And that the number of the rules following these be changed to correspond.

the session of 1915, said manuals to be published on a page $5\frac{1}{2} \times 2\frac{3}{4}$ inches, printed in 13 ems pica nonpariel solid, with head notes only; and that said secretary and chief clerk be authorized and instructed to cause a sufficient number of said manuals to be bound in limp leather to supply all members of the Senate and House of Representatives and the assistant clerks of said houses; the remainder of the total edition of six hundred copies to be in paper binding.

The motion of Senator French to amend the resolution carried.

The secretary read the following communication:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., January 12, 1915.

To the Honorable, the President of the Senate, Olympia, Washington.

SIR: I have the honor to advise you that the governor has this day signed the following:

Senate bill No. 1, being "An act appropriating the sum of ninety thousand dollars, or so much thereof as may be necessary, for the expenses of the fourteenth legislature."

Senate bill No. 2, being "An act appropriating the sum of fifteen thousand dollars, or so much thereof as may be necessary, for the printing of the fourteenth legislature." Respectfully,

IRVIN W. ZIEGAUS,

Secretary to the Governor.

MESSAGE FROM THE SECRETARY OF STATE.

OLYMPIA, WASH., January 12, 1915.

To the President of the Senate, Olympia, Wash.

SIR: I have the honor to submit herewith certified copy of a communication from his excellency, the governor, dated March 24, 1913, wherein he transmitted to this department substitute House bill No. 620 with his approval in which he called attention to section 17 providing for the method of payment by assessment plan.

He referred to an error in figuring out percentage for the different years enumerated in the bill, which provides 95% when it should provide 100% and suggests that the correction be made at this session of the legislature. Very respectfully, I. M. HOWELL, *Secretary of State*.

The communication from the secretary of state was referred to the Committee on Public Revenue and Taxation.

The secretary read the following communications:

UNITED STATES OF AMERICA,
THE STATE OF WASHINGTON,
DEPARTMENT OF STATE.

To All to Whom These Presents Shall Come:

I, I. M. Howell, Secretary of State of the State of Washington and custodian of the seal of said state, do hereby certify that I have carefully compared the annexed copy of the letter of Governor Ernest Lister attached to chapter 176, Laws of 1913, calling attention to discrepancy in section 17 of said act, as to basis of percentage, with the original copy of said letter, attached to the original enrolled bill now on file in this office, and find the same to be a full, true and correct copy of said original, and of the whole thereof, together with all official endorsements thereon.

In Testimony Whereof, I have hereunto set my hand and affixed the seal of the State of Washington. Done at the Capitol, at Olympia, this 11th day of January, A. D. 1915.

[SEAL]

I. M. HOWELL, *Secretary of State*.By J. GRANT HINKLE, *Assistant Secretary of State*.

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, WASH., March 24, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

DEAR SIR: I herewith transmit to you substitute House bill No. 620 with my approval. This is an act entitled:

"An act relating to the establishment of drainage improvement districts, providing for the construction, maintenance, extension and protection of drainage systems, the method of apportioning, assessing and collecting funds and paying for the construction and maintenance thereof, repealing chapter LXVI of the Laws of 1901 saving in certain particulars, providing the method of bringing certain existing districts

and ditches under the provisions of this act, declaring the legislative intent as to the effect of adjudications providing penalties for the violation thereof, and declaring that this is necessary for the immediate preservation of the public health and shall take effect immediately."

I find that in section No. 17 in providing for the method of payment by the assessment plan it provides that the installments shall be as follows:

For the 1st year.....	5%
For the 2nd year.....	5%
For the 3rd year.....	5%
For the 4th year.....	10%
For the 5th year.....	10%
For the 6th year.....	10%
For the 7th year.....	10%
For the 8th year.....	10%
For the 9th year.....	15%
For the 10th year.....	15%

In figuring up this list of installments I find that it provides for payment of only 95% instead of the total amount of the assessment. In figuring out the percentage for the different years there has been confusion in arriving at the amount. At the next session of the legislature this section ought to be amended so as to cover the entire 100%. I do not know just what action can or will be taken in the matter of making these assessments during the coming two years but presume that it can probably be arranged so that a legal assessment can be made for the full amount.

This error in section 17 is called to your attention at this time so that the matter of amending the section two years hence will not be overlooked. Respectfully submitted. ERNEST LISTER, *Governor*.

WASHINGTON STATE LIBRARY,
J. M. HITT, Librarian.

OLYMPIA, WASH., January 11, 1915.

To the Secretary of the Senate:

As in the past sessions may this library have fifteen sets of each bill and document printed by the Senate for distribution among the various legislative reference departments at the state libraries who have asked for them, and who have agreed to send us theirs in exchange?

These bills have become of very great value to other states, as theirs might be to us. We have their bills on file regularly.

Very respectfully yours,

J. M. HITT, *State Librarian*.

The request of the state librarian, J. M. Hitt, for fifteen sets of each bill and document, on motion of Senator Davis (W. S.), was granted.

Walter W. Gilkey and Arthur Test were sworn in by the president.

On motion of Senator Iverson, the Senate repaired to the House to meet the House in joint session to receive the governor's message.

JOINT SESSION.

The sergeant-at-arms of the House announced the arrival of the Senate, and the senators were by the speaker invited to seats within the bar of the House and the president of the Senate to a seat at the speaker's desk.

At the speaker's request, the president of the Senate presided.

A call of the Senate roll showed all members present.

The House roll call showed all members present, except Messrs. Hoff and Rotch, Mr. Rotch being excused.

The president announced that the joint session was held for the purpose of hearing the message of Governor Lister, and appointed Senators McMillan and White, and Messrs. Hubbell, Eckhart and Moll a committee to wait upon the governor and inform him that the joint session awaited his pleasure.

Governor Ernest Lister appeared before the joint session and addressed the joint session as follows:

Gentlemen of the Senate and House of Representatives:

The constitution of the State of Washington provides that the governor: "shall communicate at every session by message to the legislature the condition of the affairs of the state, and recommend such measures as he shall deem expedient for their action." Complying with this provision of the constitution, I have the honor now to submit to you, the members of the fourteenth legislature, a partial history of the condition of the state's affairs at the present time and also to present my views covering needed legislation.

I also had on hand on December 31st, 1914, a balance of \$2,614.50 in two of the military funds of the state, which are handled by this department.

On January 15, 1913, the day I assumed office, there was an overdraft of \$450,555.24 in the general fund. On March 14th of the same year, the day following the adjournment of the thirteenth legislature, the overdraft had reached the sum of \$719,837.51 and at the close of business on December 31st, 1913, it amounted to \$726,647.43. At the close of business on December 31st, 1914, there was a balance of \$400,016.37 in the general fund. These figures show that on January 1st, 1915, the fund was larger by \$850,571.61 than on January 15th, 1913, the day I became governor.

In recent years there has been an alarming increase in the cost of government. The state, counties, municipalities and in fact almost every taxing district in the state, have each year increased the amount

called for from the taxpayers until the time has now arrived when further increase cannot but result in placing upon them a burden far beyond their ability to pay.

To meet the demands, property valuations in many instances have been fixed far above the revenue producing value of the property and taxing officers have been compelled to levy taxes to the fullest limit allowed by law. Even this has not resulted in producing sufficient revenue. The records show that bonds have been issued for county, municipal, school and other purposes amounting to over \$100,000,000.00, the interest charge on which is not less than \$5,000,000.00 per annum.

The time has arrived when more is required than the mere statement that expenditures will not be further increased. A plan of retrenchment must be decided upon; nor will the problem be solved by the issuance of further blocks of bonds so the taxes may be reduced and the burden placed upon those who may follow. Already we are paying annually in interest charges an amount so large that the likelihood of ability to pay off the bonds when they become due is indeed remote.

While much can be done by your honorable body by holding down state appropriations, yet the state expends but a small proportion of the total raised by taxation. Retrenchment must reach to every county, city and hamlet—to every taxing district in the state.

CONSTITUTIONAL CONVENTION.

It might, on first thought, appear that the legislature by enacting into law certain measures, could bring about the reduction so greatly needed and desired by all. To some degree results could be obtained by such action upon your part. The tendency in recent years has been to steadily increase the number of offices. It would be a difficult task for a legislative body to reduce the number to any great degree. It is equally true that we have certain elective offices that could well be abolished without in any way impairing the efficiency of the management of public affairs, regarding many of which, as a result of being provided for in the constitution of the state, action on your part would be impossible. While today the supreme court of the state is overcrowded with work and this is also true of some of the superior courts of the state, it is equally true that in many of the superior court districts there is not a sufficient amount of court work to occupy the time of the judge or judges in those districts. I believe a re-arrangement of the superior court districts of the state could be made and that the services of not less than ten judges could be dispensed with and not in any way impair the efficiency of that judicial department. The salary of a superior court judge is \$3,000.00 per year. It is fair to presume that the other expenses incident to the court, such as bailiff's salaries, etc., amount to as much as the salary of the judge. Figuring on this basis \$60,000.00 per year could be saved in this one instance. I am sure that all agree that there is little probability of a legislature passing a bill that would reduce the number of superior court judges in

the state to this extent. I also believe that many of the county offices could be abolished.

A great many people believe in the commission form of government for state and counties. Personally, I do not believe that a form of state government should be adopted that would place in the hands of the same officials legislative and administrative powers. I do believe, however, that better results would be obtained if we had one legislative body in the state consisting of say not to exceed twenty-five members, five elected from each congressional district which could be fixed as legislative districts and by fixing the time of each regular session of the legislature at ninety instead of sixty days. I believe all will agree that a bill providing for this radical change, or for any reduction in the number of members in the legislature, could not be passed at this or any other session of the legislature. There is also great need for a constitutional amendment in relation to revenue and taxation, and without doubt, other constitutional amendments will be suggested during the present session of the legislature.

The constitution of the state, in that section relating to constitutional conventions, reads as follows:

"Whenever two-thirds of the members elected to each branch of the legislature shall deem it necessary to call a convention to revise or amend this constitution, they shall recommend to the electors to vote at the next general election for or against a convention; and if a majority of all of the electors voting at said election shall have voted for a convention, the legislature shall at the next session provide by law for calling the same; and such convention shall consist of a number of members, not less than that of the most numerous branch of the legislature."

It further provides that:

"Any constitution adopted by such convention shall have no validity until it has been submitted to and adopted by the people."

I believe the only method by which we can secure the radical changes necessary to bring about a marked reduction in public expenditures, and a simplification of the governmental machinery, will be by providing for a constitutional convention and would earnestly urge and recommend that your honorable body do that which is necessary on your part to bring this about.

In referring to this recommendation I have touched on but few of the matters that would enter into the work of a constitutional convention. The lines in which such a convention could assist in solving the problem before us are so numerous that it is possible to direct your attention to but few of them at this time.

Some may insist that the calling of a constitutional convention provides a method much too slow to secure the results needed. It is true that a new constitution probably could not be adopted before the general election held in 1918. The time which would be required to bring this about is no argument against the calling of a constitutional

convention. It must be done before we can secure the relief needed and the sooner action is taken providing for it, that much more quickly will the relief come.

DIRECT ELECTION OF UNITED STATES SENATORS.

Since the meeting of the thirteenth legislature, the method of election of United States senators has been changed as a result of the ratification by two-thirds of the states, of an amendment to the constitution of the United States providing for their election by direct vote of the people. The first United States senator to be elected by a direct vote in our state was chosen at the last general election. For a time it appeared that it would be necessary to call the legislature of the state together in special session for the purpose of providing by law the machinery necessary to comply with the amendment to the constitution. After several months delay, a bill introduced in Congress by one of the members of the delegation from this state, was passed and approved by the president which made it possible to avoid calling the special session. I desire to call your attention to the necessity of legislative action to provide for the nomination and election of United States senators at future elections.

PREFERENTIAL PRESIDENTIAL PRIMARY.

For some years prior to the adoption of the amendment to the constitution of the United States, providing for the election of United States senators by direct vote of the people, the voters of our state were allowed to give expression to their choice for United States senator, under the provisions of our primary law. I believe the great majority of voters now desire to be allowed to express their choice of candidates for president, and I would respectfully recommend the enactment of a preferential presidential primary law.

NON-PARTISANSHIP.

The element of partisanship has been almost entirely eliminated in the selection of city officers in the different cities of the state. Past elections also clearly indicate that, although candidates for county offices are placed before the voters on a ballot under party designations, it has not been customary to follow party lines closely, and in but few counties do we find the officials to be all of the same political faith. In our state elections we have also seen evidences of party lines being broken. The non-partisanship sentiment is growing rapidly, and I believe it is the duty of the present legislature to pass a non-partisan election law covering all county and city offices.

ELECTION LAWS.

While referring to the election laws of the state, I desire to say that I have been unable to see a sufficient amount of merit in the second choice provision of the primary election law to overcome the difficulties it places before the voters in casting their ballots. Any change in our election laws ought to be made along lines that will make it easier for

the voter to understand and cast his or her ballot; some of the changes made in recent years have resulted in making it more difficult.

Having publicly expressed my views on this subject on a number of occasions, it is probably not necessary for me to state to your honorable body that I am opposed to any amendment to the law that will compel voters to indicate their party preference at the time of registering. Such a provision does not adapt itself to my views regarding non-partisanship.

Should your honorable body not look with favor upon my recommendation for a constitutional convention, under the provisions of article 2, section 3 of the state constitution, it becomes your duty to "apportion and district anew the members of the Senate and House of Representatives according to the number of inhabitants." Two sessions of the legislature have met since the enumeration by the Federal government in 1910 and have failed to comply with the provisions of the constitution.

The demand for a short ballot is entitled to your consideration. This cannot be brought about without materially reducing the number of elective officers. The list of county officers to be voted upon each two years is so large that but few of the voters can inform themselves upon the qualifications of most of those whose names are presented for their consideration and vote. The tendency in relation to public offices has been to increase rather than decrease the number. Two years ago a bill was passed abolishing the office of county coroner in all excepting counties of the first class. Those of you who were members of the legislature at that time well remember the difficulties encountered and the objections made before it finally came to a vote. The experience in connection with that bill gives but slight hope for much to be accomplished by the legislature in reducing the number of elective officers. Personally, I feel that but little along this line can be done except through a constitutional convention.

INITIATIVE LAWS.

At the last general election two laws were enacted by the vote of the people, one known as "An act to prohibit the collection of remuneration or fees from workers for the securing of employment or furnishing information leading thereto, and providing a penalty for violation thereof," and the other as "An act prohibiting the manufacture, sale and other disposition of intoxicating liquors, except in certain cases; regulating the keeping, use and transportation of the same; providing for the enforcement of this act; and fixing punishments and penalties for the violation thereof." The employment agency act became effective December 5th, 1914, while the provisions of the prohibition law state that it shall "be in full force and effect from and after the first day of January, 1916."

The passage and adoption of the prohibition law brings about a radical departure from existing conditions. It is probable that, in some directions, there may be a disposition shown to violate its provisions.

While it is the duty of the prosecuting attorneys of the different counties to bring action against law violators, this act is of such a character that I feel that the officials of the state ought to lend their aid in its enforcement and would respectfully recommend that a special appropriation of \$50,000.00 be made by your honorable body, to be used under the direction of the governor and attorney general of the state in securing evidence and prosecuting violators of the law. If the money is not required it will not be expended.

EDUCATIONAL INSTITUTIONS.

Two years ago I strongly urged that no appropriation be made for re-building the Cheney Normal School, destroyed by fire sometime before the meeting of that session of the legislature. The legislature decided adversely to the recommendation, I vetoed the appropriation made and it was carried over my veto. While I still hold the views expressed at that time, after being overruled by a two-thirds vote of the membership of the legislature in favor of reconstruction, every effort has been made to carry out the instructions and today there is nearing completion a fireproof building at Cheney, that will, in my opinion, when completed, be the best arranged normal school building in the northwest.

My reason for opposing the reconstruction of the Cheney Normal School was that I believed the two normal schools yet remaining in the state, one at Ellensburg and the other at Bellingham, might be increased in efficiency and that better results could be obtained by following this course than to have three such institutions and furnish to none of them sufficient money to develop the highest degree of efficiency. I have also felt that in educating teachers for our public school work some plan could be devised whereby a normal department might be attached to the high schools in the larger communities of the state and there the preliminary education given, so that our state normal schools could be made finishing schools. One of the difficulties encountered in our normal schools is oftentimes the securing of a sufficient number of pupils in the training classes. This would be obviated should this line of work be taken up in the high schools. I believe this is a plan that will be adopted in the future.

Another reason for suggesting the elimination of the normal school at Cheney was the desire, if possible, to reduce, or at least hold down, the ever increasing burden of taxation.

We are again faced with a condition calling for larger appropriations at some of the educational institutions than can be raised under the millage tax adopted for these institutions four years ago. The requests of the State University show that the tax for that institution will not raise sufficient money to cover maintenance costs outlined for the coming two years. In addition there appears to be urgent need for new buildings and \$300,000.00 is requested for the construction of two buildings, one for use as a recitation building and the other for home economics.

All agree that it is unwise to further increase the amount raised by general taxation if it can possibly be avoided and methods have been suggested to obviate this. One is that the real estate in the city of Seattle owned by the State University, now under lease to the Metropolitan Building Company, which will expire in 1954, and upon which a number of valuable buildings have been constructed by the company, be bonded; \$625,000.00 is the amount suggested and it is further suggested that the bonds be issued as required for building purposes. The objection to this plan comes from those who believe in endeavoring to keep from issuing state bonds of any character. I am inclined to this view and yet realize that there may be instances where it might be found advisable to depart from a hard and fast rule in this respect. Others favor a fixed annual tuition charge for all students, in addition to the special charges now made in some of the departments, the revenue from this source to be used only for the construction of new buildings. \$10.00, \$25.00 and in some instances \$50.00 per annum has been suggested as a proper tuition fee. Figuring upon an attendance of 3,000 students—at the present time the attendance is 2,900—a fund of \$75,000.00 per annum would be raised by this method if a charge of \$25.00 should be made. Some of the state universities follow this plan, the tendency of most of them, however, being to make a small charge, or none at all, as a general tuition fee, and to make a tuition fee for special courses, such as law and medicine, from \$25.00 to as high as \$200.00 per annum. The charge for non-residents ought to be larger than for persons residing in our own state.

I believe a tuition fee plan could be figured out from which could be raised from \$75,000.00 to \$100,000.00 per annum and yet the charge to each student would be so small that there would be no objection to its adoption. As the need for new buildings at the present time appears to be urgent, could not the amount actually needed now be advanced from the general fund and provisions made to have all receipts of the tuition fund created for this purpose, paid over to the general fund until such time as the amount advanced from the general fund is repaid? If a general tuition fee is to be charged legislative action will be necessary.

These are but suggestions covering one of the large problems before your honorable body and are made with the hope that some plan may be devised that will render it unnecessary to call upon the taxpayers of the state for appropriations in addition to the amount now raised by the special educational levy.

The State College located at Pullman, the Ellensburg Normal School and the Cheney Normal School are calling only for appropriations which can be paid from the fixed levy. The Bellingham Normal School makes a request for new buildings and improvements, the cost of which will have to be met by appropriations additional to the fixed levy for the institution, if it is decided by the legislature to approve the recommendations.

There is a feeling existing that the cost of maintenance for the State University and State College is higher than it ought to be, as a result of duplication of courses in these institutions. On the part of some the feeling exists that the State College is responsible for this condition while others place the responsibility on the State University. I believe an investigation will show that there is a duplication of lines of study and also that each institution has had nearly an equal part in bringing it about. It is also highly probable that as a result of it, the state is called upon for more funds than would be necessary were the duplication eliminated. The locations of the institutions, one at the extreme eastern border of the state, and the other at almost the extreme western border of the state, about four hundred miles apart, has played a part in the duplication of courses.

While we have three normal schools in the state, a large amount of instruction work is carried on at the State University in preparing students so that they may become teachers in our public schools. This is also true of the State College. Thus we find the State University and State College, to some degree, duplicating the work of the normal schools.

I am sure the solution of a problem so complex cannot be solved by the boards of regents and trustees nor by the presidents and principals in charge of the institutions. I also feel that the time has arrived when an investigation ought to be made and a plan worked out for the purpose of making it possible to avoid this condition to the fullest degree. During the past fifteen months, I have given study to the situation and as a result believe it to be advisable for the legislature to authorize the employment of one or, if deemed necessary, two educators well informed in this line, to make a complete survey of the educational institutions of the state and to report their findings; also to make recommendations covering the courses of study for each of the state's educational institutions. The person or persons selected for this work ought to be from outside the state, so that we would avoid all possibility of employing a person whose inclinations might lean too strongly in the direction of some one institution.

Some time would be required to work out the problem if this plan is adopted. I believe, however, it is the only way by which a satisfactory and permanent solution can be found.

The plan of having one board of regents or trustees in charge of all of the educational institutions of the state has been advanced as a proper method of bringing about satisfactory conditions. There are some elements in its favor and for a time it appealed to me strongly. Careful investigation shows, however, that a large amount of the time of members of such a board would be required, were they to give the time necessary to thoroughly inform themselves regarding all the institutions placed in their charge; in fact, more time than I feel the state has a right to expect from non-salaried members of a board. Some persons who realize this have suggested enacting into law a bill pro-

viding for a salaried board of three members who would be required to give their entire time to the work. I am inclined to the belief that it might be difficult to secure the services of persons well qualified for such work on a salary basis. If a complete educational survey of the state and its institutions is provided for by your honorable body, I believe, as a result of the recommendations made, it will be possible to fix courses of study for each of the educational institutions, which will be permanent. If this is done, with the present system of non-salaried boards, it will be possible to bring about and maintain better conditions than could be done under the plan of one board for all of the institutions, be its membership either salaried or non-salaried.

I strongly recommend that the legislature authorize the employment of one or two persons to make this survey and also that the boards of regents and trustees of the several educational institutions be directed to put into effect, within a reasonable time after the report is received, the recommendations made.

STATE BOARD OF CONTROL.

By passage, at the last session of the legislature, of the act establishing a State School for Girls, there has been added to the duties of the state board of control the supervision of one more institution, making the number now in its charge eleven. These are the three Hospitals for the Insane, two Soldiers' Homes, Institution for Feeble Minded, School for Deaf, School for Blind, State Penitentiary, Training School for Boys and State School for Girls.

Under the law establishing the State Reformatory, that institution was placed under a separate board designated as the board of reformatory managers. Its duties are so nearly the same as those of the state board of control in its management of some of the institutions under its charge, that I have felt that no good reason existed for a separate board to manage the reformatory, and recommended two years ago that the reformatory be placed in charge of the board of control. One of the members of the board of reformatory managers was a member of the state Senate and largely through his efforts the recommendation was not adopted.

The reformatory board consists of five members. Shortly after the close of the last session of the legislature, I appointed as members of this board, the three members of the board of control and Honorable H. R. King of Seattle, and Honorable F. F. Swale of Everett. The work of the board has been satisfactory; I believe, however, that the State Reformatory ought to be managed under the general law relating to public institutions and respectfully renew my recommendation made two years ago that the law creating the separate board be repealed and the institution placed under the state board of control.

Regarding the State Reformatory, investigation indicates that from the beginning it has been planned on a large scale, a scale that, without doubt, will place it in the fore-rank of institutions of this character in the United States when completed. Lest there may be a feeling

that the appropriations for buildings and improvements made at preceding sessions of the legislature have been sufficient to construct a complete institution under the plans outlined for at least the number of inmates now confined, investigation shows that there is much yet to be done to bring this about. Up to the present time the inmates' sleeping quarters have been in what is known as the shop and school building. The cell wing is now nearing completion and it is the hope of the management that the inmates can be transferred to the new building within the next thirty days. The labor of the prisoners was used to as great a degree as possible in building the cell wing and about three years' time has been required in its construction. The cell wing just completed has a capacity of 320 prisoners. On January 1st, there were 400 prisoners in the institution. The time consumed in the construction of the first cell wing would seem to indicate that at least two years will be required for the construction of an additional wing if prison labor be used to the same extent as on the wing just completed. Personally, I feel that at all times this labor ought to be employed to the fullest degree possible on the work connected with the institution, in the construction of new buildings and the making of permanent improvements. It is, therefore, shown that the work on a new cell wing, the cost of which will not be less than \$75,000.00, even by following the plan of employing as many of the prisoners on the work as possible, ought to begin immediately.

The stockade wall is a temporary affair; work on a concrete wall of permanent and lasting character ought to be started as soon as possible. The land owned by the state and on which the reformatory is located can be made very productive. A large amount of money and labor will be required, however, in its clearing and for drainage, before much return will be received from it. Farming is a line which, in my opinion, ought to be followed to as great an extent as possible at this institution. I know of no kind of employment that would be of more benefit to the inmates of the institution, nor of greater value to the state. I hope the appropriations requested for the clearing of land and further development of the farm will be granted by the legislature.

Since the establishment of the reformatory there has been expended \$413,840.00 for buildings and permanent improvements, the principal items entering into this sum being \$179,925.00 for the cell wing (just completed); \$60,569.00 for dining room wing completed in 1911; \$87,091.00 for the administration building, completed in 1911; \$24,594.00 for the superintendent's residence, completed in 1911; \$33,400.00 for heating and lighting plant, including buildings, conduits and tunnels; and for shop buildings and equipment (buildings completed 1914), \$16,431.00.

In my opinion, the expenditure of \$24,594.00 for the superintendent's residence was far in excess of what ought to have been used for that purpose. The cost of upkeep of so large and expensive a residence is a constant burden upon the taxpayers. It is by following such lines

in the expenditure of public funds in innumerable directions that we have been brought to the present condition where all are suffering under the high rate of taxation. Not alone does the first cost enter into it; there is also the continuous cost of upkeep and maintenance to be met year after year as a result of having loaded on the state unnecessarily, an excessive burden. It is the duty of the state to provide a suitable place of residence for the superintendents of penal, reformatory, eleemosynary and charitable institutions. This is done and all of the cost of maintenance, including subsistence, is paid for by the state. As a state, we ought not to construct residences at these institutions on the splendid but unnecessary lines followed at the State Reformatory and then forever after object to paying the cost that must of necessity follow. Nor have we the right, as I view it, to construct such residences and expect those called upon by virtue of their position to occupy them, to pay the cost of upkeep themselves. If such a course should be followed some of the superintendents of our institutions would find themselves called upon to pay out far more for this purpose than the amounts received by them as salaries from the state. It is much better that such buildings be not constructed. Holding this view, shortly after assuming office, I directed the board of control that never, in the future, should more than \$10,000.00 be expended for a superintendent's residence at a public institution in its charge. For this amount a substantial and suitable residence can be constructed at any of the institutions under the control of the board, where, in future such a building may be required.

In order that the problems confronting the board of managers of the reformatory and the board of control may be better understood, I sincerely hope that the report of these boards will be given your careful consideration and also that committees of the legislature will be appointed to visit the institutions.

STATE SCHOOL FOR GIRLS.

Acting under the law providing for the establishment of a State School for Girls, I appointed Miss Janet Moore of Olympia, Mrs. Herbert T. Granger of Seattle, Mrs. Clarence Parker of Tacoma, and Mr. J. W. Shaw of Vancouver to act with the board of control in selecting a site for the institution. The site chosen is located near Grand Mound in Thurston county and about five miles from Centralia. Buildings have been constructed and on December 23d, the girls were transferred from the Training School at Chehalis to the new institution. A complete statement covering the work of the board and the special commission in connection with the establishment of this institution will be found in the printed report of the board of control, also the recommendations made covering appropriations for additional buildings required. I desire at this time to express publicly my appreciation of the interest taken and the good results accomplished by the members of the special commission whose names I have heretofore mentioned.

STATE PENITENTIARY.

During the past two years a number of penitentiary convicts have been used on highway construction. The honor camp plan was adopted and in no instance has there been armed guards with any of the prisoners used on this work. While it would appear that such a plan might result in a large number of escapes the records show that, in proportion to the numbers employed, there have been more escapes from the rock quarries where convicts are held under armed guards, than from the highway honor camps. Under the plan adopted which provides for the payment of fifty cents per day to each convict employed and the furnishing of all clothing, lodging and subsistence, the records do not show that there has been more economical construction than could be obtained under the system of awarding contracts for the work; yet it is equally true that, in some instances the convicts were employed on work for which it would probably have been impossible to secure bids from any firm of contractors. For instance, the first work undertaken was on the Olympic Highway, near Hoodspout. Here there was a stretch of uncompleted highway of about four miles upon which no work had been done for some years. The road had never been used for travel, slides had been numerous, and to remove the earth deposited on the roadbed, as a result of these slides, gave to the convicts, on their first introduction to road work, a class of work which all contractors consider about the most expensive that can be found.

Another difficulty entering into the employment of convicts on this class of work is in the securing of suitable men to place in charge of the work, and of convicts. Many men who make successful foremen in charge of road work when done by free men do not appear to secure the best results with convicts. A foreman for this class of work must not only know how to handle work and be competent in that respect but must also know how to get results from this class of labor. It is for these reasons that more convicts have not been employed in highway construction. Personally, I favor the continuance of the plan inaugurated and the increasing of the number employed just as rapidly as can be done and proper results obtained. Without doubt the plan has been of great benefit to the convicts who have been allowed the privilege of the honor camps. If at the present time, the financial advantage to the state does not appear to us to be as great as it ought to be, I feel that this is more than offset in the physical good to the convicts so employed, as a result of the outdoor manual labor provided them, and in the confidence it has given so many of them in their ability to earn an honest living after receiving their final release.

I am strongly of the opinion that lines of employment in addition to that now furnished the convicts at the State Penitentiary ought to be provided. The superintendent of the institution recently attended the annual meeting of the National Prison Congress and on the same trip visited a number of penitentiaries for the purpose of collecting data regarding the industrial lines being followed, and to find to what ex-

tent these were conducted for profit-making. By my direction he is now engaged in preparing a report covering the result of his investigations, and I sincerely hope that from it there may be secured sufficient information to enable the board of control to add additional lines of industrial work, not only at the State Penitentiary, but also at the State Reformatory.

A large amount of work has been accomplished during the past two years in developing the penitentiary farm. I believe that at the present time it is advisable to work along lines of more intensive farming of the land the state owns, rather than to purchase any large amount of additional land. There is a small tract of a few acres immediately in front of the institution which it might possibly be advisable to secure for the purpose of straightening out the lines of the lands owned by the state, and to better control the convicts when employed on the farm, if it can be purchased at a reasonable price. The Department of Agriculture and the force of experts employed at the State College are ready and willing at all times to render all possible assistance to this and the other institutions of the state, to the end that the state-owned farms may become models from which good results may be obtained, and also to which the farmers in the districts in which they are located can look for and secure information and instruction that will be of benefit to them in increasing the productiveness of their own farms.

HOSPITALS FOR INSANE.

The buildings at the Northern Hospital for the Insane, for which appropriations were made at the last session of the legislature, have been completed and 290 patients transferred to that institution from the Western Washington Hospital to relieve the overcrowded condition existing there. On January 1st, 1913, the number of patients at the three Hospitals for the Insane was 2,451. On January 1st of this year the number was 2,849, showing an increase of 398 in two years. The total number of inmates in all of the institutions under the control of the board, also including the State Reformatory, on January 1st, 1913, was 4,886. The total number on January 1st, 1915, was 5,581. These figures indicate the steady increase in the number of those the state is called upon to care for at its institutions. The cost of maintenance alone calls for the appropriation of large sums; add to this the cost of new buildings and we find a general fund expense running into millions of dollars for each biennium and one that is constantly increasing.

In connection with the matter of the rapid increase in the number to be cared for at our state institutions, investigation shows that there are now confined at the Western Washington Hospital for the Insane approximately 450 aliens and at the Eastern Washington Hospital for the Insane about 350 aliens. Practically all of these have resided in the United States more than three years, so that they cannot be deported at the expense of the Federal Immigration Department. I have not secured the figures covering the Northern Hospital for the Insane,

This institution, however, would probably maintain the same relative proportion to the total number confined there.

The Federal Department of Immigration is frequently making deportations from this state and, if it is deemed advisable, arrangements can be made by the state with the department to take charge of the deportation of these inmates. The only cost to the state would be that of transportation and subsistence for the persons deported, while being returned to their native countries.

The transportation and subsistence cost, on first thought, might possibly appear to be too large to entitle the plan suggested to favorable consideration. I am sure, however, that it would result in a material reduction in the cost of maintenance and of buildings at our institutions. The maintenance of 800 patients costs the state approximately \$135,000.00 per annum. In addition to this the buildings in which this number of patients are confined have cost the state not less than \$300,000.00. It is also fair to presume that the average life or confinement of these patients at the hospital will extend over a number of years. Speaking from a humanitarian standpoint, without doubt, a great many of those now confined in our institutions would be greatly benefited by being returned to their former homes. If this plan is adopted, it will be of great financial benefit to the state and will render unnecessary the construction of new buildings at the hospitals until a sufficient number of new patients shall have been received to take the place of those deported.

I earnestly recommend that an appropriation be made at this session of the legislature to be used for this purpose, and I would further recommend that a law be passed making it the duty of the judge committing an insane person to a state institution to ascertain, at the time of the commitment, if such person is an alien, and if so to make a finding to such effect and transmit a copy of the finding with the commitment papers to the superintendent of such institution. This information would enable those in charge of the institution to take prompt action in arranging for the deportation of aliens.

INSTITUTION FOR FEEBLE MINDED.

The new buildings provided for by appropriation made by the legislature two years ago for the Institution for Feeble Minded have been completed. It was decided by the board of control to locate these buildings upon the land purchased a few years ago for the use of this institution. The buildings originally erected were located on land owned by the Eastern Washington Hospital for Insane, this having been considered at that time as a temporary location and the intention being, when a permanent location should be decided upon and new buildings constructed thereon, to turn over to the Eastern Washington Hospital, for its use, the buildings constructed on the lands of that institution. The purchase, for the Institution for Feeble Minded, of land in near proximity to its present buildings appears to have been considered sufficient reason for looking upon Medical Lake as its permanent location.

The board of control now recommends that additional appropriations be made for buildings for this institution and that, upon their completion, the buildings now used in housing inmates of the Feeble Minded Institution, located on the land of the Eastern Washington Hospital, be transferred to the hospital for its use.

The number of feeble minded children in the state is far in excess of the accommodations we now have. The superintendent of the institution estimates the number who now ought properly to be confined there to be about 1,000, while the buildings we have, including those recently completed, will accommodate but about 600. This is a problem that will call for further appropriations at each succeeding session of the legislature until the time shall have arrived when ample provision has been made to care for all such cases in the state.

There have been indications of some criticism regarding the action taken by the board of control in relation to the location of the buildings just completed and it has been stated that a request will probably be made by a member of your honorable body asking that a special committee be appointed to make investigation of the matter. I desire at this time to earnestly request that you appoint such a committee and beg to assure you that I will render to the committee all possible aid in its work.

SCHOOL FOR BLIND AND SCHOOL FOR DEAF.

On account of the extent to which the legislature of two years ago went in the matter of granting appropriations, and feeling that the School for the Blind could get along for two years without the construction of an administration and school building, I vetoed an appropriation of \$75,000.00 made for this purpose. The board of control now recommends an appropriation of \$60,000.00 for an administration and school building. I feel that the recommendation ought to receive your favorable consideration.

An appropriation of \$15,000.00 for remodeling and fireproofing the chapel, dining room and kitchen at the School for the Deaf was also vetoed. The building of which these are a part was the first one constructed after the establishment of the school. In not a single particular is it now suitable for the purpose for which it is used. To insure safety it has been necessary to tear down the tower of the building. To have expended the \$15,000.00 would have been but to add more cost to the building without adding materially to its value, safety or usefulness. I therefore, vetoed the appropriation. The board of control now recommends that \$40,000.00 be appropriated for a new building. I recommend it be granted and hope that in the near future the old building may be torn down.

SOLDIERS' HOMES.

The state maintains two Soldiers' Homes, the first one established being located at Orting and the other at Port Orchard. The colony plan is also maintained at Orting under which it is possible for a number

of the members of that home to reside in the town of Orting with their families and to receive rations and clothing from the home. The State of Washington has been generous toward its old soldiers. The records show that the number cared for by the state in proportion to population is far in excess of most of the states in the Union. I would respectfully urge your careful consideration of the recommendations covering these institutions.

Two years ago the legislature made an appropriation of \$15,000.00 to be used in defraying the expenses of the veterans who took part in the battle of Gettysburg, and who desired and were able to attend the reunion at Gettysburg July 1st, 2d, 3d and 4th, 1913, commemorating the fiftieth anniversary of the battle. The appropriation was made in the special budget bill passed by the legislature and the language covering it read as follows: "For transportation and maintenance of survivors of Union and Confederate soldiers who took part in the battle of Gettysburg and who are bona fide residents of this state to the fiftieth anniversary of said battle, \$15,000.00."

No method being provided for carrying out the directions of the legislature, I called upon the state auditor and state treasurer who, with the governor, constitute the state board of finance, and requested that full charge of the matter be assumed by the board of finance. At the request of the board, I directed the adjutant general of the state to take charge of the examination of the papers of the different applicants who desired to accept the generosity of the state. Upon the conclusion of his investigation it was found there were 170 who were entitled to and desired to make the trip. The fund appropriated was not sufficient to pay the transportation and maintenance of this number, and while the board of finance was endeavoring to decide upon some plan of having each one pay a small part of the cost so that all might make the trip, one of the state's citizens, Mr. Horace C. Henry of Seattle, magnanimously offered to donate the additional amount necessary so that all entitled to take the trip could do so without cost. The amount donated was \$5,348.96.

Proposals were taken from the railroad companies covering the furnishing of a special train and subsistence on the trip to and from Gettysburg. The proposal of the Great Northern Railway Company was considered the best submitted and a contract entered into; \$14,749.10 was paid the railroad company by the state, \$250.90 being used for advance expenses. On account of lack of funds it was impossible to employ a person to accompany the party and take charge for the state, and a committee of three of the veterans, consisting of Mr. E. A. Shores of Seattle, Mr. N. E. Linsley of Spokane and Mr. L. S. Alfred of Tacoma, two Union and one Confederate soldier, were appointed and performed this duty. It proved to be eminently satisfactory.

When the donation was made by Mr. Henry there was no suggestion from him to me that the state should or would refund the money

to him. It has been suggested by some that this ought to be done. Regarding this, I desire to say that I have a letter from Mr. Henry in which he states if this action is taken by the state he will donate one-half to Stevens Post No. 1, G. A. R., Seattle, and the other half to the Anti-Tuberculosis League. He also indicates in the letter that the donation was made by him without thought or desire on his part that it be refunded. I mention this so that the legislature may take such action as it deems proper in relation to repaying the amount so generously donated by Mr. Henry. I feel that the legislature ought, by resolution, to express the state's appreciation to Mr. Henry for the part he took in assisting to make the hearts of so many of the veterans of the Civil War happy, and making possible this trip without cost to them, fifty years after the memorable battle of Gettysburg.

Some years ago a law was enacted giving to the board of control certain duties in connection with the educational institutions of the state. It has never been shown that any real benefit has been derived from it. The board recommends its repeal; those in charge of the educational institutions express themselves as favorable to the repeal of the law. I concur in these recommendations.

Two years ago the establishment of a State Reformatory for Women was advocated before the legislature. Favorable action is again being urged for such a bill at this session. Washington is far in advance of most states in the matter of institutions of this character, and I feel that while without doubt much argument can be advanced in favor of such an institution, the necessity for keeping expenditures down to the lowest possible point at this time is so great, that it would be inadvisable to enact into law a bill providing for a Woman's Reformatory at this time.

TAX COMMISSION.

Two years ago, in my message to the thirteenth legislature, I recommended the abolishment of the tax commission. No action was taken by the legislature upon the recommendation. During the two years just passed, I have given additional study to the question and am still of the opinion that the commission ought to be abolished and that a tax commissioner be provided for, to take charge of the work now done by the commission.

The abolishment of the tax commission would make necessary a change in the state board of equalization, the state auditor, the commissioner of public lands and three members of the tax commission now constituting that board. I would therefore recommend that the state auditor, the commissioner of public lands and the tax commissioner be made members and that the other two members be the governor and one member of the public service commission, to be designated by the governor. My reason for suggesting one of the members of the public service commission for this position is that the duties of the public service commission are such that, of necessity, its members must be well informed on valuation of public service properties.

The board of state land commissioners now consists of the commissioner of public lands, who acts as chairman of the board, the state fire warden and the three members of the tax commission. Under the plan of having a tax commissioner to take the place of the tax commission of three members, the land board might consist of three in place of five members, to be the commissioner of public lands, the fire warden and the tax commissioner.

I feel that the present tax commission has rendered efficient service to the state and would respectfully direct your attention to its report. I do, however, believe that its duties can be performed by one commissioner and for this reason recommend its abolishment. Bills have been prepared covering this recommendation and will be presented to your honorable body for your consideration.

INDUSTRIAL INSURANCE COMMISSION.

Over three years have elapsed since the state industrial insurance law became operative. In this time it has proven to be a most desirable piece of legislation and I believe today its provisions meet the approval of employer and employe to a greater degree than ever before. The report of the commission covers its operations in a detailed manner and was mailed to the members of your honorable body some weeks ago, so that it might receive your consideration before the active work of the session had to be taken up.

The principal matter relating to this department coming before your honorable body for consideration is that of "First Aid or Medical Attendance." There was before the voters of the state, for their consideration and action at the last general election a bill covering these provisions. It failed to receive a majority of the votes cast. Prior to election, I stated that in case of the defeat of the bill, I would appoint a commission whose duty it would be to draft a "First Aid or Medical Attendance" bill and submit it to the legislature for consideration. A commission consisting of three representatives of labor, three representative employers and the three members of the Industrial Insurance Commission was appointed by me, its membership being Mr. J. W. Clark of Aberdeen, Mr. Lee Bullock of Roslyn, Rev. M. H. Marvin of Sunnyside, Mr. J. P. McGoldrick of Spokane, Mr. William Pigott of Seattle, Honorable Alex Polson of Hoquiam and the three members of the Industrial Insurance Commission. The commission met and organized in Olympia on December 10th, electing William Pigott as chairman and Lee Bullock as secretary. Numerous sessions were held and on December 31st, a bill having the unanimous approval of the commission was agreed upon.

I consider its passage of vital importance to the further successful operation of the Industrial Insurance Department and earnestly recommend it to you for your favorable action.

This commission has done a work of great value to the state. The representatives of the employes and the employers accepted positions on the commission without any indication on my part that they would

receive recompense for their time and expenses. I feel, however, that they are entitled to some remuneration and would recommend that the sum of \$750.00 be appropriated, to be used in payment for their time and to cover expenses incurred in connection with the investigation held and in the consideration and preparation of the bill.

DEPARTMENT OF LABOR.

You have before you the report of the state labor commissioner. Much has been accomplished in the past two years by this department, all of which is fully covered in the printed report and to which your attention is respectfully called. Some months ago a campaign was started by the labor commissioner looking to the reduction of the number of accidents in mills and factories. The manufacturers and employes have given their aid, in the fullest degree, to the plan, and statistics already show a reduction in the number of accidents. Beginning on page 357 of the printed report a history of this movement is given. In its introduction the commissioner has had the active support of the Industrial Insurance Commission.

A recommendation is made that the factory inspectors be given an increase in wages from the present rate of \$4.00 per day to \$5.00 per day. The force is an efficient one and I feel that the services performed warrant the payment of the additional amount recommended.

A number of recommendations of amendments to the present labor laws of the state are made by the commissioner and will be presented to the legislature in the form of bills. A bill will also be submitted for your consideration relating to employment bureaus, made necessary by the passage of the initiative bill abolishing private employment agencies. I respectfully request your favorable consideration of these measures.

INDUSTRIAL WELFARE COMMISSION.

Two years ago the legislature enacted into law a bill creating the Industrial Welfare Commission, one of its chief duties being to fix a minimum rate of wages for women in their several lines of employment. The commission was appointed and, I believe, has accomplished much which will be of benefit to those so employed. In passing judgment upon the problems coming before it, I believe its members have endeavored to follow carefully the provisions of the law and to act in a spirit of fairness to all affected. A partial report of its work can be found in the printed report of the Bureau of Labor Statistics and Factory Inspection beginning on page 209. The complete report is now in the hands of the printer and will be delivered to you within the next few days.

An appropriation of \$5,000.00 per annum was made to carry out the provisions of the law. It is now recommended that instead of being made to cover a fixed amount for each year the new appropriation be made to cover the biennial period, following the same method used in making appropriations for other departments, and that an appropriation of \$12,000.00 be made for the coming two years.

DEPARTMENT OF AGRICULTURE.

The future development of our state is, in my opinion, contingent upon its further development along agricultural lines to a greater degree than any other of its varied resources. We have many resources and lines of industry of great value to the state and its people. All are, and will continue to be, of material benefit in its upbuilding. When we realize, however, that each year we are sending millions of dollars to other states for agricultural products, while we have soil and climatic conditions which make it possible to produce within our borders most of these products, I think we will agree that the taking advantage of these soil and climatic conditions, to a degree that will make it possible for our surplus to be sold outside the state instead of having to buy for our own needs from other states, will be of more real benefit to us than can be development along any other line. The slogan of the state ought to be: "Produce all required for our own needs and a surplus so we may add to the wealth of the state by bringing in the financial returns from this surplus." When this condition is brought about we will be adding each year to our wealth instead of depleting it as we now do in having to purchase outside that which we have the ability and resources, in soil and climate, to produce ourselves.

A state department of agriculture, properly maintained, equipped and administered, can do as much or more than any other one element to assist in bringing about this change.

Acting upon a recommendation made in my message the last legislature created the department of agriculture. This law took effect June 12th, 1913, and I believe the results from its operation during the nineteen months it has been in existence clearly indicate that much more efficient service is secured than under the old method when the work now handled by the new department was in the hands of a number of commissioners, whose offices were located in different parts of the state. The headquarters of the department are located in the capitol building in the rooms formerly occupied by the supreme court.

Since its organization the department has faced a number of problems. The rapid development of fire blight in the fruit orchards of the state threatened for a time to seriously injure one of our principal agricultural lines, that of the production of apples and pears. While the horticultural force of the state was far too small in numbers to be able to do all of the work required in the eradication of the blight, it is equally true that the situation existing was one that could not have been properly handled in all of its detail by any force of state employes no matter how large such a force might have been. After giving careful thought to the matter it was decided to employ as many horticultural inspectors as possible with the appropriation available; that during the daytime they be engaged in locating the infected orchards and that all of the inspectors spend their evenings in assisting the orchardists in perfecting organization so that, by acting and working together, the orchardists would be able to largely do the actual work necessary.

The plan adopted made it possible for the state inspectors to spend their time, first: in locating blight infected trees and orchards and, second: in showing the orchardists the proper methods to be followed in doing the surgery work necessary on the trees to eradicate the blight. The orchardists, under the plan of co-operation adopted, were then able to do the actual work required. The plan proved to be most successful and I believe that at the present time fire blight is well under control.

In the Yakima valley, one of the largest fruit growing districts of the state, more than 3,000 men, engaged in the fruit growing industry, were members of the co-operative organizations, all willing to assist their neighbors when occasion required.

In addition to this the business men and other residents of the cities and towns in the different districts did their part by leaving their homes in the early mornings and spending several hours each day in assisting in the work without any charge being made for their services. From the town of Sunnyside it was not an unusual sight to see from fifty to seventy men leaving as early as five o'clock to assist in the work during the early hours. This was equally true of other communities.

Thus was the plan of co-operation, on the part of those engaged in one line of industry, put to a practical test and excellent results achieved.

As a result of this and other conditions which have been found to exist it seemed to be advisable to present to the legislature a new code covering the horticultural industry of the state. This code has had the careful thought of the department of agriculture and also of a large number of persons engaged in fruit raising. I believe its provisions are such that its enactment into law will be of material benefit to the state and of great assistance in the further development of this, one of our most important lines of agricultural work. I respectfully urge its favorable consideration by your honorable body.

A number of the states have suffered heavy losses in the past few months as a result of the rapid development of the foot and mouth disease among cattle. A few weeks ago a shipment of registered Holsteins from one of the middle states consigned to a leading dairyman of the state was held upon its arrival in the state and found by the commissioner of agriculture to be infected with the disease. After an examination by the Federal authorities acting with our commissioner of agriculture, and an appraisal of the value of the cattle had been made, the cattle were destroyed. The appraisal was made on a beef cattle basis and the federal government has agreed to pay one-half the value of the cattle. All of the yards in which the cattle were stored were burned and the ground on which the yards were located was thoroughly disinfected. The cars in which the cattle were shipped into the state were also cleaned and disinfected by the State Department of Agricul-

ture. Everything possible was done to avoid the spreading of the disease and I believe it can be truthfully said that there is now not a single case of the foot and mouth disease in the State of Washington. Our department of agriculture is to be congratulated upon its prompt action in this matter, first: in locating the shipment of the diseased cattle immediately upon its arrival at the boundary line of the state, and second: upon the destruction of the cattle before an opportunity was given for the spread of the disease. The department is constantly on the lookout for other such shipments and I feel will be able to protect the cattle raisers and dairymen of the state from the infection of their cattle with this disease.

The department will present to your honorable body three or four other bills covering changes in the present laws found, as a result of its experience, to be necessary to bring about a more efficient administration of its work.

The financial statements of the department do not indicate a reduction of cost as a result of the change in the law made two years ago. An investigation of the work done since its organization will show, however, that much more has been accomplished than under the old method. It will also indicate that the agricultural development of the state is steadily increasing, and I feel that all who look into the matter carefully will agree that the state's expenditures in this line are bringing results of sufficient value to justify the cost. I might also state that over 75 per cent of the cost of maintaining the department of agriculture is covered by fees, etc., collected by the department.

STATE FAIR.

Under the law the management of the State Fair located at North Yakima, is placed in the hands of the commissioner of agriculture. Two years ago an appropriation of \$40,000.00 was made for the fair, \$7,875.15 of which amount was used in paying a deficiency handed down by the preceding administration. The payment of this deficiency from the \$40,000.00 appropriated was provided for in the budget two years ago. To cover the cost of the fair for the two years there was left \$32,124.85. At the close of the fair in 1913 it was found that there remained a balance of but \$3,454.83 for use in conducting the fair in 1914. It was felt by a number of those interested that it would be impossible to hold a successful fair in 1914 without creating a deficiency. I took a positive position against calling upon this legislature to make an appropriation to cover a deficiency; the people of North Yakima and others in different parts of the state interested in its success worked together, and as a result of the support given it, 1914 records the most successful State Fair ever held. Excepting a few small items, all bills have been paid and there is more than sufficient money now due the State Fair on deferred accounts to cover these bills. Aside from the acting commissioner of agriculture, in whose charge the management of the fair is placed, Dr. Ira D. Cardiff, Honorable E. E. Flood and Dr. Granville Lowther, members of the advisory board of the department

of agriculture, and the people of North Yakima, who loyally supported and assisted, are largely entitled to the credit for its success.

The action of the legislature two years ago in discontinuing making appropriations for fairs, other than the State Fair, decided the policy of the state as being in favor of supporting but one fair, that to be the regularly established State Fair located at North Yakima. Under these circumstances I feel that it is advisable to begin, at this time, the construction of permanent buildings, and the making of other improvements of a more lasting character than has been done in the past. So that the state will not be called upon for a large appropriation for this purpose at this time, or at some succeeding session of the legislature, I strongly recommend that, for the maintenance of the fair for the years 1915 and 1916, an appropriation of \$40,000.00 be made and that an additional appropriation of \$10,000.00 be made for permanent improvements. I also recommend that, if there be any balance in the maintenance appropriation after the fair has been held in 1916, authorization be given to use the unexpended balance for permanent improvements.

It has not been customary in the past to have any balance reverting to the state treasury from state fair appropriations. Deficiencies have been more numerous than balances at the close of a biennium. If the plan I suggest be concurred in by your honorable body it will result in all who are connected with and interested in the State Fair putting forth every effort to conduct the fair as economically as possible so that there may be funds left over that may be used for permanent improvements which are so greatly needed.

I also recommend the passage of the bill prepared by the department providing for the proper handling of the moneys received from concessions, gate receipts, etc., of the fair.

STATE BOARD OF HEALTH.

During the two years just passed the department of health has been confronted with a number of difficult problems. The report of the department is in your hands. I desire especially to request that this report be given your careful consideration. I do not feel disposed to cover in detail in this message the many matters so fully entered into in the printed report, nor would you care to have me do so. I do desire, however, to make mention of the typhoid situation which developed in the city of Centralia during the closing months of 1913, and the part the state department of health played in handling the conditions existing there at that time.

Immediately upon call for assistance being made upon me by the city authorities of Centralia, the state commissioner of health was directed to make a thorough investigation and to render all possible assistance. The hospital accommodations being inadequate, the armory of the local company of the National Guard was fitted up for this purpose and between thirty and forty patients were cared for in this temporary hospital. The medical corps of the National Guard was

called into service and remained on duty until the epidemic was well under control and there was sufficient accommodations without the state's temporary hospital. The state commissioner of health, and his assistants are entitled to much credit for the thorough manner in which the situation was handled. The medical corps of the National Guard did its work well. The need of the hour indicated a new line of service for this department of the National Guard and proved the value of having an organized medical force that could be called upon for duty at a moment's notice.

The people of Centralia were untiring in their efforts and while the unfortunate condition resulted in the death of twenty-four persons, I feel that the number would have been much greater had not complete cooperation existed between the city, county and state officials.

The state department of health is constantly putting forth every effort to avoid a recurrence of this condition in that and other parts of the state. Its recommendations enlarging its powers in handling matters of public health are entitled to your careful consideration.

STATE HUMANE BUREAU.

The last legislature passed a law creating a State Humane Bureau consisting of the governor, the attorney general, the superintendent of public instruction, and two other members to be appointed by the governor. Honorable C. E. Muckler of Tacoma, and Honorable Chas. M. Farrer of Seattle, were chosen as the two appointive members of the board.

The act provided no appropriation to carry on the work of the bureau. Mr. Harry L. Parr of Olympia kindly consented to act as secretary without a remuneration and has rendered most efficient service in the position. The two members appointed have also spent their time and money in attending meetings of the board and in assisting in its work in different parts of the state. Quite a complete report of the bureau's work has been prepared by the secretary and is on file with the secretary of state.

It is impossible to accomplish much without funds and I would recommend that an appropriation of \$2,000.00 be made if it is the desire of the present legislature that the work be continued. This is the amount the bureau considers as absolutely necessary for the coming two years.

HIGHWAY DEPARTMENT.

The sentiment which existed in the state, for a time, in favor of a large issue of bonds for the construction of a system of highways has been replaced by a feeling on the part of a great majority of people that in this line of work we ought "to pay as we go." During the two years just passed an effort has been made in the direction of developing a permanent organization capable of handling the work in an intelligent and economical manner. The membership of the highway commission, consisting of the governor, the state auditor, the state treasurer, one

member of the public service commission and the highway commissioner have spent a great deal of time in selecting routes for state highways and in making personal investigations of the highway work under construction.

The work outlined by the last legislature is practically completed; the recommendations of the highway commissioner for the coming biennium are before you and I would respectfully recommend that they be given your careful consideration.

I believe that appropriations made by your honorable body ought to be, to the greatest degree possible, for the purpose of continuing construction upon the highways now laid out as a part of the state highway system and upon which the moneys heretofore appropriated have been expended.

No permanent hard surface roads have been built from the public, or what is better known as the state highway fund during the past two years. It has been the policy of the present state highway board to consider first, permanent drainage and grades for the highways and then to place gravel or crushed rock as surfacing wherever possible. From the permanent highway fund the county commissioners of many of the counties have constructed hard surface roads. It is probable that this policy will be continued by them. By refraining from using the public highway fund for permanent surfacing the state highway board has been able to build many more miles of road with the funds appropriated.

While it would be too much to expect that all of the highway construction undertaken by the state during the past two years has been done without some mistakes being made, yet I do feel that for the amount of money expended the state has come more nearly getting value received than ever before. There has also been developed a spirit of harmony between the state highway department and the county commissioners and engineers that in itself has materially assisted in securing better results in this line of work.

The sentiment appears to be in favor of allowing the present tax levies of one mill for public highways and one and one-half mills for permanent highway construction to continue. Under conditions now existing in the state if any change is made it ought to be to reduce rather than to increase the levies.

CAPITOL BUILDINGS AND GROUNDS.

Two years ago the legislature passed an act authorizing the issuance of bonds against the capitol building fund to the amount of \$4,000,000.00, the proceeds to be used in paying back to the general fund of the state the amount advanced from that fund in the past, which at the present time is approximately \$661,263.00; to take up all outstanding warrants which with interest due amount now to about \$530,265.00; and for the purpose of completing the Temple of Justice and doing other construction work necessary in connection with a permanent group of

capitol buildings. Under the provisions of the act the guarantee of the state was given to the bonds and interest which might accrue thereon.

The right of the legislature to make the guarantee was questioned, and before undertaking to follow the provisions of the law, the questions involved were submitted to the supreme court for adjudication. The court held the act to be unconstitutional in respect to the guarantee. The situation now is that the bonds have only the capitol lands behind them as security, and with this condition existing, up to the present time it has been impossible to dispose of them.

Feeling that the purchase of lands, not heretofore acquired and which are absolutely necessary in connection with the capitol grounds was of vital importance, arrangements were made with a number of banks for them to purchase warrants issued against the capitol building fund in payment of lands purchased by the capitol commission.

Authority to secure the property was given under an act of the legislature passed at the extraordinary session held in 1909. All of the lands covered under this act have been purchased by the commission excepting two lots. Upon the disposal of the condemnation suit now pending covering these lots, the state will be the owner of all lands provided for in the act. In compliance with the request of the capitol commission, the city council of Olympia has vacated the streets running through the capitol grounds and today the state is the owner of a capitol site of about twenty-nine acres.

It is the unanimous opinion of the commission that a suitable entrance to the grounds can be secured only by purchasing the two blocks bounded by Twelfth and Thirteenth streets and Main and Water streets. Upon one of these blocks is now located the Olympia High School. A suitable location for the high school can be secured immediately across Main street and a price has been fixed on this property by the owner. Personally, I hope the legislature will give authority to the commission to secure the two blocks, and also to purchase a small piece of property at the west of the state's holdings and running to the high water line. This is small in area and of little real value to its present owners. By its purchase the state would then have ownership of all the hillside property to high water line surrounding the capitol site, and then no matter to what degree the state's needs may grow it will never be necessary to purchase more ground for capitol building purposes.

On account of the unfinished condition of the Temple of Justice and the inability of the capitol commission to float bonds and secure funds for its completion, and for the purpose of protecting that part of the building now constructed and in use it has been necessary to award a contract for a permanent roof. The cost is being paid from the Temple of Justice maintenance fund. Had this action not been taken it is probable that very soon great damage would have resulted to the plastering and interior of the building.

Much time has been spent by the capitol commission in an endeavor to figure out some method whereby the bonds authorized might be sold. Up to the present time the problem has not been solved. Some months ago the attorney general was requested to investigate the question and has given much thought to the matter. I would suggest that the committee appointed to consider the question of capitol buildings and grounds confer with the attorney general and possibly some plan may be devised from which results can be obtained. I do not feel that the general fund of the state ought to be drawn upon for this purpose and in this view the commission unanimously concurs. The capitol lands, without doubt, will eventually bring sufficient funds to pay for the construction of all buildings necessary and to repay advances made from the general fund. I feel that from the moneys derived from the lands, in addition to meeting the cost of buildings and improvement of grounds, a permanent fund can be established, the interest from which will be sufficient to maintain the buildings and grounds and thus the taxpayers relieved from the necessity of raising the maintenance cost by general taxation. This condition, of course, can not be brought about until all, or practically all, of the state capitol lands have been sold.

I would respectfully recommend that an appropriation be made to pay all interest charges on warrants now outstanding against the capitol building fund and on which interest has been guaranteed by the state and also to cover the interest on warrants issued during the present biennium for the purchase of lands for capitol site.

FISHERIES DEPARTMENT.

During the past two years every effort has been put forth by the fisheries department to bring about greater results in the propagation of salmon and also in securing the equipment necessary to better enforce the fisheries laws. The receipts from licenses and fees have been greater than ever before. The output of spawn from the hatcheries is far in excess of any previous biennium. New hatcheries have been constructed and a new patrol launch sixty-five feet in length built and put into service making it now possible to do patrol duty whenever necessary. It was unsafe to venture out with the launch in use two years ago excepting under the most favorable weather conditions. These results have been accomplished with the appropriations made for the department two years ago and your honorable body will not be called upon to make an appropriation to cover a deficiency as was the case at the last session of the legislature.

The development of the fishing industry has been such that today it is one of the chief industries of the state. Every effort ought to be put forth by the state to make possible further advancement. This can be done by constructing and operating more hatcheries and passing such laws as will protect the interests of the state in the catching, canning and using of the fish. The operations of the state are assisting materially in increasing the run each year of certain kinds of salmon. Those engaged in the industry are the direct beneficiaries. I believe

that in order to bring about a better control and also to make the laws clearer, this legislature ought to pass a bill covering all matters relating to fisheries and repeal existing laws. In this bill I feel that provisions ought to be made to materially increase the revenue derived by the state.

Legislation is also necessary providing for the proper handling of the oyster industry and provisions ought to be made in the bill to protect and assist in developing, to a greater degree, the propagation of other kinds of fish and of crabs, shrimps, etc. I consider the passage of a new fish code one of the important duties of the legislature.

It was the intention to have prepared and presented to your honorable body such a bill. The rough draft was completed too late to allow a sufficient time for its consideration.

A bill will be presented to the legislature providing for a change in the law, known as the "Callow Act" under the provisions of which oyster lands to the amount of approximately six hundred and eighty-one acres were transferred by the state to the present owners. I respectfully suggest that this bill be given your consideration and would further suggest that legislation be passed providing for the reversion to the state of all oyster lands which have not been put to the use of producing oysters, within a reasonable time, as called for under the deeds of conveyance. In many cases lands have been purchased under the laws providing for the sale of oyster lands, and no effort whatever has been made to put the lands to the uses for which they were purchased. For your further information I might add that there have been sold approximately 34,513 acres of oyster lands under the provisions of the "Bush Act," and 1,055 acres under an act passed by the legislature of 1907.

GAME DEPARTMENT.

The game code, passed at the last session of the legislature, came before me for consideration after the adjournment of the legislature. There were a number of objections made to the bill and I met and consulted with a committee, consisting of persons from different parts of the state, in relation to its provisions. It was the unanimous opinion of the committee that while the bill had many provisions not satisfactory it was preferable to the then existing laws, and upon this recommendation I approved it. There will be presented for your consideration a bill drafted to correct the law passed two years ago.

HOTEL INSPECTION.

The financial report of the state hotel inspector, beginning with the present appropriation period on April 1st, 1913, and up to December 31st, 1914, shows that the receipts of the department, from fees collected during that time, have been \$27,190.00, while the expenditures during the same period amount to \$15,639.48. This indicates that collections during the twenty-one months have exceeded the expenses by \$11,550.52.

Recommendations will be made to your honorable body suggesting a reduction and revision of the fees to be collected. From an examination of the changes to be requested, I am inclined to the belief that their adoption would result in a more equitable charge upon those who are called upon to pay the cost of maintaining this department.

STATE MILITIA.

At no time in its history has the National Guard been more efficient than it is today. Complete harmony exists and the officers and enlisted men are working together to bring about, if possible, an even higher degree of efficiency. The showing made at the encampment held in July last received the commendation of the Federal inspector who was detailed for duty and who spent several days at the camp. The medical corps rendered valuable assistance at Centralia during the typhoid epidemic in that city. The report of the adjutant general has been placed in your hands. I would respectfully urge your careful consideration of the recommendations made by him.

BANKING DEPARTMENT.

I would respectfully recommend that the state banking laws be amended so that banks organized and doing business as state banks may be able to accept the provisions of the Federal Reserve Act.

The title of the state officer in charge of our banking department is state examiner. This title is used by other departments of the state and results in confusion. The name state examiner does not in itself indicate any connection with banking and I would recommend that it be changed to state bank examiner.

PUBLIC SERVICE COMMISSION.

In the death of Judge M. M. Godman, chairman of the public service commission, the state suffered a great loss. As a member of the convention which gave to the state its constitution; as a superior court judge and as a member of two legislatures he rendered valuable service. The good work done by him as chairman of the public service commission during the short time he occupied that position proved him to be a man well qualified for its duties. In his death the state lost one of its most valuable officials.

It is probable that there will be introduced for your consideration some bills providing for a curtailment of the powers of the public service commission in relation to the regulation of public utilities within the boundaries of municipalities. Personally I feel that the tendency ought to be to increase rather than to decrease the power of the state commission and that the state commission ought to be given regulative power over municipally owned utilities.

The report of the public service commission has been printed and is in your hands. Its duties make it one of the most important departments of the state. I hope its recommendations will be carefully considered by your honorable body.

I desire to recommend that the grain department be placed under the control of the department of agriculture. It is now under the control of the public service commission.

PANAMA-PACIFIC AND PANAMA-CALIFORNIA EXPOSITIONS.

Two hundred thousand dollars was appropriated two years ago for the Panama-Pacific Exposition to be held at San Francisco. A provision in the law gave the power to the exposition commission to use not to exceed \$25,000.00 of the appropriation in making an exhibit at the Panama-California Exposition at San Diego if deemed advisable.

As members of the commission I appointed Honorable John Schram of Seattle, Mrs. W. A. Holzheimer, Seattle, Honorable Frank L. Hale, Tacoma, Honorable Huber Rasher, Spokane, and Mrs. H. W. Allen of Spokane.

A building has been constructed at San Francisco at a cost of \$46,000.00. It is entirely completed and many of the exhibits have been installed. It was decided by the commission to use \$25,000.00 of the \$200,000.00 appropriation, at the San Diego Exposition. The building constructed there cost approximately \$8,400.00. On January 1st, there had been expended from the \$200,000.00 appropriation the sum of \$81,369.11, leaving a balance of \$118,630.89 on hand.

In its report of December 31st, the commission says "we take pleasure in reporting that we will be able to complete the work and maintain the exhibits throughout the exposition period with the funds already appropriated." My personal feeling is that in making an appropriation of \$200,000 the maximum amount necessary was allowed and I do not feel that any further appropriation ought to be made, nor do I think it is required. With the funds available the state will be able to make a most creditable showing. The exposition at San Diego opened on January 1st, and that at San Francisco will open February 20th.

NON-SALARIED COMMISSIONS.

In the state we have a number of non-salaried commissions, consisting principally of state officers. I believe many of these could be abolished or consolidated. For instance, we have a fish commission consisting of the governor, the state treasurer and fish commissioner. We also have an oyster commission, its membership being the governor, the commissioner of public lands and the fish commissioner. The duties of these commissions ought to be placed in the hands of one commission. The public property commission and the public archives commission ought to be legislated out of existence and the duties now prescribed for these commissions performed by the board of control.

STATE LIBRARY.

Under existing laws the State Library is in charge of a commission consisting of the nine members of the supreme court, the attorney general and the governor. At a meeting of the commission held some months ago it went on record asking the legislature to be relieved

from its duties. The Law Library is in charge of the supreme court and it appears to me proper that it should be. I feel, however, that the members of the court ought to be relieved from the duty of having charge of the general library of the state. There is also a law which created a State Library advisory board and gave to the members of this board certain duties in connection with the State Library. This law ought also to be repealed and a new board created having full charge of the State Library. By following this course we would be placing in the hands of one board the duties now performed by two non-salaried commissions or boards.

FORESTRY DEPARTMENT.

The report of the forest commission and fire warden show that the department will be able to return to the state treasury at the close of the biennium an unexpended balance of about \$20,000.00. When we consider the large amount of work made necessary as a result of the long period without rain during the past season I feel that the financial showing is an excellent one.

The state fire warden has at my request made several investigations in relation to the possibility of development of the state's logged off lands. This development is of vital importance to the state; I would respectfully suggest that the legislature call upon him for such information as he may have secured and that it be given your careful consideration.

The forest commission consists of Honorables E. G. English, W. W. Emery, Frank B. Cole, and Pat McCoy who, under the law, are appointed by the governor; the commissioner of public lands is the other member of the commission. The four men appointed by me are persons thoroughly informed regarding the timber situation and the duties of the commissioner of public lands are along lines which make him a valuable member of this commission.

PREPARATION OF BUDGET.

I strongly urge that authority be given the state board of finance to call upon all departments and institutions each two years for a complete and itemized statement of all appropriations required for the conduct of the departments and institutions for the succeeding biennium; that the statements be furnished not less than ninety days before the convening of the legislature and that the board be given power to call upon any person connected with the departments or institutions for information that may be of assistance in determining the amounts the board shall recommend be appropriated by the legislature. I also recommend that the board be authorized to visit and inspect any department or institution, if it is deemed necessary, for the purpose of securing information. I further recommend that the board of finance have the authority to reduce or increase the amounts that may be recommended to it by any department or institution and that it shall prepare, have printed and mail to each member of the legislature, not

less than fifteen days before it convenes in regular session, a complete statement of its recommendations, in proper form for use in the appropriation bill.

This board ought also to have the power to check over all department and institution reports before they are placed in the hands of the state printer and to eliminate as much as in its judgment seems proper, from the printed report. By the adoption of such a plan unnecessary duplication could be avoided and much matter, printed under the present system and of little or no value to the reports, could be eliminated.

The adoption of such a plan would be of material assistance to the legislature; it would not, nor could such a law, in any way affect the right of the legislature to make any changes it might deem proper. It would, however, result in having requests for appropriations placed before it in a much more satisfactory manner than has been done in the past and in addition would also carry the recommendation of the three elective officers whose duties keep them most closely in touch with the finances of the state. The board of finance consists of the governor, the state auditor and the state treasurer.

I sincerely hope that such a law will be passed by your honorable body.

STATE TREASURER.

In his report the state treasurer strongly urges the passage of an act authorizing and legalizing action on his part in carrying overdrafts, by paying warrants issued against funds in which there are no moneys on hand, from moneys he may be carrying in other funds and for which there will be no immediate call. This rule has been followed by the present state treasurer and also by his predecessor. It has resulted in a large saving to the state in interest charges which would have accrued had warrants been marked "not paid for want of funds." If the plan is considered a good one to follow, it is but fair for the legislature to authorize it and not expect the state treasurer to continue it without legislative approval.

Some have suggested that the bill be made to cover only the general fund. The recommendation made by the treasurer is that it cover all state funds. If it is decided to follow his recommendation, might it not be advisable to provide that the approval of the state board of finance be given, in connection with each fund, before its provisions shall be followed by the treasurer? I feel sure such a provision would meet with the approval of the state treasurer.

I also believe the law should provide that no loan should be made in excess of 75 per cent of the expected revenue of a fund for which a loan is required.

RURAL CREDIT.

Senate joint resolution No. 7, passed by the Senate on March 6th, and by the House on March 8th, 1913, provided for the appointment of a commission consisting of three members, one to be selected by the president of the Senate, one by the speaker of the House and the third

by the governor, whose duty it should be to co-operate with similar commissions appointed in other states, "in the investigation of the various systems of land mortgage banks and other forms of agriculture or rural credit now existing in various countries, with a view to adapting the same, or any combination thereof or improvement thereon, to the needs and conditions of this state, or devising some independent practical plan of procuring cheap money for agricultural development." The legislature provided an appropriation to carry out the provisions of the joint resolution in the supplemental budget in the following language: "For expenses of land mortgage bank commission as authorized by Senate joint resolution No. 7, \$2,500.00."

The president of the Senate appointed as the Senate member of the commission, Honorable Ralph Metcalf, the speaker of the House appointed Honorable Victor J. Capron, a member of the House, and I selected as my appointee Honorable Clark Black. Inasmuch as the general commission, of which the members from this state became a part, contemplated spending some time in Europe studying conditions it was found that the appropriation of \$2,500.00 was far too small to pay the expenses of three members. An arrangement was finally made whereby Honorable Ralph Metcalf and Honorable Clark Black agreed to represent the State of Washington and advance any amount in excess of \$950.00 each, personally; \$600.00 of the appropriation was turned over to the American commission to assist in the payment of the general expenses of that commission.

The report made by the commission is voluminous and was not received by me in time, nor were legislative recommendations submitted, so that I could comply with that part of the resolution directing me to have the bills, recommended by the commission, printed and sent to the members-elect of this legislature not later than November 30th, 1914.

The complete report of our commission contains almost one hundred thousand words. Much of it has been published by some of the newspapers of the state. It enters fully into an explanation of the rural credit methods in vogue in Europe. In addition to spending the time necessary to secure the information and prepare the report, the two members who visited Europe have also addressed audiences on this subject in different parts of the state. Their suggestion that the report be printed for free distribution in the state is entitled to your consideration.

Honorable Ralph Metcalf and Honorable Clark Black are both members of the present legislature. It is probable that they will submit to your honorable body their views by the introduction of a bill or bills embodying a practical method of putting into effect in the State of Washington the principle of rural credit.

POWDER FACTORY.

Two years ago an appropriation of \$50,000.00 was made for the establishment of a state powder factory. The language used in making the appropriation provided that the governor might, if he deemed it advisable, appoint a committee to make an investigation as to the feasibility of the state's operating a powder plant before proceeding with its construction. Having no knowledge of the cost of production of powder nor of the probable cost of a plant for its manufacture I decided to appoint a committee to make the investigation. The act provided that the chemist of the State College should be one of the members of the committee; I appointed Honorable John A. Rea and Honorable Ralph Metcalf as the other two members.

After months spent in investigation and study the committee made its report. Its findings indicate that a factory suitable for the manufacture of stumping powder will cost approximately \$50,000.00; that the powder can be manufactured at about seven cents per pound and that a fund would have to be appropriated by the legislature in addition to that already appropriated, to be used in the purchase of raw materials, payment of operating expenses, etc. The committee in its report did not indicate what amount would be required for this purpose.

After carefully considering the report I did not feel that I ought to direct the construction of the factory, as there would have been no fund for its operation available when completed. The report was printed and has been placed in the hands of each of the members of the legislature. Should you decide in favor of the establishment of the powder factory it will be necessary to reappropriate the fund made available two years ago and also to appropriate a sufficient amount for its operation.

PALOUSE PROJECT.

The legislature of 1913 appropriated the sum of \$10,000.00 to be used in making an investigation regarding the feasibility of what is known as the Palouse project. Realizing that but little of value could be accomplished with this small amount of money I requested the secretary of the interior to join with the state in the investigation and to set aside for this purpose, from the reclamation fund, an amount equal to the state's appropriation. An agreement was entered into and the investigation made. Present indications are that favorable action will be taken on the project by the reclamation department, and should funds become available, I feel that the development of the project will be undertaken. I had hoped it would be possible to place a printed copy of the report in the hands of each member of the legislature. When all of the expenses incurred in making the investigation had been paid it was found that the balance left was not sufficient to pay the cost of printing the number of reports that would be required.

SCHOOL BOOKS.

The State of California has gone into the business of publishing and furnishing free text books to the public school children. The figures sent out from that state indicate a saving of over a quarter of a million dollars a year on its school books by publishing them itself. The State of Kansas is following the lead of California and a number of other states are investigating the matter. I believe the text books used in our state are costing much more than they should and would respectfully recommend that authority be given to have an investigation made and that recommendations be submitted to the next legislature covering this important matter. Or better still, would be the appointment of a committee by the legislature at an early date so that an investigation might be made, the report submitted and action taken at this session. If favorable action is taken by your honorable body the plan could provide for the sale of the text books to the boards of education of the state at actual cost of production.

STATE FLAG.

In my message to the legislature two years ago, I recommended the passage of an act authorizing a committee of state officers to select and adopt an official flag for the state. A bill was introduced following the line of this suggestion; it passed the House but failed of passage in the Senate. Most of the states of the Union have such a flag. The recommendation I made two years ago was as a result of suggestions from a number of citizens of the state. I, personally, can see no objection to its adoption. During the coming year it is probable that each state having a building at the expositions being held at San Francisco and San Diego will have floating over it, its state flag. It is for such purposes the flag could be used, and would not detract from the Stars and Stripes, nor at any time would it, nor could it, take the place of the Stars and Stripes, as appeared to be the fear expressed by some of those who opposed the bill. I mention the matter at this time so that the recommendation made two years ago may be better understood and for the purpose of again placing it before you for such action as may be deemed proper.

STATE ARCHITECT.

Two years ago I recommended to the legislature that a law be passed providing for the appointment of a state architect. With the number of new buildings constantly being constructed and the repairs and improvements necessary to the buildings in use, I am sure that a great saving could be made, and also that more satisfactory results would be obtained by adopting this recommendation. During the present biennium there has been expended by the state over \$40,000.00 for architects' fees and superintendence of new buildings constructed. I again renew the recommendation made to the last legislature.

WATER CODE.

Two years ago there was presented to the legislature for its consideration, a water code drafted by a commission appointed by my predecessor in office. There was much discussion in relation to the bill; however, it failed to pass. Practically the same bill will be introduced at this session. Some legislation covering this matter is absolutely necessary. Without doubt, development along lines affected by such a law is being retarded on account of the unsatisfactory conditions now existing from a legal standpoint. While I do not feel that I am sufficiently well informed regarding this important question to recommend unqualifiedly the bill to be presented, I consider it of sufficient importance to call it to your attention and ask that it be given careful consideration.

CONCLUSION.

There are many other matters I would like to present for your consideration. I fear I have already occupied too much of your time and in closing will say that my sole desire as chief executive of the state is to render service that will be of real benefit to its people, and that will result in its development along safe, conservative and economical lines. Let not the spirit of partisanship enter into your deliberations. There are many departments of state government which demand revenue for their proper maintenance. The wards of the state must be provided for. These are governmental costs fixed and permanent. No more than is actually required in their maintenance and care should be appropriated by your honorable body. I will, within a day of two, submit to you a list of the appropriations I believe ought to be made for the departments and institutions under my control. Should some of the recommendations I make to you in this message be adopted these figures would have to be revised to meet the new conditions. In a number of instances the amounts I recommend are less than was recommended to me by those in charge of the departments and institutions, yet in no case do I feel that reductions have been made below an amount which makes possible an efficient administration of their affairs. It is not only our duty to see that expenditures do not exceed revenues but also to reduce the expenditures to a point that will enable the taxing officers of the state to reduce the tax levies. Then the people would have an answer to their demand for lower taxes.

I stand ready to do everything in my power to assist the legislature in its work and I sincerely hope that the record it makes will stand out clearly as one from which real and permanent benefit will result.

SENATE JOINT MEMORIAL NO. 2.

WHEREAS, The fortifications on Puget Sound and the Columbia river are so remote from any possible base that an invading enemy could select for its operations, that they are wholly inadequate to protect the lives and property of the peoples of the states of Washington

SENATE CHAMBER.

OLYMPIA, WASH., January 14, 1915.

MR. PRESIDENT:

Your Committee on Printing, to whom was referred the matter of ascertaining the cost of printing the report of the Committee on Rural Credits, submits the statement attached hereto, same having been prepared by Frank M. Lamborn and Willis Bloom.

ARTHUR MCGUIRE, *Chairman*.

We concur in this report: A. A. Smith, Ralph Metcalf, Wm. Wray, Guy B. Groff.

OLYMPIA, WASH., January 13, 1915.

Mr. Frank Lamborn, the state printer, and Mr. Willis Bloom, the state printing expert, of the office of the secretary of state, the person upon whom is imposed the duty of measuring all work done by the state printer, have measured the report of the Committee on Rural Credit, and report the following figures as the cost of printing, binding and of all material used in the publication of said report.

Printed in eight point leaded, in a style similar to the reports of state officers, composition would be \$398.00; that the sum of \$300.00 would not pay for the composition. If machine finished book paper, such as is used in reports of state officers, the publication of the first thousand would be \$542.00, and it would cost the sum of \$140.00 for each additional thousand over the first one thousand.

If print paper be used in the publication, being the kind of paper used in printing the pamphlet containing the arguments on the initiative measures by the secretary of state prior to the last election, this cost would be reduced at the rate of \$21.50 per thousand.

If the same is published in eight point solid, double column, in the style used in the "Homeseekers' Guide," issued in 1914 by the bureau of statistics and immigration, the cost would be \$344.44 for composition.

The first thousand would cost \$452.37, and \$99.00 per thousand after the first thousand, if machine finished book paper is used. If print paper is used, this could be reduced \$15.00 per thousand.

This work has been measured under the same rule and in the same manner applied in the measuring of all state work, and are the amounts which the state printer would receive for your printing.

Mr. Bloom desires to state that he made an informal estimate of this publication, but based it upon 380 pages of eight point leaded.

Since then he has counted the pages of manuscript and finds that it would make 288 pages of eight point leaded, and 200 pages of eight point solid.

At the request of the Committee on Printing of the Senate, we certify the foregoing statements are correct.

FRANK M. LAMBORN, *Public Printer.*
WILLIS BLOOM.

SPECIAL ORDER.

The hour of 2:00 p. m. having arrived, the Senate proceeded to consider the governor's veto messages, which were a special order for this time.

The secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,

OLYMPIA, March 21, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

DEAR SIR: I return herewith Senate bill No. 128 without my approval. This act is an act entitled:

"An act relating to deeds and transfers or interests in real estate, validating all deeds and transfers heretofore made in accordance with

the provisions of this act and amending section 8746 of Remington & Ballinger's Annotated Codes and Statutes of Washington."

The present law governing this subject reads as follows:

"All deeds and voluntary transfers of real estate or any interest therein shall be in writing signed by the party bound thereby, and acknowledged by the party making it before some person authorized by the laws of this state to take acknowledgments of deeds."

This act seeks to amend the present law by providing:

"That when real property is held in trust by any corporation in whole or in part for one or more other persons or corporations and the interest of such other person or persons or corporations is evidenced by written declarations of trust executed or authenticated by such trustee, such interests may be transferred by the person or corporation having the same or named in such certificate or declaration as the owner thereof by a simple writing, or by his or its endorsement of his or its name on the back of such declaration of trust and delivery thereof to the vendee."

This act further provides:

"That all conveyances heretofore made in accordance with the terms and provisions of this section are hereby declared to be legal and valid. In the event that any certificate has been transferred by any married person, the said transfer shall be deemed to convey all the interest of the husband or wife, as the case may be, who did not join in such transfer, unless the one not joining shall, in one year after this act shall become effective, serve a written notice on the said trustee to the effect that he or she claims a community interest in the certificate or declaration so transferred."

The present law is a very clear statement of the formalities to be observed in transferring interest in real estate and has, by long usage, become well established. Where a law is so well understood and the meaning is so clear as in the present statute the greatest degree of caution should be exercised in making any change or modification thereof. This amendment would, I believe, lead to much misunderstanding and in the end might tend to promote fraud and litigation in the matter of real estate transfers.

After considering the last portion of the bill as has been herein set forth, I am inclined to believe that this bill has for its purpose the validation of some particular transactions heretofore made, the details of which did not meet the requirements of the existing law. In my opinion it would be a dangerous precedent to enact general laws of this nature to validate the defects of some particular transaction or transactions.

For the reasons above given, Senate bill No. 128 is vetoed.

Respectfully submitted,

ERNEST LISTER, *Governor.*

The secretary read Senate bill No. 128, entitled "An act relating to deeds and transfers of interests in real estate validat-

ing, all deeds and transfers heretofore made in accordance with the provisions of this act and amending section 8746 of Remington and Ballinger's Annotated Codes and Statutes of Washington."

The secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, March 25, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

DEAR SIR: I herewith return Senate bill No. 220 without my approval. This is an act entitled:

"An act authorizing the completion of the final survey of the Quincy Valley irrigation project, and appropriating money therefor."

Section 2 of this bill reads as follows:

"SECTION 2. There is hereby appropriated out of the general fund not otherwise appropriated, the sum of one hundred thousand dollars (\$100,000.00) or so much thereof as may be necessary, for the purpose of carrying out the provisions of this act."

The bill provides for the use of this appropriation to complete the final survey of the Quincy Valley irrigation project on which the state and Federal government has expended about fifty thousand dollars (\$50,000.00) for preliminary work. The bill further provides that the general fund must be reimbursed for the cost of said surveys, estimates and investigations, provided for in this bill, by those who ultimately construct the said project whether the same be by public or private funds.

Senate bill No. 187, passed during the recent session of the legislature, provides for submission to a vote of the people at the next general election, the proposition of the state practically guaranteeing a bond issue of \$40,000,000.00 for the purpose of developing this project. That bill carefully details the method to be followed in the matter of issuance of the bonds and also the handling of the work contemplated and under the referendum law all of this information will be placed in the hands of the voters of this state, prior to the time they are called upon to vote upon the same. I mention the referendum bill particularly, for the reason that it refers to the same project covered under this bill.

After careful consideration of Senate bill No. 220, providing for the appropriation of \$100,000.00 for investigation work, I feel that the state should not be called upon at this time to advance so large an amount of money for preliminary work. While section 3 of the bill provides that the state must be reimbursed for the cost of said surveys, this does not change the situation, which requires the tax levy to be increased to an extent sufficient to advance \$100,000.00 which will be raised in general taxes. In vetoing this bill, I do so, feeling that it should not be considered as an expression of opinion against the project itself which will be voted upon by the people.

The reason for this veto is the fact that the people are called upon to raise monies by general taxation during the next two years, far in excess of any other like period in the past, and an approval of this measure would be adding still more to the amount of revenue necessary.

For the reasons herein given, Senate bill No. 220 is vetoed.

Respectfully submitted,

ERNEST LISTER, *Governor.*

The secretary read Senate bill No. 220, entitled "An act authorizing the completion of the final survey of the Quincy Valley Irrigation Project, and appropriating money therefor."

The secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, March 20, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

DEAR SIR: I return herewith Senate bill No. 241 without my approval. This is an act entitled:

"An act relating to the transfer of territory from one school district to another and amending section 4433 of Remington and Ballinger's Annotated Codes and Statutes of Washington."

At the present time the law provides that territory can be transferred from one school district to another only on petition in writing signed by a majority of the heads of families residing in the territory which it is proposed to transfer or include and then only upon public hearing after due notice is given.

This act seeks to amend the present law by providing that:

"Whenever any part of a school district of a third class in which no high school is maintained is bounded on three sides by a school district of the second class in which a high school is situated and maintained the county superintendent of schools may, without petition, notice or hearing, transfer the territory of the school district of the third class so bounded to the school district of the second class in which said high school is situated and maintained."

This bill appears to have been drawn to cover some individual case. I am of the opinion that it is better that the law should be left as at present, requiring a petition from a majority of the heads of families and hearing on said petition after notice is given, rather than to make a change in the law whereby the county superintendent of the various counties would have the absolute power of changing school district lines regardless of wishes of the majority of the heads of families residing therein.

It may be possible, in a few instances, that it would be a benefit should this bill become a law. It can be plainly seen, however, that this bill gives to the county superintendents of schools in every county in the state the power to fix boundary lines of school districts of the second and third class under the conditions prescribed in the bill. In my

opinion it is inadvisable to enact a law covering so wide a scope for the purpose of making it possible to change the boundary lines of a limited number of school districts in the state.

I, therefore, return this bill with my veto.

Respectfully submitted,

(Signed) ERNEST LISTER, *Governor*.

The secretary read Senate bill No. 241, entitled "An act relating to the transfer of territory from one school district to another and amending section 4433 of Remington and Ballinger's Annotated Codes and Statutes of Washington."

The secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, March 24, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

I herewith transmit to you Senate bill No. 361. I have approved section 4 of this bill and sections 1, 2 and 3 of the bill are vetoed.

This is an act entitled: "An act relating to the purchase, sale, transfer and incumbrance of stocks of goods, wares, merchandise and fixtures and equipment in bulk, providing penalties for the violation thereof, and amending sections 5296, 5297, 5298 and 5299 of Remington & Ballinger's Annotated Codes and Statutes of Washington."

The act sought to be amended is what is commonly called the "Sales in Bulk Law" and the amendments proposed to include "fixtures and equipment used in and about the business."

Errors were made in the drafting of the amendments of the first three sections of the bill and these errors are of such a serious nature that, after consulting with the attorney general regarding the matter, I deemed it best to veto these sections rather than to confuse what is now a very good law.

Section 4 which defines "Bulk Sales" is an amendment to the present law which will undoubtedly accomplish the purpose for which this act is intended.

As above stated, sections 1, 2 and 3 of this bill are vetoed, and section 4 is approved. Respectfully submitted,

ERNEST LISTER, *Governor*.

The secretary read sections 1, 2 and 3 of Senate bill No. 361, entitled "An act relating to the purchase, sale, transfer and incumbrance of stocks of goods, wares, merchandise and fixtures and equipment in bulk, providing penalties for the violation thereof, and amending sections 5296, 5297, 5298 and 5299 of Remington & Ballinger's Annotated Codes and Statutes of Washington."

The secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, March 25, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

DEAR SIR: I herewith transmit to you Senate bill No. 428 without my approval. This is an act entitled:

"An act creating the state public building board; prescribing its powers and duties; providing for the creating of a state public building sinking fund, and levying a tax therefor, and making an appropriation therefrom."

This act contemplates creating a state public building sinking fund and provides for levying a tax of one-tenth of one mill each year, the proceeds from which tax would amount to approximately \$200,000.00 during the biennial term. The taxes for this purpose, under the provisions of the bill, would continue to be levied until there would be to the credit of the fund the sum of \$600,000.00. It provides a method whereby, under certain conditions, the board herein created could authorize the construction of buildings to replace any buildings that might be destroyed.

Without doubt there is merit in a measure of this kind. As above stated, however, its provisions add a levy of one-tenth of one mill to the taxes, calling for raising approximately \$100,000.00 per annum during the next six years.

With the increase in expenditures for the public institutions of the state, for road and other purposes I do not feel that we are justified at this time in assuming this additional burden.

For the reasons above given Senate bill No. 428 is vetoed.

Respectfully submitted,

ERNEST LISTER, *Governor.*

The secretary read Senate bill No. 428, entitled "An act creating the state public building board; prescribing its powers and duties; providing for the creating of a state public building sinking fund, and levying a tax therefor, and making an appropriation therefrom."

The secretary read:

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, March 25, 1913.

Hon. I. M. Howell, Secretary of State, Capitol.

DEAR SIR: I herewith transmit to you Senate bill No. 466 being:

"An act making appropriations for the purchase of land for; construction of buildings at; for maintenance of and sundry expenses at, the various state institutions, schools and state offices, and for the sundry civil expenses of the state government for the fiscal term be-

ginning April 1, 1913, and ending March 31, 1915, except as otherwise provided, and making an appropriation for certain deficiencies."

This is the supplemental budget making appropriations for numerous purposes. I find that there is included in the bill thirty-six relief appropriations. These relief appropriations cover amounts ranging from \$9.25 for the smallest up to \$6,067.23 for the largest item. In the short time I have had for the consideration of this bill it is impossible for me to take up each one of these items and pass upon its merits. While the total number of relief appropriations in the bill is large, I am approving the same inasmuch as each of these claims was presented to the appropriations committees of the House and Senate and, without doubt, was carefully investigated by those committees before being allowed. I have received some unsigned communications protesting against one or two of the relief items. Had the parties transmitting the information felt the matter to be of sufficient importance to have signed their names to the communications, the information given would have been entitled to more consideration.

There is also contained in the bill an item of \$50,000.00 for the purpose of establishing a state powder factory at the Agricultural Experiment grounds near Puyallup, this appropriation being from the general fund. An additional provision reads as follows:

"Provided, further, that in case the governor, after a thorough investigation finds that it is not advisable for the state to expend the money hereby appropriated for the purpose above specified, the above amount or so much thereof as is not expended for investigation shall return to the general fund."

With this provision in the law I am approving the appropriation. The following items of the bill are vetoed:

FROM THE GENERAL FUND.

"For advance confidential cruise of land liable to be sold during the biennium, to be expended under the direction of the state land commissioner, \$20,000.00."

FROM THE GENERAL FUND.

"For a woman's building at the University of Washington, \$100,000.00."

FROM THE SALMON HATCHERIES FUND.

"For state fish commissioner, not to exceed the collections made to the fund, \$60,000.00."

I find that an appropriation of \$60,000.00 was made in the original budget for cruising state lands. I am inclined to be of the opinion that this amount ought to be sufficient to do all necessary cruising during the coming two years.

I have made careful investigation covering the item of \$100,000.00 for a woman's building at the University of Washington. From the investigations made it appears that this building would be a most desirable addition at the University and there is, without doubt, some

necessity for its construction. My only reason for vetoing the item is the fact that the appropriations made for the coming biennium have been increased to such an extent that it will be necessary to materially increase the tax levy for the purpose of meeting the additional demands. It is probable the state will be in better shape financially two years from now to give its approval to an appropriation for this purpose.

The item of \$60,000.00 for the state fish commissioner would make an amount far in excess of what the revenue of this department will be during the next two years and was included in this budget only on the theory that the new fish code would become a law.

All items in the bill other than those enumerated in this letter and marked vetoed on the face of the bill are approved.

Respectfully submitted,

ERNEST LISTER, *Governor.*

The secretary read the following paragraphs of section 1 of Senate bill No. 466, entitled "An act making appropriations for the purchase of land for; construction of buildings at; for maintenance of and sundry expenses at, the various state institutions, schools and state offices, and for the sundry civil expenses of the state government for the fiscal term beginning April 1, 1913, and ending March 31, 1915, except as otherwise provided, and making an appropriation for certain deficiencies."

MESSAGE FROM THE GOVERNOR.

REFERRING TO SMITH-LEVER BILL.

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, January 20, 1915.

Gentlemen of the Senate and House of Representatives

To comply with the provisions of an Act of Congress, approved by the president May 8th, 1914, entitled:

"An act to provide for co-operative agricultural extension work between the agricultural colleges in the several states receiving the benefits of the Act of Congress approved July 2d, 1862, and of acts supplementary thereto, and the United States Department of Agriculture," and so that the State of Washington might receive funds from the Federal government, for use along agricultural lines as indicated in the act referred to, on June 24th, 1914, I sent the following letter to Honorable D. F. Houston, Secretary of Agriculture:

"Whereas, the Congress of the United States has passed an act approved by the president, May 8th, 1914, entitled 'An act to provide for co-operative agricultural extension work between the agricultural colleges in the several states receiving the benefits of the Act of Congress approved July 2, 1862, and of acts supplementary thereto, and the United States Department of Agriculture,' and

"Whereas, it is provided in section 3 of the act aforesaid, that the grants of money authorized by this act shall be paid annually 'to each state which shall by action of its legislature assent to the provisions of this act' provided 'That payment of such installments of the appropriation hereinbefore made as shall become due to any state before the adjournment of the regular session of the legislature meeting next after the passage of this act may, in the absence of prior legislative assent, be made upon the assent of the governor thereof, duly certified to the secretary of the treasury,' and

"Whereas, the legislature of the State of Washington is not in session at this time; therefore,

"I, Ernest Lister, governor of the State of Washington, do hereby give the assent of the State of Washington to the provisions and requirements of said act, and authorize and empower the regents of the State College of Washington, located at Pullman, to receive such installments of the appropriations made in said act as shall become due to the State of Washington before the adjournment of the next regular session of the legislature, and to organize and conduct agricultural extension work which shall be carried on in connection with the department of agriculture of said college in accordance with the terms and conditions expressed in the Act of Congress aforesaid. Said installments to be forwarded to the state treasurer of Washington, Olympia, who is *ex-officio* treasurer of the board of regents."

If it is the desire of the legislature to continue to receive the benefits of this Federal act, it will be necessary for the legislature to pass a resolution at this session following closely the lines of the resolution signed by me as governor on June 24th, 1914. I have a letter from the secretary of agriculture calling to my attention the necessity for action on the part of your honorable body and am herewith taking the liberty to enclose a draft of a resolution which I am informed, would comply with the law and be satisfactory to the Federal department of agriculture.

Respectfully submitted,

ERNEST LISTER, *Governor.*

H. Lloyd, Alexander McKenzie, J. P. McGlinn, E. L. Minard, B. D. Minkler, W. B. Presby, Phil M. Smith, and W. P. Christensen, Sr.

Senator Sharpstein spoke as follows:

Judge M. M. Godman—the mention of this name calls to memory with us who knew him so many acts of friendship and of good citizenship as to need no other praise, while to those of you who did not know him it is impossible, with my limited ability or within the brief space of an address, to bring home to your minds a full appreciation of him as a friend or a citizen.

It is not necessary, in order that his life's history and great services to this state should become a matter of record, that I should make reference to them now, for a large portion thereof will be found in Hawthorn's History of Washington.

He had many minor offices to which I will not specifically refer but discharged the duties of all with like fairness and marked ability as he did in case of the more important ones.

Born in Missouri, educated in California, he began his career as a lawyer at Dayton, Washington, in 1880. I knew him well and was always proud of his friendship. His legislative services were rendered in the Territorial Council in 1888, the Constitutional Convention, the

House of Representatives in 1891 and 1907. He was superior judge of Columbia, Garfield and Asotin counties for one term and chairman of the public service commission. I had the honor to serve in the legislature with him twenty-four years ago now, of which legislature Judge Frater of the King county superior court was also a member. Judge Frater, Judge Godman and myself were on the Judiciary Committee and that legislature enacted into law all of what was known as Hill's Code. Senators Hutchinson and Flummerfelt of this session were members of that house, and they will join me in the statement that there was no more useful member at that session than Judge Godman.

My father was a member with him of the Constitutional Convention and there sat in that convention such men as Judge George Turner, T. M. Reed, D. J. Crowley, Judge R. O. Dunbar, R. N. Sturdevant and others of like character and ability, and Judge Godman was ranked as a man of power and ability with men like these. Judge Godman was always a democrat and a full believer in the policies of the party of his faith. He was a real partisan, not only in name but in spirit, and there are those of us who did not agree with him who admire him more for being so. He was a resident of Dayton until he moved to Seattle in 1907. In 1912 he became a candidate for the democratic nomination for the high office of governor, and while he and Governor Lister were at that time rivals, they remained, as they had been before, the best of friends, and in the spring of 1913 Governor Lister appointed him a member of the public service commission. His long service to his county entitled him to recognition and to an office which would be some reward to him for all his services up to this time had been in offices in which there was no profit to him.

His characteristics of mind and temperament, together with his legal training and ability, rendered him peculiarly qualified to have discharged the duties of this high office with advantage to the State of Washington and credit to himself. Not long after his appointment, however, he began to show signs of failing health, and was compelled to resign in August of last year and died on November 9th, 1914. In his inability to discharge the duties of this high office, the State of Washington undoubtedly lost the benefit of services which would have been very valuable to the state. In accepting his resignation Governor Lister stated among other things the following: "I personally feel in his withdrawal from the public service commission the state is losing the service of one of its strongest and most able officials."

Judge Godman became interested with others in some Mexican investment and one of his sons was murdered in Mexico. And it is generally conceded by those who knew him best that this circumstance had some influence in hastening his death. He never seemed to have recovered from this shock.

Every fond father erects in his heart a throne he expects to be occupied by each of his sons, as he may have, and if a great misfortune causes one of these sacred places to be made forever vacant, it renders

it impossible for a man thus afflicted to make as brave a fight against disease as it is for a man who has not suffered any of the great bereavements of this life.

The entire life of Judge Godman is a reminder to every man who seeks and attains public office that he should so discharge the duties of his office and his duties as a citizen that it can be truthfully said of him, as it was said and always will be said of Judge Godman by both his political opponents and his political associates, "Well done, thou good and faithful servant." The state loses a good man. Many of us here and elsewhere in this state lose a friend.

"Friend after friend departs;
Who hath not lost a friend?
There is no union here of hearts,
That finds not here an end.
Were this frail world our only rest,
Living or dying, none were blest.

Beyond the flight of time,
Beyond this vale of death,
There surely is some blessed clime
Where life is not a breath
Nor life's affections transient fire,
Whose sparks fly upward to expire.

There is a world above
Where parting is unknown—
A whole eternity of love
Formed for the good alone;
And Faith beholds the dying here,
Translated to that happier sphere."

Senator White spoke as follows :

We assemble here today to pay a just debt of gratitude, admiration and love to our departed statesman.

Mr. president, but a short period has lapsed since the late Senator Wilbur D. Cotter, of the Twenty-fifth Senatorial district, was a member of this legislature, and I, having been called to occupy his seat in the Senate, and in accepting the charge, I did so conscious of my inability to cope with his master mind. He was a legislator of rare ability.

Senator Cotter was one of those to early join the march of civilization into the west, locating in the city of Puyallup in 1887. He was an unusual public spirited man, serving for many, many years in public life of his home city in various capacities. He, at the time of his death was heavily interested in the famous Puyallup valley; in almost every institution of his city, besides having large holdings of agricultural investments in eastern Washington. He was a director and officer in the Western Washington Fair Association, of Puyallup, and of the Puyallup and Sumner Fruit Growers' Association, and director of the

Citizens' State Bank of Puyallup. He was elected to the State Senate in 1913, and was called by the Grim Reaper of Death November 10th, 1914, leaving to mourn his loss an honored family of wife and five children.

In talking with Senator Cotter he at many times had spoken of the many pleasant experiences in the Senate of 1913, and always could tell of some good and enobling qualities of all brother senators, and had he lived it would have been the ambition of his life to have written into the code of this state such laws as would make for the betterment of farm life in the rural districts, and have made easier the onward march of civilization of the young men and women of today. He was particularly interested in the betterment of the State's Soldier's Homes and Colony, and all of the state's great educational institutions. Such men and characters are truly the atlas on whose shoulders rest the construction in a new state of a popular form of government for the whole people, regardless of their varied occupation.

It is lamented that he should be called at the noontide of his life, when the afternoon time was filled with so many beautiful hopes and higher ideals, such as a pure mind and clean character can justly look forward to.

Any individual or character is but an atom—he is born—he acts—he dies, but his principles are eternal. His life was truly a contest over the great principle of good will to his fellowmen and obedience to his Creator. His ideal of wealth was that it should be created by honest toil, and such an ideal is the law of success. He was a man always ready and willing to bear his own share of the burden of government that protected him, and believing that he who is not thus willing is worthy of no right under this government.

He was a man of unusual character and courage, yet he was as tender-hearted as a child for those in need or distress, contributing liberally to their needs and comfort. Character such as the late Senator Cotter possessed is higher than genius; is greater than wealth; and more to be admired than fame. During his long illness he met his friends cheerfully and with the same courageous spirit that he had fought the battles of life, never yielding to what he, for many days knew would be the call of the Great Reaper of Time. As he lived, he died. Proudly and unshrinkingly he passed beyond our horizon to that great realm of silence or of joy, and he has left with us his wealth of thought and deed. The memory of a brave, courageous and honest statesman who bowed alone to death.

Representative Davis spoke as follows:

Mr. President, Mr. Speaker and Gentlemen:

At each session of the legislature it is the custom to set aside a time to pay tribute to former members and to many of us, this is a most solemn occasion.

Today we come together to pay our tribute to the memory of those who have passed out during the past two years.

It has been assigned me to speak a few words in memory of the Hon. Frank Sweet, a member of the 1909 and 1913 legislatures from Pierce county.

Frank Sweet was my friend. I first met him in 1892, twenty-three years ago. We were fellow railroad men and worked together day by day. I knew him well. His word was good as gold and he never shirked from duty. He was courageous, honest and a man of sound judgment. As a member of the House, he was universally respected. As a citizen, he was respected by all who knew him. In his death, the State of Washington suffered a great loss.

I often think on such occasions as this, that we should take to ourselves a lesson and remember more tenderly those who are still living. I remember the lines of a poet which all might heed:

"Oh, friends, I pray tonight,
Keep not your kisses for my dead, cold brow,
The way is lonely, let me feel them now.
Think gently of me; I am travel worn—
My faltering feet are pierced with many a thorn.
Forgive, oh, hearts estranged, forgive I plead.
When dreamless rest is mine
I shall not need the tenderness for which I long tonight."

The president of the Senate spoke as follows:

"No loss without some gain,
No death shall be in vain."

Their going out may remind us of the flickering and how soon extinguished is the flame of life, but in the generous economy of that Providence which permits nothing to be lost, their lives intermingle with the meditations of those who come after them, inspiring virtuous deeds and aspirations, and cheering and blessing humanity as it moves in successive generations of toil and conflict, of achievements and disappointments, of joys and pleasures, of sickness and sorrow, of pain and death, to

"That one far off divine event
To which the whole creation moves."

The life work of these men has ended, and they will be missed by families, neighbors and state.

To their families they have left more than princely fortunes, for they have lived useful lives; their names were revered and respected by their neighbors; and their public acts are written on our statute books.

In the beautiful valley of the "Wallas," on the plains about Spokane Falls, along the Columbia and its tributaries, on the shores of the great inland sea, from whose sands the great mountain range of the Olympics rear their rugged forms and to the southward that mighty sentinel rears its head far above the clouds from whence one may look

down upon the elements in their fierce battles, and whose crest is daily painted with the rich glow of a rising and descending sun; here in the fertile valleys the pioneer found lodgment, and here just at the head of the placid waters of Puget Sound, where is had the finest view of the majestic mountains, the fathers made up of the strong and virile manhood of the best families of eastern states and provinces, and of the northern countries of Europe, met under such awe-inspiring influences to enact the first laws for a new territory, named for the father of our country.

Amidst such surroundings, promising such rich blessings from nature's storehouse of field and forest, of mine and camp, it is not strange that those men gave to the state the very best that was in them.

Some of you have seen a picture representing a shell drifted to a lonely strand in the light of the breaking dawn, from the spaces of a dark and solitary sea, and in the hollow of this shell, cast up by the mysterious Tide of Life, there lies the figure of a naked, newborn babe, while underneath the picture appears the inscription,

"From an unknown shore."

Had I the power to do so, I would paint a companion to this pictured allegory, and it should represent another strand lurid in the flame-lined shadows of an angry sunset, looking out upon a tideless ocean, wrapped in the curtains of night, black and impenetrable.

And from this ominous shore, a countless multitude are ceaselessly embarking, each in his narrow craft of sable hue, lonely, unwillingly, upon the pulseless breast of the ebon deep, to be swallowed up in its mysterious void.

The voyagers are of all ages and conditions, young men and maidens, old men and children, babes and sucklings, each takes its solitary way into the darkness; and when I had painted this picture, I would write under it the words,

"To an undiscovered country."

Does death end all?

This question for thousands of years unanswered, save by faith is the same question that stirs men's souls today, as it did that of the patriarchs of old.

What may have been our past existence, if any, is blotted out, and human memory cannot recall.

What will be our future state is also hidden from finite mind, except as through eyes of faith, we may penetrate the curtains that surround this life and shut out alike the future and the past.

But this we know, there is a today. Yesterday is gone and gone forever, tomorrow may never come.

Whatever be our religion or our creed, our hopes or fears, this we know, we can serve humanity today.

Whether death be the end of all, or whether it be but wafting the soul across the silent river to elysian fields of pure delight.

Whether from those fields the soul looks down upon our work here, or communes with those that are left, yet we know it is the end of earthly activity; and the world's work must be carried on by living, breathing, thinking people.

And be your faith what it may, to the followers of the Nazarene, there is solace in the promise, "Inasmuch as ye did it unto one of the least of these" that ought to impel us to constant labor for the amelioration of our race and strive to bring about those conditions that will give the greatest prosperity and highest degree of happiness to the largest number of our people, that we may deserve the approbation of our neighbors and the commendation of our God.

Others have spoken of those three splendid men who departed from this life while engaged in public service, while to me is allotted the duty of speaking of those whose several services to the state and people covers a period of more than a quarter of a century; and by reason of the large number of them, as well as the individual memoriams to follow, it will be necessary as well as desirable that I treat them collectively.

It required cool heads and strong hearts, big minds and steady nerves, integrity of purpose and loyalty to duty, to shape the constitution and statutes of our state. The people called for such men and the call was not in vain, for in response, there came forth such men as Godman and Cosgrove, Turner and Stiles, Sharpstein and Reed, Dunbar and Eldridge, McReavy and Clothier, Browne and Blalock, Dallam and Moore, Sullivan and McCroskey, Kinnear and Henry, Fairweather and Hoyt, together with others, many of whom have already passed from the scene of their earthly activities.

We are wont to say, men were more patriotic in those days.

The men who launch a state along right lines are of no higher order of patriotism than are those who strengthen it and enlarge and multiply the powers and opportunities and pleasures and possibilities of the people who thereafter constitute the state.

Fully as high a degree of patriotism is demanded to develop a state, and direct its successful operation as was required to conceive it and write its constitution.

Whether the high standard fixed by the founders, shall be maintained, depends upon the patriotism of those present in this chamber today.

During the public service of those whose demise we this day commemorate, we have emerged from a territory to statehood—our bleak and barren prairies have budded forth into vast orchards and waving grain fields—our sparse clearings, into splendid farms and dairies, our struggling hamlets and villages into populous cities of vast commercial importance and beautiful happy homes—our placid waters into mighty harbors, where ride the ships of all nations, while on their banks are the great salmon fisheries of the world. In commercial conquest, industrial development and political advancement, our state has been the wonder of the age.

Well may we pause in our triumphant march, upon this sad occasion and reflect upon the course we have traveled and pay due homage to the disappearing generation of men who aided in bearing along our craft in what has been our first quarter century of statehood and real development.

I have no apprehensions for the future. We are young and vigorous as a state, hopeful and buoyant as individuals, like boys at play we almost forget the laws of health and safety.

Too often have we forgotten the inexorable law that requires payment in kind. Too easy have we found it to put off the day of payment.

I am not a pessimist.

The people of the Evergreen state will redeem their every pledge.

Every bond of county, city and district, will be met.

Our every institution will be maintained, our every department will spend less than its revenue, and today honoring the memory of departed patriots, we will receive a new baptism of patriotism, and reconsecrate ourselves to public duty, and with a firm resolve do those things that will add glory and lustre to the fair name of Washington.

It was a pleasing pastime in boyhood's happy hours to wander through the old churchyard and read the epitaphs engraved on the marble slabs that marked the resting place of the dead.

May I ask that you wander through the constitution of our state and the labyrinth of statutes and read the epitaphs these men wrote while they still lived.

If I could I would chisel deep in the hearts and minds of men in letters of living fire, that epitaph written by those men into the constitution of our state, and which constitutes a part of the Bill of Rights.

"A frequent recurrence to fundamental principles is essential to the security of individual right and the perpetuity of free government."

Rev. James H. Edgar, of the United Presbyterian church, of Olympia, pronounced the benediction.

To the Senate and House of Representatives of the State of Washington and Oregon:

We, your Joint Committee, heretofore appointed to confer, concerning legislation, with reference to the fishing industry in the waters and streams over which said states have concurrent rights and jurisdiction, beg leave to submit the following report:

We recommend that all laws, appertaining to commercial fishing, in the waters and streams, over which said states have concurrent rights and concurrent jurisdiction, shall remain unchanged, except in the following particulars, to-wit:

That the Columbia river district shall consist of the waters of the Columbia river, and its tributaries within the confines of the states of Washington and Oregon, where the same are state boundaries.

That it shall be unlawful to take or fish for salmon, except with hook and line, in any of the tributaries of the Columbia river within one mile below the mouth of the Klama river, Wind river, Little White Salmon river and Big White Salmon river. No fish traps shall be located nor used within three miles below the mouth of Lewis river, but fishing with gill nets shall be permitted to a point one mile below the mouths of all of said rivers, and one-quarter of a mile out from where the same empties into the main stream.

That it shall be unlawful in the use and operation of a set net to create any artificial eddy, or erect any structure or obstruction for such purpose.

That no license for taking or catching salmon or other food or shell fish shall be issued to any person who is not a citizen of the United States, unless such person has, in good faith, declared his intention to become a citizen, and is, and has been an actual resident of the state for one year immediately preceding the application for said license, nor shall any license be issued to a corporation unless it is authorized to do business in the state, where the application for such license shall be made.

That nothing contained in this suggested act shall be construed to prevent the issuance of licenses to women, minors of the age of eighteen or over, or to Indians, providing such applicants possess the qualifications of citizenship, and residence required under the suggested act, nor preventing the renewal of licenses on fixed appliances by persons now holding the same.

That in the event both states shall provide the same qualifications relating to citizenship, and length of residence, in each state, then, and in that event, all gill net licenses, issued by the state of Oregon and Washington shall be valid as to the waters of the Co-

lumbia river in the States of Washington and Oregon, as though issued by the fish commissioners of the States of Oregon and Washington, and in that event, the department of fisheries, of each state, or the official who has charge of issuing such licenses, shall furnish to each other the name of the licensee, and the number of his license without cost or expense to either state.

That it shall be unlawful for any person to fish or take for sale, or profit any salmon, sturgeon, or other food fish, in any of the rivers or waters over which the States of Oregon and Washington have concurrent rights, and concurrent jurisdiction, unless such person be a citizen of the United States, or has declared his intention, in good faith, to become such, and has been for one year immediately prior to the time he makes application an actual resident of the state from which he seeks to obtain his license.

We further recommend that each of the states represented in this committee shall provide suitable provisions for determining the qualifications of the applicant making such application.

That all license fees and fines, collected under the provisions of the law suggested, and recommended by this report, shall be paid into the state treasury, and be known as the "fisheries fund," and that all moneys so collected shall be used for the propagation, protection and perpetuation of the food and shell fishes, and the administration and enforcement of the laws suggested, and recommended in this report.

That we recommend that the license and all other fees shall be as follows:

Each person, firm or corporation buying, selling or otherwise dealing in salmon and other food or shell fish, at wholesale, shall pay to the fish commissioner one dollar per gross ton for each ton or fraction thereof, so bought, handled, preserved or cured, during the preceding calendar year.

We further recommend that legislation be enacted, providing that every person, firm or corporation, operating any of the appliances hereinbefore mentioned, except gill nets, set nets and trolling lines, in the waters hereinbefore mentioned, shall, in addition to the license fees, hereinbefore suggested, pay to the state for the food and shell fish taken from said waters as follows:

the rate of \$5.00 per thousand, and for Chinook salmon caught in said river after August 26th, and for tye, king, black or spring salmon, and black mouth salmon at the rate of \$3.00.

For each one thousand or fraction thereof of steel-head salmon at the rate of \$3.00 per thousand.

For each one thousand, or fraction thereof, of sockeye, blue-back or Quinault salmon, at the rate of \$1.50 per thousand.

For each one thousand, or fraction thereof, of sliverside or Cohoe salmon, chum or fall salmon at the rate of \$1.00 per thousand.

For each 100 pounds, or fraction thereof, of smelt, herring, or shad, three cents for each 100 pounds, or fraction thereof. Shrimps, fifteen cents.

For each sturgeon, seven and one one-half cents.

For each gross of crabs, ten cents.

For each ton of clams, gross weight, in shells, 75 cents.

We further recommend that throughout the weekly closed seasons and closed periods, each pound net, or fish trap, shall be closed by an apron placed across the outer entrance to the heart of the trap or pound net, which apron shall extend from above the surface of the water to the bottom of the water, and shall be securely connected between the piles on each side of the heart of said trap or pound net, fastened by rings not more than two feet apart on taut wires, stretched from to the bottom of the piles, and such apron shall be provided with such signals as will show that the same is closed.

We further recommend that suitable criminal legislation shall be enacted to provide for the enforcement of the above provision, and that it be made a misdemeanor for any person to violate any of said provisions, and upon conviction such party or parties shall be required to pay a substantial fine, not less than \$250.00.

We further recommend that it shall be made unlawful for any person, firm or corporation to purchase any food fishes, of any variety, unlawfully taken from the waters hereinbefore mentioned, during any of the closed seasons prescribed, and that any person who purchases any such fish, during said periods, shall be guilty of a misdemeanor, and shall, upon conviction, be fined not less than \$100.00.

We further recommend that a bounty of \$1.00 shall be paid for seal scalps, the same to be paid by the fish commissioner, or fish warden of the State of Washington or Oregon, or such other official as shall be authorized and directed to pay the same, by the Legislatures of said states, upon proper proof being presented to said official, and the manner of proof to be provided by said legislatures, and that the sum of \$1000.00 shall be appropriated annually by each of said states for the purpose of carrying out said provision.

We further recommend that any person, or persons, shall have the right to take clams, crabs and mussels in any of the waters hereinbefore mentioned, for the use of such person individually, and for the use of his family or guests, at all times without license.

We further recommend that provisions be made in the law hereinbefore suggested to provide that nothing in the game code of either state shall be construed as affecting the commercial fish laws.

In conclusion, we suggest and recommend that a suitable bill, or suitable bills, be drawn immediately to present to the Legislatures of the states hereinbefore mentioned, carrying out the recommendations hereinbefore made, and that said bill, or bills, carry an emergency clause so that the same shall be immediately effective as the fishing industry of the states mentioned will be hindered and injured unless such laws as we have suggested shall go into immediate effect, and that this report be immediately adopted, by resolution of both houses of each Legislature.

We further recommend that a resolution be passed by the Legislatures of Washington and Oregon, whereby the ratification by congress of the laws of the States of Oregon and Washington shall act as a treaty between said states, subject to modification only by joint agreement of said states. Respectfully submitted,

When the name of Senator Hutchinson was called, he arose and moved for permission to explain his vote, which was granted on a rising vote.

Senator Hutchinson stated as follows: "I vote no on House bill No. 39, for the reason that it gives away the state's rights in those lands and is the same old oyster land grab that we have combated here for the last twenty years."

When the name of Senator Iverson was called, he, being granted unanimous consent, made the following statement: "I vote aye for this bill with the understanding that the title to the land was acquired before 1890."

There being no objection the title of the bill was ordered to stand as the title of the act.

Those voting nay were: Senators Brown, Cleary, French, Jones—4.

Not voting: Senator Nichols—1.

When the name of Senator Cleary was called, he arose, and by unanimous consent of the Senate, made the following statement:

"Before voting on this question I desire the record to show that my opposition to the confirmation of the appointee is not because of anything personal so far as I am concerned, but Mr. Darwin's record as an official publicly known in Whatcom county is such that I feel I would be doing an injustice to my constituents to participate in his confirmation. I have refrained from filing charges against the fish commissioner largely for the reason that an investigation of the same would be expensive to the state and require considerable of the time of the senators whose legislative services are very important to the people of the State of Washington.

"The responsibility for the appointment is with the governor, and as a member of this Senate I wish to disclaim any responsibility for Mr. Darwin's confirmation.

"I therefore vote 'No.'"

The courtesies of the Senate were extended to former Senator White, of Whatcom county.

A roll call was demanded by Senators Nichols, Landon, McGuire, Scott, Iverson, Leonard, Groff on the motion by Senator Nichols, as amended by the motion by Senator McGuire.

The secretary called the roll on the amendment by Senator Nichols, as amended, and it failed to carry by the following vote:

Those voting aye were: Senators Bethel, Brown, Burton, Cleary, Davis (Walter S.), Flummerfelt, Hall, Iverson, Kleeb, Landon, Leonard, McMillan, McGuire, Metcalf, Nichols, Phipps, Steiner, Sutton, Weatherford, Wende—20.

Those voting nay were: Senators Boner, Campbell, Carlyon, Chase, Davis (Lincoln), Fairchild, French, Ghent, Groff, Imus, Jones, McCoy, Palmer, Scott, Sharpstein, Smith, Stevenson, Taylor, Wells, White, Wray—21.

Senator Nichols moved to amend the bill, by inserting a new section to be known as section 12, as follows:

"Sec. 12. Extension of Utilities in Municipalities. Whenever the legislative authority of any municipality shall deem that the public necessity and convenience require the extension of the system, plant, works, tracks, or other facilities of any public service company operating under authority of a franchise or franchises granted by the municipality, and the public service company holding such franchise or franchises shall fail, neglect or refuse to make the extension, or shall fail, neglect or refuse to apply for or accept from the municipality a new or additional franchise in cases where the operation and maintenance of the needed extension is not authorized by the existing franchise or franchises, the legislative authority of such municipality may by ordinance declare that the public necessity and convenience require the extension of the system, plant, works, tracks, or other facilities of the public service company, and in such ordinance, or in a separate ordinance may, without any application from the public service company, offer to grant a franchise authorizing the construction, maintenance and operation of such extension, designate therein the location and nature of such extension, the time within which it must be completed, the terms and conditions upon which such public utility may be permitted to occupy the streets, highways or other public property within such municipality, and provide for a penalty for non-compliance with the provisions thereof, and for all such other terms and conditions as it may consider proper and advisable. If the public service company affected shall fail to accept the franchise so offered within the time fixed in the ordinance for its acceptance, which time shall in no case be less than thirty days after the date the ordinance becomes effective, such public service company or any qualified complainant, as provided in said chapter 117, Laws of 1911, may complain to the commission. If the commission after notice and hearing as in other cases shall find that the public necessity and convenience require the construction, maintenance and operation of the extension demanded, and that a reasonable franchise therefor has been offered and not accepted, the commission shall make an order requiring the construction and operation of such extension upon the terms and conditions contained in the franchise offered; or if the commission shall find that the franchise is unreasonable, the commission shall then make an order requiring the construction and operation of such extension upon such other terms and conditions as the commission, after hearing and investigation into all the facts, shall find just and reasonable: provided, however, that said last mentioned order shall not become effective unless such other terms and conditions, so found to be just and reasonable, shall be approved by the legislative authority of such municipality by ordinance. Upon the approval thereof, as aforesaid, such order of the commission shall be in full force and effect.

"When extensions of street railway lines are made under orders of the commission, the commission in its order, or at any subsequent time after notice and investigation, may provide and require that the tracks so constructed may be used jointly by the company or companies constructing the same, its or their assignees or grantees and any other street railway company, or municipality, upon such terms and conditions as the commission shall find just and reasonable.

"Findings and orders of the commission made under this section may be reviewed as other findings and orders of the commission."

Senator Nichols moved a call of the Senate, seconded by Senators Scott and Smith.

The sergeant-at-arms locked the doors of the Senate chamber.

The secretary called the roll, all members being present.

Senator Taylor made the point of order that the amendment offered by Senator Nichols is Senate bill No. 342 intact.

The president ruled the amendment out of order for the reason that the amendment was not germane to the subject matter embodied in the bill under discussion.

Senator Nichols appealed from the decision of the chair, seconded by Senators Iverson and McGuire.

Senator French was called to preside.

Senators Nichols, Groff, Taylor, Landon, McGuire, Fairchild and Ghent moved for a roll call on the appeal from the decision of the chair.

The secretary called the roll on the question "Shall the decision of the chair stand as the judgment of the Senate," and the chair was sustained by the following vote:

Those voting aye were: Senators Bethel, Boner, Campbell, Carlyon, Chase, Cleary, Davis (Lincoln), Davis (Walter S.), Fairchild, Flummerfelt, French, Ghent, Groff, Hall, Hutchinson, Imus, Iverson, Jones, Kleeb, Landon, McCoy, McMillan, Palmer, Scott, Sharpstein, Smith, Steiner, Stevenson, Sutton, Taylor, Weatherford, Wells, White, Wray—34.

Those voting nay were: Senators Brown, Burton, Leonard, McGuire, Metcalf, Nichols, Phipps, Wende—8.

Senator Nichols moved to amend the bill by inserting a new section 12, as follows:

"Sec. 12. Whenever the legislative authority of any municipal corporation shall deem that the public necessity and convenience require the extension of the system, plant, works, tracks, or other facilities of any owner or operator operating a public utility under authority of a franchise or franchises granted by the municipal corporation, and the public service company, holding such franchise or franchises shall fail, neglect or refuse to make the extension, or shall fail, neglect or refuse to apply for or accept from the municipality a new or additional franchise in cases where the operation and maintenance of the needed extension is not authorized by the existing franchise or franchises, the legislative authority of such municipal corporation may by ordinance declare that the public necessity and convenience require the extension of the system, plant, works, tracks, or other facilities of the owner or operator, and in such ordinance, or in a separate ordinance may, without any application from the public utility, offer to grant a franchise authorizing the construction, maintenance and operation of such extension, designate therein the location and nature of such extension, the time within which it must be completed, the terms and conditions upon which such public utility may be permitted to occupy the streets, highways or other public property within such municipality, and provide for a penalty for non-compliance with the provisions thereof, and for all such other terms and conditions, as it may consider proper and advisable. If the owner or operator of the public utility affected shall fail to accept the franchise so offered within the time fixed in the ordinance for its acceptance, which time shall in no case be less than sixty days after the date the ordinance becomes effective, such public service company or any qualified complainant, as provided in section 5 hereof, may complain to the commission. If the commission after notice and hearing as in other cases shall find that the public necessity and convenience require the construction, maintenance and operation of the extension demanded, and that a reasonable franchise therefor has been offered and not accepted, the commission shall make an order requiring the construction and operation of such extension upon the terms and conditions contained in the franchise offered; or if the commission shall find that the franchise is unreasonable, the commission shall then make an order requiring the construction and operation of such extension upon such other terms and conditions as the commission after hearing and investigation into all the facts, shall find just and reasonable: Provided, however, That said last mentioned order shall not become effective unless such other terms and conditions, so found to be just and reasonable, shall be approved by the legislative authority of such municipality by ordinance. Upon the approval thereof, as aforesaid, such order of the commission shall be in full force and effect.

"When extensions of street railway lines are made under orders of the commission, the commission in its order, or at any subsequent time after notice and investigation, may provide and require that the tracks so constructed may be used jointly by the company or companies constructing the same, its or their assignees or grantees and any other street railway company, or municipality, upon such terms and conditions as the commission shall find just and reasonable.

"Findings and orders of the commission made under this section may be reviewed as other findings and orders of the commission."

Senator Davis (L.), moved that further consideration of Senate bill No. 300, under the call of the Senate, be dispensed with.

The motion failed to carry.

A roll call was demanded by Senators Nichols, Hall, Landon, McGuire, Iverson, Burton, Groff, on the motion by Senator Nichols, to insert a new section 12.

The secretary called the roll, and the motion was lost by the following vote:

Those voting aye were: Senators Burton, Davis (W. S.), Flummerfelt, Hutchinson, Iverson, Landon, Leonard, McMillan, Metcalf, Nichols, Phipps, Scott—12.

Those voting nay were: Senators Bethel, Boner, Brown, Campbell, Carlyon, Chase, Cleary, Davis (Lincoln), Fairchild, French, Ghent, Groff, Hall, Imus, Jones, Kleeb, McCoy, McGuire, Palmer, Sharpstein, Smith, Steiner, Stevenson, Sutton, Taylor, Weatherford, Wells, Wende, White, Wray—30.

On motion of Senator Taylor, the bill was amended in section 1, line 20, page 1 of the original bill, commencing with the word "The" by striking the balance of the section.

The president resumed the chair.

Senator Palmer moved that the sections be renumbered so as to make them conform.

The motion carried.

The previous question was moved by Senator Wray, seconded by Senators Groff and Jones.

The previous question carried.

The secretary called the roll on the final passage of Senate bill No. 300, as amended, and it passed the Senate by the following vote:

Those voting aye were: Senators Bethel, Campbell, Carlyon, Chase, Davis (Lincoln), Fairchild, French, Ghent, Groff, Hutchinson, Imus, Jones, McCoy, Metcalf, Palmer, Phipps, Sharpstein, Smith, Steiner, Stevenson, Sutton, Taylor, Weatherford, Wells, White, Wray—26.

Those voting nay were: Senators Boner, Brown, Burton, Cleary, Davis (W. S.), Flummerfelt, Hall, Iverson, Kleeb, Landon, Leonard, McMillan, McGuire, Nichols, Scott, Wende—16.

When the name of Senator Iverson was called, unanimous consent being granted, he made the following statement:

"I believe this bill is wrong, absolutely wrong, and to go to the great expense of submitting this bill to a referendum vote would be repudiated by the people. I am convinced that it will be a large expense for nothing and a travesty on the feelings and intelligence of the people of this state. The submitting of this bill, is, as far as I can understand not a right move. It places me in this position: If I vote against it, it might appear like I was not willing to submit this to a referendum vote; if I vote for it I give my sanction to a wrong bill. In voting against this bill I want it distinctly understood I have no objection to submitting it. The bill, I believe, will be killed by the people. I believe in the referendum vote; but this bill is wrong. I vote no."

When the name of Senator McGuire was called, unanimous consent being granted, he made the following statement:

"I am opposed to this bill. I believe that an intelligent solution of the questions involved in this bill requires expert investigation and a great change in this bill which cannot be had by proposing this measure which the people must accept or reject as proposed. I vote no."

When the name of Senator Steiner was called, unanimous consent being granted, he made the following statement:

"MR. PRESIDENT:

I desire to explain my vote. The people of this state by a very large vote adopted the referendum and look upon the initiative and referendum as the safeguard of their rights and liberties. That law is founded upon faith in the judgment of the people. If the referendum means anything, it means that questions of great public importance, concerning which there is a radical difference of opinion, may be referred to the people for their decision. This is such a question. To deny the exponents of this bill the right of reference, is to doubt the judgment of the people, and to discredit the referendum. In keeping with what I believe to be the spirit and purpose of the referendum, and not as an expression of my approval of this measure, I vote aye."

On motion of Senator Taylor, the title of the bill was amended by striking period and adding to the end thereof the following: "and providing that this act shall be referred to the people for their approval or rejection at the next general election in November, 1916."

There being no objection, the title of the bill, as amended, was ordered to stand as the title of the act.

At the request of Senator Sharpstein, the secretary read the conclusions of the special committee appointed under Senate concurrent resolution No. 7, to investigate the location and construction of buildings for the feeble minded, near Medical Lake, and for the normal school at Cheney.

On motion of Senator Taylor, the conclusion of the committee under Senate concurrent resolution No. 7, were ordered incorporated in the journal.

The conclusions of the committee follow:

"After completing the investigation of the construction and matter of the location of the new building for the State Normal school at Cheney, we proceeded to Medical Lake, accompanied by Mr. J. L. McCauley, architectural expert, and on February 4th and 5th, held public hearings in the office of the administration building of the State Feeble Minded Institution, regarding the matter of location of the five new buildings authorized by the legislature of 1913, and recently completed.

"From the public hearings and personal inspection of the new buildings, in company with Mr. McCauley, the following evidence and facts were obtained:

"The legislature of 1905 provided for the location of the State Feeble Minded Institution at Medical Lake, as recorded in chapter 70 of the Session Laws, reading as follows:

"The location of the said institution shall be near Medical Lake, in Spokane county, Washington, and shall be on land now owned by the State of Washington, and within two miles of the Eastern Wash-

ington Hospital for the Insane, and shall be under the immediate supervision of the superintendent of the Eastern Washington Hospital for the Insane, subject to such rules and regulations as may be prescribed by the state board of control.'

"This institution remained under the direct management of the superintendent of the Eastern Hospital for the Insane, up until the year of 1907, when, by an act of the legislature it was created a separate department and placed under the management of Mr. S. G. Woodruff.

"In the year 1911, the legislature made an appropriation of \$25,000 with which to purchase additional land for the feeble minded home used for agricultural purposes. During the year 1912, two pieces were purchased, one tract of 154 acres, known as the Hague tract, which adjoins the property of the Eastern Hospital for the Insane, on the south side, and close by the present old buildings of the feeble minded home, and a second tract of 320 acres, known as the Tate place, situated about one and one-half miles still further to the south of the Hague property.

"In 1913, the legislature on presentation of the needs of the feeble minded home, by Mr. Woodruff, appropriated \$230,000 to be used in the construction of the new buildings. Mr. Woodruff's presentation of this matter included a general outline of the buildings that were needed and a plan which contemplated by the installing of possibly one new boiler in the central heating plant then in use, to provide heat for the new buildings and his plan also contemplated the making use of the old laundry and bakery, to take care of the requirements of the new buildings. Mr. Woodruff further stated that his plans were the result of ideas he had gathered after years of experience and an extended trip to many similar institutions throughout the United States.

"The site on which the old buildings are situated is in a natural grove of trees on a slightly elevated knoll located on the southerly end of the property of the Eastern Hospital for the Insane, and on the bank of Medical Lake. The site slopes gradually from the front of the buildings to the lake and it has slope enough from the rear to insure good surface drainage from the buildings.

"The Hague place purchased in 1912 is located immediately adjoining and south of the old site and that portion nearest the buildings of the feeble minded institution is covered with trees, which in fact are a continuation of the same grove that surrounds the present home. The soil is more or less of a rocky nature and such that will drain off quickly after a rain or a thaw, making a desirable play ground for children.

"After securing the appropriation of \$230,000 from the legislature in 1913, the board of control, with the knowledge of the governor, decided to locate the new buildings provided for in this appropriation on the property known as the Tate place and their plan contemplates the ultimate removal of the entire feebled minded institution from its

present site on the shores of Medical Lake to the Tate property. At the time the appropriation was asked for from the legislature, there was no other thought, as far as we could learn, than to locate these new buildings with the old group. This was the plan that Mr. Woodruff, the superintendent, outlined, and it is the plan that he still approves.

"The board of control employed Mr. Julius Zittel, architect, of Spokane, to provide plans and specifications for five new buildings which were erected on the Tate property. The contract for the construction of which buildings contains the same provision which your committee has heretofore criticised in the report on the Cheney Normal.

"The new structures are located about one and one-half miles from the site of the old home and on the west side of the main highway, leading south from the town of Mineral Lake, and from one to two hundred feet from the road. The ground is slightly elevated above the road, but so slopes downward toward a hill in the immediate rear of the buildings as to cut off the natural drainage, causing water to cover portions of the site in and around the buildings during rainy weather or after a thaw in the spring. Opposite the buildings and across the road, the ground drops off into a marsh, which continues to the bank of Clear lake, about one mile distant. Clear lake is the source of the water supply for the feeble minded institution, the hospital for the insane, and also for the town of Medical Lake. The sewerage from the new buildings is drained into a septic tank which is located on the side of the hill from which the natural drainage is into Clear lake. It is possible and likely for the overflow from this septic tank by either an extra heavy rainfall or by a sudden thaw washing away a large quantity of snow over the frozen ground, to be carried into Clear lake and thereby endangering the health of all those deriving their water supply from this source.

"There are no shade trees on the location of the new buildings and an expenditure of at least \$4,000 or \$5,000 will be required to grade the property, so that the surface drainage will be away from the buildings.

"Mr. H. T. Jones of the board of control, stated that the board had been influenced by the opinions of Drs. Semple and Oliver, of the Hospital for the Insane, in deciding upon the new location for the buildings for the feeble minded home, and the following are some of the principal reasons given by the two doctors justifying the removal of the institution to the Tate place. That on account of the fact that the road to the feebled minded institution leads through the main entrance and over the grounds of the hospital for the insane, the hospital has lost chickens from the barns, apples from the orchards, and tools from the grounds, stolen by persons purporting to be passing through on their way to the feeble minded home. That other strangers

with the same excuse for being on the hospital grounds have taken advantage of the mental condition of different patients to effect trades for personal articles much to the detriment of the patients. That the hospital also has been annoyed by telephone calls which were intended for the feeble minded institution, and that it is unwise to have the children of the feebled minded home located where they can constantly see the buildings of the insane asylum, with its natural depressing effect.

"These are the principal reasons given by the doctors for the locating of the new buildings at some other site than on Medical Lake and for the eventual removal of the entire feeble minded institution from that place.

"We suggested that by building a separate roadway into the grounds of the feeble minded home by coming from the town of Medical Lake around the south end of the lake, that the grounds of the hospital need not be crossed, by persons or guests going to the feeble minded institution, and that by erecting a high board fence, the view of the children at most times could be cut off from the sights of the hospital for the insane, the two institutions being separated by one-half mile, which suggestions if carried out, the doctors admitted would remove most of their trouble.

"In company with Mr. McCauley, the committee personally inspected the five new buildings and found them to be well constructed and built in compliance with the plans and specifications, except in some few minor details. It was especially noted that the mortar used in the brick work was of much stronger consistency than that used in the Cheney Normal School buildings.

"In the basement of the several buildings, we found considerable seepage of water which we were informed will be avoided when the grounds are so graded as to carry the water away from the buildings.

"The general plan of construction is what is called the cottage system, each building has its own heating plant and cooking department, and in each it is expected that a man and his wife can take care of fifty children. The five buildings will accommodate from 250 to 300 children.

"The plan of Mr. Woodruff was for one central heating plant with one central dining room and kitchen and under this plan, the same amount of investment would have provided homes for 400 to 500 children and with no greater amount of help.

"From the foregoing facts and evidence, we have reached the following conclusions:

"(1) There is a grave question as to whether the board of control had any legal right to have located the new buildings on any other site than that of the Eastern Hospital for the Insane. Apparently there has been no law passed changing the location of this institution since the act passed by the legislature of 1905, which states that it

shall be built on the grounds then owned by the state belonging to the Eastern Hospital for the Insane.

"We would suggest that a joint committee be appointed of three members from the Judiciary Committee of the Senate and three members from the same committee on the House, who, in conjunction with the attorney general, be asked to make a report on the legal right of the board of control to have erected these new buildings for the feeble minded home on any other site than that occupied by the old buildings.

"(2) We consider the board of control has made a very grave mistake in the location of the new buildings and in their farther plan to ultimately remove the entire feeble minded institution on to the new site on the Tate place for the following reasons:

"(a) Because that by removing the institutions from the old site on the shore of Medical Lake, they are taking these unfortunate feeble minded children from a beautiful spot with good natural drainage, covered with shade trees close by the lake where they can enjoy beach bathing during the summer season and well removed from the road and the view of the passing public.

"(b) Because by the construction of the new buildings on the old site they would have effected a material saving to the state both in the construction of the buildings and in the management of the institutions after the buildings were occupied; the saving in construction by the making use of the central heating plant of the old group to provide heat for the new buildings with a comparatively small extra investment; the saving in management by having all the buildings close together and easy of access by the superintendent.

"(c) Because the new site on the Tate place is barren of trees and with no natural qualifications for a children's play ground and situated close by the road where the unfortunate children are in more or less constant view of the passing public.

"(d) Because the natural drainage of this new site is towards Clear lake, the water supply of the feebled minded home, the hospital and the town of Medical Lake with the danger of germs being carried into its waters detrimental to those using the same.

"Your committee recommends that the plan of removing the feeble minded institution from the old site on the bank of Medical lake should be abandoned. That such extra buildings as this institution shall require should be constructed adjoining the old group on the Hague property and that legal authority so to do be granted, but that such authority be restricted so that there can be no recurrence of the conditions herein criticised. That a high board fence should be built between the feeble minded institution and the hospital, to be located about a quarter way from the feeble minded home and that the fence should be supplemented by a hedge which will eventually make a screen of trees between the two properties. That all of the property south of the line of the fence and sufficient of the farm land connected therewith, be set aside as a site for the feeble minded home

of sufficient size to make a fair exchange for the Tate place, which we recommend shall be turned over to the Eastern Hospital for the Insane, including the buildings thereon.

"That some arrangement be made whereby the sewerage discharge from these buildings shall have an outlet in some other watershed than that of Clear lake.

"It is also our opinion that the road through the hospital grounds to the feeble minded institution should be closed, and that the entrance to that property should be by the road leading from the town around the south end of the lake, or the road be relocated so that one branch will go to the feeble minded institution and the other to the hospital for the insane, along the front of the lake.

"Your committee further has testimony to the effect that the hospital authorities have refused the institution for the feeble minded the use of any part of three-quarters of a mile of lake front for bathing purposes. We believe that some division of this water front should be made so that the children should have access thereto.

"Respectfully submitted,

RALPH D. NICHOLS,
FRED A. HART."

SECTION 1. That section 5 of chapter 74 of the Laws of 1911 be amended to read as follows:

Section 5. Each workman who shall be injured whether upon the premises or at the plant or, he being in the course of his employment, away from the plant of his employer, or his family or dependents in case of death of the workman, shall receive out of the accident fund compensation in accordance with the following schedule, *beginning on the seventh day after injury*, and, except as in this act otherwise provided, such payment shall be in lieu of any and all rights of action whatsoever against any person whomsoever.

(a) Where death results from the injury the expenses of burial shall be paid in all cases, not to exceed seventy-five dollars (75) in any case, and

(1) If the workman leaves a widow or invalid widower, a monthly payment of twenty dollars (\$20) shall be made throughout the life of the surviving spouse, to cease at the end of the month in which re-marriage shall occur; and the surviving spouse shall also receive five dollars (\$5) per month for each child of the deceased under the age of sixteen years at time of the occurrence of the injury until such minor child shall reach the age of sixteen years, *and for each invalid child until such invalid child shall recover*, but the total monthly payment under this paragraph (1) of subdivision (a) shall not exceed thirty-five dollars (\$35). Upon remarriage of a widow she shall receive once and for all, a lump sum equal to twelve times her monthly allowance, viz: the sum of two hundred and forty dollars (\$240), but the monthly payment for the child or children shall continue as before.

(2) If the workman leaves no wife or husband, but a child or children under the age of sixteen years, a monthly payment of ten dollars (\$10) shall be made to each such child until such child shall reach the age of sixteen years, but the total monthly payment shall not exceed thirty-five dollars (\$35), and any deficit shall be deducted proportionately among the beneficiaries.

(3) If the workman leaves no widow, widower, or child under the age of sixteen years, but leaves a dependent or dependents, a monthly payment shall be made to each dependent equal to fifty per cent of the average monthly support actually received by such dependent from the workman during the twelve months next preceding the occurrence of the injury, but the total payment to all dependents in any case shall not exceed twenty dollars (\$20) per month. If any dependent is under the age of sixteen years at the time of the occurrence of the injury, the payment to such dependent shall cease when such dependent shall reach the age of sixteen years. The payment to any dependent shall cease if and when, under the same circumstances, the necessity creating the dependency would have ceased if the injury had not happened.

If the workman is under the age of twenty-one years and unmarried at the time of his death, the parents or parent of the workman shall receive twenty dollars (\$20) per month for each month after his death until the time at which he would have arrived at the age of twenty-one years.

(4) In the event a surviving spouse receiving monthly payments shall die, leaving a child or children under the age of sixteen years, the sum he or she shall be receiving on account of such child or children shall be thereafter, until such child shall arrive at the age of sixteen years, paid to the child increased 100 per cent, but the total to all children shall not exceed the sum of thirty-five dollars (\$35) per month.

(b) Permanent total disability means the loss of both legs or both arms, or one leg and one arm, total loss of eyesight, paralysis or other condition permanently incapacitating the workman from performing any work at any gainful occupation.

When permanent total disability results from the injury the workman shall receive monthly during the period of such disability:

(1) If unmarried at the time of the injury, the sum of twenty dollars (\$20).

(2) If the workman have a wife or invalid husband, but no child under the age of sixteen years, the sum of twenty-five (\$25). If the husband is not an invalid, the monthly payment of twenty-five dollars (\$25) shall be reduced to fifteen dollars (\$15).

(3) If the workman have a wife or husband and a child or children under the age of sixteen years, or, being a widow or widower, have any such child or children the monthly payment provided in the preceding paragraph shall be increased five dollars (\$5) for each child until such child shall arrive at the age of sixteen years, but the total monthly payment shall not exceed thirty-five dollars (\$35).

(4) *If the nature of the injuries sustained by any workman is such as to cause permanent total disability, and to render such workman helpless and require the constant services of an attendant, the monthly payment for such workman shall be increased twenty dollars (\$20.00) a month.*

(c) If the injured workman die during the period of permanent total disability, whatever the cause of death, leaving a widow, invalid widower or child under the age of sixteen years, the surviving widow or invalid widower shall receive twenty dollars (\$20) per month until death or remarriage, to be increased five dollars (\$5) per month for each child under the age of sixteen years until such child shall arrive at the age of sixteen years; but if such child is or shall be without father or mother, such child shall receive ten dollars (\$10) per month until arriving at the age of sixteen years. The total combined monthly payment under this paragraph shall in no case exceed thirty-five dollars (\$35). Upon remarriage the payment on account of a child or children shall continue as before to the child or children.

(d) When the total disability is only temporary, the schedule of payment contained in paragraphs (1), (2) and (3) of the foregoing subdivision (b) shall apply so long as the total disability shall continue, increased fifty per cent. for the first six months of such continuance, but in no case shall the increase operate to make the monthly payment exceed sixty per cent. of the monthly wage (the daily wage multiplied by twenty-six) the workman was receiving at the time of his injury. As soon as recovery is so complete that the present earning power of the workman, at any kind of work is restored to that existing at the time of the occurrence of the injury the payment shall cease. If and so long as the present earning power is only partially restored the payments shall continue in the proportion which the new earning power

shall bear to the old. No compensation shall be payable out of the accident fund unless the loss of earning power shall exceed five per cent.

(e) For every case of injury resulting in death or permanent total disability it shall be the duty of the department to forthwith notify the state treasurer, and he shall set apart out of the accident fund a sum of money for the case, to be known as the estimated lump value of the monthly payments provided for it, to be calculated upon the theory that a monthly payment of twenty dollars (\$20) to a person thirty years of age, is equal to a lump sum payment, according to the expectancy of life as fixed by the American mortality table, of four thousand dollars (\$4,000), but the total in no case to exceed the sum of four thousand dollars (\$4,000). The state treasurer shall invest said sum at interest in the class of securities provided by law for the investment of the permanent school fund, and out of the same and its earnings shall be paid the monthly installments and any lump sum payment then or thereafter arranged for the case. Any deficiency shall be made good out of it, and any balance or overplus shall revert to the accident fund. The state treasurer shall keep accurate account of all such investments of the accident fund, and may borrow from the main fund to meet monthly payments pending conversion into cash of any security, and in such case shall repay such temporary loan out of the cash realized from the security.

(f) Permanent partial disability means the loss of either one foot, one leg, one hand, one arm, one eye, one or more fingers, one or more toes, any dislocation where ligaments *were* severed *where repair is not complete*, or any other injury known in surgery to be permanent partial disability. For any permanent partial disability resulting from an injury, the workman shall receive compensation in a lump sum in an amount equal to the extent of the injury, to be decided in the first instance by the department, but not in any case to exceed the sum of fifteen hundred dollars (\$1,500). The loss of one major arm at or above the elbow shall be deemed the maximum permanent partial disability. Compensation for any other permanent partial disability shall be in the proportion which the extent of such disability shall bear to the said maximum. If the injured workman be under the age of twenty-one years and unmarried, the parents or parent shall also receive a lump sum payment equal to ten per cent of the amount awarded to the minor workmen.

(g) Should further accident occur to a workman already receiving a monthly payment under this section for temporary disability or who has been previously the recipient of a lump sum payment under this act, his future compensation shall be adjusted according to the other provisions of this section and with regard to the combined effect of his injuries, and his past receipt of money under this act.

(h) If aggravation, diminution, or termination of disability takes place or be discovered after the rate of compensation shall have been

established or compensation terminated in any case the department may, upon the application of the beneficiary or upon its own motion, readjust for future application, the rate of compensation in accordance with the rules of this section, provided for the same, or in a proper case terminate the payments.

(i) A husband or wife of an injured workman, living in a state of abandonment for more than one year at the time of the injury or subsequently, shall not be a beneficiary under this act.

(j) If a beneficiary shall reside or move out of the state the department may, in its discretion, convert any monthly payments provided for such case into a lump sum payment (not in any case to exceed four thousand dollars, (\$4,000) upon the theory, according to the expectancy of life as fixed by the American mortality table, that a monthly payment of twenty dollars (\$20) to a person thirty years of age is worth four thousand dollars (\$4,000), or, with the consent of the beneficiary, for a smaller sum.

If a beneficiary shall remove permanently from the United States, any such lump sum settlement shall not exceed one-half of the reserve for the particular case at the time of such removal.

(k) Any court review under this section shall be initiated in the county where the workman resides or resided at the time of the injury, or in which the injury occurred.

CHAS. TIMBLIN.

To the Sub-Committee of the Joint Committees of the Committee on Educational Institutions of the Senate and the Committee on Education of the House of Representatives of the State of Washington:

GENTLEMEN: At your request I have made as thorough and comprehensive an investigation of the conditions and needs of the University of Washington, of the State College of Washington and of the Normal Schools of the state, as I could in the brief period of two days at my command for this purpose, and have given especial attention to the possibility of unnecessary, costly and probably injurious duplication of departments and courses of study in these institutions.

In this investigation I have been assisted by Dr. Samuel P. Capen, specialist in higher education in the United States bureau of education, who came to the state five days in advance of my coming and has spent some time at the University, the State College and the Normal Schools at Cheney and Ellensburg. Members of your committee and representatives of the several institutions have answered willingly and fully all questions asked of them by Dr. Capen and myself. In making this investigation and in arriving at the brief and tentative conclusions

submitted herewith, I have kept constantly in mind not only the good of each institution, but also the needs of the state's general system of public education and the interest and welfare, present and future, of the people of the state as a whole, of the future services of these institutions and of other agencies of education in the state.

Stated in briefest terms my findings and recommendations are as follows:

No. 1. Apparently both the university and the state college have developed with somewhat too much thought of their own welfare and aggrandizement and too little thought of their reciprocal relations and their special functions in the service of all the interests of the state and its people. Located in widely distance parts of the state and under entirely separate governing boards, it is perfectly natural that in their zeal for their own interests, they should have failed so to adjust their work as to serve the state most fully and most economically. There are, I believe, some unnecessary duplications in the departments and courses of study of the two institutions, but not all duplications are to be considered as such. However, most of the courses offered in each institution are so closely related to other subjects that the elimination of any course, from the curriculum of either institution should be gradual and should be undertaken only after very careful study.

No. 2. The large and varied needs of agriculture and the mechanic industries of various types, in different parts of the state, make the problems of agricultural and technical education in this state more numerous, more complex and more difficult than similar problems in most other states of the union. The solution of these problems and the agricultural and technical education of the largest possible number of young men and young women should be forever the chief purpose and function of the state college at Pullman. There seems now to be especial need for a larger development of the agricultural department of this institution. There should be many more students in agriculture in this state, either in the college or in well developed agricultural schools, than there now are. Before the state college can respond fully to the needs of the state for instruction in agriculture and technology, it must have for use in these departments alone, much more money than its present total annual income.

No. 3. Careful consideration should be given to the advisability of discontinuing the department of elementary science connected with the state college, and of establishing under the direction of the college, two schools of agriculture in different parts of the state. One of these schools should, I believe, be located at Pullman in direct connection with the college and the other in the western part of the state.

No. 4. The state college should strengthen its department of education for the purpose of preparing in larger numbers, teachers and supervisors of agriculture, domestic science, and industries in the high schools of the state. Possibly the university should also strengthen

and enlarge its department of education for the purposes of giving instruction in education to those who are preparing to be professors and instructors in colleges and normal schools, to serve as superintendents and supervisors of public education and as principals and teachers in high schools. Neither the university nor the state college should give a certificate to be accepted as a license to teach in the elementary schools of the state, either in the city or the country, until it has provided opportunities for observation and practice at least equal to those provided by the normal schools.

No. 5. There should be no question as to the advisability of offering women students, in both the university and the state college, courses in domestic science and arts and in home making. Such instruction should form an important part of the higher education of women in any institution not devoted entirely to some special profession or technical subject.

No. 6. Duplication of technological courses could be avoided by centering all or most of this work at the state college, which by the terms of the act creating it, and from the nature of the sources of its income, would seem to be the proper place for them, were it not for the fact that the university is located in a large and rapidly growing city in the most populous part of the state, in which unusually important industrial development must be expected. These conditions have no doubt been responsible to a very large extent for the rapid development of technological courses at the university and it is very doubtful whether the removal of all of this work to the state college should be considered. It does seem, however, that several of these courses should be given in only one institution. This should be a matter for careful consideration, after thorough investigation, by the survey commission recommended in this report.

No. 7. The normal schools of the state are comparatively well supported and are doing most of their legitimate work very well. The chief function of these schools should continue to be the preparation of teachers for the elementary schools, both of the city and of the country. They should not use any large part of their funds for any other purpose until they have succeeded in supplying fully the needs of the state for teachers of this grade. The normal schools are maintained by the taxes of all of the people, to the end that the elementary schools may all have, as teachers, men and women of good education, professional knowledge and technical skill. The same reasons which make it desirable that some of the schools should have teachers of this kind, make it equally desirable that all other schools should have such teachers. It is unjust and wasteful of the public funds and of the time and energy and interests of the children not to provide a sufficient number of competent teachers for all the schools. There seems to be need for an extension and differentiation of the work of the normal schools to meet the newer demands of the public schools. Special attention should be given to the needs of rural schools. As a first step in this

direction, it seems advisable that the elementary courses should be eliminated.

No. 8. The normal schools should as soon as possible cease to give the normal diploma at the end of two years and award it only at the end of three years. Teachers in country schools employing only one, two or three teachers, need a larger degree of scholarship than can be acquired in two years above the high schools when a portion of this time is taken for strictly professional subjects and for practice teaching. No plan for extending the work of the normal schools beyond what is here indicated should be undertaken until a careful survey of the entire educational system of the state has been made as recommended in this report.

No. 9. At the present time the certificates and diplomas of the normal schools are accepted as licenses to teach in the schools of the state for a specified period of years, after which, under certain conditions, these licenses are renewed for another period of years or for life. I recommend that the state board of education, in cooperation with the trustees and principals of the normal schools, make out courses of study to be pursued by the graduates of the normal schools in their periods of probation and that they be required to pass satisfactory examinations in these before having their licenses renewed.

No. 10. To bring about a better understanding between the university, the state college, the normal schools and the public schools of the state, so that all the educational agencies of the state may cooperate more intelligently, I recommend, until a better method may be devised, the creation of a state council of education to consist of two representatives of the board of regents of the university, two representatives of the board of regents of the state college, one representative of the board of trustees of each of the state normal schools, two representatives of the state board of education, the president of the university, the president of the state college, the principals of the normal schools and the state superintendent of public instruction. Each of the boards should elect its representation and no person should represent more than one board or institution. This council should hold at least one meeting each year, the necessary expenses being paid out of the public funds, and should be required to report the results of its deliberations to the several boards or institutions represented. I believe these boards and institutions would give such recommendations very careful consideration, that in this way many misunderstandings might be avoided and that there would be less danger of hurtful competition and a larger amount of intelligent, generous rivalry in the promotion of the general good.

No. 11. There is evident need for a comprehensive survey of the organization and work of the two institutions of higher learning and the normal schools of the state and of such a general survey of the public school system of the state, both urban and rural, elementary and secondary and of the educational development and possibilities of the

state as will serve as a basis for legislation to determine more definitely the proper sphere and functions of the university, the state college and the normal schools and the lines along which each should be encouraged to develop for the better service of the state. I recommend that the legislature provide for a survey commission, with instructions to make such a survey and report to the governor its findings and recommendations not later than April 30th, 1916, and that provision be made for the publication and distribution of the report of the commission among the people of the state. The commission should also be instructed to recommend such legislation in regard to the several institutions as may seem advisable and to suggest necessary readjustments in the distribution of the millage tax and in regard to any additional appropriations. I think an appropriation of \$5,000.00 will be sufficient for the expenses of the commission. I suggest that the sub-committee of the joint committee of the Committee on Educational Institutions of the Senate and the Committee on Education of the House constitute this commission, and that it be given power to employ the necessary experts. If such a commission is created I take pleasure in offering it the services of the bureau of education to assist in the work of the survey.

The State of Washington has from the beginning of its history shown commendable interest in education and has made comparatively liberal appropriations therefor. Its common schools are efficient. It has a large number of good high schools. The state institutions have grown with remarkable rapidity and have rendered much valuable service, but in order that the various educational agencies of the state may continue to render their full service under the conditions that have come about with increase in population and greater maturity in the life of the state, it is essential that every institution have the hearty and ungrudging support of all of the people. When the proper spheres and functions of the several institutions have been determined each institution should be encouraged to develop freely without any kind of partisan, political or sectional obstruction or interference.

Respectfully submitted.

P. P. CLAXTON,

United States Commissioner of Education.

STATE OF WASHINGTON, MILITARY DEPARTMENT,
ADJUTANT GENERAL'S OFFICE, SEATTLE, March 8, 1915.

Lieutenant Governor Louis F. Hart, Olympia, Washington.

DEAR SIR: I desire to express to you and to the members of the State Senate my sincere appreciation of the assistance and support that this department has received at your hands.

The appropriations for the support of the National Guard, provided at this session of the Legislature, will enable me to maintain all organizations in a satisfactory state of efficiency for the next two years. My estimates were based upon a policy of strict economy and I intend to pursue such policy at all times during the period I remain in this office.

It is a pleasure for an appointive state official with as little experience as I have had in dealing with the State Legislature, to find members of that body willing to give serious and courteous consideration to all matters placed before them and to endeavor to provide for the needs of a department in every way possible.

I assure you that every officer and enlisted man in the National Guard of this state is under the greatest obligation for the splendid encouragement they have been given by members of the Legislature.

Sincerely yours,

MAURICE THOMPSON,
The Adjutant General.

MESSAGE FROM THE GOVERNOR.

STATE OF WASHINGTON, OFFICE OF GOVERNOR,
OLYMPIA, March 9, 1915.

To the Honorable, the Senate of the State of Washington.

GENTLEMEN: I am herewith returning to you Senate bill No. 229 without my approval. This is "An act relating to, regulating and providing for the nomination of candidates for public office in the State of Washington, providing for the holding of elections to elect delegates to conventions, providing for the holding of county and state conventions by political parties, defining the powers and duties of conventions and party committees, providing for the election of party committeemen, amending section 4804, 4807, 4809, 4810, 4811, 4826, 4843 and repealing section 4841 of Remington and Ballinger's Annotated Codes and Statutes of Washington."

This bill amends certain sections of the present election law, the changes being substantially as follows:

The declaration of candidacy, which must be filed by a candidate before the primary election, is changed so that the candidate swears that he is affiliated with some certain party and believes in its principles, that if nominated for the office he will accept the nomination and not withdraw unless authorized by the party committee and that he will qualify, if nominated and elected. He further declares that he accepts and will endorse generally the platform adopted by the said party at its last state convention, and agrees to support generally this platform and endeavor to have enacted into law the principles therein enunciated.

This declaration is a statement under oath and binds the party candidate to a platform whether he be in sympathy with all of its provisions or not. It sometimes occurs that the platform may not meet with the approval of the majority of the voters of the party which brings forth the platform at its convention, and it often happens that conditions change between the time of a party convention and the time of election and may undergo a further change between that time and the convening of Congress or of a Legislature, but the candidate has given up his right to think for himself and express his opinions, which opinions may have the endorsement of the great majority of the voters of his party, by pledging himself under oath not to recede from this

platform. It may be said that if parts of the platform are unpopular, they will not be taken up, yet it may be that a minority of the party in the Legislature would be strongly in favor of the objectionable provisions of the platform and force them onto the other members of the party through the pledge in this declaration of candidacy. Again, the platform of the party or some part thereof, might be popular in one section of the state and very unpopular in another, yet all candidates would have to stand on the platform alike or violate their oath.

Candidates for United States Senators and Representatives in Congress might be confronted with the proposition of a state convention declaring certain principles and subsequently a national convention might declare the opposite, yet the candidate for United States Senator or for Representative in Congress would be compelled to go before the people of his state on a platform out of harmony with the party's national platform. Under the provisions of this bill this notice of candidacy covers all offices from United States Senators, Congressmen, state officers, county officers, constables down to precinct committeemen, and all must swear that if elected they will endeavor to have enacted into law the principles as enunciated under the party's platform.

The present law provides that any political organization which, at the general or city election last preceding the primary, was represented on the ballot and any of its candidates received 10% of the total votes cast, is entitled to have a separate primary election ballot as a political party. This is amended so as to provide also, that such political party must, prior to the 10th day of June preceding said primary, have held a state convention at which said party shall have declared its political principles and its legislative program, which platform must be filed in the office of the secretary of state within ten days after the adjournment of the convention.

Section 4 of the bill is new matter and provides for the holding of county and state conventions in May and June respectively in 1916 and each biennial year thereafter; the county committee is to determine the day of the county convention, number of delegates and basis of representation. The state organization of each party shall issue a call for its state convention, specifying time and place, giving notice through the press and mailing a copy to each state committeeman, and the state committee shall determine the number of delegates and fix the basis of representation and number of delegates to be selected in each county, the county convention to select the delegates of the county to the state convention and select one member of the state advisory platform committee; the platform advisory committee to meet the Monday preceding the state convention, hold public hearings and submit to the state convention an advisory platform. It prescribes that it shall be the duty of the state convention to adopt a platform and make a clear and concise statement of its general principles and its general legislative program,

elect delegates to the national convention in 1916, and each presidential year thereafter. The bill further provides that the convention shall have the power to nominate the presidential electors to which the state shall be entitled. It also provides that delegates to the various county conventions herein provided for shall be selected at a caucus held by each political party under the provisions of the present law. No proxies are to be allowed in any conventions provided for in this act.

Section 7 provides for the election of a precinct committeeman and that a candidate for a precinct committeeman may file without charge the declaration of candidacy for that office and thereupon his or her name will be printed upon the ballot. If he or she be elected on more than one ticket the candidate must decline from all except one ticket within five days after the canvass or the office will be deemed vacant.

The bill also provides that each political organization shall have the power to make its own rules and regulations, call conventions, elect delegates to conventions, state and national, and fill all vacancies on the ticket, provide for the nomination of presidential electors, and may delegate the whole or any part of its functions to duly authorized and elected committees and perform all other functions inherent to such organizations the same as if this act had not been passed. It also provides that "no convention held under the provisions of this act shall have any power to recommend, endorse or declare a preference for any candidate for office."

The bill provides for sticker candidates by writing names in on ballots but also provides that no candidate so nominated shall be entitled to have his name printed on the election ballot unless he has been selected as a candidate by a party convention in accordance with the law, or certified by county or state central committee in accordance to law. As this law provides that no convention shall recommend candidates, this section undoubtedly eliminates all sticker candidates from nomination by writing or pasting names on the ballot.

In conclusion and referring to this bill as a whole it does not appear to me that it improves conditions in any respect, in fact to me it seems to be a step backward in the matter of our election laws. The whole tendency of the bill is to throw party restrictions around candidates and bind them closer to party regulation and control, when, as I view it, the tendency of the great majority of the voters is to get further away from such restrictions. It makes the party platform the basis for support rather than the character of the individual who may be a candidate; it takes away the right of the candidate to exercise his judgment in legislative matters and tends to place the control of legislation in the hands of the machine or organization bosses of the majority party.

This bill makes no provision whatever for a presidential primary, a question I believe to be of vital importance at the present time.

For the reasons above stated Senate bill No. 229 is vetoed.

Respectfully submitted.

ERNEST LISTER, *Governor.*

Those voting aye were: Senators Boner, Brown, Carlyon, Chase, Cleary, Davis (Lincoln), Fairchild, French, Ghent, Groff, Hall, Jones, Kleeb, Leonard, McCoy, Metcalf, Nichols, Palmer, Scott, Sharpstein, Smith, Steiner, Stevenson, Sutton, Taylor, Wells, White, Wray—28.

When the name of Senator Imus was called, unanimous consent being granted, he made the following statement:

"Until recently I have always been opposed to the initiative system of legislation, and voted for House bill No. 120 because I thought it would practically put it out of business. Since this bill passed the Senate on the 4th day of March, I have become convinced that it is necessary for the people to reserve unto themselves the right to initiate and pass laws for the public good and the protection of their constitutional rights, in case the legislature should, through inadvertence or otherwise, fail so to do. I now feel that if I vote to pass this bill over the governor's veto, I will, to a certain degree, deprive the people of

their rights granted to them by a direct vote, when they inaugurated the initiative system. I therefore vote 'no.'"

When the name of Senator Steiner was called, unanimous consent being granted, he made the following statement:

"MR. PRESIDENT: A short time before this legislature convened, we were admonished by the supreme court of this state that: 'It has been judicially determined that its former act has no gates to shut out frauds and forgeries, and the citadel of truth and honesty that it undertook to build around the constitutional amendment permitting and encouraging direct legislation is a house of cards.' This legislature would be remiss in its duty to the people of this state if, after this warning, it should adjourn without correcting its infirmities of the present law. Perhaps the bill before us goes further than is necessary to correct the evils complained of, and therefore, imposes unnecessary burdens upon the people in invoking the initiative and referendum. But this condition is preferable to the 'house of cards' to which the present law has been reduced, and as we must now, on the eve of adjournment, accept the relief afforded by this bill or fail entirely of relief, I am constrained to vote 'aye.'"

The secretary read the governor's veto message on enrolled House bill No. 178, together with the bill (both of which are set out in full in the House journal).

The secretary called the roll on the question: "Shall House bill No. 178 pass, notwithstanding the veto of the governor?" and the bill passed the Senate over the objections of the governor by the following vote:

Those voting aye were: Senators Boner, Brown, Carlyon, Chase, Cleary, Davis (Lincoln), Fairchild, French, Ghent, Groff, Hall, Imus, Jones, Kleeb, Leonard, McCoy, Metcalf, Nichols, Palmer, Scott, Sharpstein, Smith, Steiner, Stevenson, Sutton, Taylor, Wells, White, Wray—29.

Those voting nay were: Senators Bethel, Burton, Campbell, Davis (W. S.), Flummerfelt, Hutchinson, Iverson, Landon, McMillan, McGuire, Phipps, Weatherford, Wende—13.

On motion of Senator Flummerfelt, further proceedings under the call of the Senate were dispensed with.

MR. PRESIDENT:

We, your special committee, appointed to investigate the condition of the Senate records, have found all of them to be in excellent shape. The daily journal is complete up to the present minute. The Senate docket is fully posted, containing a complete and accurate record of Senate bills, memorials and resolutions, and of all House measures which have come before the Senate. The enrolling of Senate bills is well advanced, in spite of the fact that practically all of the enrolling has been done within the last sixty hours.

Notwithstanding the limited number of employees, an exceedingly high standard has been set which future sessions will have difficulty in equaling. The excellence of the clerical work this session has been due to the executive ability of F. M. Dallam, Jr., secretary of the Senate, together with his corps of experienced, careful and loyal assistants, who have, without exception, in their conscientious devotion to duty, merited your most praiseworthy commendation.

JOINT RULES OF THE SENATE AND HOUSE OF REPRESENTATIVES.

SESSION OF 1915

CONFERENCE AND FREE CONFERENCE, COMMITTEES ON.

Rule 1. In every case of an amendment of a bill or joint or concurrent resolution, agreed to in one house, dissented from in the other and not receded from by the one making the same, such house shall appoint a committee to confer with a like committee to be appointed by the other, and the committee so appointed shall meet at a convenient hour, to be agreed upon by their respective chairmen, and shall confer upon the differences between the two houses as indicated by the amendment made in one and rejected in the other, and report as early as convenient the result of their conference to their respective houses. If after such a report the two houses shall disagree upon the recommendations of the reporting committees as to their differences between the two houses, a committee of free conference shall be appointed, to whom the whole subject matter embraced in the bill or resolution shall be committed, and the committee of free conference may report by new bill or resolution, or otherwise, and bills or resolutions so reported shall be treated as amendments, unless such bills or resolutions are comprised entirely of original matter, in which case they shall receive the treatment required in the respective houses for original bills or resolutions, as the case may be.

MESSAGES.

Rule 2. Messages from the Senate to the House of Representatives shall be delivered by the secretary or assistant secretary, and messages from the House of Representatives to the Senate shall be delivered by the chief clerk or assistant clerk, who shall be announced by the doorkeeper, enter within the bar, announce or deliver his message.

BILLS; FINAL ACTION ON, HOW COMMUNICATED.

Rule 3. Each house shall communicate its final action on any bill or resolution, or matter in which the other may be interested, in writing, signed by the secretary or clerk of the house from which such notice is sent.

ENROLLED BILLS.

Rule 4. After a bill shall have passed both houses, it shall be duly enrolled by the enrolling clerk of the house in which it originated, and it shall be examined by the enrolling committee of such house, who shall carefully compare the enrollment with the engrossed bill as passed, correcting any errors that may be discovered in the enrolled bill, after which the bill shall be signed by the presiding officer, in open session, of each house, first in the house in which it originated; whereupon, the secretary of the Senate, or the chief clerk of the House, shall present the same to the governor, taking his receipt therefor.

GENERAL BUDGET.

Rule 5. No amendment to the general appropriation bill, commonly known as the budget, adding any new item or items thereto not incorporated in the bill as reported by the Committee on Appropriations, shall be adopted, except by the affirmative vote of two-thirds of the members elected to each house.

DOCUMENTS TO BE TRANSMITTED WITH BILLS.

Rule 6. Each house shall transmit to the other all documents on which any bill or resolution may be founded.

VETOED BILLS.

Rule 7. The veto message of the governor, accompanying any bill passed by the legislature, shall, together with the bill vetoed, be read in the house in which it originated. It shall then be in order to proceed to the reconsideration of the bill, or to postpone its consideration to a day certain. A veto message and a bill, or the message alone, may be referred and the bill laid on the table. The main question in the consideration of the vetoed bill is, "Shall the bill pass notwithstanding the veto of the governor?" If two-thirds of the members present vote "aye," the bill shall be sent to the other house, together with the message of the governor, for its action. The merits of the bill may be debated before the vote is taken, but the vote on a vetoed bill cannot be reconsidered.

JOINT RESOLUTIONS.

Rule 8. Joint resolutions and memorials addressed to congress, or either house thereof, or to the president of the United States, or to the head of any of the national departments, or proposing amendments to the state constitution, up to and including the signing thereof by the presiding officer of each house, shall be treated in all respects as bills.

PRINTING AUTHORITY OF JOINT COMMITTEE.

Rule 9. The standing committees on printing of the two houses shall be a joint standing committee, who shall examine all matters proposed to be printed by concurrent order, and shall report what part of such matter is needful to print, but no other printing shall be ordered except by a concurrent resolution passed by both houses. It shall be the duty of the secretary of the Senate and the clerk of the House to compare the bills introduced in each house before printing, and such bills as are introduced in both houses and are of the same wording shall only be printed in one house.

SPECIAL ORDER.

Rule 10. Senate bills in the House, and House bills in the Senate shall be the special order on Wednesday of each week during the session.

AMENDATORY BILLS.

Rule 11. All amendatory bills shall refer to the section or sections of the official Codes and Statutes of Washington, and supplements thereto, to be amended; bills amendatory of statutes not in such official compilations shall refer to the title of the act to be amended together with the date of approval thereof.

RULE FOR DRAWING BILLS.

Rule 12. Bills introduced in either house intended to amend existing statutes shall have the words which are amendatory to such existing statutes underlined. No bill shall be printed or acted upon until the provisions of this rule shall have been complied with.

JOINT COMMITTEE MEETINGS.

Rule 13. Whenever any standing committee of either house shall desire to arrange for a public hearing upon any subject of legislation pending before such committee, it shall be the duty of the chairman of such committee to consult with the chairman of the corresponding committee of the other house and endeavor to arrange a hearing by the joint committees of the two houses.

He shall sign all writs, warrants and subpoenas issued by order of the Senate, all of which shall be attested by the secretary. He shall have general control of the Senate chamber and lobby, and shall have the right to name any senator to perform the duties of the chair, but such substitution shall not extend beyond an adjournment, nor authorize the senator so substituted to sign any document requiring the signature of the president.
