- Inpatient behavioral health facilities, including, but not limited to, evaluation and treatment facilities, residential treatment facilities, secure detox facilities;
- Residential long-term care facilities, including, but not limited to, nursing homes, assisted living facilities, adult family homes, settings where certified community residential services and supports are provided, and enhanced services facilities;
- Mobile clinics or other vehicles where health care is delivered;
- Outpatient facilities, including, but not limited to, dialysis centers, physician offices, and behavioral health facilities (including offices of psychiatrists, mental health counselors, and substance use disorder professionals);
- Dental and dental specialty facilities;
- Pharmacies (not including the retail areas);
- Massage therapy offices (this includes designated areas where massage is administered within non-health care settings like spas and wellness/fitness centers);
- Chiropractic offices;
- Midwifery practices and stand-alone birth centers;
- Isolation and/or quarantine facilities;
- Ambulatory surgical facilities;
- Urgent care centers; and
- Hospice care centers.

"Health Care Setting" does not include:

- Settings where sports and spectator events or other gatherings are held (including when credentialed athletic trainers are providing care to players), other than areas primarily used for the delivery of health care services, such as designated first aid areas (which are Health Care Settings);
- Department of Children, Youth & Families (DCYF)-licensed foster homes that do not primarily provide health care

- services;
- Research facilities where no health care is delivered to people;
  - Veterinary health care settings;
  - Animal control agencies; and
  - Non-profit humane societies.
- d. “State Agency” includes:
- Every agency listed at <https://www.governor.wa.gov/officegovernor/office/executive-cabinet>;
  - Every agency listed at <https://www.governor.wa.gov/officegovernor/office/small-cabinet>;
  - Every agency under the authority of a board, council, or commission listed at [https://ofm.wa.gov/sites/default/files/public/publications/2021\\_State\\_Org\\_Chart.pdf](https://ofm.wa.gov/sites/default/files/public/publications/2021_State_Org_Chart.pdf); and
  - The Office of the Attorney General, the Office of the Commissioner of Public Lands and the Department of Natural Resources, the Office of the Insurance Commissioner, the Office of the Lieutenant Governor, the Office of Superintendent of Public Instruction.
- e. “Educational Setting” includes:
- All public and private universities, colleges, community colleges, and technical colleges and private career/vocational schools subject to licensure by the Workforce Training & Education Coordinating Board;
  - All public schools, public school districts, charter schools, private schools, educational service districts, the Washington School for the Deaf, the Washington State School for the Blind, and the Washington Youth Academy; and
  - All early learning and child care programs serving groups of children from multiple households, including, but not limited to, Early Childhood Education and Assistance Programs, Family Home Child Care, Child Care Centers, Outdoor, Nature-based Child Care, School-aged Child Care, license-exempt preschools, and license-exempt youth development programs (e.g., municipal parks & recreation programs, YMCA, Boys & Girls Clubs).
- f. “Fully Vaccinated against COVID-19”: A person is fully vaccinated against COVID-19 two weeks after they have received the second dose in a two-dose series of a COVID-19 vaccine (e.g., Pfizer-BioNTech or Moderna) or a single-dose COVID-19 vaccine (e.g., Johnson & Johnson (J&J)/Janssen) authorized for emergency use, licensed, or otherwise approved by the FDA or listed for emergency use or otherwise approved by the World Health Organization.
- g. “On-site volunteer” and “on-site contractor” includes:
- A volunteer or contractor who is reasonably likely or contractually obligated to engage in or in fact engages in work while physically present at a building, facility, jobsite, project site, unit, or other defined area owned, leased, occupied by, or controlled by a State Agency, an operator of an Educational Setting, or an operator of a Health Care Setting.
- “On-site volunteer” and “on-site contractor” does not include:
- A volunteer or contractor who is reasonably likely or contractually obligated to engage in or in fact engages in work during which they are physically present at a site for only a short period of time and any moments of close physical proximity to others on site are fleeting. Examples include contractors delivering supplies by truck to a construction site where they remain physically distanced from others on the site or a driver for a contracted shipping and delivery service briefly entering a site to pick up parcels for shipping.
- h. “Operator of an Educational Setting” and “operator of a Health Care Setting” do not include clients, patients, patrons, customers, or similar individuals served by a Worker for a State Agency, Worker for an Educational Setting operator, or Health Care Provider.

ADDITIONALLY, the specific prohibitions in this Proclamation are severable and do not apply to the extent that compliance with a prohibition would violate (1) any U.S. or Washington constitutional provision; (2) federal statutes or regulations; (3) any conditions that apply to the state’s receipt of federal funding; (4) state statutes; or (5) applicable orders from any court of competent jurisdiction.

ADDITIONALLY, nothing in this Proclamation limits otherwise applicable requirements related to personal protective equipment, personnel training, and infection control policies and procedures.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management

Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5). Further, if people fail to comply with the required facial coverings, social distancing and other protective measures while engaging in this phased reopening, I may be forced to reinstate the prohibitions established in earlier proclamations.

This order is effective immediately. Unless extended or amended, upon expiration or termination of this amendatory proclamation the provisions of Proclamation 20-25, et seq., will continue to be in effect until the state of emergency, issued on February 29, 2020, pursuant to Proclamation 20-05, is rescinded.

Signed and sealed with the official seal of the state of Washington on this 24th day of November, A.D., Two Thousand and Twenty-One at Olympia, Washington.

**PROCLAMATION BY THE GOVERNOR  
AMENDING AND EXTENDING PROCLAMATIONS 20-05 AND 20-22, et seq.**

**20-22.11  
Truck Driver Hours**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it continues to pose to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, continues to persist in the state of Washington; and

**WHEREAS**, on March 13, 2020, in response to a Presidential Emergency Declaration issued to address the nationwide COVID-19 pandemic and pursuant to 49 CFR 390.23(a)(1)(i), the Federal Motor Carrier Safety Administration issued Emergency Declaration 2020-002, granting relief to motor carriers and drivers providing direct assistance in support of relief efforts related to the COVID-19 outbreaks from 49 CFR Parts 390 through 399 until April 12, 2020, to include relief from 49 CFR § 395, which was adopted in Washington State pursuant to RCW 46.32.020 and WAC 446-65-010; and

**WHEREAS**, on March 18, 2020, the Federal Motor Carrier Safety Administration expanded Emergency Declaration 2020-002, providing hours-of-service regulatory relief to commercial vehicle drivers transporting emergency relief in response to the nationwide outbreak, by adding fuel and raw materials needed to manufacture essential supplies to the list of direct assistance in support of relief efforts related to the COVID-19 outbreaks; and

**WHEREAS**, on April 8, 2020, the Federal Motor Carrier Safety Administration extended the exemptions granted in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through May 15, 2020, and expanded its application to include liquefied gases to be used in refrigeration or cooling systems, while also placing specific restrictions and limitations on its application; and

**WHEREAS**, on May 13, 2020, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through June 14, 2020, including its expanded applications and limitations; and

**WHEREAS**, on June 8, 2020, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through July 14, 2020, while reducing the categories of transportation covered by the exemptions to livestock feed, medical and pharmaceutical supplies related to COVID-19, and community and

personal protective equipment materials related to COVID-19; and

**WHEREAS**, on July 13, 2020, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 (as modified) from 49 CFR Parts 390 through 399 through August 14, 2020; and

**WHEREAS**, on August 11, 2020, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through September 14, 2020, and because of current conditions, reinstated emergency relief for emergency restocking of food, paper products and other groceries at distribution centers or stores; and

**WHEREAS**, on September 11, 2020, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 (as modified) from 49 CFR Parts 390 through 399 through the earlier of December 31, 2020 or the revocation of the federally-declared COVID-19 national emergency; and

**WHEREAS**, on December 2, 2020, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through the earlier of February 28, 2021, or the revocation of the federally-declared COVID-19 national emergency, and expanded its application to include transportation of vaccines, constituent products, and medical supplies and equipment including ancillary supplies/kits for the administration of vaccines, related to the prevention of COVID-19, while continuing to impose specific restrictions and limitations on its application; and

**WHEREAS**, on February 17, 2021, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through the earlier of May 31, 2021, or the revocation of the federally-declared COVID-19 national emergency; and

**WHEREAS**, on May 26, 2021, the Federal Motor Carrier Safety Administration again extended the exemptions in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through the earlier of August 31, 2021, or the revocation of the federally-declared COVID-19 national emergency, unless earlier modified or terminated; and

**WHEREAS**, on August 31, 2021, the Federal Motor Carrier Safety Administration again extended, and expanded the scope of the exemptions to include fuels and other supplies to assist those directly impacted by COVID-19 in Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through the earlier of November 30, 2021, or the revocation of the federally-declared COVID-19 national emergency, unless earlier modified or terminated; and

**WHEREAS**, on November 29, 2021, the Federal Motor Carrier Safety Administration again extended Emergency Declaration 2020-002 from 49 CFR Parts 390 through 399 through the earlier of February 28, 2022, or the revocation of the federally-declared COVID-19 national emergency, unless earlier modified or terminated; and

**WHEREAS**, I have issued Proclamations 20-22, et seq., providing and modifying exemptions from Washington State regulations and rules as necessary to maintain consistency between federal and state regulations affecting commercial vehicle drivers transporting emergency relief in response to the nationwide coronavirus (COVID-19); and

**WHEREAS**, the transportation industry continues to experience driver shortages, related in varying degrees to the closure of schools, continued virus exposures and infections, and the unavailability of childcare, and the significant increase in the demand for and shortages of many essential services and supplies throughout Washington State; and

**WHEREAS**, the worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property or the public peace; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting State agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across State government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation, and under RCW 38.08, 38.52 and 43.06, do hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05 and all amendments thereto remain in effect, and that Proclamations 20-22, et seq., to include those exemptions from and limitations on the driver hours of service rules set forth in 49 CFR § 395, adopted pursuant to RCW 46.32.020 and WAC

446-65-010, and as provided in the November 29, 2021, order of the Federal Motor Carrier Safety Administration, are extended until the earlier of 11:59 p.m. on February 28, 2022, or the end of the COVID-19 pandemic emergency.

**FURTHERMORE**, to fully incorporate the federal waiver described herein, the Federal Motor Carrier Safety Administration Emergency Declaration 2020-002, issued initially on March 13, 2020, and most recently amended on November 29, 2021, motor carriers and drivers of commercial motor vehicles in Washington State collecting or delivering the following goods are providing emergency relief during an emergency under 49 CFR § 390.23 and are providing direct assistance, and, therefore, are exempt from application of the driver hours of service rules in 49 CFR § 395, adopted pursuant to RCW 46.32.020 and WAC 446- 65-010 until 11:59 p.m. on February 28, 2022. This regulatory relief is limited to transportation of:

- (1) Livestock and livestock feed;
- (2) Medical supplies and equipment related to the testing, diagnosis and treatment of COVID-19;
- (3) Vaccines, constituent products, and medical supplies and equipment including ancillary supplies/kits for the administration of vaccines, related to the prevention of COVID-19;
- (4) Supplies and equipment necessary for community safety, sanitation, and prevention of community transmission of COVID-19 such as masks, gloves, hand sanitizer, soap and disinfectants;
- (5) Food, paper products and other groceries for emergency restocking of distribution centers or stores;
- (6) Gasoline, diesel, jet fuel, and ethyl alcohol; and
- (7) Supplies to assist individuals impacted by the consequences of the COVID-19 pandemic (e.g., building materials for individuals displaced or otherwise impacted as a result of the emergency).

Direct assistance does not include non-emergency transportation of qualifying commodities or routine commercial deliveries, including mixed loads with a nominal quantity of qualifying emergency relief added to obtain the benefits of this emergency declaration. To be eligible for the exemption, the transportation must be both (i) of qualifying commodities and (ii) incident to the immediate restoration of those essential supplies.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout State government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Drivers operating under these exemptions and limitations should carry a copy of this Proclamation.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

Signed and sealed with the official seal of the state of Washington on this 7th day of December, A.D., Two Thousand and Twenty-One at Olympia, Washington.

**EMERGENCY PROCLAMATION  
BY THE GOVERNOR AMENDING PROCLAMATIONS 20-05, and 20-24, et seq.**

**20-24.3  
Restrictions on Non-Urgent Medical Procedures**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-

person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations and our health care system, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations, including issuance of Proclamation 20- 25, et seq., which limit Washingtonians' ability to participate in certain activities unless certain conditions are met; and

**WHEREAS**, during early stages of the COVID-19 pandemic, health professionals and epidemiological modeling experts indicated that the spread of COVID-19, if left unchecked, threatened to overwhelm portions of Washington's public and private health-care system; and

**WHEREAS**, on March 19, 2020, I issued Proclamation 20-24 prohibiting all hospitals, ambulatory surgical facilities, dental, orthodontic and endodontic offices in Washington State from providing most non-urgent medical and dental procedures; and

**WHEREAS**, I subsequently issued Proclamations 20-24.1 and 20-24.2 on May 18, 2020, and November 25, 2020, respectively, permitting the provision of non-urgent medical and dental procedures, subject to certain conditions; and

**WHEREAS**, although COVID-19 continues as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 22 months, including the willingness of most Washingtonians to take advantage of the remarkable, life- saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, after months of improving COVID-19 epidemiological conditions in Washington State, the emergence of the "Delta" variant and then the "Omicron" variant, which is significantly more transmissible than the virus that emerged in late 2019 and the "Delta" variant, coupled with the continued significant numbers of unvaccinated people, has caused COVID-19 cases and hospitalizations to rise sharply, primarily among unvaccinated populations, and this rise is expected to continue; and

**WHEREAS**, on January 6, 2022, the Washington State Medical Association (WSMA) sent a letter to the Governor and Secretary of Health declaring that "we are in a state of crisis". In this letter, WSMA, while noting that ceasing or delaying elective services alone is not enough to address this crisis, called on the state to help overwhelmed emergency departments and hospitals statewide; and

**WHEREAS**, even as hospitals have committed to sharing the burden by helping each other maintain a level load of admissions—and they have been working with the Washington Medical Coordination Center to transfer patients among hospitals—the continued rise in COVID-19 cases and hospitalizations due to the "Omicron" variant has and will continue to place significant strains on hospital staffing and capacity across the state, which requires taking action to ensure that adequate staffing and capacity remain available for urgent medical care everywhere in the state; and

**WHEREAS**, the Washington National Guard and State Guard continue to support the Washington State COVID-19 pandemic response, and have personnel available to help alleviate some hospital staffing and capacity shortfalls; and

**WHEREAS**, the worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property or the public peace; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the state Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim and order that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05, as amended, remains in effect, and that, to help preserve and maintain life, health, property or the public peace pursuant to RCW 43.06.220(1)(h), and (3), I hereby amend Proclamation 20-24, et seq., to prohibit all hospitals from providing non-urgent health care services, procedures, and surgeries.

As provided in Proclamation 20-24.2, non-urgent health care services, procedures, and surgeries are those that, if delayed, are not

anticipated to cause harm to the patient within 90 days. The decision to perform any surgery or procedure in a hospital should be weighed against the following criteria when considering potential harm to a patient's health and well-being:

- Expected advancement of disease process
- Possibility that delay results in more complex future surgery or treatment
- Increased loss of function
- Continuing or worsening of significant or severe pain
- Deterioration of the patient's condition or overall health
- Delay would be expected to result in a less-positive ultimate medical or surgical outcome
- Leaving a condition untreated could render the patient more vulnerable to COVID-19 contraction, or resultant disease morbidity and/or mortality
- Non-surgical alternatives are not available or appropriate per current standards of care
- Patient's co-morbidities or risk factors for morbidity or mortality, if inflicted with COVID-19 after procedure is performed

Diagnostic imaging, diagnostic procedures or testing should continue in all settings based on clinical judgment that uses the same definition of harm and criteria as listed above. The full suite of family planning services and procedures are not non-urgent.

**FURTHERMORE**, I hereby amend Proclamation 20-24, et seq., to prohibit all hospitals from utilizing personal protective equipment (PPE) other than according to a conventional capacity strategy.

**ADDITIONALLY**, the provisions of Proclamation 20-24, et seq., that are not amended herein remain in effect.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

This order is effective at 12:01 am on January 17, 2022, and shall remain in effect until 11:59 pm on February 17, 2022, unless rescinded sooner.

Signed and sealed with the official seal of the state of Washington on this 13th day of January, A.D., Two Thousand and Twenty-Two at Olympia, Washington.

**PROCLAMATION BY THE GOVERNOR  
AMENDING PROCLAMATIONS 20-05 AND 21-08**

**21-08.1  
Safe Workers**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in the state of Washington; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the

high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, continues to persist in the state of Washington; and

**WHEREAS**, everyone over the age of five is currently eligible to receive a vaccination against the coronavirus causing COVID-19 symptoms, and Washington health care providers have successfully administered millions of vaccine doses, but have millions more doses to administer, and it is necessary to achieve the highest rate of vaccination of the United States population as possible; and

**WHEREAS**, certain workers are exempt from the state Minimum Wage Act and as a result lack employment protections afforded others under the state's paid sick leave laws ([RCW 49.46](#) and [WAC 296-128](#)); and

**WHEREAS**, further, workers covered by the state's paid sick leave laws may have exhausted all accrued paid time and may face continued employment disruptions as a result of COVID-19 related quarantine, and isolation or vaccination; and

**WHEREAS**, the U.S. President announced he is working to create a paid leave program for time spent receiving and recovering from a COVID-19 vaccination and the Centers for Disease Control and Prevention (CDC) recommends that employers develop plans to facilitate worker vaccinations; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, over the past 24 months, health experts and epidemiological modeling experts, including those at the Department of Health, the CDC, and our state universities, have gained critical knowledge regarding the spread of COVID-19, including a better understanding of the risks associated with certain activities and the measures that can be taken to reduce those risks; and

**WHEREAS**, some people who themselves have certain health risks or who live with people at risk for severe COVID-19 may still need to, or choose to, wear face coverings; and

**WHEREAS**, given the reduction in COVID-19 cases and hospitalizations, it is now appropriate to rescind the requirement that face coverings be worn in some settings; however, it is equally important to continue to ensure that workers have the right to wear a face covering in order to protect themselves, their families and their communities; and

**WHEREAS**, in 2021 the Legislature passed Substitute Senate Bill 5254, which protects a worker's right to wear a face covering during a public health emergency, and this protection is now codified at RCW 49.17.485; and

**WHEREAS**, notwithstanding the recent and hopeful decrease in cases and hospitalizations, the worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property or the public peace; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues to coordinate resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues to coordinate with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation, and under RCW 38.08, 38.52, and 43.06, do hereby proclaim: that a State of Emergency continues to exist in all counties of Washington State; that Proclamation 20-05 and all amendments thereto remain in effect and, pursuant to RCW 43.06.220(1)(h), I hereby amend Proclamations 20-05 and 21-08 to prohibit employers from taking employment action against workers as detailed below. This prohibition takes effect immediately and shall remain in effect until the end of the state of emergency unless otherwise terminated.

**FURTHERMORE**, based on the above situation and under the provisions of RCW 43.06.220(1)(h) to help preserve and maintain life, health, property or the public peace, I hereby prohibit any employer operating within Washington State from taking any adverse employment action against a worker as a result of the worker engaging in any of the following qualifying events:

- 1) Receiving the COVID-19 vaccination;
- 2) Taking a reasonable period of time off, whether unpaid, paid, or otherwise available through the employment arrangement,

- (a) To receive the COVID-19 vaccination; or
  - (b) To recover from side effects of the vaccine.
- 3) Taking time off, whether unpaid, paid, or otherwise available through the employment arrangement, when the worker is:
- (a) Subject to a federal, state, or local quarantine or isolation order related to COVID-19;
  - (b) Advised by a health care official or provider to self-quarantine or self-isolate due to concerns related to or a positive diagnosis of COVID-19;
  - (c) Experiencing COVID-19 symptoms and is seeking a medical diagnosis or treatment; or
- 4) Wearing a face covering while engaged in work for the employer.

“Worker” means any individual employed by an employer. “Employ” means to engage, suffer, or permit to work. “Employer” includes any individual, partnership, association, corporation, business trust, or any person or group of persons acting directly or indirectly in the interest of an employer in relation to a worker.

An “adverse employment action” means any action taken or threatened by an employer against an employee for engaging in any of the above qualifying events, which may include, but is not limited to:

- 1) Terminating, suspending, demoting, or denying a promotion;
- 2) Denying the worker the worker’s choice of any available paid leave provided by existing state laws, a collective bargaining agreement, or employer policy to cover the qualifying event, unless otherwise allowed by existing federal or state leave laws;
- 3) Denying unpaid leave to the worker if the worker does not have any paid leave available to cover the qualifying event, unless otherwise allowed by existing federal or state leave laws;
- 4) Denying use of, or delaying payment for, paid leave, wages, or other amounts owed to the worker;
- 5) Reducing the number of work hours for which the employee is scheduled;
- 6) Altering the employee’s preexisting work schedule;
- 7) Reducing the employee’s rate of pay; and
- 8) Threatening to take, or taking action, based upon the immigration status of an employee or an employee’s family member.

Nothing in the proclamation should be read to interfere with an employer’s existing payroll practices and attendance policies, except for any terms that result in adverse employment action under the terms of this proclamation.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

**PROCLAMATION BY THE GOVERNOR  
AMENDING PROCLAMATIONS 20-05 and 20-25, et seq.**

**20-25.18  
“WASHINGTON READY”**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the

state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations and our health care system, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations, including issuance of Proclamation 20- 25, et seq., which limits Washingtonians' ability to participate in certain activities unless certain conditions are met; and

**WHEREAS**, during early stages of the COVID-19 pandemic, health professionals and epidemiological modeling experts indicated that the spread of COVID-19, if left unchecked, threatened to overwhelm portions of Washington's public and private health-care system; and

**WHEREAS**, although COVID-19 continues to be an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 24 months, including the willingness of many eligible Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference, and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, as of February 12, 2022, at least 78% percent of people 5 years of age and older and 73% percent of the total population have initiated vaccination, and at least 71% percent of people 5 years of age and older and 66% percent of the total population are fully vaccinated; and

**WHEREAS**, on August 20, 2021, I issued Proclamation 20.25.15 amending Proclamation 20- 25, et. seq., by reinstating prohibitions against use of indoor spaces without the use of a face covering; and

**WHEREAS**, on September 3, 2021, I issued Proclamation 20-25.16 amending Proclamation 20- 25, et. seq., to clarify that local government agencies, officials, authorities and landlords are prohibited from preventing or prohibiting any person or business or other entity in their jurisdictions and tenants in their properties, respectively, from imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person or taking or threatening to take any adverse action of any kind against any person or business or other entity or tenant for imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person; and

**WHEREAS**, on September 13, 2021, I issued Proclamation 20-25.17 amending Proclamation 20-25, et. seq., to adopt and align the Proclamation with the Secretary of Health's order that was amended to also require face coverings outdoors while at a large gathering of 500 or more persons, regardless of a person's vaccination status; and

**WHEREAS**, the data now supports the conclusion that the surge of disease driven by the highly infectious Omicron variant is subsiding significantly in much of the state and the corresponding extraordinary stress on our hospitals due to COVID-19 hospitalizations is likewise improving; and

**WHEREAS**, over the past 24 months, health experts and epidemiological modeling experts, including those at the Department of Health, the United States Centers for Disease Control and Prevention (CDC), and our state universities, have gained critical knowledge regarding the spread of COVID-19, including a better understanding of the risks associated with certain activities and the measures that can be taken to reduce those risks; and

**WHEREAS**, given the reduction in COVID-19 cases and hospitalizations, it is now appropriate to rescind the requirement that face coverings be worn at outdoor events and gatherings attended by 500 or more people;

**WHEREAS**, notwithstanding the recent and hopeful decrease in cases and hospitalizations, the worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property, or the public peace; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the state Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above noted situation, and under

Chapters 38.08, 38.52, and 43.06 RCW, do hereby proclaim and order that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05, as amended, remains in effect, and that, to help preserve and maintain life, health, property or the public peace pursuant to RCW 43.06.220(1)(h), Proclamation 20-25, et seq., remains in full force and effect, except as specifically amended by this Proclamation 20- 25.18, as set out below.

**FURTHERMORE**, I hereby amend the provisions in 20-25, et seq., as they relate to face coverings to prohibit any individual from failing to wear a face covering as required by the Secretary of Health's face covering [order](#) and any subsequent amendments. I further prohibit any governmental, commercial, or nonprofit entity or private party from allowing any individual to enter or remain in any indoor space under their control unless the individual is in compliance with the Secretary of Health's face covering [order](#) and any subsequent amendments.

**ADDITIONALLY**, in furtherance of these prohibitions, and for general awareness:

1. The face covering requirements in prior versions of Proclamation 20-25 are hereby rescinded and replaced with the requirements imposed in and pursuant to this version of Proclamation 20-25. The Secretary of Health's face covering [order](#) and any subsequent amendments are incorporated by reference.
2. Employers must comply with all conditions for operation required by the Washington State Department of Labor & Industries, including interpretive [guidance](#), regulations and rules and Department of Labor & Industries-administered statutes.
3. Employers must notify their local health jurisdiction within 24 hours if they suspect COVID-19 is spreading in their workplace, or if they are aware of two or more employees who develop confirmed or suspected COVID-19 within a 14-day period.
4. Everyone is required to cooperate with public health authorities in the investigation of cases, suspected cases, outbreaks, and suspected outbreaks of COVID-19 and with the implementation of infection control measures pursuant to State Board of Health rule in WAC 246-101-425.
5. All mandatory guidelines for specific businesses and activities, which remain in effect except as modified by this Proclamation, may be found at the Governor's Office [website](#), [COVID-19 Resources and Information](#), and at [COVID-19 Reopening Guidance for Businesses and Workers](#). Existing guidelines that require proof of vaccination for certain settings and activities remain in effect until such time as those guidelines are expressly modified.

**ADDITIONALLY**, in support and clarification of this proclamation:

1. **General rule:** General face covering requirements are found in the Secretary of Health's face covering [order](#), and any subsequent amendments, as incorporated herein by reference.
2. **Additional local restrictions may apply:** Nothing in this proclamation or in the Secretary of Health's face covering order prevents any other individual or entity from imposing more restrictive face covering or additional restrictions or requirements in businesses or other locations within the scope of their legal authority. In addition, local government agencies, officials, and authorities and landlords are prohibited from preventing or prohibiting any person or business or other entity in their jurisdictions and tenants in their properties, respectively, from imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person and are further prohibited from taking or threatening to take any adverse action of any kind against any person or business or other entity or tenant for imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person. Adverse actions prohibited by this section include, but are not limited to, denying, suspending, withholding, or terminating a contract, patronage, funding, or benefits, declining to rent or lease property, increasing rental rates, and eviction.
3. **Customers:** Governmental, commercial, and nonprofit entities and private parties are prohibited from allowing customers to enter or remain in any indoor space under their control unless the customer is wearing a face covering if required by the Secretary of Health's face covering order.
4. **Employees:** All employees are required to comply with the Secretary of Health's face covering order at the employee's worksite. Unless additional restrictions are imposed by the employer or a state or local authority, or face coverings are legally required at the specific worksite regardless of vaccination status, an employee may work outdoors without wearing a face covering, and a fully vaccinated employee may work indoors without wearing a face covering at the employer's worksite in areas not generally accessible to the public and when no customers, volunteers, visitors, or non-employees are present as permitted by the Secretary of Health's face covering order, but only after the employee has either provided (a) proof of vaccination to the employer; or (b) a signed document attesting to the employee's fully vaccinated status, *except as otherwise prohibited in Proclamation 21-14, et seq. (Vaccination Requirement)*. The option, if applicable, to provide a signed self-attestation may be done in hard copy or electronically.
5. **Employers:** Employers are required to provide a safe and healthy workplace and must assess hazards in their workplace and take appropriate steps to protect workers. COVID-19 remains a recognized hazard that continues to pose a significant risk to the health and life of employees. Employers must require that employees wear a face covering in accordance with the Secretary of Health's face covering [order](#), to that end, employers:
  - a. Must choose a method of proof of vaccination, documented proof of vaccination or self-attestation (*except as otherwise prohibited in Proclamation 21-14, et seq. (Vaccination Requirement)*), and require such proof from every employee before those employees are permitted to work without wearing a face covering at the employer's worksite in areas not generally accessible to the public and when no customers, volunteers, visitors, or non-employees are present as permitted by the Secretary of Health's face covering order referenced above;
  - b. Notwithstanding (a) above, may require that employees wear a face covering while at the worksite in all areas regardless of

- vaccination status; and
- c. May require vaccination as a condition of employment, except as prohibited by state or federal law.

**ADDITIONALLY**, in addition to guidance issued by the Department of Health and the Department of Labor & Industries, additional guidance for businesses, employees, and customers may be found [here](#) and is incorporated by reference, and such guidance may be updated periodically and all such updates are also incorporated by reference.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5). Further, if people fail to comply, I may be forced to reinstate additional prohibitions established in earlier proclamations.

This order is effective February 18, 2021. Unless extended or amended, or upon termination of this amendatory proclamation, the provisions of Proclamation 20-25, et seq., will continue to be in effect until the state of emergency, issued on February 29, 2020, pursuant to Proclamation 20- 05, is rescinded.

Signed and sealed with the official seal of the state of Washington on this 17th day of February, A.D., Two Thousand and Twenty-Two at Olympia, Washington.

**WHEREAS**, as of March 7, 2022, 81% of people five years and older have initiated COVID-19 vaccination and 73.4% are fully vaccinated, and more than 58% of people eligible for a COVID-19 booster have received one; and

**WHEREAS**, according to the CDC, with current high levels of vaccination and high levels of population immunity from both vaccination and infections, the risk of severe disease, hospitalization, and death from COVID-19 is greatly reduced for most people; and

**WHEREAS**, the CDC modified its COVID-19 community level metrics to incorporate measures of the impact of COVID-19 in terms of hospitalizations and healthcare system strain, in addition to accounting for transmission in the community; and

**WHEREAS**, using the CDC's metrics and according to statewide data, as of March 9, Washington would be at the "medium" level with a 7-day case rate of 92 cases per 100,000 people, a hospital admission rate of 6.7 per 100,000 and 12% of staffed beds occupied by people who have COVID-19; and

**WHEREAS**, modeling from DOH and other organizations shows expected further declines in case rates and hospital admissions; and

**WHEREAS**, the CDC modified its guidance which, in general, provides that the general public need not wear masks indoors in public in communities at a medium or low level; and

**WHEREAS**, the CDC continues to recommend wearing masks in certain settings occupied by people at greater risk for adverse consequences from COVID-19, including health care settings, long-term care settings, and correctional facilities; and

**WHEREAS**, on August 20, 2021, I issued Proclamation 20.25.15 amending Proclamation 20-25, et. seq., by reinstating prohibitions against use of indoor spaces without the use of a face covering; and

**WHEREAS**, on September 3, 2021, I issued Proclamation 20-25.16 amending Proclamation 20-25, et. seq., to clarify that local government agencies, officials, authorities and landlords are prohibited from preventing or prohibiting any person or business or other entity in their jurisdictions and tenants in their properties, respectively, from imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person or taking or threatening to take any adverse action of any kind against any person or business or other entity or tenant for imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person; and

**WHEREAS**, on September 13, 2021, I issued Proclamation 20-25.17 amending Proclamation 20-25, et. seq., to adopt and align the Proclamation with the Secretary of Health's order that was amended to also require face coverings outdoors while at a large gathering of 500 or more persons, regardless of a person's vaccination status; and

**WHEREAS**, given the reduction in COVID-19 cases and hospitalizations, the requirement that face coverings be worn at outdoor events and gatherings attended by 500 or more people was rescinded as of February 18, 2022, and, further, the requirement that proof of vaccination or proof of a negative as a condition of attending a large indoor or outdoor event was rescinded on March 1, 2022; and

**WHEREAS**, given the continued reduction in COVID-19 cases and hospitalizations in February and early March of 2022, it is now appropriate to also rescind the requirement that face coverings be worn in most places; and

**WHEREAS**, notwithstanding the recent and hopeful decrease in cases and hospitalizations, the worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property, or the public peace; and

**WHEREAS**, due to the continuing COVID-19 threat, some people who are immunocompromised or medically vulnerable, or who remain concerned for their own health or the health of their family or community, have the right to continue to wear a face covering and take other preventative measures; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the state Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above noted situation, and under Chapters 38.08, 38.52, and 43.06 RCW, do hereby proclaim and order that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05, as amended, remains in effect, and that, to help preserve and maintain life, health, property or the public peace pursuant to RCW 43.06.220(1)(h), Proclamation 20-25, et seq., remains in full force and effect, except as specifically amended by this Proclamation 20- 25.18, as set out below.

**FURTHERMORE**, I hereby amend the provisions in 20-25, et seq., as they relate to face coverings to prohibit any individual from failing to wear a face covering as required by the Secretary of Health's face covering [order](#) and any subsequent amendments. I further prohibit any governmental, commercial, or nonprofit entity or private party that continues to be subject to the Secretary of Health's face covering order from allowing any individual to enter or remain in any indoor space under their control unless the individual is in compliance with the Secretary of Health's face covering [order](#) and any subsequent amendments.

**ADDITIONALLY**, in furtherance of these prohibitions, and for general awareness:

1. The face covering requirements in prior versions of Proclamation 20-25 are hereby rescinded and replaced with the requirements imposed in and pursuant to this version of Proclamation 20-25. The Secretary of Health's face covering [order](#) and any subsequent amendments are incorporated by reference.
2. Employers must comply with all conditions for operation required by the Washington State Department of Labor & Industries, including interpretive [guidance](#), regulations and rules [and](#) Department of Labor & Industries-administered statutes.
3. Employers must notify their local health jurisdiction within 24 hours if they suspect COVID-19 is spreading in their workplace, or if they are aware of two or more employees who develop confirmed or suspected COVID-19 within a 14-day period.
4. Everyone is required to cooperate with public health authorities in the investigation of cases, suspected cases, outbreaks, and suspected outbreaks of COVID-19 and with the implementation of infection control measures pursuant to State Board of Health rule in WAC 246-101-425.

**ADDITIONALLY**, in support and clarification of this proclamation:

1. **In general**: Pursuant to the Secretary of Health's face covering [order](#), face coverings are not required in most places. Face coverings continue to be required in certain places, including health care settings, long-term care settings, and correctional and jail facilities. Face covering requirements are found in the Secretary of Health's face covering [order](#), and any subsequent amendments, as incorporated herein by reference.
2. **Additional local restrictions may apply**: Nothing in this proclamation or in the Secretary of Health's face covering order prevents any other individual or entity from imposing more restrictive face covering or additional restrictions or requirements in businesses or other locations within the scope of their legal authority. In addition, local government agencies, officials, and authorities and landlords are prohibited from preventing or prohibiting any person or business or other entity in their jurisdictions and tenants in their properties, respectively, from imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person and are further prohibited from taking or threatening to take any adverse action of any kind against any person or business or other entity or tenant for imposing face covering requirements on or requiring proof of vaccination from any worker, customer, or other person. Adverse actions prohibited by this section include, but are not limited to, denying, suspending, withholding, or terminating a contract, patronage, funding, or benefits, declining to rent or lease property, increasing rental rates, and eviction.
3. **Customers**: For purposes of this Proclamation, the term "customers" has its ordinary meaning and it also means visitors, patients, and any other person who lawfully enters a public or private space.
  - a. Entities and individuals who have authority over health care settings, long-term care facilities, and correctional and jail facilities are prohibited from allowing customers to enter or remain in any indoor space under their control unless the customer is wearing a face covering if required by the Secretary of Health's face covering order.
  - b. Entities and individuals are prohibited from prohibiting customers from wearing a face covering in any indoor or outdoor public or private space under their control, even if the customer is not required to do so, except that customers may be required to remove their face coverings briefly for identification purposes or in order to comply with state or federal law.
4. **Employees**: For worksites that continue to be covered by the Secretary of Health's face covering order, all employees are required to comply with the Secretary of Health's face covering order at the employee's worksite. Unless additional restrictions are imposed by the employer or a state or local authority, or face coverings are legally required at the specific worksite regardless of vaccination status, an employee may work outdoors without wearing a face covering, and a fully vaccinated employee may work indoors without wearing a face covering at the employer's worksite in areas not generally accessible to

the public when only employees are present as permitted by the Secretary of Health’s face covering order, but only after the employee has either provided (a) proof of vaccination to the employer; or (b) a signed document attesting to the employee’s fully vaccinated status, *except as otherwise prohibited in Proclamation 21-14, et seq. (Vaccination Requirement)*. The option, if applicable, to provide a signed self-attestation may be done in hard copy or electronically.

5. **Employers:** Employers are required to provide a safe and healthy workplace and must assess hazards in their workplace and take appropriate steps to protect workers. COVID-19 remains a recognized hazard that continues to pose a significant risk to the health and life of employees. Notwithstanding the relaxation of face covering requirements in most places, those employers with control over worksites covered by the Secretary of Health’s face covering order must continue to require that employees wear a face covering in accordance with the Secretary of Health’s face covering [order](#). To that end, those employers:
  - a. Must choose a method of proof of vaccination, documented proof of vaccination or self-attestation (*except as otherwise prohibited in Proclamation 21-14, et seq. (Vaccination Requirement)*), and require such proof from every employee before those employees are permitted to work without wearing a face covering at the employer’s worksite in areas not generally accessible to the public when only employees are present as permitted by the Secretary of Health’s face covering order referenced above;
  - b. Notwithstanding (a) above, may require that employees wear a face covering while at the worksite in all areas regardless of vaccination status; and
  - c. May require vaccination as a condition of employment, except as prohibited by state or federal law.

**ADDITIONALLY**, in addition to guidance issued by the Department of Health and the Department of Labor & Industries, additional guidance for businesses, employees, and customers may be found [here](#) and is incorporated by reference, and such guidance may be updated periodically and all such updates are also incorporated by reference.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5). Further, if people fail to comply, I may be forced to reinstate additional prohibitions established in earlier proclamations.

This order is effective on March 12, 2022. Unless extended or amended, or upon termination of this amendatory proclamation, the provisions of Proclamation 20-25, et seq., will continue to be in effect until the state of emergency, issued on February 29, 2020, pursuant to Proclamation 20- 05, is rescinded.

Signed and sealed with the official seal of the state of Washington on this 11th day of March, A.D., Two Thousand and Twenty-Two at Olympia, Washington.

**PROCLAMATION BY THE GOVERNOR  
AMENDING PROCLAMATIONS 20-05 and 20-14, et seq.**

**21-14.4  
COVID-19 VACCINATION REQUIREMENT**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations and our health care system, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations, including issuance of Proclamations 20-25, et seq., which limit Washingtonians' ability to participate in certain activities unless certain conditions are met; and

**WHEREAS**, during early stages of the COVID-19 pandemic, health professionals and epidemiological modeling experts indicated that the spread of COVID-19, if left unchecked, threatened to overwhelm portions of Washington's public and private health-care system; and

**WHEREAS**, to protect some of our most vulnerable populations—persons in health care facilities, long-term care facilities (which includes nursing homes), and similar congregate care facilities—and to protect our health and congregate care systems themselves, I issued several proclamations imposing heightened protections on workers, residents, and visitors in those facilities; and

**WHEREAS**, although COVID-19 continues as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 18 months, including the willingness of most Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, after months of improving COVID-19 epidemiological conditions in Washington State, the emergence of highly contagious COVID-19 variants, including the "Delta" variant that is at least twice as transmissible as the virus that emerged in late 2019, coupled with the continued significant numbers of unvaccinated people, have caused COVID-19 cases and hospitalizations to rise sharply among unvaccinated populations and have resulted in breakthrough infections in some fully vaccinated individuals; and

**WHEREAS**, COVID-19 vaccines are effective in reducing infection and serious disease, and widespread vaccination is the primary means we have as a state to protect everyone, including persons who cannot be vaccinated for medical reasons, youth who are not eligible to receive a vaccine, immunocompromised individuals, and vulnerable persons including persons in health care facilities, long-term care facilities and other congregate care facilities from COVID-19 infections; and

**WHEREAS**, widespread vaccination is also the primary means we have as a state to protect our health care system, to avoid the return of stringent public health measures, and to put the pandemic behind us; and

**WHEREAS**, COVID-19 vaccinations have been available in Washington State from December 2020 to the present, and since April 15, 2021, all Washingtonians over the age of 16 have been eligible to receive free COVID-19 vaccinations from a wide variety of providers at many locations; and

**WHEREAS**, as of November 15, 2021, nearly 5.25 million Washingtonians, about 80% of those 12 and older, had initiated their vaccine series, leaving over a million eligible Washingtonians unvaccinated; and

**WHEREAS**, according to the U.S. Centers for Disease Control and Prevention (CDC), as of August 1, 2021, approximately 67% of staff in Washington state nursing homes were fully vaccinated; and

**WHEREAS**, healthcare workers face COVID-19 exposures in a variety of healthcare settings, with those involving direct patient care likely at higher risk; and

**WHEREAS**, COVID-19 vaccines are safe and effective. COVID-19 vaccines were evaluated in clinical trials involving tens of thousands of participants and met the U.S. Food & Drug Administration's (FDA) rigorous scientific standards for safety, effectiveness, and manufacturing quality needed to support emergency use authorization; and, to date, more than 346 million doses of COVID-19 vaccines have been given in the United States with 8.2 million of those doses administered in Washington, and serious safety problems and long-term side effects are rare; and

**WHEREAS**, on July 6, 2021, the Office of Legal Counsel of the United State Department of Justice issued a legal opinion stating that federal and state governments were not prohibited by federal law from imposing vaccination mandates, even when the only vaccines available are those authorized under the FDA's Emergency Use Authorizations; and

**WHEREAS**, on July 26, 2021, approximately 60 medical groups, including the American Medical Association, the American College of Physicians, the American Academy of Pediatrics, the American Academy of Family Physicians, the American Nurses Association, the American Academy of Physician Assistants, the Association of Professionals in Infection Control and Epidemiology, the American Public Health Association, the Infectious Diseases Society of America, LeadingAge, the National Hispanic Medical Association, the National Medical Association, and the Society of Infectious Disease Pharmacists, issued a

memorandum supporting mandatory, universal vaccination of all public and private health care and long-term care workers, noting that such a requirement is the “fulfillment of the ethical commitment of all health care workers to put patients as well as residents of long-term care facilities first and take all steps necessary to ensure their health and well-being”; and on August 2, 2021, the Washington State Society of Post-Acute and Long-Term Care Medicine submitted a letter in support of the above noted July 26, 2021 memorandum; and

**WHEREAS**, on July 15, 2021, the American College of Obstetricians and Gynecologists, together with the Society for Maternal-Fetal Medicine, posted a formal opinion stating that medical professionals have an ethical obligation to be vaccinated against COVID-19 to prevent the spread of harmful infectious diseases, and that women who are or may become pregnant should be vaccinated against COVID-19; and

**WHEREAS**, it is the duty of every employer to protect the health and safety of employees by establishing and maintaining a healthy and safe work environment and by requiring all employees to comply with health and safety measures; and

**WHEREAS**, state employees live in and provide services to the public in every county in our state, and many interact with the public on a regular basis, and they all interact with some portion of the community at large to varying degrees before and/or after state work hours; and

**WHEREAS**, to further our individual and collective duty to reduce the spread of COVID-19 in our communities, I issued Proclamation 21-14 requiring all employees, on-site independent contractors, volunteers, goods and services providers, and appointees of designated state agencies to be fully vaccinated against COVID-19 on or before October 18, 2021; and

**WHEREAS**, child-care settings, K-12 schools, colleges, universities, and community colleges, (collectively, “educational settings”) are foundations of Washington’s communities and its future, and provide a variety of vital services to students, families, and communities, thereby making providing childcare services and in-person instruction in the fall 2021 a priority; and

**WHEREAS**, increasing vaccination rates at educational settings is the strongest protective measure against COVID-19 available and, together with masking, vital to providing in-person instruction in as safe a manner as possible; and

**WHEREAS**, on July 12, 2021, I issued Proclamation 20-12.4 prohibiting institutions of higher education from providing in-person instruction unless the institutions comply with specific requirements related to vaccination, masking, and operations; and

**WHEREAS**, on July 30, 2021, I issued Proclamation 20-9.4, prohibiting K-12 schools from providing in-person learning unless the schools comply with masking instructions provided by the Department of Health and the Office of the Superintendent of Public Instruction; and

**WHEREAS**, the sharp increase in COVID-19 cases and hospitalizations, primarily among unvaccinated populations but also in breakthrough infections in some fully vaccinated individuals, makes it vital to expand the vaccination requirement to workers in educational settings; and

**WHEREAS**, to provide additional clarity and ease of administration, in Proclamation 21-14.2, I extended the prohibition to additional groups relating to the vaccination requirement imposed in Proclamation 21.14 and 21-14.1; and

**WHEREAS**, the worldwide COVID-19 pandemic and its persistence in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property or the public peace; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the state Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim and order that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05, as amended, remains in effect, and that, to help preserve and maintain life, health, property or the public peace pursuant to RCW 43.06.220(1)(h), and (3), I hereby amend and supersede the prohibitions in 20-14, et seq., as set out below, subject to the conditions, exceptions, and circumstances also set forth below, for the following activities:

1. Prohibitions. This order prohibits the following:

- a. Any Worker from engaging in work for a State Agency after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19;
- b. Any State Agency from permitting any Worker to engage in work for the agency after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19 and provided proof thereof as required below;
- c. Any Worker from engaging in work for the operator of an Educational Setting after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19;
- d. Any operator of an Educational Setting from permitting a Worker to engage in work for the operator after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19 and provided proof thereof as required below;
- e. Any Health Care Provider from failing to be fully vaccinated against COVID-19 after October 18, 2021; and
- f. Any operator of a Health Care Setting from permitting a Health Care Provider to engage in work for the operator as an employee, contractor, or volunteer in their capacity as a Health Care Provider after October 18, 2021 if the Health Care Provider has not been fully vaccinated against COVID-19 and provided proof thereof as required below. Providers who do not work in a Health Care Setting must provide proof of vaccination to the operator of the facility in which the Provider works, if any, or, if requested, to a lawful authority. A lawful authority includes, but is not limited to, law enforcement, local health jurisdictions, and the state Department of Health.

2. Exemptions and Exceptions.

a. Disability and Religious Accommodations

- Workers for State Agencies, Workers for operators of Educational Settings, and Health Care Providers are not required to get vaccinated against COVID-19 under this Order if they are unable to do so because of a disability or if the requirement to do so conflicts with their sincerely held religious beliefs, practice, or observance. Workers for State Agencies, Workers for operators of Educational Settings, and Health Care Providers are prohibited from claiming an exemption or accommodation on false, misleading, or dishonest grounds, including by providing false, misleading, or dishonest information to a State Agency, operator of an Educational Setting, or operator of a Health Care Setting when seeking an accommodation.
  - In implementing the requirements of this Order, State Agencies, operators of Educational Settings, and operators of Health Care Settings:
    - Must provide any disability-related reasonable accommodations and sincerely held religious belief accommodations to the requirements of this Order that are required under the Americans with Disabilities Act of 1990 (ADA), the Rehabilitation Act of 1973 (Rehabilitation Act), Title VII of the Civil Rights Act of 1964 (Title VII), the Washington Law Against Discrimination (WLAD), and any other applicable law. As provided in the above-noted laws, State Agencies, operators of Educational Settings, and operators of Health Care Settings are not required to provide accommodations if they would cause undue hardship.
    - Must comply with the procedures required under the above-noted laws and any other applicable law when considering and deciding whether to provide accommodations;
    - Must, to the extent permitted by law, before providing a disability-related reasonable accommodation to the requirements of this order, obtain from the individual requesting the accommodation documentation from an appropriate health care or rehabilitation professional stating that the individual has a disability that necessitates an accommodation and the probable duration of the need for the accommodation;
    - Must, to the extent permitted by law, before providing a sincerely held religious belief accommodation to the requirements of this Order, document that the request for an accommodation has been made and include a statement in the document explaining the way in which the requirements of this order conflict with the sincerely held religious belief, practice, or observance of the individual;
    - Must, to the extent permitted by law, require an individual who receives an accommodation to take COVID-19 safety measures that are consistent with the recommendations of the state Department of Health and the Department of Labor & Industries for the setting in which the individual works; and
    - Are prohibited from providing accommodations:
      - That they know are based on false, misleading, or dishonest grounds or information;
      - That they know are based on the personal preference of the individual and not on an inability to get vaccinated because of a disability or a conflict with a sincerely held religious belief, practice, or observance; or
      - Without conducting an individualized assessment and determination of each individual's need and justification for an accommodation; i.e., "rubberstamping" accommodation requests.
- b. Any individual who is unable to get fully vaccinated against COVID-19 by October 18, 2021 due to the requirements of their participation in a COVID-19 vaccine clinical trial is exempt from this Order. Any such individual who is a Worker for a State Agency or a Worker for an operator of an Educational Setting must provide documentary proof of their participation in the COVID-19 vaccine clinical trial to any State Agency or operator of an Educational Setting for which they engage in work. Any such individual who is a Health Care Provider must provide documentary proof of their participation in the COVID-19 vaccine clinical trial to any operator of a Health Care Setting for which they engage in work as an employee, contractor, or volunteer in their capacity as a Health Care Provider. A State Agency, operator of an Educational Setting, or operator of a Health Care Setting is prohibited from permitting any such individual to engage in work for them after October

- 18, 2021 if the individual fails to provide such proof.
- c. Individuals who are too young to receive any COVID-19 vaccine, as authorized for emergency use, licensed, or otherwise approved by the FDA, are exempt from this Order. Any individual who becomes old enough to receive any COVID-19 vaccine, as authorized for emergency use, licensed, or otherwise approved by the FDA, while this Order is in effect must come into compliance with the requirements of this Order within 60 days of the day they became eligible. Any State Agency, operator of an Educational Setting, or operator of a Health Care Setting for which such an individual engages in work must also come into compliance with the requirements of this Order with respect to the individual by that deadline.
  - d. Individuals who reside in countries other than the United States of America who are unable to get vaccinated against COVID-19 with reasonable effort and expense are exempt from this Order.
  - e. Workers for the Office of the Attorney General, the Office of the Commissioner of Public Lands and the Department of Natural Resources, the Office of Insurance Commissioner, the Office of the Lieutenant Governor, the Office of Superintendent of Public Instruction, and the Office of the Secretary of State, as defined below to be limited to on-site contractors for these State Agencies, are prohibited from engaging in work for these State Agencies after the date specified by the respective State Agency, but in no case later than May 23, 2022 for the Office of the Secretary of State and November 30, 2021 for the other State Agencies listed in this subsection, if the Worker has not been fully vaccinated against COVID-19. These State Agencies are prohibited from permitting any Worker to engage in work for the agency after such date if the Worker has not been fully vaccinated against COVID-19 and provided proof thereof as required below.
  - f. In facilities that provide 24/7 care to individuals, including, but not limited to, acute care, long-term care, corrections, rehabilitation, and behavioral health in-patient facilities, contractors who have not provided proof of full vaccination against COVID-19 may respond directly to emergent events or conditions that are unanticipated, discrete, temporary, and likely to result in death or serious bodily harm if the contractors' prompt actions are not taken, provided that facility leadership first made reasonable efforts to engage contractors whose vaccination status is verified. Examples of such emergent events and conditions include, but are not limited to, fires, floods, or other natural disasters, inoperable security door and camera controls, riot or hostage situations, or building system failures that are likely to result in death or serious bodily harm if not addressed. Any such response must be limited to the duration and scope necessary to address the emergent event. Facility leadership must approve and document, within a reasonable time of the event, that the circumstances met the narrow parameters of this exception and that reasonable efforts were made to engage contractors whose vaccination status is verified. Facility leadership must retain the documented approval and produce it upon request to a lawful authority or as otherwise required by law. A lawful authority includes, but is not limited to, law enforcement, local health jurisdictions, and the state Department of Health. When the emergent event or condition has been resolved, the contractor and facility leadership must make and document ongoing, good faith efforts to comply with the vaccination verification and other requirements of this proclamation if the contractor will be engaging in additional work at the facility.
3. Proof of Full Vaccination Against COVID-19:
- a. Where required above, Workers for State Agencies, Workers for operators of Educational Settings, and Health Care Providers must provide proof of full vaccination against COVID-19 by providing one of the following:
    - CDC COVID-19 Vaccination Record Card or photo of the card;
    - Documentation of vaccination from a health care provider or electronic health record;
    - State immunization information system record; or
    - For an individual who was vaccinated outside of the United States, a reasonable equivalent of any of the above.
  - b. A State Agency, operator of an Educational Setting, or an operator of a Health Care Setting must obtain a copy of or visually observe proof of full vaccination against COVID-19 for every individual who is engaged in work for them and required to provide such proof under this Order.
  - c. Personal attestation is not an acceptable form of verification of COVID-19 vaccination.
4. Election to Require Employers of Contractors to Assume Responsibility for Vaccination Verification and Accommodation Requirements
- a. Notwithstanding anything to the contrary in this Order, a State Agency, an operator of an Educational Setting, or an operator of Health Care Setting may elect to require the employer of a contractor who is subject to this Order to assume responsibility for the vaccination verification and accommodations requirements in this Order. This election may be made with respect to any or all of an employer's contractor-employees who are subject to this Order.
  - b. If such an election is made, after October 18, 2021, the employer's contractor- employees are prohibited from engaging in work for the State Agency, operator of the Educational Setting, or operator of the Health Care Setting, and the State Agency, operator of the Educational Setting, or operator of the Health Care Setting is prohibited from permitting such employee to engage in work for them, unless the following requirements are met:
    - By October 18, 2021, the employer must obtain a copy of or visually observe proof of full vaccination against COVID-19 for every current employee who is subject to the vaccination requirement in this Order;
    - The employer must obtain a copy of or visually observe proof of full vaccination against COVID-19 for every employee hired after October 18, 2021 who is subject to the vaccination requirement in this Order;
    - The employer must follow the requirements for granting disability and religious accommodations to its current and future employees that apply to State Agencies, operators of Educational Settings, and operators of Health Care Settings under this Order;

- Individuals who are permitted by law to provide health care services in a professional capacity without holding a credential;
- Long-term care workers unless specifically excluded in this order; and
- Workers in any Health Care Setting, as defined herein.

“Health Care Provider” does not include, for purposes of this order:

- Individual providers, as defined in RCW 74.39A.240;
- Individuals who provide only personal care services, as defined in RCW 74.39A.009(24), in people’s homes;
- Providers who are not actively practicing or providing services; and
- Providers who provide services only at one or more of the settings that are expressly excluded from the list of Health Care Settings under this order.

- e. “Health Care Setting” is any public or private setting that is primarily used for the delivery of in-person health care services to people, except as specifically exempted below. If located at a facility that is primarily used for the delivery of health-care services, such as a hospital, then the entire facility is a Health Care Setting. If located at a facility that is primarily used for another purpose, such as a pharmacy within a grocery store, school nurse’s office, or vaccination clinic within a business establishment, the Health Care Setting includes only the areas that are primarily used for the delivery of health care, but not the other areas of the facility.

“Health Care Setting” includes, but is not limited to:

- Acute care facilities, including, but not limited to, hospitals;
- Long-term acute care facilities;
- Inpatient rehabilitation facilities;
- Inpatient behavioral health facilities, including, but not limited to, evaluation and treatment facilities, residential treatment facilities, secure detox facilities;
- Residential long-term care facilities, including, but not limited to, nursing homes, assisted living facilities, adult family homes, settings where certified community residential services and supports are provided, and enhanced services facilities;
- Mobile clinics or other vehicles where health care is delivered;
- Outpatient facilities, including, but not limited to, dialysis centers, physician offices, and behavioral health facilities (including offices of psychiatrists, mental health counselors, and substance use disorder professionals);
- Dental and dental specialty facilities;
- Pharmacies (not including the retail areas);
- Massage therapy offices (this includes designated areas where massage is administered within non-health care settings like spas and wellness/fitness centers);
- Chiropractic offices;
- Midwifery practices and stand-alone birth centers;
- Isolation and/or quarantine facilities;
- Ambulatory surgical facilities;
- Urgent care centers; and
- Hospice care centers.

“Health Care Setting” does not include:

- Settings where sports and spectator events or other gatherings are held (including when credentialed athletic trainers are providing care to players), other than areas primarily used for the delivery of health care services, such as designated first aid areas (which are Health Care Settings);
- Department of Children, Youth & Families (DCYF)-licensed foster homes that do not primarily provide health care services;
- Research facilities where no health care is delivered to people;
- Veterinary health care settings;
- Animal control agencies; and
- Non-profit humane societies.

d. “State Agency” includes:

- Every agency listed at <https://www.governor.wa.gov/officegovernor/office/executive-cabinet>;
- Every agency listed at <https://www.governor.wa.gov/officegovernor/office/small-cabinet>;
- Every agency under the authority of a board, council, or commission listed at [https://ofm.wa.gov/sites/default/files/public/publications/2021\\_State\\_Org\\_Ch\\_art.pdf](https://ofm.wa.gov/sites/default/files/public/publications/2021_State_Org_Ch_art.pdf); and
- The Office of the Attorney General, the Office of the Commissioner of Public Lands and the Department of Natural Resources, the Office of the Insurance Commissioner, the Office of the Lieutenant Governor, the Office of

Superintendent of Public Instruction, and the Office of the Secretary of State.

e. "Educational Setting" includes:

- All public and private universities, colleges, community colleges, and technical colleges and private career/vocational schools subject to licensure by the Workforce Training & Education Coordinating Board;
- All public schools, public school districts, charter schools, private schools, educational service districts, the Washington School for the Deaf, the Washington State School for the Blind, and the Washington Youth Academy; and
- All early learning and child care programs serving groups of children from multiple households, including, but not limited to, Early Childhood Education and Assistance Programs, Family Home Child Care, Child Care Centers, Outdoor, Nature-based Child Care, School-aged Child Care, license-exempt preschools, and license-exempt youth development programs (e.g., municipal parks & recreation programs, YMCA, Boys & Girls Clubs).

f. "Fully Vaccinated against COVID-19": A person is fully vaccinated against COVID-19 two weeks after they have received the second dose in a two-dose series of a COVID-19 vaccine (e.g., Pfizer-BioNTech or Moderna) or a single-dose COVID-19 vaccine (e.g., Johnson & Johnson (J&J)/Janssen) authorized for emergency use, licensed, or otherwise approved by the FDA or listed for emergency use or otherwise approved by the World Health Organization.

g. "On-site volunteer" and "on-site contractor" includes:

- A volunteer or contractor who is reasonably likely or contractually obligated to engage in or in fact engages in work while physically present at a building, facility, jobsite, project site, unit, or other defined area owned, leased, occupied by, or controlled by a State Agency, an operator of an Educational Setting, or an operator of a Health Care Setting.

"On-site volunteer" and "on-site contractor" does not include:

- A volunteer or contractor who is reasonably likely or contractually obligated to engage in or in fact engages in work during which they are physically present at a site for only a short period of time and any moments of close physical proximity to others on site are fleeting. Examples include contractors delivering supplies by truck to a construction site where they remain physically distanced from others on the site or a driver for a contracted shipping and delivery service briefly entering a site to pick up parcels for shipping.

h. "Operator of an Educational Setting" and "operator of a Health Care Setting" do not include clients, patients, patrons, customers, or similar individuals served by a Worker for a State Agency, Worker for an Educational Setting operator, or Health Care Provider.

**ADDITIONALLY**, the specific prohibitions in this Proclamation are severable and do not apply to the extent that compliance with a prohibition would violate (1) any U.S. or Washington constitutional provision; (2) federal statutes or regulations; (3) any conditions that apply to the state's receipt of federal funding; (4) state statutes; or (5) applicable orders from any court of competent jurisdiction.

**ADDITIONALLY**, nothing in this Proclamation limits otherwise applicable requirements related to personal protective equipment, personnel training, and infection control policies and procedures.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5). Further, if people fail to comply with the required facial coverings, social distancing and other protective measures while engaging in this phased reopening, I may be forced to reinstate the prohibitions established in earlier proclamations.

This order is effective immediately. Unless extended or amended, upon expiration or termination of this amendatory proclamation the provisions of Proclamation 20-25, et seq., will continue to be in effect until the state of emergency, issued on February 29, 2020, pursuant to Proclamation 20-05, is rescinded.

Signed and sealed with the official seal of the state of Washington on this 23<sup>rd</sup> day of March, A.D., Two Thousand and Twenty-Two at Olympia, Washington.

AMENDING PROCLAMATION 20-05 and RESCINDING 20-41, et seq.**

**20-41.13**

**Department of Licensing – License and Permit Renewal Extension**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by waiving and suspending specified laws; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, continues to broadly spread throughout Washington State, significantly increasing the threat of serious associated health risks statewide; and

**WHEREAS**, the response to and impacts of the COVID-19 State of Emergency on many state agencies continues to significantly impact their ability to adequately staff and supply various administrative and operational activities, including the ability of the Washington State Department of Licensing to meet the demand for driver license and driver instruction permit renewal and application; and

**WHEREAS**, to reduce the risk of disease transmission to Department of Licensing employees and members of the public visiting its offices, on April 3, 2020, I issued Proclamation 20-41 waiving and suspending statutes necessary to temporarily extend the renewal date of personal and commercial driver licenses; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-41, et seq., have been periodically extended by the leadership of the Washington State Senate and House of Representatives, and which I have acknowledged in subsequent sequentially numbered proclamations; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-41, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first; and

**WHEREAS**, although the COVID-19 disease continues to persist as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 24 months, including the willingness of Washingtonians to take advantage of the remarkable, life- saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID- 19 and support the continuation of the state of emergency, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to begin rescinding or modifying amendatory proclamations related to specific health issues; and

**WHEREAS**, in late February 2022, relevant Federal Motor Carrier Safety Act waivers expired and were not extended, and the Department of Licensing has reasonable capacity to serve its customers safely; and

**WHEREAS**, the Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, immediately terminate and rescind Emergency Proclamation 20-41, et seq., pursuant to RCW 43.06.210. In addition, as a result of the above-noted situation, and under Chapters 38.08, 38.52, and 43.06 RCW, I also hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, and that Proclamation 20-05 and all amendments thereto remain in effect.

I continue to direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout State government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I also continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

**WHEREAS**, in late February 2022, relevant Federal Motor Carrier Safety Act waivers expired and were not extended, and the Department of Licensing has reasonable capacity to serve its customers safely; and

**WHEREAS**, the Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, immediately terminate and rescind Emergency Proclamation 20-48, et seq., pursuant to RCW 43.06.210. In addition, as a result of the above-noted situation, and under Chapters 38.08, 38.52, and 43.06 RCW, I also hereby proclaim that a state of emergency continues to exist in all counties of Washington State, and that Proclamation 20-05 and all amendments thereto remain in effect as otherwise amended.

I continue to direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

As a result of this event, I also continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

**EMERGENCY PROCLAMATION BY THE GOVERNOR  
AMENDING PROCLAMATION 20-05 and RESCINDING 20-31, et seq.,**

**20-31.12**

**Division of Child, Youth, and Families – Child Care and Background Checks**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by waiving and suspending specified laws; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, continues to broadly spread throughout Washington State, seriously increasing the threat of serious associated health risks statewide; and

**WHEREAS**, on March 26, 2020, I issued Proclamation 20-31 waiving and suspending statutes relating to the administrative requirements to license child care providers and foster and adoptive parents and related programs administered by the Department of Child, Youth, and Families, to increase the availability of these services; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-31, et seq., have been periodically extended by the leadership of the Washington State Senate and House of Representatives, and which I have acknowledged in subsequent sequentially numbered proclamations; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-31, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first; and

**WHEREAS**, although the COVID-19 disease continues to persist as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 24 months, including the willingness of Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 and support the continuation of the state of emergency, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to begin rescinding or modifying amendatory proclamations related to specific health issues; and

**WHEREAS**, the COVID-19-related barriers to fully complying with the suspended and waived statutes by this Proclamation have largely receded, providers need both notice and a reasonable amount of time to adjust to pre-COVID-19 procedures; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation, and under Chapters 38.08, 38.52, and 43.06 RCW, do hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05 and all amendments thereto remain in effect as otherwise amended, and that Proclamations 20-31, et seq., is terminated and rescinded effective July 1, 2022.

I again direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State

Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person, which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, has broadly spread throughout Washington state and remains a significant health risk to all of our people, especially members of our most vulnerable populations; and

**WHEREAS**, the Department of Health indicates that cases of COVID-19 and associated deaths continue in Washington state, demonstrating the ongoing, present threat of this lethal disease; and

**WHEREAS**, the COVID-19 epidemic has hindered the ability of institutions of higher education in Washington state to safely provide in-person classes, resulting in most institutions opting to provide primarily remote instruction, and many current students have lived and participated in their higher education from locations outside of Washington state; and

**WHEREAS**, universities that have reopened their campuses for in-person classes have experienced new outbreaks of COVID-19 among students; and

**WHEREAS**, Washington state's six public universities employ graduate students to perform teaching and research functions, and tuition waivers are a part of the compensation provided by contract to these employees, and many graduate students come from outside the state and country and are working remotely within online learning environments; and

**WHEREAS**, to assist in reducing the spread of COVID-19 by enabling persons to work remotely, and to continue providing teaching and research functions for the universities and their students, while remaining eligible for tuition waivers, on August 26, 2020, I issued Proclamation 20-69 waiving and suspending a portion of RCW 28B.15.014 to allow universities to grant tuition waivers to persons not residing within Washington state, which has been extended by subsequent amendments; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-69, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first; and

AMENDING PROCLAMATION 20-05 and RESCINDING PROCLAMATION 20-28, et seq.**

**20-28.16**

**Open Public Meetings Act and Public Records Act Proclamations**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; too

**WHEREAS**, to enable public meetings to occur while maintaining the social distancing and limitations on in-person interactions necessary to curtail the spread of COVID-19, on March 24, 2020, I issued Proclamation 20-28, prohibiting in-person meetings and waiving and suspending laws and rules concerning RCW 42.56, the Public Records Act, and RCW 42.30, the Open Public Meetings Act, that hindered conducting public meetings remotely; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-28, et seq., have been periodically extended by the leadership of the Washington State Senate and House of Representatives, and which I have acknowledged and similarly extended the prohibitions therein in subsequent sequentially numbered proclamations, which proclamations also contained modifications and guidance regarding the waivers, suspensions, and prohibitions; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-21, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first; and

**WHEREAS**, to fully extend Proclamations 20-28, et seq., it is also necessary for me to extend the prohibitions provided therein; and

**WHEREAS**, during the 2022 Regular Legislative Session, the Legislature passed, and the Governor signed, Engrossed Substitute House Bill 1329, which, in part, authorized public agency governing bodies to hold public meetings remotely in certain circumstances and after a local, state or federal state of emergency has been declared; and

**WHEREAS**, although the COVID-19 disease continues to persist as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 24 months, including the willingness of Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation, and under Chapters 38.08, 38.52, and 43.06 RCW, do hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05 and all amendments thereto remain in effect as otherwise amended, and that Proclamations 20-28, et seq., are terminated and rescinded effective 12:01 A.M. on June 1, 2022.

I again direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic and wildfires.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

**PROCLAMATION BY THE GOVERNOR  
AMENDING PROCLAMATIONS 20-05 and 21-14, et seq.**

**21-14.5  
COVID-19 VACCINATION REQUIREMENT**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout

Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations and our health care system, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations, including issuance of Proclamations 20- 25, et seq., which limits Washingtonians' ability to participate in certain activities unless certain conditions are met; and

**WHEREAS**, during early stages of the COVID-19 pandemic, health professionals and epidemiological modeling experts indicated that the spread of COVID-19, if left unchecked, threatened to overwhelm portions of Washington's public and private health-care system; and

**WHEREAS**, to protect some of our most vulnerable populations—persons in health care facilities, long-term care facilities (including nursing homes), and similar congregate care facilities—and to protect our health and congregate care systems themselves, I issued several proclamations imposing heightened protections on workers, residents, and visitors in those facilities; and

**WHEREAS**, after months of improving COVID-19 epidemiological conditions in Washington State, the emergence of highly contagious COVID-19 variants, coupled with the continued significant numbers of unvaccinated people, have caused COVID-19 cases and hospitalizations to rise sharply among unvaccinated populations and have resulted in breakthrough infections in fully vaccinated individuals; and

**WHEREAS**, COVID-19 vaccines are effective in reducing infection and serious disease, and widespread vaccination is the primary means we have as a state to protect everyone, including persons who cannot be vaccinated for medical reasons, young children who are not eligible to receive a vaccine, immunocompromised individuals, and vulnerable persons including persons in health care facilities, long-term care facilities and other congregate care facilities from COVID-19 infections; and

**WHEREAS**, widespread vaccination is also the primary means we have as a state to protect our health care system, to avoid the return of stringent public health measures, and to move to the next phase of COVID-19 containment; and

**WHEREAS**, COVID-19 vaccinations have been available in Washington State from December 2020 to the present, and since November 3, 2021, all Washingtonians over the age of 5 have been eligible to receive free COVID-19 vaccinations from a wide variety of providers at many locations; and

**WHEREAS**, as of May 9, 2022, nearly 5.9 million Washingtonians, about 81.8% of those 5 and older, had initiated their vaccine series, leaving over a million eligible Washingtonians unvaccinated; and

**WHEREAS**, according to the U.S. Centers for Disease Control and Prevention (CDC), as of May 15, 2022, more than 90% of staff in Washington state nursing homes were fully vaccinated; and

**WHEREAS**, healthcare workers face COVID-19 exposures in a variety of healthcare settings, with those involving direct patient care likely at higher risk; and

**WHEREAS**, COVID-19 vaccines are safe and effective. COVID-19 vaccines were evaluated in clinical trials involving tens of thousands of participants and met the U.S. Food & Drug Administration's (FDA) rigorous scientific standards for safety, effectiveness, and manufacturing quality needed to support emergency use authorization; and, to date, more than 583 million doses of COVID-19 vaccines have been given in the United States with 13.8 million of those doses administered in Washington, and serious safety problems and long-term side effects are rare; and

**WHEREAS**, on July 6, 2021, the Office of Legal Counsel of the United State Department of Justice issued a legal opinion stating that federal law does not prohibit federal and state governments from imposing vaccination mandates, even when the only vaccines available are those authorized under the FDA's Emergency Use Authorizations; and

**WHEREAS**, on July 26, 2021, approximately 60 medical groups, including the American Medical Association, the American College of Physicians, the American Academy of Pediatrics, the American Academy of Family Physicians, the American Nurses Association, the American Academy of Physician Assistants, the Association of Professionals in Infection Control and Epidemiology, the American Public Health Association, the Infectious Diseases Society of America, LeadingAge, the National Hispanic Medical Association, the National Medical Association, and the Society of Infectious Disease Pharmacists, issued a memorandum supporting mandatory, universal vaccination of all public and private health care and long-term care workers, noting that such a requirement is the "fulfillment of the ethical commitment of all health care workers to put patients as well as residents of long-term care facilities first and take all steps necessary to ensure their health and well-being"; and on August 2, 2021, the

Washington State Society of Post-Acute and Long-Term Care Medicine submitted a letter in support of the above noted July 26, 2021 memorandum; and

**WHEREAS**, on July 15, 2021, the American College of Obstetricians and Gynecologists, together with the Society for Maternal-Fetal Medicine, posted a formal opinion stating that medical professionals have an ethical obligation to be vaccinated against COVID-19 to prevent the spread of harmful infectious diseases, and that women who are or may become pregnant should be vaccinated against COVID-19; and

**WHEREAS**, it is the duty of every employer to protect the health and safety of employees by establishing and maintaining a healthy and safe work environment and by requiring all employees to comply with health and safety measures; and

**WHEREAS**, state employees live in and provide services to the public in every county in our state, and many interact with the public on a regular basis, and they all interact with some portion of the community at large to varying degrees before and/or after state work hours; and

**WHEREAS**, to further our individual and collective duty to reduce the spread of COVID-19 in our communities, I issued Proclamation 21-14 requiring all employees, on-site independent contractors, volunteers, goods and services providers, and appointees of designated state agencies to be fully vaccinated against COVID-19 on or before October 18, 2021; and

**WHEREAS**, child-care settings, K-12 schools, colleges, universities, and community colleges, (collectively, “educational settings”) are foundations of Washington’s communities and its future, and provide a variety of vital services to students, families, and communities, thereby making providing childcare services and in-person instruction in the 2021-2022 school year a priority; and

**WHEREAS**, increasing vaccination rates at educational settings is the strongest protective measure against COVID-19 available and, together with masking, vital to providing in-person instruction in as safe a manner as possible; and

**WHEREAS**, on July 12, 2021, I issued Proclamation 20-12.4 prohibiting institutions of higher education from providing in-person instruction unless the institutions comply with specific requirements related to vaccination, masking, and operations; and

**WHEREAS**, on July 30, 2021, I issued Proclamation 20-9.4, prohibiting K-12 schools from providing in-person learning unless the schools comply with masking instructions provided by the Department of Health and the Office of the Superintendent of Public Instruction; and

**WHEREAS**, the sharp increase in COVID-19 cases and hospitalizations, primarily among unvaccinated populations but also in breakthrough infections in fully vaccinated individuals, makes it vital to expand the vaccination requirement to workers in educational settings; and

**WHEREAS**, to provide additional clarity and ease of administration, in Proclamation 21-14.2, I extended the prohibition to additional groups relating to the vaccination requirement imposed in Proclamation 21-14 and 21-14.1; and

**WHEREAS**, I issued Proclamation 21-14.3 to provide an exemption to the vaccination requirement to contractors responding to unanticipated, discrete, and temporary emergencies likely to result in death or serious bodily harm in facilities providing 24/7 care; and

**WHEREAS**, I issued Proclamation 21-14.4 to extend the vaccination requirement to contractors of the Office of the Secretary of State; and

**WHEREAS**, although the COVID-19 disease continues to persist as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 26 months, including the willingness of Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, although Department of Health statistics reflect the continued prevalence of COVID-19 and support the continuation of the state of emergency, the reduction in severe disease from COVID-19 infection due to a combination of immunity from vaccination coverage and/or prior infection and wider availability of therapeutic medications and low death rate from COVID-19 are positive indicators; and, furthermore, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to rescind and/or modify amendatory proclamations related to specific health issues and activities; and

**WHEREAS**, health experts agree that outdoor activities are safer than indoor activities, and individuals are less likely to be exposed to COVID-19 while working or engaged in other activities outside, even without the use of masks; and

**WHEREAS**, in general, contractors and volunteers whose work or activities are primarily performed outside typically have very limited and infrequent indoor contact with other contractors, volunteers or employees at the work site and often have more ability to physically distance from other contractors and volunteers; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the state Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim and order that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05, as amended, remains in effect, and that, to help preserve and maintain life, health, property or the public peace pursuant to RCW 43.06.220(1)(h), and (3), I hereby amend and supersede the prohibitions in 21-14, et seq., as set out below, subject to the conditions, exceptions, and circumstances also set forth below, for the following activities:

1. Prohibitions. This order prohibits the following:
  - a. Any Worker from engaging in work for a State Agency after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19;
  - b. Any State Agency from permitting any Worker to engage in work for the agency after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19 and provided proof thereof as required below;
  - c. Any Worker from engaging in work for the operator of an Educational Setting after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19;
  - d. Any operator of an Educational Setting from permitting a Worker to engage in work for the operator after October 18, 2021 if the Worker has not been fully vaccinated against COVID-19 and provided proof thereof as required below;
  - e. Any Health Care Provider from failing to be fully vaccinated against COVID-19 after October 18, 2021; and
  - f. Any operator of a Health Care Setting from permitting a Health Care Provider to engage in work for the operator as an employee, contractor, or volunteer in their capacity as a Health Care Provider after October 18, 2021 if the Health Care Provider has not been fully vaccinated against COVID-19 and provided proof thereof as required below. Providers who do not work in a Health Care Setting must provide proof of vaccination to the operator of the facility in which the Provider works, if any, or, if requested, to a lawful authority. A lawful authority includes, but is not limited to, law enforcement, local health jurisdictions, and the state Department of Health.
2. Exemptions and Exceptions.
  - a. Disability and Religious Accommodations
    - Workers for State Agencies, Workers for operators of Educational Settings, and Health Care Providers are not required to get vaccinated against COVID-19 under this Order if they are unable to do so because of a disability or if the requirement to do so conflicts with their sincerely held religious beliefs, practice, or observance. Workers for State Agencies, Workers for operators of Educational Settings, and Health Care Providers are prohibited from claiming an exemption or accommodation on false, misleading, or dishonest grounds, including by providing false, misleading, or dishonest information to a State Agency, operator of an Educational Setting, or operator of a Health Care Setting when seeking an accommodation.
    - In implementing the requirements of this Order, State Agencies, operators of Educational Settings, and operators of Health Care Settings:
      - Must provide any disability-related reasonable accommodations and sincerely held religious belief accommodations to the requirements of this Order that are required under the Americans with Disabilities Act of 1990 (ADA), the Rehabilitation Act of 1973 (Rehabilitation Act), Title VII of the Civil Rights Act of 1964 (Title VII), the Washington Law Against Discrimination (WLAD), and any other applicable law. As provided in the above-noted laws, State Agencies, operators of Educational Settings, and operators of Health Care Settings are not required to provide accommodations if they would cause undue hardship.
      - Must comply with the procedures required under the above-noted laws and any other applicable law when considering and deciding whether to provide accommodations;
      - Must, to the extent permitted by law, before providing a disability-related reasonable accommodation to the requirements of this order, obtain from the individual requesting the accommodation documentation from an appropriate health care or rehabilitation professional stating that the individual has a disability that necessitates an accommodation and the probable duration of the need for the accommodation;
      - Must, to the extent permitted by law, before providing a sincerely held religious belief accommodation to the

requirements of this Order, document that the request for an accommodation has been made and include a statement in the document explaining the way in which the requirements of this order conflict with the sincerely held religious belief, practice, or observance of the individual;

- Must, to the extent permitted by law, require an individual who receives an accommodation to take COVID-19 safety measures that are consistent with the recommendations of the state Department of Health and the Department of Labor & Industries for the setting in which the individual works; and
  - Are prohibited from providing accommodations:
    - That they know are based on false, misleading, or dishonest grounds or information;
    - That they know are based on the personal preference of the individual and not on an inability to get vaccinated because of a disability or a conflict with a sincerely held religious belief, practice, or observance; or
    - Without conducting an individualized assessment and determination of each individual's need and justification for an accommodation; i.e., "rubberstamping" accommodation requests.
- b. Any individual who is unable to get fully vaccinated against COVID-19 by October 18, 2021 due to the requirements of their participation in a COVID-19 vaccine clinical trial is exempt from this Order. Any such individual who is a Worker for a State Agency or a Worker for an operator of an Educational Setting must provide documentary proof of their participation in the COVID-19 vaccine clinical trial to any State Agency or operator of an Educational Setting for which they engage in work. Any such individual who is a Health Care Provider must provide documentary proof of their participation in the COVID-19 vaccine clinical trial to any operator of a Health Care Setting for which they engage in work as an employee, contractor, or volunteer in their capacity as a Health Care Provider. A State Agency, operator of an Educational Setting, or operator of a Health Care Setting is prohibited from permitting any such individual to engage in work for them after October 18, 2021 if the individual fails to provide such proof.
- c. Individuals who are too young to receive any COVID-19 vaccine, as authorized for emergency use, licensed, or otherwise approved by the FDA, are exempt from this Order. Any individual who becomes old enough to receive any COVID-19 vaccine, as authorized for emergency use, licensed, or otherwise approved by the FDA, while this Order is in effect must come into compliance with the requirements of this Order within 60 days of the day they became eligible. Any State Agency, operator of an Educational Setting, or operator of a Health Care Setting for which such an individual engages in work must also come into compliance with the requirements of this Order with respect to the individual by that deadline.
- d. Individuals who reside in countries other than the United States of America who are unable to get vaccinated against COVID-19 with reasonable effort and expense are exempt from this Order.
- e. Workers for the Office of the Attorney General, the Office of the Commissioner of Public Lands and the Department of Natural Resources, the Office of Insurance Commissioner, the Office of the Lieutenant Governor, the Office of Superintendent of Public Instruction, and the Office of the Secretary of State, as defined below to be limited to on-site contractors for these State Agencies, are prohibited from engaging in work for these State Agencies after the date specified by the respective State Agency, but in no case later than May 23, 2022 for the Office of the Secretary of State and November 30, 2021 for the other State Agencies listed in this subsection, if the Worker has not been fully vaccinated against COVID-19. These State Agencies are prohibited from permitting any Worker to engage in work for the agency after such date if the Worker has not been fully vaccinated against COVID-19 and provided proof thereof as required below.
- f. In facilities that provide 24/7 care to individuals, including, but not limited to, acute care, long-term care, corrections, rehabilitation, and behavioral health in-patient facilities, contractors who have not provided proof of full vaccination against COVID-19 may respond directly to emergent events or conditions that are unanticipated, discrete, temporary, and likely to result in death or serious bodily harm if the contractors' prompt actions are not taken, provided that facility leadership first made reasonable efforts to engage contractors whose vaccination status is verified. Examples of such emergent events and conditions include, but are not limited to, fires, floods, or other natural disasters, inoperable security door and camera controls, riot or hostage situations, or building system failures that are likely to result in death or serious bodily harm if not addressed. Any such response must be limited to the duration and scope necessary to address the emergent event. Facility leadership must approve and document, within a reasonable time of the event, that the circumstances met the narrow parameters of this exception and that reasonable efforts were made to engage contractors whose vaccination status is verified. Facility leadership must retain the documented approval and produce it upon request to a lawful authority or as otherwise required by law. A lawful authority includes, but is not limited to, law enforcement, local health jurisdictions, and the state Department of Health. When the emergent event or condition has been resolved, the contractor and facility leadership must make and document ongoing, good faith efforts to comply with the vaccination verification and other requirements of this proclamation if the contractor will be engaging in additional work at the facility.
3. Proof of Full Vaccination Against COVID-19:
- a. Where required above, Workers for State Agencies, Workers for operators of Educational Settings, and Health Care Providers must provide proof of full vaccination against COVID-19 by providing one of the following:
- CDC COVID-19 Vaccination Record Card or photo of the card;
  - Documentation of vaccination from a health care provider or electronic health record;
  - State immunization information system record; or

- For an individual who was vaccinated outside of the United States, a reasonable equivalent of any of the above.
  - b. A State Agency, operator of an Educational Setting, or an operator of a Health Care Setting must obtain a copy of or visually observe proof of full vaccination against COVID-19 for every individual who is engaged in work for them and required to provide such proof under this Order.
  - c. Personal attestation is not an acceptable form of verification of COVID-19 vaccination.
4. Election to Require Employers of Contractors to Assume Responsibility for Vaccination Verification and Accommodation Requirements
- a. Notwithstanding anything to the contrary in this Order, a State Agency, an operator of an Educational Setting, or an operator of Health Care Setting may elect to require the employer of a contractor who is subject to this Order to assume responsibility for the vaccination verification and accommodations requirements in this Order. This election may be made with respect to any or all of an employer's contractor- employees who are subject to this Order.
  - b. If such an election is made, after October 18, 2021, the employer's contractor- employees are prohibited from engaging in work for the State Agency, operator of the Educational Setting, or operator of the Health Care Setting, and the State Agency, operator of the Educational Setting, or operator of the Health Care Setting is prohibited from permitting such employee to engage in work for them, unless the following requirements are met:
    - By October 18, 2021, the employer must obtain a copy of or visually observe proof of full vaccination against COVID-19 for every current employee who is subject to the vaccination requirement in this Order;
    - The employer must obtain a copy of or visually observe proof of full vaccination against COVID-19 for every employee hired after October 18, 2021 who is subject to the vaccination requirement in this Order;
    - The employer must follow the requirements for granting disability and religious accommodations to its current and future employees that apply to State Agencies, operators of Educational Settings, and operators of Health Care Settings under this Order;
    - By October 18, 2021, the employer must submit to the State Agency, operator of the Educational Setting, or operator of the Health Care Setting a signed declaration in substantially the form prescribed in RCW 5.50.050 declaring that the employer has met the above requirements;
    - The employer must submit additional signed declarations upon the request of and by the date designated by the State Agency, operator of the Educational Setting, or operator of the Health Care Setting;
    - If an employer is also a contractor subject to this Order, the employer must include in their declaration that the employer is fully vaccinated against COVID-19 or is unable to get vaccinated because of a disability or a conflict between the vaccination requirement and their sincerely held religious beliefs, practice, or observance, as applicable; and
    - The employer must cooperate with any investigation or inquiry the State Agency, operator of the Educational Setting, or operator of the Health Care Setting makes into the employer's compliance with these requirements, including by providing information and records upon request, except any information or records that the employer is prohibited by law from disclosing.
  - c. Any State Agency, operator of an Educational Setting, or operator of Health Care Setting who makes the election above retains the right to investigate or inquire into the employer's compliance with the above requirements, to obtain proof of vaccination directly from any contractor-employee, and to withdraw the election in whole or in part at any time.
5. Public and Private Entities and Employers May Exceed These Requirements: Nothing in this order prohibits State Agencies, operators of Educational Settings, and operators of Health Care Settings from implementing requirements that exceed the requirements of this Order.
6. Definitions.
- a. "Worker":
    - "Worker" includes:
      - A person engaged to work as an employee, on-site volunteer, or on-site contractor for a State Agency, an operator of an Educational Setting, or an operator of a Health Care Setting, as applicable;
      - The director, secretary, or other executive officer of a State Agency; and
      - A person appointed to serve on a board, commission, or similar body that is an executive cabinet agency listed at <https://www.governor.wa.gov/office-governor/office/executive-cabinet> or a small cabinet agency listed at <https://www.governor.wa.gov/office-governor/office/small-cabinet>, the State Board for Community and Technical Colleges, a board of trustees for a community or technical college, or a governing board of a four-year institution of higher education.
    - The following exceptions apply to the definition of "Worker":
      - Visitors and patrons are not Workers.
      - In Educational Settings:
        - Students of, persons attending, and persons receiving services at or from an Educational Setting are not Workers.
        - On-site contractors are not Workers if they do not work in places where students or persons receiving services

are present.

- Family, friend, and neighbor (FFN) child care providers are not Workers.
  - For any State Agency that is listed as an agency under the authority of a board, council, or commission at [https://ofm.wa.gov/sites/default/files/public/publications/2021\\_State\\_Org\\_Chart.pdf](https://ofm.wa.gov/sites/default/files/public/publications/2021_State_Org_Chart.pdf) and that is not also listed as an executive cabinet agency at <https://www.governor.wa.gov/office-governor/office/executive-cabinet> or a small cabinet agency at <https://www.governor.wa.gov/officegovernor/office/small-cabinet>, other than the State Board for Community and Technical Colleges, the boards of trustees for community and technical colleges, and the governing boards of four-year institutions of higher education, only the State Agency's compensated employees are Workers subject to the requirements of this proclamation.
  - For the Office of the Attorney General, the Office of the Commissioner of Public Lands and the Department of Natural Resources, the Office of Insurance Commissioner, the Office of the Lieutenant Governor, the Office of Superintendent of Public Instruction, and the Office of the Secretary of State, only on-site contractors are Workers subject to the requirements of this proclamation.
- b. "Contractor" includes any person who provides goods, services, or public works services pursuant to a contract with another person or entity, including, for purposes of this Order, a State Agency, an operator of an Educational Setting, or an operator of a Health Care Setting. The term includes subcontractors. The term does not include parties to a lease or rental agreement, unless the agreement requires a party to provide services, in which case only the persons who provide those services are "contractors."
- c. "Contract" is defined as provided under Washington law. Generally, a contract is a promise or a set of promises for the breach of which the law gives a remedy, or the performance of which the law in some way recognizes as a duty, regardless of the particular form, title, or description.
- d. "Health Care Provider" includes:
- Individuals with credentials listed in the [Healthcare Professional Credentialing Requirements](#) list;
  - Individuals who are permitted by law to provide health care services in a professional capacity without holding a credential;
  - Long-term care workers unless specifically excluded in this order; and
  - Workers in any Health Care Setting, as defined herein.

"Health Care Provider" does not include, for purposes of this order:

- Individual providers, as defined in RCW 74.39A.240;
  - Individuals who provide only personal care services, as defined in RCW 74.39A.009(24), in people's homes;
  - Providers who are not actively practicing or providing services; and
  - Providers who provide services only at one or more of the settings that are expressly excluded from the list of Health Care Settings under this order.
- e. "Health Care Setting" is any public or private setting that is primarily used for the delivery of in-person health care services to people, except as specifically exempted below. If located at a facility that is primarily used for the delivery of health-care services, such as a hospital, then the entire facility is a Health Care Setting. If located at a facility that is primarily used for another purpose, such as a pharmacy within a grocery store, school nurse's office, or vaccination clinic within a business establishment, the Health Care Setting includes only the areas that are primarily used for the delivery of health care, but not the other areas of the facility.

"Health Care Setting" includes, but is not limited to:

- Acute care facilities, including, but not limited to, hospitals;
- Long-term acute care facilities;
- Inpatient rehabilitation facilities;
- Inpatient behavioral health facilities, including, but not limited to, evaluation and treatment facilities, residential treatment facilities, secure detox facilities;
- Residential long-term care facilities, including, but not limited to, nursing homes, assisted living facilities, adult family homes, settings where certified community residential services and supports are provided, and enhanced services facilities;
- Mobile clinics or other vehicles where health care is delivered;
- Outpatient facilities, including, but not limited to, dialysis centers, physician offices, and behavioral health facilities (including offices of psychiatrists, mental health counselors, and substance use disorder professionals);
- Dental and dental specialty facilities;

- Pharmacies (not including the retail areas);
- Massage therapy offices (this includes designated areas where massage is administered within non-health care settings like spas and wellness/fitness centers);
- Chiropractic offices;
- Midwifery practices and stand-alone birth centers;
- Isolation and/or quarantine facilities;
- Ambulatory surgical facilities;
- Urgent care centers; and
- Hospice care centers.

“Health Care Setting” does not include:

- Settings where sports and spectator events or other gatherings are held (including when credentialed athletic trainers are providing care to players), other than areas primarily used for the delivery of health care services, such as designated first aid areas (which are Health Care Settings);
- Department of Children, Youth & Families (DCYF)-licensed foster homes that do not primarily provide health care services;
- Research facilities where no health care is delivered to people;
- Veterinary health care settings;
- Animal control agencies; and
- Non-profit humane societies.

f. “State Agency” includes:

- Every agency listed at <https://www.governor.wa.gov/officegovernor/office/executive-cabinet>;
- Every agency listed at <https://www.governor.wa.gov/officegovernor/office/small-cabinet>;
- Every agency under the authority of a board, council, or commission listed at [https://ofm.wa.gov/sites/default/files/public/publications/2021\\_State\\_Org\\_Chart.pdf](https://ofm.wa.gov/sites/default/files/public/publications/2021_State_Org_Chart.pdf); and
- The Office of the Attorney General, the Office of the Commissioner of Public Lands and the Department of Natural Resources, the Office of the Insurance Commissioner, the Office of the Lieutenant Governor, the Office of Superintendent of Public Instruction, and the Office of the Secretary of State.

g. “Educational Setting” includes:

- All public and private universities, colleges, community colleges, and technical colleges and private career/vocational schools subject to licensure by the Workforce Training & Education Coordinating Board;
- All public schools, public school districts, charter schools, private schools, educational service districts, the Washington School for the Deaf, the Washington State School for the Blind, and the Washington Youth Academy; and
- All early learning and childcare programs serving groups of children from multiple households, including, but not limited to, Early Childhood Education and Assistance Programs, Family Home Child Care, Child Care Centers, Outdoor, Nature-based Child Care, School-aged Child Care, license-exempt preschools, and license-exempt youth development programs (e.g., municipal parks & recreation programs, YMCA, Boys & Girls Clubs).

h. “Fully Vaccinated against COVID-19”: A person is fully vaccinated against COVID- 19 two weeks after they have received the second dose in a two-dose series of a COVID-19 vaccine (e.g., Pfizer-BioNTech or Moderna) or a single-dose COVID-19 vaccine (e.g., Johnson & Johnson (J&J)/Janssen) authorized for emergency use, licensed, or otherwise approved by the FDA or listed for emergency use or otherwise approved by the World Health Organization.

i. “On-site volunteer” and “on-site contractor” include:

- A volunteer or contractor who is reasonably likely or contractually obligated to engage in or in fact engages in work while physically present at a building, facility, jobsite, project site, unit, or other defined area owned, leased, occupied by, or controlled by a State Agency, an operator of an Educational Setting, or an operator of a Health Care Setting.

“On-site volunteer” and “on-site contractor” do not include:

- A volunteer or contractor who is reasonably likely or contractually obligated to engage in or in fact engages in work during which they are physically present at a site for only a short period of time and any moments of close physical proximity to others on site are fleeting; or
- A volunteer or contractor who engages primarily in outdoor work that does not include the delivery of health care services.

- j. “Operator of an Educational Setting” and “operator of a Health Care Setting” do not include clients, patients, patrons, customers, or similar individuals served by a Worker for a State Agency, Worker for an Educational Setting operator, or Health Care Provider.

**ADDITIONALLY**, the specific prohibitions in this Proclamation are severable and do not apply to the extent that compliance with a prohibition would violate (1) any U.S. or Washington constitutional provision; (2) federal statutes or regulations; (3) any conditions that apply to the state’s receipt of federal funding; (4) state statutes; or (5) applicable orders from any court of competent jurisdiction.

**ADDITIONALLY**, nothing in this Proclamation limits otherwise applicable requirements related to personal protective equipment, personnel training, and infection control policies and procedures.

I again direct that the plans and procedures of the *Washington State Comprehensive Emergency Management Plan* be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the *Washington State Comprehensive Emergency Management Plan* and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5). Further, if people fail to comply with the required facial coverings, social distancing and other protective measures while engaging in this phased reopening, I may be forced to reinstate the prohibitions established in earlier proclamations.

This order is effective immediately. Unless extended or amended, upon expiration or termination of this amendatory proclamation the provisions of Proclamation 20-25, et seq., will continue to be in effect until the state of emergency, issued on February 29, 2020, pursuant to Proclamation 20-05, is rescinded.

Signed and sealed with the official seal of the state of Washington on this 20th day of May, A.D., Two Thousand and Twenty-Two at Olympia, Washington.

**PROCLAMATION BY THE GOVERNOR  
AMENDING AND EXTENDING EMERGENCY PROCLAMATION 20-05 and RESCINDING 20-23, et seq.**

**20-23.17**

**Ratepayer Assistance and Preservation of Essential Services**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout Washington State of as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its continued persistence in Washington State, and the high risk it continues to pose to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, continues to persist as an ongoing

threat in Washington State; and

**WHEREAS**, the COVID-19 pandemic caused a global economic slowdown and an economic downturn in Washington State, which resulted in layoffs and reduced work hours for a significant percentage of our workforce and significant reductions in business activity impacting the commercial sectors that support our state's economic vitality, including severe impacts to the large number of small businesses that make Washington State's economy thrive; and

**WHEREAS**, the COVID-19 pandemic has limited the available financial resources of many of our people and businesses with many of them suffering considerable economic hardship as a result of the economic impacts of the COVID-19 pandemic on our economy, resulting in a significant threat of utility services being disconnected and late payment fees being imposed; and

**WHEREAS**, maintaining provision of utility services during this crisis is an essential tool in sustaining and protecting the health and welfare of our people and businesses as a critical part of the overall response to the COVID-19 pandemic; and

**WHEREAS**, the Washington State Utilities and Transportation Commission regulates the rates and services of investor-owned utilities in Washington State and is coordinating with utilities throughout the State to protect the availability and affordability of essential utility services for those economically impacted by the COVID-19 pandemic through a variety of measures, including: suspending disconnection of utilities for nonpayment, waiving late fees, working with affected utility customers to establish payment arrangements, and improving access to energy assistance for affected customers; and

**WHEREAS**, on March 18, 2020, I issued Proclamation 20-23, waiving and suspending statutes and prohibiting certain activities relating to utility services; and

**WHEREAS**, on March 24, 2020, I issued Proclamation 20-23.1, amending and continuing the waivers and suspension of statutes and the prohibitions of certain activities relating to utility services; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions in Proclamations 20-23, et seq., have been periodically extended by the leadership of the Washington State Senate and House of Representatives, and which I acknowledged and similarly extended the prohibitions therein; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-23, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first, and which I acknowledged and similarly extended the prohibitions therein; and

**WHEREAS**, on March 18, 2021, I amended 20-23, et seq., to extend the prohibitions on disconnecting, refusing to reconnect, and charging late fees until termination of the COVID-19 State of Emergency or 11:59 p.m. on July 31, 2021, whichever comes first; and

**WHEREAS**, the prohibitions on disconnecting, refusing to reconnect, and charging late fees related to residential customers of energy, telecommunications, or water service in this proclamation, as amended, were terminated on September 30, 2021; and

**WHEREAS**, although the COVID-19 disease continues to persist as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 26 months, including the willingness of Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 and support the continuation of the state of emergency, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to rescind and/or modify amendatory proclamations related to specific health issues and activities; and

**WHEREAS**, there are no remaining elements of Proclamation 20-23, et seq., that are necessary to address the COVID-19 pandemic at this time; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Washington State Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05 and amendments thereto remain in effect, and that Proclamation 20-23, et seq., is terminated and rescinded effective immediately.

I again direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Washington State Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

AMENDING PROCLAMATION 20-05 and RESCINDING 20-56, et seq.**

**20-56.9  
Governor’s Office – Tribal Fuel Tax Refund Restrictions**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, has broadly spread throughout Washington State, significantly increasing the threat of serious associated health risks statewide; and

**WHEREAS**, the COVID-19 pandemic has caused a global economic slowdown and an economic downturn resulting in significant reductions in business activities and affecting the sources of revenue of Indian tribes with reservations located in Washington State; and

**WHEREAS**, acting pursuant to authority granted by RCW 82.38.310(1), current and prior governors have entered into agreements with Indian tribes relating to refunds by the state of a percentage of fuel taxes collected by tribes and remitted to the state; and

**WHEREAS**, pursuant to RCW 82.38.310(3)(b), agreements between the governor and tribes related to fuel tax refunds are required to contain, and do contain, provisions restricting tribes’ use of fuel tax refunds to highway- and transportation-related purposes; and

**WHEREAS**, tribes have informed the Governor's Office that such provisions are preventing, hindering, and delaying tribes' ability to use fuel tax refund money as tribes determine is most appropriate to respond to the COVID-19 pandemic, and have requested a waiver of provisions contained in agreements between the tribes and the Governor's Office restricting tribes' use of fuel tax refunds to specified transportation-related purposes; and

**WHEREAS**, to assist tribes' ability to use fuel tax refunds as each has determined is most effective to respond to the COVID-19 pandemic, I issued Proclamation 20-56 to waive or suspend statutory requirements that agreements between tribes and the Governor's Office contain restrictions on tribes' use of fuel tax refunds and to waive or suspend any such contractual restrictions; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-56, et seq., have been periodically extended by the leadership of the Washington State Senate and House of Representatives, and which I have acknowledged and similarly extended the waivers and suspensions of provisions in contracts in subsequent sequentially numbered proclamations; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-56, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first; and

**WHEREAS**, although the COVID-19 disease continues to persist as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 26 months, including the willingness of Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 and support the continuation of the state of emergency, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to rescind and/or modify amendatory proclamations related to specific health issues and activities; and

**WHEREAS**, the Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above- noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, that Proclamations 20-05 and all amendments thereto remain in effect, and that Proclamation 20-56, et seq., is terminated and rescinded effective at 12:01 A.M. on July 1, 2022.

I again direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic. I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

AMENDING PROCLAMATION 20-05, and RESCINDING PROCLAMATION 20-24, et seq.**

**20-24.4**

**Restrictions on Non-Urgent Medical Procedures**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations and our health care system, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations, including issuance of Proclamation 20- 25, et seq., which limit Washingtonians' ability to participate in certain activities unless certain conditions are met; and

**WHEREAS**, during early stages of the COVID-19 pandemic, health professionals and epidemiological modeling experts indicated that the spread of COVID-19, if left unchecked, threatened to overwhelm portions of Washington's public and private health-care system; and

**WHEREAS**, on March 19, 2020, I issued Proclamation 20-24 prohibiting all hospitals, ambulatory surgical facilities, dental, orthodontic and endodontic offices in Washington State from providing most non-urgent medical and dental procedures; and

**WHEREAS**, I subsequently issued Proclamations 20-24.1, 20-24.2 and 20-24.3 on May 18, 2020, November 25, 2020, and January 13, 2022, respectively, permitting the provision of non- urgent medical and dental procedures, subject to certain conditions; and

**WHEREAS**, although COVID-19 continues as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 27 months, including the willingness of most Washingtonians to take advantage of the remarkable, life- saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, while COVID-19 appears to be here to stay, recent advances in medicine, including the availability of COVID-19 boosters, vaccines for children 6 months and older, and antivirals are reasons to be hopeful that we will have the tools to protect ourselves and communities from severe disease and death to the greatest extent possible; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 and support the continuation of the state of emergency, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to rescind and/or modify amendatory proclamations related to specific health issues; and

**WHEREAS**, on July 18, 2022, hospital officials reported an ongoing concern with hospital capacity, citing the primary causes as a lack of staff, a growing number of difficult-to- discharge patients, and the need for legislation to amend guardianship rules for the transfer of certain patients out of hospitals; and

**WHEREAS**, the Department of Health has worked diligently to establish a glidepath for licensed health care facilities and professionals to come back into compliance with statutes and rules that were waived or suspended in Proclamation 20-24 et seq.; and

**WHEREAS**, the Washington National Guard and State Guard continue to support the Washington State COVID-19 pandemic response, and have personnel available to help alleviate some hospital staffing and capacity shortfalls; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the state Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim and order that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05, as amended, remains in effect, and that Proclamation 20-24, et seq., is terminated and rescinded effective at 12:01 A.M. on October 27, 2022.

I again direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. **WHEREAS**, the worldwide COVID-19 pandemic and its progression in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property or the public peace; and

**WHEREAS**, there is an increased risk of rapid spread of COVID-19 among persons who live and work in congregate settings, and many residents and workers at long-term care facilities are at increased risk for severe COVID-19; and

**WHEREAS**, to mitigate the increased risk of rapid spread of COVID-19 among residents and workers, congregate living facilities have increased physical distancing protocols, heightened screening upon entrance and exit, instituted more intensive cleaning protocols, and taken a variety of other measures; and

**WHEREAS**, long-term care workers are required to complete specific training, testing and certification requirements by dates certain, yet necessary class offerings, testing opportunities, and certification processing have been disrupted and cancelled because of the COVID-19 pandemic, exacerbating the long-term care worker shortage throughout Washington State; and

**WHEREAS**, to maintain availability of facilities, staffing, and resources in our congregate living system at levels necessary to safely provide essential services during the current COVID-19 pandemic, agencies and other entities operating congregate living facilities have utilized a variety of interim licenses, waiver of certain certification, inspection, administrative requirements, and other programs that are temporary in nature; and

**WHEREAS**, to prevent expiration of these temporary programs and the resulting loss of necessary facilities, staffing, and resources, I previously issued several Proclamations waiving and suspending specified statutes and rules relating to facilities, staffing, and resources at congregate living and care facilities and other related subjects, including Proclamation 20-52 et seq., which incorporated Proclamations 20-06, 20-10, 20-16, 20-17, and 20-18, et seq.; and

**WHEREAS**, because the waivers, suspensions and prohibitions contained in Proclamation 20-52, et seq., addresses a variety of topics some of which are also addressed by other proclamations, orders and guidance documents, I issued Proclamations 20-65, 20-66, and 20-74 dividing some of the waivers, suspensions and prohibitions into their topical areas and cross-reference applicable orders and guidance documents, to assist in the understanding, administration and implementation of those waivers, suspensions and prohibitions; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions, and prohibitions, contained in Proclamations 20-52 and 20-65, et seq., have been periodically extended by statute, and subsequently extended by legislative action; and

**WHEREAS**, although COVID-19 continues as an ongoing and present threat in Washington State, the measures we have taken

together as Washingtonians over the past 27 months, including the willingness of most Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, while COVID-19 appears to be here to stay, recent advances in medicine, including the availability of COVID-19 boosters, vaccines for children 6 months and older, and antivirals are reasons to be hopeful that we will have the tools to protect ourselves and communities from severe disease and death to the greatest extent possible; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 and support the continuation of the state of emergency, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to rescind and/or modify amendatory proclamations related to specific health issues; and

**WHEREAS**, the Department of Health and the Department of Social and Health Services have worked diligently to establish a glidepath for licensed health care facilities and professionals to come back into compliance with statutes and rules that were waived or suspended in Proclamations 20-65, et seq., and 20-52, et seq., and the Department of Health will strongly encourage boards and commissions with independent authority to impose continuing education requirements to adopt the same approach to promote consistency across all health professions; and

**WHEREAS**, the Washington State Department of Health continues to maintain a Public Health Incident Management Team in coordination with the State Emergency Operations Center and other supporting state agencies to manage the public health aspects of the incident; and

**WHEREAS**, the Washington State Military Department Emergency Management Division, through the State Emergency Operations Center, continues coordinating resources across state government to support the Department of Health and local health officials in alleviating the impacts to people, property, and infrastructure, and continues coordinating with the Department of Health in assessing the impacts and long-term effects of the incident on Washington State and its people; and

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation, and under Chapters 38.08, 38.52 and 43.06 RCW, do hereby proclaim that a State of Emergency continues to exist in all counties of Washington State, that Proclamation 20-05 and all amendments thereto remain in effect as otherwise amended, and that Proclamation 20-65, et seq., is terminated and rescinded effective 12:01 A.M. on October 27, 2022.

I again direct that the plans and procedures of the Washington State Comprehensive Emergency Management Plan be implemented throughout state government. State agencies and departments are directed to continue utilizing state resources and doing everything reasonably possible to support implementation of the Washington State Comprehensive Emergency Management Plan and to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 pandemic.

I continue to order into active state service the organized militia of Washington State to include the National Guard and the State Guard, or such part thereof as may be necessary in the opinion of The Adjutant General to address the circumstances described above, to perform such duties as directed by competent authority of the Washington State Military Department in addressing the outbreak.

Additionally, I continue to direct the Department of Health, the Washington State Military Department Emergency Management Division, and other agencies to identify and provide appropriate personnel for conducting necessary and ongoing incident related assessments.

Violators of this order may be subject to criminal penalties pursuant to RCW 43.06.220(5).

**Long-Term Care – Operations and Visitation**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; and

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, has broadly spread throughout Washington State and remains a significant health risk to all of our people, especially members of our most vulnerable populations; and

**WHEREAS**, the worldwide COVID-19 pandemic and its progression in Washington State continue to threaten the life and health of our people as well as the economy of Washington State, and remain a public disaster affecting life, health, property or the public peace; and

**WHEREAS**, the risk of severe illness and death from COVID-19 appears to be higher in those members of our population who are 60 years of age and older and those with chronic health conditions; and

**WHEREAS**, there is an increased risk of rapid spread of COVID-19 among persons who live and work in congregate settings, and many residents of long-term care facilities are at increased risk for severe COVID-19; and

**WHEREAS**, facility residents, staff, vendors, and visitors can introduce COVID-19 into the facility and start an outbreak or spread an existing outbreak into a new population; and

**WHEREAS**, congregate settings have experienced both the earliest and some of the most severe outbreaks of COVID-19 in Washington State; and

**WHEREAS**, I previously issued Proclamations 20-06, 20-10, 20-16, 20-17, and 20-18, all of which were incorporated into one Proclamation, Proclamation 20-52 et seq., waiving and suspending specified statutes and rules and prohibiting specified activities related to congregate living and care facilities and other subjects; and

**WHEREAS**, because the waivers, suspensions and prohibitions contained in Proclamation 20-52, et seq., addresses a variety of topics some of which are also addressed by other proclamations, orders and guidance documents, I issued Proclamations 20-65, 20-66, and 20-74 dividing some of the waivers, suspensions and prohibitions into their topical areas and cross reference applicable orders and guidance documents to assist in the understanding, administration and implementation of those waivers, suspensions and prohibitions; and

**WHEREAS**, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions in Proclamation 20-66, et seq., including all of the prior proclamations' statutory waivers and suspensions, and prohibitions, contained therein, have been amended and extended pursuant to statute, and further extended by legislative action; and

**PROCLAMATION BY THE GOVERNOR**

**20-05.1**

**Terminating the COVID-19 State of Emergency**

**WHEREAS**, On January 21, 2020, the Washington State Department of Health confirmed the first case of the novel coronavirus (COVID-19) in the United States in Snohomish County, Washington, and local health departments and the Washington State Department of Health worked to identify, contact, and test others in Washington State potentially exposed to COVID-19 in coordination with the United States Centers for Disease Control and Prevention (CDC); and

**WHEREAS**, COVID-19, a respiratory disease that can result in serious illness or death, is caused by the SARS-CoV-2 virus, which is a new strain of coronavirus that had not been previously identified in humans and can easily spread from person to person; and

**WHEREAS**, On January 31, 2020, the United States Department of Health and Human Services Secretary Alex Azar declared a public health emergency for COVID-19, beginning on January 27, 2020; and

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the COVID-19 outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified statutory and regulatory obligations and limitations; and

**WHEREAS**, while COVID-19 appears to be here to stay, recent advances in medicine, including the availability of bivalent COVID-19 boosters for people 5 years and older and vaccines for children 6 months and older, as well as treatments like antivirals, are reasons to be hopeful that we will have the tools to protect ourselves and communities from severe disease and death to the greatest extent possible; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 in the state, including continued hospitalizations and deaths due to COVID-19, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to end the state of emergency; and

**WHEREAS**, the Secretary of Health’s face covering order, issued under public health authorities provided by RCW 43.70.130, RCW 70.05.070, and WAC 246-100-036, will remain in effect until public health authorities determine it is no longer necessary

for control of transmission of SARS- CoV-2; and

**WHEREAS**, the Washington State Department of Health will continue to monitor COVID-19 disease activity in the state and carry out public health activities that help prevent severe disease and death from COVID-19.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above- noted situation, and under Chapter 43.06 RCW, do hereby proclaim that, although the threat of COVID-19 remains in all counties in the state of Washington, a State of Emergency Proclamation is no longer necessary to continue to respond to this disease.

As a result, I hereby declare the termination of the state of emergency proclaimed in Proclamation 20-05 and rescind and terminate Proclamation 20-05, and I also hereby rescind all COVID-19 emergency proclamations issued pursuant to Proclamation 20-05, effective October 31, 2022, at 11:59 PM.

**WHEREAS**, the COVID-19 disease, caused by a virus that spreads easily from person to person which may result in serious illness or death and has been classified by the World Health Organization as a worldwide pandemic, continues to broadly spread throughout Washington State, significantly increasing the threat of serious associated health risks statewide and is causing a sustained economic slowdown throughout Washington State with layoffs and reduced work hours for a significant percentage of our workforce due to the closure of nonessential businesses; and

**WHEREAS**, Washington State government agencies and employees provide services essential to address the COVID-19 pandemic, and to ensure that state employees will be timely paid and available, I issued Proclamation 20-43 waiving and suspending statutes related to payment of wages, employees’ ability to share leave with persons affected by the COVID-19 pandemic, and limits on leave accrual; and

**WHEREAS**, on January 15, 2021, under the provisions of RCW 43.06.220(4), the statutory waivers and suspensions of Proclamation 20-43, et seq., were extended by Senate Concurrent Resolution 8402 until the termination of the state of emergency pursuant to RCW 43.06.210, or until rescinded, whichever occurs first; and

**WHEREAS**, although COVID-19 continues as an ongoing and present threat in Washington State, the measures we have taken together as Washingtonians over the past 31 months, including the willingness of most Washingtonians to take advantage of the remarkable, life-saving vaccines being administered throughout the state, have made a difference and have altered the course of the pandemic in fundamental ways; and

**WHEREAS**, while COVID-19 appears to be here to stay, recent advances in medicine, including the availability of bivalent COVID-19 boosters for people 5 years and older and vaccines for children 6 months and older, as well as treatments like antivirals, are reasons to be hopeful that we will have the tools to protect ourselves and communities from severe disease and death to the greatest extent possible; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 in the state, including continued hospitalizations and deaths due to COVID-19, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to end the state of emergency.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above-noted situation and pursuant to Emergency Proclamation 20-05.1, and under Chapter 43.06 RCW, do hereby rescind and terminate Proclamation 20-43 et seq., effective October 31, 2022, at 11:59 PM.

Signed and sealed with the official seal of the state of Washington on this 28th day of January, A.D., Two Thousand and Twenty-Two at Olympia, Washington.

**Termination of Emergency Proclamation**

**WHEREAS**, on February 29, 2020, I issued Proclamation 20-05, proclaiming a State of Emergency for all counties throughout the state of Washington as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State; and

**WHEREAS**, as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations, I have subsequently issued several amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting certain activities and waiving and suspending specified laws and regulations; and

**WHEREAS**, an effective response to the COVID-19 epidemic requires public health professionals and others working with them to interview those infected with COVID-19 and trace their close contacts in order to provide guidance to, quarantine, and test those individuals for infection to prevent further spread of the COVID-19 disease, and this must be done by collecting the names and personal information of these individuals; and

**WHEREAS**, while there are arguments that support the position that COVID-19 case investigation and contact tracing information, and the personally identifiable information that is gathered as a part of that work, is already exempt under the Public Records Act, I issued this emergency proclamation because ensuring the protection of a person's personally identifiable information may determine whether that person will fully cooperate with COVID-19 case investigators and contact tracers; and

**EMERGENCY PROCLAMATION OF THE GOVERNOR  
AMENDING PROCLAMATION 21.05**

**21-05.2  
Children and Youth Mental Health Crisis**

**Termination of Emergency Proclamation**

**WHEREAS**, on February 29, 2020, I proclaimed a State of Emergency for all counties throughout Washington State as a result of the coronavirus disease 2019 (COVID-19) outbreak in the United States and confirmed person-to-person spread of COVID-19 in Washington State as a result of the continued worldwide spread of COVID-19, its significant progression in Washington State, and the high risk it poses to our most vulnerable populations; and

**WHEREAS**, I issued many amendatory proclamations, exercising my emergency powers under RCW 43.06.220 by prohibiting

certain activities and waiving and suspending specified laws and regulations, including prohibiting most schools from conducting in-person educational, recreational, and other K-12 school programs using school facilities, as well as certain student educational and outreach services; and

**WHEREAS**, hospitals and health professionals who specialize in the treatment of children indicated that many of Washington’s children and youth experienced a significant mental and behavioral health crisis as a result of the ongoing pandemic, which was exacerbated by continued isolation, difficulty engaging with virtual learning, and lack of regular in-person interaction with educators, school personnel, mentors and peers; and

**WHEREAS**, on March 15, 2021, I issued Proclamation 21-05, requiring all K-12 schools to provide at least some weekly on-campus, in-person instruction to all K-12 students no later than April 19, 2021, consistent with Department of Health guidance and the Department of Labor and Industries’ requirements for employee safety; and

**WHEREAS**, increasing the option to return to school facilities for all K-12 students has helped to prevent or curtail mental and behavioral health issues for many students by reducing isolation and improving in-person access to educators, school personnel, mentors and peers, but it is not a panacea for the long-standing need for accessible mental and behavioral health services and supports for our children and youth that pre-dated, and was exacerbated by, the COVID-19 pandemic; and

**WHEREAS**, all K-12 schools have been open for fulltime, on-campus and in-person instruction since the spring of 2021; and

**WHEREAS**, while COVID-19 appears to be here to stay, recent advances in medicine, including the availability of bivalent COVID-19 boosters for people 5 years and older and vaccines for children 6 months and older, as well as treatments like antivirals, are reasons to be hopeful that we will have the tools to protect ourselves and communities from severe disease and death to the greatest extent possible; and

**WHEREAS**, although Department of Health statistics reflect the continued persistence of COVID-19 in the state, including continued hospitalizations and deaths due to COVID-19, health experts and epidemiological modeling experts believe that as a state we have made adequate progress against COVID-19 to end the state of emergency; and

**WHEREAS**, the general purpose of Proclamation 21-05 was to begin to address the acute impacts of school closures necessitated by the threat of COVID-19 by re-opening K-12 schools to regular on- campus, in-person instruction, and also to cause the Health Care Authority (HCA) and the Department of Health to develop a set of recommendations on how to support the behavioral health needs of our children and youth in the near term; and

**WHEREAS**, significant efforts are currently ongoing to, among other things, develop resources to support the integration of social emotional learning practices into schools and classrooms in order to promote social, emotional, and academic development; and to expand multi-tiered systems of support to increase delivery of behavioral health supports to students who most need them; and

**WHEREAS**, although the goals of Proclamation 21-05 have been met and meaningful actions have been taken to address the acute impacts of school closures, relevant experts, policy makers, state leaders and existing work groups, including but not limited to the Office of Superintendent of Public Instruction and HCA’s Children and Youth Behavioral Health Work Group, must continue to address the pre-existing and ongoing mental and behavioral health needs of our students over the long-term, informed by our COVID-19 experience that brought into greater light the importance of personal connections and a sense of community.

**NOW, THEREFORE**, I, Jay Inslee, Governor of the state of Washington, as a result of the above- noted situation, and under Chapter 43.06 RCW, do hereby proclaim that, although the threat of COVID-19 remains in all counties in the state of Washington and there remains a long-term need to address the pre-existing and ongoing mental and behavioral health needs of our students, an emergency proclamation is no longer necessary to address the acute impacts of K-12 school closures.

As a result, I hereby declare the termination of the state of emergency proclaimed in Proclamation 21- 05 et seq., effective October 31, 2022, at 11:59 PM.

Signed and sealed with the official seal of the state of Washington on this 28th day of October, A.D., Two Thousand and Twenty-Two at Olympia, Washington.
