46.70.125 Used vehicles—Asking price, posting or disclosure. A vehicle dealer who sells used vehicles shall either display on the vehicle, or disclose upon request, the written asking price of a specific vehicle offered for sale by the dealer as of that time.

A violation of this section is an unfair business practice under chapter 19.86 RCW, the Consumer Protection Act, and the provisions of chapter 46.70 RCW. [1986 c 165 § 1.]

46.70.130 Details of charges must be furnished buyer or mortgagor. (1) Before the execution of a contract or chattel mortgage or the consummation of the sale or lease of any vehicle, the seller must furnish the buyer or lessee an itemization in writing signed by the seller separately disclosing to the buyer or lessee the finance charge, insurance costs, taxes, and other charges which are paid or to be paid by the buyer or lessee.

(2) Notwithstanding subsection (1) of this section, an itemization of the various license and title fees paid or to be paid by the buyer or lessee, which itemization must be the same as that disclosed on the registration/application for title document issued by the department, may be required only on the title application at the time the application is submitted for title transfer. A vehicle dealer may not be required to separately or individually itemize the license and title fees on

any other document, including but not limited to the purchase order and lease agreement. No fee itemization may be required on the temporary permit. [2001 c 272 § 9; 1996 c 282 § 5; 1973 1st ex.s. c 132 § 16; 1961 c 12 § 46.70.130. Prior: 1951 c 150 § 16.]

(2) The implied warranties contained in this section may not be waived, limited, or modified. Any provision that attempts to waive, limit, or modify the implied warranties contained in this section is void and unenforceable. [1994 c 284 § 9.]

46.70.135 Mobile homes—Warranties and inspections—Delivery—Occupancy—Advertising of dimensions. Mobile home manufacturers and mobile home dealers who sell mobile homes to be assembled on site and used as residences in this state shall conform to the following requirements:

(1) No new manufactured home may be sold unless the purchaser is provided with a manufacturer's written warranty for construction of the home in compliance with the Magnuson-Moss Warranty Act (88 Stat. 2183; 15 U.S.C. Sec. 47 et seq.; 15 U.S.C. Sec. 2301 et seq.).

(2) No new manufactured home may be sold unless the purchaser is provided with a dealer's written warranty for all installation services performed by the dealer.

(3) The warranties required by subsections (1) and (2) of this section shall be valid for a minimum of one year measured from the date of delivery and shall not be invalidated by resale by the original purchaser to a subsequent purchaser or by the certificate of ownership being eliminated or not issued as described in chapter 65.20 RCW. Copies of the warranties shall be given to the purchaser upon signing a purchase agreement and shall include an explanation of remedies available to the purchaser under state and federal law for breach of warranty, the name and address of the federal

department of housing and urban development and the state departments of licensing and labor and industries, and a brief description of the duties of these agencies concerning mobile homes.

(4) Warranty service shall be completed within forty-five days after the owner gives written notice of the defect unless there is a bona fide dispute between the parties. Warranty service for a defect affecting health or safety shall be completed within seventy-two hours of receipt of written notice. Warranty service shall be performed on site and a written work order describing labor performed and parts used shall be completed and signed by the service agent and the owner. If the owner's signature cannot be obtained, the reasons shall be described on the work order. Work orders shall be retained by the dealer or manufacturer for a period of three years.

(5) Before delivery of possession of the home to the purchaser, an inspection shall be performed by the dealer or his or her agent and by the purchaser or his or her agent which shall include a test of all systems of the home to insure proper operation, unless such systems test is delayed pursuant to this subsection. At the time of the inspection, the purchaser shall be given copies of all documents required by state or federal agencies to be supplied by the manufacturer with the home which have not previously been provided as required under subsection (3) of this section, and the dealer shall complete any required purchaser information card and forward the card to the manufacturer. A purchaser is deemed to have taken delivery of the manufactured home when all three of the following events have occurred: (a) The contractual obligations between the purchaser and the seller have been met; (b) the inspection of the home is completed; and (c) the systems test of the home has been completed subsequent to the installation of the home, or fifteen days has elapsed since the transport of the home to the site where it will be installed, whichever is earlier. Occupancy of the manufactured home shall only occur after the systems test has occurred and all required utility connections have been approved after inspection.

(6) Manufacturer and dealer advertising which states the dimensions of a home shall not include the length of the draw bar assembly in a listed dimension, and shall state the square footage of the actual floor area. [1994 c 284 § 11; 1989 c 343 § 22; 1981 c 304 § 36.]

46.70.180 Unlawful acts and practices. Each of the following acts or practices is unlawful:

(1) To cause or permit to be advertised, printed, displayed, published, distributed, broadcasted, televised, or disseminated in any manner whatsoever, any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to the following:

(a) That no down payment is required in connection with the sale of a vehicle when a down payment is in fact required, or that a vehicle may be purchased for a smaller down payment than is actually required;

(b) That a certain percentage of the sale price of a vehicle may be financed when such financing is not offered in a single document evidencing the entire security transaction;

(c) That a certain percentage is the amount of the service charge to be charged for financing, without stating whether this percentage charge is a monthly amount or an amount to be charged per year;

(d) That a new vehicle will be sold for a certain amount above or below cost without computing cost as the exact amount of the factory invoice on the specific vehicle to be sold;

(e) That a vehicle will be sold upon a monthly payment of a certain amount, without including in the statement the number of payments of that same amount which are required to liquidate the unpaid purchase price.

(2)(a) To incorporate within the terms of any purchase and sale or lease agreement any statement or representation with regard to the sale, lease, or financing of a vehicle which is false, deceptive, or misleading, including but not limited to terms that include as an added cost to the selling price or capitalized cost of a vehicle an amount for licensing or transfer of title of that vehicle which is not actually due to the state,

unless such amount has in fact been paid by the dealer prior to such sale. However, an amount not to exceed fifty dollars per vehicle sale or lease may be charged by a dealer to recover administrative costs for collecting motor vehicle excise taxes, licensing and registration fees and other agency fees, verifying and clearing titles, transferring titles, perfecting, releasing, or satisfying liens or other security interests, and other administrative and documentary services rendered by a dealer in connection with the sale or lease of a vehicle and in carrying out the requirements of this chapter or any other provisions of state law.

(b) A dealer may charge the documentary service fee in (a) of this subsection under the following conditions:

(i) The documentary service fee is disclosed in writing to a prospective purchaser or lessee before the execution of a purchase and sale or lease agreement;

(ii) The documentary service fee is not represented to the purchaser or lessee as a fee or charge required by the state to be paid by either the dealer or prospective purchaser or lessee;

(iii) The documentary service fee is separately designated from the selling price or capitalized cost of the vehicle and from any other taxes, fees, or charges; and

(iv) Dealers disclose in any advertisement that a documentary service fee in an amount up to fifty dollars may be added to the sale price or the capitalized cost.

For the purposes of this subsection (2), the term "documentary service fee" means the optional amount charged by a dealer to provide the services specified in (a) of this subsection.

(3) To set up, promote, or aid in the promotion of a plan by which vehicles are to be sold or leased to a person for a consideration and upon further consideration that the purchaser or lessee agrees to secure one or more persons to participate in the plan by respectively making a similar purchase and in turn agreeing to secure one or more persons likewise to join in said plan, each purchaser or lessee being given the right to secure money, credits, goods, or something of value, depending upon the number of persons joining the plan.

(4) To commit, allow, or ratify any act of "bushing" which is defined as follows: Entering into a written contract, written purchase order or agreement, retail installment sales agreement, note and security agreement, or written lease agreement, hereinafter collectively referred to as contract or lease, signed by the prospective buyer or lessee of a vehicle, which:

(a) Is subject to any conditions or the dealer's or his or her authorized representative's future acceptance, and the dealer fails or refuses within four calendar days, exclusive of Saturday, Sunday, or legal holiday, and prior to any further negotiations with said buyer or lessee to inform the buyer or lessee either: (i) That the dealer unconditionally accepts the contract or lease, having satisfied, removed, or waived all conditions to acceptance or performance, including, but not limited to, financing, assignment, or lease approval; or (ii) that the dealer rejects the contract or lease, thereby automatically voiding the contract or lease, as long as such voiding does not negate commercially reasonable contract or lease provisions pertaining to the return of the subject vehicle and any physical damage, excessive mileage after the demand for return of the vehicle, and attorneys' fees authorized by law,

and tenders the refund of any initial payment or security made or given by the buyer or lessee, including, but not limited to, any down payment, and tenders return of the trade-in vehicle, key, other trade-in, or certificate of title to a trade-in. Tender may be conditioned on return of the subject vehicle if previously delivered to the buyer or lessee.

The provisions of this subsection (4)(a) do not impair, prejudice, or abrogate the rights of a dealer to assert a claim against the buyer or lessee for misrepresentation or breach of contract and to exercise all remedies available at law or in equity, including those under chapter 62A.9A RCW, if the dealer, bank, or other lender or leasing company discovers that approval of the contract or financing or approval of the lease was based upon material misrepresentations made by the buyer or lessee, including, but not limited to, misrepresentations regarding income, employment, or debt of the buyer or lessee, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation. A dealer shall not be in violation of this subsection (4)(a) if the buyer or lessee made a material misrepresentation to the dealer, as long as the dealer, or his or her staff, has not, with knowledge of the material misrepresentation, aided, assisted, encouraged, or participated, directly or indirectly, in the misrepresentation.

When a dealer informs a buyer or lessee under this subsection (4)(a) regarding the unconditional acceptance or rejection of the contract, lease, or financing by an electronic mail message, the dealer must also transmit the communication by any additional means;

(b) Permits the dealer to renegotiate a dollar amount specified as trade-in allowance on a vehicle delivered or to be delivered by the buyer or lessee as part of the purchase price or lease, for any reason except:

(i) Failure to disclose that the vehicle's certificate of ownership has been branded for any reason, including, but not limited to, status as a rebuilt vehicle as provided in RCW 46.12.050 and 46.12.075; or

(ii) Substantial physical damage or latent mechanical defect occurring before the dealer took possession of the vehicle and which could not have been reasonably discoverable at the time of the taking of the order, offer, or contract; or

(iii) Excessive additional miles or a discrepancy in the mileage. "Excessive additional miles" means the addition of five hundred miles or more, as reflected on the vehicle's odometer, between the time the vehicle was first valued by the dealer for purposes of determining its trade-in value and the time of actual delivery of the vehicle to the dealer. "A discrepancy in the mileage" means (A) a discrepancy between the mileage reflected on the vehicle's odometer and the stated mileage on the signed odometer statement; or (B) a discrepancy between the mileage stated on the signed odometer statement and the actual mileage on the vehicle; or

(c) Fails to comply with the obligation of any written warranty or guarantee given by the dealer requiring the furnishing of services or repairs within a reasonable time.

(5) To commit any offense relating to odometers, as such offenses are defined in RCW 46.37.540, 46.37.550, 46.37.560, and 46.37.570. A violation of this subsection is a class C felony punishable under chapter 9A.20 RCW.

(6) For any vehicle dealer or vehicle salesperson to refuse to furnish, upon request of a prospective purchaser or lessee, for vehicles previously registered to a business or governmental entity, the name and address of the business or governmental entity.

(7) To commit any other offense under RCW 46.37.423, 46.37.424, or 46.37.425.

(8) To commit any offense relating to a dealer's temporary license permit, including but not limited to failure to properly complete each such permit, or the issuance of more than one such permit on any one vehicle. However, a dealer may issue a second temporary permit on a vehicle if the following conditions are met:

(a) The lienholder fails to deliver the vehicle title to the dealer within the required time period;

(b) The dealer has satisfied the lien; and

(c) The dealer has proof that payment of the lien was made within two calendar days, exclusive of Saturday, Sunday, or a legal holiday, after the sales contract has been executed by all parties and all conditions and contingencies in the sales contract have been met or otherwise satisfied.

(9) For a dealer, salesperson, or mobile home manufacturer, having taken an instrument or cash "on deposit" from a purchaser or lessee prior to the delivery of the bargained-for vehicle, to commingle the "on deposit" funds with assets of the dealer, salesperson, or mobile home manufacturer instead of holding the "on deposit" funds as trustee in a separate trust account until the purchaser or lessee has taken delivery of the bargained-for vehicle. Delivery of a manufactured home shall be deemed to occur in accordance with RCW 46.70.135(5). Failure, immediately upon receipt, to endorse "on deposit" instruments to such a trust account, or to set aside "on deposit" cash for deposit in such trust account, and failure to deposit such instruments or cash in such trust account by the close of banking hours on the day following receipt thereof, shall be evidence of intent to commit this unlawful practice: PROVIDED, HOWEVER, That a motor vehicle dealer may keep a separate trust account which equals his or her customary total customer deposits for vehicles for future delivery. For purposes of this section, "on deposit" funds received from a purchaser of a manufactured home means those funds that a seller requires a purchaser to advance before ordering the manufactured home, but does not include any loan proceeds or moneys that might have been paid on an installment contract.

(10) For a dealer or manufacturer to fail to comply with the obligations of any written warranty or guarantee given by the dealer or manufacturer requiring the furnishing of goods and services or repairs within a reasonable period of time, or to fail to furnish to a purchaser or lessee, all parts which attach to the manufactured unit including but not limited to the undercarriage, and all items specified in the terms of a sales or lease agreement signed by the seller and buyer or lessee.

(11) For a vehicle dealer to pay to or receive from any person, firm, partnership, association, or corporation acting, either directly or through a subsidiary, as a buyer's agent for consumers, any compensation, fee, purchase moneys or funds that have been deposited into or withdrawn out of any account controlled or used by any buyer's agent, gratuity, or

reward in connection with the purchase, sale, or lease of a new motor vehicle.

(12) For a buyer's agent, acting directly or through a subsidiary, to pay to or to receive from any motor vehicle dealer any compensation, fee, gratuity, or reward in connection with the purchase, sale, or lease of a new motor vehicle. In addition, it is unlawful for any buyer's agent to engage in any of the following acts on behalf of or in the name of the consumer:

(a) Receiving or paying any purchase moneys or funds into or out of any account controlled or used by any buyer's agent;

(b) Signing any vehicle purchase orders, sales contracts, leases, odometer statements, or title documents, or having the name of the buyer's agent appear on the vehicle purchase order, sales contract, lease, or title; or

(c) Signing any other documentation relating to the purchase, sale, lease, or transfer of any new motor vehicle.

It is unlawful for a buyer's agent to use a power of attorney obtained from the consumer to accomplish or effect the purchase, sale, lease, or transfer of ownership documents of any new motor vehicle by any means which would otherwise be prohibited under (a) through (c) of this subsection. However, the buyer's agent may use a power of attorney for physical delivery of motor vehicle license plates to the consumer.

Further, it is unlawful for a buyer's agent to engage in any false, deceptive, or misleading advertising, disseminated in any manner whatsoever, including but not limited to making any claim or statement that the buyer's agent offers, obtains, or guarantees the lowest price on any motor vehicle or words to similar effect.

(13) For a buyer's agent to arrange for or to negotiate the purchase, or both, of a new motor vehicle through an out-of-state dealer without disclosing in writing to the customer that the new vehicle would not be subject to chapter 19.118 RCW. This subsection also applies to leased vehicles. In addition, it is unlawful for any buyer's agent to fail to have a written agreement with the customer that: (a) Sets forth the terms of the parties' agreement; (b) discloses to the customer the total amount of any fees or other compensation being paid by the customer to the buyer's agent for the agent's services; and (c) further discloses whether the fee or any portion of the fee is refundable.

(14) Being a manufacturer, other than a motorcycle manufacturer governed by chapter 46.93 RCW, to:

(a) Coerce or attempt to coerce any vehicle dealer to order or accept delivery of any vehicle or vehicles, parts or accessories, or any other commodities which have not been voluntarily ordered by the vehicle dealer: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute coercion;

(b) Cancel or fail to renew the franchise or selling agreement of any vehicle dealer doing business in this state without fairly compensating the dealer at a fair going business value for his or her capital investment which shall include but not be limited to tools, equipment, and parts inventory possessed by the dealer on the day he or she is notified of such cancellation or termination and which are still within the dealer's possession on the day the cancellation or termination is effective, if: (i) The capital investment has been entered into with reasonable and prudent business judgment for the

purpose of fulfilling the franchise; and (ii) the cancellation or nonrenewal was not done in good faith. Good faith is defined as the duty of each party to any franchise to act in a fair and equitable manner towards each other, so as to guarantee one party freedom from coercion, intimidation, or threats of coercion or intimidation from the other party: PROVIDED, That recommendation, endorsement, exposition, persuasion, urging, or argument are not deemed to constitute a lack of good faith;

(c) Encourage, aid, abet, or teach a vehicle dealer to sell or lease vehicles through any false, deceptive, or misleading sales or financing practices including but not limited to those practices declared unlawful in this section;

(d) Coerce or attempt to coerce a vehicle dealer to engage in any practice forbidden in this section by either threats of actual cancellation or failure to renew the dealer's franchise agreement;

(e) Refuse to deliver any vehicle publicly advertised for immediate delivery to any duly licensed vehicle dealer having a franchise or contractual agreement for the retail sale or lease of new and unused vehicles sold or distributed by such manufacturer within sixty days after such dealer's order has been received in writing unless caused by inability to deliver because of shortage or curtailment of material, labor, transportation, or utility services, or by any labor or production difficulty, or by any cause beyond the reasonable control of the manufacturer;

(f) To provide under the terms of any warranty that a purchaser or lessee of any new or unused vehicle that has been sold or leased, distributed for sale or lease, or transferred into this state for resale or lease by the vehicle manufacturer may only make any warranty claim on any item included as an integral part of the vehicle against the manufacturer of that item.

Nothing in this section may be construed to impair the obligations of a contract or to prevent a manufacturer, distributor, representative, or any other person, whether or not licensed under this chapter, from requiring performance of a written contract entered into with any licensee hereunder, nor does the requirement of such performance constitute a violation of any of the provisions of this section if any such contract or the terms thereof requiring performance, have been freely entered into and executed between the contracting parties. This paragraph and subsection (14)(b) of this section do not apply to new motor vehicle manufacturers governed by chapter 46.96 RCW.

(15) Unlawful transfer of an ownership interest in a motor vehicle as defined in RCW 19.116.050.

(16) To knowingly and intentionally engage in collusion with a registered owner of a vehicle to repossess and return or resell the vehicle to the registered owner in an attempt to avoid a suspended license impound under chapter 46.55 RCW. However, compliance with chapter 62A.9A RCW in repossessing, selling, leasing, or otherwise disposing of the vehicle, including providing redemption rights to the debtor, is not a violation of this section. If a new motor vehicle dealer recovers a judgment or has a claim dismissed with prejudice against a manufacturer under RCW 46.96.040 or 46.96.050(3) or this section, the new motor vehicle dealer is precluded from pursuing that same claim or recovering judgment for that same claim against the same manufacturer under the federal Automobile Dealer Franchise Act, 15 U.S.C. The provisions of this chapter shall be applicable to all franchises and contracts existing between vehicle dealers and manufacturers or factory branches and to all future franchises and contracts. [1986 c 241 § 22; 1967 ex.s. c 74 § 24.]

46.70.270 Provisions of chapter cumulative—Violation of RCW 46.70.180 deemed civil. The provisions of this chapter shall be cumulative to existing laws: PROVIDED, That the violation of RCW 46.70.180 shall be construed as exclusively civil and not penal in nature. [1967 ex.s. c 74 § 25.]

46.70.290 Mobile homes and persons engaged in distribution and sale. The provisions of chapter 46.70 RCW shall apply to the distribution and sale of mobile homes and to mobile home dealers, distributors, manufacturers, factory representatives, or other persons engaged in such distribution and sale to the same extent as for motor vehicles. [1993 c 307 § 10; 1971 ex.s. c 231 § 23.]

Effective date—1971 ex.s. c 231: See note following RCW 46.01.130.

(2) This section shall not be construed to prevent a political subdivision of this state from levying a business and occupation tax upon vehicle dealers or manufacturers maintaining an office within that political subdivision if a business and occupation tax is levied by such a political subdivision upon other types of businesses within its boundaries. [1993 c 307 § 11; 1981 c 152 § 2.]

46.70.320 Buyer's agents. The regulation of buyers' agents is a matter affecting the public interest for the purpose of applying chapter 19.86 RCW. Activities of buyers' agents prohibited under RCW 46.70.180 (11), (12), or (13) are not reasonable in relation to the development and preservation of business. A violation of RCW 46.70.180 (11), (12), or (13) constitutes an unfair or deceptive act or practice in trade or commerce for the purpose of applying chapter 19.86 RCW. [1993 c 175 § 4.]

46.70.340 Issuance of temporary subagency licenses for recreational vehicle shows.

(1)(a) Before the department may issue a temporary subagency license to a recreational vehicle dealer engaged in offering new or new and used recreational vehicles for sale at a recreational vehicle show, a recreational vehicle dealer of new or new and used recreational vehicles shall submit to the department a manufacturer's written authorization for the sale and specifying the dates of the show, the location of the show, and the identity of the manufacturer's brand or model names of the new or used recreational vehicles.

(b) The department may issue a temporary subagency license if the location of the show is within fifty miles of the recreational vehicle dealer's established place of business or permanent location. The department may issue a temporary subagency license for a show outside fifty miles of the recreational vehicle dealer's established place of business or permanent location only if the product represented is new and is within the factory designated sales territory for each brand of new recreational vehicles to be offered for sale, and only those specific brands of new recreational vehicles may be offered for sale under the terms of the temporary subagency license.

(2) Whenever three or fewer recreational vehicle dealers participate in a show under a temporary subagency license issued under this section, each recreational vehicle dealer shall conspicuously include all of the following information in all advertising and promotional materials designed to attract the public to attend the show:

(b) The manufacturer's brand or model names of those new recreational vehicles being offered for sale; and

(c) If the recreational vehicles being offered for sale are used, the word "used" must immediately precede the identification of the brand name of the model or be immediately adjacent to the depiction of used vehicles.

(4) The legislature finds that the practices covered by this section are matters vitally affecting the public interest for the purpose of applying the consumer protection act, chapter 19.86 RCW. Violations of this section are not reasonable in relation to the development and preservation of business. A violation of this section is an unfair or deceptive act in trade or commerce and an unfair method of competition for the

purpose of applying the consumer protection act, chapter 19.86 RCW. [2006 c 364 § 2.]

46.70.900 Liberal construction. All provisions of this chapter shall be liberally construed to the end that deceptive practices or commission of fraud or misrepresentation in the sale, lease, barter, or disposition of vehicles in this state may be prohibited and prevented, and irresponsible, unreliable, or dishonest persons may be prevented from engaging in the business of selling, leasing, bartering, or otherwise dealing in vehicles in this state and reliable persons may be encouraged to engage in the business of selling, leasing, bartering and otherwise dealing in vehicles in this state: PROVIDED, That this chapter shall not apply to printers, publishers, or broadcasters who in good faith print, publish or broadcast material without knowledge of its deceptive character. [2001 c 272 § 11; 1973 1st ex.s. c 132 § 20; 1967 ex.s. c 74 § 2.]

46.70.910 Severability—1967 ex.s. c 74. [1967 ex.s. c 74 § 28.]

46.70.920 Severability—1973 1st ex.s. c 132. If any provision of this 1973 amendatory act is declared unconstitutional, or the applicability thereof to any person or circumstance is held invalid, the constitutionality of the remainder of this 1973 amendatory act and the applicability thereof to persons and circumstances shall not be affected thereby. 46.71.005 Legislative recognition. The automotive repair industry supports good communication between auto repair facilities and their customers. The legislature recognizes that improved communications and accurate representations between automotive repair facilities and the customers will: Increase consumer confidence; reduce the likelihood of disputes arising; clarify repair facility lien interests; and promote fair and nondeceptive practices, thereby enhancing the safety and reliability of motor vehicles serviced by

auto repair facilities in the state of Washington. [1993 c 424 § 1.]

Severability—1993 c 424: "If any provision of this act is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of the act and the applicability thereof to persons and circumstances shall not be affected thereby." [1993 c 424 § 15.]

Effective date—1993 c 424: "This act shall take effect January 1, 1994." [1993 c 424 § 18.]

46.71.011 Definitions.

For purposes of this chapter:

(1) An "aftermarket body part" or "nonoriginal equipment manufacturer body part" is an exterior body panel or nonstructural body component manufactured by someone other than the original equipment manufacturer and supplied through suppliers other than those in the manufacturer's normal distribution channels.

(2) "Automotive repair" includes but is not limited to:

(a) All repairs to vehicles subject to chapter 46.16 RCW that are commonly performed in a repair facility by a motor vehicle technician including the diagnosis, installation, exchange, or repair of mechanical or electrical parts or units for any vehicle, the performance of any electrical or mechanical adjustment to any vehicle, or the performance of any service work required for routine maintenance or repair of any vehicle. However, commercial fleet repair or maintenance transactions involving two or more vehicles or ongoing service or maintenance contracts involving vehicles used primarily for business purposes are not included;

(b) All work in facilities that perform one or more specialties within the automotive repair service industry including, but not limited to, body collision repair, refinishing, brake, electrical, exhaust repair or installation, frame, uni-body, front-end, radiators, tires, transmission, tune-up, and windshield; and

(c) The removal, replacement, or repair of exterior body panels, the removal, replacement, or repair of structural and nonstructural body components, the removal, replacement, or repair of collision damaged suspension components, and the refinishing of automotive components.

(3) "Automotive repair facility" or "repair facility" means any person, firm, association, or corporation who for compensation engages in the business of automotive repair or diagnosis, or both, of malfunctions of motor vehicles subject to licensure under chapter 46.16 RCW and repair and refinishing auto-body collision damage as well as overall refinishing and cosmetic repairs.

(4) A "rebuilt" part consists of a used assembly that has been dismantled and inspected with only the defective parts being replaced.

(5) A "remanufactured" part consists of a used assembly that has been dismantled with the core parts being remachined and all other parts replaced with new parts so as to provide performance comparable to that found originally. [1993 c 424 § 2.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.015 Estimates—Invoices—Recordkeeping requirements. (1) Except as otherwise provided in RCW 46.71.025, all estimates that exceed one hundred dollars shall

be in writing and include the following information: The date; the name, address, and telephone number of the repair facility; the name, address, and telephone number, if available, of the customer or the customer's designee; if the vehicle is delivered for repair, the year, make, and model of the vehicle, the vehicle license plate number or last eight digits of the vehicle identification number, and the odometer reading of the vehicle; a description of the problem reported by the customer or the specific repairs requested by the customer; and a choice of alternatives described in RCW 46.71.025.

(2) Whether or not a written estimate is required, parts and labor provided by an automotive repair facility shall be clearly and accurately recorded in writing on an invoice and shall include, in addition to the information listed in subsection (1) of this section, the following information: A description of the repair or maintenance services performed on the vehicle; a list of all parts supplied, identified by name and part number, if available, part kit description or recognized package or shop supplies, if any, and an indication whether the parts supplied are rebuilt, or used, if applicable or where collision repair is involved, aftermarket body parts or non-original equipment manufacturer body parts, if applicable; the price per part charged, if any, and the total amount charged for all parts; the total amount charged for all labor, if any; and the total charge. Parts and labor do not need to be separately disclosed if pricing is expressed as an advertised special by the job, a prediscovered written repair menu item, or a routine service package.

(3) Notwithstanding subsection (2) of this section, if the repair work is performed under warranty or without charge to the customer, other than an applicable deductible, the repair facility shall provide either an itemized list of the parts supplied, or describe the service performed on the vehicle, but the repair facility is not required to provide any pricing information for parts or labor.

(4) A copy of the estimate, unless waived, shall be provided to the customer or customer's designee prior to providing parts or labor as required under RCW 46.71.025. A copy of the invoice shall be provided to the customer upon completion of the repairs.

(5) Only material omissions, under this section, are actionable in a court of law or equity. [1993 c 424 § 3.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.021 Disposition of replaced parts. Except for parts covered by a manufacturer's or other warranty or parts that must be returned to a distributor, remanufacturer, or rebuilder, the repair facility shall return replaced parts to the customer at the time the work is completed if the customer requested the parts at the time of authorization of the repair. If a customer at the time of authorization of the repair requests the return of a part that must be returned to the manufacturer, remanufacturer, distributor, recycler, or rebuilder, or must be disposed of as required by law, the repair facility shall offer to show the part to the customer. The repair facility need not show a replaced part if no charge is being made for the replacement part. [1993 c 424 § 4.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.025 Estimate required—Alternatives—Authorization to exceed. (1) Except as provided in subsection (3) of this section, a repair facility prior to providing parts or labor shall provide the customer or the customer's designee with a written price estimate of the total cost of the repair, including parts and labor, or where collision repair is involved, aftermarket body parts or nonoriginal equipment manufacturer body parts, if applicable, or offer the following alternatives:

"YOU ARE ENTITLED TO A WRITTEN PRICE ESTIMATE FOR THE REPAIRS YOU HAVE AUTHORIZED. YOU ARE ALSO ENTITLED TO REQUIRE THE REPAIR FACILITY TO OBTAIN YOUR ORAL OR WRITTEN AUTHORIZATION TO EXCEED THE WRITTEN PRICE ESTIMATE. YOUR SIGNATURE OR INITIALS WILL INDICATE YOUR SELECTION.

1. I request an estimate in writing before you begin repairs. Contact me if the price will exceed this estimate by more than ten percent.
2. Proceed with repairs but contact me if the price will exceed \$.
3. I do not want a written estimate.

..... (Initial or signature)
Date: Time:"

(2) The repair facility may not charge the customer more than one hundred ten percent, exclusive of retail sales tax, of the total shown on the written price estimate. Neither of these limitations apply if, before providing additional parts or labor the repair facility obtains either the oral or written authorization of the customer, or the customer's designee, to exceed the written price estimate. The repair facility or its representative shall note on the estimate the date and time of obtaining an oral authorization, the additional parts and labor required, the estimated cost of the additional parts and labor, or where collision repair is involved, aftermarket body parts or non-original equipment manufacturer body parts, if applicable, the name or identification number of the employee who obtains the authorization, and the name and telephone number of the person authorizing the additional costs.

(3) A written estimate shall not be required when the customer's motor vehicle or component has been brought to an automotive repair facility's regular place of business without face-to-face contact between the customer and the repair facility. Face-to-face contact means actual in-person discussion between the customer or his or her designee and the agent or employee of the automotive repair facility authorized to intake vehicles or components. However, prior to providing parts and labor, the repair facility must obtain either the oral or written authorization of the customer or the customer's designee. The repair facility or its representative shall note on the estimate or repair order the date and time of obtaining an oral authorization, the total amount authorized, the name or identification number of the employee who obtains the authorization, and the name of the person authorizing the repairs. [1993 c 424 § 5.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.031 Required signs. An automotive repair facility shall post in a prominent place on the business premises one or more signs, readily visible to customers, in the following form:

"YOUR CUSTOMER RIGHTS

YOU ARE ENTITLED BY LAW TO:

1. A WRITTEN ESTIMATE FOR REPAIRS WHICH WILL COST MORE THAN ONE HUNDRED DOLLARS, UNLESS WAIVED OR ABSENT FACE-TO-FACE CONTACT (SEE ITEM 4 BELOW);
2. RETURN OR INSPECTION OF ALL REPLACED PARTS, IF REQUESTED AT TIME OF REPAIR AUTHORIZATION;
3. AUTHORIZE ORALLY OR IN WRITING ANY REPAIRS WHICH EXCEED THE ESTIMATED TOTAL PRESALES TAX COST BY MORE THAN TEN PERCENT;
4. AUTHORIZE ANY REPAIRS ORALLY OR IN WRITING IF YOUR VEHICLE IS LEFT WITH THE REPAIR FACILITY WITHOUT FACE-TO-FACE CONTACT BETWEEN YOU AND THE REPAIR FACILITY PERSONNEL.

IF YOU HAVE AUTHORIZED A REPAIR IN ACCORDANCE WITH THE ABOVE INFORMATION YOU ARE REQUIRED TO PAY FOR THE COSTS OF THE REPAIR PRIOR TO TAKING THE VEHICLE FROM THE PREMISES."

The first line of each sign shall be in letters not less than one and one-half inch in height and the remaining lines shall be in letters not less than one-half inch in height. [1993 c 424 § 6.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.035 Failure to comply with estimate requirements. An automotive repair facility that fails to comply with the estimate requirements of RCW 46.71.025 is barred from recovering in an action to recover for automotive repairs any amount in excess of one hundred ten percent of the amount authorized by the customer, or the customer's designee, unless the repair facility proves by a preponderance of the evidence that its conduct was reasonable, necessary, and justified under the circumstances. In an action to recover for automotive repairs the prevailing party may, at the discretion of the court, recover the costs of the action and reasonable attorneys' fees. [1993 c 424 § 7.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.041 Liens barred for failure to comply. A repair facility that fails to comply with RCW 46.71.021, 46.71.025, or 46.71.031 is barred from asserting a possessory or chattel lien for the amount of the unauthorized parts or labor upon the motor vehicle or component. [1993 c 424 § 8.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.045 Unlawful acts or practices. Each of the following acts or practices are unlawful:

(1) Advertising that is false, deceptive, or misleading. A single or isolated media mistake does not constitute a false, deceptive, or misleading statement or misrepresentation under this section;

(2) Materially understating or misstating the estimated price for a specified repair procedure;

(3) Retaining payment from a customer for parts not delivered or installed or a labor operation or repair procedure that has not actually been performed;

(4) Unauthorized operation of a customer's vehicle for purposes not related to repair or diagnosis;

(5) Failing or refusing to provide a customer, upon request, a copy, at no charge, of any document signed by the customer;

(6) Retaining duplicative payment from both the customer and the warranty or extended service contract provider for the same covered component, part, or labor;

(7) Charging a customer for unnecessary repairs. For purposes of this subsection "unnecessary repairs" means those for which there is no reasonable basis for performing the service. A reasonable basis includes, but is not limited to: (a) That the repair service is consistent with specifications established by law or the manufacturer of the motor vehicle, component, or part; (b) that the repair is in accordance with accepted industry standards; or (c) that the repair was performed at the specific request of the customer. [1993 c 424 § 9.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.051 Copy of warranty. The repair facility shall make available, upon request, a copy of any express warranty provided by the repair facility to the customer that covers repairs performed on the vehicle. [1993 c 424 § 10.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.060 Retention of price estimates and invoices. Every automotive repair facility shall retain and make available for inspection, upon request by the customer or the customer's authorized representative, true copies of the written price estimates and invoices required under this chapter for at least one year after the date on which the repairs were performed. [1993 c 424 § 11; 1982 c 62 § 7; 1977 ex.s. c 280 § 6.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.070 Consumer Protection Act—Defense. The legislature finds that the practices covered by this chapter are matters vitally affecting the public interest for the purpose of applying the Consumer Protection Act, chapter 19.86 RCW. Violations of this chapter are not reasonable in relation to the development and preservation of business. A violation of this chapter is an unfair or deceptive act in trade or commerce and an unfair method of competition for the purpose of applying the Consumer Protection Act, chapter 19.86 RCW. In an action under chapter 19.86 RCW due to an automotive repair facility's charging a customer an amount in excess of one

hundred ten percent of the amount authorized by the customer, a violation shall not be found if the automotive repair facility proves by a preponderance of the evidence that its conduct was reasonable, necessary, and justified under the circumstances.

Notwithstanding RCW 46.64.050, no violation of this chapter shall give rise to criminal liability under that section. [1993 c 424 § 12; 1982 c 62 § 9; 1977 ex.s. c 280 § 7.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

46.71.080 Notice of chapter to vehicle owners. Whenever a vehicle license renewal form under RCW 46.16.210 is given to the registered owner of any vehicle, the department of licensing shall give to the owner written notice of the provisions of this chapter in a manner prescribed by the director of licensing. [1982 c 62 § 10.]

46.71.090 Notice of chapter to repair facilities. When the department of revenue issues a registration certificate under RCW 82.32.030 to an automotive repair facility, it shall give written notice to the person of the requirements of this chapter in a manner prescribed by the director of revenue. The department of revenue shall thereafter give the notice on an annual basis in conjunction with the business and occupation tax return provided to each person holding a registration certificate as an automotive repair facility. [1993 c 424 § 13; 1982 c 62 § 11.]

Severability—Effective date—1993 c 424: See notes following RCW 46.71.005.

Age of drivers of for hire vehicles: RCW 46.20.045.

Taxicab companies, local regulation: Chapter 81.72 RCW.

46.72.001 Finding and intent. The legislature finds and declares that privately operated for hire transportation service is a vital part of the transportation system within the state. Consequently, the safety, reliability, and stability of privately operated for hire transportation services are matters of statewide importance. The regulation of privately operated for hire transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to

(2008 Ed.)

permit political subdivisions of the state to regulate for hire transportation services without liability under federal anti-trust laws. [1996 c 87 § 17.]

46.72.010 Definitions. When used in this chapter:

(1) The term "for hire vehicle" includes all vehicles used for the transportation of passengers for compensation, except auto stages, school buses operating exclusively under a contract to a school district, ride-sharing vehicles under chapter 46.74 RCW, limousine carriers licensed under chapter 46.72A RCW, vehicles used by nonprofit transportation providers for elderly or handicapped persons and their attendants under chapter 81.66 RCW, vehicles used by auto transportation companies licensed under chapter 81.68 RCW, vehicles used to provide courtesy transportation at no charge to and from parking lots, hotels, and rental offices, and vehicles used by charter party carriers of passengers and excursion service carriers licensed under chapter 81.70 RCW;

(2) The term "for hire operator" means and includes any person, concern, or entity engaged in the transportation of passengers for compensation in for hire vehicles. [1996 c 87 § 18; 1991 c 99 § 1; 1979 c 111 § 14; 1961 c 12 § 46.72.010. Prior: 1947 c 253 § 1; Rem. Supp. 1947 § 6386-1. Formerly RCW 81.72.010.]

Severability—1979 c 111: See note following RCW 46.74.010.

46.72.020 Permit required—Form of application. No for hire operator shall cause operation of a for hire vehicle upon any highway of this state without first obtaining a permit from the director of licensing, except for those for hire operators regulated by cities or counties in accordance with chapter 81.72 RCW. Application for a permit shall be made on forms provided by the director and shall include (1) the name and address of the owner or owners, and if a corporation, the names and addresses of the principal officers thereof; (2) city, town or locality in which any vehicle will be operated; (3) name and motor number of any vehicle to be operated; (4) the endorsement of a city official authorizing an operator under a law or ordinance requiring a license; and (5) such other information as the director may require. [1992 c 114 § 1; 1979 c 158 § 188; 1967 c 32 § 80; 1961 c 12 § 46.72.020. Prior: 1947 c 253 § 2; Rem. Supp. 1947 § 6386-2; prior: 1915 c 57 § 1; RRS § 6382. Formerly RCW 81.72.020.]

46.72.030 Permit fee—Issuance—Display. Application for a permit shall be forwarded to the director with a fee. Upon receipt of such application and fee, the director shall, if such application be in proper form, issue a permit authorizing the applicant to operate for hire vehicles upon the highways of this state until such owner ceases to do business as such, or until the permit is suspended or revoked. Such permit shall be displayed in a conspicuous place in the principal place of business of the owner. [1992 c 114 § 2; 1967 c 32 § 81; 1961 c 12 § 46.72.030. Prior: 1947 c 253 § 3; Rem. Supp. 1947 § 6386-3; prior: 1933 c 73 § 1, part; 1915 c 57 § 2, part; RRS § 6383, part. Formerly RCW 81.72.030.]

46.72.040 Surety bond. Before a permit is issued every for hire operator shall be required to deposit and thereafter

keep on file with the director a surety bond running to the state of Washington covering each and every for hire vehicle as may be owned or leased by him and used in the conduct of his business as a for hire operator. Such bond shall be in the sum of one hundred thousand dollars for any recovery for death or personal injury by one person, and three hundred thousand dollars for all persons killed or receiving personal injury by reason of one act of negligence, and twenty-five thousand dollars for damage to property of any person other than the assured, with a good and sufficient surety company licensed to do business in this state as surety and to be approved by the director, conditioned for the faithful compliance by the principal of said bond with the provisions of this chapter, and to pay all damages which may be sustained by any person injured by reason of any careless negligence or unlawful act on the part of said principal, his agents or employees in the conduct of said business or in the operation of any motor propelled vehicle used in transporting passengers for compensation on any public highway of this state. Said policy of insurance shall provide a minimum coverage equal and identical to the coverage required by the aforesaid surety bond, specified under the provisions of RCW 46.72.040. No provisions of this chapter shall be construed to limit the right of any injured person to any private right of action against a for hire operator as herein defined. [1973 c 15 § 2; 1967 c 32 § 83; 1961 c 12 § 46.72.050. Prior: 1947 c 253 § 5; Rem. Supp. 1947 § 6386-5. Formerly RCW 81.72.050.]

The director shall, upon receipt of fees and after approving the bond or policy, furnish the owner with an appropriate certificate which must be carried in a conspicuous place in the vehicle at all times during for hire operation. A for hire operator shall secure a certificate for each for hire vehicle operated and pay therefor a fee for each vehicle so registered. Such permit or certificate shall expire on June 30th of each year, and may be annually renewed upon payment of a fee. [1992 c 114 § 3; 1967 c 32 § 84; 1961 c 12 § 46.72.070. 46.72.100 Unprofessional conduct—Bond/insurance policy—Penalty.

46.72.160 Local regulation. Cities, counties, and port districts may license, control, and regulate all for hire vehicles operating within their respective jurisdictions. The power to regulate includes:

- (1) Regulating entry into the business of providing for hire vehicle transportation services;
- (2) Requiring a license to be purchased as a condition of operating a for hire vehicle and the right to revoke, cancel, or refuse to reissue a license for failure to comply with regulatory requirements;

46.72A.010 Finding and intent. The legislature finds and declares that privately operated limousine transportation service is a vital part of the transportation system within the state and provides prearranged transportation services to state residents, tourists, and out-of-state business people. Consequently, the safety, reliability, and stability of privately operated limousine transportation services are matters of statewide importance. The regulation of privately operated limousine transportation services is thus an essential governmental function. Therefore, it is the intent of the legislature to permit the department and a port district in a county with a population of one million or more to regulate limousine transportation services without liability under federal antitrust laws. [1996 c 87 § 4.]

Transfer of powers, duties, and functions—1996 c 87: "(1) All powers, duties, and functions of the utilities and transportation commission pertaining to the regulation of limousines and limousine charter party carriers are transferred to the department of licensing. All references to the utilities and transportation commission in the Revised Code of Washington shall be construed to mean the director or the department of licensing when referring to the functions transferred in this section.

(2)(a) All reports, documents, surveys, books, records, files, papers, or written material in the possession of the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be delivered to the custody of the department of licensing. All cabinets, furniture, office equipment, motor vehicles, and other tangible property employed by the utilities and transportation commission in carrying out the powers, functions, and duties transferred shall be made available to the department of licensing. All funds, credits, or other assets held in connection with the powers, functions, and duties transferred shall be assigned to the department of licensing.

(b) Any appropriations made to the utilities and transportation commission for carrying out the powers, functions, and duties transferred shall, on

June 6, 1996, be transferred and credited to the department of licensing.

(c) Whenever any question arises as to the transfer of any personnel, funds, books, documents, records, papers, files, equipment, or other tangible property used or held in the exercise of the powers and the performance of the duties and functions transferred, the director of financial management shall make a determination as to the proper allocation and certify the same to the state agencies concerned.

(3) All rules and all pending business before the utilities and transportation commission pertaining to the powers, functions, and duties transferred shall be continued and acted upon by the department of licensing. All existing contracts and obligations shall remain in full force and shall be performed by the department of licensing.

(4) The transfer of the powers, duties, and functions of the utilities and transportation commission shall not affect the validity of any act performed before June 6, 1996.

(5) If apportionments of budgeted funds are required because of the transfers directed by this section, the director of financial management shall certify the apportionments to the agencies affected, the state auditor, and the state treasurer. Each of these shall make the appropriate transfer and adjustments in funds and appropriation accounts and equipment records in accordance with the certification." [1996 c 87 § 22.]

46.72A.020 Office required—Exception. All limousine carriers must operate from a main office and may have satellite offices. However, no office may be solely in a vehicle of any type. All arrangements for the carrier's services must be made through its offices and dispatched to the carrier's vehicles. Under no circumstances may customers or customers' agents make arrangements for immediate rental of a carrier's vehicle with the driver of the vehicle, even if the driver is an owner or officer of the company, with the single exception of stand-hail limousines only at a facility owned and operated by a port district in a county with a population of one million or more that are licensed and restricted by the rules and policies set forth by the port district. [1996 c 87 § 5.]

46.72A.030 Regulation—Inspection. (1) The department, in conjunction with the Washington state patrol, shall regulate limousine carriers with respect to entry, safety of equipment, chauffeur qualifications, and operations. The department shall adopt rules and require such reports as are necessary to carry out this chapter.

(2) In addition, a port district in a county with a population of one million or more may regulate limousine carriers with respect to entry, safety of equipment, chauffeur qualifications, and operations. The county in which the port district is located may adopt ordinances and rules to assist the port district in enforcement of limousine regulations only at port facilities. In no event may this be construed to grant the county the authority to regulate limousines within its jurisdiction. The port district may not set limousine rates, but the limousine carriers shall file their rates and schedules with the port district.

(3) The department, a port district in a county with a population of at least one million, or a county in which the port district is located may enter into cooperative agreements for the joint regulation of limousines.

(4) The Washington state patrol shall annually conduct a vehicle inspection of each limousine licensed under this chapter, except when a port district regulates limousine carriers under subsection (2) of this section, that port district or county in which the port [district] is located shall conduct the annual vehicle inspection. The patrol, the port district, or the

county may impose an annual vehicle inspection fee. [1996 c 87 § 6.]

46.72A.040 State preemption. Except when a port district regulates limousine carriers under RCW 46.72A.030, the state of Washington fully occupies and preempts the entire field of regulation over limousine carriers as regulated by this chapter. Cities, towns, and counties or other municipalities may enact only those laws and ordinances relating to limousine carriers that are consistent with this chapter. [1996 c 87 § 7.]

46.72A.050 Business license, vehicle certificates required. No limousine carrier may operate a limousine upon the highways of this state without first obtaining a business license from the department. The applicant shall forward an application for a business license to the department along with a fee established by rule. Upon approval of the application, the department shall issue a business license and unified business identifier authorizing the carrier to operate limousines upon the highways of this state.

In addition, a limousine carrier shall annually obtain, upon payment of the appropriate fee, a vehicle certificate for each limousine operated by the carrier. [1996 c 87 § 8.]

46.72A.060 Insurance—Amount—Penalty. (1) The department shall require limousine carriers to obtain and continue in effect, liability and property damage insurance from a company licensed to sell liability insurance in this state for each limousine used to transport persons for compensation.

(2) The department shall fix the amount of the insurance policy or policies, giving consideration to the character and amount of traffic, the number of persons affected, and the degree of danger that the proposed operation involves. The limousine carrier must maintain the liability and property damage insurance in force on each motor-propelled vehicle while so used.

(3) Failure to file and maintain in effect the insurance required under this section is a gross misdemeanor. [2003 c 53 § 251; 1996 c 87 § 9.]

Intent—Effective date—2003 c 53: See notes following RCW 2.48.180.

46.72A.070 Vehicle certificates—Issuance of new or duplicate certificate—Penalty. (1) If the limousine carrier substitutes a liability and property damage insurance policy after a vehicle certificate has been issued, a new vehicle certificate is required. The limousine carrier shall submit the substituted policy to the department for approval, together with a fee. If the department approves the substituted policy, the department shall issue a new vehicle certificate.

(2) If a vehicle certificate has been lost, destroyed, or stolen, a duplicate vehicle certificate may be obtained by filing an affidavit of loss and paying a fee.

(3)(a) Except as provided in (b) of this subsection, a limousine carrier who operates a vehicle without first having received a vehicle certificate as required by this chapter is guilty of a misdemeanor.

(b) A second or subsequent offense is a gross misdemeanor. [2003 c 53 § 252; 1996 c 87 § 10.]

Intent—Effective date—2003 c 53: See notes following RCW 2.48.180.

46.72A.080 Advertising—Penalty. (1) No limousine carrier may advertise without listing the carrier's unified business identifier issued by the department in the advertisement and specifying the type of service offered as provided in RCW 46.04.274. No limousine carrier may advertise or hold itself out to the public as providing taxicab transportation services.

(2) All advertising, contracts, correspondence, cards, signs, posters, papers, and documents that show a limousine carrier's name or address shall list the carrier's unified business identifier and the type of service offered. The alphabetized listing of limousine carriers appearing in the advertising sections of telephone books or other directories and all advertising that shows the carrier's name or address must show the carrier's current unified business identifier.

(3) Advertising in the alphabetical listing in a telephone directory need not contain the carrier's certified business identifier.

(4) Advertising by electronic transmission need not contain the carrier's unified business identifier if the carrier provides it to the person selling the advertisement and it is recorded in the advertising contract.

(5) It is a gross misdemeanor for a person to (a) falsify a unified business identifier or use a false or inaccurate unified business identifier; (b) fail to specify the type of service offered; or (c) advertise or otherwise hold itself out to the public as providing taxicab transportation services in connection with a solicitation or identification as an authorized limousine carrier. [1997 c 193 § 1; 1996 c 87 § 11.]

46.72A.090 Chauffeurs—Criteria for. The limousine carrier shall certify to the appropriate regulating authority that each chauffeur hired to operate a limousine meets the following criteria: (1) Is at least twenty-one years of age; (2) holds a valid Washington state driver's license; (3) has successfully completed a training course approved by the department; (4) has successfully passed a written examination; (5) has successfully completed a background check performed by the Washington state patrol; and (6) has submitted a medical certificate certifying the individual's fitness as a chauffeur. Upon initial application and every three years thereafter, a chauffeur must file a physician's certification with the limousine carrier validating the individual's fitness to drive a limousine. The department shall determine the scope of the examination. The director may require a chauffeur to be reexamined at any time.

The limousine carrier shall keep on file and make available for inspection all documents required by this section. [1996 c 87 § 12.]

46.72A.100 Unprofessional conduct—Sanctions—Chauffeur. The director may impose any of the sanctions specified in RCW 18.235.110 for unprofessional conduct as described in RCW 18.235.130 or if one of the following is true of a chauffeur hired to drive a limousine including where such a chauffeur is also the carrier: (1) The person has been convicted of an offense of such a nature as to indicate that he or she is unfit to qualify as a chauffeur; (2) the person is

(2008 Ed.)

guilty of committing two or more offenses for which mandatory revocation of a driver's license is provided by law; (3) the person has been convicted of vehicular homicide or vehicular assault; (4) the person is intemperate or addicted to narcotics. [2002 c 86 § 295; 1996 c 87 § 13.]

Part headings not law—Severability—2002 c 86: See RCW 18.235.902 and 18.235.903.

46.72A.110 Deposit of fees. The department shall transmit all fees received under this chapter, together with a proper identifying report, to the state treasurer to be deposited by the state treasurer in the master license fund. [1996 c 87 § 14.]

46.72A.120 Rules and fees. The department may adopt and enforce such rules, including the setting of fees, as may be consistent with and necessary to carry out this chapter. The fees must approximate the cost of administration. [1996 c 87 § 15.]

46.72A.130 Continued operation of existing limousines. A vehicle operated as a limousine under *chapter 81.90 RCW before April 1, 1996, may continue to operate as a limousine even though it may not meet the definition of limousine in RCW 46.04.274 as long as the owner is the same as the registered owner on April 1, 1996, and the vehicle and limousine carrier otherwise comply with this chapter. [1996 c 87 § 16.]

***Reviser's note:** Chapter 81.90 RCW was repealed by 1996 c 87 § 23.

46.72A.140 Uniform regulation of business and professions act. The uniform regulation of business and professions act, chapter 18.235 RCW, governs unlicensed practice, the issuance and denial of licenses, and the discipline of licensees under this chapter. [2002 c 86 § 296.]

46.85.010 Declaration of policy. It is the policy of this state to promote and encourage the fullest possible use of its highway system by authorizing the making and execution of vehicle reciprocal or proportional registration agreements, arrangements and declarations with other states, provinces, territories, and countries with respect to vehicles registered in this and such other states, provinces, territories, and countries thus contributing to the economic and social development and growth of this state. [1987 c 244 § 8; 1963 c 106 § 1.]

46.85.020 Definitions. The definitions set forth in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Jurisdiction" means and includes a state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a foreign country, and a state or province of a foreign country.

(2) "Owner" means a person, business firm, or corporation who holds the legal title to a vehicle, or in the event a vehicle is the subject of an agreement for the conditional sale thereof with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee, or in the event a vehicle is subject to a lease, contract, or other legal arrangement vesting right of possession or control, for security or otherwise, or in the event a mortgagor of a vehicle is entitled to possession, then the owner shall be deemed to be such person in whom is vested right of possession or control.

(3) "Properly registered," as applied to place of registration, means:

(a) The jurisdiction where the person registering the vehicle has his legal residence; or

(b) In the case of a commercial vehicle, the jurisdiction in which it is registered if the commercial enterprise in which such vehicle is used has a place of business therein, and, if the vehicle is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled in or from such place of business, and, the vehicle has been assigned to such place of business; or

(c) In the case of a commercial vehicle, the jurisdiction where, because of an agreement or arrangement between two or more jurisdictions, or pursuant to a declaration, the vehicle has been registered as required by said jurisdiction.

In case of doubt or dispute as to the proper place of registration of a vehicle, the department shall make the final determination, but in making such determination, may confer with departments of the other jurisdictions affected. [1987 c 244 § 9; 1985 c 173 § 2; 1982 c 227 § 18; 1981 c 222 § 1; 1963 c 106 § 2.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

Effective date—1982 c 227: See note following RCW 19.09.100.

46.85.030 Departmental entry into multistate proportional registration agreement, International Registration Plan. The department of licensing shall have the authority to execute agreements, arrangements, or declarations to carry out the provisions of chapter 46.87 RCW and this chapter.

If the department enters into a multistate proportional registration agreement which requires this state to perform

acts in a quasi agency relationship, the department may collect and forward applicable registration fees and applications to other jurisdictions on behalf of the applicant or on behalf of another jurisdiction and may take such other action as will facilitate the administration of such agreement.

If the department enters into a multistate proportional registration agreement which prescribes procedures applicable to vehicles not specifically described in chapter 46.87 RCW, such as but not limited to "owner-operator" or "rental" vehicles, it shall promulgate rules taking exception to or accomplishing the procedures prescribed in such agreement.

It is the purpose and intent of this subsection to facilitate the membership in the International Registration Plan and at the same time allow the department to continue to participate in such agreements and compacts as may be necessary and desirable in addition to the International Registration Plan. [1987 c 244 § 10; 1982 c 227 § 19; 1981 c 222 § 2; 1977 ex.s. c 92 § 1; 1975-'76 2nd ex.s. c 34 § 137; 1967 c 32 § 113; 1963 c 106 § 3.]

Effective date—Severability—1975-'76 2nd ex.s. c 34: See notes following RCW 2.08.115.

46.85.040 Authority for reciprocity agreements—Provisions—Reciprocity standards. The department may enter into an agreement or arrangement with the duly authorized representatives of another jurisdiction, granting to vehicles or to owners of vehicles which are properly registered or licensed in such jurisdiction and for which evidence of compliance is supplied, benefits, privileges, and exemptions from the payment, wholly or partially, of any taxes, fees, or other charges imposed upon such vehicles or owners with respect to the operation or ownership of such vehicles under the laws of this state. Such an agreement or arrangement shall provide that vehicles properly registered or licensed in this state when operated upon highways of such other jurisdiction shall receive exemptions, benefits, and privileges of a similar kind or to a similar degree as are extended to vehicles properly registered or licensed in such jurisdiction when operated in this state. Each such agreement or arrangement shall, in the judgment of the department, be in the best interest of this state and the citizens thereof and shall be fair and equitable to this state and the citizens thereof, and all of the same shall be determined on the basis and recognition of the benefits which accrue to the economy of this state from the uninterrupted flow of commerce. [1985 c 173 § 3; 1982 c 227 § 20; 1963 c 106 § 4.]

Effective date—1982 c 227: See note following RCW 19.09.100.

46.85.050 Base state registration reciprocity. An agreement or arrangement entered into, or a declaration issued under the authority of chapter 46.87 RCW or this chapter may contain provisions authorizing the registration or licensing in another jurisdiction of vehicles located in or operated from a base in such other jurisdiction which vehicles otherwise would be required to be registered or licensed in this state; and in such event the exemptions, benefits, and privileges extended by such agreement, arrangement, or declaration shall apply to such vehicles, when properly licensed

or registered in such base jurisdiction. [1987 c 244 § 11; 1963 c 106 § 5.]

46.85.060 Declarations of extent of reciprocity, when—Exemptions, benefits, and privileges—Rules. In the absence of an agreement or arrangement with another jurisdiction, the department may examine the laws and requirements of such jurisdiction and declare the extent and nature of exemptions, benefits and privileges to be extended to vehicles properly registered or licensed in such other jurisdiction, or to the owners of such vehicles, which shall, in the judgment of the department, be in the best interest of this state and the citizens thereof and which shall be fair and equitable to this state and the citizens thereof, and all of the same shall be determined on the basis and recognition of the benefits which accrue to the economy of this state from the uninterrupted flow of commerce. Declarations of exemptions, benefits, and privileges issued by the department shall include at least the following exemptions:

(1) Nonresident persons not employed in this state may operate a vehicle in this state that is currently licensed in another jurisdiction for a period not to exceed six months in any continuous twelve-month period.

(2) Nonresident persons employed in this state may operate vehicles not to exceed twelve thousand pounds registered gross vehicle weight that are currently licensed in another jurisdiction if no permanent, temporary, or part-time residence is maintained in this state for a period greater than six months in any continuous twelve-month period.

(3) A vehicle or a combination of vehicles, not exceeding a registered gross or combined gross vehicle weight of twelve thousand pounds, which is properly base licensed in another jurisdiction and registered to a bona fide business in that jurisdiction is not required to obtain Washington vehicle license registration except when such vehicle is owned or operated by a business or branch office of a business located in Washington.

(4) The department of licensing, after consultation with the department of revenue, shall adopt such rules as it deems necessary for the administration of these exemptions, benefits, and privileges. [1987 c 142 § 4; 1985 c 353 § 3; 1982 c 227 § 21; 1963 c 106 § 6.]

Effective date—1982 c 227: See note following RCW 19.09.100.

46.85.070 Extension of reciprocal privileges to lessees authorized. An agreement, or arrangement entered into, or a declaration issued under the authority of this chapter, may contain provisions under which a leased vehicle properly registered by the lessor thereof may be entitled, subject to terms and conditions stated therein, to the exemptions, benefits and privileges extended by such agreement, arrangement or declaration. [1963 c 106 § 7.]

46.85.080 Automatic reciprocity, when. On and after July 1, 1963, if no agreement, arrangement or declaration is in effect with respect to another jurisdiction as authorized by this chapter, any vehicle properly registered or licensed in such other jurisdiction and for which evidence of compliance is supplied shall receive, when operated in this state, the same exemptions, benefits and privileges granted by such other

(2008 Ed.)

jurisdiction to vehicles properly registered in this state. Reciprocity extended under this section shall apply to commercial vehicles only when engaged exclusively in interstate commerce. [1963 c 106 § 8.]

46.85.090 Suspension of reciprocity benefits. Agreements, arrangements or declarations made under the authority of this chapter may include provisions authorizing the department to suspend or cancel the exemptions, benefits, or privileges granted thereunder to an owner who violates any of the conditions or terms of such agreements, arrangements, or declarations or who violates the laws of this state relating to motor vehicles or rules and regulations lawfully promulgated thereunder. [1987 c 244 § 12; 1963 c 106 § 9.]

46.85.100 Agreements to be written, filed, and available for distribution. All agreements, arrangements, or declarations or amendments thereto shall be in writing and shall be filed with the department. Upon becoming effective, they shall supersede the provisions of RCW 46.16.030, chapter 46.87 RCW, or this chapter to the extent that they are inconsistent therewith. The department shall provide copies for public distribution upon request. [1987 c 244 § 13; 1982 c 227 § 22; 1967 c 32 § 114; 1963 c 106 § 10.]

Effective date—1982 c 227: See note following RCW 19.09.100.

46.85.110 Reciprocity agreements in effect at time of act. All reciprocity and proportional registration agreements, arrangements and declarations relating to vehicles in force and effect at the time this chapter becomes effective shall continue in force and effect at the time this chapter becomes effective and until specifically amended or revoked as provided by law or by such agreements or arrangements. [1963 c 106 § 11.]

Effective date—1963 c 106: See RCW 46.85.930.

46.85.900 Chapter part of and supplemental to motor vehicle registration law. This chapter shall be, and construed as, a part of and supplemental to the motor vehicle registration law of this state. [1963 c 106 § 30.]

46.85.910 Constitutionality. If any phrase, clause, subsection or section of this chapter shall be declared unconstitutional or invalid by any court of competent jurisdiction, it shall be conclusively presumed that the legislature would have enacted this chapter without the phrase, clause, subsection or section so held unconstitutional or invalid and the remainder of the chapter shall not be affected as a result of said part being held unconstitutional or invalid. [1963 c 106 § 31.]

46.85.920 Repeal and saving. The following acts or parts of acts and RCW sections are hereby repealed:

46.87.010 Applicability—Implementation. This chapter applies to proportional registration and reciprocity granted under the provisions of the International Registration Plan (IRP). This chapter shall become effective and be implemented beginning with the 1988 registration year.

(1) Provisions and terms of the IRP prevail unless given a different meaning in chapter 46.04 RCW, this chapter, or in rules adopted under the authority of this chapter.

(2) The director may adopt and enforce rules deemed necessary to implement and administer this chapter.

(3) Owners having a fleet of apportionable vehicles operating in two or more IRP member jurisdictions may elect to proportionally register the vehicles of the fleet under the provisions of the IRP and this chapter in lieu of full or temporary registration as provided for in chapters 46.16 or 46.88 RCW.

(4) If a due date or an expiration date established under authority of this chapter falls on a Saturday, Sunday, or a state legal holiday, such period is automatically extended through the end of the next business day. [2005 c 194 § 1; 1987 c 244 § 15; 1986 c 18 § 22; 1985 c 380 § 1.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.020 Definitions. Terms used in this chapter have the meaning given to them in the International Registration Plan (IRP), in chapter 46.04 RCW, or as otherwise defined in this section. Definitions given to terms by the IRP prevail unless given a different meaning in this chapter or in rules adopted under authority of this chapter.

(1) "Apportionable vehicle" has the meaning given by the IRP, except that it does not include vehicles with a declared gross weight of twelve thousand pounds or less. Apportionable vehicles include trucks, tractors, truck tractors, road tractors, and buses, each as separate and licensable vehicles.

(2) "Cab card" is a certificate of registration issued for a vehicle upon which is disclosed the jurisdictions and registered gross weights in such jurisdictions for which the vehicle is registered.

(3) "Credentials" means cab cards, apportioned plates (for Washington-based fleets), and validation tabs issued for proportionally registered vehicles.

(4) "Declared combined gross weight" means the total unladen weight of any combination of vehicles plus the weight of the maximum load to be carried on the combination of vehicles as set by the registrant in the application pursuant to chapter 46.44 RCW and for which registration fees have been or are to be paid.

(5) "Declared gross weight" means the total unladen weight of any vehicle plus the weight of the maximum load to be carried on the vehicle as set by the registrant in the appli-

cation pursuant to chapter 46.44 RCW and for which registration fees have been or are to be paid. In the case of a bus, auto stage, or a passenger-carrying for hire vehicle with a seating capacity of more than six, the declared gross weight shall be determined by multiplying the average load factor of one hundred and fifty pounds by the number of seats in the vehicle, including the driver's seat, and add this amount to the unladen weight of the vehicle. If the resultant gross weight is not listed in RCW 46.16.070, it will be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

(6) "Department" means the department of licensing.

(7) "Fleet" means one or more apportionable vehicles in the IRP.

(8) "In-jurisdiction miles" means the total miles accumulated in a jurisdiction during the preceding year by vehicles of the fleet while they were a part of the fleet.

(9) "IRP" means the International Registration Plan.

(10) "Jurisdiction" means and includes a state, territory or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a foreign country, and a state or province of a foreign country.

(11) "Motor carrier" means an entity engaged in the transportation of goods or persons. The term includes a for-hire motor carrier, private motor carrier, contract motor carrier, or exempt motor carrier. The term includes a registrant licensed under this chapter, a motor vehicle lessor, and a motor vehicle lessee.

(12) "Owner" means a person or business firm who holds the legal title to a vehicle, or if a vehicle is the subject of an agreement for its conditional sale with the right of purchase upon performance of the conditions stated in the agreement and with an immediate right of possession vested in the conditional vendee, or if a vehicle is subject to a lease, contract, or other legal arrangement vesting right of possession or control, for security or otherwise, or if a mortgagor of a vehicle is entitled to possession, then the owner is deemed to be the person or business firm in whom is vested right of possession or control.

(13) "Preceding year" means the period of twelve consecutive months immediately before July 1st of the year immediately before the commencement of the registration or license year for which apportioned registration is sought.

(14) "Prorate percentage" is the factor that is applied to the total proratable fees and taxes to determine the apportionable or prorate fees required for registration in a particular jurisdiction. It is determined by dividing the in-jurisdiction miles for a particular jurisdiction by the total miles. This term is synonymous with the term "mileage percentage."

(15) "Registrant" means a person, business firm, or corporation in whose name or names a vehicle or fleet of vehicles is registered.

(16) "Registration year" means the twelve-month period during which the registration plates issued by the base jurisdiction are valid according to the laws of the base jurisdiction.

(17) "Total miles" means the total number of miles accumulated in all jurisdictions during the preceding year by all vehicles of the fleet while they were a part of the fleet. Mileage accumulated by vehicles of the fleet that did not engage in interstate operations is not included in the fleet miles. [2005 c 194 § 2; 2003 c 85 § 1; 1997 c 183 § 2; 1994 c 262 §

(2008 Ed.)

12; 1993 c 307 § 12; 1991 c 163 § 4; 1990 c 42 § 111; 1987 c 244 § 16; 1985 c 380 § 2.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.022 Rental trailers, converter gears. Owners of rental trailers and semitrailers over six thousand pounds gross vehicle weight, and converter gears used solely in pool fleets shall fully register a portion of the pool fleet in this state. To determine the percentage of total fleet vehicles that must be registered in this state, divide the gross revenue received in the preceding year for the use of the rental vehicles arising from rental transactions occurring in this state by the total revenue received in the preceding year for the use of the rental vehicles arising from rental transactions in all jurisdictions in which the vehicles are operated. Apply the resulting percentage to the total number of vehicles that shall be registered in this state. Vehicles registered in this state shall be representative of the vehicles in the fleet according to age, size, and value. [1990 c 250 § 74.]

Severability—1990 c 250: See note following RCW 46.16.301.

46.87.023 Rental car businesses. (1) Rental car businesses must register with the department of licensing. This registration must be renewed annually by the rental car business.

(2) Rental cars must be titled and registered under the provisions of chapters 46.12 and 46.16 RCW. The vehicle must be identified at the time of application with the rental car company business number issued by the department.

(3) Use of rental cars is restricted to the rental customer unless otherwise provided by rule.

(4) The department may suspend or cancel the exemptions, benefits, or privileges granted under this section to a rental car business that violates the laws of this state relating to the operation or registration of vehicles or rules lawfully adopted thereunder. The department may initiate and conduct audits, investigations, and enforcement actions as may be reasonably necessary for administering this section.

(5) The department shall adopt such rules as may be necessary to administer and enforce the provisions of this section. [1994 c 227 § 2; 1992 c 194 § 7.]

Effective dates—1992 c 194: See note following RCW 46.04.466.

46.87.025 Vehicles titled in owner's name. All vehicles being added to an existing Washington-based fleet or those vehicles that make up a new Washington-based fleet shall be titled in the name of the owner at time of registration, or evidence of filing application for title for such vehicles in the name of the owner shall accompany the application for proportional registration. [1990 c 250 § 75; 1987 c 244 § 17.]

Severability—1990 c 250: See note following RCW 46.16.301.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.030 Part-year registration—Credit for unused fees. (1) When application to register an apportionable vehicle is made, the Washington prorated fees may be reduced by one-twelfth for each full registration month that has elapsed at the time a temporary authorization permit (TAP) was

issued or if no TAP was issued, at such time as an application for registration is received in the department. If a vehicle is being added to a currently registered fleet, the prorated percentage previously established for the fleet for such registration year shall be used in the computation of the proportional fees and taxes due.

(2) If any vehicle is withdrawn from a proportionally registered fleet during the period for which it is registered under this chapter, the registrant of the fleet shall notify the department on appropriate forms prescribed by the department. The department may require the registrant to surrender credentials that were issued to the vehicle. If a motor vehicle is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold, or otherwise completely removed from the service of the fleet registrant, the unused portion of the licensing fee paid under RCW 46.16.070 with respect to the vehicle reduced by one-twelfth for each calendar month and fraction thereof elapsing between the first day of the month of the current registration year in which the vehicle was registered and the date the notice of withdrawal, accompanied by such credentials as may be required, is received in the department, shall be credited to the fleet proportional registration account of the registrant. Credit shall be applied against the licensing fee liability for subsequent additions of motor vehicles to be proportionally registered in the fleet during such registration year or for additional licensing fees due under RCW 46.16.070 or to be due upon audit under RCW 46.87.310. If any credit is less than fifteen dollars, no credit will be entered. In lieu of credit, the registrant may choose to transfer the unused portion of the licensing fee for the motor vehicle to the new owner, in which case it shall remain with the motor vehicle for which it was originally paid. In no event may any amount be credited against fees other than those for the registration year from which the credit was obtained nor is any amount subject to refund. [2005 c 194 § 3; 1997 c 183 § 3; 1993 c 307 § 13; 1987 c 244 § 18; 1986 c 18 § 23; 1985 c 380 § 3.]

46.87.040 Purchase of additional gross weight. Additional gross weight may be purchased for proportionally registered motor vehicles to the limits authorized under chapter 46.44 RCW. Reregistration at the higher gross weight (maximum gross weights under this chapter are fifty-four thousand pounds for a solo three-axle truck or one hundred five thousand five hundred pounds for a combination) for the balance of the registration year, including the full registration month in which the vehicle is initially licensed at the higher gross weight. The apportionable or proportional fee initially paid to the state of Washington, reduced for the number of full registration months the license was in effect, will be deducted from the total fee to be paid to this state for licensing at the higher gross weight for the balance of the registration year. No credit or refund will be given for a reduction of gross weight. [1994 c 262 § 13; 1987 c 244 § 19; 1985 c 380 § 4.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.050 Deposit of fees. Each day the department shall forward to the state treasurer the fees collected under this chapter, and within ten days of the end of each registra-

tion quarter, a detailed report identifying the amount to be deposited to each account for which fees are required for the licensing of proportionally registered vehicles. Such fees shall be deposited pursuant to RCW 46.68.035 and *82.44.170. [2005 c 194 § 4; 1987 c 244 § 20; 1985 c 380 § 5.]

*Reviser's note: RCW 82.44.170 was repealed by 2006 c 318 § 10.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.060 Apportionment of fees, formula. The apportionment of fees to IRP member jurisdictions shall be in accordance with the provisions of the IRP agreement based on the apportionable fee multiplied by the prorated percentage for each jurisdiction in which the fleet will be registered or is currently registered. [1987 c 244 § 21; 1985 c 380 § 6.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.070 Reciprocity for trailers, semitrailers, pole trailers. Trailers, semitrailers, and pole trailers that are properly based in jurisdictions other than Washington, and that display currently registered license plates from such jurisdictions will be granted vehicle license reciprocity in this state without the need of further vehicle license registration. If pole trailers are not required to be licensed separately by a member jurisdiction, such vehicles may be operated in this state without displaying a current base license plate. [2005 c 194 § 5; 1993 c 123 § 1. Prior: 1991 c 339 § 9; 1991 c 163 § 5; 1990 c 42 § 112; 1987 c 244 § 22; 1985 c 380 § 7.]

46.87.080 Cab cards, validation tabs, special license plates—Design, procedures—Issuance, refusal, revocation. (1) Upon making satisfactory application and payment of applicable fees and taxes for proportional registration under this chapter, the department shall issue a cab card and validation tab for each vehicle, and to vehicles of Washington-based fleets, two distinctive apportionable license plates for each motor vehicle. License plates shall be displayed on vehicles as required by RCW 46.16.240. The number and plate shall be of a design, size, and color determined by the department. The plates shall be treated with reflectorized material and clearly marked with the words "WASHINGTON" and "APPORTIONED," both words to appear in full and without abbreviation.

(2) The cab card serves as the certificate of registration for a proportionally registered vehicle. The face of the cab card shall contain the name and address of the registrant as contained in the records of the department, the license plate number assigned to the vehicle by the base jurisdiction, the vehicle identification number, and such other description of the vehicle and data as the department may require. The cab card shall be signed by the registrant, or a designated person if the registrant is a business firm, and shall at all times be carried in or on the vehicle to which it was issued.

(3) The apportioned license plates are not transferrable from vehicle to vehicle unless otherwise determined by rule

and shall be used only on the vehicle to which they are assigned by the department for as long as they are legible or until such time as the department requires them to be removed and returned to the department.

(4) Distinctive validation tab(s) of a design, size, and color determined by the department shall be affixed to the apportioned license plate(s) as prescribed by the department to indicate the month, if necessary, and year for which the vehicle is registered.

(5) Renewals shall be effected by the issuance and display of such tab(s) after making satisfactory application and payment of applicable fees and taxes.

(6) Fleet vehicles so registered and identified shall be deemed to be fully licensed and registered in this state for any type of movement or operation. However, in those instances in which a grant of authority is required for interstate or intrastate movement or operation, no such vehicle may be operated in interstate or intrastate commerce in this state unless the owner has been granted interstate operating authority in the case of interstate operations or intrastate operating authority by the Washington utility and transportation commission in the case of intrastate operations and unless the vehicle is being operated in conformity with that authority.

(7) The department may issue temporary authorization permits (TAPs) to qualifying operators for the operation of vehicles pending issuance of license identification. A fee of one dollar plus a one dollar filing fee shall be collected for each permit issued. The permit fee shall be deposited in the motor vehicle fund, and the filing fee shall be deposited in the highway safety fund. The department may adopt rules for use and issuance of the permits.

(8) The department may refuse to issue any license or permit authorized by subsection (1) or (7) of this section to any person: (a) Who formerly held any type of license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, or 82.38 RCW that has been revoked for cause, which cause has not been removed; or (b) who is a subterfuge for the real party in interest whose license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, or 82.38 RCW and has been revoked for cause, which cause has not been removed; or (c) who, as an individual licensee, or officer, director, owner, or managing employee of a nonindividual licensee, has had a license or permit issued by the department pursuant to chapter 46.16, 46.85, 46.87, 82.36, or 82.38 RCW which has been revoked for cause, which cause has not been removed; or (d) who has an unsatisfied debt to the state assessed under either chapter 46.16, 46.85, 46.87, 82.36, 82.38, or 82.44 RCW.

(9) The department may revoke the license or permit authorized by subsection (1) or (7) of this section issued to any person for any of the grounds constituting cause for denial of licenses or permits set forth in subsection (8) of this section.

(10) Before such refusal or revocation under subsection (8) or (9) of this section, the department shall grant the applicant a hearing and at least ten days written notice of the time and place of the hearing. [2005 c 194 § 6; 1998 c 115 § 1; 1993 c 307 § 14; 1987 c 244 § 23; 1985 c 380 § 8.]

46.87.090 Apportioned vehicle license plates, cab card, validation tabs—Replacement—Fees. (1) To replace an apportioned vehicle license plate(s), cab card, or validation tab(s) due to loss, defacement, or destruction, the registrant shall apply to the department on forms furnished for that purpose. The application, together with proper payment and other documentation as indicated, shall be filed with the department as follows:

(a) Apportioned plate(s) - a fee of ten dollars shall be charged for vehicles required to display two apportioned plates or five dollars for vehicles required to display one apportioned plate. The cab card of the vehicle for which a plate is requested shall accompany the application. The department shall issue a new apportioned plate(s) with validation tab(s) and a new cab card upon acceptance of the completed application form, old cab card, and the required replacement fee.

(b) Cab card - a fee of two dollars shall be charged for each card. If this is a duplicate cab card, it will be noted thereon.

(c) Validation year tab(s) - a fee of two dollars shall be charged for each vehicle.

(2) All fees collected under this section shall be deposited to the motor vehicle fund. [1994 c 262 § 14; 1987 c 244 § 24; 1986 c 18 § 24; 1985 c 380 § 9.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.120 Mileage data for applications. (1) The initial application for proportional registration of a fleet shall state the mileage data with respect to the fleet for the preceding year in this and other jurisdictions. If no operations were conducted with the fleet during the preceding year, the application shall contain a full statement of the proposed method of operation and estimates of annual mileage in each of the jurisdictions in which operation is contemplated. The registrant shall determine the in-jurisdiction and total miles to be used in computing the fees and taxes due for the fleet. The department may evaluate and adjust the estimate in the application if it is not satisfied as to its correctness.

(2) When operations of a Washington-based fleet is materially changed through merger, acquisition, or extended authority, the registrant shall notify the department, which shall then require the filing of an amended application setting forth the proposed operation by use of estimated mileage for all jurisdictions. The department may adjust the estimated mileage by audit or otherwise to an actual travel basis to insure proper fee payment. The actual travel basis may be used for determination of fee payments until such time as a normal mileage year is available under the new operation. [2005 c 194 § 7; 1997 c 183 § 4; 1990 c 42 § 113; 1987 c 244 § 25.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.130 Transaction fee. In addition to all other fees prescribed for the proportional registration of vehicles under this chapter, the department shall collect a vehicle transaction fee each time a vehicle is added to a Washington-based fleet, and each time the proportional registration of a Washington-based vehicle is renewed. The exact amount of the vehicle

[Title 46 RCW—page 345]

transaction fee shall be fixed by rule but shall not exceed ten dollars. This fee shall be deposited in the motor vehicle fund. [2005 c 194 § 8; 1987 c 244 § 26.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.140 Application—Filing, contents—Fees and taxes—Assessments, due date. (1) Any owner engaged in interstate operations of one or more fleets of apportionable vehicles may, in lieu of registration of the vehicles under chapter 46.16 RCW, register and license the vehicles of each fleet under this chapter by filing a proportional registration application for each fleet with the department. The application shall contain the following information and such other information pertinent to vehicle registration as the department may require:

(a) A description and identification of each vehicle of the fleet.

(b) The member jurisdictions in which registration is desired and such other information as member jurisdictions require.

(c) An original or renewal application shall also be accompanied by a mileage schedule for each fleet.

(d) The USDOT number issued to the registrant and the USDOT number of the motor carrier responsible for the safety of the vehicle, if different.

(e) A completed Motor Carrier Identification Report (MCS-150) at the time of fleet renewal or at the time of vehicle registration, if required by the department.

(f) The Taxpayer Identification Number of the registrant and the motor carrier responsible for the safety of the vehicle, if different.

(2) Each application shall, at the time and in the manner required by the department, be supported by payment of a fee computed as follows:

(a) Divide the in-jurisdiction miles by the total miles and carry the answer to the nearest thousandth of a percent (three places beyond the decimal, e.g. 10.543%). This factor is known as the prorated percentage.

(b) Determine the total proratable fees and taxes required for each vehicle in the fleet for which registration is requested, based on the regular annual fees and taxes or applicable fees and taxes for the unexpired portion of the registration year under the laws of each jurisdiction for which fees or taxes are to be calculated.

Applicable fees and taxes for vehicles of Washington-based fleets are those prescribed under RCW 46.16.070, 46.16.085, and 82.38.075, as applicable. If, during the registration period, the lessor of an apportioned vehicle changes and the vehicle remains in the fleet of the registrant, the department shall only charge those fees prescribed for the issuance of new apportioned license plates, validation tabs, and cab card.

(c) Multiply the total, proratable fees or taxes for each motor vehicle by the prorated percentage applicable to the desired jurisdiction and round the results to the nearest cent.

(d) Add the total fees and taxes determined in (c) of this subsection for each vehicle to the nonproratable fees required under the laws of the jurisdiction for which fees are being calculated. Nonproratable fees required for vehicles of Washington-based fleets are the administrative fee required by

RCW 82.38.075, if applicable, and the vehicle transaction fee pursuant to the provisions of RCW 46.87.130.

(e) The amount due and payable for the application is the sum of the fees and taxes calculated for each member jurisdiction in which registration of the fleet is desired.

(3) All assessments for proportional registration fees are due and payable in United States funds on the date presented or mailed to the registrant at the address listed in the proportional registration records of the department. The registrant may petition for reassessment of the fees or taxes due under this section within thirty days of the date of original service as provided for in this chapter. [2005 c 194 § 9; 2003 c 85 § 2; 1997 c 183 § 5; 1991 c 339 § 10; 1990 c 42 § 114; 1987 c 244 § 27.]

Purpose—Headings—Severability—Effective dates—Application—Implementation—1990 c 42: See notes following RCW 82.36.025.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.150 Overpayment, underpayment—Refund, additional charge. Whenever a person has been required to pay a fee or tax pursuant to this chapter that amounts to an overpayment of ten dollars or more, the person is entitled to a refund of the entire amount of such overpayment, regardless of whether or not a refund of the overpayment has been requested. Nothing in this subsection precludes anyone from applying for a refund of such overpayment if the overpayment is less than ten dollars. Conversely, if the department or its agents has failed to charge and collect the full amount of fees or taxes pursuant to this chapter, which underpayment is in the amount of ten dollars or more, the department shall charge and collect such additional amount as will constitute full payment of the fees and taxes due. [1996 c 91 § 1; 1987 c 244 § 28.]

Effective date—1996 c 91: "This act takes effect July 1, 1996." [1996 c 91 § 5.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.190 Suspension or cancellation of benefits. The department may suspend or cancel the exemptions, benefits, or privileges granted under chapter 46.85 RCW or this chapter to any person or business firm who violates any of the conditions or terms of the IRP or who violates the laws of this state relating to the operation or registration of vehicles or rules lawfully adopted thereunder. [2005 c 194 § 10; 1987 c 244 § 32.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.200 Refusal of registration—Federal heavy vehicle use tax. The department may refuse registration of a vehicle if the applicant has failed to furnish proof, acceptable to the department, that the federal heavy vehicle use tax imposed by section 4481 of the internal revenue code of 1954 has been suspended or paid. The department may adopt rules as deemed necessary to administer this section. [1987 c 244 § 33.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.210 Refusal of application from nonreciprocal jurisdiction. The department may refuse to accept proportional registration applications for the registration of vehicles

based in another jurisdiction if the department finds that the other jurisdiction does not grant similar registration privileges to fleet vehicles based in or owned by residents of this state. [1987 c 244 § 34.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.220 Gross weight computation. The gross weight in the case of a motor truck, tractor, or truck tractor is the scale weight of the motor truck, tractor, or truck tractor, plus the scale weight of any trailer, semitrailer, converter gear, or pole trailer to be towed by it, to which shall be added the weight of the maximum load to be carried on it or towed by it as set forth by the licensee in the application providing it does not exceed the weight limitations prescribed by chapter 46.44 RCW.

The gross weight in the case of a bus, auto stage, or for hire vehicle, except a taxicab, with a seating capacity over six, is the scale weight of the bus, auto stage, or for hire vehicle plus the seating capacity, including the operator's seat, computed at one hundred and fifty pounds per seat.

If the resultant gross weight, according to this section, is not listed in RCW 46.16.070, it will be increased to the next higher gross weight so listed pursuant to chapter 46.44 RCW.

A motor vehicle or combination of vehicles found to be loaded beyond the licensed gross weight of the motor vehicle registered under this chapter shall be cited and handled under RCW 46.16.140 and 46.16.145. [1987 c 244 § 35.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.230 Responsibility for unlawful acts or omissions. Whenever an act or omission is declared to be unlawful under chapter 46.12, 46.16, or 46.44 RCW or this chapter, and if the operator of the vehicle is not the owner or lessee of the vehicle but is so operating or moving the vehicle with the express or implied permission of the owner or lessee, then the operator and the owner or lessee are both subject to this chapter, with the primary responsibility to be that of the owner or lessee.

If the person operating the vehicle at the time of the unlawful act or omission is not the owner or the lessee of the vehicle, that person is fully authorized to accept the citation or notice of infraction and execute the promise to appear on behalf of the owner or lessee. [1987 c 244 § 36.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.240 Relationship of department with other jurisdictions. Under the provisions of the IRP, the department may act in a quasi-agency relationship with other jurisdictions. [1987 c 244 § 37.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.250 Authority of chapter. This chapter constitutes complete authority for the registration of fleet vehicles upon a proportional registration basis without reference to or application of any other statutes of this state except as expressly provided in this chapter. [1987 c 244 § 38.]

(2008 Ed.)

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.260 Alteration or forgery of cab card or letter of authority—Penalty. Any person who alters or forges or causes to be altered or forged any cab card, letter of authority, or other temporary authority issued by the department under this chapter or holds or uses a cab card, letter of authority, or other temporary authority, knowing the document to have been altered or forged, is guilty of a class B felony punishable according to chapter 9A.20 RCW. [2003 c 53 § 255; 1987 c 244 § 39.]

Every Washington-based motor vehicle registered under this chapter shall have the maximum gross weight or maximum combined gross weight for which the vehicle is licensed in this state, painted or stenciled in letters or numbers of contrasting color not less than two inches in height in a conspicuous place on the right and left sides of the vehicle. It is unlawful for the owner or operator of any motor vehicle to display a maximum gross weight or maximum combined gross weight other than that shown on the current cab card of the vehicle. [1990 c 250 § 77; 1987 c 244 § 40.]

46.87.280 Effect of other registration. Nothing contained in this chapter relating to proportional registration of fleet vehicles requires any vehicle to be proportionally registered if it is otherwise registered for operation on the highways of this state. [1987 c 244 § 41.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.290 Refusal, cancellation of application, cab card—Procedures, penalties. (1) If the department determines at any time that an applicant for proportional registration of a vehicle or a fleet of vehicles is not entitled to a cab card for a vehicle or fleet of vehicles, the department may refuse to issue the cab card(s) or to license the vehicle or fleet of vehicles and may for like reason, after notice, and in the exercise of discretion, cancel the cab card(s) and license plate(s) already issued. The department shall send the notice of cancellation by first-class mail, addressed to the owner of the vehicle in question at the owner's address as it appears in the proportional registration records of the department, and record the transmittal on an affidavit of first-class mail. It is then unlawful for any person to remove, drive, or operate the vehicle(s) until a proper certificate(s) of registration or cab card(s) has been issued.

(2) Any person removing, driving, or operating the vehicle(s) after the refusal of the department to issue a cab card(s), certificate(s) of registration, license plate(s), or the revocation or cancellation of the cab card(s), certificate(s) of registration, or license plate(s) is guilty of a gross misdemeanor.

(3) At the discretion of the department, a vehicle that has been moved, driven, or operated in violation of this section

may be impounded by the Washington state patrol, county sheriff, or city police in a manner directed for such cases by the chief of the Washington state patrol until proper registration and license plate have been issued. [2003 c 53 § 256; 1997 c 183 § 6; 1987 c 244 § 42.]

The department shall refuse to register a vehicle under this chapter if the registrant or motor carrier responsible for the safety of the vehicle has been prohibited under federal law from operating by the federal motor carrier safety administration. The department shall not register a vehicle if the Washington state patrol has placed an out-of-service order on the vehicle's department of transportation number, as defined in RCW 46.16.004. [2007 c 419 § 15; 2003 c 85 § 3.]

Findings—Short title—Application—2007 c 419: See notes following RCW 46.16.004.

46.87.296 Suspension, revocation under federal prohibition—Placement of out-of-service order. The department shall suspend or revoke the registration of a vehicle registered under this chapter if the registrant or motor carrier responsible for the safety of the vehicle has been prohibited under federal law from operating by the federal motor carrier safety administration. The department shall not register a vehicle if the Washington state patrol has placed an out-of-service order on the vehicle's department of transportation number, as defined in RCW 46.16.004. [2007 c 419 § 16; 2003 c 85 § 4.]

Findings—Short title—Application—2007 c 419: See notes following RCW 46.16.004.

46.87.300 Appeal of suspension, revocation, cancellation, refusal. The suspension, revocation, cancellation, or refusal by the director, or the director's designee, of a license plate(s), certificate(s) of registration, or cab card(s) provided for in this chapter is conclusive unless the person whose license plate(s), certificate(s) of registration, or cab card(s) is suspended, revoked, canceled, or refused appeals to the superior court of Thurston county, or at the person's option if a resident of Washington, to the superior court of his or her county of residence, for the purpose of having the suspension, revocation, cancellation, or refusal of the license plate(s), certificate(s) of registration, or cab card(s) set aside. Notice of appeal shall be filed within ten calendar days after service of the notice of suspension, revocation, cancellation, or refusal. Upon the filing of the appeal, the court shall issue an order to the director to show cause why the license(s) should not be granted or reinstated. The director shall respond to the order within ten days after the date of service of the order upon the director. Service shall be in the manner prescribed for service of summons and complaint in other civil actions. Upon the hearing on the order to show cause, the court shall hear evidence concerning matters related to the suspension, revocation, cancellation, or refusal of the license plate(s), certificate(s) of registration, or cab card(s) and shall

enter judgment either affirming or setting aside the suspension, revocation, cancellation, or refusal. [1987 c 244 § 43.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.310 Application records—Preservation, contents, audit—Additional assessments, penalties, refunds. Any owner whose application for proportional registration has been accepted shall preserve the records on which the application is based for a period of four years following the preceding year or period upon which the application is based. These records shall be complete and shall include, but not be limited to, the following: Copies of proportional registration applications and supplements for all jurisdictions in which the fleet is prorated; proof of proportional or full registration with other jurisdictions; vehicle license or trip permits; temporary authorization permits; documents establishing the latest purchase year and cost of each fleet vehicle in ready-for-the-road condition; weight certificates indicating the unladen, ready-for-the-road, weight of each vehicle in the fleet; periodic summaries of mileage by fleet and by individual vehicles; individual trip reports, driver's daily logs, or other source documents maintained for each individual trip that provide trip dates, points of origin and destinations, total miles traveled, miles traveled in each jurisdiction, routes traveled, vehicle equipment number, driver's full name, and all other information pertinent to each trip. Upon request of the department, the owner shall make the records available to the department at its designated office for audit as to accuracy of records, computations, and payments. The department shall assess and collect any unpaid fees and taxes found to be due the state and provide credits or refunds for overpayments of Washington fees and taxes as determined in accordance with formulas and other requirements prescribed in this chapter. If the owner fails to maintain complete records as required by this section, the department shall attempt to reconstruct or reestablish such records. However, if the department is unable to do so and the missing or incomplete records involve mileages accrued by vehicles while they are part of the fleet, the department may assess an amount not to exceed the difference between the Washington proportional fees and taxes paid and one hundred percent of the fees and taxes. Further, if the owner fails to maintain complete records as required by this section, or if the department determines that the owner should have registered more vehicles in this state under this chapter, the department may deny the owner the right of any further benefits provided by this chapter until any final audit or assessment made under this chapter has been satisfied.

The department may audit the records of any owner and may make arrangements with agencies of other jurisdictions administering motor vehicle registration laws for joint audits of any such owner. No assessment for deficiency or claim for credit may be made for any period for which records are no longer required. Any fees, taxes, penalties, or interest found to be due and owing the state upon audit shall bear interest at the rate of one percent per month, or fraction thereof, from the first day of the calendar month after the amount should have been paid until the date of payment. If the audit discloses a deliberate and willful intent to evade the require-

ments of payment under RCW 46.87.140, a penalty of ten percent shall also be assessed.

If the audit discloses that an overpayment to the state in excess of ten dollars has been made, the department shall certify the overpayment to the state treasurer who shall issue a warrant for the overpayment to the vehicle operator. Overpayments shall bear interest at the rate of eight percent per annum from the date on which the overpayment is incurred until the date of payment. [1996 c 91 § 2; 1993 c 307 § 15; 1987 c 244 § 44.]

Effective date—1996 c 91: See note following RCW 46.87.150.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.320 Departmental audits, investigations—Subpoenas. The department may initiate and conduct audits and investigations as may be reasonably necessary to establish the existence of any alleged violations of or noncompliance with this chapter or any rules adopted under it.

For the purpose of any audit, investigation, or proceeding under this chapter the director or any designee of the director may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, paper, correspondence, memoranda, agreements, or other documents or records that the department deems relevant or material to the inquiry.

In case of contumacy or refusal to obey a subpoena issued to any person, any court of competent jurisdiction upon application by the department, may issue an order requiring that person to appear before the director or the officer designated by the director to produce testimony or other evidence touching the matter under audit, investigation, or in question. Failure to obey an order of the court may be punishable by contempt. [1987 c 244 § 45.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.330 Assessments—When due, penalties—Reassessment—Petition, notice, service—Injunctions, writs of mandate restricted. An owner of proportionally registered vehicles against whom an assessment is made under RCW 46.87.310 may petition for reassessment thereof within thirty days after service of notice of the assessment upon the owner of the proportionally registered vehicles. If the petition is not filed within the thirty-day period, the amount of the assessment becomes final at the expiration of that time period.

If a petition for reassessment is filed within the thirty-day period, the department shall reconsider the assessment and, if the petitioner has so requested in the petition, shall grant the petitioner an oral hearing and give the petitioner ten days notice of the time and place of the hearing. The department may continue the hearing from time to time. The decision of the department upon a petition for reassessment becomes final thirty days after service upon the petitioner of notice of the decision.

Every assessment made under RCW 46.87.310 becomes due and payable at the time it is served on the owner. If the assessment is not paid in full when it becomes final, the department shall add a penalty of ten percent of the amount of the assessment.

Any notice of assessment, reassessment, oral hearing, or decision required by this section shall be served personally or by mail. If served by mail, service is deemed to have been accomplished on the date the notice was deposited in the United States mail, postage prepaid, addressed to the owner of the proportionally registered vehicles at the owner's address as it appears in the proportional registration records of the department.

No injunction or writ of mandate or other legal or equitable process may be issued in any suit, action, or proceeding in any court against any officer of the state to prevent or enjoin the collection under this chapter of any fee or tax or any amount of fee or tax required to be collected, except as specifically provided for in chapter 34.05 RCW. [1996 c 91 § 3; 1987 c 244 § 46.]

Effective date—1996 c 91: See note following RCW 46.87.150.

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.335 Mitigation of assessments. Except in the case of violations of filing a false or fraudulent application, if the department deems mitigation of penalties, fees, and interest to be reasonable and in the best interests of carrying out the purpose of this chapter, it may mitigate such assessments upon whatever terms the department deems proper, giving consideration to the degree and extent of the lack of records and reporting errors. The department may ascertain the facts regarding recordkeeping and payment penalties in lieu of more elaborate proceedings under this chapter. [1994 c 262 § 15; 1991 c 339 § 5.]

46.87.340 Assessments—Lien for nonpayment. If an owner of proportionally registered vehicles liable for the remittance of fees and taxes imposed by this chapter fails to pay the fees and taxes, the amount thereof, including any interest, penalty, or addition to the fees and taxes together with any additional costs that may accrue, constitutes a lien in favor of the state upon all franchises, property, and rights to property, whether the property is employed by the person for personal or business use or is in the hands of a trustee, receiver, or assignee for the benefit of creditors, from the date the fees and taxes were due and payable until the amount of the lien is paid or the property is sold to pay the lien. The lien has priority over any lien or encumbrance whatsoever, except the lien of other state taxes having priority by law, and except that the lien is not valid as against any bona fide mortgagee, pledgee, judgment creditor, or purchaser whose rights have attached before the time the department has filed and recorded notice of the lien as provided in this chapter.

In order to avail itself of the lien created by this section, the department shall file with any county auditor a statement of claim and lien specifying the amount of delinquent fees and taxes, penalties, and interest claimed by the department. From the time of filing for record, the amount required to be paid constitutes a lien upon all franchises, property, and rights to property, whether real or personal, then belonging to or thereafter acquired by the person in the county. Any lien as provided in this section may also be filed in the office of the secretary of state. Filing in the office of the secretary of state is of no effect, however, until the lien or a copy of it has been filed with the county auditor in the county where the property

is located. When a lien is filed in compliance with this section and with the secretary of state, the filing has the same effect as if the lien had been duly filed for record in the office of each county auditor of this state. [1993 c 307 § 16; 1987 c 244 § 47.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.350 Delinquent obligations—Notice—Restriction on credits or property—Default judgments—Lien. If an owner of proportionally registered vehicles for which an assessment has become final is delinquent in the payment of an obligation imposed under this chapter, the department may give notice of the amount of the delinquency by registered or certified mail to all persons having in their possession or under their control any credits or other personal property belonging to the vehicle owner or owing any debts to the owner, at the time of the receipt by them of the notice. Thereafter, a person so notified shall neither transfer nor make other disposition of those credits, personal property, or debts until the department consents to a transfer or other disposition. A person so notified shall, within twenty days after receipt of the notice, advise the department of any and all such credits, personal property, or debts in their possession, under their control or owing by them, as the case may be, and shall forthwith deliver such credits, personal property, or debts to the department or its duly authorized representative to be applied to the indebtedness involved.

If a person fails to answer the notice within the time prescribed by this section, it is lawful for the court upon application of the department and after the time to answer the notice has expired, to render judgment by default against the person for the full amount claimed by the department in the notice to withhold and deliver, together with costs.

Upon service, the notice and order to withhold and deliver constitutes a continuing lien on property of the taxpayer. The department shall include in the caption of the notice to withhold and deliver "continuing lien." The effective date of a notice to withhold and deliver served under this section is the date of service of the notice. [1994 c 262 § 16; 1987 c 244 § 48.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.360 Delinquent obligations—Collection by department—Seizure of property, notice, sale. Whenever the owner of proportionally registered vehicles is delinquent in the payment of an obligation imposed under this chapter, and the delinquency continues after notice and demand for payment by the department, the department may proceed to collect the amount due from the owner in the following manner: The department shall seize any property subject to the lien of the fees, taxes, penalties, and interest and sell it at public auction to pay the obligation and any and all costs that may have been incurred because of the seizure and sale. Notice of the intended sale and its time and place shall be given to the delinquent owner and to all persons appearing of record to have an interest in the property. The notice shall be given in writing at least ten days before the date set for the sale by registered or certified mail addressed to the owner as appearing in the proportional registration records of the department and, in the case of any person appearing of record

to have an interest in such property, addressed to that person at their last known residence or place of business. In addition, the notice shall be published at least ten days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper in the county, the notice shall be posted in three public places in the county for a period of ten days. The notice shall contain a description of the property to be sold, a statement of the amount due under this chapter, the name of the owner of the proportionally registered vehicles, and the further statement that unless the amount due is paid on or before the time fixed in the notice the property will be sold in accordance with law.

The department shall then proceed to sell the property in accordance with law and the notice, and shall deliver to the purchaser a bill of sale or deed that vests title in the purchaser. If upon any such sale the moneys received exceed the amount due to the state under this chapter from the delinquent owner, the excess shall be returned to the delinquent owner and his receipt obtained for it. The department may withhold payment of the excess to the delinquent owner if a person having an interest in or lien upon the property has filed with the department their notice of the lien or interest before the sale, pending determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the delinquent owner is not available, the department shall deposit the excess with the state treasurer as trustee for the delinquent owner. [1987 c 244 § 49.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.370 Warrant for final assessments—Lien on property. Whenever any assessment has become final in accordance with this chapter, the department may file with the clerk of any county within this state a warrant in the amount of fees, taxes, penalties, interest, and a filing fee under RCW 36.18.012(10). The clerk of the county in which the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant the name of the delinquent owner of proportionally registered vehicles mentioned in the warrant, the amount of the fees, taxes, penalties, interest, and filing fee, and the date when the warrant was filed. The aggregate amount of the warrant as docketed constitutes a lien upon the title to, and interest in, all real and personal property of the named person against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of the clerk. A warrant so docketed is sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law in the case of civil judgment wholly or partially unsatisfied. The clerk of the court is entitled to a filing fee under RCW 36.18.012(10), which shall be added to the amount of the warrant. [2001 c 146 § 6; 1987 c 244 § 50.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.380 Delinquent obligations—Collection by attorney general. Whenever an owner of proportionally registered vehicles is delinquent in the payment of an obligation under this chapter the department may transmit notices of the

delinquency to the attorney general who shall at once proceed to collect by appropriate legal action the amount due the state from the delinquent owner.

In a suit brought to enforce the rights of the state under this chapter, a certificate by the department showing the delinquency is prima facie evidence of the amount of the obligation, of the delinquency thereof, and of compliance by the department with all provisions of this chapter relating to the obligation. [1987 c 244 § 51.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.390 Remedies cumulative. The remedies of the state in this chapter are cumulative, and no action taken by the department may be construed to be an election on the part of the state or any of its officers to pursue any remedy under this chapter to the exclusion of any other remedy provided for in this chapter. [1987 c 244 § 52.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.400 Civil immunity. (1) The director, the state of Washington, and its political subdivisions are immune from civil liability arising from the issuance of a vehicle license to a nonroadworthy vehicle.

(2) No suit or action may be commenced or prosecuted against the director or the state of Washington by reason of any act done or omitted to be done in the administration of the duties and responsibilities imposed upon the director under this chapter. [1987 c 244 § 53.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.87.410 Bankruptcy proceedings—Notice. A proportional registration licensee, who files or against whom is filed a petition in bankruptcy, shall, within ten days of the filing, notify the department of the proceedings in bankruptcy, including the identity and location of the court in which the proceedings are pending. [1997 c 183 § 1.]

46.87.900 Severability—1985 c 380. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1985 c 380 § 26.]

46.87.910 Short title. This chapter may be known and cited as "Proportional Registration." [1987 c 244 § 54.]

Effective dates—1987 c 244: See note following RCW 46.12.020.

46.90.005 Purpose.

46.90.010 Adoption of model traffic ordinance—Amendments.

46.90.005 Purpose. The purpose of this chapter is to encourage highway safety and uniform traffic laws by authorizing the department of licensing to adopt a comprehensive compilation of sound, uniform traffic laws to serve as a guide which local authorities may adopt by reference or any part thereof, including all future amendments or additions thereto. Any local authority which adopts that body of rules by reference may at any time exclude any section or sections of those rules that it does not desire to include in its local traffic ordinance. The rules are not intended to deny any local authority its legislative power, but rather to enhance safe and efficient movement of traffic throughout the state by having current, uniform traffic laws available. Effective dates—1993 c 400: "(1) Sections 3 through 5 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 15, 1993].

46.93.010 Findings—Intent. The legislature finds and declares that the distribution and sale of motorsports vehicles in this state vitally affect the general economy of the state and the public interest and public welfare, that provision for warranty service to motorsports vehicles is of substantial concern to the people of this state, that the maintenance of fair competition among dealers and others is in the public interest, and that the maintenance of strong and sound dealerships is essential to provide continuing and necessary reliable services to the consuming public in this state and to provide stable employment to the citizens of this state. The legislature further finds that there is a substantial disparity in bargaining power between motorsports vehicle manufacturers and their dealers, and that in order to promote the public interest and the public welfare, and in the exercise of its police power, it is necessary to regulate the relationship between motorsports vehicle dealers and motorsports vehicle manufacturers, importers, distributors, and their representatives doing business in this state, not only for the protection of dealers but also for the benefit for the public in assuring the continued availability and servicing of motorsports vehicles sold to the public.

The legislature recognizes it is in the best interest for manufacturers and dealers of motorsports vehicles to conduct business with each other in a fair, efficient, and competitive manner. The legislature declares the public interest is best served by dealers being assured of the ability to manage their business enterprises under a contractual obligation with manufacturers where dealers do not experience unreasonable interference and are assured of the ability to transfer ownership of their business without undue constraints. It is the intent of the legislature to impose a regulatory scheme and to regulate competition in the motorsports vehicle industry to the extent necessary to balance fairness and efficiency. These actions will permit motorsports vehicle dealers to better serve consumers and allow dealers to devote their best

competitive efforts and resources to the sale and services of the manufacturer's products to consumers. [2003 c 354 § 1.]

[2003 c 354 § 2.]

46.93.030 Termination, cancellation, nonrenewal of franchise restricted. Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, no manufacturer may terminate, cancel, or fail to renew a franchise with a new motorsports vehicle dealer, unless the manufacturer has complied with the notice requirements of RCW 46.93.070 and an administrative law judge has determined, if requested in writing by the dealer within forty-five days of receiving a notice from a manufacturer, after hearing, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith regarding the termination, cancellation, or nonrenewal. [2003 c 354 § 3.]

46.93.040 Determination of good cause, good faith—Petition, notice, decision, appeal. A new motorsports vehicle dealer who has received written notification from the manufacturer of the manufacturer's intent to terminate, cancel, or not renew the franchise, may file a petition with the department for a determination as to the existence of good cause and good faith for the termination, cancellation, or nonrenewal of a franchise. The petition must contain a short statement setting forth the reasons for the dealer's objection to the termination, cancellation, or nonrenewal of the franchise. Upon the filing of the petition and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely petition has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The franchise in question continues in full force and effect pending the administrative law judge's decision. If the decision of the administrative law judge terminating, canceling, or failing to renew a dealer's franchise is appealed by a dealer or manufacturer, the franchise continues in full force and effect until all appeals to a superior court or any appellate court have been completed. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review. [2003 c 354 § 4.]

If the termination, cancellation, or nonrenewal is under RCW 46.93.070(2), the administrative law judge shall give the proceeding priority consideration and shall render a final decision not later than sixty days after a petition is filed.

(2) The administrative law judge shall conduct the hearing as an adjudicative proceeding in accordance with the procedures provided for in the Administrative Procedure Act, chapter 34.05 RCW. The administrative law judge shall render the final decision and shall enter a final order. Except as

otherwise provided in RCW 34.05.446 and 34.05.449, all hearing costs must be borne on an equal basis by the parties to the hearing.

(3) A party to a hearing under this chapter may be represented by counsel. A party to a hearing aggrieved by the final order of the administrative law judge concerning the termination, cancellation, or nonrenewal of a franchise may seek judicial review of the order in the superior court or appellate court in the manner provided for in RCW 34.05.510 through 34.05.598. A petitioner for judicial review need not exhaust all administrative appeals or administrative review processes as a prerequisite for seeking judicial review under this section. [2003 c 354 § 5.]

46.93.060 Good cause, what constitutes—Burden of proof. (1) Notwithstanding the terms of a franchise or the terms of a waiver, and except as otherwise provided in RCW 46.93.070(2) (a) through (d), good cause exists for termination, cancellation, or nonrenewal of a franchise when there is a failure by the dealer to comply with a provision of the franchise that is both reasonable and of material significance to the franchise relationship, if the dealer was notified of the failure within one hundred eighty days after the manufacturer first acquired knowledge of the failure, and the dealer did not correct the failure after being requested to do so.

If, however, the failure of the dealer relates to the performance of the dealer in sales, service, or level of customer satisfaction, good cause is the failure of the dealer to comply with reasonable performance standards determined by the manufacturer in accordance with uniformly applied criteria, and:

- (a) The dealer was advised, in writing, by the manufacturer of the failure;
- (b) The notice under this subsection stated that notice was provided of a failure of performance under this section;
- (c) The manufacturer provided the dealer with specific, reasonable goals or reasonable performance standards with which the dealer must comply, together with a suggested timetable or program for attaining those goals or standards, and the dealer was given a reasonable opportunity, for a period of not more than ninety days, to comply with the goals or standards; and
- (d) The dealer did not substantially comply with the manufacturer's performance standards during that period and the failure to demonstrate substantial compliance was not due to market or economic factors within the dealer's relevant market area that were beyond the control of the dealer.

(2) The manufacturer has the burden of proof of establishing good cause and good faith for the termination, cancellation, or nonrenewal of the franchise under this section. [2003 c 354 § 6.]

46.93.070 Notice of termination, cancellation, or nonrenewal. Before the termination, cancellation, or nonrenewal of a franchise, the manufacturer shall give written notification to both the department and the dealer. The notice must be by certified mail or personally delivered to the new motorsports vehicle dealer and must state the intention to terminate, cancel, or not renew the franchise, the reasons for the termination, cancellation, or nonrenewal, and the effective

date of the termination, cancellation, or nonrenewal. The notice must be given:

(1) Not less than ninety days, which runs concurrently with the ninety-day period provided in RCW 46.93.060(1)(c), before the effective date of the termination, cancellation, or nonrenewal;

(2) Not less than fifteen days before the effective date of the termination, cancellation, or nonrenewal with respect to any of the following that constitute good cause for termination, cancellation, or nonrenewal:

(a) Insolvency of the dealer or the filing of any petition by or against the dealer under bankruptcy or receivership law;

(b) Failure of the dealer to conduct sales and service operations during customary business hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the dealer;

(c) Conviction of the dealer, or principal operator of the dealership, of a felony punishable by imprisonment; or

(d) Suspension or revocation of a license that the dealer is required to have to operate the dealership where the suspension or revocation is for a period in excess of thirty days;

(3) Not less than one hundred eighty days before the effective date of termination, cancellation, or nonrenewal, where the manufacturer intends to discontinue sale and distribution of the new motorsports vehicle line. [2003 c 354 § 7.]

46.93.080 Payments by manufacturer to dealer for inventory, equipment, etc. (1) Upon the termination, cancellation, or nonrenewal of a franchise by the manufacturer under this chapter, the manufacturer shall pay the dealer, at a minimum:

(a) Dealer cost, less all allowances paid or credited to the dealer by the manufacturer, of unused, undamaged, and unsold new motorsports vehicles in the dealer's inventory that were acquired from the manufacturer or another dealer of the same line make;

(b) Dealer cost for all unused, undamaged, and unsold supplies, parts, and accessories in original packaging, except that in the case of sheet metal, a comparable substitute for original packaging may be used, if the supply, part, or accessory was acquired from the manufacturer or from another dealer ceasing operations as a part of the dealer's initial inventory, as long as the supplies, parts, and accessories appear in the manufacturer's current parts catalog, list, or current offering;

(c) Dealer cost for all unused, undamaged, and unsold inventory, whether vehicles, parts, or accessories, the purchase of which was required by the manufacturer;

(d) The fair market value of each undamaged sign owned by the dealer that bears a common name, trade name, or trademark of the manufacturer, if acquisition of the sign was recommended or required by the manufacturer and the sign is in good and usable condition less reasonable wear and tear, and has not been depreciated by the dealer more than fifty percent of the value of the sign; and

(e) The fair market value of all special tools owned or leased by the dealer that were acquired from the manufacturer or persons approved by the manufacturer, and that were required by the manufacturer, and are in good and usable condition, less reasonable wear and tear. However, if the tools are leased by the dealer, the manufacturer shall pay the

dealer such amounts that are required by the lessor to terminate the lease under the terms of the lease agreement.

(2) To the extent the franchise agreement provides for payment or reimbursement to the dealer in excess of that specified in this section, the provisions of the franchise agreement will control.

(3) The manufacturer shall pay the dealer the sums specified in subsection (1) of this section within ninety days after the tender of the property, if the dealer has clear title to the property and is in a position to convey that title to the manufacturer. [2003 c 354 § 8.]

46.93.090 Mitigation of damages. RCW 46.93.030 through 46.93.080 do not relieve a dealer from the obligation to mitigate the dealer's damages upon termination, cancellation, or nonrenewal of the franchise. [2003 c 354 § 9.]

46.93.100 Warranty work. (1) Each manufacturer shall specify in its franchise agreement, or in a separate written agreement, with each of its dealers licensed in this state, the dealer's obligation to perform warranty work or service on the manufacturer's products. Each manufacturer shall provide each of its dealers with a schedule of compensation to be paid to the dealer for any warranty work or service, including parts, labor, and diagnostic work, required of the dealer by the manufacturer in connection with the manufacturer's products, and for work on and preparation of motorsports vehicles received from the manufacturer. The compensation may not be less than the rates reasonably charged by the dealer for like services and parts to retail customers. The compensation may not be reduced by the manufacturer for any reason or made conditional on an activity outside the performance of warranty work.

(2) All claims for warranty work for parts and labor made by dealers under this section must be paid by the manufacturer within thirty days after approval, and must be approved or denied within thirty days of receipt by the manufacturer. Denial of a claim must be in writing with the specific grounds for denial. The manufacturer may audit claims for warranty work and charge the dealer for any unsubstantiated, incorrect, or false claims for a period of one year after payment. However, the manufacturer may audit and charge the dealer for any fraudulent claims during any period for which an action for fraud may be commenced under applicable state law.

(3) All claims submitted by dealers on the forms and in the manner specified by the manufacturer must be either approved or disapproved within thirty days after their receipt. The manufacturer shall notify the dealer in writing of a disapproved claim, and shall set forth the reasons why the claim was not approved. A claim not specifically disapproved in writing within thirty days after receipt is approved, and the manufacturer is required to pay that claim within thirty days of receipt of the claim. [2003 c 354 § 10.]

46.93.110 Designated successor to franchise ownership. (1) Notwithstanding the terms of a franchise, an owner may appoint a designated successor to succeed to the ownership of the dealer franchise upon the owner's death or incapacity.

(2) Notwithstanding the terms of a franchise, a designated successor of a deceased or incapacitated owner of a dealer franchise may succeed to the ownership interest of the owner under the existing franchise, if:

(a) In the case of a designated successor who meets the definition of a designated successor under RCW 46.93.020(5), but who is not experienced in the business of a new motorsports vehicle dealer, the person will employ an individual who is qualified and experienced in the business of a new motorsports vehicle dealer to help manage the day-to-day operations of the dealership; or in the case of a designated successor who meets the definition of a designated successor under RCW 46.93.020(5) (b) or (c), the person is qualified and experienced in the business of a new motorsports vehicle dealer and meets the normal, reasonable, and uniformly applied standards for grant of an application as a dealer by the manufacturer; and

(b) The designated successor furnishes written notice to the manufacturer of his or her intention to succeed to the ownership of the dealership within sixty days after the owner's death or incapacity; and

(c) The designated successor agrees to be bound by all terms and conditions of the franchise.

(3) The manufacturer may request, and the designated successor shall promptly provide, such personal and financial information as is reasonably necessary to determine whether the succession should be honored.

(4) A manufacturer may refuse to honor the succession to the ownership of a dealer franchise by a designated successor if the manufacturer establishes that good cause exists for its refusal to honor the succession. If the designated successor of a deceased or incapacitated owner of a dealer franchise fails to meet the requirements set forth in subsection (2)(a), (b), and (c) of this section, good cause for refusing to honor the succession is presumed to exist. If a manufacturer believes that good cause exists for refusing to honor the succession to the ownership of a dealer franchise by a designated successor, the manufacturer shall serve written notice on the designated successor and on the department of its refusal to honor the succession no earlier than sixty days from the date the notice is served. The notice must be served not later than sixty days after the manufacturer's receipt of:

(a) Notice of the designated successor's intent to succeed to the ownership interest of the dealer's franchise; or

(b) Any personal or financial information requested by the manufacturer.

(5) The notice in subsection (4) of this section must state the specific grounds for the refusal to honor the succession. If the notice of refusal is not timely and properly served, the designated successor may continue the franchise in full force and effect, subject to termination only as otherwise provided under this chapter.

(6) Within twenty days after receipt of the notice, or within twenty days after the end of any appeal procedure provided by the manufacturer, whichever is greater, the designated successor may file a petition with the department protesting the refusal to honor the succession. The petition must contain a short statement setting forth the reasons for the designated successor's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed

and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer may not terminate or otherwise discontinue the existing franchise until the administrative law judge has held a hearing and has determined that there is good cause for refusing to honor the succession. If an appeal is taken, the manufacturer may not terminate or discontinue the franchise until all appeals to a superior court or any appellate court have been completed. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review.

(7) The manufacturer has the burden of proof to show that good cause exists for the refusal to honor the succession.

(8) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a protest is filed.

(9) The administrative law judge shall conduct a hearing concerning the refusal to the succession as provided in RCW 46.93.050(2), and all hearing costs must be borne as provided in that subsection. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.93.050(3).

(10) This section does not preclude the owner of a dealer franchise from designating any person as his or her successor by a written, notarized, and witnessed instrument filed with the manufacturer. In the event of a conflict between this section and such a written instrument that has not been revoked by written notice from the owner to the manufacturer, the written instrument governs. [2003 c 354 § 11.]

46.93.120 Relevant market area—New or relocated dealerships, notice of. Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, if a manufacturer intends or proposes to enter into a franchise to establish an additional dealer or to relocate an existing dealer within or into a relevant market area in which the same line make of motorsports vehicle is then represented, the manufacturer shall provide at least ten days advance written notice to the department and to each dealer of the same line make in the relevant market area, of the manufacturer's intention to establish an additional dealer or to relocate an existing dealer within or into the relevant market area. The notice must be sent by certified mail to each such party and include the following information:

(1) The specific location at which the additional or relocated dealer will be established;

(2) The date on or after which the additional or relocated dealer intends to commence business at the proposed location;

(3) The identity of all dealers who are franchised to sell the same line make vehicles as the proposed dealer and who have licensed locations within the relevant market area;

(4) The names and addresses, if available, of the owners of and principal investors in the proposed additional or relocated dealership; and

(5) The specific grounds or reasons for the proposed establishment of an additional dealer or relocation of an existing dealer. [2003 c 354 § 12.]

46.93.130 Protest of new or relocated dealership—Hearing—Arbitration. (1) Within thirty days after receipt of the notice under RCW 46.93.120, or within thirty days after the end of an appeal procedure provided by the manufacturer, whichever is greater, a dealer notified or entitled to notice may file a petition with the department protesting the proposed establishment or relocation. The petition must contain a short statement setting forth the reasons for the dealer's objection to the proposed establishment or relocation. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer may not establish or relocate the dealer until the administrative law judge has held a hearing and administrative proceeding under the Administrative Procedure Act, chapter 34.05 RCW, and has determined that there is good cause for permitting the proposed establishment or relocation. When more than one protest is filed against the establishment or relocation of the same dealer, the administrative law judge shall consolidate the hearings to expedite disposition of the matter.

(2) If a manufacturer provides in the franchise agreement or by written statement distributed and provided to its dealers for arbitration under the Washington Arbitration Act, *chapter 7.04 RCW, as a mechanism for resolving disputes relating to the establishment of an additional new motorsports vehicle dealer or the relocation of a new motorsports vehicle dealer, subsection (1) of this section and RCW 46.93.140 will take precedence and the arbitration provision in the franchise agreement or a written statement is void, unless the manufacturer and dealer agree to use arbitration.

(3) If the manufacturer and dealer agree to use arbitration, the dispute must be referred for arbitration to such arbitrator as may be agreed upon by the parties to the dispute. The thirty-day period for filing a protest under subsection (1) of this section still applies except the protesting dealer shall file the protest with the manufacturer. If the parties cannot agree upon a single arbitrator within thirty days from the date the protest is filed, the protesting dealer will select an arbitrator, the manufacturer will select an arbitrator, and the two arbitrators will then select a third arbitrator. If a third arbitrator is not agreed upon within thirty days, any party may apply to the superior court, and the judge of the superior court having jurisdiction will appoint the third arbitrator. The protesting dealer will pay the arbitrator selected by him or her, and the manufacturer will pay the arbitrator it selected. The expense of the third arbitrator and all other expenses of arbitration will be shared equally by the parties. Attorneys' fees and fees paid to expert witnesses are not expenses of arbitration and will be paid by the person incurring them.

(4) Notwithstanding the terms of a franchise or written statement of the manufacturer and notwithstanding the terms of a waiver, the arbitration will take place in this state in the county where the protesting dealer has its principal place of business. RCW 46.93.140 applies to a determination made by the arbitrator or arbitrators in determining whether good cause exists for permitting the proposed establishment or relocation of a dealer, and the manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation. After a hearing has

been held, the arbitrator or arbitrators shall render a decision as expeditiously as possible, but in any event not later than one hundred twenty days from the date the arbitrator or arbitrators are selected or appointed. The manufacturer may not establish or relocate the new motorsports vehicle dealer until the arbitration hearing has been held and the arbitrator or arbitrators have determined that there is good cause for permitting the proposed establishment or relocation and any judicial appeals under *chapter 7.04 RCW have been completed. The written decision of the arbitrator is binding upon the parties unless modified, corrected, or vacated under the Washington Arbitration Act. Any party may appeal the decision of the arbitrator or arbitrators under the Washington Arbitration Act, *chapter 7.04 RCW. [2003 c 354 § 13.]

**Reviser's note:* Chapter 7.04 RCW was repealed in its entirety by 2005 c 433 § 50, effective January 1, 2006. Cf. chapter 7.04A RCW.

46.93.140 Factors considered by administrative law judge. In determining whether good cause exists for permitting the proposed establishment or relocation of a dealer of the same line make, the factors that the administrative law judge shall consider must include, but are not limited to the following:

- (1) The extent, nature, and permanency of the investment of both the existing dealers of the same line make in the relevant market area and the proposed additional or relocating dealer, including obligations reasonably incurred by the existing dealers to perform their obligations under their respective franchises;
- (2) The growth or decline in population and new motorsports vehicle registrations during the past five years in the relevant market area;
- (3) The effect on the consuming public;
- (4) The effect on the existing dealers in the relevant market area, including any adverse financial impact;
- (5) The reasonably expected or anticipated vehicle market for the relevant market area, including demographic factors such as age of population, income, education, size class preference, product popularity, retail lease transactions, or other factors affecting sales to consumers in the relevant market area;
- (6) Whether it is injurious or beneficial to the public welfare for an additional dealership to be established;
- (7) Whether the dealers of the same line make in the relevant market area are providing adequate competition and convenient customer care for the motorsports vehicles of the same line make in the relevant market area, including the adequacy of motorsports vehicle sales and service facilities, equipment, supply of vehicle parts, and qualified service personnel;
- (8) Whether the establishment of an additional dealer would increase competition and be in the public interest;
- (9) Whether the manufacturer is motivated principally by good faith to establish an additional or new dealer and not by noneconomic considerations;
- (10) Whether the manufacturer has denied its existing dealers of the same line make the opportunity for reasonable growth, market expansion, or relocation;
- (11) Whether the protesting dealer or dealers are in substantial compliance with their dealer agreements or franchises; and

(2008 Ed.)

(12) Whether the manufacturer has complied with the requirements of RCW 46.93.120 and 46.93.130. [2003 c 354 § 14.]

46.93.150 Hearing—Procedures, costs, appeal. (1) The manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation.

(2) The administrative law judge shall conduct any hearing as provided in RCW 46.93.050(2) and all hearing costs will be borne as provided in that subsection. The administrative law judge shall render the final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. If more than one protest is filed, the one hundred twenty days commences to run from the date the last protest is filed. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.93.050(3). [2003 c 354 § 15.]

46.93.160 Relocation requirements—Exceptions. RCW 46.93.120 through 46.93.150 do not apply:

- (1) To the sale or transfer of the ownership or assets of an existing dealer where the transferee proposes to engage in business representing the same line make at the same location or within two miles of that location;
- (2) To the relocation of an existing dealer within the dealer's relevant market area, if the relocation is not at a site within eight miles of any dealer of the same line make;
- (3) If the proposed dealer is to be established at or within two miles of a location at which a former dealer of the same line make had ceased operating within the previous twenty-four months;
- (4) Where the proposed relocation is two miles or less from the existing location of the relocating dealer; or
- (5) Where the proposed relocation is to be further away from all other existing dealers of the same line make in the relevant market area. [2003 c 354 § 16.]

46.93.170 Unfair practices. (1) Notwithstanding the terms of a franchise agreement, a manufacturer, distributor, factory branch, or factory representative, or an agent, officer, parent company, wholly or partially owned subsidiary, affiliated entity, or other person controlled by or under common control with a manufacturer, distributor, factory branch, or factory representative, shall not:

- (a) Discriminate between dealers by selling or offering to sell a like motorsports vehicle to one dealer at a lower actual price than the actual price offered to another dealer for the same model similarly equipped;
- (b) Discriminate between dealers by selling or offering to sell parts or accessories to one dealer at a lower actual price than the actual price offered to another dealer;
- (c) Discriminate between dealers by using a promotion plan, marketing plan, or other similar device that results in a lower actual price on vehicles, parts, or accessories being charged to one dealer over another dealer;
- (d) Discriminate between dealers by adopting a method, or changing an existing method, for the allocation, scheduling, or delivery of new motorsports vehicles, parts, or acces-

sories to its dealers that is not fair, reasonable, and equitable. Upon the request of a dealer, a manufacturer shall disclose in writing to the dealer the method by which new motorsports vehicles, parts, and accessories are allocated, scheduled, or delivered to its dealers handling the same line or make of vehicles;

(e) Give preferential treatment to some dealers over others by refusing or failing to deliver, in reasonable quantities and within a reasonable time after receipt of an order, to a dealer holding a franchise for a line or make of motorsports vehicles sold or distributed by the manufacturer, a new vehicle, parts, or accessories, if the vehicle, parts, or accessories are being delivered to other dealers, or require a dealer to purchase unreasonable advertising displays or other materials, or unreasonably require a dealer to remodel or renovate existing facilities as a prerequisite to receiving a model or series of vehicles;

(f) Compete with a dealer by acting in the capacity of a dealer, or by owning, operating, or controlling, whether directly or indirectly, a dealership in this state. It is not, however, a violation of this subsection for:

(i) A manufacturer to own or operate a dealership for a temporary period, not to exceed two years, during the transition from one owner of the dealership to another where the dealership was previously owned by a franchised dealer and is currently for sale to any qualified independent person at a fair and reasonable price. The temporary operation may be extended for one twelve-month period on petition of the temporary operator to the department. The matter will be handled as an adjudicative proceeding under chapter 34.05 RCW. A dealer who is a franchisee of the petitioning manufacturer or distributor may intervene and participate in a proceeding under this subsection (1)(f)(i). The temporary operator has the burden of proof to show justification for the extension and a good faith effort to sell the dealership to an independent person at a fair and reasonable price;

(ii) A manufacturer to own or operate a dealership in conjunction with an independent person in a bona fide business relationship for the purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group who have historically been underrepresented in its dealer body, or other qualified persons who lack the resources to purchase a dealership outright, and where the independent person (A) has made a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacturer has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions;

(iii) A manufacturer to own or operate a dealership in conjunction with an independent person in a bona fide business relationship where the independent person (A) has made a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide

written agreement with the manufacturer under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacture [manufacturer] has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions. The number of dealerships operated under this subsection (1)(f)(iii) may not exceed four percent rounded up to the nearest whole number of a manufacturer's total of dealer franchises in this state;

(iv) A manufacturer to own, operate, or control a dealership trading exclusively in a single line make of the manufacturer if (A) the manufacturer does not own, directly or indirectly, in the aggregate, in excess of forty-five percent of the total ownership interest in the dealership; (B) at the time the manufacturer first acquires ownership or assumes operation or control of any such dealership, the distance between any dealership thus owned, operated, or controlled and the nearest dealership trading in the same line make of vehicle and in which the manufacturer has no ownership or control complies with the applicable provisions in the relevant market area sections of this chapter; (C) all of the manufacturer's franchise agreements confer rights on the dealer of that line make to develop and operate within a defined geographic territory or area, as many dealership facilities as the dealer and the manufacturer agree are appropriate; and (D) the manufacturer had no more than four new motorsports vehicle dealers of that manufacturer's line make in this state, and at least half of those dealers owned and operated two or more dealership facilities in the geographic territory or area covered by their franchise agreements with the manufacturer;

(g) Compete with a dealer by owning, operating, or controlling, whether directly or indirectly, a service facility in this state for the repair or maintenance of motorsports vehicles under the manufacturer's new motorsports vehicle warranty and extended warranty. Nothing in this subsection (1)(g), however, prohibits a manufacturer from owning or operating a service facility for the purpose of providing or performing maintenance, repair, or service work on motorsports vehicles that are owned by the manufacturer;

(h) Use confidential or proprietary information obtained from a dealer to unfairly compete with the dealer without the prior written consent of the dealer. For purposes of this subsection (1)(h), "confidential or proprietary information" means trade secrets as defined in RCW 19.108.010, business plans, marketing plans or strategies, customer lists, contracts, sales data, revenues, or other financial information;

(i) Coerce, threaten, intimidate, or require, either directly or indirectly, a dealer to accept, buy, or order any motorsports vehicle, part, or accessory, or any other commodity or service not voluntarily ordered, or requested, or to buy, order, or pay anything of value for such items in order to obtain a motorsports vehicle, part, accessory, or other commodity that has been voluntarily ordered or requested;

(j) Coerce, threaten, intimidate, or require, either directly or indirectly, a dealer to enter into any agreement that violates this chapter;

(k) Require a change in capital structure or means of financing for the dealership if the dealer at all times meets the

reasonable, written, and uniformly applied capital standards determined by the manufacturer;

(l) Prevent or attempt to prevent a dealer from making reasonable changes in the capital structure of a dealership or the means by which the dealership is financed if the dealer meets the reasonable, written, and uniformly applied capital requirements determined by the manufacturer;

(m) Unreasonably require the dealer to change the location or require any substantial alterations to the place of business;

(n) Condition a renewal or extension of the franchise on the dealer's substantial renovation of the existing place of business or on the construction, purchase, acquisition, or release of a new place of business unless written notice is first provided one hundred eighty days before the date of renewal or extension and the manufacturer demonstrates the reasonableness of the requested actions. The manufacturer shall agree to supply the dealer with an adequate quantity of motorsports vehicles, parts, and accessories to meet the sales level necessary to support the overhead resulting from substantial construction, acquisition, or lease of a new place of business;

(o) Coerce, threaten, intimidate, or require, either directly or indirectly, a dealer to order or accept delivery of a motorsports vehicle with special features, accessories, or equipment not included in the list price of the vehicle as advertised by the manufacturer, except items that have been voluntarily requested or ordered by the dealer, and except items required by law;

(p) Fail to hold harmless and indemnify a dealer against losses, including lawsuits and court costs, arising from: (i) The manufacture or performance of a motorsports vehicle, part, or accessory if the lawsuit involves representations by the manufacturer on the manufacture or performance of a motorsports vehicle without negligence on the part of the dealer; (ii) damage to merchandise in transit where the manufacturer specifies the carrier; (iii) the manufacturer's failure to jointly defend product liability suits concerning the motorsports vehicle, part, or accessory provided to the dealer; or (iv) any other act performed by the manufacturer;

(q) Unfairly prevent or attempt to prevent a dealer from receiving reasonable compensation for the value of a motorsports vehicle;

(r) Fail to pay to a dealer, within a reasonable time after receipt of a valid claim, a payment agreed to be made by the manufacturer on grounds that a new motorsports vehicle, or a prior year's model, is in the dealer's inventory at the time of introduction of new model motorsports vehicles;

(s) Deny a dealer the right of free association with any other dealer for any lawful purpose;

(t) Charge increased prices without having given written notice to the dealer at least fifteen days before the effective date of the price increases;

(u) Permit factory authorized warranty service to be performed upon motorsports vehicles or accessories by persons other than their franchised dealers;

(v) Require or coerce a dealer to sell, assign, or transfer a retail sales installment contract, or require the dealer to act as an agent for a manufacturer, in the securing of a promissory note, a security agreement given in connection with the sale of a motorsports vehicle, or securing of a policy of insur-

ance for a motorsports vehicle. The manufacturer may not condition delivery of any motorsports vehicle, parts, or accessories upon the dealer's assignment, sale, or other transfer of sales installment contracts to specific finance companies;

(w) Require or coerce a dealer to grant a manufacturer a right of first refusal or other preference to purchase the dealer's franchise or place of business, or both.

(2) Subsections (1)(a), (b), and (c) of this section do not apply to sales to a dealer: (a) For resale to a federal, state, or local government agency; (b) where the motorsports vehicles will be sold or donated for use in a program of driver's education; (c) where the sale is made under a manufacturer's bona fide promotional program offering sales incentives or rebates; (d) where the sale of parts or accessories is under a manufacturer's bona fide quantity discount program; or (e) where the sale is made under a manufacturer's bona fide fleet vehicle discount program. For purposes of this subsection, "fleet" means a group of fifteen or more new motorsports vehicles purchased or leased by a dealer at one time under a single purchase or lease agreement for use as part of a fleet, and where the dealer has been assigned a fleet identifier code by the department.

(3) The following definitions apply to this section:

(a) "Actual price" means the price to be paid by the dealer less any incentive paid by the manufacturer, whether paid to the dealer or the ultimate purchaser of the motorsports vehicle.

(b) "Control" or "controlling" means (i) the possession of, title to, or control of ten percent or more of the voting equity interest in a person, whether directly or indirectly through a fiduciary, agent, or other intermediary, or (ii) the possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, whether through the ownership of voting securities, through director control, by contract, or otherwise, except as expressly provided under the franchise agreement.

(c) "Operate" means to manage a dealership, whether directly or indirectly.

(d) "Own" or "ownership" means to hold the beneficial ownership of one percent or more of any class of equity interest in a dealership, whether the interest is that of a shareholder, partner, limited liability company member, or otherwise. To hold an ownership interest means to have possession of, title to, or control of the ownership interest, whether directly or indirectly through a fiduciary, agent, or other intermediary.

(4) A violation of this section is deemed to affect the public interest and constitutes an unlawful and unfair practice under chapter 19.86 RCW. A person aggrieved by an alleged violation of this section may petition the department to have the matter handled as an adjudicative proceeding under chapter 34.05 RCW. [2003 c 354 § 17.]

46.93.180 Sale, transfer, or exchange of franchise.

(1) Notwithstanding the terms of a franchise, a manufacturer may not unreasonably withhold consent to the sale, transfer, or exchange of a franchise to a qualified buyer who meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a dealer or is capable of being approved by the department as a dealer in

this state. A manufacturer's failure to respond in writing to a request for consent under this subsection within sixty days after receipt of a written request on the forms, if any, generally used by the manufacturer containing the information and reasonable promises required by a manufacturer, is deemed to be consent to the request. A manufacturer may request, and, if so requested, the applicant for a franchise (a) shall promptly provide such personal and financial information as is reasonably necessary to determine whether the sale, transfer, or exchange should be approved, and (b) shall agree to be bound by all reasonable terms and conditions of the franchise.

(2) If a manufacturer refuses to approve the sale, transfer, or exchange of a franchise, the manufacturer shall serve written notice on the applicant, the transferring, selling, or exchanging dealer, and the department, of its refusal to approve the transfer of the franchise no later than sixty days after the date the manufacturer receives the written request from the dealer. If the manufacturer has requested personal or financial information from the applicant under subsection (1) of this section, the notice must be served not later than sixty days after the receipt of all of such documents. Service of all notices under this section must be made by personal service or by certified mail, return receipt requested.

(3) The notice in subsection (2) of this section must state the specific grounds for the refusal to approve the sale, transfer, or exchange of the franchise.

(4) Within twenty days after receipt of the notice of refusal to approve the sale, transfer, or exchange of the franchise by the transferring dealer, the dealer may file a petition with the department to protest the refusal to approve the sale, transfer, or exchange. The petition must contain a short statement setting forth the reasons for the dealer's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed, and the department shall arrange for a hearing with an administrative law judge as the presiding officer to determine if the manufacturer unreasonably withheld consent to the sale, transfer, or exchange of the franchise.

(5) In determining whether the manufacturer unreasonably withheld its approval to the sale, transfer, or exchange, the manufacturer has the burden of proof that it acted reasonably. A manufacturer's refusal to accept or approve a proposed buyer who otherwise meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer, or who otherwise is capable of operating as a dealer in this state, is presumed to be unreasonable.

(6) The administrative law judge shall conduct a hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. Only the selling, transferring, or exchanging dealer and the manufacturer may be parties to the hearing.

(7) The administrative law judge shall conduct any hearing as provided in RCW 46.93.050(2), and all hearing costs must be borne as provided in that subsection. Only the manufacturer and the selling, transferring, or exchanging dealer may appeal the final order of the administrative law judge to the superior court or the appellate court as provided in the

Administrative Procedure Act, chapter 34.05 RCW. [2003 c 354 § 18.]

46.93.190 Petition and hearing filing fees, costs, security. The department shall determine and establish the amount of the filing fees required in RCW 46.93.040, 46.93.110, 46.93.130, and 46.93.180. The fees must be set in accordance with RCW 43.24.086.

The department may also require the petitioning or protesting party to give security, in such sum as the department deems proper but not to exceed one thousand dollars, for the payment of such costs as may be incurred in conducting the hearing as required under this chapter. The security may be given in the form of a bond or stipulation or other undertaking with one or more sureties.

At the conclusion of the hearing, the department shall assess, in equal shares, each of the parties to the hearing for the cost of conducting the hearing. Upon receipt of payment of the costs, the department shall refund and return to the petitioning party any excess funds initially posted by the party as security for the hearing costs. If the petitioning party provided security in the form of a bond or other undertaking with one or more sureties, the bond or other undertaking will then be exonerated and the surety or sureties under it discharged. [2003 c 354 § 19.]

46.93.200 Department defining additional motor-sports vehicles. The department shall determine through rule making under the Administrative Procedure Act any motorsports vehicles not already defined in RCW 46.93.020(7) as of July 27, 2003, that are manufactured after July 27, 2003. [2003 c 354 § 20.]

46.93.900 Severability. If any provision of this chapter or its application to any person or circumstance is held invalid, the remainder of the chapter or the application of the provision to other persons or circumstances is not affected. [2003 c 354 § 21.]

46.96.010 Legislative findings. The legislature finds and declares that the distribution and sale of motor vehicles in this state vitally affect the general economy of the state and the public interest and public welfare, that provision for warranty service to motor vehicles is of substantial concern to the people of this state, that the maintenance of fair competition among dealers and others is in the public interest, and that the maintenance of strong and sound dealerships is essential to provide continuing and necessary reliable services to the consuming public in this state and to provide stable employment to the citizens of this state. The legislature further finds that there is a substantial disparity in bargaining power between automobile manufacturers and their dealers, and that in order to promote the public interest and the public welfare, and in the exercise of its police power, it is necessary to regulate the relationship between motor vehicle dealers and motor vehicle manufacturers, importers, distributors, and their representatives doing business in this state, not only for the protection of dealers but also for the benefit for the public in assuring the continued availability and servicing of automobiles sold to the public.

The legislature recognizes it is in the best interest for manufacturers and dealers of motor vehicles to conduct business with each other in a fair, efficient, and competitive manner. The legislature declares the public interest is best served by dealers being assured of the ability to manage their business enterprises under a contractual obligation with manufacturers where dealers do not experience unreasonable interference and are assured of the ability to transfer ownership of their business without undue constraints. It is the intent of the legislature to impose a regulatory scheme and to regulate competition in the motor vehicle industry to the extent necessary to balance fairness and efficiency. These actions will permit motor vehicle dealers to better serve consumers and allow dealers to devote their best competitive efforts and resources to the sale and services of the manufacturer's products to consumers. [1989 c 415 § 1.]

46.96.020 Definitions. In addition to the definitions contained in RCW 46.70.011, which are incorporated by reference into this chapter, the definitions set forth in this section apply only for the purposes of this chapter.

(1) A "new motor vehicle" is a vehicle that has not been titled by a state and ownership of which may be transferred on a manufacturer's statement of origin (MSO).

(2) "New motor vehicle dealer" means a motor vehicle dealer engaged in the business of buying, selling, exchanging, or otherwise dealing in new motor vehicles or new and used motor vehicles at an established place of business, under a franchise, sales and service agreement, or contract with the manufacturer of the new motor vehicles. However, the term "new motor vehicle dealer" does not include a miscellaneous

vehicle dealer as defined in *RCW 46.70.011(3)(c) or a motorcycle dealer as defined in **chapter 46.94 RCW.

(3) "Franchise" means one or more agreements, whether oral or written, between a manufacturer and a new motor vehicle dealer, under which the new motor vehicle dealer is authorized to sell, service, and repair new motor vehicles, parts, and accessories under a common name, trade name, trademark, or service mark of the manufacturer.

"Franchise" includes an oral or written contract and includes a dealer agreement, either expressed or implied, between a manufacturer and a new motor vehicle dealer that purports to fix the legal rights and liabilities between the parties and under which (a) the dealer is granted the right to purchase and resell motor vehicles manufactured, distributed, or imported by the manufacturer; (b) the dealer's business is associated with the trademark, trade name, commercial symbol, or advertisement designating the franchisor or the products distributed by the manufacturer; and (c) the dealer's business relies on the manufacturer for a continued supply of motor vehicles, parts, and accessories.

(4) "Good faith" means honesty in fact and fair dealing in the trade as defined and interpreted in RCW 62A.2-103.

(5) "Designated successor" means:

(a) The spouse, biological or adopted child, stepchild, grandchild, parent, brother, or sister of the owner of a new motor vehicle dealership who, in the case of the owner's death, is entitled to inherit the ownership interest in the new motor vehicle dealership under the terms of the owner's will or similar document, and if there is no such will or similar document, then under applicable intestate laws;

(b) A qualified person experienced in the business of a new motor vehicle dealer who has been nominated by the owner of a new motor vehicle dealership as the successor in a written, notarized, and witnessed instrument submitted to the manufacturer; or

(c) In the case of an incapacitated owner of a new motor vehicle dealership, the person who has been appointed by a court as the legal representative of the incapacitated owner's property.

(6) "Owner" means a person holding an ownership interest in the business entity operating as a new motor vehicle dealer and who is the designated dealer in the new motor vehicle franchise agreement.

(7) "Person" means every natural person, partnership, corporation, association, trust, estate, or any other legal entity. [2003 c 21 § 1; 1989 c 415 § 2.]

Reviser's note: *(1) RCW 46.70.011 was amended by 2006 c 364 § 1, changing subsection (3) to subsection (4).

***(2) Chapter 46.94 RCW was repealed by 2003 c 354 § 24. Cf. chapter 46.93 RCW.

Captions not law—2003 c 21: "Captions used in this act are not part of the law." [2003 c 21 § 7.]

46.96.030 Termination, cancellation, nonrenewal of franchise restricted. Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, no manufacturer may terminate, cancel, or fail to renew a franchise with a new motor vehicle dealer, unless the manufacturer has complied with the notice requirements of RCW 46.96.070 and an administrative law judge has determined, if requested in writing by the new motor vehicle dealer within the applicable

time period specified in RCW 46.96.070 (1), (2), or (3), after hearing, that there is good cause for the termination, cancellation, or nonrenewal of the franchise and that the manufacturer has acted in good faith, as defined in this chapter, regarding the termination, cancellation, or nonrenewal. [1989 c 415 § 3.]

46.96.040 Determination of good cause, good faith—Petition, notice, decision, appeal. A new motor vehicle dealer who has received written notification from the manufacturer of the manufacturer's intent to terminate, cancel, or not renew the franchise may file a petition with the department for a determination as to the existence of good cause and good faith for the termination, cancellation, or nonrenewal of a franchise. The petition shall contain a short statement setting forth the reasons for the dealer's objection to the termination, cancellation, or nonrenewal of the franchise. Upon the filing of the petition and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely petition has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The franchise in question shall continue in full force and effect pending the administrative law judge's decision. If the decision of the administrative law judge terminating, canceling, or failing to renew a dealer's franchise is appealed by a dealer, the franchise in question shall continue in full force and effect until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review. [1989 c 415 § 4.]

46.96.050 Determination of good cause, good faith—Hearing, decision, procedures—Judicial review. (1) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a petition is filed. If the termination, cancellation, or nonrenewal is under RCW 46.96.070(2), the administrative law judge shall give the proceeding priority consideration and shall render a final decision not later than sixty days after a petition is filed.

(2) The administrative law judge shall conduct the hearing as an adjudicative proceeding in accordance with the procedures provided for in the Administrative Procedure Act, chapter 34.05 RCW. The administrative law judge shall render the final decision and shall enter a final order. Except as otherwise provided in RCW 34.05.446 and 34.05.449, all hearing costs shall be borne on an equal basis by the parties to the hearing.

(3) A party to a hearing under this chapter may be represented by counsel. A party to a hearing aggrieved by the final order of the administrative law judge concerning the termination, cancellation, or nonrenewal of a franchise may seek judicial review of the order in the superior court in the manner provided for in RCW 34.05.510 through 34.05.598. A petitioner for judicial review need not exhaust all administrative appeals or administrative review processes as a prerequi-

site for seeking judicial review under this section. [1989 c 415 § 5.]

46.96.060 Good cause, what constitutes—Burden of proof. (1) Notwithstanding the terms of a franchise or the terms of a waiver, and except as otherwise provided in RCW 46.96.070(2) (a) through (d), good cause exists for termination, cancellation, or nonrenewal when there is a failure by the new motor vehicle dealer to comply with a provision of the franchise that is both reasonable and of material significance to the franchise relationship, if the new motor vehicle dealer was notified of the failure within one hundred eighty days after the manufacturer first acquired knowledge of the failure and the new motor vehicle dealer did not correct the failure after being requested to do so.

If, however, the failure of the new motor vehicle dealer relates to the performance of the new motor vehicle dealer in sales, service, or level of customer satisfaction, good cause is the failure of the new motor vehicle dealer to comply with reasonable performance standards determined by the manufacturer in accordance with uniformly applied criteria, and:

(a) The new motor vehicle dealer was advised, in writing, by the manufacturer of the failure;

(b) The notice under this subsection stated that notice was provided of a failure of performance under this section;

(c) The manufacturer provided the new motor vehicle dealer with specific, reasonable goals or reasonable performance standards with which the dealer must comply, together with a suggested timetable or program for attaining those goals or standards, and the new motor vehicle dealer was given a reasonable opportunity, for a period not less than one hundred eighty days, to comply with the goals or standards; and

(d) The new motor vehicle dealer did not substantially comply with the manufacturer's performance standards during that period and the failure to demonstrate substantial compliance was not due to market or economic factors within the new motor vehicle dealer's relevant market area that were beyond the control of the dealer.

(2) The manufacturer has the burden of proof of establishing good cause and good faith for the termination, cancellation, or nonrenewal of the franchise under this section. [1989 c 415 § 6.]

46.96.070 Notice of termination, cancellation, or nonrenewal. Before the termination, cancellation, or nonrenewal of a franchise, the manufacturer shall give written notification to both the department and the new motor vehicle dealer. The notice shall be by certified mail or personally delivered to the new motor vehicle dealer and shall state the intention to terminate, cancel, or not renew the franchise, the reasons for the termination, cancellation, or nonrenewal, and the effective date of the termination, cancellation, or nonrenewal. The notice shall be given:

(1) Not less than ninety days before the effective date of the termination, cancellation, or nonrenewal;

(2) Not less than fifteen days before the effective date of the termination, cancellation, or nonrenewal with respect to any of the following that constitute good cause for termination, cancellation, or nonrenewal:

(a) Insolvency of the new motor vehicle dealer or the filing of any petition by or against the new motor vehicle dealer under bankruptcy or receivership law;

(b) Failure of the new motor vehicle dealer to conduct sales and service operations during customary business hours for seven consecutive business days, except for acts of God or circumstances beyond the direct control of the new motor vehicle dealer;

(c) Conviction of the new motor vehicle dealer, or principal operator of the dealership, of a felony punishable by imprisonment; or

(d) Suspension or revocation of a license that the new motor vehicle dealer is required to have to operate the new motor vehicle dealership where the suspension or revocation is for a period in excess of thirty days;

(3) Not less than one hundred eighty days before the effective date of termination, cancellation, or nonrenewal, where the manufacturer intends to discontinue sale and distribution of the new motor vehicle line. [1989 c 415 § 7.]

46.96.080 Payments by manufacturer to dealer for inventory, equipment, etc. (1) Upon the termination, cancellation, or nonrenewal of a franchise by the manufacturer under this chapter, the manufacturer shall pay the new motor vehicle dealer, at a minimum:

(a) Dealer cost plus any charges by the manufacturer for distribution, delivery, and taxes, less all allowances paid or credited to the dealer by the manufacturer, of unused, undamaged, and unsold new motor vehicles in the new motor vehicle dealer's inventory that were acquired from the manufacturer or another new motor vehicle dealer of the same line make within the previous twelve months;

(b) Dealer cost for all unused, undamaged, and unsold supplies, parts, and accessories in original packaging, except that in the case of sheet metal, a comparable substitute for original packaging may be used, if the supply, part, or accessory was acquired from the manufacturer or from another new motor vehicle dealer ceasing operations as a part of the new motor vehicle dealer's initial inventory as long as the supplies, parts, and accessories appear in the manufacturer's current parts catalog, list, or current offering;

(c) Dealer cost for all unused, undamaged, and unsold inventory, whether vehicles, parts, or accessories, the purchase of which was required by the manufacturer;

(d) The fair market value of each undamaged sign owned by the new motor vehicle dealer that bears a common name, trade name, or trademark of the manufacturer, if acquisition of the sign was recommended or required by the manufacturer and the sign is in good and usable condition less reasonable wear and tear, and has not been depreciated by the dealer more than fifty percent of the value of the sign;

(e) The fair market value of all equipment, furnishings, and special tools owned or leased by the new motor vehicle dealer that were acquired from the manufacturer or sources approved by the manufacturer and that were recommended or required by the manufacturer and are in good and usable condition, less reasonable wear and tear. However, if the equipment, furnishings, or tools are leased by the new motor vehicle dealer, the manufacturer shall pay the new motor vehicle dealer such amounts that are required by the lessor to terminate the lease under the terms of the lease agreement; and

(f) The cost of transporting, handling, packing, and loading of new motor vehicles, supplies, parts, accessories, signs, special tools, equipment, and furnishings.

To the extent the franchise agreement provides for payment or reimbursement to the new motor vehicle dealer in excess of that specified in this section, the provisions of the franchise agreement shall control.

(2) The manufacturer shall pay the new motor vehicle dealer the sums specified in subsection (1) of this section within ninety days after the tender of the property, if the new motor vehicle dealer has clear title to the property and is in a position to convey that title to the manufacturer. [1989 c 415 § 8.]

46.96.090 Payments by manufacturer for dealership facilities. (1) In the event of a termination, cancellation, or nonrenewal under this chapter, except for termination, cancellation, or nonrenewal under RCW 46.96.070(2), the manufacturer shall, at the request and option of the new motor vehicle dealer, also pay to the new motor vehicle dealer:

(a) A sum equivalent to rent for the unexpired term of the lease or one year, whichever is less, or such longer term as provided in the franchise, if the new motor vehicle dealer is leasing the new motor vehicle dealership facilities from a lessor other than the manufacturer; or

(b) A sum equivalent to the reasonable rental value of the new motor vehicle dealership facilities for one year or until the facilities are leased or sold, whichever is less, if the new motor vehicle dealer owns the new motor vehicle dealership facilities.

(2) The rental payment required under subsection (1) of this section is only required to the extent that the facilities were used for activities under the franchise and only to the extent the facilities were not leased for unrelated purposes. If payment under subsection (1) of this section is made, the manufacturer is entitled to possession and use of the new motor vehicle dealership facilities for the period rent is paid. [1989 c 415 § 9.]

46.96.100 Mitigation of damages. RCW 46.96.030 through 46.96.090 do not relieve a new motor vehicle dealer from the obligation to mitigate the dealer's damages upon termination, cancellation, or nonrenewal of the franchise. [1989 c 415 § 10.]

46.96.105 Warranty work. (1) Each manufacturer shall specify in its franchise agreement, or in a separate written agreement, with each of its dealers licensed in this state, the dealer's obligation to perform warranty work or service on the manufacturer's products. Each manufacturer shall provide each of its dealers with a schedule of compensation to be paid to the dealer for any warranty work or service, including parts, labor, and diagnostic work, required of the dealer by the manufacturer in connection with the manufacturer's products.

(2) All claims for warranty work for parts and labor made by dealers under this section shall be submitted to the manufacturer within one year of the date the work was performed. All claims submitted must be paid by the manufacturer within thirty days following receipt, provided the claim

has been approved by the manufacturer. The manufacturer has the right to audit claims for warranty work and to charge the dealer for any unsubstantiated, incorrect, or false claims for a period of one year following payment. However, the manufacturer may audit and charge the dealer for any fraudulent claims during any period for which an action for fraud may be commenced under applicable state law.

(3) All claims submitted by dealers on the forms and in the manner specified by the manufacturer shall be either approved or disapproved within thirty days following their receipt. The manufacturer shall notify the dealer in writing of any disapproved claim, and shall set forth the reasons why the claim was not approved. Any claim not specifically disapproved in writing within thirty days following receipt is approved, and the manufacturer is required to pay that claim within thirty days of receipt of the claim. [2003 c 21 § 2; 1998 c 298 § 1.]

Captions not law—2003 c 21: See note following RCW 46.96.020.

Severability—1998 c 298: See note following RCW 19.118.021.

46.96.110 Designated successor to franchise ownership. (1) Notwithstanding the terms of a franchise, an owner may appoint a designated successor to succeed to the ownership of the new motor vehicle dealer franchise upon the owner's death or incapacity.

(2) Notwithstanding the terms of a franchise, a designated successor of a deceased or incapacitated owner of a new motor vehicle dealer franchise may succeed to the ownership interest of the owner under the existing franchise, if:

(a) In the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5)(a), but who is not experienced in the business of a new motor vehicle dealer, the person will employ an individual who is qualified and experienced in the business of a new motor vehicle dealer to help manage the day-to-day operations of the motor vehicle dealership; or in the case of a designated successor who meets the definition of a designated successor under RCW 46.96.020(5) (b) or (c), the person is qualified and experienced in the business of a new motor vehicle dealer and meets the normal, reasonable, and uniformly applied standards for grant of an application as a new motor vehicle dealer by the manufacturer; and

(b) The designated successor furnishes written notice to the manufacturer of his or her intention to succeed to the ownership of the new motor vehicle dealership within sixty days after the owner's death or incapacity; and

(c) The designated successor agrees to be bound by all terms and conditions of the franchise.

(3) The manufacturer may request, and the designated successor shall promptly provide, such personal and financial information as is reasonably necessary to determine whether the succession should be honored.

(4) A manufacturer may refuse to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor if the manufacturer establishes that good cause exists for its refusal to honor the succession. If the designated successor of a deceased or incapacitated owner of a new motor vehicle dealer franchise fails to meet the requirements set forth in subsections (2)(a), (b), and (c) of this section, good cause for refusing to honor the succession is pre-

sumed to exist. If a manufacturer believes that good cause exists for refusing to honor the succession to the ownership of a new motor vehicle dealer franchise by a designated successor, the manufacturer shall serve written notice on the designated successor and on the department of its refusal to honor the succession no earlier than sixty days from the date the notice is served. The notice must be served not later than sixty days after the manufacturer's receipt of:

(a) Notice of the designated successor's intent to succeed to the ownership interest of the new motor vehicle dealer's franchise; or

(b) Any personal or financial information requested by the manufacturer.

(5) The notice in subsection (4) of this section shall state the specific grounds for the refusal to honor the succession. If the notice of refusal is not timely and properly served, the designated successor may continue the franchise in full force and effect, subject to termination only as otherwise provided under this chapter.

(6) Within twenty days after receipt of the notice or within twenty days after the end of any appeal procedure provided by the manufacturer, whichever is greater, the designated successor may file a petition with the department protesting the refusal to honor the succession. The petition shall contain a short statement setting forth the reasons for the designated successor's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not terminate or otherwise discontinue the existing franchise until the administrative law judge has held a hearing and has determined that there is good cause for refusing to honor the succession. If an appeal is taken, the manufacturer shall not terminate or discontinue the franchise until the appeal to superior court is finally determined or until the expiration of one hundred eighty days from the date of issuance of the administrative law judge's written decision, whichever is less. Nothing in this section precludes a manufacturer or dealer from petitioning the superior court for a stay or other relief pending judicial review.

(7) The manufacturer has the burden of proof to show that good cause exists for the refusal to honor the succession.

(8) The administrative law judge shall conduct the hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred eighty days after a protest is filed.

(9) The administrative law judge shall conduct any hearing concerning the refusal to the succession as provided in RCW 46.96.050(2) and all hearing costs shall be borne as provided in that subsection. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.96.050(3).

(10) This section does not preclude the owner of a new motor vehicle dealer franchise from designating any person as his or her successor by a written, notarized, and witnessed instrument filed with the manufacturer. In the event of a conflict between such a written instrument that has not been revoked by written notice from the owner to the manufacturer and this section, the written instrument governs. [1989 c 415 § 11.]

46.96.140 Relevant market area—Definition—New or relocated dealerships, notice of. (1) For the purposes of this section, and throughout this chapter, the term "relevant market area" is defined as follows:

(a) If the population in the county in which the proposed new or relocated dealership is to be located is four hundred thousand or more, the relevant market area is the geographic area within a radius of eight miles around the proposed site;

(b) If the population in the county in which the proposed new or relocated dealership is to be located is two hundred thousand or more and less than four hundred thousand, the relevant market area is the geographic area within a radius of twelve miles around the proposed site;

(c) If the population in the county in which the proposed new or relocated dealership is to be located is less than two hundred thousand, the relevant market area is the geographic area within a radius of sixteen miles around the proposed site. In determining population for this definition, the most recent census by the United States Bureau of Census or the most recent population update, either from the National Planning Data Corporation or other similar recognized source, shall be accumulated for all census tracts either wholly or partially within the relevant market area.

(2) For the purpose of RCW 46.96.140 through 46.96.180, the term "motor vehicle dealer" does not include dealerships who exclusively market vehicles 19,000 pounds gross vehicle weight and above.

(3) Notwithstanding the terms of a franchise and notwithstanding the terms of a waiver, if a manufacturer intends or proposes to enter into a franchise to establish an additional new motor vehicle dealer or to relocate an existing new motor vehicle dealer within or into a relevant market area in which the same line make of motor vehicle is then represented, the manufacturer shall provide at least sixty days advance written notice to the department and to each new motor vehicle dealer of the same line make in the relevant market area, of the manufacturer's intention to establish an additional new motor vehicle dealer or to relocate an existing new motor vehicle dealer within or into the relevant market area. The notice shall be sent by certified mail to each such party and shall include the following information:

(a) The specific location at which the additional or relocated motor vehicle dealer will be established;

(b) The date on or after which the additional or relocated motor vehicle dealer intends to commence business at the proposed location;

(c) The identity of all motor vehicle dealers who are franchised to sell the same line make vehicles as the proposed dealer and who have licensed locations within the relevant market area;

(d) The names and addresses, if available, of the owners of and principal investors in the proposed additional or relocated motor vehicle dealership; and

(e) The specific grounds or reasons for the proposed establishment of an additional motor vehicle dealer or relocation of an existing dealer. [1994 c 274 § 1.]

46.96.150 Protest of new or relocated dealership—Hearing—Arbitration. (1) Within thirty days after receipt of the notice under RCW 46.96.140, or within thirty days after the end of an appeal procedure provided by the manu-

facturer, whichever is greater, a new motor vehicle dealer so notified or entitled to notice may file a petition with the department protesting the proposed establishment or relocation. The petition shall contain a short statement setting forth the reasons for the dealer's objection to the proposed establishment or relocation. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed and shall request the appointment of an administrative law judge under chapter 34.12 RCW to conduct a hearing. The manufacturer shall not establish or relocate the new motor vehicle dealer until the administrative law judge has held a hearing and has determined that there is good cause for permitting the proposed establishment or relocation. When more than one protest is filed against the establishment or relocation of the same dealer, the administrative law judge shall consolidate the hearings to expedite disposition of the matter.

(2) If a manufacturer provides in the franchise agreement or by written statement distributed and provided to its dealers for arbitration under the Uniform Arbitration Act, chapter 7.04A RCW, as a mechanism for resolving disputes relating to the establishment of an additional new motor vehicle dealer or the relocation of a new motor vehicle dealer, then the provisions of this section and RCW 46.96.170 relating to hearings by an administrative law judge do not apply, and a dispute regarding the establishment of an additional new motor vehicle dealer or the relocation of an existing new motor vehicle dealer shall be determined in an arbitration proceeding conducted in accordance with the Uniform Arbitration Act, chapter 7.04A RCW. The thirty-day period for filing a protest under this section still applies except that the protesting dealer shall file his protest with the manufacturer within thirty days after receipt of the notice under RCW 46.96.140.

(3) The dispute shall be referred for arbitration to such arbitrator as may be agreed upon by the parties to the dispute. If the parties cannot agree upon a single arbitrator within thirty days from the date the protest is filed, the protesting dealer will select an arbitrator, the manufacturer will select an arbitrator, and the two arbitrators will then select a third. If a third arbitrator is not agreed upon within thirty days, any party may apply to the superior court, and the judge of the superior court having jurisdiction will appoint the third arbitrator. The protesting dealer will pay the arbitrator selected by him, and the manufacturer will pay the arbitrator it selected. The expense of the third arbitrator and all other expenses of arbitration will be shared equally by the parties. Attorneys' fees and fees paid to expert witnesses are not expenses of arbitration and will be paid by the person incurring them.

(4) Notwithstanding the terms of a franchise or written statement of the manufacturer and notwithstanding the terms of a waiver, the arbitration will take place in the state of Washington in the county where the protesting dealer has his principal place of business. RCW 46.96.160 applies to a determination made by the arbitrator or arbitrators in determining whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer, and the manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation. After a hearing has been held, the

arbitrator or arbitrators shall render a decision as expeditiously as possible, but in any event not later than one hundred twenty days from the date the arbitrator or arbitrators are selected or appointed. The manufacturer shall not establish or relocate the new motor vehicle dealer until the arbitration hearing has been held and the arbitrator or arbitrators have determined that there is good cause for permitting the proposed establishment or relocation. The written decision of the arbitrator is binding upon the parties unless modified, corrected, or vacated under the Washington Arbitration Act. Any party may appeal the decision of the arbitrator under the Uniform Arbitration Act, chapter 7.04A RCW.

(5) If the franchise agreement or the manufacturer's written statement distributed and provided to its dealers does not provide for arbitration under the Uniform Arbitration Act as a mechanism for resolving disputes relating to the establishment of an additional new motor vehicle dealer or the relocation of a new motor vehicle dealer, then the hearing provisions of this section and RCW 46.96.170 apply. Nothing in this section is intended to preclude a new motor vehicle dealer from electing to use any other dispute resolution mechanism offered by a manufacturer. [2005 c 433 § 43; 1994 c 274 § 2.]

Application—Captions not law—Savings—Effective date—2005 c 433: See RCW 7.04A.290 through 7.04A.310 and 7.04A.900.

46.96.160 Factors considered by administrative law judge. In determining whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer of the same line make, the administrative law judge shall take into consideration the existing circumstances, including, but not limited to:

(1) The extent, nature, and permanency of the investment of both the existing motor vehicle dealers of the same line make in the relevant market area and the proposed additional or relocating new motor vehicle dealer, including obligations reasonably incurred by the existing dealers to perform their obligations under their respective franchises;

(2) The growth or decline in population and new motor vehicle registrations during the past five years in the relevant market area;

(3) The effect on the consuming public in the relevant market area;

(4) The effect on the existing new motor vehicle dealers in the relevant market area, including any adverse financial impact;

(5) The reasonably expected or anticipated vehicle market for the relevant market area, including demographic factors such as age of population, income, education, size class preference, product popularity, retail lease transactions, or other factors affecting sales to consumers in the relevant market area;

(6) Whether it is injurious or beneficial to the public welfare for an additional new motor vehicle dealer to be established;

(7) Whether the new motor vehicle dealers of the same line make in the relevant market area are providing adequate competition and convenient customer care for the motor vehicles of the same line make in the relevant market area, including the adequacy of motor vehicle sales and service

facilities, equipment, supply of vehicle parts, and qualified service personnel;

(8) Whether the establishment of an additional new motor vehicle dealer would increase competition and be in the public interest;

(9) Whether the manufacturer is motivated principally by good faith to establish an additional or new motor vehicle dealer and not by noneconomic considerations;

(10) Whether the manufacturer has denied its existing new motor vehicle dealers of the same line make the opportunity for reasonable growth, market expansion, establishment of a subagency, or relocation;

(11) Whether the protesting dealer or dealers are in substantial compliance with their dealer agreements or franchises; and

(12) Whether the manufacturer has complied with the requirements of RCW 46.96.140 and 46.96.150.

In considering the factors set forth in this section, the administrative law judge shall give the factors equal weight, and in making a determination as to whether good cause exists for permitting the proposed establishment or relocation of a new motor vehicle dealer of the same line make, the administrative law judge must find that at least nine of the factors set forth in this section weigh in favor of the manufacturer and in favor of the proposed establishment or relocation of a new motor vehicle dealer. [1994 c 274 § 3.]

46.96.170 Hearing—Procedures, costs, appeal. (1) The manufacturer has the burden of proof to establish that good cause exists for permitting the proposed establishment or relocation.

(2) The administrative law judge shall conduct any hearing as provided in RCW 46.96.050(2), and all hearing costs shall be borne as provided in that subsection. The administrative law judge shall render the final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. If more than one protest is filed, the one hundred twenty days commences to run from the date the last protest is filed. A party to such a hearing aggrieved by the final order of the administrative law judge may appeal as provided and allowed in RCW 46.96.050(3). [1994 c 274 § 4.]

46.96.180 Exceptions. RCW 46.96.140 through 46.96.170 do not apply:

(1) To the sale or transfer of the ownership or assets of an existing new motor vehicle dealer where the transferee proposes to engage in business representing the same line make at the same location or within two miles of that location;

(2) To the relocation of an existing new motor vehicle dealer within the dealer's relevant market area, if the relocation is not at a site within eight miles of any new motor vehicle dealer of the same line make;

(3) If the proposed new motor vehicle dealer is to be established at or within two miles of a location at which a former new motor vehicle dealer of the same line make had ceased operating within the previous twenty-four months;

(4) Where the proposed relocation is two miles or less from the existing location of the relocating new motor vehicle dealer; or

(5) Where the proposed relocation is to be further away from all other existing new motor vehicle dealers of the same line make in the relevant market area. [1994 c 274 § 5.]

46.96.185 Unfair practices. (1) Notwithstanding the terms of a franchise agreement, a manufacturer, distributor, factory branch, or factory representative, or an agent, officer, parent company, wholly or partially owned subsidiary, affiliated entity, or other person controlled by or under common control with a manufacturer, distributor, factory branch, or factory representative, shall not:

(a) Discriminate between new motor vehicle dealers by selling or offering to sell a like vehicle to one dealer at a lower actual price than the actual price offered to another dealer for the same model similarly equipped;

(b) Discriminate between new motor vehicle dealers by selling or offering to sell parts or accessories to one dealer at a lower actual price than the actual price offered to another dealer;

(c) Discriminate between new motor vehicle dealers by using a promotion plan, marketing plan, or other similar device that results in a lower actual price on vehicles, parts, or accessories being charged to one dealer over another dealer;

(d) Discriminate between new motor vehicle dealers by adopting a method, or changing an existing method, for the allocation, scheduling, or delivery of new motor vehicles, parts, or accessories to its dealers that is not fair, reasonable, and equitable. Upon the request of a dealer, a manufacturer, distributor, factory branch, or factory representative shall disclose in writing to the dealer the method by which new motor vehicles, parts, and accessories are allocated, scheduled, or delivered to its dealers handling the same line or make of vehicles;

(e) Give preferential treatment to some new motor vehicle dealers over others by refusing or failing to deliver, in reasonable quantities and within a reasonable time after receipt of an order, to a dealer holding a franchise for a line or make of motor vehicles sold or distributed by the manufacturer, distributor, factory branch, or factory representative, a new vehicle, parts, or accessories, if the vehicle, parts, or accessories are being delivered to other dealers, or require a dealer to purchase unreasonable advertising displays or other materials, or unreasonably require a dealer to remodel or renovate existing facilities as a prerequisite to receiving a model or series of vehicles;

(f) Compete with a new motor vehicle dealer by acting in the capacity of a new motor vehicle dealer, or by owning, operating, or controlling, whether directly or indirectly, a motor vehicle dealership in this state. It is not, however, a violation of this subsection for:

(i) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership for a temporary period, not to exceed two years, during the transition from one owner of the dealership to another where the dealership was previously owned by a franchised dealer and is currently for sale to any qualified independent person at a fair and reasonable price. The temporary operation may be extended for one twelve-month period on petition of the temporary operator to the department. The matter will be handled as an adjudicative proceeding under chapter 34.05 RCW. A dealer who

is a franchisee of the petitioning manufacturer or distributor may intervene and participate in a proceeding under this subsection (1)(f)(i). The temporary operator has the burden of proof to show justification for the extension and a good faith effort to sell the dealership to an independent person at a fair and reasonable price;

(ii) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership in conjunction with an independent person in a bona fide business relationship for the purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group who have historically been underrepresented in its dealer body, or other qualified persons who lack the resources to purchase a dealership outright, and where the independent person: (A) Has made, or within a period of two years from the date of commencement of operation will have made, a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacturer, distributor, factory branch, or factory representative has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions. Nothing in this subsection (1)(f)(ii) relieves a manufacturer, distributor, factory branch, or factory representative from complying with RCW 46.96.185(1) (a) through (e);

(iii) A manufacturer, distributor, factory branch, or factory representative to own or operate a dealership in conjunction with an independent person in a bona fide business relationship where the independent person: (A) Has made, or within a period of two years from the date of commencement of operation will have made, a significant, bona fide capital investment in the dealership that is subject to loss; (B) has an ownership interest in the dealership; and (C) operates the dealership under a bona fide written agreement with the manufacturer, distributor, factory branch, or factory representative under which he or she will acquire all of the ownership interest in the dealership within a reasonable period of time and under reasonable terms and conditions. The manufacturer, distributor, factory branch, or factory representative has the burden of proof of establishing that the acquisition of the dealership by the independent person was made within a reasonable period of time and under reasonable terms and conditions. The number of dealerships operated under this subsection (1)(f)(iii) may not exceed four percent rounded up to the nearest whole number of a manufacturer's total of new motor vehicle dealer franchises in this state. Nothing in this subsection (1)(f)(iii) relieves a manufacturer, distributor, factory branch, or factory representative from complying with RCW 46.96.185(1) (a) through (e);

(iv) A truck manufacturer to own, operate, or control a new motor vehicle dealership that sells only trucks of that manufacturer's line make with a gross vehicle weight rating of 12,500 pounds or more, and the truck manufacturer has

been continuously engaged in the retail sale of the trucks at least since January 1, 1993; or

(v) A manufacturer to own, operate, or control a new motor vehicle dealership trading exclusively in a single line make of the manufacturer if (A) the manufacturer does not own, directly or indirectly, in the aggregate, in excess of forty-five percent of the total ownership interest in the dealership, (B) at the time the manufacturer first acquires ownership or assumes operation or control of any such dealership, the distance between any dealership thus owned, operated, or controlled and the nearest new motor vehicle dealership trading in the same line make of vehicle and in which the manufacturer has no ownership or control is not less than fifteen miles and complies with the applicable provisions in the relevant market area sections of this chapter, (C) all of the manufacturer's franchise agreements confer rights on the dealer of that line make to develop and operate within a defined geographic territory or area, as many dealership facilities as the dealer and the manufacturer agree are appropriate, and (D) as of January 1, 2000, the manufacturer had no more than four new motor vehicle dealers of that manufacturer's line make in this state, and at least half of those dealers owned and operated two or more dealership facilities in the geographic territory or area covered by their franchise agreements with the manufacturer;

(g) Compete with a new motor vehicle dealer by owning, operating, or controlling, whether directly or indirectly, a service facility in this state for the repair or maintenance of motor vehicles under the manufacturer's new car warranty and extended warranty. Nothing in this subsection (1)(g), however, prohibits a manufacturer, distributor, factory branch, or factory representative from owning or operating a service facility for the purpose of providing or performing maintenance, repair, or service work on motor vehicles that are owned by the manufacturer, distributor, factory branch, or factory representative;

(h) Use confidential or proprietary information obtained from a new motor vehicle dealer to unfairly compete with the dealer. For purposes of this subsection (1)(h), "confidential or proprietary information" means trade secrets as defined in RCW 19.108.010, business plans, marketing plans or strategies, customer lists, contracts, sales data, revenues, or other financial information;

(i) Terminate, cancel, or fail to renew a franchise with a new motor vehicle dealer based upon any of the following events, which do not constitute good cause for termination, cancellation, or nonrenewal under RCW 46.96.060: (A) The fact that the new motor vehicle dealer owns, has an investment in, participates in the management of, or holds a franchise agreement for the sale or service of another make or line of new motor vehicles, or (B) the fact that the new motor vehicle dealer has established another make or line of new motor vehicles or service in the same dealership facilities as those of the manufacturer or distributor with the prior written approval of the manufacturer or distributor, if the approval was required under the terms of the new motor vehicle dealer's franchise agreement; or

(j) Coerce or attempt to coerce a motor vehicle dealer to refrain from, or prohibit or attempt to prohibit a new motor vehicle dealer from acquiring, owning, having an investment in, participating in the management of, or holding a franchise

agreement for the sale or service of another make or line of new motor vehicles or related products, or establishing another make or line of new motor vehicles or service in the same dealership facilities, if the prohibition against acquiring, owning, investing, managing, or holding a franchise for such additional make or line of vehicles or products, or establishing another make or line of new motor vehicles or service in the same dealership facilities, is not supported by reasonable business considerations. The burden of proving that reasonable business considerations support or justify the prohibition against the additional make or line of new motor vehicles or products or nonexclusive facilities is on the manufacturer.

(2) Subsection (1)(a), (b), and (c) of this section do not apply to sales to a motor vehicle dealer: (a) For resale to a federal, state, or local government agency; (b) where the vehicles will be sold or donated for use in a program of driver's education; (c) where the sale is made under a manufacturer's bona fide promotional program offering sales incentives or rebates; (d) where the sale of parts or accessories is under a manufacturer's bona fide quantity discount program; or (e) where the sale is made under a manufacturer's bona fide fleet vehicle discount program. For purposes of this subsection, "fleet" means a group of fifteen or more new motor vehicles purchased or leased by a dealer at one time under a single purchase or lease agreement for use as part of a fleet, and where the dealer has been assigned a fleet identifier code by the department of licensing.

(3) The following definitions apply to this section:

(a) "Actual price" means the price to be paid by the dealer less any incentive paid by the manufacturer, distributor, factory branch, or factory representative, whether paid to the dealer or the ultimate purchaser of the vehicle.

(b) "Control" or "controlling" means (i) the possession of, title to, or control of ten percent or more of the voting equity interest in a person, whether directly or indirectly through a fiduciary, agent, or other intermediary, or (ii) the possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, whether through the ownership of voting securities, through director control, by contract, or otherwise, except as expressly provided under the franchise agreement.

(c) "Motor vehicles" does not include trucks that are 14,001 pounds gross vehicle weight and above or recreational vehicles as defined in RCW 43.22.335.

(d) "Operate" means to manage a dealership, whether directly or indirectly.

(e) "Own" or "ownership" means to hold the beneficial ownership of one percent or more of any class of equity interest in a dealership, whether the interest is that of a shareholder, partner, limited liability company member, or otherwise. To hold an ownership interest means to have possession of, title to, or control of the ownership interest, whether directly or indirectly through a fiduciary, agent, or other intermediary.

(4) A violation of this section is deemed to affect the public interest and constitutes an unlawful and unfair practice under chapter 19.86 RCW. A person aggrieved by an alleged violation of this section may petition the department to have the matter handled as an adjudicative proceeding under chapter 34.05 RCW. [2003 c 21 § 3; 2000 c 203 § 1.]

Captions not law—2003 c 21: See note following RCW 46.96.020.

46.96.190 Prohibited practices by manufacturer. A manufacturer shall not coerce, threaten, intimidate, or require a new motor vehicle dealer, as a condition to granting or renewing a franchise, to waive, limit, or disclaim a right that the dealer may have to protest the establishment or relocation of another motor vehicle dealer in the relevant market area as provided in RCW 46.96.150. [1994 c 274 § 6.]

46.96.200 Sale, transfer, or exchange of franchise.

(1) Notwithstanding the terms of a franchise, a manufacturer shall not unreasonably withhold consent to the sale, transfer, or exchange of a franchise to a qualified buyer who meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer or is capable of being licensed as a new motor vehicle dealer in the state of Washington. A decision or determination made by the administrative law judge as to whether a qualified buyer is capable of being licensed as a new motor vehicle dealer in the state of Washington is not conclusive or determinative of any ultimate determination made by the department of licensing as to the buyer's qualification for a motor vehicle dealer license. A manufacturer's failure to respond in writing to a request for consent under this subsection within sixty days after receipt of a written request on the forms, if any, generally used by the manufacturer containing the information and reasonable promises required by a manufacturer is deemed to be consent to the request. A manufacturer may request, and, if so requested, the applicant for a franchise (a) shall promptly provide such personal and financial information as is reasonably necessary to determine whether the sale, transfer, or exchange should be approved, and (b) shall agree to be bound by all reasonable terms and conditions of the franchise.

(2) If a manufacturer refuses to approve the sale, transfer, or exchange of a franchise, the manufacturer shall serve written notice on the applicant, the transferring, selling, or exchanging new motor vehicle dealer, and the department of its refusal to approve the transfer of the franchise no later than sixty days after the date the manufacturer receives the written request from the new motor vehicle dealer. If the manufacturer has requested personal or financial information from the applicant under subsection (1) of this section, the notice shall be served not later than sixty days after the receipt of all of such documents. Service of all notices under this section shall be made by personal service or by certified mail, return receipt requested.

(3) The notice in subsection (2) of this section shall state the specific grounds for the refusal to approve the sale, transfer, or exchange of the franchise.

(4) Within twenty days after receipt of the notice of refusal to approve the sale, transfer, or exchange of the franchise by the transferring new motor vehicle dealer, the new motor vehicle dealer may file a petition with the department to protest the refusal to approve the sale, transfer, or exchange. The petition shall contain a short statement setting forth the reasons for the dealer's protest. Upon the filing of a protest and the receipt of the filing fee, the department shall promptly notify the manufacturer that a timely protest has been filed, and the department shall arrange for a hearing

with an administrative law judge as the presiding officer to determine if the manufacturer unreasonably withheld consent to the sale, transfer, or exchange of the franchise.

(5) In determining whether the manufacturer unreasonably withheld its approval to the sale, transfer, or exchange, the manufacturer has the burden of proof that it acted reasonably. A manufacturer's refusal to accept or approve a proposed buyer who otherwise meets the normal, reasonable, and uniformly applied standards established by the manufacturer for the appointment of a new dealer, or who otherwise is capable of being licensed as a new motor vehicle dealer in the state of Washington, is presumed to be unreasonable.

(6) The administrative law judge shall conduct a hearing and render a final decision as expeditiously as possible, but in any event not later than one hundred twenty days after a protest is filed. Only the selling, transferring, or exchanging new motor vehicle dealer and the manufacturer may be parties to the hearing.

(7) The administrative law judge shall conduct any hearing as provided in RCW 46.96.050(2), and all hearing costs shall be borne as provided in that subsection. Only the manufacturer and the selling, transferring, or exchanging new motor vehicle dealer may appeal the final order of the administrative law judge as provided in RCW 46.96.050(3).

(8) This section and RCW 46.96.030 through 46.96.110 apply to all franchises and contracts existing on July 23, 1989, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers.

(9) RCW 46.96.140 through 46.96.190 apply to all franchises and contracts existing on October 1, 1994, between manufacturers and new motor vehicle dealers as well as to all future franchises and contracts between manufacturers and new motor vehicle dealers. [1994 c 274 § 7; 1989 c 415 § 18. Formerly RCW 46.96.120.]

46.96.210 Petition and hearing—Filing fee, costs, security. The department shall determine and establish the amount of the filing fee required in RCW 46.96.040, 46.96.110, 46.96.150, and 46.96.200. The fees shall be set in accordance with RCW 43.24.086.

The department may also require the petitioning or protesting party to give security, in such sum as the department deems proper but not in any event to exceed one thousand dollars, for the payment of such costs as may be incurred in conducting the hearing as required under this chapter. The security may be given in the form of a bond or stipulation or other undertaking with one or more sureties.

At the conclusion of the hearing, the department shall assess, in equal shares, each of the parties to the hearing for the cost of conducting the hearing. Upon receipt of payment of the costs, the department shall refund and return to the petitioning party such excess funds, if any, initially posted by the party as security for the hearing costs. If the petitioning party provided security in the form of a bond or other undertaking with one or more sureties, the bond or other undertaking shall then be exonerated and the surety or sureties under it discharged. [1994 c 274 § 8; 1989 c 415 § 19. Formerly RCW 46.96.130.]

46.96.220 Right of first refusal. (1) In the event of a proposed sale or transfer of a new motor vehicle dealership involving the transfer or sale of more than fifty percent of the ownership interest in, or more than fifty percent of the assets of, the dealership at the time of the transfer or sale, where the franchise agreement for the dealership contains a right of first refusal in favor of the manufacturer or distributor, then notwithstanding the terms of the franchise agreement, the manufacturer or distributor must be permitted to exercise a right of first refusal to acquire the dealership only if all of the following requirements are met:

(a) The manufacturer or distributor sends by certified mail, return receipt requested, or delivers by personal service, notice of its intent to exercise its right of first refusal within the lesser of (i) forty-five days of receipt of the completed proposal for the proposed sale or transfer, or (ii) the time period specified in the dealership's franchise agreement; and

(b) The exercise of the right of first refusal will result in the motor vehicle dealer receiving consideration, terms, and conditions that are equal to or better than that for which the dealer has contracted in connection with the proposed transaction.

(2) Notwithstanding subsection (1) of this section, the manufacturer's or distributor's right of first refusal does not apply to transfer of a dealership under RCW 46.96.110, and does not apply to a proposed transaction involving any of the following purchasers or transferees:

(a) A purchaser or transferee who has been preapproved by the manufacturer or distributor with respect to the transaction;

(b) A family member or members, including the spouse, biological or adopted child, stepchild, grandchild, spouse of a child or grandchild, brother, sister, or parent of the dealer-operator, or one or more of the dealership's owners;

(c) A manager continuously employed by the motor vehicle dealer in the dealership during the previous three years who is otherwise qualified as a dealer-operator by meeting the reasonable and uniformly applied standards for approval of an application as a new motor vehicle dealer-operator by the manufacturer;

(d) A partnership, corporation, limited liability company, or other entity controlled by any of the family members, identified in (b) of this subsection, of the dealer-operator; or

(e) A trust established or to be established for the purpose of allowing the new motor vehicle dealer to continue to qualify as such under the manufacturer's or distributor's standards, or provides for the succession of the franchise agreement to designated family members identified in (b) of this subsection, or qualified management identified in (c) of this subsection, in the event of the death or incapacity of the dealer-operator or its principal owner or owners.

(3) As a condition to the manufacturer or distributor exercising its right of first refusal, the manufacturer or distributor shall pay the reasonable expenses, including attorneys' fees, incurred by the dealer's proposed purchaser or transferee in negotiating, and undertaking any action to consummate, the contract for the proposed sale of the dealership up to the time of the manufacturer's or distributor's exercise of that right. In addition, the manufacturer or distributor shall pay any fees and expenses of the motor vehicle dealer arising

on and after the date the manufacturer or distributor gives notice of the exercise of its right of first refusal, and incurred by the motor vehicle dealer as a result of alterations to documents, or additional appraisals, valuations, or financial analyses caused or required of the dealer by the manufacturer or distributor to consummate the contract for the sale of the dealership to the manufacturer's or distributor's proposed transferee, that would not have been incurred but for the manufacturer's or distributor's exercise of its right of first refusal. These expenses and fees must be paid by the manufacturer or distributor to the dealer and to the dealer's proposed purchaser or transferee on or before the closing date of the sale of the dealership to the manufacturer or distributor if the party entitled to reimbursement has submitted or caused to be submitted to the manufacturer or distributor, an accounting of these expenses and fees within thirty days after receipt of the manufacturer's or distributor's written request for the accounting. A manufacturer or distributor may request the accounting before exercising its right of first refusal.

(4) As a further condition to the exercise of its right of first refusal, a manufacturer or distributor shall assume and guarantee the lease or shall acquire the real property on which the motor vehicle franchise is conducted. Unless otherwise agreed to by the dealer and manufacturer or distributor, the lease terms or the real property acquisition terms must be the same as those on which the lease or property was to be transferred or sold to the dealer's proposed purchaser or transferee.

(5) If the selling dealer has disclosed to the proposed purchaser or transferee, in writing, the existence of the manufacturer's or distributor's right of first refusal, then the selling dealer has no liability to the proposed purchaser or transferee for a claim for damages resulting from the manufacturer or distributor exercising its right of first refusal. If the existence of the manufacturer's or distributor's right of first refusal was disclosed by the selling dealer to the proposed purchaser or transferee, in writing, before or at the time of execution of the purchase and sale or transfer agreement, the manufacturer or distributor shall indemnify, hold harmless, and defend the selling dealer from and against any and all claims, damages, losses, actions, or causes of action asserted by the dealer's proposed purchaser or transferee against the selling dealer arising from the manufacturer's or distributor's exercise of its right of first refusal, and has the right, under this section, to file a motion on behalf of the dealer to dismiss the actions or causes of action asserted by the dealer's proposed purchaser or transferee. [2003 c 21 § 4.]

46.96.230 Manufacturer incentive programs. (1) A manufacturer or distributor shall pay a motor vehicle dealer's claim for payment or other compensation due under a manufacturer incentive program within thirty days after approval of the claim. A claim that is not disapproved or disallowed within thirty days after the manufacturer or distributor receives the claim is deemed automatically approved. If the motor vehicle dealer's claim is not approved, the manufacturer or distributor shall provide the dealer with written notice of the reasons for the disapproval at the time notice of disapproval is given.

(2) A manufacturer may not deny a claim based solely on a motor vehicle dealer's incidental failure to comply with a specific claim-processing requirement that results in a clerical error or other administrative technicality.

(3) Notwithstanding the terms of a franchise agreement or other contract with a manufacturer or distributor, a motor vehicle dealer has one year after the expiration of a manufacturer or distributor incentive program to submit a claim for payment or compensation under the program.

(4) Notwithstanding the terms of a franchise agreement or other contract with a dealer and except as provided in subsection (5) of this section, after the expiration of one year after the date of payment of a claim under a manufacturer or distributor incentive program, a manufacturer or distributor may not:

(a) Charge back to a motor vehicle dealer, whether directly or indirectly, the amount of a claim that has been approved and paid by the manufacturer or distributor under an incentive program;

(b) Charge back to a motor vehicle dealer, whether directly or indirectly, the cash value of a prize or other thing of value awarded to the dealer under an incentive program; or

(c) Audit the records of a motor vehicle dealer to determine compliance with the terms of an incentive program. Where, however, a manufacturer or distributor has reasonable grounds to believe that the dealer committed fraud with respect to the incentive program, the manufacturer or distributor may audit the dealer for a fraudulent claim during any period for which an action for fraud may be commenced under applicable state law.

(5) Notwithstanding subsection (4)(a) and (b) of this section, a manufacturer or distributor may make charge-backs to a motor vehicle dealer if, after completion of an audit of the dealer's records, the manufacturer or distributor can show, by a preponderance of the evidence, that (a) the claim was intentionally false or fraudulent at the time it was submitted to the manufacturer or distributor, or (b) with respect to a claim under a service incentive program, the repair work was improperly performed in a substandard manner or was unnecessary to correct a defective condition. [2003 c 21 § 5.]

Captions not law—2003 c 21: See note following RCW 46.96.020.

46.96.240 Venue. Notwithstanding the provisions of a franchise agreement or other provision of law to the contrary, the venue for a cause of action, claim, lawsuit, administrative hearing or proceeding, arbitration, or mediation, whether arising under this chapter or otherwise, in which the parties or litigants are a manufacturer or distributor and one or more motor vehicle dealers, is the state of Washington. It is the public policy of this state that venue provided for in this section may not be modified or waived in any contract or other agreement, and any provision contained in a franchise agreement that requires arbitration or litigation to be conducted outside the state of Washington is void and unenforceable.

This section does not apply to a voluntary dispute resolution procedure that is not binding on the dealer. [2003 c 21 § 6.]

47.01.011 Legislative declaration. The legislature hereby recognizes the following imperative needs within the state: To create a statewide transportation development plan which identifies present status and sets goals for the future; to coordinate transportation modes; to promote and protect land use programs required in local, state, and federal law; to coordinate transportation with the economic development of the state; to supply a broad framework in which regional, metropolitan, and local transportation needs can be related; to facilitate the supply of federal and state aid to those areas which will most benefit the state as a whole; to provide for public involvement in the transportation planning and development process; to administer programs within the jurisdiction of this title relating to the safety of the state's transportation systems; and to coordinate and implement national transportation policy with the state transportation planning program.

The legislature finds and declares that placing all elements of transportation in a single department is fully consistent with and shall in no way impair the use of moneys in the motor vehicle fund exclusively for highway purposes.

Through this chapter, a unified department of transportation is created. To the jurisdiction of this department will be transferred the present powers, duties, and functions of the department of highways, the highway commission, the toll bridge authority, the aeronautics commission, and the canal commission, and the transportation related powers, duties, and functions of the *planning and community affairs agency. The powers, duties, and functions of the department of transportation must be performed in a manner consistent with the policy goals set forth in RCW 47.04.280. [2007 c 516 § 2; 1977 ex.s. c 151 § 1.]

***Reviser's note:** "Planning and community affairs agency" means "department of community, trade, and economic development," but the name is retained here for historical purposes.

Findings—Intent—2007 c 516: "The legislature finds and declares that the citizens of the state expect clear and concise goals, objectives, and responsibilities regarding the operation of the statewide transportation system. Furthermore, the state's citizens expect that the state periodically receive clear and streamlined information that measures whether the goals and objectives are being satisfied. Therefore, it is the intent of the legislature that this act serve to clarify existing goals, objectives, and responsibilities related to the operation of an efficient statewide transportation system." [2007 c 516 § 1.]

The chief of the Washington state patrol, the director of the traffic safety commission, the executive director of the county road administration board, and the director of licensing are designated as official consultants to the transportation commission so that the goals and activities of their respective agencies which relate to transportation are fully coordinated with other related responsibilities of the department of transportation. Identification of environmental costs of transportation projects—Pilot project—1993 c 59: "Recognizing the importance of maintaining the quality of life in Washington state, the citizens of this state demand protection and preservation of our scarce natural resources. Citizens also demand an efficient and effective transportation system. The departments of transportation, ecology, fisheries, and wildlife and the Puget Sound water quality authority have worked jointly to develop cooperative approaches for mitigating environmental impacts resulting from transportation projects. Nevertheless, many transportation projects are costing more than was budgeted due to unanticipated and extensive environmental considerations. It is the intent of the legislature to find a process for accessing, budgeting, and accounting for environmental costs related to significant transportation projects in order to determine whether the environmental costs exceed the transportation benefits of a project.

Therefore, the department of transportation shall undertake a pilot program in at least one transportation district that will serve as a case study for the entire department. The department shall identify and cost out the discrete environmental elements of a representative sampling of transportation projects. The environmental elements should include, but not necessarily be limited to, wetlands, storm water, hazardous waste, noise, fish, and wildlife. The department shall also consider an assessment of the cost impacts resulting from delays associated with permitting requirements.

It is the intent of the legislature that the environmental cost estimates be developed during a detailed scoping process that will include preliminary engineering and design. After the detailed scoping process and design report is complete, the department shall submit project-specific recommendations and cost estimates to the transportation commission before approval is granted for the construction phase of the projects.

Based upon the findings of the pilot program the transportation commission shall recommend policies to the legislative transportation committee regarding: (1) The current practice of appropriating design and construction dollars simultaneously; (2) identification of reasonable thresholds for environmental costs; (3) budget and accounting modifications that may be warranted in order to accurately capture environmental costs associated with transportation projects; and (4) modification to the priority array statutes, chapter 47.05 RCW." [1993 c 59 § 1.]

47.01.260 Authority of department. (1) The department of transportation shall exercise all the powers and perform all the duties necessary, convenient, or incidental to the planning, locating, designing, constructing, improving, repairing, operating, and maintaining state highways, including bridges and other structures, culverts, and drainage facilities and channel changes necessary for the protection of state highways, and shall examine and allow or disallow bills, subject to the provisions of RCW 85.07.170, for any work or services performed or materials, equipment, or supplies furnished.

(2) Subject to the limitations of RCW 4.24.115, the department, in the exercise of any of its powers, may include in any authorized contract a provision for indemnifying the other contracting party against specific loss or damages arising out of the performance of the contract.

(3) The department is authorized to acquire property as provided by law and to construct and maintain thereon any

(2008 Ed.)

buildings or structures necessary or convenient for the planning, design, construction, operation, maintenance, and administration of the state highway system and to acquire property and to construct and maintain any buildings, structures, appurtenances, and facilities necessary or convenient to the health and safety and for the accommodation of persons traveling upon state highways.

(4) The department is authorized to engage in planning surveys and may collect, compile, and analyze statistics and other data relative to existing and future highways and highway needs throughout the state, and shall conduct research, investigations, and testing as it deems necessary to improve the methods of construction and maintenance of highways and bridges. [2006 c 368 § 2; 1983 c 29 § 1; 1979 ex.s. c 58 § 1.]

47.01.270 Radioactive or hazardous cargo, notice of prohibition. The department of transportation shall adopt regulations to establish procedures for giving notice to transporters of placarded radioactive or hazardous cargo of times when transportation of such cargo is prohibited. [1983 c 205 § 2.]

Transportation of radioactive or hazardous cargo, prohibited, when: RCW 47.48.050.

47.01.280 Application for improvements to existing highways. (1) Upon receiving an application for improvements to an existing state highway or highways pursuant to RCW 43.160.074 from the community economic revitalization board, the department shall, in a timely manner, determine whether or not the proposed state highway improvements:

- (a) Meet the safety and design criteria of the department of transportation;
- (b) Will impair the operational integrity of the existing highway system; and
- (c) Will affect any other improvements planned by the department.

(2) Upon completion of its determination of the factors contained in subsection (1) of this section and any other factors it deems pertinent, the department shall forward its approval, as submitted or amended or disapproval of the proposed improvements to the board, along with any recommendation it may wish to make concerning the desirability and feasibility of the proposed development. If the department disapproves any proposed improvements, it shall specify its reasons for disapproval.

(3) Upon notification from the board of an application's approval pursuant to RCW 43.160.074, the department shall carry out the improvements in coordination with the applicant. [2006 c 334 § 7; 2005 c 319 § 121; 1999 c 94 § 10; 1985 c 433 § 6.]

47.01.290 Environmental review of transportation projects. The legislature recognizes that environmental

review of transportation projects is a continuous process that should begin at the earliest stages of planning and continue through final project construction. Early and extensive involvement of the relevant environmental regulatory authorities is critical in order to avoid significant changes in substantially completed project design and engineering. It is the expectation of the legislature that if a comprehensive environmental approach is integrated throughout various transportation processes, onerous, duplicative, and time-consuming permit processes will be minimized. [1994 c 258 § 3; 1993 c 55 § 1.]

47.01.300 Environmental review of transportation projects—Cooperation with other environmental regulatory authorities. The department shall, in cooperation with environmental regulatory authorities:

(1) Identify and document environmental resources in the development of the statewide multimodal plan under RCW 47.06.040;

(2) Allow for public comment regarding changes to the criteria used for prioritizing projects under chapter 47.05 RCW before final adoption of the changes by the commission;

(3) Use an environmental review as part of the project prospectus identifying potential environmental impacts, mitigation, and costs during the early project identification and selection phase, submit the prospectus to the relevant environmental regulatory authorities, and maintain a record of comments and proposed revisions received from the authorities;

(4) Actively work with the relevant environmental regulatory authorities during the design alternative analysis process and seek written concurrence from the authorities that they agree with the preferred design alternative selected;

(5) Develop a uniform methodology, in consultation with relevant environmental regulatory authorities, for submitting plans and specifications detailing project elements that impact environmental resources, and proposed mitigation measures, to the relevant environmental regulatory authorities during the preliminary specifications and engineering phase of project development;

(6) Screen construction projects to determine which projects will require complex or multiple permits. The permitting authorities shall develop methods for initiating review of the permit applications for the projects before the final design of the projects;

(7) Conduct special prebid meetings for those projects that are environmentally complex; and

(8) Review environmental considerations related to particular projects during the preconstruction meeting held with the contractor who is awarded the bid. [1994 c 258 § 4.]

47.01.321 Skills bank—Report. The department of transportation shall work with local transportation jurisdictions and representatives of transportation labor groups to establish a human resources skills bank of transportation professionals. The skills bank must be designed to allow all transportation authorities to draw from it when needed. The department shall issue a report of findings and recommendations to the transportation committees of the legislature by December 1, 2003. The report must include, but not be limited to, identification of any statutory or administrative rule changes necessary to create the skills bank and allow it to function in the manner described. 47.01.330 Office of transit mobility. (1) The secretary shall establish an office of transit mobility. The purpose of the office is to facilitate the integration of decentralized public transportation services with the state transportation system. The goals of the office of transit mobility are: (a) To facilitate connection and coordination of transit services and planning; and (b) maximizing opportunities to use public transportation to improve the efficiency of transportation corridors.

(2) The duties of the office include, but are not limited to, the following:

(a) Developing a statewide strategic plan that creates common goals for transit agencies and reduces competing plans for cross-jurisdictional service;

(b) Developing a park and ride lot program;

(c) Encouraging long-range transit planning;

(d) Providing public transportation expertise to improve linkages between regional transportation planning organizations and transit agencies;

(e) Strengthening policies for inclusion of transit and transportation demand management strategies in route development, corridor plan standards, and budget proposals;

(f) Recommending best practices to integrate transit and demand management strategies with regional and local land use plans in order to reduce traffic and improve mobility and access;

(g) Producing recommendations for the public transportation section of the Washington transportation plan; and

(h) Participating in all aspects of corridor planning, including freight planning, ferry system planning, and passenger rail planning.

(3) In forming the office, the secretary shall use existing resources to the greatest extent possible.

(4) The office of transit mobility shall establish measurable performance objectives for evaluating the success of its initiatives and progress toward accomplishing the overall goals of the office.

(5) The office of transit mobility must report quarterly to the secretary, and annually to the transportation committees of the legislature, on the progress of the office in meeting the goals and duties provided in this section. [2005 c 318 § 2.]

Findings—Intent—2005 c 318: "The legislature finds that the state needs to reestablish itself as a leader in public transportation.

The legislature also finds that increased demands on transportation resources require increased coordination among public transportation service providers.

The legislature also finds that the efficiency of transportation corridors would be enhanced by a more proactive and integrated approach to public transportation service delivery and planning.

The legislature also finds that the state department of transportation is in the unique position of being able to improve connectivity between service territories of transit agencies and modes of transportation.

The legislature also finds that the state should be a center of excellence in public transportation planning and research and providing technical assistance to transit agencies serving urban, suburban, and rural areas.

Therefore, it is the intent of the legislature that the state department of transportation be a leader in public transportation. The department shall play a guiding role in coordinating decentralized public transportation services, increasing connectivity between them, advocating for public transportation as a means to increase corridor efficiency, and increasing the integration of public transportation and the highway system." [2005 c 318 § 1.]

47.01.340 Local and regional transportation goals.

to the state route number 520 bridge and its connecting roadways, and that any such impacts will be addressed through engineering design choices, mitigation measures, or a combination of both. The requirements of this section shall not apply to off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project. [2006 c 311 § 26.]

47.01.390 Alaskan Way viaduct, Seattle Seawall, and state route No. 520 improvements—Requirements—Exceptions.

(1) Prior to commencing construction on either project, the department of transportation must complete all of the following requirements for both the Alaskan Way viaduct and Seattle Seawall replacement project, and the state route number 520 bridge replacement and HOV project: (a) In accordance with the national environmental policy act, the department must designate the preferred alternative, prepare a substantial project mitigation plan, and complete a comprehensive cost estimate review using the department's cost estimate validation process, for each project; (b) in accordance with all applicable federal highway administration planning and project management requirements, the department must prepare a project finance plan for each project that clearly identifies secured and anticipated fund sources, cash flow timing requirements, and project staging and phasing plans if applicable; and (c) the department must report these results for each project to the joint transportation committee.

(2) The requirements of this section shall not apply to (a) utility relocation work, and related activities, on the Alaskan Way viaduct and Seattle Seawall replacement project and (b) off-site pontoon construction supporting the state route number 520 bridge replacement and HOV project.

(3) The requirements of subsection (1) of this section shall not apply during the 2007-2009 fiscal biennium. [2007 c 518 § 705; 2006 c 311 § 27.]

47.01.400 Alaskan Way viaduct, Seattle Seawall, and state route No. 520 improvements—Expert review panel—Governor's finding.

The legislature recognizes that the finance and project implementation planning processes required for the Alaskan Way viaduct and Seattle Seawall replacement project and the state route number 520 bridge replacement and HOV project cannot guarantee appropriate decisions unless key study assumptions are reasonable with respect to each project.

To assure appropriate finance plan and project implementation plan assumptions, an expert review panel shall be appointed to provide independent financial and technical review for development of a finance plan and project implementation plan for the projects described in this section.

(1) The expert review panel shall consist of five to ten members who are recognized experts in relevant fields, such as planning, engineering, finance, law, the environment, emerging transportation technologies, geography, and economics.

(2) The expert review panel shall be selected cooperatively by the chairs of the senate and house transportation committees, the secretary of the department of transportation, and the governor to assure a balance of disciplines.

(3) The chair of the expert review panel shall be designated by the governor.

(4) The expert review panel shall, with respect to completion of the project alternatives as described in the draft environmental impact statement of each project:

(a) Review the finance plan for the project to ensure that it clearly identifies secured and anticipated funding sources and is feasible and sufficient;

(b) Review the project implementation plan covering all state and local permitting and mitigation approvals that ensure the most expeditious and cost-effective delivery of the project; and

(c) Report its findings and recommendations on the items described in (a) and (b) of this subsection to the joint transportation committee, the office of financial management, and the governor by September 1, 2006.

(5) Upon receipt of the expert review panel's findings and recommendations under subsection (4)(c) of this section, the governor must make a finding of whether each finance plan is feasible and sufficient to complete the project as described in the draft environmental impact statement.

(6) Nothing in this section shall be interpreted to delay construction of any of the projects referenced in this section. [2006 c 311 § 28.]

Findings—2006 c 311: See note following RCW 36.120.020.

47.01.405 State route No. 520 improvements—Project impact plan—Mediator, duties. (1) As soon as practicable after May 15, 2007, and after consulting with the city of Seattle, the office of financial management shall hire a mediator, and appropriate planning staff, including urban, transportation, and neighborhood planners, to develop a state route number 520 project impact plan for addressing the impacts of the state route number 520 bridge replacement and HOV project design on Seattle city neighborhoods, parks, including the Washington park arboretum, and institutions of higher education. The mediator must have significant professional experience in working with communities that surround major transportation construction projects, and mitigating the impacts of those transportation projects on those communities. The office of financial management shall hire the mediator and the planning staff within existing appropriations allocated for the state route number 520 bridge replacement and HOV project. The position of mediator under this section is not considered a certified or legally binding position.

(2) The mediator's responsibility to develop a project impact plan is highly time sensitive. As a result, competitive bidding is not cost-effective or appropriate for personal service contracts to hire the mediator. The director of the office of financial management shall, by the director's authority under RCW 39.29.011(5), exempt any such personal service contract from the competitive bidding requirements of chapter 39.29 RCW.

(3) In evaluating the project impacts, the mediator must consider the concerns of neighborhoods and institutions of higher education directly impacted by the proposed design,

establish a process that incorporates interest-based negotiation, and work with the appropriate planning staff to develop mitigation recommendations related to the project design. The mediator shall work to ensure that the project impact plan provides a comprehensive approach to mitigating the impacts of the project, including incorporating construction mitigation plans.

(4) The ultimate goal of the mediation and planning process established in subsection (1) of this section is to develop a project impact plan agreed to by all appropriate parties including, but not limited to, those parties listed in subsection (6) of this section. The project impact plan must be consistent with RCW 47.01.380, and must support and be consistent with the approved purpose and need statement for the project, which is: "The purpose of the project is to improve mobility for people and goods across Lake Washington within the SR 520 corridor from Seattle to Redmond in a manner that is safe, reliable, and cost-effective while avoiding, minimizing, and/or mitigating impacts on the affected neighborhoods and the environment." The mediator must strive to develop a consensus-based plan. In the event that the mediation process does not result in consensus, the mediator shall submit a project impact plan to the governor and the joint transportation committee that reflects the views of the majority of the mediation participants.

(5) The process established in subsection (1) of this section shall result in a project design that provides six total lanes, with four general purpose lanes and two lanes that are for high occupancy vehicle travel that could also accommodate high capacity transportation. The bridge shall also be designed to accommodate light rail in the future and to support a bus rapid transit system. Additionally, the mediator shall strive to develop a project impact plan within the constraints of the range of estimated project costs as of May 1, 2007.

(6)(a) In performing the duties of this section, and consistent with the governor's findings and conclusions, dated December 15, 2006, the mediator shall work with interested parties directly affected by the state route number 520 bridge replacement and HOV project including, but not limited to, at least the following:

- (i) Representation from each neighborhood directly impacted by the project;
- (ii) Representation from local governments on both ends of the bridge directly impacted by the project;
- (iii) Representation from King county;
- (iv) Representation from the Washington park arboretum;
- (v) Representation from the University of Washington; and
- (vi) Representation from sound transit.

(b) The mediator shall also work with the department and others as necessary.

(c) Before the mediator may submit the project impact plan, it must be reviewed by the mayor of Seattle and the Seattle city council. The project impact plan must reflect whether the mayor and council concur or do not concur with the plan and include an explanation regarding their positions.

(7) Until December 1, 2008, the mediator must provide periodic reports to the joint transportation committee and the governor regarding the status of the project impact plan

development process. The mediator must submit a progress report to the joint transportation committee and the governor by August 1, 2007. The mediator must submit a final project impact plan to the governor and legislature by December 1, 2008. [2007 c 517 § 2.]

Finding—2007 c 517: "The legislature finds that the replacement of the vulnerable state route number 520 corridor is a matter of urgency for the safety of Washington's traveling public and the needs of the transportation system in central Puget Sound. The state route number 520 floating bridge is susceptible to damage, closure, or even catastrophic failure from earthquakes, windstorms, and waves. Additionally, the bridge serves as a vital route for vehicles to cross Lake Washington, carrying over three times its design capacity in traffic, resulting in more than seven hours of congestion per day.

Therefore, it is the conclusion of the legislature that time is of the essence, and that Washington state cannot wait for a disaster to make it fully appreciate the urgency of the need to replace this vulnerable structure. The state must take the necessary steps to move forward with a state route number 520 bridge replacement project design that provides six total lanes, with four general purpose lanes and two lanes that are for high occupancy vehicle travel that could also accommodate high capacity transportation, and the bridge shall also be designed to accommodate light rail in the future. High occupancy vehicle lanes in the state route 520 corridor must also be able to support a bus rapid transit system." [2007 c 517 § 1.]

Severability—2007 c 517: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2007 c 517 § 8.]

Effective date—2007 c 517: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 15, 2007]." [2007 c 517 § 9.]

47.01.406 State route No. 520 improvements—Review of project design plans—Goals. In developing the state route number 520 project impact plan provided in RCW 47.01.405, the mediator and associated planning staff shall review the department's project design plans in the draft environmental impact statement for conformance with the following legislative goals regarding the final design for the state route number 520 bridge replacement and HOV project:

(1) Minimize the total footprint and width of the bridge, and seek appropriate federal design variances to safety and mobility standards, while complying with other federal laws;

(2) Minimize the project impact on surrounding neighborhoods, including incorporation of green lids and connectors, and minimize any increases in additional traffic volumes through the Washington park arboretum and other adjacent neighborhoods;

(3) Incorporate the recommendations of a health impact assessment to calculate the project's impact on air quality, carbon emissions, and other public health issues, conducted by the Puget Sound clean air agency and King county public health;

(4) Ensure that the ultimate project configuration effectively prioritizes maintaining travel time, speed, and reliability on the two high occupancy vehicle lanes; and

(5) Clearly articulate in required environmental documents the alignment of the selected preferred alternative for the state route number 520 bridge replacement and HOV project and the footprint of the project and the affected areas. [2007 c 517 § 3.]

Finding—Severability—Effective date—2007 c 517: See notes following RCW 47.01.405.

(2008 Ed.)

47.01.408 State route No. 520 improvements—Design requirements. (1) The state route number 520 bridge replacement and HOV project shall be designed to provide six total lanes, with two lanes that are for transit and high-occupancy vehicle travel, and four general purpose lanes.

(2) The state route number 520 bridge replacement and HOV project shall be designed to accommodate effective connections for transit, including high capacity transit, to the light rail station at the University of Washington. [2008 c 270 § 2.]

Finding—2008 c 270: "The legislature finds that the replacement of the vulnerable state route number 520 bridge is a matter of urgency for the safety of Washington's traveling public and the needs of the transportation system in central Puget Sound. The state route number 520 bridge is forty-four years old and has a useful remaining life of between thirteen and eighteen years. While one hundred fifteen thousand vehicles travel on the bridge each day, there is an ever present likelihood that wind or an earthquake could suddenly destroy the bridge or render it unusable. Therefore, the state must develop a comprehensive approach to fund a state route number 520 bridge replacement to be constructed by 2018." [2008 c 270 § 1.]

47.01.410 State route No. 520 improvements—Multimodal transportation plan. As part of the state route number 520 bridge replacement and HOV project, the governor's office shall work with the department, sound transit, King county metro, and the University of Washington, to plan for high capacity transportation in the state route number 520 corridor. The parties shall jointly develop a multimodal transportation plan that ensures the effective and efficient coordination of bus services and light rail services throughout the state route number 520 corridor. The plan shall include alternatives for a multimodal transit station that serves the state route number 520 - Montlake interchange vicinity, and mitigation of impacts on affected parties. The high capacity transportation planning work must be closely coordinated with the state route number 520 bridge replacement and HOV project's environmental planning process, and must be completed within the current funding for the project. A draft plan must be submitted to the governor and the joint transportation committee by October 1, 2007. A final plan must be submitted to the governor and the joint transportation committee by December 2008. [2007 c 517 § 6.]

Finding—Severability—Effective date—2007 c 517: See notes following RCW 47.01.405.

47.01.412 State route No. 520 improvements—Tax deferrals—Definition. (1)(a) Any person involved in the construction of the state route number 520 bridge replacement and HOV project may apply for deferral of state and local sales and use taxes on the site preparation for, the construction of, the acquisition of any related machinery and equipment that will become a part of, and the rental of equipment for use in, the project.

(b) Application shall be made to the department of revenue in a form and manner prescribed by the department of revenue. The application must contain information regarding estimated or actual costs, time schedules for completion and operation, and other information required by the department of revenue. The department of revenue shall approve the application within sixty days if it meets the requirements of this section.

(2) The department of revenue shall issue a sales and use tax deferral certificate for state and local sales and use taxes imposed or authorized under chapters 82.08, 82.12, and 82.14 RCW and RCW 81.104.170 on the project.

(3) A person granted a tax deferral under this section shall begin paying the deferred taxes in the fifth year after the date certified by the department of revenue as the date on which the project is operationally complete. The project is operationally complete under this section when the replacement bridge is constructed and opened to traffic. The first payment is due on December 31st of the fifth calendar year after the certified date, with subsequent annual payments due on December 31st of the following nine years. Each payment shall equal ten percent of the deferred tax.

(4) The department of revenue may authorize an accelerated repayment schedule upon request of a person granted a deferral under this section.

(5) Interest shall not be charged on any taxes deferred under this section for the period of deferral, although all other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this section. The debt for deferred taxes is not extinguished by insolvency or other failure of any private entity granted a deferral under this section.

(6) Applications and any other information received by the department of revenue under this section are not confidential and are subject to disclosure. Chapter 82.32 RCW applies to the administration of this section.

(7) For purposes of this section, "person" has the same meaning as in RCW 82.04.030 and also includes the department of transportation. [2008 c 270 § 7.]

Finding—2008 c 270: See note following RCW 47.01.408.

47.01.415 State route No. 520 improvements—Finance plan. The state route number 520 bridge replacement and HOV project finance plan must include state funding, federal funding, at least one billion dollars in regional contributions, and revenue from tolling. The department must provide a proposed finance plan to be tied to the estimated cost of the recommended project solutions, as provided under RCW 47.01.406, to the governor and the joint transportation committee by January 1, 2008. [2007 c 517 § 7.]

Finding—Severability—Effective date—2007 c 517: See notes following RCW 47.01.405.

47.01.417 State route No. 520 improvements—Finance plan—Revenue sources and savings recognition. The state route number 520 bridge replacement and HOV project finance plan must include:

(1) Recognition of revenue sources that include: One billion seven hundred million dollars in state and federal funds allocated to the project; one billion five hundred million dollars to two billion dollars in tolling revenue, including early tolls that could begin in late 2009; eighty-five million dollars in federal urban partnership grant funds; and other contributions from private and other government sources; and

(2) Recognition of savings to be realized from:

(a) Potential early construction of traffic improvements from the eastern Lake Washington shoreline to 108th Avenue Northeast in Bellevue;

(b) Early construction of a single string of pontoons to support two lanes that are for transit and high-occupancy vehicle travel and four general purpose lanes;

(c) Preconstruction tolling to reduce total financing costs; and

(d) A deferral of the sales taxes paid on construction costs. [2008 c 270 § 3.]

Reviser's note: This section was directed to be codified in chapter 47.56 RCW. Placement in chapter 47.01 RCW is more appropriate.

Finding—2008 c 270: See note following RCW 47.01.408.

47.01.420 Naming and renaming state transportation facilities. (1) The commission may name or rename state transportation facilities including, but not limited to: State highways; state highway bridges, structures, and facilities; state rest areas; and state roadside facilities, such as viewpoints. The commission must consult with the department before taking final action to name or rename a state transportation facility.

(2)(a) The department, state and local governmental entities, citizen organizations, and any person may initiate the process to name or rename a state transportation facility.

(b) For the commission to consider a naming or renaming proposal, the requesting entity or person must provide sufficient evidence, as determined by the commission, indicating community support and acceptance of the proposal. Evidence may include the following:

(i) Letters of support from state and federal legislators representing the impacted area encompassing the state transportation facility;

(ii) Resolutions passed by local, publicly elected bodies in the impacted area encompassing the state transportation facility;

(iii) Department support; or

(iv) Supportive actions by or letters from local organizations including, but not limited to, local chambers of commerce and service clubs.

(3) After the commission takes final action in naming or renaming a state transportation facility, the department shall design and install the appropriate signs in accordance with state and federal standards. [2007 c 33 § 1.]

47.01.430 Wounded combat veterans internship program. Subject to the availability of amounts appropriated for this specific purpose, the department shall establish an internship program for returning wounded combat veterans. The purpose of the program is to assist returning wounded combat veterans by matching them with jobs within the department that require their military skill sets and would be of benefit to the department, or that would teach them new skills. The jobs may include, but are not limited to, the following classifications: Engineering; construction trades; logistics; and project planning. The emphasis of the program should be to assist veterans who served in southern or central Asia, Operation Enduring Freedom; and the Persian Gulf, Operation Iraqi Freedom. This program may assist with the placement of wounded combat veterans as apprentices under RCW 39.04.320. The department may adopt rules under chapter

34.05 RCW to implement the requirements of this section. For the purposes of this section, "veteran" has the same meaning as in RCW 41.04.005. [2007 c 92 § 1.]

47.01.440 Adoption of statewide goals to reduce annual per capita vehicle miles traveled by 2050—Department’s duties—Reports to the legislature. To support the implementation of RCW 47.04.280 and 47.01.078(4), the department shall adopt broad statewide goals to reduce annual per capita vehicle miles traveled by 2050 consistent with the stated goals of executive order 07-02. Consistent with these goals, the department shall:

(1) Establish the following benchmarks using a statewide baseline of seventy-five billion vehicle miles traveled less the vehicle miles traveled attributable to vehicles licensed under RCW 46.16.070 and weighing ten thousand pounds or more, which are exempt from this section:

- (a) Decrease the annual per capita vehicle miles traveled by eighteen percent by 2020;
- (b) Decrease the annual per capita vehicle miles traveled by thirty percent by 2035; and
- (c) Decrease the annual per capita vehicle miles traveled by fifty percent by 2050;

(2) By July 1, 2008, establish and convene a collaborative process to develop a set of tools and best practices to assist state, regional, and local entities in making progress towards the benchmarks established in subsection (1) of this section. The collaborative process must provide an opportunity for public review and comment and must:

- (a) Be jointly facilitated by the department, the department of ecology, and the department of community, trade, and economic development;
- (b) Provide for participation from regional transportation planning organizations, the Washington state transit association, the Puget Sound clean air agency, a statewide business organization representing the sale of motor vehicles, at least one major private employer that participates in the commute trip reduction program, and other interested parties, including but not limited to parties representing diverse perspectives on issues relating to growth, development, and transportation;
- (c) Identify current strategies to reduce vehicle miles traveled in the state as well as successful strategies in other jurisdictions that may be applicable in the state;
- (d) Identify potential new revenue options for local and regional governments to authorize to finance vehicle miles traveled reduction efforts;
- (e) Provide for the development of measurement tools that can, with a high level of confidence, measure annual progress toward the benchmarks at the local, regional, and state levels, measure the effects of strategies implemented to reduce vehicle miles traveled and adequately distinguish between common travel purposes, such as moving freight or commuting to work, and measure trends of vehicle miles traveled per capita on a five-year basis;
- (f) Establish a process for the department to periodically evaluate progress toward the vehicle miles traveled benchmarks, measure achieved and projected emissions reductions, and recommend whether the benchmarks should be adjusted to meet the state’s overall goals for the reduction of greenhouse gas emissions;

(2008 Ed.)

(g) Estimate the projected reductions in greenhouse gas emissions if the benchmarks are achieved, taking into account the expected implementation of existing state and federal mandates for vehicle technology and fuels, as well as expected growth in population and vehicle travel;

(h) Examine access to public transportation for people living in areas with affordable housing to and from employment centers, and make recommendations for steps necessary to ensure that areas with affordable housing are served by adequate levels of public transportation; and

(i) By December 1, 2008, provide a report to the transportation committees of the legislature on the collaborative process and resulting recommended tools and best practices to achieve the reduction in annual per capita vehicle miles traveled goals.

(3) Included in the December 1, 2008, report to the transportation committees of the legislature, the department shall identify strategies to reduce vehicle miles traveled in the state as well as successful strategies in other jurisdictions that may be applicable in the state that recognize the differing urban and rural transportation requirements.

(4) Prior to implementation of the goals in this section, the department, in consultation with the department of community, trade, and economic development, cities, counties, local economic development organizations, and local and regional chambers of commerce, shall provide a report to the appropriate committees of the legislature on the anticipated impacts of the goals established in this section on the following:

- (a) The economic hardship on small businesses as it relates to the ability to hire and retain workers who do not reside in the county in which they are employed;
- (b) Impacts on low-income residents;
- (c) Impacts on agricultural employers and their employees, especially on the migrant farmworker community;
- (d) Impacts on distressed rural counties; and
- (e) Impacts in counties with more than fifty percent of the land base of the county in public or tribal lands. [2008 c 14 § 8.]

47.02.080 Bonds—Designation of funds to repay bonds and interest. Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle fuels and which is, or may be appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1984 c 7 § 84; 1965 ex.s. c 167 § 8.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.02.090 Bonds—Repayment procedure—Highway bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on

motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments under the provisions of this chapter when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1965 ex.s. c 167 § 9.]

47.02.100 Bonds—Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor fuels payable into the highway bond retirement fund shall prove more than is required for the payment of interest on bonds when due or current retirement of bonds, or in the event there is appropriated from time to time additional amounts to be placed in the said bond retirement fund, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1965 ex.s. c 167 § 10.]

47.02.110 Bonds—Appropriation from motor vehicle fund. There is hereby appropriated from the motor vehicle fund to the state highway commission for the biennium ending June 30, 1967, the sum of four million dollars, or so much thereof as may be necessary to carry out the provisions of this chapter, but no money shall be available under this appropriation from said fund unless a like amount of bonds provided for herein are sold and the money derived therefrom deposited to the credit of such fund. [1965 ex.s. c 167 § 11.]

47.02.120 District 1 headquarters bonds—Issuance and sale. For the purpose of providing funds for the acquisition of headquarters facilities for district 1 of the department of transportation and costs incidental thereto, together with all improvements and equipment required to make the facilities suitable for the department's use, there shall be issued and sold upon the request of the secretary of the department of transportation a total of fifteen million dollars of general obligation bonds of the state of Washington. [2006 c 334 § 39; 1990 c 293 § 1.]

Effective date—2006 c 334: See note following RCW 47.01.051.

Severability—1990 c 293: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1990 c 293 § 10.]

47.02.130 District 1 headquarters bonds—Uses of proceeds. Authorized uses of proceeds from the sale of bonds authorized in RCW 47.02.120 through 47.02.190 include but are not limited to repayment to the motor vehicle

fund for the initial financing of the headquarters facilities. [1999 c 94 § 11; 1990 c 293 § 2.]

Severability—1990 c 293: See note following RCW 47.02.120.

47.02.140 District 1 headquarters bonds—Duties of state finance committee. Upon the request of the secretary of the department of transportation, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.02.120 through 47.02.190 in accordance with chapter 39.42 RCW. Bonds authorized by RCW 47.02.120 through 47.02.190 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. Except for the purpose of repaying the loan from the motor vehicle fund, no such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [2006 c 334 § 40; 1990 c 293 § 3.]

Effective date—2006 c 334: See note following RCW 47.01.051.

47.02.160 District 1 headquarters bonds—Statement of general obligation—Pledge of excise taxes. Bonds issued under the authority of RCW 47.02.120 through 47.02.190 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in RCW 47.02.120 through 47.02.190 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.02.120 through 47.02.190, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.02.120 through 47.02.190. [1995 c 274 § 5; 1990 c 293 § 5.]

The state finance committee may provide that a special account be created in the fund to facilitate payment of the principal and interest. The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.02.120 through 47.02.190 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state under RCW 46.68.130. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state under RCW 46.68.130 proves insufficient to meet the requirements for bond retirement or interest on any such bonds. Severability—1990 c 293: See note following RCW 47.02.120.

(a) "Right-of-way" means all state-owned land within a state highway corridor.

(b) "Service provider" means every corporation, company, association, joint stock association, firm, partnership, or person that owns, operates, or manages any personal wireless service facility. "Service provider" includes a service provider's contractors, subcontractors, and legal successors.

(2) The department shall establish a process for issuing a lease for the use of the right-of-way by a service provider and shall require that telecommunications equipment be co-located on the same structure whenever practicable. Consistent with federal highway administration approval, the lease

must include the right of direct ingress and egress from the highway for construction and maintenance of the personal wireless service facility during nonpeak hours if public safety is not adversely affected. Direct ingress and egress may be allowed at any time for the construction of the facility if public safety is not adversely affected and if construction will not substantially interfere with traffic flow during peak traffic periods. The lease may specify an indirect ingress and egress to the facility if it is reasonable and available for the particular location.

(3) The cost of the lease must be limited to the fair market value of the portion of the right-of-way being used by the service provider and the direct administrative expenses incurred by the department in processing the lease application.

If the department and the service provider are unable to agree on the cost of the lease, the service provider may submit the cost of the lease to binding arbitration by serving written notice on the department. Within thirty days of receiving the notice, each party shall furnish a list of acceptable arbitrators. The parties shall select an arbitrator; failing to agree on an arbitrator, each party shall select one arbitrator and the two arbitrators shall select a third arbitrator for an arbitration panel. The arbitrator or panel shall determine the cost of the lease based on comparable siting agreements. Costs of the arbitration, including compensation for the arbitrator's services, must be borne equally by the parties participating in the arbitration and each party shall bear its own costs and expenses, including legal fees and witness expenses, in connection with the arbitration proceeding.

(4) The department shall act on an application for a lease within sixty days of receiving a completed application, unless a service provider consents to a different time period.

(5) The reasons for a denial of a lease application must be supported by substantial evidence contained in a written record.

(6) The department may adopt rules to implement this section.

(7) All lease money paid to the department under this section shall be deposited in the motor vehicle fund created in RCW 46.68.070. [2003 c 244 § 5.]

47.04.046 Wireless site leases—Pending applications. Applications for wireless site leases pending on July 27, 2003, must be treated as applications under RCW 47.04.045 with the consent of the applicant. [2003 c 244 § 8.]

47.04.047 Personal wireless service facilities. Personal wireless service is a critical part of the state's infrastructure. The rapid deployment of personal wireless service facilities is critical to ensure public safety, network access, quality of service, and rural economic development.

It is the declared policy of this state to assure that the use of rights-of-way of state highways accommodate the deployment of personal wireless service facilities consistent with highway safety and the preservation of the public investment in state highway facilities. [2004 c 131 § 2.]

47.04.050 Acceptance of federal acts. The state of Washington hereby assents to the purposes, provisions, terms (2008 Ed.)

and conditions of the grant of money provided in an act of congress entitled: "An act to provide that the United States shall aid the states in the construction of rural post roads, and for other purposes," approved July 11, 1916, and all acts, grants and appropriations amendatory and supplementary thereto and affecting the state of Washington. 47.04.083 Urban public transportation systems—Declaration of public policy—Use of motor vehicle, city street, or county road funds. The separate and uncoordinated development of public highways and urban public transportation systems is wasteful of this state's natural and financial resources. It is the public policy of this state to encourage wherever feasible the joint planning, construction and maintenance of public highways and urban public transportation systems serving common geographical areas as joint use facilities. To this end the legislature declares it to be a highway purpose to use motor vehicle funds, city and town street funds or county road funds to pay the full proportionate highway, street or road share of the costs of design, right-of-way acquisition, construction and maintenance of any highway, street or road to be used jointly with an urban public transportation system. [1967 c 108 § 2.]

47.04.090 Penalty. It is a misdemeanor for any person to violate any of the provisions of this title unless specifically provided otherwise by this title or other law of this state.

Unless another penalty is provided in this title, every person convicted of a misdemeanor for violation of any provisions of this title shall be punished in accordance with chapter 9A.20 RCW. [1989 c 224 § 2; 1961 c 13 § 47.04.090. Prior: 1937 c 53 § 95; RRS § 6400-95.]

47.04.100 Temporary route pending construction of new highway—Streets, roads not to be maintained as. 47.04.140 Counties obtaining federal aid for construction, reconstruction, etc., of ferry boats or approaches. (1) The county shall obtain from the department a franchise authorizing the ferry operations. The county's application for a franchise or amended franchise shall designate all ferry routes it proposes to operate. The department shall issue the franchise or amended franchise for the operation of each route that it finds is not otherwise served by adequate transportation facilities. A county may terminate any ferry route without approval of the department.

(2) At least ninety days before applying for federal aid for the construction, reconstruction, or modification of any of its ferries or approaches thereto, and thereafter whenever new tolls or charges are proposed for use of its ferries, the county shall file with the department, the current or proposed schedule of tolls and charges for use of its ferries. Such tolls and charges shall be deemed approved by the department unless it finds that the aggregate revenues to be derived from the county's ferry operations will exceed the amount required to pay the actual and necessary costs of operation, maintenance, administration, and repair of the county's ferries and their appurtenances. [1989 c 62 § 1; 1984 c 7 § 91; 1975-'76 2nd ex.s. c 65 § 1.]

While any bonds, whether definitive, temporary, or interim, or warrants, certificates, or receipts of any denomination, with or without coupons attached heretofore issued by the state aeronautics commission, the toll bridge authority, the highway commission, or any of the other agencies whose functions are transferred to the department of transportation by RCW 47.01.031, remain outstanding, the powers and duties relating thereto of such agencies or of any official or employee thereof transferred by *RCW 47.01.111 to the department of transportation, or any powers and duties of any other state official or state agency with respect to such bonds, warrants, certificates, or receipts shall not be diminished or impaired in any manner that will adversely affect the interests and rights of the holders of such bonds, warrants, certificates, or receipts. The holder of any such bond, warrant, certificate, or receipt may by mandamus or other appropriate proceeding require the performance by the department of transportation,

or other appropriate state official or agency, of any of the duties heretofore imposed upon any state department, official, or employee under the terms of any such prior bond, warrant, certificate, or receipt agreement or sale: PROVIDED, That the enumeration of such rights and remedies herein shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds, warrants, certificates, or receipts. [1980 c 5 § 1.]

(2) Rail transportation. [1985 c 20 § 1.]

47.04.180 Twenty-four hour headlight policy. On the recommendation of their public works departments or designees, counties or cities can petition the department of transportation to create a "twenty-four hour headlight policy" on state highways in their respective jurisdictions. 47.04.210 Reimbursable transportation expenditures—Processing and accounting. Federal funds that are administered by the department of transportation and are passed through to municipal corporations or political subdivisions of the state and moneys that are received as total reimbursement for goods, services, or projects constructed by the department of transportation are removed from the transportation budget. To process and account for these expenditures a new treasury trust account is created to be used for all department of transportation one hundred percent federal and local reimbursable transportation expenditures. This new account is nonbudgeted and nonappropriated. At the same time, federal and private local appropriations and full-time equivalents in subprograms R2, R3, T6, Y6, and Z2 processed through this new account are removed from the department of transportation's 1997-99 budget.

The department of transportation may make expenditures from the account before receiving federal and local reimbursements. However, at the end of each biennium, the account must maintain a zero or positive cash balance. In the twenty-fourth month of each biennium the department of transportation shall calculate and transfer sufficient cash from either the motor vehicle fund or the multimodal transportation account to cover any negative cash balances. The amount transferred is calculated based on expenditures from each fund. In addition, any interest charges accruing to the new account must be distributed to the motor vehicle fund and the multimodal transportation account.

The department of transportation shall provide an annual report to the senate and house transportation committees and the office of financial management on expenditures and full-time equivalents processed through the new account. The report must also include recommendations for process

changes, if needed. [2005 c 319 § 122; 2001 2nd sp.s. c 14 § 601; 1997 c 94 § 1.]

Severability—2001 2nd sp.s. c 14: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2001 2nd sp.s. c 14 § 612.]

Effective date—2001 2nd sp.s. c 14: "Except for section 608 of this act, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [June 26, 2001]." (2) Moneys from the account may be used only for the costs of:

(a) Miscellaneous transportation services provided by the department that are reimbursed by other public and private entities;

(b) Local transportation projects for which the department is a conduit for federal reimbursement to a municipal corporation or political subdivision; or

(c) Other reimbursable activities as recommended by the senate and house transportation committees and approved by the office of financial management.

(3) Moneys received as reimbursement for expenditures under subsection (2) of this section must be deposited into the account.

(4) No appropriation is required for expenditures from this account. This fund is not subject to allotment procedures provided under chapter 43.88 RCW.

(5) Only the secretary of transportation or the secretary's designee may authorize expenditures from the account.

(6) It is the intent of the legislature that this account maintain a zero or positive cash balance at the end of each biennium. Toward this purpose the department may make expenditures from the account before receiving reimbursements under subsection (2) of this section. Before the end of the biennium, the department shall transfer sufficient cash to cover any negative cash balances from the motor vehicle fund and the multimodal transportation account to the miscellaneous transportation programs account for unrecovered reimbursements. The department shall calculate the distribution of this transfer based on expenditures. In the ensuing biennium the department shall transfer the reimbursements received in the miscellaneous transportation programs account back to the motor vehicle fund and the multimodal transportation account to the extent of the cash transferred at biennium end. The department shall also distribute any interest charges accruing to the miscellaneous transportation programs account to the motor vehicle fund and the multimodal transportation account. Adjustments for any indirect cost recoveries may also be made at this time.

(7) The department shall provide an annual report to the senate and house transportation committees and the office of

financial management on the expenditures and full-time equivalents processed through the miscellaneous transportation programs account. The report must also include recommendations for changes to the process, if needed. [2005 c 319 § 123; 2001 2nd sp.s. c 14 § 602; 1997 c 94 § 2.]

(2) Any mining excavation must meet the requirements of the Shoreline Management Act of 1971 as identified in chapter 90.58 RCW;

(3) Both the LT-1 and Cook Ferry Road Site must be preserved as a long-term dredging facility;

This information may not be used to track or monitor individual use of the public transportation facilities or service, except for billing purposes and to provide statistical compilations and reports that do not identify an individual. [1999 c 215 § 2.]

Public records: Chapter 42.56 RCW.

47.04.250 Assaults by motorists on department employees. (1) For the purposes of this section only, "assault" means an act by a motorist that results in physical injury to an employee of the department while engaged in highway construction or maintenance activities along a roadway right-of-way (fence line to fence line, landscaped areas) or in the loading and unloading of passenger vehicles in service of the vessel as a maritime employee not covered under chapter 51.32 RCW or engaged in those work activities as a Washington State Ferries terminal employee covered under chapter 51.32 RCW.

(2) In recognition of the nature of employment in departmental highway construction or maintenance activities and by the Washington State Ferries, this section provides a supplementary program to reimburse employees of the department for some of their costs attributable to their being the victims of assault by motorists. This program is limited to the reimbursement provided in this section.

(3) An employee is entitled to receive the reimbursement provided in this section only if the secretary finds that each of the following has occurred:

(a) A motorist has assaulted the employee who is engaged in highway construction or maintenance along a roadway right-of-way (fence line to fence line, landscaped areas) or service of the vessel as a maritime employee or terminal employee engaged in the loading or unloading of passenger vehicles and as a result the employee has sustained demonstrated physical injuries that have required the employee to miss one or more days of work;

(b) The assault is not attributable to any extent to the employee's negligence, misconduct, or failure to comply with any rules or conditions of employment; and

(c) The department of labor and industries has approved the employee's workers' compensation application under chapter 51.32 RCW, or for maritime employees the department of transportation risk management office has approved maintenance and cure benefits under 46 U.S.C. Sec. 688 et seq.

(4) The reimbursement authorized under this section is as follows:

(a) The employee's accumulated sick leave days will not be reduced for the workdays missed. The injured worker who qualifies for and receives assault benefits will also receive

full standard benefits (vacation leave, sick leave, health insurance, etc.) as if uninjured;

(b) For an employee covered by chapter 51.32 RCW, for each workday missed for which the employee is not eligible to receive compensation under chapter 51.32 RCW, the employee will receive the full amount of the injured worker's net pay at the time of injury; and

(c) In respect to workdays missed for which the employee will receive or has received compensation under chapter 51.32 RCW, or under federal maritime law benefits, including the Jones Act, for an employee deemed a maritime employee assigned to work in service of the vessel or a non-maritime terminal employee covered under chapter 51.32 RCW, the employee will be reimbursed in an amount that, when added to that compensation, will result in the employee receiving no more than full net pay (gross pay less mandatory and voluntary deductions) for the workdays missed.

(5) Reimbursement under this section may not last longer than three hundred sixty-five consecutive days after the date of the injury. No application for assault benefits is valid nor may a claim be enforced unless it was made within one year after the day upon which the injury occurred.

(6) The employee is not entitled to the reimbursement provided in subsection (4) of this section for a workday for which the secretary or an applicable designee finds that the employee has not diligently pursued his or her compensation remedies under chapter 51.32 RCW or federal maritime law, including the Jones Act.

(7) The reimbursement may be made only for absences that the secretary or an applicable designee believes are justified.

(8) While the employee is receiving reimbursement under this section, he or she will continue to be classified as a state employee, and the reimbursement amount is considered as salary or wages.

(9) The department shall make all reimbursement payments required to be made to employees under this section. The payments are considered as a salary or wage expense and must be paid by the department in the same manner and from the same appropriations as other salary and wage expenses for the department.

(10) Nothing in this section precludes the department from recovering the supplemental payments authorized by this section from the assaulting motorist, and that recovery is considered exclusive of recovery under chapter 51.24 RCW.

(11) If the legislature revokes the reimbursement authorized under this section or repeals this section, no affected employee is entitled after that to receive the reimbursement as a matter of contractual right. [2002 c 355 § 1.]

47.04.260 Latecomer fees. The department of transportation may impose and collect latecomer fees on behalf of another entity for infrastructure improvement projects initially funded partially or entirely by private sources. However, there must be an agreement in place between the department of transportation and the entity, before the imposition and collection of any such fees, that specifies (1) the collection process, (2) the maximum amount that may be collected, and (3) the period of time during which the collection may occur. [2005 c 317 § 30.]

47.04.270 Tire chain installation and removal. The department may issue written permits authorizing permittees to install or remove tire chains on motor vehicles with the following conditions:

(1) Chains may only be installed or removed at locations designated in the permit;

(2) Permittees must comply with terms and conditions in the permit relating to the safe and orderly movement of traffic; and

(3) Permittees may charge a fee to drivers for their services.

The department may issue sufficient permits for the installation or removal of tire chains that it finds necessary or desirable to accommodate the demand for those services consistent with the maximum convenience and safety to traffic. In issuing the permits, the department shall insure that the maximum practicable number of different individuals and entities receive permits, and that no one entity, to the extent practicable, is the sole permit holder for a particular location. The department may charge a fee no greater than fifty dollars to permittees for the issuance of permits. The department, in issuing a permit for the installation or removal of tire chains, assumes no responsibility for the actions, inactions, competence, or reliability of the permittee in performing those services and shall not be liable for the damages relating to acts or omissions of the permittees. The department shall adopt rules to implement this section, including requiring permittees to wear reflective clothing and use appropriate signage. [2006 c 324 § 1.]

47.04.280 Transportation system policy goals. (1) It is the intent of the legislature to establish policy goals for the planning, operation, performance of, and investment in, the state's transportation system. The policy goals established under this section are deemed consistent with the benchmark categories adopted by the state's blue ribbon commission on transportation on November 30, 2000. Public investments in transportation should support achievement of these policy goals:

(a) Preservation: To maintain, preserve, and extend the life and utility of prior investments in transportation systems and services;

(b) Safety: To provide for and improve the safety and security of transportation customers and the transportation system;

(c) Mobility: To improve the predictable movement of goods and people throughout Washington state;

(d) Environment: To enhance Washington's quality of life through transportation investments that promote energy conservation, enhance healthy communities, and protect the environment; and

(e) Stewardship: To continuously improve the quality, effectiveness, and efficiency of the transportation system.

(2) The powers, duties, and functions of state transportation agencies must be performed in a manner consistent with the policy goals set forth in subsection (1) of this section.

(3) These policy goals are intended to be the basis for establishing detailed and measurable objectives and related performance measures.

(4) It is the intent of the legislature that the office of financial management establish objectives and performance

measures for the department of transportation and other state agencies with transportation-related responsibilities to ensure transportation system performance at local, regional, and state government levels progresses toward the attainment of the policy goals set forth in subsection (1) of this section. The office of financial management shall submit initial objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during the 2008 legislative session. The office of financial management shall submit objectives and performance measures to the legislature for its review and shall provide copies of the same to the commission during each regular session of the legislature during an even-numbered year thereafter.

(5) This section does not create a private right of action. [2007 c 516 § 3; 2002 c 5 § 101. Formerly RCW 47.01.012.]

Findings—Intent—2007 c 516: See note following RCW 47.01.011.

Captions not law—2002 c 5: "Captions and part headings used in this act are not part of the law." [2002 c 5 § 419.]

Severability—2002 c 5: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2002 c 5 § 420.]

47.04.290 Park and ride lot accommodation. (1) Any local transit agency that has received state funding for a park and ride lot shall make reasonable accommodation for use of that lot by auto transportation companies regulated under chapter 81.68 RCW and private, nonprofit transportation providers regulated under chapter 81.66 RCW, that intend to provide or already provide regularly scheduled service at that lot. The accommodation must be in the form of an agreement between the applicable local transit agency and private transit provider regulated under chapter 81.68 or 81.66 RCW. The transit agency may require that the agreement include provisions to recover costs and fair market value for the use of the lot and its related facilities and to provide adequate insurance and indemnification of the transit agency, and other reasonable provisions to ensure that the private transit provider's use does not unduly burden the transit agency. No accommodation is required, and any agreement may be terminated, if the park and ride lot is at or exceeds ninety percent capacity.

(2) A local transit agency described under subsection (1) of this section may enter into a cooperative agreement with a taxicab company regulated under chapter 81.72 RCW in order to accommodate the taxicab company at the agency's park and ride lot, provided the taxicab company must agree to provide service with reasonable availability, subject to schedule coordination provisions as agreed to by the parties. 47.05.010 Declaration of purpose. The legislature finds that solutions to state highway deficiencies have become increasingly complex and diverse and that anticipated transportation revenues will fall substantially short of the amount required to satisfy all transportation needs. Difficult investment trade-offs will be required.

It is the intent of the legislature that investment of state transportation funds to address deficiencies on the state highway system be based on a policy of priority programming having as its basis the rational selection of projects and services according to factual need and an evaluation of life cycle costs and benefits that are systematically scheduled to carry out defined objectives within available revenue. The state must develop analytic tools to use a common methodology to measure benefits and costs for all modes.

The priority programming system must ensure preservation of the existing state highway system, relieve congestion, provide mobility for people and goods, support the state's economy, and promote environmental protection and energy conservation.

The priority programming system must implement the state-owned highway component of the statewide transportation plan, consistent with local and regional transportation plans, by targeting state transportation investment to appropriate multimodal solutions that address identified state highway system deficiencies.

The priority programming system for improvements must incorporate a broad range of solutions that are identified in the statewide transportation plan as appropriate to address state highway system deficiencies, including but not limited to highway expansion, efficiency improvements, nonmotorized transportation facilities, high occupancy vehicle facilities, transit facilities and services, rail facilities and services, and transportation demand management programs. 47.05.021 Functional classification of highways. (1)

The department shall conduct periodic analyses of the entire state highway system and report to the office of financial management and the chairs of the transportation committees of the senate and house of representatives, any subsequent recommendations to subdivide, classify, and subclassify all designated state highways into the following three functional classes:

(a) The "principal arterial system" shall consist of a connected network of rural arterial routes with appropriate extensions into and through urban areas, including all routes designated as part of the interstate system, which serve corridor movements having travel characteristics indicative of substantial statewide and interstate travel;

(b) The "minor arterial system" shall, in conjunction with the principal arterial system, form a rural network of arterial routes linking cities and other activity centers which

(2008 Ed.)

generate long distance travel, and, with appropriate extensions into and through urban areas, form an integrated network providing interstate and interregional service; and

(c) The "collector system" shall consist of routes which primarily serve the more important intercounty, intracounty, and intraurban travel corridors, collect traffic from the system of local access roads and convey it to the arterial system, and on which, regardless of traffic volume, the predominant travel distances are shorter than on arterial routes.

(2) The department shall adopt a functional classification of highways. The department shall consider comments from the public and local municipalities. The department shall give consideration to criteria consistent with this section and federal regulations relating to the functional classification of highways, including but not limited to the following:

(a) Urban population centers within and without the state stratified and ranked according to size;

(b) Important traffic generating economic activities, including but not limited to recreation, agriculture, government, business, and industry;

(c) Feasibility of the route, including availability of alternate routes within and without the state;

(d) Directness of travel and distance between points of economic importance;

(e) Length of trips;

(f) Character and volume of traffic;

(g) Preferential consideration for multiple service which shall include public transportation;

(h) Reasonable spacing depending upon population density; and

(i) System continuity.

(3) The department or the legislature shall designate state highways of statewide significance under RCW 47.06.140. If the department designates a state highway of statewide significance, it shall submit a list of such facilities for adoption by the legislature. This statewide system shall include at a minimum interstate highways and other statewide principal arterials that are needed to connect major communities across the state and support the state's economy.

(4) The department shall designate a freight and goods transportation system. This statewide system shall include state highways, county roads, and city streets. The department, in cooperation with cities and counties, shall review and make recommendations to the legislature regarding policies governing weight restrictions and road closures which affect the transportation of freight and goods. 47.05.025 Highways of regional significance. Highways of regional significance may receive funding under the conditions of RCW 36.120.020(8)(c). The following highways are of regional significance:

(1) That portion of state route number 9 that runs from state route number 522 in the south to state route number 531 in the north;

(2) That portion of state route number 524 that runs from state route number 5 easterly to state route number 522;

47.05.030 Ten-year programs—Investments, improvements, preservation. (1) The office of financial management shall propose a comprehensive ten-year investment program for the preservation and improvement programs defined in this section, consistent with the policy goals described under RCW 47.04.280. The proposed ten-year investment program must be forwarded as a recommendation by the office of financial management to the legislature, and must be based upon the needs identified in the statewide transportation plan established under RCW 47.01.071(4).

(2) The preservation program consists of those investments necessary to preserve the existing state highway system and to restore existing safety features, giving consideration to lowest life cycle costing.

(3) The improvement program consists of investments needed to address identified deficiencies on the state highway system to meet the goals established in RCW 47.04.280. 47.05.035 Demand modeling tools. (1) The department shall use the transportation demand modeling tools developed under subsection (2) of this section to evaluate investments based on the best mode or improvement, or mix

of modes and improvements, to meet current and future long-term demand within a corridor or system for the lowest cost. The end result of these demand modeling tools is to provide a cost-benefit analysis by which the department can determine the relative mobility improvement and congestion relief each mode or improvement under consideration will provide and the relative investment each mode or improvement under consideration will need to achieve that relief.

(2) The department will participate in the refinement, enhancement, and application of existing transportation demand modeling tools to be used to evaluate investments. This participation and use of transportation demand modeling tools will be phased in. Environmental review of transportation projects: RCW 47.01.290.

47.06.010 Findings. The legislature recognizes that the ownership and operation of Washington's transportation system is spread among federal, state, and local government agencies, regional transit agencies, port districts, and the private sector. The legislature also recognizes that transportation planning authority is shared on the local, regional, and state levels, and that this planning must be a comprehensive and coordinated effort. While significant authority for transportation planning is vested with local agencies and regional transportation planning organizations under the growth man-

agement act, the legislature recognizes that certain transportation issues and facilities cross local and regional boundaries and are vital to the statewide economy and the cross-state mobility of people and goods. Therefore, the state has an appropriate role in developing statewide transportation plans that address state jurisdiction facilities and services as well as transportation facilities and services of state interest. These plans shall serve as a guide for short-term investment needs and provide a long-range vision for transportation system development. [1993 c 446 § 1.]

47.06.020 Role of department. The specific role of the department in transportation planning must be, consistent with the policy goals described under RCW 47.04.280: (1) Ongoing coordination and development of statewide transportation policies that guide all Washington transportation providers; (2) ongoing development of a statewide multimodal transportation plan that includes both state-owned and state-interest facilities and services; (3) coordinating the state high capacity transportation planning and regional transportation planning programs; (4) conducting special transportation planning studies that impact state transportation facilities or relate to transportation facilities and services of statewide significance; and (5) assisting the transportation commission in the development of the statewide transportation plan required under RCW 47.01.071(4). Specific requirements for each of these state transportation planning components are described in this chapter. [2007 c 516 § 9; 1993 c 446 § 2.]

Findings—Intent—2007 c 516: See note following RCW 47.01.011.

47.06.040 Statewide multimodal transportation plan. The department shall develop a statewide multimodal transportation plan under *RCW 47.01.071(3) and in conformance with federal requirements, to ensure the continued mobility of people and goods within regions and across the state in a safe, cost-effective manner. The statewide multimodal transportation plan shall consist of:

(1) A state-owned facilities component, which shall guide state investment for state highways including bicycle and pedestrian facilities, and state ferries; and

(2) A state-interest component, which shall define the state interest in aviation, marine ports and navigation, freight rail, intercity passenger rail, bicycle transportation and pedestrian walkways, and public transportation, and recommend actions in coordination with appropriate public and private transportation providers to ensure that the state interest in these transportation modes is met.

The plans developed under each component must be consistent with the state transportation policy plan and with each other, reflect public involvement, be consistent with regional transportation planning, high capacity transportation planning, and local comprehensive plans prepared under chapter 36.70A RCW, and include analysis of intermodal connections and choices. A primary emphasis for these plans shall be the relief of congestion, the preservation of existing investments and downtowns, ability to attract or accommodate planned population, and employment growth, the improvement of traveler safety, the efficient movement of freight and goods, and the improvement and integration of all

(2008 Ed.)

transportation modes to create a seamless intermodal transportation system for people and goods.

In the development of the statewide multimodal transportation plan, the department shall identify and document potential affected environmental resources, including, but not limited to, wetlands, storm water runoff, flooding, air quality, fish passage, and wildlife habitat. The department shall conduct its environmental identification and documentation in coordination with all relevant environmental regulatory authorities, including, but not limited to, local governments. The department shall give the relevant environmental regulatory authorities an opportunity to review the department's environmental plans. The relevant environmental regulatory authorities shall provide comments on the department's environmental plans in a timely manner. Environmental identification and documentation as provided for in RCW 47.01.300 and this section is not intended to create a private right of action or require an environmental impact statement as provided in chapter 43.21C RCW. [2002 c 189 § 4; 1998 c 199 § 1; 1994 c 258 § 5; 1993 c 446 § 4.]

***Reviser's note:** RCW 47.01.071 was amended by 2005 c 319 § 5, changing subsection (3) to subsection (4).

Captions not law—1994 c 258: See note following RCW 36.70A.420.

47.06.043 Technical workers—Skill enhancement. The state interest component of the statewide multimodal transportation plan must include a plan for enhancing the skills of the existing technical transportation workforce. [2003 c 363 § 204.]

Findings—Intent—2003 c 363 §§ 201-206: See note following RCW 49.04.041.

Part headings not law—Severability—2003 c 363: See notes following RCW 47.28.241.

47.06.045 Freight mobility plan. The state-interest component of the statewide multimodal transportation plan shall include a freight mobility plan which shall assess the transportation needs to ensure the safe, reliable, and efficient movement of goods within and through the state and to ensure the state's economic vitality. [1998 c 175 § 10.]

Severability—1998 c 175: See RCW 47.06A.900.

47.06.050 State-owned facilities component. The state-owned facilities component of the statewide multimodal transportation plan shall consist of:

(1) The state highway system plan, which identifies program and financing needs and recommends specific and financially realistic improvements to preserve the structural integrity of the state highway system, ensure acceptable operating conditions, and provide for enhanced access to scenic, recreational, and cultural resources. The state highway system plan shall contain the following elements:

(a) A system preservation element, which shall establish structural preservation objectives for the state highway system including bridges, identify current and future structural deficiencies based upon analysis of current conditions and projected future deterioration, and recommend program funding levels and specific actions necessary to preserve the structural integrity of the state highway system consistent with adopted objectives. Lowest life cycle cost methodologies must be used in developing a pavement management

system. This element shall serve as the basis for the preservation component of the six-year highway program and the two-year biennial budget request to the legislature;

(b) A highway maintenance element, establishing service levels for highway maintenance on state-owned highways. The highway maintenance element must include an estimate of costs for achieving those service levels over twenty years. This element will serve as the basis for the maintenance component of the six-year highway program and the two-year biennial budget request to the legislature;

(c) A capacity and operational improvement element, which shall establish operational objectives, including safety considerations, for moving people and goods on the state highway system, identify current and future capacity, operational, and safety deficiencies, and recommend program funding levels and specific improvements and strategies necessary to achieve the operational objectives. In developing capacity and operational improvement plans the department shall first assess strategies to enhance the operational efficiency of the existing system before recommending system expansion. Strategies to enhance the operational efficiencies include but are not limited to access management, transportation system management, demand management, and high occupancy vehicle facilities. The capacity and operational improvement element must conform to the state implementation plan for air quality and be consistent with regional transportation plans adopted under chapter 47.80 RCW, and shall serve as the basis for the capacity and operational improvement portions of the six-year highway program and the two-year biennial budget request to the legislature;

(d) A scenic and recreational highways element, which shall identify and recommend designation of scenic and recreational highways, provide for enhanced access to scenic, recreational, and cultural resources associated with designated routes, and recommend a variety of management strategies to protect, preserve, and enhance these resources. The department, affected counties, cities, and towns, regional transportation planning organizations, and other state or federal agencies shall jointly develop this element;

(e) A paths and trails element, which shall identify the needs of nonmotorized transportation modes on the state transportation systems and provide the basis for the investment of state transportation funds in paths and trails, including funding provided under chapter 47.30 RCW.

(2) The state ferry system plan, which shall guide capital and operating investments in the state ferry system. The plan shall establish service objectives for state ferry routes, forecast travel demand for the various markets served in the system, develop strategies for ferry system investment that consider regional and statewide vehicle and passenger needs, support local land use plans, and assure that ferry services are fully integrated with other transportation services. The plan must provide for maintenance of capital assets. The plan must also provide for preservation of capital assets based on lowest life cycle cost methodologies. The plan shall assess the role of private ferries operating under the authority of the utilities and transportation commission and shall coordinate ferry system capital and operational plans with these private operations. The ferry system plan must be consistent with the regional transportation plans for areas served by the state ferry system, and shall be developed in conjunction with the

ferry advisory committees. [2007 c 516 § 10; 2002 c 5 § 413; 1993 c 446 § 5.]

Findings—Intent—2007 c 516: See note following RCW 47.01.011.

Finding—Intent—2002 c 5: "The legislature finds that roads, streets, bridges, and highways in the state represent public assets worth over one hundred billion dollars. These investments require regular maintenance and preservation, or rehabilitation, to provide cost-effective transportation services. Many of these facilities are in poor condition. Given the magnitude of public investment and the importance of safe, reliable roadways to the motoring public, the legislature intends to create stronger accountability to ensure that cost-effective maintenance and preservation is provided for these transportation facilities." [2002 c 5 § 408.]

Captions not law—Severability—2002 c 5: See notes following RCW 47.04.280.

47.06.060 Aviation plan. The state-interest component of the statewide multimodal transportation plan shall include an aviation plan, which shall fulfill the statewide aviation planning requirements of the federal government, coordinate statewide aviation planning, and identify the program needs for public use and state airports. [1993 c 446 § 6.]

47.06.070 Marine ports and navigation plan. The state-interest component of the statewide multimodal transportation plan shall include a state marine ports and navigation plan, which shall assess the transportation needs of Washington's marine ports, including navigation, and identify transportation system improvements needed to support the international trade and economic development role of Washington's marine ports. [1993 c 446 § 7.]

47.06.080 Freight rail plan. The state-interest component of the statewide multimodal transportation plan shall include a state freight rail plan, which shall fulfill the statewide freight rail planning requirements of the federal government, identify freight rail mainline issues, identify light-density freight rail lines threatened with abandonment, establish criteria for determining the importance of preserving the service or line, and recommend priorities for the use of state rail assistance and state rail banking program funds, as well as other available sources of funds. The plan shall also identify existing intercity rail rights-of-way that should be preserved for future transportation use. [1993 c 446 § 8.]

47.06.090 Intercity passenger rail plan. The state-interest component of the statewide multimodal transportation plan shall include an intercity passenger rail plan, which shall analyze existing intercity passenger rail service and recommend improvements to that service under the state passenger rail service program including depot improvements, potential service extensions, and ways to achieve higher train speeds.

For purposes of maintaining and preserving any state-owned component of the state's passenger rail program, the statewide multimodal transportation plan must identify all such assets and provide a preservation plan based on lowest life cycle cost methodologies. [2002 c 5 § 414; 1993 c 446 § 9.]

Finding—Intent—2002 c 5: See note following RCW 47.06.050.

Captions not law—Severability—2002 c 5: See notes following RCW 47.04.280.

47.06.100 Bicycle transportation and pedestrian walkways plan. The state-interest component of the statewide multimodal transportation plan shall include a bicycle transportation and pedestrian walkways plan, which shall propose a statewide strategy for addressing bicycle and pedestrian transportation, including the integration of bicycle and pedestrian pathways with other transportation modes; the coordination between local governments, regional agencies, and the state in the provision of such facilities; the role of such facilities in reducing traffic congestion; and an assessment of statewide bicycle and pedestrian transportation needs. This plan shall satisfy the federal requirement for a long-range bicycle transportation and pedestrian walkways plan. [1993 c 446 § 10.]

47.06.110 Public transportation plan. The state-interest component of the statewide multimodal transportation plan shall include a state public transportation plan that:

- (1) Articulates the state vision of an interest in public transportation and provides quantifiable objectives, including benefits indicators;
- (2) Identifies the goals for public transit and the roles of federal, state, regional, and local entities in achieving those goals;
- (3) Recommends mechanisms for coordinating state, regional, and local planning for public transportation;
- (4) Recommends mechanisms for coordinating public transportation with other transportation services and modes;
- (5) Recommends criteria, consistent with the goals identified in subsection (2) of this section and with RCW 82.44.180 (2) and (3), for existing federal authorizations administered by the department to transit agencies; and
- (6) Recommends a statewide public transportation facilities and equipment management system as required by federal law.

In developing the state public transportation plan, the department shall involve local jurisdictions, public and private providers of transportation services, nonmotorized interests, and state agencies with an interest in public transportation, including but not limited to the departments of community, trade, and economic development, social and health services, and ecology, the office of the superintendent of public instruction, the office of the governor, and the office of financial management.

The department shall submit to the senate and house transportation committees by December 1st of each year, reports summarizing the plan's progress. [2005 c 319 § 124; 1996 c 186 § 512; 1995 c 399 § 120; 1993 c 446 § 11.]

Environmental review of transportation projects: RCW 47.01.290.

47.06.120 High capacity transportation planning and regional transportation planning—Role of department. The department's role in high capacity transportation planning and regional transportation planning is to administer state planning grants for these purposes, represent the interests of the state in these regional planning processes, and coordinate other department planning with these regional (2008 Ed.)

efforts, including those under RCW 81.104.060. [1993 c 446 § 12.]

47.06.130 Special planning studies—Cost-benefit analysis. (1) The department may carry out special transportation planning studies to resolve specific issues with the development of the state transportation system or other statewide transportation issues.

(2) The department shall conduct multimodal corridor analyses on major congested corridors where needed improvements are likely to cost in excess of one hundred million dollars. Analysis will include the cost-effectiveness of all feasible strategies in addressing congestion or improving mobility within the corridor, and must recommend the most effective strategy or mix of strategies to address identified deficiencies. A long-term view of corridors must be employed to determine whether an existing corridor should be expanded, a city or county road should become a state route, and whether a new corridor is needed to alleviate congestion and enhance mobility based on travel demand. To the extent practicable, full costs of all strategies must be reflected in the analysis. At a minimum, this analysis must include:

- (a) The current and projected future demand for total person trips on that corridor;
- (b) The impact of making no improvements to that corridor;
- (c) The daily cost per added person served for each mode or improvement proposed to meet demand;
- (d) The cost per hour of travel time saved per day for each mode or improvement proposed to meet demand; and
- (e) How much of the current and anticipated future demand will be met and left unmet for each mode or improvement proposed to meet demand.

The end result of this analysis will be to provide a cost-benefit analysis by which policymakers can determine the most cost-effective improvement or mode, or mix of improvements and modes, for increasing mobility and reducing congestion. [2002 c 5 § 404; 1993 c 446 § 13.]

Effective date—2002 c 5 §§ 401-404: See note following RCW 47.05.010.

Captions not law—Severability—2002 c 5: See notes following RCW 47.04.280.

47.06.140 Transportation facilities and services of statewide significance—Level of service standards. (1) The legislature declares the following transportation facilities and services to be of statewide significance: Highways of statewide significance as designated by the legislature under chapter 47.05 RCW, the interstate highway system, interregional state principal arterials including ferry connections that serve statewide travel, intercity passenger rail services, intercity high-speed ground transportation, major passenger intermodal terminals excluding all airport facilities and services, the freight railroad system, the Columbia/Snake navigable river system, marine port facilities and services that are related solely to marine activities affecting international and interstate trade, and high capacity transportation systems serving regions as defined in RCW 81.104.015. The department, in cooperation with regional transportation planning organizations, counties, cities, transit agencies, public ports, private railroad operators, and private transportation provid-

ers, as appropriate, shall plan for improvements to transportation facilities and services of statewide significance in the statewide multimodal transportation plan. Improvements to facilities and services of statewide significance identified in the statewide multimodal transportation plan, or to highways of statewide significance designated by the legislature under chapter 47.05 RCW, are essential state public facilities under RCW 36.70A.200.

(2) The department of transportation, in consultation with local governments, shall set level of service standards for state highways and state ferry routes of statewide significance. Although the department shall consult with local governments when setting level of service standards, the department retains authority to make final decisions regarding level of service standards for state highways and state ferry routes of statewide significance. In establishing level of service standards for state highways and state ferry routes of statewide significance, the department shall consider the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local communities using these facilities. When setting the level of service standards under this section for state ferry routes, the department may allow for a standard that is adjustable for seasonality. [2007 c 516 § 11; 2007 c 512 § 2; 1998 c 171 § 7.]

Reviser's note: This section was amended by 2007 c 512 § 2 and by 2007 c 516 § 11, each without reference to the other. Both amendments are incorporated in the publication of this section under RCW 1.12.025(2). For rule of construction, see RCW 1.12.025(1).

Findings—Intent—2007 c 516: See note following RCW 47.01.011.

Finding—Intent—2007 c 512: "The legislature finds from the 2006 Washington state ferries financing study that the state has limited information on state ferry users and markets. Accurate user and market information is vital in order to find ways to maximize the ferry systems' current capacity and to make the most efficient use of citizens' tax dollars. Therefore, it is the intent of the legislature that Washington state ferries be given the tools necessary to maximize the utilization of existing capacity and to make the most efficient use of existing assets and tax dollars. Furthermore, it is the intent of the legislature that the department of transportation adopt adaptive management practices in its operating and capital programs so as to keep the costs of the Washington state ferries system as low as possible while continuously improving the quality and timeliness of service." 47.06A.001 Findings. The legislature finds that:

(1) Washington state is uniquely positioned as a gateway to the global economy. As the most trade-dependent state in the nation, per capita, Washington's economy is highly dependent on an efficient multimodal transportation network in order to remain competitive.

(2) The vitality of the state's economy is placed at risk by growing traffic congestion that impedes the safe and efficient movement of goods. The absence of a comprehensive and coordinated state policy that facilitates freight movements to local, national, and international markets limits trade opportunities.

(3) Freight corridors that serve international and domestic interstate and intrastate trade, and those freight corridors that enhance the state's competitive position through regional and global gateways are strategically important. In many instances, movement of freight on these corridors is diminished by: Barriers that block or delay access to intermodal facilities where freight is transferred from one mode of transport to another; conflicts between rail and road traffic; constraints on rail capacity; highway capacity constraints, congestion, and condition; waterway system depths that affect capacity; and institutional, regulatory, and operational barriers.

(4) Rapidly escalating population growth is placing an added burden on streets, roads, and highways that serve as freight corridors. Community benefits from economic activity associated with freight movement often conflict with community concerns over safety, mobility, [and] environmental quality. Efforts to minimize community impacts in areas of high freight movements that encourage the active participation of communities in the early stages of proposed public and private infrastructure investments will facilitate needed freight mobility improvements.

(5) Ownership of the freight mobility network is fragmented and spread across various public jurisdictions, private companies, and state and national borders. Transportation projects have grown in complexity and size, requiring more resources and longer implementation time frames. Currently, there is no comprehensive and integrated framework for planning the freight mobility needs of public and private stakeholders in the freight transportation system. A coordinated planning process should identify new infrastructure investments that are integrated by public and private planning bodies into a multimodal and multijurisdictional network in all areas of the state, urban and rural, east and west. The state should integrate freight mobility goals with state policy on related issues such as economic development, growth management, and environmental management.

(6) State investment in projects that enhance or mitigate freight movements, should pay special attention to solutions that utilize a corridor solution to address freight mobility issues with important transportation and economic impacts beyond any local area. The corridor approach builds partnerships and fosters coordinated planning among jurisdictions and the public and private sectors.

(7) It is the policy of the state of Washington that limited public transportation funding and competition between freight and general mobility improvements for the same fund sources require strategic, prioritized freight investments that reduce barriers to freight movement, maximize cost-effectiveness, yield a return on the state's investment, require

complementary investments by public and private interests, and solve regional freight mobility problems. State financial assistance for freight mobility projects must leverage other funds from all potential partners and sources, including federal, county, city, port district, and private capital. [1998 c 175 § 1.]

47.06A.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Board" means the freight mobility strategic investment board created in RCW 47.06A.030.

(2) "Department" means the department of transportation.

(3) "Freight mobility" means the safe, reliable, and efficient movement of goods within and through the state to ensure the state's economic vitality.

(4) "Local governments" means cities, towns, counties, special purpose districts, port districts, and any other municipal corporations or quasi-municipal corporations in the state excluding school districts.

(5) "Public entity" means a state agency, city, town, county, port district, or municipal or regional planning organization.

(6) "Strategic freight corridor" means a transportation corridor of great economic importance within an integrated freight system that:

(a) Serves international and domestic interstate and intrastate trade;

(b) Enhances the state's competitive position through regional and global gateways;

(c) Carries freight tonnages of at least:

(i) Four million gross tons annually on state highways, city streets, and county roads;

(ii) Five million gross tons annually on railroads; or

(iii) Two and one-half million net tons on waterways; and

(d) Has been designated a strategic corridor by the board under RCW 47.06A.020(3). However, new alignments to, realignments of, and new links to strategic corridors that enhance freight movement may qualify, even though no tonnage data exists for facilities to be built in the future. [1998 c 175 § 2.]

47.06A.020 Board—Duties. (1) The board shall:

(a) Adopt rules and procedures necessary to implement the freight mobility strategic investment program;

(b) Solicit from public entities proposed projects that meet eligibility criteria established in accordance with subsection (4) of this section; and

(c) Review and evaluate project applications based on criteria established under this section, and prioritize and select projects comprising a portfolio to be funded in part with grants from state funds appropriated for the freight mobility strategic investment program. In determining the appropriate level of state funding for a project, the board shall ensure that state funds are allocated to leverage the greatest amount of partnership funding possible. After selecting projects comprising the portfolio, the board shall submit them as part of its budget request to the office of financial manage-

(2008 Ed.)

ment and the legislature. The board shall ensure that projects submitted as part of the portfolio are not more appropriately funded with other federal, state, or local government funding mechanisms or programs. The board shall reject those projects that appear to improve overall general mobility with limited enhancement for freight mobility.

The board shall provide periodic progress reports on its activities to the office of financial management and the senate and house transportation committees.

(2) The board may:

(a) Accept from any state or federal agency, loans or grants for the financing of any transportation project and enter into agreements with any such agency concerning the loans or grants;

(b) Provide technical assistance to project applicants;

(c) Accept any gifts, grants, or loans of funds, property, or financial, or other aid in any form from any other source on any terms and conditions which are not in conflict with this chapter;

(d) Adopt rules under chapter 34.05 RCW as necessary to carry out the purposes of this chapter; and

(e) Do all things necessary or convenient to carry out the powers expressly granted or implied under this chapter.

(3) The board shall designate strategic freight corridors within the state. The board shall update the list of designated strategic corridors not less than every two years, and shall establish a method of collecting and verifying data, including information on city and county-owned roadways.

(4) The board shall utilize threshold project eligibility criteria that, at a minimum, includes the following:

(a) The project must be on a strategic freight corridor;

(b) The project must meet one of the following conditions:

(i) It is primarily aimed at reducing identified barriers to freight movement with only incidental benefits to general or personal mobility; or

(ii) It is primarily aimed at increasing capacity for the movement of freight with only incidental benefits to general or personal mobility; or

(iii) It is primarily aimed at mitigating the impact on communities of increasing freight movement, including roadway/railway conflicts; and

(c) The project must have a total public benefit/total public cost ratio of equal to or greater than one.

(5) From June 11, 1998, through the biennium ending June 30, 2001, the board shall use the multicriteria analysis and scoring framework for evaluating and ranking eligible freight mobility and freight mitigation projects developed by the freight mobility project prioritization committee and contained in the January 16, 1998, report entitled "Project Eligibility, Priority and Selection Process for a Strategic Freight Investment Program." The prioritization process shall measure the degree to which projects address important program objectives and shall generate a project score that reflects a project's priority compared to other projects. The board shall assign scoring points to each criterion that indicate the relative importance of the criterion in the overall determination of project priority. After June 30, 2001, the board may supplement and refine the initial project priority criteria and scoring framework developed by the freight mobility project

prioritization committee as expertise and experience is gained in administering the freight mobility program.

(6) It is the intent of the legislature that each freight mobility project contained in the project portfolio submitted by the board utilize the greatest amount of nonstate funding possible. The board shall adopt rules that give preference to projects that contain the greatest levels of financial participation from nonprogram fund sources. The board shall consider twenty percent as the minimum partnership contribution, but shall also ensure that there are provisions allowing exceptions for projects that are located in areas where minimal local funding capacity exists or where the magnitude of the project makes the adopted partnership contribution financially unfeasible.

(7) The board shall develop and recommend policies that address operational improvements that primarily benefit and enhance freight movement, including, but not limited to, policies that reduce congestion in truck lanes at border crossings and weigh stations and provide for access to ports during nonpeak hours. [2005 c 319 § 125; 1999 c 216 § 1; 1998 c 175 § 3.]

Findings—Intent—Part headings—Effective dates—2005 c 319: See notes following RCW 43.17.020.

47.06A.030 Board—Creation—Membership. (1) The freight mobility strategic investment board is created. The board shall convene by July 1, 1998.

(2) The board is composed of twelve members. The following members are appointed by the governor for terms of four years, except that five members initially are appointed for terms of two years: (a) Two members, one of whom is from a city located within or along a strategic freight corridor, appointed from a list of at least four persons nominated by the association of Washington cities or its successor; (b) two members, one of whom is from a county having a strategic freight corridor within its boundaries, appointed from a list of at least four persons nominated by the Washington state association of counties or its successor; (c) two members, one of whom is from a port district located within or along a strategic freight corridor, appointed from a list of at least four persons nominated by the Washington public ports association or its successor; (d) one member representing the office of financial management; (e) one member appointed as a representative of the trucking industry; (f) one member appointed as a representative of the railroads; (g) the secretary of the department of transportation; (h) one member representing the steamship industry; and (i) one member of the general public. In appointing the general public member, the governor shall endeavor to appoint a member with special expertise in relevant fields such as public finance, freight transportation, or public works construction. The governor shall appoint the general public member as chair of the board. In making appointments to the board, the governor shall ensure that each geographic region of the state is represented.

(3) Members of the board shall be reimbursed for reasonable and customary travel expenses as provided in RCW 43.03.050 and 43.03.060.

(4) If a vacancy on the board occurs by death, resignation, or otherwise, the governor shall fill the vacant position for the unexpired term. Each vacancy in a position appointed from lists provided by the associations and departments

under subsection (2) of this section must be filled from a list of at least four persons nominated by the relevant association or associations.

(5) The appointments made in subsection (2) of this section are not subject to confirmation. [1999 c 216 § 2; 1998 c 175 § 4.]

47.06A.040 Board—Administration and staffing. The board, at its option, may either appoint an executive director, who shall serve at its pleasure and whose salary shall be set by the board or make provisions ensuring the responsibilities of the executive director are carried out by an existing transportation-related state agency or by private contract. Staff support to the board shall be provided by the department of transportation, the transportation improvement board, and the county road administration board, or their successor agencies. [1999 c 216 § 3; 1998 c 175 § 5.]

47.06A.050 Allocation of funds. (1) For the purpose of allocating funds for the freight mobility strategic investment program, the board shall allocate the first fifty-five percent of funds to the highest priority projects, without regard to location.

(2) The remaining funds shall be allocated equally among three regions of the state, defined as follows:

(a) The Puget Sound region includes King, Pierce, and Snohomish counties;

(b) The western Washington region includes Clallam, Jefferson, Island, Kitsap, San Juan, Skagit, Whatcom, Clark, Cowlitz, Grays Harbor, Lewis, Mason, Pacific, Skamania, Thurston, and Wahkiakum counties; and

(c) The eastern Washington region includes Adams, Chelan, Douglas, Ferry, Grant, Lincoln, Okanogan, Pend Oreille, Spokane, Stevens, Whitman, Asotin, Benton, Columbia, Franklin, Garfield, Kittitas, Klickitat, Walla Walla, and Yakima counties.

(3) If a region does not have enough qualifying projects to utilize its allocation of funds, the funds will be made available to the next highest priority project, without regard to location.

(4) In the event that a proposal contains projects in more than one region, for purposes of assuring that equitable geographic distributions are made under subsection (2) of this section, the board shall evaluate the proposal and proportionally assign the benefits that are attributable to each region.

(5) If the board identifies a project for funding, but later determines that the project is not ready to proceed at the time the legislature's funding decision is pending, the board shall recommend removing the project from consideration and the next highest priority project shall be substituted in the project portfolio. Any project removed from funding consideration because it is not ready to proceed shall retain its position on the priority project list and is eligible to be recommended for funding in the next project portfolio submitted by the board. [1998 c 175 § 6.]

47.06A.060 Grants and loans. In order to aid the financing of eligible freight mobility projects, the board may:

(1) Make grants or loans from funds appropriated for the freight mobility strategic investment program for the purpose

of financing freight mobility projects. The board may require terms and conditions as it deems necessary or convenient to carry out the purposes of this chapter.

(2) The state shall not bear the financial burden for project costs unrelated to the movement of freight. Project amenities unrelated to the movement of freight may not be submitted to the board as part of a project proposal under the freight mobility strategic investment program.

(3) All freight mobility projects aided in whole or in part under this chapter must have a public entity designated as the lead project proponent. [1998 c 175 § 7.]

47.06A.070 Records. The board shall keep proper records and shall be subject to audit by the state auditor. [1998 c 175 § 8.]

47.06A.080 Port district development plans. Port districts in the state shall submit their development plans to the relevant regional transportation planning organization or metropolitan planning organization, the department, and affected cities and counties to better coordinate the development and funding of freight mobility projects. [1998 c 175 § 9.]

47.06A.900 Severability—1998 c 175. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1998 c 175 § 15.]

COORDINATING SPECIAL NEEDS TRANSPORTATION

Sections

47.06B.010 Finding—Intent.
 47.06B.012 Definitions.
 47.06B.020 Agency council on coordinated transportation—Creation, membership, staff, meetings.
 47.06B.030 Council—Duties.
 47.06B.040 Council—Certification of regional transportation planning organization local plans.
 47.06B.050 Council—Progress report.
 47.06B.900 Council—Termination.
 47.06B.901 Repealer.

47.06B.010 Finding—Intent. (Effective until June 30, 2011.) The legislature finds that transportation systems for persons with special needs are not operated as efficiently as possible. In too many cases, programs established by the legislature to assist persons with special needs can not be accessed due to these inefficiencies and coordination barriers.

It is the intent of the legislature that public transportation agencies, pupil transportation programs, private nonprofit transportation providers, and other public agencies sponsoring programs that require transportation services coordinate those transportation services. Through coordination of transportation services, programs will achieve increased efficiencies and will be able to provide more rides to a greater number of persons with special needs. [2007 c 421 § 1; 1999 c 385 § 1; 1998 c 173 § 1.]

47.06B.012 Definitions. (Effective until June 30, 2011.) The definitions in this section apply throughout this chapter.

(1) "Persons with special transportation needs" means those persons, including their personal attendants, who because of physical or mental disability, income status, or age are unable to transport themselves or purchase transportation.

(2) "Special needs coordinated transportation" is transportation for persons with special transportation needs that is developed through a collaborative community process involving transportation providers; human service programs and agencies; consumers; social, educational, and health service providers; employer and business representatives; employees and employee representatives; and other affected parties. [1999 c 385 § 2.]

47.06B.020 Agency council on coordinated transportation—Creation, membership, staff, meetings. (Effective until June 30, 2011.) (1) The agency council on coordinated transportation is created. The council is composed of ten voting members and four nonvoting, legislative members.

(2) The ten voting members are the superintendent of public instruction or a designee, the secretary of transportation or a designee, the secretary of the department of social and health services or a designee, and seven members appointed by the governor as follows:

- (a) One representative from the office of the governor;
- (b) Three persons who are consumers of special needs transportation services, which must include:
 - (i) One person designated by the executive director of the governor's committee on disability issues and employment; and
 - (ii) One person who is designated by the executive director of the developmental disabilities council;

- (c) One representative from the Washington association of pupil transportation;
- (d) One representative from the Washington state transit association; and

- (e) One of the following:
 - (i) A representative from the community transportation association of the Northwest; or
 - (ii) A representative from the community action council association.

(3) The four nonvoting members are legislators as follows:

- (a) Two members from the house of representatives, one from each of the two largest caucuses, appointed by the speaker of the house of representatives, including at least one member from the house transportation policy and budget committee or the house appropriations committee; and
- (b) Two members from the senate, one from each of the two largest caucuses, appointed by the president of the senate, including at least one member from the senate transportation committee or the senate ways and means committee.

(4) Gubernatorial appointees of the council will serve two-year terms. Members may not receive compensation for their service on the council, but will be reimbursed for actual and necessary expenses incurred in performing their duties as members as set forth in RCW 43.03.220.

(5) The secretary of transportation or a designee shall serve as the chair.

(6) The department of transportation shall provide necessary staff support for the council.

(7) The council may receive gifts, grants, or endowments from public or private sources that are made from time to time, in trust or otherwise, for the use and benefit of the purposes of the council and spend gifts, grants, or endowments or income from the public or private sources according to their terms, unless the receipt of the gifts, grants, or endowments violates RCW 42.17.710.

(8) The meetings of the council must be open to the public, with the agenda published in advance, and minutes kept and made available to the public. The public notice of the meetings must indicate that accommodations for persons with disabilities will be made available upon request.

(9) All meetings of the council must be held in locations that are readily accessible to public transportation, and must be scheduled for times when public transportation is available.

(10) The council shall make an effort to include presentations by and work sessions including persons with special transportation needs. [2007 c 421 § 2; 1998 c 173 § 2.]

47.06B.030 Council—Duties. (Effective until June 30, 2011.) (1) To assure implementation of an effective system of coordinated transportation that meets the needs of persons with special transportation needs, the agency council on coordinated transportation shall adopt a biennial work plan that must, at a minimum:

(a) Focus on projects that identify and address barriers in laws, policies, and procedures;

(b) Focus on results; and

(c) Identify and advocate for transportation system improvements for persons with special transportation needs.

(2) The council shall, as necessary, convene work groups at the state, regional, or local level to develop and implement coordinated approaches to special needs transportation.

(3) To improve the service experienced by persons with special transportation needs, the council shall develop statewide guidelines for customer complaint processes so that information about policies regarding the complaint processes is available consistently and consumers are appropriately educated about available options. To be eligible for funding on or after January 1, 2008, organizations applying for state paratransit/special needs grants as described in section 226(1), chapter 370, Laws of 2006 must implement a process following the guidelines established by the council.

(4) The council shall represent the needs and interests of persons with special transportation needs in statewide efforts for emergency and disaster preparedness planning by advising the emergency management council on how to address transportation needs for high-risk individuals during and after disasters. [2007 c 421 § 3. Prior: 1999 c 385 § 5; (1999 c 372 § 13 repealed by 2007 c 421 § 10); 1998 c 173 § 3.]

47.06B.040 Council—Certification of regional transportation planning organization local plans. (Effective until June 30, 2011.) The agency council on coordinated transportation shall review and recommend certification of

local plans developed by regional transportation planning organizations based on meeting federal requirements. Each regional transportation planning organization must submit to the council an updated plan that includes the elements, consistent with federal planning requirements, identified by the council beginning on July 1, 2007, and every four years thereafter.

Each regional transportation planning organization must submit to the council every two years a prioritized regional human service and transportation project list. [2007 c 421 § 4; 1999 c 385 § 6.]

47.06B.050 Council—Progress report. (Effective until June 30, 2011.) The agency council on coordinated transportation shall submit a progress report on council activities to the legislature by December 1, 2009, and every other year thereafter. The report must describe the council's progress in attaining the applicable goals identified in the council's biennial work plan and highlight any problems encountered in achieving these goals. The information will be reported in a form established by the council. [2007 c 421 § 6.]

47.06B.900 Council—Termination. The agency council on coordinated transportation is terminated on June 30, 2010, as provided in RCW 47.06B.901. [2007 c 421 § 8; 1999 c 385 § 7; 1998 c 173 § 6.]

47.06B.901 Repealer. The following acts or parts of acts, as now existing or hereafter amended, are each repealed, effective June 30, 2011:

(1) RCW 47.06B.010 and 2007 c 421 § 1, 1999 c 385 § 1, & 1998 c 173 § 1;

FIRST PRIORITY PROJECT—1951 ACT

47.10.010 First priority highway projects—Declaration of. Reconstruction of primary state highway No. 1 from Oregon to British Columbia, construction of four traffic lanes at Snoqualmie Pass, construction of an adequate highway bridge from Pasco to Kennewick and construction of county arterial highways and farm to market roads in Grant, Franklin and Adams counties to coincide with the opening of lands for settlement in the Columbia Basin irrigation project, are declared to be highway projects of the first priority. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The reimbursement of the motor vehicle fund for money used to purchase Agate Pass Bridge bonds will also make possible other war emergency or high priority highway construction. The threat of war makes acceleration of construction a vital necessity at this time. [1961 c 13 § 47.10.010. Prior: 1951 c 121 § 1.]

47.10.020 Bond issue authorized—Use of motor vehicle fund. To provide funds for accelerating construction of these first priority projects, and to reimburse the motor vehicle fund for money expended for Agate Pass Bridge construction there shall be issued and sold limited obligation bonds of the state of Washington in the sum of sixty-six million seven hundred three thousand, six hundred and twenty-five dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the Washington state highway commission, provide for the issuance of coupon or registered bonds to be dated, issued and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects: PROVIDED, That if funds are available in the motor vehicle fund in an amount greater than is necessary to pay current demands such funds may be used to finance these first priority projects until such time as bonds are sold, as provided by law, at which time the motor vehicle fund shall be reimbursed. [1961 c 13 § 47.10.020. Prior: 1955 c 117 § 1; 1951 c 121 § 2.]

Reviser's note: Powers, duties, and functions of highway commission transferred to department of transportation; see RCW 47.01.031. Term "Washington state highway commission" means department of transportation; see RCW 47.04.015.

47.10.030 Form and term of bonds. Each of such bonds shall be made payable at any time not exceeding twenty-five years from the date of its issuance, with such reserved rights of prior redemption as the state finance com-

mittee may prescribe to be specified therein. The bonds shall be signed by the governor and the state auditor under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. [1961 c 13 § 47.10.040. Prior: 1951 c 121 § 4.]

***Reviser's note:** Chapter 82.40 RCW and RCW 82.40.020 were repealed by 1971 ex.s. c 175 § 33; for later enactment see chapter 82.38 RCW.

47.10.050 Sale of bonds. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of RCW 47.10.010 through 47.10.140 shall be legal investment for any of the funds of the state, except the permanent school fund: PROVIDED, That bonds authorized herein to reimburse the motor vehicle fund for the cost of the Agate Pass Bridge construction shall be sold at the earliest date which the committee finds feasible. [1961 c 13 § 47.10.050. Prior: 1951 c 121 § 5.]

47.10.060 Proceeds—Deposit and use. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the construction of such

first priority projects, reimbursement of the motor vehicle fund for money expended for construction of the Agate Pass Bridge in order to make such money available for war emergency highway projects or other high priority highway uses, and payment of the expense incurred in the printing, issuance and sale of any such bonds. [1961 c 13 § 47.10.060. Prior: 1951 c 121 § 6.]

47.10.070 Source of funds for payment of principal and interest. Any funds required to repay such bonds, or the interest thereon when due, subject to the proviso of this section, shall be taken from that portion of the motor vehicle fund which results from the imposition of all excise taxes on motor vehicle fuels and which is, or may be, appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or the interest on any bonds: PROVIDED, That money required hereunder to pay interest on or to retire any bonds issued for Columbia Basin county arterial highways or farm to market roads shall be repaid by any such county or counties wherein such highways or roads are constructed in the manner set forth in RCW 47.10.110. [1984 c 7 § 100; 1961 c 13 § 47.10.070. Prior: 1951 c 121 § 7.]

47.10.080 Highway bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.10.070, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, which is hereby established, and which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1961 c 13 § 47.10.080. Prior: 1951 c 121 § 8.]

47.10.090 Excess sums in bond retirement fund—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor fuels, payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior

redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1961 c 13 § 47.10.090. Prior: 1951 c 121 § 11.]

47.10.100 Allocation of bonds. The bonds authorized herein are allocated to the first priority projects as follows:

(1) Forty-nine million two hundred fifty thousand dollars of the total issue for the acceleration of the reconstruction of primary state highway No. 1, said amount to be expended on said primary state highway No. 1 as follows: Thirty-three million five hundred thousand dollars between Everett, Seattle, Tacoma, Olympia, Chehalis, Centralia, Kelso, Vancouver, and the Oregon boundary line, and fifteen million seven hundred fifty thousand dollars between Everett and the Canadian boundary line;

(2) Six million five hundred thousand dollars of the total issue for the construction of the highway bridge from Pasco to Kennewick;

(3) Four million two hundred fifty thousand dollars of the total issue for the construction of a four lane highway at Snoqualmie Pass;

(4) Five million dollars of the total issue for the construction of Columbia Basin county arterial highways and farm to market roads in Grant, Franklin and Adams counties, for which the state must be reimbursed as provided in RCW 47.10.110; and

(5) One million seven hundred three thousand six hundred twenty-five dollars of the total issue for reimbursement of the motor vehicle fund for money spent for Washington toll bridge authority bonds purchased in connection with the construction of the Agate Pass Bridge, said sum of one million seven hundred three thousand six hundred twenty-five dollars to be used when it becomes available in the motor vehicle fund, under allotments to be made by the director of highways, for war emergency or other high priority highway projects: PROVIDED, That no bonds shall be issued for Columbia Basin county arterial highway and road purposes unless expenditures are actually required for the settlement of lands ready for irrigation in the Columbia Basin project and all construction of arterial highways and roads in such counties shall be accomplished by the engineering forces of the various counties under the supervision of the director of highways. [1961 c 13 § 47.10.100. Prior: 1951 c 121 § 12.]

Reviser's note: Powers, duties, and functions of director of highways transferred to secretary of transportation; see RCW 47.01.031. Term "director of highways" means secretary of transportation; see RCW 47.04.015.

47.10.110 Columbia Basin highway projects—Reimbursement by counties. The secretary shall report separately to the state finance committee all sums expended from funds resulting from the sale of bonds for Columbia Basin county arterial highways and farm to market roads in Grant, Franklin, and Adams counties under the provisions of RCW 47.10.010 through 47.10.140. Those counties shall repay to the state all the cost of any Columbia Basin highway or road facilities actually constructed under the provisions of RCW 47.10.010 through 47.10.140 within each of such counties as follows: The state finance committee, at least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, shall ascertain the

percentage of the motor vehicle funds arising from the excise taxes on motor vehicle fuels, which is to be transferred to such counties under the provisions of law which will be necessary to pay all of the interest upon or retire when due all of the portion of said bonds chargeable to expenditures incurred under the provisions of RCW 47.10.010 through 47.10.140 in each of said counties. The state finance committee shall notify the state treasurer of this estimate and the treasurer shall thereafter, when distributions are made from the motor vehicle fund to counties, retain such percentage of the total sums credited to such counties as aforesaid in the motor vehicle fund arising from the excise taxes on motor vehicle fuels until such fund is fully reimbursed for all expenditures under RCW 47.10.010 through 47.10.140 in Grant, Adams, and Franklin counties. Any money so retained shall be available for state highway purposes. [1984 c 7 § 101; 1961 c 13 § 47.10.110. Prior: 1951 c 121 § 9.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.10.120 Columbia Basin highway projects—Limit as to amounts currently retained. The sums retained from motor vehicle funds arising from the excise taxes on motor vehicle fuel, of any such counties shall not exceed in any distribution period fifty percent of the total amount to be credited to such county. If there shall be a deficit in the amount available for reimbursement of the motor vehicle fund, due to this provision, then such deficit shall continue to be a charge against any sums due any such county from the motor vehicle fund from such excise taxes until the full cost of such Columbia Basin highway facilities is paid. [1961 c 13 § 47.10.120. Prior: 1951 c 121 § 10.]

47.10.130 Agate Pass Bridge to become toll free—Cancellation of Agate Pass bonds. When the state finance committee has made arrangements for the sale of sufficient bonds to reimburse the motor vehicle fund in the sum of one million seven hundred three thousand six hundred twenty-five dollars as aforesaid, the committee shall notify the Washington toll bridge authority and the authority is thereafter directed to transfer the Agate Pass Bridge to the highway department for operation as a toll free part of the state highway system. The bonds of the authority issued to construct the Agate Pass Bridge shall then be canceled. [1961 c 13 § 47.10.130. Prior: 1951 c 121 § 13.]

Reviser's note: Powers, duties, and functions of toll bridge authority transferred to department of transportation; see RCW 47.01.031. Terms "Washington state toll bridge authority" and "authority" mean department of transportation; see RCW 47.04.015.

[1961 c 13 § 47.10.140. Prior: 1951 c 121 § 15.]

(2008 Ed.)

ADDITIONAL BONDS—1953 ACT

47.10.150 Declaration of necessity for additional funds. Increased construction costs for highway and bridge construction since the enactment of a highway bond issue by the 1951 legislature makes necessary additional money with which to complete the sections of primary state highway No. 1 planned from funds allocated under RCW 47.10.010 through 47.10.140 and it is vital to the economy of the state and the safety of the traffic that these sections shall be completed to relieve traffic congestions, to add capacity in event of war, and to presently insure greater safety to highway users; the rapid increase of traffic across Snoqualmie Pass necessitates continued improvement of primary state highway No. 2 to provide four-lane paving contiguous to Snoqualmie Pass as the funds will permit; the rapid increase of traffic and the facilitation of movement of military forces and equipment from the military centers of the state makes imperative the construction of a highway from primary state highway No. 2 beginning approximately four miles west of North Bend thence southwesterly by the most feasible route by the way of Auburn to a junction with primary state highway No. 1 in the vicinity of Milton; said highway to follow approximately the route surveyed by the director of highways and covered in the report filed by him with the 1951 legislature commonly known as the "Echo Lake Route," as the funds provided for herein will permit; the construction of secondary state highways in to the Columbia Basin area is immediately necessary to provide needed state arterial highways for the irrigated lands of the Columbia Basin areas to market centers and thereby encourage the full development of the basin project. The construction of such projects is required in the interest of the public safety and for the orderly development of the state. The threat of war makes acceleration of construction a vital necessity at this time. [1961 c 13 § 47.10.150. Prior: 1953 c 154 § 1.]

Reviser's note: Powers, duties, and functions of director of highways transferred to department of transportation; see RCW 47.01.031. Term "director of highways" means secretary of transportation; see RCW 47.04.015.

47.10.160 Additional bonds—Issuance and sale authorized—Use of motor vehicle fund. To provide funds for accelerating construction of these priority projects there shall be issued and sold limited obligation bonds of the state of Washington in the sum of eighteen million dollars. The issuance, sale and retirement of said bonds shall be under the general supervision and control of the state finance committee. The state finance committee shall, when notified by the Washington state highway commission, provide for the issuance of coupon or registered bonds to be dated, issued and sold from time to time in such amounts as may be necessary to the orderly progress of construction of the first priority projects: PROVIDED, That if funds are available in the motor vehicle fund in an amount greater than is necessary to pay current demands such funds may be used to finance these first priority projects until such time as bonds are sold, as provided by law, at which time the motor vehicle fund shall be reimbursed. [1961 c 13 § 47.10.160. Prior: 1955 c 117 § 2; 1953 c 154 § 2.]

[1984 c 7 § 102; 1961 c 13 § 47.10.210. Prior: 1953 c 154 § 7.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.10.791 Administration and amount of bond sales.

Upon request being made by the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.790 in accordance with the provisions of chapter 39.42 RCW. The amount of such bonds issued and sold under the provisions of RCW 47.10.790 through 47.10.798 in any biennium may not exceed the amount of a specific appropriation therefor. Such bonds may be sold from time to time in such amounts as may be necessary for the orderly progress of the state highway improvements specified in RCW 47.10.790. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. The state finance committee may obtain insurance, letters of credit, or other credit facility devices with respect to the bonds and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of the bonds. Promissory notes or other obligations issued under this sec-

tion shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued. [1986 c 290 § 6; 1979 ex.s. c 180 § 2.]

47.10.792 Bond proceeds—Deposit and use. The proceeds from the sale of the bonds authorized by RCW 47.10.790 shall be deposited in the motor vehicle fund and such proceeds shall be available only for the purposes enumerated in RCW 47.10.790, for the payment of bond anticipation notes, if any, and for the payment of the expense incurred in the drafting, printing, issuance, and sale of such bonds. The costs of obtaining insurance, letters of credit, or other credit enhancement devices with respect to the bonds shall be considered to be expenses incurred in the issuance and sale of the bonds. [1986 c 290 § 7; 1979 ex.s. c 180 § 3.]

47.10.793 Statement of general obligation—Pledge of excise taxes. Bonds issued under the provisions of RCW 47.10.790 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal of and interest on such bonds shall be first payable in the manner provided in RCW 47.10.790 through 47.10.798 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.10.790 through 47.10.798, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of RCW 47.10.790 through 47.10.798. [1995 c 274 § 6; 1979 ex.s. c 180 § 4.]

47.10.794 Designation of funds to repay bonds and interest. Any funds required to repay the bonds authorized by RCW 47.10.790 or the interest thereon when due shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state for expenditure pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1979 ex.s. c 180 § 5.]

47.10.795 Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.10.794, the percentage of the receipts in money of the motor vehicle fund resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments when due and shall notify the treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the highway bond retirement fund heretofore created in the state treasury, which funds shall be available solely for payment of the principal of and interest on the bonds when due. If in any month it shall appear that the estimated percentage of moneys so made is insufficient to meet the requirements for payment of the principal thereof or interest thereon, the treasurer shall notify the state finance committee forthwith, and such committee shall adjust its estimates so that all requirements for the interest on and principal of all bonds issued shall be fully met at all times. [1979 ex.s. c 180 § 6.]

47.10.796 Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the highway bond retirement fund shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds pursuant to applicable bond covenants or remain available in the fund to reduce requirements upon the fuel excise tax portion of the motor vehicle fund. [1979 ex.s. c 180 § 7.]

47.10.797 Bonds legal investment for state funds. The bonds authorized in RCW 47.10.790 through 47.10.798 constitute a legal investment for all state funds or for funds under state control and all funds of municipal corporations. [1979 ex.s. c 180 § 8.]

47.10.798 Bonds equal charge against fuel tax revenues. Except as otherwise provided by statute, general obligation bonds issued under authority of legislation enacted during the 45th session of the legislature and thereafter and which pledge motor vehicle and special fuel excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuel excise taxes. [1979 ex.s. c 180 § 9.]

47.10.799 Appropriation—Expenditure limited to bond sale proceeds. There is hereby appropriated from the motor vehicle fund to the department of transportation for the biennium ending June 30, 1981, the sum of ten million dollars, or so much thereof as may be necessary, to carry out the provisions of RCW 47.10.790: PROVIDED, That the money available for expenditure under this appropriation may not exceed the amount of money derived from the sale of ten mil-

lion dollars of bonds authorized by RCW 47.10.790 and deposited to the credit of the motor vehicle fund. [1979 ex.s. c 180 § 10.]

47.10.800 Severability—1979 ex.s. c 180. If any provision of this 1979 act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1979 ex.s. c 180 § 12.]

(3) The amount of bonds authorized in subsection (1)(b) of this section shall be increased by an amount not to exceed, and concurrent with, any reduction of bonds authorized under subsection (1)(a) of this section in the manner prescribed in subsection (2) of this section.

(4) The transportation commission may decrease the amount of bonds authorized in subsection (1)(c) of this section and increase the amount of bonds authorized in subsec-

tion (1)(a) or (b) of this section, or both by an amount equal to the decrease in subsection (1)(c) of this section. The transportation commission may decrease the amount of bonds authorized in subsection (1)(c) of this section only if the legislature appropriates an equal amount of funds from the motor vehicle fund - basic account for the purposes enumerated in subsection (1)(c) of this section. Nonseverability—1985 c 433: See note following RCW 43.160.074.

47.10.804 Statement of general obligation—Pledge of excise taxes. Bonds issued under RCW 47.10.801 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under RCW 47.10.801 through 47.10.809, and the legislature hereby agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under RCW 47.10.801 through 47.10.809. [1995 c 274 § 7; 1981 c 316 § 4.]

47.10.805 Designation of funds to repay bonds and interest. Any funds required to repay the bonds authorized by RCW 47.10.801 or the interest thereon when due shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state for expenditure pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1981 c 316 § 5.]

47.10.806 Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of such bonds, the state finance committee shall estimate, subject to RCW 47.10.805, the percentage of the receipts in money of

the motor vehicle fund resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments when due and shall notify the treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the highway bond retirement fund heretofore created in the state treasury, which funds shall be available solely for payment of the principal of and interest on the bonds when due. If in any month it shall appear that the estimated percentage of moneys so made is insufficient to meet the requirements for payment of the principal thereof or interest thereon, the treasurer shall notify the state finance committee forthwith, and the committee shall adjust its estimates so that all requirements for the interest on and principal of all bonds issued shall be fully met at all times. [1981 c 316 § 6.]

47.10.807 Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the highway bond retirement fund shall prove more than is required for the payment of interest on bonds when due, or current retirement bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. Bonds authorized by RCW 47.10.812 through 47.10.817 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [2007 c 519 § 2; 1993 c 431 § 2.]

47.10.814 Proceeds—Deposit and use. The proceeds from the sale of bonds authorized by RCW 47.10.812 through 47.10.817 shall be deposited in the special category C account in the motor vehicle fund. [1993 c 431 § 3.]

47.10.815 Statement of general obligation—Pledge of excise taxes. Bonds issued under the authority of RCW 47.10.812 through 47.10.817 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in RCW 47.10.812 through 47.10.817 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.10.812 through 47.10.817, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.10.812 through 47.10.817. [1995 c 274 § 8; 1993 c 431 § 4.]

Both principal and interest on the bonds issued for the purposes of RCW 47.10.812 through 47.10.817 shall be payable from the highway bond retirement fund. The state treasurer shall withdraw revenues from the special category C account in the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the special category C account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state, counties, cities and towns, shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the special category C account not required for bond retirement or interest on the bonds. [1993 c 431 § 5.]

[1993 c 431 § 6.]

47.10.818 Severability—1993 c 431. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1993 c 431 § 8.]

The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.10.819 through 47.10.824 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and which is, or may be appropriated to the department of transportation for state highway purposes. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the state in the motor vehicle fund proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributed to the state, counties, cities, and towns, shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the motor vehicle fund not required for bond retirement or interest on the bonds. Bonds issued under the authority of RCW 47.10.819 through 47.10.823 and this section and any other general obligation bonds of the state of Washington that have been or that may be authorized and that pledge motor vehicle and special fuels excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuels excise taxes. [1993 c 432 § 6.]

47.10.825 Severability—1993 c 432. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1993 c 432 § 8.]

PUBLIC-PRIVATE TRANSPORTATION INITIATIVES—
1994 ACT

47.10.834 Issuance and sale of general obligation bonds. In order to provide funds necessary to implement the public-private transportation initiatives authorized by chapter

47.46 RCW, there shall be issued and sold upon the request of the secretary of the department of transportation a total of twenty-five million six hundred twenty-five thousand dollars of general obligation bonds of the state of Washington. [2006 c 334 § 35; 1995 2nd sp.s. c 15 § 2; 1994 c 183 § 2.]

Effective date—2006 c 334: See note following RCW 47.01.051.

Severability—1995 2nd sp.s. c 15: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1995 2nd sp.s. c 15 § 9.]

Effective date—1995 2nd sp.s. c 15: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [June 16, 1995]." [1995 2nd sp.s. c 15 § 10.]

Finding—1994 c 183: "The legislature finds and declares:

Successful implementation of the public-private transportation initiatives program authorized in chapter 47.46 RCW may require the financial participation of the state in projects authorized in that chapter.

The participation may take the form of loans, loan guarantees, user charge guarantees, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, or such other cash contribution arrangements as may improve the ability of the private entities sponsoring the projects to obtain financing.

It is in the best interests of the people of the state that state funding of possible financial participation in the projects authorized under chapter 47.46 RCW be in the form of long-term bonds. In order to repay expenditures incurred in the 1993-1995 biennium, up to two million two hundred thousand dollars of these bonds may be expended on highway improvement projects, under chapter 47.05 RCW." [1995 2nd sp.s. c 15 § 1; 1994 c 183 § 1.]

47.10.835 Administration and amount of sale. Upon the request of the secretary of the department of transportation, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.10.834 through 47.10.841 in accordance with chapter 39.42 RCW. Bonds authorized by RCW 47.10.834 through 47.10.841 shall be sold in such manner, at such time or times, in such amounts, and at such price as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds. In making such appropriation of the net proceeds of the sale of the bonds, the legislature shall specify what portion of the appropriation is provided for possible loans and what portion of the appropriation is provided for other forms of cash contributions to projects.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [2006 c 334 § 36; 1994 c 183 § 3.]

The proceeds shall be available only for the purposes of making loans to entities authorized to undertake projects selected under chapter 47.46 RCW as enumerated in RCW 47.10.835, including incidental costs incurred by the department in direct support of activities required under chapter 47.46 RCW, for the payment of bond anticipa-

47.10.874 Administration and amount of sale. Upon the request of the department of transportation, as appropriate, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds in RCW 47.10.873 through 47.10.878 in accordance with chapter 39.42 RCW. Bonds authorized by RCW 47.10.873 through

(2008 Ed.)

47.10.878 shall be sold in the manner, at time or times, in amounts, and at the price as the state finance committee shall determine. No bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. [2005 c 315 § 2.]

47.10.876 Statement of general obligation—Pledge of excise taxes. Bonds issued under the authority of RCW 47.10.873 through 47.10.878 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on the bonds shall be first payable in the manner provided in RCW 47.10.873 through 47.10.878 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. Proceeds of these excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.10.873 through 47.10.878, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.10.873 through 47.10.878. [2005 c 315 § 4.]

The state finance committee shall, on or before June 30th of each year, certify to the state treasurer the amount required for principal and interest on the bonds in accordance with the bond proceedings. The state treasurer shall withdraw revenues from the transportation partnership account in the motor vehicle fund and deposit in the highway bond retirement fund, or a special account in the fund, such amounts, and at such times, as are required by the bond proceedings.

Any funds required for bond retirement or interest on the bonds authorized by RCW 47.10.873 through 47.10.878 shall be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the transportation partnership account in the motor vehicle fund. Funds required shall never constitute a charge against any other allocations of motor vehicle fuel and special fuel tax revenues to the state, counties, cities, and towns unless the amount arising from excise taxes on motor vehicle and special fuels distributed to the transportation partnership account proves insufficient to meet the requirements for bond retirement or interest on any such bonds.

Any payments for bond retirement or interest on the bonds taken from other revenues from the motor vehicle fuel or special fuel taxes that are distributable to the state, counties, cities, and towns shall be repaid from the first revenues from the motor vehicle fuel or special fuel taxes distributed to the transportation partnership account not required for bond retirement or interest on the bonds. [2007 c 519 § 5; 2005 c 315 § 5.]

47.12.010 Acquisition of property authorized—Condemnation actions—Cost. Whenever it is necessary to secure any lands or interests in land for a right-of-way for any state highway, or for the drainage thereof or construction of a protection therefor or so as to afford unobstructed vision therefor toward any railroad crossing or another public highway crossing or any point of danger to public travel or to provide a visual or sound buffer between highways and adjacent properties or for the purpose of acquiring sand pits, gravel pits, borrow pits, stone quarries, or any other land for the extraction of materials for construction or maintenance or both, or for any site for the erection upon and use as a maintenance camp, of any state highway, or any site for other necessary structures or for structures for the health and accommodation of persons traveling or stopping upon the state highways of this state, or any site for the construction and maintenance of structures and facilities adjacent to, under, upon, within, or above the right-of-way of any state highway for exclusive or nonexclusive use by an urban public transportation system, or for any other highway purpose, together with right-of-way to reach such property and gain access thereto, the department of transportation is authorized to acquire such lands or interests in land in behalf of the state by gift, purchase, or condemnation. In case of condemnation to secure such lands or interests in land, the action shall be brought in the name of the state of Washington in the manner provided for the acquiring of property for the public uses of

the state, and in such action the selection of the lands or interests in land by the secretary of transportation shall, in the absence of bad faith, arbitrary, capricious, or fraudulent action, be conclusive upon the court and judge before which the action is brought that said lands or interests in land are necessary for public use for the purposes sought. The cost and expense of such lands or interests in land may be paid as a part of the cost of the state highway for which such right-of-way, drainage, unobstructed vision, sand pits, gravel pits, borrow pits, stone quarries, maintenance camp sites, and structure sites or other lands are acquired. [1977 ex.s. c 151 § 46; 1967 c 108 § 4; 1961 c 13 § 47.12.010. Prior: 1937 c 53 § 25, part; RRS § 6400-25, part.]

Urban public transportation system defined: RCW 47.04.082.

Right-of-way donations: Chapter 47.14 RCW.

47.12.011 Purchase options authorized. Whenever it becomes necessary or feasible to purchase rights-of-way for state highways, and the department deems it to be in the best interest of the general public, the department may secure options for purchase of property needed or proposed for any entire project or section thereof or proposed alignment for the location or relocation of any highway. [1984 c 7 § 114; 1961 c 13 § 47.12.011. Prior: 1955 c 49 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.015 "Reservation boundary" defined. For the purposes of this chapter "reservation boundary" means the boundary of the reservation as established by federal law or under the authority of the United States Secretary of the Interior. [2002 c 255 § 2.]

47.12.023 Acquisition of state lands or interests or rights therein—Procedures—Compensation—Reacquisition by department of natural resources. (1) Except as provided in RCW 47.12.026 and 47.12.029, whenever it is necessary to secure any lands or interests in lands for any highway purpose mentioned in RCW 47.12.010, or for the construction of any toll facility or ferry terminal or docking facility, the title to which is in the state of Washington and under the jurisdiction of the department of natural resources, the department of transportation may acquire jurisdiction over the lands or interests in lands, or acquire rights to remove materials from the lands in the manner set forth in this section.

(2) At any time after the final adoption of a right-of-way plan or other plan requiring the acquisition of lands or interests in lands for any purpose as authorized in subsection (1) of this section, the department of transportation may file with the department of natural resources a notice setting forth its intent to acquire jurisdiction of the lands or interests in lands under the jurisdiction of the department of natural resources required for right-of-way or other highway purposes related to the construction or improvement of such state highway, toll facility, or ferry terminal or docking facility.

(3) The department of transportation at the time of filing its notice of intent as provided in subsection (2) of this section shall file therewith a written statement showing the total amount of just compensation to be paid for the property in the event of settlement. The offer shall be based upon the depart-

ment of transportation approved appraisal of the fair market value of the property to be acquired. In no event may the offer of settlement be referred to or used during any arbitration proceeding or trial conducted for the purpose of determining the amount of just compensation.

(4) Just compensation and/or fair market value for the purposes of this section shall be determined in accordance with applicable federal and state constitutional, statutory, and case law relating to the condemnation of private and public property for public purposes.

(5) If the department of natural resources does not accept the offer of the department of transportation, the department of transportation may nonetheless pay to the department of natural resources the amount of its offer and obtain immediate possession and use of the property pending the determination of just compensation in the manner hereinafter provided.

(6) If the amount of just compensation is not agreed to, either the department of natural resources or the department of transportation may request in writing the appointment of an arbitrator for the purpose of determining the amount of compensation to be paid by the department of transportation for the acquisition of jurisdiction over the lands or interests in lands or rights therein. In that event the department of natural resources and the department of transportation may jointly agree on an arbitrator to determine the compensation, and his determination shall be final and conclusive upon both departments. The costs of the arbitrator shall be borne equally by the parties. If the department of natural resources and the department of transportation are unable to agree on the selection of an arbitrator within thirty days after a request therefor is made, either the department of transportation or the department of natural resources may file a petition with the superior court for Thurston county for the purpose of determining the amount of just compensation to be paid. The matter shall be tried by the court pursuant to the procedures set forth in RCW 8.04.080.

(7) Whenever the department of transportation has acquired immediate possession and use of property by payment of the amount of its offer to the department of natural resources, and the arbitration award or judgment of the court for the acquisition exceeds the payment for immediate possession and use, the department of transportation shall forthwith pay the amount of such excess to the department of natural resources with interest thereon from the date it obtained immediate possession. If the arbitration or court award is less than the amount previously paid by the department of transportation for immediate possession and use, the department of natural resources shall forthwith pay the amount of the difference to the department of transportation.

(8) Upon the payment of just compensation, as agreed to by the department of transportation and the department of natural resources, or as determined by arbitration or by judgment of the court, and other costs or fees as provided by statute, the department of natural resources shall cause to be executed and delivered to the department of transportation an instrument transferring jurisdiction over the lands or interests in lands, or rights to remove material from the lands, to the department of transportation.

(9) Except as provided in RCW 47.12.026, whenever the department of transportation ceases to use any lands or interests in lands acquired in the manner set forth in this section

for the purposes mentioned herein, the department of natural resources may reacquire jurisdiction over the lands or interests in land by paying the fair market value thereof to the department of transportation. If the two departments are unable to agree on the fair market value of the lands or interests in lands, the market value shall be determined and the interests therein shall be transferred in accordance with the provisions and procedures set forth in subsections (4) through (8) of this section. [1984 c 7 § 115; 1977 ex.s. c 103 § 1.]

(2) The department of transportation may obtain an easement for highway or toll facilities purposes or for ferry terminal or docking facilities on, over, or across harbor areas in accordance with RCW 47.12.023 but only when the areas are approved by the harbor line commission as a public place for public landings, wharves, or other public conveniences of commerce or navigation. No charge may be made to the department of transportation for such an easement.

(3) Upon the selection by the department of transportation of an easement for highway or toll facilities right-of-way or for ferry terminal or docking facilities, as authorized in subsections (1) and (2) of this section, the department of natural resources shall cause to be executed and delivered to the department of transportation an instrument transferring the easement. Whenever the state no longer requires the easement for highway or toll facilities right-of-way or for ferry terminal or docking facilities, the easement shall automatically terminate and the department of transportation shall, upon request, cause to be executed an instrument relinquishing to the department of natural resources all of its interest in the lands.

(4) The department of transportation, pursuant to the procedures set forth in RCW 47.12.023, may remove sand and gravel and borrow materials and stone from the beds of navigable waters under the jurisdiction of the department of natural resources which lie below the line of ordinary high water upon the payment of fair market value per cubic yard for such materials to be determined in the manner set forth in RCW 47.12.023.

(5) The department of transportation may acquire full jurisdiction over lands under the jurisdiction of the department of natural resources including the beds of navigable waters that are required for the relocation of the operating tracks of any railroad that will be displaced by the acquisition of such railroad property for state highway purposes. The department of transportation may exchange lands so acquired in consideration or partial consideration for the land or property rights needed for highway purposes and may cause to be

executed a conveyance of the lands in the manner prescribed in RCW 47.12.150. In that event the department of transportation shall pay to the department of natural resources, as just compensation for the acquisition, the fair market value of the property, including the beds of any navigable waters, to be determined in accordance with procedures set forth in RCW 47.12.023. [1984 c 7 § 116; 1977 ex.s. c 103 § 2.]

[1984 c 7 § 117; 1977 ex.s. c 103 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.040 Acquisition of property from a political subdivision. Whenever it is necessary to secure any lands for primary or secondary state highway right-of-way or other state highway purposes, the title to which is in any county of the state or in any political or municipal subdivision of the state, which land is not at the time being used as a public highway, the county legislative authority or the board of directors or governing body of any such political or municipal subdivision are authorized to directly lease, sell, or convey by gift the land or any interest therein to the state of Washington, without requiring competitive bids or notice to the public, and at such price as the legislative authority, directors, or governing body may deem for the best interests of the county or for the best interests of the political or municipal subdivision of the state. The county legislative authority or the directors or governing body of any political or municipal subdivision are empowered to execute a deed or other proper instrument to the land, passing title to the state of Washington, and the instrument need not require consideration other than the benefit which may be derived by the grantor on account of the use thereof. Whenever any state highway is established by legislative enactment and the state highway is upon the former route of a county road, the county legislative authority shall cause the title to the existing right-of-way or so much thereof as the department requires to be transferred to the state of Washington by proper instrument. [1984 c 7 § 118; 1961 c 13 § 47.12.040. Prior: 1943 c 266 § 1; 1937 c 53 § 26; Rem. Supp. 1943 § 6400-26.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.044 Proceedings to acquire property or rights for highway purposes—Precedence. Court proceedings necessary to acquire property or property rights for highway purposes pursuant to RCW 47.12.010 take precedence over all other causes not involving the public interest in all courts in cases where the state is unable to secure an order granting it immediate possession and use of the property or property rights pursuant to RCW 8.04.090 through 8.04.094. [1983 c 140 § 2.]

47.12.050 Work on remaining land as payment. Whenever it is considered in the securing of any lands for

state highway purpose, whether by condemnation or otherwise, that it is for the best interest of the state, for specific structural items of damage claimed, the court or judge may order or the person whose lands are sought may agree that a portion or all work or labor necessary to the land or remaining land by reason of the taking by way of damage, be performed by the state through the department as all or a part of the consideration or satisfaction of the judgment therefor, in which event the department may perform the work as a portion of the right-of-way cost of the state highway. [1984 c 7 § 119; 1961 c 13 § 47.12.050. Prior: 1937 c 53 § 27; RRS § 6400-27.]

47.12.140 Severance and sale of timber and other personalty—Removal of nonmarketable materials.

[Title 47 RCW—page 68]

Whenever the department has acquired any lands for transportation purposes, except state granted lands, upon which are located any structures, timber, or other thing of value attached to the land that the department deems it best to sever from the land and sell as personal property, the same may be disposed of by one of the following means:

(1) The department may sell the personal property at public auction after due notice has been given in accordance with general rules adopted by the secretary. The department may set minimum prices that will be accepted for any item offered for sale at public auction as provided in this section and may prescribe terms or conditions of sale. If an item is offered for sale at the auction and no satisfactory bids are received or the amount bid is less than the minimum set by the department, the department may sell the item at private sale for the best price that it deems obtainable, but not less than the highest price bid at the public auction. The proceeds of all sales under this section must be placed in the motor vehicle fund.

(2) The department may issue permits to residents of this state to remove specified quantities of standing or downed trees and shrubs, rock, sand, gravel, or soils that have no market value in place and that the department desires to be removed from state-owned lands that are under the jurisdiction of the department. An applicant for a permit must certify that the materials so removed are to be used by the applicant and that they will not be disposed of to any other person. Removal of materials under the permit must be in accordance with rules adopted by the department. The fee for a permit is two dollars and fifty cents, which fee must be deposited in the motor vehicle fund. The department may adopt rules providing for special access to limited access facilities for the purpose of removal of materials under permits authorized in this section.

(3) The department may sell timber or logs to an abutting landowner for cash at full appraised value, but only after each other abutting owner (if any), as shown in the records of the county assessor, is notified in writing of the proposed sale. If more than one abutting owner requests in writing the right to purchase the timber within fifteen days after receiving notice of the proposed sale, the timber must be sold in accordance with subsection (1) of this section.

(4) The department may sell timber or logs having an appraised value of one thousand dollars or less directly to interested parties for cash at the full appraised value without notice or advertising. If the timber is attached to state-owned land, the department shall issue a permit to the purchaser of the timber to allow for the removal of the materials from state land. The permit fee is two dollars and fifty cents. [1997 c 240 § 1; 1981 c 260 § 12. Prior: 1977 ex.s. c 151 § 52; 1977 ex.s. c 78 § 6; 1961 c 13 § 47.12.140; prior: 1953 c 42 § 1.]

47.12.150 Acquisition, exchange of property to relocate displaced facility. Whenever the department shall need for highway purposes land or property rights belonging to the United States government or any municipality or political subdivision of the state, or which shall be a part of the right-of-way of any public utility having authority to exercise powers of eminent domain, when the acquisition of such property by the state will result in the displacement of any existing right-of-way or facility, the department is authorized to

(2008 Ed.)

acquire by condemnation or otherwise such lands and property rights as shall be needed to relocate such right-of-way or facilities so displaced and to exchange lands or property rights so acquired in consideration or partial consideration for the land or property rights needed for highway purposes. The secretary of transportation shall execute each conveyance, which shall be duly acknowledged, necessary to accomplish such exchange. [1977 ex.s. c 151 § 53; 1975 1st ex.s. c 96 § 5; 1961 c 13 § 47.12.150. Prior: 1953 c 55 § 1.]

47.12.160 Acquisition of land outside highway right-of-way to minimize damage. Whenever a part of a parcel of land is to be acquired for state highway purposes and the remainder lying outside of the right-of-way is to be left in such shape or condition as to be of little value to its owner or to give rise to claims or litigation concerning severance or other damage, and its value does not exceed the probable amount of the severance claims or damages, the department may acquire by gift, purchase, or condemnation the whole parcel and may sell that portion lying outside of the highway right-of-way or may exchange the same for other property needed for highway purposes. The provisions of this section do not apply if the taking of that portion of the land lying outside of the highway right-of-way would deprive any adjacent owner of an existing right of ingress and egress to his property. [1984 c 7 § 122; 1961 c 13 § 47.12.160. Prior: 1953 c 131 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.170 Sale, lease of unneeded toll facility, ferry system property—Franchises for utility, railway purposes. See RCW 47.56.253 through 47.56.257.

47.12.180 Additional financing methods for property and engineering costs—Formal declarations. It is declared to be the public policy of the state of Washington to provide for the acquisition of real property and engineering costs necessary for the improvement of the state highway system, in advance of actual construction, for the purposes of eliminating costly delays in construction, reducing hardship to owners of the property, and eliminating economic waste occasioned by the improvement of such property immediately prior to its acquisition for highway uses.

The legislature therefore finds and declares that purchase and condemnation of real property necessary for the state highway system and engineering costs, reasonably in advance of programmed construction, is a public use and purpose and a highway purpose.

The department is hereby authorized to purchase or condemn any real property or property rights therein which it deems will be necessary for the improvement of routes on the state highway system by the method provided in RCW 47.12.180 through 47.12.240 or alternatively by the method provided in RCW 47.12.242 through 47.12.246. Neither method may be used to condemn property or property rights in advance of programmed construction until the department has complied with hearing procedures required for the location or relocation of the type of highway for which the property is to be condemned. [1984 c 7 § 123; 1969 ex.s. c 197 § 1; 1961 c 281 § 1.]

(2008 Ed.)

Severability—1984 c 7: See note following RCW 47.01.141.

Severability—1961 c 281: "If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1961 c 281 § 12.]

47.12.190 Additional financing methods for property and engineering costs—Purchase or condemnation. The department, in addition to its other powers and duties as provided by law, is authorized to purchase or condemn any real property or property rights therein which it deems will be necessary for the improvements of routes on the state highway system by the method provided in RCW 47.12.180 through 47.12.240. Condemnation actions brought hereunder shall be brought in the name of the state as provided for acquiring property for the public uses of the state, and in such actions selection of the property and property rights by the secretary of transportation is conclusive that they are necessary for the purposes sought, in the absence of bad faith, or arbitrary, capricious, or fraudulent action. [1977 ex.s. c 151 § 54; 1961 c 281 § 2.]

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.200 Additional financing methods for property and engineering costs—Agreements with state finance committee. The transportation commission may enter into agreements with the state finance committee for financing the acquisition, by purchase or condemnation, of real property together with engineering costs that the transportation commission deems will be necessary for the improvement of the state highway system. Such agreements may provide for the acquisition of an individual parcel or for the acquisition of any number of parcels within the limits of a contemplated highway project. [1977 ex.s. c 151 § 55; 1969 ex.s. c 197 § 2; 1961 c 281 § 3.]

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.210 Additional financing methods for property and engineering costs—Warrants on motor vehicle fund. Such an agreement shall provide that the state finance committee shall purchase, at par, warrants drawn upon the motor vehicle fund in payment for the property covered by the agreement and the engineering costs necessary for such advance purchase or condemnation. Such warrants shall be purchased by the state finance committee, upon the presentation by the holders thereof to the state treasurer, from any moneys available for investment in the state treasury as provided in RCW 43.84.080: PROVIDED, That in no event shall more than ten percent of the assets of any fund be used for the purpose of acquiring property as authorized herein, except in the case of current state funds in the state treasury, twenty percent of the balance therein available for investment may be invested as provided in RCW 47.12.180 through 47.12.240. [1981 c 3 § 38; 1969 ex.s. c 197 § 3; 1961 c 281 § 4.]

(1) A provision stating the term of the agreement which shall not extend more than seven years from the effective date of the agreement;

(2) A designation of the specific fund or funds to be used to carry out such agreement;

(3) A provision that the department of transportation may redeem warrants purchased by the state finance committee at any time prior to the letting of a highway improvement contract utilizing the property; and further, during the effective period of each such agreement the department of transportation shall redeem such warrants whenever such a highway improvement contract is let, or upon the expiration of such agreement, whichever date is earlier;

(4) A provision stating the rate of interest such warrants shall bear commencing at the time of purchase by the state finance committee;

(5) Any additional provisions agreed upon by the transportation commission and the state finance committee which are necessary to carry out the purposes of such agreement as indicated by RCW 47.12.180 through 47.12.240, as now or hereafter amended. [1977 ex.s. c 151 § 56; 1969 ex.s. c 197 § 4; 1961 c 281 § 5.]

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.230 Additional financing methods for property and engineering costs—Warrant form and procedure. Warrants issued for payment of property and engineering costs as provided herein shall be of a distinctive design and shall contain the words "for purchase by the state finance committee from . . . fund" (indicating the proper investing fund as provided by the agreement). Such warrants shall be approved by the secretary of the state finance committee prior to their issuance by the state treasurer. Upon presentation of such warrants to the state treasurer for payment, he shall pay the par value thereof from the fund for which the state finance committee agreed to purchase such warrants whether or not there are then funds in the motor vehicle fund. The state treasurer shall deposit such warrants in the treasury for the investing fund. [1969 ex.s. c 197 § 5; 1961 c 281 § 6.]

Severability—1961 c 281: See note following RCW 47.12.180.

The state treasurer shall pay the warrants at the time provided for in the agreement. The obligations coming due are a prior charge against any funds in the motor vehicle fund available to the department for construction of state highways. [1984 c 7 § 124; 1961 c 281 § 7.]

Severability—1984 c 7: See note following RCW 47.01.141.

Severability—1961 c 281: See note following RCW 47.12.180.

47.12.242 "Advance right-of-way acquisition" defined. The term "advance right-of-way acquisition" means

the acquisition of property and property rights, generally not more than ten years in advance of programmed highway construction projects, together with the engineering costs necessary for such advance right-of-way acquisition. Any property or property rights purchased must be in designated highway transportation corridors and be for projects approved by the commission as part of the state's six-year plan or included in the state's route development planning effort. [1991 c 291 § 1; 1969 ex.s. c 197 § 6.]

(3) Any federal moneys available for acquisition of right-of-way for future construction under the provisions of section 108 of Title 23, United States Code.

(4) During the 2007-09 fiscal biennium, the legislature may transfer from the advance right-of-way revolving fund to the motor vehicle account amounts as reflect the excess fund balance of the advance right-of-way revolving fund. [2007 c 518 § 707; 1991 c 291 § 2; 1984 c 7 § 125; 1969 ex.s. c 197 § 7.]

47.12.246 Reimbursement to advance right-of-way revolving fund. (1) After any properties or property rights are acquired from funds in the advance right-of-way revolving fund, the department shall manage the properties in accordance with sound business practices. Funds received from interim management of the properties shall be deposited in the advance right-of-way revolving fund.

(2) When the department proceeds with the construction of a highway which will require the use of any of the property so acquired, the department shall reimburse the advance right-of-way revolving fund, from other funds available to it, the current appraised value of the property or property rights required for the project together with damages caused to the remainder by the acquisition after offsetting against all such compensation and damages the special benefits, if any, accruing to the remainder by reason of the state highway being constructed.

(3) When the department determines that any properties or property rights acquired from funds in the advance right-of-way revolving fund will not be required for a highway construction project the department may sell the property at fair market value in accordance with requirements of RCW

47.12.063. All proceeds of such sales shall be deposited in the advance right-of-way revolving fund.

(4) Deposits in the fund may be reexpended as provided in RCW 47.12.180, 47.12.200 through 47.12.230, and 47.12.242 through 47.12.248 without further or additional appropriations. [1991 c 291 § 4; 1984 c 7 § 126; 1969 ex.s. c 197 § 9.]

The department shall not expend any funds for acquisition or construction costs of any parking facility to be operated as a part of a transit system by a metropolitan municipal corporation unless the facility has been approved by the department in advance of its acquisition or construction. [1984 c 7 § 129; 1973 2nd ex.s. c 18 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.283 Sale of real property authorized—Procedure—Disposition of proceeds. (1) Whenever the department of transportation determines that any real property

owned by the state of Washington and under the jurisdiction of the department is no longer required for highway purposes and that it is in the public interest to do so, the department may, in its discretion, sell the property under RCW 47.12.063 or under subsections (2) through (6) of this section.

(2) Whenever the department determines to sell real property under its jurisdiction at public auction, the department shall first give notice thereof by publication on the same day of the week for two consecutive weeks, with the first publication at least two weeks prior to the date of the auction, in a legal newspaper of general circulation in the area where the property to be sold is located. The notice shall be placed in both the legal notices section and the real estate classified section of the newspaper. The notice shall contain a description of the property, the time and place of the auction, and the terms of the sale. The sale may be for cash or by real estate contract.

(3) The department shall sell the property at the public auction, in accordance with the terms set forth in the notice, to the highest and best bidder providing the bid is equal to or higher than the appraised fair market value of the property.

(4) If no bids are received at the auction or if all bids are rejected, the department may, in its discretion, enter into negotiations for the sale of the property or may list the property with a licensed real estate broker. No property shall be sold by negotiations or through a broker for less than the property's appraised fair market value. Any offer to purchase real property pursuant to this subsection shall be in writing and may be rejected at any time prior to written acceptance by the department.

(5) Before the department shall approve any offer for the purchase of real property having an appraised value of more than ten thousand dollars, pursuant to subsection (4) of this section, the department shall first publish a notice of the proposed sale in a local newspaper of general circulation in the area where the property is located. The notice shall include a description of the property, the selling price, the terms of the sale, including the price and interest rate if sold by real estate contract, and the name and address of the department employee or the real estate broker handling the transaction. The notice shall further state that any person may, within ten days after the publication of the notice, deliver to the designated state employee or real estate broker a written offer to purchase the property for not less than ten percent more than the negotiated sale price, subject to the same terms and conditions. A subsequent offer shall not be considered unless it is accompanied by a deposit of twenty percent of the offer in the form of cash, money order, cashier's check, or certified check payable to the Washington state treasurer, to be forfeited to the state (for deposit in the motor vehicle fund) if the offeror fails to complete the sale if the offeror's offer is accepted. If a subsequent offer is received, the first offeror shall be informed by registered or certified mail sent to the address stated in his offer. The first offeror shall then have ten days, from the date of mailing the notice of the increased offer, in which to file with the designated state employee or real estate broker a higher offer than that of the subsequent offeror. After the expiration of the ten day period, the department shall approve in writing the highest and best offer which the department then has on file.

(6) All moneys received pursuant to this section, less any real estate broker's commissions paid pursuant to RCW 47.12.320, shall be deposited in the motor vehicle fund. [1979 ex.s. c 189 § 1.]

Effective date—1979 ex.s. c 189: "This 1979 act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect July 1, 1979." [1979 ex.s. c 189 § 8.]

47.12.287 Exchange of real property authorized—Conveyance by deed. The department of transportation is hereby authorized to enter into an exchange agreement with the owner of real property required for highway purposes to convey to such owner real property, owned by the state and under the department's jurisdiction, as full or part consideration for property to be acquired for highway purposes. Such an exchange agreement may relate back and apply to any exchange of property previously agreed to and partially executed (pursuant to an earlier exchange agreement found to be void for want of a governor's deed as required by prior law), and shall be subject to such agreed terms and conditions as are authorized by RCW 47.12.063(3) as now existing or hereafter amended. Any conveyance from the state of Washington made pursuant to this section shall be by deed executed by the secretary of transportation, which shall be duly acknowledged. [1979 ex.s. c 189 § 2.]

Effective date—1979 ex.s. c 189: See note following RCW 47.12.283.

Severability—1984 c 7: See note following RCW 47.01.141.

47.12.330 Advanced environmental mitigation—Authorized. For the purpose of environmental mitigation of transportation projects, the department may acquire or develop, or both acquire and develop, environmental mitigation sites in advance of the construction of programmed

projects. The term "advanced environmental mitigation" means mitigation of adverse impacts upon the environment from transportation projects before their design and construction. Advanced environmental mitigation consists of the acquisition of property; the acquisition of property, water, or air rights; the development of property for the purposes of improved environmental management; engineering costs necessary for such purchase and development; and the use of advanced environmental mitigation sites to fulfill project environmental permit requirements. Advanced environmental mitigation must be conducted in a manner that is consistent with the definition of mitigation found in the council of environmental quality regulations (40 C.F.R. Sec. 1508.20) and the governor's executive order on wetlands (EO 90-04). Advanced environmental mitigation is for projects approved by the transportation commission as part of the state's six-year plan or included in the state highway system plan. Advanced environmental mitigation must give consideration to activities related to fish passage, fish habitat, wetlands, and flood management. Advanced environmental mitigation may also be conducted in partnership with federal, state, or local government agencies, tribal governments, interest groups, or private parties. Partnership arrangements may include joint acquisition and development of mitigation sites, purchasing and selling mitigation bank credits among participants, and transfer of mitigation site title from one party to another. Specific conditions of partnership arrangements will be developed in written agreements for each applicable environmental mitigation site. [1998 c 181 § 2; 1997 c 140 § 2.]

Findings—1998 c 181: "The legislature finds that fish passage, fish habitat, wetlands, and flood management are critical issues in the effective management of watersheds in Washington. The legislature also finds that the state of Washington invests a considerable amount of resources on environmental mitigation activities related to fish passage, fish habitat, wetlands, and flood management. The department of transportation's advanced environmental mitigation revolving account established under RCW 47.12.340, is a key funding component in bringing environmental mitigation together with comprehensive watershed management." [1998 c 181 § 1.]

Intent—1997 c 140: "It is the intent of chapter 140, Laws of 1997 to provide environmental mitigation in advance of the construction of programmed projects where desirable and feasible, [which] will provide a more efficient and predictable environmental permit process, increased benefits to environmental resources, and a key tool in using the watershed approach for environmental impact mitigation. The legislative transportation committee, through its adoption of the December 1994 report "Environmental Cost Savings and Permit Coordination Study," encourages state agencies to use a watershed approach based on a water resource inventory area in an improved environmental mitigation and permitting process. Establishment of an advanced transportation environmental mitigation revolving account would help the state to improve permit processes and environmental protection when providing transportation services." [1997 c 140 § 1.]

47.12.340 Advanced environmental mitigation revolving account. The advanced environmental mitigation revolving account is created in the custody of the treasurer, into which the department shall deposit directly and may expend without appropriation:

(1) An initial appropriation included in the department of transportation's 1997-99 budget, and deposits from other identified sources;

(2) All moneys received by the department from internal and external sources for the purposes of conducting advanced environmental mitigation; and

(3) Interest gained from the management of the advanced environmental mitigation revolving account. [1997 c 140 § 3.]

Intent—1997 c 140: See note following RCW 47.12.330.

47.12.350 Advanced environmental mitigation—Site management—Reimbursement of account. (1) After advanced environmental mitigation is conducted from funds in the advanced environmental mitigation revolving account, the advanced environmental mitigation sites must be managed in accordance with any permits, agreements, or other legal documents under which the subject advanced environmental mitigation is conducted.

(2) When the department or any of its transportation partners proceeds with the construction of a transportation project that will use advanced environmental mitigation sites to meet the environmental mitigation needs of a project, the advanced environmental mitigation revolving account shall be reimbursed from those transportation project funds appropriated for the use of the advanced environmental mitigation sites. Reimbursements to the advanced environmental mitigation revolving account must be paid at a rate that captures:

(a) Projected land acquisition costs for environmental mitigation for the subject transportation project;

(b) Advanced environmental mitigation site development costs;

(c) Advanced environmental mitigation site operational costs (e.g., site monitoring);

(d) Administrative costs for the management of the advanced environmental revolving account.

These costs must be adjusted based on inflation, as appropriate.

When only a portion of an advanced environmental mitigation site is used, the reimbursement rate charged to the purchasing party will be prorated for the portion used. [1997 c 140 § 4.]

Intent—1997 c 140: See note following RCW 47.12.330.

47.12.370 Environmental mitigation—Exchange agreements. (1) The department may enter into exchange agreements with local, state, or federal agencies, tribal governments, or private nonprofit nature conservancy corporations as defined in RCW 64.04.130, to convey properties under the jurisdiction of the department that serve as environmental mitigation sites, as full or part consideration for the grantee assuming all future maintenance and operation obligations and costs required to maintain and operate the environmental mitigation site in perpetuity.

(2) Tribal governments shall only be eligible to participate in an exchange agreement if they:

(a) Provide the department with a valid waiver of their tribal sovereign immunity from suit. The waiver must allow the department to enforce the terms of the exchange agreement or quitclaim deed in state court; and

(b) Agree that the property shall not be placed into trust status.

(3) The conveyances must be by quitclaim deed, or other form of conveyance, executed by the secretary of transportation, and must expressly restrict the use of the property to a mitigation site consistent with preservation of the functions

and values of the site, and must provide for the automatic reversion to the department if the property is not used as a mitigation site or is not maintained in a manner that complies with applicable permits, laws, and regulations pertaining to the maintenance and operation of the mitigation site. [2003 c 187 § 1; 2002 c 188 § 1.]

47.14.010 Legislative finding, intent. The legislature finds that in numerous areas throughout the state, rapid expansion of residential, commercial, industrial, and business activities is producing increased traffic levels. The legislature further finds that many property owners have exhibited a willingness to donate real property or property rights for transportation improvements to accommodate such increases in traffic. The legislature recognizes that the cost of right-of-way acquisition is often a significant, and even a prohibitive cost element in many transportation improvement projects.

The legislature seeks to encourage the voluntary donation of right-of-way to the state, counties, cities, and towns for transportation improvements recognizing that such donations can result in direct benefits to property owners, developers, and the community at large.

It is the intent of the legislature to further facilitate the department of transportation's authority under RCW 47.12.010, 47.24.030, and 47.52.050 to accept donations of right-of-way for state transportation purposes. The legislature further intends to facilitate the authority of a city, town, or county to accept donations of right-of-way for other transportation purposes.

The legislature therefore declares it to be in the best interest and welfare of the citizens of Washington for the state department of transportation, and for counties, cities, and towns to actively foster and encourage donations of right-of-way by willing donors in all areas where transportation improvements are to be made. In addition, and in lieu of monetary compensation for property needed for right-of-way purposes, the legislature seeks to provide incentives to potential donors such as are set forth in RCW 47.14.030 and 47.14.040. [1987 c 267 § 1.]

47.14.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Right-of-way" means the area of land designated for transportation purposes.

(2) "Airspace" means the space above and below the gradeline of all highways, roads, and streets, and the area alongside the traveled way and within approved right-of-way lines. [1987 c 267 § 2.]

47.14.030 Credit against transportation benefit district assessment. The governing body of a transportation benefit district may give credit for all or any portion of any real property donation against an assessment, charge, or other required financial contribution for transportation improvements within a transportation benefit district established under RCW 36.73.020 or 35.21.225. The credit granted shall be available against any assessment, charge or other required financial contribution for any transportation purpose which utilizes the donated property. [1987 c 267 § 3.]

47.14.040 Advertising signs on donated parcel. The department or the county, city, or town to which the right-of-way is donated shall, upon request, grant the donor an air-space lease or a permit for the purpose of erecting or maintaining, or both, one or more signs advertising a business of the donor that is conducted on premises adjacent to the donated parcel unless the sign or signs would be detrimental to the safety and operation of the highway, road, or street. This provision applies to all highways, roads, and streets other than limited access highways and streets, where it applies only until the donated parcel becomes part of a completed operating facility. Except as provided in this section, any such sign shall conform to the requirements of all other applicable federal, state, and local laws and ordinances. The lease agreement or permit shall take into consideration applicable county and city zoning ordinances and may provide for compensation for removal of the sign in accordance with applicable federal, state, and local laws and ordinances. The lease agreement or permit shall specify the conditions for signage. [1987 c 267 § 4.]

47.14.050 Department's duties. The department shall:

- (1) Give priority to the refinement and modification of right-of-way procedures and policies dealing with donation;
- (2) Reduce or simplify paperwork requirements resulting from right-of-way procurement;
- (3) Increase communication and education efforts as a means to solicit and encourage voluntary right-of-way donations;
- (4) Enhance communication and coordination with local governments through agreements of understanding that address state acceptance of right-of-way donations secured under zoning, use permits, subdivision, and associated police power authority of local government. [1998 c 245 § 96; 1987 c 267 § 5.]

47.14.900 Construction. Nothing in this chapter may be construed to contravene the requirements of chapter 8.26 RCW. [1987 c 267 § 6.]

47.14.910 Severability—1987 c 267. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected. [1987 c 267 § 12.]

47.17.001 Criteria for changes to system. In considering whether to make additions, deletions, or other changes to the state highway system, the legislature shall be guided by the following criteria as contained in the Road Jurisdiction Committee Phase I report to the legislature dated January 1987:

(1) A rural highway route should be designated as a state highway if it meets any of the following criteria:

(a) Is designated as part of the national system of interstate and defense highways (popularly called the interstate system); or

(b) Is designated as part of the system of numbered United States routes; or

(c) Contains an international border crossing that is open twelve or more hours each day.

(2) A rural highway route may be designated as a state highway if it is part of an integrated system of roads and:

(a) Carries in excess of three hundred thousand tons annually and provides primary access to a rural port or intermodal freight terminal;

(b) Provides a major cross-connection between existing state highways;

(c) Connects places exhibiting one or more of the following characteristics:

(i) A population center of one thousand or greater;

(ii) An area or aggregation of areas having a population equivalency of one thousand or more, such as, but not limited to, recreation areas, military installations, and so forth;

(iii) A county seat;

(iv) A major commercial-industrial terminal in a rural area with a population equivalency of one thousand or greater; or

(d) Is designated as a scenic and recreational highway.

(3) An urban highway route that meets any of the following criteria should be designated as part of the state highway system:

(a) Is designated as part of the interstate system;

(b) Is designated as part of the system of numbered United States routes;

(c) Is an urban extension of a rural state highway into or through an urban area and is necessary to form an integrated system of state highways;

(d) Is a principal arterial that is a connecting link between two state highways and serves regionally oriented through traffic in urbanized areas with a population of fifty thousand or greater, or is a spur that serves regionally oriented traffic in urbanized areas.

(4) The following guidelines are intended to be used as a basis for interpreting and applying the criteria to specific routes:

(a) For any route wholly within one or more contiguous jurisdictions which would be proposed for transfer to the state highway system under these criteria, if local officials prefer, responsibility will remain at the local level.

(b) State highway routes maintain continuity of the system by being composed of routes that join other state routes at both ends or to arterial routes in the states of Oregon and Idaho and the Province of British Columbia.

(c) Public facilities may be considered to be served if they are within approximately two miles of a state highway.

(d) Exceptions may be made to include:

(i) Rural spurs as state highways if they meet the criteria relative to serving population centers of one thousand or greater population or activity centers with population equivalencies or an aggregated population of one thousand or greater;

(ii) Urban spurs as state highways that provide needed access to Washington state ferry terminals, state parks, major seaports, and trunk airports; and

(iii) Urban connecting links as state highways that function as needed bypass routing of regionally oriented through traffic and benefit truck routing, capacity alternative, business congestion, and geometric deficiencies.

(e) In urban and urbanized areas:

(i) Unless they are significant regional traffic generators, public facilities such as state hospitals, state correction centers, state universities, ferry terminals, and military bases do not constitute a criteria for establishment of a state highway; and

(ii) There may be no more than one parallel nonaccess controlled facility in the same corridor as a freeway or limited access facility as designated by the metropolitan planning organization.

(f) When there is a choice of two or more routes between population centers, the state route designation shall normally be based on the following considerations:

(i) The ability to handle higher traffic volumes;

(ii) The higher ability to accommodate further development or expansion along the existing alignment;

(iii) The most direct route and the lowest travel time;

(iv) The route that serves traffic with the most interstate, statewide, and interregional significance;

(v) The route that provides the optimal spacing between other state routes; and

(vi) The route that best serves the comprehensive plan for community development in those areas where such a plan has been developed and adopted.

(g) A route designated in chapter 47.39 RCW as a scenic and recreational highway may be designated as a state highway in addition to a parallel state highway route. [1993 c 430 § 1; 1990 c 233 § 1.]

47.17.005 State route No. 2. A state highway to be known as state route number 2 is established as follows:

Beginning at a junction with state route number 5 in Everett, thence easterly by way of Monroe, Stevens Pass, and Leavenworth to a junction with state route number 97 in the vicinity of Peshastin; also

From a junction with state route number 97 in the vicinity of Peshastin, thence easterly by way of Wenatchee, to a junction with state route number 97 in the vicinity of Orondo, thence easterly by way of Waterville, Wilbur, and Davenport to a junction with state route number 90 in the vicinity west of Spokane; also

Beginning at a junction with state route number 90 at Spokane, thence northerly to a junction with state route number 395 in the vicinity north of Spokane; also

47.20.635 University of Washington approach—Ordinance requisite—Construction and maintenance. No action may be taken by the department for the acquisition of real estate, rights, and interests for the approach and underpass to the University of Washington unless and until the city of Seattle, through its legislative authority, enacts an ordinance providing that the city of Seattle will, within three months after the necessary real estate, rights, and interests have been secured by the state as provided in this chapter, begin the work of grading, paving, and such other work as is necessary to complete and render available for use of the public, the approach and underpass and approaches to the underpass; and further providing that the city of Seattle shall thereafter keep and maintain the approach and underpass and approach to the underpass in a good state of repair and suitable for public travel and use, which construction and maintenance work the city of Seattle is hereby authorized and empowered to do and perform. Severability—1984 c 7: See note following RCW 47.01.141.

47.20.645 Interstate 90 corridor—Legislative finding. The legislature finds that the department initiated route studies for the location of that segment of the national system of interstate and defense highways (interstate system) between south Bellevue and state route No. 5 in Seattle in 1957 culminating in a corridor public hearing and adoption of a corridor in 1963; that thereafter the department, utilizing a multidisciplinary design team and soliciting the broadest public participation, developed a series of designs culminating in a public design hearing in 1970, a public limited access hearing in 1971, and adoption of a design and limited access plan for the facility in 1971; that commencing in 1970 the proposed facility has been the subject of numerous lawsuits and administrative proceedings that have prevented advancement of the project to construction; that since further development of the project was enjoined by federal courts in 1971 the cost of constructing the project has increased by more than one hundred million dollars; that the traffic congestion and traffic hazards existing in the existing highway corridor between south Bellevue, Mercer Island, and the city of Seattle are no longer tolerable; that after more than seventeen years of studies the public interest now requires that final decisions regarding the appropriate system for meeting the

(2008 Ed.)

transportation requirements between south Bellevue and the city of Seattle be made promptly and in accordance with a prescribed schedule.

It is therefore the sense of the legislature that further protracted delay in establishing the transportation system to be constructed between south Bellevue and state route No. 5 in the city of Seattle is contrary to the interest of the people of this state and can no longer be tolerated as acceptable public administration. Accordingly the schedule for finally determining the character of transportation modes between south Bellevue and state route No. 5 in the city of Seattle as set forth in RCW 47.20.645 through 47.20.653 and 47.20.900 is adopted as the public policy of this state. [1984 c 7 § 149; 1975 1st ex.s. c 272 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.20.647 Interstate 90 corridor—Withdrawal of local governments from project—Effect on use of state funds. (1) The Puget Sound council of governments (until July 1, 1975, known as the Puget Sound governmental conference) now engaged in a study of the withdrawal from the interstate system of that segment of state route No. 90 between the south Bellevue interchange and the Connecticut street interchange on state route No. 5 and the substitution of public mass transit projects in lieu thereof as authorized by section 103(e)(4) of Title 23, United States Code, is directed to complete all phases of the study by November 1, 1975.

(2) No later than January 15, 1976, the city councils of Seattle, Mercer Island and Bellevue and the county council of King County shall each by resolution either approve or disapprove a request to withdraw from the interstate system the segment of state route No. 90 between south Bellevue interchange and the Connecticut street interchange on state route No. 5. Nothing in this subsection shall be construed as requiring the city or county councils to adopt by January 15, 1976 any proposal for substitute mass transit projects.

(3) If at least three of the four city and county councils request withdrawal from the interstate system of the designated segment of state route No. 90 by January 15, 1976, and such request is thereafter concurred in by the governor and the Puget Sound council of governments, such determination shall be final as it relates to the state of Washington and except as may be required to terminate the project in an orderly manner, no moneys shall thereafter be expended from the motor vehicle fund for further development of the designated section of highway as an interstate highway without further express authorization of the legislature.

(4) If fewer than three of the four city and county councils request withdrawal from the interstate system of the designated segment of state route No. 90 by January 15, 1976, or if the governor does not concur in the withdrawal request, then no tax revenues collected by the state of Washington shall thereafter be expended for the construction of substitute public mass transit projects in the Seattle metropolitan area pursuant to section 103(e)(4) of Title 23, United States Code, without further express authorization of the legislature. [1975 1st ex.s. c 272 § 2.]

47.20.653 Interstate 90 corridor—Court proceedings, priority. State court proceedings instituted to chal-

lenge the validity of any steps taken in pursuance of the construction of the segment of the interstate system between south Bellevue and state route No. 5 in Seattle, or the construction of substitute public mass transit projects in lieu thereof, shall take precedence over all other causes not involving the public interest in all courts of this state to the end construction of such facilities may be expedited to the fullest. The legislature of the state of Washington respectfully requests of the federal judiciary that challenges instituted in the federal courts relating to the validity of steps leading to the construction of the designated interstate highway or substitute public mass transit projects in lieu thereof be expedited to the fullest. [1975 1st ex.s. c 272 § 5.]

47.20.700 State route No. 504 (Spirit Lake Memorial Highway)—Extension and parking facilities. The department of transportation may provide for the construction of an extension of state route number 504 from the vicinity of Maple Flats to the vicinity of the United States Corps of Engineers debris dam on the north fork of the Toutle river on an alignment to be approved by the department of transportation. The department may enter into an agreement with the principal owner of the necessary right-of-way providing as follows:

(1) The owner of the right-of-way shall construct the highway extension and public parking facilities as specified by the department of transportation.

(2) The owner of the right-of-way shall convey to the state, right-of-way for the highway extension a minimum of one hundred fifty feet in width (except right-of-way presently under the control of the department of natural resources), together with areas for public parking facilities as designated by the department of transportation.

(3) The department of transportation shall reimburse the present owner of the right-of-way for the actual cost of construction of the highway extension and the public parking facilities.

(4) The construction of the highway extension and public parking facilities shall be completed within one year after March 27, 1982.

The department of transportation may acquire that part of the right-of-way necessary for the highway extension that is now under the control of the department of natural resources in the manner provided in RCW 47.12.023 through 47.12.029.

All expenditures by the department of transportation pursuant to this section shall be from appropriations for the construction of category A projects. [1982 c 82 § 2.]

47.20.710 Quinault Tribal Highway—Agreement authorized—Route. The department of transportation is authorized to enter into a cooperative agreement with the governing authority for the Indian peoples of the Quinault Indian Reservation and appropriate agencies of the United States for the location, design, right-of-way acquisition, construction, and maintenance of a highway beginning at the south boundary of the Quinault Indian reservation on state route number 109, thence northerly along the present right-of-way of state route number 109 to the township line, thence inland and northerly across the Raft river to an intersection

with state route number 101 south of Queets. The highway shall be known as the "Tribal Highway" and may also be designated by the department as state route number 109. It is anticipated that this highway construction will be funded from federal sources other than normal federal aid highway allocations. [1985 c 228 § 1.]

State route number 109: RCW 47.17.200.

47.20.715 Quinault Tribal Highway—Maintenance, operation, improvements—Intersections, access. As a part of the agreement, the department may assume responsibility for the operation and maintenance and future improvement of the highway. The agreement may also reserve to the governing authority for the Indian peoples of the Quinault Indian Reservation authority to construct public road intersections or grade separation crossings of the highway. Existing rights of access from adjoining property to existing state route number 109 from the south reservation boundary to the township line shall not be affected by RCW 47.20.710 through 47.20.735 or the agreement authorized by RCW 47.20.710. [1985 c 228 § 2.]

47.20.720 Quinault Tribal Highway—Certain portion as limited access. The department is authorized to determine the location of the highway from the township line to a junction with state route number 101 after consultations with the governing authority for the Indian peoples of the Quinault Indian Reservation and the bureau of Indian affairs. The department may then proceed with the establishment of this section of the highway as a limited access facility in the manner prescribed in RCW 47.52.131 through 47.52.137 and 47.52.195 (and the administrative rules adopted by the department to implement those sections), subject, however, to the following conditions: (1) The access report required by RCW 47.52.131 shall be approved by the governing authority for the Indian peoples of the Quinault Indian Reservation before public hearings; and (2) the final limited access plan adopted pursuant to RCW 47.52.137 at the conclusion of the public hearing, or after any appeal from it has been decided, shall be approved by the governing authority for the Indian peoples of the Quinault Indian Reservation and the bureau of Indian affairs before right-of-way is acquired for this section of highway. [1985 c 228 § 3.]

47.20.725 Quinault Tribal Highway—Acquisition of remaining right-of-way. The department is authorized to acquire the remaining right-of-way for the Tribal Highway by purchase or by condemnation under state or federal eminent domain statutes. The secretary of transportation pursuant to the agreement is authorized to convey by deed to the governing authority for the Indian peoples of the Quinault Indian Reservation the right-of-way to the entire highway when fully acquired in return for a conveyance by the governing authority for the Indian peoples of the Quinault Indian Reservation to the state of Washington of a perpetual easement for public travel on the through lanes and shoulders of the highway when constructed. The agreement may also authorize the governing authority for the Indian peoples of the Quinault Indian Reservation to convey to the United States an easement to construct, maintain, and repair the

highway improvements if such an easement is required by regulations of the bureau of Indian affairs. [1985 c 228 § 4.]

47.20.730 Quinault Tribal Highway—Department as agent. Except as otherwise provided by RCW 47.20.710 through 47.20.735 or by the agreement authorized by RCW 47.20.710, the department may proceed with the location, design, acquisition of right-of-way, construction, and maintenance of the highway as an agent of the governing authority for the Indian peoples of the Quinault Indian Reservation in accordance with applicable state or federal law. [1985 c 228 § 5.]

47.20.735 Quinault Tribal Highway—Authority to seek federal funding. The department is authorized to join with the governing authority for the Indian peoples of the Quinault Indian Reservation to seek federal funding for the construction of the Tribal Highway. [1985 c 228 § 6.]

47.20.780 Design-build—Competitive bidding. The department of transportation shall develop a process for awarding competitively bid highway construction contracts for projects over ten million dollars that may be constructed using a design-build procedure. As used in this section and RCW 47.20.785, "design-build procedure" means a method of contracting under which the department of transportation contracts with another party for the party to both design and build the structures, facilities, and other items specified in the contract.

The process developed by the department must, at a minimum, include the scope of services required under the design-build procedure, contractor prequalification requirements, criteria for evaluating technical information and project costs, contractor selection criteria, and issue resolution procedures. [2007 c 152 § 1; 2001 c 226 § 2.]

Findings—Purpose—2001 c 226: "The legislature finds and declares that a contracting procedure that facilitates construction of transportation facilities in a more timely manner may occasionally be necessary to ensure that construction can proceed simultaneously with the design of the facility. The legislature further finds that the design-build process and other alternative project delivery concepts achieve the goals of time savings and avoidance of costly change orders.

The legislature finds and declares that a 2001 audit, conducted by Talbot, Korvola & Warwick, examining the Washington state ferries' capital program resulted in a recommendation for improvements and changes in auto ferry procurement processes. The auditors recommended that auto ferries be procured through use of a modified request for proposals process whereby the prevailing shipbuilder and Washington state ferries engage in a design and build partnership. This process promotes ownership of the design by the shipbuilder while using the department of transportation's expertise in ferry design and operations. Alternative processes like design-build partnerships can promote innovation and create competitive incentives that increase the likelihood of finishing projects on time and within the budget.

The purpose of this act is to authorize the department's use of a modified request for proposals process for procurement of auto ferries, and to prescribe appropriate requirements and criteria to ensure that contracting procedures for this procurement process serve the public interest." [2001 c 226 § 1.]

47.20.785 Design-build—Qualified projects. (1) The department of transportation may use the design-build procedure for public works projects over ten million dollars where:

(a) The construction activities are highly specialized and a design-build approach is critical in developing the construction methodology; or

(b) The projects selected provide opportunity for greater innovation and efficiencies between the designer and the builder; or

(c) Significant savings in project delivery time would be realized.

(2) To test the applicability of the design-build procedure on smaller projects and specialty projects, the department may conduct up to five pilot projects on projects that cost between two and ten million dollars. The department shall evaluate these pilot projects with respect to cost, time to complete, efficiencies gained, if any, and other pertinent information to facilitate analysis regarding the further use of the design-build process on projects of this size. [2006 c 37 § 1; 2001 c 226 § 3.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

47.20.900 Severability—1975 1st ex.s. c 272. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1975 1st ex.s. c 272 § 6.]

47.24.020 Jurisdiction, control. The jurisdiction, control, and duty of the state and city or town with respect to such streets is as follows:

(1) The department has no authority to change or establish any grade of any such street without approval of the governing body of such city or town, except with respect to limited access facilities established by the commission;

(2) The city or town shall exercise full responsibility for and control over any such street beyond the curbs and if no curb is installed, beyond that portion of the highway used for highway purposes. However, within incorporated cities and towns the title to a state limited access highway vests in the state, and, notwithstanding any other provision of this section, the department shall exercise full jurisdiction, responsibility, and control to and over such facility as provided in chapter 47.52 RCW;

(3) The department has authority to prohibit the suspension of signs, banners, or decorations above the portion of such street between the curbs or portion used for highway purposes up to a vertical height of twenty feet above the surface of the roadway;

(4) The city or town shall at its own expense maintain all underground facilities in such streets, and has the right to construct such additional underground facilities as may be necessary in such streets. However, pavement trenching and restoration performed as part of installation of such facilities must meet or exceed requirements established by the department;

(5) The city or town has the right to grant the privilege to open the surface of any such street, but all damage occasioned thereby shall promptly be repaired either by the city or town itself or at its direction. Pavement trenching and restoration performed under a privilege granted by the city under this subsection must meet or exceed requirements established by the department;

(6) The city or town at its own expense shall provide street illumination and shall clean all such streets, including storm sewer inlets and catch basins, and remove all snow, except that the state shall when necessary plow the snow on the roadway. In cities and towns having a population of twenty-five thousand or less according to the latest determination of population by the office of financial management, the state, when necessary for public safety, shall assume, at its expense, responsibility for the stability of the slopes of cuts and fills and the embankments within the right-of-way to protect the roadway itself. When the population of a city or town first exceeds twenty-five thousand according to the determination of population by the office of financial man-

agement, the city or town shall have three years from the date of the determination to plan for additional staffing, budgetary, and equipment requirements before being required to assume the responsibilities under this subsection. The state shall install, maintain, and operate all illuminating facilities on any limited access facility, together with its interchanges, located within the corporate limits of any city or town, and shall assume and pay the costs of all such installation, maintenance, and operation incurred after November 1, 1954;

(7) The department has the right to use all storm sewers on such highways without cost; and if new storm sewer facilities are necessary in construction of new streets by the department, the cost of the facilities shall be borne by the state and/or city as may be mutually agreed upon between the department and the governing body of the city or town;

(8) Cities and towns have exclusive right to grant franchises not in conflict with state laws and rules, over, beneath, and upon such streets, but the department is authorized to enforce in an action brought in the name of the state any condition of any franchise which a city or town has granted on such street. No franchise for transportation of passengers in motor vehicles may be granted on such streets without the approval of the department, but the department shall not refuse to approve such franchise unless another street conveniently located and of strength of construction to sustain travel of such vehicles is accessible;

(9) Every franchise or permit granted any person by a city or town for use of any portion of such street by a public utility must require the grantee or permittee to restore, repair, and replace any portion of the street damaged or injured by it to conditions that meet or exceed requirements established by the department;

(10) The city or town has the right to issue overload or overwidth permits for vehicles to operate on such streets or roads subject to regulations printed and distributed to the cities and towns by the department;

(11) Cities and towns shall regulate and enforce all traffic and parking restrictions on such streets, but all regulations adopted by a city or town relating to speed, parking, and traffic control devices on such streets not identical to state law relating thereto are subject to the approval of the department before becoming effective. All regulations pertaining to speed, parking, and traffic control devices relating to such streets heretofore adopted by a city or town not identical with state laws shall become null and void unless approved by the department heretofore or within one year after March 21, 1963;

(12) The department shall erect, control, and maintain at state expense all route markers and directional signs, except street signs, on such streets;

(13) The department shall install, operate, maintain, and control at state expense all traffic control signals, signs, and traffic control devices for the purpose of regulating both pedestrian and motor vehicular traffic on, entering upon, or leaving state highways in cities and towns having a population of twenty-five thousand or less according to the latest determination of population by the office of financial management. Such cities and towns may submit to the department a plan for traffic control signals, signs, and traffic control devices desired by them, indicating the location, nature of installation, or type thereof, or a proposed amendment to

such an existing plan or installation, and the department shall consult with the cities or towns concerning the plan before installing such signals, signs, or devices. Cities and towns having a population in excess of twenty-five thousand according to the latest determination of population by the office of financial management shall install, maintain, operate, and control such signals, signs, and devices at their own expense, subject to approval of the department for the installation and type only. When the population of a city or town first exceeds twenty-five thousand according to the determination of population by the office of financial management, the city or town shall have three years from the date of the determination to plan for additional staffing, budgetary, and equipment requirements before being required to assume the responsibilities under this subsection. For the purpose of this subsection, striping, lane marking, and channelization are considered traffic control devices;

(14) All revenue from parking meters placed on such streets belongs to the city or town;

(15) Rights-of-way for such streets shall be acquired by either the city or town or by the state as shall be mutually agreed upon. Costs of acquiring rights-of-way may be at the sole expense of the state or at the expense of the city or town or at the expense of the state and the city or town as may be mutually agreed upon. Title to all such rights-of-way so acquired shall vest in the city or town: PROVIDED, That no vacation, sale, rental, or any other nontransportation use of any unused portion of any such street may be made by the city or town without the prior written approval of the department; and all revenue derived from sale, vacation, rental, or any nontransportation use of such rights-of-way shall be shared by the city or town and the state in the same proportion as the purchase costs were shared;

(16) If any city or town fails to perform any of its obligations as set forth in this section or in any cooperative agreement entered into with the department for the maintenance of a city or town street forming part of the route of a state highway, the department may notify the mayor of the city or town to perform the necessary maintenance within thirty days. If the city or town within the thirty days fails to perform the maintenance or fails to authorize the department to perform the maintenance as provided by RCW 47.24.050, the department may perform the maintenance, the cost of which is to be deducted from any sums in the motor vehicle fund credited or to be credited to the city or town. 47.24.030 Acquisition of rights-of-way—Condemnation proceedings. The department is authorized to acquire rights-of-way, by purchase, gift, or condemnation for any such streets, highways, bridges, and wharves. Any such condemnation proceedings shall be exercised in the manner provided by law for condemnation proceedings to acquire lands

required for state highways. [1984 c 7 § 151; 1961 c 13 § 47.24.030. Prior: 1949 c 220 § 5, part; 1945 c 250 § 1, part; 1943 c 82 § 10, part; 1937 c 187 § 61, part; Rem. Supp. 1949 § 6450-61, part.]

47.24.040 Street fund—Expenditures on streets forming part of state highway. All funds accruing to the credit of incorporated cities and towns in the motor vehicle fund shall be paid monthly to such incorporated cities and towns and shall, by the respective cities and towns, be placed in a fund to be designated as "city street fund" and disbursed as authorized and directed by the legislative authority of the city or town, as agents of the state, for salaries and wages, material, supplies, equipment, purchase or condemnation of right-of-way, engineering or any other proper highway or street purpose in connection with the construction, alteration, repair, improvement or maintenance of any city street or bridge, or viaduct or underpassage along, upon or across such streets. Such expenditure may be made either independently or in conjunction with any federal, state or any county funds. [1961 c 13 § 47.24.040. 47.24.050 Aid on streets by state or county—Payment. If a city or town, whether or not any of its streets are designated as forming a part of a state highway, is unable to construct, repair, or maintain its streets for good cause, or if it is in need of engineering assistance to construct, repair, or maintain any of its streets, it may authorize the department to perform such construction, repair, or maintenance, or it may secure necessary engineering assistance from the department, to the extent of the funds credited or to be credited in the motor vehicle fund for payment to the city or town. Any sums due from a city or town for such purposes shall be paid on vouchers approved and submitted by the department from moneys credited to the city or town in the motor vehicle fund, and the amount of the payments shall be deducted from funds which would otherwise be paid to the city or town from the motor vehicle fund. The department may in certain special cases, in its discretion, enter into an agreement with the governing officials of the city or town for the performance of such work or services, the terms of which shall provide for reimbursement of the motor vehicle fund for the benefit of the state's share of the fund by the city or town of the cost thereof from any funds of the city or town on hand and legally available for the work or services. The city or town may, by resolution, authorize the legislative authority of the county in which it is located, to perform any such construction, repair, or maintenance, and the work shall be paid for by the city or town at the actual cost thereof as provided for payment for work performed on city streets, and any payment received therefor by a county shall be deposited in the county road fund to be expended under the same provisions as are imposed upon the funds used to perform the construction, repair, or maintenance. Projects must be consistent with any adopted high capacity transportation plan, must consider existing or reasonably foreseeable congestion levels attributable to economic development or growth and all modes of transportation and safety, and must be partially funded by local government or private contributions, or a combination of such contributions. Priority consideration shall be given to those projects with the greatest percentage of local or private contribution, or both.

Within one year after board approval of an application for funding, the lead agency shall provide written certification to the board of the pledged local and private funding for the phase of the project approved. These payments shall at no time exceed the account share of the costs incurred to the date of the voucher covering such payment. 47.26.270 Matching funds requirements. Counties, cities, towns, and transportation benefit districts receiving

funds from the board shall provide such matching funds as established by rules adopted by the transportation improvement board. When determining matching requirements, the board shall consider (1) financial resources available to counties and cities to meet arterial needs, (2) the amounts and percentages of funds available for road or street construction traditionally expended by counties and cities on arterials, (3) in the case of counties, the relative needs of arterials lying outside urban areas, and (4) the requirements necessary to avoid diversion of funds traditionally expended for arterial construction to other street or road purposes or to nonhighway purposes. 47.26.282 Land use implications. In any project funded by the transportation improvement board, except for projects in cities having a population of less than five thousand persons, and in addition to any other items required to be considered by statute, the board also shall consider the land use implications of the project, such as whether the programs and projects:

- (1) Support development in and revitalization of existing downtowns;
- (2) Implement local comprehensive plans for rural and urban residential and nonresidential densities;
- (3) Have land use planning and regulations encouraging compact development for rural and urban residential and nonresidential densities; and
- (4) Promote the use of multimodal transportation. [2002 c 189 § 5.]

47.26.300 Bicycle routes—Legislative declaration. The state of Washington is confronted with emergency shortages of energy sources utilized for the transportation of its citizens and must seek alternative methods of providing public mobility.

Bicycles are suitable for many transportation purposes, and are pollution-free in addition to using a minimal amount of resources and energy. However, the increased use of bicycles for both transportation and recreation has led to an increase in both fatal and nonfatal injuries to bicyclists.

The legislature therefore finds that the establishment, improvement, and upgrading of bicycle routes is necessary to promote public mobility, conserve energy, and provide for the safety of the bicycling and motoring public. [1974 ex.s. c 141 § 1.]

47.26.305 Bicycle routes—Use of board funds. Bicycle routes shall, when established in accordance with RCW 47.06.100 be eligible for establishment, improvement, and upgrading with board funds. The board shall adopt rules and procedures that will encourage the development of a system of bicycle routes within counties, cities, and towns. [1994 c 179 § 21; 1988 c 167 § 28; 1974 ex.s. c 141 § 2.]

Savings—Severability—1988 c 167: See notes following RCW 47.26.121.

47.26.320 Advance right-of-way acquisition—Definition. The term "advance right-of-way acquisition" as used in this chapter means the acquisition of property and property rights, together with the engineering costs necessary for the advance right-of-way acquisition. Property or property rights purchased must be for projects approved by the transportation improvement board or the county road administration board as part of a city or county six-year plan or program. [2001 c 201 § 1.]

47.26.325 Advance right-of-way acquisition—Revolving fund. The city and county advance right-of-way revolving fund is created in the custody of the treasurer. The transportation improvement board is the administrator of the fund and may deposit directly and spend without appropriation.

The transportation improvement board and the county road administration board, in consultation with the association of Washington cities and the Washington association of counties, shall adopt reasonable rules and develop policies to implement this program. [2001 c 201 § 2.]

47.26.330 Advance right-of-way acquisition—Management of properties and funds. (1) After any properties or property rights are acquired through funds in the city and county advance right-of-way revolving fund, the acquiring city or county is responsible for the management of the properties in accordance with sound business practices and shall provide annual status reports to the board. Funds received by the city or county from the interim management of the properties must be deposited into the city and county advance right-of-way revolving fund.

(2) When the city or county proceeds with the construction of an arterial project that will require the use of any of the property so acquired, the city or county shall reimburse the city and county advance right-of-way revolving fund. Reimbursement must reflect the original cost of the acquired property or property rights required for the project plus an interest rate as determined annually by the board. The board shall report on the interest rate set to the transportation committees through its annual report.

(3) When the city or county determines that any properties or property rights acquired from funds in the city and county advance right-of-way revolving fund will not be required for an arterial construction project or the property has been held by the city or county for more than six years, the city or county shall either sell the property at fair market value or reimburse the fund at fair market value. All proceeds of the sale must be deposited in the city and county advance right-of-way revolving fund. At the board's discretion, a portion of savings on transportation improvement board projects realized through the use of the city and county advance [right-of-way] revolving fund may be deposited back into the city and county advance right-of-way revolving fund.

(4) Deposits in the fund may be reexpended without further or additional appropriations. [2001 c 201 § 3.]

[Title 47 RCW—page 104]

47.26.340 Small city pavement and sidewalk account.

The small city pavement and sidewalk account is created in the state treasury. All state money allocated to the small city pavement and sidewalk account for the ongoing support of cities and towns must be deposited into the account. Money in the account may be spent only after appropriation. Expenditures from the account must be used for small city pavement and sidewalk projects or improvements selected by the board in accordance with RCW 47.26.164 or 47.26.345, to pay principal and interest on bonds authorized for these projects or improvements, to make grants or loans in accordance with this chapter, or to pay for engineering feasibility studies selected by the board. [2007 c 148 § 4; 2005 c 83 § 2.]

Findings—2005 c 83: "The state legislature finds that it is in the state's interest to support the economic vitality of all cities and towns and recognizes that those cities and towns with a population of less than five thousand are unable to fully maintain and preserve their street system. Therefore, the legislature finds it is necessary to create a small city pavement and sidewalk account." [2005 c 83 § 1.]

Effective dates—2005 c 83: "Except for section 5 of this act which takes effect July 1, 2006, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2005." [2005 c 83 § 6.]

47.26.345 Small city pavement and sidewalk funding.

All cities and towns with a population of less than five thousand are eligible to receive money from the small city pavement and sidewalk account created under RCW 47.26.340 for maintenance, repair, and resurfacing of city and town streets. The board shall determine the allocation of money based on:

(1) The amount of available funds within the small city pavement and sidewalk account;

(2) Whether the city or town meets one or more of the following criteria:

(a) The city or town has identified a street in a six-year transportation improvement plan, as defined by RCW 35.77.010, or a project identified through the use of a pavement management system;

(b) The city or town has provided pavement rating information on the proposed street improvement or street network improvement;

(c) The city or town has provided sidewalk information on the proposed sidewalk system improvement;

(d) The city or town has provided information, where available, on traffic conditions for truck routes, bus routes, and traffic volumes;

(e) The city or town has the ability to provide a local match as demonstrated by one or more of the following:

(i) A funding match based upon a city's assessed valuation;

(ii) Community involvement and support, including volunteer participation, such as landscaping and maintaining landscaping along the street or sidewalk system; or

(iii) Partnership efforts with federal or other state programs, including the department of community, trade, and economic development mainstreet program. [2005 c 83 § 3.]

The issuance, sale, and retirement of the bonds shall be under the supervision and control of the state finance committee which, upon request being made by the commission, shall provide for the issuance, sale, and retirement of coupon or registered bonds to be dated, issued, and sold from time to time in such amounts as shall be requested by the commission. [1984 c 7 § 161; 1973 1st ex.s. c 169 § 1; 1967 ex.s. c 83 § 36.]

The bonds shall be signed by the governor and the state treasurer under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. (2008 Ed.)

47.26.403 Bonds—Bond proceeds—Deposit and use.

The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the construction of state highways within the urban areas of the state, and for payment of the expenses incurred in the printing, issuance, and sale of any such bonds. [1967 ex.s. c 83 § 39.]

47.26.404 Bonds—Statement describing nature of obligation—Pledge of excise taxes. Bonds issued under the provisions of RCW 47.26.400 through 47.26.407 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal of and interest on such bonds shall be first payable in the manner provided in RCW 47.26.400 through 47.26.407 from the proceeds of state excise taxes on motor vehicle fuels imposed by chapter 82.36 RCW and *chapter 82.40 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of RCW 47.26.400 through 47.26.407, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of RCW 47.26.400 through 47.26.407. [1973 1st ex.s. c 169 § 3; 1967 ex.s. c 83 § 40.]

***Reviser's note:** Chapter 82.40 RCW was repealed by 1971 ex.s. c 175 § 33; for later enactment, see chapter 82.38 RCW.

47.26.405 Bonds—Designation of funds to repay bonds and interest. Any funds required to repay such bonds, or the interest thereon when due shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state under the provisions of *RCW 46.68.090(1)(c) for construction of state highways in urban areas, and shall never constitute a charge against any allocations of any other such funds to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available to the state for construction of state highways in urban areas proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1999 c 269 § 5; 1977 ex.s. c 317 § 17; 1967 ex.s. c 83 § 41.]

***Reviser's note:** RCW 46.68.090 was amended by 2003 c 361 § 403, changing subsection (1)(c) to subsection (2)(a).

47.26.406 Bonds—Repayment procedure—Bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.405, the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which shall be required

to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the bond retirement fund, hereby created, which fund shall be available solely for payment of interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1967 ex.s. c 83 § 42.]

47.26.407 Bonds—Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle fuels payable into the bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1967 ex.s. c 83 § 43.]

The issuance, sale, and retirement of said bonds shall be under the supervision and control of the state finance committee which, upon request being made by the transportation improvement board, shall provide for the issuance, sale, and retirement of coupon or registered bonds to be dated, issued, and sold from time to time in such amounts as shall be requested by the transportation improvement board. 47.26.4254 Bonds—Series III bonds—Designation of funds to repay bonds and interest. (1) Any funds required to repay series III bonds authorized by RCW 47.26.420, or the interest thereon, when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and that is distributed to the urban arterial trust account in the motor vehicle fund pursuant to *RCW 46.68.090(1)(g), subject, however, to the prior lien of the first authorization of bonds authorized by RCW 47.26.420. If the moneys so distributed to the urban arterial trust account, after first being applied to administrative expenses of the transportation improvement board and to the requirements of bond retirement and payment of interest on first authorization bonds and series II bonds as provided in RCW 47.26.425 and 47.26.4252, are insufficient to meet the requirements for bond retirement or interest on any series III bonds, the amount required to make such payments on series III bonds or interest thereon shall next be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090, subject, however, to subsection (2) of this section.

(2) To the extent that moneys so distributed to the urban arterial trust account are insufficient to meet the requirements for bond retirement or interest on any series III bonds, sixty percent of the amount required to make such payments when due shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the state. The remaining forty percent shall first be taken from that portion of the motor vehicle fund that results from the imposition of excise taxes on motor vehicle and special fuels and that is distributed to the cities and towns pursuant to *RCW 46.68.090(1)(i) and to the counties pursuant to *RCW 46.68.090(1)(j). Of the counties', cities', and towns' share of any additional amounts required in each fiscal year, the percentage thereof to be taken from the counties' distributive share and from the cities' and towns' distributive share shall correspond to the percentage of funds authorized for specific county projects and for specific city and town projects, respectively, from the proceeds of series III bonds, for the period through the first eleven months of the prior fiscal year as determined by the chairman of the transportation improvement board and reported to the state finance committee and the state treasurer not later than the first working day of June.

(3) Any payments on such bonds or interest thereon taken from motor vehicle or special fuel tax revenues that are distributable to the state, counties, cities, and towns shall be repaid from the first moneys distributed to the urban arterial trust account not required for redemption of the first authorization bonds, series II bonds, or series III bonds or interest on these bonds. 47.26.4255 Bonds—Series II bonds, 1979 reenactment—Charge against fuel tax revenues. Except as otherwise provided by statute, the series II bonds issued under authority of RCW 47.26.420, as reenacted by section 3, chapter 5, Laws of 1979, the bonds authorized by RCW 47.60.560 through 47.60.640, and any general obligation bonds of the state of Washington which may be authorized by the forty-sixth legislature or thereafter and which pledge motor vehicle and special fuel excise taxes for the payment of principal and interest thereon shall be an equal charge against the revenues from such motor vehicle and special fuel excise taxes. [1979 c 5 § 9.]

Construction—1979 c 5: See note following RCW 47.26.420.

47.26.426 Bonds—Repayment procedure—Bond retirement account. At least one year prior to the date any interest is due and payable on such first authorization bonds, series II bonds, and series III bonds or before the maturity date of any such bonds, the state finance committee shall estimate, subject to the provisions of RCW 47.26.425, 47.26.4252, and 47.26.4254 the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments hereunder when due, and shall notify the state treasurer of such estimated requirement. The state treasurer, subject to RCW 47.26.425, 47.26.4252, and 47.26.4254, shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the transportation improvement board bond retirement account, maintained in the office of the state treasurer, which fund shall be available for payment of interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. 47.26.427 Bonds—Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the transportation improvement board bond retirement account, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund

[account] to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1999 c 268 § 2; 1979 c 5 § 11; 1967 ex.s. c 83 § 52.]

47.26.440 Budget for expenditures from funds administered by board—Estimate of revenues. Not later than November 1st of each even-numbered year the transportation improvement board shall prepare and present to the commission for comment and recommendation an adopted budget for expenditures from funds administered by the board during the ensuing biennium. The budget shall contain an estimate of the revenues to be credited to the several accounts and the amount, if any, of bond proceeds which the board determines should be made available through the sale of bonds in the ensuing biennium. 47.26.450 Allocation of funds—Value engineering studies—Rules. The board shall adopt rules and procedures to govern the allocation of funds subject to the appropriations actually approved by the legislature.

The board shall develop rules and procedures to require value engineering studies performed by an interagency team for certain board funded projects. When determining the process, the board shall consider the project cost, length, and complexity. [1994 c 179 § 26; 1988 c 167 § 33; 1987 c 360 § 2; 1973 1st ex.s. c 126 § 3; 1969 ex.s. c 171 § 6.]

47.26.460 Increase in funds allocated to a project—Rules—Factors. The board shall adopt reasonable rules pursuant to which funds allocated to a project may be increased upon a subsequent application of the county, city, town, or transportation benefit district constructing the project. The rules adopted by the board shall consider the following factors: (1) The financial effect of increasing the original allocation for the project upon other urban arterial projects either approved or requested; (2) whether the project for which an additional authorization is requested can be reduced in scope while retaining a usable segment; (3) whether the cost of the project shown in the original application was based upon reasonable engineering estimates; and (4) whether the requested additional authorization is to pay for an expansion in the scope of work originally approved. [1994 c 179 § 27; 1969 ex.s. c 171 § 7.]

BOND ISSUE—TRANSPORTATION PROJECTS IN URBAN AREAS

47.26.500 Issuance authorized. In order to provide funds necessary to meet the urgent construction needs on state, county, and city transportation projects, there are hereby authorized for issuance general obligation bonds of the state of Washington in the sum of one hundred million

(2008 Ed.)

dollars, which shall be issued and sold in such amounts and at such times as determined to be necessary by the state transportation improvement board. The amount of such bonds issued and sold under the provisions of RCW 47.26.500 through 47.26.507 in any biennium shall not exceed the amount of a specific appropriation therefor, from the proceeds of such bonds, for the construction of state, county, and city transportation projects. The issuance, sale, and retirement of the bonds shall be under the supervision and control of the state finance committee which, upon request being made by the board, shall provide for the issuance, sale, and retirement of coupon or registered bonds to be dated, issued, and sold from time to time in such amounts as shall be requested by the board. [2000 2nd sp.s. c 6 § 1; 1994 c 179 § 28; 1993 c 440 § 1.]

47.26.501 Term—Signatures—Registration—Negotiable instruments. Each of such bonds shall be made payable at any time not exceeding thirty years from the date of its issuance, with such reserved rights of prior redemption, bearing such interest, and such terms and conditions, as the state finance committee may prescribe to be specified therein. The bonds shall be signed by the governor and the state treasurer under the seal of the state, either or both of which signatures may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in Seattle or New York City, as to principal alone, or as to both principal and interest under such rules as the state treasurer may adopt. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued hereunder shall be fully negotiable instruments. [1993 c 440 § 2.]

47.26.502 Denominations—Manner and terms of sale—State investment. The bonds issued under RCW 47.26.500 through 47.26.507 shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. The state finance committee may obtain insurance, letters of credit, or other credit facility devices with respect to the bonds and may authorize the execution and delivery of agreements, promissory notes, and other obligations for the purpose of insuring the payment or enhancing the marketability of the bonds. Promissory notes or other obligations issued pursuant to this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purpose of retiring the bonds during the life of the project for which they were issued. Bonds issued under the provisions of RCW 47.26.500 through 47.26.507 shall be legal

investment for any of the funds of the state, except the permanent school fund. [1993 c 440 § 3.]

47.26.503 Use of proceeds. The money arising from the sale of the bonds shall be deposited in the state treasury to the credit of the transportation improvement account in the motor vehicle fund, and such money shall be available only for the construction and improvement of state, county, and city transportation projects, and for payment of the expense incurred in the printing, issuance, and sale of any such bonds. The costs of obtaining insurance, letters of credit, or other credit enhancement devices with respect to the bonds shall be considered to be expenses incurred in the issuance and sale of the bonds. [1993 c 440 § 4.]

47.26.504 Statement of obligation—Pledge of excise taxes. Bonds issued under the provisions of RCW 47.26.500 through 47.26.507 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest on such bonds shall be first payable in the manner provided in RCW 47.26.500 through 47.26.507 from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any such bonds and the interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all such bonds. [1995 c 274 § 14; 1993 c 440 § 5.]

47.26.505 Funds for repayment. Any funds required to repay such bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the transportation improvement account in the motor vehicle fund under *RCW 46.68.090(1)(h), and shall never constitute a charge against any allocations of any other such funds in the motor vehicle fund to the state, counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise tax on motor vehicle and special fuels and distributed to the transportation improvement account proves insufficient to meet the requirements for bond retirement or interest on any such bonds. [1999 sp.s. c 1 § 612. Prior: 1999 c 269 § 9; 1999 c 94 § 24; 1994 c 179 § 29; 1993 c 440 § 6.]

47.26.506 Repayment procedure—Bond retirement account. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any such bonds, the state finance committee shall estimate, sub-

ject to the provisions of RCW 47.26.505 the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle and special fuels, for each month of the year which shall be required to meet interest or bond payments under RCW 47.26.500 through 47.26.507 when due, and shall notify the state treasurer of such estimated requirement. The state treasurer, subject to RCW 47.26.505, shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the transportation improvement board bond retirement account, maintained in the office of the state treasurer, which account shall be available for payment of principal and interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. Effective date—1997 c 456 §§ 9-43: See RCW 43.99M.901.

47.26.507 Sums in excess of retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle and special fuels payable into the transportation improvement board bond retirement account, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund [account] to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1999 c 268 § 3; 1993 c 440 § 8.]

47.26.900 Severability—1967 ex.s. c 83. If any provision of this 1967 amendatory act or the application thereof to any person, firm, or corporation or circumstance is held invalid, in whole or in part, such invalidity shall not affect other provisions of the act which can be given effect without the invalid provisions or application and to this end the provisions of this 1967 amendatory act are declared to be severable. [1967 ex.s. c 83 § 55.]

47.26.910 Effective dates—1967 ex.s. c 83. This 1967 amendatory act is necessary for the immediate preservation of the public peace, health and safety, the support of the state government and its existing public institutions and sections 1 through 55 and section 56, renumbered "Sec. 62", shall take effect on the first day of the month following the approval of this act by the governor; sections 56 through 61 shall take effect on July 1, 1967 with respect to fees paid on or after July 1, 1967. Fees paid pursuant to RCW 46.16.070, 46.16.072, 46.16.075 or 46.16.120 prior to July 1, 1967 shall not be affected by this act. [1967 ex.s. c 83 § 62.]

47.26.930 Construction—1969 ex.s. c 171. The rule of strict construction shall have no application to this 1969 act or to the provisions of chapter 47.26 RCW, and they shall be liberally construed in order to carry out an effective, efficient and equitable program of financial assistance to urban area cities and counties for arterial roads and streets. 47.28.010 Latitude in selecting route. Whenever the general route of any state highway shall be designated and laid out as running to or by way of certain designated points, without specifying the particular route to be followed to or by way of such points, the department shall determine the particular route to be followed by said state highway to or by way of said designated points, and shall be at liberty to select and adopt as a part of such state highway, the whole or any part of any existing public highway previously designated as a county road, primary road, or secondary road or now or hereafter classified as a county road. The department need not select and adopt the entire routes for such state highways at one time, but may select and adopt parts of such routes from time to time as it deems advisable. Where a state highway is designated as passing by way of a certain point, this shall not require the department to cause such state highway to pass through or touch such point but such designation is direc-

tional only and may be complied with by location in the general vicinity. The department is empowered to construct as a part of any state highway as designated and in addition to any portion meeting the limits of any incorporated city or town a bypass section either through or around any such incorporated city or town. [2006 c 334 § 22; 1977 ex.s. c 151 § 59; 1961 c 13 § 47.28.010. Prior: 1937 c 53 § 31; RRS § 6400-31.]

Effective date—2006 c 334: See note following RCW 47.01.051.

47.28.020 Width of right-of-way. From and after April 1, 1937, the width of one hundred feet is the necessary and proper right-of-way width for state highways unless the department, for good cause, adopts and designates a different width. This section shall not be construed to require the department to acquire increased right-of-way for any state highway in existence on such date. [1984 c 7 § 164; 1961 c 13 § 47.28.020. Prior: 1937 c 53 § 30; RRS § 6400-30; 1913 c 65 § 8; RRS § 6831.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.025 Description and plan of new or limited access highway—Recording. Whenever the department establishes the location, width, and lines of any new highway, or declares any such new highway as a limited access facility and schedules the acquisition of the right-of-way for the highway or facility within the ensuing two years, it may cause the description and plan of any such highway to be made, showing the center line of the highway and the established width thereof, and attach thereto a certified copy of the resolution. Such description, plan, and resolution shall then be recorded in the office of the county auditor of the proper county. [1999 c 233 § 5; 1984 c 7 § 165; 1977 ex.s. c 225 § 1; 1961 c 13 § 47.28.025. Prior: 1955 c 161 § 1.]

Effective date—1999 c 233: See note following RCW 4.28.320.

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.026 Description and plan of new or limited access highway—Buildings and improvements prohibited, when. (1) No owner or occupier of lands, buildings, or improvements may erect any buildings or make any improvements within the limits of any such highway, the location, width, and lines of which have been established and recorded as provided in RCW 47.28.025. If any such erection and improvements are made, no allowances may be had therefor by the assessment of damages. No permits for improvements within the limits may be issued by any authority. The establishment of any highway location as set forth in RCW 47.28.025 is ineffective after one year from the filing thereof if no action to condemn or acquire the property within the limits has been commenced within that time.

(2) Unless and until the department causes a plan of a proposed new highway or limited access facility to be recorded in the office of the county auditor as authorized in RCW 47.28.025, nothing contained in RCW 47.28.025 or 47.28.026 may be deemed to restrict or restrain in any manner the improvement, development, or other use by owners or occupiers of lands, buildings, or improvements within the limits of any proposed new or limited access highway or any proposed relocated or widened highway. Because of the

uncertainties of federal aid and the state level of funding of proposed construction or improvement of state highways, plans for such improvements approved by the department shall be deemed tentative until filed with the county auditor as authorized in RCW 47.28.025 or until the department commences action to condemn or otherwise acquire the right-of-way for the highway improvements. [1984 c 7 § 166; 1977 ex.s. c 225 § 2; 1961 c 13 § 47.28.026. Prior: 1955 c 161 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.030 Contracts—State forces—Monetary limits—Small businesses, minority, and women contractors—Rules. A state highway shall be constructed, altered, repaired, or improved, and improvements located on property acquired for right-of-way purposes may be repaired or renovated pending the use of such right-of-way for highway purposes, by contract or state forces. The work or portions thereof may be done by state forces when the estimated costs thereof are less than fifty thousand dollars and effective July 1, 2005, sixty thousand dollars: PROVIDED, That when delay of performance of such work would jeopardize a state highway or constitute a danger to the traveling public, the work may be done by state forces when the estimated cost thereof is less than eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars. When the department of transportation determines to do the work by state forces, it shall enter a statement upon its records to that effect, stating the reasons therefor. To enable a larger number of small businesses, and minority, and women contractors to effectively compete for department of transportation contracts, the department may adopt rules providing for bids and award of contracts for the performance of work, or furnishing equipment, materials, supplies, or operating services whenever any work is to be performed and the engineer's estimate indicates the cost of the work would not exceed eighty thousand dollars and effective July 1, 2005, one hundred thousand dollars. The rules adopted under this section:

(1) Shall provide for competitive bids to the extent that competitive sources are available except when delay of performance would jeopardize life or property or inconvenience the traveling public; and

(2) Need not require the furnishing of a bid deposit nor a performance bond, but if a performance bond is not required then progress payments to the contractor may be required to be made based on submittal of paid invoices to substantiate proof that disbursements have been made to laborers, material suppliers, mechanics, and subcontractors from the previous partial payment; and

(3) May establish prequalification standards and procedures as an alternative to those set forth in RCW 47.28.070, but the prequalification standards and procedures under RCW 47.28.070 shall always be sufficient.

The department of transportation shall comply with such goals and rules as may be adopted by the office of minority and women's business enterprises to implement chapter 39.19 RCW with respect to contracts entered into under this chapter. The department may adopt such rules as may be necessary to comply with the rules adopted by the office of minority and women's business enterprises under chapter

47.28.035 Cost of project, defined. The cost of any project for the purposes of RCW 47.28.030 shall be the aggregate of all amounts to be paid for labor, material, and equipment on one continuous or interrelated project where work is to be performed simultaneously. The department shall not permit the construction of any project by state forces by dividing a project into units of work or classes of work to give the appearance of compliance with RCW 47.28.030. [1984 c 194 § 2.]

47.28.040 Precontract preparation of maps, plans, and specifications—Filing. Before entering into any contract for the construction, alteration, repair, or improvement of any state highway the department shall cause the highway to be surveyed throughout the entire length of the proposed construction, alteration, repair, or improvement and cause to be prepared maps, plans, and specifications, together with an estimate of the cost of the proposed work, and such information and directions as will enable a contractor to carry them out. The maps, plans, specifications, and directions shall be approved by the department and a copy thereof filed permanently in the department's office. [1984 c 7 § 167; 1961 c 13 § 47.28.040. Except as may be provided by rules and regulations adopted under RCW 47.28.030 as now or hereafter amended the department of transportation shall publish a call for bids for the construction of the highway according to the maps, plans, and specifications, once a week for at least two consecutive weeks, next preceding the day set for receiving and opening the bids, in not less than one trade paper of general circulation in the state. The call shall state the time, place, and date for receiving and opening the bids, give a brief description of the location and extent of the work, and contain such special provisions or specifications as the department deems necessary. When necessary to implement chapter 39.19 RCW and the rules adopted to implement that chapter, the department shall include in its call for bids provisions or specifications requiring bidders to comply with chapter 39.19 RCW and the rules adopted to implement it: PROVIDED, That when the estimated cost of any contract to be awarded is less than fifty thousand dollars, the call for bids need only be published in at least one paper of general circulation in the county where the major part of the work is to be performed: PROVIDED FURTHER, That when the estimated cost of a contract to be awarded is seven thousand five hundred dollars or less, including the cost of materials, sup-

plies, engineering, and equipment, the department of transportation need not publish a call for bids: PROVIDED FURTHER, That after a bid call has been advertised for two consecutive weeks it may be postponed and the bids opened one week later. 47.28.060 Copy of map, plans, etc.—Charge. Any person, firm, or corporation is entitled to receive copies of the maps, plans, specifications, and directions for any work upon which call for bids has been published, upon request therefor and subsequent payment to the department of a reasonable sum as required by the department in the call for bids for each copy of such maps, plans, and specifications. Any money so received shall be certified by the department to the state treasurer and deposited to the credit of the motor vehicle fund. The department may deliver with or without charge informational copies of maps, plans, specifications, and directions at such places as it may designate. [1985 c 242 § 1; 1984 c 7 § 168; 1971 c 36 § 1; 1965 ex.s. c 64 § 1; 1961 c 13 § 47.28.060. Prior: 1937 c 53 § 34; RRS § 6400-34.]

47.28.070 Form of bid—Data required—Requirements—Refusal to furnish form—Appeal. Bid proposals upon any construction or improvement of any state highway shall be made upon contract proposal form supplied by the department and in no other manner. The department shall, before furnishing any person, firm, or corporation desiring to bid upon any work for which a call for bid proposals has been published with a contract proposal form, require from the person, firm, or corporation, answers to questions contained in a standard form of questionnaire and financial statement, including a complete statement of the financial ability and experience of the person, firm, or corporation in performing state highway, road, or other public work. The questionnaire and financial statement shall be sworn to before a notary public or other person authorized to take acknowledgment of deeds, and shall be submitted once a year and at such other times as the department may require. Whenever the department is not satisfied with the sufficiency of the answers contained in the questionnaire and financial statement or whenever the department determines that the person, firm, or corporation does not meet all of the requirements set forth in this section it may refuse to furnish the person, firm, or corporation with a contract proposal form, and any bid proposal of the person, firm, or corporation must be disregarded. In order to obtain a contract proposal form, a person, firm, or corporation shall have all of the following requirements:

(1) Adequate financial resources or the ability to secure such resources;

(2) The necessary experience, organization, and technical qualifications to perform the proposed contract;

(3) The ability to comply with the required performance schedule taking into consideration all of its existing business commitments;

[1984 c 7 § 169; 1967 ex.s. c 145 § 39; 1961 c 13 § 47.28.070. Prior: 1937 c 53 § 35; RRS § 6400-35.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.075 Financial information not open to public inspection. The department of transportation shall not be required to make available for public inspection and copying financial information supplied by any person, firm, or corporation for the purpose of qualifying to submit a bid or proposal for highway construction or improvement as required by RCW 47.28.070. [1981 c 215 § 1.]

47.28.080 Withdrawal of bids—New bids—Time fixed in call controls. Any person, firm, or corporation proposing a bid for the construction or improvement of any state highway in response to a call for bids published therefor may withdraw the bid proposal without forfeiture and without prejudice to the right of the bidder to file a new bid proposal before the time fixed for the opening of the bid proposals. The request for the withdrawal shall be made in writing, signed by the person proposing the bid or his duly authorized agent, and filed at the place and before the time fixed in the call for bids for receipt of the bid proposals. No bid proposal may be considered that has not been filed with the department before the time fixed for the receipt of bid proposals. In any provisions regarding the filing or withdrawing of bid proposals the time fixed for the receipt of bid proposals in the call for bid proposals as published shall control without regard for the time when the bid proposals are actually opened. [1985 c 242 § 2; 1984 c 7 § 170; 1961 c 13 § 47.28.080. Prior: 1937 c 53 § 36; RRS § 6400-36.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.090 Opening of bids and award of contract—Deposit. At the time and place named in the call for bids the department of transportation shall publicly open and read the final figure in each of the bid proposals that have been properly filed and read only the unit prices of the three lowest bids, and shall award the contract to the lowest responsible bidder unless the department has, for good cause, continued the date of opening bids to a day certain, or rejected that bid. Any bid may be rejected if the bidder has previously defaulted in the performance of and failed to complete a written public contract, or has been convicted of a crime arising from a previous public contract. If the lowest responsible bidder fails to meet the provisions or specifications requiring compliance with chapter 39.19 RCW and the rules adopted to implement that chapter, the department may award the contract to the next lowest responsible bidder which does meet

the provisions or specifications or may reject all bids and readvertise. All bids shall be under sealed cover and accompanied by deposit in cash, certified check, cashier's check, or surety bond in an amount equal to five percent of the amount of the bid, and a bid shall not be considered unless the deposit is enclosed with it. [1985 c 242 § 3; 1983 c 120 § 17; 1971 ex.s. c 21 § 2; 1961 c 13 § 47.28.090. Prior: 1955 c 83 § 1; 1949 c 64 § 1; 1937 c 53 § 37; Rem. Supp. 1949 § 6400-37.]

47.28.100 Failure or rejection of bidder. If the successful bidder fails to enter into the contract and furnish satisfactory bond as provided by law within twenty days from the award, exclusive of the day of the award, his or her deposit shall be forfeited to the state and deposited by the state treasurer to the credit of the motor vehicle fund, and the department may award the contract to the second lowest responsible bidder. If the second lowest responsible bidder fails to enter into the contract and furnish bond within twenty days after award to him or her, forfeiture of his or her deposit shall also be made, and the contract may be awarded to the third lowest responsible bidder, and in like manner until the contract and bond are executed by a responsible bidder to whom award is made, or further bid proposals are rejected, or the number of bid proposals are exhausted. If the contract is not executed or no contractor's bond provided within the time required, and there appear circumstances that are deemed to warrant an extension of time, the department may extend the time for execution of the contract or furnishing bond for not to exceed twenty additional days. After awarding the contract the deposits of unsuccessful bidders shall be returned, but the department may retain the deposit of the next lowest responsible bidder or bidders as it desires until such time as the contract is entered into and satisfactory bond is provided by the bidder to whom the award is ultimately made. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project.

If in the opinion of the department the acceptance of the bid of the lowest responsible bidder or bidders, or on prior failure of the lowest responsible bidder or bidders the acceptance of the bid of the remaining lowest responsible bidder or bidders, will not be for the best interest of the state, it may reject all bids or all remaining bids and republish a call for bids in the same manner as for an original publication thereof. [1996 c 18 § 8; 1984 c 7 § 171; 1961 c 13 § 47.28.100. Prior: 1953 c 53 § 1; 1937 c 53 § 38; RRS § 6400-38.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.110 Sureties—Qualifications—Additional sureties. At any time and as often as it may be deemed necessary, the department may require any or all sureties or any surety company to appear and qualify themselves upon any contractor's bond. Whenever the surety or sureties upon any contractor's bond become insufficient or are deemed by the department to have become insufficient, the department may demand in writing that the contracting person, firm, or corpo-

ration furnish such further contractor's bond or bonds or additional surety in an amount not exceeding that originally required as may be deemed necessary considering the extent of the work remaining to be done upon the contract. No further payments may be made on the contract until such additional surety as is required is furnished. [1984 c 7 § 172; 1961 c 13 § 47.28.110. Prior: 1937 c 53 § 39; RRS § 6400-39.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.120 Actions for labor and materials—Limitation of action. Any contracting person, firm, or corporation performing any labor or furnishing any materials upon their contract or otherwise for public work or improvement under the direction of the department or any person claiming any right of action upon any such contract with the state of Washington or who claims a cause of action against the state of Washington arising out of any such contract must bring such suit in the proper court in Thurston county before the expiration of one hundred and eighty days from and after the final acceptance and the approval of the final estimate of such work by the department; otherwise the action is forever barred. [1984 c 7 § 173; 1961 c 13 § 47.28.120. Prior: 1937 c 53 § 40; RRS § 6400-40.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.28.140 Highway, public transportation improvements, flood damage prevention—Cooperative agreements. When in the opinion of the governing authorities representing the department and any agency, instrumentality, municipal corporation, or political subdivision of the state of Washington, any highway, road, or street will be benefited or improved by constructing, reconstructing, locating, relocating, laying out, repairing, surveying, altering, improving, or maintaining, or by the establishment adjacent to, under, upon, within, or above any portion of any such highway, road, or street of an urban public transportation system, by either the department or any agency, instrumentality, municipal corporation, or political subdivision of the state, and it is in the public interest to do so, the authorities may enter into cooperative agreements wherein either agrees to perform the work and furnish the materials necessary and pay the cost thereof, including necessary engineering assistance, which costs and expenses shall be reimbursed by the party whose responsibility it was to do or perform the work or improvement in the first instance. The work may be done by either day labor or contract, and the cooperative agreement between the parties shall provide for the method of reimbursement. In the case of some special benefit or improvement to a state highway derived from any project that assists in preventing or minimizing flood damages as defined in RCW 86.16.120 or from the construction of any public works project, including any urban public transportation system, the department may contribute to the cost thereof by making direct payment to the particular state department, agency, instrumentality, municipal corporation, or political subdivision on the basis of benefits received, but such payment shall be made only after a cooperative agreement has been entered into for a specified amount or on an actual cost basis prior to the commencement of the particular public works project. 47.28.150 Underpasses, overpasses constructed with federal funds—Maintenance cost apportionment. Notwithstanding any of the provisions of RCW 81.53.090, where the cost of constructing an overpass or underpass which is part of the state highway system has been paid for in whole or in part by the use of federal funds, the state shall at its expense maintain the entire overpass structure and the approaches thereto, and the railroad company shall at its expense maintain the entire underpass structure, including the approaches thereto. The state shall at its expense maintain the roadway, and the railroad company shall at its expense maintain its roadbed and tracks on or under all such structures. [1961 c 13 § 47.28.150. Prior: 1959 c 319 § 34.]

47.28.170 Emergency protection and restoration of highways. (1) Whenever the department finds that as a consequence of accident, natural disaster, or other emergency, an existing state highway is in jeopardy or is rendered impassible in one or both directions and the department further finds that prompt reconstruction, repair, or other work is needed to preserve or restore the highway for public travel, the department may obtain at least three written bids for the work without publishing a call for bids, and the secretary of transportation may award a contract forthwith to the lowest responsible bidder.

The department shall notify any association or organization of contractors filing a request to regularly receive notification. Notification to an association or organization of contractors shall include: (a) The location of the work to be done; (b) the general anticipated nature of the work to be done; and (c) the date determined by the department as reasonable in view of the nature of the work and emergent nature of the problem after which the department will not receive bids.

(2) Whenever the department finds it necessary to protect a highway facility from imminent damage or to perform emergency work to reopen a highway facility, the department may contract for such work on a negotiated basis not to exceed force account rates for a period not to exceed thirty working days.

(3) The secretary shall review any contract exceeding seven hundred thousand dollars awarded under subsection (1) or (2) of this section with the office of financial management within thirty days of the contract award.

(4) Any person, firm, or corporation awarded a contract for work must be prequalified pursuant to RCW 47.28.070 and may be required to furnish a bid deposit or performance bond. [2006 c 334 § 23; 1990 c 265 § 1; 1984 c 7 § 175; 1971 ex.s. c 89 § 1.]

soil cover or soil amendment to state highway rights-of-way shall specify that compost products be purchased in accordance with the following schedule:

(a) For the period July 1, 1996, through June 30, 1997, twenty-five percent of the total dollar amount purchased;

(b) For the period July 1, 1998, through June 30, 1999, fifty percent of the total dollar amount purchased. The percentages in this subsection apply to the materials' value and include services or other materials.

(2) In order to carry out the provisions of this section, the department of transportation shall develop and adopt bid specifications for compost products used in state highway construction projects.

(3)(a) For purposes of this section, "compost products" means mulch, soil amendments, ground cover, or other landscaping material derived from the biological or mechanical conversion of biosolids or cellulose-containing waste materials.

(b) For purposes of this section, "biosolids" means municipal sewage sludge or septic tank septage sludge that meets the requirements of chapter 70.95J RCW. [1996 c 198 § 4; 1992 c 174 § 14; 1991 c 297 § 14.]

(2) "Construction engineering services" include, but are not limited to, construction management, construction administration, materials testing, materials documentation, contractor payments and general administration, construction oversight, and inspection and surveying. [2003 c 363 § 102.]

***Reviser's note:** RCW 41.06.380 was repealed by 2002 c 354 § 403, effective July 1, 2005.

Part headings not law—2003 c 363: "Part headings used in this act are not part of the law." [2003 c 363 § 308.]

Severability—2003 c 363: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2003 c 363 § 309.]

47.28.251 Alternative delivery of construction services—Financial incentives—Private contracting—Reports. (1) The department of transportation shall work

with representatives of transportation labor groups to develop a financial incentive program to aid in retention and recruitment of employee classifications where problems exist and program delivery is negatively affected. The department's financial incentive program must be reviewed and approved by the legislature before it can be implemented. This program must support the goal of enhancing project delivery timelines as outlined in section 101, chapter 363, Laws of 2003. Upon receiving approval from the legislature, the department of personnel shall implement, as required, specific aspects of the financial incentive package, as developed by the department of transportation.

(2) Notwithstanding chapter 41.06 RCW, the department of transportation may acquire services from qualified private firms in order to deliver the transportation construction program to the public. Services may be acquired solely for augmenting the department's workforce capacity and only when the department's transportation construction program cannot be delivered through its existing or readily available workforce. The department of transportation shall work with representatives of transportation labor groups to develop and implement a program identifying those projects requiring contracted services while establishing a program as defined in subsection (1) of this section to provide the classified personnel necessary to deliver future construction programs. The procedures for acquiring construction engineering services from private firms may not be used to displace existing state employees nor diminish the number of existing classified positions in the present construction program. The acquisition procedures must be in accordance with chapter 39.80 RCW.

(3) Starting in December 2004, and biennially thereafter, the secretary shall report to the transportation committees of the legislature on the use of construction engineering services from private firms authorized under this section. The information provided to the committees must include an assessment of the benefits and costs associated with using construction engineering services, or other services, from private firms, and a comparison of public versus private sector costs. The secretary may act on these findings to ensure the most cost-effective means of service delivery. [2003 c 363 § 103.]

Finding—Intent—2003 c 363 §§ 103 and 104: "The legislature finds that there is a pressing need for additional transportation projects to meet the mobility needs of Washington's citizens. With major new investments approved to meet these pressing needs, additional workforce assistance is necessary to ensure and enhance project delivery timelines. Recruiting and retaining a high quality workforce, and implementing new and innovative procedures for delivering these transportation projects, is required to accomplish them on a timely basis that best serves the public. It is the intent of sections 103 and 104 of this act that no state employees will lose their employment as a result of implementing new and innovative project delivery procedures." [2003 c 363 § 101.]

47.29.010 Finding—Intent. (1) The legislature finds that the public-private transportation initiatives act created under chapter 47.46 RCW has not met the needs and expectations of the public or private sectors for the development of transportation projects. The legislature intends to phase out chapter 47.46 RCW coincident with the completion of the Tacoma Narrows Bridge - SR 16 public-private partnership. From July 24, 2005, this chapter will provide a more desirable and effective approach to developing transportation projects in partnership with the private sector by applying lessons learned from other states and from this state's ten-year experience with chapter 47.46 RCW.

(2) It is the legislature's intent to achieve the following goals through the creation of this new approach to public-private partnerships:

(a) To provide a well-defined mechanism to facilitate the collaboration between public and private entities in transportation;

(b) To bring innovative thinking from the private sector and other states to bear on public projects within the state;

(c) To provide greater flexibility in achieving the transportation projects; and

(d) To allow for creative cost and risk sharing between the public and private partners.

(3) The legislature intends that the powers granted in this chapter to the commission or department are in addition to any powers granted under chapter 47.56 RCW.

(4) It is further the intent of the legislature that an expert review panel be established for each project developed under chapter 334, Laws of 2006. Expert review panels shall be responsible for reviewing selected proposals, analyzing and reviewing tentative agreements, and making recommendations to the governor and the transportation commission on the advisability of executing agreements under chapter 334, Laws of 2006. [2006 c 334 § 48; 2005 c 317 § 1.]

Effective date—2006 c 334: See note following RCW 47.01.051.

47.29.050 Eligible projects. Projects eligible for development under this chapter include:

(1) Transportation projects, whether capital or operating, where the state's primary purpose for the project is to facilitate the safe transport of people or goods via any mode of travel. However, this does not include projects that are primarily for recreational purposes, such as parks, hiking trails, off-road vehicle trails, etc.; and

(2) Facilities, structures, operations, properties, vehicles, vessels, or the like that are developed concurrently with an eligible transportation project and that are capable of (a) providing revenues to support financing of an eligible transportation project, or (b) that are public projects that advance public purposes unrelated to transportation. (2) As security for the payment of financing described in this section, the revenues from the project may be pledged, but no such pledge of revenues constitutes in any manner or to any extent a general obligation of the state. Any financing described in this section may be structured on a senior, parity, or subordinate basis to any other financing.

(3) For any transportation project developed under this chapter that is owned, leased, used, or operated by the state, as a public facility, if indebtedness is issued, it must be issued by the state treasurer for the transportation project.

(4) For other public projects defined in RCW 47.29.050(2) that are developed in conjunction with a transportation project, financing necessary to develop, construct, or operate the public project must be approved by the state finance committee or by the governing board of a public benefit corporation as provided in the federal Internal Revenue Code section 63-20;

47.29.110 Funds for proposal evaluation and negotiation. The department may spend, out of any funds identified for the purpose, such moneys as may be necessary for the evaluation of concepts or proposals for eligible projects and for negotiating agreements for eligible projects authorized by this chapter. The department may employ engineers, consultants, or other experts the department determines are needed for the purposes of doing the evaluation and negotiation. Expenses incurred by the department under this section before the issuance of transportation project bonds or other financing must be paid by the department and charged to the appropriate project. The department shall keep records and accounts showing each amount so charged.

Unless otherwise provided in the omnibus transportation budget the funds spent by the department under this section in

connection with the project must be repaid from the proceeds of the bonds or other financing upon the sale of transportation project bonds or upon obtaining other financing for an eligible project, as allowed by law or contract. [2005 c 317 § 11.]

47.29.120 Expert consultation. The commission and department may consult with legal, financial, and other experts inside and outside the public sector in the evaluation, negotiation, and development of projects under this chapter, consistent with RCW 43.10.040 where applicable. [2005 c 317 § 12.]

47.29.130 Contracted studies. (a) For any project that proposes terms for stand-alone maintenance or asset management services for a public facility, those services must be provided in a manner consistent with any collective bargaining agreements, the personnel system reform act (chapter 41.80 RCW), and civil service laws that are in effect for the public facility;

(b) Transportation projects that are selected for development under this chapter must be identified in the Washington transportation plan or be identified by the authority as being a priority need for the state;

(2) The commission must allow at least twenty days from the public hearing on the proposed agreement required under subsection (1)(c) of this section before approving and executing any agreements authorized under this chapter. [2005 c 317 § 16.]

47.29.170 Unsolicited proposals. Before accepting any unsolicited project proposals, the commission must adopt rules to facilitate the acceptance, review, evaluation, and selection of unsolicited project proposals. These rules must include the following:

(1) Provisions that specify unsolicited proposals must meet predetermined criteria;

(2) Provisions governing procedures for the cessation of negotiations and consideration;

(3) Provisions outlining that unsolicited proposals are subject to a two-step process that begins with concept proposals and would only advance to the second step, which are fully detailed proposals, if the commission so directed;

(a) Requiring that information regarding the potential project would be published for a period of not less than thirty days, during which time entities could express interest in submitting a proposal;

(b) Specifying that if letters of interest were received during the thirty days, then an additional sixty days for submission of the fully detailed proposal would be allowed; and

(c) Procedures for what will happen if there are insufficient proposals submitted or if there are no letters of interest submitted in the appropriate time frame.

The commission may adopt other rules as necessary to avoid conflicts with existing laws, statutes, or contractual obligations of the state.

The commission may not accept or consider any unsolicited proposals before July 1, 2009. [2007 c 518 § 702; 2006 c 370 § 604; 2005 c 317 § 17.]

Severability—Effective date—2007 c 518: See notes following RCW 46.68.170.

Severability—2006 c 370: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [2006 c 370 § 701.]

An advisory committee must consist of not fewer than five and not more than nine members, as determined by the public partners. Members must be appointed by the commission, or for projects with joint public sector participation, in a manner agreed to by the commission and any participating unit of government. (2) An advisory committee shall review concepts or proposals for eligible projects and submit comments to the public sector partners.

(3) An advisory committee shall meet as necessary at times and places fixed by the department, but not less than twice per year. The state shall provide personnel services to assist the advisory committee within the limits of available funds. An advisory committee may adopt rules to govern its proceedings and may select officers.

(4) An advisory committee must be dissolved once the project has been fully constructed and debt issued to pay for the project has been fully retired. [2005 c 317 § 18.]

47.29.190 Confidentiality. A proposer shall identify those portions of a proposal that the proposer considers to be confidential, proprietary information, or trade secrets and provide any justification as to why these materials, upon

request, should not be disclosed by the authority. Patent information will be covered until the patent expires. Other information such as originality of design or records of negotiation may only be protected under this section until an agreement is reached. Disclosure must occur before final agreement and execution of the contract. Projects under federal jurisdiction or using federal funds must conform to federal regulations under the Freedom of Information Act. [2005 c 317 § 19.]

47.29.200 Prevailing wages. If public funds are used to pay any costs of construction of a public facility that is part of an eligible project, chapter 39.12 RCW applies to the entire eligible public works project. [2005 c 317 § 20.]

47.29.210 Government agreements. The state may, either separately or in combination with any other public sector partner, enter into working agreements, coordination agreements, or similar implementation agreements, including the formation of bistate transportation organizations, to carry out the joint implementation of a transportation project selected under this chapter. The state may enter into agreements with other units of government or Canadian provinces for transborder transportation projects. [2005 c 317 § 21.]

47.29.220 Eminent domain. The state may exercise the power of eminent domain to acquire property, rights-of-way, or other rights in property for projects that are necessary to implement an eligible project developed under this chapter, regardless of whether the property will be owned in fee simple by the state. [2005 c 317 § 22.]

47.29.230 Transportation innovative partnership account. (1) The transportation innovative partnership account is established in the custody of the state treasurer separate and distinct from the state general fund. Interest earned by the transportation innovative partnership account must be credited to the account. The account is subject to allotment procedures under chapter 43.88 RCW.

(2) The following moneys must be deposited into the transportation innovative partnership account:

(a) Proceeds from bonds or other financing instruments issued under RCW 47.29.250;

(b) Revenues received from any transportation project developed under this chapter or developed under the general powers granted to the department; and

(c) Any other moneys that are by donation, grant, contract, law, or other means transferred, allocated, or appropriated to the account.

(3) Moneys in the transportation innovative partnership account may only be expended upon evidence of approval by the Washington state legislature, either upon appropriation of supporting state funds or by other statutory direction.

(4) The state treasurer shall serve as a fiduciary for the purpose of carrying out this chapter and implementing all or portions of any transportation project financed under this chapter.

(5) Moneys in the transportation innovative partnership account that were derived from revenue subject to Article II, section 40 (Amendment 18) of the Washington state Consti-

tution, may be used only for purposes authorized by that provision of the state Constitution.

(6) The state treasurer shall establish separate subaccounts within the transportation innovative partnership account for each transportation project that is initiated under this chapter or under the general powers granted to the department. Except as provided in subsection (5) of this section, the state may pledge moneys in the transportation innovative partnership account to secure revenue bonds or any other debt obligations relating to the project for which the account is established. [2005 c 317 § 23.]

47.29.240 Use of account. (1) The state may use moneys in the transportation innovative partnership subaccount to ensure the repayment of loan guarantees or extensions of credit made to or on behalf of private entities engaged in the planning, acquisition, financing, development, design, construction, reconstruction, replacement, improvement, maintenance, preservation, management, repair, or operation of any eligible project that is related to a subaccount established under this chapter.

(2) The lien of a pledge made under this section is subordinate to the lien of a pledge securing bonds payable from moneys in the motor vehicle fund established in RCW 46.68.070, or the transportation innovative partnership account established in RCW 47.29.230. [2005 c 317 § 24.]

47.29.250 Issuing bonds and other obligations. (1) In addition to any authority the commission or department has to issue and sell bonds and other similar obligations, this section establishes continuing authority for the issuance and sale of bonds and other similar obligations in a manner consistent with this section. To finance a project in whole or in part, the commission may request that the state treasurer issue revenue bonds on behalf of the public sector partner. The bonds must be secured by a pledge of, and a lien on, and be payable only from moneys in the transportation innovative partnership account established in RCW 47.29.230, and any other revenues specifically pledged to repayment of the bonds. Such a pledge by the public partner creates a lien that is valid and binding from the time the pledge is made. Revenue bonds issued under this section are not general obligations of the state or local government and are not secured by or payable from any funds or assets of the state other than the moneys and revenues specifically pledged to the repayment of such revenue bonds.

(2) Moneys received from the issuance of revenue bonds or other debt obligations, including any investment earnings thereon, may be spent:

(a) For the purpose of financing the costs of the project for which the bonds are issued;

(b) To pay the costs and other administrative expenses of the bonds;

(c) To pay the costs of credit enhancement or to fund any reserves determined to be necessary or advantageous in connection with the revenue bonds; and

(d) To reimburse the public sector partners for any costs related to carrying out the projects authorized under this chapter. [2005 c 317 § 25.]

(2008 Ed.)

47.29.260 Study and report. The department shall conduct a study of:

(1) The contracting powers and project management authorities it currently possesses; those same powers and authorities authorized under this chapter; and those powers and authorities employed by other states or the private sector;

(2) Methods of encouraging competition for the development of transportation projects; and

(3) Any additional procedures that may be necessary or desirable for negotiating contracts in situations of a single qualified bidder, in either solicited or unsolicited proposals.

The department must submit its report, along with any recommended legislative changes, to the commission by November 1, 2005, and to the governor and the legislature for consideration in the 2006 legislative session. [2005 c 317 § 26.]

47.29.270 Federal laws. Notwithstanding any provision of this chapter, applicable federal laws, rules, and regulations govern in any situation that involves federal funds if the federal laws, rules, or regulations:

(1) Conflict with any provision of this chapter;

(2) Require procedures that are additional to or different from those provided in this chapter; or

(3) Require contract provisions not authorized in this chapter. If no federal funds are provided, state laws, rates, and rules will govern. [2005 c 317 § 27.]

47.29.280 Expert review panel on proposed project agreements—Creation—Authority. (1) The department shall establish an expert review panel to review, analyze, and make recommendations to the governor and the transportation commission on whether to approve, reject, or continue negotiations on a proposed project agreement under this chapter. The department shall provide staff to support the expert review panel, if requested by the panel. The expert review panel may utilize any of the consultants under contract for the department, and the expert review panel may contract for consulting expertise in specific areas as it deems necessary to ensure a thorough and critical review of any proposed project agreement.

(2) The governor shall appoint members of an expert review panel that have experience in large capital project delivery, public-private partnerships, public financing of infrastructure improvements, or other areas of expertise that will benefit the panel. The panel shall consist of no less than three, but no more than five members, as determined by the governor. [2006 c 334 § 49.]

Effective date—2006 c 334: See note following RCW 47.01.051.

47.29.290 Expert review panel on proposed project agreements—Execution of agreements. Upon receiving the recommendations of the expert review panel as provided in RCW 47.29.280, and upon consultation with the governor, the transportation commission shall either execute the proposed project agreement, reject the proposed project agreement, or continue further negotiations between the state and a private partner. The execution of any agreement or the rejection of any agreement shall constitute a final action for legal or administrative purposes. [2006 c 334 § 50.]

Effective date—2006 c 334: See note following RCW 47.01.051.

Recreation trails system: Chapter 79A.35 RCW.

47.30.005 Definitions. For the purposes of this chapter, "trail" or "path" means a public way constructed primarily for and open to pedestrians, equestrians, or bicyclists, or any combination thereof, other than a sidewalk constructed as a part of a city street or county road for the exclusive use of pedestrians. The term "trail" or "path" also includes a widened shoulder of a highway, street, or road when the extra shoulder width is constructed to accommodate bicyclists consistent with a comprehensive plan or master plan for bicycle trails or paths adopted by a state or local governmental authority either prior to such construction or prior to January 1, 1980. [1979 ex.s. c 121 § 4.]

47.30.010 Recreational trail interference. (1) No limited access highway shall be constructed that will result in the severance or destruction of an existing recreational trail of substantial usage for pedestrians, equestrians or bicyclists unless an alternative recreational trail, satisfactory to the authority having jurisdiction over the trail being severed or destroyed, either exists or is reestablished at the time the limited access highway is constructed. If a proposed limited access highway will sever a planned recreational trail which is part of a comprehensive plan for trails adopted by a state or local governmental authority, and no alternative route for the planned trail exists which is satisfactory to the authority which adopted the comprehensive plan for trails, the state or local agency proposing to construct the limited access highway shall design the facility and acquire sufficient right-of-way to accommodate future construction of the portion of the trail which will properly lie within the highway right-of-way. Thereafter when such trail is developed and constructed by the authority having jurisdiction over the trail, the state or local agency which constructed the limited access highway shall develop and construct the portion of such trail lying within the right-of-way of the limited access highway.

(2) Where a highway other than a limited access highway crosses a recreational trail of substantial usage for pedestrians, equestrians, or bicyclists, signing sufficient to insure safety shall be provided.

(3) Where the construction or reconstruction of a highway other than a limited access highway would destroy the usefulness of an existing recreational trail of substantial usage for pedestrians, equestrians, or bicyclists or of a planned recreational trail for pedestrians, equestrians, or bicyclists incorporated into the comprehensive plans for trails of the state or any of its political subdivisions, replacement land, space, or facilities shall be provided and where such recreational trails exist at the time of taking, reconstruction of said recreational trails shall be undertaken. [1971 ex.s. c 130 § 1.]

47.30.020 Facilities for nonmotorized traffic—Joint usage of rights-of-way. Facilities for pedestrians, equestrians, or bicyclists shall be incorporated into the design of highways and freeways along corridors where such facilities do not exist upon a finding that such facilities would be of joint use and conform to the comprehensive plans of public agencies for the development of such facilities, will not duplicate existing or proposed routes, and that safety to both motorists and to pedestrians, equestrians, and bicyclists would be enhanced by the segregation of traffic.

In planning and design of all highways, every effort shall be made consistent with safety to promote joint usage of rights-of-way for trails and paths in accordance with the comprehensive plans of public agencies. [1971 ex.s. c 130 § 2.]

47.30.030 Facilities for nonmotorized traffic—Expenditure of available funds. Where an existing highway severs, or where the right-of-way of an existing highway accommodates a trail for pedestrians, equestrians, or bicyclists or where the separation of motor vehicle traffic from pedestrians, equestrians, or bicyclists will materially increase the motor vehicle safety, the provision of facilities for pedestrians, equestrians, or bicyclists which are a part of a comprehensive trail plan adopted by federal, state, or local governmental authority having jurisdiction over the trail is hereby authorized. The department of transportation, or the county or city having jurisdiction over the highway, road, or street, or facility is further authorized to expend reasonable amounts out of the funds made available to them, according to the provisions of RCW 46.68.090, as necessary for the planning, accommodation, establishment, and maintenance of such facilities. [1999 c 269 § 10; 1979 ex.s. c 121 § 1; 1974 ex.s. c 141 § 12; 1972 ex.s. c 103 § 2.]

Effective date—1999 c 269: See note following RCW 36.78.070.

Severability—1972 ex.s. c 103: "If any provision of this 1972 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1972 ex.s. c 103 § 8.]

47.30.040 Establishing paths and trails—Factors to be considered. Before establishing paths and trails, the following factors shall be considered:

- (1) Public safety;
- (2) The cost of such paths and trails as compared to the need or probable use;
- (3) Inclusion of the trail in a plan for a comprehensive trail system adopted by a city or county in a state or federal trails plan. [1972 ex.s. c 103 § 3.]

Severability—1972 ex.s. c 103: See note following RCW 47.30.030.

47.30.050 Expenditures for paths and trails—Minimum amount. (1) The amount expended by a city, town, or county as authorized by RCW 47.30.030 shall never in any one fiscal year be less than 0.42 percent of the total amount of funds received from the motor vehicle fund according to RCW 46.68.090. However, this section does not apply to a city or town in any year in which the 0.42 percent equals five hundred dollars or less, or to a county in any year in which the 0.42 percent equals three thousand dollars or less. Also, a city, town, or county in lieu of expending the funds each year may credit the funds to a financial reserve or special fund, to be held for not more than ten years, and to be expended for the purposes required or permitted by RCW 47.30.030.

(2) In each fiscal year the department of transportation shall expend, as a minimum, for the purposes mentioned in RCW 47.30.030 a sum equal to three-tenths of one percent of all funds, both state and federal, expended for the construction of state highways in such year, or in order to more efficiently program trail improvements the department may defer any part of such minimum trail or path expenditures for a fiscal year for a period not to exceed four years after the end of such fiscal year. Any fiscal year in which the department expends for trail or path purposes more than the minimum sum required by this subsection, the amount of such excess expenditure shall constitute a credit which may be carried forward and applied to the minimum trail and path expenditure requirements for any of the ensuing four fiscal years.

(3) The department of transportation, a city, or a county in computing the amount expended for trails or paths under their respective jurisdictions may include the cost of improvements consistent with a comprehensive plan or master plan for bicycle trails or paths adopted by a state or local governmental authority either prior to such construction or prior to January 1, 1980. The department of transportation shall, when requested, and subject to reimbursement of costs, provide technical assistance and advice to cities, towns, and counties in carrying out the purposes of RCW 47.30.030, as now or hereafter amended. The department shall recommend construction standards for paths and trails. The department shall provide a uniform system of signing paths and trails which shall apply to paths and trails under the jurisdiction of the department and of cities, towns, and counties. The department and cities, towns, and counties may restrict the use of paths and trails under their respective jurisdictions to pedestrians, equestrians, and nonmotorized vehicles. 47.32.010 Order to remove obstructions—Removal by state. Whenever the department determines and orders that it is necessary for the convenience and safety of public travel and the use of (or construction, alteration, repair, improvement, or maintenance of) any state highway to have the full width of right-of-way of any such state highway or of any portion of the right-of-way of any such state highway free from any and all obstructions, encroachments, and occupancy, other than pole lines, pipe lines, or other structures maintained thereon for public or quasi-public utilities by virtue of a valid franchise, and causes due notice of the order to be given as provided by law, the obstructions, encroachments, and means of occupancy, and any structure, building, improvement, or other means of occupancy of any of the right-of-way of the state highway not removed within the time allowed by law shall become an unlawful property and may be confiscated, removed, and sold or destroyed by the state of Washington according to procedure as provided in this chapter, without any right in anyone to make any claim therefor, either by reason of the removal thereof or otherwise. It is unlawful for any person to keep, maintain, or occupy any such unlawful structure. [1984 c 7 § 176; 1961 c 13 § 47.32.010. Prior: 1937 c 53 § 68; RRS § 6400-68.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.020 Notice of order, contents, posting—Return. Whenever the department determines that the right-of-way of any state highway or any portion of the right-of-way of any state highway shall be made free from any and all

obstructions, encroachments, and occupancy it shall forthwith cause to be posted, by a competent person eighteen years of age or over upon any and all structures, buildings, improvements, and other means of occupancy of the state highway or portion thereof, other than property of public or quasi-public utilities, by virtue of a valid franchise, a notice bearing a copy of the order and dated as of the date of posting, to all whom it may concern to vacate the right-of-way and to remove all property from the right-of-way within ten days after the posting of the notice, exclusive of the date of posting. The department shall also require the filing of duplicate affidavits in proof of the postings, showing upon what structures, buildings, improvements, or other means of occupancy of the state highway or portions thereof, respectively, copies of the notice were posted and the date of each such posting, sworn to by the person making the posting. [1984 c 7 § 177; 1971 ex.s. c 292 § 46; 1961 c 13 § 47.32.020. Prior: 1937 c 53 § 69; RRS § 6400-69.]

Severability—1984 c 7: See note following RCW 47.01.141.

Severability—1971 ex.s. c 292: See note following RCW 26.28.010.

47.32.030 Proceedings in rem authorized—Records certified. In case the property or any portion thereof described in the notice is not removed from the right-of-way within ten days after the date of the posting, exclusive of the date of posting, all such property upon the right-of-way of the state highway or portion thereof becomes unlawful, and the department shall commence proceedings in the name of the state of Washington for the removal thereof by court action. The department shall thereupon prepare two original copies of the order together with two copies each of the notice posted and of the affidavits in proof of posting thereof and duplicate copies of a certificate by the department describing with reasonable certainty and with due reference to the center line stationing of the state highway and to proper legal subdivisional points, each structure, building, improvement, encroachment, or other means of occupancy, other than pole lines, pipe lines, or other structures maintained for public and quasi-public utilities, on the state highway or portion thereof specified in the order that remain upon the right-of-way as aforesaid. Thereupon action shall be commenced in rem for the purpose of removal of all such unlawful property, in the superior court of the county in which the state highway or portion thereof containing the structures is situated, entitled and in the name of the state of Washington as plaintiff and describing each unlawful structure, building, improvement, encroachment, or other means of occupancy, which structures, buildings, improvements, encroachments, or other means of occupancy shall be briefly named as defendants. [1984 c 7 § 178; 1961 c 13 § 47.32.030. Prior: 1937 c 53 § 70; RRS § 6400-70; prior: 1925 ex.s. c 131 § 3; RRS § 6837-3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.040 Complaint, contents. The complaint shall, in such action, describe the property unlawfully remaining upon the right-of-way of the state highway or portion thereof with reasonable certainty by reference to the certificate of the department, which shall be attached to and filed with the complaint, and pray that an order be entered for the removal

from the right-of-way of the state highway or portion thereof of all the described property unlawfully thereon and the disposal thereof. [1984 c 7 § 179; 1961 c 13 § 47.32.040. Prior: 1937 c 53 § 71; RRS § 6400-71; prior: 1925 ex.s. c 131 § 4; RRS § 6837-4.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.050 Notice, action, service, contents—Proceedings void when. Service of such complaint shall be given by publication of notice thereof once a week for two successive weeks in a newspaper of general circulation in the county in which such action is commenced, which notice shall briefly state the objects of the action and contain a brief description of each structure, building, improvement, encroachment or other means of occupancy sought to be removed from the right-of-way of the state highway, describe such state highway or portion thereof by number and location and state the time and place when and where the action will come before the court or judge thereof; and a copy of such notice shall also be posted at least ten days before the date of hearing of such action upon each such structure, building, improvement, encroachment or other means of occupancy described therein. Posting may be made by any person qualified to serve legal process. Want of posting upon, or failure to describe any such structure, building, improvement, encroachment or other means of occupancy shall render subsequent proceedings void as to those not posted upon or described but all others described and posted upon shall be bound by the subsequent proceedings. 47.32.060 Hearing—Findings—Order—Appellate review. At the time and place appointed for hearing upon the complaint, which hearing shall be by summary proceedings, if the court or judge thereof finds that due notice has been given by posting and publication and that the order of the department was duly made, and is further satisfied and finds that the state highway or portion thereof described is legally a state highway having the width of right-of-way specified in the order and that the structure, buildings, improvements, or other means of occupancy of the state highway or portion thereof as stated in the certificate of the department do in fact encroach, or that any portion thereof encroach, upon the state highway right-of-way, the court or judge thereof shall thereupon make and enter an order establishing that each of the structures, buildings, improvements, and other means of occupancy specified in the order is unlawfully maintained within the right-of-way and is subject to confiscation and sale and that they be forthwith confiscated, removed from the right-of-way, and sold, and providing that six days after the entry of the order, a writ shall issue from the court directed to the sheriff of the county, commanding the sheriff to seize and remove from the right-of-way of the state highway each such structure, building, improvement, or other means of occupancy specified in the order forthwith on receipt of a writ based on the order and to take and hold the property in his custody for a period of ten days, unless redelivered earlier as provided for by law, and if not then so redelivered to sell the property at public or private sale and to pay the proceeds

thereof into the registry of the court within sixty days after the issuance of the writ, and further in such action, including costs of posting original notices of the department, the costs of posting and publishing notices of hearing as part thereof and any cost of removal, be paid by the clerk to the state treasurer and credited to the motor vehicle fund. The order shall be filed with the clerk of the court and recorded in the minutes of the court, and is final unless appellate review thereof is sought within five days after filing of the order. [1988 c 202 § 45; 1984 c 7 § 180; 1961 c 13 § 47.32.060. Prior: 1937 c 53 § 73; RRS § 6400-73; prior: 1925 ex.s. c 131 § 7; RRS § 6837-7.]

Severability—1988 c 202: See note following RCW 2.24.050.

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.070 Writ, execution of—Return—Disposition of unsold property. Six days after filing of the order above provided for, if no review thereof be taken to the supreme court or the court of appeals of the state, the clerk of the court shall issue under seal of such court a writ directed to the sheriff of the county in which such court is held commanding him to remove, take into custody and dispose of the property described in such order and make returns thereof as provided for such writ by said order. On receipt of such writ it shall be the duty of such sheriff to obey the command thereof, proceed as therein directed and make return within the time fixed by such writ; and said sheriff shall be liable upon his official bond for the faithful discharge of such duties. Upon filing of such return the clerk of court shall make payments as provided for in the order of court. If by the sheriff's return any of the property seized and removed pursuant to such writ is returned as unsold and as of no sale value, and if the court or judge thereof be satisfied that such is the fact, the court or judge thereof may make further order directing the destruction of such property, otherwise directing the sheriff to give new notice and again offer the same for sale, when, if not sold, the same may on order of court be destroyed. [1971 c 81 § 115; 1961 c 13 § 47.32.070. Prior: 1937 c 53 § 74; RRS § 6400-74; prior: 1925 ex.s. c 131 § 8; RRS § 6837-8.]

47.32.080 Property reclaimed—Bond. At any time within ten days after the removal by virtue of such writ of any such property from the right-of-way of such state highway any person, firm, association or corporation claiming ownership or right of possession of any such property may have the right to demand and to receive the same from the sheriff upon making an affidavit that such claimant owns such property or is entitled to possession thereof, stating on oath the value thereof satisfactory to said sheriff, or which value shall be raised to a value satisfactory to said sheriff, which value shall be indorsed on said affidavit and signed both by said claimant and said sheriff before such sheriff shall be required to accept the bond hereinafter provided for, and deliver to the sheriff a bond with sureties in double the value of such property, conditioned that such claimant will appear in the superior court of such county within ten days after the bond is accepted by the sheriff and make good such claim of title thereto and pay all accrued costs of service of notice to remove, all costs and disbursements to be assessed to such property and the costs of removal and custody thereof and will hold said sheriff and the

state of Washington free from any and all claims on account of such property or will return such property or pay its value to said sheriff, and that such claimant will at all times thereafter keep such property off the right-of-way of the state highway in question. [1961 c 13 § 47.32.080. Prior: 1937 c 53 § 75; RRS § 6400-75; prior: 1925 ex.s. c 131 § 9; RRS § 6837-9.]

47.32.090 Sureties on bond—Hearing on claim. The sureties on such bond shall justify as in other cases if the sheriff requires it and in case they do not so justify when required, the sheriff shall retain and sell or dispose of the property; and if the sheriff does not require the sureties to justify, he shall stand good for their sufficiency. He shall date and indorse his acceptance upon the bond, and shall return the affidavit, bond and justification, if any, to the office of the clerk of such superior court, whereupon such clerk shall set the hearing thereof as a separate case for trial, in which such claimant shall be the plaintiff and the sheriff and the state of Washington defendants: PROVIDED, That no costs shall, in such case, be assessed against the sheriff or the state of Washington in the event the plaintiff should prevail. [1961 c 13 § 47.32.090. Prior: 1937 c 53 § 76; RRS § 6400-76; prior: 1925 ex.s. c 131 § 10; RRS § 6837-10.]

47.32.100 Procedure when claimant wins or loses. If the claimant makes good the claimant's title to or right to possession of the property, upon payment into the registry of the court of the costs of service or posting of original notice issued by the department with respect to the property, the cost of posting notice of hearing in the court and such proportion of the cost of publication of the notice as the court may fix and direct to be entered and the clerk's fees of filing the affidavit and bond as a separate action and of entry of judgment therein at the amounts provided for in civil actions, judgment shall be entered restoring the property to the claimant without any confirmation of title as to any other claimant thereto, relieving the sheriff from necessity of selling the property and making return thereon, and continuing the effect of the bond for a period of six years thereafter for the benefit of such adverse claimants to the property, if any, as may thereafter make claim to the property. If the claimant does not make good such claim of title to or right to possession of the property, judgment shall be rendered against the claimant and the sureties of the claimant for the value of the property as finally shown by the affidavit as above provided for, together with such fees for filing the affidavit and bond as a separate action and for entry of judgment therein and other costs and disbursements as taxed in any civil action including the statutory attorney fee as part thereof, for all of which execution may accordingly issue, and relieving the sheriff from the necessity of selling the property or making return thereon. [1984 c 7 § 181; 1961 c 13 § 47.32.100. Prior: 1937 c 53 § 77; RRS § 6400-77; prior: 1925 ex.s. c 131 § 11; RRS § 6837-11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.110 Merchandising structures—Permit—Removal. It is unlawful for any person to build, erect, establish, operate, maintain, or conduct along and upon the right-of-way of any state highway any platform, box, stand, or any

other temporary or permanent device or structure used or to be used for the purpose of receiving, vending, or delivering any milk, milk cans, vegetables, fruits, merchandise, produce, or any other thing or commodity of any nature unless a permit therefor has first been obtained from the department. The department shall in each instance determine where any platform, box, stand, or any other temporary or permanent device or structure shall be permitted. Upon the existence of any such device or structure without a permit having been first obtained, it shall be considered an obstruction unlawfully upon the right-of-way of the state highway, and the department may proceed to effect its removal. [1984 c 7 § 182; 1961 c 13 § 47.32.110. Prior: 1937 c 53 § 78; RRS § 6400-78; 1927 c 309 § 48; RRS § 6362-48; 1923 c 181 § 10; RRS § 6358-1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.120 Business places along highway. Except as provided in RCW 47.04.270, it is unlawful for any person to erect a structure or establishment or maintain a business, the nature of which requires the use by patrons or customers of property adjoining the structure or establishment unless the structure or establishment is located at a distance from the right-of-way of any state highway so that none of the right-of-way thereof is required for the use of the patrons or customers of the establishment. Any such structure erected or business maintained that makes use of or tends to invite patrons to use the right-of-way or any portion thereof of any state highway by occupying it while a patron is a public nuisance, and the department may fence the right-of-way of the state highway to prevent such unauthorized use thereof. [2006 c 324 § 2; 1984 c 7 § 183; 1961 c 13 § 47.32.120. Prior: 1937 c 53 § 79; RRS § 6400-79.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.130 Dangerous objects and structures as nuisances—Logs—Abatement—Removal. (1) Whenever there exists upon the right-of-way of any state highway or off the right-of-way thereof in sufficiently close proximity thereto, any structure, device, or natural or artificial thing that threatens or endangers the state highway or portion thereof, or that tends to endanger persons traveling thereon, or obstructs or tends to obstruct or constitutes a hazard to vehicles or persons traveling thereon, the structure, device, or natural or artificial thing is declared to be a public nuisance, and the department is empowered to take such action as may be necessary to effect its abatement. Any such structure, device, or natural or artificial thing considered by the department to be immediately or eminently dangerous to travel upon a state highway may be forthwith removed, and the removal in no event constitutes a breach of the peace or trespass.

(2) Logs dumped on any state highway roadway or in any state highway drainage ditch due to equipment failure or for any other reason shall be removed immediately. Logs remaining within the state highway right-of-way for a period of thirty days shall be confiscated and removed or disposed of as directed by the department. [1984 c 7 § 184; 1961 c 13 § 47.32.130. Prior: 1947 c 206 § 3; 1937 c 53 § 80; Rem. Supp. 1947 § 6400-80.]

Severability—1984 c 7: See note following RCW 47.01.141.

Obstructing highway, public nuisance: RCW 9.66.010.

Placing dangerous substances or devices on highway: RCW 9.66.050, 46.61.645, 70.93.060.

47.32.140 Railroad crossings, obstructions—Hearing. Each railroad company shall keep its right-of-way clear of all brush and timber in the vicinity of a railroad grade crossing with a state highway for a distance of one hundred feet from the crossing in such manner as to permit a person upon the highway to obtain an unobstructed view in both directions of an approaching train. The department shall cause brush and timber to be cleared from the right-of-way of a state highway in the proximity of a railroad grade crossing for a distance of one hundred feet from the crossing in such manner as to permit a person upon the highway to obtain an unobstructed view in both directions of an approaching train. It is unlawful to erect or maintain a sign, signboard, or billboard, except official highway signs and traffic devices and railroad warning or operating signs, outside the corporate limits of any city or town within a distance of one hundred feet from the point of intersection of the highway and railroad grade crossing unless, after thirty days notice to the Washington utilities and transportation commission and the railroad operating the crossing, the department determines that it does not obscure the sight distance of a person operating a vehicle or train approaching the grade crossing.

When a person who has erected or who maintains such a sign, signboard, or billboard or when a railroad company permits such brush or timber in the vicinity of a railroad grade crossing with a state highway or permits the surface of a grade crossing to become inconvenient or dangerous for passage and who has the duty to maintain it, fails, neglects, or refuses to remove or cause to be removed such brush, timber, sign, signboard, or billboard, or maintain the surface of the crossing, the utilities and transportation commission upon complaint of the department or upon complaint of any party interested, or upon its own motion, shall enter upon a hearing in the manner now provided for hearings with respect to railroad-highway grade crossings, and make and enforce proper orders for the removal of the brush, timber, sign, signboard or billboard, or maintenance of the crossing. However, nothing in this section prevents the posting or maintaining of any legal notice or sign, signal, or traffic device required or permitted to be posted or maintained, or the placing and maintaining thereon of highway or road signs or traffic devices giving directions or distances for the information of the public when the signs are approved by the department. The department shall inspect highway grade crossings and make complaint of the violation of any provisions of this section. [1983 c 19 § 2; 1961 c 13 § 47.32.140. Railroad grade crossings, obstructions: RCW 36.86.100.

47.32.150 Approach roads, other appurtenances—Permit. No person, firm, or corporation may be permitted to build or construct on state highway rights-of-way any approach road or any other facility, thing, or appurtenance not heretofore permitted by law, without first obtaining written permission from the department. [1984 c 7 § 185; 1961 c

13 § 47.32.150. Prior: 1947 c 201 § 1; Rem. Supp. 1947 § 6402-50.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.160 Approach roads, other appurtenances—Rules—Construction, maintenance of approach roads. The department is hereby authorized and empowered at its discretion to adopt reasonable rules governing the issuance of permits under RCW 47.32.150 for the construction of any approach road, facility, thing, or appurtenance, upon state highway rights-of-way. The rules shall be designed to achieve and preserve reasonable standards of highway safety and the operational integrity of the state highway facility. Any permit issued may contain such terms and conditions as may be prescribed. All such construction shall be under the supervision of the department and at the expense of the applicant. After completion of the construction of the particular approach road, facility, thing, or appurtenance, it shall be maintained at the expense of the applicant and in accordance with the directions of the department. [1987 c 227 § 1; 1984 c 7 § 186; 1961 c 13 § 47.32.160. Prior: 1947 c 201 § 2; Rem. Supp. 1947 § 6402-51.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.32.170 Approach roads, other appurtenances—Removal of installations from right-of-way for default. Upon failure of the applicant to construct or maintain the particular approach road, facility, thing, or appurtenance in accordance with the conditions of the permit and in accordance with the rules of the department, the department may, after the expiration of thirty days following transmittal of a written notice to the applicant, remove all installations upon the right-of-way at the expense of the applicant, which expense may be recovered from the applicant by the department for the state in any court of competent jurisdiction. The department shall collect from the regional shopping center a reasonable fee based upon the cost of erection and maintenance of the directional sign. [1987 c 469 § 1.]

47.36.280 Pavement marking standards. The department of transportation shall, by January 1, 1992, adopt minimum pavement marking standards for the area designating the limits of the vehicle driving lane along the right edge for arterials that do not have curbs or sidewalks and are inside urbanized areas. In preparing the standards, the department of transportation shall take into consideration all types of pavement markings, including flat, raised, and recessed markings, and their effect on pedestrians, bicycle, and motor vehicle safety.

The standards shall provide that a jurisdiction shall conform to these requirements, at such time thereafter that it undertakes to (1) renew or install permanent markings on the existing or new roadway, and (2) remove existing nonconforming raised pavement markers at the time the jurisdiction prepares to resurface the roadway, or earlier, at its option. These standards shall be in effect, as provided in this section, unless the legislative authority of the local governmental body finds that special circumstances exist affecting vehicle and pedestrian safety that warrant a variance to the standard.

For the purposes of this section, "urbanized area" means an area designated as such by the United States bureau of census and having a population of more than fifty thousand. Other jurisdictions that install pavement marking material on the right edge of the roadway shall do so in a manner not in conflict with the minimum state standard. [1991 c 214 § 4.]

47.36.290 State park directional signs. Directional signs for state parks within fifteen miles of an interstate highway shall be erected and maintained on the interstate highway by the department despite the existence of additional directional signs on primary or scenic system highways in closer proximity to such state parks. [1985 c 376 § 7. Formerly RCW 47.42.160.]

47.36.300 Supplemental directional signs—Erection by local governments. (1) The legislative authority of any county, city, or town may erect, or permit the erection of, supplemental directional signs directing motorists to motorist service businesses qualified for motorist information sign panels pursuant to RCW 47.36.310 or 47.36.320 in any location on, or adjacent to, the right-of-way of any roads or streets within their jurisdiction.

(2) Appropriate fees may be charged to cover the cost of issuing permits, installation, or maintenance of such signs.

(3) Supplemental signs and their locations shall comply with all applicable provisions of this chapter, the Manual on Uniform Traffic Control Devices, and such rules as may be adopted by the department. [1999 c 201 § 2; 1986 c 114 § 3. Formerly RCW 47.42.052.]

47.36.310 Motorist information signs—Interstate highways—Contents, placement, fees. The department is authorized to erect and maintain motorist information sign panels within the right-of-way of the interstate highway system to give the traveling public specific information as to gas, food, lodging, camping, or tourist-oriented business available on a crossroad at or near an interchange. Motorist information sign panels shall include the words "GAS," "FOOD," "LODGING," "CAMPING," or "TOURIST ACTIVITIES" and the letters "RV" next to a gas, food, lodging, camping, or tourist activity sign if the business or destination accommodates recreational vehicles, and directional information. Directional information may contain one or more individual business signs maintained on the panel. The "RV" logo for businesses or destinations that accommodate recreational vehicles shall be placed in the lower right corner of the gas, food, lodging, camping, or tourist activity sign and shall be in the form of a small yellow circle with the letters "RV" in black. In managing the number of individual business signs to be displayed, the department must ensure the use of available space on a panel is maximized. Motorist information sign panels are authorized within the corporate limits of cities and towns and areas zoned for commercial or industrial uses at locations where there is adequate distance between interchanges to ensure compliance with the Manual on Uniform Traffic Control Devices. The erection and maintenance of motorist information sign panels shall also conform to the Manual on Uniform Traffic Control Devices and rules adopted by the state department of transportation. A motorist service or tourist-oriented business located within one mile of an interstate highway shall not be permitted to display its name, brand, or trademark on a motorist information sign panel unless its owner has first entered into an agreement with the department limiting the height of its on-premise signs at the site of its service installation to not more than fifteen feet higher than the roof of its main building measured to

the bottom of the on-premise sign. The restriction for on-premise signs does not apply if the sign is not visible from the highway. The department may, on a case-by-case basis, waive the height restriction when an on-premise sign is visible from the rural interstate system. The department shall charge sufficient fees for the display of individual business signs to recover the costs of their installation and maintenance, and shall charge sufficient fees to recover costs for the erection and maintenance of the motorist information sign panels. [2005 c 407 § 1; 1999 c 201 § 3; 1987 c 469 § 3; 1986 c 114 § 1; 1985 c 142 § 1; 1984 c 7 § 223; 1974 ex.s. c 80 § 2. Formerly RCW 47.42.046.]

The motorist information sign panels are permitted only at locations within the corporate limits of cities and towns and areas zoned for commercial or industrial uses where there is adequate distance between interchanges to ensure compliance with the Manual on Uniform Traffic Control Devices. Motorist information sign panels shall include the words "GAS," "FOOD," "LODGING," "RECREATION," or "TOURIST ACTIVITIES" and the letters "RV" next to a gas, food, lodging, camping, or tourist activity sign if the business or destination accommodates recreational vehicles, and directional information. Directional information may contain one or more individual business signs maintained on the panel. The "RV" logo for businesses or destinations that accommodate recreational vehicles shall be placed in the lower right corner of the gas, food, lodging, camping, or tourist activity sign and shall be in the form of a small yellow circle with the letters "RV" in black. In managing the number of individual business signs to be displayed, the department must ensure the use of available space on a panel is maximized. The erection and maintenance of motorist information sign panels along noninterstate highways shall also conform to the Manual on Uniform Traffic Control Devices and rules adopted by the state department of transportation. A motorist service or tourist-oriented business located within one mile of a noninterstate highway shall not be permitted to display its name, brand, or trademark on a motorist information sign panel unless its owner has first entered into an agreement with the department limiting the height of its on-premise signs at the site of its service installation to not more than fifteen feet higher than the roof of its main building measured to the bottom of the on-premise sign.

The department shall adopt rules for the erection and maintenance of tourist-oriented directional signs with the following restrictions:

(1) Where installed, they shall be placed in advance of the "GAS," "FOOD," "LODGING," "RECREATION," or "RV" motorist information sign panels previously described in this section;

(2008 Ed.)

(3) Premises on which the qualified tourist-oriented business is located must be within fifteen miles of the state highway except as provided in RCW 47.36.330(3) (b) and (c), and necessary supplemental signing on local roads must be provided before the installation of the signs on the state highway.

The department shall charge sufficient fees for the display of individual business signs to recover the costs of their installation and maintenance, and shall charge sufficient fees to recover the costs for the erection and maintenance of the motorist information sign panels. (a) On interstate highways, gas, food, or lodging activities shall be located within three miles. Camping or tourist-oriented activities shall be within five miles.

(b) On noninterstate highways, gas, food, lodging, recreation, or tourist-oriented activities shall be located within five miles.

(3)(a) If no eligible services are located within the distance limits prescribed in subsection (2) of this section, the distance limits shall be increased until an eligible service of a type being considered is reached, up to a maximum of fifteen miles.

(b) The department may erect and maintain signs on an alternate route that is longer than fifteen miles if it is safer and still provides reasonable and convenient travel to an eligible service.

(c) The department may erect and maintain signs on a route up to a maximum of twenty miles if it qualifies as an eligible service and is within a distressed area as defined in RCW 43.168.020. [2005 c 136 § 16; 1999 c 213 § 2; 1999 c 201 § 5; 1985 c 142 § 3. Formerly RCW 47.42.0475.]

47.36.360 Motorist information signs—"RV" logo. (1) The department of transportation shall not include the logo "RV" under RCW 47.36.310 and 47.36.320 unless a business or destination requests an "RV" logo and the department determines that the gas, food, or lodging business or the camping or tourist activity destination provides parking spaces, overhang clearances, and entrances and exits designed to accommodate recreational or other large vehicles.

(2) The department may charge a reasonable fee in accordance with RCW 47.36.310 or 47.36.320 to defray the costs associated with the installation and maintenance of signs with "RV" logos.

Legislative finding—1990 c 240: "The legislature finds that scenic and recreational highways are designated because of a need to develop management plans that will protect and preserve the scenic and recreational resources from loss through inappropriate development. Protection of scenic and recreational resources includes managing land use outside normal highway rights-of-way. The legislature recognizes that scenic and recreational highways are typically located in areas that are natural in character, along watercourses or through mountainous areas, or in areas with a view of such scenery." [1990 c 240 § 1.]

47.39.030 Development and maintenance of system by department of transportation and parks and recreation commission—Allocation of costs. (1) The department shall pay from motor vehicle funds appropriated for construction of state highways, the following costs of developing and constructing scenic and recreational highways: (a) Acquisition of the right-of-way necessary for state highway purposes; (b) construction of the portion of the highway designed primarily for motor vehicle travel; (c) exit and entrance roadways providing access to scenic observation points; (d) safety rest areas; (e) roadside landscaping within the portion of the highway right-of-way acquired by the department for state highway purposes; (f) the uniform signs and markers designating the various features and facilities of the scenic and recreational highways; and (g) any additional costs of constructing and developing the scenic and recreational highways, including property acquisition adjacent to highways as authorized by RCW 47.12.250, for which the

department shall receive reimbursement from the federal government or any other source.

(2) The parks and recreation commission shall pay the costs of developing and constructing the scenic and recreational highways not provided for in subsection (1) of this section from any funds appropriated for such purposes.

(3) The costs of maintaining the scenic and recreational highway system shall be allocated between the department and the parks and recreation commission in the same manner that costs of developing and constructing such highways are allocated in subsections (1) and (2) of this section.

(4) The city, town, county, regional transportation planning organization, federal agency, federally recognized tribe, or any other such party that nominates a roadway not located on a state-owned right-of-way for designation as a scenic byway shall bear all costs relating to the nomination and designation of the byway, such as costs for developing, maintaining, planning, designing, and constructing the scenic byway. The department of transportation, parks and recreation commission, and any other departments or commissions whose interests are affected shall prepare, submit, and file with the department of community, trade, and economic development standards relating to the scenic and recreational highway system. If varying planning and design standards are filed, the department of community, trade, and economic development shall consult with the submitting agencies on the merits of the several proposals and, based upon such consultation, establish a set of standards. Pursuant to the planning and design standards so established, the department of transportation and the parks and recreation commission shall develop the highways and areas adjacent thereto to accomplish the purposes of this chapter, but the department shall retain exclusive authority over the highway right-of-way.

Responsibility for construction and maintenance is hereby established between the department and the parks and recreation commission with the department responsible for activities financed with funds provided for under RCW 47.39.030(1) and the parks and recreation commission responsible for activities financed from other sources of funds. By mutual consent, responsibility for development and/or maintenance may be transferred between the two agencies. [1995 c 399 § 122; 1985 c 6 § 16; 1984 c 7 § 208; 1967 ex.s. c 85 § 4.]

47.39.069 Designation and removal criteria. (1) The department, in consultation with the department of community, trade, and economic development, the department of natural resources, the parks and recreation commission, affected cities, towns, and counties, federally recognized tribes, regional transportation planning organizations, Washington-based automobile clubs, statewide bicycling organizations, and other interested parties, shall develop by December 31, 1999, criteria for assessing scenic byways and heritage tour routes and an appropriate method of nomination and application for the designation and removal of the designation of the byways. Factors the department may take into consideration, but is not limited by, are: (a) Scenic quality of the byway; (b) natural aspects, such as geological formations, water bodies, vegetation, and wildlife; (c) historic elements; (d) cultural features such as the arts, crafts, music, customs, or traditions of a distinct group of people; (e) archaeological features; (f) recreational activities; (g) roadway safety including accommodations for bicycle and pedestrian travel, tour buses, and automobiles; (h) scenic byway and local and regional byway management plans; and (i) local public involvement and support for the byway.

(2) The criteria developed in subsection (1) of this section must not impose nor require regulation of privately owned lands or property rights.

(3) Any person may nominate a roadway, path, or trail for inclusion in the scenic byway program. The department shall assess nominations in accordance with the criteria

developed under subsection (1) of this section. The department shall submit its recommendations for scenic byway and heritage tour route designations to the commission for its approval and official designation of the roadway, path, or trail as a scenic byway or a heritage tour route. All decisions made by the commission relating to scenic byway and heritage tour route designations are final.

(4) The department shall apply the criteria in subsection (1) of this section to state highways that are currently not a part of the designated scenic and recreational highway system. The department shall respond to local requests for route evaluation as defined in subsection (3) of this section.

(5) Once the commission has designated a roadway as a scenic byway, the department may submit an individual nomination to the Federal Highway Administration for its consideration of whether the roadway qualifies to be designated as a national scenic byway or an All-American Roadway. [1999 c 218 § 4.]

Effective date—1999 c 218: See note following RCW 47.39.010.

47.39.075 Corridor management plan. The department shall participate with local communities to develop a corridor management plan for a state highway nominated to be part of the scenic byway program. Local, regional, or other governmental bodies shall develop a corridor management plan for nominated routes that are under their jurisdiction. [1999 c 218 § 5.]

Effective date—1999 c 218: See note following RCW 47.39.010.

47.39.080 Funding priorities—Signage. Recognizing that the Transportation Equity Act for the 21st Century establishes a national "Scenic Byways" grant program and a new apportionment program called "Transportation Enhancement Activities," the department of transportation shall place high priority on obtaining funds from those sources for further development of a scenic and recreational highways program, including enhancement projects on the designated scenic and recreational highway system. The department shall consider the use of the designated system by bicyclists and pedestrians in connection with nonmotorized routes in the state trail plan, and the state bicycle plan which are also eligible for TEA-21 funding. Appropriate signage may be used at intersections of nonmotorized and motorized systems to demonstrate the access, location, and the interconnectivity of various modes of travel for transportation and recreation. For the purposes of leveraging national scenic byway planning grant funds, the commission may designate eligible state highways as scenic byways on an interim basis. [1999 c 218 § 6; 1993 c 430 § 8.]

Effective date—1999 c 218: See note following RCW 47.39.010.

47.39.090 Consultation with other agencies and parties—Identification of tourist routes. In developing the scenic and recreational highways program, the department shall consult with the department of community, trade, and economic development, the department of natural resources, the parks and recreation commission, affected cities, towns, and counties, regional transportation planning organizations, statewide bicycling organizations, and other interested parties. The scenic and recreational highways program may identify entire highway loops or similar tourist routes that

(2008 Ed.)

could be developed to promote tourist activity and provide concurrent economic growth while protecting the scenic and recreational quality surrounding state highways. [1995 c 399 § 123; 1993 c 430 § 9.]

47.39.100 Removal of designation. (1) The commission may remove the designation of a route if it no longer possesses the intrinsic qualities or fails to meet the criteria that supported its designation.

(2) The department shall determine whether a roadway designated as a national scenic byway or an All-American Roadway is being properly maintained in accordance with the roadway's byway management plan, including preserving the intrinsic qualities that originally supported the designation. When the department determines that the intrinsic qualities of a national scenic byway or All-American Roadway have not been maintained sufficiently to retain its designation, the department shall notify the party responsible for maintaining the designation of the finding and allow the party an opportunity, under federal regulations, for corrective action before formal removal of the designation of the roadway.

(3) Local, regional, or other governmental bodies may notify the commission of the removal of a designated route if they determine it no longer meets the designation criteria, or community support for the designation no longer exists, or it no longer possesses the intrinsic qualities that supported its original designation.

(4) State or local removal of a designated route will result in discontinued state support of the designated route and can include, but is not limited to, state matching assistance for grant applications, the removal of signs directly related to the byway, free promotional information in the state-owned safety rest areas, and inclusion in maps, brochures, and electronic media. [1999 c 218 § 7.]

Effective date—1999 c 218: See note following RCW 47.39.010.

47.39.900 Short title. RCW 47.39.010 through 47.39.910 shall constitute a new chapter in Title 47 RCW and shall be known and may be cited as the "Scenic and Recreational Highway Act of 1967." [1967 ex.s. c 85 § 7.]

47.39.910 Severability—1967 ex.s. c 85. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1967 ex.s. c 85 § 8.]

(4) An organization whose name: (a) Endorses or opposes a particular candidate for public office, (b) advocates a position on a specific political issue, initiative, referendum, or piece of legislation, or (c) includes a reference to a political party shall not be eligible to participate in the adopt-a-highway program.

(5) In administering the adopt-a-highway program, the department shall:

(a) Provide a standardized application form, registration form, and contractual agreement for all participating groups. The forms shall notify the prospective participants of the risks and responsibilities to be assumed by the department and the participants;

(b) Require all participants to be at least fifteen years of age;

(c) Require parental consent for all minors;

(d) Require at least one adult supervisor for every eight minors;

(e) Require one designated leader for each participating organization, unless the department chooses to coordinate a consortium of participants;

(f) Assign each participating organization a section or sections of state highway, or other state-owned transportation facilities, for a specified period of time;

(g) Recognize the efforts of a participating organization by erecting and maintaining signs with the organization's name on both ends of the organization's section of highway;

(h) Provide appropriate safety equipment. Safety equipment issued to participating groups must be returned to the department upon termination of the applicable adopt-a-highway agreement;

(l) Maintain records of all injuries and accidents that occur;

(m) Adopt rules that establish a process to resolve any question of an organization's eligibility to participate in the adopt-a-highway program;

(n) Obtain permission from property owners who lease right-of-way before allowing an organization to adopt a section of highway on such leased property; and

(o) Establish procedures and guidelines for the adopt-a-highway program.

(6) Nothing in this section affects the rights or activities of, or agreements with, adjacent landowners, including the use of rights-of-way and crossings, nor impairs these rights and uses by the placement of signs. [1995 c 106 § 1; 1990 c 258 § 5.]

Legislative findings and intent—1990 c 258: "The legislature finds that despite the efforts of the department of transportation, the department of ecology, and the ecology youth corps to pick up litter along state highways, roadside litter in Washington state has increased by thirty-six percent since 1983. The legislature further finds that in twenty-seven states, volunteer organizations are able to give of their time and energy, demonstrate commitment to a clean environment, and discourage would-be litterers by keeping sections of highway litter free because those states have established programs to encourage and recognize such voluntary efforts. Therefore, it is the legislature's intent to establish an "adopt-a-highway" litter control program as a partnership between citizen volunteers and the state to reduce roadside litter and build civic pride in a litter-free Washington." [1990 c 258 § 4.]

47.40.105 Local adopt-a-highway programs. Local government legislative authorities may enact local "adopt-a-highway sign" programs which are not inconsistent with state or federal law. [1990 c 258 § 3.]

Legislative findings and intent—1990 c 258: See note following RCW 47.40.100.

47.41.010 Legislative declaration—Purpose. For the purpose of promoting the public safety, health, welfare, convenience, and enjoyment of public travel, to protect the public investment in public highways, and to preserve and enhance the scenic beauty of lands bordering public highways, it is hereby declared to be in the public interest to regulate and restrict the establishment, operation, and maintenance of junkyards in areas adjacent to the interstate and fed-

eral-aid primary systems within this state. The legislature hereby finds and declares that junkyards which do not conform to the requirements of this chapter are public nuisances. [1971 ex.s. c 101 § 1.]

47.41.020 Definitions. The definitions set forth in this section apply throughout this chapter.

(1) "Junk" means old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, or junked, dismantled, or wrecked automobiles, or parts thereof, iron, steel, and other old or scrap ferrous or nonferrous material.

(2) "Automobile graveyard" means any establishment or place of business that is maintained, used, or operated by storing, keeping, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts.

(3) "Junkyard" means an establishment or place of business that is maintained, operated, or used for storing, keeping, buying, or selling junk or for the maintenance or operation of an automobile graveyard, and the term includes garbage dumps and sanitary fills.

(4) "Interstate system" means that portion of the national system of interstate and defense highways located within this state, as officially designated or as may hereafter be so designated by the department and approved by the United States secretary of transportation under Title 23 United States Code.

(5) "Federal-aid primary system" means that portion of connected main highways as officially designated or as may hereafter be so designated by the department and approved by the United States secretary of transportation as the federal-aid primary system pursuant to the provisions of Title 23 United States Code.

(6) "Department" means the Washington state department of transportation. [1984 c 7 § 216; 1971 ex.s. c 101 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.030 Junkyards adjacent to highways prohibited—Exceptions. No person may establish, operate, or maintain a junkyard any portion of which is within one thousand feet of the nearest edge of the right-of-way of any interstate or federal-aid primary highway, except the following:

(1) Those which are screened by natural objects, plantings, fences, or other appropriate means so as not to be visible from the main-traveled way of the system or otherwise removed from sight;

(2) Those located within areas which are zoned for industrial use under authority of law;

(3) Those located within unzoned industrial areas, which areas shall be determined from actual land uses and defined by rules adopted by the department and approved by the United States secretary of transportation; and

(4) Those which are not visible from the main-traveled way of the system. [1984 c 7 § 217; 1971 ex.s. c 101 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.040 Screening or removal of junkyard. Before July 1, 1971, the department shall determine whether or not the topography of the land adjoining the highway will permit adequate screening of any junkyard lawfully in existence located outside of a zoned industrial area or an unzoned

industrial area as defined under RCW 47.41.030 on August 9, 1971, that is within one thousand feet of the nearest edge of the right-of-way and visible from the main traveled way of any highway on the interstate and primary system and whether screening of the junkyard would be economically feasible. Within thirty days thereafter the department shall notify by certified mail the record owner of the land upon which the junkyard is located, or the operator thereof, of its determination.

If it is economically feasible to screen the junkyard, the department shall screen the junkyard so that it will not be visible from the main-traveled way of the highway. The department is authorized to acquire by gift, purchase, exchange, or condemnation such lands or interest in lands as may be required for these purposes.

If it is not economically feasible to screen the junkyard, the department shall acquire by purchase, gift, or condemnation an interest in the real property used for junkyard purposes that is visible from the main traveled way of the highway, restricting any owner of the remaining interest to use of the real estate for purposes other than a junkyard. In addition to compensation for the real property interest, the operator of a junkyard shall receive the actual reasonable expenses in moving his business personal property to a location within the same general area where a junkyard may be lawfully established, operated, and maintained. This section shall be interpreted as being in addition to all other rights and remedies of a junkyard owner or operator and shall not be interpreted as a limitation on or alteration of the law of compensation in eminent domain. [1984 c 7 § 218; 1971 ex.s. c 101 § 4.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.050 Administrative rules—Review of action.

The department shall adopt rules for the administration of this chapter consistent with the policy of this chapter and the national policy set forth in 23 U.S.C. Sec. 136, and the regulations promulgated thereunder by the United States secretary of transportation. Proceedings for review of any action taken by the department pursuant to this chapter shall be instituted by filing a petition only in the superior court of Thurston county. [1984 c 7 § 219; 1971 ex.s. c 101 § 5.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.060 Other laws not affected. Nothing in this chapter shall be construed to permit a person to maintain any junkyard that is otherwise prohibited by statute or by the resolution or ordinance of any county, city, or town, nor to abrogate or affect the lawful provisions of any statute, ordinance, regulation, or resolution which are more restrictive than the provisions of this chapter. [1971 ex.s. c 101 § 6.]

47.41.070 Violations—Penalty—Abatement as public nuisance. (1) If the owner of the land upon which any such junkyard is located, or the operator thereof, as the case may be, fails to comply with the notice or remove any such junk within the time provided in this chapter after being so notified, he or she is guilty of a misdemeanor. In addition to the penalties imposed by law upon conviction, an order may be entered compelling compliance with this chapter. Each

(2008 Ed.)

day the junkyard is maintained in a manner so as not to comply with this chapter constitutes a separate offense.

(2) If the operator of the junkyard or the owner of the property upon which it is located, as the case may be, is not found or refuses receipt of the notice, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall post the property upon which it is located with a notice that the junkyard constitutes a public nuisance and that the junk thereon must be removed as provided in this chapter. If the notice is not complied with, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall abate the nuisance and remove the junk, and for that purpose may enter upon private property without incurring liability for doing so. [2003 c 53 § 261; 1984 c 7 § 220; 1971 ex.s. c 101 § 7.]

Intent—Effective date—2003 c 53: See notes following RCW 2.48.180.

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.080 Agreements with United States secretary of transportation.

The department is authorized to enter into agreements with the United States secretary of transportation as provided in Title 23 United States Code, relating to the control of junkyards in areas adjacent to the interstate and primary systems, and to take action in the name of the state to comply with the terms of the agreement. [1984 c 7 § 221; 1971 ex.s. c 101 § 8.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.41.900 Severability—1971 ex.s. c 101. If any provision of this act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected. [1971 ex.s. c 101 § 9.]

47.42.010 Declaration of purpose. The control of signs in areas adjacent to state highways of this state is hereby declared to be necessary to promote the public health, safety, welfare, convenience and enjoyment of public travel, to protect the public investment in the interstate system and other state highways, and to attract visitors to this state by conserving the natural beauty of areas adjacent to the interstate system, and of scenic areas adjacent to state highways upon which they travel in great numbers, and to insure that information in the specific interest of the traveling public is presented safely and effectively. [1961 c 96 § 1.]

(8) "Sign" means any outdoor sign, display, device, figure, painting, drawing, message, placard, poster, billboard, or other thing that is designed, intended, or used to advertise or inform, any part of the advertising or informative contents of which is visible from any place on the main-traveled way of the interstate system or other state highway. The area shall be measured from the outer edges of the regularly used buildings, parking lots, or storage or processing areas of the commercial or industrial activity and not from the property lines of the parcels upon which the activities are located. (10) "Roadside area information panel or display" means a panel or display located so as not to be readable from the main traveled way, erected in a safety rest area, scenic overlook, or similar roadside area, for providing motorists with information in the specific interest of the traveling public.

Legislative intent—1985 c 376: "It is the intent of the legislature that state highway information and directional signs provide appropriate guidance to all motorists traveling throughout the state. Such guidance should include the identity, location, and types of recreational, cultural, educational, entertainment, or unique or unusual commercial activities whose principle source of visitation is derived from motorists not residing in the immediate locale of the activity. Such informational and directional signs shall comply with Title 23, United States Code and the rules adopted by the department under RCW 47.42.060." [1985 c 376 § 1.]

47.42.062 Signs visible from primary system in commercial and industrial areas—Requirements, restrictions, and prohibitions. Signs within six hundred and sixty feet of the nearest edge of the right-of-way which are visible from the main traveled way of the primary system within commercial and industrial areas and whose size, lighting, and spacing are consistent with the customary use of property for the effective display of outdoor advertising as set forth in this section may be erected and maintained: PROVIDED, That this section shall not serve to restrict type 3 signs located along any portion of the primary system within an incorporated city or town or within any commercial or industrial area.

(1) General: Signs shall not be erected or maintained which (a) imitate or resemble any official traffic sign, signal, or device; (b) are erected or maintained upon trees or painted or drawn upon rocks or other natural features and which are structurally unsafe or in disrepair; or (c) have any visible moving parts.

(2) Size of signs:

(a) The maximum area for any one sign shall be six hundred seventy-two square feet with a maximum height of twenty-five feet and maximum length of fifty feet inclusive of any border and trim but excluding the base or apron, supports and other structural members: PROVIDED, That cut-

outs and extensions may add up to twenty percent of additional sign area.

(b) For the purposes of this subsection, double-faced, back-to-back, or V-type signs shall be considered as two signs.

(c) Signs which exceed three hundred twenty-five square feet in area may not be double-faced (abutting and facing the same direction).

(b) On limited access highways established pursuant to chapter 47.52 RCW no two signs shall be spaced less than one thousand feet apart, and no sign may be located within three thousand feet of the center of an interchange, a safety rest area, or information center, or within one thousand feet of an intersection at grade. Double-faced signs shall be prohibited. Not more than a total of five sign structures shall be permitted on both sides of the highway per mile.

(c) On noncontrolled access highways inside the boundaries of incorporated cities and towns not more than a total of four sign structures on both sides of the highway within a space of six hundred sixty feet shall be permitted with a minimum of one hundred feet between sign structures. In no event, however, shall more than four sign structures be permitted between platted intersecting streets or highways. On noncontrolled access highways outside the boundaries of incorporated cities and towns minimum spacing between sign structures on each side of the highway shall be five hundred feet.

(d) For the purposes of this subsection, a back-to-back sign and a V-type sign shall be considered one sign structure.

(e) Official signs, and signs advertising activities conducted on the property on which they are located shall not be considered in determining compliance with the above spacing requirements. The minimum space between structures shall be measured along the nearest edge of the pavement between points directly opposite the signs along each side of the highway and shall apply to signs located on the same side of the highway.

(4) Lighting: Signs may be illuminated, subject to the following restrictions:

(a) Signs which contain, include, or are illuminated by any flashing, intermittent, or moving light or lights are prohibited, except those giving public service information such as time, date, temperature, weather, or similar information.

(b) Signs which are not effectively shielded as to prevent beams or rays of light from being directed at any portion of the traveled ways of the highway and which are of such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle, or which otherwise interfere with any driver's operation of a motor vehicle are prohibited.

(c) No sign shall be so illuminated that it interferes with the effectiveness of, or obscures an official traffic sign, device, or signal.

(d) All such lighting shall be subject to any other provisions relating to lighting of signs presently applicable to all highways under the jurisdiction of the state. [1975 1st ex.s. c

(1) Signs within six hundred and sixty feet of the nearest edge of the right-of-way lawfully erected and maintained which are visible from the main traveled way of the primary system within commercial and industrial areas on June 1, 1971 shall be permitted to remain and be maintained.

(2) Signs within six hundred and sixty feet of the nearest edge of the right-of-way which are visible from the main traveled way of the primary system within commercial and industrial areas whose size, lighting, and spacing are consistent with customary use as set forth in RCW 47.42.062 may be erected and maintained. Signs lawfully erected and maintained on June 1, 1971 shall be included in the determination of spacing requirements for additional signs. [1975 1st ex.s. c 271 § 4; 1971 ex.s. c 62 § 8.]

47.42.065 Signs viewable from other highways or streets—Requirements. Notwithstanding any other provision of chapter 47.42 RCW, signs may be erected and maintained more than six hundred and sixty feet from the nearest edge of the right-of-way which are visible from the main traveled way of the interstate system, primary system, or scenic system when designed and oriented to be viewed from highways or streets other than the interstate system, primary system, or the scenic system and the advertising or informative contents of which may not be clearly comprehended by motorists using the main traveled way of the interstate system, primary system or scenic system. [1975 1st ex.s. c 271 § 5; 1971 ex.s. c 62 § 9.]

47.42.070 State and local prohibitions. Nothing in this chapter shall be construed to permit a person to erect or maintain any sign that is otherwise prohibited by statute or by the resolution or ordinance of any county, city, or town of the state of Washington. [1961 c 96 § 7.]

(2) If the permittee or owner, as the case may be, fails to comply with the chapter or remove any such sign within fifteen days after being notified to remove the sign he is guilty of a misdemeanor. In addition to the penalties imposed by law upon conviction, an order may be entered compelling removal of the sign. Each day the sign is maintained constitutes a separate offense.

If the sign is not removed within fifteen days after such posting, the department, the chief of the Washington state patrol, the county sheriff, or the chief of police of any city or town shall abate the nuisance and destroy the sign, and for that purpose may enter upon private property without incurring liability for doing so.

(4) Nothing in this section may be construed to affect the provisions contained in RCW 47.42.102 requiring the payment of compensation upon the removal of any signs compensable under state law.

(5) Any sign erected or maintained on state highway right-of-way contrary to this chapter or rules adopted under it is a public nuisance, and the department is authorized to remove any such sign without notice. (2) No sign lawfully erected in a protected area as defined by section 2, chapter 96, Laws of 1961 (before the amendment thereof), prior to March 11, 1961, other than within a commercial or industrial zone within the boundaries of a city or town as such boundaries existed on September 21, 1959, wherein the use of real property adjacent to the interstate system is subject to municipal regulation or control but which does not comply with the provisions of this chapter or any regulations promulgated hereunder, shall be maintained by any person after three years from March 11, 1961.

(3) No sign lawfully erected in a scenic area as defined by section 2, chapter 96, Laws of 1961 (before the amendment thereof), prior to the effective date of the designation of such area as a scenic area shall be maintained by any person after three years from the effective date of the designation of any such area as a scenic area.

(4) No sign visible from the main traveled way of the interstate system, the primary system (other than type 3 signs

along any portion of the primary system within an incorporated city or town or within a commercial or industrial area), or the scenic system which was there lawfully maintained immediately prior to May 10, 1971, but which does not comply with the provisions of chapter 47.42 RCW as now or hereafter amended, shall be maintained by any person (a) after three years from May 10, 1971, or (b) with respect to any highway hereafter designated by the legislature as a part of the scenic system, after three years from the effective date of the designation. 47.42.102 Compensation for removal of signs—Authorized—Applicability. (1) Except as otherwise provided in subsection (3) of this section, just compensation shall be paid upon the removal of any sign (pursuant to the provisions of chapter 47.42 RCW), lawfully erected under state law, which is visible from the main traveled way of the interstate system or the primary system.

(2) Such compensation shall be paid for the following:

(a) The taking from the owner of such sign, display, or device of all right, title, leasehold, and interest in such sign, display, or device; and

(b) The taking from the owner of the real property on which the sign, display, or device is located, of the right to erect and maintain such signs, displays, and devices thereon.

(3) In no event, however, shall compensation be paid for the taking or removal of signs adjacent to the interstate system and the scenic system which became subject to removal pursuant to chapter 96, Laws of 1961 as amended by section 55, chapter 3, Laws of 1963 ex. sess. prior to May 10, 1971. [1975 1st ex.s. c 271 § 2; 1971 ex.s. c 62 § 12.]

47.42.103 Compensation for removal—Action determining amount—Payment—State's share. (1) Compensation as required by RCW 47.42.102 shall be paid to the person or persons entitled thereto for the removal of such signs. If no agreement is reached on the amount of compensation to be paid, the department may institute an action by summons and complaint in the superior court for the county in which the sign is located to obtain a determination of the compensation to be paid. If the owner of the sign is unknown and cannot be ascertained after diligent efforts to do so, the department may remove the sign upon the payment of compensation only to the owner of the real property on which the sign is located. Thereafter the owner of the sign may file an action at any time within one year after the removal of the sign to obtain a determination of the amount of compensation he should receive for the loss of the sign. If either the owner of the sign or the owner of the real property on which the sign is located cannot be found within the state, service of the summons and complaint on such person for the purpose of obtaining a determination of the amount of compensation to be paid

may be by publication in the manner provided by RCW 4.28.100.

(2) If compensation is determined by judicial proceedings, the sum so determined shall be paid into the registry of the court to be disbursed upon removal of the sign by its owner or by the owner of the real property on which the sign is located. If the amount of compensation is agreed upon, the department may pay the agreed sum into escrow to be released upon the removal of the sign by its owner or the owner of the real property on which the sign is located.

(3) The state's share of compensation shall be paid from the motor vehicle fund, or if a court having jurisdiction enters a final judgment declaring that motor vehicle funds may not be used, then from the general fund. [1984 c 7 § 229; 1971 ex.s. c 62 § 13.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.104 Compensation for removal—Federal share—Acceptance. The department may accept any allotment of funds by the United States, or any agency thereof, appropriated to carry out the purposes of section 131 of title 23, United States Code, as now or hereafter amended. The department shall take such steps as may be necessary from time to time to obtain from the United States, or the appropriate agency thereof, funds allotted and appropriated, pursuant to section 131, for the purpose of paying the federal share of the just compensation to be paid to sign owners and owners of real property under the terms of subsection (g) of section 131 and RCW 47.42.102, 47.42.103, and 47.42.104. [1984 c 7 § 230; 1971 ex.s. c 62 § 14.]

Severability—1984 c 7: See note following RCW 47.01.141.

(b) Such sign was erected subsequent to May 10, 1971 (the effective date of the Scenic Vistas Act of 1971), in compliance with existing state and local law.

(2) Such compensation shall be paid in the same manner as specified in RCW 47.42.102(2) for the following:

(a) The taking from the owner of such sign, display, or device of all right, title, leasehold, and interest in such sign, display, or device; and

(b) The taking from the owner of the real property on which the sign, display, or device is located, of the right to erect and maintain such signs, displays, and devices thereon. [1977 ex.s. c 141 § 1.]

Severability—1977 ex.s. c 141: "If any provision of this 1977 amendatory act, or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provision to other persons or circumstances is not affected." [1977 ex.s. c 141 § 2.]

The department is authorized to enter into agreements (and such supplementary agreements as may be necessary) consistent with this chapter, with the secretary of commerce or the secretary of transportation authorized under section 131(b) of title 23, United States Code, as codified and enacted by Public Law 85-767 and amended only by section 106, Public Law 86-342, in order that the state may become eligible for increased federal aid as provided for in section 131 of title 23, United States Code, as codified and enacted by Public Law 85-767 and amended only by section 106, Public Law 86-342. [1984 c 7 § 231; 1971 ex.s. c 62 § 16; 1961 c 96 § 11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.120 Permits—Fees—Renewal—Permissible acts—Revocation. Notwithstanding any other provisions of this chapter, no sign except a sign of type 1 or 2 or those type 3 signs that advertise activities conducted upon the properties where the signs are located, may be erected or maintained without a permit issued by the department. Application for a permit shall be made to the department on forms furnished by it. The forms shall contain a statement that the owner or lessee of the land in question has consented thereto. The application shall be accompanied by a fee established by department rule to be deposited with the state treasurer to the credit of the motor vehicle fund. Permits shall be for the remainder of the calendar year in which they are issued, and accompanying fees shall not be prorated for fractions of the year. Permits must be renewed annually through a certification process established by department rule. Advertising copy may be changed at any time without the payment of an additional fee. Assignment of permits in good standing is effective only upon receipt of written notice of assignment by the department. A permit may be revoked after hearing if the department finds that any statement made in the application or annual certification process was false or misleading, or that the sign covered is not in good general condition and in a reasonable state of repair, or is otherwise in violation of this chapter, if the false or misleading information has not been corrected and the sign has not been brought into compliance with this chapter or rules adopted under it within thirty days after written notification. [1999 c 276 § 1; 1984 c 7 § 232; 1971 ex.s. c 62 § 17; 1961 c 96 § 12.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.42.130 Permit identification number. Every permit issued by the department shall be assigned a separate identification number, and each permittee shall fasten to each sign a weatherproof label, not larger than sixteen square inches, that shall be furnished by the department and on which shall be plainly visible the permit number. The permittee shall also place his or her name in a conspicuous position on the front or back of each sign. The failure of a sign to have such a label affixed to it is prima facie evidence that it is not in compliance with the provisions of this chapter. [1999 c 276 § 2; 1984 c 7 § 233; 1961 c 96 § 13.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.44.010 Wire and pipe line and tram and railway franchises—Application—Rules on hearing and notice.

(1) The department of transportation may grant franchises to persons, associations, private or municipal corporations, the United States government, or any agency thereof, to use any state highway for the construction and maintenance of water pipes, flume, gas, oil or coal pipes, telephone, telegraph and electric light and power lines and conduits, trams or railways, and any structures or facilities that are part of an urban public transportation system owned or operated by a municipal corporation, agency, or department of the state of Washington other than the department of transportation, and any other such facilities. In order to minimize the disruption to traffic and damage to the roadway, the department is encouraged to develop a joint trenching policy with other affected jurisdictions so that all permittees and franchisees requiring access to ground under the roadway may do so at one time.

(2) All applications for the franchise must be made in writing and subscribed by the applicant, and describe the state highway or portion thereof over which franchise is desired and the nature of the franchise. The application must also include the identification of all jurisdictions affected by the franchise and the names of other possible franchisees who should receive notice of the application for a franchise.

(3) The department of transportation shall adopt rules providing for a hearing or an opportunity for a hearing with reasonable public notice thereof with respect to any franchise application involving the construction and maintenance of utilities or other facilities within the highway right-of-way which the department determines may (a) during construction, significantly disrupt the flow of traffic or use of driveways or other facilities within the right-of-way, or (b) during or following construction, cause a significant and adverse effect upon the surrounding environment. 47.44.020 Grant of franchise—Conditions—Hearing.

(1) If the department of transportation deems it to be for the public interest, the franchise may be granted in whole or in part, with or without hearing under such regulations and conditions as the department may prescribe, with or without compensation, but not in excess of the reasonable cost for investigating, handling, and granting the franchise. The department may require that the utility and appurtenances be so placed on the highway that they will, in its opinion, least interfere with other uses of the highway.

(2) If a hearing is held, it must be conducted by the department, and may be adjourned from time to time until completed. The applicant may be required to produce all facts pertaining to the franchise, and evidence may be taken for and against granting it.

(3) The facility must be made subject to removal when necessary for the construction, alteration, repair, or improvement of the highway and at the expense of the franchise holder, except that the state shall pay the cost of the removal whenever the state is entitled to receive proportionate reimbursement therefor from the United States in the cases and in

the manner set forth in RCW 47.44.030. Renewal upon expiration of a franchise must be by application.

(4) A person constructing or operating such a utility on a state highway is liable to any person injured thereby for any damages incident to the work of installation or the continuation of the occupancy of the highway by the utility, and except as provided above, is liable to the state for all necessary expenses incurred in restoring the highway to a permanent suitable condition for travel. A person constructing or operating such a utility on a state highway is also liable to the state for all necessary expenses incurred in inspecting the construction and restoring the pavement or other related transportation equipment or facilities to a permanent condition suitable for travel and operation in accordance with requirements set by the department. Permit and franchise holders are also financially responsible to the department for trenching work not completed within the contractual period and for compensating for the loss of useful pavement life caused by trenching. No franchise may be granted for a longer period than fifty years, and no exclusive franchise or privilege may be granted.

(5) The holder of a franchise granted under this section is financially responsible to the department for trenching work not completed within the period of the permit and for compensating for the loss of useful pavement life caused by trenching. In the case of common trenching operations, liability under this subsection will be assessed equally between the franchisees. The assessed parties may thereafter pursue claims of contribution or indemnity in accord with such fault as may be determined by arbitration or other legal action. 47.44.030 Removal of facilities—Notice—Reimbursement, when.

If the department deems it necessary that a facility be removed from the highway for the safety of persons traveling thereon or for construction, alteration, improvement, or maintenance purposes, it shall give notice to the franchise holder to remove the facility at his or her expense and as the department orders. However, notwithstanding any contrary provision of law or of any existing or future franchise held by a public utility, the department shall pay or reimburse the owner for relocation or removal of any publicly, privately, or cooperatively owned public utility facilities when necessitated by the construction, reconstruction, relocation, or improvement of a highway that is part of the national system of interstate and defense highways for each item of cost for which the state is entitled to be reimbursed by the United States in an amount equal to at least ninety percent thereof under the provisions of section 123 of the federal aid highway act of 1958 and any other subsequent act of congress under which the state is entitled to be reimbursed by the United States in an amount equal to at least ninety percent of the cost of relocation of utility facilities on the national system of interstate and defense highways. [1984 c 7 § 234; 1961 c 13 § 47.44.030. Prior: 1959 c 330 § 2; 1937 c 53 § 85; RRS § 6400-85.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.44.031 Removal of facilities—Limitation. The provisions of RCW 47.44.030 authorizing the department to pay or reimburse the owner of a utility apply only to relocation or removal of utility facilities required by state construction contracts which are advertised for bids by the department after June 30, 1959. 47.44.040 Franchises across joint bridges. Whenever any bridge exists on the route of any state highway and crosses any stream, body of water, gulch, navigable water, swamp, or other topographical formation constituting the boundary of this state or the boundary of a county, city, or town of this state and the bridge is owned or operated by this state jointly with any such county, city, or town, or with any municipal corporation of this state, or with such other state or with any county, city, or town of such other state, the department is empowered to join with the proper officials of the county, city, or town, or the municipal corporation of this state or of such other state or of such county, city, or town of such other state in granting franchises to persons or private or municipal corporations for the construction and maintenance on the bridge of water pipes, flumes, gas pipes, telephone, telegraph, and electric light and power lines and conduits, trams and railways, and any structures or facilities that are part of an urban public transportation system owned or operated by a municipal corporation, agency, or department of the state of Washington other than the department, or any other such facilities. All such franchises shall be granted in the same manner as provided for the granting of like franchises on state highways. Any revenue accruing to the state of Washington from the franchises shall be paid to the state treasurer and deposited to the credit of the fund from which this state's share of the cost of joint operation of the bridge is paid. [1984 c 7 § 236; 1967 c 108 § 8; 1961 c 13 § 47.44.040. Prior: 1937 c 53 § 86; RRS § 6400-86.]

Urban public transportation system defined: RCW 47.04.082.

47.44.050 Permit for short distances. (1) The department may grant a permit to construct or maintain on, over, across, or along any state highway any water, gas, telephone, telegraph, light, power, or other such facilities when they do not extend along the state highway for a distance greater than three hundred feet. The department may require such information as it deems necessary in the application for any such permit, and may grant or withhold the permit within its discretion. Any permit granted may be canceled at any time, and any facilities remaining upon the right-of-way of the state highway after thirty days written notice of the cancellation are an unlawful obstruction and may be removed in the manner provided by law.

(2) The holder of a permit granted under this section is financially responsible to the department for trenching work not completed within the period of the permit and for compensating for the loss of useful pavement life caused by trenching. In the case of common trenching operations, liability under this subsection will be assessed equally between the permit holders. The assessed parties may thereafter pursue

claims of contribution or indemnity in accord with such fault as may be determined by arbitration or other legal action. [2001 c 201 § 7; 1984 c 7 § 237; 1961 c 13 § 47.44.050. Prior: 1943 c 265 § 3; 1937 c 53 § 87; Rem. Supp. 1943 § 6400-87.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.44.060 Penalties. (1) Any person, firm, or corporation who constructs or maintains on, over, across, or along any state highway any water pipe, flume, gas pipe, telegraph, telephone, electric light, or power lines, or tram or railway, or any other such facilities, without having first obtained and having at all times in full force and effect a franchise or permit to do so in the manner provided by law is guilty of a misdemeanor. Each day of violation is a separate and distinct offense.

(2) Any person, firm, or corporation who constructs or maintains on, over, across, or along any state highway any water pipe, flume, gas pipe, telegraph, telephone, electric light or power lines, or tram or railway, or any other such facilities, without having first obtained and having at all times in full force and effect a franchise or permit to do so in the manner provided by law is liable for a civil penalty of one hundred dollars per calendar day beginning forty-five days from the date notice is given and until application is made for a franchise or permit or until the facility is removed as required by notice. The state shall give notice by certified mail that a franchise or permit is required or the facility must be removed and shall include in the notice sufficient information to identify the portion of right-of-way in question. Notice is effective upon delivery.

(3) If a person, firm or corporation does not apply for a permit or franchise within forty-five days of notice given in accordance with subsection (2) of this section or the state determines that the facility constructed or maintained without a permit or franchise would not be granted a permit or franchise, the state may order the facility to be removed within such time period as the state may specify. If the facility is not removed, the state, in addition to any other remedy, may remove the facility at the expense of the owner. [1989 c 224 § 1; 1961 c 13 § 47.44.060. 47.44.150 Measure of damages. In any action for damages against the state of Washington, its agents, contractors, or employees by reason of damages to a utility or other facility located on a state highway, the damages are limited to the cost of repair of the utility or facility and are recoverable only in those instances where the utility or facility is authorized to be located on the state highway. However, the state is subject to the penalties provided in RCW 19.122.070 (1) and (2) only if the state has failed to give a notice meeting the require-

ments of RCW 19.122.030 to utilities or facilities that are authorized to be located on the state highway. [1989 c 196 § 1.]

47.46.010 Finding. The legislature finds and declares:

It is essential for the economic, social, and environmental well-being of the state and the maintenance of a high quality of life that the people of the state have an efficient transportation system.

The ability of the state to provide an efficient transportation system will be enhanced by a public-private sector program providing for private entities to undertake all or a portion of the study, planning, design, development, financing, acquisition, installation, construction or improvement, operation, and maintenance of transportation systems and facility projects.

A public-private initiatives program will provide benefits to both the public and private sectors. Public-private initiatives provide a sound economic investment opportunity for the private sector. Such initiatives will provide the state with increased access to property development and project opportunities, financial and development expertise, and will supplement state transportation revenues, allowing the state to use its limited resources for other needed projects.

The public-private initiatives program, to the fullest extent possible, should encourage and promote business and employment opportunities for Washington state citizens.

The public-private initiatives program shall be implemented in cooperation, consultation, and with the support of the affected communities and local jurisdictions.

The secretary of transportation should be permitted and encouraged to test the feasibility of building privately funded transportation systems and facilities or segments thereof through the use of innovative agreements with the private sector. The secretary of transportation should be vested with the authority to solicit, evaluate, negotiate, and administer public-private agreements with the private sector relating to

(2008 Ed.)

the planning, construction, upgrading, or reconstruction of transportation systems and facilities.

Agreements negotiated under a public-private initiatives program will not bestow on private entities an immediate right to construct and operate the proposed transportation facilities. Rather, agreements will grant to private entities the opportunity to design the proposed facilities, demonstrate public support for proposed facilities, and complete the planning processes required in order to obtain a future decision by the department of transportation and other state and local lead agencies on whether the facilities should be permitted and built.

Agreements negotiated under the public-private initiatives program should establish the conditions under which the private developer may secure the approval necessary to develop and operate the proposed transportation facilities; create a framework to attract the private capital necessary to finance their development; ensure that the transportation facilities will be designed, constructed, and operated in accordance with applicable local, regional, state, and federal laws and the applicable standards and policies of the department of transportation; and require a demonstration that the proposed transportation facility has the support of the affected communities and local jurisdictions.

The legislature finds that the Puget Sound congestion pricing project, selected under this chapter, raises major transportation policy, economic, and equity concerns. These relate to the integrity of the state's high occupancy vehicle program; the cost-effective movement of freight and goods; the diversion of traffic to local streets and arterials; and possible financial hardship to commuters. The legislature further finds that these potential economic and social impacts require comprehensive legislative review prior to advancement of the project and directs that the secretary not proceed with the implementation of the project without prior approval of the legislature.

The department of transportation should be encouraged to take advantage of new opportunities provided by federal legislation under section 1012 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). That section establishes a new program authorizing federal participation in construction or improvement or improvement of publicly or privately owned toll roads, bridges, and tunnels, and allows states to leverage available federal funds as a means for attracting private sector capital. [1995 2nd sp.s. c 19 § 1; 1993 c 370 § 1.]

Effective date—1995 2nd sp.s. c 19: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [June 16, 1995]." [1995 2nd sp.s. c 19 § 5.]

47.46.011 Finding—Intent—2002 c 114. The legislature finds that greater flexibility to provide state financing for projects developed under chapter 47.46 RCW will result in better use of public resources, lower financing costs, and potential savings to taxpayers. The legislature intends to: Clarify the ability of the department of transportation to use public and private financing for projects selected and developed under chapter 47.46 RCW; provide the department with specific means of state financing where that financing is in the public's best interest; provide citizens living in the

impacted areas a statutory mechanism to review proposed toll rates and provide input before adoption of toll schedules by the toll authority; and prevent unreasonable delay of critical transportation projects that are essential for public safety and welfare. [2002 c 114 § 1.]

47.46.020 Definition. As used in this chapter, "transportation systems and facilities" means capital-related improvements and additions to the state's transportation infrastructure, including but not limited to highways, roads, bridges, vehicles, and equipment, marine-related facilities, vehicles, and equipment, park and ride lots, transit stations and equipment, transportation management systems, and other transportation-related investments. [1993 c 370 § 2.]

47.46.030 Demonstration projects—Selection—Public involvement. (1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part public or private sources of financing.

The public-private initiatives program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project.

(2) If project proposals selected prior to September 1, 1994, are terminated by the public or private sectors, the department shall not select any new projects, including project proposals submitted to the department prior to September 1, 1994, and designated by the transportation commission as placeholder projects, after June 16, 1995, until June 30, 1997.

The department, in consultation with the legislative transportation committee, shall conduct a program and fiscal audit of the public-private initiatives program for the biennium ending June 30, 1997. The department shall submit a progress report to the legislative transportation committee on the program and fiscal audit by June 30, 1996, with preliminary and final audit reports due December 1, 1996, and June 30, 1997, respectively.

The department shall develop and submit a proposed public involvement plan to the 1997 legislature to identify the process for selecting new potential projects and the associated costs of implementing the plan. The legislature must adopt the public involvement plan before the department may proceed with any activity related to project identification and selection. Following legislative adoption of the public involvement plan, the department is authorized to implement the plan and to identify potential new projects.

The public involvement plan for projects selected after June 30, 1997, shall, at a minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) provide competition among proposers and maximum cost benefits to users. Prospective

projects may include projects identified by the department or submitted by the private sector.

Projects that meet the minimum criteria established under this section and the requirements of the public involvement plan developed by the department and approved by the legislature shall be submitted to the Washington state transportation commission for its review. Forty-five days after the submission to the commission of the list of eligible projects, the secretary is authorized to solicit proposals for the eligible project.

(3) Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project proposal selected before September 1, 1994, or after June 30, 1997, except as provided for in subsections (11) and (12) of this section, the department shall require an advisory vote as provided under subsections (5) through (9) of this section.

(4) The advisory vote shall apply to project proposals selected prior to September 1, 1994, or after June 30, 1997, that receive public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project collected and submitted in accordance with the dates established in subsections (11) and (12) of this section. The advisory vote shall be on the preferred alternative identified under the requirements of chapter 43.21C RCW and, if applicable, the national environmental policy act, 42 U.S.C. 4321 et seq. The execution by the department of the advisory vote process established in this section is subject to the prior appropriation of funds by the legislature for the purpose of conducting environmental impact studies, a public involvement program, local involvement committee activities, traffic and economic impact analyses, engineering and technical studies, and the advisory vote.

(5) In preparing for the advisory vote, the department shall conduct a comprehensive analysis of traffic patterns and economic impact to define the geographical boundary of the project area that is affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

(6)(a) After determining the definition of the affected project area, the department shall establish a committee comprised of individuals who represent cities and counties in the affected project area; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the affected project area; (ii) an elected official from each county within the affected project area; (iii) two persons from each county within the affected project area who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county within the affected project area who represent an organization formed to oppose the project, if the organization exists; and (v) four public members active in a statewide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city or county legislative authorities of each city or county within the affected project area, respectively. The county legislative authority of each county within the affected project area shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than January 1, 1996, for projects selected prior to September 1, 1994, and no later than thirty days after the affected project area is defined for projects selected after June 30, 1997. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b)(i) through (v) of this subsection for each position on the committee.

(d) The local involvement committee shall serve in an advisory capacity to the department on all matters related to the execution of the advisory vote.

(e) Members of the local involvement committee serve without compensation and may not receive subsistence, lodging expenses, or travel expenses.

(7) The department shall conduct a minimum thirty-day public comment period on the definition of the geographical boundary of the project area. The department, in consultation with the local involvement committee, shall make adjustments, if required, to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department shall set the boundaries of the affected project area in units no smaller than a precinct as defined in RCW 29A.04.121.

(8) The department, in consultation with the local involvement committee, shall develop a description for selected project proposals. After developing the description of the project proposal, the department shall publish the project proposal description in newspapers of general circulation for seven calendar days in the affected project area. Within fourteen calendar days after the last day of the publication of the project proposal description, the department shall transmit a copy of the map depicting the affected project area and the description of the project proposal to the county auditor of the county in which any portion of the affected project area is located.

(2008 Ed.)

(9) Upon receipt of the map and the description of the project proposal, the county auditor shall, within thirty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project proposal using the definition of the geographical boundary of the affected project area and the project description submitted by the department and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project proposal must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW 29A.04.330 that is at least sixty days but, if authorized under RCW 29A.04.330, no more than ninety days after the receipt of the final map and project description by the auditor. The department shall pay the cost of an election held under this section.

(10) Notwithstanding any other provision of law, the department may contract with a private developer of a selected project proposal to conduct environmental impact studies, a public involvement program, and engineering and technical studies funded by the legislature. For projects subject to this subsection, the department shall not enter into an agreement under RCW 47.46.040 prior to the advisory vote on the preferred alternative.

(11) Subsections (5) through (9) of this section shall not apply to project proposals selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted after September 1, 1994, and by thirty calendar days after June 16, 1995.

(12) Subsections (5) through (9) of this section shall not apply to project proposals selected after June 30, 1997, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted by ninety calendar days after project selection. [2005 c 319 § 132; 2002 c 114 § 3; 1996 c 280 § 1; 1995 2nd sp.s. c 19 § 2; 1993 c 370 § 3.]

47.46.040 Demonstration projects—Terms of agreements—Public participation. (1) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(2) Agreements may provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement may provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state may lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(3) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this section. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services for projects, involving state highway routes, developed under agreements shall be entered into with the Washington state patrol. The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(4) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(5) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights-of-way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights-of-way in excess of appraised value, and any other provision deemed necessary by the secretary.

(6) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights-of-way or rights-of-way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right-of-way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in

these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(7) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(8) Agreements entered into under this section shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(9)(a) In carrying out the public involvement process required in subsection (8) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates public support among: Users of the project, residents of communities in the vicinity of the project, and residents of communities impacted by the project.

(b) The private entity shall conduct a comprehensive public involvement process that provides, periodically throughout the development and implementation of the project, users and residents of communities in the affected project area an opportunity to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right-of-way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(c) If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (iv) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area.

(d) In seeking public participation, the private entity shall establish a local involvement committee or committees comprised of residents of the affected project area, individuals who represent cities and counties in the affected project area, organizations formed to support or oppose the project, if such organizations exist, and users of the project. The private entity shall, at a minimum, establish a committee as required under the specifications of RCW 47.46.030(6)(b) (ii) and (iii) and appointments to such committee shall be made no later than thirty days after the project area is defined.

(e) Local involvement committees shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(f) The department and the private entity shall provide the local involvement committees with progress reports on the status of the public involvement process including the results of an advisory vote, if any occurs.

(10) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public. 47.46.050 Financial arrangements. (1) The department may enter into agreements using federal, state, and local financing in connection with the projects, including without limitation, grants, loans, and other measures authorized by section 1012 of ISTEA, and to do such things as necessary and desirable to maximize the funding and financing, including the formation of a revolving loan fund to implement this section.

(2) Agreements entered into under this section may authorize the private entity to lease the facilities within a designated area or areas from the state and to impose user fees or tolls within the designated area to allow a reasonable rate of return on investment, as established through a negotiated agreement between the state and the private entity. The negotiated agreement shall determine a maximum development fee and, where appropriate, a maximum rate of return on investment, based on project and financing characteristics. If the negotiated rate of return on investment or development fee is not affected, the private entity may establish and modify toll rates and user fees.

(3) Agreements that include a maximum rate of return may establish "incentive" rates of return beyond the negotiated maximum rate of return on investment. The incentive rates of return shall be designed to provide financial benefits to the affected public jurisdictions and the private entity, given the attainment of various safety, performance, or transportation demand management goals. The incentive rates of return shall be negotiated in the agreement.

(4) Agreements shall require that over the term of the ownership or lease the user fees or toll revenues be applied only to payment of:

(a) The capital outlay costs for the project, including the costs associated with planning, design, development, financing, construction, improvement, operations, toll collection, maintenance, and administration of the project;

(b) The reimbursement to the state for all costs associated with an election as required under RCW 47.46.030, the costs of project review and oversight, and technical and law enforcement services;

(c) The establishment of a fund to assure the adequacy of maintenance expenditures; and

(d) A reasonable return on investment to the private entity. A negotiated agreement shall not extend the term of the ownership or lease beyond the period of time required for payment of the private entity's capital outlay costs for the project under this subsection. (1) Any person, including the department of transportation and any private entity or entities, may apply for deferral of taxes on the site preparation for, the construction of, the acquisition of any related machinery and equipment which will become a part of, and the rental of equipment for use in the state route number 16 corridor improvements project under this chapter. Application shall be made to the department of revenue in a form and manner prescribed by the department of revenue. The application shall contain information regarding estimated or actual costs, time schedules for completion and operation, and other information required by the department of revenue. The department of revenue shall approve the application within sixty days if it meets the requirements of this section.

(2) The department of revenue shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW on the project.

(3) The department of transportation or a private entity granted a tax deferral under this section shall begin paying the deferred taxes in the fifth year after the date certified by the department of revenue as the date on which the project is operationally complete. The first payment is due on December 31st of the fifth calendar year after such certified date, with subsequent annual payments due on December 31st of the following nine years. Each payment shall equal ten percent of the deferred tax. The project is operationally complete under this section when the collection of tolls is commenced for the state route number 16 improvements covered by the deferral.

(4) The department of revenue may authorize an accelerated repayment schedule upon request of the department of transportation or a private entity granted a deferral under this section.

(5) Interest shall not be charged on any taxes deferred under this section for the period of deferral, although all other

penalties and interest applicable to delinquent excise taxes may be assessed and imposed for delinquent payments under this section. The debt for deferred taxes is not extinguished by insolvency or other failure of the private entity. Transfer of ownership does not terminate the deferral.

(6) Applications and any other information received by the department of revenue under this section are not confidential and are subject to disclosure. Chapter 82.32 RCW applies to the administration of this section. [2002 c 114 § 18; 1998 c 179 § 4.]

47.46.070 Use of state bonds on certain projects. (1)

To the extent that the legislature specifically appropriates funding for a project developed under this chapter using the proceeds of bonds issued by the state, an agreement for the design or construction of the project entered into by the secretary must incorporate provisions that are consistent with the use of the state financing provided by the appropriation.

(2) The secretary shall amend existing agreements or execute new agreements to comply with subsection (1) of this section.

(3) If the secretary is unable to reach agreement with other parties on contractual provisions providing for state financing, the secretary shall not enter into an agreement, or shall take no action with respect to an agreement, or shall exercise termination provisions, whichever option in the secretary's determination will result in the lowest net cost to the state. A state toll bridge facility authorized under this section includes, but is not limited to, the construction of an additional toll bridge, including approaches, adjacent to and within two miles of an existing bridge, the imposition of tolls on both bridges, and the operation of both bridges as one toll facility. 47.46.090 Citizen advisory committee—Tolls. (1) A

citizen advisory committee must be created for any project developed under this chapter that imposes toll charges for use of a transportation facility. The governor shall appoint nine members to the committee, all of whom must be permanent residents of the affected project area as defined for each project. Members of the committee shall serve without compensation.

(2) The citizen advisory committee shall serve in an advisory capacity to the commission on all matters related to the imposition of tolls including, but not limited to, (a) the feasibility of providing discounts to frequent users, electronic

transponder users, senior citizens, or students; (b) the tradeoff of lower tolls versus the early retirement of debt; and (c) a consideration of variable, or time of day pricing.

(3) No toll charge may be imposed or modified unless the citizen advisory committee has been given at least twenty days to review and comment on any proposed toll charge schedule. In setting toll rates, the commission shall give consideration to any recommendations of the citizen advisory committee. [2005 c 329 § 1; 2002 c 114 § 6.]

The Tacoma Narrows bridge citizen advisory committee is hereby created as directed under RCW 47.46.090. The advisory committee members shall be appointed proportionately, to the extent practicable, from those areas from which the majority of the trips originate on the bridge according to the latest traffic analysis by the department. [2005 c 329 § 2.]

47.46.100 Tolls—Setting—Lien on. (1) The commission shall fix the rates of toll and other charges for all toll bridges built under this chapter that are financed primarily by bonds issued by the state. Subject to RCW 47.46.090, the commission may impose and modify toll charges from time to time as conditions warrant.

(2) In establishing toll charges, the commission shall give due consideration to any required costs for operating and maintaining the toll bridge or toll bridges, including the cost of insurance, and to any amount required by law to meet the redemption of bonds and interest payments on them.

(3) The toll charges must be imposed in amounts sufficient to:

(a) Provide annual revenue sufficient to provide for annual operating and maintenance expenses, except as provided in RCW 47.56.245;

(b) Make payments required under RCW 47.56.165 and 47.46.140, including insurance costs and the payment of principal and interest on bonds issued for any particular toll bridge or toll bridges; and

(c) Repay the motor vehicle fund under RCW 47.46.110, 47.56.165, and 47.46.140.

(4) The bond principal and interest payments, including repayment of the motor vehicle fund for amounts transferred from that fund to provide for such principal and interest payments, constitute a first direct and exclusive charge and lien on all tolls and other revenues from the toll bridge concerned, subject to operating and maintenance expenses. [2002 c 114 § 7.]

47.46.105 Tolls—Collection. (1) Tolls may be collected by any system that identifies the correct toll and collects the payment. Systems may include manual cash collection, electronic toll collection, and photo monitoring systems.

(a) "Electronic toll collection system" means a system of collecting tolls or charges that is capable of charging the account of the toll patron the appropriate toll or charge by

electronic transmission from the motor vehicle to the toll collection system, which information is used to charge the appropriate toll or charge to the patron's account. The department shall adopt rules that allow an open standard for automatic vehicle identification transponders used for electronic toll collection to be compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits. The rules must also allow for multiple vendors providing electronic payment devices or transponders as technology permits.

(b) "Photo monitoring system" means a vehicle sensor installed to work in conjunction with an electronic toll collection system in a toll facility that automatically produces one or more photographs, one or more microphotographs, a videotape, or other recorded images of each vehicle at the time it is used or operated within a toll facility.

(c) No photograph, digital photograph, microphotograph, videotape, or other recorded image may be used for any purpose other than toll enforcement, nor retained longer than necessary to verify that tolls are paid, or to enforce toll evasion violations.

(2) The department shall adopt rules to govern toll collection. [2004 c 230 § 2.]

47.46.110 Tolls—Term, use. (1) The commission shall retain toll charges on any existing and future facilities constructed under this chapter and financed primarily by bonds issued by the state until:

(a) All costs of investigation, financing, acquisition of property, and construction advanced from the motor vehicle fund have been fully repaid, except as provided in subsection (2)(b) of this section;

(b) Obligations incurred in constructing that facility have been fully paid; and

(c) The motor vehicle fund is fully repaid under RCW 47.46.140.

(2) This section does not:

(a) Prohibit the use of toll revenues to fund maintenance, operations, or management of facilities constructed under this chapter except as prohibited by RCW 47.56.245;

(b) Require repayment of funds specifically appropriated as a nonreimbursable state financial contribution to a project.

(3) Notwithstanding the provisions of subsection (2)(a) of this section, upon satisfaction of the conditions enumerated in subsection (1) of this section:

(a) The facility must be operated as a toll-free facility; and

(b) The operation, maintenance, upkeep, and repair of the facility must be paid from funds appropriated for the use of the department for the construction and maintenance of the primary state highways of the state of Washington. [2002 c 114 § 8.]

Toll charges must remain on any facility financed by bonds issued by the state for a length of time necessary to repay the motor vehicle fund for any amounts expended from that fund for the design, development, right-of-way, financing, construction, maintenance, repair, or operation of the toll facility or for amounts transferred from the motor vehicle fund to the highway bond retirement fund under RCW 47.10.847 to provide for bond retirement and interest on bonds issued for the Tacoma Narrows public-private initiative project. Any such modified agreement does not require the solicitation or consideration of additional proposals for all or any portion of the services rendered under that modified agreement. Modified agreements may provide for the reimbursement of expenses and fees incurred under earlier agreements. [2002 c 114 § 13.]

47.50.010 Findings—Access. (1) The legislature finds that:

(a) Regulation of access to the state highway system is necessary in order to protect the public health, safety, and welfare, to preserve the functional integrity of the state highway system, and to promote the safe and efficient movement of people and goods within the state;

(b) The development of an access management program, in accordance with this chapter, which coordinates land use planning decisions by local governments and investments in the state highway system, will serve to control the proliferation of connections and other access approaches to and from the state highway system. Without such a program, the health, safety, and welfare of the residents of this state are at risk, due to the fact that uncontrolled access to the state highway system is a significant contributing factor to the congestion and functional deterioration of the system; and

(c) The development of an access management program in accordance with this chapter will enhance the development of an effective transportation system and increase the traffic-carrying capacity of the state highway system and thereby reduce the incidences of traffic accidents, personal injury, and property damage or loss; mitigate environmental degradation; promote sound economic growth and the growth management goals of the state; reduce highway maintenance costs and the necessity for costly traffic operations measures; lengthen the effective life of transportation facilities in the state, thus preserving the public investment in such facilities; and shorten response time for emergency vehicles.

(2) In furtherance of these findings, all state highways are hereby declared to be controlled access facilities as defined in RCW 47.50.020, except those highways that are defined as limited access facilities in chapter 47.52 RCW.

(3) It is the policy of the legislature that:

(a) The access rights of an owner of property abutting the state highway system are subordinate to the public's right and interest in a safe and efficient highway system; and

(b) Every owner of property which abuts a state highway has a right to reasonable access to that highway, unless such access has been acquired pursuant to chapter 47.52 RCW, but may not have the right of a particular means of access. The right of access to the state highway may be restricted if, pur-

suant to local regulation, reasonable access can be provided to another public road which abuts the property.

(4) The legislature declares that it is the purpose of this chapter to provide a coordinated planning process for the permitting of access points on the state highway system to effectuate the findings and policies under this section.

(5) Nothing in this chapter shall affect the right to full compensation under section 16, Article I of the state Constitution. [1991 c 202 § 1.]

Severability—1991 c 202: "If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected." [1991 c 202 § 25.]

47.50.020 Definitions—Access. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Controlled access facility" means a transportation facility to which access is regulated by the governmental entity having jurisdiction over the facility. Owners or occupants of abutting lands and other persons have a right of access to or from such facility at such points only and in such manner as may be determined by the governmental entity.

(2) "Connection" means approaches, driveways, turn-outs, or other means of providing for the right of access to or from controlled access facilities on the state highway system.

(3) "Permitting authority" means the department for connections in unincorporated areas or a city or town within incorporated areas which are authorized to regulate access to state highways pursuant to chapter 47.24 RCW. [1991 c 202 § 2.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.030 Regulating connections. (1) Vehicular access and connections to or from the state highway system shall be regulated by the permitting authority in accordance with the provisions of this chapter in order to protect the public health, safety, and welfare.

(2) The department shall by July 1, 1992, adopt administrative procedures pursuant to chapter 34.05 RCW which establish state highway access standards and rules for its issuance and modification of access permits, closing of unpermitted connections, revocation of permits, and waiver provisions in accordance with this chapter. The department shall consult with the association of Washington cities and obtain concurrence of the city design standards committee as established by RCW 35.78.030 in the development and adoption of rules for access standards for city streets designated as state highways under chapter 47.24 RCW.

(3) Cities and towns shall, no later than July 1, 1993, adopt standards for access permitting on streets designated as state highways which meet or exceed the department's standards, provided that such standards may not be inconsistent with standards adopted by the department. [1991 c 202 § 3.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.040 Access permits. (1) No connection to a state highway shall be constructed or altered without obtaining an access permit in accordance with this chapter in advance of such action. A permitting authority has the authority to deny access to the state highway system at the location specified in the permit until the permittee constructs or alters the connection in accordance with the permit requirements.

(2) The cost of construction or alteration of a connection shall be borne by the permittee, except for alterations which are not required by law or administrative rule, but are made at the request of and for the convenience of the permitting authority. The permittee, however, shall bear the cost of alteration of any connection which is required by the permitting authority due to increased or altered traffic flows generated by changes in the permittee's facilities or nature of business conducted at the location specified in the permit.

(3) Except as otherwise provided in this chapter, an unpermitted connection is subject to closure by the appropriate permitting authority which shall have the right to install barriers across or remove the connection. When the permitting authority determines that a connection is unpermitted and subject to closure, it shall provide reasonable notice of its impending action to the owner of property served by the connection. The permitting authority's procedures for providing notice and preventing the operation of unpermitted connections shall be adopted by rule. [1991 c 202 § 4.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.050 Permit fee. The department shall establish by rule a schedule of fees for permit applications made to the department. The fee shall be nonrefundable and shall be used only to offset the costs of administering the access permit review process and the costs associated with administering the provisions of this chapter. [1991 c 202 § 5.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.060 Permit review process. The review process for access permit applications made by the department shall be as follows: Any person seeking an access permit shall file an application with the department. The department by rule shall establish application form and content requirements. The fee required by RCW 47.50.050 must accompany the applications. [1991 c 202 § 6.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.070 Permit conditions. The permitting authority may issue a permit subject to any conditions necessary to carry out the provisions of this chapter, including, but not limited to, requiring the use of a joint-use connection. The permitting authority may revoke a permit if the applicant fails to comply with the conditions upon which the issuance of the permit was predicated. [1991 c 202 § 7.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.080 Permit removal. (1) Unpermitted connections to the state highway system in existence on July 1, 1990, shall not require the issuance of a permit and may continue to provide access to the state highway system, unless the permitting authority determines that such a connection does not meet minimum acceptable standards of highway safety. However, a permitting authority may require that a permit be obtained for such a connection if a significant change occurs in the use, design, or traffic flow of the connection or of the state highway to which it provides access. If a permit is not obtained, the connection may be closed pursuant to RCW 47.50.040.

(2) Access permits granted prior to adoption of the permitting authorities' standards shall remain valid until modified or revoked. Access connections to state highways identified on plats and subdivisions approved prior to July 1, 1991, shall be deemed to be permitted pursuant to chapter 202, Laws of 1991. The permitting authority may, after written notification, under rules adopted in accordance with RCW 47.50.030, modify or revoke an access permit granted prior to adoption of the standards by requiring relocation, alteration, or closure of the connection if a significant change occurs in the use, design, or traffic flow of the connection.

(3) The permitting authority may issue a nonconforming access permit after finding that to deny an access permit would leave the property without a reasonable means of access to the public roads of this state. Every nonconforming access permit shall specify limits on the maximum vehicular use of the connection and shall be conditioned on the availability of future alternative means of access for which access permits can be obtained. [1991 c 202 § 8.]

Captions not law—Effective date—Severability—1991 c 202: See notes following RCW 47.50.010.

47.50.090 Access management standards. (1) The department shall develop, adopt, and maintain an access control classification system for all routes on the state highway system, the purpose of which shall be to provide for the implementation and continuing applications of the provision of this chapter.

(2) The principal component of the access control classification system shall be access management standards, the purpose of which shall be to provide specific minimum standards to be adhered to in the planning for and approval of access to state highways.

(3) The control classification system shall be developed consistent with the following:

(a) The department shall, no later than January 1, 1993, adopt rules setting forth procedures governing the implementation of the access control classification system required by this chapter. The rule shall provide for input from the entities described in (b) of this subsection as well as for public meetings to discuss the access control classification system. Nothing in this chapter shall affect the validity of the department's existing or subsequently adopted rules concerning access to the state highway system. Such rules shall remain in effect until repealed or replaced by the rules required by this chapter.

(b) The access control classification system shall be developed in cooperation with counties, cities and towns, the department of community, trade, and economic development,

(2008 Ed.)

regional transportation planning organizations, and other local governmental entities, and for city streets designated as state highways pursuant to chapter 47.24 RCW, adopted with the concurrence of the city design standards committee.

(c) The rule required by this section shall provide that assignment of a road segment to a specific access category be made in consideration of the following criteria:

(i) Local land use plans and zoning, as set forth in comprehensive plans;

(ii) The current functional classification as well as potential future functional classification of each road on the state highway system;

(iii) Existing and projected traffic volumes;

(iv) Existing and projected state, local, and metropolitan planning organization transportation plans and needs;

(v) Drainage requirements;

(vi) The character of lands adjoining the highway;

(vii) The type and volume of traffic requiring access;

(viii) Other operational aspects of access;

(ix) The availability of reasonable access by way of county roads and city streets to a state highway; and

(x) The cumulative effect of existing and projected connections on the state highway system's ability to provide for the safe and efficient movement of people and goods within the state.

(d) Access management standards shall include, but not be limited to, connection location standards, safety factors, design and construction standards, desired levels of service, traffic control devices, and effective maintenance of the roads. The standards shall also contain minimum requirements for the spacing of connections, intersecting streets, roads, and highways.

(e) An access control category shall be assigned to each segment of the state highway system by July 1, 1993. [1995 c 399 § 124; 1991 c 202 § 9.]

Description, plans of highways, filing: RCW 47.28.025, 47.28.026.

Port districts, toll facilities: Chapter 53.34 RCW.

Speed limits on limited access facilities: RCW 46.61.430.

47.52.001 Declaration of policy. (1) Unrestricted access to and from public highways has resulted in congestion and peril for the traveler. It has caused undue slowing of all traffic in many areas. The investment of the public in highway facilities has been impaired and highway facilities costing vast sums of money will have to be relocated and reconstructed.

(2) Personal wireless service is a critical part of the state's infrastructure. The rapid deployment of personal wireless service facilities is critical to ensure public safety, network access, quality of service, and rural economic development.

(3) It is, therefore, the declared policy of this state to limit access to the highway facilities of this state in the interest of highway safety and for the preservation of the investment of the public in such facilities, and to assure that the use of rights-of-way of limited access facilities accommodate the deployment of personal wireless service facilities consistent with these interests. [2004 c 131 § 1; 1961 c 13 § 47.52.001. Prior: 1951 c 167 § 1.]

47.52.010 "Limited access facility" defined. For the purposes of this chapter, a "limited access facility" is defined as a highway or street especially designed or designated for through traffic, and over, from, or to which owners or occupants of abutting land, or other persons, have no right or easement, or only a limited right or easement of access, light, air, or view by reason of the fact that their property abuts upon such limited access facility, or for any other reason to accomplish the purpose of a limited access facility. Such highways or streets may be parkways, from which vehicles forming part of an urban public transportation system, trucks, buses, or other commercial vehicles may be excluded; or they may be freeways open to use by all customary forms of street and highway traffic, including vehicles forming a part of an urban

public transportation system. [1967 c 108 § 10; 1961 c 13 § 47.52.010. Prior: 1951 c 167 § 2; 1947 c 202 § 1; Rem. Supp. 1947 § 6402-60.]

Urban public transportation system defined: RCW 47.04.082.

47.52.011 "Existing highway" defined. For the purposes of this chapter, the term "existing highway" shall include all highways, roads and streets duly established, constructed, and in use. It shall not include new highways, roads or streets, or relocated highways, roads or streets, or portions of existing highways, roads or streets which are relocated. [1961 c 13 § 47.52.011. Prior: 1951 c 167 § 3.]

47.52.020 Powers of highway authorities—State facility, county road crossings. The highway authorities of the state, counties, and incorporated cities and towns, acting alone or in cooperation with each other, or with any federal, state, or local agency, or any other state having authority to participate in the construction and maintenance of highways, may plan, designate, establish, regulate, vacate, alter, improve, construct, maintain, and provide limited access facilities for public use wherever the authority or authorities are of the opinion that traffic conditions, present or future, will justify the special facilities. However, upon county roads within counties, the state or county authorities are subject to the consent of the county legislative authority, except that where a state limited access facility crosses a county road the department may, without the consent of the county legislative authority, close off the county road so that it will not intersect such limited access facility.

The department may, in constructing or relocating any state highway, cross any county road at grade without obtaining the consent of the county legislative authority, and in so doing may revise the alignment of the county road to the extent that the department finds necessary for reasons of traffic safety or practical engineering considerations. [1984 c 7 § 239; 1961 c 13 § 47.52.020. Prior: 1957 c 235 § 2; prior: 1953 c 30 § 1; 1951 c 167 § 4; 1947 c 202 § 2, part; Rem. Supp. 1947 § 6402-61, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.025 Additional powers—Controlling use of limited access facilities—High occupancy vehicle lanes. Highway authorities of the state, counties, and incorporated cities and towns, in addition to the specific powers granted in this chapter, shall also have, and may exercise, relative to limited access facilities, any and all additional authority, now or hereafter vested in them relative to highways or streets within their respective jurisdictions, and may regulate, restrict, or prohibit the use of such limited access facilities by various classes of vehicles or traffic. Such highway authorities may reserve any limited access facility or portions thereof, including designated lanes or ramps for the exclusive or preferential use of public transportation vehicles, privately owned buses, or private motor vehicles carrying not less than a specified number of passengers when such limitation will increase the efficient utilization of the highway facility or will aid in the conservation of energy resources. Regulations authorizing such exclusive or preferential use of a highway facility may be declared to be effective at all time or at spec-

ified times of day or on specified days. [1974 ex.s. c 133 § 1; 1961 c 13 § 47.52.025. Prior: 1957 c 235 § 3; prior: 1951 c 167 § 5; 1947 c 202 § 2, part; Rem. Supp. 1947 § 6402-61, part.]

High occupancy vehicle lanes: RCW 46.61.165.

47.52.026 Rules—Control of vehicles entering—Ramp closure, metering, or restrictions—Notice. (1) The department may adopt rules for the control of vehicles entering any state limited access highway as it deems necessary (a) for the efficient or safe flow of traffic traveling upon any part of the highway or connections with it or (b) to avoid exceeding federal, state, or regional air pollution standards either along the highway corridor or within an urban area served by the highway.

(2) Rules adopted by the department pursuant to subsection (1) of this section may provide for the closure of highway ramps or the metering of vehicles entering highway ramps or the restriction of certain classes of vehicles entering highway ramps (including vehicles with less than a specified number of passengers), and any such restrictions may vary at different times as necessary to achieve the purposes mentioned in subsection (1) of this section.

(3) Vehicle restrictions authorized by rules adopted pursuant to this section are effective when proper notice is given by any police officer, or by appropriate signals, signs, or other traffic control devices. [1984 c 7 § 240; 1974 ex.s. c 133 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.027 Standards and rules for interstate and defense highways—Construction, maintenance, access. The secretary of transportation may adopt design standards, rules, and regulations relating to construction, maintenance, and control of access of the national system of interstate and defense highways within this state as it deems advisable to properly control access thereto, to preserve the traffic-carrying capacity of such highways, and to provide the maximum degree of safety to users thereof. In adopting such standards, rules, and regulations the secretary shall take into account the policies, rules, and regulations of the United States secretary of commerce and the federal highway administration relating to the construction, maintenance, and operation of the system of interstate and defense highways. The standards, rules, and regulations so adopted by the secretary shall constitute the public policy of this state and shall have the force and effect of law. [1977 ex.s. c 151 § 62; 1961 c 13 § 47.52.027. Prior: 1959 c 319 § 35. Formerly RCW 47.28.160.]

Nonmotorized traffic may be prohibited: RCW 46.61.160.

47.52.040 Design—Entrance and exit restricted—Closure of intersecting roads. The highway authorities of the state, counties and incorporated cities and towns may so design any limited access facility and so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended; and the determination of design by such authority shall be conclusive and final. In this connection such highway authorities may divide and separate any limited access facility into separate roadways by the construction of raised curbs, central dividing sections, or other physical

separations, or by designating such separate roadways by signs, markers, stripes, and the proper lane for such traffic by appropriate signs, markers, stripes and other devices. No person shall have any right of ingress or egress to, from, or across limited access facilities to or from abutting lands, except at designated points at which access may be permitted by the highway authorities upon such terms and conditions as may be specified from time to time: PROVIDED, That any intersecting streets, roads or highways, not made a part of such facility, shall be deemed closed at the right-of-way line by the designation and construction of said facility and without the consent of any other party or the necessity of any other legal proceeding for such closing, notwithstanding any laws to the contrary. [1961 c 13 § 47.52.040. Prior: 1955 c 75 § 1; 1947 c 202 § 3; Rem. Supp. 1947 § 6402-62.]

47.52.041 Closure of intersecting roads—Rights of abutters. No person, firm or corporation, private or municipal, shall have any claim against the state, city or county by reason of the closing of such streets, roads or highways as long as access still exists or is provided to such property abutting upon the closed streets, roads or highways. Circuity of travel shall not be a compensable item of damage. [1961 c 13 § 47.52.041. Prior: 1955 c 75 § 2.]

47.52.042 Closure of intersecting roads—Other provisions not affected. RCW 47.52.040 and 47.52.041 shall not be construed to affect provisions for establishment, notice, hearing and court review of any decision establishing a limited access facility on an existing highway pursuant to chapter 47.52 RCW. [1961 c 13 § 47.52.042. Prior: 1955 c 75 § 3.]

47.52.050 Acquisition of property. (1) For the purpose of this chapter the highway authorities of the state, counties and incorporated cities and towns, respectively, or in cooperation one with the other, may acquire private or public property and property rights for limited access facilities and service roads, including rights of access, air, view and light, by gift, devise, purchase, or condemnation, in the same manner as such authorities are now or hereafter may be authorized by law to acquire property or property rights in connection with highways and streets within their respective jurisdictions. Except as otherwise provided in subsection (2) of this section all property rights acquired under the provisions of this chapter shall be in fee simple. In the acquisition of property or property rights for any limited access facility or portion thereof, or for any service road in connection therewith, the state, county, incorporated city and town authority may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the public will be best served, even though said entire lot, block or tract is not immediately needed for the limited access facility.

(2) The highway authorities of the state, counties, and incorporated cities and towns may acquire by gift, devise, purchase, or condemnation a three dimensional air space corridor in fee simple over or below the surface of the ground, together with such other property in fee simple and other property rights as are needed for the construction and opera-

tion of a limited access highway facility, but only if the acquiring authority finds that the proposal will not:

(a) impair traffic safety on the highway or interfere with the free flow of traffic; or

(b) permit occupancy or use of the air space above or below the highway which is hazardous to the operation of the highway. [1971 ex.s. c 39 § 1; 1961 c 13 § 47.52.050. Prior: 1947 c 202 § 4; Rem. Supp. 1947 § 6402-63.]

Award of costs in air space corridor acquisitions: RCW 8.25.073.

Right-of-way donations: Chapter 47.14 RCW.

47.52.060 Court process expedited. Court proceedings necessary to acquire property or property rights for purposes of this chapter shall take precedence over all other causes not involving the public interest in all courts to the end that the provision for limited access facilities may be expedited. [1961 c 13 § 47.52.060. Prior: 1947 c 202 § 5; Rem. Supp. 1947 § 6402-64.]

47.52.070 Establishment of facility—Grade separation—Service roads. The designation or establishment of a limited access facility shall, by the authority making the designation or establishment, be entered upon the records or minutes of such authority in the customary manner for the keeping of such records or minutes. The state, counties and incorporated cities and towns may provide for the elimination of intersections at grade of limited access facilities with existing state or county roads, and with city or town streets, by grade separation or service road, or by closing off such roads and streets at the right-of-way boundary line of such limited access facility; and after the establishment of any such facility, no highway or street which is not part of said facility, shall intersect the same at grade. No city or town street, county road, or state highway, or any other public or private way, shall be opened into or connect with any such limited access facility without the consent and previous approval of the highway authority of the state, county, incorporated city or town having jurisdiction over such limited access facility. Such consent and approval shall be given only if the public interest shall be served thereby. [1961 c 13 § 47.52.070. Prior: 1951 c 167 § 10; 1947 c 202 § 6; Rem. Supp. 1947 § 6402-65.]

47.52.080 Abutter's right of access protected—Compensation. No existing public highway, road, or street shall be constructed as a limited access facility except upon the waiver, purchase, or condemnation of the abutting owner's right of access thereto as herein provided. In cases involving existing highways, if the abutting property is used for business at the time the notice is given as provided in RCW 47.52.133, the owner of such property shall be entitled to compensation for the loss of adequate ingress to or egress from such property as business property in its existing condition at the time of the notice provided in RCW 47.52.133 as for the taking or damaging of property for public use. [1983 c 3 § 127; 1961 c 13 § 47.52.080. Prior: 1955 c 54 § 2; 1951 c 167 § 11; 1947 c 202 § 7; Rem. Supp. 1947 § 6402-66.]

47.52.090 Cooperative agreements—Urban public transportation systems—Title to highway—Traffic regulations—Underground utilities and overcrossings—Passenger transportation—Storm sewers—City street crossings. The highway authorities of the state, counties, incorporated cities and towns, and municipal corporations owning or operating an urban public transportation system are authorized to enter into agreements with each other, or with the federal government, respecting the financing, planning, establishment, improvement, construction, maintenance, use, regulation, or vacation of limited access facilities in their respective jurisdictions to facilitate the purposes of this chapter. Any such agreement may provide for the exclusive or nonexclusive use of a portion of the facility by streetcars, trains, or other vehicles forming a part of an urban public transportation system and for the erection, construction, and maintenance of structures and facilities of such a system including facilities for the receipt and discharge of passengers. Within incorporated cities and towns the title to every state limited access highway vests in the state, and, notwithstanding any other provision of this section, the department shall exercise full jurisdiction, responsibility, and control to and over the highway from the time it is declared to be operational as a limited access facility by the department, subject to the following provisions:

(1) Cities and towns shall regulate all traffic restrictions on such facilities except as provided in RCW 46.61.430, and all regulations adopted are subject to approval of the department before becoming effective. Nothing herein precludes the state patrol or any county, city, or town from enforcing any traffic regulations and restrictions prescribed by state law, county resolution, or municipal ordinance.

(2) The city, town, or franchise holder shall at its own expense maintain its underground facilities beneath the surface across the highway and has the right to construct additional facilities underground or beneath the surface of the facility or necessary overcrossings of power lines and other utilities as may be necessary insofar as the facilities do not interfere with the use of the right-of-way for limited access highway purposes. The city or town has the right to maintain any municipal utility and the right to open the surface of the highway. The construction, maintenance until permanent repair is made, and permanent repair of these facilities shall be done in a time and manner authorized by permit to be issued by the department or its authorized representative, except to meet emergency conditions for which no permit will be required, but any damage occasioned thereby shall promptly be repaired by the city or town itself, or at its direction. Where a city or town is required to relocate overhead facilities within the corporate limits of a city or town as a result of the construction of a limited access facility, the cost of the relocation shall be paid by the state.

(3) Cities and towns have the right to grant utility franchises crossing the facility underground and beneath its surface insofar as the franchises are not inconsistent with the use of the right-of-way for limited access facility purposes and the franchises are not in conflict with state laws. The department is authorized to enforce, in an action brought in the name of the state, any condition of any franchise that a city or town has granted. No franchise for transportation of passengers in motor vehicles may be granted on such highways

without the approval of the department, except cities and towns are not required to obtain a franchise for the operation of municipal vehicles or vehicles operating under franchises from the city or town operating within the corporate limits of a city or town and within a radius not exceeding eight miles outside the corporate limits for public transportation on such facilities, but these vehicles may not stop on the limited access portion of the facility to receive or to discharge passengers unless appropriate special lanes or deceleration, stopping, and acceleration space is provided for the vehicles.

Every franchise or permit granted any person by a city or town for use of any portion of a limited access facility shall require the grantee or permittee to restore, permanently repair, and replace to its original condition any portion of the highway damaged or injured by it. Except to meet emergency conditions, the construction and permanent repair of any limited access facility by the grantee of a franchise shall be in a time and manner authorized by a permit to be issued by the department or its authorized representative.

(4) The department has the right to use all storm sewers that are adequate and available for the additional quantity of run-off proposed to be passed through such storm sewers.

(5) The construction and maintenance of city streets over and under crossings and surface intersections of the limited access facility shall be in accordance with the governing policy entered into between the department and the association of Washington cities on June 21, 1956, or as such policy may be amended by agreement between the department and the association of Washington cities. [1984 c 7 § 241; 1977 ex.s. c 78 § 8; 1967 c 108 § 11; 1961 c 13 § 47.52.090. Prior: 1957 c 235 § 4; 1947 c 202 § 8; Rem. Supp. 1947 § 6402-67.]

Urban public transportation system defined: RCW 47.04.082.

47.52.100 Existing roads and streets as service roads.

In connection with the development of any limited access facility the state, county or incorporated city or town highway authorities are authorized to plan, designate, establish, use, regulate, alter, improve, construct, maintain and vacate local service roads and streets, or to designate as local service roads and streets any existing road or street, and to exercise jurisdiction over service roads in the same manner as is authorized for limited access facilities under the terms of this chapter. If, in their opinion such local service roads and streets are necessary or desirable, such local service roads or streets shall be separated from the limited access facility by such means or devices designated as necessary or desirable by the proper authority. [1961 c 13 § 47.52.100. Prior: 1947 c 202 § 9; Rem. Supp. 1947 § 6402-68.]

47.52.105 Acquisition and construction to preserve limited access or reduce required compensation. Whenever, in the opinion of the department, frontage or service roads in connection with limited access facilities are not feasible either from an engineering or economic standpoint, the department may acquire private or public property by purchase or condemnation and construct any road, street, or highway connecting to or leading into any other road, street, or highway, when by so doing, it will preserve a limited access facility or reduce compensation required to be paid to

an owner by reason of reduction in or loss of access. The department shall provide by agreement with a majority of the legislative authority of the county or city concerned as to location, future maintenance, and control of any road, street, or highway to be so constructed. The road, street, or highway need not be made a part of the state highway system or connected thereto, but may upon completion by the state be turned over to the county or city for location, maintenance, and control pursuant to the agreement as part of the system of county roads or city streets. [1984 c 7 § 242; 1967 c 117 § 1; 1961 c 13 § 47.52.105. Prior: 1955 c 63 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.110 Marking of facility with signs. After the opening of any new and additional limited access highway facility, or after the designation and establishment of any existing street or highway, as included the particular highways and streets or those portions thereof designated and established, shall be physically marked and indicated as follows: By the erection and maintenance of such signs as in the opinion of the respective authorities may be deemed proper, indicating to drivers of vehicles that they are entering a limited access area and that they are leaving a limited access area. [1961 c 13 § 47.52.110. Prior: 1947 c 202 § 10; Rem. Supp. 1947 § 6402-69.]

47.52.120 Violations specified—Exceptions—Penalty. (1) After the opening of any limited access highway facility, it shall be unlawful for any person to: (a) Drive a vehicle over, upon, or across any curb, central dividing section, or other separation or dividing line on limited access facilities; (b) make a left turn or semicircular or U-turn except through an opening provided for that purpose in the dividing curb section, separation, or line; (c) drive any vehicle except in the proper lane provided for that purpose and in the proper direction and to the right of the central dividing curb, separation section, or line; (d) drive any vehicle into the limited access facility from a local service road except through an opening provided for that purpose in the dividing curb, dividing section, or dividing line which separates such service road from the limited access facility proper; (e) stop or park any vehicle or equipment within the right-of-way of such facility, including the shoulders thereof, except at points specially provided therefor, and to make only such use of such specially provided stopping or parking points as is permitted by the designation thereof: PROVIDED, That this subsection (1)(e) shall not apply to authorized emergency vehicles, law enforcement vehicles, assistance vans, or to vehicles stopped for emergency causes or equipment failures; (f) travel to or from such facility at any point other than a point designated by the establishing authority as an approach to the facility or to use an approach to such facility for any use in excess of that specified by the establishing authority.

(2) For the purposes of this section, an assistance van is a vehicle rendering aid free of charge to vehicles with equipment or fuel problems. The state patrol shall establish by rule additional standards and operating procedures, as needed, for assistance vans.

(3) Any person who violates this section is guilty of a misdemeanor and upon arrest and conviction therefor shall be

punished by a fine of not less than five dollars nor more than one hundred dollars, or by imprisonment in the city or county jail for not less than five days nor more than ninety days, or by both fine and imprisonment.

(4) Nothing contained in this section prevents the highway authority from proceeding to enforce the prohibitions or limitations of access to such facilities by injunction or as otherwise provided by law. [2003 c 53 § 262; 1987 c 330 § 748; 1985 c 149 § 1; 1961 c 13 § 47.52.120. Prior: 1959 c 167 § 1; 1947 c 202 § 11; Rem. Supp. 1947 § 6402-70.]

47.52.121 Prior determinations validated. Any determinations of an authority establishing a limited access facility subsequent to March 19, 1947, and prior to March 16, 1951, in connection with new highways, roads or streets, or relocated highways, roads or streets, or portions of existing highways, roads or streets which are relocated, and all acquisitions of property or access rights in connection therewith are hereby validated, ratified, approved and confirmed, notwithstanding any lack of power (other than constitutional) of such authority, and notwithstanding any defects or irregularities (other than constitutional) in such proceedings. [1961 c 13 § 47.52.121. Prior: 1951 c 167 § 12.]

47.52.131 Consideration of local conditions—Report to local authorities—Conferences—Proposed plan. When the department is planning a limited access facility through a county or an incorporated city or town, the department or its staff, before any hearing, shall give careful consideration to available data as to the county or city's comprehensive plan, land use pattern, present and potential traffic volume of county roads and city streets crossing the proposed facility, origin and destination traffic surveys, existing utilities, the physical appearance the facility will present, and other pertinent surveys and, except as provided in RCW 47.52.134, shall submit to the county and city officials for study a report showing how these factors have been taken into account and how the proposed plan for a limited access facility will serve public convenience and necessity, together with the locations and access and egress plans, and over and under crossings that are under consideration. This report shall show the proposed approximate right-of-way limits and profile of the facility with relation to the existing grade, and shall discuss in a general manner plans for landscaping treatment, fencing, and illumination, and shall include sketches of typical roadway sections for the roadway itself and any necessary structures such as viaducts or bridges, subways, or tunnels.

Conferences shall be held on the merits of this state report and plans and any proposed modification or alternate proposal of the county, city, or town in order to attempt to reach an agreement between the department and the county or city officials. As a result of the conference, the proposed plan, together with any modifications, shall be prepared by the department and presented to the county or city for inspection and study. [1987 c 200 § 1; 1984 c 7 § 243; 1965 ex.s. c 75 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.133 Local public hearing—Notice. Except as provided in RCW 47.52.134, the department and the highway authorities of the counties and incorporated cities and towns, with regard to facilities under their respective jurisdictions, prior to the establishment of any limited access facility, shall hold a public hearing within the county, city, or town wherein the limited access facility is to be established to determine the desirability of the plan proposed by such authority. Notice of such hearing shall be given to the owners of property abutting the section of any existing highway, road, or street being established as a limited access facility, as indicated in the tax rolls of the county, and in the case of a state limited access facility, to the county and/or city or town. Such notice shall be by United States mail in writing, setting forth a time for the hearing, which time shall be not less than fifteen days after mailing of such notice. Notice of such hearing also shall be given by publication not less than fifteen days prior to such hearing in one or more newspapers of general circulation within the county, city, or town. Such notice by publication shall be deemed sufficient as to any owner or reputed owner or any unknown owner or owner who cannot be located. Such notice shall indicate a suitable location where plans for such proposal may be inspected. [2006 c 334 § 25; 1987 c 200 § 2; 1981 c 95 § 1; 1965 ex.s. c 75 § 2.]

Effective date—2006 c 334: See note following RCW 47.01.051.

47.52.134 When access reports and hearings not required. Access reports and hearings on the establishment of limited access facilities are not required if:

(1) The limited access facility would lie wholly within state or federal lands and the agency or agencies with jurisdiction of the land agree to the access plan; or

(2) The access rights to the affected section of roadway have previously been purchased or established by others; or

(3) The limited access facility would not significantly change local road use, and all affected local agencies and abutting property owners agree in writing to waive a formal hearing on the establishment of the facility after publication of a notice of opportunity for a limited access hearing. This notice of opportunity for a limited access hearing shall be given in the same manner as required for published notice of hearings under RCW 47.52.133. If the authority specified in the notice receives a request for a hearing from one or more abutting property owners or affected local agencies on or before the date stated in the notice, an access report shall be submitted as provided in RCW 47.52.131 and a hearing shall be held. Notice of the hearing shall be given by mail and publication as provided in RCW 47.52.133. [1987 c 200 § 3.]

47.52.135 Hearing procedure. At the hearing any representative of the county, city or town, or any other person may appear and be heard even though such official or person is not an abutting property owner. Such hearing may, at the option of the highway authority, be conducted in accordance with federal laws and regulations governing highway design public hearings. The members of such authority shall preside, or may designate some suitable person to preside as examiner. The authority shall introduce by competent evidence a summary of the proposal for the establishment of a limited access facility and any evidence that supports the adoption of the plan as being in the public interest. At the conclusion of

such evidence, any person entitled to notice who has entered a written appearance shall be deemed a party to this hearing for purposes of this chapter and may thereafter introduce, either in person or by counsel, evidence and statements or counterproposals bearing upon the reasonableness of the proposal. Any such evidence and statements or counterproposals shall receive reasonable consideration by the authority before any proposal is adopted. Such evidence must be material to the issue before the authority and shall be presented in an orderly manner. [1982 c 189 § 5; 1981 c 67 § 29; 1977 c 77 § 2; 1965 ex.s. c 75 § 3.]

47.52.137 Adoption of plan—Service of findings and order—Publication of resume—Finality—Review. Following the conclusion of such hearing the authority shall adopt a plan with such modifications, if any, it deems proper and necessary. Its findings and order shall be in writing and copies thereof shall be served by United States mail upon all persons having entered a written appearance at such hearing, and in the case of a state limited access facility, the county commissioners of the county affected and the mayor of the city or town affected. The authority shall also cause a resume of such plan to be published once each week for two weeks in one or more newspapers of general circulation within such county, city or town beginning not less than ten days after the mailing of such findings and order. Such determination by the authority shall become final within thirty days after such mailing unless a review is taken as hereinafter provided. In case of an appeal, the order shall be final as to all parties not appealing. [1965 ex.s. c 75 § 4.]

47.52.139 Local approval of plan—Disapproval, request for review. Upon receipt of the findings and order adopting a plan, the county, city, or town may notify the department of transportation of its approval of such plan in writing, in which event such plan shall be final.

In the event that a county, city, or town does not approve the plan, the county, city, or town shall file its disapproval in writing with the secretary of transportation within thirty days after the mailing thereof to such mayor or county commissioner. Along with the written disapproval shall be filed a written request for a hearing before a board of review, hereinafter referred to as the board. The request for hearing shall set forth the portions of the plan of the department to which the county, city, or town objects, and shall include every issue to be considered by the board. The hearing before a board of review shall be governed by RCW 47.52.150 through 47.52.190, as now or hereafter amended. [1977 ex.s. c 151 § 63; 1965 ex.s. c 75 § 5.]

47.52.145 Modification of adopted plan without further public hearings—Conditions. Whenever after the final adoption of a plan for a limited access highway by the department, an additional design public hearing with respect to the facility or any portion thereof is conducted pursuant to federal law resulting in a revision of the design of the limited access plan, the department may modify the previously

(2008 Ed.)

adopted limited access plan to conform to the revised design without further public hearings providing the following conditions are met:

(1) As compared with the previously adopted limited access plan, the revised plan will not require additional or different right-of-way with respect to that section of highway for which the design has been revised, in excess of five percent by area; and

(2) If the previously adopted limited access plan was modified by a board of review convened at the request of a county, city, or town, the legislative authority of the county, city, or town shall approve any revisions of the plan which conflict with modifications ordered by the board of review. [2006 c 334 § 26; 1981 c 95 § 2; 1977 c 77 § 1.]

Effective date—2006 c 334: See note following RCW 47.01.051.

Such fifth member shall be a licensed civil engineer or a recognized professional city or town planner, who shall be chairman of the board. In the case both the county and an included city or town request a hearing, the board shall consist of nine members appointed as follows: The mayor and the county commission shall each appoint two members from the elective officials of their respective jurisdictions, and of the four thus selected no more than two thereof may be members of a legislative body of the county, city, or town. The secretary of transportation shall appoint four members of the board. One member shall be selected by the members thus selected, and such ninth member shall be a licensed civil engineer or a recognized city or town planner, who shall be chairman of the board. Such boards as are provided by this section shall be appointed within thirty days after the receipt of such a request by the secretary. In the event the secretary or a county, city, or town shall not appoint members of the board or members thus appointed fail to appoint a fifth or ninth member of the board, as the case may be, either the secretary or the county, city, or town may apply to the superior court of the county in which the county, city, or town is situated to appoint the member or members of the board in accordance with the provisions of this chapter. [1977 ex.s. c 151 § 64; 1963 c 103 § 3; 1961 c 13 § 47.52.150. Prior: 1959 c 242 § 3; 1957 c 235 § 7.]

The board shall fix a reasonable time not more than thirty days after the date of its appointment and shall indicate the time and place for the hearing, and shall give notice to the county, city, or town and to the department. At the time and place

[Title 47 RCW—page 169]

fixed for the hearing, the state and the county, city, or town shall present all of their evidence with respect to the objections set forth in the request for the hearing before the board, and if either the state, the county, or the city or town fails to do so, the board may determine the issues upon such evidence as may be presented to it at the hearing. [1984 c 7 § 244; 1963 c 103 § 4; 1961 c 13 § 47.52.160. Prior: 1957 c 235 § 8.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.170 State facility through city or town—Hearing—Procedure. No witness's testimony shall be received unless he shall have been duly sworn, and the board may cause all oral testimony to be stenographically reported. Members of the board, its duly authorized representatives, and all persons duly commissioned by it for the purpose of taking depositions, shall have power to administer oaths; to preserve and enforce order during such hearings; to issue subpoenas for, and to compel the attendance and testimony of witnesses, or the production of books, papers, documents and other evidence, or the taking of depositions before any designated individual competent to administer oaths, and it shall be their duty so to do; to examine witnesses; and to do all things conformable to law which may be necessary to enable them, or any of them, effectively to discharge the duties of their office. [1961 c 13 § 47.52.170. Prior: 1957 c 235 § 9.]

47.52.180 State facility through city or town—Hearing—Findings of board—Modification of proposed plan by stipulation. At the conclusion of such hearing, the board shall consider the evidence taken and shall make specific findings with respect to the objections and issues within thirty days after the hearing, which findings shall approve, disapprove, or modify the proposed plan of the department of transportation. Such findings shall be final and binding upon both parties. Any modification of the proposed plan of the department of transportation made by the board of review may thereafter be modified by stipulation of the parties. [1977 ex.s. c 151 § 65; 1977 c 77 § 3; 1961 c 13 § 47.52.180. Prior: 1957 c 235 § 10.]

47.52.190 State facility through city or town—Hearing—Assistants—Costs—Reporter. The board shall employ such assistance and clerical help as is necessary to perform its duties. The costs thereby incurred and incident to the conduct of the hearing, necessary expenses, and fees, if any, of members of the board shall be borne equally by the county, city, or town requesting the hearing and the department. When oral testimony is stenographically reported, the department shall provide a reporter at its expense. [1984 c 7 § 245; 1963 c 103 § 5; 1961 c 13 § 47.52.190. Prior: 1957 c 235 § 11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.52.195 Review and appeal on petition of abutter. An abutting property owner may petition for review in the superior court of the state of Washington in the county where the limited access facility is to be located. Such review and any appeal therefrom shall be considered and determined by said court upon the record of the authority in the manner,

under the conditions and subject to the limitations and with the effect specified in the Administrative Procedure Act, chapter 34.05 RCW, as amended. [1965 ex.s. c 75 § 6.]

47.52.200 Law enforcement jurisdiction within city or town. Whenever any limited access highway facility passes within or through any incorporated city or town the municipal police officers of such city or town, the sheriff of the county wherein such city or town is situated and officers of the Washington state patrol shall have independent and concurrent jurisdiction to enforce any violation of the laws of this state occurring thereon: PROVIDED, The Washington state patrol shall bear primary responsibility for the enforcement of laws of this state relating to motor vehicles within such limited access highway facilities. [1961 c 122 § 1.]

47.52.210 Property title designation upon construction of limited access highways. (1) Whenever the department adopts a plan for a limited access highway to be constructed within the corporate limits of a city or town which incorporates existing city or town streets, title to such streets shall remain in the city or town, and the provisions of RCW 47.24.020 as now or hereafter amended shall continue to apply to such streets until such time that the highway is operated as either a partially or fully controlled access highway. Title to and full control over that portion of the city or town street incorporated into the limited access highway shall be vested in the state upon a declaration by the secretary of transportation that such highway is operational as a limited access facility, but in no event prior to the acquisition of right-of-way for such highway including access rights, and not later than the final completion of construction of such highway.

(2) Upon the completion of construction of a state limited access highway within a city or town, the department of transportation may relinquish to the city or town streets constructed or improved as a functional part of the limited access highway, slope easements, landscaping areas, and other related improvements to be maintained and operated by the city or town in accordance with the limited access plan. Title to such property relinquished to a city or town shall be conveyed by a deed executed by the secretary of transportation and duly acknowledged. Relinquishment of such property to the city or town may be expressly conditioned upon the maintenance of access control acquired by the state and the continued operation of such property as a functional part of the limited access highway. [2006 c 334 § 27; 1981 c 95 § 3; 1977 ex.s. c 78 § 3.]

Effective date—2006 c 334: See note following RCW 47.01.051.

(a) The approach shall be in a legal manner not to exceed thirty feet in width.

(b) The approach may be specified at a point satisfactory to the department at or between designated highway stations.

(c) The permit holder may use the approach for ingress and egress from the highway for construction or maintenance of the personal wireless service facility during nonpeak traffic hours so long as public safety is not adversely affected. The permit holder may use the approach for ingress and egress at any time for the construction of the facility if public safety is not adversely affected and if construction will not substantially interfere with traffic flow during peak traffic periods.

(2) The department shall authorize the approach by an annual permit, which may only be canceled upon one hundred eighty days' written notice to the permit holder.

(a) The department shall set the yearly cost of a permit in rule.

(b) The permit shall be assignable to the contractors and subcontractors of the permit holder. The permit shall also be transferable to a new owner following the sale or merger of the permit holder.

GENERAL PROVISIONS

47.56.010 Definitions. As used in this chapter:

(1) "Toll bridge" means a bridge constructed or acquired under this chapter, upon which tolls are charged, together with all appurtenances, additions, alterations, improvements, and replacements thereof, and the approaches thereto, and all lands and interests used therefor, and buildings and improvements thereon.

(2) "Toll road" means any express highway, superhighway, or motorway at such locations and between such termini as may be established by law, and constructed or to be constructed as a limited access highway under the provisions of this chapter by the department, and shall include, but not be limited to, all bridges, tunnels, overpasses, underpasses, interchanges, entrance plazas, approaches, toll houses, service areas, service facilities, communications facilities, and administration, storage, and other buildings that the department may deem necessary for the operation of the project, together with all property, rights, easements, and interests that may be acquired by the department for the construction or the operation of the project, all of which shall be conducted in the same manner and under the same procedure as provided for the establishing, constructing, operating, and maintaining of toll bridges by the department, insofar as those procedures are reasonably consistent and applicable.

(3) "1950 Tacoma Narrows bridge" means the bridge crossing the Tacoma Narrows that was opened to vehicle travel in 1950. [2002 c 114 § 2; 1984 c 7 § 246; 1961 c 13 § 47.56.010. Prior: 1953 c 220 § 1; 1937 c 173 § 1, part; RRS § 6524-1, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.030 Powers and duties regarding toll facilities—Purchasing. (1) Except as permitted under chapter 47.29 or 47.46 RCW:

(a) Unless otherwise delegated, and subject to RCW 47.56.820, the department of transportation shall have full charge of the planning, analysis, and construction of all toll bridges and other toll facilities including the Washington state ferries, and the operation and maintenance thereof.

(b) The transportation commission shall determine and establish the tolls and charges thereon.

(c) Unless otherwise delegated, and subject to RCW 47.56.820, the department shall have full charge of planning, analysis, and design of all toll facilities. The department may conduct the planning, analysis, and design of toll facilities as necessary to support the legislature's consideration of toll authorization.

(d) The department shall utilize and administer toll collection systems that are simple, unified, and interoperable. To the extent practicable, the department shall avoid the use of toll booths. The department shall set the statewide standards and protocols for all toll facilities within the state, including those authorized by local authorities.

(e) Except as provided in this section, the department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract in the manner of state highway construction immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department is authorized to negotiate contracts for any amount without bid under (e)(i) and (ii) of this subsection:

(i) Emergency contracts, in order to make repairs to ferries or ferry terminal facilities or removal of such facilities whenever continued use of ferries or ferry terminal facilities constitutes a real or immediate danger to the traveling public or precludes prudent use of such ferries or facilities; and

(ii) Single source contracts for vessel dry dockings, when there is clearly and legitimately only one available bidder to conduct dry dock-related work for a specific class or classes of vessels. The contracts may be entered into for a single vessel dry docking or for multiple vessel dry dockings for a period not to exceed two years.

(2) The department shall proceed with the procurement of materials, supplies, services, and equipment needed for the support, maintenance, and use of a ferry, ferry terminal, or other facility operated by Washington state ferries, in accordance with chapter 43.19 RCW except as follows:

(a) When the secretary of the department of transportation determines in writing that the use of invitation for bid is either not practicable or not advantageous to the state and it may be necessary to make competitive evaluations, including technical or performance evaluations among acceptable proposals to complete the contract award, a contract may be entered into by use of a competitive sealed proposals method, and a formal request for proposals solicitation. Such formal request for proposals solicitation shall include a functional description of the needs and requirements of the state and the significant factors.

(b) When purchases are made through a formal request for proposals solicitation the contract shall be awarded to the responsible proposer whose competitive sealed proposal is determined in writing to be the most advantageous to the state taking into consideration price and other evaluation factors set forth in the request for proposals. No significant factors may be used in evaluating a proposal that are not specified in the request for proposals. Factors that may be considered in evaluating proposals include but are not limited to: Price; maintainability; reliability; commonality; performance levels; life cycle cost if applicable under this section; cost of transportation or delivery; delivery schedule offered; installation cost; cost of spare parts; availability of parts and service offered; and the following:

(i) The ability, capacity, and skill of the proposer to perform the contract or provide the service required;

(ii) The character, integrity, reputation, judgment, experience, and efficiency of the proposer;

(iii) Whether the proposer can perform the contract within the time specified;

(iv) The quality of performance of previous contracts or services;

(v) The previous and existing compliance by the proposer with laws relating to the contract or services;

(vi) Objective, measurable criteria defined in the request for proposal. These criteria may include but are not limited

to items such as discounts, delivery costs, maintenance services costs, installation costs, and transportation costs; and

(vii) Such other information as may be secured having a bearing on the decision to award the contract.

(c) When purchases are made through a request for proposal process, proposals received shall be evaluated based on the evaluation factors set forth in the request for proposal. When issuing a request for proposal for the procurement of propulsion equipment or systems that include an engine, the request for proposal must specify the use of a life cycle cost analysis that includes an evaluation of fuel efficiency. When a life cycle cost analysis is used, the life cycle cost of a proposal shall be given at least the same relative importance as the initial price element specified in the request of proposal documents. The department may reject any and all proposals received. If the proposals are not rejected, the award shall be made to the proposer whose proposal is most advantageous to the department, considering price and the other evaluation factors set forth in the request for proposal. The department may use funds available to it to carry out the purposes of this section. These agreements may provide that if any such project is determined to be feasible and is adopted, any advancement of funds by any state or county may be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived from the project. The resolution is conclusive evidence (1) of the public necessity of such construction; (2) that the property is necessary therefor; and (3) that the proposed construction is planned or located in a manner which will be most compatible with the greatest public good and the least private injury. When it becomes necessary for the department to condemn any real estate to be used in connection with any such bridge, the attorney general of the state shall represent the department. It is not necessary in any eminent domain proceedings under this chapter to plead or prove any acts or proceedings preliminary or prior to the adoption of the resolution hereinbefore referred to describing the property sought to be taken and directing such proceedings. 47.56.130 Toll bridges—Bonds—Cooperative funds from state and federal government. The department is hereby empowered to issue bonds for the construction of any toll bridge or toll bridges authorized under the provisions of this chapter. Any and all bonds issued for the construction of any toll bridge or toll bridges under the authority of the department shall be issued in the name of the department, shall constitute obligations only of the department, shall be identified as toll bridge bonds, and shall contain a recital on the face thereof that the payment or redemption of the bonds and the payment of the interest thereon is secured by a direct and exclusive charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the particular toll bridge or bridges for the construction of which the bonds are issued and that neither the payment of the principal or any part thereof nor of the interest thereon or any part thereof constitutes a debt, liability, or obligation of the state of Washington. The department is empowered to receive and accept funds from the state of Washington or the federal government upon a cooperative or other basis for the construction of any toll bridge authorized under this chapter and is empowered to enter into such agreements with the state of Washington or the federal government as may be required for the securing of such funds. The department of transportation shall determine the form, conditions, and denominations of the bonds, and the maturity dates which the bonds to be sold shall bear and the interest rate thereon. All bonds of the same issue need not bear the same interest rate. Principal and interest of the bonds may be payable at such place as determined by the department. They may be in any form including bearer bonds or registered bonds as provided in RCW 39.46.030, with interest payable at such times as determined by the department, and shall mature at such times and in such amounts as the department prescribes. The department may provide for the retirement of the bonds at any time prior to maturity, and in such manner and upon payment of such premiums as it may determine in the resolution providing for the issuance of the bonds. All such bonds shall be signed by the state auditor and countersigned by the governor and any interest coupons appertaining thereto shall bear the signature of the state auditor. The countersignature of the governor on such bonds and the signature of the state auditor on any coupons may be their printed or lithographed facsimile signatures. Successive issues of such bonds within the limits of the original authorization shall have equal preference with respect to the redemption thereof and the payment of interest thereon. The department may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. The bonds shall be negotiable instruments under the law merchant. All bonds issued and sold hereunder shall be sold on sealed bids to the highest and best bidder after such advertising for bids as the department deems proper. The department may reject any and all bids and may thereafter sell the bonds at private sale under such terms and conditions as it deems most advantageous to its own interests; but not at a price below that of the best bid which was rejected. The department may contract loans and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any agency thereof, upon such conditions and terms as may be agreed to and the bonds shall be subject to all the provisions of this chapter, except the requirement that they be first offered at public sale.

Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by the state auditor, may be issued and delivered until bonds are executed and available for delivery. 47.56.150 Toll bridges—Bond proceeds and toll revenues, disposition of—Construction fund—Disbursement—Investment. The proceeds from the sale of all bonds authorized under the provisions of this chapter shall be paid to the state treasurer for the credit of the department and be

deposited as demand deposits forthwith in such depository or depositories as may be authorized by law to receive deposits of state funds to the credit of a fund to be designated as the construction fund of the particular toll bridge or toll bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the construction of such toll bridge or toll bridges, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise. The department may agree with the purchaser of the bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the toll bridge or toll bridges for which such bonds were issued and sold, and all funds constituting surplus revenues that are not immediately needed for the particular object or purpose to which they must be applied or are pledged shall be invested in bonds and obligations of the nature eligible for investment of surplus state moneys: PROVIDED, That the department may provide in the proceedings authorizing the issuance of these bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment, and such provisions shall thereupon be binding upon the department and all officials having anything to do with the investment. Any surplus which may exist in the construction fund shall be applied to the retirement of bonds issued for the construction of such toll bridge or toll bridges by purchase or call. If these bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, the surplus shall be paid into the fund applicable to the payment of principal and interest of the bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying the surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called. Such limitations and conditions shall be followed and observed in the application and use of the surplus. All bonds so retired by purchase or call shall be immediately canceled. The treasurer shall deposit them forthwith as demand deposits in a depository or depositories authorized by law to receive deposits of state funds. The deposit shall be made to the credit of a special trust fund designated as the toll revenue fund of the particular toll bridge or toll bridges producing the tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds. 47.56.165 Tacoma Narrows toll bridge account. A special account to be known as the Tacoma Narrows toll bridge account is created in the motor vehicle fund in the state treasury.

(1) Deposits to the account must include:

(a) All proceeds of bonds issued for construction of the Tacoma Narrows public-private initiative project, including any capitalized interest;

(b) All of the toll charges and other revenues received from the operation of the Tacoma Narrows bridge as a toll facility, to be deposited at least monthly;

(c) Any interest that may be earned from the deposit or investment of those revenues;

(d) Notwithstanding RCW 47.12.063, proceeds from the sale of any surplus real property acquired for the purpose of building the second Tacoma Narrows bridge; and

(e) All liquidated damages collected under any contract involving the construction of the second Tacoma Narrows bridge.

(2) Proceeds of bonds shall be used consistent with RCW 47.46.130, including the reimbursement of expenses and fees incurred under agreements entered into under RCW 47.46.040 as required by those agreements.

(3) Toll charges, other revenues, and interest may be used to:

(a) Pay any required costs of financing, operation, maintenance, and management and necessary repairs of the facility; and

(b) Repay amounts to the motor vehicle fund as required under RCW 47.46.140.

(4) When repaying the motor vehicle fund under RCW 47.46.140, the state treasurer shall transfer funds from the Tacoma Narrows toll bridge account to the motor vehicle fund on or before each debt service date for bonds issued for the Tacoma Narrows public-private initiative project in an amount sufficient to repay the motor vehicle fund for amounts transferred from that fund to the highway bond retirement fund to provide for any bond principal and interest due on that date. The state treasurer may establish subaccounts for the purpose of segregating toll charges, bond sale proceeds, and other revenues. [2006 c 17 § 1; 2002 c 114 § 11.]

47.56.167 Toll collection account. The toll collection account is created in the custody of the state treasurer. All receipts from prepaid customer tolls must be deposited into the account. Distributions from the account may be used only to refund customers' prepaid tolls or for distributions into the appropriate toll facility account. Distributions into the appropriate toll facility account shall be based on charges incurred at each toll facility and shall include a proportionate share of interest earned from amounts deposited into the account. For purposes of accounting, distributions from the account constitute earned toll revenues in the receiving toll

facility account at the time of distribution. Only the secretary of transportation or the secretary's designee may authorize distributions from the account. Distributions of revenue and refunds from this account are not subject to the allotment procedures under chapter 43.88 RCW and an appropriation is not required. [2008 c 122 § 23.]

Effective date—2008 c 122 §§ 23 and 24: "Sections 23 and 24 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [March 25, 2008]." [2008 c 122 § 26.]

47.56.170 Toll bridges—Transfer of funds for bond payments—Surplus funds. From the money deposited in each separate construction fund under RCW 47.56.160, the state treasurer shall transfer to the place or places of payment named in the bonds such sums as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of a particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The state treasurer shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds such sums as may be required to pay the interest on the bonds and redeem the principal thereof as the interest payments and bond redemption become due for all bonds issued and sold for the construction of the particular toll bridge or toll bridges producing the tolls or revenues so deposited in the toll revenue fund. All funds so transferred for the payment of principal or interest on bonds issued for any particular toll bridge shall be segregated and applied solely for the payment of that principal or interest. The proceedings authorizing the issuance of bonds may provide for setting up a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of the fund in a manner to be provided therein. The proceedings may also require the immediate application of all surplus moneys in the toll revenue fund to the retirement of the bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department.

The moneys remaining in each separate toll revenue fund after providing the amount required for interest and redemption of bonds as provided in this section shall be held and applied as provided in the proceedings authorizing the issuance of the bonds. If the proceedings authorizing the issuance of the bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of the toll bridge or bridges as the department may determine. [1984 c 7 § 259; 1961 c 13 § 47.56.170. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.180 Toll bridges—Payments made by warrants on vouchers—Interest on deposits. Warrants for payments to be made on account of the bonds shall be duly drawn by the state treasurer on vouchers approved by the department.

Moneys required to meet the costs of construction and all expenses and costs incidental to the construction of any par-

ticular toll bridge or toll bridges or to meet the costs of operating, maintaining, and repairing the bridge or bridges shall be paid from the proper fund therefor by the state treasurer upon vouchers approved by the department.

All interest received or earned on money deposited in each and every fund provided for in this chapter shall be credited to and become a part of the particular fund upon which the interest accrues. [1984 c 7 § 260; 1973 c 106 § 26; 1961 c 13 § 47.56.180. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.190 Toll bridges—Agreement on deposit of funds. The department may provide in the proceedings authorizing the issuance of bonds or may otherwise agree with the purchasers of bonds regarding the deposit of all moneys constituting the construction fund and the toll revenue fund and provide for the deposit of the money at such times and with such depositaries or paying agents and upon the furnishing of security as meets with the approval of the purchasers of the bonds so long as the depositaries and security provided for or agreed upon are qualified and eligible in accordance with the requirements of law. [1984 c 7 § 261; 1961 c 13 § 47.56.190. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.200 Toll bridges—Use of bond proceeds and revenue for expenses. Notwithstanding anything contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of any toll bridge or toll bridges may be used to defray any expenses incurred by the department in connection with and incidental to the issuance and sale of bonds for the construction of the toll bridge or toll bridges including expenses for the preparation of surveys and estimates and making inspections and examinations required by the purchasers of the bonds. In addition, the proceedings authorizing the issuance of the bonds may contain appropriate provisions governing the use and application of the bond proceeds and toll or other revenues for the purposes herein specified. [1984 c 7 § 262; 1961 c 13 § 47.56.200. Prior: 1937 c 173 § 14, part; RRS § 6524-14, part.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.56.210 Toll bridges—Remedies of bond holders. While any bonds issued by the department under this chapter remain outstanding, the powers, duties, or existence of the department or of any other official or agency of the state shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds. The holder of any bond may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon any state department, official, or employee, or imposed upon the department or its officers, agents, and employees in connection with the construction, maintenance, operation, and insurance of any bridge, and in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of any bridge and in

connection with the deposit, investment, and disbursement of the proceeds received from the sale of bonds. The enumeration of rights and remedies in this section shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of the bonds. Except as otherwise provided in RCW *47.56.291, **47.56.714, and *47.56.756, as long as any of the bonds issued hereunder for the construction of any toll bridge are outstanding and unpaid, there shall not be erected, constructed, or maintained any other bridge or other crossing over, under, through, or across the waters over which such toll bridge is located or constructed, connecting or joining directly or indirectly the lands or extensions thereof or abutments thereon on both sides of the waters spanned or crossed by such toll bridge within a distance of ten miles from either side of such toll bridge excepting bridges or other highway crossings actually in existence and being maintained, or for which there was outstanding an existing and lawfully issued franchise, at the time of the location of such toll bridge and prior to the time of the authorization of such bonds, and no ferry or other similar means of crossing the said waters within the said distance and connecting or plying directly or indirectly between the lands or extensions thereof or abutments thereon on both sides of the waters spanned or crossed by such bridge shall be maintained or operated or permitted or allowed: PROVIDED, That ferries and other similar means of crossing actually in existence and being maintained and operated, or for which there was outstanding an existing and lawfully issued franchise, at the time of the location of such bridge and prior to the time of the authorization of such bonds, may continue and be permitted to be operated and maintained under such existing rights and franchises, or any lawful renewal or extension thereof. The provisions of this section shall be binding upon the state department of transportation, the state of Washington, and all of its departments, agencies, or instrumentalities as well as any and all private, political, municipal, and public corporations and subdivisions, including cities, counties, and other political subdivisions, and the prohibitions of this section shall restrict and limit the powers of the legislature of the state of Washington in respect to the matters herein mentioned as long as any of such bonds are outstanding and unpaid and shall be deemed to constitute a contract to that effect for the benefit of the holders of all such bonds. [1983 c 3 § 128; 1979 ex.s. c 212 § 19; 1979 c 131 § 8; 1961 c 13 § 47.56.220. Prior: 1937 c 173 § 13; RRS § 6524-13.]

47.56.230 Toll bridges—Insurance or indemnity bonds authorized. When any toll bridge or bridges autho-

rized under this chapter is being built by the department, the department may carry or cause to be carried an amount of insurance or indemnity bond or bonds as protection against loss or damage as the department may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in whole to any toll bridge or toll bridges until all bonds sold for the construction of the toll bridge or toll bridges and interest accrued thereon have been fully redeemed and paid. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to the toll bridge or toll bridges shall be used for the purpose of repairing or rebuilding the toll bridge or toll bridges as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge or bridges by reason of any interruption in the use of the toll bridge or toll bridges from any cause whatever, and the proceeds of the insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the fund. The insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of the toll bridge or toll bridges during any period of time that may be determined by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in the proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter, and the purchase and carrying of insurance as authorized by this chapter, and the purchase and carrying of such insurance shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in the proceedings. [1984 c 7 § 264; 1961 c 13 § 47.56.230. Prior: 1937 c 173 § 15; RRS § 6524-15.]

47.56.240 Toll bridges—Fixing of toll rates authorized—Lien of bonds on revenue. Except as otherwise provided in RCW 47.56.850, the commission is hereby empowered to fix the rates of toll and other charges for all toll bridges built under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions warrant. The commission, in establishing toll charges, shall give due consideration to the cost of operating and maintaining such toll bridge or toll bridges including the cost of insurance, and to the amount required annually to meet the redemption of bonds and interest payments on them. The tolls and charges shall be at all times fixed at rates to yield annual revenue equal to annual operating and maintenance expenses including insurance costs and all redemption payments and interest charges of the bonds issued for any particular toll bridge or toll bridges as the bonds become due. The bond redemption and interest payments constitute a first direct charge and lien on all such tolls and other revenues and interest thereon. Sinking funds created therefrom received from the use and operation of the toll bridge or toll bridges,

and such tolls and revenues together with the interest earned thereon shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose as long as any of these bonds are outstanding and unpaid. 47.56.242 Liquidation and closure of facility accounts upon removal of tolls—Transfer to motor vehicle fund. The department is authorized to liquidate and close toll facility trust and other facility accounts established outside the state treasury under chapter 47.56 RCW after the removal of tolls from the facility for which the accounts were established. Any balance remaining in the accounts shall thereupon be transferred to the motor vehicle fund. In addition, the department may, after the removal of tolls from a particular facility or facilities, require that all moneys transferred to the place of payment named in the revenue bonds, for the purpose of paying principal or interest or for redemption of the bonds not then expended for such purpose, be returned to the state treasurer for deposit in the motor vehicle fund. Neither the provisions of this section nor of RCW 47.56.242 shall be construed to preclude any remedy otherwise available to bond owners or coupon holders. [1983 c 167 § 119; 1967 ex.s. c 145 § 49.]

(1) Except as provided in subsection (2) of this section, with respect to every facility completed after March 19, 1953, costs of maintenance and operation shall be paid periodically out of the revenues of the facility in which such costs were incurred.

(2) Where a state toll facility is constructed under chapter 47.46 RCW adjacent to or within two miles of an existing bridge that was constructed under this chapter, revenue from the toll facility may not be used to pay for costs of maintenance on the existing bridge. [2002 c 114 § 23; 1984 c 7 § 267; 1965 ex.s. c 170 § 53; 1961 c 13 § 47.56.245. Prior: 1953 c 220 § 6.]

ties that are part of an urban public transportation system owned or operated by a municipal corporation, agency, or department of the state of Washington other than the department of transportation, and any other such facilities in the manner of granting franchises on state highways. Except as otherwise provided in this section, the 1950 Tacoma Narrows bridge hereinbefore by the provisions of RCW 47.17.065 and 47.56.270 made a part of the primary state highways of the state shall be operated and maintained by the department as a toll-free facility at such time as the bonded indebtedness relating to the construction of the 1950 Tacoma Narrows bridge is wholly retired and tolls equaling the indebtedness of the toll bridge authority incurred for the construction of the 1950 Tacoma Narrows bridge to the county of Pierce have been collected. Toll charges may be imposed upon the 1950 Tacoma Narrows bridge only if that bridge is included as part of a public toll bridge facility that includes an additional toll bridge adjacent to the 1950 Tacoma Narrows bridge and constructed under RCW 47.46.080. 47.56.366 Hood Canal bridge—Public sport fishing—Disclaimer of liability. The department may permit public sport fishing from the Hood Canal bridge. The department may adopt rules governing public use of the bridge for sport fishing to the end that such activity shall not interfere with the primary use and operation of the bridge as a highway facility. Notwithstanding the provisions of RCW 4.92.090 or any other statute imposing liability upon the state of Washington, the state hereby disclaims any liability arising out of loss or injury in connection with the public use of the Hood Canal bridge for sport fishing purposes. 47.56.401 High occupancy toll lanes defined. For the purposes of RCW 46.61.165, 47.56.403, and 47.66.090, "high occupancy toll lanes" means one or more lanes of a highway that charges tolls as a means of regulating access to or the use of the facility, to maintain travel speed and reliability. Supporting facilities include, but are not limited to, approaches, enforcement areas, improvements, buildings, and equipment. [2005 c 312 § 2.]

Intent—2005 c 312: "The legislature recognizes that the Puget Sound region is faced with growing traffic congestion and has limited ability to expand freeway capacity due to financial, environmental, and physical constraints. Freeway high occupancy vehicle lanes have been an effective means of providing transit, vanpools, and carpools with a fast trip on congested freeway corridors, but in many cases, these lanes are themselves getting crowded during the peak commute times, while some are being underused at off-peak times.

It is the intent of the legislature to maximize the effectiveness and efficiency of the freeway system. To evaluate methods to accomplish this, it is beneficial to evaluate alternative approaches to managing the use of freeway high occupancy vehicle lanes, including pilot projects to determine and demonstrate the effectiveness and benefits of implementing high occupancy toll lanes. The legislature acknowledges that state route 167 provides an ideal test of the high occupancy toll lane concept because it is a congested corridor, it has underused capacity in the high occupancy vehicle lane, and it has adequate right-of-way for improvements needed to test the concept. Therefore, it is the intent of this act to direct that the department of transportation, as a pilot project, develop and operate a high occupancy toll lane on state route 167 in King county and to conduct an evaluation of that project to determine impacts on freeway efficiency, effectiveness for transit, feasibility of financing improvements through tolls, and the impacts on freeway users." [2005 c 312 § 1.]

47.56.403 High occupancy toll lane pilot project. (1) The department may provide for the establishment, construction, and operation of a pilot project of high occupancy toll lanes on state route 167 high occupancy vehicle lanes within King county. The department may issue, buy, and redeem bonds, and deposit and expend them; secure and remit financial and other assistance in the construction of high occupancy toll lanes, carry insurance, and handle any other matters pertaining to the high occupancy toll lane pilot project.

(2) Tolls for high occupancy toll lanes will be established as follows:

(a) The schedule of toll charges for high occupancy toll lanes must be established by the transportation commission and collected in a manner determined by the commission.

(b) Toll charges shall not be assessed on transit buses and vanpool vehicles owned or operated by any public agency.

(c) The department shall establish performance standards for the state route 167 high occupancy toll lane pilot project. The department must automatically adjust the toll charge, using dynamic tolling, to ensure that toll-paying single-occupant vehicle users are only permitted to enter the lane to the extent that average vehicle speeds in the lane remain above forty-five miles per hour at least ninety percent of the time during peak hours. The toll charge may vary in amount by time of day, level of traffic congestion within the highway facility, vehicle occupancy, or other criteria, as the commission may deem appropriate. The commission may also vary toll charges for single-occupant inherently low-emission vehicles such as those powered by electric batteries, natural gas, propane, or other clean burning fuels.

(d) The commission shall periodically review the toll charges to determine if the toll charges are effectively maintaining travel time, speed, and reliability on the highway facilities.

(3) The department shall monitor the state route 167 high occupancy toll lane pilot project and shall annually report to the transportation commission and the legislature on operations and findings. At a minimum, the department shall provide facility use data and review the impacts on:

- (a) Freeway efficiency and safety;
- (b) Effectiveness for transit;
- (c) Person and vehicle movements by mode;
- (d) Ability to finance improvements and transportation services through tolls; and

(e) The impacts on all highway users. The department shall analyze aggregate use data and conduct, as needed, separate surveys to assess usage of the facility in relation to geographic, socioeconomic, and demographic information within the corridor in order to ascertain actual and perceived questions of equitable use of the facility.

(4) The department shall modify the pilot project to address identified safety issues and mitigate negative impacts to high occupancy vehicle lane users.

(5) Authorization to impose high occupancy vehicle tolls for the state route 167 high occupancy toll pilot project expires if either of the following two conditions apply:

(a) If no contracts have been let by the department to begin construction of the toll facilities associated with this pilot project within four years of July 24, 2005; or

(b) Four years after toll collection begins under this section.

(6) The department of transportation shall adopt rules that allow automatic vehicle identification transponders used for electronic toll collection to be compatible with other electronic payment devices or transponders from the Washington state ferry system, other public transportation systems, or other toll collection systems to the extent that technology permits.

(7) The conversion of a single existing high occupancy vehicle lane to a high occupancy toll lane as proposed for SR-167 must be taken as the exception for this pilot project.

(8) A violation of the lane restrictions applicable to the high occupancy toll lanes established under this section is a traffic infraction.

(9) Procurement activity associated with this pilot project shall be open and competitive in accordance with chapter 39.29 RCW. [2005 c 312 § 3.]

47.56.720 Puget Island-Westport ferry—Payments for operation and maintenance to Wahkiakum county—Toll-free operation and provision of rest room facilities, when. (1) The legislature finds that the ferry operated by Wahkiakum county between Puget Island and Westport on the Columbia river provides service which is primarily local in nature with secondary benefits to the state highway system in providing a bypass for state route 4 and providing the only crossing of the Columbia river between the Astoria-Megler bridge and the Longview bridge.

(2) The department is hereby authorized to enter into a continuing agreement with Wahkiakum county pursuant to which the department shall pay to Wahkiakum county from moneys appropriated for such purpose monthly amounts not to exceed eighty percent of the operating and maintenance deficit with a maximum not to exceed the amount appropriated for that biennium to be used in the operation and maintenance of the Puget Island ferry, commencing July 1, 1992.

(3) The annual deficit, if any, incurred in the operation and maintenance of the ferry shall be determined by Wahkiakum county subject to the approval of the department. If eighty percent of the deficit for the preceding fiscal year exceeds the total amount paid to the county for that year, the additional amount shall be paid to the county by the department upon the receipt of a properly executed voucher. The total of all payments to the county in any biennium shall not exceed the amount appropriated for that biennium. The fares established by the county shall be comparable to those used for similar runs on the state ferry system.

(4) Whenever, subsequent to June 9, 1977, state route 4 between Cathlamet and Longview is closed to traffic pursuant to chapter 47.48 RCW due to actual or potential slide conditions and there is no suitable, reasonably short alternate state route provided, Wahkiakum county is authorized to operate the Puget Island ferry on a toll-free basis during the entire period of such closure. The state's share of the ferry

operations and maintenance deficit during such period shall be one hundred percent.

(5) Whenever state route 4 between Cathlamet and Longview is closed to traffic, as mentioned in subsection (4) hereof, the state of Washington shall provide temporary rest room facilities at the Washington ferry landing terminal. [1992 c 82 § 1; 1987 c 368 § 1; 1984 c 7 § 285; 1977 c 11 § 1; 1973 2nd ex.s. c 26 § 1; 1971 ex.s. c 254 § 1.]

47.56.725 County ferries—Deficit reimbursements—Capital improvement funds. (1) The department is hereby authorized to enter into a continuing agreement with Pierce, Skagit, and Whatcom counties pursuant to which the department shall, from time to time, direct the distribution to each of the counties the amounts authorized in subsection (2) of this section in accordance with RCW 46.68.090.

(2) The department is authorized to include in each agreement a provision for the distribution of funds to each county to reimburse the county for fifty percent of the deficit incurred during each previous fiscal year in the operation and maintenance of the ferry system owned and operated by the county. The total amount to be reimbursed to Pierce, Skagit, and Whatcom counties collectively shall not exceed one million dollars in any biennium. Each county agreement shall contain a requirement that the county shall maintain tolls on its ferries at least equal to tolls in place on January 1, 1990.

(3) The annual fiscal year operating and maintenance deficit, if any, shall be determined by Pierce, Skagit, and Whatcom counties subject to review and approval of the department. The annual fiscal year operating and maintenance deficit is defined as the total of operations and maintenance expenditures less the sum of ferry toll revenues and that portion of fuel tax revenue distributions which are attributable to the county ferry as determined by the department. Distribution of the amounts authorized by subsection (2) of this section by the state treasurer shall be directed by the department upon the receipt of properly executed vouchers from each county.

(4) The county road administration board may evaluate requests by Pierce, Skagit, Wahkiakum, and Whatcom counties for county ferry capital improvement funds. The board shall evaluate the requests and, if approved by a majority of the board, submit the requests to the legislature for funding out of the amounts available under *RCW 46.68.090(1)(j). Any county making a request under this subsection shall first seek funding through the public works trust fund, or any other available revenue source, where appropriate. 47.56.730 "No Smoking" areas on ferries—Establishment directed. The legislature finds that the public health, safety, and welfare require that "No Smoking" areas be established on all state ferries since there is a significant number of our citizens who are nonsmokers. The department is hereby authorized and directed to adopt rules pursuant to the administrative procedure act, chapter 34.05 RCW, to establish and clearly designate areas on all state operated ferries that are expressly reserved for use by nonsmokers. 47.56.770 Refunding bonds—Authorized. The state finance committee is authorized to issue refunding bonds and use other available money to refund, defease, and redeem all of those toll bridge authority, ferry, and Hood Canal bridge refunding revenue bonds under RCW 47.56.771 through 47.56.774. [1993 c 4 § 2.]

Legislative declaration—1993 c 4: "It is declared that it is in the best interest of the state to modify the debt service and reserve requirements, sources of payment, covenants, and other terms of the outstanding toll bridge authority, ferry, and Hood Canal bridge refunding revenue bonds." 47.56.771 Refunding bonds—General obligation—Signatures, negotiability—Payment of principal and interest—Pledge of excise taxes. (1) The refunding bonds authorized under RCW 47.56.770 shall be general obligation bonds of the state of Washington and shall be issued in a total principal amount not to exceed fifteen million dollars. The exact amount of refunding bonds to be issued shall be determined by the state finance committee after calculating the amount of money deposited with the trustee for the bonds to be refunded which can be used to redeem or defease outstanding toll bridge authority, ferry, and Hood Canal bridge revenue bonds after the setting aside of sufficient money from that fund to pay the first interest installment on the refunding bonds. The refunding bonds shall be serial in form maturing at such time, in such amounts, having such denomination or denominations, redemption privileges, and having such terms and conditions as determined by the state finance committee. The last maturity date of the refunding bonds shall not be later than January 1, 2002.

(2) The refunding bonds shall be signed by the governor and the state treasurer under the seal of the state, which signatures shall be made manually or in printed facsimile. The bonds shall be registered in the name of the owner in accordance with chapter 39.46 RCW. The refunding bonds shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the

state, and shall contain an unconditional promise to pay the principal thereof and the interest thereon when due. The refunding bonds shall be fully negotiable instruments.

(3) The principal and interest on the refunding bonds shall be first payable in the manner provided in this section from the proceeds of state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW.

(4) The principal of and interest on the refunding bonds shall be paid first from the state excise taxes on motor vehicle and special fuels deposited in the ferry bond retirement fund. There is hereby pledged the proceeds of state excise taxes on motor vehicle and special fuels imposed under chapters 82.36 and 82.38 RCW to pay the refunding bonds and interest thereon, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on the refunding bonds. Not less than fifteen days prior to the date any interest or principal and interest payments are due, the state finance committee shall certify to the state treasurer such amount of additional money as may be required for debt service, and the treasurer shall thereupon transfer from the motor vehicle fund such amount from the proceeds of such excise taxes into the ferry bond retirement fund. Any proceeds of such excise taxes required for these purposes shall first be taken from that portion of the motor vehicle fund which results from the imposition of the excise taxes on motor vehicle and special fuels and which is distributed to the Puget Sound capital construction account. If the proceeds from excise taxes distributed to the state are ever insufficient to meet the required payments on principal or interest on the refunding bonds when due, the amount required to make the payments on the principal or interest shall next be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle and special fuels and which is distributed to the state, counties, cities, and towns pursuant to RCW 46.68.090. Any payments of the principal or interest taken from the motor vehicle or special fuel tax revenues which are distributable to the counties, cities, and towns shall be repaid from the first money distributed to the state not required for redemption of the refunding bonds or interest thereon. The legislature covenants that it shall at all times provide sufficient revenues from the imposition of such excise taxes to pay the principal and interest due on the refunding bonds. 47.56.772 Refunding bonds—Liquidation of existing bond funds. Upon the issuance of refunding bonds as authorized by RCW 47.56.770, the department of transportation may liquidate the existing bond fund and other funds and accounts established in the proceedings which authorized the issuance of the outstanding toll bridge authority, ferry, and Hood Canal bridge refunding revenue bonds and apply the money contained in those funds and accounts to the defeasance and redemption of outstanding toll bridge authority, ferry, and Hood Canal refunding revenue bonds, except that prior to such bond redemption, money sufficient to pay the first interest installment on the refunding bonds shall be

deposited in the ferry bond retirement fund. Money remaining in such funds not used for such bond defeasance and redemption or first interest installment on the refunding bonds shall be transferred to and deposited in the Puget Sound ferry operations account created under RCW 47.60.530. [1993 c 4 § 6.]

Legislative declaration—Effective date—1993 c 4: See notes following RCW 47.56.770.

47.56.780 New ferry vessel construction for service on routes that require a vessel that carries no more than one hundred motor vehicles—How constructed—Warranty work. (1) The department shall construct one or more new ferry vessels for service on routes that require a vessel that carries no more than one hundred motor vehicles. The department shall include in the procurement of the new vessels a requirement that the vessels be constructed within the boundaries of the state of Washington, except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection.

(2) For purposes of this section, "constructed" means: The fabrication, by the joining together by welding or fastening, of all steel parts from which the total vessel is constructed including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means (a) the installation of all components and systems including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint, and joiner work required by the con-

tract and (b) the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting.

(3) The procurement of the new ferry vessels must also include a requirement that all warranty work on the vessels be performed within the boundaries of the state of Washington, insofar as practicable. [2008 c 4 § 2.]

Findings—2008 c 4: "Washington's marine highways provide vital transportation links between communities. Citizens, businesses, and visitors depend on the state's ferry system to provide safe, dependable auto and passenger service in order to conduct daily life and commerce activities. On November 20, 2007, the secretary of the department of transportation ordered the eighty-year old steel electric class vessels to be immediately removed from service because previously undetected corrosion and pitting in the vessel hulls posed a risk to the safety of passengers and crew. The emergency removal of the state ferry system's steel electric class vessels has imposed a significant hardship on the citizens and businesses served by those vessels. Therefore, an expedited procurement is required for the construction of new vessels to fully restore service to routes previously served by the steel electric class vessels." [2008 c 4 § 1.]

Effective date—2008 c 4: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [February 14, 2008]." [2008 c 4 § 3.]

47.56.785 Authority to collect tolls on existing or replacement state route number 520 bridge—Toll charge schedule. (1) Following the submission of the report required in section 6, chapter 270, Laws of 2008, the department may seek authorization from the legislature to collect tolls on the existing state route number 520 bridge or on a replacement state route number 520 bridge.

(2) The schedule of toll charges must be established by the transportation commission and collected in a manner determined by the department. [2008 c 270 § 4.]

Finding—2008 c 270: See note following RCW 47.01.408.

47.56.790 Interstate 90 floating bridge tolls—Federal authorization—Report. The department shall work with the federal highways administration to determine the necessary actions for receiving federal authorization to toll the Interstate 90 floating bridge. The department must periodically report the status of those discussions to the governor and the joint transportation committee. [2008 c 270 § 5.]

Finding—2008 c 270: See note following RCW 47.01.408.

TOLL FACILITIES CREATED AFTER JULY 1, 2008

47.56.805 Finding—Intent. The legislature finds and declares that it is the policy of the state of Washington to use tolling to provide a source of transportation funding and to encourage effective use of the transportation system.

The legislature intends that the policy framework created by chapter 122, Laws of 2008 will guide subsequent legislation and decisions regarding the tolling of specific facilities and corridors. For each state-owned facility or corridor, the legislature intends that it will authorize the budget and finance plan. Specific issues that may be addressed in the finance plan and budget authorization legislation include the amount of financing required for a facility or corridor, the budget for any construction and operations financed by tolling, whether and how variable pricing will be applied, and the timing of tolling.

(2008 Ed.)

The legislature also intends that while the transportation commission, as the toll-setting authority, may set toll rates for facilities, corridors, or systems thereof, the legislature reserves the authority to impose tolls on any state transportation route or facility. Similarly, local or quasi-local entities that retain the power to impose tolls may do so as long as the effect of those tolls on the state highway system is consistent with the policy guidelines detailed in chapter 122, Laws of 2008. If the imposition of tolls could have an impact on state facilities, the state tolling authority must review and approve such tolls. [2008 c 122 § 1.]

47.56.810 Definitions. The definitions in this section apply throughout this subchapter unless the context clearly requires otherwise:

(1) "Tolling authority" means the governing body that is legally empowered to review and adjust toll rates. Unless otherwise delegated, the transportation commission is the tolling authority for all state highways.

(2) "Eligible toll facility" or "eligible toll facilities" means portions of the state highway system specifically identified by the legislature including, but not limited to, transportation corridors, bridges, crossings, interchanges, on-ramps, off-ramps, approaches, bistate facilities, and interconnections between highways.

(3) "Toll revenue" or "revenue from an eligible toll facility" means toll receipts, all interest income derived from the investment of toll receipts, and any gifts, grants, or other funds received for the benefit of the eligible toll facility. [2008 c 122 § 3.]

47.56.820 Imposition of tolls on eligible toll facilities—Who may authorize, revenue expenditures. (1) Unless otherwise delegated, only the legislature may authorize the imposition of tolls on eligible toll facilities.

(2) All revenue from an eligible toll facility must be used only to construct, improve, preserve, maintain, manage, or operate the eligible toll facility on or in which the revenue is collected. Expenditures of toll revenues are subject to appropriation and must be made only:

(a) To cover the operating costs of the eligible toll facility, including necessary maintenance, preservation, administration, and toll enforcement by public law enforcement within the boundaries of the facility;

(b) To meet obligations for the repayment of debt and interest on the eligible toll facilities, and any other associated financing costs including, but not limited to, required reserves and insurance;

(c) To meet any other obligations to provide funding contributions for any projects or operations on the eligible toll facilities;

(d) To provide for the operations of conveyances of people or goods; or

(e) For any other improvements to the eligible toll facilities. [2008 c 122 § 4.]

47.56.830 Policy guidelines for eligible toll facility proposals. Any proposal for the establishment of eligible toll facilities shall consider the following policy guidelines:

(1) Overall direction. Washington should use tolling to encourage effective use of the transportation system and provide a source of transportation funding.

(2) When to use tolling. Tolling should be used when it can be demonstrated to contribute a significant portion of the cost of a project that cannot be funded solely with existing sources or optimize the performance of the transportation system. Such tolling should, in all cases, be fairly and equitably applied in the context of the statewide transportation system and not have significant adverse impacts through the diversion of traffic to other routes that cannot otherwise be reasonably mitigated. Such tolling should also consider relevant social equity, environmental, and economic issues, and should be directed at making progress toward the state's greenhouse gas reduction goals.

(3) Use of toll revenue. All revenue from an eligible toll facility must be used only to improve, preserve, manage, or operate the eligible toll facility on or in which the revenue is collected. Additionally, toll revenue should provide for and encourage the inclusion of recycled and reclaimed construction materials.

(4) Setting toll rates. Toll rates, which may include variable pricing, must be set to meet anticipated funding obligations. To the extent possible, the toll rates should be set to optimize system performance, recognizing necessary trade-offs to generate revenue.

(5) Duration of toll collection. Because transportation infrastructure projects have costs and benefits that extend well beyond those paid for by initial construction funding, tolls on future toll facilities may remain in place to fund additional capacity, capital rehabilitation, maintenance, management, and operations, and to optimize performance of the system. [2008 c 122 § 5.]

47.56.840 Tolling advisory committee. (1) A tolling advisory committee may be created at the direction of the tolling authority for any eligible toll facilities. The tolling authority shall appoint nine members to the committee, all of whom must be permanent residents of the affected project area as defined for each project. Members of the committee shall serve without receiving compensation.

(2) The tolling advisory committee shall serve in an advisory capacity to the tolling authority on all matters related to the imposition of tolls including, but not limited to: (a) The feasibility of providing discounts; (b) the trade-off of lower tolls versus the early retirement of debt; and (c) consideration of variable or time of day pricing.

(3) In setting toll rates, the tolling authority shall consider recommendations of the tolling advisory committee. [2008 c 122 § 6.]

47.56.850 Transportation commission as state tolling authority—Toll rates. (1) Unless these powers are otherwise delegated by the legislature, the transportation commission is the tolling authority for the state. The tolling authority shall:

(a) Set toll rates, establish appropriate exemptions, if any, and make adjustments as conditions warrant on eligible toll facilities;

(b) Review toll collection policies, toll operations policies, and toll revenue expenditures on the eligible toll facilities and report annually on this review to the legislature.

(2) The tolling authority, in determining toll rates, shall consider the policy guidelines established in RCW 47.56.830.

(3) Unless otherwise directed by the legislature, in setting and periodically adjusting toll rates, the tolling authority must ensure that toll rates will generate revenue sufficient to:

(a) Meet the operating costs of the eligible toll facilities, including necessary maintenance, preservation, administration, and toll enforcement by public law enforcement;

(b) Meet obligations for the repayment of debt and interest on the eligible toll facilities, and any other associated financing costs including, but not limited to, required reserves, minimum debt coverage or other appropriate contingency funding, and insurance; and

(c) Meet any other obligations of the tolling authority to provide its proportionate share of funding contributions for any projects or operations of the eligible toll facilities.

(4) The established toll rates may include variable pricing, and should be set to optimize system performance, recognizing necessary trade-offs to generate revenue for the purposes specified in subsection (3) of this section. Tolls may vary for type of vehicle, time of day, traffic conditions, or other factors designed to improve performance of the system. [2008 c 122 § 7.]

47.56.860 Application. This subchapter applies only to all state toll bridges and other state toll facilities, excluding the Washington state ferries, first authorized within this state after July 1, 2008. [2008 c 122 § 2.]

Bridges over navigable waters: RCW 79.110.110 through 79.110.140.

47.58.010 Improvement of existing bridge and construction of new bridge as single project—Agreement—Tolls. Whenever the legislature specifically authorizes, as a single project, the construction of an additional toll bridge, including approaches, and the reconstruction of an existing adjacent bridge, including approaches, and the imposition of tolls on both bridges, the department is authorized to enter into appropriate agreements whereunder the existing bridge or its approaches will be reconstructed and improved and an

additional bridge, including approaches and connecting highways will be constructed as a part of the same project to be located adjacent to or within two miles of the existing bridge and will be financed through the issuance of revenue bonds of the same series. The department has the right to impose tolls for traffic over the existing bridge as well as the additional bridge for the purpose of paying the cost of operation and maintenance of the bridge or bridges and the interest on and creating a sinking fund for retirement of revenue bonds issued for account of such project, all in the manner permitted and provided by this chapter. [1984 c 7 § 288; 1961 c 13 § 47.58.010. Prior: 1955 c 208 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.020 Examinations and surveys—Preliminary expenses—Financing. For the purpose of obtaining information as to the necessity of the reconstruction or improvement of any such bridge and the expediency of constructing any such additional bridge it is the duty of the department to make any examination, investigation, survey, or reconnaissance pertaining thereto. The cost of any such examination, investigation, survey, or reconnaissance, and all preliminary expenses in the issuance of any revenue bonds, making surveys and appraisals and drafting, printing, issuance, and sale of bonds under this chapter, shall be advanced by any interested municipality, agency, or department of the state of Washington. All such advancements shall be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived by the department through its operations hereunder for account of the project, as may be agreed upon between the department and the municipality, agency, or department. [1984 c 7 § 289; 1961 c 13 § 47.58.020. Prior: 1955 c 208 § 2.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.030 Construction, operation of bridges—Collection of tolls—Schedule of charges. Except as otherwise provided in RCW 47.56.850, the secretary shall have full charge of the construction of all such improvements and reconstruction work and the construction of any additional bridge, including approaches and connecting highways, that may be authorized under this chapter and the operation of such bridge or bridges, as well as the collection of tolls and other charges for services and facilities thereby afforded. The schedule of charges for the services and facilities shall be fixed and revised from time to time by the commission so that the tolls and revenues collected will yield annual revenue and income sufficient, after payment or allowance for all operating, maintenance, and repair expenses, to pay the interest on all revenue bonds outstanding under the provisions of this chapter for account of the project and to create a sinking fund for the retirement of the revenue bonds at or prior to maturity. The charges shall be continued until all such bonds and interest thereon and unpaid advancements, if any, have been paid. [2008 c 122 § 19; 1984 c 7 § 290; 1961 c 13 § 47.58.030. Prior: 1955 c 208 § 3.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.040 Revenue bonds—Form—Sale—Interim bonds—Deposit of proceeds. For the purpose of paying the

(2008 Ed.)

cost of all or any part of the improvement and reconstruction work and the construction of any additional bridge, approaches thereto, and connecting highways, the department is hereby authorized by resolution to issue its revenue bonds which shall constitute obligations only of the department and shall be payable from any funds available except revenue from the general fund, including but not limited to the revenues and income from the operation of the bridge or bridges constituting the project as may be provided in and by such resolution. Each such revenue bond shall contain a recital that payment or redemption of the bond and payment of the interest thereon is secured by a direct charge and lien upon the tolls and revenues pledged for that purpose and that such bond does not constitute an indebtedness of the state of Washington. Such revenue bonds may bear such date or dates, may mature at such time or times as the department shall determine, may bear interest at such rate or rates, may be in such denomination or denominations, may be in such form, either coupon or registered, may carry such registration and conversion privileges, may be made subject to such terms of redemption with or without premium, and may contain such other terms and covenants not inconsistent with this chapter as may be provided in such resolution. Notwithstanding the form or tenor of the bond, and in the absence of an express recital on its face that the bond is nonnegotiable, each such revenue bond shall at all times be and shall be treated as a negotiable instrument for all purposes. All such bonds shall be signed by the state treasurer and countersigned by the governor, and any interest coupons appertaining thereto shall bear the signature of the state treasurer. The countersignature of the governor on the bonds and the signature of the state treasurer on the coupons may be their printed or lithographed facsimile signatures. Pending the issuance of definitive bonds, temporary or interim bonds, certificates, or receipts of any denomination and with or without coupons attached may be issued as may be provided by the resolution. All bonds issued under or by authority of this chapter shall be sold to the highest and best bidder at such price or prices, at such rate or rates of interest, and after such advertising for bids as the department may deem proper, but it may reject any and all bids so submitted and thereafter sell the bonds so advertised under such terms and conditions as it deems advantageous. The purchase price of all bonds issued hereunder shall be paid to the state treasurer consistent with the provisions of the resolution pursuant to which the bonds have been issued or to the trustee designated in the bond resolution and held as a separate trust fund to be disbursed on the orders of the department. [1984 c 7 § 291; 1973 c 106 § 27; 1970 ex.s. c 56 § 64; 1969 ex.s. c 232 § 78; 1961 c 102 § 1; 1961 c 13 § 47.58.040. Prior: 1955 c 208 § 4.]

Purpose—1970 ex.s. c 56: See note following RCW 39.52.020.

Validation—Saving—Severability—1969 ex.s. c 232: See notes following RCW 39.52.020.

47.58.050 Revenue bonds—Expenses includable—Conditions—Remedies of bondholders. In determining the amount of bonds required to be issued, there may be included any expenses incurred or approved by the department in connection with and incidental to the issuance and sale of bonds and for the preparation of surveys and estimates and making

inspections and examinations, required reserves, if any, interest during the estimated construction period and for six months thereafter, and a reasonable amount for initial operating expenses and prepaid insurance. The department is hereby empowered to include in any resolution authorizing the issuance of the bonds such covenants, stipulations, and conditions as it deems necessary with respect to the continued use and application of the revenues and income from the bridge or bridges. The holder of any bond or the trustee for any bonds designated by resolution may by mandamus or other appropriate proceeding compel performance of any duties imposed upon any state department, official, or employee, including any duties imposed upon or undertaken by the department or its officers, agents, and employees in connection with any improvement or reconstruction work on any existing bridge, the construction of any additional bridge, including approaches and connecting highways provided to be so constructed, the maintenance and operation of the bridge or bridges and in connection with the collection, deposit, investment, application, and disbursement of the proceeds of the bonds and the revenues and income derived from the operation of the bridge or bridges. [1984 c 7 § 292; 1961 c 13 § 47.58.050. Prior: 1955 c 208 § 5.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.060 Bond resolution—Disposition of income and revenues. Each resolution providing for the issuance of revenue bonds shall provide for setting aside the necessary amounts for the reasonable and proper operation, maintenance, and repair expenses, and shall fix and determine the amounts to be set apart and applied to the payment of the interest on and retirement of the revenue bonds. All income and revenues as collected shall be paid to the state treasurer for the account of the department as a separate trust fund to be segregated and set apart for the payment of the revenue bonds, or may be remitted to and held by a designated trustee in such manner and with such collateral as may be provided in the resolution authorizing the issuance of the bonds. [1984 c 7 § 293; 1961 c 13 § 47.58.060. Prior: 1955 c 208 § 6.]

[1981 c 3 § 39; 1961 c 13 § 47.58.070. Prior: 1955 c 208 § 7.]

Effective dates—Severability—1981 c 3: See notes following RCW 43.33A.010.

47.58.080 Eminent domain. The department is hereby authorized and empowered to acquire in the name of the state by the exercise of the power of eminent domain any lands, property, rights, rights-of-way, franchises, easements, and other property of any person, firm, corporation, political subdivision, or other owner, deemed necessary or convenient for the construction, reconstruction, improvement, and operation of any project initiated and carried on by the department under this chapter. The proceedings shall be in accordance with and subject to the provisions of any and all laws applica-

ble to the exercise of the power of eminent domain by the state. [1984 c 7 § 294; 1961 c 13 § 47.58.080. Prior: 1955 c 208 § 8.]

47.58.090 Study of projects—Specific authorization of construction and finance. Under the provisions of this chapter, projects other than those specifically authorized herein involving existing bridges may be studied and analyzed by the department, and recommendations therefor may be submitted to the legislature, but such other projects shall not be financed or constructed by the department under the provisions of this chapter until further specific authorization therefor has been provided by the legislature. [1984 c 7 § 295; 1961 c 13 § 47.58.090. Prior: 1955 c 208 § 11.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.58.900 Chapter provides additional method. This chapter shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers existing on June 8, 1955. 47.60.005 Definitions. The definitions in this section apply throughout this chapter unless the context clearly requires otherwise.

(1) "Adaptive management" means a systematic process for continually improving management policies and practices by learning from the outcomes of operational programs.

(2) "Capital plan" means the state ferry system plan developed by the department as described in RCW 47.06.050(2), reviewed by the commission, and reported to the transportation committees of the legislature by the commission.

(3) "Capital project" has the same meaning as used in budget instructions developed by the office of financial management.

(4) "Commission" means the transportation commission created in RCW 47.01.051.

(5) "Improvement project" has the same meaning as in the budget instructions developed by the office of financial management. If the budget instructions do not define improvement project, then it has the same meaning as "program project" in the budget instructions. If a project meets both the improvement project and preservation project definitions in this section it must be defined as an improvement project. New vessel acquisitions must be defined as improvement projects.

(6) "Life-cycle cost model" means that portion of a capital asset inventory system which, among other things, is used to estimate future preservation needs.

(7) "Maintenance cost" has the same meaning as used in budget instructions developed by the office of financial management.

(8) "Preservation project" has the same meaning as used in budget instructions developed by the office of financial management.

(9) "Route" means all ferry sailings from one location to another, such as the Seattle to Bainbridge route or the Port Townsend to Keystone route.

(10) "Sailing" means an individual ferry sailing for a specific route, such as the 5:00 p.m. sailing from Seattle to Bremerton.

(11) "Travel shed" means one or more ferry routes with distinct characteristics as determined by the department. [2008 c 124 § 1; 2007 c 512 § 3.]

Finding—Intent—2007 c 512: See note following RCW 47.06.140.

47.60.010 Ferry system, toll bridges, and facilities authorized—Power to contract, sell, and lease back. The department is authorized to acquire by lease, charter, contract, purchase, condemnation, or construction, and partly by any or all of such means, and to thereafter operate, improve, and extend, a system of ferries on and crossing Puget Sound and any of its tributary waters and connections thereof, and connecting with the public streets and highways in the state. The system of ferries shall include such boats, vessels, wharves, docks, approaches, landings, franchises, licenses, and appurtenances as shall be determined by the department to be necessary or desirable for efficient operation of the ferry system and best serve the public. Subject to RCW 47.56.820, the department may in like manner acquire by purchase, condemnation, or construction and include in the ferry system such toll bridges, approaches, and connecting roadways as may be deemed by the department advantageous in channeling traffic to points served by the ferry system. In addition to the powers of acquisition granted by this section, the department is empowered to enter into any contracts, agreements, or leases with any person, firm, or corporation and to thereby provide, on such terms and conditions as it shall determine, for the operation of any ferry or ferries or system thereof, whether acquired by the department or not.

The authority of the department to sell and lease back any state ferry, for federal tax purposes only, as authorized by 26 U.S.C., Sec. 168(f)(8) is confirmed. Legal title and all incidents of legal title to any ferry sold and leased back (except for the federal tax benefits attributable to the ownership thereof) shall remain in the state of Washington. 47.60.013 Emergency powers of governor to insure continued operation of ferry and toll bridge system—Cost reimbursement. The governor is authorized to take such actions as may be necessary to insure the continued operation of the Puget Sound ferry and toll bridge system under any emergency circumstances which threaten the continued operation of the system. In the event of such an emergency, the governor may assume all the powers granted by law to the transportation commission and department of transportation with respect to the ferry system. In addition, notwithstanding the provisions of chapters 47.60 and 47.64 RCW, the governor may contract with any qualified persons for the operation of the Washington state ferry system, or any part thereof, or for ferry service to be provided by privately owned vessels.

[Title 47 RCW—page 190]

Administrative costs to the office of the governor incurred in the exercise of this authority shall be reimbursed by the department. [1981 c 341 § 1.]

For the purpose of carrying out any or all of the powers granted in this chapter, the department has the power of eminent domain for the acquisition of either real or personal property, used or useful for the Puget Sound ferry system. Condemnation pursuant to this chapter shall be the procedure set out in chapter 8.04 RCW. The department may institute condemnation proceedings in the superior court of any county or other court of competent jurisdiction in which any of the property sought to be condemned is located or in which the owner of any thereof does business, and the court in any such action has jurisdiction to condemn property wherever located within the state. It shall not be necessary to allege or prove any offer to purchase or inability to agree with the owners thereof for the purchase of any such property in the proceedings. It is the intention of this section to permit the consolidation in one action of all condemnation proceedings necessary to acquire a ferry system and every type of property incident thereto, irrespective of its location within the state or diversity of ownership. Upon the filing of a petition for condemnation as provided in this section, the court may issue an order restraining the removal from the jurisdiction of the state of any personal property sought to be acquired by the proceeding during the pendency thereof. The court further has the power to issue such orders or process as are necessary to place the department into possession of any property condemned. [1984 c 7 § 298; 1961 c 13 § 47.60.020. However, this section shall not be con-

The cost of any such examination, investigation, survey, or reconnaissance, and all preliminary expenses leading up to and resulting in the issuance of any revenue bonds including, but not being limited to expenses in making surveys and appraisals and the drafting, printing, issuance, and sale of bonds under this chapter shall be borne by the department out of the motor vehicle fund. Notwithstanding the form or tenor thereof, and in the absence of an express recital on the face thereof that the bond is nonnegotiable, each such revenue bond shall at all times be and shall be treated as a negotiable instrument for all purposes. All such bonds shall be signed by the state treasurer and countersigned by the governor, and any interest coupons appertaining thereto shall bear the signature of the state treasurer. The countersignature of the governor on the bonds and the signature of the state treasurer on the coupons may be their printed or lithographed facsimile signatures.

However, the department may reject any and all bids so submitted and thereafter sell such bonds so advertised under such terms and conditions as it deems most advantageous to its own interests. The purchase price of all bonds issued under this chapter shall be paid to the state treasurer consistent with the provisions of the resolution pursuant to which the bonds have been issued or to the trustee designated in the bond resolution and held as a separate trust fund to be disbursed on the orders of the department. Refunding bonds may be issued hereunder in a sufficient amount to provide additional funds for acquiring, constructing, reconstructing, rehabilitating, rebuilding, enlarging, or improving any toll bridge, toll road, toll tunnel, ferry system, or any other toll facility of any sort, and to pay all refunding costs and expenses and to provide adequate reserves for the toll facility and for any such refunding bonds. Various issues and series of such outstanding bonds, including refunding bonds, may be combined and refunded by a single issue of refunding bonds. The refunding bonds shall bear interest at such rates and mature at such times, without limitation by the interest rates or maturity of the bonds being refunded, and shall contain such other covenants and conditions as the department determines by resolution. (2) The ten-mile distance in subsection (1) of this section means ten statute miles measured by airline distance. The ten-mile restriction shall be applied by comparing the two end points (termini) of a state ferry crossing to those of a private ferry crossing.

(3) The Washington utilities and transportation commission may, upon written petition of a commercial ferry operator certificated or applying for certification under chapter 81.84 RCW, and upon notice and hearing, grant a waiver from the ten-mile restriction. The waiver must not be detrimental to the public interest. In making a decision to waive the ten-mile restriction, the commission shall consider, but is not limited to, the impact of the waiver on transportation congestion mitigation, air quality improvement, and the overall impact on the Washington state ferry system. The commission shall act upon a request for a waiver within ninety days after the conclusion of the hearing. A waiver is effective for a period of five years from the date of issuance. At the end of five years the waiver becomes permanent unless appealed within thirty days by the commission on its own motion, the department, or an interested party.

(4) The department shall not maintain and operate any ferry crossing or toll bridge over Puget Sound or any of its tributary or connecting waters that would infringe upon any franchise lawfully issued by the state and in existence and being exercised at the time of the location of the ferry crossing or toll bridge by the department, without first acquiring the rights granted to such franchise holder under the franchise.

For the purpose of paying the cost of acquiring, constructing, or reconstructing ferries or ferry terminal facilities, and all costs which may be incurred in connection therewith, the department is authorized to issue interim revenue warrants, which shall constitute obligations only of the department, and which shall not be obligations of the state of Washington. Such warrants shall be payable solely out of part or all of the revenues derived from the operation of the Puget Sound ferry system as shall be provided in the resolution authorizing their issuance, and shall be drawn upon, and the principal thereof and interest thereon shall be payable out of, such fund or funds as shall be created in and provided by the resolution. 47.60.130 Unit or combined operation—Continuous project—Rental, charter, lease of system property—Sale of unneeded property. Such ferry system, including any toll bridges, approaches, and roadways incidental thereto, may be financed and operated in combination or separately as one or more units as the department of transportation may determine, and such ferry system together with any toll bridge hereafter constructed by the department upon or across the waters of Puget Sound or Hood Canal, or any part of either, replacing one or more presently operated ferry routes, is declared to be a continuous project within the meaning of *RCW 47.56.070. The department is empowered to rent, lease, or charter any property acquired under this chapter. If the department determines that any real property (including lands, improvements thereon, and any interests or estates) originally acquired for the ferry system is no longer required for the purposes of the ferry system, the department shall offer it for sale in the manner and with the authority authorized to the department by RCW 47.12.063 or 47.12.283. The secretary of transportation may adopt rules further implementing this section. The proceeds of all such sales shall be paid into the separate trust fund of the state treasury established pursuant to **RCW 47.60.150. 47.60.135 Charter of state ferries—Hazardous materials. (1) The charter use of Washington State Ferry vessels when established route operations and normal user requirements are not disrupted is permissible. In establishing chartering agreements, Washington State Ferries shall consider the special needs of local communities and interested parties. Washington State Ferries shall use sound business judgment and be sensitive to the interests of existing private enterprises.

(2) Consistent with the policy as established in subsection (1) of this section, the chief executive officer of the Washington State Ferries may approve agreements for the chartering of Washington State Ferry vessels to groups or individuals, including hazardous material transporters, in accordance with the following:

(a) Vessels may be committed to charter only when established route operation and normal user requirements are not disrupted or inconvenienced. If a vessel is engaged in the transport of hazardous materials, the transporter shall pay for all legs necessary to complete the charter, even if the vessel is

simultaneously engaged in an operational voyage on behalf of Washington State Ferries.

(b) Charter rates for vessels must be established at actual vessel operating costs plus a market-rate profit margin. Actual vessel operating costs include, but are not limited to, all labor, fuel, and vessel maintenance costs incurred due to the charter agreement, including deadheading and standby.

(c) Parties chartering Washington State Ferry vessels shall comply with all applicable laws, rules, and regulations during the charter voyage, and failure to so comply is cause for immediate termination of the charter voyage. [2003 c 374 § 1; 1997 c 323 § 2.]

Finding—1997 c 323: "The legislature finds that when established route operations and normal user requirements are not disrupted Washington state ferries may be used for the transportation of hazardous materials under the chartering procedures and rates described in RCW 47.60.135." [1997 c 323 § 1.]

47.60.140 System as self-liquidating undertaking—Powers of department—Concessions. (1) The department is empowered to operate such ferry system, including all operations, whether intrastate or international, upon any route or routes, and toll bridges as a revenue-producing and self-liquidating undertaking. The department has full charge of the construction, rehabilitation, rebuilding, enlarging, improving, operation, and maintenance of the ferry system, including toll bridges, approaches, and roadways incidental thereto that may be authorized by the department, including the collection of tolls and other charges for the services and facilities of the undertaking. The department has the exclusive right to enter into leases and contracts for use and occupancy by other parties of the concessions and space located on the ferries, wharves, docks, approaches, parking lots, and landings, including the selling of commercial advertising space and licenses to use the Washington State Ferries trademarks, but, except as provided in subsection (2) of this section, no such leases or contracts may be entered into for more than ten years, nor without a competitive contract process, except as otherwise provided in this section. The competitive process shall be either an invitation for bids in accordance with the process established by chapter 43.19 RCW, or a request for proposals in accordance with the process established by RCW 47.56.030. All revenues from commercial advertising, concessions, parking, leases, and contracts must be deposited in the Puget Sound ferry operations account in accordance with *RCW 47.60.150.

(2) As part of a joint development agreement under which a public or private developer constructs or installs improvements on ferry system property, the department may lease all or part of such property and improvements to such developers for that period of time, not to exceed fifty-five years, or not to exceed thirty years for those areas located within harbor areas, which the department determines is necessary to allow the developer to make reasonable recovery on its initial investment. Any lease entered into as provided for in this subsection that involves state aquatic lands shall conform with the Washington state Constitution and applicable statutory requirements as determined by the department of natural resources. That portion of the lease rate attributable to the state aquatic lands shall be distributed in the same man-

ner as other lease revenues derived from state aquatic lands as provided in **RCW 79.24.580.

(3) The department shall include in the strategic planning and performance assessment process, as required by RCW 43.88.090, an analysis of the compatibility of public and private partnerships with the state ferry system's core business, and the department's efforts to maximize nonfarebox revenues and provide benefit to the public users of the ferry system facilities. The department shall include an assessment of the need for an open solicitation to identify and select possible public or private partnerships in order to maximize the value of projects and the state's investment in current and future ferry system operations.

(b) Any responses to the request for proposal shall be evaluated, at a minimum, on the basis of compatibility with the state ferry system's core business, potential to maximize nonfarebox revenue, longevity of the possible partnership commitment, and benefit to the public users of the ferry system facilities.

(c) If no responses are received, or those that are received are incompatible with ferry system operations, or do not meet the criteria stated in (b) of this subsection, the state ferry system may proceed with state ferry system operating strategies designed to achieve state ferry system objectives without established partnerships. 47.60.500 Acquisition of additional ferries—Legislative finding—Department authority. (1) The legislature finds that the state's ferry fleet available for mass transportation of people within the urban region of Puget Sound is critically deficient and that substantial financial assistance for the acquisition of new ferries is necessary if the Washington state ferries is to continue to fulfill its role in the Puget Sound regional urban transportation system.

(2) The department is authorized:

(a) To apply to the United States secretary of transportation for a financial grant to assist the state to acquire urgently needed ferries;

(b) To enter into an agreement with the United States secretary of transportation or other duly authorized federal officials and to assent to such conditions as may be necessary to obtain financial assistance for the acquisition of additional ferries. In connection with the agreement the department may pledge any moneys in the Puget Sound capital construction account, not required for debt service, in the motor vehicle fund or any moneys to be deposited in the account for the purpose of paying the state's share of the cost of acquiring ferries. To the extent of the pledge the department shall use the moneys available in the Puget Sound capital construction account to meet the obligations as they arise. The department may further pledge moneys in the Puget Sound capital construction account to meet any sinking fund requirements or reserves established by the department with respect to any bond issues provided for in this section.

(4) The treasurer shall never transfer any moneys from the Puget Sound capital construction account for use by the department for state highway purposes so long as there is due and unpaid any obligations for payment of principal, interest, sinking funds, or reserves as required by any pledge of the Puget Sound capital construction account. Whenever the department has pledged any moneys in the account for the purposes authorized in this section, the state agrees to continue to deposit in the Puget Sound capital construction account the motor vehicle fuel taxes and special fuel taxes as provided in RCW 82.36.020 and 82.38.290 and further agrees that, so long as there exists any outstanding obligations pursuant to such pledge, to continue to impose such taxes.

(1) Whenever a county, city, or other municipal corporation acquires or constructs a facility to be used in whole or in part for off-street parking of motor vehicles which is in the immediate vicinity of an existing or planned ferry terminal, the department may enter into an agreement with the local governmental body providing for the use in part or at specified times of the facility as a holding area for traffic waiting to board a ferry or for parking by ferry patrons.

(2) As a part of an agreement authorized by subsection (1) of this section, the department, subject to the limitations contained in RCW 47.60.505, may pledge any moneys in the Puget Sound capital construction account in the motor vehicle fund, or to be deposited in the account, to guarantee the payment of principal and interest on bonds issued by a county, city, or other municipal corporation to finance the acquisition or construction of the parking facility. In making the pledge, the department shall reserve the right to issue its own bonds for the purpose of paying the costs of acquiring ferry vessels with the provision that the bonds shall rank on parity with the bonds authorized by this section as a lien upon moneys in or to be deposited in the Puget Sound capital construction account.

The department shall also reserve the right to pledge moneys in the Puget Sound capital construction account to guarantee subsequent bonds issued by any county, city, or other municipal corporation to finance parking facilities as authorized in subsection (1) of this section with the provision that the subsequent bonds shall rank on parity with prior bonds guaranteed pursuant to this section as a lien upon moneys in or to be deposited in the Puget Sound capital construction account. In order to provide funds necessary for vessel acquisition, vessel construction, major and minor vessel improvements, and terminal construction and improvements for the Washington state ferries, there shall be issued and sold upon the request of the department general obligation bonds of the state of Washington in the sum of one hundred thirty-five million dollars or such amount thereof as may be required (together with other funds available therefor). If the state of Washington is able to obtain matching funds from the urban mass transportation administration or other federal government agencies for the acquisition of passenger-only vessels capable of operating as an integral part of the Washington state ferries on Puget Sound and the Straits of Juan de Fuca, a sufficient amount of the proceeds of the bonds authorized herein shall be used to pay the state's share of the acquisition cost of the passenger-only vessels. Upon request being made by the department, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds in accordance with chapter 39.42 RCW. The bonds may be sold from time to time in such amounts as may be necessary for the orderly progress in constructing the ferries. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. Promissory notes or other obligations issued under this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle and special fuels of the motor vehicle fund to the ferry bond retirement fund hereby created in the state treasury, which funds shall be available solely for payment of the principal of and interest on the bonds when due. If in any month it shall appear that the estimated percentage of moneys so made is insufficient to meet the requirements for payment of the principal thereof or interest thereon, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for the interest on and principal of all bonds issued shall be fully met at all times. 47.60.649 Passenger-only ferry service—Finding. The legislature finds and declares that there is a compelling need for the construction of additional state ferry vessels and corresponding terminal improvements in order to provide more capacity and frequent service to meet the forecasted travel demands of citizens traveling on Puget Sound ferry routes. The vessel technology required must provide additional travel options for high growth ferry routes through increased passenger-only ferry service.

The 1989 west corridor study evaluated cross-sound travel through the year 2020 and identified the Southworth to Seattle and the Kingston to Seattle passenger-only ferry routes as promising based on criteria evaluating cost-effectiveness, time savings, physical constraints to operation, non-

duplication of current service, and ability to relieve congestion.

Furthermore, as a result of legislative direction provided in the 1991-93 transportation budget to the state transportation commission to evaluate and determine the location of new passenger-only ferry routes, the commission reviewed several service alternatives, determined that the Southworth to Seattle and Kingston to Seattle routes ranked highest, and directed the Washington state ferries to proceed with the design and permitting processes for passenger-only terminals at both Southworth and Kingston. [1998 c 166 § 1.]

47.60.652 Passenger-only ferry service—Vessel and terminal acquisition, procurement, and construction. The department is authorized to proceed with the acquisition, procurement, and construction of a maximum of four passenger-only vessels that respond to the service demands of state ferry service on the Southworth to Seattle and Kingston to Seattle ferry routes, including the terminal and docking facilities necessary to accommodate such service. The acquisition, procurement, and construction of vessels and terminals authorized herein shall be undertaken in accordance with the authority provided in RCW 47.56.030. [1998 c 166 § 2.]

47.60.654 Passenger-only ferry service—Contingency. The department's authority to proceed with the acquisition, procurement, and construction of vessels and terminals authorized under RCW 47.60.652 is contingent on a legislative appropriation approving that authority: PROVIDED, That the appropriation does not reduce the current level of funding for the maintenance and repair of vessels and terminals in service as of June 11, 1998. [1998 c 166 § 3.]

Reviser's note: Cf. 1998 c 346 § 913.

47.60.656 Passenger-only ferry service—Conveyance of vessels authorized. The department of transportation may enter into contracts with public transportation benefit areas meeting the requirements of RCW 36.57A.200 or county ferry districts to convey passenger-only ferry vessels and other properties associated with passenger-only ferry service that serve to provide passenger-only ferry service, as full or part consideration for the benefit area or ferry district assuming all future maintenance and operation obligations and costs required to maintain and operate the vessel and facilities. The conveyances must provide that the vessels or properties revert to the department if the vessels are not used for providing passenger-only ferry service. [2003 c 83 § 203.]

Reviser's note: 2003 c 83 directed that this section be added to chapter 47.52 RCW. However, codification in chapter 47.60 RCW appears to be more appropriate.

47.60.658 Passenger-only ferry service between Vashon and Seattle. The department shall maintain the level of service existing on January 1, 2006, for the Vashon to Seattle passenger-only ferry route until such time as the route is assumed by another entity, providing a level of service at or exceeding the state level. [2007 c 223 § 8; 2006 c 332 § 3.]

Effective date—2007 c 223: See note following RCW 36.57A.220.

47.60.662 Ferry system collaboration with passenger-only ferry service providers. The Washington state ferry system shall collaborate with new and potential passenger-only ferry service providers, as described in chapters 36.54, 36.57A, and 53.08 RCW, for terminal operations at its existing terminal facilities. [2008 c 45 § 3; 2007 c 223 § 3; 2006 c 332 § 5.]

Effective date—2007 c 223: See note following RCW 36.57A.220.

47.60.680 Prequalification of contractors required. No contract for the construction, improvement, or repair of a ferry, ferry terminal, or other facility operated by the Washington state ferries or for the repair, overhaul, or the dry-docking of any ferry operated by Washington state ferries may be awarded to any contractor who has not first been prequalified to perform the work by the department of transportation. No bid or proposal for such a contract may be received from any contractor who has not first been prequalified to perform the work by the department of transportation. [1983 c 133 § 1.]

47.60.690 Qualifications of contractor—Rules to assure. The secretary of transportation shall adopt rules prescribing standards and criteria to assure that each ferry system construction and repair contract described in RCW 47.60.680 shall be awarded to a competent and responsible contractor who has all of the following qualifications:

- (1) Adequate financial resources, which may take into account the ability of the contractor to secure such resources;
- (2) The necessary organization, personnel, equipment, facilities, experience, and technical qualification[s] to perform ferry system construction and repair contracts generally and with respect to any specific contract such additional special qualifications as may be necessary to perform the contract;
- (3) The ability to comply with the department's performance schedules taking into account the outstanding work on all of the contractor's construction and repair contracts;
- (4) A satisfactory record of performing previous contracts;
- (5) A satisfactory record of integrity, judgment, and skills; and
- (6) Such other qualifications as the secretary may prescribe to assure that prequalified contractors are competent and responsible. [1983 c 133 § 2.]

47.60.700 Application for prequalification—Form. Any contractor desiring to submit bids or proposals for ferry system construction or repair contracts as described in RCW 47.60.680 shall file an application for prequalification with the department. The application shall be on a standard form supplied by the department. The form shall require a complete statement of the applicant's financial ability, including a statement of the applicant's current net assets and working capital. The form shall require such additional information as may be necessary for the department to determine whether or not the applicant is entitled to be prequalified in accordance with RCW 47.60.680 through 47.60.760 and the rules adopted thereunder. [1983 c 133 § 3.]

47.60.710 Department authority to obtain information. Upon request by the department an applicant for prequalification shall authorize the department to obtain any information pertinent to the application, including information relating to the applicant's net worth, assets, and liabilities, from banks or other financial institutions, surety companies, and material and equipment suppliers. [1983 c 133 § 4.]

47.60.720 Additional investigation—Terms of prequalification—Notice of nonqualification. Upon receipt of an application by a contractor for prequalification to perform ferry system construction and repair contracts, the department shall conduct such additional investigation as it deems necessary. If it finds that the applicant is qualified in accordance with the rules as adopted by the secretary, the department shall prequalify the contractor to perform the contracts for a period of one year. The prequalification shall fix the aggregate dollar amount of work, including any contract let by the department, that the contractor may have under contract and uncompleted at any one time and may limit the contractor to the submission of bids or proposals upon a certain class of work. Subject to any restrictions on the dollar amount or class of work specified thereunder, the prequalification shall authorize a contractor to bid or submit proposals on all ferry system construction and repair contracts mentioned in RCW 47.60.680 except contracts requiring special prequalification. If the department determines that an applicant is not entitled to prequalification, it shall give written notice of the determination to the applicant. [1983 c 133 § 5.]

47.60.730 Renewal of prequalification—Nonrenewal or revocation, notice. A contractor may apply annually for renewal of its prequalification by submission of a new or supplemental questionnaire and financial statement on standard forms provided by the department. Based upon information received at the time of renewal or at any other time the department may amend the prequalification of the contractor as to the dollar amount or class of work that the contractor may perform or may refuse to renew the prequalification or may revoke a prequalification previously approved, all in accordance with the same standards and criteria used for considering an original application for prequalification. The department shall give written notice of any such action to the contractor. [1983 c 133 § 6.]

47.60.740 Rejection of bid despite prequalification—Unqualified bidder. If the department finds, after the opening of bids, that facts exist that would disqualify the lowest bidder, or that the lowest bidder is not competent or responsible in accordance with the standards and criteria for prequalifying contractors, the department shall reject the bid despite the prior prequalification of the bidder. No contract may be awarded to a bidder not qualified to bid on it at the time fixed for receiving bids. [1983 c 133 § 7.]

47.60.750 Appeal of refusal, modification, or revocation of prequalification. The action of the department in refusing, modifying, or revoking the prequalification of any contractor under RCW 47.60.680 through 47.60.740 is con-

clusive unless an appeal is filed with the Thurston county superior court within ten days after receiving written notice of the refusal, modification, or revocation. The appeal shall be heard summarily within twenty days after the appeal is taken and on five days notice thereof to the department. The court shall hear any such appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department was arbitrary or capricious. [1983 c 133 § 8.]

47.60.760 Financial information regarding qualify- ing not public. The department of transportation shall not be required to make available for public inspection and copying financial information supplied by any person, firm, or corporation for the purpose of qualifying to submit a bid or proposal for a ferry system construction or repair contract as required by RCW 47.60.680 through 47.60.750. [1983 c 133 § 9.]

47.60.770 Jumbo ferry construction—Notice. Whenever the department is authorized to construct one or more new jumbo ferry vessels under this chapter, it shall publish a notice of its intent once a week for at least two consecutive weeks in at least one trade paper and one other paper, both of general circulation in the state. The notice shall contain, but not be limited to, the following information:

- (1) The number of jumbo ferry vessels to be constructed and the proposed delivery date for each vessel;
- (2) A short summary of the requirements for prequalification of bidders including a statement that prequalification is a prerequisite to consideration by the department of any bid, and a statement that the bidder shall submit its bid for the vessel in compliance with the plans and specifications supplied by the state; and
- (3) An address and telephone number that may be used to obtain the bid package. [1993 c 493 § 1.]

Effective date—1993 c 493: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [May 18, 1993]." [1993 c 493 § 8.]

47.60.772 Jumbo ferry construction—Bidding documents. The department shall send to any firm that requests it bidding documents specifying the criteria for the jumbo ferry vessels. The bid documents shall include, but not be limited to, the following information:

- (1) Solicitation of a bid to deliver to the department vessels that are constructed as specified by the plans and specifications provided by the department;
- (2) A requirement that bids submitted should include one bid for the construction of three vessels;
- (3) The proposed delivery date for each vessel, the port on Puget Sound where delivery will be taken, and the location where acceptance sea trials will be held;
- (4) The amount and form of required contract security under RCW 39.08.100;
- (5) A copy of the vessel construction contract that will be signed by the successful bidder;
- (6) The date by which bids for ferry vessel construction must be received by the department in order to be considered;

(7) A requirement that the contractor comply with all applicable laws, rules, and regulations including, but not limited to those pertaining to the environment, worker health and safety, and prevailing wages;

(8) A requirement that the vessels be constructed within the boundaries of the state of Washington except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection. For the purposes of this section, "constructed" means: The fabrication, by the joining together by welding or fastening of all steel parts from which the total vessel is constructed, including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means the installation of all components and systems, including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint and joiner work, required by the contract. "Constructed" also means the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting;

(9) A requirement that all warranty work on the vessel be performed within the boundaries of the state of Washington, insofar as practicable;

(10) A statement that any bid submitted constitutes an offer and remains open until ninety days after the deadline for submitting bids, unless the firm submitting it withdraws it by formal written notice that is received by the department before the date and time specified for opening of the bids, together with an explanation of the requirement that all bids submitted be accompanied by a bid deposit in the amount of five percent of the bid amount; and

(11) A listing of all equipment to be furnished by the state. [1993 c 493 § 2.]

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.774 Jumbo ferry construction—Procedure on conclusion of evaluation. (1) Upon concluding its evaluation, the department may:

(a) Select the firm submitting the lowest responsible bid for the construction of new jumbo ferries, taking into consideration the requirements stated in the bid documents and rank the remaining firms, judging them by the same standards;

(b) Reject all bids not in compliance with the requirements contained in the bid documents;

(c) Reject all bids.

(2) The department shall immediately notify those firms that were not selected as the firm presenting the lowest responsible bid. The department's selection is conclusive unless appeal from it is taken by an aggrieved firm to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear any appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department was arbitrary or capricious. [1993 c 493 § 4.]

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.776 Jumbo ferry construction—Contract. (1) Upon selecting the firm that has submitted the lowest responsible bid for the construction of new jumbo ferries, and ranking the remaining firms in order of preference, the department shall:

(a) Sign a contract with the firm presenting the lowest responsible bid; or

(b) If a final agreement satisfactory to the department cannot be signed with the firm presenting the lowest responsible bid, the department may sign a contract with the firm ranked next lowest bidder. If necessary, the department may repeat this procedure with each firm in order until the list of firms has been exhausted, or reject all bids.

(2) In developing a contract for the construction of ferry vessels, the department may, subject to the provisions of *RCW 39.25.020, authorize the use of foreign-made materials and components, products, and systems that are standard manufactured items in the construction of ferries in order to minimize costs. [1993 c 493 § 5.]

***Reviser's note:** RCW 39.25.020 was repealed by 1994 c 138 § 2.

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.778 Jumbo ferry construction—Bid deposits—Low bidder claiming error. Bids submitted by firms under this section constitute an offer and shall remain open for ninety days. When submitted, each bid shall be accompanied by a deposit in cash, certified check, cashier's check, or surety bond in an amount equal to five percent of the bid amount, and no bid may be considered unless the deposit is enclosed. If the department awards a contract to a firm and the firm fails to enter into a contract or fails to furnish a satisfactory contract security as required by RCW 39.08.100, its deposit shall be forfeited to the state and be deposited by the state treasurer to the credit of the Puget Sound capital construction account. A low bidder who claims error and fails to enter into a contract is prohibited from bidding on the same project if a second or subsequent call for bids is made for the project. Upon the execution of a ferry construction contract for the construction of new jumbo ferries, all bid deposits shall be returned. [1996 c 18 § 9; 1993 c 493 § 6.]

Effective date—1993 c 493: See note following RCW 47.60.770.

47.60.780 Jumbo ferry construction—Propulsion system acquisition. (1) The department may enter into a contract for the acquisition of the propulsion system, or any component of it, including diesel engines and spare parts, for installation into one or more of the three Jumbo Class Mark II ferry vessels authorized under this chapter. This authorization does not limit the department from obtaining and installing the propulsion system, or any component of it, as incidental to the overall vessel construction contract authorized under RCW 47.60.770 through 47.60.778, nor from proceeding to complete an existing contract for acquisition of the propulsion system or any component of it.

(2) Acquisition of a propulsion system, or any component of it, for the Jumbo Class Mark II ferries by the department under this section is exempt from chapter 43.19 RCW.

(3) Whenever the department decides to enter into an acquisition contract under this section it shall publish a notice of its intent to negotiate such a contract once a week for at

least two consecutive weeks in one trade newspaper and one other newspaper, both of general circulation in the state. The notice must contain, but is not limited to, the following information:

(a) The identity of the propulsion system or components to be acquired and the proposed delivery dates for the propulsion system or components;

(b) An address and telephone number that may be used to obtain the request for proposal.

(4) The department shall send to any firm that requests it, a request for proposal outlining the design and construction requirements for the propulsion system, including any desired components. The request for proposal must include, but is not limited to, the following information:

(a) The proposed delivery date for each propulsion system or desired component and the location where delivery will be taken;

(b) The form and formula for contract security;

(c) A copy of the proposed contract;

(d) The date by which proposals must be received by the department in order to be considered; and

(e) A statement that any proposal submitted constitutes an offer and must remain open until ninety days after the deadline for submitting proposals, together with an explanation of the requirement that all proposals submitted must be accompanied by a deposit in the amount of five percent of the proposed cost.

(5) The department shall evaluate all timely proposals received for: (a) Compliance with the requirements specified in the request for proposal; and (b) suitability of each firm's proposal by applying appropriate criteria to be developed by the department: (i) To assess the ability of the firm to expeditiously and satisfactorily perform and (ii) to accomplish an acquisition that is most advantageous to the department. A portion of the technical requirements addressed in the request for proposal shall include, but is not limited to, user verifications of manufacturer's reliability claims; the quality of engine maintenance documentation; and engine compatibility with ship design.

(6) The criteria to select the most advantageous diesel engine under subsection (5)(b)(ii) shall consist of life-cycle cost factors weighted at forty-five percent; and operational factors weighted as follows: Reliability at twenty percent, maintainability at twenty percent, and engine performance at fifteen percent. For purposes of this subsection, the life-cycle cost factors shall consist of the costs for engine acquisition and warranty, spare parts acquisition and inventory, fuel efficiency and lubricating oil consumption, and commonality. The fuel efficiency and lubricating oil consumption life-cycle cost factors shall receive not less than twenty percent of the total evaluation weighting and shall be evaluated under a format similar to that employed in the 1992 M.V. Tyee engine replacement contract. The reliability factors shall consist of the length of service and reliability record in comparable uses, and mean time between overhauls. The mean time between overhauls evaluation shall be based upon the manufacturer's required hours between change of wear components. The maintainability factors shall consist of spare parts availability, the usual time anticipated to perform typical repair functions, and the quality of factory training programs for ferry system maintenance staff. The performance factors

(2008 Ed.)

shall consist of load change responsiveness, and air quality of exhaust and engine room emissions.

(7) Upon concluding its evaluation, the department shall:

(a) Select the firm presenting the proposal most advantageous to the department, taking into consideration compliance with the requirements stated in the request for proposal, and the criteria developed by the department, and rank the remaining firms in order of preference, judging them by the same standards; or

(b) Reject all proposals as not in compliance with the requirements contained in the request for proposals.

(8) The department shall immediately notify those firms that were not selected as the firm presenting the most advantageous proposal of the department's decision. The department's decision is conclusive unless an aggrieved firm appeals the decision to the superior court of Thurston county within five days after receiving notice of the department's final decision. The appeal shall be heard summarily within ten days after it is taken and on five days' notice to the department. The court shall hear the appeal on the administrative record that was before the department. The court may affirm the decision of the department, or it may reverse the decision if it determines the action of the department is arbitrary or capricious.

(9) Upon selecting the firm that has presented the most advantageous proposal and ranking the remaining firms in order of preference, the department shall:

(a) Negotiate a contract with the firm presenting the most advantageous proposal; or

(b) If a final agreement satisfactory to the department cannot be negotiated with the firm presenting the most advantageous proposal, the department may then negotiate with the firm ranked next highest in order of preference. If necessary, the department may repeat this procedure and negotiate with each firm in order of rank until the list of firms has been exhausted.

(10) Proposals submitted by firms under this section constitute an offer and must remain open for ninety days. When submitted, each proposal must be accompanied by a deposit in cash, certified check, cashier's check, or surety bond in the amount equal to five percent of the amount of the proposed contract price, and the department may not consider a proposal that has no deposit enclosed with it. If the department awards a contract to a firm under the procedure set forth in this section and the firm fails to enter into the contract and furnish the required contract security within twenty days, exclusive of the day of the award, its deposit shall be forfeited to the state and deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a contract all proposal deposits shall be returned. [1994 c 181 § 2.]

Finding and intent—1994 c 181: "The legislature finds and declares that:

A 1991 legislative study, conducted by Booz, Allen, Hamilton and M. Rosenblatt and Son, examining the Washington state ferries' management of its vessel refurbishment and construction program, resulted in recommendations for improvements and changes in the vessel refurbishment and construction program. These legislatively adopted recommendations encourage and support input by Washington state ferries' engineers in the development of refurbishment and new construction project requirements.

The recommendations of the Booz, Allen study have been applied to the construction of the Jumbo Class Mark II ferries through the appointment of a Jumbo Class Mark II steering committee comprised of current state ferry

engineers responsible for the design, operation, and maintenance of state ferry vessels.

The steering committee, in carrying out the recommendations of the Booz. Allen study, has determined that the procedure for the procurement of equipment, parts, and supplies for the Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778, must take into consideration, in addition to life-cycle cost criteria, criteria that are essential to the operation of a public mass transportation system responsive to the needs of Washington state ferries' users, and that assess the reliability, maintainability, and performance of equipment, parts, and supplies to be installed in the Jumbo Mark II ferries.

The construction of the new Jumbo Class Mark II ferry vessels authorized by RCW 47.60.770 through 47.60.778 is critical to the welfare of the state and any delay in the immediate construction of the ferries will result in severe hardship and economic loss to the state and its citizens. Recognizing these findings, it is the intent of the legislature that the vessel construction should not be delayed further because of the acquisition of a propulsion system, or any component of it, for the ferries, and to authorize the department of transportation to acquire all components of a complete propulsion system as soon as possible so that planned construction of the Jumbo Class Mark II ferry vessels can proceed immediately.

The purpose of this chapter is to authorize the use, by the department, of supplemental, alternative contracting procedures for the procurement of a propulsion system, and the components thereof, for the Jumbo Class Mark II ferries; and to prescribe appropriate requirements and criteria to ensure that contracting procedures for such procurement serve the public interest." [1994 c 181 § 1.]

Effective date—1994 c 181: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect immediately [March 30, 1994]." [1994 c 181 § 4.]

47.60.800 General obligation bonds—1992 issue—Purpose—Issuance and sale. In order to provide funds necessary for vessel and terminal acquisition, construction, and major and minor improvements, including long lead time materials acquisition for the Washington state ferries, there shall be issued and sold upon the request of the Washington state transportation commission and legislative appropriation a total of two hundred ten million dollars of general obligation bonds of the state of Washington. [1992 c 158 § 1.]

47.60.802 Bonds—1992 issue—Supervision of sale by state finance committee—Option of short-term obligations. (1) Upon request being made by the transportation commission, the state finance committee shall supervise and provide for the issuance, sale, and retirement of the bonds authorized by RCW 47.60.800 through 47.60.808 in accordance with chapter 39.42 RCW. The bonds may be sold from time to time in such amounts as may be necessary for the purposes under RCW 47.60.800. The bonds shall be sold in such manner, at such time or times, in such amounts, and at such price or prices as the state finance committee shall determine. No such bonds may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

(2) The state finance committee shall consider the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued. [1992 c 158 § 2.]

47.60.804 Bonds—1992 issue—Use of proceeds. The proceeds from the sale of bonds authorized by RCW 47.60.800 through 47.60.808 shall be deposited in the Puget Sound capital construction account of the motor vehicle fund

and such proceeds shall be available only for the purposes under RCW 47.60.800, for the payment of bond anticipation notes, if any, and for the payment of bond issuance costs, including the costs of underwriting. [1992 c 158 § 3.]

47.60.806 Bonds—1992 issue—Payment of principal and interest from pledged excise taxes. Bonds issued under the authority of RCW 47.60.800 through 47.60.808 shall distinctly state that they are a general obligation of the state of Washington, shall pledge the full faith and credit of the state to the payment of the principal thereof and the interest thereon, and shall contain an unconditional promise to pay such principal and interest as the same shall become due. The principal and interest shall be first payable in the manner provided in RCW 47.60.800 through 47.60.808 from the proceeds of the state excise taxes on motor vehicle and special fuels imposed by chapters 82.36 and 82.38 RCW and distributed to the state pursuant to RCW 46.68.130 and shall never constitute a charge against any allocations of such funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle and special fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on any such bonds. Proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the authority of RCW 47.60.800 through 47.60.808, and the legislature agrees to continue to impose these excise taxes on motor vehicle and special fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the authority of RCW 47.60.800 through 47.60.808. [1995 c 274 § 19; 1992 c 158 § 4.]

47.60.808 Bonds—1992 issue—Payment from ferry bond retirement fund. Both principal and interest on the bonds issued for the purposes of RCW 47.60.800 through 47.60.808 shall be payable from the ferry bond retirement fund authorized in RCW 47.60.600. Whenever, pursuant to RCW 47.60.800 and 47.60.806, the state treasurer transfers funds from the motor vehicle fund to the ferry bond retirement fund, the state treasurer may at the same time reimburse the motor vehicle fund in an identical amount from the Puget Sound capital construction account. [1992 c 158 § 5.]

47.60.810 Design-build ferries—Authorized—Phases defined. (1) The department may purchase new auto ferries through use of a modified request for proposals process whereby the prevailing shipbuilder and the department engage in a design and build partnership for the design and construction of the auto ferries. The process consists of the three phases described in subsection (2) of this section.

(2) The definitions in this subsection apply throughout RCW 47.60.812 through 47.60.822.

(a) "Phase one" means the evaluation and selection of proposers to participate in development of technical proposals in phase two.

(b) "Phase two" means the preparation of technical proposals by the selected proposers in consultation with the department.

(c) "Phase three" means the submittal and evaluation of bids, the award of the contract to the successful proposer, and the design and construction of the auto ferries. [2001 c 226 § 4.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

(14) Criteria that will be used for the phase one selection of proposers to participate in the phase two development of technical proposals;

(15) A description of the process that will be used for the phase three submittal and evaluation of bids, award of the contract, and postaward administrative activities;

(16) A requirement that the contractor comply with all applicable laws, rules, and regulations including but not limited to those pertaining to the environment, worker health and safety, and prevailing wages;

(17) A requirement that the vessels be constructed within the boundaries of the state of Washington except that equipment furnished by the state and components, products, and systems that are standard manufactured items are not subject to the in-state requirement under this subsection. For the purposes of this subsection, "constructed" means the fabrication, by the joining together by welding or fastening of all steel parts from which the total vessel is constructed, including, but not limited to, all shell frames, longitudinals, bulkheads, webs, piping runs, wire ways, and ducting. "Constructed" also means the installation of all components and systems, including, but not limited to, equipment and machinery, castings, electrical, electronics, deck covering, lining, paint, and joiner work required by the contract. "Constructed" also means the interconnection of all equipment, machinery, and services, such as piping, wiring, and ducting; and

(18) A requirement that all warranty work on the vessel must be performed within the boundaries of the state of Washington, insofar as practical. [2001 c 226 § 6.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

47.60.816 Design-build ferries—Phase one. Phase one of the request for proposals process consists of evaluation and selection of prequalified proposers to participate in subsequent development of technical proposals in phase two, as follows:

(1) The department shall issue a request for proposals to interested parties.

(2) The request for proposals must require that each proposer prequalify for the contract under chapter 468-310 WAC, except that the department may adopt rules for the financial prequalification of proposers for this specific contract only. The department shall modify the financial prequalification rules in chapter 468-310 WAC in order to maximize

competition among financially capable and otherwise qualified proposers. In adopting these rules, the department shall consider factors including, without limitation: (a) Shipyard resources in Washington state; (b) the cost to design and construct multiple vessels under a single contract without options; and (c) the sequenced delivery schedule for the vessels.

(3) The department may use some, or all, of the nonfinancial prequalification factors as part of the evaluation factors in phase one to enable the department to select a limited number of best qualified proposers to participate in development of technical proposals in phase two.

(4) The department shall evaluate submitted proposals in accordance with the selection criteria established in the request for proposals. Selection criteria may include, but are not limited to, the following:

- (a) Shipyard facilities;
- (b) Organization components;
- (c) Design capability;
- (d) Build strategy;
- (e) Experience and past performance;
- (f) Ability to meet vessel delivery dates;
- (g) Projected workload; and
- (h) Expertise of project team and other key personnel.

(5) Upon concluding its evaluation of proposals, the department shall select the best qualified proposers in accordance with the request for proposals. The selected proposers must participate in development of technical proposals. Selection must be made in accordance with the selection criteria stated in the request for proposals. All proposers must be ranked in order of preference as derived from the same selection criteria. [2001 c 226 § 7.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

47.60.818 Design-build ferries—Phase two. Phase two of the request for proposals process consists of preparation of technical proposals in consultation with the department, as follows:

(1) The development of technical proposals in compliance with the detailed instructions provided in the request for proposals, including the outline specifications, and any addenda to them. Technical proposals must include the following:

- (a) Design and specifications sufficient to fully depict the ferries' characteristics and identify installed equipment;
- (b) Drawings showing arrangements of equipment and details necessary for the proposer to develop a firm, fixed price bid;
- (c) Project schedule including vessel delivery dates; and
- (d) Other appropriate items.

(2) The department shall conduct periodic reviews with each of the selected proposers to consider and critique their designs, drawings, and specifications. These reviews must be held to ensure that technical proposals meet the department's requirements and are responsive to the critiques conducted by the department during the development of technical proposals.

(3) If, as a result of the periodic technical reviews or otherwise, the department determines that it is in the best interests of the department to modify any element of the request

for proposals, including the outline specifications, it shall do so by written addenda to the request for proposals.

(4) Proposers must submit final technical proposals for approval that include design, drawings, and specifications at a sufficient level of detail to fully depict the ferries' characteristics and identify installed equipment, and to enable a proposer to deliver a firm, fixed price bid to the department. The department shall reject final technical proposals that modify, fail to conform to, or are not fully responsive to and in compliance with the requirements of the request for proposals, including the outline specifications, as amended by addenda. [2001 c 226 § 8.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

47.60.820 Design-build ferries—Phase three. Phase three consists of the submittal and evaluation of bids and the award of the contract to the successful proposer for the final design and construction of the auto ferries, as follows:

(1) The department shall request bids for detailed design and construction of the vessels after completion of the review of technical proposals in phase two. The department will review detailed design drawings in phase three for conformity with the technical proposals submitted in phase two. In no case may the department's review replace the builder's responsibility to deliver a product meeting the phase two technical proposal. The department may only consider bids from selected proposers that have qualified to bid by submitting technical proposals that have been approved by the department.

(2) Each qualified proposer must submit its total bid price for all vessels, including certification that the bid is based upon its approved technical proposal and the request for proposals.

(3) Bids constitute an offer and remain open for ninety days from the date of the bid opening. A deposit in cash, certified check, cashier's check, or surety bond in an amount specified in the request for proposals must accompany each bid and no bid may be considered unless the deposit is enclosed.

(4) The department shall evaluate the submitted bids. Upon completing the bid evaluation, the department may select the responsive and responsible proposer that offers the lowest total bid price for all vessels.

(5) The department may waive informalities in the proposal and bid process, accept a bid from the lowest responsive and responsible proposer, reject any or all bids, republish, and revise or cancel the request for proposals to serve the best interests of the department.

(6) The department may:

(a) Award the contract to the proposer that has been selected as the responsive and responsible proposer that has submitted the lowest total bid price;

(b) If a contract cannot be signed with the apparent successful proposer, award the contract to the next lowest responsive and responsible proposer; or

(c) If necessary, repeat this procedure with each responsive and responsible proposer in order of rank until the list of those proposers has been exhausted.

(7) If the department awards a contract to a proposer under this section, and the proposer fails to enter into the con-

tract and furnish satisfactory contract security as required by chapter 39.08 RCW within twenty days from the date of award, its deposit is forfeited to the state and will be deposited by the state treasurer to the credit of the Puget Sound capital construction account. Upon the execution of a ferry design and construction contract all proposal deposits will be returned.

(8) The department may provide an honorarium to reimburse each unsuccessful phase three proposer for a portion of its technical proposal preparation costs at a preset, fixed amount to be specified in the request for proposals. If the department rejects all bids, the department may provide the honoraria to all phase three proposers that submitted bids. [2001 c 226 § 9.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

47.60.822 Design-build ferries—Notice to proposers not selected—Appeal. (1) The department shall immediately notify those proposers that are not selected to participate in development of technical proposals in phase one and those proposers who submit unsuccessful bids in phase three.

(2) The department's decision is conclusive unless an aggrieved proposer files an appeal with the superior court of Thurston county within five days after receiving notice of the department's award decision. The court shall hear any such appeal on the department's administrative record for the project. The court may affirm the decision of the department, or it may reverse or remand the administrative decision if it determines the action of the department was arbitrary and capricious. [2001 c 226 § 10.]

Findings—Purpose—2001 c 226: See note following RCW 47.20.780.

47.60.824 Design-build ferries—Single best-qualified proposer—Incentives—Proposal negotiations—Compensation. If at any point there is only a single best-qualified proposer participating in the competitive design-build procurement process prior to the submission of bids in phase three, or if there is only a single responsive and responsible bid submitted in phase three, or if the current best-qualified proposers elect to jointly submit a single proposal, the department may negotiate a fair-value contract with the proposer or joint proposers. The negotiations may consider the scope of work as well as contract price. The contract price must be established between the department and the proposer through negotiation based on detailed cost and price information provided by the proposer, the department, and other relevant sources in a format as determined by the department. To achieve efficiencies, the department may negotiate incentives and economic cost sharing between the state and the proposer. In addition to the cost incentives, other incentives may be considered, as determined by the department, to be in the best interests of the state. Such incentives may include, but are not limited to, key schedule milestones, technological innovations, performance efficiencies, constructability, and operational value or life-cycle cost. The department may issue guidelines, requirements, and procedures for all negotiations.

If the department conducts negotiations with a single remaining proposer or joint proposers prior to the submission

of bids in phase three, all negotiations must be completed within forty-five days of the department's approval of the final technical proposal. If the department conducts negotiations with a single responsive and responsible phase three bidder, all negotiations must be completed within thirty days of submission of the phase three bids.

If the department reaches an agreement with the proposer or joint proposers, the department shall submit a copy of the contract, the final negotiated price, and supporting information to the office of financial management at least ten days prior to execution of the contract. If the final negotiated price is greater than the legislature's adopted expenditure plan for vessel construction, the department may not execute the contract until the legislature reviews the final proposals and adjusts the expenditure plan accordingly.

If the department is unable within the designated time period to reach an agreement with the proposer or joint proposers that is fair, reasonable, and in the department's budget, or if the proposers initially provide notice of their intent to jointly submit a single proposal but fail to do so, or if any one of the proposers withdraws from a jointly submitted single proposal before entering into a contract with the department, or if both of the current best-qualified proposers withdraw or otherwise fail to proceed with the request for proposals process, the department may issue a new request for proposals or cancel the request for proposals process, to serve the best interests of the state.

The department may pay an honorarium in a specified amount determined by the department to a proposer or joint proposers who has [have] submitted a final, approved technical proposal and with whom the department has engaged in unsuccessful negotiations. The proposer or joint proposers shall not receive any other compensation for attempting to negotiate a contract, except to the extent allowed by the department in a final contract awarded pursuant to the request for proposal. [2007 c 481 § 2.]

Effective date—2007 c 481: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [May 14, 2007]." [2007 c 481 § 3.]

47.60.8241 Findings—Single proposal process for new ferry vessel construction. The legislature finds that the Washington state ferry system has an excellent safety record and has commenced a long-term vessel procurement plan to ensure the replacement of older and outdated ferry vessels. The legislature further finds that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shipyards. The commencement of construction of new vessels is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing preservation needs of the ferry system fleet of vessels.

The legislature further finds that the balancing of interests described in this section may necessitate the department of transportation to consider in the department's current new 144—auto ferries request for proposals a single proposal submitted jointly by the current best-qualified proposers. The department may, therefore, consider and accept or reject in the department's discretion such a single proposal, and the

current best-qualified proposers may meet and confer to discuss matters that are reasonably necessary to determine whether to submit such a single proposal and to implement a single final contract if the proposal is accepted by the department. Discussions may address the terms of any agreement that may be entered into between the best-qualified proposers for purposes of submitting a single proposal, as well as any agreement that may be entered into with the department. Discussions may also address cost and price information and division of work under the request for proposals. The current best-qualified proposers shall each expressly declare in writing to the department, their intent, if any, to jointly submit a single proposal within thirty days of May 14, 2007, and shall further provide within the thirty-day period information that may be required by the department including, but not limited to, information regarding the proposed shipyard organizational structure and responsibilities of each participant. If at the end of the thirty-day period the proposers have not declared such an intent and provided the information required by the department, or if the department, in its discretion, determines that the joint venture, other legal entity, or organizational structure, or division of responsibilities intended by the joint proposers are unacceptable and not in the best interests of the state, the proposers will be deemed as proposing separately to the request for proposals, and further discussions related to the request for proposals shall not be allowed between the proposers.

To further facilitate the balancing of interests described in this section, the department of transportation may, in its discretion, make revisions to the request for proposals that the department deems necessary or appropriate to balance such interests. [2007 c 481 § 1.]

Effective date—2007 c 481: See note following RCW 47.60.824.

47.60.830 Ferry system operation—Fuel purchasing strategies—Report. In performing the function of operating its ferry system, the department may, subject to the availability of amounts appropriated for this specific purpose and after consultation with the department of general administration's office of state procurement, explore and implement strategies designed to reduce the overall cost of fuel and mitigate the impact of market fluctuations and pressure on both short-term and long-term fuel costs. These strategies may include, but are not limited to, futures contracts, hedging, swap transactions, option contracts, costless collars, and long-term storage. The department shall periodically submit a report to the transportation committees of the legislature and the office of state procurement on the status of any such implemented strategies, including cost mitigation results, a description of each contract established to mitigate fuel costs, the amounts of fuel covered by the contracts, the cost mitigation results, and any related recommendations. The first report must be submitted within one year of implementation. [2008 c 126 § 4.]

Finding—Intent—2008 c 126: See note following RCW 35.58.262.

47.61.010 Authority to enter into agreement and apply for financial assistance. Recognizing that the Washington state ferries system is an integral part of the state highway system, the department is authorized to enter into an agreement with the administrator of the housing and home finance agency and to make application for a grant for financial assistance for the acquisition by construction or purchase of new vessels pursuant to the provisions of the Urban Mass Transportation Act of 1964. [1984 c 7 § 338; 1965 ex.s. c 56 § 1.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.61.020 Bonds for matching funds—Issuance and sale. In order to provide necessary state matching funds as required by the Urban Mass Transportation Act of 1964, there shall be issued and sold limited obligation bonds of the state of Washington in the sum of eleven million dollars, or such amount thereof and at such times as determined to be necessary by the state highway commission. No bonds shall be issued under the provisions of this chapter until the administrator of the housing and home finance agency has approved a grant to the Washington state highway commission of not less than fifty percent of the cost of acquisition of vessels referred to in RCW 47.61.010. The issuance, sale and retirement of said bonds shall be under the supervision and control of the state finance committee which, upon request being made by the Washington state highway commission, shall provide for the issuance, sale and retirement of coupon or registered bonds to be dated, issued, and sold from time to time in such amounts as may be necessary for the orderly progress of said project. [1965 ex.s. c 56 § 2.]

Reviser's note: Powers, duties, and functions of highway commission transferred to department of transportation; see RCW 47.01.031. Term "Washington state highway commission" means department of transportation; see RCW 47.04.015.

47.61.030 Term of bonds—Terms and conditions. Each of such bonds shall be made payable at any time not exceeding twenty-five years from the time of its issuance, with such reserved rights of prior redemption, bearing such interest, and such terms and conditions, as the state finance committee may prescribe to be specified therein. [1965 ex.s. c 56 § 3.]

47.61.040 Bonds—Signatures—Registration—Where payable—Negotiable instruments. The bonds shall be signed by the governor and the state treasurer under the seal of the state, one of which signatures shall be made manually and the other signature may be in printed facsimile, and any coupons attached to such bonds shall be signed by the same officers whose signatures thereon may be in printed facsimile. Any bonds may be registered in the name of the holder on presentation to the state treasurer or at the fiscal agency of the state of Washington in New York City, as to principal alone, or as to both principal and interest under such regulations as the state treasurer may prescribe. Such bonds shall be payable at such places as the state finance committee may provide. All bonds issued hereunder shall be fully negotiable instruments. [1965 ex.s. c 56 § 4.]

47.61.050 Bonds—Denominations—Manner and terms of sale—Legal investment for state funds. The bonds issued hereunder shall be in denominations to be prescribed by the state finance committee and may be sold in such manner and in such amounts and at such times and on such terms and conditions as the committee may prescribe. If bonds are sold to any purchaser other than the state of Washington, they shall be sold at public sale, and it shall be the duty of the state finance committee to cause such sale to be advertised in such manner as it shall deem sufficient. Bonds issued under the provisions of this chapter shall be legal investment for any of the funds of the state, except the permanent school fund. [1965 ex.s. c 56 § 5.]

47.61.060 Proceeds of bonds—Deposit and use. The money arising from the sale of said bonds shall be deposited in the state treasury to the credit of the motor vehicle fund and such money shall be available only for the acquisition by construction or purchase of new ferry vessels and for the payment of all expense incurred in the drafting, printing, issuance, and sale of any such bonds. [1965 ex.s. c 56 § 6.]

47.61.070 Statement describing nature of bond obligation—Pledge of excise taxes. Bonds issued under the provisions of this chapter shall distinctly state that they are not a general obligation of the state but are payable in the manner provided in this chapter from the proceeds of state excise taxes on motor vehicle fuels imposed by chapters 82.36 and *82.40 RCW. The proceeds of such excise taxes are hereby pledged to the payment of any bonds and the interest thereon issued under the provisions of this chapter, and the legislature hereby agrees to continue to impose the same excise taxes on motor vehicle fuels in amounts sufficient to pay, when due, the principal and interest on all bonds issued under the provisions of this chapter. [1965 ex.s. c 56 § 7.]

*Reviser's note: Chapter 82.40 RCW was repealed by 1971 ex.s. c 175 § 33, effective January 1, 1972.

47.61.080 Bonds to reflect terms and conditions of grant agreement. Bonds issued under the provisions of RCW 47.61.020 shall fully reflect the terms and conditions of the grant agreement to be executed pursuant to the provisions of RCW 47.61.010. [1965 ex.s. c 56 § 8.]

(2008 Ed.)

47.61.090 Designation of funds to repay bonds and interest. Funds required to repay the bonds, or the interest thereon when due, shall be taken from that portion of the motor vehicle fund which results from the imposition of excise taxes on motor vehicle fuels and which is, or may be appropriated to the department for state highway purposes, and shall never constitute a charge against any allocations of the funds to counties, cities, and towns unless and until the amount of the motor vehicle fund arising from the excise taxes on motor vehicle fuels and available for state highway purposes proves insufficient to meet the requirements for bond retirement or interest on the bonds. [1984 c 7 § 339; 1965 ex.s. c 56 § 9.]

Severability—1984 c 7: See note following RCW 47.01.141.

47.61.100 Bond repayment procedure—Highway bond retirement fund. At least one year prior to the date any interest is due and payable on such bonds or before the maturity date of any bonds, the state finance committee shall estimate the percentage of the receipts in money of the motor vehicle fund, resulting from collection of excise taxes on motor vehicle fuels, for each month of the year which will be required to meet interest or bond payments under the provisions of this chapter when due, and shall notify the state treasurer of such estimated requirement. The state treasurer shall thereafter from time to time each month as such funds are paid into the motor vehicle fund, transfer such percentage of the monthly receipts from excise taxes on motor vehicle fuels of the motor vehicle fund to the highway bond retirement fund, and which fund shall be available solely for payment of such interest or bonds when due. If in any month it shall appear that the estimated percentage of money so made is insufficient to meet the requirements for interest or bond retirement, the treasurer shall notify the state finance committee forthwith and such committee shall adjust its estimates so that all requirements for interest and principal of all bonds issued shall be fully met at all times. [1965 ex.s. c 56 § 10.]

47.61.110 Sums in excess of bond retirement requirements—Use. Whenever the percentage of the motor vehicle fund arising from excise taxes on motor vehicle fuels, payable into the highway bond retirement fund, shall prove more than is required for the payment of interest on bonds when due, or current retirement of bonds, or in the event there is appropriated from time to time additional amounts to be placed in the said bond retirement fund, any excess may, in the discretion of the state finance committee, be available for the prior redemption of any bonds or remain available in the fund to reduce the requirements upon the fuel excise tax portion of the motor vehicle fund at the next interest or bond payment period. [1965 ex.s. c 56 § 11.]

47.64.005 Declaration of policy. The state of Washington, as a public policy, declares that sound labor relations are essential to the development of a ferry and bridge system which will best serve the interests of the people of the state. [1961 c 13 § 47.64.005. Prior: 1949 c 148 § 1; Rem. Supp. 1949 § 6524-22.]

47.64.006 Public policy. The legislature declares that it is the public policy of the state of Washington to: (1) Provide continuous operation of the Washington state ferry system at reasonable cost to users; (2) efficiently provide levels of ferry service consistent with trends and forecasts of ferry usage; (3) promote harmonious and cooperative relationships between the ferry system and its employees by permitting ferry employees to organize and bargain collectively; (4) protect the citizens of this state by assuring effective and orderly operation of the ferry system in providing for their health, safety, and welfare; (5) prohibit and prevent all strikes or work stoppages by ferry employees; (6) protect the rights of ferry employees with respect to employee organizations; and (7) promote just and fair compensation, benefits, and working conditions for ferry system employees as compared with public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia in directly comparable but not necessarily identical positions. [1989 c 327 § 1; 1983 c 15 § 1.]

47.64.011 Definitions. As used in this chapter, unless the context otherwise requires, the definitions in this section shall apply.

(1) "Collective bargaining representative" means the persons designated by the governor and employee organizations to be the exclusive representatives during collective bargaining negotiations.

(2) "Commission" means the marine employees' commission created in RCW 47.64.280.

(3) "Department of transportation" means the department as defined in RCW 47.01.021.

(4) "Employer" means the state of Washington.

(5) "Ferry employee" means any employee of the marine transportation division of the department of transportation who is a member of a collective bargaining unit represented by a ferry employee organization and does not include an exempt employee pursuant to RCW 41.06.079.

(6) "Ferry employee organization" means any labor organization recognized to represent a collective bargaining unit of ferry employees.

(7) "Lockout" means the refusal of the employer to furnish work to ferry employees in an effort to get ferry employee organizations to make concessions during collective bargaining, grievance, or other labor relation negotiations. Curtailment of employment of ferry employees due to lack of work resulting from a strike or work stoppage shall not be considered a lockout.

(8) "Office of financial management" means the office as created in RCW 43.41.050.

(9) "Strike or work stoppage" means a ferry employee's refusal, in concerted action with others, to report to duty, or his or her willful absence from his or her position, or his or her stoppage or slowdown of work, or his or her abstinence in whole or in part from the full, faithful, and proper performance of the duties of employment, for the purpose of inducing, influencing, or coercing a change in conditions, compensation, rights, privileges, or obligations of his, her, or any other ferry employee's employment. A refusal, in good faith, to work under conditions which pose an endangerment to the health and safety of ferry employees or the public, as determined by the master of the vessel, shall not be considered a strike for the purposes of this chapter. [2006 c 164 § 1; 1983 c 15 § 2.]

Prospective application—Savings—2006 c 164: "(1) This act applies prospectively only and not retroactively. It applies to collective bargaining agreements, the negotiations of collective bargaining agreements, mediations, arbitrations, and other actions under this act that arise or are commenced on or after March 21, 2006.

(2) This act does not apply to collective bargaining agreements, either in effect or for which the negotiations have begun, or mediations and arbitrations that arose or commenced under *this chapter before March 21, 2006. Such collective bargaining agreements and related proceedings must be administered in accordance with the authorities, rules, and procedures that were established under *this chapter as it existed before March 21, 2006. The repealers in section 19 of this act do not affect any existing right acquired, or liability or obligation incurred, under the statutes repealed or under any rule or order adopted under those statutes, nor do they affect any proceeding instituted under them." [2006 c 164 § 16.]

***Reviser's note:** The term "this chapter" apparently refers to chapter 47.64 RCW.

Effective dates—2006 c 164: "Except for section 10 of this act which takes effect July 1, 2006, this act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 21, 2006]." [2006 c 164 § 21.]

47.64.060 Federal social security—State employees' retirement. All employees engaged in the operation of ferries acquired by the department shall remain subject to the federal social security act and shall be under the state employees' retirement act. 47.64.090 Other party operating ferry by rent, lease, or charter—Passenger-only ferry service (as amended by 2003 c 91). (1) Except as provided in section 203 (~~(of this act)~~), chapter 83, Laws of 2003 and subsection (2) of this section, or as provided in section 303 (~~(of this act)~~), chapter 83, Laws of 2003 and subsection (3) of this section, if any party assumes the operation and maintenance of any ferry or ferry system by rent, lease, or charter from the department of transportation, such party shall assume and be bound by all the provisions herein and any agreement or contract for such operation of any ferry or ferry system entered into by the department shall provide that the wages to be paid, hours of employment, working conditions, and seniority rights of employees will be established by the marine employees' commission in accordance with the terms and provisions of this chapter and it shall further provide that all labor disputes shall be adjudicated in accordance with chapter 47.64 RCW.

(2) If a public transportation benefit area meeting the requirements of section 201 (~~(of this act)~~), chapter 83, Laws of 2003 has voter approval to operate passenger-only ferry service, it may enter into an agreement with Washington State Ferries to rent, lease, or purchase passenger-only vessels, related equipment, or terminal space for purposes of loading and unloading the passenger-only ferry. Charges for the vessels, equipment, and space must be fair market value taking into account the public benefit derived from the ferry service. A benefit area or subcontractor of that benefit area that qualifies under this subsection is not subject to the restrictions of subsection (1) of this section, but is subject to:

(a) The terms of those collective bargaining agreements that it or its subcontractors negotiate with the exclusive bargaining representatives of its or its subcontractors' employees under chapter 41.56 RCW or the National Labor Relations Act, as applicable;

(b) Unless otherwise prohibited by federal or state law, a requirement that the benefit area and any contract with its subcontractors, give preferential hiring to former employees of the department of transportation who separated from employment with the department because of termination of the ferry service by the state of Washington; and

(c) Unless otherwise prohibited by federal or state law, a requirement that the benefit area and any contract with its subcontractors, on any questions concerning representation of employees for collective bargaining purposes, may be determined by conducting a cross-check comparing an employee organization's membership records or bargaining authorization cards against the employment records of the employer.

(c) ~~((Subject to))~~ Unless otherwise prohibited by federal or state law, a requirement((,-to be included by)) that the ferry district ((in)) and any contract with ((the district's)) its subcontractors, ((that)) on any questions concerning representation of employees for collective bargaining purposes, may be determined by conducting a cross-check comparing an employee organization's membership records or bargaining authorization cards against the employment records of the employer. If Engrossed Substitute House Bill No. 1853 has not become law by June 30, 2003, sections 1 and 2 of this act are null and void." [2003 c 91 § 4.] Engrossed Substitute House Bill No. 1853 became law as 2003 c 83, effective April 23, 2003.

47.64.090 Other party operating ferry by rent, lease, or charter (as amended by 2003 c 373). (1) Except as provided in subsection (2) of this section, if any party assumes the operation and maintenance of any ferry or ferry system by rent, lease, or charter from the department of transportation, such party shall assume and be bound by all the provisions herein and any agreement or contract for such operation of any ferry or ferry system entered into by the department shall provide that the wages to be paid, hours of employment, working conditions and seniority rights of employees will be established by the marine employees' commission in accordance with the terms and provisions of this chapter and it shall further provide that all labor disputes shall be adjudicated in accordance with chapter 47.64 RCW.

(2) The department of transportation shall make its terminal, dock, and pier space available to private operators of passenger-only ferries if the space can be made available without limiting the operation of car ferries operated by the department. These private operators are not bound by the provisions of subsection (1) of this section. Charges for the equipment and space must be fair market value taking into account the public benefit derived from the passenger-only ferry service. [2003 c 373 § 3; 1983 c 15 § 27; 1961 c 13 § 47.64.090. Prior: 1949 c 148 § 8; Rem. Supp. 1949 § 6524-29.]

Reviser's note: RCW 47.64.090 was amended three times during the 2003 legislative session, twice without reference to the other. For rule of construction concerning sections amended more than once during the same legislative session, see RCW 1.12.025.

Findings—Intent—2003 c 373: "The legislature finds that the Washington state department of transportation should focus on its core ferry mission of moving automobiles on Washington state's marine highways. The legislature finds that current statutes impose barriers to entities other than the state operating passenger-only ferries. The legislature intends to lift those barriers to allow entities other than the state to provide passenger-only ferry service. The legislature finds that the provision of this service and the improvement in the mobility of the citizens of Washington state is legally adequate consideration for the use of state facilities in conjunction with the provision of the service, and the legislature finds that allowing the operators of passenger-only ferries to use state facilities on the basis of legally adequate consideration does not evince donative intent on the part of the legislature." [2003 c 373 § 1.]

Severability—1983 c 15: See RCW 47.64.910.

47.64.120 Scope of negotiations—Interest on retroactive compensation increases—Agreement conflicts. (1) The employer and ferry system employee organizations, through their collective bargaining representatives, shall meet at reasonable times, to negotiate in good faith with respect to wages, hours, working conditions, insurance, and health care benefits as limited by RCW 47.64.270, and other matters mutually agreed upon. Employer funded retirement benefits shall be provided under the public employees retirement system under chapter 41.40 RCW and shall not be included in the scope of collective bargaining.

(2) Upon ratification of bargaining agreements, ferry employees are entitled to an amount equivalent to the interest earned on retroactive compensation increases. For purposes of this section, the interest earned on retroactive compensation increases is the same monthly rate of interest that was earned on the amount of the compensation increases while held in the state treasury. The interest will be computed for each employee until the date the retroactive compensation is paid, and must be allocated in accordance with appropriation authority. The interest earned on retroactive compensation is not considered part of the ongoing compensation obligation of the state and is not compensation earnable for the purposes of chapter 41.40 RCW. Negotiations shall also include grievance procedures for resolving any questions arising under the agreement, which shall be embodied in a written agreement and signed by the parties.

(3) Except as otherwise provided in this chapter, if a conflict exists between an executive order, administrative rule, or agency policy relating to wages, hours, and terms and conditions of employment and a collective bargaining agreement negotiated under this chapter, the collective bargaining agreement shall prevail. A provision of a collective bargaining agreement that conflicts with the terms of a statute is invalid and unenforceable. [2006 c 164 § 3; 1997 c 436 § 1; 1983 c 15 § 3.]

47.64.130 Unfair labor practices. (1) It is an unfair labor practice for the employer or its representatives:

(a) To interfere with, restrain, or coerce employees in the exercise of the rights guaranteed by this chapter;

(b) To dominate or interfere with the formation or administration of any employee organization or contribute financial or other support to it. However, subject to rules made by the commission pursuant to RCW 47.64.280, an employer shall not be prohibited from permitting employees to confer with it or its representatives or agents during working hours without loss of time or pay;

(c) To encourage or discourage membership in any employee organization by discrimination in regard to hiring, tenure of employment, or any term or condition of employment, but nothing contained in this subsection prevents an employer from requiring, as a condition of continued employment, payment of periodic dues and fees uniformly required to an exclusive bargaining representative pursuant to RCW 47.64.160. However, nothing prohibits the employer from agreeing to obtain employees by referral from a lawful hiring hall operated by or participated in by a labor organization;

(d) To discharge or otherwise discriminate against an employee because he has filed charges or given testimony under this chapter;

(e) To refuse to bargain collectively with the representatives of its employees.

(2) It is an unfair labor practice for an employee organization:

(a) To restrain or coerce (i) employees in the exercise of the rights guaranteed by this chapter. However, this subsection does not impair the right of an employee organization to prescribe its own rules with respect to the acquisition or retention of membership therein, or (ii) an employer in the selection of his representatives for the purposes of collective bargaining or the adjustment of grievances;

(b) To cause or attempt to cause an employer to discriminate against an employee in violation of subsection (1)(c) of this section;

(c) To refuse to bargain collectively with an employer.

(3) The expression of any view, argument, or opinion, or the dissemination thereof to the public, whether in written, printed, graphic, or visual form, shall not constitute or be evidence of an unfair labor practice under any of the provisions of this chapter, if the expression contains no threat of reprisal or force or promise of benefit. [2006 c 164 § 4; 1983 c 15 § 4.]

Prospective application—Savings—Effective dates—2006 c 164: See notes following RCW 47.64.011.

47.64.140 Strikes, work stoppages, and lockouts prohibited. (1) It is unlawful for any ferry system employee or any employee organization, directly or indirectly, to induce, instigate, encourage, authorize, ratify, or participate in a strike or work stoppage against the ferry system.

(2) It is unlawful for the employer to authorize, consent to, or condone a strike or work stoppage; or to conduct a lockout; or to pay or agree to pay any ferry system employee for any day in which the employee participates in a strike or work stoppage; or to pay or agree to pay any increase in compensation or benefits to any ferry system employee in response to or as a result of any strike or work stoppage or any act that violates subsection (1) of this section. It is unlawful for any official, director, or representative of the ferry system to authorize, ratify, or participate in any violation of this subsection. Nothing in this subsection prevents new or renewed bargaining and agreement within the scope of negotiations as defined by this chapter, at any time. No collective bargaining agreement provision regarding suspension or modification of any court-ordered penalty provided in this section is binding on the courts.

(3) In the event of any violation or imminently threatened violation of subsection (1) or (2) of this section, any citizen domiciled within the jurisdictional boundaries of the state may petition the superior court for Thurston county for an injunction restraining the violation or imminently threatened violation. Rules of civil procedure regarding injunctions apply to the action. However, the court shall grant a temporary injunction if it appears to the court that a violation has occurred or is imminently threatened; the plaintiff need not show that the violation or threatened violation would greatly or irreparably injure him or her; and no bond may be required of the plaintiff unless the court determines that a

bond is necessary in the public interest. Failure to comply with any temporary or permanent injunction granted under this section is a contempt of court as provided in chapter 7.21 RCW. The court may impose a penalty of up to ten thousand dollars for an employee organization or the ferry system, for each day during which the failure to comply continues. The sanctions for a ferry employee found to be in contempt shall be as provided in chapter 7.21 RCW. An individual or an employee organization which makes an active good faith effort to comply fully with the injunction shall not be deemed to be in contempt.

(4) The right of ferry system employees to engage in strike or work slowdown or stoppage is not granted and nothing in this chapter may be construed to grant such a right.

(5) Each of the remedies and penalties provided by this section is separate and several, and is in addition to any other legal or equitable remedy or penalty.

(6) In addition to the remedies and penalties provided by this section the successful litigant is entitled to recover reasonable attorney fees and costs incurred in the litigation.

(7) Notwithstanding the provisions of chapter 88.04 RCW and chapter 88.08 RCW, the department of transportation shall adopt rules allowing vessels, as defined in RCW 88.04.015, as well as other watercraft, to engage in emergency passenger service on the waters of Puget Sound in the event ferry employees engage in a work slowdown or stoppage. Such emergency rules shall allow emergency passenger service on the waters of Puget Sound within seventy-two hours following a work slowdown or stoppage. Such rules that are adopted shall give due consideration to the needs and the health, safety, and welfare of the people of the state of Washington. [2006 c 164 § 5; 1989 c 373 § 25; 1983 c 15 § 5.]

47.64.150 Grievance procedures. An agreement with a ferry employee organization that is the exclusive representative of ferry employees in an appropriate unit may provide procedures for the consideration of ferry employee grievances and of disputes over the interpretation and application of agreements. Negotiated procedures may provide for binding arbitration of ferry employee grievances and of disputes over the interpretation and application of existing agreements. An arbitrator's decision on a grievance shall not change or amend the terms, conditions, or applications of the collective bargaining agreement. The procedures shall provide for the invoking of arbitration only with the approval of the employee organization. The costs of arbitrators shall be shared equally by the parties.

Ferry system employees shall follow either the grievance procedures provided in a collective bargaining agreement, or if no such procedures are so provided, shall submit the grievances to the marine employees' commission as provided in RCW 47.64.280. [1983 c 15 § 6.]

47.64.160 Union security provisions. A collective bargaining agreement may include union security provisions including an agency shop, but not a union or closed shop. If an agency shop provision is agreed to, the employer shall

enforce it by deducting from the salary payments to members of the bargaining unit the dues required of membership in the bargaining representative, or, for nonmembers thereof, a fee equivalent to such dues. All union security provisions shall safeguard the right of nonassociation of employees based on bona fide religious tenets or teachings of a church or religious body of which such employee is a member. Such employee shall pay an amount of money equivalent to regular dues and fees to a nonreligious charity or to another charitable organization mutually agreed upon by the employee affected and the bargaining representative to which such employee would otherwise pay the dues and fees. The employee shall furnish written proof that such payment has been made. If the employee and the bargaining representative do not reach agreement on such matter, the commission shall designate the charitable organization. [1983 c 15 § 7.]

47.64.170 Collective bargaining procedures. (1) Any ferry employee organization certified as the bargaining representative shall be the exclusive representative of all ferry employees in the bargaining unit and shall represent all such employees fairly.

(2) A ferry employee organization or organizations and the governor may each designate any individual as its representative to engage in collective bargaining negotiations.

(3) Negotiating sessions, including strategy meetings of the employer or employee organizations, mediation, and the deliberative process of arbitrators are exempt from the provisions of chapter 42.30 RCW. Hearings conducted by arbitrators may be open to the public by mutual consent of the parties.

(4) Terms of any collective bargaining agreement may be enforced by civil action in Thurston county superior court upon the initiative of either party.

(5) Ferry system employees or any employee organization shall not negotiate or attempt to negotiate directly with anyone other than the person who has been appointed or authorized a bargaining representative for the purpose of bargaining with the ferry employees or their representative.

(6)(a) Within ten working days after the first Monday in September of every odd-numbered year, the parties shall attempt to agree on an interest arbitrator to be used if the parties are not successful in negotiating a comprehensive collective bargaining agreement. If the parties cannot agree on an arbitrator within the ten-day period, either party may request a list of seven arbitrators from the federal mediation and conciliation service. The parties shall select an interest arbitrator using the coin toss/alternate strike method within thirty calendar days of receipt of the list. Immediately upon selecting an interest arbitrator, the parties shall cooperate to reserve dates with the arbitrator for potential arbitration between August 1st and September 15th of the following even-numbered year. The parties shall also prepare a schedule of at least five negotiation dates for the following year, absent an agreement to the contrary. The parties shall execute a written agreement before November 1st of each odd-numbered year setting forth the name of the arbitrator and the dates reserved for bargaining and arbitration. This subsection (6)(a) imposes minimum obligations only and is not intended to define or limit a party's full, good faith bargaining obligation under other sections of this chapter.

(b) The negotiation of a proposed collective bargaining agreement by representatives of the employer and a ferry employee organization shall commence on or about February 1st of every even-numbered year.

(c) For negotiations covering the 2009-2011 biennium and subsequent biennia, the time periods specified in this section, and in RCW 47.64.210 and 47.64.300 through 47.64.320, must ensure conclusion of all agreements on or before October 1st of the even-numbered year next preceding the biennial budget period during which the agreement should take effect. These time periods may only be altered by mutual agreement of the parties in writing. Any such agreement and any impasse procedures agreed to by the parties under RCW 47.64.200 must include an agreement regarding the new time periods that will allow final resolution by negotiations or arbitration by October 1st of each even-numbered year.

(7) Until a new collective bargaining agreement is in effect, the terms and conditions of the previous collective bargaining agreement shall remain in force. It is the intent of this section that the collective bargaining agreement or arbitrator's award shall commence on July 1st of each odd-numbered year and shall terminate on June 30th of the next odd-numbered year to coincide with the ensuing biennial budget year, as defined by RCW 43.88.020(7), to the extent practical. It is further the intent of this section that all collective bargaining agreements be concluded by October 1st of the even-numbered year before the commencement of the biennial budget year during which the agreements are to be in effect.

(8)(a) The governor shall submit a request either for funds necessary to implement the collective bargaining agreements including, but not limited to, the compensation and fringe benefit provisions or for legislation necessary to implement the agreement, or both. Requests for funds necessary to implement the collective bargaining agreements shall not be submitted to the legislature by the governor unless such requests:

(i) Have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered; and

(ii) Have been certified by the director of the office of financial management as being feasible financially for the state.

(b) The governor shall submit a request either for funds necessary to implement the arbitration awards or for legislation necessary to implement the arbitration awards, or both. Requests for funds necessary to implement the arbitration awards shall not be submitted to the legislature by the governor unless such requests have been submitted to the director of the office of financial management by October 1st before the legislative session at which the requests are to be considered.

(c) The legislature shall approve or reject the submission of the request for funds necessary to implement the collective bargaining agreements or arbitration awards as a whole for each agreement or award. The legislature shall not consider a request for funds to implement a collective bargaining agreement or arbitration award unless the request is transmitted to the legislature as part of the governor's budget document submitted under RCW 43.88.030 and 43.88.060. If the

legislature rejects or fails to act on the submission, either party may reopen all or part of the agreement and award or the exclusive bargaining representative may seek to implement the procedures provided for in RCW 47.64.210 and 47.64.300.

(9) If, after the compensation and fringe benefit provisions of an agreement are approved by the legislature, a significant revenue shortfall occurs resulting in reduced appropriations, as declared by proclamation of the governor or by resolution of the legislature, both parties shall immediately enter into collective bargaining for a mutually agreed upon modification of the agreement. 47.64.175 Collective bargaining agreement negotiation. (1) For the purpose of negotiating collective bargaining agreements under this chapter, the employer shall be represented by the governor or governor's designee.

(2) Two or more ferry employee organizations may, upon agreement of the parties, negotiate, as a coalition with the employer representative as designated in subsection (1) of this section, a multiunion collective bargaining agreement on behalf of all the employees in ferry employee organization bargaining units that the exclusive bargaining representatives represent. The coalition shall bargain for a multiunion collective bargaining agreement covering all of the employees represented by the coalition. The governor's designee and the exclusive bargaining representative or representatives are authorized to enter into supplemental bargaining of bargaining unit-specific issues for inclusion in or as an addendum to the multiunion collective bargaining agreement, subject to the parties' agreement regarding the issues and procedures for supplemental bargaining. Nothing in this section impairs the right of each ferry employee organization to negotiate a collective bargaining agreement exclusive to the bargaining unit it represents. [2006 c 164 § 2.]

47.64.200 Impasse procedures. As the first step in the performance of their duty to bargain, the employer and the employee organization shall endeavor to agree upon impasse procedures. Unless otherwise agreed to by the employee organization and the employer in their impasse procedures, the arbitrator or panel is limited to selecting the most reasonable offer, in its judgment, of the final offers on each impasse item submitted by the parties. The employee organization and the employer may mutually agree to the impasse procedure under which the arbitrator or panel may issue a decision it deems just and appropriate with respect to each impasse item. If the parties fail to agree upon impasse procedures under this section, the impasse procedures provided in RCW 47.64.210 and 47.64.230 and 47.64.300 through 47.64.320 apply. It is unlawful for either party to refuse to participate in the impasse procedures provided in RCW 47.64.210 and 47.64.230 and 47.64.300 through 47.64.320. [2006 c 164 § 7; 1983 c 15 § 11.]

It is the function of the mediator to bring the parties together to effectuate a settlement of the dispute, but the mediator shall not compel the parties to agree. 47.64.220 Salary survey. (1) Prior to collective bargaining and for purposes of collective bargaining and arbitration, the commission shall conduct a salary survey. The results of the survey shall be published in a report which shall be a public document comparing wages, hours, employee benefits, and conditions of employment of involved ferry employees with those of public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia doing directly comparable but not necessarily identical work, giving consideration to factors peculiar to the area and the classifications involved. Such survey report shall be for the purpose of disclosing generally prevailing levels of compensation, benefits, and conditions of employment. It shall be used to guide generally but not to define or limit collective bargaining between the parties.

(2) Salary and employee benefit information collected from private employers that identifies a specific employer with the salary and employee benefit rates which that employer pays to its employees is not subject to public disclosure under chapter 42.56 RCW. By mutual agreement, the parties may waive mediation and proceed with binding arbitration as provided for in the impasse procedures agreed to under RCW 47.64.200 or in 47.64.300 through 47.64.320, as applicable. The waiver shall be in writing and be signed by the representatives of the parties. Regardless of the status of mediation, the parties must comply with the interest arbitration agreement under RCW 47.64.170(6)(a), absent any subsequent agreement to the contrary. 47.64.250 Legal actions. (1) Any ferry employee organization and the department of transportation may sue or be sued as an entity under this chapter. Service upon any party

shall be in accordance with law or the rules of civil procedure. Nothing in this chapter may be construed to make any individual or his assets liable for any judgment against the department of transportation or a ferry employee organization if the individual was acting in his official capacity.

(2) Any legal action by any ferry employee organization or the department of transportation under this chapter shall be filed in Thurston county superior court within ten days of when the cause of action arose. The court shall consider those actions on a priority basis and determine the merits of the actions within thirty days of filing. [1983 c 15 § 16.]

47.64.260 Notice and service. Refusal of certified mail by any party shall be considered service. Prescribed time periods commence from the date of the receipt of the notice. Any party may at any time execute and deliver an acceptance of service in lieu of mailed notice. [2001 c 19 § 1; 1983 c 15 § 17.]

Absent a collective bargaining agreement to the contrary, the department of transportation shall provide contributions to insurance and health care plans for ferry system employees and dependents, as determined by the state health care authority, under chapter 41.05 RCW; and the employer and employee organizations may collectively bargain for other insurance and health care plans, and employer contributions may exceed that of other state agencies as provided in RCW 41.05.050. To the extent that ferry employees by bargaining unit have absorbed the required offset of wage increases by the amount that the employer's contribution for employees' and dependents' insurance and health care plans exceeds that of other state general government employees in the 1985-87 fiscal biennium, employees shall not be required to absorb a further offset except to the extent the differential between employer contributions for those employees and all other state general government employees increases during any subsequent fiscal biennium. If such differential increases in the 1987-89 fiscal biennium or the 1985-87 offset by bargaining unit is insufficient to meet the required deduction, the amount available for compensation shall be reduced by bargaining unit by the amount of such increase or the 1985-87 shortage in the required offset. Compensation shall include all wages and employee benefits. [2006 c 164 § 17; 1995 1st sp.s. c 6 § 6; 1993 c 492 § 224; 1988 c 107 § 21; 1987 c 78 § 2; 1983 c 15 § 18.]

47.64.280 Marine employees' commission. (1) There is created the marine employees' commission. The governor shall appoint the commission with the consent of the senate. The commission shall consist of three members: One member to be appointed from labor, one member from industry, and one member from the public who has significant knowledge of maritime affairs. The public member shall be chair of the commission. One of the original members shall be appointed for a term of three years, one for a term of four years, and one for a term of five years. Their successors shall be appointed for terms of five years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he or she succeeds. Commission members are eligible for reappointment. Any member of the commission may be removed by the governor, upon notice and hearing, for neglect of duty or malfeasance in office, but for no other cause. Commission members are not eligible for state retirement under chapter 41.40 RCW by virtue of their service on the commission. Members of the commission shall be compensated in accordance with RCW 43.03.250 and shall receive reimbursement for official travel and other expenses at the same rate and on the same terms as provided for the transportation commission by RCW 47.01.061. The payments shall be made from the Puget Sound ferry operations account.

(2) The commission shall: (a) Adjust all complaints, grievances, and disputes between labor and management arising out of the operation of the ferry system as provided in RCW 47.64.150; (b) provide for impasse mediation as required in RCW 47.64.210; (c) provide salary surveys as required in RCW 47.64.220; and (d) perform those duties required in RCW 47.64.300.

(3)(a) In adjudicating all complaints, grievances, and disputes, the party claiming labor disputes shall, in writing, notify the commission, which shall make careful inquiry into the cause thereof and issue an order advising the ferry employee, or the ferry employee organization representing him or her, and the department of transportation, as to the decision of the commission.

(b) The parties are entitled to offer evidence relating to disputes at all hearings conducted by the commission. The orders and awards of the commission are final and binding upon any ferry employee or employees or their representative affected thereby and upon the department.

(c) The commission shall adopt rules of procedure under chapter 34.05 RCW.

(d) The commission has the authority to subpoena any ferry employee or employees, or their representatives, and any member or representative of the department, and any witnesses. The commission may require attendance of witnesses and the production of all pertinent records at any hearings held by the commission. The subpoenas of the commission

are enforceable by order of any superior court in the state of Washington for the county within which the proceeding may be pending. The commission may hire staff as necessary, appoint consultants, enter into contracts, and conduct studies as reasonably necessary to carry out this chapter. 47.64.290 Toll bridge employees subject to civil service. Notwithstanding any other provisions of this chapter, toll bridge employees of the marine transportation division are subject to chapter 41.06 RCW. [1984 c 48 § 2.]

47.64.300 Interest arbitration—Procedures. (1) If an agreement has not been reached following a reasonable period of negotiations and, when applicable, mediation, upon the recommendation of the assigned mediator that the parties remain at impasse or, with respect to biennial bargaining, in compliance with the interest arbitration agreement under RCW 47.64.170(6)(a), all impasse items shall be submitted to arbitration under this section. The issues for arbitration shall be limited to the issues certified by the commission.

(2) The parties may agree to submit the dispute to a single arbitrator, whose authority and duties shall be the same as those of an arbitration panel. If the parties cannot agree on the arbitrator within five working days, the selection shall be made under subsection (3) of this section, except with respect to biennial bargaining described under RCW 47.64.170(6). The full costs of arbitration under this section shall be shared equally by the parties to the dispute.

(3) Within seven days following the issuance of the determination of the commission, each party shall, absent an agreement to the contrary, name one person to serve as its arbitrator on the arbitration panel. Except with respect to biennial bargaining described under RCW 47.64.170(6), the two members so appointed shall meet within seven days following the appointment of the later appointed member to attempt to choose a third member to act as the neutral chair of the arbitration panel. Upon the failure of the arbitrators to select a neutral chair within seven days, either party may apply to the federal mediation and conciliation service, or, with the consent of the parties, the American arbitration association to provide a list of five qualified arbitrators from which the neutral chair shall be chosen. Each party shall pay the fees and expenses of its arbitrator, and the fees and expenses of the neutral chair shall be shared equally between the parties.

(4) In consultation with the parties, the arbitrator or arbitration panel shall promptly establish a date, time, and place for a hearing and shall provide reasonable notice thereof to the parties to the dispute. The parties shall exchange final positions in writing, with copies to the arbitrator or arbitration panel, with respect to every issue to be arbitrated, on a date mutually agreed upon, but in no event later than ten working days before the date set for hearing. A hearing, which shall be informal, shall be held, and each party shall have the opportunity to present evidence and make argument.

No member of the arbitration panel may present the case for a party to the proceedings. The rules of evidence prevailing in judicial proceedings may be considered, but are not binding, and any oral testimony or documentary evidence or other data deemed relevant by the chair of the arbitration panel may be received in evidence. A recording of the proceedings shall be taken. The arbitration panel has the power to administer oaths, require the attendance of witnesses, and require the production of such books, papers, contracts, agreements, and documents as may be deemed by the panel to be material to a just determination of the issues in dispute. If any person refuses to obey a subpoena issued by the arbitration panel, or refuses to be sworn or to make an affirmation to testify, or any witness, party, or attorney for a party is guilty of any contempt while in attendance at any hearing held hereunder, the arbitration panel may invoke the jurisdiction of the superior court in the county where the labor dispute exists, and the court has jurisdiction to issue an appropriate order. Any failure to obey the order may be punished by the court as a contempt thereof.

(5) The neutral chair shall consult with the other members of the arbitration panel, if a panel has been created. Within thirty days following the conclusion of the hearing, or sooner as the October 1st deadline set forth in RCW 47.64.170 (6)(c) and (7) necessitates, the neutral chair shall make written findings of fact and a written determination of the issues in dispute, based on the evidence presented. A copy thereof shall be served on each of the other members of the arbitration panel, and on each of the parties to the dispute. That determination is final and binding upon both parties, subject to review by the superior court upon the application of either party solely upon the question of whether the decision of the panel was arbitrary or capricious. [2007 c 160 § 4; 2006 c 164 § 12.]

47.64.310 Interest arbitration—Function. An interest arbitration proceeding under RCW 47.64.300 exercises a state function and is, for the purposes of this chapter, functioning as a state agency. Chapter 34.05 RCW does not apply to an interest arbitration proceeding under this chapter. [2006 c 164 § 13.]

Prospective application—Savings—Effective dates—2006 c 164: See notes following RCW 47.64.011.

47.64.320 Parties not bound by arbitration—Arbitration factors. (1) The mediator, arbitrator, or arbitration panel may consider only matters that are subject to bargaining under this chapter.

(2) The decision of an arbitrator or arbitration panel is not binding on the legislature and, if the legislature does not approve the funds necessary to implement provisions pertaining to compensation and fringe benefit provisions of an arbitrated collective bargaining agreement, is not binding on the state, the department of transportation, or the ferry employee organization.

(3) In making its determination, the arbitrator or arbitration panel shall be mindful of the legislative purpose under RCW 47.64.005 and 47.64.006 and, as additional standards

or guidelines to aid it in reaching a decision, shall take into consideration the following factors:

(a) Past collective bargaining contracts between the parties including the bargaining that led up to the contracts;

(b) The constitutional and statutory authority of the employer;

(c) Stipulations of the parties;

(d) The results of the salary survey as required in RCW 47.64.220;

(e) Comparison of wages, hours, employee benefits, and conditions of employment of the involved ferry employees with those of public and private sector employees in states along the west coast of the United States, including Alaska, and in British Columbia doing directly comparable but not necessarily identical work, giving consideration to factors peculiar to the area and the classifications involved;

(f) Changes in any of the foregoing circumstances during the pendency of the proceedings;

(g) The limitations on ferry toll increases and operating subsidies as may be imposed by the legislature; and

(h) Other factors that are normally or traditionally taken into consideration in the determination of matters that are subject to bargaining under this chapter. [2006 c 164 § 14.]

Prospective application—Savings—Effective dates—2006 c 164: See notes following RCW 47.64.011.

47.64.330 Collective bargaining limitations. No party may engage in collective bargaining under chapter 164, Laws of 2006 to amend a collective bargaining agreement in effect on March 21, 2006. A collective bargaining agreement or amendment thereto entered into under chapter 164, Laws of 2006 shall not be effective before July 1, 2007, and may not have any retroactive effect. 47.66.010 Legislative declaration. There is significant state interest in assuring that viable multimodal transportation programs are available throughout the state. The legislature recognizes the need to create a mechanism to fund multimodal transportation programs and projects. The legislature further recognizes the complexities associated with current funding mechanisms and seeks to create a process that would allow for all transportation programs and projects to compete for limited resources. [1993 c 393 § 3.]

47.66.030 Regional mobility grants. (1) The department shall establish a regional mobility grant program. The purpose of the grant program is to aid local governments in funding projects such as intercounty connectivity service, park and ride lots, rush hour transit service, and capital projects that improve the connectivity and efficiency of our transportation system. The department shall identify cost-effective projects that reduce delay for people and goods and improve connectivity between counties and regional population centers. The department shall submit a prioritized list of all projects requesting funding to the legislature by December 1st of each year.

(2) The department may establish an advisory committee to carry out the mandates of this chapter.

(3) The department must report annually to the transportation committees of the legislature on the status of any grants projects funded by the program created under this section. [2005 c 318 § 4; 1996 c 49 § 3; 1995 c 269 § 2604; 1993 c 393 § 5.]

47.66.040 Selection process—Local matching funds.

(1) The department shall select projects based on a competitive process. The competition shall be consistent with the following criteria:

- (a) Local, regional, and state transportation plans;
- (b) Local transit development plans; and
- (c) Local comprehensive land use plans.

(2) The following criteria shall be considered by the department in selecting programs and projects:

(a) Objectives of the growth management act, the high capacity transportation act, the commute trip reduction act, transportation demand management programs, federal and state air quality requirements, and federal Americans with Disabilities Act and related state accessibility requirements; and

(b) Enhancing the efficiency of regional corridors in moving people among jurisdictions and modes of transportation, energy efficiency issues, reducing delay for people and goods, freight and goods movement as related to economic development, regional significance, rural isolation, the leveraging of other funds, and safety and security issues.

(3) The department shall determine the appropriate level of local match required for each project based on the source of funds. [2005 c 318 § 5; 1995 c 269 § 2606; 1993 c 393 § 6.]

47.66.080 Grant programs examination. Beginning in 2005, and every other year thereafter, the department shall examine the division's existing grant programs, and the methods used to allocate grant funds, to determine the program's effectiveness, and whether the methods used to allocate funds result in an equitable distribution of the grants. The department shall submit a report of the findings to the transportation committees of the legislature. [2005 c 318 § 6.]

Findings—Intent—2005 c 318: See note following RCW 47.01.330.

47.66.090 High occupancy toll lanes operations account. The high occupancy toll lanes operations account is created in the state treasury. The department shall deposit all revenues received by the department as toll charges collected from high occupancy toll lane users. Moneys in this account may be spent only if appropriated by the legislature. Moneys in this account may be used for, but be not limited to, debt service, planning, administration, construction, maintenance, operation, repair, rebuilding, enforcement, and expansion of high occupancy toll lanes and to increase transit, vanpool and carpool, and trip reduction services in the corridor. A reasonable proportion of the moneys in this account must be dedicated to increase transit, vanpool, carpool, and trip reduction services in the corridor. All moneys received by the department pursuant to this section shall be deposited in the state treasury, and, unless otherwise prescribed by the authority from which such moneys were received, shall be kept in separate funds designated according to the purposes for which the moneys were made available, and held by the state in trust for such purposes. All such moneys are hereby appropriated for the purposes for which the same were made available, to be disbursed or expended in accordance with the terms and conditions upon which they were made available: PROVIDED, That any landing fee or charge imposed by any Indian tribe or tribes for the privilege of use of an airport facility planned, acquired, constructed, improved, maintained, or operated with financial assistance from the department pursuant to this section must apply equally to tribal and nontribal members: PROVIDED FURTHER, That in the event any municipality or municipalities or Indian tribe or tribes, or any distributor of aircraft fuel as defined by RCW 82.42.020 which operates in any airport facility which has received financial assistance pursuant to this section, fails to collect the aircraft fuel excise tax as specified in chapter 82.42 RCW, all funds or value of technical assistance given or paid to such municipality or municipalities or Indian tribe or tribes under the provisions of this section shall revert to the department, and shall be due and payable to the department immediately. In like manner the department may acquire existing airports and air navigation facilities. However, it shall not acquire or take over any airport or air navigation facility owned or controlled by a municipality of this or any other state without the consent of the municipality. The department may by sale, lease, or otherwise, dispose of any property, airport, air navigation facility, or portion thereof or interest therein. (7) An aircraft based within the state that is in an unairworthy condition, is not operated within the registration period, and has obtained a written exemption issued by the secretary.

The secretary shall be notified within thirty days of any change in ownership of a registered aircraft. The notification shall contain the N, NC, NR, NL, or NX number of the aircraft, the full name and address of the former owner, and the full name and address of the new owner. For failure to so notify the secretary, the registration of that aircraft may be canceled by the secretary, subject to reinstatement upon application and payment of a reinstatement fee of ten dollars by the new owner.

A municipality or port district that owns, operates, or leases an airport, as defined in RCW 47.68.020, with the intent to operate, shall require from an aircraft owner proof of aircraft registration as a condition of leasing or selling tiedown or hanger space for an aircraft. It is the responsibility of the lessee or purchaser to register the aircraft. The airport shall work with the aviation division to assist in its efforts to register aircraft by providing information about based aircraft on an annual basis as requested by the division. shall be plainly marked, illuminated, painted, lighted, or designated in a manner to be approved in accordance with the general rules of the department so that the structure or obstacle will be clearly visible to airmen. In determining which structures or obstacles constitute a safety hazard, or a hazard to flight, the department shall take into account those obstacles located at a river, lake, or canyon crossing, and in other low-altitude flight paths usually traveled by aircraft including, but not limited to, airport areas and runway departure and approach areas as defined by federal air regulations. For that purpose the secretary may issue subpoenas and subpoenas duces tecum returnable within twenty days to the department. If a person refuses to obey the secretary's subpoena, the department may certify to the superior court all facts of the refusal. The court shall summarily hear evidence on the refusal, and, if the evidence warrants, punish the person refusing in the same manner and to the same extent as a contempt committed before the court. This includes search and rescue efforts involving aircraft and airships. The division is also responsible for search and rescue activities involving electronic emergency signaling devices such as emergency locator transmitters (ELT's) and emergency position indicating radio beacons (EPIRB's).

(2) An act or omission by any person registered with the aviation division of the department for the purpose of engaging in aerial search and rescue activities, while engaged in such activities, shall not impose any liability on the department or the person for civil damages resulting from the act or omission. However, the immunity provided under this subsection shall not apply to an act or omission that constitutes gross negligence or willful or wanton misconduct. For the purpose of this subsection, "aerial search and rescue activities" includes, but is not limited to, training and training-related activities, but does not include appropriate search and rescue activities conducted under the authority of RCW 38.52.400. 47.68.390 Airport capacity and facilities assessment.

(1) The aviation division of the department of transportation shall conduct a statewide airport capacity and facilities assessment. The assessment must include a statewide analysis of existing airport facilities, and passenger and air cargo transportation capacity, regarding both commercial aviation and general aviation; however, the primary focus of the assessment must be on commercial aviation. The assessment must at a minimum address the following issues:

(a) Existing airport facilities, both commercial and general aviation, including air side, land side, and airport service facilities;

(b) Existing air and airport capacity, including the number of annual passengers and air cargo operations;

(c) Existing airport services, including fixed based operator services, fuel services, and ground services; and

(d) Existing airspace capacity.

(2) The department shall consider existing information, technical analyses, and other research the department deems appropriate. The department may contract and consult with private independent professional and technical experts regarding the assessment.

(3) The department shall submit the assessment to the appropriate standing committees of the legislature, the governor, the transportation commission, and regional transportation planning organizations by July 1, 2006. [2005 c 316 § 1.]

47.68.400 Airport capacity and facilities market analysis. (1) After submitting the assessment under RCW 47.68.390, the aviation division of the department of transportation shall conduct a statewide airport capacity and facilities market analysis. The analysis must include a statewide needs analysis of airport facilities, passenger and air cargo transportation capacity, and demand and forecast market needs over the next twenty-five years with a more detailed analysis of the Puget Sound, southwest Washington, Spokane, and Tri-Cities regions. The analysis must address the forecasted needs of both commercial aviation and general aviation; however, the primary focus of the analysis must be on commercial aviation. The analysis must at a minimum address the following issues:

(a) A forecast of future airport facility needs based on passenger and air cargo operations and demand, airline planning, and a determination of aviation trends, demographic, geographic, and market factors that may affect future air travel demand;

(b) A determination of when the state's existing commercial service airports will reach their capacity;

(c) The factors that may affect future air travel and when capacity may be reached and in which location;

(d) The role of the state, metropolitan planning organizations, regional transportation planning organizations, the federal aviation administration, and airport sponsors in addressing statewide airport facilities and capacity needs; and

(e) Whether the state, metropolitan planning organizations, regional transportation planning organizations, the federal aviation administration, or airport sponsors have identified options for addressing long-range capacity needs at airports, or in regions, that will reach capacity before the year 2030.

(2008 Ed.)

(2) The department shall consider existing information, technical analyses, and other research the department deems appropriate. The department may contract and consult with private independent professional and technical experts regarding the analysis.

(3) The department shall submit the analysis to the appropriate standing committees of the legislature, the governor, the transportation commission, and regional transportation planning organizations by July 1, 2007. [2005 c 316 § 2.]

47.68.410 Aviation planning council. (Expires July 1, 2009.) (1) Upon completion of both the statewide assessment and analysis required under RCW 47.68.390 and 47.68.400, and to the extent funds are appropriated to the department for this purpose, the governor shall appoint an aviation planning council to consist of the following members: (a) The director of the aviation division of the department of transportation, or a designee; (b) the director of the department of community, trade, and economic development, or a designee; (c) a member of the transportation commission, who shall be the chair of the council; (d) two members of the general public familiar with airport issues, including the impacts of airports on communities, one of whom must be from western Washington and one of whom must be from eastern Washington; (e) a technical expert familiar with federal aviation administration airspace and control issues; (f) a commercial airport operator; (g) a member of a growth management hearings board; (h) a representative of the Washington airport management association; and (i) an airline representative. The chair of the council may designate another councilmember to serve as the acting chair in the absence of the chair. The department of transportation shall provide all administrative and staff support for the council.

(2) The purpose of the council is to make recommendations, based on the findings of the assessment and analysis completed under RCW 47.68.390 and 47.68.400, regarding how best to meet the statewide commercial and general aviation capacity needs, as determined by the council. The council shall determine which regions of the state are in need of improvement regarding the matching of existing, or projected, airport facilities, and the long-range capacity needs at airports within the region expected to reach capacity before the year 2030. After determining these areas, the council shall make recommendations regarding the placement of future commercial and general aviation airport facilities designed to meet the need for improved aviation planning in the region. The council shall include public input in making final recommendations.

(3) The council shall submit its recommendations to the appropriate standing committees of the legislature, the governor, the transportation commission, and applicable regional transportation planning organizations.

(4) This section expires July 1, 2009. [2005 c 316 § 3.]

47.76.200 Legislative findings. The legislature finds that a balanced multimodal transportation system is required to maintain the state's commitment to the growing mobility needs of its citizens and commerce. The state's freight rail system, including branch lines, mainlines, rail corridors, terminals, yards, and equipment, is an important element of this multimodal system. Washington's economy relies heavily upon the freight rail system to ensure movement of the state's agricultural, chemical, and natural resources and manufactured products to local, national, and international markets and thereby contributes to the economic vitality of the state.

Since 1970, Washington has lost over one-third of its rail miles to abandonment and bankruptcies. The combination of rail abandonments and rail system capacity constraints may alter the delivery to market of many commodities. In addition,

the resultant motor vehicle freight traffic increases the burden on state highways and county roads. In many cases, the cost of maintaining and upgrading the state highways and county roads exceeds the cost of maintaining rail freight service. Thus, the economy of the state will be best served by a policy of maintaining and encouraging a healthy rail freight system by creating mechanisms that keep rail freight lines operating if the benefits of the service outweigh the cost.

Recognizing the implications of this trend for freight mobility and the state's economic future, the legislature finds that better freight rail planning, better cooperation to preserve rail lines, and increased financial assistance from the state are necessary to maintain and improve the freight rail system within the state. [1995 c 380 § 1; 1993 c 224 § 1; 1983 c 303 § 4. Formerly RCW 47.76.010.]

Severability—1983 c 303: See RCW 36.60.905.

47.76.210 State freight rail program. The Washington state department of transportation shall implement a state freight rail program that supports the freight rail service objectives identified in the state's multimodal transportation plan required under chapter 47.06 RCW. The support may be in the form of projects and strategies that support branch lines and light-density lines, provide access to ports, maintain adequate mainline capacity, and preserve or restore rail corridors and infrastructure. [1995 c 380 § 2; 1990 c 43 § 2. Formerly RCW 47.76.110.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.220 State rail plan—Contents. (1) The department of transportation shall prepare and periodically update a state rail plan, the objective of which is to identify, evaluate, and encourage essential rail services. The plan shall:

- (a) Identify and evaluate mainline capacity issues;
- (b) Identify and evaluate port-to-rail access and congestion issues;
- (c) Identify and evaluate those rail freight lines that may be abandoned or have recently been abandoned;
- (d) Quantify the costs and benefits of maintaining rail service on those lines that are likely to be abandoned;
- (e) Establish priorities for determining which rail lines should receive state support. The priorities should include the anticipated benefits to the state and local economy, the anticipated cost of road and highway improvements necessitated by the abandonment or capacity constraints of the rail line, the likelihood the rail line receiving funding can meet operating costs from freight charges, surcharges on rail traffic, and other funds authorized to be raised by a county or port district, and the impact of abandonment or capacity constraints on changes in energy utilization and air pollution;
- (f) Identify and describe the state's rail system;
- (g) Prepare a state freight rail system map;
- (h) Identify and evaluate rail commodity flows and traffic types;
- (i) Identify lines and corridors that have been rail banked or preserved; and
- (j) Identify and evaluate other issues affecting the state's rail traffic.

(2) The state rail plan may be prepared in conjunction with the rail plan prepared by the department pursuant to the

federal Railroad Revitalization and Regulatory Reform Act. [1995 c 380 § 3; 1993 c 224 § 2; 1985 c 432 § 1; 1983 c 303 § 5. Formerly RCW 47.76.020.]

Severability—1983 c 303: See RCW 36.60.905.

47.76.230 Freight rail planning—Railroad safety. (1)

The department of transportation shall continue its responsibility for the development and implementation of the state rail plan and programs, and the utilities and transportation commission shall continue its responsibility for railroad safety issues.

(2) The department of transportation shall maintain an enhanced data file on the rail system. Proprietary annual station traffic data from each railroad and the modal use of major shippers must be obtained to the extent that such information is available.

(3) The department of transportation shall provide technical assistance, upon request, to state agencies and local interests. Technical assistance includes, but is not limited to, the following:

(a) Rail project cost-benefit analyses conducted in accordance with methodologies recommended by the federal railroad administration;

(b) Assistance in the formation of county rail districts and port districts; and

(c) Feasibility studies for rail service continuation or rail service assistance, or both.

(4) With funding authorized by the legislature, the department of transportation, in collaboration with the department of community, trade, and economic development, and local economic development agencies, and other interested public and private organizations, shall develop a cooperative process to conduct community and business information programs and to regularly disseminate information on rail matters. [2007 c 234 § 94; 1995 c 380 § 4; 1990 c 43 § 3. Formerly RCW 47.76.120.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.240 Rail preservation program. The state, counties, local communities, ports, railroads, labor, and shippers all benefit from continuation of rail service and should participate in its preservation. Lines that provide benefits to the state and local jurisdictions, such as avoided roadway costs, reduced traffic congestion, economic development potential, environmental protection, and safety, should be assisted through the joint efforts of the state, local jurisdictions, and the private sector.

State funding for rail service, rail preservation, and corridor preservation projects must benefit the state's interests. The state's interest is served by reducing public roadway maintenance and repair costs, increasing economic development opportunities, increasing domestic and international trade, preserving jobs, and enhancing safety. State funding for projects is contingent upon appropriate local jurisdiction and private sector participation and cooperation. Before spending state moneys on projects, the department shall seek federal, local, and private funding and participation to the greatest extent possible.

(1) The department of transportation shall continue to monitor the status of the state's mainline and branchline com-

mon carrier railroads and preserved rail corridors through the state rail plan and various analyses, and shall seek alternatives to abandonment prior to interstate commerce commission proceedings, where feasible.

(2) The utilities and transportation commission shall intervene in proceedings of the surface transportation board, or its successor agency, on abandonments, when necessary, to protect the state's interest.

(3) The department of transportation, in consultation with the Washington state freight rail policy advisory committee, shall establish criteria for evaluating rail projects and corridors of significance to the state.

(4) Local jurisdictions may implement rail service preservation projects in the absence of state participation.

(5) The department of transportation shall continue to monitor projects for which it provides assistance. [2007 c 234 § 95; 1995 c 380 § 5; 1993 c 224 § 3; 1990 c 43 § 4. Formerly RCW 47.76.130.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.250 Essential rail assistance account—Purposes. (1) The essential rail assistance account is created in the state treasury. Moneys in the account may be appropriated only for the purposes specified in this section.

(2) Moneys appropriated from the account to the department of transportation may be used by the department or distributed by the department to cities, county rail districts, counties, economic development councils, and port districts for the purpose of:

(a) Acquiring, rebuilding, rehabilitating, or improving rail lines;

(b) Purchasing or rehabilitating railroad equipment necessary to maintain essential rail service;

(c) Constructing railroad improvements to mitigate port access or mainline congestion;

(d) Construction of loading facilities to increase business on light density lines or to mitigate the impacts of abandonment;

(e) Preservation, including operation, of light density lines, as identified by the Washington state department of transportation, in compliance with this chapter; or

(f) Preserving rail corridors for future rail purposes by purchase of rights-of-way. The department shall first pursue transportation enhancement program funds, available under the federal surface transportation program, to the greatest extent practicable to preserve rail corridors. Purchase of rights-of-way may include track, bridges, and associated elements, and must meet the following criteria:

(i) The right-of-way has been identified and evaluated in the state rail plan prepared under this chapter;

(ii) The right-of-way may be or has been abandoned; and

(iii) The right-of-way has potential for future rail service.

(3) The department or the participating local jurisdiction is responsible for maintaining any right-of-way acquired under this chapter, including provisions for drainage management, fire and weed control, and liability associated with ownership.

(4) Nothing in this section impairs the reversionary rights of abutting landowners, if any, without just compensation.

(5) The department, cities, county rail districts, counties, and port districts may grant franchises to private railroads for the right to operate on lines acquired under this chapter.

(6) The department, cities, county rail districts, counties, and port districts may grant trackage rights over rail lines acquired under this chapter.

(7) If rail lines or rail rights-of-way are used by county rail districts, port districts, state agencies, or other public agencies for the purposes of rail operations and are later abandoned, the rail lines or rail rights-of-way cannot be used for any other purposes without the consent of the underlying fee title holder or reversionary rights holder, or until compensation has been made to the underlying fee title holder or reversionary rights holder.

(8) The department of transportation shall develop criteria for prioritizing freight rail projects that meet the minimum eligibility requirements for state assistance under RCW 47.76.240. The department shall develop criteria in consultation with the Washington state freight rail policy advisory committee. Project criteria should consider the level of local financial commitment to the project as well as cost/benefit ratio. Counties, local communities, railroads, shippers, and others who benefit from the project should participate financially to the greatest extent practicable.

(9) Moneys received by the department from franchise fees, trackage rights fees, and loan payments shall be redeposited in the essential rail assistance account. Repayment of loans made under this section shall occur within a period not longer than fifteen years, as set by the department. The repayment schedule and rate of interest, if any, shall be determined before the distribution of the moneys.

(10) The state shall maintain a contingent interest in any equipment, property, rail line, or facility that has outstanding grants or loans. The owner may not use the line as collateral, remove track, bridges, or associated elements for salvage, or use it in any other manner subordinating the state's interest without permission from the department.

(11) Moneys distributed under this chapter should be provided as loans wherever practicable. Except as provided by section 3, chapter 73, Laws of 1996, for improvements on or to privately owned railroads, railroad property, or other private property, moneys distributed shall be provided solely as loans. (2) The department shall first give notice of the sale by publication on the same day of the week for two consecutive weeks, with the first publication at least two weeks before the date of the auction, in a legal newspaper of general circulation in the area where the property to be sold is located. The notice shall be placed in both the legal notices section and the real estate classified section of the newspaper. The notice shall contain a description of the property, the time and place of the auction, and the terms of the sale. The sale may be for cash or by real estate contract.

(3) In accordance with the terms set forth in the notice, the department shall sell the property at the public auction to the highest and best bidder if the bid is equal to or higher than the appraised fair market value of the property.

(2008 Ed.)

(4) If no bids are received at the auction or if all bids are rejected, the department may, in its discretion, enter into negotiations for the sale of the property or may list the property with a licensed real estate broker. No property may be sold by negotiations or through a broker for less than the property's appraised fair market value. Any offer to purchase real property under this subsection shall be in writing and may be rejected at any time before written acceptance by the department.

47.76.350 Monitoring federal rail policies. The department of transportation shall continue to monitor federal rail policies and congressional action and communicate to Washington's congressional delegation and federal transportation agencies the need for a balanced transportation system and associated funding. [1990 c 43 § 10. Formerly RCW 47.76.190.]

Construction—Severability—Headings—1990 c 43: See notes following RCW 81.100.010.

47.76.400 Produce railcar pool—Findings—Intent. The legislature finds that an actively coordinated and cooperatively facilitated railcar pool for transportation of perishable agricultural commodities is necessary for the continued viability and competitiveness of Washington's agricultural industry. The legislature also finds that the rail transportation model established by the Washington Grain Train program has been successful in serving the shipping needs of the wheat industry.

It is, therefore, the intent of the legislature to authorize and direct the Washington department of transportation to develop a railcar program for Washington's perishable commodity industries to be known as the Washington Produce Railcar Pool. This railcar program should be modeled from the Washington Grain Train program, but be made flexible enough to work with entities outside state government in order to fulfill its mission, including, but not limited to, the federal and local governments, commodity commissions, and private entities. [2003 c 191 § 1.]

47.76.410 Produce railcar pool—Definition. As used in RCW 47.76.400 through 47.76.450 "short line railroad" means a Class II or Class III railroad as defined by the United States Surface Transportation Board. [2003 c 191 § 2.]

47.76.420 Produce railcar pool—Departmental authority. In addition to powers otherwise granted by law, the department may establish a Washington Produce Railcar Pool to promote viable, cost-effective rail service for Washington produce, including but not limited to apples, onions, pears, and potatoes, both processed and fresh.

To the extent that funds are appropriated, the department may:

- (1) Operate the Washington Produce Railcar Pool program while working in close coordination with the department of agriculture, interested commodity commissions, port districts, and other interested parties;
- (2) For the purposes of this program:
 - (a) Purchase or lease new or used refrigerated railcars;
 - (b) Accept donated refrigerated railcars; and
 - (c) Refurbish and remodel the railcars;
- (3) Hire, in consultation with affected stakeholders, including but not limited to short line railroads, commodity commissions, and port districts, a transportation management firm to perform the function outlined in RCW 47.76.440; and
- (4) Contribute the efforts of a short line rail-financing expert to find funding for the project to help interested short line railroads in this state to accomplish the necessary operating arrangements once the railcars are ready for service. [2003 c 191 § 3.]

47.76.430 Produce railcar pool—Funding. To the extent that funds are appropriated, the department shall fund the program as follows: The department may accept funding from the federal government, or other public or private sources, to purchase or lease new or used railcars and to refurbish and remodel the railcars as needed. Nothing in this section precludes other entities, including but not limited to short line railroads, from performing the remodeling under RCW 47.76.400 through 47.76.450. [2003 c 191 § 4.]

47.76.440 Produce railcar pool—Management. (1) The transportation management firm hired under RCW 47.76.420(3) shall manage the day-to-day operations of the railcars, such as monitoring the location of the cars, returning them to this state, distributing them, arranging for pretrips and repairs, and arranging for per diem, mileage allowances, and other freight billing charges with the railroads.

(2) The railcar pool must be managed over the life of the railcars so that the railcars will be distributed to railroads and port districts around the state for produce loadings as market conditions warrant or to other users, including out-of-state users by contractual agreement, during times of excess capacity.

(3) To maximize railcar availability and use, the department or the transportation management firm may make agreements with the transcontinental railroad systems to pool Washington-owned or Washington-managed railcars with those of the railroads. In such instances, the railroad must agree to provide immediately an equal number of railcars to the Washington railcar pool.

(4) The department shall act in an oversight role to verify that the railcar pool is managed in accordance with subsections (2) and (3) of this section. [2003 c 191 § 5.]

[Title 47 RCW—page 236]

47.76.450 Produce railcar pool account. The produce railcar pool account is created in the custody of the state treasurer. All receipts from per diem charges, mileage charges, and freight billing charges paid by railroads and shippers that use the railcars in the Washington Produce Railcar Pool must be deposited into the account. Expenditures from the account may be used only for the purposes of RCW 47.76.400 through 47.76.440. Only the secretary of transportation or the secretary's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures. [2003 c 191 § 6.]

47.79.010 Legislative declaration. The legislature recognizes that major intercity transportation corridors in this state are becoming increasingly congested. In these corridors, population is expected to grow by nearly forty percent over the next twenty years, while employment will grow by nearly fifty percent. The estimated seventy-five percent increase in intercity travel demand must be accommodated to ensure state economic vitality and protect the state’s quality of life.

The legislature finds that high-speed ground transportation offers a safer, more efficient, and environmentally responsible alternative to increasing highway capacity. High-speed ground transportation can complement and enhance existing air transportation systems. High-speed ground transportation can be compatible with growth management plans in counties and cities served by such a system. Further, high-speed ground transportation offers a reliable, all-weather service capable of significant energy savings over other intercity modes. [1993 c 381 § 1.]

47.79.020 Program established—Goals. The legislature finds that there is substantial public benefit to establishing a high-speed ground transportation program in this state. The program shall implement the recommendations of the high-speed ground transportation steering committee report dated October 15, 1992. The program shall be administered by the department of transportation in close cooperation with the utilities and transportation commission and affected cities and counties.

The high-speed ground transportation program shall have the following goals:

- (1) Implement high-speed ground transportation service offering top speeds over 150 m.p.h. between Everett and Portland, Oregon by 2020. This would be accomplished by meeting the intermediate objectives of a maximum travel time between downtown Portland and downtown Seattle of two hours and thirty minutes by the year 2000 and maximum travel time of two hours by the year 2010;
- (2) Implement high-speed ground transportation service offering top speeds over 150 m.p.h. between Everett and Vancouver, B.C. by 2025;
- (3) Implement high-speed ground transportation service offering top speeds over 150 m.p.h. between Seattle and Spokane by 2030.

The department of transportation shall, subject to legislative appropriation, implement such projects as necessary to achieve these goals in accordance with the implementation plans identified in RCW 47.79.030 and 47.79.040. [1993 c 381 § 2.]

47.79.030 Project priority—Funding sources. The legislature finds it important to develop public support and

(2008 Ed.)

awareness of the benefits of high-speed ground transportation by developing high-quality intercity passenger rail service as a first step. This high-quality intercity passenger rail service shall be developed through incremental upgrading of the existing service. The department of transportation shall, subject to legislative appropriation, develop a prioritized list of projects to improve existing passenger rail service and begin new passenger rail service, to include but not be limited to:

- (1) Improvement of depots;
- (2) Improved grade crossing protection or grade crossing elimination;
- (3) Enhanced train signals to improve rail corridor capacity and increase train speeds;
- (4) Revised track geometry or additional trackage to improve ride quality and increase train speeds; and
- (5) Contract for new or improved service in accordance with federal requirements to improve service frequency.

Service enhancements and station improvements must be based on the extent to which local comprehensive plans contribute to the viability of intercity passenger rail service, including providing efficient connections with other transportation modes such as transit, intercity bus, and roadway networks. Before spending state moneys on these projects, the department of transportation shall seek federal, local, and private funding participation to the greatest extent possible. Funding priorities for station improvements must also be based on the level of local and private in-kind and cash contributions. [1993 c 381 § 3.]

47.79.040 Rail passenger plan. The legislature recognizes the need to plan for the high-speed ground transportation service and the high-quality intercity rail passenger service set forth in RCW 47.79.020 and 47.79.030. The department of transportation shall, subject to legislative appropriation, develop a rail passenger plan through the conduct of studies addressing, but not limited to, the following areas:

- (1) Refined ridership estimates;
- (2) Preliminary location and environmental analysis on new corridors;
- (3) Detailed station location assessments in concert with affected local jurisdictions;
- (4) Coordination with the air transportation commission on statewide air transportation policy and its effects on high-speed ground transportation service; and
- (5) Coordination with the governments of Oregon and British Columbia, when appropriate, on alignment, station location, and environmental analysis. [1993 c 381 § 4.]

47.79.050 Facility acquisition and management. Subject to appropriation, the department is authorized to acquire by purchase, lease, condemnation, gift, devise, bequest, grant, or exchange, title to or any interests or rights in real property adjacent to or used in association with state intercity passenger rail service which may include, but are not limited to, depots, platforms, parking areas, and maintenance facilities. The department is authorized to contract with a public or private entity for the operation, maintenance, and/or management of these facilities. [1999 c 253 § 1.]

47.79.060 Gifts. Subject to appropriation, the department is authorized to accept and expend or use gifts, grants, and donations for the benefit of any depot, platform, parking area, maintenance facility, or other associated rail facility. However, such an expenditure shall be for the public benefit of the state's intercity passenger rail service. [1999 c 253 § 2.]

47.79.070 Adjacent real property. Subject to appropriation, the department is authorized to exercise all the powers and perform all the duties necessary, convenient, or incidental to the planning, designing, constructing, improving, repairing, operating, and maintaining real property adjacent to or used in association with the state intercity passenger rail service which may include, but are not limited to, depots, platforms, parking areas, and maintenance facilities, even if such real property is owned or controlled by another entity. However, any expenditure of public funds for these purposes shall be directly related to public benefit of the state's intercity passenger rail service. The department shall enter into a written contract with the affected real property owners to secure the public's investment. [1999 c 253 § 3.]

47.79.110 King Street station—Findings. The legislature finds that a balanced, multimodal transportation system is an essential element of the state's infrastructure, and that effective rail passenger service is an integral part of a balanced, multimodal transportation system. The legislature further finds that the King Street railroad station is the key hub for both Puget Sound's intermodal passenger transportation system and the state's rail passenger system. The legislature recognizes that the redevelopment of the King Street railroad station depot, along with necessary and related properties, is critical to its continued functioning as a transportation hub and finds that innovative funding arrangements can materially assist in furthering the redevelopment at reduced public expense. [2001 c 62 § 1.]

Effective date—2001 c 62: "Due to the irrevocable expiration of federal and Amtrak funds critical to the redevelopment of the King Street railroad station on or before June 30, 2001, sections 1 through 6 of this act are necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and take effect immediately [April 18, 2001]." [2001 c 62 § 7.]

47.79.120 King Street station—Acquisition. The department may acquire, or contract to acquire, by purchase, lease, option to lease or purchase, condemnation, gift, devise, bequest, grant, or exchange of title, the King Street railroad station depot located in Seattle, or any interests or rights in it, and other real property and improvements adjacent to, or used in association with, the King Street railroad station depot. The property may include, but not be limited to, the depot, platforms, parking areas, pedestrian and vehicle access areas, and maintenance facilities. These properties, in the aggregate, will be known as the King Street railroad station. [2001 c 62 § 2.]

Effective date—2001 c 62: See note following RCW 47.79.110.

47.79.130 King Street station—Department's powers and duties. During all periods that the department contracts to own or lease some, or all, of the King Street railroad station

properties, the department may exercise all the powers and perform all the duties necessary, convenient, or incidental for planning, designing, constructing, improving, repairing, renovating, restoring, operating, and maintaining the King Street railroad station properties. These powers also include authority to lease or sell, assign, sublease, or otherwise transfer all, or portions of, the King Street railroad station properties for transportation or other public or private purposes and to contract with other public or private entities for the operation, administration, maintenance, or improvement of the King Street railroad station properties after the department takes possession of some, or all, of the properties, as the secretary deems appropriate. If the department transfers any of its fee ownership interests in the King Street railroad station properties, proceeds from the transaction must be placed in an account that supports multimodal programs, but not into an account restricted by Article II, section 40 of the state Constitution. [2001 c 62 § 3.]

Effective date—2001 c 62: See note following RCW 47.79.110.

47.79.140 King Street station—Leases and contracts for multimodal terminal. To facilitate tax exempt financing for the acquisition and improvement of the King Street railroad station, the department may lease from or contract with public or private entities for the acquisition, lease, operation, maintenance, financing, renovation, restoration, or management of some, or all, of the King Street railroad station properties as a multimodal terminal that supports the state intercity passenger rail service. The leases or contracts are not subject to either chapter 39.94 or 43.82 RCW. The leases and contracts will expire no later than fifty years from the time they are executed, and at that time the department will either receive title or have the right to receive title to the financed property without additional obligation to compensate the owner of those properties for the acquisition of them. The secretary may take all actions necessary, convenient, or incidental to the financing. [2001 c 62 § 4.]

Effective date—2001 c 62: See note following RCW 47.79.110.

47.79.150 King Street railroad station facility account. (1) The department may establish the King Street railroad station facility account as an interest-bearing local account. Receipts from the sources listed in subsection (2) of this section must be deposited into the account. Nothing in this section is a pledge of funds deposited to the account for repayment of tax exempt financing related to the King Street railroad station. The department may invest funds from the account as permitted by law and may enter into contracts with financial advisors as deemed necessary for that purpose. Only the secretary or the secretary's designee may authorize expenditures from the account.

(2) All funds appropriated to the King Street railroad station facility account by the legislature; all contributions, payments, grants, gifts, and donations to the account from other public or private entities; all receipts from departmental transactions involving capital facility sales, transfers, property leases and rents, incomes, and parking fees associated with the King Street railroad station; as well as all investment income associated with the account must be deposited into

the King Street railroad station facility account for purposes specified in subsection (3) of this section.

(3) All funds deposited into the King Street railroad station facility account must be expended by the department solely to pay the following expenses:

(a) Costs for management of the account;

(b) Purchase and acquisition costs for King Street railroad station properties;

(c) Payments, including incidental expenses, relating to the King Street railroad station depot as required by a lease or contract under RCW 47.79.140;

(d) Maintenance and operating costs for the King Street railroad station properties; and

(e) Capital improvement projects initiated by the department associated with, and for the benefit of, the King Street railroad station depot occurring after the date of the department's beneficial occupancy of the renovated King Street railroad station depot, and for capital improvement projects initiated at any time by the department for the benefit of King Street railroad station properties other than the depot including, but not limited to, improvements to associated platforms, parking areas, temporary buildings, maintenance facilities, pedestrian access, and other improvements essential to the operation of the station as a multimodal terminal.

(4) Nothing in this section is intended to restrict the right of the department from otherwise funding purchase, acquisition, capital improvement, maintenance, rental, operational, and other incidental costs relating to the King Street railroad station from appropriations and resources that are not designated for deposit in the King Street railroad station facility account. [2001 c 62 § 5.]

Effective date—2001 c 62: See note following RCW 47.79.110.

47.79.900 Effective date—1993 c 381. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and shall take effect July 1, 1993. [1993 c 381 § 5.]

47.80.903	Severability—1994 c 158.
47.80.904	Effective date—1994 c 158.

47.80.010 Findings—Declaration. The legislature finds that while the transportation system in Washington is owned and operated by numerous public jurisdictions, it

should function as one interconnected and coordinated system. Transportation planning, at all jurisdictional levels, should be coordinated with local comprehensive plans. Further, local jurisdictions and the state should cooperate to achieve both statewide and local transportation goals. To facilitate this coordination and cooperation among state and local jurisdictions, the legislature declares it to be in the state's interest to establish a coordinated planning program for regional transportation systems and facilities throughout the state. [1990 1st ex.s. c 17 § 53.]

47.80.011 Legislative intent. The legislature recognizes that recent legislative enactments have significantly added to the complexity of and to the potential for benefits from integrated transportation and comprehensive planning and that there is currently a unique opportunity for integration of local comprehensive plans and regional goals with state and local transportation programs. Further, approaches to transportation demand management initiatives and local and state transportation funding can be better coordinated to insure an efficient, effective transportation system that insures mobility and accessibility, and addresses community needs.

The legislature further finds that transportation and land use share a critical relationship that policy makers can better utilize to address regional strategies.

Prudent and cost-effective investment by the state and by local governments in highway facilities, local streets and arterials, rail facilities, marine facilities, nonmotorized transportation facilities and systems, public transit systems, transportation system management, transportation demand management, and the development of high capacity transit systems can help to effectively address mobility needs. Such investment can also enhance local and state objectives for effective comprehensive planning, economic development strategies, and clean air policies.

The legislature finds that addressing public initiatives regarding transportation and comprehensive planning necessitates an innovative approach. Improved integration between transportation and comprehensive planning among public institutions, particularly in the state's largest metropolitan areas is considered by the state to be imperative, and to have significant benefit to the citizens of Washington. [1994 c 158 § 1.]

47.80.020 Regional transportation planning organizations authorized. The legislature hereby authorizes creation of regional transportation planning organizations within the state. Each regional transportation planning organization shall be formed through the voluntary association of local governments within a county, or within geographically contiguous counties. Each organization shall:

- (1) Encompass at least one complete county;
- (2) Have a population of at least one hundred thousand, or contain a minimum of three counties; and
- (3) Have as members all counties within the region, and at least sixty percent of the cities and towns within the region representing a minimum of seventy-five percent of the cities' and towns' population.

The state department of transportation must verify that each regional transportation planning organization conforms with the requirements of this section.

In urbanized areas, the regional transportation planning organization is the same as the metropolitan planning organization designated for federal transportation planning purposes. [1990 1st ex.s. c 17 § 54.]

47.80.023 Duties. Each regional transportation planning organization shall have the following duties:

(1) Prepare and periodically update a transportation strategy for the region. The strategy shall address alternative transportation modes and transportation demand management measures in regional corridors and shall recommend preferred transportation policies to implement adopted growth strategies. The strategy shall serve as a guide in preparation of the regional transportation plan.

(2) Prepare a regional transportation plan as set forth in RCW 47.80.030 that is consistent with county-wide planning policies if such have been adopted pursuant to chapter 36.70A RCW, with county, city, and town comprehensive plans, and state transportation plans.

(3) Certify by December 31, 1996, that the transportation elements of comprehensive plans adopted by counties, cities, and towns within the region reflect the guidelines and principles developed pursuant to RCW 47.80.026, are consistent with the adopted regional transportation plan, and, where appropriate, conform with the requirements of RCW 36.70A.070.

(4) Where appropriate, certify that county-wide planning policies adopted under RCW 36.70A.210 and the adopted regional transportation plan are consistent.

(5) Develop, in cooperation with the department of transportation, operators of public transportation services and local governments within the region, a six-year regional transportation improvement program which proposes regionally significant transportation projects and programs and transportation demand management measures. The regional transportation improvement program shall be based on the programs, projects, and transportation demand management measures of regional significance as identified by transit agencies, cities, and counties pursuant to RCW 35.58.2795, 35.77.010, and 36.81.121, respectively. The program shall include a priority list of projects and programs, project segments and programs, transportation demand management measures, and a specific financial plan that demonstrates how the transportation improvement program can be funded. The program shall be updated at least every two years for the ensuing six-year period.

(6) Designate a lead planning agency to coordinate preparation of the regional transportation plan and carry out the other responsibilities of the organization. The lead planning agency may be a regional organization, a component county, city, or town agency, or the appropriate Washington state department of transportation district office.

(7) Review level of service methodologies used by cities and counties planning under chapter 36.70A RCW to promote a consistent regional evaluation of transportation facilities and corridors.

(8) Work with cities, counties, transit agencies, the department of transportation, and others to develop level of

service standards or alternative transportation performance measures.

(9) Submit to the agency council on coordinated transportation, as provided in chapter 47.06B RCW, beginning on July 1, 2007, and every four years thereafter, an updated plan that includes the elements identified by the council. Each regional transportation planning organization must submit to the council every two years a prioritized regional human service and transportation project list. [2007 c 421 § 5; 1998 c 171 § 8; 1994 c 158 § 2.]

47.80.026 Comprehensive plans, transportation guidelines, and principles.

Each regional transportation planning organization, with cooperation from component cities, towns, and counties, shall establish guidelines and principles by July 1, 1995, that provide specific direction for the development and evaluation of the transportation elements of comprehensive plans, where such plans exist, and to assure that state, regional, and local goals for the development of transportation systems are met. These guidelines and principles shall address at a minimum the relationship between transportation systems and the following factors: Concentration of economic activity, residential density, development corridors and urban design that, where appropriate, supports high capacity transit, freight transportation and port access, development patterns that promote pedestrian and nonmotorized transportation, circulation systems, access to regional systems, effective and efficient highway systems, the ability of transportation facilities and programs to retain existing and attract new jobs and private investment and to accommodate growth in demand, transportation demand management, joint and mixed use developments, present and future railroad right-of-way corridor utilization, and intermodal connections.

Examples shall be published by the organization to assist local governments in interpreting and explaining the requirements of this section. [1994 c 158 § 3.]

47.80.030 Regional transportation plan—Contents, review, use.

(1) Each regional transportation planning organization shall develop in cooperation with the department of transportation, providers of public transportation and high capacity transportation, ports, and local governments within the region, adopt, and periodically update a regional transportation plan that:

(a) Is based on a least cost planning methodology that identifies the most cost-effective facilities, services, and programs;

(b) Identifies existing or planned transportation facilities, services, and programs, including but not limited to major roadways including state highways and regional arterials, transit and nonmotorized services and facilities, multimodal and intermodal facilities, marine ports and airports, railroads, and noncapital programs including transportation demand management that should function as an integrated regional transportation system, giving emphasis to those facilities, services, and programs that exhibit one or more of the following characteristics:

(i) Crosses member county lines;

(ii) Is or will be used by a significant number of people who live or work outside the county in which the facility, service, or project is located;

(iii) Significant impacts are expected to be felt in more than one county;

(iv) Potentially adverse impacts of the facility, service, program, or project can be better avoided or mitigated through adherence to regional policies;

(v) Transportation needs addressed by a project have been identified by the regional transportation planning process and the remedy is deemed to have regional significance; and

(vi) Provides for system continuity;

(c) Establishes level of service standards for state highways and state ferry routes, with the exception of transportation facilities of statewide significance as defined in RCW 47.06.140. These regionally established level of service standards for state highways and state ferries shall be developed jointly with the department of transportation, to encourage consistency across jurisdictions. In establishing level of service standards for state highways and state ferries, consideration shall be given for the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local commuters using state facilities;

(d) Includes a financial plan demonstrating how the regional transportation plan can be implemented, indicating resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommending any innovative financing techniques to finance needed facilities, services, and programs;

(e) Assesses regional development patterns, capital investment and other measures necessary to:

(i) Ensure the preservation of the existing regional transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit, railroad systems and corridors, and nonmotorized facilities; and

(ii) Make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods;

(f) Sets forth a proposed regional transportation approach, including capital investments, service improvements, programs, and transportation demand management measures to guide the development of the integrated, multimodal regional transportation system. For regional growth centers, the approach must address transportation concurrency strategies required under RCW 36.70A.070 and include a measurement of vehicle level of service for off-peak periods and total multimodal capacity for peak periods; and

(g) Where appropriate, sets forth the relationship of high capacity transportation providers and other public transit providers with regard to responsibility for, and the coordination between, services and facilities.

(2) The organization shall review the regional transportation plan biennially for currency and forward the adopted plan along with documentation of the biennial review to the state department of transportation.

(3) All transportation projects, programs, and transportation demand management measures within the region that have an impact upon regional facilities or services must be consistent with the plan and with the adopted regional growth and transportation strategies. [2005 c 328 § 2; 1998 c 171 § 9; 1994 c 158 § 4; 1990 1st ex.s. c 17 § 55.]

47.80.040 Transportation policy boards. Each regional transportation planning organization shall create a transportation policy board. Transportation policy boards shall provide policy advice to the regional transportation planning organization and shall allow representatives of major employers within the region, the department of transportation, transit districts, port districts, and member cities, towns, and counties within the region to participate in policy making. Any members of the house of representatives or the state senate whose districts are wholly or partly within the boundaries of the regional transportation planning organization are considered ex officio, nonvoting policy board members of the regional transportation planning organization. This does not preclude legislators from becoming full-time, voting board members. [2003 c 351 § 1; 1990 1st ex.s. c 17 § 56.]

47.80.050 Allocation of regional transportation planning funds. Biennial appropriations to the department of transportation to carry out the regional transportation planning program shall set forth the amounts to be allocated as follows:

(1) A base amount per county for each county within each regional transportation planning organization, to be distributed to the lead planning agency;

(2) An amount to be distributed to each lead planning agency on a per capita basis; and

(3) An amount to be administered by the department of transportation as a discretionary grant program for special regional planning projects, including grants to allow counties which have significant transportation interests in common with an adjoining region to also participate in that region's planning efforts. [1990 1st ex.s. c 17 § 57.]

47.80.060 Executive board membership. In order to qualify for state planning funds available to regional transportation planning organizations, the regional transportation planning organizations containing any county with a population in excess of one million shall provide voting membership on its executive board to the state transportation commission, the state department of transportation, the four largest public port districts within the region as determined by gross operating revenues, any incorporated principal city of a metropolitan statistical area within the region, as designated by the United States census bureau, and any incorporated city within the region with a population in excess of eighty thousand. It shall further assure that at least fifty percent of the county and city local elected officials who serve on the executive board also serve on transit agency boards or on a regional transit authority. [2007 c 511 § 1; 2005 c 334 § 1; 1992 c 101 § 31.]

47.80.070 Statewide consistency. In order to ensure statewide consistency in the regional transportation planning process, the state department of transportation, in conformance with chapter 34.05 RCW, shall:

(1) In cooperation with regional transportation planning organizations, establish minimum standards for development of a regional transportation plan;

(2) Facilitate coordination between regional transportation planning organizations; and

(3) Through the regional transportation planning process, and through state planning efforts as required by RCW 47.01.071, identify and jointly plan improvements and strategies within those corridors important to moving people and goods on a regional or statewide basis. [1994 c 158 § 5.]

47.80.080 Majority vote on state matters. When voting on matters solely affecting Washington state, a regional transportation planning organization must obtain a majority vote of the Washington residents serving as members of the regional transportation planning organization before a matter may be adopted. [2003 c 351 § 2.]

Upon the termination of such legal obligations, the child shall not be considered a dependent child for insurance purposes.

(2) Every policy or contract providing coverage for health benefits to a resident of this state shall provide coverage for dependent children placed for adoption under the same terms and conditions as apply to the natural, dependent children of the insured, subscriber, or enrollee whether or not the adoption has become final.

(3) No policy or contract may restrict coverage of any dependent child adopted by, or placed for adoption with, an insured, subscriber, or enrollee solely on the basis of a preexisting condition of the child at the time that the child would otherwise become eligible for coverage under the plan if the adoption or placement for adoption occurs while the insured, subscriber, or enrollee is eligible for coverage under the plan. [1995 c 34 § 4; 1986 c 140 § 1.]

Effective date, application—1986 c 140: "This act shall take effect January 1, 1987, and shall apply to all contracts or agreements issued, renewed, or delivered on or after January 1, 1987." [1986 c 140 § 6.]

(1) Any person who files reports, or furnishes other information, required under Title 48 RCW, required by the commissioner under authority granted by Title 48 RCW, useful to the commissioner in the administration of Title 48 RCW, or furnished to the National Association of Insurance Commissioners at the request of the commissioner or pursuant to Title 48 RCW, shall be immune from liability in any civil action or suit arising from the filing of any such report or furnishing such information to the commissioner or the National Association of Insurance Commissioners, unless actual malice, fraud, or bad faith is shown.

(2) The commissioner and the National Association of Insurance Commissioners, and the agents and employees of each, are immune from liability in any civil action or suit arising from the publication of any report or bulletin or dissemination of information related to the official activities of the commissioner or the National Association of Insurance Commissioners, unless actual malice, fraud, or bad faith is shown.

(3) Any licensee under chapter 48.17 RCW and any trade association of the licensees under chapter 48.15 RCW, and any officer, director, employee, agent, or committee of the licensee or association who furnishes information to or for the commissioner or to or for the association regarding unauthorized insurers or regarding attempts by any person to place or actual placement by any person of business with the insurers, whether in compliance with chapter 48.15 RCW or not,

shall be immune from each and every kind of liability in any civil action or suit arising in whole or in part from the information or from the furnishing of the information.

(4) The immunity granted by this section is in addition to any common law or statutory privilege or immunity enjoyed by such person, and nothing in this section is intended to abrogate or modify in any way such common law or statutory privilege or immunity. [1995 c 10 § 1; 1987 c 51 § 1.]

48.01.220 Mental health regional support networks—Limited exemption. An issuer and an employee welfare benefit plan, whether insured or self funded, as defined in the employee retirement income security act of 1974, 29 U.S.C. Sec. 1101 et seq. may not consider the availability of eligibility for medical assistance in this state under medical assistance, RCW 74.09.500, or any other state under 42 U.S.C. Sec. 1396a, section 1902 of the social security act, in considering eligibility for coverage or making payments under its plan for eligible enrollees, subscribers, policyholders, or certificate holders. [1995 c 34 § 2.]

- (a) The child was born out of wedlock;
- (b) The child is not claimed as a dependent on the parent's federal tax return; or
- (c) The child does not reside with the parent or in the issuer's, or insured or self funded employee welfare benefit plan's service area.

(2) Where a child has health coverage through an issuer, or an insured or self funded employee welfare benefit plan of a noncustodial parent, the issuer, or insured or self funded employee welfare benefit plan, shall:

- (a) Provide such information to the custodial parent as may be necessary for the child to obtain benefits through that coverage;
- (b) Permit the provider or the custodial parent to submit claims for covered services without the approval of the noncustodial parent. If the provider submits the claim, the provider will obtain the custodial parent's assignment of insurance benefits or otherwise secure the custodial parent's approval.

For purposes of this subsection the department of social and health services as the state medicaid agency under RCW

74.09.500 may reassign medical insurance rights to the provider for custodial parents whose children are eligible for services under RCW 74.09.500; and

(c) Make payments on claims submitted in accordance with (b) of this subsection directly to the custodial parent, to the provider, or to the department of social and health services as the state medicaid agency under RCW 74.09.500.

(3) Where a child does not reside in the issuer's service area, an issuer shall cover no less than urgent and emergent care. Where the issuer offers broader coverage, whether by policy or reciprocal agreement, the issuer shall provide such coverage to any child otherwise covered that does not reside in the issuer's service area.

(4) Where a parent is required by a court order to provide health coverage for a child, and the parent is eligible for family health coverage, the issuer, or insured or self funded employee welfare benefit plan, shall:

(a) Permit the parent to enroll, under the family coverage, a child who is otherwise eligible for the coverage without regard to any enrollment season restrictions;

(b) Enroll the child under family coverage upon application of the child's other parent, department of social and health services as the state medicaid agency under RCW 74.09.500, or child support enforcement program, if the parent is enrolled but fails to make application to obtain coverage for such child; and

(c) Not disenroll, or eliminate coverage of, such child who is otherwise eligible for the coverage unless the issuer or insured or self funded employee welfare benefit plan is provided satisfactory written evidence that:

(i) The court order is no longer in effect; or

(ii) The child is or will be enrolled in comparable health coverage through another issuer, or insured or self funded employee welfare benefit plan, which will take effect not later than the effective date of disenrollment.

(5) An issuer, or insured or self funded employee welfare benefit plan, that has been assigned the rights of an individual eligible for medical assistance under medicaid and coverage for health benefits from the issuer, or insured or self funded employee welfare benefit plan, may not impose requirements on the department of social and health services that are different from requirements applicable to an agent or assignee of any other individual so covered. [2003 c 248 § 2; 1995 c 34 § 3.]

48.01.250 Assistance or services in exchange for dues, assessments, or periodic or lump-sum payments—Certificate of authority required—Certain travel or automobile services excepted—Violations. (1) Any person, firm, partnership, corporation, or association promising, in exchange for dues, assessments, or periodic or lump-sum payments, to furnish members or subscribers with assistance in matters relating to trip cancellation, bail bond service or any accident, sickness, or death insurance benefit program must:

(a) Have a certificate of authority, issued by the insurance commissioner, authorizing the person, firm, partnership, corporation, or association to sell that coverage in this state; or

(b) Purchase the service or insurance from a company that holds a certificate of authority, issued by the insurance

commissioner, authorizing the company to sell that coverage in this state. If coverage cannot be procured from an authorized insurer holding a certificate of authority issued by the insurance commissioner, insurance may be procured from an unauthorized insurer subject to chapter 48.15 RCW.

(2) Travel or automobile related products or assistance including but not limited to community traffic safety service, travel and touring service, theft or reward service, map service, towing service, emergency road service, lockout or lost key service, reimbursement of emergency expenses due to a vehicle disabling accident, or legal fee reimbursement service in the defense of traffic offenses shall not be considered to be insurance for the purposes of Title 48 RCW.

(3) Violation of this section is subject to the enforcement provisions of RCW 48.02.080 and to the hearing and appeal provisions of chapter 48.04 RCW. [1998 c 303 § 1.]

48.01.260 Health benefit plans—Carriers—Clarification. (1) Except as required in RCW 48.21.045, 48.44.023, and 48.46.066, nothing in this title shall be construed to require a carrier, as defined in RCW 48.43.005, to offer any health benefit plan for sale.

(2) Nothing in this title shall prohibit a carrier as defined in RCW 48.43.005 from ceasing sale of any or all health benefit plans to new applicants if the closed plans are closed to all new applicants.

(3) This section is intended to clarify, and not modify, existing law. [2000 c 79 § 40.]

Effective date—Severability—2000 c 79: See notes following RCW 48.04.010.

48.01.270 PACE programs—Exemption. The activities and operations of PACE programs, as defined in RCW 74.09.523 and as authorized under sections 1894, 1905(a), and 1934 of the social security act, when registered, certified, licensed, or otherwise recognized or designated as a PACE program by the Washington state department of social and health services, are exempt from the requirements of this title. [2001 c 191 § 3.]

Finding—Effective date—2001 c 191: See notes following RCW 74.09.523.

48.01.280 Private air ambulance service—Exempt when conditions are met. A private air ambulance service that solicits membership subscriptions, accepts membership applications, charges membership fees, and provides air ambulance services, to subscription members and designated members of their household is not an insurer under RCW 48.01.050, a health carrier under chapter 48.43 RCW, a health care services contractor under chapter 48.44 RCW, or a health maintenance organization under chapter 48.46 RCW if the private air ambulance service:

48.02.062 Mental health services—Rules. The insurance commissioner may adopt rules to implement RCW 48.21.241, 48.44.341, and 48.46.291, except that the rules do not apply to health benefit plans administered or operated under chapter 41.05 or 70.47 RCW. [2005 c 6 § 10.]

Findings—Intent—Severability—2005 c 6: See notes following RCW 41.05.600.

48.02.065 Confidentiality of documents, materials, or other information—Public disclosure. (1) Documents, materials, or other information as described in either subsection (5) or (6), or both, of this section are confidential by law and privileged, are not subject to public disclosure under chapter 42.56 RCW, and are not subject to subpoena directed to the commissioner or any person who received documents, materials, or other information while acting under the authority of the commissioner. The commissioner is authorized to use such documents, materials, or other information in the furtherance of any regulatory or legal action brought as a part of the commissioner's official duties. The confidentiality and privilege created by this section and *RCW 42.56.400(9) applies only to the commissioner, any person acting under the authority of the commissioner, the national association of insurance commissioners and its affiliates and subsidiaries, regulatory and law enforcement officials of other states and nations, the federal government, and international authorities.

(2) Neither the commissioner nor any person who received documents, materials, or other information while acting under the authority of the commissioner is permitted or required to testify in any private civil action concerning any confidential and privileged documents, materials, or information subject to subsection (1) of this section.

(3) The commissioner:

(a) May share documents, materials, or other information, including the confidential and privileged documents, materials, or information subject to subsection (1) of this sec-

tion, with (i) the national association of insurance commissioners and its affiliates and subsidiaries, and (ii) regulatory and law enforcement officials of other states and nations, the federal government, and international authorities, if the recipient agrees to maintain the confidentiality and privileged status of the document, material, or other information;

(b) May receive documents, materials, or information, including otherwise either confidential or privileged, or both, documents, materials, or information, from (i) the national association of insurance commissioners and its affiliates and subsidiaries, and (ii) regulatory and law enforcement officials of other states and nations, the federal government, and international authorities and shall maintain as confidential and privileged any document, material, or information received that is either confidential or privileged, or both, under the laws of the jurisdiction that is the source of the document, material, or information; and

(c) May enter into agreements governing the sharing and use of information consistent with this subsection.

(4) No waiver of an existing privilege or claim of confidentiality in the documents, materials, or information may occur as a result of disclosure to the commissioner under this section or as a result of sharing as authorized in subsection (3) of this section.

(5) Documents, materials, or information, which is either confidential or privileged, or both, which has been provided to the commissioner by (a) the national association of insurance commissioners and its affiliates and subsidiaries, (b) regulatory or law enforcement officials of other states and nations, the federal government, or international authorities, or (c) agencies of this state, is confidential and privileged only if the documents, materials, or information is protected from disclosure by the applicable laws of the jurisdiction that is the source of the document, material, or information.

(6) Working papers, documents, materials, or information produced by, obtained by, or disclosed to the commissioner or any other person in the course of a financial or market conduct examination, or in the course of financial analysis or market conduct desk audit, are not required to be disclosed by the commissioner unless cited by the commissioner in connection with an agency action as defined in RCW 34.05.010(3). The commissioner shall notify a party that produced the documents, materials, or information five business days before disclosure in connection with an agency action. The notified party may seek injunctive relief in any Washington state superior court to prevent disclosure of any documents, materials, or information it believes is confidential or privileged. In civil actions between private parties or in criminal actions, disclosure to the commissioner under this section does not create any privilege or claim of confidentiality or waive any existing privilege or claim of confidentiality.

(7)(a) After receipt of a public disclosure request, the commissioner shall disclose the documents, materials, or information under subsection (6) of this section that relate to a financial or market conduct examination undertaken as a result of a proposed change of control of a nonprofit or mutual health insurer governed in whole or in part by chapter 48.31B or 48.31C RCW.

(b) The commissioner is not required to disclose the documents, materials, or information in (a) of this subsection if:

(i) The documents, materials, or information are otherwise privileged or exempted from public disclosure; or

(ii) The commissioner finds that the public interest in disclosure of the documents, materials, or information is outweighed by the public interest in nondisclosure in that particular instance.

(8) Any person may petition a Washington state superior court to allow inspection of information exempt from public disclosure under subsection (6) of this section when the information is connected to allegations of negligence or malfeasance by the commissioner related to a financial or market conduct examination. The court shall conduct an in-camera review after notifying the commissioner and every party that produced the information. The court may order the commissioner to allow the petitioner to have access to the information provided the petitioner maintains the confidentiality of the information. The petitioner must not disclose the information to any other person, except upon further order of the court. After conducting a regular hearing, the court may order that the information can be disclosed publicly if the court finds that there is a public interest in the disclosure of the information and the exemption of the information from public disclosure is clearly unnecessary to protect any individual's right of privacy or any vital governmental function.
