Senator Scott: "Or adjusted in either direction, as opposed to adjusting it for an individual."

SECOND READING

REENGROSSED SUBSTITUTE SENATE BILL NO. 3797, by Senate Energy and Utilities Committee (originally sponsored by Senators Gould, Bottiger, Guess, Hemstad, Hurley, Scott, Williams, Woody and Moore):

Modifying provisions relating to the management of joint operating agencies.
The bill was read the second time by sections.

PARLIAMENTARY INQUIRY

Senator Bottiger: "Mr. President, point of parliamentary inquiry. There was a motion just made and adopted which, in the normal course of everything, nobody ever says anything about, but in the very delicate balancing of what passes and does not pass, we have just sent over the budget thing, and I noticed in Governor Spellman's remarks, that he thought that might be all he needed.

"And I want to make sure that that bill does not physically leave here because it would be in violation of the rule on the motion for reconsideration which says that any time during this day, that motion can be made, and I want to make sure that these WPPSS' bills get over there and get passed as was the agreement that we had reached."

Senator Hayner: "Mr. President, Senator Bottiger, it is our intention and I have told you that it is, to work the bills which are on our desks and to get them over there. If we hold all these bills, we have five Senate bills and only one House bill over there. They are waiting, sitting there waiting for some of our Senate bills to come.

"We had agreed that we will do this and we will do it."

Senator Bottiger: "Okay, Mrs. Hayner, your word has never been broken to me and I haven't dealt with Mr. Polk very often, but I wanted that physically out here on the floor that when I get caught in the trap of just passing this one bill and then the House folds up and goes home."

Senator Gould moved adoption of the following amendment:

Strike everything after the enacting clause and insert the following: "Section 1. Section 43.52.370, chapter 8, Laws of 1965 as amended by section 7, chapter 184, Laws of 1977 ex. sess. and RCW 43.52.370 are each amended to read as follows:

(1) With the exception of the powers and duties of the board of directors described in RCW 43.52.370(2), the management and control of an operating agency constructing a nuclear power plant under a site certification agreement under chapter 80.50 RCW is vested in an executive board established under this subsection and consisting of eleven members.

(a) Seven members of the executive board shall be elected to four-year terms by the board of directors from among the members of the board of directors. The board of directors may provide by rule for the composition of the seven members of the executive board elected from among the members of the board of directors so as to afford fair representation which reflects the member public utility districts' and cities' participation in the joint operating agency's projects. The board of directors

may also provide by rule for the removal of a member of the executive board, including the outside directors. Members of the board of directors may be elected to serve successive terms on the executive board.

(b) Four members of the executive board shall be outside directors and shall be selected and appointed by the board of directors. The outside directors shall:

On motion of Senator Craswell, the rules were suspended, Reengrossed Substitute Senate Bill No. 3206 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

POINT OF INQUIRY

Senator Goltz: "Senator Craswell, I notice on the yellow calendar on this bill, it indicates that there is a revenue, a fiscal note available; and in the past we have heard on a number of occasions that raising the liquor tax increases the amount of bootlegging so that there may not be a net gain in revenue from raising liquor taxes; and I am curious as to what the fiscal note says about that."

Senator Craswell: "Thank you, Senator Goltz. I should point out that the information in the yellow calendar is the information on the original 3206 which doesn't include the license fees and changes or the beer tax that the liquor ounce tax increases."

"The fiscal note that we have on the total bill as now amended is that it will bring an increased 32.9 million dollars. I understand that when this fiscal note was figured out, they took into account that maybe fewer sales would be made in the state of Washington. Thank you."

POINT OF INQUIRY

Senator Bottiger: "Senator Craswell, the total fiscal note of the amendment before us is \$32,000,000 in new taxes?"

(Senator Craswell—no response on tape.)

POINT OF INQUIRY

Senator Talmadge: "Did that not get recorded as a 'yes?' Can you orally tell me so that it can be recorded in the journal?"

President Pro Tempore Guess: "Senator Bottiger, will you please state your question."

Senator Bottiger: "I asked Senator Craswell if the total fiscal note for this bill that we are amending on was \$32,000,000 in new taxes."

Senator Craswell: "The revenue figured coming in off this inflationary adjustment is 32.9 million dollars."

Senator Talmadge: "Would Senator Craswell yield to one more question?"

"Senator Craswell, the average individual going to a tavern or bar or cocktail lounge in the state of Washington, do you know what kind of fiscal impact this will have on the cost of liquor by the drink for that person?"

Senator Craswell: "If there are twenty-two drinks in a fifth, it is about a penny."

Senator Talmadge: "I want to thank Senator Scott for his expertise."

Debate ensued.

POINT OF INQUIRY

Senator Wilson: "Senator Craswell, will the \$32,000,000 in new taxes involved in this bill, go into the state general fund or elsewhere?"

Senator Craswell: "Senator Wilson, these inflationary catchups were being studied long before we even knew whether we needed any more revenue for this state or not. Yes, it will go into the general fund."

Senator Wilson: "The \$32,000,000 in new taxes will go into the general fund?"

REMARKS BY SENATOR WOJAHN

Senator Wojahn: "Mr. Speaker, in response to Senator Wilson and also I believe, correcting an error in the answer, \$244,000 I think, will go into a dedicated fund for the development of wine grapes. I am sure that is in this bill and I don't know whether there are other things, but I know that is in there."

POINT OF INQUIRY

Senator Lysen: "Senator Craswell, I am concerned, have you checked out, does this violate initiative 62 in any way, shape or form; or how does it relate to initiative 62?"

Senator Craswell: "This doesn't even come close to initiative 62."

On motion of Senator Clarke, the Senate commenced consideration of Engrossed Substitute Senate Bill No. 3765.

SECOND READING

ENGROSSED SUBSTITUTE SENATE BILL NO. 3765, by Committee on Ways and Means (originally sponsored by Senator Moore):

Modifying the cost reimbursement system for nursing homes.

The bill was read the second time by sections.

There being no objection, on motion of Senator Moore, an amendment by Senators Moore, Talmadge and Fleming, on the desk of the Secretary of the Senate, was withdrawn.

Senator Deccio moved adoption of the following amendment:

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. There is added to chapter 74.09 RCW a new section to read as follows:

(1) The nursing home auditing and cost reimbursement system of the department of social and health services shall be governed by this section until implementation of chapter 74.46 RCW. The department shall reimburse nursing homes on the basis of the following cost centers: Patient care, food, administration and operations, and property.

(2) The department shall reimburse the patient care cost center at the January 1, 1981, reimbursement rate, as adjusted for inflation.

(a) In addition, the reimbursement shall be enhanced by three million dollars for the first year of the biennium and by five million dollars for the second year of the biennium. These enhancements shall be apportioned among the nursing homes proportionately based on the patient care cost center for each nursing home.

(b) For the purpose of nursing assistant certification, the department shall reimburse at a rate of thirty cents for each medicaid patient day for the first year of the biennium and at a rate of thirty-three cents, as adjusted for inflation, for each medicaid patient day for the second year of the biennium. This is in addition to the January 1, 1981, reimbursement rate.

(3) Reimbursement for the food cost center shall be at the January 1, 1981, reimbursement rate, adjusted for inflation.

(4) The administration and operations cost center consists of two components:

(a) The wages for all employees, other than nursing service personnel and administrators and assistant administrators, shall be reimbursed at the January 1, 1981, rate as adjusted for inflation.

(b) Reimbursement for administration and operations, including all items not specified in subsections (2), (3), (4)(a), (5), and (6) of this section, shall not exceed the eighty-fifth percentile of the costs of all reporting facilities, not including any funds shifted pursuant to subsection (8) of this section, as adjusted for inflation, except that the nursing home facilities may be grouped by factors, other than ownership or legal organizational characteristics, which could reasonably influence cost requirements for administration and operations.

(5) The return on net invested equity for each facility shall be determined by utilizing medicare rules and regulations.

(6) Property cost center reimbursement for both leased and owner-operated facilities shall not exceed the predicted cost plus one standard deviation of the necessary and ordinary costs of depreciation, and interest, of owner-operated facilities utilizing a multiple regression formula developed by the department of social and health services, recognizing factors which may be significant, including location, age, and type of facility. Rental costs of leased facilities other than those operating as intermediate care facilities for the mentally retarded, and depreciation and interest costs of owner-operated facilities, for leases or mortgages entered into prior to July 1, 1979, shall be reimbursed to the extent they do not exceed the reimbursement rate payable for the property cost center as of June 30, 1979, or July 1, 1979, whichever is higher, adjusted to meet any discrepancies as determined by the federal government between the reimbursements made and the approved state medicaid plan, and adjusted for any approved capitalized additions or replacements, except that any leased facility which has operated as an intermediate care facility for the mentally retarded prior to July 1, 1979, shall be reimbursed to the extent that the property costs exceed the upper limit of the multiple regression formula.

(7) The patient personal needs allowance limitation shall be thirty-three dollars and fifty cents.

(8) For settlement purposes only, for calendar years 1981, 1982, and 1983, a nursing home may shift among cost centers an amount not greater than twenty percent of the reimbursement rate of the cost center into which the shift is being made. Shifts may be made among the cost centers. However, shifts may not be made into the property cost center. The department shall monitor on a random basis the extent and patterns of shifting between cost centers authorized by this section. The department shall report to the legislature on its findings required by this section prior to February 15th of each year.

(9) Audits shall be conducted by the department and settlements shall be calculated by cost center only.

(10) The department may adjust reimbursement rates to reflect required increases in staffing levels and capital improvements.

(11) Any reference in this section to a January 1, 1981, reimbursement rate includes any adjustment resulting from a rate appeal and its final resolution, but shall not include any adjustment resulting from litigation on reimbursement rates prior to June 30, 1981, or the procedures by which they were established.

(12) References in this section to adjustments for inflation mean adjustments of 5.0 percent for rates effective July 1, 1981, through December 31, 1981; 5.2 percent for rates effective January 1, 1982, through June 30, 1982; 4.35 percent for rates effective July 1, 1982, through December 31, 1982; and 4.35 percent for rates effective January 1, 1983, through June 30, 1983.

Sec. 2. Section 4, chapter 260, Laws of 1977 ex. sess. and RCW 74.09.580 are each amended to read as follows:

The nursing home payment system under this chapter shall provide for individually-based or class-based rates which shall be the maximum reimbursement for each nursing home for the period for which the rates are assigned.

(1)(a) Beginning with the settlements for calendar year 1981, the nursing home shall submit a preliminary settlement report simultaneously with the annual cost report.

(b) Within ninety days after receipt of the reports by the secretary, the department shall submit a proposed settlement report by cost center to the nursing home which fully substantiates disallowed costs, refunds, underpayments, and/or adjustments to the preliminary settlement report.

(c) The proposed settlement shall provide the basis for a schedule to correct overpayments and underpayments.

(2) Operators of nursing homes shall refund all portions of payments received which exceed actual audited costs and all portions of payments received which are attributable to unreasonable or nonallowable costs as determined by federal or state regulations.

Sec. 3. Section 7, chapter 177, Laws of 1980 and RCW 74.46.070 are each amended to read as follows:

(1) The office of financial management shall, within seventy-five days after April 4, 1980, engage a consultant through competitive bids who will develop the following:

(a) A uniform chart of accounts;

(b) A standard cost report form, including financial statements which shall be in conformity with generally accepted accounting principles and such regulatory requirements established by this section as well as any relevant federal regulatory requirements;

(c) Regulatory reporting and accounting provisions which may be required; and

(d) Regulatory auditing provisions which may be required.

(2) Such consultant will develop the items specified in subsection (1) of this section:

(a) In cooperation with an advisory committee to be composed of representatives of the office of financial management, the legislature, the department, the office of the state auditor, the Washington society of certified public accountants, and the providers of nursing home services; and

(b) In a manner which will achieve the principles stated in RCW 74.46.030 and 74.46.100.

(3) Such consultant shall provide ongoing financial consulting assistance to the patient task force created in section 86 of this act. The patient classification system and standard hours for each classification established by the task force must tie to the uniform chart of accounts, standard cost reports, and financial statements to allow the independent certified public accountant to express an opinion on the statement of expenditures presented in the annual cost report.

(4) Such consultant will complete the development of the items specified in subsection (1) of this section not later than October 1, 1980. The secretary will adopt rules and regulations necessary to implement the consultant's product not later than December 31, 1980, for use in the ((+98+)) 1983 reporting year.

Sec. 4. Section 12, chapter 177, Laws of 1980 and RCW 74.46.120 are each amended to read as follows:

Certified audits of the cost reports and patient trust accounts shall be conducted in accordance with the provisions of this chapter, as follows:

(1) The annual cost report of each contractor and the patient trust accounts under his control will be audited prior to submission to the department by an independent certified public accountant, licensed according to the provisions of chapter 18.04 RCW, who shall be engaged by the office of financial management through competitive bids. The office of financial management shall cause to be published a request for qualifications from independent certified public accountants. The office of financial management shall then select those independent certified public accountant firms which have qualified to participate in the competitive bid process through a request for proposals: PROVIDED, That during fiscal year ((+982)) 1984, for one hundred percent of the contractors, cost reports and patient trust accounts shall be audited: PROVIDED FURTHER, That during fiscal year ((+983)) 1985, for up to one hundred percent of the contractors, cost reports and patient trust accounts shall be audited. The requirements contained in this subsection shall not be required after June 30, ((+983)) 1985;

(2) Upon request of the secretary; and

(3) Upon termination of a contract.

Sec. 5. Section 46, chapter 177, Laws of 1980 and RCW 74.46.460 are each amended to read as follows:

(1) Each contractor's reimbursement rates will be determined prospectively at least once each calendar year, to be effective July 1st.

(2) Rates may be adjusted as determined by the department to take into account variations of more than ten percent in the distribution of patient classifications from the prior reporting year, program changes, economic trends and conditions, and/or administrative review provided by RCW 74.46.780 and shall be adjusted for any capitalized additions or replacements made as a condition for licensure or certification.

(3) Where the contractor participated in the provisions of prospective cost-related reimbursement in effect prior to July 1, (~~(1982)~~) 1984, such contractor's prospective rate effective July 1, (~~(1982)~~) 1984, will be determined utilizing his reported allowable costs for calendar year (~~(1981)~~) 1983.

(4) All prospective reimbursement rates for (~~(1983)~~) 1985 and thereafter shall be determined utilizing the prior year's audited cost reports.

Sec. 6. Section 49, chapter 177, Laws of 1980 and RCW 74.46.490 are each amended to read as follows:

(1) The food cost center shall include all costs for bulk and raw food and beverages purchased for the dietary needs of medical care recipients.

(2) The food cost reimbursement rate for each facility shall be computed as follows:

$FR = (TFC/TPD) 1.15$, where

FR = the facility food cost center reimbursement rate;

TFC = the total of all reporting facilities' food cost center costs; and

TPD = the total patient days for the prior year of all reporting facilities.

(3) Unless extended by law for an additional period of time, on and after July 1, (~~(1984)~~) 1986, the food cost reimbursement rate for each facility shall be computed as follows:

$FR = (TFC/TPD)$, where

FR = the facility food cost center reimbursement rate;

TFC = the total of all reporting facilities' food cost center costs; and

TPD = the total patient days for the prior year of all reporting facilities.

Sec. 7. Section 53, chapter 177, Laws of 1980 and RCW 74.46.530 are each amended to read as follows:

(1) The department shall first establish a total state-wide return on investment pool for use in determining individual facility return on investment allowances.

(a) In establishing the total state-wide return on investment pool the department shall determine the sum of net invested funds as of the end of the most recent reporting period of all facilities participating in the medical care program.

(b) In computing the portion of net invested funds representing the net book value of tangible fixed assets, the same assets, depreciation bases, lives, and methods referred to in RCW 74.46.330, 74.46.350, 74.46.360, and 74.46.370, including owned and leased assets, shall be utilized, except that the capitalized cost of land upon which the facility is located and such other contiguous land which is reasonable and necessary for use in the regular course of providing patient care shall also be included. In the case of leased facilities where the net invested funds are unknown or the contractor is unable to provide necessary information to determine net invested funds, the secretary shall have the authority to determine an amount for net invested funds based on an appraisal conducted according to RCW 74.46.360(1).

(c) The sum of net invested funds shall then be multiplied by 1.4 times the average of the rates of interest on special issues of public debt obligations issued to

the federal hospital insurance trust fund for the last completed calendar quarter prior to rate-setting to establish the total state-wide return on investment pool.

(2) The department shall establish for individual facilities return on investment allowances composed of two parts: A financing allowance and a variable return allowance.

(a) The financing allowance shall be determined by multiplying the net invested funds of each facility by 1.07 times the average of the rates of interest on special issues of public debt obligations issued to the federal hospital insurance trust fund for the last completed quarter prior to rate-setting, and dividing by the contractor's total patient days. If a capitalized addition or retirement of an asset will result in a different licensed bed capacity during the ensuing period, the prior period total patient days used in computing the financing and variable return allowances shall be adjusted to the anticipated patient day level.

(b) In determining the variable return allowance:

(i) The department will first rank all facilities in numerical order from highest to lowest according to their average per diem allowable costs for the sum of the administration and operations and property cost centers for the previous reimbursement period.

(ii) The department shall then compute the variable return allowance by multiplying the appropriate percentage amounts, which shall not be less than one percent and not greater than five percent, by the total prospective rate for each facility, as determined in RCW 74.46.450 through 74.46.510. The percentage amounts will be based on groupings of facilities according to the rankings as established in subparagraph (2)(b)(i) of this section. Those groups of facilities with lower per diem costs shall receive higher percentage amounts than those with higher per diem costs.

(iii) Such percentage amounts shall be calculated so that the variable return allowance plus the financing allowance times the total patient days for each facility, when summed for all facilities, shall be as close in amount to the total state-wide return on investment pool as is practical; except that, such percentage amounts for equivalent groups of facilities as determined in subparagraph (2)(b)(ii) of this section shall be no less than the percentage amounts as calculated pursuant to this subsection on July 1, ((+1982)) 1984.

(c) The sum of the financing allowance and the variable return allowance shall be the return on investment for each facility, and shall be added to the prospective rates of each contractor as determined in RCW 74.46.450 through 74.46.510.

(d) In the case of a facility which was leased by the contractor as of January 1, 1980, in an arm's-length agreement, which continues to be leased under the same lease agreement, and for which the annualized lease payment, plus any interest and depreciation expenses associated with contractor-owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center determined according to RCW 74.46.510, is more than the return on investment allowance determined according to RCW 74.46.530(2)(c), the following shall apply:

(i) The financing allowance shall be recomputed substituting the fair market value of the assets as of January 1, ((+1980)) 1982, as determined by the department of general administration through an appraisal procedure, for the net book value of the assets in determining net invested funds for the facility. A determination by the department of general administration of fair market value shall be final unless the procedure used to make such determination is shown to be arbitrary and capricious.

(ii) The sum of the financing allowance computed under subparagraph (2)(d)(i) of this section and the variable allowance shall be compared to the annualized lease payment, plus any interest and depreciation expenses associated with contractor-

owned assets, for the period covered by the prospective rates, divided by the contractor's total patient days, minus the property cost center rate determined according to RCW 74.46.510. The lesser of the two amounts shall be called the alternate return on investment allowance.

(iii) The return on investment allowance determined according to RCW 74.46.530(2)(c) or the alternate return on investment allowance, whichever is greater, shall be the return on investment allowance for the facility and shall be added to the prospective rates of the contractor as determined in RCW 74.46.450 through 74.46.510.

(3) In the event that the department of health, education and welfare disallows the application of the return on investment allowances to nonprofit facilities, the department shall modify the measurements of net invested funds used for computing both total state-wide return on investment pool and individual facility return on investment allowances as follows: Net invested funds for each nonprofit facility shall be multiplied by one minus the ratio of equity funds to the net invested funds of all nonprofit facilities.

(4) Each biennium, beginning in ~~((1983))~~ 1984, the secretary shall review the adequacy of return on investment allowances in relation to anticipated requirements for maintaining, reducing, or expanding nursing care capacity. The secretary shall report the results of such review to the legislature and make recommendations for adjustments in the return on investment rates utilized in this section, if appropriate.

Sec. 8. Section 81, chapter 177, Laws of 1980 and RCW 74.46.810 are each amended to read as follows:

The department, pursuant to RCW 74.09.560, shall be responsible for the completion of all audits for cost reports covering all periods through December 31, ~~((1980))~~ 1982.

Both Montana and Oregon have called to indicate that they would, they think we ought to continue that program."

Providing for a study on the feasibility of completing nuclear power plants.

The bill was read the second time by sections.

Strike everything after the enacting clause and insert the following:

"NEW SECTION. Section 1. The legislature believes that the new authority granted in the 1981 amendment of RCW 43.52.250 and 43.52.3411 requires a prudent review of the status of those nuclear projects which are in the early stages of construction and financing on the effective date of this act. Therefore, the study prescribed in section 2 of this act is authorized, to examine project financing, estimate the amount necessary to finance, assess the need for financing the projects, as compared to cost-effective alternatives, and determine the electric rate impacts of the projects to be financed. The legislature directs that an independent study shall be made of the feasibility of completion and operation of the Washington Public Power Supply System (WPPSS) Nuclear Projects Nos. 4 and 5, which are the least advanced in construction of the five WPPSS projects.

NEW SECTION. Sec. 2. The study shall include, but not be limited to the following:

(1) Determine the need for WPPSS Nuclear Projects Nos. 4 and 5; estimate the average firm and interruptible electric energy demand over a ten-year period to include fiscal year 1988 in the Pacific Northwest region, as defined by Public Law 96-501; identify and quantify all resources that are expected to be available to meet such electric energy demand over a ten-year period to include fiscal year 1988 with and without WPPSS Nuclear Projects Nos. 4 and 5. Resources shall include conservation measures not yet implemented but which will be implemented by 1988. The study shall indicate the band of uncertainty associated with the estimates;

(2) Assess financing support of construction of WPPSS Nuclear Projects Nos. 4 and 5; evaluate whether money can be made available as needed to support plant construction; evaluate financing factors, including interest and inflation rates between now and expected completion of the plants, national monetary policy during this interval, and market reaction to WPPSS financing arrangements;

(3) The ultimate cost and schedule of WPPSS Nuclear Projects Nos. 4 and 5; estimate the expected completion dates, assuming financing will be available; estimate the total construction cost for completion (a) with no delays, (b) with a two-year deferral, and (c) with a ten-year deferral; include replacement power costs in deferral cases; identify the sum of all plant construction costs for WPPSS Nuclear Projects Nos. 4 and 5 as of March 31, 1982;

(4) The cost of power from WPPSS Nuclear Projects Nos. 4 and 5; estimate the cost of power to be produced by each plant throughout the predicted period of plant operation for each of the cases in subsection (3) of this section;

(5) The expected power rates; estimate average electric power rates in a representative group of participating utilities for the period specified in subsection (1) of this section in both actual and 1979 dollars, selected for variety in utility size and extent of participation in WPPSS Nuclear Projects Nos. 4 and 5; perform this evaluation for each of the cases in subsection (3) of this section and identify the impact of outside power purchases occasioned by the deferrals;

(6) The outside market for WPPSS Nuclear Projects Nos. 4 and 5 power; evaluate the availability of out-of-region markets for any surplus energy; estimate the probable sales rates;

(7) The cost-effectiveness of alternatives to WPPSS Nuclear Projects Nos. 4 and 5; compare with WPPSS Nuclear Projects Nos. 4 and 5 the cost-effectiveness of available alternatives, considering all life-cycle costs, timing of availability and options for disposition of uncompleted plants including consideration of appropriate cancellation and close-out charges and salvage value; and

(8) Analysis of the cost impact of a temporary power supply deficit as compared to a temporary power supply surplus.

NEW SECTION. Sec. 3. The legislature intends that the study described in section 2 of this act shall be managed and conducted by an independent research unit, recognized both for expertise in the evaluation of electric energy supply and demand in the Pacific Northwest, particularly the process of electric generation by nuclear fission, and for objectivity in past research. The joint Washington energy research center of the University of Washington and Washington State University shall conduct this study through its affiliate office of applied energy studies of Washington State University. A study director shall be appointed by Washington State University. The study director shall contract with nationally recognized expert and disinterested consultants as needed for expeditious completion of the study. WPPSS shall cooperate fully in providing necessary information and documents as required by the study director.

The legislative budget committee shall monitor the fiscal administration of the study described in section 2 of this act and may require adherence to such fiscal practices as are appropriate to the needs of the state and the intent of this section and section 2 of this act.

NEW SECTION. Sec. 4. The study director shall consult with representatives who may be designated by WPPSS, the Pacific Northwest Utilities Conference Committee, the investor-owned utility which is part-owner of WPPSS Nuclear Project No. 5, and the direct service industries served by the Bonneville power administration during the development of the study analyses. These representatives shall provide liaison, information and other resources, and may arrange support services, as requested by the study director, to assist in the timely completion of the study. The study director shall not be limited, however, in his contact with these organizations to the representatives designated in this section: PROVIDED, That the study director shall give prior notice to the designated representative of any contact with the organization.

NEW SECTION. Sec. 5. The study required by section 2 of this act shall be conducted under the supervision of a steering committee. The steering committee shall be limited to no more than nine individuals, one of whom may be appointed by the WPPSS executive committee, one of whom may be appointed by the publicly-owned utilities participating in the projects, one of whom may be appointed by the investor-owned utility which is part-owner of WPPSS Nuclear Project No. 5, and the rest of whom shall be appointed jointly by the chairmen of the senate and house energy and utilities committees, and all of whom shall be experts in one or more fields related to energy, electric utilities, public works construction, business, or municipal finance.

Members of the committee shall be reimbursed for travel expenses as provided in RCW 43.03.050 and 43.03.060 as now or hereafter amended.

The supervisory functions of the steering committee shall be exercised and are limited as follows:

(1) Approve selection of consultants submitted by the study director by no later than July 10, 1981, or, for any consultant selected after July 10, 1981, within two weeks of the study director's notification of the selection to the steering committee. If the selection is not approved by the appropriate deadline, the legislative subcommittee created under section 6 of this act shall approve the selection;

(2) Receive and review a study plan to be prepared by the study director no later than June 15, 1981;

(3) Meet regularly with the study director, to receive progress reports;

(4) Suggest actions to preserve the study schedule established in the study plan and provide technical advice as appropriate in the development of the study analysis;

(5) Review and comment upon drafts of the study elements, as they are completed; and

(6) Evaluate study conduct and report to the 1982 regular session of the forty-seventh legislature regarding the professional quality of study analyses. The committee may include in its report an explanation of the differences and agreements between the assumptions and findings used and stated in the study report as compared to those assumptions and findings used and stated by the electric utility industry in the Pacific Northwest in planning power supply.

NEW SECTION. Sec. 6. (1) There is created to fulfill the purposes of this act a special legislative subcommittee of eight members to be appointed by the president of the senate and the speaker of the house of representatives from the members of the energy and utilities committees or their successors. The subcommittee shall include from each house:

(a) The chairman of the energy and utilities committee or the chairman's designee, and one other member of the majority caucus; and

(b) Two members of the minority caucus.

(2) The special legislative subcommittee shall:

(a) Review the progress of the study under section 2 of this act;

(b) Serve as a clearinghouse for any concerns expressed by the study director or by the steering committee created under section 5 of this act; and

(c) Advise the study director.

NEW SECTION. Sec. 7. The study required by section 2 of this act is needed as expeditiously as possible and shall be completed by March 15, 1982. The study director shall report periodically upon the concurrent request of the chairmen of the subcommittee created under section 6 of this act regarding study progress and preliminary findings and shall provide a draft report to the legislature by January 31, 1982.

A full report of the findings and recommendations in the study shall be submitted by the office of applied energy studies of the Washington energy research center to the governor, the speaker of the house of representatives, the president of the senate, the chairmen of the energy and utilities committees of the senate and house of representatives, the managing director and the president of the board of directors of the Washington Public Power Supply System, and the governing body of each participant in the projects.

NEW SECTION. Sec. 8. There is hereby appropriated to Washington State University the sum of one million five hundred thousand dollars or so much thereof as is necessary for the 1981-1983 biennium from the state general fund to be used for the sole purpose of paying the costs of conducting the study under section 2 of this act.

NEW SECTION. Sec. 9. The Washington Public Power Supply System shall reimburse the state general fund in the amount of one million five hundred thousand dollars or so much thereof as is paid from the state general fund to Washington State University for the sole purpose of conducting the study which is the subject of section 2 of this act and such reimbursement shall be made to the state general fund upon completion of the study, but in no event later than June 30, 1982. The moneys reimbursed shall be considered part of the costs of construction of WPPSS Nuclear Projects Nos. 4 and 5.

Under no circumstances may any investor-owned utility which is part-owner of WPPSS Nuclear Projects Nos. 4 and 5 be required to pay more than a share of the cost of the study to be determined based on proportionate ownership of the projects.

NEW SECTION. Sec. 10. If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. Sec. 11. This act is necessary for the immediate preservation of the public peace, health, and safety, the support of the state government and its existing public institutions, and shall take effect immediately."

Senator Benitz moved adoption of the following amendment to the amendment by Senators Gould and Williams:

On page 4, line 37, "after director" insert:

"No employee or former employee of the forty-sixth or forty-seventh legislature of the state of Washington shall be employed directly or indirectly by the study director, his affiliated institution or retained consultants or contractors"

Debate ensued.

There being no objection, on motion of Senator Benitz, the amendment to the amendment was withdrawn.

The motion by Senator Gould carried and the amendment was adopted.

Having voted on the prevailing side, on motion of Senator Williams, the Senate moved to reconsider the vote by which the amendment by Senators Gould and Williams was adopted.

The President declared the question before the Senate to be adoption of the amendment by Senators Gould and Williams on reconsideration.

Senator Gould moved the following amendment to the amendment by Senators Gould and Williams be adopted:

On page 3, line 38 of the amendment, after "of" and before "available" insert "reliable"

POINT OF INQUIRY

Senator Lysen: "Yes, maybe I should ask Senator Williams, or Senator Gould, what is the effect of this amendment? Senator Bottiger, would you tell me?"

Senator Bottiger: "Senator Lysen, if the study were to study any alternate source, irrespective of what it might be and how expensive it might be, the study could go off into never-never land. So as I understand it one side wants to have the study of reliable alternative energy sources which to you and I would be wind and low head hydro and perhaps wave action, things that are technologically current.

"And they were concerned that this study would go out and find some . . ."

Senator Lysen: "Those just mentioned, they would be considered reliable then?"

Senator Bottiger: "They would to me. Wave and tide might be very expensive but they would be reliable."

The motion by Senator Gould carried and the amendment to the amendment was adopted.

The amendment by Senators Gould and Williams, on reconsideration, as amended, was adopted.

On motion of Senator Gould, the following amendment to the title was adopted:

On page 1, line 1 of the title, after "Relating to joint operating agencies;" strike the remainder of the title and insert "creating new sections; making an appropriation; and declaring an emergency."

On motion of Senator Gould, the rules were suspended, Engrossed Substitute Senate Bill No. 3972 was advanced to third reading, the second reading considered the third, and the bill was placed on final passage.

Debate ensued.

POINT OF INQUIRY

Senator Lysen: "Senator Bottiger, why has not there been provisions made for someone other than utility industry, the fact that, Senator Gould said 'nationally recognized firm;' and then she went on to say 'independent study.' Those two terms

are almost directly in contradiction to each other because every nationally recognized firm is into this thing up to their eyeballs. So how can they maintain an objective hands-off approach, arms-length relationship; and that is what I am concerned about, in all sincerity, Senator Bottiger."

Senator Bottiger: "Senator, the selection by the director of firm or firms in which to assist him in making the study, the director is independent. I think most of us are satisfied with that. He will then select in the interview process and not come out with what you and I know, there's a word that is not polite in public to use of sometimes what you call the expert that is hired.

"But generally that applies when you tell the person the result you want and then hire him to go out and prove it. I do not think that is the situation in the way this is set up.

"Now the board of directors, as I understand the bill from Senator Williams and Senator Gould, is a supervisor of the proceedings but does not have the power to effect its outcome. And perhaps your question is better asked of either Senators Gould or Williams."

Debate ensued.

REMARKS BY SENATOR GOULD

Senator Gould: ". . . just briefly answer his question and close debate, I hope.

"These nationally recognized firms are not electrical utility firms, they are firms that do studies and are noted for their expertise in doing studies. We are not asking a utility to come in and do the study.

"I hope that responds."

Debate ensued.

The President announced the presence of the Governor of the State of Washington, The Honorable John Spellman, in the Senate Chamber and appointed Senators Hayner, Jones, Fleming and Bottiger as a committee of honor to escort Governor Spellman to the rostrum.

PERSONAL PRIVILEGE

Senator Quigg: "Mr. President, it has become apparent to me that earlier in the day there was some mention made about Senator Hayner and some eyewash that comment was made by Senator Talmadge, and to just so we get the record straight and clear so that in the future we will know what we are talking about, particularly when Senator Talmadge uses that analogy, gives me a great deal of pleasure and privilege to present to Senator Talmadge from Senator Hayner, a bottle of eyewash."

PERSONAL PRIVILEGE

Senator Goltz: "Mr. President, if we are waiting, I would like, on a point of personal privilege, to express, I think the appreciation of every person here for the wonderful work which the Senate staff has done; and I would particularly like to cite our great Secretary and his staff for doing, I thought, an impossible job and it turned out to be impossible last Sunday.

"But I think the work was noble and I am sure that when the 'enrolling is called up yonder,' Sid will be there."

PERSONAL PRIVILEGE

Senator Wilson: "Mr. President, I would like to express my personal admiration and I suspect every member of the body shares in it also, for the extremely professional and fair-minded job that you have done, presiding over what was undoubtedly a very difficult session. I compliment you highly, Governor, for the work you have done during this session."

PERSONAL PRIVILEGE

REMARKS BY GOVERNOR SPELLMAN

Governor Spellman: "Mr. President, members of the Senate. Let me first congratulate you, congratulate you for having done the people's business with diligence. I do not believe there has ever been a harder working session of the legislature than this session, with having dealt with most adverse conditions perhaps the most adverse since the time of the great depression of the state of Washington, responsibly and with attention to the true necessities of the people of this state.

"I am confident that the state, over the years, will be better for the hard work you have done here over the last day.

"Finally, let me thank you, thank you for the spirit of cooperation that has been here, for putting aside the rivalries and the animosities which naturally exist, to get the job done. On behalf of all the people of the state of Washington and more particularly on behalf of myself, I want to thank you for your cooperation, your good will. As for the 105 days, who is counting? Thank you."

REMARKS BY SENATOR HAYNER

Senator Hayner: "Ladies and gentlemen of the Senate. I just want to say that I think that this session was able to be concluded in 106 days because of the inordinate amount of cooperation and patience that our Governor has shown. Not since I have been in the legislature have we had so much agreement with the executive branch, and I think that is something of which we can be all very proud and especially you, Governor Spellman."

Governor Spellman lead the audience in singing Auld Lang Sine.

The committee of honor escorted Governor Spellman from the Senate Chamber and the committee was discharged.

Would Dorothy Greeley, Helene Fox, Pat Durham, Marian Rohrbeck, Nyla Wood, Rhonda Henderson, Shirley Wayland, Bea Thomas, Lyn Dasso, Nina Weld, Dee Renderer, Pat McNulty, Verne Sawyer and Bill Gleason please gather at the head of the aisle and march down."

But I would like to say that our side would like to commend the press. I have taken back ninety-five percent of everything I have ever said about the press but the other five percent will probably last me for the rest of my life."

**GOVERNOR'S MESSAGES ON SENATE BILLS
VETOED AND PARTIALLY VETOED**

—1981—

FORTY-SEVENTH LEGISLATURE

REGULAR AND FIRST EXTRAORDINARY SESSIONS

Office of the Governor, May 19, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF
WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to Sections 5, 8, 18, 22 and 23 SENATE BILL NO. 3000 entitled:

“An Act relating to gubernatorial appointees.”

In my view the requirement of Senate confirmation should be limited to major administrative posts and governing bodies. In light of the 1500 or so gubernatorial appointments to boards and commissions, a routine requirement of Senate confirmation is impractical. For that reason I have vetoed Sections 5 and 8, which require Senate confirmation of the gubernatorial appointments to the Organized Crime Advisory Board and the Data Processing Authority.

I have vetoed Section 18 because it unnecessarily restricts the Governor's control over the membership of the Horse Racing Commission.

Section 22 is vetoed because it is identical in substance to Section 3 of Engrossed Substitute Senate Bill No. 3041, which has been signed into law.

Section 23 is vetoed because the legislative session having been concluded, no emergency exists with respect to the gubernatorial appointments covered by this bill.

With the exceptions of the aforementioned sections, which I have vetoed, the remainder of Senate Bill No. 3000 is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, April 30, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF
WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to three sections of SENATE BILL NO. 3009 entitled:

“An Act relating to the Horse Racing Commission.”

I am vetoing these sections because the first two sections create a larger commission than is desirable in this State; and section three without the veto would allow indiscriminate betting on races from other tracks with exclusive television lines.

With the exception of Section 1, Section 2 and a portion of Section 3, which I have vetoed, the remainder of Senate Bill No. 3009 is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 18, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval SENATE BILL NO. 3255 entitled:

“An Act relating to firearms.”

Under present law one who carries a loaded pistol in a vehicle must carry it on one's person. If it is not on one's person, the weapon must be unloaded.

SENATE BILL NO. 3255 would permit loaded pistols to be carried in vehicles whether or not on one's person. This could foster many dangerous situations: loaded guns in exposed positions in automobiles, accessible to children, neighbors, or even burglars.

While perhaps a minor convenience for those who wish to leave loaded guns in their cars, this bill poses an unacceptable threat to public safety. I have therefore vetoed Senate Bill No. 3255.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 19, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to several provisions ENGROSSED SUBSTITUTE SENATE BILL NO. 3636 entitled:

“An Act adopting the Budget.”

The provisions I have vetoed and the reasons therefore are as follows:

1. Special Appropriations

In Section 14, on page 9, lines 2 and 3, I have vetoed the reference item “in sections 110 through 116 of this act.” The phrase should have referenced sections 107 through 113. This appears to be a clerical error and the intent of the proviso is sufficiently clear without the reference.

2. Insurance Commissioner

On page 17, Section 29, I have vetoed the proviso on lines 17, 18, and 19 that reads “The appropriation in this section is subject to the following condition or limitation: A maximum of \$1,000 may be expended for the continuing education program.”

RCW 48.17.150 (2) requires that the Insurance Commissioner promulgate and administer a continuing education program. If the \$1,000 limitation is not removed, it is not possible to administer an effective program. Therefore, the restrictive language is removed.

3. Department of Social and Health Services

On page 27, Section 47, I have vetoed subparagraphs (b) and (c) of Subsection (4) which establish a requirement that “for each month that the Department operates without a completed contingency plan, 0.75 percent of the General Fund-State appropriations will be placed in reserve status.”

I support the need for a contingency departmental expenditure plan to reflect the anticipated loss of federal funds. I accept the parameters of change

as established by the legislature and the required report prior to implementation. However, the requirement that General Funds be placed in reserve for each month for failure to have a completed contingency plan seems to add unnecessary complexity to the already difficult task of planning for the reduction of federal funding—particularly since detailed information will not be available from the federal level until long after the next biennium begins. Furthermore, it is not entirely clear if the percentage of General Funds to be placed in reserve relates to the entire departmental appropriation or to the program involved.

4. Adult Corrections

On page 29, I have vetoed the sentence on lines 28 and 29 in Subsection (5) of Section 48 that reads “No other transfers between category appropriations shall be made.” This provision is not consistent with Section 47, Subsection (2) which provides for the transfer of funds between categories. Transfers between categories may be necessary to reallocate resources upon completion of the reorganization plan to establish a separate Department of Corrections. In addition, it is imperative that the Secretary of Corrections have maximum management flexibility to meet rapidly changing demands on the corrections system. Changes in population characteristics may very well result in the need to modify programs and shift funds.

5. Mental Health Program

On pages 33 and 34, Section 50, I have vetoed Subsection (2)(f):

“The Department of Social and Health Services in conjunction with the Office of Financial Management and the Legislative Budget Committee shall develop staff-to-patient ratios for each treatment unit by September 1, 1981. By October 1, 1981, the state hospitals shall operate at these required ratios.”

The October 1 staffing ratio implementation date is unrealistic. This schedule does not provide adequate time for executive consideration of the programmatic and fiscal implications of the proposed standards and it precludes such a review by the legislature. I am, however, requesting a report on staffing ratios to be prepared by the Department and OFM. It is to be comparable to the study required in Section 48, Subsection (2)(b) for Adult Corrections. It is to include a comparison between the proposed staffing and prior biennial staffing levels as well as a discussion of the programmatic and fiscal implications of the new standards.

6. Developmental Disabilities Program

On pages 34 and 35, Section 51, I have vetoed Subsection (1)(b) which directs that:

“The funds appropriated for community services are to be allocated by the department to county services including developmental disability center funding, on a block grant basis. . .”

It would be administratively unworkable to apply the block grant mechanism to all programs within the Community Services category. Furthermore, the language of the enabling legislation (SSB 4299) for this budget indicates that it is legislative intent to confine this type of funding to Developmental Disability Centers. Deletion of the subsection will eliminate this confusion.

7. Income Maintenance Program

On page 37, Section 53, I have vetoed Subsection (1) which provides that the Department "shall maintain state payments for grants at the state payment level provided for in Chapter 74.08 RCW and this section."

This section requires the Department to maintain payments for income maintenance grants at a level which reflects the aggregate appropriation level for the Income Maintenance program. Such an approach would be far too restrictive in this period of economic uncertainty and could prevent the Department from imposing a rateable reduction in the event that overall revenues are insufficient to support biennial appropriations.

On page 37, Section 53, Subsection (2) I have vetoed the sentence, starting on line 19, that reads: "Provided that no more than the value of 60 percent of a full AFDC grant shall be allocated in the first month and no more than 100 percent of a full AFDC grant in any consecutive twelve-month period."

These limitations are arbitrary and unnecessarily restrictive and will conflict with the intent of the program which is to meet specific emergent needs of the applicants.

On page 38, Section 53, I have vetoed the portion of Subsection (4), beginning on line 2, that reads:

"The Department of Social and Health Services shall immediately request waivers for federal proposals relating to standard flat deductions for work expenses and child care, earned income disregards, and mandatory work experience programs.

The Department intends to pursue federal waivers when it is cost-effective to do so. However, the determination of which waivers to request should only be made after careful consideration of alternatives. It should not be restricted by the programs or time period mandated in this proviso.

On page 39, Section 53, I have vetoed Subsection (7), which requires the Department to establish a procedure to ensure that eligibility standards are as restrictive as is permitted under state and federal law.

While I do not object to a detailed review of service manuals or to changes in eligibility standards, this should be done only after the extent of pending federal reductions is known. The deadline date of September 15, 1981 is inconsistent with the timing of anticipated federal reductions.

8. Community Social Services Grants Program

On page 40, Section 54, I have vetoed the last sentence of Subsection (2), beginning on line 16, which requires that the Department "shall not disperse any more than one-eighth of the funds under this subsection in any three month period."

The intent of Subsection (2) is to provide funds for exceptional Chore Service cases as a measure in the possible prevention of institutionalization. Exceptional cases are not experienced on precise schedules. Actual reimbursement results from the payment of proper bills, not from providing services. Disbursements generally lag behind service, further complicating adherence to a strict disbursement schedule.

9. Department of Social and Health Services—Medical Assistance Program

On page 42, Section 55 I have vetoed Subsection (4) which requires the Department to authorize chiropractic and podiatry services when it is the

most cost-effective and appropriate treatment. This section will lead to a substantial amount of litigation and fair hearings regarding the general and case-by-case application of these criteria. Additionally, no funds were provided to the Department for these services and other legislation has been provided that specifically prohibits provision of these services by the Department.

On page 43, Section 55, I have vetoed Subsection (6) which requires the Department to reimburse ophthalmologists and optometrists at the same rate for the performance of identical services. Although many of the services performed are similar from a procedural standpoint, the legal liability to the ophthalmologist is much greater because of the more comprehensive nature of required medical training and certification. If let stand, this proviso would lead to a reduction in the availability of ophthalmological services to state patients.

10. Planning and Community Affairs Agency

On page 49, I have vetoed Subsection (3) of Section 62 that provides \$250,000 of the General Fund-State appropriation for assistance to Canadian border areas. I have signed into law Substitute House Bill No. 257 which also provides \$250,000 for the same purpose. The language is nearly identical in both instances. This veto will avoid a duplication of appropriations for financial assistance to Canadian border areas.

11. State Energy Office

On page 53, Section 72, I have vetoed the condition that makes the appropriations in this section contingent on "enactment of House Bill No. 402 during the 1981 regular session of the legislature." This proviso made funding for the State Energy Office contingent on passage of a bill reinstating the agency under the provisions of the Sunset Act. However, another bill, Engrossed Substitute Senate Bill No. 4085, was selected by the legislature to serve as the vehicle to reinstate the State Energy Office. Therefore, I have vetoed this proviso in order to preserve legislative intent to provide for the continued operation of the State Energy Office.

12. Department of Commerce and Economic Development

On pages 59 and 60, Section 80, I have vetoed all of the language relating to condition of limitations beginning on line 31, page 59 and concluding on page 60, line 8. The language, which specifies an expenditure level by program is overly restrictive for an agency such as the Department of Commerce and Economic Development: The language, in effect, does not provide the Department the flexibility necessary programmatically to respond to a continually changing economic and business environment.

13. Salary and Compensation Increase (K-12)

On page 74, Section 92, I have vetoed Subsection (8) which directs that: "If any provision of Chapter 16, Laws of 1981, or LEAP Document 2, or its application to any person or circumstance, is held invalid, the appropriation in this section shall lapse."

Given the extreme complexities associated with salary and compensation policies in our school system, it is almost assured that the application of LEAP Document 2 on some individual person or circumstances will be invalid. I believe it is inappropriate to punish school employees, particularly those that

adhered to the legislative guidelines over the past four years, if there is an error on the part of the legislature.

14. Higher Education

On page 80, Section 106 I have vetoed that part of Subsection (1) which reads as follows:

“The University of Washington shall allocate not less than 755.4 FTE faculty positions and Washington State University shall allocate not less than 344.3 FTE faculty staff positions to departments defined as high cost in the council for postsecondary report 81-1: PROVIDED, That deviations from this subsection are permitted subject to approval of the Office of Financial Management: PROVIDED FURTHER, That.”

The number of faculty positions identified in this sub-section are in error. More importantly, however, is the implication that the higher education funding formula is a spending plan. The funding formula was never intended as a spending plan but rather a distribution model, the funding formulas must be reconstructed as I have recommended in my budget proposal.

15. Enrollment Contract Levels

On page 83 and 84 I have vetoed Section 117.

This section imposes a financial penalty if institutions of higher education accept more students than funded in the budget. Such restrictions discourage efficiency in higher education and reduces the educational opportunities in the state.

16. Commission for Vocational Education

On page 84, Section 118, I have vetoed Subsection (2) which states:

“The commission on vocational education shall not require of the state board for community college education or the superintendent of public instruction any report or information which is not expressly required by state or federal law or rules. With any request for information, the commission for vocational education shall note on the request the specific citation of the state or federal requirement which requires the report. The commission shall keep its compliance auditing to the minimum required by federal law or rule.”

One of my goals as Governor is to reduce needless paperwork and reporting requirements and I will take every reasonable step necessary to attain this goal. Therefore, it is inappropriate and unnecessary to single out any particular agency in this fashion.

17. Washington State Arts Commission

On page 85, Section 121, I have vetoed the sentence that reads: “Of this amount, not more than \$37,500 shall be expended for administration of the program.”

This is an unrealistic restriction on the management of the Commission.

18. Matching Federal Funds

I have vetoed Section 133 on page 94. This section requires that state funds appropriated to match anticipated federal funds must lapse if not required to qualify for federal funds. The Department of Social and Health Services is exempted from this restriction.

In these times when the federal budget is in such a state of flux compared to the assumptions upon which the appropriation act was based, I feel it is critical that the executive have the maximum flexibility to respond to changing conditions. I believe the legislature gave partial recognition to this

position by exempting the Department of Social and Health Services from the restriction; that same condition should apply to all programs.

19. Federal Funding Loss

I have vetoed Section 136 on page 95. This section provides that no additional state funds be provided to programs which are supported in whole or in part by federal funds, in the event that federal funds are reduced or eliminated for the program. The Department of Social and Health Services is exempted from this requirement.

While this kind of provision may be appropriate for those programs that are wholly funded from federal funds, there are many programs that have shared funding between federal and other sources. If all anticipated federal funds do not materialize, the state must have the capability to maintain essential programs from state funds. I believe the legislature gave partial recognition to this position by exempting the Department of Social and Health Services from the restrictions; that same condition should apply to all programs.

20 Appropriation Lapsing

I have vetoed the last sentence in Subsection (1) of Section 137 on pages 95 and 96. This sentence requires that the unexpended portion of the initial first year allotment shall lapse at the end of the first year regardless of any revisions that may have occurred subsequent to that initial allotment for the first year.

This requirement can effectively negate the purpose of the allotment amendment authority granted by RCW 43.88.110 and cause funds needed during the second year of the biennium to be unavailable to meet planned program needs. It is unrealistic to assume that the initial expenditure estimates for a 24 month period can be developed as accurately as required by this proviso.

With the exceptions of the aforementioned sections, which I have vetoed, Engrossed Substitute Senate Bill No. 3636 is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 19, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to Sections 1(1)(b), 1(3), 3, 4, 5, 6, 7, 8, 9, and 10 SENATE BILL NO. 3646, entitled:
"An Act relating to athletics."

The aforementioned sections remove professional wrestling from regulation under the State Athletic Commission (renamed the "State Boxing Commission"). I feel that wrestling should remain under the auspices of the Commission, which promotes safety and honesty in boxing and wrestling events.

The reason I have approved the Commission's new name ("State Boxing Commission") is that Section 11, which extends the sunset of the Commission to 1987, refers to the Commission by its new name.

With the exceptions of the aforementioned sections, the remainder of the bill is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 18, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to Sections 69 through 81, Section 86, and portions of Section 82, SUBSTITUTE SENATE BILL NO. 3655 entitled:

“An Act relating to redistricting.”

Sections 69 through 81 and Section 86 redraw the state's Congressional districts. Section 82 contains minor references to Congressional redistricting. Having reviewed the proposed new districts, having heard the unanimous disapproval of the plan expressed by the state's Congressional delegation, and having heard the concerns of voters around the state, I find that the public interest is not served by needlessly dividing into separate Congressional districts major cities, counties, regions and areas of common interest. Also, existing districts are changed radically to the extent that for the next 18 months more than two million residents of this state will reside in their existing districts while their former congressman will have been assigned to a new district. This wholesale disenfranchisement is neither necessary nor desirable.

Fortunately Section 84 provides a mechanism by which to resolve next session remaining problems in redistricting. It is my hope that the leadership will work with the Congressional delegation and others to develop a new plan by January. There also may be provisions in the signed portions of the bill dealing with legislative districts that need similar review and remedial action next session.

I have talked with the leadership of the House and Senate and am confident that these issues can be resolved.

With the exceptions of Sections 69 through 81, Section 86, and portions of Section 82, which I have vetoed, Substitute Senate Bill No. 3655 is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 14, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to certain sections and items REENGROSSED SUBSTITUTE SENATE BILL NO. 3843, as amended by the House, entitled:

“An Act adopting the capital budget; making appropriations and authorizing expenditures for capital improvements; authorizing certain pro-

jects; providing an effective date; and declaring an emergency.”

The specific items and sections that I vetoed are as follows:

1. General Administration

On page 7, Section 3 (16), I have vetoed the following language on line 6 and ending on line 11:

The appropriation contained in this subsection shall complete the Old Capitol Building renovation. The department of general administration shall revise renovation specifications in order that the renovation is completed within the funds appropriated in this subsection.

This language leaves the department no flexibility should unanticipated problems occur which would require additional funding.

There are numerous difficulties and unknowns associated with the renovation of a building constructed 90 years ago. Health and safety codes become more demanding, structural deterioration occurs, and functions and spatial requirements change. I want to ensure that the department has sufficient latitude to complete this project as planned.

2. General Administration

On page 8, Section 3 (23), I have vetoed the entire Subsection 23. It is the apparent intent of this language to move the Office of Financial Management and the Department of Natural Resources out of the House Office Building and the Public Lands Building so that the space can be converted to legislative use. No space provisions have been made for the agencies that would be displaced from the two buildings.

This project had not been reviewed by the Department of General Administration for feasibility and cost before being placed in the capital budget by the legislature. Approval of this project would be premature since funds have been appropriated within this act for a Capitol Area Master Plan.

3. Donation of Real Estate

I have vetoed Section 37 on page 78. In a study conducted by the Office of Financial Management during the current biennium it was determined that land donations could be acquired through the unanticipated receipts system. This procedure ensures that a potential acquisition will be reported to the Office of Financial Management and analyzed for potential impact before acceptance. It also ensures timely notification to the legislature of contemplated actions while allowing for the expeditious acceptance of donations that may be beneficial to the state. Therefore, Section 37 is excessively restrictive and unnecessary.

4. Capitol Facilities

I have vetoed Section 38 on page 79. The section in effect transfers control of capitol buildings occupied wholly or in part by the legislature from the Department of General Administration to the legislature. This language would unduly restrict the executive branch in its responsibility to complete projects in an efficient and timely manner.

With the exceptions of the foregoing sections and items which I have vetoed for the reasons stated, the remainder of Reengrossed Substitute Senate Bill No. 3843, as amended by the House, is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 18, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval SUBSTITUTE SENATE BILL NO. 4036 entitled:

“An Act relating to environmental protection.”

This bill would severely restrict judicial review of the adequacy of environmental impact statements. It would also exempt the developers of certain residential development projects from having to file environmental impact statements.

These provisions would substantially modify the State Environmental Policy Act (SEPA). While the Act and the EIS process may indeed need to be modified, these provisions go too far. It is my hope that the SEPA study authorized by Senate Bill No. 4190, which I have signed today, will produce suggestions for modifications that reduce the cumbersome aspects of SEPA but maintain its essential protections of our environment.

I have therefore vetoed Substitute Senate Bill No. 4036.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 18, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to one section SUBSTITUTE SENATE BILL NO. 4085 entitled:

“An Act relating to the energy office.”

Section 15 would delete the Energy Office from membership on the Energy Facility Site Evaluation Council (EFSEC). To the extent that the Energy Office can provide its expertise and viewpoint on EFSEC it should do so.

I have therefore vetoed Section 15. The remainder of the bill is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 8, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to Section 3 SUBSTITUTE SENATE BILL NO. 4182 entitled:

“An Act relating to low-level nuclear waste management.”

This bill adopts the Northwest Interstate Compact on Low-Level Radioactive Waste Management. Insofar as the Governor's designee to administer the Compact is already a government official, there is no need for

the designee to be confirmed by the Senate. I have therefore vetoed Section 3. With the exception of Section 3, which I have vetoed, the remainder of Substitute Senate Bill No. 4182 is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.

Office of the Governor, May 19, 1981.

TO THE HONORABLE, THE SENATE OF THE STATE OF WASHINGTON.

LADIES AND GENTLEMEN:

I am returning herewith without my approval as to Sections 1(10), 6(2), 10(4) and 24, SUBSTITUTE SENATE BILL NO. 4299:

“An Act relating to Social and Health Services; reenacting and amending certain sections of RCW 74 and other sections and declaring an emergency.”

Sections 1(10) and 10(4) define “state payment level” as the aggregate expenditure authority within the limits of funds appropriated for the Income Maintenance program. These provisions would prevent the imposition of rateable reductions unless the entire Income Maintenance program appropriation was in danger of overexpenditure. This program represents a large part of the total DSHS appropriation; rateable reductions will probably be needed if adverse financial conditions are experienced.

Section 6(2) would unnecessarily restrict the appropriate administration of AFDC grants.

Section 24 provides block grant funding for Developmental Disabilities Centers. Such a mechanism would unnecessarily limit the agency’s ability to monitor and control specific purchased services for clientele.

With the exceptions of the above mentioned sections, Substitute Senate Bill No. 4299 is approved.

Respectfully submitted,
JOHN SPELLMAN
Governor.
