Authorizes the state finance committee to issue general obligation bonds of the state of Washington in the sum of one billion two hundred twenty-eight million dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this act may be sold at such price as the state finance committee shall determine. No bonds authorized in this act may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

Provides that the proceeds from the sale of the bonds authorized in this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as indicated.

SB 6093-S by Senate Committee on Ways & Means (originally sponsored by Senators Fraser and Hewitt; by request of Office of Financial Management)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that, for the purpose of providing funds to finance the projects described and authorized by the legislature in the capital and operating appropriation acts for the 2003-2005 and 2005-2007 fiscal bienniums, and all costs incidental thereto, the state finance committee is authorized to issue general obligation bonds of the state of Washington in the sum of one billion two hundred seventeen million dollars, or as much thereof as may be required, to finance these projects and all costs incidental thereto. Bonds authorized in this act may be sold at such price as the state finance committee shall determine. No bonds authorized in this act may be offered for sale without prior legislative appropriation of the net proceeds of the sale of the bonds.

Provides that the proceeds from the sale of the bonds authorized in this act shall be deposited in the state building construction account created by RCW 43.83.020. The proceeds shall be transferred as indicated.

VETO MESSAGE ON SB 6094-S

May 16, 2005

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 143(2)(b); 143(2)(c); 160; 163; 219, lines 25-31; 425, lines 7-10; 426(1); 427(1); 438; 615(4); 643, lines 4-7; 714, lines 4-5; 909(5)(o); 909(7); 923; 931; and 932 of Engrossed Senate Bill No. 6094 entitled:

My reasons for vetoing these sections are as follows:

Section 143(2)(b) and (c), page 26, Department of General Administration

Section 143(2)(b) and (c) state that the construction contract award for the Cherberg Building rehabilitation shall be made to the general contractor offering written and oral materials demonstrating the greatest value for attainment of the program objectives considering a number of evaluation criteria including cost, and that the project oversight is delegated to the Senate. These sections amend permanent statutes without reference by not clearly stating the intent to use alternative public works (RCW 39.10) and removing the custody and control of the building from the Department of General Administration as required by RCW 43.19.125. I am vetoing these sections, but I also direct the Department of General Administration to work with the Senate to ensure the project complies with RCW 39.10, that oversight complies with RCW 43.19.125, that the project remains observant of the historical and monumental nature of the building, and that the Senate is fully involved in decisions regarding the design, management and construction during the rehabilitation.

Section 160, page 34, Department of General Administration

This section directs that the state capitol committee consult with a legislative buildings committee in its work on the state capitol campus master plan. I am vetoing this section because it amends permanent statute without reference (RCW 43.34.010) by introducing additional participants and process steps that the state

capitol committee must undertake before it can adopt the master plan.

Section 163, page 35, Department of General Administration

This section duplicates funding provided in the operating budget for Capitol Lake environmental preservation and planning. Operating funds are better suited to these activities so I am vetoing this section.

Section 219, page 45, lines 25-31, Department of Social and Health Services

The funds provided in this section are needed to make critical health and life safety improvements such as fire sprinklers in residences at the Fircrest School campus for the developmentally disabled. I am vetoing the conditions and limitations placed on this appropriation that require the Department of Social and Health Services to resolve issues with the food bank tenant at the campus so that these funds are available to make needed safety repairs. However, I direct DSHS to work with the tenant to examine the tenant's concerns.

Section 425, page 115, lines 7-10, Department of Fish and Wildlife

This section provides funding for the improvement of assorted departmental facilities, infrastructure, lands and access sites statewide. The proviso within the section stipulates that none of the funding may be used to construct a new public boat launch access on Lake Tahuyeh in Kitsap County. I am vetoing this section because, as the legal landowner, the department is prevented from lawful development of state-owned resources, which will further limit the expansion of public recreational fishing opportunities. However, I appreciate that Lake Tahuyeh residents may have concerns about the impact of the new facility and ask the department to work with local landowners as they develop and maintain the public access to the lake.

Section 426(1), page 115, Department of Fish and Wildlife

This subsection duplicates language that is identical to the subsequent proviso (2) in the same section.

Section 427(1), page 116, Department of Fish and Wildlife

This subsection duplicates language that is identical to the subsequent proviso (2) in the same section.

Section 438, Page 120, Department of Natural Resources

This section requires the Department of Natural Resources to conduct a study of deep-water geoduck and sea cucumber populations in Hood Canal, utilizing \$650,000 of funding from the Resource Management Cost Account (RMCA). This account receives revenue from two major activities - leases and sale of valuable materials from state-owned aquatic lands and leases and timber sales from state trust lands. I am vetoing this section because the projected fund balance of the aquatics portion of RMCA is insufficient to cover the cost of this study.

Section 615(4), page 137, Higher Education Coordinating Board

Section 615(4) requires the advisory committee on higher education created in E2SB 5441 (Comprehensive Education Study) to serve as a steering committee to direct the Board in the conduct of a higher education needs assessment and siting study for Snohomish, Skagit, and Island counties. Under current statute, the Board has authority to conduct these assessments. I am directing the Board to consult with the advisory committee created in E2SB 5441 so that the advisory committee may consider the Board's findings and recommendations as it considers the higher education needs of the entire state.

Section 643, page 147, lines 4-7, Washington State University

This proviso establishes a contingency for the allotment of a reappropriation. This violates provisions of RCW 43.88.110(7) that provides for the continuation of project expenditures into the succeeding biennium when an allotment was approved in the previous biennium. This proviso conditions the allotment and thus is in conflict with the statute.

Section 714, page 172, lines 4-5, Western Washington University

These lines indicate potential large future costs for this project. I am vetoing these two lines to allow for additional discussion about the project's scope.

Section 909(5)(o), page 226, Community and Technical College System

Section 909(5)(o) gives Cascadia Community College the authority to use alternative financing for partial funding of the State Route 522 Access project. I am vetoing this capital project because it is funded in the transportation budget.

Section 909(7), page 227, University of Washington

Section 909(7) gives the University of Washington authority to use alternative financing for partial funding of the State Route 522 Access project. I am vetoing this capital project because it is funded in the transportation budget.

Section 923, page 233, Department of General Administration

Section 923 requires the Department of General Administration to obtain legislative approval before selling the Tacoma Rhodes facility. I am vetoing this proviso because decisions regarding Tacoma Rhodes are within the authority and responsibilities of the Department of General Administration as an executive agency responsible for housing state government and acquiring and disposing of property. This existing authority includes managing and making appropriate decisions on the future of facilities, based on sound business principles.

The proviso also requires the Department of General Administration to submit a business plan to the Legislature concerning whether the facility is surplus to the state's needs and whether other state agency tenants might be housed in the building. General Administration already planned to take these steps as part of its ongoing business analysis of the facility and will share the results of the analysis with the Legislature as those efforts unfold.

Section 931, page 240, Office of Financial Management

This section requires the Office of Financial Management to work with the Department of Social and Health Services and legislative fiscal committee staff to determine at what point closure or consolidation of juvenile rehabilitation facilities will be necessary. I am vetoing this proviso because no funding was provided to the Office of Financial Management to prepare and submit this study.

Section 932, pages 240-241, Department of Corrections

Section 932 requires the Department of Corrections to report to the Office of Financial Management and the fiscal committees of the Legislature on the feasibility and cost of closing the McNeil Island Corrections Center. I am vetoing this proviso because no funding was provided to the Department to prepare and submit this study.

With the exception of sections 143(2)(b); 143(2)(c); 160; 163; 219, lines 25-31; 425, lines 7-10; 426(1); 427(1); 438; 615(4); 643, lines 4-7; 714, lines 4-5 (page 172); 909(5)(o); 909(7); 923; 931; and 932 as specified above, Engrossed Senate Bill No. 6094 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

Companion Bill: 2304

Recovering debts owed to the state for medical assistance.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, when an individual receives public assistance as defined in RCW 74.04.005 and the individual is the holder of record title to real property or the purchaser under a land sale contract, the department of social and health services may present to the county clerk for recording in the deed and mortgage records of a county a request for notice of transfer or encumbrance of the real property.

Requires a title insurance company or agent that discovers the presence of a request for notice of transfer or encumbrance under this act in the deed and mortgage records when performing a title search on real property to: (1) Provide the department of social and health services with a notice of transfer or encumbrance of the real property within thirty days of a transfer or encumbrance that results in the issuance of a certificate of title insurance; and

(2) Disclose the presence of the request for notice of transfer or encumbrance in any report preliminary to, or any commitment to offer, a certificate of title insurance for the real property.

Declares that, consistent with 42 U.S.C. Sec. 1396(p), in the case of an individual who is an inpatient in a nursing facility, intermediate care facility for individuals with mental retardation, or other medical institution, with respect to whom the department

has determined after notice and opportunity for a hearing that the individual cannot reasonably be expected to be discharged from the medical institution and to return home, the department shall file liens and seek adjustment and recovery from the individual's estate or upon sale of the property subject to a lien imposed on account of medical assistance paid on behalf of the individual.

SB 6095-S by Senate Committee on Ways & Means (originally sponsored by Senator Prentice; by request of Office of Financial Management)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, when an individual receives medical assistance subject to recovery under chapter 43.20B RCW and the individual is the holder of record title to real property or the purchaser under a land sale contract, the department of social and health services may present to the county auditor for recording in the deed and mortgage records of a county a request for notice of transfer or encumbrance of the real property. The department shall adopt a rule providing prior notice and hearing rights to the record title holder or purchaser under a land sale contract.

Provides that the department shall present to the county auditor for recording a termination of request for notice of transfer or encumbrance when, in the judgment of the department, it is no longer necessary or appropriate for the department to monitor transfers or encumbrances related to the real property.

Provides that, if the department of social and health services has filed a request for notice of transfer or encumbrance under this act: (1) A title insurance company or agent that discovers the presence of a request for notice of transfer or encumbrance when performing a title search on real property shall disclose the presence of the request for notice of transfer or encumbrance in any report preliminary to, or any commitment to offer, a certificate of title insurance for the real property; and

(2) Any individual who transfers or encumbers real property shall provide the department of social and health services with a notice of transfer or encumbrance. The department of social and health services shall adopt by rule a model form for notice of transfer or encumbrance to be used by a purchaser or lender when notifying the department.

Provides that there will be no collection of debts due the department after the expiration of twenty years from the date a lien is recorded pursuant to RCW 43.20B.080.

Authorizes the department to enforce a lien authorized under this act against a decedent's life estate or joint tenancy interest in real property held by the decedent immediately prior to his or her death. Such a lien enforced under this act shall not end and shall continue as provided in this subsection until the department's lien has been satisfied.

Generating revenues to fund Initiative No. 728. (REVISED FOR ENGROSSED: Generating revenue to fund education.)

(DIGEST AS ENACTED)

Recognizes that on February 3, 2005, the Washington state supreme court decided in *Estate of Hemphill v. Dep't of Rev.*,

Docket No. 74974-4, that Washington's estate tax is tied to the current federal Internal Revenue Code.

Finds that the revenue loss resulting from the *Hemphill* decision will severely affect the legislature's ability to fund programs vital to the peace, health, safety, and support of the citizens of this state.

Declares an intent to address the adverse fiscal impact of the *Hemphill* decision and provide funding for education by creating a stand-alone state estate tax.

Repeals RCW 83.100.030 and 83.100.045.

SB 6098 by Senator Fraser

Regarding educational interpreters and services for the deaf and hard of hearing.

Finds that there is currently no requirement that educational interpreters for deaf and hard of hearing students be certified or meet standardized qualifications or competencies. The purpose of this act is to establish standards for certification and to standardize qualifications.

Appropriates the sum of forty-nine thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2006, from the general fund to the office of the superintendent of public instruction to participate in the assessment system for K-12 educational interpreters. Participation is for purposes of administration of the educational interpreter written and performance assessments.

Modifying water right fees.

Finds that the fees associated with various actions of the department of ecology relating to the processing and administration of water rights are outdated and are insufficient even to recover the cost of handling the funds submitted. Additionally, water right processing fees are currently collected at three different stages of the water rights process, whereas reducing the number of instances of fee collection to two stages of the process would increase efficiency and reduce administrative costs. Furthermore, several current statutory fees are archaic or are otherwise covered by other general statutes, including the public disclosure act.

Declares an intent to update and modernize the fee schedule associated with water right-related actions of the department of ecology.

SB 6135 by Senators Jacobsen and Thibaudeau
 Regulating off-campus student housing.

Directs the governing board of each state four-year institution of higher education to develop and implement an off-campus housing quality assessment program. At a minimum this program must include the following elements: (1) Evaluation of the institution of higher education's responsibility and accountability for the impacts of off-campus housing on the communities in which that housing is located;

(2) Identification of assets and funding necessary to offset any detrimental impacts to the residential community caused by the institution of higher education's off-campus housing;

(3) A process for reviewing the safety and habitability of off-campus housing;

(4) Inventory and analysis of existing and projected off-campus housing needs that identifies the number of housing units necessary to manage projected student population growth;

(5) A review of available land and housing affordability for current and projected off-campus housing needs; and

(6) Analysis of the infrastructure necessary to maintain current and projected off-campus housing needs.

Requires the governing board of each state four-year institution of higher education to hold a public hearing at least biannually to discuss the institution's development and implementation of the off-campus housing quality assessment program. The president, of the institution of higher education holding the hearing, is required to attend.

Requires the governing board of each state four-year institution of higher education to establish procedures providing for early and continuous public participation in the development and amendment of the off-campus housing quality assessment program.

Requires the off-campus housing quality assessment program to be submitted by the governing board of each state four-year institution of higher education to the department in accordance with the scheduled update, provided in RCW 36.70A.130.

SB 6151 by Senators Schoesler, Poulsen, Mulliken, Rasmussen, Jacobsen, Morton, and Delvin

Companion Bill: 3101

Protecting aquifer levels.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the department of ecology adopted ground water management subarea rules to manage aquifer depletions in the Odessa subarea, which includes undeveloped portions of the federal Columbia basin project.

Finds that deep well agricultural irrigation was permitted within the Odessa subarea under the expectation that federal Columbia basin project water would be delivered to replace the temporary ground water withdrawals in time to stabilize aquifer levels.

Finds that because federal project water has not been delivered as anticipated, aquifer levels have continued to decline despite department of ecology and community efforts to manage ground water withdrawals in a sustainable manner.

Finds that, because substantial project expansion and aquifer recharge is a long-term effort, the continued availability of ground water for domestic, municipal, industrial, and agricultural uses in the region is in great jeopardy.

Declares that immediate relief is needed to encourage more efficient use of water and to protect the region's citizens from economic hardships and public health and safety risks that can result from declining aquifer levels.

SB 6151-S by Senate Committee on Water, Energy & Environment (originally sponsored by Senators Schoesler, Poulsen, Mulliken, Rasmussen, Jacobsen, Morton, and Delvin)

(DIGEST AS ENACTED)

Finds that the department of ecology adopted ground water management subarea rules to manage aquifer depletions in the Odessa subarea, which includes undeveloped portions of the federal Columbia basin project.

Declares that immediate relief is needed to encourage more efficient use of water and to protect the region's citizens from economic hardships and public health and safety risks that can result from declining aquifer levels.

Requires the department to submit a report to the legislature as to the status of the aquifer, participation in the nonuse program set forth in this act, and the outcome of the United States bureau of reclamation's study on feasible alternatives to Odessa groundwater use. This report must be submitted six months after completion of the United States bureau of reclamation's study, which is expected to be completed in February 2011. The department's report must also suggest viable solutions and the actions needed by the state to move forward with such solutions.

SB 6153 by Senators Roach, Pflug, Carrell, Benson, Delvin, Schoesler, Schmidt, McCaslin, Oke, Mulliken, Sheldon, Parlette, Benton, and Esser

Increasing the penalty for sex offenses committed against children.

Finds that children are particularly vulnerable to the crimes committed by sex offenders and that more must be done to stop sex offenders who prey upon children.

Declares an intent to further protect children from sex offenders by increasing the penalty for offenders convicted of rape of a child in the first degree and child molestation in the first degree to a minimum term of imprisonment of not less than twenty-five years.

Declares an intent to require the use of electronic monitoring to supervise the most dangerous sex offenders, if an offender is released back into the community.

SB 6156 by Senator Fairley

Requiring inspections of remodels to single-family residences.

(SEE ALSO PROPOSED 1ST SUB)

Finds that among the laudable purposes and objectives for adopting a state building code is the promotion of the health, safety, and welfare of homeowners who remodel or add to their homes.

Finds that such purposes are not met unless the state building code is effectively enforced through a comprehensive inspection program, which emphasizes inspections of remodels and additions to owner-occupied, single-family homes.

Declares that a county or city violates RCW 19.27.050 when the jurisdiction either: (1) Fails to inform a homeowner remodeling or adding to the homeowner's residence that a final inspection is required; or

(2) Fails to ensure that a final inspection is made of the remodel of or addition to an owner-occupied, single-family residence.

SB 6156-S by Senate Committee on Financial Institutions, Housing & Consumer Protection (originally sponsored by Senator Fairley)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that among the laudable purposes and objectives for adopting a state building code is the promotion of the health, safety, and welfare of homeowners who remodel or add to their homes.

Finds that such purposes are not met unless the state building code is effectively enforced through a comprehensive inspection program, which emphasizes inspections of remodels and additions to owner-occupied, single-family homes.

Declares that a county or city violates RCW 19.27.050 when the jurisdiction fails to provide: (1) An owner of record, who is remodeling or adding to an owner-occupied, single-family residence, a copy of the inspection schedule from the local permit issuing authority by regular mail; and

(2) A copy of the inspection schedule from the local permit issuing authority to the owner of record at the site of the first inspection required by the local permit issuing authority. The requirements of this provision only apply to remodels or additions to owner-occupied, single-family residences.

Companion Bill: 2801

Authorizing removal of discriminatory provisions in the governing documents of homeowners' associations.

(DIGEST AS ENACTED)

Finds that some homeowners' associations have governing documents that contain discriminatory covenants, conditions, or restrictions that are void and unenforceable under both the Federal Fair Housing Amendments Act of 1988 and RCW 49.60.224. The continued existence of these discriminatory covenants, conditions, or restrictions is contrary to public policy and repugnant to many property owners.

Declares an intent to allow homeowners' associations to remove all remnants of discrimination from their governing documents.

SB 6171 by Senators McAuliffe, Schmidt, Rasmussen, and Kohl-Welles

Creating a demonstration project to help prepare bilingual and special education teachers.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that there is a considerable shortage of qualified, certificated teachers in the areas of bilingual education and special education.

Finds it will require concerted efforts to counter these deficits and to meet the growing demand for such teachers.

Declares an intent to address this by using the proven successful strategy of recruiting classified public school employees who have the explicit interest, commitment, and life experience to teach in these areas.

Creates a demonstration project to assist classified public K-12 school employees to earn a teaching certificate with an endorsement for bilingual education or special education. The project shall provide conditional scholarships through either the future teachers conditional scholarship program and loan repayment program in accordance with chapter 28B.102 RCW or one of the alternative routes to teacher certification in accordance with chapter 28A.660 RCW.

Directs the higher education coordinating board to provide the legislature and governor with findings about the impact of this demonstration project on persons entering the teaching profession in the shortage areas of bilingual education and special education by no later than January 2008.

Appropriates the sum of one million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the higher education coordinating board for the purposes of this act.

Companion Bill: 2392

Modifying the family and medical leave act.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that an employee is entitled to a total of twelve workweeks of leave during any twelve-month period for one or more of the following: (1) Because of the birth of a child of the employee and in order to care for the child;

(2) Because of the placement of a child with the employee for adoption or foster care;

(3) In order to care for a family member of the employee, if the family member has a serious health condition; or

(4) Because of a serious health condition that makes the employee unable to perform the functions of the position of the employee.

Provides that the entitlement to leave for the birth or placement of a child expires at the end of the twelve-month period beginning on the date of such birth or placement.

Declares that any employee who takes leave under this act for the intended purpose of the leave is entitled, on return from the leave: (1) To be restored by the employer to the position of employment held by the employee when the leave commenced; or

(2) To be restored to an equivalent position with equivalent employment benefits, pay, and other terms and conditions of employment at a workplace within twenty miles of the employee's workplace when leave commenced.

Declares that it is unlawful for any employer to: (1) Interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right provided under this act; or

(2) Discharge or in any other manner discriminate against any individual for opposing any practice made unlawful by this act.

Provides that an employer who is found, in accordance with this act, to have violated a requirement of chapter 49.78 RCW and the rules adopted under this chapter, is subject to a civil penalty of not less than one thousand dollars for each violation. Civil penalties must be collected by the department and deposited into the family and medical leave enforcement account.

SB 6189 by Senator Keiser

Regulating hospitals and ambulatory surgical centers.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, no later than forty-five days after the end of each calendar quarter, a hospital shall report to the department, for each procedure or drug selected under this act, and an ambulatory surgical center shall report to the department, for each procedure identified under this act, the following: (1) The frequency with which the hospital performed the procedure, or administered the drug in an inpatient setting, or the ambulatory surgical center performed the procedure during the quarter; and

(2) If the procedure was performed or the drug was administered during the quarter, the average and the median of the price charged by the hospital or ambulatory surgical center for the procedure or drug during the quarter.

Requires that, based on statewide data, the department shall identify, and update no less than annually: (1) The twenty-five most frequently performed hospital inpatient procedures;

(2) The twenty-five most frequently performed hospital outpatient procedures; and

(3) The fifty most frequently administered drugs in a hospital inpatient setting.

Authorizes the department to impose a civil penalty of not more than one thousand dollars for each knowing violation of this act.

Requires a hospital to provide to each patient within fourteen days following his or her discharge a written statement: (1) Clearly and concisely summarizing all the services provided to the patient while admitted to the hospital;

(2) Listing any payment due from the patient for these services; and

(3) Indicating for each service where payment is due the name of the facility or individual provider from whom the patient will receive a bill.

Takes effect January 1, 2007.

SB 6189-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senator Keiser)

Requiring hospitals to provide patients certain billing information.

(DIGEST AS ENACTED)

Finds that the implementation of health information technologies in hospitals, including electronic medical records, has the potential to significantly reduce cost, improve patient outcomes, and simplify the administration of health care.

Finds that the number of and complexity of the bills that result from a hospital stay can be confusing to patients. Therefore, it is the intent of the legislature to encourage hospitals to design the implementation of health information technologies so as to allow the hospital to provide the patient, prior to or upon discharge, clearly understandable information about the services provided during the hospital stay, and the bills the patient is likely to receive related to each of those services.

Requires that, prior to or upon discharge, a hospital must furnish each patient receiving inpatient services a written statement providing a list of physician groups and other professional partners that commonly provide care for patients at the hospital and from whom the patient may receive a bill, along with contact phone numbers for those groups. The statement must prominently display a phone number that a patient can call for

assistance if the patient has any questions about any of the bills they receive after discharge that relate to their hospital stay.

Does not apply to any hospital owned or operated by a health maintenance organization under chapter 48.46 RCW when providing prepaid health care services to enrollees of the health maintenance organization or any of its wholly owned subsidiary carriers.

SB 6190 by Senators Keiser and Kline

Establishing a COPEs pilot project.

(SEE ALSO PROPOSED 1ST SUB)

Establishes a twelve month, one county, community options program entry system pilot project. The purpose of the pilot project is to assist independent providers with the collection of community options program entry system client participation money.

Directs the department of social and health services to report on the results of the pilot project to the appropriate committees of the legislature. The report must be in two phases. The first report must be made by December 1, 2006, and the final report must be made by June 1, 2007. The final report must include recommendations for funding a future program including a revenue neutral option, an analysis as to why participation is not being paid and any available solutions, and a comparison of collected amounts under the pilot project to collected amounts without the pilot project to determine whether the pilot project is cost-effective.

Companion Bill: 3050

Requiring multicultural education for health professionals.

(DIGEST AS ENACTED)

Finds that it shall be a priority for the state to develop the knowledge, attitudes, and practice skills of health professionals and those working with diverse populations to achieve a greater understanding of the relationship between culture and health and gender and health.

Provides that, by July 1, 2008, each education program with a curriculum to train health professionals for employment in a profession credentialed by a disciplining authority under chapter 18.130 RCW shall integrate into the curriculum instruction in multicultural health as part of its basic education preparation curriculum. The department may not deny the application of any applicant for a credential to practice a health profession on the basis that the education or training program that the applicant successfully completed did not include integrated multicultural health curriculum as part of its basic instruction.

SB 6195 by Senators Franklin, Regala, Keiser, Eide, Prentice, Jacobsen, McAuliffe, Fraser, Kline, and Shin

Companion Bill: 3097

Requiring health impact assessments.

(SUBSTITUTED FOR - SEE 2ND SUB)

Directs the state board, in collaboration with the governor's interagency council on health disparities, to complete health impact assessments, in collaboration with the council, and with assistance that shall be provided by any state agency of which the board makes a request. The state board may limit the number of health impact assessments it produces to retain quality while operating within its available resources.

Appropriates the sum of three hundred thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the department of health for allotment to the state board of health for its use in implementing this act.

SB 6195-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Franklin, Regala, Keiser, Eide, Prentice, Jacobsen, McAuliffe, Fraser, Kline, and Shin)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that people of color experience significant disparities from the general population in education, employment, healthy living conditions, access to health care, and other social determinants of health. The legislature intends that state government policy leaders, program managers, and staff increase their awareness of actions they take or that they contemplate taking that contribute to health disparities.

Declares that it shall be the policy of the state of Washington to address health disparities in communities of color by creating an action plan and statewide policy to include health impact assessments that measure and address other social determinants of health that lead to disparities as well as the contributing factors of health that can have broad impacts on improving status, health literacy, physical activity, and nutrition.

Requires the state board, in collaboration with the council, to complete health impact assessments, in collaboration with the council, and with assistance that shall be provided by any state agency of which the board makes a request. The state board may limit the number of health impact assessments it produces to retain quality while operating within its available resources.

Appropriates the sum of one hundred nineteen thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the department of health for allotment to the state board of health for its use in implementing this act.

Creating the governor's interagency council on health disparities.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares an intent to create the healthiest state in the nation by striving to eliminate health disparities in women and people of color. In meeting the intent of this act, the legislature creates the governor's interagency council on health disparities.

Directs the council to promote and facilitate communication, coordination, and collaboration among relevant state agencies and communities of color to address health disparities. The council shall conduct public hearings, inquiries, studies, or other forms of information gathering to understand how the actions of state government ameliorate or contribute to health disparities. Within the limits of their resources, all state agencies must cooperate with the council's efforts.

Directs the governor's interagency council on health disparities to consider in its deliberations an action plan for eliminating health disparities by 2012.

Requires the council to meet as often as necessary but not less than six times per calendar year. The council shall report its progress with the action plan to the governor and the legislature no later than January 15, 2008. A second report shall be presented no later than January 15, 2010, and a final report from the council shall be presented to the governor and the legislature no later than January 15, 2012.

Modifying requirements for security guard training.

(SEE ALSO PROPOSED 1ST SUB)

Declares that, to promote and protect the safety of persons and the security of property, the director shall develop and adopt rules establishing a standard course and curriculum for private security guard preassignment and postassignment or on-the-job training and testing requirements. The department must approve all training provided under this provision.

Provides that a course of training required under this provision may be administered, tested, and certified by any department-certified trainer, but the majority of the classroom instruction must be taught by means of in-person instruction.

Provides that, in addition to the postassignment training required under RCW 18.170.100, a private security company must annually provide each licensed security guard in its employ with eight hours of specifically dedicated review or practice of security guard skills taught by department-certified trainers.

Requires the director to consult with consumers, labor organizations representing private security officers, private security companies, educators, and subject matter experts before adopting or amending rules relating to the training and testing requirements of this section.

Authorizes the department to assess civil penalties against a private security company in the amount of one hundred dollars for the first violation and two hundred dollars for subsequent violations for the failure to: (1) Maintain an accurate and current record of proof of completion of preassignment training by each private security guard employed by the company;

(2) Provide each private security guard with certification of completion of preassignment training;

(3) Administer to each private security guard the postassignment training and review or practice of security guard skills according to the schedule required under RCW 18.170.100 (3); or

(4) Maintain an accurate and current record of proof of completion of the postassignment training and review or practice of security guard skills required under RCW 18.170.100(3).

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares that, to promote and protect the safety of persons and the security of property, the director shall develop and adopt rules establishing a standard course and curriculum for private security guard preassignment and postassignment or on-the-job training and testing requirements. At least two-thirds of annual postassignment or on-the-job training must consist of public safety or emergency procedure subject matter.

Provides that a course of training required under this provision may be administered, tested, and certified by any department-certified trainer, but the majority of the classroom instruction must be taught by means of in-person instruction.

Provides that, in addition to the postassignment training required under RCW 18.170.100, a private security company must annually provide each licensed security guard in its employ

with eight hours of specifically dedicated review or practice of security guard skills taught by department-certified trainers.

Requires the director to consult with consumers, labor organizations representing private security officers, private security companies, educators, and subject matter experts before adopting or amending rules relating to the training and testing requirements of this act.

Authorizes the department to assess civil penalties against a private security company as provided in chapter 18.235 RCW for the failure to: (1) Maintain an accurate and current record of proof of completion of preassignment training by each private security guard employed by the company;

(2) Provide each private security guard with certification of completion of preassignment training;

(3) Administer to each private security guard the postassignment training and review or practice of security guard skills according to the schedule required under RCW 18.170.100 (3); or

SB 6215 by Senators Kline and Johnson; by request of
 Attorney General

Defining the liability of public entities for tortious conduct.

Recognizes that some government functions are comparable to private activities. The legislature intends that public funds be used to pay reasonable compensation for injuries caused by the tortious actions of government in performing functions comparable to private activities.

Recognizes that many government functions have no private counterparts. These are governmental functions whose purpose is to improve general welfare but not to protect the interests of each citizen individually. Unique governmental functions, such as regulation, law enforcement, social welfare programs, and public facility design, involve policy issues, decision processes, and risks that are unlike those in private activities. The legislature intends that public funds not be used to pay for claims resulting from the exercise of governmental functions that have no private counterpart.

Declares that this act is an implementation of the authority granted to the legislature by Article 2, section 26 of the Washington state Constitution. All of the provisions of this act should be construed with a view to carrying out the intent expressed in this section.

Declares that none of the provisions in this act may be construed as creating any new or additional liability. This act shall be reconciled with other statutes related to government liability in the following manner: (1) If another statute specifically creates a cause of action for an alleged tort related to a particular government agency or function, that statute governs liability for such agency or function, rather than this act.

(2) If another statute provides an immunity or limitation on liability for a government agency or function, the provisions of this act shall apply in addition to the existing immunity or limitation on liability.

SB 6234 by Senators Fairley, Keiser, Spanel, and Esser; by request of Insurance Commissioner

Companion Bill: 2482

Creating the insurance fraud program.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that the purpose of this act is to confront the problem of insurance fraud in this state by making a concerted effort to detect insurance fraud, reduce the occurrence of fraud through criminal enforcement and deterrence, require restitution of fraudulently obtained insurance benefits, and reduce the amount of premium dollars used to pay fraudulent claims. The primary focus of the insurance fraud program is on organized fraudulent activities committed against insurance companies.

Establishes an insurance fraud program within the office of the insurance commissioner.

Provides that any documents, materials, or other information in the possession or control of the commissioner and prosecutors that are provided or obtained by the commissioner in an investigation of suspected or actual fraudulent insurance acts are confidential by law, privileged, not subject to public disclosure under chapter 42.17 or 42.56 RCW, not subject to subpoena, and not subject to discovery or admissible in evidence in any private civil action. However, the commissioner and prosecutors are authorized to use the documents, materials, or other information in the furtherance of (1) any regulatory or legal action brought as part of the commissioner's official duties, or (2) criminal prosecution.

Requires the commissioner to prepare an annual report of the activities of the fraud program. The report shall be submitted to the legislature no later than March 1st for the prior calendar year. The report shall, at a minimum, include information as to the number of cases reported to the commissioner, the number of cases referred for prosecution, the number of convictions obtained, and the amount of money recovered.

The report shall, at a minimum, include information as to the number of cases reported to the commissioner, the number of cases referred for prosecution, the number of convictions obtained, the amount of money recovered, and any recommendations of the insurance advisory board.

VETO MESSAGE ON SSB 6234

March 28, 2006

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 18, Substitute Senate Bill No. 6234 entitled:

Part of SSB 6234 creates a new exemption for certain documents under the Public Disclosure Act. Section 17 adds the exemption to the new public disclosure act section, RCW 42.56.400. Chapter 42.56 RCW takes effect July 1, 2006.

Section 18 also adds the same exemption as a new section to Chapter 42.17 RCW. Chapter 42.17 RCW, however, expires on July 1, 2006. Consequently, we should not add a new statutory exemption to that Chapter. Pursuant to Section 17 of SSB 6234, the new exemption will be in the proper Chapter. Therefore, to avoid duplication and the inadvertent creation of a technical problem, Section 18 must be vetoed.

For these reasons, I have vetoed Section 18 of Substitute Senate Bill No. 6234.

With the exception of Section 18, Substitute Senate Bill No. 6234 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

SB 6240 by Senators Jacobsen and Weinstein

Regulating interchange and associated fees.

Declares that "interchange fee" means the fee a merchant's financial institution pays to a cardholder's financial institution when a cardholder uses a credit card or debit card as payment during a retail transaction.

Provides that financial institutions may not charge interchange fees that are more than one and one-half percent of the total cost of the retail transaction.

VETO MESSAGE ON SSB 6241

March 31, 2006

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to portions of Sections 204, 212(6), 213(5), 214(5), 304(16), 307(8), and 309(19) of Substitute Senate Bill 6241 entitled:

My reasons for vetoing portions of the above-noted Sections are as follows:

Section 204, page 6, Board of Pilotage Commissioners, Trainee Stipends

Section 204 provides additional appropriation authority to the Board of Pilotage Commissioners for pilot trainee stipends. Appropriation authority was provided in Engrossed Substitute Senate Bill 6870, which was enacted by the Legislature and signed into law on March 14, 2006. Leaving Section 204 intact would increase the Board of Pilotage Commissioners' appropriation authority above the intended amount and would exceed the revenue available to the agency. Therefore, I have vetoed Section 204.

Section 212(6), page 18, Department of Licensing - Information Services, Parking Privileges

This proviso funds implementation of Substitute House Bill 2389 and stipulates that the appropriation will lapse if the bill is not enacted. Substitute House Bill 2389 did not pass the Legislature. Therefore, I have vetoed Section 212(6).

Section 213(5), page 19, Department of Licensing - Vehicle Services, Parking Privileges

This proviso funds implementation of Substitute House Bill 2389 and stipulates that the appropriation will lapse if the bill is not enacted. Substitute House Bill 2389 did not pass the Legislature. Therefore, I have vetoed Section 213(5).

Section 214(5), pages 20-21, Department of Licensing, Federal Real ID

Section 214(5) directs the Department of Licensing to join in any lawsuit filed by other states seeking funding to implement the provisions of Title II of P.L. 109-13 (improved security for driver's license and personal identification cards (Federal Real ID Act)) whenever the department is legally and ethically permitted to do so. This language is overly prescriptive. I will engage the federal government on this issue when it is prudent and in the best interest of Washington State to do so. But legal action, whether unilateral or in conjunction with other states, will only be undertaken following a rigorous review of the issues and consultation with the state's Attorney General. Therefore, I have vetoed Section 214(5).

Section 304(16), pages 47-48, Department of Transportation - Improvements, SR 520 Plan

Section 304(16) earmarks \$250,000 for the City of Seattle to prepare a State Route 520 expansion impact plan and prohibits the Department of Transportation from beginning construction on the State Route 520 bridge replacement and High Occupancy Vehicle project until agreements have been reached with the City of Seattle. This subsection contradicts Section 304(18), which sets forth the National Environmental Policy Act (NEPA) requirements that the department must designate the preferred

alternative, prepare a substantial project mitigation plan, and complete a comprehensive cost estimate. It is incumbent upon the department to follow state and federal environmental laws and not delegate decision making to the City of Seattle. Therefore, I have vetoed Section 304(16).

Section 307(8), page 54, Department of Transportation - Ferries, Auto-Passenger Ferries

Section 307(8) provides funding for auto-passenger ferry vessels using the process identified in Substitute Senate Bill 6853, which did not pass the Legislature. While the Legislature considered the ferry vessel procurement process in Substitute Senate Bill 6853, it was not its intent to eliminate funding for ferry vessels. Therefore, I have vetoed Section 307(8) with the understanding that the funding remains available to the Department of Transportation for the procurement of ferry vessels.

Section 309(19), pages 61-62, Department of Transportation - Local Programs, RTPOs

Section 309(19) requires regional transportation planning organizations (RTPOs) that receive federal surface transportation program funding to distribute funds based on a prioritized competitive basis rather than by formula. It also prohibits funds from being used for administration. While I strongly support this legislative intent, I believe these changes should be phased in over time in order to avoid disruptions to project programming and delivery. RTPOs are required by federal law to prepare four-year Transportation Improvement Programs. The current transportation improvement program covers calendar years 2006 through 2008. Therefore, I have vetoed Section 309(19).

However, effective with the development of the 2008 Transportation Improvement Programs, I am directing the Department of Transportation to work with RTPOs to ensure that it prioritizes project selections based on regional priorities such as growth management, congestion relief, safety, economic development, or other regional priorities that support state and federal policies. In addition, the department shall retain a full and transparent accounting of all federal surface transportation program funds and their uses.

With the exception of the above-noted portions of Sections 204, 212(6), 213(5), 214(5), 304(16), 307(8), and 309(19), Substitute Senate Bill 6241 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

SB 6250 by Senators Morton, Mulliken, and Oke

Companion Bill: 2953

Modifying utility tax provisions.

Finds: (1) When retail energy prices rise, the amount of taxes paid by consumers also increase, because state and local public utility taxes are presently levied as a fixed percentage of revenue derived by electric and natural gas utilities from retail energy sales;

(2) Increased energy costs can have an adverse impact on the economy of the state of Washington and this impact is compounded by attendant increases in the amount of taxes that must be paid on energy purchases;

(3) Volatility in wholesale energy prices has become more common, compared to historical wholesale market behavior, and changes in wholesale prices ultimately translate into higher retail energy prices; and

(4) Further increases in wholesale and retail energy prices appear imminent.

Declares that the rate of state and local public utility taxes and the corresponding rate of use taxes on natural gas purchases should be indexed to the cost of energy for residential consumers, providing that tax rates should be adjusted downward when energy prices rise and upward when energy prices fall, except that tax rates should be capped at the rate currently provided under law so that consumers would never pay a higher tax rate than they do at present.

SB 6256 by Senators Eide, McAuliffe, and Kohl-Welles
 Creating the Washington community learning center program.

Finds that good after-school programs and activities provide safe and effective learning environments for children, including children who might otherwise be alone and unsupervised after school. These programs not only support children's academic efforts, they also build community partnerships that support children and their learning.

Finds that, at the request of the legislature, the Washington after-school network has prepared a statewide after-school plan that would help the state make strategic investments in programs and activities that support children academically while keeping them safe and well-supervised. Therefore, the legislature intends to implement the plan by expanding high quality after-school programs, supporting professional development for after-school program staff, increasing public awareness of program benefits, and supporting the after-school organizational infrastructure to ensure economies of scale in support of after-school programs.

Appropriates the sum of two hundred seventy-five thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the office of the superintendent of public instruction to carry out the purposes of this act.

(AS OF SENATE 2ND READING 2/08/06)

Provides that, by January 1, 2007, the department shall develop and begin a pilot program to allow employers to assist workers in completing an application for benefits. This pilot program does not replace the current method for reporting as provided in RCW 51.28.020. The department shall develop requirements or rules for employers who participate in the pilot program, including provisions to ensure prompt reporting of the claim and communicating a worker's rights and responsibilities under the pilot program.

Provides that the pilot program shall include the voluntary participation of employers that represent a cross-section of industries, geographic areas, union and nonunion workers, large and small businesses, and other criteria established by the department with input of business and labor leaders. The department will, to the greatest extent possible, attempt to include in the pilot all employers who volunteer.

Provides that, during the pilot period, the department shall continue to expand the participation of employers and shall consider steps to address the unique needs and issues of small employers. The pilot program expires July 1, 2009.

Authorizing the department to request and superior court to grant warrants pursuant to chapter 49.17 RCW.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent that inspections performed under the Washington industrial safety and health act ensure safe and healthful working conditions for every person working in the state of Washington. Inspections must follow the mandates of Article II, section 35 of the state Constitution, and equal or exceed the requirements prescribed by the occupational safety and health act of 1970 (Public Law 91-596, 84 Stat. 1590). The legislature also intends that the inspections comply with the fourth and fourteenth amendments to the United States Constitution and Article I, section 7 of the state Constitution.

Declares that, except as otherwise provided in this act, the director or his or her authorized representative shall obtain consent from the owner, manager, operator, or his or her on-site person in charge of the worksite when entering any worksite located on private property to carry out his or her duties under chapter 49.17 RCW. The director or his or her authorized representative shall enter a worksite at a reasonably recognizable entry point to request the consent described in this act.

Does not prohibit the director or his or her authorized representative from making observations of evidence in open view or from taking action consistent with a recognized exception to the warrant requirements of the federal and state Constitutions.

Does not require advance notice of an inspection.

Provides that, if the director or his or her authorized representative is denied or reasonably believes that he or she will be denied access to any factory, plant, establishment, construction site, or other area, workplace, or environment where work is performed by an employee of an employer, to which such access was sought for the purposes set forth in this act, the director may apply to a court of competent jurisdiction for a search warrant authorizing access to the facility. The court may upon such application issue a search warrant for the purpose requested.

Allowing an injured worker to change total permanent disability pension options under certain circumstances.

(DIGEST AS ENACTED)

Provides that, if the worker's nominated beneficiary is the worker's spouse, and the worker and spouse enter into a dissolution of marriage after the nomination has been made, the worker may apply to receive benefits as calculated under Option I. This change is effective the date of the decree of dissolution of marriage, but no more than one year prior to the date application for the change is received in the department, provided the worker submits legally certified documentation of the decree of dissolution of marriage.

Provides that, if the worker's nominated beneficiary dies, the worker may apply to receive benefits as calculated under Option I. This change is effective the date of death, but no more than one year prior to the date application for the change is received in the department, provided the worker submits a certified copy of the death certificate.

Creating a public school facilities element under the growth management act.

(SEE ALSO PROPOSED 1ST SUB)

Requires a public school facilities element to implement in respect to public school facilities the goal established in RCW 36.70A.020(12). As provided in this provision, a county or city shall, in conjunction with each school district within whose boundaries any part of the county or city is located, establish level of service standards for public school facilities that serve the residential uses in the land use element and provide that the level of service standards will be achieved and maintained.

Provides that, to implement the public school facilities element, a county or city shall enter into an interlocal agreement with the board of directors of each school district within whose boundaries any part of the county or city is located to establish jointly the specific ways in which the plans and processes of the county or city and the school district are to be coordinated. The county and cities and the school district board of directors in each school district are encouraged to adopt a single interlocal agreement to which all join as parties.

Requires the public school facilities element to demonstrate that the comprehensive plan and development regulations necessary to implement the comprehensive plan provide that permanent public school facility space to serve enrollment generated by residential development at the adopted level of service will be located proximate to the development and will be in place at the time that the enrollment is projected.

Requires that the public school facilities element required in this act, including the interlocal agreement and any development regulations that implement the element, must be adopted no later than December 1, 2008, and submitted to the department for review according to the schedule adopted by the department.

Provides that, no later than December 1, 2008, the board of directors of each school district within whose boundaries is located any part of a county or city that is required or chooses to plan under RCW 36.70A.040 shall enter into an interlocal agreement with that county or city to establish jointly the specific ways in which the plans and processes of the county or city and the school district are to be coordinated. The school district board of directors and the county and cities in each school district are

encouraged to adopt a single interlocal agreement to which all join as parties.

Licensing specialty hospitals.

(SEE ALSO PROPOSED 1ST SUB)

Finds that specialty hospitals jeopardize the financial balance of community hospitals by selectively providing care to less ill patients, treating fewer medicare, medicaid, and uninsured patients, providing primarily care that is profitable to investors, and reducing community hospital staffing.

Declares that, to assure that private and public hospitals in Washington remain financially viable institutions able to provide general acute care in their communities and maintain the capacity to respond to local, state, and national emergencies, the legislature has concluded that specialty hospitals must meet certain conditions in order to be licensed. These conditions will ensure that specialty hospitals and community hospitals compete on a level playing field and, therefore, will minimize the adverse impacts of specialty hospitals on community general hospitals while assuring quality patient care.

SB 6287 by Senators Fairley, Thibaudeau, and Shin

Authorizing special parking privileges for the legally blind.

(SUBSTITUTED FOR - SEE 1ST SUB)

Authorizes special parking privileges for the legally blind.

SB 6287-S by Senate Committee on Transportation
(originally sponsored by Senators Fairley,
Thibaudeau, and Shin)

(DIGEST AS ENACTED)

Authorizes special parking privileges for the legally blind.

Reaffirms that legal blindness does not affect the physical ability to walk, nor does it limit the ability to participate and contribute in employment and all aspects of life as an equal and productive citizen. Furthermore, for a legally blind individual with appropriate training in travel skills, any limitations on that individual's mobility are not resolved by the granting of special parking privileges. However, for some individuals, including the newly blind and those in transition, the availability of special parking privileges could prove to be an appropriate benefit if those individuals choose to avail themselves of the opportunity.

SB 6308 by Senators Carrell, Stevens, Regala, Schoesler, Schmidt, Oke, and Rasmussen

Creating a joint select committee on offenders programs, sentencing, and supervision.

(SUBSTITUTED FOR - SEE 1ST SUB)

Directs the joint select committee to review and make recommendations regarding: (1) The type of offender that would benefit most in terms of personal achievement, responsibility, and community safety, by having the opportunity to receive enhanced training and education while in prison;

(2) The types of training and educational programs that would provide the greatest return on investment with regard to offender achievement, responsibility, and community;

(3) Changes to the sentencing law and policies related to "good time" that would encourage incarcerated offenders to participate in training and programs that will increase the likelihood that they will be able to support themselves when they leave prison and reduce recidivism;

(4) A method for evaluating the return on the investment and determining from front line department of corrections staff and community partners, whether the changes are improving personal responsibility on the part of the offender and reducing crime in the community; and

(5) Changes to community supervision that would provide greater safety to the public and incentives for prisons in adhering to treatment, educational goals, and reducing recidivism.

Requires the joint select committee to present a report of its findings and recommendations to the governor and the appropriate committees of the legislature, including any proposed legislation, by November 15, 2007.

SB 6308-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Carrell, Stevens, Regala, Schoesler, Schmidt, Oke, and Rasmussen)

Creating a joint select committee on offenders programs, sentencing, and supervision. (REVISED FOR PASSED LEGISLATURE: Creating a joint legislative task force on offenders programs, sentencing, and supervision.

(DIGEST AS ENACTED)

Recognizes that "good time" should be productive time, especially for those incarcerated in Washington's criminal justice facilities.

Finds that it is important to the safety of the public and to rehabilitation of offenders that changes be considered to other programs offered in prisons and in the community.

Finds that reforms to sentencing and supervision of offenders returning to the community may enhance public safety, lower recidivism, and reduce crime and victimization. Therefore, the legislature intends to create a joint legislative task force on offenders programs, sentencing, and supervision to provide findings and recommendations for the 2007 legislative session.

Requires the joint legislative task force to present a report of its findings and recommendations to the governor and the appropriate committees of the legislature, including any proposed legislation, by November 15, 2006.

SB 6315-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Carrell, Benton, Roach, Mulliken, Oke, Schoesler, Schmidt, Regala, Delvin, Stevens, Benson, Sheldon, and Esser)

Providing liability protection for landlords.

(AS OF SENATE 2ND READING 2/09/06)

Declares an intent to increase the housing available to sex offenders by providing that landlords who rent to registered sex offenders shall be immune from civil liability for damages that may result.

Provides that a landlord who rents to a registered sex offender is immune from civil liability for damages caused by the tenant if the actions of the tenant that gave rise to civil liability were sex offenses described in RCW 9.94A.030. In order for a landlord to be protected from liability as provided under this provision, a landlord must disclose to residents of the property that he or she rents or has a policy of renting to sex offenders.

Requires the Washington association of sheriffs and police chiefs to conduct a study on sex offender registration and sex offender housing laws in every state.

Requires the findings and any recommendations from the study to be placed into a final report to the appropriate committees of the legislature no later than December 31, 2006.

Expanding foster care and support services provisions.

(SEE ALSO PROPOSED 1ST SUB)

Allows a youth reaching age eighteen to continue in foster
 care or group care as needed to participate in or complete a high
 school or posthigh school academic or vocational program, and to
 receive necessary support and transition services. A youth who
 remains eligible for such placement and services under
 department rules may continue in foster care or group care until
 the youth reaches his or her twenty-first birthday.

Declares that nothing in this act shall be construed to create:

- (1) An entitlement to services;
- (2) Judicial authority to extend the jurisdiction of juvenile
 court in a proceeding under chapter 13.34 RCW to a youth who
 has attained eighteen years of age or to order the provision of
 services to the youth; or
- (3) A private right of action or claim on the part of any
 individual, entity, or agency against the department of social and
 health services or any contractor of the department.

Authorizes the department of social and health services to
 adopt rules establishing eligibility for independent living services
 and placement for youths under this act.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, beginning in 2006, the department has the
 authority to allow up to fifty youth reaching age eighteen to
 continue in foster care or group care as needed to participate in or
 complete a posthigh school academic or vocational program, and
 to receive necessary support and transition services.

Provides that, in 2007 and 2008, the department has the
 authority to allow up to fifty additional youth per year reaching
 age eighteen to remain in foster care or group care as provided in
 this act.

Provides that a youth who remains eligible for such
 placement and services pursuant to department rules may continue
 in foster care or group care until the youth reaches his or her
 twenty-first birthday. Eligibility requirements shall include active
 enrollment in a posthigh school academic or vocational program
 and maintenance of a 2.5 grade point average.

Declares that nothing in this act shall be construed to create:

Establishing residences for sex offenders.

(SUBSTITUTED FOR - SEE 1ST SUB)

Authorizes the state to establish residence restrictions and community protection zones for registered sex offenders. Local laws and ordinances that are inconsistent with, more restrictive than, or exceed the requirements of state law shall not be enacted and are preempted.

SB 6325-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Regala, Kline, Fairley, Stevens, Rasmussen, and McAuliffe)

Establishing residence restrictions for sex offenders.

(DIGEST AS ENACTED)

Declares that sections 1 through 3 and 5 of chapter 436, Laws of 2005, supersede and preempt all rules, regulations, codes, statutes, or ordinances of all cities, counties, municipalities, and local agencies regarding the same subject matter.

Repeals 2005 c 436 s 4 (uncodified), and 2005 c 436 s 6 (uncodified).

Requires the association of Washington cities, working with the cities and towns of Washington state, to develop statewide standards for cities and towns to use when determining whether to impose residency restrictions on sex offenders within their jurisdiction.

Provides that, if the association of Washington cities submits consensus statewide standards to the governor and the legislature on or before December 31, 2007, section 1 of this act expires July 1, 2008, and may only be revived by an affirmative act of the legislature through duly enacted legislation.

Provides that, if the association of Washington cities does not submit consensus statewide standards to the governor and legislature on or before December 31, 2007, section 1 of this act does not expire.

(DIGEST AS ENACTED)

Provides a source of funding for customized work force training.

Finds that the provision of customized training is critical to attracting and retaining businesses, and that the growth of many businesses is limited by an unmet need for customized training.

Finds that work force training not only helps business, it also improves the quality of life for workers and communities. Because of the statewide public benefit to be gained from instituting a customized training program, the legislature intends to create a new program to fund work force training in a manner

that reduces the up-front costs of training to new and expanding firms.

Creates the Washington customized employment training program to provide training assistance to employers locating or expanding in the state.

Finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources the legislature needs information on how a tax incentive is used.

Requires each person claiming a tax credit under this act to report information to the department by filing a complete annual survey. The survey is due by March 31st of the year following any calendar year in which a tax credit under this act is taken. The department may extend the due date for timely filing of annual surveys under this act as provided in RCW 82.32.590. The survey shall include the amount of tax credit taken.

Directs the department to study the tax credit authorized in this act. The department shall submit a report to the finance committee of the house of representatives and the ways and means committee of the senate by December 1, 2011. The report shall measure the effect of the credit on job creation, job retention, company growth, the movement of firms or the consolidation of firms' operations into the state, and such other factors as the department selects.

Financing local economic development projects.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent to promote and facilitate the orderly development and economic stability of communities in the state. It is the purpose of this act to provide financial resources to assist local jurisdictions in the financing of public improvements which are needed to encourage private development where this development would not otherwise occur due to the presence of contaminated property and other environmental considerations.

SB 6327-S by Senate Committee on International Trade & Economic Development (originally sponsored by Senators Shin, Swecker, Pflug, Rockefeller, McAuliffe, Doumit, Franklin, Rasmussen, Thibaudeau, Berkey, Keiser, Schoesler, Sheldon, and Fairley)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that, in many areas of the state, the lack of necessary infrastructure and vacant brownfields act as an impediment to economic growth.

Finds that public improvements to brownfields, carried out in accordance with local economic development plans, will encourage investment in job-producing private development and will expand the public tax base.

Declares an intent to promote and facilitate the orderly development and economic stability of communities in the state. It is the purpose of this act to provide financial resources to assist local jurisdictions in the financing of public improvements which are needed to encourage private development where this development would not otherwise occur due to the presence of contaminated property and other environmental considerations.

Companion Bill: 2383

Creating a joint legislative task force on aerospace manufacturing.

(SEE ALSO PROPOSED 1ST SUB)

Creates a joint legislative task force on aerospace manufacturing.

Requires the task force to review the following issues related to expanding the presence of aerospace manufacturing and associated research and development, education, and training businesses at airports of regional significance:

(1) The composition of the current aerospace manufacturing industry in Washington state and significant trends that affect retention, expansion, and recruitment of companies in that industry;

(2) Aerospace and nonaerospace businesses currently sited at airports of regional significance;

(3) The inventory of untapped or underutilized capacity at airports of regional significance;

(4) Types of aerospace manufacturing and associated businesses that could be sited at airports of regional significance;
 (5) Financial and technical resources that are available and those that would be needed; and

(6) Statutory and regulatory changes required to expand the presence of aerospace manufacturing and associated businesses at airports of regional significance.

Requires the task force to report its findings and recommendations to the legislature by June 30, 2007.

Appropriates the sum of two hundred fifty thousand dollars, or as much thereof as may be necessary, from the general fund to the house of representatives and the senate for the fiscal year ending June 30, 2007, to carry out the purposes of this act.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Creates a joint legislative task force on aerospace manufacturing.

Requires the task force to review the following issues related to expanding the presence of aerospace manufacturing and associated research and development, education, and training businesses at airports of regional significance:

(1) The composition of the current aerospace manufacturing industry in Washington state and significant trends that affect retention, expansion, and recruitment of companies in that industry;

(2) Aerospace and nonaerospace businesses currently sited at airports of regional significance;

(3) The inventory of untapped or underutilized capacity at airports of regional significance;

(4) Types of aerospace manufacturing and associated businesses that could be sited at airports of regional significance;

(5) Financial and technical resources that are available and those that would be needed; and

(6) Statutory and regulatory changes required to expand the presence of aerospace manufacturing and associated businesses at airports of regional significance.

Requires the task force to report its findings and recommendations to the legislature by June 30, 2007.

Appropriates the sum of two hundred fifty thousand dollars, or as much thereof as may be necessary, from the general fund to the house of representatives and the senate for the fiscal year ending June 30, 2007, to carry out the purposes of this act.

Establishing the Washington trade corps fellowship program.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that the purpose of the program is to promote international trade and enhance the work of Washington's trade offices. The program will award fellowships to students who have shown significant interest in pursuing a career in international trade and place them in trade offices. The fellows will be expected to learn the practice of trade promotion and fulfill the mission of the offices to promote overseas trade and commerce.

Provides that the act shall be null and void if appropriations are not approved.

SB 6330-S by Senate Committee on International Trade & Economic Development (originally sponsored by Senators Shin, Kastama, Sheldon, Rasmussen, Doumit, Weinstein, Fraser, Swecker, McAuliffe, Oke, Eide, Honeyford, Franklin, Mulliken, Prentice, Pflug, Kohl-Welles, Jacobsen, and Roach)

Establishing the Washington trade corps fellowship program. (REVISED FOR PASSED LEGISLATURE: Evaluating funding alternatives for an international trade corps fellowship program.)

(DIGEST AS PASSED LEGISLATURE)

Finds that in order to promote international trade and enhance the work of Washington's international trade offices, college and graduate students should be provided an opportunity to gain experience in international trade by assisting Washington businesses enter foreign markets.

Directs the department of community, trade, and economic development to research alternative funding sources for the purpose of instituting an international trade corps fellowship program in collaboration with other public and private entities, including, but not limited to, the international programs at institutions of higher education.

Requires the department to submit a report to the legislature by December 1, 2007, with recommendations regarding instituting an international trade corps fellowship program without the use of state general fund moneys. The report should also include recommendations regarding the number of fellows participating each year, the cost of administrating the program, and the criteria for the selection of candidates.

VETO MESSAGE ON SSB 6330

March 31, 2006

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval, Substitute Senate Bill No. 6330 entitled:

This bill is being vetoed for two reasons. First, given the limited resources and high demands of our international trade office, this program would not be a priority. I commend the Legislature for adding resources to trade and to trade offices. However, the specific purpose proposed in this bill is not the most effective approach. Second, the budget for this project is exceptionally large given the task that is proposed. These are funds that simply should not be allocated for studying funding opportunities.

For these reasons, I have vetoed Substitute Senate Bill No. 6330 in its entirety.

Respectfully submitted,
Christine O. Gregoire
Governor

SB 6331 by Senators Carrell and Stevens

Concerning unfounded or meritless child abuse or neglect reports.

(SEE ALSO PROPOSED 1ST SUB)

Declares that "meritless" means available information indicates that, more likely than not, the child abuse or neglect allegation was based on arbitrary, malicious, or erroneous

information or actions. No meritless allegation of child abuse or neglect may be disclosed to a child-placing agency, private adoption agency, or any other provider licensed under chapter 74.15 RCW.

SB 6331-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Carrell and Stevens)

Changing provisions relating to child welfare.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that upon receiving a report of alleged abuse or neglect, the department shall: (1) Make reasonable efforts to learn the name, address, and telephone number of each person making a report of abuse or neglect under this act. The department shall provide assurances of appropriate confidentiality of the identification of persons reporting under this act. If the department is unable to learn the information required under this provision, the department shall only investigate cases in which: (a) The department believes there is a serious threat of substantial harm to the child; (b) the report indicates conduct involving a criminal offense that has, or is about to occur, in which the child is the victim; or (c) the department has a prior founded report of abuse or neglect that is within three years of receipt of the referral;

(2) Unless the report is screened-out or being investigated by a law enforcement agency, conduct an investigation within time frames established by the department in rule; and

(3) Make a finding that the report of child abuse or neglect is unfounded, founded, or inconclusive at the completion of the investigation.

SB 6339 by Senator Haugen

Allocating federal surface transportation program enhancement funds.

Provides that any steering committee that makes final selection of projects funded from federal surface transportation program enhancement funds or a similar program shall ensure, to the greatest extent practicable, that funding for each transportation enhancement activity is allocated such that the allocation meets or exceeds the national average of allocations made for each respective activity. The secretary of transportation may not approve a project list submitted by the steering committee unless it reflects allocation decisions that comply with this provision.

Requires that, by December 1, 2007, and every two years thereafter, the department shall report to the transportation committees of the legislature detailing the national average of allocations for each transportation enhancement activity and indicating whether the state's allocations have met or exceeded the national average of allocations made for each respective activity.

Protecting agricultural workers.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, in addition to the surety bond required under RCW 19.30.040, the director shall require the deposit of a separate repatriation bond by any person acting as a farm labor contractor under chapter 19.30 RCW and participating or applying to participate in the federal H-2A visa program established under section 218 of the federal immigration and nationality act of 1952 as amended (8 U.S.C. Sec. 1101, 1184, and 1188). The purpose of the repatriation bond is to cover travel expenses for returning H-2A workers to their home in their country of origin, and room, board, and other living expenses for H-2A workers while they await repatriation if the farm labor contractor fails to make timely repatriation of H-2A workers when appropriate.

Authorizes any person to protest the issuance or renewal of a license under this act. The director shall not issue a license to operate as a farm labor contractor if the director determines that: (1) The applicant has made any misrepresentations or false statements in his or her application for a license;

(2) The applicant owes any debts or has any outstanding judgments from administrative or judicial determinations against him or her or any of his or her agents, partners, associates, stockholders, or profit sharers arising out of his or her farm labor contracting activities in this or any other state or country;

(3) The applicant has repeatedly violated, or willfully aided or abetted any person in the violation of, any laws, including

international laws, federal or state laws, or laws of other nations, or any agreements with agricultural workers or third parties, related to his or her farm labor contracting activities in this or any other state or country;

(4) The applicant's character, competency, or responsibility are not satisfactory;

(5) The applicant violated chapter 19.30 RCW on or after January 1st of the year preceding the year of application.

Companion Bill: 2517

Establishing minimum labor standards for certain large employers as related to health care services expenditures.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent to set minimum labor standards for some large employers in Washington state with respect to health benefit expenditures, and to further the state's interest in ensuring that its residents have access to appropriate health care services. Ensuring that employers do not eliminate employer-paid health care is important for minimizing the burden on taxpayers and the public health system, and protecting the health, safety, and well-being of the residents of Washington state.

Requires that, on July 1, 2007, and each following July 1st, every employer shall report to the director: (1) The employer's health care services expenditures in the preceding calendar year; and

(2) The employer's payroll in the preceding calendar year.

Requires an employer to either: (1) Spend at least nine percent of the employer's payroll on health care services expenditures; or

(2) Pay to the director an amount equal to the difference between the employer's health care services expenditures and an amount equal to nine percent of the employer's payroll.

Provides that an employer that is a nonprofit organization or governmental entity shall either: (1) Spend at least seven percent of the employer's payroll on health care services expenditures; or

(2) Pay to the director an amount equal to the difference between the employer's health care services expenditures and an amount equal to seven percent of its payroll.

Requires the director to: (1) Administer and enforce this act; (2) Review reports, inspect records, and conduct investigations and audits of employment, payroll, and health care services expenditures, as the director deems necessary or appropriate, to determine whether an employer has complied with this act;

(3) Adopt rules necessary to implement this act; and

(4) Deposit payments required and civil penalties assessed under this act into the health services account established under RCW 43.72.900.

Developing worksite health promotion programs.

(SEE ALSO PROPOSED 1ST SUB)

Requires the authority to develop an on-line health assessment tool that is available to state employees. The health assessment tool must: (1) Be voluntary;

(2) Be confidential;

(3) Enable participants to compare their personal health information with local and national data; and

(4) Generate recommendations about programs and actions most likely to improve individual health.

Requires the authority to make the on-line health assessment tool available to private sector employers. The administrator may charge private sector employers an annual enrollment fee sufficient to offset the cost of administering the health assessment tool for private sector employers.

Requires that, to the extent funds are appropriated specifically for this purpose, the department shall develop a healthy worksite grant program designed to assist employers seeking to implement strategies to improve the health of their employees. The department shall adopt rules to implement the healthy worksite grant program that include: (1) Eligibility criteria for employers to apply for grants that include limiting the program to employers with less than two hundred employees; and

(2) Criteria for evaluating grant applications that include an assessment of whether the proposed project incorporates worksite strategies known to be effective in increasing physical activity, improving diets, and reducing obesity among employees and the degree to which applicants commit to providing internal resources to implement a proposed strategy.

Requires the department to report to the appropriate policy and fiscal committees of the legislature by December 1, 2008, evaluating the grant program.

Concerning preparation and response to pandemic influenza.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent that adequate pandemic flu preparedness and response plans be developed and implemented by local public health jurisdictions statewide in order to limit the number of illnesses and deaths, preserve the continuity of essential government and other community services, and minimize social disruption and economic loss in the event of an influenza pandemic.

Provides that, by January 1, 2007, each local health jurisdiction shall develop a pandemic flu preparedness and response plan, consistent with requirements and standards established by the department and the United States department of health and human services.

Requires the department to provide technical assistance and disburse funds as needed to support local health jurisdictions in developing their pandemic flu preparedness and response plans.

Appropriates the sum of twenty million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the department of health for the purposes of this act.

SB 6366-S by Senate Committee on Ways & Means (originally sponsored by Senators Keiser, Thibaudeau, and Kline)

(DIGEST AS ENACTED)

Declares an intent that adequate pandemic flu preparedness and response plans be developed and implemented by local public health jurisdictions statewide in order to limit the number of illnesses and deaths, preserve the continuity of essential government and other community services, and minimize social disruption and economic loss in the event of an influenza pandemic.

Requires the secretary to establish requirements and performance standards, consistent with any requirements or standards established by the United States department of health and human services, regarding the development and implementation of local pandemic flu preparedness and response plans.

Provides that, to the extent state or federal funds are provided for this purpose, by November 1, 2006, each local health jurisdiction shall develop a pandemic flu preparedness and response plan, consistent with requirements and performance standards established in this act.

Directs local health jurisdictions to submit their pandemic flu preparedness and response plans to the secretary by November 1, 2006. Upon receipt of a plan, the secretary shall approve or reject the plan.

Requires the secretary to develop a formula for distribution of any federal and state funds appropriated in the omnibus appropriations act on or before July 1, 2006, to local health jurisdictions for development and implementation of their pandemic flu preparedness and response plans. The formula developed by the secretary shall ensure that each local health jurisdiction receives a minimum amount of funds for plan development and that any additional funds for plan development be distributed equitably, including consideration of population and factors that increase susceptibility to an outbreak, upon soliciting the advice of the local health jurisdictions.

Requires the secretary to: (1) Develop a process for assessing the compliance of each local health jurisdiction with the requirements and performance standards developed under this act at least biannually;

(2) By November 15, 2008, report to the legislature on the level of compliance with the performance standards established under this act. The report shall consider the extent to which local health jurisdictions comply with each performance standard and any impediments to meeting the expected level of performance.

Provides that, by January 1, 2007, each local health jurisdiction shall develop a pandemic flu preparedness and response plan, consistent with requirements and standards established by the department and the United States department of health and human services.

Requires the department to provide technical assistance and disburse funds as needed to support local health jurisdictions in developing their pandemic flu preparedness and response plans.

SB 6367 by Senators Haugen, Jacobsen, and Berkey

Requiring voluntary measures be included in critical area development regulations.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that because the growth management act does not contain specific provisions as to the applicability of critical area protection requirements to existing and nonconforming land uses, the courts are being requested to develop state policy on an unequal and piecemeal basis and that legislatively established direction is appropriate and needed.

Declares the purpose of this act is to encourage counties and cities to expand the availability and use of nonregulatory measures for existing and nonconforming uses as a component of ordinances under RCW 36.70A.130 adopted after the effective date of this act and to encourage an increase in the information and resources to the public to foster voluntary activities by citizens to improve their environment.

SB 6367-S by Senate Committee on Government Operations & Elections (originally sponsored by Senators Haugen, Jacobsen, and Berkey)

(AS OF SENATE 2ND READING 2/13/06)

Finds that voluntary activities can be invaluable toward achieving the overall goal of protecting and enhancing the environment and that such activities should be given recognition as highly valued endeavors.

Finds that better enabling citizens to undertake voluntary activities can in many circumstances be more advantageous and with fewer unintended negative consequences than adopting prescriptive rules affecting existing and nonconforming uses of land.

Declares the purpose of this act is to encourage counties and cities to expand the availability and use of nonregulatory measures for existing and nonconforming uses as a component of ordinances under RCW 36.70A.130 adopted after the effective date of this act and to encourage an increase in the information and resources to the public to foster voluntary activities by citizens to improve their environment.

SB 6369 by Senators Haugen, Mulliken, and Rasmussen

Providing excise tax exemptions for water services provided by small water systems.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides excise tax exemptions for water services provided by small water systems.

Requires that, by December 1, 2010, the fiscal committees of the house of representatives and the senate, in consultation with the department, shall report to the legislature on the effectiveness of the tax exemptions under this act.

SB 6369-S by Senate Committee on Ways & Means (originally sponsored by Senators Haugen, Mulliken, and Rasmussen)

(DIGEST AS PASSED LEGISLATURE)

Provides excise tax exemptions for water services provided by small water systems.

Requires that, by December 1, 2010, the fiscal committees of the house of representatives and the senate, in consultation with the department, shall report to the legislature on the effectiveness of the tax exemptions under this act.

VETO MESSAGE ON SSB 6369

March 29, 2006

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute Senate Bill No. 6369 entitled:

This SSB No. 6369 exempts water-sewer, irrigation, and public utility districts that provide water services to small customer bases from the public utility tax and business and occupation tax as long as at least 90 percent of the value of the tax exemptions would be used to repair, equip, upgrade, or maintain the system.

This bill provides inadequate accountability to the state's taxpayers. The tax exemptions are not limited by sunsets. Only one study of the effectiveness of the tax exemptions, due in 2010, will be made. After that, the tax exemptions will continue on in perpetuity without scrutiny.

In addition, the legislation's self-stated goal, of providing assistance to small public water systems that are in most need, would be more efficiently met through a grant program. Through a grant program, pressing needs can be met first and all needs can actually be assessed. A grant program could also help those small water systems that are already exempt from the state's business and occupation tax and public utility tax as well. As Governor, I think part of my duty is to meet the needs in the most efficient way possible.

For these reasons, I have vetoed Substitute Senate Bill No. 6369 in its entirety.

Respectfully submitted,
Christine O. Gregoire
Governor

Companion Bill: 2865

Requiring timely assessment of assisted living facility applicants.

(SEE ALSO PROPOSED 1ST SUB)

Requires the department to work in partnership with boarding homes, and medicaid applicants and their families, to ensure that department assessments of boarding home applicant care needs are completed in a timely manner.

Requires the department to complete an assessment of the care needs of current or potential medicaid boarding home residents within ten business days of application for services. If the department fails to complete the assessment within ten business days, and following a determination that the applicant qualifies for medicaid services, the department shall pay for services from the date of the request for assessment.

SB 6372-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Keiser, Deccio, Spanel, Zarelli, Pflug, Kline, Kohl-Welles, and Rasmussen)

Regarding adjustment of boarding home rates.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, when a person, upon admission to a boarding home, has been determined to be eligible for medicaid funded

boarding home care and the boarding home subsequently submits a request to the department for a change in condition reassessment, the boarding home shall receive payment from the department beginning on whichever date is later: (1) The date that the boarding home requested a department reassessment; or

(2) The date on which the boarding home begins to provide the care and services necessary to meet the resident's change in condition.

Provides that if a person becomes financially eligible for medicaid after admission to the boarding home and the boarding home has a medicaid contract with the department under chapter 74.39A RCW, the boarding home shall receive payment from the department beginning on whichever of the following dates is later: (1) The date of the request for assessment or financial application, whichever is earlier; or

(2) The date the person is determined to have been financially eligible.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the director of agriculture to convene an advisory committee composed of representatives from the various segments of the cattle industry that will be involved in the implementation of the state's component of the national animal identification program for animal health and disease trace-back purposes.

Requires the advisory committee to evaluate the requirements of the federal program and examine approaches being taken by other states to implement the requirements, with an emphasis on neighboring states and the states that engage in the largest amount of trade in cattle with Washington, and evaluate demonstration projects that the department shall conduct at two or more facilities that handle large numbers of animals. The advisory committee shall make a recommendation on how the federal requirements should be implemented in Washington that includes recommended funding amounts and sources. In developing a funding proposal, the advisory committee shall consult with the office of financial management.

Directs the department to submit a written report of the activities and recommendations of the advisory committee to the house of representatives and to the senate by December 1, 2006.

SB 6377 by Senators Doumit, Rasmussen, Schoesler, Swecker, Morton, Zarelli, Shin, and Pflug

Regarding milk sales under cow share agreements.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that the existing definition of "sale" as provided in chapter 15.36 RCW includes arrangements known as "cow shares," in which one or more individuals purchase one or more shares in a milk-producing animal in return for a portion of the milk that is produced. It is the intent of the legislature to clarify that the existing definition includes these arrangements.

Authorizes the director to issue a cease and desist order to any person whom the director has reason to believe is engaged in an activity for which a license is required by chapter 15.36 RCW. The person to whom such notice is issued may request an adjudicative proceeding to contest the order.

Provides that the sale of raw milk from a dairy farm that is not licensed as a milk producer and a milk processing plant under this chapter constitutes a class C felony punishable according to chapter 9A.20 RCW. Neither the issuance of a cease and desist order nor payment of a civil penalty relieves the person so selling raw milk from criminal prosecution, but the remedy of a cease and desist order or civil penalty is in addition to any criminal liability.

SB 6377-S by Senate Committee on Agriculture & Rural Economic Development (originally sponsored by Senators Doumit, Rasmussen, Schoesler, Swecker, Morton, Zarelli, Shin, and Pflug)

Changing the regulation of milk and milk products.

(DIGEST AS ENACTED)

Finds that the existing definition of "sale" as provided in chapter 15.36 RCW includes arrangements known as "cow shares," in which one or more individuals purchase one or more shares in a milk-producing animal in return for a portion of the milk that is produced. It is the intent of the legislature to clarify that the existing definition includes these arrangements.

Authorizes the director to issue a cease and desist order to any person whom the director has reason to believe is engaged in an activity for which a license is required by chapter 15.36 RCW. The person to whom such notice is issued may request an adjudicative proceeding to contest the order.

Declares that it is unlawful for any person to sell raw milk from a dairy farm that is not licensed as a milk producer or a milk processing plant under chapter 15.36 RCW.

Declares that the sale of raw milk from a dairy farm that is not licensed as a milk producer and a milk processing plant under this act constitutes: (1) For the first offense, a gross misdemeanor; and

(2) For the second and subsequent offenses, a class C felony punishable according to chapter 9A.20 RCW.

Provides that neither the issuance of a cease and desist order nor payment of a civil penalty relieves the person so selling raw milk from criminal prosecution, but the remedy of a cease and desist order or civil penalty is in addition to any criminal liability.

Finds that: (1) Rising costs of natural gas are creating an economic hardship for Washington's small business and food processing industries.

(2) Natural gas costs are unlikely to return to historically low levels of a few years ago making investments in energy efficiency increasingly important.

(3) Washington investor-owned and consumer-owned natural gas utilities are uniquely well positioned to help small business and food processors improve the efficiency of natural gas use and reduce current and long-term energy costs.

(4) The state of Washington can assist gas utility energy efficiency efforts by providing small public utility tax credits for installation of high-efficiency equipment and processes that might not otherwise occur.

VETO MESSAGE ON ESSB 6384

March 31, 2006

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Sections 105(6); 106 (4), line item 13, page 10; 116; 155(1), (2), (3); 180; 195; 199; 211; and 230 of Engrossed Substitute Senate Bill No. 6384 entitled:

My reasons for vetoing these sections are as follows:

Section 105(6), pages 5-6, Department of Community, Trade, and Economic Development, Housing Liability Revolving Fund

This proviso would require the Department of Community, Trade and Economic Development (CTED) to contract with the Washington State Housing Finance Commission to establish a liability revolving fund for condominium and multi-unit residential buildings. This provision was previously included in legislation that failed to pass this session. The language defines eligibility for a new, on-going service. It is inappropriate to establish this type of program in an appropriations bill.

Although I have vetoed Section 105(6), I am directing CTED to work with the Housing Finance Commission to accomplish these program goals to the maximum extent allowable under law.

Section 106(4), line item 13 on page 10, Department of Community, Trade, and Economic Development, Tritrail Feasibility Study

This project would provide general obligation bond funds to study a three-city walking and biking trail, starting in Tukwila and eventually linking to Mount Rainier National Park. It is not prudent to use long-term bond financing to pay for a feasibility study. I have, therefore, vetoed the appropriation related to this project.

Section 116, pages 19-20, Department of General Administration, Pritchard Building Pre-design

This Americans with Disabilities Act of 1990 (ADA) access project was funded in the 2005-07 capital budget. Proviso language was added in this bill to require the Department of General Administration to include design and construction of the ADA pathway project to the Pritchard Building as part of the Pritchard Building pre-design. The pre-design is a separate

project and combining these projects could add another year to the ADA path project, as well as increase the total cost. The Capitol Campus Design Advisory Committee has approved the ADA access plan and the ADA path project is ready to proceed to design. I have vetoed Section 116 to allow for timely completion of this project.

Section 155(1), (2), and (3), pages 45 -46, Interagency Committee for Outdoor Recreation, Hood Canal Grant Program

Sections 155 (1), (2) and (3) establish a process for the Interagency Committee for Outdoor Recreation (IAC) to administer a grant program addressing low-dissolved oxygen concentrations in Hood Canal. It is a reasonable approach to allow the Governor to remove projects from a list developed by the Puget Sound Action Team, and for the IAC not to commit funds until the Legislature has appropriated funds for a specific list of projects. However, this new process will prevent any projects from being started until the spring of 2007.

In order for these critical projects to move forward as quickly as possible, I have vetoed Sections 155 (1), (2) and (3). In addition, I am directing the IAC to proceed with a process to select projects based on the prioritized recommendations of the Puget Sound Action Team and the Hood Canal Coordinating Council. I also am instructing the IAC to review the list of projects with the Governor's Office and appropriate legislators before signing contracts.

Section 180, page 58, Department of Fish and Wildlife, Olympia Facilities

Section 180 directs the Department of Fish and Wildlife to vacate its downtown Olympia facilities by June 2007 and for the Department of General Administration to dispose of the properties. RCW 77.12.210 gives the director of the Department of Fish and Wildlife the authority to maintain and manage real or personal property owned, leased, or held by the department. The Fish and Wildlife Commission may authorize the director to dispose of real or personal property under the control of the department. This section directing the Department of General Administration to dispose of this property conflicts with this existing statute.

Although I have vetoed Section 180, I am directing the Department of General Administration to work with the Department of Fish and Wildlife to develop a plan addressing the consolidation of services, relocation of users, and long-term use of the properties, and to report to the Legislature and Office of Financial Management by December 1, 2006.

Section 195, pages 68-69, State Board of Education, IslandWood

This section adds funding for capital projects at IslandWood Education Center. Article IX, Section 3 of the Washington State Constitution states that the Common School Construction Account shall be used exclusively for financing the construction of facilities for the common schools. RCW 28A.150.020 defines common schools as schools maintained at public expense in each school district and carrying on a program from kindergarten through the twelfth grade or any part thereof including vocational educational courses otherwise permitted by law. IslandWood is a non-profit organization that serves students from fifty schools and 50,000 households in Puget Sound. I have vetoed Section 195 because funding a non-profit entity is not consistent with the intended use of the Common School Construction Account.

Section 199, pages 71-72, State Board of Education, Acoustic Technology

This section would provide funding for demonstration projects to test the use of sound amplification technology in the classroom. Grant recipients must contribute a 50 percent match for these funds and provide a measure of the effectiveness of this technology. There is no evidence that suggests that the use of this technology creates a substantial benefit to students. In addition,

the program is likely to have substantial future costs. For these reasons, I have vetoed Section 199.

Section 211, pages 76-77, State Arts Commission, Capitol Sundial Repair

This section provides funding to support a \$5,000 competitive grant for design and repair of the State Capitol Sundial. This small amount is not appropriately financed through long-term general obligation bonds. I have vetoed Section 211 and believe that other funding sources can be found for this project.

Section 230, pages 92-93, Vendor Services

Section 230 eliminates the rent currently paid by the Department of Services for the Blind (DSB) for food service providers and vending machines. It also requires that the Department of General Administration (GA) pay preventative maintenance on food service equipment used by these vendors; that private buildings with at least 100 state employees contract with the DSB for vending facilities and/or vending machines in the cities of Olympia, Lacey and Tumwater; and that GA conduct a study establishing a process for blind vendors to enter into franchise agreements with commercial food providers.

Although I am concerned about the issues addressed by this section, I believe it is inappropriate to simply transfer these vendor costs to state agencies that pay rent in state buildings. I have vetoed Section 230 in order to allow more time to assess the situation statewide, and explore alternatives.

With the exception of Sections 105(6); 106(4), line item 13, page 10; 116; 155(1), (2), (3); 180; 195; 199; 211; and 230 as specified above, Engrossed Substitute Senate Bill No. 6384 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

VETO MESSAGE ON ESSB 6386

March 31, 2006

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to parts of Sections 126 (42), 126(63), 128(3), 128(10), 131(2), 137(12), 139, 204(1)(x), 207(5), 217(13), 217(17), 221(25), 302(16), 307(21)(c), 308(16), 518(4), 602(16), 602(22), 602(25), 603(18), 604(14), 606(5), 607 (7), 611(1), 611(3), 708(1)(d), 711(4), and 906, of Engrossed Substitute Senate Bill No. 6386 entitled:

My reasons for vetoing the above-noted Sections are as follows:

Section 126(42), page 31, Department of Community, Trade, and Economic Development, Small Business Incubators

This proviso funds implementation of Third Substitute House Bill 1815 pertaining to Small Business Incubators, and stipulates that the appropriation will lapse if the bill is not enacted. Since that bill did not pass the Legislature, I have vetoed Section 126(42).

Section 126(63), page 34, Department of Community, Trade, and Economic Development, Washington Trade Corps Fellowship Program

This proviso funds implementation of Substitute Senate Bill 6330 and stipulates that the appropriation will lapse if the bill is not enacted. Since I have vetoed Substitute Senate Bill 6330, I have also vetoed Section 126(63).

Section 128(3), page 36, Office of Financial Management, Classified School Employees

New language directs the Washington Learns steering committee to review funding for classified school employees and to report findings and recommendations that include how classified school employees can enhance students' abilities to meet state learning standards. Washington Learns is a comprehensive study of education from early learning through higher education, encompassing all employee groups within the educational system. I have vetoed Section 128(3) because it is not necessary to single out any specific class of employees, and because the requirements of this new language will be met under the current work plan for Washington Learns.

Section 128(10), page 38, Office of Financial Management, Report on State-purchased Health Care Costs

This proviso requires the Office of Financial Management to prepare a report on state-purchased health care costs and expenditures. Since no funding is provided for this activity, I have vetoed section 128(10).

Section 131(2), page 40, State Lottery, Research

This proviso permits the use of agency appropriations for the implementation of Senate Concurrent Resolution 8417, and stipulates that the subsection will lapse if the resolution is not enacted. Since that resolution did not pass the Legislature, I have vetoed Section 131(2).

Section 137(12), page 46, Department of Revenue, Streamlined Sales Tax

This proviso funds implementation of Substitute Senate Bill 6594 and stipulates that the appropriation will lapse if the bill is not enacted. Since that bill did not pass the Legislature, I have vetoed Section 137(12).

Section 139, page 46-47, Municipal Research Council, Special Purpose Districts

I have vetoed the portion of Substitute Senate Bill 6555 that diverts revenue from the general fund to the Special Purpose District Research Services Account. For consistency, I also have vetoed Section 139.

Section 204(1)(x), page 77, Department of Social and Health Services Mental Health Division, Mental Health Professionals

This proviso references Second Substitute House Bill 2912, which would require two mental health care professionals for all home visits that require mental health evaluations. Since that bill did not pass the Legislature, I have vetoed Section 204(1)(x).

Section 207(5), page 94, Department of Social and Health Services Economic Services Division, Child Support Schedule

This proviso funds Second Substitute House Bill 2462, which established work groups to periodically review the child support schedule, and stipulates that the appropriation will lapse if the bill is not enacted. Since that bill did not pass the Legislature, I have vetoed Section 207(5).

Section 217(13), page 116, Department of Labor and Industries, Agricultural Workers

This proviso funds Engrossed House Bill 2623 relating to agricultural workers, and stipulates that the appropriation will lapse if the bill is not enacted. Since the bill did not pass the Legislature, I have vetoed Section 217(13).

Section 217(17), pages 116-117, Department of Labor and Industries, Brochures on Building Contractors

This proviso provides \$10,000 General Fund-State solely for the Department of Labor and Industries to prepare consumer information brochures on contracting for new construction or remodeling construction work. I am directing the Department of Labor and Industries to perform all the functions and procedures listed in this proviso within existing funds. I have, therefore, vetoed Section 217(17).

Section 221(25), page 126, Department of Health, Background Checks/Health Care

This proviso funds implementation of Substitute House Bill 2431 and stipulates that the appropriation will lapse if the bill is not enacted. Since that bill did not pass the Legislature, I have vetoed Section 221(25).

Section 302(16), page 142, Department of Ecology, Brominated Flame Retardants

This proviso funds implementation of Engrossed Second Substitute House Bill 1488 and stipulates that the appropriation will lapse if the bill is not enacted. Since that bill did not pass the Legislature, I have vetoed Section 302(16).

Section 307(21)(c), page 153, Department of Fish and Wildlife, Fiscal Reporting and Modeling

This section requires Washington's Department of Fish and Wildlife (WDFW) to develop an electronic revenue forecast model with the Office of Financial Management and the Department of Revenue for forecasting the state Wildlife Account. Although the WDFW's ability to accurately forecast revenues has been a concern in the past, its current methodology has proven generally reliable. There is no evidence that a new forecasting model would significantly improve state Wildlife Account forecasts, and no additional funding was provided to develop a new model. For these reasons, I have vetoed Section 307(21)(c).

Section 308(16), page 161, Department of Natural Resources, Wildfire Prevention

This proviso directs the Department of Natural Resources to implement a workgroup defined in Substitute Senate Bill 6603, relating to wildfire prevention. Since that bill did not pass the Legislature, I have vetoed Section 308(16). However, the department has the authority to engage in this activity and I would encourage it to do so.

Section 518(4), page 222-223, Department of Early Learning, Contingency Funding

This proviso was included in the budget to serve as a contingency to reverse the funding transfers to the Department of Early Learning, if the new department had not been created. Since Second Substitute House Bill 2964 passed the Legislature, and the Department of Early Learning goes into effect on July 1, 2006, I have vetoed this section for the technical reason that it is no longer needed.

Section 602(16), page 229, State Board for Community and Technical Colleges, High Demand Training

This proviso provides funding for and directs the State Board for Community and Technical Colleges to identify high demand occupations, develop or utilize skills standards or credentials for those occupations, and market the standards and credentials to educational institutions and employers. This agency, the Higher Education Coordinating Board, the Workforce Training and Education Coordinating Board, and the Department of Employment Security have already accomplished much of this work in prior studies. I have, therefore, vetoed Section 602(16).

Section 602(22), page 231, State Board for Community and Technical Colleges, Nursing Faculty Retention Pilot Program

This proviso attempts to address a real problem relating to nursing recruitment and retention, but addresses it in a very narrow fashion. The State Board for Community and Technical Colleges, along with industry stakeholders, needs to consider various, statewide options for retaining nursing faculty and keeping qualified teachers in the classroom. This proviso directs state funds to a very limited number of sites with no plan for retention of faculty beyond the current year. Therefore, I have vetoed Section 602(22).

Section 602(25), page 231, State Board for Community and Technical Colleges, High School Completion

This proviso indicates that there is sufficient funding in the State Board for Community and Technical Colleges' budget to implement Engrossed Second Substitute House Bill 2582. Since that bill did not pass the Legislature, I have vetoed Section 602(25).

Section 603(18), page 235, University of Washington, Public Curriculum Study

This proviso directs the University of Washington's College of Education to conduct a review of curriculum offered by Washington public schools to examine the extent to which the curriculum accurately includes the history, contributions, and contemporary experiences of people of color. With 296 school districts in Washington making individual decisions regarding curriculum offered to students in more than 2,000 Washington schools, the study is a monumental task. It is not clear that the results of a narrow study will be applicable throughout the state. While this is an important issue, the scope of the study needs to be refined or funding must be increased. Therefore, I have vetoed Section 603(18).

Section 604(14), page 239, Washington State University, Local Government Reference

Although the provision of local government reference books may be valuable, this effort should be prioritized within existing resources. Therefore, I have vetoed Section 604(14).

Section 606(5), page 243, Central Washington University, Additional Tuition Waivers

This proviso funds additional tuition waivers. While I understand the inequity in the original waiver limits set by the Legislature more than a decade ago, I do not concur with this appropriation for a purpose that does not create additional enrollment slots for our students. Since the waiver limit has been in place so long, it is also clear that this is not an emergency that requires action in a supplemental budget. Therefore, I have vetoed Section 606(5).

Section 607(7), page 245, The Evergreen State College, Collective Bargaining Unit Training

This proviso expands collective bargaining and bargaining unit training at The Evergreen State College's Labor Education and Research Center. The Center currently provides similar training by contracting with those who will receive the training. The Center can expand the collective bargaining and bargaining unit training under its current finance model, so I have vetoed Section 607(7).

Section 611(1), page 256, Workforce Training and Education Coordinating Board, Private Vocational Schools

This proviso funds implementation of House Bill 2597 and stipulates that the appropriation will lapse if the bill is not enacted. Since that bill did not pass the Legislature, I have vetoed Section 611(1).

Section 611(3), page 257, Workforce Training and Education Coordinating Board, Worker Training B & O Tax

This proviso funds implementation of Engrossed Substitute House Bill 2565, relating to worker training business and occupation tax. The appropriation will lapse if the bill is not enacted. Engrossed Substitute House Bill 2565 did not pass the Legislature, so I have vetoed Section 611(3).

Section 708(1)(d), page 266, Department of Retirement Systems, Implementation of SHB 2934 (Survivor Health Benefits)

This proviso funds the implementation of Substitute House Bill 2934, and stipulates that the appropriation will lapse if the bill is not enacted. The provisions of that bill, however, passed the Legislature in Senate Bill 6723. Since the bill cited in this proviso did not pass the Legislature, I have vetoed Section 708(1)(d) for the sake of clarity.

Section 711(4), page 268, Strategic Purchasing Strategy

This proviso indicates that the State Board for Community and Technical Colleges is not subject to the General Fund-State allotment reduction related to implementation of a statewide purchasing strategy. In order to continue to encourage all state agencies to be as efficient and economical in their purchasing as possible, I have vetoed Section 711(4), and will direct the Department of General Administration to work with the colleges on a practical approach to achieve purchasing savings.

Section 906, pages 282-284, State Parks and Recreation Commission, Authority to Charge Day-Use Access or Parking Fees

This section prohibits the State Parks and Recreation Commission from charging fees for general park access or parking from the effective date of this bill through June 30, 2007. This prohibition also appears in Section 303(5) of this bill. Since the underlying statute has also been amended in Substitute House Bill 2416 to prohibit general park access or parking fees permanently, beginning April 9, 2006, Section 906 is redundant and unnecessary, I have vetoed Section 906. However, to harmonize the temporary disparities in effective dates, I hereby direct the State Parks and Recreation Commission to discontinue collecting these fees effective immediately.

In addition to these vetoes, I would like to comment on two other aspects of this bill:

Emergency Management

Section 150(7) provides \$2 million for the Military Department to expand its emergency management planning and training activities, study the feasibility of regional medical assistance and search-and-rescue teams, and administer a competitive grant program to support local emergency management efforts.

Emergency response is an important state priority, and I am directing the Military Department to report to me on a regular basis concerning the uses of this funding and the specific improvements in emergency preparation that have been achieved through the grant process.

Capital Projects

This operating budget bill includes funding for facility repair and renovation, trail upgrades, and property improvements that more appropriately belong in the capital budget. Although these projects have distinct public benefit, they create long-term assets and should be considered among all other capital needs and priorities rather than competing against critical general fund operating programs. I sincerely hope that next year the Legislature will keep projects of this nature out of the operating budget and in the capital budget, where they properly belong.

With the exception of those portions of sections 126(42), 126(63), 128(3), 128(10), 131(2), 137(12), 139, 204(1)(x), 207(5), 217(13), 217(17), 221(25), 302(16), 307(21)(c), 308(16), 518(4), 602(16), 602(22), 602(25), 603(18), 604(14), 606(5), 607(7), 611(1), 611(3), 708(1)(d), 711(4), and 906, as specified above, Engrossed Substitute Senate Bill No. 6386 is approved.

Respectfully submitted,
Christine O. Gregoire
Governor

Companion Bill: 2670

Authorizing hospital benefit zone financing.

Authorizes a local government to finance public improvements using hospital benefit zone financing subject to the following conditions: (1) The local government adopts an ordinance designating a benefit zone within its boundaries and specifying the public improvements proposed to be financed in whole or in part with the use of hospital benefit zone financing;

(2) The public improvements proposed to be financed in whole or in part using hospital benefit zone financing are expected both to encourage private development within the benefit zone and to support the development of a hospital that has received a certificate of need;

(3) Private development that is anticipated to occur within the benefit zone, as a result of the public improvements, will be consistent with the county-wide planning policy adopted by the county under RCW 36.70A.210 and the local government's comprehensive plan and development regulations adopted under chapter 36.70A RCW; and

(4) The governing body of the local government finds that the public improvements proposed to be financed in whole or in part using hospital benefit zone financing are reasonably likely to: (a) Increase private investment within the benefit zone; (b) Increase employment within the benefit zone; and (c) Generate, over the period of time that the local sales and use tax will be imposed under this act, state and local sales and use tax revenues that are

equal to or greater than the respective state and local contributions made under this act.

Companion Bill: 2961

Creating the Columbia river safety and coastal crab mitigation work group.

(SEE ALSO PROPOSED 1ST SUB)

Provides that the Columbia river safety and coastal crab mitigation work group shall: (1) Evaluate the safety risks from wave amplification and the impacts to the coastal crab resource of the state from the Columbia river channel improvement project, including annual maintenance at the mouth of the Columbia river and all ocean and in river disposal activity;

(2)(a) Examine the United States army corps of engineers' responsibilities for the monitoring and mitigation of the potential impacts identified in this act; and (b) evaluate the sufficiency of the United States army corps of engineers' monitoring and mitigation plans and activities in light of its responsibilities; and

(3) Adopt recommended practices or guidelines for monitoring, dredging, or disposal activities that would help avoid, minimize, or compensate for the impacts set forth in this act, should the work group find such practices or guidelines to be necessary. The practices or guidelines must be completed by December 31, 2006.

SB 6402-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senators Doumit, Oke, Jacobsen, Regala, Spanel, and Shin)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the work group to evaluate the safety risks from wave amplification and the impacts to the coastal crab resource of the state from the Columbia river channel improvement project, including annual maintenance at the mouth of the Columbia river and all ocean and in-river disposal activity. The work group shall adopt recommendations for measures that would help to avoid, minimize, or compensate for such risks and impacts, and shall provide these recommendations to the appropriate committees of the senate and house of representatives by December 31, 2006.

Directs the work group to attempt to work cooperatively with the United States army corps of engineers as it carries out its duties under this act. The work group shall attempt to work with the corps of engineers and Washington state's congressional delegation in order to address the risks and impacts from the Columbia river channel improvement project identified under this act and to implement the work group's recommendations.

Allowing six-year long collective bargaining agreements.

(DIGEST AS PASSED LEGISLATURE)

Authorizes six-year long collective bargaining agreements.

VETO MESSAGE ON SB 6411

March 29, 2006

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Senate Bill No. 6411 entitled:

This bill allows bargaining a contract of up to six years for public employees who are covered by the Public Employees' Collective Bargaining Act (PECBA). The intent of the legislation is to provide stability and lower costs for smaller local governmental entities. However, current law restricts contracts under PECBA to a three-year duration.

PECBA covers mainly city, county and local government employees. It also includes several state employee groups, including state troopers, the University of Washington Print Shop, and several other higher education classified units. At least

one of the state employee groups covered by the PECBA has binding interest arbitration - state troopers. In addition, home health care workers, and family childcare providers, who are also covered by PECBA, have binding interest arbitration. This dispute resolution mechanism could lead to settlements that violate the principle that the state cannot obligate future legislatures beyond the current biennium.

If an imposed settlement violated this principle, court challenges could ensue. While I understand that current law allows for contracts to exceed the two-year budget cycle, this was not an issue of concern for the state until last year when changes in the state troopers' bargaining law allowed for bargaining over wages and benefits. In the last several years, the addition of collective bargaining rights for home care workers and family child care workers also increases the likelihood of legal challenges over contract duration.

If legislation were introduced in the next session with provisions to address the above concerns regarding state employee groups, I would certainly look much more favorably on the bill.

For these reasons, I have vetoed Senate Bill No. 6411 in its entirety.

Respectfully submitted,
Christine O. Gregoire
Governor

VETO MESSAGE ON ESSB 6428

March 24, 2006

To the Honorable President and Members,
The Senate of the State of Washington

Ladies and Gentlemen:

I am returning herewith, without my approval as to sections Section 26, Engrossed Substitute Senate Bill No. 6428 entitled:

This bill creates a recycling program for "electronic wastes," which includes used and unwanted computers and televisions. Section 26 of the bill would prohibit the export of these wastes to certain other countries.

I regret that, based on legal advice, the State of Washington does not have the necessary authority to prohibit the export of electronic waste. Accordingly, I will not put the entire bill at risk because of this section alone.

However, I believe that the section represents good environmental policy. I will therefore call on the President and Congress to take up this issue and enact legislation that prohibits the export of our hazardous wastes to third world countries that are not prepared to manage them.

Once enacted by the federal government, I recognize this might affect our options for proper recycling and disposal of e-wastes. To make sure we are ready, I hereby direct the Department of Ecology to evaluate alternatives to the export of these wastes and recommend actions as needed to ensure capacity for their proper management.

For the remainder of the bill, this is a new program for the state and it will take some time and experience to make sure it runs right. I am asking Ecology to work closely with all affected stakeholders to ensure that this bill is implemented in a fair and equitable manner.

Along that line, I am directing Ecology to take the following steps:

1. To adopt, within their new program rules, rigorous financial assurance requirements for new manufacturers, sufficient to ensure that they will be responsible for recycling their products and not leave them for others to clean up;

2. To evaluate alternatives for managing legacy e-waste products in a manner that does not create competitive differences between existing and new companies, including a way to distribute costs of recycling past products more fairly among all affected parties; and,

3. To evaluate the use of product toxicity in lieu of, or in addition to, product weight, when determining equitable cost shares.

In addition, I am asking Ecology to provide annual reports on the progress, problems, and stakeholder concerns with implementation of this bill. The reports should include any needed changes to the statute to ensure fairness and clarity in the program.

For these reasons, I have vetoed Section 26 of Engrossed Substitute Senate Bill No. 6428.

With the exception of Section 26, Engrossed Substitute Senate Bill No. 6428 is approved.

Respectfully submitted,
Christine Gregoire
Governor

Regarding the state interoperability executive committee.

(SEE ALSO PROPOSED 1ST SUB)

Finds that local governments need to have interoperable communications to ensure the public safety and welfare of all citizens in the state of Washington. In light of recent catastrophic events around the world, including in the United States, it is now more important than ever that all responders be able to communicate clearly and without interference or malfunction.

Finds that the legislature has learned that numerous states, the federal government, and some international governments have adopted the project-25 standard for interoperable communications. Local governments in Washington have started to purchase the project-25 interoperable communication standard equipment. In order to ensure that local governments continue to make smart purchasing decisions, they need certainty that the purchases will be interoperable with state equipment and that the state will adopt the national project-25 standards. It is the intent of this act to provide certainty to local governments that a statewide project-25 interoperable communications system will be in place throughout Washington in the near future, and the investments they are making are advantageous to the original intent of interoperable communications, thus ensuring the safety and welfare of Washington's citizens.

SB 6433 by Senators Kastama, Jacobsen, Poulsen, Pridemore, Rockefeller, Shin, Haugen, Rasmussen, Keiser, Regala, Thibaudeau, Franklin, McAuliffe, and Kohl-Welles

Establishing the emergency management, preparedness, and assistance account.

(AS OF SENATE 2ND READING 2/11/06)

Declares that recognizing that all disasters are local disasters, the legislature therefore intends to strengthen local emergency response, mitigation, preparation, and coordination by establishing a stable source of funding with the intent that Washington state become the nationally recognized leader in emergency management. The funding will be dedicated to the development and coordination of local government emergency management programs by encouraging joint training, citizen and industry involvement, public education, and relationship building among local and state emergency management officials.

Provides that, beginning in January 2008 and biennially thereafter, the department must conduct in conjunction with the emergency management council a strategic assessment of, and issue a report on, the ability of state, local, and tribal emergency management organizations to effectively provide for all phases of comprehensive emergency management. The assessment must: (1) Evaluate state, local, and tribal emergency management capabilities and needs;

(2) Evaluate the ability of state, local, and tribal emergency management organizations to provide emergency management mitigation, preparedness, response, and recovery;

(3) Evaluate the effectiveness of the emergency management structure at the state, local, and tribal levels;

(4) Provide findings and make recommendations that increase the ability of state, local, and tribal emergency management organizations to meet current and future risks; and

(5) Detail where and for what purpose funds under section 3 (1)(b) of this act have been distributed.

Requires the joint legislative audit and review committee to study and review the performance of programs implemented under this act.

SB 6433-S by Senate Committee on Government Operations & Elections (originally sponsored by Senators Kastama, Jacobsen, Poulsen, Pridemore, Rockefeller, Shin, Haugen, Rasmussen, Keiser, Regala, Thibaudeau, Franklin, McAuliffe, and Kohl-Welles)

(NOT SUBSTITUTED FOR - SEE ORIGINAL BILL)

Declares that recognizing that all disasters are local disasters, the legislature therefore intends to strengthen local emergency response, mitigation, preparation, and coordination by establishing a stable source of funding with the intent that Washington state become the nationally recognized leader in emergency management. The funding will be dedicated to the development and coordination of local government emergency management programs by encouraging joint training, citizen and industry involvement, public education, and relationship building among local and state emergency management officials.

Provides that, in order to provide funds for emergency management, preparedness, and assistance, an annual surcharge of two dollars per policy must be imposed on every homeowner's, mobile homeowner's, tenant homeowner's, and condominium unit owner's insurance policy, and an annual four-dollar surcharge shall be imposed on every commercial fire, commercial multiple peril, and business owner's property insurance policy, issued or renewed on or after the effective date of this act.

Provides that, beginning in January 2008 and biennially thereafter, the department must conduct in conjunction with the emergency management council a strategic assessment of, and issue a report on, the ability of state, local, and tribal emergency management organizations to effectively provide for all phases of comprehensive emergency management.

Requires the joint legislative audit and review committee to study and review the performance of programs implemented under this act.

Requires the committee to provide a final report on this review by December 2008.

Requires the department to submit a report quarterly to the office of financial management and the legislative fiscal committees detailing information on the emergency management, preparedness, and assistance account, including: The amount and type of deposits into the account; the current available fund balance as of the reporting date; and the projected fund balance at the end of the biennium based on current revenue and expenditure patterns.

Requires the joint legislative audit and review committee to study and review the performance of programs implemented under this act.

SB 6433-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Kastama, Jacobsen, Poulsen, Pridemore, Rockefeller, Shin, Haugen, Rasmussen, Keiser, Regala, Thibaudeau, Franklin, McAuliffe, and Kohl-Welles)

Creating a certificate of academic progress.

Provides that, beginning with the high school graduating class of 2008, a certificate of academic progress shall be available to students who have completed all state and local requirements for high school graduation except obtaining a certificate of academic achievement under RCW 28A.655.061 or a certificate of individual achievement under RCW 28A.155.045. The certificate of academic progress is not the equivalent of a high school diploma, but enables students to participate in commencement ceremonies upon meeting the criteria in this section.

Requires that, to be eligible for a certificate of academic progress, a student must: (1) Pass all state and local high school graduation requirements except for obtaining a certificate of academic achievement or a certificate of individual achievement and must have taken at least one retake;

(2) Maintain at least a ninety percent attendance level during the senior year of high school, however the school district superintendent may waive this requirement upon the student providing documentation of circumstances such as illness that warrant waiving this requirement; and

(3) Meet with counselors, teachers, and parents, as appropriate, to update the student's high school and beyond plan.

Companion Bill: 3146

Supporting community-based health care solutions.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that: (1) Despite sustained efforts at the federal and state level, too many people in Washington remain without access to appropriate health care. Particularly alarming is the increase in the number of small business employees who are uninsured. Without a health home, many low-income and other vulnerable populations are left to inefficiently navigate a fragmented treatment system that fails to support their long-term well-being.

(2) In recent years, numerous community-based organizations have emerged around the state to address health care concerns at a local level. Through innovation and public/private collaboration, they have demonstrated great success and show even greater promise in improving health care access for local residents. Less remote than state and federal agencies, these organizations have built on local relationships to increase the availability and affordability of services, and coordinate care, making efficient use of a wide variety of community resources to meet community needs.

(3) Many of these organizations have relied on grants from the healthy communities access program, an initiative of the United States department of health and human services that provided funding and technical assistance to support collaborative efforts at the local level to coordinate and strengthen health services for the uninsured and underinsured. The program, however, was recently discontinued, placing these local efforts at risk.

Declares that it is therefore the intent of the legislature to enhance and support the development of collaborative community-based organizations working at the local level to increase access to health care for Washington residents.

Provides that, by July 1, 2008, the board shall provide the governor and the legislature with an evaluation of the community health care collaborative grant program, describing the organizations and programs funded and the results achieved.

Particularly successful programs shall be highlighted with recommendations on whether, and how, the programs could be replicated statewide. The evaluation shall also summarize any recommendations from the participating organizations regarding ways to improve the grant program and for the state to otherwise support community-based organizations working to improve access to health care for Washington residents, including any changes in state statutes or regulations.

Appropriates the sum of three million one hundred thousand dollars, or as much thereof as may be necessary, is appropriated from the general fund to the health care authority for the fiscal year ending June 30, 2007, to carry out the purposes of this act. No more than one hundred thousand dollars may be used by the health care authority for administrative expenses associated with the program.

Increasing penalties for crimes committed with sexual motivation.

(SUBSTITUTED FOR - SEE 2ND SUB)

Provides that if an offender committed the offense with sexual motivation and the offender is being sentenced for an anticipatory offense under chapter 9A.28 RCW, the following additional times shall be added to the standard sentence range determined under this act based on the felony crime of conviction as classified under RCW 9A.28.020: (1) Two years for any felony defined under the law as a class A felony or with a statutory maximum sentence of at least twenty years, or both;

(2) Eighteen months for any felony defined under any law as a class B felony or with a statutory maximum sentence of ten years, or both;

(3) One year for any felony defined under any law as a class C felony or with a statutory maximum sentence of five years, or both;

(4) If the offender is being sentenced for any sexual motivation enhancements under this act and the offender has previously been sentenced for any sexual motivation enhancements on or after the effective date of this act, all sexual motivation enhancements under this act shall be twice the amount of the enhancement listed.

Provides that, notwithstanding any other provision of law, all sexual motivation enhancements under this act are mandatory, shall be served in total confinement, and shall run consecutively to all other sentencing provisions, including other sexual motivation enhancements, for all offenses sentenced under chapter 9.94A RCW. However, whether or not a mandatory minimum term has expired, an offender serving a sentence under this act may be granted an extraordinary medical placement when authorized under RCW 9.94A.728(4).

Companion Bill: 2923

Adopting a weighted multiple measures approach to graduation requirements.

Declares an intent to account for a student's entire high school academic history by using a weighted multiple measures approach to evaluate a student's readiness to graduate. This method recognizes all of the state's graduation requirements, considers the academic impact and benefit of each, and puts all in proper perspective. It honors a well-rounded, rigorous, and challenging educational experience that prepares our students for a changing and complex twenty-first century. It recognizes that while all students can learn at high levels, many demonstrate competencies through various strengths, learning styles, and different formats, and academically develop at different rates over time. It upholds all of the state's four learning goals throughout a student's high school tenure. It provides the opportunity to students to develop, grasp, and demonstrate many learning objectives, including those beyond the tenth grade. It will give students hope and reason to complete high school.

SB 6462 by Senators Shin, Berkey, Rasmussen, Jacobsen, Schmidt, Swecker, Honeyford, Pflug, and Sheldon

Companion Bill: 2640

Providing biotechnology product and medical device manufacturing tax incentives.

Finds that the state's economy is increasingly dependent on the expansion of knowledge-based sectors, including the life sciences.

Finds that commercial enterprises in the life sciences create high-wage, high-skilled jobs that are part of the state's effort to encourage economic diversification and stability. However, the legislature also finds that commercial life sciences businesses, particularly in biotechnology product and medical device manufacturing, incur significant costs associated with capital

infrastructure and job training often years before a product is licensed for marketing or a facility is licensed for manufacturing by governmental agencies in the United States and abroad.

Finds that current state tax policy discourages the growth of these companies in two ways: (1) Washington state's higher rate of taxation compared with other states and nations encourages the export of intellectual property and commercial operations out of Washington; and

(2) Taxing these businesses before facilities, or products produced therein, are licensed for marketing by regulatory agencies.

Finds that targeted tax incentives may encourage the formation, expansion, and retention of commercial operations within the life sciences sector. The legislature also finds that tax incentives should be subject to the same rigorous requirements for efficiency and accountability as are other expenditure programs, and that tax incentives should therefore be focused to provide the greatest possible return on the state's investment.

Establishes a program of business and occupation tax credits for qualified biotechnology product and medical device commercial expenditures.

Establishes a tax deferral program for commercial manufacturing facilities in this sector.

Provides preferential tax rates for retailing, wholesaling, and manufacturing activities related to biotechnology products and medical devices.

Declares that these limited programs serve the vital public purposes of incenting expenditures in commercial life science operations and the development of employment opportunities in this state.

Declares an intent to create a contract within the meaning of Article I, section 23 of the state Constitution as to those businesses that make capital investments in consideration of the tax deferral program established in this act.

Companion Bill: 2579

Requiring classroom-based civics assessments.

Finds that effective and accountable democratic government depends upon an informed and engaged citizenry, and therefore, students should learn their rights and responsibilities as citizens, where those rights and responsibilities come from, and how to exercise them.

Provides that, beginning with the 2008-09 school year, school districts shall require students in the fourth or fifth grades, the seventh or eighth grades, and the eleventh or twelfth grades to each complete at least one classroom-based assessment in civics. The civics assessment shall be selected from a list of classroom-based assessments approved by the office of the superintendent of public instruction. Beginning with the 2008-09 school year, school districts shall annually submit implementation verification reports to the office of the superintendent of public instruction documenting the use of the classroom-based assessments in civics.

Creating a blue ribbon commission on health care cost and access.

(SEE ALSO PROPOSED 1ST SUB)

Requires that, by December 1, 2006, the blue ribbon commission on health care cost and access shall develop a sustainable five-year plan to substantially improve access to affordable health care for all Washington residents. The plan shall: (1) Be based on explicit, measurable goals reflecting a realistic assessment of the current status of Washington's health care system, the medical treatment and services to which all Washington residents should have access, and the financial and other resources available to provide them;

(2) Identify the most significant factors contributing to increasingly inaccessible and unaffordable health care and health care insurance in Washington state;

(3) Include a list of strategies prioritized by their likelihood to cost-effectively address these factors and achieve the identified goals;

(4) Identify what must be done, by whom, and by when to assure implementation of each of the listed strategies, including any necessary changes in statute or administrative rule;

(5) Estimate the cost to the responsible party of implementing the listed strategies;

SB 6469-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Thibaudeau, Keiser, Haugen, Franklin, Brown, Jacobsen, McAuliffe, Spanel, Kline, and Kohl-Welles)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires that, by December 1, 2006, the blue ribbon commission on health care cost and access shall develop a sustainable five-year plan to substantially improve access to affordable health care for all Washington residents. The plan shall: (1) Be based on explicit, measurable goals reflecting a realistic assessment of the current status of Washington's health care system, the medical treatment and services to which all

Washington residents should have access, and the financial and other resources available to provide them;

(2) Identify the most significant factors contributing to increasingly inaccessible and unaffordable health care and health care insurance in Washington state;

(3) Include a list of strategies prioritized by their likelihood to cost-effectively address these factors and achieve the identified goals;

(4) Identify what must be done, by whom, and by when to assure implementation of each of the listed strategies, including any necessary changes in statute or administrative rule;

(5) Estimate the cost to the responsible party of implementing the listed strategies;

(6) Build a foundation for subsequent long-term plans to assure on-going access for all Washington residents to affordable health care.

Provides that the act shall be null and void if appropriations are not approved.

Companion Bill: 2726

Creating Washington manufacturing services in statute.

(SEE ALSO PROPOSED 1ST SUB)

Declares an intent that the state increase its support for delivery of modernization services to small and midsize manufacturers and leverage federal and private resources devoted to such efforts. It is the further intent of the legislature that the state facilitate the delivery of modernization services and: (1) Encourage small and midsize firms to aggregate their demand for training and other modernization services, thus driving down the cost to the individual firm and securing more effective services; and

(2) Encourage large firms to support training consortia among their suppliers and validate the importance of high performance work organization and workplace learning as desirable supplier practices.

Organizes Washington manufacturing services as a private, nonprofit corporation in accordance with chapter 24.03 RCW and this act. The mission of the center is to operate a modernization extension system, coordinate a network of public and private modernization resources, and stimulate the competitiveness of small and midsize manufacturers in Washington.

Companion Bill: 2785

Authorizing alternative methods of assessment and appeal processes for the certificate of academic achievement.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that, under RCW 28A.655.061, beginning in the 2006-07 school year, the superintendent of public instruction shall implement two objective alternative assessment methods for students to demonstrate achievement of the state standards in content areas in which the student did not meet the standard on the high school Washington assessment of student learning.

Provides that the alternative methods shall include: (1) A combination of a student's grades in applicable courses and the

student's highest score on the high school Washington assessment of student learning; and

(2) An evaluation of a collection of work samples. The evaluation of the work samples shall be conducted at the state level or regionally under the supervision of the office of the superintendent of public instruction using uniform scoring criteria.

Directs the superintendent of public instruction to implement: (1) By June 1, 2006, a process for students to appeal the score they received on the high school assessment; and

(2) By January 1, 2007, guidelines and appeal processes for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and to the certificate of individual achievement for students who: (a) Transfer to a Washington public school in their junior or senior year with the intent of obtaining a public high school diploma, or (b) have special, unavoidable circumstances.

SB 6475-S by Senate Committee on Early Learning, K-12 & Higher Education (originally sponsored by Senators McAuliffe, Schmidt, Eide, Weinstein, Haugen, Berkey, Kastama, Shin, Kohl-Welles, and Rasmussen; by request of Superintendent of Public Instruction)

(DIGEST AS ENACTED)

Requires that, under RCW 28A.655.061, beginning in the 2006-07 school year, the superintendent of public instruction shall implement objective alternative assessment methods for students to demonstrate achievement of the state standards in content areas in which the student did not meet the standard on the high school Washington assessment of student learning.

Declares that one alternative assessment method shall be a combination of the applicant's grades in applicable courses and the applicant's highest score on the high school Washington assessment of student learning, as provided in this act. The superintendent of public instruction shall determine which high school courses are applicable to the alternative assessment method and shall issue guidelines to school districts.

Requires that using guidelines prepared by the superintendent of public instruction, a school district shall identify the group of students in the same school as the applicant who took the same high school courses as the applicant in the applicable content area. From the group of students identified in this manner, the district shall select the comparison cohort that shall be those students who met or slightly exceeded the state standard on the Washington assessment of student learning.

Directs the district to compare the applicant's grades in high school courses in the applicable content area to the grades of students in the comparison cohort for the same high school courses. If the applicant's grades are equal to or above the mean grades of the comparison cohort, the applicant shall be deemed to have met the state standard on the alternative assessment.

Requires the superintendent of public instruction to develop an alternative assessment method that shall be an evaluation of a collection of work samples prepared and submitted by the applicant, as provided in this act and, for career and technical applicants, the additional requirements of this act.

Provides that, by September of 2006, the superintendent of public instruction shall develop informational materials for parents, teachers, and students regarding the collection of work samples and the status of its development as an alternative assessment method. The materials shall provide specific guidance regarding the type and number of work samples likely to be required, include examples of work that meets the state learning standards, and describe the scoring criteria and process for the collection. The materials shall also encourage students in the graduating class of 2008 to begin creating a collection if they believe they may seek to use the collection once it is implemented as an alternative assessment.

Provides that, for students enrolled in a career and technical education program approved under this act, the superintendent of public instruction shall develop additional guidelines for a collection of work samples.

Directs the superintendent of public instruction to study the feasibility of using existing mathematics assessments in

languages other than English as an additional alternative assessment option. The study shall include an estimation of the cost of translating the tenth grade mathematics assessment into other languages and scoring the assessments should they be implemented.

Provides that the superintendent of public instruction shall implement: (1) By June 1, 2006, a process for students to appeal the score they received on the high school assessments; and

(2) By January 1, 2007, guidelines and appeal processes for waiving specific requirements in RCW 28A.655.061 pertaining to the certificate of academic achievement and to the certificate of individual achievement for students who: (a) Transfer to a Washington public school in their junior or senior year with the intent of obtaining a public high school diploma, or (b) have special, unavoidable circumstances.

Provides that, by September 10, 2006, the superintendent of public instruction shall report the following, in detail, to the education committees of the legislature: (1) Results of the pilot testing of the alternative assessments authorized under this act, particularly the pilot testing of the collection of work samples or collection of evidence;

(2) The proposed guidelines, protocols, and procedures to be used by the superintendent in implementing the alternative assessments, particularly the collection of evidence;

(3) The proposed criteria, rubrics, and methodology for scoring the collection of evidence;

(4) A description of the training to be provided for school districts, educators serving on scoring panels, and teachers assisting students with collections of evidence;

(5) Preliminary results of the feasibility study in this act; and

(6) Updated estimates of the number of students likely to be eligible or apply for an alternative assessment method.

Provides that, by December 1, 2006, and again by February 1, 2007, the superintendent of public instruction shall provide the education committees of the legislature with an update on the number of students eligible for or participating in an alternative assessment method.

Directs the Washington state institute for public policy to conduct an independent and objective evaluation of the reliability, validity, and rigor of the alternative assessment methods authorized under this act, including an examination of a representative sample of the collections of work samples submitted by the graduating classes of 2008 and 2009. The institute shall submit its findings to the education committees of the legislature by September 1, 2009, to enable the legislature to develop and consider statutory changes to the alternative assessment during the 2010 legislative session.

Provides that a student's score on the mathematics portion of the preliminary scholastic assessment test (PSAT), the scholastic assessment test (SAT), or the American college test (ACT) may be used as an objective alternative assessment under this act for demonstrating that a student has met or exceeded the mathematics standards for the certificate of academic achievement. The state board of education shall identify the scores students must achieve on the mathematics portion of the PSAT, SAT, or ACT to meet or exceed the state standard for mathematics. The state board of education shall identify the first scores by December 1, 2006, and thereafter may increase but not decrease the scores required for students to meet or exceed the state standard for mathematics.

Provides that the act shall be null and void if appropriations are not approved.

SB 6480-S2 by Senate Committee on Transportation (originally sponsored by Senators Kohl-Welles, Haugen, Brown, and Keiser; by request of Department of Transportation)

Modifying public works apprenticeship utilization requirements.

(DIGEST AS ENACTED)

Revises public works apprenticeship utilization requirements.
Establishes an intent to assist returning veterans through programs such as the "helmets to hardhats" program, which is administered by the center for military recruitment, assessment, and veterans employment. It is the state's intent to assist returning veterans with apprenticeship placement career opportunities, in order to expedite the transition from military service to the construction work force.

Directs the secretary of transportation to establish an apprenticeship utilization advisory committee, which shall include statewide geographic representation and consist of equal numbers of representatives of contractors and labor. The committee must include at least one member representing contractor businesses with less than thirty-five employees. The advisory committee shall meet regularly with the secretary of

transportation to discuss implementation of this act by the department of transportation, including development of the process to be used to adjust the requirements of this act for a specific project. The committee shall provide a report to the legislature by January 1, 2008, on the effects of the apprentice labor requirement on transportation projects and on the availability of apprentice labor and programs statewide.

Directs the Washington state apprenticeship and training council to lead and coordinate an outreach effort to educate returning veterans about apprenticeship and career opportunities in the construction industry.

Companion Bill: 2919

Providing local assistance for state narcotics task forces.

Declares an intent to provide an annual combined level of state and federal funding for multijurisdictional drug task forces and local government drug prosecution assistance at a minimum of four million dollars.

Provides that three pilot enforcement areas shall be established for a period of four fiscal years, beginning July 1, 2006, and ending June 30, 2010, with one in the southwestern region of the state, comprising of Pacific, Wahkiakum, Lewis, Grays Harbor, and Cowlitz counties; one in the southeastern region of the state, comprising of Walla Walla, Columbia, Garfield, and Asotin counties; and one in the northeastern part of the state, comprising of Stevens, Ferry, Pend Oreille, and Lincoln counties. The counties comprising a specific pilot area will coordinate with each other to establish and implement a regional strategy to enforce illegal drug laws.

Declares an intent to provide funding of no less than one million five hundred seventy-five thousand dollars annually.

Requires the Washington association of sheriffs and police chiefs, the Washington association of prosecuting attorneys, and the Washington association of county officials to jointly develop measures to determine the efficacy of the programs in the pilot area. These measures will include comparison of arrest rates before the implementation of this act and after, reduction of recidivism, and any other factors that are determined to be relevant to evaluation of the programs. The organizations named in this section will present their findings to the legislature by December 1, 2008.

 presented may warrant a sentence above the standard sentencing
 range. The judge shall specify, in writing, which of the
 aggravating circumstances stated in RCW 9.94A.535 (2) or (3)
 appear to be present.

Provides that the defendant shall be informed at the time of
 the plea that: (1) The sentencing judge may decide to initiate
 proceedings pursuant to RCW 9.94A.535 to impose an aggravated
 exceptional sentence pursuant to this chapter at any time prior to
 the imposition of sentence; and

(2) If aggravated exceptional sentence proceedings are
 initiated the defendant may withdraw the plea of guilty and enter a
 plea of not guilty and the prosecutor shall not be bound by the
 plea agreement and is relieved of any obligation to comply with
 the terms of the plea agreement.

SB 6497 by Senators Kline, Franklin, and Hargrove

Companion Bill: 2948

Revising felony sentence ranges.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that statutorily granted judicial discretion in sentencing
 has been limited by appellate court decisions requiring jury
 findings prior to imposing sentences above the standard sentence
 ranges.

Finds that expanding the sentencing ranges is the most
 appropriate method of increasing judicial discretion while
 retaining commensurate and appropriate punishment for similarly
 situated offenders as well as assuring the frugal use of state and
 local government resources.

Declares an intent to provide judges with increased discretion
 and decrease the need to impose exceptional sentences. The
 legislature further intends that sentencing courts have the
 authority and power to adopt suitable processes of proceeding in
 cases where exceptional sentences are appropriate to the extent
 that such procedures are mandated by the United States
 Constitution or Washington state Constitution.

SB 6501 by Senators Rockefeller, Poulsen, Morton, Honeyford, Fraser, Regala, Kohl-Welles, Rasmussen, Kline, and Keiser; by request of Governor Gregoire

Companion Bill: 2775

Creating the Washington bioenergy loan program.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that: (1) Washington's dependence on energy supplied from outside the state and volatile global energy markets makes its economy and citizens vulnerable to unpredictable and high energy prices;

(2) Washington's dependence on petroleum-based fuels increases energy costs for citizens and businesses;

(3) Diesel soot from diesel engines ranks as the highest toxic air pollutant in Washington, leading to hundreds of premature deaths and increasing rates of asthma and other lung diseases;

(4) The use of biodiesel results in significantly less air pollution than traditional diesel fuels;

(5) Improper disposal and treatment of organic waste from farms and livestock operations can have a significant negative impact on water quality;

(6) Washington has abundant supplies of organic wastes from farms that can be used for energy production and abundant farmland where crops could be grown to supplement or supplant petroleum-based fuels;

(7) The use of energy and fuel derived from these sources can help citizens and business conserve energy and reduce the use of petroleum-based fuels, would improve air and water quality in Washington, reduce environmental risks from farm wastes, create new markets for farm products, and provide new industries and jobs for Washington citizens; and

(8) The bioenergy industry is a new and developing industry that is, in part, limited by the availability of capital for the construction of facilities for converting farm and forest products into energy and fuels.

Finds that it is in the public interest to encourage the rapid adoption and use of bioenergy, to develop a viable bioenergy industry within Washington state, and to support a viable agriculture industry to grow bioenergy crops. To accomplish this, the Washington bioenergy loan program is established to stimulate the construction of facilities in Washington to generate energy from farm sources or convert organic matter into fuels.

Creates a statewide automated victim information and notification system.

SB 6502-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Roach, Kohl-Welles, Weinstein, Kline, McCaslin, Benton, and Rasmussen)

(AS OF SENATE 2ND READING 2/09/06)

Creates a statewide automated victim information and notification system.

Finds that notifying victims of crime when their offender is released from incarceration, transferred, or served with a protective order is vital to enhancing the safety and mental well-being of a victim. In recognition of the victim's needs, some Washington state local governments have implemented a victim notification system. However, only a few local governments have implemented these systems which are presently not connected to an interoperable statewide system.

Declares it is the intent of this act to provide victims throughout our state with the knowledge they need to secure their physical and mental well-being.

Companion Bill: 2738

Developing minimum renewable fuel content requirements and fuel quality standards in an alternative fuels market.

(SUBSTITUTED FOR - SEE 1ST SUB)

Prescribes minimum renewable fuel content requirements and fuel quality standards in an alternative fuels market.

SB 6508-S by Senate Committee on Water, Energy & Environment (originally sponsored by Senators Rasmussen, Poulsen, Kline, McCaslin, Brown, Oke, Schmidt, Swecker, Finkbeiner, and Kohl-Welles; by request of Governor Gregoire)

(DIGEST AS ENACTED)

Prescribes minimum renewable fuel content requirements and fuel quality standards in an alternative fuels market.

Finds that it is in the public interest to establish a market for alternative fuels in Washington. By requiring a growing percentage of our fuel supply to be renewable biofuel that meets appropriate fuel quality standards, we will reduce our dependence on imports of foreign oil, improve the health and quality of life for Washingtonians, and stimulate the creation of a new industry in Washington that benefits our farmers and rural communities.

Finds that it is in the public interest for the state to play a central role in spurring the market by purchasing an increasing amount of alternative fuels produced in Washington.

Finds that we must act now and that the time available before the requirements of this act take effect is sufficient for feedstock and fuel providers to prepare for successful implementation.

Declares an intent for consumers to have a choice of fuels and to encourage and promote the development, availability, and use of a diversity of renewable fuels and fuel blends ranging from fuels composed of no renewable content to completely renewable fuels.

SB 6512 by Senators Fraser, Pridemore, Honeyford, Poulsen, Mulliken, Regala, Rockefeller, Delvin, and Kline

Enhancing air quality at truck stops.

(SUBSTITUTED FOR - SEE 1ST SUB)

Recognizes that the air quality around idling heavy duty diesel vehicles at truck stops can contribute to unhealthy conditions. Idling vehicles not only consume up to one billion gallons of diesel fuel a year, but also contribute to air pollution by releasing fine particles, volatile organic compounds, carbon monoxide, carbon dioxide, and nitrogen oxides. These emissions contribute to deteriorating human health conditions, including asthma, heart disease, cancer, and aggravated allergies. Idling vehicles also contribute to driver fatigue through exposure to noise, vibration, and elevated levels of carbon monoxide and other pollutants.

Declares that Washington state seeks to encourage private entities to address this source of air pollution by providing incentives to those who provide the infrastructure and services that support the use of auxiliary power through onboard or stand-alone electrification systems.

Requiring biomonitoring as an element of the environmental health tracking program.

(SEE ALSO PROPOSED 1ST SUB)

Requires biomonitoring as an element of the environmental health tracking program.

Provides that, by September 30, 2006, the department of health, in consultation with the department of ecology and local health jurisdictions, shall provide recommendations to the governor and the appropriate committees of the senate and house of representatives for funding the biomonitoring program. The recommendations shall provide a proposed phase-in of the top ten highest priorities identified by the department of health's 2003 biomonitoring plan, and shall include recommendations for sharing of costs among federal, state, local, and nongovernmental entities. The department of health's implementation recommendations shall include the objective of integrating with and complementing nationwide monitoring programs.

Appropriates the sum of fifty thousand dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2007, from the state toxics control account to the department of health for the purposes of this act.

Regarding biodiesel mandates for state agencies and contractors.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, effective June 1, 2009, all state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agency for the operation of the agency's diesel-powered vehicles, vessels, and equipment.

Provides that, effective June 1, 2020, all state agencies are required to use a minimum of thirty percent biodiesel as compared to total volume of all diesel purchases made by the agency for the operation of the agency's diesel-powered vehicles, vessels, and equipment.

Requires the department of general administration to, in consultation with the department of community, trade, and economic development's energy policy division, produce an inventory of large, centralized power plants at state facilities.

Requires state institutions of higher education to cooperate with the department in producing the inventory. The department shall report its findings to the appropriate committees of the legislature by December 1, 2006.

Provides that, effective June 1, 2009, all state public works contracts in excess of ten million dollars shall require the winning bidder of the contract to verify that the contractor and subcontractors will use an average of twenty percent biodiesel as compared to total volume of all diesel consumed in vehicles, vessels, and equipment, used in the performance of the contract.

Provides that, effective June 1, 2009, all state agencies are required to use a minimum of twenty percent biodiesel as compared to total volume of all diesel purchases made by the agency for the operation of the agency's diesel-powered vehicles and equipment.

Provides that the department of general administration must assist state agencies seeking to meet the biodiesel fuel mandates in RCW 43.19.642 by coordinating the purchase and delivery of biodiesel if requested by any state agency. The department may use long-term contracts of up to ten years to secure a sufficient and stable supply of biodiesel for use by state agencies.

Requires the department of general administration to coordinate a biodiesel technical assistance team, including representatives from the department of agriculture, the department of ecology, the department of community, trade, and economic development's energy policy division, and Washington State University's energy program. The team shall provide assistance to fleet managers and recommend best management practices concerning the use of biodiesel.

SB 6517 by Senators Fraser, Poulsen, Pridemore, Rockefeller, Regala, and Kline

Creating the uniform environmental covenants act.

Finds that the national conference of commissioners on uniform state laws has developed model legislation called the uniform environmental covenants act. The act ensures that environmental covenants, recorded use restrictions negotiated in connection with hazardous waste site cleanups, and other environmental response projects are legally valid and enforceable. The uniform environmental covenants act achieves this objective by providing clear statutory standards that override court-made doctrines that do not fit such land cleanup and reuse contexts.

Finds that nothing in this act will amend or modify any local or state laws that determine when environmental covenants are required, when a particular contaminated site must be cleaned up, or the standards for a cleanup.

Declares that adoption of the uniform environmental covenants act in Washington will provide all participants in a cleanup with greater confidence that environmental covenants and other institutional controls will be effective over the life of the cleanup. This will speed cleanups of many sites and assist in the recycling of urban brownfield properties into new economic uses for the benefit of the citizens of Washington.

Provides that, by September 1st of each year, state agencies shall report their energy used in the previous fiscal year to the department of general administration.

SB 6518-S by Senate Committee on Water, Energy & Environment (originally sponsored by Senators Fraser, Mulliken, Poulsen, Honeyford, Pridemore, Regala, Kline, and Keiser)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, by September 1, 2009, each state agency is encouraged to reduce its electrical and heating consumption by fifteen percent from fiscal year 2005, using all practicable, cost-

effective means available, including energy efficiency programs and the use of on-site renewable resources. The department of general administration, in cooperation with the state energy office, shall develop standards and formulas to assist agencies in meeting this goal.

Provides that, by September 1st of each year, each state agency shall report to the department of general administration its electrical and heating reduction efforts for the previous fiscal year. By December 31st of each year, the department shall summarize the reports and report to the appropriate committees of the legislature. The summary shall include details on how each agency was able to reduce its electrical and heating consumption.

SB 6519-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Benton, Benson, Schoesler, Carrell, Esser, Jacobsen, Pflug, Mulliken, Johnson, Honeyford, Sheldon, Roach, Kline, Oke, Rasmussen, and Keiser)

Requiring level III sex offenders to report to law enforcement every three months. (REVISED FOR PASSED LEGISLATURE: Requiring level II and III sex offenders to report in person every ninety days.)

(DIGEST AS ENACTED)

Provides that all offenders who are required to register pursuant to this act who have a fixed residence and who are designated as a risk level II or III must report, in person, every ninety days to the sheriff of the county where he or she is registered. Reporting shall be on a day specified by the county sheriff's office, and shall occur during normal business hours.

Provides that an offender who complies with the ninety-day reporting requirement with no violations for a period of at least five years in the community may petition the superior court to be relieved of the duty to report every ninety days. The petition shall be made to the superior court in the county where the offender resides or reports under this act. The prosecuting attorney of the county shall be named and served as respondent in any such petition. The court shall relieve the petitioner of the duty to report if the petitioner shows, by a preponderance of the evidence, that the petitioner has complied with the reporting requirement for a period of at least five years and that the offender has not been convicted of a criminal violation of this act for a period of at least five years, and the court determines that the reporting no longer serves a public safety purpose. Failure to report, as specified, constitutes a violation of this act and is punishable as provided in this act.

SB 6528 by Senators Mulliken, Kastama, Benson, Oke, Esser, Berkey, and Sheldon; by request of Department of Transportation

Companion Bill: 2875

Permitting roadside tire chain businesses.

(SUBSTITUTED FOR - SEE 1ST SUB)

Authorizes the department to issue written permits authorizing permittees to install or remove tire chains on motor vehicles with the following conditions: (1) Chains may only be installed or removed at locations designated in the permit;

(2) Permittees must comply with terms and conditions in the permit relating to the safe and orderly movement of traffic; and

(3) Permittees may charge a fee to drivers for their services.

SB 6528-S by Senate Committee on Transportation (originally sponsored by Senators Mulliken,

Kastama, Benson, Oke, Esser, Berkey, and Sheldon; by request of Department of Transportation)

(DIGEST AS ENACTED)

Authorizes the department to issue written permits authorizing permittees to install or remove tire chains on motor vehicles with the following conditions: (1) Chains may only be installed or removed at locations designated in the permit;

(2) Permittees must comply with terms and conditions in the permit relating to the safe and orderly movement of traffic; and

(3) Permittees may charge a fee to drivers for their services.

Authorizes the department to issue sufficient permits for the installation or removal of tire chains that it finds necessary or desirable to accommodate the demand for those services consistent with the maximum convenience and safety to traffic. In issuing the permits, the department shall insure that the maximum practicable number of different individuals and entities receive permits, and that no one entity, to the extent practicable, is the sole permit holder for a particular location. The department may charge a fee no greater than fifty dollars to permittees for the issuance of permits.

Provides that the department, in issuing a permit for the installation or removal of tire chains, assumes no responsibility for the actions, inactions, competence, or reliability of the permittee in performing those services and shall not be liable for the damages relating to acts or omissions of the permittees. The department shall adopt rules to implement this act, including requiring permittees to wear reflective clothing and use appropriate signage.

SB 6532 by Senators Delvin, Schoesler, Morton, and Jacobsen

Companion Bill: 2414

Regarding Washington's academic assessment system.

(SEE ALSO PROPOSED 1ST SUB)

Requires the superintendent of public instruction to revise the Washington state accountability plan required under section 1111 of P.L. 107-110, the no child left behind act of 2001, to incorporate the following changes to the state academic assessment system: (1) Assessments administered in grades three, five, six, and eight shall assess students learning in reading, mathematics, and science as required by P.L. 107-110 without relying on subjective, open-ended extended responses to test questions; and

(2) The assessment system shall incorporate a combination of statewide and locally selected assessments, as permitted by P.L. 107-110, to provide options other than the Washington assessment of student learning for school district boards of directors to use in grades three, five, six, and eight.

Requires the superintendent to submit the proposed revised plan to the education committees of the legislature for review no later than the 2007 legislative session. After the legislature formally approves the plan through legislation or concurrent resolution, the superintendent shall submit the revised plan to the appropriate federal authorities in time to ensure locally selected assessments for use during the 2007-08 school year.

SB 6532-S by Senate Committee on Early Learning, K-12 & Higher Education (originally sponsored by Senators Delvin, Schoesler, Morton, and Jacobsen)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Requires the superintendent of public instruction to request the United States department of education to provide flexibility to local school districts in selecting the assessments administered in grades three, five, six, and eight in reading and mathematics as required by P.L. 107-110. The superintendent shall request the flexibility to incorporate a combination of statewide and locally selected assessments to provide options for school district boards of directors to use in grades three, five, six, and eight.

Provides that, in developing the proposal to request flexibility, the superintendent of public instruction shall work with local school directors, school districts, school administrators, teachers, principals, other school staff, and parents.

Provides that, after receiving approval from the United States department of education, the superintendent of public instruction shall revise the Washington state accountability plan required under section 1111 of P.L. 107-110, the no child left behind act of 2001, to incorporate the flexibility into the plan.

Directs the superintendent of public instruction to submit the revised Washington state accountability plan to the education committees of the legislature for review no later than the 2007 legislative session.

SB 6535 by Senator Jacobsen

Concerning aquatic land leases.

(SEE ALSO PROPOSED 1ST SUB)

Provides that a city with a population of five hundred thousand or greater has sixty days from the effective date of this section to negotiate a lease of aquatic lands with the department. If the city fails to negotiate the lease of aquatic lands, the department may: (1) Impose the lease conditions of a county with a population of one million or greater; or

(2) Enforce the provisions of this act.

Provides that a city with a population of five hundred thousand or greater must agree to all department lease conditions for leased aquatic lands or the department must cancel the lease and put the lease up for bid.

Provides that, if a city with a population of five hundred thousand or greater fails to vacate the leased aquatic lands within thirty days of the lease cancellation, then the department must assess a one thousand dollar per day penalty on the city, with the funds going into the aquatic lands enhancement account, created in RCW 79.105.150.

Requires the department to submit a report to the legislature by January 1, 2007, reporting on the status of this act in order to ensure that the intent of the legislature is carried out.

SB 6535-S by Senate Committee on Natural Resources, Ocean & Recreation (originally sponsored by Senator Jacobsen)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that a city with a population of five hundred thousand or greater has sixty days from the effective date of this act to negotiate a lease of aquatic lands with the department. If the city fails to negotiate the lease of aquatic lands, the department of natural resources may impose the lease conditions of a county with a population of one million or greater.

Authorizes the department of natural resources and the city with a population of five hundred thousand or greater to utilize the services of a mediator to ensure the successful negotiation of the leases referenced in this act.

Provides that a city with a population of five hundred thousand or greater may not be granted, nor may it spend, any aquatic lands enhancement account funds until all leases referenced in this act are signed.

SB 6553 by Senators Haugen, Benson, Jacobsen, and Benton
 Changing the department of transportation's regions.

Provides that, every ten years, beginning December 1, 2006, the secretary shall present to the legislative transportation committees of the house of representatives and senate a proposed reorganization of the department's regions. If appropriate, the reorganization proposal shall recommend new regional boundaries, determined geographically, accounting for projects and other workload funded in the next sixteen years. Where appropriate, projects along the same corridor shall be kept within a single region.

Declares an intent that this act will result in periodic reviews of the department of transportation's regional boundaries. The department should review resources and outputs (such as projects and maintenance work) within each region and determine if changes to regional boundaries would benefit the department and, therefore, the public. As growth and other economic changes occur in Washington state, it may be appropriate to change the size and/or number of departmental regions.

(DIGEST AS ENACTED)

Directs the municipal research council to contract for the provision of research and services to special purpose districts. A contract shall be made with a state agency, educational institution, or private consulting firm, that in the judgment of council members is qualified to provide such research and services.

Declares that research and services to special purpose districts shall consist of: (1) Studying and researching issues relating to special purpose district government;

(2) Furnishing legal, technical, consultative, and field services to special purpose districts concerning issues relating to special purpose district government; and

(3) Acquiring, preparing, and distributing publications related to special purpose districts.

Requires that the activities, programs, and services of the municipal research council to special purpose districts shall be carried on in cooperation with the associations representing the various special purpose districts. Services to special purpose districts shall be based upon the moneys appropriated to the municipal research council from the special purpose district research services account under this act.

Provides that, by June 30, 2010, the municipal research council shall prepare a report on services provided to special purpose districts under this act, and shall provide this report to the joint legislative audit and review committee.

VETO MESSAGE ON SSB 6555

March 29, 2006

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval as to Section 3, Substitute Senate Bill No. 6555 entitled:

This bill would allow the Municipal Research Council (MRC) to contract for the provision of research and services to special purpose districts. Funding for these services would be provided through a change in the distribution of Liquor Revolving Fund revenues.

The MRC currently provides its services to cities and counties. Those services are funded with revenues from the Liquor Revolving Fund and Liquor Excise Tax Account, revenues that would otherwise be distributed to cities and counties on a formula basis. While the technical assistance provided by MRC may be of value, SSB No. 6555 would set a precedent by redirecting funds, that would otherwise go to the state General Fund, for the benefit of a special purpose district.

Therefore, I have decided to veto Section 3 of this bill, which establishes the transfer of those funds. Sections 1 and 2 concern the authority for special purpose districts to use the MRC, and the creation of the new account should the legislature choose to appropriate funds for it. Section 4 requires a MRC report to Joint Legislative Audit and Review Committee in 2010.

For these reasons, I have vetoed Section 3 of Substitute Senate Bill No. 6555.

With the exception of Section 3, Substitute Senate Bill No. 6555 is approved.

Respectfully submitted,
 Christine O. Gregoire
 Governor

Companion Bill: 2818

Improving the state of Washington's economic, cultural, and educational standing in the motion picture industry.

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares an intent to recognize both national and international competition in the motion picture production marketplace. The legislature is committed to leveling the competitive playing field and interested in a partnership with the private sector to regain Washington's place as a premier destination to make motion pictures, television, and television commercials. While at the same time the legislature is committed to ensuring that workers in the motion picture and television industry are covered under health insurance and retirement income plans.

Directs the department to adopt criteria for an approved motion picture competitiveness program with the sole purpose of revitalizing the state's economic, cultural, and educational standing in the national and international market of motion picture production. Rules adopted by the department shall allow the program, within the established criteria, to provide funding assistance only when it captures economic opportunities for Washington's communities and businesses and shall only be provided under a contractual arrangement with a private entity.

SB 6558-S by Senate Committee on Labor, Commerce, Research & Development (originally sponsored by Senators Brown, Hewitt, Eide, Kohl-Welles, Benson, McAuliffe, Benton, Kline, and Keiser)

(SUBSTITUTED FOR - SEE 2ND SUB)

Declares an intent to recognize both national and international competition in the motion picture production marketplace. The legislature is committed to leveling the competitive playing field and interested in a partnership with the private sector to regain Washington's place as a premier destination to make motion pictures, television, and television commercials. While at the same time the legislature is committed to ensuring that workers in the motion picture and television industry are covered under health insurance and retirement income plans.

Directs the department to adopt criteria for an approved motion picture competitiveness program with the sole purpose of

revitalizing the state's economic, cultural, and educational standing in the national and international market of motion picture production. Rules adopted by the department shall allow the program, within the established criteria, to provide funding assistance only when it captures economic opportunities for Washington's communities and businesses and shall only be provided under a contractual arrangement with a private entity.

Provides that, notwithstanding amounts previously committed by a Washington motion picture competitiveness program board of directors for financial assistance, upon a determination by the office of financial management by July 1, 2009, any approved motion picture competitiveness program with funds greater than one million five hundred thousand dollars to be used for the purposes under this act, shall transfer amounts in excess of one million five hundred thousand dollars to the state treasurer for deposit into the state general fund.

SB 6558-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Brown, Hewitt, Eide, Kohl-Welles, Benson, McAuliffe, Benton, Kline, and Keiser)

(DIGEST AS ENACTED)

Finds in recent years that the state has realized a drastic decline in motion picture production that precludes economic expansion and threatens the state's reputation as a production destination. With the emergence of tax incentives in thirty states nationwide, in-state producers are taking their projects to more competitive economic climates, such as Oregon and Vancouver, British Columbia, where compelling tax incentive packages and subsidies are already in effect.

Finds that in recent years increasingly workers in Washington state are without health insurance coverage and retirement income protections, causing hardships on workers and their families and higher costs to the state.

Declares an intent to recognize both national and international competition in the motion picture production marketplace. The legislature is committed to leveling the competitive playing field and interested in a partnership with the private sector to regain Washington's place as a premier destination to make motion pictures, television, and television commercials. While at the same time the legislature is committed to ensuring that workers in the motion picture and television industry are covered under health insurance and retirement income plans.

Directs the department to adopt criteria for an approved motion picture competitiveness program with the sole purpose of revitalizing the state's economic, cultural, and educational standing in the national and international market of motion picture production. Rules adopted by the department shall allow the program, within the established criteria, to provide funding assistance only when it captures economic opportunities for Washington's communities and businesses and shall only be provided under a contractual arrangement with a private entity.

Provides that a credit is allowed against the tax imposed under chapter 82.04 RCW for contributions made by a person to a Washington motion picture competitiveness program.

Requires that the person must make the contribution before claiming a credit authorized under this act. Credits earned under this act may be claimed against taxes due for the calendar year in which the contribution is made. The amount of credit claimed for a reporting period shall not exceed the tax otherwise due under this chapter for that reporting period. No person may claim more than one million dollars of credit in any calendar year, including credit carried over from a previous calendar year. No refunds may be granted for any unused credits.

Provides that the maximum credit that may be earned for each calendar year under this act for a person is limited to the lesser of:

- (1) One million dollars; or
- (2) (a) Through calendar year 2008, an amount equal to one hundred percent of the contributions made by the person to a program during the calendar year; and (b) for calendar years after 2008, an amount equal to ninety percent of the contributions made by the person to a program during the calendar year.

Finds that accountability and effectiveness are important aspects of setting tax policy. In order to make policy choices regarding the best use of limited state resources the legislature needs information on how incentives are used.

Requires each motion picture production receiving funding assistance under this act to report information to the department by filing a complete annual survey.

Provides that, if a person fails to submit an annual survey under this act by the due date of the report or any extension the department shall declare the amount of funding assistance for the previous calendar year to be immediately due and payable. The department shall assess interest, but not penalties, on the amounts due under this act.

Provides that the department shall use the information from this act to prepare summary descriptive statistics. The department shall report these statistics to the legislature each year by September 1st. The department shall provide the complete annual surveys to the joint legislative audit and review committee.

Provides that the provisions of this act are subject to review by the joint legislative audit and review committee. The joint legislative audit and review committee will make a recommendation to the house finance committee and the senate ways and means committee by December 1, 2010, regarding the effectiveness of the motion picture competitiveness program including, but not limited to, the amount of state revenue generated, the amount of family wages jobs with benefits created, adherence to the criteria in this act, and any other factors deemed appropriate by the joint legislative audit and review committee.

Refining the definition of "bushing."

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares that "bushing" is defined as follows: Entering into a
written contract, written purchase order or agreement, retail
installment sales agreement, note and security agreement, or
written lease agreement, hereinafter collectively referred to as
contract or lease, signed by the prospective buyer or lessee of a
vehicle, which: is subject to any conditions or the dealer's or his
or her authorized representative's future acceptance, and the
dealer fails or refuses within four calendar days, exclusive of
Saturday, Sunday, or legal holiday, and prior to any further
negotiations with said buyer or lessee either: (1) That the dealer
unconditionally accepts the contract or lease, having satisfied,
removed, or waived all conditions to acceptance or performance,
including, but not limited to, financing, assignment, or lease
approval; or

(2) That the dealer rejects the contract or lease, thereby
automatically voiding the contract or lease, as long as such
voiding does not negate commercially reasonable contract or lease
provisions pertaining to the return of the subject vehicle and any
physical damage, excessive mileage after the demand for return
of the vehicle, and attorneys' fees authorized by law, and tenders
the refund of any initial payment or security made or given by the
buyer or lessee, including, but not limited to, any down payment,

and tenders return of the trade-in vehicle, key, other trade-in, or certificate of title to a trade-in. Tender may be conditioned on return of the subject vehicle if previously delivered to the buyer or lessee.

Concerning property.

Declares an intent to protect the use and value of private property while providing for a healthy environment and ensuring that government agencies do not damage the use or value of private property, except if necessary to protect the public health and safety. The legislature also intends to recognize and promote the unique interests, knowledge, and abilities private property owners have to protect the environment and land. To this end, government agencies must be required to identify and encourage participation in voluntary cooperative environmental enhancement programs with willing property owners.

Provides that eminent domain may not be used by state or local agencies to provide property for private use, but eminent domain is limited to the purpose of obtaining property for physical use by the public, such as for the physical siting of public facilities.

Requires that, prior to transferring any property acquired by government agencies through eminent domain to private persons or entities, the government agency shall offer to sell the property to the person, persons, or entities from whom the property was acquired at the amount he or she received from the agency.

SB 6580 by Senators McAuliffe, Schmidt, Weinstein, Carrell, Berkey, Rasmussen, Oke, and Shin

Creating work groups to evaluate issues relating to juvenile sex offenders and kidnapping offenders in schools.

(SUBSTITUTED FOR - SEE 1ST SUB)

Finds that: (1) Juvenile sex offenders and kidnapping offenders on and off probation attend school throughout the state;

(2) Training for school staff on how to effectively assist these students to be successful in school cannot be properly addressed without first addressing sex and kidnapping offender notification and information sharing issues; and

(3) There are no standard procedures or content for sex and kidnapping notifications to schools throughout the state, and there is no statewide school policy to define how schools process and handle notifications when they receive notifications.

Requires the work group to evaluate options and make recommendations to the legislature regarding a statewide process and content for juvenile sex offender and kidnapping offender notifications to schools for all jurisdictions.

Directs the work group to submit to appropriate committees of the legislature a final report and recommendations regarding the topics in this act by November 15, 2006.

Requires the Washington coalition of sexual assault programs, in consultation with the Washington association of sheriffs and police chiefs, the Washington association of prosecuting attorneys, and the office of the superintendent of public instruction, to develop educational materials to be made available throughout the state to inform parents and other interested community members about: (1) The laws related to sex offenses, including registration, community notification and the classification of sex offenders based on an assessment of the risk of reoffending;

(2) How to recognize behaviors characteristic of sex offenses and sex offenders;

(3) How to prevent victimization, particularly that of young children;

(4) How to take advantage of community resources for victims of sexual assault; and

(5) Other information as deemed appropriate.

Directs the office of the superintendent of public instruction to submit to appropriate committees of the legislature a final report and recommendations by November 15, 2006.

SB 6581 by Senators Poulsen and Delvin
 Companion Bill: 2860

Regarding water resource management in the Columbia river basin.

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that: (1) Water resources are needed to meet present and foreseeable future needs for uninterrupted irrigation and municipal water requirements in the counties adjacent to the mainstem, to be allocated under this act;

(2) Through the implementation of best management practices, hydropower mitigation fees, and the purchase of additional conservation measures within mainstem tributaries, waters in the mainstem should be used to meet present and foreseeable future irrigation and municipal water requirements, while protecting instream resources;

(3) A program that provides incentives to water right holders to adopt best management practices and irrigation best management practices for the purpose of achieving water savings and water use efficiency on the mainstem is sound public policy that will provide significant environmental and economic benefits, including the availability for instream purposes of waters not appropriated from the mainstem for consumptive use purposes; and

(4) The adoption and implementation of a hydropower mitigation fee program will establish a reliable long-term revenue source to fund needed new water conservation projects in the Yakima river basin or other tributary basins.

SB 6581-S by Senate Committee on Water, Energy & Environment (originally sponsored by Senators Poulsen and Delvin)

(SUBSTITUTED FOR - SEE 2ND SUB)

Finds that state water resources management in the Columbia river basin must immediately initiate the development of new water supplies to meet the economic and community development needs of people and the instream flow needs of fish.

Declares that a Columbia river basin water supply development program is needed, and directs the department of ecology to aggressively pursue the development of cost-effective water supplies to benefit both instream and out-of-stream uses.

Provides that, to support the development of new water supplies in the Columbia river, the department of ecology shall work with all interested parties, including but not limited to, interested watershed planning groups working adjacent to the Columbia river and tribal governments, to develop a Columbia river water supply inventory. The inventory must include: (1) A list of potential conservation and storage projects in the Columbia river basin;

(2) Estimates of project costs and benefits;

(3) A ranking of projects from the least expensive per acre-foot to the most expensive per acre-foot;

(4) A ranking of projects from the most beneficial to fish and other instream values to the least beneficial to fish and other instream values; and

(5) A ranking of projects from the most beneficial to agriculture to the least beneficial to agriculture.

Requires the Columbia river water supply inventory to consider long-term trends in water supply and demand, rely on existing project data already completed by local planning groups, and supplement existing information as necessary to develop a useful inventory.

Requires the department of ecology to complete the first Columbia river water supply inventory by November 15, 2006, and shall update the inventory annually thereafter.

Makes appropriations to carry out the purposes of the act.

SB 6581-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Poulsen and Delvin)

Regarding water resource management in the Columbia river basin. (REVISED FOR PASSED LEGISLATURE: Regarding a study of the instream flows of the Hanford Reach.)

(DIGEST AS ENACTED)

Provides that \$250,000 of the state building construction account--state appropriation for fiscal year 2007 is provided solely to the department of ecology to work with interested parties to study instream flows in the Hanford Reach and their impact on the ecological condition of the Hanford Reach especially as it relates to the needs of salmon and steelhead in the Hanford Reach. The department shall submit to the office of the governor and to the appropriate fiscal and policy committees of the legislature a report of its findings by July 1, 2007.

Companion Bill: 2894

Creating an office of mental health ombudsman.

(SEE ALSO PROPOSED 1ST SUB)

Finds that in order to comply with the community mental health services act, chapter 71.24 RCW, and the medicaid managed care mental health waiver, and to effectively assist persons with mental illness and consumers of mental health services in the assertion of their civil and human rights, and to improve the quality of services available and promote the rehabilitation, recovery, and reintegration of these persons, an independent mental health ombudsman program should be instituted.

Declares an intent that the state mental health ombudsman program make reasonable efforts to maintain and improve the current level and quality of mental health ombudsman services, taking into account the transition period from the current system of ombudsman programs within the regional support networks and state hospitals.

Declares an intent that federal medicaid requirements be complied with, and that the department of social and health services no longer provide mental health ombudsman services through the regional support networks effective July 1, 2007.

Declares an intent that commencing July 1, 2007, the funds currently expended by the regional support networks through their contracts with the department of social and health services to provide mental health ombudsman services shall be transferred to the department of community, trade, and economic development for use by the office of mental health ombudsman.

Repeals RCW 71.24.350.

SB 6587-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Kastama, Regala, Keiser, Deccio, Thibaudeau, Rasmussen, McAuliffe, Kohl-Welles, and Kline)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that in order to comply with the community mental health services act, chapter 71.24 RCW, and the medicaid managed care mental health waiver, and to effectively assist persons with mental illness and consumers of mental health services in the assertion of their civil and human rights, and to

improve the quality of services available and promote the rehabilitation, recovery, and reintegration of these persons, an independent mental health ombudsman program should be instituted.

Creates the office of the state mental health ombudsman.

Provides that mental health ombudsmen shall act in accordance with the policies and procedures established by the office, and shall have the following authority and duties: (1) Offer and provide services to assist mental health consumers and their representatives in order to assist in protecting the health, safety, welfare, and rights of mental health consumers;

(2) Offer and provide information as appropriate to mental health consumers, family members of mental health consumers, guardians and other representatives, employees of mental health providers and facilities, and others regarding the rights of mental health consumers. Mental health ombudsmen shall have an outreach plan for reaching mental health consumers, which shall include regular visits to local mental health agencies, facilities, clubhouses, and other appropriate locations;

(3) Identify, investigate, and resolve complaints made by or on behalf of mental health consumers that relate to action, inaction, or decisions which: (a) May adversely affect the rehabilitation, recovery, reintegration, health, safety, welfare, or rights of mental health consumers; and (b) involve a mental health provider or facility; a regulatory, governmental, health, or social service agency; a guardian or other representative; a family member; or another mental health consumer, friend, or associate;

(4) Support and encourage mental health consumer participation in treatment planning, delivery, and complaint resolution, both on an individual basis and systemwide, and recruit and support the participation of family members, close friends, guardians, and other representatives in the consumer's treatment and complaint resolution, unless the mental health consumer expressly objects to such participation;

(5) Represent the interests of mental health consumers before governmental agencies, and seek administrative, legal, and other remedies to protect the health, safety, welfare, and rights of mental health consumers; and

(6) Perform other duties assigned by the office or its subcontractors, consistent with the purposes of this act.

Requires the office to provide the legislature with an annual report that includes: (1) An identification of the demographic status of those served by the mental health ombudsman program;

(2) A description of the issues addressed during the past year and a brief description of case scenarios in a form that does not compromise confidentiality;

(3) An accounting of the monitoring activities by the mental health ombudsman program;

(4) An identification of the results of measurements of consumer satisfaction and other outcome measures;

(5) An identification of the numbers of certified volunteer mental health ombudsmen;

(6) An identification of deficiencies in the mental health service system and recommendations for remedial action in policy or practice;

(7) Recommendations for regulatory action by agencies that would improve the quality of service to individuals with mental illness; and

(8) Recommendations for legislative action that would result in improved services to individuals with mental illness.

Provides that it is unlawful to willfully interfere with a mental health ombudsman in the performance of his or her duties under this act.

Provides that no discriminatory, disciplinary, or retaliatory action may be taken against an employee of a mental health provider or facility, an employee of a jail or correctional facility, an employee of a public, health, or social service agency, or a mental health consumer or family member, for any communication made, or information given or disclosed, to aid a mental health ombudsman in carrying out his or her duties under this act. This prohibition does not apply to communications or false information provided maliciously or without good faith. This provision is not intended to infringe on the rights of the employer to supervise, discipline, or terminate an employee for permissible reasons.

Declares an intent that the state mental health ombudsman program make reasonable efforts to maintain and improve the current level and quality of mental health ombudsman services, taking into account the transition period from the current system of ombudsman programs within the regional support networks and state hospitals.

Declares an intent that federal medicaid requirements be complied with, and that the department of social and health services no longer provide mental health ombudsman services through the regional support networks effective July 1, 2007.

SB 6605-S by Senate Committee on Early Learning, K-12 & Higher Education (originally sponsored by Senators Fraser, Oke, Fairley, Deccio, Franklin, Rasmussen, and Kline)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, by September 1, 2010, each school district shall have each educational interpreter working within the district, who has not already achieved national certification, assessed using a nationally recognized performance assessment to evaluate the receptive and expressive interpreting skills of the educational interpreter. School districts shall provide additional training for those educational interpreters who do not meet the standards to achieve the national certification.

Requires that, by December 2006, the office of the superintendent of public instruction shall partner with other states to build and enhance a network of support for the successful implementation of the nationally recognized performance assessment of the educational interpreters working in Washington schools.

Requires the Washington state institute for public policy to retain the services of a professional meeting facilitator to plan and conduct a series of meetings examining the strengths and weaknesses of educational services available to deaf and hard of hearing children throughout the state. The goal of the process is to develop a set of recommendations that would establish an integrated system of instructional and support programs that would provide deaf and hard of hearing children the knowledge and skills necessary for them to be successful in their adult lives and the "hearing" world of work.

Requires the office of the superintendent of public instruction, in cooperation with the state board for community and

technical colleges and the higher education coordinating board, to create an advisory committee that includes certified educational interpreters, tactile interpreters, interpreter educators, deaf leaders, public school administrators, parents of deaf and deaf-blind children, and other interested parties to advise the superintendent of public instruction, the state board for community and technical colleges, and the higher education coordinating board on issues of deaf education and educational interpreting in each of the educational sectors.

Provides that as part of the needs assessment process conducted by the higher education coordinating board in accordance with RCW 28B.76.230, the board shall assess the need for a baccalaureate degree program in Washington state that provides educational sign language interpreter training. If the board determines that there is a need for such a program, the board shall encourage the appropriate institutions or institutional sector to create a program.

Requiring notification of pesticide application.

Requires that, no later than May 1, 2007, the state board of health shall adopt rules requiring any person applying a pesticide with the signal words "Danger/Poison" to notify adjacent schools, hospitals, nursing homes, or state-licensed child or adult day care centers at least two facility business days before the start of applications.

Requires the rules to specify the manner of notification, which shall include facsimile or electronic mail. The rules shall specify a single facility manager or other personnel to whom the notification must be directed. The applicator or other responsible person managing the application site shall provide the notification. The rules shall allow agreements between facilities and managers of application sites for the methods of providing the required notification.

Promoting underwater viewing.

(SEE ALSO PROPOSED 1ST SUB)

Finds that Puget Sound and the other waters of Washington state contain an abundance of varied and unique marine life and other natural attractions that are of interest to divers and other recreationalists from all over the world.

Finds that in addition to the usual benefits from tourism, the promotion of underwater viewing tourism in the waters of Washington state will enhance efforts to protect Puget Sound by assisting in educating residents and nonresidents as to the value of the marine environment.

Finds that Washington state's efforts to promote nature-based tourism should include the natural wonder of underwater Washington.

Directs the department of community, trade, and economic development; the department of fish and wildlife; the department of natural resources; the state parks and recreation commission; and the interagency committee for outdoor recreation to host a working conference on promoting underwater viewing tourism.

Declares that the objective of the conference shall be to adopt a strategic plan and specific implementing actions to promote underwater viewing tourism in Washington in a manner that provides sustainable economic development in the state's rural and urban areas, enhances underwater recreational opportunity, and supports maintaining the state's underwater diversity and health of the natural marine environment.

Finds that, in several locations throughout the world, the use of ships as artificial reefs has helped promote underwater viewing tourism. The department of community, trade, and economic development; the department of fish and wildlife; the department of natural resources; the state parks and recreation commission; and the department of ecology shall establish a work group on the use of ships as artificial reefs. To the extent funds are made available, the department of community, trade, and economic development may commission an independent study to assist the agencies' work group in its deliberations.

Requires the agencies to prepare a summary of the work group findings to be submitted to the appropriate committees of the legislature no later than December 15, 2007.

SB 6610-S by Senate Committee on International Trade & Economic Development (originally sponsored by Senators Oke, Rockefeller, Shin, Pflug, and Sheldon)

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that Puget Sound and the other waters of Washington state contain an abundance of varied and unique marine life and other natural attractions that are of interest to divers and other recreationalists from all over the world.

Finds that in addition to the usual benefits from tourism, the promotion of underwater viewing tourism in the waters of Washington state will enhance efforts to protect Puget Sound by assisting in educating residents and nonresidents as to the value of the marine environment.

Finds that Washington state's efforts to promote nature-based tourism should include the natural wonder of underwater Washington.

Finds that, in several locations throughout the world, the use of ships as dive attractions has helped promote underwater viewing tourism. To the extent funds are made available, the department of fish and wildlife shall commission an independent study on the use of ships as dive attractions. The department of fish and wildlife, the department of natural resources, the state parks and recreation commission, the department of ecology, and the department of community, trade, and economic development shall establish a work group on the use of ships as dive attractions to delineate elements of this study. Among the topics that the study should address are: (1) Assessing the availability of appropriate locations in Puget Sound at the appropriate depths after the elimination of existing areas reserved for shipping lanes, shellfish beds, sensitive areas, areas with water quality concerns that would preclude placement of a vessel, commercial fishing areas, and areas with restrictions due to national security concerns or national defense activity;

(2) What are the possible long-term environmental consequences, including those to habitat and marine life, of the use of ships as dive attractions, and what steps would need to be taken prior to the state allowing the sinking of a ship to be used as a dive attraction. At a minimum, this should include an assessment of: (a) Water quality impacts and the residual impacts to the underlying land, over time, as the vessel breaks down, such as accumulation of contaminants in the sediment; (b) potential impacts that sinking a ship would have on predation of juvenile salmonid and other state or federally listed species;

(3) What are the possible long-term economic consequences and what are the costs, both capital and operating, of the use of ships as dive attractions, including the costs of cleaning a ship to appropriate environmental standards;

(4) What funding would need to be secured prior to the state allowing the sinking of a ship to be used as a dive attraction and what sources of funding are, or can be made, available for this purpose; and

(5) What are the legal liabilities and exposures for the state in using ships as dive attractions.

Provides that, once the study is complete, the work group shall develop final recommendations based on its findings, to be submitted to the appropriate committees of the legislature no later than December 15, 2007.

SB 6618 by Senators McAuliffe and Schmidt

Companion Bill: 2998

Revising the high school assessment system.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that, beginning in the 2007-08 school year, students shall have the option to select a certified assessment option other than the Washington assessment of student learning to demonstrate that they have met state learning standards in reading, math, writing, and, beginning with the class of 2010, science. Certified assessment options shall include but not be limited to portfolios, industry certification tests, and other career and technical education assessments used to determine readiness for work force entry or higher education, and college entrance exams.

Provides that, prior to the beginning of the 2007-08 school year, the state board of education shall establish a procedure for certification of assessment options that lead to a certificate of academic achievement. Certification of assessment alternative options shall be based upon demonstrated alignment with the state learning standards including school to work goals. The level of student performance necessary to meet state learning standards shall be comparable between all assessments.

SB 6618-S by Senate Committee on Early Learning, K-12 & Higher Education (originally sponsored by Senators McAuliffe and Schmidt)

Requiring a study to explore options to augment the current educational assessment system.

(DIGEST AS ENACTED)

Directs the Washington state institute for public policy to conduct a study to explore options to augment the current system of assessments to provide additional opportunities for students to demonstrate that they have met the state learning standards. The study is limited to: (1) A review and statistical analysis of Washington assessment of student learning data to profile the students who did not meet the standard in one or more areas of assessment, identify the characteristics of those students, and identify possible barriers to student success or possible causes of the lack of success;

(2) A review and identification of additional alternative assessment options that could be used to augment the current assessment system. In identifying the alternative assessment options, the institute shall include a review of alternative assessments used in other states as well as those that have been developed and those that have been proposed in Washington. The institute shall examine the use of national tests as well as career skill certification exams in their review of possible alternative assessment options.

(3) Review and identification of additional alternative methods, procedures, or combinations of performance measures,

including those proposed in Washington, to assess whether students have met the state learning standards.

Requires the Washington state institute for public policy to provide an interim report to the legislature by December 1, 2006, and a final report by December 1, 2007.

SB 6620 by Senators Rasmussen, Pridemore, and Benton

Eliminating the certificate of academic achievement as a requirement for high school graduation.

Finds that it is important to recognize that students have multiple learning styles and that too often a single, high stakes test does not accommodate all learning styles. It is important to have high academic standards and the Washington assessment of student learning can be an effective tool to assist districts in achieving them. The Washington assessment of student learning, however, may not adequately challenge our high performing students and it takes valuable time and resources away from essential learning for all students. Therefore, it is the intent of the legislature to eliminate the use of the Washington assessment of student learning as a graduation requirement.

Allowing limited reporting of vulnerable adult abuse investigation results.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, upon request, the department shall disclose the fact that a report was received and the status of any investigation, unless the department has a reason to believe disclosing such information may compromise the investigation or the safety or well-being of a vulnerable adult.

Authorizes the department to provide the outcome of the investigation to an agency, program, or provider serving a vulnerable adult. The name of the vulnerable adult and the alleged perpetrator of abuse, abandonment, neglect, or financial exploitation may be disclosed. The department shall not disclose the identity of the person making the report to the department or any witness without such individual's written permission. The term "witness" does not include the alleged perpetrator.

Provides that upon request of a legislator or a state agency as defined in RCW 42.17.020 serving vulnerable adults or children, the department will disclose the results of an investigation under chapter 74.34.RCW. In cases where the department determines that an incident of abuse, abandonment, neglect, or financial

exploitation is founded, the requestor shall be informed whether the finding is initial, subject to the alleged perpetrator's right to an administrative appeal, or final, following the administrative appeal process.

Directs the department to establish by rule a state registry that contains identifying information about individuals investigated under this chapter found to have abused, abandoned, neglected, or financially exploited a vulnerable adult. Information provided under this chapter is limited to postdue process findings made by the department under this chapter. Contingent on resources, the department shall make readily available to the public a means to query the state registry to determine if an individual has been found by the department to have abused, abandoned, neglected, or financially exploited a vulnerable adult.

Changing provisions relating to adoption.

(SUBSTITUTED FOR - SEE 1ST SUB)

Declares an intent to ensure that children whose parents are unable to provide for their care are placed with safe and stable families through the process of adoption.

Declares an intent that adoptions be handled efficiently and equitably with the rights of all parties protected. Under no circumstances shall adoptions be delayed, denied, or given preferential treatment based upon the race of the child or prospective adoptive parents. Nor shall any adoption-related fees be based upon the race or physical characteristics of the child, nor of the ability of the prospective adoptive parents to pay the adoption-related fees.

Intends to eliminate any artificial barriers to adoption, such as fees exceeding the actual cost of the adoption-related services provided.

Declares an intent to establish a fund to assist prospective adoptive parents in meeting the actual costs of adopting a child.

SB 6635-S by Senate Committee on Human Services & Corrections (originally sponsored by Senators Franklin, Benton, Zarelli, Stevens, Honeyford, and Rasmussen)

(DIGEST AS ENACTED)

Directs the department to create standardized training to be provided to all department employees involved in the placement of a child to assure compliance with Title IV of the civil rights act of 1964 and the multiethnic placement act of 1994, as amended by the interethnic adoption provisions of the small business job protection act of 1996. Such training shall be open to agency employees.

Requires the department of health, in cooperation with the department of social and health services, to recommend a process for the efficient collection, compilation, and annual publication of adoption statistical data, including data regarding fees, costs, and expenses paid by adoptive families. In developing recommendations, the department of health and the department of social and health services shall consider current processes and requirements for adoption data collection and reporting. The department of health shall report to the legislature not later than October 1, 2006, regarding its recommendations.

Requires the department of social and health services to, in consultation with adoption advocates, representatives of adoption agencies, adoption attorneys, child-placing agencies, birth and adoptive parents and adapters, federally recognized tribes, and representatives of the superior court judges: (1) Review the fees associated with children adopted out of the foster care system who are dependents of the state of Washington. The review shall include a determination of whether fees or any other factors are barriers to adoptions of children out of the foster care system; and

(2) Study accreditation standards developed for adoption agencies, including the standards developed by the council on accreditation for children and family services. The department shall brief the legislature by January 1, 2007, on recommendations related to accreditation standards and reducing any barriers that may exist pertaining to the adoption of children who are dependents of the state of Washington.

Modifying provisions relating to voting rights for incarcerated felons.

Finds that: (1) The system for determining how, when, and where former felons have their right to vote restored is contributing to uncertainty about the validity of the election process, and local county clerks and auditors find it impossible to access clear information about this determination;

(2) Washington currently denies the right to vote to all persons who have not fully completed all conditions of their sentence, including full payment of their legal financial obligations;

(3) Responsibility for monitoring compliance with the various conditions of the sentence is placed at various times with the department of corrections, the county clerk, and the sentencing judge; and

(4) The current system for determining when the right to vote has been restored takes away time from the other important duties

of the county clerks, county auditors, and secretary of state's staff.

Declares an intent to establish a clear standard for restricting and restoring the voting rights of felons that will provide clear information about the status of former felon voting rights to all state and local election officials.

SB 6659 by Senator Swecker

Creating a full-time state legislature.

Declares that, in the twenty-first century, members of the legislature are confronted with increased complexity of issues

facing the legislature, increased demands for their time, increased accountability standards, and the resulting difficulty in meeting public obligations while having to earn a second income to support their families.

Provides that, in order for service in the state legislature to remain open to all segments of society, and in order for legislators to have the time to develop expertise in the complex areas addressed by the legislature, a full-time state legislature is needed. A full-time state legislature will allow members to devote their talents and energies to accomplishing the work of the people, and avoid conflicts or apparent conflicts between the member's private interests and official responsibilities.

Declares that this act is not intended to extend or otherwise change the current length or frequency of regular sessions, or of interim committee meeting schedules. It is also not intended to increase staff size. It is intended to give the members the financial freedom to commit their time completely to their public duties.

Establishing the Washington beer commission.

(DIGEST AS ENACTED)

Declares that: (1) Marketing is a dynamic and changing part of Washington agriculture and a vital element in expanding the state economy;

(2) The sale in this state and export to other states and abroad of beer made in this state contribute substantial benefits to the economy of the state and provide a large number of jobs and sizeable tax revenues;

(3) The production of beer in this state is a new and important segment of Washington agriculture that has potential for greater contribution to the economy of the state if it undergoes continued development; and

(4) The general welfare of the people of this state will be served by continued development of the activities of the production of beer, that will improve the tax bases of local communities where agricultural land and processing facilities are located, and reduce the need for state and federal funding of local services. The industries are therefore affected with the public interest.

SB 6664 by Senators Kastama, Oke, Rasmussen, Carrell, Shin, Benson, Hargrove, Esser, Jacobsen, Roach, Sheldon, and Swecker

Establishing a pilot program for family counseling.

Directs the secretary of the department of health to establish a pilot program to provide merit checks of no more than one hundred dollars to no more than four hundred fifty couples who complete a family preparation course. Matching funds may be used to increase the number of participants in the pilot program. The pilot program must begin no later than January 1, 2007, and continue for no more than five years, in a county with a population between seven hundred twenty thousand and one million.

Provides that, under the pilot program, a man and a woman who intend to apply for a marriage license may, together or separately, complete a family preparation course of not less than four hours with a family preparation course provider registered with the clerk of the county.

Appropriates the sum of forty-five thousand dollars, or as much thereof as may be necessary, for the biennium ending June 30, 2007, from the general fund to the department of health for the purposes of this act.

Aiding victims of personal information security breaches.

Provides that a consumer may elect to place a security freeze on his or her credit report by making a request in writing by certified mail to a consumer credit reporting agency. "Security freeze" means a notice placed in a consumer's credit report, at the request of the consumer and subject to certain exceptions, that prohibits the consumer credit reporting agency from releasing the consumer's credit report or any information from it without the express authorization of the consumer.

Requires a consumer credit reporting agency to place a security freeze on a consumer's credit report no later than five business days after receiving a written request from the consumer.

Requires the consumer credit reporting agency to send a written confirmation of the security freeze to the consumer within ten business days and shall provide the consumer with a unique personal identification number or password to be used by the consumer when providing authorization for the release of his or her credit for a specific party or period of time.

Requires credit reporting agencies to provide data to the attorney general on an annual basis regarding the number of Washington state consumers who utilize a security freeze. The attorney general must make this data available to the legislature and the public upon request, in a manner selected by the attorney general.

Companion Bill: 3058

Updating public records provisions.

(SEE ALSO PROPOSED 1ST SUB)

Establishes the division of archives and records management in the office of the secretary of state to ensure the proper management and safeguarding of public records. All public records remain the property of the state of Washington. Public records must be delivered by outgoing officials and employees to their successors and must be retained, preserved, stored, transferred, destroyed, or disposed of in accordance with chapter 40.14 RCW. The state archivist will administer the division and must have reasonable access to all public records, wherever kept, for the purposes of information, surveying, or cataloging.

Provides that public records shall not be disposed of or destroyed until the expiration of applicable retention periods on records retention schedules approved by the state or local records committee. Unless otherwise provided by state or federal law, rule, or regulation, retention periods approved for records series that serve as primary documentation of official actions, transactions, contracts, or agreements must be at least six years.

Declares that nothing in chapter 40.14 RCW prohibits a legislator or legislative employee from contributing his or her personal papers to any private library, public library, or the state archives. The state archivist is authorized to receive papers of legislators and legislative employees and is directed to encourage the donation of such personal papers to the state. The state archivist is authorized to establish such guidelines and procedures for the collection of personal papers and correspondence relating to the legislature as the archivist sees fit. Legislators and legislative employees are encouraged to contribute their personal papers to the state for preservation.

Declares that it shall be the duty of the chief clerk of the house of representatives and the secretary of the senate to advise the party caucuses in each house concerning the necessity to keep public records. The state archivist or his or her representative shall work with the chief clerk and secretary to provide information and instructions on the best method for keeping legislative records.

Repeals provisions of chapter 40.14 RCW.

SB 6681 by Senators Kohl-Welles, Pridemore, Brown, and Fairley

Regulating public school policies on access to students and student information.

Requires the board of directors of each school district to by September 1, 2006, establish policies and procedures for: (1) Allowing parents or guardians to prohibit the release of their

student's directory information, records, and data to public and private institutions, organizations, and employers. This policy shall extend to the students' names, addresses, phone numbers, social security numbers, birthdates, directory information, and other identifying data;

(2) Providing, at a minimum, separate "opt out" categories for release of directory information, data, and records for educational, vocational, career, military, and volunteer recruitment purposes. Parents and guardians shall be provided with an "opt out" form within the first fifteen days of a new school year;

(3) Providing thirty days from delivery of the "opt out" form to parents and guardians in allowing parents and guardians to return their choices to the school district. School districts are prohibited from releasing student directory information, data, or records to recruiting organizations from the close of the previous school year until forty-five days after the release of the "opt out" form to parents and guardians. Separate comparable provisions shall be made for summer school enrollees.

Requires the board of directors of each school district to by September 1, 2006, establish a policy and procedure requiring on-campus or visiting recruiters to either provide in advance for an adult school staff person or volunteer to be present when the recruiter is with the individual student, or submit a criminal records background check from both the Washington state police and federal bureau of investigation consistent with RCW 28A 400.303. In the case of military recruiters, the background check shall also require a letter from the department of defense relating to the recruiters' record under the uniform code of military justice and crimes recorded under other jurisdictions.

Requires the board of directors of each school district to by September 1, 2006, establish a policy and procedure for disciplining recruiters who engage in dishonest, unscrupulous, or deceptive recruiting practices.

Requires the board of directors of each school district to by September 1, 2006, establish a policy and procedure prohibiting recruiters from taking students off-campus during school hours or meeting students after school hours without written parental or guardian consent.

Provides that recruiters who take students off-campus during school hours without parental or guardian consent, or arrange to meet students after school hours without parental or guardian consent, shall be guilty of a misdemeanor.

Strengthening provisions governing ORV noise.

(SEE ALSO PROPOSED 1ST SUB)

Finds that, as the population of Washington and the popularity of recreational off-road vehicle use have increased, a growing number of informal off-road vehicle tracks and riding areas have emerged in residential areas. Excessive noise generated by off-road vehicle use in such areas has affected the residents of nearby properties, impacting property values, health, and the ability of residents to enjoy peace and quiet in their homes and yards.

Finds that, despite their efforts, many of those who live in close proximity to informal off-road vehicle riding areas have been unable to prompt their local governments to address noise issues.

Declares an intent to strengthen provisions governing off-road vehicle noise and to provide tools and resources to state agencies, local government, and citizens, in order to better protect individuals from the effects of excessive off-road vehicle noise in residential areas.

Declares an intent to strengthen provisions governing off-road vehicle noise and to provide tools and resources to state agencies, local government, and citizens, in order to better protect individuals from the effects of excessive off-road vehicle noise in residential areas.

Directs the department of ecology to, by June 30, 2007: (1) Evaluate the adverse effects of off-road vehicle noise in residential areas; and

(2) Revise the environmental noise rules and sound level measurement procedures adopted under chapter 70.107 RCW in order to: (a) Strengthen the decibel standards applied to off-road vehicle noise in order to address the adverse effects found by the department under this act; and (b) create alternative methods for the measurement of off-road vehicle sound levels or alternative environmental noise standards that would allow for the enforcement of noise standards without requiring the use of expensive equipment or a sophisticated measurement process.

Requires the municipal research council to, by June 30, 2007, develop model ordinance options for local governments, including options for public disturbance noise ordinances that do not require the use of a decibel meter for enforcement and options for decibel-based noise ordinances.

Directs the department of natural resources to convene a working group to develop and propose policy strategies and legislation to address issues relating to access to public and private lands for recreational off-road vehicle use.

Directs the working group to provide its policy strategies and legislative proposals to the appropriate policy and fiscal committees of the senate and house of representatives by December 31, 2006.

Recognizes, reaffirms, and supports the restrictions on the use of eminent domain to take private property for private use, as set forth in chapters 8.04, 8.08, 8.12, 8.16, and 8.20 RCW and in the Washington state supreme court's decisions of *Hogue v. Seattle*, 54 Wn.2d 799, 341 P.2d 171 (1959); *Miller v. Tacoma*, 61 Wn.2d 374, 378 P.2d 464 (1963); *In re Petition of Seattle*, 96 Wn.2d 616, 638 P.2d 549 (1981); and *State ex rel. Washington State Convention & Trade Center v. Evans*, 136 Wn.2d 811, 966 P.2d 1252 (1998).

Provides that if a state or local government determines that private property condemned for a public purpose no longer is necessary for a public purpose and should be sold, the owner of the property at the time it was condemned shall have a right of first refusal to purchase the property at fair market value as of the date the government announces its decision to sell the property. This right of first refusal shall expire ninety days from the date the state or local government notifies the owner of the government's decision to sell the property, or at any later date agreed to by the government. A right of refusal shall exist under this act for ten years after the completion of eminent domain proceedings.

SB 6701-S by Senate Committee on Government Operations & Elections (originally sponsored by Senators Rasmussen, Kastama, Jacobsen, Franklin, Kohl-Welles, and Benton; by request of Governor Gregoire and Commissioner of Public Lands)

Reaffirming existing Washington state eminent domain laws.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that members of the public have expressed concern regarding a recent United States supreme court decision, *Kelo v. New London* (No. 04-108 (June 23, 2005)), which upheld, under the United States Constitution, a Connecticut city's exercise of eminent domain. It is the intent of the legislature to recognize, reaffirm, and support existing Washington case law under Article I, section 16 of the state Constitution, that prohibits the condemnation of private property other than for certain public purposes pursuant to law.

Provides that, in light of the United States supreme court decision in *Kelo v. New London*, the legislature intends to reaffirm existing Washington state law relating to the use of eminent domain by state and local governments, and to reaffirm the prohibition in Article I, section 16 of the state Constitution on the use of eminent domain to take private property for private use. To this end, the legislature recognizes, reaffirms, and supports the restrictions on the use of eminent domain to take private property for private use, as set forth in chapters 8.04, 8.08, 8.12, 8.16, and 8.20 RCW and in the Washington state supreme court's decisions of *Hogue v. Seattle*, 54 Wn.2d 799, 341 P.2d 171 (1959); *Miller v. Tacoma*, 61 Wn.2d 374, 378 P.2d 464 (1963); *In re Petition of Seattle*, 96 Wn.2d 616, 638 P.2d 549 (1981); and *State ex rel. Companion Bill: 3028

Requiring that a review of classified school employee funding be considered in the Washington Learns study.

Finds that classified school employees are an integral part of the K-12 school system of services and supports to our students. The public school system would not function without the significant contributions of these employees.

Declares that classified school employees also play a major role in developing supportive and caring relationships with our students of all ages. The legislature believes the contribution of classified school employees can and should be enhanced to help all of our students succeed in meeting state learning standards.

Declares that the legislature has reviewed a number of previous funding studies and conducted its own review of our state's funding of public schools. Now the governor is in the process of studying school funding under chapter 496, Laws of 2005 (Washington Learns).

Directs that the funding review by the Washington Learns steering committee include a thorough review of funding for classified school employees and that the Washington Learns steering committee report findings and recommendations that include recommendations on how classified school employees can enhance our students' abilities to meet state learning standards.

SB 6709 by Senators Kastama, Eide, Prentice, Rasmussen,
Fraser, McAuliffe, and Rockefeller

Companion Bill: 3069

Resolving manufactured/mobile home landlord and tenant disputes.

Finds that there are factors unique to the relationship between a manufactured/mobile homeowner and a manufactured/mobile home park owner. Once occupancy has commenced, the difficulty and expense in moving and relocating a manufactured/mobile home can affect the operation of market forces, and lead to an inequality of the bargaining position of the parties. Once occupancy has commenced, a homeowner may be subject to

violations of the manufactured/mobile home landlord-tenant act or unfair practices without an adequate remedy at law. This act is created for the purpose of protecting the public, fostering fair and honest competition, and regulating the factors unique to the relationship between the manufactured/mobile homeowner and park owner.

Finds that taking legal action against a park owner for violations of the manufactured/mobile home landlord-tenant act can be a costly and lengthy process, and that many people cannot afford to pursue a court process to vindicate statutory rights. Park owners similarly are benefited by having access to a process that resolves disputes quickly and efficiently.

Declares an intent to provide a less costly and more efficient way for manufactured/mobile homeowners and park owners to resolve disputes, and to provide a mechanism for state authorities to quickly locate owners of manufactured housing communities. The legislature further intends to authorize the department of community, trade, and economic development to: (1) Register mobile home parks or manufactured housing communities, take complaints, conduct investigations, and administratively resolve disputes, when there are violations of the manufactured/mobile home landlord-tenant act;

(2) Maintain, update, and expand its current complaint program by retaining the necessary staffing level of hired or contracted persons used to operate and implement the program under chapter 429, Laws of 2005; and

(3) Collect data related to conflicts and violations.

Studying the minimum wage law.

Directs the Washington state institute for public policy, in consultation with the employment security department, to conduct a study to address the impacts of Washington state's minimum wage law, and must report its findings to the legislature by December 1, 2006. The study shall address: (1) The extent to which the minimum wage is paid in various industries and occupations in Washington;

(2) A demographic analysis of persons earning the minimum wage, including race, ethnicity, gender, marital status, age, household composition, the number of dependents a minimum wage earner supports, and whether or not the person is the sole wage earner in the household;

(3) The average amount of time an employee who remains with the same employer is paid the minimum wage;

(4) A comparison of minimum wage laws in other states;

(5) The impact of the minimum wage on job creation and job loss from 1990 to the present;

(6) Whether there is any correlation between changes in the state minimum wage and the state unemployment rate, or the unemployment rate in a particular industry;

(7) Wage compression or expansion for workers earning up to one hundred thirty percent of the minimum wage;

(8) Economic activity and wage progression in industries with large numbers of low-wage workers compared to economic activity and wage progression in moderate to high-wage industries in Washington;

(9) The minimum wage's effect on the federal poverty level rates of low-income workers in this state;

(10) The rate at which minimum wage workers and their families use public benefits;

(11) Differences in economic activity attributable to the minimum wage in comparison with similar activity in Oregon, Idaho, and other states similar in economic size and industrial base to Washington; and

(12) The potential impact on employers and employees of a minimum tipped wage.

Provides that a licensee that has obtained the required small loan endorsement may not make a small loan under this act unless: (1) The licensee has assessed the borrower's ability to repay the loan, including the borrower's current and expected income, current obligations, and employment; and

(2) At consummation of the loan, the borrower's total monthly debts, including the small loan, do not exceed forty-five percent of the borrower's monthly gross income. Each small loan must have a minimum term of not less than two weeks, including weekends and holidays, for each fifty-dollar amount owed on the small loan.

Declares that the maximum principal amount of any small loan, or the outstanding principal balances of all small loans made by a licensee to a single borrower at any one time, may not exceed five hundred dollars.

Provides that a licensee that has obtained the required small loan endorsement may charge interest or fees for small loans not to exceed thirty-six percent per annum. The rate charged on the outstanding balance after maturity shall not be greater than the rate charged during the loan term.

Protecting homeowners who hire contractors to remodel or build their homes.

(SEE ALSO PROPOSED 1ST SUB)

Finds that the vast majority of contractors engaged in the business of constructing or remodeling owner-occupied single-family homes are both technically proficient in their trade and able to manage their business dealings in accordance with the highest standards.

Finds, however, that in those relatively few, but all-too-frequent, instances where prime contractors on such construction or remodeling projects intentionally, negligently, or unintentionally mismanage payments received from homeowners that are intended for subcontractors, suppliers, and others, existing provisions are inadequate to protect homeowners. Additionally, the toll on an individual homeowner's personal economic and emotional condition that such financial mismanagement by this small fraction of prime contractors is not adequately balanced against the responsibilities, obligations, and possible penalties that contractors bear for such mismanagement. Consequently, the legislature finds that it is necessary to: (1) Clearly establish when prime contractors are personally responsible for mismanagement of funds received from or on behalf of homeowners that are intended for suppliers, subcontractors, and others;

(2) Increase awareness by homeowners to the potential for liens against their residence if contractors fail to pay suppliers and subcontractors as promised; and

(3) Increase opportunities for homeowners to become better educated about ways to protect themselves from financial mismanagement by those few contractors who are unable or unwilling to meet the financial management standards set by the vast majority of residential contractors in this state.

Recognizes the independence of the federal bankruptcy courts, but nonetheless encourages such courts, when addressing whether or not to discharge liabilities of contractors arising under this act due to the mismanagement of funds received from or for the benefit of homeowners, to adopt a policy disfavoring the discharge of such liabilities in bankruptcy. If the mismanagement rises to the level of criminal conduct, nothing in this act is intended to interfere with criminal prosecution.

Clarifying determination of parentage.

Declares an intent to clarify the process for the determination of parentage in this state in response to *In re the Parentage of L. B.; Sue Ellen ("Mian") Carvin v. Page Britain*; Docket Number 75626-1 (2005). In that case, the court held that Washington's common law recognizes the status of de facto parents and grants them standing to petition for a determination of the rights and responsibilities that accompany legal parentage in Washington state. The legislature intends to preempt the common law and clarify that chapter 26.26 RCW governs every determination of parentage in this state without exception.

Creating the guaranteed opportunities scholarship program.

Declares an intent to inspire and encourage all Washington students to dream big by creating a guaranteed one-year tuition scholarship program for academically successful high school students from low and middle-income families.

Finds that too often, financial barriers prevent many of the brightest students from even considering college as a future possibility. Often the cost of tuition coupled with the complexity of finding and applying for financial aid is enough to prevent a student from even applying to college. Many students become disconnected from the education system early on and may give up or even drop out before graduation.

Declares an intent to reward high-achieving students early in their high school career so that they know they have options and opportunities available beyond high school.

Companion Bill: 2977

Imposing monetary penalties on windfall profits of petroleum corporations.

Finds that Washington citizens and businesses are paying historically high prices for gasoline while the major oil companies are reaping windfall profits. As a result, tens of millions of dollars are being taken from the budgets of families and businesses.

Declares an intent to reverse this economic injustice by developing a state windfall profits tax. This tax will create an incentive for major oil companies to keep retail gasoline prices at historically reasonable levels and a disincentive to increase prices to gain windfall profits. If the major oil companies are unresponsive to this incentive, the tax will generate substantial revenue which can be used to partially offset the adverse effects of high gasoline prices by providing additional funding for public goods and services that are linked to the current costs of energy and/or the development of renewable in-state energy resources.

Establishing a foster parent critical support and retention program.

(SEE ALSO PROPOSED 1ST SUB)

Finds that: (1) Foster parents have little means to cope with children who are sexually reactive, are physically assaultive, or have other high-risk behaviors. There is little support for them in the foster home setting. This lack of support contributes to the fact that most of these very high-risk children will have multiple foster home placements;

(2) Two-thirds of the work of child protective services in Washington state is linked with families that it sees repeatedly. The families have cumulative risks such as drug abuse, domestic violence, and mental illness. Abuse of children in these families frequently occurs;

(3) Many of our next generation's sexual predators and violent offenders are in foster care today. These children have had severe and repeated early abuse, are under age twelve, and move freely in schools and child care. In 1992, the division of children and family services reported that children who were sexually reactive molested an average of five children while in foster care; and

(4) In our state, hundreds of these children are now in foster care. This pressures an already stressed foster care system. It also sets the stage for these children to enter into a lifetime of deviant behavior.

Establishes a foster parent critical support and retention program to retain foster parents who care for children who act out sexually, are physically assaultive, or have other high-risk behaviors. The foster parent critical support and retention program is to be implemented under the division of children and family services' contract and supervision. A contractor must demonstrate experience providing in-home case management to foster homes that are licensed through the division of children and family services.

Provides that, under the foster parent critical support and retention program, foster parents who care for children who act out sexually and/or physically or have other high-risk behaviors shall receive: (1) Twenty-four/seven emergency assistance;

(2) Assessment of risk and development of a safety and supervision plan;

(3) Home-based foster parent training utilizing evidence-based models;

(4) Ongoing support groups; and

(5) Referral to community services.

Appropriates the sum of two hundred seventy-five thousand dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the division

of children and family services for direct services for the purposes of this act.

Companion Bill: 3124

Authorizing a state distribution to cities and counties to mitigate the costs of state ferry traffic at route terminals.

Provides that, by January 31, 2007, and by January 31st of each year thereafter, the department shall certify to the state treasurer the total number of vehicles that have boarded Washington state ferries for each state ferry route for the prior calendar year. The state treasurer shall distribute an amount equal to twenty-five cents multiplied by the total number of vehicles loading and unloading from a state ferry for each ferry route to the city in which each ferry terminal facility is located, or to the county if the facility is located in an unincorporated area.

Provides that a city or county receiving a distribution under this section must use the money to defray capital or operating costs associated with state ferry traffic impacts on the community where the ferry terminal facility is located. The maximum amount a city or county can receive under this act is five hundred thousand dollars per Washington state ferry route.

SB 6751 by Senators Carrell, Benton, and Stevens

Authorizing the deferral of large property tax assessments.

Provides that a claimant may defer payment of that amount of real property taxes that exceeds six percent of the claimant's combined disposable income, but not to exceed two thousand five hundred dollars per year.

Declares that deferral of taxes under this act is subject to the following conditions: (1) The claimant must have owned, at the time of filing, the residence on which the real property taxes have been imposed. For purposes of this subsection, a residence owned by a marital community or owned by cotenants shall be deemed to be owned by each spouse or cotenant. A claimant who has only a share ownership in cooperative housing, a life estate, a lease for life, or a revocable trust does not satisfy the ownership requirement.

(2) The property taxes must have been imposed upon a residence that was occupied by the claimant as a principal place of residence.

(3) A deferral is not allowed for taxes levied in the first full calendar year in which the person owns the residence.

(4) The claimant must have and keep in force fire and casualty insurance in sufficient amount to protect the interest of the state in the claimant's equity value. If the claimant fails to keep fire and casualty insurance in force to the extent of the state's interest in the claimant's equity value, the amount deferred shall not exceed one hundred percent of the claimant's equity value in the land or lot only.

(5) The total amount of taxes deferred, including interest thereon, must not exceed eighty percent of the claimant's equity value in the residence.

SB 6752 by Senators Carrell and Benton

Deferring large property tax increases.

Finds that it has become increasingly difficult for many homeowners to pay the increased taxes resulting from rapid increases in valuation. The legislature intends to allow low and middle-income homeowners to defer payment of property taxes on their principal residences to the extent that tax increases exceed fifteen percent. The deferral program created in this act is intended to assist persons in maintaining their homes by easing the increases in tax.

Streamlining the administration of tax incentive programs.

Finds that the state's retail sales tax on construction discourages capital investment by new and existing Washington businesses. Without relief from the state's retail sales tax on construction, Washington businesses in certain sectors and areas will be adversely impacted. The legislature recognizes the importance of such businesses for employment and economic development in Washington state.

Reaffirms that policies providing tax incentives for manufacturing and research and development businesses in these distressed areas are essential to promote economic stimulation, economic growth, and new employment opportunities in these distressed areas.

Reaffirms that high-technology businesses are a vital and growing source of high-wage, high-skilled jobs in this state, and that the high-technology sector is a key component of the state's effort to encourage economic diversification. The legislature found that many high-technology businesses incur significant costs associated with research and development and pilot scale manufacturing many years before a marketable product can be produced, and that current state tax policy discourages the growth of these companies by taxing them long before they become profitable. The legislature reaffirms that stimulating growth of high-technology businesses early in their development cycle, when they are turning ideas into marketable products, will build upon the state's established high-technology base, creating additional research and development jobs and subsequent manufacturing facilities.

Reaffirms that state policies providing tax incentives for economic growth in the fruit and vegetable processing industry are essential.

Declares that tax incentives should be subject to the same rigorous requirements for efficiency and accountability as are other expenditure programs, and that tax incentives should therefore be focused to provide the greatest possible return on the state's investment.

SB 6765 by Senator Kastama

Creating the clean elections act.

Finds that our current election financing system: (1) Gives incumbents an unhealthy advantage over challengers;

(2) Hinders communication to voters by many qualified candidates;

(3) Undermines public confidence in the integrity of public officials;

(4) Drives up the cost of running for state office, discouraging otherwise qualified candidates who lack personal wealth or access to special interest funding; and

(5) Requires that elected officials spend too much of their time raising funds rather than representing the public.

Declares that this act, to be known as the Washington clean elections act, establishes an alternative campaign financing option available to candidates running for office. The alternative campaign financing program is funded entirely through voluntary donations made by individuals. The commission shall administer this chapter and the Washington clean elections account. Companion Bill: 3109

Addressing government performance and accountability.

Finds that: (1) An independent citizen advisory board is necessary to ensure that government services, customer satisfaction, program efficiency, and management systems are world class in performance. A citizen advisory board will ensure that efforts to improve performance are coordinated across state government and prioritized to prevent duplication of effort and achieve the highest value for taxpayer dollars; and

(2) Essential tools for improving the efficiency and effectiveness of government include fair, independent, and professional performance audits of state agencies, performance reviews, a performance-based budgeting process, and quality assessments.

Declares that the role of the citizen advisory board is to advise the governor on: (1) Improving state government efficiency and effectiveness, including best practices from public and private sectors;

(2) Ensuring that efforts to improve performance are coordinated and prioritized across state government to achieve the highest value for taxpayer dollars;

(3) Increasing the accountability of state government through effective communication to citizens;

(4) Ensuring that performance improvement efforts by state agencies, the state auditor, and the legislature are fair, independent, and professional; and

Finds that the number of asbestos-related claims has increased significantly in recent years and threatens the continued viability of one or more uniquely situated companies that have not ever manufactured, sold, or distributed asbestos or asbestos products, and are liable only as successor corporations. This liability has created an overpowering public necessity to provide an immediate, remedial, legislative solution.

Declares an intent that the cumulative recovery by all asbestos claimants from innocent successors be limited, and intends to simply change the form of asbestos claimants' remedies without impairing their substantive rights, and finds that there are no alternative means to meet this public necessity.

Finds that public interest as a whole is best served by providing relief to these innocent successors, so that they may remain viable and continue to contribute to this state.

SB 6779-S by Senate Committee on Water, Energy & Environment (originally sponsored by Senators Morton and Rasmussen)

Addressing special needs transportation services provided by rural public utility districts.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that a rural public utility district may operate or provide a demand responsive transportation system, within the district's limits, for qualified recipients.

Declares that, for the purposes of this act, the following definitions apply: (1) "Demand responsive transportation system" means any transportation system other than a transportation system that operates along a prescribed route according to a fixed schedule. A demand responsive transportation system includes services provided by taxis, limousines, vans, or shuttle buses. A demand responsive transportation system does not include ambulance service.

(2) "Disability" means an individual with a physical or mental impairment that substantially limits one or more of the major life activities such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, or working.

(3) "Qualified recipient" means any person, including his or her personal attendants, with a disability or who is at least sixty years of age, and who because of physical or mental disability, income status, or age is unable to transport himself or herself or to purchase appropriate transportation.

(4) "Rural public utility district" means a district located in a county with a population density of less than nine persons per square mile as determined by the office of financial management.

VETO MESSAGE ON SSB 6781

March 29, 2006

To the Honorable President and Members,
 The Senate of the State of Washington

Ladies and Gentlemen:

I am returning, without my approval, Substitute Senate Bill No. 6781 entitled:

This bill would provide sales and business tax incentives for environmental remediation actions.

Cleaning up historic contamination is usually a key step in the redevelopment of our urban lands. However, past tax incentives for environmental remediation did not measurably increase the number of cleanup actions. And for cleanup actions conducted by state agencies and local governments, this bill would inappropriately shift the cost burden from the dedicated toxics cleanup accounts to the state general fund.

For these reasons, I have vetoed Substitute Senate Bill No. 6781 in its entirety.

Respectfully submitted,
 Christine O. Gregoire
 Governor

Companion Bill: 3103

Authorizing state employees to express their professional opinions.

Finds that: (1) A workplace where state employees can feel free to express their professional opinions encourages an open and free exchange of ideas and knowledge and more efficient government;

(2) Scientific integrity in work by state employees is increasingly important as the issues the state faces are increasing in complexity; and

(3) Many professional licenses require license holders to express their professional opinions and make independent professional judgments in their work.

Provides that state employees may express their professional opinions in the workplace on topics within their scope of duties, even if those opinions differ from the agency's official position or their supervisor's opinions.

Provides that any retaliation, disciplinary action, or withholding of a promotion to a state employee because he or she expressed his or her professional opinion or refused to sign a document as provided for under this act is a violation of chapter 42.52 RCW.

 Modifying funding for local government passenger ferry service.

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires that, by August 1st, November 1st, February 1st, and May 1st of every year, the department of transportation shall notify the state treasurer in writing of the amount of state sales and use tax paid under chapters 82.08 and 82.12 RCW by the Washington state ferries on the purchase of fuel for the preceding calendar quarter. By September 1st, December 1st, March 1st, and June 1st of every year, the state treasurer shall transfer an amount equal to the amount indicated by the department in their notification to the treasurer into the passenger ferry account created in RCW 47.60.645.

Requires that, by April 1, 2007, the department shall sell or otherwise dispose of the Washington state ferries Snohomish and Chinook for market value and deposit the proceeds of the sales into the passenger ferry account established under RCW 47.60.645.

Requires that, by April 1, 2007, the department shall sell or otherwise dispose of the Washington state ferries Skagit and Kalama for market value or offer the ferries as a grant to a Washington state public transportation benefit area or county for use on a ferry system operated by the recipient. Proceeds from the sale of the ferries shall be deposited in the passenger ferry account established under RCW 47.60.645.

SB 6787-S by Senate Committee on Ways & Means (originally sponsored by Senators Rockefeller, Poulsen, Haugen, and Oke)

Providing funding for local government passenger ferry service.

(DIGEST AS ENACTED)

Requires that, by October 31, 2006, the department of transportation shall have an independent appraisal of the market value of the Washington state ferries Snohomish and Chinook and present it to the transportation committees of the legislature and the governor by November 1, 2006. The department of transportation shall sell or otherwise dispose of the Washington state ferries Snohomish and Chinook for market value and deposit the proceeds of the sales into the passenger ferry account created in RCW 47.60.645 as soon as practicable upon approval by the governor of the business plan described in RCW 36.54.110(5).

Requires the department to maintain the level of service existing on January 1, 2006, for the Vashon to Seattle passenger-only ferry route until such time as the legislature approves a county ferry district's assumption of the route, as authorized under RCW 36.54.110(5), providing a level of service at or exceeding the state level.

Directs the Washington state ferry system to collaborate with new and potential passenger-only ferry service providers, as described in RCW 36.54.110(5), for terminal operations at its existing terminal facilities.

Provides that the office of financial management shall contract to develop a back-up plan for operating the Vashon to Seattle passenger-only ferry route existing on January 1, 2006, that does not include operations by state government.

Provides that a county with a population greater than one million persons and having a boundary on Puget Sound, or a county to the west of Puget Sound with a population greater than two hundred thirty thousand but less than three hundred thousand persons, proposing to create a ferry district to assume a passenger-only ferry route between Vashon and Seattle, including an expansion of that route to include Southworth, shall first receive approval from the governor after submitting a complete business plan to the governor and the legislature by November 1, 2006.

Provides that a public transportation benefit area seeking funding for a passenger-only ferry route between Kingston and Seattle shall first receive approval from the governor after submitting a complete business plan to the governor and the legislature by November 1, 2006. The business plan must, at a minimum, include hours of operation, vessel needs, labor needs, proposed routes, passenger terminal facilities, passenger rates, anticipated federal and local funding, coordination with Washington state ferry system, coordination with existing transit providers, long-term operation and maintenance needs, and long-term financial plan.

(SUBSTITUTED FOR - SEE 2ND SUB)

Designates roles and responsibilities with respect to the treatment of persons with mental disorders.

Declares that the legislature did not intend to create statutory causes of actions for regional support networks with the provisions of chapters 71.05 and 71.24 RCW. The purpose of this act is to make retroactive, remedial, curative, and technical amendments in order to resolve any ambiguity about the legislature's intent prior to September 9, 2005.

SB 6793-S2 by Senate Committee on Ways & Means (originally sponsored by Senators Hargrove, Brown, Brandland, McAuliffe, Thibaudeau, Rockefeller, and Rasmussen)

(DIGEST AS ENACTED)

Designates roles and responsibilities with respect to the treatment of persons with mental disorders.

Finds that ambiguities have been identified regarding the responsibilities of the department of social and health services and the regional support networks with regard to the provision of inpatient mental health services under the community mental health services act, chapter 71.24 RCW, and the involuntary treatment act, chapter 71.05 RCW. The purpose of this 2006 act is to make retroactive, remedial, curative, and technical amendments in order to resolve such ambiguities.

Declares that, in enacting the community mental health services act, the legislature intended the relationship between the state and the regional support networks to be governed solely by the terms of the regional support network contracts and did not intend these relationships to create statutory causes of action not expressly provided for in the contracts. Therefore, the legislature's intent is that, except to the extent expressly provided in contracts entered after the effective date of this act, the department of social and health services and regional support networks shall address disagreements regarding the subject matter identified in sections 103 and 401 of this act through nonjudicial means.

SB 6796 by Senators Eide, Honeyford, Mulliken, and Rasmussen

Providing tax exemptions for amenities purchased by lodging businesses for use by guests.

Provides tax exemptions for amenities purchased by lodging businesses for use by guests.

Finds that, in October 2004, the court of appeals held in the *Mayflower Park Hotel* decision that hotels are not entitled to a resale exemption for tangible personal property which they purchase for the exclusive use and consumption of guests. A regulation of the department of revenue (WAC 458-20-166) reaches the same conclusion.

Finds that the court's decision and the department's regulation are inconsistent with the sales tax resale exemption and inconsistent with the way other similarly situated taxpayers are taxable under the same subsection of the law. Therefore, the legislature intends to overturn the *Mayflower Park Hotel* decision and departmental regulation and grant the lodging industry the resale exemption.

SB 6803 by Senator Benson

Concerning hunter education.

Provides that, in addition to any program in existence on the effective date of this section, the director shall, by December 1, 2006, establish a program for the training of persons in the safe handling of firearms, conservation, and sportsmanship. Upon successful completion of a course of instruction under this program, a trainee must receive a hunter education certificate signed by an authorized instructor. The certificate is evidence of compliance with this act.

Requires that, in establishing the program under this act, the director must prescribe procedures for the certification of instructors, approval of instruction methods, and approval of course materials.

Authorizes instructors certified under the program established under this act to profit from the teaching of hunter education courses. Fees charged under the program may not exceed fifty dollars per person, per course.

Provides that, by December 1, 2006, the director shall provide a report to the appropriate policy and fiscal committees of the senate and house of representatives detailing the substance and status of the program established under this act.

SB 6809 by Senator Keiser

Increasing resident participation in the informal dispute resolution process under chapters 18.20 and 18.51 RCW.

Provides that, whenever the department conducts an informal dispute resolution process with the nursing home provider, following a licensing or certification survey or a complaint investigation, the department shall provide an opportunity for input from interested residents and resident representatives. This input must be provided in a meeting, conducted either by telephone or in person, that is separate from the department's meeting with the nursing home provider. The term "resident representatives" means those individuals with authority to act on behalf of residents with diminished capacity, including guardians, trustees, agents holding durable power of attorney, and family members with authority under RCW 7.70.065. Representatives of the long-term care ombudsman program may also provide input at the request of residents, their representatives, or the department.

Concerning temporary management in boarding homes.

(SEE ALSO PROPOSED 1ST SUB)

Provides that, if the department determines that the health, safety, or welfare of residents is immediately jeopardized by a boarding home's failure or refusal to comply with the requirements of chapter 18.20 RCW or the rules adopted under this chapter, and the department summarily suspends the boarding home license, the department may appoint a temporary manager of the boarding home, or the licensee may, subject to the department's approval, voluntarily participate in the temporary management program.

Declares that the purposes of the temporary management program are as follows: (1) To mitigate dislocation and transfer trauma of residents while the department and licensee pursue dispute resolution or appeal of a summary suspension of license;

(2) To facilitate the continuity of safe and appropriate resident care and services;

(3) To protect the health, safety, and welfare of residents by providing time for an orderly closure of the boarding home, or for the deficiencies that necessitated temporary management to be corrected; and

(4) To preserve a residential option that meets either a specialized service need or is in a geographical area that has a lack of available providers, or both.

SB 6810-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senator Keiser)

Concerning temporary management of boarding homes.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, when the department has summarily suspended a license, the licensee may, subject to the department's approval, elect to participate in a temporary management program. All provisions of this act apply. The purposes of a temporary management program are: (1) To mitigate dislocation and transfer trauma of residents while the department and licensee pursue dispute resolution or appeal of a summary suspension of license;

(2) To facilitate the continuity of safe and appropriate resident care and services;

(3) To preserve a residential option that either meets a specialized service need or is in a geographical area that has a lack of available providers, or both; and

SB 6841 by Senators Stevens and Hargrove

Companion Bill: 3152

Establishing the family assessment response demonstration program.

Declares an intent to establish an alternative, flexible approach to responding to allegations of child maltreatment in low-risk families who do not present immediate child safety concerns. This differential response is intended to reduce disruption to families and improve child safety by assessing a family's needs, engaging the family's protective capacities, and providing appropriate services to prevent future maltreatment.

Directs the Washington state institute for public policy to study the family assessment response demonstration program and report to the legislature by January 31, 2009. In consultation with the department, the institute shall define the data to be gathered and maintained for the purpose of the study. At a minimum, the study must review child safety outcomes and rereferrals to child protective services.

SB 6847 by Senator Finkbeiner

Reducing certain unfunded state retirement system liabilities.

Recognizes that returns on the investment of retirement plan assets are volatile, and market volatility is reflected in variations in the funded status of the state retirement plans over time. The legislature also recognizes that the long-term liability in the plans 1 of the public employees' retirement system and the teachers' retirement system remains independent from short-term investment returns in the market. The legislature seeks to avoid contribution rate volatility that may unfairly benefit or burden particular groups of taxpayers with disproportionate responsibilities for retiring the unfunded liability in the plans 1.

Declares an intent to provide for the systematic payment of the plans' 1 unfunded liability in a manner that promotes contribution rate adequacy and stability for the affected systems over time.

SB 6853 by Senators Haugen and Benson; by request of Department of Transportation

Modifying phase three procurement provisions for design-build ferries.

(SUBSTITUTED FOR - SEE 1ST SUB)

Provides that best and final proposals shall be evaluated and scored based on the factors, weighting, and process identified in the initial request for proposals. Final proposals may not be considered if the proposal cost is greater than the maximum allowable construction cost identified in the initial request for proposals. Evaluation factors shall include, but not be limited to: Proposal price; ability of professional personnel; past performance on similar projects; ability to meet time and budget requirements; ability to provide a performance and payment bond for the project; recent, current, and projected work loads of the shipyard; location; and the concept of the proposal.

Directs the department to initiate negotiations with the firm submitting the highest scored best and final proposal. If the department is unable to execute a contract with the shipyard submitting the highest scored best and final proposal, negotiations with that firm may be suspended or terminated, and the public body may proceed to negotiate with the next highest scored shipyard. The department shall continue in accordance with this procedure until a contract agreement is reached or the selection process is terminated.

SB 6853-S by Senate Committee on Transportation (originally sponsored by Senators Haugen and Benson; by request of Department of Transportation)

Modifying vessel procurement provisions for design-build ferries.

(AS OF SENATE 2ND READING 2/11/06)

Declares that the 2001 legislature found that a contracting procedure that facilitates construction of transportation facilities in a more timely manner may occasionally be necessary to ensure that construction can proceed simultaneously with the design of the facility. The legislature further found that the design-build process and other alternative project delivery concepts achieve the goals of time savings and avoidance of costly change orders.

Finds that the audit, conducted by Talbot, Korvola & Warwick in 2001, of the state ferries' capital program resulted in a recommendation for improvements and changes in ferry procurement processes. The auditors recommended that ferries be procured through use of a modified request for proposals process whereby the prevailing shipbuilder and Washington state ferries engage in a design and build partnership. This process promotes ownership of the design by the shipbuilder while using the department of transportation's expertise in ferry design and

operations. Alternative processes like design-build partnerships promote innovation and create competitive incentives that increase the likelihood of finishing projects on time and within the budget.

Declares that the purpose of this 2006 act is to modify the request for proposals process for procurement of ferries, authorize the use of best value determinations, and to prescribe appropriate requirements and criteria to ensure that contracting procedures serve the public interest.

SB 6862 by Senator Pridemore

Companion Bill: 2600

Requiring construction contractors to display their licenses and certificates.

Finds that dishonest construction contractors sometimes hire persons without proper licensing and certification to do electrical, plumbing, and conveyance work. This practice gives honest contractors an unfair competitive disadvantage and leaves workers and customers vulnerable. Requiring persons with proper licensing and certification to visibly display their licenses and certificates while doing such work will help address the problems of the underground economy in the construction industry, level the playing field for honest contractors, and protect workers and consumers.

Requires certificate holders to wear and visibly display their certificates while engaging in the electrical construction trade. A certificate holder need not wear and visibly display his or her certificate if doing so would create a danger or unsafe condition for the certificate holder or for the public, as long as the certificate holder can demonstrate proof of his or her certificate to electrical inspectors appointed by the director of labor and industries and by the officials of incorporated cities and towns where electrical inspections are required by local ordinances.

Requires licensees to wear and visibly display their licenses while performing conveyance work. A licensee need not wear and visibly display his or her license if doing so would create a danger or unsafe condition for the licensee or for the public, as long as the licensee can demonstrate proof of his or her license to an elevator inspector of the department or an elevator inspector of a municipality having in effect an elevator ordinance under RCW 70.87.200.

Finds that the number of unrequested solicitations to residents for credit cards is a cause for concern and consider them to be a violation of the consumer protection laws of Washington state.

Finds that rising interest rates on credit cards regularly far exceed the state usury limit. The legislature finds many of the credit card industry's practices and interest rates to be unethical. The legislature intends to tax the amounts raised by interest rates that exceed the usury rate at a higher tax rate. The additional tax revenues shall be deposited into the vocational education enhancement account.

Authorizing fuel tax contracts between Indian tribes and the state.

Declares an intent to further the government-to-government relationship between the state of Washington and Indians in the state of Washington by authorizing the governor to enter into

contracts concerning the sale of motor vehicle fuels and special fuels.

Finds that these tax contracts will provide a means to address critical transportation and law enforcement needs in Indian country, and provide needed revenues for tribal governments and Indian persons, and enhance enforcement of the state's fuel tax laws, ultimately saving the state money and reducing conflict.

Allowing a business waiver to smoking prohibitions.

Provides that, if the owner of a place of employment can document, using documents filed with the state department of revenue, a loss of ten percent or more of the gross revenue for the first quarter of 2006 versus the first quarter of 2005, it may apply to the department of health for a waiver of RCW 70.160.030. If the owner can show a decline of ten percent or more and the other requirements under this act are met, the waiver must be granted. The waiver must be granted for the entire building if minors are prohibited from the entire premises as required by liquor control board rules or for a section of the building such as a smoking room if the entire premises are not completely off limits to minors as required by liquor control board rules.

Declares that all waivers granted under this act become null and void when all tribal casinos in the state are deemed fully nonsmoking by the department.

Providing for the care and education of children in licensed staffed residential homes.

Finds that staffed residential homes, as currently licensed by the department of social and health services, are a type of group-care facility that provides quality services for children in a home-like setting, including expectant mothers and children with developmental disabilities.

Finds that the children served by licensed staffed residential homes primarily attend public schools, and that their social and educational needs can be better met by collaboration and communication between the school district, the staffed residential home provider, and the department of social and health services.

Finds that community integration of children served in licensed staffed residential homes is beneficial to the children, helpful to their educational needs, and builds stronger relationships with community members.

Declares an intent that stronger relationships be created between staffed residential homes, school districts, the department of social and health services, and the community, to promote positive social and educational outcomes for children served by staffed residential homes.

SB 6888 by Senator Kastama

Encouraging shared parental responsibility in child custody arrangements.

Provides that there shall be a presumption that shared parental responsibility is in the best interests of children unless: (1) The parents have agreed to an alternate award of residential placement or decision-making authority to only one parent;

(2) The limitations of RCW 26.09.191 are dispositive of the child's residential schedule; or

(3) The court finds that shared parental responsibility would be detrimental due to the age or needs of the child or children.

Directs the administrative office of the courts, pursuant to funding provided specifically for this purpose, to commission a study to commence by September 1, 2006. The study shall survey a statistically relevant number of geographically diverse final parenting plans in Washington to determine the allocation of residential time as between parents, including an analysis of gender disparities between parents, and the impact of legal counsel on outcomes of parenting plan disputes. The study shall be completed and a report provided to the legislature, the governor, and to the public within two years of the effective date of this act.

Providing continuing coverage for medicare part D beneficiaries.

Provides that, only to the extent that funds are appropriated for this purpose, the department shall provide drug benefits to a full-benefit dual eligible beneficiary who is not able to obtain drug benefits from his or her medicare drug plan only when one or more of the following conditions are met: (1) The pharmacy has submitted a claim for the provision of drug benefits to the full-benefit dual eligible beneficiary's medicare drug plan and the claim has been denied payment for reasons other than processing errors or omissions made by the pharmacy, lack of medical necessity, or health or safety reasons.

(2) The pharmacy is unable to submit a claim for the provision of drug benefits solely due to the unavailability of complete or accurate medicare drug plan enrollment information from the full-benefit dual eligible beneficiary's medicare drug plan, the federal centers for medicare and medicaid services, or entities under contract with the centers for medicare and medicaid services to provide enrollment information.

(3) The medicare drug plan provides information that the full-benefit dual eligible beneficiary's deductible or copayment amount is higher than the copayment amounts that are established by medicare for full-benefit dual eligible beneficiaries.

(4) The full-benefit dual eligible beneficiary cannot pay, in whole or in part, the copayment amounts that are established by medicare for full-benefit dual eligible beneficiaries.

SB 6892 by Senators Prentice, Esser, Fraser, Brandland, Kohl-Welles, Rasmussen, and Oke

Creating the 2006 Seahawks championship account.

(SEE ALSO PROPOSED 1ST SUB)

Creates the 2006 Seahawks championship account in the custody of the state treasurer. The account is established to celebrate the 2006 Seahawks season by matching private donations with state funds for the purpose of funding youth athletic fields. All receipts for this purpose from donations by representatives of the owners of the Seattle Seahawks, any member of the team, or any organization or person that considers themselves a Seahawks fan or anyone who has ever referred to himself or herself as a "twelfth man" or "twelfth woman" must be deposited into the account.

Provides that, at the end of each fiscal year, the treasurer must transfer an amount equal to the amount of donations received by the account for that year, plus an equal amount of state funds from within available funds appropriated to the account, to the youth athletic facility account established in this act.

Provides that, after the transfer at the end of fiscal year 2008, the treasurer shall transfer any remaining amounts in the 2006 Seahawks championship account to the general fund, and the account shall be abolished.

Appropriates the sum of ten million dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2007, from the general fund to the 2006 Seahawks victory account for the purposes of this act.

SB 6902 by Senators Rasmussen and Brandland

Granting immunity from civil liability to health care providers during an emergency or disaster.

Declares that in response to recent national and international disasters, it is the legislature's intent to ensure during times of state and local emergencies and disasters every health care resource available to the state is utilized.

Recognizes one of its most important resources during such times is the availability of in-state and out-of-state volunteer health care providers, specifically physicians, physician assistants, and other health care providers with extensive primary care training.

Recognizes that such providers are often reluctant to volunteer their services out of fear they may be found liable for their acts or omissions while assisting those in need during an emergency or disaster. As a way to ensure the maximum number of volunteer health care providers are available during an emergency or disaster, the legislature intends to grant immunity from civil liability to all such providers who provide emergency, medical, or other health care during emergency or disaster situations.
