REPORT OF THE CONFERENCE COMMITTEE
Engrossed Second Substitute House Bill No. 1477
April 23, 2021

MR. PRESIDENT:
MR. SPEAKER:

We of your conference committee, to whom was referred Engrossed Second Substitute House Bill No. 1477, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

"PART I

CRISIS CALL CENTER HUBS AND CRISIS SERVICES

NEW SECTION. Sec. 101. (1) The legislature finds that:

(a) Nearly 6,000 Washington adults and children died by suicide in the last five years, according to the federal centers for disease control and prevention, tragically reflecting a state increase of 36 percent in the last 10 years.

(b) Suicide is now the single leading cause of death for Washington young people ages 10 through 24, with total deaths 22 percent higher than for vehicle crashes.

(c) Groups with suicide rates higher than the general population include veterans, American Indians/Alaska Natives, LGBTQ youth, and people living in rural counties across the state.

(d) More than one in five Washington residents are currently living with a behavioral health disorder.

(e) The COVID-19 pandemic has increased stressors and substance use among Washington residents.

(f) An improved crisis response system will reduce reliance on emergency room services and the use of law enforcement response to behavioral health crises and will stabilize individuals in the community whenever possible.

(g) To accomplish effective crisis response and suicide prevention, Washington state must continue its integrated approach to address mental health and substance use disorder in tandem under the umbrella of behavioral health disorders, consistently with chapter 71.24 RCW and the state's approach to integrated health care. This is particularly true in the domain of suicide prevention, because of the prevalence of substance use as both a risk factor and means for suicide.

(2) The legislature intends to:

(a) Establish crisis call center hubs and expand the crisis response system in a deliberate, phased approach that includes the involvement of partners from a range of perspectives to:

(i) Save lives by improving the quality of and access to behavioral health crisis services;

(ii) Further equity in addressing mental health and substance use treatment and assure a culturally and linguistically competent response to behavioral health crises;

(iii) Recognize that, historically, crisis response placed marginalized communities, including those experiencing behavioral health crises, at disproportionate risk of poor outcomes and criminal justice involvement;

(iv) Comply with the national suicide hotline designation act of 2020 and the federal communications commission's rules adopted July 16, 2020, to assure that all Washington residents receive a consistent and effective level of 988 suicide prevention and other behavioral health crisis response and suicide prevention services no matter where they live, work, or travel in the state; and

(v) Provide higher quality support for people experiencing behavioral health crises through investment in new technology to create a crisis call center hub system to triage calls and link individuals to follow-up care.

(b) Make additional investments to enhance the crisis response system, including the expansion of crisis teams, to be known as mobile rapid response crisis teams, and deployment of a wide array of crisis stabilization services, such as 23-hour crisis stabilization units based on the living room model, crisis stabilization centers, short-term respite facilities, peer-run respite centers, and same-day walk-in behavioral health services. The overall crisis system shall contain components that operate like hospital emergency departments that accept all walk-ins and ambulance, fire, and police drop-offs. Certified peer counselors as well as peers in other roles providing support must be incorporated within the crisis system and along the continuum of crisis care.

NEW SECTION. Sec. 102. A new section is added to chapter 71.24 RCW to read as follows:

(1) Establishing the state crisis call center hubs and enhancing the crisis response system will require collaborative work between the department and the authority within their respective roles. The department shall have primary responsibility for establishing and designating the crisis call center hubs. The authority shall have primary responsibility for developing and implementing the crisis response system and services to support the work of the crisis call center hubs. In any instance in which one agency is identified as the lead, the expectation is that agency will be communicating and collaborating with the other to ensure seamless, continuous, and effective service delivery within the statewide crisis response system.

(2) The department shall provide adequate funding for the state's crisis call centers to meet an expected increase in the use of the call centers based on the implementation of the 988 crisis hotline. The funding level shall be established at a level anticipated to achieve an in-state call response rate of at least 90 percent by July 22, 2022. The funding level shall be determined by considering standards and cost per call predictions provided

by the administrator of the national suicide prevention lifeline, call volume predictions, guidance on crisis call center performance metrics, and necessary technology upgrades.

(3) The department shall adopt rules by July 1, 2023, to establish standards for designation of crisis call centers as crisis call center hubs. The department shall collaborate with the authority and other agencies to assure coordination and availability of services, and shall consider national guidelines for behavioral health crisis care as determined by the federal substance abuse and mental health services administration, national behavioral health accrediting bodies, and national behavioral health provider associations to the extent they are appropriate, and recommendations from the crisis response improvement strategy committee created in section 103 of this act.

(4) The department shall designate crisis call center hubs by July 1, 2024. The crisis call center hubs shall provide crisis intervention services, triage, care coordination, referrals, and connections to individuals contacting the 988 crisis hotline from any jurisdiction within Washington 24 hours a day, seven days a week, using the system platform developed under subsection (5) of this section.

(a) To be designated as a crisis call center hub, the applicant must demonstrate to the department the ability to comply with the requirements of this section and to contract to provide crisis call center hub services. The department may revoke the designation of any crisis call center hub that fails to substantially comply with the contract.

(b) The contracts entered shall require designated crisis call center hubs to:

(i) Have an active agreement with the administrator of the national suicide prevention lifeline for participation within its network;

(ii) Meet the requirements for operational and clinical standards established by the department and based upon the national suicide prevention lifeline best practices guidelines and other recognized best practices;

(iii) Employ highly qualified, skilled, and trained clinical staff who have sufficient training and resources to provide empathy to callers in acute distress, de-escalate crises, assess behavioral health disorders and suicide risk, triage to system partners, and provide case management and documentation. Call center staff shall be trained to make every effort to resolve cases in the least restrictive environment and without law enforcement involvement whenever possible. Call center staff shall coordinate with certified peer counselors to provide follow-up and outreach to callers in distress as available. It is intended for transition planning to include a pathway for continued employment and skill advancement as needed for experienced crisis call center employees;

(iv) Collaborate with the authority, the national suicide prevention lifeline, and veterans crisis line networks to assure consistency of public messaging about the 988 crisis hotline; and

(v) Provide data and reports and participate in evaluations and related quality improvement activities, according to standards established by the department in collaboration with the authority.

(c) The department and the authority shall incorporate recommendations from the crisis response improvement strategy committee created under section 103 of this act in its agreements with crisis call center hubs, as appropriate.

(5) The department and authority must coordinate to develop the technology and platforms necessary to manage and operate the behavioral health crisis response and suicide prevention system. The technologies developed must include:

(a) A new technologically advanced behavioral health and suicide prevention crisis call center system platform using

technology demonstrated to be interoperable across crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, for use in crisis call center hubs designated by the department under subsection (4) of this section. This platform, which shall be fully funded by July 1, 2023, shall be developed by the department and must include the capacity to receive crisis assistance requests through phone calls, texts, chats, and other similar methods of communication that may be developed in the future that promote access to the behavioral health crisis system; and

(b) A behavioral health integrated client referral system capable of providing system coordination information to crisis call center hubs and the other entities involved in behavioral health care. This system shall be developed by the authority.

(6) In developing the new technologies under subsection (5) of this section, the department and the authority must coordinate to designate a primary technology system to provide each of the following:

(a) Access to real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services, including:

(i) Real-time bed availability for all behavioral health bed types, including but not limited to crisis stabilization services, triage facilities, psychiatric inpatient, substance use disorder inpatient, withdrawal management, peer-run respite centers, and crisis respite services, inclusive of both voluntary and involuntary beds, for use by crisis response workers, first responders, health care providers, emergency departments, and individuals in crisis; and

(ii) Real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services for a person, including the means to access:

(A) Information about any less restrictive alternative treatment orders or mental health advance directives related to the person; and

(B) Information necessary to enable the crisis call center hub to actively collaborate with emergency departments, primary care providers and behavioral health providers within managed care organizations, behavioral health administrative services organizations, and other health care payers to establish a safety plan for the person in accordance with best practices and provide the next steps for the person's transition to follow-up noncrisis care. To establish information-sharing guidelines that fulfill the intent of this section the authority shall consider input from the confidential information compliance and coordination subcommittee established under section 103 of this act;

(b) The means to request deployment of appropriate crisis response services, which may include mobile rapid response crisis teams, co-responder teams, designated crisis responders, fire department mobile integrated health teams, or community assistance referral and educational services programs under RCW 35.21.930, according to best practice guidelines established by the authority, and track local response through global positioning technology; and

(c) The means to track the outcome of the 988 call to enable appropriate follow up, cross-system coordination, and accountability, including as appropriate: (i) Any immediate services dispatched and reports generated from the encounter; (ii) the validation of a safety plan established for the caller in accordance with best practices; (iii) the next steps for the caller to follow in transition to noncrisis follow-up care, including a next-day appointment for callers experiencing urgent, symptomatic behavioral health care needs; and (iv) the means to verify and document whether the caller was successful in making the transition to appropriate noncrisis follow-up care indicated in the

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

safety plan for the person, to be completed either by the care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub;

(d) A means to facilitate actions to verify and document whether the person's transition to follow up noncrisis care was completed and services offered, to be performed by a care coordinator provided through the person's managed care organization, health plan, or behavioral health administrative services organization, or if such a care coordinator is not available or does not follow through, by the staff of the crisis call center hub;

(e) The means to provide geographically, culturally, and linguistically appropriate services to persons who are part of high-risk populations or otherwise have need of specialized services or accommodations, and to document these services or accommodations; and

(f) When appropriate, consultation with tribal governments to ensure coordinated care in government-to-government relationships, and access to dedicated services to tribal members.

(7) To implement this section the department and the authority shall collaborate with the state enhanced 911 coordination office, emergency management division, and military department to develop technology that is demonstrated to be interoperable between the 988 crisis hotline system and crisis and emergency response systems used throughout the state, such as 911 systems, emergency medical services systems, and other nonbehavioral health crisis services, as well as the national suicide prevention lifeline, to assure cohesive interoperability, develop training programs and operations for both 911 public safety telecommunicators and crisis line workers, develop suicide and other behavioral health crisis assessments and intervention strategies, and establish efficient and equitable access to resources via crisis hotlines.

(8) The authority shall:

(a) Collaborate with county authorities and behavioral health administrative services organizations to develop procedures to dispatch behavioral health crisis services in coordination with crisis call center hubs to effectuate the intent of this section;

MESSAGE FROM THE HOUSE

April 22, 2021

MR. PRESIDENT:

The House passed ENGROSSED SUBSTITUTE SENATE BILL NO. 5478 with the following amendment(s): 5478-S.E AMH ENGR H1555.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. **Sec. 1.** (1) The legislature finds that certain businesses in Washington have experienced significant

and unanticipated impacts during the COVID-19 pandemic. The legislature intends to preemptively minimize the disproportionate impact COVID-19 economic closures have had on these businesses.

(2) Small businesses in particular have fewer reserves and fewer resources to rely upon in periods of downturn. Those businesses owned by historically disadvantaged groups, such as women, minority populations, and immigrants, often experience disproportionately more distress and burden due to the economic impacts of the COVID-19 pandemic compared to their counterparts across the remaining business community. These businesses are absolutely critical to the success of Washington's continued high ratings, number one gross domestic product, and are part of the backbone of Washington's diverse and resilient economy.

(3) The legislature finds that ESSB 5061, passed by the legislature and signed by the governor earlier in the 2021 session, mitigated immediate impacts to employers through caps on the social tax, suspension of the solvency surcharge, and relief of certain benefit charges.

(4) The legislature now intends to address the disproportionate impacts on small and other significantly impacted businesses beyond the limited time period addressed in ESSB 5061. The legislature intends to provide this targeted relief through the one-time application of funds, in order to provide critical support for many of the businesses that are essential to Washington's recovery and ongoing economic vitality, while maintaining a healthy unemployment insurance trust fund for Washington's workers.

NEW SECTION. **Sec. 2.** A new section is added to chapter 50.16 RCW to read as follows:

(1) The unemployment insurance relief account is created in the custody of the state treasurer. Revenues to the account consist of appropriations and transfers by the legislature and all other funding directed for deposit into the account. Only the commissioner of the employment security department or the commissioner's designee may authorize expenditures from the account. Expenditures from the account may be used only for reimbursing the unemployment compensation fund created in RCW 50.16.010 for forgiven benefits for COVID-19 impacted businesses pursuant to sections 3, 4, 5, 6, 7, 8, and 9 of this act. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) By July 1, 2022, the commissioner must certify to the state treasurer the amount of any unobligated moneys in the unemployment insurance relief account that were appropriated by the legislature from the general fund during the 2021-2023 fiscal biennium, and the treasurer must transfer those moneys back to the general fund.

NEW SECTION. **Sec. 3.** A new section is added to chapter 50.29 RCW to read as follows:

(1) By December 20, 2021, the department must determine the forgiven benefits for approved category 1 employers to be reimbursed by the unemployment insurance relief account instead of charged to the employer's experience rating account. Total forgiven benefits for all approved category 1 employers may not exceed the available benefits for category 1.

(2) The department will not charge the forgiven benefits to the employer's experience rating account. The commissioner must instead transfer from the unemployment insurance relief account to the unemployment compensation fund created in RCW 50.16.010 an amount equal to the forgiven benefits.

MESSAGE FROM THE HOUSE

April 23, 2021

MR. PRESIDENT:

The House passed ENGROSSED SECOND SUBSTITUTE SENATE BILL NO. 5126 with the following amendment(s): 5126-S2.E AMH ENGR H1619.E

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. FINDINGS AND INTENT. (1) The legislature finds that climate change is one of the greatest challenges facing our state and the world today, an existential crisis with major negative impacts on environmental and human health. Washington is experiencing environmental and

community impacts due to climate change through increasingly devastating wildfires, flooding, droughts, rising temperatures and sea levels, and ocean acidification. Greenhouse gas emissions already in the atmosphere will increase impacts for some period of time. Actions to increase resilience of our communities, natural resource lands, and ecosystems can prevent and reduce impacts to communities and our environment and improve their ability to recover.

(2) In 2020, the legislature updated the state's greenhouse gas emissions limits that are to be achieved by 2030, 2040, and 2050, based on current science and emissions trends, to support local and global efforts to avoid the most significant impacts from climate change. Meeting these limits will require coordinated, comprehensive, and multisectoral implementation of policies, programs, and laws, as other enacted policies are insufficient to meet the limits.

(3) The legislature further finds that while climate change is a global problem, there are communities that have historically borne the disproportionate impacts of environmental burdens and that now bear the disproportionate negative impacts of climate change. Although the state has done significant work in the past to highlight these environmental health disparities, beginning with senator Rosa Franklin's environmental equity study, and continuing through the work of the governor's interagency council on health disparities, the creation of the Washington environmental health disparities map, and recommendations of the environmental justice task force, the state can do much more to ensure that state programs address environmental equity.

(4) The legislature further finds that while enacted carbon policies can be well-intended to reduce greenhouse gas emissions and provide environmental benefits to communities, the policies may not do enough to ensure environmental health disparities are reduced and environmental benefits are provided to those communities most impacted by environmental harms from greenhouse gas and air pollutant emissions.

(5) The legislature further finds that wildfires have become one of the largest sources of black carbon in the last five years. From 2014 through 2018, wildfires in Washington state generated 39,200,000 metric tons of carbon, the equivalent of more than 8,500,000 cars on the road a year. In 2015, when 1,130,000 acres burned in Washington, wildfires were the second largest source of greenhouse gas emissions releasing 17,975,112 metric tons of carbon dioxide into the atmosphere. Wildfire pollution affects all Washingtonians, but has disproportionate health effects on low-income communities, communities of color, and the most vulnerable of our population. Restoring the health of our forests and investing in wildfire prevention and preparedness will therefore contribute to improved air quality and improved public health outcomes.

(6) The legislature further finds that by exercising a leadership role in addressing climate change, Washington will position its economy, technology centers, financial institutions, and manufacturers to benefit from national and international efforts that must occur to reduce greenhouse gases. The legislature intends to create climate policy that recognizes the special nature of emissions-intensive, trade-exposed industries by minimizing leakage and increased life-cycle emissions associated with product imports. The legislature further finds that climate policies must be appropriately designed, in order to avoid leakage that results in net increases in global greenhouse gas emissions and increased negative impacts to those communities most impacted by environmental harms from climate change. The legislature further intends to encourage these industries to continue to innovate, find new ways to be more energy efficient, use lower

carbon products, and be positioned to be global leaders in a low carbon economy.

(7) Under the program, the legislature intends to identify overburdened communities where the highest concentrations of criteria pollutants occur, determine the sources of those emissions and pollutants, and pursue significant reductions of emissions and pollutants in those communities. The legislature further intends for the department of ecology to conduct environmental justice assessments to ensure that funds and programs created under this chapter provide direct and meaningful benefits to vulnerable populations and overburdened communities. Additionally, the legislature intends to prevent job loss and provide protective measures if workers are adversely impacted by the transition to a clean energy economy through transition and assistance programs, worker-support projects, and workforce development and other activities designed to grow and expand the clean manufacturing sector in communities across Washington state. The legislature further intends to empower the environmental justice council established under RCW 70A.---.--- (section 20, chapter . . ., Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141)) to provide recommendations for the development and implementation of the program, the distribution of funds, and the establishment of programs, activities, and projects to achieve environmental justice and environmental health goals. The legislature further intends for the department of ecology to create and adopt community engagement plans and tribal consultation frameworks in the administration of the program to ensure equitable practices for meaningful community and federally recognized tribal involvement. Finally, the legislature intends to establish this program to contribute to a healthy environment for all of Washington's communities.

NEW SECTION. Sec. 3. ENVIRONMENTAL JUSTICE REVIEW. (1) To ensure that the program created in sections 8 through 24 of this act achieves reductions in criteria pollutants as well as greenhouse gas emissions in overburdened communities highly impacted by air pollution, the department must:

(a) Identify overburdened communities, which may be accomplished through the department's process to identify overburdened communities under chapter . . ., Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141);

(b) Deploy an air monitoring network in overburdened communities to collect sufficient air quality data for the 2023 review and subsequent reviews of criteria pollutant reductions conducted under subsection (2) of this section; and

(c)(i) Within the identified overburdened communities, analyze and determine which sources are the greatest contributors of criteria pollutants and develop a high priority list of significant emitters.

(ii) Prior to listing any entity as a high priority emitter, the department must notify that entity and share the data used to rank that entity as a high priority emitter, and provide a period of not less than 60 days for the covered entity to submit more recent data or other information relevant to the designation of that entity as a high priority emitter.

(2)(a) Beginning in 2023, and every two years thereafter, the department must conduct a review to determine levels of criteria pollutants, as well as greenhouse gas emissions, in the overburdened communities identified under subsection (1) of this section. This review must also include an evaluation of initial and subsequent health impacts related to criteria pollution in overburdened communities. The department may conduct this evaluation jointly with the department of health.

(b) Once this review determines the levels of criteria pollutants in an identified overburdened community, then the department, in consultation with local air pollution control authorities, must:

(i) Establish air quality targets to achieve air quality consistent with whichever is more protective for human health:

(A) National ambient air quality standards established by the United States environmental protection agency; or

(B) The air quality experienced in neighboring communities that are not identified as overburdened;

(ii) Identify the stationary and mobile sources that are the greatest contributors of those emissions that are either increasing or not decreasing;

(iii) Achieve the reduction targets through adoption of emission control strategies or other methods;

(iv) Adopt, along with local air pollution control authorities, stricter air quality standards, emission standards, or emissions limitations on criteria pollutants, consistent with the authority of the department provided under RCW 70A.15.3000, and may consider alternative mitigation actions that would reduce criteria pollution by similar amounts; and

(v) After adoption of the stricter air quality standards, emission standards, or emissions limitations on criteria pollutants under (b)(iv) of this subsection, issue an enforceable order or the local air authority must issue an enforceable order, as authorized under section 35 of this act, as necessary to comply with the stricter

2021 REGULAR SESSION

standards or limitations and the requirements of this section. The department or local air authority must initiate the process, including provision of notice to all relevant affected permittees or registered sources and to the public, to adopt and implement an enforceable order required under this subsection within six months of the adoption of standards or limitations under (b)(iv) of this subsection.

(3) For the purpose of performing the duties under subsection (2) of this section, two additional tribal members are added to the council.

NEW SECTION. Sec. 6. TRIBAL CONSULTATION.

(1) Agencies that allocate funding or administer grant programs appropriated from the climate investment account created in section 28 of this act must develop a consultation framework in coordination with tribal governments that includes best practices, protocols for communication, and collaboration with federally recognized tribes. Under this consultation framework, before allocating funding or administering grant programs appropriated from the climate investment account, agencies must offer consultation with federally recognized tribes on all funding decisions and programs that may impact, infringe upon, or impair the governmental efforts of federally recognized tribes to adopt or enforce their own standards governing or protecting the tribe's resources or other rights and interests in their tribal lands and lands within which a tribe or tribes possess rights reserved by treaty. The consultation is independent of any public participation process required by state law, or by a state agency, and regardless of whether the agency receives a request for consultation from a federally recognized tribe.

(2)(a) If any funding decision, program, project, or activity that impacts lands within which a tribe or tribes possess rights reserved by federal treaty, statute, or executive order is undertaken or funded under this chapter without such consultation with a federally recognized tribe, an affected tribe may request that all further action on the decision, program, project, or activity cease until meaningful consultation with any directly impacted federally recognized tribe is completed.

(b) A project or activity funded in whole or in part from the account created in section 28 of this act must be paused or ceased in the event that an affected federally recognized Indian tribe or the department of archaeology and historic preservation provides timely notice of a determination to the department and any other agency responsible for the project or activity that the project will adversely impact cultural resources, archaeological sites, or sacred sites. A project or activity paused at the direction of the department under this subsection may not be resumed or completed unless the potentially impacted tribe provides consent to the department and the proponent of the project or activity.

NEW SECTION. Sec. 7. GOVERNANCE STRUCTURE.

(1) The governor shall establish a governance structure to implement the state's climate commitment under the authority provided under this chapter and other statutory authority to provide accountability for achieving the state's greenhouse gas limits in RCW 70A.45.020, to establish a coordinated and strategic statewide approach to climate resilience, to build an equitable and inclusive clean energy economy, and to ensure that the government provides clear policy and requirements, financial tools, and other mechanisms to support achieving those limits.

(2) The governance structure for implementing the state's climate commitment must:

(a) Be holistic and address the needs, challenges, and opportunities to meet the climate commitment;

(b) Address emission reductions from all relevant sectors and sources by ensuring that emitters are responsible for meeting targeted greenhouse gas reductions and that the government provides clear policy and requirements, financial tools, and other mechanisms to support achieving those reductions;

(c) Support an equitable transition for vulnerable populations and overburdened communities, including through early and meaningful engagement of overburdened communities and workers to ensure the program achieves equitable and just outcomes;

(d) Build increasing climate resilience for at-risk communities and ecosystems through cross-sectoral coordination, strategic planning, and cohesive policies; and

(e) Apply the most current, accurate, and complete scientific and technical information available to guide the state's climate actions and strategies.

(3) The governance structure for implementing the state's climate commitment must include, but not be limited to, the following elements:

(a) A strategic plan for aligning existing law, rules, policies, programs, and plans with the state's greenhouse gas limits, to the full extent allowed under existing authority;

(b) Common state policies, standards, and procedures for addressing greenhouse gas emissions and climate resilience, including grant and funding programs, infrastructure investments, and planning and siting decisions;

(c) A process for prioritizing and coordinating funding consistent with strategic needs for greenhouse gas reductions, equity and environmental justice, and climate resilience actions;

(d) An updated statewide strategy for addressing climate risks and improving resilience of communities and ecosystems;

(e) A comprehensive community engagement plan that addresses and mitigates barriers to engagement from vulnerable populations, overburdened communities, and other historically or currently marginalized groups; and

(f) An analysis of gaps and conflicts in state law and programs, with recommendations for improvements to state law.

(4) The governor's office shall develop policy and budget recommendations to the legislature necessary to implement the state's climate commitment by December 31, 2021, in accordance with the purpose, principles, and elements in subsections (1) through (3) of this section.

(5) Nothing in this section establishes or creates legal authority for the department or any other state agency to enact, adopt, issue an order, or in any way implement additional regulatory programs beyond what is provided for under this chapter and other statutes.

NEW SECTION. Sec. 8. CAP ON GREENHOUSE GAS EMISSIONS. (1) In order to ensure that greenhouse gas emissions are reduced by covered entities consistent with the limits established in RCW 70A.45.020, the department must implement a cap on greenhouse gas emissions from covered entities and a program to track, verify, and enforce compliance through the use of compliance instruments.

(2) The program must consist of:

(a) Annual allowance budgets that limit emissions from covered entities, as provided in this section and sections 9 and 10 of this act;

(b) Defining those entities covered by the program, and those entities that may voluntarily opt into coverage under the program, as provided in this section and sections 9 and 10 of this act;

(c) Distribution of emission allowances, as provided in section 12 of this act, and through the allowance price containment provisions under sections 16 and 17 of this act;

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(d) Providing for offset credits as a method for meeting a compliance obligation, pursuant to section 19 of this act;

(e) Defining the compliance obligations of covered entities, as provided in section 22 of this act;

(f) Establishing the authority of the department to enforce the program requirements, as provided in section 23 of this act;

(g) Creating a climate investment account for the deposit of receipts from the distribution of emission allowances, as provided in section 28 of this act;

(h) Providing for the transfer of allowances and recognition of compliance instruments, including those issued by jurisdictions with which Washington has linkage agreements;

(i) Providing monitoring and oversight of the sale and transfer of allowances by the department;

(j) Creating a price ceiling and associated mechanisms as provided in section 18 of this act; and

(k) Providing for the allocation of allowances to emissions-intensive, trade-exposed industries pursuant to section 13 of this act.

(3) The department shall consider opportunities to implement the program in a manner that allows linking the state's program with those of other jurisdictions. The department must evaluate whether such linkage will provide for a more cost-effective means for covered entities to meet their compliance obligations in Washington while recognizing the special characteristics of the state's economy, communities, and industries. The department is authorized to enter into a linkage agreement with another jurisdiction after conducting an environmental justice assessment and after formal notice and opportunity for a public hearing, and when consistent with the requirements of section 24 of this act.

(4) During the 2022 regular legislative session, the department must bring forth agency request legislation developed in consultation with emissions-intensive, trade-exposed businesses, covered entities, environmental advocates, and overburdened communities that outlines a compliance pathway specific to emissions-intensive, trade-exposed businesses for achieving their proportionate share of the state's emissions reduction limits through 2050.

(5) By December 1, 2027, and at least every four years thereafter and in compliance with RCW 43.01.036, the department must submit a report to the legislature that includes a comprehensive review of the implementation of the program to date, including but not limited to outcomes relative to the state's emissions reduction limits, overburdened communities, covered entities, and emissions-intensive, trade-exposed businesses. The department must transmit the report to the environmental justice council at the same time it is submitted to the legislature.

(6) The department must bring forth agency request legislation if the department finds that any provision of this chapter prevents linking Washington's cap and invest program with that of any other jurisdiction.

NEW SECTION. Sec. 9. ANNUAL ALLOWANCE BUDGET AND TIMELINES. (1)(a) The department shall commence the program by January 1, 2023, by determining an emissions baseline establishing the proportionate share that the total greenhouse gas emissions of covered entities for the first compliance period bears to the total anthropogenic greenhouse gas emissions in the state during 2015 through 2019, based on data reported to the department under RCW 70A.15.2200 or provided as required by this chapter, as well as other relevant data. By October 1, 2022, the department shall adopt annual allowance budgets for the first compliance period of the program, calendar years 2023 through 2026, to be distributed from January 1, 2023, through December 31, 2026. If the first compliance period is delayed pursuant to section 22(7) of this act, the department shall

adjust the annual allowance budgets to reflect a shorter first compliance period.

(b) By October 1, 2026, the department shall add to its emissions baseline by incorporating the proportionate share that the total greenhouse gas emissions of new covered entities in the second compliance period bear to the total anthropogenic greenhouse gas emissions in the state during 2023 through 2025. In determining the addition to the baseline, the department may exclude a year from the determination if the department identifies that year to have been an outlier due to a state of emergency. The department shall adopt annual allowance budgets for the second compliance period of the program, calendar years 2027 through 2030, that will be distributed from January 1, 2027, through December 31, 2030.

(c) By October 1, 2028, the department shall adopt by rule the annual allowance budgets for calendar years 2031 through 2040.

(2) The annual allowance budgets must be set to achieve the share of reductions by covered entities necessary to achieve the 2030, 2040, and 2050 statewide emissions limits established in RCW 70A.45.020, based on data reported to the department under chapter 70A.15 RCW or provided as required by this chapter. Annual allowance budgets must be set such that the use of offsets as compliance instruments, consistent with section 19 of this act, does not prevent the achievement of the emissions limits established in RCW 70A.45.020. In so setting annual allowance budgets, the department must reduce the annual allowance budget relative to the limits in an amount equivalent to offset use, or in accordance with a similar methodology adopted by the department. The department must adopt annual allowance budgets for the program on a calendar year basis that provide for progressively equivalent reductions year over year. An allowance distributed under the program, either directly by the department under sections 13 through 15 of this act or through auctions under section 12 of this act, does not expire and may be held or banked consistent with sections 12(6) and 17(1) of this act.

(3) The department must complete an evaluation by December 31, 2027, and by December 31, 2035, of the performance of the program, including its performance in reducing greenhouse gases. If the evaluation shows that adjustments to the annual allowance budgets are necessary for covered entities to achieve their proportionate share of the 2030 and 2040 emission reduction limits identified in RCW 70A.45.020, as applicable, the department shall adjust the annual allowance budgets accordingly. The department must complete additional evaluations of the performance of the program by December 31, 2040, and by December 31, 2045, and make any necessary adjustments in the annual allowance budgets to ensure that covered entities achieve their proportionate share of the 2050 emission reduction limit identified in RCW 70A.45.020. Nothing in this subsection precludes the department from making additional adjustments to annual allowance budgets as necessary to ensure successful achievement of the proportionate emission reduction limits by covered entities. The department shall determine and make public the circumstances, metrics, and processes that would initiate the public consideration of additional allowance budget adjustments to ensure successful achievement of the proportionate emission reduction limits.

(4) Data reported to the department under RCW 70A.15.2200 or provided as required by this chapter for 2015 through 2019 is deemed sufficient for the purpose of adopting annual allowance budgets and serving as the baseline by which covered entities demonstrate compliance under the first compliance period of the program. Data reported to the department under RCW 70A.15.2200 or provided as required by this chapter for 2023 through 2025 is deemed sufficient for adopting annual allowance

budgets and serving as the baseline by which covered entities demonstrate compliance under the second compliance period of the program.

(5) The legislature intends to promote a growing and sustainable economy and to avoid leakage of emissions from manufacturing to other jurisdictions. Therefore, the legislature finds that implementation of this section is contingent upon the enactment of section 13 of this act.

NEW SECTION. Sec. 10. PROGRAM COVERAGE. (1) A person is a covered entity as of the beginning of the first compliance period and all subsequent compliance periods if the person reported emissions under RCW 70A.15.2200 for any calendar year from 2015 through 2019, or if additional data provided as required by this chapter indicates that emissions for any calendar year from 2015 through 2019 equaled or exceeded any of the following thresholds, or if the person is a first jurisdictional deliverer and imports electricity into the state during the compliance period:

(a) Where the person owns or operates a facility and the facility's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent;

(b) Where the person is a first jurisdictional deliverer and generates electricity in the state and emissions associated with this generation equals or exceeds 25,000 metric tons of carbon dioxide equivalent;

(c) Where the person is a first jurisdictional deliverer importing electricity into the state and the cumulative annual total of emissions associated with the imported electricity, whether from specified or unspecified sources, exceeds 25,000 metric tons of carbon dioxide equivalent. In consultation with any linked jurisdiction to the program created by this chapter, by October 1, 2026, the department, in consultation with the department of commerce and the utilities and transportation commission, shall adopt by rule a methodology for addressing imported electricity associated with a centralized electricity market;

(d) Where the person is a supplier of fossil fuel other than natural gas and from that fuel 25,000 metric tons or more of carbon dioxide equivalent emissions would result from the full combustion or oxidation, excluding the amounts for fuel products that are produced or imported with a documented final point of delivery outside of Washington and combusted outside of Washington; and

(e)(i) Where the person supplies natural gas in amounts that would result in exceeding 25,000 metric tons of carbon dioxide equivalent emissions if fully combusted or oxidized, excluding the amounts for fuel products that are produced or imported with a documented final point of delivery outside of Washington and combusted outside of Washington, and excluding the amounts: (A) Supplied to covered entities under (a) through (d) of this subsection; and (B) delivered to opt-in entities;

(ii) Where the person who is not a natural gas company and has a tariff with a natural gas company to deliver to an end-use customer in the state in amounts that would result in exceeding 25,000 metric tons of carbon dioxide equivalent emissions if fully combusted or oxidized, excluding the amounts: (A) Supplied to covered entities under (a) through (d) of this subsection; and (B) the amounts delivered to opt-in entities;

(iii) Where the person is an end-use customer in the state who directly purchases natural gas from a person that is not a natural gas company and has the natural gas delivered through an interstate pipeline to a distribution system owned by the purchaser in amounts that would result in exceeding 25,000 metric tons of carbon dioxide equivalent emissions if fully combusted or oxidized, excluding the amounts: (A) Supplied to covered entities under (a) through (d) of this subsection; and (B) delivered to opt-in entities.

(2) A person is a covered entity as of the beginning of the second compliance period and all subsequent compliance periods if the person reported emissions under RCW 70A.15.2200 or provided emissions data as required by this chapter for any calendar year from 2023 through 2025, where the person owns or operates a waste to energy facility utilized by a county and city solid waste management program and the facility's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent.

(3)(a) A person is a covered entity beginning January 1, 2031, and all subsequent compliance periods if the person reported emissions under RCW 70A.15.2200 or provided emissions data as required by this chapter for any calendar year from 2027 through 2029, where the person owns or operates a:

(i) Landfill utilized by a county and city solid waste management program and the facility's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent; or

(ii) Railroad company, as that term is defined in RCW 81.04.010, and the railroad company's emissions equal or exceed 25,000 metric tons of carbon dioxide equivalent.

(b) Subsection (a) of this subsection does not apply to owners or operators of landfills that:

(i) Capture at least 75 percent of the landfill gas generated by the decomposition of waste using methods under 40 C.F.R. Part 98, Subpart HH - Municipal Solid Waste landfills, and subsequent updates; and

(ii) Operate a program, individually or through partnership with another entity, that results in the production of renewable natural gas or electricity from landfill gas generated by the facility.

(c) It is the intent of the legislature to adopt a greenhouse gas reduction policy specific to landfills. If such a policy is not enacted by January 1, 2030, the requirements of this subsection (3) take full effect.

(4) When a covered entity reports, during a compliance period, emissions from a facility under RCW 70A.15.2200 that are below the thresholds specified in subsection (1) or (2) of this section, the covered entity continues to have a compliance obligation through the current compliance period. When a covered entity reports emissions below the threshold for each year during an entire compliance period, or has ceased all processes at the facility requiring reporting under RCW 70A.15.2200, the entity is no longer a covered entity as of the beginning of the subsequent compliance period unless the department provides notice at least 12 months before the end of the compliance period that the facility's emissions were within 10 percent of the threshold and that the person will continue to be designated as a covered entity in order to ensure equity among all covered entities. Whenever a covered entity ceases to be a covered entity, the department shall notify the appropriate policy and fiscal committees of the legislature of the name of the entity and the reason the entity is no longer a covered entity.

(5) For types of emission sources described in subsection (1) of this section that begin or modify operation after January 1, 2023, and types of emission sources described in subsection (2) of this section that begin or modify operation after 2027, coverage under the program starts in the calendar year in which emissions from the source exceed the applicable thresholds in subsection (1) or (2) of this section, or upon formal notice from the department that the source is expected to exceed the applicable emissions threshold, whichever happens first. Sources meeting these conditions are required to transfer their first allowances on the first transfer deadline of the year following the year in which their emissions were equal to or exceeded the emissions threshold.

(6) For emission sources described in subsection (1) of this section that are in operation or otherwise active between 2015 and 2019 but were not required to report emissions for those years

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

under RCW 70A.15.2200 for the reporting periods between 2015 and 2019, coverage under the program starts in the calendar year following the year in which emissions from the source exceed the applicable thresholds in subsection (1) of this section as reported pursuant to RCW 70A.15.2200 or provided as required by this chapter, or upon formal notice from the department that the source is expected to exceed the applicable emissions threshold for the first year that source is required to report emissions, whichever happens first. Sources meeting these criteria are required to transfer their first allowances on the first transfer deadline of the year following the year in which their emissions, as reported under RCW 70A.15.2200 or provided as required by this chapter, were equal to or exceeded the emissions threshold.

(7) The following emissions are exempt from coverage in the program, regardless of the emissions reported under RCW 70A.15.2200 or provided as required by this chapter:

- (a) Emissions from the combustion of aviation fuels;
- (b) Emissions from watercraft fuels supplied in Washington that are combusted outside of Washington;
- (c) Emissions from a coal-fired electric generation facility exempted from additional greenhouse gas limitations, requirements, or performance standards under RCW 80.80.110;
- (d) Carbon dioxide emissions from the combustion of biomass or biofuels;
- (e)(i) Motor vehicle fuel or special fuel that is used exclusively for agricultural purposes by a farm fuel user. This exemption is available only if a buyer of motor vehicle fuel or special fuel provides the seller with an exemption certificate in a form and manner prescribed by the department. For the purposes of this subsection, "agricultural purposes" and "farm fuel user" have the same meanings as provided in RCW 82.08.865.

(ii) The department must determine a method for expanding the exemption provided under (e)(i) of this subsection to include fuels used for the purpose of transporting agricultural products on public highways. The department must maintain this expanded exemption for a period of five years, in order to provide the agricultural sector with a feasible transition period; and

(f) Emissions from facilities with North American industry classification system code 92811 (national security).

(8) The department shall not require multiple covered entities to have a compliance obligation for the same emissions. The department may by rule authorize refineries, fuel suppliers, facilities using natural gas, and natural gas utilities to provide by agreement for the assumption of the compliance obligation for fuel or natural gas supplied and combusted in the state. The department must be notified of such an agreement at least 12 months prior to the compliance obligation period for which the agreement is applicable.

(9)(a) The legislature intends to promote a growing and sustainable economy and to avoid leakage of emissions from manufacturing to other locations. The legislature further intends to see innovative new businesses locate and grow in Washington that contribute to Washington's prosperity and environmental objectives.

(b) Consistent with the intent of the legislature to avoid the leakage of emissions to other jurisdictions, in achieving the state's greenhouse gas limits in RCW 70A.45.020, the state, including lead agencies under chapter 43.21C RCW, shall pursue the limits in a manner that recognizes that the siting and placement of new or expanded best-in-class facilities with lower carbon emitting processes is in the economic and environmental interests of the state of Washington.

(c) In conducting a life-cycle analysis, if required, for new or expanded facilities that require review under chapter 43.21C RCW, a lead agency must evaluate and attribute any potential net

cumulative greenhouse gas emissions resulting from the project as compared to other existing facilities or best available technology including best-in-class facilities and emerging lower carbon processes that supply the same product or end use. The department may adopt rules to determine the appropriate threshold for applying this analysis.

(d) Covered emissions from an entity that is or will be a covered entity under this chapter may not be the basis for denial of a permit for a new or expanded facility. Covered emissions must be included in the analysis undertaken pursuant to (c) of this subsection. Nothing in this subsection requires a lead agency or a permitting agency to approve or issue a permit to a permit applicant, including to a new or expanded fossil fuel project.

(e) A lead agency under chapter 43.21C RCW or a permitting agency shall allow a new or expanded facility that is a covered entity or opt-in entity to satisfy a mitigation requirement for its covered emissions under this act and under any greenhouse gas emission mitigation requirements for covered emissions under chapter 43.21C RCW by submitting to the department the number of compliance instruments equivalent to its covered emissions during a compliance period.

NEW SECTION. Sec. 11. REQUIREMENTS. (1) All covered entities must register to participate in the program, following procedures adopted by the department by rule.

(2) Entities registering to participate in the program must describe any direct or indirect affiliation with other registered entities.

(3) A person responsible for greenhouse gas emissions that is not a covered entity may voluntarily participate in the program by registering as an opt-in entity. An opt-in entity must satisfy the same registration requirements as covered entities. Once registered, an opt-in entity is allowed to participate as a covered entity in auctions and must assume the same compliance obligation to transfer compliance instruments equal to their emissions at the appointed transfer dates. An opt-in entity may opt out of the program at the end of any compliance period by providing written notice to the department at least six months prior to the end of the compliance period. The opt-in entity continues to have a compliance obligation through the current compliance period. An opt-in entity is not eligible to receive allowances directly distributed under section 13, 14, or 15 of this act.

(4) A person that is not covered by the program and is not a covered entity or opt-in entity may voluntarily participate in the program as a general market participant. General market participants must meet all applicable registration requirements specified by rule.

(5) Federally recognized tribes and federal agencies may elect to participate in the program as opt-in entities or general market participants.

(6) The department shall use a secure, online electronic tracking system to: Register entities in the state program; issue compliance instruments; track ownership of compliance instruments; enable and record compliance instrument transfers; facilitate program compliance; and support market oversight.

(7) The department must use an electronic tracking system that allows two accounts to each covered or opt-in entity:

(a) A compliance account where the compliance instruments are transferred to the department for retirement. Compliance instruments in compliance accounts may not be sold, traded, or otherwise provided to another account or person.

(b) A holding account that is used when a registered entity is interested in trading allowances. Allowances in holding accounts may be bought, sold, transferred to another registered entity, or traded. The amount of allowances a registered entity may have in

its holding account is constrained by the holding limit as determined by the department by rule. Information about the contents of each holding account, including but not limited to the number of allowances in the account, must be displayed on a regularly maintained and searchable public website established and updated by the department.

(8) Registered general market participants are each allowed an account, to hold, trade, sell, or transfer allowances.

(9) The department shall maintain an account for the purpose of retiring allowances transferred by registered entities and from the voluntary renewable reserve account.

(10) The department shall maintain a public roster of all covered entities, opt-in entities, and general market participants on the department's public website.

(11) The department shall include a voluntary renewable reserve account.

NEW SECTION. Sec. 12. AUCTIONS OF ALLOWANCES. (1) Except as provided in sections 13, 14, and 15 of this act, the department shall distribute allowances through auctions as provided in this section and in rules adopted by the department to implement these sections. An allowance is not a property right.

(2)(a) The department shall hold a maximum of four auctions annually, plus any necessary reserve auctions. An auction may include allowances from the annual allowance budget of the current year and allowances from the annual allowance budgets from prior years that remain to be distributed. The department must transmit to the environmental justice council an auction notice at least 60 days prior to each auction, as well as a summary results report and a postauction public proceeds report within 60 days after each auction. The department must communicate the results of the previous calendar year's auctions to the environmental justice council on an annual basis beginning in 2024.

(b) The department must make future vintage allowances available through parallel auctions at least twice annually in addition to the auctions through which current vintage allowances are exclusively offered under (a) of this subsection.

(3) The department shall engage a qualified, independent contractor to run the auctions. The department shall also engage a qualified financial services administrator to hold the bid guarantees, evaluate bid guarantees, and inform the department of the value of bid guarantees once the bids are accepted.

(4) Auctions are open to covered entities, opt-in entities, and general market participants that are registered entities in good standing. The department shall adopt by rule the requirements for a registered entity to register and participate in a given auction.

(a) Registered entities intending to participate in an auction must submit an application to participate at least 30 days prior to the auction. The application must include the documentation required for review and approval by the department. A registered entity is eligible to participate only after receiving a notice of approval by the department.

(b) Each registered entity that elects to participate in the auction must have a different representative. Only a representative with an approved auction account is authorized to access the auction platform to submit an application or confirm the intent to bid for the registered entity, submit bids on behalf of the registered entity during the bidding window, or to download reports specific to the auction.

(5) The department may require a bid guarantee, payable to the financial services administrator, in an amount greater than or equal to the sum of the maximum value of the bids to be submitted by the registered entity.

(6) To protect the integrity of the auctions, a registered entity or group of registered entities with a direct corporate association

are subject to auction purchase and holding limits. The department may impose additional limits if it deems necessary to protect the integrity and functioning of the auctions:

(a) A covered entity or an opt-in entity may not buy more than 10 percent of the allowances offered during a single auction;

(b) A general market participant may not buy more than four percent of the allowances offered during a single auction and may not in aggregate own more than 10 percent of total allowances to be issued in a calendar year;

(c) No registered entity may buy more than the entity's bid guarantee; and

(d) No registered entity may buy allowances that would exceed the entity's holding limit at the time of the auction.

(7)(a) For fiscal year 2023, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$127,341,000 must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(b) For fiscal year 2024, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$356,697,000 must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(c) For fiscal year 2025, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$366,558,000 must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(d) For fiscal years 2026 through 2037, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) \$359,117,000 per year must first be deposited into the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(e) The deposits into the carbon emissions reduction account pursuant to (a) through (d) of this subsection must not exceed \$5,200,000,000 over the first 16 years and any remaining auction proceeds must be deposited into the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

(f) For fiscal year 2038 and each year thereafter, upon completion and verification of the auction results, the financial services administrator shall notify winning bidders and transfer the auction proceeds to the state treasurer for deposit as follows: (i) 50 percent of the auction proceeds to the carbon emissions reduction account created in section 27 of this act; and (ii) the remaining auction proceeds to the climate investment account created in section 28 of this act and the air quality and health disparities improvement account created in section 31 of this act.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(8) The department shall adopt by rule provisions to guard against bidder collusion and minimize the potential for market manipulation. A registered entity may not release or disclose any bidding information including: Intent to participate or refrain from participation; auction approval status; intent to bid; bidding strategy; bid price or bid quantity; or information on the bid guarantee provided to the financial services administrator. The department may cancel or restrict a previously approved auction participation application or reject a new application if the department determines that a registered entity has:

- (a) Provided false or misleading facts;
- (b) Withheld material information that could influence a decision by the department;
- (c) Violated any part of the auction rules;
- (d) Violated registration requirements; or
- (e) Violated any of the rules regarding the conduct of the auction.

(9) Any cancellation or restriction approved by the department under subsection (8) of this section may be permanent or for a specified number of auctions and the cancellation or restriction imposed is not exclusive and is in addition to the remedies that may be available pursuant to chapter 19.86 RCW or other state or federal laws, if applicable.

(10) The department shall design allowance auctions so as to allow, to the maximum extent practicable, linking with external greenhouse gas emissions trading programs in other jurisdictions and to facilitate the transfer of allowances when the state's program has entered into a linkage agreement with other external greenhouse gas emissions trading programs. The department may conduct auctions jointly with linked jurisdictions.

(11) In setting the number of allowances offered at each auction, the department shall consider the allowances in the marketplace due to the marketing of allowances issued as required under sections 13, 14, and 15 of this act in the department's determination of the number of allowances to be offered at auction. The department shall offer only such number of allowances at each auction as will enhance the likelihood of achieving the goals of RCW 70A.45.020.

NEW SECTION. Sec. 13. ALLOCATION OF ALLOWANCES TO EMISSIONS-INTENSIVE, TRADE-EXPOSED INDUSTRIES. (1) Facilities owned or operated by a covered entity must receive an allocation of allowances for the covered emissions at those facilities under this subsection at no cost if the operations of the facility are classified as emissions-intensive and trade-exposed, as determined by being engaged in one or more of the processes described by the following industry descriptions and codes in the North American industry classification system:

(a) Metals manufacturing, including iron and steel making, ferroalloy and primary metals manufacturing, secondary aluminum smelting and alloying, aluminum sheet, plate, and foil manufacturing, and smelting, refining, and alloying of other nonferrous metals, North American industry classification system codes beginning with 331;

(b) Paper manufacturing, including pulp mills, paper mills, and paperboard milling, North American industry classification system codes beginning with 322;

(c) Aerospace product and parts manufacturing, North American industry classification system codes beginning with 3364;

(d) Wood products manufacturing, North American industry classification system codes beginning with 321;

(e) Nonmetallic mineral manufacturing, including glass container manufacturing, North American industry classification system codes beginning with 327;

(f) Chemical manufacturing, North American industry classification system codes beginning with 325;

(g) Computer and electronic product manufacturing, including semiconductor and related device manufacturing, North American industry classification system codes beginning with 334;

(h) Food manufacturing, North American industry classification system codes beginning with 311;

(i) Cement manufacturing, North American industry classification system code 327310;

(j) Petroleum refining, North American industry classification system code 324110;

(k) Asphalt paving mixtures and block manufacturing from refined petroleum, North American industry classification system code 324121;

(l) Asphalt shingle and coating manufacturing from refined petroleum, North American industry classification system code 324122; and

(m) All other petroleum and coal products manufacturing from refined petroleum, North American industry classification system code 324199.

(2) By July 1, 2022, the department must adopt by rule objective criteria for both emissions' intensity and trade exposure for the purpose of identifying emissions-intensive, trade-exposed manufacturing businesses during the second compliance period of the program and subsequent compliance periods. A facility covered by subsection (1)(a) through (m) of this section is considered an emissions-intensive, trade-exposed facility and is eligible for allocation of no cost allowances as described in this section. In addition, any covered party that is a manufacturing business that can demonstrate to the department that it meets the objective criteria adopted by rule is also eligible for treatment as emissions-intensive, trade-exposed and is eligible for allocation of no cost allowances as described in this section. In developing the objective criteria under this subsection, the department must consider the locations of facilities potentially identified as emissions-intensive, trade-exposed manufacturing businesses relative to overburdened communities.

(3)(a) For the first compliance period beginning in January 1, 2023, the annual allocation of no cost allowances for direct distribution to a facility identified as emissions-intensive and trade-exposed must be equal to the facility's baseline carbon intensity established using data from 2015 through 2019, or other data as allowed under this section, multiplied by the facility's actual production for each calendar year during the compliance period. For facilities using the mass-based approach, the allocation of no cost allowances shall be equal to the facility's mass-based baseline using data from 2015 through 2019, or other data as allowed under this section.

(b) For the second compliance period, beginning in January, 2027, and in each subsequent compliance period, the annual allocation of no cost allowances established in (a) of this subsection shall be adjusted according to the benchmark reduction schedules established in (b)(ii) and (iii) and (c) of this subsection multiplied by the facility's actual production during the period. The department shall adjust the no cost allocation of allowances and credits to an emissions-intensive and trade-exposed facility to avoid duplication with any no cost allowances transferred pursuant to sections 14 and 15 of this act, if applicable.

(i) For the purpose of this section, "carbon intensity" means the amount of carbon dioxide equivalent emissions from a facility in metric tons divided by the facility specific measure of production including, but not limited to, units of product manufactured or sold, over the same time interval.

(ii) If an emissions-intensive and trade-exposed facility is not able to feasibly determine a carbon intensity benchmark based on its unique circumstances, the entity may elect to use a mass-based baseline that does not vary based on changes in production volumes. The mass-based baseline must be based upon data from 2015 through 2019, unless the emissions-intensive, trade-exposed facility can demonstrate that there have been abnormal periods of operation that materially impacted the facility and the baseline period should be expanded to include years prior to 2015. For each year during the first four-year compliance period that begins January 1, 2023, these facilities must be awarded no cost allowances equal to 100 percent of the facility's mass-based baseline. For each year during the second four-year compliance period that begins January 1, 2027, these facilities must be awarded no cost allowances equal to 97 percent of the facility's mass-based baseline. For each year during the third compliance period that begins January 1, 2031, these facilities must be awarded no cost allowances equal to 94 percent of the facility's mass-based baseline. Except as provided in (b)(iii) of this subsection, if a facility elects to use a mass-based baseline, it may not later convert to a carbon intensity benchmark during the first three compliance periods.

(iii) A facility with a North American industry classification system code beginning with 3364 that is utilizing a mass-based baseline in (b)(ii) of this subsection must receive an additional no cost allowance allocation under this section in order to accommodate an increase in production that increases its emissions above the baseline on a basis equivalent in principle to those awarded to entities utilizing a carbon intensity benchmark pursuant to this subsection (3)(b). The department shall establish methods to award, for any annual period, additional no cost allowance allocations under this section and, if appropriate based on projected production, to achieve a similar ongoing result through the adjustment of the facility's mass-based baseline. An eligible facility under this subsection that has elected to use a mass-based baseline may not convert to a carbon intensity benchmark until the next compliance period.

(c)(i) By September 15, 2022, each emissions-intensive, trade-exposed facility shall submit its carbon intensity baseline for the first compliance period to the department. The carbon intensity baseline for the first compliance period must use data from 2015-2019, unless the emissions-intensive, trade-exposed facility can demonstrate that there have been abnormal periods of operation that materially impacted the facility and the baseline period should be expanded to include years prior to 2015.

(ii) By November 15, 2022, the department shall review and approve each emissions-intensive, trade-exposed facility's baseline carbon intensity for the first compliance period.

(d) During the first four-year compliance period that begins January 1, 2023, each emissions-intensive, trade-exposed facility must record its facility-specific carbon intensity baseline based on its actual production.

(e)(i) For the second four-year compliance period that begins January 1, 2027, the second period benchmark for each emissions-intensive, trade-exposed facility is three percent below the first period baseline specified in (a), (b), and (c) of this subsection.

(ii) For the third four-year compliance period that begins January 1, 2031, the third period benchmark for each emissions-intensive, trade-exposed facility is three percent lower than the second period benchmark.

(f) Prior to the beginning of either the second, third, or subsequent compliance periods, the department may make an upward adjustment in the next compliance period's benchmark for an emissions-intensive, trade-exposed facility based on the facility's demonstration to the department that additional

reductions in carbon intensity or mass emissions are not technically or economically feasible. The department may base the upward adjustment applicable to an emissions-intensive, trade-exposed facility in the next compliance period on the facility's best available technology analysis. The department shall by rule provide for emissions-intensive, trade-exposed facilities to apply to the department for an adjustment to the allocation for direct distribution of no cost allowances based on its facility-specific carbon intensity benchmark or mass emissions baseline. The department shall make adjustments based on:

(i) A significant change in the emissions use or emissions attributable to the manufacture of an individual good or goods in this state by an emissions-intensive, trade-exposed facility based on a finding by the department that an adjustment is necessary to accommodate for changes in the manufacturing process that have a material impact on emissions;

(ii) Significant changes to an emissions-intensive, trade-exposed facility's external competitive environment that result in a significant increase in leakage risk; or

(iii) Abnormal operating periods when an emissions-intensive, trade-exposed facility's carbon intensity has been materially affected so that these abnormal operating periods are either excluded or otherwise considered in the establishment of the compliance period carbon intensity benchmarks.

(4)(a) By December 1, 2026, the department shall provide a report to the appropriate committees of the senate and house of representatives that describes alternative methods for determining the amount and a schedule of allowances to be provided to facilities owned or operated by each covered entity designated as an emissions-intensive, trade-exposed facility from January 1, 2035, through January 1, 2050. The report must include a review of global best practices in ensuring against emissions leakage and economic harm to businesses in carbon pricing programs and describe alternative methods of emissions performance benchmarking and mass-based allocation of no cost allowances. At a minimum, the department must evaluate benchmarks based on both carbon intensity and mass, as well as the use of best available technology as a method for compliance. In developing the report, the department shall form an advisory group that includes representatives of the manufacturers listed in subsection (1) of this section.

(b) If the legislature does not adopt a compliance obligation for emissions-intensive, trade-exposed facilities by December 1, 2027, those facilities must continue to receive allowances as provided in the third four-year compliance period that begins January 1, 2031.

(5) If the actual emissions of an emissions-intensive, trade-exposed facility exceed the facility's no cost allowances assigned for that compliance period, it must acquire additional compliance instruments such that the total compliance instruments transferred to its compliance account consistent with section 22 of this act equals emissions during the compliance period. An emissions-intensive, trade-exposed facility must be allowed to bank unused allowances, including for future sale and investment in best available technology when economically feasible. The department shall limit the use of offset credits for compliance by an emissions-intensive, trade-exposed facility, such that the quantity of no cost allowances plus the provision of offset credits does not exceed 100 percent of the facility's total compliance obligation over a compliance period.

(6) The department must withhold or withdraw the relevant share of allowances allocated to a covered entity under this section in the event that the covered entity ceases production in the state and becomes a closed facility. In the event an entity curtails all production and becomes a curtailed facility, the allowances are retained but cannot be traded, sold, or transferred

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

and are still subject to the emission reduction requirements specified in this section. An owner or operator of a curtailed facility may transfer the allowances to a new operator of the facility that will be operated under the same North American industry classification system codes. If the curtailed facility becomes a closed facility, then all unused allowances will be transferred to the emissions containment reserve. A curtailed facility is not eligible to receive free allowances during a period of curtailment. Any allowances withheld or withdrawn under this subsection must be transferred to the emissions containment reserve.

(7) An owner or operator of more than one facility receiving no cost allowances under this section may transfer allowances among the eligible facilities.

(8) Rules adopted by the department under this section must include protocols for allocating allowances at no cost to an eligible facility built after the effective date of this section. The protocols must include consideration of the products and criteria pollutants being produced by the facility, as well as the local environmental and health impacts associated with the facility. For a facility that is built on tribal lands or is determined by the department to impact tribal lands and resources, the protocols must be developed in consultation with the affected tribal nations.

NEW SECTION. Sec. 14. ALLOCATION OF ALLOWANCES TO ELECTRIC UTILITIES. (1) The legislature intends by this section to allow all consumer-owned electric utilities and investor-owned electric utilities subject to the requirements of chapter 19.405 RCW, the Washington clean energy transformation act, to be eligible for allowance allocation as provided in this section in order to mitigate the cost burden of the program on electricity customers.

(2)(a) By October 1, 2022, the department shall adopt rules, in consultation with the department of commerce and the utilities and transportation commission, establishing the methods and procedures for allocating allowances for consumer-owned and investor-owned electric utilities. The rules must take into account the cost burden of the program on electricity customers.

(b) By October 1, 2022, the department shall adopt an allocation schedule by rule, in consultation with the department of commerce and the utilities and transportation commission, for the first compliance period for the provision of allowances at no cost to consumer-owned and investor-owned electric utilities. This allocation must be consistent with a forecast, that is approved by the appropriate governing board or the utilities and transportation commission, of each utility's supply and demand, and the cost burden resulting from the inclusion of the covered entities in the first compliance period.

(c) By October 1, 2026, the department shall adopt an allocation schedule by rule, in consultation with the department of commerce and the utilities and transportation commission, for the provision of allowances for the second compliance period at no cost to consumer-owned and investor-owned electric utilities. This allocation must be consistent with a forecast, that is approved by the appropriate governing board or the utilities and transportation commission, of each utility's supply and demand, and the cost burden resulting from the inclusion of covered entities in the second compliance period. The allowances included in this schedule must reflect the increased scope of coverage in the electricity sector relative to the program budget of allowances established in 2022.

(d) By October 1, 2028, the department shall adopt an allocation schedule by rule, in consultation with the department of commerce and the utilities and transportation commission, for the provision of allowances at no cost to consumer-owned and investor-owned electric utilities for the compliance periods

contained within calendar years 2031 through 2045. This allocation must be consistent with a forecast, that is approved by the appropriate governing board or the utilities and transportation commission, of each utility's supply and demand, and the cost burden resulting from the inclusion of the covered entities in the compliance periods. The rule developed under this subsection (2)(d) may prescribe an amount of allowances allocated at no cost that must be consigned to auction by consumer-owned and investor-owned electric utilities. However, utilities may use allowances for compliance equal to their covered emissions in any calendar year they were not subject to potential penalty under RCW 19.405.090. Under no circumstances may utilities receive any free allowances after 2045.

(3)(a) During the first compliance period, allowances allocated at no cost to consumer-owned and investor-owned electric utilities may be consigned to auction for the benefit of ratepayers, deposited for compliance, or a combination of both. The rules adopted by the department under subsection (2) of this section must include provisions for directing revenues generated under this subsection to the applicable utilities.

(b) By October 1, 2026, the department, in consultation with the department of commerce and the utilities and transportation commission, must adopt rules governing the amount of allowances allocated at no cost under subsection (2)(c) of this section that must be consigned to auction. For calendar year 2030, electric utilities may use allowances for compliance equal to their covered emissions if not subject to potential penalty under RCW 19.405.090.

(4) The benefits of all allowances consigned to auction under this section must be used by consumer-owned and investor-owned electric utilities for the benefit of ratepayers, with the first priority the mitigation of any rate impacts to low-income customers.

(5) If an entity is identified by the department as an emissions-intensive, trade-exposed industry under section 13 of this act, unless allowances have been otherwise allocated for electricity-related emissions to the entity under section 13 of this act or to a consumer-owned utility under this section, the department shall allocate allowances at no cost to the electric utility or power marketing administration that is providing electricity to the entity in an amount equal to the forecasted emissions for electricity consumption for the entity for the compliance period.

(6) The department shall allow for allowances to be transferred between a power marketing administration and electric utilities and used for direct compliance.

(7) Rules establishing the allocation of allowances to consumer-owned utilities and investor-owned utilities must consider the impact of electrification of buildings, transportation, and industry on the electricity sector.

(8) Nothing in this section affects the requirements of chapter 19.405 RCW.

(9) A consumer-owned utility that is party to a contract that meets the following conditions must be issued allowances under this section for emissions associated with imported electricity, in order to prevent impairment of the value of the contract to either party:

(a) The contract does not address compliance costs imposed upon the consumer-owned utility by the program created in this chapter; and

(b) The contract was in effect as of the effective date of this section and expires no later than the end of the first compliance period.

NEW SECTION. Sec. 15. ALLOCATION OF ALLOWANCES TO NATURAL GAS UTILITIES. (1) For the

benefit of ratepayers, allowances must be allocated at no cost to covered entities that are natural gas utilities.

(a) By October 1, 2022, the department shall adopt rules, in consultation with the utilities and transportation commission, establishing the methods and procedures for allocating allowances to natural gas utilities. Rules adopted under this subsection must allow for a natural gas utility to be provided allowances at no cost to cover their emissions and decline proportionally with the cap, consistent with section 9 of this act. Allowances allocated at no cost to natural gas utilities must be consigned to auction for the benefit of ratepayers consistent with subsection (2) of this section, deposited for compliance, or a combination of both. The rules adopted by the department pursuant to this section must include provisions directing revenues generated under this subsection to the applicable utilities.

(b) By October 1, 2022, the department shall adopt an allocation schedule by rule, in consultation with the utilities and transportation commission, for the first two compliance periods for the provision of allowances for the benefit of ratepayers at no cost to natural gas utilities.

(c) By October 1, 2028, the department shall adopt an allocation schedule by rule, in consultation with the utilities and transportation commission, for the provision of allowances for the benefit of ratepayers at no cost to natural gas utilities for the compliance periods contained within calendar years 2031 through 2040.

(2)(a) Beginning in 2023, 65 percent of the no cost allowances must be consigned to auction for the benefit of customers, including at a minimum eliminating any additional cost burden to low-income customers from the implementation of this chapter. Rules adopted under this subsection must increase the percentage of allowances consigned to auction by five percent each year until a total of 100 percent is reached.

(b) Revenues from allowances sold at auction must be returned by providing nonvolumetric credits on ratepayer utility bills, prioritizing low-income customers, or used to minimize cost impacts on low-income, residential, and small business customers through actions that include, but are not limited to, weatherization, decarbonization, conservation and efficiency services, and bill assistance. The customer benefits provided from allowances consigned to auction under this section must be in addition to existing requirements in statute, rule, or other legal requirements.

(c) Except for low-income customers, the customer bill credits under this subsection are reserved exclusively for customers at locations connected to a natural gas utility's system on the effective date of this section. Bill credits may not be provided to customers of the gas utility at a location connected to the system after the effective date of this section.

(3) In order to qualify for no cost allowances, covered entities that are natural gas utilities must provide copies of their greenhouse gas emissions reports filed with the United States environmental protection agency under 40 C.F.R. Part 98 subpart NN - suppliers of natural gas and natural gas liquids for calendar years 2015 through 2021 to the department on or before March 31, 2022. The copies of the reports must be provided in electronic form to the department, in a manner prescribed by the department. The reports must be complete and contain all information required by 40 C.F.R. Sec. 98.406 including, but not limited to, information on large end-users served by the natural gas utility. For any year where a natural gas utility was not required to file this report with the United States environmental protection agency, a report may be submitted in a manner prescribed by the department containing all of the information required in the subpart NN report.

(4) To continue receiving no cost allowances, a natural gas utility must provide to the department the United States environmental protection agency subpart NN greenhouse gas emissions report for each reporting year in the manner and by the dates provided by RCW 70A.15.2200(5) as part of the greenhouse gas reporting requirements of this chapter.

NEW SECTION. Sec. 16. EMISSIONS CONTAINMENT RESERVE WITHHOLDING. (1) To help ensure that the price of allowances remains sufficient to incentivize reductions in greenhouse gas emissions, the department must establish an emissions containment reserve and set an emissions containment reserve trigger price by rule. The price must be set at a reasonable amount above the auction floor price and equal to the level established in jurisdictions with which the department has entered into a linkage agreement. In the event that a jurisdiction with which the department has entered into a linkage agreement has no emissions containment trigger price, the department shall suspend the trigger price under this subsection. The purpose of withholding allowances in the emissions containment reserve is to secure additional emissions reductions.

(2) In the event that the emissions containment reserve trigger price is met during an auction, the department must automatically withhold allowances as needed. The department must convert and transfer any allowances that have been withheld from auction into the emissions containment reserve account.

(3) Emissions containment reserve allowances may only be withheld from an auction if the demand for allowances would result in an auction clearing price that is less than the emissions containment reserve trigger price prior to the withholding from the auction of any emissions containment reserve allowances.

(4) The department shall transfer allowances to the emissions containment reserve in the following situations:

(a) No less than two percent of the total number of allowances available from the allowance budgets for calendar years 2023 through 2026;

(b) When allowances are unsold in auctions under section 12 of this act;

(c) When facilities curtail or close consistent with section 13(6) of this act; or

(d) When facilities fall below the emissions threshold. The amount of allowances withdrawn from the program budget must be proportionate to the amount of emissions such a facility was previously using.

(5)(a) Allowances must be distributed from the emissions containment reserve by auction when new covered and opt-in entities enter the program.

(b) Allowances equal to the greenhouse gas emissions resulting from a new or expanded emissions-intensive, trade-exposed facility with emissions in excess of 25,000 metric tons per year during the first applicable compliance period will be provided to the facility from the reserve created in this section and must be retired by the facility. In subsequent compliance periods, the facility will be subject to the regulatory cap and related requirements under this chapter.

NEW SECTION. Sec. 17. ALLOWANCE PRICE CONTAINMENT. (1) To help minimize allowance price volatility in the auction, the department shall adopt by rule an auction floor price and a schedule for the floor price to increase by a predetermined amount every year. The department may not sell allowances at bids lower than the auction floor price. The department's rules must specify holding limits that determine the maximum number of allowances that may be held for use or trade by a registered entity at any one time. The department shall also establish an auction ceiling price to limit extraordinary prices and to determine when to offer allowances through the allowance price containment reserve auctions authorized under this section.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(2) For calendar years 2023 through 2026, the department must place no less than two percent of the total number of allowances available from the allowance budgets for those years in an allowance price containment reserve. The reserve must be designed as a mechanism to assist in containing compliance costs for covered and opt-in entities in the event of unanticipated high costs for compliance instruments.

(3)(a) The department shall adopt rules for holding auctions of allowances from the price containment reserve when the settlement prices in the preceding auction approach the adopted auction ceiling price. The auction must be separate from auctions of other allowances.

(b) Allowances must also be distributed from the allowance price containment reserve by auction when new covered and opt-in entities enter the program and allowances in the emissions containment reserve under section 16 of this act are exhausted.

(4) Only covered and opt-in entities may participate in the auction of allowances from the allowance price containment reserve.

(5) The process for reserve auctions is the same as the process provided in section 12 of this act and the proceeds from reserve auctions must be treated the same.

(6) The department shall by rule:

(a) Set the reserve auction floor price in advance of the reserve auction. The department may choose to establish multiple price tiers for the allowances from the reserve;

(b) Establish the requirements and schedule for the allowance price containment reserve auctions; and

(c) Establish the amount of allowances to be placed in the allowance price containment reserve after the first compliance period ending in 2026.

NEW SECTION. Sec. 18. PRICE CEILING. (1) The department shall establish a price ceiling to provide cost protection for facilities obligated to comply with this chapter. The ceiling must be set at a level sufficient to facilitate investments to achieve further emission reductions beyond those enabled by the price ceiling, with the intent that investments accelerate the state's achievement of greenhouse gas limits established under RCW 70A.45.020. The price ceiling must increase annually in proportion to the price floor.

(2) In the event that no allowances remain in the allowance price containment reserve, the department must issue the number of price ceiling units for sale sufficient to provide cost protection for facilities as established under subsection (1) of this section. Purchases must be limited to entities that do not have sufficient eligible compliance instruments in their holding and compliance accounts for the next compliance period and these entities may only purchase what they need to meet their compliance obligation for the current compliance period. Price ceiling units may not be sold or transferred and must be retired for compliance in the current compliance period. A price ceiling unit is not a property right.

(3) Funds raised in connection with the sale of price ceiling units must be expended to achieve emissions reductions on at least a metric ton for metric ton basis that are real, permanent, quantifiable, verifiable, enforceable by the state, and in addition to any greenhouse gas emission reduction otherwise required by law or regulation and any other greenhouse gas emission reduction that otherwise would occur.

NEW SECTION. Sec. 19. OFFSETS. (1) The department shall adopt by rule the protocols for establishing offset projects and securing offset credits that may be used to meet a portion of a covered or opt-in entity's compliance obligation under section 22 of this act. The protocols adopted by the department under this

section must align with the policies of the state established under RCW 70A.45.090 and 70A.45.100.

(2) Offset projects must:

(a) Provide direct environmental benefits to the state or be located in a jurisdiction with which Washington has entered into a linkage agreement;

(b) Result in greenhouse gas reductions or removals that:

(i) Are real, permanent, quantifiable, verifiable, and enforceable; and

(ii) Are in addition to greenhouse gas emission reductions or removals otherwise required by law and other greenhouse gas emission reductions or removals that would otherwise occur; and

(c) Have been certified by a recognized registry after the effective date of this section or within two years prior to the effective date of this section.

(3)(a) A total of no more than five percent of a covered or opt-in entity's compliance obligation during the first compliance period may be met by transferring offset credits. During these years, at least 50 percent of a covered or opt-in entity's compliance obligation satisfied by offset credits must be sourced from offset projects that provide direct environmental benefits in the state.

(b) A total of no more than four percent of a covered or opt-in entity's compliance obligation during the second compliance period may be met by transferring offset credits. During these years, at least 75 percent of a covered or opt-in entity's compliance obligation satisfied by offset credits must be sourced from offset projects that provide direct environmental benefits in the state. The department may reduce the 75 percent requirement if it determines there is not sufficient offset supply in the state to meet offset demand during the second compliance period.

(c) The limits in (a) and (b) of this subsection may be modified by rule as adopted by the department when appropriate to ensure achievement of the proportionate share of statewide emissions limits established in RCW 70A.45.020 and to provide for alignment with other jurisdictions to which the state has linked.

(d) The limits in (a) and (b) of this subsection may be reduced for a specific covered or opt-in entity if the department determines, in consultation with the environmental justice council, that the covered or opt-in entity has or is likely to:

(i) Contribute substantively to cumulative air pollution burden in an overburdened community as determined by criteria established by the department, in consultation with the environmental justice council; or

(ii) Violate any permits required by any federal, state, or local air pollution control agency where the violation may result in an increase in emissions.

(e) An offset project on federally recognized tribal land does not count against the offset credit limits described in (a) and (b) of this subsection. No more than three percent of a covered or opt-in entity's compliance obligation may be met by transferring offset credits from projects on federally recognized tribal land during the first compliance period. No more than two percent of a covered or opt-in entity's compliance obligation may be met by transferring offset credits from projects on federally recognized tribal land during the second compliance period.

(4) In adopting protocols governing offset projects and covered and opt-in entities' use of offset credits, the department shall:

(a) Take into consideration standards, rules, or protocols for offset projects and offset credits established by other states, provinces, and countries with programs comparable to the program established in this chapter;

(b) Encourage opportunities for the development of offset projects in this state by adopting offset protocols that may include, but need not be limited to, protocols that make use of

aggregation or other mechanisms to reduce transaction costs related to the development of offset projects and that support the development of carbon dioxide removal projects;

(c) Adopt a process for monitoring and invalidating offset credits as necessary to ensure the credit reflects emission reductions or removals that continue to meet the standards required by subsection (1) of this section. If an offset credit is invalidated, the covered or opt-in entity must, within six months of the invalidation, transfer replacement credits or allowances to meet its compliance obligation. Failure to transfer the required credits or allowances is a violation subject to penalties as provided in section 23 of this act; and

(d) Make use of aggregation or other mechanisms, including cost-effective inventory and monitoring provisions, to increase the development of offset and carbon removal projects by landowners across the broadest possible variety of types and sizes of lands, including lands owned by small forestland owners.

(5) Any offset credits used may not be in addition to or allow for an increase in the emissions limits established under RCW 70A.45.020, as reflected in the annual allowance budgets developed under section 9 of this act.

(6) The offset credit must be registered and tracked as a compliance instrument.

(7) Beginning in 2031, the limits established in subsection (3) of this section apply unless modified by rule as adopted by the department after a public consultation process.

NEW SECTION. Sec. 20. ASSISTANCE PROGRAM FOR OFFSETS ON TRIBAL LANDS. (1) In order to ensure that a sufficient number of high quality offset projects are available under the limits set in section 19 of this act, the department must establish an assistance program for offset projects on federally recognized tribal lands in Washington. The assistance may include, but is not limited to, funding or consultation for federally recognized tribal governments to assess a project's technical feasibility, investment requirements, development and operational costs, expected returns, administrative and legal hurdles, and project risks and pitfalls. The department may provide funding or assistance upon request by a federally recognized tribe.

(2) It is the intent of the legislature that not less than \$5,000,000 be provided in the biennial omnibus operating appropriations act for the purposes of this section.

NEW SECTION. Sec. 21. SMALL FORESTLAND OWNER WORK GROUP. (1) The department of natural resources must contract with an eligible entity capable of providing public value to the state through the establishment and implementation of a small forestland owner work group. The purpose of the work group is to forward the goals and implementation of this chapter by identifying possible carbon market opportunities including, but not limited to, the provision of offset credits that qualify under section 19 of this act, and other incentive-based greenhouse gas reduction programs that Washington landowners may be able to access, including compliance markets operated by other jurisdictions, voluntary markets, and federal, state, and private programs for forestlands that can be leveraged to achieve carbon reductions.

(2) The work group established by the eligible entity under this section must:

(a) Provide recommendations for the implementation and funding of a pilot program to develop an aggregator account that will pursue carbon offset projects for small forestland owners in Washington state, including recommendations based on programs established in other jurisdictions;

(b) Coordinate with the department on the development of offset protocols related to landowners under section 19(4)(d) of this act;

(c) Develop a framework and funding proposals for establishing a program to link interested small forestland owners with incentive-based carbon reducing programs that facilitate adoption of forest practices that increase carbon storage and sequestration in forests and wood products. The framework may include:

(i) Identifying areas of coordination and layering among state, federal, and private landowner incentive programs and identifying roadblocks to better scalability;

(ii) Assisting landowners with access to feasibility analyses, market applications, stand inventories, pilot project support, and other services to reduce the transaction costs and barriers to entry to carbon markets or carbon incentive programs; and

(iii) Sharing information with private and other landowners about best practices employed to increase carbon storage and access to incentive programs; and

(d) Recommend policies to support the implementation of incentives for participation in carbon markets.

(3) The work group must transmit a final report to the department by December 1, 2022, that provides recommendations for incentives, the implementation of incentives, and payment structures necessary to support small forest landowners and any recommendations around extending the work group or making the work group permanent. The department must submit the final report to the legislature, in compliance with RCW 43.01.036, by December 31, 2022.

(4) For the purposes of this section, "eligible entity" means a nonprofit entity solely based in Washington that can demonstrate a membership of at least 1000 small forestland owners and that has, as part of its mission, the promotion of the sustainable stewardship of family forestlands.

(5) This section expires July 1, 2023.

NEW SECTION. Sec. 22. COMPLIANCE OBLIGATIONS. (1) A covered or opt-in entity has a compliance obligation for its emissions during each four-year compliance period, with the first compliance period commencing January 1, 2023, except when the first compliance period commences at a later date as provided in subsection (7) of this section. A covered or opt-in entity shall transfer a number of compliance instruments equal to the entity's covered emissions by November 1st of each calendar year in which a covered or opt-in entity has a compliance obligation. The department shall set by rule a percentage of compliance instruments that must be transferred in each year of the compliance period such that covered or opt-in entities are allowed to smooth their compliance obligation within the compliance period but must fully satisfy their compliance obligation over the course of the compliance period, in a manner similar to external greenhouse gas emissions trading programs in other jurisdictions. In meeting a given compliance obligation, a covered or opt-in entity may use allowances issued in that compliance year, or allowances issued in any of the seven years immediately preceding that compliance year.

(2) Compliance occurs through the transfer of compliance instruments or price ceiling units, on or before the transfer date, from the holding account to the compliance account of the covered or opt-in entity as described in section 10 of this act.

(3)(a) A covered entity with a facility eligible for use of price ceiling units under section 18 of this act may substitute the submission of compliance instruments with price ceiling units.

(b) A covered or opt-in entity submitting insufficient compliance instruments to meet its compliance obligation is subject to a penalty as provided in section 23 of this act.

(4) Older vintage allowances must be retired before newer vintage allowances.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(5) A covered or opt-in entity may not borrow an allowance from a future allowance year to meet a current or past compliance obligation.

(6) Upon receipt by the department of all compliance instruments transferred by a covered entity or opt-in entity to meet its compliance obligation, the department shall retire the allowances or offset credits.

(7)(a) In order to coordinate and synchronize the cap and invest program established under this chapter with other transportation-related investments, this section does not take effect until a separate additive transportation revenue act becomes law, at which time the department of licensing must provide written notice to the chief clerk of the house of representatives, the secretary of the senate, and the office of the code reviser.

(b) For the purposes of this subsection, "additive transportation revenue act" means an act, enacted after April 1, 2021, in which the state fuel tax under RCW 82.38.030 is increased by an additional and cumulative tax rate of at least five cents per gallon of fuel.

NEW SECTION. Sec. 23. ENFORCEMENT. (1) All covered and opt-in entities are required to submit compliance instruments in a timely manner to meet the entities' compliance obligations and shall comply with all requirements for monitoring, reporting, holding, and transferring emission allowances and other provisions of this chapter.

(2) If a covered or opt-in entity does not submit sufficient compliance instruments to meet its compliance obligation by the specified transfer dates, a penalty of four allowances for every one compliance instrument that is missing must be submitted to the department within six months. When a covered entity or opt-in entity reasonably believes that it will be unable to meet a compliance obligation, the entity shall immediately notify the department. Upon receiving notification, the department shall issue an order requiring the entity to submit the penalty allowances.

(3) If a covered entity or opt-in entity fails to submit penalty allowances as required by subsection (2) of this section, the department must issue an order or issue a penalty of up to \$10,000 per day per violation, or both, for failure to submit penalty allowances as required by subsection (2) of the section. The order may include a plan and schedule for coming into compliance.

(4) The department may issue a penalty of up to \$50,000 per day per violation for violations of section 12(8) (a) through (e) of this act.

(5) Except as provided in subsections (3) and (4) of this section, any person that violates the terms of this chapter or an order issued under this chapter incurs a penalty of up to \$10,000 per day per violation for each day that the person does not comply. All penalties under subsections (3) and (4) of this section and this subsection must be deposited into the climate investment account created in section 28 of this act.

(6) Orders and penalties issued under this chapter are appealable to the pollution control hearings board under chapter 43.21B RCW.

(7) For the first compliance period, the department may reduce the amount of the penalty by adjusting the monetary amount or the number of penalty allowances described in subsections (2) and (3) of this section.

(8) An electric utility or natural gas utility must notify its retail customers and the environmental justice council in published form within three months of paying a monetary penalty under this section.

(9)(a) No city, town, county, township, or other subdivision or municipal corporation of the state may implement a charge or tax based exclusively upon the quantity of greenhouse gas emissions.

(b) No state agency may adopt or enforce a program that regulates greenhouse gas emissions from a stationary source except as provided in this chapter.

(c) This chapter preempts the provisions of chapter 173-442 WAC.

NEW SECTION. Sec. 24. LINKAGE WITH OTHER JURISDICTIONS. (1) Subject to making the findings and conducting the public comment process described in subsection (3) of this section, the department shall seek to enter into linkage agreements with other jurisdictions with external greenhouse gas emissions trading programs in order to:

(a) Allow for the mutual use and recognition of compliance instruments issued by Washington and other linked jurisdictions;

(b) Broaden the greenhouse gas emission reduction opportunities to reduce the costs of compliance on covered entities and consumers;

(c) Enable allowance auctions to be held jointly and provide for the use of a unified tracking system for compliance instruments;

(d) Enhance market security;

(e) Reduce program administration costs; and

(f) Provide consistent requirements for covered entities whose operations span jurisdictional boundaries.

(2) The director of the department is authorized to execute linkage agreements with other jurisdictions with external greenhouse gas emissions trading programs consistent with the requirements in this chapter. A linkage agreement must cover the following:

(a) Provisions relating to regular, periodic auctions, including requirements for eligibility for auction participation, the use of a single auction provider to facilitate joint auctions, publication of auction-related information, processes for auction participation, purchase limits by auction participant type, bidding processes, dates of auctions, and financial requirements;

(b) Provisions related to holding limits to ensure no entities in any of the programs are disadvantaged relative to their counterparts in the other jurisdictions;

(c) Other requirements, such as greenhouse gas reporting and verification, offset protocols, criteria and process, and supervision and enforcement, to prevent fraud, abuse, and market manipulation;

(d) Common program registry, electronic auction platform, tracking systems for compliance instruments, and monitoring of compliance instruments;

(e) Provisions to ensure coordinated administrative and technical support;

(f) Provisions for public notice and participation; and

(g) Provisions to collectively resolve differences, amend the agreements, and delink or otherwise withdraw from the agreements.

(3) Before entering into a linkage agreement under this section, the department must evaluate and make a finding regarding whether the aggregate number of unused allowances in a linked program would reduce the stringency of Washington's program and the state's ability to achieve its greenhouse gas emissions reduction limits. The department must include in its evaluation a consideration of pre-2020 unused allowances that may exist in the program with which it is proposing to link. Before entering into a linkage agreement, the department must also establish a finding that the linking jurisdiction and the linkage agreement meet certain criteria identified under this subsection and conduct a public comment process to obtain input and a review of the linkage agreement by relevant stakeholders and other interested parties. The department must consider input received from the public comment process before finalizing a linkage agreement. In the event that the department determines that a full linkage

agreement is unlikely to meet the criteria, it may enter into a linkage agreement with limitations, including limits on the share of compliance that may be met with allowances originating from linked jurisdictions and other limitations deemed necessary by the department. A linkage agreement approved by the department must:

(a) Achieve the purposes identified in subsection (1) of this section;

(b) Ensure that the linking jurisdiction has provisions to ensure the distribution of benefits from the program to vulnerable populations and overburdened communities;

(c) Be determined by the department to not yield net adverse impacts to either jurisdictions' highly impacted communities or analogous communities in the aggregate, relative to the baseline level of emissions; and

(d) Not adversely impact Washington's ability to achieve the emission reduction limits established in RCW 70A.45.020.

(4) The state retains all legal and policymaking authority over its program design and enforcement.

NEW SECTION. Sec. 25. RULES. The department shall adopt rules to implement the provisions of the program established in sections 8 through 24 of this act. The department may adopt emergency rules pursuant to RCW 34.05.350 for initial implementation of the program, to implement the state omnibus appropriations act for the 2021-2023 fiscal biennium, and to ensure that reporting and other program requirements are determined early for the purpose of program design and early notice to registered entities with a compliance obligation under the program.

NEW SECTION. Sec. 26. EXPENDITURE TARGETS. (1) It is the intent of the legislature that each year the total investments made through the carbon emissions reduction account created in section 27 of this act, the climate commitment account created in section 29 of this act, the natural climate solutions account created in section 30 of this act, and the air quality and health disparities improvement account created in section 31 of this act, achieve the following:

(a) A minimum of not less than 35 percent and a goal of 40 percent of total investments that provide direct and meaningful benefits to vulnerable populations within the boundaries of overburdened communities identified under chapter . . . , Laws of 2021 (Engrossed Second Substitute Senate Bill No. 5141); and

(b) In addition to the requirements of (a) of this subsection, a minimum of not less than 10 percent of total investments that are used for programs, activities, or projects formally supported by a resolution of an Indian tribe, with priority given to otherwise qualifying projects directly administered or proposed by an Indian tribe. An investment that meets the requirements of both this subsection (1)(b) and (a) of this subsection may count toward the minimum percentage targets for both subsections.

(2) The expenditure of moneys under this chapter must be consistent with applicable federal, state, and local laws, and treaty rights including, but not limited to, prohibitions on uses of funds imposed by the state Constitution.

(3) For the purposes of this section, "benefits" means investments or activities that:

(a) Reduce vulnerable population characteristics, environmental burdens, or associated risks that contribute significantly to the cumulative impact designation of highly impacted communities;

(b) Meaningfully protect an overburdened community from, or support community response to, the impacts of air pollution or climate change; or

(c) Meet a community need identified by vulnerable members of the community that is consistent with the intent of this chapter.

(4) The state must develop a process by which to evaluate the impacts of the investments made under this chapter, work across state agencies to develop and track priorities across the different eligible funding categories, and work with the environmental justice council pursuant to section 5 of this act.

(5) No expenditures may be made from the carbon emissions reduction account created in section 27 of this act, the climate investment account created in section 28 of this act, or the air quality and health disparities improvement account created in section 31 of this act if, by April 1, 2023, the legislature has not considered and enacted request legislation brought forth by the department under section 8 of this act that outlines a compliance pathway specific to emissions-intensive, trade-exposed businesses for achieving their proportionate share of the state's emissions reduction limits through 2050.

NEW SECTION. Sec. 27. CARBON EMISSIONS REDUCTION ACCOUNT. The carbon emissions reduction account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account are intended to affect reductions in transportation sector carbon emissions through a variety of carbon reducing investments. These can include, but are not limited to: Transportation alternatives to single occupancy passenger vehicles; reductions in single occupancy passenger vehicle miles traveled; reductions in per mile emissions in vehicles, including through the funding of alternative fuel infrastructure and incentive programs; and emission reduction programs for freight transportation, including motor vehicles and rail, as well as for ferries and other maritime and port activities. Expenditures from the account may only be made for transportation carbon emission reducing purposes and may not be made for highway purposes authorized under the 18th Amendment of the Washington state Constitution, other than specified in this section. It is the legislature's intent that expenditures from the account used to reduce carbon emissions be made with the goal of achieving equity for communities that historically have been omitted or adversely impacted by past transportation policies and practices.

NEW SECTION. Sec. 28. CLIMATE INVESTMENT ACCOUNT. (1)(a) The climate investment account is created in the state treasury. Except as otherwise provided in this act, all receipts from the auction of allowances authorized in this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation.

(b) Projects or activities funded from the account must meet high labor standards, including family sustaining wages, providing benefits including health care and employer-contributed retirement plans, career development opportunities, and maximize access to economic benefits from such projects for local workers and diverse businesses. Each contracting entity's proposal must be reviewed for equity and opportunity improvement efforts, including: (i) Employer paid sick leave programs; (ii) pay practices in relation to living wage indicators such as the federal poverty level; (iii) efforts to evaluate pay equity based on gender identity, race, and other protected status under Washington law; (iv) facilitating career development opportunities, such as apprenticeship programs, internships, job-shadowing, and on-the-job training; and (v) employment assistance and employment barriers for justice affected individuals.

(2) Moneys in the account may be used only for projects and programs that achieve the purposes of the greenhouse gas emissions cap and invest program established under this chapter. Moneys in the account as described in this subsection must first be appropriated for the administration of the requirements of this chapter, in an amount not to exceed five percent of the total receipt of funds from allowance auction proceeds under this

2021 REGULAR SESSION

chapter. Beginning July 1, 2024, and annually thereafter, the state treasurer shall distribute funds in the account as follows:

(a) Seventy-five percent of the moneys to the climate commitment account created in section 29 of this act; and

(b) Twenty-five percent of the moneys to the natural climate solutions account created in section 30 of this act.

(3) The allocations specified in subsection (2)(a) and (b) of this section must be reviewed by the legislature on a biennial basis based on the changing needs of the state in meeting its clean economy and greenhouse gas reduction goals in a timely, economically advantageous, and equitable manner.

NEW SECTION. Sec. 29. CLIMATE COMMITMENT ACCOUNT. (1) The climate commitment account is created in the state treasury. The account must receive moneys distributed to the account from the climate investment account created in section 28 of this act. Moneys in the account may be spent only after appropriation. (i) Programs, activities, or projects that directly improve energy affordability and reduce the energy burden of people with lower incomes, as well as the higher transportation fuel burden of rural residents, such as bill assistance, energy efficiency, and weatherization programs;

(ii) Community renewable energy projects that allow qualifying participants to own or receive the benefits of those projects at reduced or no cost;

(iii) Programs, activities, or other worker-support projects for bargaining unit and nonsupervisory fossil fuel workers who are affected by the transition away from fossil fuels to a clean energy economy. Worker support may include, but is not limited to: (A) Full wage replacement, health benefits, and pension contributions for every worker within five years of retirement; (B) full wage replacement, health benefits, and pension contributions for every worker with at least one year of service for each year of service up to five years of service; (C) wage insurance for up to five years for workers reemployed who have more than five years of service; (D) up to two years of retraining costs, including tuition and related costs, based on in-state community and technical college costs; (E) peer counseling services during transition; (F) employment placement services, prioritizing employment in the clean energy sector; and (G) relocation expenses;

(2) Moneys in the account may not be used for projects or activities that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from this account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

NEW SECTION. Sec. 30. NATURAL CLIMATE SOLUTIONS ACCOUNT. (1) The natural climate solutions account is created in the state treasury. All moneys directed to the account from the climate investment account created in section 28 of this act must be deposited in the account. Moneys in the account may be spent only after appropriation. Moneys in the account are intended to increase the resilience of the state's waters, forests, and other vital ecosystems to the impacts of climate change, conserve working forestlands at risk of conversion, and increase their carbon pollution reduction capacity through sequestration, storage, and overall system integrity. Moneys in the account must be spent in a manner that is consistent with existing and future assessments of climate risks and resilience from the scientific community and expressed concerns of and impacts to overburdened communities.

(2) Moneys in the account may be allocated for the following purposes:

(a) Clean water investments that improve resilience from climate impacts. Funding under this subsection (2)(a) must be used to:

(i) Restore and protect estuaries, fisheries, and marine shoreline habitats and prepare for sea level rise including, but not limited to, making fish passage correction investments such as those identified in the cost-share barrier removal program for small forestland owners created in RCW 76.13.150 and those that are considered by the fish passage barrier removal board created in RCW 77.95.160;

(ii) Increase carbon storage in the ocean or aquatic and coastal ecosystems;

(iii) Increase the ability to remediate and adapt to the impacts of ocean acidification;

(iv) Reduce flood risk and restore natural floodplain ecological function;

(vii) Either preserve or increase, or both, carbon sequestration and storage benefits in forests, forested wetlands, agricultural soils, tidally influenced agricultural or grazing lands, or freshwater, saltwater, or brackish aquatic lands; or

(viii) Either preserve or establish, or both, carbon sequestration by protecting or planting trees in marine shorelines and freshwater riparian areas sufficient to promote climate resilience, protect cold water fisheries, and achieve water quality standards;

(b) Healthy forest investments to improve resilience from climate impacts. Funding under this subsection (2)(b) must be used for projects and activities that will:

(i) Increase forest and community resilience to wildfire in the face of increased seasonal temperatures and drought;

(ii) Improve forest health and reduce vulnerability to changes in hydrology, insect infestation, and other impacts of climate change; or

(iii) Prevent emissions by preserving natural and working lands from the threat of conversion to development or loss of critical habitat, through actions that include, but are not limited to, the creation of new conservation lands, community forests, or increased support to small forestland owners through assistance programs including, but not limited to, the forest riparian easement program and the family forest fish passage program. It is the intent of the legislature that not less than \$10,000,000 be expended each biennium for the forestry riparian easement program created in chapter 76.13 RCW or for riparian easement projects funded under the agricultural conservation easements program established under RCW 89.08.530, or similar riparian enhancement programs.

(3) Moneys in the account may not be used for projects that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from this account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

NEW SECTION. Sec. 31. AIR QUALITY AND HEALTH DISPARITIES IMPROVEMENT ACCOUNT. (1) The air quality and health disparities improvement account is created in the state treasury. Moneys in the account may be spent only after appropriation. Expenditures from the account are intended to:

(a) Improve air quality through the reduction of criteria pollutants, including through effective air quality monitoring and the establishment of adequate baseline emissions data; and

(b) Reduce health disparities in overburdened communities by improving health outcomes through the reduction or elimination of environmental harms and the promotion of environmental benefits.

(2) Moneys in the account may be used for either capital budget or transportation budget purposes, or both. Moneys in the account may not be used for projects that would violate tribal treaty rights or result in significant long-term damage to critical habitat or ecological functions. Investments from the account must result in long-term environmental benefits and increased resilience to the impacts of climate change.

(3) It is the intent of the legislature that not less than \$20,000,000 per biennium be dedicated to the account for the purposes of the account.

NEW SECTION. Sec. 32. (1) By December 1, 2029, the joint legislative audit and review committee must analyze the impacts of the initial five years of program implementation and must submit a report summarizing the analysis to the legislature. The analysis must include, at minimum, the following components:

(a) Costs and benefits, including environmental and public health costs and benefits, associated with this chapter for categories of persons participating in the program or that are most impacted by air pollution, as defined in consultation with the departments of ecology and health and as measured on a census tract scale. This component of the analysis must, at a minimum, assess the costs and benefits of changes in the following metrics since the start of the program:

(i) Levels of greenhouse gas emissions and criteria air pollutants for which the United States environmental protection agency has established national ambient air quality standards;

(ii) Fuel prices; and

(iii) Total employment in categories of industries that are covered entities. The categories of industries assessed must include, but are not limited to, electric utilities, natural gas utilities, oil refineries, and other industries classified as emissions-intensive and trade-exposed;

(b) An evaluation of the information provided by the department in its 2027 program evaluation under section 9(3) of this act;

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(c) A summary of the estimated total statewide costs and benefits attributable to the program, including state agency administrative costs and covered entity compliance costs. For purposes of calculating the benefits of the program, the summary may rely, in part, on a constant value of the social costs attributable to greenhouse gas emissions, as identified in contemporary internationally accepted estimates of such global social cost. This summary must include an estimate of the total statewide costs of the program per ton of greenhouse gas emissions reductions achieved by the program; and

(d) An evaluation of the impacts of the program on low-income households.

(2) This section expires June 30, 2030.

Sec. 33. RCW 70A.15.2200 and 2020 c 20 s 1090 are each amended to read as follows:

(1) The board of any activated authority or the department, may classify air contaminant sources, by ordinance, resolution, rule or regulation, which in its judgment may cause or contribute to air pollution, according to levels and types of emissions and other characteristics which cause or contribute to air pollution, and may require registration or reporting or both for any such class or classes. Classifications made pursuant to this section may be for application to the area of jurisdiction of such authority, or the state as a whole or to any designated area within the jurisdiction, and shall be made with special reference to effects on health, economic and social factors, and physical effects on property.

(2) Except as provided in subsection (3) of this section, any person operating or responsible for the operation of air contaminant sources of any class for which the ordinances, resolutions, rules or regulations of the department or board of the authority, require registration or reporting shall register therewith and make reports containing information as may be required by such department or board concerning location, size and height of contaminant outlets, processes employed, nature of the contaminant emission and such other information as is relevant to air pollution and available or reasonably capable of being assembled. In the case of emissions of greenhouse gases as defined in RCW 70A.45.010 the department shall adopt rules requiring reporting of those emissions. The department or board may require that such registration or reporting be accompanied by a fee, and may determine the amount of such fee for such class or classes: PROVIDED, That the amount of the fee shall only be to compensate for the costs of administering such registration or reporting program which shall be defined as initial registration and annual or other periodic reports from the source owner providing information directly related to air pollution registration, on-site inspections necessary to verify compliance with registration requirements, data storage and retrieval systems necessary for support of the registration program, emission inventory reports and emission reduction credits computed from information provided by sources pursuant to registration program requirements, staff review, including engineering or other reliable analysis for accuracy and currentness, of information provided by sources pursuant to registration program requirements, clerical and other office support provided in direct furtherance of the registration program, and administrative support provided in directly carrying out the registration program: PROVIDED FURTHER, That any such registration made with either the board or the department shall preclude a further registration and reporting with any other board or the department, except that emissions of greenhouse gases as defined in RCW 70A.45.010 must be reported as required under subsection (5) of this section.

All registration program and reporting fees collected by the department shall be deposited in the air pollution control account.

All registration program fees collected by the local air authorities shall be deposited in their respective treasuries.

(3) If a registration or report has been filed for a grain warehouse or grain elevator as required under this section, registration, reporting, or a registration program fee shall not, after January 1, 1997, again be required under this section for the warehouse or elevator unless the capacity of the warehouse or elevator as listed as part of the license issued for the facility has been increased since the date the registration or reporting was last made. If the capacity of the warehouse or elevator listed as part of the license is increased, any registration or reporting required for the warehouse or elevator under this section must be made by the date the warehouse or elevator receives grain from the first harvest season that occurs after the increase in its capacity is listed in the license.

This subsection does not apply to a grain warehouse or grain elevator if the warehouse or elevator handles more than ten million bushels of grain annually.

(4) For the purposes of subsection (3) of this section:

(a) A "grain warehouse" or "grain elevator" is an establishment classified in standard industrial classification (SIC) code 5153 for wholesale trade for which a license is required and includes, but is not limited to, such a licensed facility that also conducts cleaning operations for grain;

(b) A "license" is a license issued by the department of agriculture licensing a facility as a grain warehouse or grain elevator under chapter 22.09 RCW or a license issued by the federal government licensing a facility as a grain warehouse or grain elevator for purposes similar to those of licensure for the facility under chapter 22.09 RCW; and

(c) "Grain" means a grain or a pulse.

(5)(a) The department shall adopt rules requiring persons to report emissions of greenhouse gases as defined in RCW 70A.45.010 where those emissions from a single facility, ~~((source, or site,))~~ or from electricity or fossil fuels sold in Washington by a single supplier or local distribution company, meet or exceed ten thousand metric tons of carbon dioxide equivalent annually. The ~~((department may phase in the requirement to report greenhouse gas emissions until the reporting threshold in this subsection is met, which must occur by January 1, 2012))~~ rules adopted by the department must support implementation of the program created in section 8 of this act. In addition, the rules must require that:

(i) Emissions of greenhouse gases resulting from the combustion of fossil fuels be reported separately from emissions of greenhouse gases resulting from the combustion of biomass; and

(ii) ~~((Reporting will start in 2010 for 2009 emissions.))~~ Each annual report must include emissions data for the preceding calendar year and must be submitted to the department by ~~((October))~~ March 31st of the year in which the report is due. ~~((However, starting in 2011, a person who is required to report greenhouse gas emissions to the United States environmental protection agency under 40 C.F.R. Part 98, as adopted on September 22, 2009, must submit the report required under this section to the department concurrent with the submission to the United States environmental protection agency. Except as otherwise provided in this section, the data for emissions in Washington and any corrections thereto that are reported to the United States environmental protection agency must be the emissions data reported to the department; and~~

(iii) Emissions of carbon dioxide associated with the complete combustion or oxidation of liquid motor vehicle fuel, special fuel, or aircraft fuel that is sold in Washington where the annual emissions associated with that combustion or oxidation equal or

~~exceed ten thousand metric tons be reported to the department. Each person who is required to file periodic tax reports of motor vehicle fuel sales under RCW 82.36.031 or special fuel sales under RCW 82.38.150, or each distributor of aircraft fuel required to file periodic tax reports under RCW 82.42.040 must report to the department the annual emissions of carbon dioxide from the complete combustion or oxidation of the fuels listed in those reports as sold in the state of Washington. The department shall not require suppliers to use additional data to calculate greenhouse gas emissions other than the data the suppliers report to the department of licensing. The rules may allow this information to be aggregated when reported to the department. The department and the department of licensing shall enter into an interagency agreement to ensure proprietary and confidential information is protected if the departments share reported information. Any proprietary or confidential information exempt from disclosure when reported to the department of licensing is exempt from disclosure when shared by the department of licensing with the department under this provision.)~~

~~(b)(i) ((Except as otherwise provided in this subsection, the rules adopted by the department under (a) of this subsection must be consistent with the regulations adopted by the United States environmental protection agency in 40 C.F.R. Part 98 on September 22, 2009.~~

~~(ii)) The department may by rule include additional gases to the definition of "greenhouse gas" in RCW 70A.45.010 only if the gas has been designated as a greenhouse gas by the United States congress ((or)), by the United States environmental protection agency, or included in external greenhouse gas emission trading programs with which Washington has pursuant to section 24 of this act. Prior to including additional gases to the definition of "greenhouse gas" in RCW 70A.45.010, the department shall notify the appropriate committees of the legislature. ((Decisions to amend the rule to include additional gases must be made prior to December 1st of any year and the amended rule may not take effect before the end of the regular legislative session in the next year.~~

~~(iii)) (ii) The department may by rule exempt persons who are required to report greenhouse gas emissions to the United States environmental protection agency and who emit less than ten thousand metric tons carbon dioxide equivalent annually.~~

~~((iv)) (iii) The department must establish a methodology for persons who are not required to report under this section to voluntarily report their greenhouse gas emissions.~~

~~(c)(i) The department shall review and if necessary update its rules whenever ((the)):~~

~~(A) The United States environmental protection agency adopts final amendments to 40 C.F.R. Part 98 to ensure consistency with federal reporting requirements for emissions of greenhouse gases; or~~

~~(B) Needed to ensure consistency with emissions reporting requirements for jurisdictions with which Washington has entered a linkage agreement. ((However, the))~~

~~(ii) The department shall not amend its rules in a manner that conflicts with ((a) of) this ((subsection)) section.~~

~~(d) The department shall share any reporting information reported to it with the local air authority in which the person reporting under the rules adopted by the department operates.~~

~~(e) The fee provisions in subsection (2) of this section apply to reporting of emissions of greenhouse gases. Persons required to report under (a) of this subsection who fail to report or pay the fee required in subsection (2) of this section are subject to enforcement penalties under this chapter. The department shall enforce the reporting rule requirements ((unless it approves a local air authority's request to enforce the requirements for persons operating within the authority's jurisdiction. However,~~

~~neither the department nor a local air authority approved under this section are authorized to assess enforcement penalties on persons required to report under (a) of this subsection until six months after the department adopts its reporting rule in 2010)).~~ When a person that holds a compliance obligation under section 10 of this act fails to submit an emissions data report or fails to obtain a positive emissions data verification statement in accordance with (g)(ii) of this subsection, the department may assign an emissions level for that person.

~~(f) The energy facility site evaluation council shall, simultaneously with the department, adopt rules that impose greenhouse gas reporting requirements in site certifications on owners or operators of a facility permitted by the energy facility site evaluation council. The greenhouse gas reporting requirements imposed by the energy facility site evaluation council must be the same as the greenhouse gas reporting requirements imposed by the department. The department shall share any information reported to it from facilities permitted by the energy facility site evaluation council with the council, including notice of a facility that has failed to report as required. The energy facility site evaluation council shall contract with the department to monitor the reporting requirements adopted under this section.~~

~~(g)(i) The ((inclusion or failure to include any person, source, classes of persons or sources, or types of emissions of greenhouse gases into the department's rules for reporting under this section does not indicate whether such a person, source, or category is appropriate for inclusion in state, regional, or national greenhouse gas reduction programs or strategies. Furthermore, aircraft fuel purchased in the state may not be considered equivalent to aircraft fuel combusted in the state)) department must establish by rule the methods of verifying the accuracy of emissions reports.~~

~~(ii) Verification requirements apply at a minimum to persons required to report under (a) of this subsection with emissions that equal or exceed 25,000 metric tons of carbon dioxide equivalent emissions, including carbon dioxide from biomass-derived fuels, or to persons who have a compliance obligation under section 10 of this act in any year of the current compliance period. The department may adopt rules to accept verification reports from another jurisdiction with a linkage agreement pursuant to section 20 of this act in cases where the department deems that the methods or procedures are substantively similar.~~

~~(h)(i) The definitions in RCW 70A.45.010 apply throughout this subsection (5) unless the context clearly requires otherwise.~~

~~(ii) For the purpose of this subsection (5), the term "supplier" includes: (A) ((A motor vehicle fuel supplier or a motor vehicle fuel importer, as those terms are defined in RCW 82.36.010; (B) a special fuel supplier or a special fuel importer, as those terms are defined in RCW 82.38.020; and (C) a distributor of aircraft fuel, as those terms are defined in RCW 82.42.010)) Suppliers that produce, import, or deliver, or any combination of producing, importing, or delivering, a quantity of fuel products in Washington that, if completely combusted, oxidized, or used in other processes, would result in the release of greenhouse gases in Washington equivalent to or higher than the threshold established under (a) of this subsection; and (B) suppliers of carbon dioxide that produce, import, or deliver a quantity of carbon dioxide in Washington that, if released, would result in emissions equivalent to or higher than the threshold established under (a) of this subsection.~~

~~(iii) For the purpose of this subsection (5), the term "person" includes: (A) An owner or operator((, as those terms are defined by the United States environmental protection agency in its mandatory greenhouse gas reporting regulation in 40 C.F.R. Part 98, as adopted on September 22, 2009; and (B) a supplier)) of a facility; (B) a supplier; or (C) an electric power entity.~~

(3) A vacancy on the council shall be filled for the unexpired term by the governor, with the consent of the senate.

(4) For the first available appointment and at all times thereafter, one member of Washington's delegation to the council shall reside east of the crest of the Cascade Mountains and one member shall reside west of the crest of the Cascade Mountains, except as follows: Both members may reside on the same side of the Cascade Mountains as long as this deviation does not exceed 12 months in any 10-year period.

Sec. 44. RCW 70A.45.005 and 2020 c 120 s 2 and 2020 c 20 s 1397 are each reenacted and amended to read as follows:

(1) The legislature finds that Washington has long been a national and international leader on energy conservation and environmental stewardship, including air quality protection, renewable energy development and generation, emission standards for fossil-fuel based energy generation, energy efficiency programs, natural resource conservation, sustainable forestry and the production of forest products, vehicle emission standards, and the use of biofuels. Washington is also unique among most states in that in addition to its commitment to reduce emissions of greenhouse gases, it has established goals to grow the clean energy sector and reduce the state's expenditures on imported fuels.

(2) The legislature further finds that Washington should continue its leadership on climate change policy by creating accountability for achieving the emission reductions established in RCW 70A.45.020, participating in the design of a regional multisector market-based system to help achieve those emission reductions, assessing other market strategies to reduce emissions of greenhouse gases, maintaining and enhancing the state's ability

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

to continue to sequester carbon through natural and working lands and forest products, and ensuring the state has a well trained workforce for our clean energy future.

(3) It is the intent of the legislature that the state will: (a) Limit and reduce emissions of greenhouse gas consistent with the emission reductions established in RCW 70A.45.020; (b) minimize the potential to export pollution, jobs, and economic opportunities; (c) support industry sectors that can act as sequesterers of carbon; and (d) reduce emissions at the lowest cost to Washington's economy, consumers, and businesses.

(4) In the event the state elects to participate in a regional multisector market-based system, it is the intent of the legislature that the system will become effective by January 1, 2012, after authority is provided to the department for its implementation. By acting now, Washington businesses and citizens will have adequate time and opportunities to be well positioned to take advantage of the low-carbon economy and to make necessary investments in low-carbon technology.

(5) It is also the intent of the legislature that the regional multisector market-based system recognize Washington's unique emissions and sequestration portfolio, including the:

(a) State's hydroelectric system;

(b) Opportunities presented by Washington's abundant forest resources and the associated forest products industry, along with aquatic and agriculture land and the associated industries; and

(c) State's leadership in energy efficiency and the actions it has already taken that have reduced its generation of greenhouse gas emissions and that entities receive appropriate credit for early actions to reduce greenhouse gases.

(6) If any revenues, excluding those from state trust lands, that accrue to the state are created by a market system, they must be used for the purposes established in chapter 70A.--- RCW (the new chapter created in section 38 of this act) and to further the state's efforts to achieve the goals established in RCW 70A.45.020, address the impacts of global warming on affected habitats, species, and communities, promote and invest in industry sectors that act as sequesterers of carbon, and increase investment in the clean energy economy particularly for communities and workers that have suffered from heavy job losses and chronic unemployment and underemployment.

NEW SECTION. Sec. 45. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 46. (1) The department shall prepare, post on the department website, and submit to the appropriate committees of the legislature an annual report that identifies all distributions of moneys from the accounts created in sections 27 through 31 of this act.

(2) The report must identify, at a minimum, the recipient of the funding, the amount of the funding, the purpose of the funding, the actual end result or use of the funding, whether the project that received the funding produced any verifiable reduction in greenhouse gas emissions or other long-term impact to emissions, and if so, the quantity of reduced greenhouse gas emissions, the cost per carbon dioxide equivalent metric ton of reduced greenhouse gas emissions, and a comparison to other greenhouse gas emissions reduction projects in order to facilitate the development of cost-benefit ratios for greenhouse gas emissions reduction projects.

(3) The department shall require by rule that recipients of funds from the accounts created in sections 27 through 31 of this act report to the department, in a form and manner prescribed by the department, the information required for the department to carry out the department's duties established in this section.

2021 REGULAR SESSION

(4) The department shall update its website with the information described in subsection (2) of this section as appropriate but no less frequently than once per calendar year.

(5) The department shall submit its report to the appropriate committees of the legislature with the information described in subsection (2) of this section no later than September 30 of each year.

NEW SECTION. Sec. 47. RESIDENTIAL HEATING ASSISTANCE PROGRAM. (1) The legislature intends by this section to establish policies to mitigate the cost burden of the program established by this act on consumers who use home heating fuels that are not electricity or natural gas.

(2) The department, in collaboration with interested stakeholders, shall develop a proposal for assisting households that, for residential home heating, use fuels that are not electricity or natural gas. The proposal must give priority to assisting low-income households through weatherization, conservation and efficiency services, and bill assistance.

(3) In the event the department, in collaboration with interested stakeholders, determines that the proposal developed pursuant to subsection (2) of this section requires legislative action, the department shall submit its recommendations for proposed legislation to the appropriate committees of the legislature no later than September 15, 2022."

However, this particular church was inundated with threats of violence and the the quotes actually were that they were threatened, that this group would come down to burn down the properties and the church, and they also brought threats to burn down the neighborhood and threats of physical threats against the church leadership the neighbors the property and basically everybody in the area. So, I have put together a letter urging our executive branch and the attorney general particular to look into this with our state patrol and to make sure that all people of Washington state have the right to free speech, assembly and that no voice there should be silenced. MOTION

Senator Robinson moved that the following committee striking amendment by the Committee on Ways & Means be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 36.22 RCW to read as follows:

(1) Except as provided in subsection (2) of this section, a surcharge of \$100 must be charged by the county auditor for each document recorded, which is in addition to any other charge or surcharge allowed by law. The auditor must remit the funds to the state treasurer to be deposited and used as follows:

(a) Twenty percent of funds must be deposited in the affordable housing for all account for operations, maintenance, and service costs for permanent supportive housing as defined in RCW 36.70A.030;

(b) From July 1, 2021, through June 30, 2023, four percent of the funds must be deposited into the landlord mitigation program account created in RCW 43.31.615 for the purposes of RCW 43.31.605(1). Thereafter, two percent of funds must be deposited into the landlord mitigation program account created in RCW 43.31.615 for purposes of RCW 43.31.605(1); and

(c) The remainder of funds must be distributed to the home security fund account, with 60 percent of funds to be used for project-based vouchers for nonprofit housing providers and related services and rapid rehousing and acquisition. Priority for use must be given to project-based vouchers and related services, housing acquisition, or emergency housing, for persons who are chronically homeless, including families with children. At least 50 percent of persons receiving a project-based voucher, rapid rehousing, or benefiting from housing acquisition must be living unsheltered at the time of initial engagement. In addition, funds may be used for eviction prevention rental assistance pursuant to section 2 of this act, foreclosure prevention services, dispute resolution center eviction prevention services, rental assistance for people experiencing homelessness, and tenant education and legal assistance.

(2) The surcharge imposed in this section does not apply to: (a) Assignments or substitutions of previously recorded deeds of trust; (b) documents recording a birth, marriage, divorce, or death; (c) any recorded documents otherwise exempted from a recording fee or additional surcharges under state law; (d) marriage licenses issued by the county auditor; or (e) documents recording a federal, state, county, or city lien or satisfaction of lien.

NEW SECTION. Sec. 2. A new section is added to chapter 43.185C RCW to read as follows:

(1) The eviction prevention rental assistance program is created in the department to prevent evictions by providing resources to households most likely to become homeless or suffer severe health consequences, or both, after an eviction, while promoting equity by prioritizing households, including communities of color, disproportionately impacted by public health emergencies and by homelessness and housing instability. The department must provide grants to eligible organizations, as described in RCW 43.185.060, to provide assistance to program participants. The eligible organizations must use grant moneys for:

(a) Rental assistance, including rental arrears and future rent if needed to stabilize the applicant's housing and prevent their eviction;

(b) Utility assistance for households if needed to prevent an eviction; and

(c) Administrative costs of the eligible organization, which must not exceed limits prescribed by the department.

(2) Households eligible to receive assistance through the eviction prevention rental assistance program are those:

(a) With incomes at or below 80 percent of the county area median income;

(b) Who are families with children, living in doubled up situations, young adults, senior citizens, and others at risk of homelessness or significant physical or behavioral health complications from homelessness; and

(c) That meet any other eligibility requirements as established by the department after consultation with stakeholder groups, including persons at risk of homelessness due to unpaid rent, representatives of communities of color, homeless service providers, landlord representatives, local governments that administer homelessness assistance, a statewide association representing cities, a statewide association representing counties,

a representative of homeless youth and young adults, and affordable housing advocates.

(3) A landlord may assist an eligible household in applying for assistance through the eviction prevention rental assistance program or may apply for assistance on an eligible household's behalf.

(4)(a) Eligible grantees must actively work with organizations rooted in communities of color to assist and serve marginalized populations within their communities.

(b) At least 10 percent of the grant total must be subgranted to organizations that serve and are substantially governed by marginalized populations to pay the costs associated with program outreach, assistance completing applications for assistance, rent assistance payments, activities that directly support the goal of improving access to rent assistance for people of color, and related costs. Upon request by an eligible grantee or the county or city in which it exists, the department must provide a list of organizations that serve and are substantially governed by marginalized populations, if known.

(c) An eligible grantee may request an exemption from the department from the requirements under (b) of this subsection. The department must consult with the stakeholder group established under subsection (2)(c) of this section before granting an exemption. An eligible grantee may request an exemption only if the eligible grantee:

(i) Is unable to subgrant with an organization that serves and is substantially governed by marginalized populations; or

(ii) Provides the department with a plan to spend 10 percent of the grant total in a manner that the department determines will improve racial equity for historically underserved communities more effectively than a subgrant.

(5) The department must ensure equity by developing performance measures and benchmarks that promote both equitable program access and equitable program outcomes. Performance measures and benchmarks must be developed by the department in consultation with stakeholder groups, including persons at risk of homelessness due to unpaid rent, representatives of communities of color, homeless service providers, landlord representatives, local governments that administer homelessness assistance, a statewide association representing cities, a statewide association representing counties, a representative of homeless youth and young adults, and affordable housing advocates. Performance measures and benchmarks must also ensure that the race and ethnicity of households served under the program are proportional to the numbers of people at risk of homelessness in each county for each of the following groups:

- (a) Black or African American;
- (b) American Indian and Alaska Native;
- (c) Native Hawaiian or other Pacific Islander;
- (d) Hispanic or Latinx;
- (e) Asian;
- (f) Other multiracial.

(6) The department may develop additional rules, requirements, procedures, and guidelines as necessary to implement and operate the eviction prevention rental assistance program.

(7)(a) The department must award funds under this section to eligible grantees in a manner that is proportional to the amount of revenue collected under section 1 of this act from the county being served by the grantee.

(b) The department must provide counties with the right of first refusal to receive grant funds distributed under this subsection. If a county refuses the funds or does not respond within a time frame established by the department, the department must identify an

alternative grantee. The alternative grantee must distribute the funds in a manner that is in compliance with this chapter.

Sec. 3. RCW 43.185C.045 and 2018 c 85 s 9 are each amended to read as follows:

(1) By December 1st of each year, the department must provide an update on the state's homeless housing strategic plan and its activities for the prior fiscal year. The report must include, but not be limited to, the following information:

(3) Any local government receiving state funds for homelessness assistance or state or local homelessness document recording fees under RCW 36.22.178, 36.22.179, or 36.22.1791 must provide an annual report on the current condition of homelessness in its jurisdiction, its performance in meeting the goals in its local homeless housing plan, and any significant changes made to the plan. The annual report must be posted on the department's website. Along with each local government annual report, the department must produce and post information on the local government's homelessness spending from all sources by project during the prior state fiscal year in a format similar to the department's report under subsection (1)(c) of this section. If a local government fails to report or provides an inadequate or incomplete report, the department must take corrective action, which may include withholding state funding for homelessness assistance to the local government to enable the department to use such funds to contract with other public or nonprofit entities to provide homelessness assistance within the jurisdiction.

Sec. 4. RCW 43.185C.060 and 2020 c 357 s 915 are each amended to read as follows:

(1) The home security fund account is created in the state treasury, subject to appropriation. The state's portion of the surcharge established in RCW 36.22.179 and 36.22.1791 and section 1 of this act must be deposited in the account. Expenditures from the account may be used only for homeless housing programs as described in this chapter, including the eviction prevention rental assistance program established in section 2 of this act.

(2) The department must distinguish allotments from the account made to carry out the activities in RCW 43.330.167, 43.330.700 through 43.330.715, 43.330.911, 43.185C.010, 43.185C.250 through 43.185C.320, and 36.22.179(1)(b).

(3) The office of financial management must secure an independent expenditure review of state funds received under RCW 36.22.179(1)(b) on a biennial basis. The purpose of the review is to assess the consistency in achieving policy priorities within the private market rental housing segment for housing persons experiencing homelessness. The independent reviewer must notify the department and the office of financial management of its findings. The first biennial expenditure review, for the 2017-2019 fiscal biennium, is due February 1, 2020. Independent reviews conducted thereafter are due February 1st of each even-numbered year.

(4) During the 2019-2021 fiscal biennium, expenditures from the account may also be used for shelter capacity grants.

Sec. 5. RCW 43.185C.190 and 2011 1st sp.s. c 50 s 955 are each amended to read as follows:

The affordable housing for all account is created in the state treasury, subject to appropriation. The state's portion of the surcharges established in RCW 36.22.178 and section 1 of this act shall be deposited in the account. Expenditures from the account may only be used for affordable housing programs ~~(-During the 2011-2013 fiscal biennium, moneys in the account may be transferred to the home security fund)~~, including operations, maintenance, and services as described in section 1(1)(a) of this act.

NEW SECTION. Sec. 6. (1)(a) The legislature finds that affordable housing, housing instability, and homelessness are persistent and increasing problems throughout the state. Despite significant increases in financial resources by the federal, state, and local governments to address these problems, homelessness and the risk of becoming homeless has worsened in Washington since the legislature authorized the first homeless housing document recording surcharge in 2005. The number of unsheltered homeless encampments in greenbelts, under bridges,

and on our streets is a visible reminder that the current system is not working.

(b) The legislature finds that the COVID-19 pandemic has exacerbated and shed new light on the state's homelessness problems and forced communities and providers to reexamine the types and delivery of housing and services to individuals and families who are homeless or at risk of homelessness. As a result of the changing conditions COVID-19 created, the federal government has provided an infusion of funding for housing and services for homelessness populations in its COVID-19 relief bills to pursue different strategies to improve outcomes. Moreover, there are various proposals to increase state funding to address housing insecurity and homelessness, including this act to impose an additional document recording fee to fund an eviction prevention rental assistance program and other services to persons at risk or experiencing homelessness.

(c) The legislature also finds that there are many causes of homelessness and housing instability, including: (i) A shortage of affordable housing; (ii) local land use planning and property management policies that discourage the development of private sector housing stock to serve low and extremely low-income households; (iii) unemployment and lack of education and job skills to acquire an adequate wage job; (iv) mental health, developmental, and physical disabilities; (v) chemical and alcohol dependency; and (vi) family instability and conflict. The legislature intends to provide for an examination of the economic, social, and health causes of current and expected patterns of housing instability and homelessness, and to secure a common understanding of the contribution each has to the current crisis. The legislature intends for this examination to result in a widely accepted strategy for identifying how best to address homelessness in ways that: (A) Address the root causes of the problem; (B) clearly assign responsibilities of state and local government to address those causes; (C) support local control and provision of services at the local level to address specific community needs, recognizing each community must play a part in the solution; (D) respect property owner rights and encourage private sector involvement in solutions and service; and (E) develop pathways to permanent housing solutions and associated services to break the cycle of housing insecurity and homelessness.

(2)(a) The department of commerce must contract with the William D. Ruckelshaus center to conduct an examination of trends affecting, and policies guiding, the housing and services provided to individuals and families who are or at risk of homelessness in Washington. The center must also facilitate meetings and discussions to develop and implement a long-term strategy to improve services and outcomes for persons at risk or experiencing homelessness and develop pathways to permanent housing solutions.

(b) In fulfilling the requirements of this section, the center must work and consult with (i) willing participants representing tribal and local governments, local providers of housing and services for homeless populations, advocates and stakeholders representing the interests of homeless populations, mental health and substance abuse professionals, representatives of the business community and other organizations, and other representatives the center determines is a necessary participant to examine these issues; (ii) a group of legislators consisting of one member from each of the two largest caucuses in the senate and in the house of representatives appointed by the president of the senate and the speaker of the house of representatives, respectively; and (iii) three representatives of the executive branch appointed by the governor.

(c)(i) The center must conduct fact-finding and stakeholder discussions with participants identified in (b) of this subsection.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

These discussions must identify stakeholder concerns, barriers, opportunities, and desired principles for a long-term strategy to improve the outcomes and services for persons at risk or experiencing homelessness and develop pathways to permanent housing solutions.

(ii) The center must conduct fact-finding and stakeholder discussions with participants identified in (b) of this subsection to identify root causes of housing instability and homelessness within Washington state. This fact-finding should address root causes demographically within subpopulations of persons at risk or experiencing homelessness such as veterans and persons suffering from mental health or substance abuse issues. The fact-finding should also address root causes that may differ geographically or regionally. The fact-finding must identify existing statutory and regulatory issues that impede efforts to address root causes of housing instability and homelessness within Washington state.

(iii) The center must issue two reports of its fact-finding efforts and stakeholder discussions to the governor and the appropriate committees of the house of representatives and the senate. One report on the subjects covered in (c)(i) of this subsection is due December 1, 2021, and one on the subjects covered in (c)(ii) of this subsection is due December 1, 2022.

(d) The center must facilitate discussions between the stakeholders identified in this subsection (2) for the purposes of identifying options and recommendations to develop and implement a long-term strategy to improve the outcomes and service for persons at risk or experiencing homelessness and develop pathways to permanent housing solutions, including the manner and amount in which the state funds homelessness housing and services and performance measures that must be achieved to receive state funding. A report on this effort is due to the governor and the appropriate committees of the house of representatives and the senate by December 1, 2023."

The plan must include the substance use outreach, treatment, and recovery services outlined in sections 2 through 4 of this act which must be available in or accessible by all jurisdictions. These services must be equitably distributed across urban and rural settings. If feasible and appropriate, service initiation shall be made available on demand through 24-hour, seven days a week peer recovery coach response, behavioral health walk-in centers, or other innovative rapid response models. These services must, at a minimum, incorporate the following principles: Establish low barriers to entry and reentry; improve the health and safety of the individual; reduce the harm of substance use and related activity for the public; include integrated and coordinated services; incorporate structural competency and antiracism; use noncoercive methods of engaging and retaining people in treatment and recovery services, including contingency management; consider the unique needs of rural communities; and have a focus on services that increase social determinants of health.

NEW SECTION. Sec. 2. A new section is added to chapter 71.24 RCW to read as follows:

(1) Each behavioral health administrative services organization shall establish a recovery navigator program. The program shall provide community-based outreach, intake, assessment, and connection to services and, as appropriate, long-term intensive case management and recovery coaching services, to youth and

adults with substance use disorder, including for persons with co-occurring substance use disorders and mental health conditions, who are referred to the program from diverse sources and shall facilitate and coordinate connections to a broad range of community resources for youth and adults with substance use disorder, including treatment and recovery support services.

(2) The authority shall establish uniform program standards for behavioral health administrative services organizations to follow in the design of their recovery navigator programs. The uniform program standards must be modeled upon the components of the law enforcement assisted diversion program and address project management, field engagement, biopsychosocial assessment, intensive case management and care coordination, stabilization housing when available and appropriate, and, as necessary, legal system coordination. The authority must adopt the uniform program standards from the components of the law enforcement assisted diversion program to accommodate an expanded population of persons with substance use disorders, including persons with co-occurring substance use disorders and mental health conditions, and allow for referrals from a broad range of sources. In addition to accepting referrals from law enforcement, the uniform program standards must provide guidance for accepting referrals on behalf of persons with substance use disorders, including persons with co-occurring substance use disorders and mental health conditions, from various sources including, but not limited to, self-referral, family members of the individual, emergency department personnel, persons engaged with serving homeless persons, including those living unsheltered or in encampments, fire department personnel, emergency medical service personnel, community-based organizations, members of the business community, harm reduction program personnel, faith-based organization staff, and other sources within the criminal legal system, as outlined within the sequential intercept model. In developing response time requirements within the statewide program standards, the authority shall require, subject to the availability of amounts appropriated for this specific purpose, that responses to referrals from law enforcement occur immediately for in-custody referrals and shall strive for rapid response times to other appropriate settings such as emergency departments.

(3) Subject to the availability of amounts appropriated for this specific purpose, the authority shall provide funding to each behavioral health administrative services organization for the development of its recovery navigator program. Before receiving funding for implementation and ongoing administration, each behavioral health administrative services organization must submit a program plan that demonstrates the ability to fully comply with statewide program standards. The authority shall arrange for technical assistance to be provided by the LEAD national support bureau to all behavioral health administrative services organizations.

(4) Each behavioral health administrative services organization must have a substance use disorder regional administrator for its recovery navigator program. The regional administrator shall be responsible for assuring compliance with program standards, including staffing standards. Each recovery navigator program must maintain a sufficient number of appropriately trained personnel for providing intake and referral services, conducting comprehensive biopsychosocial assessments, providing intensive case management services, and making warm handoffs to treatment and recovery support services along the continuum of care. Program staff must include people with lived experience with substance use disorder to the extent possible. The substance use disorder regional administrator must assure that staff who are

conducting intake and referral services and field assessments are paid a livable and competitive wage and have appropriate initial training and receive continuing education.

(5) Each recovery navigator program must submit quarterly reports to the authority with information identified by the authority and the substance use recovery services advisory committee. The reports must be provided to the substance use recovery services advisory committee for discussion at meetings following the submission of the reports.

ADJUDICATIONS

NOTE: References in the grid to days or weeks mean periods of confinement. "LS" means "local sanctions" as defined in RCW 13.40.020.

(1) The vertical axis of the grid is the current offense category. The current offense category is determined by the offense of adjudication.

(2) The horizontal axis of the grid is the number of prior adjudications included in the juvenile's criminal history. Each prior felony adjudication shall count as one point. Each prior violation, misdemeanor, and gross misdemeanor adjudication shall count as 1/4 point. Fractional points shall be rounded down.

(3) The standard range disposition for each offense is determined by the intersection of the column defined by the prior adjudications and the row defined by the current offense category.

(4) RCW 13.40.180 applies if the offender is being sentenced for more than one offense.

(5) A current offense that is a violation is equivalent to an offense category of E. However, a disposition for a violation shall not include confinement.

OR

OPTION B

(b) "Research-based" means a program or practice that has some research demonstrating effectiveness, but that does not yet meet the standard of evidence-based practices.

(2) If the offender fails to comply with the suspended disposition, the court may impose sanctions pursuant to RCW 13.40.200 or may revoke the suspended disposition and order the disposition's execution.

(3) An offender is ineligible for the suspended disposition option under this section if the offender:

(a) Is adjudicated of an A+ or A++ offense;

The Washington interlocal cooperation act, chapter 39.34 RCW, authorizes public agencies to contract with other public agencies via interlocal agreements that enable cooperation among the agencies to perform governmental activities and deliver public services, including agreements with public entities in other states. Such interstate agreements are deemed interstate compacts. The legal analysis must identify and recommend alternative and/or additional statutory authority that would be necessary to allow for the formation of a local government bistate bridge authority or governance structure for the Hood River Bridge replacement that at a minimum may:

- (a) Issue bonds for bridge construction;
- (b) Collect tolls; and
- (c) Secure and administer state or federal grants and loans.

The legal analysis must be presented to the transportation committees of the legislature by September 30, 2021.

(3) \$220,000 of the multimodal transportation account—state appropriation is for overseeing a consultant study to provide recommendations related to the Washington state department of transportation's role in broadband service expansion efforts as directed in chapter . . . (Engrossed Substitute House Bill No. 1457), Laws of 2021 (broadband along state highways). If chapter . . . (Engrossed Substitute House Bill No. 1457), Laws of 2021 (broadband along state highways) is not enacted by June 30, 2021, the amount provided in this subsection lapses.

In developing the scope of work for the plan and throughout plan development, the joint transportation committee must solicit input from representatives of the Washington state ferries division and the human resources division of the Washington state department of transportation.

Represented employee groups must also be consulted as part of plan development. The plan must include a roadmap for Washington state ferries to comprehensively address persistent staffing challenges and strategically position itself for its future workforce needs. The joint transportation committee must issue an interim report identifying short-term strategies to reduce reliance on overtime for staffing day-to-day ferry service. The interim report is due to the transportation committees of the legislature by January 1, 2022. The final report is due to the transportation committees of the legislature by December 20, 2022.

department of transportation; the Washington state patrol; and an academic or research institution that can provide input on technical components of the plan.

(e) A concise action plan with specific recommended next steps is due to the transportation committees of the legislature by January 1, 2022.

NEW SECTION. Sec. 205. FOR THE TRANSPORTATION COMMISSION

Motor Vehicle Account—State Appropriation	\$2,438,000
Interstate 405 and State Route Number 167 Express Toll Lanes Account—State Appropriation	\$127,000
State Route Number 520 Corridor Account—State Appropriation.....	\$276,000
Tacoma Narrows Toll Bridge Account—State Appropriation.....	\$180,000
Alaskan Way Viaduct Replacement Project Account—State Appropriation	\$172,000
TOTAL APPROPRIATION.....	\$3,193,000

The appropriations in this section are subject to the following conditions and limitations:

(1) The commission shall reconvene the road usage charge steering committee, with the same membership described in chapter 297, Laws of 2018, and shall periodically report to the steering committee with updates on activities undertaken in accordance with the federal grant awarded July 2020 ("Forward Drive"). A year-end update on the status of any federally-funded project for which federal funding is secured must be provided to the governor's office and the transportation committees of the legislature by January 1, 2022, and by January 1, 2023. Any legislative vacancies on the steering committee must be appointed by the speaker of the house of representatives for a house of representatives member vacancy, and by the president of the senate for a senate member vacancy.

(2) \$200,000 of the motor vehicle account—state appropriation is provided solely for the implementation of chapter . . . (Substitute Senate Bill No. 5444), Laws of 2021 (per mile charge). If chapter . . . (Substitute Senate Bill No. 5444), Laws of 2021 is not enacted by June 30, 2021, the amount provided in this subsection lapses.

(3) \$127,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, \$276,000 of the state route number 520 corridor account—state appropriation, \$180,000 of the Tacoma Narrows toll bridge account—state appropriation, and \$172,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the transportation commission's proportional share of time spent supporting tolling operations for the respective tolling facilities.

(4) \$50,000 of the motor vehicle account—state appropriation is provided solely for the commission to identify and measure how a road usage charge could be adjusted so that vehicles of comparable efficiency pay the same rate regardless of their means of propulsion and examine options for indexing to stabilize revenue as vehicle fleets become more efficient over time. If chapter . . . (Substitute Senate Bill No. 5444), Laws of 2021 is not enacted by June 30, 2021, the amount provided in this subsection lapses.

(5)(a) The transportation budget is currently reliant on vehicle and driver related fees. Motor vehicle registrations, driver licenses, tolls, and the motor vehicle fuel tax provide the primary revenues for the transportation budget. These user revenues no longer adequately support the transportation system's needs. Many of the transportation modes have no or little ability to generate revenue, yet are important elements of a functioning transportation network. Providing transportation options that do

not involve passenger vehicles is critical. The tax burden in the transportation budget falls on people that own and drive vehicles. It fails to provide the money needed for the system quality that the people of Washington want.

(b) Therefore, the commission is directed to evaluate, identify, and consider agencies, programs, and activities that are currently funded in the transportation budget that provide a public good that might be paid for using other revenues. The commission is directed to make recommendations for potential changes to funding sources for the transportation system with the goal of providing funding to maintain existing transportation assets in a state of good repair without exclusively relying on vehicle owners or drivers as the revenue source. Preliminary findings must be presented to the Joint Transportation Committee by September 30, 2022, and a final report issued to the appropriate committees of the legislature by December 1, 2022.

(9) \$289,000 of the state patrol highway account—state appropriation is provided solely for the replacement of 911 workstations.

(10) \$35,000 of the state patrol highway account—state appropriation is provided solely for the replacement of bomb response equipment.

(Engrossed Second Substitute House Bill No. 1310), Laws of 2021 (use of force by officers) is not enacted by June 30, 2021, the amount provided in this subsection lapses.

(16)(a) The legislature finds that the water connection extension constructed by the Washington state patrol from the city of Shelton's water facilities to the Washington state patrol academy was necessary to meet the water supply needs of the academy. The legislature also finds that the water connection provides an ongoing water supply that is necessary to the operation of the training facility, that the state is making use of the water connection for these public activities, and that any future incidental use of the municipal infrastructure put in place to support these activities will not impede the Washington state patrol's ongoing use of the water connection extension.

(b) \$2,220,000 of the transfer from the waste tire removal account to the motor vehicle fund, as required under RCW 70A.205.425, reimburses the motor vehicle fund for the portion of the water project costs assigned by the agreement to properties, other than the Washington state patrol academy, that make use of the water connection while the agreement remains in effect. This reimbursement to the motor vehicle fund is intended to address any possibility that the termination of this agreement could be determined to result in the unconstitutional use of 18th amendment designated funds for nonhighway purposes under the constitution of the state of Washington; however, this transfer is not intended to indicate that the incidental use of this infrastructure by these properties necessarily requires such reimbursement under the state Constitution. Immediately following the transfer of funds, Washington state patrol and the city of Shelton shall meet to formally update the terms of their "Agreement for Utility Connection and Reimbursement of Water Extension Expenses" executed on June 12, 2017, to reflect the intent of the proviso.

(17) The appropriations in this section provide sufficient funding for state patrol staffing assuming vacancy savings which may change over time. Funding for staffing will be monitored and adjusted in the 2022 supplemental budget to restore funding as authorized staffing levels are achieved.

The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert conditions, other transportation projects in the area, and transportation impacts. The department and Brian Abbott fish barrier removal board must provide updates on the implementation of the statewide culvert remediation plan to the legislature by November 1, 2021, and June 1, 2022.

(c) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(d) Of the amount provided in this subsection, \$142,923,000 of the motor vehicle account—federal appropriation reflects the department's portion of the unrestricted funds from the coronavirus response and relief supplemental appropriations act of 2021. (25) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

The ferry system shall work with Washington technology solutions and the tolling division on the development of a new, interoperable ticketing system.

(5) \$24,750,000 of the Puget Sound capital construction account—state appropriation is provided solely for the conversion of up to two Jumbo Mark II vessels to electric hybrid propulsion (G2000084). The department shall seek additional funds for the purposes of this subsection. The department may spend from the Puget Sound capital construction account—state appropriation in this section only as much as the department receives in Volkswagen settlement funds for the purposes of this subsection.

(6) \$152,453,000 of the capital vessel replacement account—state appropriation is provided solely for the acquisition of a 144-car hybrid-electric vessel (L2000329). In 2019 the legislature amended RCW 47.60.810 to direct the department to modify an existing vessel construction contract to provide for an additional five ferries. As such, it is the intent of the legislature that the department award the contract for the hybrid electric Olympic class vessel #5(L2000329) in a timely manner. In addition, the legislature intends to minimize costs and maximize construction efficiency by providing sufficient funding for construction of all five vessels, including funding for long lead time materials procured at the lowest possible prices. The commencement of construction of new vessels for the ferry system is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing construction and preservation needs of the ferry system fleet of vessels. The legislature has determined that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shipyards. To accomplish construction of vessels in accordance with RCW 47.60.810, the prevailing shipbuilder, for vessels initially funded after July 1, 2020, is encouraged to follow the historical practice of subcontracting the construction of ferry superstructures to a separate nonaffiliated contractor located within the Puget Sound region, that is qualified in accordance with RCW 47.60.690.

(7) The capital vessel replacement account—state appropriation includes up to \$152,453,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

(8) \$4,200,000 of the connecting Washington account—state appropriation and \$2,200,000 of the Puget Sound operating account—federal appropriation are provided solely for ferry vessel and terminal preservation (L2000110). The funds provided in this subsection must be used for unplanned preservation needs before shifting funding from other preservation projects.

The appropriations in this subsection include insurance proceeds received by the state. The department must use these funds only to purchase replacement equipment that has been competitively procured and for service recovery needs and corrective actions related to the December 2017 derailment.

(8) \$223,000 of the multimodal transportation account—state appropriation is provided solely for contingency funding for emergent freight rail assistance projects funded in subsection (3) of this section. Project sponsors may apply to the department for contingency funds needed due to unforeseeable cost increases. The department shall submit a report of any contingency funds provided under this subsection as part of the department's annual budget submittal.

(9) It is the intent of the legislature to encourage the department to pursue federal grant opportunities leveraging up to \$6,696,000 in connecting Washington programmed funds to be used as a state match to improve the state-owned Palouse river and Coulee City system. Current fiscal biennium funding for each project is a line-item appropriation, while the outer year funding allocations represent a sixteen-year plan. The department of transportation is expected to use the flexibility provided in this section to assist in the delivery and completion of all transportation partnership account and connecting Washington account projects on the LEAP transportation document referenced in this subsection. For the 2021-2023 project appropriations, unless otherwise provided in this act, the director of the office of financial management may provide written authorization for a transfer of appropriation authority between projects funded with transportation partnership account appropriations or connecting Washington account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

- (a) Transfers may only be made within each specific fund source referenced on the respective project list;
- (b) Transfers from a project may not be made as a result of the reduction of the scope of a project or be made to support increases in the scope of a project;
- (c) Transfers from a project may be made if the funds appropriated to the project are in excess of the amount needed in the current fiscal biennium;

(c) In order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, ~~(2013)~~ 2013, or in an omnibus transportation appropriations act for the 2021-2023 biennium related to setting toll rates or ferry fares, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency,

the agency may dispense with those requirements and adopt, amend, or repeal the rule on an emergency basis. The agency's finding and a concise statement of the reasons for its finding shall be incorporated in the order for adoption of the emergency rule or amendment filed with the office of the code reviser under RCW 34.05.380 and with the rules review committee.

(2) An emergency rule adopted under this section takes effect upon filing with the code reviser, unless a later date is specified in the order of adoption, and may not remain in effect for longer than one hundred twenty days after filing. Identical or substantially similar emergency rules may not be adopted in sequence unless conditions have changed or the agency has filed notice of its intent to adopt the rule as a permanent rule, and is actively undertaking the appropriate procedures to adopt the rule as a permanent rule. This section does not relieve any agency from compliance with any law requiring that its permanent rules be approved by designated persons or bodies before they become effective.

(3) Within seven days after the rule is adopted, any person may petition the governor requesting the immediate repeal of a rule adopted on an emergency basis by any department listed in RCW 43.17.010. Within seven days after submission of the petition, the governor shall either deny the petition in writing, stating his or

her reasons for the denial, or order the immediate repeal of the rule. In ruling on the petition, the governor shall consider only whether the conditions in subsection (1) of this section were met such that adoption of the rule on an emergency basis was necessary. If the governor orders the repeal of the emergency rule, any sanction imposed based on that rule is void. This subsection shall not be construed to prohibit adoption of any rule as a permanent rule.

(b) The department shall continue to work with the office of financial management, office of the chief information officer, and the transportation committees of the legislature on the project management plan that includes a provision for independent verification and validation of contract deliverables from the successful bidder and a provision for quality assurance that includes reporting independently to the office of the chief information officer on an ongoing basis during system implementation.

(4) The department shall make detailed quarterly reports to the transportation committees of the legislature and the public on the department's web site on the following:

(6) ~~(In calendar year 2021, toll equipment on the Tacoma Narrows Bridge will have reached the end of its operational life. During the 2019-2021 fiscal biennium, the department plans to issue a request for proposals as the first stage of a competitive procurement process that will replace the toll equipment and select a new tolling operator for the Tacoma Narrows Bridge. The request for proposals and subsequent competitive procurement must incorporate elements that prioritize the overall goal of lowering costs per transaction for the facility, such as incentives for innovative approaches which result in lower transactional costs, requests for efficiencies on the part of the bidder that lower operational costs, and incorporation of technologies such as self-serve credit card machines or other point of payment technologies that lower costs or improve operational efficiencies.~~

~~(7) \$18,840,000)~~ \$18,013,000 of the Alaskan Way viaduct replacement project account—state appropriation is provided solely for the new state route number 99 tunnel toll facility's expected share of collecting toll revenues, operating customer services, and maintaining toll collection systems. The legislature expects to see appropriate reductions to the other toll facility accounts once tolling on the new state route number 99 tunnel toll facility commences and any previously incurred costs for start-up of the new facility are charged back to the Alaskan Way viaduct replacement project account. The office of financial management shall closely monitor the application of the cost allocation model and ensure that the new state route number 99 tunnel toll facility is adequately sharing costs and the other toll facility accounts are not being overspent or subsidizing the new state route number 99 tunnel toll facility.

~~((8))~~ ~~(7)~~ \$608,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation are provided solely for increased levels of service from the Washington state patrol for enforcement of toll lane violations on the Interstate 405 and state route number 167 express toll lanes. The department shall provide this data in a report to the transportation committees of the legislature on at least a calendar quarterly basis.

~~((9))~~ ~~(8)~~ The department shall develop an ongoing cost allocation method to assign appropriate costs to each of the toll funds for services provided by each Washington state department of transportation program and all relevant transportation agencies, including the Washington state patrol and the transportation commission. This method should update the toll cost allocation method used in the 2020 supplemental transportation appropriations act. By December 1, 2020, a report with the recommended method and any changes or potential impacts to toll rates shall be submitted to the transportation committees of the legislature and the office of financial management.

The department shall submit a decision package for implementation of a new capital systems replacement project to the governor and the transportation committees of the legislature as part of the normal budget process for the 2021-2023 biennium.

Motor Vehicle Account—Federal Appropriation	\$500,000
Multimodal Transportation Account—State Appropriation	\$258,000
TOTAL APPROPRIATION	(\$60,546,000)
	<u>\$56,307,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) The legislature recognizes that the trail known as the Rocky Reach Trail, and its extensions, serve to separate motor vehicle traffic from pedestrians and bicyclists, increasing motor vehicle safety on state route number 2 and the coincident section of state route number 97. Consistent with chapter 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that transferring portions of WSDOT Inventory Control (IC) No. 2-09-04686 containing the trail and associated buffer areas to the Washington state parks and recreation commission is consistent with the public interest. The legislature directs the department to transfer the property to the Washington state parks and recreation commission.

(a) The department must be paid fair market value for any portions of the transferred real property that is later abandoned, vacated, or ceases to be publicly maintained for trail purposes.

(b) Prior to completing the transfer in this subsection (1), the department must ensure that provisions are made to accommodate private and public utilities and any facilities that predate the department's acquisition of the property, at no cost to those entities. Prior to completing the transfer, the department shall also ensure that provisions, by fair market assessment, are made to accommodate other private and public utilities and any facilities that have been legally allowed by permit or other instrument.

(c) The department may sell any adjoining property that is not necessary to support the Rocky Reach Trail and adjacent buffer areas only after the transfer of trail-related property to the Washington state parks and recreation commission is complete. (3) \$1,600,000 of the motor vehicle account—state appropriation is provided solely for real estate services activities.

Consistent with RCW 47.12.120 and during the 2019-2021 fiscal biennium, when initiating, extending, or renewing any rent or lease agreements with a regional transit authority, consideration of value must be equivalent to one hundred percent of economic or market rent.

(4)(a) \$100,000 of the motor vehicle account—state appropriation is provided solely for the department to:

(i) Determine the real property owned by the state of Washington and under the jurisdiction of the department in King county that is surplus property located in an area encompassing south of Dearborn Street in Seattle, south of Newcastle, west of SR 515, and north of South 216th to SR 515; and

(ii) Use any remaining funds after (a)(i) of this subsection is completed to identify additional real property across the state owned by the state of Washington and under the jurisdiction of the department that is surplus property.

(b) The department shall provide a report to the transportation committees of the legislature describing the properties it has identified as surplus property under (a) of this subsection by October 1, 2020.

The purpose of the pilot project is to demonstrate how appropriate department properties may be used to provide multiple public benefits such as affordable and market rate housing, commercial development, and institutional facilities in addition to transportation purposes. To accomplish the pilot project, the department is authorized to exercise all legal and administrative powers authorized in statute that may include, but is not limited to, the transfer, lease, or sale of some or all of the property to another governmental agency, public development authority, or nonprofit developer approved by the department and partner agencies. 	<u>\$21,000</u>
TOTAL APPROPRIATION	<u>(\$78,653,000)</u>
	<u>\$75,661,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$6,000,000 of the motor vehicle account—state appropriation is provided solely for low-cost enhancements. The department shall give priority to low-cost enhancement projects that improve safety or provide congestion relief. By December 15th of each odd-numbered year, the department shall provide a report to the legislature listing all low-cost enhancement projects completed in the prior fiscal biennium.

(2)(a) During the 2019-2021 fiscal biennium, the department shall continue a pilot program that expands private transportation providers' access to high occupancy vehicle lanes. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, the following vehicles must be authorized to use the reserved portion of the highway if the vehicle has the capacity to carry eight or more passengers, regardless of the number of passengers in the vehicle: (i) Auto transportation company vehicles regulated under chapter 81.68 RCW; (ii) passenger charter carrier vehicles regulated under chapter 81.70 RCW, except marked or unmarked stretch limousines and stretch sport utility vehicles as defined under department of licensing rules; (iii) private nonprofit transportation provider vehicles regulated under chapter 81.66 RCW; and (iv) private employer transportation service vehicles. For purposes of this subsection, "private employer transportation service" means regularly scheduled, fixed-route transportation service that is offered by an employer for the benefit of its employees. Nothing in this subsection is intended to authorize the conversion of public infrastructure to private, for-profit purposes or to otherwise create an entitlement or other claim by private users to public infrastructure.

(b) The department shall expand the high occupancy vehicle lane access pilot program to vehicles that deliver or collect blood, tissue, or blood components for a blood-collecting or distributing establishment regulated under chapter 70.335 RCW. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, blood-collecting or distributing establishment vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(c) The department shall expand the high occupancy vehicle lane access pilot program to organ transport vehicles transporting a time urgent organ for an organ procurement organization as defined in RCW 68.64.010. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, organ transport vehicles that are clearly and identifiably marked as such on all sides of the vehicle are considered emergency vehicles and must be authorized to use the reserved portion of the highway.

(d) The department shall expand the high occupancy vehicle lane access pilot program to private, for hire vehicles regulated under chapter 81.72 RCW that have been specially manufactured, designed, or modified for the transportation of a person who has a mobility disability and uses a wheelchair or other assistive device. Under the pilot program, when the department reserves a portion of a highway based on the number of passengers in a vehicle, wheelchair-accessible taxicabs that are clearly and identifiably marked as such on all sides of the vehicle are considered public transportation vehicles and must be authorized to use the reserved portion of the highway.

(e) Nothing in this subsection (2) is intended to exempt these vehicles from paying tolls when they do not meet the occupancy requirements established by the department for express toll lanes.

(3) When regional transit authority construction activities are visible from a state highway, the department shall allow the regional transit authority to place safe and appropriate signage informing the public of the purpose of the construction activity.

(4) The department must make signage for low-height bridges a high priority.

(5) ~~(\$32,000)~~ \$21,000 of the Interstate 405 and state route number 167 express toll lanes account—state appropriation, ~~(\$53,000)~~ \$49,000 of the state route number 520 corridor account—state appropriation, ~~(\$31,000)~~ \$40,000 of the Tacoma Narrows toll bridge account—state appropriation, and ~~(\$26,000)~~ \$32,000 of the Alaskan Way viaduct replacement project account—state appropriation are provided solely for the traffic operations program's proportional share of time spent supporting tolling operations for the respective tolling facilities.

The reason for the geographic selection of Spokane and Whatcom counties is based on the high utilization of studded tires in these jurisdictions. The public information campaigns must primarily focus on making the consumer aware of the safety implications for other drivers, road deterioration, financial impact for taxpayers, and, secondarily, the alternatives to studded tires. The Whatcom county pilot media-based public information campaign must begin by September 1, 2020. By January 14, 2021, the department must provide the transportation committees of the legislature an update on the Spokane and Whatcom county pilot media-based public information campaigns.

The appropriations in this section are subject to the following conditions and limitations:

(1) \$62,698,000 of the multimodal transportation account—state appropriation is provided solely for a grant program for special needs transportation provided by transit agencies and nonprofit providers of transportation. Of this amount:

(a) \$14,297,000 of the multimodal transportation account—state appropriation is provided solely for grants to nonprofit providers of special needs transportation. ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(b) In order to be eligible to receive a grant under (a) of this subsection during the 2019-2021 fiscal biennium, a transit agency must establish a process for private transportation providers to apply for the use of park and ride facilities. Businesses and nonprofit organizations located in a county adjacent to Puget Sound with a population of more than seven hundred thousand that have never offered transit subsidies to employees are eligible to apply to the program for a fifty percent rebate on the cost of employee transit subsidies provided through the regional ORCA fare collection system. No single business or nonprofit organization may receive more than ten thousand dollars from the program.

(i) Businesses and nonprofit organizations may apply and be awarded funds prior to purchasing a transit subsidy, but the department may not provide reimbursement until proof of purchase or a contract has been provided to the department.

(ii) The department shall update the transportation committees of the legislature on the impact of the program by January 31, 2020, and may adopt rules to administer the program.

(b) \$30,000 of the state vehicle parking account—state appropriation is provided solely for the STAR pass program for state employees residing in Mason and Grays Harbor Counties. Use of the pass is for public transportation between Mason County and Thurston County, and Grays Harbor and Thurston County. The pass may also be used within Grays Harbor County. The STAR pass commute trip reduction program is open to any state employee who expresses intent to commute to his or her assigned state worksite using a public transit system currently participating in the STAR pass program.

(~~(March 11, 2020)~~) April 23, 2021. It is the intent of the legislature that entities identified to receive funding in the LEAP document referenced in this subsection receive the amounts specified in the time frame specified in that LEAP document. If an entity has already completed a project in the LEAP document referenced in this subsection before the time frame identified, the entity may substitute another transit project or projects that cost a similar or lesser amount.

(9) \$1,000,000 of the multimodal transportation account—state appropriation is provided solely for transit coordination grants. Fuel type may not be a factor in the grant selection process.

(10) The department shall not require more than a ten percent match from nonprofit transportation providers for state grants.

(11)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (4) of this section, if the department expects to have substantial reappropriations for the 2021-2023 fiscal biennium, the department may, on a pilot basis, apply funding from a project with an appropriation that cannot be used for the current fiscal biennium to advance one or more of the following projects:

(i) King County Metro - RapidRide Expansion, Burien-Delridge (G2000031);

(ii) King County Metro - Route 40 Northgate to Downtown (G2000032);

(iii) Mason Transit Park & Ride Development (G2000042); or

(iv) Pierce Transit - SR 7 Express Service (G2000045).

(b) At least ten business days before advancing a project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) To the extent practicable, the department shall use the flexibility and authority granted in this section to minimize the amount of reappropriations needed each biennium.

(12) \$750,000 of the multimodal transportation account—state appropriation is provided solely for Intercity Transit for the Dash shuttle program.

(13)(a) \$485,000 of the multimodal transportation account—state appropriation is provided solely for King county for:

(14) (~~(\$12,000,000)~~) \$7,007,000 of the multimodal transportation account—state appropriation is provided solely for the green transportation capital grant program established in chapter 287, Laws of 2019 (advancing green transportation adoption).

(15) \$555,000 of the multimodal transportation account—state appropriation is provided solely for an interagency transfer to the Washington State University extension energy program to establish and administer a technical assistance and education program for public agencies on the use of alternative fuel vehicles.

~~((47))~~ (16) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the appropriated amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) No allotment modifications may be made to amounts provided solely for the special needs transportation grant program;

(b) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this biennium;

(c) Allotment modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2019-2021 fiscal biennium in LEAP Transportation Document (~~(2020)~~) 2021-2 ALL PROJECTS as developed (~~(March 11, 2020)~~) April 23, 2021;

(d) Allotment modifications authorized under this subsection apply only to amounts appropriated in this section from the multimodal transportation account—state; and

(e) By December 1, 2020, the department must submit a report to the transportation committees of the legislature regarding the actions taken under this subsection.

This includes reporting after the 2020 legislative session on the measurable results of an early pilot initiative, "Telework Tuesday," beginning in January 2020.

(b) Capitol campus state agency management is directed to fully participate in this work, which aims to reduce greenhouse gases, require less office space and parking investments; provide low cost congestion relief on I-5 during peak periods, US 101, and the local transportation network; and improve retention and recruitment of public employees. The agencies should actively: Encourage employees qualified to telework to participate in this program and increase the number of employees who qualify for mobile work and schedule shifts.

(i) Work with the operator of the Montlake boulevard market located on parcel number 1-23190 to negotiate a lease allowing continued operations up to January 1, 2020. After that time, the department shall identify an area in the vicinity of the Montlake property for a temporary market or other food service to be provided during the period of project construction. Should the current operator elect not to participate in providing that temporary service, the department shall then develop an outreach plan with the city to solicit community input on the food services provided, and then advertise the opportunity to other potential vendors. Further, the department shall work with the city of Seattle and existing permit processes to facilitate vendor access to and use of the area in the vicinity of the Montlake property.

(ii) Upon completion of the Montlake Phase of the West End project (current anticipated contract completion of 2023), WSDOT shall sell that portion of the property not used for permanent transportation improvements and initiate a process to convey that surplus property to a subsequent owner.

Funds may be used only for the purpose of preserving, commemorating, and sharing the history of the city of Seattle's freeway protests and making the history of activism around the promotion of more integrated transportation and land use planning accessible to current and future generations through the preservation of Bent 2 of the R. H. Thompson freeway ramp.

(13) It is the intent of the legislature that for the I-5 JBLM Corridor Improvements project (M00100R), the department shall actively pursue \$50,000,000 in federal funds to pay for this project to supplant state funds in the future. \$50,000,000 in connecting Washington account funding must be held in unallotted status during the 2021-2023 fiscal biennium. These funds may only be used after the department has provided notice to the office of financial management that it has exhausted all efforts to secure federal funds from the federal highway administration and the department of defense.

(14) (~~(\$310,469,000)~~) \$172,911,000 of the connecting Washington account—state appropriation (~~(is)~~), \$15,099,000 of the motor vehicle account—private/local appropriation, and \$1,500,000 of the motor vehicle account—federal appropriation are provided solely for the SR 167/SR 509 Puget Sound Gateway project (M00600R).

(a) Any savings on the project must stay on the Puget Sound Gateway corridor until the project is complete.

(b) Proceeds from the sale of any surplus real property acquired for the purpose of building the SR 167/SR 509 Puget Sound Gateway (M00600R) project must be deposited into the motor vehicle account for the purpose of constructing the project.

(c) In making budget allocations to the Puget Sound Gateway project, the department shall implement the project's construction as a single corridor investment. The department shall develop a coordinated corridor construction and implementation plan for state route number 167 and state route number 509 in collaboration with affected stakeholders. Specific funding allocations must be based on where and when specific project segments are ready for construction to move forward and investments can be best optimized for timely project completion. Emphasis must be placed on avoiding gaps in fund expenditures for either project.

(d) It is the legislature's intent that the department shall construct a full single-point urban interchange at the junction of state route number 161 (Meridian avenue) and state route number 167 and a full single-point urban interchange at the junction of state route number 509 and 188th Street. If the department receives additional funds from an outside source for this project after the base project is fully funded, the funds must first be applied toward the completion of these two full single-point urban interchanges.

(e) In designing the state route number 509/state route number 516 interchange component of the SR 167/SR 509 Puget Sound Gateway project (M00600R), the department shall make every effort to utilize the preferred "4B" design.

(f) The department shall explore the development of a multiuse trail for bicyclists, pedestrians, skateboarders, and similar users along the SR 167 right-of-way acquired for the project to connect a network of new and existing trails from Mount Rainier to Point Defiance Park.

(g) If sufficient bonding authority to complete this project is not provided within chapter 421, Laws of 2019 (addressing tolling), or within a bond authorization act referencing chapter 421, Laws of 2019 by June 30, 2019, it is the intent of the

2021 REGULAR SESSION

legislature to return the Puget Sound Gateway project (M00600R) to its previously identified construction schedule by moving \$128,900,000 in connecting Washington account—state appropriation back to the 2027-2029 biennium from the 2023-2025 biennium on the list referenced in subsection (2) of this section. If sufficient bonding authority is provided, it is the intent of the legislature to advance the project to allow for earlier completion and inflationary savings.

(15) It is the intent of the legislature that, for the I-5/North Lewis County Interchange project (L2000204), the department develop and design the project with the objective of significantly improving access to the industrially zoned properties in north Lewis county. The design must consider the county's process of investigating alternatives to improve such access from Interstate 5 that began in March 2015.

(16) ~~(\$1,029,000)~~ \$1,030,000 of the transportation partnership account—state appropriation is provided solely for the U.S. 2 Trestle IJR project (L1000158).

(17) The department shall itemize all future requests for the construction of buildings on a project list and submit them through the transportation executive information system as part of the department's annual budget submittal. It is the intent of the legislature that new facility construction must be transparent and not appropriated within larger highway construction projects.

(18) Any advisory group that the department convenes during the 2019-2021 fiscal biennium must consider the interests of the entire state of Washington.

(19) The legislature finds that there are sixteen companies involved in wood preserving in the state that employ four hundred workers and have an annual payroll of fifteen million dollars. Before the department's switch to steel guardrails, ninety percent of the twenty-five hundred mile guardrail system was constructed of preserved wood and one hundred ten thousand wood guardrail posts were produced annually for state use. Moreover, the policy of using steel posts requires the state to use imported steel. Given these findings, where practicable, and until June 30, 2021, the department shall include the design option to use wood guardrail posts, in addition to steel posts, in new guardrail installations. The selection of posts must be consistent with the agency design manual policy that existed before December 2009.

(20)(a) For connecting Washington projects that have already begun and are eligible for the authority granted in section 601 ~~((of this act))~~, chapter 219, Laws of 2020, the department shall prioritize advancing the following projects if expected reappropriations become available:

- (i) SR 14/I-205 to SE 164th Ave - Auxiliary Lanes (L2000102);
- (ii) SR 305 Construction - Safety Improvements (N30500R);
- (iii) SR 14/Bingen Underpass (L2220062);
- (iv) I-405/NE 132nd Interchange - Totem Lake (L1000110);
- (v) US Hwy 2 Safety (N00200R);
- (vi) US-12/Walla Walla Corridor Improvements (T20900R);
- (vii) I-5 JBLM Corridor Improvements (M00100R);
- (viii) I-5/Slater Road Interchange - Improvements (L1000099);
- (ix) SR 510/Yelm Loop Phase 2 (T32700R); or
- (x) SR 520/124th St Interchange (Design and Right of Way) (L1000098).

(b) To the extent practicable, the department shall use the flexibility and authority granted in this section and in section 601 of this act to minimize the amount of reappropriations needed each biennium.

(c) The advancement of a project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(21) The legislature continues to prioritize the replacement of the state's aging infrastructure and recognizes the importance of

reusing and recycling construction aggregate and recycled concrete materials in our transportation system. To accomplish Washington state's sustainability goals in transportation and in accordance with RCW 70.95.805, the legislature reaffirms its determination that recycled concrete aggregate and other transportation building materials are natural resource construction materials that are too valuable to be wasted and landfilled, and are a commodity as defined in WAC 173-350-100.

Further, the legislature determines construction aggregate and recycled concrete materials substantially meet widely recognized international, national, and local standards and specifications referenced in American society for testing and materials, American concrete institute, Washington state department of transportation, Seattle department of transportation, American public works association, federal aviation administration, and federal highway administration specifications, and are described as necessary and desirable products for recycling and reuse by state and federal agencies.

As these recyclable materials have well established markets, are substantially a primary or secondary product of necessary construction processes and production, and are managed as an item of commercial value, construction aggregate and recycled concrete materials are exempt from chapter 173-350 WAC.

(22)(a) ~~(\$17,500,000)~~ \$8,072,000 of the motor vehicle account—state appropriation ~~(is)~~ and \$7,329,000 of the motor vehicle account—private/local appropriation are provided solely for staffing of a project office ((to replace the Interstate 5 bridge across the Columbia river (G2000088)) for the I-5 Interstate Bridge Replacement project (L2000370). ~~(b) ((Of the amount provided in this subsection, \$7,780,000 of the motor vehicle account—state appropriation must be placed in unallotted status by the office of financial management until the department develops a detailed plan for the work of this project office in consultation with the chairs and ranking members of the transportation committees of the legislature. The director of the office of financial management shall consult with the chairs and ranking members of the transportation committees of the legislature prior to making a decision to allot these funds.~~

~~(e))~~ The work of this project office includes, but is not limited to, the reevaluation of the purpose and need identified for the project previously known as the Columbia river crossing, the reevaluation of permits and development of a finance plan, the reengagement of key stakeholders and the public, and the reevaluation of scope, schedule, and budget for a reinvigorated bistate effort for replacement of the Interstate 5 Columbia river bridge. When reevaluating the finance plan for the project, the department shall assume that some costs of the new facility may be covered by tolls. The project office must also study the possible different governance structures for a bridge authority that would provide for the joint administration of the bridges over the Columbia river between Oregon and Washington. As part of this study, the project office must examine the feasibility and necessity of an interstate compact in conjunction with the national center for interstate compacts.

~~((d))~~ (c) Within the amount provided in this subsection, the department must implement chapter 137, Laws of 2019 (projects of statewide significance).

~~((e))~~ (d) The department shall have as a goal to:

- (i) Reengage project stakeholders and reevaluate the purpose and need and environmental permits by July 1, 2020;
- (ii) Develop a finance plan by December 1, 2020; and

(iii) Have made significant progress toward beginning the supplemental environmental impact statement process by June 30, 2021. The department shall aim to provide a progress report on these activities to the governor and the transportation committees of the legislature by December 1, 2019, and a final report to the governor and the transportation committees of the legislature by December 1, 2020.

(b) Of the amounts provided in this subsection, \$320,000 of the connecting Washington account—state appropriation is provided solely to remove the fish passage barrier on state route number 6 that interfaces with Boistfort Valley water utilities near milepost 46.6.

(c) The department shall coordinate with the Brian Abbott fish passage barrier removal board to use a watershed approach to maximize habitat gain by replacing both state and local culverts. The department shall deliver high habitat value fish passage barrier corrections that it has identified, guided by the following factors: Opportunity to bundle projects, ability to leverage investments by others, presence of other barriers, project readiness, other transportation projects in the area, and transportation impacts.

(d) The department must keep track of, for each barrier removed: (i) The location; (ii) the amount of fish habitat gain; and (iii) the amount spent to comply with the injunction.

(e) It is the intent of the legislature that for the amount listed for the 2021-2023 biennium for the Fish Passage Barrier Removal project (OB14001) on the LEAP list referenced in subsection (1) of this section, that accrued practical design savings deposited in the transportation future funding program account be used to help fund the cost of fully complying with the court injunction by 2030.

~~((25))~~ ~~(24)~~(a) The Washington state department of transportation is directed to pursue compliance with the *U.S. v. Washington* permanent injunction by delivering culvert corrections within the injunction area guided by the principle of providing the greatest fisheries habitat gain at the earliest time and considering the following factors: Opportunity to bundle projects, tribal priorities, ability to leverage investments by others, presence of other barriers, project readiness, culvert condition, other transportation projects in the area, and transportation impacts.

(b) The department and Brian Abbott fish barrier removal board, while providing the opportunity for stakeholders, tribes, and government agencies to give input on a statewide culvert remediation plan, must provide updates on the development of the statewide culvert remediation plan to the capital budget, ways and means, and transportation committees of the legislature by November 1, 2020, and March 15, 2021. The first update must include a project timeline and plan to ensure that all state agencies with culvert correction programs are involved in the creation of the comprehensive plan. The department and Brian Abbott fish barrier removal board must submit the final comprehensive statewide culvert remediation plan and the process by which it

will be adaptively managed over time to the governor and the legislative fiscal committees by June 30, 2021.

However, limited transfers of specific line-item project appropriations may occur between projects for those amounts listed subject to the conditions and limitations in section ~~((601 of this act))~~ 601 of this act, chapter . . . Laws of 2021 (this act).

(2) Except as provided otherwise in this section, the entire motor vehicle account—state appropriation and motor vehicle account—federal appropriation are provided solely for the projects and activities listed in LEAP Transportation Document ~~((2020))~~ 2021-2 ALL PROJECTS as developed ~~((March 11, 2020))~~ April 23, 2021, Program - Highway Preservation Program (P). Any federal funds gained through efficiencies, adjustments to the federal funds forecast, ~~((additional congressional action not related to a specific project or purpose,))~~ or the federal funds redistribution process must then be applied to highway and bridge preservation activities or fish passage barrier corrections (OBI4001).

(3) Within the motor vehicle account—state appropriation and motor vehicle account—federal appropriation, the department may transfer funds between programs I and P, except for funds that are otherwise restricted in this act. Ten days prior to any transfer, the department must submit its request to the office of financial management and the transportation committees of the legislature and consider any concerns raised. The department shall submit a report on fiscal year funds transferred in the prior fiscal year using this subsection as part of the department's annual budget submittal.

(4) ~~((26,683,000))~~ \$21,517,000 of the connecting Washington account—state appropriation is provided solely for the land mobile radio upgrade (G2000055) and is subject to the conditions, limitations, and review provided in section 701 ~~((of this act)),~~ chapter 219, Laws of 2020. The land mobile radio project is subject to technical oversight by the office of the chief information officer. The department, in collaboration with the office of the chief information officer, shall identify where existing or proposed mobile radio technology investments should be consolidated, identify when existing or proposed mobile radio technology investments can be reused or leveraged to meet multiagency needs, increase mobile radio interoperability between agencies, and identify how redundant investments can be reduced over time. The department shall also provide quarterly reports to the technology services board on project progress.

(5) ~~((4,000,000))~~ \$5,000,000 of the motor vehicle account—state appropriation is provided solely for extraordinary costs incurred from litigation awards, settlements, or dispute mitigation activities not eligible for funding from the self-insurance fund. The office of financial management may release the funds only when it determines that all other funds designated for litigation awards, settlements, and dispute mitigation activities have been exhausted. No funds provided in this subsection may be expended on any legal fees related to the SR 99/Alaskan Way viaduct replacement project (809936Z).

(6) The appropriation in this section includes funding for starting planning, engineering, and construction of the Elwha

(8) The department must consult with the Washington state patrol and the office of financial management during the design phase of any improvement or preservation project that could impact Washington state patrol weigh station operations. During the design phase of any such project, the department must estimate the cost of designing around the affected weigh station's current operations, as well as the cost of moving the affected weigh station.

ONE HUNDRED FOURTH DAY, APRIL 24, 2021

2021 REGULAR SESSION

(8) \$400,000 of the Puget Sound capital construction account—state appropriation is provided solely for a request for proposals for a new maintenance management system (project L2000301) and is subject to the conditions, limitations, and review provided in section 701 ((of this act)), chapter 219, Laws of 2020.

(9) ~~(\$96,030,000)~~ \$35,547,000 of the capital vessel replacement account—state appropriation is provided solely for the acquisition of a 144-car hybrid-electric vessel. The vendor must present to the joint transportation committee and the office of financial management, by September 15, 2019, a list of options that will result in significant cost savings changes in terms of construction or the long-term maintenance and operations of the vessel. The vendor must allow for exercising the options without a penalty. It is the intent of the legislature to provide an additional \$88,000,000 in funding in the 2021-23 biennium. The reduction provided in this subsection is an assumed underrun pursuant to subsection (11) of this section. The commencement of construction of new vessels for the ferry system is important not only for safety reasons, but also to keep skilled marine construction jobs in the Puget Sound region and to sustain the capacity of the region to meet the ongoing construction and preservation needs of the ferry system fleet of vessels. The legislature has determined that the current vessel procurement process must move forward with all due speed, balancing the interests of both the taxpayers and shipyards. To accomplish construction of vessels in accordance with RCW 47.60.810, the prevailing shipbuilder, for vessels initially funded after July 1, 2020, is encouraged to follow the historical practice of subcontracting the construction of ferry superstructures to a separate nonaffiliated contractor located within the Puget Sound region, that is qualified in accordance with RCW 47.60.690.

(10) The capital vessel replacement account—state appropriation includes up to ~~(\$96,030,000)~~ \$35,547,000 in proceeds from the sale of bonds authorized in RCW 47.10.873.

~~((42))~~ (11) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the appropriated amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this biennium;

(b) Allotment modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2019-2021 fiscal biennium in LEAP Transportation Document ~~((2020))~~ 2021-2 ALL PROJECTS as developed ((March 11, 2020)) April 23, 2021;

(c) Allotment modifications authorized under this subsection apply only to amounts appropriated in this section from the following accounts: Puget Sound capital construction account—state, transportation partnership account—state, and capital vessel replacement account—state; and

(d) By December 1, 2020, the department must submit a report to the transportation committees of the legislature regarding the actions taken under this subsection.

The appropriations in this section are subject to the following conditions and limitations:

(1) Except as provided otherwise in this section, the entire appropriations in this section are provided solely for the projects and activities as listed by project and amount in LEAP Transportation Document ~~((2020))~~ 2021-2 ALL PROJECTS as developed ((March 11, 2020)) April 23, 2021, Program - Rail Program (Y).

(2) ~~(\$7,136,000)~~ \$7,047,000 of the transportation infrastructure account—state appropriation is provided solely for new low-interest loans approved by the department through the freight rail investment bank (FRIB) program. The department shall issue FRIB program loans with a repayment period of no more than ten years, and charge only so much interest as is necessary to recoup the department's costs to administer the loans. The department shall report annually to the transportation committees of the legislature and the office of financial management on all FRIB loans issued.

(3) \$7,782,000 of the multimodal transportation account—state appropriation, \$51,000 of the transportation infrastructure account—state appropriation, and \$135,000 of the essential rail assistance account—state appropriation are provided solely for new statewide emergent freight rail assistance projects identified in the LEAP transportation document referenced in subsection (1) of this section.

(4) \$367,000 of the transportation infrastructure account—state appropriation and \$1,100,000 of the multimodal transportation account—state appropriation are provided solely to reimburse Highline Grain, LLC for approved work completed on Palouse River and Coulee City (PCC) railroad track in Spokane county between the BNSF Railway Interchange at Cheney and Geiger Junction and must be administered in a manner consistent with freight rail assistance program projects. The value of the public benefit of this project is expected to meet or exceed the cost of this project in: Shipper savings on transportation costs; jobs saved in rail-dependent industries; and/or reduced future costs to repair wear and tear on state and local highways due to fewer annual truck trips (reduced vehicle miles traveled). The amounts provided in this subsection are not a commitment for future legislatures, but it is the legislature's intent that future legislatures will work to approve biennial appropriations until the full \$7,337,000 cost of this project is reimbursed.

(5)(a) \$716,000 of the essential rail assistance account—state appropriation and \$82,000 of the multimodal transportation account—state appropriation are provided solely for the purpose of the rehabilitation and maintenance of the Palouse river and Coulee City railroad line (F01111B).

(ii) Revenues from trackage rights agreement fees paid by shippers; and

(iii) Revenues and transfers transferred from the miscellaneous program account to the essential rail assistance account, pursuant to RCW 47.76.360, for the purpose of sustaining the grain train program by maintaining the Palouse river and Coulee City railroad.

(6) The department shall issue a call for projects for the freight rail assistance program, and shall evaluate the applications in a manner consistent with past practices as specified in section 309, chapter 367, Laws of 2011. By November 15, 2020, the department shall submit a prioritized list of recommended projects to the office of financial management and the transportation committees of the legislature.

(7) ~~(\$10,000,000)~~ \$4,031,000 of the multimodal transportation account—state appropriation is provided solely as expenditure authority for any insurance proceeds received by the state for Passenger Rail Equipment Replacement (project 700010C.) The department must use this expenditure authority only to purchase replacement equipment that has been competitively procured and for service recovery needs and corrective actions related to the December 2017 derailment.

(8) \$898,000 of the multimodal transportation account—federal appropriation and \$8,000 of the multimodal transportation account—state appropriation are provided solely for the Ridgefield Rail Overpass (project 725910A). Total costs for this project may not exceed \$909,000 across fiscal biennia.

(9)(a) For projects funded as part of the 2015 connecting Washington transportation package listed on the LEAP transportation document identified in subsection (1) of this section, if the department expects to have substantial reappropriations for the 2021-2023 fiscal biennium, the department may, on a pilot basis, apply funding from a project in this section with an appropriation that cannot be used for the current fiscal biennium to advance the South Kelso Railroad Crossing project (L1000147).

(b) At least ten business days before advancing the project pursuant to this subsection, the department must notify the office of financial management and the transportation committees of the legislature. The advancement of the project may not hinder the delivery of the projects for which the reappropriations are necessary for the 2021-2023 fiscal biennium.

(c) To the extent practicable, the department shall use the flexibility and authority granted in this section to minimize the amount of reappropriations needed each biennium.

(10) ~~((The multimodal transportation account state appropriation includes up to \$25,000,000 in proceeds from the sale of bonds authorized in RCW 47.10.867.~~

~~((11))~~ The department must report to the joint transportation committee on the progress made on freight rail investment bank projects and freight rail assistance projects funded during this biennium by January 1, 2020.

~~((12))~~ (11) \$1,500,000 of the multimodal transportation account—state appropriation is provided solely for the Chelatchie Prairie railroad roadbed rehabilitation project (L1000233).

~~((13))~~ (12) \$250,000 of the multimodal transportation account—state appropriation is provided solely for the Port of Moses Lake Northern Columbia Basin railroad feasibility study (L1000235).

~~((14))~~ (13) \$500,000 of the multimodal transportation account—state appropriation is provided solely for the Spokane airport transload facility project (L1000242).

~~((18))~~ (15) The appropriations in this section include savings due to anticipated project underruns; however, it is unknown which projects will provide savings. The legislature intends to provide sufficient flexibility for the department to manage to this savings target. To provide this flexibility, the office of financial management may authorize, through an allotment modification, reductions in the appropriated amounts that are provided solely for a particular purpose within this section subject to the following conditions and limitations:

(a) The department must confirm that any modification requested under this subsection of amounts provided solely for a specific purpose are not expected to be used for that purpose in this biennium;

(b) Allotment modifications authorized under this subsection may not result in increased funding for any project beyond the amount provided for that project in the 2019-2021 fiscal biennium in LEAP Transportation Document ~~((2020))~~ 2021-2 ALL PROJECTS as developed ((March 11, 2020)) April 23, 2021;

(c) Allotment modifications authorized under this subsection apply only to amounts appropriated in this section from the multimodal transportation account—state; and

(d) By December 1, 2020, the department must submit a report to the transportation committees of the legislature regarding the actions taken under this subsection.

MR. SPEAKER:

We of your conference committee, to whom was referred Engrossed Substitute Senate Bill No. 5096, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

(1) "Adjusted capital gain" means federal net long-term capital gain:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. INTENT. The legislature finds that it is the paramount duty of the state to amply provide every child in the state with an education, creating the opportunity for the child to succeed in school and thrive in life. The legislature further finds that high quality early learning and child care is critical to a child's success in school and life, as it supports the development of the child's social-emotional, physical, cognitive, and language skills. Therefore, the legislature will invest in the ongoing support of K-12 education and early learning and child care by dedicating revenues from this act to the education legacy trust account and the common school construction account.

(a) Plus any amount of long-term capital loss from a sale or exchange that is exempt from the tax imposed in this chapter, to the extent such loss was included in calculating federal net long-term capital gain;

(b) Plus any amount of long-term capital loss from a sale or exchange that is not allocated to Washington under section 11 of this act, to the extent such loss was included in calculating federal net long-term capital gain;

(c) Plus any amount of loss carryforward from a sale or exchange that is not allocated to Washington under section 11 of this act, to the extent such loss was included in calculating federal net long-term capital gain;

(d) Less any amount of long-term capital gain from a sale or exchange that is not allocated to Washington under section 11 of this act, to the extent such gain was included in calculating federal net long-term capital gain; and

The legislature further recognizes that a tax system that is fair, balanced, and works for everyone is essential to help all Washingtonians grow and thrive. But Washington's tax system today is the most regressive in the nation because it asks those making the least to pay the most as a percentage of their income. Middle-income families in Washington pay two to four times more in taxes, as a percentage of household income, as compared to top earners in the state. Low-income Washingtonians pay at least six times more than do our wealthiest residents.

(e) Less any amount of long-term capital gain from a sale or exchange that is exempt from the tax imposed in this chapter, to the extent such gain was included in calculating federal net long-term capital gain.

To help meet the state's paramount duty, the legislature intends to levy a seven percent tax on the voluntary sale or exchange of stocks, bonds, and other capital assets where the profit is in excess of \$250,000 annually to fund K-12 education, early learning, and child care, and advance our paramount duty to amply provide an

(2) "Capital asset" has the same meaning as provided by Title 26 U.S.C. Sec. 1221 of the internal revenue code and also includes any other property if the sale or exchange of the property results in a gain that is treated as a long-term capital gain under Title 26 U.S.C. Sec. 1231 or any other provision of the internal revenue code.

(3) "Federal net long-term capital gain" means the net long-term capital gain reportable for federal income tax purposes

determined as if Title 26 U.S.C. Secs. 55 through 59, 1400Z-1, and 1400Z-2 of the internal revenue code did not exist.

(4) "Individual" means a natural person.

(5) "Internal revenue code" means the United States internal revenue code of 1986, as amended, as of the effective date of this section, or such subsequent date as the department may provide by rule consistent with the purpose of this chapter.

(6) "Long-term capital asset" means a capital asset that is held for more than one year.

(7) "Long-term capital gain" means gain from the sale or exchange of a long-term capital asset.

(8) "Long-term capital loss" means a loss from the sale or exchange of a long-term capital asset.

(9) "Real estate" means land and fixtures affixed to land. "Real estate" also includes used mobile homes, used park model trailers, used floating homes, and improvements constructed upon leased land.

(10)(a) "Resident" means an individual:

(i) Who is domiciled in this state during the taxable year, unless the individual (A) maintained no permanent place of abode in this state during the entire taxable year, (B) maintained a permanent place of abode outside of this state during the entire taxable year, and (C) spent in the aggregate not more than 30 days of the taxable year in this state; or

(ii) Who is not domiciled in this state during the taxable year, but maintained a place of abode and was physically present in this state for more than 183 days during the taxable year.

(b) For purposes of this subsection, "day" means a calendar day or any portion of a calendar day.

(c) An individual who is a resident under (a) of this subsection is a resident for that portion of a taxable year in which the individual was domiciled in this state or maintained a place of abode in this state.

(11) "Taxable year" means the taxpayer's taxable year as determined under the internal revenue code.

(12) "Taxpayer" means an individual subject to tax under this chapter.

(13) "Washington capital gains" means an individual's adjusted capital gain, as modified in section 7 of this act, for each return filed under this chapter.

NEW SECTION. Sec. 5. TAX IMPOSED. (1) Beginning January 1, 2022, an excise tax is imposed on the sale or exchange of long-term capital assets. Only individuals are subject to payment of the tax, which equals seven percent multiplied by an individual's Washington capital gains.

(2) The tax levied in subsection (1) of this section is necessary for the support of the state government and its existing public institutions.

(3) If an individual's Washington capital gains are less than zero for a taxable year, no tax is due under this section and no such amount is allowed as a carryover for use in the calculation of that individual's adjusted capital gain, as defined in section 4(1) of this act, for any taxable year. To the extent that a loss carryforward is included in the calculation of an individual's federal net long-term capital gain and that loss carryforward is directly attributable to losses from sales or exchanges allocated to this state under section 11 of this act, the loss carryforward is included in the calculation of that individual's adjusted capital gain for the purposes of this chapter. An individual may not include any losses carried back for federal income tax purposes in the calculation of that individual's adjusted capital gain for any taxable year.

(4)(a) The tax imposed in this section applies to the sale or exchange of long-term capital assets owned by the taxpayer, whether the taxpayer was the legal or beneficial owner of such assets at the time of the sale or exchange. The tax applies when

the Washington capital gains are recognized by the taxpayer in accordance with this chapter.

(b) For purposes of this chapter:

(i) An individual is considered to be a beneficial owner of long-term capital assets held by an entity that is a pass-through or disregarded entity for federal tax purposes, such as a partnership, limited liability company, S corporation, or grantor trust, to the extent of the individual's ownership interest in the entity as reported for federal income tax purposes.

(ii) A nongrantor trust is deemed to be a grantor trust if the trust does not qualify as a grantor trust for federal tax purposes, and the grantor's transfer of assets to the trust is treated as an incomplete gift under Title 26 U.S.C. Sec. 2511 of the internal revenue code and its accompanying regulations. A grantor of such trust is considered the beneficial owner of the capital assets of the trust for purposes of the tax imposed in this section and must include any long-term capital gain or loss from the sale or exchange of a capital asset by the trust in the calculation of that individual's adjusted capital gain, if such gain or loss is allocated to this state under section 11 of this act.

NEW SECTION. Sec. 6. EXEMPTIONS. This chapter does not apply to the sale or exchange of:

(1) All real estate transferred by deed, real estate contract, judgment, or other lawful instruments that transfer title to real property and are filed as a public record with the counties where real property is located;

(2)(a) An interest in a privately held entity only to the extent that any long-term capital gain or loss from such sale or exchange is directly attributable to the real estate owned directly by such entity.

(b)(i) Except as provided in (b)(ii) and (iii) of this subsection, the value of the exemption under this subsection is equal to the fair market value of the real estate owned directly by the entity less its basis, at the time that the sale or exchange of the individual's interest occurs, multiplied by the percentage of the ownership interest in the entity which is sold or exchanged by the individual.

(ii) If a sale or exchange of an interest in an entity results in an amount directly attributable to real property and that is considered as an amount realized from the sale or exchange of property other than a capital asset under Title 26 U.S.C. Sec. 751 of the internal revenue code, such amount must not be considered in the calculation of an individual's exemption amount under (b)(i) of this subsection (2).

(iii) Real estate not owned directly by the entity in which an individual is selling or exchanging the individual's interest must not be considered in the calculation of an individual's exemption amount under (b)(i) of this subsection (2).

(c) Fair market value of real estate may be established by a fair market appraisal of the real estate or an allocation of assets by the seller and the buyer made under Title 26 U.S.C. Sec. 1060 of the internal revenue code, as amended. However, the department is not bound by the parties' agreement as to the allocation of assets, allocation of consideration, or fair market value, if such allocations or fair market value do not reflect the fair market value of the real estate. The assessed value of the real estate for property tax purposes may be used to determine the fair market value of the real estate, if the assessed value is current as of the date of the sale or exchange of the ownership interest in the entity owning the real estate and the department determines that this method is reasonable under the circumstances.

(d) The value of the exemption under this subsection (2) may not exceed the individual's long-term capital gain or loss from the sale or exchange of an interest in an entity for which the individual is claiming this exemption;

"Timber" means forest trees, standing or down, on privately or publicly owned land, and includes Christmas trees and short-rotation hardwoods. The sale or exchange of timber includes the cutting or disposal of timber qualifying for capital gains treatment under Title 26 U.S.C. Sec. 631(a) or (b) of the internal revenue code;

(b) For the purposes of this subsection (8), "commercial fishing privilege" means a right, held by a seafood harvester or processor, to participate in a limited access fishery. "Commercial fishing privilege" includes and is limited to:

NEW SECTION. Sec. 7. DEDUCTIONS. In computing tax for a taxable year, a taxpayer may deduct from his or her Washington capital gains:

(1) A standard deduction of \$250,000 per individual, or in the case of spouses or domestic partners, their combined standard deduction is limited to \$250,000, regardless of whether they file joint or separate returns. The amount of the standard deduction shall be adjusted pursuant to section 17 of this act;

(2) Amounts that the state is prohibited from taxing under the Constitution of this state or the Constitution or laws of the United States;

(3) The amount of adjusted capital gain derived from the sale or transfer of the taxpayer's interest in a qualified family-owned small business pursuant to section 8 of this act;

(4) Charitable donations deductible under section 9 of this act.

NEW SECTION. Sec. 8. QUALIFIED FAMILY-OWNED SMALL BUSINESS DEDUCTION. (1) In computing tax under this chapter for a taxable year, a taxpayer may deduct from his or her Washington capital gains the amount of adjusted capital gain derived in the taxable year from the sale of substantially all of the

fair market value of the assets of, or the transfer of substantially all of the taxpayer's interest in, a qualified family-owned small business, to the extent that such adjusted capital gain would otherwise be included in the taxpayer's Washington capital gains.

(2) For purposes of this section, the following definitions apply:

(a) "Assets" means real property and personal property, including tangible personal property and intangible property.

(b) "Family" means the same as "member of the family" in RCW 83.100.046.

(c)(i) "Materially participated" means an individual was involved in the operation of a business on a basis that is regular, continuous, and substantial.

(ii) The term "materially participated" must be interpreted consistently with the applicable treasury regulations for Title 26 U.S.C. Sec. 469 of the internal revenue code, to the extent that such interpretation does not conflict with any provision of this section.

(d) "Qualified family-owned small business" means a business:

(i) In which the taxpayer held a qualifying interest for at least five years immediately preceding the sale or transfer described in subsection (1) of this section;

(ii) In which either the taxpayer or members of the taxpayer's family, or both, materially participated in operating the business for at least five of the 10 years immediately preceding the sale or transfer described in subsection (1) of this section, unless such sale or transfer was to a qualified heir; and

(iii) That had worldwide gross revenue of \$10,000,000 or less in the 12-month period immediately preceding the sale or transfer described in subsection (1) of this section. The worldwide gross revenue amount under this subsection (2)(d)(iii) shall be adjusted annually as provided in section 17 of this act.

(e) "Qualified heir" means a member of the taxpayer's family.

(f) "Qualifying interest" means:

(I) Seventy percent of the business is owned, directly or indirectly, by members of two families; or

(II) Ninety percent of the business is owned, directly or indirectly, by members of three families.

(g) "Substantially all" means at least 90 percent.

NEW SECTION. Sec. 9. ADDITIONAL DEDUCTION FOR CHARITABLE DONATIONS. (1) In computing tax under this chapter for a taxable year, a taxpayer may deduct from his or her Washington capital gains the amount donated by the taxpayer to one or more qualified organizations during the same taxable year in excess of the minimum qualifying charitable donation amount. For the purposes of this section, the minimum qualifying charitable donation amount equals \$250,000. The minimum qualifying charitable donation amount under this subsection (1) shall be adjusted pursuant to section 17 of this act.

(2) The deduction authorized under subsection (1) of this section may not exceed \$100,000 for the taxable year. The maximum amount of the available deduction under this subsection (2) shall be adjusted pursuant to section 17 of this act.

(3) The deduction authorized under subsection (1) of this section may not be carried forward or backward to another tax reporting period.

(4) For the purposes of this section, the following definitions apply:

(a) "Nonprofit organization" means an organization exempt from tax under Title 26 U.S.C. Sec. 501(c)(3) of the internal revenue code.

(b) "Qualified organization" means a nonprofit organization, or any other organization, that is:

(i) Eligible to receive a charitable deduction as defined in Title 26 U.S.C. Sec. 170(c) of the internal revenue code; and

(ii) Principally directed or managed within the state of Washington.

NEW SECTION. Sec. 10. OTHER TAXES. The tax imposed under this chapter is in addition to any other taxes imposed by the state or any of its political subdivisions, or a municipal corporation, with respect to the same sale or exchange, including the taxes imposed in, or under the authority of, chapter 82.04, 82.08, 82.12, 82.14, 82.45, or 82.46 RCW.

NEW SECTION. Sec. 11. ALLOCATION OF GAINS AND LOSSES. (1) For purposes of the tax imposed under this chapter, long-term capital gains and losses are allocated to Washington as follows:

(a) Long-term capital gains or losses from the sale or exchange of tangible personal property are allocated to this state if the property was located in this state at the time of the sale or exchange. Long-term capital gains or losses from the sale or exchange of tangible personal property are also allocated to this state even though the property was not located in this state at the time of the sale or exchange if:

(i) The property was located in the state at any time during the taxable year in which the sale or exchange occurred or the immediately preceding taxable year;

(ii) The taxpayer was a resident at the time the sale or exchange occurred; and

(iii) The taxpayer is not subject to the payment of an income or excise tax legally imposed on the long-term capital gains or losses by another taxing jurisdiction.

(b) Long-term capital gains or losses derived from intangible personal property are allocated to this state if the taxpayer was domiciled in this state at the time the sale or exchange occurred.

(2)(a) A credit is allowed against the tax imposed in section 5 of this act equal to the amount of any legally imposed income or excise tax paid by the taxpayer to another taxing jurisdiction on capital gains derived from capital assets within the other taxing jurisdiction to the extent such capital gains are included in the taxpayer's Washington capital gains. The amount of credit under this subsection may not exceed the total amount of tax due under this chapter, and there is no carryback or carryforward of any unused credits.

(b) As used in this section, "taxing jurisdiction" means a state of the United States other than the state of Washington, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any foreign country or political subdivision of a foreign country.

NEW SECTION. Sec. 12. FILING OF RETURNS. (1)(a) Except as otherwise provided in this section or RCW 82.32.080, taxpayers owing tax under this chapter must file, on forms prescribed by the department, a return with the department on or before the date the taxpayer's federal income tax return for the taxable year is required to be filed.

(b)(i) Except as provided in (b)(ii) of this subsection (1), returns and all supporting documents must be filed electronically using the department's online tax filing service or other method of electronic reporting as the department may authorize.

(ii) The department may waive the electronic filing requirement in this subsection for good cause as provided in RCW 82.32.080.

(2) In addition to the Washington return required to be filed under subsection (1) of this section, taxpayers owing tax under this chapter must file with the department on or before the date the federal return is required to be filed a copy of the federal income tax return along with all schedules and supporting documentation.

(3) Each taxpayer required to file a return under this section must, without assessment, notice, or demand, pay any tax due thereon to the department on or before the date fixed for the filing of the return, regardless of any filing extension. The tax must be paid by electronic funds transfer as defined in RCW 82.32.085 or by other forms of electronic payment as may be authorized by the department. The department may waive the electronic payment requirement for good cause as provided in RCW 82.32.080. If any tax due under this chapter is not paid by the due date, interest and penalties as provided in chapter 82.32 RCW apply to the deficiency.

(4)(a) In addition to the Washington return required to be filed under subsection (1) of this section, an individual claiming an exemption under section 6(2) of this act must file documentation substantiating the following:

(i) The fair market value and basis of the real estate held directly by the entity in which the interest was sold or exchanged;

(ii) The percentage of the ownership interest sold or exchanged in the entity owning real estate; and

(iii) The methodology, if any, established by the entity in which the interest was sold or exchanged, for allocating gains or losses to the owners, partners, or shareholders of the entity from the sale of real estate.

(b) The department may by rule prescribe additional filing requirements to substantiate an individual's claim for an exemption under section 6(2) of this act. Prior to adopting any rule under this subsection (4)(b), the department must allow for an opportunity for participation by interested parties in the rule-making process in accordance with the administrative procedure act, chapter 34.05 RCW.

(5) If a taxpayer has obtained an extension of time for filing the federal income tax return for the taxable year, the taxpayer is entitled to the same extension of time for filing the return required under this section if the taxpayer provides the department, before the due date provided in subsection (1) of this section, the extension confirmation number or other evidence satisfactory to the department confirming the federal extension. An extension under this subsection for the filing of a return under this chapter is not an extension of time to pay the tax due under this chapter.

(6)(a) If any return due under subsection (1) of this section, along with a copy of the federal income tax return, is not filed with the department by the due date or any extension granted by the department, the department must assess a penalty in the amount of five percent of the tax due for the taxable year covered by the return for each month or portion of a month that the return remains unfiled. The total penalty assessed under this subsection may not exceed 25 percent of the tax due for the taxable year covered by the delinquent return. The penalty under this subsection is in addition to any penalties assessed for the late payment of any tax due on the return.

(b) The department must waive or cancel the penalty imposed under this subsection if:

(i) The department is persuaded that the taxpayer's failure to file the return by the due date was due to circumstances beyond the taxpayer's control; or

(ii) The taxpayer has not been delinquent in filing any return due under this section during the preceding five calendar years.

NEW SECTION. Sec. 13. JOINT FILERS. (1) If the federal income tax liabilities of both spouses are determined on a

2021 REGULAR SESSION

joint federal return for the taxable year, they must file a joint return under this chapter.

(2) Except as otherwise provided in this subsection, if the federal income tax liability of either spouse is determined on a separate federal return for the taxable year, they must file separate returns under this chapter. State registered domestic partners may file a joint return under this chapter even if they filed separate federal returns for the taxable year.

(3) The liability for tax due under this chapter of each spouse or state registered domestic partner is joint and several, unless:

(a) The spouse is relieved of liability for federal tax purposes as provided under Title 26 U.S.C. Sec. 6015 of the internal revenue code; or

(b) The department determines that the domestic partner qualifies for relief as provided by rule of the department. Such rule, to the extent possible without being inconsistent with this chapter, must follow Title 26 U.S.C. Sec. 6015.

NEW SECTION. Sec. 14. ADMINISTRATION OF TAXES. Except as otherwise provided by law and to the extent not inconsistent with the provisions of this chapter, chapter 82.32 RCW applies to the administration of taxes imposed under this chapter.

NEW SECTION. Sec. 15. CRIMINAL ACTIONS. (1) Any taxpayer who knowingly attempts to evade payment of the tax imposed under this chapter is guilty of a class C felony as provided in chapter 9A.20 RCW.

(2) Any taxpayer who knowingly fails to pay tax, make returns, keep records, or supply information, as required under this title, is guilty of a gross misdemeanor as provided in chapter 9A.20 RCW.

NEW SECTION. Sec. 16. A new section is added to chapter 82.04 RCW to read as follows:

BUSINESS AND OCCUPATION TAX CREDIT.

(1) To avoid taxing the same sale or exchange under both the business and occupation tax and capital gains tax, a credit is allowed against taxes due under this chapter on a sale or exchange that is also subject to the tax imposed under section 5 of this act. The credit is equal to the amount of tax imposed under this chapter on such sale or exchange.

(2) The credit may be used against any tax due under this chapter.

(3) The credit under this section is earned in regards to a sale or exchange, and may be claimed against taxes due under this chapter, for the tax reporting period in which the sale or exchange occurred. The credit claimed for a tax reporting period may not exceed the tax otherwise due under this chapter for that tax reporting period. Unused credit may not be carried forward or backward to another tax reporting period. No refunds may be granted for unused credit under this section.

(4) The department must apply the credit first to taxes deposited into the general fund. If any remaining credit reduces the amount of taxes deposited into the workforce education investment account established in RCW 43.79.195, the department must notify the state treasurer of such amounts monthly, and the state treasurer must transfer those amounts from the general fund to the workforce education investment account.

NEW SECTION. Sec. 17. ANNUAL ADJUSTMENTS. (1) Beginning December 2023 and each December thereafter, the department must adjust the applicable amounts by multiplying the current applicable amounts by one plus the percentage by which the most current consumer price index available on December 1st of the current year exceeds the consumer price index for the prior 12-month period, and rounding the result to the nearest \$1,000. If an adjustment under this subsection (1) would reduce the applicable amounts, the department must not adjust the applicable

amounts for use in the following year. The department must publish the adjusted applicable amounts on its public website by December 31st. The adjusted applicable amounts calculated under this subsection (1) take effect for taxes due and distributions made, as the case may be, in the following calendar year.

(2) For purposes of this section, the following definitions apply:

(a) "Applicable amounts" means:

(i) The distribution amount to the education legacy trust account as provided in section 2(1)(a) of this act;

(ii) The standard deduction amount in sections 4(13) and 7(1) of this act;

(iii) The worldwide gross revenue amount under section 8 of this act; and

(iv) The minimum qualifying charitable donation amount and maximum charitable donation amount under section 9 of this act.

(b) "Consumer price index" means the consumer price index for all urban consumers, all items, for the Seattle area as calculated by the United States bureau of labor statistics or its successor agency.

(c) "Seattle area" means the geographic area sample that includes Seattle and surrounding areas.

NEW SECTION. Sec. 18. The provisions of RCW 82.32.805 and 82.32.808 do not apply to this act.

NEW SECTION. Sec. 19. Sections 1, 2, 4 through 15, and 17 of this act constitute a new chapter in Title 82 RCW.

NEW SECTION. Sec. 20. (1) If a court of competent jurisdiction, in a final judgment not subject to appeal, adjudges section 5 of this act unconstitutional, or otherwise invalid, in its entirety, section 16 of this act is null and void in its entirety. Any credits previously claimed under section 16 of this act must be repaid within 30 days of the department of revenue's notice to the taxpayer of the amount due.

(2) If the taxpayer fails to repay the credit by the due date, interest and penalties as provided in chapter 82.32 RCW apply to the deficiency.

NEW SECTION. Sec. 21. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

REPORT OF THE CONFERENCE COMMITTEE

Engrossed Third Substitute House Bill No. 1091

April 24, 2021

MR. PRESIDENT:

MR. SPEAKER:

We of your conference committee, to whom was referred Engrossed Third Substitute House Bill No. 1091, have had the same under consideration and recommend that all previous amendments not be adopted and that the following striking amendment be adopted:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. (1) The legislature finds that rapid innovations in low carbon transportation technologies, including electric vehicles and clean transportation fuels, are at the threshold of widespread commercial deployment. In order to help prompt the use of clean fuels, other states have successfully implemented programs that reduce the carbon intensity of their transportation fuels. California and Oregon have both implemented low carbon fuel standards that are similar to the program created in this act, and both states have experienced biofuel sector growth and have successfully sited large biofuel projects that had originally been planned for Washington. Washington state has extensively studied the potential impact of a clean fuels program, and most projections show that a low carbon fuel standard would decrease greenhouse gas and conventional air pollutant emissions, while positively impacting the state's economy.

(2) The legislature further finds that the health and welfare of the people of the state of Washington is threatened by the prospect of crumbling or swamped coastlines, rising water, and more intense forest fires caused by higher temperatures and related droughts, all of which are intensified and made more frequent by the volume of greenhouse gas emissions. As of 2017, the transportation sector contributes 45 percent of Washington's greenhouse gas emissions, and the legislature's interest in the life cycle of the fuels used in the state arises from a concern for the effects of the production and use of these fuels on Washington's environment and public health, including its air quality, snowpack, and coastline.

(3) Therefore, it is the intent of the legislature to support the deployment of clean transportation fuel technologies through a carefully designed program that reduces the carbon intensity of fuel used in Washington, in order to:

(a) Reduce levels of conventional air pollutants from diesel and gasoline that are harmful to public health;

(b) Reduce greenhouse gas emissions associated with transportation fuels, which are the state's largest source of greenhouse gas emissions; and

(c) Create jobs and spur economic development based on innovative clean fuel technologies.

NEW SECTION. Sec. 2. The definitions in this section apply throughout this chapter unless the context clearly indicates otherwise.

(1) "Carbon dioxide equivalents" has the same meaning as defined in RCW 70A.45.010.

(2) "Carbon intensity" means the quantity of life-cycle greenhouse gas emissions, per unit of fuel energy, expressed in grams of carbon dioxide equivalent per megajoule (gCO₂e/MJ).

(3) "Clean fuels program" means the requirements established under this chapter.

(4) "Cost" means an expense connected to the manufacture, distribution, or other aspects of the provision of a transportation fuel product.

(5) "Credit" means a unit of measure generated when a transportation fuel with a carbon intensity that is less than the applicable standard adopted by the department under section 3 of this act is produced, imported, or dispensed for use in Washington, such that one credit is equal to one metric ton of

ONE HUNDRED FIFTH DAY, APRIL 25, 2021

2021 REGULAR SESSION

carbon dioxide equivalents. A credit may also be generated through other activities consistent with this chapter.

(6) "Deficit" means a unit of measure generated when a transportation fuel with a carbon intensity that is greater than the applicable standard adopted by the department under section 3 of this act is produced, imported, or dispensed for use in Washington, such that one deficit is equal to one metric ton of carbon dioxide equivalents.

(7) "Department" means the department of ecology.

(8) "Electric utility" means a consumer-owned utility or investor-owned utility, as those terms are defined in RCW 19.29A.010.

(9) "Greenhouse gas" has the same meaning as defined in RCW 70A.45.010.

(10) "Military tactical vehicle" means a motor vehicle owned by the United States department of defense or the United States military services and that is used in combat, combat support, combat service support, tactical or relief operations, or training for such operations.

(11) "Motor vehicle" has the same meaning as defined in RCW 46.04.320.

(12) "Price" means the amount of payment or compensation provided as consideration for a specified quantity of transportation fuel by a consumer or end user of the transportation fuel.

(13) "Regulated party" means a producer or importer of any amount of a transportation fuel that is ineligible to generate credits under this chapter.

(14)(a) "Tactical support equipment" means equipment using a portable engine, including turbines, that meets military specifications, owned by the United States military services or its allies, and that is used in combat, combat support, combat service support, tactical or relief operations, or training for such operations.

(b) "Tactical support equipment" includes, but is not limited to, engines associated with portable generators, aircraft start carts, heaters, and lighting carts.

(15) "Transportation fuel" means electricity and any liquid or gaseous fuel sold, supplied, offered for sale, or used for the propulsion of a motor vehicle or that is intended for use for transportation purposes.

NEW SECTION. Sec. 3. (1) The department shall adopt rules that establish standards that reduce carbon intensity in transportation fuels used in Washington. The standards established by the rules must be based on the carbon intensity of gasoline and gasoline substitutes and the carbon intensity of diesel and diesel substitutes. The standards:

(a) Must reduce the overall, aggregate carbon intensity of transportation fuels used in Washington;

(b) May only require carbon intensity reductions at the aggregate level of all transportation fuels and may not require a reduction in carbon intensity to be achieved by any individual type of transportation fuel;

(c) Must assign a compliance obligation to fuels whose carbon intensity exceeds the standards adopted by the department, consistent with the requirements of section 4 of this act; and

(d) Must assign credits that can be used to satisfy or offset compliance obligations to fuels whose carbon intensity is below the standards adopted by the department and that elect to participate in the program, consistent with the requirements of section 4 of this act.

(2) The clean fuels program adopted by the department must be designed such that:

(a) Regulated parties generate deficits and may reconcile the deficits, and thus comply with the clean fuels program standards for a compliance period, by obtaining and retiring credits;

(b) Regulated parties and credit generators may generate credits for fuels used as substitutes or alternatives for gasoline or diesel;

(c) Regulated parties, credit generators, and credit aggregators shall have opportunities to trade credits; and

(d) Regulated parties shall be allowed to carry over to the next compliance period a small deficit without penalty.

(3) The department shall, throughout a compliance period, regularly monitor the availability of fuels needed for compliance with the clean fuels program.

(4)(a) Under the clean fuels program, the department shall monthly calculate the volume-weighted average price of credits and, no later than the last day of the month immediately following the month for which the calculation is completed, post the formula and the nonaggregated data the department used for the calculation and the results of the calculation on the department's website.

(b) In completing the calculation required by this subsection, the department may exclude from the data set credit transfers without a price or other credit transfers made for a price that falls two standard deviations outside of the mean credit price for the month. Data posted on the department's website under this section may not include any individually identifiable information or information that would constitute a trade secret.

(5)(a) Except as provided in this section, the rules adopted under this section must reduce the greenhouse gas emissions attributable to each unit of the fuels to 20 percent below 2017 levels by 2038 based on the following schedule:

(i) No more than 0.5 percent each year in 2023 and 2024;

(ii) No more than an additional one percent each year beginning in 2025 through 2027;

(iii) No more than an additional 1.5 percent each year beginning in 2028 through 2031; and

(iv) No change in 2032 and 2033.

(b) The rules must establish a start date for the clean fuels program of no later than January 1, 2023, except as provided in subsection (8) of this section.

(6) Beginning with the program year beginning in calendar year 2028, the department may not increase the carbon intensity reductions required by the applicable clean fuels program standard adopted by the department under subsection (5) of this section beyond a 10 percent reduction in carbon intensity until the department demonstrates that the following have occurred:

(a) At least a 15 percent net increase in the volume of in-state liquid biofuel production and the use of feedstocks grown or produced within the state relative to the start of the program; and

(b) At least one new or expanded biofuel production facility representing an increase in production capacity or producing, in total, in excess of 60,000,000 gallons of biofuels per year has or have received after July 1, 2021, all necessary siting, operating, and environmental permits post all timely and applicable appeals. As part of the threshold of 60,000,000 gallons of biofuel under this subsection, at least one new facility producing at least 10,000,000 gallons per year must have received all necessary siting, operating, and environmental permits. Timely and applicable appeals must be determined by the attorney general's office.

(7) Beginning with the program year beginning in calendar year 2031, the department may not increase the carbon intensity reductions required by the applicable clean fuels program standard adopted by the department under subsection (5) of this

section beyond a 10 percent reduction in carbon intensity until the:

(a) Joint legislative audit and review committee report required in section 15 of this act has been completed; and

(b) 2033 regular legislative session has adjourned, in order to allow an opportunity for the legislature to amend the requirements of this chapter in light of the report required in (a) of this subsection.

(8)(a) In order to coordinate and synchronize the clean fuels program with other transportation-related investments, the department may not assign compliance obligations or allow the generation of credits under this chapter until a separate additive transportation revenue act becomes law, at which time the department of licensing must provide written notice to the chief clerk of the house of representatives, the secretary of the senate, and the office of the code reviser.

(b) For the purposes of this subsection, "additive transportation revenue act" means an act enacted after April 1, 2021, in which the state fuel tax under RCW 82.38.030 is increased by an additional and cumulative tax rate of at least five cents per gallon of fuel.

(9) Transportation fuels exported from Washington are not subject to the greenhouse gas emissions reduction requirements in this section.

(10) To the extent the requirements of this chapter conflict with the requirements of chapter 19.112 RCW, the requirements of this chapter prevail.

NEW SECTION. Sec. 4. The rules adopted by the department to achieve the greenhouse gas emissions reductions per unit of fuel energy specified in section 3 of this act must include, but are not limited to, the following:

(1) Standards for greenhouse gas emissions attributable to the transportation fuels throughout their life cycles, including but not limited to emissions from the production, storage, transportation, and combustion of transportation fuels and from changes in land use associated with transportation fuels and any permanent greenhouse gas sequestration activities.

(a) The rules adopted by the department under this subsection (1) may:

(i) Include provisions to address the efficiency of a fuel as used in a powertrain as compared to a reference fuel;

(ii) Consider carbon intensity calculations for transportation fuels developed by national laboratories or used by similar programs in other states; and

(iii) Consider changes in land use and any permanent greenhouse gas sequestration activities associated with the production of any type of transportation fuel.

(b) The rules adopted by the department under this subsection (1) must:

(i) Neutrally consider the life-cycle emissions associated with transportation fuels with respect to the political jurisdiction in which the fuels originated and may not discriminate against fuels on the basis of having originated in another state or jurisdiction. Nothing in this subsection may be construed to prohibit inclusion or assessment of emissions related to fuel production, storage, transportation, or combustion or associated changes in land use in determining the carbon intensity of a fuel;

(ii) Measure greenhouse gas emissions associated with electricity and hydrogen based on a mix of generation resources specific to each electric utility participating in the clean fuels program. The department may apply an asset-controlling supplier emission factor certified or approved by a similar program to reduce the greenhouse gas emissions associated with transportation fuels in another state;

(iii) Include mechanisms for certifying electricity that has a carbon intensity of zero. This electricity must include, at minimum, electricity:

(A) For which a renewable energy credit or other environmental attribute has been retired or used; and

(B) Produced using a zero emission resource including, but not limited to, solar, wind, geothermal, or the industrial combustion of biomass consistent with RCW 70A.45.020(3), that is directly supplied as a transportation fuel by the generator of the electricity to a metered customer for electric vehicle charging or refueling;

(iv) Allow the generation of credits associated with electricity with a carbon intensity lower than that of standard adopted by the department. The department may not require electricity to have a carbon intensity of zero in order to be eligible to generate credits from use as a transportation fuel; and

(v) Include procedures for setting and adjusting the amounts of greenhouse gas emissions per unit of fuel energy that is assigned to transportation fuels under this subsection.

(c) If the department determines that it is necessary for purposes of accurately measuring greenhouse gas emissions associated with transportation fuels, the department may require transportation fuel suppliers to submit data or information to be used for purposes of calculating greenhouse gas emissions that is different from or additional to the greenhouse gas emissions data reported under RCW 70A.15.2200(5)(a)(iii).

(d) If the department determines that it is necessary for purposes of accurately measuring greenhouse gas emissions associated with electricity supplied to retail customers or hydrogen production facilities by an electric utility, the department may require electric utilities participating in the clean fuels program to submit data or information to be used for purposes of calculating greenhouse gas emissions that is different from or additional to the fuel mix disclosure information submitted under chapter 19.29A RCW. To the extent practicable, rules adopted by the department may allow data requested of utilities to be submitted in a form and manner consistent with other required state or federal data submissions;

(2) Provisions allowing for the achievement of limits on the greenhouse gas emissions intensity of transportation fuels in section 3 of this act to be achieved by any combination of credit generating activities capable of meeting such standards. Where such provisions would not produce results counter to the emission reduction goals of the program or prove administratively burdensome for the department, the rules should provide each participant in the clean fuels program with the opportunity to demonstrate appropriate carbon intensity values taking into account both emissions from production facilities and elsewhere in the production cycle, including changes in land use and permanent greenhouse gas sequestration activities;

(3)(a) Methods for assigning compliance obligations and methods for tracking tradable credits. The department may assign the generation of a credit when a fuel with associated life-cycle greenhouse gas emissions that are lower than the applicable per-unit standard adopted by the department under section 3 of this act is produced, imported, or dispensed for use in Washington, or when specified activities are undertaken that support the reduction of greenhouse gas emissions associated with transportation in Washington;

(b) Mechanisms that allow credits to be traded and to be banked for future compliance periods; and

(c) Procedures for verifying the validity of credits and deficits generated under the clean fuels program;

(4) Mechanisms to elect to participate in the clean fuels program for persons associated with the supply chains of transportation fuels that are eligible to generate credits consistent with subsection (3) of this section, including producers,

ONE HUNDRED FIFTH DAY, APRIL 25, 2021

2021 REGULAR SESSION

importers, distributors, users, or retailers of such fuels, and electric vehicle manufacturers;

(5) Mechanisms for persons associated with the supply chains of transportation fuels that are used for purposes that are exempt from the clean fuels program compliance obligations including, but not limited to, fuels used by aircraft, vessels, railroad locomotives, and other exempt fuels specified in section 5 of this act, to elect to participate in the clean fuels program by earning credits for the production, import, distribution, use, or retail of exempt fuels with associated life-cycle greenhouse gas emissions lower than the per-unit standard established in section 3 of this act;

(6) Mechanisms that allow for the assignment of credits to an electric utility for electricity used within its utility service area, at minimum, for residential electric vehicle charging or fueling;

(7) Cost containment mechanisms.

(a) Cost containment mechanisms must include the credit clearance market specified in subsection (8) of this section and may also include, but are not limited to:

(i) Procedures similar to the credit clearance market required in subsection (8) of this section that provide a means of compliance with the clean fuels program requirements in the event that a regulated person has not been able to acquire sufficient volumes of credits at the end of a compliance period; or

(ii) Similar procedures that ensure that credit prices do not significantly exceed credit prices in other jurisdictions that have adopted similar programs to reduce the carbon intensity of transportation fuels.

(b) Any cost containment mechanisms must be designed to provide financial disincentive for regulated persons to rely on the cost containment mechanism for purposes of program compliance instead of seeking to generate or acquire sufficient credits under the program.

(c) The department shall harmonize the program's cost containment mechanisms with the cost containment rules in the states specified in section 7(1) of this act.

(d) The department shall consider mechanisms such as the establishment of a credit price cap or other alternative cost containment measures if deemed necessary to harmonize market credit costs with those in the states specified in section 7(1) of this act;

(8)(a)(i) A credit clearance market for any compliance period in which at least one regulated party reports that the regulated party has a net deficit balance at the end of the compliance period, after retirement of all credits held by the regulated party, that is greater than a small deficit. A regulated party described by this subsection is required to participate in the credit clearance market.

(ii) If a regulated party has a small deficit at the end of a compliance period, the regulated party shall notify the department that it will achieve compliance with the clean fuels program during the compliance period by either: (A) Participating in a credit clearance market; or (B) carrying forward the small deficit.

(b) For the purposes of administering a credit clearance market required by this section, the department shall:

(i) Allow any regulated party, credit generator, or credit aggregator that holds excess credits at the end of the compliance period to voluntarily participate in the credit clearance market as a seller by pledging a specified number of credits for sale in the market;

(ii) Require each regulated party participating in the credit clearance market as purchaser of credits to:

(A) Have retired all credits in the regulated party's possession prior to participating in the credit clearance market; and

(B) Purchase the specified number of the total pledged credits that the department has determined are that regulated party's pro rata share of the pledged credits;

(iii) Require all sellers to:

(A) Agree to sell pledged credits at a price no higher than a maximum price for credits;

(B) Accept all offers to purchase pledged credits at the maximum price for credits; and

(C) Agree to withhold any pledged credits from sale in any transaction outside of the credit clearance market until the end of the credit clearance market, or if no credit clearance market is held in a given year, then until the date on which the department announces it will not be held.

(c)(i) The department shall set a maximum price for credits in a credit clearance market, consistent with states that have adopted similar clean fuels programs, not to exceed \$200 in 2018 dollars for 2023.

(ii) For 2024 and subsequent years, the maximum price may exceed \$200 in 2018 dollars, but only to the extent that a greater maximum price for credits is necessary to annually adjust for inflation, beginning on January 1, 2024, pursuant to the increase, if any, from the preceding calendar year in the consumer price index for all urban consumers, west region (all items), as published by the bureau of labor statistics of the United States department of labor.

(d) A regulated party that has a net deficit balance after the close of a credit clearance market:

(i) Must carry over the remaining deficits into the next compliance period; and

(ii) May not be subject to interest greater than five percent, penalties, or assertions of noncompliance that accrue based on the carryover of deficits under this subsection.

(e) If a regulated party has been required under (a) of this subsection to participate as a purchaser in two consecutive credit clearance markets and continues to have a net deficit balance after the close of the second consecutive credit clearance market, the department shall complete, no later than two months after the close of the second credit clearance market, an analysis of the root cause of an inability of the regulated party to retire the remaining deficits. The department may recommend and implement any remedy that the department determines is necessary to address the root cause identified in the analysis including, but not limited to, issuing a deferral, provided that the remedy implemented does not:

(i) Require a regulated party to purchase credits for an amount that exceeds the maximum price for credits in the most recent credit clearance market; or

(ii) Compel a person to sell credits.

(f) If credits sold in a credit clearance market are subsequently invalidated as a result of fraud or any other form of noncompliance on the part of the generator of the credit, the department may not pursue civil penalties against, or require credit replacement by, the regulated party that purchased the credits unless the regulated party was a party to the fraud or other form of noncompliance.

(g) The department may not disclose the deficit balances or pro rata share purchase requirements of a regulated party that participates in the credit clearance market;

(9) Authority for the department to designate an entity to aggregate and use unclaimed credits associated with persons that elect not to participate in the clean fuels program under subsection (4) of this section.

NEW SECTION. Sec. 5. (1) The rules adopted under sections 3 and 4 of this act must include exemptions for, at minimum, the following transportation fuels:

(a) Fuels used in volumes below thresholds adopted by the department;

(b) Fuels used for the propulsion of all aircraft, vessels, and railroad locomotives; and

(c) Fuels used for the operation of military tactical vehicles and tactical support equipment.

(2)(a) The rules adopted under sections 3 and 4 of this act must exempt the following transportation fuels from greenhouse gas emission intensity reduction requirements until January 1, 2028:

(i) Special fuel used off-road in vehicles used primarily to transport logs;

(ii) Dyed special fuel used in vehicles that are not designed primarily to transport persons or property, that are not designed to be primarily operated on highways, and that are used primarily for construction work including, but not limited to, mining and timber harvest operations; and

(iii) Dyed special fuel used for agricultural purposes exempt from chapter 82.38 RCW.

(b) Prior to January 1, 2028, fuels identified in this subsection (2) are eligible to generate credits, consistent with subsection (5) of this section. Beginning January 1, 2028, the fuels identified in this subsection (2) are subject to the greenhouse gas emission intensity reduction requirements applicable to transportation fuels specified in section 3 of this act.

(3) The department may adopt rules to specify the standards for persons to qualify for the exemptions provided in this section. The department may implement the exemptions under subsection (2) of this section to align with the implementation of exemptions for similar fuels exempt from chapter 82.38 RCW.

(4) The rules adopted under sections 3 and 4 of this act may include exemptions in addition to those described in subsections (1) and (2) of this section, but only if such exemptions are necessary, with respect to the relationship between the program and similar greenhouse gas emissions requirements or low carbon fuel standards, in order to avoid:

(a) Mismatched incentives across programs;

(b) Fuel shifting between markets; or

(c) Other results that are counter to the intent of this chapter.

(5) Nothing in this chapter precludes the department from adopting rules under sections 3 and 4 of this act that allow the generation of credits associated with electric or alternative transportation infrastructure that existed prior to the effective date of this section or to the start date of program requirements. The department must apply the same baseline years to credits associated with electric or alternative transportation infrastructure that apply to gasoline and diesel liquid fuels in any market-based program enacted by the legislature that establishes a cap on greenhouse gas emissions.

NEW SECTION. Sec. 6. (1) The rules adopted under sections 3 and 4 of this act may allow the generation of credits from activities that support the reduction of greenhouse gas emissions associated with transportation in Washington, including but not limited to:

(a) Carbon capture and sequestration projects, including but not limited to:

(i) Innovative crude oil production projects that include carbon capture and sequestration;

(ii) Project-based refinery greenhouse gas mitigation including, but not limited to, process improvements, renewable hydrogen use, and carbon capture and sequestration; or

(iii) Direct air capture projects;

(b) Investments and activities that support deployment of machinery and equipment used to produce gaseous and liquid fuels from nonfossil feedstocks, and derivatives thereof;

(c) The fueling of battery or fuel cell electric vehicles by a commercial, nonprofit, or public entity that is not an electric

utility, which may include, but is not limited to, the fueling of vehicles using electricity certified by the department to have a carbon intensity of zero; and

(d) The use of smart vehicle charging technology that results in the fueling of an electric vehicle during times when the carbon intensity of grid electricity is comparatively low.

(2)(a) The rules adopted under sections 3 and 4 of this act must allow the generation of credits based on capacity for zero emission vehicle refueling infrastructure, including DC fast charging infrastructure and hydrogen refueling infrastructure.

(b) The rules adopted under sections 3 and 4 of this act may allow the generation of credits from the provision of low carbon fuel infrastructure not specified in (a) of this subsection.

(3) The rules adopted under sections 3 and 4 of this act must allow the generation of credits from state transportation investments funded in an omnibus transportation appropriations act for activities and projects that reduce greenhouse gas emissions and decarbonize the transportation sector. These include, but are not limited to: (a) Electrical grid and hydrogen fueling infrastructure investments; (b) ferry operating and capital investments; (c) electrification of the state ferry fleet; (d) alternative fuel vehicle rebate programs; (e) transit grants; (f) infrastructure and other costs associated with the adoption of alternative fuel use by transit agencies; (g) bike and pedestrian grant programs and other activities; (h) complete streets and safe walking grants and allocations; (i) rail funding; and (j) multimodal investments.

(4) The rules adopted by the department may establish limits for the number of credits that may be earned each year by persons participating in the program for some or all of the activities specified in subsections (1) and (2) of this section. The department must limit the number of credits that may be earned each year under subsection (3) of this section to 10 percent of the total program credits. Any limits established under this subsection must take into consideration the return on investment required in order for an activity specified in subsection (2) of this section to be financially viable.

NEW SECTION. Sec. 7. (1) Except where otherwise provided in this chapter, the department shall seek to adopt rules that are harmonized with the regulatory standards, exemptions, reporting obligations, and other clean fuels program compliance requirements and methods for credit generation of other states that:

(a) Have adopted low carbon fuel standards or similar greenhouse gas emissions requirements applicable specifically to transportation fuels; and

(b)(i) Supply, or have the potential to supply, significant quantities of transportation fuel to Washington markets; or

(ii) To which Washington supplies, or has the potential to supply, significant quantities of transportation fuel.

(2) The department must establish and periodically consult a stakeholder advisory panel, including representatives of forestland and agricultural landowners, for purposes of soliciting input on how to best incentivize and allot credits for the sequestration of greenhouse gases through activities on agricultural and forestlands in a manner that is consistent with the goals and requirements of this chapter.

(3) The department must conduct a biennial review of innovative technologies and pathways that reduce carbon and increase credit generation opportunities and must modify rules or guidance as needed to maintain stable credit markets.

(4) In any reports to the legislature under section 10 of this act, on the department's website, or in other public documents or communications that refer to assumed public health benefits associated with the program created in this chapter, the department must distinguish between public health benefits from

ONE HUNDRED FIFTH DAY, APRIL 25, 2021

2021 REGULAR SESSION

small particulate matter and other conventional pollutant reductions achieved primarily as a result of vehicle emission standards established under chapter 70A.30 RCW, and the incremental benefits to air pollution attributable to the program created under this chapter.

NEW SECTION. Sec. 8. (1)(a) Each producer or importer of any amount of a transportation fuel that is ineligible to generate credits consistent with the requirements of section 4(3) of this act must register with the department.

(b) Electric vehicle manufacturers and producers, importers, distributors, users, and retailers of transportation fuels that are eligible to generate credits consistent with section 4(3) of this act must register with the department if they elect to participate in the clean fuels program.

(c) Other persons must register with the department to generate credits from other activities that support the reduction of greenhouse gas emissions associated with transportation in Washington.

(2) Each transaction transferring ownership of transportation fuels for which clean fuels program participation is mandated must be accompanied by documentation, in a format approved by the department, that assigns the clean fuels program compliance responsibility associated with the fuels, including the assignment of associated credits. The department may also require documentation assigning clean fuels program compliance responsibility associated with fuels for which program participation has been elected.

(3) The department may adopt rules requiring the periodic reporting of information to the department by persons associated with the supply chains of transportation fuels participating in the clean fuels program. To the extent practicable, the rules must establish reporting procedures and timelines that are consistent with similar programs in other states that reduce the greenhouse gas emission intensity of transportation fuel and with procedures and timelines of state programs requiring similar information to be reported by regulated parties, including electric utilities.

(4) RCW 70A.15.2510 applies to records or information submitted to the department under this chapter.

NEW SECTION. Sec. 9. (1)(a) Fifty percent of the revenues generated by an electric utility from credits earned from the electricity supplied to retail customers by an electric utility under the clean fuels program must be expended by the electric utility on transportation electrification projects, which may include projects to support the production and provision of hydrogen and other gaseous fuels produced from nonfossil feedstocks, and derivatives thereof as a transportation fuel.

(b) Sixty percent of the revenues described in (a) of this subsection, or 30 percent of the revenues generated by an electric utility from credits earned from the electricity supplied to retail customers by an electric utility under the clean fuels program, must be expended by the electric utility on transportation electrification projects, which may include projects to support the production and provision of hydrogen and other gaseous fuels produced from nonfossil feedstocks, and derivatives thereof as a transportation fuel, located within or directly benefiting a federally designated nonattainment or maintenance area, a federally designated nonattainment or maintenance area that existed as of January 1, 2021, a disproportionately impacted community identified by the department of health, or an area designated by the department as being at risk of nonattainment, if such a nonattainment or maintenance area or disproportionately impacted community is within the service area of the utility.

(2)(a) Each electric utility must spend 50 percent of revenues not subject to the requirements of subsection (1) of this section on one or more transportation electrification programs or projects it

selects from a list of types of programs and projects jointly developed by the department and the Washington state department of transportation. The department and the Washington state department of transportation must develop the list based on those with the highest impact on reducing greenhouse gas emissions and decarbonizing the transportation sector. The types of transportation electrification projects or programs placed on the list must include, but are not limited to:

(i) Provision of new or used zero emissions vehicles at no cost or at a discount to nonprofit service providers, transit agencies, or public fleets for the purpose of providing transportation services for low-income or vulnerable populations or to reduce transportation costs for the nonprofits, transit agencies, or public fleets serving low-income or vulnerable populations;

(ii) Construction, operation, or maintenance of, or funding for charging infrastructure, including smart charging infrastructure, or hydrogen fueling infrastructure;

(iii) Expanding grid capacity to enable transportation electrification investments directly associated with expenditures permitted by this chapter; and

(iv) Partnership programs with public and private vehicle fleet owners to enable increased electrification of transportation.

(b) Under (a) of this subsection, electric utilities should consider programs or projects that expand low and moderate-income customer access to zero emissions transportation, when prioritizing program expenditures.

(3) Electric utilities that participate in the clean fuels program must annually provide information to the department accounting for and briefly describing all expenditures of revenues generated from credits earned under the clean fuels program.

NEW SECTION. Sec. 10. (1) Beginning May 1, 2025, and each May 1st thereafter, the department must post a report on the department's website that includes the following information regarding the previous calendar year of clean fuels program activities:

(a) The program-wide number of credits and deficits generated by entities participating in the clean fuels program;

(b) The volumes of each transportation fuel and average price per credit used to comply with the requirements of the clean fuels program;

(c) The best estimate or range in probable costs or cost savings attributable to the clean fuels program per gallon of gasoline and per gallon of diesel, as determined by an independent consultant whose services the department has contracted. The estimate or range in probable costs or cost savings from the independent consultant must be announced in a press release to the news media at the time that the report under this subsection (1) is posted to the department's website, and must be simultaneously reported to the transportation committees of the house of representatives and the senate;

(d) The total greenhouse gas emissions reductions attributable to the clean fuels program isolated from the greenhouse gas emissions reductions attributable to other state and national programs on the same fuels; and

(e) The range in the probable cost per ton of greenhouse gas emissions reductions attributable to fuels supported by the clean fuels program, taking into account the information in (c) and (d) of this subsection.

(2) Nothing in this section prohibits the department from posting information described in subsection (1) of this section on a more frequent basis than once per year.

(3) By May 1, 2025, and each May 1st thereafter, the department must submit the report required under subsection (1) of this section to the appropriate committees of the house of representatives and senate.

(4) The department must contract for a one-time ex ante independent analysis of the information specified in subsection (1)(c) of this section covering each year of the program through 2038. The analysis must be informed by input from stakeholders, including regulated industries, and informed by experience from other jurisdictions. The analysis must impute price impacts using multiple analytical methodologies and must make clear how the assumptions or factors considered differed in each methodology used and price impact imputed. The analysis required in this subsection must be completed and submitted to the appropriate committees of the legislature by July 1, 2022.

NEW SECTION. Sec. 11. (1) In consultation with the department, the utilities and transportation commission, and the department of agriculture, the department of commerce must develop a periodic fuel supply forecast to project the availability of fuels to Washington necessary for compliance with clean fuels program requirements.

(2) Based upon the estimates in subsection (3) of this section, the fuel supply forecast must include a prediction by the department of commerce regarding whether sufficient credits will be available to comply with clean fuels program requirements.

(3) The fuel supply forecast for each upcoming compliance period must include, but is not limited to, the following:

(a) An estimate of the potential volumes of gasoline, gasoline substitutes, and gasoline alternatives, and diesel, diesel substitutes, and diesel alternatives available to Washington. In developing this estimate, the department of commerce must consider, but is not limited to considering:

(i) The existing and future vehicle fleet in Washington; and
(ii) Any constraints that might be preventing access to available and cost-effective low carbon fuels by Washington, such as geographic and logistical factors, and alleviating factors to the constraints;

(b) An estimate of the total banked credits and carried over deficits held by regulated parties, credit generators, and credit aggregators at the beginning of the compliance period, and an estimate of the total credits attributable to fuels described in (a) of this subsection;

(c) An estimate of the number of credits needed to meet the applicable clean fuels program requirements during the forecasted compliance period; and

(d) A comparison in the estimates of (a) and (b) of this subsection with the estimate in (c) of this subsection, for the purpose of indicating the availability of fuels and banked credits needed for compliance with the requirements of this chapter.

(4) The department of commerce, in coordination with the department, may appoint a forecast review team of relevant experts to participate in the fuel supply forecast or examination of data required by this section. The department of commerce must finalize a fuel supply forecast for an upcoming compliance period by no later than 90 days prior to the start of the compliance period.

NEW SECTION. Sec. 12. (1) No later than 30 calendar days before the commencement of a compliance period, the department shall issue an order declaring a forecast deferral if the fuel supply forecast under section 11 of this act projects that the amount of credits that will be available during the forecast compliance period will be less than 100 percent of the credits projected to be necessary for regulated parties to comply with the scheduled applicable clean fuels program standard adopted by the department for the forecast compliance period.

(2) An order declaring a forecast deferral under this section must set forth:

(a) The duration of the forecast deferral;
(b) The types of fuel to which the forecast deferral applies; and

(c) Which of the following methods the department has selected for deferring compliance with the scheduled applicable clean fuels program standard during the forecast deferral:

(i) Temporarily adjusting the scheduled applicable clean fuels program standard to a standard identified in the order that better reflects the forecast availability of credits during the forecast compliance period and requiring regulated parties to comply with the temporary standard;

(ii) Requiring regulated parties to comply only with the clean fuels program standard applicable during the compliance period prior to the forecast compliance period; or

(iii) Suspending deficit accrual for part or all of the forecast deferral period.

(3)(a) In implementing a forecast deferral, the department may take an action for deferring compliance with the clean fuels program standard other than, or in addition to, selecting a method under subsection (2)(c) of this section only if the department determines that none of the methods under subsection (2)(c) of this section will provide a sufficient mechanism for containing the costs of compliance with the clean fuels program standards during the forecast deferral.

(b) If the department makes the determination specified in (a) of this subsection, the department shall:

(i) Include in the order declaring a forecast deferral the determination and the action to be taken; and

(ii) Provide written notification and justification of the determination and the action to:

(A) The governor;
(B) The president of the senate;
(C) The speaker of the house of representatives;
(D) The majority and minority leaders of the senate; and
(E) The majority and minority leaders of the house of representatives.

(4) The duration of a forecast deferral may not be less than one calendar quarter or longer than one compliance period. Only the department may terminate, by order, a forecast deferral before the expiration date of the forecast deferral. Termination of a forecast deferral is effective on the first day of the next calendar quarter after the date that the order declaring the termination is adopted.

NEW SECTION. Sec. 13. (1) The director of the department may issue an order declaring an emergency deferral of compliance with the carbon intensity standard established under section 3 of this act no later than 15 calendar days after the date the department determines, in consultation with the governor's office and the department of commerce, that:

(a) Extreme and unusual circumstances exist that prevent the distribution of an adequate supply of renewable fuels needed for regulated parties to comply with the clean fuels program taking into consideration all available methods of obtaining sufficient credits to comply with the standard;

(b) The extreme and unusual circumstances are the result of a natural disaster, an act of God, a significant supply chain disruption or production facility equipment failure, or another event that could not reasonably have been foreseen or prevented and not the lack of prudent planning on the part of the suppliers of the fuels to the state; and

(c) It is in the public interest to grant the deferral such as when a deferral is necessary to meet projected temporary shortfalls in the supply of the renewable fuel in the state and that other methods of obtaining compliance credits are unavailable to compensate for the shortage of renewable fuel supply.

(2) If the director of the department makes the determination required under subsection (1) of this section, such a temporary extreme and unusual deferral is permitted only if:

(a) The deferral applies only for the shortest time necessary to address the extreme and unusual circumstances;

ONE HUNDRED FIFTH DAY, APRIL 25, 2021

2021 REGULAR SESSION

(b) The deferral is effective for the shortest practicable time period the director of the department determines necessary to permit the correction of the extreme and unusual circumstances; and

(c) The director has given public notice of a proposed deferral.

(3) An order declaring an emergency deferral under this section must set forth:

(a) The duration of the emergency deferral;

(b) The types of fuel to which the emergency deferral applies;

(c) Which of the following methods the department has selected for deferring compliance with the clean fuels program during the emergency deferral:

(i) Temporarily adjusting the scheduled applicable carbon intensity standard to a standard identified in the order that better reflects the availability of credits during the emergency deferral and requiring regulated parties to comply with the temporary standard;

(ii) Allowing for the carryover of deficits accrued during the emergency deferral into the next compliance period without penalty; or

(iii) Suspending deficit accrual during the emergency deferral period.

(4) An emergency deferral may be terminated prior to the expiration date of the emergency deferral if new information becomes available indicating that the shortage that provided the basis for the emergency deferral has ended. The director of the department shall consult with the department of commerce and the governor's office in making an early termination decision. Termination of an emergency deferral is effective 15 calendar days after the date that the order declaring the termination is adopted.

(5)(a) In addition to the emergency deferral specified in subsection (1) of this section, the department may issue a full or partial deferral for one calendar quarter of a person's obligation to furnish credits for compliance under section 4 of this act if it finds that the person is unable to comply with the requirements of this chapter due to reasons beyond the person's reasonable control. The department may initiate a deferral under this subsection at its own discretion or at the request of a person regulated under this chapter. The department may renew issued deferrals. In evaluating whether to issue a deferral under this subsection, the department may consider the results of the fuel supply forecast in section 11 of this act, but is not bound in its decision-making discretion by the results of the forecast.

(b) If the department issues a deferral pursuant to this subsection, the department may:

(i) Direct the person subject to the deferral to file a progress report on achieving full compliance with the requirements of this chapter within an amount of time determined to be reasonable by the department; and

(ii) Direct the person to take specific actions to achieve full compliance with the requirements of this chapter.

(c) The issuance of a deferral under this subsection does not permanently relieve the deferral recipient of the obligation to comply with the requirements of this chapter.

NEW SECTION. Sec. 14. (1) The department may require that persons that are required or elect to register or report under this chapter pay a fee. If the department elects to require program participants to pay a fee, the department must, after an opportunity for public review and comment, adopt rules to establish a process to determine the payment schedule and the amount of the fee charged. The amount of the fee must be set so as to equal but not exceed the projected direct and indirect costs to the department for developing and implementing the program and the projected direct and indirect costs to the department of

commerce to carry out its responsibilities under section 11 of this act. The department and the department of commerce must prepare a biennial workload analysis and provide an opportunity for public review of and comment on the workload analysis. The department shall enter into an interagency agreement with the department of commerce to implement this section.

(2) The clean fuels program account is created in the state treasury. All receipts from fees and penalties received under the program created in this chapter must be deposited into the account. Moneys in the account may be spent only after appropriation. The department may only use expenditures from the account for carrying out the program created in this chapter.

(3) All rule making authorized under this act must be conducted according to the standards for significant legislative rules provided in RCW 34.05.328.

NEW SECTION. Sec. 15. (1) By December 1, 2030, the joint legislative audit and review committee must analyze the impacts of the initial five years of clean fuels program implementation and must submit a report summarizing the analysis to the legislature. The analysis must include, at minimum, the following components:

(a) Costs and benefits, including environmental and public health costs and benefits, associated with this chapter for categories of persons participating in the clean fuels program or that are most impacted by air pollution, as defined in consultation with the departments of ecology and health and as measured on a census tract scale. This component of the analysis must, at minimum, assess the costs and benefits of changes in the following metrics since the start of the program:

(i) Levels of greenhouse gas emissions and criteria air pollutants for which the United States environmental protection agency has established national ambient air quality standards;

(ii) Fuel prices; and

(iii) Total employment in categories of industries generating credits or deficits. The categories of industries assessed must include but are not limited to electric utilities, oil refineries, and other industries involved in the production of high carbon fuels, industries involved in the delivery and sale of high carbon fuels, biofuel refineries, and industries involved in the delivery and sale of low carbon fuels;

(b) An evaluation of the information calculated and provided by the department under section 10(1) of this act;

(c) A summary of the estimated total statewide costs and benefits attributable to the clean fuels program, including state agency administrative costs and regulated entity compliance costs. For purposes of calculating the benefits of the program, the summary may rely, in part, on a constant value of the social costs attributable to greenhouse gas emissions, as identified in contemporary internationally accepted estimates of such global social cost. This summary must include an estimate of the total statewide costs of the program per ton of greenhouse gas emissions reductions achieved by the clean fuels program;

(d) An evaluation of the impacts of the program on low-income households; and

(e) The outcomes of proposals to site biofuel facilities through the energy facility site evaluation council review process that is allowed by RCW 80.50.060(2).

(2) This section expires June 30, 2030.

The examinations must be prescribed and conducted by the department.

(b) In addition to the fee charged for issuance or renewal of any license, the applicant shall pay a fee of no more than ten dollars until June 30, 2016, and thirty-five dollars beginning July 1, 2016, for the classified knowledge examination, classified endorsement knowledge examination, or any combination of classified license and endorsement knowledge examinations. The department shall notify the transportation committees of the legislature if the federal government takes action affecting the exemption provided in this subsection (2)(b).

(3) A commercial driver's license or commercial learner's permit may not be issued to a person while the person is subject to a disqualification from driving a commercial motor vehicle, or while the person's driver's license is suspended, revoked, or canceled in any state, nor may a commercial driver's license be issued to a person who has a commercial driver's license issued by any other state unless the person first surrenders all such licenses, which must be returned to the issuing state for cancellation.

(4) The fees under this section must be deposited into the highway safety fund unless prior to July 1, 2023, the actions described in (a) or (b) of this subsection occur, in which case the portion of the revenue that is the result of the fee increased in section 207, chapter 44, Laws of 2015 3rd sp. sess. must be distributed to the connecting Washington account created under RCW 46.68.395.

(a) Any state agency files a notice of rule making under chapter 34.05 RCW, absent explicit legislative authorization enacted subsequent to July 1, 2015, for a rule regarding a fuel standard based upon or defined by the carbon intensity of fuel, including a low carbon fuel standard or clean fuel standard.

ONE HUNDRED FIFTH DAY, APRIL 25, 2021

2021 REGULAR SESSION

(3) Any person who knowingly releases into the ambient air any substance listed by the department of ecology as a hazardous air pollutant, other than in compliance with the terms of an applicable permit or emission limit, and who knows at the time that he or she thereby places another person in imminent danger of death or substantial bodily harm, is guilty of a class C felony and shall, upon conviction, be punished by a fine of not less than fifty thousand dollars, or by imprisonment for not more than five years, or both.

(4) Any person who knowingly fails to disclose a potential conflict of interest under RCW 70A.15.2000 is guilty of a gross misdemeanor, and upon conviction thereof shall be punished by a fine of not more than five thousand dollars.

(1)(a) Except as provided in RCW 43.05.060 through 43.05.080 and 43.05.150, and in addition to or as an alternate to any other penalty provided by law, any person who violates any of the provisions of this chapter, chapter 70A.25 (~~(e)~~), 70A.45₂, or 70A.--- (the new chapter created in section 29 of this act) RCW, RCW 70A.45.080, or any of the rules in force under such chapters or section may incur a civil penalty in an amount not to exceed ten thousand dollars per day for each violation. (b) The maximum penalty amounts established in this section may be increased annually to account for inflation as determined by the state office of the economic and revenue forecast council.

(3) Each act of commission or omission which procures, aids or abets in the violation shall be considered a violation under the provisions of this section and subject to the same penalty. The penalties provided in this section shall be imposed pursuant to RCW 43.21B.300.

If a prior penalty for the same violation has been paid to a local authority, the penalty imposed by the department under subsection (1) of this section shall be reduced by the amount of the payment.

(5) To secure the penalty incurred under this section, the state or the authority shall have a lien on any vessel used or operated in violation of this chapter which shall be enforced as provided in RCW 60.36.050.

(8) The department shall develop rules for excusing excess emissions from enforcement action if such excess emissions are unavoidable. The rules shall specify the criteria and procedures for the department and local air authorities to determine whether a period of excess emissions is excusable in accordance with the state implementation plan.

Sec. 26. RCW 19.112.110 and 2013 c 225 s 601 are each amended to read as follows:

(1) Special fuel licensees under chapter 82.38 RCW, as determined by the department of licensing, must provide evidence to the department of licensing that at least two percent of the total annual diesel fuel sold in Washington is biodiesel or renewable diesel fuel, following the earlier of: (a) November 30, 2008; or (b) when a determination is made by the director, published in the Washington State Register, that feedstock grown in Washington state can satisfy a two-percent requirement.

(2) Special fuel licensees under chapter 82.38 RCW, as determined by the department of licensing, must provide evidence to the department of licensing that at least five percent of total annual diesel fuel sold in Washington is biodiesel or renewable diesel fuel, when the director determines, and publishes this determination in the Washington State Register, that both in-state oil seed crushing capacity and feedstock grown in Washington state can satisfy a three-percent requirement.

(3) The requirements of subsections (1) and (2) of this section may take effect no sooner than one hundred eighty days after the determination has been published in the Washington State Register.

(4) The director and the director of licensing must each adopt rules, in coordination with each other, for enforcing and carrying out the purposes of this section.

(2) If the director of ecology determines that ethanol content greater than two percent of the total gasoline sold in Washington will not jeopardize continued attainment of the federal clean air act's national ambient air quality standard for ozone pollution in Washington and the director of agriculture determines and publishes this determination in the Washington State Register that sufficient raw materials are available within Washington to support economical production of ethanol at higher levels, the director of agriculture may require by rule that licensees provide evidence to the department of licensing that denatured ethanol comprises between two percent and at least ten percent of total gasoline sold in Washington, measured on a quarterly basis.

(3) The requirements of subsections (1) and (2) of this section may take effect no sooner than one hundred eighty days after the determination has been published in the Washington State Register.

(6) To the extent that the requirements of this section conflict with the requirements of chapter 70A.--- (the new chapter created in section 29 of this act) RCW, the requirements of chapter 70A.-- (the new chapter created in section 29 of this act) RCW prevail.

NEW SECTION. Sec. 28. A new section is added to chapter 43.21A RCW to read as follows:

(1) The department, in coordination with the department of commerce and other agencies as appropriate, must develop recommendations for potential improvements to the permitting processes for industrial projects and facilities in Washington that would contribute to achieving greenhouse gas emissions limits established under RCW 70A.45.020 while maintaining standards for the protection of the environment and the preservation of tribal consultation and treaty rights. The department must provide increased clarity on areas in the state that may be suitable for siting projects that have a lower potential for negative environmental impacts, especially to highly impacted communities as defined in RCW 19.405.020 and identify strategies for minimizing and mitigating negative environmental impacts where possible. The department must provide clear guidance and direction intended to improve project proposals, recommend policy and administrative improvements necessary to improve the permitting process, and recommend any additional studies needed. The department shall convene businesses, local governments, community organizations, and environmental and labor stakeholders, and consult with tribes.

(2) The department and the department of commerce shall produce and submit to the governor and the legislature an interim progress report with initial policy proposal recommendations for the 2022 legislative session by December 1, 2021, and a final report including findings, recommendations, and further policy proposals by December 1, 2022.

(3) This section expires June 30, 2023.

NEW SECTION. Sec. 29. Sections 1 through 15 of this act constitute a new chapter in Title 70A RCW.

NEW SECTION. Sec. 30. If specific funding for the purposes of this act, referencing this act by bill or chapter number, is not provided by June 30, 2021, in the omnibus appropriations act, this act is null and void.

solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3) The legislature finds that medicaid payment rates, as calculated by the department pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(4) The department shall to the maximum extent practicable use the same system for delivery of spoken-language interpreter services for social services appointments as the one established for medical appointments in the health care authority. When contracting directly with an individual to deliver spoken language interpreter services, the department shall only contract with language access providers who are working at a location in the state and who are state-certified or state-authorized, except that when such a provider is not available, the department may use a language access provider who meets other certifications or standards deemed to meet state standards, including interpreters in other states.

(5) Information technology projects or investments and proposed projects or investments impacting time capture, payroll and payment processes and systems, eligibility, case management, and authorization systems within the department of social and health services are subject to technical oversight by the office of the chief information officer.

(6)(a) The department shall facilitate enrollment under the medicaid expansion for clients applying for or receiving state funded services from the department and its contractors. Prior to open enrollment, the department shall coordinate with the health care authority to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(b) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The department shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for public assistance benefits.

(7) The health care authority, the health benefit exchange, the department of social and health services, the department of health, and the department of children, youth, and families shall work

together within existing resources to establish the health and human services enterprise coalition (the coalition). The coalition, led by the health care authority, must be a multi-organization collaborative that provides strategic direction and federal funding guidance for projects that have cross-organizational or enterprise impact, including information technology projects that affect organizations within the coalition. The office of the chief information officer shall maintain a statewide perspective when collaborating with the coalition to ensure that projects are planned for in a manner that ensures the efficient use of state resources and maximizes federal financial participation. The work of the coalition is subject to the conditions, limitations, and review provided in section 701 of this act.

It is the expectation that, in most cases, staffing ratios in all community alternative placement options described in (h)(i) of this subsection will need to increase to meet the needs of clients leaving the state psychiatric hospitals. If specialized training is necessary to meet the needs of a client before he or she enters a community placement, then the person centered service plan must also identify and authorize this training.

(iii) When reviewing placement options, the department must consider the safety of other residents, as well as the safety of staff, in a facility. If feasible, these recommendations should detail how to enable facility-based professionals to deliver services at mobile or brick-and-mortar clinical settings in the community. The department must submit its recommendations to the appropriate legislative committees no later than December 1, 2021.

(l) The department of social and health services must claim the enhanced federal medical assistance participation rate for home and community-based services offered under section 9817 of the American rescue plan act of 2021 (ARPA). In order to effectuate these goals, the authority shall: (a) Require the Dr. Robert Bree collaborative and the health technology assessment program to reduce the administrative burden upon providers by only requiring performance measures that are nonduplicative of other nationally established measures. Under federal regulations, the medicaid quality improvement program is authorized and allows states to design quality improvement programs for the medicaid population in ways that support the state's quality goals. Medicaid quality improvement program payments will not count against the medicaid transformation demonstration waiver spending limits and are excluded from the waiver's budget neutrality calculation. Apple health managed care organizations and their partnering providers will receive medicaid quality improvement program payments as they meet designated milestones. Partnering providers and apple health managed care organizations will work together to achieve medicaid quality improvement program goals according to the performance period timelines and reporting deadlines as set forth by the authority. (7) Sufficient amounts are appropriated in this subsection to implement the medicaid expansion as defined in the social security act, section 1902(a)(10)(A)(i)(VIII).

(8) The legislature finds that medicaid payment rates, as calculated by the health care authority pursuant to the appropriations in this act, bear a reasonable relationship to the costs incurred by efficiently and economically operated facilities for providing quality services and will be sufficient to enlist enough providers so that care and services are available to the extent that such care and services are available to the general population in the geographic area. The legislature finds that the cost reports, payment data from the federal government, historical utilization, economic data, and clinical input constitute reliable data upon which to determine the payment rates.

(9) Based on quarterly expenditure reports and caseload forecasts, if the health care authority estimates that expenditures for the medical assistance program will exceed the appropriations, the health care authority shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(10) In determining financial eligibility for medicaid-funded services, the health care authority is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(11) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the health care authority shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

payments to hospitals that provide services to children in the children's health program who are not eligible for services under Title XIX or XXI of the federal social security act due to their citizenship status.

(14) \$7,000,000 of the general fund—federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. The supplemental payments are subject to retrospective interim and final cost settlements based on the nursing homes' as-filed and final medicare cost reports. The timing of the interim and final cost settlements shall be at the health care authority's discretion. During either the interim cost settlement or the final cost settlement, the health care authority shall recoup from the public hospital districts the supplemental payments that exceed the medicaid cost limit and/or the medicare upper payment limit. The health care authority shall apply federal rules for identifying the eligible incurred medicaid costs and the medicare upper payment limit.

If the certified public expenditures (CPE) program in its current form is no longer cost-effective to maintain, the health care authority shall submit a report to the governor and legislature detailing cost-effective alternative uses of local, state, and federal resources as a replacement for this program. During fiscal year 2022 and fiscal year 2023, hospitals in the program shall be paid and shall retain one hundred percent of the federal portion of the allowable hospital cost for each medicaid inpatient fee-for-service claim payable by medical assistance and one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Inpatient medicaid payments shall be established using an allowable methodology that approximates the cost of claims submitted by the hospitals. Payments made to each hospital in the program in each fiscal year of the biennium shall be compared to a baseline amount. The baseline amount will be determined by the total of (a) the inpatient claim payment amounts that would have been paid during the fiscal year had the hospital not been in the CPE program based on the reimbursement rates developed, implemented, and consistent with policies approved in the 2021-2023 biennial operating appropriations act and in effect on July 1, 2015, (b) one-half of the indigent assistance disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005, and (c) all of the other disproportionate share hospital payment amounts paid to and retained by each hospital during fiscal year 2005 to the extent the same disproportionate share hospital programs exist in the 2019-2021 fiscal biennium. If payments during the fiscal year exceed the hospital's baseline amount, no additional

payments will be made to the hospital except the federal portion of allowable disproportionate share hospital payments for which the hospital can certify allowable match. If payments during the fiscal year are less than the baseline amount, the hospital will be paid a state grant equal to the difference between payments during the fiscal year and the applicable baseline amount. Payment of the state grant shall be made in the applicable fiscal year and distributed in monthly payments. The grants will be recalculated and redistributed as the baseline is updated during the fiscal year. The grant payments are subject to an interim settlement within eleven months after the end of the fiscal year. A final settlement shall be performed. To the extent that either settlement determines that a hospital has received funds in excess of what it would have received as described in this subsection, the hospital must repay the excess amounts to the state when requested. \$702,000 of the general fund—state appropriation for fiscal year 2022 and \$649,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for state grants for the participating hospitals.

(16) The health care authority shall seek public-private partnerships and federal funds that are or may become available to provide on-going support for outreach and education efforts under the federal children's health insurance program reauthorization act of 2009.

(17) The health care authority shall target funding for maternity support services towards pregnant women with factors that lead to higher rates of poor birth outcomes, including hypertension, a preterm or low birth weight birth in the most recent previous birth, a cognitive deficit or developmental disability, substance abuse, severe mental illness, unhealthy weight or failure to gain weight, tobacco use, or African American or Native American race. The health care authority shall prioritize evidence-based practices for delivery of maternity support services. To the extent practicable, the health care authority shall develop a mechanism to increase federal funding for maternity support services by leveraging local public funding for those services.

(18) The authority shall submit reports to the governor and the legislature by September 15, 2021, and no later than September 15, 2022, that delineate the number of individuals in medicaid managed care, by carrier, age, gender, and eligibility category, receiving preventative services and vaccinations. The reports should include baseline and benchmark information from the previous two fiscal years and should be inclusive of, but not limited to, services recommended under the United States preventative services task force, advisory committee on immunization practices, early and periodic screening, diagnostic, and treatment (EPSDT) guidelines, and other relevant preventative and vaccination medicaid guidelines and requirements.

(19) Managed care contracts must incorporate accountability measures that monitor patient health and improved health outcomes, and shall include an expectation that each patient receive a wellness examination that documents the baseline health status and allows for monitoring of health improvements and outcome measures.

(20) Sufficient amounts are appropriated in this section for the authority to provide an adult dental benefit.

(21) The health care authority shall coordinate with the department of social and health services to provide referrals to the Washington health benefit exchange for clients that will be ineligible for medicaid.

(22) To facilitate a single point of entry across public and medical assistance programs, and to maximize the use of federal funding, the health care authority, the department of social and health services, and the health benefit exchange will coordinate

efforts to expand HealthPlanfinder access to public assistance and medical eligibility staff. The health care authority shall complete medicaid applications in the HealthPlanfinder for households receiving or applying for medical assistance benefits.

(23) \$90,000 of the general fund—state appropriation for fiscal year 2022, \$90,000 of the general fund—state appropriation for fiscal year 2023, and \$180,000 of the general fund—federal appropriation are provided solely to continue operation by a nonprofit organization of a toll-free hotline that assists families to learn about and enroll in the apple health for kids program. By November 15, 2022, the authority shall submit a report to the appropriate committees to the legislature that provides, at a minimum, information about the number of calls received by the nonprofit organization in the previous year, the amount of time spent on each call, comparisons to previous years, where available, and information about what data is collected related to this service.

(24) Within the amounts appropriated in this section, the authority shall reimburse for primary care services provided by naturopathic physicians.

(25) Within the amounts appropriated in this section, the authority shall continue to provide coverage for pregnant teens that qualify under existing pregnancy medical programs, but whose eligibility for pregnancy related services would otherwise end due to the application of the new modified adjusted gross income eligibility standard.

(26) Sufficient amounts are appropriated in this section to remove the mental health visit limit and to provide the shingles vaccine and screening, brief intervention, and referral to treatment benefits that are available in the medicaid alternative benefit plan in the classic medicaid benefit plan.

(27) The authority shall use revenue appropriated from the dedicated marijuana fund for contracts with community health centers under RCW 69.50.540 in lieu of general fund—state payments to community health centers for services provided to medical assistance clients, and it is the intent of the legislature that this policy will be continued in subsequent fiscal biennia.

(28) Beginning no later than January 1, 2018, for any service eligible under the medicaid state plan for encounter payments, managed care organizations at the request of a rural health clinic shall pay the full published encounter rate directly to the clinic. At no time will a managed care organization be at risk for or have any right to the supplemental portion of the claim. Payments will be reconciled on at least an annual basis between the managed care organization and the authority, with final review and approval by the authority.

(29) Sufficient amounts are appropriated in this section for the authority to provide a medicaid equivalent adult dental benefit to clients enrolled in the medical care service program.

(30) During the 2021-2023 fiscal biennium, sufficient amounts are provided in this section for the authority to provide services identical to those services covered by the Washington state family planning waiver program as of August 2018 to individuals who:

- (a) Are over nineteen years of age;
- (b) Are at or below two hundred and sixty percent of the federal poverty level as established in WAC 182-505-0100;
- (c) Are not covered by other public or private insurance; and
- (d) Need family planning services and are not currently covered by or eligible for another medical assistance program for family planning.

(31) Sufficient amounts are appropriated within this section for the authority to incorporate the expected outcomes and criteria to measure the performance of service coordination organizations as provided in chapter 70.320 RCW into contracts with managed care organizations that provide services to clients. The authority is directed to:

(a) Contract with an external quality improvement organization to annually analyze the performance of managed care organizations providing services to clients under this chapter based on seven performance measures. The analysis required under this subsection must:

(i) Measure managed care performance in four common measures across each managed care organization, including:

(A) At least one common measure must be weighted towards having the potential to impact managed care costs; and

(B) At least one common measure must be weighted towards population health management, as defined by the measure; and

(ii) Measure managed care performance in an additional three quality focus performance measures specific to a managed care organization. Quality focus performance measures chosen by the authority must:

(A) Be chosen from the statewide common measure set;

(B) Reflect specific measures where a managed care organization has poor performance; and

(C) Be substantive and clinically meaningful in promoting health status.

(b) The authority shall set the four common measures to be analyzed across all managed care organizations.

(c) The authority shall set three quality focus performance measures specific to each managed care organization. The authority must determine performance measures for each managed care organization based on the criteria established in (a)(ii) of this subsection.

(d) By September 15, 2021, and annually thereafter, the authority shall notify each managed care organization of the performance measures for the organization for the subsequent plan year.

(e) Two percent of the total plan year funding appropriated to each managed care organization that provides services to clients under chapter 70.320 RCW shall be withheld. At least seventy-five percent of the withhold shall be held contingent on each managed care organization's performance on the seven performance measures identified in this section. Each managed care organization may earn back the annual withhold if the external quality improvement organization finds that the managed care organization:

(i) Made statistically significant improvement in the seven performance measures as compared to the preceding plan year; or

(ii) Scored in the top national medicaid quartile of the performance measures.

(f) The amount of withhold annually paid to each managed care organization shall be proportional to findings of statistically significant improvement or top national medicaid quartile scoring by a managed care organization.

(g) For no more than two of the four quality focus performance measures, the authority may use an alternate methodology to approximate top national medicaid quartile performance where top quartile performance data is unavailable.

(h) For the purposes of this subsection, "external quality improvement organization" means an organization that meets the competence and independence requirements under 42 C.F.R. Sec. 438.354, as it existed on the effective date of this section.

(32)(a) The authority shall ensure that appropriate resources are dedicated to implementing the recommendations of the centers for medicare and medicaid services center for program integrity as provided to the authority in the January 2019 Washington focused program integrity review final report. (A) Work with its contracted actuary and the medicaid forecast work group to develop methods and metrics related to managed care program integrity activity that shall be incorporated into annual rate setting; and

The appropriations in this section are subject to the following conditions and limitations:

(1) For the purposes of this section, "behavioral health entities" means managed care organizations and behavioral health administrative services organizations.

The authority may

allow behavioral health entities which have nonmedicaid reimbursable costs that are higher than the nonmedicaid allocation they receive under this section to supplement these funds with local dollars or funds received under subsection (6) of this section. The authority and behavioral health entities shall maintain consistency with all essential elements of the PACT evidence-based practice model in programs funded under this section.

(5) \$3,520,000 of the general fund—federal appropriation is provided solely for the authority to maintain a pilot project to incorporate peer bridging staff into behavioral health regional teams that provide transitional services to individuals returning to their communities.

Within the amounts provided in this subsection:

(i) Medicaid managed care organizations must provide a two percent rate increase to providers receiving state funding for nonmedicaid services under this section effective July 1, 2021.

(ii) The authority shall assure that managed care organizations reimburse the department of social and health services aging and long term support administration for the general fund—state cost of exceptional behavioral health personal care services for medicaid enrolled individuals who require these because of a psychiatric disability. Funding for the federal share of these services is separately appropriated to the department of social and health services.

(c) The authority shall coordinate with the department of social and health services to develop and submit to the centers for medicare and medicaid services an application to provide a 1915(i) state plan home and community-based services benefit. The application shall be developed to allow for the delivery of wraparound supportive behavioral health services for individuals with mental illnesses who also have a personal care need. (iii) A comparison estimate of the number of individuals to receive behavioral health personal care services annually under the current benefit structure and the estimated state and federal fiscal costs for the managed care organizations and the department of social and health services; and

(iv) A status update on the development and submission of the waiver with an estimated timeline for approval and implementation of the new wraparound services benefit.

(7) The authority is authorized to continue to contract directly, rather than through contracts with behavioral health entities for children's long-term inpatient facility services.

(8) \$1,204,000 of the general fund—state appropriation for fiscal year 2022 and \$1,204,000 of the general fund—state appropriation for fiscal year 2023 are provided solely to reimburse Pierce and Spokane counties for the cost of conducting one hundred eighty-day commitment hearings at the state psychiatric hospitals.

(9) Behavioral health entities may use local funds to earn additional federal medicaid match, provided the locally matched rate does not exceed the upper-bound of their federally allowable rate range, and provided that the enhanced funding is used only to provide medicaid state plan or waiver services to medicaid clients. Additionally, behavioral health entities may use a portion of the state funds allocated in accordance with subsection (6) of this section to earn additional medicaid match, but only to the extent that the application of such funds to medicaid services does not diminish the level of crisis and commitment, community inpatient, residential care, and outpatient services presently available to persons not eligible for medicaid.

(10) \$2,291,000 of the general fund—state appropriation for fiscal year 2022 and \$2,291,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon release from confinement. (12) The authority must establish minimum and maximum funding levels for all reserves allowed under behavioral health administrative service organization contracts and include contract language that clearly states the requirements and limitations. The authority must monitor and ensure that behavioral health administrative service organization reserves do not exceed maximum levels. The authority must monitor revenue and expenditure reports and must require a behavioral health administrative service organization to submit a corrective action plan on how it will spend its excess reserves within a reasonable period of time, when its reported reserves exceed maximum levels established under the contract. The authority must review and

approve such plans and monitor to ensure compliance. If the authority determines that a behavioral health administrative service organization has failed to provide an adequate excess reserve corrective action plan or is not complying with an approved plan, the authority must reduce payments to the entity in accordance with remedial actions provisions included in the contract. These reductions in payments must continue until the authority determines that the entity has come into substantial compliance with an approved excess reserve corrective action plan.

Contracts with behavioral health entities must require that behavioral health entities include in their provider network specialized expertise in the provision of manualized, evidence-based chemical dependency treatment services for offenders. The department of corrections and the authority must develop a memorandum of understanding for department of corrections offenders on active supervision who are medicaid eligible and meet medical necessity for outpatient substance use disorder treatment. The agreement will ensure that treatment services provided are coordinated, do not result in duplication of services, and maintain access and quality of care for the individuals being served. The authority must provide all necessary data, access, and reports to the department of corrections for all department of corrections offenders that receive medicaid paid services.

(17) The criminal justice treatment account—state appropriation is provided solely for treatment and treatment support services for offenders with a substance use disorder pursuant to RCW 71.24.580. The authority must offer counties the option to administer their share of the distributions provided for under RCW 71.24.580(5)(a). If a county is not interested in administering the funds, the authority shall contract with behavioral health entities to administer these funds consistent with the plans approved by local panels pursuant to RCW 71.24.580(5)(b). Funding from the criminal justice treatment account may be used to provide treatment and support services through the conclusion of an individual's treatment plan to individuals participating in a drug court program as of February 24, 2021, if that individual wishes to continue treatment following dismissal of charges they were facing under RCW 69.50.4013(1). Workforce Education Investment Account—State Appropriation	\$8,482,000
TOTAL APPROPRIATION	\$1,876,105,000

The appropriations in this section are subject to the following conditions and limitations:

(1)(a) \$80,273,000 of the general fund—state appropriation for fiscal year 2022, \$119,932,000 of the general fund—state

appropriation for fiscal year 2023, \$24,070,000 of the education legacy trust account—state appropriation, \$80,000,000 of the opportunity pathways account—state appropriation, and \$25,452,000 of the general fund—federal appropriation (CRRSA/GEER) are provided solely for the early childhood education and assistance program. These amounts shall support at least 15,162 slots in fiscal year 2022 and 15,912 slots in fiscal year 2023. Of the total slots in each fiscal year, 100 slots must be reserved for foster children to receive school-year-round enrollment.

(b) Of the amounts provided in this subsection, \$14,930,000 of the general fund—state appropriation for fiscal year 2023 and \$14,889,000 of the general fund—federal appropriation (CRRSA/GEER) are for a slot rate increase of ten percent beginning July 1, 2021. The funding provided in this subsection is sufficient for the department to increase rates according to inflation, pursuant to Engrossed Second Substitute Senate Bill No. 5237 (child care & early dev. exp.), beginning in fiscal year 2023 and annually thereafter.

(c) The department of children, youth, and families must develop a methodology to identify, at the school district level, the geographic locations of where early childhood education and assistance program slots are needed to meet the entitlement specified in RCW 43.216.556. This methodology must be linked to the caseload forecast produced by the caseload forecast council and must include estimates of the number of slots needed at each school district and the corresponding facility needs required to meet the entitlement in accordance with RCW 43.216.556. This methodology must be included as part of the budget submittal documentation required by RCW 43.88.030.

The legislature intends with the passage of Engrossed Second Substitute Senate Bill No. 5237 (child care & early dev. exp.) to implement these federal purposes by expanding eligibility for subsidized child care, reducing parent copayments, increasing provider base rates to recognize increased costs, and providing other financial support to stabilize the child care sector to remain open or to reopen. The legislature finds that the state lacked the fiscal capacity to make these investments and the additional federal funding has provided the opportunity to supplement state funding to expand and accelerate child care access, affordability, and provider support as the state navigates the COVID-19 pandemic and its aftermath.

(5) \$20,110,000 of the general fund—state appropriation in fiscal year 2022, \$45,757,000 of the general fund—state appropriation in fiscal year 2023, \$8,482,000 of the workforce education investment account—state appropriation, \$283,375,000 of the general fund—federal appropriation, \$59,893,000 of the general fund—federal appropriation (CARES), \$65,482,000 of the general fund—federal

(a) The department of children, youth, and families shall work in collaboration with the department of social and health services to determine the appropriate amount of state expenditures for the working connections child care program to claim towards the state's maintenance of effort for the temporary assistance for needy families program. Effective December 1, 2022, and annually thereafter, the department of children, youth, and families must report to the governor and the appropriate fiscal and policy committees of the legislature the total state contribution for the working connections child care program claimed the previous fiscal year towards the state's maintenance of effort for the temporary assistance for needy families program and the total temporary assistance for needy families reimbursement from the department of social and health services for the previous fiscal year.

For households at or below 50 percent of the state median income, copayments are capped at \$115 through January 1, 2022, and \$90 from January 1, 2022, through fiscal year 2023. For households at or below 60 percent of the state median income, copayments are capped at \$115 through June 30, 2023.

(ii) \$31,134,000 of the general fund—federal appropriation (CARES), \$40,195,000 of the general fund—federal appropriation (CRRSA), and \$45,476,000 of the general fund—federal appropriation (ARPA) are provided solely to increase subsidy base rates to the 85th percentile of market for child care providers.
