"NEW SECTION. Sec. 1. (1) It is the legislature's intent to encourage immediate investments in technology facilities that can provide an economic stimulus, sustain long-term jobs that provide living wages, and help build the digital infrastructure that can enable the state to be competitive for additional technology investment and jobs.

(2) There is currently an intense competition for data center construction and operation in many states including: Oregon, Arizona, North and South Carolina, North Dakota, Iowa, Virginia, Texas, Utah, and Illinois. Unprecedented incentives are available as a result of the desire of these states to attract investments that will serve as a catalyst for additional clusters of economic activity.

(3) Since the economic downturn, Washington has not succeeded in attracting any private investments in these centers after siting six major data centers between 2004 and 2007.

(4) Data center technology has advanced rapidly, with marked increases in energy efficiency. Large, commercial-grade data centers leverage the economies of scale to reduce energy consumption. Combining digitized processes with the economies of scale recognized at these data centers, today's enterprises can materially reduce the energy they consume and greatly improve their efficiency.

(5) The legislature finds that a twenty-seven month window that offers an opportunity to seek a tax deferral on server and related electrical equipment and installation will act as a stimulus to incent immediate investment. This investment will bring jobs, tax revenues, and economic growth to some of our states rural areas and counties that have unemployment above the statewide average.

NEW SECTION. Sec. 2. A new section is added to chapter 82.32 RCW to read as follows:

(1) A qualifying business may apply for deferral of taxes of eligible server equipment to be installed, without intervening use, in an eligible computer data center, and to charges made for labor and services rendered in respect to installing eligible server equipment. The deferral of taxes also applies to sales to qualifying businesses of eligible power infrastructure, including labor and services rendered in respect to constructing, installing, repairing, altering, or improving eligible power infrastructure. The application shall contain information regarding the location of the project, estimated or actual costs of the project, time schedules for completion and operation of the project, and other information required by the department. The department shall rule on the application within sixty days. All applications for deferral under this section must be received no later than July 1, 2012.

(2) The department shall issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW.

(3) A qualifying business claiming the deferral under this section must present the seller with a deferral certificate in a form and manner prescribed by the department. The seller must retain a copy of the certificate for the seller's files.

(4) A qualifying business shall begin paying the deferred taxes in the fifth year after the date certified by the department as the date on which the eligible project is operationally complete. The first payment is due on December 31st of the fifth calendar year after such certified date, with subsequent annual payments due on

2010 1ST SPECIAL SESSION

December 31st of the following nine years. Each payment shall equal ten percent of the deferred tax.

(5) Except as provided in subsection (6) of this section, interest shall not be charged on any taxes deferred under this section for the period of deferral. The debt for deferred taxes is not extinguished by insolvency or other failure of the qualifying business.

(6) If the project is not operationally complete within five calendar years from issuance of the tax deferral or if at any time the department finds that the project is not eligible for tax deferral under this section, the amount of deferred taxes outstanding for the project shall be immediately due and payable. If deferred taxes must be repaid under this subsection, the department shall assess interest, but not penalties, on amounts due under this subsection. Interest shall be assessed at the rate provided for delinquent taxes under this chapter, retroactively to the date of deferral, and shall accrue until the deferred taxes are repaid.

(7) A qualifying business claiming a deferral under this section must complete an annual report with the department as required under section 103, chapter . . . , Laws of 2010 (Substitute House Bill No. 3066).

(8)(a) The deferral provided in this section does not apply to:

The construction of a computer data center includes the expansion, renovation, or other improvements made to existing facilities, including leased or rented space. (h) "Server equipment" means the server chassis and all computer hardware contained within the server chassis. "Server equipment" also includes computer software necessary to operate the server. "Server equipment" does not include the racks upon which the server chassis is installed, and computer peripherals such as keyboards, monitors, printers, mice, and other devices that work outside of the computer.

(10) This section expires July 1, 2027.
