By Senators Rivers, Keiser, King, Kuderer, Lovick, Nobles, Padden, Pedersen, Rolfes, Wagoner, Warnick, and Wellman

WHEREAS, Many Washington citizens have literally given the gift of life by donating organs, eyes, and tissues; and

WHEREAS, It is essential that all citizens are aware of the opportunity to save and heal the lives of others through organ, eye, and tissue donation and transplantation; and

WHEREAS, There are nearly 107,000 courageous Americans awaiting a lifesaving organ transplant, with 20 individuals losing their lives every day because of the shortage of organs for transplant; and

WHEREAS, Every 10 minutes, a person is added to the national organ transplant waiting list; and

WHEREAS, One organ donor can save the lives of up to eight people and heal many more through cornea and tissue donation; and

WHEREAS, Families receive comfort through the grieving process with the knowledge that through organ, eye, and tissue donation, another person's life has been saved or healed; and

WHEREAS, Organ donation offers transplant recipients a second chance at life, enabling them to be with their families and maintain a higher quality of life; and

WHEREAS, The families of organ, eye, and tissue donors

receive gratitude from grateful recipients whose lives have been saved by transplantation; and

WHEREAS, The example set by those who choose to donate reflects the character and compassion of these individuals, whose voluntary choice saves the lives of others; and

WHEREAS, Donate Life America has designated April as National Donate Life Month;

NOW, THEREFORE, BE IT RESOLVED, That the Washington State Senate honor April as National Donate Life Month to remember those who have donated, and celebrate the lives of the recipients.

MOTION

Senator Short moved that the following amendment no. 1090 by Senator Short be adopted:

On page 30, after line 26, insert the following:

"**Sec. 13.** RCW 70A.65.170 and 2021 c 316 s 19 are each amended to read as follows:

(1) The department shall adopt by rule the protocols for establishing offset projects and securing offset credits that may be used to meet a portion of a covered or opt-in entity's compliance obligation under chapter 316, Laws of 2021. The protocols adopted by the department under this section must align with the policies of the state established under RCW 70A.45.090 and 70A.45.100.

(2) Offset projects must:

(a) Provide direct environmental benefits to the state or be located in a jurisdiction with which Washington has entered into a linkage agreement;

(b) Result in greenhouse gas reductions or removals that:

(i) Are real, permanent, quantifiable, verifiable, and enforceable; and

(ii) Are in addition to greenhouse gas emission reductions or removals otherwise required by law and other greenhouse gas emission reductions or removals that would otherwise occur; and

(c) Have been certified by a recognized registry (~~after July 25, 2021, or within two years prior to July 25, 2021~~).

(3)(a) A total of no more than five percent of a covered or opt-in entity's compliance obligation during the first compliance period may be met by transferring offset credits. During these years, at least 50 percent of a covered or opt-in entity's compliance obligation satisfied by offset credits must be sourced from offset projects that provide direct environmental benefits in the state.

(b) A total of no more than four percent of a covered or opt-in entity's compliance obligation during the second compliance period may be met by transferring offset credits. During these years, at least 75 percent of a covered or opt-in entity's compliance obligation satisfied by offset credits must be sourced from offset projects that provide direct environmental benefits in the state. The department may reduce the 75 percent requirement if it determines there is not sufficient offset supply in the state to meet offset demand during the second compliance period.

(c) The limits in (a) and (b) of this subsection may be modified by rule as adopted by the department when appropriate to ensure achievement of the proportionate share of statewide emissions limits established in RCW 70A.45.020 and to provide for alignment with other jurisdictions to which the state has linked.

(d) The limits in (a) and (b) of this subsection may be reduced for a specific covered or opt-in entity if the department determines, in consultation with the environmental justice council, that the covered or opt-in entity has or is likely to:

(i) Contribute substantively to cumulative air pollution burden in an overburdened community as determined by criteria established by the department, in consultation with the environmental justice council; or

(ii) Violate any permits required by any federal, state, or local air pollution control agency where the violation may result in an increase in emissions.

(e) An offset project on federally recognized tribal land does not count against the offset credit limits described in (a) and (b) of this subsection. No more than three percent of a covered or opt-in entity's compliance obligation may be met by transferring offset credits from projects on federally recognized tribal land during the first compliance period. No more than two percent of a covered or opt-in entity's compliance obligation may be met by transferring offset credits from projects on federally recognized tribal land during the second compliance period.

(4) In adopting protocols governing offset projects and covered and opt-in entities' use of offset credits, the department shall:

(a) Take into consideration standards, rules, or protocols for offset projects and offset credits established by other states, provinces, and countries with programs comparable to the

program established in this chapter;

(b) Encourage opportunities for the development of offset projects in this state by adopting offset protocols that may include, but need not be limited to, protocols that make use of aggregation or other mechanisms to reduce transaction costs related to the development of offset projects and that support the development of carbon dioxide removal projects;

(c) Adopt a process for monitoring and invalidating offset credits as necessary to ensure the credit reflects emission reductions or removals that continue to meet the standards required by subsection (1) of this section. If an offset credit is invalidated, the covered or opt-in entity must, within six months of the invalidation, transfer replacement credits or allowances to meet its compliance obligation. Failure to transfer the required credits or allowances is a violation subject to penalties as provided in RCW 70A.65.200; and

(d) Make use of aggregation or other mechanisms, including cost-effective inventory and monitoring provisions, to increase the development of offset and carbon removal projects by landowners across the broadest possible variety of types and sizes of lands, including lands owned by small forestland owners.

(5) Any offset credits used (~~may not~~) must:

(a) Not be in addition to or allow for an increase in the emissions limits established under RCW 70A.45.020, as reflected in the annual allowance budgets developed under RCW 70A.65.070;

(b) Have been issued for reporting periods wholly after the effective date of this section or within two years prior to the effective date of this section; and

(c) Be consistent with offset protocols adopted by the department.

(6) The offset credit must be registered and tracked as a compliance instrument.

(7) Beginning in 2031, the limits established in subsection (3) of this section apply unless modified by rule as adopted by the department after a public consultation process."

On page 1, beginning on line 3 of the title, after "70A.65.010," strike "and 70A.65.140" and insert "70A.65.140, and 70A.65.170"

Senators Short and Carlyle spoke in favor of adoption of the amendment.
