention and

intervention pilot programs.

(4) "Cultural awareness retreat" means a program that temporarily relocates at-risk youth or gang members and their parents from their usual social environment to a different social environment, with the specific purpose of having them performing activities which will enhance or increase their positive behavior and potential life successes.

[1993 c 497 § 3.]

RCW 43.310.020 Gang risk prevention and intervention pilot programs--Request for proposals.

(1) The department of community, trade, and economic development may recommend existing programs or contract with either school districts or community organizations, or both, through a request for proposal process for the development, administration, and implementation in the county of community-based gang risk prevention and intervention pilot programs.

(2) Proposals by the school district for gang risk prevention and intervention pilot program grant funding shall begin with school years no sooner than the 1994-95 session, and last for a duration of two years.

(3) The school district or community organization proposal shall include:

(a) A description of the program goals, activities, and curriculum. The description of the program goals shall include a list of measurable objectives for the purpose of evaluation by the department of community, trade, and economic development. To the extent possible, proposals shall contain empirical data on current problems, such as drop-out rates and occurrences of violence on and off campus by school-age individuals.

(b) A description of the individual school or schools and the geographic area to be affected by the program.

(c) A demonstration of broad-based support for the program from business and community organizations.

(4) Grants awarded under this section may not be used for the administrative costs of the school district or the individual school.

(1) Counseling for targeted at-risk students, parents, and families, individually and collectively.

(2) Exposure to positive sports and cultural activities, promoting affiliations between youth and the local community.

(7) The use of specified state resources, as requested.

(8) Full service schools under *section 9 of this act.

RCW 43.31C.005 Findings--Declaration.

(1) The legislature finds that:

(a) There are geographic areas within communities that are characterized by a lack of employment opportunities, an average income level that is below the median income level for the surrounding community, a lack of affordable housing, deteriorating infrastructure, and a lack of facilities for community services, job training, and education;

(b) Strategies to encourage reinvestment in these areas by assisting local businesses to become stronger and area residents to gain economic power involve a variety of activities and partnerships;

(c) Reinvestment in these areas cannot be accomplished with only governmental resources and require a comprehensive approach that integrates various incentives, programs, and initiatives to meet the economic, physical, and social needs of the area;

(d) Successful reinvestment depends on a local government's ability to coordinate public resources in a cohesive, comprehensive strategy that is designed to leverage long-term private investment in an area;

(e) Reinvestment can strengthen the overall tax base through increased tax revenue from expanded and new business activities and physical property improvement;

(f) Local governments, in cooperation with area residents, can provide leadership as well as planning and coordination of resources and necessary supportive services to address reinvestment in the area; and

(g) It is in the public interest to adopt a targeted approach to revitalization and enlist the resources of all levels of government, the private sector, community-based organizations, and community residents to revitalize an area.

(2) The legislature declares that the purposes of the community empowerment zone act are to:

(a) Encourage reinvestment through strong partnerships and cooperation between all levels of government, community-based organizations, area residents, and the private sector;

(b) Involve the private sector and stimulate private reinvestment through the judicious use of public resources;

(c) Target governmental resources to those areas of greatest need; and

(d) Include all levels of government, community individuals, organizations, and the private sector in the policy-making process.

[2000 c 212 § 1.]

RCW 43.320.005 Finding.

The legislature finds that, given the overlap of powers and products in the companies regulated, the consolidation of the agencies regulating financial institutions and securities into one department will better serve the public interest through more effective use of staff expertise. Therefore, for the convenience of administration and the centralization of control and the more effective use of state resources and expertise, the state desires to combine the regulation of financial institutions and securities into one department.

[1993 c 472 § 1.]

RCW 43.320.007 Regulatory reform--Findings--Construction--1994 c 256.

(1) The legislature finds that the financial services industry is experiencing a period of rapid change with the development and delivery of new products and services and advances in technology.

(2) The legislature further finds it in the public interest to strengthen the regulation, supervision, and examination of business entities furnishing financial services to the people of this state and that this can be accomplished by streamlining and focusing regulation to reduce costs, increase effectiveness, and foster efficiency by eliminating requirements that are not necessary for the protection of the public.

(3) The provisions of chapter 256, Laws of 1994 should not be construed to limit the ability of the director of financial institutions to implement prudent regulation, prevent unsafe, unsound, and fraudulent practices, and undertake necessary enforcement actions to protect the public and promote the public interest.

[1994 c 256 § 1.]

RCW 43.320.010 Department created.

A state department of financial institutions, headed by the director of financial institutions, is created. The department shall be organized and operated in a manner that to the fullest extent permissible under applicable law protects the public interest, protects the safety and soundness of depository institutions and entities under the jurisdiction of the department, ensures access to the regulatory process for all concerned parties, and protects the interests of investors. The department of financial institutions shall be structured to reflect the unique differences in the types of institutions and areas it regulates.

[1993 c 472 § 2.]

RCW 43.320.011 Department of general administration and department of licensing powers and duties transferred.

(1) All powers, duties, and functions of the department of general administration under Titles 30, 31, 32, 33, and 43 RCW and any other title pertaining to duties relating to banks, savings banks, foreign bank branches, savings and loan associations, credit unions, consumer loan companies, check cashers and sellers, trust companies and departments, and other similar institutions are transferred to the department of financial institutions. All references to the director of general administration, supervisor of banking, or the supervisor of savings and loan associations in the Revised Code of Washington are construed to mean the director of the department of financial institutions when referring to the functions transferred in this section. All references to the department of general administration in the Revised Code of Washington are construed to mean the department of financial institutions when referring to the functions transferred in this subsection.

(2) All powers, duties, and functions of the department of licensing under chapters 18.44, 19.100, 19.110, 21.20, 21.30, and 48.18A RCW and any other statute pertaining to the regulation under the chapters listed in this subsection of escrow agents, securities, franchises, business opportunities, commodities, and any other speculative investments are transferred to the department of financial institutions. All references to the director or department of licensing in the Revised Code of Washington are construed to mean the director or department of financial institutions when referring to the functions transferred in this subsection.

Trade and economic development, programs of former department of: Chapter 43.31 RCW.

RCW 43.330.005 Intent.

The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a merged department of community, trade, and economic development that fosters new partnerships for strong and sustainable communities. The consolidation of the department of trade and economic development and the department of community development into one department will: Streamline access to services by providing a simpler point of entry for state programs; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; and increase accountability to the public, the executive branch, and the legislature.

A new department can bring together a focused effort to: Manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship;

provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; construct public infrastructure; protect our cultural heritage; and promote the health and safety of the state's citizens.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in this consolidation to maximize the use of local expertise and resources in the delivery of community and economic development services.

[1993 c 280 § 1.]

RCW 43.330.007 Management responsibility.

RCW 43.330.195 Developmental disabilities endowment--Definitions.

The definitions in this section apply throughout RCW 43.330.200 through 43.330.230.

(1) "Developmental disability" has the meaning in RCW 71A.10.020(3).

(2) "Developmental disabilities endowment trust fund" means the fund established in the custody of the state treasurer in RCW 43.330.200, comprised of private, public, or private and public sources, to finance services for persons with developmental disabilities. All moneys in the fund, all property and rights purchased from the fund, and all income attributable to the fund, shall be held in trust by the state investment board, as provided in RCW 43.33A.030, for the exclusive benefit of fund beneficiaries. The principal and interest of the endowment fund must be maintained until such time as the governing board policy specifies except for the costs and expenses of the state treasurer and the state investment board otherwise provided for in chapter 120, Laws of 2000.

(3) "Governing board" means the developmental disabilities endowment governing board in RCW 43.330.205.

(4) "Individual trust account" means accounts established within the endowment trust fund for each individual named beneficiary for the benefit of whom contributions have been made to the fund. The money in each of the individual accounts is held in trust as provided for in subsection (2) of this section, and shall not be considered state funds or revenues of the state. The governing board serves as administrator, manager, and recordkeeper for the individual trust accounts for the benefit of the individual beneficiaries. The policies governing the disbursements, and the qualifying services for the trust accounts, shall be established by the governing board. Individual trust accounts are separate accounts within the developmental disabilities endowment trust fund, and are invested for the beneficiaries through the endowment trust fund.

[2000 c 120 § 2.]

RCW 43.330.200 Developmental disabilities endowment--Trust fund.

state investment board and the state treasurer as specified in subsection (2) of this section. Only the developmental disabilities endowment governing board or the board's designee may authorize expenditures from the fund. The fund shall retain its interest earnings in accordance with RCW 43.79A.040.

(2) The developmental disabilities endowment governing board shall deposit in the fund all money received for the program, including state appropriations and private contributions. With the exception of investment and operating costs associated with the investment of money by the investment board paid under RCW 43.33A.160 and 43.84.160 and the expenses and operating costs of the state treasurer paid under RCW 43.08.190 and 43.79A.040, the fund shall be credited with all investment income earned by the fund. Disbursements from the fund are exempt from appropriations and the allotment provisions of chapter 43.88 RCW. However, money used for program administration by the department or the governing board is subject to the allotment and budgetary controls of chapter 43.88 RCW, and an appropriation is required for these expenditures.

Notes:

Intent--1999 c 384: "The legislature recognizes that the main and most enduring support for persons with developmental disabilities, along with public resources, is their immediate and extended families. The legislature recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled family member when the family can no longer provide that care. It is the intent of the legislature to encourage and assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled family member. To further these objectives, this chapter is enacted to finance lifetime services and supports for persons with developmental disabilities through an endowment funded jointly by the investment of public funds and dedicated family contributions.

The establishment of this endowment is not intended to diminish the state's responsibility for funding services currently available to future endowment participants, subject to available funding, nor is it the intent of the legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on the public." RCW 43.330.205 Developmental disabilities endowment--Authority of state investment board--Authority of governing board.

(1) The state investment board has the full power to invest, reinvest, manage, contract, sell, or exchange investment money in the developmental disabilities endowment trust fund. All investment and operating costs associated with the investment of money shall be paid under RCW 43.33A.160 and 43.84.160. With the exception of these expenses, the earnings from the investment of the money shall be retained by the fund.

(2) All investments made by the state investment board shall be made with the exercise of that degree of judgment and care under RCW 43.33A.140 and the investment policy established by the state investment board.

(3) As deemed appropriate by the investment board, money in the fund may be

commingled for investment with other funds subject to investment by the board.

(4) The authority to establish all policies relating to the fund, other than the investment policies as set forth in subsections (1) through (3) of this section, resides with the governing board acting in accordance with the principles set forth in RCW 43.330.220. With the exception of expenses of the state treasurer in RCW 43.330.200 and the investment board set forth in subsection (1) of this section, disbursements from the fund shall be made only on the authorization of the governing board or the board's designee, and money in the fund may be spent only for the purposes of the developmental disabilities endowment program as specified in this chapter.

(5) The investment board shall routinely consult and communicate with the governing board on the investment policy, earnings of the trust, and related needs of the program.

(c) The seventh member of the board, who shall serve as chair of the board, shall be appointed by the remaining six members of the board.

(2) Members of the board shall serve terms of four years and may be appointed for successive terms of four years at the discretion of the appointing authority. However, the governor may stagger the terms of the initial six members of the board so that approximately one-fourth of the members' terms expire each year.

(3) Members of the board shall be compensated for their service under RCW 43.03.240 and shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060.

[inaction] of the other.

(6) Members of the governing board and the state investment board are not liable to the state, to the fund, or to any other person as a result of their activities as members, whether ministerial or discretionary, except for willful dishonesty or intentional violations of law. RCW 43.330.220 Developmental disabilities endowment--Endowment principles.

The design, implementation, and administration of the developmental disabilities endowment shall be governed by the following principles:

(1) The design and operation of the endowment should reward families who set aside resources for their child's future care and provide incentives for continued caregiving by the family.

(2) The endowment should encourage financial planning and reward caregiving by a broad range of families, not just those who have substantial financial resources.

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(4) All families should have equal access to developmental disabilities services not funded through the endowment regardless of whether they contribute to the endowment.

(5) Services funded through the endowment should be stable, ongoing, of reasonable quality, and respectful of individual and family preferences.

(6) Endowment resources should be expended economically in order to benefit as many families as possible.

(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(9) In order to be matched with funding from the state's contribution to the endowment, the private contribution on behalf of a beneficiary must be sufficient to support the beneficiary's approved service plan for a significant portion of the beneficiary's anticipated remaining lifetime.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

(12) State funds contributed to the developmental disabilities endowment trust fund are to

support the individual trust accounts established by individual private contributions made by families or other interested persons for named individual beneficiaries.

(13) The governing board shall explore methods to solicit private donations. The governing board shall explore mechanisms to support individuals with developmental disabilities who do not have individual private contributions made on their behalf. The governing board shall establish policies for the use of any private donations.

(14) Types of services funded by money managed through the developmental disabilities endowment trust fund shall be approved by the governing board or its designee.

RCW 43.330.225 Developmental disabilities endowment--Development of operating plan--Elements.

To the extent funds are appropriated for this purpose, the governing board shall contract with an appropriate organization for the development of a proposed operating plan for the developmental disabilities endowment program. The proposed operating plan shall be consistent with the endowment principles specified in RCW 43.330.220. The plan shall address at least the following elements:

(1) The recommended types of services to be available through the endowment program and their projected average costs per beneficiary;

(2) An assessment of the number of people likely to apply for participation in the endowment under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(3) An actuarial analysis of the number of disabled beneficiaries who are likely to be supported under alternative levels of public contribution to the endowment, and the length of time the beneficiaries are likely to be served, under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(4) Recommended eligibility criteria for participation in the endowment program;

(5) Recommended policies regarding withdrawal of private contributions from the endowment in cases of movement out of state, death of the beneficiary, or other circumstances;

(6) Recommended matching rate of public and private contributions and, for each beneficiary, the maximum annual and lifetime amount of private contributions eligible for public matching funds;

(7) The recommended minimum years of service on behalf of a beneficiary that must be supported by private contributions in order for the contributions to qualify for public matching funds from the endowment;

(8) The recommended schedule according to which lump sum or periodic private contributions should be made to the endowment in order to qualify for public matching funds;

(9) A recommended program for educating families about the endowment, and about

planning for their child's long-term future; and

(10) Recommended criteria and procedure for selecting an organization or organizations to administer the developmental disabilities endowment program, and projected administrative costs.

RCW 43.330.230 Developmental disabilities endowment--Program implementation and administration.

Based on the proposed operating plan under RCW 43.330.225, and to the extent funds are appropriated for this purpose, the developmental disabilities endowment governing board shall implement and administer, or contract for the administration of, the developmental disabilities endowment program under the principles specified in RCW 43.330.220. By December 1, 2000, and prior to implementation, the final program design shall be submitted to the appropriate committees of the legislature.

The secretary of the department of social and health services shall seek to maximize federal reimbursement and matching funds for expenditures made under the endowment program, and shall seek waivers from federal requirements as necessary for the receipt of federal funds.

The governing board may receive gifts, grants, and endowments from public or private sources as may be made from time to time, in trust or otherwise, for the use and benefit of the purposes of the endowment program and may expend the gifts, grants, and endowments according to their terms.

(1) All powers, duties, and functions of the state energy office relating to energy resource policy and planning and energy facility siting are transferred to the department of community, trade, and economic development. All references to the director or the state energy office in the Revised Code of Washington shall be construed to mean the director or the department of community, trade, and economic development when referring to the functions transferred in this section.

The director shall appoint an assistant director for energy policy, and energy policy staff shall have no additional responsibilities beyond activities concerning energy policy.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material in the possession of the state energy office pertaining to the powers, functions, and duties transferred shall be delivered to the custody of the department of community, trade, and

(b) Any appropriations made to the state energy office for carrying out the powers, functions, and duties transferred shall, on July 1, 1996, be transferred and credited to the department of community, trade, and economic development.

(c) Whenever any question arises as to the transfer of any funds, books, documents, records, papers, files, software, data base, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All employees of the state energy office engaged in performing the powers, functions, and duties pertaining to the energy facility site evaluation council are transferred to the jurisdiction of the department of community, trade, and economic development. All employees engaged in energy facility site evaluation council duties classified under chapter 41.06 RCW, the state civil service law, are assigned to the department of community, trade, and economic development to perform their usual duties upon the same terms as formerly, without any loss of rights, subject to any action that may be appropriate thereafter in accordance with the laws and rules governing state civil service.

Notes:

Findings--Intent--1996 c 186: "The legislature finds responsibilities of state government need to be limited to core services in support of public safety and welfare. Services provided by the Washington state energy office are primarily advisory and can be eliminated. The legislature further finds a need to redefine the state's role in energy-related regulatory functions. The state may be better served by allowing regulatory functions to be performed by other appropriate entities, simplifying state government while maintaining core services. Further, it is the intent of the legislature that the state continue to receive oil overcharge restitution funds for our citizens while every effort is being made to maximize federal funds available for energy conservation purposes." (3) The plan approved by the commission, with any amendment approved by the legislature, shall be final upon approval of such amendment or after expiration of the time provided for legislative amendment by subsection (2) of this section whichever occurs first, and shall constitute the districting law applicable to this state for legislative and congressional elections, beginning with the next elections held in the year ending in two. Sec. 2. The definitions set forth in RCW 44.05.020 apply throughout this plan, unless the context requires otherwise.

Sec. 3. In every case the population of the congressional and legislative districts described by this plan has been ascertained on the basis of the total number of persons found inhabiting such areas as of January 1, 1990, in accordance with the 1990 federal decennial census data submitted pursuant to P.L. 94-171.

(d) The 1990 United States federal decennial census data submitted pursuant to P.L. 94-171 shall be used for determining the number of inhabitants under this plan.

(e) If any court of competent jurisdiction requires nonresident military personnel that were not included in the United States census bureau data to be included, these persons shall be included in the population of the district or districts from which the persons were excluded.

Sec. 5. For purposes of this plan, districts shall be described in terms of:

(1) Official United States census bureau tracts, block numbering areas, block groups, blocks, or census county divisions established by the United States bureau of the census in the 1990 federal decennial census;

(2) Counties, municipalities, or other political subdivisions as they existed on January 1, 1990;

(3) Any natural or artificial boundaries or monuments including but not limited to rivers, streams, or lakes as they existed on January 1, 1990;

Revised Code of Washington 2000

Sec. 10. The commission intends that existing law shall continue to govern such matters as the terms and dates of election for members of the senate to be elected from each district, the status of "hold-over" senators, and the elections to fill vacancies, when required, provided that districts referred to in existing law and designated by number (without regard to any letter following that number) shall refer to districts of the same number described in this plan, beginning with the next elections in 1992.

Sec. 11. This commission intends that this plan supersede the district boundaries established by chapter 288, Laws of 1981 and chapter 17, Laws of 1983, and acknowledges that it is inconsistent with certain provisions of existing law, including but not limited to RCW 44.07B.001, RCW 44.07B.002, RCW 44.07B.005 through RCW 44.07B.800, RCW 44.07B.840, and RCW 29.69A.001 through RCW 29.69A.080.

RCW 44.28.005 Definitions.

Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Legislative auditor" means the executive officer of the joint legislative audit and review committee.

(2) "Economy and efficiency audits" means performance audits that establish: (a) Whether a state agency or unit of local government receiving state funds is acquiring, protecting, and using its resources such as personnel, property, and space economically and efficiently; (b) the causes of inefficiencies or uneconomical practices; and (c) whether the state agency or local government has complied with significant laws and rules in acquiring, protecting, and using its resources.

(3) "Final compliance report" means a written document, as approved by the joint committee, that states the specific actions a state agency or unit of local government receiving state funds has taken to implement recommendations contained in the final performance audit report and the preliminary compliance report. Any recommendations, including proposed legislation and changes in the agency's rules and practices or the local government's practices, based on testimony received, must be included in the final compliance report.

(4) "Final performance audit report" means a written document adopted by the joint legislative audit and review committee that contains the findings and proposed recommendations made in the preliminary performance audit report, the final recommendations adopted by the joint committee, any comments to the preliminary performance audit report by the joint committee, and any comments to the preliminary performance audit report by the state agency or local government that was audited.

(5) "Joint committee" means the joint legislative audit and review committee.

(6) "Local government" means a city, town, county, special purpose district, political subdivision, municipal corporation, or quasi-municipal corporation, including a public corporation created by such an entity.

(10) "Preliminary performance audit report" means a written document prepared for review and comment by the joint legislative audit and review committee after the completion of a performance audit. The preliminary performance audit report must contain the audit findings and any proposed recommendations to improve the efficiency, effectiveness, or accountability of the state agency or local government audited.

[1996 c 288 § 2.]

Notes:

Findings and intent--1996 c 288: "The public expects the legislature to address citizens' increasing demand for the basic services of state government, while limiting the growth in spending. The public demands that public officials and state employees be accountable to provide maximum value for every dollar entrusted to state government. The public believes that it is possible to improve the responsiveness of state government and to save the taxpayers' money, and that efficiency and effectiveness should result in savings.

The legislature, public officials, state employees, and citizens need to know the extent to which state agencies, programs, and activities are achieving the purposes for which they were created. It is essential to compare the conditions, problems, and priorities that led to the creation of government programs with current conditions, problems, and priorities, and to examine the need for and performance of those programs in the current environment.

Along with examining the performance of state agencies and programs, the legislature, public officials, state employees, and citizens must also consider the effect that state government programs can reasonably expect to have on citizens' lives, how the level of programs and services of Washington state government compares with that of other states, and alternatives for service delivery, including other levels of government and the private sector including not-for-profit organizations. It is essential that the legislature, public officials, state employees, and citizens share a common understanding of the role of state government. The performance and relative priority of state agency programs and activities must be the basis for managing and allocating resources within Washington state government.

It is the intent of the legislature to strengthen the role of the current legislative budget committee so that it may more effectively examine how efficiently state agencies perform their responsibilities and whether the agencies are achieving their goals, and whether units of local government are using state funds for their intended purpose in an efficient and effective manner. It is also the intent of the legislature to enact a clear set of definitions for different types of audits in order to eliminate confusion with regard to government reviews." [1996 c 288 § 1.]

RCW 44.28.010 Committee created--Members.

The joint legislative audit and review committee is created, which shall consist of eight senators and eight representatives from the legislature. The senate members of the committee

shall be appointed by the president of the senate, and the house members of the committee shall be appointed by the speaker of the house. If before the close of a regular session during an odd-numbered year, the governor issues a proclamation convening the legislature into special session, or the legislature by resolution convenes the legislature into special session, following such regular session, then such appointments shall be made as a matter of closing business of such special session. Members shall be subject to confirmation, as to the senate members by the senate, and as to the house members by the house. In the event of a failure to appoint or confirm joint committee members, the members of the joint committee from either house in which there is a failure to appoint or confirm shall be elected by the members of such house.

The term of office of joint committee members who do not continue to be members of the senate and house ceases upon the convening of the next regular session of the legislature during an odd-numbered year after their confirmation, election or appointment. RCW 44.28.083 Performance audit work plans.

(1) During the regular legislative session of each odd-numbered year, beginning with 1997, the joint legislative audit and review committee shall develop and approve a performance audit work plan for the subsequent sixteen to twenty-four-month period and an overall work plan that identifies state agency programs for which formal evaluation appears necessary. Among the factors to be considered in preparing the work plans are:

(a) Whether a program newly created or significantly altered by the legislature warrants continued oversight because (i) the fiscal impact of the program is significant, or (ii) the program represents a relatively high degree of risk in terms of reaching the stated goals and objectives for that program;

(b) Whether implementation of an existing program has failed to meet its goals and objectives by any significant degree; and

(c) Whether a follow-up audit would help ensure that previously identified recommendations for improvements were being implemented.

(2) The project description for each performance audit must include start and completion dates, the proposed approach, and cost estimates.

(3) The legislative auditor may consult with the chairs and staff of appropriate legislative committees, the state auditor, and the director of financial management in developing the performance audit work plan.

(4) The performance audit work plan and the overall work plan may include proposals to

employ contract resources. As conditions warrant, the performance audit work plan and the overall work plan may be amended from time to time. All performance audit work plans shall be transmitted to the appropriate fiscal and policy committees of the senate and the house of representatives no later than the sixtieth day of the regular legislative session of each odd-numbered year, beginning with 1997. All overall work plans shall be transmitted to the appropriate fiscal and policy committees of the senate and the house of representatives.

RCW 44.28.088 Performance audit reports--Preliminary, final.

(1) When the legislative auditor has completed a performance audit authorized in the performance audit work plan, the legislative auditor shall transmit the preliminary performance audit report to the affected state agency or local government and the office of financial management for comment. The agency or local government and the office of financial management shall provide any response to the legislative auditor within thirty days after receipt of the preliminary performance audit report unless a different time period is approved by the joint committee. The legislative auditor shall incorporate the response of the agency or local government and the office of financial management into the final performance audit report.

(2) Before releasing the results of a performance audit to the legislature or the public, the legislative auditor shall submit the preliminary performance audit report to the joint committee for its review, comments, and final recommendations. Any comments by the joint committee must be included as a separate addendum to the final performance audit report. Upon consideration and incorporation of the review, comments, and recommendations of the joint committee, the legislative auditor shall transmit the final performance audit report to the affected agency or local government, the director of financial management, the leadership of the senate and the house of representatives, and the appropriate standing committees of the house of representatives and the senate and shall publish the results and make the report available to the public. For purposes of this section, "leadership of the senate and the house of representatives" means the speaker of the house, the majority leaders of the senate and the house of representatives, the minority leaders of the senate and the house of representatives, the caucus chairs of both major political parties of the senate and the house of representatives, and the floor leaders of both major political parties of the senate and the house of representatives.

performance audit recommendations. The agency or local government may attach its comments to the joint committee's preliminary compliance report as a separate addendum.

(2) Within three months after the issuance of the preliminary compliance report, the joint committee may hold at least one public hearing and receive public testimony regarding the findings and recommendations contained in the preliminary compliance report. The joint committee may waive the public hearing requirement if the preliminary compliance report demonstrates that the agency or local government is in compliance with the audit recommendations. The joint committee shall issue any final compliance report within four weeks after the public hearing or hearings. The legislative auditor shall transmit the final compliance report in the same manner as a final performance audit is transmitted under RCW 44.28.088.

(1) The department of licensing is authorized to accept checks and money orders for payment of drivers' licenses, certificates of ownership and registration, motor vehicle excise taxes, gross weight fees, and other fees and taxes collected by the department, in accordance with

Fee revision recommendations may be made more frequently when justified by the annual analysis and evaluation, and requested by the title and registration advisory committee.

(2) The annual comprehensive analysis and evaluation must consider, but is not limited to:

(2) "Salvage vehicle" means a vehicle whose certificate of ownership has been surrendered to the department under RCW 46.12.070 due to the vehicle's destruction or declaration as a total loss or for which there is documentation indicating that the vehicle has been declared salvage or has been damaged to the extent that the owner, an insurer, or other person acting on behalf of the owner, has determined that the cost of parts and labor plus the salvage value has made it uneconomical to repair the vehicle. The term does not include a motor vehicle having a model year designation of a calendar year that is at least six years before the calendar year in which the vehicle was wrecked, destroyed, or damaged.

RCW 46.12.101 Transfer of ownership--Requirements--Penalty, exceptions.

A transfer of ownership in a motor vehicle is perfected by compliance with the requirements of this section.

(1) If an owner transfers his or her interest in a vehicle, other than by the creation, deletion, or change of a security interest, the owner shall, at the time of the delivery of the vehicle, execute an assignment to the transferee and provide an odometer disclosure statement under RCW 46.12.124 on the certificate of ownership or as the department otherwise prescribes, and cause the certificate and assignment to be transmitted to the transferee. The owner shall notify the department or its agents or subagents, in writing, on the appropriate form, of the date of the sale or transfer, the name and address of the owner and of the transferee, the transferee's driver's license number if available, and such description of the vehicle, including the vehicle identification number, the license plate number, or both, as may be required in the appropriate form provided or approved for that purpose by the department. The report of sale will be deemed properly filed if all information required in this section is provided on the form and includes a department-authorized notation that the document was received by the department, its agents, or subagents on or before the fifth day after the sale of the vehicle, excluding Saturdays, Sundays, and state and federal holidays. Agents and subagents shall immediately electronically transmit the seller's report of sale to the department. Reports of sale processed and recorded by the department's agents or subagents may be subject to fees as specified in RCW 46.01.140 (4)(a) or (5)(b).

(2) The requirements of subsection (1) of this section to provide an odometer disclosure statement apply to the transfer of vehicles held for lease when transferred to a lessee and then to the lessor at the end of the leasehold and to vehicles held in a fleet when transferred to a purchaser.

(3) Except as provided in RCW 46.70.122 the transferee shall within fifteen days after delivery to the transferee of the vehicle, execute the application for a new certificate of ownership in the same space provided therefor on the certificate or as the department prescribes,

and cause the certificates and application to be transmitted to the department.

(4) Upon request of the owner or transferee, a secured party in possession of the certificate of ownership shall, unless the transfer was a breach of its security agreement, either deliver the certificate to the transferee for transmission to the department or, when the secured party receives the owner's assignment from the transferee, it shall transmit the transferee's application for a new certificate, the existing certificate, and the required fee to the department. Compliance with this section does not affect the rights of the secured party.

(5) If a security interest is reserved or created at the time of the transfer, the certificate of ownership shall be retained by or delivered to the person who becomes the secured party, and the parties shall comply with the provisions of RCW 46.12.170.

(6) If the purchaser or transferee fails or neglects to make application to transfer the certificate of ownership and license registration within fifteen days after the date of delivery of the vehicle, he or she shall on making application for transfer be assessed a twenty-five dollar penalty on the sixteenth day and two dollars additional for each day thereafter, but not to exceed one hundred dollars. The director may by rule establish conditions under which the penalty will not be assessed when an application for transfer is delayed for reasons beyond the control of the purchaser. Conditions for not assessing the penalty may be established for but not limited to delays caused by:

- (a) The department requesting additional supporting documents;
- (b) Extended hospitalization or illness of the purchaser;
- (c) Failure of a legal owner to release his or her interest;
- (d) Failure, negligence, or nonperformance of the department, auditor, or subagent.

Failure or neglect to make application to transfer the certificate of ownership and license registration within forty-five days after the date of delivery of the vehicle is a misdemeanor.

(7) Upon receipt of an application for reissue or replacement of a certificate of ownership and transfer of license registration, accompanied by the endorsed certificate of ownership or other documentary evidence as is deemed necessary, the department shall, if the application is in order and if all provisions relating to the certificate of ownership and license registration have been complied with, issue new certificates of title and license registration as in the case of an original issue and shall transmit the fees together with an itemized detailed report to the state treasurer, to be deposited in the motor vehicle fund.

(8) Once each quarter the department shall report to the department of revenue a list of those vehicles for which a seller's report has been received but no transfer of title has taken place.

RCW 46.12.151 Procedure when department unsatisfied as to ownership and security interests.

If the department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, the department may register the vehicle but shall either:

(1) Withhold issuance of a certificate of ownership for a period of three years or until the applicant presents documents reasonably sufficient to satisfy the department as to the applicant's ownership of the vehicle and that there are no undisclosed security interests in it; or

(2) As a condition of issuing a certificate of ownership, require the applicant to file with the department a bond for a period of three years in the form prescribed by the department and executed by the applicant. The bond shall be in an amount equal to one and one-half times the value of the vehicle as determined by the department and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss or damage, including reasonable attorney's fees, by reason of the issuance of the certificate of ownership of the vehicle or on account of any defect in or undisclosed security interest upon the right, title and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. At the end of three years or prior thereto if the vehicle is no longer registered in this state or when satisfactory evidence of ownership is surrendered to the department, the owner may apply to the department for a replacement certificate of ownership without reference to the bond.

RCW 46.12.160 Refusal or cancellation of certificate--Notice--Penalty for subsequent operation.

If the department determines at any time that an applicant for certificate of ownership or for a certificate of license registration for a vehicle is not entitled thereto, the department may refuse to issue such certificate or to license the vehicle and may, for like reason, after notice, and in the exercise of discretion, cancel license registration already acquired or any outstanding certificate of ownership. Notice of cancellation may be accomplished by sending a notice by first class mail using the last known address in department records for the registered or legal vehicle owner or owners, and recording the transmittal on an affidavit of first class mail. It shall then be unlawful for any person to remove, drive, or operate the vehicle until a proper certificate of ownership or license registration has been issued, and any person removing, driving, or operating

RCW 46.12.170 Procedure when security interest is granted on vehicle.

If, after a certificate of ownership is issued, a security interest is granted on the vehicle described therein, the registered owner or secured party shall, within ten days thereafter, present an application to the department, to which shall be attached the certificate of ownership last issued covering the vehicle, or such other documentation as may be required by the department, which application shall be upon a form approved by the department and shall be accompanied by a fee of one dollar and twenty-five cents in addition to all other fees. The department, if satisfied that there should be a reissue of the certificate, shall note such change upon the vehicle records and issue to the secured party a new certificate of ownership.

Whenever there is no outstanding secured obligation and no commitment to make advances and incur obligations or otherwise give value, the secured party must assign the certificate of ownership to the debtor or the debtor's assignee or transferee, and transmit the certificate to the department with an accompanying fee of one dollar and twenty-five cents in addition to all other fees. The department shall then issue a new certificate of ownership and transmit it to the owner. If the affected secured party fails to either assign the certificate of ownership to the debtor or the debtor's assignee or transferee or transmit the certificate of ownership to the department within ten days after proper demand, that secured party shall be liable to the debtor or the debtor's assignee or transferee for one hundred dollars, and in addition for any loss caused to the debtor or the debtor's assignee or transferee by such failure.

RCW 46.16.006 "Registration year" defined--Registration months--"Last day of the month."

(1) The term "registration year" for the purposes of chapters 46.16, *82.44, and *82.50

RCW means the effective period of a vehicle license issued by the department. Such year commences at 12:01 a.m. on the date of the calendar year designated by the department and ends at 12:01 a.m. on the same date of the next succeeding calendar year. If a vehicle license previously issued in this state has expired and is renewed with a different registered owner, a new registration year is deemed to commence upon the date the expired license is renewed in order that the renewed license be useable for a full twelve-month period.

(2) Each registration year may be divided into twelve registration months. Each registration month commences on the day numerically corresponding to the day of the calendar month on which the registration year begins, and terminates on the numerically corresponding day of the next succeeding calendar month.

(3) Where the term "last day of the month" is used in chapters 46.16, *82.44, and *82.50 RCW in lieu of a specified day of any calendar month it means the last day of such calendar month or months irrespective of the numerical designation of that day.

(4) If the final day of a registration year or month falls on a Saturday, Sunday, or legal holiday, such period extends through the end of the next business day.

(b) Upon surrender of the current certificate of registration or cab card, the new licensing fees due shall be reduced by the amount of the licensing fees previously paid for the same period for which new fees are being charged.

(2) The proceeds from the fees collected under subsection (1) of this section shall be distributed in accordance with RCW 46.68.035.

Unprocessed agricultural products, license for transport: RCW 20.01.120.

RCW 46.16.111 Gross weight, how computed.

The gross weight in the case of any motor truck, tractor, or truck tractor shall be the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semitrailer, converter gear, or pole trailer to be towed thereby, to which shall be added the weight of the maximum load to be carried thereon or towed thereby as set by the licensee in the application if it does not exceed the weight limitations prescribed by chapter 46.44 RCW. If the sum of the scale weight and maximum load of the trailer is not greater than four thousand pounds, that sum shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. Where the trailer is a utility trailer, travel trailer, horse trailer, or boat trailer, for the personal use of the owner of the truck, tractor, or truck tractor, and not for sale or commercial purposes, the gross weight of such trailer and its load shall not be computed as part of the gross weight of any motor truck, tractor, or truck tractor. The weight of any camper is exempt from the determination of gross weight in the computation of any licensing fees required under RCW 46.16.070.

The gross weight in the case of any bus, auto stage, or for hire vehicle, except taxicabs, with a seating capacity over six, shall be the scale weight of each bus, auto stage, and for hire vehicle plus the seating capacity, including the operator's seat, computed at one hundred and fifty pounds per seat.

If the resultant gross weight, according to this section, is not listed in RCW 46.16.070, it shall be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

However, in the case of each auto stage propelled by steam, electricity, natural gas, diesel oil, butane, or propane, the payment required in this section is twenty cents per one hundred miles of such operation. An additional fee of two dollars shall be collected each time a license fee is paid.

Operation of a vehicle licensed under the provisions of this section by any person upon the public highways after the expiration of the monthly license is a traffic infraction, and in addition the person shall be required to pay a license fee for the vehicle involved covering an entire registration year's operation, less the fees for any registration month or months of the registration year already paid. RCW 46.16.160 Vehicle trip permits--Restrictions and requirements--Fees and taxes--Penalty--Rules.

(1) The owner of a vehicle which under reciprocal relations with another jurisdiction would be required to obtain a license registration in this state or an unlicensed vehicle which would be required to obtain a license registration for operation on public highways of this state may, as an alternative to such license registration, secure and operate such vehicle under authority of a trip permit issued by this state in lieu of a Washington certificate of license registration, and licensed gross weight if applicable. The licensed gross weight may not exceed eighty thousand pounds for a combination of vehicles nor forty thousand pounds for a single unit vehicle with three or more axles. Trip permits may also be issued for movement of mobile homes pursuant to RCW 46.44.170. For the purpose of this section, a vehicle is considered unlicensed if the licensed gross weight currently in effect for the vehicle or combination of vehicles is not adequate for the load being carried. Vehicles registered under RCW 46.16.135 shall not be operated under authority of trip permits in lieu of further registration within the same registration year.

(2) Each trip permit shall authorize the operation of a single vehicle at the maximum legal weight limit for such vehicle for a period of three consecutive days commencing with the day of first use. No more than three such permits may be used for any one vehicle in any period of thirty consecutive days, except that in the case of a recreational vehicle as defined in RCW 43.22.335, no more than two trip permits may be used for any one vehicle in a one-year period. Every permit shall identify, as the department may require, the vehicle for which it is issued and shall be completed in its entirety and signed by the operator before operation of the vehicle on the public highways of this state. Correction of data on the permit such as dates, license number, or vehicle identification number invalidates the permit. The trip permit shall be displayed on the vehicle to which it is issued as prescribed by the department.

(3) Vehicles operating under authority of trip permits are subject to all laws, rules, and regulations affecting the operation of like vehicles in this state.

(4) Prorate operators operating commercial vehicles on trip permits in Washington shall retain the customer copy of such permit for four years.

(5) Trip permits may be obtained from field offices of the department of transportation, Washington state patrol, department of licensing, or other agents appointed by the department. For each permit issued, there shall be collected a filing fee as provided by RCW 46.01.140, an administrative fee of eight dollars, and an excise tax of one dollar. If the filing fee amount of one

dollar prescribed by RCW 46.01.140 is increased or decreased after January 1, 1981, the administrative fee shall be adjusted to compensate for such change to insure that the total amount collected for the filing fee, administrative fee, and excise tax remain at ten dollars. These fees and taxes are in lieu of all other vehicle license fees and taxes. No exchange, credits, or refunds may be given for trip permits after they have been purchased.

(6) The department may appoint county auditors or businesses as agents for the purpose of selling trip permits to the public. County auditors or businesses so appointed may retain the filing fee collected for each trip permit to defray expenses incurred in handling and selling the permits.

(7) A violation of or a failure to comply with any provision of this section is a gross misdemeanor.

(8) The department of licensing may adopt rules as it deems necessary to administer this section.

(9) A surcharge of five dollars is imposed on the issuance of trip permits. The portion of the surcharge paid by motor carriers must be deposited in the motor vehicle fund for the purpose of supporting vehicle weigh stations, weigh-in-motion programs, and the commercial vehicle information systems and networks program. The remaining portion of the surcharge must be deposited in the motor vehicle fund for the purpose of supporting congestion relief programs. All other administrative fees and excise taxes collected under the provisions of this chapter shall be forwarded by the department with proper identifying detailed report to the state treasurer who shall deposit the administrative fees to the credit of the motor vehicle fund and the excise taxes to the credit of the general fund. Filing fees will be forwarded and reported to the state treasurer by the department as prescribed in RCW 46.01.140.

(2) Application for the renewal of a vehicle license shall be made to the director or his agents, including county auditors, by the registered owner on a form prescribed by the director. The application must be accompanied by the certificate of registration for the last registration period in which the vehicle was registered in Washington unless the applicant submits a preprinted application mailed from Olympia, and the payment of such license fees and excise tax as may be required by law. Such application shall be handled in the same manner and the fees transmitted to the state treasurer in the same manner as in the case of an original application. Such extension or diminishment of a vehicle license registration period shall be by rule of the department adopted in accordance with the provisions of chapter 34.05 RCW. RCW 46.16.280 Sale, loss, or destruction of commercial vehicle--Credit for unused fee--Change in license classification.

In case of loss, destruction, sale, or transfer of any motor vehicle with a registered gross weight in excess of twelve thousand pounds and subject to the license fees under RCW 46.16.070, the registered owner thereof may, under the following conditions, obtain credit for the

unused portion of the licensing fee paid for the vehicle or may transfer such credit to the new owner if desired:

(1) The licensing fee paid for the motor vehicle will be reduced by one-twelfth for each calendar month and fraction thereof elapsing between the first month of the current registration year in which the motor vehicle was registered and the month the registrant surrenders the vehicle's registration certificate for the registration year to the department or an authorized agent of the department.

(2) If any such credit is less than fifteen dollars, no credit may be given.

(3) The credit may only be applied against the licensing fee liability due under RCW 46.16.070 for the replacement motor vehicle or if such credit was transferred to the new owner, it shall remain with the vehicle. The credit may only be used during the registration year from which it was obtained.

(4) In no event is such credit subject to refund.

Whenever any vehicle has been so altered as to change its license classification in such a manner that the vehicle license number plates are rendered improper, the current license plates shall be surrendered to the department. New license plates shall be issued upon application accompanied by a one dollar fee in addition to any other or different charge by reason of licensing under a new classification. Notes:

Reviser's note: This section was amended by 1997 c 241 § 10 and by 1997 c 291 § 6, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Finding--1997 c 291: "The legislature finds that the proliferation of special license plate series has decreased the ready identification of vehicles by law enforcement, and increased the amount of computer programming conducted by the department of licensing, thereby increasing costs. Furthermore, rarely has the actual demand for special license plates met the requesters' projections. Most importantly, special plates detract from the primary purpose of license plates, that of vehicle identification." [1997 c 291 § 1.]

If another vehicle is acquired by the disabled person and the vehicle owner qualifies for a special plate, the plate shall be attached to the vehicle, and the director shall be immediately notified of the transfer of the plate. If another vehicle is not acquired by the disabled person, the removed plate shall be immediately surrendered to the director.

(5) The special license plate shall be renewed in the same manner and at the time required for the renewal of regular motor vehicle license plates under this chapter. No special license plate may be issued to a person who is temporarily disabled. A person who has a condition expected to improve within six months may be issued a temporary placard for a period not to exceed six months. If the condition exists after six months a new temporary placard shall be issued upon receipt of a new certification from the disabled person's physician. The permanent parking placard and identification card of a disabled person shall be renewed at least every five years, as required by the director, by satisfactory proof of the right to continued use of the privileges. In the event of the permit holder's death, the parking placard and identification card must be immediately surrendered to the department. The department shall match and purge its disabled permit data base with available death record information at least every twelve months.

(6) Each person who has been issued a permanent disabled parking permit on or before July 1, 1998, must renew the permit no later than July 1, 2003, subject to a schedule to be set by the department, or the permit will expire.

(7) Additional fees shall not be charged for the issuance of the special placards or the identification cards. No additional fee may be charged for the issuance of the special license plates except the regular motor vehicle registration fee and any other fees and taxes required to be paid upon registration of a motor vehicle.

(8) Any unauthorized use of the special placard, special license plate, or identification card is a traffic infraction with a monetary penalty of two hundred fifty dollars.

(9) It is a parking infraction, with a monetary penalty of two hundred fifty dollars for a person to make inaccessible the access aisle located next to a space reserved for physically disabled persons. The clerk of the court shall report all violations related to this subsection to the department.

(10) It is a parking infraction, with a monetary penalty of two hundred fifty dollars for any person to park a vehicle in a parking place provided on private property without charge or on public property reserved for physically disabled persons without a special license plate or placard. If a person is charged with a violation, the person shall not be determined to have committed an infraction if the person produces in court or before the court appearance the special license plate or placard required under this section. A local jurisdiction providing nonmetered, on-street parking places reserved for physically disabled persons may impose by ordinance time restrictions of no less than four hours on the use of these parking places. A local jurisdiction may impose by ordinance time restrictions of no less than four hours on the use of nonreserved, on-street parking spaces by vehicles displaying the special parking placards. All time restrictions must be clearly posted.

(11) The penalties imposed under subsections (9) and (10) of this section shall be used by that local jurisdiction exclusively for law enforcement. The court may also impose an additional penalty sufficient to reimburse the local jurisdiction for any costs it may have incurred in removal and storage of the improperly parked vehicle.

(12) Except as provided by subsection (2) of this section, it is a traffic infraction with a monetary penalty of two hundred fifty dollars for any person willfully to obtain a special license plate, placard, or identification card in a manner other than that established under this section.

(13)(a) A law enforcement agency authorized to enforce parking laws may appoint volunteers, with a limited commission, to issue notices of infractions for violations of this section or RCW 46.61.581. Volunteers must be at least twenty-one years of age. The law enforcement agency appointing volunteers may establish any other qualifications the agency deems desirable.

(b) An agency appointing volunteers under this section must provide training to the volunteers before authorizing them to issue notices of infractions.

(c) A notice of infraction issued by a volunteer appointed under this subsection has the same force and effect as a notice of infraction issued by a police officer for the same offense.

(d) A police officer or a volunteer may request a person to show the person's identification card or special parking placard when investigating the possibility of a violation of this section. If the request is refused, the person in charge of the vehicle may be issued a notice of infraction for a violation of this section.

(14) For second or subsequent violations of this section, in addition to a monetary fine, the violator must complete a minimum of forty hours of:

(a) Community service for a nonprofit organization that serves the disabled community or persons having disabling diseases; or

(b) Any other community service that may sensitize the violator to the needs and obstacles faced by persons who have disabilities.

(15) The court may not suspend more than one-half of any fine imposed under subsection (8), (9), (10), or (12) of this section.

RCW 46.16.560 Personalized license plates--Defined.

Personalized license plates, as used in this chapter, means license plates that have displayed upon them the registration number assigned to the vehicle or camper for which such registration number was issued in a combination of letters or numbers, or both, requested by the owner of the vehicle or camper in accordance with this chapter.

[1975 c 59 § 1; 1973 1st ex.s. c 200 § 2.]

Notes:

Personalized license plates--Legislative declaration: "It is declared to be the public policy of the state of Washington to direct financial resources of this state toward the support and aid of the wildlife resources existing within the state of Washington in order that the general welfare of these inhabitants of the state be served. For the purposes of *this chapter, wildlife resources are understood to be those species of wildlife other than that managed by the department of fisheries under their existing jurisdiction as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries. The legislature further finds that the preservation, protection, perpetuation, and enhancement of such wildlife resources of the state is of major concern to it, and that aid for a satisfactory environment and ecological balance in this state for such wildlife resources serves a public interest, purpose, and desire.

It is further declared that such preservation, protection, perpetuation, and enhancement can be fostered through financial support derived on a voluntary basis from those citizens of the state of Washington who wish to assist in such objectives; that a desirable manner of accomplishing this is through offering personalized license plates for certain vehicles and campers the fees for which are to be directed to the state treasury to the credit of the state **game fund for the furtherance of the programs, policies, and activities of the state **game department in preservation, protection, perpetuation, and enhancement of the wildlife resources that abound within the geographical limits of the state of Washington.

In particular, the legislature recognizes the benefit of this program to be specifically directed toward those species of wildlife including but not limited to song birds, protected wildlife, rare and endangered wildlife, aquatic life, and specialized-habitat types, both terrestrial and aquatic, as well as all unclassified marine fish, shellfish, and marine invertebrates which shall remain under the jurisdiction of the director of fisheries that exist within the limits of the state of Washington." [1975 c 59 § 7; 1973 1st ex.s. c 200 § 1. Formerly RCW 77.12.175.]

§ 32.

(i) Drive a motor vehicle on the public highways of this state in connection with farm work. The holder may drive only within a restricted farming locality described on the permit; and

(ii) Participate in the classroom portion of a traffic safety education course authorized under RCW 28A.220.030 offered in the community where the holder resides.

(b) The director may transfer the permit from one farming locality to another. A transfer is not a renewal of the permit.

(3) **Term and renewal of agricultural driving permit.** An agricultural driving permit expires one year from the date of issue.

(a) A person under the age of eighteen who holds a permit may renew the permit by paying a three-dollar fee.

(b) An agricultural driving permit is invalidated when a permittee attains age eighteen. In order to drive a motor vehicle on a highway he or she must obtain a motor vehicle driver's license under this chapter.

(4) **Suspension, revocation, or cancellation.** The director has sole discretion to suspend, revoke, or cancel a juvenile agricultural driving permit if:

(a) The permittee has been found to have committed an offense that requires mandatory suspension or revocation of a driver's license; or

Reviser's note--Sunset Act application: The intermediate driver's license program is subject to review, termination, and possible extension under chapter 43.131 RCW, the Sunset Act. See RCW 43.131.397. RCW 46.20.075, 46.20.267, and 28A.220.070; 2000 c 115 § 1 (uncodified); and the 2000 c 115 amendments to RCW 46.20.105, 46.20.161, 46.20.311, and 46.20.342 are scheduled for future repeal under RCW 43.131.398.

Finding--2000 c 115: "The legislature has recognized the need to develop a graduated licensing system in light of the disproportionately high incidence of motor vehicle crashes involving youthful motorists. This system will improve highway safety by progressively developing and improving the skills of younger drivers in the safest possible environment, thereby reducing the number of vehicle crashes." The department shall prepare and issue drivers' licenses and identicards using processes

that prohibit as nearly as possible the alteration or reproduction of such cards, or the superimposing of other photographs on such cards, without ready detection.

[1999 c 6 § 17; 1977 ex.s. c 27 § 2.]

Notes:

Intent--1999 c 6: See note following RCW 46.04.168.

Purpose--1977 ex.s. c 27: "The legislature finds that the falsification of cards and licenses is a serious social problem creating economic hardship and problems which impede the efficient conduct of commerce and government. The legislature is particularly concerned that the increasing use of false drivers' licenses and identicards to purchase liquor, to cash bad checks, and to obtain food stamps and other benefits is causing the loss of liquor licenses, the loss of jobs, the loss of income, and the loss of human life in addition to significant monetary losses in business and government. It is the purpose of RCW 46.20.114 to require an effective means of rendering drivers' licenses and identicards as immune as possible from alteration and counterfeiting in order to promote the public health and safety of the people of this state." [1977 ex.s. c 27 § 1.]

RCW 46.20.117 Identicards.

(1) **Issuance.** The department shall issue an identicard, containing a picture, if the applicant:

- (a) Does not hold a valid Washington driver's license;
- (b) Proves his or her identity as required by RCW 46.20.035; and
- (c) Pays the required fee. The fee is four dollars unless an applicant is a recipient of continuing public assistance grants under Title 74 RCW, who is referred in writing by the secretary of social and health services. For those persons the fee must be the actual cost of production of the identicard.

(2) **Design and term.** The identicard must:

- (a) Be distinctly designed so that it will not be confused with the official driver's license;
- and

- (b) Expire on the fifth anniversary of the applicant's birthdate after issuance.

(3) **Cancellation.** The department may cancel an identicard if the holder of the identicard used the card or allowed others to use the card in violation of RCW 46.20.0921.

[1990 c 250 § 37; 1981 c 22 § 1; 1979 c 158 § 149; 1969 ex.s. c 155 § 5.]

Notes:

Severability--1990 c 250: See note following RCW 46.16.301.

Purpose--1969 ex.s. c 155: "The identification of the injured or the seriously ill is often difficult. The need for an identification file to facilitate use by proper law enforcement officers has hampered law enforcement. Personal identification for criminal, personal and commercial reasons is becoming most important at a time when it is increasingly difficult to accomplish. The legislature finds that the public health and welfare requires a standard and readily recognizable means of identification of each person living within the state. The legislature further finds that the need for an identification file by law enforcement agencies must be met. The use of photographic drivers' licenses will greatly aid the problem, but some means of identification must be provided for persons who do not possess a driver's license. The purpose of this 1969 amendatory act is to provide for the positive identification of persons, both through an expanded use of drivers' licenses and also through issue of personal identification cards for nondrivers." [1969 ex.s. c 155 § 1.]

RCW 46.20.120 Examinations--Waiver--Out-of-state renewals--Fees.

An applicant for a new or renewed driver's license must successfully pass a driver licensing examination to qualify for a driver's license. The department shall give examinations at places and times reasonably available to the people of this state.

(1) **Waiver.** The department may waive:

(a) All or any part of the examination of any person applying for the renewal of a driver's license unless the department determines that the applicant is not qualified to hold a driver's license under this title; or

(b) The actual demonstration of the ability to operate a motor vehicle if the applicant:

(i) Surrenders a valid driver's license issued by the person's previous home state; and

(ii) Is otherwise qualified to be licensed.

(2) **Fee.** Each applicant for a new license must pay an examination fee of seven dollars.

(a) The examination fee is in addition to the fee charged for issuance of the license.

(b) "New license" means a license issued to a driver:

(i) Who has not been previously licensed in this state; or

(ii) Whose last previous Washington license has been expired for more than five years.

(3) A person whose license expired or will expire on or after January 1, 1998, while he or she was or is living outside the state may:

(a) Apply to the department to extend the validity of his or her license for no more than twelve months. If the person establishes to the department's satisfaction that he or she is unable to return to Washington before the date his or her license expires, the department shall extend the person's license. The department may grant consecutive extensions, but in no event may the cumulative total of extensions exceed twelve months. An extension granted under this section does not change the expiration date of the license for purposes of RCW 46.20.181. The department shall charge a fee of five dollars for each license extension;

(b) Apply to the department to renew his or her license by mail. If the person establishes to the department's satisfaction that he or she is unable to return to Washington within twelve months of the date that his or her license expires, the department shall renew the person's license by mail. If a person qualifies for a mail-in renewal he or she is not required to pass an examination nor provide an updated photograph. He or she must, however, pay the fee required by RCW 46.20.181 plus an additional five-dollar mail-in renewal fee. A license renewed by mail that does not include a photograph of the licensee must be labeled "not valid for identification purposes."

(4) If a person's driver's license is extended or renewed under subsection (3) of this section while he or she is outside the state, he or she must submit to the examination required under this section within sixty days of returning to this state. The department will not assess a penalty or examination fee for the examination.

(4) For the purposes of Title 46 RCW the term "conviction" means a final conviction in a state or municipal court or by any federal authority having jurisdiction over offenses substantially the same as those set forth in Title 46 RCW which occur on federal installations in this state, an unvacated forfeiture of bail or collateral deposited to secure a defendant's appearance in court, the payment of a fine, a plea of guilty, or a finding of guilt on a traffic law violation charge, regardless of whether the imposition of sentence or sanctions are deferred or the penalty is suspended, but not including entry into a deferred prosecution agreement under chapter 10.05 RCW.

(5) For the purposes of Title 46 RCW the term "finding that a traffic infraction has been

committed" means a failure to respond to a notice of infraction or a determination made by a court pursuant to this chapter. Payment of a monetary penalty made pursuant to RCW 46.63.070(2) is deemed equivalent to such a finding.
