MESSAGE FROM THE SECRETARY OF STATE.

UNITED STATES OF AMERICA,
STATE OF WASHINGTON, DEPARTMENT OF STATE,

To All to Whom These Presents Shall Come:

I, Ernest N. Hutchinson, Secretary of State of the State of Washington and custodian of the Seal of said State, do hereby certify that the attached are true and correct copies of the veto messages of Governor Clarence D. Martin on Senate Bills Numbers 76, 87, 203, 206, and 305, passed at the Twenty-Fourth Session of The Legislature of the State of Washington.

In Testimony Whereof, I have hereunto set my hand and affixed hereto the Seal of the State of Washington. Done at the Capitol, at Olympia, this eleventh day of January A. D. 1937.

ERNEST N. HUTCHINSON,
Secretary of State.

(SEAL OF THE STATE
OF WASHINGTON)

By CHARLES B. REED,
Assistant Secretary of State.

MESSAGES FROM THE GOVERNOR.

March 23, 1935.

To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to certain sections, Senate Bill No. 76 entitled:

"An Act relating to the organization, management and supervision of savings and loan associations; authorizing associations to procure mortgage insurance from the Federal Housing Administration and savings insurance from the Federal Savings and Loan Insurance Corporation; enabling such associations to correlate with the Federal Housing Administration under Titles II, III, and IV of the National Housing Act; authorizing associations to cancel notices of withdrawal; amending sections 47, 49, 56, 73 and 112 of Chapter 183, Laws of 1933, and declaring that this act shall take effect immediately."

This bill is approved with the exception of Section three, which is vetoed.

Section three was amended by adding thereto the following:

"All profits on insurance written on the loans made by the institution or by any officer or employee or agent of the institution shall be considered as earnings and placed in a proper account and distributed to depositors as other earnings of the institution."

Savings and loan associations are not qualified to be licensed as insurance agents or brokers. The insurance laws prohibit the giving of rebates. To carry out the above quoted provision would amount to the giving of rebates, and would be a violation of the insurance laws. Moreover the provision is so broad that it would seem to apply even to insurance written at the request of a mortgagor and by an agent having no connection whatever with the institution. It is so indefinite that its enforcement would tend to confusion.

The provision is so placed in the section that it can not be vetoed alone. The disadvantages which would result from the quoted provision becoming law would far outweigh any advantages which would result from the remainder of Section three.

For this reason Section three is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

March 23, 1935.

To the Honorable, the Senate of the State of Washington:
(Through the Secretary of State)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to Section 2, subdivision 8 of sub-section 2 of Section 3, and subdivisions 3 and 4 of Section 11, but with my approval as to all other sections, Substitute Senate Bill No. 87 entitled:

"An act relating to intoxicating liquors, providing for the control and regulation thereof, creating state offices, defining crimes and providing penalties therefor, providing for the disposition of public funds, and amending Sections 16, 23, 27, 30, 33, 37, 52, 55, 62, 69, 70, 71, 72, 90, 92 and 93 of Chapter 62 of the Laws of the Extraordinary Session of 1933 of the State of Washington, the same being Sections 7306-16, 7306-23, 7306-27, 7306-30, 7306-33, 7306-37, 7306-52, 7306-55, 7306-62, 7306-69, 7306-70, 7306-71, 7306-72, 7306-90, 7306-92, and 7306-93 of Remington's Revised Statutes, and declaring this act shall take effect immediately."

Section 2 is identical with Section 2 of House Bill No. 148, which has been approved by me, with the exception that Section 2 of House Bill No. 148 contains additional provisions relating to domestic wineries. To permit both Section 2 of this bill and Section 2 of House Bill No. 148 to become law would be unnecessary and tend to confusion. One or the other of such sections should be vetoed. The Washington State Liquor Board has suggested that Section 2 of this bill be vetoed.

It has been drawn to my attention that subdivision 8 of subsection 2 of Section 3 will disqualify, in the smaller cities and towns of the state, many councilmen and mayors who are engaged in the restaurant, hotel or other business where beer or wine is sold as an incident thereto. While it was my understanding that it was not the purpose of this provision to disqualify councilmen or mayors in such cases, the provision would have such effect. Since licenses are granted only within the discretion of the board, and are not necessarily granted or refused upon the recommendation of mayors or councilmen, there would seem to be no real need of such provision.

Subdivisions 3 and 4 of Section 11 place certain duties upon the Washington State Patrol and Attorney General's office in connection with the enforcement of the liquor laws. The Attorney General has called my attention to the fact that the placing of such duties upon that office would increase the cost of government, and would result in confusion so far as responsibility for enforcing such laws is concerned. He has further stated that the Supreme Court has recently held that the prosecuting attorney is a constitutional officer and has full control of all criminal matters in his county, and that the system of dual authority created by subdivisions 3 and 4 so far as the prosecution of violation of liquor laws is concerned would result in confusion, and tend to interfere with law enforcement rather than promote the same. The Washington State Liquor Control Board has stated that it respects the views of the Attorney General and does not urge approval of such subdivisions.

For these reasons Section 2, subdivision 8 of subsection 2 of Section 3, and subdivisions 3 and 4 of Section 11 are vetoed. The remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

March 12, 1935.

To the Honorable, the Senate of the State of Washington:

LADIES AND GENTLEMEN:

I am returning herewith, without my approval, Senate Bill No. 203, entitled: "An Act transferring certain monies in and to be paid into the state treasury and abolishing the Lewis River Hatchery Fund, and defining the duties and powers of the state treasurer in connection therewith, and declaring that this act shall take effect April 1, 1935."

Senate Bill No. 203 abolishes the Lewis River Hatchery Fund. It is one of a series of bills prepared and introduced in an effort to reduce the number of unnecessary funds in the state treasury. With the purpose of this series of bills I heartily concur.

However, further consideration has shown that it would be dangerous to the best interests of the state to abolish the Lewis River Hatchery Fund. This fund was created by Chapter 123, Laws of 1933, to receive monies payable to the state under a certain contract between the state and the Inland Power and Light Company, dated October 31, 1931. The contract itself mentions the creation of such a fund. The point has been raised that the state is obligated under said contract to maintain such fund. Such point is admittedly a doubtful one. However, it seems to me that since the question has been raised as to the right of the state to abolish such fund that the best interests of the the state would require that such fund be maintained rather than that the state be subjected to possible litigation which might arise from the abolition of such fund.

I am informed that the proponents of this bill, after being advised of the above mentioned objections, also believe that the bill should not become a law.

For the foregoing reasons Senate Bill No. 203 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

March 22, 1935.

To the Honorable, the Senate of the State of Washington:
(*Through the Secretary of State*)

LADIES AND GENTLEMEN:

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to certain sections, Senate Bill No. 206 entitled: "An Act relating to elections and to precinct election boards and the appointment thereof; repealing Section 5 of Chapter 61, Laws of 1921, as amended by Section 1 of Chapter 79, Laws of 1933; repealing Section 3 of Chapter 170, Laws of 1921, as amended by Section 3 of Chapter 279 of Laws of 1927 and repealing Section 1 of Chapter 29, Laws of Extraordinary Session, 1933."

This is the fourth time in two years that the laws governing the handling of election and particularly the selection of precinct election officers has been amended. Chapter 29, Laws of 1933, Extraordinary Session, was held by the Supreme Court to apply to school elections. House Bill No. 115 of the 1935 Session (Chapter 5, Laws of 1935) related to the same subject matter as Section 1 of Senate Bill No. 206 except that it excluded from the operation of the law general or special elections in second or third class school districts.

I am informed that the sponsors of Senate Bill No. 206 do not desire to bring elections in such school districts under the provisions of the general election laws, and that Section 1 was inadvertently drawn in that respect. The real purpose of Senate Bill No. 206 is expressed in Section 2. This purpose can be attained by the veto of Section 1 without destroying the effect of Chapter 5, Laws of 1935.

Section 3 is simply a reenactment of Section 2 of Chapter 29, Laws of 1933, Extraordinary Session, and is unnecessary.

For these reasons Sections 1 and 3 are vetoed and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

March 25, 1935.

To the Honorable, the Senate of the State of Washington:
(*Through the Secretary of State*)

I am filing herewith, to be transmitted to the Senate at the next session of the Legislature, without my approval as to certain items, Substitute Senate Bill No. 305, entitled: "An Act making appropriations for the purchase of land, construction of buildings and improvements at designated state institutions, for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the relief of certain individuals, corporations, counties and municipalities, and for the deficiencies and for emergencies, including deficiencies and appropriation of revolving funds, and for purposes specified in certain Acts of Congress, and for miscellaneous purposes designated for the fiscal biennium beginning April 1st, 1935, and ending March 31st, 1937, except as otherwise provided, and providing this act shall take effect immediately."

I disapprove and veto the item "May S. Burglehaus, doing business as Rosecroft Nurseries, for damages caused by the destruction of black currant bushes under the direction of the Director of Agriculture of the State of Washington \$1,937.50," for the reason that this relates to the destruction of black currant bushes in accordance with a quarantine order issued by the Director of Agriculture and approved by the Governor, in September, 1922. This quarantine order required the destruction of "all cultivated black currants found growing in any part of the state" and required all horticultural inspectors "to condemn and destroy any black currants found growing in violation of this quarantine order." To approve this claim for one grower would subject the state to demands for similar payments from other persons affected by the quarantine order.

It is to be regretted that anyone will take a loss due to the destruction of their property, but at times this must be done to protect the greater interests of the growers of the State or to the general public. Should a special appropriation be made to cover

the loss of the Rosecroft Nursery, it would create a precedent that would be very dangerous as it is impossible to tell where it would stop. Every interested party who sustained a loss, sometimes imaginary, due to the destruction of his property or by holding up of shipments, or causing disinfection of his property, would have the same right and claim as this particular nursery.

The fruit growers in the Wenatchee, Yakima, Walla Walla, Spokane and other districts, the pea growers of Mount Vernon, the bulb growers in the various districts are taking a loss from the control of pests and diseases and would be entitled to the same consideration as this nursery.

I am unable to find where other growers have been reimbursed, and it is quite apparent that the quarantine order was state wide and for the common good.

I disapprove and veto the item "Treasurer of Thurston County, payment of assessments on state lands located in Joint Drainage Improvement District No. 7, \$2,046.37" for the reason that this claim has not been certified by the Commissioner of Public Lands as required by law.

I disapprove and veto the item "Dr. Walter F. Hoffman, witness fees, December 1, 1932, \$72.50" for the reason that it is apparent that an error has occurred in the allowance of 75c per mile for mileage.

I disapprove and veto the item "For the State Treasurer: Payment of office salaries from December 22, 1932, to January 11, 1933, for the following: G. R. Snyder \$151.07; Anne Kurtz \$66.13; Cecil G. Remington \$66.13; Total \$283.33" for the reason that these claims have previously been disallowed on account of representing unauthorized expenditures.

I disapprove and veto the item "For the Department of Public Welfare: For salaries, wages and operations \$250,000.00, to be expended on State Parks" for the reason that the State Emergency Relief funds have already been fully appropriated and cover the general program to be carried out in conjunction with the Federal government. In my opinion, it is unwise to earmark any portion of these funds for specific purposes in advance of the time that the Federal program has been adopted. Without doubt the State Parks of the State of Washington will benefit to a large degree from the labor and materials that will be supplied by the Public Welfare Department. This same policy has been carried out for the past two years and the State Parks can be assured of every support possible during the ensuing biennium.

I disapprove and veto the item "To carry out the provisions of House Concurrent Resolution No. 10, \$800.00" for the regular appropriation for the Department of Agriculture should be adequate to take care of expenses of this nature.

I disapprove and veto the item "For the State Auditor: To carry out the provisions of House Bill No. 582, Section 24. Salaries and Wages \$10,920.00; Operations \$2,330.00; Total \$13,250.00" for the reason that this expense can be taken care of by the Department of Public Welfare as a part of and within the limit of the allowance for administrative expenses.

I disapprove and veto the item "For the Supreme Court: For salaries of law clerks at not to exceed one hundred and fifty dollars (\$150.00) each per month. \$18,000.00" for the reason that I am advised by the Chief Justice that this amount is not needed, and for the further reason that there is included in the budget and the regular appropriation made for the Supreme Court, the sum of \$6,000.00 for extra and temporary clerical assistance.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor.*

On motion of Senator Reardon, the veto messages were ordered spread on the journal and the vetoed bills referred to the Committee on Rules and Joint Rules.

COMMUNICATION.

HOTEL POWHATAN, WASHINGTON, D. C.,
January 29, 1937.

A little message from Washington, D. C. to the Senate of Washington.

MR. PRESIDENT AND MEMBERS OF THE SENATE:

It is with a deep affection for our long cherished institutions; great and imperishable even in the beginning of our national life, that I turn my face homeward.

While at this time there is great distress in some parts of our land and thousands are homeless and bereft of all earthly possessions; I find the Government at Washington quickly responsive to the cries of a needy people, and this problem is being met like have all problems in our national life. So I say that a closer contact with our Government at Washington, a view of those places from whence came the early Fathers in our national life makes us proud of our citizenship and strengthens our faith in America.

JOHN H. FERRYMAN.

On motion of Senator Miller, the message from Senator John Ferryman was ordered spread upon the journal.

On motion of Senator Lovejoy, the Jeffers' Photographic Studio was authorized to take the official group pictures of the Senate members.

MESSAGE FROM THE GOVERNOR.

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, WASH, February 8, 1937.

*Mr. President, Mr. Speaker, Members of the Senate and the
House of Representatives:*

I am submitting herewith a draft bill for the creation of the Washington State Industrial-Labor Tribunal, which is intended to stand as an impartial authority for the prevention of industrial disputes and the peaceful settlement of strikes.

Many plans for the accomplishment of this purpose have been proposed, and some will be submitted to the Legislature, but I assure you this measure represents the sentiment of long and determined study, conferences, and in so far as can be ascertained, the wishes of the general public. It is based on good faith, public opinion and the public interest.

I think all of us realize that this is a difficult problem and undertaking, and it is well that we do, because we shall succeed only through the tolerance, fairness and cooperation of the conflicting interests. Moreover, if we adopt this plan it will succeed only if we arouse the confidence and support of the people at large by convincing them that it is intended and designed for the common good.

I urge that this measure be regarded as an honest move toward a great ideal, and that it be considered strictly on its merits.

"Be It Resolved, That the Governor of the State of Washington be asked to direct the purchasing officers and all other officers engaged in spending the public monies of this Commonwealth, to BUY, SO FAR AS IS PRACTICABLE, ONLY PRODUCTS MADE OR GROWN IN AMERICA and thereby give employment to our fellow Americans and maintain the American standard of wages."

PRESS CLIPPING.

The following correspondence which recently passed between the undersigned parties is suggested by the stenographic force as the most proper form to be observed in all future letter writing by members of the Senate to their constituency. Undoubtedly it will take its place along side of Julius Caesar's laconic message to the Roman Senate, which was embodied in three words, "Veni, vidi, vici."

If future historians decide that it should not rank with Caesar's famous phrase, undoubtedly it will stand on an equal plane with Coolidge's "I do not choose to run."

Efforts to get action before the Senate has led to the establishment of a new record in laconic correspondence. The following messages were exchanged by Lon Forbush, executive secretary of the Washington Association of Real Estate Boards, and Chairman Kyle:

"February 9.

"Senator H. I. Kyle, chairman.

"The Seattle Real Estate Board and the Washington Association of Real Estate Boards request your support of S. J. R. 2 and recommend that it pass.

"LON FORBUSH
Executive Secretary."

"February 10.

"Mr. Lon Forbush, executive secretary.

"I have your telegram. I expected you would.

"H. I. KYLE."

"February 11.

"H. I. Kyle, chairman, constitutional
revision committee.

"Thanks for your letter of the 10th. I hope you did.

"LON FORBUSH
Executive Secretary."

On motion of Senator Maxwell, the message was received and ordered spread upon the journal.

Senate Joint Resolution No. 14, by Senators Brown, Todd (Leroy L.), Lovejoy and Holt: "Providing for an amendment to Article IX of the Constitution of the State of Washington."

The resolution was read the first time, and on motion of Senator Brown the rules were suspended, the resolution was read the second time by title, ordered printed and referred to the Committee on Constitutional Revision.

PERSONAL PRIVILEGE.

Senator Holt made the following remarks relative to his reasons for introducing Senate Bill No. 320.

Mr. President, I rise to the question of personal privilege for the purpose of making an explanation:

Mr. President, I wish to explain my reason for introducing Senate Bill No. 320, being a revenue bill and proposing a tax or excise upon proprietary medicines and toilet preparations, the revenue of which is allocated to the Teachers' Retirement Fund and to Junior Colleges. The Appropriations Committee informs me that there is no money available in the budget for these purposes.

I have discussed this matter with the Governor, stating the objects for which I wished to introduce the bill, and asking his consent to its introduction. The Governor did not say "yes" but he certainly did not say "no."

I asked that no copies of the bill be printed and that the bill be kept in reserve so that if the legislature, in its wisdom, wishes to pass the law, with the consent of the Governor, it will be available to supply the funds for Teachers' Retirement and Junior Colleges.

On motion of Senator Holt, the remarks were ordered spread upon the journal.

SPECIAL REPORT.

Senator Ferryman gave the following report relative to his trip to Washington, D. C., as representative of the State of Washington, at the Third General Assembly of the Council of State Governments.

FOREWORD.

We read, "Where there is no counsel the people fall."

Anyone going to the seat of our national government must come from thence with a greater love for his country; a more profound veneration for our institutions.

There is no place like home, and we are glad to be home and we sincerely hope that our absence has not caused any inconvenience nor been detrimental to the work of the Senate; but that we have been able to contribute something to the Council of State Governments and by our contacts carried a message that will add something to the good of the State to which we belong.

JOHN H. FERRYMAN, *Senator, District No. 12.*

The President recently visited three of our sister republics in South America. Under the symbolism of our executive head we Americans have all of late journeyed to Buenos Aires to further the solidarity of the nations of the Americas, and we have come to find the forty-eight states of this America actually more lacking in the machinery of cooperation than are the nations we met across the line. And yet all the nicer stuff of corporate amity is here.

The American conference in Buenos Aires did much to secure peace in this hemisphere, existing peace machinery was improved. New instruments to maintain peace and eliminate causes of war were adopted. Respect for and observance of international treaties and international law were strengthened. The intellectual and cultural relationship among American republics were broadened as a part of the general peace program.

I mention these, our efforts, among our neighbor republics because this plan to hold an interstate assembly of legislators is to secure the same object of cooperation, to secure a better coordination of laws in the several states; in other words, in order to form a more perfect union.

May I briefly quote from one of our great newspapers:

"Involved in the recent national campaign was the question of state powers and their invasion by central authority, what is the alternative? To many interested in state problems, the most promising outlook is in the field of interstate cooperation. The Council of State Governments will meet in Washington January 21, the day following the second inauguration of President Roosevelt. This is a venture in practical cooperation. It will take up conflicting taxation, crime problems, social security, and other matters of common interest to all states."

And again,

"with depression taxes, prolonged emergency taxes, and the everlasting pressure for new state and local taxes making the American people at last tax conscious. With their President stressing the need for national tax reform, with State Tax Commissions admitting that need, with progressive organizations, like the Council of State Governments, actually campaigning against conflicting taxation it ought not to be hard to put the whole country behind a move for a rational simplified tax 'system.'"

In short, to do all such acts as will in the opinion of this commission enable this State to do its part or maintain its part in forming a more perfect union among the various governments in the United States, and in developing the Council of State Governments for that purpose.

Seventeen states are now members of the Council of State Governments. Each of them has established by legislative resolution or by statute a commission on interstate cooperation. To perfect the participation of the State in the Council of State Governments, among these are the States of New York and Pennsylvania.

As was stated, the third general assembly was in session January 21 to 24, inclusive. These sessions were held in the Mayflower Hotel, in Washington, and the great avenue in that building was beautifully decorated with the flags of every State in the Union.

The specific model legislative measures presented to the Assembly delegates in-

cluded among others legislation dealing with problems of social security, crime control, conflicting taxation, and certain administrative functions.

The ten agencies reporting to the assembly were:

Interstate Commission on Conflicting Taxation,
 Tax Revision Council,
 Interstate Commission on Crime,
 Interstate Commission on Social Security,
 Interstate Commission on the Delaware River Basin,
 Interstate Commission on Council Development,
 Interstate Commission on Conservation,
 American Legislators' Association,
 National Association of Attorneys General,
 National Association of Secretaries of State.

There were over three hundred delegates in attendance, New York alone having over one hundred. Only a few states had a single delegate, Washington being in that class, California and Oregon having two. Many of the Governors of the states were delegates and took part in the proceedings. Officials of the Federal Government also took part in the proceedings, including Attorney General Cummings, Secretary Wallace and others.

Attorney General Cummings said in part:

"The problem of the control of crime is one of the most vital with which we as a nation have to deal. Unless our homes, and families, and our persons are secure, unless the business of the nation can be carried on without the depredations of racketeers and other criminal parasites, all of our efforts to deal with great social and economic problems will rest upon a treacherous and insecure foundation. Public opinion is alive to what we are doing. It awaits results. It is beginning to realize that there is no magic formula for the solution of the problem of crime. It expects each of us in his own field, and each maintaining cooperative contact with the others, to contribute to our common purpose."

During my absence it is hoped that four bills have been introduced here with the idea of bringing about more uniform laws relating to crime, as follows:

- (1) An act to make uniform the law on fresh pursuit, and authorizing this State to cooperate with other States therein.
- (2) An act providing that the State of Washington may enter into a compact with any of the United States for mutual helpfulness in relation to persons convicted of crime for offenses who may be on probation or parole.
- (3) An act to make uniform the procedure on interstate extradition.
- (4) A uniform act to secure the attendance of witnesses from without the state in criminal proceedings.

I shall say but a little on the subject of conflicting taxation. In its 1935 report the Commission on Conflicting Taxation, among other subjects, endeavored to segregate certain tax fields; to the State Government on the one hand, and to the Federal Government on the other. It was proposed that the Federal tax on gasoline was originally levied only as a temporary expedient on account of the emergency; that the Federal Government relinquished this source of revenue for the exclusive use of the State. The commission reiterates this recommendation and is hopeful that the Federal Government will give consideration to the relinquishment. In this instance the States were first in the field of gasoline taxation, and it would seem natural that they should be given the preeminent right to this form of revenue.

It was also recommended that Congress should leave the electrical energy taxes to the States for their exclusive use. Here again the Federal Government had only recently entered a field which had been previously utilized by the States. This recommendation is again submitted for the consideration of the Congress.

In return for the retirement from the gasoline and electrical energy fields, the commission suggested that the Federal Government be allocated the tobacco taxes and the volume taxes, or so-called gallonage taxes on liquor. The commission still holds to this opinion.

However, during the past two years no substantial change has been made in any of these respects from either the State or Federal point of view. Some of the States have levied volume or gallonage taxes on liquor, and some States have levied tobacco taxes which hitherto had not levied such taxes. There is still a wide field for segregation.

In the universal scramble for revenue on the part of all levels of government, Federal, State and Local, the element of cooperation has apparently almost been lost

sight of. At any rate, in the practical application of revenue laws. The subject of cooperation has, however, been somewhat held in mind, in that some endeavor has been made to distribute the tax burden more or less evenly, but the need for revenue in the respective levels of government has been so great and the emergency has been so pressing, that taxes have been levied in the various fields with little or no regard paid by one level of government to the other.

The following resolution was authorized:

“Resolved, That the Third General Assembly hereby requests the Committee on Appropriations of the House of Representatives of the United States, to insert an item for \$25,000 in the Deficiency Appropriation Bill in order to match a similar appropriation from the Council of State Governments for the purpose of financing all Advisory Committees and the technical staff of the Tax Revision Council which has been jointly established by the Federal Government and the Council of State Governments to the end that the proper financing of the Tax Revision Council may be consummated at the earliest time, the Chairman and Secretary of the Tax Revision Council, together with a committee appointed by the Chairman, are hereby directed to confer with the proper congressional officials, with the Secretary of the Treasury, and if it seems advisable and feasible, with the President of the United States.”

Since reaching home I learn that many families are stranded over in our section of the State, families coming from drouth-stricken sections, and I am sure that many more will emigrate from the flood districts. The history of this country may be told in terms of transportation. Migration has always been an inalienable right. The frequency with which many millions of Americans break former home ties in order to seek better fortune is of the warp upon which our civilization is woven.

What shall we do about the stranded transient? He comes into our midst for numerous reasons. Our interest in him, however, is limited by: (1) he is needy; (2) he is in our community; (3) it is the duty of government to relieve his necessities and to help him become an asset to the community at large as promptly as possible.

Analysis of the problem indicates that the problem of the stranded transient requires Federal, State and local cooperation. This cooperation probably should take form by securing legislation.

Assuming the States find it possible to establish such a pattern, it would be appropriate to recommend adoption of the Uniform Transfer of Dependents Act by the several States. This model law has been carefully drawn and has been recommended to the States by the Commission on Uniform State Laws, the American Bar Association and the American Public Welfare Association. It authorizes state departments of public welfare to enter into reciprocal agreements with the corresponding agencies of other States in relation to the support and transfer of non-resident dependents.

Federal appropriations for transient relief, uniform state laws for the handling of transients, a uniform state law for the transfer of dependents, and Federal responsibility for old-age benefits to Indians, were endorsed in a series of resolutions adopted by the Third Council of State Governments. The Council also directed its staff to study and report on interstate problems of social security.

Three of the resolutions developed at the meeting of the Interstate Council on Social Security were as follows:

“Resolved, That it is the sense of the Third General Assembly that uniform settlement laws be enacted, providing for

- (a) A period of one year's residence as a requirement for gaining settlement.
- (d) Vesting in the state department on public welfare the power to determine the final decision as to the retention of an unsettled person in the State or the return of such person to his place of legal residence.
- (e) Authorization of state departments of public welfare or the corresponding agency to reimburse the local units for the costs of relief and service given to the person without legal settlement.

“Be It Further Resolved, That the Third General Assembly urge the Congress of the United States to develop the necessary legislation and make appropriations to take care of the problems of the transient, the needy stranded migratory laborer, and other unsettled persons through grants-in-aid to the States on the basis of certain basic requirements.

“Resolved, That the Third General Assembly urge the Federal Government to accept full financial responsibility for providing old age assistance and other forms of relief for Indians, and persons of Indian blood, who, because of their peculiar relationship to the Federal Government should be its particular concern.”

During the last few years a new channel for improved understanding and better relations between the Federal Government and the States has been developed. The establishment of 47 State Planning Boards, a number of regional planning agencies, and the National Resources Committee in Washington provides planning agencies at each level of government. The National Resources Committee, as the temporary Federal planning agency, has sought to encourage decentralization of planning activity, and has succeeded beyond its expectations in interesting the States in this important work.

Studies of resources and possibilities for the future of the States have led inevitably to and beyond state boundary lines. Political boundaries are artificial barriers when it comes to planning the better use of our resources. We must deal with groups of states, and, in many cases, a different combination or group for each problem. There has thus sprung up a series of regional or interstate planning movements—partly in cooperation with this Council of State Governments and the interstate committees on cooperation (as in the case of the Delaware River), and partly by direct action of the National Resources Committee and the various state planning agencies. Some of the more notable examples of these efforts are in the Pacific Northwest and New England, in the Ohio Valley, the Upper Rio Grande, and the Red River of the North.

Concerned as I am about our farming section in eastern Washington, especially in the apple-growing district, I wish to quote briefly from Secretary Wallace's address to us. He said, in part:

"I want to talk over with you some aspects of that part of our agricultural program which will undoubtedly receive increasing emphasis during the next few years, and therefore will directly concern both yourselves and those of us connected with the National Administration. This newer phase of agricultural development is the general rehabilitation of that growing part of our farm population which during the past has been submerged in poverty, and chained by the handicaps of poor land, excessive debt, and insecurity in the occupancy of their homes.

"We are accustomed to think of our farm population as the stable backbone of our nation. Most of our great leaders have come from farm homes. But while we have been indulging in romantic thinking about the beauties of a farm background, the actual picture of our farm life has acquired some grimly unpleasant aspects. The rural civilization which we imagined existed, has been undermined by waste and mismanagement.

"Throughout the United States economic change, the depletion of soil, grass or forest, or other malpractices in land use, have destroyed the producing power of large areas of land. Owners of such tracts, rather than keep up payment of taxes, have allowed the land to go into public ownership. Many of you know the serious consequences of tax delinquency, particularly in states where land taxation provides a major part of the revenue for local government. On the one hand, counties and states are embarrassed by the loss of tax revenue, and are forced to lay additional levies as further burdens on hard-pressed taxpayers. On the other hand, there is this large amount of tax reverted and tax delinquent land which the counties and states rarely use to any constructive purpose.

"Much of this tax delinquency is concentrated on lands that have been wrongly used. So long as it remains in poor use, it will fail to produce tax revenue. It has been usual in dealing with tax reverted land, for the county or state to attempt to sell it back into private ownership as quickly as possible. In cases where the land is of sufficiently good quality to support a family, this procedure has its good points. But we must face the truth that large amounts of land, unsuited to crop farming, are being turned over to new families by tax sales. In effect this means that the state or county is encouraging a wrong use of land, aiding a family to waste its capital, and contributing nothing toward the solution of the tax delinquency problem. Furthermore this process is breeding the very type of rural poverty against which we are striving. If we help impoverished families move off poor land to better farms, we cannot tolerate a system which is encouraging others to get into the same troubles that we are trying to abolish.

"It is possible for the local governments to meet the problem of tax-reverted lands in a constructive fashion. Land is usually of value for something. The problem is to find out not by guesswork or blind judgment but on the basis of careful appraisal what the land is good for, and then to put it to that use. Millions of acres of tax-reverted and tax delinquent land in the Great Plains, for instance, are admirably suited to grazing use.

"We cannot hope for a stable civilization in town or country unless these problems are solved. The goal is three-fold—security, conservation, and higher living standards. It is a goal that is worthy of our united efforts."

Let me quote from the inaugural address of Franklin D. Roosevelt:

"I see one-third of a nation ill-housed, ill-clad, ill-nourished.

"It is not in despair that I paint you that picture. I paint it for you in hope—because the Nation, seeing and understanding the injustice in it, proposes to paint it out. We are determined to make every American citizen the subject of his country's interest and concern; and we will never regard any faithful law-abiding group within our borders as superfluous. The test of our progress is not whether we add more to the abundance of those who have much; it is whether we provide enough for those who have too little."

The Committee on Finances and Resolutions reported that an analysis of the financial needs of the Council during the coming year seems to indicate that properly to meet the task ahead, which includes the establishment of state commissions or committees on cooperation, the development of regional and nation-wide commissions on various subjects, the increased service for various organizations of governmental officials, the Council, based upon its present state of development, will need approximately \$150,000. If it were possible to distribute this cost proportionately among the several States and demand contributions upon such a basis, there would be imposed an average obligation of \$3,000 per State. Of course, the States will not all contribute equal amounts, but the suggested quota for each State would probably range from \$2,000 to \$10,000, varying on account of differences in population, wealth, and income of various States. Unfortunately, under the Council's present state of development, no definite arrangement of this character is either practical or possible at this time.

However, in order that the Council may work to the end that such a plan can be formulated with regard to its financial structure, your committee urges each of the several delegations here assembled to carry back to their respective States a message as to the great need for the continuance of the Council and its work, and the importance of the participation of the forty-eight States in the Council's activities—participation both as to program and finances—and to promote a general plan or policy which will permit the Council not only to carry on, but to move forward, the following resolution was offered for adoption:

"Resolved, That the Third General Assembly recommends the adoption of a uniform act creating State commissions on interstate cooperation affiliated with the Council of State Governments which among other functions would assist in the institution and consummation of a Federal long range program of flood control and regulation of flood waters within the cooperating States, thus meeting the requirements of the Federal 1936 Flood Control Act.

"Be It Further Resolved, That the Third General Assembly recommends the passage of necessary state legislation for the establishment of a state agency with authority (a) to deal with the Federal Government or any other State or States or state agency in behalf of the State, (b) to recommend to the Governor and Legislature all necessary state legislation, (c) to serve as a proponent body on flood control, and (d) as a clearing house to pass on all plans, surveys, proposals or requests from localities within the State concerning flood control."

Interstate cooperation for humane and simplified handling of social security cases was stressed in an address by John G. Winant, chairman of the Federal Social Security Board, and former Governor of New Hampshire, before the session on social security of the Council of State Governments. He said:

"No other Federal enterprise calls for greater cooperation between Federal, State and local governments.

"The Social Security Act does not provide a system of unemployment compensation but removes some of the past barriers and enables the States to set up their own systems.

"Lack of coordination between States results in hardship for the needy who fail to receive benefits through lack of residence and through other gaps in the system in which there are now wide variations among the States. Artificial separation of families whose members are now obliged to stay in the State where they are receiving public assistance, rather than move in with relatives in other States, is another problem.

"Interstate action will aid in smoothing out administrative difficulties and will work toward a general coordination of welfare activities."

Since my return, I am gratified to know that Senator Maxwell has introduced the bill establishing an unpaid commission of inter-governmental cooperation. I am also happy to know that Senator Duggan is sponsoring this bill, and I sincerely hope that we may be able to bring about its passage at this session, for I sincerely believe that it would be of great benefit to this State to be a part of this organization which contemplates a closer cooperation between the States of the Union and the National Government. Seventeen States have already become a part of this movement and it is hoped that before another session of the Council the majority of the States of the Union will have become a part of the movement.

On motion of Senator McAulay, the message was received and was ordered spread upon the journal.

The Secretary read:

SENATE RESOLUTION.

By Senator Maxwell:

REPORT OF FREE CONFERENCE COMMITTEE.

OLYMPIA, WASH., February 23, 1937.

MR. PRESIDENT:

We, of your Free Conference Committee, to whom was referred House Joint Memorial No. 3: "Relating to national recovery and old age retirement funds," have had the same under consideration and we recommend that everything under the title be stricken and the following be substituted in lieu thereof.

To the Honorable Franklin D. Roosevelt, President of the United States, and the Honorable Senate and House of Representatives of the United States, in Congress Assembled:

We, your Memorialists, the Senate and House of Representatives of the State of Washington, in legislative session assembled, do most respectfully memorialize and petition your honorable bodies as follows:

WHEREAS, Millions of our elderly citizens who have served their country in peace or war during the period of their natural working lives, are now spending their last days in poverty and misery, dependent upon public or private charity or their relatives; and

WHEREAS, Social security has become the dominant question before the American people; and therefore, justice and the public welfare demand that ample provision be made for the health and support of these elderly citizens; and

WHEREAS, Security for the aged is a national, rather than a state or local problem, which cannot be solved by a miscellany of conflicting state laws, imposing unequal burdens of taxation, and subject to continued changes; but can be adequately solved only by a uniform basic law, national in scope, which will insure to the aged citizens of each state equal protection with those in every other state; and

WHEREAS, The depression through which we are passing is due to lack of purchasing power by the people and that balancing the ability of consumers to buy with the productive power of industry is essential to complete and permanent national recovery; and

WHEREAS, Numerous civic organizations throughout the country claim that the only feasible plan that has been proposed to solve the above stated situation is a Federal Government tax levy of two per centum (2%) upon the fair gross dollar value of each transaction done within the United States and territories, the proceeds thereof to be equitably distributed among our citizens of age sixty (60) or more, on the condition that the same be expended within a period of thirty (30) days;

WHEREAS, Such a transaction tax imposed by the Federal Government will be equal and uniform in the several states and based upon the ability to pay; and

WHEREAS, This proposed plan does not ask the Federal Government to issue any interest-bearing bonds, or to borrow any money to meet the provisions of this act, since the government is to pay out only after it has received and to pay no more than it does receive from the two per centum (2%) transaction tax; and

WHEREAS, There is a wide spread popular belief that the enactment of said plan into law will:

(1) Provide employment for millions of persons now idle by increasing production and withdrawing large numbers of elderly people from the field of productive activity, thus creating new opportunities for the youth of our land and making unemployment benefits unnecessary;

(2) Greatly reduce crime, thus saving billions of dollars expended annually for the enforcement of law, maintenance of numerous prisons, reformatories and protective agencies; also saving tremendous direct losses to our private citizens due to crime;

(3) Save billions of dollars now spent for the maintenance of public welfare agencies, poor houses, old people's homes and other institutions and temporary organizations maintained for the care of the poor and aged; and minimize the necessity for yearly public and private charities, thus inspiring a greater spirit of loyalty to our governments and their institutions;

(4) Substitute an economy of abundance for an economy of scarcity and provide markets for the products of our farms and industries;

(5) Effect tremendous savings which will offset the cost of operating and maintaining the proposed plan;

(6) Stabilize business and industry and guard against future depressions; and establish a stable and permanent social and economic system.

Now, therefore, be it resolved, That your Memorialists, the Senate and House of Representatives of the State of Washington, do respectfully memorialize and petition the Congress of the United States (in order to accomplish the foregoing purposes) to make a thorough and unbiased investigation of the plan herein before mentioned and to give fair and just consideration to the enactment by the Congress of a law providing for a national old age retirement system and create a fund for the maintenance thereof through a two per centum (2%) Federal Government transaction tax levy, the proceeds of which shall be distributed equitably to all citizens over sixty (60) years of age, with the provision that it shall be expended within thirty (30) days.

And be it further resolved, That copies of this Memorial be immediately transmitted to the President of the United States and the Senate and House of Representatives of the United States and to each Senator and Representative in Congress from the State of Washington.

MESSAGE FROM THE HOUSE.

HOUSE OF REPRESENTATIVES,
 OLYMPIA, WASH., February 25, 1937.

MR. PRESIDENT:

The House has passed Engrossed Senate Bill No. 74 with the following amendments:

After the enacting clause, strike the balance of the bill and substitute in lieu thereof the following:

SECTION 1. All accrued interest on delinquent real and personal property taxes for any one year prior to 1933 is hereby remitted: *Provided*, the principal amount thereof, together with the taxes with accrued interest thereon for the year 1933, or any one subsequent year, is paid in full on or before November 30, 1937. The remission of interest herein provided for shall not apply to any tax upon which a judgment has been entered or for which a certificate of delinquency has been issued to any person other than the county.

SEC. 2. At any time on or before the thirtieth day of November, 1937, the county treasurer of any county in the state is authorized and directed to accept from any person or corporation owning one or more parcels of real property in the state or holding a contract for the purchase thereof, or from a mortgagee or other lien holder, or from any person or corporation owning personal property, upon which one or more payments or installments of real property taxes for 1932 or prior years are delinquent,

a signed agreement, first, to pay before delinquency, the current taxes upon such property payable in the year 1937 and each year thereafter, and, secondly, to pay in twenty semi-annual installments (a), the total delinquent taxes upon such property for 1932 and prior years, plus (b), the total delinquent taxes upon such property for the years 1933, 1934 and 1935, if any, together with accrued interest thereon; suspending all other penalties and interest upon said delinquent taxes. The sum of (a) and (b) shall become the principal of an agreement executed under this act, which the holder shall agree to pay in twenty equal installments beginning with the date of the agreement and continuing on the 30th day of each November and the 31st day of each May thereafter, together with interest on unpaid balances thereof at the rate of six per cent per annum from the date of agreement. Payments made on the principal of such agreements shall be applied, first, to the payment of the interest incorporated therein, and when such interest has been fully paid, the balance of payments made shall be applied to the tax longest delinquent. All interest collected under such agreements, including that incorporated in the principal of the agreement, shall be credited to the county current expense fund. Such agreement shall provide that any unpaid balance thereunder, at the election of such person or corporation, may be paid in full at any time, with interest thereon up to and including the day of payment. It shall further provide that in the event two successive installments are not paid on or before the date when due, or in the event that any installment of taxes payable in the year 1937, or any year thereafter, is not paid within twelve months after the same shall become delinquent, the agreement shall become void and of no effect whatsoever. Upon the agreement becoming void, the unpaid portion of the original tax and interest thereon shall be restored upon the tax rolls and the county shall institute tax foreclosure or distraint proceedings as provided by law. The taxes incorporated in agreements under this act shall remain a first lien on the property until the agreement is fully paid and satisfied.

Sec. 3. Separate agreements shall be made for real and personal property and every such agreement shall provide in the case of personal property that such contract shall not be made unless the making thereof shall be approved in writing by a majority of the board of county commissioners of the county wherein the property is situate or taxable, and such agreements shall not be approved by such board of county commissioners in cases wherein the personal property so taxed is held as a part of a stock of the goods for resale or in cases where said personal property is easily liable to be lost, destroyed or dissipated, and no agreement shall be made in respect to personal property tax where the amount of the tax involved is less than \$100.00.

Sec. 4. Whenever it shall appear to the county treasurer that personal property taxes have been included in a single levy upon personal property, part of which is eligible to installment contract as provided in this act and part of which is not so eligible, the county treasurer may segregate such taxes and the lien thereof and issue contracts as provided for herein upon such portion of such personal property taxes as may be so eligible for contract separate and apart from taxes upon personal property not so eligible.

Sec. 5. If, during the life of any such agreement relating to taxes on personal property, the county treasurer shall determine in the exercise of his sound discretion that the property covered by said tax is about to be dissipated, destroyed or removed from the county or the security therefor lost or materially impaired, the county treasurer may cancel such agreement and proceed forthwith with distraint proceedings for any installments unpaid, together with interest accrued as in such contract provided as if such agreement had never been made.

Sec. 6. The county treasurer shall withhold foreclosure or distraint proceedings upon the property as long as the signer of the agreement complies with the terms thereof.

Sec. 7. The agreement shall become effective upon the signing thereof accompanied by the payment of one installment thereof and the payment of such portion of the current taxes as are then due and payable or delinquent.

Sec. 8. No person shall be entitled to the benefit of this act with respect to tax payments which are being, or which shall hereafter be, contested: *Provided, however,* Should any such contest be dismissed during the life of this act and contestant pays all costs incurred, such dismissing contestant shall be entitled to the benefits of this act.

Sec. 9. This act is necessary for the immediate preservation of the public peace, health and safety, support of the state government and its existing public institutions, and shall take effect immediately.

Amend the title by striking the whole thereof and substitute in lieu thereof the following:

An Act relating to taxation, remitting interest on certain delinquent taxes, authorizing installment contracts for the payment of such taxes, prescribing the powers and duties of county officers in connection therewith and declaring that the act shall take effect immediately.

In Section 2, line 8 of the amendment, after the word "of" and before the word "property," strike the word "real."

In Section 3, line 11 of the amendment, after the word "easily" and before the word "lost," strike the words "liable to be;" and the same is herewith transmitted.

MESSAGE FROM THE GOVERNOR.

STATE OF WASHINGTON, EXECUTIVE DEPARTMENT,
OLYMPIA, March 1, 1937.

Mr. President, Mr. Speaker, members of the Senate and the House of Representatives:

Because of my profound interest in the development of a balanced, dependable social security program for the State of Washington, I recently sought to ascertain whether our state was keeping pace with the other states in social security. I asked the Governors of forty states to give me the budgets and programs being considered by their respective legislatures, and I was gratified to confirm our claim of leadership, and I am pleased to make this information available to you, the members of our legislature. Two detailed charts of this information have been placed on your desks. The charts show:

1. On the basis of December records, Washington stood third in actual performance, being practically on par with Idaho, our only rival. Colorado, the first ranking state is

apparently disqualified because its old age pension system is involved in their courts and is uncertain.

2. Under the Governor's proposed budget, Washington stands first in social security work as a whole. We propose a biennial appropriation which calls for a per capita contribution of \$10.95. California, the second state, proposes to appropriate at the rate of \$7.22.

3. Under the Governor's proposed budget, Washington stands first in old age pensions. We propose a biennial appropriation which calls for a per capita contribution of \$6.09. California, again the second ranking state, proposes to appropriate at the rate of \$5.88.

You will note that this budget for social security equals approximately one-third of our total cost of state government.

I am sure you share my pride in the record and intention of our state, which shows clearly that the State of Washington is not only mindful of the immediate needs of its elderly citizens, but also is actively engaged in a preventive program through efforts with crippled and underprivileged children. In this respect, I again emphasize that social security is not merely a charity or a matter of simply spending money for temporary needs, but that the underlying and long-range purpose of social security is the prevention of social, mental and physical disability, and the eventual elimination of poverty.

I trust these points will be kept in mind as you take up the consideration of the five measures which are designed to give the State of Washington the most rational and best balanced social security program in the United States.

CLARENCE D. MARTIN,
Governor.

On motion of Senator Reardon, the Governor's message was ordered spread upon the journal.

Senator Brown moved that mimeographed copies of the Governor's message be made and placed upon the desks of the senators.

"Before the Senate resolves itself into a committee of the whole, the chair will at this time reverse itself on a ruling it made last week with reference to the right of the Senate to go into a committee of the whole while under a call of the Senate.

This is a very close question, but, after consulting Hinds' Precedents and other authorities, it is the opinion of the chair that the business of the Senate can best be expedited if it is allowed to go into a committee of the whole without the necessity of dissolving the call.

PROTEST.

Senator Paul G. Thomas does hereby protest the actions of the Senate in failing to read Senate Bill No. 148 in its entirety before roll call on final passage. The protest is based upon the objection which I raised on the floor to skipping paragraph after paragraph and page after page of a law of our State without reading same before the Senators who were to vote upon it. In the Lower House this reading can be circumvented, but in the Senate there is a rule that provides that if one objection is made, the bill must be read word for word. I objected, but the Presiding Officer, Senator Murfin, ruled me out of order, and the clerk proceeded then to read the last Section of the bill and it was put to final roll call, after reading amendments.

This protest I demand shall be spread at large upon the Journal, for the record and information of the citizens of our State.

SENATOR PAUL G. THOMAS.

At 12:30 o'clock, p. m., the Senate, on motion of Senator Orndorff, recessed until 2:00 o'clock, p. m.

PROTEST.

SENATE CHAMBER, OLYMPIA.

In protesting the action of the Senate in the consideration of Engrossed House Bill No. 667 we do not desire that anyone shall conclude that the purposes of the act were not of laudable benefit to the state and rightfully require the enunciation of the people, as is expressed by their representatives, to achieve these objectives.

We do protest the manner in which House Bill No. 667 was presented and the seemingly extreme haste in which it was passed through the Senate.

The entire purpose of the bill is to declare that the sale of Washington-grown apples is a matter of such importance that legislation which seeks to increase the sale and the consumption of such apples is of general necessity. Because Washington is the largest producer of commercial apples of all states of the Union, the necessity of legislation tending to increase consumption of apples is so apparent and so worthy as to need no support by argument.

However, the Constitution of the State of Washington is very specific as to how taxes shall be levied, collected, expended and for what purposes.

This act assumes that the growing and marketing of apples affects, in a very great manner, the general welfare of the State of Washington.

The Constitution of the state (Article 7, Section 5) provides: "No tax shall be levied except in pursuance of law; * * * * *"

No one can deny that the payments contemplated and which must be made under this act are taxes. House Bill No. 667 makes all such payments an excise tax. Invocation of the excise taxing powers under the Constitution are more and more becoming the common means of raising revenue.

Except when such taxes are levied for the purposes of regulation, and no one can conceive that this is a regulatory measure; then it becomes a revenue raising measure. No person, least of all a member of this body, will deny that this is a measure designed and the sole purpose of which is to raise revenue.

Such revenue is, of course, to be expended for a very specific purpose, but anyone

who purchases apples in any certain quantity, as defined by this act must pay a tax. This, then, is a tax measure.

Section 6 of the same Article (Article 7) is as follows: "All taxes levied and collected for state purposes shall be paid in money only into the state treasury."

We who protest the action of the Senate in considering and passing House Bill No. 667 call this to the attention of the Senate as well as to any court within this state which may be called upon to adjudicate the constitutionality of this measure. Section 4 of Article 8, reading as follows specifically prescribes that, "No moneys shall ever be paid out of the treasury of this state, or any of its funds, or any of the funds under its management, except in pursuance of an appropriation by law; * * * *".

If we assume, and such must be the assumption, that the levying of a tax will produce a general result which is of great benefit to the state, it follows that such tax, its collection and expenditure must be within the State Constitution.

Article 8, Section 5, reads: "The credit of the state shall not, in any manner be given or loaned to, or in aid of, any individual, association * * * *".

In order for any law to meet with judicial approval it must be able to surmount the specific restriction of Section 5 of Article 8.

This act specifically is not for the benefit of any individual or association, either legally formed or who may constitute a large group of a common occupation.

Logically, it follows that the objects, purposes and intent of this act are to do something by statute which is of general benefit to all the people, as well as the state, and anyone who comes under the provisions of the act must pay a tax.

Therefore, it appears to us, since this is for the general welfare and to the benefit of the state, that it is in direct violation of Section 6, Article 7, and of Section 4, Article 8 of the State Constitution, and that the legislature is doing, or attempting to do what the Constitution specifically prohibits.

PROTEST.

SENATE CHAMBER,
OLYMPIA, WASH., March 5, 1937.

PROTEST PASSAGE S. B. 319.

I introduced on February 16, 1937, Senate Bill No. 319, an act to amend Section 8370-10 of Remington's Revised Statutes, in an attempt to exempt buttermilk, which was overlooked in the exemptions of food commodities in the sales tax law of 1935. This bill, Senate Bill No. 319, was amended in the Revenue and Taxation Committee by striking subsections "f" and "g" which contained all the food commodities exempted in 1935, completely reversing the intent of my bill, and a direct violation of Senate Rule 26, reading as follows: "No amendment to any bill shall be allowed

which shall change the scope and object of the bill." After my objections and continued demands that my name be removed as the sponsor of the bill, the names of Senators Charles H. Todd and Keiron Reardon were placed on the bill in lieu of my name.

I protest the unfair methods used in the passage of this bill and protest with all my might any method that will tax that which is necessary to sustain the life of a baby, milk, bread, fruit and the actual foods that are so necessary for the common people of this state.

I also further protest this method of balancing the budget. That's the way they balance the budget in Kansas.

of the State of Washington:*

LADIES AND GENTLEMEN:

I am returning herewith, without my approval as to a certain Section, Senate Bill No. 112, entitled:

AN ACT prescribing certain powers and duties of the director of highways; classifying highways of the state and designating the routes of primary state highways; providing for the acquisition of right of way for primary state highways; prescribing procedure for the contracting of highway construction and work by day labor; assenting to and providing for financial cooperation with the Federal Aid Road Act and other federal donation acts; providing for the improvement, preservation, protection and maintenance of primary state highways; providing for highway signs and markings; providing for closing and restricting highways, granting of franchises, removal of obstructions, planting of vegetation and regulation of lights and signs on public highways; saving certain acts performed and rights vested; repealing certain acts and parts of acts and all acts and parts of acts in conflict; and declaring an emergency".

The bill is approved with the exception of Section 99, which is vetoed.

Section 99 repeals certain existing statutes. In view of the fact that Sections 6 to 24, both inclusive, which were state primary highway designations, were deleted from Senate Bill 112 as originally introduced, the statutes repealed by Section 99 should not be repealed at this time. The repeal of such statutes should be delayed until proper statutes covering the same subject matter have been enacted.

For this reason Section 99 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN, *Governor*.

On motion of Senator Drumheller, the governor's message was ordered spread upon the journal and Senate Bill No. 112 was referred to the Committee on Rules.

REPORT OF FREE CONFERENCE COMMITTEE.

OLYMPIA, WASH., March 4, 1937.

MR. PRESIDENT:

We, of your Free Conference Committee, to whom was referred Engrossed Senate Bill No. 74, entitled: "An Act providing for the remission of interest penalty on delinquent taxes for the year 1935 and prior years upon the payment of current installment of taxes due on real and personal property; repealing laws in conflict therewith

and declaring an emergency", have had the same under consideration, and we recommend that it do pass with the following amendments:

Amend the bill by striking everything after the enacting clause and substituting in lieu thereof the following:

"SECTION 1. All accrued interest on delinquent real and personal property taxes for any one year prior to 1933 is hereby remitted: *Provided*, The principal amount thereof, together with the taxes with accrued interest thereon for the year 1933, or any one subsequent year, is paid in full on or before November 30, 1937. The remission of interest herein provided for shall not apply to any tax upon which a judgment has been entered or for which a certificate of delinquency has been issued to any person other than the county.

Sec. 2. At any time on or before the thirtieth day of November, 1937, the county treasurer of any county in the state is authorized and directed to accept from any person or corporation owning one or more parcels of real property in the state or holding a contract for the purchase thereof, or from a mortgagee or other lien holder, or from any person or corporation owning personal property, upon which one or more payments or installments of property taxes for 1933 or prior years are delinquent, a signed agreement, first, to pay before delinquency, the current taxes upon such property payable in the year 1937 and each year thereafter, and, secondly, to pay in twenty semi-annual installments (a), the total delinquent taxes upon such property for 1933 and prior years, plus (b), the total delinquent taxes upon such property for the years 1934 and 1935, if any, together with accrued interest thereon; suspending all other penalties and interest upon said delinquent taxes. The sum of (a) and (b) shall become the principal of an agreement executed under this act, which the holder shall agree to pay in twenty equal installments beginning with the date of the agreement and continuing on the 30th day of each November and the 31st day of each May thereafter, together with interest on unpaid balances thereof at the rate of six per cent per annum from the date of agreement. Payments made on the principal of such agreements shall be applied, first, to the payment of the interest incorporated therein, and when such interest has been fully paid, the balance of payments made shall be applied to the tax longest delinquent. All interest collected under such agreements, including that incorporated in the principal of the agreement, shall be credited to the county current expense fund. Such agreement shall provide that any unpaid balance thereunder, at the election of such person or corporation, may be paid in full at any time, with interest thereon up to and including the day of payment. It shall further provide that in the event two successive installments are not paid on or before the date when due, or in the event that any installment of taxes payable in the year 1937, or any year thereafter, is not paid within twelve months after the same shall become delinquent, the agreement shall become void and of no effect whatsoever. Upon the agreement becoming void, the unpaid portion of the original tax and interest thereon shall be restored upon the tax rolls and the county shall institute tax foreclosure or distraint proceedings as provided by law. The taxes incorporated in agreements under this act shall remain a first lien on the property until the agreement is fully paid and satisfied.

Sec. 3. Separate agreements shall be made for real and personal property and every such agreement shall provide in the case of personal property that such contract shall not be made unless the making thereof shall be approved in writing by a majority of the board of county commissioners of the county wherein the property is situated or taxable, and such agreements shall not be approved by such board of county commissioners in cases wherein the personal property so taxed is held as a part of a stock of the goods for resale or in cases where said personal property is easily lost, destroyed or dissipated, and no agreement shall be made in respect to personal property tax where the amount of the tax involved is less than \$100.00.

Sec. 4. Whenever it shall appear to the county treasurer that personal property taxes have been included in a single levy upon personal property, part of which is eligible to installment contract as provided in this act and part of which is not so eligible, the county treasurer may segregate such taxes and the lien thereof and issue contracts as provided for herein upon such portion of such personal property taxes as may be so eligible for contract separate and apart from taxes upon personal property not so eligible.

Sec. 5. If, during the life of any such agreement relating to taxes on personal property, the county treasurer shall determine in the exercise of his sound discretion that the property covered by said tax is about to be dissipated, destroyed or removed from the county or the security therefor lost or materially impaired, the county treasurer may cancel such agreement and proceed forthwith with distraint proceedings

for any installments unpaid, together with interest accrued as in such contract provided as if such agreement had never been made.

SEC. 6. The county treasurer shall withhold foreclosure or distraint proceedings upon the property as long as the signer of the agreement complies with the terms thereof.

SEC. 7. The agreement shall become effective upon the signing thereof accompanied by the payment of one installment thereof and the payment of such portion of the current taxes as are then due and payable or delinquent.

SEC. 8. No person shall be entitled to the benefit of this act with respect to tax payments which are being, or which shall hereafter be, contested: *Provided, however,* Should any such contest be dismissed during the life of this act and contestant pays all costs incurred, such dismissing contestant shall be entitled to the benefits of this act.

SEC. 9. This act is necessary for the immediate preservation of the public peace, health and safety, support of the state government and its existing public institutions, and shall take effect immediately."

Amend the title, by striking the whole thereof and substituting in lieu thereof the following:

"AN ACT relating to taxation, remitting interest on certain delinquent taxes, authorizing installment contracts for the payment of such taxes, prescribing the powers and duties of county officers in connection therewith and declaring that the act shall take effect immediately."

REPORT OF STANDING COMMITTEE.

SENATE CHAMBER,
OLYMPIA, WASH., March 8, 1937.

MR. PRESIDENT:

We, your Committee on Commerce and Manufacturing, to whom was referred House Bill No. 711, entitled: "An Act relating to motor fuels; declaring that the business of furnishing and distributing, or buying and selling, same is a public utility; providing for the supervision and regulation thereof, and the fixing of the rates or prices thereof, and the payment of fees thereby; providing penalties for the violation thereof; making an appropriation for the purposes hereof, and declaring an emergency", have had the same under consideration, and we respectfully report the same back to the Senate with the recommendation that it be indefinitely postponed because of the following opinion of the Attorney General attached to this report:

STATE OF WASHINGTON

G. W. HAMILTON, ATTORNEY GENERAL

OLYMPIA, WASH., March 8, 1937.

HONORABLE W. C. DAWSON, *Chairman*,
COMMITTEE ON COMMERCE AND MANUFACTURING,
WASHINGTON STATE SENATE,
OLYMPIA, WASHINGTON.

DEAR SIR:

I have received and given immediate attention to your letter of March 8, the principal portions of which are as follows:

"I am handing herewith House Bill No. 711 which has been assigned to the Senate Committee on Commerce and Manufacturing, of which I am chairman.

"Our committee would like an opinion on this bill, as to its constitutionality and such other comments as you would care to make for our guidance and assistance in considering the bill.

"Will you be good enough to let us have this in writing at your very early convenience?"

I have carefully examined HB 711 and the bill may be said to be for two purposes: One to regulate and control the price of motor fuel and the other to prevent discrimination in the sale of such fuels. The bill, in so far as this latter matter is concerned, is greatly weakened by Section 10 which permits, to a considerable degree, the very discrimination that the bill at large seeks to prohibit.

Article 1, Section 16 of the Washington Constitution, as amended by the Ninth Amendment thereto, contains the following clause:

" * * * Whenever an attempt is made to take private property for a use alleged to be public, the question whether the contemplated use be really public shall be a judicial question, and determined as such, without regard to any legislative assertion that the use is public: * * * "

It will be seen from this clause of the Constitution that whether a matter is of public or private use is a question for the courts and not for the legislature. When within the field of public use, it is, of course, the function of the legislature to declare and legislate as to whether the public use will be exercised as such or left in private hands. Whether this bill violates the Constitution of the State of Washington is immaterial if it violates the Constitution of the United States, and we will first look at the decisions of the supreme court of the United States.

In *Williams v. Standard Oil Co.*, 278 U. S. 235, 23 L. Ed. 287, the court had under consideration an act of the legislature of Tennessee covering the same subject matter as HB 711. The court held the Tennessee Act invalid and void because of its violation of the United States Constitution.

In *New State Ice Co. v. Liebmann*, 285 U. S. 266, 76 L. Ed. 747, the supreme court of the United States had under consideration an act of the legislature of Oklahoma declaring the manufacture and distribution and sale of ice to be a public use or business, regulating all parties engaging in such occupations and requiring them to obtain licenses. The bill in other ways differs considerably from HB 711 and from the act in question in *Williams v. Standard Oil Company*, *supra*, but the court held that the ice business was not such a business as could be declared public to the extent required in the act.

I am of the opinion that HB 711, to a great extent, violates the Fourteenth Amendment to the United States Constitution as interpreted by the supreme court in the cases above cited, and other cases of that court, and that as long as the people allow that amendment to be a part of the United States Constitution, a state legislature cannot enact a valid law along the lines of HB 711.

Very respectfully yours,

G. W. HAMILTON, *Attorney General*

By GEO. G. HANNAN, *Assistant Attorney General.*

W. C. DAWSON, *Chairman.*

We concur in this report: Chapin A. Mills, J. Drumheller.

The term workman within the contemplation of this act means every person in this state who is engaged in the employment of or who is working under an independent contract, the essence of which is his personal labor for any employer coming under this act whether by way of manual labor or otherwise in the course of his employment."

Amend the bill by adding thereto a new section to be known as Sec. 3 to read as follows:

"SEC. 3. That Section 12 of Chapter 310 of the Session Laws of 1927, the same being Section 7724 of Remington's Revised Statutes of the State of Washington, be and the same is hereby amended to read as follows:

Section 12. Any contract made in violation of this act shall be invalid, except that any employer engaged in extrahazardous work may, with the consent of a majority of his workmen, enter into written contracts with physicians, surgeons and owners of hospitals operating the same, or with hospital associations, for medical, surgical and hospital care to workmen injured in such employment, by, and under the control and administration of, and at the direct expense of the employer and his workmen. Such a contract shall not be assignable or transferable by operation of law or otherwise except with the consent of the supervisor of industrial insurance endorsed thereon. Before any such contract shall go into effect it shall be submitted to the supervisor of industrial insurance, and may be disapproved by the supervisor of industrial insurance when found not to provide for such care of injured workmen as is contemplated by the provisions of Section 7715, and if a contract so submitted be with the owners of a hospital operating the same, or with a hospital association, the supervisor of industrial insurance shall have power to disapprove the same if in his judgment the ownership or management of such hospital or hospital association shall not be such as to produce satisfactory service. Any such contract with physician, surgeon, or owner and operator of a hospital, or with a hospital association, so disapproved shall not be valid. Otherwise it shall be approved, and take and continue in effect for any period of time specified therein, not exceeding * * * * one (1) year from the date of such approval: *Provided, however, That if ten (10) per cent of the workmen who have heretofore signed a medical aid contract shall, after the approval thereof by the supervisor of industrial insurance, file a written complaint with the supervisor alleging that the approval of said contract by a majority of the workmen was obtained by intimidation, coercion, or misrepresentation, the supervisor may cause a secret ballot to be taken in the manner prescribed by him among the employees signing said contract to determine said fact, and shall cancel and annul said medical aid contract unless the same receives the written approval by the majority of said workmen at said secret ballot election: Provided, further, That the director of labor and industries, through the division of industrial insurance, may, before approving any such contract, require the giving by any physician, surgeon, hospital or hospital association, of a bond in such sum and in such form, as the director may determine, conditioned that the obligor will faithfully perform such contract. Every such contract to be valid must provide that the expenses*

incident to it shall be borne one-half by the employer and one-half by such employees, and that it shall be administered by the two interests jointly and equally. So long as such contract shall be in effect the subject matter of the contract shall (except as in this section otherwise specified) be outside of, and not affected by, the provisions of Sections 7712 to 7723, inclusive, and Section 7725, other than the provisions of Section 7714 relating to artificial substitutes and lenses and the basis of compensation when lenses are supplied, and to transportation of injured workmen, and to educational standards of safety, and other than the provisions of Section 7719 relating to the analyses and reports of accidents, and the employer shall pay monthly into the medical aid fund ten per centum of the amount he would have been required to pay in that month if such contract had not been made, and of that ten per centum he shall collect one-half from his said workmen by proper deduction from the daily wage of each, and in addition thereto, each such employer shall, when required by the director of labor and industries through, and by means of, the division of industrial insurance, pay into the surplus fund, hereby created, a sum not exceeding one per cent of the amount he would have been required to pay into the medical aid fund, had such contract not been made, and the employer shall collect such one per cent from the party agreeing to furnish such medical aid and hospital service. Such surplus fund shall be maintained as nearly as practicable at the sum of five thousand dollars (\$5,000) and shall be used by the director of labor and industries for the purpose of furnishing necessary medical aid to workmen included in the contract provided for in this section, where the necessity therefor arises after the expiration of such contract. Disbursements from said surplus fund shall be made by warrants drawn against the same by the state auditor upon certificate thereof, or requisition therefor, by the director of labor and industries through, and by means of, the division of industrial insurance. Payment of such one per cent shall not relieve the party agreeing to furnish such medical aid and hospital service from his obligation so to do. During the operation of any such contract the supervisor of industrial insurance or any interested person may file a complaint with the supervisor of industrial insurance alleging that the service and care actually rendered thereunder are not up to the standard provided in Section 7715, and, upon a hearing had upon notice to the employer and workmen interested thereunder, the supervisor of industrial insurance may make an order that the contract shall terminate unless the defect or deficiency complained of shall be remedied to his satisfaction within a period to be fixed in such order, or he may at such hearing sustain the complaint and make an order that the contract shall terminate forthwith.

Notice to the workmen may be effected in the manner provided in Section 7712. The employer or any interested workman may appeal from such decision in the manner provided in Section 7697. During the appeal the contract shall remain in force and operation, but the costs of the appeal shall be paid out of the medical aid fund only in case the decision of the supervisor of industrial insurance is reversed. If during the operation of any such contract, any injured workman shall not receive medical or surgical treatment with reasonable promptness upon the occurrence of his injury, or at any time during his treatment, the supervisor of industrial insurance may provide such treatment during the emergency at the expense of his employer, who may charge such expense against such contract, and such emergency treatment shall continue until supplanted by like treatment under such contract, notwithstanding the pendency of an appeal from such action. The cost of such emergency treatment shall not exceed the rates specified in the fee bill provided by Section 7715. The acceptance of employment by any workman shall be and be held to be an acceptance of any existing contract made under this section to which his employer is a party.

No contract for medical, surgical, or hospital care of injured workmen entered into prior to the time this act shall go into effect shall be invalidated by anything in this act contained."

G. B. KERSTETTER, *Chairman.*

On motion of Senator Ferryman, the Senate referred back to the first order of business for the purpose of considering resolutions.

RESOLUTION.

By Senator Ferryman:

This world would be an unbalanced world indeed if we were all agreed. It would be like a ship with its load all to port or all to starboard. It would sink.

Who shall determine what is right or wrong? To some right is wrong, and to some wrong is right; but the truth, when found, is like the law of gravitation—it is always the same.

In our work here the past sixty days, we have, I believe, in the long run, come to a balance which I hope will be found to be for the best interests of the whole state. Some gave way to others when it was deemed best.

It is hoped that we leave here with the kindest feelings one toward another. I leave you in this spirit, for I have been signally honored.

So may we go from here to our several walks of life, and I hope it shall be found that things at home have not suffered.

On motion of Senator Lovejoy, the resolution was adopted.

GOVERNOR'S MESSAGES ON SENATE BILLS VETOED.

February 24, 1937.

To the Honorable

The Senate of the State of Washington.

Ladies and Gentlemen:

I am returning herewith, without my approval as to a certain section, Senate Bill No. 122, entitled:

"An act providing for a commission to negotiate a compact and treaty with the State of Oregon fixing the boundaries between the states of Oregon and Washington in certain areas of the Columbia River, providing for the making of the necessary surveys therefor, making an appropriation and providing when said act shall take effect."

This bill is approved with the exception of Section 5, which is vetoed.

I approve the creation of the Washington-Oregon Boundary Commission. However, there is no necessity for a special appropriation. The necessary expenses of the commission can be met from the general appropriations.

For this reason, Section 5 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 5, 1937.

To the Honorable

The Senate of the State of Washington.

Ladies and Gentlemen:

I am returning herewith, without my approval as to certain section, Senate Bill No. 112, entitled:

"An act prescribing certain powers and duties of the director of highways; classifying highways of the state and designating the routes of primary state highways; providing for the acquisition of right of way for primary state highways; prescribing procedure for the contracting of highway construction and work by day labor; assenting to and providing for financial co-operation with the Federal Aid Road Act and other federal donation acts; providing for the improvement, preservation, protection and maintenance of primary state highways; providing for highway signs and markings; providing for closing and restricting highways, granting of franchises, removal of obstructions, planting of vegetation and regulation of lights and signs on public highways; saving certain acts performed and rights vested; repealing certain acts and parts of acts and all acts and parts of acts in conflict; and declaring an emergency."

This bill is approved with the exception of Section 99, which is vetoed.

Section 99 repeals certain existing statutes. In view of the facts that Sections 6 to 24, both inclusive, which were state primary highway designations, were deleted from Senate Bill 112 as originally introduced, the statutes repealed by Section 99 should not be repealed at this time. The repeal of

such statutes should be delayed until proper statutes covering the same subject matter have been enacted.

For this reason, Section 99 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 22, 1937.

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 38, entitled:

“An act relating to the hours of labor of employees of the state and its political subdivisions upon public improvements and works done by contract for the state or its political subdivisions, declaring the public policy of the state with regard thereto, providing penalties for its violations, and amending Sections 7642, 7643, 7646 and 7647 of Remington’s Revised Statutes of Washington, and repealing Section 7645 of Remington’s Revised Statutes of Washington.”

While there is possibly much to be said in favor of the principle embodied in this bill, and the same may at some future date be properly enacted into law, nevertheless I feel that it would be a mistake to adopt this law at this time. I am informed that the Federal government and various other agencies have attempted to put into effect the six-hour day, thirty-hour week principle and that the same has been found unworkable and has been abandoned. I am also informed that while it is possibly adaptable to many industries that there are many public works projects to which it can not be reasonably applied; also that in many instances it has worked to the detriment of labor. To permit this bill to become a law at the present time would, I believe, prevent many contemplated projects and be beneficial to no one, the workman least of all.

For these reasons, Senate Bill No. 38 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 19, 1937.

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 71, entitled:

“An act relating to and providing for the establishment and maintenance of State Junior Colleges, and making an appropriation.”

I can appreciate the interest that many of our communities have in their development of a Junior College program. In many instances they have developed a most creditable institution. My interest in the development of

our educational system in behalf of all of our boys and girls is well known. The administration has gone far in the last four years to stabilize the financial background and the standard of our educational system. We still have some further equalization to complete in connection with our present school system, which will involve the expenditure of additional public funds.

Until our present responsibilities have been fulfilled, I deem it unwise at this time to enlarge on our educational program until a careful survey has been made by the department of education, with definite recommendations from them, and until sufficient funds are available to maintain such enlargement as might be recommended.

For these reasons, Senate Bill No. 71 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 18, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith, to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 23, Senate Bill No. 119, entitled:

"An act relating to public highways; classifying public highways outside incorporated cities and towns; establishing, designating and describing secondary state highways as branches of primary state highways of this state; defining the powers and duties of certain public officers with respect thereto; providing for application of laws, rules and regulation of vehicles thereon; repealing acts and parts of acts in conflict; providing for constitutionality; and declaring an emergency."

While I approve this act there is no valid reason why it should take effect immediately.

For this reason, Section 23 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 19, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 152, entitled:

"An act relating to the expenditure of funds credited to the several counties from the motor vehicle fund by those counties having a township form of county government."

This bill will affect only two counties. In view of the fact that the state has now taken over the secondary highway system, I believe that the counties affected should be allowed to expend their portion of the motor vehicle fund without being subject to the restrictions imposed by this bill, and especially during the readjustment period which will result from such change in the secondary highway system.

For these reasons, Senate Bill No. 152 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 17, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 3, Senate Bill No. 153, entitled:

“An act creating a state institute of child development and research service, providing for management of same and making an appropriation therefor.”

While I believe in the principle of this bill, I do not believe a special appropriation should be made. Since the legislature has already made liberal appropriations to the University, it would seem that this work can be carried on under its general revenues.

For this reason Section 3 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 19, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 165, entitled:

“An act providing for state aid to free public libraries, making an appropriation therefor; defining the powers and duties of the state board for the certification of librarians; amending chapter 119, Laws of 1935, by adding two new sections thereto; and declaring that the act shall take effect immediately.”

While I appreciate the services rendered by our public libraries, I feel that the present financial limitations of the state make it impossible to provide a state contribution. It is evident the state will be obligated to the very

limit during the ensuing biennium to provide adequately for our established state institutions and to carry out the enlarged social security program.

For these reasons Senate Bill No. 165 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 22, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to Section 5, Senate Bill No. 169, entitled:

“An act relating to education, creating a state school equalization fund, providing for budgeting and distributing same, amending Section 4936 of Remington’s Revised Statutes, making an appropriation and declaring an emergency.”

While I approve of this bill as a whole, I do not believe it is proper that the provisions thereof should go into immediate effect.

For these reasons, Section 5 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 18, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 175, entitled:

“An act relating to and authorizing and governing actions against the State of Washington, and amending Section 1 of Chapter 216, Laws of 1927.”

This bill would affect all forms of actions against the state and its officers, and would tend to confusion in view of many existing statutes. While I appreciate that the existing law requiring all actions against the state to be brought in Thurston County may impose inconvenience in some instances, nevertheless I believe that the proper conduct of the state’s government and business requires that the present law be retained.

For this reason, Senate Bill No. 175 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 18, 1937.

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 213, entitled:

“An act to prevent the manufacture, shipment and sale of adulterated or misbranded food, drugs, devices and cosmetics, and to regulate traffic therein; to prevent the false advertisement of food, drugs, devices and cosmetics; prescribing the power of the director of agriculture in connection therewith, prescribing penalties; and repealing Sections 6137, 6138, 6139, 6143, 6144, 6145, 6146, 6147, 6148, 6149, 6150, 6151, 6152, 6153, and 6154 of Remington’s Revised Statutes; and declaring an emergency.”

While the end sought to be accomplished by this bill is most desirable and every protection should be thrown around foods and drugs to insure the welfare of our people, I do not believe that this bill should be permitted to become a law. The National Congress now has before it a bill to regulate foods and drugs, and this bill will likely be passed at this session of Congress. I, therefore, believe that it is better to delay action by the state until after the new Federal law has been adopted, thereby avoiding possible conflict. In view of our present law covering this subject, it is unlikely that harm can result to our citizens through such delay. It is altogether probable that the enactment of such Federal law will render such delay desirable.

For these reasons, Senate Bill No. 213 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 18, 1937.

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 214, entitled:

“An act providing for the registration of contractors, defining terms; providing for the method of obtaining licenses to engage in the business of contracting and fixing the fees for such licenses; providing the method of suspension and cancellation of such licenses; prescribing the punishment for violation of the provisions of this act; and repealing all laws or parts of laws in conflict herewith.”

While no doubt evils exist which this bill is designed to correct, it seems to me there is no necessity for so comprehensive a system of regulation as is provided in this bill. It seems to me that such evils, if any, can be reached without imposing the restrictions created by this bill.

For these reasons, Senate Bill No. 214 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 19, 1937.

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 232, entitled:

“An act regarding boards of county commissioners relative to the care of persons suffering from tuberculosis, and providing state aid and methods of payment therefor to counties not maintaining a county tuberculosis hospital.”

While I approve of the principle of this act, which would place tuberculosis sufferers living in counties unable to maintain a tuberculosis hospital on a par with those living in counties maintaining such hospitals, yet this problem can be cared for under the general social security program, which enactment has made this act unnecessary.

For these reasons, Senate Bill No. 232 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 19, 1937.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 234, entitled:

“An act relating to payments by the state to county tuberculosis hospitals and joint county tuberculosis sanatoria; providing for vocational rehabilitation and amending sections 6123, 6130-12, Remington’s Revised Statutes of Washington.”

I approve reasonable state aid to county tuberculosis hospitals, but the state is now bearing substantial proportion of the cost of their maintenance. This act not only increases the contribution of the state, but no appropriation sufficient to carry out this increased contribution has been provided by the legislature.

For these reasons, Senate Bill No. 234 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 23, 1937.

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to section 6, Senate Bill No. 256, entitled:

"An act relating to taxation amending sections 4, 5, 6, 11, 19, 21, 24, 27, 36, 37, 40, 44, 45, 49, 187, 188, 192, 200, 202, 211 and 212 of chapter 180, Laws of 1935; (sections 8370-4, 8370-5, 8370-6, 8370-11, 8370-19, 8370-21, 8370-24, 8370-27, 8370-36, 8370-37, 8370-40, 8370-44, 8370-45, 8370-49, 8370-187, 8370-188, 8370-192, 8370-200, 8370-202, 8370-211, 8370-212, Remington's Revised Statutes) and adding three new sections thereto and declaring that this act shall take effect May 1st, 1937."

The 1935 revenue measure, which includes the sales tax, was enacted to meet an emergency, and fortunately it measured up to our needs, yielding even more than was anticipated.

Now, because of improvement in business and experience in administration, it appears that this revenue system will yield substantially larger returns during the coming biennium, I am confident that the anticipated gain—considering the elimination of several desirable but untimely functions and appropriations; and careful planning and practice of strict economy—will in a substantial way take care of the reasonable needs of our commonwealth.

Consequently, I believe it is unnecessary and inadvisable at this time to further burden our people by extending this system of taxation to impose a levy on exempted foodstuffs.

It is true, of course, that these exemptions complicate administration of the sales tax and cause inconveniences to the merchants; and it may be that if this form of taxation is to be retained as a part of the general tax structure, the people generally will realize and concede that the exemptions should be removed. Because of this possibility, I am asking the State Tax Commission to make a close study of the problem of exemptions and to make a report early enough to give the people an opportunity to discuss and understand the matter before the next session of the legislature.

For these reasons, section 6 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

March 17, 1937.

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 278, entitled:

"An act requiring contractors on public works to furnish bonds conditioned for the performance of said contracts, and for the payment of laborers, mechanics, materialmen, and others, and repealing sections 1159, 1159-1, 1160

and 1161 of Remington's Revised Statutes of the State of Washington, and all other acts in conflict herewith."

While appreciating that this act is intended to meet those difficulties which have sometimes arisen under existing law, I can find no necessary new matter therein. I am advised that the bill contains changes that seem objectionable, and tend to confusion. A long line of court decisions have definitely established rights under the present law and this act, rather than correcting the occasional difficulties that have arisen, might further confuse the situation and thus not remedy in any perceptible degree the conditions it is intended to meet.

For these reasons, Senate Bill No. 278 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 17, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval of section 5, Senate Bill No. 306, entitled:

"An act to regulate the caravanning of motor vehicles, providing for the licensing thereof, and prescribing penalties."

Recent court decisions show that the fee for each vehicle provided in section 5 is so excessive that the entire act can not be expected to withstand attack. The proponents of the bill do not object to disapproval of the section in its present form.

For this reason, section 5 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 22, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to certain items, Senate Bill No. 336, entitled:

"An act making appropriations for the payment of salaries of certain officers and employees of the state and for the operation, maintenance and other expenses of certain state institutions, departments and offices, for the

purchase and improvement of land, the construction of buildings and improvements for the various state institutions designated and mentioned, and for emergencies, and for refunds, and for deficiencies, and for sundry civil expenses of the state government, and for public assistance, and for purposes specified in certain acts of Congress, and for miscellaneous purposes, for the fiscal biennium beginning April 1, 1937, and ending March 31, 1939, except as otherwise provided, and declaring that this act shall take effect immediately."

I disapprove and veto the items "Departmental Audits: Salaries and wages \$2,500.00; Operations \$3,000.00" for the reason that Senate Bill No. 372, which has been approved, increases the contribution by the Liquor Control Board for the purpose of an audit from \$10,000.00 to \$20,000.00 for the biennium. This is in line with the provisions of law regarding auditing of other state departments and eliminates the need of appropriations from the General Fund for this purpose.

I disapprove and veto the items "Audit, Department of Public Welfare: Salaries and Wages \$23,000.00; Operations \$10,450.00." As the duty of auditing the newly organized Department of Social Security is vested in the Director of Finance, Budget and Business, these appropriations are unnecessary.

I disapprove and veto the item "Indexing Senate and House Journals \$700," for the reason that House Bill No. 700 appropriates \$1,000.00 for this purpose.

I disapprove and veto the item "Food and Drugs Division: Salaries, Wages and Operations, \$40,000.00," for the reason that Senate Bill No. 213 has been disapproved and the regular appropriations are sufficient to carry on the work of this division.

I disapprove and veto the items "FROM THE COMMISSION MERCHANTS FUND: Salaries and Wages \$10,000.00; Operations \$6,350.00; (Expenditures not to exceed fees heretofore or hereafter collected) Total, \$16,350.00." House Bill No. 297, having been approved, carries an appropriation of \$40,000.00 for this purpose. Therefore, these items are unnecessary.

I disapprove and veto items "FROM THE EMERGENCY RELIEF FUND, UNTIL EXHAUSTED, BALANCE FROM THE GENERAL FUND, For the Department of Public Welfare: Salaries and Wages \$2,658,000.00; Operations \$736,000.00; Social Security, including Old Age Assistance, General Assistance and Child Welfare \$40,000,000.00; Total \$43,394,000.00," for the reason that Senate Bill No. 149 appropriates \$43,394,000.00 for carrying on the work of the Department of Social Security. This represents a duplication of the above mentioned items which are therefore unnecessary.

I disapprove and veto the items "FROM THE GENERAL FUND, For the Washington State Patrol: Salaries and Wages \$420,000.00; Operations \$395,175.00; Total \$815,175.00. FROM THE MOTOR VEHICLE FUND, Salaries, Wages and Operations \$100,000.00," for the reason that the foregoing items are duplicated from the Highway Safety Fund and the General Fund in House Bill No. 700, which has been approved. Therefore, the above items are unnecessary.

I disapprove and veto the item for the Department of Highways "Capital Outlays and Major Repairs \$194,940.00" for the reason that Senate Bill No. 410, which has already been approved, contains sufficient appropriation for ordinary capital outlay and major repair items.

With the exception of the foregoing items which are vetoed, the remainder of Senate Bill No. 336 is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable

March 19, 1937.

The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval of sections 3, 4, 6 and 12, Senate Bill No. 349, entitled:

“An act relating to small loans; providing for the licensing and regulating the business of making loans under three hundred dollars (\$300.00), prescribing a maximum rate of interest; providing for the regulation of the business of making such loans, for examination, investigations and licensing of persons engaged in such business; providing penalties for violation of the act and repealing all acts in conflict.”

For many years, efforts have been made to procure reasonable regulation of the business of making small loans to people of limited income. In my messages to the last two legislatures, I asked the enactment of such legislation. At the present session, as always, by the most reprehensible methods, efforts to meet this problem in a reasonable way were opposed.

Every good citizen must regard the publicly reported actions of at least some of the representatives of this business as a reflection on the good name of our state. We cannot regard this small loan act passed by the legislature in their natural indignation as the best act that could have been procured, but the representatives of this business must realize that they alone are largely responsible for its not being a better act.

My own natural inclination is to approve all the features of this bill, however arduous they may be, but I feel the four sections I disapprove, whether their provisions are deserved or not, to be unduly burdensome. Their veto will still leave a workable act for the protection of the people.

For these reasons, sections 3, 4, 6 and 12 are vetoed and the remainder of the bill approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

To the Honorable

The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 352, entitled:

“An act providing for primary elections in school districts of the first class in Class A Counties.”

Since school directors receive no compensation for their arduous services, it would seem to be unfair to require candidates who are desirous of contributing their time to the worthy purpose of managing the affairs of a school district to face the difficulty and expense of both a primary and a general election.

For the above reasons, Senate Bill No. 352 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,

Governor.

March 16, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 365, entitled:

“An act relating to state forests, defining powers and duties of the state forest board and other officials in respect thereto, providing for disbursement of funds and amending section 5812-3 of Remington’s Revised Statutes (section 1, chapter 117 of Laws of 1929).”

Senate Bill No. 365, specifically amends section 5812-3, Remington’s Revised Statutes, which is the identical section of existing law specifically amended by House Bill No. 508 as being the more desirable amendment.

For this reason, Senate Bill No. 365 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,

Governor.

March 18, 1937.

To the Honorable

The Senate of the State of Washington.

(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to sections 1 and 2, Senate Bill No. 395, entitled:

“An act relating to and providing for an additional tax of one-half cent ($\frac{1}{2}c$) per gallon on motor vehicle fuel and inflammable petroleum products from the period from July 1, 1937, to July 1, 1941; providing for the exclusive use of such additional tax together with other funds from the motor vehicle fund for secondary state highways; appropriating five and one-half million dollars (\$5,500,000.00) for secondary state highways and declaring an emergency.”

Sections 1 and 2 of this act impose an additional one-half cent tax upon gasoline. It is proposed that this money be used to provide funds toward supporting a secondary state highway system of approximately 2,500 miles,

located in every county of our state. Senate Bill No. 119, the companion bill, contains the provisions for this comprehensive secondary system.

In my message to the legislature, I warned that there was no public demand for new forms of taxes, or higher levies on existing forms, and frankly suggested that I intended to act accordingly. Later, when the measure to increase the gasoline tax was under consideration, I again suggested to members of the legislature, both individually and in groups, that the people would not appreciate increases in taxes; and that, if a secondary state highway system was desired, it might be better to plan to fully reimburse the motor vehicle fund for money borrowed in the emergency of 1933 before imposing additional taxes on motorists.

Now, I still thoroughly appreciate the desirability of establishing this secondary highway program at this time. It will mean increased employment and a greatly improved service for the people throughout our state.

However, we should remember that the motorists of this state have been sustaining a substantial tax program in an effort to develop our splendid system of highways. I have been of the opinion, and still am, that the entire tax levy on motorists should be utilized exclusively for the construction and maintenance of highways.

In view of the fact that a substantial diversion was made from the motor vehicle fund in 1933, because of the emergency that gripped our people and confronted the legislature, I believe that a full restoration of this diversion should be given to the highway program before there are any thoughts of increasing the gasoline tax. The amount of the diversion, which totals in excess of \$1,000,000 annually, is almost equal to the amount of the proposed additional levy on gasoline.

I am convinced, too, that the principal problem involved in this situation is not necessarily increased revenue, but primarily proper distribution and careful supervision of funds already available.

For these reasons, I disapprove of the proposed additional tax on gasoline, and approve the creation and development of the proposed secondary state highway system; and I am confident, too, that we can measurably maintain the secondary system within the funds available.

Therefore, sections 1 and 2 are vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 15, 1937.

To the Honorable
The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval as to section 4, Senate Bill No. 398, entitled:

"An act relating to the state government, prescribing the minimum compensation of state employees and declaring that the act shall take effect April 1, 1937."

The principle involved in this bill will be put into operation as speedily as possible. However, it would be extremely difficult if not absolutely impossible to put the bill into complete operation within the short time now remaining before April 1, 1937.

For this reason, section 4 is vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 22, 1937.

To the Honorable

The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval, Senate Bill No. 402, entitled:

“An act relating to certificates of ownership of motor vehicles and providing that as a condition to the re-issue or transfer of any such certificate evidence shall be furnished that all property taxes on the transferred vehicle have been paid.”

In view of the fact that I have already given my approval to Senate Bill No. 291, which has the effect of removing the property tax from private motor vehicles, this bill can have practical operation for a limited period only. I believe that whatever value there may be in this bill, for the comparatively short time during which it could operate, is not sufficient to overcome the difficulties of administration and the burdens which it would necessarily impose upon the owners of private motor vehicles.

For these reasons, Senate Bill No. 402 is vetoed.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.

March 18, 1937.

To the Honorable

The Senate of the State of Washington.
(Through the Secretary of State.)

Ladies and Gentlemen:

I am filing herewith to be transmitted to the Senate at the next session of the legislature, without my approval of subsections 1 and 2 of section 2 and sections 5 to 8 inclusive, Senate Bill No. 410, entitled:

“An act relating to public roads and streets, making motor vehicle fund a permanent fund, providing for the distribution within and making appropriations from the motor vehicle fund for supervision, location, right of way, improvement, construction, reconstruction, maintenance, special maintenance, emergencies and capital outlay for primary state highways and for payment of interest and bonds on state owned bridges and for secondary or county road and city streets, making appropriations for carrying out the provisions of cer-

tain acts of Congress and for miscellaneous purposes, prescribing the powers and duties of certain officers, making appropriations for the reimbursement of counties and incorporated cities and towns, and making an appropriation from the highway equipment fund, repealing all laws in conflict herewith, and declaring that this act shall take effect immediately.”

Items 1 and 2 of section 2 of this act provide for payment from allocations of gas tax money made to the cities of Seattle and Bellingham of certain special improvement assessments due against real property in said cities. I am advised that there is considerable question as to the constitutionality of the two provisions mentioned, but aside from that, we are confronted with the serious question of whether general motor vehicle funds should be used to give special relief to a local district. I cannot believe such provision to be desirable as a public policy. However meritorious the claim for relief of the people of said local districts may be, I do not believe that it should be met at the expense of general gas tax funds intended for the benefit of all the people of the community.

Sections 5 to 8 inclusive are inconsistent with the remainder of the act and are also inconsistent with Senate Bill No. 119. I have approved the secondary system provided by such act, and therefore disapprove these inconsistent sections.

For these reasons, items 1 and 2 of section 2 and sections 5 to 8 inclusive are vetoed, and the remainder of the bill is approved.

Respectfully submitted,

CLARENCE D. MARTIN,
Governor.
