In the ensuing biennium the department shall transfer the reimbursements received in the miscellaneous transportation programs account back to the motor vehicle fund and the multimodal transportation account to the extent of the cash transferred at biennium end. The prioritization process shall measure the degree to which projects address important program objectives and shall generate a project score that reflects a project's priority compared to other projects. The board shall assign scoring points to each criterion that indicate the relative importance of the criterion in the overall determination of project priority. After June 30, 2001, the board may supplement and refine the initial project priority criteria and scoring framework developed by the freight mobility project prioritization committee as expertise and experience is gained in administering the freight mobility program.

(6) It is the intent of the legislature that each freight mobility project contained in the project portfolio submitted by the board utilize the greatest amount of nonstate funding possible. The board shall adopt rules that give preference to projects that contain the greatest levels of financial participation from nonprogram fund sources. The board shall consider twenty percent as the minimum partnership contribution, but shall also ensure that there are provisions allowing exceptions for projects that are located in areas where minimal local funding capacity exists or where the magnitude of the project makes the adopted partnership contribution financially unfeasible.

(7) The board shall develop and recommend policies that address operational improvements that primarily benefit and enhance freight movement, including, but not limited to, policies that reduce congestion in truck lanes at border crossings and weigh stations and provide for access to ports during nonpeak hours.

Sec. 126. RCW 47.10.790 and 1985 c 406 s 1 are each amended to read as follows:

(1) In order to provide funds for the location, design, right of way, and construction of selected interstate highway improvements, there shall be issued and sold upon the request of the Washington state transportation commission, a total of one hundred million dollars of general obligation bonds of the state of Washington to pay the state's share of costs for completion of state route 90 (state route 5 to state route 405) and other related state highway projects eligible for regular federal interstate funding and until December 31, 1989, to temporarily pay the regular federal share of construction of completion projects on state route 90 (state route 5 to state route 405) and other related state highway projects eligible for regular interstate funding in

The transportation commission may decrease the amount of bonds authorized in subsection (1)(c) of this section only if the legislature appropriates an equal amount of funds from the motor vehicle fund - basic account for the purposes enumerated in subsection (1)(c) of this section.

Sec. 128. RCW 47.10.802 and 1986 c 290 s 1 are each amended to read as follows:

Promissory notes or other obligations issued under this section shall not constitute a debt or the contracting of indebtedness under any constitutional or statutory indebtedness limitation if their payment is conditioned upon the failure of the state to pay the principal of or interest on the bonds with respect to which the promissory notes or other obligations relate. The state finance committee may authorize the issuance of short-term obligations in lieu of long-term obligations for the purposes of more favorable interest rates, lower total interest costs, and increased marketability and for the purposes of retiring the bonds during the life of the project for which they were issued.

Sec. 129. RCW 47.17.850 and 1984 c 7 s 139 are each amended to read as follows:

A state highway to be known as state route number 906 is established as follows:

~~((The legislative transportation committee, the house and senate transportation committees, and the department shall undertake appropriate studies to evaluate state route number 906 to determine whether or not it should permanently remain on the state system.))~~

Sec. 130. RCW 47.26.167 and 1991 c 342 s 62 are each amended to read as follows:

The legislature recognizes the need for a multijurisdictional body to review future requests for jurisdictional transfers. The board is hereby directed, beginning September 1, 1991, to receive petitions from cities, counties, or the state requesting any addition or deletion from the state highway system. The board is required to utilize the criteria established in RCW 47.17.001 in evaluating petitions and to adopt rules for implementation of this process. The board shall forward to the ~~((legislative))~~ senate and house transportation committees by November 15 each year any recommended jurisdictional transfers.

Sec. 131. RCW 47.26.170 and 1994 c 179 s 16 are each amended to read as follows:

The counties, cities, and towns shall revise the arterial inventory data every four years to show the current arterial construction needs through the advanced planning period, and as revised shall submit them to the transportation improvement board during the first week of January every four years beginning in 1996. The inventory data shall be prepared pursuant to guidelines established by the transportation improvement board. As information is updated, it shall be made available to the commission ~~((and the legislative transportation committee))~~.

Sec. 132. RCW 47.46.030 and 2002 c 114 s 3 are each amended to read as follows:

(1) The secretary or a designee shall solicit proposals from, and negotiate and enter into agreements with, private entities to undertake as appropriate, together with the department and other public entities, all or a portion of the study, planning, design, construction, operation, and maintenance of transportation systems and facilities, using in whole or in part public or private sources of financing.

The public-private initiatives program may develop up to six demonstration projects. Each proposal shall be weighed on its own merits, and each of the six agreements shall be negotiated individually, and as a stand-alone project.

(2) If project proposals selected prior to September 1, 1994, are terminated by the public or private sectors, the department shall not select any new projects, including project proposals submitted to the department prior to September 1, 1994, and designated by the transportation commission as placeholder projects, after June 16, 1995, until June 30, 1997.

The department, in consultation with the legislative transportation committee, shall conduct a program and fiscal audit of the public-private initiatives program for the biennium ending June 30, 1997. The department shall submit a progress report to the legislative transportation committee on the program and fiscal audit by June 30, 1996, with preliminary and final audit reports due December 1, 1996, and June 30, 1997, respectively.

The department shall develop and submit a proposed public involvement plan to the 1997 legislature to identify the process for selecting new potential projects and the associated costs of implementing the plan. The legislature must adopt the public involvement plan before the department may proceed with any activity related to project identification and selection. Following legislative adoption of the public involvement plan, the department is authorized to implement the plan and to identify potential new projects.

The public involvement plan for projects selected after June 30, 1997, shall, at a minimum, identify projects that: (a) Have the potential of achieving overall public support among users of the projects, residents of communities in the vicinity of the projects, and residents of communities impacted by the projects; (b) meet a state transportation need; (c) provide a significant state benefit; and (d) provide competition among proposers and maximum cost benefits to users. Prospective projects may include projects identified by the department or submitted by the private sector.

Projects that meet the minimum criteria established under this section and the requirements of the public involvement plan developed by the department and approved by the legislature shall be submitted to the Washington state transportation commission for its review. ~~((The commission, in turn, shall submit a list of eligible projects to the legislative transportation committee for its consideration.))~~ Forty-five days after the submission to the ~~((legislative transportation committee))~~ commission of the list of eligible projects, the secretary is authorized to solicit proposals for the eligible project.

(3) Prior to entering into agreements with private entities under the requirements of RCW 47.46.040 for any project proposal selected before September 1, 1994, or after June 30, 1997, except as provided for in subsections ~~((12))~~ (11) and ~~((13))~~ (12) of this section, the department shall require an advisory vote as provided under subsections (5) through ~~((10))~~ (9) of this section.

(4) The advisory vote shall apply to project proposals selected prior to September 1, 1994, or after June 30, 1997, that receive public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project collected and submitted in accordance with the dates established in subsections ~~((12))~~ (11) and ~~((13))~~ (12) of this section. The advisory vote shall be on the preferred alternative identified under the requirements of chapter 43.21C RCW and, if applicable, the national environmental policy act, 42 U.S.C. 4321 et seq. The execution by the department of the advisory vote process established in this section is subject to the prior appropriation of funds by the legislature for the purpose of conducting environmental impact studies, a public involvement program, local involvement committee activities, traffic and economic impact analyses, engineering and technical studies, and the advisory vote.

(5) In preparing for the advisory vote, the department shall conduct a comprehensive analysis of traffic patterns and economic impact to define the geographical boundary of the project area that is affected by the imposition of tolls or user fees authorized under this chapter. The area so defined is referred to in this section as the affected project area. In defining the affected project area, the department shall, at a minimum, undertake: (a) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (b) an analysis of the anticipated traffic diversion patterns; (c) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (d) an analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (e) an analysis of the relationship of the project to state transportation needs and benefits.

(6)(a) After determining the definition of the affected project area, the department shall establish a committee comprised of individuals who represent cities and counties in the affected project area; organizations formed to support or oppose the project; and users of the project. The committee shall be named the public-private local involvement committee, and be known as the local involvement committee.

(b) The members of the local involvement committee shall be: (i) An elected official from each city within the affected project area; (ii) an elected official from each county within the affected project area; (iii) two persons from each county within the affected project area who represent an organization formed in support of the project, if the organization exists; (iv) two persons from each county within the affected project area who represent an organization formed to oppose the project, if the organization exists; and (v) four public members active in a statewide transportation organization. If the committee makeup results in an even number of committee members, there shall be an additional appointment of an elected official from the county in which all, or the greatest portion of the project is located.

(c) City and county elected officials shall be appointed by a majority of the members of the city or county legislative authorities of each city or county within the affected project area, respectively. The county legislative authority of each county within the affected project area shall identify and validate organizations officially formed in support of or in opposition to the project and shall make the appointments required under this section from a list submitted by the chair of the organizations. Public members shall be appointed by the governor. All appointments to the local involvement committee shall be made and submitted to the department of transportation no later than January 1, 1996, for projects selected prior to September 1, 1994, and

no later than thirty days after the affected project area is defined for projects selected after June 30, 1997. Vacancies in the membership of the local involvement committee shall be filled by the appointing authority under (b)(i) through (v) of this subsection for each position on the committee.

(d) The local involvement committee shall serve in an advisory capacity to the department on all matters related to the execution of the advisory vote.

(e) Members of the local involvement committee serve without compensation and may not receive subsistence, lodging expenses, or travel expenses.

(7) The department shall conduct a minimum thirty-day public comment period on the definition of the geographical boundary of the project area. The department, in consultation with the local involvement committee, shall make adjustments, if required, to the definition of the geographical boundary of the affected project area, based on comments received from the public. Within fourteen calendar days after the public comment period, the department shall set the boundaries of the affected project area in units no smaller than a precinct as defined in RCW ~~((29.01.120))~~ 29A.04.121.

(8) The department, in consultation with the local involvement committee, shall develop a description for selected project proposals. After developing the description of the project proposal, the department shall publish the project proposal description in newspapers of general circulation for seven calendar days in the affected project area. Within fourteen calendar days after the last day of the publication of the project proposal description, the department shall transmit a copy of the map depicting the affected project area and the description of the project proposal to the county auditor of the county in which any portion of the affected project area is located.

~~(9) ((The department shall provide the legislative transportation committee with progress reports on the status of the definition of the affected project area and the description of the project proposal.~~

~~(10))~~ Upon receipt of the map and the description of the project proposal, the county auditor shall, within thirty days, verify the precincts that are located within the affected project area. The county auditor shall prepare the text identifying and describing the affected project area and the project proposal using the definition of the geographical boundary of the affected project area and the project description submitted by the department and shall set an election date for the submission of a ballot proposition authorizing the imposition of tolls or user fees to implement the proposed project within the affected project area, which date may be the next succeeding general election to be held in the state, or at a special election, if requested by the department. The text of the project proposal must appear in a voter's pamphlet for the affected project area. The department shall pay the costs of publication and distribution. The special election date must be the next date for a special election provided under RCW ~~((29.13.020))~~ 29A.04.330 that is at least sixty days but, if authorized under RCW ~~((29.13.020))~~ 29A.04.330, no more than ninety days after the receipt of the final map and project description by the auditor. The department shall pay the cost of an election held under this section.

~~((11))~~ (10) Notwithstanding any other provision of law, the department may contract with a private developer of a selected project proposal to conduct environmental impact studies, a public involvement program, and engineering and technical studies funded by the legislature. For projects subject to this subsection, the department shall not enter into an agreement under RCW 47.46.040 prior to the advisory vote on the preferred alternative.

~~((12))~~ (11) Subsections (5) through ~~((10))~~ (9) of this section shall not apply to project proposals selected prior to September 1, 1994, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted after September 1, 1994, and by thirty calendar days after June 16, 1995.

~~((13))~~ (12) Subsections (5) through ~~((10))~~ (9) of this section shall not apply to project proposals selected after June 30, 1997, that have no organized public opposition as demonstrated by the submission to the department of original petitions bearing at least five thousand signatures of individuals opposing the project, collected and submitted by ninety calendar days after project selection.

Sec. 133. RCW 47.46.040 and 2002 c 114 s 16 are each amended to read as follows:

(1) The secretary or a designee shall consult with legal, financial, and other experts within and outside state government in the negotiation and development of the agreements.

(2) Agreements may provide for private ownership of the projects during the construction period. After completion and final acceptance of each project or discrete segment thereof, the agreement may provide for state ownership of the transportation systems and facilities and lease to the private entity unless the state elects to provide for ownership of the facility by the private entity during the term of the agreement.

The state may lease each of the demonstration projects, or applicable project segments, to the private entities for operating purposes for up to fifty years.

(3) The department may exercise any power possessed by it to facilitate the development, construction, financing operation, and maintenance of transportation projects under this section. Agreements for maintenance services entered into under this section shall provide for full reimbursement for services rendered by the department or other state agencies. Agreements for police services for projects, involving state highway routes, developed under agreements shall be entered into with the Washington state patrol. The agreement for police services shall provide that the state patrol will be reimbursed for costs on a comparable basis with the costs incurred for comparable service on other state highway routes. The department may provide services for which it is reimbursed, including but not limited to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(4) The plans and specifications for each project constructed under this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity is deemed to be a part of the state highway system for purposes of identification, maintenance, and enforcement of traffic laws and for the purposes of applicable sections of this title. Upon reversion of the facility to the state, the project must meet all applicable state standards. Agreements shall address responsibility for reconstruction or renovations that are required in order for a facility to meet all applicable state standards upon reversion of the facility to the state.

(5) For the purpose of facilitating these projects and to assist the private entity in the financing, development, construction, and operation of the transportation systems and facilities, the agreements may include provisions for the department to exercise its authority, including the lease of facilities, rights of way, and airspace, exercise of the power of eminent domain, granting of development rights and opportunities, granting of necessary easements and rights of access, issuance of permits and other authorizations, protection from competition, remedies in the event of default of either of the parties, granting of contractual and real property rights, liability during construction and the term of the lease, authority to negotiate acquisition of rights of way in excess of appraised value, and any other provision deemed necessary by the secretary.

(6) The agreements entered into under this section may include provisions authorizing the state to grant necessary easements and lease to a private entity existing rights of way or rights of way subsequently acquired with public or private financing. The agreements may also include provisions to lease to the entity airspace above or below the right of way associated or to be associated with the private entity's transportation facility. In consideration for the reversion rights in these privately constructed facilities, the department may negotiate a charge for the lease of airspace rights during the term of the agreement for a period not to exceed fifty years. If, after the expiration of this period, the department continues to lease these airspace rights to the private entity, it shall do so only at fair market value. The agreement may also provide the private entity the right of first refusal to undertake projects utilizing airspace owned by the state in the vicinity of the public-private project.

(7) Agreements under this section may include any contractual provision that is necessary to protect the project revenues required to repay the costs incurred to study, plan, design, finance, acquire, build, install, operate, enforce laws, and maintain toll highways, bridges, and tunnels and which will not unreasonably inhibit or prohibit the development of additional public transportation systems and facilities. Agreements under this section must secure and maintain liability insurance coverage in amounts appropriate to protect the project's viability and may address state indemnification of the private entity for design and construction liability where the state has approved relevant design and construction plans.

(8) Agreements entered into under this section shall include a process that provides for public involvement in decision making with respect to the development of the projects.

(9)(a) In carrying out the public involvement process required in subsection (8) of this section, the private entity shall proactively seek public participation through a process appropriate to the characteristics of the project that assesses and demonstrates public support among: Users of the project, residents of communities in the vicinity of the project, and residents of communities impacted by the project.

(b) The private entity shall conduct a comprehensive public involvement process that provides, periodically throughout the development and implementation of the project, users and residents of communities in the affected project area an opportunity to comment upon key issues regarding the project including, but not limited to: (i) Alternative sizes and scopes; (ii) design; (iii) environmental assessment; (iv) right of way and access plans; (v) traffic impacts; (vi) tolling or user fee strategies and tolling or user fee ranges; (vii) project cost; (viii) construction impacts; (ix) facility operation; and (x) any other salient characteristics.

(c) If the affected project area has not been defined, the private entity shall define the affected project area by conducting, at a minimum: (i) A comparison of the estimated percentage of residents of communities in the vicinity of the project and in other communities impacted by the project who could be subject to tolls or user fees and the estimated percentage of other users and transient traffic that could be subject to tolls or user fees; (ii) an analysis of the anticipated traffic diversion patterns; (iii) an analysis of the potential economic impact resulting from proposed toll rates or user fee rates imposed on residents, commercial traffic, and commercial entities in communities in the vicinity of and impacted by the project; (iv) an

analysis of the economic impact of tolls or user fees on the price of goods and services generally; and (v) an analysis of the relationship of the project to state transportation needs and benefits.

The agreement may require an advisory vote by users of and residents in the affected project area.

(d) In seeking public participation, the private entity shall establish a local involvement committee or committees comprised of residents of the affected project area, individuals who represent cities and counties in the affected project area, organizations formed to support or oppose the project, if such organizations exist, and users of the project. The private entity shall, at a minimum, establish a committee as required under the specifications of RCW 47.46.030(6)(b) (ii) and (iii) and appointments to such committee shall be made no later than thirty days after the project area is defined.

(e) Local involvement committees shall act in an advisory capacity to the department and the private entity on all issues related to the development and implementation of the public involvement process established under this section.

(f) The department and the private entity shall provide the ~~((legislative transportation committee and))~~ local involvement committees with progress reports on the status of the public involvement process including the results of an advisory vote, if any occurs.

(10) Nothing in this chapter limits the right of the secretary and his or her agents to render such advice and to make such recommendations as they deem to be in the best interests of the state and the public.

Sec. 134. RCW 79A.05.125 and 1999 c 301 s 3 are each amended to read as follows:

(1) The department of transportation shall negotiate a franchise with a rail carrier to establish and maintain a rail line over portions of the Milwaukee Road corridor owned by the state between Ellensburg and Lind. The department of transportation may negotiate such a franchise with any qualified rail carrier. Criteria for negotiating the franchise and establishing the right of way include:

(a) Assurances that resources from the franchise will be sufficient to compensate the state for use of the property, including completion of a cross-state trail between Easton and the Idaho border;

(b) Types of payment for use of the franchise, including payment for the use of federally granted trust lands in the transportation corridor;

(c) Standards for maintenance of the line;

(2) The franchise may provide for periodic review of financial arrangements under the franchise.

(4) This section expires July 1, 2006, if the department of transportation does not enter into a franchise agreement for a rail line over portions of the Milwaukee Road corridor by July 1, 2006.

Sec. 135. RCW 81.80.395 and 1988 c 138 s 1 are each amended to read as follows:

The Washington utilities and transportation commission may enter into an agreement or arrangement with a duly authorized representative of the state of Idaho, for the purpose of granting to operators of commercial vehicles that are properly registered in the state of Idaho, the privilege of operating their vehicles in this state within a designated area near the border of their state without the need for registration as required by chapter 81.80 RCW if the state of Idaho grants a similar privilege to operators of commercial vehicles from this state. The initial designated area shall be limited to state route 195 from the Idaho border to Lewiston, and SR 12 from Lewiston to Clarkston. ~~((The utilities and transportation commission shall submit other proposed reciprocal agreements in designated border areas to the legislative transportation committee for approval.))~~

Sec. 136. RCW 81.104.110 and 1998 c 245 s 165 are each amended to read as follows:

The legislature recognizes that the planning processes described in RCW 81.104.100 provide a recognized framework for guiding high capacity transportation studies. However, the process cannot guarantee appropriate decisions unless key study assumptions are reasonable.

To assure appropriate system plan assumptions and to provide for review of system plan results, an expert review panel shall be appointed to provide independent technical review for development of any system plan which is to be funded in whole or in part by the imposition of any voter-approved local option funding sources enumerated in RCW 81.104.140.

(1) The expert review panel shall consist of five to ten members who are recognized experts in relevant fields, such as transit operations, planning, emerging transportation technologies, engineering, finance, law, the environment, geography, economics, and political science.

(2) The expert review panel shall be selected cooperatively by the chairs of the ~~((legislative))~~ senate and house transportation committees, the secretary of the department of transportation, and the governor to assure a balance of disciplines. In the case of counties adjoining another state or Canadian province the expert review panel membership shall be selected cooperatively with representatives of the adjoining state or Canadian province.

(3) The chair of the expert review panel shall be designated by the appointing authorities.

(4) The expert review panel shall serve without compensation but shall be reimbursed for expenses according to ~~((chapter 43.03))~~ RCW 43.03.050 and 43.03.060. Reimbursement shall be paid from within the existing resources of the local authority planning under this chapter.

(5) The panel shall carry out the duties set forth in subsections (6) and (7) of this section until the date on which an election is held to consider the high capacity transportation system and financing plans. ~~((Funds appropriated for expenses of the expert panel shall be administered by the department of transportation.))~~

(6) The expert panel shall review all reports required in RCW 81.104.100(2) and shall concentrate on service modes and concepts, costs, patronage and financing evaluations.

(7) The expert panel shall provide timely reviews and comments on individual reports and study conclusions to the department of transportation, the regional transportation planning organization, the joint regional policy committee, and the submitting lead transit agency. In the case of counties adjoining another state or Canadian province, the expert review panel shall provide its reviews, comments, and conclusions to the representatives of the adjoining state or Canadian province.

(8) The ~~((legislative transportation committee))~~ local authority planning under this chapter shall contract for consulting services for expert review panels. The amount of consultant support shall be negotiated with each expert review panel by the ~~((legislative transportation committee))~~ local authority and shall be paid from ~~((appropriations for that purpose from the high capacity transportation account))~~ within the local authority's existing resources.

Sec. 137. RCW 82.33.020 and 1992 c 231 s 34 are each amended to read as follows:

(1) Four times each year the supervisor shall prepare, subject to the approval of the economic and revenue forecast council under RCW 82.33.010:

- (a) An official state economic and revenue forecast;
- (b) An unofficial state economic and revenue forecast based on optimistic economic and revenue projections; and
- (c) An unofficial state economic and revenue forecast based on pessimistic economic and revenue projections.

(2) The supervisor shall submit forecasts prepared under this section, along with any unofficial forecasts provided under RCW 82.33.010, to the governor and the members of the committees on ways and means and the chairs of the committees on transportation of the senate and house of representatives ~~((and the chair of the legislative transportation committee))~~, including one copy to the staff of each of the committees, on or before November 20th, February 20th in the even-numbered years, March 20th in the odd-numbered years, June 20th, and September 20th. All forecasts shall include both estimated receipts and estimated revenues in conformance with generally accepted accounting principles as provided by RCW 43.88.037.

(3) All agencies of state government shall provide to the supervisor immediate access to all information relating to economic and revenue forecasts. Revenue collection information shall be available to the supervisor the first business day following the conclusion of each collection period.

(4) The economic and revenue forecast supervisor and staff shall co-locate and share information, data, and files with the tax research section of the department of revenue but shall not duplicate the duties and functions of one another.

(5) As part of its forecasts under subsection (1) of this section, the supervisor shall provide estimated revenue from tuition fees as defined in RCW 28B.15.020.

Sec. 138. RCW 82.70.060 and 2003 c 364 s 6 are each amended to read as follows:

The commute trip reduction task force shall determine the effectiveness of the tax credit under RCW 82.70.020, the grant program in RCW 70.94.996, and the relative effectiveness of the tax credit and the grant program as part of its ongoing

evaluation of the commute trip reduction law and report to the ~~((legislative))~~ senate and house transportation committees and to the fiscal committees of the house of representatives and the senate. The report must include information on the amount of tax credits claimed to date and recommendations on future funding between the tax credit program and the grant program. The report must be incorporated into the recommendations required in RCW 70.94.537(5).

Sec. 139. RCW 82.80.070 and 2002 c 56 s 413 are each amended to read as follows:

(1) The proceeds collected pursuant to the exercise of the local option authority of RCW 82.80.010, ~~((82.80.020,))~~ 82.80.030, and 82.80.050 (hereafter called "local option transportation revenues") shall be used for transportation purposes only, including but not limited to the following: The operation and preservation of roads, streets, and other transportation improvements; new construction, reconstruction, and expansion of city streets, county roads, and state highways and other transportation improvements; development and implementation of public transportation and high-capacity transit improvements and programs; and planning, design, and acquisition of right of way and sites for such transportation purposes. The proceeds collected from excise taxes on the sale, distribution, or use of motor vehicle fuel and special fuel under RCW 82.80.010 shall be used exclusively for "highway purposes" as that term is construed in Article II, section 40 of the state Constitution.

(2) The local option transportation revenues shall be expended for transportation uses consistent with the adopted transportation and land use plans of the jurisdiction expending the funds and consistent with any applicable and adopted regional transportation plan for metropolitan planning areas.

(3) Each local government with a population greater than eight thousand that levies or expends local option transportation funds, is also required to develop and adopt a specific transportation program that contains the following elements:

(a) The program shall identify the geographic boundaries of the entire area or areas within which local option transportation revenues will be levied and expended.

(b) The program shall be based on an adopted transportation plan for the geographic areas covered and shall identify the proposed operation and construction of transportation improvements and services in the designated plan area intended to be funded in whole or in part by local option transportation revenues and shall identify the annual costs applicable to the program.

(c) The program shall indicate how the local transportation plan is coordinated with applicable transportation plans for the region and for adjacent jurisdictions.

(d) The program shall include at least a six-year funding plan, updated annually, identifying the specific public and private sources and amounts of revenue necessary to fund the program. The program shall include a proposed schedule for construction of projects and expenditure of revenues. The funding plan shall consider the additional local tax revenue estimated to be generated by new development within the plan area if all or a portion of the additional revenue is proposed to be earmarked as future appropriations for transportation improvements in the program.

(4) Local governments with a population greater than eight thousand exercising the authority for local option transportation funds shall periodically review and update their transportation program to ensure that it is consistent with applicable local and regional transportation and land use plans and within the means of estimated public and private revenue available.

(5) In the case of expenditure for new or expanded transportation facilities, improvements, and services, priorities in the use of local option transportation revenues shall be identified in the transportation program and expenditures shall be made based upon the following criteria, which are stated in descending order of weight to be attributed:

(a) First, the project serves a multijurisdictional function;

(b) Second, it is necessitated by existing or reasonably foreseeable congestion;

(c) Third, it has the greatest person-carrying capacity;

(d) Fourth, it is partially funded by other government funds, such as from the state transportation improvement board, or by private sector contributions, such as those from the local transportation act, chapter 39.92 RCW; and

(e) Fifth, it meets such other criteria as the local government determines is appropriate.

(6) It is the intent of the legislature that as a condition of levying, receiving, and expending local option transportation revenues, no local government agency use the revenues to replace, divert, or loan any revenues currently being used for transportation purposes to nontransportation purposes. ~~((The association of Washington cities and the Washington state association of counties, in consultation with the legislative transportation committee, shall study the issue of nondiversion and make recommendations to the legislative transportation committee for language implementing the intent of this section by December 1, 1990.))~~

(7) Local governments are encouraged to enter into interlocal agreements to jointly develop and adopt with other local governments the transportation programs required by this section for the purpose of accomplishing regional transportation planning and development.

(8) Local governments may use all or a part of the local option transportation revenues for the amortization of local government general obligation and revenue bonds issued for transportation purposes consistent with the requirements of this section.

(9) Subsections (1) through (8) of this section do not apply to a regional transportation investment district imposing a tax or fee under the local option authority of this chapter. Proceeds collected under the exercise of local option authority under this chapter by a district must be used in accordance with chapter 36.120 RCW.

Sec. 140. RCW 90.03.525 and 1996 c 285 s 1 and 1996 c 230 s 1617 are each reenacted and amended to read as follows:

(1) The rate charged by a local government utility to the department of transportation with respect to state highway right of way or any section of state highway right of way for the construction, operation, and maintenance of storm water control facilities under chapters 35.67, 35.92, 36.89, 36.94, 57.08, and 86.15 RCW, shall be thirty percent of the rate for comparable real property, except as otherwise provided in this section. The rate charged to the department with respect to state highway right of way or any section of state highway right of way within a local government utility's jurisdiction shall not, however, exceed the rate charged for comparable city street or county road right of way within the same jurisdiction. The legislature finds that the aforesaid rates are presumptively fair and equitable because of the traditional and continuing expenditures of the department of transportation for the construction, operation, and maintenance of storm water control facilities designed to control surface water or storm water runoff from state highway rights of way.

(2) Charges paid under subsection (1) of this section by the department of transportation must be used solely for storm water control facilities that directly reduce state highway runoff impacts or implementation of best management practices that will reduce the need for such facilities. By January 1st of each year, beginning with calendar year 1997, the local government utility, in coordination with the department, shall develop a plan for the expenditure of the charges for that calendar year. The plan must be consistent with the objectives identified in RCW 90.78.010. In addition, beginning with the submittal for 1998, the utility shall provide a progress report on the use of charges assessed for the prior year. No charges may be paid until the plan and report have been submitted to the department.

(3) The utility imposing the charge and the department of transportation may, however, agree to either higher or lower rates with respect to the construction, operation, or maintenance of any specific storm water control facilities based upon the annual plan prescribed in subsection (2) of this section. ~~((If a different rate is agreed to, a report so stating shall be submitted to the legislative transportation committee.))~~ If, after mediation, the local government utility and the department of transportation cannot agree upon the proper rate, ~~((and after a report has been submitted to the legislative transportation committee and after ninety days from submission of such report,))~~ either may commence an action in the superior court for the county in which the state highway right of way is located to establish the proper rate. The court in establishing the proper rate shall take into account the extent and adequacy of storm water control facilities constructed by the department and the actual benefits to the sections of state highway rights of way from storm water control facilities constructed, operated, and maintained by the local government utility. Control of surface water runoff and storm water runoff from state highway rights of way shall be deemed an actual benefit to the state highway rights of way. The rate for sections of state highway right of way as determined by the court shall be set forth in terms of the percentage of the rate for comparable real property, but shall in no event exceed the rate charged for comparable city street or county road right of way within the same jurisdiction.

(4) The legislature finds that the federal clean water act (national ~~((pollution [pollutant]))~~ pollutant discharge elimination system, 40 C.F.R. parts 122-124), the state water pollution control act, chapter 90.48 RCW, and the highway runoff program under chapter ~~((90.70))~~ 90.71 RCW, mandate the treatment and control of storm water runoff from state highway rights of way owned by the department of transportation. Appropriations made by the legislature to the department of transportation for the construction, operation, and maintenance of storm water control facilities are intended to address applicable federal and state mandates related to storm water control and treatment. This section is not intended to limit opportunities for sharing the costs of storm water improvements between cities, counties, and the state.

SECOND SUBSTITUTE HOUSE BILL NO. 1441 was read the second time.

Representative Clibborn moved the adoption of amendment (595):

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 74.09 RCW to read as follows:

(1) The legislature finds that:

(a) The health of the children of Washington state is critical to their success in school and throughout their lives. Children with health insurance coverage have better health outcomes than those who lack coverage. Children without health insurance coverage are more likely to be in poor health and more likely to delay receiving, or go without, needed health care services;

(b) Access to preventive and well-child health services for children is a cost-effective investment of both public and private dollars that improves the health of children and of our communities at large; and

(c) Health care coverage for children in Washington state is the product of critical efforts in both the private and public sectors to help children succeed. Private health insurance coverage is complemented by public programs that meet needs of low-income children whose parents are not offered health insurance coverage through their employer or who cannot otherwise afford the costs of coverage. In 2004, thirty-five percent of children in Washington state had some form of public health coverage. Yet, even with the efforts of both the private and public sectors, too many children in Washington state lack health insurance coverage. In 2004, almost one hundred thousand children were uninsured. Two-thirds of these children are low income.

(2) It is therefore the intent of the legislature that all children in the state of Washington have health care coverage by 2010. This should be accomplished by building upon and strengthening the successes of private health insurance coverage and publicly supported children's health insurance programs in Washington state. Access to coverage should be streamlined and efficient, with reductions in unnecessary administrative costs and mechanisms to expeditiously link children with a medical home.

Sec. 2. RCW 74.09.415 and 2002 c 366 s 2 are each amended to read as follows:

(1) There is hereby established a program to be known as the children's health program. The legislature finds that the children's health program is a more appropriate mechanism for providing health services to poor children who are not otherwise eligible for medical assistance than grants to community clinics to offset uncompensated care or coverage through the Washington basic health plan.

To the extent of available funds:

(a) Health care services may be provided to persons who are under eighteen years of age with household incomes at or below the federal poverty level and not otherwise eligible for medical assistance or the limited casualty program for the medically needy.

(b) The determination of eligibility of recipients for health care services shall be the responsibility of the department. ~~((The application process shall be easy to understand and, to the extent possible, applications shall be made available at local~~

~~schools and other appropriate locations.))~~ The department shall make eligibility determinations within the time frames for establishing eligibility for children on medical assistance, as defined by RCW 74.09.510.

(c) The amount, scope, and duration of health care services provided to eligible children under the children's health program shall be the same as that provided to children under medical assistance, as defined in RCW 74.09.520.

~~(2) ((The legislature is interested in assessing the effectiveness of the prenatal care program. However, the legislature recognizes the cost and complexity associated with such assessment.~~

~~The legislature accepts the effectiveness of prenatal and maternity care at improving birth outcomes when these services are received by eligible persons. Therefore, the legislature intends to focus scarce assessment resources to determine the extent to which support services such as child care, psychosocial and nutritional assessment and counseling, case management, transportation, and other support services authorized by chapter 296, Laws of 1990, result in receipt of prenatal and maternity care by eligible persons.~~

~~The University of Washington shall conduct a study, based on a statistically significant statewide sampling of data, to evaluate the effectiveness of the maternity care access program set forth in RCW 74.09.760 through 74.09.820 based on the principles set forth in RCW 74.09.770.~~

~~The University of Washington shall develop a plan and budget for the study in consultation with the joint legislative audit and review committee. The joint legislative audit and review committee shall also monitor the progress of the study.~~

~~The department of social and health services shall make data and other information available as needed to the University of Washington as required to conduct this study.~~

~~The study shall determine:~~

~~(a) The characteristics of women receiving services, including health risk factors;~~
~~(b) The extent to which access to maternity care and support services have improved in this state as a result of this program;~~

~~(c) The utilization of services and birth outcomes for women and infants served by this program by type of practitioner;~~
~~(d) The extent to which birth outcomes for women receiving services under this program have improved in comparison to birth outcomes of nonmedicaid mothers;~~

~~(e) The impact of increased medicaid reimbursement to physicians on provider participation;~~
~~(f) The difference between costs for services provided under this program and medicaid reimbursement for the services;~~
~~(g) The gaps in services, if any, that may still exist for women and their infants as defined by RCW 74.09.790 (1) and~~

~~(4) served by this program, excluding pregnant substance abusers, and women covered by private health insurance; and~~
~~(h) The number and mix of services provided to eligible women as defined by subsection (2)(g) of this section and the effect on birth outcomes as compared to nonmedicaid birth outcomes.))~~

Enrollment in the children's health program shall not result in expenditures that exceed the amount that has been appropriated for the program in the operating budget. If it appears that continued enrollment will result in expenditures exceeding the appropriated level for a particular fiscal year, the department may freeze new enrollment in the program for that year.

NEW SECTION. Sec. 3. This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2005."

POINT OF ORDER

Representative Hunt requested a scope and object ruling on amendment (603) to Substitute House Bill No. 2314.

SPEAKER'S RULING

The Speaker: "The Speaker finds that this is an act "relating to taxation and revenue." The purpose of the bill is to raise funds necessary for the operation of state government while providing tax relief for certain groups of taxpayers. The object of the act is to directly modify provisions relating to the tax statutes.

The amendment (603) would prohibit the sale of cigarettes and tobacco products. It does not amend any tax or revenue statutes. It amends criminal codes by creating the crime of selling cigarettes and tobacco products.

The Speaker therefore finds amendment (603) outside the scope and object of the bill, and therefore out of order.

Representative Hunt, your point of order is well taken."

Representative McIntire moved the adoption of amendment (606):

On page 67, line 2, after "116," insert "401 through 403,"

COMMERCIAL DISTRICT REVITALIZATION

NEW SECTION. Sec. 801. (1) The legislature finds:

(a) The continued economic vitality of downtown and neighborhood commercial districts in our state's cities is essential to community preservation, social cohesion, and economic growth;

(b) In recent years there has been a deterioration of downtown and neighborhood commercial districts in both rural and urban communities due to a shifting population base, changes in the marketplace, and greater competition from suburban shopping malls, discount centers, and business transacted through the internet;

(c) This decline has eroded the ability of businesses and property owners to renovate and enhance their commercial and residential properties; and

(d) Business owners in these districts need to maintain their local economies in order to provide goods and services to adjacent residents, to provide employment opportunities, to avoid disinvestment and economic dislocations, and to develop and sustain downtown and neighborhood commercial district revitalization programs to address these problems.

(2) It is the intent of the legislature to establish a program to:

(a) Work in partnership with these organizations;

(b) Provide technical assistance and training to local governments, business organizations, downtown and neighborhood commercial district organizations, and business and property owners to accomplish community and economic revitalization and development of business districts; and

The department may grant additional extensions as it deems proper.

(2) In making a determination whether the failure of a taxpayer to file an annual survey by the due date was the result of circumstances beyond the control of the taxpayer, the department shall be guided by rules adopted by the department for the waiver or cancellation of penalties when the underpayment or untimely payment of any tax was due to circumstances beyond the control of the taxpayer.

PART X ESTATES

Sec. 1001. RCW 83.100.--- and 2005 c ... (ESB 6096) s 4 are each amended to read as follows:

(1) For the purposes of determining the Washington taxable estate, a deduction is allowed from the federal taxable estate for ~~((the value of qualified real property and the value of any tangible personal property used primarily for farming purposes conducted on the qualified real property, reduced by any amounts allowable as a deduction in respect of the qualified real property and tangible personal property under section 2053(a)(4) of the Internal Revenue Code, if the decedent was at the time of his or her death a citizen or resident of the United States. For the purposes of determining the deduction amount, the value of property is its value as used to determine the value of the gross estate))~~:

(a) The value of qualified real property reduced by any amounts allowable as a deduction in respect of the qualified real property and tangible personal property under section 2053(a)(4) of the internal revenue code, if the decedent was at the time of his or her death a citizen or resident of the United States.

(b) The value of any tangible personal property used by the decedent or a member of the decedent's family for a qualified use on the date of the decedent's death, reduced by any amounts allowable as a deduction in respect of the tangible

personal property under section 2053(a)(4) of the internal revenue code, if all of the requirements of subsection (10)(f)(i)(A) of this section are met and the decedent was at the time of his or her death a citizen or resident of the United States.

(c) The value of real property that is not deductible under (a) of this subsection solely by reason of subsection (10)(f)(i)(B) of this section, reduced by any amounts allowable as a deduction in respect of the qualified real property and tangible personal property under section 2053(a)(4) of the internal revenue code, if the requirements of subsection (10)(f)(i)(C) of this section are met with respect to the property and the decedent was at the time of his or her death a citizen or resident of the United States.

(2) Property shall be considered to have been acquired from or to have passed from the decedent if:

(a) The property is so considered under section 1014(b) of the Internal Revenue Code;

(b) The property is acquired by any person from the estate; or

(c) The property is acquired by any person from a trust, to the extent the property is includible in the gross estate of the decedent.

(3) If the decedent and the decedent's surviving spouse at any time held qualified real property as community property, the interest of the surviving spouse in the property shall be taken into account under this section to the extent necessary to provide a result under this section with respect to the property which is consistent with the result which would have obtained under this section if the property had not been community property.

(4) In the case of any qualified woodland, the value of trees growing on the woodland may be deducted if otherwise qualified under this section.

(5) If property is qualified real property with respect to a decedent, hereinafter in this subsection referred to as the "first decedent," and the property was acquired from or passed from the first decedent to the surviving spouse of the first decedent, active management of the farm by the surviving spouse shall be treated as material participation by the surviving spouse in the operation of the farm.

(6) Property owned indirectly by the decedent may qualify for a deduction under this section if owned through an interest in a corporation, partnership, or trust as the terms corporation, partnership, or trust are used in section 2032A(g) of the Internal Revenue Code. In order to qualify for a deduction under this subsection, the interest, in addition to meeting the other tests for qualification under this section, must qualify under section 6166(b)(1) of the Internal Revenue Code as an interest in a closely held business on the date of the decedent's death and for sufficient other time, combined with periods of direct ownership, to equal at least five years of the eight-year period preceding the death.

(7)(a) If, on the date of the decedent's death, the requirements of subsection (10)(f)(i)(C)(II) of this section with respect to the decedent for any property are not met, and the decedent (i) was receiving old age benefits under Title II of the social security act for a continuous period ending on such date, or (ii) was disabled for a continuous period ending on this date, then subsection (10)(f)(i)(C)(II) of this section shall be applied with respect to the property by substituting "the date on which the longer of such continuous periods began" for "the date of the decedent's death" in subsection (10)(f)(i)(C) of this section.

(b) For the purposes of (a) of this subsection, an individual shall be disabled if the individual has a mental or physical impairment which renders that individual unable to materially participate in the operation of the farm.

(8) Property may be deducted under this section whether or not special valuation is elected under section 2032A of the Internal Revenue Code on the federal return. For the purposes of determining the deduction under this section, the value of property is its value as used to determine the value of the gross estate.

(9)(a) In the case of any qualified replacement property, any period during which there was ownership, qualified use, or material participation with respect to the replaced property by the decedent or any member of the decedent's family shall be treated as a period during which there was ownership, use, or material participation, as the case may be, with respect to the qualified replacement property.

(b) Subsection (9)(a) of this section shall not apply to the extent that the fair market value of the qualified replacement property, as of the date of its acquisition, exceeds the fair market value of the replaced property, as of the date of its disposition.

(c) For the purposes of this subsection (9), the following definitions apply:

(i) "Qualified replacement property" means any real property:

(A) Which is acquired in an exchange which qualifies under section 1031 of the Internal Revenue Code; or

(c) "Farming purposes" means:

(iii)(A) The planting, cultivating, caring for, or cutting of trees; or

(B) The preparation, other than milling, of trees for market.

(d) "Member of the family" means, with respect to any individual, only:

(e) "Qualified heir" means, with respect to any property, a member of the decedent's family who acquired property, or to whom property passed, from the decedent.

(f)(i) "Qualified real property" means real property which was acquired from or passed from the decedent to a qualified heir of the decedent and which, on the date of the decedent's death, was being used for a qualified use by the decedent or a member of the decedent's family, but only if:

(A) Fifty percent or more of the adjusted value of the gross estate consists of the adjusted value of real or personal property which:

(I) On the date of the decedent's death, was being used for a qualified use by the decedent or a member of the decedent's family; and

(II) Was acquired from or passed from the decedent to a qualified heir of the decedent;

(B) Twenty-five percent or more of the adjusted value of the gross estate consists of the adjusted value of real property which meets the requirements of (f)(i)(A)(II) and (f)(i)(C) of this subsection; and

(C) During the eight-year period ending on the date of the decedent's death there have been periods aggregating five years or more during which:

(I) The real property was owned by the decedent or a member of the decedent's family and used for a qualified use by the decedent or a member of the decedent's family; and

(II) There was material participation by the decedent or a member of the decedent's family in the operation of the farm.

For the purposes of this subsection (f)(i)(C)(II), material participation shall be determined in a manner similar to the manner used for purposes of section 1402(a)(1) of the Internal Revenue Code.

(ii) For the purposes of this subsection, the term "adjusted value" means:

(A) In the case of the gross estate, the value of the gross estate, determined without regard to any special valuation under section 2032A of the Internal Revenue Code, reduced by any amounts allowable as a deduction under section 2053(a)(4) of the Internal Revenue Code; or

(B) In the case of any real or personal property, the value of the property for purposes of chapter 11 of the Internal Revenue Code, determined without regard to any special valuation under section 2032A of the Internal Revenue Code, reduced by any amounts allowable as a deduction in respect of such property under section 2053(a)(4) of the Internal Revenue Code.

(g) "Qualified use" means the property is used as a farm for farming purposes. In the case of real property which meets the requirements of (f)(i)(C) of this subsection, residential buildings and related improvements on the real property occupied on a regular basis by the owner or lessee of the real property or by persons employed by the owner or lessee for the purpose of operating or maintaining the real property, and roads, buildings, and other structures and improvements functionally related to the qualified use shall be treated as real property devoted to the qualified use. For tangible personal property eligible for a deduction under subsection (1)(b) of this section, "qualified use" means the property is used primarily for farming purposes on a farm.

(h) "Qualified woodland" means any real property which:

(i) Is used in timber operations; and

(ii) Is an identifiable area of land such as an acre or other area for which records are normally maintained in conducting timber operations.

(i) "Timber operations" means:

(2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040. The value of the land transferred shall be deposited in the natural resources real property replacement account. These funds shall be expended by the department for the exclusive purpose of acquiring nonagricultural real property of equal value to be managed as common school trust land.

(3) Except as provided under subsection (11) of this section, property subject to easement/lease agreements under this section shall be appraised at fair market value both with and without the imposition of the easement/lease. The entire difference in appraised value shall be deposited by the department to the common school construction fund in the same manner as lease revenues from other common school trust lands. No deduction shall be made for the resource management cost account under RCW 79.64.040.

(6) Prior to or concurrent with conveyance of these properties, the department, with full cooperation of the receiving agencies, shall execute and record a real property instrument that dedicates the transferred properties to the purposes identified in subsection (1) of this section for a minimum period of thirty years. The department, in consultation with the receiving state agencies, shall develop policy to address requests to replace transferred properties subject to the recorded property instrument that are no longer deemed appropriate for the purposes identified in subsection (1) of this section.

(7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) Except as provided in subsection (11) of this section, the department shall execute trust land transfers and easements/leases such that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the appropriation in this section is deposited in the common school construction fund. To achieve the 80:20 ratio, the department may offset transfers of property with low timber-to-land ratios with easements/leases on other properties.

(9) On June 30, 2007, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction fund and the appropriations in this section shall be reduced by an equivalent amount.

The appropriation in this section is subject to the following conditions and limitations: The appropriation is provided solely for the Washington state institute for public policy to study options to stabilize future prison population. The legislature intends to examine options that could stabilize the adult inmate population growth at the projected 2007 level in order to avoid construction of major prison facilities after construction of the Coyote Ridge correctional center. To do this, the legislature finds that sentencing options need to be examined in conjunction with prevention and intervention programs. The legislature finds that existing and current research underway by the Washington state institute for public policy can be synthesized to develop these options, in conjunction with sentencing options that will be developed by the sentencing guidelines commission. The Washington state institute for public policy shall build on the study required by chapter . . . (Engrossed Substitute Senate Bill No. 5763 (mental disorders treatment)), Laws of 2005, and study the net short-run and long-run fiscal savings to state and local governments of implementing evidence-based treatment human service and corrections programs and policies, including prevention and intervention programs, sentencing alternatives, and the use of risk factors in sentencing. The institute shall use the results from its 2004 report on cost-beneficial prevention and early intervention programs and its work on effective adult

corrections programs to project total fiscal impacts under alternative implementation scenarios. The institute shall provide an interim report to the appropriate committees of the legislature by January 1, 2006, and a final report by October 1, 2006.

The appropriation in this section is subject to the following conditions and limitations:

(1) Pursuant to definitions and provisions in section 925, chapter 26, Laws of 2003 1st sp. sess., the appropriation is provided solely to maintain facilities housing educational and general programs and to maintain its major building systems and campus infrastructure. Building maintenance, mechanical adjustments, repairs, and minor works for the facility or its major building systems and campus infrastructure must extend the remaining useful life of the facility or keep it safe and functioning normally.

(2) With this appropriation, the intent is to improve the average condition of state facilities as compared to the baseline conditions documented in report 03-1 of the joint legislative audit and review committee. Preventive facility maintenance project funds shall be allocated at the state board's discretion to achieve the above stated performance goal, with particular attention given to buildings currently rated in superior to adequate condition so as to maximize useful life given both the passage of time and intensity with which the space is used.

PART 6
MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS

MISCELLANEOUS PROVISIONS

NEW SECTION. Sec. 901. The estimated debt service costs impacting future general fund expenditures related solely to new capital appropriations within this act are \$19,503,912 during the 2005-2007 fiscal period; \$128,151,322 during the 2007-2009 fiscal period; \$200,451,220 during the 2009-2011 fiscal period; \$207,686,311 during the 2011-2013 fiscal period; and \$210,558,739 during the 2013-2015 period.

NEW SECTION. Sec. 902. (1) Allotments for appropriations in this act shall be provided in accordance with the capital project review requirements adopted by the office of financial management. The office of financial management shall notify the house of representatives capital budget committee and the senate ways and means committee of allotment releases based on review by the office of financial management. No expenditure may be incurred or obligation entered into for appropriations in this act until the office of financial management has given final approval to the allotment of the funds to be expended or encumbered. For allotments under this act, the allotment process includes, in addition to the statement of proposed expenditures for the current biennium, a category or categories for any reserve amounts and amounts expected to be expended in

future biennia. Projects that will be employing alternative public works construction procedures under chapter 39.10 RCW are subject to the allotment procedures defined in this section and RCW 43.88.110. Contracts shall not be executed that call for expenditures in excess of the approved allotment, and the total amount shown in such contracts for the cost of future work that has not been appropriated shall not exceed the amount identified for such work in the level of funding approved by the office of financial management at the completion of predesign.

(2) The legislature intends that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

NEW SECTION. Sec. 903. To ensure that major construction projects are carried out in accordance with legislative and executive intent, appropriations in this act in excess of \$5,000,000 shall not be expended or encumbered until the office of financial management has reviewed and approved the agency's predesign and other documents, and approved an allotment for the project that includes specific authorization to enter into a contract to expend or encumber funds. The predesign document shall include but not be limited to program, site, and cost analysis in accordance with the predesign manual adopted by the office of financial management. To improve monitoring of major construction projects, progress reports shall be submitted by the agency administering the project to the office of financial management and to the fiscal committees of the house of representatives and senate. Reports will be submitted on July 1st and December 31st each year in a format to be developed by the office of financial management.

NEW SECTION. Sec. 904. Appropriations in this act for design and construction of facilities on higher education campuses shall be expended only after funds are allotted to institutions of higher education on the basis of: (1) Comparable unit cost standards, as determined by the office of financial management in consultation with the higher education coordinating board; (2) costs consistent with other higher education teaching facilities in the state; and (3) student full-time equivalent enrollment levels as established by the office of financial management in consultation with the higher education coordinating board.

NEW SECTION. Sec. 905. (1) To ensure that minor works appropriations are carried out in accordance with legislative intent, funds appropriated in this act shall not be allotted until project lists are on file at the office of financial management and the office of financial management has formally approved the lists. Proposed revisions to the lists must be filed with and approved by the office of financial management before funds may be expended on the revisions.

(2)(a) Minor works projects are single line appropriations that include multiple projects valued between \$25,000 and \$1,000,000 each that are of a similar nature and can generally be completed within two years of the appropriation with the funding provided. Minor works categories include (i) health, safety, and code requirements; (ii) facility preservation; (iii) infrastructure preservation; and (iv) program improvement or expansion. Improvements for accessibility in compliance with the Americans with disabilities act may be included in any of the above minor works categories.

(b) Minor works appropriations shall not be used for, among other things: Studies, except for technical or engineering reviews or designs that lead directly to and support a project on the same minor works list; planning; design outside the scope of work on a minor works list; moveable, temporary, and traditionally funded operating equipment not in compliance with the equipment criteria established by the office of financial management; software not dedicated to control of a specialized system; moving expenses; land or facility acquisition; or to supplement funding for projects with funding shortfalls unless expressly authorized elsewhere in this act. The office of financial management may make an exception to the limitations described in this subsection (2)(b) for exigent circumstances after notifying the legislative fiscal committees and waiting ten days for comments by the legislature regarding the proposed exception.

(3) The office of financial management shall forward copies of these project lists and revised lists to the house of representatives capital budget committee and the senate ways and means committee. No expenditure may be incurred or obligation entered into for minor works appropriations until the office of financial management has approved the allotment of the funds to be expended. The office of financial management shall encourage state agencies to incorporate accessibility planning and improvements into the normal and customary capital program.

(4) It is generally not intended to make future appropriations for capital expenditures or for maintenance and operating expenses for an acquisition project or a significant expansion project that is initiated through the minor works process and therefore does not receive a policy and fiscal analysis by the legislature. Minor works projects are intended to be one-time expenditures that do not require future state resources to complete.

NEW SECTION. Sec. 906. (1) The governor, through the office of financial management, may authorize a transfer of appropriation authority provided for a capital project that is in excess of the amount required for the completion of such project to

another capital project for which the appropriation is insufficient. No such transfer may be used to expand the capacity of any facility beyond that intended by the legislature in making the appropriation. Such transfers may be effected only between capital appropriations to a specific department, commission, agency, or institution of higher education and only between capital projects that are funded from the same fund or account. No transfers may occur between projects to local government agencies except where the grants are provided within a single omnibus appropriation and where such transfers are specifically authorized by the implementing statutes that govern the grants.

(2) For purposes of this section, the governor may find that an amount is in excess of the amount required for the completion of a project only if: (a) The project as defined in the notes to the budget document is substantially complete and there are funds remaining; or (b) bids have been let on a project and it appears to a substantial certainty that the project as defined in the notes to the budget document can be completed within the biennium for less than the amount appropriated in this act.

(3) For the purposes of this section, the intent is that each project be defined as proposed to the legislature in the governor's budget document, unless it clearly appears from the legislative history that the legislature intended to define the scope of a project in a different way.

(4) Transfers of funds to an agency's infrastructure savings appropriation are subject to review and approval by the office of financial management. Expenditures from an infrastructure savings appropriation are limited to projects that have a primary purpose to correct infrastructure deficiencies or conditions that: (a) Adversely affect the ability to utilize the infrastructure for its current programmatic use; (b) reduce the life expectancy of the infrastructure; or (c) increase the operating costs of the infrastructure for its current programmatic use. Eligible infrastructure projects may include structures and surface improvements, site amenities, utility systems outside building footprints and natural environmental changes or requirements as part of an environmental regulation, a declaration of emergency for an infrastructure issue in conformance with RCW 43.88.250, or infrastructure planning as part of a facility master plan.

(5) A report of any transfer effected under this section, except emergency projects or any transfer under \$250,000, shall be filed with the legislative fiscal committees of the senate and house of representatives by the office of financial management at least thirty days before the date the transfer is effected. The office of financial management shall report all emergency or smaller transfers within thirty days from the date of transfer.

NEW SECTION. Sec. 907. (1) It is expected that projects be ready to proceed in a timely manner depending on the type or phase of the project or program that is the subject of the appropriation in this act. Except for major projects that customarily may take more than two biennia to complete from predesign to the end of construction, or large infrastructure grant or loan programs supporting projects that often take more than two biennia to complete, the legislature generally does not intend to reappropriate funds more than once, particularly for smaller grant programs, local/community projects, and minor works.

(2) Agencies shall expedite the expenditure of reappropriations and appropriations in this act in order to: (a) Rehabilitate infrastructure resources; (b) accelerate environmental rehabilitation and restoration projects for the improvement of the state's natural environment; (c) reduce additional costs associated with acquisition and construction inflationary pressures; and (d) provide additional employment opportunities associated with capital expenditures.

(3) To the extent feasible, agencies are directed to accelerate expenditure rates at their current level of permanent employees and shall use contracted design and construction services wherever necessary to meet the goals of this section.

(4) The office of financial management shall report the following to the appropriate fiscal committees of the legislature by January 30, 2007: (a) A listing of reappropriations in the governor's 2007-2009 capital budget recommendation that will be reappropriated more than once and have ten percent or more of the original appropriation unexpended; and (b) an explanation of why the appropriation remains unexpended.

NEW SECTION. Sec. 908. The legislature finds that the state's public four-year institutions and the higher education coordinating board have made substantial progress in developing a process to create a single prioritized list of capital project requests as required under RCW 28B.76.220. The legislature also recognizes that continuing work by the institutions and the board is needed to refine the methodology for determining the ranking of project requests, and that this work will benefit from additional legislative guidance. Therefore, the higher education coordinating board and the public four-year institutions, in developing and submitting the single prioritized project list of capital project requests under RCW 28B.76.220, shall use the following additional guidelines:

(1) Representatives of the board shall participate in the process of scoring projects using the criteria in the board's biennial budget guidelines. Representatives of the board shall also review the preliminary project list to verify the scoring and ranking of projects. As required under RCW 28B.76.210, institutions must submit the preliminary project list to the board by August 1st of each even-numbered year to enable this review. Any disagreements over project scorings or rankings shall be resolved as provided under RCW 28B.76.220(4).

(2) The board's biennial budget guidelines and the prioritization process shall place a greater emphasis on early critical review of project proposals at the pre-design phase, rather than deferring critical review and prioritization to the design or construction phases of a project.

(3) When projects are aggregated into single line-item requests, each project must meet the definition of minor works according to the capital budget instructions issued by the office of financial management. All major projects must be listed and ranked as individual line-item requests.

(4) The scoring and ranking of projects shall not be based on assigning an equal number of overall points to each public four-year institution, but shall reflect an assignment of points to individual projects based on the priorities and criteria in this section and in the board's biennial budget guidelines.

(5) Projects shall not be ranked on the basis of a project funding source.

(6) In consultation with the appropriate fiscal and policy committees of the legislature, the board shall identify statewide priorities for higher education capital investments and incorporate those priorities into its biennial budget guidelines. The statewide priorities shall address the need for higher education capital projects to:

- (a) Implement a specific legislatively authorized program or planning priority;
- (b) Reduce the backlog of deferred building or system preservation, renewal, or replacement;
- (c) Provide additional capacity or adaptation of space for high demand instructional or research programs;
- (d) Provide additional instructional program capacity for under-served geographic regions or populations; and
- (e) Reflect institutional planning priorities and areas of emphasis.

(7) The board's biennial budget guidelines shall include a quantitative method for scoring projects on the identified priorities. The quantitative method shall include use of the facility condition index developed by the joint legislative audit and review committee for assessing building or system condition, and use of the board's space utilization and allocation standards for assessing the need for additional capacity.

NEW SECTION. Sec. 909. ACQUISITION OF PROPERTIES AND FACILITIES THROUGH FINANCIAL CONTRACTS. The following agencies may enter into financial contracts, paid from any funds of an agency, appropriated or nonappropriated, for the purposes indicated and in not more than the principal amounts indicated, plus financing expenses and required reserves pursuant to chapter 39.94 RCW. (1) One-half of one percent of moneys appropriated in this act for original construction of school plant facilities is provided solely for the purposes of RCW 28A.335.210. The Washington state arts commission may combine the proceeds from individual projects in

order to fund larger works of art or mobile art displays in consultation with the superintendent of public instruction and representatives of school district boards.

(2) One-half of one percent of moneys appropriated in this act for original construction or any major renovation or remodel work exceeding two hundred thousand dollars by colleges or universities is provided solely for the purposes of RCW 28B.10.027. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the board of regents or trustees.

(3) One-half of one percent of moneys appropriated in this act for original construction of any public building by a state agency as defined in RCW 43.17.020 is provided solely for the purposes of RCW 43.17.200. The Washington state arts commission may combine the proceeds from individual projects in order to fund larger works of art or mobile art displays in consultation with the state agency.

(4) At least eighty-five percent of the moneys spent by the Washington state arts commission during the 2005-2007 biennium for the purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended solely for direct acquisition of works of art. The commission may use up to \$100,000 of this amount to contract for service to conserve or maintain existing pieces in the state art collection pursuant to chapter . . . (House Bill No. 2188 (funding the conservation of the state art collection)), Laws of 2005.

NEW SECTION. Sec. 911. The amounts shown under the headings "Prior Biennia," "Future Biennia," and "Total" in this act are for informational purposes only and do not constitute legislative approval of these amounts. "Prior biennia" typically refers to the immediate prior biennium for reappropriations, but may refer to multiple biennia in the case of specific projects. A "future biennia" amount is an estimate of what may be appropriated for the project or program in the 2007-09 biennium and the following four biennia; an amount of zero does not necessarily constitute legislative intent to not provide funding for the project or program in the future.

NEW SECTION. Sec. 912. "Reappropriations" in this act are appropriations and, unless the context clearly provides otherwise, are subject to the relevant conditions and limitations applicable to appropriations. Reappropriations shall be limited to the unexpended balances remaining on June 30, 2005, from the 2003-2005 biennial appropriations for each project.

NEW SECTION. Sec. 913. To carry out the provisions of this act, the governor may assign responsibility for predesign, design, construction, and other related activities to any appropriate agency.

NEW SECTION. Sec. 914. If any federal moneys appropriated by this act for capital projects are not received by the state, the department or agency to which the moneys were appropriated may replace the federal moneys with funds available from private or local sources. No replacement may occur under this section without the prior approval of the director of financial management in consultation with the senate ways and means committee and the house of representatives capital budget committee.

NEW SECTION. Sec. 915. (1) Unless otherwise stated, for all appropriations under this act that require a match of nonstate money or in-kind contributions, the following requirement, consistent with RCW 43.88.150, shall apply: Expenditures of state money shall be timed so that the state share of project expenditures never exceeds the intended state share of total project costs.

(2) Provision of the full amount of required matching funds is not required to permit the expenditure of capital budget appropriations for phased projects if a proportional amount of the required matching funds is provided for each distinct, identifiable phase of the project.

NEW SECTION. Sec. 916. Any capital improvements or capital projects involving construction or major expansion of a state office facility, including, but not limited to, district headquarters, detachment offices, and off-campus faculty offices, must be reviewed by the department of general administration for possible consolidation, colocation, and compliance with state office standards before allotment of funds. The intent of the requirement imposed by this section is to eliminate duplication and reduce total office space requirements where feasible, while ensuring proper service to the public.

NEW SECTION. Sec. 917. The military department shall file quarterly progress reports in addition to the annual project progress reporting requirement of RCW 43.88.160(3). These reports must contain local, state, and federal funding reconciliation and balance sheets for all appropriated readiness center projects and detail any federal intentions on future readiness centers and other facilities.

NEW SECTION. Sec. 918. NONTAXABLE AND TAXABLE BOND PROCEEDS. Portions of the appropriation authority granted by this act from the state building construction account, or any other account receiving bond proceeds, may be transferred to the state taxable building construction account as deemed necessary by the state finance committee to comply with the federal internal revenue service rules and regulations pertaining to the use of nontaxable bond proceeds. The state treasurer shall submit written notification to the director of financial management if it is determined that a shift of appropriation authority from the state building construction account, or any other account receiving bond proceeds, to the state taxable building construction account is necessary.

NEW SECTION. Sec. 919. The office of financial management, in consultation with the department of general administration, shall identify capital projects that may benefit from an energy analysis to determine whether there are alternate, more economical, and energy efficient means of completing the work. The office of financial management shall hold appropriations in allotment reserve on the following types of capital projects until this analysis can be completed: Heating, ventilation, and air conditioning modifications, chiller plants, steam plants, boilers, chilled water or steam lines, building control systems, lighting improvements, or other major energy using systems that may warrant additional analysis. Agencies receiving appropriations for such projects are encouraged to utilize energy performance contracts or alternative financing for equipment in lieu of state appropriated funds. The office of financial management may transfer funds remaining in allotment reserve to infrastructure savings projects within the agency that has realized savings from energy efficiency alternatives.

Sec. 920. RCW 43.135.045 and 2003 1st sp.s. c 25 s 920 are each amended to read as follows:

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction. During the fiscal years beginning July 1, 2005, and ending June 30, 2007, funds may also be used for higher education facilities preservation and maintenance.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

(6) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency reserve fund an amount necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the

transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated. No transfers from the emergency reserve fund to the multimodal fund shall be made during the 2003-05 fiscal biennium.

Sec. 921. RCW 43.88.032 and 1997 c 96 s 5 are each amended to read as follows:

(1) Normal maintenance costs, except for funds appropriated for facility preservation of state institutions of higher education, shall be programmed in the operating budget rather than in the capital budget.

(2) All debt-financed pass-through money to local governments shall be programmed and separately identified in the budget document.

Sec. 922. RCW 28B.50.360 and 2004 c 277 s 910 are each amended to read as follows:

Within thirty-five days from the date of start of each quarter all collected building fees of each such community and technical college shall be paid into the state treasury, and shall be credited as follows:

(1) On or before June 30th of each year the college board if issuing bonds payable out of building fees shall certify to the state treasurer the amounts required in the ensuing twelve-month period to pay and secure the payment of the principal of and interest on such bonds. The state treasurer shall thereupon deposit the amounts so certified in the community and technical college capital projects account. Such amounts of the funds deposited in the community and technical college capital projects account as are necessary to pay and secure the payment of the principal of and interest on the building bonds issued by the college board as authorized by this chapter shall be exclusively devoted to that purpose. If in any twelve-month period it shall appear that the amount certified by the college board is insufficient to pay and secure the payment of the principal of and interest on the outstanding building bonds, the state treasurer shall notify the college board and such board shall adjust its certificate so that all requirements of moneys to pay and secure the payment of the principal and interest on all such bonds then outstanding shall be fully met at all times.

(2) The community and technical college capital projects account is hereby created in the state treasury. The sums deposited in the capital projects account shall be appropriated and expended exclusively to pay and secure the payment of the principal of and interest on bonds payable out of the building fees and for the construction, reconstruction, erection, equipping, maintenance, demolition and major alteration of buildings and other capital assets owned by the state board for community and technical colleges in the name of the state of Washington, and the acquisition of sites, rights-of-way, easements, improvements or appurtenances in relation thereto, ~~((and, during the 2003-05 biennium,))~~ engineering and architectural services provided by the department of general administration, and for the payment of principal of and interest on any bonds issued for such purposes.

NEW SECTION. **Sec. 923.** The department of general administration shall not sell or otherwise dispose of the Tacoma Rhodes building without legislative approval. The department shall submit a business plan for the building, to include an assessment of whether this building is surplus to the state's needs and whether other state agency tenants might be housed in the building, by December 1, 2005, to the appropriate committees of the legislature.

NEW SECTION. **Sec. 924.** In accordance with the recommendation of the joint legislative audit and review committee report "Performance Audit of Capital Budget Processes," the office of financial management shall develop a plan, in consultation with legislative fiscal committees, to address weaknesses identified in that report in the oversight of facility projects. The report shall address, but not be limited to:

- (1) Aligning resources to program workload;
- (2) Identifying and institutionalizing best practices;
- (3) Creating easily accessible and reliable information systems; and
- (4) Improving the review and evaluation of projects at the predesign stage prior to the authorization of design and construction.

The office of financial management shall report on its plan to the governor and the senate committee on ways and means and house of representatives capital budget committee no later than December 1, 2005.

Sec. 925. RCW 43.155.050 and 2001 c 131 s 2 are each amended to read as follows:

The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal

law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans. For the 2005-2007 biennium, moneys in the account may be used for grants for projects identified in section 138 of this act.

(xii) Development and demonstration of alternative management technologies designed to carry out the top two hazardous waste management priorities of RCW 70.105.150.

(3) The following moneys shall be deposited into the local toxics control account: Those revenues which are raised by the tax imposed under RCW 82.21.030 and which are attributable to that portion of the rate equal to thirty-seven one-hundredths of one percent.

During the 2005-2007 fiscal biennium, moneys in the account may also be used for grants to local governments to retrofit public sector diesel equipment and for storm water planning and implementation activities.

(b) Funds may also be appropriated to the department of health to implement programs to reduce testing requirements under the federal safe drinking water act for public water systems. The department of health shall reimburse the account from fees assessed under RCW 70.119A.115 by June 30, 1995.

(5) One percent of the moneys deposited into the state and local toxics control accounts shall be allocated only for public participation grants to persons who may be adversely affected by a release or threatened release of a hazardous substance and to not-for-profit public interest organizations. The primary purpose of these grants is to facilitate the participation by persons and organizations in the investigation and remedying of releases or threatened releases of hazardous substances and to implement the state's solid and hazardous waste management priorities. However, during the 1999-2001 fiscal biennium, funding may not be granted to entities engaged in lobbying activities, and applicants may not be awarded grants if their cumulative grant awards under this section exceed two hundred thousand dollars. - (2) Property transferred under this section shall be appraised and transferred at fair market value. The value of the timber transferred shall be deposited by the department to the common school construction account in the same manner as timber

(3) Property subject to easement/lease agreements under this section shall be appraised at fair market value both with and without the imposition of the easement/lease. The entire difference in appraised value shall be deposited by the department to the common school construction fund in the same manner as lease revenues from other common school trust lands. (7) The department and receiving agencies shall work in good faith to carry out the intent of this section. However, the department or receiving agencies may remove a property from the transfer list based on new, substantive information, if it is determined that transfer of the property is not in the statewide interest of either the common school trust or the receiving agency.

(8) Except as provided in subsections (12) and (13) of this section, the department shall execute trust land transfers and easements/leases such that, after the deduction of reasonable costs as provided in subsection (4) of this section, eighty percent of the appropriation in this section is deposited in the common school construction fund. To achieve the 80:20 ratio, the department may offset transfers of property with low timber-to-land ratios with easements/leases on other properties.

(9) On June 30, 2005, the state treasurer shall transfer all remaining uncommitted funds from this appropriation to the common school construction fund, except as provided in subsection (13) of this section, and the appropriation in this section shall be reduced by an equivalent amount.

Revenues derived from leases under this subsection shall be deposited in the appropriate account as provided by law.

(13) Up to \$4,500,000 of the appropriation from the state building construction account--state appropriation is provided for the transfer of trust land known as Harbour Pointe to the city of Mukilteo. "Sec. 1. RCW 29A.04.008 and 2004 c 271 s 102 are each amended to read as follows:

- (3) "Ballot card" means any type of card or piece of paper of any size on which a voter may record his or her choices for any candidate and for or against any measure and that is to be tabulated on a vote tallying system;
- (4) "Sample ballot" means a printed facsimile of all the issues and offices on the ballot in a jurisdiction and is intended to give voters notice of the issues, offices, and candidates that are to be voted on at a particular primary, general election, or special election;
- (5) "Provisional ballot" means a ballot issued (~~to a voter~~) at the polling place on election day by the precinct election board(~~(, for one of the following reasons))~~ to a voter who would otherwise be denied an opportunity to vote a regular ballot, for any reason authorized by the help America vote act, including but not limited to the following:
 - (a) The voter's name does not appear in the poll book;
 - (b) There is an indication in the poll book that the voter has requested an absentee ballot, but the voter wishes to vote at the polling place;
 - (c) There is a question on the part of the voter concerning the issues or candidates on which the voter is qualified to vote;
 - (d) Any other reason allowed by law;

Sec. 2. RCW 29A.04.530 and 2003 c 111 s 151 are each amended to read as follows:

The secretary of state shall:

- (1) Establish and operate, or provide by contract, training and certification programs for state and county elections administration officials and personnel, including training on the various types of election law violations and discrimination, and training programs for political party observers which conform to the rules for such programs established under RCW 29A.04.630;

(2) Establish guidelines, in consultation with state and local law enforcement or certified document examiners, for signature verification processes. All election personnel assigned to verify signatures must receive training on the guidelines;

(3) Administer tests for state and county officials and personnel who have received such training and issue certificates to those who have successfully completed the training and passed such tests;

~~((3))~~ (4) Maintain a record of those individuals who have received such training and certificates; and

~~((4))~~ (5) Provide the staffing and support services required by the board created under RCW 29A.04.510.

NEW SECTION. Sec. 3. A new section is added to chapter 29A.36 RCW to read as follows:

All provisional and absentee ballots must be visually distinguishable from each other and must be either:

(1) Printed on colored paper; or

(2) Imprinted with a bar code for the purpose of identifying the ballot as a provisional or absentee ballot. The bar code must not identify the voter.

Provisional and absentee ballots must be incapable of being tabulated by poll-site counting devices.

Sec. 4. RCW 29A.40.091 and 2004 c 271 s 135 are each amended to read as follows:

The county auditor shall send each absentee voter a ballot, a security envelope in which to seal the ballot after voting, a larger envelope in which to return the security envelope, and instructions on how to mark the ballot and how to return it to the county auditor. The instructions that accompany an absentee ballot for a partisan primary must include instructions for voting the applicable ballot style, as provided in chapter 29A.36 RCW. The absentee voter's name and address must be printed on the larger return envelope, which must also contain a declaration by the absentee voter reciting his or her qualifications and stating that he or she has not voted in any other jurisdiction at this election, together with a summary of the penalties for any violation of any of the provisions of this chapter. The declaration must clearly inform the voter that it is illegal to vote if he or she is not a United States citizen; it is illegal to vote if he or she has been convicted of a felony and has not had his or her voting rights restored; and, except as otherwise provided by law, it is illegal to cast a ballot or sign an absentee envelope on behalf of another voter. The return envelope must provide space for the voter to indicate the date on which the ballot was voted and for the voter to sign the oath. It must also contain a space that the voter may include a telephone number. A summary of the applicable penalty provisions of this chapter must be printed on the return envelope immediately adjacent to the space for the voter's signature. The signature of the voter on the return envelope must affirm and attest to the statements regarding the qualifications of that voter and to the validity of the ballot. The return envelope must also have a secrecy flap that the voter may seal that will cover the voter's signature and optional telephone number. For out-of-state voters, overseas voters, and service voters, the signed declaration on the return envelope constitutes the equivalent of a voter registration for the election or primary for which the ballot has been issued. The voter must be instructed to either return the ballot to the county auditor by whom it was issued or attach sufficient first class postage, if applicable, and mail the ballot to the appropriate county auditor no later than the day of the election or primary for which the ballot was issued.

If the county auditor chooses to forward absentee ballots, he or she must include with the ballot a clear explanation of the qualifications necessary to vote in that election and must also advise a voter with questions about his or her eligibility to contact the county auditor. This explanation may be provided on the ballot envelope, on an enclosed insert, or printed directly on the ballot itself. If the information is not included, the envelope must clearly indicate that the ballot is not to be forwarded and that return postage is guaranteed.

Sec. 5. RCW 29A.40.110 and 2003 c 111 s 1011 are each amended to read as follows:

(1) The opening and subsequent processing of return envelopes for any primary or election may begin ~~((on or after the tenth day before the primary or election))~~ upon receipt. The tabulation of absentee ballots must not commence until after 8:00 p.m. on the day of the primary or election.

(2) All received absentee return envelopes must be placed in secure locations from the time of delivery to the county auditor until their subsequent opening. After opening the return envelopes, the county canvassing board shall place all of the ballots in secure storage until after 8:00 p.m. of the day of the primary or election. Absentee ballots that are to be tabulated on an electronic vote tallying system may be taken from the inner envelopes and all the normal procedural steps may be performed to prepare these ballots for tabulation.

(3) Before opening a returned absentee ballot, the canvassing board, or its designated representatives, shall examine the postmark, statement, and signature on the return envelope that contains the security envelope and absentee ballot. They shall verify that the voter's signature on the return envelope is the same as the signature of that voter in the registration files of the county. For registered voters casting absentee ballots, the date on the return envelope to which the voter has attested determines the validity, as to the time of voting for that absentee ballot if the postmark is missing or is illegible. For out-of-state voters,

overseas voters, and service voters stationed in the United States, the date on the return envelope to which the voter has attested determines the validity as to the time of voting for that absentee ballot. For any absentee ballot, a variation between the signature of the voter on the return envelope and the signature of that voter in the registration files due to the substitution of initials or the use of common nicknames is permitted so long as the surname and handwriting are clearly the same.

NEW SECTION. Sec. 6. A new section is added to chapter 29A.44 RCW to read as follows:

Provisional ballots must be issued, along with a provisional ballot outer envelope and a security envelope, to voters as appropriate under RCW 29A.04.008. The provisional ballot outer envelope must include a place for the voter's name; registered address, both present and former if applicable; date of birth; reason for the provisional ballot; the precinct number and the precinct polling location at which the voter has voted; and a space for the county auditor to list the disposition of the provisional ballot. The provisional ballot outer envelope must also contain a declaration as required for absentee ballot outer envelopes under RCW 29A.40.091; a place for the voter to sign the oath; and a summary of the applicable penalty provisions of this chapter. The voter shall vote the provisional ballot in secrecy and, when done, place the provisional ballot in the security envelope, then place the security envelope into the outer envelope, and return it to the precinct election official. The election official shall ensure that the required information is completed on the outer envelope, have the voter sign it in the appropriate space, and place the envelope in a secure container. The official shall then give the voter written information advising the voter how to ascertain whether the vote was counted and, if applicable, the reason why the vote was not counted.

NEW SECTION. Sec. 7. A new section is added to chapter 29A.44 RCW to read as follows:

Any person desiring to vote at any primary or election is required to provide identification to the election officer before signing the poll book. The identification required in this section can be satisfied by providing a valid photo identification, such as a driver's license or state identification card, student identification card, or tribal identification card, a voter's voter identification issued by a county elections officer, or a copy of a current utility bill, bank statement, paycheck, or government check or other government document. Any individual who desires to vote in person but cannot provide identification as required by this section shall be issued a provisional ballot.

The secretary of state may adopt rules to carry out this section.

NEW SECTION. Sec. 8. A new section is added to chapter 29A.60 RCW to read as follows:

(1) If the voter neglects to sign the outside envelope of an absentee or provisional ballot, the auditor shall notify the voter by telephone and advise the voter of the correct procedures for completing the unsigned affidavit. If the auditor is not able to provide the information personally to the voter by telephone, then the voter must be contacted by first class mail and advised of the correct procedures for completing the unsigned affidavit. Leaving a voice mail message for the voter is not to be considered as personally contacting the voter. In order for the ballot to be counted, the voter must either:

- (a) Appear in person and sign the envelope no later than the day before the certification of the primary or election; or
- (b) Sign a copy of the envelope provided by the auditor, and return it to the auditor no later than the day before the certification of the primary or election.

(2)(a) If the handwriting of the signature on an absentee or provisional ballot envelope is not the same as the handwriting of the signature on the registration file, the auditor shall notify the voter by telephone and advise the voter of the correct procedures for updating his or her signature on the voter registration file. If the auditor is not able to provide the information personally to the voter by telephone, then the voter must be contacted by first class mail and advised of the correct procedures for completing the unsigned affidavit. Leaving a voice mail message for the voter is not to be considered as personally contacting the voter. In order for the ballot to be counted, the voter must either:

- (i) Appear in person and sign a new registration form no later than the day before the certification of the primary or election; or
- (ii) Sign a copy of the affidavit provided by the auditor and return it to the auditor no later than the day before the certification of the primary or election. If the signature on the copy of the affidavit does not match the signature on file, the voter must appear in person and sign a new registration form no later than the day before the certification of the primary or election in order for the ballot to be counted.

(b) If the signature on an absentee or provisional ballot envelope is not the same as the signature on the registration file because the name is different, the ballot may be counted as long as the handwriting is clearly the same. The auditor shall send the voter a change-of-name form under RCW 29A.08.440 and direct the voter to complete the form.

(c) If the signature on an absentee or provisional ballot envelope is not the same as the signature on the registration file because the voter used initials or a common nickname, the ballot may be counted as long as the surname and handwriting are clearly the same.

(3) A voter may not cure a missing or mismatched signature for purposes of counting the ballot in a recount.

(4) A record must be kept of all ballots with missing and mismatched signatures. The record must contain the date on which the voter was contacted or the notice was mailed, as well as the date on which the voter signed the envelope, a copy of the envelope, a new registration form, or a change-of-name form. That record is a public record under chapter 42.17 RCW and may be disclosed to interested parties on written request.

NEW SECTION. Sec. 9. A new section is added to chapter 29A.60 RCW to read as follows:

Before certification of the primary or election, the county auditor must examine and investigate all received provisional ballots to determine whether the ballot can be counted. The auditor shall provide the disposition of the provisional ballot and, if the ballot was not counted, the reason why it was not counted, on a free access system such as a toll-free telephone number, web site, mail, or other means. The auditor must notify the voter in accordance with section 8 of this act when the envelope is unsigned or when the signatures do not match.

NEW SECTION. Sec. 10. A new section is added to chapter 29A.60 RCW to read as follows:

If inspection of the ballot reveals a physically damaged ballot or ballot that may be otherwise unreadable or uncountable by the tabulating system, the county auditor may refer the ballot to the county canvassing board or duplicate the ballot if so authorized by the county canvassing board. The voter's original ballot may not be altered. A ballot may be duplicated only if the intent of the voter's marks on the ballot is clear and the electronic voting equipment might not otherwise properly tally the ballot to reflect the intent of the voter. Ballots must be duplicated by teams of two or more people working together. When duplicating ballots, the county auditor shall take the following steps to create and maintain an audit trail of the action taken:

(1) Each original ballot and duplicate ballot must be assigned the same unique control number, with the number being marked upon the face of each ballot, to ensure that each duplicate ballot may be tied back to the original ballot;

(2) A log must be kept of the ballots duplicated, which must at least include:

(a) The control number of each original ballot and the corresponding duplicate ballot;

(b) The initials of at least two people who participated in the duplication of each ballot; and

(c) The total number of ballots duplicated.

Original and duplicate ballots must be sealed in secure storage at all times, except during duplication, inspection by the canvassing board, or tabulation.

NEW SECTION. Sec. 11. A new section is added to chapter 29A.60 RCW to read as follows:

(1) The county auditor shall prepare, make publicly available at the auditor's office or on the auditor's web site, and submit at the time of certification an election reconciliation report that discloses the following information:

(a) The number of registered voters;

(b) The number of ballots counted;

(c) The number of provisional ballots issued;

(d) The number of provisional ballots counted;

(e) The number of provisional ballots rejected;

(f) The number of absentee ballots issued;

(g) The number of absentee ballots counted;

(h) The number of absentee ballots rejected;

(i) The number of federal write-in ballots counted;

(j) The number of out-of-state, overseas, and service ballots issued;

(k) The number of out-of-state, overseas, and service ballots counted; and

(l) The number of out-of-state, overseas, and service ballots rejected.

(2) The county auditor shall prepare and make publicly available at the auditor's office or on the auditor's web site within thirty days of certification a final election reconciliation report that discloses the following information:

(a) The number of registered voters;

(b) The total number of voters credited with voting;

(c) The number of poll voters credited with voting;

(d) The number of provisional voters credited with voting;

(e) The number of absentee voters credited with voting;

(f) The number of federal write-in voters credited with voting;

(g) The number of out-of-state, overseas, and service voters credited with voting;

(h) The total number of voters credited with voting even though their ballots were postmarked after election day and were not counted; and

(i) Any other information the auditor deems necessary to reconcile the number of ballots counted with the number of voters credited with voting.

(3) The county auditor may also prepare such reports for jurisdictions located, in whole or in part, in the county.

Sec. 12. RCW 29A.60.021 and 2004 c 271 s 147 are each amended to read as follows:

(1) For any office at any election or primary, any voter may write in on the ballot the name of any person for an office who has filed as a write-in candidate for the office in the manner provided by RCW 29A.24.311 and such vote shall be counted the same as if the name had been printed on the ballot and marked by the voter. ~~((For a partisan primary in a jurisdiction using the physically separate ballot format, a voter may write in on a party ballot only the names of write-in candidates who affiliate with that major political party.))~~ No write-in vote made for any person who has not filed a declaration of candidacy pursuant to RCW 29A.24.311 is valid if that person filed for the same office, either as a regular candidate or a write-in candidate, at the preceding primary. Any abbreviation used to designate office~~(s)~~ or position~~(, or political party shall)~~ will be accepted if the canvassing board can determine, to ~~((their))~~ its satisfaction, the voter's intent.

(2) The number of write-in votes cast for each office must be recorded and reported with the canvass for the election.

(3) A write-in vote for an individual candidate for an office whose name appears on the ballot for that same office is a valid vote for that candidate as long as the candidate's name is clearly discernible, even if other requirements of RCW 29A.24.311 are not satisfied and even if the voter also marked a vote for that candidate such as to register an overvote. These votes need not be tabulated unless: (a) The difference between the number of votes cast for the candidate apparently qualified to appear on the general election ballot or elected and the candidate receiving the next highest number of votes is less than the sum of the total number of write-in votes cast for the office plus the overvotes and undervotes recorded by the vote tabulating system; or (b) a manual recount is conducted for that office.

(4) Write-in votes cast for an individual candidate for an office whose name does not appear on the ballot need not be tallied ~~((if))~~ unless the total number of write-in votes and undervotes recorded by the vote tabulation system for the office is ~~((not))~~ greater than the number of votes cast for the candidate apparently ~~((nominated))~~ qualified to appear on the general election ballot or elected~~(, and the write-in votes could not have altered the outcome of the primary or election. In the case of write-in votes for statewide office or for any office whose jurisdiction encompasses more than one county, write-in votes for an individual candidate must be tallied whenever the county auditor is notified by either the office of the secretary of state or another auditor in a multicounty jurisdiction that it appears that the write-in votes could alter the outcome of the primary or election))~~.

~~((4))~~ (5) In the case of write-in votes for a statewide office~~(s)~~ or any office whose jurisdiction~~(s that))~~ encompasses more than one county, ~~((if the total number of write-in votes and undervotes recorded by the vote tabulation system for an office within a county is greater than the number of votes cast for a candidate apparently nominated or elected in a primary or election, the auditor shall tally all write-in votes for individual candidates for that office and notify the office of the secretary of state and the auditors of the other counties within the jurisdiction, that the write-in votes for individual candidates should be tallied))~~ write-in votes for an individual candidate must be tallied when the county auditor is notified by either the secretary of state or another county auditor in the multicounty jurisdiction that it appears that the write-in votes must be tabulated under the terms of this section. In all other cases, the county auditor determines when write-in votes must be tabulated. Any abstract of votes must be modified to reflect the tabulation and certified by the canvassing board. Tabulation of write-in votes may be performed simultaneously with a recount.

Sec. 13. RCW 29A.60.050 and 2003 c 111 s 1505 are each amended to read as follows:

Whenever the precinct election officers or the counting center personnel have a question about the validity of a ballot or the votes for an office or issue that they are unable to resolve, they shall prepare and sign a concise record of the facts in question or dispute. These ballots shall be delivered to the canvassing board for processing. A ballot is not considered rejected until the canvassing board has rejected the ballot individually, or the ballot was included in a batch or on a report of ballots that was rejected in its entirety by the canvassing board. All ballots shall be preserved in the same manner as valid ballots for that primary or election.

Sec. 14. RCW 29A.60.070 and 2003 c 111 s 1507 are each amended to read as follows:

The county auditor shall produce cumulative and precinct returns for each primary and election and deliver them to the canvassing board for verification and certification. The precinct and cumulative returns of any primary or election are public records under chapter 42.17 RCW.

Cumulative returns for state offices, judicial offices, the United States senate, and congress must be electronically transmitted to the secretary of state immediately.

Sec. 15. RCW 29A.60.160 and 2003 c 111 s 1516 are each amended to read as follows:

~~((At least every third day after a primary or election and before certification of the election results,))~~ Except Sundays and legal holidays, the county auditor, as delegated by the county canvassing board, shall process absentee ballots and canvass the votes cast at that primary or election on a daily basis in counties with a population of seventy-five thousand or more, or at least every third day for counties with a population of less than seventy-five thousand, if the county auditor is in possession of more than twenty-five ballots that have yet to be canvassed. The county auditor, as delegated by the county canvassing board, may use his or her discretion in determining when to process the remaining absentee ballots and canvass the votes during the final four days before the certification of election results in order to protect the secrecy of any ballot. In counties where this process has not been delegated to the county auditor, the county auditor shall convene the county canvassing board to process absentee ballots and canvass the votes cast at the primary or election as set forth in this section.

Each absentee ballot previously not canvassed that was received by the county auditor two days or more before processing absentee ballots and canvassing the votes as delegated by or processed by the county canvassing board, that either was received by the county auditor before the closing of the polls on the day of the primary or election for which it was issued, or that bears a postmark on or before the primary or election for which it was issued, must be processed at that time. The tabulation of votes that results from that day's canvass must be made available to the general public immediately upon completion of the canvass.

Sec. 16. RCW 29A.60.190 and 2004 c 266 s 18 are each amended to read as follows:

(1) ~~((On the tenth day after a special election or primary and on the fifteenth day))~~ Ten days after a primary or special election and twenty-one days after a general election, the county canvassing board shall complete the canvass and certify the results. Each absentee ballot that was returned before the closing of the polls on the date of the primary or election for which it was issued, and each absentee ballot with a postmark on or before the date of the primary or election for which it was issued and received on or before the date on which the primary or election is certified, must be included in the canvass report.

(2) At the request of a caucus of the state legislature, the county auditor shall transmit copies of all unofficial returns of state and legislative primaries or elections prepared by or for the county canvassing board to either the secretary of the senate or the chief clerk of the house of representatives.

Sec. 17. RCW 29A.60.210 and 2003 c 111 s 1521 are each amended to read as follows:

Whenever the canvassing board finds during the initial counting process, or during any subsequent recount thereof, that there is an apparent discrepancy or an inconsistency in the returns of a primary or election, or that election staff has made an error regarding the treatment or disposition of a ballot, the board may recanvass the ballots or voting devices in any precincts of the county. The canvassing board shall conduct any necessary recanvass activity on or before the last day to certify or recertify the results of the primary ~~((or))~~, election, or subsequent recount and correct any error and document the correction of any error that it finds.

Sec. 18. RCW 29A.60.250 and 2003 c 111 s 1525 are each amended to read as follows:

As soon as the returns have been received from all the counties of the state, but not later than the thirtieth day after the election, the secretary of state shall ~~((make a))~~ canvass ~~((of such of the returns as are not required to be canvassed by the legislature and make out a statement thereof, file it in his or her office, and transmit a certified copy to the governor))~~ and certify the returns of the general election as to candidates for state offices, the United States senate, congress, and all other candidates whose districts extend beyond the limits of a single county. The secretary of state shall transmit a copy of the certification to the governor, president of the senate, and speaker of the house of representatives.

Sec. 19. RCW 29A.64.021 and 2004 c 271 s 178 are each amended to read as follows:

(1) If the official canvass of all of the returns for any office at any primary or election reveals that the difference in the number of votes cast for a candidate apparently nominated or elected to any office and the number of votes cast for the closest apparently defeated opponent is less than two thousand votes and also less than one-half of one percent of the total number of votes cast for both candidates, the county canvassing board shall conduct a recount of all votes cast on that position.

(a) Whenever such a difference occurs in the number of votes cast for candidates for a position the declaration of candidacy for which was filed with the secretary of state, the secretary of state shall, within three business days of the day that the

returns of the primary or election are first certified by the canvassing boards of those counties, direct those boards to recount all votes cast on the position.

(b)(i) For statewide elections, if the difference in the number of votes cast for the apparent winner and the closest apparently defeated opponent is less than one ((hundred fifty)) thousand votes and also less than one-fourth of one percent of the total number of votes cast for both candidates, the votes shall be recounted manually or as provided in subsection (3) of this section.

(ii) For elections not included in (b)(i) of this subsection, if the difference in the number of votes cast for the apparent winner and the closest apparently defeated opponent is less than one hundred fifty votes and also less than one-fourth of one percent of the total number of votes cast for both candidates, the votes shall be recounted manually or as provided in subsection (3) of this section.

(2) A mandatory recount shall be conducted in the manner provided by RCW 29A.64.030, 29A.64.041, and 29A.64.061. No cost of a mandatory recount may be charged to any candidate.

(3) The apparent winner and closest apparently defeated opponent for an office for which a manual recount is required under subsection (1)(b) of this section may select an alternative method of conducting the recount. To select such an alternative, the two candidates shall agree to the alternative in a signed, written statement filed with the election official for the office. The recount shall be conducted using the alternative method if: It is suited to the balloting system that was used for casting the votes for the office; it involves the use of a vote tallying system that is approved for use in this state by the secretary of state; and the vote tallying system is readily available in each county required to conduct the recount. If more than one balloting system was used in casting votes for the office, an alternative to a manual recount may be selected for each system.

Sec. 20. RCW 29A.64.030 and 2003 c 111 s 1603 are each amended to read as follows:

An application for a recount shall state the office for which a recount is requested and whether the request is for all or only a portion of the votes cast in that jurisdiction of that office. The person filing an application for a manual recount shall, at the same time, deposit with the county canvassing board or secretary of state, in cash or by certified check, a sum equal to twenty-five cents for each ballot cast in the jurisdiction or portion of the jurisdiction for which the recount is requested as security for the payment of any costs of conducting the recount. If the application is for a machine recount, the deposit must be equal to fifteen cents for each ballot. These charges shall be determined by the county canvassing board or boards under RCW ((29A.64.080)) 29A.64.081.

The county canvassing board shall determine ((a)) the date, time, and ((a)) place or places at which the recount will be conducted. ~~((This time shall be less than three business days after the day upon which: The application was filed with the board; the request for a recount or directive ordering a recount was received by the board from the secretary of state; or the returns are certified which indicate that a recount is required under RCW 29A.64.020 for an issue or office voted upon only within the county.))~~ Not less than two days before the date of the recount, the county auditor shall mail a notice of the time and place of the recount to the applicant or affected parties and, if the recount involves an office, to any person for whom votes were cast for that office. The county auditor shall also notify the affected parties by either telephone, fax, e-mail, or other electronic means at the time of mailing. At least three attempts must be made over a two-day period to notify the affected parties or until the affected parties have received the notification. Each attempt to notify affected parties must request a return response indicating that the notice has been received. Each person entitled to receive notice of the recount may attend, witness the recount, and be accompanied by counsel.

Proceedings of the canvassing board are public under chapter 42.30 RCW. Subject to reasonable and equitable guidelines adopted by the canvassing board, all interested persons may attend and witness a recount.

Sec. 21. RCW 29A.64.061 and 2004 c 271 s 180 are each amended to read as follows:

Upon completion of the canvass of a recount, the canvassing board shall prepare and certify an amended abstract showing the votes cast in each precinct for which the recount was conducted. Copies of the amended abstracts must be transmitted to the same officers who received the abstract on which the recount was based.

If the nomination, election, or issue for which the recount was conducted was submitted only to the voters of a county, the canvassing board shall file the amended abstract with the original results of that election or primary.

If the nomination, election, or issue for which a recount was conducted was submitted to the voters of more than one county, the secretary of state shall canvass the amended abstracts and shall file an amended abstract with the original results of that election. The secretary of state may require that the amended abstracts be certified by each canvassing board on a uniform date. An amended abstract certified under this section supersedes any prior abstract of the results for the same offices or issues at the same primary or election.

Sec. 22. RCW 29A.68.011 and 2004 c 271 s 182 are each amended to read as follows:

Any justice of the supreme court, judge of the court of appeals, or judge of the superior court in the proper county shall, by order, require any person charged with error, wrongful act, or neglect to forthwith correct the error, desist from the wrongful act, or perform the duty and to do as the court orders or to show cause forthwith why the error should not be corrected, the wrongful act desisted from, or the duty or order not performed, whenever it is made to appear to such justice or judge by affidavit of an elector that:

- (1) An error or omission has occurred or is about to occur in printing the name of any candidate on official ballots; or
- (2) An error other than as provided in subsections (1) and (3) of this section has been committed or is about to be committed in printing the ballots; or
- (3) The name of any person has been or is about to be wrongfully placed upon the ballots; or
- (4) A wrongful act other than as provided for in subsections (1) and (3) of this section has been performed or is about to be performed by any election officer; or
- (5) Any neglect of duty on the part of an election officer other than as provided for in subsections (1) and (3) of this section has occurred or is about to occur; or
- (6) An error or omission has occurred or is about to occur in the issuance of a certificate of election.

An affidavit of an elector under subsections (1) and (3) ~~((above))~~ of this section when relating to a primary election must be filed with the appropriate court no later than the second Friday following the closing of the filing period for nominations for such office and shall be heard and finally disposed of by the court not later than five days after the filing thereof. An affidavit of an elector under subsections (1) and (3) of this section when relating to a general election must be filed with the appropriate court no later than three days following the official certification of the primary election returns and shall be heard and finally disposed of by the court not later than five days after the filing thereof. An affidavit of an elector under subsection (6) of this section shall be filed with the appropriate court no later than ten days following the ~~((issuance of a certificate of election))~~ official certification of the election as provided in RCW 29A.60.190, 29A.60.240, or 29A.60.250 or, in the case of a recount, ten days after the official certification of the amended abstract as provided in RCW 29A.64.061.

NEW SECTION. Sec. 23. A new section is added to chapter 29A.84 RCW to read as follows:

A person who knowingly destroys, alters, defaces, conceals, or discards a completed voter registration form or signed absentee or provisional ballot signature affidavit is guilty of a gross misdemeanor. This section does not apply to (1) the voter who completed the voter registration form, or (2) a county auditor or registration assistant who acts as authorized by voter registration law.

Sec. 24. RCW 29A.84.650 and 2003 c 111 s 2131 are each amended to read as follows:

(1) Any person who intentionally votes or attempts to vote in this state more than once at any ((primary or general or special)) election, or who intentionally votes or attempts to vote in both this state and another state at any election, is guilty of a ((gross misdemeanor, punishable to the same extent as a gross misdemeanor that is punishable under RCW 9A.20.021)) class C felony.

(2) Any person who recklessly or negligently violates this section commits a class 1 civil infraction as provided in RCW 7.80.120.

NEW SECTION. Sec. 25. The secretary of state shall study the feasibility of requiring that the names of the top two vote-getters in primary elections of justices of the state supreme court, judges of the courts of appeals, superior courts, and district courts, and the superintendent of public instruction shall appear on the general election ballot. The study shall include a survey of how many times a judicial candidate and a candidate for superintendent of public instruction have appeared without opposition on the general election ballot from 1985 to present; the number of voters voting for these races in the primary election as opposed to voting for the same races in the general election; and if the differences in the numbers of voters voting at the primary and voting at the general election may have resulted in a different election result. The study shall also include a financial analysis of the proposed changes. The secretary of state shall report the results of the study to the appropriate committees of the legislature no later than January 31, 2006."

"NEW SECTION. Sec. 1. A new section is added to chapter 10.64 RCW to read as follows:

When a person is convicted of a felony, the court shall require the defendant to sign a statement acknowledging that:

(1) The defendant's right to vote has been lost due to the felony conviction;

- (2) If the defendant is registered to vote, the voter registration will be canceled;
- (3) The right to vote may be restored by:
 - (a) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;
 - (b) A court order issued by the sentencing court restoring the right, as provided in RCW 9.92.066;
 - (c) A final order of discharge issued by the indeterminate sentence review board, as provided in RCW 9.96.050; or
 - (d) A certificate of restoration issued by the governor, as provided in RCW 9.96.020; and
- (4) Voting before the right is restored is a class C felony under RCW 29A.84.660.

Sec. 2. RCW 29A.08.010 and 2004 c 267 s 102 are each amended to read as follows:

As used in this chapter: "Information required for voter registration" means the minimum information provided on a voter registration application that is required by the county auditor in order to place a voter registration applicant on the voter registration rolls. This information includes ~~((the applicant's))~~:

- (1) ~~Name~~~~((, complete residence))~~;
- (2) ~~Residential~~ address~~((,))~~;
- (3) ~~Date of birth~~~~((,))~~;
- (4) Washington state driver's license number~~((,))~~ or Washington state identification card number, or the last four digits of the applicant's Social Security number~~((,))~~ if the applicant does not have a Washington state driver's license or Washington state identification card;
- (5) A signature attesting to the truth of the information provided on the application~~((,))~~; and
- (6) A check or indication in the box confirming the individual is a United States citizen.

If the individual does not have a driver's license, state identification card, or Social Security number, the registrant must be issued a unique voter registration number ~~((and))~~ in order to be placed on the voter registration rolls. All other information supplied is ancillary and not to be used as grounds for not registering an applicant to vote. Modification of the language of the official Washington state voter registration form by the voter will not be accepted and will cause the rejection of the registrant's application.

Sec. 3. RCW 29A.08.030 and 2004 c 267 s 104 are each amended to read as follows:

The definitions set forth in this section apply throughout this chapter, unless the context clearly requires otherwise.

- (1) "Verification notice" means a notice sent by the county auditor or secretary of state to a voter registration applicant and is used to verify or collect information about the applicant in order to complete the registration. The verification notice must be designed to include a postage prepaid, preaddressed return form by which the applicant may verify or send information.
- (2) "Acknowledgement notice" means a notice sent by nonforwardable mail by the county auditor or secretary of state to a registered voter to acknowledge a voter registration transaction, which can include initial registration, transfer, or reactivation of an inactive registration. An acknowledgement notice may be a voter registration card.
- (3) "Confirmation notice" means a notice sent to a registered voter by first class forwardable mail at the address indicated on the voter's permanent registration record and to any other address at which the county auditor or secretary of state could reasonably expect mail to be received by the voter in order to confirm the voter's residence address. The confirmation notice must be designed ~~((so that the voter may update his or her current residence address))~~ to include a postage prepaid, preaddressed return form by which the registrant may verify the address information.

Sec. 4. RCW 29A.08.107 and 2004 c 267 s 106 are each amended to read as follows:

- (1) The secretary of state must review the information provided by each voter registration applicant to ensure that ~~((either))~~ the provided driver's license number, state identification card number, or ~~((the))~~ last four digits of the Social Security number match the information maintained by the Washington department of licensing or the Social Security administration. If a match cannot be made, the secretary of state or county auditor must correspond with the applicant to resolve the discrepancy.
- (2) If the applicant fails to respond to any correspondence required in this section to confirm information provided on a voter registration application~~((,))~~ within ~~((thirty))~~ forty-five days, the applicant will not be registered to vote. The secretary of state shall forward the application to the appropriate county auditor for document storage.
- (3) Only after the secretary of state has confirmed that ~~((an applicant's))~~ the provided driver's license number, state identification card number, or ~~((the))~~ last four digits of the applicant's Social Security number match existing records with the Washington department of licensing or the Social Security administration, or determined that the applicant does not have ~~((either))~~ a driver's license number, state identification card number, or Social Security number may the applicant be placed on the official list of registered voters.

(4) In order to prevent duplicate registration records, all complete voter registration applications must be screened against existing voter registration records in the official statewide voter registration list. If a match of an existing record is found in the official list, the record must be updated with the new information provided on the application. If the new information indicates that the voter has changed his or her county of residence, the application must be forwarded to the voter's new county of residence for processing.

Sec. 5. RCW 29A.08.110 and 2004 c 267 s 107 are each amended to read as follows:

(1) ~~((On receipt of an application for voter registration, the county auditor shall review the application to determine whether the information supplied is complete.))~~ An application is considered complete only if it contains the applicant's name, complete valid residence address, date of birth, ~~((and))~~ signature attesting to the truth of the information provided, a mark in the check-off box confirming United States citizenship, and an indication ~~((the license information))~~ that the provided driver's license number, state identification card number, or Social Security number has been confirmed by the secretary of state. If it is not complete, the auditor shall promptly mail a verification notice of the deficiency to the applicant. This verification notice shall require the applicant to provide the missing information. If the verification notice is not returned by the applicant within forty-five days or is returned as undeliverable ~~((the auditor shall not place))~~, the name of the applicant shall not be placed on the ~~((county voter))~~ official list of registered voters. If the applicant provides the required verified information, the applicant shall be registered to vote as of the original date of mailing ~~((of the original voter registration application))~~ or date of delivery, whichever is applicable.

~~(2) ((In order to prevent duplicate registration records, all complete voter registration applications must be screened against existing voter registration records in the official statewide voter registration list. If a match of an existing record is found in the official list the record must be updated with the new information provided on the application. If the new information indicates that the voter has changed his or her county of residence, the application must be forwarded to the voter's new county of residence for processing. If the new information indicates that the voter remains in the same county of residence or if the applicant is a new voter the application must be processed by the county of residence.~~

~~(3))~~ If the information required in subsection (1) of this section is complete, the applicant is considered to be registered to vote as of the original date of mailing or date of delivery, whichever is applicable. The auditor shall record the appropriate precinct identification, taxing district identification, and date of registration on the voter's record in the state voter registration list. Within forty-five days after the receipt of an application but no later than seven days before the next primary, special election, or general election, the auditor shall send to the applicant, by first class mail, an acknowledgement notice identifying the registrant's precinct and containing such other information as may be required by the secretary of state. The postal service shall be instructed not to forward a voter registration card to any other address and to return to the auditor any card which is not deliverable. ~~((If the registrant has indicated on the form that he or she is registered to vote within the county but has provided a new address within the county that is for voter registration purposes, the auditor shall transfer the voter's registration.~~

~~(4))~~ (3) If an acknowledgement notice card is properly mailed as required by this section to the address listed by the voter as being the voter's mailing address and the notice is subsequently returned to the auditor by the postal service as being undeliverable to the voter at that address, the auditor shall promptly send the voter a confirmation notice. The auditor shall place the voter's registration on inactive status pending a response from the voter to the confirmation notice.

NEW SECTION. Sec. 6. A new section is added to chapter 29A.08 RCW to read as follows:

No person registering to vote, who meets all the qualifications of a registered voter in the state of Washington, shall be disqualified because of a nontraditional address being used as a residence address. Voters using such an address will be registered and assigned to a precinct based on the location provided. Voters without a traditional address will be registered at the county courthouse, city hall, or other public building near the area that the voter considers his or her residence. Registering at a nontraditional address will not disqualify a voter from requesting ongoing absentee voter status if the voter designates a valid mailing address.

For the purposes of this section, "nontraditional address" includes shelters, parks, or other identifiable locations that the voter deems to be his or her residence.

NEW SECTION. Sec. 7. A new section is added to chapter 29A.08 RCW to read as follows:

(1) If a voter who registered by mail indicates on the voter registration form that he or she does not have a Washington state driver's license, Washington state identification card, or Social Security number, he or she must provide one of the following forms of identification the first time he or she votes after registering:

- (a) Valid photo identification;
- (b) A valid enrollment card of a federally recognized Indian tribe in Washington state;

- (c) A copy of a current utility bill;
- (d) A current bank statement;
- (e) A copy of a current government check;
- (f) A copy of a current paycheck; or
- (g) A government document that shows both the name and address of the voter.

(2) If the voter fails to provide one of the above forms of identification prior to or at the time of voting, the ballot must be treated as a provisional ballot regardless of whether the voter is voting at a poll site or by mail. The ballot may only be counted if the voter's signature on the outside envelope matches the signature in the voter registration records.

(3) The requirements of this section do not apply to an out-of-state, overseas, or service voter who registers to vote by signing the return envelope of the absentee ballot.

Sec. 8. RCW 29A.08.115 and 2004 c 267 s 108 are each amended to read as follows:

A person or organization collecting voter registration application forms must transmit the forms to the secretary of state or a ~~((designee))~~ county auditor at least once weekly. The registration date on such forms will be the date they are received by the secretary of state or county auditor.

Sec. 9. RCW 29A.08.125 and 2004 c 267 s 110 are each amended to read as follows:

(1) Each county auditor shall maintain a computer file containing a copy of each record of all registered voters within the county contained on the official statewide voter registration list for that county.

(2) The secretary of state shall at least quarterly review and update the records of all registered voters on the official statewide voter registration data base to make additions and corrections.

(3) The computer file must include, but not be limited to, each voter's last name, first name, middle initial, date of birth, residence address, gender, date of registration, applicable taxing district and precinct codes, and the last date on which the individual voted.

(4) The county auditor shall subsequently record each consecutive date upon which the individual has voted and retain all such consecutive dates.

Sec. 10. RCW 29A.08.145 and 2004 c 267 s 113 are each amended to read as follows:

This section establishes a special procedure which an elector may use to register to vote or transfer a voter registration by changing his or her address during the period beginning after the closing of registration for voting at the polls under RCW 29A.08.140 and ending on the fifteenth day before a primary, special election, or general election. A qualified elector in the state may register to vote or change his or her registration address in person in the office of the county auditor of the county in which the applicant resides, or at a voter registration location specifically designated for this purpose by the county auditor ~~((of the county in which the applicant resides))~~ or secretary of state, and apply for an absentee ballot for that primary or election. The auditor or registration assistant shall register that individual in the manner provided in this chapter. The application for an absentee ballot executed by the newly registered or transferred voter for the primary or election that follows the execution of the registration shall be promptly transmitted to the auditor with the completed voter registration form.

Sec. 11. RCW 29A.08.210 and 2003 c 111 s 216 are each amended to read as follows:

An applicant for voter registration shall complete an application providing the following information concerning his or her qualifications as a voter in this state:

- (1) The address of the last former registration of the applicant as a voter in the state;
- (2) The applicant's full name;
- (3) The applicant's date of birth;
- (4) The address of the applicant's residence for voting purposes;
- (5) The mailing address of the applicant if that address is not the same as the address in subsection (4) of this section;
- (6) The sex of the applicant;
- (7) The applicant's Washington state driver's license number or Washington state identification card number, or the last four digits of the applicant's Social Security number if he or she does not have a Washington state driver's license or Washington state identification card;

(8) A check box for the applicant to indicate that he or she does not have a Washington state driver's license, Washington state identification card, or Social Security number;

(9) A check box allowing the applicant to indicate that he or she is a member of the armed forces, national guard, or reserves, or that he or she is an overseas voter;

(10) A check box allowing the applicant to confirm that he or she is at least eighteen years of age;

(11) Clear and conspicuous language, designed to draw the applicant's attention, stating that the applicant must be a United States citizen in order to register to vote;

(12) A check box and declaration confirming that the applicant is a citizen of the United States;

~~((8))~~ (13) The following warning:

"If you knowingly provide false information on this voter registration form or knowingly make a false declaration about your qualifications for voter registration you will have committed a class C felony that is punishable by imprisonment for up to five years, a fine of up to ten thousand dollars, or both."

(14) The following affirmation by the applicant:

"By signing this document, I hereby assert, under penalty of perjury, that I am legally eligible to vote. If I am found to have voted illegally, I may be prosecuted and/or fined for this illegal act. In addition, I hereby acknowledge that my name and last known address will be forwarded to the appropriate state and/or federal authorities if I am found to have voted illegally."

(15) The oath required by RCW 29A.08.230 and a space for the applicant's signature; and

~~((9))~~ (16) Any other information that the secretary of state determines is necessary to establish the identity of the applicant and prevent duplicate or fraudulent voter registrations.

This information shall be recorded on a single registration form to be prescribed by the secretary of state.

If the applicant fails to provide the information required for voter registration, the auditor shall send the applicant a verification notice. The ~~((auditor shall not register the))~~ applicant may not be registered until the required information is provided. If a verification notice is returned as undeliverable or the applicant fails to respond to the notice within forty-five days, the ~~((auditor shall not register the))~~ applicant shall not be registered to vote.

~~((The following warning shall appear in a conspicuous place on the voter registration form:~~

~~"If you knowingly provide false information on this voter registration form or knowingly make a false declaration about your qualifications for voter registration you will have committed a class C felony that is punishable by imprisonment for up to five years, or by a fine of up to ten thousand dollars, or both imprisonment and fine."))~~

NEW SECTION. Sec. 12. A new section is added to chapter 29A.08 RCW to read as follows:

(1) When a felony offender has completed all the requirements of his or her sentence, the county clerk shall immediately transmit this information to the secretary of state along with information about the county where the conviction occurred and the county that is the last known residence of the offender. The secretary of state shall maintain such records as part of the elections data base.

(2) If the offender has completed all the requirements of all of his or her sentences for all of his or her felony convictions, the secretary of state shall transmit information about the restoration of the former felon's voting rights to the county auditor where the conviction took place and, if different, the county where the felon was last known to reside.

Sec. 13. RCW 29A.08.250 and 2004 c 267 s 117 are each amended to read as follows:

The secretary of state shall furnish registration forms necessary to carry out the registration of voters as provided by this chapter without cost to the respective counties. ~~((All voter registration forms must include clear and conspicuous language, designed to draw an applicant's attention, stating that the applicant must be a United States citizen in order to register to vote. Voter registration application forms must also contain a space for the applicant to provide his or her driver's license number or the last four digits of his or her social security number as well as check boxes intended to allow the voter to indicate age and United States citizenship eligibility under the Help America Vote Act of 2002 (P.L. 107-252).))~~

Sec. 14. RCW 29A.08.330 and 2003 c 111 s 224 are each amended to read as follows:

(1) The secretary of state shall prescribe the method of voter registration for each designated agency. The agency shall use either the state voter registration by mail form with a separate declination form for the applicant to indicate that he or she declines to register at this time, or the agency may use a separate form approved for use by the secretary of state.

(2) The person providing service at the agency shall offer voter registration services to every client whenever he or she applies for service or assistance and with each renewal, recertification, or change of address. The person providing service shall give the applicant the same level of assistance with the voter registration application as is offered to fill out the agency's forms and documents, including information about age and citizenship requirements for voter registration.

(3) The person providing service at the agency shall determine if the prospective applicant wants to register to vote or transfer his or her voter registration by asking the following question:

"Do you want to register to vote or transfer your voter registration?"

If the applicant chooses to register or transfer a registration, the service agent shall ask the following:

(a) "Are you a United States citizen?"

(b) "Are you or will you be eighteen years of age on or before the next election?"

If the applicant answers in the affirmative to both questions, the agent shall then provide the applicant with a voter registration form and instructions and shall record that the applicant has requested to register to vote or transfer a voter registration. If the applicant answers in the negative to either question, the agent shall not provide the applicant with a voter registration form.

(4) If an agency uses a computerized application process, it may, in consultation with the secretary of state, develop methods to capture simultaneously the information required for voter registration during a person's computerized application process.

~~((4))~~ (5) Each designated agency shall provide for the voter registration application forms to be collected from each agency office at least once each week. The agency shall then forward the application forms to the secretary of state each week. The secretary of state shall forward the forms to the county in which the applicant has registered to vote no later than ten days after the date on which the forms were received by the secretary of state.

Sec. 15. RCW 29A.08.520 and 2004 c 267 s 126 are each amended to read as follows:

(1) Upon receiving official notice of a person's conviction of a felony in either state or federal court, if the convicted person is a registered voter in the county, the county auditor shall cancel the defendant's voter registration. Additionally, the secretary of state in conjunction with the department of corrections, the Washington state patrol, the office of the administrator for the courts, and other appropriate state agencies shall arrange for a ~~((periodic))~~ quarterly comparison of a list of known felons with the statewide voter registration list. If a person is found on ~~((the department of corrections))~~ a felon list and the statewide voter registration list, the secretary of state or county auditor shall confirm the match through a date of birth comparison and ~~((cancel))~~ suspend the voter registration from the official state voter registration list. The canceling authority shall send ~~((notice of the proposed cancellation))~~ a notice of the proposed cancellation and an explanation of the requirements for restoring the right to vote once all terms of sentencing have been completed. If the person does not respond within thirty days, the registration must be canceled.

(2) The right to vote may be restored by, for each felony conviction, one of the following:

(a) A certificate of discharge issued by the sentencing court, as provided in RCW 9.94A.637;

(b) A court order restoring the right, as provided in RCW 9.92.066;

(1) The office of the secretary of state shall create and maintain a statewide voter registration data base. This data base must be a single, uniform, official, centralized, interactive computerized statewide voter registration list defined, maintained, and administered at the state level that contains the name and registration information of every legally registered voter in the state and assigns a unique identifier to each legally registered voter in the state.

(2) The computerized list must serve as the single system for storing and maintaining the official list of registered voters throughout the state.

(3) The computerized list must contain the name and registration information of every legally registered voter in the state.

(4) Under the computerized list, a unique identifier is assigned to each legally registered voter in the state.

(5) The computerized list must be coordinated with other agency data bases within the state, including but not limited to the department of corrections, the department of licensing, ~~((and))~~ the department of health, the Washington state patrol, and the office of the administrator for the courts. The computerized list may also be coordinated with the data bases of election officials in other states.

(6) Any election officer in the state, including any local election officer, may obtain immediate electronic access to the information contained in the computerized list.

(7) All voter registration information obtained by any local election officer in the state must be electronically entered into the computerized list on an expedited basis at the time the information is provided to the local officer.

(8) The chief state election officer shall provide support, as may be required, so that local election officers are able to enter information as described in subsection (3) of this section.

(9) The computerized list serves as the official voter registration list for the conduct of all elections.

(10) The secretary of state has data authority on all voter registration data.

(11) The voter registration data base must be designed to accomplish at a minimum, the following:

(a) Comply with the Help America Vote Act of 2002 (P.L. 107-252);

(b) Identify duplicate voter registrations;

(c) Identify suspected duplicate voters;

(d) Screen against the department of corrections, the Washington state patrol, and other appropriate state agency data bases to aid in the cancellation of voter registration of felons, of persons who have declined to serve on juries by virtue of not being citizens of the United States, and of persons determined to be legally incompetent to vote;

(e) Provide up-to-date signatures of voters for the purposes of initiative signature checking;

(f) Provide for a comparison between the voter registration data base and the department of licensing change of address data base;

(g) Provide online access for county auditors with the goal of real time duplicate checking and update capabilities; and

(h) Provide for the cancellation of voter registration for persons who have moved to other states and surrendered their Washington state drivers' licenses.

(12) In order to maintain the statewide voter registration data base, the secretary of state may, upon agreement with other appropriate jurisdictions, screen against data bases maintained by election officials in other states and data bases maintained by federal agencies including, but not limited to, the federal bureau of investigation, the federal court system, the federal bureau of prisons, and the bureau of citizenship and immigration services.

(13) The secretary of state shall retain information regarding previous successful appeals of proposed cancellations of registrations in order to avoid repeated cancellations for the same reason.

(14) The secretary of state must review and update the records of all registered voters on the computerized list on a quarterly basis to make additions and corrections.

Sec. 17. RCW 29A.08.710 and 2004 c 267 s 133 are each amended to read as follows:

(1) The county auditor shall have custody of the original voter registration records for each county. The original voter registration form must be filed without regard to precinct and is considered confidential and unavailable for public inspection and copying. An automated file of all registered voters must be maintained pursuant to RCW 29A.08.125. An auditor may maintain the automated file in lieu of filing or maintaining the original voter registration forms if the automated file includes all of the information from the original voter registration forms including, but not limited to, a retrievable facsimile of each voter's signature.

(2) The following information contained in voter registration records or files regarding a voter or a group of voters is available for public inspection and copying, except as provided in RCW 40.24.060: The voter's name, address, political jurisdiction, gender, date of birth, voting record, date of registration, and registration number. ~~((The address and political jurisdiction of a registered voter are available for public inspection and copying except as provided by chapter 40.24 RCW.))~~ No other information from voter registration records or files is available for public inspection or copying.

Sec. 18. RCW 29A.08.720 and 2004 c 266 s 9 are each amended to read as follows:

(1) In the case of voter registration records received through the department of licensing, the identity of the office at which any particular individual registered to vote is not available for public inspection and shall not be disclosed to the public. In the case of voter registration records received through an agency designated under RCW 29A.08.310, the identity of the agency at which any particular individual registered to vote is not available for public inspection and shall not be disclosed to the public. Any record of a particular individual's choice not to register to vote at an office of the department of licensing or a state agency designated under RCW 29A.08.310 is not available for public inspection and any information regarding such a choice by a particular individual shall not be disclosed to the public.

(2) ~~((All))~~ Subject to the restrictions of RCW 29A.08.710, poll books ~~((or)),~~ precinct lists, and current lists of registered voters ~~((, except original voter registration forms or their images, shall be))~~ are public records and must be made available for public inspection and copying under such reasonable rules and regulations as the county auditor or secretary of state may prescribe. The county auditor or secretary of state shall promptly furnish current lists ~~((or mailing labels))~~ of registered voters in his or her possession, at actual reproduction cost, to any person requesting such information. The lists ~~((and labels))~~ shall not be used for the purpose of mailing or delivering any advertisement or offer for any property, establishment, organization, product, or service or for the purpose of mailing or delivering any solicitation for money, services, or anything of value. However, the lists

and labels may be used for any political purpose. The county auditor or secretary of state must provide a copy of RCW 29A.08.740 to the person requesting the material that is released under this section.

Sec. 19. RCW 29A.08.740 and 2003 c 111 s 249 and 2003 c 53 s 176 are each reenacted and amended to read as follows:

(1) Any person who uses registered voter data furnished under RCW 29A.08.720 (~~or 29A.08.730~~) for the purpose of mailing or delivering any advertisement or offer for any property, establishment, organization, product, or service or for the purpose of mailing or delivering any solicitation for money, services, or anything of value is guilty of a class C felony punishable by imprisonment in a state correctional facility for a period of not more than five years or a fine of not more than ten thousand dollars or both such fine and imprisonment, and is liable to each person provided such advertisement or solicitation, without the person's consent, for the nuisance value of such person having to dispose of it, which value is herein established at five dollars for each item mailed or delivered to the person's residence. However, a person who mails or delivers any advertisement, offer, or solicitation for a political purpose is not liable under this section unless the person is liable under subsection (2) of this section. For purposes of this subsection, two or more attached papers or sheets or two or more papers that are enclosed in the same envelope or container or are folded together are one item. Merely having a mailbox or other receptacle for mail on or near the person's residence is not an indication that the person consented to receive the advertisement or solicitation. A class action may be brought to recover damages under this section, and the court may award a reasonable attorney's fee to any party recovering damages under this section.

(2) Each person furnished data under RCW 29A.08.720 (~~or 29A.08.730~~) shall take reasonable precautions designed to assure that the data is not used for the purpose of mailing or delivering any advertisement or offer for any property, establishment, organization, product, or service or for the purpose of mailing or delivering any solicitation for money, services, or anything of value. However, the data may be used for any political purpose. Where failure to exercise due care in carrying out this responsibility results in the data being used for such purposes, then such person is jointly and severally liable for damages under subsection (1) of this section along with any other person liable under subsection (1) of this section for the misuse of such data.

Sec. 20. RCW 29A.08.775 and 2004 c 267 s 136 are each amended to read as follows:

Only voters who appear on the official statewide voter registration list are eligible to participate in elections. Each county shall maintain a copy of that county's portion of the state list. The county must ensure that data used for the production of poll lists and other lists and mailings done in the administration of each election are (~~drawn from~~) the same as the official statewide voter registration list.

Sec. 21. RCW 29A.40.091 and 2004 c 271 s 135 are each amended to read as follows:

The county auditor shall send each absentee voter a ballot, a security envelope in which to seal the ballot after voting, a larger envelope in which to return the security envelope, and instructions on how to mark the ballot and how to return it to the county auditor. The instructions that accompany an absentee ballot for a partisan primary must include instructions for voting the applicable ballot style, as provided in chapter 29A.36 RCW. The absentee voter's name and address must be printed on the larger return envelope, which must also contain a declaration by the absentee voter reciting his or her qualifications and stating that he or she has not voted in any other jurisdiction at this election, together with a summary of the penalties for any violation of any of the provisions of this chapter. The declaration must clearly inform the voter that it is illegal to vote if he or she is not a United States citizen; it is illegal to vote if he or she has been convicted of a felony and has not had his or her voting rights restored; and, except as otherwise provided by law, it is illegal to cast a ballot or sign an absentee envelope on behalf of another voter. The return envelope must provide space for the voter to indicate the date on which the ballot was voted and for the voter to sign the oath. It must also contain a space so that the voter may include a telephone number. A summary of the applicable penalty provisions of this chapter must be printed on the return envelope immediately adjacent to the space for the voter's signature. The signature of the voter on the return envelope must affirm and attest to the statements regarding the qualifications of that voter and to the validity of the ballot. The return envelope must also have a secrecy flap that the voter may seal that will cover the voter's signature and optional telephone number. For out-of-state voters, overseas voters, and service voters, the signed declaration on the return envelope constitutes the equivalent of a voter registration for the election or primary for which the ballot has been issued. The voter must be instructed to either return the ballot to the county auditor by whom it was issued or attach sufficient first class postage, if applicable, and mail the ballot to the appropriate county auditor no later than the day of the election or primary for which the ballot was issued.

If the county auditor chooses to forward absentee ballots, he or she must include with the ballot a clear explanation of the qualifications necessary to vote in that election and must also advise a voter with questions about his or her eligibility to

contact the county auditor. This explanation may be provided on the ballot envelope, on an enclosed insert, or printed directly on the ballot itself. If the information is not included, the envelope must clearly indicate that the ballot is not to be forwarded and that return postage is guaranteed.

Sec. 22. RCW 29A.84.140 and 2003 c 111 s 2108 are each amended to read as follows:

A person who knows that he or she does not possess the legal qualifications of a voter and who registers to vote is guilty of a ~~((misdemeanor punishable under RCW 9A.20.021))~~ class C felony.

Sec. 23. RCW 46.20.118 and 1990 c 250 s 37 are each amended to read as follows:

The department shall maintain a negative file. It shall contain negatives of all pictures taken by the department of licensing as authorized by RCW 46.20.070 through 46.20.119. Negatives in the file shall not be available for public inspection and copying under chapter 42.17 RCW. The department may make the file available to official governmental enforcement agencies to assist in the investigation by the agencies of suspected criminal activity. The department shall make the file available to the office of the secretary of state, at the expense of the secretary of state, to assist in maintenance of the statewide voter registration data base. The department may also provide a print to the driver's next of kin in the event the driver is deceased.

Sec. 24. RCW 46.20.155 and 2004 c 249 s 7 are each amended to read as follows:

(1) Before issuing an original license or identicard or renewing a license or identicard under this chapter, the licensing agent shall determine if the applicant wants to register to vote or transfer his or her voter registration by asking the following question:

"Do you want to register to vote or transfer your voter registration?"

If the applicant chooses to register or transfer a registration, the agent shall ~~((state))~~ ask the following:

~~("I would like to remind you that you must be a United States citizen and at least eighteen years of age in order to vote.")~~

(1) "Are you a United States citizen?"

(2) "Are you or will you be eighteen years of age on or before the next election?"

If the applicant answers in the affirmative to both questions, the agent shall then provide the applicant with a voter registration form and instructions and shall record that the applicant has requested to register to vote or transfer a voter registration. If the applicant answers in the negative to either question, the agent shall not provide the applicant with a voter registration form.

(2) The department shall establish a procedure that substantially meets the requirements of subsection (1) of this section when permitting an applicant to renew a license or identicard by mail or by electronic commerce.

NEW SECTION. Sec. 25. The following acts or parts of acts are each repealed:

(1) RCW 29A.08.155 (Payment for maintenance of electronic records) and 2004 c 267 s 114 & 2003 c 111 s 215; and
(2) RCW 29A.08.730 (Registration, voting--Furnishing data upon request--Cost--Use restricted) and 2003 c 111 s 248, 1994 c 57 s 6, & 1973 1st ex.s. c 111 s 3.

The Speaker introduced former Governor Gary Locke who addressed the body.

Former Governor Locke: "Thank you, Mr. Speaker. It is really great to be back here in Olympia. We were here today for the planting of a tree in honor of Madeline. This is actually Earth Day and we normally plant a tree on Arbor Day but this fit into our schedule. When Emily was born, in 1997, Briggs Nursery donated a tree in honor of her which was planted on Arbor Day. When Dylan was born in 1999, again Briggs Nursery donated a tree planted in his honor on Arbor Day. So today we planted a tree at 10:30 today outside the Governor's Mansion which was donated by Briggs Nursery in honor of Madeline. So we were here for that and right now the kids are seeing their good friends over at Centennial Elementary School. They miss their friends, they miss the familiarity of Olympia very much.

Good to see all of you and it's good to know that you are going to adjourn forthwith on Sine Die."

POINT OF PERSONAL PRIVILEGE

Representative Hunt: "Thank you, Mr. Speaker. We have a group in the wings that I would like to have you invite to join us on the floor. I want you to look at the finest legislative staff in the United States of America. This non-partisan staff works hours and hours, days and nights, they are here before we get to work in the morning. They are here to clean up literally our legislative mess every night after we go home. We were are tucking into bed, they are still sitting at their computers working on those amendments, working on those bill reports, drafting all that stuff, be it an election bill, a lottery bill, an education bill, a budget bill and they all know their stuff. It is amazing that whenever we want information, they know where to find it. I can't say enough about the wonderful job that each

and everyone of you do. We know that we could not function as the House of Representatives without the excellent work that you do, often times behind the scenes. We thought for once that we ought to let you be out here on the Floor with us to see what a wonderful chamber this is as well. It is a beautiful place and we're glad to be back in it.

Thank you each and every one of you for the many things you do to help this Legislature succeed."

POINT OF PERSONAL PRIVILEGE

Representative Santos: "Thank you, Mr. Speaker. The good gentleman from the 22nd District acknowledged the great support that we receive from our OPR staff. There is another group of individuals without whom we would not be able to work in this fine establishment and pump out all of the thoughtful legislation that we deliberate on – that would be the staff of the House Workroom. I'd like to introduce each of them by name and allow you to acknowledge them.

Mr. Speaker, this fine staff is supervised by the meticulous and marvelous Mary Mackey who runs a tight ship but I know is always a happy ship because whenever you walk back there they are full of smiles and hugs and just incredible help. We are also very blessed to have the sonorous and snazzy Sean Kochaniewicz who every morning begins our legislative sessions by repeating all of the names the members of this chamber even though we are not here. And the fine crew standing by the Speaker include the delightful and diligent Darrell Hopson, hard working and happy Heather Evans and genial and gracious Genevieve Panush. On behalf of the body of the Legislature, I hope Mr. Speaker that we will rise and give them our most deep felt gratitude for making us look good every day of the Legislative session."

Thomas Hoemann, Secretary

REPORT OF CONFERENCE COMMITTEE

April 21, 2005

Mr. Speaker:

We of your Conference Committee, to whom was referred ENGROSSED SUBSTITUTE HOUSE BILL NO. 1903, providing funds to stimulate community and economic development, have had the same under consideration and we recommend that:

All previous amendments not be adopted and that the attached striking amendment (H-3158.7/05) be adopted

and that the bill do pass as recommended by the Conference Committee.

Senator Brown Representative Linville
Senator Fraser Representative Ericks
Senator Pflug

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature has and continues to recognize the vital importance of economic development to the health and prosperity of Washington state as indicated in RCW 43.160.010, 43.155.070(4)(g), 43.163.005, and 43.168.010. The legislature finds that current economic development programs and funding, which are primarily low-interest loan programs, can be enhanced by creating a grant program to assist with public infrastructure projects that directly stimulate community and economic development by supporting the creation of new jobs or the retention of existing jobs.

NEW SECTION. Sec. 2. A new section is added to chapter 43.160 RCW to read as follows:

(1) The job development fund program is created to provide grants for public infrastructure projects that will stimulate job creation or assist in job retention. The program is to be administered by the board. The board shall establish a competitive process to request and prioritize proposals and make grant awards.

(2) For the purposes of this act, "public infrastructure projects" has the same meaning as "public facilities" as defined in RCW 43.160.020(11).

(3) The board shall conduct a statewide request for project applications. The board shall apply the following criteria for evaluation and ranking of applications:

- (a) The relative benefits provided to the community by the jobs the project would create, including, but not limited to:
 - (i) The total number of jobs; (ii) the total number of full-time, family wage jobs; (iii) the unemployment rate in the area; and (iv) the increase in employment in comparison to total community population;
 - (b) The present level of economic activity in the community and the existing local financial capacity to increase economic activity in the community;
 - (c) The rate of return of the state's investment, that includes the expected increase in state and local tax revenues associated with the project;
 - (d) The lack of another timely source of funding available to finance the project which would likely prevent the proposed community or economic development, absent the financing available under this act;
 - (e) The ability of the project to improve the viability of existing business entities in the project area;
 - (f) Whether or not the project is a partnership of multiple jurisdictions;
 - (g) Demonstration that the requested assistance will directly stimulate community and economic development by facilitating the creation of new jobs or the retention of existing jobs; and
 - (h) The availability of existing assets that applicants may apply to projects.
- (4) Job development fund program grants may only be awarded to those applicants that have entered into or expect to enter into a contract with a private developer relating to private investment that will result in the creation or retention of jobs upon completion of the project. Job development fund program grants shall not be provided for any project where:
 - (a) The funds will not be used within the jurisdiction or jurisdictions of the applicants; or
 - (b) Evidence exists that the project would result in a development or expansion that would displace existing jobs in any other community in the state.
- (5) The board shall, with the joint legislative audit and review committee, develop performance criteria for each grant and evaluation criteria to be used to evaluate both how well successful applicants met the community and economic development objectives stated in their applications, and how well the job development fund program performed in creating and retaining jobs.

NEW SECTION. Sec. 3. A new section is added to chapter 43.160 RCW to read as follows:

The maximum grant from the job development fund for any one project is ten million dollars. Grant assistance from the job development fund may not exceed thirty-three percent of the total cost of the project. The nonstate portion of the total project cost may include cash, the value of real property when acquired solely for the purpose of the project, and in-kind contributions.

Sec. 4. RCW 43.155.050 and 2001 c 131 s 2 are each amended to read as follows:

(1) The public works assistance account is hereby established in the state treasury. Money may be placed in the public works assistance account from the proceeds of bonds when authorized by the legislature or from any other lawful source. Money in the public works assistance account shall be used to make loans and to give financial guarantees to local governments for public works projects. Moneys in the account may also be appropriated to provide for state match requirements under federal law for projects and activities conducted and financed by the board under the drinking water assistance account. Not more than fifteen percent of the biennial capital budget appropriation to the public works board from this account may be expended or obligated for preconstruction loans, emergency loans, or loans for capital facility planning under this chapter; of this amount, not more than ten percent of the biennial capital budget appropriation may be expended for emergency loans and not more than one percent of the biennial capital budget appropriation may be expended for capital facility planning loans.

(2) The job development fund is hereby established in the state treasury. Up to fifty million dollars each biennium from the public works assistance account may be transferred into the job development fund. Money in the job development fund may be used solely for job development fund program grants, administrative expenses related to the administration of the job development fund program created in section 2 of this act, and for the report prepared by the joint legislative audit and review committee pursuant to section 5(2) of this act. Moneys in the job development fund may be spent only after appropriation. The board shall prepare a prioritized list of proposed projects of up to fifty million dollars as part of the department's 2007-09 biennial budget request. The board may provide an additional alternate job development fund project list of up to ten million dollars. The legislature may remove projects from the list recommended by the board. The legislature may not change the prioritization of projects recommended for funding by the board, but may add projects from the alternate list in order of priority, as long as the total funding does not exceed fifty million dollars.

NEW SECTION. Sec. 5. (1) The joint legislative audit and review committee shall conduct an inventory of all state public infrastructure programs and funds. The inventory shall identify: The public infrastructure state programs and funds and the purposes each serve; how the program or fund is implemented; the types of public infrastructure projects supported by the

program or fund; the dollar amount of the projects funded by each program or fund; the balance of a fund, if applicable; and the geographic distribution of projects supported by a program or fund. Where applicable, the inventory shall identify overlaps or gaps in types of public infrastructure projects supported through state programs or funds. Where appropriate, the inventory shall evaluate the return on investment for economic development infrastructure programs. The inventory shall be delivered to the appropriate committees of the legislature by December 1, 2006.

(2) By September 1, 2010, the joint legislative audit and review committee shall submit a report on the outcomes of the job development fund program to the appropriate committees of the legislature. The report shall apply the performance and evaluation criteria developed by the community economic revitalization board and the committee and shall include a project by project review detailing how the funds were used and whether the performance measures were met. The report shall also include impacts to the availability of low-interest and interest-free loans to local governments under RCW 43.155.055, 43.155.060, 43.155.065, and 43.155.068, resulting from appropriations to the job development fund. Information in the report shall include, but not be limited to:

- (a) The total funds appropriated from the public works assistance account to the job development account;
- (b) The ratio of loan requests submitted to the public works board as compared to actual money available for loans in the public works assistance account since the effective date of this act;
- (c) The total amount that would have been available for loans from the public works assistance account had this act not taken effect;
- (d) Identification of specific loan requests that would have qualified for funding under chapter 43.155 RCW had money been available in the public works assistance account;
- (e) Assessment of increased costs for otherwise qualifying projects where local governments were compelled to seek alternate funding sources.

NEW SECTION. Sec. 6. This act expires June 30, 2011.

NEW SECTION. Sec. 7. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected."

On page 1, line 1 of the title, after "fund;" strike the remainder of the title and insert "amending RCW 43.155.050; adding new sections to chapter 43.160 RCW; creating new sections; and providing an expiration date."

MESSAGE FROM THE SENATE

April 22, 2005

Mr. Speaker:

The Senate receded from its amendment to SUBSTITUTE HOUSE BILL NO. 1893. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. The legislature finds that the quality of education for children who are deaf or hard of hearing and the expectations for those children's achievement should be equivalent to those for children throughout the state. The legislature also finds that deaf and hard of hearing children can benefit greatly if they are taught by an educator who is trained to understand the learning and communication issues the children face. Educators who received teacher training in a program for the deaf and hard of hearing are sensitive to the needs of deaf and hard of hearing students and are able to provide appropriate strategies to assist students in reacting to and interacting with their environment. The legislature intends to assist school districts in their efforts to attract teachers who are especially trained to work with deaf and hard of hearing students by directing the state board of education to establish a certification endorsement for teachers of the deaf and hard of hearing.

NEW SECTION. Sec. 2. A new section is added to chapter 28A.410 RCW to read as follows:

The agency responsible for teacher certification shall develop certification endorsement requirements for teachers of deaf and hard of hearing students. The endorsement shall be focused on the specific skills and knowledge necessary to serve the education and communication needs of deaf and hard of hearing students. In establishing rules for the endorsement of teachers

who will be working almost exclusively with students who are deaf or hard of hearing, the agency shall consider applicants to have met state endorsement requirements if they possess a baccalaureate or master's degree in deaf education from a teacher training program approved by the council on education of the deaf."

On page 1, line 2 of the title, after "hearing;" strike the remainder of the title and insert "adding a new section to chapter 28A.410 RCW; and creating a new section."

These people have literally only been home in the last forty eight hours to shower and turn around and come back. They have not slept. If we do good work in Transportation, regardless of our disagreements as a body, we do good work because of these individuals. They are the brightest, most dedicated, most patient – they have to work with me afterall – group of individuals I have ever had the pleasure to work with and I cannot thank them enough for their good work and I am sure that the ranking member on Transportation would like to add a few words."

POINT OF PERSONAL PRIVILEGE

You know, when the good representative from the 43rd and I would meet and talk about the Transportation Budget and' make just this little change or that little change and just give it to staff. Then we would leave at 10 or 11 o'clock at night and you guys were always there making those changes. Especially this last week when we have made so many changes to these budgets. You were always there, you were always smiling, you were always saying

'yes, we can do that' or 'no, Representative, you can't do that' but you were smiling when you said it. I have worked with most of you for six years now and you are just a fabulous staff. We are so grateful for your service. Thank you."

On page 1, beginning on line 15, strike all of Section 2 and insert the following:

"**Sec. 2.** RCW 84.36.381 and 2004 c 270 s 1 are each amended to read as follows:

A person shall be exempt from any legal obligation to pay all or a portion of the amount of excess and regular real property taxes due and payable in the year following the year in which a claim is filed, and thereafter, in accordance with the following:

(1) The property taxes must have been imposed upon a residence which was occupied by the person claiming the exemption as a principal place of residence as of the time of filing: PROVIDED, That any person who sells, transfers, or is displaced from his or her residence may transfer his or her exemption status to a replacement residence, but no claimant shall receive an exemption on more than one residence in any year: PROVIDED FURTHER, That confinement of the person to a hospital, nursing home, boarding home, or adult family home shall not disqualify the claim of exemption if:

(a) The residence is temporarily unoccupied;

(b) The residence is occupied by a spouse and/or a person financially dependent on the claimant for support; or
(c) The residence is rented for the purpose of paying nursing home, hospital, boarding home, or adult family home costs;

(2) The person claiming the exemption must have owned, at the time of filing, in fee, as a life estate, or by contract purchase, the residence on which the property taxes have been imposed or if the person claiming the exemption lives in a cooperative housing association, corporation, or partnership, such person must own a share therein representing the unit or portion of the structure in which he or she resides. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant, and any lease for life shall be deemed a life estate;

(3) The person claiming the exemption must be (a) sixty-one years of age or older on December 31st of the year in which the exemption claim is filed, or must have been, at the time of filing, retired from regular gainful employment by reason of disability, or (b) a veteran of the armed forces of the United States with one hundred percent service connected disability as provided in 42 U.S.C. Sec. 423 (d)(1)(A) as amended prior to January 1, 2005. (~~(- PROVIDED, That any-)~~) However, any surviving spouse of a person who was receiving an exemption at the time of the person's death shall qualify if the surviving spouse is fifty-seven years of age or older and otherwise meets the requirements of this section;

(4) The amount that the person shall be exempt from an obligation to pay shall be calculated on the basis of combined disposable income, as defined in RCW 84.36.383. If the person claiming the exemption was retired for two months or more of the assessment year, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person during the months such person was retired by twelve. If the income of the person claiming exemption is reduced for two or more months of the assessment year by reason of the death of the person's spouse, or when other substantial changes occur in disposable income that are likely to continue for an indefinite period of time, the combined disposable income of such person shall be calculated by multiplying the average monthly combined disposable income of such person after such occurrences by twelve. If it is necessary to estimate income to comply with this subsection, the assessor may require confirming documentation of such income prior to May 31 of the year following application;

(5)(a) A person who otherwise qualifies under this section and has a combined disposable income of thirty-five thousand dollars or less shall be exempt from all excess property taxes; and

(b)(i) A person who otherwise qualifies under this section and has a combined disposable income of thirty thousand dollars or less but greater than twenty-five thousand dollars shall be exempt from all regular property taxes on the greater of fifty thousand dollars or thirty-five percent of the valuation of his or her residence, but not to exceed seventy thousand dollars of the valuation of his or her residence; or

(ii) A person who otherwise qualifies under this section and has a combined disposable income of twenty-five thousand dollars or less shall be exempt from all regular property taxes on the greater of sixty thousand dollars or sixty percent of the valuation of his or her residence;

(6) For a person who otherwise qualifies under this section and has a combined disposable income of thirty-five thousand dollars or less, the valuation of the residence shall be the assessed value of the residence on the later of January 1, 1995, or January 1st of the assessment year the person first qualifies under this section. If the person subsequently fails to qualify under this section only for one year because of high income, this same valuation shall be used upon requalification. If the person fails to qualify for more than one year in succession because of high income or fails to qualify for any other reason, the valuation upon requalification shall be the assessed value on January 1st of the assessment year in which the person requalifies. If the person transfers the exemption under this section to a different residence, the valuation of the different residence shall be the assessed value of the different residence on January 1st of the assessment year in which the person transfers the exemption.

In no event may the valuation under this subsection be greater than the true and fair value of the residence on January 1st of the assessment year.

This subsection does not apply to subsequent improvements to the property in the year in which the improvements are made. Subsequent improvements to the property shall be added to the value otherwise determined under this subsection at their true and fair value in the year in which they are made."

SENATE AMENDMENTS TO HOUSE BILL

April 23, 2005

Mr. Speaker:

The Senate has passed SUBSTITUTE HOUSE BILL NO. 2304, with the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 43.20B RCW to read as follows:

(1) When an individual receives medical assistance subject to recovery under this chapter and the individual is the holder of record title to real property or the purchaser under a land sale contract, the department of social and health services may present to the county auditor for recording in the deed and mortgage records of a county a request for notice of transfer or

encumbrance of the real property. The department shall adopt a rule providing prior notice and hearing rights to the record title holder or purchaser under a land sale contract.

(2) The department shall present to the county auditor for recording a termination of request for notice of transfer or encumbrance when, in the judgment of the department, it is no longer necessary or appropriate for the department to monitor transfers or encumbrances related to the real property.

(3) The department shall adopt by rule a form for the request for notice of transfer or encumbrance and the termination of request for notice of transfer or encumbrance that, at a minimum:

(a) Contains the name of the public assistance recipient and a departmental case identifier or other appropriate information that links the individual who is the holder of record title to real property or the purchaser under a land sale contract to the individual's public assistance records;

(b) Contains the legal description of the real property;

(c) Contains a mailing address for the department to receive the notice of transfer or encumbrance; and

(d) Complies with the requirements for recording in RCW 36.18.010 for those forms intended to be recorded.

(4) The department shall pay the recording fee required by the county clerk under RCW 36.18.010.

(5) The request for notice of transfer or encumbrance described in this section does not affect title to real property and is not a lien on, encumbrance of, or other interest in the real property.

NEW SECTION. Sec. 2. A new section is added to chapter 64.04 RCW to read as follows:

(1) If the department of social and health services has filed a request for notice of transfer or encumbrance under section 1 of this act:

(a) A title insurance company or agent that discovers the presence of a request for notice of transfer or encumbrance when performing a title search on real property shall disclose the presence of the request for notice of transfer or encumbrance in any report preliminary to, or any commitment to offer, a certificate of title insurance for the real property; and

(b) Any individual who transfers or encumbers real property shall provide the department of social and health services with a notice of transfer or encumbrance. The department of social and health services shall adopt by rule a model form for notice of transfer or encumbrance to be used by a purchaser or lender when notifying the department.

(2) If the department of social and health services has caused to be recorded a termination of request for notice of transfer or encumbrance in the deed and mortgage records under section 1 of this act, an individual transferring or encumbering the real property is not required to provide the notice of transfer or encumbrance required by subsection (1)(b) of this section.

Sec. 3. RCW 65.04.050 and 1996 c 143 s 4 are each amended to read as follows:

Every auditor or recording officer must keep a general index, direct and inverted. The index may be either printed on paper or produced on microfilm or microfiche, or it can be created from a computerized data base and displayed on a video display terminal. Any reference to a prior record location number may be entered in the remarks column. Any property legal description contained in the instrument must be entered in the description of property column of the general index. The direct index shall be divided into eight columns, and with heads to the respective columns, as follows: Date of reception, grantor, grantee, nature of instrument, volume and page where recorded and/or the auditor's file number, remarks, description of property, assessor's property tax parcel or account number. The auditor or recording officer shall correctly enter in such index every instrument concerning or affecting real estate which by law is required to be recorded, the names of grantors being in alphabetical order. The inverted index shall also be divided into eight columns, precisely similar, except that "grantee" shall occupy the second column and "grantor" the third, the names of grantees being in alphabetical order. The auditor or recording officer may combine the direct and indirect indexes into a single index if it contains all the information required to be contained in the separate direct and indirect indexes and the names of all grantors and grantees can be found by a person searching the combined index. For the purposes of this chapter, the term "grantor" means any person conveying or encumbering the title to any property, or any person against whom any lis pendens, judgment, notice of lien, order of sale, execution, writ of attachment, ((~~or~~)) claims of separate or community property, or notice for request of transfer or encumbrance under section 1 of this act shall be placed on record. The auditor or recording officer shall also enter in the general index, the name of the party or parties platting a town, village, or addition in the column prescribed for "grantors," describing the grantee in such case as "the public." However, the auditor or recording officer shall not receive or record any such plat or map until it has been approved by the mayor and common council of the municipality in which the property so platted is situated, or if the property be not situated within any municipal corporation, then the plat must be first approved by the county legislative authority. The auditor or recording officer shall not receive for record any plat, map, or subdivision of land bearing a name the same or similar to the name of any map or plat already on record in the office. The auditor or recording officer may establish a name reservation system to preclude the possibility of duplication of names.

Sec. 4. RCW 6.13.080 and 1993 c 200 s 4 are each amended to read as follows:

The homestead exemption is not available against an execution or forced sale in satisfaction of judgments obtained:

(1) On debts secured by mechanic's, laborer's, construction, maritime, automobile repair, materialmen's or vendor's liens arising out of and against the particular property claimed as a homestead;

(2) On debts secured (a) by security agreements describing as collateral the property that is claimed as a homestead or (b) by mortgages or deeds of trust on the premises that have been executed and acknowledged by the husband and wife or by any unmarried claimant;

(3) On one spouse's or the community's debts existing at the time of that spouse's bankruptcy filing where (a) bankruptcy is filed by both spouses within a six-month period, other than in a joint case or a case in which their assets are jointly administered, and (b) the other spouse exempts property from property of the estate under the bankruptcy exemption provisions of 11 U.S.C. Sec. 522(d);

(4) On debts arising from a lawful court order or decree or administrative order establishing a child support obligation or obligation to pay spousal maintenance; (~~(e)~~)

(5) On debts owing to the state of Washington for recovery of medical assistance correctly paid on behalf of an individual consistent with 42 U.S.C. Sec. 1396p; or

(6) On debts secured by a condominium's or homeowner association's lien. In order for an association to be exempt under this provision, the association must have provided a homeowner with notice that nonpayment of the association's assessment may result in foreclosure of the association lien and that the homestead protection under this chapter shall not apply. An association has complied with this notice requirement by mailing the notice, by first class mail, to the address of the owner's lot or unit. The notice required in this subsection shall be given within thirty days from the date the association learns of a new owner, but in all cases the notice must be given prior to the initiation of a foreclosure. The phrase "learns of a new owner" in this subsection means actual knowledge of the identity of a homeowner acquiring title after June 9, 1988, and does not require that an association affirmatively ascertain the identity of a homeowner. Failure to give the notice specified in this subsection affects an association's lien only for debts accrued up to the time an association complies with the notice provisions under this subsection.

Sec. 5. RCW 43.20B.030 and 2003 c 207 s 1 are each amended to read as follows:

(1) Except as otherwise provided by law, including subsection (2) of this section, there will be no collection of overpayments and other debts due the department after the expiration of six years from the date of notice of such overpayment or other debt unless the department has commenced recovery action in a court of law or unless an administrative remedy authorized by statute is in place. However, any amount due in a case thus extended shall cease to be a debt due the department at the expiration of ten years from the date of the notice of the overpayment or other debt unless a court-ordered remedy would be in effect for a longer period.

(2) There will be no collection of debts due the department after the expiration of twenty years from the date a lien is recorded pursuant to RCW 43.20B.080.

(3) The department, at any time, may accept offers of compromise of disputed claims or may grant partial or total write-off of any debt due the department if it is no longer cost-effective to pursue. The department shall adopt rules establishing the considerations to be made in the granting or denial of a partial or total write-off of debts.

Sec. 6. RCW 43.20B.080 and 1999 c 354 s 2 are each amended to read as follows:

(1) The department shall file liens, seek adjustment, or otherwise effect recovery for medical assistance correctly paid on behalf of an individual consistent with 42 U.S.C. Sec. 1396p. The department shall adopt a rule providing for prior notice and hearing rights to the record title holder or purchaser under a land sale contract.

(2) Liens may be adjusted by foreclosure in accordance with chapter 61.12 RCW.

(3) In the case of an individual who was fifty-five years of age or older when the individual received medical assistance, the department shall seek adjustment or recovery from the individual's estate, and from nonprobate assets of the individual as defined by RCW 11.02.005, but only for medical assistance consisting of nursing facility services, home and community-based services, other services that the department determines to be appropriate, and related hospital and prescription drug services. Recovery from the individual's estate, including foreclosure of liens imposed under this section, shall be undertaken as soon as practicable, consistent with 42 U.S.C. Sec. 1396p.

(4) The department shall apply the medical assistance estate recovery law as it existed on the date that benefits were received when calculating an estate's liability to reimburse the department for those benefits.

(5)(a) The department shall establish procedures consistent with standards established by the federal department of health and human services and pursuant to 42 U.S.C. Sec. 1396p to waive recovery when such recovery would work an undue hardship.

(b) Recovery of medical assistance from a recipient's estate shall not include property made exempt from claims by federal law or treaty, including exemption for tribal artifacts that may be held by individual Native Americans.

(6) A lien authorized under ~~((subsections (1) through (5) of))~~ this section relates back to attach to any real property that the decedent had an ownership interest in immediately before death and is effective as of that date or date of recording, whichever is earlier.

(7) The department may enforce a lien authorized under this section against a decedent's life estate or joint tenancy interest in real property held by the decedent immediately prior to his or her death. Such a lien enforced under this subsection shall not end and shall continue as provided in this subsection until the department's lien has been satisfied.

(a) The value of the life estate subject to the lien shall be the value of the decedent's interest in the property subject to the life estate immediately prior to the decedent's death.

(b) The value of the joint tenancy interest subject to the lien shall be the value of the decedent's fractional interest the recipient would have owned in the jointly held interest in the property had the recipient and the surviving joint tenants held title to the property as tenants in common on the date of the recipient's death.

(c) The department may not enforce the lien provided by this subsection against a bona fide purchaser or encumbrancer that obtains an interest in the property after the death of the recipient and before the department records either its lien or the request for notice of transfer or encumbrance as provided by section 1 of this act.

(d) The department may not enforce a lien provided by this subsection against any property right that vested prior to July 1, 2005.

(8)(a) Subject to the requirements of 42 U.S.C. Sec. 1396p(a) and the conditions of this subsection (8), the department is authorized to file a lien against the property of an individual prior to his or her death, and to seek adjustment and recovery from the individual's estate or sale of the property subject to the lien, if:

(i) The individual is an inpatient in a nursing facility, intermediate care facility for individuals with mental retardation, or other medical institution; and

(ii) The department has determined after notice and opportunity for a hearing that the individual cannot reasonably be expected to be discharged from the medical institution and to return home.

(b) If the individual is discharged from the medical facility and returns home, the department shall dissolve the lien.

(9) The department is authorized to adopt rules to effect recovery under this section. The department may adopt by rule later enactments of the federal laws referenced in this section.

~~((8))~~ (10) It is the responsibility of the department to fully disclose in advance verbally and in writing, in easy to understand language, the terms and conditions of estate recovery to all persons offered long-term care services subject to recovery of payments.

~~((9))~~ (11) In disclosing estate recovery costs to potential clients, and to family members at the consent of the client, the department shall provide a written description of the community service options.

~~((10) The department of social and health services shall develop an implementation plan for notifying the client or his or her legal representative at least quarterly of the types of services used and the cost of those services (debt) that will be charged against the estate. The estate planning implementation plan shall be submitted by December 12, 1999, to the appropriate standing committees of the house of representatives and the senate, and to the joint legislative and executive task force on long term care.))"~~

On page 1, line 2 of the title, after "debts;" strike the remainder of the title and insert "amending RCW 65.04.050, 6.13.080, 43.20B.030, and 43.20B.080; adding a new section to chapter 43.20B RCW; and adding a new section to chapter 64.04 RCW."

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. Restricting access to certain precursor drugs used to manufacture methamphetamine to ensure that they are only sold at retail to individuals who will use them for legitimate purposes upon production of proper identification is an essential step to controlling the manufacture of methamphetamine.

NEW SECTION. Sec. 2. A new section is added to chapter 69.43 RCW to read as follows:

(1) For purposes of this section, "traditional Chinese herbal practitioner" means a person who is certified as a diplomate in Chinese herbology from the national certification commission for acupuncture and oriental medicine or who has received a certificate in Chinese herbology from a school accredited by the accreditation council on acupuncture and oriental medicine.

(2) A pharmacy licensed by, or shopkeeper or itinerant vendor registered with, the department of health under chapter 18.64 RCW, or an employee thereof, a practitioner as defined in RCW 18.64.011, or a traditional Chinese herbal practitioner may not knowingly sell, transfer, or otherwise furnish to any person a product at retail that he or she knows to contain any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, without first obtaining photo identification of the person that shows the date of birth of the person.

(3) A person buying or receiving a product at retail containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, from a pharmacy licensed by, or shopkeeper or itinerant vendor registered with, the department of health under chapter 18.64 RCW, or an employee thereof, a practitioner as defined in RCW 18.64.011, or a traditional Chinese herbal practitioner must first produce photo identification of the person that shows the date of birth of the person.

(4) Any product containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, shall be kept in a central location that is not accessible by customers without assistance of an employee of the merchant.

(5) No pharmacy licensed by, or shopkeeper or itinerant vendor registered with, the department of health under chapter 18.64 RCW, or an employee thereof, a practitioner as defined in RCW 18.64.011, or a traditional Chinese herbal practitioner may sell any product containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, to a person that is not at least eighteen years old.

(6) The board of pharmacy, by rule, may exempt products containing ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, in combination with another active ingredient from the requirements of this section if they are found not to be used in the illegal manufacture of methamphetamine or other controlled dangerous substances. A manufacturer of a drug product may apply for removal of the product from the requirements of this section if the product is determined by the board to have been formulated in such a way as to effectively prevent the conversion of the active ingredient into methamphetamine. The burden of proof for exemption is upon the person requesting the exemption. The petitioner shall provide the board with evidence that the product has been formulated in such a way as to serve as an effective general deterrent to the conversion of pseudoephedrine into methamphetamine. The evidence must include the furnishing of a valid scientific study, conducted by an independent, professional laboratory and evincing professional quality chemical analysis. Factors to be considered in whether a product should be excluded from this section include but are not limited to:

- (a) Ease with which the product can be converted to methamphetamine;
 - (b) Ease with which ephedrine, pseudoephedrine, or phenylpropanolamine is extracted from the substance and whether it forms an emulsion, salt, or other form;
 - (c) Whether the product contains a "molecular lock" that renders it incapable of being converted into methamphetamine;
 - (d) Presence of other ingredients that render the product less likely to be used in the manufacture of methamphetamine;
- and

(e) Any pertinent data that can be used to determine the risk of the substance being used in the illegal manufacture of methamphetamine or any other controlled substance.

(7) Nothing in this section applies:

- (a) To any product containing ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers that is not the only active ingredient and that is in liquid, liquid capsule, or gel capsule form;
- (b) To the sale of a product that may only be sold upon the presentation of a prescription;
- (c) To the sale of a product by a traditional Chinese herbal practitioner to a patient; or
- (d) When the details of the transaction are recorded in a pharmacy profile individually identified with the recipient and maintained by a licensed pharmacy.

(8)(a) No pharmacy licensed by, or shopkeeper or itinerant vendor registered with, the department of health under chapter 18.64 RCW, a practitioner as defined in RCW 18.64.011, or a traditional Chinese herbal practitioner may retaliate against any employee that has made a good faith attempt to comply with the requirements of this section by requesting that a customer present photo identification, making a reasonable effort to determine the customer's age.

(b) No pharmacy licensed by, or shopkeeper or itinerant vendor registered with, the department of health under chapter 18.64 RCW, a practitioner as defined in RCW 18.64.011, or a traditional Chinese herbal practitioner is subject to prosecution

under subsection (9) of this section if they made a good faith attempt to comply with the requirements of this section by requesting that a customer present photo identification, making a reasonable effort to determine the customer's age.

(9) A violation of this section is a gross misdemeanor.

NEW SECTION. Sec. 3. A new section is added to chapter 69.43 RCW to read as follows:

(1) The Washington association of sheriffs and police chiefs or the Washington state patrol may petition the state board of pharmacy to apply the log requirements in section 8 of this act to one or more products that contain ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, that is not the only active ingredient and that is in liquid, liquid capsule, or gel capsule form. The petition shall establish that:

(a) Ephedrine, pseudoephedrine, or phenylpropanolamine can be effectively extracted from the product and converted into methamphetamine or another controlled dangerous substance; and

(b) Law enforcement, the Washington state patrol, or the department of ecology are finding substantial evidence that the product is being used for the illegal manufacture of methamphetamine or another controlled dangerous substance.

(2) The board of pharmacy shall adopt rules when a petition establishes that requiring the application of the log requirements in section 8 of this act to the sale of the product at retail is warranted based upon the effectiveness and extent of use of the product for the illegal manufacture of methamphetamine or other controlled dangerous substances and the extent of the burden of any restrictions upon consumers. The board of pharmacy may adopt emergency rules to apply the log requirements to the sale of a product when the petition establishes that the immediate restriction of the product is necessary in order to protect public health and safety.

Sec. 4. RCW 69.43.110 and 2004 c 52 s 5 are each amended to read as follows:

(1) It is unlawful for a pharmacy licensed by, or shopkeeper or itinerant vendor registered with, the department of health under chapter 18.64 RCW, or an employee thereof, or a practitioner as defined in RCW 18.64.011, knowingly to sell, transfer, or to otherwise furnish, in a single transaction:

(a) More than ~~((three))~~ two packages of one or more products that he or she knows to contain ephedrine, pseudoephedrine, or phenylpropanolamine, their salts, isomers, or salts of isomers; or

(b) A single package of any product that he or she knows to contain more than three grams of ephedrine, pseudoephedrine, or phenylpropanolamine, their salts, isomers, or salts of isomers, or a combination of any of these substances.

(2) It is unlawful for a person who is not a manufacturer, wholesaler, pharmacy, practitioner, shopkeeper, or itinerant vendor licensed by or registered with the department of health under chapter 18.64 RCW to purchase or acquire, in any twenty-four hour period, more than the quantities of the substances specified in subsection (1) of this section.

(3) It is unlawful for any person to sell or distribute any of the substances specified in subsection (1) of this section unless the person is licensed by or registered with the department of health under chapter 18.64 RCW, or is a practitioner as defined in RCW 18.64.011.

(4) A violation of this section is a gross misdemeanor.

Sec. 5. RCW 18.64.044 and 2004 c 52 s 2 are each amended to read as follows:

(1) A shopkeeper registered as provided in this section may sell nonprescription drugs, if such drugs are sold in the original package of the manufacturer.

(2) Every shopkeeper not a licensed pharmacist, desiring to secure the benefits and privileges of this section, is hereby required to register as a shopkeeper through the master license system, and he or she shall pay the fee determined by the secretary for registration, and on a date to be determined by the secretary thereafter the fee determined by the secretary for renewal of the registration; and shall at all times keep said registration or the current renewal thereof conspicuously exposed in the location to which it applies. In event such shopkeeper's registration is not renewed by the master license expiration date, no renewal or new registration shall be issued except upon payment of the registration renewal fee and the master license delinquency fee under chapter 19.02 RCW. This registration fee shall not authorize the sale of legend drugs or controlled substances.

(3) The registration fees determined by the secretary under subsection (2) of this section shall not exceed the cost of registering the shopkeeper.

(4) Any shopkeeper who shall vend or sell, or offer to sell to the public any such nonprescription drug or preparation without having registered to do so as provided in this section, shall be guilty of a misdemeanor and each sale or offer to sell shall constitute a separate offense.

(5) A shopkeeper who is not a licensed pharmacy may purchase products containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, only from a wholesaler licensed by the department under RCW 18.64.046 or from a manufacturer licensed by the department under RCW 18.64.045. The board

shall issue a warning to a shopkeeper who violates this subsection, and may suspend or revoke the registration of the shopkeeper for a subsequent violation.

(6) A shopkeeper who has purchased products containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, in a suspicious transaction as defined in RCW 69.43.035, is subject to the following requirements:

(a) The shopkeeper may not sell any quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, if the total monthly sales of these products exceed ten percent of the shopkeeper's total prior monthly sales of nonprescription drugs in March through October. In November through February, the shopkeeper may not sell any quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, if the total monthly sales of these products exceed twenty percent of the shopkeeper's total prior monthly sales of nonprescription drugs. For purposes of this section, "monthly sales" means total dollars paid by buyers. The board may suspend or revoke the registration of a shopkeeper who violates this subsection.

(b) The shopkeeper shall maintain inventory records of the receipt and disposition of nonprescription drugs, utilizing existing inventory controls if an auditor or investigator can determine compliance with (a) of this subsection, and otherwise in the form and manner required by the board. The records must be available for inspection by the board or any law enforcement agency and must be maintained for two years. The board may suspend or revoke the registration of a shopkeeper who violates this subsection. For purposes of this subsection, "disposition" means the return of product to the wholesaler or distributor.

Sec. 6. RCW 18.64.046 and 2004 c 52 s 3 are each amended to read as follows:

(1) The owner of each place of business which sells legend drugs and nonprescription drugs, or nonprescription drugs at wholesale shall pay a license fee to be determined by the secretary, and thereafter, on or before a date to be determined by the secretary as provided in RCW 43.70.250 and 43.70.280, a like fee to be determined by the secretary, for which the owner shall receive a license of location from the department, which shall entitle such owner to either sell legend drugs and nonprescription drugs or nonprescription drugs at wholesale at the location specified for the period ending on a date to be determined by the secretary, and each such owner shall at the time of payment of such fee file with the department, on a blank therefor provided, a declaration of ownership and location, which declaration of ownership and location so filed as aforesaid shall be deemed presumptive evidence of the ownership of such place of business mentioned therein. It shall be the duty of the owner to notify immediately the department of any change of location and ownership and to keep the license of location or the renewal thereof properly exhibited in such place of business.

(2) Failure to conform with this section is a misdemeanor, and each day that the failure continues is a separate offense.

(3) In event the license fee remains unpaid on the date due, no renewal or new license shall be issued except upon compliance with administrative procedures, administrative requirements, and fees determined as provided in RCW 43.70.250 and 43.70.280.

(4) No wholesaler may sell any quantity of drug products containing ephedrine, pseudoephedrine, phenylpropanolamine, or their salts, isomers, or salts of isomers, if the total monthly sales of these products to persons within the state of Washington exceed five percent of the wholesaler's total prior monthly sales of nonprescription drugs to persons within the state in March through October. In November through February, no wholesaler may sell any quantity of drug products containing ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers if the total monthly sales of these products to persons within the state of Washington exceed ten percent of the wholesaler's total prior monthly sales of nonprescription drugs to persons within the state. For purposes of this section, monthly sales means total dollars paid by buyers. The board may suspend or revoke the license of any wholesaler that violates this section.

(5) The board may exempt a wholesaler from the limitations of subsection (4) of this section if it finds that the wholesaler distributes nonprescription drugs only through transactions between divisions, subsidiaries, or related companies when the wholesaler and the retailer are related by common ownership, and that neither the wholesaler nor the retailer has a history of suspicious transactions in precursor drugs as defined in RCW 69.43.035.

(6) The requirements for a license apply to all persons, in Washington and outside of Washington, who sell both legend drugs and nonprescription drugs and to those who sell only nonprescription drugs, at wholesale to pharmacies, practitioners, and shopkeepers in Washington.

(7)(a) No wholesaler may sell any ~~((quantity))~~ product containing any detectable quantity of ephedrine, pseudoephedrine, phenylpropanolamine, or their salts, isomers, or salts of isomers, to any person in Washington other than a pharmacy licensed under this chapter, a shopkeeper or itinerant vendor registered under this chapter, ~~((or))~~ a practitioner as defined in RCW 18.64.011, or a traditional Chinese herbal practitioner as defined in section 2 of this act.

(b) A violation of this subsection is punishable as a class C felony according to chapter 9A.20 RCW, and each sale in violation of this subsection constitutes a separate offense.

Sec. 7. RCW 18.64.047 and 2004 c 52 s 4 are each amended to read as follows:

(1) Any itinerant vendor or any peddler of any nonprescription drug or preparation for the treatment of disease or injury, shall pay a registration fee determined by the secretary on a date to be determined by the secretary as provided in RCW 43.70.250 and 43.70.280. (2) Any itinerant vendor or peddler who shall vend or sell, or offer to sell to the public any such nonprescription drug or preparation without having registered to do so as provided in this section, is guilty of a misdemeanor and each sale or offer to sell shall constitute a separate offense.

(3) In event the registration fee remains unpaid on the date due, no renewal or new registration shall be issued except upon compliance with administrative procedures, administrative requirements, and fees determined as provided in RCW 43.70.250 and 43.70.280. This registration shall not authorize the sale of legend drugs or controlled substances.

(4) An itinerant vendor may purchase products containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers only from a wholesaler licensed by the department under RCW 18.64.046 or from a manufacturer licensed by the department under RCW 18.64.045. The board shall issue a warning to an itinerant vendor who violates this subsection, and may suspend or revoke the registration of the vendor for a subsequent violation.

(5) An itinerant vendor who has purchased products containing any detectable quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, in a suspicious transaction as defined in RCW 69.43.035, is subject to the following requirements:

(a) The itinerant vendor may not sell any quantity of ephedrine, pseudoephedrine, or phenylpropanolamine, or their salts, isomers, or salts of isomers, if the total monthly sales of these products exceed ten percent of the vendor's total prior monthly sales of nonprescription drugs in March through October. For purposes of this section, "monthly sales" means total dollars paid by buyers. The board may suspend or revoke the registration of an itinerant vendor who violates this subsection.

(b) The itinerant vendor shall maintain inventory records of the receipt and disposition of nonprescription drugs, utilizing existing inventory controls if an auditor or investigator can determine compliance with (a) of this subsection, and otherwise in the form and manner required by the board. The records must be available for inspection by the board or any law enforcement agency and must be maintained for two years. The board may suspend or revoke the registration of an itinerant vendor who violates this subsection. For purposes of this subsection, "disposition" means the return of product to the wholesaler or distributor.

Representative McDermott: "Thank you, Mr. Speaker. In my youth, one of the most exciting things I did was spend time at a summer camp on the Icicle River outside of Leavenworth. Summer camp was a great experience through our youth. Actually it was the last day of summer camp that we did something really exciting every year. Mr. Speaker, you're wondering what I'm talking about? That was thanking the cafeteria staff at camp. I think that in our one hundred and fifth day of legislative session, we should also be thanking our cafeteria staff who has served us so well throughout the session. Mr. Speaker, could we invite the cafeteria staff to the floor to receive our appreciation? Before us we have Twila Asselstine, Gail Crow, Peggy Palm, Leslie Vessey and Marcel Dumont. Between them they have made sure we were well fed, fueled for our legislative efforts, served us more food than we ever wanted and we have cleaned our plates. We look forward to seeing you again next year. Thank you so much."

POINT OF PERSONAL PRIVILEGE

Representative Wallace: "Thank you, Mr. Speaker. I would like to thank some unsung heroes among us. Those people would be the Code Revisors. I would like to stand today and ask that the Code Revisors join us out on the floor so that we may thank them. When I arrived here in Olympia two years ago and began to draft bills, I would hear 'Well, the Code Revisor is looking at the bill; the Code Revisor is doing this or that'. I didn't know what a Code Revisor was or what they did. But in the last two years what I've come to realize is that these really are the unsung heroes among us. The people who really make our activities out here on the floor, our activities throughout the session and the year happen. We all have to thank these people for taking our bills that we work on and turning them into code. I am always amazed when you look at the set of books or you look on line at the code we have. It is these people that are doing all of the nuts and bolts work to make what we do effective here in the State of Washington as part of the code. People we don't often see but so important that we take the time to thank each and everyone of you for all of your work. And including the pup down at the end. Thank you very much. We appreciate your work."

There being no objection, the House advanced to the seventh order of business.

POINT OF PERSONAL PRIVILEGE

Representative Hunt: "Thank you, Mr. Speaker. Well, as we recognize various people who contribute greatly and daily to our operation, we would be remiss if we did not honor and recognize our page supervisors. This is real special because one of them has been a long time personal friend of mine and five or six years ago he said 'I've retired and I'd like to do something else to help the State. Is there anything I might do?' I said, 'Well, Mal, you seem to get along with kids – would you be interested in applying for a job as Page Supervisor or something like that in the Legislature?' Mal applied and we've been more than lucky to have him serving as our Page Supervisor for the past five years. It looks like he may be retiring and doing more travel and spending time with his family. We are going to miss him. And this is also special because for a number of years my wife also served as Page Supervisor so it is a program that is near and dear to my heart. We have Mal Monahan – things that Mal has done, he has been instrumental in updating the Page Handbook and materials that go out to pages and their parents. He actually starts work in November to advertise for host families to help house the pages during the week they are here in Olympia because each of those pages which come to us from out of the Olympia area have to have places to stay. Mal and his partner Paula Rehwaldt do things like find housing for the pages, they work with them, they communicate with the potential pages, they select and go to each of the members and find out which pages that they would like to come serve. Each Sunday, Mal and Paula welcome 25 new bright eyed pages to Olympia and send them through an afternoon orientation program before they come in on Monday morning to serve as our pages and do all those wonderful jobs for us. They work on a rotating schedule so that the pages get to see the House floor, the O'Brien Building and the various other facilities. I understand that the prize job for pages is lunch room duty because the pages who work there get a free lunch. So they are trainers, they are mentors, they are surrogate parents, and they are friends for these 25 teenagers most of whom are away from home. Mal tells us that this is probably his last year and I am going to put a special provision in the budget that does not allow that – that we will allow him to come back. Mal and Paula, thank you for all that you do."

The Speaker assumed the chair.

POINT OF PERSONAL PRIVILEGE

Representative Wood: "Thank you, Mr. Speaker. One of the nice things about the last few days of session is when we take time out to congratulate and thank all the people behind the scenes who help us get through in one piece. We are not done yet. The House Video crew – a lot of these are privates but several work for us throughout the session. All those nice little clips we record down here on the floor – I did that for a living for twenty years so I'm pretty good at it but other people need a lot of help. Our House Video crew, Sarah Scott, Ryan Berg, Michael Hartz, Burke Long and Theresa Hoder, and the photographers – the still camera people, Lemoyne Coates, Melody Livingston, Duncan Green, Bridget Irish – a long list of people who are very good at putting our images either on video or digital films. If they could come out and if we could give them a big thanks for what they do through the session."

The appropriations in this section are subject to the following conditions and limitations:

(1) \$706,000 of the violence reduction and drug enforcement account appropriation is provided solely for deposit in the county criminal justice assistance account for costs to the criminal justice system associated with the implementation of chapter 338, Laws of 1997 (juvenile code revisions). The amounts provided in this subsection are intended to provide funding for county adult court costs associated with the implementation of chapter 338, Laws of 1997 and shall be distributed in accordance with RCW 82.14.310.

(2) \$6,156,000 of the violence reduction and drug enforcement account appropriation is provided solely for the implementation of chapter 338, Laws of 1997 (juvenile code revisions). The amounts provided in this subsection are intended to

Funds provided in this subsection may be used solely for community juvenile accountability grants, administration of the grants, and evaluations of programs funded by the grants.

(4) \$2,997,000 of the violence reduction and drug enforcement account appropriation is provided solely to implement alcohol and substance abuse treatment programs for locally committed offenders. The juvenile rehabilitation administration shall award these moneys on a competitive basis to counties that submitted a plan for the provision of services approved by the division of alcohol and substance abuse. The juvenile rehabilitation administration shall develop criteria for evaluation of plans submitted and a timeline for awarding funding and shall assist counties in creating and submitting plans for evaluation.

(5) For the purposes of a pilot project, the juvenile rehabilitation administration shall provide a block grant, rather than categorical funding, for consolidated juvenile services, community juvenile accountability act grants, the chemically dependent disposition alternative, and the special sex offender disposition alternative to the Pierce county juvenile court. To evaluate the effect of decategorizing funding for youth services, the juvenile court shall do the following:

(a) Develop intermediate client outcomes according to the risk assessment tool (RAT) currently used by juvenile courts and in coordination with the juvenile rehabilitation administration;

(b) Track the number of youth participating in each type of service, intermediate outcomes, and the incidence of recidivism within twenty-four months of completion of services;

(c) Track similar data as in (b) of this subsection with an appropriate comparison group, selected in coordination with the juvenile rehabilitation administration and the family policy council;

(d) Document the process for managing block grant funds on a quarterly basis, and provide this report to the juvenile rehabilitation administration and the family policy council; and

(e) Provide a process evaluation to the juvenile rehabilitation administration and the family policy council by June 20, 2006, and a concluding report by June 30, 2007. The court shall develop this evaluation in consultation with the juvenile rehabilitation administration, the family policy council, and the Washington state institute for public policy.

(6) \$319,000 of the general fund--state appropriation for fiscal year 2006 and \$678,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to establish a reinvesting in youth pilot program. (a) Only the following intervention service models shall be funded under the pilot program: (i) Functional family therapy; (ii) multi-systemic therapy; and (iii) aggression replacement training.

(b) Subject to (c) of this subsection, payments to counties in the pilot program shall be sixty-nine percent of the average service model cost per youth times the number of youth engaged by the selected service model. For the purposes of calculating the average service model cost per engaged youth for a county, the following costs will be included: Staff salaries, staff benefits, training, fees, quality assurance, and local expenditures on administration.

(c) Distribution of moneys to the charter county with a population of over eight hundred thousand residents shall be based upon the number of youth that are engaged by the intervention service models, up to six hundred thousand dollars for the biennium. The department may distribute the remaining grant moneys to the other counties selected to participate in the pilot program.

(d) The department shall provide recommendations to the legislature by June 30, 2006, regarding a cost savings calculation methodology, a funds distribution formula, and criteria for service model eligibility for use if the reinvesting in youth program is continued in future biennia.

The juvenile rehabilitation administration, in consultation with the juvenile court administrators, shall develop an equitable distribution formula for the funding provided in this subsection, and negotiate contracts that would avoid the cost of a youth kept in the community costing more than serving the youth in a juvenile rehabilitation institution and parole program on an average daily population basis. The juvenile rehabilitation administration may adjust the funding level provided in this subsection in the event that utilization rates of the disposition alternatives are lower than the level anticipated by the total appropriation to the juvenile rehabilitation administration in this section. The juvenile rehabilitation administration shall report to the appropriate

policy and fiscal committees of the legislature on the use of the disposition alternatives and revocations by December 1, 2006. If either bill is not enacted by June 30, 2005, the amounts provided in this subsection shall lapse.

NEW SECTION. Sec. 204. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MENTAL HEALTH PROGRAM

(1) COMMUNITY SERVICES/REGIONAL SUPPORT NETWORKS

General Fund--State Appropriation (FY 2006)	\$261,430,000
General Fund--State Appropriation (FY 2007)	\$269,285,000
General Fund--Federal Appropriation	\$336,771,000
General Fund--Private/Local Appropriation	\$1,970,000
TOTAL APPROPRIATION	\$869,456,000

The appropriations in this subsection are subject to the following conditions and limitations:

(a) In fiscal year 2006 the department shall continue and in fiscal year 2007 it shall complete the phased-in implementation of the revised medicaid allocation formula under which each regional support network is paid the same standard capitation rate per medicaid eligible person, adjusted by age and disability status.

(b) \$103,400,000 of the general fund--state appropriation for fiscal year 2006 and \$103,400,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for persons and services not covered by the medicaid program. The department shall distribute these amounts among the regional support networks according to a formula that, consistent with RCW 71.24.035(13), assures continuation of fiscal year 2003 levels of nonmedicaid service in each regional support network area for the following service categories in the following priority order: (i) Crisis and commitment services; (ii) community inpatient services; and (iii) residential care services, including personal care and emergency housing assistance. The remaining amounts shall be distributed based upon a formula that incorporates each regional support network's percentage of the state's population. In consultation with regional support networks and other interested groups, the department shall report to the joint legislative and executive task force by September 2006 on options for modifying the allocation formula to assure equitable statewide access to essential nonmedicaid services.

(c) From the general fund--state appropriations in this subsection, the secretary of social and health services shall assure that regional support networks reimburse the aging and disability services administration for the general fund--state cost of medicaid personal care services that enrolled regional support network consumers use because of their psychiatric disability.

(d) Within amounts appropriated in this subsection, the department shall contract with the Clark county regional support network for development and operation of a project demonstrating collaborative methods for providing intensive mental health services in the school setting for severely emotionally disturbed children who are medicaid eligible. Project services shall be delivered by teachers and teaching assistants who qualify as, or who are under the supervision of, mental health professionals meeting the requirements of chapter 275-57 WAC. The department shall increase medicaid payments to the regional support network by the amount necessary to cover the necessary and allowable costs of the demonstration, not to exceed the upper payment limit specified for the regional support network in the department's medicaid waiver agreement with the federal government after meeting all other medicaid spending requirements assumed in this subsection. The regional support network shall provide the required nonfederal share of the increased medicaid payment provided for operation of this project.

(e) \$3,100,000 of the general fund--state appropriation for fiscal year 2006 and \$3,375,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to establish a base community psychiatric hospitalization payment rate. The base payment rate shall be \$400 per indigent patient day at hospitals that accept commitments under the involuntary treatment act, and \$550 per medicaid patient day at free-standing psychiatric hospitals that accept commitments under the involuntary treatment act. The department shall allocate these funds among the regional support networks to reflect projected expenditures at the enhanced payment level by hospital and region.

(f) At least \$902,000 of the federal block grant funding appropriated in this subsection shall be used for the continued operation of the mentally ill offender pilot program.

(g) \$2,146,000 of the general fund--state appropriation for fiscal year 2006, \$4,408,000 of the general fund--state appropriation for fiscal year 2007, and \$4,559,000 of the general fund--federal appropriation are provided solely for a vendor rate increase to regional support networks for medicaid and nonmedicaid services, to the extent that: Amounts provided in this

subsection (1) to serve medicaid clients through regional support networks are sufficient to ensure compliance with federally approved actuarially sound medicaid rate ranges in every rate category. If such amounts are not sufficient to ensure compliance, funds provided in this subsection (1)(g) shall first be applied to address any noncompliant rate category; remaining amounts shall be allocated among the regional support networks by applying a uniform percentage of increase across regional support networks.

(h) \$5,000,000 of the general fund--state appropriation for fiscal year 2006 and \$5,000,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for mental health services for mentally ill offenders while confined in a county or city jail and for facilitating access to programs that offer mental health services upon mentally ill offenders' release from confinement. These amounts shall supplement, and not supplant, local or other funding or in-kind resources currently being used for these purposes. The department is authorized to transfer such amounts as are necessary, which are not to exceed \$418,000 of the general fund--state appropriation for fiscal year 2006 and \$418,000 of the general fund--state appropriation for fiscal year 2007, to the economic services program for the purposes of implementing section 12 of Engrossed Second Substitute House Bill No. 1290 (community mental health) related to reinstating and facilitating access to mental health services upon mentally ill offenders' release from confinement.

Such projects may include, but are not limited to, clubhouse programs and projects for integrated health care and behavioral health services for general assistance recipients. These amounts shall supplement, and not supplant, local or other funding currently being used for activities funded under the projects authorized in this subsection.

(j) The department is authorized to continue to expend federal block grant funds, and special purpose federal grants, through direct contracts, rather than through contracts with regional support networks; and to distribute such funds through a formula other than the one established pursuant to RCW 71.24.035(13).

(k) The department is authorized to continue to contract directly, rather than through contracts with regional support networks, for children's long-term inpatient facility services.

(l) \$2,250,000 of the general fund--state appropriation for fiscal year 2006, \$2,250,000 of the general fund--state appropriation for fiscal year 2007, and \$4,500,000 of the general fund--federal appropriation are provided solely for the continued operation of community residential and support services for persons who are older adults or who have co-occurring medical and behavioral disorders and who have been discharged or diverted from a state psychiatric hospital. These funds shall be used to serve individuals whose treatment needs constitute substantial barriers to community placement, who no longer require active psychiatric treatment at an inpatient hospital level of care, and who no longer meet the criteria for inpatient involuntary commitment. Coordination of these services will be done in partnership between the mental health program and the aging and disability services administration. The funds are not subject to the standard allocation formula applied in accordance with RCW 71.24.035(13)(a).

(m) \$750,000 of the general fund--state appropriation for fiscal year 2006 and \$750,000 of the general fund--state appropriation for fiscal year 2007 are provided to continue performance-based incentive contracts to provide appropriate community support services for individuals with severe mental illness who have been discharged from the state hospitals. These funds will be used to enhance community residential and support services provided by regional support networks through other state and federal funding.

(n) \$539,000 of the general fund--state appropriation for fiscal year 2007 is provided solely to assist with the one-time start-up costs of two evaluation and treatment facilities. Funding for ongoing program operations shall be from existing funds that would otherwise be expended upon short-term treatment in state or community hospitals.

(o) \$550,000 of the general fund--state appropriation for fiscal year 2006 and \$150,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for a pilot project that provides integrated care through a facility specializing in long-term rehabilitation services for people with chronic mental illness who are chronically medically-compromised. This project is to be implemented in coordination with and under the auspices of a regional support network.

Those cases shall be given high priority for naturalization funding through the department;

NEW SECTION. Sec. 209. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--MEDICAL ASSISTANCE PROGRAM

General Fund--State Appropriation (FY 2006)	\$1,481,212,000
General Fund--State Appropriation (FY 2007)	\$1,596,101,000
General Fund--Federal Appropriation	\$4,036,615,000
General Fund--Private/Local Appropriation	\$2,000,000
Emergency Medical Services and Trauma Care Systems Trust Account--State Appropriation	\$15,000,000
Health Services Account--State Appropriation	\$636,942,000
TOTAL APPROPRIATION	\$7,767,870,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) Sufficient amounts are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(5) Sufficient amounts are appropriated in this section for the department to provide an adult dental benefit that is equivalent to the benefit provided in the 2003-05 biennium.

(6) In accordance with RCW 74.46.625, \$6,000,000 of the general fund--federal appropriation is provided solely for supplemental payments to nursing homes operated by public hospital districts. The public hospital district shall be responsible for providing the required nonfederal match for the supplemental payment, and the payments shall not exceed the maximum allowable under federal rules. It is the legislature's intent that the payments shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments.

(7) \$1,660,000 of the health services account appropriation, \$4,361,000 of the general fund--federal appropriation, \$1,350,000 of the general fund--state appropriation for fiscal year 2006, and \$1,351,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(8) \$22,081,000 of the health services account appropriation and \$20,714,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(9) In response to the federal directive to eliminate intergovernmental transfer transactions effective June 30, 2005, the department is directed to implement the inpatient hospital certified public expenditures program for the 2005-07 biennium. The program shall apply to all public hospitals, including those owned or operated by the state, except those classified as critical access hospitals or state psychiatric institutions. Hospitals in the program shall be paid and shall retain (a) one hundred percent of the federal portion of each medicaid inpatient fee-for-service claim payable by the medical assistance administration; and (b) one hundred percent of the federal portion of the maximum disproportionate share hospital payment allowable under federal regulations. Medicaid fee-for-service claim amounts shall be established by applying the department's ratio of costs to charges payment methodology. The department shall provide participating hospitals with the information and instructions needed by the hospital to certify the public expenditures required to qualify for the federal portions of both the medicaid inpatient fee-for-service payments and the disproportionate share hospital payments. In the event that any part of the program including, but not limited to, allowable certified public expenditures, is disallowed by the federal government, the department shall not seek recoupment of payments from the hospitals, provided the hospitals have complied with the directions of the department for participation in the program. The legislature intends that hospitals in the program receive no less in combined state and federal payments than they would have received under the methodology that was in place during fiscal year 2005. The department shall therefore make additional grant payments, not to exceed the amounts provided in this subsection, to hospitals whose total payments under the program would otherwise be less than the total state and federal payments they would have received under the methodology in effect during fiscal year 2005. \$37,034,000 of the general fund--state appropriation for fiscal year 2006, \$37,552,000 of the general fund--state appropriation for fiscal year 2007, \$8,300,000 of the emergency medical services and trauma care systems trust account--state appropriation, and \$45,450,000 of the general fund--federal appropriation are provided solely for new state grant and upper payment limit programs for the participating hospitals.

(10) \$4,372,000 of the general fund--state appropriation for fiscal year 2006, \$4,014,000 of the general fund--state appropriation for fiscal year 2007, and \$65,112,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system.

(11) \$150,000 of the general fund--state appropriation for fiscal year 2006, \$75,000 of the general fund--state appropriation for fiscal year 2007, and \$225,000 of the general fund--federal appropriation are provided solely for the department to contract for an independent analysis of the medical assistance administration's current system for establishing hospital inpatient payment rates, and for recommendations on a new or updated system. The department shall submit an interim report of study findings by December 1, 2005, and a final report by November 15, 2006. The interim report shall include a comparison of the strengths and weaknesses of the current rate-setting system relative to those used by other state, federal, and private payers. The final report shall include recommendations on the design and implementation of a new or updated system that will promote equity among hospitals, access to quality care and improved health outcomes for patients, and cost-control and efficiency for taxpayers. The study should make use of complete and current cost data from a wide variety of hospitals, recognize unique

aspects of hospital service delivery structures and medicaid payment systems in Washington, recognize impacts on productivity and quality of care that may result from hospital compensation, recruitment, and retention policies, and provide opportunities for comment and participation by key interest groups in the identification and assessment of alternatives.

(12) Payment rates for hospital inpatient and outpatient services shall be increased by an average of 1.3 percent effective July 1, 2005, and by an average of an additional 1.3 percent effective July 1, 2006. The inpatient increases shall be provided only on the portion of a hospital's rate that excludes medical education and outlier costs, and shall be allocated so that hospitals with lower costs of care (excluding medical education and outlier costs) receive larger percentage increases than those with higher costs of care. The inpatient increases shall be allocated in three percentage increments, with the lowest-cost hospitals receiving the largest percentage rate increase, highest-cost hospitals receiving the smallest percentage increase, and medium-cost hospitals receiving the average of the highest and the lowest percentage rate increase. Increases shall not be provided to those hospitals that are certified as critical access. Sufficient funds are appropriated in this section for Healthy Options contractors to increase hospital payment rates commensurate with the increases in fee-for-service payment rates.

(13) When a person is ineligible for medicaid solely by reason of residence in an institution for mental diseases, the department shall provide the person with the same benefits as he or she would receive if eligible for medicaid, using state-only funds to the extent necessary.

(14) The medical assistance administration is authorized to use funds appropriated in this section to purchase goods and supplies through direct contracting with vendors when the administration determines it is cost-effective to do so.

(15) The legislature affirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(16) By October 1, 2005, the department shall recommend to the governor and legislature at least two pilot project designs which seem likely to reduce avoidable emergency room utilization at no net cost to the state within the projects' first eighteen months of operation.

(17) Within funds appropriated in this section, the department shall participate in the health technology assessment program required in section 213(6) of this act.

(18) The department is also required to participate in the joint health purchasing project described in section 213(7) of this act.

(19) The department shall, within available resources, continue operation of the medical care services care management pilot project for clients receiving general assistance benefits in King and Pierce counties. The project may use a full or partial capitation model that includes a mechanism for shared savings. The department shall provide a report to the appropriate committees of the legislature by January 1, 2006, on costs, savings, and any outcomes or quality measures associated with the pilot programs during the first year of operation.

(20) By October 1, 2005, the department shall report to the appropriate committees of the legislature on the potential fiscal and programmatic costs and benefits associated with an expansion of managed care pilot programs to SSI and other eligible medicaid elderly and disabled persons.

(21) Within the funding provided in section 207(2) of this act, the medical assistance administration and the economic services administration may implement a time-limited transitional prescription drug benefit for general assistance unemployable recipients who obtain employment and who have no other source of health insurance coverage. The benefit shall be limited to coverage of prescription drugs and medication management. The benefit shall be limited to one year. The department shall implement a premium schedule for the benefits under this subsection that is related to the participant's income. The minimum premium shall be twenty dollars per month. Recipients of this transitional benefit shall not be considered part of the general assistance caseload unless eligibility is established under standard reapplication procedures.

(22) By November 15, 2006, the department of social and health services, in consultation with the department of revenue and the health care authority, shall report to the health care and fiscal committees of the legislature on options for providing financial incentives for private practice physicians to serve uninsured, medicare, and medicaid patients. The report shall include an assessment of the relative costs and effectiveness of strategies including, but not limited to, tax credits and payment rate increases. The report shall further suggest alternative mechanisms and thresholds for varying tax credits and payment enhancements according to the extent to which a provider serves uninsured, medicare, and medicaid patients.

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$9,112 per certificated staff unit in the 2005-06 school year and a maximum of \$9,285 per certificated staff unit in the 2006-07 school year.

(b) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(A) of this section, there shall be provided a maximum of \$22,377 per certificated staff unit in the 2005-06 school year and a maximum of \$22,802 per certificated staff unit in the 2006-07 school year.

(c) For nonemployee-related costs associated with each vocational certificated staff unit allocated under subsection (2)(c)(i)(B) of this section, there shall be provided a maximum of \$17,362 per certificated staff unit in the 2005-06 school year and a maximum of \$17,692 per certificated staff unit in the 2006-07 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of \$531.09 for the 2005-06 and 2006-07 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(9) The superintendent may distribute a maximum of \$7,621,000 outside the basic education formula during fiscal years 2006 and 2007 as follows:

(a) For fire protection for school districts located in a fire protection district as now or hereafter established pursuant to chapter 52.04 RCW, a maximum of \$513,000 may be expended in fiscal year 2006 and a maximum of \$523,000 may be expended in fiscal year 2007;

(b) For summer vocational programs at skills centers, a maximum of \$2,035,000 may be expended for the 2006 fiscal year and a maximum of \$2,035,000 for the 2007 fiscal year;

(c) A maximum of \$365,000 may be expended for school district emergencies;

(d) A maximum of \$485,000 each fiscal year may be expended for programs providing skills training for secondary students who are enrolled in extended day school-to-work programs, as approved by the superintendent of public instruction. The funds shall be allocated at a rate not to exceed \$500 per full-time equivalent student enrolled in those programs; and

(e) \$394,000 of the general fund--state appropriation for fiscal year 2006 and \$787,000 of the general fund--state appropriation for fiscal year 2007 are provided solely for incentive grants to encourage school districts to increase enrollment in vocational skills centers. Up to \$500 for each full-time equivalent student may be proportionally distributed to a school district or school districts increasing skills centers enrollment above the levels in the 2004-05 school year. The office of the superintendent of public instruction shall develop criteria for awarding incentive grants pursuant to this subsection. The total amount allocated pursuant to this subsection shall be limited to \$1,181,000 for the 2005-07 biennium.

(10) For purposes of RCW 84.52.0531, the increase per full-time equivalent student is 5.2 percent from the 2004-05 school year to the 2005-06 school year and 3.4 percent from the 2005-06 school year to the 2006-07 school year.

(11) If two or more school districts consolidate and each district was receiving additional basic education formula staff units pursuant to subsection (2)(b) through (h) of this section, the following shall apply:

(a) For three school years following consolidation, the number of basic education formula staff units shall not be less than the number of basic education formula staff units received by the districts in the school year prior to the consolidation; and

(b) For the fourth through eighth school years following consolidation, the difference between the basic education formula staff units received by the districts for the school year prior to consolidation and the basic education formula staff units after consolidation pursuant to subsection (2)(a) through (h) of this section shall be reduced in increments of twenty percent per year.

NEW SECTION. Sec. 503. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--BASIC EDUCATION EMPLOYEE COMPENSATION.

(1) The following calculations determine the salaries used in the general fund allocations for certificated instructional, certificated administrative, and classified staff units under section 502 of this act:

(a) Salary allocations for certificated instructional staff units shall be determined for each district by multiplying the district's certificated instructional total base salary shown on LEAP Document 12E by the district's average staff mix factor for certificated instructional staff in that school year, computed using LEAP Document 1Sb; and

(b) Salary allocations for certificated administrative staff units and classified staff units for each district shall be based on the district's certificated administrative and classified salary allocation amounts shown on LEAP Document 12E.

(2) For the purposes of this section:

(a) "LEAP Document 1Sb" means the computerized tabulation establishing staff mix factors for certificated instructional staff according to education and years of experience, as developed by the legislative evaluation and accountability program committee on March 18, 2005, at 10:00 hours; and

(b) "LEAP Document 12E" means the computerized tabulation of 2005-06 and 2006-07 school year salary allocations for certificated administrative staff and classified staff and derived and total base salaries for certificated instructional staff as developed by the legislative evaluation and accountability program committee on April 6, 2005, at 10:00 hours.

(3) Incremental fringe benefit factors shall be applied to salary adjustments at a rate of 10.26 percent for school year 2005-06 and 11.26 percent for school year 2006-07 for certificated staff and for classified staff 11.07 percent for school year 2005-06 and 12.32 percent for the 2006-07 school year.

(4)(a) Pursuant to RCW 28A.150.410, the following state-wide salary allocation schedules for certificated instructional staff are established for basic education salary allocations:

(b) As used in this subsection, the column headings "BA+(N)" refer to the number of credits earned since receiving the baccalaureate degree.

(c) For credits earned after the baccalaureate degree but before the masters degree, any credits in excess of forty-five credits may be counted after the masters degree. Thus, as used in this subsection, the column headings "MA+(N)" refer to the total of:

- (i) Credits earned since receiving the masters degree; and
- (ii) Any credits in excess of forty-five credits that were earned after the baccalaureate degree but before the masters degree.

(5) For the purposes of this section:

- (a) "BA" means a baccalaureate degree.
- (b) "MA" means a masters degree.
- (c) "PHD" means a doctorate degree.
- (d) "Years of service" shall be calculated under the same rules adopted by the superintendent of public instruction.
- (e) "Credits" means college quarter hour credits and equivalent in-service credits computed in accordance with RCW 28A.415.020 and 28A.415.023.

(6) No more than ninety college quarter-hour credits received by any employee after the baccalaureate degree may be used to determine compensation allocations under the state salary allocation schedule and LEAP documents referenced in this act, or any replacement schedules and documents, unless:

- (a) The employee has a masters degree; or
- (b) The credits were used in generating state salary allocations before January 1, 1992.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be limited to specific activities identified in the state required school improvement plan related to improving student learning that are consistent with education reform implementation, and shall not be considered part of basic education. The principal in each school shall assure that the days are used to provide the necessary school-wide, all staff professional development that is tied directly to the school improvement plan. The school principal and the district superintendent shall maintain documentation as to their approval of these activities. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2) and subsection (7) of this section.

(a) The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in part V of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(b) The appropriations in this section provide cost of living and incremental fringe benefit allocations based on formula adjustments as follows:

	School Year	
	2005-06	2006-07

The appropriations in this section provide for a rate increase to \$629.07 per month for the 2005-06 school year and \$679.39 per month for the 2006-07 school year. The adjustments to health insurance benefit allocations are at the following rates:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) A maximum of \$796,000 of this fiscal year 2006 appropriation and a maximum of \$812,000 of the fiscal year 2007 appropriation may be expended for regional transportation coordinators and related activities. The transportation coordinators shall ensure that data submitted by school districts for state transportation funding shall, to the greatest extent practical, reflect the actual transportation activity of each district.

(3) \$5,000 of the fiscal year 2006 appropriation and \$5,000 of the fiscal year 2007 appropriation are provided solely for the transportation of students enrolled in "choice" programs. Transportation shall be limited to low-income students who are transferring to "choice" programs solely for educational reasons.

(4) Allocations for transportation of students shall be based on reimbursement rates of \$41.51 per weighted mile in the 2005-06 school year and \$42.01 per weighted mile in the 2006-07 school year exclusive of salary and benefit adjustments provided in section 504 of this act. Allocations for transportation of students transported more than one radius mile shall be based on weighted miles as determined by superintendent of public instruction multiplied by the per mile reimbursement rates for the school year pursuant to the formulas adopted by the superintendent of public instruction. Allocations for transportation of students living within one radius mile shall be based on the number of enrolled students in grades kindergarten through five living within one radius mile of their assigned school multiplied by the per mile reimbursement rate for the school year multiplied by 1.29.

(5) For busses purchased between July 1, 2005, and June 30, 2007, the office of superintendent of public instruction shall provide reimbursement funding to a school district only after the superintendent of public instruction determines that the school bus was purchased from the list established pursuant to RCW 28A.160.195(2) or a comparable competitive bid process based on the lowest price quote based on similar bus categories to those used to establish the list pursuant to RCW 28A.160.195. In the final year on the depreciation schedule, the depreciation payment shall be based on the current state price. The superintendent may include a weighting or other adjustment factor in the averaging formula to ease the transition from the current-price depreciation system to the average depreciation system. Prior to making any depreciation payment in the 2005-06 school year, the superintendent shall notify the office of financial management and the fiscal committees of the legislature of the specific depreciation formula to be used. The replacement cost shall be based on the lowest bid in the appropriate bus category for that school year. A maximum of \$50,000 of the fiscal year 2006 appropriation may be expended for software programming costs associated with the implementation of this subsection.

NEW SECTION. Sec. 506. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL FOOD SERVICE PROGRAMS

(3) \$47,000 of the general fund--state appropriation for fiscal year 2006 and \$59,000 of the general fund--state appropriation for fiscal year 2007 are provided solely to reimburse school districts for school breakfasts served to students enrolled in the free or reduced price meal program pursuant to House Bill No. 1771 (requiring school breakfast programs in certain schools). If House Bill No. 1771 is not enacted by June 30, 2005, the amounts provided in this subsection shall lapse.

NEW SECTION. Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2006)	\$460,032,000
General Fund--State Appropriation (FY 2007)	\$471,961,000
General Fund--Federal Appropriation	\$435,464,000
TOTAL APPROPRIATION	\$1,367,457,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2005-06 and 2006-07 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$18,940,000 of the general fund--state appropriation and \$28,698,000 of the general fund--federal appropriation are provided for safety net awards for districts with demonstrated needs for special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

General Fund--State Appropriation (FY 2007)	\$60,514,000
Education Legacy Trust--State Appropriation	\$3,475,000
TOTAL APPROPRIATION	\$122,885,000

The appropriations in this section are subject to the following conditions and limitations:

(1) \$1,158,000 of the education legacy trust appropriation for fiscal year 2006 and \$2,317,000 of the education legacy trust appropriation for fiscal year 2007 are provided as the state subsidy for 340 new enrollments. By December 15th of each year of the 2005-07 fiscal biennium, the university shall report to the office of financial management and the legislative fiscal committees the number of new student FTEs by campus enrolled with the funding provided in this subsection.

(2) The appropriations for higher education employee compensation increases provided or referenced in this section and described in sections 949 through 980 of this act are estimated to increase the total per student funding during the 2005-2007 biennium. This increase in total per student funding is in addition to the tuition revenues that will be generated and retained by the university as a result of the tuition increases that are authorized in section 601 of this act. Given these increases in core funding, Western Washington University shall, by June 30, 2007, show demonstrable progress toward achieving the following six-year programmatic goals:

(a) Improve time to degree as measured by the percent of admitted students who graduate within 125% of the credits required for a degree;

(b) Preserve access for low-income students as measured by the percentage of total degrees awarded to Pell Grant recipients;

(c) Improve freshman retention rates;

(d) Improve and sustain the quality of its degree programs as measured by the number of programs that receive national accreditation; and

(e) Improve its ability to prepare students for the workforce as measured by the job placement or graduate school acceptance rates among graduates.

Specific six-year targets for the goals stated in this subsection shall be established by the university, the office of financial management, and the higher education coordinating board and shall be determined based on the per student funding level assumed in this act.

On or before October 1, 2006, the university shall submit to the higher education coordinating board a report that outlines the institution's progress and ongoing efforts toward meeting the provisions of this section. The higher education coordinating board shall compile and analyze all responses and provide a summary to the governor and the appropriate fiscal and policy committees of the legislature prior to November 1, 2006.

(3) Access to baccalaureate and graduate degree programs continues to be limited for residents of North Snohomish, Island, and Skagit counties. The higher education consortium created to serve the region has not been able to successfully address the region's access needs. The university center model of service delivery, centered on a community college campus with a single point of accountability, has proven more effective in developing degree programs and attracting students.

Therefore, the management and leadership responsibility for consortium operations are assigned to Everett community college. Everett community college shall collaborate with community and business leaders, other local community colleges, the public four-year institutions of higher education, and the higher education coordinating board to develop an educational plan for the North Snohomish, Island, and Skagit county region based on the university center model.

The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 2003-05 biennium.

NEW SECTION. Sec. 902. INFORMATION SYSTEMS PROJECTS.

Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;
- (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- (e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

(5) The agency shall produce a comprehensive management plan for each project. The plan or plans shall address all factors critical to successful completion of each project. The plan(s) shall include, but is not limited to, the following elements: A description of the problem or opportunity that the information technology project is intended to address; a statement of project objectives and assumptions; a definition and schedule of phases, tasks, and activities to be accomplished; and the estimated cost of each phase. The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. Authority to expend any funds for individual information systems projects is conditioned on the approval of the relevant feasibility study, project management plan, and quality assurance plan by the department of information services and the office of financial management.

(8) Quality assurance status reports shall be submitted to the department of information services, the office of financial management, and legislative fiscal committees at intervals specified in the project's quality assurance plan.

State agencies shall comply with the business continuity and disaster recovery policies, guidelines, and statements of direction developed by the department of information services and the information services board in consultation with state agencies. To ensure that agency business continuity and disaster recovery activities identify the primary risks across state agencies, account for dependencies between agencies, capitalize on economies of scale, and avoid unnecessary duplication of costs and efforts, state agencies shall receive the prior approval of the department of information services before implementing business continuity and disaster recovery strategies and expending funds for business continuity activities.

NEW SECTION. Sec. 904. VIDEO TELECOMMUNICATIONS.

The department of information services shall act as lead agency in coordinating video telecommunications services for state agencies. The categories, for purposes of comparative studies, will be at a minimum the same as those in the

beginning of the 1994-95 school year. The competitive specifications shall meet federal motor vehicle safety standards, minimum state specifications as established by rule by the superintendent, and supported options as determined by the superintendent in consultation with the regional transportation coordinators of the educational service districts. In fiscal (~~year 2005~~) years 2006 and 2007, the superintendent may solicit and accept price quotes for a rear-engine category school bus that shall be reimbursed at the price of the corresponding front engine category.

(4) Notwithstanding RCW 28A.335.190, school districts and educational service districts may purchase at the quoted price directly from the dealer who is providing the lowest competitive price quote on the list established under subsection (2) of this section and in fiscal (~~year 2005~~) years 2006 and 2007 from any dealer on the list established under subsection (2)(b) of this section. School districts and educational service districts may make their own selections for school buses, but shall be reimbursed at the rates determined under subsection (3) of this section and RCW 28A.160.200. District-selected options shall not be reimbursed by the state. For the (~~2003-05~~) 2005-2007 fiscal biennium, school districts and educational service districts shall be reimbursed for buses purchased only through a lowest-price competitive bid process conducted pursuant to RCW 28A.335.190 or through the state bid process established by this section.

(5) This section does not prohibit school districts or educational service districts from conducting their own competitive bid process.

(2) Maximize public awareness of the academic achievement, leadership ability, and community contribution of Washington state public and private high school seniors through appropriate recognition ceremonies and events at both the local and state level.

The board, in conjunction with the governor's office, shall prepare appropriate certificates to be presented to the Washington scholars and the Washington scholars-alternates. An awards ceremony at an appropriate time and place shall be planned by the board in cooperation with the Washington association of secondary school principals, and with the approval of the governor.

Sec. 917. RCW 28B.76.660 and 2004 c 275 s 24 are each amended to read as follows:

(1) Recipients of the Washington scholars award or the Washington scholars-alternate award under RCW 28A.600.100 through 28A.600.150 who choose to attend an independent college or university in this state, as defined in subsection (4) of this section, and recipients of the award named after June 30, 1994, who choose to attend a public college or university in the state may receive grants under this section if moneys are available. The higher education coordinating board shall distribute grants to eligible students under this section from moneys appropriated for this purpose. The individual grants shall not exceed, on a yearly basis, the yearly, full-time, resident, undergraduate tuition and service and activities fees in effect at the state-funded research universities. Grants to recipients attending an independent institution shall be contingent upon the institution matching on at least a dollar-for-dollar basis, either with actual money or by a waiver of fees, the amount of the grant received by the student from the state. The higher education coordinating board shall establish procedures, by rule, to disburse the awards as direct grants to the students.

(2) The higher education coordinating board shall establish rules that provide for the annual awarding of grants, if moneys are available, to three Washington scholars per legislative district except for fiscal year 2007 when no more than two scholars per district shall be selected; and, if not used by an original recipient, to the Washington scholars-alternate from the same legislative district.

Beginning with scholars selected in the year 2000, if the recipients of grants fail to demonstrate in a timely manner that they will enroll in a Washington institution of higher education in the fall term of the academic year following the award of the grant or are deemed by the higher education coordinating board to have withdrawn from college during the first academic year following the award, then the grant shall be considered relinquished. The higher education coordinating board may then award any remaining grant amounts to the Washington scholars-alternate from the same legislative district if the grants are awarded within one calendar year of the recipient being named a Washington scholars-alternate. Washington scholars-alternates named as recipients of the grant must also demonstrate in a timely manner that they will enroll in a Washington institution of higher education during the next available term, as determined by the higher education coordinating board. The board may accept appeals and grant waivers to the enrollment requirements of this section based on exceptional mitigating circumstances of individual grant recipients.

To maintain eligibility for the grants, recipients must maintain a minimum grade point average at the college or university equivalent to 3.30. Students shall be eligible to receive a maximum of twelve quarters or eight semesters of grants for

undergraduate study and may transfer among in-state public and independent colleges and universities during that period and continue to receive the grant as provided under RCW 28B.76.665. If the student's cumulative grade point average falls below 3.30 during the first three quarters or two semesters, that student may petition the higher education coordinating board which shall have the authority to establish a probationary period until such time as the student's grade point average meets required standards.

(3) No grant shall be awarded to any student who is pursuing a degree in theology.

(4) As used in this section, "independent college or university" means a private, nonprofit educational institution, the main campus of which is permanently situated in the state, open to residents of the state, providing programs of education beyond the high school level leading at least to the baccalaureate degree, and accredited by the northwest association of schools and colleges as of June 9, 1988, and other institutions as may be developed that are approved by the higher education coordinating board as meeting equivalent standards as those institutions accredited under this section.

(5) As used in this section, "public college or university" means an institution of higher education as defined in RCW 28B.10.016.

Sec. 918. RCW 28B.102.040 and 2004 c 276 s 905, 2004 c 275 s 68, and 2004 c 58 s 4 are each reenacted and amended to read as follows:

(2) If the board selects participants for the program, it shall establish a selection committee for screening and selecting recipients of the conditional scholarships. The criteria shall emphasize factors demonstrating excellence including but not limited to superior scholastic achievement, leadership ability, community contributions, bilingual ability, willingness to commit to providing teaching service in shortage areas, and an ability to act as a role model for students. Priority will be given to individuals seeking certification or an additional endorsement in math, science, technology, or special education.

~~((Subject to enactment of chapter 58, Laws of 2004,))~~ For fiscal years ~~((2005))~~ 2006 and 2007, additional priority shall be given to such individuals who are also bilingual. It is the intent of the legislature to develop a pool of dual-language teachers in order to meet the challenge of educating students who are dominant in languages other than English.

Sec. 919. RCW 41.05.050 and 2003 c 158 s 1 are each amended to read as follows:

(1) Every department, division, or separate agency of state government, and such county, municipal, school district, educational service district, or other political subdivisions as are covered by this chapter, shall provide contributions to insurance and health care plans for its employees and their dependents, the content of such plans to be determined by the authority. Contributions, paid by the county, the municipality, or other political subdivision for their employees, shall include an amount determined by the authority to pay such administrative expenses of the authority as are necessary to administer the plans for employees of those groups, except as provided in subsection (4) of this section.

(2) If the authority at any time determines that the participation of a county, municipal, or other political subdivision covered under this chapter adversely impacts insurance rates for state employees, the authority shall implement limitations on the participation of additional county, municipal, or other political subdivisions.

(3) The contributions of any department, division, or separate agency of the state government, and such county, municipal, or other political subdivisions as are covered by this chapter, shall be set by the authority, subject to the approval of the governor for availability of funds as specifically appropriated by the legislature for that purpose. Insurance and health care contributions for ferry employees shall be governed by RCW 47.64.270.

(4)(a) Beginning September 1, 2003, the authority shall collect from each participating school district and educational service district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans as of January 1, 2003. However, during the 2005-07 fiscal biennium, the authority shall collect from each participating school district and educational service district an amount equal to the insurance benefit allocations provided in section 504 of this act, plus any additional funding provided by the legislature for school employee health benefits, plus an amount equal to the employee premiums by plan and family size as would be charged to state employees, for groups of district employees enrolled in authority plans as of July 1, 2005.

(b) For all groups of district employees enrolling in authority plans for the first time after September 1, 2003, the authority shall collect from each participating school district an amount equal to the composite rate charged to state agencies, plus an amount equal to the employee premiums by plan and by family size as would be charged to state employees, only if the

authority determines that this method of billing the districts will not result in a material difference between revenues from districts and expenditures made by the authority on behalf of districts and their employees.

(c) If the authority determines at any time that the conditions in (b) of this subsection cannot be met, the authority shall offer enrollment to additional groups of district employees on a tiered rate structure until such time as the authority determines there would be no material difference between revenues and expenditures under a composite rate structure for all district employees enrolled in authority plans.

(d) The authority may charge districts a one-time set-up fee for employee groups enrolling in authority plans for the first time.

(e) For the purposes of this subsection:

(i) "District" means school district and educational service district; and

(ii) "Tiered rates" means the amounts the authority must pay to insuring entities by plan and by family size.

(f) Notwithstanding this subsection and RCW 41.05.065(3), the authority may allow districts enrolled on a tiered rate structure prior to September 1, 2002, to continue participation based on the same rate structure and under the same conditions and eligibility criteria.

(5) The authority shall transmit a recommendation for the amount of the employer contribution to the governor and the director of financial management for inclusion in the proposed budgets submitted to the legislature.

Sec. 920. RCW 41.05.065 and 2003 c 158 s 2 are each amended to read as follows:

(1) The board shall study all matters connected with the provision of health care coverage, life insurance, liability insurance, accidental death and dismemberment insurance, and disability income insurance or any of, or a combination of, the enumerated types of insurance for employees and their dependents on the best basis possible with relation both to the welfare of the employees and to the state. However, liability insurance shall not be made available to dependents.

(2) The board shall develop employee benefit plans that include comprehensive health care benefits for all employees. In developing these plans, the board shall consider the following elements:

(a) Methods of maximizing cost containment while ensuring access to quality health care;

(b) Development of provider arrangements that encourage cost containment and ensure access to quality care, including but not limited to prepaid delivery systems and prospective payment methods;

(c) Wellness incentives that focus on proven strategies, such as smoking cessation, injury and accident prevention, reduction of alcohol misuse, appropriate weight reduction, exercise, automobile and motorcycle safety, blood cholesterol reduction, and nutrition education;

(d) Utilization review procedures including, but not limited to a cost-efficient method for prior authorization of services, hospital inpatient length of stay review, requirements for use of outpatient surgeries and second opinions for surgeries, review of invoices or claims submitted by service providers, and performance audit of providers;

(e) Effective coordination of benefits;

(f) Minimum standards for insuring entities; and

(g) Minimum scope and content of public employee benefit plans to be offered to enrollees participating in the employee health benefit plans. To maintain the comprehensive nature of employee health care benefits, employee eligibility criteria related to the number of hours worked and the benefits provided to employees shall be substantially equivalent to the state employees' health benefits plan and eligibility criteria in effect on January 1, 1993. Nothing in this subsection (2)(g) shall prohibit changes or increases in employee point-of-service payments or employee premium payments for benefits.

(3) The board shall design benefits and determine the terms and conditions of employee participation and coverage, including establishment of eligibility criteria. The same terms and conditions of participation and coverage, including eligibility criteria, shall apply to state employees and to school district employees and educational service district employees.

(4) The board may authorize premium contributions for an employee and the employee's dependents in a manner that encourages the use of cost-efficient managed health care systems. During the 2005-2007 fiscal biennium, the board may only authorize premium contributions for an employee and the employee's dependents that are the same, regardless of an employee's status as represented or nonrepresented by a collective bargaining unit under the personnel system reform act of 2002. The board shall require participating school district and educational service district employees to pay at least the same employee premiums by plan and family size as state employees pay.

(5) Employees shall choose participation in one of the health care benefit plans developed by the board and may be permitted to waive coverage under terms and conditions established by the board.

(6) The board shall review plans proposed by insuring entities that desire to offer property insurance and/or accident and casualty insurance to state employees through payroll deduction. The board may approve any such plan for payroll deduction by insuring entities holding a valid certificate of authority in the state of Washington and which the board determines

to be in the best interests of employees and the state. The board shall promulgate rules setting forth criteria by which it shall evaluate the plans.

(7) Before January 1, 1998, the public employees' benefits board shall make available one or more fully insured long-term care insurance plans that comply with the requirements of chapter 48.84 RCW. Such programs shall be made available to eligible employees, retired employees, and retired school employees as well as eligible dependents which, for the purpose of this section, includes the parents of the employee or retiree and the parents of the spouse of the employee or retiree. Employees of local governments and employees of political subdivisions not otherwise enrolled in the public employees' benefits board sponsored medical programs may enroll under terms and conditions established by the administrator, if it does not jeopardize the financial viability of the public employees' benefits board's long-term care offering.

(a) Participation of eligible employees or retired employees and retired school employees in any long-term care insurance plan made available by the public employees' benefits board is voluntary and shall not be subject to binding arbitration under chapter 41.56 RCW. Participation is subject to reasonable underwriting guidelines and eligibility rules established by the public employees' benefits board and the health care authority.

(b) The employee, retired employee, and retired school employee are solely responsible for the payment of the premium rates developed by the health care authority. The health care authority is authorized to charge a reasonable administrative fee in addition to the premium charged by the long-term care insurer, which shall include the health care authority's cost of administration, marketing, and consumer education materials prepared by the health care authority and the office of the insurance commissioner.

(c) To the extent administratively possible, the state shall establish an automatic payroll or pension deduction system for the payment of the long-term care insurance premiums.

(d) The public employees' benefits board and the health care authority shall establish a technical advisory committee to provide advice in the development of the benefit design and establishment of underwriting guidelines and eligibility rules. The committee shall also advise the board and authority on effective and cost-effective ways to market and distribute the long-term care product. The technical advisory committee shall be comprised, at a minimum, of representatives of the office of the insurance commissioner, providers of long-term care services, licensed insurance agents with expertise in long-term care insurance, employees, retired employees, retired school employees, and other interested parties determined to be appropriate by the board.

(e) The health care authority shall offer employees, retired employees, and retired school employees the option of purchasing long-term care insurance through licensed agents or brokers appointed by the long-term care insurer. The authority, in consultation with the public employees' benefits board, shall establish marketing procedures and may consider all premium components as a part of the contract negotiations with the long-term care insurer.

(f) In developing the long-term care insurance benefit designs, the public employees' benefits board shall include an alternative plan of care benefit, including adult day services, as approved by the office of the insurance commissioner.

(g) The health care authority, with the cooperation of the office of the insurance commissioner, shall develop a consumer education program for the eligible employees, retired employees, and retired school employees designed to provide education on the potential need for long-term care, methods of financing long-term care, and the availability of long-term care insurance products including the products offered by the board.

(h) By December 1998, the health care authority, in consultation with the public employees' benefits board, shall submit a report to the appropriate committees of the legislature, including an analysis of the marketing and distribution of the long-term care insurance provided under this section.

If those reports were not both timely and accurate the department may prospectively assess an additional fee under this subsection.

(b) An additional fee assessed by the department under this subsection shall not exceed fifty percent of the standard fee.

It shall then be the duty of all such employers to include in their budgets or otherwise provide the amounts so required.

(3) The department shall compute and bill each employer, as defined in RCW 41.26.030, 41.32.010, 41.35.010, 41.37.010, or 41.40.010, at the end of each month for the amount due for that month to the department of retirement systems expense fund and the same shall be paid as are its other obligations. Such computation as to each employer shall be made on a percentage rate of salary established by the department. However, the department may at its discretion establish a system of billing based upon calendar year quarters in which event the said billing shall be at the end of each such quarter.

(4) The director may adjust the expense fund contribution rate for each system at any time when necessary to reflect unanticipated costs or savings in administering the department.

Sec. 930. RCW 43.72.900 and 2003 c 259 s 1 are each amended to read as follows:

(1) The health services account is created in the state treasury. Moneys in the account may be spent only after appropriation. For each state fiscal year beginning on and after July 1, 2002, the legislature shall appropriate no less than twenty-six million two hundred forty thousand dollars from the tobacco prevention and control account for implementation of the Washington state tobacco prevention and control plan.

(c) Because of its demonstrated effectiveness in improving the health of low-income persons and addressing illnesses and diseases that harm low-income persons, the remainder of the funds deposited into the health services account under RCW 82.24.028 and 82.26.028 shall be appropriated solely for Washington basic health plan enrollment as provided in chapter 70.47 RCW. Sec. 931. RCW 43.135.045 and 2003 1st sp.s. c 25 s 920 are each amended to read as follows:

(1) The emergency reserve fund is established in the state treasury. During each fiscal year, the state treasurer shall deposit in the emergency reserve fund all general fund--state revenues in excess of the state expenditure limit for that fiscal year. Deposits shall be made at the end of each fiscal quarter based on projections of state revenues and the state expenditure limit. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues and the expenditure limit for fiscal year 2000 and thereafter.

(2) The legislature may appropriate moneys from the emergency reserve fund only with approval of at least two-thirds of the members of each house of the legislature, and then only if the appropriation does not cause total expenditures to exceed the state expenditure limit under this chapter.

(3) The emergency reserve fund balance shall not exceed five percent of annual general fund--state revenues as projected by the official state revenue forecast. Any balance in excess of five percent shall be transferred on a quarterly basis by the state treasurer as follows: Seventy-five percent to the student achievement fund hereby created in the state treasury and twenty-five percent to the general fund balance. The treasurer shall make transfers between these accounts as necessary to reconcile actual annual revenues for fiscal year 2000 and thereafter. When per-student state funding for the maintenance and operation of K-12 education meets a level of no less than ninety percent of the national average of total funding from all sources per student as determined by the most recent published data from the national center for education statistics of the United States department of education, as calculated by the office of financial management, further deposits to the student achievement fund shall be required only to the extent necessary to maintain the ninety-percent level. Remaining funds are part of the general fund balance and these funds are subject to the expenditure limits of this chapter.

(4) The education construction fund is hereby created in the state treasury.

(a) Funds may be appropriated from the education construction fund exclusively for common school construction or higher education construction.

(b) Funds may be appropriated for any other purpose only if approved by a two-thirds vote of each house of the legislature and if approved by a vote of the people at the next general election. An appropriation approved by the people under this subsection shall result in an adjustment to the state expenditure limit only for the fiscal period for which the appropriation is made and shall not affect any subsequent fiscal period.

(5) Funds from the student achievement fund shall be appropriated to the superintendent of public instruction strictly for distribution to school districts to meet the provisions set out in the student achievement act. Allocations shall be made on an equal per full-time equivalent student basis to each school district.

(6) Earnings of the emergency reserve fund under RCW 43.84.092(4)(a) shall be transferred quarterly to the multimodal transportation account, except for those earnings that are in excess of thirty-five million dollars each fiscal year. Within thirty days following any fiscal year in which earnings transferred to the multimodal transportation account under this subsection did not total thirty-five million dollars, the state treasurer shall transfer from the emergency reserve fund an amount

necessary to bring the total deposited in the multimodal transportation account under this subsection to thirty-five million dollars. The revenues to the multimodal transportation account reflected in this subsection provide ongoing support for the transportation programs of the state. However, it is the intent of the legislature that any new long-term financial support that may be subsequently provided for transportation programs will be used to replace and supplant the revenues reflected in this subsection, thereby allowing those revenues to be returned to the purposes to which they were previously dedicated. No transfers from the emergency reserve fund to the multimodal fund shall be made during the ((2003-05)) 2005-2007 fiscal biennium.

Sec. 932. RCW 43.320.110 and 2003 1st sp.s. c 25 s 921 and 2003 c 288 s 1 are each reenacted and amended to read as follows:

The state treasurer shall be the custodian of the fund. Disbursements from the fund shall be on authorization of the director of financial institutions or the director's designee. In order to maintain an effective expenditure and revenue control, the fund shall be subject in all respects to chapter 43.88 RCW, but no appropriation is required to permit expenditures and payment of obligations from the fund.

During the 2005-2007 fiscal biennium, the legislature may transfer from the financial services regulation fund to the state general fund such amounts as reflect the excess fund balance of the fund.

Sec. 934. RCW 50.20.190 and 2003 2nd sp.s. c 4 s 26 are each amended to read as follows:

(1) An individual who is paid any amount as benefits under this title to which he or she is not entitled shall, unless otherwise relieved pursuant to this section, be liable for repayment of the amount overpaid. The department shall issue an overpayment assessment setting forth the reasons for and the amount of the overpayment. The amount assessed, to the extent not collected, may be deducted from any future benefits payable to the individual: PROVIDED, That in the absence of a back pay award, a settlement affecting the allowance of benefits, fraud, misrepresentation, or willful nondisclosure, every determination of liability shall be mailed or personally served not later than two years after the close of or final payment made on the individual's applicable benefit year for which the purported overpayment was made, whichever is later, unless the merits of the claim are subjected to administrative or judicial review in which event the period for serving the determination of liability shall be extended to allow service of the determination of liability during the six-month period following the final decision affecting the claim.

(2) The commissioner may waive an overpayment if the commissioner finds that the overpayment was not the result of fraud, misrepresentation, willful nondisclosure, or fault attributable to the individual and that the recovery thereof would be against equity and good conscience: PROVIDED, HOWEVER, That the overpayment so waived shall be charged against the individual's applicable entitlement for the eligibility period containing the weeks to which the overpayment was attributed as though such benefits had been properly paid.

(3) Any assessment herein provided shall constitute a determination of liability from which an appeal may be had in the same manner and to the same extent as provided for appeals relating to determinations in respect to claims for benefits: PROVIDED, That an appeal from any determination covering overpayment only shall be deemed to be an appeal from the determination which was the basis for establishing the overpayment unless the merits involved in the issue set forth in such determination have already been heard and passed upon by the appeal tribunal. If no such appeal is taken to the appeal tribunal by the individual within thirty days of the delivery of the notice of determination of liability, or within thirty days of the mailing of the notice of determination, whichever is the earlier, the determination of liability shall be deemed conclusive and final. Whenever any such notice of determination of liability becomes conclusive and final, the commissioner, upon giving at least twenty days notice by certified mail return receipt requested to the individual's last known address of the intended action, may file with the superior court clerk of any county within the state a warrant in the amount of the notice of determination of liability plus a filing fee under RCW 36.18.012(10). The clerk of the county where the warrant is filed shall immediately designate a superior court cause number for the warrant, and the clerk shall cause to be entered in the judgment docket under the superior court cause number assigned to the warrant, the name of the person(s) mentioned in the warrant, the amount of the notice of determination of liability, and the date when the warrant was filed. The amount of the warrant as docketed shall become a lien upon the title to, and any interest in, all real and personal property of the person(s) against whom the warrant is issued, the same as a judgment in a civil case duly docketed in the office of such clerk. A warrant so docketed shall be sufficient to support the issuance of writs of execution and writs of garnishment in favor of the state in the manner provided by law for a civil judgment. A copy of the warrant shall be mailed to the person(s) mentioned in the warrant by certified mail to the person's last known address within five days of its filing with the clerk.

(4) On request of any agency which administers an employment security law of another state, the United States, or a foreign government and which has found in accordance with the provisions of such law that a claimant is liable to repay benefits received under such law, the commissioner may collect the amount of such benefits from the claimant to be refunded to the agency. In any case in which under this section a claimant is liable to repay any amount to the agency of another state, the United States, or a foreign government, such amounts may be collected without interest by civil action in the name of the commissioner acting as agent for such agency if the other state, the United States, or the foreign government extends such

collection rights to the employment security department of the state of Washington, and provided that the court costs be paid by the governmental agency benefiting from such collection.

(5) Any employer who is a party to a back pay award or settlement due to loss of wages shall, within thirty days of the award or settlement, report to the department the amount of the award or settlement, the name and social security number of the recipient of the award or settlement, and the period for which it is awarded. When an individual has been awarded or receives back pay, for benefit purposes the amount of the back pay shall constitute wages paid in the period for which it was awarded. For contribution purposes, the back pay award or settlement shall constitute wages paid in the period in which it was actually paid. The following requirements shall also apply:

(a) The employer shall reduce the amount of the back pay award or settlement by an amount determined by the department based upon the amount of unemployment benefits received by the recipient of the award or settlement during the period for which the back pay award or settlement was awarded;

(b) The employer shall pay to the unemployment compensation fund, in a manner specified by the commissioner, an amount equal to the amount of such reduction;

(c) The employer shall also pay to the department any taxes due for unemployment insurance purposes on the entire amount of the back pay award or settlement notwithstanding any reduction made pursuant to (a) of this subsection;

(d) If the employer fails to reduce the amount of the back pay award or settlement as required in (a) of this subsection, the department shall issue an overpayment assessment against the recipient of the award or settlement in the amount that the back pay award or settlement should have been reduced; and

(e) If the employer fails to pay to the department an amount equal to the reduction as required in (b) of this subsection, the department shall issue an assessment of liability against the employer which shall be collected pursuant to the procedures for collection of assessments provided herein and in RCW 50.24.110.

(6) When an individual fails to repay an overpayment assessment that is due and fails to arrange for satisfactory repayment terms, the commissioner shall impose an interest penalty of one percent per month of the outstanding balance. Interest shall accrue immediately on overpayments assessed pursuant to RCW 50.20.070 and shall be imposed when the assessment becomes final. For any other overpayment, interest shall accrue when the individual has missed two or more of the individual's monthly payments either partially or in full. The interest penalty shall be used, first, to fully fund either social security number cross-match audits or other more effective activities that ensure that individuals are entitled to all amounts of benefits that they are paid ~~((and))~~, second, to fund other detection and recovery of overpayment and collection activities, and third, during the 2005-07 fiscal biennium, the cost of the job skills program at community and technical colleges as appropriated by the legislature.

((To the extent that a lesser surcharge is sufficient to raise \$14,000,000, the board may reduce the amount of the surcharge.)) Regularly conducted hospitals may have right to purchase pure ethyl alcohol on a federal permit.

(3) The liquor control board may also fix the special price at which pure ethyl alcohol may be sold to any department, branch or institution of the state of Washington, federal government, or to any person engaged in a manufacturing or industrial business or in scientific pursuits requiring alcohol for use therein.

(4) The liquor control board may also fix a special price at which pure ethyl alcohol may be sold to any private individual, and shall make regulations governing such sale of alcohol to private individuals as shall promote, as nearly as may be, the minimum purchase of such alcohol by such persons.

Sec. 1101. 2004 c 276 s 201 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.

(1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose.

(2) The department of social and health services shall not initiate any services that require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified in this act. However, after May 1, 2004, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2004 among programs after approval by the director of financial management; and after May 1, 2005, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2005 in this act and in chapter 278, Laws of 2004 among programs after approval by the director of

financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in subsection (3)(b) of this section.

(b) To the extent that transfers under subsection (3)(a) of this section are insufficient to fund actual expenditures in excess of fiscal year 2004 and fiscal year 2005 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose after approval by the director of financial management.

(c) The director of financial management shall notify the appropriate fiscal committees of the senate and house of representatives in writing prior to approving any allotment modifications or transfers under this subsection.

(4) After consultation and coordination with local elected officials and community groups to assure there will be no degradation in existing services as a result of implementing the Washington medicaid integration project, the department shall report its progress to the appropriate committees of the legislature during the 2004 September committee assembly days and is authorized to develop an integrated health care program designed to slow the progression of illness and disability and better manage Medicaid expenditures for the aged and disabled population. Under this Washington medicaid integration partnership (WMIP) the department may combine and transfer such Medicaid funds appropriated under sections 204, 206, 208, and 209 of this act as may be necessary to finance a unified health care plan for the WMIP program enrollment. The WMIP pilot projects shall not exceed a daily enrollment of 6,000 persons during the 2003-05 biennium. The amount of funding assigned to the pilot projects from each program may not exceed the average per capita cost assumed in this act for individuals covered by that program, actuarially adjusted for the health condition of persons enrolled in the pilot, times the number of clients enrolled in the pilot. In implementing the WMIP pilot projects, the department may: (a) Withhold from calculations of "available resources" as set forth in RCW 71.24.025 a sum equal to the capitated rate for individuals enrolled in the pilots; and (b) employ capitation financing and risk-sharing arrangements in collaboration with health care service contractors licensed by the office of the insurance commissioner and qualified to participate in both the medicaid and medicare programs. The department shall conduct an evaluation of the WMIP, measuring changes in participant health outcomes, changes in patterns of service utilization, participant satisfaction, participant access to services, and the state fiscal impact.

Sec. 1105. 2004 c 276 s 205 (uncodified) is amended to read as follows:

FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES--DEVELOPMENTAL DISABILITIES PROGRAM

(1) COMMUNITY SERVICES

General Fund--State Appropriation (FY 2004)	\$250,633,000
General Fund--State Appropriation (FY 2005)	((<u>\$274,414,000</u>))
	<u>\$272,837,000</u>
General Fund--Federal Appropriation	((<u>\$453,434,000</u>))
	<u>\$450,747,000</u>
Health Services Account--State Appropriation	\$971,000
TOTAL APPROPRIATION	((<u>\$979,452,000</u>))
	<u>\$975,188,000</u>

The appropriations in this subsection are subject to the following conditions and limitations:

(a) Any new funding for family support and high school transition along with a portion of existing funding for these programs shall be provided as supplemental security income (SSI) state supplemental payments for persons with developmental disabilities in families with taxable incomes at or below 150 percent of median family income. Individuals receiving family support or high school transition payments shall not become eligible for medical assistance under RCW 74.09.510 due solely to the receipt of SSI state supplemental payments.

(b) The health services account appropriation and \$971,000 of the general fund--federal appropriation are provided solely for health care benefits for home care workers with family incomes below 200 percent of the federal poverty level who are employed through state contracts for twenty hours per week or more.

(i) Premium payments for individual provider home care workers shall be made only to the subsidized basic health plan.

(ii) Home care agencies may obtain coverage either through the basic health plan or through an alternative plan with substantially equivalent benefits. Premium payments made to home care agencies shall be limited to home care workers who are employed at least twenty hours per week to serve state-funded clients. It is the intent of the legislature to fund the purchase of health care benefits for agency home care providers in a more fiscally prudent manner. The legislature encourages agency providers to purchase more cost-effective health care benefits, including increasing participation in the basic health plan or purchasing substantially equivalent benefits with substantially equivalent costs.

(c) \$562,000 of the general fund--state appropriation for fiscal year 2004, \$1,767,000 of the general fund--state appropriation for fiscal year 2005, and \$2,266,000 of the general fund--federal appropriation are provided solely for community residential and support services. Funding in this subsection shall be prioritized for (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; (ii) clients without residential services who are at immediate risk of institutionalization or in crisis; (iii) children who are aging out of other state services; and (iv) current home and community-based waiver program clients who have been assessed as having an immediate need for increased services. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward

expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of residents moving into community settings and the actual expenditures for all community services to support those residents.

(d) \$563,000 of the general fund--state appropriation for fiscal year 2004, \$1,390,000 of the general fund--state appropriation for fiscal year 2005, and \$1,905,000 of the general fund--federal appropriation are provided solely for expanded community services for persons with developmental disabilities who also have community protection issues. Funding in this subsection shall be prioritized for (i) clients being diverted or discharged from the state psychiatric hospitals; (ii) clients participating in the dangerous mentally ill offender program; (iii) clients participating in the community protection program; and (iv) mental health crisis diversion outplacements. The department shall ensure that the average cost per day for all program services other than start-up costs shall not exceed \$300. In order to maximize the number of clients served and ensure the cost-effectiveness of the waiver programs, the department will strive to limit new client placement expenditures to 90 percent of the budgeted daily rate. If this can be accomplished, additional clients may be served with excess funds provided the total projected carry-forward expenditures do not exceed the amounts estimated. The department shall implement the four new waiver programs such that decisions about enrollment levels and the amount, duration, and scope of services maintain expenditures within appropriations. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter, the number of persons served with these additional community services, where they were residing, what kinds of services they were receiving prior to placement, and the actual expenditures for all community services to support these clients.

(e) The department shall provide a status report on the transition, implementation, and operation of the four home and community-based waivers that will replace the community alternatives program waiver. The department shall electronically report to the appropriate committees of the legislature, within 45 days following each fiscal year quarter for the quarters through December 2004, the following information for each home and community-based waiver: Total projected state and federal fiscal year expenditures, year-to-date actual expenditures compared to projected expenditures, year-to-date unduplicated clients compared to projected clients, actual average per capita costs compared to projected per capita costs, number of transfers between waivers, amount of emergency funds spent to date compared to projected emergency costs, state and federal funds transferred from the medicaid personal care program to the four home and community-based waiver programs, and the year-to-date number of new clients added to a waiver program.

(f) The department may transfer funding provided in this subsection to meet the purposes of subsection (2) of this section to the extent that fewer residents of residential habilitation centers choose to move to community placements than was assumed in this appropriation.

(g) \$3,202,000 of the general fund--state appropriation for fiscal year 2004, \$4,472,000 of the general fund--state appropriation for fiscal year 2005, and \$7,633,000 of the general fund--federal appropriation are provided solely for the purpose of providing a wage increase effective October 1, 2003, for individual home care workers providing state-funded services. The amounts in this subsection also include the funds needed for the employer share of unemployment and social security taxes on the amount of the increase.

(h) \$213,000 of the general fund--state appropriation for fiscal year 2004, \$289,000 of the general fund--state appropriation for fiscal year 2005, and \$500,000 of the general fund--federal appropriation are provided solely to increase payments to agency home care providers from \$13.44 per hour to \$14.27 per hour effective October 1, 2003. The amounts in this subsection shall be used to increase compensation for direct care workers by 75 cents per hour. The amounts in this subsection also include the funds needed for the employer share of unemployment and social security taxes on the amount of the increase.

(i) \$1,000,000 of the general fund--state appropriation for fiscal year 2005 and \$300,000 of the general fund--federal appropriation are provided solely for employment and day services. Priority consideration for this new funding shall be young adults with developmental disabilities living with their family who need employment opportunities and assistance after high school graduation. Services shall be provided proportionately between waiver and nonwaiver clients. Federal funds may be used to enhance this funding only to the extent that a client is already on a home and community-based waiver. This funding shall not be used to add new clients to a home and community-based waiver.

(j) ~~(\$312,000)~~ \$347,000 of the general fund--state appropriation for fiscal year 2005 and ~~(\$290,000)~~ \$322,000 of the general fund--federal appropriation are provided solely to increase payments to agency home care providers from \$14.27 per hour to \$14.93 per hour, effective October 1, 2004. (\$7,261,055,000)

\$7,365,696,000

The appropriations in this section are subject to the following conditions and limitations:

(1) Based on quarterly expenditure reports and caseload forecasts, if the department estimates that expenditures for the medical assistance program will exceed the appropriations, the department shall take steps including but not limited to reduction of rates or elimination of optional services to reduce expenditures so that total program costs do not exceed the annual appropriation authority.

(2) The department shall continue to extend medicaid eligibility to children through age 18 residing in households with incomes below 200 percent of the federal poverty level.

(3) In determining financial eligibility for medicaid-funded services, the department is authorized to disregard recoveries by Holocaust survivors of insurance proceeds or other assets, as defined in RCW 48.104.030.

(4) \$493,000 of the health services account appropriation for fiscal year 2004, ~~(\$748,000)~~ \$1,184,000 of the health services account appropriation for fiscal year 2005, and ~~(\$1,241,000)~~ \$1,438,000 of the general fund--federal appropriation are provided solely for implementation of a "ticket to work" medicaid buy-in program for working persons with disabilities, operated in accordance with the following conditions:

(a) To be eligible, a working person with a disability must have total income which is less than 450 percent of poverty;

(b) Participants shall participate in the cost of the program by paying (i) a monthly enrollment fee equal to fifty percent of any unearned income in excess of the medicaid medically needy standard; and (ii) a monthly premium equal to 5 percent of all unearned income, plus 5 percent of all earned income after disregarding the first sixty-five dollars of monthly earnings, and half the remainder;

(c) The department shall establish more restrictive eligibility standards than specified in this subsection to the extent necessary to operate the program within appropriated funds; and

(d) The department may require point-of-service copayments as appropriate, except that copayments shall not be so high as to discourage appropriate service utilization, particularly of prescription drugs needed for the treatment of psychiatric conditions.

(5) Sufficient funds are appropriated in this section for the department to continue podiatry services for medicaid-eligible adults.

(6) Sufficient funds are appropriated in this section for the department to provide an adult dental benefit equivalent to approximately 75 percent of the dental benefit provided during the 2001-03 biennium. The department shall establish the scope of services to be provided within the available funds in consultation with dental providers and consumer representatives.

(7) The legislature reaffirms that it is in the state's interest for Harborview medical center to remain an economically viable component of the state's health care system.

(8) In accordance with RCW 74.46.625, \$35,953,000 of the fiscal year 2004 health services account appropriation, \$20,577,000 of the fiscal year 2005 health services account appropriation, and \$61,037,000 of the general fund--federal appropriation are provided solely for supplemental payments to nursing homes operated by rural public hospital districts. The payments shall be conditioned upon (a) a contractual commitment by ~~((the association of public hospital districts and))~~ participating rural public hospital districts to make an intergovernmental transfer to the state treasurer, for deposit into the health services account, equal to at least 91.9 percent of the supplemental payments; and (b) ~~((a contractual commitment by the association of public hospital districts to return at least 8.1 percent of the supplemental payments to the participating rural hospital districts; and~~ (c) ~~))~~ a contractual commitment by the participating districts to not allow ~~((expenditures covered by the supplemental payments))~~ amounts intergovernmentally transferred to the state treasurer to be included in the nursing home cost report as expenditures or settlement against payments to be used for medicaid nursing home rate setting. It is the legislature's intent that the payments provided in this subsection shall be supplemental to and shall not in any way offset or reduce the payments calculated and provided in accordance with part E of chapter 74.46 RCW. It is the legislature's further intent that costs to improve access to healthcare at nursing facilities otherwise allowable for rate-setting and settlement against payments under chapter 74.46 RCW shall not be disallowed solely because such costs have been paid by revenues retained by the nursing home from these supplemental payments. A ~~((hospital))~~ nursing home which does not participate in the supplemental payment intergovernmental transfer budgeted for fiscal year 2003 shall not be eligible to participate in the supplemental payments budgeted in this subsection for fiscal year 2004. The participating districts shall retain no more than a total of \$9,600,000 for the 2003-05 biennium.

(9) \$12,318,000 of the health services account appropriation for fiscal year 2004, \$10,738,000 of the health services account appropriation for fiscal year 2005, and \$23,056,000 of the general fund--federal appropriation are provided solely for additional disproportionate share and medicare upper payment limit payments to public hospital districts and to the state's teaching hospitals. The payments shall be conditioned upon a contractual commitment by the participating public hospitals to make an intergovernmental transfer to the health services account equal to at least 91 percent of the additional payments. The state's teaching hospitals shall retain at least 28 percent of the amounts retained by hospitals under these programs, or the maximum allowable under the teaching hospitals' limits as established under federal rule, whichever is less.

(10) \$3,178,000 of the health services account appropriation, \$4,208,000 of the general fund--local appropriation, and \$7,308,000 of the general fund--federal appropriation are provided solely for grants to rural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(11) \$36,002,000 of the health services account appropriation and \$26,080,000 of the general fund--federal appropriation are provided solely for grants to nonrural hospitals. The department shall distribute the funds under a formula that provides a relatively larger share of the available funding to hospitals that (a) serve a disproportionate share of low-income and medically indigent patients and (b) have relatively smaller net financial margins, to the extent allowed by the federal medicaid program.

(12) \$302,000 of the general fund--state appropriation for fiscal year 2004, ~~(\$1,671,000)~~ \$1,633,000 of the general fund--state appropriation for fiscal year 2005, and ~~(\$17,757,000)~~ \$17,410,000 of the general fund--federal appropriation are provided solely for development and implementation of a replacement system for the existing medicaid management information system. The medicaid management information system replacement project shall comply with section 902, chapter 25, Laws of 2003 1st sp. sess.

(13) The department shall implement a combination of cost containment and utilization strategies sufficient to reduce general fund--state costs for durable medical equipment and supplies in fiscal year 2005 by approximately 5 percent below the level projected for fiscal year 2005 in the February 2003 forecast. In designing strategies, the primary strategy considered shall be selective or direct contracting with durable medical equipment and supplies vendors or manufacturers.

(14) The department shall, within available resources, design and implement a medical care services care management pilot project for clients receiving general assistance benefits. The pilot project shall be operated in at least two of the counties with the highest concentration of general assistance clients, and may use a full or partial capitation model. In designing the project, the department shall consult with the mental health division and its managed care contractors that include community and migrant health centers in their provider network. The pilot project shall be designed to maximize care coordination, high-risk medical management, and chronic care management to achieve better health outcomes. The pilot project shall begin enrollment on July 1, 2004.

(15) Within available resources and to the extent possible, the department shall evaluate and pilot a nurse consultant services program to assist fee-for-service clients in accessing medical information, with the goal of reducing administrative burdens on physicians and unnecessary emergency room utilization.

(16) The department shall include in any pending medicaid reform section 1115 waiver application, or in any existing section 1115 waiver, a request for authorization to provide optional medicaid services that have been eliminated in this act to American Indian and Alaska Native persons as defined in relevant federal law who are eligible for medicaid only to the extent that such services are provided through the American Indian health system and are financed with one hundred percent federal medicaid matching funds.

(17) The department shall establish managed care rates within available funds, in a manner that promotes health plan efficiency, encourages continuity of service, and assures access in underserved areas.

(18) The department of social and health services, the office of the superintendent of public instruction, and the department of health should jointly identify opportunities for early intervention and prevention activities that can help prevent disease and reduce oral health issues among children. Disease prevention among infants at the age of one year and among children entering the K-12 education system provides cost-effective ways to avoid higher health care spending later in life.

(19) The department shall secure a federal waiver, effective no later than September 1, 2003, which will enable it to charge ~~((e-))~~ premiums for medical and dental coverage of children whose family incomes exceed the federal poverty level.

(20) ~~((For purposes of RCW 74.09.800(2), \$8,017,000 of the general fund--state appropriation for fiscal year 2004, \$8,454,000 of the general fund--state appropriation for fiscal year 2005, and \$30,588,000 of the general fund--federal appropriation are provided solely to provide prenatal care services to low income women who are not eligible to receive such services under the medical assistance program, Title XIX of the federal social security act. If the department is unable to secure~~

~~federal matching funds under Title XXI of the social security act, the department shall take all actions necessary to manage the program within these appropriated levels.~~

~~(21))~~ \$13,588,000 of the health services account appropriation for fiscal year 2004, \$11,008,000 of the health services account appropriation for fiscal year 2005, and \$24,595,000 of the general fund--federal appropriation are provided solely for additional disproportionate share hospital payments to public hospital districts. The payments shall be conditioned upon a contractual commitment by the participating hospital districts to make an intergovernmental transfer to the health services account equal to at least 86.5 percent of the additional disproportionate share payment. The participating districts shall retain no more than \$6,607,000 of the total additional amount paid.

~~((22) \$10,000,000)~~ (21) \$20,000,000 of the general fund--federal and ~~((10,000,000))~~ \$20,000,000 of the general fund--local funds are provided solely to increase payments in the inpatient upper payment limit program for the state's teaching hospitals. Payments shall be made to the extent allowable under federal medicaid rule and law. The department shall work with the teaching hospitals to identify allowable sources of funding for the required match and to assure that the teaching hospitals are responsible for repayment of any disallowed federal matching funds.

The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. By June 30, 2004, if the department has not recovered through trust asset management the state's capital investment from the land acquisition provided in this subsection, the department shall seek reimbursement from the federal government.

(2) Allocations for certificated staff salaries for the 2003-04 and 2004-05 school years shall be determined using formula-generated staff units calculated pursuant to this subsection. Staff allocations for small school enrollments in (d) through (f) of this subsection shall be reduced for vocational full-time equivalent enrollments. Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

(a) On the basis of each 1,000 average annual full-time equivalent enrollments, excluding full-time equivalent enrollment otherwise recognized for certificated staff unit allocations under (c) through (f) of this subsection:

(i) Four certificated administrative staff units per thousand full-time equivalent students in grades K-12;

The allocation may be used for reducing class sizes in grades K-4 or to provide additional classroom contact hours for kindergarten, before-and-after-school programs, weekend school programs, summer school programs, and intercession opportunities to assist elementary school students in meeting the essential academic learning requirements and student assessment performance standards. For purposes of this subsection, additional classroom contact hours provided by teachers beyond the normal school day under a supplemental contract shall be converted to a certificated full-time equivalent by dividing the classroom contact hours by 900.

(A) Funds provided under this subsection (2)(a)(iv) and (v) in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(b) shall be allocated only if the district documents an actual ratio in grades K-4 equal to or greater than 54.0 certificated instructional staff per thousand full-time equivalent students in the 2003-04 school year and 53.2 certificated instructional staff per thousand full-time equivalent students in the 2004-05 school year. For any school district documenting a lower certificated instructional staff ratio, the allocation shall be based on the district's actual grades K-4 certificated instructional staff ratio achieved in that school year, or the statutory minimum ratio established under RCW 28A.150.260(2)(b), if greater;

Additional classified instructional assistants, for the purposes of this subsection, shall be determined using the 1989-90 school year as the base year;

(C) Any district maintaining a ratio in grades K-4 equal to or greater than 54.0 certificated instructional staff per thousand full-time equivalent students in the 2003-04 school year and 53.2 certificated instructional staff per thousand full-time equivalent students in the 2004-05 school year may use allocations generated under this subsection (2)(a)(iv) and (v) in excess of that required to maintain the minimum ratio established under RCW 28A.150.260(2)(b) to employ additional basic education certificated instructional staff or classified instructional assistants in grades 5-6. Funds allocated under this subsection (2)(a)(iv) and (v) shall only be expended to reduce class size in grades K-6. No more than 1.3 of the certificated instructional funding ratio amount may be expended for provision of classified instructional assistants;

(b) For school districts with a minimum enrollment of 250 full-time equivalent students whose full-time equivalent student enrollment count in a given month exceeds the first of the month full-time equivalent enrollment count by 5 percent, an additional state allocation of 110 percent of the share that such increased enrollment would have generated had such additional full-time equivalent students been included in the normal enrollment count for that particular month;

(c)(i) On the basis of full-time equivalent enrollment in:

Units calculated under (f)(ii) of this subsection shall be reduced by certificated staff units at the rate of forty-six certificated instructional staff units and four certificated administrative staff units per thousand vocational full-time equivalent students;

(g) For each nonhigh school district having an enrollment of more than seventy annual average full-time equivalent students and less than one hundred eighty students, operating a grades K-8 program or a grades 1-8 program, an additional one-half of a certificated instructional staff unit; and

(a) The number of certificated staff units determined in subsection (2) of this section; and

(b) The number of classified staff units determined in subsection (3) of this section multiplied by 1.152. This factor is intended to adjust allocations so that, for the purposes of distributing insurance benefits, full-time equivalent classified employees may be calculated on the basis of 1440 hours of work per year, with no individual employee counted as more than one full-time equivalent.

(6)(a) For nonemployee-related costs associated with each certificated staff unit allocated under subsection (2)(a), (b), and (d) through (h) of this section, there shall be provided a maximum of \$8,785 per certificated staff unit in the 2003-04 school year and a maximum of \$8,855 per certificated staff unit in the 2004-05 school year.

(7) Allocations for substitute costs for classroom teachers shall be distributed at a maintenance rate of \$531.09 for the 2003-04 and 2004-05 school years per allocated classroom teachers exclusive of salary increase amounts provided in section 504 of this act. Solely for the purposes of this subsection, allocated classroom teachers shall be equal to the number of certificated instructional staff units allocated under subsection (2) of this section, multiplied by the ratio between the number of actual basic education certificated teachers and the number of actual basic education certificated instructional staff reported statewide for the prior school year.

(8) Any school district board of directors may petition the superintendent of public instruction by submission of a resolution adopted in a public meeting to reduce or delay any portion of its basic education allocation for any school year. The superintendent of public instruction shall approve such reduction or delay if it does not impair the district's financial condition. Any delay shall not be for more than two school years. Any reduction or delay shall have no impact on levy authority pursuant to RCW 84.52.0531 and local effort assistance pursuant to chapter 28A.500 RCW.

(7) The certificated instructional staff base salary specified for each district in LEAP Document 12E and the salary schedules in subsection (4)(a) of this section include two learning improvement days. A school district is eligible for the learning improvement day funds only if the learning improvement days have been added to the 180-day contract year. If fewer days are added, the additional learning improvement allocation shall be adjusted accordingly. The additional days shall be for activities related to improving student learning consistent with education reform implementation, and shall not be considered part of basic education. The length of a learning improvement day shall not be less than the length of a full day under the base contract. The superintendent of public instruction shall ensure that school districts adhere to the intent and purposes of this subsection.

(8) The salary allocation schedules established in this section are for allocation purposes only except as provided in RCW 28A.400.200(2), subsection (7) of this section, and section 504(1) of this act.

Sec. 1404. 2004 c 276 s 504 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SCHOOL EMPLOYEE COMPENSATION ADJUSTMENTS

General Fund--State Appropriation (FY 2004)	\$28,604,000
General Fund--State Appropriation (FY 2005)	(\$132,202,000)
	<u>\$132,232,000</u>
General Fund--Federal Appropriation	(\$663,000)
	<u>\$655,000</u>
TOTAL APPROPRIATION	(\$161,469,000)
	<u>\$161,491,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) \$8,944,000 of the general fund--state appropriation for fiscal year 2004 and ~~(\$20,339,000)~~ \$20,366,000 of the general fund--state appropriation for fiscal year 2005 are provided solely to provide a salary adjustment for state formula certificated instructional staff units in their first seven years of service. Consistent with the statewide certificated instructional staff salary allocation schedule in section 503 of this act, sufficient funding is provided to increase the salary of certificated instructional staff units in the 2003-04 school year and the 2004-05 school year by the following percentages: Three percent for certificated instructional staff in their first and second years of service; two and one-half percent for certificated instructional staff in their third year of service; one and one-half percent for certificated instructional staff in their fourth year of service; one percent for certificated instructional staff in their fifth year of service; and one-half of a percent for certificated instructional staff in their sixth and seventh years of service. These increases will take effect September 1, 2003 and September 1, 2004.

(a) In order to receive funding provided in this subsection, school districts shall certify to the office of superintendent of public instruction that they will provide the percentage increases in the amounts specified in this subsection. In cases where a school district providing the increases in the amounts specified in this subsection would cause that school district to be out of compliance with RCW 28A.400.200, they may provide salary increases in different amounts but only to the extent necessary to come into compliance with RCW 28A.400.200. Funds provided in this subsection shall be used exclusively for providing the percentage increases specified in this subsection to the certificated staff units in their first seven years of service and shall not be used to supplant any other state or local funding for compensation for these staff.

(b) The appropriations include associated incremental fringe benefit allocations at rates of 9.04 percent for school year 2003-04 and ~~(9.05)~~ 9.02 percent for school year 2004-05 for certificated staff. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(2) ~~(\$5,452,000)~~ \$5,443,000 of the general fund--state appropriation is provided solely to provide a salary adjustment for state formula classified units of one percent effective September 1, 2004, and ~~(\$126,598,000)~~ \$126,605,000 is provided solely for adjustments to insurance benefit allocations.

(a)(i) In order to receive funding provided in this subsection for salary adjustments for state formula classified units, school districts shall certify to the office of superintendent of public instruction that they will provide the percentage increases in the amounts specified in this subsection. Funds provided in this subsection for this purpose shall be used exclusively for providing the percentage increases specified in this subsection to classified staff units and shall not be used to supplant any other state or local funding for compensation for these staff.

(ii) The appropriations include associated incremental fringe benefit allocations at rates of ~~(8.75)~~ 8.72 percent for the 2004-05 school year for classified staff. The appropriations in this section include the increased portion of salaries and incremental fringe benefits for all relevant state-funded school programs in this part V of this act. Increases for general apportionment (basic education) are based on the salary allocation schedules and methodology in sections 502 and 503 of this act. Increases for special education result from increases in each district's basic education allocation per student. Increases for

educational service districts and institutional education programs are determined by the superintendent of public instruction using the methodology for general apportionment salaries and benefits in sections 502 and 503 of this act.

(b) The maintenance rate for insurance benefit allocations is \$457.07 per month for the 2003-04 and 2004-05 school years. The appropriations in this section provide for a rate increase to \$481.31 per month for the 2003-04 school year and \$582.47 per month for the 2004-05 school year.

(3) The appropriations in this section provide salary adjustments and incremental fringe benefit allocations based on formula adjustments as follows:

Transitional Bilingual Education (per eligible bilingual student)	\$2.45	\$4.97
Learning Assistance (per entitlement unit)	\$0.69	\$2.94

(4) The adjustments to insurance benefit allocations are at the following rates:

	2003-04	2004-05
Pupil Transportation (per weighted pupil mile)	\$0.22	\$1.14
Highly Capable (per formula student)	\$1.52	\$7.72

Sec. 1407. 2004 c 276 s 507 (uncodified) is amended to read as follows:

FOR THE SUPERINTENDENT OF PUBLIC INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS

General Fund--State Appropriation (FY 2004)	\$435,061,000
General Fund--State Appropriation (FY 2005)	((\$426,802,000))
	<u>\$430,000,000</u>
General Fund--Federal Appropriation	((\$426,450,000))
	<u>\$426,218,000</u>
TOTAL APPROPRIATION	(\$1,288,313,000)
	<u>\$1,291,279,000</u>

The appropriations in this section are subject to the following conditions and limitations:

(1) Funding for special education programs is provided on an excess cost basis, pursuant to RCW 28A.150.390. School districts shall ensure that special education students as a class receive their full share of the general apportionment allocation accruing through sections 502 and 504 of this act. To the extent a school district cannot provide an appropriate education for special education students under chapter 28A.155 RCW through the general apportionment allocation, it shall provide services through the special education excess cost allocation funded in this section.

(2)(a) The superintendent of public instruction shall use the excess cost methodology developed and implemented for the 2001-02 school year using the S-275 personnel reporting system and all related accounting requirements to ensure that:

- (i) Special education students are basic education students first;
- (ii) As a class, special education students are entitled to the full basic education allocation; and
- (iii) Special education students are basic education students for the entire school day.

(b) The S-275 and accounting changes in effect since the 2001-02 school year shall supercede any prior excess cost methodologies and shall be required of all school districts.

(3) Each fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(4) The superintendent of public instruction shall distribute state and federal funds to school districts based on two categories: The optional birth through age two program for special education eligible developmentally delayed infants and toddlers, and the mandatory special education program for special education eligible students ages three to twenty-one. A "special education eligible student" means a student receiving specially designed instruction in accordance with a properly formulated individualized education program.

(5)(a) For the 2003-04 and 2004-05 school years, the superintendent shall make allocations to each district based on the sum of:

(i) A district's annual average headcount enrollment of developmentally delayed infants and toddlers ages birth through two, multiplied by the district's average basic education allocation per full-time equivalent student, multiplied by 1.15; and

(ii) A district's annual average full-time equivalent basic education enrollment multiplied by the funded enrollment percent determined pursuant to subsection (6)(b) of this section, multiplied by the district's average basic education allocation per full-time equivalent student multiplied by 0.9309.

(b) For purposes of this subsection, "average basic education allocation per full-time equivalent student" for a district shall be based on the staffing ratios required by RCW 28A.150.260 and shall not include enhancements, secondary vocational education, or small schools.

(6) The definitions in this subsection apply throughout this section.

(a) "Annual average full-time equivalent basic education enrollment" means the resident enrollment including students enrolled through choice (RCW 28A.225.225) and students from nonhigh districts (RCW 28A.225.210) and excluding students residing in another district enrolled as part of an interdistrict cooperative program (RCW 28A.225.250).

(b) "Enrollment percent" means the district's resident special education annual average enrollment, excluding the birth through age two enrollment, as a percent of the district's annual average full-time equivalent basic education enrollment.

Each district's general fund--state funded special education enrollment shall be the lesser of the district's actual enrollment percent or 12.7 percent. Increases in enrollment percent from 12.7 percent to 13.0 percent shall be funded from the general fund--federal appropriation.

(7) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be calculated in accordance with subsection (6)(b) of this section, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(8) To the extent necessary, \$25,746,000 of the general fund--federal appropriation is provided for safety net awards for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (5) of this section. If safety net awards exceed the amount appropriated in this subsection (8), the superintendent shall expend all available federal discretionary funds necessary to meet this need. Safety net funds shall be awarded by the state safety net oversight committee subject to the following conditions and limitations:

(a) The committee shall consider unmet needs for districts that can convincingly demonstrate that all legitimate expenditures for special education exceed all available revenues from state funding formulas. In the determination of need, the committee shall also consider additional available revenues from federal and local sources. Differences in program costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(b) The committee shall then consider the extraordinary high cost needs of one or more individual special education students. Differences in costs attributable to district philosophy, service delivery choice, or accounting practices are not a legitimate basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with chapter 318, Laws of 1999.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(9) The superintendent of public instruction may adopt such rules and procedures as are necessary to administer the special education funding and safety net award process. Prior to revising any standards, procedures, or rules, the superintendent shall consult with the office of financial management and the fiscal committees of the legislature.

(10) The safety net oversight committee appointed by the superintendent of public instruction shall consist of:

(a) One staff from the office of superintendent of public instruction;

(b) Staff of the office of the state auditor; and

(c) One or more representatives from school districts or educational service districts knowledgeable of special education programs and funding.

(11) A maximum of \$678,000 may be expended from the general fund--state appropriations to fund 5.43 full-time equivalent teachers and 2.1 full-time equivalent aides at children's orthopedic hospital and medical center. This amount is in lieu of money provided through the home and hospital allocation and the special education program.

(12) \$1,000,000 of the general fund--federal appropriation is provided for projects to provide special education students with appropriate job and independent living skills, including work experience where possible, to facilitate their successful transition out of the public school system. The funds provided by this subsection shall be from federal discretionary grants.

(13) The superintendent shall maintain the percentage of federal flow-through to school districts at 85 percent. In addition to other purposes, school districts may use increased federal funds for high-cost students, for purchasing regional special education services from educational service districts, and for staff development activities particularly relating to inclusion issues.

(14) A maximum of \$1,200,000 of the general fund--federal appropriation may be expended by the superintendent for projects related to use of inclusion strategies by school districts for provision of special education services. The superintendent shall prepare an information database on laws, best practices, examples of programs, and recommended resources. The information may be disseminated in a variety of ways, including workshops and other staff development activities.

(15) A school district may carry over from one year to the next year up to 10 percent of the general fund--state funds allocated under this program; however, carry over funds shall be expended in the special education program.

"Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

- (a) System refurbishment, acquisitions, and development efforts;
- (b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;
- (c) Assessment of overall information processing performance, resources, and capabilities;
- (d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and
- (e) Progress toward enabling electronic access to public information.

(3) Each project will be planned and designed to take optimal advantage of Internet technologies and protocols. Agencies shall ensure that the project is in compliance with the architecture, infrastructure, principles, policies, and standards of digital government as maintained by the information services board.

(4) The agency shall produce a feasibility study for information technology projects at the direction of the information services board and in accordance with published department of information services policies and guidelines. At a minimum, such studies shall include a statement of: (a) The purpose or impetus for change; (b) the business value to the agency, including an examination and evaluation of benefits, advantages, and cost; (c) a comprehensive risk assessment based on the proposed project's impact on both citizens and state operations, its visibility, and the consequences of doing nothing; (d) the impact on agency and statewide information infrastructure; and (e) the impact of the proposed enhancements to an agency's information technology capabilities on meeting service delivery demands.

The planning for the phased approach shall be such that the business case justification for a project needs to demonstrate how the project recovers cost or adds measurable value or positive cost benefit to the agency's business functions within each development cycle.

(6) The agency shall produce quality assurance plans for information technology projects. Consistent with the direction of the information services board and the published policies and guidelines of the department of information services, the quality assurance plan shall address all factors critical to successful completion of the project and successful integration with the agency and state information technology infrastructure. At a minimum, quality assurance plans shall provide time and budget benchmarks against which project progress can be measured, a specification of quality assurance responsibilities, and a statement of reporting requirements. The quality assurance plans shall set out the functionality requirements for each phase of a project.

(7) A copy of each feasibility study, project management plan, and quality assurance plan shall be provided to the department of information services, the office of financial management, and legislative fiscal committees. The plans and studies shall demonstrate a sound business case that justifies the investment of taxpayer funds on any new project, an assessment of the impact of the proposed system on the existing information technology infrastructure, the disciplined use of preventative measures to mitigate risk, and the leveraging of private-sector expertise as needed. The department shall not transfer funds as authorized under this subsection without approval of the director of financial management. A report of the transfers will be submitted on October 1st of each fiscal year to the senate and house of representatives transportation committees.

NEW SECTION. Sec. 603. (1) The transportation commission may authorize a transfer of spending allocation within the appropriation provided and between projects funded with transportation 2003 account (nickel account) appropriations or the transportation partnership account appropriations to manage project spending and efficiently deliver all projects in the respective program under the following conditions and limitations:

(b) Transfers from a project may be made if the project is experiencing unavoidable expenditure delays;

(c) Transfers from a project may not be made as a result of the reduction of the scope of a project, nor shall a transfer be made to support increases in the scope of a project;

(d) Each transfer between projects may only occur if the commission finds that any resulting change will not hinder the completion of the projects approved by the legislature; and

(e) Transfers may not occur to projects not identified on the applicable project list.

(2) A report of the transfers shall be submitted on October 1st of each fiscal year to the senate and house of representatives transportation committees.

A report must be submitted to the transportation committees of the senate and the house of representatives each April. During 2005, the speaker of the house of representatives and the president of the senate must select one member from each caucus to work with the office of financial management, the joint legislative audit and review committee, the department of transportation, and the department of general administration to identify areas in state government where the

GASB philosophy could be implemented. The purpose of this effort is to enhance decision making that will result in strategic long-term investment decisions in transportation capital project management.

These fuel cost mitigation strategies shall be made available to all state agencies, institutions of higher education, and political subdivisions that purchase fuel through the office of state procurement. These strategies may include but are not limited to futures contracts, swap transactions, option contracts, costless collars, and long-term storage.

(2) Recommend a mechanism for funding these fuel cost mitigation strategies that recognizes that the benefit accrues across state and local governments. To pay for these services, the director may also explore negotiated incentives with contracted providers.

(3) Report to the fiscal committees of the legislature each December 15th regarding the types of contracts established to mitigate fuel costs, the amounts of fuel covered by the contracts, and the cost mitigation results. The reports shall also include recommendations for improving or continuing the fuel cost mitigation program.

(1) The commission may oversee up to four pilot projects implementing the use of traffic safety cameras to detect failure to stop at railroad crossings, stoplights, and school zones.

(a) In order to ensure adequate time in the 2003-05 biennium to evaluate the effectiveness of the pilot program, any projects authorized by the commission must be authorized by December 31, 2003.

(b) If a county or city has established an authorized automated traffic safety camera program under this section, the compensation paid to the manufacturer or vendor of the equipment used must be based only upon the value of the equipment and services provided or rendered in support of the system, and may not be based upon a portion of the fine or civil penalty imposed or the revenue generated by the equipment.

(c) The traffic safety commission shall use the following guidelines to administer the program:

(i) Traffic safety cameras may take pictures of the vehicle and vehicle license plate only, and only while an infraction is occurring;

(ii) The law enforcement agency of the city or county government shall plainly mark the locations where the automated traffic enforcement system is used by placing signs on street locations that clearly indicate to a driver that he or she is entering a zone where traffic laws are enforced by an automated traffic enforcement system;

(vi) Infractions detected through the use of traffic safety cameras are not part of the registered owner's driving record under RCW 46.52.101 and 46.52.120;

(vii) If a notice of infraction is sent to the registered owner and the registered owner is a rental car business, the infraction will be dismissed against the business if it mails to the issuing agency, within fourteen days of receiving the notice, a declaration under penalty of perjury of the name and known mailing address of the individual driving or renting the vehicle when

the infraction occurred. If the business is unable to determine who was driving or renting the vehicle at the time the infraction occurred, the business must sign a declaration under penalty of perjury to this effect. The declaration must be mailed to the issuing agency within fourteen days of receiving the notice of traffic infraction. Timely mailing of this declaration to the issuing agency relieves a rental car business of any liability under this section for the notice of infraction. A declaration form suitable for this purpose must be included with each automated traffic infraction notice issued, along with instructions for its completion and use;

(viii) For purposes of the 2003-05 biennium pilot projects, infractions generated by the use of traffic safety cameras are exempt from the provisions of RCW 3.46.120, 3.50.100, and 35.20.220, and must be processed in the same manner as parking violations; and

MESSAGE FROM THE SENATE

April 22, 2005

Mr. Speaker:

The Senate receded from its amendment to SECOND SUBSTITUTE HOUSE BILL NO. 1565. Under suspension of the rules the bill was returned to second reading for purpose of amendment. The Senate adopted the following amendment and passed the bill as amended by the Senate:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Sec. 1. A new section is added to chapter 36.70A RCW to read as follows:

(1) The transportation element required by RCW 36.70A.070 may include, in addition to improvements or strategies to accommodate the impacts of development authorized under RCW 36.70A.070(6)(b), multimodal transportation improvements or strategies that are made concurrent with the development. These transportation improvements or strategies may include, but are not limited to, measures implementing or evaluating:

(a) Multiple modes of transportation with peak and nonpeak hour capacity performance standards for locally owned transportation facilities; and

(b) Modal performance standards meeting the peak and nonpeak hour capacity performance standards.

(2) Nothing in this section or RCW 36.70A.070(6)(b) shall be construed as prohibiting a county or city planning under RCW 36.70A.040 from exercising existing authority to develop multimodal improvements or strategies to satisfy the concurrency requirements of this chapter.

(3) Nothing in this section is intended to affect or otherwise modify the authority of jurisdictions planning under RCW 36.70A.040.

Sec. 2. RCW 47.80.030 and 1998 c 171 s 9 are each amended to read as follows:

(1) Each regional transportation planning organization shall develop in cooperation with the department of transportation, providers of public transportation and high capacity transportation, ports, and local governments within the region, adopt, and periodically update a regional transportation plan that:

(a) Is based on a least cost planning methodology that identifies the most cost-effective facilities, services, and programs;

(b) Identifies existing or planned transportation facilities, services, and programs, including but not limited to major roadways including state highways and regional arterials, transit and nonmotorized services and facilities, multimodal and intermodal facilities, marine ports and airports, railroads, and noncapital programs including transportation demand management that should function as an integrated regional transportation system, giving emphasis to those facilities, services, and programs that exhibit one or more of the following characteristics:

(i) Crosses member county lines;

- (ii) Is or will be used by a significant number of people who live or work outside the county in which the facility, service, or project is located;
 - (iii) Significant impacts are expected to be felt in more than one county;
 - (iv) Potentially adverse impacts of the facility, service, program, or project can be better avoided or mitigated through adherence to regional policies;
 - (v) Transportation needs addressed by a project have been identified by the regional transportation planning process and the remedy is deemed to have regional significance; and
 - (vi) Provides for system continuity;
- (c) Establishes level of service standards for state highways and state ferry routes, with the exception of transportation facilities of statewide significance as defined in RCW 47.06.140. These regionally established level of service standards for state highways and state ferries shall be developed jointly with the department of transportation, to encourage consistency across jurisdictions. In establishing level of service standards for state highways and state ferries, consideration shall be given for the necessary balance between providing for the free interjurisdictional movement of people and goods and the needs of local commuters using state facilities;
- (d) Includes a financial plan demonstrating how the regional transportation plan can be implemented, indicating resources from public and private sources that are reasonably expected to be made available to carry out the plan, and recommending any innovative financing techniques to finance needed facilities, services, and programs;
- (e) Assesses regional development patterns, capital investment and other measures necessary to:
- (i) Ensure the preservation of the existing regional transportation system, including requirements for operational improvements, resurfacing, restoration, and rehabilitation of existing and future major roadways, as well as operations, maintenance, modernization, and rehabilitation of existing and future transit, railroad systems and corridors, and nonmotorized facilities; and
 - (ii) Make the most efficient use of existing transportation facilities to relieve vehicular congestion and maximize the mobility of people and goods;
- (f) Sets forth a proposed regional transportation approach, including capital investments, service improvements, programs, and transportation demand management measures to guide the development of the integrated, multimodal regional transportation system. For regional growth centers, the approach must address transportation concurrency strategies required under RCW 36.70A.070 and include a measurement of vehicle level of service for off-peak periods and total multimodal capacity for peak periods; and
- (g) Where appropriate, sets forth the relationship of high capacity transportation providers and other public transit providers with regard to responsibility for, and the coordination between, services and facilities.
- (2) The organization shall review the regional transportation plan biennially for currency and forward the adopted plan along with documentation of the biennial review to the state department of transportation.
- (3) All transportation projects, programs, and transportation demand management measures within the region that have an impact upon regional facilities or services must be consistent with the plan and with the adopted regional growth and transportation strategies.

NEW SECTION. Sec. 3. (1)(a) The department of transportation shall administer a study to examine multimodal transportation improvements and strategies to comply with the concurrency requirements of RCW 36.70A.070(6), subject to the availability of amounts appropriated for this specific purpose. The study shall be completed by one or more regional transportation planning organizations established under chapter 47.80 RCW electing to participate in the study.

(b) The department of community, trade, and economic development shall provide technical assistance with the study to the department of transportation and participating regional transportation planning organizations.

(2) The department of transportation shall, in consultation with members from each of the two largest caucuses of the senate, appointed by the president of the senate, and members from each of the two largest caucuses of the house of representatives, appointed by the speaker of the house of representatives, approve the scope of the study established by this section.

(3) The study shall, at a minimum, include:

(a) An assessment and comprehensive summary of studies or reports examining concurrency requirements and practices in Washington;

(b) An examination of existing or proposed multimodal transportation improvements or strategies employed by a city in a county with a population of one million or more residents;

(c) An examination of transit services and how these services promote multimodal transportation improvements or strategies for jurisdictions planning under RCW 36.70A.070(6)(b);

(d) Recommendations for statutory and administrative rule changes that will further the promotion of effective multimodal transportation improvements and strategies that are consistent with the provisions of RCW 36.70A.070 and 36.70A.020(3);

(e) Recommendations for improving the coordination of concurrency practices in jurisdictions subject to RCW 36.70A.215;

(f) Recommendations on a methodology that jurisdictions may use to evaluate the effectiveness of multimodal concurrency strategies in jurisdictions subject to the provisions of RCW 36.70A.070 and 36.70A.020(3);

(g) An identification of effective multimodal transportation improvements and strategies employed by jurisdictions subject to RCW 36.70A.215;

(h) Recommendations for model multimodal transportation improvements and strategies that may be employed by counties and cities; and

(i) An examination of multimodal infrastructure needs, such as bus pull outs and pedestrian crosswalks and overpasses, and how these needs can be better identified in the plans required by RCW 36.70A.070(6).

(4) The department of transportation shall, in coordination with participating regional transportation planning organizations completing the study established by this section, submit a report of findings and recommendations to the appropriate committees of the legislature by December 31, 2006."

On page 1, line 1 of the title, after "strategies;" strike the remainder of the title and insert "amending RCW 47.80.030; adding a new section to chapter 36.70A RCW; and creating a new section."

and the same is herewith transmitted.

POINT OF PERSONAL PRIVILEGE

Representative Haigh: "Thank you, Mr. Speaker. We would like to honor today Mary Ann Sigman. Mary Ann first worked in the Legislature in the 1971-72 session as a hostess and an elevator operator which many of you might remember was the exactly the same the great senator, Sid Snyder started. In 1972, she became a bill clerk on a permanent basis and her jobs since then have included being a waitress, a bus driver and then she lit on the job of being the House Bill Room Supervisor in which she has done a magnificent job. At some point, the House and Senate Bill Rooms came together and began the Legislative Information Center. Mary Ann was named the Staff Director and has done a marvelous job for us. I rise today because I have a special connection with Mary Ann – I have been her veterinarian for many years and I have to tell you just a little veterinary story. The first time I met Mary Ann, she had called me on the phone – it was a pretty panicky Sunday afternoon – to say her horse had just about drowned in the Skokomish River. I asked if it was alright and she replied that it wasn't do very well. I asked if she was sure he really drowned. Well, she said, it was rolling over like an alligator and there were bubbles coming from his nose like he was drowning. So as I drove out there, I had to say I'd never treated a horse that had drowned before but we did save the horse and she and her husband have been wonderful to work for all these years. I have so appreciated her service to us in the Legislature. So, Mary Ann will be retiring and leaving this area. They will be moving to Hawaii. Mary Ann, as a veterinarian I am going to miss you. As a legislator, it is has been honor to serve you in the 35th District, and most of all I want to thank you for all the work and effort you have given to the Legislature. To you and John both, the best of luck."
