SUBSTITUTE HOUSE BILL NO. 1089 was read the second time.

Representative Dunshee moved the adoption of amendment (522). *Format changed to accommodate text.*

Strike everything after the enacting clause and insert the following:

NEW SECTION. Sec. 1. (1) A capital budget is hereby adopted and, subject to the provisions set forth in this act, the several dollar amounts hereinafter specified, or so much thereof as shall be sufficient to accomplish the purposes designated, are hereby appropriated and authorized to be incurred for capital projects during the period beginning with the effective date of this act and ending June 30, 2015, out of the several funds specified in this act.

(2) The definitions in this subsection apply throughout this act unless the context clearly requires otherwise.

(a) "Fiscal year 2014" or "FY 2014" means the period beginning July 1, 2013, and ending June 30, 2014.

(b) "Fiscal year 2015" or "FY 2015" means the period beginning July 1, 2014, and ending June 30, 2015.

(c) "Lapse" or "revert" means the amount shall return to an unappropriated status.

(d) "Provided solely" means the specified amount may be spent only for the specified purpose.

(3) Unless otherwise specifically authorized in this act, any portion of an amount provided solely for a specified purpose that is not expended subject to the specified conditions and limitations to fulfill the specified purpose shall lapse.

(4) The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2015-2017 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

(5) "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2013, from the 2011-2013 biennial appropriations for each project.

NEW SECTION. Sec. 3022. FOR THE DEPARTMENT OF ECOLOGY
Kittitas Groundwater Study (30000029)

The reappropriation in this section is subject to the following conditions and limitations:

(1) Funds may be provided to develop and implement water banking and transfer methods and agreements that are fully protective of senior water rights and that protect domestic groundwater users and improve the profitability of farming operations. The legislature finds such activities to be in the public interest because they can help sustain the viability of the agricultural economy and enhance the certainty of water supplies for domestic groundwater users.

(2) Funds may be provided to lease or purchase water rights to create a reserve water supply for domestic groundwater users that have a groundwater right with a priority date later than May 10, 1905, as well as for all out-of-priority groundwater users. In securing water for such domestic groundwater users, strong preference must be given to the use of water banking and transfer methods that provide alternatives to permanent purchase and dry-up of agricultural water rights in the basin, including dry-year options, water banking, long-term water supply lease agreements, long-term agricultural land fallowing agreements, and reduced consumptive use through efficiency or alternative cropping arrangements while maintaining historic return flows.

(3) A portion of the reappropriation may be used for administrative costs, not to exceed four percent, and other costs associated with leasing or acquiring and transferring the water rights. All costs must be fully recovered from participating domestic water users for their prorated portion of the cost, including, but not limited to, the costs of securing a water right or rights for this purpose, costs associated with the development and implementation of alternative agricultural water transfer methods, associated annual operational costs, and federal water service contract costs owed to the United States bureau of reclamation. Funds recovered in this manner must be deposited in the state and local improvements revolving account and may be used for any purpose provided in this section.

NEW SECTION. Sec. 3140. FOR THE DEPARTMENT OF NATURAL RESOURCES
Replacing State Forest Lands with Productive Forests (91000029)

The reappropriation in this section is subject to the following conditions and limitations:

(1) The total reappropriation is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of 25,000 or less that are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act. The approved list of properties for transfer is identified in the LEAP capital document No. 2011-5A, revised April 10, 2013.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110, in the same manner as valuable material revenues from other state forest lands in the applicable counties. The value of the land transferred must be deposited in the park land trust revolving account and be solely used to buy replacement state forest land within the same county as the property transferred, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. However, the department or applicable counties may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the state forest trust or the natural resources conservation area program.

FOR THE DEPARTMENT OF NATURAL RESOURCES

Replacing State Forest Lands with Productive Forests (91000029)

The appropriation in this section is subject to the following conditions and limitations:

(1) The total appropriation is provided solely to the department to transfer from state forest land status to natural resources conservation area status certain state forest lands in counties with a population of 25,000 or less which are subject to timber harvest deferrals greater than thirty years due to the presence of wildlife species listed as endangered or threatened under the federal endangered species act. The approved list of properties for transfer is identified in the LEAP capital document No. 2011-5A, (~~developed March 24, 2014~~) revised April 10, 2013.

(2) Property transferred under this section must be appraised and transferred at fair market value, without consideration of management or regulatory encumbrances associated with wildlife species listed under the federal endangered species act. The value of the timber and other valuable materials transferred must be distributed as provided in RCW 79.64.110, in the same manner as valuable material revenues from other state forest lands in the applicable counties. The value of the land transferred must be deposited in the park land trust revolving account and be solely used to buy replacement state forest land within the same county as the property transferred, consistent with RCW 79.22.060.

(3) Prior to or concurrent with conveyance of these properties, the department shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section. Transfer agreements for properties identified in subsection (1) of this section must include terms that restrict the use of the property to the intended purpose.

(4) The department and applicable counties shall work in good faith to carry out the intent of this section. However, the department or applicable counties may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the state forest trust or the natural resources conservation area program.

NEW SECTION. Sec. 5008. COLUMBIA RIVER BASIN NONTAXABLE AND TAXABLE BOND PROCEEDS.

Portions of the appropriation authority granted by this act from the Columbia river basin water supply development account may be transferred to the Columbia river basin taxable bond water supply development account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the Columbia river basin water supply development account and the Columbia river basin taxable bond water supply development account is necessary, or that a shift of appropriation authority from the Columbia river basin taxable bond water supply development account to the Columbia river basin water supply development account may be made.

(End of part)

PART 6

MISCELLANEOUS PROVISIONS

NEW SECTION. Sec. 6001. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management and in compliance with RCW 43.88.110. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110.

(2) Each project is defined as proposed in the legislative budget notes or in the governor's budget document.

NEW SECTION. Sec. 6002. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign. The predesign document shall include, but not be limited to, program, site, and cost analysis, including life cycle cost, in accordance with the predesign manual adopted by the office of financial management. The results of life cycle cost analysis shall be a primary consideration in the selection of a building design. Construction shall proceed only upon providing to the office of financial management the life cycle costs. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 6003. (1) To ensure minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee. All projects must meet the criteria included in subsection (2)(a) of this section. Revisions to the lists must be filed with the office of financial management, the house of representatives capital budget committee, and the senate ways and means committee and include an explanation of variances from the prior lists before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects of a similar nature and that are valued between \$25,000 and \$1,000,000 each, with the exception of higher education minor works projects that may be valued up to \$2,000,000. These projects can generally be completed within two years of the appropriation with the funding provided. Agencies are prohibited from including projects on their minor works lists that are a phase of a larger project, and that if combined over a continuous period of time, would exceed \$1,000,000, or \$2,000,000 for higher education minor works projects. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; rolling stock, computers or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(c) Minor works preservation projects may include program improvements of no more than twenty-five percent of the individual minor works preservation project cost.

(3) Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 6004. (1) The office of financial management may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) The office of financial management may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 6005. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

NEW SECTION. Sec. 6006. State agencies, including institutions of higher education, shall allot and report full-time equivalent staff for capital projects in a manner comparable to staff reporting for operating expenditures.

NEW SECTION. Sec. 6007. Executive Order No. 05-05, archaeological and cultural resources, was issued effective November 10, 2005. Agencies and higher education institutions shall comply with the requirements set forth in this executive order.

NEW SECTION. Sec. 6008. PUGET SOUND PROTECTION AND RESTORATION. Consistent with RCW 90.71.340, when expending appropriations under this act that contribute to Puget Sound protection and recovery, agencies shall consult with the Puget Sound partnership to ensure that projects and expenditures are either in, or consistent with the 2020 action agenda. These consultations shall include the exchange of information on specific actions, projects, associated funding, performance measures, and other information necessary to track project implementation and ensure alignment with the action agenda. In situations where the Puget Sound partnership finds that a project is not in, or is not consistent with the action agenda Puget Sound partnership shall document this finding and report back to the governor and legislative fiscal committees.

NEW SECTION. Sec. 6009. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2015-2017 biennium and the following three biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 6010. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 6011. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 6012. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 6013. The office of financial management, in consultation with the fiscal committees of the legislature, may select capital projects that have completed predesign to undergo a budget evaluation study. The budget evaluation study team approach using value engineering techniques and life cycle cost analysis must be utilized by the office of financial management in conducting the studies. The office of financial management shall select the budget evaluation team members, contract for the study, and report the results to the legislature and agencies in a timely manner following the study. Funds from the project appropriation must be used by the office of financial management through an interagency agreement with the affected agencies to cover the cost of the study.

NEW SECTION. Sec. 6014. COLUMBIA RIVER BASIN NONTAXABLE AND TAXABLE BOND PROCEEDS.

Portions of the appropriation authority granted by this act from the Columbia river basin water supply development account may be transferred to the Columbia river basin taxable bond water supply development account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority between the Columbia

river basin water supply development account and the Columbia river basin taxable bond water supply development account is necessary, or that a shift of appropriation authority from the Columbia river basin taxable bond water supply development account to the Columbia river basin water supply development account may be made.

Sec. 6015. 2005 c 8 s 1 (uncodified) is amended to read as follows:

Pursuant to chapter 43.155 RCW, the following project loans recommended by the public works board are authorized to be made with funds appropriated from the public works assistance account:

- (1) Bainbridge Island--storm sewer project--construct a storm sewer waste management facility including bins for storage of asphalt, concrete, wood chips, rock, sand and gravel, and miscellaneous woody debris; and test remaining soil and remove contaminated soils from the Head of the Bay site..... \$782,000
- (2) Bainbridge Island--sanitary sewer project--upgrade wastewater treatment plant by upgrading the following: Headworks, biosolids, oxidation ditch aeration basins, sludge holding basins, secondary clarification, and sludge pumping and effluent outfall..... \$3,618,000
- (3) Battle Ground--sanitary sewer project--expand the capacity in the shared use facilities by performing the design engineering and construction for a parallel sewer line interceptor, 1 new transmission pump station, an influent pressure main, and treatment plant improvements to increase the capacity from 10.3 million gallons per day to 16 million gallons per day..... \$10,000,000
- (4) Birchbay water and sewer district--sanitary sewer project--extend the existing sanitary sewer system constructing approximately 10,000 feet of gravity sewer mains, including manholes, side sewers to each lot, and other sewer appurtenances. The project will also include temporary erosion and sedimentation control measures and other public/private improvement restoration following sewer installation
\$765,000
- (5) Blaine--sanitary sewer project--construct a wastewater pretreatment facility and a 700,000 gallon equalization storage facilities along and underneath Marine Drive to prevent raw sewage overflows into Drayton Harbor, construction of control structures required to operate and maintain facilities, and reconstruction of existing lift station number one \$5,080,000
- (6) Brewster--sanitary sewer project--retrofit south lift station and dry well/wet well system will be converted to a submersible pump station, headworks structure will be enclosed, including electrical and ventilation systems, replacement of chlorine gas disinfection system with UV disinfection, construction of a plant water system, adding new effluent flow meter and automatic sampler, replacement of activated sludge pumps, retrofitting primary clarifier, installation of a new dewatering facility, electrical, and control features and appurtenances
\$2,659,600
- (7) Carnation--sanitary sewer project--eliminate current septic tank/drainfield systems and replace them with a centralized sewer collection system that will connect directly to the treatment facility being built by King County, including approximately 26,000 feet of vacuum sewer collector pipes, 3,000 feet of force main, approximately 700 side sewers and the associated abandonment of septic tank/drainfield systems, relocation of 10,000 feet of water main, telemetry system for new sewer facilities, and a vacuum/pump station
\$4,374,700
- (8) Castle Rock--sanitary sewer project--upgrade wastewater treatment plant by constructing a new treatment process, structures and equipment, new oxidation ditch, modernized headworks, disinfecting with ultraviolet, installation of a belt thickener, and press for solids and secondary clarifiers \$655,000
- (9) Chinook water district--domestic water project--construct a new package water filter plant \$1,425,000
- (10) College Place--domestic water project--construct a 1.5 million gallon water storage reservoir, install a booster station, approximately 7,100 feet of 16 inch water transmission mains, three pressure reducing valve stations, and a second booster station in the Regency Park package system, telemetry improvements, and associated appurtenances \$2,975,000
- (11) Douglas county--storm sewer project--construction of a detention basin of approximately 35 acre feet, construction of an urban conveyance and water quality project that consists of construction of about 2,000 feet of closed conduit, 1,000 feet of open channel, and construction of a water quality treatment facility, and all appropriate appurtenances..... \$2,835,600
- (12) Dupont--sanitary sewer project--replace approximately 6,600 feet of sanitary sewer line with manholes, 103 side sewers, and overlaying 4,200 feet of street. The city of DuPont will also purchase capacity from Pierce County allowing the transfer of flows for treatment to Pierce County \$1,985,600
- (13) East Wenatchee water district--domestic water project--increase capacity and remedy leaking mains by replacing approximately one mile of 12 inch ductile iron transmission main..... \$490,875
- (14) Eatonville--domestic water project--construct a membrane filtration system and use the existing disinfection system, install a booster pump station, additional well sources, basin modifications, and approximately 1,200 feet of transmission main to connect to the existing system
\$807,500
- (15) Edmonds--sanitary sewer project--lift station elimination and rehabilitation project includes elimination of lift station seven, demolish the facility and construct approximately 1,550 feet of gravity sewer line, and install a new line from current location of lift station seven to lift station eight. Replace lift station eight, including upsizing of the wet well and replacement of all mechanical and electrical equipment and replacement and upsizing of approximately 450 feet of force main..... \$1,216,903
- (16) Enumclaw--sanitary sewer project--upgrade and expand the existing wastewater treatment plant by constructing a new headworks, install new extended aeration activated sludge basins, anaerobic/anoxic basins, and two additional secondary clarifiers. The city will also include construction of chemical facilities, enlarging laboratory area, sludge dewatering, and stabilization facilities and related appurtenances\$9,750,000
- (17) Ephrata--sanitary sewer project--construction of approximately 2,400 feet of sanitary sewer main, 200 feet of side sewer pipe, eight manholes and appurtenances, and the rehabilitation of approximately one mile of access roadway in the port of Ephrata..... \$289,000
- (18) Everett--sanitary sewer project--construct upgrades to the wastewater treatment plant that include: A headworks grit system, construction of two primary clarifiers, a new biofilter, new piping arrangements, modifications to the trickling filter pump station, installation of primary sludge grit removal equipment, sludge dispersion equipment, flow metering, new hypochlorite generation facilities, new scum collection and dewatering equipment, and minor upgrade of the north effluent pump station \$10,000,000
- (19) Freeland water district--domestic water project--solve the source and storage needs by constructing a new reservoir, connection of the new well to the new reservoir, connection of the new reservoir to the system, rehabilitation of the existing well number one, and all appropriate appurtenances..... \$308,030

- (20) Gig Harbor--sanitary sewer project--upgrade to the wastewater treatment plant to improve its efficiency and effectiveness. In addition, an outfall extension into Colvos Passage, including a diffuser will be constructed. Project will result in a higher quality effluent being discharged to Puget Sound..... \$10,000,000
- (21) Goldendale--road project--reconstruct approximately 2,700 feet of East Collins Drive. This will include curb and gutters, storm drainage facilities, sewer line repair and replacement, water line replacement, and a 40 foot curb to curb road section consisting of two eleven foot travel lanes and two nine foot parking areas \$827,316
- (22) Highland water district--domestic water project--construct a 0.5 million gallon steel water tank and foundation, appurtenances such as water lines and valves, access road, and other site improvements as needed..... \$573,750
- (23) Ilwaco--sanitary sewer project--replace approximately 2,000 feet of sanitary sewer lines and 2,250 feet of storm sewer lines, including contributing laterals. In addition, installation of new manholes, catch basins, and other related improvements would be made as part of the project \$774,000
- (24) Jefferson County public utility district 1--domestic water project--extend water system to service the entire Marrowstone Island. Replacing individual wells with a public water supply. This will include installation of approximately 150,000 feet of water mains with accoutrements, a new 300,000 gallon storage tank, and expansion of existing treatment facilities. This will ensure a consistent source of potable water for the residents..... \$2,000,000
- (25) Jefferson County public utility district 1--sanitary sewer project--replace approximately 80 individual septic systems with a new community drainfield system, consisting of approximately 12 grinder pump stations, twin booster pump stations, two dosing tanks, and other components necessary to enable the system to function properly. Completion of this project will virtually eliminate the release of any untreated effluent into the wetland and Discovery Bay..... \$948,924
- (26) Kennewick--domestic water project--upgrade the water treatment plant with installation of a new membrane filtration at the Columbia River plant and installation of an ultraviolet disinfection system at the Ranney collector number five. Other related improvements will be made to the system as part of the project. This project will bring the city into compliance with the department of health's ground water under the influence (GWI) requirements..... \$10,000,000
- (27) King county water district No. 111--domestic water project--construct four water treatment facilities. Each facility will include chlorine generation systems, backwash recycling facilities, SCADA systems at each plant, and any other related activities necessary to complete the construction. This will enable the district to be in compliance with iron and manganese MCLs and eliminate the hazards associated with chlorine \$1,255,428
- (28) King county water district No. 125--domestic water project--upgrade pressure zone 2 by installing two secondary source connections, including pressure-reducing valves, valves, piping, and appurtenances and approximately 150 feet of water main. The project will also include replacement of approximately 12,500 feet of undersized water main, including all valves, fittings, hydrants, and appurtenances and project area restoration as required..... \$1,088,850
- (29) Lake Forest Park--sanitary sewer project--installation of a series of extensions to the city of Lake Forest Park's sanitary sewer system to provide service to residential areas currently not serviced. This will include construction of approximately 3.8 miles of sewer main extension including gravity sewer, pressure piping, service connections and side sewers, lift stations, grinder pump assemblies, surface restoration, temporary erosion and sedimentation control, and related work..... \$4,656,000
- (30) Leavenworth--domestic water project--reconstruct old reservoir on existing site, including new structural walls, new roof, and related appurtenances. Project will also include installation of a SCADA monitoring/radio telemetry control system..... \$1,400,000
- (31) LOTT wastewater alliance--sanitary sewer project--construct four secondary clarifier mechanisms, replacement of RAS pumps, secondary scum pumping improvements, and motorized actuators. Upgrades to equipment and mechanisms will enable LOTT to meet increasing loads at the Budd Inlet wastewater treatment plant and improve the effluent quality..... \$4,278,404
- (32) Malaga water district--domestic water project--construct a new 52,000 gallon partially buried concrete reservoir and connecting piping and install security fencing around tank. This project will enable the district to ensure a continuous safe water supply to the homes and businesses in the area..... \$161,500
- (33) Manchester water district--domestic water project--upgrade a wide range of the water system. Project will include installation of a SCADA system with all hardware, software, and backup equipment. Installation of a new flow meter at each wellhead and pump station. Distribution/transmission piping replacements and upgrades to the Mile Hill Road area, Yukon Harbor Drive and Southworth Drive. Installation of two interties in the South Street and Garfield Road area. Construction of two pressure-reducing stations located in the Beach Drive and Harper Hill areas..... \$970,870
- (34) Mason county public utility district 1--domestic water project--source improvements and system rehabilitation to the newly acquired Arcadia Estates system. Project will include pump and controls for well number two, 24,000 gallon storage reservoir with draft fire hydrant, three booster pumps, two pressure tanks, pressure-reducing station, service meters, and three blow off assemblies. This will remove the red operating permit and ensure a safe and reliable source of potable water for the community..... \$95,950
- (35) Mason county public utility district 1--domestic water project--rehabilitate the source of supply at the newly acquired Twanoh Heights water system. This project will include rehabilitation of well number one, installation of two pumps, abandonment of well number two per department of ecology rules, service meters and air release valves. This project will allow the community to have a continuous, safe and reliable water source..... \$172,900
- (36) Mason county public utility district 1--domestic water project--address system needs for the Madrona Beach water system by constructing a 11,500 gallon reservoir, booster station, site work/plumbing, service meters, and a source meter. This will enable the public utility district to comply with department of health requirements and remove a blue operating permit \$171,000
- (37) Mason county public utility district 1--domestic water project--make improvements to the newly acquired Canal Beach water system. The improvements include drilling and testing a new well source, constructing a 20,000 gallon storage tank, piped system intertie, fire service line and hydrant, water services with new meters, and abandonment of existing well sources per department of ecology rules \$171,712
- (38) Mason county public utility district 1--domestic water project--make improvements to the Minerva Terrace water system that will include drill and test well, integrate well into system, booster station with all appurtenances, 35,200 gallon reservoir, and a draft fire hydrant. This will enable the system to have the red operating permit to be lifted and comply with department of health rules.....

\$217,550

(39) Northeast Sammamish sewer/water district--domestic water project--construct a new water treatment plant, new 0.5 million gallon reservoir and pump station, new transmission water main, and new distribution main and associated minor improvements. The district will then be able to meet the federal arsenic level regulations and ensure a safe source of potable water for the community \$4,154,970

(40) Northshore utility district--sanitary sewer project--install approximately 2,445 feet of gravity sewer main, manholes, connection to the sanitary sewer system, and related restoration and appurtenances. In addition, the district will replace approximately 2,400 feet of asbestos concrete water mains. This will resolve the negative environmental and health impacts of the failing septic systems in the area \$814,634

(41) Northshore utility district--sanitary sewer project--install approximately 300 feet of gravity sewer main, manholes, connection to the sanitary sewer system, and related restoration and appurtenances. In addition, the district will replace approximately 300 feet of asbestos concrete water mains. This will resolve the negative environmental and health impacts of the failing septic systems in the area..... \$113,334

(42) Oak Harbor--domestic water project--replace existing water transmission mains being destroyed due to a highway project. The project includes construction of approximately 4,000 feet of transmission mains along Highway 20 just south of Deception Pass state park. Project will meet the city's foreseeable water requirements and provide sufficient capacity for the Naval Air Station--Whidbey \$834,700

(43) Orchard Avenue irrigation district number 6--domestic water project--install approximately 19,100 feet of PVC pipe. Approximately 210 buried meter boxes, reconnect approximately 400 existing services, and all required valves and other fittings. Project will eliminate public health concern over potential lead contamination from lead joint pipe \$1,066,800

(44) Pierce County--road project--widen, reconstruct, and overlay the intersection of Canyon Road E and 176th Street E, which includes additional travel lanes in each direction and left and right turn lanes at the intersection, a new traffic signal system, traffic signal interconnect system, street lights, median, curb and gutter, concrete sidewalks, landscaping, undergrounding of utilities, storm drainage conveyance, storage, and treatment facilities. Project will increase carrying capacity and allow for economic development \$2,942,000

(45) Pullman--sanitary sewer project--construct a new variable volume digester at the wastewater treatment plant, with an approximate capacity of 350,000 gallons. The work includes site preparation and construction of the digester, necessary piping modifications, and modifications to the existing plant control system. Project will enable the city to meet the environmental protection agency's SRT requirements \$1,912,000

(46) Pullman--domestic water project--construct a well to replace well number 3. Included in the project will be the drilling of the replacement well, well pump, motor, controls, disinfection equipment, fluoride injection equipment, a swell and chemical storage house, connection of transmission lines, and other related miscellaneous items and site work \$850,000

(47) Ridgefield--sanitary sewer project--construct a new pump station, install approximately 3,000 feet of force main, which will discharge directly into the treatment plant, and construct approximately 3,000 feet of gravity interceptor sewer. This project will enable the city to open up service to an area that is currently not served and allow for economic development..... \$1,718,000

(48) Ritzville--domestic water project--increase the city's water capacity from 1,200 to 2,000 gallons per minute by drilling a new well. This will also include installing the necessary pump and connections to the storage tank and construct a well house to protect the equipment \$845,000

(49) Ronald wastewater district--sanitary sewer project--sewer extension to unsewered areas includes installation of approximately 2,700 feet PVC sewer main and approximately 2,000 feet PVC sewers in three separate areas of the district. All associated appurtenances will also be installed, such as manholes and side sewer stubs. Approximately 1,100 sewer trunk main will be repaired. The streets and other public improvements that are disturbed during construction will be restored to city of Shoreline's standards \$1,021,700

(50) Samish water district--sanitary sewer project--upgrade its system by replacing pumps and controls at six sewage pump stations, replace controls at one sewage pump station, upgrade SCADA, and replace inline valves on existing sewer force main. This will ensure that the system operates within regulations \$1,083,000

(51) Seattle--storm sewer project--increase capacity of the drainage system by installing approximately 1,760 feet of storm drain along South Trenton Street, 3rd Avenue South, and 4th Avenue South. Install 2,380 feet of storm drain along South Director Street and 7th Avenue South. The last part of the project will construct a new storm drain system on 8th Avenue South. These new drainage pipes will reduce flows to the combined sewer system and reduce the number of overflows \$3,400,000

(52) Seattle--storm sewer project--upgrade two culverts in the lower reaches of Taylor Creek to remove fish barriers and construct a fish ladder to improve fish passage and control sediment transportation. Other related improvements will be made to the area as part of the project \$450,500

(53) Seattle--storm sewer project--construct two ponds that will include a 4 acre feet sediment collection pond, 2 acre feet decant pond, 750 feet of access road, 750 of decant piping, a gravel pump and its housing and controls, and 4,000 feet of landscaping around the new ponds. Additional related upgrades will be done to complete the project..... \$1,832,600

(54) Skyway water/sewer district--domestic water project--replace and upsize the supply meter from the city of Seattle system and replace approximately 6,350 feet of asbestos water supply line. In addition, four new pressure zones interties will be installed to improve flow between pressure zones within the water/sewer district..... \$1,130,526

(55) Spokane--domestic water project--replace about 3,500 feet of riveted steel water transmission mains with ductile iron pipe. In addition, project will include all valves, connections, blowoffs, air valves, railroad crossing, and pavement restoration and traffic control \$3,453,975

(56) Spokane--domestic water project--construct a 2 million gallon elevated steel tank with an accompanying booster station. This will include all piping, valves, telemetry, instrumentation, excavation and site preparation including landscaping, paving, and fencing..... \$2,232,950

(57) Spokane county--road project--~~(construct a total of 8.3 miles of roadway from Havana Street to Forker Road and from Forker Road from Bigelow Gulch Road to Wellesley Road. The construction will provide for expanding the road to four traveled lanes plus eight foot shoulders to improve safety and traffic capacity. A center turn lane will be added at locations where vehicles routinely make left turns. Eight foot shoulders will be added to provide for safety of pedestrians and bicycles..... \$10,000,000)~~

expand and realign the Bigelow Gulch/Forker Road Corridor to a four lane roadway with eight foot shoulders to improve traffic capacity and increase the overall safety of the corridor. This project will include engineering and design environmental and cultural review, acquisition of right-of-way and construction of 1.78 miles of roadway improvement. In addition, design and right-of-way will be prepared and acquired for the next continuous phase of the project..... \$4,500,000

(58) Stanwood--domestic water project--construct a 1 million gallon elevated water tank, water main, appurtenances, and equipment necessary to connect the new water tank to the existing system. Project will also install telemetry and control systems compatible with existing system, construction of a Cedarhome booster pump station for filling the Cedarhome reservoir, and improvements to the sites such as grading, fencing, and landscaping..... \$2,481,620

(59) Stevens County--solid waste project--expand municipal solid waste site by construction of an 11 acre lateral expansion, environmentally protective landfill lining and leachate collection system and construction of ancillary facilities such as perimeter roads. Leachate facilities will consist of piping, collection and conveyance facilities..... \$2,600,000

(60) Union Gap--sanitary sewer project--construct approximately 3,400 feet of sewer interceptor and 1,800 feet of sewer laterals in conjunction with new roadways in the Valley Mall Boulevard area..... \$676,429

(61) Washougal--sanitary sewer project--construct a redundant secondary clarifier adjacent to existing secondary clarifier, including piping connections to the existing clarifier distribution structure, scum pump station, and RAS/WAS pump room. Additional work will include RAS/WAS pump room modifications for installation of dedicated return and waste-activated sludge pumps, sidewalks, and site grading and all necessary electrical hardware and SCADA control modifications. Project will enable the city to meet their national pollution discharge elimination system permit requirements..... \$794,000

(62) West Richland--sanitary sewer project--increase capacity by constructing a one million gallons per day biolac wastewater treatment facility, approximately 2,700 feet of sanitary sewer pipe, lift station, miscellaneous roadway patching, and site restoration. If additional funds are available, improvements to the facilities outfall structure will be designed along with facilities for sludge handling from the sewer maintenance program. Project will enable the city to meet their national pollution discharge elimination system permit requirements..... \$4,000,000

(63) Witworth water district 2--domestic water project--The district will solve the area problems by installing approximately 27,090 of water lines together with valves and appurtenances, connection to the existing system, 15 hydrants, pavement repair, and other surface restoration. In addition, installation of a two million gallon steel reservoir and a 1,700 gallons per minute booster pump station and various piping, appurtenances, pumps, controls, security, electrical, and connection to existing system..... \$2,502,300

(64) Yakima--sanitary sewer project--The project will be done in two phases. Phase I will install approximately 6,640 feet of sewer main trunk line in River Road from North 16th Avenue to North 40th Avenue. Phase II will install 5,500 feet of sewer main trunk line in River Road from North 6th Avenue to North 16th Avenue if public works trust fund loan funds remain and private development proceeds. The project will help prevent further loss of major employers by providing the transportation and utility infrastructure necessary to maintain competitive operations..... \$2,307,000

Sec. 6016. 2007 c 4 s 1 (uncodified) is amended to read as follows:

Pursuant to chapter 43.155 RCW, the following project loans recommended by the public works board are authorized to be made with funds appropriated from the public works assistance account:

(1) Airway Heights--sanitary sewer project--collection system improvements and an approximately 1 million gallon per day annual average flow wastewater treatment, reclamation, and groundwater recharge facility \$7,000,000

(2) Annapolis water district--domestic water project--interior and exterior of surface water reservoir will be sandblasted and painted to preserve structural integrity of the tank and eliminate breaches in the paint coating systems. Structural repairs will also be made to the tank and foundation \$595,000

(3) Blaine--sanitary sewer project--construct a new wastewater treatment plant to serve the projected demand for the next twenty years, using the latest membrane filtering technology to produce reuse-quality water effluent to minimize impacts to local shell fishing \$7,000,000

(4) Bremerton--sanitary sewer project--upgrade a sewage pump station to increase capacity from 1,900 gallons per minute to 3,500 gallons per minute, eliminating combined sewer overflows into the Puget Sound and meet a court order..... \$675,000

(5) Bremerton--sanitary sewer project--design and construct a treatment plant upgrade to address the vital needs of the plant, create redundancy for essential treatment processes, and replace twenty year old components and meet a court order..... \$3,000,000

(6) Bremerton--sanitary sewer project--construct approximately 1,300 feet new sewer interceptor and collector pipe to replace old, failing shallow sewer and meet a court order..... \$300,000

(7) Chelan county public utility district no. 1--domestic water project--design and construct: Two pump stations to increase capacity from approximately 4,000 gallons per minute to approximately 6,000 gallons per minute; a two million gallon reservoir; and approximately 5,000 feet of twelve and sixteen-inch water transmission mains to provide a reliable water source for approximately 4,500 customers \$5,267,000

(8) Cowlitz county--domestic water project--recoat (8) the interior and exterior of four reservoirs to address areas of failure with the original coatings and protect the structural integrity of the reservoirs \$340,000

(9) Cross Valley water district--domestic water project--relocation and replacement of a failing water supply line that is located in an extremely wet cow pasture. Approximately 3,500 linear feet of asbestos cement line will be replaced with twelve-inch ductile iron pipe, including all valves, hydrants, and appurtenances as well as complete restoration and paving \$532,525

(10) East Wenatchee water district--domestic water project--construct approximately 6,000 lineal feet of twelve-inch water main that will serve as the supply main to the new approximately 1.5 million gallon reservoir..... \$2,772,700

(11) Friday Harbor--sanitary sewer project--construct a new offshore marine pipeline approximately 1,900 feet in length; a new pump station and approximately 3,650 feet of pipeline to the wastewater treatment plant \$4,378,000

(12) Grays Harbor county water district no. 1--domestic water project--provide adequate water supply from primary source to the north end of the system to mitigate low pressure problems and comply with a bilateral compliance agreement; extend distribution system to provide service to residences with failing individual supplies; construct standby power generation facilities for primary source of supply; and construct additional storage and pumping facilities to provide reliable service and fire flow \$6,717,575

- (13) Lake Stevens sewer district--sanitary sewer project--construction of a state of the art membrane bioreactor wastewater treatment facility outside the flood plain and an interceptor line and pump station \$7,000,000
 - (14) Mattawa--sanitary sewer project--complete public bidding and construction of the improvements consisting of an approximately 622,000 cubic foot HDPE lined long-term biosolids digestion basin, associated piping, rehabilitation of the existing biosolids drying beds, and fencing \$465,585
 - (15) Port Angeles--sanitary sewer project--design and construction of approximately 4,500 feet of thirty-inch sewer main to the headworks of the wastewater treatment plant..... \$1,875,000
 - (16) Snohomish--sanitary sewer project--~~(construct a fifteen and ten inch sewer to reach an existing pump station; extend the above sewer using an eight inch pipe to another pump station; and replace an existing sewer with a ten inch pipe to provide additional capacity for future service and to meet the conditions of a stipulated court order \$7,000,000)~~
Segment 2: Add approximately 3,400 feet of sewer trunk to connect to the Segment 1, thereby allowing two pump stations to be abandoned.
Segment 3: Replace approximately 1,200 feet of existing undersized sewer to provide additional capacity and to accommodate future service north and east of Blackmans Lake..... \$1,400,000
 - (17) Toppenish--sanitary sewer project--construct a single activated sludge process to replace the existing wastewater treatment facility, including the installation of ultraviolet disinfection channels to replace chlorine gas. The solids handling system will also be improved \$7,000,000
 - (18) Walla Walla--sanitary sewer project--the third and final upgrade at the wastewater treatment plant to meet class A water reuse standards and to comply with an agreed order from the department of ecology \$6,856,875
 - (19) Yakima--sanitary sewer project--replacement of chlorine gas with ultraviolet disinfection at the Yakima regional wastewater treatment plant to complete the first phase of the facility improvements \$2,300,000
- Sec. 6017.** 2008 c 5 s 1 (uncodified) is amended to read as follows:
- Pursuant to chapter 43.155 RCW, the following project loans recommended by the public works board are authorized to be made with funds appropriated from the public works assistance account, and no loan authorized in this act shall bear an interest rate greater than one-half of one percent:
- (1) Arlington--sanitary sewer project--expand and upgrade the wastewater treatment plant and biosolids composting facility to meet new discharge limitations, produce a higher quality effluent, and accommodate future growth \$10,000,000
 - (2) Auburn--street project--reconstruct approximately 0.3 miles of roadway with four travel lanes to bring up to current arterial and truck route standards and modify intersection to optimize efficiency and level of service \$1,800,000
 - (3) Blaine--sanitary sewer project--construct a new wastewater treatment plant and section of outfall pipe to increase treatment capacity, produce reuse quality water, and improve Puget Sound water quality for shellfish..... \$10,000,000
 - (4) Bonney Lake--domestic water project--replace approximately 71,000 linear feet of leaky water mains to reduce current water loss by ten percent \$5,352,000
 - (5) Bonney Lake--sanitary sewer project--replace approximately 12,000 linear feet of failing interceptor sewer pipes \$4,648,000
 - (6) Buckley--sanitary sewer project--rebuild the wastewater treatment plant to provide nutrient removal and meet state and federal discharge regulations and the construction of an interceptor \$5,000,000
 - (7) Camas--sanitary sewer project--construct improvements to the wastewater treatment facilities to provide class A biosolids at the main sewage pump station..... \$10,000,000
 - (8) Clark county--road project--construct new road segments, widen roadways, improve and redesign intersections, and install and modify traffic signals necessary to improve a major interchange with two freeways \$10,000,000
 - (9) Clark regional wastewater district--sanitary sewer project--modify existing and construct new wastewater facilities to process approximately 4.65 million gallons more of wastewater per day and ensure treatment processes continue to be in compliance with current regulations..... \$8,000,000
 - (10) Coal creek utility district--sanitary sewer project--construct sewer lift station, approximately 1,250 lineal feet of gravity sewer main, and 500 feet of force main to provide public sewer to approximately 25 properties on a lake that have private septic systems that have failed or are in prefailure status \$898,875
 - (11) College Place--domestic water project--construct two steel tanks, a booster station, approximately 6,000 feet of transmission line, 3,400 feet of water mains, three pressure reducing valves, and associated telemetry to rectify a deficiency in fire flow and standby water storage protection \$4,710,051
 - (12) Cowlitz county public utility district No. 1--domestic water project--construction of approximately six new groundwater supply wells, 2,100 feet of raw water piping a new water treatment plant producing approximately 20 million gallons per day of potable water, and approximately 4,350 feet of transmission main to connect to the system to replace current water supply that is being impacted by increasing water sediment \$3,213,000
 - (13) Ephrata--domestic water project--replace approximately 68,000 feet of failing water mains, 50,000 feet of failing water service pipes, and the resurfacing of 20 miles of overlaying roadway, including approximately 100 fire hydrants, 400 catch basins, 15 storm sewer drywells, 22,000 feet of curb and gutter, and 16,000 feet of storm sewer pipe..... \$6,605,727
 - (14) Freeland water district--domestic water project--connect a new well and new reservoir to the existing system, rehabilitate the existing well, and install new equipment to increase system reliability, redundancy, and capacity. Install new chlorination equipment to improve water quality \$347,516
 - (15) Gig Harbor--sanitary sewer project--improvements to the wastewater treatment plant including new equipment and electrical work, add a third clarifier, install ultraviolet disinfection, and extend and upsize the outfall \$10,000,000
 - (16) Highline water district--domestic water project--construction of 11,350 feet of transmission main and looping of pipes to eliminate low pressures and fire flows and improve water quality, and create a new pressure zone to correct high pressures..... \$5,390,418

(17) Karcher creek sewer district--sanitary sewer project--install a new sewer system, including a lift station and approximately 3,600 lineal feet of sewer main, in conjunction with a road project to service approximately 17 homes that will lose their septic systems due to the road project \$1,358,130

(18) Kennewick--sanitary sewer project--construct improvements to critical wastewater treatment plant processes to enhance reliability, improve energy efficiency and redundancy, as well as increase the capacity of the sludge pumping station..... \$5,500,000

(19) Kent--street project--construct ~~((two))~~ one bridge(s), ~~((one for the roadway over a set of railroad tracks, and one for railroad tracks over a lowered roadway. This will grade separate the tracks from the roadway to provide safe and reliable operations twenty four hours a day \$10,000,000))~~

and all preliminary activities, such as utility relocation, to prepare for the future bridge to be constructed \$5,000,000

(20) King county--sanitary sewer project--construct 13,100 lineal feet of pipe to convey approximately 9 million gallons per day of reclaimed water to reduce withdrawals of 250-acre feet per year from the Sammamish river..... \$7,000,000

(21) La Center--sanitary sewer project--upgrade wastewater treatment plant to reduce the levels of nitrogen discharged in the effluent and approximately doubling the operation of the plant and producing class A reuse water \$10,000,000

(22) Lake Forest Park water district--domestic water project--replace approximately 6,915 lineal feet of undersized and corroded water pipes to improve safety and reliability of the system by reducing pipe failures and increasing fire flow \$917,935

(23) Lake Stevens--sanitary sewer project--construct a new wastewater treatment plant, 9,500 feet of interceptor line, a pump station, and an outfall pipe in partnership with Lake Stevens sewer district \$10,000,000

(24) Lake Stevens sewer district--sanitary sewer project--construct a new wastewater treatment plant, 9,500 feet of interceptor line, a pump station, and an outfall pipe in partnership with the city of Lake Stevens \$10,000,000

(25) Lakewood--sanitary sewer project--construct 3 pump stations, approximately 17,200 linear feet of force mains, 13,500 linear feet of gravity collector pipe line, and 320 side sewer stubs to service two neighborhoods currently served exclusively by septic systems..... \$1,840,000

(26) LOTT alliance--sanitary sewer project--construct approximately 7,400 feet of force main and replace existing pump station with new 1,000 gallon per minute pump station..... \$4,003,807

(27) Mansfield--sanitary sewer project--expand and rehabilitate wastewater treatment lagoons and effluent spray irrigation system as well as remove the discharge of groundwater from basement sump pumps to the collection system..... \$235,600

(28) Midway sewer district--sanitary sewer project--replace approximately 16,500 lineal feet of sewer mains and 50 manholes to reduce infiltration and inflow \$3,782,500

(29) Mount Vernon--sanitary sewer project--upgrade existing wastewater treatment plant, including a new pretreatment facility, 4 additional clarifiers, upgrade aeration basins, installation of an ultraviolet disinfection system, and odor control system \$10,000,000

(30) Newcastle--road project--reconstruct, widen, and signalize approximately 5,200 linear feet of road to 2 lanes in each direction, add left turn lanes, sidewalks, bicycle lanes, install lighting systems, replace two-lane bridge with a four-lane bridge, and install new traffic signals \$5,000,000

(31) Olympia--sanitary sewer project--install approximately 6,500 linear feet of sewer mains and construct a lift station to serve 63 homes with failing on-site sewage systems..... \$1,808,375

(32) Olympus Terrace sewer district--sanitary sewer project--rehabilitate approximately 9,350 linear feet of sewer trunkline, construct approximately 9,800 linear feet of high-flow storm water bypass piping for excess flow, construct approximately 4,150 linear feet of road access, and restore creek habitat \$8,000,000

(33) Omak--sanitary sewer project--add 2 compost containers, convert storage tank to sludge holding tank, and install a second headworks screen to increase the wastewater treatment plant capacity by 35 percent \$450,000

(34) Port Angeles--sanitary sewer project--construct approximately 11,500 feet of sewer main, modify a storage tank, and modify the wastewater treatment plant \$10,000,000

(35) Regional board of mayors--solid waste project--close landfill site by capping and sealing with a soil cap \$859,500

(36) Regional board of mayors--solid waste project--construct a new solid waste transfer station, including structures and equipment..... \$1,541,000

(37) Ronald wastewater district--sanitary sewer project--rehabilitate 2 lift stations by replacing pumps, valves, fittings, piping, odor control systems, and electrical equipment..... \$955,400

(38) Seattle--domestic water project--replace floating pumps with land-based pump station with a maximum capacity of approximately 250 million gallons per day, including 8 pumps, concrete structure, a tunnel, approximately 4,000 feet of pipeline, and a standby generator. \$10,000,000

(39) Sedro-Woolley--sanitary sewer project--rehabilitate or replace 4 interceptor segments totaling approximately 29,700 linear feet((:)) and install 2 pump stations((-and upgrade the secondary clarifier)) in order to lift a building moratorium..... ~~(((\$6,023,491))~~ \$3,803,289

(40) Shelton--sanitary sewer project--construct a satellite reclamation plant with a capacity of approximately 0.4 million gallons per day to produce class A reclaimed water, approximately 22,000 linear feet of sewer pipelines, and approximately 25,000 linear feet of reclaimed water force main \$2,079,360

(41) Shelton--sanitary sewer project--replace approximately 38,480 linear feet of mainline sewers to reduce inflow and infiltration..... \$5,737,500

(42) Skagit county sewer district No. 2--sanitary sewer project--upgrade wastewater treatment plant to a water reclamation facility to provide class A reclaimed water with a capacity of approximately 0.35 million gallons per day..... \$10,000,000

(43) Snohomish--sanitary sewer project--construct approximately 1,900 feet of sewer pipe, a new pump station with a capacity of approximately 8,000 gallons per minute, and approximately 4,300 feet of force main to reduce overflows \$2,000,000

(44) Snohomish--sanitary sewer project--upgrade existing wastewater treatment plant including a new influent flow structure, screens, aerators, effluent filtration, ultraviolet disinfection, effluent pump station, improvements to the existing lagoons, and electrical improvements..... \$4,500,000

- (45) Snohomish county--road project--construct a new, approximately two-mile, two-lane truck route around the city of Granite Falls, including 3 roundabouts to improve safety and air quality in the downtown area \$10,000,000
- (46) Southwest Suburban sewer district--sanitary sewer project--replace and/or slipline approximately 5,470 feet of trunk/interceptor sewer main and construct a new lift station to reduce overflows \$3,268,250
- (47) Tacoma--domestic water project--replace 3 open-topped concrete reservoirs with 2 enclosed concrete reservoirs of approximately 33 million gallons each and related piping to comply with the safe drinking water act and a bilateral compliance agreement \$10,000,000
- (48) Tekoa--sanitary sewer system--reconstruct approximately 1,000 feet of failing sewer line and manholes to reduce significant groundwater infiltration \$135,115
- (49) Three rivers regional wastewater authority--sanitary sewer project--construct 2 clarifiers and associated piping to replace 2 failed clarifiers at the wastewater plant..... \$6,630,750
- (50) Washougal--sanitary sewer project--construct a new wastewater treatment plant headworks, including a fine screen, grit removal, and replace approximately 150 linear feet of gravity sewer, and make improvements to the lagoons, including 450 linear feet of piping, modify overflow structures, and a new pump \$3,100,000
- (51) Yakima--domestic water project--develop a new, approximately 3,000 gallon per minute, domestic water well, including drilling, placement of casing, a new pump house, and connection to the existing water distribution system in order to augment the water supply during drought conditions \$2,257,200
- (52) Yakima--street project--construct 2 underpasses and reconstruct 3 lanes on each roadway under a railroad mainline to accommodate additional rail and reduce traffic and emergency response delays and air pollution \$3,000,000

NEW SECTION. Sec. 6018. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.
