I taught for over 30 years, the last 27 in Prescott WA. I retired early to care for my mother who had descended into Alzheimer's. Thus my retirement income was impacted and my monthly income is narrowed against my expenses.  
Most of the plan 1 retirees won't be around much longer and we hope we will not be a burden to our children. If a COLA adjustment can be possible, that would help defray cost increases and improve our prospects of managing our late retirement years.  
Thank you for your attention to your task.

Sincerely,

Roland E Erikson
