I am currently the new punished in this new economy of greed in the following way :

I am not applicable to housing vouchers food stamps etc due to my medium income and my rent where I have lived the last 7 years has DOUBLED !!! I will soon be looking for part time work to take up the financial strain at an age i thought i could enjoy my retirement. There can not be that many retired pers 1 still living and i do not believe our justifiable request for income increase that we worked long and hard for would be such a budget strain for the state of washington it should be an honor to help those who served in state positions so faithfully

Instead of volunteering with the homeless I may be subject to surviving with them if my housing continues to increase
